Hence I cannot vote in favor of the above resolution, and I furthermore dissent for the reason that I do not think it equitable nor in conformity with my views of reform, to discharge men who have been industrious and faithful in our employ for months past, at a salary of forty dollars for one, and sixty-two dollars and fifty cents for another per month, in the midst of winter, with no prospect of employment, and poverty staring them and their families in the face.

REPORT OF THE USEFULNESS OF THE RECEPTION HOSPITALS AND THE PROPOSED EXTENSION OF THE SAME.

To the Commissioners of Public Charities and Correction:

GENTLEMEN:—Since the removal of the New York City Hospital from Broadway and Duane street, the Park Reception Hospital is the only place where the victims of accidental injuries that require immediate relief in order to prevent a fatal result, can be accommodated.

It is probably needless to call your attention to the fact that the Park Reception Hospital, the only refuge for down town patients requiring immediate care, was built for a different purpose, and its transformation has been effected in response to a pressing need which admitted of no delay, its capacity for the accommodation of patients has been strained to the utmost extent, and whatever may be said against its imperfect condition, its cramped space, it must be conceded that, comparatively, it has been of greater utility than any of the larger institutions.

It is sufficient to state that during six months, commencing May 1st and ending October 31st, 1873, three hundred and four (304) patients requiring surgical treatment, and three hundred and seventy (370) patients requiring medical treatment, have been received in the Park Hospital, of whom four hundred and thirty-two (432) had to be retained and treated in the hospital, and two hundred and forty-two (242) of these cases were gradually transferred to Bellevue Hospital. If this temporary hospital had not existed, the transportation of the patients received and treated there could have been effected only at the greatest risk to their lives, at the moral responsibility of this community. Besides those cases of serious accidents and injuries, thirteen hundred and forty-three (1343) so called out door patients received medical and surgical treatment, which, as the resident physician and surgeon, Dr. Fluhrer, says, are cases of minor surgery, yet many are of serious injury or disease, and require prompt and skillful treatment for their relief.

This make-shift hospital is the only place of accommodation in the whole lower districts—the most thickly populated portion of the city, especially during business hours—where city life pulsates the strongest, and where accidents and injuries are of the most frequent occurrence. At present the station-houses are resorted to as a place where cases are first brought, but those contain no room where a person injured by an accident, or suddenly struck with disease, can be properly accommodated. There are no beds or other conveniences on hand where they can be laid. The supply of medicines is necessarily insufficient, and the surgical appliances are very few, not calculated to meet any serious cases. Persons injured in the streets are taken to the station-house nearest the scene of the injury, and a police surgeon is sent for. There is necessarily a great loss of time, which, in a severe case, may cost the patient's life—as, for instance, in cases where the injuries sustained are connected with profuse hemorrhage. Considerable time elapses even before the policeman who first discovers the case makes the report at the station-house, and procures a stretcher whereon to transport the patient; the surgeon may arrive promptly or not, and then, after a hasty examination, the patient may be directed to the Bellevue Hospital; this necessitates sending for an ambulance. In cases of extreme injuries, this loss of time may involve the loss of the patient.

In cases of the sudden accouchement of poor women, the treatment to which they must be subjected is greatly revolting to our sense of hu-

manity and refinement—the bare floor, without furniture whatever, is the resting place of her who is to be the mother of the new-born human being. Herself but poorly clad, there is little or nothing wherewith to cover the infant. Upon the cold, rough beards the surgeon kneels and performs his professional duties. He has very little means at hand to allay the pains of labor, and if the birth should be accompanied by any irregularities, neither sufficient medicines or instruments are found there to arrest the fleeting life. An ambulance might be sent for before actual confinements take place, but the danger of transport is likely to complicate more seriously still the embarrassments of the situation. A woman thus confined at a station house cannot well be moved for several days, yet there is no provision at a station house for her accommodation.

Cases of delirium tremens, epileptic convulsions, disease of a contagious character are all taken to the station house, to be transferred from there to the houses of the patient or the hospital, thereby endangering the health and life of the men of the police force. There is probably no city of equal size where such a deficient arrangement exists, to afford necessary and efficient relief in cases of accident, which naturally must be numerous, and it seems to me that it does not require great increase of expenditure to remedy the evils as they exist at present. A number of reception hospitals could be located in such parts of the city that are far removed from Bellevue Hospital, or private hospitals up-town, and when accidents do occur near these hospitals it is unquestionable that the injured would be received therein and then such disposition made of them as would accord with the dictates of humanity and genuine benevolence. Similar service as that now rendered by the Park hospital could be rendered by a number of reception hospitals conveniently located. The annual expense of the Park hospital has been \$10,000, and its utility is indeed beyond monetary compounding. The Park Hospital would probably have sufficient accommodation for the average cases of accidents in the First, Second, Third, Fourth, Fifth and Sixth Wards. A second hospital should be located for the accommodation of accidents occurring in the Seventh, Tenth, Thirteenth and Fourteenth Wards. A third one should be located in a central point for accidents occurring in the Eleventh, Seventeenth, Eighteenth and Twenty-first Wards. A fourth hospital ought to be located for the accommodation of accidents occurring in the Eighth, Fifteenth and Sixteenth Wards. Accidents occurring in the Twelfth, Nineteenth, Twentieth and Twenty-first Wards ought to be taken to either the Roosevelt, Saint Luke, Mount Sinai Hospitals, and the Reception Hospital, Ninety-ninth street. It will be seen that at least three more reception hospitals would afford the relief required, and I deem it our bounden duty to furnish them as speedily as possible. The cost of supporting those hospitals will probably not exceed the sum of \$30,000 per annum, an amount trifling compared to the incalculable benefit conferred thereby. The co-operation of the governors of the New York City Hospital, who have ample means, and can boast of gentlemen of great philanthropy and experience, should be solicited, and an invitation by this Board to those gentlemen, properly extended, might hasten the desired result. Annexed, please find a detailed account of the work performed at the Park Reception Hospital, and the history of the cases treated as taken from the records of that institution by the eminent resident physician and surgeon, Dr. Fluhrer. All of which is respectfully submitted.

REPORT OF COMMISSIONER LAIMBEER ON THE ESCAPE OF WILLIAM J. SHARKEY FROM THE TOMBS.

To the Board of Commissioners of Public Charities and Correction:

I respectfully report that I have examined the following named persons in the Tombs Prison, viz.: Warden Johnson; Dr. Brekes, physician; William T. Long, steward; William E. Jones, Chas. Graham, George McClelland, Edward Falconer, Thos. H. Graham, Richard Finnen, James Finn; William E. Kennedy, David B. Dwyer, keepers, and Mark Finley, the Deputy Warden. The testimony is hereunto annexed, consisting of 322 folios.

It is to my mind a plain statement as to the duties of each keeper, and the way of his performing them. I am well satisfied that some understand and are competent to perform their several duties, and many of them entirely unfit for the place they occupy, for the reason that they seem not to understand their position or appreciate their office by learning from day to day each lesson of the day, and seeking to understand the mission and duties of this Board of Commissioners of Charities and Correction, and their duties as subordinates. Each keeper seems to be acting upon his own defense, and not in common with his fellows. Thus no harmony seems to exist for the general good of the department. If this had been so, Sharkey would never have left the Tombs. In fact, but few of the keepers seem to think they could have recognized him at all, although they all knew him well. The examination shows beyond question that there was a combination between Sharkey in his cell and the keepers, from his cell to the outside door. It is shown that the second door from the street was without a keeper, and that it was open when this woman (Sharkey) passed out. I desire to call the attention of the board to the fact that it has been the custom to admit all who came with cards, to the number of about two hundred per day, and the testimony clearly shows that of this number one-half to three-fourths were bad

women and men, engaged in unlawful pursuits, such as gamblers, pickpockets, thieves, receivers of stolen goods, forgers, and in the commission of rape, arson, bigamy—in fact, those who have committed all crimes—coming to see those who are confined, and holding conference with them daily.

The new rule of this Board seems to me very proper indeed, as the visitors are now confined to relatives to the number of from twenty to thirty per day, and then only once a week. Special cases come from day to day, and are considered by examination in person at this office. My own opinion is that the sooner it is understood that the word "prison" is not to mean a rendezvous for idle people and a council-room for vagabonds, the better. The testimony also clearly shows that little good comes from sending in food to the prisoners; certainly it is no economy to this department, as the requisitions for supplies are made for the entire number, and the food furnished being of good quality, and competent to sustain and even fatten the body, I would recommend that better security be placed at the lower tier inside, as well as on the third tier. It is my duty to state in this connection that the prison is being crowded to its extreme capacity, and if it continues we soon shall have no room. The number now confined is some 500 of all grades.

I should, if this building is to be improved or additions made thereto, recommend an elevator to be worked by the short-term prisoners, instead of steam, so as to give them the necessary simple exercise for their body, and to do away with the stairs now there entirely. I would suggest that admission be granted only to a limited number at given hours, say from 11 to 2, and then only to such as the necessity of the case may require. The continued visits by many friends do away with the intended punishment, and bring many under our care who would dread the confinement and keep away if the visiting was forbid. The discipline of the prison can be much improved by having the keepers less employed in handing bundles, food, &c., to prisoners, some days amounting in the past from 100 to 200, thus taking up their time and attention, that should be devoted to the inspection of cell doors and the conduct of prisoners.

I could enlarge upon the subject very much, but will submit for the present this report, and the testimony of the several keepers, and ask this Board to give it consideration, and also the following resolution:

Resolved, That hereafter no person be appointed a keeper at any of the prisons under this department until he shall have been examined before this Board, and by a majority of them deemed competent, and that the keepers now in the employ of this department shall, as soon as possible, be examined in like manner, and if found incompetent, discharged.

Respectfully submitted.

WM. LAIMBEER.

OFFICE OF CITY PRISON,

NEW YORK, Nov. 19th, 1873.

Hon. Wm. Laimbeer, President:

SIR:—Wm. J. Sharkey, a prisoner who is convicted of murder, escaped from the City Prison this afternoon at about fifteen minutes after one o'clock. A woman named Sarah Allen called to see Sharkey. She received a ticket from keeper in Warden's office, when she passed into the prison (which ticket she should have been instructed by the keeper to safely keep and return to him when she would leave the prison). Sharkey was in cell 40 on second tier of male prison. His iron door was locked. At this time Keeper Phillips was in charge of the second tier, and all visitors to male prison had to pass through the gate of which he had the key, and which is always to be kept locked. Keeper Finnin was at the gate in Warden's office, and had the key of the iron door in his possession. All visitors to the City Prison have to pass through the door of which he has charge. Keeper Falconer was in charge at the Warden's office gate giving tickets to visitors to the prison.

All the above named keepers (Phillips, Finnin and Falconer) have instructions to inform each visitor to be careful of their tickets, and to give them to no person except the keeper in warden's office from whom they were received.

At two o'clock this afternoon the woman named Sarah Allen presented herself at the gate in the warden's office, to be passed out, and she stated that she had lost her ticket. I was sitting in my office, and Mr. Finley went into the office to inquire if any prisoner had escaped, and he was informed by keeper Phillips that his tier was all right; that he had his cells examined, and all his prisoners were safe.

the office observed the person passing out of the warden's office, and stated that he called the attention of the keepers in the front office to the fact, but that they said it was none of their business; that the keepers inside of the prison were responsible.

The above-mentioned keepers—Phillips, Finnin, and Falconer—were well acquainted with the features of said Sharkey. He had to pass through the gate of which they had charge. They should have examined his ticket and his features. They should have known that no such person passed into the prison, and they should have detected him immediately when he was escaping from them. They can have no excuse for permitting him to escape. When Keeper Finnin's attention was called to the person passing out of the office by Keeper Falconer, it was his duty to instantly arrest the person. Keeper Falconer, of course, could have caught him himself. He could either have prevented him passing through the gate, or, when he discovered the suspicious movements, he could have caught him instantly, as there was a police officer in front of the door, and, by his own statement, Keeper Finnin was present to assist him; or, if he even gave the alarm, both Mr. Finley and myself were inside of the railing in another part of the office, and we would have caught him before he could escape. Keeper Phillips had charge of the second tier from which Sharkey escaped. He must have permitted Sarah Allen to pass out of the prison without showing her ticket, or else he had information from her that her ticket was lost, and he neglected to give an alarm instantly to the office (the bell being at his hand for the purpose of giving an alarm). And if he had no knowledge of her ticket being lost, why did he inform Mr. Finley, who had ordered him to examine his cells, that he had his cells examined, and his prisoners were all right, when it was at that instant the first information was received in the office of the loss of a ticket. I have Sarah Allen in custody on a charge of aiding Sharkey to escape, and I would respectfully request that the above-mentioned keepers be instantly removed by the honorable body, and that the matter be placed before the District Attorney to investigate, to see if some of the keepers could not be held for aiding the prisoner to escape.

I caused the arrest of Margaret Jordan at 6:30 p. m. on suspicion of opening Sharkey's cell door and passing in the bundle of clothes. She was in the prison to see him this afternoon.

I have suspended keepers Phillips, Finnin and Falconer from duty until the further orders of your honorable board.

Yours very respectfully,

WM. JOHNSTON,  
Warden.

AND CORRECTION,  
NEW YORK, Dec. 15, 1873.

GENTLEMEN:—In regard to the requirements for the new district, 23d and 24th Wards, we beg leave to say we have endeavored, from evidence, as well as from the officers and supervisors formerly in charge of the several towns, to ascertain the necessary requirements and expenditures for the support of the poor and prisoners, and while we have not been enabled, up to this time, either to classify or itemize the same, this Board, on close economical calculation, is of opinion that at least twenty thousand (\$20,000) dollars will be required for the purposes above mentioned.

Ordered by the Board.

Very respectfully,  
Your obedient servant,

(Signed) WM. LAIMBEER,  
President.

To the Hon. Board of Apportionment.

DEPARTMENT OF PUBLIC CHARITIES  
AND CORRECTION,  
NEW YORK, December 16, 1873.

To the Honorable the Commissioners of Docks:

GENTLEMEN:—I have made a personal examination of the dock in front of Bellevue Hospital, and find it in a very bad state; in fact it seems to me wrong under the circumstances to repair it at all.

I respectfully ask that, because of the future wants of the hospital, that you would build it some fifteen feet east of the old dock, thus making so much more ground, and at no more cost to the city. By having your department make examination in order to see if the request of this department is proper, you will much oblige

Yours, very respectfully,

(Signed.) WM. LAIMBEER,  
President.

DEPARTMENT OF PUBLIC CHARITIES  
AND CORRECTION,  
NEW YORK, Dec. 6, 1873.

Hon. Jacob A. Westervelt, President Department of Docks:

SIR:—Respectfully referring you to the communication of this Board, dated Nov. 12, 1873, addressed to you in reply to yours of Oct. 30, with resolution of the Police Department to have crib work sunk on the north or northeast side of Randall's Island, &c., for the accommodation of boats of that Department in discharging their cargoes, I have to request that the work may be commenced and finished as soon as possible, in order that the deposit of material collected by the Bureau of Street Cleaning may be confined to the period ending on 1st of April next, as otherwise, as a later period, it may be prejudicial to the health of the children on Randall's Island.

Nothing can be done until the proper construction by your Department of the necessary protection to prevent the washing of the material into the channel of the Harlem River, and any information or assistance to facilitate, and any

number of men required to expedite this work, will be cheerfully given by this Board.

Very respectfully,  
Your obedient servant,  
(Signed) WM. LAIMBEER,  
President.

### Claim of Hubbard & Whittaker.

NEW YORK, Feb. 2, 1874.

Hon. Wm. Laimbeer President.

SIR—In respect to the claim of Hubbard & Whittaker, for the sum of \$146 71, presented by Mower & Crosby, Attorneys, 287 Broadway, being in addition to their contract for five steam boilers for New York City Asylum for the Insane Ward's Island, dated 23d June, 1870, I have to state that under the "general clause" contained therein, I am of opinion that they are not entitled to payment of any sum in addition to the amount of their contract, viz.: \$24,833 33.

I respectfully recommend that the subject be referred to the Counsel to the Corporation, with the contract and bond, for such action as may be deemed by him advisable, and that Hubbard & Whittaker, be required to furnish a bill of particulars, for further consideration.

Respectfully,

WM. H. KNAPP,

Resolved, That Patrick Nolan be and is hereby appointed as keeper of dead house at Bellevue Hospital, in place of A. N. White, who is hereby removed.

Feb. 5th, 1874. By the Board. Adopted.

I vote to sustain the resolution on the ground that the President, Mr. Laimbeer, has frequently and most emphatically expressed his opinion of the unfitness of Mr. White for the position he holds, and requesting his removal.

New York City Asylum for Insane, Ward's Island.

NEW YORK, February 7, 1874.

Hon. Wm. Laimbeer President:

SIR—I do not consider it beneficial or expedient to paint the roof of the Asylum on Ward's Island with gas tar, as it destroys the tin, and recommend for that purpose Prince's metallic paint. The Averill paint, which was referred to me to examine, I do not consider equal in quality to pure white lead oil and turpentine, and recommend that the use of it be discontinued, and that the painting of the roof of the Asylum be delayed until more favorable weather.

Respectfully,

WM. H. KNAPP,  
Supervising Engineer.

Steam Fire Engine, Randall's Island.

The following resolution was adopted:

Resolved, That the following elements of the general plan of Riverside park and avenue proposed by the landscape architect on 30th October, 1873, and since more distinctly presented and considered in detail, are hereby adopted:

First—A main highway shall be formed, extending from Seventy-second street on the south, to One hundred and twenty-third street, and as much farther to the north as practicable, the grades of which shall not be steeper than one foot in twenty-seven, and where the grades of the avenue, as originally planned, exceed the above rate, the course of said highway shall deviate from that of the avenue, as originally planned, as much as may be necessary to the convenient accomplishment of this purpose.

Second—Wherever such deviation from the original course of the avenue is made, a branch road, not exceeding thirty feet in width, shall be formed, the eastern line of which shall follow that of the avenue, and the grades of which shall nowhere vary materially from those originally established for the avenue.

Third—That part of the main highway between One hundred and fourth and One hundred and twentieth streets, shall be arranged as a public promenade to command views over the Hudson river, and to be shaded in all its parts.

Fourth—North of One hundred and twentieth street the park and highway shall be so arranged as to supply a resting and turning place from which the view up the river shall be kept open as much as practicable.

Fifth—A connection shall be provided for between the main highway and a future public landing place on the river at or near Ninety-sixth street, and highways crossing the park, with as easy grades as may be practicable, shall be provided for in the valleys near Ninety-sixth and Seventy-ninth streets, such crossing highways being designed to supersede those at present in use.

Sixth—So much of the park as is not covered by the highways above described shall be treated simply and in such a manner that the whole cost of its improvement, not including what the grading of the Twelfth avenue may hereafter involve, shall not exceed \$100,000.
