SESSION OF THE MEMBERS OF THE BOARD OF ALDERMEN REPRESENTING THE BOROUGH OF MANHATTAN.

Thursday, December 19, 1907, 1.30 o'clock p. m.

The members of the Board representing the Borough of Manhattan met in the Aldermanic Chamber, City Hall.

Hon. George B. McClellan, Mayor, presiding.

The Chair requested the City Clerk to read the call for the special meeting, which is as follows:

Whereas, John F. Ahearn was, on or about the 9th day of December, 1907, removed from the office of President of the Borough of Manhattan of The City of New York by Charles E. Hughes, Governor of the State of New York, as appears by his order or certificate filed in the office of the Secretary of State of the State of New York on the 10th day of December, 1907, whereby a vacancy exists in the said office of President of the Borough of Manhattan; and

Whereas, The following-named persons are all members of the Board of Aldermen then in office representing said borough:

Andrew J. Doyle,	George W. Olvany,	Patrick Higgins,
Herman S. Fried,	Max S. Levine,	Timothy P. Sullivan,
Thomas J. Moffitt,	Reginald S. Doull,	Frank L. Dowling,
George J. Schneider,	John J. Haggerty,	James J. Smith,
John J. Callahan,	John J. Farrell,	Frederick Richter,
Frank J. Dotzler,	Patrick J. Hatton,	William P. Kenneally,
John J. Hahn,	Leonard L. Jacobson,	Joseph Schloss,
Charles Hahn,	John J. Cronin,	John R. Davies,
Max S. Grifenhagen,	B. W. B. Brown,	Frank D. Sturges,
Joseph Krulish,	Harry L. Leverett,	John J. Reardon,
Clarence R. Freeman,	Cornelius D. Noonan,	Elias Goodman,
James Cowden Meyers,	Joseph M. Torpey,	Charles Ahner,
Michael Stapleton,		

Now, therefore, I, George B. McClellan, Mayor of The City of New York, pursuant to section 382 of the Greater New York Charter and the powers vested in me by law, do hereby call the said members of the Board of Aldermen in session on the 19th day of December, 1907, at 1.30 o'clock in the afternoon, in the Chamber of the Board of Aldermen, in the City Hall of The City of New York, for an election of a President of the Borough of Manhattan of The City of New York, to fill the vacancy caused by the removal of said John F. Ahearn and for the unexpired term, which will end December 31, 1909.

In witness whereof I have hereunto set my hand and affixed my seal of office at the City Hall, in The City of New York, on this 16th day of December, one thousand nine hundred and seven.

[SEAL.]

(Signed)

GEO. B. McCLELLAN, Mayor.

The Chair requested the City Clerk to call the roll, which roll call resulted as follows:

Present:

Charles Ahner,	Max S. Grifenhagen,	Thomas J. Moffitt,
B. W. B. Brown,	John J. Haggerty,	Cornelius D. Noonan,
John J. Callahan,	Charles Hahn,	George W. Olvany,
John J. Cronin,	John J. Hahn,	John J. Reardon,
John R. Davies,	Patrick J. Hatton,	Frederick Richter,
Frank J. Dotzler,	Patrick Higgins,	Joseph Schloss,
Reginald S. Doull,	Leonard L. Jacobson,	George J. Schneider,
Frank L. Dowling,	William P. Kenneally,	James J. Smith,
Andrew J. Doyle,	Joseph Krulish,	Michael Stapleton,
John J. Farrell,	Harry L. Leverett,	Frank D. Sturges,
Clarence R. Freeman,	Max S. Levine,	Timothy P. Sullivan,
Herman S. Fried,	James Cowden Meyers,	Joseph M. Torpey,
Elias Goodman,		

The Chair announced that a quorum was present.

Alderman Sullivan moved that City Clerk P. J. Scully be made the Clerk for this session. The motion was agreed to.

Alderman Sullivan moved that the Board do now proceed to nominate candidates for the office of President of the Borough of Manhattan. The motion was agreed to.

Alderman Sullivan then placed in nomination for such office John F. Ahearn.

The Chair made the following statement:

"Aldermen of Manhattan—The nomination of John F. Ahearn for the office made vacant by his removal raises a question so serious that the Chair feels he would be derelict in his duty did he not rule upon it now before further proceedings have taken place."

"John F. Ahearn was elected on the 7th day of November, 1905, President of the Borough of Manhattan of The City of New York for a term of four years beginning January 1, 1906, on which last mentioned date he entered upon the duties of said office. In July, 1907, charges were presented against him to the Governor of the State of New York. After affording the accused officer an opportunity to be heard in his own defence, Governor Hughes, by an order given under his hand and the seal of the State of New York on December 9, 1907, found said John F. Ahearn guilty of the charges made against him, and ordered that the public interests required that said John F. Ahearn be removed from office."

"Of these facts the Chair must take cognizance. The removal proceedings and the order made by Governor Hughes were not merely for the purpose of temporarily ousting John F. Ahearn from office, but include separation from the office in question for the remainder of the term for which he was elected. They were not brought and neither was the order made by the Governor to remove John F. Ahearn for a day or a week or a month of his term, but to separate him from the remainder of his term. Nothing less is involved in the removal proceedings, and they cannot be nullified or reversed by his immediate election thereafter by this body. Whether the voters at the polls would condone the offence by which John F. Ahearn forfeited his office it is not necessary for us to decide. The Chair, however, does rule that John F. Ahearn is ineligible for election by this body to the office of President of the Borough of Manhattan for the balance of the unexpired term for which he was elected in November, 1905, and from which term he was separated by the order of the Chief Executive of the State."

"In view of the great importance of the question involved, in view of its seriousness, the Chair is ready to entertain an appeal from his decision should any gentleman disagree with his ruling."

Alderman Sullivan appealed from the decision of the Chair.

The Chair then put the question: "Shall the decision of the Chair stand as the decision of the Aldermen from the Borough of Manhattan?"

The yeas and nays were ordered.

The question was taken, and the yeas were 13 and the nays 21, as follows:

Yeas—Aldermen Brown, Davies, Dotzler, Farrell, Freeman, Goodman, Grifenhagen, J. J. Hahn, Krulish, Meyers, Schloss, Schneider, Sturges—13.

Nays—Aldermen Ahner, Callahan, Cronin, Dowling, Doyle, Fried, Haggerty, C. Hahn, Higgins, Kenneally, Leverett, Levine, Moffitt, Noonan, Olvany, Reardon, Richter, Smith, Stapleton, Sullivan and Torpey—21.

Present, and not voting, three, as follows: Aldermen Doull, Hatton and Jacobson.

So the Aldermen of Manhattan overruled the decision of the Chair.

Alderman Meyers then placed in nomination for such office Max S. Grifenhagen.

Alderman Brown then moved that nominations be closed. The motion was agreed to.

The Chair then directed the Clerk to call the roll, and directed that each Alderman as his name was called should announce his choice for the office of President of the Borough of Manhattan.

The roll was called, and there were for John F. Ahearn 24, and for Max S. Grifenhagen 12, as follows:

For John F. Ahearn—Aldermen Ahner, Callahan, Cronin, Doull, Dowling, Doyle, Fried, Haggerty, C. Hahn, Hatton, Higgins, Jacobson, Kenneally, Leverett, Levine, Moffitt, Noonan, Olvany, Reardon, Richter, Smith, Stapleton, Sullivan and Torpey—24.

For Max S. Grifenhagen—Aldermen Brown, Davies, Dotzler, Farrell, Freeman, Goodman, J. J. Hahn, Krulish, Meyers, Schloss, Schneider and Sturges—12.

Present, and not voting, one: Alderman Grifenhagen.

The Chair then announced that "John F. Ahearn, having received a majority of the votes of all the Aldermen representing the Borough of Manhattan, the Chair declares him elected President of the Borough for the remainder of the term ending December 31, 1909."

Alderman Sullivan moved that a committee of one be appointed by the Chair to bring before the Board Mr. John F. Ahearn, in order that the oath of office might be administered to him. The motion was agreed to.

So the Chair appointed as such committee Alderman Sullivan.

The Chair announced that he had executed the certificate of election of John F. Ahearn for the office of Borough President for the Borough of Manhattan for the remainder of the unexpired term ending December 31, 1909.

Alderman Sullivan then presented Mr. John F. Ahearn to the Board, and the Chair said:

"John F. Ahearn, you have been elected to the office of President of the Borough of Manhattan, in compliance with the forms of law. In administering the oath of office the Chair does so without passing upon your eligibility either as Chairman of this meeting, as Mayor, or as a citizen. Raise your right hand."

The Mayor then administered the oath of office to John F. Ahearn as President of the Borough of Manhattan.

Alderman Sullivan moved that the Board adjourn sine die. The motion was agreed to.

GEO. B. McCLELLAN, Mayor.

P. J. Scully, City Clerk.

DAVID F. MOORE,

Superintendent of Buildings, Borough of Brooklyn.

W. W. Richards, Chief Clerk.

Brooklyn, N. Y., June 1, 1907.

Hon. BIRD S. COLER, President, Borough of Brooklyn:

Dear Sir—I send you herewith report for the quarter ending March 31, 1907, together with detailed reports of the Assistant Commissioner of Public Works, Super-

intendent of Highways, Superintendent of Sewers, Superintendent of Public Buildings and Offices and the General Bookkeeper.

Assistant Commissioner.

The Assistant Commissioner's report shows that during the first quarter of this year fifty-five (55) contracts were entered into at a total cost of \$409,782.49, divided among the bureaus as follows:

	Contracts.	Estimated Cost.
Bureau of Highways.....	41	\$362,733 51
Bureau of Sewers.....	7	26,704 13
Bureau of Public Buildings and Offices.....	7	20,344 85
	55	\$409,782 49

—as compared to the same quarter 1906, when forty-seven (47) contracts were let at a cost of \$399,000.42. Accompanying the Assistant Commissioner's report is report of the Bureau of Incumbrances.

Bureau of Highways.

Owing to the weather conditions it was practically impossible to do any contract work during the quarter, so that the mileage of street pavements remains as it was on December 1, 1906, namely, 647.08 miles. Contracts during the quarter for the Bureau number 42, and amount to about \$362,732.91, to be charged against the following funds:

Repaving Bond Fund	\$41,466 65
Street Improvement Fund	199,393 11
Labor, Maintenance and Supplies	99,408 15
Construction Asphalt Repair Plant Fund.....	22,485 00
	<u>\$362,732 91</u>

One hundred and thirteen (113) estimates for original improvements have been prepared for use in the Local Board and amount to \$2,074,500.

A summary of the number of samples examined in the Laboratory shows:

Hydraulic cements	62
Asphalt and miscellaneous samples	47
	<u>109</u>

Considerable time has been spent by the Laboratory force in making an investigation into the ductility of asphaltic cements to secure data as a basis for the preparation of specifications for asphalt, under which bids were invited for asphalt for use in the Municipal Plant.

The Repair Division's report shows that 12,872 square yards of pavement was relaid by them, said pavement consisting of granite, Belgian, brick and cobble. They also laid and relaid 29,705 feet of flagging and 476 square feet of cement walk, in addition to doing a great many other repairs to streets, such as resetting curbs, gutters, etc.

The macadam Repair Division reports that they completed the resurfacing of macadam streets commenced during the year 1906—1,880 square yards of macadam pavement resurfaced. Their force was also employed in filling in washouts, hauling ashes to use in making crosswalks and sidewalks, cleaning macadam and dirt roads, gutters and sidewalks. They also constructed sheds in the Sixty-seventh street yard for the storage of tools, steam rollers, sprinklers and oil.

The various corporations using the streets of this borough laid 1,107 square yards of pavement in connection with their repair work.

Topographical Bureau.

The work of this bureau is increasing both in the field and in the office, as will be seen by the detailed report of the past quarter.

Sewer Bureau.

This bureau reports that during the first quarter of the year weather conditions were not favorable for carrying out construction work, and a very small amount of it has been done.

The contractor constructing the Flushing tunnel on Degraw street, between the East river and Hoyt street, has met with a great many difficulties in his work, which have held him back, but the engineers report that hydraulic shields, one in each heading, have been moved forward about 30 feet, both easterly and westerly, from the shaft at Tompkins place, and it should be possible from now on to prosecute this work without delay.

Plans for the relief sewers are in progress, and several contracts are well under way and will be ready for advertising very soon. The revision of all plans for the sewer system involved in the Twenty-ninth, Thirtieth and Thirty-first Wards, and especially Sheepshead Bay, is also under consideration by this bureau.

The detailed report of the Chief Engineer shows that a great deal of new and reconstructing work is under way, and it is expected that this year will prove a record one in the department.

Total amount of contracts entered into during quarter.....	\$1,877 72
Total amount of contracts completed during quarter (accounts closed).....	70,911 36
Total estimated cost of contracts uncompleted, March 31, 1907.....	1,837,008 81
Total estimated amount of work done in uncompleted contracts March 31, 1907	446,560 27
Total estimated amount of contracts in course of execution or in Corporation Counsel's hands awaiting approval as to form of specifications, etc.	144,700 00
Total estimated amount of contracts authorized, plans and specifications in preparation, March 31, 1907.....	<u>3,616,100 00</u>

The Superintendent of Maintenance's report, accompanying the sewer report, shows in detail the work accomplished by his division. The Sewer Bureau has also made a summary of the sewer pipe tested during the quarter, a copy of which is attached to their report.

Bureau of Public Buildings and Offices.

The report of the Superintendent of this bureau sets forth in detail the work done by his bureau in the past quarter, such as showing the number of orders drawn for various bureaus, statement of moneys expended for supplies and repairs, statement of contracts completed and pending and work done in caring for the various public buildings, court houses, baths, etc., under his jurisdiction.

Bookkeeper.

The Bookkeeper's report shows in detail the financial transactions of the several bureaus under this department.

Respectfully yours,

DESMOND DUNNE,
Commissioner of Public Works.

QUARTERLY REPORT OF THE CHIEF ENGINEER, BUREAU OF HIGHWAYS, BOROUGH OF BROOKLYN, FOR THE THREE MONTHS ENDING MARCH 31, 1906.

City of New York, Borough of Brooklyn,
Bureau of Highways,
Municipal Building, April 2, 1906.

Hon. FRANK J. ULRICH, Superintendent of Highways:

Dear Sir—I submit herewith report of the operations of this Bureau for quarter ending March 31, 1906. On account of the mild weather a larger amount of work was performed by the repair division than it has been customary in the same quarter in previous years. The contractors, however, had finished nearly all of the work by January 1, so that little contract work was done. Enough pavement was laid to change somewhat the previous mileage of the Borough from what it was the first of the year.

The pavement mileage of the Borough is as follows:

	December 31, 1905.	March 31, 1906.
Asphalt and asphalt block.....	263.48	264.26
Granite	140.88	140.93

Repair Division.

With the exception of a few weeks of bad weather it has been possible to carry on work nearly all of the time, and, in consequence, while in former years 1,500 or 2,000 connection openings have been unpaved at this season of the year, there are now very few except in the macadam pavements. As a result also of being able to work steadily during this quarter, comparatively few complaints have been received from citizens in regard to the condition of the streets. These have with very few exceptions all been attended to. The force is now being increased to its full strength for the season, and as soon as the names are received from the Civil Service list all of the repair gangs will be put to work. Three gangs of men are making general repairs to the asphalt pavements, and within two months they should be thoroughly repaired. These pavements are in somewhat better condition than they have been before at this season of the year. Half a dozen streets require almost constant work to keep them in good condition, and these, of course, are, as usual at this season of the year, in urgent need of repairs. The worst ones will be repaired within ten days. Openings in asphalt pavements have been under repair for about two weeks and will soon be entirely repaired.

During the last quarter \$33,079.46 has been spent for wages. This is \$3,270.53 more than was spent during this quarter in 1905, but the increase in the amount of work done is enough to very much more than warrant this increase in expenditure.

The Laboratory.

A summary of the number of samples examined is as follows:

Hydraulic cements	45
Asphalts and miscellaneous samples.....	32
Total.....	77

The more important part of the above work has included numerous special tests and comparative tests for securing analytical data and results necessary for drawing more comprehensive specifications for asphalt blocks; also for securing penetration tests of asphalt at various temperatures, which latter is regarded as highly important in determining their relative values.

The miscellaneous samples which have been submitted during the last three months have included samples of sewage, kerosene, machine oils, heavy lubricating oils, broken stone, gravel, etc., etc. Routine work on hydraulic cements has been continued from day to day. During the quarter the laboratory apparatus has been overhauled and improved and put in good condition, and solvents have been purified and distilled in preparation for the work of the coming season.

REPORT OF THE TOPOGRAPHICAL BUREAU FOR THE THREE MONTHS ENDING MARCH 31, 1906.

The Topographical Bureau attended to its usual line of work, comprising many reports, determination, fixing and preservation of street lines, the execution of maps for adoption and for filing, street openings, and compilation of records.

Surveys for reports, and recommendations as to the legal status of streets, were very conspicuous, because they were unusually numerous. Triangulation requires considerable attention in field reconnaissance and in the office.

The oral replies and other information furnished, amount to considerable, but these would not appear in this report.

The work accomplished may be said to come under five (5) divisions, as follows:

I. Triangulation.

The object of the triangulation is the establishment of a series of points throughout the borough, not less than 5,000 feet apart, the precise locations of which are determined in connection with the triangulation carried on for the whole of the City. The result obtained will serve as a frame work by which missing block dimensions and angles can be precisely determined.

Triangulation by this office was confined mostly to the reconnaissance of available points in and about Jamaica Bay, the erection of signal poles, and the execution of the necessary plans and specifications, after the permission of the owners had been obtained. Because of inclement weather, and state of tide, field work was considerably hampered.

In all, four (4) towers have thus far been erected under the auspices of the borough authorities, and 3 more towers got as far as the letting of the contract; 8 signal poles from 12 to 14 feet in height were set, and 4 stone monuments were securely put in the ground. As soon as the men are available, a large amount of this work is ready to be taken up.

2. To Retain, Determine and Fix on the Ground the Lines of the Existing Street System, and to Fix the New Street Lines as they are Adopted.

This covers a large field, because in many cases lines and distances are unknown, and furthermore, because current improvements tend to obliterate present monument stones and marks, unless they receive constant attention.

A—FIELD WORK.

The field work was often done as immediately required by current improvements, or by other work in hand. I find that 26 precise street lines were run, and 12 precise traverses were made.

Monument Stones Fixing Streets.

Of 365 monuments investigated, 292 were found, of which 26 were found for the first time. Eighty-six monuments were accurately referenced, 3 were tested, 15 were raised, lowered or reset, and 53 were proven lost.

B—OFFICE WORK.

The usual records were kept of all monument stones. A precise card index system is now under way which keeps an account for every monument of the borough.

3. Maps Affecting Changes in the Established Street System of the City.

A—FIELD WORK.

No other field work was done, excepting what was necessary for the maps completed under this division, to cover changes in lines of streets or changes in elevations.

B—OFFICE WORK.

Maps were completed as follows:

I. Maps Forwarded for Adoption.

Maps were forwarded for adoption by the Local Board, or by the Board of Estimate and Apportionment, covering a total of four items affecting changes in lines of streets, etc., or in established elevations.

II. Maps Forwarded for Filing.

These maps were made for the approval of the Board of Estimate and Apportionment, after which they are placed on file in accordance with the provisions of the Charter. A total of five items was forwarded, covering maps affecting changes in lines of streets, etc., and in the established elevation of streets.

III. Miscellaneous Maps.

These comprise a variety of maps made for different purposes. It includes a total of eight maps made for special reports, three maps made for encroachments on streets, and three maps copied.

4. Streets and Street Openings.

A mass of oral information was given on this subject. The work completed is recorded under the following subdivisions:

I. Certificates as to the dedication to public use of streets.

2. Maps prepared for the Corporation Counsel's office in condemnation proceedings.

I. Certificates as to the Dedication to Public Use of Streets.

Certificates were furnished as to the dedication to public use of streets, covering forty-four items. The preparation of these certificates includes a painstaking search of records in this and other offices, and a careful examination in the field.

II. Maps Prepared for the Corporation Counsel's Office in Condemnation Proceedings.

This includes a number of maps of different kinds, and comprises field and office work.

A—FIELD WORK.

Besides the surveys necessary for the completion of the maps of this quarter, certificates were made in the case of 44 additional streets.

B—OFFICE WORK.

This comprises the preparation of maps as follows:

A. Rule maps, b. draft damage maps, c. draft benefit maps, d. final damage maps, e. rule maps and technical descriptions for closing streets, f. profile surveys, g. inspection and testimony, and h. amendments and additions.

A. Rule Maps and Technical Descriptions.

This covers a total of eight items, as follows:

	Feet.
1. Beadel street, from Kingsland avenue to Gardner avenue.....	2,946
2. Vandervoort avenue, from Meeker avenue to Maspeth avenue.....	2,639
3. Public place, bounded by Lee avenue, Hewes street, and the extension of Bedford avenue	62
4. Public place, bounded by Division avenue, Marcy avenue, Ross street, and the extension of Bedford avenue.....	65
5. Public Park, know as Owl's Head Park, bounded by First avenue, Shore road, Wakeman place and Bay Ridge avenue, about.....	1,500

6. Forty-fourth street, from New Utrecht avenue to West street.....	5,571
7. Forty-third street, from New Utrecht avenue to West street.....	5,497
8. Benton street, from Kingsland avenue to Vandervoort avenue.....	1,388

Total: 8 streets, comprising 32 maps, and covering..... 19,668
—or total length of 3.725 miles of streets.

B. Draft Damage Maps.

This covers a total of nine items, as follows:

	Number of Plots.	Area in Square Feet.
1. East Fortieth street, from Canarsie avenue to Foster avenue (formerly Avenue E).....	64	119,295
2. Avenue D, from Flatbush avenue to Rogers avenue.....	3	87,126
3. Grant avenue, from Atlantic avenue to Liberty avenue.....	36	71,453
4. Approach to the bridge over Prospect avenue on the line of Seeley street.....	2	14,757
5. Fortieth street, from the former city line to New Utrecht avenue.....	38	44,921
6. Cornelia street, from Knickerbocker avenue to the borough line of Queens.....	13	68,430
7. East Thirty-fourth street, from Clarkson street to Church avenue.....	17	97,840
8. East Twenty-fifth street, from Foster avenue to Flatbush avenue.....	1	1,729
9. Condit street, from Railroad avenue to Nichols avenue.....	6	20,000
Total (9 streets, comprising 27 maps).....	180	525,551

These streets contain within them an area of 210,220 city lots, and cover a total length of 1.660 miles.

(c) Draft Benefit Maps.

This covers a total of three items as follows:

	Plots.
1. Union street from Bedford avenue to Rogers avenue.....	9
2. President street from Bedford avenue to Rogers avenue.....	9
3. East Thirty-fifth street from Kings Highway to Flatbush avenue.....	65
Total, three streets comprising three maps.....	83

(d) Final Damage and Final Benefit Maps

	Sheets.
1. Union street from Bedford avenue to Rogers avenue.....	5
2. President street from Bedford avenue to Rogers avenue.....	5
Total, two streets comprising.....	10

There was no need of making for the Corporation Counsel's office any rule maps and technical descriptions for closing streets, or any profiles of streets. In a few instances there was given further information on street opening matters. As heretofore, the maps before they were forwarded from this office, were thoroughly compared with the conditions on the ground. No further amendments or additions were needed for street opening maps.

5. To Keep a Record of Everything Pertaining to the Items of Topographical Work. As far as possible these records were kept; a Searcher obtained on March 1, 1906, is here proving useful in systematizing, arranging and indexing a mass of accumulated material, as well as in adding a number of other necessary items.

As heretofore, our records have been used not only for the work of this Bureau, but have been a benefit to other departments, private surveyors, and the general public, by whom they were freely consulted.

Summary for the Three (3) Months Ending March 31, 1906.

As far as feasible, the following gives the summary of the work that is a matter of record in this office.

For the triangulation, I would refer to the totals already given in the beginning of this report.

In the determination and preservation of street lines, as the results obtained were largely embodied in maps for adoption, maps for filing, and in street opening maps, they would be included in the summary of those items; otherwise there were made a number of working drawings, compilations of surveys, etc. In this connection I would refer to the totals given for street monumenting in the beginning of this report.

In maps for adoption, maps for filing and miscellaneous maps, twenty-three items were disposed of, comprising a total of sixty-five maps.

In streets, street openings and condemnation proceedings, 44 certificates were furnished as to the dedication of streets to public use. On January 1, 1906, 37 items requested by the Corporation Counsel's office were pending in this office; in the course of the quarter 19 new items were added, and 19 were disposed of; the 19 items disposed of comprised a total of 62 maps, and in addition they comprised 10 sheets, but no amendments to maps.

On January 1, 1906, 112 street opening proceedings were pending; in the course of the quarter 8 proceedings were initiated; 3 proceedings discontinued and 16 proceedings were confirmed, leaving a total of 101 proceedings pending March 31, 1906.

From January 1, 1898, to March 31, 1906, a total of 138 street opening proceedings were confirmed.

The records of topographical work cover many items that cannot be readily summarized; for these three (3) months the results obtained are especially large in connection with the legal status of streets and with records of street monuments.

In the course of the three months ending March 31, 1906, 151 communications were received and 361 written reports and letters were sent.

The employees were distributed as heretofore, in the usual lines of field and office, and they attended to all the work of the Bureau. On April 1, 1906, the Topographical Bureau comprised in all forty employees, which include the technical force, the clerical force and six laborers; thus far this force has been entirely cared for by the regular appropriation. The office has lost a number of men through transfers and resignations, so that on April 1, 1906, we had three men, all of them useful men, fewer than on December 31, 1905.

The field for the Topographical Bureau is a large one in this Borough, and fortunately I am able to state that it is now beginning to appear that additional men needed can be obtained; as far back as June of last year the Board of Estimate and Apportionment passed an appropriation to cover the additional expense for new men.

Respectfully submitted,

GEO. W. TILLSON, Chief Engineer.

REPORT OF THE TOPOGRAPHICAL BUREAU FOR THE QUARTER ENDING MARCH 31, 1907.

Office of the Assistant Engineer in Charge.
March 31, 1907.

Hon. DESMOND DUNNE, Commissioner of Public Works:

Dear Sir—I transmit herewith the quarterly report of this Bureau for the three (3) months ending March 31, 1907.

The duties of the Topographical Bureau are as follows:

First—To make topographical surveys and computations, and to prepare the necessary maps, plans and profiles, sketches, etc., for altering the map or plan of The City of New York, and for acquiring title to streets, avenues, public parks, places, etc.

Second—To mark on the ground, by means of monument stones, etc., the lines of streets, etc., and to protect the monuments, etc., when improvements in streets are being made.

Third—To prepare maps and technical descriptions for the Local Boards, the Board of Estimate and Apportionment, the Corporation Counsel's office, and the Commissioners of Estimate and Assessment in the matter of altering the map or plan of The City of New York, and of acquiring title to streets, avenues, etc.

Fourth—To prepare certificates of dedication for streets in which the City has an easement for the use of the public; and, also, statements of facts for submission to the Corporation Counsel in order that he can determine upon the facts presented whether improvements may be made without instituting condemnation proceedings in the streets for which the statements of facts are submitted.

Fifth—To furnish when requested reports upon the legal status of all the streets in this borough, not only for the other bureaus of this department, but for the Department of Taxes and Assessments, Department of Bridges, Department of Street Cleaning, Department of Water Supply, Gas and Electricity, and also for the public generally.

Sixth—To connect the traverse lines, monumented street lines and monumented lines holding the triangulation stations to the several secondary stations or towers in this borough.

Seventh—To make surveys and to prepare plans and profiles for all original improvements that are made by the Bureau of Highways; to determine for all contracts let by the Bureau of Highways the amount of excavation, the amount of fill, the number of linear feet of curbing, the number of square feet of sidewalks, the number of cubic yards of concrete and the number of square yards of asphalt, and to furnish the contractors with line stakes, grade stakes and monthly estimates.

There has never existed a map of the Borough of Brooklyn showing all the changes that have been made in the street system of the various sections of the borough since the original Commissioners' maps were adopted. I am now preparing such a map on a uniform scale of 200 feet to the inch. Upon this map it is intended to note all the changes in street lines that were made in the past, and also such changes in the map of the City as may be hereafter adopted. As a result of this work there will be in this office a map which will be complete and always up to date.

In this office the records relating to the legal status of streets have been found to be incomplete in many respects. These records are being completed by means of a systematic search through the records in the various City departments, and as a result much data heretofore unrecorded are being brought to light. It is intended to compile in such a form all the records of streets that there will be in this office a complete history of each street in the Borough of Brooklyn. This is a large work, but it is now well under way.

The following report gives in as much detail as the nature of the work will permit the kind and the amount of work accomplished during the quarter. In this report neither the work started nor the work not yet completed is included. A great deal of the routine work of the office which took considerable time, such as the care and preservation of monument stones, the keeping of the detail records of the office, the accumulation of records which had been missing, the numerous investigations necessary to make reports on the legal status of streets, the many replies, both oral and written, to inquiries as to the legal status of streets, etc., are not, and cannot well be, included in this report.

A—FIELD WORK.

The field work, which was required for and which is included in the maps and reports under the head of "Office Work," consists of chaining, line work, angular measurement, leveling and damage survey work. The amount of this work, which was done as required, completed during the quarter, is as follows:

V. Streets and Street Openings.

This work, in addition to furnishing a mass of oral information, consists in preparing certificates of dedication and statements of facts for submission to the Corporation Counsel. It requires an accurate search of all records in this and the other public offices, besides a thorough examination on the ground of the physical condition of each street. As completed, this work is divided as follows:

A—Certificates of Dedication to Public Use of Streets.

These certificates are prepared to prove that the public has an easement to the use of the street, thus avoiding street opening proceedings preliminary to needed improvements.

None during this quarter.

B—Statements of Facts for Submission to Corporation Counsel.

In these statements of facts is included all obtainable information, documentary and physical, that tends to prove a dedication of each street to public use.

VI.—Maps Prepared for the Corporation Counsel's Office in Condemnation Proceedings.

This work comprises the preparation of the following maps:

- (a) Rule Maps in triplicate and technical descriptions of land to be taken in street opening proceedings.
- (b) Profile Maps showing physical elevation of the property on the side lines and centre of the street, and the manner in which lands and buildings not taken but affected will be injured or benefited by the intended regulation of the streets.
- (c) Draft Damage Maps, which give the dimensions of every plot of land to be taken, the encroachments on the streets, the names of the property owners and any other information that will be of service to the Commissioners of Estimate and Assessment.
- (d) Draft Benefit Maps, showing lot included within the limits of assessment for the opening and giving dimensions and block and lot numbers.
- (e) Final Damage Maps in duplicate and Final Benefit Maps in triplicate.
- (f) Rule Maps and technical descriptions for acquiring easements in streets for sewer purposes.
- (g) Rule Maps and technical descriptions for closing avenues and streets.
- (h) Profiles made in connection with street openings.
- (i) Inspection and Testimony.
- (j) Amendments and Additions to street opening maps.

Respectfully submitted,

CHAS. R. WARD, Assistant Engineer in Charge.

BUREAU OF SEWERS.

Chief Engineer's Office,
Mechanics Bank Building,
May 3, 1907.

Hon. JAMES DUNNE, Superintendent of Sewers:

Dear Sir—I beg to submit herewith a report, covering the operations of the Engineering Division of this bureau during the quarter ending March 31, 1907.

As is usually the case during the first quarter of the year, weather conditions have not been favorable for carrying out construction work to advantage, and a comparatively small amount of it has been done.

With the exception of three contracts, all construction work was suspended during the winter months, and was not generally resumed until March 25. During the whole quarter, therefore, there were only six days during which construction work was possible, between March 25 and March 31.

As shown in the attached table, 4,620 linear feet of sewers, of various sizes, were completed during this time. In addition to this, 4,810 linear feet of house connection drains were laid.

Work on the contract for sewer in Quay street, between the East river and West street, etc., has continued steadily throughout the winter, and it is hoped it will be nearing completion by the end of the next quarter. The contractor has entirely removed foundation timber, which was found to be badly placed, and made all other repairs required. Only the outlet portion of this sewer, between Franklin street and the East river remains to be completed. The contract for altering, repairing and reconstructing the existing sewer in Knickerbocker avenue, between George street and Johnson avenue, etc., has been nominally in progress throughout the quarter, although difficulty in caring for the large dry weather flow in this sewer delayed the work badly. This matter has now been arranged so that the contractor

should be able to make good progress until the work is completed. He is now working on Johnson avenue, in the neighborhood of Bogart street, and has completed by far the larger and more difficult portion of the work. That remaining to be done consists principally in replacing the invert in the old sewer between Bogart street and Bushwick place. It should be entirely completed well before the end of the present season.

The Flushing tunnel in Degraw street, between the East river and Hoyt street, etc., has been under way throughout the quarter, and, in fact, the whole winter. Very little progress up to the present time has been made. The contractor is encountering difficulties which may, perhaps, be successfully overcome after a fair start has been made, but which, up to this time, have prevented the accomplishment of much more than preparatory work. The plant of machinery necessary for the proper prosecution of the work is now complete. Two hydraulic shields, one in each heading, have been moved forward about 30 feet, both easterly and westerly from the shaft at Tompkins place, and it should be possible from now on to prosecute this work under the most favorable conditions possible by the method which the contractor is using. More than half of the time allotted in the contract has already expired, and it seems certain that it will be impossible to complete the work in contract time.

Fair progress is now being made in completing the contract for sewer in Seventh avenue, between Seventy-ninth and Ninety-second streets, etc., of which the large outlet sewer in Fourteenth avenue, between Seventy-ninth street and Bath avenue is an important part. The contractor has now commenced work on this outlet sewer, and there should be no further delay in completing it. A number of comparatively long lines of sewers now under construction are tributary to this outlet, and it is important that it be completed as rapidly as possible. Several months will be required to do this under favorable conditions. The contractor is also at work on Seventh avenue, between Seventy-ninth street and Ninety-second street, and on Twelfth avenue, between Eighty-sixth street and Bath avenue. These are both outlet sewers, included within this contract. The whole system of pipe sewers in Dyker Heights which was built as a part of this contract, and completed in the latter part of 1905, will be available for use as soon as these three outlets are completed. A large part of this system may be brought into use as soon as the small outlets on Seventh and Twelfth avenues are completed.

On March 31, twenty-seven contracts for sewer improvements, the estimated cost for which is \$99,920.57, which had been entered into, and upon which construction had not been commenced, were awaiting the advent of suitable weather conditions for the commencement of active operations.

Fourteen contracts were ordered ahead in construction during the quarter. Others will be as rapidly as possible.

During the quarter, the equipment of field parties having charge of construction work has been overhauled and repaired. Practically all of the surveying instruments needed repairs. The field force is now in better condition than ever before to care for construction work.

The large pipe testing machine, manufactured by Reihle Bros., has been set up in a small building adjacent to the Municipal Building, and is now at work regularly.

A list of tests which have been made up to the present time upon pipe, to determine its resistance to crushing, is appended hereto. Other smaller machines, designed to carry out the tests required in the specifications, have also been installed and placed in operation in this building. We have now one of the most complete pipe testing plants in existence, and the results of our work should prove to be of considerable value and interest to engineers engaged in sewer construction outside of this bureau. I understand that the Borough of The Bronx anticipates buying a testing plant similar to this.

During this quarter a large amount of surveying has been done in preparation for construction work, and in obtaining data for the preparation of contract plans. Fifty-one complete surveys in the field of this kind have been made, notwithstanding the unsuitable weather for outside work.

The Engineer in charge of design reports that there remained on January 1, 1907, twenty-nine resolutions for sewer improvements, for which plans and specifications had not been prepared, to the value of \$3,205,500. Of these plans and specifications eighteen have been completed and sent along, having an estimated cost of \$126,500. The remainder are in progress.

There were received during the quarter thirty-seven resolutions, for which plans were ordered to be drawn for sewer improvements, amounting in value to \$537,100. One of the above thirty-seven resolutions proved to have been completed as part of a contract built in 1906, and therefore should not be counted as work having been done in this quarter. For seven of these plans and specifications have been prepared and sent along.

Six (6) private sewers have been petitioned for, two of which are now under contract, and plans and specifications for the other four are in progress.

Four changes of plan of sewerage have been prepared and approved for adoption, and five others are nearly completed.

In the matter of reports upon estimates required for sewer improvements to precede paving, and in reply to petitions for sewers, there have been made in all 268 reports, leading to a total estimate of \$1,113,100, and embracing in the aggregate 38.03 miles of contemplated sewer construction. Of these reports fifty-seven were regarding sewer improvements to precede paving, which led to the formation of sixty estimates, aggregating \$512,000.

In reply to petitions for sewers, sixty-six reports were made, requiring seventy estimates, aggregating \$601,000.

There were in addition eleven reports relating to changes of plan, and several miscellaneous reports relating to the dredging of the Gowanus canal, the relocation of the railroad tracks in Coney Island avenue, and in reply to inquiries made by individuals and corporations regarding sewer conditions, sewer construction and sewer designs.

During the quarter standard plans have been prepared for details of sewer design involved in street basins, sewer sections, etc.

The plans for the relief sewers are in progress, and several of the contracts are well along toward completion. The estimated cost of these sewers is about \$2,000,000.

Studies for the extension of the relief sewers are under way for the relief of map "O," also for the relief of the Greenpoint and the Bushwick districts.

Acting under your orders I have commenced the study for a revision of all plans of the sewer systems involved in the new Wards. They are the Twenty-ninth, Thirtieth and Thirty-first Wards, and especially for the Sheepshead Bay district.

The sewer system of Coney Island has been redesigned, and the map is about ready to be submitted for your approval.

Additional details have been prepared to complete the plans of the Gowanus canal flushing tunnel, where found by you to be deficient. These are about complete.

Plans have been prepared for the sewerage of the Flatbush avenue extension. These also are about complete.

Studies have been under way since the first of the year for the improvement of the various purification plants, with a view of modernizing the same and providing for such extension as is required by the continually increasing demand put upon them by the extension of the sewer system and the increased population.

Plans are well under way for the large outlet sewer from Queens County into the head of Newtown creek. This improvement it is estimated will cost \$868,000.

In connection with work of the Jamaica Bay Improvement Commission, I have made studies for the grades and bulkheads along the Jamaica Bay waterfront. This is a very important work and will involve considerable further study in planning, especially as the sewer system must be considerably changed to conform to the new grades proposed for the streets after filling has been completed by the Commission.

New specifications for sewer construction have been prepared, and contracts hereafter will be let under them. They are the result of considerable study, and it is thought that sewers built in conformity with them will be of best character possible, consistent with reasonable prices.

The legal plan for sewers in map "Z," which includes nearly all of the territory in Bensonhurst lying on the southeasterly side of Bay parkway (Twenty-second avenue), has been entirely revised and is ready for adoption. This plan will necessitate the building of a canal from a point midway between Avenues V and W southward to the projected Coney Island ship canal. This canal would lie about on the line of West Thirteenth street. The present legal grades throughout a large part of this district are fixed at such a slight elevation that a proper plan for the sewers cannot be carried out without raising them. The district is at present served with a few lines of very poorly built sewers, which The City of New York inherited from the old town of Gravesend.

These sewers were built by private contract, and this Bureau now maintains a force of men to keep them in working order. Very few of them can be incorporated in the new system, and those which are so incorporated should be thoroughly overhauled before they are connected to the new sewers.

The City has bought a piece of property upon which to locate a pumping station at West Thirteenth street near the head of the projected canal, and nearly \$200,000 of sewer improvements in the district have been authorized by the Board of Estimate and Apportionment. Practically the whole district is without modern sewer accommodations, although it is fairly well built up. The adoption of a proper system, and the construction of sewers in the district it seems to me is a very urgent matter, and those questions which are now undecided and which must be decided before construction work can be properly proceeded with should be settled without further delay.

The force of Draughtsmen in the office has been largely increased during the quarter, and from now on it is hoped that all work authorized can be placed under contract much more promptly than heretofore. The former force of Draughtsmen employed in preparing assessment lists has been trebled, and steady progress has been made in reducing the large amount by which this work is in arrears.

A large amount of indexing has been done in the office, and the method of keeping records and of doing work in general has been systematized.

It is hoped and expected that this year will prove to be the most active in the history of the Bureau, so far as mileage of sewers constructed and magnitude of results accomplished is concerned.

Respectfully yours,

E. J. FLINT, Chief Engineer of Sewers.

Brooklyn, April 3, 1907.

Hon. JAMES DUNNE, Superintendent, Bureau of Sewers:

Dear Sir—I respectfully submit my quarterly report of work done and material used in maintaining the sewerage system in the Borough of Brooklyn from January 1, 1907, to March 31, 1907, inclusive.

In accounting for the falling off in the number of basins cleaned and the amount of sewer cleaning done during the above period I would say that owing to the great amount of snow which fell during the past winter and the frozen condition of the sewer manholes and basins it was utterly impossible to do any more of this work than is shown in this report.

Quarter Ending March 31, 1907.

NOTICE OF SALE OF LANDS AND TENEMENTS WITHIN THAT PART OF THE CITY OF NEW YORK NOW KNOWN AS THE BOROUGH OF RICHMOND, FOR UNPAID TAXES AND ASSESSMENTS.

THE CITY OF NEW YORK, DEPARTMENT OF FINANCE, BUREAU FOR THE COLLECTION OF ASSESSMENTS AND ARREARS OF TAXES, ASSESSMENTS AND WATER RENTS, STEWART BUILDING, No. 280 BROADWAY, BOROUGH OF MANHATTAN, NEW YORK CITY, August 10, 1907.

UNDER THE DIRECTION OF HERMAN A. METZ, Comptroller of The City of New York, the undersigned hereby gives public notice pursuant to the provisions of section 1027 of the Greater New York Charter:

That the respective owners of the lands and tenements within that part of The City of New York now known as the Borough of Richmond, on which taxes have been laid and confirmed according to law by The City of New York for the years 1899, 1900, 1901, 1902 and 1903, including taxes on the real estate of corporations for the said years and taxes on the special franchises of corporations for the years 1900, 1901, 1902 and 1903, and which now remain due and unpaid:

And also the respective owners of all lands and tenements in The City of New York, situated in the borough aforesaid, on which the assessments have been laid according to law by the said City of New York for the years 1899, 1900, 1901, 1902, 1903 and 1904, and which now remain due and unpaid, are required to pay the amount of the said taxes and assessments so remaining due and unpaid, with the interest thereon at the rate of seven (7) per centum per annum, from the time when the same became due to the time of payment, together with the charges of this notice and advertisement, to the Collector of Assessments and Arrears, at his office in the Borough Hall, New Brighton, in the Borough of Richmond, in The City of New York.

And that, if default shall be made in such payment, such lands and tenements will be sold at public auction, in Room 129, Borough Hall, New Brighton, in the Borough of Richmond, in The City of New York, on

WEDNESDAY, NOVEMBER 20, 1907,

at 10 o'clock in the forenoon of that day, for the lowest term of years at which any person shall offer to take the same, in consideration of advancing the said taxes or assessments, as the case may be, and the interest thereon as aforesaid, to the time of sale, together with the charges of this notice and advertisement, and all other costs and charges accrued thereon; and that such sale will be continued from time to time until all the lands and tenements so advertised for sale shall be sold.

Notice is hereby further given that a detailed statement of such taxes and assessments and the ownership of the property taxed and on which such taxes and assessments remain unpaid, is published in a pamphlet and that copies of the said pamphlet are deposited in the offices of the Collector of Assessments and Arrears in the Boroughs of Manhattan and Richmond, and will be delivered to any person applying for the same.

DANIEL MOYNAHAN,
Collector of Assessments and Arrears
of The City of New York.

The foregoing sale will continue on
WEDNESDAY, JANUARY 15, 1908,
at 10 o'clock a. m., in Room 129, Borough Hall,
Borough of Richmond.

DANIEL MOYNAHAN,
Collector of Assessments and Arrears.

DEPARTMENT OF STREET CLEANING.

MAIN OFFICE OF THE DEPARTMENT OF STREET CLEANING, ROOM 1403, NOS. 13 TO 21 PARK ROW, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Street Cleaning at the above office until 12 o'clock m., on

FRIDAY, DECEMBER 27, 1907,

Borough of Manhattan.

CONTRACT FOR FURNISHING ALL THE LABOR AND MATERIALS REQUIRED FOR LOADING AND TRIMMING DECK SCOWS AND OTHER VESSELS OF THE DEPARTMENT, AND FOR THE PRIVILEGE OF SORTING AND PICKING OVER AND APPROPRIATING CERTAIN OF THE REFUSE AT THE DUMPS.

The time for the completion of the work and the full performance of the contract is by or before one year.

The amount of security required is Five Thousand Dollars.

The period of this contract will be one (1) year of fifty-two (52) weeks, beginning on the Monday following the date of the contract.

Bidders will write out the price in their bids or estimates, in addition to inserting the same in figures, and this price will be the compensation to be paid to The City of New York by the contractor per week, in advance, for the privilege and work at all the dumps and the incinerators of the Department of Street Cleaning in the Borough of Manhattan.

Each bid or estimate must be accompanied by a certified check on a solvent banking corporation in The City of New York, payable to the order of the Comptroller of The City of New York, for five per centum (5%) of the amount for which the bidder proposes to perform the work for one year.

From the bids or estimates so received the Commissioner may select the bid, the acceptance of which will, in his judgment, best secure the efficient performance of the work, or he may reject any or all of said bids.

Blank forms and further information may be obtained at the office of the Department of Street Cleaning, the Borough of Manhattan, Nos. 13 to 21 Park row.

SUPREME COURT—FIRST DEPARTMENT.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of EAST TWO HUNDRED AND THIRTY-THIRD STREET (although not yet named by proper authority), from Bronx river to Hutchinson river; also the PUBLIC PLACE at the intersection of East Two Hundred and Thirty-third street with Morris Park avenue, and the PUBLIC PLACE at the eastern terminus of East Two Hundred and Thirty-third street and Hutchinson river, in the Twenty-fourth Ward, Borough of The Bronx, The City of New York, as amended by an order entered herein discontinuing the above-entitled proceeding, so far as the same affects that part of East Two Hundred and Thirty-third street lying between the westerly side of Baychester avenue and Hutchinson river.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owners or occupants, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections, in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 10th day of January, 1908, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 13th day of January, 1908, at 2 o'clock p. m.

Second—That the abstracts of our said supplemental and amended estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 20th day of January, 1908.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises, situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at the point of intersection of a line parallel to and distant 1,500 feet southerly from the southerly line of East Two Hundred and Thirty-third street with the centre line of the Bronx river; running thence northerly along the centre line of the Bronx river to its intersection with a line parallel to and distant 1,500 feet northerly from the northerly line of East Two Hundred and Thirty-third street; thence easterly along said parallel line to its intersection with a line parallel to and distant 500 feet easterly from the easterly line of Baychester avenue; thence southerly along said last-mentioned parallel line to its intersection with the easterly prolongation of a line parallel to and distant 1,500 feet southerly from the southerly line of East Two Hundred and Thirty-third street; thence westerly along said prolongation and parallel line to the point or place of beginning; as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 27th day of February, 1908, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to adjourn to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

NOTICE OF APPLICATION FOR THE APPOINTMENT OF COMMISSIONERS OF APPRAISAL.

PUBLIC NOTICE IS HEREBY GIVEN that it is the intention of the Corporation Counsel of The City of New York to make application to the Supreme Court of the State of New York for the appointment of Commissioners of Appraisal under chapter 724 of the Laws of 1905, as amended. Such application will be made at a Special Term of the Supreme Court to be held in and for the Third Judicial District at the Court House in the City of Kingston, New York, on December 21, 1907, at 10 o'clock in the forenoon of that day, or as soon thereafter as counsel can be heard. The object of such application is to obtain an order of the Court appointing three disinterested and competent freeholders, one of whom shall reside in the County of New York, and at least one of whom shall reside in the county where the real estate herein-after described is situated, to act as Commissioners

of Appraisal under said act and discharge all the duties conferred by the said law and the acts amendatory thereof, upon such Commissioners of Appraisal, for the purpose of providing an additional supply of pure and wholesome water for The City of New York.

The real estate to be acquired herein is situated in the Towns of Gardiner, Plattekill and Shawangunk, and is to be acquired for the purpose of furnishing an additional supply of pure and wholesome water to The City of New York.

The following is a statement of the boundaries of the lands to be acquired herein, with a reference to the date and place of filing of the map:

All those certain pieces or parcels of real estate situated in the Towns of Gardiner, Plattekill and Shawangunk, County of Ulster and State of New York, shown on a certain map, entitled, "Northern Aqueduct Department, Section No. 5, Board of Water Supply of The City of New York. GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department; at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
