

**Local Law 37 of 2005 as amended by Local Law 56 of 2021  
Changes to Pesticides Listed as Carcinogens or Developmental Toxicants since May 24, 2021**

Prepared by the NYC Department of Health and Mental Hygiene,  
Bureau of Environmental Surveillance and Policy

**October 16, 2023**

The New York City Health Department (Department) submits this report pursuant to Local Law 37 of 2005, as amended by Local Law 56 of 2021, which, among other mandates, requires the Department to report annually on changes since May 24, 2021, previously April 1, 2005, to certain lists of pesticides; and on agency use of pesticides subject to these changes.

1. U.S. Environmental Protection Agency (EPA) List of Carcinogenic Pesticides

**Table 1** contains chemicals that were added by the EPA Office of Pesticide Programs to the list of chemicals having carcinogenic potential since October 27, 2021, and the quantities of pesticide products containing each of those chemicals used by city agencies in 2022.

**Table 1: Chemicals added to U.S. EPA list of carcinogenic pesticides**

| <b>Chemical name</b> | <b>EPA cancer classification</b>    | <b>Report Date</b> | <b>Number of EPA-registered products containing chemical</b> | <b>Total quantity used by NYC agencies in 2022</b> |
|----------------------|-------------------------------------|--------------------|--|--|
| Pyraclonil           | Likely To Be Carcinogenic To Humans | 10/25/2021         | 0  | None   |

(Sources: *Chemicals Evaluated for Carcinogenic Potential*, Office of Pesticide Programs, U.S. EPA, 2022; EPA Pesticide Product Information System; NYC LL37 Agency Reporting Data)

No chemicals were removed from the EPA List of Carcinogenic Pesticides since the date of the Department’s 2022 annual report.

2. California Developmental Toxicant List

No chemicals were added to or removed from the California Developmental Toxicant List since the date of the Department’s 2022 annual report.

3. World Health Organization International Agency for Research on Cancer (IARC) Carcinogen List

No chemicals were added to or removed from the IARC List since the date of the Department’s 2022 annual report.
