No. 1251.

Whereas, A nefarious attempt has been made to assassinate the President of the United States; and

Whereas, The crime has shocked the people of the civilized world and excited profound sympathy for the distinguished sufferer and widespread indignation against anarchists and anarchism; and

Whereas, The blow that was struck at the President of the United States was aimed not at an individual but against the occupant of an office that is the highest and most honorable in the gift of the American people; and

Whereas, The people of the United States, without any political distinctions, regard their President as the embodiment of those constitutional principles which have safeguarded the rights of all the people of this land and made the nation strong in all the results that flow from civilization and progress; and

Whereas, The people of The City of New York have been second to none in their devotion to the Presidents of the United States; and

Whereas, They are aware that law, order and good government are necessary for the advancement and welfare of this and every other civilized nation upon the earth; and

Whereas, They recognize the fact that anarchism, with brutal and meaningless purpose, aims only at the destruction of the existing social order; and

Whereas, All the people of New York City unite in detestation of the crime by which the life of the President of the United States has been threatened; now therefore be it

Total estimated amount required for 1902.....

EXPLANATORY.

It is essential that provision be made for the additional lighting in 1902. Many urgent requests have been made during the present year by property-owners in Williamsbridge, Wakefield and Woodlawn Heights for gas-mains and gas lamps in various streets in the above-named sections of the Borough of The Bronx, which requests could not be complied with because no allowance was made by the Board of Estimate and Apportionment for additional lighting in the Budget for the year 1901. Under the existing condition of affairs the houses on streets which do not contain gas-mains have to be lighted by oil lamps, which, it is well known, are inconvenient and somewhat dangerous, and no doubt property-owners are deterred from the erection of houses unless they can be assured that gas-mains and gas lamps will be provided for their streets.

The parks and bridges mentioned for additional lighting will no doubt be completed during the present year, and will positively have to be lighted during the year 1902. And the Rapid Transit Subway Railroad on Broadway north of Fifty-ninth street will be so far completed that

the lamps which have been removed on account of said work will have to be replaced and relighted, and the electric lamps on the Harlem River Speedway, which were extinguished on account of inadequate appropriation, should be relighted.

Owing to the increased cost per lamp (electric) in 1901 over the price of 1900, it became necessary during the present year to extinguish 436 gas and electric lamps throughout the borough in order to keep the cost of lighting within the appropriation; therefore, in order to replace in 1902 the lamps so extinguished in 1901, the following additional amount will be required..... \$3,101 65

EXPLANATORY.

The Departmental Estimate for lighting in the Borough of Queens for the year 1901 was \$374,944.21. This amount would have been sufficient to continue the lamps in service and left an ample balance for the erection and maintenance of new lamps in the borough. The Board of Estimate and Apportionment, in their judgment, did not allow the amount specified, but apportioned the same amount as for the year 1900, viz.: \$355,000. Even this amount would have been insufficient to continue the lamps in service had the prices remained the same as during the year 1900.

At the awarding of contracts for lighting for the year 1901, the price for arc lamps in the First Ward was increased from 35 1/2 cents per lamp per night to 38 cents per night, and in the Second, Third and Fourth Wards from 30 1/2 cents to 31 cents per lamp per night, and additional lighting of public buildings greatly increased the estimate for lighting buildings, bringing the total amount for public lighting for the year 1901 to the sum of \$369,614.60 or \$14,614.60 in excess of the appropriation.

In order to meet this emergency the Department found it necessary to discontinue 436 lamps in the several wards of the borough, as follows:

- 300 gas and naphtha lamps in the former Town of Newtown.
- 105 gas and naphtha lamps in Dunton Lighting District, Jamaica.
- 3 arc lamps in the former Village of Jamaica.
- 4 arc lamps in the former Town of Jamaica.
- 18 arc lamps in the Woodhaven Lighting District.
- 6 arc lamps in the Fifth Ward (Rockaway).

Under a clause in the contract between The City of New York and the New York and Queens Electric Light and Power Company, viz.: "The company will at the option of the City substitute for said 2,000 candle-power lamps 425 Watt inclosed arc lamps at 31 cents per lamp per night."

This substitution was ordered to take effect June 1, and a saving of \$6,546 was made without a perceptible change in the service.

The Department by the above method was enabled to meet the appropriation, but had to face a storm of protest from indignant tax-payers effected by the discontinuance of lamps.

Additions to the lighting service had practically stopped during the year; the small balance available has been reserved to maintain summer lights for three months at the numerous summer resorts in the borough.

A large number of petitions for new lamps have been filed with this Department. The opening of new streets and the unprecedented erection of buildings in the same necessitates an adequate appropriation for additional lamps.

The above statement showing the number and cost of lamps in service July 1, 1901, the amount required to replace the lamps discontinued on account of the inadequate appropriation and the number and cost of additional lamps required, will show an increase over the amount appropriated for the year 1901 of \$21,689.13, which is deemed absolutely necessary to properly light the Borough of Queens for the ensuing year.

Apparatus—Increase, \$9,000 : Due to the necessity of equipping the new company at One Hundred and Eighty-third street and Jerome avenue, the building for which will be completed before the end of the current year. It will also be necessary to replace worn-out apparatus, and to do considerable repair work during the coming year.	
Buildings—Repairs—No increase.	
Contingencies—No increase.	
Fuel—Increase, \$2,000 : This additional amount will be required during the ensuing year to supply the new companies to be organized.	
Gas and Electric Lighting—No increase.	
General Supplies—No increase.	
Horses—Increase, \$3,000 : Owing to the increase in price, and to the fact that many of the horses in service are becoming aged and will have to be replaced during the next year, the larger sum asked will be needed.	
Forage—Increase, \$2,000 : In consequence of an advance in the price of grain, and to provide for the increased number of horses that will be in service in 1902, this increase is considered necessary.	
Horse-shoeing—Increase, \$1,000 : To provide for shoeing the additional horses that will be in use in the Department next year.	
Harness—Increase, \$500 : This moderate advance over the allowance for the current year is considered advisable for 1902.	
Hose—Increase, \$25,000 : To replace hose that has been several years in service, and to procure the additional quantity required for new companies, this increase is necessary. It is indispensable that the Department be provided with sufficient funds to meet all emergencies in this regard.	
Machine and Paint Shop Supplies—Increase, \$2,000 : To make provision for the larger number of apparatus requiring attention, it is believed the allowance for the coming year should be increased to this extent.	
Rents—No increase.	
Telegraph Supplies and Repairs—Increase, \$7,250, as follows : Telephone rent, \$500, due to increase in number of telephone connections. Materials, \$2,000, to extend the telegraph system in the outlying districts of the Borough of The Bronx. Repairs, \$500, to make repairs to the system which should not be longer deferred. Keyless doors, \$1,500, for the purchase of additional keyless doors for new fire-alarm stations, replacing lock doors, etc. New boxes, \$500, a moderate advance on the allowance for this year (\$5,000) to purchase fire alarm signal-boxes, to replace boxes long in the service and which are not worth repairing. Rebuilding Telephone System, \$2,500 (no allowance this year), to initiate the work of providing modern means of transmitting information between the Central Office at these Headquarters and the various apparatus company houses.	
Maintenance and Repairs to Fire-boats—Increase, \$1,000 : It is considered prudent to ask for this small advance over the allowance for this purpose for 1901.	
For one new Fire-boat.....	\$75,000 00
This boat is required to take the place of the "William F. Havemeyer," a wooden boat constructed more than a quarter of a century since. The United States Local Inspectors refused a renewal of license unless extensive repairs were made, and as these would involve the outlay of a large sum of money with no corresponding permanent good result, the "Havemeyer" was placed out of service on July 25 of this year. A new fire-boat is absolutely necessary to afford adequate protection against fire to the merchandise stored along our water-front, worth vast sums, as well as for the proper safeguarding of the shipping in the harbor.	
Aggregate.....	\$2,898,554 50

The foregoing estimate, amounting to two million eight hundred and ninety-eight thousand five hundred and fifty-four dollars and fifty cents (\$2,898,554.50), is adopted as the sum of money which will be required for the expense necessary to the administration of the Fire Department of The City of New York, boroughs of Manhattan and The Bronx, for the year 1902.

Guishard, William Egbert, and Matthew Dunnigan are explained as follows: These men are performing duty as Calkers, Carpenters, Painters and Tinsmiths, respectively, and application has been made to the Municipal Civil Service Commission (under date of July 16, 1901) to have the said individuals examined for change of title. Owing to the closing of the trade schools no examination can be held until October of the current year, and assuming that the aforesaid employees will successfully pass said examination the increase is asked for in order that the prevailing rate of wages may be paid during the year 1902.

The increase in telegraph account is explained as follows: The number of connections, signal-boxes, etc., on the elevated railroad structure have been increased by reason of the extension of the alarm system during the current year, and the increase will be required to meet the expense for rentals during 1902. The new signal-boxes are necessary in the rapidly growing suburban sections of the Borough of Brooklyn, and to place additional boxes in Long Island City (Borough of Queens). The new electrical apparatus is required for new companies to be organized. The increase in the number of buildings in the suburban sections necessitates the extension of the telegraph system for which the increase for new wire is asked. The cables, terminals, etc., are necessary for the placing of the department wires under ground, where conduits are available.

In the matter of increases asked for apparatus, fuel, lighting, general supplies, horses, forage, shoeing, harness and hose, the amounts are necessary for the equipment and maintenance of new companies for which appropriations for sites and buildings have been made.

An additional fire-boat is very necessary for the proper protection of property along the water-front, and this appropriation is urgently requested.

The Village of Far Rockaway was allowed \$1,500 during the year 1901 by the Board of Estimate and Apportionment for the extension of the fire-alarm system, this being the only allowance made for this purpose under the provisions of chapter 82, Laws of 1900.

Since the enactment of chapter 82, Laws of 1900, the operation of the fire-alarm systems in the volunteer firemen's territory of the Borough of Queens has been very unsatisfactory and at times extremely hazardous.

Prior to the passage of that law the volunteer fire departments in said borough received for their maintenance such amounts as were authorized by the Charter of the City. This was discontinued by the Law of 1900, and in lieu thereof a specific sum has been paid annually to the treasurer of each volunteer fire company; that is to say, for an engine company, \$1,200; hook and ladder company, \$1,000; hose company, \$800. Those amounts represent an aggregate annual increase from \$21,636 to \$62,800, notwithstanding which many of the companies have failed or refused to defray any portion of the expense of maintaining the fire alarm telegraph, and the Paid Department, without any available provision therefor, has been compelled, so far as it could, to keep the lines in working order. This is a condition much too hazardous to be continued. Our resources are insufficient for the purpose. To remedy this it is proposed to establish a sub-central station in the Village of Jamaica, install telegraph systems in the villages now dependent on bell-towers only, extend and improve the present systems, and to connect all with the sub-station at Jamaica, and thence by telephone to the Headquarters in Borough of Brooklyn.

The location of a sub-station as suggested, the installation of new systems and the improvement and extension of the old lines will give only needed protection. The entire plant to be under control and direction of the Fire Commissioner, as provided in section 729 of the Greater New York Charter.

To the Honorable the Mayor, the Comptroller and the Municipal Assembly of The City of New York:

The petition of the Harlem Library respectfully shows:

That it is a library association, duly incorporated under the Laws of 1798, its charter having been amended by chapter 217 of the Laws of 1871.

The library owns real estate in the County of New York, in the Borough of Manhattan, being the real estate occupied by it at No. 32 West One Hundred and Twenty-third street, in said borough. It owns over 20,000 volumes of books, and maintains its association as a free library for the free circulation of books among the inhabitants of The City of New York, until such time as the plan of consolidation is perfected, the trustees having passed the initial resolutions to effect the transfer.

It has actually circulated in the twelve months ending June 30, 1901, more than 136,000 volumes, to be read by the people at their homes, and no charge was made in any case for such circulation.

The library is subject to the inspection of the University of the State of New York, and registered by it as maintaining the proper standing, and the Regents have issued "certificate of approved circulation," which is hereto annexed, showing that the circulation of books, upon which your Honorable Board is entitled to appropriate money under the statute, for the year ending June 30, 1901, is 136,000 volumes, for the maximum appropriation which may be made under the statute amounts to \$13,600 and that the Board of Estimate and Apportionment is allowed by law to make this application of money in this city to this library.

The corporation is in great need of funds to properly carry on the present work, and also to meet the imperative demands for the extension of reading facilities to the people of the city. This library is one of the oldest in the city. It was for the first time made free in 1897, and its circulation since that time has phenomenally increased. For the first year after such increase it was much hampered in its work for the reason that it received no funds, as formerly, from the borrowing readers.

In the fall of 1899 an appropriation was made for this library of \$7,200, but the sum appropriated for the preceding year having been only \$2,400, the library has been seriously handicapped in its work. Still, the larger appropriation which has been paid to it in installments during the current year has greatly influenced the usefulness of the library; the circulation of books has been remarkably increased during the past year, it having been in some months the largest the library has ever known.

The class of books purchased by the library is of the highest quality, and these books are much used by the readers.

The amount of the appropriation asked for, and which the law authorizes your Board to make, which, under the certified circulation is \$13,600, is not more than enough to meet current expenses and to provide for the continual demands upon the library.

Annexed hereto is a statement of the library account for the year ending May 31, 1901, as required by the Comptroller.

Wherefore, your petitioner prays that your Honorable Board may make to this corporation the full allotment which, under the law, it is authorized and empowered to make.

THE HARLEM LIBRARY,

By D. PHENIX INGRAHAM, President.

County of New York, ss.:

D. Phenix Ingraham, of said County, being duly sworn, says that he is the President of the Harlem Library, and that the foregoing petition, subscribed by the aforesaid corporation, is true to the best of his knowledge, information and belief.

D. PHENIX INGRAHAM.

Sworn to before me this 3d day of September, 1901.

JOHN F. FLANAGAN, Notary Public, New York County.

517 surgical cases.....	7,500 days

Total 669 cases..... 8,500 days

—and for whose treatment The City of New York paid to the Long Island College Hospital the sum of \$6,509.54.

Dividing the above year into two periods of six months each, we find a considerable increase in the amount of work done during the latter half year:

Half year ending December 31, 1900, 290 cases, 3,521 days; half year ending June 30, 1901, 379 cases, 4,979 days.

In view of the above statement, it is respectfully requested that your Honorable Board include in your statement and estimate the sum of \$8,000, to be paid to the Long Island College Hospital, as provided by section 230 of the Greater New York Charter.

HENRY W. MAXWELL, President, Long Island College Hospital.

BOROUGH OF BROOKLYN, CITY OF NEW YORK, August 30, 1901.

To the Honorable Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—In compliance with the request of the Honorable Comptroller of The City of New York, dated July, 1901, the Maternity of the Long Island College Hospital respectfully submits the following:

The Maternity of the Long Island College Hospital is a department of the Long Island College Hospital existing under the same corporate name and management, and conducted as a lying-in hospital and as such receives for treatment such persons of the poor of Kings County as require the care for which it is designed.

During the year ending June 30, 1901, there have been received in said Maternity thirty-nine (39) cases which have been accepted by the Commissioner of Charities of Kings County as proper charges against said county.

For the care and treatment of these cases The City of New York has paid to the Long Island College Hospital the sum of \$18 per case, which, together with overtime for mothers and children, aggregates a total payment by the City of \$789.84.

The above is not a statement of the charity work done by the Maternity, but only of emergency cases admitted and accepted by the Commissioner of Charities.

We do therefore most respectfully request that your Honorable Board include in your statement and estimate the sum of \$1,200 to be paid to the Long Island College Hospital, as provided by section 230 of the Greater New York Charter.

Respectfully submitted,

HENRY W. MAXWELL, President, Long Island College Hospital.

GENTLEMEN—The Mount Sinai Hospital respectfully makes the following statement to your Honorable Board:

That the Mount Sinai Hospital is a corporation duly organized under the laws of the State of New York, and maintains in The City of New York the Mount Sinai Hospital, and that by chapter 719 of the Laws of 1897, entitled "An Act to amend chapter 410 of the Laws of 1892, entitled 'An Act to consolidate into one act, and to declare special and local laws affecting public interests in The City of New York,' and the acts amendatory thereof in relation to Mount Sinai Hospital," and chapter 196 of the Laws of 1899, the said Mount Sinai Hospital is entitled to receive an allotment for part of the cost of board, nursing, medical and surgical treatment and attendance, sixty cents per diem for each medical case, and eighty cents per diem for each surgical case, for each needy and charity patient who occupied a bed in the Mount Sinai Hospital, and who receives such care, support and maintenance.

That for the year ending August 31, 1901, the said Mount Sinai Hospital has given 64,195 days of free hospital treatment; that upon such basis the number of days of free hospital treatment for the year ending December 31, 1902, would be 65,000, more or less, and that under the provisions of said acts the said Mount Sinai Hospital will be entitled to receive, at an average of seventy cents per diem, an allotment of your Honorable Board of the sum of \$35,000 or more; that the number of days of free hospital treatment as herein stated is made up from the accounts which are kept in the said Mount Sinai Hospital.

Respectfully,

City and County of New York:

Sworn to before me this 3d day of September, 1901.

[SEAL.]

JAMES J. McLARNEY, Notary Public, No. 35, N. Y. City.

SHERIFF'S OFFICE—COUNTY OF NEW YORK,
STEWART BUILDING, No. 280 BROADWAY,
NEW YORK, September 3, 1901.

P. J. SCULLY, Esq., City Clerk:

SIR—Pursuant to the requirements of section 226, chapter 378, Laws of 1897, I transmit herewith to the Municipal Assembly a duplicate of my estimate for conducting the business of the Sheriff's office and of the County Jail for the year 1902.

Respectfully,
WM. F. GRELL, Sheriff.

SHERIFF OF NEW YORK COUNTY,
SHERIFF'S OFFICE, NEW YORK CITY,
September 3, 1901.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—I submit the following estimate of the amounts required to conduct the business of the Sheriff's office and of the County Jail for the year 1902.

Statements are herewith presented:

Of the salaries of each of the officers and Clerks in the Sheriff's office and of the Prison Guards and Van Drivers;

Of the officers and employees of the County Jail;

Of the appropriations required for the expense of conducting the public business and for the support of the prisoners in the County Jail;

Of the amounts allowed for 1901 and the amounts required for 1902.

The whole amount allowed for 1901 was..... \$130,982 00

The whole amount required for 1902 is..... 129,462 00

Decrease..... \$1,520 00

By the provisions of chapter 378, Laws of 1896, the Sheriff has heretofore been allowed :
For furniture and supplies for Special Commissioner of Jurors..... \$1,200 00
For salaries of Jury Notice Servers 500 00

Total..... \$1,700 00

—which amount is no longer required, as the said act is repealed by chapter 601, Laws of 1901.

To make the salaries of the three Cleaners in the County Jail uniform—as is the work—I have added \$180 to that of the third, and believe the propriety of this very slight increase will be recognized by your Honorable Board.

It is at this time impossible to state the “amount which may probably remain unexpended of any appropriations for 1901 at the end of the year,” excepting about \$1,100 for account of Special Commissioner of Jurors.

WM. F. GRELL, Sheriff.

Yours respectfully,
JOHN W. KELLER, President.

DEPARTMENT OF PUBLIC CHARITIES,
BOROUGH OF MANHATTAN AND THE BRONX,
COMMISSIONER'S OFFICE, FOOT OF EAST TWENTY-SIXTH STREET,
NEW YORK, September 3, 1901.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—In submitting the estimate for expenses for the Department of Public Charities for the year 1902 I would respectfully call your attention to some of the more important needs of the Department for the boroughs of Manhattan and The Bronx. The increase in the estimate for supplies is due to the general lack of clothing throughout the various institutions. Not only is the wearing apparel for patients and inmates inadequate but there is a lack of bed-clothing that can be supplied only by an increased appropriation. The appropriation for “Supplies” for 1901 was far short of furnishing the actual necessities. In order to meet the emergency I was compelled to cut the customary requisitions and shall have to ask for a transfer of an unexpended balance from the appropriation for “Alterations, Additions and Repairs” to that of “Supplies” at the end of the year. This unexpended balance from the appropriation for “Alterations, Additions and Repairs” is due to the fact that I foresaw the shortage in the supply appropriation and refrained from spending the whole of the former appropriation so that by a transfer the patients and inmates would not have to go hungry or cold. By such a transfer the wards of the City will not suffer this year, but they will suffer next year unless there is an increased appropriation for “Supplies.” In this connection I would call your attention to the fact that a part of the increase in the estimate for “Supplies,” \$3,856.08, is for the furnishing of Pavilion F, on Randall's Island, and the buildings now occupied by the insane on Blackwell's Island, but which will revert to the Department of Public Charities this year.

These buildings are three in number, and have a capacity of nearly five hundred beds. It is my purpose to segregate the phthisis patients in two of these buildings, and to alter the other into a home for Nurses. By this means the consumptives can be taken out of the general medical wards of the various hospitals, and the Nurses of the Almshouse can have accommodation away from their patients for eating and sleeping. The total for these repairs is \$16,500, and it should be expended as soon as possible in the new year. The Manhattan State Hospital has already exceeded its legal occupancy of these buildings. The contract between the State and the City for the Blackwell's Island property expired in March last, but the Manhattan State Hospital obtained permission to continue its stay there until July 1, 1901. Since that time it has continued in possession without contract or permission. The other items of the estimates for “Additions, Alterations and Repairs” are imperative. The steamer “Thomas S. Brennan” must have a new suit of metal and repairs to her hull and joiner work, or else the main-stay of transportation to and from the Islands will be disabled. There should be a new steam-heating apparatus in the City Hospital. The present system does not heat the wards in cold weather. There must also be new plumbing on the male side. The present plumbing is unsanitary. At the Almshouse there must be new tin roofs and metal ceilings. On Randall's Island the roads must be mended or else they will be impassable next winter. The men's dormitory needs repairs to make it habitable and new roofs are needed for Dormitory 2 and the main kitchen. A new ice-house is needed to replace the old one that is not only ramshackle, but destructive of the ice in a comparative degree. The Fordham Hospital must be painted inside and out, and so must the Morgue and the pier shed at the foot of East Twenty-sixth street.

The increase in the “Salary” estimate is due to the restoration of paid help instead of prison labor in the Department bakery on Blackwell's Island, to better wages in Bellevue Hospital and to pay additional help necessary to conduct hospital service in the Blackwell's Island buildings now occupied by the Manhattan State Hospital.

Increases are asked for the “Poor Adult Blind,” “Clothing for Insane Patients,” “Clothing for Epileptics sent to Craig Colony,” “Donation to Grand Army of Republic Veterans,” and “Headstones and Burial of Veterans,” because the 1901 appropriation for each of these was insufficient. I have also asked for an increase of \$6,000 in the appropriation for “New Ambulances, Harness and Repairs,” so that two automobile ambulances may be purchased for Bellevue Hospital. The experience with the excessive heat this summer proves beyond question that the ambulance service of the public hospitals should not be wholly dependent upon horses.

Of new buildings there is great need of an annex, with water-tower, to the Nurses' Home at the City Hospital. This home furnishes Nurses not only to the City Hospital but to Harlem, Fordham and Gouverneur as well. It is already overcrowded, and the demands on it are constantly increasing. I would also ask for two new bathing pavilions at the Almshouse—one for the male inmates and one for the female inmates. The present accommodations for bathing at the Almshouse are old, out of date and inadequate. New baths are necessary for the cleanliness and the health of the inmates. A new hospital building for Harlem is already in progress under a special law authorizing its construction, and therefore the cost of such a building is not to be included in this estimate.

Concerning Bellevue Hospital, I would say that, in my opinion, the whole ground now occupied by Bellevue Hospital should be cleared of the buildings thereon, and in their stead an entirely new hospital building should be erected—a building up to date in every particular, and capable of accommodating the twenty-five thousand patients that are cared for annually in Bellevue. The trouble with Bellevue is not that there are not beds enough in the present Bellevue buildings but that the buildings are so old, so ill-arranged for hospital service and so heterogeneous in character that the best results cannot be obtained under existing conditions. If a new hospital building were constructed on three sides of the present Bellevue quadrangle leaving the river side open and making a park of the interior, the sick poor of the City would fare better and New York would have in its main hospital an institution of which it might well be proud. Such a building would cost not less than two million dollars. This statement with regard to Bellevue is made as a suggestion rather than as an estimate because Bellevue will pass into a new form of government on February 1, 1902, a board of seven unpaid trustees who will have the right under the revised Charter to ask the new Board of Estimate and Apportionment for whatever they may think necessary for the conduct of Bellevue and its dependencies. It is my desire to help the new government of Bellevue. I know no better way to do this than to leave the field as clear as possible for its action. At the same time my own estimate, as submitted herewith, is ample to provide for Bellevue pending organization under the new order of things as provided for by the revised Charter.

Respectfully yours,
JOHN W. KELLER.

Departmental Estimate for the Surrogate's Office of the County of Queens for the Year 1902.

NAMES OF PERSONS EMPLOYED IN THE SURROGATE'S OFFICE OF THE COUNTY OF QUEENS.	OFFICIAL DESIGNATION.	SALARIES PAID PER ANNUM, ACCORDING TO LAST PAY-ROLL OF OFFICE.	SALARIES PROPOSED TO BE PAID DURING THE YEAR 1902.
Daniel Noble.	Surrogate.	\$5,000 00	\$5,000 00
George L. Glaser.	Clerk of the Surrogate's Court.	3,000 00	3,000 00
William F. Hendrickson.	Clerk and Stenographer.	1,800 00	2,000 00

Joseph Fiesel.	Court Attendant and Messenger.	1,000 00	1,200 00
To be appointed.	Assistant Clerk.	\$1,500 00

Allowance for traveling expenses of messenger, \$100.

Reasons for Proposed Increase or Decrease.

a None asked for.
b None asked for.
c Mr. Hendrickson acts as both Chief Clerk of office and as Court Stenographer; his duties have increased largely, and are very arduous.
d The work of the Copyists is constantly increasing; they also have to assist the Attendant getting out papers, making searches, etc., and their increased efficiency, I believe, merits an increase of salary.
e None asked for.

f Increased efficiency and increase of duties.
g The last Legislature abolished the office of Transfer Tax Clerk; work in that department must, under the law, be done by the Surrogate, and as the present force is inadequate to do that work, and the regular work is constantly increasing, another clerk is needed.

Amount Required for Printing and General Supplies.
Record books, stationery, blanks, etc., have been ordered from the CITY RECORD, and probable cost is not known.
Printed court reports, law books, etc., \$300.

DANIEL NOBLE, Surrogate.
To the Board of Estimate and Apportionment of The City of New York:
GENTLEMEN—In accordance with a request from the Comptroller, under date of July 3, 1901, I would say that the salaries paid all officers, clerks and subordinates employed, according to the last pay-roll of the County Court and Surrogate's Court of Richmond County, were as follows:

Stephen D. Stephens, County Judge and Surrogate, at the rate of \$5,000 per annum.
Thomas Kenny, Jr., Stenographer of the County Court and Surrogate's Court, at the rate of \$1,700 per annum.
William Finley, Clerk of the Surrogate's Court, at the rate of \$2,000 per annum.
C. Livingston Bostwick, Clerk in the Surrogate's office, at the rate of \$1,500 per annum.
Joseph E. Mullins, Clerk in the Surrogate's office, at the rate of \$1,200 per annum.
John Rooney, Court Crier and Attendant of the County Court, Surrogate's Court and Supreme Court, at the rate of \$1,200 per annum.
For contingencies I was allowed \$500 for the year 1901.

I would respectfully ask an appropriation by your Honorable Board to pay the expenses of conducting the public business of the County Court and Surrogate's Court of the County of Richmond for the ensuing year of 1902 as follows:

Stephen D. Stephens, County Judge and Surrogate (fixed by law).	\$5,000 00
Thomas Kenny, Jr., Stenographer.	2,500 00
William Finley, Clerk of the Surrogate's Court.	3,000 00
C. Livingston Bostwick, Clerk in the Surrogate's office.	1,500 00
Joseph E. Mullins, Clerk in the Surrogate's office.	1,200 00
John Rooney, Court Crier and Attendant.	1,200 00
For contingent expenses.	500 00

The reasons I ask for the above increase in the amount of salaries are the same that I have urged upon your Honorable Board for the last three years, and I submit they should be allowed, not as a matter of favor, but of simple justice and right.

There will remain a small unexpended balance of the appropriation for contingencies for my department for 1901 at the end of the year, but I am unable to state the probable amount.

Respectfully submitted,
STEPHEN D. STEPHENS,
County Judge and Surrogate of Richmond County.

NEW YORK INFANT ASYLUM,
BUSINESS DEPARTMENT, AMSTERDAM AVENUE AND SIXTY-FIRST STREET,
NEW YORK, September 3, 1901.

To the Honorable the Municipal Assembly of The City of New York, New York City:

GENTLEMEN—In reply to the circular letter sent by the Hon. Bird S. Coler, Comptroller of The City of New York, I beg to state that the estimated amount required for the care, support and maintenance of the inmates of this institution for the year 1902 will be eighty-four thousand two hundred and ten dollars (\$84,210) in the following proportions:

300 children under two years of age, at 38 cents per day.....	\$41,610 00
150 children over two years of age, at \$2 per week.....	15,600 00
150 nursing mothers, at \$12 per month.....	21,600 00
300 obstetrical cases, at \$18 each.....	5,400 00

Total.....\$84,210 00

Pursuant to section 22, chapter 263, Laws of 1872.

Yours very truly,

NEW YORK INFANT ASYLUM,
FRANCIS B. GRIFFIN, Treasurer.

To the Honorable Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—The petition of the Cathedral Free Circulating Library respectfully shows to your Board:

First—That the said Cathedral Free Circulating Library is a corporation incorporated by the Regents of the University of the State of New York, and formed under chapter 378 of the Laws of 1892 of the State of New York.

Second—That your petitioner conducts free circulating libraries within the Borough of Manhattan, in The City of New York, at No. 123 East Fifth street, No. 463 West Fifty-first street, No. 203 West Eighty-second street, No. 501 West Fortieth street, and maintains at each of said places library halls, with all proper appurtenances, for the free circulation of books to and among the residents of The City of New York, and it also maintains libraries at twenty-five public and parochial schools in The City of New York, for the free distribution of books among the pupils thereof. Your petitioner respectfully submits that the demands on it during the past year have been very urgent and largely increasing. The libraries conducted by your petitioner supply the wants of a very large and influential class of our citizens, who have just reason to find fault with the provision made for their benefit by the usual public library. It is submitted that were it not for the existence of this library this numerous portion of the population of this city would be placed at a great disadvantage. Its branches and distributing centres are located in some of the most densely populated districts of the city, and a glance at the circulation in these branches alone is needed to show the great good being done. The multiplication of these libraries has entailed a very heavy outlay on the part of your petitioner. This field of usefulness can be extended in proportion as the means placed at its disposal are increased. Your petitioner also maintains at considerable expense a very large and exceedingly well-selected reference library and reading room.

Third—That during the year ended June 30, 1901, said Cathedral Free Circulating Library loaned to the individuals in The City of New York three hundred and forty-two thousand nine hundred and eighty (342,980) volumes to be read by them at their homes; that no charge of any kind was made in such case for the loan of the same, and that this library has received no appropriation for the use of any of the said volumes during the said period.

Fourth—That said library is subject to the inspection of the Regents of the University of the State of New York, and is registered by them as maintaining a proper standard, and that the said Regents have executed a certificate of approved circulation, which is annexed hereto, showing the circulation of books, according to which, under the Laws of 1892, chapter 378, paragraph 37, your Honorable Board may appropriate money for its use, is three hundred and fifteen thousand five hundred (315,500) volumes, and that the amount the said library applies for is thirty-one thousand five hundred and fifty (31,550) dollars, being the sum your Honorable Board is allowed to appropriate under the said law, with its amendments.

Fifth—That your petitioner respectfully states that the advantages and purposes for which this appropriation is asked is the conduct and maintenance of its free circulating libraries for the year 1902, including the purchase of many additional books, rendered necessary by the greatly increased demand for the same, salaries of employees, rent of building, interest on debt, necessary repairs and improvements, rebinding of much-handled volumes, lighting and heating library buildings, cataloguing, printing, postage, stationery, etc.

Sixth—It is respectfully asked that the full appropriation permitted by law be made to your petitioner for the year 1902, as the increased demands on it and the opening of its new branches make it absolutely certain that with a most conservative and economical management the full amount asked for will be expended during the year 1902. Attached hereto is a statement of the expenditures of the library for the current year and an itemized approximate estimate for the year 1902. Your petitioner further states that none of the appropriation for the year nineteen hundred and one (1901) will remain unexpended at the end of the current year.

Wherefore your petitioner prays that your Honorable Board may appropriate to the Cathedral Free Circulating Library the full amount of dollars for the year nineteen hundred and two (1902).

State of New York, County of New York, ss.:

Joseph H. McMahon, being duly sworn, says that he is Secretary of the Cathedral Free Circulating Library; that he has read the foregoing petition and knows the contents thereof; that the same has been subscribed and executed by him, and is true to his best information and belief.

Our President and Treasurer have the accounts and I cannot give each amount separately. The above is as near as I can come to the figures, as our August account is not closed.

Estimate—We average County wards about 240 (total average about 300), at \$2 per week, \$24,960.

We have room for a larger number, but may not have more.

What our Board of Education receipts for the year will be I cannot say. If further information is required kindly send to our President, Mr. Benjamin W. Wilson, who will soon be home. Regretting I could not give a better report, I am,

Yours very truly,

M. E. WHITTLESEY, Superintendent of Home and School.

DEPARTMENT OF CORRECTION, ESTIMATE OF EXPENSES FOR 1902, BOROUGH OF MANHATTAN AND BROOKLYN.

DEPARTMENT OF CORRECTION OF THE CITY OF NEW YORK,
COMMISSIONER'S OFFICE, No. 148 EAST TWENTIETH STREET,
NEW YORK, September 3, 1901.

Hon. ROBERT A. VAN WYCK, Mayor, and Chairman of the Board of Estimate and Apportionment:

DEAR SIR—As requested in your circular letter of July 3, 1901, I beg to transmit estimate of expenses for the Department of Correction, boroughs of Manhattan and Brooklyn, for the year 1902.

Very respectfully,

FRANCIS J. LANTRY, Commissioner.
DEPARTMENT OF CORRECTION OF THE CITY OF NEW YORK,
COMMISSIONER'S OFFICE, 148 EAST TWENTIETH STREET,
NEW YORK, September 3, 1901.

Hon. ROBERT A. VAN WYCK, Mayor, and Chairman of the Board of Estimate and Apportionment:

DEAR SIR—I beg to transmit herewith an estimate of expenses of the Department of Correction for the year 1902, with the following explanations:

I have deemed it necessary to ask for an increase in the corps of officers and employees from 316 to 338, the increase being as follows:

For New Steamboat—

1 Pilot.
1 Engineer.
1 Fireman.
3 Stokers.

For New City Prison—

6 Keepers.
3 Engineers.
3 Firemen.

The building of the new East River Bridge, with abutments on Blackwell's Island, now being erected, necessitates the employment of four (4) additional Keepers, two at the Penitentiary and two at the Workhouse, as I feel that extra precautions should be taken to prevent the escape of prisoners while this work is in progress.

From the outlook at present it appears that there will be no stock of supplies on hand at the end of the current year, the causes being the increased census and the reductions made in the appropriation for this year; the amount asked for having been \$271,000, while the amount allowed was \$235,000 only.

In order to show how the appropriation for 1902 is to be expended I beg to inclose herewith a carefully prepared statement which shows that for 1902 an appropriation of \$305,000 will be needed. The estimates are as closely made as is deemed consistent with the proper care of the inmates of the various institutions.

The entire stock of beds, bedding, blankets and shoes is so nearly exhausted that it must soon be renewed. During 1901 many calls made for the above-named articles have not been granted, owing to the decrease in the amount appropriated for supplies.

For repairs, etc., of buildings and apparatus I have asked for the same amount as was allowed in 1901, \$12,000.

For Repair of Steamboats, \$10,000, the same as was originally allowed for 1901.

Donations to Discharged Prisoners (the same as in 1901), \$2,000.

Transportation, Maintenance, etc., of Insane Criminals (the same as in 1901), \$500.

For the Improvement of Riker's Island I have asked for the same as was allowed in 1901, \$15,000.

I beg to call your attention to the necessity for the renewal of the steam plant, an addition to the boiler house and repairs to window casings at the Workhouse, Blackwell's Island, for which purpose I have asked an appropriation of \$40,000. The present plant is over thirty years old and is totally inadequate for heating the building properly. It has been repaired and patched many times and still the amount of heat is insufficient. The window casings are in such a condition that a thorough overhauling is essential.

I desire to change the mode of locking and unlocking cells at this institution. At present the cells have to be locked and unlocked separately, and, as the building is not fireproof, the result of a fire might prove disastrous. The change contemplated is to have the cells on each tier locked and unlocked by the turn of a lever by using a device in vogue in many of the penal institutions in this and other States.

Trusting that your Honorable Board will allow the amounts asked for, I remain,

Very respectfully,

FRANCIS J. LANTRY, Commissioner.

THE NEW YORK SOCIETY FOR THE PREVENTION OF CRUELTY TO CHILDREN,
No. 297 FOURTH AVENUE, CORNER EAST TWENTY-THIRD STREET,
NEW YORK, August 28, 1901.

Hon. RANDOLPH GUGGENHEIMER, President of the Municipal Assembly:

DEAR SIR—Pursuant to Laws of 1894, chapters 25 and 336, and section 230, paragraph 22, subdivision 2, of the Greater New York Charter, and section 230, paragraph 9, subdivisions 2 and 24 of chapter 466, Laws of 1901, the New York Society for the Prevention of Cruelty to Children hereby respectfully makes application for an appropriation of \$30,000, together with an additional sum of \$20,000, making a total of \$50,000 for the year of 1902.

The amount asked for is an increase over the appropriation of last year of \$20,000. It is asked for because the society's work has greatly increased since its original appropriation in 1894, thus causing the necessity of larger expenditure to maintain its present standard of efficiency.

In support of this application I would invite your attention to the following facts:

1. Although exempt by law from taxation, the society pays annually to the City over \$2,000 of taxes upon its real estate.

2. At its own expense, the society cares for all children under the age of sixteen years, arrested or taken in charge by the police or its own officers in the boroughs of Manhattan and The Bronx, providing them while in its custody temporarily with proper food, clothing and attendance pending their disposition by the magistrates or courts.

Section 291 of the Penal Code provides that no children shall be confined in prisons, or practically in station-houses. The City has no place for their detention. Institutions decline to receive such children, because the commitment is temporary (Penal Code, section 291, subdivision 6), and to erect a fire-proof building for the purpose and properly equip it with accessories, attendants, food, medical attendance, etc., to say nothing of the incidental fees of the Sheriff for transportation of the children to and from the courts would be a most expensive matter for the City. The City is now relieved of this expense by the society. The number of such children cared for by the society during the year 1900 was 5,424, and no part of the money appropriated to the society by the City is used for this purpose. This expense was paid entirely from subscriptions from annual donors and others. Children thus received who are the victims of physical violence, not only frequently require medical attention, but a physical examination is often directed by the Court to determine the truth of their story, and to corroborate their evidence against the offender. All such examinations are made by skilled physicians assisted by a competent nurse, with every facility afforded by the best hospitals in the land. Moreover, for the better protection of the children thus temporarily in the care of the institution, isolating rooms are provided for those who may be found at any time suffering from contagious disease, and a skilled nurse is always in attendance to see that every ordinance of the Board of Health is enforced and every suggestion of the physician carried out.

3. The City's appropriation is used to defray the expenses of the transportation of the children to and from the different courts; and incidental to the employment and investigation by the society's officers of their cases by the direction of the Court; and the collection of moneys from parents under orders of courts for account of board of children to reimburse the City for their care while in institutions. The society has transferred during the year 1900 in its own wagon to and from the different courts 8,131 children. It has investigated at the request of the magistrates and courts during the year 1900 the applications for the commitment of 1,316 children, our investigations resulting in the commitment of only 462 of these children, leaving as improper cases 854, which, if they had been committed, would have entailed an annual expense on the county of \$104 for each child, or a total of \$88,816. This sum was therefore saved to the City as the direct result of our investigations. The society has also investigated the cases of 4,313 children charged with offenses, and reported the facts to the courts and magistrates, upon which they were able to base their conclusions in acting on the disposition of the children. It has also aided in securing the evidence in 139 cases of criminal assaults upon children. It has prepared and submitted to the District Attorney accurate briefs upon which such cases were tried, the children being cared for pending the trials by the society at its own expense. It has caused 265 orders to be made for the support of children by the parents when committed to institutions, and has collected and paid over to the City the money received upon the same; and where such payments were not made it has aided in the prosecution of the parents or others, thereby securing payment to the City for the year of 1900 of the sum of \$14,407.95, which sum could not have been collected had it not been for the energetic action of this society. The six months' return to the City for the period ending July 1, 1901, of these moneys so collected shows an increase of \$2,316 over the year of 1900. If this increase continues proportionately for the balance of the current year the sum paid over to the City will amount to nearly \$20,000. This has entailed a heavy expense upon the society, not only for clerical hire to keep the necessary books of the accounts, but for the trained agents necessary to follow up the parents and others to see if they pay as directed, or if not, that the proper court proceedings are instituted to compel payment.

The work of the society never ends, night or day. Its building is always open, and children are received at all hours, bathed, dressed and properly cared for. During the year of 1902 there is to be established a Children's Court. Practically there are now in existence seven such courts in the city, in each of which the society keeps an officer in attendance to take charge of all such cases. These will have to be continued, and two or three new officers will have to be placed in the newly organized court, in addition to which the society will be put to an extra expense for the transportation of children from the seven district courts to the Children's Court.

Your attention is also drawn to the fact that the society has been put to an extraordinary expense of about \$5,000 in removing its boilers, heating apparatus, etc., from its vaults under the sidewalks, caused by the City reclaiming these vaults for the purpose of building a public station for the under-ground road.

With the growth of the city's population, and the multiplication of agencies for the care, reformation and correction of children, under the influence of that humane spirit now happily predominant in the treatment of children's cases, the society's beneficent work is increasing. No opportunity may be passed by. We cannot select whom to help and whom not to help.

Every case involving the interest of a child and brought to our attention demands and receives immediate action.

For these reasons the society respectfully asks for the increased appropriation to enable it to meet the increased demands made upon it.

I have the honor to remain, with great respect,

VERNON M. DAVIS, President.

1 Laborer and 1 Hostler, each at \$2 per day 980 00
\$2,940 00

Total for year 1902 \$7,332 00

The amount of money appropriated for the year 1901 was \$4,380, of which there will be none left over.

Respectfully,

MUNICIPAL CIVIL SERVICE COMMISSION OF THE CITY OF NEW YORK,
NEW YORK, August 20, 1901.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—In compliance with the request of the Comptroller, dated July 3, 1901, the Municipal Civil Service Commission of The City of New York respectfully submits herewith an estimate of the amount required to conduct the business of the Commission for the year 1902.

The amount asked is eighty-six thousand dollars (\$86,000), which is the same amount appropriated for the year 1901.

Accompanying this estimate is a detailed statement of the salaries of each of the officers, clerks, employees and subordinates of the Commission.

Of this year's appropriation there will remain a small unexpended balance, the amount of which cannot now be approximated.

Under a recent construction of the law the Commission will be obliged when calling examinations to summon all candidates having applications on file, instead of notifying such number as can be conveniently examined, as has heretofore been the custom. This will require a greater expense for examinations during the coming year.

The services of one additional Stenographer will be required.

The Commission respectfully requests your Honorable Board to allow the full amount of \$86,000, as with the strictest economy that sum will be required for the proper conduct of the business of its office during the year 1902, and the Commission further requests that the appropriation be made in a lump sum, as has been the practice in former years, for the reason that many of the items of expenditure must necessarily be subject to variation.

Respectfully submitted,

MUNICIPAL CIVIL SERVICE COMMISSION,
By LEE PHILLIPS, Secretary.

OFFICE OF THE ROMAN CATHOLIC ORPHAN ASYLUM SOCIETY,
THOMAS JEFFERSON BUILDING, NOS. 4 AND 5 COURT SQUARE,
BROOKLYN, N. Y., August 31, 1901.

To the Board of Estimate and Apportionment, New York City:

GENTLEMEN—In compliance with resolution of the Board of Estimate and Apportionment, adopted at meeting held June 13, 1901, requesting officers of institutions receiving money from

the City to submit an estimate of the amount that may be required for the year 1902, the Roman Catholic Orphan Asylum Society respectfully submits the following:

Under chapter 378, Laws of 1897, this society receives the sum of \$2 per week for each child committed to St. John's Home for Boys and St. Joseph's Female Orphan Asylum.

From the number of children at present in the institutions, and the probable increase in population during the coming year, we estimate that the average number of committed children for 1902 will be about 1,135. That would amount to 414,275 days' support, or 59,182 1-7 weeks, making the total amount required for the year \$118,364.20.

Respectfully submitted,

JOHN T. BREEN, Secretary.

ST. MARY'S HOSPITAL OF THE CITY OF BROOKLYN,
ST. MARK'S AVENUE, BOROUGH OF BROOKLYN,
NEW YORK CITY, August 31, 1901.

To the Honorable Board of Estimate of The City of New York:

In obedience to your resolution at your meeting of June 13, ultimo, I have the honor to submit the following estimate of expense of caring for the charity patients at this institution for the year 1902, basing the same on the number so treated for the twelve months ending August 1, with ten per cent. added to meet probable increase:

14,495 free days' surgical patients, at 80 cents per day..... \$11,596 00
14,156 free days' medical patients, at 60 cents per day..... 8,493 60

Total..... \$20,089 60

Respectfully submitted,

JNO. D. KEILEY, Secretary.

SACRED HEART ORPHAN ASYLUM,
WEST PARK, N. Y.,
August 30, 1901.

To the Municipal Assembly:

GENTLEMEN—The estimate of the amount required for the care and support of the inmates of the Sacred Heart Orphan Asylum for the year 1902 is \$13,556 for the care and support of 130 children.

We respectfully call your attention to the fact that during the year 1900 28 children were committed to the asylum, for whose care and support no money has been received.

These children were accepted by the Department of Public Charities, but as the Board of Estimate and Apportionment failed to make an appropriation for them we have been unable to obtain any money for their support.

The amount thus due to the asylum is \$2,823.40.

We most earnestly beg of you to provide for these children which we supported last year. Our institution is very poor, and the amount asked for is urgently needed.

Respectfully yours,

THE MISSIONARY SISTERS OF THE SACRED HEART,
MOTHER AGOSTINA CHIODINI.

COMMISSIONER OF JURORS' OFFICE—QUEENS COUNTY COURT-HOUSE,

Drawn from that fund..... 356 10

In my judgment there will be little if any amount remaining unexpended of the above appropriation at the end of the year 1901, for the reason that the greatest expense for serving notices, postages, typewriting, car-fare and other incidental expenses will be incurred from now to the end of the year.

Under the act creating the office (chapter 441, Laws 1899), a new list of jurors is now in course of preparation, which must be filed in December. In making up this list it will be necessary to summon all eligible jurors, the expense of which must be met out of the above unexpended balances.

I respectfully ask that the appropriation for the office for the year 1902 be the same as for the year 1901, as follows:

Salaries..... \$3,700 00
Jury Notice Servers..... 1,000 00
Contingencies..... 500 00

Total..... \$5,200 00

COLUMBUS HOSPITAL,
NO. 226 EAST TWENTIETH STREET,
NEW YORK, August 31, 1901.

To the Municipal Assembly:

DEAR SIR—The estimate of the amount required for the support and care of the inmates of the Columbus Hospital for the year 1902 is \$10,000.

Trusting that you will grant us this appropriation, as our institution is very poor and the amount asked for is urgently needed, we are,

Respectfully yours,

THE MISSIONARY SISTERS OF THE SACRED HEART,
MOTHER AGOSTINA CHIODINI.

To the Honorable Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—The Board of Trustees of the Queens Borough Library hereby respectfully submits the following estimate of expenses for conducting said library and its various branches for the year 1902.

Owing to the insufficiency of the appropriation for the year 1901 we were unable to provide for the payment of the employees of the library in proportion to the salaries paid to similarly employed persons in other parts of the city, and our estimate provides for salaries for such employees in proportion to those paid throughout the City.

The circulation of the library and of the individual branches thereof has increased to such extent that it has become necessary, in many cases, to secure new and larger quarters, thus increasing the amount necessary for rent as well as for all other expenses of conducting the library.

Respectfully submitted,

WALTER G. FREY, President.

To the Municipal Assembly of The City of New York:

GENTLEMEN—In compliance with a circular of the Comptroller, I beg to say that the above institute—Hospital and Dispensary for Eye and Ear Diseases—has received from the City during the last years an annual contribution of two hundred and fifty dollars (\$250) toward the maintenance of indigent people requiring hospital care as inmates. The same sum (\$250), I think, will be sufficient for the coming year.

CHILDREN'S COURT.

Under the Charter, section 1399, to go into effect at the beginning of the ensuing year, a court for the trial and commitment of children under sixteen years of age must be opened. This involves additional expenses that do not appear in the Budget or the appropriation of the current year. This additional expense is estimated as follows:

One Police Clerk, \$2,500.....	Total
Three Police Clerks, each \$2,000.....	\$2,500 00
One Stenographer, \$2,000.....	6,000 00
One Interpreter, \$1,500.....	2,000 00
One Attendant, \$1,200.....	1,500 00
Total.....	1,200 00
	\$13,200 00

REMARKS:

The \$3,000 increase for salaries of Magistrates is authorized and directed by section 1402 of the Charter to go into effect January 1, 1902, and the reduction of \$500 in the compensation of the Secretary of the Board is required by section 1393.

For the current year the Board asked for an increase of \$3,500 in the appropriation for the purpose of employing a Stenographer and an Interpreter for the Sixth District Court. We were allowed \$1,500. It was intended to employ an Interpreter, but none was available because the eligible list of the Municipal Civil Service Commission did not contain the name of an individual possessing the qualifications required for this position, in that the variety of languages spoken by any one on the list was too limited. While waiting for a new eligible list to be made came a decision of the Supreme Court that made all sentences and commitments under the summary powers of the magistrates worthless unless the testimony upon which the judgment was founded was taken in full and returned to the Supreme Court upon writs sued out. Instead of using the increased appropriation to secure an Interpreter, the Board employed a Stenographer so as to protect and uphold the sentences imposed. It is now asked that the amount be increased to \$2,000, so that the Stenographer may be retained.

The increase in the amount required for contingent expenses is for the purpose of carrying out the law as to probation officers. It is believed that if this law is properly enforced the City will be saved large sums expended now for the support and safeguarding of prisoners and that larger amount in fines will be collected.

RECAPITULATION.

Total amount of appropriation for 1901.....	\$154,200 00
Total amount asked for in 1902.....	170,650 00

NEW YORK JUVENILE ASYLUM,
ONE HUNDRED AND SEVENTY-SIXTH STREET AND AMSTERDAM AVENUE,
NEW YORK, August 31, 1901.

To the Municipal Assembly of The City of New York, New York City:

GENTLEMEN—I have the honor, as President of the New York Juvenile Asylum, to submit this communication in response to a resolution adopted by the Board of Estimate and Apportionment June 13, 1901, conveyed through the Comptroller, requesting the officers of institutions and others entitled by law to receive money from the City Treasury to submit estimates in detail showing the amounts of money required for the carrying on of the work.

The Juvenile Asylum has received heretofore, under the statute incorporating it, chapter 332 of the Laws of 1851, and the acts amendatory thereof, the sum of \$110 per annum per capita for the inmates sent to it.

Number of children in the institution January 1, 1900..... 875

Admitted during the year 1900, as follows:

Committed by Magistrates.....	837
Surrendered.....	202
From Truant School (charged to Board of Education).....	20
By the Department of Charities.....	12
By order of Committee, two Japanese boys not paid for.....	2
	1,073

Discharged during the year 1900..... 1,948

Remaining in the institution December 31, 1900..... 1,160

Since January 1, 1900, and up to January 1, 1901, the figures are as follows:

Committed by Magistrates.....	426
Surrendered.....	132
From Truant School (charged to Board of Education).....	15
By the Department of Charities.....	13
	586

Number remaining January 1, 1901..... 788

Number of children discharged January 1 to July 31, 1901..... 1,374

Remaining in the institution July 31, 1901..... 513

It is impossible to state in advance, with absolute accuracy, the number of children who may be inmates of the asylum, but on the basis of the foregoing figures and of the fact that commitments have, as shown by them, largely increased, I would respectfully ask for an appropriation on the basis of an average number of 900 children at \$110 per annum, amounting to the sum of \$99,000.

Respectfully submitted,

MORNAY WILLIAMS, President, New York Juvenile Asylum.

COUNTY CLERK'S OFFICE, RICHMOND COUNTY,
RICHMOND, NEW YORK, August 26, 1901.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—Agreeably to your request and as provided for in chapter 378, Laws of 1897, I herewith respectfully submit for your consideration and approval the following itemized estimate of the moneys necessary for the proper conduct of the public business of the office of the County Clerk of the County of Richmond for the year 1902:

	1901.	1902.
(1) Salary of County Clerk.....	\$4,000 00	\$4,000 00
(2) Rebinding books.....	500 00	500 00
(3) Repairing damaged and replacing missing maps.....	1,500 00
(4) Recopying records and indices of office.....	2,500 00
(5) Contingencies.....	250 00
Total.....	\$4,500 00	\$8,750 00

Item No. 1—Salary of the County Clerk to remain as for the year 1901.

Item No. 2—Rebinding books to remain as for the year 1901.

Item No. 3—Indicates the necessity of setting aside by your Board the sum of \$1,500, to be expended during the year 1902 in repairing mutilated and damaged maps and replacing missing maps filed in this office. The present condition of a large number of the said maps in this office, by reason of age, use and neglect, is a deplorable one, and unless prompt steps are taken to remedy their defects and check their further disintegration they will be unworthy of consideration as intelligible and binding records of property in the County of Richmond.

Item No. 4—As set forth in this item, \$2,500 is asked to be set aside by your Board to be expended during the year 1902 for recopying records and indices, the present dilapidated, indistinct and altogether unintelligible condition of which demands from your Board prompt consideration and the needful appropriation for remedy. I have been earnestly urged alike by the professional and lay patrons of the office, in order that the work of the searcher may be facilitated, all elements of uncertainty removed, and a clear and accurate record of individual holdings secured.

Item No. 5—The amount of \$250 is asked for expenditure to meet incidental expenses during the year 1902, such as express charges, postage, etc., for which no other provision is made.

Taking this opportunity to assure the members of your Honorable Board that I have not asked for a single item which I could conscientiously avoid, and that in each instance where appropriation have been asked, the least possible necessary amount has been named,

Yours respectfully,

EDWARD M. MULLER, County Clerk.

Rebuilding abutments of Union Street Bridge (Item No. 3).....	35,000 00
Total.....	\$98,805 00

Explanation of Increases.

Item 1. This amount (\$1,633.50) is needed to equalize salaries of the Bridge Tenders in this borough with those in Manhattan.

Item 2. Only \$15,000 per year for the last three years have been appropriated for repairs in this borough, and more extended repairs will be needed in 1902.

Item 3. The old abutments are in bad shape. This work, with the new superstructure to be built this year, will put this bridge in first-class condition.

Salaries.....	\$52,466 00

Engineering instruments and supplies.....	100 00
Total.....	\$65,046 00
Allowed for 1901.....	50,000 00
Increase.....	15,046 00

The excess cost of the labor account for maintenance and repairs for the year 1902 over the appropriation for 1901 is accounted for as follows:

The old City Island Bridge has been replaced by a larger structure with a draw span requiring three Bridge Tenders. In order to comply with the Labor law, eight hour tours of duty are necessary; hence nine new men at the standard salary of \$730 per year are provided for in the Estimate, increasing it \$6,570.

The new bascule drawbridge over the Mott Haven canal at One Hundred and Thirty-fifth street, now under construction, will be finished about the first of the year; a crew of six new men (three shifts of two men each) will be required to operate the bridge. Hence, \$4,320 has been added to the schedule.

The temporary bridge over the Bronx river at Westchester avenue will be replaced before the middle of next year by the sliding bridge authorized by chapter 617, Laws of 1897, and now under contract. The present force of three men must be increased by at least three more and I estimate, therefore, that \$1,095, six months' salary for three Bridge Tenders at \$730, must be provided.

The remaining increase is chargeable to the larger force of Mechanics, etc., required for the proper care of both old and new structures. The old bridges need constantly-increasing small repairs and in many cases this expense cannot be reduced until they are replaced by modern structures.

SYRACUSE STATE INSTITUTION FOR FEEBLE-MINDED CHILDREN,
SYRACUSE, N. Y., August 28, 1901.

To the Board of Supervisors of the County of New York:

By the existing provisions of law, the Supervisors of any county from which State pupils are admitted into the Syracuse State Institution for Feeble-minded Children are required to raise the sum of (\$30) thirty dollars a year in advance for each pupil so admitted. As the trustees of the institution have no disposition to charge the counties for clothing State pupils anything more than the actual cost of the clothing furnished, they have decided to reduce the charge to twenty dollars each for male pupils and twenty dollars for females. BUREAU OF MUNICIPAL STATISTICS,
Nos. 13 TO 21 PARK ROW, ROOM 1911, BOROUGH OF MANHATTAN,
NEW YORK, August 26, 1901.

Mr. P. J. SCULLY, Clerk, Municipal Assembly:

SIR—In accordance with your circular letter of July 3, 1901, requesting the heads of departments, bureaus, etc., to send their estimates of expenditure for the year 1902, in triplicate, one copy to the Mayor, one copy to the Comptroller and one copy to the Municipal Assembly, on or before September 3, 1901, with a separate comparative statement, in tabular form, and in a parallel column, so that positions to be abolished, new positions, increases and decreases of salaries will plainly appear, with full explanations stating the reason for any increase or decrease in the amount, as compared with the appropriations made for 1901, I have the honor to state, in reply to your request, that the report of the Charter Revision Commission to the Governor of the State of New York December 1, 1900, sections 128 to 137, provided for an increased appropriation to this Bureau and recommended that an amount, not to exceed \$15,000, be allowed to it annually.

The State Legislature however failed to approve the report of the Charter Revision Commission, and, as a result, this Bureau will cease to exist on December 31, 1901, and therefore no appropriation will be required by it for salaries, contingencies, etc., for the year 1902.

The only appropriation suggested is for the publication of its annual reports for 1898, 1899 and 1900, which it is estimated will cost about \$11,000 for 500 copies.

The amount of the appropriation to this Bureau for the year 1901, which may remain unexpended at the end of the year, will probably be \$3,500.

The following table will show the amount of salaries paid during the year 1901 and the estimate for the year 1902:

To the Department of Estimates, Comptroller's Office, New York City:

GENTLEMEN—As requested in your circular letter of July 1, 1901, the Brooklyn Home for Consumptives sends hereby its estimate of expenditure for the year 1902.

This estimate they fix at \$10,000 or such part thereof as may accrue to the institution for the care of inmates at the rate of 60 cents per day as is now being paid by the City to the home. They reaffirm all the statements as to the aims and management of the institution in years past. They accompany this request with a copy of the printed annual report for the fiscal year ending October 1, 1900.

In addition to what appears in said report they mention the fact that in response to a request made in behalf of the City during the winter they fitted out the room which they had been using as a sitting-room with beds, and thus accommodated about 15 more inmates than they had been doing.

They present this estimate and appeal, signed in triplicate, as required by law, this August 21, 1901.

BOROUGH OF BROOKLYN, August 20, 1901.

To the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—In compliance with the circular of the Honorable Bird S. Coler, we, on behalf of the Lutheran Hospital Association of The City of New York and vicinity, respectfully submit the following:

The amount of expenditures for the year 1902 for the above institution is, of course, entirely dependent upon the number of patients that may come to our care.

In order to give your Honorable Board an outline of our work, we beg to state that during the last year we nursed 64 free patients, 8,588 hospital days.

The aggregate hospital days, including pay patients, were 10,938 days.

Our expenditures during the year were as follows:

For salary and wages.....	\$3,092 00
For provisions.....	3,033 00
For medical supplies.....	262 00
For funeral expenses.....	46 00
For light and fuel.....	573 00
For furniture, bedding and clothing.....	88 00
For printing and stationery.....	69 00
For water tax.....	75 00
For telephone.....	40 00
For disbursements by order of Fire Department.....	55 00
For interest on mortgage.....	290 00
For house repairs.....	1,283 00

Total..... \$8,906 00

The expenditures would have been much greater if the members of our association did not donate provisions, clothing, bedding, furniture, medicines, etc., etc.

Our receipts are made up by voluntary contributions from various Lutheran congregations, which alone, however, would not enable us to carry on the work, as almost 75 per cent. of our patients are poor and unable to pay for their treatment and care. They would be obliged to appeal to the City for help if we could not provide for them.

The appropriation for the year 1901 was \$3,756.74, on the basis of 60 cents a day for medical and 80 cents a day for surgical patients, as per section 230, Greater New York Charter, as amended by chapter 196, Laws of 1899.

In addition to our hospital work we are now contemplating to open a dispensary and a school for training nurses.

We respectfully request your Honorable Board to set aside for the use of our hospital for the ensuing year a sufficient sum to enable us to carry out our charitable work and thereby to lighten the burden of The City of New York.

Yours respectfully,

LUTHERAN HOSPITAL ASSOCIATION OF THE CITY OF NEW YORK AND VICINITY.

JACOB MOREH, President.

G. RIEDEL, Financial Secretary.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—The petition of District No. 1 of the Independent Order Benai Berith respectfully shows:

That it is a library association duly incorporated under the Laws of the State of New York, known as chapter 188 of the Laws of 1878, as amended by chapter 100 of the Laws of 1885 and chapter 58 of the Laws of 1896, and is located in the City and County of New York. That said association owns real estate in said City of New York, to wit: No. 101 Manhattan street and No. 106 Lawrence street, of the value of at least \$23,000.

That the name by which the library of your petitioner is known is "The Maimonides Free Library of District No. 1 of the Independent Order Benai Berith," and the place where said library is established and has its offices and rooms is at the northeast corner of Lexington avenue and Fifty-eighth street, in The City of New York.

That it owns 71,705 volumes of books and maintains the same as a free library for the free circulation of books among the inhabitants of The City of New York.

That it has actually circulated in the twelve months next preceding this application 235,401 volumes of books, and that the aggregate number of volumes actually withdrawn from the library of said association by the people of The City of New York for use in their homes or places of business is 183,276.

Annexed hereto are schedules showing the different kinds of books owned and circulated by this library.

That said library was established by said association in January, 1852, and was opened as a free library in March 1, 1894.

That the establishment of said library and the circulation of books therefrom has been of inestimable benefit to many of the inhabitants of The City of New York and elsewhere, and the cost of maintaining the same is very considerable.

That the library of your petitioner has been registered in the Public Library Department of the Regents of the University of the State of New York on November 25, 1896, and Certificate No. 272 by said Regents has been issued to that effect.

Wherefore your petitioner prays that your Honorable Body may appropriate such sums of money as may be equitable and proper, to be paid to your petitioner in accordance with law in monthly installments.

S. HAMBURGER, Secretary of District No. 1, I. O. B. B.

WILLIAM A. GANS, President of Maimonides Free Library.

State and County of New York, ss.:

S. Hamburger and William A. Gans, being severally sworn, depose and say, and each for himself deposes and says: That the said S. Hamburger is the Secretary of District No. 1, Independent Order Benai Berith, and said William A. Gans is the President of the Maimonides Free Library, of "District No. 1, Independent Order of Benai Berith," the corporation described in foregoing petition, and that the allegations in said petition set forth are true to his own knowledge except as to those matters therein stated to be alleged on information and belief, and as to those matters so stated he believes them to be true.

S. HAMBURGER.

WILLIAM A. GANS.

Sworn to before me this 15th day of July, 1901.

EDWARD J. GRAETZ, Notary Public, New York County.

NEW YORK, August 31, 1901.

Hon. ROBERT A. VAN WYCK, Chairman of the Board of Estimate and Apportionment:

DEAR SIR—In conformity with the Comptroller's circular, dated July 3, 1901, we transmit herewith our Departmental Estimate for the year 1902.

We respectfully ask that the amount to be appropriated for the year 1902 be the same as was appropriated for the years 1900 and 1901, which was \$156,000.

This amount of \$156,000 for the year 1902 is asked for in order to enable us, as requested by your Honor, to carry a surplus sufficient to meet the "Incidental Expenses" of any "Special Examinations" which your Honor may direct, by virtue of section 119 of the Charter.

The amount which will probably be unexpended from the appropriation of 1901 at the end of this year will be about \$13,000.

This large unexpended balance is produced by eleven vacancies, due to resignations, which vacancies it is our intention to fill before the expiration of the year 1901.

The unexpended balance of the appropriation for the year 1900 is \$3,369.21.

Respectfully submitted,

COURT OF GENERAL SESSIONS OF THE PEACE,
CITY AND COUNTY OF NEW YORK—CLERK'S OFFICE,
September 4, 1901.

Hon. RANDOLPH GUGGENHEIMER, President of the Council:

SIR—I have the honor herewith to transmit a copy of the estimate of expenditures for the Court of General Sessions of the Peace for the year 1902. The amounts set forth under their respective headings for the ensuing year are the same as those asked for and allowed in 1901 and preceding years, with the exception of the sum required for the maintenance of the court library, in relation to which I beg to make the following explanation:

In 1896 an appropriation for \$5,000 was made by the Board of Estimate and Apportionment for the establishment and maintenance of a law library for the Court of General Sessions of the Peace of the City and County of New York, in accordance with the provisions of chapter 865 of the Laws of 1895. Suitable accommodation not having been provided the appropriation granted was not expended and was duly turned in to the general fund. The same disposition was made of appropriations amounting in the aggregate to \$13,500 appropriated for library purposes in the years 1897, 1898 and 1899. In 1900, rooms having finally been set apart for library purposes, the appropriation of \$1,000 granted for that year was expended in the purchase of books; and a like amount, appropriated for the present year, has been expended in a similar manner. In order to be effective the library thus established should be completed and fully equipped and the judges of the court respectfully request that the appropriation for library purposes requested for the ensuing year be allowed.

Attention is respectfully directed to the fact that appropriations aggregating \$18,500 made in former years for library purposes have not been expended but have been returned to the City Treasury.

Yours very respectfully,

EDWARD R. CARROLL, Clerk of Court.

Respectfully submitted,
EDWARD R. CARROLL, Clerk of Court.

NEW YORK, August 30, 1901.

To the Honorable the Municipal Assembly:

GENTLEMEN—In compliance with the request of the Comptroller that a Departmental Estimate of the amount required for the care and support of the inmates of the Colored Home and Hospital, in and for the year 1902, be prepared and sent to the Board of Estimate and Apportionment, the following statement is respectfully submitted. In conformity with the provision by law (section 230, Greater New York Charter, as amended by chapter 196, Laws of 1899) the Board of Managers petition for a per capita allowance for patients accepted by the Department of Public Charities as proper charges against the City Treasury, at the rate of 60 cents per day for medical treatment and 80 cents per day for surgical treatment; for infants under 5 years of age at the rate of 38 cents per day; for maternity cases, \$18 per case; for destitute mothers, nursing their infants, \$12 per month.

Owing to the great increase recently of the population of the city in the Borough of The Bronx, the Department of Charities has found it impossible to provide beds for the large number of patients for whom it has been called upon to care in that section. The Harlem and Fordham Hospitals have been compelled to transfer many of their cases to us as ours is the only general hospital of any size in this part of the city. The managers therefore petition your Board for an increase of twenty-five hundred dollars (\$2,500) above the allowance for this year, thereby placing the limit for the year 1902 at not less than \$36,786.56, and that it be determined by the work performed. The number of days' treatment from July 1, 1900, to July 1, 1901, was 84,974.

A statement is hereto appended of the amount of expenditure, specifying in detail the objects thereof, from July 1, 1900, to July 1, 1901:

For food	\$12,872 77
For medical and surgical supplies	3,082 54

^a Chapter 299 of the Laws of 1901 authorizes the Board of Estimate, etc., of The City of New York to equalize the compensation of the Justices of the Supreme Court, resident in the County of Kings, with that of the Justices resident in the County of New York. On the 13th of June, 1901, said Board of Estimate passed a resolution, viz.: That the additional compensation heretofore paid to each of the Justices of the Supreme Court, residing in the County of Kings, pursuant to sec. 1151 of the Code of Civil Procedure, be and the same is hereby increased to the annual sum of four thousand three hundred dollars, payable monthly, to commence July 1, 1901.

^b June 14, 1901, the Board of Justices increased the salary of William P. Leggett from \$2,500 to \$3,000, to commence July 1, 1901.

^c May 24, 1901, the Board of Judges advanced salaries of Alexander A. Cabre and of William P. Dillon from \$1,500 to \$1,800, each, to commence June 1, 1901.

^d Increased by resolution of Board of Judges June 14, 1901, to commence July 1, 1901.

^e Appointed June 14, 1901.

Compensation of Justices from other counties assigned to Kings County for the year 1902..... \$18,000 00

Eighteen thousand dollars will be necessary for this purpose.

There are now seven Justices only residing in the Second Department to do all the business of the ten counties. Justices Cullen, Goodrich, Bartlett, Hirschberg and Jenks have been taken from the Trial Terms for the Appellate Courts. There is not sufficient of judicial force to do the business of Kings County, and this results in a necessity for at least three Justices from other counties for almost the whole time. The appropriation for this purpose for the year 1901 was \$15,000, but there will be a deficiency.

Addition to law library for chamber of Justices residing in Kings County..... \$1,000 00

For contingencies—expressage, postage, extra interpretations, extra stenography, etc..... \$200 00

Bill of the Banks Law Publishing Company, certified January 17, 1901..... \$148 75

Books were delivered on the order of Court, to be charged to the Appropriation for Library Account of Kings County. Although asked for, the Board of Estimate failed to make the appropriation for the library. The statement is that requisition should have been made upon the Department of Supplies.

That Department declines to recognize the bill of Banks Brothers, and there is no way of paying the bill except by an appropriation made specifically for that purpose.

There will be no unexpended balance for the year 1901. There will be a deficiency.

PETER P. HUBERTY, County Clerk, Kings County.

EXPLANATIONS.

I.—Salaries.

The increase in this item is caused by chapter 704, Laws of 1901, which creates the various offices and fixes the salaries as given in the schedule, and in my opinion, is mandatory.

II.—Fees to Searchers.

This item is also caused by the said act. The amount is reached by comparison of the sum paid to the Long Island Title Company for the year 1900, which was \$1,987.62.

III.—Current Indexing.

The regular employees will in 1902 perform this work under salaries, and the item is therefore abolished.

IV.—Election Expenses.

Some of this work should henceforth be performed by the regular office force. Therefore \$2,500 less is asked for 1902.

V.—Recopying and Indexing.

This work has been going on for several years, and has now progressed so far that a decrease of \$7,000 in the item is justified, and in my estimation, the work can be practically completed with the sum asked.

VI.—Contingency Fund.

This item has become necessary by abolishing the so-called fee system.

PETER P. HUBERTY, County Clerk, Kings County.

DEPARTMENT OF PUBLIC CHARITIES,

BOROUGH OF BROOKLYN AND QUEENS, NOS. 126 AND 128 LIVINGSTON STREET,
BOROUGH OF BROOKLYN, NEW YORK CITY, September 5, 1901.

Hon. RANDOLPH GUGGENHEIMER, President of the Council, City of New York:

DEAR SIR—I herewith respectfully inclose a copy of the estimate for 1902 of the Department of Public Charities for the boroughs of Brooklyn and Queens.

Very respectfully,

A. H. GOETTING,
Commissioner, Public Charities for the boroughs of Brooklyn and Queens.

DEAR SIR—Herewith is submitted the estimate of money required for the conduct of the institutions in this Department for the year 1902.

The estimate for maintenance of the institutions at Flatbush is made on the per capita basis, as recommended by the Honorable Commissioners of Accounts, and the estimate for the new institutions, viz.: Brooklyn Homeopathic Hospital, Reception Hospital, Coney Island, and the Twenty-sixth Ward Hospital, are based on the rates now paid by the City for private hospitals.

Respectfully yours,

(Signed) J. T. DURVEA, General Medical Superintendent.

Mindful of the injunction contained in the Comptroller's circular letter, requesting the preparation of the Departmental Estimates, the utmost care has been taken in arriving at the foregoing estimate to exclude every item of expense not absolutely necessary for conducting the business of this branch of the Department, and to reduce to the lowest amount of expenditure consistent with efficient administration of the parks the items which have been included.

The following statement will show specifically and in detail the objects and purposes of each of the appropriations asked for:

ADMINISTRATION.

List of Salaries.

	PRESENT PAY.	FOR 1902.
Clerk in Charge of Accounts	\$2,800 00	\$2,800 00
Superintendent of Supplies and Repairs	3,000 00	3,000 00
Clerk	1,800 00	1,800 00
"	1,500 00	1,500 00

Purchasing Agent	2,000 00	2,000 00
Private Secretary to Commissioner	1,800 00	1,800 00
Total	\$25,600 00	\$25,600 00

The administration force as given above is efficiently organized and the distribution of salaries commensurate with the duties and responsibilities of the respective employees.

The amount asked for is practically the same as received in 1901, an increase of but \$20 being necessary.

LABOR, MAINTENANCE AND SUPPLIES.

The amount asked for this most important item is precisely the same as was allowed for the current year, and which with economy and careful management has been made to meet the multiplex demands of maintenance. Considering the present condition of the parks generally, I am of opinion that, with the exception of the expense of cleaning the lakes of Central Park—an imperative necessity which has been made a separate item—a creditable degree of maintenance may be undertaken and effected during the coming year for the sum of \$496,000.

The portion of this appropriation applied to labor is approximately as follows:

1 General Foreman, \$3,000 per year	\$3,000 00
1 General Foreman, \$1,500 per year	1,500 00
18 Foremen, \$100 per month	21,600 00

1 Housesmith, \$3.50 per day, 313 days	1,095 50
4 Blacksmiths, \$3.50 per day, 313 days	4,382 00
5 Blacksmith Helpers, \$2.50 per day, 313 days	3,912 50

19 Drivers, \$2 per day, 365 days	13,870 00
9 Foremen Gardeners, \$100 per month	10,800 00
5 Gardeners, specialists, \$75 per month	4,500 00
54 Gardeners, \$70 per month	45,360 00
50 Laborers, \$2 per day, 300 days	30,000 00
10 Carts, \$3 per day, 365 days	10,950 00
20 Park Keepers, \$2 per day, 300 days	12,000 00
Total	\$439,773 75

The expenditure for supplies will approximate the following:

Trees, shrubs, vines and plants for maintaining plantations and shade trees	\$5,000 00
2,000 cubic yards of mould, \$1.50	3,000 00
1,000 loads manure, \$4	4,000 00
100 tons artificial manure, \$18	1,800 00
Seeds and bulbs	2,000 00
Gardeners' supplies	1,000 00
Entomologist's supplies	1,000 00
200,000 square feet sod, 2 cents	4,000 00
6,000 linear feet iron pipe fence, 50 cents	3,000 00
3,000 linear feet wire fence, 60 cents	1,800 00
Gravel, sand and shale	10,000 00
Mowing machine, repairs, etc.	1,500 00
Coal	5,000 00
Forage	8,000 00
Brick and cement	1,000 00
Gas	2,000 00
Lumber and hardware	9,000 00
Paints, oils and varnish	1,500 00
Iron of various kinds	1,500 00
Shoeing horses	2,000 00
Veterinary attendance and medicines	1,000 00
Plumbers' supplies	1,500 00
6 horses	1,500 00
Harness	500 00
Miscellaneous	2,500 00
Total	\$75,100 00

While the figures given show a proposed expenditure of \$18,873.75 in excess of the amount asked for, it is estimated that the savings which will result from lost time, inclement weather and other causes, and also the difference between the estimated and actual cost of materials will aggregate that sum and enable the Department to get through the year 1902 without asking an increase.

ZOOLOGICAL DEPARTMENT.

This item is also the same as was allowed for the year 1901. It is estimated thus:

Salary of Director	\$3,500 00
1 Engineer	900 00
2 Keepers, \$1,080	2,160 00
8 Keepers, \$900	7,200 00
52 weeks' labor, \$65	3,380 00
Food of all kinds	12,000 00

Ordinary repairs.....	\$1,000 00
Increasing collection and replacing specimens lost by death.....	2,500 00
Total.....	\$32,640 00

The Central Park Menagerie is in a high state of efficiency for its size and is immensely popular with people of all classes, as shown by its many thousands of daily visitors, who on Sundays and holidays become vast crowds filling every available foot of space.

The sum applied for has been allowed for a number of years past, and considering the pleasure and instruction it affords, it is a most wise expenditure. The collection is steadily increasing and improving. The hippopotami are without doubt the finest and most valuable in captivity in the world.

MAINTENANCE OF MUSEUMS.

The amounts asked for the two museums are allowed by law, as follows:
For the keeping, preservation and exhibition of the collections in the American Museum of Natural History, the museum to be kept open according to law.... \$135,000 00
For the same purpose for the Metropolitan Museum of Art..... 150,000 00

Total..... \$285,000 00

For the first-named museum the amount asked is \$5,000 more than was allowed for this year. \$135,000 is the full amount authorized by law for this museum. \$95,000 was allowed the Metropolitan Museum of Art for 1901, but to this sum is now added \$55,000, as provided by chapter 67, Laws of 1901.

Detailed statements of the museum authorities, showing their various items of expense, are transmitted herewith.

MUSIC.

Twenty-five thousand dollars, the amount asked for, has been allowed and expended for several years past. Probably no expenditure of its size receives better value or gives more appreciable pleasure and real comfort to the people than the summer nights concerts in the parks throughout the City. They are largely attended by all classes, and in the down-town parks and crowded sections particularly are a boon to many who are unable to attend concerts or seek recreation elsewhere during the heated term.

The appropriation for the present year has been expended as follows, which is approximately the same arrangement as proposed for next year:

PARK.	CONCERTS.	
Central Park.....	30.....	\$6,450 00
Mount Morris Park.....	13.....	1,025 00
East River Park.....	14.....	1,750 00
Madison Square.....	12.....	1,500 00
Tompkins Square.....	14.....	1,750 00
Washington Square.....	13.....	1,625 00
Abingdon Square.....	12.....	1,500 00
Hudson Park.....	12.....	1,500 00
Seward Park.....	13.....	1,025 00
Corlears Hook Park.....	13.....	1,625 00
Mulberry Bend Park.....	13.....	1,625 00
Battery Park.....	14.....	1,750 00
Calcium lights and attendance.....		675 00
Total.....		\$25,000 00

CONTINGENCIES.

The amount asked for this purpose, \$2,500, is \$500 less than the amount appropriated for the current year. It is used mostly for telephone service, which is now so systematized and installed as to admit of a reduction of that sum for the coming year.

SURVEYS, MAPS AND PLANS.

The amount asked for, \$2,000, was allowed for 1901. It is required for making surveys and maps of small new parks in Manhattan and Richmond, and also for making maps when called for by Commissioners of Estimate and Assessment in proceedings for acquiring new parks and other similar work.

AQUARIUM.

The increase of \$10,000 asked for in this appropriation is really the smallest amount which with judicious and economical expenditure the Aquarium can be conducted in a manner worthy of the City. The appropriation of \$40,000 for the current year is inadequate, and will leave many things undone which ought to have been done. In the coming year extensive repairs will be necessary, and unless funds are provided to do them promptly when anything occurs serious difficulty and loss are sure to follow. Inasmuch as the Aquarium is fully established and is required by law to be maintained it would seem that there is only one way to do it, and that a creditable one. A growing interest is manifested by a steadily increasing number of visitors, and were the institution one where an admission fee was charged for even two days in the week it would be easily self-supporting. It is felt that the desired increase is fully warranted, and is therefore asked.

The expenses of the Aquarium for 1902 will be as follows:

Superintendent of Small Parks (in charge).....	\$3,500 00
Pay-rolls of force employed, including Skilled Laborers, Engineers, Firemen, Attendants, and all persons engaged.....	26,500 00
Coal, 1,800 tons, at \$3.50 per ton.....	6,300 00
Gas, \$75 per month.....	900 00
Ice.....	100 00
Fish food.....	2,400 00
Stocking with live fish.....	2,600 00
Supplies, oil, brooms, hose, etc.....	1,900 00
Insurance.....	240 00
Removal of ashes and garbage.....	500 00
Repairs to buildings, tanks and pipes.....	5,000 00
Total.....	\$50,000 00

HARLEM RIVER DRIVEWAY.

This item is the same as allowed for the present and previous years. The work of caring for and maintaining the Driveway is done by a force organized as follows:

Superintendent.....	\$1,500 00
Foreman.....	1,200 00
12 Laborers, 6 months, \$2 per day.....	4,368 00
6 Laborers 6 months, \$2 per day.....	2,184 00
6 teams, 6 months, \$4.50 per day.....	4,914 00
3 teams, six months, \$4.50 per day.....	2,457 00
Blacksmith and Paver as required.....	1,000 00
Materials for resurfacing and repairs.....	2,400 00
Total.....	\$20,023 00

AMBULANCE SERVICE, CENTRAL PARK.

There is no increase in this item. \$1,200 has been appropriated for several years past for this useful purpose.

CARE OF GRANT'S TOMB.

Pursuant to chapter 670, Laws of 1897, the City entered into a contract with the Grant Monument Association for the care and preservation of the Tomb of General Grant on Riverside Park. This contract runs for twenty-one years, the association serves without compensation, and the City is required to pay the expenses, not exceeding \$5,000 per year.

TREES, WEST END AVENUE.

Chapter 46, Laws of 1894, placed these trees under the care of this Department. The law requires that the same be maintained by a special appropriation. A large portion of the avenue is still unplanted, and the property-owners repeatedly urge its completion. The amount of work necessary to do this and its estimated cost are as follows:

7,230 cubic yards of excavation, 50 cents.....	\$3,615 00
7,230 cubic yards of garden mould, \$1.50.....	10,845 00
723 cubic yards of rock excavation, \$4.....	2,892 00
270 trees, \$10.....	2,700 00
51,840 square feet asphalt and concrete walks, 25 cents.....	12,960 00

88,200 square feet sod, 2 cents.....	\$1,764 00
Contingencies, about 10 per cent.....	3,224 00
Total.....	\$38,000 00

CLEANING THE CENTRAL PARK LAKES.

\$10,000 is a low estimate for this work, which should be undertaken next year at the latest. It is of great sanitary importance and should not be neglected. The removal of accumulations of silt and precipitate from the pools and ornamental waters of the Central Park becomes necessary every few years to keep them in healthful condition and guard against any possible menace to the health of the neighborhood or to public enjoyment of these attractive features of the park. I therefore urgently recommend that this appropriation be made.

UNION SQUARE WALKS.

The surface of the asphalt walks of this park after many years of wear has become badly worn and the entire walk area should be repaved. 75,000 square feet of pavement will cost \$12,750.

WALKS AROUND GRANT TOMB.

The cement pavement of these walks, which was hastily laid in the winter of 1896-1897, is badly cracked and settled and in great need of repair. Some of the walls supporting the surrounding coping have settled badly and should be taken up and rebuilt, and most of the granite work in coping, steps, etc., should be repointed. The work required is as follows:
52,400 square feet of Portland cement sidewalks to be relaid and repairs to wall masonry, pointing of granite, etc..... \$12,000 00

CENTRAL PARK GUTTERS.

The continued resurfacing of the drives has placed the gutters from 6 to 12 inches below the proper grade.

In 1900 and 1901, considerable portions of these gutters were paved with asphalt and it is proposed to continue this work as fast as funds become available. It is a most desirable improvement, inasmuch as it has the effect of widening the drives at least 6 feet, by taking out the ridge or quarter space between the quarter and the gutter. 25,000 linear feet of this gutter work has been done, leaving about 76,000 feet remaining to be done at an estimated cost of \$55,000.

The sum of \$15,000 is asked for to continue this work.

CENTRAL PARK DRAINAGE.

New drains and basins are required at Sixty-sixth street on the west drive, from Bridge No. 26 up to and around the circle to the block-house, Eighty-first street on the east drive and Ninety-sixth street on west drive. They will cost \$2,000. It is found that the sewage from several of the cottages and park buildings is carried directly into the lakes and pools. New systems of drainage to discharge into the City sewers should be established and the necessary cesspools should be constructed. This work is estimated to cost \$38,000.

CENTRAL PARK WATER SYSTEM.

At the time Central Park was constructed, a cement water-pipe was laid to supply water for general use and irrigating purposes. This pipe is badly worn and breaks occur continually, causing much trouble and lack of water. A new system should be laid. It would cost \$100,000, but might be done in sections and the cost distributed over several years. The sum of \$25,000 would enable the Department to make a very fair beginning of this important work during the coming year.

CONSERVATORY LAKE.

This small lake or pool, laid out on geometrical lines near Fifth avenue and Seventy-second street, is used in summer for sailing miniature boats and in winter by the curling clubs. Its bottom is of earth or clay and at different times of the year is full of weeds. It is proposed to construct a water-tight basin, with concrete bottom, rubble masonry surrounding walls and bluestone coping, and to lay an asphalt walk pavement around the lake in place of the present dilapidated plank walk. Following is the quantities of work:

2,200 cubic yards excavation and removal mud bottom.
1,500 cubic yards concrete base.
1,000 cubic yards coarse gravel for bottom.
410 cubic yards rubble masonry in walls.
1,225 linear feet bluestone coping.
9,800 square feet asphalt walk.
Estimated to cost \$22,000.

WATER SUPPLY, HARLEM RIVER DRIVEWAY.

A water supply system for the driveway, including drinking-fountains for man and beast, is greatly needed and should be constructed. It will cost \$15,000.

RIVERSIDE DRIVE WALL.

The dry rubble retaining-wall on the westerly side of Riverside drive is bulged in places and settled in others. These defects should be remedied. The cost of taking down and re-erecting this wall at the points referred to, including the cost of restoring the pavement, sod, etc., is estimated at \$15,000.

REPAVING WALKS IN CITY PARKS.

The walk pavements of Battery Park, City Hall Park, Tompkins square, Madison square, Washington square, Mount Morris Park, East river extension, Jackson square and some of the smaller squares or triangles have been worn, cracked and disintegrated, and should be repaired. The work will cost \$15,000.

A glance at the above statement will show that of the net increase of \$69,500 asked for in the usual appropriations (barring the special items), \$60,000 is for the Museums, under special laws authorizing such increase. The only other material increase being \$10,000 in the item for the Aquarium.

It is not likely that any appreciable balance will remain unexpended of the appropriations for 1901 at the close of the year.

Commissioner of Parks, Boroughs of Manhattan and Richmond.

I am, very truly yours,
H. C. BUMPUS, Assistant to the President.

METROPOLITAN MUSEUM OF ART—CENTRAL PARK,
FIFTH AVENUE AND EIGHTY-SECOND STREET,
OFFICE OF THE SECRETARY,
NEW YORK, August 5, 1901.

Hon. GEORGE C. CLAUSEN, Commissioner, Department of Parks, Boroughs of Manhattan and Richmond, New York City:

DEAR SIR—In accordance with the request contained in your letter of July 26, I have the honor to transmit herewith inclosed a detailed statement showing the cost of maintenance of this institution for the year 1902.

Last year the total cost of maintenance was \$139,228.87. For the coming year the cost will be \$196,973.87. The increase of \$57,745 is due to our occupation of the new east wing which requires a greater number of employees and a larger quantity of coal, lumber and other supplies.

In order to provide for this necessary increase, the Legislature last year passed an act, of which I inclose you a certified copy, authorizing the Board of Estimate and Apportionment to add to the annual appropriation of the Museum, \$55,000 to be applied by your Department for the keeping, preservation and exhibition of the Museum collections. Of this total amount of \$196,973.87 the City will contribute \$150,000 and the trustees \$46,973.87.

The trustees respectfully request your Department to include in your Budget the above-named additional sum of \$55,000 for the Museum's maintenance.

Very respectfully yours,

L. P. DI CESNOLA, Secretary, Board of Trustees.

Metropolitan Museum of Art.

2. MAINTENANCE AND CONSTRUCTION.

1. This appropriation includes all the necessary work of maintaining over four thousand acres of parks and parkways, nearly two-thirds of the entire area of park lands in Greater New York.

2. It includes the care and maintenance of over fifty buildings, valued at over five hundred thousand dollars, including repairs and insurance.

3. It further includes the purchase of all necessary supplies, including all machinery, tools, benches, paints, horse feed, food for animals, including thirty head of deer, sacred cows, sheep, birds, etc.

The matter of construction under this title includes all matters of incidental construction that, from their cost and their permanency, would necessarily require a bond or stock issue, under the provisions of the several acts of the Legislature, relating to permanent improvements.

Among these items might be included the erection of music stands, shelter pavilions, toilet or comfort houses, fire and drinking hydrants, the construction of minor roadways, and paths, the filling-in of sections of low and swamp lands, the cleansing and deepening of lakes and ponds, and the Bronx river, the construction and repairs of sewers and drains, and the many necessary items of minor construction, and the several emergencies that may occur from time to time in the development of both the large and small parks of our borough.

At the present time there are engaged in the maintenance of our park system, the service of

- 1 Superintendent.
- 27 Foremen.
- 11 Assistant Foremen.
- 8 Bridge Tenders, Helpers, etc.
- 31 Mechanics.
- 11 Drivers and Stablemen.
- 43 Gardeners and Mowers.
- 57 double teams.
- 230 Laborers.

Among the special requirements of the maintenance account may be mentioned the care and maintenance of the 18-hole golf links and the skate and golf house in Van Cortlandt Park and the 9-hole golf links in Pelham Bay Park. These two golf courses are used by upwards of three thousand players.

There are also 18 base ball fields, 100 tennis courts, croquet grounds, etc., to be provided and cared for.

At Van Cortlandt Lake during the season of last winter there was fifty days of skating, and at the Indian Pond in Crotona Park there was skating on twenty-six days. There was no skating on any of the other park lakes in Greater New York, excepting one or two days at the Prospect Park Lake, Brooklyn. This caused an unusual number of skaters, the attendance at both parks often exceeding twenty thousand in one day. It necessitated the employment of a double force of men, for day and night service, at both lakes, an item of considerable expense.

The amount of appropriation for the past two years under the head of "Maintenance and Construction" allowed by the Board of Estimate and Apportionment was \$245,000. In addition to this amount, I most respectfully but most urgently request the following amounts for the purposes specified.

There have been 22 miles of drives, roadways and paths constructed; over 340 acres of park lands have been cleared of underbrush, filled, leveled and added to the available acreage of our parks for the use of our people.

For the proper maintenance of these additions there will be required an additional appropriation, viz.:

10 teams, at \$4.50 per day, 250 days.....	\$11,250 00
40 laborers, at \$2 per day, 250 days.....	20,000 00
Total.....	\$31,250 00

For Dredging and Cleaning the Lake in Van Cortlandt Park.

The lake is fed by a brook, springs and the natural drainage of the adjacent slopes; it is being gradually filled up, by heavy rains carrying the soil, and it also contains a large amount of decayed vegetable matter. It is a positive menace to the public health, and requires an immediate remedy.

The Chief Engineer of the Department has prepared the following estimate of the cost of this work:

Bailing and draining.....	\$1,000 00
60,000 cubic yards of excavation, at 40 cents.....	24,000 00
Total.....	\$25,000 00

For Improving the Westerly Slope of Cedar Park.

This park, situated at Mott avenue, One Hundred and Fifty-eighth street and Walton avenue, is located in a rapidly growing neighborhood. Its western boundary faces Walton avenue and is nearly forty feet above the grade of the avenue. Its conformation, a steep slope, and the material a running sand, carries a mass of earth after every heavy rain, and covers the sidewalk and a portion of the roadway to a depth of sometimes over two feet. This not only interferes with public travel, but does serious damage to that section of the park. It was first deemed necessary to construct a retaining-wall, but the Engineer believes that a proper system of earth construction will remedy the evil. His estimate of cost is as follows:

14,500 yards (cubic) excavation, 30 cents.....	\$4,350 00
1,400 yards (cubic) top soil to be replaced, 30 cents.....	420 00
1,500 yards (cubic) top soil to be finished, \$1.....	1,500 00
Seeding, racking, etc.....	250 00
Total.....	\$6,520 00

Benches.

During the exceeding hot weather of last summer, especially in the latter part of the month of June and the month of July, thousands of families, women and children, camped out in our parks; every night our benches were filled; almost every tree sheltered a family. For the proper accommodation of the people, we require at least a thousand additional benches, at an estimated cost of \$6 each, \$6,000.

The Amended Charter.

Section 3, which takes effect January 1, 1902, provides that each head of a Department shall have cognizance and control of the purchase of fuel, furniture, utensils, books and other articles needed.

This provision will require an addition to the appropriation of \$3,000.

RECAPITULATION—MAINTENANCE AND CONSTRUCTION.

Appropriation as heretofore made.....	\$245,000 00
Additional amount required for increased care, etc.....	31,250 00
For cleansing, etc., Van Cortlandt Lake.....	25,000 00

For improving Cedar Park.....	\$6,520 00

For furniture, etc., mandatory under amended Charter.....	3,000 00

3. MAINTENANCE OF BOTANICAL GARDENS.

I herewith submit detailed estimate of Dr. N. L. Britton, Director-in-Chief of the Botanical Gardens. While the estimate for the coming year calls for an increased amount over that of the present year, I can safely say from personal observation that the amount asked for should be granted.

Under the additional amounts already granted by the Board of Estimate and Apportionment for permanent improvements, extensive additions have been made to the range of horticultural buildings; other improvements are now in progress. The new plantations require additional help and additional supplies, and when it is considered that the institution of the Botanical Museum and its surrounding adjuncts furnish a source of interest to thousands of visitors, and the educational features in the matter of lectures, facilities for students, both in instruction and their own studies of the thousands of specimens, the use of the valuable library connected with the institution, has already made the museum and gardens one of the most noted in the world.

I consider the estimate a most reasonable one, and would respectfully request its favorable consideration, and that the amount asked for, the sum of \$78,230 be appropriated.

4. MAINTENANCE OF ZOOLOGICAL GARDENS.

I herewith submit the detailed estimate of William T. Hornady, Esq., Director of the Zoological Gardens, for the maintenance of the gardens for the coming year, amounting to the sum of \$92,500.

The extensive improvements either completed or in progress during the present year include the erection of a public comfort building, a large workshop, a monkey house, the house for lions, the construction of a motor road, the construction of a dam, of a sewer, of sundry roads and paths, the regulating and grading of lands, all under the supervision of this Department.

A careful study of the details of the estimate will show that no extravagant salaries are provided for, that the estimate for supplies are fair and reasonable, and that the only increase of compensation is in the pay of laborers, viz., to \$2 per day.

I would respectfully request your careful examination of the estimate and your favorable consideration of the same.

5. MUSIC.

The estimate provides for the same amount of appropriation as that of the present year, viz., a series of twelve concerts in eight parks. A total of ninety-six concerts. The concerts are held in each of three parks on Saturday afternoon and in each of five parks on Sunday afternoon. I would have been pleased to have tried the experiment of an evening concert in at least one of our parks, in our more thickly populated neighborhoods, but the absence of suitable lighting facilities has prevented such a trial. I have been unable to even have our office building provided with suitable fixtures and lighting, the stereotyped reply being "no money."

Our concerts, however, have been a great success, the attendance at times exceeding ten thousand persons at a single concert.

I respectfully request that the same appropriation be made as heretofore, viz., the sum of \$12,480.

6. CONTINGENCIES.

This head of appropriation was formerly entitled, "For Telephonic Service." I deem it advisable to connect Crotona Park, Cedar Park and Macomb's Dam bridge Park with Park Headquarters. I would, therefore, request that the amount of this appropriation be fixed at \$2,000, an increase of \$500.

7. SURVEYS, MAPS AND PLANS.

The sum requested for 1902 is the same amount appropriated for 1901, viz., \$10,000.

The purpose of this appropriation is for the continuation of the surveying, monumenting and mapping the outlying parks of the Department.

For the making of a complete set of topographical maps of the parks of the borough.

For the preparation of the maps, plans and estimates of the new work of the Department.

The amount required is \$10,000.

In the preparation of the foregoing estimate I have endeavored to comply with the instructions contained in the circular letter of the Comptroller. I have rigidly excluded every item that I did not believe a matter of absolute necessity. The rapid increase of our population, the great influx of visitors to our parks, seems to me to be a matter that should receive the careful consideration of your Board to the end that the immediate improvement of our outlying parks should receive the attention their necessities require.

Very respectfully yours,

AUGUST MOEBUS, Commissioner of Parks, Borough of The Bronx.

NEW YORK BOTANICAL GARDEN, BRONX PARK, NEW YORK CITY, }
August 3, 1901. }

Hon. AUGUST MOEBUS, Commissioner of Parks, Borough of The Bronx:

DEAR SIR—Replying to your letter of July 15, 1901, in which you request me to forward an estimate in detail of the amounts required for the maintenance of the New York Botanical Garden for the year 1902, I herewith submit the following, and ask that you recommend to the Board of Estimate and Apportionment that the sum suggested be appropriated.

I would state in this connection that it will be necessary next year to operate the additional conservatories, now under construction, entailing a large additional expenditure for gardeners, coal and other supplies, to care for the additional lawns and decorative plantations made ready this year by grading operations now in progress, requiring more gardeners, and to properly conserve the increased museum collections requires more assistance.

The sum requested for 1902, \$78,230, is \$4,410 more than that asked for 1901, for which year \$55,000 was allowed. This limited appropriation made it necessary, in the first place, to do much of our work imperfectly and incompletely, and, in the second place, to devote considerable amounts from funds of the Board of Managers, properly applicable only to educational purposes, to maintenance. It is, therefore, earnestly hoped that the sum here suggested may be appropriated.

Yours very respectfully,

N. L. BRITTON, Director-in-Chief.

Approved,

D. O. MILLS, President.

NEW YORK ZOOLOGICAL SOCIETY,
GENERAL OFFICE, NO. 11 WALL STREET,
NEW YORK, August 15, 1901.

Hon. AUGUST MOEBUS, Park Commissioner, Borough of The Bronx :

DEAR SIR—In compliance with your request I have the honor to transmit herewith the estimates of the New York Zoological Society of the cost of maintaining the Zoological Park during the year 1902. The amount that will be needed to carry this institution becomingly through the coming year is \$92,500, and we earnestly hope that sum will be granted.

You will note that during 1902 the maintenance of the new monkey house and lion house, and the large and valuable collections they will contain, will imperatively demand a large increase in maintenance for fuel, animal food and service.

As yet the Zoological Park is without a suitable and very necessary outfit of horses and vehicles, such as have annually been called for in our estimates, but for which no funds have ever been made available. During the ensuing twelve months, the unusually high prices of food, supplies and fuel will have a marked effect on our maintenance funds, and this, with the constant increase in animal collections, imperatively demands a substantial increase in the funds available. The society therefore urgently requests that the sum asked for in these estimates be granted without any reduction.

Respectfully submitted,

WILLIAM T. HORNADAY, Director, New York Zoological Park.

To the Municipal Assembly of The City of New York:

The estimated expenditures of this house for the year 1902 are as follows:

For salaries of house staff and assistants (11).....	\$2,736 00
For wages of domestics and labor (16).....	1,986 00

For furniture, beds and bedding.....	500 00
For repairs.....	700 00
For all other purposes.....	750 00
Total.....	\$12,872 00

There are many gifts of provisions, vegetables, fruit and clothing which materially reduce the charges under the third item.

There are now ten persons serving under the first item.

It may be necessary shortly to increase the staff by one or to eleven persons.

The number of domestics, maids, orderlies and other helpers provided under the second head is sixteen. It may be necessary to employ a better class in the future, suggesting increased compensation. In the number named it included five orderlies, who having been patients and have recovered the use of their limbs and being without homes, are employed as waitresses and caretakers for the young children and are clothed and allowed the nominal sum of \$2.50 per month.

There is no allowance as fees or emoluments to trustees, surgeons, physicians, consultants, etc.

Respectfully submitted,
GEORGE WISTARKIRKE, V. P., Executive Officer.

CITY OF NEW YORK,
DEPARTMENT OF HIGHWAYS—COMMISSIONER'S OFFICE,
Nos. 13 TO 21 PARK ROW, BOROUGH OF MANHATTAN,
September 3, 1901.

To the Municipal Assembly of The City of New York:

Hon. ROBERT A. VAN WYCK, Mayor, and Chairman, Board of Estimate and Apportionment:

DEAR SIR—As directed by the resolution adopted by the Board of Estimate and Apportionment, June 13, I make the following estimate of the amounts required to properly conduct the business of the Department of Highways, or its successor, during the year 1902:

The increase of \$4,150 in this appropriation is needed to pay the salaries of these officers at their present rates of compensation; also to pay for the services of a Stenographer to report hearings verbatim, it being incumbent on the Department, in conformity with the Civil Service rules, to make an accurate record of the testimony upon which employees in the classified service may be removed. The services of an additional Clerk are also required and provided for.

BORING EXAMINATIONS FOR GRADING CONTRACTS.

Appropriation for 1901.....	\$2,000 00
Departmental Estimate for 1902.....	2,000 00

Summary of Estimate for "Boulevards, Roads and Avenues—Maintenance of."

Labor on macadam and gravel roads.....	\$112,000 00
Sprinkling roads.....	16,000 00
Labor at Repair Shop.....	5,500 00
Material and supplies.....	3,100 00
Miscellaneous items.....	23,400 00

Total.....\$160,000 00

The amount allowed for "Boulevards, Roads and Avenues—Maintenance of," 1901, is inadequate, hence the increase of \$20,850 for 1902. This increase is required for Laborers in excess of those which have been employed this year. If this increase is not granted it will be impossible to properly repair and maintain the 22.31 miles of macadamized roadways in the upper section of the city. In addition to the work of repairing, maintaining and sprinkling the streets, the laboring force clean the roads and remove snow and ice therefrom in winter.

BOULEVARDS, ROADS AND AVENUES—MAINTENANCE OF—SALARIES.

Appropriation for 1901.....	\$6,810 00
Departmental Estimate for 1902.....	6,850 00

Increase.....\$40 00

The salaries to be paid from this appropriation are:

	PRESENT SALARIES.	PROPOSED SALARIES.
Superintendent of Streets and Roads.....	\$2,750 00	\$2,750 00
Clerk.....	1,500 00	1,500 00
Rodman.....	1,000 00	1,000 00
Timekeeper.....	1,000 00	1,000 00
Junior Clerk.....		600 00
Total.....	\$6,250 00	\$6,850 00

A Junior Clerk is needed in the office of the Bureau of Streets and Roads, and the increase of \$40 is required to make up his proposed salary of \$600 per annum.

CONTINGENCIES—DEPARTMENT OF HIGHWAYS.

Appropriation for 1901.....	\$3,000 00
Departmental Estimate for 1902.....	3,000 00

It is estimated that this sum will be required for postage, telegraphing, expressage, traveling expenses of officers of the Department and other incidental expenses.

FLAGGING SIDEWALKS AND FENCING VACANT LOTS IN FRONT OF CITY PROPERTY.

Appropriation for 1901.....	\$2,000 00
Departmental Estimate for 1902.....	2,000 00

The amount of this estimate, which is the same as the sum appropriated for 1901, will be required to pay for flagging sidewalks and fencing vacant lots in front of and around City property in 1902.

ONE HUNDRED AND FIFTY-FIFTH STREET VIADUCT—MAINTENANCE AND REPAIRS.

Appropriation for 1901.....	\$6,000 00
Departmental Estimate for 1902.....	6,000 00

The same amount as was allowed in 1901 will be required in 1902 for repairing and maintaining the One Hundred and Fifty-fifth Street Viaduct.

REMOVING OBSTRUCTIONS IN STREETS AND AVENUES.

Appropriation for 1901.....	\$15,000 00
Departmental Estimate for 1902.....	15,000 00

The full amount of this estimate, which is the same as the appropriation for 1901, is needed for removing obstructions from streets and avenues, including dead and dangerous trees, posts, stumps, dirt, stone and rubbish found on sidewalks; also, traveling expenses of Inspectors, expense of horse and wagon for use of the Superintendent, and the wages of two Foremen and of two Laborers employed in the Corporation Yards.

REMOVING OBSTRUCTIONS IN STREETS AND AVENUES—SALARIES.

Appropriation for 1901.....	\$14,500 00
Departmental Estimate for 1902.....	15,500 00

Increase.....\$1,000 00

The increase of \$1,000 in this estimate is rendered necessary by the fact that the present salaries, which are moderate, are at the rate of \$15,500 per annum. Indeed a larger sum than this should be asked for and could be advantageously used for additional inspectors, the present force being inadequate. However, I estimate for 1902, only at the present rate of expenditure, for the following salaries:

	PRESENT SALARIES.	PROPOSED SALARIES.
Superintendent.....	\$3,000 00	\$3,000 00
Clerk.....	2,400 00	2,400 00
".....	1,500 00	1,500 00
".....	1,000 00	1,000 00
Inspector.....	1,200 00	1,200 00
".....	1,000 00	1,000 00
5 Inspectors, \$900 each.....	4,500 00	4,500 00
Keeper of Corporation Yard.....	900 00	900 00
Total.....	\$15,500 00	\$15,500 00

REPAIRS AND RENEWAL OF PAVEMENTS AND REGRADING.

Appropriation for 1901.....	\$400,000 00
Departmental Estimate for 1902.....	492,860 00

Increase.....\$92,860 00

The items of this estimate are as follows:

Maintaining asphalt pavements under existing contracts.....	\$10,000 00
Maintaining asphalt pavements upon which the periods of maintenance expired in 1897.....	2,600 00
Maintaining asphalt pavements upon which the period of maintenance expired in 1898.....	7,800 00
Maintaining asphalt pavements upon which the period of maintenance expired in 1899.....	6,000 00
Maintaining asphalt pavements upon which the period of maintenance expired in 1900.....	3,600 00
Maintaining asphalt pavements upon which the period of maintenance expired in 1901.....	12,000 00
Maintaining asphalt pavements upon which the period of maintenance will expire in 1902.....	14,000 00
Repairing asphalt pavement damaged by bonfires.....	20,000 00
Repairing and maintaining 218 miles of granite, trap-block, belgian and cobble pavements.....	416,860 50
Total.....	\$492,860 50

There are included in the increase of \$92,860, \$28,600 for maintaining asphalt pavements upon which the periods of maintenance by the contractor have expired. The remainder of the increase, \$64,260, is in the item of \$416,860.50 for repairs to about 218 miles of granite, trap-block, belgian and cobble pavements. The larger volume and the greater weight of traffic on the streets increase the work of repairing and renewing the pavements, and the increased cost of both labor and material make necessary the full amount asked for.

The estimate of \$416,860.50 for repairing granite, trap-block, belgian and cobble pavements comprises the following items:

Labor.

General Foreman, \$6 per day, 365 days.....	\$2,190 00
4 Foremen, \$5 per day each, 313 days.....	6,260 00
3 Foremen, \$4 per day each, 313 days.....	3,756 00

REPAIRS AND RENEWAL OF PAVEMENTS AND REGRADING—SALARIES.

Appropriation for 1901.....	\$22,500 00
Departmental Estimate for 1902.....	22,500 00

The salaries and wages to be paid from this appropriation are:

Amount required for Inspectors employed as work progresses.....	2,569 00	2,569 00
Total.....	\$22,500 00	\$22,500 00

This estimate is the same as the appropriation for 1901, and is as low as it can be made without impairing the efficiency of the service.

REPAVING STREETS AND AVENUES.

Appropriation for 1901.....	\$75,000 00
Departmental Estimate for 1902.....	450,000 00
Increase.....	\$375,000 00

While the estimate for 1902 shows an increase of \$375,000 over the appropriation for 1901, the estimate for next year is very small considering the great number of streets or sections of streets in need of repaving, and the numerous requests for new pavement which have had to be denied this year for lack of funds. A much larger amount would be estimated but for the fact that it is anticipated that at least \$1,000,000 will be raised by the issue of bonds for repaving work during next year.

REPAVING STREETS AND AVENUES—SALARIES.

Appropriation for 1901.....	\$30,000 00
Departmental Estimate for 1902.....	50,000 00

The full amount of this estimate is needed and should be allowed. The increase of \$20,000 is required for inspection of contract work.

ROADS, STREETS AND AVENUES UNPAVED—MAINTENANCE OF AND SPRINKLING.

Appropriation for 1901	\$40,000 00
Departmental Estimate for 1902	50,000 00
Increase	\$10,000 00

This estimate is itemized as follows :

Labor.

46 Laborers, \$2 per day each, 300 days	\$27,600 00
3 Foremen, \$3.50 per day each, 300 days	3,150 00
12 Teams, \$5 per day each, 125 days	7,500 00
Total	\$38,250 00

Material.

Gravel, broken stone, lumber, repairs to tools and new tools	\$11,750 00
--	-------------

In this estimate \$10,884 is included for labor in excess of the amount allowed for 1901, and a reduction of \$884 has been made in the estimate for material. The amount appropriated for 1901 was not sufficient to enable the Department to employ the necessary number of Laborers on the 34 miles of unpaved streets and roads to be cared for by this Department. Every heavy rain-storm causes deep washouts in the unpaved roads in the upper section of the city, necessitating extensive and repeated repairs.

MAINTENANCE OF EIGHTH AVENUE PAVEMENT.

Appropriation for 1901	\$19,200 00
Departmental Estimate for 1902	19,200 00

Under an existing contract the City must pay this sum annually for repairing and maintaining the asphalt pavement on Eighth avenue, from Thirteenth to Fifty-ninth street.

CHEMICAL AND CEMENT LABORATORY.

Appropriation for 1901	\$2,500 00
Departmental Estimate for 1902	4,000 00
Increase	\$1,500 00

The details of this estimate are :

	PRESENT SALARIES.	PROPOSED SALARIES.
Chemist	\$1,300 00	\$1,800 00
Assistant Chemist (new appointment)		1,200 00
Necessary supplies and maintenance	1,200 00	1,000 00
Total	\$2,500 00	\$4,000 00

The increase of \$1,500 is required to pay for the services of an Assistant Chemist, the work to be done in the chemical and cement laboratory being too heavy for one man to handle. An increase of \$500 in the salary of the Chemist is also provided for and should be allowed, the services rendered being worth the money.

MAINTENANCE OF RAILROAD BRIDGES.

(Section 64 of the Railroad Law.)

Departmental Estimate for 1902	\$5,000 00
--------------------------------------	------------

The amount here estimated is needed to repair and maintain the roadways of and the approaches to bridges crossing the Park avenue railroad tunnel.

Section 64 of chapter 754 of the Laws of 1897 provides that :

"When a highway crosses a railroad by an overhead bridge the framework of the bridge and its abutments shall be maintained and kept in repair by the railroad company, and the roadway thereover and the approaches thereto shall be maintained and kept in repair by the municipality in which the same are situated."

Total

The estimated quantity of 400 tons of coal will be required for blacksmiths' work and for the operation of six steam road rollers.

The ashes are to be used in forming sidewalks on streets which have not been regulated and graded, but on which there is, nevertheless, a considerable amount of pedestrian travel.

The broken stone and screenings are to be used in remacadamizing and repairing existing macadam roadways; also in surfacing streets or parts of streets not yet regulated and graded.

The water for sprinkling purposes east of the Bronx river has to be purchased from the New York and Westchester Water Company at an expense of \$20 per month for each sprinkling truck. It is intended to use sixteen sprinkling trucks for six months of the year 1902.

The increase of \$161,460 is required for additional laborers and to enable the Department to employ them for a greater part of the year than heretofore, experience having demonstrated the necessity of this change. In the appropriation allowed for this year there is an estimated deficiency of over \$40,000.

SUMMARY OF ESTIMATE FOR "LABOR, MAINTENANCE AND SUPPLIES."

Salaries, General Superintendent's Office	\$30,800 00

2 Foremen, \$3.50 per day each, 200 days	\$1,400 00
2 Carpenters, \$3.50 per day each, 200 days	1,400 00

MAINTENANCE OF LORELEI FOUNTAIN.

Appropriation for 1901, with transfer	\$5,000 00
Departmental estimate for 1902	2,000 00

Decrease

This estimate for maintaining the Lorelei Fountain includes keeping the surrounding grounds in order.

REMOVING INCUMBRANCES.

Appropriation for 1901, with transfer	\$7,000 00
Departmental Estimate for 1902	8,790 00

Increase

This estimate in detail is as follows:

Salaries and Wages.

Junior Clerk	\$600 00
2 Inspectors of Incumbrances, \$1,000 each	2,000 00
3 Laborers at yard, \$2 per day each, 365 days	2,190 00

General Account	\$4,790 00
	4,000 00

Total

Of the "General Account," \$3,600 is for teams and laborers to remove obstructions from sidewalks and roadways, and \$400 for rent of the corporation yard, in which articles removed as obstructions are stored. The increase of \$1,700 is needed for three laborers at the corporation yard; also for an addition of \$600 to the "General Account," which is insufficient to pay for the removal of incumbrances from streets and avenues.

ERECTION OF STREET SIGNS.

Departmental Estimate for 1902	\$14,000 00
--------------------------------------	-------------

This is a new estimate and is made because the Corporation Counsel has rendered an opinion to the effect that it is the duty of this Department to erect and maintain street signs.

There are about 2,800 street intersections in the Borough of The Bronx. Two sets of signs on diagonally opposite corners will be required for each intersection. It is estimated that the signs, attached to suitable posts, will cost \$2.50 per set, making \$5 for each intersection, or a total of about \$14,000.

PRELIMINARY SURVEYS, ETC.

Appropriation for 1901	\$30,790 00
Departmental Estimate for 1902	31,946 00

Increase

The details of this estimate are:

One-half salary of Chief Engineer	\$2,500 00
One-half salary of Principal Assistant Engineer	1,750 00
3 Assistant Engineers, \$2,100 each	6,300 00
3 Transitmen, \$1,680 each	5,040 00
2 Levelers, \$1,320 each	2,640 00
6 Rodmen, \$1,200 each	7,200 00
3 Draughtsmen, \$1,200 each	3,600 00
Clerk	1,200 00
New instruments and apparatus, repairs, etc.	1,500 00
Rent of Branch office	216 00

Total

This estimate shows an increase of \$1,156 over the amount allowed for 1901, and is necessary to meet the expense of making surveys and estimates of cost of proposed improvements; of preparing diagrams and lists for sales of buildings within the lines of streets which have been legally opened; also of drawing maps for renaming and renumbering streets and avenues, and giving notices to owners or occupants of such buildings.

ROCK SOUNDINGS.

Appropriation for 1901	\$9,700 00
Departmental Estimate for 1902	10,100 00

Increase

This estimate is itemized as follows:

10 Laborers, \$550 each	\$5,500 00
Foreman	1,200 00
2 Rodmen, \$1,200 each	2,400 00
New apparatus and repairs	1,000 00

Total

The increase of \$400 is required for new apparatus and repairs.

The cost of proposed regulating and grading works cannot be estimated without first ascertaining by rock soundings or boring examinations, the kinds and quantities of material to be excavated.

STANDARD BENCH MARKS.

Appropriation for 1901	\$4,870 00
Departmental Estimate for 1902	2,650 00

Decrease

These items are included in the estimate:

Assistant Engineer, half time	\$1,000 00
Leveler, half time	660 00
Rodman, half time	600 00
Axeman, half time	390 00

Total

The establishment of definite official bench marks, giving accurately the elevations above high water on fixed objects, is practically complete in the section of the borough west of the Bronx river, and part of the necessary work east of the Bronx river has been done. It is estimated that only \$2,650 will be needed to finish the work, hence the decrease of \$2,220.

REPAVING STREETS AND AVENUES.

Departmental Estimate for 1902	\$300,000 00
--------------------------------------	--------------

This amount is needed to repave about five miles of streets which are in bad condition.

Total	\$87,908 00	\$88,308 00

While this estimate shows an increase of \$10,470 over the appropriation for 1901, there is a difference of only \$400 between the present salaries and the proposed salaries, this amount being needed to increase the salaries of an Assistant Engineer and of a Rodman, \$200 each.

The Departmental Estimate for 1901 was \$84,678, including seven new appointments proposed to be made. Notwithstanding that only \$77,838 was allowed, an additional Assistant Engineer, 2 Rodmen, 2 Office Boys and 2 Inspectors of Incumbrances have been appointed, so that the present salary roll is at the rate of \$87,908 per annum, or \$10,070 in excess of the amount appropriated. These new appointments were absolutely necessary, and the Deputy Commissioner states that no matter how the Department may be reorganized after January 1, 1902, the full amount of the estimate for that year will be required.

Repairs to Unpaved Streets and Macadamized Roads.

7,000 cubic yards of broken stone and screenings.....	\$12,600 00
Teams and labor.....	50,000 00
Sprinkling macadamized roads.....	12,000 00
Purchase of steam roller.....	2,500 00
Rent of yard for storage of sprinklers and material.....	650 00

Total..... \$77,750 00

Miscellaneous.

Setting and resetting curb, gutters and crosswalks.....	\$25,000 00
Removal of incumbrances.....	10,000 00
Flagging and fencing in front of City property.....	1,500 00
Surveying instruments and engineering materials.....	1,200 00

Total..... \$37,700 00

The appropriation of \$275,000 is inadequate, and the increase of \$236,550 is required and should be allowed. The estimate of \$511,550 for 1902 is moderate and all the items specified are necessary.

It was hoped that a good deal of the work of setting and resetting curb, gutters and crosswalks could be done this year, but as the appropriation asked for was not allowed, the work had to be postponed. Many thousands of feet of curb have been destroyed by fire and otherwise, and a large proportion of the crosswalks throughout the borough need rejoining and relaying. A large quantity of new stone for this purpose will be required. Accidents are constantly occurring in consequence of defective pavements and crosswalks, and damage suits, aggregating thousands of dollars, are pending against the City, hence the necessity of allowing the full amount estimated.

REPAVING STREETS AND AVENUES.

Appropriation for 1901.....	\$25,000 00
Departmental Estimate for 1902.....	500,000 00
Increase.....	\$475,000 00

The estimate for repaving streets and avenues is made \$500,000, and ought to be supplemented by at least \$1,000,000 by the issue of bonds. Considering the great number of streets in Brooklyn that are urgently in need of repaving, the appropriations for this class of work since consolidation have been very small and inadequate, an average of less than \$369,000 a year. Of the 548 miles of paved streets in Brooklyn 237 miles are paved with cobble-stone. All the cobble-stone pavements ought to be replaced as soon as possible, and the present estimate of \$500,000, irrespective of any amount that may subsequently be allowed from the proceeds of bonds, is by no means extravagant. Much repaving work ought to be contracted for early next year, without waiting for a bond issue, the authorization of which is a matter of doubt and uncertainty. This is an additional reason why the estimate of \$500,000 should be allowed.

CONTINGENCIES.

Appropriation for 1901.....	\$1,500 00
Departmental Estimate for 1902.....	2,000 00
Increase.....	\$500 00

The sum of \$1,500 allowed for Contingencies in 1901 was almost exhausted on July 1, and the increase of \$500 for next year is necessary.

EQUIPMENT OF LABORATORY.

Departmental Estimate for 1902.....	\$5,000 00
-------------------------------------	------------

The laboratory which was established in Brooklyn some years ago for making analyses of paving materials having been transferred to Manhattan in 1899, this Department, or its successor, in the Borough of Brooklyn, will, after January 1, 1902, be without means of testing paving materials unless the amount of this estimate is appropriated.

Total.....	\$14,820 00	\$14,820 00

In accordance with a decision of the Court of Appeals, a Clerk and Bookkeeper, and a Clerk, at \$1,500 per annum each, had to be reinstated on June 1, making an addition to the pay-roll at the rate of \$3,000 per annum, so that according to the present pay-roll the amount allowed for salaries will be exceeded \$1,373 at the close of the year, necessitating a transfer of the latter sum from some other appropriation to that for salaries, also requiring the increase of \$2,720 asked for next year.

The increase of \$3,400 in the proposed salaries is required for an increase of \$900 to the Assistant Engineer, \$300 to the Second Assistant Engineer, \$500 to a Transitman, and \$200 to a Chainman; also for the salary of a Third Assistant Engineer, at \$1,500 per annum. The increases specified and the new appointment of Third Assistant Engineer are necessary in view of the great volume of work to be done.

This is the smallest ward in the borough, but the maintenance of 26 miles of macadam roadways, 3½ miles of paved streets, 35 miles of gravel roads and 27 miles of unpaved streets is rendered exceedingly difficult and expensive by the severe storms which sweep over the ward, doing great damage to the road surfaces.

Material Required for the Maintenance of Macadam Roads in all Wards.

WARDS.	BROKEN STONE. (Cubic Yards.)	SCREENINGS. (Cubic Yards.)	SAND. (Cubic Yards.)	PEEKSKILL GRAVEL. (Cubic Yards.)

Second.....	2,200	2,600	800
Third.....	3,200	3,600	2,400
Fourth.....	3,200	3,200	2,800
Fifth.....	800	1,200	3,000
Total.....	12,000	12,600	7,000	3,000

The estimated cost of these quantities of material is :

12,000 cubic yards broken trap stone, \$2.35 per yard.....	\$28,200 00
12,600 cubic yards broken trap screenings, \$2.35 per yard.....	29,610 00
7,000 cubic yards clean, sharp sand, 85 cents per yard.....	5,950 00
3,000 cubic yards Peekskill gravel, \$2.60 per yard.....	7,800 00
Total.....	\$71,560 00

There are about 400 miles of macadam and gravel roads in this borough. These roads require frequent top dressing and resurfacing to properly maintain them, and all the material specified is needed for that purpose. In fact, the estimate is very low, being only an average of 30 cubic yards of broken stone per mile, 31½ cubic yards of screenings per mile, and 17½ cubic yards of sand per mile.

The increase of \$210,590 in the estimate for "Labor, Maintenance and Supplies" is absolutely necessary. The amounts allowed in preceding years have been entirely inadequate. The 383 miles of macadamized streets require constant attention throughout the year. Being practically newly constructed, these streets have required and have received only occasional resanding during the past three years. Many of the streets now need resurfacing and sections require reconstructing. If this work is not done next year, the roadways will be destroyed beyond the stage at which repairs will suffice. The full amount of the estimate should therefore be allowed.

Heretofore only one-third of the salary of the Deputy Commissioner and Chief Engineer has been charged to this account, the other two-thirds having been included in the salary appropriations of the Departments of Sewers and of Water Supply, respectively. By the reorganization which will be made next year, pursuant to the Revised Charter, the services of the Deputy Commissioner and Chief Engineer will be confined to the new Department of Public Works, into which will be merged the Departments of Sewers and of Highways, as well as part of the duties of the Department of Public Buildings, Lighting and Supplies. It is, therefore, proper to provide for one-half of the Deputy's salary in this estimate. It is believed that the reorganization will greatly increase the work and responsibility of the Deputy Commissioner, and of the Principal Assistant Engineer, in whose salary an increase of \$600 is proposed.

The other increases in the salary account are provided for to make the salaries the same as those paid for similar work in the other boroughs, it being only fair that the salaries should be uniform throughout the city.

In explanation of this estimate, I quote in full the report made to me by Deputy Commissioner Morrison, of the Borough of Richmond:

"In reference to the appropriation for 'Labor, Maintenance and Supplies,' permit me to say that the Department of Highways in the Borough of Richmond submitted in 1900 an estimate of the amount of money necessary to be appropriated for the present year, which was \$188,120. This estimate was carefully prepared, and the amount asked was only such as would economically and intelligently protect the money heretofore invested by properly maintaining the roads, streets and avenues that had, at considerable expense, been constructed on this island. It further contemplated the fact, which was an extremely serious matter, that the Laborers pay had, within the closing weeks of the previous year, been increased from \$1.50 per day to \$2.00 per day, and that the hours of labor for said Laborers had been reduced from ten hours as a working day to eight hours. The amount asked for was not more than was sufficient to have given the number of men employed steady work at the increased pay and reduced hours. The Board of Estimate and Apportionment, however, in their wisdom, cut the appropriation from \$188,120 to \$135,000, resulting in a condition which is at present forcing the Laborers in the Department of Highways of the Borough of Richmond, in consequence of the shortage of the appropriation, to make fractional parts of a week, at the present writing only one-half time. In other words, the appropriation will not pay for more than three days a week out of six for laboring force which is necessary to maintain these highways. The inroads which were made upon the roads and the repairs and cleaning which were forced upon the Department by the winter storms, and the small force employed, necessitated that full time should be made by the entire working force in the early part of the season, in order that the roads might be put in good shape. This having been accomplished, the pay-rolls had to be cut, even though the necessities were such, in order to maintain the roads at a high standard, full time should be still made by the laboring force.

"The period of drought, the high temperature and prevailing winds which characterized late June and early July did much to rob the macadamized roads of their top dressing and start the picking up of the macadam stone. This involved a heavy expenditure for sprinkling, surfacing and steam rollers, all of which could have been reduced to a very small amount of money had the Department been able to maintain, unbroken, its laboring force throughout the season. A small depression, the loosening up of a piece of macadam, if the Department had sufficient laboring force employed, could have been checked within twenty-four hours after it was discovered. Unable to attend to it, the raveling spread with the rapidity that is known only to road makers, and, in proportion to the small appropriation, the damage which has been done is astounding. Believing that the Board of Estimate and Apportionment desires to preserve the road system of the Borough of Richmond, which is considered the best in the United States, and pointing out the fact that some ten miles of additional roads will be necessary for maintenance during the ensuing year, and that a more liberal appropriation will be a step in the direction of economy instead of extravagance, I submit for their consideration the following detailed arguments concerning why this matter should be liberally treated. The earliest estimates furnished by this Department of the moneys necessary to properly maintain the road system have never been reached by the Board of Estimate and Apportionment, although the necessity for such appropriations have never varied, and in the history of each year the operation of the Department has shown that a mistake has been made in failing to grant the desired amount, as speedy repairs have never been secured when they would have saved many times the then cost of said repairs.

"In the amount requested for 'Labor, Maintenance and Supplies,' I have made a conservative estimate based on the number of miles of macadam roads and dirt roads in this borough under maintenance by this Department, including in the supplies the price of a new steam roller and five windmill pumps and tanks for sprinkling purposes, both of which items are absolutely needed by this Department, no roller being included in its present plant, and the Department being forced to pay \$13 a day for steam roller hire for any work it may be necessary to perform.

"The number of miles of new roads which have recently been turned over to this Department, for maintenance, from the contractors, are entirely outside of the radius of the water supply system in this borough. It is, therefore, necessary to cart water for sprinkling purposes long distances, at great expense, to maintain these roads, and with the present insufficient appropriation for this purpose, these roads are deteriorating rapidly. Five of these windmill pumps and tanks are now being used by this Department, with great economy, and I ask an amount of \$2,500 for this purpose.

"The amount allowed this fund for the year 1901 is \$53,120 less than asked for, though each item was named, and a careful, conservative estimate was made. I also beg to state, in this borough the water being supplied by private water companies, this Department is obliged to purchase the water for sprinkling purposes. The approximate yardage of macadam in this borough is 1,708,250, covering about 182 miles of road. A fair expense for maintaining this class of macadam, including cleaning, sprinkling and repairs, is 11 cents per square yard, which figure has been obtained by actual work, amounting to \$187,907.50. Adding to this about \$7,092.50 for the care of about 112 miles of dirt roads and supplies, we have the sum of \$195,000, which is the amount asked for by this Department for 'Labor, Maintenance and Supplies,' though arrived at in an entirely different manner as itemized in said estimate.

"With respect to 'Preliminary Surveys,' this Department has been much hampered during the past year, owing to the amount of new work which has come to it under the heading of 'Assessment Work,' and for the preliminary surveys and maps for which no allotment was granted by the Board of Estimate and Apportionment for this year, though this Department requested that \$2,500 be set aside for this purpose. As this work will be much facilitated under the revision of the Charter, permitting the boroughs to handle their own local improvements almost entirely, there will undoubtedly be a large increase of this class of work, and the amount of \$5,000 is, therefore, requested, for this purpose, for the ensuing year, as by the decision of the Comptroller none of the expense of engineering, etc., can be charged against the Street Improvement Fund until the contracts have been let and registered.

"In explanation of the estimate for 'Maintaining and Repairing Bridges,' I would say there are about 240 small bridges with wooden decks in this borough, many of which are becoming out of repair. In 1898 \$1,000 was set aside for this purpose by the Board of Estimate and Apportionment, which sufficed to put those bridges in good order at that time. The same amount was asked for the year 1901, but was not allowed by the Board of Estimate and Apportionment. Though this Department has, with its limited fund for 'Labor, Maintenance and Supplies,' made the most necessary repairs where the condition was dangerous, yet the general condition of these bridges is becoming poor, and it will be necessary to make extensive repairs during the year 1902. It is therefore requested that \$1,000 be allotted for this purpose.

"In conclusion, I beg to draw your attention to the detailed statement of the expenditures for the year 1901. Each amount has been proportionately estimated, so that the total expenditure will not exceed the appropriation of \$135,000 for 'Labor, Maintenance and Supplies,' and the estimated amount derived from the 'Special Fund for Restoring and Repaving' of \$2,415. These amounts, however, do not represent by any means the amount which it is necessary to expend in order that our highways may be kept in the condition they should be and as it is desired by this Department to keep them.

"The amounts set opposite each item under the heading for 1902 will do this work properly if allowed by the Board of Estimate and Apportionment.

"In the item of street sprinkling the amount per diem has been increased from \$4 to \$5 for the following reasons:

"These street sprinklers cost \$250 apiece and deteriorate very rapidly and the repairs are expensive. Though much dissatisfaction has been apparent among the owners of the sprinklers, this Department has never paid but \$4 per day (the amount paid teams with dirt trucks), but we have come to the conclusion that \$5 is a fair rate of compensation for street sprinklers, and recommend that after January 1, 1902, this amount be paid them if allowed by the Board of Estimate and Apportionment. These sprinklers only work about six months in the year, and a strike which was threatened this month was only averted by the promise to endeavor to obtain an additional allowance for the year 1902."

OFFICE OF THE TREASURER OF KINGS COUNTY,
BOROUGH OF BROOKLYN, NEW YORK CITY,
August 29, 1901.

Hon. P. J. SCULLY, City Clerk, Manhattan, N. Y.:

DEAR SIR—Following is the estimate of the requirements of this office for the calendar year of 1902, amounting to the sum of one hundred and nine thousand four hundred dollars (\$109,400):

Jurors' Fees, Kings County.....	\$100,000 00
Salary Account—	
General Bookkeeper, Elwood T. Baker.....	\$2,800 00
Assistant Bookkeeper, Charles W. Dickerson.....	2,000 00
Chief Clerk, Leonard I. Neeson.....	2,100 00
Jury Clerk, William J. Carroll.....	1,800 00
Contingent Expenses.....	700 00
Total.....	9,400 00
Total.....	\$109,400 00

The amount asked for Contingent Expenses is reduced \$200 from the previous year, and the salary of the Jury Clerk is increased a like amount. This increase of \$200 of the salary of the Jury Clerk was asked for last year, but was probably overlooked. The duties of the position in taking care of the jurors' accounts and paying more than ten thousand jurors during the year justly entitles the Jury Clerk to a salary of \$1,800, and we trust you will see fit to allow it.

Your attention is also called to the omission of the County Treasurer and Deputy County Treasurer from the salary list. The revised Charter of New York provides for the abolishment of the office of Kings County Treasurer.

Inasmuch as the office is likely to be continued as a branch of the Department of Finance, we would suggest that you set aside the sum of \$5,000 as the salary of the Deputy who may be placed in charge of the same after the 1st of January, 1902.

Very respectfully,

THOMAS F. FARRELL, Deputy County Treasurer.

BROOKLYN TRAINING SCHOOL AND HOME FOR YOUNG GIRLS,
No. 1483 PACIFIC STREET,
BROOKLYN, August 27, 1901.

To the Board of Estimate and Apportionment:

In compliance with the request of the Comptroller of New York City that the officers of institutions should send to you before September 3 an estimate of expenditures for the year 1902, we beg to submit our report. From past experience we need for care:

Services of Teacher, Matron, Cook, Laundress and Janitor.....	\$1,091 50
For maintenance and support.....	3,559 08
Total.....	\$4,640 58

We respectfully beg to refer you to our letter of August 1, 1900, and would repeat that we do not consider \$3 a week per capita an adequate sum for the care, support and maintenance of our inmates. We have just completed at considerable cost alterations in our building which will increase our facilities to care for our inmates and also afford accommodations to a larger number. We trust you will take this into consideration in awarding us our apportionment of the City money.

Submitted by order of the officers and managers this 30th day of August, 1901.

RACHEL B. TAYLOR, President.

To the Board of Estimate, Comptroller's Office, New York City:

The officers of the Society for the Aid of Friendless Women and Children make application for the sum of four thousand dollars (\$4,000) for the year 1902.

They present with this a copy of their annual report made for the year ending October 31, 1900, showing their work in detail for that year.

They especially call the attention of the Board of Estimate to the peculiar work which they are organized to perform, and show the Board that in its very nature, the ordinary provisions for commitment and compensations as applied to hospitals and homes of a more permanent nature will not apply to their work.

The Charter, being chapter 472 of the Laws of New York for the year 1870, defines the objects of the society, as follows:

"Sec. 2. The objects of said corporation shall be to aid destitute and friendless women and children to help themselves, by providing a temporary home, where they may receive proper moral and intellectual culture, until they shall be provided for otherwise. It shall be a prominent object to find them employment and a home where their services are needed, and where they may be surrounded by the best social and moral influences."

The providing of a temporary home for women and children suddenly thrown into the lists of friendless ones is not possibly consistent with the deliberation attendant upon a formal examination and commitment by the proper authorities.

While needed time for an examination was consumed, the friendless one would die, either physically, or morally, or both.

The position of this society may be best illustrated by the work done and aid extended by an emergency hospital.

A man or woman falls before a trolley car and has an arm crushed and consequently an artery severed. A hurry call is sent to the nearest hospital. An ambulance surgeon and assistants put a compress on the bleeding arm, bear the sufferer quickly to the hospital, apply restoratives, turn back again the ebbing tide of life, and nurse the crippled one to health again. This emergency work is done before the surgeon knows whether the patient is from New York, or Hoboken, or Japan, but the support of that hospital which enables it to give quick aid to the injured must come from somewhere and the City gives its aid to cover such cases.

This society is an emergency hospital for friendless women suddenly overtaken by disaster or calamity. They must have shelter now, to-night, or be left for death or worse on the street. More than one-half of the women aided are persons suddenly brought to face unexpected trial and grief. In less than a fortnight they are generally restored to conditions under which they can meet their sorrows and their calamities with hope and with success, having obtained employment or been restored to those able and willing to care for them. This society would violate its charter and would deserve to have its legal existence terminated if it refused to take in and succor a suffering, friendless and suddenly bereaved woman because she could not present formal papers of commitment when she turned to the society's home for aid.

Provision should be made by which the City would give some compensation in such cases, and we urgently plead with this Board to do it now for cases occurring in the next calendar year.

Relief should be paid for in another class of cases.

The society is tenderly caring for an average number of fifty little children. They are fed and clothed and sent to the public school, or to a kindergarten maintained in the society's home.

For these the City pays only for those who are known to be either orphans or half orphans. In half the cases the children aided have been abandoned by one or both of their parents and the little one is left worse off than if such parent were dead.

We urge this Board to provide for payment in cases of abandonment when abandonment is proved as is now done in cases of known death. For this present year the expenses have been extraordinary. The buildings which have been in use thirty (30) years required renovation throughout, which has been made.

We do not ask or expect this Board to appropriate specifically for such renovation, but we state it because it furnishes good reason for a liberal estimate in the directions in which the Board can act.

We average fifteen (15) women only temporarily in the home, for which, as a rule, we soon find employment and make self-supporting. We average fifty (50) little children who are absolutely helpless and friendless except as aided and educated by us.

In addition there are usually a very few transient homeless women whom we keep for a night which may average probably five (5) for the year.

Our expenses for these seventy (70) inmates are a trifle over one hundred dollars (\$100) each, a condition of economy which is only attained by the personal care of the lady managers who administer the home as a most sacred trust.

All of which is respectfully submitted,

JENNIE W. HOPKINS, President.
E. M. C. WHITE, Vice-President.

ST. ZITA'S HOME FOR FRIENDLESS WOMEN,

To the Municipal Assembly:

DEAR SIR—In accordance with the resolution of the Board of Estimate and Apportionment of June 13, 1901, I have the honor to submit on behalf of St. Zita's Home for Friendless Women an Estimate of the amount required for the care and support of the inmates of this institution for the year 1902. It is respectfully asked that the sum of four thousand dollars (\$4,000) be appropriated for the above-mentioned purpose.

The Municipal Assembly:

GENTLEMEN—The sum which will be required for the maintenance of about five hundred and forty children of St. Ann's Home for Destitute Children during the year 1902, at one hundred and four dollars (\$104) per capita, will be about fifty-six thousand dollars (\$56,000).

Respectfully yours,

SISTERS OF THE GOOD SHEPHERD.

OFFICE OF THE
BROOKLYN DISCIPLINARY TRAINING SCHOOL FOR BOYS,
EIGHTEENTH AVENUE, BETWEEN FIFTY-SIXTH AND FIFTY-EIGHTH STREETS,
BROOKLYN, N. Y., August 31, 1901.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—Pursuant to chapter 235, Laws of New York, 1895, and amendment thereto, and title 5, chapter 378, Laws of New York, 1897, we beg to respectfully submit an estimate for the several amounts necessary for the proper conduct of the Brooklyn Disciplinary Training School for Boys for the year 1902.

In compliance with the order of the Board of Health, in which our buildings were declared untenable, we transferred our boys, 193 in number, to the care of the New York Catholic Protectory until such time as we could return them to their own school. For the past seven months our buildings have been altered and repaired under the direct supervision of the Department of Public Buildings, Lighting and Supplies. It is most gratifying to report that your wards returned to their school in good health and are now reaping the benefits of the many changes made in the school and its surroundings.

We have exercised great care in preparing this estimate, which is based on an average daily attendance of 250 boys. The conditions under which we are working at present are more favorable than at any time in the past history of the school. The class work compares favorably with that of any school wherein boys of the character we receive are educated and disciplined.

The shop-work, by reason of the introduction of advanced modern machinery, proves the utility of these branches in furthering the education and reformation of the juvenile offender.

The following branches of manual training, under competent instructors, are in operation: Shoemaking, knitting, tailoring, landscape gardening, printing, sewing, farming, stenography and typewriting, wood-turning, carpentering, engineering.

In addition to the above, we intend, during the coming year, to introduce: Bricklaying, baking, engineering (electrical), stone-cutting, cooking, plumbing and gas-fitting, painting and decorating, photography.

We have in the course of operation a complete system of military drill. The boys are fully uniformed, armed, equipped and taught the manual of arms, bayonet exercise, firing, calisthenics and all the military manoeuvres; all of which tend to a perfect system of discipline throughout the school. We have a band, composed of twenty pieces, which bids fair to make its mark in the near future. Thus, with the addition of the above shops, together with those in the course of operation, we hope to be able to care for our buildings and grounds without expense to the City, and at the same time further the education of the mischievous and unruly juvenile offenders committed to our care.

We are in need of a hospital and detention ward wherein new boys may be detained and subject to the utmost scrutiny before associating with the other inmates. We, for the present, are making use of two rooms in the frame building for this purpose, and are endeavoring to comply with the requirements of the Board of Health Laws and the Laws of the State in so far as our limited resources will permit.

To properly operate the present plant, and the introduction of those contemplated, we will need for the year 1902 seventy-eight thousand dollars. We respectfully petition your Honorable Board for this sum in order that we may fully meet the demands on this the only Disciplinary Training School under the jurisdiction of the municipal government.

BOROUGH OF BROOKLYN—CITY OF NEW YORK, August 5, 1901.

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—I, Charles Berger, respectfully ask that the appropriation for the payment of my salary for the year 1902, known as General Interpreter of the Hungarian, Slavonic, Polish and Hebrew dialects, German and French languages for the several Magistrates and Municipal Courts and the Court of Special Sessions in the Borough of Brooklyn, be increased three hundred dollars (\$300), making said salary the sum of eighteen hundred dollars (\$1,800) per year, instead of \$1,500, which I now receive, and as a reason for such increase I desire to state that prior to consolidation my services were only required, by the terms of appointment, in the four (4) Police Courts of said borough, which were subsequently increased to eight (8). In addition thereto, although under no legal obligation to act as Interpreter, I attend the various Civil Justices' Courts in my official capacity whenever requested. Since consolidation I must attend fourteen (14) courts, including the Court of Special Sessions, which necessitates my services in the boroughs of Queens and Richmond. The matter of car-fare, in traveling around the various boroughs, is quite an item. Considering the services performed and the languages translated, I respectfully submit that the desired increase should appear to your Honorable Board as a just and reasonable one and fully warranted by all the extra duties placed upon me by recent official requirements.

Yours respectfully,

CHARLES BERGER.

Salary for year 1901.....	\$1,500 00
Salary for year 1902.....	1,800 00

Charles Berger, the within petitioner, was appointed by resolution of the Common Council of the former City of Brooklyn, September 15, 1888, as Interpreter, pursuant to chapter 623 of the Laws of 1875, and apportioned and assigned to perform his duties in the Borough of Brooklyn and by resolution of the Mayor of the former City of Brooklyn, pursuant to sections 1373 and 1536 of the Charter of the Greater City, which appears in the CITY RECORD of January 14, 1898, page 184.

We recommend the increase as herein asked for.

E. G. HIGGINBOTHAM, City Magistrate.

Pay-roll.....	7,480 00	8,480 00
Total.....	\$42,430 00	\$43,530 00

The increases over estimate for 1901 are requested for the following reasons:

The increase of \$100 for Jail Physician, Warden, Keepers, Matron and Assistant Matron and Orderly for the following reasons:

1. The labor of each of said persons has increased each year and the present pay is not sufficient for the labor performed in proportion with salaries paid in other boroughs.

2. In the cases of Matron and Assistant Matron, each of them acts as a nurse to the sick prisoners, no nurses being provided in this borough.

In the appropriation for feeding and maintenance of prisoners for 1901, there will probably be an unexpended balance of \$2,000 at end of this year.

Respectfully submitted,

JOSEPH H. DE BRAGGA, Sheriff.

GENTLEMEN—I have the honor to submit the following estimate of the amount of money required to conduct the business of the office of the President of the Board of Public Improvements for the year 1902.

Respectfully,
MAURICE F. HOLAHAN, President.

MAIN OFFICE.	DEPARTMENTAL ESTIMATE, 1901.	DEPARTMENTAL ESTIMATE, 1902.

Decrease.....		\$8,300 00

The decrease between the amount asked for the Main Office for the present year (1901) and the amount asked for 1902, viz.: \$8,300 is made up as follows:

Omitting provision for President's salary for 1902.....	\$8,000 00
Omitting provision for salary of Private Secretary for 1902.....	2,400 00
Reducing salary for one Messenger and one Clerk by.....	150 00
	\$10,550 00
Including salary of Clerk of Street Openings heretofore charged to "Maps for Street Openings".....	2,250 00
Total.....	\$8,300 00

In your consideration of the foregoing tabulation it will be noticed that, with the single exception of the offices of the President and his Private Secretary, the entire force of employees of the main office of the Board of Public Improvements, as at present constituted, is provided in the estimate of funds required for the year 1902.

This provision is necessary, in view of the fact that while the new Charter virtually provides that the Board of Estimate and Apportionment shall supersede the Board of Public Improvements in its present functions, it fails to provide a necessary force to perform additional duties prescribed by the new Charter, and which will devolve upon the main office of the Board of Estimate and Apportionment.

By a careful study of the Charter, particularly of those sections that relate to the assumption of powers and duties of the Board of Public Improvements by the Board of Estimate and Apportionment, it is evident that the Board of Estimate and Apportionment must have a larger force to carry out the provisions of the recent act.

To substantiate this opinion, permit me to refer your Honorable Board to the following sections of the new Charter and the provisions therein contained, which bear directly on the transfer of the powers and duties of the present Board of Public Improvements to the Board of Estimate and Apportionment.

Section 243, Page 157, States as follows:

"The said board of estimate and apportionment shall exercise such powers, and perform such duties with respect to the whole territory embraced within The City of New York, as constituted by this act, as were heretofore vested in the board of street openings and improvements," etc.

"All the maps, records and proceedings of the board of public improvements relating to the subjects as to which jurisdiction is conferred by this section upon the board of estimate and apportionment shall be transferred to, kept and maintained in the office of the board of estimate and apportionment," etc.

Section 434, Page 273.

"If the local board shall, by resolution, decide that proceedings be initiated for a local improvement within its jurisdiction, it shall thereupon forthwith transmit a copy of such resolution to the board of estimate and apportionment. Said board shall promptly consider such resolution and approve or reject the same," etc.

"No public work or improvement involving an assessment for benefit shall be so authorized until there has been presented to the board of estimate and apportionment an estimate in writing, in such detail as the board may direct, of the cost of the proposed work or improvement and a statement of the assessed value," etc.

Section 436, Page 274.

"In all cases where the board of estimate and apportionment or the board of aldermen, or the board of estimate and apportionment and the board of aldermen together, with or without the concurrence or approval of any other board or officer, are authorized to determine that a local improvement is to be made, the said board of estimate and apportionment, or the said board of aldermen, or both, as the case may be, shall determine whether any, and if any, what proportion of the cost and expense thereof shall be borne and paid by The City of New York," etc.

Section 442, Page 279.

"The board of estimate and apportionment is authorized and empowered, whenever and as often as it may deem it for the public interest so to do, to initiate a change in the map or plan of The City of New York so as to lay out new streets, parks, bridges, tunnels and approaches to bridges and tunnels, and approaches to bridges and parks, and to widen, straighten, extend, alter and close existing streets, and to change the grade of existing streets, shown upon such map or plan, by publishing notice of its proposed action for ten days," etc.

Section 443, Page 280.

"The map or plan of The City of New York, or a certified copy thereof, showing the streets and parks within The City of New York as constituted by this act, shall be kept, one copy thereof, so far as the same shall apply to any one borough, in the office of the borough president of such borough. Whenever the map or plan of The City of New York, as heretofore laid out, adopted, established and confirmed by this act, or as hereafter laid out, adopted and established pursuant to this act, shall be changed, and whenever the grade of any street shown thereon shall be changed, the board of estimate and apportionment shall forthwith cause the maps or plan of The City of New York, or in the grade of a street or streets shown thereon, to be certified by the secretary of said board, and filed," etc.

Section 447, Page 282.

"Whenever the president of any borough shall determine that it is necessary to raise any grade of any street or streets for the proper sewerage of the sewer district in which such street or streets, or parts of streets are situated, the said president shall prepare a plan showing said proposed change of grade and shall present the same to the board of estimate and apportionment, which said board is hereby authorized and empowered to change the grade of such street or streets," etc.

Section 970, Page 538.

"The City of New York is authorized to acquire title for the use of the public to all or any of the lands required for streets, parks, approaches to bridges," etc.

"The board of estimate and apportionment is authorized to direct the same to be done whenever and as often as it shall deem it for the public interests so to do," etc.

"The City of New York is authorized to make application, or to cause application to be made to the Supreme Court of this State in the first or second judicial departments as the case may be for the appointment of commissioners of estimate and assessment, etc., and to assess the cost of such improvement or such proportion thereof as the board of estimate and apportionment directs," etc.

Section 990, Page 555.

Should the board of estimate and apportionment at any time deem it for the public interest that the title to the land and premises required for any street or park heretofore or hereafter laid out, widened, altered, extended or otherwise improved, should be acquired by The City of New York at a fixed or specified time, the said board of estimate and apportionment may direct, by a three-fourths vote, where no buildings are upon such lands, that upon the date of the filing of such oath of the commissioners of estimate and assessment as provided for in this chapter, or upon a specified date hereafter, and where there are buildings upon such lands, that upon a date not less than six months from the date of the filing of said oath, the title to any piece or parcel of land lying within the lines of any such street or park, shall be vested in The City of New York," etc.

Section 1000, Page 563.

The board of estimate and apportionment is authorized and empowered to discontinue any and all proceedings taken for opening, widening, straightening, extending, altering and closing streets or parks, or parts thereof, at any time before title to the lands and premises to be thereby acquired shall have vested in The City of New York, if, in its opinion, the public interest requires such discontinuance, and with power to cause new proceedings to be taken," etc.

Section 1436a, Page 786 (Relating to Street Opening Matters).

"It shall be the duty of the department, board or officer which has selected lands as aforesaid to submit the matter to the board of estimate and apportionment, and no further proceedings shall be taken until the acquisition of said lands is approved and authorized by a majority vote of all the members of the said board of estimate and apportionment at a meeting of said Board duly called and held," etc.

Section 1436, Page 786.

"Said board of estimate and apportionment shall have power and is hereby authorized to agree as to the purchase price of the lands and interests therein selected as aforesaid, or any part thereof. If no such agreement is reached, or if any such agreement does not include the whole of the lands and interests therein, the said board shall direct the corporation counsel to institute proceedings," etc.

It is manifest that to successfully carry out the duties prescribed by the new Charter as provided in the sections quoted above, which include all street-opening proceedings, and the mandatory provisions of section 243, "all maps, records and proceedings of the Board of Public Improvements, etc., shall be transferred to, kept and maintained in the office of the Board of Estimate and Apportionment," that substantially if not entire the Board of Public Improvements

as at present constituted should be retained. This includes a Secretary under the provisions of section 443 of the new Charter, is required to certify and file adopted maps, etc.

The quoted sections of the new Charter also emphasize the fact that a Chief Topographical Engineer must be provided for, to whom the Board of Estimate and Apportionment can refer for careful examination all matters pertaining to street openings, changing of grades, approaches, etc. It will be upon the reports of this official that members of the Board of Estimate and Apportionment must rely prior to official and final action. After an intimate experience of nearly four years with the work of this Department, it is clearly evident that a Topographical Bureau should be connected with the office of the Board of Estimate and Apportionment, to be presided over by a Chief Topographical Engineer, to whom all matters submitted by the various Borough Boards or by property-owners involving new improvements should be submitted. By adopting this course the Board of Estimate and Apportionment would be furnished with necessary information and better able to deal intelligently with all contemplated projects affecting the five boroughs.

At present the Board of Public Improvements has on file all the data and information relating to the topographical features of each borough, collected since consolidation—the result of careful study and compilation—with a view of establishing a complete and systematic plan of harmonious development of the greater city as a whole.

The present Topographical Bureau has accomplished a large amount of preliminary work in the several boroughs (as is shown later in this report) which, if discontinued, would mean not only confusion and delay but a serious financial loss.

As stated before, the necessity for a Topographical Bureau is imperative, because, without such aid and advice, the individual members of the Board of Estimate and Apportionment will find it impossible to perform the work of their own departments, and at the same time investigate the subjects of new improvements. This particularly applies to the Mayor, Comptroller and President of the Board of Aldermen, who will be required to give their attention to the fiduciary affairs of the Board, leaving but little available time to properly and fully consider street opening and similar matters.

TOPOGRAPHICAL BUREAU.

The Topographical Bureau of the Board of Public Improvements is charged with the following duties:

I. TO MAKE THE TOPOGRAPHICAL SURVEY OF THE CITY OF NEW YORK.

Borough of Manhattan.

Topographical surveys are required where alterations of the street plans and change of grades are directed by the Board, especially the territory north of One Hundred and Fifty-fifth street for which section a modification of the street system is contemplated.

Surveys are necessary for the preparation of damage maps in street opening proceedings.

Borough of The Bronx.

Surveys are required for the purpose of monumenting avenues and streets, for making damage maps to acquire title to streets, and for occasional change in the street plan.

Borough of Brooklyn.

Funds are required for the same purpose as for the Borough of The Bronx; also for the surveying of about 4,000 acres of land which has never been surveyed before.

Borough of Queens.

The surveys of Long Island City, College Point, Flushing, Whitestone and Jamaica have to be examined, and about 60,000 acres have to be surveyed.

Surveys have been going on during 1901, in the Second Ward (former Town of Newtown), but the number of field parties had to be reduced, because their services were required in other boroughs, and because the Civil Service Commission was not able to furnish the necessary assistance. This work should be carried on vigorously.

Borough of Richmond.

Similar remarks apply to the Borough of Richmond; only about 3,000 acres have been surveyed prior to 1898.

These surveys have to be examined, and the topographical survey of the whole borough should be commenced immediately in order to be able to prepare street and sewerage system in the borough.

Total area to be surveyed, 33,000 acres.

2. TO PREPARE THE DESIGN FOR THE STREET SYSTEM, TO DETERMINE THE GRADES OF STREETS AND TO MAKE MAPS FOR ADOPTION AND FILING.

Borough of Manhattan.

The modification of the street system north of One Hundred and Fifty-fifth street was submitted to the Board during 1901, but is not approved as yet.

Borough of The Bronx.

Work on the grade and monument maps for the streets east of the Bronx river are in preparation and should be hastened to completion.

Borough of Brooklyn.

Work on laying out the 4,000 acres of land at Jamaica Bay is still in abeyance.

Borough of Queens.

Tentative plans of the street system in the former towns of Flushing and Jamaica are in preparation, and the work of making detail grade and monument maps for the approved section of Newtown are proposed to be advanced during 1902.

Borough of Richmond.

A general plan for the Arrochar and Rosebank districts was submitted to the Board during 1901, and work on grade and monument maps is to be taken up in 1902.

3. TO DEFINE ON THE GROUND BY STONES AND BOLTS THE LINES OF THE ADOPTED STREET SYSTEM AND TO PROTECT THE SAID MONUMENTS WHEN IMPROVEMENTS ARE MADE IN THE STREETS.

The funds appropriated for this work in 1901 were entirely inadequate. The newly laid out avenues and streets in all boroughs should be monumented at once, and the monuments which are constantly disturbed by the grading and severing of streets should be replaced immediately after the work is finished.

Several hundred contracts for these improvements are generally under way, and it can be understood that the taking care of the monuments while those improvements are going on requires a larger force than could be detailed during the previous year.

4. TO PREPARE THE DESIGN FOR THE DRAINAGE AND SEWERAGE DISTRICT.

The main sewerage plans in the boroughs of Manhattan and Brooklyn are nearly completed; also those in the Borough of The Bronx, west of the Bronx river.

Designs were prepared during 1901 for the drainage of part of the Town of Newtown (Flushing), Borough of Queens, and for the so-called Arrochar District, Borough of Richmond.

The preparation of the sewerage plans must keep step with the laying out of the street system, and a larger force should be detailed to this work than was possible during 1901.

5. TO MAKE SURVEYS, SEARCHES, TECHNICAL DESCRIPTIONS AND MAPS FOR THE COMMISSIONERS OF ESTIMATE AND ASSESSMENT IN THE MATTER OF ACQUIRING TITLE TO AVENUES AND STREETS.

This work consists of (a) making rule maps in triplicate and technical descriptions of the land to be taken by the City for the use of the Corporation Counsel in his petition to the Supreme Court for the appointment of Commissioners of Estimate and Assessment; (b) making surveys of the land and furnishing draft damage maps which show the metes and bounds of every plot or lot of land to be taken, with the improvements thereon; (c) making a benefit map showing every lot, its dimensions, ward and map numbers within the area to be benefited by the legal opening; (d) making final copies in duplicate of the damage map and in triplicate of the benefit map; (e) preparing rule maps for closing streets in the Borough of The Bronx, in accordance with chapter 1006 of the Laws of 1895; (f) making profiles and other sketches showing the existing street surface, alterations of streets after they are graded and history of all changes of grades, etc.

The following is a statement of the number of proceedings for street openings pending at the present time:

Maps for such proceedings are in various stages of completion:

Borough of Manhattan, there are 85 proceedings pending.

Borough of The Bronx, there are 319 proceedings pending.

Borough of Brooklyn, there are 194 proceedings pending.

Borough of Queens, there are 47 proceedings pending.

Borough of Richmond, there are 2 proceedings pending.

6. TO KEEP IN CUSTODY THE RECORDS AND MAPS PERTAINING TO THE ABOVE-MENTIONED FIVE (5) ITEMS.

Under section 437, chapter 378, of the Laws of 1897, a copy of all filed maps and all other maps relating to matters under the jurisdiction of the Board of Public Improvements for all the five boroughs have to be kept in the office of the President of the Board of Public Improvements. Searches in all offices of record belonging to The City of New York in relation to actions of the former authorities are being kept up and must be continued.

7. TO MAKE EXAMINATIONS OF MAPS AND REPORTS ON MISCELLANEOUS MATTERS REFERRED BY THE BOARD OF PUBLIC IMPROVEMENTS TO THE TOPOGRAPHICAL BUREAU.

This work requires surveys, investigations, reports, etc., on all matters referred by the Board of Public Improvements to the Topographical Bureau and embraces matters relating to almost any department in the City.

8. TO ESTABLISH BENCH MARKS OVER THE WHOLE CITY.

The high-water datum in the different boroughs are not uniform, and it is the intention to have all elevations expressed in relation to uniform high-water datum.

Very little work is accomplished as yet in this line.

LITHOGRAPHING AND PRINTING.

It has been found that the printing of official maps and the gratuitous distribution to the public has saved a great deal of time to the property-holders as well as to the engineers of the departments, and it is the intention, therefore, to photo-lithograph and print all maps of importance.

In submitting the estimates for 1902 for the Topographical Bureau the boroughs are divided, showing the amount required for each borough for salaries, which includes surveying, laying out, monumenting, and the preparation of maps for street opening proceedings, and also provides for instruments, lithography and contingencies. Following is a summary of the entire estimates by boroughs with a grand total. Next follows a comparison between the amount received for 1901 and the amount asked for 1902, based upon a very careful estimate of the additional force required for the coming year. The salaries proposed to be paid to the additional force is based upon the rates now paid in each class by this Department.

During previous years a recommendation was made to your Board to separate the appropriation by boroughs, but instead a lump sum covering all boroughs was appropriated, so that an accurate comparison by boroughs between 1901 and 1902 cannot be made.

The following are estimates of funds separating the boroughs from each other; also estimates of the amounts required for the different classes of work of the Topographical Bureau without separating the boroughs:

There will be little or no balance remaining of any appropriation to this Department for the year 1901, except, perhaps, in the appropriation for "Maps for Street Openings," which is contingent on the ability of the Civil Service Commission to supply the necessary draughtsmen. At least thirty-five draughtsmen are required at once, and the Civil Service Commission has been requested to call an examination for same, without delay; repeated requests for draughtsmen have been made and every list certified has been exhausted at once by requisitions from this and nearly every other Department which employs draughtsmen.

No. 21 PARK ROW, BOROUGH OF MANHATTAN,

BOARD OF PUBLIC IMPROVEMENTS—CITY OF NEW YORK,
No. 21 PARK ROW, BOROUGH OF MANHATTAN,
NEW YORK, September 9, 1901.

Hon. P. J. SCULLY, City Clerk:

DEAR SIR—I am in receipt of resolution, adopted by the Board of Aldermen June 18, and by the Council June 25, recommending the repaving of Twenty-third street, from Fifth avenue to the North River, Borough of Manhattan.

In reply would state that on February 14, 1900, a resolution was adopted by this Board for repaving that portion of Twenty-third street lying between Fifth avenue and Sixth avenue. The repaving of the balance of the street has since been recommended by the Local Board, but the Commissioner of Highways states that there are not at present sufficient funds to carry out the work.

Respectfully,
JOHN H. MOONEY, Secretary.

Which was ordered on file.

The Vice-Chairman laid before the Council the following communication from the Municipal Art Society:

No. 1305.

To the Honorable Council of The City of New York:

The Municipal Art Society in May last addressed a memorial to your Honorable Body relative to a proposed ordinance for the proper designation of street names by signs upon the street corners. In that memorial, on behalf of the society, we suggested that the ordinance to be passed should prescribe generally for the designation, leaving the details to the Commissioner of Highways, and we stated that if the society could be thus advised of the requirements of the City in regard to designation, and also of a limit of cost, it would prepare and submit, at its own expense, designs for adoption and use by the City, which would be the result of a competition. We have since learned that a resolution has been adopted by you requesting the society to submit to you its views and plans for adequate and satisfactory signs.

We are most pleased to comply with this resolution. We think, however, that there may be a slight misunderstanding as to our position. What the society contemplates is to procure the best possible designs for the purpose. We can now make to you various suggestions as to designs, and we shall be glad to do so, but they will be tentative only until we know precisely what the City is resolved to do. Proper designs may be procured only by working upon a definite plan, and throwing open the field to competitive work. It will be readily appreciated by you that it will be impossible to arrange for a competition unless the society can state to the competitors precisely what the City requires. Designs for signs to be used on the buildings will be very different from those to be used on street lamps or other structures. Our plan is, therefore, what we urged in our former memorial, that you pass some general ordinance which will specify the manner of designation, whether on the buildings or by street lamps, or otherwise, leaving the actual selection of the kind of design for any particular locality to the Commissioner of Highways. We can then submit to him designs in accordance with our original suggestion.

We submit that this is the only practical method of securing the best results. The conditions of the city are so various that there should be some elasticity in the ordinance and some discretion in the hands of the proper official as to the character of the sign to be erected. What may be properly used for one district may be impracticable or too expensive for another. In thickly populated districts the signs will naturally be substantially uniform, and much more attention can be given to them than in a thinly populated district. In the latter where there is a street alone, and the region is unbuilt, a plain post with a sign of the most ordinary character will be sufficient as a temporary designation. It is quite as necessary to inform a stranger of the street in such a region as it is in the more thickly populated portions. Indeed it is a little more so, because other information is not readily at hand, but it is not as necessary that the signs themselves should cost as much, and the expense should be reduced to a minimum. The signs should be in all cases plain and unobstructed, and never, as is now sometimes the case with lampposts, covered with advertising transparencies.

We believe, as we stated in our former memorial, that there should be in places two sets of signs, one for the stranger ignorant of the locality, and the other for the traveler in the street cars, who knows the street which he is traversing, but does not know the street which he is approaching or passing. Where these are to be used is a matter which can be determined only by a special designation, and not by a general ordinance. The designation of almost every street will require, as to its character, the executive decision of one man. It is impracticable for a large legislative body to deal with all the details.

We have ventured to prepare an ordinance, which embodies our ideas and is in line with our former memorial, and which we submit herewith. Its purpose is to compel the adoption of some sign for every street, on the buildings if possible, and if not, on a post on the street corners. It has been drawn in accordance with the opinion of the Corporation Counsel, recently submitted to you, as to your powers in the premises. If your Honorable Body shall deem it wise to adopt an ordinance of this character, the society can know precisely what the City desires to have, and arrange for a proper competition, and a submission of designs in accordance with our offer.

The ordinance also provided for a discretionary marking of the streets and avenues which are used by street car lines, in the manner which we suggested in our former memorial. It leaves the matter of details to the Commissioner of Highways. This seems to be essentially necessary, as otherwise, as we have stated, a design which will be perfectly proper in one locality of the city will be inexpedient in another.

The important thing is to get the streets well marked, and we shall have made a long advance when we have a law under which any citizen can compel the marking to be done.

We shall be glad to appear before you and explain more in detail our views and our suggestions.

Dated New York, July 25, 1901.

JOHN DE WITT WARNER,
NELSON S. SPENCER,
CHARLES R. LAMB,
MILO ROY LAMBIE.

AN ORDINANCE authorizing and regulating the designation of the names of streets, avenues and highways in The City of New York.

It is Ordained by the Municipal Assembly of The City of New York, as follows:

Section 1. The name of each street in The City of New York shall be designated by a sign stating such name, placed substantially parallel with the direction of the street at each corner formed by its intersection with any other street, and the Commissioner of Highways is hereby authorized and directed to designate all streets accordingly.

2. Such designation shall be made as follows:

(a) If there be a building erected on the corner lot, by placing such signs on the intersecting street walls of such building, if the owner of such lot or building consent thereto.

(b) If there be no building erected on the corner lot, by signs placed on a suitable post erected at the street corner of the lot, if the owner of such lot consent thereto.

(c) If the owner of any corner lot or building do not consent to the use of his lot or building for such purpose, or, if in the opinion of the Commissioner of Highways it is impracticable to use the building on such corner lot for such purpose, then on a suitable post, lamp-post, electric-light pole, or other standard, or structure, either existing or erected for the purpose, and situated at the intersection of the streets, provided, however, that in such case not more than two such corners need be so designated, which shall be diagonally opposite to each other.

3. In addition to the designation prescribed in the foregoing sections, the Commissioner of Highways is hereby authorized to designate further the streets of this city as follows:

In each street in which is operated a street railway or other transportation line, or in which for other reasons he may deem it desirable to place signs on a suitable post, lamp-post, electric-light pole or other standard or structure, either existing or erected for the purpose and situated on diagonally opposite corners formed by the intersection of such street with any other street. Such signs shall indicate the name of the cross or intersecting street and shall be placed at about an angle of forty-five degrees to the street on which is operated such railway or other transportation line so as to be legibly read by passengers in an approaching or passing car or other vehicle.

4. All signs shall be of such size and be so placed and of such design as to be easily read by day and, as far as practicable, by night. They may, by any suitable device, indicate both the street designated and the intersecting street and the street number of the corner building. All designs for the signs shall be as few in number as may be consistent with the necessities of different portions of the city and shall be of as artistic character as possible, having regard to their cost. Such designs shall be submitted by the Commissioner of Highways to and be approved by the Municipal Art Commission, but this shall not prevent the Commissioner of Highways, if necessary, from erecting temporary signs prior to such approval of the designs therefor.

If it be practicable for the Commissioner of Highways to combine the purposes of public utility other than advertising for which any post, standard or structure may be used, he is hereby authorized to provide for such combination.

5. The word "street" in this ordinance wherever used shall include any street, avenue, highway, road, court or alley used as a public highway.

6. All ordinances or parts thereof inconsistent herewith are hereby repealed.

7. This ordinance shall take effect immediately.

Which was referred to the Committee on Streets and Highways.

The Vice-Chairman laid before the Council the following communication from the President, Borough of Queens.

No. 1332.

OFFICE OF THE PRESIDENT OF THE BOROUGH OF QUEENS,
LONG ISLAND CITY, August 31, 1901.

To the Honorable the Council, City of New York, Hon. RANDOLPH GUGGENHEIMER, President:

GREETING—The undersigned hereby certifies that the preamble and resolution, copy of which is hereto annexed, wherein recommendation is made that the bridge now in course of construction between the Boroughs of Manhattan and Queens, over Blackwell's Island and the East

river, be officially designated as the "Blackwell's Island Bridge" was duly adopted by the Local Board of said borough in meeting assembled on August 23, 1901.

Yours truly,

FREDERICK BOWLEY, President.

Whereas, The records of minutes of the meeting of the Board of Public Improvements, City of New York, held January 21, 1898, bears evidence of the fact that the President of the Borough of Queens certified to it the emphatic demand of the Local Board of said borough, that a bridge between the Borough of Manhattan and Borough of Queens, and over Blackwell's Island, be promptly constructed; and

Whereas, During said first year of consolidation as the Greater New York citizens of this borough formed an organization in furtherance of the constructing of the "Blackwell's Island Bridge," and still continue actively engaged in their purpose; and

Whereas, The designation "Blackwell's Island Bridge" was of natural origin on account of its central bearing, and is acceptable as appropriate, and is as such commonly known and fixed in the minds of the public, and hence will continue to be referred to by it as the "Blackwell's Island Bridge;" therefore

Resolved, by this the Local Board of said borough, in meeting assembled on August 23, 1901, That recommendation be and hereby is made to the several officials, boards and commissions of The City of New York, having in any manner cognizance of and control over any matters relating to said bridge, to officially designate said bridge as the "Blackwell's Island Bridge."

Which was referred to the Committee on Bridges and Tunnels.

The Vice-Chairman laid before the Council the following communication from the Board of Public Improvements, together with ordinance:

DEPARTMENT OF FINANCE, March 21, 1901.

Hon. BIRD S. COLER, Comptroller:

SIR—The West Tenth Street Connecting Railway Company, in its petition to the Municipal Assembly for a franchise, states:

First—That your petitioner is a street surface railroad corporation, organized and existing under the laws of the State of New York, having filed its certificate of incorporation in the office of the Secretary of State on March 5, 1900, and in the office of the Clerk of the City and County of New York on March 6, 1900, for the purpose of constructing, maintaining and operating a street surface railroad upon the route hereinafter set forth.

Second—That your petitioner desires to obtain from the Municipal Assembly of The City of New York its consent to and a grant of the right, privilege and franchise for constructing and operating a street surface railroad, with single track, upon the following streets, avenues and highways, viz.: Commencing at the intersection of Sixth avenue and West Tenth street, in The City of New York, running southwesterly with single track through, upon and along West Tenth street to the intersection of said West Tenth street with Greenwich avenue, all in the Borough of Manhattan, City of New York.

Third—That said railroad is to be constructed with single track upon and along said street, together with such connections, switches and turnouts and cross-overs as may be necessary for the convenient working of the road and for the accommodation of cars that may be run over the same.

Fourth—That the said corporation expects to operate said railroad by an underground current of electricity, substantially similar to the system now in use on the railroads in Second, Sixth, Eighth and Madison avenues, in this city, or by any other motive power except locomotive steam power which may be approved by the State Board of Railroad Commissioners and consented to by the owners of property, in accordance with the provisions of the Railroad Law.

Wherefore, Your petitioner prays that notice of the time and place when and where the application of said company will be first considered be given, pursuant to the provisions of section 92 of the Railroad Law, and that the consent or grant be given in the form of an ordinance, made subject to the ordinances and provisions of the Railroad Law, and upon terms and compensation provided for in the Greater New York Charter, applicable thereto.

Dated New York March 9, 1900.

WEST TENTH STREET CONNECTING RAILWAY COMPANY.

(Sd.)

By CLIFFORD S. BEATTIE, President.

Pursuant to law, a public hearing was held on April 19, 1900, and the Committee on Railroads of the Council submitted a report in the form of an ordinance, granting the petition or franchise upon specific terms and conditions, as fully set forth therein.

In accordance with section 74 of the Greater New York Charter, the proposed ordinance, having had its first reading, is now submitted to the Board of Estimate and Apportionment, "who shall make inquiry as to the money value of the franchise or privilege proposed to be granted and the adequacy of the compensation proposed to be paid therefor, and no grant thereof by the Municipal Assembly shall be made except on terms approved by vote or resolution of the Board of Estimate and Apportionment."

Subdivision 1 of section 2 of the proposed ordinance provides that the franchise shall extend for a period of twenty-five (25) years, with the privilege of renewal; and for a further period of twenty-five (25) years, upon a revaluation.

Subdivision 4 of section 2 provides for the compensation to be paid by the company, for the privilege or franchise to be granted, in the following words:

"Fourth—The said West Tenth Street Connecting Railway Company shall, for and during the first five years after the commencement of the operation of any portion of its railroad, annually, on November 1, pay into the Treasury of the City, to the credit of the Sinking Fund thereof, three per cent. of its gross receipts for and during the year ending September 30 next preceding; and after the expiration of such five years make a like annual payment into the treasury of the City, to the credit of the same fund, of five per cent. of its gross receipts, as required by section 95 of the Railroad Law.

"That but one fare shall be exacted for passage over the railroad constructed under this grant and over the lines of any railroad system or systems operated in connection therewith, and that the gross receipts from joint business shall be divided in the proportion that the length of said railroad operated hereunder shall bear to the entire length of the railroad system or systems which shall be operated in connection therewith and of the railroad to be constructed hereunder."

In order to show, approximately, the amount which the City would receive under the terms as proposed, I have taken the last Railroad Report for the year 1899, in which the following figures appear:

	LENGTH OF ROAD IN MILES.	LENGTH OF ROAD IN FEET.	CASH FARES.
Metropolitan Street Railway Company.....	209.24	1,104,240	\$12,300,407 09
Central Crosstown Railroad Company.....	14.004	73,941	603,308 12
Totals		1,178,181	\$12,903,715 21
West Tenth Street Connecting Railway Company		380	
Total length.....		1,179,161	

Upon the above figures, the proportionate amount of the gross receipts upon which the West Tenth Street Connecting Railway Company would pay percentage would be \$4,158.59; 3 per cent. of the above for the first five years would be \$124.75, and 5 per cent. of the same for the remaining term of the franchise would amount to \$207.92 per annum.

The returns of the Metropolitan Street Railway Company have shown for the past five years material increases in gross earnings per mile, and it is to be presumed that, within limits, they will continue to do so; so that the figures, as given, are subject to much increase in earnings as may be made by the road.

It will thus be seen that a franchise, based on such terms, will not produce large revenue for the City, and it is necessary to make a study of the effect which the granting of this franchise will have on the connecting roads in order to determine what compensation the City should receive.

The franchise proposes to give this railway the right to lay a single track in West Tenth street, connecting the Sixth avenue road in Sixth avenue, and with the West Tenth Street and Christopher Street Railroad in Greenwich avenue, and to operate the same by underground current of electricity, or any other motive power, except locomotive steam power, which may be approved by the State Board of Railroad Commissioners.

A change of motive power of the Central Crosstown line, operating through West Tenth street and Christopher street to Christopher Street Ferry, would then permit the operation of other cars on the Sixth avenue line to the said Christopher Street Ferry, which, it would appear to me, would be the object to be attained by virtue of the franchise.

The Metropolitan Street Railway Company would then be enabled, through its leased and operated lines, to run other cars on the Sixth avenue branch to Christopher Street Ferry, and it would thus divide, with the Crosstown Railroad, the traffic obtained at the ferry, and over the line of the said Crosstown Railroad to Greenwich avenue.

The Sixth Avenue Railroad, pursuant to its charter, now pays The City of New York a car license of \$50 per car per annum, and, no doubt, should this change be effected, operate a large number of its cars over the tracks of the Central Crosstown Railroad, which cars now have a terminus at West Third street and Sixth avenue, so that the number of cars, in addition to those now run to equip this branch, will not be appreciable in number, and hence the revenue derived by the City will not be materially increased.

On the other hand, the Central Crosstown Railroad Company, pursuant to its charter, pays The City of New York annually 3 per cent. of the gross receipts of the road, which sum amounted in the year 1900 to \$14,751.15.

This revenue will be seriously impaired by the operation of through cars on the Sixth avenue road to Christopher Street Ferry, and the compensation as fixed in the ordinance for the franchise proposed to be given to the West Tenth Street Connecting Railway Company will not in any manner reimburse the City for such loss.

The car license fee of \$50 per car was fixed by ordinance in 1859, and may have been adequate for a two-horse car with the traffic then accruing to the companies; but when the increased capacity of cars, as run to-day, over and above the two-horse car, the diminished cost of operation by electricity, and the length of the road which can be covered in 24 hours by one car, the car license fee certainly does not return to The City of New York a revenue commensurate with the franchise privilege bestowed, whereas, with the percentage system, as the revenues of the road increase, the compensation increases more nearly proportionately.

As I have shown, the Sixth Avenue Railway, under a car license fee, will be operating over and dividing receipts with the Central Crosstown Railroad, who pay a percentage upon gross receipts; and presupposing that the proposed franchise will be ultimately controlled by the Metropolitan Street Railway Company, I can see no reason why in the future it may not be desirable to run other lines of cars over the same route.

In order, then, that The City of New York shall not be the loser by granting this franchise—for it is my opinion that the revenue derived from all franchises given by the people should show annually an increase, for, as a rule, they become annually more profitable—I would recommend that after the second paragraph in subdivision 4 of section 2 of the ordinance a clause be inserted as follows:

"But the amounts so to be paid to The City of New York shall not be less than \$150 annually for the first five years, and not less than \$300 annually thereafter for the full term of twenty years."

—and secondly, it should be made a condition of the franchise that wherever or whenever this connecting railway shall make it possible for the cars of a non-percentage paying line to operate upon the tracks of a percentage paying line, the former line shall keep a separate and accurate account of all fares collected from passengers who enter said cars upon the routes of percentage lines and account to the City for them, the same as if they had been collected by the percentage line, and to pay the same percentages thereon as is now provided by law to be paid by the company upon whose routes they operate.

Respectfully,
(Signed) EUG. McLEAN, Engineer.
DEPARTMENT OF FINANCE, April 6, 1901.

To the Board of Estimate and Apportionment:

GENTLEMEN—At a meeting of the Board of Estimate and Apportionment held December 31, 1900, the undersigned was appointed a committee to make inquiry as to the money value of the franchise proposed to be granted to the West Tenth Street Connecting Railway Company, and the adequacy of the compensation proposed to be paid therefor as set forth in a certain proposed ordinance granting to the West Tenth Street Connecting Railway Company a franchise or privilege for constructing, maintaining and operating a street surface railroad in, through, upon and along West Tenth street, from the intersection of Sixth avenue and West Tenth street to the intersection of said West Tenth street with Greenwich avenue in the Borough of Manhattan, which proposed ordinance was referred to the Board of Estimate and Apportionment by the Municipal Assembly, in accordance with the terms of the Greater New York Charter.

I submit herewith for the consideration of the Board a report which has been made to me on this subject by Mr. Eugene E. McLean, Engineer of the Department of Finance, and I recommend that the proposed terms embodied in the ordinance of the Municipal Assembly be modified so as to provide that the percentages of gross receipts therein referred to shall not be less than \$150 annually for the first five years, and not less than \$300 annually for the remaining twenty years of the life of the franchise.

I also recommend that the ordinance be modified so as to provide that wherever and whenever this connecting railway shall make it possible for the cars of a non-percentage paying line to operate upon the tracks of a percentage paying line, the former line shall keep a separate and accurate account of all fares collected from passengers who enter said cars upon the routes of percentage lines, and account to the City for them the same as if they had been collected by the percentage line, and to pay the same percentages thereon as is now provided by law to be paid by the company upon whose route they operate.

Respectfully submitted,
(Signed) BIRD S. COLER, Comptroller.

The Committee on Railroads, to whom was referred the proposed ordinance granting to the West Tenth Street Connecting Railway Company the right or franchise to construct and operate a street surface railroad in, upon and along certain streets, avenues, parkways and highways in The City of New York, and to whom was referred the report of the Board of Estimate and Apportionment recommending certain modifications therein, report as follows:

Whereas, The Board of Estimate and Apportionment has duly transmitted to the Municipal Assembly a certain proposed ordinance granting to the West Tenth Street Connecting Railway Company the franchises or privileges for constructing, maintaining and operating a street surface railroad through, upon and along certain streets, avenues and highways in The City of New York, said Board having found the compensation in said ordinance originally proposed to be paid to be inadequate, and said Board having recommended that the terms so originally proposed in said ordinance be modified so as to provide that the percentages of gross receipts therein referred to shall not be less than one hundred and fifty dollars (\$150) annually for the first five years, and not less than three hundred dollars (\$300) annually for the remaining twenty years of the life of the franchise; and also recommending that said ordinance be modified so as to provide that wherever and whenever this connecting railway shall make it possible for the cars of a non-percentage paying line to operate upon the tracks of a percentage paying line, the former line shall keep a separate and accurate account of fares collected from passengers who enter said cars upon the routes of percentage paying lines, and account to the City for them, the same as if they had been collected by the percentage paying line, and to pay the same percentages thereon as is now provided by law to be paid by the company upon whose route they operate;

Now, therefore, your Committee, in accordance with such recommendations, does hereby amend said proposed ordinance, as follows:

AN ORDINANCE granting to the West Tenth Street Connecting Railway Company the right or franchise to construct and operate a street surface railroad in, upon and along certain streets, avenues, parkways and highways in The City of New York.

Be it Ordained by the Municipal Assembly of The City of New York, as follows:

Whereas, The West Tenth Street Connecting Railway Company has duly presented to the Municipal Assembly of The City of New York, by presenting and filing with each house thereof its application, in writing, for a grant of the franchise or right to use the streets, avenues, parkways and highways in The City of New York hereinafter mentioned, for the construction, maintenance and operation of a single track street surface railroad in or upon the surface of the same; and

Whereas, The said Municipal Assembly, by resolution adopted March 20, 1900, approved by his Honor the Mayor of said city on March 28, 1900, gave public notice of such application, and that at the Councilmanic Chamber, in the City Hall, in The City of New York, on the 19th day of April, 1900, at 2.30 o'clock in the afternoon, such application of said railway company would be first considered and a public hearing had thereon, which notice was published daily for at least fifteen (15) days successively prior to the hearing, in two daily papers published in The City of New York, viz.: in the "New York Press" and in the "New York Journal and Advertiser," which papers were first designated, in writing, by his Honor the Mayor of said city, on March 28, 1900; and

Whereas, After public notice given as aforesaid and at a public hearing duly held in pursuance of such notice, whereat all persons so desiring were given an opportunity to be heard and were heard, such application was first considered by the Railroad Committees of both houses of said Municipal Assembly:

Section 1. The Municipal Assembly of The City of New York hereby grants to the West Tenth Street Connecting Railway Company, subject to the conditions and provisions hereinafter set forth, the right and franchise to use the streets, avenues, parkways and highways of the said city, and to construct maintain and operate a single-track street surface railroad in and upon the following streets, avenues, parkways and highways, viz.: Commencing at the intersection of Sixth avenue and West Tenth street in The City of New York, running southwesterly with single track through, upon and along West Tenth street to the intersection of said West Tenth street with Greenwich avenue, all in the Borough of Manhattan, City of New York.

Sec. 2. The grant of said franchise or right to use said streets, avenues, parkways and highways is made subject to the following conditions:

First—That the said right, privilege and franchise to construct and operate its said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years, with the privilege of a renewal of said grant for the further period of twenty-five years upon a fair revaluation of the right, such revaluation to be of the right, privilege and franchise to maintain and operate said railroad by itself, and not to include any value derived from the ownership, control or operation of any other railroad, line or tracks by the grantee, its successors or assigns; provided, however, that the consent of the owners of one-half in value of the property bounded on such streets, avenues, parkways and highways shall be first obtained, or in lieu thereof the favorable determination of three Commissioners, approved by the Appellate Division of the Supreme Court, that such railroad should be constructed and operated.

Second—Upon the termination of the said franchise or right, whether original or renewed, there shall be a fair valuation of the plant and property of the grantee in the streets, avenues, parkways and highways aforesaid, with the appurtenances; and the said plant and property shall be and become the property of the City on the termination of the grant on paying the grantee such valuation. Such payment shall be at a fair valuation of the said plant and property as property, excluding any value derived from the franchise.

Third—The mode of determining the valuations and revaluations herein provided for shall be as follows: One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment; one disinterested freeholder shall be chosen by the railroad company; these two shall choose a third disinterested freeholder; the three so chosen shall act as appraisers and shall make the valuations and revaluations aforesaid. Such appraisers shall be chosen at least sixty days prior to the expiration of the grant, or of the renewal thereof, and their report shall be filed with the Comptroller of the City not more than thirty days thereafter. They shall act as appraisers and not as arbitrators; they may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation without the presence of either party; they shall have the right to examine the books of the railroad company. The valuations so ascertained, fixed and determined, shall be conclusive upon both parties.

Fourth—The said West Tenth Street Connecting Railway Company shall, for and during the first five years after the commencement of the operation of any portion of its railroad, annually, on November 1, pay into the treasury of the City, to the credit of the Sinking Fund thereof, three per cent. of its gross receipts for and during the year ending September 30 next preceding; and after the expiration of such five years make a like annual payment into the treasury of the City, to the credit of the same fund, of five per cent. of its gross receipts, as required by section 95 of the Railroad Law, but such percentage of gross receipts shall not be less than one hundred and fifty dollars (\$150) annually for the first five years and not less than three hundred dollars (\$300) annually thereafter.

That but one fare shall be exacted for passage over the railroad constructed under this grant and over the lines of any railroad system or systems operated in connection therewith, and that the gross receipts from joint business shall be divided in the proportion that the length of said railroad operated hereunder shall bear to the entire length of the railroad system or systems which shall be operated in connection therewith, and of the railroad to be constructed hereunder.

Wherever and whenever this connecting railway shall make it possible for the cars of a non-percentage paying line to operate upon the tracks of a percentage paying line, the former line shall keep a separate and accurate account of all fares collected from passengers who enter said cars upon the routes of percentage lines, and account to the City for them the same as if they had been collected on the percentage line, and to pay the same percentages thereon as is now provided by law to be paid by the company upon whose route they operate.

Fifth—The said railroad may be operated by underground electrical power substantially similar to the system of underground electrical traction now in use on the railroads in Second, Sixth, Eighth, Lenox and Madison avenues in this city, and by any other motive power except locomotive steam power, which may be approved by the Board of Railroad Commissioners and consented to by the owners of property, in accordance with the provisions of the Railroad Law.

The Committee on Streets and Highways, to whom was referred the annexed communication from the President of the Borough of Queens, in relation to the adoption of a house numbering system in Woodhaven, Union Course and Ozone Park, in the Fourth Ward (Page 1284, Minutes, March 5, 1901), respectfully recommend that the said communication be placed on file.

THE PRESIDENT OF THE BOROUGH OF QUEENS,
LONG ISLAND CITY, February 20, 1901.

The Council, City of New York, Hon. RANDOLPH GUGGENHEIMER, President :

GENTLEMEN—The undersigned hereby certifies that the annexed is a copy of preamble and resolution relative to the petition of property-owners that a system of house numbers be adopted for Woodhaven, Union Course and Ozone Park, in the Fourth Ward of this borough, which was duly adopted by the Local Board of said borough at its meeting held February 15, 1901, in favor of said petition, copy of which is hereto annexed.

Yours truly,

FREDERICK BOWLEY, President.

JOHN J. MURPHY, HENRY FRENCH, JAMES OWENS, DAVID L. VAN NOSTRAND, Committee on Streets and Highways.

Whereas, The President of the Borough of Queens, City of New York, did submit to this the Local Board of borough aforesaid, at its meeting held on February 15, 1901, petition that a proper system of numbering the houses in Woodhaven, Union Course and Ozone Park, in Fourth Ward of said borough, be adopted in order to facilitate free postal delivery therein ; and

Whereas, The reasonableness of the desires of the petitioners commends itself to our approval ; therefore

Resolved, That recommendation be and hereby is made to the Municipal Assembly that it promptly extend to the wishes of the petitioners its favorable consideration and action.

WOODHAVEN, BOROUGH OF QUEENS, CITY OF NEW YORK,
January 15, 1901.

Hon. FREDERICK BOWLEY, COUNCILMEN JOSEPH CASSIDY, DAVID L. VAN NOSTRAND ;
ALDERMEN JOSEPH GEISER, LUKE OTTEN, Board of Improvements of the Borough of Queens :

GENTLEMEN—Will your Board kindly make an official statement in regard to the method of numbering the houses in Woodhaven, Union Course and Ozone Park ?

By referring the matter to the Engineer of the Department of Highways to report, either continuing the old system, which is full of defects, and cannot be extended satisfactorily ; or, to adopt a better one, namely, some skeleton plan to work on, leaving details to the future, we would then be enabled to number our houses or to renumber where necessary.

Referring to accompanying memorandum, in regard to the Richmond Hill plan, we have been shown a letter from the postmaster at Jamaica, in whose letter-carrier district Woodhaven is situated, who writes that it would help the post-office if all the towns were numbered upon the "Richmond Hill" plan. We remain,

Yours very truly,

JACOB SCHMAHL, JOHN L. WYCKOFF and others.

WEST MORRISANIA PROPERTY OWNERS' ASSOCIATION,
FLEETWOOD HOTEL,
FLEETWOOD AVENUE AND ONE HUNDRED AND SIXTY-SECOND STREET,
NEW YORK, May 16, 1901.

To the President and Members of the Municipal Council:

GENTLEMEN—The members of the above association desire to call your attention to the terrible condition of Morris avenue (Bronx), from One Hundred and Fifty-sixth street running north.

Those of us who own property on this avenue cannot rent it, simply owing to the condition of the avenue. Our assessments continue, and unless we receive speedy relief the burden will become unbearable.

We understand it has been decided to asphalt Morris avenue, and we most urgently request your Honorable Body to hasten action in this matter.

We have written to Councilman Murray and he assured us that he would do all in his power to give us the relief we seek.

Trusting this request will meet with an early act of approval on your part,

We remain, respectfully yours,

AMPHION MUSICAL SOCIETY,

BOROUGH OF BROOKLYN, April 22, 1901.

To the Honorable Municipal Assembly:

At a special meeting of the Amphion Musical Society, held Saturday evening, April 20, the undersigned was instructed to formally protest against the resolution now before your Honorable Body to apply the name of "Payton square" to the space formed by the intersection and junction of Lee and Division avenues and Clymer street, Borough of Brooklyn.

This society has been located here for over twenty-three years, and, with other residents, believes that the proposed resolution is unnecessary and absurd, and simply an attempt to obtain free advertising for a theatre, and that its passage would establish a dangerous precedent.

We therefore formally protest against the above resolution.

DEPARTMENT OF WATER SUPPLY—COMMISSIONER'S OFFICE,
Nos. 13 TO 21 PARK ROW,
CITY OF NEW YORK, June 4, 1901.

To the Honorable the Municipal Assembly:

DEAR SIRS—The provisions of paragraph 8 of section 188 of the Greater New York Charter provide for the issue by the Comptroller of Special Revenue Bonds, when thereto authorized by the concurrent vote of all the members of the Board of Estimate and Apportionment, upon a joint resolution requesting such authorization, adopted by the affirmative vote of three-fourths of

all the members elected to each branch of the Municipal Assembly, provided that the amount thus issued shall not in any one year exceed \$250,000.

The necessity for the issue of such Special Revenue Bonds to the amount of \$10,000 has arisen in the present conditions of the water service from the public water system and pumping plant at Tottenville, in the Borough of Richmond. The Local Board of Improvements of the First District of that borough has, through the President of the Borough, petitioned the Board of Public Improvements to take the necessary action to have water-mains laid in Central avenue, from Amboy avenue to Raritan Bay; in Amboy avenue, between Central avenue and Church street; in Church street, between Broadway and Amboy avenue, and in Broadway, between Church street and Lehigh avenue. The total distance for which the mains are to be laid is 7,950 feet, on which there are thirty-one dwelling-houses, several stables and barns, a factory establishment and other buildings requiring water supply and fire protection, and these water-mains can be placed and fire-hydrants erected thereon at a total estimated cost of \$10,000.

There is no other provision to meet this expenditure, and in order to enable this Department to carry out the work I respectfully ask the adoption by both houses of the Municipal Assembly of the requisite resolution requesting the Board of Estimate and Apportionment to authorize the Comptroller to make the issue of Special Revenue Bonds to the amount of \$10,000.

Very respectfully,

WILLIAM DALTON, Commissioner of Water Supply.

Hon. BIRD S. COLER, Comptroller:

SIR—Hon. George C. Clausen, Commissioner of Parks, boroughs of Manhattan and Richmond, in communication dated June 27, 1901, to the Board of Estimate and Apportionment, requests its approval of an expenditure of \$20,000 for the purchase of 5,000 additional settees, to meet the needs and convenience of the public in the Central Park and the several smaller parks in the Borough of Manhattan, and the Commissioner also requests the Board to authorize a bond issue, pursuant to the provisions of the Charter, to that amount for such purposes.

In reply, I would report that there are about 11,000 settees in use in Central and the other parks in the Borough of Manhattan. The Commissioner says he requires about 2,500 additional settees for Central Park, 1,000 for Riverside Park, and the remainder, 1,500, for the Speedway and the other small parks.

The Commissioner proposes to purchase the castings from the State of New York, Prison Department, buy the lumber and have the Carpenters of the Department of Parks make the settees. By this method the Commissioner thinks it possible, with an additional carpenter force, to complete the entire 5,000 by January 1, 1902.

Although the Commissioner appears to be very sanguine as to the number of settees he is able to make before the end of the year, I think, with delays in obtaining the money and the time taken by the State Prison authorities in furnishing the castings, it would take very nearly two years to complete 5,000 settees, and at the best, that only 2,500 could be turned out by January 2, 1902.

From inquiry, I am led to believe that 5,000 additional settees are needed in the parks (Borough of Manhattan), and the estimate, \$4 per settee, I consider just and reasonable; but as it is not possible to make 5,000 by January 2, 1902, I think an appropriation of \$10,000 is all that would be expended this year; therefore this amount is all that should be considered at present; any further amount could, and should be considered by the Board of Estimate and Apportionment, in the appropriation of the Park Department for 1902.

In the provisional estimate submitted by the Department of Parks for 1901, only \$2,000 was requested for settees.

Inasmuch as section 48 of the Greater New York Charter only includes the "acquisition and construction of parks," I do not think that bonds can properly be authorized for this work, pursuant to this section, but would suggest that the Commissioners of Parks, boroughs of Manhattan and Richmond, apply to the Municipal Assembly, in accordance with the provisions of section 188 of the Greater New York Charter, for the necessary funds for purchasing these settees.

Respectfully,

EUG. E. McLEAN, Engineer.

Be it Ordained by the Municipal Assembly of The City of New York, as follows :

Section 1. Section 150 of the Building Code is hereby amended to read as follows :

No. 3289.

THE CITY OF NEW YORK,

NEW YORK, September 3, 1901.

MICHAEL F. BLAKE, Esq., Clerk to the Board of Aldermen :

SIR—I have the honor to transmit herewith document which was adopted by the Council at their meeting on Monday, August 27, 1901, as scheduled below :

Int. No. 1193.

Very respectfully,

NICHOLAS J. HAYES, First Deputy and Acting City Clerk.

Which was ordered on file.

The paper above referred to is as follows :

No. 3290.

Resolved, That the Corporation Counsel be and he is hereby requested to begin proceedings to restrain the operation of the ferry between the foot of Whitehall street, Borough of Manhattan, and Communipaw, New Jersey, and to compel the company operating said ferry to make an accounting for the time said ferry has been operated.

COMMUNICATIONS.

The President laid before the Board the following communication from Mr. John H. Devine :

No. 3291.

NEW YORK, August 26, 1901.

The Board of Aldermen, City Hall, Borough of Manhattan, New York City :

GENTLEMEN—I have been informed by Mr. Charles Faatz, proprietor of a restaurant at No. 1027 Sixth avenue, New York City, also by Mr. H. Gravemann, proprietor of a cafe at No. 1029 Sixth avenue, New York City, that the newsstand conducted by Mr. Golde, under the Manhattan Elevated stairs at Fifty-eighth street, down town station is a nuisance.

The aforesaid gentlemen informed me that Mr. Golde has four children and a dog. The children with the knowledge of Mr. Golde have continually written obscene and scandalous writings on the boards provided for advertising at the aforesaid station, and have for the last two years scattered papers and conducted themselves in such a manner as to become a nuisance.

The dog in particular is continually barking and making a great rumpus in front of the premises of the aforesaid gentlemen so that their customers are driven away.

I hope you will look into this matter and see that the nuisance complained of is abated.

Yours very truly,

JOHN H. DEVINE.

Which was referred to the Alderman of the district.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the President of the Borough of Queens:

No. 3292.

OFFICE OF THE PRESIDENT OF THE BOROUGH OF QUEENS,
LONG ISLAND CITY, August 31, 1901.

To the Honorable the Board of Aldermen, City of New York, Hon. THOMAS F. WOODS, President:

GREETING—The undersigned hereby certifies that the preamble and resolution, copy of which is hereto annexed, wherein recommendation is made that the bridge now in course of construction between the Borough of Manhattan and Queens, over Blackwell's Island and the East river, be officially designated as the "Blackwell's Island Bridge" was duly adopted by the Local Board of said borough, in meeting assembled on August 23, 1901.

Yours truly,

FREDERICK BOWLEY, President.

Whereas, The records of minutes of the meeting of the Board of Public Improvements, City of New York, held January 21, 1898, bear evidence of the fact that the President of the Borough of Queens certified to it the emphatic demand of the Local Board of said borough that a bridge between the Borough of Manhattan and Borough of Queens and over Blackwell's Island be promptly constructed; and

Whereas, During said first year of consolidation as the Greater New York, citizens of this borough formed an organization in furtherance of the constructing of the Blackwell's Island Bridge, and still continue actively engaged in their purpose; and

Whereas, The designation of Blackwell's Island Bridge was of natural origin on account of its central bearing and is acceptable as appropriate, and is as such commonly known and fixed in the minds of the public, and hence will continue to be referred to by it as the "Blackwell's Island Bridge"; therefore

Resolved, by this the Local Board of said borough, in meeting assembled on August 23, 1901, that recommendation be and hereby is made to the several officials, Boards and Commissions of The City of New York, having in any manner cognizance of and control over any matters relating to said bridge to officially designate said bridge as the "Blackwell's Island Bridge." Which was referred to the Committee on Bridges and Tunnels.

REPORTS.

No. 2142.—(G. O. 308.)

NEW YORK, AUGUST 27, 1901.

To the Honorable the Board of Aldermen:

On May 14 last there was referred to the undersigned the following from the Committee on Streets and Highways:

"Whereas, There exists, and has for a number of years existed, three arches built of masonry, the centre arch spanning the roadway and the two side arches spanning the sidewalks under the structure of the New York Central and Hudson River Railroad and the New York, New Haven and Hartford Railroad, at One Hundred and Tenth street and Park avenue, which forms no part of the support of the said railroad structure, it is an impediment to the free use of the street and sidewalks of said street and is a public nuisance; and

Whereas, Said New York Central and Hudson River Railroad Company has been communicated with and requested to remove the same, but disclaims any obligation to do so under chapter 339 of the Laws of 1892, an act to regulate, improve and enlarge Park avenue, etc., but has no objection to its removal by the City authorities, provided the two sides remaining are appropriately faced;

Resolved, That the Commissioner of Highways, by and through the Bureau of Incumbrances, be respectfully requested to cause to be removed the three stone arches, the one spanning the roadway and the two spanning the sidewalks, as the same now exists under the structure of the New York Central and Hudson River Railroad and the New York, New Haven and Hartford Railroad, at One Hundred and Tenth street and Park avenue, from the house-line of said street at the south side thereof to the house-line of said street at the north side thereof, and to appropriately face the north and south sides by smooth facing."

I have given the letter careful consideration, and regret to be compelled to report that affirmative action by the Municipal Assembly on the proposed resolution would be inoperative and ineffective.

An investigation has disclosed the following facts, to wit:

Under an act of the Legislature the tracks of the railroad company were placed in their present position. The work as done, and the conditions as they now prevail, conform to the requirements of said Legislative act. The railroad company therefore contends that in no way can it abrogate the specific directions of the said act, either by altering the structure itself or by formally consenting that it be done by the City authorities, unless guarding in advance against possible complications that might arise.

The Harlem Board of Commerce being under the impression that the wall of masonry referred to in the preamble and resolution above, was not longer required to support the tracks of the Railroad Company, had the said paper prepared by its Counsel, Charles Blandy, Esq., who is also an Assistant Corporation Counsel of the City. The preamble and resolution were submitted to a representative of the said railroad company, who interposed no objections thereto. As a result thereof, they were presented by Alderman Goodman and referred to the Committee on Streets and Highways, which Committee reported favorably thereon. Subsequently it was learned that the removal of the arch and walls would leave the roadbed unprotected, unless iron girders and other safeguards were provided. The railroad company thereupon withdrawing its consent to the resolution, for the reasons heretofore recited, led to several conferences, resulting in a conclusion in which all concur, i. e., that unless there is a mutual agreement between the City authorities, the railroad company, and the property-owners whose interests are affected, nothing can or should be done in the direction indicated.

The railroad company will consent to the proposed change only on the following conditions: That ample and satisfactory protection to the railroad structure be provided, ere the improvement contemplated be undertaken. That the character of the same shall in no manner abrogate the specific requirements of the Legislative Act under which the said structure was constructed. That all the property-owners who are interested will consent, in legal form, to absolve the railroad company from all liability for damage, real or imaginary, that is or can be done to them respectively, because of the said change, and that the City pay all the expense involved.

As the City cannot proceed without the consent of the said railroad company, the said company being protected in its position by statutory provisions, we must either abandon the project or attempt to carry it into operation under the plan and conditions mentioned above.

The railroad company claims that for self-protection it must insist on the said mentioned conditions; and furthermore, that, as the improvement is of no advantage to it, the taxpayers, who are to receive all the benefit, should bear the burden of expense.

That the proposed change would be a vast improvement is generally conceded; but whether it would justify an acceptance of the terms submitted is a question which cannot be answered without further inquiry and investigation.

We should first ascertain what would be the expense, in order to decide whether it is warranted. If the cost is not unreasonably excessive, and we conclude to meet such demand, the property-owners should then be consulted with a view of ascertaining whether the improvement, and the corresponding increase in the value of their property respectively, would prompt them to release the railroad company from all subsequent claims for damage.

Regarding the matter as one of great importance, I feel that inquiry should be made as to the probable expense, and when that is ascertained, and the figures are not too exorbitant, that the will and purpose of the several property-owners be likewise inquired into.

I am pleased to add that Aldermen Schneider and Goodman, whose districts are especially and directly interested in the betterment of conditions of Park avenue above One Hundred and Second street, have joined in the conferences and investigations referred to, and that Mr. Blandy has also kindly favored us with valuable information, advice and counsel. We all join in recommending the adoption of the following:

Resolved, That the Commissioner of Highways be and he hereby is respectfully requested to require his engineers to confer with the engineers of the New York Central and Hudson River Railroad Company, and recommend the best and most practical method to bring about the results contemplated in the resolution or ordinance that has been referred to the undersigned; as set forth above—and report to this Board, what expense would be involved to carry the same into effect.

Resolved further, That, as the proposed improvements should be, if practicable, extended southward to One Hundred and Second street and Park avenue, that the said engineers also report what work is necessary to carry the latter improvement into effect and what would be the cost thereof, in addition to that involved in removing the masonry at One Hundred and Tenth street.

OFFICE OF THE PRESIDENT OF THE BOROUGH OF RICHMOND,
NEW BRIGHTON, N. Y., January 3, 1901.

Hon. P. J. SCULLY, City Clerk, City Hall, N. Y. City:

DEAR SIR—At a meeting of the Local Board, First District, Borough of Richmond, The City of New York, held on the 4th day of December, 1900, the following resolution was adopted:

Resolved, That the Local Board, First District, Borough of Richmond, The City of New York, hereby recommends to the Municipal Assembly of The City of New York that permission be granted to the C. W. Hunt Company to extend its system of narrow-gauge shop-tracks in Van street and across Richmond terrace, in the First Ward of the Borough of Richmond, under the general supervision of the Commissioner of Highways.

I inclose herewith copies of the petition on which the Local Board acted.

Very respectfully,

GEORGE CROMWELL, President of the Borough.

WEST NEW BRIGHTON, S. I.

To the Honorable the Borough Board, New Brighton, S. I.:

DEAR SIR—The C. W. Hunt Company of West New Brighton, Borough of Richmond, respectfully applies for permission to connect their manufacturing properties on opposite sides of Richmond terrace, in West New Brighton, by an extension of its system of narrow-gauge shop-tracks in Van street and across Richmond terrace, as shown on the accompanying blue print. The principal reason for this request is to avoid the trucking of heavy weights and machinery now necessary, thereby saving the macadam pavement at this point. The length of said track connection will be about 60 yards; the track to be 21½ inches gauge outside of rail-heads, and to be laid and kept in repair by the said C. W. Hunt Company. It is to be constructed in such manner as will meet with the approval of the Deputy Commissioner of Highways of the Borough of Richmond, N. Y., and the said C. W. Hunt Company hereby agrees to macadamize and keep in repair all between and two feet on each side of said tracks, where said tracks lie in the public highway and in crossing the sidewalks they agree to make such construction as will properly permit the passage of storm water in gutters and make a smooth sidewalk for pedestrians, all to be constructed with the approval of the Deputy Commissioner of Highways of the Borough of Richmond, N. Y. In the blue print above mentioned the desired extension is drawn in red ink.

Respectfully yours,

C. W. HUNT CO.,

Except that any such person who shall violate any of the provisions of this Code as to the construction of chimneys, fireplaces, flues, hot-air pipes and furnaces, or who shall violate any of the provisions of this Code, with reference to the framing or trimming of timbers, girders, beams, or other woodwork in proximity to chimney flues or fireplaces, shall forfeit and pay a penalty in the sum of one hundred dollars. Whereas, That crime has shocked the people of the civilized world and excited profound sympathy for the distinguished sufferer and widespread indignation against anarchists and anarchism; and

OPENING ELTON AVENUE, BRONX.

The following communication from the Commissioner of Highways was read:

CITY OF NEW YORK,
DEPARTMENT OF HIGHWAYS—COMMISSIONER'S OFFICE,
Nos. 17 to 21 PARK ROW,
NEW YORK, August 27, 1901.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—A number of owners of property in the vicinity of Elton avenue, between One Hundred and Sixty-first and One Hundred and Sixty-second streets, Borough of The Bronx, are desirous of having said avenue, between the points named, regulated and graded, and buildings removed therefrom which now stand within its lines.

Upon investigation, I find that title to that section of Elton avenue is not yet vested in the City, and I therefore submit the matter to you for such action as you may deem proper.

Very respectfully,

JAMES P. KEATING, Commissioner of Highways.

The following resolution was then adopted:

"Whereas, The Board of Street Opening and Improvement, on the 10th day of September, 1897, adopted a resolution directing that, upon a date to be thereafter more fully specified, not less than six months after the filing of the oaths of the Commissioners of Estimate and Assessment who might be appointed by the Supreme Court in proceedings for the acquisition of title to Elton avenue, from East One Hundred and Sixty-first street to East One Hundred and Sixty-second street, in the Twenty-fourth Ward, the title to any piece or parcel of land lying within the lines of such Elton avenue, from East One Hundred and Sixty-first street to East One Hundred and Sixty-second street, so required, should be vested in the Mayor, Aldermen and Commonalty of The City of New York; and

"Whereas, The Board of Public Improvements has received written notice from the Corporation Counsel that Commissioners of Estimate and Assessment have been appointed by the Supreme Court in proceedings to acquire title to said Elton avenue, and that the oaths of said Commissioners of Estimate and Assessment were duly filed, as required by law, on the 7th day of June, 1899; therefore be it

CHANGE OF GRADE, ARRIETTA STREET, RICHMOND.

The following report from the Commissioner of Sewers was placed on file:

DEPARTMENT OF SEWERS, August 16, 1901.

Hon. M. F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—In reply to your communication of the 2d instant, transmitting copy of report of Mr. Louis A. Risse, Chief Topographical Engineer, in the matter of change of grade at the foot of Arrietta street, in the Borough of Richmond, with a sketch of the same, I beg to say that the matter was referred to that borough for examination and report, and I beg leave to return sketch

mentioned, with copy of report of the Chief Engineer and Deputy Commissioner of Sewers, and would say that I approve of the recommendations made therein by him.

Yours respectfully,

MATTHEW F. DONOHUE,
Deputy and Acting Commissioner of Sewers.

(Copy.)

DEPARTMENT OF SEWERS, BOROUGH OF RICHMOND,
NEW YORK, August 15, 1901.

Hon. MATTHEW F. DONOHUE, Deputy and Acting Commissioner of Sewers, No. 21 Park Row, City:

DEAR SIR—I beg to acknowledge the receipt of your favor of the 5th inst., referring to the change of grade and cross-section of the Arrietta street sewer, now under construction, and inclosing a resolution of the Local Board, First District, Borough of Richmond, approving of the change of grade of the street over said sewer, also a recommendation from the Commissioner of Highways to the same effect, also a letter from Mr. Risse, the Chief Engineer of the Board of Public Improvements, suggesting the change in the cross-section of the Arrietta street sewer, and the change in the grade of said sewer, together with a sketch elucidating his suggestions.

In regard to the above matter I beg to report as follows:

At the time of the receipt of the above referred papers, August 13, 1901, the timber and concrete foundation, together with the vitrified brick lining of the sewer in question had been constructed to a point 215 feet above the end of the public street; therefore, the change in the construction of this sewer as contemplated in Mr. Risse's report, would entail the tearing out of four or five hundred feet of sewer complete and partly completed, and its reconstruction at the expense of the property-owners. Furthermore, this contract being let by the running foot for each size of sewer and cross-section shown on the plans, binds the City and the Contractor to said cross-section and grade, and I believe that the attempt to alter this grade and form of cross-section, under the existing circumstances, would be a very difficult matter to do legally in such a way as not to vitiate the assessment.

It should be remembered in this matter that this Department objected to the grade line proposed by the Chief Topographical Engineer at the time that the plans were originally referred to this Department for approval, and that we forwarded a new set of plans in which this outlet sewer was shown on a grade which did not affect the surface of the street in any way. These plans having been referred back to the Chief Topographical Engineer for a report, were returned without his approval, and on his recommendation the original set of plans prepared by him were formally adopted by said Board.

By regrading the street to the proposed grade with a heavy crown, the change of grade at the street line can be made so small as to do very slight, if any, damage to the abutting property-owners. This also applies to the use of the dock by the Rapid Transit Railroad Company, and their Chief Engineer, with power from the Vice-President of said company, agreed with me that if the construction of this outlet sewer were stopped within the line of their present dock, that they could easily and inexpensively arrange an approach to the new grade, as contemplated, to the inner end of their dock (which will not be more than ten inches) without asking damages from the City for said change of grade. As this proposition has been agreed to by this Department, the Corporation Counsel and the Board of Public Improvements, and in view of all the above circumstances, I believe that this Department should stand by its plans and contract and complete the work as it was advertised and let, and therefore I return the report of Mr. Risse and the sketch and plan referred to in said report, with my disapproval, and with the recommendation that the Board of Public Improvements authorize the change of grade recommended by the Local Board and by the Commissioner of Highways.

Respectfully yours,

(Signed) HENRY P. MORRISON,
Deputy Commissioner and Chief Engineer.

JOHN H. MOONEY, Esq., Secretary, Board of Public Improvements:

DEAR SIR—For the information of the Board of Public Improvements, and for such action as it may deem necessary to take, I transmit herewith a copy of a communication received from A. B. Bouch, relative to the "Construction of Arrietta street sewer, Borough of Richmond."

AMERICAN DOCK AND TRUST COMPANY,
NEW YORK, August 20, 1901.

MR. BIRD S. COLER, Comptroller of The City of New York, No. 280 Broadway, City:

DEAR COLER—I beg to call your attention to a peculiar state of affairs regarding the construction of Arrietta street sewer, Borough of Richmond, with the hopes that you will investigate the matter before making further payments on same, as I believe a portion of the work is being done without full authority.

The inclosed report was presented and accepted at a meeting at which, I believe, you were present on the 31st of July. The resulting damages to the abutting property-owners and to the freight ferry company, foot of Arrietta street, will be very large if the change of grade is made, and the property-owners affected by the sewer improvement, who are liable to the extent of ninety-three thousand dollars under the existing contract, are up in arms against further expense.

The resolution for the change of grade would not now be asked for from your Board if the authority for it had been already given, hence any work done by the contractor requiring his change of grade is without authority.

Prior to the presenting of the within report against the change of grade, the trench for the sewer was open, but since then the work has been rushed through at this point with a special object in view. No payment should be made for this work, and it does seem that this part of the work should be stopped until the Board of Public Improvements has given authority for the change of grade, particularly in considering that nearly all the rest of the trunk line improvement remains to be constructed by the contractors.

Yours truly,

(Signed) A. B. BOUCH.

(Referring to "Report" of Louis A. Risse, Chief Topographical Engineer and Engineer of Concourse, dated July 29, 1901.)

The following report from the Chief Topographical Engineer was placed on file:

CITY OF NEW YORK,
PRESIDENT OF BOARD OF PUBLIC IMPROVEMENTS,
TOPOGRAPHICAL BUREAU,
ONE HUNDRED AND SEVENTY-SEVENTH STREET AND THIRD AVENUE,
NEW YORK, September 3, 1901.

MR. JOHN H. MOONEY, Secretary, Board of Public Improvements:

SIR—In reply to the action taken by the Board of Public Improvements, referring for report a communication of the Deputy and Acting Commissioner of Sewers, attaching thereto the report of the Deputy Commissioner of Sewers of the Borough of Richmond, in the matter of changing the grade of Arrietta street, I herewith submit for a public hearing a map, with technical description, entitled "Plan and Profile, showing the grades of Arrietta street, between the Staten Island Rapid Transit Railroad and the New York Bay, in the First and Second Wards, Borough of Richmond, City of New York."

Papers in the matter are herewith returned.

Respectfully,

LOUIS A. RISSE,
Chief Topographical Engineer and Engineer of Concourse.

The following protest was referred to the Chief Topographical Engineer:

BOROUGH OF RICHMOND, September 4, 1901.

Hon. MAURICE F. HOLAHAN, President, Board of Public Improvements:

DEAR SIR—I beg to present herewith a protest of property-owners who are affected by the proposed change of grade in the lower part of Arrietta street, in the Borough of Richmond.

Yours respectfully,

GEORGE CROMWELL, President of the Borough.

We, the undersigned, property-owners and taxpayers, upon whom the burden of meeting the expense of the new Arrietta street sewer will be laid, most earnestly and emphatically protest against the proposed increase of that already very large expense by changing the grade at the foot of Arrietta street by about three feet.

We are informed by eminent engineering authority that this change of grade is absolutely unnecessary, and that its effect will be the payment by the City, and in turn by the undersigned as taxpayers, of a very considerable damage to the ferry company and to the property-owners on either side of the approach to the dock. The sidewalk would be raised upon the fronts of the hotel building and the brick building next adjoining and will similarly affect the other buildings. The proposed change of grade makes an abrupt ending of about three feet over the ferry dock, and as the company owning it cannot be compelled to raise the flooring of the dock to meet this,

undoubtedly damages on the basis of the practical prevention of the use of the dock will be awarded to the company.

To confirm the assurance we have received that all this additional expense is unnecessary, we call attention to the report of Mr. Louis A. Risse, the Chief Topographical Engineer of the Board of Public Improvements, under date of July 29, 1901.

We are informed, on application to the Deputy Sewer Commissioner, that if this report of Chief Engineer Risse was approved the contractor's work might be interfered with. The proposed change of grade, according to the profile plan, extends about 340 feet from the end of the street, and as to a part of this but little of the sewer work has been done beyond sinking the trench and laying the foundation of the sewer; and hence any change of street grade can be avoided.

We therefore emphasize our most positive protest against any change of grade in the street approach to the ferry dock at the foot of Arrietta street in the Borough of Richmond; and we intend to use every means within our power to prevent any further increase in the cost of the proposed sewer improvement through the medium of such change of grade.

RICHMOND BOROUGH, August 1, 1901.

A. B. POUCH, Treasurer.

And others.

Hon. THOS. J. BYRNE, Deputy Commissioner of Sewers, Borough of The Bronx :

DEAR SIR—I return herewith letter from Mr. Peter Handibode, Jr., asking for the remission of overtime on his contract for constructing sewer in Crotona avenue, from Tremont avenue to Crotona Park, North, and would report on the same as follows :

	59½	
	189½	
Time allowed.....	175

Hon. THOMAS J. BYRNE, Deputy Commissioner of Sewers, Borough of The Bronx :

DEAR SIR—I am charged with 13½ days overtime on Crotona avenue sewer, from Tremont avenue to Crotona Park, North, and I ask to have it remitted on the following grounds :

- 1st. Not having any outlet caused me some delay.
- 2d. The excessive and continued heat during the months of June and July compelled my men to stop for several days.
- 3d. The stoppage of the Crotona water last winter caused me considerable trouble and expense. I suppose the Inspector's book will show time lost, and if it does not I can give you date if you require it. I have a record of over 40 days' lost time through heat and stoppage of water.

Yours truly,
(Signed) PETER HANDIBODE, JR.

COMMUNICATIONS FROM PRESIDENT OF QUEENS.

The following communications from the President of the Borough of Queens were referred to the Commissioner of Bridges :

BOROUGH OF QUEENS, August 31, 1901.

Board of Public Improvements, City of New York, Hon. M. F. HOLAHAN, President :

GENTLEMEN—The undersigned hereby certifies that the preamble and resolution, copy of which is hereto annexed, wherein recommendation is made that the bridge now in course of construction between the boroughs of Manhattan and Queens, over Blackwell's Island Bridge, was duly adopted by the Local Board of said borough in meeting assembled on August 23, 1901.

Yours truly,
FREDERICK BOWLEY, President.

Whereas, The records of minutes of the meeting of the Board of Public Improvements, City of New York, held January 21, 1898, bears evidence of the fact that the President of the Borough of Queens certified to it the emphatic demand of the Local Board of said borough that a bridge between the Borough of Manhattan and the Borough of Queens and over Blackwell's Island, be promptly constructed ; and

Whereas, During said first year of consolidation as the Greater New York citizens of this borough formed an organization in furtherance of the constructing of the "Blackwell's Island Bridge," and still continue actively engaged in their purpose ; and

Whereas, The designation "Blackwell's Island Bridge" was of natural origin on account of its central bearing and is acceptable as appropriate, and is as such commonly known and fixed in the minds of the public, and hence will continue to be referred to by it as the "Blackwell's Island Bridge" ; therefore

Resolved, By this the Local Board of said borough in meeting assembled on August 23, 1901, that the recommendation be and hereby is made to the several officials, Boards and Commissions of The City of New York, having in any manner cognizance of and control over any matters relating to said bridge to officially designate said bridge as the "Blackwell's Island Bridge."

BOROUGH OF QUEENS, August 30, 1901.

Board of Public Improvements, City of New York, Hon. MAURICE F. HOLAHAN, President :

GENTLEMEN—The undersigned hereby certifies that the preamble and resolution, copy of which is hereto annexed, relative to the proposition for a side approach on each side of the main approach to the Blackwell's Island Bridge, in the Borough of Queens, was duly adopted by the Local Board of said borough at its meeting held August 23, 1901.

Yours truly,
FREDERICK BOWLEY, President.

Whereas, The President of the Borough of Queens, City of New York, did, at meeting of the Local Board of said borough, held on August 23, 1901, submit for its consideration and action the proposition that suitable approach for all purposes be constructed on each side of and in connection with the main approach to Blackwell's Island Bridge, which later will extend from the East river across the First Ward, in the Borough of Queens, by 3,441 feet, which will be one half mile longer than the main approach thereto in the Borough of Manhattan ; and

Whereas, Public hearing was had thereon before this Board at which there was a considerable number of citizens in support of said proposition, and none appeared in opposition thereto, except that there existed a difference of opinion as to the proper location or street for such side approaches ; and

Whereas, It is the unanimous opinion of this Board that the construction of side approaches to the main approach to the bridge now in course of construction which is to cross the East river from the Borough of Manhattan to the Borough of Queens, with its central piers to rest upon Blackwell's Island, in order that it may be of benefit in all directions, is an absolute necessity and be for the best interests of this city ; therefore

Resolved, That recommendation be and hereby is made to the Board of Public Improvements, City of New York, that it take such prompt and favorable action upon the aforesaid subject as will cause the same to be speedily progressed, and full response made to the many important interests both of private and public nature which they most seriously demand ; and further

Resolved, That, in accordance with the prevailing opinion as expressed by those present at said meeting, recommendation be and hereby is made that the site for the northerly side approach be on the Boulevard and the opposite directly across therefrom to terminate on East avenue in said Ward ; all in connection with the Blackwell's Island Bridge (officially designated as Bridge No. 4).

MISCELLANEOUS COMMUNICATIONS.

The following communication was placed on file:

To the Board of Public Improvements of The City of New York:

The petition of J. Watts DePeyster, the Manhattan Railway Company, R. J. and S. E. Brown, J. & S. Bernheimer, St. Cecilia Church, Charles Soysmith, John D. Crimmins, estate of Mary Fash, John J. Manning, Margaret Cahill, William Stack, Timothy J. Dunn, Harriet Adams, Josephine Schmid and Lizzie F. Brady, respectfully shows:

I.—That your petitioners are the owners of certain premises lying within the district bounded by One Hundred and Fourth and One Hundred and Sixteenth streets, Third avenue and Riverside Drive, which have been assessed in this proceeding for the opening, widening and extending of One Hundred and Tenth street, between Fifth and Seventh avenues, as hereinbefore stated:

II.—That said One Hundred and Tenth street as originally laid out was of the width of 60 feet, and was sufficient for the use and convenience of the public according to the system of streets and avenues established when it was so laid out upon the map of The City of New York, adopted by the Commissioners of Streets and Roads, filed April 1, 1811. The increased width of said street from 60 to 90 feet has been made necessary by the subsequent laying out and extension of the Central Park to One Hundred and Tenth street, which closed all the avenues and streets, from Fifty-ninth street to One Hundred and Tenth street, so that general traffic in that section is now provided for only by One Hundred and Tenth street, and the increase of such traffic by reason of the improvement of that section of the city has been the principal cause for the widening of said street.

III.—Another reason for the widening of said street is that said street has also been required for the general public benefit and advantage arising from the situation of the street with relation to Central Park, Morningside Park and Riverside Park, in that it is the first cross street running from the east to the west side of the city north of Fifty-ninth street, and the additional width of 30 feet was required to accommodate travel and traffic in that part of the city, and to connect the several city parks which front upon it—namely, Central, Morningside and Riverside parks.

IV.—That the lands benefited by said improvement are the Central Park, Morningside Park and Riverside Park, which have not been assessed to the full extent of the benefit resulting from said improvement.

V.—That said street, as widened, will be a great advantage and benefit to the Central Park by reason of affording to it a better and more imposing approach for traffic to and from the park at its northern end, relieving to a great extent the congested condition of traffic in the park lanes at this point, as well as affording a much improved means of communication between the Central Park, Morningside Park, Riverside Park and the several other new parks to the north.

VI.—That by resolution of the Board of Street Opening and Improvement, passed December 24, 1897, it was provided that 50 per cent. of the cost of widening said street should be raised by assessment upon property deemed to be benefited, and that the other 50 per cent. should be borne by The City of New York.

VII.—That the widening of said street has been of no special benefit and advantage to your petitioners' said lots, but is rather a general improvement which benefits the inhabitants of the entire City of New York and the whole expense thereof should be borne by the city at large.

That your petitioners' premises have been heretofore assessed for the opening and subsequent improvement of the streets upon which said premises front, and the assessments so laid representing the benefits resulting from the present street system have been paid and discharged, so that your petitioners' premises have paid their full share of the cost of improvements which have been of special advantage thereto.

Wherefore your petitioners pray that your Honorable Board will adopt a resolution providing that the entire cost and expense of said improvement be borne by the city at large.

Dated New York, August 29, 1901.

J. WATTS DEPEYSTER and Others.

By JAMES A. DEERING, Attorney.
