POLICE DEPARTMENT.

REPORT FOR THE YEAR ENDING DECEMBER 31, 1905.

Police Department of the City of New York,
No. 300 Mulberry Street,
New York, May 7, 1906.

His Honor the Mayor, City Hall, New York:

Sir—I have the honor to forward herewith an annual report, for the year 1905, of the Police Department, City of New York. It has been prepared in the usual manner, and although not called for, so I am informed by law, is, nevertheless, a very desirable compilation which it may, perhaps, be found advisable, in accordance with the custom of previous years, to print later in pamphlet form. If, however, this report is printed in the CITY RECORD, perhaps an extra 250 copies could be printed for distribution, according to the needs of the Department and to comply with requests which are received for such an annual report from outside sources.

Respectfully, your obedient servant,

THEO. A. BINGHAM, Police Commissioner.

Extra emergency wagons	4	9
	35	51

Five patrol wagons in Manhattan and eight patrol wagons in Brooklyn have no regular assignment and are being used for emergency wagons, or as substitutes for wagons undergoing repairs.

During the year new patrol wagons were built and assigned to the Twenty-first, Twenty-ninth, Fortieth, Fiftieth, Fifty-third, Fifty-fourth, Sixty-sixth, Seventieth and Seventy-first Precincts.

The old patrol wagon attached to the Twenty-first Precinct is in need of extensive repairs, after which it will be used as one of the thirteen emergency wagons referred to above.

The single patrol wagon attached to the Fortieth Precinct has been transferred to the Eightieth Precinct, Second Sub-Station, New Dorp.

Until this time there has been no patrol wagon service attached to the Sixty-eighth and Seventieth precincts.

The old patrol wagon formerly attached to the Eightieth Precinct, First Sub-Station, is absolutely worthless and beyond reasonable repairs, and should be turned over to the Property Clerk and sold.

There is no patrol wagon service attached to the First, Seventh, Tenth, Eleventh and Thirteenth precincts, the work being performed by adjoining precincts.

Patrol wagon service should be provided for the Seventh and Eleventh Precincts.

Two police ambulances purchased in 1904 are about to be remodeled, and will make suitable patrol wagons for the Eightieth and Eighty-first Precincts, and the wagons now at such stations can be used for emergency service, as required.

During the year practically all Department patrol wagons and carriages were overhauled and repaired under contract, and that branch of the service is now in a very satisfactory condition.

Bureau of Repairs and Supplies, one single delivery wagon.

Report on the Sanitary Condition of the Station Houses.

First Precinct—Sanitary condition fair. There is inadequate heating and a poor system of ventilation. (Vosburgh.)

Second Precinct—Sanitary condition fair. (Vosburgh.)

Third Precinct—Station houses are sanitary and satisfactory. (Phelps.)

Fourth Precinct—No reserves are kept at this station house. The basement of an old private dwelling is used as a station house. The quarters, especially the supply of lockers, is entirely inadequate. Three or even four men are obliged to use one locker. So far as small quarters will permit, they are habitually kept in good condition. (De Forest.)

Fifth Precinct—Sanitary condition good. (Brown.)

Sixth Precinct—Sanitary condition of this station house is bad, as is also that of the prison. House is badly in need of general repairs and painting. Matron's room is dark and unfit for the purpose. The prison is a rear building, with some cells below the level of the street, and is in need of general repairs and painting. (Gorman.)

Seventh Precinct—This house is in poor condition and needs general painting. A new cellar door is needed. A new washstand is needed in the Patrolmen's sitting-room. The prison also is in poor sanitary condition. (Brown.)

Eighth Precinct—This house is in need of many repairs. The platform in the office needs to be repaired. The urinals on each floor need to be repaired. The north wall of dormitory needs plastering. The stairs leading from the first floor to the sitting-room are dark and there should be a light in the hallway. The whole house should be thoroughly cleaned, the ceilings kalsomined and the walls and woodwork cleaned and painted. (Donlin.)

Ninth Precinct—Sanitary condition of station house fair. (Johnson.)

Tenth Precinct—Sanitary condition is very bad. The ceiling should be kalsomined and the woodwork cleaned and oiled. Three urinals on each floor are defective and cannot be used. They should be repaired at once. The flushing tank of the toilet is defective. The two toilets in the basement are out of order and should be repaired. The whole building needs a thorough cleaning. (Donlin.)

Eleventh Precinct—Sanitary condition is good. (Nammack.)

Twelfth Precinct—This station house should be painted throughout, inside. The male and female prison are both unsanitary. A new washstand is needed in the patrolmen's room. (Brown.)

Thirteenth Precinct—This house is small, old and generally unsanitary. Accommodations for the men are insufficient. (Vosburgh.)

Fourteenth Precinct—The sanitary condition of this house is good, except that there is a leakage of water in the cellar of the boiler room. (Gorman.)

Fifteenth Precinct—The sanitary condition of this house is bad. This is an old house and is in bad condition; not large enough for the number of men who are obliged to use it. The prison is in the cellar, below the level of the street, and on washing out the cells the floor does not get dry before the next washing. The vent pipes from traps open into the soil pipe, instead of into a vent pipe to the roof. (Gorman.)

Sixteenth Precinct—The sanitary condition is poor. Old remodelled dwelling house which should be replaced by a modern building. (Nammack.)

Seventeenth Precinct—The station house is in a most unsanitary condition; the dormitories are overcrowded and the building throughout is unfit for habitation. (Smith.)

Eighteenth Precinct—The condition of the station house, as in the last two years, is not satisfactory (see Committee's detailed report made in 1904). (Phelps.)

Nineteenth Precinct—The sanitary condition of this station house is poor. (Johnson.)

Twentieth Precinct—The sanitary condition of this house is fairly good. (Smith.)

Twenty-first Precinct—The sanitary condition is not good. The closets are in bad condition. The dormitories are draughty, old and uncleanly. (Palmer.)

Twenty-second Precinct—The sanitary condition of the station house has been somewhat improved recently. Steam has been introduced and the house has been painted throughout. The sleeping accommodations for the members of the force stationed there are inadequate, as the beds in many instances are crowded against each other. The house is a very old one and the improvements made by repairs are necessarily transient. A new station house is required for the precinct. (Nesbitt.)

Twenty-third Precinct—This station is located in the Grand Central Depot. The sanitary conditions here are not under the control of this Department. (Nammack.)

Twenty-fourth Precinct—This house is old and inadequate but has recently been overhauled and repainted, and therefore is in fair condition. (Palmer.)

Twenty-fifth Precinct—This house is in good condition. A new toilet is needed in the room of the Matron. (McGovern.)

Twenty-sixth Precinct—The sanitary condition here is fair. (Nesbitt.)

Twenty-seventh Precinct—The sanitary condition is very good for the purpose for which it is used. (Palmer.)

Twenty-eighth Precinct—Sanitary condition here is very poor. The plumbing in the house and in the prison is bad. (McGovern.)

Twenty-ninth Precinct—Sanitary condition is fair. (Donovan.)

Thirtieth Precinct—Sanitary condition fair. The equipment is old and insufficient. The same report has been made for the past three years. (Quigley.)

Thirty-first Precinct—Sanitary condition is fair.—Equipment is old and insufficient. The same report has been made for the past three years. (Quigley.)

Thirty-second Precinct—Sanitary condition is fair. (Donovan.)

Thirty-third Precinct—The sanitary condition of this house is excellent. (Williams.)

Thirty-fourth Precinct—The sanitary condition of this new High Bridge station house is excellent. The recommendation made in previous reports is renewed; that is, that hinged wooden seats be supplied covering the rims of the porcelain bowls constituting the water-closet proper. Complaint is made that in the winter these are cold, and that to avoid being chilled and acquiring disabling pains, each prospective occupant places folded sheets of paper over same to remain while in use by him, besides acting as a precautionary measure. Supplying such seats would also prevent the littering of the room with paper at all times, which detracts from the neatness that elsewhere characterizes the interior of this building. (Williams.)

Thirty-fifth Precinct—The sanitary condition here is fair. (Higgins.)

Thirty-sixth Precinct—The sanitary condition is good. (Higgins.)

Thirty-seventh Precinct—Sanitary condition is fair, except the room of the Captain, which is in poor sanitary condition. (Higgins.)

Thirty-eighth Precinct—Sanitary condition has been much improved and is now fair. (Higgins.)

Thirty-ninth Precinct—Sanitary condition is excellent. This house has been recently finished and occupied, and is one of the best in the Department. (Quigley.)

Fortieth Precinct—The sanitary condition of the new Kingsbridge station house is excellent. Complaint has been made that the dormitories are constantly permeated with the ammoniacal odor of residuary urine from that part of the building allotted to the stabling of the horses, and to defective ventilation and drainage of the same. The recommendations as to hinged wooden seats covering the porcelain bowls of the water-closets, as detailed in the report concerning the Thirty-fourth Precinct station house is here renewed. (Williams.)

Forty-first Precinct—Sanitary condition good. (Brown.)

Forty-second Precinct—Steamer "Patrol" in fair condition. (Cook.)

Forty-third Precinct—Fairly good. (Ford.)

Forty-fourth Precinct—Good. (Jennings.)

Forty-fifth Precinct—Sanitary condition good. (Ford.)

Forty-sixth Precinct—This house is in good condition. (Terry.)

Forty-seventh Precinct—Fairly good condition. (Ford.)

Forty-eighth Precinct—Good condition. (Ford.)

Forty-ninth Precinct—Sanitary condition is fair; repairs are now in progress. (Jennings.)

Fiftieth Precinct—Sanitary condition is fair. (Jennings.)

Fifty-first Precinct—Sanitary condition is good. (Terry.)

Fifty-second Precinct—The ceilings and walls throughout the entire station house are in a dilapidated condition and much in need of repair. The floor of the platform behind the desk in the muster room is badly damaged and should be repaired. (Sullivan.)

Fifty-third Precinct—Station house and prison cells are in fairly good sanitary condition. The ceilings of the north dormitory and lavatory on the second floor should be repaired. (Sullivan.)

Fifty-fourth Precinct—This station house is a well-constructed building with a stable attached for the use of their own team of horses, and also in the second story for the use of the mounted section of fifteen men of the Third Precinct. House, stable and yard are kept habitually in an excellent condition. The cellar floor is badly broken in places and should be newly concreted. The roof over the saddle-room of the stable leaks and should be repaired at once. (De Forest.)

Fifty-fifth Precinct—The plaster on the walls and ceilings in several parts of the house is loose and falling. All the ceilings and walls should be repainted. There is some defect in the waste pipe in the building, as the outflow is frequently obstructed. The pipe leading from the tank in the cells of the main prison is obstructed and out of order. The urinals adjoining the men's sitting room are in bad condition and should be repaired immediately. (Sullivan.)

Fifty-sixth Precinct—The house itself is in good repair, but because of delay and interruption in the making of minor repairs many matters now need immediate attention. In the floor of the passageway between the house and the stable at the bottom of a flight of stairs is a large hole through which a man might easily fall into the sub-basement. This hole has now existed for nearly two years, and was mentioned in the annual report of a year ago. Nothing whatever has been done to close it, and it is a source of actual danger. Most of the windows are useless for the sash cords are broken. Several windows are broken, one of them being in the Captain's room. In the entire series of about a dozen wash-basins there is not a single plug, and the men are compelled to stuff wads of toilet paper into the outlet to use the wash bowl. Door knobs and flush handles are missing in a number of places. Paint is badly needed in many places. A metal ceiling was placed in the Captain's room some months ago. It has not been finished nor ever painted. The appearance in this room is bad in the extreme. Under the date of December 20, 1905, a detailed list of needed repairs was submitted to the Inspector of the Ninth District. (De Forest.)

Fifty-seventh Precinct—The stable and house are in fair condition and are well kept. There is a matron here, and women prisoners are received from four precincts—Forty-sixth, Fifty-sixth, Fifty-ninth and Fifty-seventh—habitually, and sometimes from more. There are eight cells here for women and these are all now fitted with a satisfactory single flush for the toilet in each cell, worked from the outside of the cell. There are only two cells for men. This makes it necessary oftentimes to put men prisoners in the same room with the women prisoners, a most undesirable arrangement, and one that may well cause merited criticism of the Police Department under such circumstances. More cells should be provided for male prisoners at once. The toilet room in the Matron's room is an old one, badly flushed and offensive. A new open plumbing toilet with modern flush tank should be provided. A sky-light with ventilating louvres should be provided over the cells used by women. (De Forest.)

Fifty-eighth Precinct—The station house and prison cells are clean, well ventilated and in a fairly good sanitary condition. (Sullivan.)

Fifty-ninth Precinct—The urinal on the ground floor is out of order. The doors of the cells are nearly wrecked. The hoppers in some of the cells leak. Gas burners in cells cannot be used. The Doorman has to use a lamp to light the cells. The flooring and stalls in the stable are dangerous. The stable roof leaks. The toilets on the second and third floors are in foul condition; new plumbing needed; also new bath tubs for a shower. There is also a bad odor from the toilet in the Captain's room. (Oastler.)

Sixtieth Precinct—Water faucets on the second floor are out of order. Skylight and ropes of skylight need repairing. Flooring of first floor and the banister leading to the cellar are dangerous and need repairing. The hopper to one of the closets in the cells leaks. The leader from the roof is out of order. The hot-water boiler is full of sand holes. The stable doors need repairing badly. The gas-burners are in bad condition. (Oastler.)

Sixty-first Precinct—Wall in closet on the ground floor in need of repair. Constant odor of sewage from public station vent is present at the Sergeant's desk. Rack for shower bath is broken on the first floor. Cover to the main sewer pipe in the cellar is broken. The traps in the closets in the cells leak. The building needs painting badly. (Oastler.)

Sixty-second Precinct—There is no covering to the ceiling in the Matron's room. The sleeping rooms are in need of new shades. The closets on the second floor are out of order. The toilets in men's waiting room are out of order. The stable door is badly warped, and lets in much cold air. Doorman reports that during the heavy rains the sewage is forced back from the main pipe into the sink and into the old boiler's pipe in the cellar. The boiler hole is filled with ashes; it should be covered with cement. The building needs painting. (Oastler.)

Sixty-third Precinct—When it rains water from the yard drains into the cellar and sometimes reaches the boiler. The manure pit under the Captain's office should be obliterated. The wash rooms on the first floor should be finished. The Sergeants living on the second floor complain of constant odor of sewage. (Oastler.)

Sixty-fourth Precinct—The house and stable are in excellent condition and are habitually so maintained. (De Forest.)

Sixty-fifth Precinct—The station house and prison cells are clean and in good sanitary condition. The marble slabs in the floor of the Sergeant's bath room on the second floor are broken and water runs through, causing damage to the ceiling underneath. It should be repaired at once. (Sullivan.)

Sixty-sixth Precinct—The station house is in need of considerable repairs about the building. The exterior and interior should be repainted. (Sullivan.)

Sixty-seventh Precinct—The sanitary condition is fairly good. Alterations and repairs would greatly improve this building. (Terry.)

Sixty-eighth Precinct—Sanitary condition is poor. The new building will be ready for occupancy in a few weeks. (Jennings.)

Sixty-ninth Precinct—Sanitary condition is improved during the year. Repairs are now in progress. (Jennings.)

Seventieth Precinct—Sanitary condition fairly good. (Ford.)

Seventy-first Precinct—Condition excellent. (Ford.)

Seventy-second Precinct—This building is unsanitary and has been totally unfit for a police station for several years past. A new station house is now in course of construction for this precinct. (Terry.)

Seventy-third Precinct—Sanitary condition is good. (Terry.)

Seventy-fourth Precinct—Walls and ceilings of rooms and halls should be white-washed. Condition is otherwise good. (Brouner.)

Seventy-fifth Precinct—In good condition. Has recently been built. (Brouner.)

Seventy-sixth Precinct—Cells are in bad condition. In the Seventy-sixth Sub-Precinct the condition is good. (Brouner.)

Seventy-seventh Precinct—In good condition. (Brouner.)

Seventy-eighth Precinct—The cells here are in very bad sanitary condition. (Brouner.)

Seventy-ninth Precinct—Fair condition. (Brouner.)

Eightieth Precinct (Stapleton, S. I.)—This building is in fair condition, as a number of repairs have been made during the year 1905. The ceilings throughout the building need to be kalsomined and the woodwork needs paint. In the room of the Captain new plaster is needed on the ceiling. The matron's room also needs to be plastered. The floor of the men's dormitory is worn in places and should either be covered with linoleum or replaced by a new floor. There should be two more sanitary toilets for the use of the men. The ceilings and walls of the cells should be repaired. Tin buckets are now used by the prisoners in the cells; these should be done away with and up to date sanitary toilets should replace them.

First Sub-Station (Tottenville, S. I.)—The wood work throughout the building should be painted and the ceilings kalsomined. Each prison should have a proper sanitary toilet which can be flushed by the doorman from the outside.

Second Sub-Station (New Dorp, S. I.)—The ceilings of the front and rear rooms and kitchen are partly down and in other places are ready to fall. They should be repaired immediately. The boiler of the range which supplies hot water throughout the

building leaks and needs repairing. The flushing apparatus of the toilet is out of order and should be repaired as soon as possible. The wood work and walls of the building need painting and the ceilings should be kalsomined. (Donlin.)

Eighty-first Precinct—The floor of the office and hallway should be repaired. The ceiling of the Sergeant's room needs plastering. The floor of the dormitory should be covered with linoleum or else repaired. (Donlin.)

Eighty-second Precinct—The sanitary condition here is satisfactory. (Terry.)

Eighty-third Precinct—The entire premises need to be renovated. They are in generally bad condition. (Brouner.)

Eighty-fourth Precinct—There are no hot water connections here; these should be supplied. (Oastler.)

New York, January 31, 1906.

Hon. THEODORE A. BINGHAM, Police Commissioner:

Sir—The Street Traffic Regulation Bureau was organized on August 1, 1904, with headquarters at the Third Precinct Station, City Hall. Two additional sub-stations have since been established at No. 1 East Twenty-seventh street, Borough of Manhattan, and Borough Hall, Borough of Brooklyn.

The men on foot attached to headquarters (City Hall) cover all important street crossings and bridge approaches below Fourteenth street, and the mounted men patrol thoroughfares south of that street.

The men on foot attached to the Manhattan Sub-Precinct cover street crossings from Fourteenth street to Seventy-second street, while the mounted men patrol the principal avenues and crosstown streets, and regulate vehicular traffic at Union Square, Madison Square, Herald Square, Grand Central Depot, Times Square, Columbus Circle and Plaza at Fifty-ninth street and Central Park.

The men on foot attached to the Brooklyn Sub-Precinct cover the principal street-crossings on Fulton street, from High street to Nostrand avenue, and Broadway, Williamsburg, from Gates avenue to East river; also the approaches to the Brooklyn and Williamsburg bridges.

The mounted men patrol the principal thoroughfares in Williamsburg and Brooklyn.

During the year 1905 improved traffic regulations were placed at the following places, with the result that there is at the present time an uninterrupted passage of vehicles of all kinds in the daytime at these heretofore congested districts, and a great decrease in the number of accidents resulting in death and severe injury to persons travelling on foot at these points:

January 9—Union Square, Broadway and Fourteenth street (Dead Man's Curve).
January 11—Fulton street, from Flatbush avenue to Carlton avenue, and DeKalb avenue, from Fulton street to Clinton avenue, Borough of Brooklyn.

February 27—Broadway, from Gates avenue to East river, Williamsburg. Also vehicular traffic over Williamsburg Bridge, which had been travelling to the left to and from its approaches, compelled to travel to the right in compliance with the rules of the road. Also branch traffic stable established at Fifty-fourth Precinct Station.

March 6—Central Park Plaza (Fifth avenue, Fifty-eighth to Sixtieth streets), and East Fifty-ninth street, Third to Fifth avenue.

May 11—Times Square, Broadway and Seventh avenue, from West Forty-first to West Forty-seventh street.

June 26—Broad street, Wall to Beaver street (curb brokers). Also push carts restricted from operating from 7 a. m. to 7 p. m., Beaver street to Maiden lane and Broadway to William street.

July 26—Grand Central Depot and vicinity, East Forty-second street, from Third to Fifth avenue, East Forty-third and East Forty-fourth streets, from Madison to Vanderbilt avenue, Madison avenue, from Forty-first to Forty-fourth street, Vanderbilt avenue, from Forty-second to Forty-fourth street.

November 11—Approaches to Brooklyn Bridge, Brooklyn side, plaza opposite Southern roadway, Liberty street, from Tillary to High street, Washington street, from Myrtle avenue to Sands street, Sands street, from Southern roadway to Washington street.

November 20—Special traffic regulations established for Metropolitan Opera House. Street traffic regulations extended on Broadway and Seventh avenue, from Thirty-seventh to Forty-seventh streets (Times Square), from 6.30 p. m. to 1 o'clock a. m. following.

On August 1, 1905, a model police stable and training school was established at Wakefield, Borough of The Bronx, for the breaking and training of horses and for the training of Patrolmen for the mounted service.

On October 1, 1905, a model police stable was established at No. 15 Leonard street, Manhattan, for the accommodation of horses used by Mounted Patrolmen attached to the Third Precinct, City Hall.

The mounted patrol service in the downtown congested districts has shown itself to be of invaluable aid in regulating vehicular traffic and in clearing thoroughfares for fire apparatus proceeding to fires and thereafter handling the crowds that so quickly assemble on such occasions in the daytime. Surface car lines have also been enabled to make their schedule time (except after heavy snow falls), thus benefiting the general travelling public. This service has also shown its usefulness in opening up the principal thoroughfares and the roadways on side streets, making it possible for all kinds of vehicles laden with merchandise to proceed to warehouses, piers and other places without obstruction. This improvement in traffic conditions south of Fourteenth street was brought about principally through the efficiency of the mounted service, and has been recognized and commended not only by the public press, but by prominent merchants, business men and truck owners. In this respect I deem it proper to mention that the Merchants' Association of this City presented a set of flags to the Traffic Squad on the occasion of the last annual police parade, as an expression of their appreciation to the Mayor and the Police Commissioner for the benefit derived by the commercial interests of this City through the institution and operation of improved conditions, whereby the large volume of traffic had been expedited and the capacity increased, with a greater degree of safety for pedestrians.

Hon. THEODORE A. BINGHAM, Police Commissioner:

Very respectfully,

M. R. BRENNAN, Superintendent.

Police Department Lines.

The Police Department has in operation eighteen hundred and sixty-six (1,866) miles of wire, as follows:

Manhattan and the Bronx	623
Manhattan leased lines, signal system	464
Brooklyn	600
Queens	120
Richmond	59
Total	1,866

In the Borough of Manhattan the underground cables have required much repair, 37,486 feet of cables, containing from 2 to 60 conductors, have been laid, to take the place of broken and defective cables. The work of transferring the lines from Mulberry street to the new Headquarters is in progress and will be continued, as money has been appropriated for that purpose.

In order to properly transact the steadily increasing business of the Borough of The Bronx, a new Police Telephone Bureau was established at the Thirty-seventh Precinct Station House, October 17, 1905. This Telephone Bureau is now organized and the business transacted in the same manner as in the other boroughs. There has been a marked improvement in the telephone service of this borough.

The placing of the telephone lines underground in the Borough of Brooklyn was continued during the year, 123,200 feet of cables, containing from 2 to 28 conductors, were laid, which provides underground wires for all the precinct station houses for which there is subway accommodation. This has enabled us to co-operate with the Department of Water Supply, Gas and Electricity in the removal of poles from the streets.

The police telephone lines in Queens and Richmond are in good condition; provision has been made for placing these wires underground in the more thickly inhabited sections.

Equipment.

There are 1,374 telephones connected on police lines in the five boroughs, consisting of police stations, Court Squads, hospitals, public offices and societies and police signal and telephone stations. In each borough Headquarters there is a switchboard, to which all lines are connected; also extension lines to all offices and bureaus in the Headquarters buildings. The several borough Headquarters are connected with each other by trunk lines. The switchboards are also connected with the public telephone exchanges as follows:

Manhattan Headquarters (exchange lines)	15
The Bronx Headquarters (exchange lines)	2
Brooklyn Headquarters (exchange lines)	5
Queens Headquarters (exchange lines)	2
Richmond Headquarters (exchange lines)	1

The fifteen exchange lines in Manhattan are not sufficient to properly transact the outside business of the Department. This branch of the service is increasing rapidly, and I would recommend an addition of five lines in order to give efficient service to the public.

The same condition of affairs exists in Brooklyn. The five exchange lines are inadequate, and I would recommend also an addition of three lines for this borough.

During the year an additional exchange line was connected at Queens Headquarters to meet the demands of that borough.

Police Signal System.

The installation of the police patrol telephone system was completed in Manhattan during the year. The 29 patrol precincts of Manhattan are equipped with 663 telephone

stations. The officers in these precincts are required to report hourly during the tours of patrol. This service is highly commended by the commanding officers of the Department.

In September, 1905, on recommendation of the Superintendent of Telegraph, the extension of this system to the eight precincts of The Bronx was approved, and money appropriated for its establishment. The securing of locations and rights of way is now in progress and the work of installation will begin in a short time.

I desire to call special attention to the police signal situation in the Borough of Brooklyn. At present 17 of the 32 patrol precincts are supplied with a signal system, consisting of a station house equipment, 334 street boxes and 200 miles of old iron wire, strung on poles which have been condemned. The apparatus is entirely out of date and the lines almost worthless, requiring constant repair to keep them in operation.

We have been directed by the Department of Water Supply, Gas and Electricity to make provision for these lines underground, so that the poles on which they are strung can be removed.

To renew the apparatus and place the lines underground in this borough would call for an enormous expenditure of money and would take years to accomplish the work. I am of the opinion that it would be more advantageous to adopt the Manhattan plan and extend the police patrol signal and telephone system to the Borough of Brooklyn by leasing lines and instruments from the telephone company.

Banks and Exchanges.

The lines connecting the banks, exchanges, etc., with the several police stations are in good order.

Police Department,

Forty-second Precinct,

New York, January 24, 1906.

Hon. THEODORE A. BINGHAM, Police Commissioner:

Sir—In compliance with telephone order of January 15, 1906, relative to the work performed by members of my command during the year 1905, the following report is herewith submitted:

The steamer "Patrol" assisted and co-operated with the Fire Department at all fires on the river front; incoming vessels have been boarded, prisoners taken off and delivered to proper authorities; calls from vessels in distress have been answered and all possible assistance rendered. The steamer has been out of commission since November 25, 1905, at which time she was taken in charge by contractors to undergo a thorough overhauling. The steamer has been kept clean and the Rules and Regulations of the Department concerning same have been strictly enforced and well observed.

The launches attached to this precinct have patrolled the waters of this city and valuable assistance has been rendered. Many arrests have been made, lost and stolen property recovered, lives have been saved, drowned bodies recovered, and the stealing of coal from barges in transit through the Kill von Kull has been suppressed.

In addition, the members of the force in this precinct, both at Pier "A" and the sub-station, have from time to time performed special duty on shore, in various precincts, on strike duty, etc.

Attached is a summary of the work performed.

Respectfully,

ROBERT A. TIGHE, Captain.
