REDUCTION OF ASSESSMENT ON EDGECOMBE ROAD, MANHATTAN.

The learing in the matter of the pention to have the City lear a portion of the cost for the opening of Edgecombe road, from One Hundred and Fifty-lifth to One Hundred and Seventy-field street, Borough of Manhattan, which had been adjourned on July 25, was resumed. After bearing Mr. Thayer, Mr. Deering and A sistant Corporation Counsel Dune, the Deputy Comptroller offered the following resolution:

Resolved, That the Huard of Public Improvements hereby decilines to impose upon The City of New York any part of the cost of opening Edgecome road, and that the President of the Board by requested to prepare and submit to the Board, at its mext meeting, for its consideration, discussion and action, a resolution amending the resolution heretofore adopted in regard to the opening of said Edgecombe road so as to provide for a fundred foor street to include the land acto which private easements have been shown to exist.

The President of the Borough of Brooklyn suggested the following amendment, which was accepted by the Comptroller, and made a part of the original resulting:

Resolved, That the Corporation Counsel be requested to refrain from final or further action in the pending proceedings until this Board completes its action.

The amended resolution was adopted by the following sota:

COUNTRICATIONS THOM COMPTROLLER.

The following communication from the Comptroller was referred to the Commissioner of Highways: DEPARTMENT OF FINANCE-COMPTROLLER'S OFFICE,

Hon, BIRD S. COLER, Comptroller:

Hon, Bird S. Coller, Complexiter:

Siz — Jeremiah P. Robinson, as Agent for the Brooklyn Wharf and Warchause Company, in a communication under date of July 26, 1903, makes request that certain streets adjacent to the water front in the Borough of Brooklyn be paved with granite, and states that the attention of the Deputy Commissioner of Highways has been called to the matter and that he is unable to afford any relief for want of funds.

Mr. Robinson also incloses a petition, to the same effect, signed by Henderson Brothers, Agents for the Anchor Line, and various other representatives of steamship lines docking on the Booklyn water front.

It is my opinion that the matter should be presented to the Board of Public Improvements, where an investigation can be made by the proper authorities, and the means for the relief of the petitioners may be properly initiated.

Respectfully,

Respectfully, EUG. E. McLEAN, Engineer.

BROOKLYN WHART AND WARRHOUSE COMPANY, No. 58 BROAD STREET; NEW YORK, July 26, 1900.

Hone BIRD S. COLER, Comptroller, City of New York, City Hall, New York City

Deau Str.—I would respectfully request that the following streets be paved with granite;

Andry street, from Columbia street to river.

Balue street, from Columbia street to river.

Sedgwick street, from Van Brunt street to river.

Degraw street, from Van Brunt street to river.

Conorer street, from Van Brunt street to river.

Summit street, from Van Brunt street to Conover street.

Imlay street, from William street to Hamilton avenue.

Sullivan street, from Conover street to river.

Wolcott street, from Conover street to river.

Ferris street, from Conover street to river.

Ferris street, from Vandyke street to Coffey street.

Vandyke street, from Vandyke street to closer.

Court street, from Vandyke street to closer.

Court street, from Hamilton avenue to Bryant street.

These streets lead directly from the water front to streets that are now paved with granite. In their present condition they render the trucking of heavy loads difficult, dangerous and expensive, and are an injury to the commercial interests of the Fort of New York.

I inclose herewith statement signed by the various steamship lines docking on the Brooklyn water front.

The attention of the Deputy Commissioner has been called to this matter and he notifies as

The attention of the Deputy Commissioner has been called to this matter and he notifies as that no relief can be afforded for want of fands. I therefore submit the matter to you and trust you will give it the consideration which its importance warrants.

Yours respectfully,

NEW YORK, July 26, 1900.

How. Bino S. Colen, Compiraller, City of New York, City Hall, New York City:

DRAK Sts-We respectfully call your attention to the bad condition of the streets leading immediately from the water front in Brocklyn, between South Ferry and Vandyke street, as

immeltately from the water troat in Broaklyn, between south. Perry and vanoyae sites, in marked in red on the map sent you berewith.

The condition of the pavement is such that it is not amustaf for loaded trucks to be detained an hour or two to pull them out of the many holes and ruts, causing frequent complaint from importers carting their goods from the steamers that discharge on the piers in this district.

These streets were originally paved with colablestones, and though vecasionally repaired the heavy trucking soon renders them until for transc.

We would respectfully request, in view of the heavy trucking from the steamsinps discharge.

Mr. John H. Moorey, Secretary, Board of Tubbic Improvements.

Sin—In reply to the action taken by the Board of Public Improvements, referring for report a resolution of the Local Board of the Biglish District, Borough of Brooklyn, to lay out, open and improve as a public street Bellard avenue, as the same is laid out on the Commissioners' Map of the late Uty of Brooklyn and the Town Survey Commissioners' Map of the County of Kings, as the same has been altered by the late Common Council of the said City of Brooklyn, commencing at a point in the Eastern parkway, in the Twenty fourth Ward of the Borough of Brooklyn, where said Bedford avenue is already opened and improved, and extending in a southerly direction to Flatbush avenue, pursuant to and under and in accordance with the provisions of chapter 764 of the Laws of 1900 of the State of New York, I have to state as follows:

Chapter 764 of the Laws of 1900 became a law May 4, 1900, after the Board of Public Improvements had initiated (March 14, 1900) proceedings to acquire title to Bedford avenue, between the same limits, and the Corporation Counsel had requested the Rule Map and technical description April 10, 1900.

Aescription April 10, 1900.

Chapter 764 of the Laws of 1900 authorizes and directs the Board of Public Improvements:

1. To lay out, open and improve Bedford avenue from the Eastern parkway to Flathush

3. To cause a map to be made showing the proposed extension and improvements, and file the same in the Register's office, in the County Clerk's office, in the Department of Highways, in the Board of Public Improvements, in the office of the Comptroller and in the office of the Tax

3. To pass a resolution that proceedings to acquire title to Bedford avenue be initiated.

After this is done, the Department of Highways shall make application to the Supreme Court of the State of New York, in the Second Judicial Department, for the appointment of three commissioners of appraisal to ascertain and appraise the compensation to be made to the owners within the lines of said Bedford avenue, and title shall vest in The City of New York upon the confirmation of the report of said commissioners.

After title is vested, the Department of Highways is authorized to grade, page with scales.

After title is vested, the Department of Highways is authorized to grade, pave with asphalt, or atherwise improve the said Bedford avenue extension.

The remainder of the sections of this law pertains to the manner how to provide for the pay-

ment of the land and the commissioners

ment of the land and the commissioners.

Chapter 764 directs that there shall be no change from the lines of Hedford avenue as they are legally established at the present time, and at the same time directs the Board of Public Improvements to file these maps over again.

For those portions of Bedford avenue which were aftered by the Common Council, the data on hand are insufficient, because the resolutions were not accompanied by correct maps, and I have given direction that the survey be made of such doubtful blocks.

It is evident, therefore, that some time will slapse before it will be possible to file the maps of Bedford avenue in the six different offices of record.

In conclusion, I wish to say that the precedings to avenue title to Bestonel avenue.

In conclusion, I wish to say that the proceedings to acquire title to Bedford avenue, initiated by the Board of Public Improvements March 14, 1900, will probably be invalidated by the subsequent act of the Legislature of May 4, 1900.

Respectfully, F. GREIFFENBERG, Principal Assistant Topographical Engineer.
