WM. SOHMER, Comptroller. Respectfully yours,

The Deputy and Acting Comptroller presented the following report on the conditions attached to appropriations for 1913 to Charitable Institutions: Which was ordered printed in the Minutes.

Department of Finance, City of New York, Wm. A. Prendergast, Comptroller, October 30, 1912,

To the Honorable the Members of the Board of Estimate and Apportionment, The City of New York:

Gentlemen-With this report I am pleased to hand you, for inclusion in the budget of The City of New York for the year 1913, a statement of the "conditions governing payments to charitable institutions." I have taken the liberty of redrafting the "conditions" included in the budget for this year. In order that you may be duly advised of the nature of all changes, and that they may be properly recorded in the proceedings of your honorable Board, I deem it well to make the following explanation regarding each rule:

"Preamble—All appropriations made in this budget to charitable institutions

are hereby declared to be subject to the following regulations: The foregoing is an abbreviation of the preamble now in use. The language used is exactly the same as that of the first clause in the present preamble, and in my judgment is ample explanation of the fact that appropriations shall be subject to the conditions that follow, which would necessarily imply that institutions accepting appropriations will be governed by the conditions stated.

Rule 1. The accounts and records of all such institutions shall be kept so as to show their receipts and expenditures pertaining to all institutional activities, and a record shall be maintained in which their expenses shall be recorded under the following classification:

A comparison of the language used in the proposed rule No. 1 with that of the present rule would not suggest any great change, but it has been designed in this proposed rule to make it plain that accounts and records maintained by the institutions will reflect all their institutional transactions.

In the past certain of the Catholic institutions have maintained what they have called private and public books, the public books containing entries only of moneys received from The City of New York. This system of dual bookkeeping has not been universally observed by the Catholic institutions, as some have kept but one set of books. There has been some discussion during the past few years of the question whether the City had any right, in examining the books of the institutions, to concern itself with anything more than a review of the funds received from The City of New York. It has been the opinion of this department that the books of an institution should show all its transactions as far as the work of the institution is concerned, and that in the interest of uniformity in bookkeeping on the part of all charitable institutions, this plan was the only proper one to follow. I do not think it necessary to proceed with any argument regarding the wisdom of a single set of institutional books,

as that matter has now very happily been withdrawn from the realm of discussion. This proposed Rule No. 1 represents an agreement upon this heretofore disputed uestion on the part of the representatives of His Eminence Cardinal Farley and the Right Reverend Bishop McDonnell, and the Comptroller of The City of New York.

Subdivisions of Rule No. 1.

A. Expenses incurred in the operation of institutions as follows:

(a) Foodstuffs.

(b) Clothing. (c) Linen and bedding.

(d) Fuel.

(e) Magazines and newspapers.

(f) Education (instruction and educational supplies).

Other supplies. Salaries and wages.

Professional services.

(j) Light.

(k) Forage and care of animals. (1) Telephone.

(m) Printing, stationery and advertising. (n) Postage and telegrams.

(o) Hospitals and sanitarium charges.

(p) Funerals.

Recreation expense.

(r) Miscellaneous expenses. (s) Expenses for boarded-out children.

The only charge made in this subdivision of Rule No. 1 is in line F. Instead of using a classification entitled "educational supplies," I have made it read "Education, Instruction and Educational Supplies."

B. Expenses incurred in the maintenance of plant and equipment as follows:

(a) Repairs and renewals of plant and fixed equipment. Repairs and renewals of furniture and movable equipment.

(c) Interest on bonds and mortgages on corporate real estate, used exclusively for the charitable purposes of the institutions, taxes and water rates, if any, thereon, fire insurance premiums on buildings on such real estate, together with

The classification under subdivision B in the present rules includes only those lines marked a and b. To these I have added line c, providing through this change that interest on bonds and mortgages on the corporate real estate used exclusively for the charitable purposes of the institution, taxes and water rates, if any, thereon, and fire insurance premiums on the buildings on such real estate, together with their contents, will be included in the expenses properly chargeable to maintenance

Rule 2. All payments made to charitable institutions in pursuance of the said appropriations shall be used by such institutions only for expenses incurred by the institution for the care, support and maintenance and education of inmates duly committed by the courts or the Commissioner of Charities or accepted by said Commissioner as public charges, but they shall not include any expense for improvements or additions to plant or equipment, except as stated, or any payments on account of principal of mortgages. Expenses for education shall be taken to mean expenses incurred in providing suitable education for properly committed or accepted inmates, and shall include the salaries of instructors and expenses incurred for supplies for use in instruction.

The present Rule No. 2 gives a list of certain items that are not properly chargeable to maintenance. Certain of these have been eliminated in the new proposed Rule No. 2, and are included in subdivision B of the foregoing classification. With this change Rule No. 2 of the present rules and the new rule are practically the same.

Rule 3. All institutions receiving funds by appropriation from The City of New York and their books of record and account, so far as they relate to institutional activities, shall be open at reasonable times to the visitation, inspection and examination of the Board of Estimate and Apportionment, the Department of Finance and the Department of Public Charities, by their duly authorized Commissioners, officers or inspectors, excepting, however, that the accounts pertaining to the activities of any religious order which may be in charge of any such institution shall be segregated from the other accounts and shall not be subject to this regulation.

In additional expense involved with not exceed \$10,000, and I have already asked the Budget Committee to include in the budget for 1913 an item of \$10,000 to cover this work. As conclusions have only been reached upon these matters within the last few days, I have not had an opportunity to confer with the Commissioner of Health regarding a segregation of this

The purpose of the present Rule No. 3 is to confer power upon the Department of Finance and the Department of Public Charities to make examinations of the institutions with particular reference to the accounts and records of the institutions.

The question of the keeping and examination of so-called public and private records already mentioned in my comments upon Rule No. 1 has also been raised by the Catholic institutions in regard to the old Rule No. 3. Many of these institutions have been organized by religious orders and are managed by them. These orders have their own business affairs, which are distinct from the work of the institutions. It has happened that in some institutions the affairs of the managing order and the business of the institution itself, as a child-caring establishment, have been reflected upon the same set of books. Objection has been made by the church authorities to any examinations that would cover the affairs of the orders. This objection is an absolutely valid one. I have always maintained, as shown in my public statements (see letter dated December 7, 1911, to Counsel to Catholic Church authorities), that with the affairs of these orders the City could have no possible concern, as its relations were with the child-caring institutions, and the only question that interests the City is the standing of the institution. In order, therefore, to avoid any possible ground for dispute or misapprehension upon this subject, in February last I suggested to the Catholic Church authorities that there should be but one set of institutional books, and that the affairs of the orders should be kept in books entirely distinct from those which will set forth the institutions' transactions. This suggestion, which has heretofore (by letter dated May 8, 1912), received the approval of His Eminence, Cardinal
Farley, is now incorporated in the proposed Rule No. 3, and its form has been agreed
to by the representatives of His Eminence and the Right Reverend Bishop McDonnell.

Rule 4. All such institutions shall prepare and file with the Department of Finance as of a date to be fixed by said department, a report of the condition of the institution and its operations during the previous fiscal year upon forms prescribed and furnished for the purpose under the provisions of these regulations by the Department of Finance.

While the language of this proposed rule differs from the old Rule No. 4, there is no difference whatever in the purpose of the rule.

Rule 5. Upon its appearing to the satisfaction of the Comptroller that it would be to the public interest to withhold payments out of any appropriation made to any charitable institution, he may, in his discretion, withhold the same, immediately giving written notice thereof to such institution and of his intention to apply to the Board of Estimate and Apportionment for authority to cease further payments. Upon the determination of said board that such payments shall terminate, the right of any such institution to receive payment from any such appropriations shall thereupon end.

This rule is in all respects the same as the present Rule No. 5. Rule 6. The names and ages of inmates with a statement of the period for which payment is claimed must be placed on all bills rendered by such institutions for their care, support and maintenance prior to the presentation of such account for payment to the Department of Finance. The certificate of the Commissioner of Public Charities under regulation 2 hereof must also be attached to such bills. Except in emergency cases the Commissioner of Public Charities shall not accept as proper charges persons capable of paying for their own support, or for whose care adequate provisions can be made in the public hospitals. No case shall be regarded as an emergency case unless there shall have been made a certificate to that effect by a properly authorized and informed representative of the institution by which such case was received.

This rule is in all respects the same as the present Rule No. 6. Rule 7. The City shall not be liable for any claim by any charitable institution which shall be in excess of the amount apportioned to such institution in this budget, notwithstanding the acceptance of the Commissioner of Public Charities

or any per capita rates of payment that may have been fixed for various classes of inmates thereof.

This rule is in all respects the same as the present Rule No. 7.

Rule 8. No money shall be paid to any institution which , gives any consideration for services otherwise) by has any pays any salary to (financial or business dealing with, or secured goods or merchandise (directly indirectly) from

officer or trustee or member of its board of managers, or where any such person otherwise receives any pecuniary profit from the operation of such insti-

The form of this rule has been redrafted and an additional clause inserted to bring it into compliance with the statutes of the State.

Rule 9. Child-caring institutions not sending their inmates to the public schools, and not sharing in the corporate school fund, and not receiving teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institution for five (5) hours daily for a period equal to the public school year, shall be paid a per capita of 7 cents per day for five (5) school days in the week, for each child of five years of age and over receiving such instruction, except that for abnormal or atypical children, a special rate in excess of this amount may be made by the Comptroller. Institutions receiving a per capita allowance for the education of their inmates shall be under the general supervision of the Board of Education, as required by the general conditions relating to institutions receiving corporate school money, provided in section 1154 of the Charter of The City of New York. This rule is in all respects the same as the present Rule No. 9.

Rule 10. No dependent child under 16 years of age shall be accepted as a proper charge upon the City, and no money shall be paid for the care, support, maintenance or education of such child unless it shall have been lawfully committed to a suitable private charitable institution having its own plant and equipment for the proper protection and care of children, and being under the supervision of the State Board of Charities, and which has been placed in this budget by the Board of Estimate and Apportionment.

This rule is in all respects the same as the present Rule No. 10. Rule 11. The Department of Health shall maintain in all child-caring institutions receiving funds by appropriation from the City of New York for each inmate accepted as a public charge under the rules of the State Board of Charities, and as herein provided, a complete physical and health record in which shall be recorded the name, age, sex, height and weight, time of admission, general physical condition, including the presence or absence of defects in eyesight, breathing, teeth, or any organic defect, in a manner to conform as nearly as practically and the provided of the state of the state Board of the stat ticable with the records maintained by the Department of Health for children in the public schools in The City of New York. It shall also record the dietary actually employed in such institutions for the feeding of its inmates. Such statistics and records shall be made and revised by the Board of Health once in each six months.

This proposed rule will take the place of old Rules Nos. 11 and 12. These present rules provide that the institutions shall maintain complete physical and health records of all the inmates in a form complying as nearly as practicable with the records maintained by the Department of Health for children in the public schools of The City of New York, and further, that all child-caring institutions shall submit quarterly to the Comptroller and to the Commissioner of Public Charities a sworn statement of the dietary actually employed for the feeding of the inmates, together with a statement of the approximate quantities of each kind of food allowed each inmate.

Objection has been made by a number of institutions to these rules on the ground that strict compliance with the Board's requirements regarding health records would involve considerable additional expense, and especially at this time, when the cost of maintenance in the institutions shows an increase over previous years, it is not entirely fair to impose additional financial burdens upon them.

No criticism has been made by the institutions of the propriety of maintaining such records covering health and dietary as are included in the present rules, but the representatives of His Eminence Cardinal Farley and the Right Reverend Bishop McDonnell have suggested to me that the maintenance of the necessary records should be delegated to the Department of Health. I have decided to ask your Board to approve this suggestion, which is incorporated in the new proposed Rule No. 11. I believe that this change is an excellent one, as it affords the city government an opportunity to exercise strict control over the health and dietary of its dependent children, while in the institutions to which they are committed. The additional expense involved will

1 00

amount, but this can be done by the Board of Estimate and Apportionment well in advance of the beginning of the year 1913.

Rule 12. Each institution shall give to the Comptroller on forms prescribed by him notice of the reception or discharge of any person, for whose care City or county funds are to be received, within twenty-four hours after his arrival at

or discharge from the institution.

This rule takes the place of present rule No. 13. Rule 13. The rates of payments to private charitable institutions, unless otherwise specially provided for, are fixed for the various classes of inmates as follows: Provided that where the Comptroller finds, after proper investigation, that any per capita rate hereinafter stated is too high, he is hereby authorized, on the approval of the Board of Estimate and Apportionment, to reduce such per capita rate for any or all institutions.

For infants under two (2) years of age, and in general hospitals under the age of five (5), per day..... For dependent children from two (2) to sixteen (16) years of age, per wcek For delinquent children, per annum..... For children in cottage villages, not to exceed 30 inmates in each cottage, additional, per week For adult inmates of reformatories, committed by the courts, per annum For inmates in homes for unfortunate and friendless females, per annum For homeless mothers and nursing infants, per month..... For annual supervision of children placed in homes in the City of

New York, per annum

Institutions shall be paid \$18 for the care of the mother and child during fifteen days of her confinement, and for services thereafter shall be paid at the rate of 45 cents per day for the support of the child, and also \$12 per month for the maintenance of the mother, if she remain in the institution nursing infant, after the expiration of fifteen days.

There is no change in this proposed rule. Respectfully submitted WM. A. PRENDERGAST, Comptroller.

2. All payments made to charitable institutions in pursuance of the said appropritions shall be used by such institutions only for expenses incurred by the institution for the care, support, maintenance and education of inmates duly committed by the courts 2 or the Commissioner of Charities or accepted by said Commissioner as public charges, but they shall not include any expense for improvements or additions to plant or equipment, except as stated, or any payments on account of principal of mortgages. Expenses for education shall be taken to mean expenses incurred in providing suitable education for properly committed or accepted inmates, and shall include the salaries of instructors and expenses incurred for supplies for use in instruction.

3. All institutions receiving funds by appropriation from The City of New York and their books of record and account, so far as they relate to institutional activities, shall be open at reasonable times to the visitation, inspection and examination of the Board of Estimate and Apportionment, the Department of Finance and the Department of Public Charities by their duly authorized Commissioners, officers or inspectors, excepting, however, that the accounts pertaining to the activities of any religious order which may be in charge of any such institution shall be segregated from the other accounts and shall not be subject to this regulation,

4. All such institutions shall prepare and file with the Department of Finance as of a date to be fixed by said department, a report of the condition of the institution and its operations during the previous fiscal year upon forms prescribed and furnished

for the purpose under the provisions of these regulations by the Department of Finance. 5 Upon its appearing to the satisfaction of the Comptroller that it would be to the public interest to withhold payments out of any appropriaion made to any charitable institution, he may, in his discretion, withhold the same, immediately giving written notice thereof to such institution and of his intention to apply to the Board of Estimate and Apportionment for authority to cease further payments. Upon the determination of said board that such payments shall terminate, the right of any such institution to receive payment from any such appropriations shall thereupon end.

6. The names and ages of inmates with a statement of the period for which payment is claimed must be placed on all bills rendered by such institutions for their care, support and maintenance prior to the presentation of such account for payment to the Department of Finance. The certificate of the Commissioner of Public Charities under regulation two hereof must also be attached to such bills. Except in emergency cases

the Commissioner of Public Charities shall not accept as proper charges persons capable of paying for their own support or for whose care adequate provision can be made in the public hospitals. No case shall be regarded as an emergency case unless there shall have been made a certificate to that effect by a properly authorized and informed repre-

sentative of the institution by which such case was received.

7. The City shall not be liable for any claim by any charitable institution which shall be in excess of the amount apportioned to such institution in this budget, notwithstanding the acceptance of the Commissioner of Public Charities of any per capita rates of payment that may have been fixed for various classes of inmates thereof.

8. No money shall be paid to any institution which

pays any salary to, gives any consideration for services (financial or otherwise) by, has any business dealing with, or

secures goods or merchandise (directly or indirectly) from any officers or trustee or member of its board of managers, or where any such person

otherwise receives any pecuniary profit from the operation of such institution. 9. Child-caring institutions not sending their inmates to the public schools, and not sharing in the corporate school fund, and not receiving teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institution for five (5) hours daily for a period equal to the public school year, shall be paid a per capita of 7 cents per day for five (5) school days in the week, for each child of five years of age and over receiving such instruction, except that for abnormal or atypical children a special rate in excess of this amount may be made by the Comptroller. Institutions receiving a per capita alllowance for the education of their inmates shall be under the general supervision of the Board of Education, as required by the general conditions relating to institutions receiving corporate school money, provided in Section 1154 of the Charter of The City of New York.

10. No dependent child under 16 years of age shall be accepted as a proper charge upon the City, and no money shall be paid for the care, support, maintenance or education of such child unless it shall have been lawfully committed to a suitable private charitable institution having its own plant and equipment for the proper protection and

care of children and being under the supervision of the State Board of Charities and which has been placed in this budget by the Board of Estimate and Apportionment.

11. The Department of Health shall maintain in all child-caring institutions receiving funds by appropriation from The City of New York for each inmate accepted as a public charge under the rules of the State Board of Charities, and as herein provided, a complete physical and health record in which shall be recorded the name, age, sex, height and weight, time of admission, general physical condition, including the presence or absence of defects in eyesight, breathing, teeth, or any organic defect, in a manner to conform as nearly as practicable with the records maintained by the Department of Health for children in the public schools in The City of New York. It shall also record the dietary actually employed in such institutions for the feeding of its inmates. Such statistics and records shall be made and revised by the Board of Health once in each six months.

12. Each institution shall give to the Comptroller on forms prescribed by him notice of the reception or discharge of any person for whose care City or County funds are to be received within twenty-four hours after his arrival at or discharge from

13. The rates of payments to private charitable institutions, unless otherwise

specifically provided for, are fixed for the various classes of inmates as follows: Provided that where the Comptroller finds, after proper investigation, that any per capita rate hereinafter stated is too high, he is hereby authorized, on the approval of the Board of Estimate and Apportionment, to reduce such per capita rate for any or all institutions.

(3) Plant and Equipment Charges. Which was adopted by the following vote: Affirmative—The Mayor, the Deputy and Acting Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond-16.

The Deputy and Acting Comptroller presented the following:
Whereas, A request has been made by the President of the Borough of Richmond that funds for the division of highways, street cleaning and sewers of that Borough be appropriated in lump sum on what is described as a cost data basis; and Whereas, It is claimed that greater efficiency of result can be obtained in these divisions if no restrictions in the form of salary schedules are imposed upon appropriations granted for these purposes; and

priations granted for these purposes; and

Whereas, A definite program of work has been submitted by the Borough President for the divisions in question, which it is proposed to enforce through monthly and quarterly reports, and by inspection by agents of the Board of Estimate and Apportionment; and

Whereas, It is proposed to establish a division of efficiency in the Board of Estimate and Apportionment in the year 1913 which will be equipped to make such

inspection; therefore, be it
Resolved, That this Board, for the purpose of experimentation, grant funds to
the Borough President, as requested, without the segregation employed in respect
of all other appropriations of the Budget, and as set forth in the Budget for 1913;

Resolved, That this experiment does not bind the Board to a continuation of the so-called cost data system of appropriation, and that this Board hereby emphatically reaffirms its belief in the efficacy in the form of segregated budget now employed in preventing waste or misuse of funds, and in the continuance of the present form until the proposed change shall have amply demonstrated that it does actually secure greater economy in administration, and in no respect opens the way to extravagance or to the use of funds for purposes not specifically stated in the estimate and not specifically approved by this Board.

Which was adopted by the following vote:

Affirmative-The Mayor, the Deputy and Acting Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond-16.

the Board.

Section 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The consent in writing of the owners of half in value of the property bounded on said streets and avenues to the construction and operation of said railway shall be obtained by the Company within one (1) month from the signing of this contract by the Mayor, and a copy of such consents shall be filed with the Board within such time, or in the event that such consents cannot be obtained within such time, the Company shall within said one (1) month, or within one (1) month thereafter, make application to the Appellate Division of the Supreme Court for the appointment of Commissioners in the manner provided by the Railroad Law to determine if said railway ought to be constructed; otherwise this grant shall cease and determine.

Second—The said right to construct, maintain and operate said railway shall be held and enjoyed by the Company for the term of twenty-five (25) years from the date upon which this contract is signed by the Mayor with the privilege of two renewals of said contract for further periods of twelve and one-half (12½) years each; such renewals to be upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewals it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the commencement of said renewal periods. The determination to the revaluation shall be sufficient if agreed to in

writing by the Company and the Board.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the commencement of said renewal periods then the annual rate of compensation for each such renewal period shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into written agreements with each other fixing the rate of such compensation for such renewal periods at such amounts as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may hase their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties. If in any case the annual rate shall not be fixed prior to the ter-mination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the and the Company, each paying one-half thereof.

Third—The Company shall pay to the City for the privilege hereby granted the following sums

During the first term of five (5) years an annual sum which shall in no case be less than seven hundred and fifty dollars (\$750), and which shall be equal to three (3) per cent. of its gross annual receipts if such percentage shall exceed the sum of seven hundred and fifty dol-

During the succeeding term of seven (7) years an annual sum which shall in no case be less than one thousand three hundred and fifty dollars (\$1,350), and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of one thousand three hundred and fifty dollars (\$1,350).

During the remaining thirteen (13) years of the original term of this contract such percentages of gross receipts with minimum annual pay-ments as shall be determined as follows, to wit: Such determination shall be had upon the application of either the Company or the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years, and not later than one (1) year before the expiration of the period for which such percentages and annual payments are herein fixed. The determination shall be sufficient if agreed to by the Company and the Board. If the Company and the Board shall not reach such an agreement on or before the day one year before the expiration of the period for which compensation is herein fixed then the annual rate of compensation for the succeeding thirteen years shall be reasonable, and either the City by the Board or the Company, shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the manner herein provided for the determination of the revaluation for the renewals of this contract.

If either party fails to appoint a disinterested freeholder as herein provided, or should the first two disinterested freeholders fail to agree on the selection of a third within ninety (90) days after the date one year before the expiration of the period for which the annual payments are herein fixed, or if no two of said disinterested freeholders so selected agree upon the percentages or minimum payments to be made by the Company to the City within sixty (60) days after they shall have been so selected, then such percentage and minimum payments shall be fixed by the Supreme Court upon the application of

either party.

Nothing herein contained shall be deemed to

determine the basis for the fixing of the amount of the percentages of gross receipts and the amount of the minimum annual payments to be paid to the City during said period except that consideration shall be given to the amount of taxes then paid by the Company and it shall be determined whether the Company shall during the said period, be permitted to deduct said annual payments or any taxes which it may by law be required to pay, or whether said payments shall not be considered in any manner in the nature of a tax, but shall be made in addition to any and all taxes of whatsoever kind or description required to be paid by any ordinance of the City, resolution of the Board or any law of the State of New York in force during said period. The gross annual receipts mentioned above shall be that portion of the gross receipts of the Company from all sources within the limits of the City as shall bear the same proportion to its whole gross receipts as the length of the extension hereby authorized shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the
