Meritorious Services.

The following rescues at fires, involving personal risk, were reported and recorded on the roll of merit:

Fireman John P. Howe of Hook and Ladder Company No. 15, was foremost in the rescue of Mrs. Kenney, Mary Forrester and Bridget Moloney from the fourth floor, and Mrs. Eliza Keenan and her daughter Lillie from the fifth floor of the burning building No. 74 Pearl street, on January 2, at 11.05 P. M. Two minutes thereafter, upon the company's arrival at the scene of the fire, the building was found to be a mass of flame from the second floor to the roof, thus preventing escape by the ordinary exits. A number of persons were seen at the windows of the fourth and fifth floors. A ladder was immediately raised to the fire-escape on Coenties Slip by means of which Fireman Howe and his comrades Firemen McGuire, Sweet, McCauley and O'Keefe ascended to the fourth floor, where they found the persons above named overcome by smoke and heat. Mrs. Kenney and Mary Forrester were brought out on the fire-escape, taken thence down to the third floor and by the thirty-five foot ladder to the street, by Fireman Howe's comrades. While Fireman Howe was bringing Bridget Moloney down in the same manner, upon reaching the fire-escape on the third floor, the flames broke through the second story window below them, scorching Fireman Howe's face and arm, while he was endeavoring to protect the woman with a blanket which he had wrapped around her. At this juncture a stream of water was turned into the window, and Howe then, with the assistance of Fireman McGuire, carried the woman safely to the street. The woman was helpless, having been an invalid for some years. This rescue having been effected, Fireman Howe climbed to the top of the Elevated Railway structure and thence, by means of a ladder, which he was aided in placing in position by Fireman Barry, he entered the fifth floor and brought down Mrs. Keenan and her daughter, who were considered to be in a very dangerous situation, as the fire-escape could not be reached by them. Chief of Battalion Cashman, in concluding his report of the occurrence states: "The cool and courageous manner in which Fireman John P. Howe performed the work of rescue, as stated herein, is deserving of the highest praise."

Foreman Thomas O'Hearn of Hook and Ladder Company No. 18 (at the time Acting Chief of the Fourth Battalion), on his arrival at the fire in the building No. 129 Suffolk street, at 4.53 A. M., May 31, learned that a child had been left on the third floor. Proceeding to that point he found the child in bed in a rear room, partly suffocated and burned, and carried it down to the second floor and put it in charge of Fireman Bluemert of Hook and Ladder Company No. 18, who conveyed it thence to the street. The child, named Lizzie Yunger, four years old, died after its removal to the Gouverneur Hospital, at 10.50 A. M. on the same day. Acting Chief O'Hearn's superior officer, Deputy Chief of Department Reilly, in reporting the occurrence, states that "as the fire at that time had full possession of the building, and it being difficult to reach the child, I consider it to be a very good rescue, and I recommend Acting Chief O'Hearn's name be placed on the Roll of Honor."

Fireman Dennis Ryer of Engine Company No. 36, rescued Mrs. E. G. Lary, aged 64 years, from the fifth story of the burning apartment-house No. 2278 Seventh avenue, at 7.43 A. M. on September 26. At the time of the arrival of the company Mrs. Lary stood at the window leaning far out to get out of the heat and suffocating smoke. Fireman Ryer ran up the stairs of the adjoining building to the fifth story window and, standing on the sill, reached out and got hold of the sash of the window at which Mrs. Lary stood. He contrived thus to get into the burning apartment. A citizen, whose name did not become known, lowered a rope from the roof and Fireman Ryer fastened the same around the waist of Mrs. Lary and by means of it passed her safely to the window of the adjoining house. He then made his own escape by returning along the sill-course from window to window. Chief of Battalion Short, in reporting the occurrence, closes as follows: "There is no doubt but that Fireman Ryer's pluck and good judgment saved Mrs. Lary's life, and in doing so he incurred considerable personal risk." A letter was subsequently received from Mrs. Lary's son, commending Fireman Ryer for the rescue, in which he states: "This rescue required the utmost skill and bravery of the man and he responded nobly to the call of a helpless woman, and in every respect upheld the honor of the New York Fire Department, which in Mr. Ryer has a member who is indeed a hero."

Ten or fifteen horses were burned to death in the various stables, the fire spreading too rapidly to make their removal possible. The first alarm was received at 3.44 A. M., and on the arrival of the first detachment the fire was burning in all parts of the Park, including the many trees. Engine Company No. 39 was the first engine company to arrive, and was compelled to abandon the engine in Sixty-eighth street, between Avenue A and the East river, before they had time to start the water. The members of the company with great difficulty escaped from the running flames. The engine was subsequently recovered, but required extensive repairs. The fire originated in the cellar at Nos. 65 and 67 Duane street, and extended to the first, second, third, fourth and fifth floors by hatchways, stairways and doorways between the several parts of the buildings, considerably dam-

aging the same. It also extended to the following: Nos. 22, 24 and 26 Elm street, a six-story brick building, 60x65 feet, occupied as a wine warehouse and for other purposes by various firms, destroying the building; No. 63 Duane street, a five-story brick building, 20x60 feet, occupied as a printing establishment, slightly damaging the building. M., the fourth at 8.00 1/2 A. M., and the fifth at 8.14 1/2 A. M. The fire required the services of 24 engine and 7 hook and ladder companies and 2 water-towers. It was under control in about nine hours. The estimated loss was \$352,140, and the cause of the fire was not ascertained.

July 29—Nos. 82 and 84 Fulton street, a six-story brick building, 50x100 feet, occupied by a firm of chemists. The fire originated in the sub-cellar and extended through opening in floors and by stairways and hoistways throughout the building, considerably damaging it. The fire extended as follows:

To No. 86 Fulton street, a six-story brick building, 30x90 feet, occupied by printers and lithographers, slightly damaging the building; to No. 88 Fulton street, a six-story brick building, 25x100 feet occupied by printers and lithographers, considerably damaging the building; to top floor of Nos. 39 to 43 Gold street, a seven-story brick building, 75x100 feet, occupied by manufacturing jewelers, slightly damaging the same. The first alarm was received at 5.31 P. The second alarm was sent out at 5.07 1/2 P. M., the third at 5.39 1/2 P. M., the fourth at 5.49 P. M., and the fifth at 6.47 P. M. The fire required the services of 21 engine and 6 hook and ladder companies, and 2 water-towers, and was under control in about seven hours. The estimated loss was \$96,511, and the cause of the fire was not ascertained.

October 27—No. 349 Broadway, a six-story brick and brown stone building, 29x135 feet, occupied as a restaurant and wine-room. The fire originated in the cellar and extending throughout the building, destroyed it. It also extended to the following described buildings with the results stated, to wit:

Nos. 345 and 347 Broadway, a seven-story brick iron front building, 56x150 feet, occupied by importers of woollens, which was damaged considerably; No. 351 Broadway, a four-story brown stone building, 25x150 feet, occupied by a liquor dealer, which was damaged considerably; also to No. 91 Leonard street, a three-story brick building, 12x60 feet, occupied as a card manufactory, which was destroyed. This building formed an L with No. 351 Broadway. On the arrival of the force the fire had extended throughout the building. There was a delay in sending the alarm although the alarm box is on the same corner. The water pressure was very low, there being no pressure on a number of hydrants used. By the greatest exertion the fire was kept out of the iron front building directly opposite, on the south side of Leonard street, the columns of the iron front of which are hollow, and the building having large window openings. The fire found its way through the hollow openings in the iron front, and communicated to several floors, between the beams. The fire required the services of 18 engines and 5 hook and ladder companies, and was brought under control in about four hours and twenty minutes. The first alarm was received at 7.26 1/2 A. M.; at 7.30 A. M. the third alarm was sent out (the second being omitted), and was followed by the fourth at 7.43 A. M. The estimated loss was \$206,647, and the cause of the fire was not ascertained.

November 20—Nos. 109 and 111 Leonard street, a six-story brick iron front building, 50x75 feet, occupied as a drygoods house. The fire originated on the first floor and extended throughout the entire building, by elevator shafts and stairways, considerably damaging it. The services of 20 engine and 6 hook and ladder companies and 1 water-tower were required to extinguish the fire, and it was brought under control in about four hours and twenty-one minutes. The first alarm was received by an automatic signal from the premises at 9.28 1/2 P. M., and on the arrival of the first detachment the following alarms were sent out: the second at 9.31 1/4 P. M., the third at 9.33 1/4 P. M., and the fourth at 9.51 1/4 P. M. Although the automatic signal was received for this fire, as stated above, previous to the alarm being sent in from the street box, on the arrival of the force the shutters were found to be red hot and the fire extended through the building by way of the elevators (the doors of which were found to be open), and also through the holes in the floor around the soil-pipe. The estimated loss was \$88,610, and the cause of the fire was not ascertained.

November 24—Nos. 19 and 21 Roosevelt street, a six-story brick building, 50x90 feet, occupied as a manufactory of life preservers and furniture. The fire originated in the cellar at the south end corner of the building, in the engine-room, and extended throughout the entire building by stairways, hatchways, etc., considerably damaging it. On the arrival of the first companies the fire had spread throughout the building, several explosions occurring immediately afterward. This factory was surrounded by tenements containing a large number of families, all of whom were promptly removed without injury. The fire required the services of 18 engine and 5 hook and ladder companies and 1 water tower, and was brought under control in about three hours and forty-seven minutes. The first alarm was received at 12.48 P. M.; the third (the second being omitted) was sent at 12.53 1/2 A. M., and the fourth at 1.07 1/2 A. M. The estimated loss was \$50,846, and the cause of the fire was not ascertained.

December 4—No. 547 Broadway, a six-story brick building, 25x200 feet, occupied as a manufactory of artificial flowers. The fire originated on the fourth floor and extended by the stairway, through floorings and ceilings, to the fifth and sixth floors, considerably damaging the building, which extends from No. 547 Broadway to No. 118 Mercer street, the Mercer street building being five stories high and connected to the Broadway building. The services of 14 engine and 4 hook and ladder companies and 1 water tower were called into requisition, and, owing to the depth of the building, about one hour and thirteen minutes elapsed before it was brought under control. The first alarm was received at 5.52 1/2 P. M.; the second alarm was sent out at 5.56 P. M., and the third at 5.57 P. M. The estimated loss was \$121,960 and the cause of the fire was not ascertained.

December 29—Nos. 124 to 128 West Twenty-fourth street, a six-story brick building, 75x100 feet, occupied as a gas-fixtures manufactory. The fire originated on the fifth floor and extended to the fourth and sixth floors, considerably damaging the upper part of the building. The first alarm was received at 5.45 A. M., and on the arrival of the first companies the fire was burning fiercely in the upper part of the building. At 5.51 1/2 and 6.15 1/2 A. M., respectively, second and third alarms were sent out. The fire required the services of 13 engine and 4 hook and ladder companies, and 1 water tower, and was under control in about two hours. During its progress and while Chief of the Sixth Battalion John J. Bresnan was in charge of lines of Engine Companies Nos. 14, 18 and 19 on the fourth floor, a large water tank on the roof, containing 3,000 gallons of water and insecurely supported, gave way and crashed through to the fourth floor, burying him and Assistant Foreman John L. Rooney, of Hook and Ladder Company No. 12, beneath the debris, killing both of these officers instantly, and severely injuring Assistant Foreman William Hennessy of Engine Company No. 47 (detailed to Engine Company No. 18), and Firemen 1st grade Michael J. Arneith of Engine Company No. 18, Edward D. Farrell of Engine Company No. 19, John A. Kuch of Hook and Ladder Company No. 12, and Probationary Fireman Alexander W. Melvin of Engine Company No. 14. The estimated loss was \$57,500, and the cause of the fire was not ascertained.

At a meeting of the Board held soon after this lamentable occurrence, the subjoined resolutions were adopted:

Resolved, That by the heroic but untimely death of Chief of Battalion John J. Bresnan and Assistant Foreman John L. Rooney, at the fire which occurred on the morning of the 29th instant, at Nos. 124 to 128 West Twenty-fourth street, the Fire Department loses the services of two of its most valuable officers.

Chief Bresnan during his long, eventful and distinguished career, was well known as a faithful and intrepid fireman, a zealous and enthusiastic officer, and as the inventor of a number of useful fire-extinguishing appliances. His good conduct and unblemished record would have entitled him to further advancement and higher honors in the service to which he devoted his whole life to its most honorable but sad ending.

Lieutenant Rooney, always a faithful fireman from the beginning of his service, by his most courageous act in rescuing Miss Ida Small from a position of great peril at the "World Building" fire on January 31, 1882, at the imminent risk of his own life, won the honorable decoration of the Bennett Medal and his promotion. His subsequent career fully justified that distinction and he died at the post of duty, a brave fireman and devoted public servant.

Resolved, That a copy of these resolutions be sent to the bereaved families of the lamented dead.

Water Consumption.

As nearly as can be estimated, 28,822,000 gallons of water were used in extinguishing fires.

ESTIMATES FOR FURNISHING ABOUT 8,000 barrels of Portland Cement will be received by the Board of Commissioners at the head of the Department of Docks, at the office of said Department, on Pier "A," foot of Battery place, North river, in the City of New York, until 12 o'clock M. of

TUESDAY, JULY 30, 1895, at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of Seven Thousand Dollars.

The cement required under the contract must be "Portland" cement, fully up to the standard of the best brands imported, and average at least 400 pounds gross weight to the barrel.

The quantity to be delivered under this contract is about 8,000 barrels.

It is estimated that about 5,000 barrels of this cement will be required to be quick-setting, and that about 3,000 barrels will be slow-setting; and it is further estimated that the deliveries will be required to be made so that about 600 barrels per week, more or less, will be furnished in each week.

It is expected that about 3,000 barrels will be required to be delivered at West Fifty-seventh Street Yard, and that about 5,000 barrels will be required to be delivered at East Twenty-fourth Street Yard.

The contract is to be fully completed and to terminate on the 1st day of March, 1896.

The damages to be paid by the contractor for each day that the contract, or any part thereof, may be unfulfilled after the respective times specified for the fulfillment thereof may have expired, Sundays and holidays not to be excepted, are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

The empty barrels will be relinquished to the contractor, as provided for in the specifications, and bidders must estimate the value of the empty barrels when considering the price for which they will furnish the cement under the contract.

Bidders will state in their estimates a price for each barrel of cement to be furnished, in conformity with the approved form of agreement and the specifications therein set forth, by which prices the bids will be tested. These prices are to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the receiving of the material by the Department. The award of the contract, if awarded, will be made to the bidder who is the lowest for doing the whole of the work, and whose estimate is regular in all respects.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for furnishing this material.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all per-

sons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof, which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount, in each case, to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of five per centum of the amount of the security required for the completion of the contract over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the material, can be obtained upon application therefor at the office of the Department.

TUESDAY, JULY 23, 1895.

at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

Eight Hundred Dollars for Class I.  
One Thousand Two Hundred Dollars for Class II.  
Three Hundred and Fifty Dollars for Class III.  
One Thousand Six Hundred Dollars for Class IV.

In case an estimate is made for more than one class, each bondsman must justify in an amount equal to the aggregate amount required for the several classes for which estimates are made.

The Engineer's estimate of the quantities is as follows:

Small Cobble and Rip-rap Stone, for Bulkhead or River Wall, to be deposited in place by Contractor.

Class I.—About 2,000 cubic yards of Small Cobblestone.

Class II.—About 5,000 cubic yards of Rip-rap Stone.

Sand and Broken Stone.

Class III.—About 1,200 cubic yards of Sand.

Class IV.—About 2,500 cubic yards of Broken Stone.

Estimates may be made for one or more of the above four classes.

Where the City of New York owns the wharf, pier or bulkhead at which the materials under this contract are to be delivered, no charge will be made to the contractor for wharfage upon vessels conveying said materials.

N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed deliveries of the material, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed at the price therefor, to be

specified by the lowest bidder, shall be due or payable for the entire work.

The materials are to be delivered south of Sixtieth street, North river, or south of One Hundred and Twenty-fifth street, Harlem river, from time to time, and in such quantities and at such times as may be directed by the Engineer. And all the work under this contract is to be fully completed on or before the 1st day of January, 1896, at which time this contract will cease and terminate.

The right is reserved by the Department of Docks to increase or diminish the estimated quantities of material called for by this contract by an amount not exceeding twenty per cent. of the estimated quantities. And the bidder will agree that he will not ask or demand, sue for nor recover any extra compensation for damage or loss of anticipated profits beyond the amount payable for the several classes of work in this contract enumerated, which shall be actually supplied at the prices therefor agreed upon.

The damages to be paid by the contractor for each day that the contract, or any part thereof, or of any delivery that may be ordered or directed by the Engineer, may be unfulfilled after the respective times fixed for the fulfillment thereof have expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their proposals a price, per cubic yard, for each of the above classes of material, in conformity with the approved form of agreement and the specifications therein set forth, by which the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay from any cause in the receiving of the material by the Department of Docks.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for furnishing this material.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein, and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount, in each case, to be calculated upon the estimated amount of the work to be done, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of five per centum of the amount of the security required for the completion of the contract over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief. No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

No. 2. FOR CONSTRUCTING SEWER AND APPURTENANCES IN CEDAR PLACE, from the existing sewer in Eagle avenue to Cauldwell avenue.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that

fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested in the estimate, or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in a sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

The Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards reserves the right to reject all bids received for any particular work if he deems it for the best interests of the city.

Blank forms of bid or estimate, the proper envelopes in which to inclose the same, the specifications and agreements, and any further information desired, can be obtained at this office.
