BOARD OF ESTIMATE AND APPORTIONMENT.

Extract from Minutes, Board of Estimate and Apportionment, City of New York, January 21, 1910.

Manhattan Bridge Three Cent Line.

A communication, dated January 12, 1910, was received from the Mayor’s office, returning, duly approved by his Honor the Mayor, on January 11, 1910, resolution adopted by this Board January 7, 1910, fixing February 4, 1910, as the date for public hearing on the petition of the Manhattan Bridge Three Cent Line for a franchise, and designating the “New York Press” and “The World” as the newspapers in which notice of such hearing shall be published.

Which was ordered filed.

Status of Pending Petitions for Franchises and Revocable Privileges.

The Secretary presented the following:

REPORT NO. F-199.

Board of Estimate and Apportionment,
Office of the Chief Engineer,
January 4, 1910.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—In order that the members of the Board of Estimate and Apportionment may be advised of the number and nature of applications for franchises pending before the Board, I have had prepared by the Engineer in charge of the Division of Franchises a report outlining the various applications which have not been acted upon, showing those which have been referred to Committees, those which are in the hands of the Corporation Counsel and those in the office of the Chief Engineer of the Board and not yet reported. This report is herewith submitted without further comment.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Board of Estimate and Apportionment,
Division of Franchises,
January 4, 1910.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—For the information of members of the Board, I beg to submit herewith a brief statement as to the status of the various petitions for franchises and revocable privileges now pending before the Board.

Franchise applications may be divided into two classes, viz.:

First—Those upon which reports have been made by the Division of Franchises to the Chief Engineer and referred by the Board to Select Committees of the Board or to the Corporation Counsel.

Second—Those referred to the Chief Engineer and by him to the Division of Franchises, upon which partial reports have been made or which are still under consideration by the Division.

In the first class there are twenty-eight petitions which have been referred to Select Committees of the former Board—twenty-one for street surface railways, three for telephone franchises, one for a subway company, one for a refrigerating company, one for distributing music electrically and one for a gas company. Before the Corporation Counsel there is pending the petition of the Manhattan Railway Company (elevated) for an extension across One Hundred and Eightieth street, in the Borough of The Bronx.

In the second class there are petitions from two street surface railways, one automatic fire alarm company, one gas company and one company for refrigeration purposes, upon which investigations are now being made and reports will shortly be submitted.

The revocable privileges may likewise be divided into two classes:

First—Those for which applications are pending, numbering seven.

Second—Structures in the streets which have been called to the attention of the Board as being exercised without proper authority and which are under investigation by this Division and the result of which may lead to applications being made; of these there are fifteen.

Of the pending franchise applications, perhaps those in most urgent need of immediate consideration and action are those from street surface railways for the use of the Manhattan Bridge and the Flatbush avenue extension, in the Borough of Brooklyn. Of those there are six, all in the hands of a Select Committee of the Board, and on December 30, 1909, an additional application was received from the Manhattan Bridge Three Cent Line.

A separate report on the Manhattan Bridge situation and the latest application has been prepared for the Board.

There are also pending before the Corporation Counsel twelve other matters which have been referred to him from time to time, the most important of which are:

(a) Validity of franchises of the New York Telephone Company and the New York and New Jersey Telephone Company.

(b) Forfeiture of the franchise of the New York and Long Island Railroad Company (Steinway tunnel).

(c) Validity of franchise of New York Central and Hudson River Railroad Company on Tenth and Eleventh avenues.

(d) Recovery of percentages from the Brooklyn, Queens County and Suburban Railroad Company, amount sued for over \$800,000.

(e) The right of the City to require the Brooklyn Union Elevated Railroad Company to build bridges across certain streets in Brooklyn.

(f) Four petitions for the removal of unused horse car tracks in the Borough of Manhattan.

One other matter of importance referred to a Select Committee of the Board is the question of the treatment of the Long Island Railroad Company in regard to the increasing of its facilities in the Borough of Queens. The Corporation Counsel has advised that these increased facilities which the Long Island is now constructing are unauthorized and that it should apply to the Board for additional franchises.

The case is somewhat similar to that of the Harlem River and Port Chester Railroad Company, a leased road of the New York, New Haven and Hartford Railroad Company, in the Borough of The Bronx, with which the Board of Estimate in 1904 and 1906 established precedents. (See minutes, Public Improvements, October 14, 1904, page 1530; December 16, 1904, page 1919; Financial, May 11, 1906, page 967, and June 15, 1906, page 1472.) The Long Island disagrees with the Corporation Counsel and contends that it has the right to lay additional tracks without further authority, but at the meeting of December 23, when it was proposed to take action to test the matter in the Courts, Counsel presented a communication from the President of the Company and suggested that an agreement might be reached if the matter was referred to a Select Committee, which was done. (See minutes, Board of Estimate, May 15, 1906, page 1540; July 2, 1909, pages 3513 and 3631; September 17, 1909, page 4080; December 3, 1909, and December 23, 1909.)

During the past four years the Board has made grants to several street surface railways for new lines and extensions, and with but four exceptions, upon what may be termed a uniform franchise. In one of these the modification was of small importance. Two others of the four exceptions are for franchises to the South Shore Traction Company and the Third Avenue Bridge Company, both granted on December 23, 1909, and are of importance as fixing a different procedure and different standards than heretofore. The question of the validity of one of these grants has been before the Courts (Schieffelin vs. McClellan, ex Mayor), and I am informed will be taken

shortly to the Court of Appeals. If the decision of the Appellate Division is sustained, the procedure heretofore pursued by the Board under the advice of the Corporation Counsel may be modified somewhat, but the questions of a uniform franchise and the general conditions to be imposed are matters for the present Board to determine and as soon as the policy is outlined this division will be enabled to present reports and forms of contracts in the form indicated.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

Which was ordered filed.

New York and Queens County Railway Company.

The Secretary presented the following:

Public Service Commission for the First District,
Tribune Building,
New York, December 28, 1909.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—In accordance with the direction in the order for service thereof upon The City of New York, I transmit herewith a certified copy of an order in Case No. 1187, adopted by this Commission at its meeting to-day, directing a hearing upon the application of the New York and Queens County Railway Company for the abandonment of its route on certain streets in the Borough of Queens.

Very truly yours,

TRAVIS H. WHITNEY, Secretary.

STATE OF NEW YORK, PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

Hearing Order with Notice, Case No. 1187.

In the matter of the application of the New York and Queens County Railway Company for the approval by the Public Service Commission under section 103 of the Railroad Law, of a declaration of abandonment of its route in Pierce avenue, First avenue, or Lockwood street, Ridge road, Academy street and Jane street, in the Borough of Queens, City of New York.

The New York and Queens County Railway Company having applied to this Commission by verified petition dated December 18, 1909, for the approval by the Commission of a declaration of abandonment of certain portions of routes of street surface railroad, namely, on Pierce avenue, First avenue, or Lockwood street, Ridge road, Academy street and Jane street; now therefore it is

Ordered, That said petition of the New York and Queens County Railway Company be heard by and before the Public Service Commission for the First District on the 10th day of January, 1910, at 2:30 o'clock in the afternoon, in the hearing room of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York; and it is further

Ordered, That notice of said hearing be given to said company and to The City of New York by service on each of them of a certified copy of this order at least five days prior to the date fixed for said hearing.

State of New York, County of New York, ss.:

I, Travis H. Whitney, Secretary of the Public Service Commission for the First District, do hereby certify that I have compared the above with the original adopted by said Commission on December 28, 1909, and that it is a correct transcript therefrom and of the whole of the original.

In testimony whereof, I have hereunto subscribed my hand and affixed the seal of the Commission this 28th day of December, 1909.

[SEAL.]

TRAVIS H. WHITNEY, Secretary.

REPORT No. F-141.

Board of Estimate and Apportionment,
Division of Franchises,
January 10, 1910.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—A notice from the Public Service Commission for the First District, dated December 28, 1909, advises the Board of a hearing on January 10, 1910, upon the application of the New York and Queens County Railway Company of a declaration of abandonment of its route in certain streets in the Borough of Queens.

This action of the railway company has been taken pursuant to section 2, Twenty-fourth, of contract between the City and the company, dated June 10, 1909, by which a franchise was granted on Debevoise (Second) avenue, with the condition that the company would abandon its route in certain other streets and remove its tracks therefrom.

The Corporation Counsel has been advised of this and I presume the Board will be represented by him at the hearing.

I would recommend that the papers be filed.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

Approved:

NELSON P. LEWIS, Chief Engineer.

Which were ordered filed.

James A. Hearn & Son.

The Secretary presented the following:

Department of Water Supply, Gas and Electricity,
Nos. 13 to 21 Park Row,
New York, December 10, 1909.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

DEAR SIR—It has been brought to my attention that James A. Hearn & Son are maintaining a tunnel about 6 by 6 feet under West Thirteenth street, from No. 20 to No. 23. This tunnel contains two 10-inch hydraulic pipes, one 4-inch steam pipe, one 2-inch water pipe, one 1/4-inch hot water pipe, one electric circuit for lighting tunnel.

Under the floor of this tunnel there are thirty-two 4-inch ducts containing 22 cables; also one 3-inch water pipe and one 1 1/4-inch water pipe.

A careful search of our records fails to disclose any authorization for this construction. I therefore bring the matter to your attention for such action as you may deem proper.

Respectfully,

JOHN H. O'BRIEN, Commissioner.

REPORT No. F-202.

Board of Estimate and Apportionment,
Division of Franchises,
January 15, 1910.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—In a communication dated December 10, 1909, the Department of Water Supply, Gas and Electricity called the attention of the Board of Estimate and Apportionment to the fact that James A. Hearn & Son are maintaining a tunnel under and across West Thirteenth street, in the Borough of Manhattan, from No. 20 to No. 23 West Thirteenth street. This tunnel was said to contain various steam and water pipes and electric cables. It was further stated that an examination of the records had failed to disclose any authorization for the structure.

At the meeting of the Board held December 23, 1909, the matter was referred to the Chief Engineer for investigation and report.

I caused an inspection to be made and it was found that the tunnel is seven feet wide and six feet eight inches high, inside dimensions, and is used to convey steam and water pipes and electric cables between the said premises.

An examination of the records revealed that the tunnel was authorized by a resolution adopted by the Board of Aldermen on May 14, 1889, and approved by the Mayor May 20, 1889, granting permission to Laura F. Hearn to construct, maintain and use a tunnel under and across West Thirteenth street, in the Borough of Manhattan, from No. 20 to No. 21 West Thirteenth street, for the purpose of conveying water pipes, steam pipes, etc., between the said premises.

It may be noted that the resolution does not provide for the installation of electric cables in the tunnel.

However, this resolution is one of a number of similar consents heretofore granted for the installation of substructures in the streets and in which no provision was made for the payment of compensation to the City for the privilege. A report on that class of privileges is now in process of preparation and will be presented at a future date.

As this consent to Laura F. Hearn will be included in such report, I would suggest that no action be taken at this time with regard to the electric cables not specifically authorized by the resolution, and that the papers be filed and a copy of this report forwarded to the Department of Water Supply, Gas and Electricity.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

Approved:

NELSON P. LEWIS, Chief Engineer.

Which were ordered filed.

The Secretary was directed to forward a copy of the report to the Department of Water Supply, Gas and Electricity.

Bronx Traction Company.

A petition was received from the Bronx Traction Company for a franchise to construct, maintain and operate a street surface railway as extensions to its existing system in the Borough of The Bronx, as follows:

(a) On White Plains road, from Morris Park avenue to Gun Hill road.

(Note—This application is for the purpose of legalizing the railway as now constructed and operated.)

(b) To double-track the existing railway on Main street and Fort Schuyler or Throggs Neck road, from Westchester avenue to Eastern boulevard.

(c) On Eastern boulevard, Pelham Bridge or Shore road, from Fort Schuyler or Throggs Neck road to the northerly line of The City of New York.

Which was referred to the Chief Engineer.

New York City Interborough Railway Company.

A petition was received from the New York City Interborough Railway Company for a franchise to construct, maintain and operate two extensions to its existing system, in the Borough of The Bronx, as follows:

(a) Beginning at and connecting with its existing tracks at the junction of St. Ann's avenue and East One Hundred and Forty-ninth street; upon and along East One Hundred and Forty-ninth street to Southern boulevard, and upon and along Southern boulevard to and connecting with the railway of said Company on Leggett avenue.

(b) Beginning at and connecting with the existing tracks on Dongan street at its junction with Intervale avenue; thence upon and along Dongan street to Stebbins avenue and upon and along Stebbins avenue to East One Hundred and Sixty-third street, and upon and along East One Hundred and Sixty-third street to Washington avenue.

Which was referred to the Chief Engineer.

Union Railway Company of New York City.

A petition was received from the Union Railway Company of New York City for a franchise to construct, maintain and operate an extension or branch to its existing street surface railway, from the present terminus at the intersection of Southern boulevard and Pelham avenue; thence upon and along Pelham avenue to the easterly line of Bronx Park, and thence along the Bronx and Pelham parkway to the westerly side of Pelham Bay Park, and thence on Pelham avenue to the Eastern boulevard, Borough of The Bronx.

Which was referred to the Chief Engineer.

Central Railroad Company of New Jersey.

An application was received from the Central Railroad Company of New Jersey for permission to construct, maintain and use a 12-inch conduit and 6-inch steam pipe under and across West Street, Borough of Manhattan, connecting the Central Building on the north side of Liberty street, from West to Washington street, with the passenger terminal and ferry warehouse on the opposite side of said West street, properties owned by the petitioner, for the purpose of conveying electric current and installing telephone wires between said premises.

Which was referred to the Chief Engineer.

Tremont Mills.

An application was received from the Tremont Mills for permission to install, maintain and use two steam pipes under and across Ittner place, connecting premises on the southeast corner of Ittner place and Park Avenue, Borough of The Bronx, owned by the petitioner, with premises on the northwest corner of Park avenue and Ittner place, leased by the petitioner, for the purpose of supplying itself with steam for heating and business purposes.

Which was referred to the Chief Engineer.

New York and Queens County Railway Company.

A communication was received from the New York and Queens County Railway Company, withdrawing its petition dated December 2, 1909, presented to this Board December 10, 1909, for a franchise to double-track its Flushing-College Point line from Lawrence street to Thirteenth street, and to double-track its line in Jamaica and Sanford avenues, in the former Village of Flushing, Borough of Queens, and substituting in lieu thereof a petition for a franchise to construct, maintain and operate a second or additional track, as follows:

(a) Beginning at and connecting with its existing double track in Lawrence street, in the former Village of Flushing, about four hundred feet north of Broadway; upon and along Lawrence street and on the embankment adjoining the Causeway, to and connecting with the existing double tracks of the petitioner in Thirteenth street, in the former Village of College Point.

(b) From a point in Jamaica avenue, in the former Village of Flushing, where the present double track terminates; upon and along Jamaica avenue to Sanford avenue, and upon and along Sanford avenue to Bowne street.

(c) From a point in Lawrence street about four hundred feet north of Broadway; upon and along Lawrence street to Broadway, and upon and along Broadway to Main street, and upon and along Main street to Jamaica avenue; thence in, upon and along Jamaica avenue to Madison avenue.

—upon which last described route the Company maintains a double track under claim of right.

Which was referred to the Chief Engineer.

East River Terminal Railroad.

A petition was received from the East River Terminal Railroad for an extension of time in which to remove certain tracks in North Fifth and North Seventh streets, Borough of Brooklyn, as required by contract dated December 27, 1909, granting a franchise to said Company; and also for permission to disconnect said tracks

so that they cannot be used, and grant said Company an extension of time until the spring to remove other tracks as required by the aforesaid contract, owing to the inclement weather.

Which was referred to the Chief Engineer.*

National Biscuit Company.

A communication was received from the Commissioner, Department of Water Supply, Gas and Electricity, stating the National Biscuit Company is maintaining, without authority a 12-inch pipe containing four electric light cables under and across West Fifteenth street, Borough of Manhattan, connecting its premises on opposite sides of said street, and is also maintaining, without authority, a 12-inch salt water pipe under and across West Fifteenth street, from a point west of Tenth avenue to the North River.

Which was referred to the Chief Engineer.

New York City Interborough Railway Company.

The Secretary presented the following:

One Hundred and Forty-ninth Street Property Owners' and Business Men's Union, }
January 3, 1910.

Board of Estimate and Apportionment:

GENTLEMEN—We, the One Hundred and Forty-ninth Street Property Owners' and Business Men's Union, earnestly request your Honorable Board to revoke the extension for running cars through One Hundred and Forty-ninth street, granted to the Interborough Railway Company to March 24, 1912.

We would be greatly pleased and benefited by cars running through One Hundred and Forty-ninth street, as this is the most important thoroughfare in The Bronx. These tracks have been laying idle for the past eight years, and this condition is detrimental to property owners and business men in this street.

We earnestly request your Honorable Board to act on this matter at once.

Yours respectfully,

IGNACY WOLSKI, Chairman.

REPORT No. F-136.

Board of Estimate and Apportionment, }
Office of the Chief Engineer. }
January 17, 1910.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The One Hundred and Forty-ninth Street Property Owners' and Business Men's Union has addressed a communication to the Board complaining of unused tracks which have been constructed by the New York City Interborough Railway Company in One Hundred and Forty-ninth street, in the Borough of The Bronx, and asking that the Board revoke the grant by which the time of the Company for the completion of this and other lines for which it has been granted franchises was extended until March 24, 1912.

I beg to submit herewith a report from the Engineer in charge of the Division of Franchises explaining the situation, from which it will appear that while the Board granted franchises for lines which would constitute when built a complete system of surface railroads, the State Board of Railroad Commissioners refused to issue a certificate of convenience and necessity for quite a number of these lines, leaving the Company only a series of unconnected crosstown lines which it could build. The construction of some of these lines for which franchises were perfected has been prevented by injunctions and other circumstances, so that the Board, by a contract dated July 27, 1909, granted a modification of the original franchise eliminating those routes for which the Railroad Commission had refused to grant a certificate and extending the time for the construction of the remaining lines. The company has on deposit with the Comptroller securities to the amount of \$50,000, and should it fail to carry out the terms of its contract, this sum would be sufficient to cover the removal of the tracks on East One Hundred and Forty-ninth street.

No action is, therefore, suggested, except that a copy of this report be transmitted to the One Hundred and Forty-ninth Street Property Owners' and Business Men's Union.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

January 10, 1910.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—Under date of January 3, 1910, the One Hundred and Forty-ninth Street Property Owners' and Business Men's Union, by its chairman, Ignacy Wolski, addressed a communication to the Board in which it complains of the unused tracks which have been constructed by the New York City Interborough Railway Company in One Hundred and Forty-ninth street, in the Borough of The Bronx. It is stated in this communication that these tracks have been laying idle for the past eight years and this condition is detrimental to property owners and business men of this street, and asks that the Board of Estimate and Apportionment take action upon the matter at once and revoke the grant by which the company's time for completion was extended until March 24, 1912.

The facts in regard to the tracks in this street are as follows:

The New York City Interborough Railway Company received a franchise from the Board of Aldermen, which was approved by the Mayor on March 31, 1903. This grant was for a comprehensive street surface railway, longitudinal and crosstown, covering about 36.5 miles of streets, in the Borough of The Bronx, with connections across the Harlem River to the Borough of Manhattan, and was put forward as an independent company and rival to the Union Railway Company, at that time the only other company operating in The Bronx. One of the conditions of the franchise was that the company should construct twenty-four miles of double track railroad before July 1, 1905. Subsequently the company petitioned the State Board of Railroad Commissioners for a certificate of convenience and necessity, which certificate was refused for some of the principal routes for which the company had received a franchise, and the total length for which the company finally received a certificate was a trifle over twenty-four miles of double track, which was the minimum mileage required by the franchise to be constructed prior to July 1, 1905. By reason of the failure to secure a certificate for all of the routes granted, the system was completely destroyed, and only a series of unconnected crosstown lines remained, some of them on unimproved streets.

The company began construction, but was hindered to a considerable extent by the delay in the improvements of some of the streets in which it had received a franchise. The construction of the tracks in One Hundred and Forty-ninth street, which are not yet operated, and complained of by the communication above referred to, was done with a view to completing a crosstown line from Lenox avenue and One Hundred and Forty-sixth street across the Harlem River and easterly on One Hundred and Forty-ninth street and other streets to the easterly side of the Borough of The Bronx.

An injunction was obtained by the abutting property owners preventing the construction of the railway upon East One Hundred and Fifty-sixth street, between St. Anns avenue and Eagle avenue, and the construction of the line was further prevented by the delay in the completion of the plans of the New York Central Company for the construction of a new bridge to carry One Hundred and Forty-ninth street across the tracks of that company at or near Park avenue, the existing bridge being declared of insufficient strength for a double track street railway.

By the provisions of chapter 558 of the Laws of 1909 the Board of Estimate and Apportionment is authorized to enter into an agreement with the New York Central and Hudson River Railroad Company affecting a bridge at this point, but no plans have as yet been submitted, as required by the act.

On account of these obstructions to the construction of the entire line on One Hundred and Forty-ninth street the company has been unable to commence operation. Other routes of the franchise have been completed and put in operation.

Extensions of time have been obtained from the Board of Estimate and Apportionment, pursuant to the terms of the franchise, from time to time, affecting other proposed lines of the company as well as the One Hundred and Forty-ninth street line, and under date of June 23, 1908, the company petitioned the Board to be relieved of some of the obligations contained in its franchise, on the ground that it had not been able to complete the construction of its entire system as originally planned because of its failure to obtain a certificate of convenience and necessity from the State Board of Railroad Commissioners and because of the impossibility to construct portions of the lines for which it had the right, owing to the delay in improvements and because of the injunctions still in force.

Under date of November 12, 1908, the company also petitioned the Board for a further extension of time.

Pursuant to these petitions the Board granted a modification of the terms and conditions of the franchise and an extension of time, all of which is included in a contract dated July 27, 1909. The extension of time granted was until March 24, 1912, to complete a railway upon the entire length of all the routes upon which the company has a franchise, and should the obstacles which now prevent the immediate construction of some of the lines, including the One Hundred and Forty-ninth street line, not be removed by the company, and all of such lines be constructed prior to that date, its franchise will cease and determine.

The company has on deposit with the Comptroller \$50,000 in securities to insure the faithful performance of the terms and conditions of the contract, which amount would appear to be sufficient to remove the tracks in One Hundred and Forty-ninth street, should the company fail to put the same in operation on March 24, 1912.

The company has considerable money invested in the construction of these tracks and it is presumed it is anxious to begin the operation at as early a date as possible. The extension of time above referred to was granted by the Board after a thorough investigation, and it was shown that the lines which have been operated by the company have not been a paying investment owing in part to the fact that the lines do not form a well balanced system within the Borough, but furnish simply transportation between local points. This situation would be somewhat relieved, I believe, if the company had other lines in operation, and I am informed it proposes shortly to apply for additional rights which will help materially to balance its system. The modification of the original franchise made by the Board last year was duly advertised and two public hearings held, when no objections were raised to the extension of time for the completion of the road or to the other modifications.

It is suggested that a copy of this report be transmitted to the One Hundred and Forty-ninth Street Property Owners and Business Men's Union.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The papers were ordered filed and the Secretary directed to forward a copy of the report to the complainant.

Merchants' Refrigerating Company.

The Secretary presented the following:

Merchants' Refrigerating Company, }
Main Office, Nos. 161 and 163 Chambers Street, }
New York, December 23, 1909.

The Board of Estimate and Apportionment:

GENTLEMEN—Regarding the application of the Harrison Street Cold Storage Company for a franchise to construct, maintain and operate conduits for refrigerating purposes, which is set for public hearing on December 24, 1909, at 10.30 a. m., at which citizens shall be entitled to appear and be heard, we respectfully state the following:

This Company, the Merchants' Refrigerating Company, was duly incorporated May 10, 1894, pursuant to the provisions of the business corporation law of this state, and the articles of incorporation provide that the business of the Company is that of the manufacture of ice, the cooling of air by mechanical apparatus and chemical processes, and the preservation and care of perishable and other merchandise, as well as all business incidental thereto or connected therewith.

This Company has been continuously carrying on business in the Borough of Manhattan since its incorporation, and has warehouse and plant at Nos. 27, 29, 31, 33 and 35 North Moore street and Nos. 22, 24, 26, 28, 30 and 32 Beach street, where we have an investment of over one million dollars (\$1,000,000), and own the real estate on which such warehouses and plant are located, and also have a plant at Nos. 142½ and 144 Reade street and a number of warehouses adjacent thereto, which premises are leased by this Company.

That in addition to the business of the preservation and care of perishable and other merchandise, this Company has for several years past been distributing refrigerant to premises in the vicinity of and near its plants by means of pipes laid in the streets, and some of the streets where such pipes are laid are the same streets covered by the application of the Harrison Street Cold Storage Company, and it is respectfully submitted that if the franchise applied for be granted that it be so granted without prejudice to the rights of this Company. That this Company intends, in good faith, to make application forthwith for such franchise, and has already had communication with the Division of Franchises on the subject.

That since the year 1900 this Company has regularly made reports to the State Board of Tax Commissioners and the Department of Taxes and Assessments of The City of New York regarding such pipes and appurtenances and have paid the taxes each year.

This application and the hearing thereon, set for December 24, was only called to the attention of this Company within the past few days, and neither the Company nor its officers had any knowledge of such application until such time.

Yours very truly,

MERCHANTS' REFRIGERATING COMPANY,
WILLIAM WILLS, President.

REPORT No. F-200.

Board of Estimate and Apportionment, }
Division of Franchises, }
January 10, 1910.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—The Merchants' Refrigerating Company, in a communication to the Board dated December 23, 1909, calls attention to the grant proposed to be made to the Harrison Street Cold Storage Company and advises the Board that it has pipes laid in certain of the streets covered by the proposed grant to the Harrison Street Company, and submits "that if the franchise applied for be granted that it be so granted without prejudice to the rights of this company. That this Company intends, in good faith, to make application forthwith for such franchise, and has already had communication with the Division of Franchises on the subject."

In reply, I would state that the Merchants' Company was evidently misinformed as to the date of the public hearing, as it occurred on December 23, not 24, but, in any event, the franchise granted by the Board was not exclusive in any way, section 2, fourth, of the contract dated December 27, 1909, granting such franchise, reading as follows:

"Fourth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets and avenues, or within the districts hereinbefore described."

As to the "rights" of the Merchants' Refrigerating Company to construct, maintain or operate pipes in the streets of the City for furnishing refrigerating material to consumers, the records of this office do not show that any such exist, and the communication of the Company does not claim any such rights, but recites that it is its intention to apply.

I would therefore recommend that the Merchants' Refrigerating Company be directed to file with the Board its petition for a franchise on or before January 31, 1910, and I enclose resolution to this effect for adoption by the Board.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

NELSON P. LEWIS, Chief Engineer.

The following was offered:

Whereas, The Merchants' Refrigerating Company, through its President, William Wills, in a communication to this Board dated December 23, 1909, states it has for several years past been distributing refrigerant to premises in the vicinity of and near its plants, Nos. 27 to 35 North Moore street and Nos. 22 to 32 Beach street, Borough of Manhattan, by means of pipes laid in the streets of the City, and has expressed its intention of applying for the right to maintain and operate said pipes; now therefore be it

Resolved, That the Merchants' Refrigerating Company be and it is hereby directed to present to this Board, on or before January 31, 1910, a petition, in writing, duly verified by its President and Secretary, praying for the right to maintain and operate pipes in the streets for the purpose of furnishing refrigerant to consumers.

Which was adopted by the following vote:

Amendment to Section 242 of the Charter.

The Secretary presented the following:

REPORT No. F-92.

Board of Estimate and Apportionment,
Division of Franchises,
January 10, 1910.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—For two successive years the Board has sent to the Legislature a proposed amendment to section 242 of the Charter relative to the powers of the Board of Estimate and Apportionment, which would definitely give it authority to grant revocable privileges for pipes, conduits, tunnels, bridges and spur railroad tracks in the streets, where the same are unobjectionable and are for the sole use of the applicant and not in any way to be for business of a public service character.

The subject is set forth at length in the minutes of the Board for April 10, 1908, page 1281; January 22, 1909, page 310; March 5, 1909, page 956, and April 2, 1909, page 1352.

Unfortunately the bill was introduced too late in the session of 1908 to receive consideration and in 1909 failed to be reported from committee.

During the past year the Board, as the successor of the Board of Aldermen in the control of the streets, has continued to grant revocable consents for all of the above named privileges, except railroad tracks, from which, under the decision in the case of Hatfield vs. Straus (189 N. Y., 208) and the opinion of the Corporation Counsel in relation thereto, the Board has been estopped from granting.

In consequence of the above decision referring to the scope of section 242 it seems most desirable that the section be amended in order that there may be no question as to the power of the Board to grant all of such privileges when unobjectionable, and especially tracks for construction purposes and spur tracks to manufacturing establishments in the outlying Boroughs, which will be of great indirect advantage to the City.

I am therefore forwarding a copy of the bill as introduced last year, with proposed resolutions requesting the Corporation Counsel to secure its introduction and have the City's representative urge its passage at the earliest opportunity. Whether the Charter of the City is amended or not at this session of the Legislature, it will probably not take effect immediately and it would certainly be desirable that this amendment go into effect as early as possible in the current year.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

Approved:

NELSON P. LEWIS, Chief Engineer.

An Act to amend section two hundred and forty-two of the Greater New York charter, with respect to the powers of the board of estimate and apportionment.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section two hundred and forty-two of the Greater New York charter, entitled "An act to unite into one municipality under the corporate name of the city of New York the various communities lying in and about New York harbor, including the city and county of New York, the city of Brooklyn and the county of Kings, the county of Richmond and part of the county of Queens, and to provide for the government thereof," is hereby amended so as to read as follows:

Sec. 242. The board of estimate and apportionment shall have power over the following subjects:

(1) To appropriate, from time to time, for the maintenance, improvement and extension of the system of water supply of the borough of Brooklyn, the moneys received from water rents in the said borough, subject, however, to the charges now imposed by law upon said revenues.

(2) To appropriate, from time to time, for the maintenance of the New York and Brooklyn bridge the moneys received from the revenues of said bridge.

The board of estimate and apportionment shall have also (3) the control of all the streets, avenues, highways, boulevards, concourses, driveways, bridges, tunnels, parks, parkways, waterways, docks, bulkheads, wharves, piers and all other public grounds and waters within or belonging to the city; except as in this act otherwise provided. The powers by this act granted to the board of aldermen with respect to the streets, avenues, highways, boulevards, concourses, driveways, bridges, tunnels, parks, parkways, docks, waterways, bulkheads, wharves, piers and public grounds and waters which are within or belong to the city shall be subject to such control of the board of estimate and apportionment. If and when the board of estimate and apportionment shall deem it proper in the case of any application or matter affecting any street, avenue, highway, boulevard, concourse, driveway, bridge, tunnel, park, parkway, waterway, dock, wharf, pier or public ground or water within or belonging to the city, whether the board of aldermen or any other department or officer shall have acted or omitted to act, the board of estimate and apportionment may itself originally act or may, by amendment, revision or repeal of any resolution, ordinance, grant or other action adopted or had by the board of aldermen or any other department or officer, exercise its said power of control; and if and when the board of estimate and apportionment shall so act or exercise such control, such action or control shall be fully and finally operative, notwithstanding any resolution, ordinance, grant or other action adopted or had by the board of aldermen or any other department or officer of the city or any omission to act on the part of the board of aldermen or other department or officer. The board of estimate and apportionment shall hereafter, except in the cases where franchises, rights or contracts shall be granted or authorized pursuant to the rapid transit act, chapter four, of the laws of eighteen hundred and ninety-one, and the amendments thereof, have the exclusive power in behalf of the city to grant to persons or corporations franchises or rights or make contracts providing for or involving the occupation or use of any of the streets, avenues, highways, boulevards, concourses, driveways, bridges, tunnels, parks, parkways, waterways, docks, bulkheads, wharves, piers or public grounds or water within or belonging to the city, whether on, under or over the surface thereof, for railroads, pipe or other conduits or ways or otherwise for the transportation of persons or property or the transmission of gas, electricity, steam, light, heat or power, provided, however, that no such exercise of power by the board of estimate and apportionment shall be operative until the same shall be in writing approved by the mayor separately from and after the action of the board of estimate and apportionment; and provided, further, that this section shall not prevent the exercise by the board of aldermen of the powers expressly granted it by sections forty-nine, fifty, fifty-one and fifty-two of this act; but such exercise of powers by the board of aldermen shall in every case be subject to the control by this act granted to the board of estimate and apportionment over all the streets, avenues, highways, boulevards, concourses, driveways, bridges, tunnels, parks, parkways, waterways, docks, bulkheads, wharves, piers and all public grounds and waters which are within or belong to the city. If and when the board of rapid transit railroad commissioners for the city of New York shall, under any of the provisions of chapter four of the laws of

eighteen hundred and ninety-one, or of any of the acts amending the same, conclude or determine upon the construction of any rapid transit railway or railways or adopt any route or routes, plans or specifications therefor, or if and when the said board of rapid transit railroad commissioners shall grant any right or rights, franchise or franchises or enter into any contract or contracts under any of the provisions of the said chapter four of the said laws of eighteen hundred and ninety-one or any of the said amendments thereof, the said board shall transmit to the board of estimate and apportionment a copy of any and every such determination or conclusion, grant or contract, and in case any such determination, conclusion, route, plan, specification, right, franchise, or contract, shall require or involve the use of any street, avenue, highway, boulevard, concourse, driveway, bridge, tunnel, park, parkway, waterway, dock, bulkhead, wharf, pier or any public ground or water which is within or belongs to the city, the said board of estimate and apportionment shall within sixty days after the receipt by it of such copy of such determination, conclusion, grant or contract determine whether or not it will, as the local authority having the control of such street, avenue, highway, boulevard, concourse, driveway, bridge, tunnel, park, parkway, dock, waterway, bulkhead, wharf, pier or other public ground or water which is within or belongs to the city, consent or refuse to consent to such route, determination, conclusion, plan, specification, right, franchise or contract, and shall within such sixty days transmit in writing to the said board of rapid transit railroad commissioners its said determination whether of consent or refusal. Provided, however, that the said board of estimate and apportionment and the said board of rapid transit railroad commissioners may by resolution adopted by each of them extend such period of sixty days. Hereafter no consent or approval of any such determination, conclusion, route, plan, specification, right, franchise or contract by the board of aldermen or any department or officer of the city shall be necessary.

The board of estimate and apportionment shall have also (4) power to grant its consent to any owner or lessee of real property and to any individual, joint-stock association or corporation engaged in any lawful business, to construct and use for its or their private use, any pipes, conduits and tunnels, under railroad tracks upon, and connecting bridges over any of the streets, avenues, highways, boulevards, concourses, driveways, bridges, tunnels, parks, parkways, waterways, docks, bulkheads, wharves, piers or public grounds or waters within or belonging to the city. Such consent shall continue only during the pleasure of the board of estimate and apportionment, and shall be revocable at any time, but no such consent shall be granted for a longer period than ten years, at the expiration of which period such consent shall cease and determine, unless upon a new application being made prior to such expiration, a further extension of such revocable consent shall have been made for a period of not exceeding ten years and upon such terms and conditions as the board of estimate and apportionment may then impose. The form of such consent shall be by resolution of the board of estimate and apportionment, and shall not be operative until the same be in writing approved by the mayor separately from and after action by the board of estimate and apportionment. Such consents may contain such terms and conditions as the board of estimate and apportionment may prescribe and shall provide for adequate compensation to be paid annually to the city during the continuance of the consent. Provided no revocable consent granted under subdivision four of this section shall authorize any individual, joint-stock association or corporation to carry on a business of a public service character.

Sec. 2. This act shall take effect immediately.

Explanation—Matter in italics is new; matter in parentheses () is old law to be omitted.

The following was offered:

Whereas, The Board of Estimate and Apportionment of The City of New York has succeeded to certain of the powers formerly possessed and exercised by the Board of Aldermen of The City of New York, among which is the granting of revocable consents to individuals and corporations to maintain certain structures in the streets for their exclusive use, which consents have in all cases been revocable at the pleasure of the Board granting same; and

Whereas, It appears advisable that all doubt as to the powers of this Board in the premises should be removed; now therefore be it

Resolved, That the proposed amendment to section 242 of the Charter, this day presented to this Board with a report from the Engineer in Charge of the Division of Franchises to the Chief Engineer be and the same is hereby approved; and be it further

Resolved, That the Corporation Counsel be and he is hereby requested to secure the introduction of such bill in the Legislature of the State of New York at the present session and to direct the representative of the City at Albany to use his best efforts to secure its passage in the present session.

Brooklyn Union Elevated Railroad Company.

In the matter of the construction of a bridge over the tracks and right of way of the Brooklyn Union Elevated Railroad Company, at its intersection with Lincoln place, Borough of Brooklyn, as required by resolution adopted by this Board June 26, 1908, approved by the Mayor June 30, 1908.

The Secretary presented the following:

REPORT No. F-107.

Board of Estimate and Apportionment,
Office of Chief Engineer,
January 17, 1910.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—For several years past the Board of Estimate and Apportionment has been endeavoring to secure the construction by the Brooklyn Union Elevated Railroad Company of bridges across the tracks of the Brighton Beach Division of this line at Lincoln place, formerly Degraw street, in the Borough of Brooklyn, and owing to the fact that the original rights granted to this line appeared to provide for the construction of this and other bridges, the Board called upon the company to build a bridge at Lincoln place. The company declined on the ground that it was not obliged to construct these bridges. The Corporation Counsel, to whom the matter was referred, held that the position assumed by the company was not tenable, and that proceedings would be commenced to compel it to build this structure. An action was, therefore, commenced. On December 14, 1909, however, the Corporation Counsel advised the Board that Justice Thomas, before whom the case was tried, has been transferred to the Appellate Division before it was decided, and that the case would have to be argued anew before another Judge.

The development of that portion of the City traversed by Lincoln place and also Carroll, President and Union streets will make bridges at all of these streets very necessary, and assuming that the Board would wish to have the responsibility of the company for the construction of such bridges definitely determined, I am submitting herewith a report of the Engineer in Charge of the Division of Franchises, reviewing the case in somewhat more detail, together with a resolution requesting the Corporation Counsel to prosecute this action as expeditiously as possible in order that a speedy decision may be obtained.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Board of Estimate and Apportionment,
Division of Franchises,
January 13, 1910.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—In June, 1908, the President of the Borough of Brooklyn called the attention of this Division to the necessity of a bridge across the tracks of the Brighton Beach

Division of the Brooklyn Union Elevated Railroad at Lincoln place (formerly Degraw street), and stated that he had been advised that the Brooklyn Union Elevated Railroad Company, as the successor of the Coney Island and East River Railroad Company, was obligated to build such a bridge.

Examination was made of the rights granted to these companies, and it was found that such was a fact, and, on June 26 a report was submitted, together with a proposed resolution, calling upon the Brooklyn Union Elevated Railroad Company to construct, at its own expense, a bridge across the tracks of the company and to submit plans for the same within sixty days from the date of the approval of the resolution, and that, upon the approval of such plans, it should commence and complete construction of such bridge in four months thereafter, under the supervision of the local authorities, and, further, to advise the Board within ten days whether it would comply with the terms of the resolution. (See minutes, page 2321.) The resolutions were adopted, and approved by the Mayor on June 30.

Under date of July 28, the company replied, declining to build the bridge and disclaiming all responsibility, and the matter was thereupon sent to the Corporation Counsel to advise the Board of its responsibility under the terms of the original grant.

This letter of the company was presented to the Board at its meeting of September 18, and laid over, pending an opinion from the Corporation Counsel. (See Minutes, page 2785.)

An opinion of the Corporation Counsel, dated September 21, was presented at the meeting of October 2, and stated that the grounds upon which the company declined to obey the resolution of the Board, as adopted, were not tenable, and concluded as follows:

"In the absence of instructions to the contrary, proceedings will be commenced to enforce the action of your Honorable Board."

—(See Minutes, page 2943.)

Subsequently, on December 14, 1908, the Corporation Counsel advised that

"A proceeding to compel the Brooklyn Union Elevated Railroad Company to construct a bridge at Lincoln place, in the Borough of Brooklyn, has been commenced and a motion for a mandamus is returnable at a special term of the Supreme Court of Kings County on the 21st inst."

—(See Minutes, January 8, 1909, page 67.)

On December 14, 1909, just one year later, a second communication was received from the Corporation Counsel, stating that the motion was argued before Mr. Justice Thomas in February, but was not decided before his assignment to the Appellate Division, and, in consequence, the motion would have to be argued anew before another judge sitting in Special Term. (See Minutes, December 23, 1909.)

On January 12, 1909, in company with the Chief Engineer of the Topographical Bureau and the Chief Engineer of Highways of the Borough of Brooklyn, I made an inspection of the district between Classon and Franklin avenues, St. Johns place and Montgomery street, and it was self-evident that the development of this district is being seriously retarded by inability to use Lincoln place as a continuous street, the street having been legally open since 1892, and was graded and curbed on each side of the railroad about 1906.

Mr. Otto Singer, a large property owner on Lincoln place, has been to see me several times, protesting against the delay in settling the responsibility for the building of this bridge, as he is desirous of immediately improving his property.

The Borough President has also called attention to the matter, and it seems now that every effort should be made to settle the question at once.

A proceeding is also under way for opening Carroll, President and Union streets, which are all crossed by this railway at subgrade, and I am informed that the oaths of office of the Commissioners appointed in this proceeding were filed in June, 1909. As soon as the title vests in the City, the streets should be immediately improved, for the Chief Engineer of Highways states that this is the centre of a very rapidly growing district. All three of the above streets are included in the resolution of 1876, granting the rights under which the railroad was constructed and is now operated, and under which resolution it was required that good and substantial iron bridges must be built by the company upon ninety days' notice from the City.

It would appear that unless it is definitely determined whether or not the Railroad Company shall build these bridges, a serious delay will ensue in regard to the opening of these streets across the tracks of the company.

This matter was called to the attention of the Board nearly two years ago, and it is extremely unfortunate that greater progress has not been made.

I would therefore suggest that the Board adopt a resolution calling upon the Corporation Counsel to take up the action commenced in this matter and prosecute it with every possible diligence, to the end that a definite decision may be reached. A resolution in accordance therewith is herewith inclosed.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

The following was offered:

Whereas, Resolutions were adopted by this Board on June 26, 1908, approved by the Mayor June 30, 1908, calling upon the Brooklyn Union Elevated Railroad Company to submit plans for a bridge to be constructed by it across its tracks at Lincoln place (formerly Degraw street), in the Borough of Brooklyn; and

Whereas, The company declined to comply with such resolutions; and

Whereas, The Corporation Counsel was directed to take action to compel the Railroad Company to obey the resolutions of the Board and did, on December 8, 1908, commence an action for a peremptory writ of mandamus; and

Whereas, This matter is still undetermined; and

Whereas, It is most important that this question be determined at the earliest possible date, as the growth of this district in Brooklyn is seriously retarded in consequence of the failure of the Brooklyn Union Elevated Railroad Company to live up to its obligations; now therefore be it

Resolved, That the Corporation Counsel be requested to prosecute this action with every possible diligence in order that a speedy decision may be reached.

Queens Lighting Company.

At the meeting of December 10, 1909, by resolution duly adopted, the Secretary was directed to request this Company to advise the Board, on or before December 22, 1909, as to its intentions in connection with its application for a franchise, and to notify the Company that if such information was not received by such date action would be taken at the meeting of December 23 denying the application, and on the latter date action was deferred until February 18, 1910.

The Secretary presented the following:

William J. Bolger, Counsellor at Law,
No. 146 Broadway,
New York, January 10, 1910.

Board of Estimate and Apportionment:

GENTLEMEN—The Queens Lighting Company made application on June 7, 1907, to your Board for the right to construct and maintain gas mains in the Borough of Queens in certain territory in the westerly part of the Borough not then supplied by gas.

On June 14, 1907, your Board adopted a resolution fixing a date for a public hearing on the petition and that resolution was duly published for ten days in the "Daily News" and the "New York Times."

On July 8, 1907, the public hearing on the petition was held and a form of franchise or contract was duly adopted and a resolution was passed directing the publication of the franchise for twenty days in the City Record and twice during ten days immediately prior to September 20, 1907, in the "New York Daily News" and the "New York Times."

On September 20, 1907, a public hearing was had and the matter of the granting of the franchise was referred to the Comptroller.

On October 4, 1907, the matter came up before the Board of Estimate and Apportionment on the report of the Comptroller and the franchise was passed unanimously and went to the Mayor for his signature.

Before the same could be signed, the franchise was recalled from the Mayor, upon the request of the Comptroller, and was referred back to the Comptroller, where it remained until the present year. Some time during the summer of the year 1909, the Comptroller reported that the franchise should be amended in certain particulars and that it should be readvertised. This Company is not willing to accept the franchise as amended.

The matter came on again before the Board of Estimate and Apportionment on December 23, 1909, and was laid over until February 18, upon the request of the representatives of the Company, who stated that nothing could be done with the franchise by the Board of Estimate and Apportionment as it then existed, and as it would ultimately come before the present Board of Estimate and Apportionment, it was advisable to lay the matter over and let the subject be considered by the present Board.

This Company has expended approximately \$5,000 for the advertising, printing and maps necessarily required for the uses of the Board of Estimate and Apportionment up to the present time. The franchise which was advertised on October 4, 1907, was duly advertised, public hearings were duly held both on the petition and on the final form of the franchise; the Engineers of the City had duly reported upon the franchise; the Corporation Counsel had approved of the contract as to form and the Board of Estimate had unanimously passed the franchise, and no reason, so far as this Company is aware, has ever been advanced as to why the franchise adopted on October 4 should not have been signed by the Mayor and have become operative.

The Company is now willing to accept the form of franchise as adopted by the Board of Estimate on October 4, 1907, and requests your Honorable Board to place the same upon the calendar and give the Company an opportunity to be heard upon that form of franchise.

Yours respectfully,

WM. J. BOLGER, Attorney for Queens Lighting Company.

REPORT NO. F-40.

Board of Estimate and Apportionment,
Office of the Chief Engineer,
January 17, 1910.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On October 4, 1907, the Board of Estimate and Apportionment authorized the granting of a franchise to the Queens Lighting Company, permitting it to lay and maintain gas mains in a portion of the Borough of Queens. The resolution granting the franchise was, however, recalled by the Board before it had been signed by the Mayor, and it was subsequently rescinded. On July 2, 1909, the Board gave a public hearing on another form of contract for this franchise, but before any action was taken, and in fact before the necessary advertising was done, the officers of the company became dissatisfied with the amended form of contract and stopped the advertising. On December 10, 1909, nothing having been heard from the company, the Board adopted a resolution directing the Secretary to notify the company that if nothing were heard from it by or before December 22, the application would be denied. At the meeting of December 23, a communication was submitted by the company requesting that further time be allowed, and consideration was postponed until February 18, 1910.

Under date of January 10, 1910, the attorney for the company has asked for a reconsideration, and states that the company is willing to accept the form of franchise originally adopted. Inasmuch as the company has already expended about five thousand dollars for advertising and printing, it is reluctant to incur additional expense unless there is a reasonable prospect of its securing a franchise substantially in the form of that which the Board proposed to grant in 1907.

I submit herewith a report from the Engineer in charge of the Division of Franchises, together with a statement of the proceedings heretofore taken, in order that the members of the Board may be fully advised as to the circumstances, and would suggest that a public hearing be given as to the desirability of making this grant. A resolution is herewith submitted, fixing February 4, 1910, as the date for such a hearing, provided the Board decides to follow this course.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

Board of Estimate and Apportionment,
Division of Franchises,
January 14, 1910.

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—In connection with the application of the Queens Lighting Company for a franchise to lay and maintain gas mains in a portion of the Borough of Queens for the purpose of supplying gas to the residents thereof, the Board on December 23, 1909, deferred consideration of the matter until February 18, 1910. The company, by its attorney, Mr. William J. Bolger, has now applied for reconsideration of the application by a communication dated January 10, 1910, and states that it is now willing to accept the form of franchise adopted by the Board on October 4, 1907.

The resolution passed October 4, 1907, was never approved by the Mayor, it being recalled by the Board before he had approved the same, and was later rescinded. On July 2, 1909, the Board adopted another resolution fixing the date for a public hearing on another form of contract for the grant of this franchise, being similar in form to that approved October 4, 1907, except for those amendments suggested by the Comptroller in a report submitted to the Board on June 25, 1909. The company, however, became dissatisfied with the amended form and stopped the advertising of the public hearing, since which date no further definite action has been taken in regard to the matter.

From the communication of the attorney for the company it appears that up to the present it has expended, approximately, the sum of five thousand dollars for advertising and printing, most of which appears to have been expended in the belief that it would be granted the franchise which was approved by the Board on October 4, 1907.

It is claimed by representatives of the company that the public necessity which existed for the granting of the franchise when the application was made, continues to the present day, notwithstanding the fact that a company, which it is stated is the Woodhaven Gas Light Company, has extended its mains into this territory, as this company has only laid mains to supply consumers residing on a few of the streets of the Village of Queens (so-called), which is but a small portion of the territory in which the Queens Company desires permission to operate.

The company before expending any more money in this connection desires to obtain some assurance that such expenditures will be warranted by the obtaining of some results, and as from the apparent necessity for this franchise and the desire of the company in good faith to obtain the same it would seem that the Board may wish to consider the matter, I would suggest that if such is the case and for the purpose of coming to a determination as to what course it desires to pursue the Board could hold a public hearing after advertising in the City Record for the purpose of obtaining the views of those interested and the citizens of the territory as to the desirability of the grant, and am enclosing a form of resolution for that purpose, fixing Friday, February 4, as the date for the hearing.

I am also enclosing herewith copies of the report of this Division dated July 3, 1907, on the company's amended application, and copies of the form of contract approved by the Board on October 4, 1907, which the company states it is willing to accept, and am appending hereto a statement of all the proceedings before the Board in connection with this matter, so that the members of the Board in considering the application may, if they come to the conclusion that they desire to make the grant, have before them full information on which can be based a determination as to the form of contract for that purpose.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

Statement of Proceedings Before Board in Connection with Application of Queens Lighting Company.

At the meeting held on December 7, 1906, the petition of the company for a franchise, authorizing it to lay and erect mains and conductors for the purpose of supplying gas, electricity and steam in any part of the Borough of Queens, was presented to the Board and by it referred to the Bureau of Franchises. (Minutes, 1906, page 3036.)

This Division then communicated with the company for the purpose of obtaining information in regard to its capitalization and the construction and other work which it proposed to do in this territory, and in answer to these communications certain information was furnished to the Division and the company, on June 7, 1907, withdrew its application and presented a new petition for permission to lay mains to supply gas to a limited territory in the Borough of Queens. This new petition was presented to the Board at its meeting held June 14, 1907, and on that date a resolution was adopted fixing July 8, 1907, as the date for the preliminary hearing on the petition. (Minutes, 1907, page 1977.)

The public hearing so fixed was held on July 8, and on the same date a report of this Division dated July 3, 1907, together with a proposed form of contract for the granting of the franchise applied for, was submitted for the consideration of the Board. (Minutes, 1907, page 2527.) The Board thereupon adopted a resolution referring the form of contract to the Corporation Counsel for his approval as to form and for the purpose of incorporating therein such matter as he might deem necessary to fully protect the interests of the City, and also fixed the date for a public hearing on the proposed contract for September 20, 1907. (Minutes, 1907, pages 2534 to 2550.)

The Corporation Counsel on August 12, 1907, addressed a communication to the Board, suggesting the insertion of certain clauses in the form of contract, upon the incorporation of which he approved the same. (Minutes, 1907, pages 2838 and 2839.)

The public hearing was held on September 20, 1907, at the close of which the matter was referred to the Comptroller. (Minutes, 1907, pages 2838 to 2840.)

On October 4, 1907, there was submitted to the Board a report of the Comptroller's Chief Engineer approving of the form of contract, said report being approved by the Comptroller. Thereupon the Board adopted a resolution granting the franchise and authorizing the Mayor to execute the contract. (Minutes, 1907, pages 3117 to 3132.)

The resolution was thereupon transmitted to the Mayor for approval, but at the meeting held on October 11, 1907, the Comptroller offered a resolution requesting the Mayor to return the same, which said resolution was adopted, whereupon the Mayor returned the resolution to the Board, the same not having been approved by him up to that date. The Comptroller then moved that the vote of October 4, adopting the resolution, be reconsidered, which motion was carried. The matter was then referred to the Comptroller. (Minutes, 1907, pages 3229 and 3230.)

It appears that the company applied to the Supreme Court for a writ of mandamus to compel the Mayor to approve the resolution and sign the contract, but the Corporation Counsel, on November 26, 1907, advised the Board that Justice O'Gorman had denied the application. (Minutes, December 6, 1907, page 4052.)

The Comptroller, at the same meeting, submitted a report in regard to the terms of the proposed franchise as contained in the form of contract, in which report he claimed that the compensation proposed to be exacted was insufficient in view of the value of the grant. The suggestion was made that in order to obtain compensation commensurate with the value of the grant, the franchise should be offered at public auction. This report was ordered filed. (Minutes, 1907, pages 4052 to 4055.)

On February 14, 1908, pursuant to instructions from the Mayor, the Chief Engineer submitted a report of this Division, dated December 18, 1907, calling attention to previous results in the selling of franchises at public auction in New York City, and explaining why the initial charge proposed for the franchise to the Queens Lighting Company was not larger than \$1,000. This report the Board ordered forwarded to the Comptroller by the Secretary. (Minutes, February 14, 1908, page 601.)

On March 6, 1908, in a report presented to the Board on March 20, 1908, the Comptroller answered the various contentions of this Division in regard to the sale of franchises at public auction. (Minutes, 1908, page 928.)

Nothing further occurred in relation to the matter until June 25, 1909, when there was submitted to the Board a report of the Comptroller recommending the granting of the franchise upon the amendment of the form of contract as follows:

First—By increasing the initial payment from \$1,000 to \$5,000.

Second—By requiring the company to build a gas plant of the capacity of 40,000,000 cubic feet per annum in the territory covered by the franchise within fifteen months from the signing of the contract; and

Third—By reducing the term of the construction of five miles of mains from two years to one year and the time for the extension of the mains to Springfield and other points from ten years to two years.

This report stated that the changes suggested had been accepted by the company. (Minutes, June 25, 1909, page 3187.)

The matter was thereupon referred to the Chief Engineer to prepare the necessary resolutions. These resolutions were prepared and the same were submitted by the Chief Engineer to the Board on July 2, 1909, together with a report of this Division dated June 29, 1909. Thereupon the resolution submitted rescinding the resolution of October 4, 1907, authorizing the execution of the franchise contract, was adopted and a further resolution was adopted fixing September 17, 1909, as the date for a public hearing on the form of contract amended in accordance with the Comptroller's suggestions. (Minutes, 1909, page 3579.)

It appears, however, that the officials of the company took steps to stop the advertising of the public hearing and a report calling attention to this fact was submitted at the meeting of September 17. (Minutes, 1909, page 4077.) Action on the matter was thereupon deferred and the Secretary was directed to communicate with the company to ascertain its intentions.

On December 10, 1909, nothing definite having been heard, the Board adopted a resolution directing the Secretary to advise the company that if nothing were heard from it by December 22, action would be taken by the Board at its meeting to be held on December 23, denying its application. (Minutes of Board printed in CITY RECORD December 14, 1909.)

At the meeting of December 23, 1909, there was presented a communication from the company dated December 21, requesting that the matter be laid over, and, on motion of the Comptroller, action was deferred until February 18, 1910. (Minutes of Board printed in CITY RECORD December 29, 1909.)

The following was offered:

Whereas, The Queens Lighting Company by a communication addressed to this Board and dated January 10, 1910, has requested the consideration of its petition for a franchise to lay mains and supply gas in a portion of the Borough of Queens; and

Whereas, It appears desirous to this Board to hold a public hearing for the purpose of obtaining information as to the desirability of making this grant and the public necessity therefor; now therefore be it

Resolved, That this Board fixes Friday, February 4, 1910, as the time when and the old Council Chamber, City Hall, Borough of Manhattan, as the place where this Board will hold a public hearing for the purpose of inquiring into the desirability of and the public necessity for the grant of the franchise applied for by the Queens Lighting Company, at which hearing citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary be and he is hereby directed to insert the following notice of such public hearing in the CITY RECORD during the ten (10) days immediately preceding such public hearing, to wit:

Notice is hereby given that the Board of Estimate and Apportionment at its meeting to be held on Friday, February 4, 1910, at 10.30 a. m. in the old Council Chamber, City Hall, Borough of Manhattan, will hold a public hearing at which citizens will be entitled to appear and be heard, for the purpose of inquiring into the desirability of and the public necessity for the grant of a franchise to the Queens Lighting Company, to lay mains and supply gas in the easterly portion of the Borough of Queens, embracing within its limits the following sections or villages (so-called):

Little Neck, Creedmoor, Holliswood, Queens, St. Albans, Springfield, Laurelton, Rosedale, Jamaica Gardens and Idlewild Park.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Fleischauer Brothers and John Keenan.

By resolution adopted by this Board December 3, 1909, approved by the Mayor December 6, 1909, the consent granted by the Board of Aldermen to Fleischauer Brothers and John Keenan to install, maintain and use two iron pipes under and across First avenue, connecting premises Nos. 788 and 789, was rescinded, and said parties were directed to remove these pipes and certain unauthorized substructures and all appurtenances thereto from within the lines of First avenue, and upon failure or neglect so to do, the President of the Borough of Manhattan was directed to remove same and charge the expense to said parties. The Comptroller was also authorized and requested to make formal demand for certain compensation due and advise the Board within thirty days after such demand as to whether or not such money had been paid.

The Secretary presented the following:

City of New York, Department of Finance, }
January 13, 1910. }

Mr. HARRY P. NICHOLS, Engineer in Charge, Bureau of Franchises, No. 277 Broadway, New York City:

DEAR SIR—In accordance with a resolution of the Board of Estimate and Apportionment, adopted December 3, 1909, you are hereby notified that formal demand was made by this Department, under date of December 14, 1909, on Fleischauer Brothers, for the payment of \$1,963.20 and \$7,022.52, as compensation due The City of New York for the use and occupation of First avenue by unauthorized pipes.

I have also to inform you that Fleischauer Brothers have not formally replied to this demand, but in conversation over telephone have stated that the matter has been placed in the hands of their attorney, Mr. A. D. Parker, of St. Paul Building, who, upon inquiry, states by telephone that nothing has been done in the matter.

Yours respectfully,

WM. A. PRENDERGAST, Comptroller.

REPORT No. F-191.

Board of Estimate and Apportionment, }
Division of Franchises, }
January 18, 1909. }

Mr. NELSON P. LEWIS, Chief Engineer:

SIR—The Board of Estimate and Apportionment adopted a resolution on December 3, 1909, which was duly approved by the Mayor on December 6, 1909, rescinding a resolution adopted by the Board of Aldermen on May 19, 1896, which became effective on June 2, 1896, granting permission to Fleischauer Brothers and John Keenan to install, maintain and use two iron pipes under and across First avenue, from No. 788 to No. 789 First avenue, Borough of Manhattan, and directing the said Fleischauer Brothers and John Keenan to remove on or before January 3, 1910, two iron pipes installed under the authority of said resolution and also to remove by the same date six other pipes and a certain wooden conduit installed at the same point without proper authority. The resolution also provided that should the said Fleischauer Brothers and John Keenan neglect to remove those substructures within the time specified that the President of the Borough of Manhattan should remove the pipes and restore the pavement at the expense of Fleischauer Brothers and John Keenan.

It was further provided in the same resolution that the Comptroller make formal demand upon Fleischauer Brothers and John Keenan for certain sums of money claimed to be due to the City for the said structures, and the Comptroller was requested to report to the Board within thirty days after such demand whether or not such moneys had been paid.

In accordance with such provision the Comptroller on January 13, 1910, advised me that on December 14 formal demand was made on Fleischauer Brothers for the payment of the sums due to the City, but that the claim has not been paid.

On January 17, 1910, I caused an examination to be made, and it was found that the pipes are still in existence, entering the cellar of the building on the easterly side of First avenue opposite the premises of Fleischauer Brothers. It could not be ascertained if the pipes still entered the premises of Fleischauer Brothers, as entrance for the purpose of examination was denied. However, the street surface presents no evidence of having been opened for the purpose of removing the pipes, and I am informed that the Bureau of Highways has issued no permit to Fleischauer Brothers for the removal of the pipes. It would therefore appear that Fleischauer Brothers and John Keenan have not removed the pipes as directed.

In view of these facts I would suggest that a copy of this report be forwarded to the President of the Borough of Manhattan for his information in order that the pipes may be removed by him as directed in the resolution adopted by the Board December 3, 1909.

I would also suggest that the Corporation Counsel be requested to take action for the collection of the sums claimed to be due to the City for the said pipes from Fleischauer Brothers and John Keenan, and that the Borough President be further requested to advise the Corporation Counsel of the cost of the removal of the pipes and the restoration of the pavement after such work has been completed, in order that such costs may be included in any action which the Corporation Counsel may take for the collection of the amounts due to the City.

A resolution in accordance with these suggestions is herewith submitted.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

Approved:

NELSON P. LEWIS, Chief Engineer.

The following was offered:

Whereas, In accordance with a resolution adopted by the Board of Estimate and Apportionment December 3, 1909, and approved by the Mayor December 6, 1909, the Comptroller has advised the Board that formal demand was made on December 14, 1909, on Fleischauer Brothers for the payment of certain sums claimed to be due the City as compensation for the use and occupation of First avenue, in the Borough of Manhattan, near Forty-fourth street, by certain pipes, but such sums have not been paid; and

Whereas, It would appear that the said pipes and a certain wooden conduit have not been removed from within the lines of First avenue as directed by the said resolution of December 3, 1909; now therefore be it

Resolved, That after the removal of the said pipes by the President of the Borough of Manhattan, as directed in said resolution of December 3, 1909, that the Borough President forward to the Corporation Counsel a statement of the cost of removing the said pipes and restoring the street pavement; and be it further

Resolved, That the Corporation Counsel be and he hereby is requested to commence action against said Fleischauer Brothers and John Keenan for the collection of all moneys due the City for use and occupation of the street including the cost of the removal of said pipes.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Jacob Ruppert.

The Secretary presented the following:

New York, December 1, 1909.

To the Board of Estimate and Apportionment:

Your petitioner, who is the sole owner of the brewing business now conducted in the premises hereinafter described, respectfully applies for permission to construct and maintain a tunnel under East Ninety-first street, in the Borough of Manhattan, City of New York, connecting the buildings on the north and south sides of said street; and also to construct and maintain a tunnel under East Ninety-second street, in the Borough of Manhattan, City of New York, connecting the buildings on the north and south sides of said street, consistent with the plans filed herewith.

Your petitioner is the owner in fee of the property with the improvements thereon sought to be connected by said tunnels.

Your petitioner would use said tunnels for passageways for his employees and for the purpose of conducting electric light wires, steam, refrigerating and air pipes between the power plant on the north side of Ninety-second street and the other departments of the establishment; and for these several uses and beer pipes between the buildings on either side of Ninety-first street, exclusively for the purpose of your petitioner's business; the said buildings being used exclusively by your petitioner in his brewing establishment in the premises aforesaid.

Respectfully submitted,

JACOB RUPPERT.

State of New York, City and County of New York, ss.:

Jacob Ruppert, being duly sworn, deposes and says that he is the petitioner herein; that he has read the foregoing petition and knows the contents thereof, and that the same is true of his own knowledge, except as to the matters therein stated to be alleged on information and belief, and that as to those matters he believes it to be true.

JACOB RUPPERT.

Sworn to before me this 1st day of December, 1909.

REPORT No. F-201.

Board of Estimate and Apportionment,
Division of Franchises,
January 14, 1910.

MR. NELSON P. LEWIS, Chief Engineer:

SIR—In a communication, dated August 30, 1909, the Commissioner of Water Supply, Gas and Electricity called the attention of the Board of Estimate and Apportionment to the apparently unauthorized existence of two tunnels under and across East Ninety-first street and East Ninety-second street, respectively, in the Borough of Manhattan, between Second and Third avenues, maintained and used by Jacob Ruppert and connecting his buildings on opposite sides of said streets.

The matter was referred to the Chief Engineer at the meeting held September 17, 1909.

I caused an examination to be made and it was found that the tunnel under and across East Ninety-second street was authorized by a resolution adopted by the Board of Aldermen on March 18, 1884, returned by the Mayor on March 31, 1884, with his objections, but reconsidered as provided in section 75, chapter 410 of the Laws of 1882, and adopted notwithstanding the objections of the Mayor, two-thirds of all the members elected voting in favor thereof.

However, the examination revealed no authority for the existence of the tunnel under East Ninety-first street, which was found to be six feet wide and six feet high, inside dimensions. The attention of Jacob Ruppert was called to this fact and it was requested that if no authority could be furnished, application be made to the Board of Estimate and Apportionment for permission to continue to maintain and use the tunnel.

As a result of this request, Jacob Ruppert has now presented a petition to the Board dated December 1, 1909, which was referred to the Chief Engineer at the meeting held December 10, 1909, for permission to construct, maintain and use two tunnels, one under and across East Ninety-first street between Second and Third avenues, in the Borough of Manhattan, and the other under and across East Ninety-second street between the same avenues. The petition recites that the tunnels are to be used as passageways for employees, and for the purpose of conducting electric light wires, steam, refrigeration, air and beer pipes between the power plant of the petitioner located on his property on the northerly side of Ninety-second street and the other departments of his brewing business located on his property in the block between Ninety-first and Ninety-second streets and on the southerly side of Ninety-first street.

The petitioner is now engaged in erecting a new building on the southeasterly corner of Ninety-first street and Third avenue, and the proposed tunnel under East Ninety-first street is designed to connect with that building. After the completion of this tunnel there will be no further reason for the existence of the unauthorized tunnel now in existence under East Ninety-first street, and it will be made a provision of the consent for the new tunnels that the old tunnel be entirely removed from within the lines of East Ninety-first street. The proposed tunnel in East Ninety-second street is in addition to the one now existing, authorized as above recited, by the Board of Aldermen on March 31, 1884.

Copies of the application and accompanying plan were sent to the President of the Borough of Manhattan, and to the Commissioner of Water Supply, Gas and Electricity, with a request that examinations be made by the various bureaus having jurisdiction with a view to ascertaining if there are any objections to the project or any conditions which should be inserted in the form of consent heretofore used by the Board for similar privileges.

The reply from the Department of Water Supply, Gas and Electricity stated that there are no objections to the project and no special conditions necessary to be inserted in the form of consent in this case, but the reply from the Acting President of the Borough of Manhattan stated that the report of the Chief Engineer of Sewers showed that the tunnels as designed would cut into the sewer in each street and, therefore, that the plans should be altered so as to allow the sewers to remain intact. The petitioner was notified of this objection and requested to confer with the Chief Engineer of Sewers with a view to so modifying the plans as to overcome this objection. This has been done and the plans have been altered to provide that there shall be no interference with the sewers in either street.

As there now appears to be no objection to the construction, maintenance and use of the proposed tunnels, I can see no good reason why the requested permission should not be given and would recommend that consent be granted during the pleasure of the Board of Estimate and Apportionment, but in no case to extend beyond ten (10) years from the date of the approval by the Mayor, and revocable on sixty (60) days' notice in writing, and that it may be made a condition of the consent that a security deposit in the sum of two thousand dollars (\$2,000) be required, said deposit to be either in the form of money or securities to be approved by and deposited with the Comptroller for the faithful performance of the terms and conditions of the consent.

The total area of the proposed tunnel in East Ninety-second street, between building lines, is 780 square feet, and the average assessed valuation of the properties to be connected by said tunnel has been estimated to be \$4.03 per square foot. The area of the tunnel in East Ninety-first street, between building lines, is also 780 square feet, and the average assessed valuation of the properties to be connected by said tunnel was estimated to be \$5.06 per square foot. On the basis of compensation heretofore adopted by the Board in similar cases, viz., 8 per cent. of the assessed valuation of the plan area of the structure per annum for the first term of five years with a 5 per cent. increase for the succeeding term of five years, the annual charges will be as follows: For the tunnel under East Ninety-second street, two hundred and fifty dollars (\$250) per annum, and for the tunnel under East Ninety-first street, three hundred and fifteen dollars (\$315) per annum, making the total charge for both tunnels during the first term of five years the annual sum of five hundred and sixty-five dollars (\$565), and during the second term of five years the annual sum of five hundred and ninety-three dollars (\$593). This compensation should commence on the date of the approval of the consent by the Mayor.

The petitioner has informed me that the unauthorized tunnel in East Ninety-first street was constructed in 1877, before the street was physically opened, and from the

best information obtainable was used up to 1884 as a passageway only. That from 1884 to 1906 the tunnel was not used but was boarded up and in 1906 reopened, and it has since been used to convey steam, air, water, beer, gas and sewer pipes and electric cables between the petitioner's buildings.

As this tunnel was constructed without proper authority Jacob Ruppert should be required, in accordance with the procedure in several similar cases of unauthorized structures within the streets, to pay into the City Treasury compensation for the use and occupation of the street from July 29, 1903, the date of adoption by the Board of Estimate and Apportionment of the resolution fixing the rate of charge for private structures in the city streets. On that basis, above recited, the charge for this tunnel would be two hundred and thirteen dollars (\$213) per annum. At this rate the total amount due from July 29, 1903, to January 21, 1910, with interest at six per cent., will be one thousand six hundred and eighty-five dollars and twenty-two cents (\$1,685.22). It has been made a condition of the consent that this sum shall be paid into the City Treasury within thirty (30) days of the approval of the resolution by the Mayor. After consultation with the petitioner it has been provided in the consent that the new tunnel shall be completely constructed and the unauthorized tunnel in East Ninety-first street completely removed within nine (9) months from the date of approval of this consent by the Mayor.

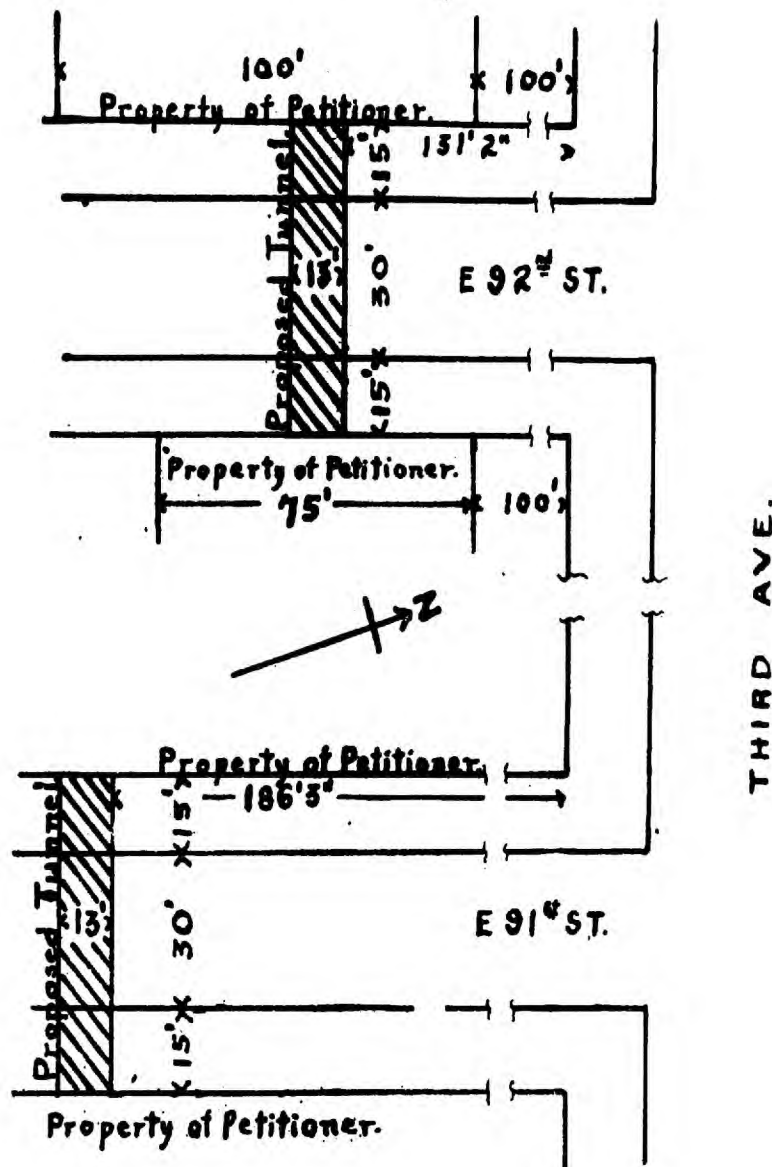

A resolution granting the requested consent in accordance with the hereinabove contained recommendations is herewith submitted.

Respectfully,

HARRY P. NICHOLS, Engineer in Charge.

ALFRED E. STEERS, President, Borough of Brooklyn.

AQUEDUCT COMMISSION.

Minutes of Meeting Held Tuesday, December 14, 1909.

Minutes of Stated Meeting of the Aqueduct Commissioners, Held at Their Office, No. 280 Broadway, New York City, on Tuesday, December 14, 1909, at 11 o'clock a. m.

Present—Commissioners Cowan (President), Ten Eyck, Ryan and Windolph, and Chief Engineer Sears.

The minutes of November 30, 1909, were read and approved.

The Committee of Finance and Audit reported the examination and audit of bills contained in open market orders, Vouchers Nos. 125 to 131 inclusive, amounting to \$491.15, and of miscellaneous bills contained in Vouchers Nos. 163 to 168 inclusive, amounting to \$278.03, which were approved and ordered certified to the Comptroller for payment, by the following vote:

Affirmative—Commissioners Cowan, Ten Eyck, Ryan and Windolph—4.

The President reported receipt of communication from M. J. Byrne, Town Clerk of the Town of Somers, N. Y., dated November 30, 1909, in reply to communication in regard to the boundaries of School District No. 1 of said town and bill for taxes purporting to be assessed against City property located in the Town of Carmel, Putnam County, which is claimed to be taxable in School District No. 1, Town of Somers, Westchester County, for school purposes; and stated that he had communicated with the County Treasurer of Putnam County on December 2, 1909, in regard to the matter; which action was approved and the communications ordered filed.

The President also reported that on December 6, 1909, he had communicated with the Corporation Counsel in regard to report of Acting Chief Engineer, dated November 26, 1909, relative to certain parcels of property belonging to the City which had been sold for the non-payment of taxes in the Towns of Carmel and Southeast, N. Y., which action was approved and the communication ordered filed.

The President also reported receipt of circular letter from William B. Crowell, Assistant Corporation Counsel, Office of the Mayor, dated November 23, 1909, requesting information to aid the Mayor-elect in the preparation of the annual message required by the Charter, and stated that he had replied thereto; which action was approved and communication ordered filed.

The President also reported that on December 6, 1909, he had communicated with the Charter Legislative Committee in regard to the proposed Charter in relation to the subject of the water supply of The City of New York; which action was approved.

The President also reported receipt of communication from L. F. Seyfert's Sons, Incorporated, dated December 7, 1909, inquiring in regard to proposed purchase of certain pipe, and stated that he had referred the same to the Chief Engineer for report; which action was approved.

The President also reported receipt of bill from New York Central and Hudson River Railroad Company, dated November, 1909, for services of Inspector, etc., in protecting tracks of said railroad during the installation by the Contractor for the Croton Falls Reservoir of culverts underneath its tracks at Cheever's switch, south of Brewster, N. Y., amounting to \$66.53; and stated that he had referred the same to the Chief Engineer for report; which action was approved.

Progress report of the Chief Engineer for the week ending December 2, 1909, was received and referred to the Construction Committee.

Report No. 1824 of the Acting Chief Engineer, dated December 4, 1909, in regard to application of Daniel J. Rooney to purchase buildings on Parcel No. 24, Croton Falls Reservoir, was received and ordered filed and said application denied.

Report No. 1825 of the Chief Engineer, dated December 6, 1909, recommending that the accompanying application of W. H. Langler, Inspector of Masonry, for a leave of absence, without pay, for three months from December 11, 1909, on account of illness, be granted, was received and ordered filed and the application granted, subject to the approval of the Municipal Civil Service Commission.

Report No. 1826 of the Acting Chief Engineer, dated December 10, 1909, in regard to communication from Seyfert's Sons, Incorporated, dated December 7, 1909, inquiring in reference to proposed purchase of certain pipe, was received and ordered filed and the President directed to ascertain whether the pipe in question can be used by the Department of Water Supply, Gas and Electricity, before it is offered for sale by this Commission.

Report No. 1827 of the Acting Chief Engineer, dated December 11, 1909, in regard to bill of the New York Central and Hudson River Railroad Company, for services, etc., of Inspector in protecting the tracks of said railroad during the installation by the Contractor for the Croton Falls Reservoir of culverts underneath the tracks at Cheever's switch, south of Brewster, N. Y., amounting to \$66.53, was received and ordered filed and the President directed to forward said bill to the Croton Falls Construction Company with request that it be paid and evidence thereof furnished this Commission, and to notify the Railroad Company accordingly.

Two communications from the Comptroller, dated November 29 and December 2, 1909, stating that on November 24 and November 30, 1909, respectively, the sum of \$10,000 had been deposited to the credit of the "Additional Water Fund," were received and ordered entered on the books and filed.

Communication from the Comptroller, dated December 6, 1909, in regard to proposed new form of vouchers for payment of bills, contract, etc., was received and referred to the Committee of Finance and Audit.

Circular letter from the Secretary, Board of Estimate and Apportionment, dated December 9, 1909, in regard to appropriations and expenditures to be made under the Budget for 1910, was received and referred to the Committee of Finance and Audit.

Communication from the Secretary, Municipal Civil Service Commission, dated December 6, 1909, approving action in rescinding discharge of Thomas W. Cox, laborer, was received and ordered filed.

Communication from Assistant Chief Examiner, Municipal Civil Service Commission, dated December 2, 1909, in regard to promotion examination from the position of laborer to that of axeman for James P. Dexter, was received and ordered filed and the President directed to request that such examination be open to all laborers who have been at least three years in the service.

Communication from the Assistant Secretary of State, Washington, D. C., dated December 8, 1909, requesting information as to the laws for the protection of water-works from injury by owners of adjacent property, was received and referred to the President for reply.

The Commissioners then adjourned.

HARRY W. WALKER, Secretary.

DEPARTMENT OF DOCKS AND FERRIES.

Transactions of December 10 to December 17, 1909.

New York, December 10, 1909.

The following communications were received, action being taken thereon as noted, to wit:

From the Comptroller (84275)—Transmitting new form of vouchers with three certificates on each, to be signed by officials of this Department before being forwarded to the Finance Department for payment. Answered, that as the forms forwarded refer to obligations payable out of the moneys raised by tax, another form should be provided for Corporate Stock payments.

From the Municipal Civil Service Commission (84326)—Approving the continuance of the employment of Thomas F. Sweeney and Ambrose A. Sweeney, Gate-men. Advised that the employment of the men has ceased; that of Thomas F. Sweeney as of November 30, 1909, and that of Ambrose A. Sweeney as of December 3, 1909.

From the Department of Bridges (84290)—Stating that the transfer of Charles Connolly, Watchman, to that Department, became effective as of December 9, 1909. Name taken from this Department's list.

From Adam J. Stahle (84223)—Requesting permission to dredge in front of his pier, foot of Ninety-second street, Canarsie, Borough of Brooklyn, and to dispose of the dredged material under the platform recently built by him under permit from this Department. Permit granted, the work to be done under the supervision of the Chief Engineer.

From Clinton Stephens (84216)—Requesting permission to construct a platform in front of his property at Clasons Point, East River, Borough of The Bronx. Permit granted, the work to be done in accordance with plans to be first submitted and approved and under the supervision of the Chief Engineer, no structures to be erected on the platform without permission being first obtained from the Commissioner of Docks.

From the Empire City Subway Company, (Ltd.) (84306)—Requesting permission to open granite pavement within the marginal street area under the jurisdiction of this Department, foot of West Forty-second street, North River, for the purpose of laying wires to the West Shore Ferry Slip. Permit granted, on the usual conditions, the work to be done under the supervision of the Chief Engineer.

From the Peter Pan Fishing Club (83614)—Requesting permission to maintain its club house in its present position offshore of high water mark foot of West One Hundred and Ninety-fifth street, North River. Privilege granted, to commence as of November 1, 1909, to continue at the will of the Commissioner, and to expire by limitation of time April 30, 1910, rental to be at the rate of \$5 per month, payable monthly in advance to the Dockmaster.

From the D. Grieme Coal Company (83497)—Requesting permission to erect two iron tanks on the upland in rear of the bulkhead between West Forty-seventh and West Forty-eighth streets, North River. Permit granted, the work to be done in accordance with plans submitted, as amended, and under the supervision of the Chief Engineer, the company having filed an agreement, approved as to form by the Corporation Counsel (84097), to the effect that in the event of the City's acquiring the property, either by purchase or through condemnation, no additional item of value other than the actual cost of the structures to be erected, less depreciation, shall be claimed by the company.

From M. P. Smith & Sons Company (83431)—Requesting permission to berth steam launch "Littlewood" at bulkhead foot of Broad street, East River, immediately adjoining the terminal of the Thirty-ninth Street Ferry. Granted, the privilege begins October 1, 1909, is revocable at the will of the Commissioner, and expires by limitation of time April 30, 1910; rental to be at the rate of \$5 per month, payable monthly in advance to the Dockmaster.

From the New York Motor Boat Club (82929)—Requesting permission to occupy space 100 by 100 feet in dimensions immediately south of West One Hundred and Forty-seventh street, North River, for the storage of its boats. Privilege granted, revocable at the will of the Commissioner, and expiring by limitation of time April 30, 1910, rental to be at the rate of \$10 per month, payable monthly in advance to Dockmaster.

From William Nunley (84147)—Requesting permission to maintain a small shanty at his pier at South Beach, Staten Island. Filed, no permit being necessary.

From Charles G. Strang (83872)—Stating he no longer desires the use of the shanty heretofore occupied by him at Hassock Creek, Jamaica Bay, Borough of Queens. Permit revoked as of May 1, 1909, and Strang notified to remove the structure.

From J. Amerman (84213)—Asking that his permit for the occupation of Lots 18 and 19, Block 35, at Broad Channel, Jamaica Bay, Borough of Queens, be transferred to the John F. Trommer Evergreen Brewery. Permit transferred.

From H. J. Lehmann (84085)—Asking that the permit in the name of John Kenney, for the occupation of Lot 26 of Block 20, at Broad Channel, Jamaica Bay, Borough of Queens, be transferred to him, and transmitting Kenney's consent. Permit transferred.

From Herman Rex (83747)—Asking that his permit for the occupation of Lot 34 of Block 2, at Broad Channel, Jamaica Bay, Borough of Queens, be transferred to Albert Wunder. Permit transferred.

From Samuel Hines (83691)—Asking that his permit for the occupation of Lot 6 of Block 3, at Broad Channel, Jamaica Bay, Borough of Queens, be transferred to Mrs. Carrie Stark. Permit transferred.

From the Maryland Steel Company (83492)—Calling attention to the strike of plumbers and steamfitters on the Chelsea Section Piers, North River. Filed, the strike having been settled.

Charges (84336) of misconduct were preferred by the Superintendent of Ferries against James Casey, Marine Stoker, the specifications of which are as follows: That Casey absented himself from duty, without excuse, on November 27, 1909, when his assignment on the ferryboat "Nassau" called for his being on duty from 12 o'clock midnight to 8 a. m. He was directed to appear before the Deputy and Acting Commissioner for a hearing thereon.

Charges (84335) of misconduct were preferred against Jeremiah Dougherty, Marine Stoker, by the Superintendent of Ferries, the specifications of which are as follows: That Dougherty, on November 27, 1909, when his assignment called for his being at work from 12 o'clock midnight to 8 a. m., failed to report for duty; that he failed to report any reason for his said absence on November 27, 1909, as required by Rule 4 of the Rules and Regulations laid down for the guidance of the municipal ferry employees. He was directed to appear before the Deputy and Acting Commissioner for a hearing on the charges.

ALLEN N. SPOONER, Commissioner.

New York, December 11, 1909.

The following communications were received, action being taken thereon as noted, to wit:

From the Corporation Counsel (83716)—Transmitting check for \$167.09 in settlement of the Department's claim against William J. Hyland, together with costs and interest, for rental of bulkhead foot of Seventh street, Unionport, Borough of The Bronx. Filed.

From the Comptroller (83928)—Transmitting report of Commissioners of Estimate in the matter of acquiring title, etc., to Piers (old) 2 and 3, East River, together with copy of the order of the Supreme Court confirming same and stating he has arranged to make payment of one of the awards in the sum of \$25,053.91. Filed, voucher in payment of the sum having been prepared and forwarded to the Finance Department.

From the Municipal Civil Service Commission—

1 (84302). Submitting list of persons eligible for appointment to the position of Cement Worker. Martin McCart appointed to the position, with compensation at the regular rate.

2 (84263). Submitting list of persons eligible for appointment to the position of Bridgeman. The following were appointed to the position with compensation at the rate of \$60 per month while employed:

John E. Gaffney, Thomas F. Gallagher, Edward Hanlon, Joseph Joyce, Andrew Keyser, Philip J. Lynch, Patrick Mitchell, John T. Nolan, Thomas F. Ryan, Denis J. Smith.

From the Leonhard Michel Brewing Company (84204), requesting permission to construct a dumping board and approach on the westerly side of Gowanus Canal, about 200 feet northerly of Bond street, Brooklyn. Permit granted, work to be done in accordance with plans submitted as amended and under the supervision of the Chief Engineer.

From Joseph P. Day, auctioneer (84347), stating that the sale of old material held November 29, 1909, realized the gross sum of \$367.50, which, less the auctioneer's fee, netted the sum of \$330.75. Filed.

From the Auditor (84310), recommending that the Department of Water Supply, Gas and Electricity be requested to take the necessary steps to arrange for the contracts for furnishing light to this Department during the year 1910. Letter forwarded, as recommended.

In accordance with the recommendation of the Chief Engineer (84332), the Snare & Triest Company was allowed the sum of \$176.35 over and above the contract price under Contract No. 1099, for the extra work involved in lowering the height of the signal bell tower at the Manhattan terminal of the Staten Island ferry.

In accordance with the recommendation of the Chief Engineer (84325), the Snare & Triest Company was authorized to modify the work called for under Contract 1054, for freight sheds on Piers 54 and 56, North River, by eliminating the furnishing of the working model of the freight shed doors, a deduction of \$100 to be made from the contract price in view of this elimination.

The Cashier reported that moneys were received and deposited for the week ending December 11, 1909, amounting to \$71,245.94.

The Auditor reported that the following were audited and forwarded to the Finance Department for payment:

1. Payroll of Municipal Ferry force for the week ending December 9, 1909, amounting to \$3,778.75.

2. Payroll of Construction and Repairs forces for the week ending December 9, 1909, amounting to \$31,977.17.

ALLEN N. SPOONER, Commissioner.

New York, December 13, 1909.

The following communications were received, action being taken thereon as noted, to wit:

From the Comptroller (84353)—Stating that on December 3, 1909, there was deposited the sum of \$100,708.73 to the credit of the Dock Fund and a like sum on December 6, 1909. Filed.

From the Municipal Civil Service Commission (84328)—Requesting information relative to certain employees who have been off the payrolls for upwards of thirty days. Information furnished.

From the First Battalion, Naval Militia, New York (83935)—Requesting this Department to furnish and erect a crane of about 6 tons capacity at or near the foot of Ninety-seventh street, North River. Advised that the Department has no appliances of the type requested and that same would have to be purchased under contract.

From the United Fruit Company (84307)—Requesting permission to use the south half of Pier 59, North River. Permit granted on usual terms, as to insurance, damage, etc., to commence as of January 1, 1910, and to continue during the pleasure of the Commissioner, but not longer than April 30, 1910; rental to be at the rate of \$500 per month, payable at the end of each month to the Cashier.

From William S. Irish (84422)—Requesting information as to the status of the ferry situation in the Eastern District, Brooklyn. Information furnished.

From Thomas Dwyer (84206)—Relative to the hearing on the change in street system bounded by Isham street, Broadway, Two Hundred and Eighteenth street and Harlem Ship Canal, Borough of Manhattan. Filed.

From Emanuel J. Alferis (83602)—Requesting permit to maintain stand for the sale of fruit and candy at Liberty Street Ferry, North River. Denied.

From the Maritime Association of the Port of New York (83534)—Complaining that the schooner "Northland" discharged a cargo of paper at Pier 33, East River, and allowed same to remain on the dock preventing other vessels from using the pier. Answered that Superintendent of Docks has been instructed to see that vessels do not occupy more space than on the side of berthing and within the limit of the length of the vessel, allowing for a gangway along the centre of the pier.

From the Chief Engineer—

1 (84125). Submitting report relative to repairs required to Pier 6, East River. Order issued for the preparation of plans, specifications and form of contract.

2 (84350). Submitting report of work done under his charge and supervision for the quarter ending September 30, 1909. Filed.

3 (84357). Submitting revised estimate for the construction of a new pier near the foot of Thirty-third street, Gowanus section, Brooklyn. Filed.

From the Superintendent of Ferries (84363)—Recommending that the title of Daniel Coleman be changed from Deckhand to that of Bridgeman. Municipal Civil Service Commission requested to authorize the change.

From the Superintendent of Docks (84205)—Recommending that the piers foot of One Hundred and Thirty-second, One Hundred and Thirty-third and One Hundred and Thirty-fourth streets, North River, be extended to the pierhead line. Filed, orders having been issued for the extensions.

In accordance with the opinion of the Corporation Counsel (84281), to the effect that this Department has no authority to grant a permit within the marginal street area for a stand, the permit to Otto Abrams for stands on the marginal street foot of Whitehall street, Borough of Manhattan, was revoked, to take effect immediately, and Abrams notified to remove his stands at once.

The Steamboat Inspection Service of the Department of Commerce and Labor was requested to advise whether the United States Government assumes entire jurisdiction in the matter of testing the defects of eye-sight, hearing or other infirmities of Pilots.

The Commissioners of the Sinking Fund (83936) were requested to approve a lease to Thomas Stokes & Sons, Inc., of the bulkhead between the West Twenty-ninth street pier, 69, and West Thirtieth street pier, 70, on the North River, for a term of five years from May 1, 1910, at a rental of \$2,546.77 per annum; the lessees to have the privilege of erecting and maintaining coal pockets and coal hoisting apparatus on the bulkhead.

In response to its requests (84286, 82224) for the construction of a pier foot of Eleventh avenue, East River, Whitestone, Borough of Queens, the Whitestone Improvement Association was advised as to the terms upon which the Commissioner is ready to consider the construction of such pier.

Sealed bids or estimates were received and opened for preparing for and building a new pier foot of Thirty-third street, Brooklyn, under Contract No. 1202, as follows:	
E. DeV. Tompkins.....	\$244,587 00
Wm. H. Jenks.....	272,992 00

ALLEN N. SPOONER, Commissioner.

New York, December 14, 1909.

The following communications were received, action being taken thereon as noted, to wit:

From the Municipal Civil Service Commission (84354)—Approving the transfer of John D. Roler, James Hodnett and Henry J. Falkley from the position of Ship Carpenter to that of Carpenter. All transferred to Carpenter at 60 cents per hour while employed, to take effect December 17, 1909.

From the Salvation Army (84288)—Requesting permission to place a Christmas pot in the ferry house at the St. George terminal of the Staten Island Ferry. Permit granted, revocable at the will of the Commissioner.

From the T. A. S. Sheridan Company (84267)—Requesting permission to inclose the runway of the dump on the pier foot of West Ninety-seventh street, North River, and to use the inclosure as a shelter for horses. Permit granted, work to be done under the supervision of the Chief Engineer, the permit being granted upon the condition that the inclosure will not be used as a stable nor for the storage of fodder; that the inclosure will not be used except during the winter, and that the premises will at all times be kept in a sanitary condition.

From Frank Denig (84233)—Requesting permission to occupy Lot No. 5 of Block 111, at Broad Channel, Jamaica Bay, Borough of Queens. Privilege granted, to commence January 1, 1910, revocable at the will of the Commissioner, and expiring by limitation of time May 1, 1912, rental to be at the rate of \$25.50 per annum.

From Frank Schmitt (84278)—Requesting permission to occupy Lot No. 428, at Rockaway Point, Jamaica Bay, Borough of Queens. Privilege granted, to commence

January 1, 1910, revocable at the will of the Commissioner, and expiring by limitation of time May 1, 1912, rental to be at the rate of \$60 per annum.

From Compagnie Generale Transatlantique (84370)—Requesting permission to open granite pavement at approach to the pier foot of West Forty-fourth street, North River, and to move some floor timbers inside of the bulkhead shed thereat, for the purpose of repairing water service pipe. Permit granted, on usual conditions, work to be done under the supervision of the Chief Engineer.

From the North-Eastern Construction Company (84285)—Requesting an extension of time on Contract 1150 for mechanical and electrical equipment on the Chelsea section piers, North River. Granted, to and including February 1, 1910.

The application (75050, 75589) of the Manhattan and Coney Island Public Service Ferry Company for lease of a franchise of ferries between Whitehall street, Manhattan, and Nineteenth street, Coney Island Creek, Brooklyn, and Borden avenue, Long Island City, Borough of Queens, was placed on file.

ALLEN N. SPOONER, Commissioner.

New York, December 15, 1909.

The following communications were received, action being taken thereon as noted, to wit:

From the Corporation Counsel—

1 (84388). Requesting to be furnished with certain communications between this Department and Charles DeHart Brower relative to property between Twenty-second and Twenty-third streets, East River. Forwarded.

2 (84384). Returning, approved as to form, lease to the Brooklyn and Manhattan Ferry Company of the ferries from Roosevelt street and Twenty-third street, Manhattan, to Broadway, Brooklyn. Filed.

From the Comptroller (84397)—Authorizing the chartering of a ferryboat for an additional period of five days ending December 8, 1909. Filed.

From the Municipal Civil Service Commission (84387), authorizing the reassignment of Albert G. Kenefick, Dockbuilder. Ordered reassigned.

From the Department of Health (84318), submitting report relative to physical condition of Harry Brady, Clerk. Pay allowed for absence during December.

From the Department of Public Charities (84248), calling attention to the damage done to the City Hospital Dock on the westerly side of Blackwell's Island, East River, due to the swells from the steamer "Bunker Hill," of the New England Navigation Company. Company notified that it may make a survey of the damage and requested to advise whether it desires to make the repairs itself or whether the repairs shall be made by the force of the Department at the cost and expense of the company.

From the First Battalion, Naval Militia, New York (84251), calling attention to the fact that the United States steamer "Granite State," at the West Ninety-sixth Street Pier, North River, was damaged by scows moored on the north side of West Ninety-seventh Street Pier, and requesting that the Dockmaster be instructed to prohibit the mooring of vessels within five or ten feet of the steamship. Advised that instructions have been issued, as per request.

From James Tregarthen, Son & Co. (84344), requesting permission to dredge the slips between Sixth and Seventh, Seventh and Eighth, and Eighth and Ninth streets, East River. Permit granted, work to be done under the supervision of the Chief Engineer.

From the New York Central and Hudson River Railroad Company (84341), requesting permission to drive about fifteen high-guard fender piles alongside of Pier 83, North River. Permit granted, work to be done under the supervision of the Chief Engineer.

From the Cranford Company (84337), requesting permission to dredge in the slip near the foot of Eleventh street, Gowanus Canal, Brooklyn. Permit granted, work to be done under the supervision of the Chief Engineer.

From A. E. Outerbridge & Co., agents for the Quebec Steamship Company, Ltd. (84315), requesting permission to cut a gangway on the northerly side of Pier 47, North River. Permit granted, work to be done under the supervision of the Chief Engineer.

From Compagnie Generale Transatlantique (84313), requesting permission to install certain additional attachments to the mechanical equipment on Pier 57, North River. Permit granted, work to be done under the supervision of the Chief Engineer.

From the Estate of William Beard (84305), requesting permission to make repairs, from time to time, as may be required, to its water-front property and structures thereon, at Erie Basin, Brooklyn, and to do dredging whenever necessary. Permit granted, on the usual conditions, work to be done under the supervision of the Chief Engineer, the permit being revocable at the will of the Commissioner and expiring by limitation of time December 31, 1910.

From the Bouker Contracting Company (84299), requesting permission to make repairs, from time to time, as may be required, to its runway and dump on the pier foot of Sixtieth street, East River. Permit granted, on usual conditions, the work to be done under the supervision of the Chief Engineer, the permit being revocable at the will of the Commissioner and expiring by limitation of time December 31, 1910.

From the New York Edison Company (84237), requesting permission to convert the ferry house between Forty-first and Forty-second streets, East River, into an automobile garage. Permit granted, revocable at the will of the Commissioner, it being understood that the approval of the Fire Department will be first obtained and that the permit will be subject to all the rules and regulations of said Fire Department.

From Patrick E. Leahy (84208), requesting permission to anchor houseboat about 150 feet off shore at the foot of Crocheron avenue, Little Neck Bay, Borough of Queens. Privilege granted, revocable at the will of the Commissioner and expiring by limitation of time on April 30, 1910, rental to be at the rate of \$1 per month, payable monthly in advance to Dockmaster.

From Thomas B. Watson (84118), requesting permission to erect a stiff-legged derrick and hopper on the westerly side of Westchester Creek, about fifty feet south-erly of West Farms road, Borough of The Bronx. Permit granted, work to be done under the supervision of the Chief Engineer, in accordance with plans submitted.

From R. Waddington & Sons (84348), requesting permit to load cellar dirt on scows on bulkhead between Piers 11 and 12, East River. Denied.

From the Long Island Railroad Company (84316), calling attention to the confusion existing because of the fact that the platform in front of the Brooklyn Bridge abutment, leased by the Clyde Line, is designated Pier (new) 22, East River, and that the pier leased by the railroad company is also numbered Pier (new) 22. Clyde Company requested to change the pier designation.

From the T. A. S. Sheridan Company (84218), complaining of the congestion in the slip between West Ninety-sixth and Ninety-seventh streets, North River. T. A. S. Sheridan Company, James Thedford, New York Contracting and Trucking Company and Weber-Bunke-Lange Coal Company notified to confine their boat space in the slip to within sixty feet beam measurement.

From the Sicilian Asphalt Paving Company (84196), requesting dredging at bulk-head between Fifty-fourth and Fifty-fifth streets, North River. Dredging ordered.

From William Farrell & Sons (83683), requesting permission to use, temporarily, the bulkhead south of Pier 42, North River. Answered that no permit is necessary for the temporary use of the bulkhead and that the Dockmaster will collect wharfage for the period of occupation.

From the Chief Engineer—

1 (84395). Submitting report relative to damage on December 1, 1909, by tug, with float belonging to the New York Central and Hudson River Railroad Company, of the West Fifty-seventh Street Pier, North River, and recommending that the company be given an opportunity to make a survey and that it be requested to advise as to whether it desires to make the repairs or whether the repairs shall be made by the Department, at the cost and expense of the company. Letter sent, as recommended.

2 (84393). Reporting that on November 30, 1909, the tug "St. Patrick," owned by the Shamrock Towing Company, damaged the pier foot of Fifty-seventh street, North River, and recommending that the company be given an opportunity to make a survey and that it be requested to advise whether it desires to make the repairs or whether the repairs shall be made by the Department, at the cost and expense of the company. Letter sent, as recommended.

3 (84390). Reporting that William H. Murray, Watchman, died December 11, 1909. Name taken from list.

4 (84359). Recommending that the Hudson-Fulton Celebration Commission be requested to cause the removal of the "Champlain" floats from the timber basin, foot of Seventy-fifth street, North River. Request forwarded to Captain Jacob W. Miller, Chairman of the Naval Committee of the Commission.

5 (84358). Recommending that the Department of Water Supply, Gas and Electricity be requested to permit the making of a Croton water connection near the foot of Oliver street, East River, for the purpose of supplying water to pile drivers, etc. Permit requested.

From the Superintendent of Ferries—

1 (84362). Submitting report relative to fire on December 9, 1909, underneath the St. George Ferry Terminal, Staten Island. Filed.

2 (84361). Preferring charges of violation of the rules and regulations of the Department against Morris Schwartz, Gateman. Schwartz notified to appear for a hearing.

Permit was granted Arthur Tarrant (84019) to occupy Lot 4 of Block 111 at Broad Channel, Jamaica Bay, Borough of Queens, to continue during the pleasure of the Commissioner, but not longer than May 1, 1912, rental to be at the rate of \$22.50 per annum.

In connection with the charges (84127) preferred against him on December 9, 1909, James E. O'Brien, Dock Laborer, was given a hearing thereon on December 13, 1909, and his pay was this day fixed at the rate of 31¼ cents per hour, while employed.

The Department of Health was requested to make a physical examination of Robert H. Malone, General Foreman (84314), and of John D. Fitzgerald, Dock Laborer (84391), and Frederick J. Coster, Pilot (84394).

A communication (84177) was received from the Corporation Counsel returning, approved as to form, agreement relative to the leases of Pier 48, North River, and of Piers 15 and 16, East River, and stating that the Commissioner may reconsider his action of November 9, 1909 cancelling the lease of Pier 48, North River, with bulk-head extending from a point 125 feet south of the southerly side of said pier to a point 125 feet north of the northerly side of said pier. Order of November 9, 1909, rescinded.

ALLEN N. SPOONER, Commissioner.

New York, December 16, 1909.

Notices to Property Owners.

NOTICE TO PROPERTY OWNERS.

IN PURSUANCE OF SECTION 1018 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice to all persons, owners of property, affected by the following assessment for LOCAL IMPROVEMENTS IN THE BOROUGH OF MANHATTAN:

TWENTY-SECOND WARD, SECTION 4.

COLUMBUS AVENUE—RESTORING ASPHALT PAVEMENT, between Sixty-fourth street and Sixty-fifth street, Area of assessment: Northwest corner of Columbus avenue and Sixty-fourth street, known as Lot No. 32, in Block 1136.

The above assessment was certified to the Collector of Assessments and Arrears, under the provisions of section 391 of the Greater New York Charter.

—that the same was entered on January 22, 1910, in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, and unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such

assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, Room H, No. 280 Broadway, Borough of Manhattan, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before March 23, 1910, will be exempt from interest as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, by the Corporation Counsel, for the appointment of Commissioners of Estimate and Assessment to ascertain and determine the compensation which should justly be made to Henry R. Winthrop, individually, and to Henry R. Winthrop, J. Frederick Kernochan and William Jay, as trustees under the will of Thomas Buchanan Winthrop, deceased, as owners of the premises abutting on the easterly side of DEPEW PLACE, between Forty-second street and Forty-third street, in The City of New York, for the discontinuance and closing of the portion of Depew place, 12 feet in width and 35 feet in length, on its westerly side, and 121.83 feet north of Forty-second street, in the Borough of Manhattan, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 14th day of February, 1910, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 15th day of February, 1910, at 11 o'clock a. m.

Second—That the abstracts of our estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 21st day of February, 1910.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Manhattan, in The City of New York, which, taken together, are bounded and described as follows, viz.:

"Beginning at a point in the westerly side of Depew place, as formerly laid out under chapter

261 of the Laws of 1884, distant one hundred and twenty-one and eighty-three one-hundredths (121.83) feet northerly from the northerly side of Forty-second street; running thence easterly at right angles to said westerly side of Dewey place twelve (12) feet; thence northerly parallel to said westerly side of Dewey place thirty-five (35) feet; thence westerly at right angles to said westerly side of Dewey place twelve (12) feet, and thence southerly along said westerly side of Dewey place thirty-five (35) feet to the point of beginning."

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House in the Borough of Manhattan in The City of New York, on the 5th day of April, 1910, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of THIRTEENTH AVENUE, from Thirty-sixth street to Seventy-third street, omitting the land occupied by the tracks of the Prospect Park and South Brooklyn Railroad Company, the Sea Beach Railroad Company, the Manhattan Beach Division of the Long Island Railroad Company and the Brooklyn, Bath and West End Railroad Company, in the Twentieth and Thirtieth Wards, Borough of Brooklyn, City of New York.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above-entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections, in writing, duly verified, with them at their office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 1st day of February, 1910, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 3d day of February, 1910, at 3.30 o'clock p. m.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections, in writing, duly verified, with him at his office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 1st day of February, 1910, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 4th day of February, 1910, at 3.30 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 14th day of December, 1906, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz:

On the northwest by a line midway between the westerly side of Thirteenth Avenue and the easterly side of Twelfth Avenue; on the southeast by a line midway between the easterly side of Thirteenth Avenue and the westerly side of Fourteenth Avenue; on the northeast by a line 100 feet northeast of the northeasterly side of Thirty-sixth street and parallel therewith; on the southwest by a line 100 feet southwest of the southwesterly side of Seventy-third street and parallel therewith.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said City, there to remain until the 12th day of February, 1910.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 16th day of March, 1910, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 1st day of February, 1910, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 3d day of February, 1910, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said City, there to remain until the 12th day of February, 1910.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at a point on the southeasterly side of Eighth Avenue, where the same is intersected by the centre line of the block between Sixty-second street and Sixty-third street; running thence southeasterly and along the centre line of the block between Sixty-second street and Sixty-third street to the westerly side of New Utrecht Avenue; running thence southerly and along the westerly side of New Utrecht Avenue to the centre line of the block between Sixty-third street and Sixty-fourth street; running thence northwesterly and along the centre line of the block between Sixty-third street and Sixty-fourth street to the southeasterly side of Eighth Avenue; running thence northeasterly and along the southeasterly side of Eighth Avenue to the point or place of beginning.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 16th day of March, 1910, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record and in the corporation newspapers, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
