The committee appointed to purchase motor ambulances without public letting, composed of Commissioner Drummond and the General Medical Superintendent,

On separate motion, duly seconded and carried in each instance, action was taken upon the report of the General Medical Superintendent as follows:

It was resolved to authorize an advertisement for bids for supplies for a period of four months, beginning July 1, 1913.

The report in regard to the selection of motor ambulances was approved.

The President further reported that he had written to the Commissioner of Charities that he had seen Mr. McAneny and Mr. Arnstein, and that they had instructed him to tell the Commissioner they were wholly in favor of having the new morgue taken over by the Commissioner of Charities, and that an application for the necessary funds would be favorably considered by them. A communication was presented from the John H. Parker Co., requesting approval of the amount of insurance placed on Pavilions I and K, in accordance with their contract. A letter from McKim, Mead & White, under date of May 29, was also presented, stating that in their opinion the amount of insurance placed on Pavilions I and K (\$94,000) was sufficient to cover the work already erected, and that they did not consider it necessary to increase the insurance. In accordance with the recommendation of the architects, it was moved, seconded and carried to approve the request of the John H. Parker Co.

A communication was presented from the Commissioner of Parks, stating that the Department has received no corporate stock for almost two years, except for road building, and that he cannot include among them the appropriation for the new small park in front of Gouverneur Hospital. On motion, duly seconded and carried, this communication was placed on file.

Three resolutions adopted by the Board of Aldermen on May 6, were presented, (1) selecting site near Gouverneur Hospital for new dispensary, power house and Nurses' home, (2) authorizing purchase in the open market without public letting of two automobile ambulances at a cost not to exceed \$7,000, and (3) authorizing purchase in the open market without public letting of one automobile ambulance at a cost not to exceed \$4,000. A communication dated May 29 was presented from the Executive Committee of the Bellevue Medical Board, recommending the appointment of two Laboratory Assistants, as requested by the Director of Laboratories, for the purpose of performing Wasserman reactions and doing chemical work in the laboratory along research lines, as this would prove of great advantage in increasing the efficiency of the hospital work. As funds were not available for this purpose, it was moved, seconded and carried, to request the Board of Aldermen to issue special revenue bonds to pay the salaries of two Laboratory Assistants for the remainder of the year 1913, and to include these positions in the departmental estimate for 1914.

J. K. PAULDING, Secretary.

A meeting of the Board of Trustees of Bellevue and Allied Hospitals was held on Tuesday, June 17, 1913, at 11 o'clock.

Present—Dr. Brannan, the President, in the chair; Messrs. O'Keeffe, Paulding and

Robbins, Trustees, and Mr. Drummond, Commissioner of Public Charities. Excused, Messrs. Farley, Sachs and Stern.

The bids were opened in the presence of the bidders, a representative of the Comptroller's office and several Clerks of the Department. After all the bids were opened and called off, all except the members of the Board of Trustees withdrew from the staff room. After the bids on lines 761 to 780 were tabulated, a communication in regard thereto was presented from the Contract Clerk and Auditor, and in accordance with his recommendation, on motion, duly seconded and carried, it was

Resolved, To accept the lowest bids received on fresh meats, poultry and smoked meats; and it was further

Resolved, To defer action on all other bids, pending their tabulation.

The minutes of the meeting of June 3, were approved.

Bills amounting to \$27,959.52 were approved and forwarded to the Comptroller for payment.

Dr. George O'Hanlon, the General Medical Superintendent, reported as follows:

A request has been received from the Auxiliary Committee at Fordham Hospital for permission to provide a Nurse for the Children's Clinic in the dispensary for a period of five months. As the Committee has sufficient money to pay the Nurse for this period, the approval of the Board is requested.

The attention of Dr. Healy, President of the Medical Board of Fordham Hospital, has had to be drawn to the condition of the histories at that hospital. It will be recalled that more than a year ago one of the arguments for increasing the staff at that hospital was the inability of the Medical Board to insist upon complete histories, because of the pressure of work upon the house staff. The number was accordingly increased to twelve. As a result of personal investigation, and also from the report of one of the present investigating committees, it is found that little or nothing has been accomplished in improving upon or completing the histories.

For the information of the Trustees, it is reported that the Executive Committee of the Bellevue Medical Board, as reorganized, had its first meeting on Wednesday, the 11th inst. The provision of having the General Medical Superintendent a member of this body promises to be so helpful for the administration of the hospital, that it is suggested that some provision be made for such membership or representation in the Medical Boards of the allied hospitals.

The resignation of the Rev. P. P. O'Dwyer, Catholic Chaplain at Bellevue Hospital, to become effective on the 21st day of June, is reported with regret.

On separate motion, duly seconded and carried in each instance, action was taken upon the report of the General Medical Superintendent as follows:

The appointment by the Auxiliary Committee of a Nurse for the Children's Clinic at Fordham Hospital, for a period of five months, was approved.

It was resolved to write a strong letter to the Medical Board of Fordham Hospital, calling attention to their failure to heed repeated admonitions to have the histories kept in a more complete form, and it was further

Resolved, To direct the General Medical Superintendent to secure copies of a number of histories and to go over them in an effort to determine the reason for their incompleteness; it was

Resolved, To appoint the General Medical Superintendent to full membership in the Medical Board of each of the allied hospitals.

The resignation of the Rev. P. P. O'Dwyer was accepted with regret, and the Secretary was instructed so to inform him.

Report of Committees.

The Gouverneur Hospital Conference Committee recommended the appointment of Dr. Louis L. Goldblatt as Assistant Physician to Out Patients (stomach class). This report was approved and Dr. Goldblatt appointed accordingly.

The special committee, composed of Mr. O'Keefe and Mr. Paulding, appointed to confer with a committee from the Bellevue Hospital Medical Board in regard to the reorganization of that Board, presented an amended plan, which had been agreed upon at their conference.

After consideration, on motion, duly seconded and carried, it was

Resolved, To approve of this plan of reorganizing the Medical Board and Executive Committee, to become effective at once.

Mr. Robbins, Acting Chairman of the Building Committee, reported that a site had been selected for the new set of

scales at Fordham Hospital; this report was approved.

The President reported in regard to the changes which had been proposed in the organization of the house staff of the First Division of Bellevue Hospital, and stated that the list of nominations had been revised so as to make the services the same as last year. On motion, duly seconded and carried, the corrected list of nominations was approved.

Communications.

A communication was presented from John T. Brady & Co., requesting an extension of time to May 1, 1914, in order to complete their contract for the construction of Pavilions L and M of the new Bellevue Hospital, and setting forth as their reasons stormy weather, the difficulty of securing structural steel and the condition of 29th st. during October and November, 1912. A communication dated June 17, was also presented from McKim, Mead & White, recommending for the reasons set forth by the contractors, that the contract time be extended by 145 calendar days. On the recommendation of the architects and the Building Committee, it was moved, seconded and carried to grant John T. Brady & Co. an extension of one hundred and forty-five (145) calendar days on their contract for the erection of Pavilions L and M.

A communication dated June 12, was presented from J. M. Knopp, contractor for the additional balconies on Pavilions A and B, requesting an extension of time to and including June 21, 1913, on account of delays due to inclement weather and the character of this construction. A letter dated June 17, was submitted from McKim, Mead & White, stating that in their opinion forty days would cover all the delays which the contractor had experienced from conditions beyond his control, and recommending an extension of time to that amount. On motion, duly seconded and carried, in accordance with the recommendation of the architects and of the Building Committee, it was

Resolved, To grant J. M. Knopp an additional extension of forty (40) calendar days to the time already allowed for the completion of his contract.

The minutes of the meeting of the Executive Committee of the Harlem Hospital Medical Board held on June 6, were presented. On motion, duly seconded and carried, the appointment of Drs. Frank P. Boyd and Lawrence D. Roche, to complete the unexpired terms of the house staff of Drs. Sale and Coban, from June 7 to July 1, 1913, was approved. The request for the appointment of a salaried Admitting Physician was considered, and it was

Resolved, To include this position in the departmental estimate for 1914. The recommendation that a salaried Pathologist be appointed for the Clinical Laboratory, was denied on account of lack of funds, and the General Medical Superintendent was directed to appoint a salaried employee for the care of the laboratory.

A communication dated June 14, was presented from the Secretary of the Medical Board of Fordham Hospital, giving the names and time and place of graduation of the men who were successful in the examination for Internes, and who were recommended by the Medical Board for appointment on May 6. It was reported that this company performs similar services for the Department of Public Charities at a cost of \$950 per annum, and, on motion, duly seconded and carried, it was

Resolved, To direct the General Medical Superintendent to negotiate a contract with the Croker National Fire Prevention Engineering Co. for fire protection in this Department at a cost not to exceed \$950 a year.

A communication dated June 9, was presented from McKim, Mead & White, in regard to structural glass for Pavilions I and K, and requesting approval of the color of the sample submitted. On motion, duly seconded and carried, it was

Resolved, To inform the architects that the approval by the Trustees of this glass last fall did not carry with it approval as to color, and as the architects considered the sample furnished by Seimon, Bach & Co. to be satisfactory at that time, to insist that the glass installed shall be equal to the sample in quality, and in color a pure white.

A letter was presented from McKim, Mead & White dated June 10, in regard to installing gas ranges in the new Bellevue Hospital, and assuming that no changes are to be made in the kitchen equipment of Pavilions I and K. After

consideration, it was moved, seconded and carried, to direct the architects to change the kitchen arrangement of Pavilions I and K, so that all cooking may be done by gas, provided the coal range has not already been installed.

A communication was presented from Dr. Hermann M. Biggs, recommending to the Trustees the adoption of measures to provide for the performance of Wassermann tests on all cases in the hospital and Out Patient Department, and suggesting if funds are not available, that an arrangement might be made with the Department of Health, who have had certain funds placed at their disposal for this work. As the Trustees on June 3, had resolved to request the Board of Aldermen to issue revenue bonds to pay the salaries of two Laboratory Assistants for the remainder of the year, and to include these positions in the departmental estimate for 1914, it was moved, seconded and carried to place the communication on file.

District (hereinafter called "the Commission"), invites proposals to construct Section No. 1 of Routes 4 and 36, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

Beginning at a point under Union square, in the Borough of Manhattan, about three hundred and ninety (390) feet north of the intersection of the southerly building line of 14th street with the centre line of the subway and extending thence northerly under Union square and Broadway to a point in Broadway about one hundred and six (106) feet north of the intersection of the easterly building line of Broadway with the northerly building line of West 26th street.

The general plan of construction calls for a surface railroad having four tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections along route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission, as set forth in the form of contract.

The contractor will be required to prosecute the work of construction from working shafts located at the points specified in the contract.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The Commission is informed by the Department of Docks and Ferries that docks and bulkheads along the East River or along the North River may be available for dumping purposes. Information in regard thereto may be obtained by any intending bidder upon inquiry at the office of the Department of Docks and Ferries, with whom all arrangements must be made with respect to utilizing such docks and bulkheads as may be available.

Partial payments to the contractor will be made monthly as the work proceeds, as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of thirty-six (36) months from the date of the delivery of this contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 22d day of July, 1913, at twelve fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer of the quantities of the various classes of work and of the nature and extent, as near as practicable, of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 4 and 36, Section No. 1," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited

unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of Fifteen Thousand Dollars (\$15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the contractor will be required to furnish security to the City by giving a bond for seventy-five thousand dollars (\$75,000). At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds, and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save, harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
