DEPARTMENT OF PARKS.

Report for the Quarter Ending September 30, 1905.

Office of the Department of Parks, Boroughs of Brooklyn and Queens,
Litchfield Mansion, Prospect Park, Brooklyn,
October 1, 1905.

Hon. GEORGE B. McCLELLAN, Mayor of The City of New York:

Sir—I have the honor to submit to you herewith, in accordance with the provisions of section 1544 of the Charter, a quarterly report of the proceedings and finances of the Department of Parks, Boroughs of Brooklyn and Queens, from July 1 to September 30, inclusive, 1905.

Very truly yours,

M. J. KENNEDY, Commissioner.

Statement of Work Performed by the Department of Parks of the Boroughs of Brooklyn and Queens During the Three Months from July 1 to September 30, 1905.

The quarter just ended was characterized by more work of a constructive character than ever in the history of the Department. Many new buildings are in process of erection, including the new boat-house, a shelter-house on the parade grounds for the athletes, a golf-house at Forest Park, and comfort shelter-houses in Fort Greene Park, Bedford Park, Irving Square Park, Bushwick Park, Carroll Park and Cooper Park. In most instances the buildings will be completed before the end of the year.

The paving with asphalt of Pitkin avenue, for which a contract was awarded, is well under way; the contract price being about thirty-five thousand dollars.

The new wall on Ninth avenue, from Fifth to Fifteenth streets, has been started and will likewise be completed before the cold weather sets in.

Prospect Park.

Prospect Park has been beautified in several places. Among the work accomplished was the construction of a driveway flanked by new brick gutters in the rear of the flower garden shelter, the replacing of 6,300 feet of cobblestone and tar gutters laid on a brick foundation, the raising of the low portion of the park drive near the Ocean avenue gate, and the installation of a number of new sewer basins and a considerable amount of drain pipe. The roads were repaired and partly resurfaced where necessary, and several thousand yards of top-soil were deposited in various parts of the park. The wall at the foot of the flower garden has been partly reconstructed and otherwise repaired, and a new ornamental bronze railing placed upon it. A cement sidewalk was laid along the easterly side of Prospect Park, West, from the main entrance to Fifth street, and the borders have been sodded, seeded and otherwise improved. As soon as the new ornamental boundary wall now being constructed from Fifth street to Fifteenth street is completed, it is the intention to continue the cement sidewalk along that portion.

The greenhouses have been enlarged by the erection of four new sections which are nearly completed. All the summer flowering plants throughout the park system have been taken up, and those worth saving reserved for next year's planting. The flower beds have been prepared and gotten ready for the planting of the bulbs, which will occur during the month of October. The improvement and the rebuilding of the shore line of the lake was continued and has been completed for a distance of about 4,000 feet. The waters of the lake have been kept in good condition.

The new bear cage and bird cage have been surrounded with an asphalt tile walk, and suitable connections with the older walk system have been made.

Fort Greene Park.

At Fort Greene Park considerable work in the line of improvement has been done. A quantity of soil has been secured and spread where most needed; preparations have been made for the planting of a large number of flowering shrubs to replace those which have died or been destroyed. About thirty-five hundred linear feet of new grass borders were laid and the same have been trimmed, watered and now present a fine appearance.

City Park.

Besides the regular work of maintenance, such as cleaning walks, cutting grass, cutting out dead wood, etc., much work of a permanent nature was done in this park during the quarter just past. The slopes and lawns adjoining walks were regraded, partly covered with top soil, seeded and the edges sodded. Two new basins were built and properly connected. The space between the new sidewalks and the fence surrounding the park was graded, covered with top soil and otherwise improved.

Williamsburg Bridge Park and Playground.

Williamsburg Bridge Park and Playground was further improved and put in good condition. Thirty loads of good top soil were spread, a large area was seeded, the borders where worn were resodded and the trees pruned. About three hundred feet of wire fence were erected and the iron picket fence surrounding the playground scraped and painted. The gymnasium was equipped, put in operation and is well patronized.

Sunset Park.

The improvement of this park was continued. The sidewalks on Forty-first street and on Seventh avenue were graded, and the slopes adjoining same modified. An area of about three acres was graded, plowed, covered with top soil, seeded, the edges sodded and the walk system further extended. The borders of the lake were repaired and improved.

Highland Park.

A great amount of work in the line of permanent improvements was done in this park. The road leading from the main portion of the park down to Jamaica avenue was practically rebuilt and is now in good condition. The portion of the road leading to Cypress avenue was widened and the roads in general gone over and resurfaced. The sod gutters were repaired, tamped and rolled. About five thousand three hundred square feet of sods were laid, and a fair area covered with top soil and seeded.

The flower garden received a great deal of attention, some of the flowering stock being taken up and replaced by autumn flowers. Several hundred tulip and hyacinth bulbs were planted for the spring display.

Forest Park.

Besides the usual maintenance work, the golf links were continued, the course and the greens were further improved and are now in excellent condition. The sidewalk on Woodhaven avenue, leading from the park, was graded and covered with limestone screenings. The roadway from Woodhaven avenue to Metropolitan avenue, a distance of a mile and a half, was resurfaced and rolled, and the section known as the "Horse-shoe" macadamized.

The work in the nursery comprised the propagation of over seventy thousand plants which will be used for the spring and early summer planting in the various parks throughout the system.

Bushwick Park.

Bushwick Park is being practically rebuilt. A large quantity of deformed and dead trees have been taken up and will be replaced early in the fall. Quite a quantity of shrubbery has been moved and is being displayed to better advantage. Gaps in the privet hedge surrounding the park have been filled, and it is my intention to reseed the entire park at the earliest opportunity. The growth of trees, shrubs and flowers has been greatly retarded on account of the poor quality of the soil.

Winthrop Park.

Winthrop Park, lying in the section of the city known as Greenpoint, likewise suffers from lack of good, nourishing soil, and preparations are now under way to treat it in the same manner as Bushwick Park. During the term it was well maintained, and throughout the warm weather was a boon to the people of the neighborhood.

Seaside Park.

Seaside Park, lying at the foot of the Ocean parkway, fronting the Atlantic Ocean, has been a source of delight to its visitors. The floral display during August and early September was superior both in size, quality and color of flowering plants than ever before attempted. A considerable quantity of top-soil or garden mould has been delivered already and will be used in the fall and in early spring to raise some of the lower portions of the park and form an embankment along the Coney Island Concourse so as to keep out the dirt and sand. The embankment is to be planted with a privet hedge, and it is expected will add materially to the attractiveness of this popular park.

Small Parks in Brooklyn.

The smaller parks, such as Carroll, Red Hook, McKinley, Fort Hamilton, Bensonhurst, Bedford, Lincoln Terrace, Saratoga Square, Irving Square and Cooper Parks have been maintained in a manner entirely satisfactory to the public.

Small Parks in Queens.

The parks in Long Island City, College Point, Flushing, Corona and Jamaica received careful attention and a number of smaller improvements made wherever advisable.

New Parks.

The two new parks, McLaughlin Park and Fulton Park, are rapidly nearing completion. The grading is finished, the drainage and irrigation systems are practically installed, and a large quantity of top-soil has been delivered and spread in Fulton Park which will soon be planted. McLaughlin Park will be used as a playground and will fill a long felt want in that densely populated section.

Parkways.

Shore Road—The work of widening the Shore road has been substantially completed. It presents an attractive appearance. A new fence along the top of the banks is in process of erection; the trees and shrubs growing on the banks of the lower portion of the road near Fort Hamilton have been carefully gone over, dead trees have been removed and the others pruned and kept in good condition.

Ocean Parkway—The rebuilding of the westerly traffic road between Coney Island and Kings Highway was continued and completed. The bridge path was resurfaced with fine gravel and loam from Kings Highway to Prospect Park. The bicycle paths and the main drive were repaired where necessary. The traffic road between Kings Highway and Prospect Park was repaired in numerous places and thoroughly cleaned. The Speedway was harrowed daily, sprinkled and maintained in good condition. Arrangements have been made to resurface the main drive between Parkville and Prospect Park.

Bay Parkway was repaired in several places, sprinkled in dry weather and kept clean. The gutters were freed from weeds and other objectionable matter; the walks trimmed and otherwise taken care of.

Fort Hamilton Avenue—Repairs to the roadway were continued throughout the quarter, and the entire driveway was kept in a clean and neat condition. Cement sidewalks were laid on both sides of the parkway between Fort Hamilton and Gravesend avenues.

Eastern Parkway Extension—The resurfacing of the main roadway with limestone and Hudson River road gravel was continued, and it is expected that the entire parkway will be in first class condition before the cold weather sets in.

Pitkin Avenue—A contract has been let for the repaving of Pitkin avenue, between Stone avenue and the Eastern parkway, and work thereon is progressing in a satisfactory manner as reported above.

The Parkway System.

Glenmore avenue has been repaired and kept clean, and the same is true of Bushwick avenue, Highland Boulevard, Stone avenue and Pennsylvania avenue.

The roadways throughout Dyker Beach Park have been resurfaced and are now in good condition.

The pavement on Pennsylvania avenue, consisting of vitrified brick laid in 1895, shows serious signs of disintegration and must be renewed before long. I intend to apply to the Board of Estimate and Apportionment for funds to repave the same with asphalt blocks.

The mechanical department has been kept busy throughout the quarter making repairs to rolling stock, sprinklers, steam rollers, as well as building fences, etc. The addition to the greenhouses in Prospect Park, the greenhouse in Forest Park, the gutters in Prospect Park, the walks around the bear and bird cages, and all the work of construction in Fulton Park were carried on by the forces of this Department.

The Arboriculturists and their forces besides attending to their duties in the parks and on parkways in cleaning, spraying, pruning and maintaining shrubbery and trees, were called upon to attend to trees throughout the city streets in both boroughs, although there was no special amount granted for that purpose in this year's Budget. The courts having decided in several instances that the City owned the streets from building line to building line, it was held that this Department is responsible for their condition.

Concerts in the Parks.

The concerts in Prospect and the smaller parks, after a most successful season, closed on September 24. Music was given every Sunday in Prospect Park during the months of July, August and September, in addition to those in June noted in my last report. Altogether thirty-one (31) concerts, attended by close on to half a million people, were given in Prospect Park, and fifty-two (52) in the smaller parks. A concert was given every Sunday during the same period at Highland Park. To say that these concerts were highly appreciated by the people of Brooklyn and visiting boroughs, is no exaggeration. This was notably the case at the closing concert in Prospect Park, when the United German singers of Brooklyn, numbering over four hundred (400), rendered a fine programme in conjunction with Shannon's Twenty-third Regiment Band. It is estimated that between fifty thousand (50,000) and sixty thousand (60,000) people were present. I desire to extend my thanks to the members of the various singing societies, comprising the United German Singers, for their efficient services.

Revenue from Parks and Parkways.

During the three months from July 1 to September 30, 1905, inclusive, the sum of three thousand four hundred and sixty-four dollars and forty-five cents (\$3,464.45) was received from rents of houses and revenue from park privileges, bay windows and sale of park property, which amount was turned over to the Hon. Patrick Keenan, City Chamberlain, for deposit to the credit of the "Revenue Fund."

Finances.

PROCEEDINGS OF THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS.

AT A MEETING OF THE BOARD HELD IN NO. 320 BROADWAY ON THURSDAY, THE 2D OF NOVEMBER, 1905.

There were present—Alexander E. Orr, President, presiding; John H. Statin, Vice-President; Comptroller Edward M. Grout and Commissioners Woodbury Langdon, Charles Stewart Smith, Morris J. Jesup and John Claffin.

George L. Rives and Albert B. Boardman, Counsel; George S. Rice, Chief Engineer, and Alfred Craven, Deputy Chief Engineer, also were present.

The minutes of the meeting of October 12, 1905, were read, and it was moved that they be approved.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith, Jesup and Claffin.

Nays—None.

Carried.

The following communication of the Rapid Transit Subway Construction Company and draft of agreements were presented and the following resolution was moved:

RAPID TRANSIT SUBWAY CONSTRUCTION COMPANY,
No. 23 NASSAU STREET,
NEW YORK CITY, October 2, 1905.

ALEXANDER E. ORR, Esq., President, Board of Rapid Transit Railroad Commissioners,
No. 320 Broadway, New York City:

DEAR SIR—A portion of the rapid transit railroad under construction pursuant to the contract between this company and The City of New York, dated July 21, 1902, viz.: The line from City Hall to and including the South Ferry station, is now being operated by the Interborough Rapid Transit Company in connection with the road included in Contract No. 1, pursuant to permission granted by resolutions of your Board adopted June 29, 1905.

It has always been in contemplation that the lease part of that contract, including the obligation to provide the equipment, should be assigned to the Interborough Rapid Transit Company—Rapid Transit Subway Construction Company being only a business corporation, and designed as a contracting company, not as an operating company. I, therefore, hand you a form of assignment from Rapid Transit Subway Construction Company to Interborough Rapid Transit Company, and also the form of agreement between The City of New York (acting by your Board), Rapid Transit Subway Construction Company and Interborough Rapid Transit Company, which instruments are intended to accomplish the assignment of such leasing part of Contract No. 2, including the obligation to provide equipment. These instruments are in the same form which was adopted in transferring the lease part of the McDonald contract to Interborough Rapid Transit Company, and which had the approval of your Board.

I beg to request that your Board will authorize these agreements to be executed, and upon being advised of the adoption of a resolution to that effect by your Honorable Board these companies will execute the same.

I remain,

Yours very truly,
(Signed) AUGUST BELMONT, President.

Agreement made this day of August, 1905, by and between The City of New York (acting by its Board of Rapid Transit Railroad Commissioners), party of the first part, Rapid Transit Subway Construction Company, a corporation duly organized and existing under the laws of the State of New York, party of the second part, and Interborough Rapid Transit Company, a corporation duly organized and existing under the laws of the State of New York, party of the third part, witnesseth:

Whereas, The said Rapid Transit Subway Construction Company heretofore entered into a contract with The City of New York (acting by the Board of Rapid Transit Railroad Commissioners for The City of New York), bearing date the 21st day of July, 1902, for the construction, equipment and operation of a rapid transit railroad in The City of New York, which contract (hereinafter called Rapid Transit Contract No. 2) was thereafter modified by certain agreements supplemental thereto and amendatory thereof; and

Whereas, The said Rapid Transit Subway Construction Company has assigned, or is about to assign, unto Interborough Rapid Transit Company, by an instrument bearing even date herewith, with the consent in writing of the sureties upon the bond given by said Rapid Transit Subway Construction Company, pursuant to said contract, so much of the said contract as provides for the maintenance and operation of the railway therein described, including the obligation to provide all equipment for the same, subject to all the terms and conditions in said contract contained with respect to such maintenance and operation, and with respect to the equipment of the said railroad, to which assignment reference is hereby had, and the said parties have requested the said Board of Rapid Transit Railroad Commissioners to consent to the said assignment, as provided by law; and

Whereas, The said Board of Rapid Transit Railroad Commissioners is willing to consent to such assignment, but only upon the execution and delivery to said Board for said City of this instrument;

Now, therefore, in consideration of the premises and of the covenants hereinafter contained, The City of New York, by its said Board of Rapid Transit Railroad Commissioners, hereby consents to the said assignment to Interborough Rapid Transit Company and to the execution of the said instrument bearing even date herewith.

And the said Interborough Rapid Transit Company hereby covenants to and with The City of New York that it is and shall hereafter in all respects be bound to The City of New York with respect to the equipment of the said railroad mentioned in the said instrument and every portion thereof, and all obligations whatsoever of the contractor under or by reason of the leasing provisions of said Rapid Transit Contract No. 2, and all obligations thereof or thereunder which relate in any way to the maintenance or operation of the railroad in the said rapid transit contract described, and does hereby agree to carry out and perform each and every of the said obligations as fully as the contractor has been or is bound to do in and by the said Rapid Transit Contract No. 2. And the said Interborough Rapid Transit Company further covenants to and with the City that the said Rapid Transit Subway Construction Company, its successors and assigns, shall fully perform all the obligations and comply with all the provisions and terms of said contract which are not assigned to and assumed by said Interborough Rapid Transit Company in and by the said instrument bearing even date herewith.

This agreement shall bind the parties hereto, their respective successors and assigns.

Provided further, and it is expressly agreed that this agreement shall take effect when, and only when, the following consents hereto and approvals hereof shall be duly had, to wit, the consents as subjoined of the Fidelity and Deposit Company of Maryland, the United States Fidelity and Guaranty Company, the National Surety Company, the Aetna Indemnity Company and the Empire State Surety Company.

In witness whereof the party of the first part has caused these presents to be duly executed by its said Board of Rapid Transit Railroad Commissioners under the seal of the said Board, and the parties of the second and third parts, respectively, have caused these presents to be duly executed by their proper officers under their corporate seals the day and year first above written.

(Signed)

THE CITY OF NEW YORK, BY THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS OF THE CITY OF NEW YORK,
By President.

This agreement made the day of August, 1905, by and between Rapid Transit Subway Construction Company, a corporation duly organized and existing under the laws of the State of New York, hereinafter called the "Contractor," party of the first part, and Interborough Rapid Transit Company, a corporation duly organized and existing under the laws of the State of New York, hereinafter called "Interborough Company," party of the second part; witnesseth:

Whereas, The contractor heretofore entered into a contract with The City of New York (acting by the Board of Rapid Transit Railroad Commissioners for The City of New York), bearing date the 21st day of July, 1902, for the construction, equipment and operation of a rapid transit railroad in The City of New York, which contract was thereafter modified in certain particulars by agreements between the said parties supplemental thereto and amendatory thereof, which agreements bear date the 23d day of December, 1904, and the 9th day of June, 1905, respectively, the said contract and agreements amendatory thereof and supplemental thereto being together hereinafter referred to as rapid transit contract No. 2; and

Whereas, Interborough Company was duly organized under the Railroad Law of this State for the purposes, among other things, of maintaining and operating the

said railway, and has been approved in writing by the said Board of Rapid Transit Railroad Commissioners, pursuant to the provisions of chapter 4 of the laws of 1891, as amended by chapter 544 of the Laws of 1902, and the contractor desires to assign and transfer unto Interborough Company, and Interborough Company desires to accept an assignment of so much of rapid transit contract No. 2 as provides for the maintenance and operation of the said railway, including the obligation to provide the equipment for the same, subject to all the terms and conditions in said contract contained with respect to such maintenance and operation, and with respect to the equipment of the said railroad.

Now, therefore, in consideration of the premises, and for a valuable consideration by Interborough Company to the contractor in hand paid, the receipt whereof is hereby acknowledged, the contractor has sold, assigned, transferred, conveyed and set over, and does hereby sell, assign, transfer, convey and set over unto Interborough Company so much of rapid transit contract No. 2 as provides for the maintenance and operation of the said rapid transit railroad in said contract described (including the equipment thereof), and does hereby assign unto Interborough Company the right or obligation to maintain and operate the said road or roads in rapid transit contract No. 2 described, for and during the remainder of the term of years specified in such contract, and all rights with respect to such maintenance and operation, or included in the leasing provisions of such contract, subject to all the terms and conditions therein stated, together with all obligations assumed by the contractor in and by the said rapid transit contract No. 2 with respect to the equipment of the said railroad; and from and after the execution hereof Interborough Company shall be entitled to have and receive all sums of money due or to come due from The City of New York under said contract for the equipment of the said railroad or any part thereof, and for the maintenance and operation of the same, and shall have and enjoy all the rights, privileges, emoluments and benefits arising under or because of the provisions for the equipment of said railroad, and for the maintenance and operation thereof as in said contract provided, as fully as the contractor might or could have and enjoy if this assignment were not made.

Interborough Company on its part does hereby assume all of the obligations of the contractor under or by reason of rapid transit contract No. 2 with respect to the equipment of the said railroad and every portion thereof, and all obligations whatsoever of the contractor under or by reason of the leasing provisions of said contract; and all obligations which relate in any way to the maintenance and operation of the said railroad in said contract described, and does hereby agree to carry out and perform each and every of the said obligations as fully as the contractor has been or is bound to do in and by the said contract.

Interborough Company further agrees to well and truly indemnify and save harmless the contractor of and from any liability, claim or demand arising under such portions of the rapid transit contract No. 2 as are hereby assigned, or any portion thereof.

This agreement shall bind the parties hereto, their respective successors and assigns.

It is, however, understood and agreed that this assignment shall not take effect until the same shall be consented to in writing by the said Board of Rapid Transit Railroad Commissioners, and such assignment and consent shall in no respect affect the security or securities for the performance of the rapid transit contract No. 2 or any part thereof by the contractor.

Provided, further, and it is expressly agreed that this agreement shall take effect when, and only when, the following consents hereto and approvals hereof shall be duly had, to wit, the consents as subjoined of Fidelity and Deposit Company of Maryland, the United States Fidelity and Guaranty Company, National Surety Company, the Aetna Indemnity Company and the Empire State Surety Company.

In witness whereof the party hereto of the first part has hereunto set his hand and seal, and the party hereto of the second part has caused these presents to be duly signed by its proper officer under its corporate seal the day and year first above written.

Communication of the Comptroller, inclosing copy of claim No. 46942 by the Realty Company of America for the sum of \$120,000, alleged to be due for damages to premises between Eighty-fifth and Eighty-sixth streets on the west side of Broadway, was presented as follows and referred to the Chief Engineer and Counsel for report:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 26, 1905.

Hon. ALEXANDER E. ORR, President, Rapid Transit Railway Commission:

SIR—I transmit herewith copy of claim No. 46942 filed in this Department by the Realty Company of America, for the sum of \$120,000, alleged to be due for damages occasioned to premises on the west side of Broadway, between Eighty-fifth and Eighty-sixth streets, owing to delay in the construction of the Rapid Transit Railway.

I would be pleased to receive from you any information you may have concerning said claim.

Respectfully,

(Signed) N. TAYLOR PHILLIPS, Deputy Comptroller.

(Copy of Claim No. 46942.)

To EDWARD M. GROUT, Esq., Comptroller of The City of New York:

SIR—Please take notice that the Realty Company of America, a corporation organized and doing business under the Laws of the State of New York, has a claim against The City of New York for the sum of one hundred and twenty thousand dollars, as damages sustained during the period from June 20, 1900, to August 1, 1902, under the following circumstances:

During the said period and thereafter the Realty Company of America and Herbert Dongan, the assignor of said Realty Company of America, were successively the owners in fee of the premises on the west side of Broadway, in the Borough of Manhattan, City of New York, extending from Eighty-fifth to Eighty-sixth streets, and being in depth 105 feet 1 inch on Eighty-fifth street, and 119 feet 6 inches on Eighty-sixth street, and the owners of the building and improvements upon the said premises, such building and improvements consisting of a seven-story modern, high-class elevator apartment house.

In pursuance of an act of the Legislature of the State of New York, to provide for rapid transit railways, and the construction thereof, and the several acts amendatory thereof, and supplemental thereto, on or about February 21, 1900, The City of New York entered into a contract with one John B. McDonald, for the construction on behalf of the said City, of a rapid transit subway and railway, which subway and railway was to be constructed partly under and through Broadway, between Eighty-fifth and Eighty-sixth streets, in the Borough of Manhattan, in The City of New York. During the said period, the said contractor, John B. McDonald, through his sub-

contractor, William Bradley, caused large excavations to be made in and around the highway on Broadway, adjacent to the said premises, and caused rocks, dirt and other material to be removed from the said highway, and to be piled along the same, and caused building material, structures and various kinds of other property to be placed and kept along the said highway adjacent to the said premises, and maintained the said highway in an open, excavated and dangerous condition during the said period from August 1, 1900, to August 1, 1902. During the said time, the tenantability of the said premises owned as aforesaid was greatly impaired and interfered with, owing to the impassable condition of the highway, the odors and dirt caused by its said condition, the vibrations caused by improper blasting; that the foregoing condition of affairs constituted a serious and harmful nuisance and the said work thus being conducted was negligently, carelessly, improperly and unlawfully carried on; that the said highway was kept in the said open, dangerous and offensive condition for a much longer period than the nature of the work, or the conditions under which the same was carried on, required, and the duration of the same exceeded the length of time within which, under the contract between The City of New York and the said contractor, the said work was required to be finished. The City of New York failed to avail itself of its rights under the said contract to abate and terminate the condition of affairs above described. The duty of The City of New York as to the said highway adjacent to the premises so owned by the Realty Company of America, and by Herbert Dongan, the assignor of the said Realty Company of America, was a matter of public and general concern, and its duty was to prevent the existence of, or continuance for an unreasonable length of time, of the condition of affairs above mentioned.

That by reason of the foregoing, the said owners of the said premises sustained loss of rentals and income from the said property, and other damage to property rights, amounting to the sum of one hundred and twenty thousand dollars.

That the title to said premises and buildings was vested in the said Herbert Dongan from the 20th day of June, 1900, to the 21st day of February, 1903, on which date a deed of the said premises, made and executed by the said Herbert Dongan to the Realty Company of America, was duly recorded in the office of the Register of the County of New York. That thereafter the title to the said premises was vested in the Realty Company of America. That the said Herbert Dongan for value received, duly assigned and transferred to the Realty Company of America any and all claims, demands and causes of action of every nature that he might have against The City of New York, or against John B. McDonald, or against the said William Bradley, or against any other persons, firms or corporations, due to or in any way arising from the construction, manner of construction, maintenance and operation of the said underground railroad, or from the existence of the facts and matters above set forth.

By reason whereof the Realty Company of America demands the payment of the sum of one hundred and twenty thousand dollars, and hereby signifies its intention of instituting suit to enforce its rights, unless an adjustment or payment thereof is made.

(Signed) ROSE & PUTZEL,

Attorneys for the Realty Company of America.

Communication, as follows, of the Comptroller was presented and the following resolution was moved:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 12, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Board of Rapid Transit Commissioners in a communication dated June 14, 1905, transmits a copy signed by Frank Thorn, attorney and counsel-at-law, No. 171 Broadway, New York City, in which the said Thorn offers to the Board of Rapid Transit Commissioners to sell the easements in front of the premises to construct, maintain and operate an elevated railway along the front of said lots, providing The City of New York pays at the rate of \$10 per running foot front.

Offer of Frank Thorn.

Westchester avenue, Lots Nos. 48 and 49, Block 2690, frontage 50 feet; Frank Thorn, attorney; Helene Morison, owner.

The two lots in question, known as Lots Nos. 48 and 49, in Block 2690, Section 10, on the land maps of the County of New York, have not been, as far as this office can discover, heretofore acquired.

I would respectfully recommend that the Board of Rapid Transit Commissioners adopt a resolution authorizing the acceptance of the offer of the owners of the property of all easements of light, air or access appurtenant to any of the said several pieces or parcels of land which may have been, or which may hereafter be, taken or damaged in whole or in part by the construction, maintenance or operation in, upon or over the said Westchester avenue of the Rapid Transit Railroad, in accordance with the routes and general plan prescribed by the Board of Rapid Transit Commissioners for The City of New York, by resolutions adopted January 14, 1897 and February 4, 1897, providing a satisfactory title can be secured by grant or release, the consideration to be in each case ten dollars (\$10) per running foot frontage, or portion thereof, as may be certified to by the Corporation Counsel after an examination of the title.

Respectfully submitted for approval,

(Signed) MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

Approved:

EDWARD M. GROUT, Comptroller.

The following resolution was moved:

Resolved, That this Board, for and in behalf of The City of New York, do acquire from:

Frank Thorn, attorney; Helene Morison, owner; Westchester avenue, Lots Nos. 48 and 49, Block 2690, foot frontage 50 feet.

—the owner of certain property described above, all easements of light, air or access appurtenant to either of the said pieces or parcels of land which may have been or which may hereafter be taken or damaged, in whole or in part, by the construction, maintenance or operation in, upon or over the said Westchester avenue of the Rapid Transit Railroad, in accordance with the routes and general plan prescribed by the Board of Rapid Transit Railroad Commissioners for The City of New York, by resolutions adopted January 14, 1897, and February 4, 1897, providing a satisfactory title can be secured by grant or release, the consideration to be, in each case, ten dollars (\$10) per running foot frontage or portion thereof, as may be certified to by the Corporation Counsel after examination of the title.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith, Jesup and Claflin.

Nays—None.

Carried.

Communication of the Corporation Counsel was presented as follows, and it was understood that a voucher would be drawn in due form on the Comptroller for the easements in question:

LAW DEPARTMENT—OFFICE OF THE CORPORATION COUNSEL,
NEW YORK, October 19, 1905.

Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, New York City:

GENTLEMEN—I have caused the title to premises situated on the northeast corner of Boston road and One Hundred and Seventy-ninth street, being 112 and 21-100 feet frontage, to be examined, and find that title thereto is vested in Peabody Home Reformed Relief Association for Aged Women, which corporation can convey the easements necessary for the construction, maintenance and operation of an elevated railroad in front of said premises, upon securing the permission of the Supreme Court, which will be obtained before the matter is closed.

Respectfully yours,

(Signed) JOHN J. DELANY, Corporation Counsel.

Letter, as follows, of Mary S. Taylor, offering to release easements to premises No. 2388 Southern Boulevard, was presented and referred to the Comptroller for investigation and report:

No. 552 CENTRE STREET,
SOUTH ORANGE, N. J., October 21, 1905.

Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, New York City:

GENTLEMEN—I, Mary S. Taylor, owner of No. 2388 Southern Boulevard, in New York City, being in Section 11, Block 2981, of the Land Map, and shown by the diagram

below, hereby give you the option to pay me fifteen dollars (\$15) a running front foot of said premises, in return for which I will give to The City of New York or other proper party a release appurtenant to said premises for the purpose of allowing the running and maintenance of an elevated road. This option is simply for the purpose of adjusting this matter in this way, but otherwise is to be without prejudice in any way to me.

Preliminary report of George A. Soper, Ph. D., as to sanitary investigation of the air in the subway was presented as follows, and it was understood that a copy of the same would be transmitted to the Board of Health, and that the Chief Engineer would communicate with the Interborough Rapid Transit Company concerning such matters therein as seem to require its immediate attention:

PRELIMINARY REPORT OF A SANITARY INVESTIGATION OF THE AIR OF THE NEW YORK RAPID TRANSIT SUBWAY, COVERING THE MONTHS OF JULY TO SEPTEMBER, INCLUSIVE.

ALEXANDER E. ORR, Esq., President, Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, New York:

SIR—In order to convey a clear idea of the results so far obtained in my investigation of the sanitary condition of the air of the subway, it will be desirable first to consider briefly the scope of the investigation and then proceed directly to the conclusions. A more detailed account of the methods and data and a full interpretation of them will be reserved for my final report.

Scope of the Investigation.

The principal questions investigated have been the temperature, humidity, odor, bacteria and dust of the air of the subway. In studying each of these subjects the plan has been to obtain an accurate knowledge of, first, the conditions which actually exist; second, the causes of these conditions; third, what, if any, is the remedy required.

No attempt has been made to devise a comprehensive system of ventilation or cooling, this being understood to be beyond the scope of the service desired of me. My single expression of opinion in this direction has been that considerable benefit would result if provision could be made for larger and more direct openings from some of the subway stations to the outside air. In the present report this statement is repeated and supplemented by the opinion that the ultimate solution of the problem of a cool subway must lie in mechanical improvements which will prevent the production of the heat through a more economical employment of the power used to operate the road.

Experiments with fans and other ventilating devices, carried on under Mr. Rice's direction, have been observed by me, and their effects, as far as determinable by my analyses of the air, have been reported to him.

Principal Results of the Investigation.

Regarded as a whole, the results so far obtained contain little cause for alarm concerning the sanitary condition of the air of the subway. During the period of my observations the air has been renewed with sufficient frequency to assure an ample supply of oxygen and prevent the detection of unpleasant odors due to the large number of people who have been present in the subway. Odors from other causes have, however, occurred. The principal objection to the air has been its high temperature. The sanitary significance of the presence of black dust and of the bacteria which are contained in the air, however, still remains to be settled.

Heat and Humidity—Throughout the period of this investigation the subway has been decidedly warmer than the outside air. The average temperature for the daytime for the three months was, for the subway, 79.8 Fahrenheit, and for the air in the streets, 72.8 Fahrenheit; difference 7 Fahrenheit. The highest temperature observed in the subway was 90.6 Fahrenheit.

The hottest week was that of August 4 to 10, inclusive. The average daily temperature for the subway during this time was 83.1 Fahrenheit. For the outside air it was 73.2 Fahrenheit, the difference being 9.9 Fahrenheit. The maximum temperature observed in the subway this week was 88.5 Fahrenheit; in the streets, 88.2 Fahrenheit.

The air of the subway has generally been less humid than the air of the streets. The average humidity for the three months was 56.2 per cent. The hottest week was also the most humid in the subway, the percentage of relative humidity having been for the week of August 4 to 10, 75.2 per cent.

The high temperature of the subway is due chiefly to the amount of power which, in one way or another, is converted into heat in operating the road. Most of it comes from the motors and friction brakes on the cars. Theoretically, it represents wasted energy. No remedy seems ready to hand for this trouble. It is a new difficulty in the operation of subways, and is attributable to the large amount of electric power used on the road. The most hopeful direction to seek immediate relief from the heat lies, in my judgment, in the alteration of some of the stations so that greater benefit will result from the combined ventilating effect produced by the movement of the trains and the breezes of the streets. Had it not been for the flushing action which was produced already in this way the subway would undoubtedly have been much warmer last summer.

It would seem that the ultimate solution of the difficulty of overheating must lie in mechanical improvements which will prevent the production of so much heat through the great loss of energy which now occurs when the trains are stopped and started. A subject which seems worthy of consideration in this connection is the idea of regenerative control. Again, a lower speed from station to station would prevent the production of so much heat from the motors and brake shoes. This should be possible without sacrificing the actual running time, by improved means of loading and unloading the cars.

Ventilation—There has been, on an average, far more fresh air in the subway than is necessary to satisfy the standards established by sanitary authorities for theatres, halls and other places of assembly. The air in the cars has been somewhat less satisfactory, depending on the amount of crowding. The test employed to measure the amount of ventilation has been the estimation of carbon dioxide present by the method of Pettenkofer. The average of 721 analyses gave, for the air of the subway, 4.58, and for the air of the streets, 3.45 parts of carbon dioxide per 10,000 volumes of air; the difference being 1.13. The largest amount found on any occasion in the subway was 7.81.

There was so slight a difference between the amount of oxygen present in the subway and outside air that the employment of this test as a routine procedure was discontinued after about eighty analyses had been made. The difference between the smallest amount of oxygen found in the subway and the greatest amount found out of doors was .7 per cent. The average for the subway was 20.6 per cent., and for the outside air 20.71 per cent.

The frequency with which the air is changed in the subway is attributable, in my view, to the currents set up by the action of the trains and breezes above ground coming through stairways and other openings to the stations and streets.

Odors—The air of the subway has at nearly all times and places possessed a noticeable odor. There is not, in reality, a single odor, but a number of them. The odors of the subway are attributable principally to conditions due to the newness of the structure and its equipment and are largely susceptible of elimination. They are traceable principally to volatile substances given off by paints, cements, lubricating oil, hot boxes and a chemical deodorant used in the toilet rooms. The presence in the air of black dust is also accountable for a part of what is generally taken to be odor.

Dust—The amount and character of the black dust in the subway is a matter of considerable importance. Chemical analysis of this dust shows that it contains 62.78 per cent. of metallic iron. Microscopic analysis shows that the particles range from fragments which can almost be seen with the naked eye to pieces less than 1-25,000 of an inch in diameter. Most of this pulverized iron is due to the grinding up of brake shoes, the daily loss in weight of which is surprisingly large. Dust of the same kind has made at least one other subway dark and grimy in appearance. In another case the gradual accumulation of iron dust is said to have seriously interfered with the insulation of the electric current.

It is important, in my view, to take notice of the presence of this iron dust, both because of the possibility of its affecting the health of persons who must continually

breathe it, and on account of the black stain which it imparts to the light-colored portions of the subway structure, cars, booths and other furniture, and the persons of the employees and passengers.

Because of the presence of about 1 per cent. of oil which the dust contains it gains secure lodgment upon all surfaces, and, being of a black color, forms an unsightly smudge which is difficult to remove. An amount of this dust which is too small to be weighed with accuracy is capable of producing a black mark upon white linen which can be seen at a distance of twenty feet. If this linen is moistened with perspiration or water, a yellow stain is produced. Straw hats and the light-colored garments worn by passengers of both sexes in summer are therefore liable to be soiled by coming in contact with even small accumulations of the dust. The actual weight of black dust in a cubic foot of the atmosphere at any time is slight. It would undoubtedly be greater if the ventilation of the subway was any less effective. Mainly because of the possibility that it may be injurious to health when breathed continually through long periods of time, the subject of dust and its prevention is now receiving my special attention. It would appear that in order to prevent the formation of the dust a less heavy use of the friction brake would be required.

Bacteria.—There have generally been fewer bacteria in the air of the subway than in the air of the streets, but occasionally there have been more. A study of the results of 2,600 tests shows that the average number of bacteria which were deposited per minute upon a square foot of surface and were subsequently capable of growing at the temperature of the human body was, for the subway, 750, and for the air of the streets, 1,200. Although it is not improbable that the bacteria in the subway belong for the most part to the same species as those above ground, the study of this subject has not yet reached a point which will justify a positive statement concerning its sanitary significance.

Other Sanitary Observations.—A number of sanitary observations of less importance than the foregoing have been made. As a result of these, the three following suggestions are respectfully submitted as especially worthy of your consideration at the present time.

1. That the ballast of the roadbed, which has become saturated with oil from the machinery of the cars and has accumulated a quantity of small refuse from the stations and passengers, should be renewed at the stations, or better, replaced with a smooth concrete surface which can easily be cleaned. In order to protect the roadbed against oil in the future, the use of larger drip pans beneath the cars and more frequent inspections are suggested.

2. That the stations be cleaned and cared for in a more systematic and thorough manner. The suggestions made by the Board of Health with respect to this matter are strongly recommended for adoption, except as to the use of disinfectants; with strict cleanliness these should not, in my judgment, be necessary. A copy of the Board of Health suggestions is herewith appended.

3. That the toilet rooms be equipped with suitable means of ventilation, and that they be kept in a more strictly sanitary condition.

Respectfully submitted,

GEORGE A. SOPER, Ph. D.

October 19, 1905.

Communication of counsel was presented as follows, the president reporting that in the interval between the meetings of the Board he had instructed counsel to take the appeal referred to therein:

NO. 32 NASSAU STREET, NEW YORK, }
October 20, 1905. }

ALEXANDER E. ORR, President, Rapid Transit Commission, No. 320 Broadway:

DEAR SIR—On February 9, 1905, the Board directed us "to take appropriate action to compel the removal of all slot and weighing machines from the stations of the Rapid Transit Railroad." (Minutes, page 3135.)

At about the same time, an action was begun by the Interborough Company against The City of New York and Mr. Ahearn, the Borough President of Manhattan, to restrain the latter from carrying out certain threats he had made to remove this property by force. A temporary injunction was obtained in that case, and a motion was made to continue it until the trial of the action. The Board, in view of this, authorized its counsel to defer any action until a decision on that motion had been handed down. (Minutes, page 3205.)

About the first of May, Mr. Justice Bischoff decided the motion in favor of the Interborough Company upon two grounds: First, that the Rapid Transit Board and not the Borough President had control of the railway; and second, that a doubtful question existed which ought not to be decided against the company before the trial of the action. This decision, of course, left the Interborough Company in undisturbed possession, and it became to their interest to delay all further proceedings in reference to the machines in question. No appeal was taken from Judge Bischoff's order, nor has any effort been made to bring that case to an early trial. If it were tried, the City would very probably be defeated upon the first ground mentioned in the Judge's opinion.

The Board and its counsel, at the time when Judge Bischoff's decision was rendered, were engrossed in the preparation of the new routes (Minutes, page 3363); but as soon as this urgent work was out of the way, an action was begun by the Rapid Transit Board against the Interborough Company to test the right of the latter to maintain the slot machines and weighing machines complained of.

When the action begun by the Board was on the day calendar for trial, the Interborough Company applied to the court for an order staying the trial until the first case had been finally disposed of. This motion was granted by Mr. Justice Stover, although it was fully explained to him that the decision of the case against Mr. Ahearn might very well turn upon the want of power of the Borough President to interfere with the railway.

If Judge Stover's order is allowed to stand, the decision of the merits of the controversy will be seriously delayed and embarrassed.

An appeal will lie to the Appellate Division from the order staying the trial; but as the subject is one that rests largely in discretion, we cannot predict the result with any great confidence. But even if the appeal should prove unsuccessful, we should be no worse off than at present, and the only expense to the Board would be for costs and printing, amounting probably to less than one hundred dollars in all. If, on the other hand, the appeal should prove successful, our printing bills would be repaid by the Interborough Company and we should be able to proceed at once with the trial of the case.

Under these circumstances, we think an appeal is advisable.

Very respectfully yours,

(Signed) G. L. RIVES,
BOARDMAN, PLATT & SOLEY.

Report of Counsel and Chief Engineer, as to computation of rental, Contracts Nos. 1 and 2, was presented as follows, and a copy ordered transmitted, with the schedules inclosed, to the Comptroller:

November 1, 1905.

Hon. A. E. ORR, President, Rapid Transit Board:

DEAR SIR—In accordance with the communication from the Comptroller, dated September 14, 1905, and October 9, 1905, requesting information as to the rent accruing on Contract No. 1 to June 30, 1905, and September 30, 1905, respectively, which were referred to Counsel and the Chief Engineer, we hand you herewith sheets 1604-A and 1604-B, which give this information. It should be noted that while the method used in these sheets is correct, these figures are subject to change, as they are based on tentative figures, which will probably be changed when the final adjustments are made, and hence the acceptance of these present statements by the City and the contractor should be understood not to commit either party to the figures provisionally used in ascertaining the rental due to June 30, 1905, and September 30, 1905, respectively.

The Comptroller also asks to be advised whether any rental is payable to the City under the terms of the contract for the construction of the Brooklyn-Manhattan section of the Rapid Transit Railroad. The facts in regard to this matter are as follows:

The entire Brooklyn-Manhattan railroad is still far from completion. A portion of the road extending from the northern terminus to the Fulton street station, and including the eastern platform of that station, was opened for operation on January 16, 1905. The portion lying between Fulton and Rector streets, including both the east and west sides of the Wall street station, and also the west side of the Fulton street station, was opened for operation on June 12, 1905. The portion lying south of the Wall street station, to and including the South Ferry station, was opened for operation on July 10, 1905. In each case the opening of the several portions of the road was approved by the Board, "subject to the payment of rental as provided in the said contract."

On turning to the contract we find no provision which governs the case where a portion only of the road is put in operation. It is provided that the term of the lease shall run from the date on which the railroad "shall be declared by the Board to be ready for operation" (p. 159).

Rental is to be a sum "equal to the annual interest payable by the City upon all bonds which shall be issued by it to provide means for construction," with certain additions; and its amount is to "be ascertained as of the time when the railroad shall be declared by the Board to be ready for operation, or, if the Board shall so direct, the time when passenger traffic on the railroad shall begin" (p. 160).

The Brooklyn extension is all one section—thus differing from the road contracted for under Contract No. 1, which provided for four sections. In relation, however, to each section provided to be built under Contract No. 1, provision is made in that contract similar to the provision in Contract No. 2, above quoted—for it is provided that the term of the lease as to each of the several sections shall commence when that section shall be "declared by the Board to be ready for operation," and rental is to be ascertained as of the time when the Board shall declare that "such section is ready for operation."

No provision was attempted to be made in either contract for the case when a portion of the entire road (in Contract No. 2) or a portion of an entire section (in Contract No. 1) was declared ready for operation, or where passenger traffic was commenced upon such portion.

Our conclusion is that the subject can only be dealt with as a similar subject was dealt with under Contract No. 1. That is, by the execution of a supplemental contract, clearly defining the rights of the City and of the contractor. In respect to Contract No. 1 such an agreement was executed under date of November 3, 1904, and will be found in the Minutes, pages 2888 to 2891. This supplemental contract, after reciting that the original contract failed to provide fully for ascertaining the rental to be paid in case less than an entire section was declared to be ready for operation, provided in substance that the cost of the portions of sections put in operation should be taken to be such a proportion of the contract price as the total length of single track contracted for might bear to the length of single track put in operation, plus the cost of all extra work included in the part operated, minus the cost of all work omitted therefrom. It seems to us that the rental in respect to the portions of the Brooklyn-Manhattan road now in operation might be ascertained upon the same principle, except that a modification of this method should perhaps be made in respect to the first portion of the road put in operation, in view of the fact that only one platform of the Fulton street station was put in use.

We have verbally consulted with the representatives of the Rapid Transit Subway Construction Company, and are informed that they will be willing to make an arrangement as to the rental substantially as outlined above.

If satisfactory to the Board we shall be prepared to take up with the representatives of the Rapid Transit Subway Construction Company the preparation of a supplemental agreement.

Very truly yours,
(Signed) G. L. RIVES,
BOARDMAN, PLATT & SOLEY, Counsel.
GEORGE S. RICE, Chief Engineer.

Resolution of the North Manhattan Taxpayers' Association, protesting against the delay in opening the portion of the Rapid Transit Railroad north of the One Hundred and Fifty-seventh street station, was presented and referred to the Chief Engineer for report direct to the association.

Letter in behalf of Mrs. Jane T. Jones, owner of premises at the northeast corner of Bridge and Fulton streets, Brooklyn, was presented as follows, and referred to the Committee on Plans and Contracts:

MANICE & PERRY, COUNSELLORS-AT-LAW,
No. 55 WILLIAM STREET,
NEW YORK, November 1, 1905.

Board of Rapid Transit Commissioners, No. 320 Broadway, New York City:

GENTLEMEN—On October 9 we addressed a communication to you in reference to the station at the northeast corner of Bridge and Fulton streets, Brooklyn, the property at that point being owned by our client, Mrs. Jane T. Jones.

Since writing that letter our client has been giving the subject further consideration, and we are at present working upon a plan which includes the granting to your Board of certain easements in our property in connection with the erection of the station and entrance thereto.

If you will kindly withhold action on our letter of October 9 until we can perfect these plans and present them to you you will oblige

Yours truly,
(Signed) MANICE & PERRY,
Attorneys for Mrs. Jane T. Jones.

Communication, as follows, from the Finance Department was presented, and the following resolution was moved:

October 18, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—I have examined the accompanying bills of the M. B. Brown Company, for printing done for the Rapid Transit Railroad Commission, and find that the charges are reasonable and just:

Bill of October 6, 1905.....	\$932 43
Bill of October 6, 1905.....	1,409 11
Bill of October 6, 1905.....	1,287 37
	<hr/> \$3,628 91

Respectfully,
(Signed) THOMAS DWYER, Examiner.

Resolved, That the bill of the Martin B. Brown Company for printing, amounting to \$3,628.91, be and the same hereby is approved.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith, Jesup and Claflin.
Nays—None.

Communication of the Chief Engineer was presented as follows, and the following resolution was moved:

November 2, 1905.

BION L. BURROWS, Esq., Secretary, Rapid Transit Board:

DEAR SIR—I respectfully recommend that Contractor's Requisition No. 6, dated July 12, 1905, for work done in connection with the laying of ducts to April 30, 1905, amounting to \$151,907.01, which requisition was approved to the amount of \$100,000 by the Rapid Transit Board on August 24, be withdrawn from the office of the Comptroller in order that certain corrections may be made therein.

Very truly yours,
(Signed) GEORGE S. RICE, Chief Engineer.

Resolved, That the Secretary be and he hereby is directed to request the Comptroller to return to this office requisition of the contractor, No. 6, for ducts, dated July 12, 1905.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith, Jesup and Claflin.
Nays—None.
Carried.

Mr. Rives reported that the case of Willcox vs. George B. McClellan, Mayor, and others, had been argued before the Appellate Division of the Supreme Court on Wednesday, the 25th of October, and decision reserved.

The following communication was presented:

EDWARD M. SHEPARD, SMITH & HARKNESS,
COUNSELLORS-AT-LAW,
No. 26 LIBERTY STREET, NEW YORK,

To the Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, New York City:

SIRS—We have already reported to you the decision of the Appellate Division upon the application to confirm the report of the Supreme Court Commissioners with respect to the easterly tunnel section under Park avenue. The order of the Appellate Division entered on September 7, 1905, appointed the Hon. Alton B. Parker referee, and prescribed a somewhat summary method of ascertaining the damages sustained by the property-owners, and we now submit a copy of the order. Claims have been filed by property-owners as follows:

Name of Claimant.	Amount.	General Nature of Claim.
Frederick W. De Voe.....	\$60,540 83	Damages on account of the subsidence of the street surface; also \$15,000 rent of house and \$5,500 legal expenses.
Arabella D. Huntington	56,800 00	Damages on account of the subsidence of the street surface; \$10,000 damage to fee value; \$25,000 damages generally; \$5,000 legal expenses.
Charles T. Barney	239,786 26	Damages on account of the subsidence of the street surface and blasting; \$50,000 damage to fee value; \$50,000 damages generally; \$23,000 legal expenses.
George H. Byrd.....	17,250 79	Damages on account of the subsidence of the street surface and blasting; \$10,000 damage to fee value; \$5,000 damages generally; \$885 legal expenses.
Alice T. Wheelock	22,723 68	Damages due to settling of house, blasting and the shoring up of houses in the neighborhood; \$10,000 damage to fee value; \$10,000 damages generally; \$500 legal expenses.
Alice T. Wheelock and Mary Kemeys.	11,611 50	Damages due to settling of house; \$10,000 damage to fee value; \$500 legal expenses.
Emily A. Lawrence	2,250 23	Damages to walls, ceilings, doors, woodwork, floors and windows.
Anna M. Fraser	392 13	Damages to walls, ceilings, doors and windows.
Maude A. B. Banks	3,507 73	Damages to walls, ceilings, doors, floors, woodwork and windows.
Mary P. Hogan	31,009 07	Damages for loss of lateral support and on account of operation of road, \$30,000. Damages on account of cracks in house; also legal expenses.
Edwin Parsons and others, as executors	50,000 00	Damages for loss of lateral support and on account of vibration from operation.
Benjamin Welles and others, as executors	90,666 65	Damages due to loss in rental value, \$36,216; on account of nuisance of shaft, damages due to explosion, \$4,450, and loss of lateral support, \$50,000.
Manhattan Eye, Ear and Throat Hospital	20,000 00	Damages to personal property, \$10,000; damage to building, \$10,000.

It is necessary that we have an expert examination of the premises which are said to have been damaged; and we would be glad if the Board would authorize the employment of such experts as may be necessary to make such examination and to testify before the referee as to the amount of damages suffered by the claimants. The claimants will undoubtedly call, as their witnesses, experts of the very highest professional standing, and, in our opinion, to successfully present the case to the City it will be necessary that our witnesses should be of standing equal to that of the claimants'

witnesses, and that we should employ an architect and engineer of the very highest standing. The architects for Mr. Barney, whose claim is the largest, are Messrs. McKim, Mead & White. We do not feel like going to the expense of employing such experts without first ascertaining the views of the Board upon this subject.

The beginning of the hearing before Judge Parker is set for the 14th of November, and we are hopeful that we may have a report before the 1st of January, the time limited by the order.

Very respectfully,
(Signed) EDWARD M. SHEPARD,
BOARDMAN, PLATT & SOLEY.

The following resolution was moved:

Resolved, That the matter of appointment of experts, as suggested by Counsel, be and the same hereby is referred to the President with power.

Ayes—The President, Vice-President, Comptroller and Commissioners Langdon, Smith, Jesup and Claflin.

Nays—None.

Carried.

The Board then adjourned.

Ordered, That the Chief Clerk be and is hereby directed to advertise for proposals in form approved by the Corporation Counsel.

Whereas, The former City of Brooklyn having established in its Police Department a telephone and telegraph signal system, under patents held by the Frederick Pearce Company; and

Whereas, Such system is still in operation in the Police Department in the Borough of Brooklyn; and

Whereas, It has been necessary in order to maintain this service for the Police Commissioner to purchase from time to time supplies needed to keep such system in proper working order to an amount exceeding the sum of one thousand dollars per annum; and

Whereas, The Police Commissioner has at different times invited bids for supplies for such system from different manufacturers and dealers in general electrical supplies, without response from any persons or corporations save the Frederick Pearce Company; and

Whereas, Upon the opinion of the Corporation Counsel payment has been refused by the Comptroller to the Frederick Pearce Company for goods purchased and delivered to the Police Department during the years 1904 and 1905, to the amount of \$3,941.41,

Ordered, That the Board of Aldermen be and it is hereby respectfully requested to authorize the Comptroller of The City of New York to pay to the Frederick Pearce Company the aforesaid sum of \$3,941.41 out of appropriations heretofore made to the Police Department for the years 1904 and 1905 respectively, entitled "Supplies for Police"; and to further authorize the Police Commissioner to purchase such supplies as he may deem necessary, without public letting, to an amount exceeding the sum of one thousand dollars per annum, in connection with the aforesaid system.

Ordered, That the pay-roll of William J. Dougan for back pay from February to December, 1903, inclusive, with interest amounting to \$1,517.10, be paid from the Police Pension Fund, he having been reinstated by the courts on November 9, 1905.

Dr. S. T. Armstrong, the General Medical Superintendent, reported as follows:

The room on the first floor of Bellevue Hospital, used as a supply room, is too small to suit the purposes, and a larger space is needed. It is also desirable to secure a room that can be used by the Secretary to the President of the Board of Trustees, who is very inconveniently located at present in the General Medical Superintendent's office, which is too greatly crowded. It is recommended that the Protestant Chaplain be informed that the room that he occupies is needed for hospital purposes, and that that room be used as a supply room. It is much more spacious than the one in use at present, and will materially facilitate proper storing of all supplies that are kept in that room and also the distribution of such supplies. The present supply room could be used by the President's Secretary.

The contractor in charge of the work of moving the old Pavilion 4, used for phthisis cases, is completing his work, and the pavilion will soon be in a new position and its occupation resumed. Work has been begun on the preparation of the new dormitory in the old boiler house.

Attention is invited to the fact that frequently during the year it is necessary that substitutes take the place of members of the house staff on vacation, and much of the trouble that has existed in the past has been due to the misconduct of these temporary members of the house staff. It is recommended that the Medical Board be communicated with relative to the advisability of increasing the number of physicians on certain divisions so that it will be possible to eliminate largely the number of substitutes.

Communications.

A communication was received from Dr. W. Gilman Thompson, Acting Secretary of the Executive Committee of the Bellevue Hospital Medical Board, inclosing the minutes of the Committee for the meeting held on Wednesday, September 13, 1905.

On motion, duly seconded, these minutes were ordered placed on file.

A communication was received from Messrs. Horgan & Slattery, under date of September 19, 1905, in reference to the painting of the window sashes at the new Harlem Hospital.

On motion, duly seconded, this communication was ordered placed on file, and it was

Resolved, That an estimate be asked on the work of repainting the window frames and sashes; it was further

Resolved, That the Acting President be requested to communicate with Mr. Freeland, Consulting Architect to the new Harlem Hospital, asking why he omitted to make the necessary recommendation for the color of the sashes and window frames before proceeding with the work.

A letter, under date of September 15, 1905, was received from John H. O'Brien, Esq., Secretary to the Mayor, suggesting that employees of the Hebrew faith be granted leave of absence on September 30, October 1 and October 9. On motion, duly seconded, this communication was ordered placed on file and the General Medical Superintendent was requested to carry out the recommendation where practicable.

A communication, under date of September 20, was received from Mr. C. N. Talbot, of the Woman's Hospital, One Hundred and Tenth street, between Amsterdam and Columbus avenues, offering to dispose of a portable building.

On motion, duly seconded, this communication was ordered placed on file and the Acting President and General Medical Superintendent were directed to examine the building and report on its availability for use in this Department.

A communication, under date of September 15, was received from the Hon. William McAdoo, Police Commissioner, informing the Board of Trustees that instructions had been issued to the police officials at Bellevue Hospital not to admit any visitors to the prison wards without permission from the General Medical Superintendent or his representative.

On motion, duly seconded, this communication was ordered placed on file.

A communication, under date of September 15, 1905, was received from the New York City Visiting Committee on the matter of fire protection at Gouverneur, Harlem, Fordham and Emergency hospitals.

On motion, duly seconded, this communication was ordered placed on file and the General Medical Superintendent was directed to make the necessary investigation and report on the means of fire protection at said institution, and also to refer the same to the Fire Department for report.

Communications were read on the matter of the sidewalk at Gouverneur Hospital, and on motion, duly seconded, they were referred to Mr. Tierney, Chairman of the Building Committee.

Reports of Committees.

Mr. Paulding, the Acting President, reported that the Board of Estimate and Apportionment had under consideration, through its engineer, the improvements needed for the better fire protection of Bellevue Hospital.

On motion, the Board adjourned.

T. E. TACK, Acting Secretary.

Designation by Board of City Record April 26, 1904.
Amended July 22 and September 15, 1904, and February 7, 1905.

MUNICIPAL CIVIL SERVICE COMMISSION.

MUNICIPAL CIVIL SERVICE COMMISSION, No. 61 ELM STREET, NEW YORK CITY, December 2, 1905.

THE MUNICIPAL CIVIL SERVICE COMMISSION has been requested to amend the classification of positions in the exempt class in the Department of Water Supply, Gas and Electricity, by substituting for the title "Chief Engineer of Surface Construction" the title:

CHIEF ENGINEER OF LIGHT AND POWER.

Also to amend the rules adopted by it on December 4, 1903, as follows:

Amending Clause 2 of Rule XIX. by adding thereto, after the word "Borough" in the fifth line thereof, the following:

"and for the Counties of Westchester, Putnam, Dutchess, Ulster and Nassau;"

and to further amend by adding after the word "Borough," in the sixth line:

"or county;"

and by adding after the word "Borough," in the seventh line, the following:

"or county;"

so that the clause shall read:

"The Commission shall establish, and so far as practicable shall maintain continuously, registration lists of persons eligible for employment under each title in the Labor Class, and, where the character of the position requires, may establish separate lists under such titles, for each borough (and for the Counties of Westchester, Putnam, Dutchess, Ulster and Nassau); but a person certified and employed from a borough (or county) list shall not be eligible for transfer or assignment to work in any other borough (or county) within six months from the date of such employment."

Amending Clause 3 of Rule XIX. by adding after the word "Borough," in the fifth line, the following:

"or county;"

so that the clause shall read:

"For the purposes of such registration, and of the qualifying examinations required, the Labor Class shall be subdivided as follows: "Part I. Laborers and others registered for employment in a designated Borough (or County);"

"Part II. Mechanics and others registered for employment in any Borough;"

"Part III. Mechanics registered for employment in any Borough, subject to trade examination."

Amending Clause 4 of Rule XIX. by adding after the words "City of New York" in the eighth line, the following:

"or within the respective counties in which they reside;"

so that the clause shall read:

"Applications for registration for positions in the Labor Class shall be addressed to the Commission on a prescribed form, signed by the applicant, with his name or mark, indicating the position sought, stating, under oath, such facts as to his age, residence, citizenship, physical condition, previous occupation and experience as the Commission may require, and accompanied by the certificate of three reputable citizens, whose

residences or places of business are within The City of New York (or within the respective counties in which they reside), to the effect that they have known him personally for not less than one year, that they believe his character and habits of industry and sobriety to be good, and that they have read his statements and believe them to be correct. If the applicant has been employed, at least one of such persons shall be an employer or former employer, who shall certify as to his capacity for the kind of work for which he applies, or an explanation satisfactory to the Commission shall be given as to why such a certificate cannot be obtained. If the application is not in the handwriting of the applicant he shall state by whom it was written, giving the name, occupation and address of such person."

Amending clause 10 of Rule XIX. by adding thereto the following:

"The name of any person certified as eligible for employment from a County list in connection with the water supply who shall decline such employment shall be stricken from the list from which such certification is made, unless such declination be for the reason of residence in a township other than that in which the duties are to be performed."

so that the clause shall read:

"When the services of laborers are required in any department, office or institution, the appointing officer thereof shall notify the Commission, stating the character of the work to be performed, the place of employment, the number of persons required, the wages to be paid, and the probable duration of such employment. The Commission shall thereupon certify from the appropriate list the names of those standing highest thereon, and, except as herein provided, such certification, and appointments or selections for employment therefrom, shall be made in the manner prescribed by Rule XIX. for positions in the Competitive Class. (The name of any person certified as eligible for employment from a County list in connection with the water supply who shall decline such employment shall be stricken from the list from which certification is made, unless such declination be for the reason of residence in a township other than that in which the duties are to be performed.)"

Public hearings will be held on the foregoing proposed amendments on Wednesday morning, December 6, 1905, at 10 o'clock, at the Commission's office, No. 61 Elm street.

MUNICIPAL CIVIL SERVICE COMMISSION, No. 61 ELM STREET, CITY OF NEW YORK.

PUBLIC NOTICE WILL BE GIVEN OF all competitive examinations two weeks in advance of the date upon which the receipt of applications for any scheduled examination will close. Applications will be received for only such examinations as are scheduled.

When an examination is advertised, a person desiring to compete in the same may obtain an application blank upon request made in writing, or by personal application at the office of the Commission.

All notices of examinations will be posted in the office of the Commission, City Hall, Municipal Building, Brooklyn, and advertised in the CITY RECORD for two weeks in advance of the date upon which the receipt of applications will close for any stated position.

Public notice will also be given by advertisement in most of the City papers.

Wherever an examination is of a technical character, due notice is given by advertisement in the technical journals appertaining to the particular profession for which the examination is called.

Such notices will be sent to the daily papers as matters of news, and to the General Post-office and stations thereof. The scope of the examination will be stated, but for more general information application should be made at the office of the Commission.

Unless otherwise specifically stated, the minimum age requirement for all positions is 21.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears of the assessments for OPENING AND ACQUIRING TITLE to the following-named street in the BOROUGH OF THE BRONX:

TWENTY-FOURTH WARD, SECTION 12.

WALTON STREET (EAST ONE HUNDRED AND NINETY-NINTH STREET)—OPENING, from Webster avenue to Marion avenue. Confirmed November 15, 1905; entered November 29, 1905. Area of assessment includes all those pieces or parcels of land shown on our benefit map, which are designated on the Tax Map of the Twenty-third and Twenty-fourth Wards, Borough of The Bronx, The City of New York, as follows, viz:

Block 3284, Lots Nos. 32 and 48.

Block 3284, bounded by Marion avenue, Decatur avenue, Walton street (East One Hundred and Ninety-ninth street) and Oliver place, Lot No. 32 being bed of old Orchard street.

Block 3284, bounded by Marion avenue, Decatur avenue, East Two Hundredth street and Walton street (East One Hundred and Ninety-ninth street), Lot No. 48 being bed of old Orchard street.

The above-entitled assessment was entered on the date herebefore given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest

less the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessments, interest will be collected thereon, as provided in section 1019 of said Greater New York Charter.

Said section provides, in part, that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof on the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment, to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before January 27, 1906, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessment became a lien to the date of payment.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction on

MONDAY, DECEMBER 18, 1905,

at 11 a. m., on the premises, the buildings and appurtenances thereto belonging erected upon real estate acquired as an additional site for college purposes, belonging to the Corporation of The City of New York, all the right, title and interest of The City of New York in and to the buildings thereunto belonging, erected upon the following-described parcel of land under the jurisdiction of the Board of Trustees of the College of The City of New York, being the buildings situated on the property at Amsterdam avenue, between One Hundred and Thirty-ninth and One Hundred and Fortieth streets, in the Borough of Manhattan, more particularly described as follows:

Beginning at a point formed by the intersection of the southerly line of One Hundred and Fortieth street with the easterly line of Amsterdam avenue; running thence easterly along the southerly line of One Hundred and Fortieth street 100 feet to land now owned by The City of New York; thence southerly and parallel with Amsterdam avenue 199.83 feet to the northerly line of One Hundred and Thirty-ninth street; thence westerly along the northerly line of One Hundred and Thirty-ninth street 100 feet to the easterly line of Amsterdam avenue, and thence northerly along the easterly line of Amsterdam avenue 199.83 feet to the point or place of beginning.

By direction of the Comptroller the sale of the above-described buildings will be made under the supervision of the Collector of City Revenue on Monday, December 18, 1905, at 11 a. m., on the premises.

The buildings on the premises above described shall be sold for the highest marketable price at public auction upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of one-half of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures or parts thereof, their fixtures and foundations, of every class and description, within the described area, are to be torn down to a level two feet below the existing curb; and any structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stumps and area walls, shall also be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value shall be gathered together by the contractor and burned or carried away.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description, brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam holes, etc.,

bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings included in the foregoing parcel.

Property formerly of J. D. Jones estate, frame building. Old "Unqua" railroad station building, one story, 45½ feet by 21 feet; 6 rooms and hall.

By direction of the Comptroller the sale of the above-described buildings will be made under the supervision of the Collector of City Revenue on Friday, December 8, 1905, at 11 a. m., on the premises.

The buildings on the premises above described shall be sold for the highest marketable price at public auction upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of one-half of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures or parts thereof, their fixtures and foundations, of every class and description, within the described area, are to be torn down to a level two feet below the existing curb; and any structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stumps and area walls shall also be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value shall be gathered together by the contractor and burned or carried away.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description, brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of said buildings by the said successful bidder, and the bidder's assent

and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam-holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water-tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings included in the foregoing parcels.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction on

MONDAY, DECEMBER 11, 1905,

at 11 a. m., at the office of the Collector of City Revenue, Room 141, Stewart Building, No. 280 Broadway, in the Borough of Manhattan, the buildings and appurtenances thereunto belonging, erected upon the real estate acquired for the use of the Department of Docks and Ferries, belonging to the Corporation of The City of New York, all the right, title and interest of The City of New York in and to the buildings thereunto belonging, acquired for Dock Department purposes, described as follows:

Borough of Manhattan.

Part of a two-story brick building having a frontage of about 17.1 feet on the easterly side of Eleventh avenue, and a depth of about 31 feet, and whose southerly side is parallel to and distant about 82 feet northerly from the northerly side of West Twenty-first street. The easterly line of the marginal street cuts the northerly side of the building at a point about 5.7 feet easterly from the westerly side of the building, and cuts the southerly side of the building at a point about 12.3 feet easterly from the westerly side of the building. The portion of the building to be sold and removed lies to the west of the easterly line of the marginal street.

One-story brick building at the northeasterly corner of Eleventh avenue and West Twenty-first street, having a frontage on Eleventh avenue of about 14 feet, and on West Twenty-first street of about 26 feet.

Part of a two-story brick building at the southeasterly corner of Eleventh avenue and West Twenty-first street, having a frontage on Eleventh avenue of about 29.6 feet and on West Twenty-first street of about 104 feet. The easterly line of the marginal street cuts the northerly side of the building at a point about 66.2 feet easterly from the westerly side of the building, and cuts the southerly side at a point about 77.6 feet easterly from the westerly side of the building. The portion of the building to be sold and removed lies to the west of the easterly line of the marginal street.

Part of a three-story brick building on the northeasterly corner of Tenth avenue and Little West Twelfth street, having a frontage of about 26.2 feet on Tenth avenue, and about 40.1 feet on Little West Twelfth street. The easterly line of the marginal street cuts the easterly side of the building at a point 3.1 feet northerly from the southerly side of the building and cuts the northerly side of the building at a point 31.3 feet easterly from the westerly side of the building. The portion of the building to be sold and removed is that lying to the west of the easterly line of the marginal street.

Part of a four-story brick building fronting on the easterly side of Tenth avenue, whose southerly side is parallel to and distant about 26.2 feet from the northerly line of Little West Twelfth street. The easterly line of the marginal street cuts the southerly side of the building at a point 31.3 feet easterly from the easterly side of Tenth avenue and cuts the northerly side of the building at a point 107.3 feet northerly from the northerly side of Little West Twelfth street. The portion of the building to be sold and removed is that lying to the west of the easterly line of the marginal street.

Such buildings to be sold are more clearly shown on certain maps on file in the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan.

By direction of the Comptroller, the sale of the above-described property will be made under the supervision of the Collector of City Revenue on Monday, December 11, 1905, at 11 a. m., at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan.

The buildings on the premises above described shall be sold for the highest marketable price at public auction upon the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of one-half of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures or parts thereof, their fixtures and foundations, of every class and description within the described area are to be torn down to a level two feet below the existing curb; and any structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls, shall also be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences, shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove said buildings and appurtenances or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and

sufficient guards and fences and warning signs by day and night for the prevention of accidents and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beam holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water-tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings included in the foregoing parcel.

COLLEGE OF THE CITY OF NEW YORK.

BOARD OF TRUSTEES OF THE COLLEGE OF THE CITY OF NEW YORK.

PROPOSALS FOR BIDS OR ESTIMATES for the temporary heating for the Sub-Freshman Building in the course of erection on the plots of ground located on St. Nicholas terrace, One Hundred and Fortieth street, Amsterdam avenue and One Hundred and Thirty-eighth street, Borough of Manhattan, The City of New York.

Sealed bids or estimates will be received by the Board of Trustees of the College of The City of New York at the office of the Board, corner of Lexington avenue and Twenty-third street, in The City of New York, until 12 o'clock m. on

THURSDAY, DECEMBER 7, 1905,

2. The time during which temporary heating will be required shall be from such time to such time between December 8, 1905, to May 1, 1906, inclusive, as may be designated by the Board.

3. The amount of security required will be not less than One Thousand Dollars (\$1,000).

4. Inasmuch as the boilers and other portions of the steam plant have not yet been accepted by the City, the bidders must arrange with and reimburse the contractors who are supplying the boilers and other apparatus, mains, etc., and give satisfactory proof prior to award of contract that they have made arrangements with the present contractors satisfactory to them and the Board as to the use of their apparatus.

5. The bidders shall state a price per day of 24 hours for supplying temporary heating to the Sub-Freshman Building, the Board to have the right to order the temporary heating from such time to such time as it may direct.

6. Bidders are requested to make their bids or estimates upon the blank form prepared for the purpose, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon written application therefor at the office of the Board of Trustees, corner of Lexington avenue and Twenty-third street, in The City of New York, Borough of Manhattan.

7. Should any person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give proper security, he or they will be considered as having abandoned it, and as in default to The City of New York, and the contract will be readvertised and relet, as provided by law.

BOARD OF CITY RECORD.

PROPOSALS FOR BIDS OR ESTIMATES.

SEALED BIDS OR ESTIMATES WILL BE received at the office of the Supervisor of the City Record, Park Row Building, Nos. 13 to 21 Park row, in The City of New York, until 11 o'clock a. m., on

THURSDAY, DECEMBER 14, 1905,

FOR SUPPLYING PRINTED, LITHOGRAPHED OR STAMPED FORMS, PAMPHLETS, PRINTED BLANKS AND STATIONERY, INCLUDING LETTER AND WRITING PAPER AND ENVELOPES, WITH PRINTED HEADINGS OR INDORSEMENTS, ETC., FOR THE USE OF THE COURTS AND THE DEPARTMENTS AND BUREAUS OF THE GOVERNMENT OF THE CITY OF NEW YORK DURING THE YEAR 1906.

The time of delivery shall not be later than June 30, 1906, except under the following conditions:

First—Delivery must be made not more than 30 days after the receipt of copy, if required by the Supervisor.

Second—Where revised copy is required by the character of the sample, all work shall be completed within 30 days after such revised copy is received from the Department by the contractor.

The amount of security shall be twenty-five per cent. of the amount of the bid.

The person or persons making an estimate shall furnish the same in a sealed envelope, indorsed with the title given above, of the work for which the estimate is made, with his or their name or names and the date of presentation, to the Supervisor of the City Record, at the said office, on or before the date and hour above named, at which time and in the office of the Mayor, the estimates received will be publicly opened by the Board of City Record and read, and the award of the contract made according to law as soon thereafter as practicable.

The bidder must state the item price for each item and the total price of each schedule. The bids will be tested and the award made as a whole to the bidder whose aggregate bid is the lowest for the entire contract; but the Board of City Record may, in its discretion, award the contract by schedules.

Bidders will write out the total amount of their estimates in addition to inserting the same in figures.

The said Board reserves the right to reject all bids or estimates if it deems it to be for the interest of the City so to do.

Delivery will be required to be made at the office of the City Record from time to time and in such quantities as may be directed by the Supervisor of the City Record.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, to be had at the office of the Supervisor and on file in the office of the Comptroller.

Bidders are requested to make their bids or estimates upon the blank form prepared by the Board of City Record, a copy of which, with the proper envelope in which to inclose the bid,

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
