No. 1009.

The City of New York,
Office of the President of the Borough of Queens,
Long Island City, May 19, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Dear Sir—The following transcript is taken from Volume II., 1904, pages 1591, 1592 and 1593, Minutes of the Board of Estimate and Apportionment:

"August 2, 1904.

"The President of the Borough of Queens presented the following communications from the United States District Attorney and the Acting Corporation Counsel, also resolution of the Board of Aldermen relative to an appropriation of \$5,000 special revenue bonds for the cost and expense of dredging Flushing Creek in the vicinity of Jones' coal dock, in the Third Ward, Borough of Queens:

"Department of Justice,
Office of the United States Attorney for the Eastern District of New York,
Brooklyn, N. Y., March 22, 1904.

"Hon. GEORGE B. McCLELLAN, Mayor:

"Sir—Complaint has been made to me by the War Department that there are certain deposits in Flushing Creek, made from a sewer maintained by the Third Ward, Borough of Queens, and emptying into Flushing Creek, near or at the lower end of a dock occupied by Messrs. D. S. Jones & Co., and C. W. Copp, which deposits are illegal and in violation of section 13 of the River and Harbor Act approved March 3, 1899. I have been requested to institute proceedings against the proper authorities of The City of New York, as provided in sections 16 and 17 of the said River and Harbor Act, but before taking any steps, I deem it but courteous to bring this matter to your attention, in order that, if possible, unnecessary litigation may be avoided.

"I have the honor to be, sir,

"Yours with great respect,

"WM. J. YOUNG, United States Attorney.

"Law Department,
Office of the Corporation Counsel,
New York, July 7, 1904.

"Hon. GEORGE B. McCLELLAN, Mayor:

"Sir—I am in receipt of a communication signed by G. T. Goldthwaite, Assistant Secretary, dated the 24th of March, 1904, inclosing a communication from W. J. Young, Esq., United States Attorney for the Eastern District of New York, referring to certain deposits in Flushing Creek, Third Ward, Borough of Queens, made by a sewer emptying into Flushing Creek, at or near the lower end of a dock occupied by D. S. Jones & Co., and C. W. Copp.

"In answer, I beg to say that I am informed by the Deputy Sewer Commissioner of the Borough of Queens, that this sewer is a main sewer of the former Village of Flushing, and was constructed and in operation for a considerable period of time, in fact, some years before the construction of the dock, access to which it is claimed is impeded by the deposits from this sewer. It is claimed that the sewer has been in operation for over twenty years, and it is but recently that the amount of deposit therefrom has become in any wise a hindrance to navigation. For the purposes of this communication it is assumed that Flushing Creek is a navigable water. Vessels of considerable tonnage ply its waters at the higher stages of the tide for a distance of one or two miles above the point at which the sewer empties. The creek is the natural outlet for the flow of surface waters and drainage waters from the height of land upon which the Village of Flushing is located and is the natural depository and only accessible natural depository for the sewage of that place. Its waters empty into the tide waters of Flushing Bay, of which it is a tributary.

"So much of the United States laws as apply to this matter is found in section 13 of the River and Harbor Act, approved March 3, 1899, which reads in substance as follows:

"Section 13. That it shall not be lawful to throw, discharge or deposit, or cause, suffer or procure to be thrown, discharged or deposited from or out of any ship, barge, or other floating craft of any kind, or from the shore, walk, manufacturing establishment, or mill of any kind, any refuse matter of any kind or description whatever, other than that flowing from streets or sewers and passing therefrom in a liquid state, into any navigable waters of the United States, * * *

"Section 16 provides that "a violation of the provisions of section 13 shall be a misdemeanor, punishable by a fine of not less than \$500 or more than \$2,500, or in the case of a natural person by imprisonment for not less than thirty days nor more than one year, or by both fine and imprisonment."

"Undoubtedly from its context this act was passed to prevent the discharge of ashes, garbage, or other like materials into the waters of navigable rivers and harbors. In its language, however, it is capable of a construction similar to that claimed for it by the learned United States Attorney.

"It may be said that its language does not forbid the emptying into such waters of the refuse from a sewer, so long as such refuse "passes therefrom in a liquid state," but it is evident that if such refuse held in solution in the liquid sewage is after its discharge the cause of the formation of a bar or obstruction to navigation, the statute applies.

"The City has no more right than a natural person to create or maintain a nuisance, and is liable for injuries occasioned thereby in any case where a private person would be liable under like circumstances.

"Harper vs. Milwaukee, 30 Wise., 365.

"In my opinion if the deposits from this sewer have obstructed navigation the City is liable and should abate the nuisance. The trend of authorities and decisions is along this line.

"Although a municipality having the power to construct drains and sewers may lawfully cause them to be built so as to discharge their refuse matter into the sea or natural stream of water, yet this right must be so exercised as not to create a nuisance, public or private.

"Dillon on Mun. Corp., 4th ed., vol. 2, sec. 1047.

"In Franklin Wharf Company vs. Portland, 67 Me., 46, Dickerson, J., treats the public right of navigation as paramount to the right of sewerage, recognizes both the wharf and the sewer as lawful and authorized structures, and concludes by holding that the City, under the statute empowering it to construct sewers, "has the right to construct their opening into the public docks and to use them in a reasonable manner for conducting and depositing therein refuse matters and impurities; but it is its duty to cause such docks to be cleared of such deposits whenever they become an obstruction to navigation or injurious to the public health."

"In Richardson vs. Boston, 19 How. (U. S.), 270, it was held that the City was liable for a drain at end of wharf. "The public right of navigation is not limited at common law by any private or municipal right of sewerage."

"Gould on Waters, p. 177.

"I therefore advise that the City remove the deposits, if any exist, that form an obstruction to navigation.

"The papers in connection with this communication are returned herewith.

"Respectfully yours,

"THEODORE CONNOLLY, Acting Corporation Counsel."

"Resolved, That the Board of Estimate and Apportionment be and is hereby requested, in pursuance to the provisions of subdivision 8, of section 188 of the amended Greater New York Charter, to authorize the Comptroller to issue special revenue bonds to the amount of five thousand dollars (\$5,000), the proceeds thereof to be applied to the cost and expense of dredging Flushing Creek, in the vicinity of Jones' coal dock, Third Ward, Borough of Queens, in accordance with complaint of the Secretary of War.

"Unanimously adopted by the Board of Aldermen, July 26, 1904, three-fourths of all the members elected voting in favor thereof.

"Approved by the Mayor, August 2, 1904.

"P. J. SCULLY, Clerk.

"The following resolution was offered:

"Resolved, That the Board of Estimate and Apportionment hereby approves of and concurs in the resolution of the Board of Aldermen, adopted July 26, 1904, and approved by the Mayor August 2, 1904, in relation to the expenditure of five thousand dollars (\$5,000), for the cost and expense of dredging Flushing Creek, in the vicinity of Jones' coal dock, Third Ward, Borough of Queens, in accordance with a complaint from the Secretary of War and for the purpose of providing means therefor, the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188, of the Greater New York Charter, to issue special revenue bonds of The City of New York, to the amount of five thousand dollars (\$5,000), redeemable from the tax levy of the years succeeding the year of their issue.

"Which was adopted by the following vote:

"Affirmative—The Mayor, the Deputy Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of The Bronx, the President of the Borough of Queens, the President of the Borough of Richmond and the Acting President of the Borough of Brooklyn—16."

There remains an unexpended balance of this authorization of three thousand and thirty dollars (\$3,030), which we are desirous of expending for the purpose of remedying complaints received from residents of College Point as to a nuisance existing in the neighborhood of the outlet of the Fifth avenue 5-foot circular sewer, College Point, Third Ward, Borough of Queens.

The Engineer of Sewers proposes to remedy this condition by excavating a channel 5 feet deep, 50 feet wide and 400 feet long, beginning at the face of Kraemer Brothers' dock and extending to the channel east of the breakwater. His estimates are that it will require the removal of about 4,000 cubic yards of material, which will have to be loaded into scows, towed out to sea and dumped as provided for in the Federal statutes at an estimated cost of about three thousand dollars.

To that end, application is hereby made for a supplementary authorization of your Honorable Board to expend the balance of this authorization and to amend the original authorization to read: "Cost and expense of dredging Flushing Bay, in the neighborhood of the outlet of the Fifth avenue sewer, College Point."

Resolution is herewith inclosed.

Respectfully yours,

LAWRENCE GRESSER, President, Borough of Queens.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Charter of The City of New York, the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of three thousand dollars, the proceeds whereof to be used by the President of the Borough of Queens, for the purpose of abating a public nuisance to excavate a channel approximately 5 feet deep, 50 feet wide and about 400 feet long, beginning at the face of Kraemer Brothers' dock, and extending to the channel east of the breakwater, Flushing Bay, at the mouth of the Fifth avenue sewer, College Point, Third Ward, the same being supplementary to resolution of the Board of Aldermen, July 26, 1904, the Board of Estimate and Apportionment, August 2, 1904, approved by the Mayor the same date, as appears in Volume II., 1904, Minutes of the Board of Estimate and Apportionment, pages 1591, 1592 and 1593, in which authorization there is an apparent balance of three thousand and thirty dollars (\$3,030) unexpended.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall, New York:

Dear Sir—In the trial of the case of the People vs. John C. Gargan, indicted for murder in the first degree, the defense interposed was insanity.

The prosecution employed four alienists, who have presented bills for services in the case as follows: Dr. Wm. B. Moseley, \$1,000; Dr. Smith Ely Jelliffe, \$1,000; Dr. John J. A. O'Reilly, \$750, and Dr. Moses Keschner, \$100, making a total of \$2,850. Copies of their bills are enclosed.

I cannot meet these bills from my contingent fund, and would respectfully request that a resolution be offered in the Board of Aldermen providing for the issuance of special revenue bonds to meet this indebtedness.

Respectfully,

JOHN F. CLARKE, District Attorney, Kings County.

Board of Trustees, Bellevue and Allied Hospitals, }
First Avenue and Twenty-sixth Street, }
New York, May 20, 1910. }

Board of Aldermen, City Hall, New York City:

Gentlemen—The Board of Trustees of Bellevue and Allied Hospitals begs to apply for an issue of revenue bonds in an amount not to exceed the sum of fifty thousand four hundred dollars (\$50,400), as follows:

199. General Supplies..... \$42,789 73
207. Forage, Shoeing, Boarding Horses..... 1,572 50
208. Contingencies..... 6,000 00

The sum appropriated in the Budget for these items is insufficient. Submitted herewith is a schedule showing how the above figures have been obtained.

In preparing the departmental estimate for 1910 the amounts required for that year were based on the actual expenses for the first six months of the year 1909, as reflected by the expense ledger with what was considered a very conservative addition. It appears that our estimate was too conservative. Despite this, thirteen thousand and twenty-five dollars (\$13,025) were deducted by the Board of Estimate and Apportionment from our estimate No. 199, General Supplies, and the Budget allowance for the year 1910 for General Supplies was only nine thousand five hundred and thirty-five dollars and thirty cents (\$9,535.30) more than for the year 1909.

The amounts estimated for 1910, figured at the 1910 price, show an increase of thirty-six thousand nine hundred and thirty-four dollars and thirty-one cents (\$36,934.31) over that of the same amounts figured at 1909 price. Deducting from this the increased Budget allowance of nine thousand five hundred and thirty-five dollars and thirty cents (\$9,535.30), we have twenty-seven thousand three hundred and ninety-nine dollars and one cent (\$27,399.01) accounted for by increased prices alone. A schedule is submitted herewith showing in detail a comparison of the articles on contract chargeable to the General Supply appropriation for this year, calculated at both the 1909 and 1910 prices, showing the difference of thirty-six thousand nine hundred and thirty-four dollars and thirty-one cents (\$36,934.31), mentioned above. Of course, the increase in prices for 1910 is something that could not be gauged six months prior to the year.

It also appears that we were too conservative in estimating the amounts of articles required, and that it will be necessary to advertise additional contracts for the balance of 1910 to the extent of thirteen thousand five hundred and forty-two dollars and eighty cents (\$13,542.80). The reason for this is that it is impossible to

gauge exactly the amounts required from one year to another, as the needs of the institutions vary considerably from year to year; furthermore, up to the time of the preparation of these figures the total daily census for 1910 shows an increase of 107 individuals over that of 1909. In other words, the Department has furnished care and maintenance for 107 more people daily.

In estimating the amount required for Contingencies, nineteen hundred dollars (\$1,900) was estimated to cover the cost of special nursing where it was necessary to employ graduate special Nurses to care for isolated contagious cases, patients in extremis, sick doctors and sick nurses. This is a matter which could not be gauged with any accuracy and could only be estimated on the record of 1909. The actual cost for the first three months of 1910 was two thousand and sixty-two dollars and fifty cents (\$2,062.50), which is in excess of that allowed for the entire year. At this rate it is estimated that six thousand dollars (\$6,000) additional in Contingencies with which to meet the charges for special nursing will be necessary for the balance of the year.

Now, by adding the amounts represented by the increased cost of supplies, as mentioned above, twenty-seven thousand three hundred and ninety-nine dollars and one cent (\$27,399.01), the amount estimated to be needed for additional contracts; thirteen thousand five hundred and forty-two dollars (\$13,542), and the six thousand dollars (\$6,000) required for Contingencies, we account for forty-six thousand nine hundred and forty-one dollars and one cent (\$46,941.01) out of the fifty thousand four hundred dollars (\$50,400) requested. The balance of thirty-four hundred and fifty-eight dollars and ninety-nine cents (\$3,458.99) is easily accounted for under open market orders, there being an increase in the open market orders for the same reason that there is an increase in the contracts, due in the first place to the fact that our estimate was very conservative, to the fact that we are caring for an increased number and to increased prices for practically all articles of supplies.

Trusting that prompt and favorable action may be taken by your Board in this matter, I remain,

Respectfully,

J. K. PAULDING, Secretary, Board of Trustees.

The President laid before the Board the following communication from the College of The City of New York:

No. 1013.

The College of The City of New York, }
Office, Board of Trustees, }
New York, May 20, 1910. }

To the Honorable Board of Aldermen of The City of New York:

Dear Sirs—Application is herewith made for an issue of special revenue bonds, in the amount of \$5,489, for the purpose of providing funds for painting, kalsomining and for repairing roofs of the five buildings of the College of The City of New York, at One Hundred and Thirty-ninth street and Amsterdam avenue.

The appropriation for the year 1910 of \$5,800 for the upkeep of the college buildings is only sufficient to make ordinary repairs to buildings, plant and equipment. It is, therefore, necessary to obtain additional funds for the above mentioned work through the issue of special revenue bonds.

It is respectfully requested that this application be considered by your Board at an early date as the time for completing the work is limited to the first of September, after that date painting and kalsomining cannot be done in any of the class rooms as they will be in use.

The Board of Trustees were unexpectedly ordered by the Fire Department to change the method of operation of about 116 fireproof kalameine iron doors installed throughout the college buildings, and as this item of expense, amounting to

\$1,710, was not otherwise provided for it became necessary to charge it to the regular appropriation for the upkeep of the buildings. Form of resolution for consideration herewith inclosed

Respectfully yours,
JAS. W. HYDE, Secretary.

Resolved, That, pursuant to paragraph 8 of section 188 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment be and it hereby is requested to authorize the Comptroller to issue special revenue bonds in an amount not to exceed \$5,489 for the purpose of providing funds for painting, kalsomining and for repairing roofs of the buildings of the College of The City of New York, at One Hundred and Thirty-ninth street and Amsterdam avenue.

The President laid before the Board the following communication from the Board of Coroners, Borough of Brooklyn:

No. 1014.
Coroner's Office, Borough of Brooklyn,
Rooms 1 and 3, Municipal Building,
New York, May 17, 1910.

The Honorable the Board of Aldermen, New York City:

Gentlemen—Request is hereby made that the Board of Aldermen request the Board of Estimate and Apportionment, in accordance with the provisions of subdivision 8 of section 188 of the Charter, to authorize the issuing of special revenue bonds to the amount of \$1,500, to provide for the payment of the salaries of two (2) Clerks to the Coroners of the Borough of Brooklyn, whom it is desired to appoint from July 1, 1910.

At the present time, each Coroner of the Borough of Manhattan has a "Private Clerk" with compensation at \$2,000 per annum; and, although, each Coroner in Brooklyn is permitted to have a "Clerk to the Coroner," under the rules of the Municipal Civil Service Commission, such positions have never been filled.

The salaries, which it is desired to pay these "Clerks to the Coroner," in Brooklyn, are \$1,500 per annum each; their salaries from July 1 to December 31, one-half year, amounting to \$1,500, the amount for which an authorization for the issue of special revenue bonds is desired.

Respectfully,
ALEX. J. ROONEY, M. D.,
EDWARD GLINNEN,
Coroners.

The President laid before the Board the following communication from the President, Borough of Richmond:

No. 1015.
The City of New York,
Office of the President of the Borough of Richmond,
Borough Hall, New Brighton, May 18, 1910.

Board of Aldermen, City Hall, New York City:

Gentlemen—Pursuant to a request which I made to you on February 4, you passed a resolution authorizing the purchase of coal for use in the various Bureaus of my office without public letting to the amount of \$3,000. This request was granted upon my explanation that we had no facilities for the general storage of a quantity of coal and that a great deal of our coal is used at various points, making it more economical to purchase, when required, from points near the work being done at the time with consequent short hauls, rather than the making of a general contract, on account of which deliveries would be called for wherever and whenever required. Our experience has proven that bids submitted for such contracts always carry high prices.

The statement was made in the letter above referred to, that for the use of the Borough Hall or other public buildings, our coal would be purchased by contract. The \$3,000 asked for was principally to cover coal used for other incidental purposes, such as steam roller use and the heating of portable field offices, etc.

In pursuance of the intention expressed in that letter, bids were advertised for with a view to securing coal for the heating of the public buildings, but owing to new specifications which had been prepared no coal dealers put in bids. Being in immediate need of coal for the boilers of the Borough Hall, about 200 tons were purchased on order at once. This, in addition to the necessary small amounts of coal that have been purchased from time to time for the use of steam rollers, etc., has caused the \$3,000 authorized to be exhausted. It, therefore, becomes necessary for me to request that a resolution be passed authorizing the purchase of an additional \$2,000 worth of coal, without public letting, making in all coal to the amount of \$5,000 authorized for my office for the year 1910.

As soon as storage capacity is available, another attempt will be made to secure bids upon contract.

Yours respectfully,
GEORGE CROMWELL, President, Borough of Richmond.

No. 1016.
Department of Docks and Ferries, City of New York,
Pier "A," North River,
New York, May 16, 1910.

Mr. JOHN PURROY MITCHEL, President of the Board of Aldermen:

Sir—This Department requires a new automobile to take the place of an automobile which has been used on the work for four years past and which is now in very poor condition. A machine to meet the requirements can be purchased at a cost of \$3,625, and in connection with the purchase an allowance of \$625 can be obtained for the old machine, making the net cost of the new automobile \$3,000.

I respectfully request authority to purchase this new machine otherwise than by contract and without public bidding.

Yours very truly,
CALVIN TOMKINS, Commissioner.

The President laid before the Board the following communication from the Commissioner of Parks, Boroughs of Manhattan and Richmond:

No. 1017.
Department of Parks, Boroughs of Manhattan and Richmond,
The Arsenal, Central Park,
New York, May 24, 1910.

To the Board of Aldermen:

Gentlemen—I find the appropriation of \$30,000 for the year 1910, for music in the parks of the Boroughs of Manhattan and Richmond, is inadequate to meet the demands of the people of these Boroughs, both for additional concerts in the accustomed places and for concerts in parks hitherto not supplied with them. For these purposes, I inclose resolution for your consideration.

Yours respectfully,
CHAS. B. STOVER, Commissioner.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of twenty-five thousand dollars (\$25,000), the proceeds whereof to be used by the Commissioner of Parks for the Boroughs of Manhattan and Richmond for the purpose of meeting the cost of employing music for the parks under his jurisdiction during the summer season of 1910.

Reports of Committee on Finance—

No. 959 (G. O. No. 41).

The Committee on Finance, to which was referred on May 17, 1910 (Minutes, page 456), the annexed ordinance in favor of an issue of \$175,000 corporate stock for municipal bath at Coney Island, respectfully

REPORTS:

That it held a public hearing on this subject at which numerous representatives of boards of trade, taxpayers' associations and other civic bodies appeared and urged favorable action. Some opposition also developed on the ground that the location selected was of more value to the public as a breathing spot than would be the benefits to be derived from the proposed bath, and also that this building could not be erected in time for use this season, and its construction at this time would tend to interfere in a great measure with the use of a large portion of this beach. The promoters of the measure assured the Committee that part of the building would be available for use by August 1 of this year, if immediate action was taken. The Committee believes that this proposition has for its aim the benefit of the common weal, and, therefore, recommends that the said ordinance be adopted.

AN ORDINANCE providing for an issue of corporate stock of The City of New York in the sum of one hundred and seventy-five thousand dollars (\$175,000) to provide means for the construction and equipment of a municipal bath house at Concourse Park, Coney Island.

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment May 13, 1910, and authorizes the Comptroller to issue corporate stock of The City of New York to the amount and for the purposes therein specified:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding one hundred and seventy-five thousand dollars (\$175,000) for the purpose of providing means for the construction and equipment of a Municipal Bath House at Concourse Park, Coney Island, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding one hundred and seventy-five thousand dollars (\$175,000), the proceeds whereof to be applied to the purposes aforesaid.

Under Rule 21, consideration of this report was deferred. Subsequently, Alderman Potter moved that this report be laid over for one week.

The President put the question whether the Board would agree with said motion. Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Becker, Bolles, Boschen, Brady, Brush, Carberry, Cole, Coleman, Cornell, Cunningham, Davis, Delaney, Desmond, Diemer, Dotzler, Downing, Ehntholt, Eichhorn, Esterbrook, Finnigan, Folks, Gaynor, Hammon, Heffernan, Hickey, Kenney, Markert, Marx, Meagher, Mulhearn, Potter, Schloss, Sheridan, Shipley, Snell, Towne, Volkmann, Van Nostrand, Walsh, Weston, Willard, President Miller and the Vice-Chairman—44.

Negative—Aldermen Barton, Campbell, Dowling, A. S. Drescher, Fagan, Finley, Godwin, Hamilton, Herbst, Hoertz, Johnson, Kenneally, Loos, McAleer, McCann, Nicoll, Nugent, Sohmer, Stapleton, Wendel, White, President Steers, by Lewis H. The Committee on Finance, to which was referred on May 17, 1910 (Minutes, page 461), the annexed request for \$16,695 special revenue bonds to enable the Commissioner of Docks to provide a full quota of music for recreation piers, respectfully

REPORTS:

That the details of this application are set forth in the request from the Commissioner of Docks. A representative of the Central Federated Union appeared before the Committee and urged favorable action. An equal appropriation has been available heretofore; the Committee believes this music to be a great public benefit, and, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of sixteen thousand six hundred and ninety-five dollars (\$16,695), the proceeds whereof to be used by the Commissioner of Docks for the purpose of providing means for the employment of additional musicians on recreation piers.

City of New York, Department of Docks and Ferries,
Pier "A," North River,
New York, May 11, 1910.

Hon. JOHN PURROY MITCHEL, President of Board of Aldermen:

Sir—The Budget appropriation for this Department for the current year allows under the heading "Bureau of Superintendence, Special Contract Obligations, Item No. 164, Music," \$34,344.

The Department maintains nine recreation structures located at the foot of Albany street, North River, at the foot of Barrow street, North River, at the foot of West Fifty-fifth street, North River, at the foot of West One Hundred and Twenty-ninth street, North River, at the foot of Market street, East River, at the foot of East Third street, East River, at the foot of East Twenty-fourth street, East River, at the foot of East One Hundred and Twelfth street, Harlem River, and at the foot of Metropolitan avenue, East River, Borough of Brooklyn.

Heretofore bands have been maintained on all of the structures each night throughout the entire Recreation Pier season. On the larger piers, namely, at the foot of Barrow street, West Fifty-fifth street, East Twenty-fourth street, nineteen men and leader are necessary; fourteen men and leader being sufficient for the remaining piers, these being the same assignments as have been in force in former years.

In the Budget appropriations for this year a reduction was made in the amount allowed for music on the piers, and with the amount available, as noted above, \$34,344, arrangements cannot be made for daily programs, and two or three days of each week on each of the piers would not be provided for.

Recognizing the good that these Recreation Piers do for the public during the summer season, I am anxious to provide music each night on all of the piers, and to do this it will be necessary to have one additional band of nineteen men and leader, and two additional bands of fourteen men and leader to each band. The cost of these three additional bands would amount to \$16,695, at the rate of \$3 per night for each player, and \$6 per night for each leader.

I respectfully request that pursuant to provisions of subdivision 8 of section 188 of the Charter, a resolution be adopted by you requesting the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds in the sum of \$16,695, for the purposes stated, namely, to meet the cost of employing the three additional bands.

Yours truly,
CALVIN TOMKINS, Commissioner of Docks.

Under Rule 21, consideration of this report was deferred. Subsequently this report was laid over.

The Committee on Finance, to which was referred on May 3, 1910 (Minutes, page 330), the annexed request of the President of the Borough of The Bronx, for \$9,000 special revenue bonds, for the establishment of a bureau for recording all subsurface constructions in said Borough, respectfully

REPORTS:

That the details of this application are fully set forth in the application, and, as stated therein, the Committee is informed that a similar bureau in the Borough of Brooklyn has been conducted with marked success. Inasmuch as this appropriation cannot be made available until June 15, at the earliest, the Committee has reduced the amount, and recommends that the accompanying resolution for \$7,263.35 be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of seven thousand two hundred and sixty-three dollars and thirty-five cents (\$7,263.35), the proceeds whereof to be used by the President of the Borough of the Bronx, for the purpose of providing means for the establishment of a bureau of subsurface constructions records.

The City of New York,
Office of the President of the Borough of The Bronx,
April 28, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall, New York City:

Dear Sir—Your attention is called to the necessity of keeping accurate records of all subsurface constructions. The Bronx is growing so rapidly and sewers, gas mains, water mains and conduits for telephone, telegraph and electric light and power lines are being constructed in such large numbers, that unless the work of preparing accurate maps is taken up at once, the opportunity will be lost.

The importance of such records can hardly be over-estimated. The location, size and character of all existing subsurface work should be determined as soon as possible, in order that new work may be properly located, that street openings for connections may be as small and as few as possible, that corporations and contractors doing work in the streets may have accurate information as to the conditions which they may expect to find, and, in general, that the City may be in a position to know what subsurface structures have been built, when, and by whom, and may direct where new structures may be built to the best advantage.

Work of this character is being done with success elsewhere, notably in Brooklyn, Philadelphia and Boston. In Brooklyn the Bureau has been in satisfactory operation for three or four years. In Philadelphia a large force is kept busy making and maintaining the records. The information is sold to interested parties, and the revenue derived from that source is sufficient not only to support the Bureau, but also to return a very considerable profit.

It is believed that such a system could be devised for this Borough, and that the Bureau could be operated without cost to the City. In order to properly inaugurate this work and to secure the locations, etc., of all existing structures, it will be necessary to immediately organize a force whose entire time would be devoted to the work. An approximate estimate of the annual cost is as follows:

1 Assistant Engineer	\$3,000 00	Instruments, etc	500 00
1 Assistant Engineer	2,100 00	Furniture	400 00
1 Transman	1,800 00	Materials, supplies and contingencies	500 00
2 Draftsmen, at \$1,500 each	3,000 00		
1 Rodman	1,200 00		
1 Axeman	900 00		
	\$12,000 00		\$13,400 00

The necessity for the immediate organization of a bureau of this sort cannot be too strongly urged. Delay would not only increase the expense of gathering information relating to existing work, but would postpone the enjoyment of the advantages which such a bureau would bring.

It is calculated, as previously shown, that the estimated cost for continuing this work for one year would be \$13,400. Four months of 1910 being past, the estimate for carrying on the work for the remaining eight months of the present year, on the above basis, would be \$9,000, and request is hereby made that a resolution be adopted by the Board of Aldermen asking the Board of Estimate and Apportionment to authorize the Comptroller to issue special revenue bonds for the purpose described to the amount of \$9,000.

Respectfully,

CYRUS C. MILLER, President, Borough of The Bronx.

The Committee on Salaries and Offices, to which was referred on March 29, 1910 (Minutes, page 1244), a petition relative to alleged discrimination in the distribution of City employment, respectfully

REPORTS:

That a readjustment of employment, whether wise or unwise, is the natural sequence of a change of administration, and it is not the province of the Board of Aldermen to be hasty with interference. It therefore recommends that the said petition be placed on file.

The Committee on Salaries and Offices, to which was referred on May 3, 1910 (Minutes, page 326), the annexed resolution in favor of establishing an adequate staff for the Board of Ambulance Service, respectfully

REPORTS:

That Dr. Copeland appeared before the Committee and added much information to that contained in the printed report of the Select Committee of the Board of Estimate and Apportionment. The Commissioner explained that there were 16,000 beds in private hospitals, 4,000 beds in city hospitals, with no comprehensive supervision; that some districts were not sufficiently supplied and there were many complaints of delayed service. It was the object of the Commission to systematize the distribution of prompt aid to the injured and to establish new hospitals where required, at no cost to the City, but by appeals to the generous citizens to whom so much is now owed for such help. The Commissioner then explained in detail the duties intended to be devolved on the various positions mentioned in the resolution, laying especial stress on the general inspection duties of the Director, who would be practically always "in the field" and whose activities would be materially enhanced by the use of an automobile with an efficient chauffeur. Dr. Palmer, the Chief Surgeon of the Police Department, followed with an emphatic endorsement. The Committee recommends that the said resolution be adopted.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held April 29, 1910:

Resolved, That, in accordance with the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment of the following positions in the office of the Board of Ambulance Service:

Report of Committee on Streets, Highways and Sewers—

No. 954.

The Committee on Streets, Highways and Sewers, to which was referred on May 10, 1910 (Minutes, page 451), the annexed resolution in favor of allowing the Forepaugh & Sells Circus to parade, respectfully

REPORTS:

That since the historic days when Barnum popularized the harmless and educational circus, there has never been any restriction on the orderly, well disciplined parades of circuses, travelling menageries or wild west shows. They form an institution loved by the people, especially of the younger generation, but not disdained by even the happy octogenarian. The Committee recommends that the said resolution be adopted.

Resolved, That permission be and the same is hereby given to the Adam Forepaugh and Sells Brothers Circus to parade with music through the following streets and thoroughfares of the Borough of Manhattan on the morning of Monday, June 13, 1910, starting at about 9.15 o'clock:

From Manhattan Field, One Hundred and Fifty-fifth street and Eighth avenue, to Bradhurst avenue, to One Hundred and Forty-sixth street, to Seventh avenue, to One Hundred and Thirty-sixth street, to Lenox avenue, to One Hundred and Thirtieth street, to Madison avenue, to One Hundred and Twenty-fifth street, to Manhattan street, to Amsterdam avenue, to One Hundred and Fifty-ninth street, to Edgecombe avenue, to the Manhattan Field, One Hundred and Fifty-fifth street and Eighth avenue.

Said parade to be under the supervision of the Police Department and to continue only for the day and date mentioned.

No. 836.

The Committee on Public Letting, to which was referred on April 26, 1910 (Minutes, page 289), the annexed resolution in favor of permitting the Commissioner of Water Supply, Gas and Electricity to purchase seven automobiles without public letting at a cost not to exceed \$16,500, respectfully

REPORTS:

That, having examined the subject, it believes the proposed permission to be necessary to allow the Commissioner to secure automobiles to replace those of no further use, having worn out in the service of the Department. The details are set forth in the letter of request. The Department will sell the old machines at auction, thus reducing the cost about \$2,500. The difficulty in making proper specifications to cover different makes of automobiles is well known, and the Committee recommends that the said resolution be adopted.

Resolved, That the Commissioner of Water Supply, Gas and Electricity be and is hereby empowered to purchase seven (7) automobiles without advertising for competitive bids to an amount not to exceed sixteen thousand five hundred dollars (\$16,500).

FRANCIS P. BENT, PERCY L. DAVIS, JOHN J. SMITH, JOHN DIEMER, ALEXANDER S. DRESCHER, MAX S. LEVINE, Committee on Public Letting.

Department of Water Supply, Gas and Electricity,
Commissioner's Office,
New York, April 26, 1910.

JOHN PURROY MITCHEL, Esq., President, Board of Aldermen:

Dear Sir—There are required by the Department, for the proper supervision of its works, seven (7) automobiles. These machines will be used principally by the Engineers. The Department is responsible for the correct administration of a territory of about 850 square miles, and the only means of transportation over a large section of this area is by horses and wagons.

To illustrate the necessity for these cars, I might mention the fact that on Long Island the Engineer who will be in charge of the pumping stations is required to visit about thirty (30) pumping stations located from Ridgewood to Massapequa, a distance of about twenty-three miles. This Engineer has to depend on train service, and considerable delay is often caused in making connections.

One of the machines will also be used by the Superintendent of Ponds and Conduits, his duty requiring visits to all of the streams and ponds.

On the Croton watershed there is a considerable stretch of the City's property which must be inspected daily by the Engineer and his Assistants. The means of transportation across country is limited, and it is often necessary for the Engineer to go down on the Harlem Railroad and come up on the Hudson River Railroad in order to visit the works under his charge.

One of the cars will be used by the Deputy Commissioner and myself and will replace an old car which is now of little service.

Six (6) of the automobiles which are credited to the Department I propose to sell at public auction.

I believe the Board recognizes that it is impracticable, if not impossible, to prepare specifications and contracts for the purchase of automobiles. Each part of these machines is covered by patents or special designs, I believe, and in the selection of any design one concern would naturally be favored and the Department could not consistently ask for competitive bids. I am satisfied that it would be a clear evasion of section 419 of the Charter which provides that there should be free competition for the furnishing of supplies where the expense will exceed \$1,000.

To avoid these complications, I would respectfully ask the Board's consideration to grant the necessary authority to purchase these machines without advertising for competitive bids or proposals.

Yours very truly,

HENRY S. THOMPSON, Commissioner.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Barton, Boschen, Brady, Brush, Callaghan, Campbell, Carberry, Coleman, Cornell, Cunningham, Davis, Delaney, Desmond, Diemer, Dotzler, Dowling, Downing, A. S. Drescher, W. Drescher, Dujat, Ehntholt, Eichhorn, Esterbrook, Fagan, Fink, Finley, Finnigan, Gaynor, Godwin, Hamilton, Hannon, Hef-fernan, Herbst, Hickey, Hoertz, Johnson, Kenneally, Kenney, Levine, Loos, McCann, Markert, Marx, Meagher, Mulhearn, Nugent, Potter, Schloss, Sheridan, Shipley, Smith, Snell, Sohmer, Stapleton, Townen, Volkmann, Van Nostrand, Wendel, Weston, White; President Gresser, by Joseph Sullivan, Commissioner of Public Works; President Miller; President Steers, by Lewis H. No. 834.

The Committee on Public Letting, to which was referred on April 26, 1910 (Minutes, page 263), the annexed request from the President, Borough of Brooklyn, asking for authority to purchase four automobiles without public letting at a cost not to exceed \$6,500, respectfully

REPORTS:

That, having examined the subject, it believes the proposed permission to be necessary to enable the President, Borough of Brooklyn, to replace four machines whose upkeep costs more in a year's time than it would cost to replace them. These machines now in use will be sold at auction, and it is expected that they will bring \$1,600, thus making the actual cost of the four new machines about \$5,000. The Committee recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of Brooklyn be and he is hereby authorized to purchase in open market, without public letting, four (4) automobiles for use in the various bureaus under his jurisdiction at a cost not to exceed the sum of six thousand five hundred dollars (\$6,500), to be charged in proper apportionment to the respective amounts of the aforesaid subsidiary divisions of the Municipal Government immediately under his control.

FRANCIS P. BENT, ALEXANDER S. DRESCHER, JOHN DIEMER, PERCY L. DAVIS, THOMAS F. BARTON, JAMES J. SMITH, Committee on Public Letting.

The City of New York,
Office of the President of the Borough of Brooklyn,
Brooklyn, April 19, 1910.

To the Honorable the Board of Aldermen, New York City:

Gentlemen—I hereby make application to your Honorable Body for permission to purchase, without public letting, four automobiles for use of this Department, at a total cost not to exceed \$6,500.

The reason for the purchase of these automobiles is because of the fact that four automobiles at present used by this Department have become old in use, are costly to maintain, inefficient for the work which they are supposed to perform, and rapidly becoming useless. It would seem that it would be a cheaper proposition for the City to replace these old and worn automobiles with new cars, and as these cars can be purchased very reasonably, I would respectfully request that your Board adopt a resolution in accordance with the above request.

Yours very truly,

ALFRED E. STEERS, President, Borough of Brooklyn.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Barton, Boschen, Brady, Brush, Callaghan, Campbell, Carberry, Coleman, Cornell, Cunningham, Davis, Delaney, Desmond, Diemer, Dotzler, Dowling, Downing, A. S. Drescher, W. Drescher, Dujat, Ehntholt, Eichhorn, Esterbrook, Fagan, Fink, Finley, Finnigan, Gaynor, Godwin, Hamilton, Hannon, Hef-

No. 592.

The Committee on Finance, to which was referred on March 22, 1910 (Minutes, page 1205), the annexed communication from the Commissioner of Parks, Borough of The Bronx, asking for \$1,000 special revenue bonds for the purchase of an automobile for use of the Superintendent of Parks, respectfully

REPORTS:

That the necessity for this automobile is set forth in the communication. The Commissioner has informed the Committee that the Superintendent will operate this machine himself. It seems to the Committee that such a mode of conveyance for this officer is more modern and efficient than the use of two horses, and it therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one thousand dollars (\$1,000), the proceeds whereof to be used by the Commissioner of Parks, Borough of The Bronx, for the purpose of purchasing a runabout automobile for the use of the Superintendent of Parks.

FRANK L. DOWLING, WILLIAM J. HEFFERNAN, CHARLES P. COLE, JOHN F. WALSH, THOMAS J. McALEER, JOHN DIEMER, FRANCIS P. KENNEY, Committee on Finance.

The City of New York,
Department of Parks, Borough of The Bronx,
March 16, 1910.

Hon. JOHN PURROY MITCHEL, President of the Board of Aldermen, City Hall, New York City:

Sir—Request is hereby made that your Honorable Board request the Board of Estimate and Apportionment to authorize an issue of special revenue bonds, under the provisions of subdivision 8 of section 188 of the Charter, to the amount of one thousand dollars (\$1,000), in order that I may purchase a runabout automobile for the use of the Superintendent of Parks, Borough of The Bronx.

It is utterly impossible for the Superintendent, at the present time, to cover the vast area of the park system of The Bronx, comprising upwards of 4,142 acres, with a horse and wagon. The distance to be covered daily being from twenty-five (25) to thirty (30) miles, requiring the use of two (2) horses daily. It is necessary, in order to make his work more efficient, and that proper supervision might be given, that the Superintendent get over the ground quickly, so that he may cover the entire system each day.

Permission is also requested to purchase the above runabout automobile, without public letting, at a cost not to exceed one thousand dollars (\$1,000).

Trusting this will have your prompt consideration, I am,

Respectfully,

T. J. HIGGINS, Commissioner.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Barton, Boschen, Brady, Brush, Callaghan, Campbell, Carberry, Coleman, Cornell, Cunningham, Davis, Delaney, Desmond, Diemer, Dotzler, Dowling, Downing, A. S. Drescher, W. Drescher, Dujat, Ehntholt, Eichhorn, Esterbrook, Fagan, Fink, Finley, Finnigan, Gaynor, Godwin, Hamilton, Hannon, Hef-fernan, Herbst, Hickey, Hoertz, Johnson, Kenneally, Kenney, Levine, Loos, McCann, Markert, Marx, Meagher, Mulhearn, Nugent, Potter, Schloss, Sheridan, Shipley, Smith, Snell, Sohmer, Stapleton, Townen, Volkmann, Van Nostrand, Wendel, Weston, White; President Gresser, by Joseph Sullivan, Commissioner of Public Works; President Miller; President Steers, by Lewis H. Negative—Aldermen Becker, Folks, Walsh and Willard—4.

Alderman Desmond called up General Order No. 32, being a report and resolution, as follows:

No. 385.

The Committee on Public Letting, to which was referred on March 1, 1910 (Minutes, page 624), the annexed communication from the Commissioner of Water Supply, Gas and Electricity, asking for authority to purchase 225 high pressure hydrants without public letting at a cost not to exceed \$24,412.50, respectfully

REPORTS:

That, having examined the subject, it believes the proposed authorization to be a matter to the advantage of the Department asking the permission. The details are fully set forth in the application, and so far as they relate to previous action by the Board of Aldermen are entirely correct. The Committee recommends that the accompanying resolution be adopted.

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the Commissioner of Water Supply, Gas and Electricity be and he is hereby authorized to purchase two hundred and twenty-five high pressure hydrants without public letting, at a cost not to exceed the sum of twenty-four thousand four hundred and twelve dollars and fifty cents (\$24,412.50).

FRANCIS P. BENT, JAMES J. SMITH, ALEXANDER S. DRESCHER, MAX S. LEVINE, THOMAS F. BARTON, JOHN DIEMER, Committee on Public Letting.

Department of Water Supply, Gas and Electricity,
Commissioner's Office,
New York, February 21, 1910.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City Hall, City:

Dear Sir—At the closing meeting of the Board of Aldermen, last year, a resolution was passed, authorizing the Commissioner of this Department to purchase on open orders two hundred and twenty-five high pressure hydrants from the A. P. Smith Manufacturing Company. The resolution, however, failed to receive the approval of the former Mayor.

It is a matter of much importance to the Department that the hydrants for the system be of a standard pattern and, as the hydrants manufactured by the A. P. Smith Manufacturing Company are the only ones which stood the test prescribed in the original contract for the furnishing of hydrants, I beg to renew the application for authority to expend the sum of \$24,412.50 for the purchase of these hydrants without the formality of advertising for competitive bids.

On several occasions the Department has obtained authority from the Board of Aldermen to purchase, on open orders, the hydrants of this pattern. Contracts have already been awarded for the furnishing, delivering and laying of water mains in the new districts to which the high pressure service will be extended. No other part of the high pressure system deserved or has received more attention from the Engineering Bureau than the proper selection of a hydrant well adapted for the extraordinarily severe service for which it is intended, and on the unfailing record of which the efficiency of the whole system depends. Under the trying conditions of operation the requirements in this case are necessarily much more exacting than in that of the common and much simpler hydrant in use on our distribution system, and can only be made by high technical skill in the design and excellence of its material and workmanship.

On the Department's invitation for bids for a suitable hydrant for this service in November, 1904, five (5) of the leading manufacturers submitted hydrants for test and the only hydrant to comply with all the requirements was the one submitted by the A. P. Smith Manufacturing Company. The contract was not awarded until June 27, 1905. This delay was due, principally, to the claim made by several of the unsuccessful bidders, who requested sufficient time to readjust their hydrants and to have same retested. All the bids were rejected and on the second bidding several hydrants were submitted, but the A. P. Smith Manufacturing Company's hydrant was the only

one which successfully passed the test. An injunction was issued, restraining the Commissioner from awarding the contract to the A. P. Smith Manufacturing Company, and two years elapsed before the final decision of the court.

Taking these facts into consideration, as well as the obvious advantage of uniformity in hydrants, and the agreement by the company to furnish these hydrants at the same rate which governed their bid which was submitted in competitive bidding, I would respectfully ask authority from the Board of Aldermen to purchase these hydrants on open order.

Yours truly,
HENRY S. THOMPSON, Commissioner.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Baldwin, Barton, Becker, Boschen, Brady, Brush, Carberry, Coleman, Cornell, Cunningham, Delaney, Desmond, Diemer, Dowling, Downing, A. S. Drescher, W. Pounds, Commissioner of Public Works; President McAneny and the Vice-Chairman—60.

Alderman Diemer called up General Order No. 33, being a report and resolution, as follows:

No. 463.

The Committee on Public Letting, to which was referred, on March 8, 1910 (Minutes, page 1005), the annexed resolution in favor of authorizing the Commissioner of Water Supply, Gas and Electricity to purchase a motor boat, without public letting, at a cost not to exceed \$5,000, respectfully

REPORTS:

That, some time since the Board of Aldermen appropriated the money for this motor boat with the understanding that its purchase and use would in time result in a considerable saving to the City. The Commissioner states that better results can be obtained by the purchase of such a boat without public letting. The Committee recommends that the said resolution be adopted.

Resolved, That the Commissioner of Water Supply, Gas and Electricity be and is hereby empowered, pursuant to chapter 149 of the amended Greater New York Charter, to purchase, without advertising for competitive bids or proposals, a motor patrol boat for an amount not to exceed five thousand dollars (\$5,000).

FRANCIS P. BENT, ALEXANDER S. DRESCHER, JOHN DIEMER, THOMAS F. BARTON, JAMES J. SMITH, PERCY L. DAVIS, JOHN F. WALSH, Committee on Public Letting.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

No. 827—(G. O. No. 31).

REPORTS:

That, having examined the subject, it believes the proposed issue to be necessary to provide for a graceful return of courtesies extended by various other municipalities to representatives of this City at similar gatherings. The Committee recommends that the said resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue special revenue bonds to the amount of two thousand dollars (\$2,000), or as much thereof as may be necessary, the proceeds whereof to be applied by his Honor the Mayor and such Committee of the Board of Aldermen as may be designated in the premises, to provide for the suitable entertainment of the Comptrollers, Auditors and accounting officials of various cities and States who will be in attendance at the annual convention of the National Association of Comptrollers and Accounting Officers in The City of New York during the week ending June 11, 1910.

FRANK L. DOWLING, WILLIAM J. HEFFERNAN, JOHN F. WALSH, DANIEL EHNTHOLT, THOMAS J. McALEER, JOHN DIEMER, Committee on Finance.

No. 1021.

By the same—
Whereas, There is now before the Select Committee of the Board of Estimate and Apportionment a petition calling attention to the inadequate salaries paid to new Patrolmen and Firemen and urging an increase in the same to \$1,000 a year; and
Whereas, Patrolmen are appointed in the seventh grade at a salary of \$800 a year. In five years they reach the first grade and a salary of \$1,400. The compulsory expenditures for the first year total not less than \$140, leaving a net average of \$12.66 per week. Even this sum is still further greatly reduced by compulsory living expenses, such as two and sometimes three meals a day, imposed upon the new Patrolmen by being assigned to duty in precincts away from home; and
Whereas, The Municipal Civil Service Commission several months ago was compelled to advertise throughout the State for applicants for the position of Patrolman. The salary offered was \$800, yet those who accepted quickly found themselves undecieved when they came to pay some \$40 for a winter overcoat and trousers, \$30 for a summer blouse, dress coat and trousers, \$12 for a regulation revolver, \$2.50 for a summer helmet, nearly \$2 for a winter cap, \$1.50 for a rubber hood for cap, plus some \$15 for incidentals, such as clubs, whistle, rubber coat, handcuffs, etc. These figures provide for his equipment and place him on the street. There are other taxes, however, such as the purchase of bedding, linen, etc., for his use in the station house, the tax for bootblack and tax for bedmaker. Last, but not least, there is the 2 per cent. tax imposed upon him by the Charter as his contribution to the pension fund; and
Whereas, It has been found that the small pay and enormous expenses, which are out of all proportion to the total income of the first year, has resulted in an almost complete dearth of applicants at the offices of the Municipal Civil Service Commission. Since the first of the year when a new examination was announced only 390 applications have been filed. The present eligible list is practically exhausted and the current examination will not provide for enough men to round out the year. Therefore, unless something is done to make the conditions of the new Patrolman more attractive The City of New York will find itself without eligibles; and
Whereas, much that has been said of the new Patrolman can be said of the new Fireman. He is offered a salary of \$800 for the first year, and when appointed runs into an immediate expense of not less than \$100 for his uniform and equipment. He also finds deducted from his pay about \$20 during the year for compulsory life insurance. In addition to this there is the house tax, which runs from \$2.50 to \$3 a

month, and makes his total compulsory deductions \$156, thus leaving him a balance of \$644, or an average of about \$12.40 a week; and

Whereas, The new Fireman is invariably assigned to duty in the hardest working companies. It has been pointed out that owing to the young Fireman's inexperience he frequently has his new uniform ruined and must purchase another to comply with the inspection regulations. The Fireman is allowed no compensation for uniform or equipment destroyed in discharge of his duty. He undergoes the same risk, does the same work, suffers the same hardships as those who are getting the maximum pay; and

Whereas, Hon. William F. Baker, Police Commissioner, and Hon. Rhinclander Waldo, Fire Commissioner, personally favor such increase, and Edward F. Croker, Chief of Department, has recommended the same; and

Whereas, Not only have the new Patrolmen and Firemen not received an increase in many years, but their salaries were actually decreased by the first Greater New York Charter. Prior to 1898 new members of the Police and Fire departments received a minimum salary of \$1,000 per annum. Therefore, while the cost of living has continued to increase, the salaries of new Patrolmen are less by \$200 than what they were twelve years ago. Not only this, but the compulsory expenses of these new members of the two departments have increased materially; be it therefore

Resolved, That in view of the above facts the Board of Aldermen respectfully recommends that the Board of Estimate and Apportionment fix the salaries of new Patrolmen and Firemen at a minimum of \$1,000 per annum.

Whereas, Andrew Carnegie offered in 1901 to construct 78 library buildings in The City of New York at a cost to him of \$5,200,000, providing that the City furnish the necessary sites for these buildings, and contracts were thereafter entered into between the City and the libraries as representatives of Andrew Carnegie, by which it was provided that the City shall proceed to acquire title to such sites as may be approved by the respective libraries; and

Whereas, The respective libraries in June of 1909 did recommend to the Board of Estimate and Apportionment of The City of New York, with their approval, the selection of sites in the following localities:

BOROUGH OF MANHATTAN.

1. Tenth avenue and Fortieth street.
2. Washington Heights and One Hundred and Sixtieth street.
3. Washington Heights and One Hundred and Eighty-first street.
4. Dyckman section.
5. Cathedral section, East Forty-seventh street.

BOROUGH OF THE BRONX.

6. Morrisania.
7. Morris avenue and One Hundred and Sixty-second street.

BOROUGH OF BROOKLYN.

8. Marcy avenue.
9. Extension to the library site at Brownsville.
10. Albany Heights.
11. Red Hook.

BOROUGH OF QUEENS.

12. Jamaica.
13. Long Island City.

—and

Whereas, Sites in these localities have been negotiated and reported by the Comptroller to the Board of Estimate and Apportionment in December of last year for acquisition by private purchase or by condemnation proceedings; and

Whereas, An appropriation was made in May of 1909 in the sum sufficient for the purchase or condemnation thereof; and

Whereas, No action has been taken by the Board of Estimate and Apportionment looking towards the acquisition of these sites so recommended to be acquired since 1909; therefore be it

Resolved, That the Board of Aldermen deprecate the long delay of the City in availing of the gift of Andrew Carnegie as being detrimental to the interest of the people of The City of New York, first, because of the increased cost to the City in the acquisition of sites because of this delay, and, second, because the funds of Mr. Carnegie have not sooner become available for the use by the people of the library buildings which were donated by this gift to the people of the City; and

Resolved, That the Board of Estimate and Apportionment be requested to take immediate steps towards the acquisition of these sites by taking up the recommendations of the Comptroller made in December, 1909, and adopting the appropriate resolutions recommended by him to be adopted, authorizing the acquisition of the sites approved by condemnation or by private purchase.

General Order No. 26.

The most painstaking care has been given to the awards for 1909 of the Medal of the Police Department, and the several medals given by public-spirited citizens to mark their recognition of acts of valor performed by New York Policemen. It has not been easy to choose among the many admirable examples of bravery displayed during the past year by members of the Force, but an earnest effort has been made to name as medal winners the men most deserving of that honor.

The medal of the Police Department and the Brooklyn Citizens' medal for the year 1909 are awarded to Patrolman James A. Mulroy, shield No. 6649, One Hundred and Forty-sixth Precinct, who, although weak from the loss of blood, suffering great bodily pain, and knowing that he was facing death, yet with indomitable courage risked his life in the faithful performance of his duty.

While on his post about 10 a. m., October 14, 1909, Mulroy was told that an Italian who had attempted to shoot some one the night before was now threatening others with a revolver. When Mulroy approached him, demanding his revolver, the Italian, one Vincenzo Avaricio, suddenly drew the weapon from his pocket, shot the officer twice, and ran. The first shot hit Mulroy in the face, shattering his jaw bone. He sank from the shock, and the second bullet grazed his hip. With the blood pouring from his wound, Mulroy staggered to his feet and pursued his assailant to a junkshop three blocks away, into which Avaricio ran. At the door of the junk shop Mulroy was joined by Patrolman Thomas Burns, One Hundred and Forty-sixth Precinct. Without hesitation both officers entered the place, in spite of a warning shouted at them that Avaricio, still armed, was behind a bale of rags. Both officers discovered the man at the same moment. He jumped at them, they shot him simultaneously, and he fell. Mulroy was in the hospital over two months as the result of his encounter, and is still under the doctor's care.

The Rhinelander medal for valor for 1909 is awarded to Lieutenant John F. Dwyer, shield No. 541, Harbor Precinct, Station A, and the Peter F. Meyer medal for 1909 to Patrolman James Hughes, shield No. 7002, Harbor Precinct, Station A, for an act showing bravery of a high type, quick wit, ready action, and disregard of personal peril.

At 9:15 p. m., August 27, 1909, one Pietro Cardone, who was sleeping on the bulkhead, fell into the slip between Pier "A" and Pier 1, North River. Lieutenant Dwyer, hearing a cry for help, ran to the bulkhead and dived in, fully clothed. Patrolman Hughes followed him instantly. Before either of the officers could reach Cardone, he had sunk. Both officers dived again and again trying to reach the drowning man. Lieutenant Dwyer finally got hold of him. The tide was running strongly, and it was with the greatest difficulty that the two Policemen managed to swim to a float

and drag the unconscious man to safety. Had the officers shown the least hesitation in diving into the river, had they, once there, spared the most persistent efforts, or had their determination been an instant dashed by the difficulty of swimming, fully clothed, supporting a helpless man, in the darkness and with a racing tide, Cardone would undoubtedly have been drowned.

The Isaac Bell medal for bravery for 1909 is awarded to Patrolman John P. A. Taaffe, One Hundred and Forty-third Precinct, who, with dogged persistence, and under circumstances of the utmost difficulty, put his own life in peril to save the lives of others.

At 11 p. m., July 27, 1909, the gasoline tank of a launch containing nine persons exploded opposite the Casino Pier, Bergen Beach, about 100 feet from shore. Of the several hundred who heard the explosion, Taaffe alone promptly went to the rescue of the crew who were struggling in the water. Throwing off his coat and shoes, Taaffe sprang into the water, and swimming out to the scene of the disaster, caught hold of George Himmerle, a one-armed man, weighing over 200 pounds, who was unable to swim. Taaffe got him ashore, and instantly plunging in again brought out a second man. In spite of the protests of those on the pier, who tried to restrain him, Taaffe swam out once more to the wrecked launch, but all the rest had by this time been brought to shore. Without a pause Taaffe began work on one of the unconscious men in an unsuccessful attempt to resuscitate him, and continued his efforts until completely exhausted. Patrolman Taaffe's actions throughout showed a total disregard of personal danger, and a high conception of the duties of a Police Officer.

The Automobile Club of America medal for 1909 is awarded to Patrolman Patrick McMahon, shield No. 3535, Fourteenth Precinct, for exceptional intelligence, prompt action, and a brave disregard of whatever serious consequences might follow the discharge of his duty.

On McMahon's post was a stable to which he had been giving particular attention in passing, because of threats that it was said had been made by strikers to burn or dynamite the building. At 11:40 p. m., May 6, 1909, McMahon, on reaching the stable, saw smoke coming from the stairway leading to the basement. Raising the wooden doors, McMahon saw a burning parcel, wrapped in newspapers, lying on the steps. Realizing the danger it threatened, McMahon seized the parcel and carried it out to the middle of the street. It exploded as he dropped it, cutting McMahon on the face, arms, legs and body, and tearing his clothes to shreds. As a result of this faithful discharge of his duty McMahon was in the hospital seven months.

No. 67. Constructing sewers and appurtenances in Walker avenue between Westchester square and Overing street, with branches in Benson avenue, etc.

This is based upon the assumption that the Board of Assessors will assess the property indirectly benefited at \$10 per each 25-foot lot.

No one appeared in opposition. Mr. Ruhlcland, Mr. M. T. Dittmar, Mr. Weydanz, Mr. Arnov and others appeared in favor. On motion, seconded, it was

Petition signed by George Herold and sixteen others. Estimated cost, \$39,425; assessed value of the real estate included within the probable area of assessment is \$1,712,000.

Based upon the foregoing approximate estimate of cost, and judging from the methods employed by the Board of Assessors in apportioning the cost in somewhat similar matters, it is probable that the assessment for this work upon the property directly benefited thereby will not exceed \$175 per each 25-foot lot. This is based upon the assumption that the Board of Assessors will assess the property indirectly benefited at \$4.25 per each 25-foot lot.

No one appeared in opposition. On motion, seconded, it was

Resolved, That proceedings be and the same hereby are initiated for constructing sewers and appurtenances in Castlehill avenue, between Parker street and Walker avenue, and in Walker avenue, between Castlehill avenue and Silver street.

Unanimously adopted.

Laid over, awaiting the appearance of additional owners who may favor the improvement. Mr. Horace S. Ely to be written to and asked if he is in favor or opposed to the improvement.

On motion, the Board adjourned until May 4, 1910.

Pursuant to call by President Miller, the members of the Local Board of Crotona, Twenty-fourth District, met at the office of the President of the Borough of The Bronx, in the Municipal Building, One Hundred and Seventy-seventh street and Third avenue, on Tuesday, April 12, 1910, at 9.30 p. m.

Laid over until May 4, 1910, and the Secretary was directed to obtain from the engineers an estimate of the probable cost of placing sods, shrubbery and fencing said centre plots, as well as an estimate of cost of removing the plots and paving Prospect avenue where not already paved.

No. 44. Laying out on the map of The City of New York an extension of Crotona parkway so as to include the block bounded by East One Hundred and Seventy-fifth street, Boston road and Southern boulevard.

Petition signed by F. J. Muhlfield, C. Branneck and twenty-seven others. Mr. Edward A. Maher, the General Manager under the Receiver of the Union Railway Company, appeared in opposition to the proposed change of map. This proposed improvement, he said, had been pending before the City authorities for a long time in various forms; that the property owned by the Union Railway Company at One Hundred and Seventy-fifth street, Boston road and Southern boulevard, and the plant and improvements erected thereon were much more valuable than had been stated, or that people had any idea of. A number of valuable cables are under ground that would have to be removed if the company was obliged to seek new quarters, and it would be a difficult problem for the company to obtain a new location for its plant.

Mr. Maher read the correspondence between John F. Steinmetz, of the East Tremont Taxpayers' Association, and the Union Railway Company under date of September, 1909, in which it was suggested that the company delay the rebuilding of its structures recently destroyed by fire, but the company believed that it was unfair to be asked to hold off for an indefinite time.

The company, he said, preferred to hold the land it owned at the point in question, but, at the same time, did not want to stand in the way of public improvements, but nothing had been done by the City to settle this matter. Action was taken by the local authorities during the last administration, but action on the part of the Board of Estimate and Apportionment had been indefinitely postponed.

The company was now about to erect buildings for its Superintendent, Claim Department, and accommodations for its employees similar to the building at One Hundred and Thirtieth street. It would not only be not unsightly but an advantage to the surrounding territory. The plans for this building have already been prepared and were submitted by Mr. Maher.

The Union Railway Company's buildings, Mr. Maher contended, were no more unsightly than was the iron structure of the Interborough Railway Company, and, as the owners of the property in question, they were not anxious to sell and do not want to sell at any price, as the property was of great advantage to the company and to the public.

A committee from the East Tremont Taxpayers' Association, composed of Messrs. J. R. Peterson, C. McRae and F. J. Muhlfield, presented a written supplement to their petition, and also appeared at this meeting and urged that the proposed map change be recommended to the Board of Estimate and Apportionment by this Board.

On motion, seconded, the Local Board recommended to the Board of Estimate and Apportionment the laying out on the map of The City of New York an extension of Crotona parkway, the cost and expense to be borne and paid by The City of New York.

Adopted.

Should this improvement have to become a matter of assessment upon the property deemed to be benefited, the Aldermen of the district would not favor it.

Ordered forwarded to the Board of Estimate and Apportionment, with the understanding that the proposition is to be taken up immediately and either ap-

proved or rejected by the Board of Estimate and Apportionment, as the railroad company is about to file plans for a new building on the site referred to in the petition.

On motion, the Board adjourned until May 4, 1910.

GEO. DONNELLY, Secretary.

MINUTES OF THE LOCAL BOARD OF VAN CORTLANDT, TWENTY-FIFTH DISTRICT.

Pursuant to call by President Miller, the members of the Local Board of Van Cortlandt, Twenty-fifth District, met at the office of the President of the Borough of The Bronx, in the Municipal Building, One Hundred and Seventy-seventh street and Third avenue, on Tuesday, April 12, 1910, at 9.30 a. m.

On motion, seconded, it was

Resolved, That proceedings be and the same hereby are initiated for constructing receiving basins and appurtenances at the northeast and southeast corners of East One Hundred and Seventy-fourth street and Eastburn avenue.

The centre line length for the above-named improvement is about 1,462 linear feet. On this basis the average cost per linear foot of frontage will be \$6.63. On motion, seconded, it was

Changing the grade of Corlear avenue, between Two Hundred and Thirtieth and Two Hundred and Thirty-second streets, so as not to exceed 8 feet above the present grade, by lowering the grade of Kingsbridge avenue, between Two Hundred and Thirty-first and Two Hundred and Thirty-second streets.

The Chief Engineer of Sewers and Highways, in a report dated April 6, 1910, states that if the grade of Corlear avenue were lowered to 14 feet above mean high-water datum, as requested, the gradient in West Two Hundred and Thirty-first street, between Corlear avenue and Kingsbridge avenue, would destroy the usefulness of West Two Hundred and Thirty-first street as a main connection between Broadway and Riverdale avenue.

Laid over until May 4, 1910.

No. 65. Regulating and grading, etc., Corlear avenue, from Two Hundred and Thirtieth street to Two Hundred and Thirty-sixth street.

The centre line length for the above-named improvement is about 2,427 linear feet. On this basis the average cost per linear foot of frontage will be \$10.75.

Mr. John Flanagan appeared and asked that the proposed improvement be extended to Two Hundred and Forty-second street.

Rev. Dr. Campbell appeared and stated that he did not believe that the improvement was needed just now above Two Hundred and Thirty-sixth street, as it might be very difficult to get fill, and thereby make the cost of the work very high. On motion, seconded, it was

Resolved, That this matter be laid over until May 4, 1910.

No. 71 of 1910. Regulating and grading, setting curbstones and flagging sidewalks a space 4 feet wide, laying crosswalks, building approaches and erecting fences where necessary in West One Hundred and Seventy-sixth street, between Aqueduct avenue and Undercliff avenue. From west side of Popham avenue to Undercliff avenue the roadway to be paved with block pavement to granite steps adjoining Undercliff avenue, together with all work incidental thereto.

The foregoing was the title of the petition signed by Edwin F. Branning and four others.

The Engineer of Highways reported in favor of regulating and grading, setting curbstones, flagging sidewalks a space 4 feet wide, laying crosswalks, building approaches, erecting fences where necessary and all work incidental thereto in West One Hundred and Seventy-sixth street, from Aqueduct avenue to Popham avenue, at an estimated cost of \$11,200; assessed value of the real estate included within the probable area of assessment is \$252,110.

The centre line length for the above-named improvement as reported upon by the Engineer of Highways is about 791 linear feet. On this basis the average cost per linear foot will be \$7.08. On motion, seconded, it was

Resolved, That proceedings be and the same hereby are initiated for regulating and grading, setting curbstones, flagging sidewalks a space 4 feet wide, laying crosswalks, building approaches, erecting fences where necessary in West One Hundred and Seventy-sixth street, from Aqueduct avenue to Popham avenue, and all work incidental thereto; and be it further

Resolved, That the resolution adopted by the Local Board of Van Cortlandt, Twenty-fifth District, on January 24, 1908, initiating proceedings for the regulating and grading, setting curbstones, flagging sidewalks, laying crosswalks, building approaches and erecting fences where necessary in West One Hundred and Seventy-sixth street, between Sedgwick avenue and Aqueduct avenue, and building steps and appurtenances thereto, be and the same hereby is rescinded.

On motion, seconded, the petition was denied by the following vote:

In favor of denying the petition, Alderman Hamilton and Alderman Godwin.

In favor of granting the petition, Alderman Finley.

No. 40. Acquiring title to East One Hundred and Sixty-eighth street, from Clay avenue westerly, so as to make it a through thoroughfare from the east to the west side of Bronx Borough.

Petition signed by Joseph T. Schnugg, by F. J. Schnugg, attorney, owner (American Brewing Company).

On motion, seconded, this petition was also denied, as the street was not laid out on the map as desired by the petitioner and as called for in the Petition No. 39 above noted.

Being the one-story building and all its appurtenances situated on the southeast corner of Atlantic and New York avenues, particulars of which may be obtained at the office of the Collector of City Revenue, Department of Finance, No. 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held March 16, 1910, the sale by sealed bids of the above described building and appurtenances thereto will be held by direction of the Comptroller on

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m. on the 26th day of May, 1910, and then publicly opened for the sale for removal of the above described buildings and appurtenances thereto, and the award will be

made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to the City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of the City of New York to do so. All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened May 26, 1910," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue," Room 141, No. 280 Broadway, New York City, from whom any further particulars regarding the building to be disposed of may be obtained.

Possession of the above building will be given purchaser at once.

The building will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of the City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Brooklyn, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of

the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made water-tight where they have been disturbed by the operations of the contractor.

The Comptroller of the City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
