PETITIONS AND COMMUNICATIONS.

No. 759.

New York, May 10, 1908.

At the regular meeting of the Central Federated Union, held on the above date, the following preamble and resolution was indorsed:

Whereas, The New York, New Haven and Hartford Railroad Company are erecting many highway bridges over their right of way in the Borough of The Bronx with non-union and non-resident workmen, who work for less than the recognized prevailing rate, which tends to lower the American standard of living, though the approaches of the bridges are paid for by The City of New York; and

Whereas, The New York, New Haven and Hartford Railroad Company have acquired the franchise of the New York and Port Chester Railroad, which was supposed at the time the franchise was granted to be a competing line; therefore, be it

Resolved, That we hereby request the Board of Estimate and Apportionment to take the necessary action to forfeit or cause to be forfeited all the rights of the said New York and Port Chester Railroad Company, and a copy of these resolutions be sent to the Board of Estimate and Apportionment and the Board of Aldermen.

Very truly,

ERNEST BOHM, Corresponding Secretary.

Which was referred to the Committee on Railroads.

No. 760.

State of New York,
Public Service Commission for the First District,
Tribune Building, No. 154 Nassau Street,
New York, May 18, 1908.

To the Honorable the Board of Aldermen of The City of New York, City Hall, Manhattan:

Sirs—The Public Service Commission for the First District is in receipt of a copy of the following resolution adopted by your Honorable Body on April 28, 1908:

“Whereas, The condition of the streets between and surrounding the tracks on Water street, from Fulton street to Washington street, Borough of Brooklyn, and also Front street, from Fulton street to Adams street, Borough of Brooklyn, and which are dangerous for vehicles to travel through;

“Whereas, The railroad companies have long neglected making repairs on these streets, as required by law; be it

“Resolved, That the Board of Aldermen do hereby request the Public Service Commission to notify the railroad companies operating on above named streets that said railroad companies be instructed to make the necessary repairs immediately between the tracks, as required by law.”

The Commission is advised by Counsel that upon the facts stated in the resolution and under section 98 of the Railroad Law and sections 45 and 383 of the Greater New York Charter, the duty of requiring these street railroad corporations to repair that portion of the streets used by them between their tracks, the rails of their tracks and two feet in width outside of their tracks, rests with the President of the Borough of Brooklyn, and that it would be better to withhold any order of the Commission until the President of the Borough of Brooklyn has exercised his authority by requiring the repairs to be made in such manner as he may prescribe. If the companies fail to comply, the Commission may then take necessary action.

Section 98 of the Railroad Law referred to above provides as follows: “Every street surface railroad corporation so long as it shall continue to use any of its tracks in any street * * * shall have and keep in permanent repair that portion of such street * * * between its tracks, the rails of its tracks, and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe.”

Section 383 of the Greater New York Charter provides that the Borough President is the proper local authority referred to in said section 98 of the Railroad Law.

Very truly yours,

W. R. WILLCOX, Chairman.

Which was ordered on file.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment May 15, 1908, recommending the establishment of position of Supervising Electrical Engineer in the Department of Water Supply, Gas and Electricity, with salary at the rate of \$5,000 per annum, for one incumbent, together with report of the Comptroller relative thereto.

I also enclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,
JOSEPH HAAG, Secretary.

May 11, 1908.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—Transmitted herewith is a report of the Bureau of Municipal Investigation and Statistics of this Department, dated May 11, 1908, relative to the request of the Commissioner of Water Supply, Gas and Electricity, made on February 13, 1908, for the establishment of the position of Supervising Electrical Engineer at a salary of \$5,000 per annum, for one incumbent, which matter was referred to a Select Committee consisting of the Comptroller and the President of the Board of Aldermen.

In view of the facts contained in said report the adoption of the resolution attached hereto is recommended.

Yours respectfully,
H. A. METZ,
 Comptroller;
P. F. MCGOWAN,
 President, Board of Aldermen,
 Select Committee.

May 11, 1908.

Hon. HERMAN A. METZ, Comptroller:

Sir—In the matter of the communication addressed to the Board of Estimate and Apportionment by the Commissioner of Water Supply, Gas and Electricity on February 13, 1908, requesting the establishment in that Department of the position of Supervising Electrical Engineer, at a salary of \$5,000 per annum, for one incumbent, which communication was, on March 6, 1908, referred to a Select Committee, consisting of the Comptroller and the President of the Board of Aldermen, and by you assigned to the Bureau of Municipal Investigation and Statistics for examination, I beg to submit the following report:

The Budget for 1908 makes the following provisions for the high-pressure fire service:

BOROUGH OF MANHATTAN AND THE BRONX.

Salaries and Wages	\$15,516 00
Maintenance, Repairs and Supplies	10,000 00
Reservation of Machinery and Current	75,000 00
	<hr/> \$100,516 00

BOROUGH OF BROOKLYN.

Salaries and Wages	\$35,000 00
Supplies and Contingencies	60,000 00
Reservation of Machinery and Current	43,920 00
	<hr/> 138,920 00

Total	<hr/> \$239,436 00
-----------------	--------------------

For the purpose of properly administering this important branch of the City service the Commissioner of Water Supply, Gas and Electricity deems it necessary to appoint a Supervising Electrical Engineer, at a salary of \$5,000 per annum. Your Examiner learns from the Chief Engineer of that Department that there is no Electrical Engineer on his staff who can be relieved of his present duties and assigned to the high-pressure fire service; nor can the duties of the proposed new position be merged with those of any of the present staff.

In view of the important character of the work which the high-pressure fire service entails, and for which nearly a quarter of a million dollars has been appropriated for the year 1908, and for the reasons set forth so forcibly by the Commissioner of Water Supply, Gas and Electricity in his communication addressed to the Board of Estimate and Apportionment under date of February 13, 1908, supplemented by his letter of the 6th inst. to the Comptroller, your Examiner is of the opinion that the request for the establishment in that Department of the position of Supervising Electrical Engineer, at \$5,000 per annum, for one incumbent, should be granted.

Yours respectfully,
 (Signed) **CHAS. S. HERVEY,**
 Supervising Statistician and Examiner.

Whereas, The Board of Estimate and Apportionment at a meeting held May 15, 1908, adopted the following resolution:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the position of Supervising Electrical Engineer in the Department of Water Supply, Gas and Electricity, with salary at the rate of five thousand dollars (\$5,000) per annum, for one incumbent.

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

Which was referred to the Committee on Salaries and Offices.

The President laid before the Board the following communication from the President, Borough of The Bronx:

No. 764.

The City of New York,
 Office of the President of the Borough of The Bronx,
 New York, May 12, 1908.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—Referring to my letter of April 23, 1908, recommending that the Board of Aldermen authorize additional Revenue Bonds of \$5,000 for emergent sewer repairs on the sewer in Whitlock avenue and Bancroft street, and of the sewer in Tiffany street, in which request was made for additional special Revenue Bonds in the sum of \$5,000. It appears that since the request was made, as per my letter above referred to, there has been still further damage done to the sewers, and every large storm adds to the injury, the last storm causing a considerable amount of brick work to fall in, which we had expected would not have to be removed. From the report made by the Assistant Engineer in Charge of Sewers on this subject, it appears that the amount heretofore provided and asked for will be insufficient. I, therefore, suggest that in the resolution providing for these emergent repairs the amount authorized be stated at \$15,000 additional, instead of the \$5,000 as above requested.

Attached hereto is the report of Engineer in charge of this work.

Yours truly,
LOUIS F. HAFFEN,
 President, Borough of The Bronx.

May 11, 1908.

Mr. JOSIAH A. BRIGGS, Chief Engineer of the Borough of The Bronx:

Sir—In the matter of repairing the sewer in Tiffany street, near Randall avenue, and sewer in Whitlock avenue south of Bancroft street, I would suggest that an appropriation (beyond the \$30,000 originally granted, and the request for \$5,000 additional, now pending before the Board of Aldermen and the Board of Estimate and Apportionment) be made in the amount of \$10,000, making a total of \$45,000.

My reason for making this suggestion is that since these sewers were damaged in 1906, there have been a number of severe storms which have caused additional damage, and necessarily increase the amount of money required for the repair of the sewers.

On May 7, 1908, during the heavy storm of that day there was a collapse of quite a considerable stretch of the side wall of the Whitlock avenue sewer that was originally deemed in condition to be left standing.

I would further request that the contract for repairing sewer in Whitlock avenue be registered as soon as possible, in order that the work of construction could be ordered on before further damage by storms may occur.

Respectfully,
E. F. AUSTIN,
 Assistant Engineer in Charge of Sewers.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Fire Department:

No. 765.

Headquarters, Fire Department, City of New York,
 Nos. 157 and 159 East Sixty-seventh Street,
 Borough of Manhattan, May 11, 1908.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen, City Hall, New York:

Sir—Section 722 of the amended Greater New York Charter provides, in part, as follows:

"The paid fire department system shall, as soon as practicable, be extended over the boroughs of Queens and Richmond, by the fire commissioner, and thereupon the present volunteer fire department not maintained therein shall be disbanded."

In the year 1905, in pursuance of the above quoted provision of the Charter, the paid system of fire protection was extended into a considerable portion of the Borough of Richmond and also into Rockaway Beach, Arverne and Far Rockaway, Borough of Queens, and, in 1906, into Jamaica and Richmond Hill, in the latter Borough.

Under date of March 19, 1908, there was received here through the Mayor's office a communication dated the 5th of that month, from the Flushing Association, Flushing, Borough of Queens, concerning the inadequacy of the means and facilities for fire protection in that town, and on March 31, 1908, the matter was referred to the Deputy Fire Commissioner, Boroughs of Brooklyn and Queens, for proper attention and report.

On March 4, 1908, the Deputy Fire Commissioner, Boroughs of Brooklyn and Queens, transmitted to this office reports on this subject as regards Flushing, and College Point as well, by the Deputy Chief of Department in Charge, Boroughs of Brooklyn and Queens, together with estimates of the expense of extending the paid system of fire protection into those towns, said reports reading as follows:

I.

"I have the honor to report that I visited Flushing on the 13th ult. to examine into the subject of extending the paid system into such territory, and I am convinced that to give proper fire protection to the Town of Flushing three companies should be organized therein (to take the place of the present six volunteer companies), one of which paid companies should be an engine company with extra hose wagon. From my experience in this Department hydrant streams are not effective for fires that obtain any headway. Said companies, to give the best protection, ought to be located as follows:

"1. An engine company, with additional hose wagon, on Lincoln street, south side, 150 feet east of Garden street, on the site now occupied by Empire Hose Company 1, as storehouse and bell tower. This company would cover the lower and business part of the Town of Flushing.

"2. Hook and ladder company on Union street, west side, 170 feet south of Amity street, on the site now occupied by Mutual Engine or Hose Company 1. This is the most central point in the Town of Flushing, and as there is to be but one hook and ladder company in said town, in my opinion, it should be located at this point and equipped with a 60-foot aerial hook and ladder truck, having side ladders, as there are some tall structures in Flushing, where such an apparatus would be necessary in the event of fire.

"3. A hose company in the building now occupied by Murray Hill Hose Company 4, southeast corner of Madison avenue and Boerum avenue.

II.

"While in Flushing on the 13th ult. I made a tour of College Point, and I am strongly of the opinion that the paid system should be extended to the Town of College Point at the same time it is extended to Flushing, so that in the event of a fire of any magnitude assistance could be rendered to Flushing from College Point or vice versa. In the Town of College Point there are many large manufacturing establishments, such as rubber factories, silk factories, sash and blind factories and many others. Therefore, while there, I looked the situation over, and, in my opinion, to give this town proper protection there ought to be one engine company, one hose company and one hook and ladder company organized therein, the engine company and hook and ladder company to be located on the site now occupied by Eagle Hook and Ladder Company and Union Hose Company 1, located at Nos. 225 and 227 Sixteenth street, and the hose company on the site now occupied by Enterprise Hose Company 2, located at No. 518 Fifth street, or in the vicinity thereof. The latter site is not owned by the City."

The companies proposed to be disbanded in Flushing are the following:

Empire Hose Company 1.
 Mutual Engine Company 1.
 Murray Hill Hose Company 4.
 Rescue Hook and Ladder Company 1.
 Young America Hose Company 2.
 Flushing Hose Company 3.

The first three of these companies are to be superseded, respectively, by an engine company (with additional hose wagon), a hook and ladder company and a hose com-

pany of the paid system, as indicated in the report of the Deputy Chief of Department in charge of the Boroughs of Brooklyn and Queens.

The companies proposed to be disbanded in College Point are the following:

Union Hose Company 1.
Eagle Hook and Ladder Company 1.
Enterprise Hose Company 2.

These are to be replaced, respectively, by an engine company, a hook and ladder company and a hose company of the paid system, as set forth in the report of Deputy Chief of Department Lally.

For the purchase of hose, supplies, furniture and equipment, horses and harness, additional to the equipment in these respects, owned by the City, and in possession of the companies proposed to be disbanded, which may be utilized for the new companies, and to provide means for the payment of the salaries of the uniformed force for a period of six months (from July 1 until December 31, 1908), the following sums will be required:

I desire to add that, in connection with this proposed extension of the paid system of fire protection into Flushing and College Point, application has been made by me to the Board of Estimate and Apportionment to approve of an issue of Corporate Stock to an amount not exceeding eighty-seven thousand dollars (\$87,000) for the purchase of engines and hook and ladder trucks, for the acquisition of sites, the erection of buildings thereon, and for additions and alterations to buildings already erected.

Respectfully,

NICHOLAS J. HAYES, Commissioner.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Aldermen hereby requests the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to an amount not exceeding sixty-two thousand two hundred and eighty-five dollars (\$62,285) for installing the paid Fire Department in Flushing and College Point, Borough of Queens.

The President laid before the Board the following communication from the President, Board of Aldermen:

New York, May 19, 1908.

To the Honorable the Board of Aldermen, New York City:

Gentlemen—I herewith transmit to you communication from Chase Mellen, Esq., Counsel to the New York Charter Commission, requesting that provision be made for the payment of a suite of rooms for the use of the New York Charter Commission for a period of one year, and I herewith attach form of resolution for an issue of Special Revenue Bonds in the sum of \$1,350 for the purpose of carrying out that request.

For the reasons set forth in Mr. Mellen's letter I respectfully ask, as a member of the Charter Commission, your favorable consideration of the attached resolution.

Yours respectfully,

P. F. McGOWAN,

President of the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment be and it hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of one thousand three hundred and fifty dollars (\$1,350), the proceeds of the same to be used by the Commissioners of the Sinking Fund for the purpose of paying the rental of the suite of rooms known as 551 on the Liberty street side of the Mutual Life Building, at No. 32 Nassau street, Borough of Manhattan, for the use of the New York Charter Commission for a period of one year from the date of occupancy, at an annual rental of one thousand three hundred and fifty dollars (\$1,350), payable quarterly.

New York Charter Commission,
Room 551, No. 32 Nassau Street,
New York, May 16, 1908.

Hon. P. F. McGOWAN, President of the Board of Aldermen, New York City:

Dear Sir—On May 6, 1908, the Commissioners of the Sinking Fund adopted a resolution requesting and authorizing the Corporation Counsel to prepare a lease to the City from the Mutual Life Insurance Company of New York of the suite of rooms known as No. 551 on the Liberty street front of the Mutual Life Building, No. 32 Nassau street, Borough of Manhattan, for the use of the New York Charter Commission, for a period of one year from the date of occupancy, at the annual rental of \$1,350, payable quarterly.

Under the provisions of chapter 114 of the Laws of 1908, which authorized the Governor to appoint the Commission, the Board of Estimate and Apportionment is directed to raise the sum of \$30,000, out of which the expenses of the Commission are to be paid.

The strictest economy is being exercised in the organization of the office force and in other directions, yet it is not at all improbable that the appropriation will be found to be too small to enable the Commission to properly perform its work, which is of such great importance to The City of New York.

For the Commission appointed by the Governor in 1907 the City provided a room in the suite of the Corporation Counsel in the Hall of Records. That room is now occupied by the Commissioner of Records, and there is no space available for the use of the Commission in any of the premises owned or leased by the City in any way suitable for the use of the Commission.

The suite of offices referred to in the resolution of the Sinking Fund Commission is barely large enough to house the indispensable working force of the Commission. By courtesy of the Bar Association, the members of the Commission are enabled to meet at the house of the Association without expense to the City. The office of the Counsel is also at the disposal of the Commission without cost.

The Commission has instructed me to ascertain whether, in view of the foregoing facts, especially the small appropriation when the magnitude of the work is taken into account and the inability of the City to house the Commission in suitable quarters leased or owned by it at present, the Board of Aldermen and the Board of Estimate and Apportionment will not provide the suite in question for the use of the Commission without expense to the latter, so that the appropriation of \$30,000 can be used in the employment of a suitable office staff, the cost of printing and other absolutely indispensable and unavoidable expenses.

I respectfully suggest that section 44 of the Greater New York Charter confers the necessary power upon the Board of Aldermen, especially that part of the section which provides that the Board of Aldermen may pass all such ordinances, rules, etc., "as to the said Board of Aldermen may seem meet for the good rule and government of the City, and to carry out the purposes and provisions of this act, or of other laws relating to the said City."

The power of the Board of Estimate and Apportionment to act in the matter seems to be conferred by section 243 of the Charter.

Respectfully yours,

CHASE MELLEN,
Counsel to the Commission.

Which was referred to the Committee on Finance.

REPORTS:

That Deputy Commissioner Loughman appeared before the Committee and stated that these repairs were invariably ordered from the manufacturers of the various appliances in use. The letter of the Commissioner transmitting the resolution explains the necessity for this permission.

The Committee recommends that the said resolution be adopted.

Alderman Collins called up General Order No. 49, being a report and resolution as follows:

No. 682—(G. O. No. 49).

The Committee on Public Letting, to which was referred, on April 28, 1908 (Minutes, page 241), the annexed resolution in favor of authorizing the Commissioner of Bridges to purchase an automobile in the open market, respectfully

REPORTS:

That Secretary Schiff appeared before the Committee and stated that the Bridge Commissioner asked to make this purchase in open market because, in his opinion, it is the only practicable way for City Departments to obtain serviceable machines. This Department maintains a garage and occasionally loans its machines to other Departments for public business.

Resolved, That, pursuant to the power conferred upon it by the provisions of section 419 of the Greater New York Charter, the Board of Aldermen, deeming such course to be in the public interest, hereby authorizes and empowers the Bridge Commissioner to purchase, in the open market instead of by contract at public letting, for the official use of the Department of Bridges, one automobile, at an expense not to exceed the sum of four thousand dollars (\$4,000).

No. 652.

REPORTS:

That Mr. Rondel appeared before the Committee and explained that so much better results could be obtained by the purchase of these fresh fruits and vegetables in open market than no comparison was possible.

The Committee has advocated this plan in the case of other institutions, and therefore recommends that the said resolution be adopted.

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, deeming such course to be in the public interest, the Board of Aldermen of The City of New York hereby authorizes and empowers the Board of Health of the Department of Health of The City of New York to purchase in the open market without public letting fresh fruits and vegetables as required in the institutions

Alderman Corbett called up General Order No. 53, being a report and resolution, as follows:

No. 596.

The Committee on Public Letting, to which was referred on April 21, 1908 (Minutes, page 133), the annexed resolution in favor of authorizing the Trustees of Bellevue and Allied Hospitals to purchase three ambulances, without public letting, at a cost not to exceed \$2,100, respectfully

REPORTS:

Dr. Brannan appeared before the Committee and stated that the last purchase of ambulances had been by competitive bidding, and while the first cost was a saving of about \$150 each, the material used in construction was of such poor quality as to be constantly in need of repair. Prior to the last purchase it had been customary to buy these vehicles of a certain maker of carriages, who produced a thoroughly reliable, trustworthy and wearing wagon, which did not require repairs for over a year.

The Committee recommends that the said resolution be adopted.

Resolved, That pursuant to the power conferred upon it by the provisions of section 419 of the Greater New York Charter, deeming such course to be in the public interest, the Board of Aldermen of The City of New York hereby authorizes and empowers the Trustees of Bellevue and Allied Hospitals to purchase in the open market, instead of by contract at public letting, for the use respectively of the Gouverneur, Harlem and Fordham Hospitals, in the Borough of Manhattan, three ambulances, at an expense not to exceed the sum of twenty-one hundred dollars (\$2,100).

REPORTS:

That this matter has already passed the Board by a three-fourths vote, and as this resolution is to correct a typographical error and makes no change in the allowance the Committee recommends that the said resolution be adopted.

Resolved, That the resolution requesting an issue of Special Revenue Bonds, adopted February 4, 1908, and received from his Honor, the Mayor, February 18, 1908, the proceeds whereof to be used for the purposes of altering a building in the Borough of Brooklyn for the use of the Sheriff of Kings County be and the same is hereby amended by striking therefrom the figures "130" and inserting in lieu thereof the figures "113," so that said resolution shall read as follows:

The Corporation Counsel was requested to advise whether, in case the piers, bulkheads, etc., erected in accordance with the plan or plans mentioned in section 819 of the Greater New York Charter are damaged by fire, or other cause, making it necessary to practically construct a new pier in place of the one originally built, this latter work of construction can legally be done otherwise than by contract when so ordered by the Commissioner of Docks, if such repairs represent about 60 per cent. of the original cost.

A draft of bill, proposing to amend section 821 of the Greater New York Charter, relative to the construction and repair of docks, piers, bulkheads, etc., in accordance with the new plan for the improvement of the water-front of The City of New York, was forwarded to the Corporation Counsel, such amendment permitting the Department to make repairs to the wharf property under its jurisdiction otherwise than by contract.

The Local Board was of the opinion that the extension of Morris place to Washington avenue was unnecessary.

Morris place is now paved, lighted and water main laid therein, so the Local Board resolution merely recommends that the conditions which now exist be legalized.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, or the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
