PROCEEDINGS OF THE PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

MONDAY, SEPTEMBER 9, 1907,
AT TRIBUNE BUILDING, 154 NASSAU STREET,
BOROUGH OF MANHATTAN, CITY OF NEW YORK.

There were present—Chairman William R. Willcox, Commissioners William McCarroll, Edward M. Bassett, John E. Eustis, Secretary Travis H. Whitney.

The Secretary presented the following communication from the Secretary of the Commission for the Second District, which, on motion, was ordered on file:

1654

ALBANY, September 6, 1907.

Mr. TRAVIS H. WHITNEY, Secretary, Public Service Commission for the First District,
No. 320 Broadway, New York City:

DEAR SIR—The New York Improved Meter Company has assigned two provers to the use of the State in testing meters made at their factory. A very large proportion, we believe, of their product is consigned to companies within the jurisdiction of the First District, which will require a greater use on your part of their provers than by us. As it is comparatively difficult for us to conduct tests of provers in New York City, we beg respectfully to inquire if under the circumstances the two provers mentioned cannot be proved and certified as to their accuracy by your Commission and thereby render them available to our work as well as your own.

Yours very truly,

(Signed) J. S. KENNEDY, Secretary.

The Secretary presented a communication from the Deputy Chief Engineer regarding Mr. James McGuire, Rodman, as follows:

1383

TRAVIS H. WHITNEY, Esq., Secretary, Public Service Commission for the First District:

DEAR SIR—I have yours of August 19 with request of the President of the Borough of The Bronx for the transfer of Frank McGuire, Rodman, employed by this Commission, and I respectfully recommend that the request be granted. I return herewith the 'Request for Transfer.'

Yours very truly,

(Signed) ALFRED CRAVEN, Deputy Chief Engineer.

On motion, duly seconded, the above recommendation was approved.

The Secretary presented a notice of commencement of work from the Deputy Chief Engineer, as follows:

2094

September 5, 1907.

The Hon. WM. R. WILLCOX, Chairman, Public Service Commission for the First District:

DEAR SIR—I beg to report that Bradley Contracting Company commenced regular work on excavation on section 9-0-4, east of the Bowery, on August 17, 1907, and on section 9-0-1, in the small triangle south of Duane street, on September 3, 1907.

Yours very truly,

(Signed) ALFRED CRAVEN, Deputy Chief Engineer.

On motion the communication was ordered placed on file.

The Secretary presented the following communication from the Deputy Chief Engineer concerning the opening of the Two Hundred and Twenty-fifth street station, east platform, which, on motion, was ordered placed on file:

1265

September 7, 1907.

The Hon. WM. R. WILLCOX, Chairman, Public Service Commission for the First District:

DEAR SIR—I beg to inform you that the Two Hundred and Twenty-fifth street elevated station on the Broadway branch of the subway, has been practically completed. The west platform of the station was opened for public use sometime ago during the former Commission's administration. The Interborough Rapid Transit Company have proposed to open the east platform for public use on Monday, September 9, at 7 a. m.

Yours very truly,

(Signed) ALFRED CRAVEN, Deputy Chief Engineer.

The Secretary presented the following communication from the Secretary of the Empire State Gas and Electric Association, which, on motion, was ordered filed:

1629

New York, September 6, 1907.

Mr. TRAVIS H. WHITNEY, Secretary, Public Service Commission, First District, Tribune Building, City:

MY DEAR MR. WHITNEY—As I notified you verbally a hearing was held in Albany last week before the Public Service Commission of the Second District on the subject of testing electric meters. On the evening before the hearing a meeting of operating companies was held under the auspices of this Association and it was decided, as the

matter was one of very great importance, to suggest to the Commission that a committee be appointed to represent the companies, that this committee should investigate the question thoroughly, obtain data, and either submit a very full report with their recommendations or appear informally before the Commission. Of course, this committee represents only the companies operating in the Second District, but as at least two companies, the Westchester Lighting Company and the Queens Borough Gas and Electric Company are under the jurisdiction of both Commissions, it is very desirable that a uniform method of carrying out this provision of the law should be enforced throughout the entire State.

The committee are to hold their first meeting in Albany next Monday, and as they will have their investigations under way as speedily as possible, it occurred to me that your Commission might be willing to await their report before issuing any order on this subject.

Of course the situation in Manhattan and in Brooklyn is considerably different from anywhere else in the State, but within the jurisdiction of your Commission are quite a number of smaller companies operating under exactly the same conditions as the companies in the Second District. The committee will endeavor to devise some method which will comply with both the wording and the spirit of the law, but at the same time will not be a hardship on the companies or too great an expense to the State. It is a very difficult proposition and one which undoubtedly will require very careful investigation and study, but I think the committee appointed represents nearly every class of operating companies, and should be able to devise some method which would be acceptable both to the companies themselves and the Commissions and the public. I know that an earnest effort will be made to arrive at some satisfactory solution of the question with as little delay as possible.

The following is the composition of the Committee:

T. R. Beal, Poughkeepsie Light, Heat and Power Company.
H. J. Blakeslee, Bureau of Gas and Electricity, City, Syracuse.
G. W. Cunningham, Elmira Water, Light and Railway Company.
C. R. Huntley, Buffalo General Electric Company.
L. E. Imley, Niagara Falls Power Company.
J. C. Langdell, Hudson River Power Company.
F. H. B. Paine, Niagara, Lockport and Ontario Power Company.
Professor W. L. Robb, Troy Gas Company.
R. M. Searle, Rochester Railway and Light Company.
J. M. Sheehan, Upper Hudson Electric Company.
Silas Taber, Moravia Electric Company.
Arthur Williams, Yonkers Electric Light and Power Company.

Very truly yours,

CHARLES H. B. CHAPIN, Secretary.

The Secretary presented a communication from Frank A. Hutson, which, on motion, duly seconded, was referred to the Committee on Fourth Avenue Subway, and which was as follows:

September 5, 1907.

Public Service Commission, for the First District, Tribune Building, New York City:

GENTLEMEN—On July 25 I wrote your Board urging the necessity of an early action upon the Rapid Transit Railroad known as the Fourth Avenue and Bensonhurst and Coney Island Subway, of which letter I take the liberty to enclose a copy. In reply thereto your Secretary advised me that the matter had been referred to the Committee on the Fourth Avenue Subway for attention.

The association, of which I am president, is to hold a meeting on Monday evening, the 9th inst., and I should like very much to be able to make a statement to our members at that meeting.

Several thousand people in South Brooklyn and along the route of the proposed lines are awaiting anxiously for results of their work of the past three years and they look, in a measure, to our association and myself for their information as to progress.

I have had the honor to have during the past two months numerous conferences with various members of your Board and have always been satisfied that the Commission was proceeding along the proper lines consistent with necessary deliberation and attention, but it would be much more satisfactory to the residents of our district if I might take to our association some expression from the Commission as to actual conditions.

Thanking you for your attention, I am,

Very respectfully yours,

(Signed) F. A. HUTSON,

President, Brooklyn, Bath Beach, Borough Park and Coney Island Improvement Association.

The Secretary presented the following communication from the President of the Borough of The Bronx as to extensions, which on motion, duly seconded, was referred to the Committee of the Whole:

1628

NEW YORK, September 4, 1907.

Public Service Commission of the First District:

GENTLEMEN—Since writing to your Honorable Board on August 14, calling to your attention the necessity of providing for additional elevated extensions of the rapid transit system along Jerome avenue, Westchester avenue and White Plains avenue, the question of providing elevated railroad extensions in the Borough of The Bronx in the section south of One Hundred and Sixty-first street and east of Willis and Third avenues, has been brought to my notice by a committee of property owners and citizens living in the section of our borough. After much thought and consideration devoted to the subject, I have caused to be prepared a sketch, herewith enclosed, which embodies my views, and which I submit for the consideration of your Honorable Board: my object being to suggest extensions, which will promote direct access to elevated and subway lines without the payment of an additional fare, relieve congestion at certain overcrowded stations, and provide rapid transit railroad facilities for a section notably without such accommodations except by trolley and inadequate steam road.

The plan proposed may not be free from financial difficulties because of the expense involved in the river crossings; but it should be considered in view of the relief which will be afforded the overtaxed portion of the present line between the Harlem river and Third avenue at One Hundred and Forty-ninth street, and because justice demands that the wants of the residents of a thickly populated section of the Borough covering about a thousand acres in extent, entirely without rapid transit railroad accommodations, should be heeded and relieved.

I transmit with this letter a sketch showing the lines of plan proposed, also copy of 'North Side News' of September 1, 1907, where the plan is discussed at some length.

Yours truly,

(Signed)

LOUIS F. HAFFEN,

President, Borough of The Bronx.

Commissioner Eustis, as Committee on Offices, stated that the lease for rooms in Tribune Building was ready for signature. On motion, duly seconded, the entire matter was referred to the Committee of the Whole.

Commissioner Eustis presented the following report, which, on motion, was ordered filed:

1265

NEW YORK CITY, September 9, 1907.

Public Service Commission for the First District:

GENTLEMEN—Your Committee, to whom was referred the communication of the Engineer of July 30, relative to the work on the stations of the subway extension, Broadway, Two Hundred and Thirty-first and Two Hundred and Thirty-eighth streets, begs to report that at various times, as he has been able since that time, he has seen the various property owners or their attorneys, and they have all given their verbal consent to allow the contractor to put in the foundation and erect the pillars without waiting for title to vest under condemnation.

Respectfully submitted,

(Signed)

JOHN E. EUSTIS, Committee.

The Secretary presented a resolution, recommended by the Committee of the Whole for adoption by the Commission, and it was moved, and duly seconded, that the same be adopted:

Ayes—Commissioners Willcox, McCarroll, Bassett, Eustis.

Nays—None.

Carried.

2094

DEPARTMENT OF DOCKS AND FERRIES.

FILLING PRIVILEGE.

OFFICE OF THE DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery place, in the City of New York, until 12 o'clock noon on

MONDAY, JANUARY 13, 1908.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT OR TO BE BUILT ON THE NORTHERLY PART OF THE NEW BELLEVUE SECTION ON THE EAST RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE.

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from the present line of the filling, which is about the southerly side of East Twenty-eighth street, northerly a distance of about 241 feet to a line which is about 17 feet southerly from the southerly side of West Twenty-ninth street, at which point, or as near thereto as possible, it is the intention to build a temporary bulkhead, and extending from the rear of the bulkhead wall, when it is completed, inshore a distance of from about 170 feet to 265 feet to an old crib bulkhead.

The exact limits of the basin to be filled under this agreement may be seen on a map at Pier "A," together with the soundings and other data used, the said map being a part of this agreement.

The filling will be brought to a grade level with the top of the coping of the bulkhead wall, and will extend inshore on a regular grade to the level of the filling or crib bulkhead adjacent.

It is estimated that the area outlining the above-described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to about 43,200 cubic yards.

Bidders will state in writing a lump sum price which they agree to pay for the privilege of filling in the void space behind the bulkhead wall, built or to be built on the northerly part of the New Bellevue section, as described above, and as appears in detail on the map at Pier "A," and which becomes a part of the contract or agreement.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above-described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above-estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore until the bank of same has been carried out at the finished grade for a distance of about 30 feet from the face of the bulkhead wall, at which time, if so directed by the Engineer, the filling shall be started at the bank and carried outshore toward the bulkhead wall.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions must be given by the Engineer, and wherever the word Engineer is used in these specifications it refers to and designates the Engineer-in-Chief of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher, unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun. The Department reserves the right of ordering the contractor to deposit not less than 100 cubic yards per day, as directed by the Engineer, and the whole amount of the filling called for to bring the above-described basin up to grade, shall be completed within four hundred and thirty-two calendar days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks.

If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against the principal and his surety.

The purchaser shall, during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same, to which the surety is also bound.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money to the amount of twenty-five per centum of the amount of the bid, which amount shall be applied in the case of the successful bidder to the first one-quarter of the amount of the filling to be deposited; twenty-five per centum to be paid when the first one-quarter of filling has been completed; twenty-five per centum additional when one-half the filling has been completed, and the balance, twenty-five per centum, when three-quarters of said filling has been completed.

A surety or guarantee company, duly authorized by law to act as surety, to be approved by the Commissioner of Docks, will be required to enter into a bond or obligation jointly and severally with the purchaser, in the sum of double the amount of the purchase price as security for the satisfactory performance of said

work, in accordance with the terms and conditions hereof.

Commissioner of Docks.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
