RE: Environmental Review for the New Comprehensive Solid Waste Management Plan

To Whom It May Concern:

The New York City (City) Department of Sanitation (DSNY) is developing a new Comprehensive Solid Waste Management Plan (New SWMP). The environmental review to support the New SWMP is now being prepared. As part of this process, DSNY has elected to conduct an enhanced public outreach program that will result in the development of stakeholder lists, securing twenty public document repositories, holding ten Public Scoping Meetings, as well as a number of community meetings and Public Hearings over the next several months.

DSNY has enlisted the environmental consulting firm of Ecology and Environment, Inc.(E&E), with offices located at 90 Broad Street, Suite 1906, NY, NY 10004, to assist in its efforts to obtain meeting and repository sites, develop, distribute and publish outreach materials and public notices and generally facilitate the conduct of the public outreach program for the New SWMP environmental review. Although there may be a number of representatives of E&E working on this project, the principal project managers are Thierry Garcy and Deepali Weyand.

Please contact me with any questions or comments. I can be reached at (917)237-5833.

Sincerely,

Sarah Dolinar
Dir., Environmental Review
