# Monthly Report: New York City Curbside and Containerized Municipal Refuse and Recycling Statistics by Borough and District: JULY 2015

## DSNY Curbside and Containerized collections

Curbside and Containerized collection routes serve individual districts; trucks on these routes pass over scales each day which transmit tonnage data into DSNY's centralized computer system. For this reason, monthly statistics, by Community Districts, can be tracked and reported. Additional tonnage managed by DSNY is diverted through other mechanisms, but only available for annual reporting. Materials including Textile & Used Materials Donations, E-Waste, Hazardous Waste, other Organics collections, Redeemed Bottle & Can Deposit containers, and other take-back and diversion programs are included on the annual report only, and contribute to an overall annual diversion percentage of DSNY-managed waste that is different from the monthly curbside and containerized collections.

# Monthly Report: New York City Curbside and Containerized Municipal Refuse and Recycling Statistics

by Borough and District: **SEPTEMBER 2015**

**DSNY Curbside and  
Containerized  
collections**

Curbside and Containerized collection routes serve individual districts; trucks on these routes pass over scales each day which transmit tonnage data into DSNY's centralized computer system. For this reason, monthly statistics, by Community Districts, can be tracked and reported. Additional tonnage managed by DSNY is diverted through other mechanisms, but only available for annual reporting. Materials including Textile & Used Materials Donations, E-Waste, Hazardous Waste, other Organics collections, Redeemed Bottle & Can Deposit containers, and other take-back and diversion programs are included on the annual report only, and contribute to an overall annual diversion percentage of DSNY-managed waste that is different from the monthly curbside and containerized collections.

# Monthly Report: New York City Curbside and Containerized Municipal Refuse and Recycling Statistics

by Borough and District: NOVEMBER 2015

## DSNY Curbside and Containerized collections

Curbside and Containerized collection routes serve individual districts; trucks on these routes pass over scales each day which transmit tonnage data into DSNY's centralized computer system. For this reason, monthly statistics, by Community Districts, can be tracked and reported. Additional tonnage managed by DSNY is diverted through other mechanisms, but only available for annual reporting. Materials including Textile & Used Materials Donations, E-Waste, Hazardous Waste, other Organics collections, Redeemed Bottle & Can Deposit containers, and other take-back and diversion programs are included on the annual report only, and contribute to an overall annual diversion percentage of DSNY-managed waste that is different from the monthly curbside and containerized collections.

# Monthly Report: New York City Curbside and Containerized Municipal Refuse and Recycling Statistics

by Borough and District: JANUARY 2016

## DSNY Curbside and Containerized collections

Curbside and Containerized collection routes serve individual districts; trucks on these routes pass over scales each day which transmit tonnage data into DSNY's centralized computer system. For this reason, monthly statistics, by Community Districts, can be tracked and reported. Additional tonnage managed by DSNY is diverted through other mechanisms, but only available for annual reporting. Materials including Textile & Used Materials Donations, E-Waste, Hazardous Waste, other Organics collections, Redeemed Bottle & Can Deposit containers, and other take-back and diversion programs are included on the annual report only, and contribute to an overall annual diversion percentage of DSNY-managed waste that is different from the monthly curbside and containerized collections.

# Monthly Report: New York City Curbside and Containerized Municipal Refuse and Recycling Statistics

by Borough and District: MARCH 2016

## DSNY Curbside and Containerized collections

Curbside and Containerized collection routes serve individual districts; trucks on these routes pass over scales each day which transmit tonnage data into DSNY's centralized computer system. For this reason, monthly statistics, by Community Districts, can be tracked and reported. Additional tonnage managed by DSNY is diverted through other mechanisms, but only available for annual reporting. Materials including Textile & Used Materials Donations, E-Waste, Hazardous Waste, other Organics collections, Redeemed Bottle & Can Deposit containers, and other take-back and diversion programs are included on the annual report only, and contribute to an overall annual diversion percentage of DSNY-managed waste that is different from the monthly curbside and containerized collections.

\* Organics currently includes Christmas Trees, Leaves and Yard Waste, and Food Waste. Green Market Food Waste was added as of April 2012, School Food Waste was added in September 2012, Residential Food Waste was added in May 2013.

Bill de Blasio  
Mayor  
Kathryn Garcia  
Commissioner

# Monthly Report: New York City Curbside and Containerized Municipal Refuse and Recycling Statistics

by Borough and District: APRIL 2016

## DSNY Curbside and Containerized collections

Curbside and Containerized collection routes serve individual districts; trucks on these routes pass over scales each day which transmit tonnage data into DSNY's centralized computer system. For this reason, monthly statistics, by Community Districts, can be tracked and reported. Additional tonnage managed by DSNY is diverted through other mechanisms, but only available for annual reporting. Materials including Textile & Used Materials Donations, E-Waste, Hazardous Waste, other Organics collections, Redeemed Bottle & Can Deposit containers, and other take-back and diversion programs are included on the annual report only, and contribute to an overall annual diversion percentage of DSNY-managed waste that is different from the monthly curbside and containerized collections.

## Tons per day

# Monthly Report: New York City Curbside and Containerized Municipal Refuse and Recycling Statistics

by Borough and District: JUNE 2016

## DSNY Curbside and Containerized collections

Curbside and Containerized collection routes serve individual districts; trucks on these routes pass over scales each day which transmit tonnage data into DSNY's centralized computer system. For this reason, monthly statistics, by Community Districts, can be tracked and reported. Additional tonnage managed by DSNY is diverted through other mechanisms, but only available for annual reporting. Materials including Textile & Used Materials Donations, E-Waste, Hazardous Waste, other Organics collections, Redeemed Bottle & Can Deposit containers, and other take-back and diversion programs are included on the annual report only, and contribute to an overall annual diversion percentage of DSNY-managed waste that is different from the monthly curbside and containerized collections.
