Hon. Charles V. Fornes, President of the Board of Aldermen.

Ware, William Wentz, William J. Whitaker, Henry Willett, John Wirth.
-------------------------------------	--	--

George Cromwell, President Borough of Richmond.

J. Edward Swanstrom, President Borough of Brooklyn.

Jacob A. Cantor, President Borough of Manhattan.

At this point the Vice-Chairman took the chair.

The Clerk proceeded to read the minutes of the stated meeting of October 6, 1903.

On motion of Alderman Wentz, further reading was dispensed with, and the minutes were approved as printed.

MESSAGES FROM HIS HONOR THE MAYOR.

The Vice-Chairman laid before the Board the following message from his Honor the Mayor:

No. 2543.

City of New York, Office of the Mayor.

The Honorable the Board of Aldermen of The City of New York:

I return herewith, without my approval, resolution for the removal of a drinking fountain from Sedgwick avenue, Borough of The Bronx, to No. 313 East Sixtieth street, Borough of Manhattan.

My objection to the resolution is founded upon the assurance which I have received from the Alderman of the District in which the fountain is now located that Sedgwick avenue is much used for driving and trucking, that the traffic on the avenue is constantly increasing, and that, in his opinion, the fountain is needed in its present location. I can therefore see no good reason for its removal.

SETH LOW, Mayor.

New York, October 12, 1903.

Resolved, That the Commissioner of Water Supply, Gas and Electricity be and he is hereby authorized and requested to remove the iron drinking fountain now located on Sedgwick avenue, about three hundred feet north of Jerome avenue, in the Borough of The Bronx, place the same on the sidewalk near the curb in front of No. 313 East Sixtieth street, in the Borough of Manhattan, and to make proper connection with the City's water main at the latter point.

Which was laid over, ordered to be printed in the minutes and published in full in the "City Record."

The Vice-Chairman laid before the Board the following message from his Honor the Mayor:

No. 2573.

City of New York, Office of the Mayor, October 9, 1903.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Sir—I desire to call the attention of the honorable Board of Aldermen to the fact that for some time past it has been the custom of the Police Department to collate the election returns on the evening of Election Day, for distribution to the newspapers and to the general public, but that no funds are available to the Police Department this year for that purpose. Your honorable Board during the year 1902, by resolution duly adopted, requested the Board of Estimate and Apportionment to authorize the expenditure by the Police Department of the sum of one thousand dollars for the purpose of collating the returns of the election in November, 1902, and I therefore suggest that similar action be taken this year.

Yours very truly,

SETH LOW, Mayor.

In connection herewith Alderman Devlin offered the following resolution:

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the amended Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the expenditure by the Police Department of one thousand dollars (\$1,000) for the purpose of properly collating the election returns on Tuesday, November 3, 1903, for distribution among the newspapers and the general public.

Which, on motion of Alderman Devlin, was made a special order for 2.15 o'clock p. m.

Subsequently, the hour of 2.15 o'clock having arrived, Alderman Devlin called up the resolution, and moved its adoption.

The President, then in the chair, put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Alt. Baldwin, Bennett, Bill, Brenner, Bridges, Chambers, Calkin, Devlin, Diemer, Dietz, Donohue, Doull, Downing, Florence, Gaffney, Gillen, Goodman, Haggerty, Harburger, Harnischfeger, Higgins, Holler, Holmes, James, Jones, Keely, Kenney, Klett, Leitner, Longfellow, Lundy, McCarthy, Malone, Marks, Mathews, Meyers, Oatman, Owens, Porges, Richter, Schappert, Shea, Stewart, Sullivan, Tebbetts, Twomey, Wafer, Walkley, Ware, Wentz, Whitaker, Willett, Worth; President Cromwell, Borough of Richmond; President Swanstrom, Borough of Brooklyn; President Cantor, Borough of Manhattan; the Vice-Chairman of the Board of Aldermen, and the President of the Board of Aldermen—60.

The communication from his Honor the Mayor was then ordered on file.

PETITIONS AND COMMUNICATIONS.

No. 2574.

New York City, October 8, 1903.

To the Hon. Board of Aldermen, City of New York, N. Y.:

Gentlemen—It is in your power to abate the organ grinder nuisance, which is becoming worse and worse each day especially in the downtown office districts? I believe the so-called "mud-gutter" bands were prohibited from playing in the City's streets, so why should not these dirty Italian organ grinders be treated likewise, or compel them to take out a license which should be at least \$500. That would be the only remedy.

Trusting that your Honorable Body will take this matter under consideration for the good of the populace,

Very respectfully yours,

WM. HENRY.

No. 2576.

Office of the Board of Rapid Transit Railroad Commissioners for The City of New York, No. 320 Broadway, New York City.

To the Honorable the Board of Aldermen of The City of New York:

The Board of Rapid Transit Railroad Commissioners for The City of New York heretofore and on or about the 4th day of February, 1897, submitted to the Common Council of The City of New York as then constituted a report with respect to the proposed rapid transit railroad in the said City.

Since the said report was made the routes and general plan for the rapid transit railroad above mentioned have been duly approved by the municipal authorities of The City of New York and by the Appellate Division of the Supreme Court for the First Judicial Department, and on the 21st day of February, 1900, a contract for the construction and operation of said rapid transit railroad was duly made with John B. McDonald, Contractor, by The City of New York, acting by the said Board. The said contractor is now engaged in the construction of the said railroad pursuant to the terms of said contract.

The said contractor desires, and the said Board having duly made the inquiries and investigation proper in the premises, approves an addition to the routes and general plan for the said railroad as heretofore adopted (such addition being known as the Fort Lee Ferry Extension), and has determined and established the said addition by resolution adopted July 16, 1903, by the concurrent vote of six of its members, and for the purpose of said addition has duly entered into an agreement with the said contractor bearing date the 16th day of July, 1903. A copy of the said agreement containing the resolution of July 16, 1903, is hereto annexed.

The said resolution of July 16, 1903, and the addition to the routes and general plan therein mentioned are now submitted to your Honorable Board for approval if it shall see fit to approve the same.

This additional route is approved by this Board, because, in its opinion, this connection between the Manhattan Street Station of the west side line of the Manhattan-Bronx Railroad, now being constructed by the City, and the entrance to the ferry operated by the New Jersey and Hudson River Ferry Company at the foot of West One Hundred and Thirtieth street will be of great convenience to the traveling public.

This Board has been informed that the Interborough Rapid Transit Company, to which has been assigned the lease for the operation of the Manhattan-Bronx Railroad, has made arrangements with the Ferry Company for the improvement of the ferry service.

In witness whereof this Board has caused its seal to be hereto affixed and these presents to be witnessed by its President and Secretary this 6th day of October, 1903.

A. E. ORR, President.

BION L. BURROWS, Secretary.

AGREEMENT OF JULY 16, 1903.

Agreement made this 16th day of July, in the year nineteen hundred and three, between The City of New York (hereinafter called the City), acting by the Board of Rapid Transit Railroad Commissioners for The City of New York (hereinafter called the Board), party of the first part, and John B. McDonald, of The City of New York (hereinafter called the contractor), and Interborough Rapid Transit Company, parties of the second part, witnesseth:

Whereas, Heretofore and on the 14th day of January, 1897, and the 4th day of February, 1897, the Board adopted certain routes and general plan for a rapid transit railroad in The City of New York, a portion of which extends under the Boulevard to a point at or near One Hundred and Twenty-fourth street, and thence by viaduct along and over the Boulevard to a point at or near One Hundred and Thirty-fourth street, and thence further to the north on the westerly branch of the said rapid transit railroad; and

Whereas, Heretofore and on or about the 21st day of February, 1900, the City, acting by the Board, entered into a contract with the contractor for the construction and operation of the said Rapid Transit Railroad in The City of New York and otherwise, as therein mentioned, the said contract being hereinafter styled the Contract for Construction and Operation; and

Whereas, The contractor has deposited with the Comptroller of the City certain security for the performance of the said Contract for Construction and Operation on his part and has given certain bonds as further security for such performance and upon such bonds there are sureties as follows: Rapid Transit Subway Construction Company, the United States Fidelity and Guaranty Company, the City Trust Safe Deposit and Surety Company of Philadelphia, American Surety Company of New York, National Surety Company and Perry Belmont; and

Whereas, By written instrument bearing date the tenth day of July, 1902, the contractor, with the written consent of the Board, concurred in by six members thereof, duly assigned the right or obligation to maintain and operate the said Rapid Transit Railroad for the term of years specified in the said contract and all rights included in the leasing provisions of the said contract, together with the obligation to provide equipment for the said railroad, unto Interborough Rapid Transit Company,

which company also guaranteed the performance by the contractor of the provisions of his said contract not so assigned to it; and

Whereas, It is in said Contract for Construction and Operation provided that the said Board of Rapid Transit Railroad Commissioners shall have the right to require additional work to be done or additional materials to be furnished or both, within the general purview of a rapid transit railroad as therein described, the reasonable value of which should be additionally paid to the contractor; and

Whereas, The contractor desires, and the Board approves, a modification of the routes and general plan for the Rapid Transit Railroad referred to in the said Contract for Construction and Operation as set forth in certain resolutions adopted by the Board on the 16th day of July, 1903, a copy of which is hereto annexed, in order to provide for an addition to the said routes and general plan, as in said resolutions and herein described—

Now, therefore, in consideration of the premises, but subject to the consents hereinafter provided, it is agreed that the said Contract for Construction and Operation and the Routes and General Plan therein contained be, and the same are hereby modified by adding to the said Routes and General Plan the words following, to wit:

"And also a branch or spur extending from the line of the route aforesaid on Broadway (formerly the Boulevard), at a point about one hundred (100) feet northerly from the north line of One Hundred and Twenty-fifth street, and thence extending northerly along and over Broadway (being in addition to the tracks hereinbefore originally provided along such portion of Broadway) to Manhattan street; thence westerly along and over Manhattan street and under the Manhattan viaduct and over and across the tracks of the New York Central and Hudson River Railroad, West One Hundred and Thirtieth street and the exterior or bulkhead street to the ferry house at the foot of West One Hundred and Thirtieth street, together with proper connections by necessary and suitable switches, tracks and otherwise, with the rapid transit railroad originally described in said Routes and General Plan, at and north of One Hundred and Twenty-fifth street, and also including proper connections by stairways and otherwise with the said ferry house.

"The general plan of construction of the route hereby added shall be by elevated structure of the same character and to be constructed in the same manner as is hereinbefore provided for the elevated portion of the rapid transit railroad over and along Broadway (the Boulevard) at One Hundred and Twenty-fifth street. There shall be at least two parallel tracks with the right at any time to add a third track in the discretion of the Board of Rapid Transit Railroad Commissioners. The said connections, switches and tracks shall be so constructed as to make convenient the running of trains without change between the portions of the said rapid transit railroad over and along Broadway (the Boulevard) south of One Hundred and Twenty-fifth street and the part on Manhattan street hereby provided for. Stations and station approaches may be built at the intersection of Broadway and Manhattan street and also at the terminus of the addition hereby adopted at the foot of West One Hundred and Thirtieth street or elsewhere, upon the said addition, as the Board of Rapid Transit Railroad Commissioners may decide.

"In all other respects the provisions of the said general plan of construction adopted January 14 and February 4, 1897, shall be applicable to the portion of the route hereby added."

And it is hereby further agreed, that the said contract be and the same shall hereafter be deemed to be so modified as that the portion of the rapid transit railroad added by the modification aforesaid of the Routes and General Plan shall in all respects, except as herein otherwise expressly provided, be deemed to be part of the rapid transit railroad originally described in the said contract hereby modified. Provided, however, that the frequency of train service upon the said portion of the rapid transit railroad so added by the said modification shall, from time to time, be determined by the Board. Provided, further, however, that the frequency of such service shall in no case be required to be greater than is in said contract provided for service upon the remainder of the said rapid transit railroad.

And it is hereby further agreed, that the reasonable value of constructing that portion of the rapid transit railroad upon the said additional route and including all of the said connections, switches, tracks, stations and station approaches, and all appurtenances of such addition to the said rapid transit railroad shall be deemed a part of the cost of constructing said rapid transit railroad, and shall be ascertained and determined and paid to the contractor in the manner provided in the contract for the construction and operation of said rapid transit railroad in addition to the amounts in said contract originally agreed to be paid unto said contractor, and that such additional amounts so paid shall be included in the total cost of the construction of the said railroad in determining the amount of rental to be paid under said contract in like manner, as if said additional route had been originally authorized therein;

Provided, however, and it is expressly agreed that this agreement shall take effect if and when and only when the following consents shall have been duly had, to wit:

The consents as subjoined of Rapid Transit Subway Construction Company, the United States Fidelity and Guaranty Company, the City Trust, Safe Deposit and Surety Company of Philadelphia, American Surety Company of New York, National Surety Company, and Perry Belmont; and

Provided, further, however, and it is expressly agreed, that this agreement shall take effect if and when, and only when, the following consents shall have been duly given to the said resolutions adopted by the Board on the 16th day of July, 1903, a copy of which is hereto annexed, providing for the said addition to said Routes and General Plan; the consent of the Board of Aldermen of The City of New York; the consent of the Mayor of The City of New York; and the consent of the owners of a majority in value of the property along such streets or such portions of streets as are included in the portion of the route added as aforesaid, or if such last mentioned consent cannot be obtained, then in lieu thereof, the determination of three Commissioners to be appointed by the Appellate Division of the Supreme Court duly confirmed by the said Appellate Division.

The plan hereto annexed entitled "Board of Rapid Transit Railroad Commissioners for The City of New York; Routes and General Plan adopted by resolution July 16, 1903," is intended to illustrate and show in general the addition to and modification of the said original Routes and General Plan as hereby proposed.

In witness whereof this contract has been executed for The City of New York, by its Board of Rapid Transit Railroad Commissioners, under and by a resolution duly adopted by said Board, concurred in by more than six of its members, and the seal of the said Board has been hereto affixed and these presents signed by the president and secretary of the said Board, and the said John B. McDonald has hereto set his hand and seal and the said Interborough Rapid Transit Company has caused its corporate seal to be hereto affixed and attested by its secretary, and these presents to be signed by its president—all the day and year first above written.

Whereas, The said Routes and General Plan were afterward duly approved by the municipal authorities of The City of New York, and were duly consented to by Commissioners appointed by the Appellate Division of the Supreme Court, which consent was duly confirmed by the said Appellate Division, in lieu of the consent of the owners of a majority in value of the property along said routes; and

Whereas, Thereafter, and on or about the 21st day of February, 1900, The City of New York did by this Board enter into a certain contract with John B. McDonald for the construction and operation of the said rapid transit railroad; and

Whereas, By written instrument bearing date the 10th day of July, 1902, the said John B. McDonald with the written consent of this Board concurred in by six members thereof duly assigned the right or obligation to maintain and operate the said rapid transit railroad for the term of years specified in the said contract and all rights included in the leasing provisions of the said contract together with the obligation to provide equipment for the said railroad, unto Interborough Rapid Transit Company, which company also guaranteed the performance by the said John B. McDonald as such contractor, of the provisions of his said contract not so assigned to it; and

Whereas, It is the interest of The City of New York, and, in the opinion of the said John B. McDonald, it is likewise in his interest as such contractor, and he desires that said Routes and General Plan shall be changed in the respect hereinafter mentioned, but without other change in the said Routes and General Plan: now therefore it is

Resolved, That, subject to the consents and approvals to be first obtained as in these resolutions hereinafter mentioned, the said Routes and General Plan heretofore adopted by this Board be, and they hereby are modified by adding to the said routes the following, to wit:

"And also a branch or spur extending from the line of the route aforesaid on Broadway (formerly the Boulevard), at a point about one hundred (100) feet northerly from the north line of One Hundred and Twenty-fifth street; and thence extending northerly along and over Broadway (being in addition to the tracks hereinbefore originally provided along such portion of Broadway) to Manhattan street; thence westerly along and over Manhattan street and under the Manhattan viaduct and over and across the tracks of the New York Central and Hudson River Railroad, West One

Hundred and Thirtieth street and the exterior or bulkhead street to the ferry house at the foot of West One Hundred and Thirtieth street, together with proper connections by necessary and suitable switches, tracks and otherwise, with the rapid transit railroad originally described in said Routes and General Plan, at and north of One Hundred and Twenty-fifth street, and also including proper connections by stairways and otherwise with the said ferry house.

"The general plan of construction of the portion of the route hereby added shall be by elevated structure of the same character and to be constructed in the same manner as is hereinbefore provided for the elevated portion of the rapid transit railroad over and along Broadway (the Boulevard) at One Hundred and Twenty-fifth street. The said connections, switches and tracks shall be so constructed as to make convenient the running of trains without change between the portions of the said rapid transit railroad over and along Broadway (the Boulevard) south of One Hundred and Twenty-fifth street and the part on Manhattan street, hereby provided for. Stations and station approaches may be built at the intersection of Broadway and Manhattan street, and also at the terminus of the addition hereby adopted at the foot of West One Hundred and Thirtieth street or elsewhere upon the said addition as the Board of Rapid Transit Railroad Commissioners may decide."

In all other respects the provisions of the said general plan of construction adopted January 14 and February 4, 1897, shall be applicable to the portion of the route hereby added; and it is further

Resolved, That whereas this Board has duly made the inquiries and investigation necessary or proper in the premises, and has determined that the modification aforesaid of the said Routes and General Plan are necessary for the interests of the public and of The City of New York and should be established as herein provided, this Board does hereby determine and establish the said Routes and General Plan as hereby modified, subject to the consents and approvals to be first obtained as hereinafter mentioned; and it is further

Resolved, That the said modifications of Routes and General Plans shall take effect only upon and after the following consents and approvals thereto shall be duly had, to wit:

1. The consent of the Board of Aldermen of The City of New York.

3. The consent of the owners of a majority in value of the property along streets or such portions of streets as are included in the portion of the routes added as aforesaid; or, if such consents cannot be obtained, then, in lieu thereof, the determination of three Commissioners to be appointed by the Appellate Division of the Supreme Court, duly confirmed by the said Appellate Division.

McDonald, contractor, and of his sureties, as follows: Rapid Transit Subway Construction Company, the United States Fidelity and Guaranty Company, the City Trust, Safe Deposit and Surety Company of Philadelphia, American Surety Company of New York, National Surety Company and Perry Belmont, and also of Interborough Rapid Transit Company; it is further

Resolved, That this Board hereby adopts the drawing now produced and entitled "Board of Rapid Transit Railroad Commissioners for The City of New York: Routes and General Plan adopted by Resolution, July 16, 1903," as showing in general the additions to and modifications of the original Routes and General Plan hereby adopted. [Drawing annexed to Original Agreements.]

No. 2577.

Office of the Board of Rapid Transit Railroad Commissioners for The City of New York, No. 320 Broadway, New York City.

To the Honorable the Board of Aldermen of The City of New York:

The Board of Rapid Transit Railroad Commissioners for The City of New York heretofore and on or about the 4th day of February, 1897, submitted to the Common Council of The City of New York as then constituted a report with respect to the proposed rapid transit railroad in the said city.

Since the said report was made the routes and general plan for the rapid transit railroad above mentioned have been duly approved by the municipal authorities of The City of New York and by the Appellate Division of the Supreme Court for the First Judicial Department, and on the 21st day of February, 1900, a contract for the construction and operation of said rapid transit railroad was duly made with John B. McDonald, contractor, by The City of New York, acting by the said Board. The said contractor is now engaged in the construction of the said railroad pursuant to the terms of said contract.

The said contractor desires, and the said Board having duly made the inquiries and investigation proper in the premises, approves an addition to the routes and general plan for the said railroad as heretofore adopted (such addition being known as the Westchester avenue connection), and has determined and established the said addition by resolution adopted July 16, 1903, by the concurrent vote of six of its members, and for the purpose of the said addition has duly entered into an agreement with the said contractor bearing date the 16th day of July, 1903. A copy of the said agreement, containing the resolution of July 16, 1903, is hereto annexed.

The said resolution of July 16, 1903, and the addition to the routes and general plan therein mentioned, are now submitted to your Honorable Board for approval if it shall see fit to approve the same.

This addition to the original route will connect at Third Avenue and One Hundred and Forty-ninth street the East Side line of the Manhattan-Bronx Railroad, now being constructed by the city, with the Third Avenue line of the Manhattan Elevated Railroad Company. Since the routes and general plan were adopted the Interborough Rapid Transit Company, to which has been assigned the lease for the operation of the Manhattan-Bronx Railroad, has acquired and is now operating the Manhattan Elevated Railroad system, and such connection is now possible and, in the opinion of this Board, most advantageous to the traveling public. Provision has been made in the contract that a passenger traveling on the Manhattan-Bronx Railroad from the north shall have the choice, without additional fare, of continuing south on the Manhattan-Bronx Railway or upon this proposed addition, and thence southerly upon the Third Avenue line of the Manhattan Railroad Company; and that a passenger traveling north upon the Third Avenue line of the Manhattan Railway Company shall have the choice, without additional fare, of continuing north on said line or of continuing easterly upon the said proposed addition, and thence along the Manhattan-Bronx Road, Westchester avenue, to the northeasterly terminus.

In witness whereof this Board has caused its seal to be hereto affixed and these presents to be witnessed by its President and Secretary this 6th day of October, 1903.

A. E. ORR, President.

BION L. BURROWS, Secretary.

AGREEMENT OF JULY 16, 1903.

Agreement made this 16th day of July, in the year nineteen hundred and three, between The City of New York (hereinafter called the city), acting by the Board of Rapid Transit Railroad Commissioners for The City of New York (hereinafter called the Board), party of the first part, and John B. McDonald, of The City of New York (hereinafter called the contractor), and Interborough Rapid Transit Company, parties of the second part, witnesseth:

Whereas, Heretofore and on the 14th day of January, 1897, and the 4th day of February, 1897, the Board adopted certain Routes and General Plan for a rapid transit railroad in the City of New York, a portion of which in the Borough of the Bronx extends from under the Harlem River under private property to East One Hundred and Forty-ninth street at or near its intersection with River avenue; thence under East One Hundred and Forty-ninth street to a point near its intersection with Third avenue; thence with a curve to the left and under Third avenue to a point near its intersection with Westchester avenue; thence with a curve to the right to and under Westchester avenue; and thence by viaduct over and along Westchester avenue to the Southern Boulevard and thence further to the north on the easterly branch of the said rapid transit railroad; and

Whereas, Heretofore and on or about the 21st day of February, 1900, the city, acting by the Board, entered into a contract with the Contractor for the construction and operation of the said Rapid Transit Railroad in The City of New York and otherwise, as therein mentioned, the said contract being hereinafter styled the Contract for Construction and Operation; and

Whereas, The Contractor has deposited with the Comptroller of the city certain security for the performance of the said Contract for Construction and Operation on

his part, and has given certain bonds as further security for such performance and upon such bonds there are sureties as follows: Rapid Transit Subway Construction Company, The United States Fidelity & Guaranty Company, The City Trust Safe Deposit & Surety Company of Philadelphia, American Surety Company of New York, National Surety Company and Perry Belmont; and

Whereas, By written instrument bearing date the tenth day of July, 1902, the contractor, with the written consent of the Board, concurred in by six members thereof, duly assigned the right or obligation to maintain and operate the said Rapid Transit Railroad for the term of years specified in the said contract and all rights included in the leasing provisions of the said contract, together with the obligation to provide equipment for the said railroad, unto Interborough Rapid Transit Company, which Company also guaranteed the performance by the contractor of the provisions of his said contract not so assigned to it; and

Whereas, It is in said Contract for Construction and Operation provided that the said Board of Rapid Transit Railroad Commissioners shall have the right to require additional work to be done or additional materials to be furnished or both, within the general purview of a rapid transit railroad as therein described, the reasonable value of which should be additionally paid to the contractor; and

Whereas, The contractor desires, and the Board approves, a modification of the Routes and General Plan for the Rapid Transit Railroad referred to in the said Contract for Construction and Operation as set forth in certain resolutions adopted by the Board on the 16th day of July, 1903, a copy of which is hereto annexed, in order to provide for an addition to the said Routes and General Plan, as in said resolutions and herein described,—

Now, therefore, in consideration of the premises, but subject to the consents hereinafter provided, it is agreed that the said Contract for Construction and Operation and the Routes and General Plan therein contained be, and the same are hereby modified by adding to the said Routes and General Plan the words following, to wit:

"And also a branch or spur extending from the line of the route aforesaid on Westchester avenue at a point at or near the intersection of St. Ann's avenue and Westchester avenue and extending westerly along Westchester avenue (being in addition to the tracks hereinbefore originally provided over and along such portion of Westchester avenue) to near Third avenue, and from Westchester avenue turning southerly into Third avenue to a point convenient for connection with the railroad of the Manhattan Railway Company over Third avenue, together with proper connections by necessary and suitable switches, tracks and otherwise, with the rapid transit railroad aforesaid at or near the intersection of St. Ann's avenue and Westchester avenue aforesaid, and also together with proper connections by necessary and suitable switches, tracks and otherwise with the said railroad of the Manhattan Railway Company upon Third avenue.

"The general plan of construction of the route hereby added shall be by elevated structure of the same character and to be constructed in the same manner as is hereinbefore provided for the elevated portion of the rapid transit railroad over and along Westchester avenue. There shall be at least two parallel tracks with the right at any time to add a third track in the discretion of the Board of Rapid Transit Railroad Commissioners. The said connections, switches and tracks shall be so constructed as not to interfere with the convenience of running trains without change between the portion of the said rapid transit railroad over and along Westchester avenue and east of St. Ann's avenue and the portion of the said rapid transit railroad running from St. Ann's avenue westerly along Westchester avenue and turning thence southwesterly towards and into East One Hundred and Forty-ninth street, and as to make convenient the running of trains without change between such portion of the said rapid transit railroad lying east of St. Ann's avenue and the said elevated railroad of the Manhattan Railway Company.

"In all other respects the provisions of the said general plan of construction adopted January 14 and February 4, 1897, shall be applicable to the portion of the route hereby added."

And it is hereby further agreed that the said contract be and the same shall hereafter be deemed to be so modified as that the portion of the rapid transit railroad added by the modification aforesaid of the Routes and General Plan shall in all respects, except as herein otherwise expressly provided, be deemed to be part of the rapid transit railroad originally described in the said contract hereby modified. Provided, however, that the frequency of train service upon the said portion of the rapid transit railroad so added by the said modification shall, from time to time, be determined by the Board. Provided, further, however, that the frequency of such service in no case be required to be greater than is in said contract provided for service upon the remainder of the said rapid transit railroad.

And it is hereby further agreed that the reasonable value of constructing that portion of the rapid transit railroad upon the said additional route and including all of the said connections, switches, tracks and all appurtenances of such addition to the said rapid transit railroad shall be deemed a part of the cost of constructing said rapid transit railroad, and shall be ascertained and determined and paid to the contractor in the manner provided in the contract for the construction and operation of said rapid transit railroad in addition to the amounts in said contract originally agreed to be paid unto said contractor, and that such additional amounts so paid, together with all sums which the city shall be required to pay for right of way or any other easements or rights necessary to be purchased, condemned or otherwise acquired for the construction or operation of the said portion of railroad added by the modification aforesaid, shall be included in the total cost of the construction of the said railroad in determining the amount of rental to be paid under said contract in like manner as if said additional route had been originally authorized therein.

Provided, however, and it is expressly agreed, that this agreement shall take effect if and when only when the following consents shall have been duly had, to wit:

The consents as subjoined of Rapid Transit Subway Construction Company, The United States Fidelity & Guaranty Company, The City Trust, Safe Deposit & Surety Company of Philadelphia, American Surety Company of New York, National Surety Company, and Perry Belmont; and

Provided, further, however, and it is expressly agreed, that this agreement shall take effect if and when, and only when, in addition to the consents aforesaid, there shall be duly executed and delivered in form satisfactory to the Board an agreement under seal between the city, the said John B. McDonald, the said Interborough Rapid Transit Company and the Manhattan Railway Company providing and assuring that, during the period of the lease contained in the said contract between the city and John B. McDonald made on or about the 21st day of February, 1900, and every renewal or extension thereof, any passenger upon the said rapid transit railroad traveling along Westchester avenue from the north as far as St. Ann's avenue, shall have the right as part of the same trip and without additional fare, to be carried thence upon the portions of the rapid transit railroad hereby added to the railroad of the Manhattan Railway Company along Third avenue, and thence southerly upon the railroad of the Manhattan Railway Company to any point upon the said railroad south of the intersection of the said Third avenue and Westchester avenue, and that any passenger upon the said railroad of the Manhattan Railway Company traveling northerly along said Third avenue as far as Westchester avenue, shall have the right, as part of the same trip and without additional fare, to be carried easterly upon the portion of the rapid transit railroad hereby added along Westchester avenue to St. Ann's avenue, and thence continuing easterly or northerly to any point upon the eastern branch of the rapid transit railroad as described in the said Routes and General Plan; and

Provided, further, however, and it is expressly agreed, that this agreement shall take effect if and when, and only when, the following consents shall have been duly given to the said resolutions adopted by the Board on the 16th day of July, 1903, a copy of which is hereto annexed, providing for the said addition to said Routes and General Plan; the consent of the Board of Aldermen of The City of New York; the consent of the Mayor of The City of New York; and the consent of the owners of a majority in value of the property along such streets or such portions of streets as are included in the portion of the route added as aforesaid, or if such last mentioned consent cannot be obtained, then in lieu thereof, the determination of three commissioners to be appointed by the Appellate Division of the Supreme Court duly confirmed by the said Appellate Division.

The plan hereto annexed entitled "Board of Rapid Transit Railroad Commissioners for The City of New York; Routes and General Plan adopted by resolution July 16, 1903," is intended to illustrate and show in general the addition to and modification of the said original Routes and General Plan as hereby proposed.

In witness whereof this contract has been executed for The City of New York, by its Board of Rapid Transit Railroad Commissioners, under and by a resolution duly adopted by said Board, concurred in by more than six of its members, and the seal of the said Board has been hereto affixed and these presents signed by the President and

Secretary of the said Board, and the said John B. McDonald has hereto set his hand and seal and the said Interborough Rapid Transit Company has caused its corporate seal to be hereto affixed and attested by its secretary, and these presents to be signed by its president—all the day and year first above written.

The foregoing contract is hereby approved as to form.

Copy Resolution of 16th July, 1903.

Whereas, This Board did, on the 14th day of January, 1897, and 4th day of February, 1897, adopt certain Routes and General Plan for a rapid transit railroad in The

City of New York, a copy of which is hereto annexed entitled "Copy Routes and General Plan," and

No. 2579.

The Building Trade Employers' Association of The Bronx.

At a regular meeting of the Building Trade Employers' Association of The Bronx, held at its headquarters, Tuesday, October 6, 1903, Charles H. Baxter presiding, the following preambles and resolutions were unanimously adopted:

Whereas, The Building Trade Employers' Association of The Bronx is very much interested in traveling facilities for the borough, as proper, prompt, speedy and commodious railway accommodations will induce an influx of population and consequently a revival in the building industries; and

Whereas, The corporation known as the New York and Port Chester Railway Company promises to give the borough quick and safe transit out to its most northerly limits; and

Whereas, The Board of Aldermen, for reasons unknown to those most directly interested, but against the best interests of the borough, has delayed for months taking action in the matter of said New York and Port Chester Railroad, and thus preventing operations being commenced on the same, which if commenced would provide work for hundreds deserving men now idle; be it

Resolved, That this association of employers of labor desires to impress upon the minds of the Aldermen representing the several boroughs that the residents and taxpayers of this important borough have some rights which the Board of Aldermen should consider itself bound to respect.

Resolved, That this association most earnestly request the Board of Aldermen for The City of New York to take favorable action in the premises without further delay, and thus show it in a measure appreciates the interests of this great and fast-growing borough.

Resolved, That a copy of these resolutions be forwarded to the President of The Borough of The Bronx, with a request that he lay the same before the Board of Aldermen.

The Vice-Chairman laid before the Board the following communication from the Justice of the Third Municipal District, Borough of Manhattan:

No. 2580.

Municipal Court of The City of New York, Borough of Manhattan,
Third District,
Sixth Avenue and Tenth Street,
September, 30, 1903.

To the Board of Aldermen:

Gentlemen—I wish to draw your attention to the condition of the courtroom of the Municipal Court, Third District, Borough of Manhattan, and the other rooms used in connection with such court, and to say that for the past two and one-half years I have been endeavoring to have such condition remedied.

For almost two years the roof leaked during every rain storm, defacing and destroying the walls. This has been remedied, but I am informed in answer to requests and complaints made to the President of the Borough that while he recognizes the necessity of repairs and repainting he is unable to have this work done because there is no appropriation for that purpose, and that he has been unable to get one from the Board of Estimate and Apportionment.

I assure you that I would not trouble you with this matter, or ask that a single penny be expended unless it was absolutely necessary, but for the reasons assigned for not doing this work I deem it proper to address you upon the subject and ask you to draw the attention of the Board to the matter and have them make provisions to have this work done.

Yours very truly,

WILLIAM F. MOORE, Justice.

To the Board of Education:

The Committee on Buildings respectfully reports that on January 28, 1903 (see Journal, pages 157-159), a report and resolution was adopted fixing the salaries of sundry inspectors who on January 1, 1903, had completed three or more years of service in the Department of Education at \$30 per week, that salary having been fixed by the Board of Aldermen for the position of Inspector in the Bureau of Buildings.

It appears, however, that the salary named had been fixed for the position of Inspector of Repairs, and was not applicable to the positions of Inspectors of Sanitary Work, Furniture and Heating and Ventilating. In order to carry out the intention of the Board of Education as above set forth it will be necessary for action to be taken by the Board of Estimate and Apportionment and the Board of Aldermen.

The following resolution is submitted for adoption:

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to recommend to the Board of Aldermen that the salaries of the following-named positions in the Department of Education be fixed at the amounts named below:

Inspector of Sanitary Work, per week..... \$30 00

Inspector of Furniture, per week..... 30 00

Inspector of Heating and Ventilating, per week..... 30 00

—and to ratify and confirm the action of the Board of Education taken on January 28, 1903 (see Journal, pages 157-159), in increasing the salaries of sundry Inspectors of Sanitary Work, Furniture, and Heating and Ventilating, to the amount above stated, viz., \$30 per week.

A true copy of report and resolution adopted by the Board of Education on September 23, 1903.

"Resolved, That, subject to the concurrence and approval of the Board of Aldermen, the Board of Estimate and Apportionment hereby ratifies and confirms the action

No. 2588.

BOARD OF CITY RECORD.

Office of the City Record, No. 2 City Hall, New York.

September 29, 1903.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Sir—At a meeting of the Board of City Record held September 28, 1903, the following resolution was unanimously adopted:

Resolved, That the Departmental Estimate of the amounts required to pay the expenses of the Board of City Record for the year 1904, as submitted by the Supervisor, be forwarded to the Board of Estimate and Apportionment and a copy to the Board of Aldermen and to the Comptroller.

I have the honor to forward you the inclosed estimate of amounts required to pay the expenses of conducting the office of the City Record during the year 1904.

Respectfully yours,

CHARLES S. HERVEY, Secretary, Board of City Record.

Office of the Supervisor,
September 25, 1903.

The Honorable the Board of City Record:

Gentlemen—I hereby respectfully submit for your consideration the amount of the appropriations, which in my judgment will be required to pay the cost of printing and blank book supplies and stationery for the City and County Departments and offices for the year 1904, together with the salary estimate for the employees of the Board, and an estimate of a contingency fund for 1904.

The amounts indicated in each item of this estimate are largely based on this year's cost of the office. The increase of \$100,000 in the appropriation for the publication of the "City Record" is based on the actual cost of said publication for this year, which will approximate \$185,000, and the added cost of said publication next year, due to provisions of chapter 455 of the Laws of 1903, which requires to be published in supplemental form in the "City Record" an annual record of the assessed valuation of each section, district or ward of the City.

A conservative estimate of the added cost of publication imposed by this law, on the basis of present contract rates, is \$46,000. If contract rates for the publication of the "City Record" in 1904 are materially higher, the cost of this item will be substantially increased, as, of course, will be the other items in said publication.

The budget is as follows:

No. 2588A.

MUNICIPAL COURT, THIRD DISTRICT, BOROUGH OF MANHATTAN.

Municipal Court of The City of New York,
Borough of Manhattan, Third District,
Sixth Avenue and Tenth Street,
October 2, 1903.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—Under date of July 30, 1903, I submitted the Departmental Estimate of the amount of expenditures necessary for the payment of the salaries of the Justice and officers of this Court for the year 1903.

My impression at that time was that the Board of Justices, as such, would submit an estimate covering the contingent expenses of the entire Court, including this and other districts, but I find instead that the Justice of each District includes in his estimate an amount to cover the contingent expenses of the Court, and would say that the sum of at least three hundred and fifty dollars (\$350) is necessary to cover the actual expenses of the Court, outside of salaries, including the replacement of certain furniture decidedly unfit for use.

I would therefore ask that an appropriation for such amount be added to the estimate of nineteen thousand one hundred dollars (\$19,100) heretofore submitted by me.

Yours respectfully,

WILLIAM F. MOORE, Justice.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Grout, Comptroller, dated July 15, 1903, and in compliance with section 226 of the Greater New York Charter, I have the honor to submit the following Departmental Estimate of the amount of expenditures, with specifications in detail as to the objects thereof, that would be required by this Department, in the office of the District Attorney for the County of New York for the year 1904, including a statement of the salaries of each of the persons employed in said Department, as follows:

Total estimate for 1904

Salaries.

The amount requested for salaries is on the basis of the September payroll, and shows an increase of \$9,120, which amount is sufficient to allow the continuance of the reasonable re-adjustment of salaries of the professional and administrative staff made by me during the month of May, and concurred in by your Honorable Board at that time, and also includes additional increases of salary and additions to the force of this Department.

Increases of Salary, 1904.

1 Chief County Detective, from \$1,500 to \$1,800.....	\$300 00
1 Deputy Chief County Detective from \$1,400 to \$1,700.....	300 00
1 Messenger, from \$720 to \$900.....	180 00

Total increase, salaries.....

Increase of Force.

2 Stenographers and Typewriters, at \$1,200 each.....	\$2,400 00
3 Stenographers and Typewriters, at \$1,000 each.....	3,000 00

Total increase of force.....

Total amount—increase of salaries and force.....

In reference to the proposed increases of salary I desire to state that George P. Hammond, now at \$1,500 per annum, should receive \$1,800. He has filled the important and responsible position of Chief County Detective since January 1, 1902, having full charge and supervision of the County Detective Bureau, which consists of over thirty County Detectives, and has managed that Bureau to my entire satisfaction, and with very satisfactory results.

Mr. Hammond is especially fitted to fill this position by reason of the fact that for a long period he had been Assistant Superintendent of the Society for the Prevention of Crime, which place he resigned to accept his present position.

Edward J. Reardon, Deputy Chief County Detective, now at \$1,400 per annum, should receive \$1,700. Mr. Reardon was formerly with the Anti-Policy Society, and is the leading authority, in this city, on the intricate methods and workings of the policy business. It is, in a great measure, due to his extensive experience, combined with unusual zeal and ability, that the policy business has been practically eliminated in this county, and it would be a very difficult matter for me to find as competent and reliable a man to fill that position.

The foregoing increases are in recognition of the exceptionally valuable services rendered by these gentlemen, the work performed by each of them being of such a character that they should receive a compensation commensurate with the important duties devolving upon them.

Madison S. Jones, now at \$720, should receive \$900. Mr. Jones was included in my readjustment of salaries made last May, at which time your Board approved my recommendation to increase his salary from \$600 to \$900, but owing to the State Civil Service rules, I could only increase his salary to \$720. In a few months Mr. Jones will be the required time in his present grade, and I then intend to give him the increase mentioned, in recognition of his conscientious work.

The present force of Stenographers and Typewriters employed in the Department is totally inadequate to keep up with the large volume of work, and necessitates an extraordinary amount of night work, which they have been, and now are, performing, in addition to working on Sundays and legal holidays. Owing to this lack of stenographic force, many of my professional staff, in the preparation of their cases for trial, such as taking statements, affidavits, etc., of witnesses, have been, and now are, compelled to take same in long hand.

Large sums are now paid for extra stenographic work, a considerable part of which might as well be done by the regular staff. Therefore, in order that the De-

partment may be properly equipped to transact its ordinary business, it is essential that five additional Stenographers and Typewriters be added to the limited force employed at present.

I have included such vacancies now existing in the staff of employees caused by the death of Mr. Queralta, formerly Clerk to Trial Assistant in Part 3, and the resignation of Mr. John D. Maher, County Detective, because of the fact that it is necessary, in my judgment, that the positions so vacant should be filled, and, therefore, the condition which now exists is only a temporary one.

With the proposed increases in salary and five additions to the force, the total amount requested for salaries is \$241,620, whereas for the year 1900 the sum of \$244,410 was appropriated for the same account, and the work of this Department has considerably increased since that time, and is being disposed of with a considerably smaller force of employees.

Supplies and Contingencies, Including Arrearages.

The amount required for supplies and contingencies, 1904, including arrearages, is \$100,000. This is due to the fact that the Board of Estimate and Apportionment only allowed \$50,000 for supplies and contingencies, including arrearages for the present year, which amount is insufficient to meet the charges ordinarily arising against this account, and the allowance of only \$50,000 has seriously hampered the work of this Department.

The sum expended up to the middle of August, 1903, in addition to the bills pending but not yet certified, amount to \$52,500, which will leave an estimated deficit at the close of the current year of at least \$15,000.

Of the \$50,000 allowed for supplies and contingencies, including arrearages for the current year, \$15,611.90 has been disbursed as "Arrearages" for contingent expenses incurred in 1902, and for the payment of other claims left over from former administrations. As these "Arrearages" were payable out of our supplies and contingencies for 1903, including arrearages—\$50,000—there actually remained available for said account this year the sum of \$34,388.10.

The past year witnessed an extraordinary number of homicide and other criminal trials of great intricacy and difficulty, requiring the attendance of many witnesses from all parts of the country, who had to be provided for at great expense, such as their maintenance during the trials, railroad fares, etc., and the employment of expensive medical, toxicological, chemical and handwriting experts, etc., etc.

Extraordinary expenses have been involved in cases of great importance to the community, especially those relating to the Police and other departments, where I was obliged to employ private detectives, and provide for the maintenance of important witnesses, who were kept under constant surveillance. One of the largest claims now pending, and which was left over from a former administration, is the claim of Albany County for expenses incurred and disbursements made during the trial of Thomas J. Diamond, in the Supreme Court of that county, during the months of October and November, 1901. In an opinion rendered some months ago by Hon. G. L. Rives, Corporation Counsel, he advised the Comptroller, Hon. Edward M. Grout, that this claim should be paid out of our appropriation for supplies and contingencies, including arrearages. Formerly such claims as these were chargeable to the county, and not against the contingent appropriation of the District Attorney.

Recently the Supreme Court of this county granted a change of venue in several prominent cases, and designated that said cases be tried in Broome and Cortland counties. The trial of these cases will necessitate a heavy outlay to cover the expenses of transportation, and the maintenance of counsel, clerks, stenographers, officers and witnesses for the people, in attending the trials, and in addition thereto sheriff's fees, mileage, and fees of all jurors summoned to attend the trials; also the maintenance of the jurors actually engaged in the trial of the said cases, fees and salary of court attaches, such as stenographers, clerks, criers, officers, librarians, constables, etc., and any other expenses said counties may incur. Should these cases be tried this fall, the estimated deficit of \$15,000 for the current year will be largely increased, and the expenses of same will have to be paid as "Arrearage" from the appropriation for supplies and contingencies, 1904, including arrearages.

Expensive extradition proceedings are now and have been pending in the State of Ohio, wherein it was necessary to engage some of the leading counsel practicing in that state and send on representatives from this office. In addition to this outlay heavy expenses have been incurred in procuring the arrest and extradition of prisoners from other states and territories.

Expenses must be incurred in order to have this Department properly equipped for the transaction of public business, as it is urgently necessary that considerable repairs be made to the furniture, as the same is in very bad condition. New desks are required, but in some instances it may be possible to repair the old ones. Some of the typewriting machines have been in use many years, and it is a waste of money to repair them, and they should be exchanged for new machines. Steel cabinets are urgently necessary for Deputy Assistant District Attorneys for the safe keeping of important documents and exhibits. Tables, chair and file cabinets are badly needed. All these supplies were formerly obtained on requisitions through the Department of Public Buildings, Lighting and Supplies, but under the new Charter it is necessary to purchase the same out of the contingent appropriation.

An offset to the \$50,000 allowed for contingent expenses for 1903 it is proper to add that during the present year, up to August 1, under my administration of this Department, I have collected on forfeited recognizances the sum of \$40,000 and hope before the close of the year to add greatly to this amount. In fact I expect to turn over to the City Chamberlain considerably more than \$50,000. The \$40,000 collected during the first seven months of the year is the largest sum that has ever been collected under any administration. In addition to collecting this large sum on forfeited recognizances, I have considerably curtailed the operations of the so-called straw bondsman by arresting a number of them, all of whom have been convicted of perjury and sentenced to State Prison for terms of imprisonment of five years or more, with the exception of one awaiting trial.

The Revenue Bond Fund for expenses in conducting criminal actions against Albert T. Patrick, David L. Short, Morris L. Meyers and Roland B. Molineux. (Resolution adopted by the Board of Estimate and Apportionment May 23, 1902)..... \$70,000 00

Balance available January 1, 1903..... \$17,537 24
Amount expended to August 21, 1903..... 9,531 35

Balance on hand..... \$8,005 89

The balance of \$8,005.89 remaining to the credit of this account will not be sufficient to meet the necessary expenses in connection with the preparation and argument of the appeal in the case of the People vs. Albert T. Patrick, it being necessary to engage eminent counsel to argue this case before the Court of Appeals. In addition to the expense involved in the Patrick case the trial of the cases of the People vs. David L. Short and Morris Meyers, both of whom were jointly indicted with Patrick, are set for trial in October, and it is necessary to bring a large number of prominent business men from Texas as witnesses, who must be provided with transportation and maintenance from the time they leave their homes to attend the trial until their return. This also applies to the employment of a number of experts who were engaged in the Patrick case and are important and material witnesses in these cases. When you consider that the sum of \$7,500 was the fee paid to special counsel to argue the various motions and appeal in the case of the People vs. Roland B. Molineux, it is very evident that the balance of \$8,005.89 will soon be exhausted; therefore under these conditions it will be necessary to request an additional allowance of \$5,000 to this account.

The Revenue Bond Fund for expenses in conducting criminal actions against John D. Herlihy, George Bissert, Albert J. Adams, Daniel Myers, Samuel J. Kennedy, William M. Hahn, Stephen J. Regan, George R. Kane, Minnie Kurz, Florence Burns and James McAuliffe. (Resolution adopted by the Board of Estimate and Apportionment, August 28, 1902)..... \$20,000 00
Amount expended in 1902..... 14,184 19
Balance available January 1, 1903..... \$5,815 81
Amount expended to May 10, 1903..... 5,815 81

On May 10 the above appropriation was exhausted, and since then all bills chargeable to that account have been paid out of the appropriation for Supplies and Contingencies, 1903, including arrearages, and I believe it is unnecessary to request any additional appropriation for this account.

The public business of this office is now in such a condition that the records show that the number of bail and prison cases awaiting disposition are the lowest in many years. The prison cases now average 171 in the City Prison. During the summer months it is usual to have at least twenty-eight persons confined in the prison charged with homicide, whereas during the past two summers the largest number charged with homicide has been reduced to fifteen. This reduction in the prison cases also means a large saving to the City in addition to giving the accused a prompt and speedy trial. Nothing deters the commission of crime so effectually as prompt and adequate punishment, and every person indicted under my administration may be sure that the indictment will be properly submitted to the Court.

When I entered upon the administration of this office, January 1, 1902, there were 861 indictments pending, and I am pleased to state that on July 1, 1903, this number was reduced to 321, a reduction of 540 cases, in addition to keeping abreast with the large volume of criminal business. During the period there were 55 convictions of homicide, a greater number than that disposed of under any prior administration, 4 of them resulting in conviction of murder in the first degree, with sentence of death; 12 convictions of murder in the second degree, with imprisonment for life, and 39 convictions of manslaughter, and this was in addition to disposing of the largest volume of business in the history of this Department.

I have with the limited force at my command, and with the serious curtailment of my contingent appropriation, kept my staff actively engaged in collecting evidence and in the preparation and trials of police officials and others during that period. Charges of bribery, extortion, neglect of duty were preferred against a number of those police officials, and the trials before the Police Commissioner of this City resulted in a number of convictions, and in some instances they were permitted to resign before the cases came to trial, while in other cases which I had in course of preparation, said officials, expecting that charges would be preferred against them, tendered their resignations and the same were accepted. In order to accomplish these results with my present force, my entire professional and administrative staff have been laboriously employed, early and late, during the past twenty months.

In order that your Board may realize the amount of business now conducted through this Department, aside from cases on appeal in the Appellate Division of the Supreme Court, the Court of Appeals and the Supreme Court of the United States, writs of habeas corpus and certiorari, orders to show cause, and motions for stays, and certificates of reasonable doubt, applications for inspection of minutes, motions to dismiss indictments, examination and approval of bail bonds, appearances in Magistrates' Courts, Coroners' inquests, lunacy commissions, reports to the Governor on pardon applications, I submit the following report, which is a synopsis of the work performed by this Department from my advent into office, January 1, 1902, to the vacation of the courts, July 1, 1903:

Unexpended Balance.

It is estimated that the sum of \$2,300 of the Salaries Account will remain unexpended at the close of the year. This is due to the numerous resignations in the professional and administrative staff, including the death of one of the clerical force. Some vacancies exist, but it is my intention to fill same as soon as practicable.

The great increase in our population brings additional labors upon the Department, and from year to year makes it necessary to increase its working force, and to add to its expenditures, and I can find no way of limiting the expenditures, except by extreme carefulness on the part of the head of this Department, and the auditing officers of the Finance Department.

I therefore respectfully request that the various appropriations be granted, as it is reasonably certain that the appropriation of any less amount than that asked for will result in a deficiency at the end of the year, and will seriously embarrass the general business of this Department.

Respectfully submitted,

WM. TRAVERS JEROME, District Attorney.

To the Honorable Board of Aldermen of The City of New York:

Dear Honorable Gentlemen—We have recently opened our house in Spuyten Duyvil, in connection with Seton Hospital, for the care of children suffering from tuberculosis. By separating these children from adults similarly affected, it gives them a better chance for recovery; besides, it is better for their morals and education.

The honorable Commissioner of Charities has given his cordial approval to the plan. Feeling assured that this work will meet with the approbation of the Board of Estimate and Apportionment, we make the further estimate for 100 cases at 80 cents per day, or \$29,280.

Yours very respectfully,

SISTER TERESA VINCENT, Vice-President Seton Hospital.

No. 2588F.

THE JEWISH HOSPITAL, BROOKLYN-NEW YORK.

The Jewish Hospital,
Brooklyn-New York, October 6, 1903.
Hon. CHARLES V. FURNES, President of the Board of Aldermen, The City of New York:

Dear Sir—The Jewish Hospital has purchased the Memorial Hospital at the corner of Classon and St. Mark's avenues and Prospect place, Borough of Brooklyn, and proposes to operate same as a non-sectarian hospital after making certain necessary alterations and improvements, probably beginning to operate about January 1, 1904.

We respectfully ask the insertion in the Budget of 1904 of \$17,300 from the City treasury toward the support of The Jewish Hospital for the year 1904.

On behalf of the Board of Directors,

Very truly yours,
NATHAN S. JONAS, Secretary.

Which were severally referred to the Committee on Finance.
At this point the President resumed the chair.

REPORTS OF SPECIAL COMMITTEES.

Report of Special Committee on the Louisiana Purchase Exposition—
No. 2589—(S. O. 132).

To the Honorable The Board of Aldermen of The City of New York:
Your Committee on the Louisiana Purchase Exposition respectfully report that they have held two conferences with his Honor the Mayor upon the subject. At the earlier conference, held last June, the Mayor was requested to ascertain from the various City Departments what were their views in regard to a suitable exhibit, how long it would take to prepare, and what the cost would be in each case. At the more recent meeting with the Mayor, held this month, the reports from the various Departments were laid before the Committee, and the matter was made the subject of careful discussion.

It is not easy to say in detail, even now, precisely what form such an exhibit should take. The New York State Commissioners have agreed to place a room in the New York State Building at the service of the City on certain days of the week and at specified hours, where stereopticon pictures, illustrating the City's life, may be regularly displayed. Such an exhibition, doubtless, would command widespread interest, and it can be made as extensive and illustrative as may be desired.

It seems, however, that certain at least of the great departments of the City should be represented at the Exposition in such a careful and thorough fashion as to be of value to students of municipal affairs from all parts of the world. The departments that appear to lend themselves best to such a purpose are the following:

Correction.	Public Charities.
Education.	Street Cleaning.
Health.	Tenement House.

It is evidently necessary, in order to perfect plans for a suitable exhibit, that a sufficient amount of money should be at command to promote the formation of definite plans and to start the preparation of suitable exhibits. It is also necessary that some competent person be secured to take charge of all the details connected with this matter, under the direction of the Mayor. Your committee therefore recommend the authorization of Special Revenue Bonds for this purpose, in the sum of ten thousand dollars, and that the Mayor be given authority to arrange with some one to take the matter in hand and to carry it forward to completion. A resolution should also be passed authorizing expenditures to be made under the authority of your committee, without public letting, in case of need.

Respectfully submitted,

GEORGE CROMWELL,
J. EDW. SWANSTROM,
ROBERT F. DOWNING,
JOHN H. BEHRMANN,
JAMES H. McINNES,
DAVID M. HOLMES,
LOUIS F. HAFEN,
W. R. WALKLEY,
JACOB A. CANTOR,
Committee.

New York, September, 1903.

Resolved, That the Board of Estimate and Apportionment be and hereby is requested, in pursuance of the provisions of subdivision 8 of section 188 of the amended Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof shall be applied to the perfection and the carrying out of plans for a suitable exhibit by The City of New York at the Louisiana Purchase Exposition, which will be opened in St. Louis, Mo., on May 1, 1904;

Resolved, further, That any and all expenditures hereunder be made by and under the authority of the special committee appointed pursuant to resolution adopted March 3, 1903, and, in case of need, any and all of such expenditures may be made by contract without public letting; further

Resolved, That his Honor the Mayor be and he hereby is authorized and requested to select some competent person to take charge of all the details connected with this matter.

Which, on motion of Alderman Walkley, was made a special order for 2 30 o'clock p. m.

Subsequently the hour of 2.30 having arrived, the Vice-Chairman moved that the report be received and the resolution adopted.

Alderman Sullivan moved as an amendment that in the last paragraph the words "his Honor the Mayor be and he hereby is authorized and requested to" be omitted, and that the words "the Board of Aldermen" be substituted in lieu thereof.

REPORT:

That, having examined the subject, they believe the proposed ordinance to be necessary. They therefore recommend that the said ordinance be adopted.

AN ORDINANCE regulating contracts for public works or supplies, and agreements in relation thereto, by which The City of New York shall be liable to pay money.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. All supplies to be furnished, or work to be done for The City of New York, whether they are to be paid for out of the City Treasury or out of trust moneys under the control of, or to be assessed or collected by the corporation, shall be furnished or performed under written contract, except as is otherwise provided by law.

Sec. 2. The several departments, boards and officers empowered by law to make contracts on the part of The City of New York shall issue invitations for bids or proposals therefor by public notices and shall advertise the same as provided by law when and after the said public notice and the terms of the said contract shall have been approved as to form by the Corporation Counsel. There shall be kept by each of said departments, boards or officers, an appropriate box, to be designated "bid box," with a proper opening in the top thereof, to receive bids or proposals for which invitations have been issued. Such "bid box" shall be locked, except at such times as it may be necessary to open the same to examine and decide upon bids or proposals, and the key thereof shall be retained by the head of the department, President of the Borough or Board or appropriate officer. It shall be the duty of the appropriate officer to have deposited in said box the bids or proposals duly presented to him for work to be done or supplies to be furnished, immediately on the receipt thereof by him.

Sec. 3. The invitations for bids or proposals shall be in such form as may be prescribed by the board or officer making the same, and as shall be approved as to form by the Corporation Counsel, and they shall contain the following particulars:

1. They shall require that the person making the bid or proposal shall furnish the same in a sealed envelope on or before a day and hour therein named, not less than ten (10) days from the first publication thereof.

2. They shall state the quantity and quality of supplies, or the nature or extent as near as possible, of the work required, or a reference to specifications or schedules where the quantity and quality of supplies or the nature and extent, as near as possible, of the work, is stated.

3. They shall state that the bids or proposals received will be publicly opened by the head of the department or board or other appropriate officer issuing the public notice, at his office, at a day and hour therein mentioned.

4. They shall state the amount of security which is required for the performance of the contract, which amount may either be stated as a definite sum or as not less than a certain percentage of the bid or proposal.

5. They shall state the time or period within which the work must be done or the supplies furnished.

Sec. 4. Each bid or proposal shall contain:

1. The name and place of residence of the person or party making the same.

2. The names of all persons or parties interested with the bidder therein, and if no other person or party be so interested, the bid or proposal shall distinctly state that fact.

3. A statement that the bid or proposal is made without any connection with any other person or party making the bid or proposal for the same purpose, and that the bid or proposal is in all respects fair and without collusion or fraud.

4. A statement that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise, in, or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof.

Sec. 5. No bid or proposal will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check, or money as required by law. The certified check or money shall be either enclosed in a separate envelope from the envelope containing the bid or proposal, or shall be submitted personally upon the presentation of the bid or proposal.

Sec. 6. Each bid or proposal shall be accompanied by the consent in writing of two (2) householders or freeholders of The City of New York, or of a responsible guaranty or surety company duly authorized by law to act as surety, to the effect that if the contract be awarded to the person or party making the bid or proposal, they or it, will, upon its being so awarded, become bound as his or its sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they or it will pay to The City of New York any difference between the sum to which he would be entitled upon its completion and that which the City may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting, the amount of security in each case to be calculated upon the estimated cost of the work to be done or of the supplies to be furnished and by which the bids are to be tested.

Sec. 7. The sealed envelope containing the bid or proposal shall be endorsed with the name or names of the person or party presenting the same, the date of its presentation and a statement of the work to which it relates; and no bid or proposal shall be

taken from the "bid box" or the sealed envelope thereof opened by any one except at the time and in the manner herein designated for deciding on such bids or proposals. At the time and place appointed for that purpose in the public notice, as prescribed in this ordinance, the head of the department or other officer or officers empowered to make the contract, in the presence of the Comptroller or his duly authorized representative, and such of the parties making the said bid or proposals as may desire to be present, shall then and there open the said bid box, and the bids or proposals to be examined at that time, as may appear from the endorsements thereon, shall be taken from said box. The said head of department or other officer or his deputy shall then and there publicly open and read all bids or proposals which may have been received for the contract mentioned in such public notice and shall reject all bids or proposals not furnished in conformity with the law and the ordinances relating thereto and the requirements thereof. The award of the contract shall be made according to law.

Sec. 8. When public notices are issued for a contract to furnish any article of which a sample can conveniently be furnished, or for which specifications and plans can be prepared and furnished within the time allowed, the head of the department or other officer issuing the same may require that such sample or specifications and plans be delivered at his office or at the office of the head of the appropriate bureau of the department or office, within such time before the opening of the bids or proposals as he may prescribe; and if it or they be not so furnished or do not conform to the requirements of the public notices and of the specifications and requirements issued by the department or office for the said article, the bid or proposal delivered by the person or party furnishing or omitting to furnish the same, as the case may be, shall be rejected. Whenever samples or plans and specifications are required to be prepared and furnished to the head of the department or officer at least ten (10) days shall be given for the furnishing of such sample and for the preparation of such specifications and plans.

Sec. 9. Except as herein otherwise provided in all contracts for work for The City of New York where provision is made for the payment of the contract price by installments a provision shall be inserted that the corporation may retain, and the contractor shall allow to be retained, at least ten (10) per cent. of the contract price of the work actually done as security until the whole work shall be completed and the contract shall be fully and completely performed.

Sec. 10. In all contracts for the performance of work or the furnishing of supplies the time or period for the completion of such work and the furnishing and delivery of such supplies shall be specified and inserted therein.

Sec. 11. In all contracts for work for the City upon any public building or in any public street or place, in the performance of which accidents or injuries may happen to the person or property of another, a provision shall be inserted that the contractor shall place proper guards for the prevention of accidents, and shall put up and keep at night suitable and sufficient lights during the performance of the work; and that he will indemnify The City of New York for damages or costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance or care of the work.

Sec. 12. Every contract for supplies or work for the City shall be executed by the contractor or contractors to whom the same may be awarded, and shall be accompanied by a bond in the amount mentioned in the public notice therefor, executed by the persons or company consenting to become bound as sureties, or by such other persons or company as shall be substituted therefor, with the consent of the Comptroller, conditioned for the faithful performance of the contract and of every provision therein contained, and which bond shall be accompanied by the oath in writing of the persons signing the same as surety, that each is a householder or freeholder in The City of New York, and the oath of such persons or of an officer of such company that he or it is worth the amount of the security required for the completion of the contract and stated in a public notice as hereinbefore prescribed. And it shall be the duty of the Comptroller to require such sureties to be further examined before himself or an officer authorized to administer oaths deputed by him, in respect to the items and details of the property, before approving the adequacy and sufficiency of such sureties. The several departments of the City government and officers aforesaid, by which every and each contract for work to be done or supplies to be furnished for the City shall be made in pursuance of this ordinance, shall have power, and it shall be their duty, to require and enforce the faithful execution of each and every contract so made by them; and in case a contractor or contractors shall fail in any respects to perform the work or to furnish the supplies which he or they have contracted to render or furnish within the time limited for the performance of the same, then it shall be the duty of such department or officers aforesaid to do and complete the same work or to furnish and deliver the said supplies in the manner provided for the performance of the same in the contract, and the cost of the same shall be charged against the delinquent contractor or contractors, provided, however, that the head of any department or officer aforesaid by whom any such contract shall be made, may, on good and sufficient cause, extend for a reasonable time the period fixed for the completion thereof.

Sec. 13. Whenever any contract shall be made hereafter by any of the departments or officers aforesaid of the City the amount whereof is to be afterward collected by assessment from the property benefited by the work to be done under said contract, it shall be the duty of the head of Department, or officers aforesaid making such contracts, to cause to be inserted therein a clause, that as the work progresses payments will be made to the contractors by monthly installments of seventy per cent. (70 per cent.) on the work performed, provided the amount of work done on each installment shall amount to one thousand five hundred dollars (\$1,500), and the head of Department, or officer making such contracts, shall forthwith file a copy thereof with the Comptroller.

Sec. 14. Whenever any payment shall become due on any contract, according to the provisions thereof or in accordance with any of the provisions of this ordinance, it shall be the duty of the head of department or officer aforesaid having such work in charge, to furnish to the person or party entitled to such payments a certificate, in writing, specifying the contract upon which such payment is due and the amount due under such contract.

Sec. 15. It shall be the duty of the Comptroller on the presentation of such certificate to him to pay the amount thereof and endorse such payment upon, or file with the contract on account of which such payment is made; but no payment shall be made under such contract beyond the amount of such certificate, and the final payment thereon shall not be made until the head of department or officer aforesaid having such work in charge, shall furnish the Comptroller, who shall file the same in his office, a certificate signed by the head of such department, or officer aforesaid, that the work mentioned in such contract has been completed according to the terms of said contract, and to the satisfaction of the head of department or officer giving such certificate.

Sec. 16. Each and every contractor for a public improvement shall be required to have an affidavit from a City Surveyor, setting forth the amount of work done of every description that may be charged for under said contract, and said affidavit shall be attached to any assessment list that may be based in whole or in part on said contract. The Inspector shall also furnish an affidavit attached to each contract that the work is done according to the plans and specifications, said affidavit to be attached to each assessment list before presentation for confirmation.

Sec. 17. No payment shall be made by the Comptroller for work done or supplies furnished except upon proper vouchers rendered by the head of the appropriate department, or other proper officer, board or commission, for whom such work was done or supplies furnished. Such vouchers shall be made out in triplicate, and shall contain the certificates of such subordinate officers as the head of the department and the Comptroller may require, and shall be of such form and purport as the Comptroller shall prescribe, and also a certificate of the head of the Department, or said officers. One of the triplicate vouchers shall be retained in the Department or office by which the vouchers are rendered and another shall be transmitted to the Department of Finance for payment, and the third shall be delivered to the contractor or his proper representative. A receipt for the amount paid shall be taken upon the vouchers sent to the Department of Finance.

Sec. 18. All meetings of the boards or commissions constituting departments of the City government of The City of New York for the transaction of public business shall be held openly, and shall in all cases be accessible to the public. Such meetings shall be held at such times and places as may be determined upon by each of such departments, and due notice thereof shall be published daily in the "City Record."

Sec. 19. All ordinances of the former municipal and public corporations consolidated into The City of New York, in relation to regulating contracts for work and supplies and receiving proposals for furnishing the same, and all other ordinances inconsistent herewith, are hereby repealed; but such appeal shall not affect existing contracts or advertisements already published for the whole or a part of the period required, nor any vested rights created by ordinances of any municipal or public corporation now forming a part of The City of New York.

Sec. 20. This ordinance shall take effect immediately.

REPORT:

That, having examined the subject, they recommend that the said resolution be adopted.

City of New York, Office of the Mayor.

To the Honorable the Board of Aldermen of The City of New York:

The inclosed communication from the Police Commissioner, in relation to bids for the new station-house for the Seventy-fifth Precinct, will, with the documents attached, explain itself.

I join the Commissioner in asking for the adoption of the preamble and resolution which he submits.

SETH LOW, Mayor.

New York, October 6, 1903.

Police Department of The City of New York,
No. 300 Mulberry Street,
September 28, 1903.

Hon SETH LOW, Mayor of New York:

Sir—I transmit herewith copy of opinion of the Corporation Counsel in regard to additional work, exceeding in estimated cost the sum of \$1,000, which is required on the station-house for the Seventy-fifth Precinct, now under contract with Thomas G. Carlin, and in accordance with this opinion I respectfully request that you will ask the Board of Aldermen to pass a resolution—the draft of which is herewith inclosed—authorizing this work to be done by Thomas G. Carlin without competitive bids under public letting. If this resolution is passed a delay of many weeks will be avoided in the construction of this building, which is very greatly needed.

Four bids have been obtained for doing this work, and Thomas G. Carlin submitted the lowest of the four. They are submitted herewith.

Very respectfully,

F. V. GREENE, Police Commissioner.

Whereas, Contract was entered into with Thomas G. Carlin by the Police Commissioner for the Police Department of The City of New York, dated May 28, 1903, for the construction of a station house for the Seventy-fifth Precinct, for the sum and price of \$88,800, and it appearing from reports of the architect for the said building (R. Thomas Short) that it is necessary to perform additional work on account of the character of the ground where the foundations of said building are to be dug and built, and that four estimates for such work have been received by the Police Commissioner, the lowest being that of the said contractor, Thomas G. Carlin;

Resolved, That permission be and is hereby given to the Police Commissioner to accept the estimate of Thomas G. Carlin for extra work required in the construction of a station house for the Seventy-fifth Precinct, in a sum not to exceed \$3,700, and to award contract for the same without advertising for competing bids.

Law Department—Office of the Corporation Counsel,
New York, September 22, 1903.

Hon. FRANCIS V. GREENE, Police Commissioner:

Sir—I am in receipt of a communication dated August 17, 1903, transmitting for my consideration and advice contract with Thomas G. Carlin, dated May 28, 1903, for the construction of a station house for the 75th Precinct, together with a copy of said contract and the correspondence in regard to the same.

From your letter and the correspondence enclosed therewith it appears that the architect for the erection of this building, at the request of your predecessor in office, and pursuant to an authorization by resolution of the Board of Estimate and Apportionment, procured a City Surveyor to make an examination and soundings to ascertain the necessary character of the foundation for the station house, and that such Surveyor, presumably by an oversight or carelessness, failed to properly discover the actual existing conditions.

The plan or map, therefore, accompanying the contract, and to which the latter refers, was erroneously drawn and failed to indicate the real depth to which the character of the ground requires that the foundations be dug and built.

You further state that the additional work now thereby necessitated, exclusive of the waterproofing, may run as high as \$2,000, and that the cost of the latter may amount to as much as \$600.

In view of this state of facts, you request my opinion (1) whether the contractor, under the terms of the contract, can be required to perform this additional work without extra compensation, and (2) whether, if he cannot, the City has any recourse against the architect or the City Surveyor. You also ask my advice as to whether, in the event of this additional work being deemed a proper matter for a supplemental contract, you may award the same by treasury order, or must follow the method of public letting.

It is my opinion that the City, upon the facts presented by your letter and the correspondence therewith enclosed, cannot hold the architect in any way responsible for the additional work necessitated by the Surveyor's error.

The former acted simply as the agent of the City in securing the Surveyor's services, and is in no sense responsible for the latter's mistake.

In regard to the Surveyor's responsibility to the City, it is undoubtedly true that, if it could be proved that the latter was guilty of either bad faith or wilful negligence the City could hold him responsible for the damage suffered by it in consequence. But the facts presented by you fall far short of presenting evidence to justify such a conclusion, and in the absence of such evidence of wilful neglect or carelessness the City could expect nothing from a suit against the Surveyor.

The question as to the contractor's obligation, if any, to perform this additional work under the contract without extra compensation is one of more uncertainty.

Section 5 on page 26 of the specifications attached to the contract, under the heading "Mason Work," reads as follows:

"The contractor shall excavate to the depth shown on section for cellar, foundation walls, piers, areas, etc., or to such depth as may be found necessary to acquire suitable bearings for footings. It is presumed that a suitable foundation may be found at the depth marked."

And sections 15, 17 and 18 on page 24 of the contract fortify in some measure at any rate this language as against the contractor.

But it is my opinion, in view of the very material variance between the plan accompanying the contract and the actual existing conditions, and the very substantial additional cost necessitated thereby, that whether the City might or might not technically require this additional work to be done by the contractor without extra compensation it would be practically impossible in the absence of other evidence than that before me to sustain such action in the courts, even if its somewhat doubtful equity did not make it inadvisable for the best interests of the Department.

I therefore advise you that the work in question may properly be contracted for by supplemental contract, but that as the latter clearly calls for an expenditure exceeding the amount of \$1,000, you must either let the supplemental contract after public advertisement as provided in section 419 of the Charter, or secure an appropriate resolution from the Board of Aldermen to enable you to award it without competitive bids and a public letting.

Respectfully yours,

(Signed) G. L. RIVES, Corporation Counsel.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable. Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
