³ Pursuant to local law 164, a continuous lock-in as used in this report refers to any period of time during which incarcerated individuals are confined to their cells or beds due to the combination of an emergency lock-in and either a scheduled lock-in or a lock-in extension, or both. For the purposes of this data metric, these 24-hour lock-in periods are continuous lock-ins, including both scheduled lock-ins and emergency-lock-in periods.
