Laid over and referred to Alderman Gillen.

No. 12.

Following communication from the office of the Commissioner of Public Works:

City of New York, Borough of Brooklyn,
Office of Commissioner of Public Works,
July 19, 1902.

Hon. J. EDWARD SWANSTROM, President of the Borough of Brooklyn:

Dear Sir—In behalf of the Commissioner of Public Works, I beg to hand you letter, under date of July 18, addressed to him by John Thatcher, Superintendent of Sewers, calling his attention to the worn out condition of an old 36-inch sewer in Conover street, between Sullivan street and the Atlantic Basin, which he writes is worn out and should be replaced by new construction.

The same is respectfully handed you for care.

Yours very truly,

(Signed) A. J. AUBREY,
Secretary to the Commissioner of Public Works.

Following report from the Superintendent of Sewers:

July 18, 1902.

Mr. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—Among the old sewers of the Borough of Brooklyn which were built before the first sewerage system of the City of Brooklyn was designed, there is an old 36-inch sewer in Conover street, between Sullivan street and the Atlantic Basin, just north of William street, which has deteriorated until said sewer is past repair. As many as fourteen patches have been placed on the length between Sullivan and King streets within the past two years.

It is recommended that said sewer be reconstructed within the limits above mentioned, at an estimated cost of \$2,600. The assessed valuation of the real estate within the probable area of assessment is \$148,480.

The items of work necessary to be performed are:

300 feet of twenty-four-inch pipe sewer,

245 feet of eighteen-inch pipe sewer,
6 manholes and appurtenances.

The present sewer is thirty-six inches in diameter, being somewhat larger than required for the drainage conducted to it, but used, I presume, in the past for economy.

Yours respectfully,

(Signed) JOHN THATCHER, Superintendent of Sewers,
Borough of Brooklyn.

The following resolution was offered:

Resolved, That the Local Board of the Red Hook District, Borough of Brooklyn, after hearing had this 6th day of November, 1902, deeming it for the public interest so to do, hereby determines to initiate proceedings to reconstruct sewer in Conover street, between Sullivan street and the Atlantic Basin, just north of William street, in the Borough of Brooklyn.

Resolved, That this resolution be forwarded to the Board of Estimate and Apportionment for its approval.

Which was decided in the affirmative by the following vote:

Affirmative—Commissioner Redfield and Aldermen Gillen and Kenney.
Approved by the President of the Borough November 18, 1902.

No. 13.

Petition for the construction of a sewer in Court street, east side, between Bush street and Lorraine street.

As proceedings are pending for the construction of an outlet sewer on the west side of Court street, which takes in the above limits, and the Engineer of Sewers having informed the Board another sewer on the east side of Court street would be unnecessary,

Action was deferred.

No. 14.

Hon. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I respectfully recommend the construction of receiving basins at the places hereinafter mentioned. At both of the locations old sewer basins exist which were built many years ago of cobblestone masonry with square sidewalk manhole plates. Said basins are of antiquated pattern, and it has been reported to me that many repairs have been made to the same until now, when their condition warrants no further attention in this direction. They should be replaced by new and modern constructions.

The locations are at the northeast corner of King and Conover streets.

The estimated cost for above improvement is \$150, and the assessed valuation of the real estate within the probable area of assessment is \$87,200.

Yours respectfully,

(Signed) JOHN THATCHER, Superintendent of Sewers,
Borough of Brooklyn.

Permit me to respectfully report, therefore, that sewers have been built in all streets mentioned in said list, or have been authorized in construction, except those enumerated below.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which with the proper envelope in which to enclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the department for which the work is to be done.
