### HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Pregualification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed, at http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

### **Participating NYC Agencies**

### Statement of Basis and Purpose of the Proposed Rule

City Charter § 2604(a)(1)(b) prohibits a regular employee of the City from having an ownership interest in a firm "engaged in business dealings with the city, except if such interest is in a firm whose shares are publicly traded, as defined by rule of the board." The Board accordingly adopted Board Rules § 1-04 in 1990, defining a publicly traded firm as one that "offers or sells its shares to the public and is listed and registered with the Securities and Exchange Commission for public trading on national securities exchanges or over-the-counter markets."

In the intervening thirty years, the Board has advised many public servants about the impact of the conflicts of interest provisions of Chapter 68 on their ownership interests in publicly traded securities, including six advisory opinions: A.O. Nos. 1994-10, 1994-13, 2002-1, 2007-4, 2009-7, and 2012-1. The proposed amendments to Board Rules § 1-04 would retain the definition of "publicly traded firm" as paragraph (a) and add new paragraphs (b) and (c) dealing, respectively, with investments held in individual retirement accounts ("IRAs") and the ownership of bonds.

### 1. Investments Held in IRAs

City Charter § 2601(16) establishes a definition of "ownership interest" in a firm but excludes "interests held in any pension plan, deferred compensation plan or mutual fund, the investments of which are not controlled by the public servant, the public servant's spouse, domestic partner, or unemancipated child." For purposes of this definition, proposed Board Rules § 1-04(b) would treat investments contained in an IRA, Roth IRA, Simplified Employee Pension IRA, or Keogh plan just like any other investments. Thus, for example, shares in a publicly-traded firm that are chosen by the public servant and held in their IRA are considered "ownership interests" within the meaning of City Charter § 2601(16).

### 2. Ownership of Bonds

Proposed Board Rules  $\S$  1-04(c)(1) would codify the general advice the Board provided in A.O. No. 1994-10, and reiterated in A.O. Nos. 1994-13, 2002-1, and 2009-7, that a public servant's ownership of bonds issued by public entities is not a prohibited ownership interest in a "firm." Specifically, City Charter  $\S$  2601(11) and Board Rules  $\S$  1-08, which codified A.O. No. 1994-10 pursuant to City Charter  $\S$  2603(c)(4), exclude certain public and quasi-public entities, including the City of New York and its agencies, from the definition of "firm."

Nevertheless, the Board recognized in A.O. 2009-7 that a small group of public servants has personal and substantial responsibility in the issuance and management of City debt obligations. For these public servants, the purchase, ownership, or sale of City-issued bonds implicates City Charter § 2604(b)(2) prohibiting private interests that conflict with their official City duties, § 2604(b)(3) prohibiting a public servant's use of their position to benefit themselves or any of their "associated" persons or firms, and § 2604(b)(4) prohibiting the use or disclosure of confidential information obtained as part of their City job. Proposed Board Rules § 1-04(c)(2) would codify this 2009 advice.

New material is underlined. [Deleted material is bracketed.]

### § 1-04 [Definition of a Firm Whose Shares are Publicly Traded] Investments in Publicly Traded Securities.

- (a) Definition of a Firm Whose Shares are Publicly Traded. For purposes of Charter § 2604(a)(1)(b), "a firm whose shares are publicly traded" means a firm [which] that offers or sells its shares to the public and is listed and registered with the Securities and Exchange Commission for public trading on national securities exchanges or over-the-counter markets.
- (b) **Investments held in IRAs.** For purposes of Charter § 2601(16), an "ownership interest" includes investments in

firms held in an individual retirement account ("IRA"), Roth IRA, Simplified Employee Pension IRA, or Keogh plan, provided that the investment is not otherwise excluded from the definition of "ownership interest."

### Public Debt Obligations.

- (1) Except as provided in paragraph (2) of this subdivision, for purposes of Charter § 2604(a)(1) and § 2601(11), a public servant is not prohibited from owning debt obligations issued by the City or "other similar entities" as defined in Board Rules § 1-08.
- For purposes of Charter § 2604(b)(2), § 2604(b)(3), and § 2604(b)(4), a public servant, prior to becoming personally and substantially involved in the issuance and/or management of City debt obligations, must divest their ownership in such debt obligations, and for the duration of such involvement may not buy or hold such City debt obligations on behalf of the public servant or an associated person or firm. For purposes of Charter § 2604(b)(3), a public servant who is personally and substantially involved in the issuance and/or management of City debt obligations may not trade, or participate in trading, City debt obligations on behalf of, or for the account of, an associated person or firm.

The Landmarks Preservation Commission, at the Public Meeting of June 9, 2020, following the Public Hearing of the same date, voted to approve the proposed work, at the subject premises, as put forward in your application completed on May 14, 2020, and as you were notified in Status Update Letter 20-03954 (LPC 20-03954), issued on June 24,

The proposal, as approved, consists of constructing a new three-story building, featuring a brick clad front facade, with punched masonry openings, black painted aluminum-clad wood, one-over-one, doublehung windows, at the upper floors, and black painted wood and glass infill, at the ground floor, including an entrance, with a single door and surround, and an assembly of one fixed single window, flanked by two one-over-one windows and framed by paneled woodwork, as well as light gray stucco clad masonry rear and side facades, with windows and doors within punched masonry openings, at the rear facade, as shown in an undated digital presentation, titled "358 Malcolm X Boulevard, Brooklyn, NY, Owner: Department of Housing Preservation & Development, Proposed Three Story & Cellar 3-Family Dwelling," prepared by Gerald J. Caliendo Architects P.C., including twenty-one (21) slides, consisting of photographs, photomontages, drawings, and a rendering, all presented as components of the application, at the Public Hearing and Public Meeting.

In reviewing this proposal, the Commission noted that the Bedford Stuyvesant Historic District Designation Report describes 358 Malcolm X Boulevard as a vacant lot.

With regard to this proposal, the Commission found that constructing a new building, with a front facade aligning with its neighbors, will help restore the continuity of the streetwall, a unifying characteristic

of streetscapes within this historic district; that the proposed height and massing of the building will be in keeping with such aspects of buildings typically found along the avenues throughout the historic district and will be a harmonious transition between the immediate neighboring buildings, which feature different heights; that the front facade's compositional organization, number of floors, proportions, cladding materials, and window configurations will replicate aspects of flats buildings found throughout this streetscape and historic district, thereby helping the building harmonize with its context; that the relatively simple details of the front facade elements, as well as the use of cast stone for the sills and fiberglass for the cornices, will maintain a level of articulation which is compatible with the streetscape, while also subtly acknowledging the modernity of the building; that the placement, size and details of the ground floor woodwork will recall the organization and character of the piers and storefront infill found, at the base of the flats buildings within this streetscape, that the finishes the base of the flats buildings within this streetscape; that the finishes of the facade cladding, cornices, ground floor framing and infill will be in keeping with the range of finishes historically and currently found within this streetscape; that the use of simply designed stucco clad masonry for the side and rear facades and the solid to void ratio, at the rear facade will be consistent with the simple detailing and utilitarian character of secondary facades of neighboring flats buildings; that the rear and side facades will only be partially visible from public thoroughfares, primarily within the context of the neighboring modern one story building, and their simple design, stucco cladding and light finish will help them remain a harmonious and subordinate presence within these views; that the building will not extend further into the rear yard than the neighboring buildings or otherwise detract from the central greenscape; and that the proposed work will support the significant historic and architectural character of the steetscape and historic district. Based on these findings, the Commission determined the work to be appropriate, to the historic district and voted to approve it with the stipulation that the applicants work with the Commission staff to refine the details and finishes of the ground floor windows and cornice, as well as the final brick color choice and the masonry details, and to restudy the proportions of the rear façade windows.

The Commission authorized the issuance of a Commission Binding Report upon receipt, review and approval of digital signed and sealed Department of Building filing drawings showing the approved design and incorporating the required changes.

Subsequently, on July 10, 2020, October 12, 2020, October 23, 2020, October 27, 2020, and November 3, 2020, the Commission received a letter dated July 2, 2020 prepared by Gerald J. Caliendo Architects P.C.; emails prepared by Lakshmi Samlal; drawings labeled Z-001.00, A-001.00, A-002.00, A-003.00, A-004.00, A-005.00, A-006.00, A-007.00, A-008.00, A-009.00, and A-010.00, dated October 9, 2020; drawings labeled A-011.00, A-012.00, and A-013.00, dated June 24, 2020; drawings labeled Z-001.00, Z-002.00, A-001.00, A-002.00, A-003.01, A-004.01, A-005.01, A-006.01, A-007.01, A-008.00, A-009.00, A-010.00, A-011.00, EN-001.00, EN-002.00, and EN-003.00, dated March 11, 2019, and prepared by Gerald J. Caliendo, RA; a drawing labeled T-001.00, dated April 26, 2019; and drawings labeled SOE-100.00, SOE-101.00, FO-200.00, FO-201.00, S-001.00, S-002.00, S-003.00, and S-004.00, dated May 15, 2019, and prepared by Rizwan Abdus Salam, PE.

Accordingly, staff reviewed the materials and noted that they include modifications and refinements, to the design of the new building, including changing the color of the fiberglass cornice above the first floor from gray to black; incorporating details for trim and framing, at the first floor wood infill; adding gray toned cast stone curbing, at the base of the first floor; modifying the configuration, at the recessed entrance door so that the proportions better align with the remainder of the wood and glass infill, at the ground floor; changing the texture of the cast stone lintels and sills, at the front facade from rough to smooth; adding cast stone coping stones, at the parapets; incorporating a brick return, at the south (side) facade, extending approximately 1'-8" from the east (front) facade; lengthening the window openings and associated windows, at the rear facade; incorporating the installation of vents, a skylight, and a hatch, at the roof; and interior work, as well as written confirmation that the applicants will continue to work with the Commission staff on the brick color choice as well as the details of the prefabricated fiberglass cornices.

With regard, to these modifications, staff found that the proposed finishes will help create a unified color palette of the building, which is typical for the historic district, thereby helping them to be a harmonious presence within the historic streetscape; that the refinements, to the ground floor infill details will help the infill to maintain appropriate proportions and a level of articulation, and recall characteristics of historic storefronts which were typical of buildings of this size within this streetscape; that the cast stone lintels, sills, and coping will be simply designed and consistent with lintels, sills, and coping of buildings of this size throughout this historic district in terms of profiles and details; that the brickwork return will be in keeping with the typical treatment of side facades, adjacent to front facades, at buildings of this size, with equivalent materials palettes, within this historic district; that the window openings and windows, at the rear facade will be similar, to the openings and windows, at neighboring buildings in terms of their placement and size, thereby helping the

windows to be a harmonious presence; that the vents, skylight, and hatch will not be visible from any public thoroughfare; and that none of this work will detract from any significant architectural features of the streetscape or historic district. Additionally, staff found that the design approved by the Commission has been maintained and that the required changes have been incorporated. Based on these and the above findings, the drawings have been marked with an electronic approval, and Commission Binding Report 21-00325 is being issued.

To the Mayor, the Council, and the Commissioner, NYC Department of Design & Construction:

This report is issued, pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for the installation of fifty-six (56) Right of Way Infiltration Basins (ROWIB), at sidewalks, at multiple locations, including two (2) within the Bedford Historic District, at 232 Hancock Street and 272 Jefferson Avenue; nine (9) within the Bedford Stuyvesant/Expanded Stuyvesant Heights Historic District, at 70 Decatur Street, 537 Halsey Street, and 409, 426, 442, 456, 457, 459, and 463 Macon Street; four (4) within the Clinton Hill Historic District, at 304 Dekalb Avenue, 260 and 290 Washington Avenue, and 285 Waverly Avenue; three (3) within the Fort Greene Historic District, at 260 Cumberland Street and 166 and 171 Washington Park; nine (9) within the Stuyvesant Heights Historic District, at 243, 253, and 255 Decatur Street, 391 Lewis Avenue, 313 MacDonough Street, and 375, 381, and 387 Stuyvesant Avenue; and twenty-nine (29) within the Crown Heights North Historic District, Crown Heights North Historic District II, and Crown Heights North Historic District III, which are historic districts in which proposals for sidewalk work do not require a permit from the Landmarks  $Preservation\ Commission,\ pursuant\ to\ Section\ 2\text{-}19(a)(1)(iii);\ including$ the removal of portions of tinted and untinted concrete paving, and bluestone, granite, tinted concrete, and untinted concrete curbs; the installation of subsurface infiltration basins, which will be rectangular in plan and measure between 10' and 20' in length by between 4' and 6' in width, and will feature steel grates and cast iron cleanout tops installed flush with the sidewalk, and new bluestone-tinted, granitetinted, or untinted concrete paving and curbs to match the adjacent sidewalks, replacing stone curbs with steel-faced tinted concrete curbs, at select locations; as described in a letter dated October 30, 2020, prepared by AKRF Environmental, Planning, and Engineering Consultants; and in written specifications titled "Standard Designs and Guidelines for Green Infrastructure Practices," dated June 17, 2020, and prepared by City of New York Department of Environmental Protection; and as shown on drawings labeled I-3 through I-5, dated June 3, 2020, and prepared by Chi Hsun Kong, P.E.; and in a PDF presentation titled "Project ID: GNCB-14-2A, Construction of Right-of-Way Green Infrastructure in the CSO Tributary Area NCB-014," dated July 2020, and prepared by City of New York Department of Design and Construction, Division of Infrastructure, including 105 pages, consisting of existing condition photographs and drawings, all submitted as components of the application. Staff notes that the infiltration basins will be located within areas of concrete paving, and all shall otherwise conform to Department of Environmental Protection siting guidelines.

With regard, to the proposal, the Commission finds that certain aspects of the work are in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-19 for Sidewalks, including Section 2-19(c) for replacement of existing non-bluestone sidewalk. Furthermore, with regard, to these or other aspects of the work, the Commission finds that the concrete paving to be removed is not a significant feature of the historic districts; that the bluestone- or granite-tinted curbs will match the adjacent curbing in terms of color, dimension, and profile; that the grates and cast iron caps are consistent with typical utility equipment found, at sidewalks throughout these historic districts; and that the presence of green infrastructure will not detract from the special architectural and historic character of the Bedford, Bedford Stuyvesant/Expanded Stuyvesant Heights, Clinton Hill, Fort Greene, Stuyvesant Heights, Crown Heights North I, Crown Heights North II, and Crown Heights North III Historic Districts. Based on these findings, the work is approved.

To the Mayor, the Council, and the Director of Mobile Telecom Franchises & Special Projects,

This report is issued, pursuant to Sections 3020 and 854 (h) of the New York City Charter and Section 25-318 of the Administrative Code of the City of New York, which require a report from the Landmarks Preservation Commission for certain plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark.

The Landmarks Preservation Commission has reviewed a proposal for installing telecommunications poletop antennas and associated transmitter boxes mounted on existing light poles, the design and, attachment of which are in accordance with the guidelines established by the Public Design Commission. The work will occur, at light poles located within the Jackson Heights Historic District. The work consists of installing one (1) telecommunications poletop antenna and transmitter box, at an existing light pole, as well as installing conduit mounted, to the metal shaft of the light pole, all finished white to match the existing light pole; and excavating concrete paving where the concrete will be replaced to match the pre-existing tint and scoring, as described and shown in existing conditions photographs, locator map, poletop manager print out, manhole cover diagram, and a letter, dated November 16, 2020, prepared by Judith Garcia of NYC DoITT, and submitted as components of the application.

In reviewing this proposal, the Commission notes that multiple telecommunications poletop antenna and transmitter box are proposed to be mounted on light poles throughout New York City's historic districts; that the Department of Information Technology and Telecommunications applications for such work have been divided into multiple phases, of which the current proposal consists of one (1) of such installations

The Commission also notes that the current application excludes any proposal for work with the African Burial Ground and The Commons Historic District, which must be reviewed and approved separately by the Landmarks Preservation Commission's Director of Archaeology. The Commission further notes that the Art Commission issued Certificate of Final Approval 22232 on September 14, 2005, approving the design of telecommunications poletop antennas and transmitter boxes, with associated conditions. The Approved poletop identification number within the Jackson Heights Historic District is: 22285.

With regard to this proposal, the Commission finds that the small size, neutral finish, simple design, and mounting height of the proposed poletop antenna and transmitter box will help them to be discreet installations, at the upper portions of the light poles; that the installations will not call, attention, to themselves and will not detract from the streetscape; that the conduit run will be the thinnest possible diameter and will be finished to blend with the light pole shaft, so as not to call undue, attention to itself; and that any concrete paving to be excavated will be replaced with new concrete paving to match the tint and scoring of the adjacent concrete paving. Based on these findings, the proposed work is determined to be appropriate to this historic district. Therefore, the work is approved.

Please provide one or more 8 by 10 inch black and white photographs of the completed work, to the Public Design Commission of the City of New York, for its records.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice, to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

### ADVISORY REPORT

ISSUE DATE: 11/12/20 EXPIRATION DATE: 11/12/2026	DOCKET #: LPC-20-10298	<b>SRA #:</b> SRA-20-10298

NYC Streetlight Poles Historic Street Lampposts, Individual Landmark

To the Mayor, the Council, and the Commissioner of the NYC Department of Parks & Recreation,

This report is issued, pursuant to Section 25-318 of the Administrative Code of the City of New York, which requires a report from the Landmarks Preservation Commission for plans for the construction, reconstruction, alteration, or demolition of any improvement or proposed improvement which is owned by the City or is to be constructed upon property owned by the City and is or is to be located on a landmark site or in a historic district or which contains an interior landmark

The Landmarks Preservation Commission has reviewed a proposal to restore and relocate one (1) historic cast iron street lamppost (013), within Elizabeth H. Berger Plaza, including temporarily disassembling and reassembling the lamppost in conjunction with cleaning the metalwork, utilizing a wet-blasting method, and repainting it black; adding fasteners and interior structural elements and replacing deteriorated historic cast iron components in-kind, as needed; and relocating the lamppost from the existing traffic island, which is currently being reconfigured and combined with another traffic island into a plaza, to a new location, within the plaza, with the lamppost

installed, at asphalt block paving near the corner of Greenwich and Edgar Streets, as described and shown in emails dated May 8, 2020, June 3, 2020, August 26, 2020, and September 29, 2020 prepared by Sybil Young; a drawing, illustrating restoration work, dated August 20, 2020, and prepared by Allen Architectural Metals Inc.; an undated lighting plan drawing; a drawing labeled L202.00, and dated December 22, 2017; and a fourteen page presentation, titled "ELIZABETH H. BERGER PLAZA, Historic Lamppost Relocation," prepared by the NYC Department of Parks & Recreation, all submitted as components of the application. The lamppost has already been dismantled and temporarily relocated.

In reviewing this proposal, the Commission notes that the Historic Street Lampposts Designation Report describes Lamppost 013 as a Mast Arm 24M (type-M) type lamppost located, at the west side of Trinity Place on the traffic island, bounded by Greenwich Street and Trinity Place, Borough of Manhattan; and that the landmark site includes the property on which the described lamppost is situated. The Commission also notes that the lamppost was situated, at one of two traffic islands which are being combined into one plaza.

With regard, to the proposal, the Commission finds that certain aspects of the work are in accordance with the provisions set forth in Title 63 of the Rules of the City of New York, Section 2-11 for Repair, Restoration, Replacement, and Re-creation of Building Facades and Related Exterior Elements, including Section 2-11(d)(1)(iv)(A) for replacement of cast iron, Section 2-11(c)(1) for cleaning or removal of paint and coatings, and Section 2-11(c)(2)(i) for painting facades and features that were originally or historically painted. Furthermore, with regard, to these or other aspects of the work, the Commission finds that the work will not damage or eliminate any significant architectural features; that the lamppost will be relocated from a location, which will no longer be adjacent to a roadway, and reinstalled in a location, which is nearby and on the same lot, as well as adjacent to a roadway, thereby helping to maintain the lamppost in a similar context; and that the proposed work will not detract from the significant historic and architectural features of the individual landmark.

This report is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice, to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. This report constitutes the permit; a copy must be prominently displayed, at the site while work is in progress. **Zoning for Coastal Flood Resiliency** 

The New York City Department of City Planning (DCP), is proposing a zoning text amendment, Zoning for Coastal Flood Resiliency (ZCFR), to update the Special Regulations Applying in Flood Hazard Areas (Article VI, Chapter 4). ZCFR would improve upon and make permanent the relevant provisions of the current temporary zoning rules, and provide homeowners, business owners, and practitioners who live and work in the City's floodplain the option to design or otherwise retrofit buildings to: (a) reduce damage from future coastal flood events, (b) be resilient in the long-term by accounting for climate change, and (c) potentially save on long-term flood insurance costs. In addition, it would allow resiliency improvements to be more easily incorporated on waterfront sites at the water's edge and in public spaces, as well as provide zoning regulations to help facilitate the City's long-term recovery from the COVID-19 pandemic and other future disasters. ZCFR would mostly affect New York City's current one percent annual and 0.2 percent annual chance floodplains. However, select provisions would be applicable Citywide (affecting all five boroughs and the City's 59 community districts. ZCFR also includes updates to other sections of the New York City Zoning Resolution (ZR), including the Special Regulations Applying in the Waterfront Area (Article VI, Chapter 2) and provisions within various Special Purpose Districts.

This hearing will be recorded for public transparency and made available on Borough President Adams' YouTube channel, One Brooklyn.
