NEW YORK, MONDAY, MARCH 27, 1882.

NUMBER 2,679.

APPROVED PAPERS.

Ordinances, resolutions, etc., approved by the Mayor during the week ending March 25, 1882.

Whereas, It appears from evidence given before the Committee on Docks, in the investigation ordered by resolution of this Board, adopted January 17, 1882, in relation to the leasing of Pier No. 1, North river, that the said pier has never been leased to the Iron Steamboat Company, and that said Company claim and exercise the exclusive use and occupation of the pier, under a lease yet to be drawn and executed; be it therefore

Resolved, That the Counsel to the Corporation be and he is hereby directed not to prepare, and the Department of Docks is instructed not to execute or cause to be executed, on behalf of the Mayor, Aldermen, and Commonalty of the City of New York, any lease of the said Pier No. 1, North river, to the Iron Steamboat Company, until the Committee on Docks reports to the Board, as directed by said resolution adopted January 17, 1882, all the facts connected with the occupation of said pier, exclusively, by the said Iron Steamboat Company, that the Committee may succeed in obtaining; and be it further

Resolved, That the Counsel to the Corporation be and he is hereby requested to assign one of his assistants to aid the Committee on Docks, by appearing in the Supreme Court in opposition to the writ recently issued by one of the judges thereof restraining the Committee from compelling the attendance of certain witnesses.

Adopted by the Board of Aldermen, March 7, 1882.

Received from his Honor the Mayor, March 20, 1882, without his approval or objections thereto; therefore, as provided in section 11, chapter 335, Laws of 1873, the same became adopted.

Adopted by the Board of Aldermen, March 7, 1882.

Approved by the Mayor, March 20, 1882.

Whereas, A bill is now pending in the Senate of this State, introduced by Senator Grady, which provides for the equalization of the salaries of Policemen and Firemen in this city, by fixing the compensation to be paid them at \$1,200 each per annum, which is so obviously just and equitable, in view of the valuable services rendered, that it merits the approval of the people and government of this city; be it therefore

Resolved, That this Common Council, as the representatives of the people of this city, hereby approves of the provisions of the said bill, and earnestly and respectfully asks the Legislature of this State to enact it into a law; and, be it further

Resolved, That the Clerk of this Board be and he is hereby authorized and directed to transmit a certified copy of this preamble and resolutions to the President of the Senate, the Speaker of the Assembly, and to each of the Representatives from this city in the Legislature.

Adopted by the Board of Aldermen, March 7, 1882.

Received from his Honor the Mayor, March 20, 1882, without his approval or objections thereto; therefore, as provided in section 11, chapter 335, Laws of 1873, the same became adopted.

Resolved, That the contract labor system, as carried on in the prisons of this State under the present management, is detrimental to the interest of the honest laboring classes outside of prison walls, that the government of the prisons is now virtually in the hands of a few favored contractors, and is a vast monopoly by which they bring the labor of the convict in direct competition with that of the honest laborer. That the low price at which they secure the convict labor enables them to undermine and destroy small manufacturers, and has caused a great reduction in the compensation of those who are employed in the manufacture of such articles as are produced in the prisons by the labor of convicts;

Resolved, That as many grave charges have from time to time been made of brutal and inhuman treatment of convicts to enforce labor from them beyond their endurance, in the interest of the contractor, therefore we deem it proper that a rigid investigation should be made in the management of these institutions, established for the punishment and reformation of those convicted of breaking the laws, but which, under the present system, has been prostituted from its legitimate object into money-making concerns, for the enriching of a few favored monopolists;

Resolved, That as a growing public feeling demands that justice be done both to the convict and to the free artisan, we recommend to the Legislature of this State, in Assembly and Senate, the passage of a law to abolish such contracts in the prisons of this State as are injurious to the interests of the honest working class of its citizens.

Adopted by the Board of Aldermen, March 7, 1882.

Received from his Honor the Mayor, March 20, 1882, without his approval or objections thereto; therefore, as provided in section 11, chapter 335, Laws of 1873, the same became adopted.

Resolved, That the said petition be forwarded to the Commissioners of Public Parks, who are charged by law with the maintenance and repairs of the public highways in the Twenty-third and Twenty-fourth Wards, and that said Commissioners be and they are most earnestly requested to grant the prayer of said petitioners by causing said Boston road to be put in good order as soon as possible.

GAS COMMISSION.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, No. 31 CHAMBERS STREET,
NEW YORK, March 13, 1882.

PROPOSALS FOR ESTIMATES FOR LIGHTING THE PUBLIC LAMPS.

PROPOSALS FOR ESTIMATES FOR FURNISHING the Gas or other illuminating material for and Lighting, Extinguishing, Cleaning, Repairing, and Maintaining the Public Lamps (and supplying Gas, etc., for new lamps when required) on the Streets, Avenues, Piers, Parks, and places in the City of New York, for the period of one year, commencing May 1, 1882, and ending April 30, 1883, both days inclusive.

Estimates for the above will be received at the office of the Commissioner of Public Works, No. 31 Chambers street, in the City of New York, until 12 o'clock M. of Monday, March 27, 1882, at which place and time they will be publicly opened by said Commissioner and read.

Any person making an estimate for the above shall furnish the same in a sealed envelope, indorsed "Estimate for furnishing the illuminating material for, and lighting and extinguishing, cleaning, repairing, and maintaining the public lamps," and also with the name of the person making the same, and the date of its presentation.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them, and if no other person be so interested, they shall distinctly state the fact; also, that it is made without any connection with any other person making any estimate for the same supplies and work; and that it is in all respects fair, and without collusion or fraud; and, also, that no member of the Common Council, head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the same, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the bid or estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if he or they shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he or they would be entitled upon its completion, and that which the Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of security required for the completion of the contract, and stated in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise; that he has offered himself as a surety in good faith, and with an intention to execute the bond required by law.

Bidders are required to state in their estimates the district or several streets or parts of streets in which they propose to perform the requirements herein contained, and also the illuminating or candle-power of the gas they propose to furnish, when tested at a distance of not less than one mile from the place of manufacture, and bidders proposing to furnish any illuminating material other than illuminating or coal gas, must state distinctly what kind of material they propose to furnish, and the illuminating power of the light they propose to furnish.

Bidders are also required to state the price for which they will furnish the gas (of not less than sixteen-candle power by photometrical test, at a distance of not less than one mile from the place of manufacture) or other illuminating material for each lamp, including the lighting, extinguishing, cleaning, repairing, replacing, and painting lamp-posts and lanterns, and replacing the cocks, tubes, burners, cross heads, lamp irons, and lanterns thereto, for the period from May 1, 1882, to April 30, 1883, both days inclusive, stating the price, for the above named period of one year, for each lamp.

Bidders proposing to furnish electric lights must state the kind or system of light (whether the Voltaic Arc or Incandescent) they propose to furnish, and also whether the electric lamps are to be used on the ordinary lamp-posts of the city, or on special lamp-posts to be fitted up by the bidder with cost to the city for such lamp-posts or their fittings. If the light is to be by the Voltaic Arc the bidder is to state the number of such lamps to be used for lighting the streets or district for which the bid is made and the diameter of the carbon electrodes to be used in such lamps.

Bidders are also required to state a price for which they will repair lamp-posts, including straightening and relighting, and for each new lamp fitted up, as follows:

For each lamp-post straightened, stating the price per post.

For each column relighted, stating the price per post.

For each lamp-post removed, stating the price per post.

For each lamp-post reset, stating the price per post.

For each new lamp fitted up, stating the price per post.

The bidders are required to write out the amount of their bids in their estimates, in addition to inserting the same in figures.

The number of public lamps to be contracted for is about 23,500.

The burners for illuminating gas are to be of a capacity to burn three cubic feet of gas per hour under a pressure of one inch, and in case the illuminating material shall be oil or naphtha, then the burners to be used for such illuminating material shall give a light (by photometrical test) equal to the light given by the gas-burners in use in the public lamps in the City of New York.

Should any alteration or any attachment be required to any portion of the lamps for which estimates are made in consequence of the use of illuminating material other than gas, then such alteration shall be done and such attachment placed on the lamps without expense to the city.

The number of hours the gas or naphtha lamps are to be kept burning is 4,000.

Electric lamps are to be kept burning 3,818 hours.

The amount of security required is \$50,000 on all contracts which will amount to \$100,000 or more, and on smaller contracts the security shall be sixty per cent. of the total amount of the bid.

No estimate will be received or considered unless accompanied by either a certified check upon one of the National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate Box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk, and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but, if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

The award of the contract will be made as soon as practicable after the opening of the bids.

Should the person or persons to whom the contract is so awarded neglect or refuse to accept to contract within forty-eight hours after written notice that the same has been awarded to his bid or estimate, or if he accept, but

does not execute the contract and give the proper security, it may be readvertised and relet as provided by law and ordinance.

Bidders are informed that no deviation from the specifications will be allowed, unless a written permission shall have been previously obtained from the Mayor, Comptroller, and Commissioner of Public Works.

The right is reserved to assign and designate to any bidder, whose bid shall be accepted, the number and location of the lamps to be lighted by such bidder, in any portion of the city for which estimates are received, and to increase or diminish such number.

The right is reserved to determine and designate, after the estimates are opened, what illuminating material shall be used in the public lamps, or any number of them, during the period before mentioned; also to decline any or all estimates if deemed for the interests of the Corporation, and no estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as security or otherwise, upon any obligation to the Corporation.

If the estimate of any bidder shall include any lamps with which the pipes or conductors of such bidder are not connected at the time of the making of the bid, and a contract for furnishing the illuminating material for and lighting, extinguishing, cleaning, repairing, and maintaining any such lamps, shall be awarded to such bidder, in that case, thirty days from the date of the execution of such contract and such further time, not exceeding thirty days, as may be deemed reasonable by the Commissioner of Public Works, shall be allowed to such bidder in which to connect such pipes or conductors with such lamps.

But no payment to such bidder, on account of any such lamps, will be made for the time so allowed, nor until the same shall have been connected with the mains or conductors of such bidder, nor except for the time during which all the requirements herein mentioned shall have been fully performed.
