PETITIONS AND COMMUNICATIONS.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—The ordinance, No. 410, proposed by Alderman Stapleton requiring a plate or sign with the name and the address of the owner, and also of the agent, if there be any, to be placed in each building, that is, tenement and hotel, of The City of New York, ought, in my judgment, to be adopted. My years of experience with the tenement people of our great City have suggested this ordinance. We have many hovels and shacks unfortunately well tenanted on both the East and West Side Districts of New York. Many of these ramshackle tenements are pre-revolutionary. Time, unkind even to ourselves, use, abuse, and the neglect of years have not improved these whilom residences of New York's Dutch ancestors. As they feebly endeavor to stand to-day, their ruinous condition evidences their years. There is not anything attractive about them as they stand covered with the dust and smoke of ages. 84 Like old topers they embrace and steady one another by means of party walls, or lean for support up against the sides of our modern tenements. Many of these ramshackle buildings are the holdings of families for generations-they look it, tooand if their rickety hall doors bore the name plates of their owners, any one passing through our streets and sceing these names might easily imagine that he was walking on Fifth or Madison avenues after an earthquake. Other tenements of later date showing within and without the parsimony of the landlords and the neglect of their agents, have joined the company of these ancient and venerable "has-beens

All these tenements are busy with life within, with the life of the poor whose poverty and persistent struggle against hard odds have long since rendered them patient, uncomplaining and unassertive. Yet these poor have rights as citizens, rights as human beings, to decent and comfortable living; still to assert these rights wou'd be considered a joke, an impertinence. Should they desire to apply to the landlord for relief under stress of a lack of some reasonable convenience, they cannot do so. for they are kept in ignorance of the landlord's name, and if there is an agent, he acts only as a buffer between the landlord and the tenant, and every one knows that the typical agent is copper-sheathed where sympathy for tenantry is concerned. There is another individual with whom the tenant might lodge a complaint—the tenement house czar, the janitor. Down my way nearly all the janitors are Italian, and any application made to them by an English speaking tenant for relief is easily met with, "Io non capisco; me no speak Engleesh."

If the poor tenant could only overreach the promising agent and the indifferent ianitor, if he could somehow break into the sacred privacy of his lordship, the landlord, there would be hope of a hearing, if not of relief. At present, however, our poor tenants are in the hands of their natural enemies, the agent and the janitor, and every effort to solve the enigma of the landlord's name and address meets with defeat. In cases of intended evictions I have failed to discover the name of either the landlord or the agent, and I have been forced to make out in the name of the janitor the check that saved the poor family from being thrown upon the street. I am not singular in affording such relief. Every clergyman has done the same.

The uncomplaining and unassertive tenant, however, sometimes has a friend who dares speak in his behalf, yet even that friend is handicapped, for he knows not whither to turn for the relief of the oppressed poor. The house number is no indication of the exact property, and the best of us may well be excused if, in the administration of our own affairs, we do not easily recall lot numbers. Hidden away in the City's official records lies the name of the owner of the property to be complained against, and if, in the investigation as to the ownership of certain parcels of property we meet with courtesies from the guardians of these precious tomes, even then our lack of training and of experience in the search of titles handicaps us at the very start in our endeavor to trace out from the labyrinth of words, words, words, the name of the owner of the offending tenement. Precious hours might be spent in this search with no better result than that of lodging a complaint, as it is said a vote is sometimes registered, against a "dead one."

But in the case of the helpless tenant and of his similarly helpless friend there is a means of relief. This proposed ordinance making the owner place his name and address on his property will force him to stand fairly and squarely for it, both as to the material condition of his property and as to the moral standing of his tenants. When conscience, when a sense of common justice and of the square deal, when the spirit of fairness and honesty in everyday contracts, fail, then human respect will move to some show of fair dealing. Make owners publicly responsible by their names for the shacks into which they are packing the poor like beasts into the shambles. I know the way landlords look upon their tumbling-down houses. As

a paying proposition, as far as take-everything-and-give-nothing goes, there is nothing to beat these "cold-water and no-water" flats. They pay well, cost nothing.

And the rent of the poor, whence does it come? Out of the sweat of the poor man's uncertain few days of ill-paid labor, out of the half-filled market basket, out of the dinner pot, from the sugar bowl and the tea canister, from the milk jug and the bread plate, from the half-clad body of the mother, from the very bed the little ones sleep upon. The woman's shawl, the little baby dress, the children's shoes, the quilts and blankets have been pawned to make ready for the agent's monthly handshake so that the poor, cold shelter of ruinous rooms might be kept for the little family. The poor pay well for their miserable rooms, and they who imagine that my people, for example, live in our neighborhood for cheap rent make the mistake of their lives. There are reasons to hold my people, but cheap rent is not one of them. Even if the dollars paid in rent are numerically few, the value of each dollar is not to be estimated by Uncle Sam's impression upon it, but by what the dollar costs the poor man in sweat, in labor, in sacrifice, in pain and suffering, in deprivation of all which change the poor man's every dollar into purest, brightest gold. And in return for their priceless gold, what do our poor people receive? Let the rickety houses and miserable rooms answer that question. I firmly believe that if the owners of tenement property be forced to place their names upon their tenements that the conditions of their tenements will be vastly improved.

Yet one other view of this question, and an important one at that. One example will illustrate just what might be accomplished in all other houses of the same class. I have on file in my room the name of a landlord who owns a certain piece of real estate in my parish. For years that property has been used as a brothel. Yes, going back to the time when I was in the full springtime of my priesthood, down to the more strenuous days when the snows of years have whitened my hair, all those years that house, with its secret getaways, has been used for immoral purposes. I suggested one day to our very worthy police captain to obtain the name of the owner of these premises and force him to make his undesirable tenants vacate this building. After much trouble the captain succeeded in obtaining the owner's name and address. He lives in the "city of churches." That information effected more good than had ever been done previously by numerous arrests and the imposition of fines. The premises were vacated. Some time after this, however, a few Chinamen with the gambling fever-a normal condition of the Celestia's-took possession of the place. A raid followed, another application was made to the owner and the sign "To Let" hung in the breeze.

And I fully believe that the sign "To Let" would hang outside on many a house if owners, by their names, were forced to publicly endorse the condition of their property and the character of their tenants. Owners cannot afford to sacrifice their position in church and social circles, in their profession, in their trade and among their friends and acquaintances for the sake of the dollars saved by failing to keep their tenements in repair or for the sake of the most foully tainted of all money, the dollars earned through wronged womanhood. Human respect is a cowerful motive. Men, even when they are only whited sepulchres, desire to stand high in the estimation of the public. When, however, the very disagreeable fact of ownership of houses materially and merally away below the standard is as undiscoverable as the needle in the haystack, the owners of such houses can and do readily take a chance at discovery, and in nine hundred and ninety-nine cases out of a thousand come out clean in the public eye. Though all their earnings were so tainted that all the waters of the five oceans could never cleanse them, what matters it? The neighbors don't know. With this ordinance in force the neighbors will know and every man will have to stand for his own.

It will be objected, I believe, that our very many quick real estate deals will be hampered by a necessarily frequent change of names, when these tenements, with their human packs within, like overfilled crates of fewl, quickly pass through the hands of dealers; but not so, for the labor of removing one name and of the insertion of another will cost only a moment's time. It will take no longer time to change the name of one owner for another's, than it does take to hang out the sign "To Let" when some poor unfortunate family is to be evicted.

There will be other objections to this resolution, but to all objections I oppose the great good that the passage of this resolution will do toward giving us materially and morally clean and decent tenements, and for humanity, particularly for that portion of it that is poor and suffering, yet in its poverty and suffering pays well for all, or rather for the little that it receives from the all-absorbing landlords. may be shortsighted but for the life of me, I fail to see what reasonable objection any man can have to label his goods. Are they genuine? Whence the objection? Are they spurious? The sooner, then, the public knows it, the better. What a surprised public it would be if, in the light of some morning's early glow, it would read inscribed by the hand of some avenging angel, in large letters across the front of our many houses of misdeeds, the names of the owners of those houses? That morning's early hour would be a fitting prologue for Judgment Day.

Gentlemen, I am convinced that the passage of this resolution means a cleaner city and more comfortable, clean and decent apartments and dwellings for our working people.

Respectfully submitted with humble apologies to owners and agents in general for daring to tread on their toes,

Respectfully submitted,

JAMES B. CURRY, Pastor.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the Board of Estimate and Apportionment:

Dear Sir-At a meeting of the Board of Estimate and Apportionment held June 10, 1910, a report was presented from the Police Commissioner, to whom on May 27, 1910, was referred the resolution of the Board of Aldermen requesting this Board to take into consideration the propriety of taking such steps as may insure the Police Sergeants and Patrolmen "starred" as honor men, retirement, either by age limit or on account of disability, with the rank and pay of retired Lieutenants, stating that it would require an act of the Legislature amending the Charter to permit any such course as indicated by the request.

I transmit herewith copy of said report for your information.

Very truly yours,

WILLIAM M. LAWRENCE, Assistant Secretary.

Police Department of The City of New York, New York, June 6, 1910.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment, No. 277 Broadway, New York City:

Dear Sir-I beg to acknowledge receipt of your communication of the 27th ult. enclosing copy of resolution of the Board of Aldermen requesting the Board of Estimate and Apportionment to take into consideration the propriety of taking such steps as may insure the Police Sergeants and Patrolmen "starred" as honor men, retirement, either by age limit or on account of disability, with the rank and pay of retired Lieutenants; and stating that at a meeting of the Board of Estimate and Apportionment held on May 27, the resolution was referred to me for consideration.

As section 354 of the Charter specifically states the manner in which the Police Commissioner must retire members of the uniformed force and names the amounts to which they are entitled, it would require an act of the Legislature amending the Charter to permit any such course as indicated by this request.

Yours respectfully,

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir-I transmit herewith certified copy of a resolution adopted by the Board Estimate and Apportionment June 17, 1910, recommending the establishment of the position of Confidential Inspector in the Department of Street Cleaning, with salary at the rate of \$1,650 per annum, for one incumbent.

> Yours very truly JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, May 24, 1910.

The Honorable Board of Estimate and Apportionment:

Gentlemen-At a meeting of the Board of Estimate and Apportionment held February 25, 1910, a communication was presented from the Commissioner of Street Cleaning requesting the establishment of the position of Special Inspector and Investigator in the Department of Street Cleaning, which was referred to a Select Committee consisting of the Comptroller and the President of the Board of Aldermen for consideration. In connection therewith your Committee submits the following report:

The Commissioner is of the opinion that in the investigations necessary to be made in the administration of the Department, and of the various complaints which come into the Department, many of them being of a confidential nature, the services a direct representative, as Inspector and Investigator, can be rendered in a more satisfactory manner and with better results than through the employees of the various branches of the Department detailed for such examination and investigation.

Your Committee agrees with the Commissioner that a proper discharge of the duties set forth under the named position would serve to increase the efficiency of the Department and would recommend the approval of the request, in accordance with resolution hereto attached.

> Respectfully, WM. A. PRENDERGAST, Comptroller: JOHN PURROY MITCHEL, President, Board of Aldermen; Select Committee.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a meeting held June 17, 1910:

Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the position of Confidential Inspector in the Department of Street Cleaning, with salary at the rate of \$1.650 per annum, for one incumbent.

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

Alderman Dowling moved that the resolution be amended by adding thereto a provision that this expenditure shall be made under the supervision of a Special Committee of the Board of Aldermen.

Which amendment was adopted. The President then put the question whether the Board would agree with said resolution, as amended.

Which was unanimously decided in the affirmative by the following vote:

Dear Sir—The American disc water meter, manufactured by the Buffalo Meter Company, has been tested for accuracy and durability and been found of good design, material and construction and suitable for use in New York City.

I recommend the adoption of the disc meters with all bronze outside casing, manufactured by this company and known in the trade as the "American" meter, in sizes ranging from 3% inch to 2 inches, as per schedule attached.

As section 475 of the Charter provides that water meters, the pattern and price of which have been approved by the Board of Aldermen, shall be installed in buildings, I would respectfully request that this communication be presented to the Honorable Board of Aldermen for their consideration.

Respectfully, HENRY S. THOMPSON, Commissioner.

The President laid before the Board the following communications from the Commissioner of Docks:

No. 1578.

Department of Docks and Ferries, City of New York,
Pier "A," North River,
New York, June 14, 1910.

Hon. JOHN PURROY MITCHEL, President of the Board of Aldermen:

Sir—Referring to the resolution adopted by the Board of Aldermen on the 24th ult., requesting the Commissioner of Docks to investigate and report as to the advisability of erecting and placing a recreation pier at the foot of Ocean boulevard and Ocean concourse, in the Borough of Brooklyn, I beg to state that the area in question is under the jurisdiction of the Department of Parks.

In connection with this matter attention might be called to the fact that to build a recreation structure at the locality would involve the expenditure of a large sum of money, as the pier should properly be built with concrete piles in order to insure permanency as well as to eliminate the extraordinary cost of repairs which would be needed were the structure built with wooden piles or steel columns.

It might further be stated that Coney Island is sufficiently endowed with recreation features, particularly at the locality referred to, there being a park but a short distance away where a large number of benches are placed for public accommodation, thus giving the full benefit of the ocean breezes.

Yours respectfully,

CALVIN TOMKINS, Commissioner of Docks.

No. 1579.

Department of Docks and Ferries, City of New York, Pier "A," North River, New York, June 16, 1910.

Hor. JOHN PURROY MITCHEL, President of the Board of Aldermen:

Sir-Noting the resolution adopted by the Board of Aldermen on the 7th inst. requesting this Department to place one of the municipal ferryboats in commission for the purpose of carrying children to the public playgrounds at Pelham Bay Park, I beg to advise that at the present time the City has no spare boat which could be assigned for the purpose and, as a matter of fact, is, in connection with the operation of the municipal ferries, short on boats. To place a boat in commission would therefore necessitate the chartering of a ferryboat.

It is estimated that to reimburse the City for so chartering a ferryboat it would be necessary to charge a fare of something in the neighborhood of 50 cents for round trip.

It might be questionable as to whether in any event it would be within the province of this Department to charter or assign a ferryboat for the purpose indicated. In addition to this, the Department has no appropriation from which it could pay for the chartering of a ferryboat.

Yours very truly

Yours very truly, CALVIN TOMKINS, Commissioner of Docks.

For the purpose of paying the rent of an office for the use of Engineers on construction of sewers in Stapleton, Borough of Richmond, \$285.

For the purpose of paying the rent of premises No. 117 West One Hundred and Thirty-sixth street, Manhattan, for the accommodation of Nurses at Harlem

-and the matters were referred back to the Board of Aldermen for the amendment of resolutions in accordance with the recommendations contained in the reports of the Compiroller, copies of which are herewith enclosed.

> Very truly yours, JOSEPH HAAG, Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 24, 1910.

The Honorable Board of Estimate and Apportionment:

Gentlemen-At a meeting of your Board held May 13, 1910, there was referred to the Comptroller a resolution of the Board of Aldermen adopted April 19, 1910, approving the request of the President of the Borough of Richmond for an issue of special revenue bonds to the amount of \$285 to provide means for the payment of rent of premises for an office for the Engineers of the Bureau of Sewers. In connection therewith I submit the following report:

Under date of May 18, 1910, the Comptroller submitted a report to the Commissioners of the Sinking Fund, in which it is shown that the City, by an order of the President of the Borough of Richmond, took possession of the premises No. 205 Canal street, Stapleton, Borough of Richmond, on November 1, 1909, at a monthly rental of \$30, with the idea that the rent would be a proper charge against the Street Improvement Fund. The report further states that the Corporation Counsel had submitted to the President an onlying in which he stated that it would be improper submitted to the President an opinion in which he stated that it would be improper to charge rent of the Engineers' office to the Street Improvement Fund. The President thereupon made request to the Board of Aldermen for an issue of special revenue bonds for \$285 with which to pay the rent, which is the matter under consideration. The question as to the reasonableness of the rent has been passed upon by the Comptroller in his report to the Commissioners of the Sinking Fund, in which it is recommended that the execution of a lease be authorized for the premises No. 205 Canal street, Stapleton, Borough of Richmond, for the use of the Engineers of the Bureau of Sewers for a period of fourteen months, from November 1, 1909, to December 31, 1910; the rent for the first five months being fixed at \$30 per month and the remaining nine months at \$15 per month.

In view of the facts, I would recommend that the request be approved, subject to the concurrence of the Board of Aldermen to an amendment to its resolution

adopted April 19, 1910, so as to read:

"Resolved. That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of two hundred and eighty-five dollars (\$285), the proceeds whereof to be used by the Comptroller for the purpose of paying the rent of an office for use of Engineers on construction of sewers in Stapleton, in the Borough of Richmond."

Respectfully,

WM. A. PRENDERGAST, Comptroller.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Dowling moved the adoption of this report.

The President put the question whether the Board would agree to accept such

report and adopt said resolution. Which was decided in the affirmative by the following vote:

No. 1126a.

The Committee on Finance, to which was referred on June 7, 1910 (Minutes. page 794), the annexed communication from the Board of Estimate and Apportionment, sending back a resolution for \$800 special revenue bonds for rent of No. 117 West One Hundred and Thirty-sixth street, Manhattan, for Nurses at the Harlem Hospital, respectfully

That this matter was returned upon a report from the Comptroller asking that the resolution be amended by placing the expenditure under the charge of the Comptroller. The Committee recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of eight hundred dollars (\$800), the proceeds whereof to be used by the Comptroller for the purpose of meeting rent of premises, No. 117 West One Hundred and Thirty-sixth street, Borough of Manhattan, for accommodation of Nurses at Harlem Hospital during remainder of 1910.

> Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, May 23, 1910.

The Honorable Board of Estimate and Apportionment:

Gentlemen-At a meeting of your Board held on May 6, 1910, a resolution pre sented from the Board of Aldermen recommending the authorization of the issue of special revenue bonds to the amount of \$800 to be used for the purpose of paying the rent of the premises No. 117 West One Hundred and Thirty-sixth street, Borough of Marhattan, for the accommodation of Nurses at Harlem Hospital, during the remainder of the year 1910, was referred to me for consideration.

I would report that the Sinking Fund Commissioners have approved of the lease of the building No. 117 West One Hundred and Thirty-sixth street, at an annual

rental of \$1,200.

A schedule of premises rented for the use of City departments is prepared annually by the Sinking Fund Commissioners in anticipation of the Budget, in which provision is made for the payment of rentals of such premises for the ensuing year.

Under a resolution of the Sinking Fund Commissioners rents for buildings leased after the adoption of the Budget shall be assumed by the department interested during

The President of the Board of Trustees of Bellevue and Allied Hospitals states that the two adjoining buildings, Nos. 113 and 115 West One Hundred and Thirtysixt 1 street, have been occupied by Nurses from the Harlem Hospital. On account of the increased number of patients in the hospital, it has been found necessary to house nearly all the Nurses in the rented buildings. There are now seventeen Nurses and one Ward Maid in No. 113, and twenty-one Nurses and one Ward Maid in No. 115. In the latter building three Nurses are quartered in the basement.

The President says that owing to the increase in the number of patients in the hospital, ten additional Nurses have been appointed within the last two years, making a total of about fifty Nurses, most of whom have been accommodated in the two houses; that four Nurses live in a room which is barely large enough for two, and it is

essential that additional quarters be provided. The President claims that there is not sufficient unencumbered balance remaining in any other fund to permit of the transfer therefrom of the amount required for this

In view of the facts above stated, I recommend the authorization of the issue of

No. 117 West One Hundred and Thirty-sixth street, Manhattan, during the remainJer of the year 1910, beginning May 1, subject to the concurrence of the Board of Aldermen in an amendment of its resolution adopted April 12, 1910, so as to read as follows:

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of eight hundred dollars (\$800), the proceeds whereof to be used by the Comptroller for the purpose of meeting rent of premises No. 117 West One Hundred and Thirty-sixth street, Borough of Manhattan, for accommodation of Nurses at Harlem Hospital during the remainder of the year 1910.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote: Affirmative-Aldermen Baldwin, Barton, Becker, Bolles, Boschen, Brady, Brush, Callaghan, Campbell, Carberry, Cole, Coleman, Cornell, Cunningham, Davis, Delaney, Desmond, Dotzler, Dowling, A. The Committee on Finance, to which was referred on June 7, 1910 (Minutes, page 798), the annexed request from the President of the Borough of Richmond for \$500 special revenue bonds for completion of work of erecting street signs, respect-

REPORTS:

That, having examined the subject, it believes the proposed improvement to be necessary. This work has been completed with the exception of about 200 signs. As this was originally a special revenue bond matter and the Borough representatives state that the work is an absolute necessity the Committee recommends that the said resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of five hundred dollars (\$500), the proceeds whereof to be used by the President of the Borough of Richmond for the purpose of providing means for the completion of the work of erecting street signs in said Borough.

Board of Aldermen, City Hall, New York City:

Gentlemen-On June 28, 1904, your Honorable Body passed a resolution appropriating \$15,000 revenue bonds to the President of the Borough of Richmond for the erection of street signs, and the matter coming before the Board of Estimate and Apportionment for its action, that Board on March 16, 1905, adopted a resolution fixing the amount of revenue bonds for this purpose at \$10,000.

My Engineer reports to me that the funds at our disposal for erecting street signs will be exhausted by June 1, 1910, and there still remains some work to be done in this connection which will entail an additional expenditure of \$500.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS RESUMED.

The Vice-Chairman laid before the Board the following communication from the President, Borough of Manhattan:

The City of New York, Office of the President of the Borough of Manhattan,

June 21, 1910.

The Honorable Board of Aldermen:

Gentlemen-I have the honor to request your authority for an issue of special revenue bonds to the amount of \$65,000 for the purpose of replenishing the fund established a year ago for the repair of street pavements in the Borough of Manhattan, where the period of maintenance covered by contracts has not expired, and where the contractors have failed to meet the contract requirements. The amount appropriated for this purpose by your Board in February of this year was \$50,000. Since that time there has been laid upon these abandoned streets a total of 52,000 yards at a total cost of \$41,000, of which amount about \$27,500 is chargeable against the above issue of special revenue bonds, and \$13,500 against the retained percentages under the various abandoned contracts. Upon a conservative estimate the entire balance of the issue of special revenue bonds will be exhausted by the middle of August, at which time the Board of Aldermen will no longer be in session. It therefore becomes necessary for me to procure the authority for a new issue before the adjournment of the Board of Aldermen and the Board of Estimate and Apportionment, in order that the funds may be available when they are needed.

The estimated cost of keeping these abandoned streets in proper repair from the time when the present issue of bonds will be exhausted until the end of the present

year is as follows.	
Streets abandoned by the Atlantic Alcatraz Asphalt Company	\$16,325 00
Streets abandoned by the Fruin-Bambrick Paving Company	12,014 32
Streets abandoned by the Warren-Scharf Asphalt Paving Company	24,838 49
Broadway, from Canal street to Fourteenth street	15,500 00
	060 677 01

\$68,677 81

Yours very truly,

GEORGE McANENY, President, Borough of Manhattan.

Which was referred to the Committee on Finance.

The Vice-Chairman laid before the Board the following communication from the President, Borough of Richmond:

The City of New York, Office of the President of the Borough of Richmond, New Brighton, June 21, 1910.

To the Honorable Board of Aldermen of The City of New York, City Hall, New York City:

Dear Sirs-The Justices of the Supreme Court of the State of New York for the Second Department have united with the Richmond County Bar Association in making application for quarters in Richmond Borough Hall in which to hold the Trial Terms of the Supreme Court. They earnestly desire that immediate steps be taken to make provision for this purpose, so that the October Trial Term of the

Court may be held in the proposed new quarters in Richmond Borough Hall. The only quarters in Richmond Borough Hall available for this purpose are those now occupied by the Staten Island Association of Arts and Sciences, under authority of the Commissioners of the Sinking Fund.

By an act of the Legislature passed at the last session, The City of New York is empowered to provide new quarters for the association, and these quarters have been selected. It is proposed to rent for the purpose a building directly opposite the Borough Hall. For the purpose of fitting up this building, for moving the extensive plant of the association and for the employment of the additional force necessary to operate the new building for the balance of the year 1911 after the association shall have moved into it, is estimated to be \$2,625.

On behalf of the association, therefore, and in pursuance of the petition of the Justices of the Supreme Court for the Second Department and the bench and bar of Richmond County, I hereby make application, under subdivision 8 of section 188 of the Charter, for revenue bonds to the amount of \$2,625, for the use of the Staten Island Association of Arts and Sciences, to enable it to carry out the above purpose.

It will also be necessary for me to make application for revenue bonds for the purpose of transforming the quarters now occupied by the association into a suitable courtroom. As soon as I can secure estimates for the probable cost of this work I will submit my application to your honorable Board. Respectfully yours.

GEORGE CROMWELL, President of the Borough.

B: the same-Whereas, Our attention has been called to the part time classes of the high

schools in the Borough of The Bronx; and

Whereas, The City is paying a considerable amount of money to the high school Teachers who instruct the high school pupils for time lost through the part time system: and

Whereas, A considerable number of the high school pupils are compelled to attend in part time owing to the lack of school facilities; and

Whereas. The pupils lose on an average three hours per day, making a total loss of 1,140 hours, or in other words fifty-seven school days out of each year; and Whereas, The pupils attending high school are always compelled to ride from their residences to the various high schools in The Borough of The Bronx; and

Whereas, If the Board of Education were compelled to find a site and furnish a building it would take several years to do so; and

Whereas. The number of graduates from the public schools at the closing of this term will exceed by far greater the number that will graduate from the high schools, consequently adding quite a number more to the list of part time scholars; and Whereas. The residents of Westchester, Unionport, Van Nest, Throggs Neck, Williamsbridge, Wakefield and West Farms have no adequate high school facilities;

Whereas, There is in that section one of the finest buildings within reach that can be rented by the City now for a comparatively nominal rental, this building being fully equipped with a large kitchen for cooking classes, a grand assembly room with a large organ which cost the owners \$25,000 and which is available for school uses; also about seventy large, beautiful rooms which can be used for class rooms, the building being situated on a large tract of open land, well ventilated; in fact, the City if it were to build a building could not duplicate such a one for less than \$1,000,000, this building being situated where a line of cars go by it; there-

fore be it Resolved, That we, the Board of Aldermen, do hereby recommend that the proper authorities hire this building for high school purposes by renting the same until such time as they have money available to buy a site for the same.

By Alderman McCann-Whereas, There is a system of transfers in vogue between the underground er subway system and the elevated railroad at One Hundred and Forty-ninth street and Third avenue, in the Borough of The Bronx, which operates largely to the benefit of travellers on those lines who wish to change and proceed in divergent course, thus saving time and expense; and

Whereas. The same condition prevails at Sixty-sixth street and Broadway, in the Borough of Manhattan, except that transfers are not allowed and the many travellers on the west side of the City whose destination is the Borough of The Bronx are required to pay an extra fare when changing either from or to the subway or elevated road, which should not be required at this point any more than at the point mentioned in The Bronx; therefore be it

Resolved, That the Public Service Commission of the First District be and is hereby requested to direct that an exchange of transfers be put in operation at the point at Sixty-sixth street and Broadway between the subway and elevated railroads to the end that travellers on the west side of the City whose destination is he extreme upper east side be facilitated in reaching the point they seek.

Whereas, It is an established fact that almost every private business concern pays their mechanics and laborers a special rate of wages for what is termed emergency time, that is for all work done after the regular day's work of eight hours is performed, some firms paying at the rate of two, others two and a half and many at the rate of three hours' time for each hour in excess of the regular hours of work; therefore be it

Resolved, That the attention of the Board of Estimate and Apportionment and the heads of the various Departments of the City in which Mechanics and Laborers are employed, be directed thereto so that provision may be made for the payment to all per diem employees of The City of New York of a wage at least equal to that paid by private concerns, said provisions to include pay for labor performed on Sundays and legal holidays.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one hundred thousand dollars, the proceeds whereof to be used by the President of the Borough of Brooklyn for the purpose of carrying on the major part of the work on the Eighth Ward Market, situated in The City of New York, Borough of Brooklyn, which when completed, will bring a large revenue to the City by means of rentals, besides materially helping to build up the many vacant lots in that section of our Borough, thereby creating more taxable property and increasing valuations.

The appropriation of forty thousand dollars by the Honorable Board of Estimate and Apportionment to the Honorable Borough President of the Borough of Brooklyn for work on said above described market is, in our judgment, inadequate, unfair and unreasonable, and not in justice to the citizens and taxpayers of South Brooklyn, who have patiently waited these many years without complaint for the completion of this needed improvement.

Railways Over the Manhattan Bridge.

In the matter of the petitions of the Brooklyn City Railroad Company, Brooklyn Heights Railroad Company and Coney Island and Brooklyn Railroad Company to opera e street surface railways through the Flatbush avenue extension and across the Manhattan Bridge, also joint communications from these and other companies

The petitions of the Brooklyn City Railroad Company and the Brooklyn Heights Railroad Company were presented to this Board at the meeting of September 20, 1907, the petitions of the Coney Island and Brooklyn Railroad Company at the meeting of March 5, 1909, and the joint communications at the meetings of February 4, and I'chruary 18, 1910, and April 15, 1910, and were referred to the Transit Committee.

The Secretary presented the following:

Board of Estimate and Apportionment, City of New York, June 8, 1910.

To the Board of Estimate and Apportionment:

Gentlemen—On April 15, 1910, there was presented to the Board a joint communication of the Brooklyn Heights Railroad Company (lessee of the Brooklyn City Railroad Company) and the Coney Island and Brooklyn Railroad Company recit ing the history of their respective applications for franchises to construct, maintain and operate street surface railways in Flatbush avenue extension and the Manhattan Bridge, and stating that if such petitions are granted and the companies are granted the right to operate through the proposed subway in Canal street, from the Manhattan terminus of the Manhattan Bridge to the North River, they will operate through cars from various parts of the Borough of Brooklyn over the bridge and through Canal street, and will also supply such service without additional fare, and further, that the fare for bridge local cars will be three cents, or two tickets for five cents, and signifying their willingness to take up the matter with the Transit Committee or otherwise as the Board may direct. This communication was on that date referred to the Transit Committee.

Your Committee would, therefore, respectfully report as follows:

There are pending applications from the Brooklyn street surface railway companies for the right to operate either upon the Flatbush avenue extension or the Man nattan Bridge, as follows:

(1) From the Brooklyn City Railroad Company upon Flatbush avenue extension. Petition presented to the Board September 20, 1907.

2) From the Brooklyn Heights Railroad Company upon the Manhattan Bridge

Petition presented to the Board on September 20, 1907.

(3) From the Coney Island and Brooklyn Railroad Company upon the Flatbush avenue extension. Petition presented to the Board on March 5, 1909.

(4) From the Coney Island and Brooklyn Railroad Company upon the Man-

hattan Bridge. Petition presented to the Board on March 5, 1909.

Preliminary public hearings have been held on all of these petitions. The hearing upon the applications of the Brooklyn City Railroad Company, and the Brooklyn Heights Railroad Company was held on November 13, 1908, and upon the application; of the Coney Island and Brooklyn Railroad Company on April 2, 1909.

The proposition of these companies was to operate the routes, for which applications are pending, as extensions to their existing lines in the Borough of Brooklyn It is proposed in each case to operate the cars of the companies to the Manhattan end of the Manhattan Bridge, and thereby create a terminal at that point for practically all the lines of those companies operating in the Borough of Brooklyn.

Subsequent to the filing of the applications of operating companies, applications were also received from two companies, which at the present time do not operate any street surface railways in The City of New York, and which propose to operate between points in the Boroughs of Brooklyn and Manhattan by the way of the Manhattan Bridge, and to carry passengers thereon for a single fare of three cents. The first of these companies to make application was the Triborough Railroad Company, which applied to operate from the intersection of Flatbush avenue with Fulton street in the Borough of Brooklyn, to the intersection of Canal, Walker and Baxter streets, in the Borough of Manhattan. The second company to apply was the Manhattan Bridge Three-Cent Line, which applied for the right to operate from a point near the Flatbush avenue station of the Long Island Railroad, thence upon various streets in the Borough of Brooklyn to and across the Manhattan Bridge to the Borough of Manhattan, thence across the Borough of Manhattan to the North River.

At the meeting of February 4, 1910, there was presented a joint communication from the existing street surface railway companies, which have pending applications by the Metropolitan Street Railway Company, and the Third Avenue Railroad Company, to operate cars to the Brooklyn terminus of the Manhattan bridge, pending the disposition of the applications which have been previously presented to the Board, and by the Brooklyn Heights Railroad Company, the Nassau Electric Railroad Company and the Coney Island and Brooklyn Railroad Company to operate cars to the plaza at the New York end of the Manhattan Bridge, pending the disposition of the applications which had previously been made by the companies operating in the Borough of Brooklyn.

At the meeting of February 18, 1910, another joint communication was received from the Brooklyn Heights Railroad Company (lessee of the Brooklyn City Railroad Company), the Coney Island and Brooklyn Railroad Company and the Nassau Electric Railroad Company, cailing attention to the fact that applications to operate upon Flatbush Avenue Extension and the Manhattan Bridge had prior thereto been made by companies operating in the Borough of Brooklyn, and asking permission to immediately put into service a temporary line from a point near the Flatbush avenue station of the Long Island Railroad, thence upon Flatbush avenue to Livingston street, upon Livingston street to Smith street, upon Smith street and Jay street to the Manhattan Bridge, thence across the Manhattan Bridge to a point near the Bowery, and the fare to be charged on such route to be three cents. The communication stated that if the companies operating in Manhattan will co-operate a route will be established to the North River, but if the companies operating in Manhattan will not co-operate for the use of the tracks in Manhattan, then a new company would be organized for the purpose of obtaining from the City a franchise to operate from the Flatbush avenue station to the North River, the fare to be charged on such route to be fixed by the Board of Estimate and Apportionment at a sum which will afford reasonable compensation for the service rendered.

On March 4, 1910, a report of the Committee to which was referred the application of the Manhattan Bridge Three-Cent Line was presented, in which letter the joint communication was referred to. It was stated that the offer contained in that communication was vague and conditional in terms, and would not bind the Railroad Companies to operate their cars from all points in the Borough of Brooklyn to the heart of the Borough of Manhattan for a three-cent fare, or a five-cent fare, and therefore did not deserve serious consideration, and the report recommended the granting of

the franchise to the Manhattan Bridge Three-Cent Line.

The joint communication which is the subject of this report contains the proposition to operate to the Manhattan end of the Manhattan Bridge, thence by subway to the North River. No contracts have as yet been let for the construction or operation of a subway route in Canal street, and in any event your Committee cannot consider its use for trolley cars. The Canal street subway was originally laid out for the purpose of extending routes to be constructed in the Borough of Brooklyn and crossing the Manhattan Bridge. The extension of such routes by a subway across the Borough of Manhattan by way of Canal street would provide means of easy transfer for passengers between the rapid transit lines from Brooklyn to the longitudinal rapid transit lines in the Borough of Manhattan, and your Committee believes in no case should any action be taken which at any time in the future would prevent the operation of rapid transit trains which will provide for interchange of traffic.

On the other hand, your Committee believes that no franchises should be granted which will permit the forming of terminals at the entrances to the Manhattan Bridge; that through operation is desirable for street surface railway cars, as well as subway or elevated trains. It is believed that there is sufficient space in Canal street to permit of through operation of surface cars from the Borough of Brooklyn.

If it is impossible under the present law to compel the Companies owning tracks in Canal street to permit the operation thereon of other street surface railway companies, then it is the belief of your Committee that the City should urge legislation by

which this can be accomplished.

The offers of the Brooklyn Companies in the various joint communications which have been herein referred to have been indefinite and conditioned upon future events over which the Board has no control. The only definite offer which the Board now has from those Companies is to operate to the Manhattan end of the Manhattan Bridge without extra fare. This would create a congested point at the entrance to the bridge, and in the opinion of your Committee should not be permitted.

It is recommended, therefore, that the application of the Brooklyn City Railroad Company to operate upon the Flatbush Avenue Extension, the application of the Brooklyn Heights Railroad Company to operate upon the Manhattan Bridge, and the applications of the Coney Island and Brooklyn Railroad Company to operate upon the Flatbush Avenue Extension and upon the Manhattan Bridge be denied.

Respectfully,

W. J. GAYNOR, Mayor. WM. A. PRENDERGAST, Comptroller. JOHN PURROY MITCHEL, President, Board of Aldermen.

At the request of H. S. Patten, counsel for the Brooklyn Rapid Transit Company, the matter was laid over until the meeting of June 24, the Transit Committee to give a hearing in the matter.

Triborough Railroad Company,

In the matter of the petition of the Triborough Railroad Company for a franchise to construct, maintain and operate a street surface railway from the intersection of Flatbush Avenue Extension and Fulton street, Borough of Brooklyn, to the intersection of Canal, Walker and Baxter streets, Borough of Manhattan, by way of the Flatbush Avenue Extension, Manhattan Bridge and Canal street.

At the meeting of March 18, 1910, a communication was received from the attorney for the Company stating that in the report submitted by the Transit Committee recommending that a franchise be granted to the Manhattan Bridge Three-Cent Line the proposition of this Company had not been considered, and requesting consideration when the matter was referred to the Transit Committee.

The Secretary presented the following:

Board of Estimate and Apportionment, City of New York, June 8, 1910.

To the Board of Estimate and Apportionment:

GENTLEMEN-At the meeting of the Board held on May 14, 1909, there was presented a petition of the Triborough Railroad Company praying for the right to construct, maintain and operate a street surface railway from the intersection of Flatbust Avenue Extension with Fulton street, in the Borough of Brooklyn, to the intersection of Canal, Walker and Baxter streets, in the Borough of Manhattan, by the way of the Flatbush Avenue Extension, Manhattan Bridge and Canal street. It was proposed to charge for a continuous ride upon this line a fare of three

The preliminary public hearing was held upon the application on June 11, 1909, at which time the matter was laid over to await the report of the Select Committee

to which it had been previously referred. . Under date of March 15, 1910, a communication was received from the Triborough Railroad Company stating that the company wished to be heard upon its proposition before a franchise is granted to the Manhattan Bridge Three Cent Line, which company had also pending before the Board a petition to operate from a point in the Borough of Brooklyn to the North River for a fare of three cents. This communication was presented to the Board on March 18, 1910, and referred to the Transit Com-

Your Committee would report as follows:

There has been pending for some time petitions from street surface railway companies in the Borough of Brooklyn to operate upon Flatbush Avenue Extension, and the Manhattan Bridge to the Manhattan terminal of the bridge. Likewise petitions have been pending from companies operating in the Borough of Manhattan to extend their lines across the Manhattan Bridge to the Brooklyn terminal thereof. These companies proposed to operate the cars which are now being operated in the Boroughs for the right to operate upon the Manhattan Bridge, in which a request was made of Manhattan and Brooklyn to and across the bridge to the terminus at the opposite end of the bridge from the Boroughs in which those companies are now operating, thus tending to create congested conditions at the entrances to the bridge.

Pursuant to the Railroad Law no extra fare could be charged by these companies

other than the five cents now charged for transportation upon these extensions.

Under date of December 30, 1909, the Manhattan Bridge Three Cent Line petitioned the Board for the right to operate from a point near the Flatbush avenue station of the Long Island Railroad in the Borough of Brooklyn, thence by various streets and the Flatbush Avenue Extension to and across the Manhattan Bridge to Canal street, thence upon Canal street and other streets in the Borough of Manhattan to the North River. This company also offered to charge a fare not exceeding three cents for a continuous ride upon its line.

This application was presented to the Board on January 7, 1910, and on February 4, 1910, a public hearing was held, and the matter referred to the Transit Com-

On March 4, 1910, a report of the Committee was presented to the Board. It was recommended in this report that a form of contract for a franchise to the Manhattan Bridge Three Cent Line be prepared and submitted to the Board for its approval, and that the franchise be granted, provided that the terms favorable to the City, including fare and adequate compensation for the privilege granted, be agreed upon between the company and the City. The Transit Committee, before reaching its conclusions, took into consideration the applications which were pending before the Board at that time for the use of the Manhattan Bridge, though no specific mention was made in the report of the application of the Triborough Company. Complaint is made of this fact in the communication of the Triborough Railroad Company to the Board, above referred to.

Your Committee believes that the facilities offered by the Manhattan Bridge Three Cent Line are better for the interest of the City than those offered by the Triborough Company, for the reason that the Manhattan Bridge Three Cent Line proposes to operate entirely across the Borough of Manhattan, and proposes to begin at a point in Brooklyn at Flatbush avenue station of the Long Island Railroad, while the Triborough Railroad Company proposes to operate only from the intersection of Fulton street with Flatbush Avenue Extension, in the Borough of Brooklyn, to a point in the Borough of Manhattan about one thousand feet from the bridge entrance. The fare proposed to be charged by each company is the same.

Your Committee believes that the creation of a terminal point either at the bridge entrance or at a point within one thousand feet thereof, as proposed by the Triborough Railroad Company, should be avoided and every possible effort made to prevent unnecessary congestion of any kind in thoroughfares leading to the entrances

to the East River bridges.

In view of these facts, it is recommended that the application of the Triborough Railread Company be denied.

Respectfully,

W. J. GAYNOR, Mayor.
WM. A. PRENDERGAST, Comptroller.
IOHN PURROY MITCHEL, President, Board of Aldermen.

The following was offered:

Resolved, That the petition, dated May 4, 1909, from the Triborough Railroad Company for a franchise to construct, maintain and operate a street surface railway, from the intersection of Flatbush avenue and Fulton street, upon and along Flatbush avenue to the Manhattan Bridge, and upon, along and over said bridge and its approaches, to the Borough of Manhattan, to the intersection of Canal, Walker and Baxter streets, be and the same is hereby denied.

Second Avenue Railroad Company—Unused Street Surface Railway Tracks.

In the matter of the communication from the Corporation Counsel, requesting to be advised as to the policy which the Board wished to pursue in regard to the recognition by the City of unused and abandoned franchises and tracks of street surface railways in the streets of the City, and referring more particularly to the petition of the Second Avenue Railroad Company to the Public Service Commission for the First District to electrify a portion of its line in Worth street, between Park row and Broadway, Borough of Manhattan.

This communication was presented to the Board at the meeting of May 13, 1910,

and referred to the Transit Committee.

The Secretary presented the following:

City of New York,
Board of Estimate and Apportionment,
June 8, 1910,

To the Board of Estimate and Apportionment:

Gentlemen—At the meeting of the Board held May 13, 1910, there was presented and referred to a committee, consisting of the Mayor, Comptroller and President of the Board of Aldermen, a communication from the Corporation Counsel, requesting to be advised as to the policy which the Board wished to pursue in regard to the recognition by the City of unused and abandoned franchises and tracks of street surface railways in the streets of the City, and referring more particularly to the petition of the Second Avenue Railroad Company to the Public Service Commission for the First District to electrify a portion of its line between Park row and Broadway.

It appears that this matter was the subject of a report by the Division of Franchises, presented at the meeting of December 10, 1909, in which it was shown that the Second Avenue Railroad Company had not operated this line for upwards of twelve years, the old horse car tracks still remaining in the street, and now proposed to resume operations, provided it secured the consent to electrify the line and thereby secure a terminal for its line on Broadway at Worth street, instead of, as at present, operating only as far south as Bayard street on Park row.

The report referred to the policy heretofore maintained by the Board in refusing to recognize rights which were not at present exercised and the reasons for the adoption of such a policy, to wit: The Charter provisions prohibiting unlimited franchises and the desirability of securing additional transit facilities by grant from the City to other companies. It would seem to be for the best interests of the City that it should not recognize grants heretofore made and subsequently abandoned, but rather that the companies should be required to make new applications, wherein the City, by its present form of franchise, could secure control of the streets and reserve to itself the right to permit other companies to operate over the same tracks, thereby preventing a monopoly in any one street, and also securing the reversion of these rights at the end of a specified time.

The Corporation Counsel, in his communication of Mav 9, which was referred to us, shows that the Second Avenue Railroad has abandoned rights in many streets, keeping only such routes as have from time to time seemed to be profitable and desirable, and he points out that a policy by the City which would secure the forfeiture of the unused tracks would place the City in a much stronger position in dealing with new traffic problems as they arise. Your committee believes that this policy is correct and that the City should, by all means in its power, secure control of as many of the streets as is possible in which franchises have lapsed, or where, by action through the Attorney-General, such rights can be forfeited.

An examination of the street shows that the company has already commenced the construction of a double track underground electric road, and that much of the material to be used in such construction is stored in Park row. The street has been open for some time and is at present in a bad condition. Even under these conditions your committee sees no reason why the policy heretofore adopted should be waived in this instance, and the company should, we believe, be required to make an application for an extension of its franchise.

It may not be amiss in this connection to call attention to the narrow width of worth street and the heavy traffic which it has to bear, and under these conditions pany along the west side of the city.

it would seem that in making application the company should make a study of the immediate district, to ascertain if it were not possible to place one track in each of two streets, using Worth street for either the east or the west bound traffic, rather than to have a double track in a street where congestion is bound to occur, especially when the company desires to use a stub-end terminal at Broadway, which is more or less objectionable.

We would therefore recommend that the Secretary be directed to forward a copy of this report to the Corporation Counsel and advise him that the Board still maintains the policy previously adopted and that he should oppose the granting of a change of motive power by the Public Service Commission to the Second Avenue Railroad Company in Worth street, and couple his objections with the suggestion that Worth street, for a double track street surface railway with a stub-end terminal at Broadway is not, in the opinion of the Board of Estimate and Apportionment, a desirable feature.

Respectfuly,

W. J. GAYNOR, Mayor.
WM. A. PRENDERGAST, Comptroller,
JOHN PURROY MITCHEL, President, Board of Addermen.

Which report was accepted and the recommendations therein contained approved by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following matters, not on the calendar for this day, were considered by unanimous consent:

The President of the Borough of Brooklyn presented an application from the Bush Terminal Company for permission to land gravel and other building material upon a portion of the site for the Eighth Ward Market, and to lay temporary tracks to transport said material to a point on Second avenue, Borough of Brooklyn, opposite said landing site, where said Company is constructing certain factory buildings.

Which was referred to the Chief Engineer with instructions to consult with the Corporation Counsel.

Which was ordered filed.

The Secretary presented the following resolution of the Board of Aldermen requesting, and report of the Comptroller, relative to an issue of \$10,000 special revenue bonds (subdivision 8, section 188 of the Charter), the proceeds to be used by the Department of Street Cleaning to provide for the expense of dredging in and

around wharf property set aside for and used by the Department of Street Cleaning for departmental dumps, stating that he has been advised by the Commissioner of Docks and Ferries that while prior to January 1, 1910, it was the practice of said department, upon the request of other departments, to perform the work of dredging, etc., at the expense of the Department of Docks and Ferries, the budget for the current year does not include any appropriation for repairs, alterations and dredging for other City departments, and that the Corporation Counsel has advised said department that dredging alongside of wharf property assigned to other City departments should be done by the Department of Docks and Ferries, and in view of the fact that there is no available appropriation for this purpose, it is recommended that the Board of Estimate and Apportionment concur in the resolution of the Board of Aldermen requesting the above issue of special revenue bonds, with the proviso that the dredging provided for in the appropriation in question should be done under the supervision of the Commissioner of Docks and not under the supervision of the Commissioner of Street Cleaning:

(On May 20, 1910, report of the Comptroller, recommending disapproval of the request of the Board of Aldermen for the above appropriation for the Street Cleaning Department, for the reason that said work is properly a function of the Department of Docks and Ferries, and not of the Department of Street Cleaning, was presented to the Board and ordered filed and copies sent to the Commissioner of Street Cleaning and the Commissioner of Docks and Ferries.)

In the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof to be used by the Commissioner of Street Cleaning for the purpose of dredging in and around Departmental dumps.

Adopted by the Board of Aldermen April 5, 1910, three-fourths of all the members elected voting in favor thereof.

Received from his Honor the Mayor, April 19, 1910, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

P. J. SCULLY, Clerk.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 13, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—In a report presented to your Board, under date of May 16, 1910, relative to a resolution adopted by the Board of Aldermen April 5, 1910, reading as follows:

"Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of ten thousand dollars (\$10,000), the proceeds whereof to be used by the Commissioner of Street Cleaning for the purpose of dredging in and around Departmental dumps."

I stated that, in my opinion,

"The dredging of waters in and about the docks set apart by the Department of Docks and Ferries to the Department of Street Cleaning to provide dumping facilities is in no sense a function of the Department of Street Cleaning, but is a duty imposed upon the Department of Docks and Ferries, and the expense necessarily incurred therefor should be a charge upon the appropriations made to the Department of Docks and Ferries."

I therefore recommend that the Board of Estimate and Apportionment should not concur in the resolution adopted by the Board of Aldermen on April 5, 1910, but that a copy of my report relative thereto should be transmitted to the Commissioner of Docks for his consideration.

I am now advised by the Commissioner of Docks that, while prior to January 1, 1910, it was the practice of the department under his jurisdiction, upon the request of other departments, to perform work in building, repairing and dredging at the expense of the Department of Docks and Ferries, the budget for the current year does not include any appropriation for repairs, alterations and dredging for other city departments.

The Commissioner also quotes from an opinion addressed to him by the Corpo-

ration Counsel, in part, as follows:

"Last year, however, the Department of Docks and Ferries was required by taw
to furnish such departmental estimate and obtain an appropriation for running ex-

penses from the Board of Estimate and Apportionment.

"In such appropriations as included in the final estimate were contained certain accounts for repairs and maintenance, but I am informed by Mr. Phelan of your department that no provision was made for maintenance and repairs of wharf property assigned and set apart for the use of other departments. * * *

"It, therefore, seems to me that the appropriation made to the Department of Docks and Ferries, for the ensuing year, should be confined to wharf property under its exclusive control and management and from which revenue is derived and should not be applied to wharf property assigned to the various departments of the City government and of which such departments have sole use and possession.

"Repairs and maintenance of wharf property so assigned should, in my judgment, therefore, be paid out of the appropriations made to the respective departments.

"The Department of Docks and Ferries has, however, facilities for doing such work in a less expensive manner than other departments of the City government, and I would suggest as a practical solution of the difficulty that you confer with the heads of all departments which may require such work to be done during the coming year and request them to apply to the Board of Estimate and Apportionment for transfers, to the Department of Docks and Ferries from the appropriations to such departments for maintenance and repairs, of amounts sufficient to cover the cost of making the same. * *

"With regard to dredging alongside of wharf property so assigned, I am of the opinion that it should be done by the Department of Docks and Ferries."

In view of this opinion of the Corporation Counsel, it would appear to be proper that the necessary dredging alongside of docks set aside for the exclusive use of the Department of Street Cleaning, should be done under the supervision of the Department of Docks and Ferries. It appearing, however, that there is no appropriation available for this purpose, I now recommend that the Board of Estimate and Apportionment concur in the resolution adopted by the Board of Aldermen on April 5, 1910, with the proviso that the dredging provided for in the appropriation in question should be done under the supervision of the Commissioner of Docks,

and not under the supervision of the Commissioner of Street Cleaning.

I therefore recommend the adoption of the resolution hereunto attached.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The Secretary presented the following resolution of the Board of Aldermen requesting, and report of the Comptroller recommending, an issue of \$5,000 special revenue bonds (subdivision 8, section 188 of the Charter) for the purpose of making alterations to premises at Nos. 991 and 993 Southern boulevard, The Bronx, hired for school purposes:

(On May 27, 1910, the resolution of the Board of Aldermen requesting the above issue was referred to the Comptroller.)

In the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of five thousand dollars (\$5,000), the proceeds whereof to be used by the Department of Education for the purpose of making alterations to premises at Nos. 991 and 993 Southern boulevard, Borough of The Bronx, hired for school purposes.

P. J. SCULLY, Clerk.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 13, 1910.

The Honorable Board of Estimate and Apportionment:

ter, the same took effect as if he had approved it.

Gentlemen—In the matter of a resolution adopted by the Board of Aldermen, May 3, 1910, requesting issue of special revenue bonds to the amount of \$5,000, the proceeds whereof to be used by the Department of Education for the purpose of making alterations to premises at Nos. 991 and 993 Southern boulevard, Borough of The Bronx, to be hired for school purposes, which was referred to the Comptroller at a meeting of the Board of Estimate and Apportionment held May 27, 1910, I would report as follows:

School District No. 24, which extends from One Hundred and Forty-ninth street to One Hundred and Sixty-eighth street, between the Harlem River and Long Island Sound, is in urgent need of additional school accommodations, approximately 3.000 children therein being now on part time. The first floors of two new buildings located at Nos. 991 and 993 Southern boulevard are available and it is proposed to lease them for a period of three years with the privilege of renewal in order to provide an annex to Public School 20, Fox, Simpson and One Hundred and Sixty-seventh streets, which school now has 16 classes on part time, being one of the most congested in District 24. It will be necessary to install additional toilets, partitions, electric light fixtures, etc., in these premises at an estimated cost of \$5,000, in order to fit them for school purposes.

It is important that these premises be made ready for occupancy in September, and I would therefore recommend that this Board approve of and concur in the aforementioned resolution of the Board of Aldermen by the adoption of the resolution attached hereto.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of and concurs in the resolution of the Board of Aldermen, adopted May 3, 1910, in relation to an appropriation of five thousand dollars (\$5,000), for the purpose of making alterations to premises at Nos. 991 and 993 Southern boulevard, Borough of The Bronx, hired for school purposes, and that, for the purpose of providing means therefor, the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue special revenue bonds of The City of New York to the amount of five thousand dollars (\$5,000), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented a report of the Comptroller returning for filing communication from the President of the Board of Trustees, Bellevue and Allied Hospitals, relative to awarding a contract for the supply of blankets for the new Training School for Women Nurses at Bellevue Hospital, at an estimated cost of \$2,988, for the reason that an allowance for said purpose was made in the corporation stock budget.

Which was ordered filed and the Secretary directed to transmit a copy thereof to the Board of Trustees of Bellevue and Allied Hospitals.

(On April 29, 1910, the above matter was referred to the Comptroller.)

The Secretary presented the following communication from the Commissioner of the Department of Street Cleaning requesting, and report of the Comptroller referring, to the request of the Commissioner of Street Cleaning for authority to expend the sum of \$46,114.61 (the unexpended balance of the \$100,000 appropriation authorized July 2, 1909), for the purpose of continuing experiments in the use of devices for cleaning and flushing the streets, suggesting that the Board request the Commissioner of Street Cleaning to make a series of experiments and to compile data thereon of the results obtained by hand flushing to be paid out of the regular departmental appropriation, in order that these results may be available for the use of the Board in the preparation of the Budget for the year 1911, for comparison with the results already obtained by the Commissioner in the use of machine flushing devices, and recommending for adoption two resolutions, one amending resolution adopted July 2, 1909, by striking therefrom the amount of \$100,000 and inserting in lieu thereof the sum of \$53,883.89, the amount already expended for experiments, etc., and the other carrying the above suggestion into effect.

(On April 8, 1910, the above communication was referred to the Comptroller, and on June 10 a report on this subject was laid over one week.)

Department of Street Cleaning, City of New York, Nos. 13 to 21 Park Row, New York, March 30, 1910.

Hon. WILLIAM J. GAYNOR, Mayor, Chairman of the Board of Estimate and Apportionment:

Sir-I request that your Board authorize me to expend the balance of the amount of \$100,000 authorized by the Board of Estimate and Apportionment under a resolution of July 2, 1909, pursuant to the provisions of section 541 of chapter 397 of the Laws of 1909, amounting to \$46,114.61.

I desire to use this fund in conducting a course of experiments along the same lines and in all respects in the same manner as was done by me last summer under the said authority of the Board of Estimate and Apportionment, and to do it in a

way so that the present Board of Estimate and Apportionment shall have actual knowledge of the work, and to include in this course of experiments such use as may be advisable of methods of vacuum cleaning, so as to enable us by contrast to determine the best method.

Respectfully,

WM. H. EDWARDS, Commissioner.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 8, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN-In the matter of the request of the Commissioner of the Department of Street Cleaning for authority to continue experiments in the flushing of streets with water and the cleaning of streets with other devices, pursuant to the provisions of section 541a of chapter 397 of the Laws of 1909, which was referred to the Comptroller at the meeting of this Board on April 8, 1910, I report as follows: A resolution was adopted by the Board of Estimate and Apportionment on July

2, 1909, reading as follows:

"Resolved, That, pursuant to the provisions of section 541a of chapter 397 of the Laws of 1909, the Board of Estimate and Apportionment hereby authorizes and directs the Comptroller of The City of New York to issue special revenue bonds of The City of New York, to an amount not exceeding one hundred thousand dollars (\$100,000), the proceeds whereof to be expended by the Commissioner of Street Cleaning for testing the economy and efficiency of cleaning the streets of The City of New York by the use of water; for hiring and testing patented devices for said cleaning; for the removal of filth and refuse from the gutters as the result of said cleaning; for the compilation of accurate data as to the areas cleaned and the cost thereof, the quantity of water used on each class of areas per square yard cleaned, and for the compilation of data as to the saving, if any, by this method of cleaning as compared w th the cost of sweeping by manual labor and sweeping machines.

The Commissioner operating under that resolution expended the amount of \$53,883.89, and in a communication dated December 23, 1909, transmitted to the Comptroller the results of his experiments, and stated that his tests so far as he desired to make them under this resolution had been completed. This left the amount of \$46,116.11 of the original authorization unexpended. Subsequently the Commissioner decided it to be for the best interests of the City to make further tests and experiments of this character, and his request was made to the Board, which is now the

There seems to be a growing impression, as the result of experiments in other cities, that the use of the hand hose for flushing streets is more effective than to apply the water with mechanical devices. As an indication of this point of view, I refer to a conference held in the City Club on May 10, 1910, which was attended by representatives of thirteen organizations directly or indirectly interested in the improvement of the condition of the City's streets. This conference expressed itself by resolution in favor of the hand flushing process as against the use of machines.

It would appear that section 541a of the Charter restricts the use of special revenue bonds authorized thereunder by the Board of Estimate and Apportionment to the flushing and cleaning of streets with machines and therefore this unexpended balance cannot be used for experiments in hand flushing. As, however, the hand flushing is work which may properly be done by the Commissioner through use of the regular employees of the department and payable out of the regular departmental appropriations, I would suggest that the Board of Estimate and Apportionment request the Commissioner of Street Cleaning to make a series of experiments and to compile data thereon of the results obtained by hand flushing and paid for out of the regular departmental appropriation, in order that these results may be available for the use of the Board of Estimate and Apportionment in the preparation of the budget for 1911, for comparison with the results already obtained by the Commissioner in the use of machine flushing devices.

I would therefore recommend the adoption of the resolutions attached hereto.

Respectfully.

WM. A. PRENDERGAST, Comptroller.

> City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 14, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN-I return herewith a communication of the attorneys for the East Coast Equipment and Construction Company, making a proposition for a temporary contract for cleaning Districts Nos. 5 and 7, in the Borough of Manhattan, City of New York, by flushing machines in order to demonstrate the efficiency of the flushing machines operated by this company. This matter was referred to the Comptroller and the Commissioner of Street Cleaning for consideration by the Board of Estimate and Apportionment at its meeting of April 22, 1910.

I am of the opinion that any further allowances of city money for the purpose of testing the efficiency of patented street flushing mechanics should be deferred for

of testing the efficiency of patented street flushing machines should be deferred for consideration in the maintenance Budget of the Department of Street Cleaning for the year 1911. In making this statement I do not attempt to reflect on the views of

the Street Cleaning Commissioner, which I have not obtained.

I would therefore recommend that this matter be referred directly to the Street

Cleaning Commissioner to be reported on by him to the Board of Estimate and Apportionment in his estimate for the year 1911, in accordance with the resolution attached hereto.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the application of the East Coast Equipment and Construction Company for a test contract for cleaning Districts Nos. 5 and 7 in he Borough of Manhattan, by flushing machines, be referred to the Commissioner of the Department of Street Cleaning for consideration in the annual estimate of that Department for the year 1911.

Which was adopted by the following vote:

Affirmative-The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond-16.

The Secretary was directed to transmit a copy of the report of the Comptroller to the attorney for the company.

The Secretary presented the following resolution of the Board of Aldermen requesting, and report of the Comptroller recommending, an issue of \$1,182.50 special revenue bonds (subdivision 8, section 188 of the Charter), to provide means for the purchase of ten book typewriting machines for the use of the County Clerk of Queens

(On April 22, 1910, the resolution of the Board of Aldermen requesting the above issue was referred to the Comptroller.)

In the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of one thousand one hundred and eighty-two dollars and fifty cents (\$1.182.50), the proceeds whereof to be used by the County Clerk, Queens County, for the purpose of providing means for the purchase of ten new book typewriting machines.

Adopted by the Board of Aldermen April 5, 1910, three-fourths of all the members elected voting in favor thereof.

Received from his Honor the Mayor, April 19, 1910, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

P. J. SCULLY, Clerk.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 14, 1910:

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—In relation to a resolution of the Board of Aldermen, adopted April 1910, requesting an issue of special revenue bonds to the amount of \$1,182.50, the proceeds whereof to be used by the County Clerk, Queens County, for the purpose of providing means for the purchase of ten new book typewriting machines, referred to the Comptroller, I report as follows:

The resolution of the Board of Aldermen is in error in stating that the proceeds are to be used for the purchase of ten new book typewriting machines. It is the intention of the County Clerk to exchange a number of old and broken typewriting machines and with the allowance for the old and broken machines added to the appropriation of \$1,182.50, to purchase ten new machines. The ten new book typewriting machines of the type desired by the County Clerk would cost about \$1,750. In the exchange as contemplated the allowance for old and broken machines would amount to \$567.50.

I would recommend the concurrence by your Board in the resolution of the Board of Aldermen, modified in such a way that the County Clerk may use the appropriation for the purchase of typewriting machines, thereby correcting the error of the Board of Aldermen as previously noted.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The Secretary presented the following:

Resolved, That the Board of Estimate and Apportionment hereby approves or and concurs in the resolution of the Board of Aldermen, adopted April 19, 1910, in relation to an appropriation of eleven hundred and eighty-two dollars and fifty cents (\$1,182.50) for the purpose of providing means for the purchase of ten new book typewriting machines, the proceeds whereof to be used by the County Clerk, Queens County, for the purchase of typewriting machines; and that for the purpose of providing means therefor the Comptroller be and hereby is authorized, pursuant to the provisions of subdivision 8 of section 188 of the Charter, to issue special revenue bonds of The City to make application to the Board of Aldermen for an issue of special revenue bonds of New York to an amount not to exceed one thousand one hundred and eighty-two

dollars and fifty cents (\$1,182.50), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Which was ordered filed and the Secretary directed to transmit a copy thereof to the Departments and others affected.

(On June 3, 1910, the matters as above were referred to said Committee.)

The Secretary presented a report of the Corporate Stock Budget Committee, consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of Manhattan, returning for filing communication from the Board of Health requesting authority to incur an expenditure of \$80,000, instead of \$60,000, for the completion of superstructure of two pavilions for tuberculosis patients at Riverside Hospital, North Brother Island, for the reason that an allowance for said purpose was made in the Corporate Stock Budget.

I desire to establish the grade of Special Inspector and Investigator in the Department at a salary of twenty-one hundred dollars (\$2,100) per annum. The establishment of this position would be of great benefit to the Department, and many cases which arise in the Department demand such a position.

Respectfully,

WM. H. EDWARDS, Commissioner.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, May 24, 1910.

The Honorable Board of Estimate and Apportionment:

Gentlemen—At a meeting of the Board of Estimate and Apportionment held February 25, 1910, a communication was presented from the Commissioner of Street Cleaning requesting the establishment of the position of Special Inspector and Investigator in the Department of Street Cleaning, which was referred to a Select Committee consisting of the Comptroller and the President of the Board of Aldermen for consideration. In connection therewith your Committee submits the following re-

The Commissioner is of the opinion that in the investigations necessary to be made in the administration of the Department, and of the various complaints which come into the Department, many of them being of a confidential nature, the services of a direct representative, as Inspector and Investigator, can be rendered in a more satisfactory manner and with better results than through the employees of the various branches of the department detailed for such examination and investigation.

Your Committee agrees with the Commissioner that a proper discharge of the duties set forth under the named position would serve to increase the efficiency of the department, and would recommend the approval of the request, in accordance with resolution hereto attached

Respectfully,

WM. A. PRENDERGAST, Comptroller;

JOHN PURROY MITCHEL, President, Board of Aldermen;

Select Committee.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 13, 1910.

The Honorable Board of Estimate and Apportionment:

Gentlemen—In reference to a communication from the Commissioner of Accounts, dated June 1, 1910, requesting modifications of the schedules supporting appropriation No. 1092, entitled Salaries and Wages, Chief Accountant, Chief Clerk, Stenographers; appropriation No. 1093, entitled Salaries and Wages, Accounting Staff, and appropriation No. 1094, entitled Salaries and Wages, Inspection Staff, Engineering and Special, in the Budget for 1910, I would submit the following report:

Commissioner Raymond B. Fosdick stated that it was his purpose in making this request to increase the salary of one Examining Engineer from \$3,500 to \$4,500 per annum, and one Stenographer and Typewriter from \$1,500 to \$1,800 per annum, and two Clerks from \$540 to \$600 per annum each, and in order to provide for the proposed increases and for the salary of one additional Accountant at \$1,500 per annum, he proposed to eliminate line items in the present schedules for one Accountant at \$1,750 and one Auto-Engineman at \$1,200 per annum, respectively.

The increase in salary of one Examining Engineer and also the Stenographer and Typewriter is recommended not only to reward the incumbents of these positions for their long and faithful service, but particularly, the Commissioner states, on account of the exceptional qualifications displayed by them. As regards the increase in salary of the two Clerks, the Commissioner says they have been in the employ of the City for over three years, and have proven themselves deserving of the proposed advance in salary.

The elimination of the line Auto-Engineman at \$1,200 is requested for the reason that the incumbent of the position had his title changed to that of Examining Inspector and has been serving in that capacity since June 1. This change will leave the position of Auto-Engineman vacant. The Commissioner says he does not intend to fill the position, as the former incumbent, who is qualified to operate the automobile, which is not used very frequently, will be called upon to do so when necessity requires it. The position of Accountant at \$1,750 per annum, also to be dropped, was provided for in the Budget for 1910, but was never filled. The Commissioner intends to appoint an Accountant at a salary of \$1,500 per annum, and utilize the balance of \$250, together with the \$1,200 provided for an Auto-Engineman for the purpose of increasing the salaries of the employees herein previously referred to. This course the Commissioner says will be of greater advantage to the office, as it will tend to increase the efficiency of the staff.

The contemplated increases amount to \$1,420, and as the amount of the decreases herein considered are in excess of this amount by \$30, the last named sum will be placed in a line item as unassigned balance.

In view of the facts herein stated, I would recommend the approval of the

request in accordance with the resolution hereto appended.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The Secretary presented the following communication from the Commissioner of the Department of Parks, Boroughs of Brooklyn and Queens, requesting, and report of the Comptroller recommending, a modification of the schedules of salaries supporting the appropriation made in the Budget for the year 1910, for said Department, by eliminating the item two Clerks, at \$900 each, and inserting in lieu thereof one Clerk, at \$1,200 per annum:

The City of New York,
Department of Parks, Boroughs of Brooklyn and Queens,
Brooklyn, May 31, 1910.

To the Honorable Board of Estimate and Apportionment:

Gentlemen—I respectfully request a modification of the salary schedule entitled No. 938, Administration, Commissioner's Office, Salaries and Wages, supporting the appropriation made in the budget for the year 1910, by eliminating therefrom the line items as follows:

Clerks, 2 at \$900, \$1,800; Clerk, \$1,200, and inserting in lieu thereof line items to read as follows:

Clerks, 2 at \$1,200, \$2,400; unassigned balance, \$600, not increasing thereby the total of the schedule.

Respectfully yours,
M. J. KENNEDY, Commissioner.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 10, 1910.

The Honorable Board of Estimate and Apportionment:

Gentlemen—In regard to a communication received from the Commissioner of Parks, Boroughs of Brooklyn and Queens, requesting a modification of the salary schedule entitled No. 938, Administration, Commissioner's Office, supporting the appropriation in the Budget for 1910, which was referred to me for consideration, I submit the following report:

Provision was made in the Budget of 1910 for two Clerks at \$900 each per annum, and one Clerk at \$1,200 per annum. The Commissioner desires to modify the schedule by eliminating the item of two Clerks at \$900 each and inserting in lieu thereof one additional Clerk at \$1,200 per annum, and placing the \$600 saved thereby in a line item for unassigned balance.

During the year 1909, the Chief Bookkeeper in the office of the Commissioner, who received a compensation of \$2,550, died, his duties being taken up by a Clerk receiving \$1,200 per annum, who was this year promoted to the position of Bookkeeper at \$1,650, the grade of \$2,550 being eliminated from the schedule.

The request for the present modification is made so as to enable the Commissioner to increase the salary of the Clerk now receiving \$900 per annum, who took the position of the Clerk promoted to Bookkeeper. The incumbent filling the position is doing excellent work, and the Commissioner desires to advance him accordingly, rather than to employ an additional Clerk.

In view of these facts, and the further fact that the modification requested shows a saving to the City, I recommend favorable consideration of the resolution hereunto appended.

Respectfully,
WM. A. PRENDERGAST, Comptroller.

On reading and filing copy of resolution of the Board of Aldermen, adopted May 10, 1910, approved by the Mayor May 16, 1910, as follows:

Whereas, The Board of Estimate and Apportionment adopted the following reso-

lution at a meeting held April 22, 1910: Resolved, That, in accordance with the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment of the following

grades of positions in the Police Department in addition to those already ex-

The Honorable Board of Estimate and Apportionment:

GENTLEMEN-In the matter of a communication from the Police Commissioner dated May 18, 1916, requesting a revision of the schedules supporting the salaries and wages appropriation in the 1910 Budget entitled No. 639, Office of the Commissioner and Deputy Commissioner; No. 640, Office of the Chief Clerk and Bookkeeper; No. 641, Employees of the Telegraph Bureau, and No. 643, Mechanics and Laborers, which was referred to me for consideration, I would report as follows:

The request of the Police Commissioner, if granted, will permit an increase in the salaries of subordinate employees in accordance with the recent authorized establishment of additional grades of positions. The positions affected and the increased rate

of compensation are as follows: Second Deputy Police Commissioner from \$4,000 to \$6,000; Third Deputy Police Commissioner from \$4,000 to \$6,000: Fourth Deputy Police Commissioner from \$4,000 to \$6,000; Secretary to Commissioner from \$3,000 to \$3,500; First Deputy Clerk from

\$3,000 to \$3,500; Assistant Bookkeeper from \$2,700 to \$3,000; Complaint Clerk from \$2,000 to \$2,500; Messenger from \$900 to \$1,200. The increases amount to \$8,100 per annum. The proposition is to pay at the

increased rates from May 16, the date the resolution authorizing the establishment of the new grades of positions was approved by the Mayor. The amount required for the purpose is fixed at \$5,073.32. The Police Commissioner proposes to pay the salaries at the increased rate by a

transfer of \$3,000 allowed in the Budget for the salary of an expert in the Telegraph Bureau, which position has been abolished and a transfer of \$2,073.32 from \$3,000 allowed for the salary of the Building Inspector, which position remains unfilled. It would appear from the request that although the schedules supporting the appro-

priations for salaries and wages are increased at the annual rates fixed, to the extent of \$8,100 the amount really available to meet the increases is much less than \$6,000. The request for the transfer of funds includes in fact the diversion of the full annual allowances for salaries of positions which have been abolished or remain unfilled, which cannot be done under the resolutions attached to the Budget for 1910.

There is a sufficient amount, however, available for the salaries of the Second, Third and Fourth Deputy Commissioners at the rate of \$6,000 each per annum from June 1. The additional sum of \$3,500 would be required for the purpose which is obtained from the salary of the abolished position of Expert in the Telegraph Bureau at \$3,000, and the position of Building Inspector at \$3,000 also abolished. No increases in the salaries of the Secretary to the Commissioner, the First Deputy Clerk, the

Assistant Bookkeeper, the Complaint Clerk and the Messenger can be provided on the basis of the present request unless preference is given to these increases instead of those thead of them in the request of the Commissioner.

In view of the facts herein stated, I would recommend that the request of the Police Commissioner in so far as it relates to the Deputy Police Commissioners be granted in accordance with the resolutions attached hereto.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The duties of Watchman are now being performed by two Hospital Helpers, at a salary of \$300 per year each.

The changes in the nursing service are required to meet the number of Graduate Nurses now employed. It is impossible to secure sufficient Pupils or Post-Graduate Nurses, and the recent graduation of Pupil Nurses has reduced still further the number of Pupil Nurses in the Department.

The change in Pathologists is in order to increase the salary of Dr. Crowell, who has been in the Department since June, 1908, and well deserves an increase.

The other changes are of a minor nature and are made simply to meet the present nceds of the Department.

The number of Head Pupil Nurses has been increased, but there is really no increase in personnel. These Nurses have always been employed in the Psychopathic Wards, but in the past have been incorrectly described as Hospital Helpers. The regular Hosp tal Helpers have been correspondingly reduced, and the increase which is shown above is only to permit of the temporary employment of additional Helpers

during the vacation period. 194. This arrangement has not been satisfactory for the reason that these barbers charge the patients exorbitant rates and made themselves generally obnoxious. We have lately been paying a barber, on bill rendered, for actual work done, but it is believed that a man employed by the hospital for this purpose will prove much more satisfactory.

City of New York Department of Finance, Bureau of Municipal Investigation and Statistics, June 8, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN-A communication presented to the Secretary of your Board from the Board of Trustees of Bellevue and Alhed Hospitals, dated May 25, 1910, requesting further modification of schedules supporting the appropriations made in the Budget for the year 1910 for the Department of Bellevue and Allied Hospitals, and also the transfer of funds in order to make the schedule modifications effective, has been referred to me for consideration.

I would report that the Board of Trustees desire to have schedule No. 190 modified so as to provide for the salary of an additional Hospital Helper, at \$240 per annum, in the office of the Assistant Superintendent.

In schedule No. 191, it is proposed to strike out the line items, "Supervisor, \$720" and "Watchman, two at \$720 each." The duties of watchman are now performed by two Hospital Helpers at \$300 a year each. In regard to the changes in the nursing service, the Board of Trustees state that they "are required to meet the number of Graduate Nurses now employed; that it is impossible to secure sufficient pupils or Post Graduate Nurses, and the recent graduation of Pupil Nurses has reduced still further the number of Pupil Nurses in the Department." The Trustees also state that the increase of salary of Dr. Crowell, Pathologist, from \$1,500 to \$1,800 per annum, is well deserved, he having been in the Department since June, 1908. Other changes of a minor character are made to meet the present needs of the Department. Head Pupil Nurses employed in the psychopathic wards have been incorrectly described as Hospital Helpers, and their titles have been changed. The increase shown in hospital helpers is to permit of the temporary employment of additional Helpers during the vacation period.

The change in schedule No. 194 is made in order to provide for the salary of a

Barber at \$240 a year at Gouverneur Hospital.
In schedule No. 195 the title of Orderly at \$720 is changed to Hospital Clerk. In schedule No. 198 it is proposed to drop two Automobile Enginemen at \$1,200 each, and employ two additional Drivers at \$600. Regarding this change the Trustees state that they have purchased an electric ambulance for Fordham Hospital, instead of a steam or gasoline car, as was first proposed, and it is believed that after a little training the ordinary Drivers will be able to run the machine. Automobile Enginemen will not be required. The increase of Helpers is asked for to allow of the employment of extra Helpers for vacation purposes.

As the yearly rate of expenditure for salaries is not increased over that fixed in the Budget appropriations for 1910, I recommend that the requests of the Board of

Trustees of Bellevue and Allied Hospitals be approved.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

There is at present on the roll an average of 113 Nurses, and of these 33 are detailed at Gouvernuer Hospital. For their services the sum of \$4,752 has been transferred from Bellevue and Allied Hospitals to this Department, making the sum of \$14,012 available. It is the same amount appropriated for 1909, which amount was insufficient, resulting in the request of January 15, 1910, for the transfer of \$1,577.22 from other appropriations within the Department to this institution in order to pay the Pupil Nurses their salaries for November and December, 1909. We estimate that the sum of \$1,575 additional will be required for 1910, as the same number of Nurses is to be maintained. There are more patients being taken care of, and a less number of Pupil Nurses cannot be thought of unless the City wants to have the Department criticised for not properly taking care of its patients.

A slight increase is recommended for Stenographer from \$600 to \$750. Inasmuch as the new staff house at the Metropolitan Hospital District will be ready for occupancy August 1 this year, it becomes necessary to present the following estimate of salaries and wages necessary for additional help. Resident staff numbers at the present time 21 men. We should have 30. In the new home we plan to provide for this number. The additional help required will be: 1 Cook at \$420 and 1 at \$240 per annum; 2 Waitresses at \$240; 2 Chambermaids at \$216, and 4 Hospital Helpers at \$144 each.

The Chaplain at this institution has been filling the place for a year without any compensation, and the demands upon his time are so onerous that he has had to have an Assistant. There are paid Chaplains at all other institutions, and I think one should be at this institution with a census of 1,548 patients at the Metropolitan Hospital and

Tuberculosis Infirmary, and the largest death rate in the Department, owing to the nature of the disease of patients.

To the Board of Estimate and Apportionment:

GENTLEMEN—We respectfully request the amendment of the schedules supporting the appropriation for the Department of Taxes and Assessments in the Budget of 1910, in accordance with the appended schedules. The reasons for the request are briefly stated as follows:

The appropriation for 1910 exceeds the appropriation for 1909 by \$22,600. The increase was granted first, in order to increase the number and decrease the size of assessment districts. Some districts contained over 14,000 parcels of real estate, and it is impossible for any man to assess satisfactorily so many parcels. Second, the increase was granted to provide for an increase of salaries in accordance with a definite plan of administration, pursuant to which deputies are appointed at a minimum salary of \$1,800, with the expectation that faithful and efficient work will result in an increase of \$150 every second year, so that in sixteen years the deputy may receive \$3,000 a year. Clerks are appointed as a rule at \$600 a year with the like expectation of an increase of \$150 every second year, so that in fourteen years they may receive \$1,500 a year, which is the highest ordinary salary. A few clerks receive the maximum salary of \$1,800, but only after over twenty years of faithful service. Clerks in the Tax Department are called upon for service in the field with deputies at work which demands experience and judgment. It is impossible to secure and retain comptent men at the low salaries without a reasonable expectation of steady advancement.

The Budget for the Tax Department for 1910 contained a provision for \$13,450 increase of salaries over preceding year and \$9,150 for new deputies and clerks. The present Board did not make increases of salaries and did not appoint to new places, but continued the department on the 1909 payroll up to the present time in order that all the Commissioners might be thoroughly acquainted with the conditions before making any changes. The changes now made are the result of the experience and careful study of the Commissioners and are made with the sole purpose of increasing the efficiency of the department.

The necessary increases in the staff of the department are made each year in June in preparation for the assessment of the autumn and winter following, but under the requirements of the charter allowance for these has to be made in the budget beginning with January. The departmental budget shows to the end of May a saving in salaries of \$16,331.38. There has also been transferred from salaries account to contingencies the sum of \$5,000 to cover the purchase of furniture and fittings in the new Queens office.

In the change in supporting schedules now requested provision has been made for four new deputies and four new clerks at an expense of \$9,600 and the balance has been distributed in increases of salary at \$150 to deputies and clerks who have not received an increase within two years, and whose record shows good work and faithful attendance.

In spite of the increase in number and salaries the department will spend less in 1910 than the appropriation for 1909 and will return to the General Fund over \$22,600, which was the amount by which the appropriation for 1910 was increased over 1909.

Respectfully,

LAWSON PURDY, President.

The Honorable Board of Estimate and Apportionment:

Gentlemen—In the matter of a communication addressed to your Board under date of June 9, 1910, by the President, Commissioners of Taxes and Assessments, requesting a modification of the schedule of salaries and wages for his Department for the year 1910, I would report as follows:

Mr. Lawson Purdy, President, Commissioners of Taxes and Assessments, ex- 1119. Administration, Salaries and Wagesplains in his communication to your Board that his reason for requesting the increases in salary of those herein under consideration is in accordance with a definite plan of administration pursuant to which Deputies are appointed at a minimum salary of \$1,800 per annum, with the expectation that faithful and efficient work will result in an increase of \$150 every second year, so that in sixteen years the Deputy may receive \$3,000 per annum. The Clerks are appointed as a rule at \$600 per annum and usually receive an increase of \$150 every second year, so that at the end of fourteen years they may receive a salary of \$1,500 per annum, which is the highest ordinary salary. A few receive the maximum salary of \$1,800, he says, but only after twenty years of faithful service.

He further states that Clerks are called upon for service in the field with Deputies at work which demands experience and judgment, and that it is impossible to secure and retain competent men at low salaries without a reasonable expectation of steady

advancement. The necessary increases in the staff of the Department, Mr. Purdy says, are made each year in June in preparation for the assessment of the autumn and winter folloing, but under the requirements of the Charter allowance for these has to be made in the Budget, beginning with January. In the change in the schedules herein requested provision has been made for four new Deputies and four new Clerks at an expense of \$9,600. These new positions are requested for the purpose of increasing the number and decreasing the size of assessment districts. Some districts contained over 14,000 parcels of real estate, and it is impossible, Mr. Purdy says, for any man to

assess satisfactorily so many parcels.

The proposed increases in the salaries of the Deputies and Clerks herein considered to the extent of \$150 each are for those who have not received an increase within two years, and whose record shows good work and faithful attendance.

Mr. Purdy further says that in spite of the increase in number and salaries, the Department will spend less in 1910 than the appropriation for 1909 and will return to the General Fund over \$22,600, which was the amount by which the appropriation for 1910 was increased over 1909.

The salary schedule as modified contains a line item entitled "Unexpended balance, \$21,950." It is proposed in order to provide for the increases herein considered that the amount necessary shall be deducted from this amount.

In view of the facts stated, and inasmuch as the changes asked for will result in no increase in the yearly rate of expenditure for salaries over that provided in the Budget for 1910, I would recommend the approval of the request, in accordance with the resolution hereto appended.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

Mr. John C. McGuire, President, Civil Service Commission, stated that the position of Examiner for one additional incumbent is asked for on account of the heavy increase in the business of the office. He says that it is his intention to appoint one of the per diem Examiners who is a doctor of medicine to fill the position, as the business of the office is often hindered for the want of a professional man to examine papers of a technical nature or to draft a set of questions for examinations. The Commissioner further stated that it would be the duty of this Examiner to examine not only papers of a technical nature, but all others that the Chief Examiner might

The salary of a per diem Examiner is \$10 per day and from an inspection of the payments made to this Examiner, it appears that he received for the year 1909 \$1,925, and for the first five months of 1910 \$850. The Commissioner says that by placing this man on an annual employment basis at \$2,400 per annum he will accomplish a saving to the City, as he will, in addition to his present duties, do the work of

another Examiner, whose services will be dispensed with. The proposed increases in the salaries of present employees previously noted

I recommend the approval of the request of the Commission by the adoption of the resolution hereto appended.

The Secretary presented the following resolution of the Board of Aldermen requesting, and report of the Comptroller recommending, an issue of \$750 special revenue bonds (subdivision 8, section 188 of the Charter), the proceeds to be used by the City Magistrates, Second Division, for the services of Interpreters in the First District Coart, Borough of Richmond.

(On April 29, 1910, the resolution of the Board of Aldermen requesting the above issue was referred to the Comptroller.)

In the Board of Aldermen.

Resolved. That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of seven hundred and fifty dollars (\$750), the proceeds whereof to be used by the City Magistrates, Second Division, for the purpose of paying for the services of Interpreters in the City Magistrates' Court, Second Division, First District, Borough of Richmond, during the year 1910.

Adopted by the Board of Aldermen, April 5, 1910, three-fourths of all the members elected voting in favor thereof.

Received from his Honor the Mayor, April 19, 1910, without his approval or disapi roval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

P. I. SCULLY, Clerk.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 11, 1910.

The Honorable Board of Estimate and Apportionment:

1

GENTLEMEN-In the matter of the resolution adopted by the Board of Aldermen April 5, 1910, requesting the Board of Estimate and Apportionment to authorize the issue of \$750 special revenue bonds, the proceeds whereof to be used by the City Magistrates, Second Division, for the purpose of meeting expenditures for services of Interpreters in the City Magistrate's Court, Second Division, First District, Borough of Richmond, referred to me for consideration, I would report as follows:

The request if granted will permit of the employment of an Interpreter under rule 12, section 6, of the Civil Service Law, which in part reads thus: "The Commission may, by resolution, except from competitive examination any person engaged in private business who shall render any professional scientific, technical or expert service of an occasional and exceptional character to any City officer and

the amount of whose compensation in any one year shall not exceed \$750. It would appear from the information furnished me that there exists urgent need for the employment of an Interpreter of the Italian language in the Magistrates' Courts, Second Division, Borough of Richmond. Magistrate Handy of that Borough says that "the greatest need of this court is for an Italian Interpreter. It is a need tha: I cannot express too strongly and I trust that the appropriation can be made at

From the facts disclosed in the examination in this matter it seems that there has been a large increase in the Italian population of the Borough of Richmond, and the contention is that prisoners of that nationality who are arraigned before a Magistrate and who are unable to speak the English language are justly entitled to an intelligent and correct interpretation of the evidence for or against them. If the appropriation asked for is allowed, it is the purpose of the Magistrates to appoint temporarily an Italian who is familiar with the various Italian dialects. The Magistrates of this Borough have endeavored for several years to secure a budget approprilanguage only.

The request of the City Magistrates is similar to requests made in the years 1908 and 1909, and which were granted by the Board of Aldermen and the Board of Estimate and Apportionment.

I recommend the approval of the resolution of the Board of Aldermen authorizing the appropriation of \$750 for compensation for the services of an Interpreter in the City Magistrates' Courts, Second Division, First District, Borough of Richmond, and submit for consideration and concurrence the resolution hereto appended.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved. That the Board of Estimate and Apportionment hereby approves of and concurs in the resolution of the Board of Aldermen, adopted April 5. 1910. requesting the issue of seven hundred and fifty dollars (\$750) special revenue bonds, the proceeds whereof to be used by the City Magistrates, Second Division, for the services of Interpreters in the First District Court, Borough of Richmond, and for the purpose of providing means therefor the Comptroller be and he is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Charter, to issue special revenue bonds of The City of New York to an amount not exceeding seven hundred and fifty dollars (\$750), redeemable from the tax levy of the year succeeding the year of their issue.

Affirmative-The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond-16.

The Secretary presented the following reports (2) of the Comptroller, returning for filing communication from the Department of Health relative to incurring expenditures for various improvements at the Otisville Sanatorium, the Kingston Avenue Hospital, Brooklyn, for the employment of Inspectors and the purchase of supplies in connection with the construction of new buildings, and for the construction of buildings, etc., at the "Haacke Farm," Borough of Queens, for the reason that three of the items contained in said communication were allowed in the Corporate Stock Budget, and the remainder were not approved by the Corporate Stock Budget Committee, and stating that in regard to the item for improvements at the "Haacke Farm" it is recommended that suggestion be made to the Department of Health to turn over said property to the Commissioners of the Sinking Fund, and that the Board of Health request the Board of Estimate and Apportionment for authority to purchase new sites, in lieu of the above property, when same shall have been selected, and submitting for adoption resolution carrying said recommendation into effect.

(On March 18, 1910, the above communication was referred to the Comptroller.)

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 10, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—At a meeting of your Board held on March 18, 1910, a communication presented from the Board of Health, requesting authority, pursuant to a resolution adopted January 14, 1910, to incur expenditures chargeable against the issues of corporate stock heretofore authorized for purposes of construction of buildings, of a sewerage system, and of a power plant, at the "Haacke Farm," Borough of Queens, was referred to me for consideration.

I would report that application was made for an allowance of \$3,000 for the employment of an architect and a sanitary expert as his or their services might be required in preparing plans showing the proposed building, etc., for a hospital for contagious diseases on the "Haacke Farm.

At a meeting of the Board of Estimate and Apportionment held on June 11, 1909, corporate stock in the amount of \$230,000 was authorized for the construction of buildings, of a sewerage system, and of a power plant by the Department of Health on the "Haacke Farm." The Board had authorized the purchase of this farm, on July 15, 1903, as a site for a hospital for contagious diseases in the Borough of Queens, at a cost of \$16.957.50. The farm consisted of a plot of 22.61 acres.

Owners of property in proximity to the proposed site for a contagious disease hospital have made strong protest against the plan. The use of the "Haacke Farm" for this purpose, it is urged, would unfavorably affect a large area of territory which is available for high class residential purposes. Since the purchase of the farm by the City there has been substantial development in the vicinity. The value of the farm has been largely enhanced since 1903.

Your Board in adopting the Corporate Stock Budget, on June 3, 1910, rescinded the amount of \$239,000 corporate stock, heretofore authorized for the purposes of improvements on the "Haacke Farm."

I would suggest that locations accessible to the largely populated areas of the Borough be found on the north side and south side of Queens Borough, to be used for the establishment of contagious disease hospitals, the locations to be on islands preferably, or at least on the water-front.

I would recommend that the suggestion be made to the Department of Health to turn over the "Haacke Farm" property to the Commissioners of the Sinking Fund, and that the Board of Health ask the Board of Estimate and Apportionment for authority to purchase new sites, when the same shall have been selected.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The Secretary presented a report of the Comptroller referring to communications from the South Side Board of Trade, Brooklyn, and the Lefferts Park Improvement League, requesting that an appropriation be granted for the establishment of an emergency hospital in the Thirtieth Ward, Borough of Brooklyn, stating that the matter of providing funds for said purpose was considered by the Corporate Stock Budget Committee, but at the request of the Commissioner of Public Charities it was not allowed in the Corporate Stock Budget, preference being given to demands of a more urgent character in the Department.

Which was ordered filed and the Secretary directed to transmit a copy thereof to the South Side Board of Trade, Brooklyn, and to the Lefferts Park Improvement

(On April 22 and May 6, 1910, respectively, the above communications were reierred to the Comptroller and to the Commissioner of Public Charities.)

The Secretary presented a communication from the Comptroller returning for filing certified copy of resolution adopted by this Board on May 6, 1910, requesting the Comptroller to prepare two statements, one covering the rapid transit investments of the City and one covering the dock investments for presentation to the Board, for the reason that subsequent to the adoption of said resolution the Board adopted another resolution requesting the Comptroller to prepare a statement covering the rapid transit investments alone, which statement was submitted at the meeting of June 1, 1910.

Which was ordered filed.

The following transfers of appropriations were made upon the recommendation of the Comptroller:

\$3,300, as requested by the Department of Health, within the appropriation for he year 1910.

SIR-At a meeting of the Board of Health of the Department of Health held May 18, 1910, the following resolution was adopted:

296. Administration-Division of General Sanitary Inspection-Purchase of Horses..... Laboratories, Research and Vaccine-Purchase of Horses.... 2,000 00 Hospitals-Tuberculosis Sanatorium, Otisville-Purchase of 600 00 Horses

\$3,300 00 -the same being in excess of the amounts estimated to be required for the purposes thereof, to the appropriation made to said Department for the year 1910, entitled and as follows:

278. Administration-Division of District Medical Inspection-Purchase of Horses.....

-the amount of said appropriation being estimated to be insufficient.

EUGENE W. SCHEFFER, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 9, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN-A communication from the Board of Health, dated May 20, 1910. requesting the transfer of \$3,300 from three other appropriations for the purchase of horses to the appropriation for the purchase of horses in the Division of District Medical Inspection, within the appropriations made to the Department of Health for the year 1910, has been referred to me for consideration.

An examination of the records of the Department of Health shows the following as the number of horses in use in the different Boroughs:

	Ambu- lance	Good Wagon
Department Stables—	Horses.	Horses.
	40	
Manhattan	6	8
Brooklyn	13	7
The Bronx	7	4
Queens	3 2	4
Richmond	2	3
Total	31	26
Ambulance horses		31
		57
On Livery—		
Manhattan		3
Brooklyn		3
Richmond		3 3 5
Executive Officials—		
Superintendent of Hospitals		1
Medical Inspector, Contagious Diseases Division, The Brons		i
All Borough Chiefs, Queens		3
Total		73

It is proposed by the Commissioner, as soon as the funds to be transferred are available, to secure bids and enter into a contract for the supplying of horses for the Division of District Medical Inspection. Animals in good condition are required for service in the Division of District Medical Inspection. They are used for ambulance work and for good wagons, which transport clothing, bedding, etc., for fumigation from houses in which contagious diseases are found, and return,

Annual appropriations have been made heretofore for the purchase of horses for the Research Laboratory, for the production of anti-toxin. It is now proposed that when horses have become unfitted for active work in the Division of District Medical Inspection they shall be turned over for use in the Research Laboratory. A number of such unfit horses are now in condition to be transferred. Other "run down" horses will be transferred to the Sanatorium at Otisville for farm work.

The Commissioner claims also that under the plan here proposed the purchase of the horses would be a proper charge to that fund in the Division of District Medical Inspection. Examination of the books in the Department of Finance shows that there remain in the three funds mentioned sufficient balances to allow of the transfers being made.

In view of the facts above stated, I recommend that the request of the Board of Health be approved, in accordance with resolution hereto appended.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 13, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN-In the matter of a communication from the Board of Education requesting the transfer of \$2,500 from the 1910 appropriation for electrical installation and repairs, Borough of Brooklyn, to the appropriation for general repairs in the same Borough, which has been referred to me by the Secretary, Board of Estimate and Apportionment, my report is as follows:

THE CITY RECORD.

In the departmental estimate of the Board of Education for the current year \$50,000 was requested for gas and electrical installation and repairs in the Borough of Brooklyn. The sum of \$40,000 was appropriated for electrical installation and repairs with the understanding that gas mantles, repairs, etc., should be provided for out of the appropriation for general repairs. It now appears, however, that the latter appropriation is not sufficient to meet all such requirements and it is therefore proposed to transfer the sum of \$2,500 thereto, as previously stated. It is recommended that the request be granted by the adoption of the resolution attached

Respectfully,

WM. A. PRENDERGAST, Comptroller.

KINGSLEY L. MARTIN, Commissioner,

\$2,900 00

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics,

The Honorable Board of Estimate and Apportionment:

GENTLEMEN-In the matter of a communication under date of June 3, 1910, from the Commissioner of the Department of Bridges, requesting transfers aggregating the sum of \$2,900 within the appropriations made to that Department for the year 1910, I present my report herewith, as follows:

The requested transfers are from Manhattan Bridge (No. 131), Materials for Repairs and Replacements by Departmental Labor, \$2,900, to

Manhattan Bridge—	
130. General Supplies	\$2,000 00
General Administration—	
72. General Supplies	250 00
73. Purchase of Furniture and Fittings	400 00
76. Contingencies	250 00
·	\$2,900 00

From memoranda submitted by the Commissioner's representative the status of these accounts as of June 1, 1910, appears to have been as follows:

	Appropriation, 1910.	Expenditures to June 1, 1910	Open Market Order Reserve,	Unen- cumbered Balance.
Code No. 131	\$11,600 0)	\$131 90	\$1,431 87	\$10,036 23
Code No. 130	\$2,500 00	\$1,725 67	\$192 00	\$582 33
Code No. 72	1,000 00 350 00	440 96 287 73	414 05	144 99 62 27
Code No. 76	1,000 00	300 36	486 50	213 14
	\$4,850 00	\$2,754 72	\$1,092 55	\$1,002 73

It therefore appears that while in account No. 131, Materials for Repairs and Replacements by Departmetal Labor, over 86 percentum of the original appropriation is still unencumbered owing, principally, to the fact that the Manhattan Bridge is still under construction; in the accounts to which the transfers are requested, little more than 20 percentum of the total original appropriation was unencumbered on

The requested transfers would appear to be necessary, and I therefore recommend the adoption of the resolution hereunto attached.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The condition of the accounts which require replenishment is as follows:

No. 272, Apparatus-Machinery, Vehicles, Horses; Equipment, Care and Storage of Same, Manhattan and The Bronx-The Budget allowance was \$6,000, which was increased by transfer to \$8,000. The liabilities incurred amount to \$43,491.61, or \$35,491.61 in excess of the amount available. Of this deficiency, \$25,855.18 was provided through the issue of special revenue bonds on February 18, 1910, to meet bills received up to November 1, 1909, the present deficiency of \$9,636.46 representing bills received since that date. The deficiency in this account is due to the fact that in segregating the Budget for 1909 an insufficient amount was allowed; also to the

purchase of new machinery and repairs to boilers.
No. 275, Telephones, Rental of, Manhattan and The Bronx—The Budget allow-

ance was \$6,000; the liabilities amount to \$6,125, showing a deficit of \$125. No. 302, Apparatus—Machinery, Vehicles, Horses; Equipment, Care and Storage of Same, Richmond—The Budget allowance was \$1,500; indebtedness has been incurred to the amount of \$2,179.04, showing a deficit of \$679.04.

No. 305, Telephones, Richmond-The Amount available was \$350; liabilities

amounted to \$454.41, or \$104.41 in excess of the amount available. No. 307, Transportation of Paupers-The amount available was \$5,142; the

amount charged against the account amounted to \$5,566.93, or \$424.93 in excess of the No. 312, State Hospital for Incipient Tuberculosis-The sum of \$25,620.82 was

available for this account; liabilities to the amount of \$27,116.03 have been incurred, showing a deficit of \$1,495.21. The balances remaining to the credit of the accounts from which transfers are

to be made to meet the requirements of the accounts in which the deficiencies exist are sufficiently large to warrant their depletion in the amounts recommended in In view of the fact that the requested transfers will provide a more equitable

distribution of the allowances made in the Budget for 1909 for various functions of the Department of Public Charities, and will also serve to meet the obligations incurred during the year without increasing the total cost, I recommend that the requests be approved, as per resolution attached hereto.

R. WALDO, Commissioner.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 8, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—At a meeting of your Board held on February 25, 1910, resolutions were adopted approving of the modification of certain salary schedules supporting the appropriations made for the Fire Department for the year 1910, and authorizing the transfer of \$2,200 to make effective such modifications. The Fire Commissioner subsequently requested that the resolution of transfer be amended by making the amount to be transferred \$2,000 instead of \$2,200. Upon the request as modified 1 report as follows:

The appropriation for 1910 for the Bureau of Chief of Department, Borough of Brooklyn, included an allowance of \$2,400 for the services of a Clerk. The incumment of the position was detailed to the Bureau of Chief of Department, Borough of Manhattan, during January, 1910. On February 10, 1910, the Fire Commissioner requested a modification of the salary schedules of the two Bureaus mentioned, which provided for the transfer of the Clerk in question to the Manhattan Bureau. The request was approved by your Board on February 25, 1910, and a resolution adopted authorizing the transfer of \$2,200 to the Manhattan Bureau, to meet the salary cost for the balance of the year, commencing with the month of February, the salary for January having been paid from the appropriation allowed for Brooklyn.

It appears that notice of the action taken by your Board was not received by the Fire Department until after March 1, 1910, the result being that the Clerk's salary for the month of February, although included in the \$2,200 transferred to Manhattan, was charged against the original Brooklyn appropriation, thereby making the amount necessary for the Clerk's salary as an attache of the Manhattan Bureau \$2,000, instead

In view of the facts stated herein, I recommend that the request of the Fire Commissioner be approved, as per the resolution attached, which retransfers the sum of \$200 to the appropriation for 1910 entitled Administration, Borough of Brooklyn-Bureau of Chief of Department (No. 809), Salaries and Wages.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered: Resolved, That the sum of two hundred dollars (\$200) be and the same is hereby transferred from the appropriation made to the Fire Department for the year 1910, entitled Administration, Borough of Manhattan, Bureau of Chief of Department (No. 756), Salaries and Wages, the same being in excess of the amount required for the purposes thereof, to the appropriation made to the same Department for the year 1910, entitled Administration, Borough of Brooklyn, Bureau of Chief of Department (No. 809), Salaries and Wages, the amount of said appropriation being

insufficient. Which was adopted by the following vote:

Affirmative-The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond-16.

The Secretary presented the following communication from the Comptroller recommending that the request of the Clerk of the Third District Municipal Court, Borough of Manhattan, for the transfer of \$10.95 from some unexpended balance to the Contingent account of said Court for the year 1909 be disapproved, for the reason that said request has not the approval of the Board of Municipal Justices and also fails to specify the account in the Municipal Court appropriation from which said amount can be transferred:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 10, 1910.

The Honorable Board of Estimate and Apportionment:

Gentlemen—In the matter of a communication from the Clerk of the Third District Municipal Court, Borough of Manhattan, dated May 25, 1910, requesting a transfer of \$10.95 from some unexpended balance of an appropriation account to meet a deficiency in the appropriation for Contingencies of that Court for the year 1909, which was referred to me for consideration, I would report as follows:

The Board of Municipal Justices has not approved of the request for the transfer. In fact, the Clerk of the Court has not asked the Board to indorse his application for the transfer. The Clerk has also failed to specify the appropriation account in the Municipal Court Budget for 1909, which has an unexpended balance which can be drawn upon for the purpose intended.

In view of the facts herein stated, I would recommend that the request of the Clerk of the Third District Municipal Court, Borough of Manhattan, be not approved.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the request of the Clerk, Third District Municipal Court, Borough of Manhattan, for the transfer of ten dollars and ninety-five cents (\$10.95) from some unexpended balance of appropriation to the Contingent Account for said Court, for the year 1909, be and the same is hereby denied.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary was directed to transmit a copy of the report of the Comptroller to the Third District Municipal Court, Borough of Manhattan.

The Secretary presented the following communication from the Comptroller recommending that the requests of the Clerk of the Fifth District Municipal Court, Borough of Manhattan, for a transfer of \$18.18, and of the Clerk of the First District Municipal Court, Borough of Queens, for a transfer of \$28.46 from some unexpended balances of appropriation accounts to the contingent accounts of said courts for the year 1910, be disapproved, for the reason that said requests have not the approval of the Board of Municipal Justices and do not specify the accounts from which said transfers can be made:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 8, 1910.

The Honorable Board of Estimate and Apportionment:

Gentlemen—In the matter of the requests of the Clerk of the Fifth District Municipal Court, Borough of Manhattan, for a transfer of \$18.18, and of the Clerk of the Fourth District Municipal Court, Borough of Queens, for a transfer of \$28.46, from some unexpended balances of appropriation accounts to meet deficiencies in the contingent appropriations of those Courts for the year 1909, referred to me for consideration, I would report as follows:

At a recent meeting of the Board of Justices of the Municipal District Courts a resolution was adopted disapproving of the action of Clerks of Courts in requesting transfers of funds without first having obtained the authority from the Board of Justices to apply for the transfers.

It seems that the practice has been to use unexpended balances of one Court to meet deficiencies in another Court, and the Justices have come to the conclusion that a Clerk who keeps his expenditures within the appropriations and is enabled by carefulness to show an unexpended balance in an account should not be discouraged in his efforts for economy by the knowledge that a Clerk of another Court who has not been as economical is allowed unexpended balances for expenditures in excess of Budget appropriations.

The requested transfers have not been recommended by the Board of Municipal Court Justices, and the Clerks in their communication do not specify the appropriation account with an unexpended balance which can be used for the purposes intended.

In view of the facts herein stated, I would recommend that the requests of the Clerks of the Fifth District Municipal Court, Manhattan, and Fourth District Municipal Court, Queens, for transfers of funds, be disallowed.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the request of the Clerk, Fifth District Municipal Court, Borough of Manhattan, for the transfer of eighteen dollars and eighteen cents (\$18.18) from some unexpended balance of appropriation to the Contingent Account for the year 1909, be and the same is hereby denied.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following resolution was offered:

Resolved, That the request of the Clerk, Fourth District Municipal Court, Borough of Queens, for the transfer of twenty-eight dollars and forty-six cents (\$28.46) from some unexpended balance of appropriation to the Supplies and Contingencies Account for the year 1909, be and the same is hereby denied.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary was directed to transmit copies of the communication of the Comptroller to the Fifth District Municipal Court, Manhattan, and to the Fourth District Municipal Court, Borough of Queens.

The Secretary notified the Board of the return by the Comptroller of the communication from the Commissioner of the Department of Public Charities, requesting permission to build an iron fence at the north end of Blackwells Island, separating the Metropolitan Training School from the Metropolitan Hospital, at a cost of about \$3,500 (referred to the Comptroller May 27, 1910, in accordance with the request contained in a communication from said Commissioner under date of June 2, 1910, cancelling the application.

The following matters not upon the calendar for this day were considered by unanimous consent:

The Comptroller presented the following report of the Consulting Engineers of the various Boroughs to whom, on June 10, 1910, was referred a communication from the President of the Borough of Brooklyn requesting the Board to release from the restrictions of resolution adopted June 3, 1910 (requesting the heads of departments, etc., before executing contracts chargeable to corporate stock to submit to the Board for its approval plans, specifications and estimates of cost), all repaving contracts, stating that contracts for repaving are being advertised on well known forms of contract and specifications, and it is their opinion that a resolution exempting corporate stock authorizations for the purpose of repaving streets in the several Boroughs should be passed by the Board.

June 14, 1910.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—Under a resolution of the Board of June 10, 1910, a communication from the Acting President of the Borough of Brooklyn, with reference to repaying streets out of corporate stock issues, was referred to the Consulting Engineers of the several Boroughs.

By referring to the appropriations for repaving streets, under the provisions of sections 48 and 169 of chapter 466 of the Laws of 1901, it appears that the well established custom has been to allow the local authorities to determine the locations in which pavements are most in need of replacement, and it is a fact, as submitted by the Acting Borough President of Brooklyn, that the interruption of this procedure which would be brought about by a literal following of the resolution of June 3, 1910, wherein it is stipulated that no contracts will be advertised or awarded without the submission of plans and specifications and estimates of cost to the Board of Estimate and Apportionment or to the Comptroller, would entail serious delay and prevent much improvement of the wornout highways of the City otherwise possible before the close of the working season.

It is also true that these contracts are being advertised on the well known forms of contracts and specifications, and for these reasons we are strongly of the opinion that resolution exempting corporate stock authorizations for the purpose of repaving streets in the several Boroughs should be now passed by your honorable Board.

Respectfully,
E. P. GOODRICH,
Consulting Engineer, Borough of Manhattan.
R. WALTER CUNZBAUR,
Consulting Engineer, Borough of Brooklyn.

Consulting Engineer, Borough of The Bronx.

THEODOR S. OXHOLM.

Acting Consulting Engineer, Borough of Richmond.

The following was offered:

Whereas, A resolution of this Board was approved at the meeting of June 3, 1910, which reads as follows:

Resolved, That all boards, departments, bureaus, commissions or officers of the City or county government authorized by this Board to incur obligations and execute contracts payable out of corporate stock be and they hereby are directed to submit to this Board for its approval plans, specifications and estimates of cost prior to advertising for bids upon public works, funds for which have been released since January 14, 1910, or may be released hereafter from the provisions of the resolution adopted by the Board of Estimate and Apportionment on January 14, 1910, or may be authorized in the Corporate Stock Budget now before this Board, except that during the period which intervenes between the date of adjournment of this Board in July, 1910, and its first meeting in September, 1910, such plans, specifications and estimates shall be submitted to the Comptroller for his approval.

Resolved, That all authorizations of corporate stock for purposes of repaying streets and avenues now outstanding be exempted from the provisions of the above resolution.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented the following resolution relative to the appointment of a committee of the Comptroller and President of the Board of Aldermen to study the relations of The City of New York to private charitable institutions receiving funds from the public treasury, and requesting the Mayor to direct the Commissioner of Accounts to co-operate with said committee in the conduct of its investigation, said committee report to be presented to the Board prior to the adoption of the Budget for the year 1911:

Whereas, In pursuance of provisions of law, there is appropriated by The City of New York a sum which in the Budget for 1910 approximated five millions of dollars for payment to various private charitable, correctional and other institutions for the care, treatment and custody of foundlings, orphans and other public charges; and

Whereas, A proper determination of the amounts to be appropriated for payment to each of such institutions now or heretofore receiving City funds, involves the consideration of many important problems relating to the character of service rendered, the treatment and care accorded the inmates thereof, the method of controlling, disbursing and accounting for funds; and

Whereas, Recent investigations conducted by the Comptroller and by the Commissioner of Accounts have shown that the relation existing between the Division of Charitable Institutions of the Department of Finance, charged with responsibility for the audit of claims of private charitable institutions and certain institutions receiving public funds, have been of a character not calculated to ensure the fullest protection of the interests of the City in disbursements made to such institutions; and

Whereas, The Comptroller of The City of New York is required by law to audit all claims for service rendered to public charges filed against the City by such charitable institutions authorized by the Board of Estimate and Apportionment to receive public funds; and

Whereas, The Comptroller is required to prescribe the form of accounts to be kept by such institutions with respect to the funds received and disbursed by them; and Whereas, The character and scope of such audit and the form of such accounts

must be largely determined by the conditions and requirements attached to the appropriations and funds for payment to such private charitable institutions made by the Board of Estimate and Apportionment; therefore be it.

Resolved, That the Board do and hereby does direct an investigation of the relation of The City of New York to the various charitable institutions now authorized in

pursuance of the provisions of the Budget for the year 1910 to receive funds for the support and treatment of City charges, and specifically the character of service, plant, equipment, personnel, management and methods of administration and accounts thereof, and actual cost to such institutions of service rendered to the City, and such other additional facts as may seem pertinent to the selection of institutions to which City charges shall be committed, and to the determination of the amounts of appropriations which shall be made available for payments to such institutions, and for the purpose of conducting such investigation; be it further

Resolved, That the Board do and hereby does appoint a committee of two, consisting of the Comptroller and the President of the Board of Aldermen, and that the Mayor be requested to direct the Commissioner of Accounts to co-operate with said committee in the conduct of its investigation; and be it further

Resolved, That said committee report to this Board prior to the adoption by said Board of the Budget for 1911.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented communications, etc., as follows:

City of New York, Department of Docks and Ferries, Pier "A," North River, New York, June 2, 1910.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

SIR—At the meeting of the Board of Aldermen held on Tuesday, the 31st ultimo, a resolution was adopted recommending that the Board of Estimate and Apportionment authorize the Comptroller to issue special revenue bonds in the sum of \$16,695 in order that concerts might be given each night on the recreation piers during the recreation pier season, the amount included in the Budget not being sufficient to provide music each evening on all the piers.

In the event of this resolution receiving the approval of the Mayor, I request that when you receive the same you do all in your power to secure early consideration by

the Board of Estimate and Apportionment.

Yours truly,
CALVIN TOMKINS, Commissioner of Docks.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 16, 1910.

The Honorable Board of Estimate and Apportionment:

GENTLEMEN—In the matter of the two resolutions of the Board of Aldermen adopted May 31, 1910, one requesting the issue of special revenue bonds amounting to \$25,000 to provide means for furnishing concerts in the parks under the jurisdiction of the Commissioner of Parks, Boroughs of Manhattan and Richmond, and one to the amount of \$16,695 to provide means for the employment of additional musicians on the recreation piers under the jurisdiction of the Commissioner of Docks, which were referred to me for consideration, I submit the following report:

An amount of \$30,000 was allowed in the Budget for the year 1910 for the Department of Parks, Manhattan and Richmond, for the purpose of providing music in the various parks. This amount the Commissioner states will not enable him to carry

out the musical entertainment planned by him for this year.

It is the desire of the Commissioner to give concerts in many parks where concerts have not been given in the past, and to employ additional musicians for the purpose of concerts in other public places.

The park concerts given in the past have been largely attended, and the Commissioner with this additional appropriation can increase his force of musicians and afford pleasure to thousands who find it impossible to get away from the City during the summer season

The allowance made in the Budget for the Department of Docks and Ferries to provide music on the recreation piers for the year 1910 was \$34,344, which is enough to provide music on each of the piers four nights of each week. The Commissioner of Docks, however, desires to give concerts on the piers every night during the warm season, and the additional appropriation of \$16,695 will enable him to fill the musical schedule he has planned. On warm nights the recreation piers are frequented by thousands of persons who have not the means to reach any other breathing spot.

In view of these facts, I recommend favorable consideration of the resolutions bereunto attached.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

"I was further directed to request you to render an opinion as soon as possible." The law which sets forth the powers of the "Armory Board" is contained in the "Military Law, section 183." It provides that

"In the city of New York the applications of commanding officers of regiments battalions, squadrons, troops, batteries * * * for suitable armories and for the furnishing thereof when first erected, and for alterations and enlargements of armories, and the major general, commanding officer of the naval militia and officer commanding a brigade or an officer commanding a battalion composed of separate at \$3 per day. tropps, batteries or companies therein for suitable accommodation for brigade or other headquarters shall be made to a board herein termed the armory board. * * * If Borough of Brooklyn, to Bridges, at \$2.50 per day.

the armory board approves such an application it shall make its recommendation to the commissioners of the sinking fund, who, if they concur therein, shall specify the sums to be appropriated therefor, and such sums shall be included by the comptroller of said city in his departmental estimates for the ensuing year and the board of estimate and apportionment and the board of aldermen are hereby directed to include such sums in the budget for the ensuing year; or the commissioners of the sinking fund may, from time to time in their discretion, authorize or direct the comptroller of the city to issue corporate stock of the city in such amounts as shall be necessary to provide such sums or any part thereof. * * * The work necessary to be done and the materials necessary to be furnished for erecting armories, and for the furnishing thereof when first erected, and for enlargements and alterations of armories as in this section above provided shall be done and furnished respectively under the direction and supervision of the armory board. under contracts made at public letting, pursuant to the general provisions of law as to public contracts in the city of New York. * * * The commissioners of the sinking fund may also, in their discretion, appropriate any plot or plots of land belonging to the city and not already appropriated to some other public use, as locations on which armory buildings may be efected. The title to property acquired under this section through the approval of the commissioners of the sinking fund shall be vested in the corporation of the city of New York. All repairs to, and except as above provided, all furnishing of armories in the city of New York shall be done by said city, and all utensils, materials and supplies certified by the auditing board of an organization, corps or artillery district quartered therein to be necessary for the cleaning, care and preservation of the portion of the armory used or occupied by said organization, corps or artillery district or of the arms, uniforms, equipments and furniture used or kept by said organization, corps or artillery district in such armory shall be supplied by said city as hereinafter in this section provided. The act then provides that the commanding officer shall make his application

for necessary expenditures to the Board before the 1st of September in each year and that on or before the 20th of September of such year the Board shall determine

the amount necessary to be so expended.

Such determination shall be made in detail, specifying as separate items the amount to be expended on each armory and for each organization, corps or artillery district, for repairs, furnishing utensils, supplies and other expenditures to be made by said city, and said board shall thereupon and before October 1 certify the amounts so fixed and determined in detail by said board to the board of estimate and apportionment, and the said board and the board of aldermen shall include said amounts as determined in detail, as aforesaid, in the final budget for the ensuing year.

"The amounts so appropriated shall be expended on the armories and for the organizations, corps or artillery districts for which the same were respectively appropriated by and under the direction of the armory board * * *"

A careful interpretation of the above statute fails to disclose authority in the Armory Board to pay for supplies for the purposes desired.

The act. in my opinion, clearly limits the application of funds of the City to the purchase or erection of armories, alterations, enlargements and furnishing thereof. The statute does not seem to contemplate the expenditure of the City's money on property without the City for any purpose whatsoever. The requisition is "for lumber to provide shelter on the farm used by the battery at North Salem, West-chester County, New York." Not only is the property upon which the shelter is to be provided not within the City but it is not City or State property, being the private property of the First Battery.

I therefore advise you that the Board has no authority to grant the requisition of the commanding officer of the First Battery as hereinbefore set forth.

Respectfully yours, G. L. STERLING, Acting Corporation Counsel. Which was ordered filed.

A communication was received from the Board of Aldermen transmitting a certified copy of resolution adopted by said Board at a meeting held May 10, 1910, concurring in a resolution of the Armory Board at a meeting held April 11, 1910. requesting an issue of special revenue bonds in the sum of \$4,000 for repairs to roof on the armory of the Second Battalion, Naval Militia; also a communication from the Board of Estimate and Apportionment advising the Board that at a meeting of the Board of Estimate and Apportionment the resolution of the Board of Aldermen was presented and referred to the Comptroller.

Which was referred to the Committee on Armories. An application was presented from the Guidone & Galardi Company for an extension of time on their contract for the erection of an armory for the Second Battery, at East One Hundred and Sixty-sixth street and Franklin avenue, in the

Borough of The Bronx. A communication was also presented from C. C. Haight, Esq., architect, recommending that the extension be granted.
