 - a. Company
 - b. Borough
 - c. Council District
 - d. Program
- III. New York City Administrative Code §22-823 Statutory Language
- IV. Employment and Benefits Annual Reporting Forms
- V. Neighborhood Retail Needs Assessment Report and Int. No. 1408-B
- VI. Project Report Tables (Volume II)
- VII. Sales and Leases of City-Owned Land (Volume III)

Executive Summary

The following summarizes New York City Economic Development Corporation's (NYCEDC) Fiscal Year 2023 ("FY23") annual report on projects to support investment, job creation, job retention, and growth in New York City. This year's report includes information on 449 projects receiving Financial Assistance in the form of loans, grants, and tax or energy benefits. The report also includes information on 35 sales and 97 leases of City-owned land.

For the projects receiving Financial Assistance:

- NYCEDC has been directing the majority of its investments toward boroughs outside Manhattan, where nearly three quarters (74.6%) of active projects were located during FY23.
- Twenty-one (21) projects commenced in FY23, nine of which were part of the Build NYC tax-exempt financing program, six of which were NYCIDA Industrial Incentives, three of which were part of the Build NYC tax-exempt promissory note program, two of which were NYCIDA FRESH projects, and one of which was a New Markets Tax Credits Program project.
- Since the NYCIDA Food Retail Expansion to Support Health (FRESH) program began in FY10, 29 projects have closed and 22 are still active, providing healthy foods to NYC's poorest and most underserved neighborhoods.
- Full-Time Equivalent ("FTE") employment at project locations was 3.4 times employment prior to their start. Taking into account employees that may have been relocated to project sites from elsewhere in the city, employment growth was 169.6 percent.
- Financial assistance ended for 28 projects in FY23 because of natural expiration of the agreement, voluntary termination, or suspension as a result of default.
- Approximately \$1.9 million was recovered from projects during FY23, contributing to a total of more than \$131 million recovered from non-compliant projects since FY03.
- Of the projects that submitted living wage information in FY23, 98 percent of the employees were paid a living wage (a total of 158,972 employees). In FY23, there were 48 projects required to pay a living wage pursuant to the Fair Wages for New Yorkers Act; all 48 projects were compliant in FY23.

Chapter One:

NYCEDC and Public Benefits from Investment Projects

Section 1. Introduction

This is New York City Economic Development Corporation's (NYCEDC) Fiscal Year 2023 ("FY23")¹ annual report on its projects with businesses to support investment, job creation, and job retention and growth ("Investment Projects"), pursuant to New York City Administrative Code §22-823.

New York City Administrative Code §22-823 requires NYCEDC to submit to the New York City Council, the Mayor, the City Comptroller, the Public Advocate, and the Borough Presidents, an annual report, containing descriptive data on a selected group of NYCEDC projects, the amounts of City assistance (hereinafter referred to as "City Costs") provided by NYCEDC to the businesses involved in these projects, and estimates of the tax revenues generated (hereinafter referred to as "City Benefits") by these projects. Data on Investment Projects receiving loans, grants, and tax or energy benefits ("Financial Assistance") are provided for the life of the project, irrespective of the date it initiated. Data on sales of City-owned land are provided for all transactions closed at any time within the 15-year period ending on the first day of FY23, if at least 25 jobs are estimated to be at the project's site. Data on leases of City-owned land are provided for all active contracts.²

This year's report has three volumes as well as data and documentation available online. Chapter One of this Volume includes a summary of results, the description of reporting requirements, and a summary of entities and programs included. Chapter Two presents the framework used to estimate City Benefits and a summary of results aggregated at the City level, by borough, and by main program. Volume II includes the information on all projects receiving Financial Assistance. Volume III includes the information on sales and leases of City-owned land. The data in Volume II of each report from FY06 through FY22 are available for download at [edc.nyc](https://www.edc.nyc.gov).

Local Law 35 took effect on July 22, 2020, requiring reporting on affordable retail space in certain project agreements. No new projects closed in FY23 were subject to this law.

NYCEDC appreciates this opportunity to provide information on some of its key economic development services. NYCEDC believes that this report demonstrates how critical its economic development programs are in maintaining and expanding New York City's economic base by stimulating investment, job growth, and business expansion. The typical company investment included in this report would have been delayed, abandoned, or made outside New York City but for the intervention and support of NYCEDC.

In addition, NYCEDC appreciates this opportunity to discuss the public benefits generated by its Investment Projects and to explain the dynamic public-private partnership that makes NYCEDC successful.

Section 2. FY22 Reporting Requirements and Summary of Results

NYCEDC's Annual Investment Projects Report, which is currently regulated by the Administrative Code §22-823³, requires the City's Department of Small Business Services ("SBS") to include in its contracts with NYCEDC, by virtue of its status as a not-for-profit entity engaged in providing or administering economic development benefits on behalf of the City and expending City capital appropriations in connection therewith, a requirement to prepare and submit this report for the prior fiscal year to the Mayor, the New York City Council, the City Comptroller, the Public Advocate, the Borough Presidents and

- 1 A Fiscal Year covers the period from July 1 of the year prior to the corresponding calendar year until June 30 of the corresponding calendar year. FY23 refers to the fiscal year commencing on July 1, 2022 and ending on June 30, 2023.
- 2 Estimates of City Costs and City Benefits are not required under New York City Administrative Code §22-823 for sales and leases of City-owned land. Reporting on leases of City-owned land is subject to the same job threshold as land sales. However, due to data availability, the report includes data on all contracts active in FY23.
- 3 NYCEDC's Annual Investment Project Report was previously regulated by City Charter §1301(1)(b). In December 2017, City Charter §1301(1)(b) was repealed and a new City Charter §1301(1)(b) was enacted by Local Law 222 (2017) ("LL2017"). LL2017 became effective as of January 14, 2019. LL2017 essentially moved the requirements stipulated under former City Charter §1301(1)(b) to a new subchapter of New York City Administrative Code, §22-823.

Community Planning Boards by January 31 of each year. Accordingly, SBS has included such requirements in its annual contracts with NYCEDC for FY23. Table 1-1 below summarizes the reporting requirements of the Administrative Code §22-823, as in effect on the effective date of the annual contracts between SBS and NYCEDC for FY23. The text of the Administrative Code §22-823 as then in effect is included in Appendix III of this Volume. This Annual Investment Projects Report pertains only to FY23 and was prepared in accordance with the Administrative Code §22-823 as in effect on the effective date of the annual contracts between SBS and NYCEDC for FY23. Pursuant to Administrative Code §22-823, the annual contracts between SBS and NYCEDC for FY23 require NYCEDC to comply with the reporting requirements for the prior fiscal year (FY23).

TABLE 1-1: Summary of New York City Administrative Code §22-823 Reporting Requirements

Project Type	Criteria for Inclusion	Information to be Reported ⁴⁴
Financial Assistance (Loans, grants and tax or energy benefits)	<ul style="list-style-type: none"> • All Investment Projects for which Financial Assistance was made available on any day during the prior fiscal year (or "Reporting Year"), regardless of the execution date of the projects' agreement (i.e., projects are included for the entire span of Financial Assistance) • Entities providing Financial Assistance: NYCEDC, NYC Industrial Development Agency (NYCIDA), and Build NYC Resource Corporation (Build NYC) • Types of Financial Assistance: NYCEDC loans, Business Incentive Rate (BIR) programs, tax-exempt bonds, sales tax waivers, mortgage reporting tax (MRT) waivers, Payments-In-Lieu-Of-Taxes (PILOT) real property tax exemptions, and incentives awarded as a part of the Applied Sciences NYC program, and New Markets Tax Credit program 	<ul style="list-style-type: none"> • All information listed in clauses (a) through (o) of the Administrative Code §22-823(b)(2) and included in the project report tables (for an explanation, see Appendix I of this Volume) • Information on Investment Projects for which Financial Assistance in the Reporting Year was less than \$150,000 is aggregated, as stipulated in clauses under the Administrative Code §22-823(c) • Data are to be made available in a non-proprietary database format
Sales of City-Owned Land	<ul style="list-style-type: none"> • All sales of City-owned land that are (i) estimated to retain or create at least 25 jobs and (ii) closed at any time within the 15-year period ending on the first day of FY22 	<ul style="list-style-type: none"> • As stipulated under the Administrative Code §22-823(d) • A list of sales and sale prices, to be made available in a non-proprietary database format • Terms or restrictions on the use or resale of the property
Leases of City-Owned Land	<ul style="list-style-type: none"> • All leases of City-owned land (i) estimated to retain or create at least 25 jobs and (ii) was effective as of 6/30/2023, regardless of the commencement date of such lease 	<ul style="list-style-type: none"> • As stipulated under the Administrative Code §22-823(d) • A list of leases and rent payments in the reporting year, to be made available in a non-proprietary database format • Terms or restrictions on the use of the property

4 For projects for which assistance was rendered before 7/1/2005, this report is required to include information that is available to NYCEDC, can be reasonably derived from available sources, or reasonably obtained from the business entity. [Is this preceding sentence still relevant? Do we still have projects started prior to July 1, 2005 on this year's list?]. For projects for which assistance was rendered before 7/1/2012, this report is required to include living wage data that is available to NYCEDC, can be reasonably derived from available sources, or reasonably obtained from the business entity.

Section 2.1 Summary of Results

There are 449 Financial Assistance Investment Projects included in this year's report.⁵ In FY23, 21 projects started reporting, and Financial Assistance ended for 28 projects. These 449 projects accounted for:

- 4.2% percent of total private employment in New York City;
- \$37.1 billion in private investment;
- \$6.6 billion in City Costs (present value discounted to FY23 dollars), net of recapture, cancellations, reductions and penalties;⁶
- \$97.8 billion in City Benefits (present value discounted to FY23 dollars), net of the assistance provided and recapture/penalties.

There are 35 land sales satisfying the criteria for inclusion in this year's report. These sales account for \$456.2 million (in FY23 dollars).⁷ Total rent in FY23 from the 94 leases included in the report was \$187.9 million.⁸

Starting with the FY23 iteration of the Annual Investment Report, NYCEDC updated its methodology for how it presents the value of past and future dollars. Please see Chapter 2, Section 1 for additional information.

Section 3: NYCEDC

NYCEDC is the City's primary agent for economic development. Acting under annual contracts with the City, NYCEDC is a mission-driven, nonprofit organization that works for a vibrant, inclusive, and globally competitive economy for all New Yorkers. NYCEDC takes a comprehensive approach, through four main strategies: strengthen confidence in NYC as a great place to do business; grow innovative sectors with a focus on equity; build neighborhoods as places to live, learn, work, and play; and deliver sustainable infrastructure for communities and the city's future economy.

The Mayor appoints NYCEDC's president and chairman of the board, and NYCEDC's unpaid board includes representatives of City agencies as well as appointees recommended by the Borough Presidents and the Speaker of the City Council. Partnering with City, State, Federal and regional agencies, as well as businesses and residents, NYCEDC is a key driver of the City's three-pronged economic development strategy to create jobs, diversify the City's economy, and build affordable, attractive neighborhoods.

To fulfill its broad economic development mission, NYCEDC wears many hats—it is a business advocate and partner, a project manager, a policy analyst and a program administrator. The Initiatives Department at NYCEDC develops and implements initiatives to grow traditional and emerging industries in the City, as well as promote diverse entrepreneurship across all industries. The Transportation Department advises on transportation and waterfront policy matters, and the Real Estate Transaction Services, Asset Management, and Capital Departments manage the sale of City-owned land, the management of City-owned property, and the management of capital construction projects, respectively. In addition, NYCEDC oversees industrial parks, wholesale and retail markets, cruise terminals, rail lines and waterfront development. Other responsibilities include design, planning and construction capabilities on various projects. NYCEDC also supports small businesses through a loan guarantee program for private lenders and catalyzes the development and preservation of industrial real estate through direct lending.

Furthermore, NYCEDC provides discretionary Financial Assistance and lower cost energy assistance to Investment Projects under the authority of the New York City Industrial Development Agency (NYCIDA), Build NYC Resource Corporation (Build NYC) and the Business Incentive Rate (BIR) programs, contingent upon the realization of specified investment and/or job commitments. This discretionary Financial Assistance is the focus of this report. Through the NYC Neighborhood Capital Corporation (NYCNCC), NYCEDC also facilitates the use of the New Market Tax Credit (NMTC) program, a federal tax credit program administered by the U.S. Department of The Treasury Community Development Financial Institutions Fund to gen-

5 449 projects include four projects that were authorized to receive less than \$150,000 in Financial Assistance.

6 Present value calculation methods are explained in Chapter 2, Section 1 and Appendix I of this Volume.

7 Sale prices were adjusted using NY Metropolitan Area Consumer Price Index—All Urban Consumers from the U.S. Bureau of Labor Statistics.

8 There may be overlap between Financial Assistance projects and land sales or leases.

erate private sector capital investment in low-income communities. In addition, in limited circumstances involving certain projects meeting Federal distressed-area criteria, NYCEDC provides loans with Federal funds. The Industrial Developer Fund is a public-private partnership fund intended to provide project financing for industrial real estate development projects in the City. The fund was established with the aim of catalyzing investment in 400,000 square feet of new or renovated industrial space and supporting job creation. The Applied Sciences initiative provided City-owned land and a seed investment of City capital for top academic institutions to create new or expanded applied sciences campuses in New York City in order to maintain global competitiveness and create jobs. In the wake of the COVID-19 pandemic, New York City's fast-growing life science sector is playing a crucial role as the city continues to recover. NYCEDC supports the City's LifeSci NYC Initiative to establish New York as a global leader in life science research and innovation by connecting research to industry, unlocking space for life sciences companies, and building a pipeline for the talent and workforce needed to support these companies across the five boroughs.

Also described in this report are NYCEDC land sales and leases. NYCEDC makes underutilized City-owned properties available for sale or lease to private companies and organizations willing and able to invest in development or expansion for economic development—supporting job and industry growth around the five boroughs.

Section 4: NYCIDA/Build NYC Financial Assistance

The New York City Industrial Development Agency (NYCIDA) is a public benefit corporation organized under Article 18-A of the New York State General Municipal Law to serve the five boroughs of New York City. NYCIDA helps companies undertake capital expansions and become more competitive by locating within New York City or by expanding their existing operations. Its mission is to encourage economic development throughout the five boroughs, and to assist in the retention of existing jobs and the creation and attraction of new jobs.

The Mayor appoints the Chairman of NYCIDA, and the fifteen-member Board of Directors includes representatives from each borough. NYCIDA's Board of Directors must approve all projects and/or programs and NYCIDA files annual reports on its activities with the New York State Comptroller and the New York State Authorities Budget Office.⁹ NYCIDA contracts with NYCEDC for staffing and administrative services. NYCEDC markets NYCIDA programs through a variety of initiatives, including providing a detailed description of NYCIDA services on its website, direct mailings, and informational seminars, often in partnership with local development corporations located Citywide.

NYCIDA Programs

NYCIDA provides four types of Financial Assistance to support qualifying private capital investment:

- a) **Tax-exempt bond financing.** NYCIDA is a qualified issuer of both taxable and tax-exempt bonds. The interest on NYCIDA bonds is exempt from the income taxes imposed by the New York State and City governments, and in certain cases by the Federal Government (referred to as "triple tax-exempt bonds"). Private investors, who assume the financing risks of the project, purchase these bonds. Repayment of the bonds is not an obligation of NYCIDA or the City, State or Federal Governments, but, rather, of the project owner. Investors in triple tax-exempt bonds typically accept a lower interest rate because of the income tax exemption. Currently, Build NYC Resource Corporation serves as the primary issuer of both taxable and tax-exempt bonds, as described below.
- b) **Property tax reductions.** NYCIDA can exempt real property from City ad valorem real property taxes. Typically, NYCIDA utilizes this exemption authority to abate and/or stabilize the amount of real property taxes that would otherwise be due with respect to a company's real property. The company enters into an agreement with NYCIDA requiring the company to make Payments in Lieu of Taxes (PILOT) with respect to such exempted property; the PILOT reflects the amount of the abatement and/or stabilization provided.
- c) **Partial exemption of mortgage recording tax.** City and State mortgage recording tax (MRT) relating to the project financing can be reduced from 2.8% to 0.3%.

⁹ These reports are available at [edc.nyc](https://www.edc.nyc)

- d) **Exemption from sales and use taxes on construction and equipping costs.** The 8.875 percent City and State sales tax on materials used to construct, renovate or equip facilities may be exempted by NYCIDA.

NYCIDA provides its Financial Assistance through programs established under its Uniform Tax Exemption Policy (UTEP), the current version of which is available at edc.nyc/nycida, or as otherwise permitted by the NYCIDA statute. During FY18 the UTEP was updated and currently includes the following programs:

Food Retail Expansion to Support Health (FRESH)

The FRESH program provides eligible companies with real property tax exemptions or abatements, and sales tax exemptions on purchases of materials used to construct, renovate or equip facilities, as well as MRT exemptions. Eligible companies include grocery store operators and developers seeking to acquire, construct or renovate facilities for their own use or to be leased to eligible businesses. Projects must be located in a Highly Distressed¹⁰ area and/or in areas with a quantified deficiency of food retail space.

Industrial Program

The Industrial Program provides eligible companies with real property tax exemptions or abatements, and sales tax exemptions on purchases of materials used to construct, renovate or equip facilities, as well as MRT exemptions.¹¹ Eligible companies include manufacturers, distributors, warehouses, other industrial companies, and developers seeking to acquire, construct or renovate facilities for their own use or to be leased to eligible businesses. Companies must make capital investments of at least \$1,000,000 to be eligible for the Industrial Program.

Commercial Program

The Commercial Program provides eligible companies with real property tax exemptions or abatements, and sales tax exemptions on purchases of materials used to construct, renovate or equip facilities, as well as MRT exemptions. Eligible projects include the construction or major renovation of commercial office facilities primarily targeted for use by high-growth industries, including but not limited to, technology, advertising, media, information technology, engineering, life sciences, and fashion. Further, the project must be in an area of the City which lacks adequate commercial office facilities to meet market demand for such facilities, and in a Highly Distressed area if located in Manhattan. The project must include property improvements of at least \$5,000,000 to be eligible for the Commercial Program.

In the previous versions of UTEPs, this category includes NYCIDA projects where the capital asset or assets are (or will be after a period of construction, reconstruction and/or renovation) for use primarily by the owners hereof (or their affiliates) in the pursuit of commercial endeavors, such as Class A office buildings and ancillary support space and destination retail complexes.

For the purposes of this Report, the Commercial Project category includes Hudson Yards Commercial Construction Projects, Life Sciences Program Projects, and stadia projects. In previous years, the projects reported in this category were included in the Commercial Growth Program category.

Hudson Yards Commercial Construction Projects

NYCIDA also provides discretionary Financial Assistance for Hudson Yards Commercial Construction Projects within the Hudson Yards area as part of a comprehensive financing and implementation program for Hudson Yards Infrastructure Corporation ("HYIC") to realize the development potential of Manhattan's far west side.

Such financial assistance includes real property tax exemptions and required payments in lieu of real property taxes ("PILOT") to induce the construction of new Class A office buildings and other development within the Hudson Yards area. In addition, NYCIDA provides mortgage recording tax exemptions and requires payments in lieu of mortgage recording taxes ("PILOMRT") equal to the full exemption amount mortgage for qualified projects. The PILOT and

10 Highly Distressed is defined in Section 854 of the New York State Industrial Development Agency Act, constituting Title 1 of Article 18-A of the General Municipal Law, Chapter 24 of the Consolidated Laws of New York, as amended, together with Section 917 of Title 2 of Article 18-A of the General Municipal Law, as in effect at any given time.

11 Projects that were separately classified under the Small Industry Incentive program in previous Fiscal Years are now classified under the Industrial Program.

PILOMRT are in whole or in part remitted to HYIC to service debt issued to fund critical elements of the Hudson Yards project, including the No. 7 Subway extension, and the new open space network.

Previous versions of the UTEP included the following programs:

Tax-Exempt Bond Programs:

Manufacturing Facilities Bond Program: Manufacturers of tangible personal property developing or equipping facilities for their own use can access bond financing and real property and sales tax reductions, as well as MRT reduction.

Not-For-Profit Bond Program: Prior to February 2008, 501(c)(3) not-for-profit organizations developing, purchasing or equipping facilities for their own use could access financing and MRT exemptions through NYCIDA. A subcategory of this program was the Pooled Bond Program, established for borrowers that are members of the InterAgency Council, an association of not-for-profit organizations that provide services to individuals with disabilities. Beginning in FY12, access to financing for not-for-profit organizations resumed under the Build NYC Resource Corporation, described below.

Exempt Facilities Bond Program: Companies developing publicly-owned airports, docks or wharves, solid waste recycling facilities or other categories of Federal exempt facility bonds can access bond financing. Reductions in real property taxes and sales taxes, as well as MRT reduction, may also be available.

Liberty Bond Program: Developers of commercial and retail facilities can access tax-exempt bond refinancing through this program. The bonds authorized under this program have been fully allocated and thus are no longer available for new projects.

Industrial Tax Incentive Programs:

The Industrial Incentive Program (IIP) and Food Retail Expansion to Support Health Program (FRESH) provide eligible companies with real property tax exemptions or abatements, and sales tax exemptions on purchases of materials used to construct, renovate or equip facilities, as well as MRT exemptions.¹² Eligible companies include manufacturers, distributors, warehouses, other industrial companies, and grocery store operators and developers seeking to acquire, construct or renovate facilities for their own use or to be leased to eligible businesses. Developers of such space in designated areas can seek MRT exemptions and sales tax exemptions on purchases of materials used to construct, renovate or equip facilities.

Commercial Growth Program:

NYCIDA's UTEP provides for individually negotiated benefit agreements for non-industrial projects and requires a commitment of a specific number of jobs and/or maintenance of certain designated operations, such as corporate headquarters, in return. These transactions may provide for reductions in real property, MRT and sales tax; most transactions, however, provide only for sales tax exemptions.

NYCIDA Selection Considerations

All NYCIDA benefits are discretionary. Firms seeking Financial Assistance must apply to NYCIDA under one of its programs and receive approval for benefits from the NYCIDA Board of Directors. NYCIDA must ascertain that a project would not proceed, or would proceed in a substantially reduced form, without incentives. Consideration is given to the impact of the proposed project on New York City's economy, including job creation and retention, as well as infrastructure or technology upgrades.

The specific terms of NYCIDA transactions are set forth in project and lease agreements. Discussions with a company begin with a detailed information request by NYCIDA staff, followed by a rigorous staff review of the company's proposed investment, its existing real estate situation, potential alternatives, and the qualitative and quantitative factors driving its location decision. An environmental review is also conducted. NYCIDA staff consider the number of jobs that the company will retain,

¹² Projects that were separately classified under the Small Industry Incentive program in previous Fiscal Years are now classified under the Industrial Program.

recruit and/or create, the value of private-sector investment that will result from the project, and the fiscal impact (e.g., direct and indirect taxes) of the company's investment and operations. In the case of bond financings, projects must comply with relevant Federal statutes and regulations.

In the case of negotiated Industrial or Commercial Program incentives, staff determine the minimum level of assistance necessary to ensure a project's financial feasibility (e.g., maximum effective rent or threshold developer rate of return). That required level of assistance is compared to the incremental fiscal impact of the project, which typically repays the City's cost of incentives many times over if incentives are to be provided. If appropriate, an incentive offer is then developed to maximize the return on the City's investment by assuring that the company performs in exchange for the incentives. This approach provides a significant return on the City's investment, while reflecting the reality of operating a business, particularly a cyclical one, in an unpredictable economy.

Negotiated Commercial Growth incentives were provided for projects involving substantial capital expenditures (including the construction, renovation, and equipping of real estate) in targeted locations, and the maintenance of existing employment and operations in targeted economic sectors, or the creation or relocation into the city of new jobs in these sectors. Commercial Growth agreements were structured so that most benefits were tied to future job growth. These growth benefits were made available on a per-job basis. The per-employee tax revenue to the City estimated for this type of project usually far outweighs the value of the total per-employee incentive.

During the 1990s and early 2000s, the primary focus of Commercial Growth (previously known as "Commercial Retention") agreements was to provide incentives for the retention of existing jobs and certain designated operations such as corporate headquarters. Over time, incentives were increasingly provided primarily to hire new jobs and add new operations. More recent Commercial Growth transactions need to maintain those incrementally added jobs and operations to be compliant with the agreement.

Ongoing Monitoring of Performance

Beneficiaries of NYCIDA agreements must submit employment and benefits reports each year. NYCEDC staff performs site visits and conduct other follow-up activities to monitor compliance with NYCIDA agreements.

Commercial Growth agreements generally provide for a required employment base that a company must maintain. These agreements are subject to certain negotiated buffers that determine reductions to remaining benefits or a recapture of benefits already received. The agreement may also provide for the maintenance of a company's headquarters and/or certain designated operations.

During the term of a Commercial Growth agreement, if a company falls below its required employment commitment in any year, the total benefits allowed over the term of the agreement are reduced, and, in most cases, if it has already exceeded the reduced maximum benefit, it must repay the difference. If the employment reduction is large enough, the agreement may be terminated. If a company falls below its required employment commitment due to a relocation of jobs out of New York City or, if applicable, it relocates its headquarters or designated operations, it also faces recapture of benefits with penalties as well as forfeiture of future benefits.

IIP, Manufacturing Facility Bond and Not-for-Profit Bond Programs require a company to maintain its operations at the project location. If the company moves to another location, its benefits are terminated. If the new location is within New York City, the company is not subject to recapture of prior benefits. If the company relocates out of New York City during the first ten years of its deal, it is subject to recapture of realized benefits pursuant to a declining recapture schedule.

Projects utilizing tax-exempt financing through the NYCIDA's various Bond Programs are required by the Internal Revenue Code to use the facilities and/or equipment financed with bonds as a qualifying project during the term of the bonds to preserve the tax-exempt status of the bonds.

Build NYC Resource Corporation

Build NYC Resource Corporation ("Build NYC") is a local development corporation incorporated under the New York Not-for-Profit Corporation Law and staffed by NYCEDC. The mission of Build NYC is to encourage community and economic

development and job creation and retention throughout New York City by providing low-cost financing programs to qualified borrowers through the issuance of tax-exempt and taxable bonds. Build NYC's administration and Board of Directors is the same as that of NYCIDA.

As a conduit bond issuer, Build NYC can make tax-exempt financing available to qualified entities to acquire, construct, renovate and/or equip facilities in New York City.

Eligible borrowers include not-for-profit organizations with Federal 501(c)(3) status incorporated or otherwise qualified to do business within New York State, such as educational institutions, arts and cultural organizations, and organizations providing social services, student housing, senior housing and healthcare. Eligible projects seek to finance (or refinance) the construction, acquisition, renovation and equipping of facilities primarily for the borrower's own use located within New York City. Pursuant to the Internal Revenue Code, certain private companies can access tax-exempt financing to finance the construction, renovation and equipping costs associated with the following types of projects: airport facilities, other transportation-related infrastructure, dock and wharf facilities, solid waste disposal facilities, and recycling facilities.

Section 5: NYCNCC/NMTC Program

The New York City Neighborhood Capital Corporation (NYCNCC) is a not-for-profit corporation incorporated in July 2014 under Section 402 of the Not-for-Profit Corporation Law of the State of New York for the following purpose: a) to make Qualified Low-Income Community Investments (QLICI) in the serve area of the City of New York, b) to operate as a qualified Community Development Entity (CDE) under the NMTC program, c) to form and manage subsidiary limited liability companies which are certified as CDEs to receive equity contributions which will be utilized primarily as QLICIs, and d) to engage in all activities consistent with the business of NYCNCC thus furthering the interest of the City.

The NMTC program permits taxpaying investors to receive a credit against federal income tax liability in exchange for making qualified equity investments (QEI) in designated CDEs. Substantially, all of the qualified equity investment must in turn be used by the CDE to provide investments to projects and businesses in low-income communities.

In addition to directly financing projects through capital from NYCNCC, NYCEDC collaborates with a number of national CDEs to identify and help channel capital to qualified low-income community development projects in New York City.

Section 6: Energy Assistance

Business Incentive Rate

Business Incentive Rate (BIR) is an energy discount program provided by Con Edison but co-administered by NYCEDC for companies receiving a comprehensive Financial Assistance package. The program is designed to encourage economic growth in the manufacturing, industrial, and commercial sectors by offering a discount from Con Edison's electric delivery charges. The overall discount is 10–15 percent of the client's total electric bill. During FY23 there were two (2) New York City businesses enrolled in the NYCEDC's portion of the BIR program.¹³

Con Edison directly provides the electricity discount to eligible businesses under this program. NYCEDC processes and tracks the paperwork and performs account management and compliance functions for the companies that it adds to the program. NYCEDC's BIR is a discretionary program. To be accepted into the program, companies must:

- Have an electric account under service class 4 or 9;
- Apply for, and subsequently receive, a substantial comprehensive package of economic development incentives from State or City authorities. The net present value of the matching benefits needs to be greater or equal than the expected net present value of BIR benefits over the course of the program;
- Conduct an energy use survey of their premises; and

¹³ Financial Assistance for four BIR projects was less than \$150,000. Data for those projects are aggregated and provided in the summary report at the end of the Volume II report.

- Commit to increasing employment by 10 percent in three years and/or relocating to new premises within New York City.
- Retail and residential projects are not eligible.

NYCEDC screens incoming applicants and reviews compliance with employment and other requirements on an annual basis. Businesses that do not meet employment requirements or lose their matching benefit(s) are subject to reduction or termination of BIR discounts.

Section 7: Sales and Leases of City-Owned Land

The sale or ground lease of City-owned property for new development or business expansion is another key tool that NYCEDC uses to promote economic development throughout the City. NYCEDC selects qualified purchasers (or lessees) that respond to requests for proposals or requests for expressions of interest or are otherwise uniquely positioned to successfully develop underutilized properties for the attraction and retention of companies, creation of new jobs, the expansion of affordable housing supply, and other economic development purposes, such as community facilities. NYCEDC also provides technical assistance to help these purchasers complete public approval and environmental review processes and assists in coordinating applications for City incentive programs for the developers and tenants of City-owned land where appropriate.

Pursuant to its guidelines, NYCEDC conveys property at fair market value or at a below market value amount that reflects the value of the benefits derived by the City from the respective project. Restrictions are imposed in the deed or lease agreement to ensure that the purchaser performs on the agreed economic development project. The purchase price or rent is based on an independent appraisal, with appropriate adjustments for site conditions, use restrictions, and other factors that affect value. In general, projects do not receive any discretionary tax benefits if the land sale or lease is the sole transaction with NYCEDC.

The business terms of each sale or lease by NYCEDC are approved by NYCEDC's Board of Directors and the Mayor, as well as through a community review process involving the local community board and borough board.

Chapter Two:

Overview of Public Benefits from Investment Projects

Section 1: Framework of NYCEDC's Public Benefit Analysis

The Administrative Code §22-823 requires NYCEDC to report on projects undertaken by NYCEDC for the purpose of the creation or retention of jobs if, in connection with such projects, Financial Assistance was provided in the form of loans, grants or tax benefits and/or a sale or lease of City-owned land took place.¹⁴

The analysis presented in this report reflects three basic steps: determining which Investment Projects are to be included, calculating City Costs, and estimating City Benefits.

Included Projects

For each Financial Assistance Investment Project, the Administrative Code §22-823 requires that NYCEDC provide a variety of descriptive information, including project name (usually the name of the business receiving the benefits), the location, the time span over which the project is to receive assistance, the type of City assistance received, the maximum or estimated total amount of assistance, the number of employees at the start of the project, the number of jobs that the company must maintain during the reporting year in order to avoid any loss of allowable benefits, the actual number of employees in the reporting year, information about the residence, health benefits, the number and percentage of employees earning less

¹⁴ Some projects in this report are covered by the provision of the Administrative Code §22-823 stating that reports with regard to projects for which assistance was rendered prior to 7/1/2005 need only contain such information as is available to NYCEDC, can be reasonably derived from available sources, and can be reasonably obtained from the business entity to which assistance is provided. The remainder of this report reflects the application of this provision.

than a living wage, and—for entities that employ at least 250 persons—compensation of workers, along with information on assistance provided in the reporting year under certain statutory tax abatement programs administered by the City’s Department of Finance (“DOF”). The report also provides estimates of City Costs and City Benefits, except if City Costs are lower than \$150,000, in which case the information is aggregated.

The 449 active Financial Assistance Investment Projects included in the report are distributed across program categories as follows: ¹⁵

1. Manufacturing Facilities Bonds: 8 active projects in FY23;
2. Not-for-Profit Bonds (through NYCIDA): 13 active projects in FY23; (2 terminated in FY23)
3. Build NYC Revenue Bonds: 126 active projects in FY23;¹⁶ (9 terminated in FY23)
4. Build NYC Tax Exempt Promissory Notes: 20 active projects in FY23; (1 terminated in FY23)
5. NYCIDA Pooled Bonds: 9 active projects in FY23; (1 terminated in FY23)
6. NYCIDA Exempt Facilities Bonds: 2 active projects in FY23;
7. Empowerment Zone Facilities Bonds: 1 active project in FY23;
8. Liberty Bonds: 1 active project in FY23;
9. Industrial Incentive: 185 active projects in FY23; (9 terminated in FY23)
10. FRESH: 27 active projects in FY23; (5 terminated in FY23)
11. Commercial Growth: 10 active projects in FY23;
12. Commercial Project: 25 active projects in FY23; (1 terminated in FY23)
13. Recovery Zone Facility Bonds: 2 active projects in FY23;
14. Applied Sciences: 4 active projects in FY23;
15. NYCEDC Loans: 8 active projects in FY23;
16. New Market Tax Credit Program: 8 active projects in FY23;

It should be noted that the following programs are no longer available to new projects: Manufacturing Facilities Bonds, Empowerment Zone Facilities Bonds, Recovery Zone Facility Bonds, Not-for-Profit Bonds, Liberty Bonds and Pooled Bonds issued through NYCIDA.

The Administrative Code §22-823 requires NYCEDC to provide information on sales of City-owned land closed on or after 1/1/2005 for 15 years after closing if such projects are estimated to retain or create at least 25 jobs. The Administrative Code §22-823 also requires the provision of a list of all active leases of City-owned land as of 6/30/2023, regardless of start year, if the same jobs thresholds are met. Volume III of this year’s report contains data on 35 sales and on 94 leases. The Administrative Code §22-823 does not require estimates of City Costs and City Benefits associated with these projects.

Calculation of City Costs

The Administrative Code §22-823 requires NYCEDC to report on the type and amount of City assistance provided by NYCEDC to companies for eligible projects. Assistance that gives rise to City Costs includes the issuance of tax-exempt bonds, MRT exemption, real property tax savings from PILOT abatement and stabilization, sales tax exemption, and reduced taxes due to energy assistance. These incentives encourage eligible businesses to invest in New York City and locate jobs here.

¹⁵ If a project received assistance under more than one program, it is included in the category that generates the largest amount of financial assistance. For example, if a Commercial Growth project also received BIR assistance, it is included in the Commercial Growth category.

¹⁶ Build NYC bonds are also Not-for-Profit bonds but are issued under a separate authority from the Not-for-Profit Bonds issued by NYCIDA. The proceeds from some Build NYC bond issuances refunded then-outstanding NYCIDA bonds (as refinancing of old debt—NYCIDA bonds—with the issuance of new debt—Build NYC financing) and terminated corresponding NYCIDA projects during FY21. In this case, the Report counted both as a terminated project under NYCIDA and as a new, active project under Build NYC.

Calculation of City Costs requires the collection of project-specific cost data on eligible projects. In general, the estimates of assistance reflect only those discretionary financial benefits provided by NYCEDC. PILOT savings (i.e., foregone taxes) figures are provided by DOF and the amount of discretionary assistance may overstate the cost to the city provided those projects may have received as-of-right property tax benefits such as the Industrial and Commercial Incentive Program ("ICIP") or the Industrial and Commercial Abatement Program ("ICAP"), both administered by DOF.¹⁷

City Costs include only the revenue lost by the New York City government, even though some of the costs of the assistance NYCEDC provides are borne by the State and Federal governments. For example, the figures include only the City portion of the MRT exemptions and sales tax exemptions, although the assistance provided by NYCEDC waives the State portions of these taxes as well. For projects that receive BIR benefits, the report only counts the City forgone taxes as a City Cost because of the lower electric rates provided to businesses; the lower rates themselves flow from non-City sources (the savings to the company from lower rates is shown separately in the project report table for each project). Similarly, the Federal and State governments realize most of the revenue loss resulting from the issuance of triple tax-exempt bonds.

The City Cost attributable to triple tax-exempt and taxable bond issuance is particularly difficult to estimate. Although New York City residents who purchase tax-exempt bonds are eligible to receive an exemption from City personal income taxes on interest earnings from these bonds, many of these bonds are held by mutual funds, other large financial institutions, New York State residents who are not City residents but do not pay State income tax on their City bonds, and other non-City residents who would pay no taxes to the City even if the bonds were taxable. Information on the dispersion of holdings of tax-exempt bonds, which can be sold by initial investors to other investors during the period the bonds are outstanding, is not readily available. For estimation purposes, we have assumed that 35 percent of tax-exempt bonds are held by City residents and thus generate revenue loss to the City.

For each project, two measures of City Costs are provided: (1) the amount for the reporting year (FY22) and (2) the total amount over the life of the project. The total amount is presented as a present value discounted to the project start date, in order to reflect the value of assistance to both the City and the company at the time the project investment decision was made. This total present value is subdivided into two amounts: the portion (using actual figures) relating to the years from the project start through the reporting year, and the portion (using projected figures) from FY22 through the end of the project. Entries are also made to reflect any recapture, cancellation, or reduction of benefits made after the project start date and any penalties assessed.

Calculation of City Benefits

The Administrative Code §22-823 requires estimates of the tax revenues realized by the City as a result of each project. There are two categories of City Benefits:

Company Direct Impacts. The City Benefits generated directly by a company included in this report are called Company Direct Impacts. These include the tax revenues (business income taxes, real property taxes, sales tax from purchases made in the City, and employee income taxes) that would be paid if the City Costs were all zero ("full taxes").

Indirect and Induced Impacts. The City Benefits generated elsewhere within the city by a company's business activities are called Indirect Impacts. These impacts include the activities of various vendors and suppliers that provide essential goods and services the company requires. The City Benefits associated with the household spending of those residents whose employment depends directly or indirectly on a company are called Induced Impacts. These impacts include spending by employees on food, clothing, shelter, child-care, and other expenses related to living in the city. Estimates of the taxes from Induced and Indirect impacts are aggregated.

NYCEDC uses an economic model (described more fully in Appendix I) to estimate the portions of City Benefits that cannot be directly measured. Using current employment of the entity as the starting point, this model calculates the economic and fiscal impacts using multipliers, or factors, for the entity's relevant industry.

The calculation of City Benefits generally is based on employment figures as of the end of each fiscal year, as supplied to

¹⁷ Effective 7/1/2008, the ICIP program was replaced by ICAP. Grandfathering rules regulate eligibility of projects completed on or after FY09 for ICIP.

NYCEDC by each company in response to an annual survey administered by NYCEDC.¹⁸ When employment figures were unavailable for the reporting year, the calculation estimated current employment to be equal to the previous year's figure, or jobs at the start of the project, in that order. When these data are not available, NYCEDC assumes that the project supported one job. To project employment in future years, NYCEDC assumes that employment remains at the FY23 figure. This assumption as to future employment may result in a substantial understatement of future City Benefits, especially for projects that are in a start-up phase. Average annual construction employment is reported separately and is not assumed to continue beyond the reporting year.

FY23 NPV Methodological Changes

Starting with the FY23 iteration of the Annual Investment Report, NYCEDC updated its methodology for how it presents the value of past and future dollars. In versions prior to FY23, past and future dollar figures were discounted to each project's start year. Starting in FY23, the figures in the "Through FY" and "After FY" columns will be discounted to current fiscal year to uniformize the dollar year of each figure in the project tables. Moving forward, these values will not be on the same baseline from one report to another.

To provide additional context to this change, NYCEDC provides total City Costs, net of recapture and penalties, and Total City Benefits, net of assistance, recapture, and penalties, calculated using the previous methodology of expressing past and future dollars in project start fiscal year dollars. Using this methodology for FY23, total City Costs net of recapture and penalties were estimated to total \$3.1 billion. Total City Benefits net assistance, recapture, and penalties were \$31.9 billion.

18 Appendix IV contains the form sent to project companies to collect the employment and other information displayed in this report; similar forms were used for other projects.

Section 2.1: NYC-wide Results for Loans, Grants and Tax Benefit Projects

The summary of the analysis for all 449 NYCEDC Financial Assistance Investment Projects is presented in Table 2-1. Similar results are presented by borough in Tables 2-2 through 2-6.¹⁹ Results for individual projects are included in Volume II.²⁰

The projects include an important part of the City's economy. In FY23, jobs at project locations totaled approximately 170,539 or 4.2 percent of the City's private sector jobs.²¹ The projects involved approximately \$37.1 billion in private investments.

For FY23, total City Costs net of recapture, cancellations, reductions, and penalties ("recapture and penalties") on these projects were \$255.4 million. Recaptures, cancellations, and reductions totaled \$1.9 million in FY23. City Benefits (tax revenues generated directly and indirectly by the projects) net of assistance, recapture, and penalties were estimated at \$2.7 billion. About 59 percent of City Benefits in FY23 derived directly from business activity at project locations (Company Direct Impacts), while the remainder was generated by indirect and induced economy activity.

The present value of City Costs over the lives of the projects is estimated to be \$6.6 billion net of recapture and penalties.²² PILOT savings comprised the greatest share of total assistance (84.9%), followed by sales tax exemptions (6.7%), MRT exemptions (6.4%), tax-exempt bond interest savings (1.9%), and energy tax savings (0.1%). The present value of City Benefits over the lives of the projects is estimated to be \$97.8 billion net of assistance, recapture and penalty.

Total full-time equivalent ("FTE") employment was 170,539, which was 3.4 times the number of applicant jobs at the project site prior to project start. Taking into account employees that may have been relocated to project sites from elsewhere in the City, employment growth was 169.6 percent.²³ In companies reporting information on earnings levels, 75 percent were exempt, as defined by the Federal Fair Labor Standards Act, 25 percent of employees were non-exempt. 79 percent of the non-exempt employees earned \$40,000 or less annually, and 21 percent earned over \$40,000 annually.²⁴ 95 percent of full-time employees at project locations were offered health insurance, as were 13 percent of part-time employees. About 52 percent of employees at project locations live in New York City.²⁵

The Fair Wages for New Yorkers Act (the "Act"), constituting Section 6-134 of the New York City Administrative Code, is intended to ensure that New York City companies that receive financial assistance from the City of New York pay their employees a salary commensurate to a "living wage." Living Wage is defined as the sum of the "living wage rate" and the "health benefits supplement rate" for each hour worked. As of April 1, 2023, the Living Wage rate is no less than the sum of \$12.40 per hour (paid in cash wages) and \$2.05 per hour (paid in health benefits, cash, or any combination of the two).

Only projects that closed on or after June 28, 2012, and that received \$1 million or more in financial assistance are subject to the Act. For projects that closed prior to July 1, 2012, this report need only contain such information that is available to NYCEDC, can be reasonably derived from available sources, and can be reasonably obtained from the project companies. For the purposes of this report, 234 projects have closed since the enactment of the Act. Of these, 186 projects are exempt, while the remaining 48 are required to pay a living wage. This report includes living wage information for all projects that submitted information regarding employment, benefits, and living wage. Of all the projects that submitted living wage infor-

19 Results by borough are imprecise because many projects have multiple locations, which may be in more than one borough. The tables attribute the entire project to the borough of the main project location.

20 As previously noted, only projects for which assistance exceeds \$150,000 are required to be shown separately in Volume II. Projects not meeting this threshold are included in aggregated fashion.

21 Except for certain programs, the total number of jobs reflects full-time, part-time, permanent and temporary positions as well as contract employees at the project site or sites, as of the end of the fiscal year. City-wide employment is the FY23 average private sector payroll employment from the NYS Department of Labor's Current Employment Survey (CES) data as of the November 2023 data release. All data definitions can be found in Appendix I of this Volume.

22 Recapture and penalties include amounts through FY23.

23 Employment at the start of a project only includes jobs specifically at project locations. Jobs at application are reported as 0 for projects involving an acquisition, new construction or start-ups. Connected jobs reflect employment at a company prior to project start that were not necessarily located on the project site(s) but not necessarily covering all the company's establishments in the City. Such jobs total 12,851 in this year's report (where each full-time job is 1 job and each part-time job is 0.5 jobs).

24 The terms "exempt" and "non-exempt" are defined under the federal Fair Labor Standards Act. Generally, an exempt employee is not eligible for overtime compensation. Numbers may not add up to 100 percent due to rounding.

25 Figures on wage levels, health benefits, and residency in all of the summary tables, including those by borough and program, reflect information only for those companies that responded to these questions on the survey form and do not include employees of tenants.

mation in FY23, 98 percent reported paying a living wage to an aggregate of 158,982 employees.

At the end of FY23, there were 28 projects no longer receiving assistance because of termination, default or suspension of benefits.²⁶ For these projects, the present value of City Costs through FY23 is estimated to be \$49.7 million net of recapture and penalties. Roughly 77.5 percent of the assistance gross of recapture and penalties was in the form of PILOT savings, followed by MRT exemptions at 18.8 percent, while tax-exempt bond interest savings, sales tax abatements, and energy tax savings made up 2.7, 0.9, and 0.04 percent, respectively. The present value of City Benefits through FY23 is estimated to be \$1.6 billion net of assistance, recapture, and penalty. Table 2-7 below contains information on the 28 projects.

26 Benefits can cease due to a variety of reasons. Terminated projects no longer receive assistance and become inactive. When a default occurs under an agreement, or a company is below certain employment thresholds or fails to meet other commitments, benefits may be forfeited and/or recaptured. Projects that have forfeited all remaining benefits may be required to report employment information to NYCEDC until the maturity date of the agreement.

Section 2.2: Overall NYCEDC-wide Results – Sale and Lease of City-owned Land Projects

Volume III contains all the information on sales and leases of City-owned land, including terms or restrictions on use or resale of the properties.

Of the 35 land sales included in the report, 6 took place in FY08 and FY09 for a total sale price of \$22.4 million (FY23 dollars) or 4.9 percent of the total. There were no new transactions in FY23. The most valuable properties were located in Manhattan, where seven transactions totaled approximately \$243.6 million or 53.4 percent of the total.

Of the 97 leases active at the end of FY23, 30 were in Brooklyn (\$34.7 million or 18.4% of total rent collected in FY23), 18 were in the Bronx (\$28.5 million or 15.2%), 34 in Manhattan (\$117.3 million or 62.4%), 9 in Queens (\$1.8 million or 1.0%) and 6 in Staten Island (\$5.6 million or 3.0%).

Section 3: Results by Financial Assistance

This section provides an overview of the results for the main program category, as summarized in Tables 2-8 through 2-21.

Manufacturing Facilities Bonds (Table 2-8)

Eight (8) projects are included for a total investment amount of \$34.3 million. The total of City Costs net of recapture and penalties in FY23 was \$1.2 million mostly in the form of PILOT benefits and tax-exempt bond interest savings. In FY23, these projects generated about \$22.4 million in gross (before assistance) City Benefits. Of these tax revenues, 64 percent were Company Direct Impacts.

The present value of City Costs (net of recapture and penalties) is estimated at \$35.8 million. Before recapture and penalties, 90.0 percent of the assistance is in the form of PILOT savings. The present value of tax revenues (before assistance) generated by the projects is estimated to be approximately \$846.2 million.

The Manufacturing Facilities Bond projects have current FTE employment of 1,100, nearly 1.9 times the number of jobs at project location and 1.1 times the number of jobs connected to the projects at time of application. Eighty-two (82) percent of the employees are New York City residents.

Not-for-Profit Bonds (Issued through NYCIDA) (Table 2-9)

Thirteen (13) projects are included with a total investment amount of about \$393.2 million. The total City Costs net of recapture and penalties in FY23 were \$283,888 in the form of tax-exempt bond savings. In FY23, these projects generated about \$8.4 million in total revenues (before assistance). Of these tax revenues, about 34.8 percent were Company Direct Impacts.

The present value of City Costs net of recapture and penalties is estimated to be \$18.2 million. 70.3 percent of gross City Costs are in the form of tax-exempt bond interest savings. The present value of gross City Benefits is estimated to be about \$380.6 million.

The Not-for-Profit Bond projects have current FTE employment of 961, 1.1 times the number of jobs at project location at time of application. Sixty-three (63) percent of the employees are New York City residents.

At the end of FY23, there were two (2) Not-for-Profit Bond projects no longer receiving assistance. For these projects, the present value of City Costs through FY23 is estimated to be \$1.3 million net of recapture and penalties. 83.8 percent of the total assistance is in the form of MRT exemptions, while costs related to the tax-exempt bonds made up the remainder. The present value of gross City Benefits through FY23 is estimated to be \$68.1 million.

Build NYC Revenue Bonds (Table 2-10)

One hundred twenty-six (126) projects are included with a total investment amount of about \$3.7 billion. The total City Costs net of recapture and penalties in FY23 were \$6.3 million, in the form of MRT exemptions and tax-exempt bond interest savings. In FY23, these projects generated about \$206.6 million in total revenues (before assistance). Of these tax revenues, about 41.0 percent were Company Direct Impacts.

The present value of city Costs net of recapture and penalties is estimated to be \$100.3 million. 58.2 percent of gross City Costs are in the form of MRT exemptions, while costs related to tax-exempt bond interest savings make up the remainder. The present value of gross City Benefits is estimated to be about \$6.0 billion.

The Build NYC Revenue Bond projects have current FTE employment of 24,321, 1.3 times the number of jobs at project location, and 1.2 times the number of jobs connected to the projects at time of application. Seventy-four (74) percent of the employees are New York City residents.

At the end of FY23, there were nine Build NYC Revenue Bond projects no longer receiving assistance. For these projects, the present value of City Costs through FY23 is estimated to be \$4.4 million net of recapture and penalties. 82.7 percent of the total assistance is in the form of MRT exemptions, while costs related to tax-exempt bond interest savings make up the remainder. The present value of gross City Benefits through FY23 is estimated to be \$148.9 million.

Build NYC Tax-Exempt Promissory Notes (Table 2-11)

Twenty (20) projects are included with a total investment amount of about \$505.1 million. The total City Costs net of recapture and penalties in FY23 were \$806,713, in the form of MRT exemptions and tax-exempt bond interest savings. In FY23, these projects generated about \$27.7 million in total revenues (before assistance). Of these tax revenues, roughly 39.5 percent were Company Direct Impacts.

The present value of City Costs net of recapture and penalties is estimated to be \$13.6 million. 63.5 percent of gross City Costs are in the form of MRT exemptions, while costs related to tax-exempt bond interest savings make up the remainder. The present value of gross City Benefits is estimated to be about \$688.3 million.

The Build NYC Tax-Exempt Promissory Note projects have current FTE employment of 3,674, approximately 47.4 percent higher than the number of jobs at project location, and 40.6 percent higher than the number of jobs connected to the projects at time of application. Sixty-eight (68) percent of the employees are New York City residents.

At the end of FY23, there was one Build NYC Tax-Exempt Promissory Notes project no longer receiving assistance. For this project, the present value of City Costs through FY23 is estimated to be \$390,448 net of recapture and penalties. 79.2 percent of the total assistance is in the form of MRT exemptions, while costs related to tax-exempt bond interest savings make up the remainder. The present value of gross City Benefits through FY23 is estimated to be \$6.6 million

NYCIDA Pooled Bonds (Table 2-12)

Nine (9) projects are included with a total project amount of \$13.3 million. The total of City Costs net of recapture and penalties in FY23 was \$1,974, in the form of tax-exempt bond interest savings. In FY23, these projects generated about \$4.2 million in total revenues (before assistance). Of these tax revenues, about 33.6 percent were Company Direct Impacts.

The present value of City Costs net of recapture and penalties is estimated to be \$1.4 million. 80.1 percent of gross City Costs are in the form of MRT exemptions. The present value of gross City Benefits is estimated to be \$165.5 million.

The Pooled Bond projects have current FTE employment of 687, about 46 percent of the number of jobs at project location and approximately 44 percent of the number of jobs related to the projects at time of application. Eighty-four (84) percent of the employees are New York City residents.

At the end of FY23, there was one NYCIDA Pooled Bonds project no longer receiving assistance. For this project, the present value of City Costs through FY23 is estimated to be \$63,069 net of recapture and penalties. 79.2 percent of the total assistance is in the form of MRT exemptions, while costs related to tax-exempt bond interest savings make up the remainder. The present value of gross City Benefits through FY23 is estimated to be \$2.0 million.

NYCIDA Exempt Facilities Bonds (Table 2-13)

Two (2) projects are included with a total project amount of \$145.9 million. The total of City Costs net of recapture and penalties in FY23 was \$53,990, in the form of tax-exempt bond interest savings. In FY23, these projects generated \$5.2 million in total revenues (before assistance). Of these tax revenues, 46.6 percent were Company Direct Impacts.

The present value of City Costs net of recapture and penalties is estimated to be \$8.3 million. 58.3 percent of these gross City Costs took the form of MRT exemptions, with tax-exempt bond savings and sales tax abatements making up the rest. The present value of gross City Benefits is estimated to be about \$280.8 million.

The Exempt Facilities Bond projects have current FTE employment of 711, about 4.2 times the number of jobs connected to the projects at the time of application. Thirty-seven (37) percent of the employees are New York City residents.

Liberty Bonds (Table 2-14)

One (1) project is included with a total project amount of \$50.0 million. The total of City Costs net of recapture and penalties in FY23 was \$5,557, in the form of tax-exempt bond interest savings. In FY23, this project generated \$4.6 million in total revenues (before assistance). Of these tax revenues, 91.0 percent were Company Direct taxes.

The present value of City Costs net of recapture and penalties is estimated to be \$357,678, entirely in the form of tax-exempt bonds. The present value of gross City Benefits is estimated to be \$180.7 million.

The Liberty Bond project has current FTE employment of 76, entirely created by this project. Eighty-eight (88) percent of the employees of this project are New York City residents.

Industrial Incentive (Table 2-15)

In all, one hundred and eighty-five (185) projects are included with a total project amount of \$2.3 billion. The total of City Costs net of recapture and penalties in FY23 was \$37.8 million. PILOT savings represented 96.9 percent of gross City Costs, followed by sales tax exemptions and MRT exemptions, accounting for 2.4 and 0.8 percent, respectively. In FY23, these projects generated about \$463.0 million in total revenues (before assistance). Of these tax revenues about 59.9 percent were Company Direct taxes.

The present value of City Costs net of recapture and penalties is estimated to be \$1.1 billion. 90.4 percent of gross City Costs are in the form of PILOT savings. The present value of gross City Benefits is estimated to be \$14.9 billion.

The Industrial Incentive projects have current FTE employment of 21,783, or 3.3 times the number of jobs at project location and 56.0 percent higher than the number of jobs connected to the projects at the time of application. Sixty-two (62) percent of the employees are New York City residents.

At the end of FY23, there were nine (9) Industrial Incentive projects no longer receiving assistance. For these projects, the present value of City Costs through FY23 was estimated to be \$40.2 million net of recapture and penalties. About 95.7 percent of gross City Costs are in the form of PILOT savings, 3.5 percent in MRT exemptions, 0.7 percent tax exempt bond savings, with sales tax abatements and energy tax savings each accounting for 0.1 percent. The present value of gross City Benefits through FY23 is estimated to be \$1.2 billion.

FRESH (Table 2-16)

Twenty-seven (27) projects are included with a total investment amount of about \$151.8 million. The total City Costs net of recapture and penalties in FY23 were \$3.5 million, all in the form of PILOT savings. In FY23, these projects generated about \$29.3 million in total revenues (before assistance). Of these tax revenues, about 79.4 percent were Company Direct Impacts.

The present value of City Costs net of recapture and penalties is estimated to be \$78.5 million. About 95.2 percent of gross City Costs are in the form of PILOT savings, 3.2 percent in sales tax abatement, and 1.6 percent in MRT exemptions. The present value of gross City Benefits is estimated to be \$553.5 million.

The FRESH projects have current FTE employment of 1,869, 3.7 times the number of jobs at project location, and about 3.1 times the number of jobs connected to the projects at time of application. Ninety-eight (98) percent of the employees are New York City residents.

At the end of FY23, there were five (5) FRESH projects no longer receiving assistance. For these projects, the present value of City Costs through FY23 is estimated to be \$395,110 net of recapture and penalties. All gross City Costs are in the form of sales tax exemptions. The present value of gross City Benefits through FY23 is estimated to be \$117.8 million.

Commercial Growth (Table 2-17)

In all, ten (10) projects are included with a total project amount of about \$4.6 billion. The total of City Costs net of recapture and penalties in FY23 was \$16.0 million. PILOT savings represented 94.7 percent of gross City Costs. In FY23, these projects generated about \$1.2 billion in total revenues (before assistance). Of these tax revenues, about 57.1 percent were Company Direct taxes.

The present value of City Costs net of recapture and penalties is estimated to be \$874.9 million. Nearly 53 percent of gross City Costs are in the form of PILOT savings, with the remainder being in the form of sales tax exemptions, MRT exemptions, and energy tax savings. The present value of gross City Benefits is estimated to be \$59.8 billion.

The Commercial Growth projects have current FTE employment of 27,713, about 1.5 times the number of jobs at project location and 1.4 times the number of jobs related to the projects at the time project applications were received. Fifty-one (51) percent of the employees are New York City residents.

Commercial Project (Table 2-18)

In all, twenty-five (25) projects are included with a total project amount of about \$24.4 billion. The total of City Costs net of recapture and penalties in FY23 was \$189.4 million. PILOT savings represented 97.6 percent of gross City Costs. In FY23, these projects generated about \$734.3 million in total revenues (before assistance). Of these tax revenues, about 71.3 percent were Company Direct taxes.

The present value of City Costs net of recapture and penalties is estimated to be \$4.4 billion. Approximately 92.6 percent of gross City Costs are in the form of PILOT savings. The present value of gross City Benefits is estimated to be \$16.1 billion.

The Commercial Projects have current FTE employment of 58,166, only 100 of which were at project location at the time project applications were received. Twenty-five (25) percent of the employees are New York City residents.

At the end of FY23, there was one Commercial Project no longer receiving assistance. For this project, the present value of City Costs through FY23 is estimated to be \$2.8 million net of recapture and penalties, all in the form of MRT exemptions. The present value of gross City Benefits through FY23 is estimated to be \$68.8 million

Recovery Zone Facility Bonds (Table 2-19)

In all, two (2) projects are included with a total project amount of \$26.1 million. The total of City Costs net of recapture and penalties in FY23 was \$7,249, in the form of tax-exempt bond interest savings. In FY23, these projects generated about \$4.1 million in total revenues (before assistance). Of these tax revenues, 60.3 percent were Company Direct taxes.

The present value of City Costs net of recapture and penalties is estimated to be \$184,849, all in the form of tax-exempt bond interest savings. The present value of gross City Benefits is estimated to be \$106.4 million.

The Recovery Zone Facility Bond projects have current FTE employment of 307, 1.9 times the number of jobs at project location and the number of jobs related to the projects at the time project applications were received. Seventy-three (73) percent of the employees are New York City residents.

Applied Sciences NYC (Table 2-20)

In all, four (4) projects are included with a total project amount of \$450.0 million. The total of gross City Costs in FY23 was \$22,587, all of which took the form of energy tax savings. In FY23, these projects generated about \$161.3 million in total revenues (before assistance). Of these tax revenues, 35.1 percent were Company Direct taxes.

The present value of gross City Costs is estimated to be \$1.4 million, all of which derived from energy tax savings. The present value of gross City Benefits is estimated to be \$3.2 billion.

The Applied Sciences NYC projects have current FTE employment of 27,592, only 56 of which were connected to the projects at the time of application. Fifty-seven (57) percent of the employees are New York City residents.

New Markets Tax Credits Program (Table 2-21)

In all, eight (8) projects²⁷ are included with a total project amount of \$145.7 million. In FY23, these projects generated \$33.7 million in total revenues (before assistance). Of these tax revenues, approximately 85.0 percent were Company Direct taxes.

The present value of gross City Benefits is estimated to be \$611.2 million.

The New Market Tax Credits Program project has a current FTE employment of 236, 2.4 times the number of jobs at project locations and the number of jobs related to the projects at the time of project applications. Seventy-two (72) percent of the employees are New York City residents.

²⁷ In FY23, there were thirteen (13) active NMTC projects. However, five (5) of which also obtained a higher level of financial assistance through NY-CIDA programs. To avoid double counting, the data of those five projects were included in the report under their primary NYCIDA program type.

APPENDIX I

Appendix I

Cost/Benefit Model And Project Report Tables

1. Understanding The Analysis: The Economic Model

In order to analyze the impact of NYCEDC's Investment Projects, NYCEDC created an economic model, which relies on data provided by the Bureau of Economic Analysis (BEA), a division of the United States Department of Commerce. This Appendix describes the economic theory behind the model and then explains the organization and content of the Project Report Tables (PRT), which present the data for each project.

The RIMS II Model as Applied to New York City Projects

The analytical tool used to estimate the economic impact of NYCEDC's economic development activities in order to derive estimates of City Benefits and City Costs is the Regional Input-Output Modeling System, otherwise known as RIMS II, prepared by the BEA. This report uses the 2002 version of the model for calculations relating to FY03 and years prior, the 2004 version for FY04, the 2005 version for FY05, the 2006 version for FY06, the 2007 version for FY07, the 2008 version for FY08 and FY09, the 2010 version for FY10 through FY12, the 2013 version for FY13 through FY14, the 2015 version for FY15, the 2016 version for FY16, the 2017 version for FY17, and the 2018 version for FY18, the 2019 version for FY19, the 2020 version for FY20, and the 2021 version for FY21 and years following.

RIMS II is based on inter-industry economic relationships known as input-output analysis. Input-output analysis is an accounting framework that shows the inter-relationships between sectors of the economy and reveals how the various parts relate to each other and to the whole. The analysis essentially quantifies the extent to which a given sector contributes to total output in the economy.

The RIMS II input-output analysis quantifies the extent to which each industry requires goods and services from other sectors in order to produce its own products. For example, a tool and dye operation requires inputs from metals suppliers and industrial machinery producers to do its work. In turn, the metals suppliers require inputs from the mining sector, which produces the raw ore. These relationships apply to retail and service industries as well; hotels, for example, purchase food from wholesalers to serve to their guests and, similarly, accountants require computer software and office paper in order to serve their clients.

However, not all inputs that an industry requires to produce its goods and services are available within any given regional economy. Even in a large economy like New York City, businesses may choose to acquire their inputs from outside of the area. Consequently, BEA can create versions of the RIMS II model that focus on regions as small as a single county. NYCEDC utilizes a version of the RIMS II model specific to New York City's economy.

RIMS II can also be used to translate these economic transactions into employment and the household earnings these jobs produce. The factors that describe the proportions between jobs, output (sales), and earnings are commonly known as multipliers. A multiplier represents the factor by which an initial change in output in an economic sector is multiplied to arrive at the total change in the economic measure of interest. The bullet points below summarize the types of multipliers available through RIMS II:

- ***Output multipliers*** reflect the change in total regional economic output resulting from a dollar change in final demand in a specific industry sector in that region. "Final demand" changes refer to purchases of goods and services by businesses, consumers, investors and government. RIMS II output multipliers are adjusted for the fact that regional industries make some of their purchases from outside the region. In this report, the output of a business represents its effect on the final demand in that sector. Output multipliers measure the extent to which specific industries are integrated with the rest of the regional economy: the higher the output multiplier of a given sector, the more integrated it is within the regional economy and the greater the extent to which it receives its inputs from that regional economy.
- ***Earnings multipliers*** measure the total earnings accruing to households generated by a dollar change in final demand.

- **Employment multipliers** measure the total number of jobs created by a million dollar change in final demand in a given sector.

These multipliers enable analysts to estimate the total economic impact, including jobs, earnings and output, based on either the number of direct jobs or direct earnings attributable to a specific project.

BEA prepares two versions of RIMS II: one that evaluates the relationships among over 350 separate sectors, and an aggregated version that groups these industries together in about 60 categories. This analysis uses the aggregate version for the sake of simplicity. It should be noted that the multipliers generated by RIMS II represent averages across all businesses within a given sector operating within the New York City economy. Therefore, while they correctly represent the relationships among industrial sectors on average, they may not be accurate for any specific business.

2. Model Basics And Project Report Table Explanation

The model used to estimate the City Costs and City Benefits associated with each project included in this report consists of two components: information culled from NYCEDC and other agency files, along with the analysis conducted using the RIMS II multipliers as described above. These elements are discussed below.

NYCEDC has produced a Project Report Table (PRT) for most eligible projects. To help in understanding the model and the PRT, we have provided a “by-the-numbers” explanation of each item on the PRT. Refer to Table I-1 and the discussion below which explains each item on the PRT.

Project Information – Loans, Grants and Tax Benefit Projects

Item Nos. 1 – Project Name: This item provides the project participant’s business name.

Item No. 2 – Project ID: Each NYCEDC project was assigned a unique identification number that enables the model to utilize the proper information stored in the database. In the case of a company that reports total employment covering multiple projects included in the time frame of this report, a single PRT contains the combined cost and benefit information for all such projects. In these cases, the descriptive information in Items 1 to 15 refer to the project with the earliest start date or the earliest project receiving PILOT assistance, except that when all of the projects are NYCIDA projects, the entries in Items 7 and 8 are the sum of the individual project amounts.

Item No. 3 – NAICS Code: The project’s North American Industrial Classification System Code, which is a business and government standard coding of establishments based on type of economic activity. Certain projects were intended for multiple tenants, potentially falling within different NAICS codes. For these projects, the NAICS code for the largest tenant is listed.

Item No. 4 – Project Start Date: The Start Date is the date on which the transaction with NYCEDC, NYCIDA, or Build NYC was executed and, if applicable, Financial Assistance was made available.

Item No. 5 – Project End Date: The End Date is the date on which the company’s agreement with NYCEDC, NYCIDA, or Build NYC is scheduled to terminate and/or mature.

Item No. 6 – Benefits Program Type: The specific NYCEDC, NYCIDA, or Build NYC program under which assistance is provided (e.g., Manufacturing Facility Bond, Commercial Growth, Industrial Incentive, etc.).

Item No. 7 – Total Project Amount: The amount spent by the company on investment in the project inclusive of property acquisition cost, or, in the case of tax-exempt bond programs, the total amount of tax-exempt bonds authorized is provided instead. For energy assistance projects, this field is left blank.

Item No. 8 – Type(s) of Benefits Received: This item lists the types of assistance (involving a City Cost) the company received (e.g., sales tax exemption, MRT exemption, etc.) or is authorized to receive during the life of the project.

Item Nos. 9 – Street Address: This item provides the project participant’s primary street address.

Item No. 10 – Council District: The Council District in which the company’s primary project site is located.

Item No. 11 – Borough: The Borough in which the company’s primary project site is located.

Item Nos. 12 and 13 – Block and Lots: The number of the block where the project’s primary site is located and, similarly, the number(s) designating the lot(s) on the block which include this site.

Item Nos. 14 and 15 –Land and Building Square Footage: The size of the lot (in square feet) and the actual or planned area of the building contained in the project location. These data, which mainly come from the Department of Finance, were used to estimate annual property taxes paid for the project when property assessment figures were not available.²⁸

Employment Information

Item No. 16 – Total Project Jobs at Application (FTE): Full time equivalent employment (Full Time + ½ (Part Time)) at the

²⁸ Efforts were made for the FY12 report to list square feet of land and building for all projects. Where it was not provided directly by the company, data was gathered internally from other surveys and/or DOF’s Real Property Assessment Data master file. As a result, total land and building square footage for all projects is significantly higher since the FY12 report.

project's location prior to Start Date. In cases where the company is a real estate company that owns real estate at the project location, this figure includes jobs of the company's tenants. For most Commercial Growth projects, this figure includes jobs throughout New York City as set forth in the assistance agreement that make certain benefits contingent on annual employment. Note that this field is 0 in cases of acquisition, new construction, start-up companies, and projects intended for multiple tenants with potential multiple uses. Jobs connected to the project, but not located at the project site prior to project start date, are provided in comments where applicable.

project's location prior to Start Date. In cases where the company is a real estate company that owns real estate at the project location, this figure includes jobs of the company's tenants. For most Commercial Growth projects, this figure includes jobs throughout New York City as set forth in the assistance agreement that make certain benefits contingent on annual employment. Note that this field is 0 in cases of acquisition, new construction, start-up companies, and projects intended for multiple tenants with potential multiple uses. Jobs connected to the project, but not located at the project site prior to project start date, are provided in comments where applicable.

Item No. 17 – Job Creation Estimate: The company's estimated projection, provided at the start of the project, of the number of jobs that would exist three years after the start of the project, net of Total Project Jobs at Application. For certain Commercial Growth projects, the projection is of incremental jobs at the end (or for the life) of the project.

Item No. 18 – Target for Fiscal Year: The figure in this item is the "base employment" level that applies to the project. If average annual employment falls below a certain percentage of base employment, reduction or cancellation of assistance is triggered. The percentage varies by project and by whether the fall in the employment level was due to relocation or reduction in the number of jobs. This field applies only to Commercial Growth, and BIR programs; it is 0 for all other types of projects.

Item Nos. 19 to 27 – Current Project Jobs Data: These figures include information about jobs related to the project, as of the end of the fiscal year, were obtained from the companies and may include information on their tenants.

- Part-Time Temporary Employee is an employee, other than a Contract Employee, hired for temporary employment for seasonal or other temporary purposes, who works on average at least 17.5 hours, but less than 35 hours, per week at a Project Location
- Part-Time Permanent Employee is an employee, other than a Contract Employee, hired for permanent employment and not for seasonal or temporary purposes, who works on average at least 17.5 hours, but less than 35 hours, per week at a Project Location.
- Full-Time Employee Temporary is an employee, other than a Contract Employee, hired for temporary employment for seasonal or other temporary purposes, who works at least 35 hours per week at a Project Location.
- Full-Time Employee Permanent is an employee, other than a Contract Employee, hired for permanent employment and not for seasonal or temporary purposes, who works at least 35 hours per week at a Project Location.
- Contract Employee is a person, other than a Contract Construction Employee, who is an independent contractor (i.e., a person who is not an "employee"), or is employed by an independent contractor, who provides services at a Project Location.
- Construction Employee is a person who is an independent contractor or subcontractor, or an employee thereof, who provides construction services to the Company, an Affiliate or a Tenant at a Project Location. Construction jobs are reported on an annual average basis.
- The Total Jobs field is the sum of the full-time, part-time, temporary, and contract jobs figures.
- Full Time Equivalent field contains the figure used for the calculation of City Benefits: it is given by Contract + Full Time + ½ Part Time jobs at project location (both permanent and temporary jobs are included). As a result, sometimes when data is presented after aggregation, this field might be higher than the Total Current Jobs.
- For Commercial Growth recipients, the Full Time Equivalent field number is the average annual employment for the 12-month period, as specified in the assistance agreement, that ends in the reporting (fiscal) year and includes jobs

at all projects sites throughout New York City that are taken into account under job trigger provisions of the assistance agreement.

- If a company did not submit data for the reporting year, fields other than the “Jobs FTE” field are left blank. Jobs FTE is made equal to the previous year’s figure, or jobs at the time of application, in that order. When none of these data were available, the report assumes that the project supported one job.
- Projects that have affiliates and/or tenants at a project location may have employees included in the Full Time and Part Time employment calculation.

Item Nos. 28 to 36 – Employee Information: This information only refers to employees of the project company and is therefore not applicable to the employees of tenants. If a company did not supply this information for the reporting year, the fields are left blank. Items 31 to 36 were not required for companies with employment of less than 250 at project locations.

Item No. 28 – Living in NYC: The percentage of employees of the company who are residents of NYC.

Item Nos. 29 and 30 – Health Benefits Offered: These items report whether or not the company offers health benefits to all its full-time and part-time employees, respectively.

Item No. 31 – Exempt: The percentage of the company’s employees that are classified as “exempt” under the federal Fair Labor Standards Act. Generally, an exempt employee is not eligible for overtime compensation.

Item Nos. 32 to 36 – Non-Exempt: These items list the percentages of employees whose annual earnings fall within various ranges. The “greater than \$50,000” category was computed by subtracting from the total number of employees (as reported on the survey form) the sum of the employees in the lowest three earnings ranges. The sum of Items 31 through 35 may differ from 100% because of rounding.

Cost and Benefit Calculations

Several of the items of City Benefit reported in the next section of the table use economic output estimates generated by the RIMS II model:

- **Estimated Company Direct Output:** The model estimates the subject company’s annual business output for each year by dividing the number of its FTE employees by the relevant RIMS factor, representing the typical number of jobs per million dollars of output for that sector. To project employment in future years, as described above, the report assumes that employment will stay at the FY21 figure.
- **Estimated Indirect and Induced Output:** The model uses the proportional relationships between direct and total outputs expressed in the RIMS II model to calculate the remaining indirect and induced output attributable to the company’s business activity.
- **Estimated Total Output:** The model estimates the total output (direct, indirect, and induced output) associated with the subject company’s business activity by taking the product of the Output multiplier and the Estimated Company Direct Output.

The RIMS II factors produce dollar figures in historical dollars. The model converts these figures into current dollars for each fiscal year using historical and projected inflation factors.²⁹ For years after FY23, output is assumed to grow at 3.5 percent annually.

Actual data for tax savings (project assistance) and estimates for direct tax liability generated directly and indirectly by the project in absence of assistance from NYCEDC/NYCIDA/Build NYC (full tax) are reported for FY23 in the column “FY23.”

The column “Through FY23” provides the present value of the estimated full taxes and the tax savings for each project from the project start date through FY23. All present values are computed using the discount rate in effect at the Start Date. For projects beginning in FY06 or later, the discount rate is 6.25 percent; for all other projects, the discount rate is 7.75 percent.

For all types of assistance, the column “FY23 and After” presents present values of estimated figures from FY23 through

²⁹ Historic inflation is based on the NY Metro Area Consumer Price Index reported by Bureau of Labor Statistics.

the date that assistance is scheduled to end. The bases of all taxes are assumed to increase from their FY23 level by 3.5 percent annually.

The column "Total" sums the "Through FY23" and "FY23 and After" columns. For Commercial Growth projects, a maximum assistance amount generally is provided in the project agreement and is included in the "Total" column; the column "FY23 and After" is the "Total" less the "Through FY23" column, rather than a figure derived from projected annual amounts. Note that the "Total" amounts may include some assistance that will be available to the company only if future employment exceeds specified levels.³⁰

Items Nos. 37 to 39 – Tax Revenues: This section of the PRT shows the tax revenue generated by the company and by those companies that produce the indirect and induced economic activity. These totals include revenue from property taxes as well that from income, consumption, and use taxes.

Item No. 37 Direct Tax Revenue: This figure is the total tax revenue generated directly by the company and its employees. The total is obtained by combining the two categories detailed below:

Company Direct Property Taxes: NYCEDC obtains information from DOF on what real property tax liability would have been for the land and the structure in the absence of possible benefit from the ICIP or ICAP programs.

Company Direct Income, Consumption, and Use Taxes: This is the income, consumption, and use taxes generated by the company itself, including sales tax, business income, and employees' personal income taxes. These figures were estimated by multiplying the RIMS II estimate of company direct output by the average ratio of City receipts for these taxes to Gross City Product for the current fiscal year and the previous four fiscal years. The estimate corrects for the fact that, on average, a portion of a company's employees do not reside within the City (which affects employee income taxes) and that non-profit entities have reduced tax liability.

Item No. 38 Indirect and Induced Tax Revenue: The line reports the total estimated tax revenue generated other businesses benefiting directly or indirectly from the company's economic activity. The total is obtained by combining the two categories detailed below:

Indirect and Induced Property Related Taxes: Estimates of the property-related taxes paid by other businesses benefiting directly or indirectly from the company's economic activity are reported here. These estimates represent the project's estimated indirect and induced output resulting from its economic activity multiplied by the average ratio of New York City's property taxes to its Gross City Product for the current year and the previous four years. These taxes are split between land and building using an estimate of the median ratio of existing Land and Building assessed values.

Indirect and Induced Income, Consumption, and Use Taxes: Estimates of the income, consumption, and use taxes paid by those businesses benefiting directly or indirectly from the company's economic activity are reported here. These estimates represent the project's estimated indirect and induced output multiplied by the average ratio of New York City's total non-property taxes to its Gross City Product for the current fiscal year and the previous four fiscal years. The estimate corrects for the facts that, on average, a portion of employees working in the City do not reside within the City.

Item No. 39 Total Tax Revenue Generated: Sum of items nos. 37-38.

Assistance Provided

Item No. 40 – PILOT Savings: Tax savings realized by the company (i.e., tax expenditures of the City's real property tax) due to the PILOT agreement are reported here, as obtained from DOF. As explained in Chapter 2, the PILOT savings figures may be overstated since they could include property tax savings that would have been available as-of-right under the ICIP or ICAP programs, both administered by DOF. For purposes of projections for FY23 and thereafter, PILOT savings is assumed to grow by 3.5 percent annually from its FY23 level.

³⁰ All Assistance and Total Revenues is presented in the tables in thousands. Numbers may not sum exactly due to rounding, and values less than \$1000 may display as \$0.

Item No. 41 – MRT Savings: This item is an estimate of the City portion of Mortgage Recording Tax (MRT) (without regard to any exemption) generated directly by the project.³¹ For NYCIDA and Build NYC projects receiving an MRT exemption, this amount is set equal to the exemption amount (Item 39) based on the assumption that the exemption offsets all MRT that otherwise would be due. For other programs, this amount is estimated to be zero because projects in other categories are not eligible for MRT waiver. The City portion of tax savings enjoyed by the company due to its exemption from the MRT are reported here based on data in NYCEDC/NYCIDA/Build NYC project files. The total benefit is reported in the year that the project closes.

Item No. 42 – Sales Tax Savings: Tax savings enjoyed by the company due to the City portion of its sales tax exemption. For purposes of computing the present value of the savings in FY23 and after for projects other than Commercial Growth projects, the difference between the estimated total exemption and the amount through FY23 is assumed to be realized in FY23. (As noted above, for Commercial Growth projects, the “FY23 and After” column generally is computed by subtracting the amount in the “Through FY23” column from the “Total” figure, which is taken from the project agreement.)

Item No. 43 – Energy Savings: The City charges utility taxes and sales tax on the purchase of energy. Through BIR assistance, low-cost energy is provided to project businesses. The estimated value of the City taxes forgone due to the lower cost of electricity is included in this line.

Item No. 44 – Bond Savings: Through NYCIDA and Build NYC, some companies receive the benefit of lower interest rates due to the exemption of interest earned on their bonds from City, State, and Federal income taxes. An estimate of City income taxes forgone is included in this line. It is calculated assuming that 35 percent of tax-exempt City bonds are held by taxpayers’ subject to City income taxes, that the applicable marginal tax rate is 3.876 percent (the highest rate under the City’s income tax), and that the taxable equivalent interest rate is 1.24 times the actual rate on the bond. These factors are applied to the average bond balances in each fiscal year to produce the estimate of City income tax foregone. Projections assume that bond balances remain constant at their level at the end of FY23.

Item No. 45 – Total Savings: Sum of items no. 40-44.

Assistance Recapture & Penalties

Item No. 46 – Recapture, Cancellation or Reduction: Under certain circumstances (employee relocation, misuse of project benefits, prepayment by company, etc.), the assistance provided to the company is reduced, recaptured, repaid, or cancelled. This line provides the amount of assistance that was recaptured or recovered from the company, or a reduction in possible benefits that could have been claimed in future years. In the case of a reduction in future benefits, Item 49 (and the items included in that sum) is the amount of estimated benefits if the reduction had not taken place. Repayments of past assistance are accounted for on a cash basis, so that amounts that have been requested from companies but have not yet been repaid are not reflected in the table. If a company loses the ability to access future benefits, all cancelled benefits projected for the life of the project are included in this figure.

Item No. 47 – Penalty Paid: This line provides the amount of penalty assessed (interest on amounts due to NYCEDC/NYCIDA/Build NYC) over and above the recapture/reduction amount.

Item No. 48– Total Recapture & Penalties: Sum of items no. 46-47.

Item No. 49 – Total Net Tax Revenue Generated: Subtraction of item no. 45 from the sum of items no. 39 and 48,

Additional Assistance Data

Item No. 50 – Bond Issuances During Fiscal Year: This field is the volume of tax-exempt bonds issued in the reporting fiscal year.

Item No. 51 –Energy Benefits Received During Fiscal Year: This is an estimate of the total benefit a project received from BIR during the reporting year (not including the tax savings in Item 43) from the purchase of electricity at rates lower than the company would otherwise pay.

³¹ The City portion is calculated as the percentage of mortgage recording tax that goes to the NYC General Fund. Rates differ for commercial mortgages above and below \$500,000, so a weighted average of the rate is used based on the sizes of the mortgages in NYCEDC’s project portfolio.

Item Nos. 52 and 53 – REAP and CEP Received During Fiscal Year: This indicates the amounts of assistance the company reports receiving during the reporting fiscal year under the Relocation and Employment Assistance Program (REAP) and the Commercial Expansion Program (CEP), both administered by DOF. These are not included in the total savings figure in Item 45 since they are not provided by NYCEDC.

Living Wage Information

The Fair Wages for New Yorkers Act (the “Act”), constituting Section 6-134 of the New York City Administrative Code, is intended to ensure that New York City companies who receive financial assistance from the City of New York pay their employees a salary commensurate to a “Living Wage”. Living Wage is defined as the sum of the “living wage rate” and the “health benefits supplement rate” for each hour worked. The living wage rate as of June 30, 2022, was \$12.40 per hour and the health benefits supplement rate as of such date was \$2.05 per hour.

Item No. 54 - Living Wage Information: This section provides information on the Company, its Affiliates, and all Tenants at each site covered by the Project as of the last pay period on or prior to June 30, 2023. The Company must submit the number of employees (including All Permanent Full-Time Employees, Temporary Full-Time Employees, Permanent Part-Time Employees, Temporary Part-Time Employees and Contract Employees) earning less than a living wage categorized by industrial jobs, food service jobs, retail jobs, other jobs, and total jobs.

Item No. 55 – Comments: These lines may note the following:

- i) whether the company participated in multiple projects that share the same employment;
- ii) whether the project is a non-profit organization and hence exempt from various taxes;
- iii) whether the project is located on land owned by the Port Authority or City and hence exempt from property taxes;
- iv) whether and how NYCEDC has estimated employment data in the current reporting year due to non-reporting of employment by the company;
- v) whether the project has multiple locations, and, if so, the council district and borough of the project locations not reported in items 10 and 11;
- vi) whether project agreement or assistance has been terminated or reduced, either as a result of natural maturity or before the originally planned date and if benefits have been repaid;
- vii) whether the company has applied for ICIP/ICAP;
- viii) whether the employee information includes tenant information because the company leases property to tenants at the project location;
- ix) whether the jobs at application represent Citywide employment;
- x) whether benefits authorized under the PILOT program have not commenced during the Fiscal Year;
- xi) whether the project acquisition/construction was not reported as complete as of the end of the reporting fiscal year;
- xii) whether the project and/or holding company has filed for bankruptcy;
- xiii) whether there was a post-closing amendment that changed total project amount;
- xiv) whether there were jobs connected to the project at the time of application (only in cases where jobs at the project location prior to project Start Date were 0);
- xvi) whether the company is subject to the Fair Wages for New Yorkers Act, is exempt from paying a living wage, and provided an exemption certificate;
- xvii) whether the company is subject to the Fair Wages for New Yorkers Act and certified that it pays a living wage;
- xviii) whether the company is not subject to the Fair Wages for New Yorkers Act and did not submit data on living

wage requested by NYCEDC;

xix) whether the company refunded its existing NYCIDA bond transaction and entered into a new transaction with Build NYC

xx) other comments as needed.

APPENDIX III

NYC Administrative Code 22-823

*** Current through January 18, 2019 ***

New York City Municipal Code, Charter and Rules > New York City Administrative Code > Administrative Code of the City of New York > Title 22 Economic Affairs > CHAPTER 8 ENTITIES CONTRACTED TO PROVIDE ECONOMIC DEVELOPMENT BENEFITS ON BEHALF OF THE CITY*

§ 22-823 Annual report.

- a. Report required. In each covered contract executed on or after the effective date of this section, the commissioner shall require the contracted entity to submit each year to the mayor, the council, the city comptroller, the public advocate, the borough presidents and community planning boards a report for the prior fiscal year about projected and actual jobs created and retained in connection with projects described by this section.
- b. Projects receiving financial assistance in excess of \$150,000. 1. (a) This subdivision applies to projects undertaken by a contracted entity for the purpose of creating or retaining jobs and in connection with which a person was provided project assistance in the form of a loan, grant or tax benefit valued in excess of \$150,000, regardless of whether such project involves the expenditure of city capital appropriations.
(b) For purposes of this subdivision, "assistance" to be reported includes (i) a loan, grant or tax benefit, (ii) savings due to payments in lieu of taxes, calculated as the difference between such payments and the property tax that would have been owed without an agreement to make such payments, (iii) waived mortgage recording fees, (iv) related property tax abatements, (v) sales tax abatements, (vi) energy benefits and (vii) an estimated range of costs to the city of forgone income tax revenues due to the issuance of tax exempt bonds;
2. Except as otherwise provided in this section, the annual report required by this section shall contain for each such project the following information for the prior fiscal year, including an indication of the sources of all data relating to numbers of jobs:
 - (a) The project's name;
 - (b) The project's location;
 - (c) The time period during which such project is to receive any assistance from the contracted entity;
 - (d) The type of such assistance provided, including, where applicable, the name of any program through which such assistance is provided;
 - (e)
 - (1) For projects that involve a specified limit on cumulative assistance available over the duration of the project agreement, a statement of such limit; and
 - (2) For projects that do not involve such a specified limit, the estimated amount of assistance over the duration of such project agreement, the amount of tax exempt bonds issued during the reporting year and the range of potential costs of such bonds;
 - (f) The amount of assistance received for the project during the reporting year, the amount of such assistance received since execution of the project agreement, and the present value of future assistance estimated to be given for the duration of the project agreement;

- (g) The total number of employees at all sites covered by the project on the date of execution of the project agreement, including the number of permanent full-time jobs, the number of permanent part-time jobs, the number of full-time equivalents, and the number of contract employees if, pursuant to the project agreement, contract employees may be included in determining compliance with job creation or retention requirements;
- (h)
 - (1) The number of jobs that each person receiving assistance from such contracted entity is contractually obligated to retain and create over the duration of the project agreement or, in the case of a project agreement that contains annual job retention or creation requirements, the annual job retention or creation requirement for the reporting year;
 - (2) The base employment level such entity agrees to retain over the duration of the project agreement;
 - (3) Any job creation scheduled to take place as a result of such project; and
 - (4) Where applicable, any job creation targets for the reporting year;
- (i) For the reporting year:
 - (1) The total number of employees at all sites covered by the project, including the number of permanent full-time jobs, the number of permanent part-time jobs, and the number of contract jobs; and
 - (2) For each person that receives assistance from the contracted entity in connection with such project and employs 250 or more persons, (i) the percentage of total employees within the "exempt" and "non-exempt" categories, respectively, as those terms are defined under the United States fair labor standards act, and (ii) for employees within the "non-exempt" category, the percentage of employees earning \$25,000 per year or less, the percentage of employees earning more than \$25,000 per year but less than or equal to \$40,000 per year and the percentage of employees earning more than \$40,000 per year but less than or equal to \$50,000 per year;
- (j) The estimated amount of retained or additional tax revenue derived from the project, excluding real property tax revenue other than revenue generated by property tax improvements,
 - (1) Cumulatively to the date that the annual report is prepared;
 - (2) For the reporting year, and
 - (3) Projected to be derived over the duration of the project agreement;
- (k) A statement of whether, throughout the reporting year, each person that received assistance from the contracted entity in connection with the project offered health benefits to (i) all full-time employees of such person; (ii) all part-time employees of such person; or (iii) all full-time and part-time employees of such person at all sites covered by the project;
- (l) For the reporting year, for employees at each site covered by the project, including all permanent and temporary full-time employees, permanent and temporary part-time employees, and contract employees, the number and percentage of employees earning less than a living wage, as that term is defined in section 6-134, disaggregated by job category, including industrial jobs, food service jobs, retail jobs and other jobs; except that, for projects for which assistance was received prior to July 1, 2012, the information required by this subparagraph need only be provided to the extent it can be reasonably obtained from available sources, including the city and the person to which such assistance was provided;
- (m) For the reporting year, with respect to the persons receiving assistance for such project and their affiliates, the number and percentage of employees at all sites covered by the project agreement who reside in the city;

- (n) A list of all commercial expansion program benefits, industrial and commercial incentive program benefits, and industrial and commercial abatement program benefits received by persons receiving assistance or their affiliates through the project agreement and relocation and employment assistance program benefits such persons and affiliates received and the estimated total value of each such benefit for the reporting year;
 - (o) A statement of compliance indicating whether, during the reporting year, the contracted entity has reduced, cancelled or recaptured assistance provided to a person in connection with such project, and, if so, the total amount of such reductions, cancellations or recaptures, and any penalty assessed and the reasons therefor.
- c. Projects receiving financial assistance of \$150,000 or less. For projects undertaken by a contracted entity for the purpose of creating or retaining jobs that do not meet the financial threshold in subparagraph (a) of paragraph 1 of subdivision b, such report shall include, at a minimum:
- 1. For such projects in aggregate, the information required by subparagraphs (g), (h), (i), (j), (l), (m) and (n) of paragraph 2 of subdivision b; and
 - 2. The number of persons that received a loan, grant or tax benefit from such contracted entity in connection with such a project and that offered health benefits to (i) all full-time employees of such person; (ii) all part-time employees of such person; or (iii) all full-time and part-time employees of such person employed at any project site throughout the prior fiscal reporting year.
- d. Sales or leases of city-owned land. For projects undertaken by a contracted entity for the purpose of creating or retaining jobs (i) for which a contracted entity sold or leased city-owned land to a person, and (ii) that are estimated to create or retain at least 25 jobs, regardless of whether such project involves the expenditure of city capital appropriations, the annual report shall include the following information:
- 1. A list of each lease that has not terminated before the reporting year commences, regardless of when such lease commenced, and for each such lease, any terms or restrictions on the use of the leased land, including the rent received for such land in the reporting year;
 - 2. A list of each sale of city-owned land that closed within 15 years of the report, and for each such sale, any terms or restrictions on the use of the sold land, including the price for which such land was sold and any terms or restrictions on the resale of such land; except that such list need not include sales that closed before January 1, 2005.
- e. Years covered. Except as provided in subdivision d, the report shall include each project from the date the project agreement is executed and any other documents applicable to such project through and including the final year that the contracted entity provides assistance for such project.
- f. Job-creation projects under prior rules.
- 1. For projects undertaken by a contracted entity for the purpose of creating or retaining jobs and for which the contracted entity provided a loan, grant or tax or other benefit before July 1, 2005, the information required by this section need only be provided to the extent it can be reasonably derived from available sources, including the city and persons who received such assistance.
 - 2. For projects that such contracted entity undertakes for the purpose of creating or retaining jobs and for which the project agreement was executed before June 6, 2011, the annual report need not contain information that persons were not required to report to the contracted entity at the time that the project agreement and any other documents applicable to the project were executed.
- g. Submission and publication.
- 1. The report required by this section shall be submitted by January 31 of each year and shall bear the date that such report was submitted. Such report shall include a statement explaining any delay in its submission past the required due date.
 - 2. Upon its submission, the report shall simultaneously be made available in electronic form on the website of the contracted entity or, if no such website is maintained, on the website of the city. The report shall

simultaneously be made available in a non-proprietary format that permits automated processing on the website of the contracted entity or, if no such website is maintained, on the website of the city. Such non-proprietary database format need not include terms and restrictions on the use or resale of city-owned land.

- h. Methodology study. By March 1, 2007, and by March 1 of every second year thereafter, the contracted entity, upon receipt of recommendations from the speaker of the council and other persons selected jointly by the mayor and the speaker of the council who have extensive experience and knowledge in the fields of finance, economics, and public policy analysis, shall evaluate the methodology employed for making the determinations required for the report and shall generate recommendations, where appropriate, on the methodology for evaluating projects receiving economic development subsidies. The commissioner shall present to the mayor and the speaker of the council a report containing such recommendations no later than October 1 of every year in which such evaluation is required.

APPENDIX IV

EMPLOYMENT & BENEFITS REPORT

For the Fiscal Year July 1, 2022 – June 30, 2023 (FY '23)

In order to comply with State and Local Law reporting requirements, the Company is required to complete and return this form to the New York City Economic Development Corporation at 1 Liberty Plaza, 12th Floor, New York, NY 10006, Attention: Compliance. **PLEASE SEE BELOW FOR THE INSTRUCTIONS AND DEFINITIONS OF CAPITALIZED TERMS USED ON THIS PAGE.**

1. Number of Permanent Full-Time Employees (including those of Tenants) as of June 30, 2023..... _____
2. Number of Non-Permanent Full-Time Employees (including those of Tenants) as of June 30, 2023..... _____
3. Number of Permanent Part-Time Employees (including those of Tenants) as of June 30, 2023..... _____
4. Number of Non-Permanent Part-Time Employees (including those of Tenants) as of June 30, 2023..... _____
- 5a. Number of Contract Employees as of June 30, 2023..... _____
- 5b. Average number of Contract Construction Employees during Fiscal Year ending June 30, 2023..... _____
- 6a. Total Number of employees of the Company and its Affiliates included in Items 1, 2, 3 and 4 _____
(excluding those of Tenants)
- 6b. Total Number of employees of the Company and its Affiliates included in Items 1, 2, 3, 4, and 5a..... _____
(including those of Tenants)
- 6c. Total Number of employees of the Company and its Affiliates included in Items 1, 2, 3, 4, 5a, and 5b _____
(including those of Tenants)
7. Number of employees included in item 6a above who reside in the City of New York..... _____
8. Does the Company and its Affiliates offer health benefits to all Full-Time Employees? Yes No All Part-Time Employees? Yes No

If the answer to item 6a above is fewer than 250 employees, please skip questions 9 and 9a and continue to question 10

9. Number of employees in Item 6a who are:
 - “Exempt”..... _____
 - “Non-Exempt”..... _____
- 9a. Number of Non-Exempt employees who earn annual salaries of:
 - \$0 to \$25,000..... _____
 - \$25,001 - \$40,000..... _____
 - \$40,001 - \$50,000..... _____
 - \$50,001 and above..... _____

Questions 10 through 14 pertain to the City's Living Wage rate. Please base your answers to Questions 10 through 14 on this definition: “Living Wage” is an hourly compensation package as of April 1, 2023 that is no less than the sum of \$13.30 per hour (paid in cash wages) and \$2.15 per hour (paid in health benefits, cash, or any combination of the two). The value of any health benefits received shall be determined based on the prorated hourly cost to the employer of the health benefits received by the employee. For employees who customarily and regularly receive tips, any tips received and retained by the employee may be credited towards the Living Wage rate.

Please provide answers for Items 10 through 14 based on the answer to question 6C.

- | | |
|---|---|
| 10a. Total Number of Industrial Jobs: _____ | 10b. Number of Industrial Jobs Earning a Living Wage or more: _____ |
| 11a. Total Number of Restaurant Jobs: _____ | 11b. Number of Restaurant Jobs Earning a Living Wage or more: _____ |
| 12a. Total Number of Retail Jobs : _____ | 12b. Number of Retail Jobs Earning a Living Wage or more: _____ |
| 13a. Total Number of Other Jobs _____ | 13b. Number of Other Jobs Earning a Living Wage or more: _____ |
| 14a. Total Number of Jobs: _____ | 14b. Number of Jobs Earning a Living Wage or more: _____ |

For Items 15-17, indicate the value of the benefits realized by the Company and its Affiliates at Project Locations during FY'23.

15. Does the Company and/or its Affiliates receive Commercial Expansion Program (“CEP”) benefits? Yes No
If yes, what was the value realized during FY'23..... \$ _____
16. Does the Company and/or its Affiliates receive Relocation and Employment Assistance Program (“REAP”) benefits? Yes No
If yes, what was the value realized during FY'23..... \$ _____
17. Has the Company and/or its Affiliates applied for Industrial and Commercial Abatement Program (“ICAP”) benefits for new physical improvements at the Project Location(s)? Yes No
If yes, please provide the application number(s)..... _____

EMPLOYMENT & BENEFITS REPORT

For the Fiscal Year July 1, 2022 – June 30, 2023 (FY '23)

For Items 18-19, indicate the value of the benefits realized by the Company and its Affiliates at Project Locations during FY'23.

18. What was the value of sales and use tax exemption savings realized by the Company and its Affiliates as a result of the Company's receipt of NYCIDA or NYCEDC Financial Assistance during the FY'23. (Do not include any sales and use tax savings realized under the NYS Empire Zone Program or through a not-for-profit exemption) \$ _____

19. What was the value of BIR Energy Assistance realized by the Company and its Affiliates during the FY'23..... \$ _____

Certification: I, the undersigned, an authorized officer or principal owner of the Company/Affiliate/Tenant, hereby certify to the best of my knowledge and belief that all information contained in this report is true and complete. This form and information provided pursuant hereto may be disclosed to the New York City Economic Development Corporation ("NYCEDC"), New York City Industrial Development Agency ("NYCIDA"), Build NYC Resource Corporation ("BUILD NYC") and/or New York City Neighborhood Capital Corporation ("NYCNCC") and may be disclosed by NYCEDC, NYCIDA, BUILD NYC and/or NYCNCC in connection with the administration of the programs of NYCEDC, NYCIDA, BUILD NYC and/or NYCNCC and/or the City of New York; and, without limiting the foregoing, such information may be included in (x) reports prepared by NYCEDC pursuant to New York City Administrative Code §22-823 et. seq., (y) other reports required of NYCIDA, NYCEDC, BUILD NYC and/or NYCNCC, and (z) any other reports or disclosure required by law.

Project Name: _____

Signature: _____ Date: _____

Name: _____ Title: _____

DEFINITIONS

“**Affiliate**” is (i) a business entity in which more than fifty percent is owned by, or is subject to a power or right of control of, or is managed by, an entity which is a party to a Project Agreement, or (ii) a business entity that owns more than fifty percent of an entity which is a party to a Project Agreement or that exercises a power or right of control of such entity.

“**Company**” includes any entity that is a party to a Project Agreement.

“**Contract Construction Employee**” is a person who is an independent contractor or subcontractor, or an employee thereof, who provides construction services to the Company, an Affiliate or a Tenant at a Project Location.

“**Contract Employee**” is a person, other than a Contract Construction Employee, who is an independent contractor (i.e., a person who is not an “employee”), or is employed by an independent contractor, who provides services at a Project Location.

“**Financial Assistance**” is any of the following forms of financial assistance provided or administered by NYCEDC: a loan, grant, tax benefits or energy assistance benefits through any discretionary program, such as the Business Incentive Rate (BIR) Program, in each case in excess of \$160,000, and any sale or lease of City-owned land where the project is estimated to retain or create not less than 25 jobs.

“**Living Wage**” is an hourly compensation package as of April 1, 2023 that is no less than the sum of \$13.30 per hour (paid in cash wages) and \$2.15 per hour (paid in health benefits, cash, or any combination of the two). The value of any health benefits received shall be determined based on the prorated hourly cost to the employer of the health benefits received by the employee. For employees who customarily and regularly receive tips, any tips received and retained by the employee may be credited towards the living wage rate.

“**Non-Permanent Full-Time Employee**” is an employee, other than a Contract Employee, hired for temporary employment for seasonal or other temporary purposes, who works at least 35 hours per week at a Project Location.

“**Non-Permanent Part-Time Employee**” is an employee, other than a Contract Employee, hired for temporary employment for seasonal or other temporary purposes, who works on average at least 17.5 hours, but less than 35 hours, per week at a Project Location.

“**Permanent Full-Time Employee**” is an employee, other than a Contract Employee, hired for permanent employment and not for seasonal or temporary purposes, who works at least 35 hours per week at a Project Location.

“**Permanent Part-Time Employee**” is an employee, other than a Contract Employee, hired for permanent employment and not for seasonal or temporary purposes, who works on average at least 17.5 hours, but less than 35 hours, per week at a Project Location.

“**Project Agreement**” is any agreement pursuant to which NYCEDC provides Financial Assistance in connection with a project.

“**Project Location**” is any location (a) with regard to which Financial Assistance has been provided to the Company and/or its Affiliates during the fiscal year reporting period covered by the Employment and Benefits Report, or (b) that is occupied by the Company and/or its Affiliates at which such entities have employees who are eligible to be reported per the terms of the Agreement with the Company and/or its Affiliates.

“**Tenant**” is any entity other than the Company and its Affiliates that occupies space at any Project Location.

INSTRUCTIONS

For each Project Agreement, please submit one report that covers (i) the Company and its Affiliates and (ii) Tenants at all Project Locations covered by the Project Agreement. All Tenant employment info should be aggregated, combined with employment information for the Company and its Affiliates at all Project Locations and reported on the Company’s Employment and Benefits Report. Please include the completed Tenant’s Employment and Benefits Report(s) along with the Company’s Employment and Benefits Report when submitting to NYCIDA. The Company must retain for six (6) years all forms completed by its Affiliates and Tenants and at NYCEDC’s request must permit NYCEDC upon reasonable notice to inspect such forms and provide NYCEDC with a copy of such forms.

1- 4. Items **1, 2, 3 and 4** must be determined as of June 30, 2023

and must include Permanent Full-Time Employees, Permanent Part-Time Employees, Non-Permanent Full-Time Employees and Non-Permanent Part-Time Employees at all Project Locations, including those employed by the Company or its Affiliates and by Tenants. **Do not include Contract Employees or Contract Construction Employees in Items 1, 2, 3 and 4.**

5a. Report all Contract Employees providing services to the Company and its Affiliates and Tenants at all Project Locations. Do not include Contract Construction Employees in question 5a.

5b. Report the 12 month average of Contract Construction Employees providing services to the Company and its Affiliates and Subtenants at all Project Locations for the previous fiscal year. Use the number of Contract Construction Employees on the last payroll date of each month to compute this average.

6a. Report information requested only with respect to the Company and its Affiliates at all Project Locations. For item 6a, report only the employees, of the Company and its Affiliates. Do not report Contract Employees, Contract Construction Employees or employees of Tenants.

6b. Report information requested with respect to the Company, its Affiliates, Contract Employees, and employees of Tenants at all Project Locations. Do not report Contract Construction Employees.

6c. Report information requested with respect to the Company, its Affiliates, Contract Employees, Contract Construction Employees, and employees of Tenants at all Project Locations.

7. Indicate the number of employees included in Item 6a who reside in the City of New York.

8. Indicate whether all (i) Full-Time, and (ii) Part-Time Employees are offered health benefits.

9 and 9a. Indicate the number of employees included in item 6 who are classified as “Exempt” or “Non Exempt”, as defined in the federal Fair Labor Standards Act. Generally, an Exempt employee is not eligible for overtime compensation and a Non-Exempt employee is eligible for overtime compensation. Then indicate the number of Non-Exempt employees falling into each salary band for question 9a.

10-14. Include Permanent Full-Time Employees, Non-Permanent Full-Time Employees, Permanent Part-Time Employees, Non-Permanent Part-Time Employees, Contract Employees and Construction Contract Employees (including, in each case, those of Tenants). The sum for 14a should equal the sum of lines 10a-13a, which should also equal the number of employees reported in Question 6c. The sum for 14b should equal the sum of lines 10b-13b.

15-16. Report all CEP and/or REAP benefits received by the Company and its Affiliates and any Tenants at all Project Locations. CEP is a package of tax

benefits, administered by the New York City Department of Finance, designed to help qualified businesses to relocate or expand in designated relocation areas in New York City. REAP is designed to encourage qualified businesses to relocate employees to targeted areas within NYC. For more information regarding CEP or REAP, please visit <http://www.nyc.gov/dof>.

17. If you have applied for ICAP list your application number. ICAP provides abatements for real property taxes to Companies or Companies that build modernize, expand or otherwise physically improve eligible industrial and commercial buildings. ICAP is administered through the Department of Finance. Visit <http://www.nyc.gov/dof> to confirm if you are a recipient of ICAP.

18. Report all sales and use tax exemption benefits realized at all Project Locations by the Company and its Affiliates and granted by virtue of the exemption authority of NYCIDA. Do not include any savings realized under the NYS Empire Zone Program or through a not-for-profit exemption.

19. For purposes of this form, "BIR Energy Assistance" is any reduction in energy delivery charges or other benefits or energy discounts provided pursuant to the Business Incentive Rate (BIR) program administered by Consolidated Edison Company of New York, Inc.
