Mon. Thus. R. Farence, Deputy Commissioner of Highways:

Dean Sus—In connection with the application of R. L. Williams, in behalf of Mr. William Zingler, for a change of grade on the property known as the Martense Farm, bounded by Fort Handlom archive. Thirty-seventh streat, Pitteesth arcsine and Fornieth street, I have carefully examined the proposed changes and have normalised with the Engineer of the Sewer Department if they would in any way affect the plans for severings. I find that they will not; that the changes asked for are very slight, and would in no way interfere with the surface drainage or the grading of the street, and I would therefore recommend that the application be favorably considered.

Respectfully.

Respectfully,

City of New York-Borough of Brooklyn, Department of Highways, APRIL 15, 1898.

Hon. Enward M. Grout, President of the Borough of Breeklyn, City of Mese York:

Draw Sur—In reply to that part of your letter of the 13th inst, which refers to the contemplated shange of grade in Dagraw street, between Nastrand avenue and New York avenue, I have to my that the Englance of this Department reports that the necessity for a change scene to have aris a from the fact that a sewer less been built in this street is accordance with the grade at that time legal, but subsequently changed. The grade as more changed will leave acanty covering over the never, and white there would be subsected full on this black for a straight grade running from New York avenue to Normand ascence, it would seem, in justice to property-owners who have been assessed for this sewer built by the City, that the change asked for should be permitted.

Respectfully,

THOMAS R. FARRELL, Deputy Commissioner of Highways.
