Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of \$50 will be required with all bids, and that a deposit of \$500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened Nov. 30, 1915," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room K, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

PUBLIC NOTICE IS HEREBY GIVEN PURSUANT to law that at a meeting of the Board of Estimate and Apportionment, held Oct. 8, 1915, the following petition was received:

To the Honorable Board of Estimate and Apportionment of the City of New York.

GENTLEMEN:

The Great Eastern Telephone Company hereby makes application to your Honorable Board for franchise or privilege to do a telephone business in the City of New York, and respectfully shows as follows:

That the Company was incorporated under the Telephone and Telegraph section of the Transportation Corporations Law of the State of New York on October 9, 1905, for the purpose of doing a telephone business, with an authorized capital stock of one million dollars.

That at a special meeting of the Stockholders called for that purpose on April 5, 1909, the Stockholders authorized an increase of the capital stock to fifty million dollars; and that on July 6, 1910, the owners of more than two-thirds of the capital stock of the Company, then outstanding, consented in writing to the execution

of a trust deed to secure an issue of fifty million dollars of 5%, 20-year Convertible Gold Bonds.

That the stockholders of this Company, relying upon the validity of a franchise granted to the New York Electric Lines Company in 1883, as determined in the Court of Appeals (188 New York, 523), entered into contractual relations with said Company, and has spent more than half a million dollars in an earnest effort to establish a modern system of telephony in this city at reasonable rates; but that said franchise has now been declared void by the United States Supreme Court, and we respectfully urge that good faith with our Stockholders, and with more than one hundred thousand subscribers who have contracted for our service, prompts us to petition this Honorable Board for a new franchise under which we may accord the relief heretofore attempted.

That this Company, in order to test the public demand for telephone competition, and establish a basis for its business activities, instituted a partial canvass for subscribers some time since, which resulted in 107,000 contracts for its service, secured in four and one-half months, demonstrating the fact that at least a million subscribers could be secured within the City of New York at reasonable rates.

That the Company owns certain valuable telephone inventions and has contracted for the use of others, which will enable it to install a strictly modern telephone system, with the highest efficiency in articulation, absolutely private, and several times as rapid as the present manual system, which it is able to maintain and operate at rates greatly below prevailing prices.

That, mindful of the policy of the City Government to secure local transportation at a minimum cost, as evidenced by the favorable conditions under which our rapid transit system is now in process of construction, this Company volunteers to meet all conditions now imposed upon other telegraph and telephone companies, and limit the charges it may demand for its business service to from two cents to four cents per message, according to the number of messages contracted for, subject to a discount of not less than 10% for prompt payment, with no extra charge for interborough messages.

That it will establish an unlimited Residential rate of four dollars per month for a private line; three dollars per month for a 2-party line; two dollars per month for a 4-party line, with no extra charge for interborough messages; and a rate of one dollar per month for an unlimited residential service within zones, where several subscribers are served by a single circuit.

That it will establish a Pay Station rate of five cents per message, irrespective of borough boundary lines, applicable to all parts of the City.

That in addition to the Commercial, Residential and Pay Station rates above recited, the Company will handle the official business of the City of New York, as fast as its lines may be extended, at a flat rate of one cent per message, irrespective of borough boundary lines or distances within the City.

That these rates are offered with the understanding that the Company shall pay for its sub-way facilities, where they now exist or where they may hereafter be provided, the legal annual rental paid by other telephone and telegraph companies of \$800 to \$1,000 per mile of duct space, in addition to the legally assessed taxes upon its property and franchise; but that otherwise no greater burdens may be imposed upon it than are now imposed upon other telegraph and telephone companies operating within the City.

That the rates proposed are substantially 40% below present prices, affording a saving to the public of more than \$8,000,000 a year in exchange service and interborough charges, based upon the present use of the telephone, and that the cheaper rates proposed will undoubtedly increase the use of the telephone, with a corresponding saving to the public.

That the rate of one cent per message to the City for official business is substantially 72% below what the City has been paying, interborough charges considered, or a saving to the City of about \$205,000 a year after discounts have been deducted, to which should be added between \$600,000 and \$700,000 for subway rental in Manhattan and The Bronx, when the system shall have been completed, affording a direct and indirect revenue to the City of more than \$800,000 a year, besides the taxes levied upon its property and franchise.

That the same interests that control the policy of the Great Eastern Telephone Company have spent more than five hundred thousand dollars in the construction of telephone properties adjacent to New York City, with plants in operation as near as Peekskill on the north, and Perth Amboy on the south, with right-of-way to the Yonkers City line on the north and from Philadelphia to the foot of Morgan Street on the North River in Jersey City.

That this entire expenditure in excess of \$1,000,000 in suburban construction, engineering plans, securing City subscribers and the effort to establish reasonable rates in this City, is a fair indication of our consistent effort to a most desirable solution of the telephone question.

That contracts have been executed with this Company insuring long-distance connections with at least two million independent telephones within talking distance of New York, at present excluded from our markets for lack of a local independent system with which to connect, placing the Metropolis to a commercial disadvantage when compared with Philadelphia, Buffalo, St. Louis, and over three thousand other municipalities where competition has been established.

That there is a demand for another telephone system in this City is shown by the fact that there are now but 203,000 contracts in a population of 5,583,871; that with a claim of 568,000 telephones in operation, the last directory contained but 214,761 business and 127,234 residential listings, showing 138,995 more listings than contracts, and that 365,000 of the telephones claimed are extensions, hotel or apartment house instruments. That in Manhattan and The Bronx there is but one business listing to 20 people (5%) and one residential listing to 52 people, or about 2%. In Brooklyn and Queens there is one business listing to 47 people (about 2%) and one residential listing to 37 people (practically 3%). Richmond has one business telephone to fifty-one people (2%) and one residential telephone to twenty-one of its population, or about 5%.

That under the terms of the proposed franchise every objection to a duplicate telephone system is obviated. The cheaper rates place the telephone within the reach of substantially 1,000,000 families and 340,000 small business concerns now deprived of its benefits because of excessive rates, while adding no burden to those employing the present system. As all service is "measured," every message diverted to the new system carries a proportionate reduction in price, so that those whose business may be benefited by a wider range of communication will find that BOTH SYSTEMS ARE CHEAPER THAN ONE at the present time, and that the subscriber who can divert one-half of his business to the new system will pay practically 20% less for both systems than he now pays for one.

That the Company will promptly accept the franchise, make its engineering plans conform to present conditions, and apply for space in the conduits within ninety days; begin the construction of its system within six months from the allotment of space in the conduits, and complete at least one exchange with a capacity of at least ten thousand telephones within one year thereafter.

after, official delays and delays caused by litigation excepted.

Your petitioner therefore requests that a day be set for a public hearing upon the application as required by law.

All of which is respectfully submitted.
GREAT EASTERN TELEPHONE COMPANY, D. A. REYNOLDS, President.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of the City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or the appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs, and will indemnify and save harmless The City of New York its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, protecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
