Hon. FRANCIS J. LANTRY, Commissioner of Correction:

Sir—I herewith most respectfully submit the quarterly report for the months of October, November and December, as follows:

During the past three months the principal work, outside of routine duties, on which the prisoners have been engaged has been the making of a new road from the south dock to the principal points at the southern end of the island.

The contract has been completed on a bath tub and shower bath outfit and toilet room at the Branch Workhouse proper, Reformatory and Women's Prison. This has been a conspicuous improvement, which was much wanted, and conduces greatly to the cleanliness and comfort of the inmates.

Boilers Nos. 1 and 2 in the north boiler house have been thoroughly overhauled and placed in good working condition.

Three coal barges have been unloaded and 75 tons of ice have been removed and stored. Two old buildings at the extreme north end of the Island have been torn down, and the materials (lumber, etc.) utilized for necessary repairs to different buildings.

The mechanics among the prisoners have been employed in plastering and painting work on the various buildings, while the laborers have been engaged in digging and storing vegetables, digging trenches, burying, etc., removing snow and general cleaning around buildings.

The Reformatory boys have carted stone to the stonebreaking shed, and assisted in loading and unloading freight.

The female prisoners have been principally employed in the cleaning of the various buildings, and those detailed to the Laundry have turned out 6,323 pieces, as specified among the annexed tables.

Very respectfully,

THOMAS F. KANE, Head Keeper.

Appeal 5 of 1904—Alteration 1634 of 1903, No. 36 Washington square, Manhattan, Messrs. Thom & Wilson, architects and appellants.

"Building will cover unlawful amount of lot area."

The law does not apply, in that the building is already erected, and was built before present law was effective.

Permission to erect partly an additional story or pent house on the front part of the building.

The present building is of fireproof construction and is facing a large open area, viz.: Washington square; consequently, the light and ventilation will not be materially diminished.

The proposed new roof structure will be built of fireproof materials.

Mr. W. S. Wilson appeared before the Board.

On motion, approved.

"No. 1. This building must be treated as a hotel, and being over 35 feet high, must be fireproof throughout."

The provisions of the Building Code do not apply in this case.

That this building may be non-fireproof.

That as this building is to accommodate a store, doctors' and dentists' offices, a photograph gallery and possibly a few bachelors' apartments, and there will be no cooking of any kind done on the premises, and no cafe or public dining-room, this building does not come under the definition of a hotel (Building Code section 10), and is therefore not required to be fireproof throughout (Building Code section 105).

Mr. Arthur J. Horgan appeared before the Board.

On motion, approved.

Mr. Neville reappeared before the Board, and submitted the following amendment, the changes indicated being marked on drawings:

January 19, 1904—It being further agreed that the cellar, ceiling and the ceiling of the first story will be covered with metal lath; and, also, that the hall side of all hall partitions, as indicated with red ink on plans, will also be covered with metal lath. NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either enclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
