COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the Commissioner of Accounts:

No. 289.

Commissioner of Accounts—Transmitting Report on Examination of Chamberlain's Office for Year 1915.

City of New York, Office of the Commissioners of Accounts, Municipal Building, February 29, 1916.

Mr. P. J. SCULLY, *City Clerk,* Municipal Building, New York:

Dear Sir—I am forwarding herewith, pursuant to section 195 of the Charter, the report of the Commissioners of Accounts on an examination of the Chamberlain's accounts for the year ended December 31, 1915.

I also forward the detailed and classified statements required by the charter.

Very truly yours, JAMES McGINLEY, Chief of Staff.

Report Upon an Examination of the Chamberlain's Accounts for the Year Ending December 31st, 1915.

City of New York, Office of the Commissioners of Accounts, Municipal Building, February 25th, 1916.

Hon. JOHN PURROY MITCHEL, *Mayor, and the Honorable Board of Aldermen of The City of New York:*

Sirs—Section 195 of the Charter reads as follows:

"* * * The accounts of the chamberlain shall be anually closed on the last day of December, and shall be examined in the month of January in each year by the commissioners of accounts. Such commissioners shall examine the accounts and vouchers of all moneys received into and paid out of the city treasury during the year ending on the last day of December next preceding such examination, and shall certify and report to the mayor and board of aldermen in the following month of February the amount of moneys received into the treasury during such year, the amount of moneys paid out during the same period by virtue of warrants drawn on the treasury by the comptroller, the amounts of moneys received by the chamberlain, who shall be in office at the time of such examination, if he entered upon the execution of his duties since the last preceding report; the balance in the treasury on the last day of December preceding such examination, the amount of moneys borrowed for or on the credit of the city during such year, and the amount of the bonds of the city issued during such year, with the purposes for which and the authority under which such bonds were issued. Such commissioners shall also compare the warrants drawn by the comptroller on the treasury during the year ending on the last day of December preceding such examination, with the several laws and ordinances under which the same shall purport to have been drawn, and shall in like manner certify and report whether the comptroller had power to draw such warrants; and if any shall be found which, in their opinion, he had no power to draw, they shall specify the same in their report, with their reasons for such opinion."

The great volume of detail comprehended in an examination and comparison of the vouchers and warrants issued and paid in the course of the calendar year, if sought to be completed in the month of January following, as prescribed, would require the concentration of a much larger force of assistants than could be spared for this work at one time, without seriously affecting other examinations and investigations. In practice, therefore, the examination provided for in the above quoted section of the Charter is continuous throughout the year, six Accountants and seven Clerks being assigned thereto. During the examination of the period under review, 163,436 warrants and approximately the same number of vouchers were inspected.

Certification.

We hereby certify that all warrants paid in the year 1915, together with the supporting vouchers thereof, have been examined; that it appears the Comptroller was duly authorized by the several laws and ordinances to draw the warrants examined and none was found which was improperly drawn. The accounts of the City Chamberlain for the year 1915 of the moneys received into and paid out of the City Treasury have also been examined.

Corporate stock, notes, bonds and revenue bills were issued during the year 1915 as follows:

Revenue bonds	$75,701,000 00
Revenue bills	25,109,247 23
Corporate stock	73,059,936 17

Special Revenue bonds	9,367,075 34
General fund bonds	23,000,000 00
	$251,218,813 96

Exhibit "A" shows the corporate stock, notes, bonds and revenue bills issued during 1915, the purposes for which and the authority under which they were issued.

The following summary shows amounts received and paid out during the year 1915 by the Chamberlain, together with the balances at the beginning and close of the year, as required by the law before quoted.

Which was ordered on file.

The President laid before the Board the following communication from the Surrogates' Court, County of New York:

No. 290.

Surrogates' Court, New York County—Request for Authority to Draw on Account of Contingent Expenses.

Chambers of the Surrogates' Court, County of New York, New York, February 25, 1916.

To the Honorable the Board of Aldermen, New York City:

Gentlemen—On June 4, 1914, we applied to your Honorable Board for permission to draw upon the Comptroller for a cash fund of $200, in favor of our Clerk of the Court, Mr. Daniel J. Dowdney. On the 23rd of the same month our request was granted by resolution of your Board, and we have since made various drafts upon the Comptroller for cash with which to purchase stamps and to pay for various small repairs and other services. Our expenditure for postage and small supplies during the year 1915, out of this cash fund was $450; and that for repairs, lighting fires in the Judges, private chambers, etc., was $61.65.

Upon making Requisition No. 1 upon the Comptroller for the year 1916, we received a request from him that we procure a new resolution of your Board for this purpose, and we hereby make application for the same, the items to be charged as heretofore, to wit:

Against Code No. 3207, 1916, "Supplies"	$150 00
Against Code No. 3209B, 1916, "Contract or Open Order Service, General Plant Service"	50 00
Total	$200 00

Respectfully yours,

JOHN P. COHALAN, ROBERT LUDLOW FOWLER, Surrogates.

Resolved, That for the purpose of defraying minor and incidental expenses contingent to the office of the Surrgates' Court, County of New York, the Clerk of the said Surrogates' Court may, by requisition, draw upon the Comptroller for the sum of $200, and may in like manner renew the draft as often as may be deemed necessary, to the extent of the appropriations set apart for their office during the year 1916, entitled "Code No. 3207, 1916, Supplies," and "Code No. 3209B, 1916, Contract or Open Order Service"; but no such renewal shall be made until the money paid upon the preceding draft on the funds of his office shall be accounted for to the Comptroller by the transmittal of a voucher or vouchers certified by the Surrogates' Court, County of New York, covering the expenditure of the money paid thereon.

The President put the question whether the Board would agree with said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Bent, Burns, Browne, Carroll, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Curran, Delaney, Dixson, Donnelly, Dostal, Eagan, Farley, Ferguson, Gilmore, Gutman, Hannon, Hilkemeier, Kenney, Kochendorfer, McCourt, McGarry, McGillick, McKee, Martin, Mullen, O'Rourke, Quinn, Robitzek, Silberstein, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Walsh, Wendel, Wirth; Presidents Mathewson, Marks—48.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, February 9, 1916.

To the Board of Estimate and Apportionment:

Gentlemen—On January 6, 1916, the Commissioner of Parks, Queens, requested the issue of $3,000 corporate stock and adoption of a personal service schedule, to provide for the payment of salaries of the engineering force of his department for the year 1916. The Bureau of Standards reports thereon as follows:

"Purpose—To obtain an issue of $3,000 corporate stock, as provided in Code 1376TC for this year, for the payment of salaries of the engineering force of the department.

"Reason—To make available funds, against which payroll charges can be made, on account of supervision, preparation of plans, preliminary surveys and topographical

work on improvement work in parks, Queens, costing approximately $40,000. At the present time only $1,075 of the requested amount is necessary for the preliminary work.

"Finding—The request is proper and necessary."

Recommendation—In view of the report, we recommend adoption of the attached resolution authorizing a partial allowance of $1,075 to meet payroll requirements for preliminary work. Respectfuly,

WM. A. PRENDERGAST, Comptroller; FRANK L. DOWLING, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; DOUGLAS MATHEWSON, President, Borough of The Bronx; Committee on Corporate Stock Budget.

Which was referred to the Committee on Finance.

Report of the Committee on Finance in Favor of Filing Resolution to Authorize an Issue of Special Revenue Bonds, $55.07, to Be Used by the Coroners, Borough of The Bronx, for a 1915 Deficit.

The Committee on Finance to which was referred on March 1, 1916 (Minutes, page 556), the annexed resolution in favor of an issue of Special Revenue Bonds, $55.07, to be used by the Coroners, Borough of The Bronx, for a 1915 deficit, respectfully

REPORTS:

This matter was referred to the Bureau of Contract Supervision and they reported that there is a budget deficiency of the amount requested, and that if the Board of Coroners will request the Board of Estimate and Apportionment for a transfer from some unexpended appropriation of another department, the request will be granted. It, therefore, recommends that this resolution be placed on file.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter the Board of Estimate and Apportionment be and it hereby is requested to authorize the Comptroller to issue special revenue bonds to the amount of fifty-five and seven one-hundredths dollars ($55.07), the proceeds whereof to be used by the Board of Coroners of the Borough of The Bronx for the purpose of meeting deficiency in supplies and telephone service for the year 1915.

No. 281—Coroners, Borough of The Bronx—Requesting an Issue of Special Revenue Bonds, $55.07, to Meet Deficiency in Supplies and Telephone Service for the Year 1915.

Dear Sir—An examination of the above request develops that there appears to be a deficiency in "Code 2947, Supplies," of $25.00 and in "Code 2950, Communication," of $30.07.

If the Board of Coroners will request the Board of Estimate and Apportionment to transfer funds from some excess unexpended appropriations of another department for 1915, I believe that the request will be granted, thus obviating the issue of special revenue bonds. Respectfully, PETER J. McGOWAN, Acting Director.

Report of the Committee on Finance in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, $1,248.75, for Wages, Employment of a Tinsmith for the Year 1916.

The Committee on Finance, to which was referred on February 23, 1916 (Minutes, page 469), the annexed resolution in favor of request of Commissioner of Public Charities for Special Revenue Bonds, $1,248.75, wages for the employment of a Tinsmith for the year 1916, respectfully

REPORTS:

That this matter was referred to the Bureau of Standards for investigation, and they reported that provision for this position was omitted in the budget. The Commissioner of Charities in his request, sets forth the fact that this man is a veteran of the Civil War, and would undoubtedly recover in an action against the City, which contention the Bureau of Standards sustains in their report. It, therefore, recommends that this resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of one thousand two hundred and forty-eight dollars and seventy-five cents ($1,248.75), the proceeds whereof to be used by Commissioner of Public Charities for the purpose of paying wages for the employment of a Tinsmith for the year 1916.

Report of the Committee on Finance in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, $3,300, to Provide for Certain Positions in the Department of Public Charities.

The Committee on Finance to which was referred on February 23, 1916 (Minutes, page 477), the annexed resolution in favor of request of the Commissioner of Public Charities for Special Revenue Bonds, $3,300, to provide for certain positions, respectfully

REPORTS:

That this matter was referred to the Bureau of Standards for investigation, and they reported that provision for these positions were omitted in the budget in error, and that Revenue Bonds should be issued for the year 1916. It, therefore, recommends that this resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of three thousand three hundred dollars ($3,300), the proceeds whereof to be used by the Commissioner of Public Charities for the purpose of providing salaries for the following positions:

	Institution and Position.	Salary.
Code 1907	Metropolitan Hospital, Auto Engineman (2), $1,200, without maintenance	$2,400 00

Re Special Revenue Bonds.

To the Honorable the Board of Aldermen, City Hall, New York City:

Gentlemen—Request is hereby made to your honorable body for the issuance of special revenue bonds amounting to $3,300 to provide for the following positions:

	Institution and Position.	Salary.
Code 1907.	Metropolitan Hospital, Auto Engineman (2), $1,200, without maintenance	$2,400 00
Code 1914.	Sea View Hospital and N. Y. C. Farm Colony, Trade Instructor (1), $900, without maintenance	$900 00
	Total	$3,300 00

In the preparation of the 1916 budget allowance for the Department of Public Charities the examiners of the Board of Estimate and Apportionment omitted these positions. The employees affected have been performing their duties, but have received no salaries for January. Unless there is a possibility of getting their salaries very soon these employees will look for positions in other departments. The ambulance service at the Reception Hospital, 70th Street and East River, will have to be discontinued and serious complications will arise.

In view of the above, I would urge your honorable body to authorize the Board of Estimate and Apportionment to issue the revenue bonds requested.

Very sincerely yours,

HENRY C. WRIGHT, First Deputy and Acting Commissioner.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, February 28, 1916.

Mr. FRANCIS P. KENNEY, *Chairman, Committee on Finance, Board of Aldermen:*

Dear Sir—I am in receipt of your communication of the 25th inst., requesting my conclusions on three matters for presentation to your Committee on Monday next.

Report on matters No. 229 and No. 231 will be forwarded at a later date.

In regard to No. 235, the positions of two Auto Enginemen at $1,200 at the Metropolitan Hospital, and a Trade Instructor at $900, all three positions being without maintenance, were omitted from the budget set up in error, and revenue bonds for same should be allowed for the year 1916. Yours very truly,

GEORGE L. TIRRELL, Director.

The Committee on Finance, to which was referred on February 23, 1916 (Minutes, page 502) the annexed resolution in favor of a resolution for special revenue bonds, $700, to be used by the President of the Borough of Manhattan for repairs to building in East 59th street occupied by the Volunteer Firemen's Association, respectfully

Hon. FRANCIS P. KENNEY, *Chairman, Finance Committee, Board of Aldermen:*

No. 253—Resolution Authorizing Comptroller to Issue Special Revenue Bonds to the Amount of $750, to Be Used by President, Borough of Manhattan, for Making Necessary Repairs in Building Occupied by Volunteer Firemen's Association, 220 East 59th Street, Manhattan.

Sir—An examination has been made into the above request and it was found that, pursuant to chapter 95 of the Laws of 1888, the Commissioners of the Sinking Fund adopted on February 18, 1897, a resolution assigning the use of the building at 220 East 59th street to the Volunteer Firemen's Association of The City of New York.

There are two buildings on this lot; on the street front a four story brick building, about 60 feet by 25 feet, and in the rear of the lot a two story brick building, about 25 feet by 25 feet.

There are certain repairs necessary to the front building, such as painting the extension, front and rear, repairing windows, leaders, plumbing and painting the interior walls and ceilings. This work could be done for about $475.

The rear building is in a dilapidated condition, the roof falling in and the plaster falling from the walls and ceilings. It would be best to remove this building and this would cost approximately $225.

Although there was no specific allowance made for repairs to this building in the 1916 Budget, there is money available in the general repair account of the Borough President of Manhattan for this work.

Very truly yours, PETER J. McGOWAN, Acting Director.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Burns, Burden, Browne, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Curran, Daly, Delaney, Diemer, Donnelly, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Gutman, Hannon, Haubert, Heyman, Hilkemeier, Kenneally, Kenney, Kochendorfer, McCourt, McGarry, McGillick, McKee, Martin, Moore, Moran, O'Rourke, Palitz, Post, Quinn, Robitzek, Ryan, Schmitz, Schweickert, Silberstein, Smith, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth, Wise; Presidents Van Name, by Henry P. REPORTS:

That this matter was referred to the Bureau of Standards for investigation and they reported that the work is necessary and should be done, and that the force asked for is proper and necessary. It, therefore, recommends that this resolution be adopted.

City of New York, President of the Borough of Manhattan, Municipal Building, February 17, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen,* City Hall, Manhattan:

Dear Sir—Application is hereby made for an issue of special revenue bonds in the amount of $4,950 for the payment of services of additional employees required for overhauling index and filing plans in the Bureau of Buildings under my jurisdiction.

For many years the efficiency of the Plan Desk of the Building Bureau has been severely impaired by the lack of an adequate method of indexing and filing plans and applications.

About two years ago a system was devised to rectify, as far as possible, this condition. This system is based upon filing all plans and applications according to location as to lot and block number, the filing being arranged according to tax sections, a distinctive color scheme being introduced, so that any drawing belonging to any tax section or block could be quickly located. A description of this system appeared in the annual report of the Building Bureau for 1914.

On account of inability to provide an adequate force for the prosecution of this work little or no progress has been made. In fact, in something like two years not quite one tax section has been completed. It has been impossible at any time to employ more than one or two men at this work, which is not only very unsatisfactory but very expensive.

The very large reduction in the force available for duty at the Plan Desk makes it at this time of the utmost importance that the work in connection with the proper filing and indexing of the plans be completed at the earliest possible moment, as this would very materially reduce the labor and time now necessary to find or locate a plan. In fact, with the plans properly filed and indexed, one man could probably handle the work, where three are now necessary.

While it is extremely difficult to estimate the exact time that it would take to complete the work, yet it is believed that it could be done by a temporary force of ten men working for about nine months.

I would therefore earnestly urge the desirability of having a resolution presented to your Board for the issuance of special revenue bonds to provide for a temporary force as follows:

	Per Annum.
1 Third Grade Clerk	$1,200 00
3 Second Grade Clerks	900 00
2 Second Grade Clerks	600 00
3 First Grade Clerks	300 00
1 Second Grade Typewriting Copyist	600 00

As request is made for the services of this force for only nine months the total amount of revenue bonds necessary will be $4,950.

I would also call the attention of your Board to the fact that the overhauling, indexing and filing of plans will facilitate the discarding of a great many old and useless records in the Violations Division, provided the permission of the Board of Estimate and Apportionment, with the approval of the Corporation Counsel, is obtained. This would provide more filing space and, in consequence, would reduce materially budget requirements for filing cases for the year 1917.

Very truly yours, MARCUS M. MARKS, President, Borough of Manhattan.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, March 6, 1916.

Mr. FRANCIS P. KENNEY, *Chairman, Committee on Finance, Board of Aldermen:*

Sir—In reference to your communication of March 2, 1916, requesting the Bureau of Standards to investigate and report upon the request of the Borough President of Manhattan for special revenue bonds in the sum of $4,950, for the payment of services of additional employees for overhauling index and filing plans in the Bureau of Buildings. The Bureau of Standards reports thereon as follows:

The files containing plans and applications for buildings are in a condition of the utmost confusion so far as concerns plans and applications received up to two years ago. The new method devised about two years ago is good. However, the Bureau has not had sufficient force for the completion of the installation of this new method. The complete indexing and filing should be proceeded with as soon as possible. The force asked for is proper and necessary. In two cases the salaries requested are high. The Bureau recommends that these salaries be fixed at the minimum of the grade provided in the standard specifications for the work to be performed. The Superintendent of Buildings agrees with these changes.

In requests made to the Board of Estimate and Apportionment for modification of personal service schedules, the Borough President has indicated that he has budget funds available for transfer to the amount of $3,000. It will therefore be necessary to provide special revenue bonds in the sum of $1,725 only. In full, the recommendation of the Bureau of Standards is as follows:

Clerk at $300 per annum (27 months)	$675 00
Clerk at $540 per annum (18 months)	810 00
Clerk at $840 per annum (27 months)	1,890 00
Clerk or Examiner at $1,200 per annum (9 months)	900 00
Typewriting Copyist at $600 per annum (9 months)	450 00
Total	$4,725 00

Respectfully, GEORGE L. TIRRELL, Director.

Report of the Committee on General Welfare in Favor of Filing a Communication from the Municipal Reference Library Relative to Fire Hazards in the Storage and Repair of Motorcycles.

The Committee on General Welfare, to which was referred on February 8, 1916 (Minutes, page 389), the annexed, filing a communication from the Municipal Reference Library relative to fire hazards in the storage and repair of motor cycles, respectfully

REPORTS:

That, having examined the subject, and noting the contents, it recommends that the said communication be placed on file.

LOUIS WENDEL, Jr., HARRY ROBITZEK, CHAS. H. HAUBERT, JOHN T. EAGAN, JOSEPH M. HANNON, JAMES R. FERGUSON, ARNON L. SQUIERS, FRANK T. DIXSON, WILLIAM T. COLLINS, Committee on General Welfare.

Municipal Reference Library, 500 Municipal Building, New York City, January 29, 1916.

Hon. HARRY ROBITZEK, 2808 Third Avenue, New York City:

Dear Sir—Ordinances of other cities on file in this Library, supplemented by information obtained from city officials through correspondence, show that in Chicago, Cincinnati, Cleveland, Detroit, Indianapolis, Milwaukee, St. Louis, Seattle, Los Angeles, Kansas City and Albany, the rules and regulations relating to garages apply to places in which either automobiles or motorcycles are kept.

Chicago—The fire prevention ordinances of Chicago do not specifically cover the storage of motorcycles, the ordinance pertaining to garages being ambiguous in that respect, but I am informed that whenever cases have arisen the Chicago Fire Prevention Bureau has required that motorcycles be subject to the regulations covering the storage or repair of automobiles in garages.

Cincinnati—In Cincinnati a "garage" is a "building or that portion of a building wherein are kept one or more vehicles charged with or containing a volatile inflammable liquid for fuel or power."

Cleveland—The Cleveland ordinance defines garage as "any part of a building in which an automobile is kept," but the Building Department advises that "there are no separate provisions applying to buildings in which motorcycles alone are kept. Any such buildings would be considered 'garages.'"

Detroit—In the Detroit ordinance (§ 85) "a garage shall be construed to mean a building in which are housed, for rent, care, demonstration, storage or sale, self-propelled vehicles or other wheeled machines, containing in the tanks thereof inflammable liquids for fuel or power; also all parts of the building and all adjoining structures or buidings not cut off by an unpierced fire wall."

Indianapolis—In the Indianapolis code a "public garage" is declared to be "any building or inclosure used for the care, repair or storage of motor vehicles for profit or any in which motor vehicles are kept for hire."

Milwaukee—The Milwaukee code defines a garage as "a building or that portion of a building in which a vehicle or vehicles, using or carrying volatile inflammable liquid for fuel or power, is or are kept for use, repair, rental or live-storage or for demonstration purposes . . ."

St. Louis—A garage in a St. Louis ordinance of 1908 still in force is defined as "a building or that portion of a building wherein are kept five or more automobiles or motor cars charged with or containing a volatile inflammable liquid for fuel or power." Although this seems to exempt motorcycles, the St. Louis Building Department states that the garage regulations apply to any gasoline vehicle. A St. Louis ordinance of July 21, 1915, seems definitely to include motorcycles. This ordinance reads in part as follows: "No garage for the storing or caring for of five or more automobiles, auto trucks or motor cars, charged with gasoline or other volatile, inflammable liquid, or electricity, whether such machines are owned and used for private purposes, or are to be kept for hire, shall hereafter be established in any building or on any premises within twenty-five feet of an existing inhabited residence, tenement house, apartment house, nor within one hundred feet of an existing building used as a place of public assemblage."

Seattle—In Seattle a garage is defined as "a building or any portion thereof in which an automobile propelled otherwise than by electricity is kept for any purpose other than display." This would seem to exclude motorcycles, but I am informed by letter from Seattle that the garage regulations apply to all motor vehicles alike.

Los Angeles—In Los Angeles a garage is defined as "a building where automobiles are kept or stored by the public, or where automobiles are rented to or hired by the public, or where a charge is made for the use, storage or keeping of automobiles." The Chief Engineer of the Fire Department writes that this definition covers both auto and motorcycle garages.

Kansas City—The Fire Warden of Kansas City, Missouri, states that they "make no distinction in fire prevention regulations between buildings in which automobiles are stored and those in which motorcycles are kept.."

Albany—The Superintendent of buildings of Albany makes the same report.

A distinction is made between automobiles and motorcycles in Boston, Minneapolis and San Francisco.

Boston—The regulations of the Metropolitan Fire Prevention District (Boston) governing the transportation, storage, sale and use of volatile, inflammable fluids and the construction and maintenance of garages provide (Sec. 13) that "no motorcycle or motor tricycle shall be kept in any building or part of any building, except a licensed garage, unless a permit has been obtained from the Head of the Fire Department." A garage is defined (§ 45) as "any building or part of any building wherein is kept one or more automobiles—not including motor cycles or motor tricycles—charged with or containing volatile inflammable fluid, or wherein is conducted the business of repairing motor vehicles."

Minneapolis—The Minneapolis building ordinances of 1914 apparently do not define a "garage," but the Building Inspector states that the regulations which apply to garages do not apply to buildings in which motor cycles are kept.

San Francisco—In San Francisco the definition of a public garage is almost identical with that in Los Angeles, but the Secretary of the Board of Fire Commissioners writes that they "have no law regulating the storage of motorcycles in garages."

The National Board of Fire Underwriters and the National Fire Prevention Association published in 1913 a "suggested ordinance regulating the use, handling, storage and sale of inflammable liquids and the products thereof," which was the result of two or three years' study of a considerable number of experts representing the two organizations named as well as experts interested in various phases of the petroleum industry, railroad transportation, etc. In this suggested ordinance a garage is defined as a "building in which are housed, for rent, care, demonstration, storage or sale, self-propelled vehicles or other wheeled machines, containing in the tanks thereof inflammable liquids for fuel or power; also all parts of the building and all adjoining structures or buidings not cut off by an unpierced fire wall."

The Consulting Engineer of the National Board of Fire Underwriters writes that "We cannot see that there is any difference in the hazard of the two vehicles except that of fuel storage capacity, but when we take into account the fact that several motorcycles can be stored in the same space that would be occupied by one automobile, this difference is greatly lessened, and you have the additional hazard of the operation of several machines instead of one. We believe this view is the one generally taken upon this subject."

I have requested information from other cities on this subject but have received

no replies. As soon as I get further data I will send it on to you. If we can be of service in looking up information on any other phase of this question or on any other question for your Committee, I hope you will feel free to call upon us.

Very truly yours, C. C. WILLIAMSON, Librarian.

Report of the Committee on Finance in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, $1,065, for Use of the Surrogate of Bronx County for Equipping, Etc.

The Committee on Finance, to which was referred on February 8, 1916 (Minutes, page 388), the annexed resolution in favor of an issue of special revenue bonds $1,065 for use of the Surrogate of County of Bronx for equipping, etc., respectfully

REPORTS:

That the committee referred this request to the Bureau of Contract Supervision and has received a report from said Bureau, which is hereto attached. It will be seen that the total amount recommended for this purpose is $993, under conditions stated in report, and the committee recommends the accompanying resolution for said amount be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of nine hundred and ninety-three dollars ($993), the proceeds whereof to be used by Surrogate of Bronx County for the purpose of defraying the cost of equipping and removing to new quarters; all obligations contracted for hereunder to be incurred on or before December 31, 1916.

Mr. FRANCIS P. KENNEY, *Chairman, Committee on Finance, Board of Aldermen, New York City:*

No. 206—$1,065 *for Use of Surrogate's Court, County of Bronx, in Equipping and Removing to New Quarters.*

Dear Sir—The following is the result of an investigation of the request for special revenue bonds for the use of the Surrogate's Court, Bronx County, as stated above.

New quarters have been provided for the Surrogate's Court, in the Bergen Building. Of the amount requested, $140 is to pay the cost of moving the present equipment from the County Court House. Estimates received since making this request indicate that the work can be done for $120.

An item of $217 for filing cabinets for the record room was estimated on the basis of units, containing 2 drawers, similar to those used under the counter. Upright units containing 4 drawers can be purchased for $165. These cases are necessary for the filing of records at present stored in a vault in the County Court House.

A clause in the lease of the new Bergen Building requires the owner to erect partitions, railings, etc., for the use of the Departments to be housed in the building. This might be construed to include the metal counter for which the Surrogate requests the sum of $708.

The above facts seem to indicate the need of $285 to pay the cost of moving and to provide new filing cases, while the item of $708 for the counter depends upon the interpretation of the lease.

Yours truly, PETER J. McGOWAN, Acting Director.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Burns, Burden, Browne, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Curran, Daly, Delaney, Diemer, Donnelly, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Gutman, Hannon, Haubert, Heyman, Hilkemeier, Kenneally, Kenney, Kochendorfer, McCourt, McGarry, McGillick, McKee, Martin, Moore, Moran, O'Rourke, Palitz, Post, Quinn, Robitzek, Ryan, Schmitz, Schweickert, Silberstein, Smith, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth, Wise; Presidents Van Name, by Henry P. Report of the Committee on Finance in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, $71,035, to Meet Anticipated Deficit in 1916 Accounts.

The Committee on Finance, to which was referred on February 15, 1916 (Minutes, page 421), the annexed resolution in favor of an issue of Special Revenue Bonds, $71,035, to meet anticipated deficit in 1916 accounts, respectfully

REPORTS:

That, upon receipt of this request, the Committee referred the same to the Bureau of Standards, with a request for investigation and report. The result of such investigation is contained in report of said Bureau, which is hereto appended.

The Bureau makes a recommendation for an amount $32,000, less than the amount requested. This matter was taken up at length by the representatives of the Trustees of Bellevue and Allied Hospitals and Doctor Cahill of the Bureau of Standards.

The Hospital authorities were very firm in their stand that this entire amount was required for proper care of patients. The Committee is of the opinion there should be no lack of funds for said purposes, provided that no waste of this money occurs, and both Dr. Brannan and Dr. O'Hanlon were positive that the representative of the Bureau of Standards was mistaken in making allowances and segregating the funds provided in the budget. The Committee has decided to report the entire amount asked for, and it therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of seventy-one thousand and thirty-five dollars ($71,035), the proceeds whereof to be used by the Trustees of Bellevue and Allied Hospitals for the purpose of meeting anticipated deficit in 1916 accounts, all obligations contracted for hereunder to be incurred on or before December 31, 1916.

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st Avenue and 26th Street, New York, February 11, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen*, City Hall, New York:

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Aldermen to authorize an issue of special revenue bonds in the amount of $71,035 for the salaries of employees in this department, to meet the anticipated deficit in the following appropriations:

2052	Bellevue Hospital, Salaries Regular Employees		$39,390 00
	Amount agreed upon by Bureau of Standards	$18,420 00	
	Amount in question	20,970 00	
2053	Gouverneur Hospital, Salaries Regular Employees		1,320 00
	Amount agreed upon by the Bureau of Standards		
2054	Harlem Hospital, Salaries Regular Employees		14,080 00
	Amount agreed upon by the Bureau of Standards	$10,170 00	
	Amount in question (required to open new wing)	2,910 00	
2055	Fordham Hospital, Salaries Regular Employees		10,590 00
	Amount agreed upon by the Bureau of Standards	$4,170 00	
	Amount in question	6,420 00	
2056	Neponsit Beach Hospital, Salaries, Regular Employees		480 00
	Amount agreed upon by Bureau of Standards		
	Amount in question	$480 00	
2058	Bellevue Hospital, Salaries, Temporary Employees		5,175 00
	Special Nurses	$4,800 00	
	Vacation relief	375 00	

Nothing agreed upon by Bureau of Standards.

The Budget for the year 1916 for this department has not made provision for a number of places necessary for the proper administration of the hospitals, and the Bureau of Standards of the Board of Estimate and Apportionment has considered a revision of salary schedules proposed by Bellevue and Allied Hospitals, and has signified its willingness to report favorably upon the request to the extent indicated above.

Respectfully, J. K. PAULDING, Secretary, Board of Trustees.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, February 28, 1916.

Hon. FRANCIS P. KENNEY, *Chairman, Committee on Finance, Board of Aldermen, New York City:*

Dear Sir—In reply to your letter dated February 17, relative to the request of the Board of Trustees, Bellevue and Allied Hospitals, for special revenue bonds in the amount of $71,035, the Bureau of Standards reports that the amount of $38,955 is necessary.

Code No. 2052, Bellevue Hospital—Requested, $39,390; necessary, $19,260.
Code No. 2053, Gouverneur Hospital—Requested, $1,310; not necessary.
Code No. 2054, Harlem Hospital—Requested, $14,080; necessary, $12,630.
Code No. 2055, Fordham Hospital—Requested, $10,590; necessary, $5,010.
Code No. 2056, Neponsit Hospital—Requested, $480; necessary, $1,680.
Code No. 2058—Bellevue Hospital, Temporary Employees—Special Nurses; requested, $4,800; not necessary. Vacation Relief, Pharmacist, temporary employment; requested, $375; necessary, $375.
Total requested by Bellevue and Allied Hospitals, $71,035.
Total found necessary after investigation, $38,955.

The additional amount of $38,955 is necessary, owing to the fact that the new Bellevue buildings are now practically in full operation, and the force required to operate these buildings could not be properly anticipated at the time of the making of the budget. This is also true of the new wing of Harlem Hospital. The forces recommended for Fordham and Neponsit were unintentionally omitted in making the budget.

The above amount is sufficient to carry on the work of these hospitals for the year 1916. If you wish, I shall be glad to send an Examiner to you to explain any details you may desire. Very truly yours. GEORGE L. TIRRELL, Director.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Burns, Burden, Browne, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Curran, Daly, Delaney, Diemer, Donnelly, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Gutman, Hannon, Haubert, Heyman, Hilkemeier, Kenneally, Kenney, Kochendorfer, McCourt, McGarry, McGillick, McKee, Martin, Moore, Moran, O'Rourke, Palitz, Post, Quinn, Robitzek, Ryan, Schmitz, Schweickert, Silberstein, Smith, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth, Wise; Presidents Van Name, by Henry P. REPORTS:

That having examined the subject, it believes the proposed appropriation to be necessary and it, therefore, recommends that the said resolution and ordinance be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of forty dollars ($40), the proceeds whereof to be used by the Trustees of the Bronx County Law Library for the purpose of defraying the cost of removal of the Bronx County Law Library from No. 3230 Third Avenue to the new quarters in the Bergen Building. All obligations for hereunder to be incurred on or before December 31, 1916.

Chambers of the Surrogate's Court, County of Bronx, New York, February 18, 1916.

Hon. FRANCIS P. KENNEY, *Chairman, Finance Committee, Board of Aldermen, New York City:*

Dear Sir—Your attention is called to the recommendation made by the Finance Committee of your Honorable Board as regards Resolution No. 207, introduced by Alderman Harry Robitzek on February 8th, 1916, in the Board of Aldermen, for the purpose of providing funds to defray the cost of packing and moving the equipment of the Bronx County Law Library from 3230 Third Avenue to the new Library quarters in the Bergen Building at Tremont and Arthur Avenues.

In accepting the report that the District Attorney would be able to use his budgetary funds for the purpose of defraying the cost of removal of the above mentioned library. the committee were apparently of the opinion that the Law Library is a part of the District Attorney's office, for the reason that the Library funds are disbursed through that office. the District Attorney being one of the Library Trustees. The Bronx County Law Library is a separate and distinct department, and not a part of any other department or office, established for the use of all the Bronx County departments, and therefore separate funds must be provided to meet the individual expenses of the Library.

Trusting that your Committee will reconsider the before mentioned resolution so that the necessary funds as originally requested to meet the expenses of moving the library equipment may be provided, I am, very truly yours,

HARRY W. COOK, for Library Trustees; GEORGE M. S. SCHULZ, LOUIS D. GIBBS, FRANCIS MARTIN.

Which was ordered on file, on motion of Alderman Kenney, with the understanding that the Finance Department will find the amount by transfer.

No. 233—(S. O. No. 32).

Report of the Committee on Finance in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, $23,550, for Repairs to Various Buildings in Central Park.

The Committee on Finance, to which was referred on February 23, 1916 (Minutes, page 473), the annexed resolution in favor of an issue of special revenue bonds, $26,550, for repairs to various buildings in Central Park, respectfully

REPORTS:

That it has received from the Bureau of Contract Supervision a report recommending that all but $3,000 of this request be granted, under the conditions specified therein, copy of which report is hereto attached. The committee believes that the dignity of the city requires that these buildings be either repaired or razed. The Park Commissioner has made a claim that he could secure a tenant for these restaurants at a rate very remunerative to the city, and if this can be done or if a higher rate can be secured by advertising, it would certainly appear that it would be to the city's interest to make the repairs. The committee makes the recommendation that the amount recommended by the Bureau of Contract Supervision be allowed on the condition that the Park Commissioner secure a paying tenant and in furtherance of such recommendation, presents the accompanying resolution for adoption.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of twenty-three thousand five hundred and fifty dollars ($23,550), the proceeds whereof to be used by the Department of Parks, Manhattan and Richmond, for the purpose of defraying cost of repairs to various buildings in Central Park. All obligations hereunder to be incurred on or before December 31, 1916.

FRANCIS P. KENNEY, ROBERT L. MORAN, WM. P. KENNEALLY, HENRY H. CURRAN, F. H. STEVENSON, JOHN DIEMER, SAMUEL J. BURDEN, CHARLES DELANEY, FRANK A. CUNNINGHAM, MICHAEL STAPLETON, Committee on Finance.

City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Municipal Building, 10th Floor, February 17, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen,* City Hall, New York City:

Dear Sir—Request is hereby made for an issue of special revenue bonds, in accordance with the provisions of subdivision 8 of section 188 of the Greater New York Charter, proceeds to be spent as follows:

Necessary repairs to McGowan's Pass Tavern, Central Park		$14,000 00
Necessary repairs to Casino Restaurant, Central Park		10,000 00
Necessary repairs to Arsenal Restaurant, Central Park		2,550 00
		$26,550 00

The details of the proposed expenses for the respective locations is submitted as follows:

McGowan's Pass Tavern.

Interior carpenter work	700 00	
Roofing and sheet metal work	1,400 00	
Plumbing and gas	2,000 00	
Electric work	2,000 00

Mason work	500 00	
Kitchen	2,700 00	
		$14,000 00

Roofing, including new gutters, leaders, repairs to skylights, slate roofing, ridges and valleys	$1,000 00	
Painting of entire exterior	1,200 00	
Decorating interior and painting of walls and ceilings in basement	2,500 00	
Toilet room outfit in basement and kitchen	3,000 00

Range	50 00	
		2,550 00
		$26,550 00

The expenditure of this money will bring at least double the previous revenue received for these concessions. Your early action is asked on this request because delay means, in the case of McGowan's Pass Tavern and the Arsenal Restaurant, loss to the city, because of loss of revenue through the privileges possible if the places are properly repaired.

McGowan's Pass Tavern—When McGowan's Pass Tavern was occupied the rental was $2,000 per annum. Repairs are badly needed. The Department has received a number of applications from private individuals and corporations, the city to make repairs, at prices ranging from $1,000 to $4,200 per annum, for the restaurant privilege.

Casino—The repairs to the Casino are justified because of the fact that the holder of the restaurant privilege pays the city $3,000 per annum, and the continuance of his lease is endangered because of the necessity for these repairs. The tentative offers thus far received for the privilege in case the building is repaired justify the assurance that a large additional income can be obtained.

Arsenal Restaurant—Last year the menagerie candy privilege, together with the Arsenal Restaurant, netted the city $1,000. This year the city receives $162 a month for the candy privilege, separate from the Arsenal Restaurant, which is paying $5 per month. It is estimated that if the necessary repairs are made and the restaurant run in a business-like manner it will net the city an additional $1,000 per annum.

No provision was made for these necessary repairs in the budget for 1916, because I was then awaiting an opinion from the Corporation Counsel on the question as to whether I had the authority to operate these restaurants municipally, as is done in Minneapolis, Hartford, Chicago and other cities. Until I received this opinion I did not know whether I should be obliged to make repairs simply to the structure, or whether I should be obliged to request funds for the equipment as well. After the budget was made up, I received the opinion of the Corporation Counsel that under the Charter as it exists at present I had no authority to operate these restaurants municipally.

There had been, previous to my coming to the Park Department, a number of investigations made, including those by the Department of Finance, the Commissioner of Accounts and the Bureau of Municipal Research. All these investigations and reports found serious fault with the methods employed by the Park Department under previous administrations. It was shown that there were a number of concessions of an important character that had been let for so long a term of years that in the course of time they became much more valuable and also conditions changed, requiring a different kind of service in order to meet the public need, and the Park Department was unable to compel the kind of service required by the public. That owing to the failure of the city to repair the buildings themselves and provide the necessary funds for that purpose, the concessions had been frequently let with an allowance to the concessionaires to rebate on the sums agreed upon to be paid the city, by offsetting the expenses they were put to in order to repair, change and improve the said buildings. It was urged by the reports that scandals resulted and the city suffered thereby. Objection was also made to the dangers arising from allowing a concessionaire to pay the city on a commission basis, and the difficulties that ensued on the part of the city in ascertaining the net profits of the business, under the circumstances. It was also shown that favoritism had played a part in the leasing of small concessions and some of the large ones; that some of the so-called small concessions were much more valuable than had been supposed and the city was losing a large revenue in treating on a charitable basis, concessionaires who were really very well off, and in no way objects to charity. There were a great many additional recommendations and criticisms that I will not burden you with at this time.

While these investigations and the resulting reports contained valuable features of criticism, some of the recommendations made were unsound, chiefly due to hasty work and insufficient study of the special conditions to be met with in park practice.

I felt that it would be a distinct achievement if the whole subject of concessions could be treated on a broad basis covering the various license-giving departments. That if a series of conferences could be had including representatives of all these departments, certain broad lines of policy could be laid down, after which there would be eliminated the gross inconsistencies that existed on account of the entirely different methods employed by each department in treating similar cases. I initiated such conferences, which included representatives of the Department of Licenses, Department of Docks, Department of Bridges, Department of Finance, Borough President of Manhattan, Mr. Paul Wilson, representing the Mayor's Office, representatives of the Commissioners of Accounts, and of various civic organizations. A great many different views were expressed and valuable suggestions obtained, but the confreres, despite my efforts, were unable to reach any broad policy which they could recommend.

I then appointed a committee on park concessions to study the question and report back to me. The chairman of this committee was the Secretary of the Park Board, its members, the Landscape Architect of this Department, Mr. Paul C. Wilson, the Commissioner of Accounts representative, the Department of Finance representative, and representative of the City Club. After a study of the question they submitted to me recommendations which I adopted with modifications as follows:

The concessions of the Department are placed in two classes: In one class are all those concessions where the income had been valued at $1,000 or more and the city can therefore expect to receive an income of at least $200 or more annually. In all such cases the privilege is put up for public bidding, and awarded to the highest responsible bidder. Where the value, if ascertained to be less than $1,000, and the income to the city less than $200, for such cases charitable considerations will still prevail, and they are treated on the theory that in this manner the city cares for a number of cripples and unfortunates who are thus rendered self-supporting and otherwise might become public charges.

To assure that these charitable privileges should not be awarded to unworthy persons, there has been appointed a committee to which all such applications are referred, this committee consisting of a representative from the Charity Organization Society, the United Hebrew Charities, and the Catholic Charities.

This policy has therefore now been followed for over a year with excellent results, and meanwhile the city's revenue by this system has been increased in the item of park concessions alone by over $35,000 annually.

However, the policy as initiated did not include the larger restaurant and other concessions. I believed at that time, and still believe, that ultimately municipal operation would be the best in the majority of these large concessions, but I urged that pending sufficient study and investigation of municipal operation in other cities, the Board of Estimate grant sufficient funds to repair McGowan's Pass Tavern and other buildings then and now in a bad state of disrepair. That if this were done, I could immediately let the concessions on a basis of straight rental, which was the best basis, and would do away with the evils complained of in the past. The term of rental could be a short one, so that we could proceed to municipal operation whenever that is possible. As long as municipal operation is not engaged in, however, the question arises and should be decided, as to whether in these large concessions, a policy of public bidding should be followed similar to what has been done with the so-called smaller concessions where the revenue value takes them outside the charitable class.

There is a great deal to be said on both sides of this question, it being urged by many that in the case of a large restaurant concession the personal equation and standing of the privilege holder should be a big factor. In general, however, I might state that I have been a very strong supporter of the plan of public bidding for the majority of park concessions.

I am making this application for the necessary revenue bonds to repair the buildings in question, since I feel that whether these concessions are put up at public bidding or not in any event the buildings should be put in conditions, so as to avoid the severe criticism of the past which arose through leases being made which allowed for rebates and allowances or rental to be adjusted on the basis of repairs made by the concessionaires. Respectfully yours,

CABOT WARD, Commissioner of Parks, Manhattan and Richmond.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, February 28, 1916.

MR. FRANCIS P. KENNEY, *Chairman, Committee on Finance, Board of Aldermen, New York City:*

No. 233—Commissioner of Parks, Manhattan and Richmond: Request for Special Revenue Bonds, $26,550, for Repairs to Various Buildings in Central Park.

Sir Dear—I have received your letter, dated February 16, 1916, requesting investigation of the above application, and report thereon as follows:

Commissioner Ward's request for special revenue bonds is made up of the following items:

Repairs to McGowan's Pass Tavern, Central Park	$14,000 00
Repairs to Casino Restaurant, Central Park	10,000 00
Repairs to Arsenal Restaurant, Central Park	2,550 00
	$26,550 00

None of these items was included in the 1916 budget estimates, as the Commissioner was investigating the feasibility of operating these restaurants by the municipality, and was awaiting an opinion from the Corporation Counsel relative thereto. Since then an adverse opinion has been rendered.

McGowan's Pass Tavern—

This building is in a dilapidated condition and the amount requested, $14,000, is not at all exorbitant if the structure is to be placed in condition for occupation as a restaurant.

The work contemplated includes not only a general overhauling of the exterior and interior, but also redecorating, installation of modern plumbing, electrical work, and the permanent equipment for the kitchen.

The tavern was occupied until March, 1915, the rental being $1,200 per year. The Park Department has received offers ranging from $1,000 to $4,200 per annum for the restaurant privilege, if proper repairs to the building are made.

If the City intends to lease this property at a fair rental in the future, it should either make these repairs and receive competitive bids for restaurant privileges, or lease the building with the proviso that the tenant shall make his own repairs. The former solution appears to be more businesslike because each bidder will then bid upon a definite basis, namely, rental only, and he and the Department will not be subject to continual disputes as to whether or not he is properly maintaining the building. Favoritism or bias will thus be reduced to a minimum.

Casino Restaurant—

The Casino is now occupied and the lessee pays a rental of $250 per month. The building is in a fairly good state of repair. The exterior, however, needs a general overhauling as another year's delay will probably increase the cost of the work disproportionately. Interior decorating is desirable and a modern kitchen equipment should be installed.

The total amount requested for the repair of the Casino, $10,000, can probably be reduced to $7,500, which will provide for urgent repairs. Of the three requests made by Commissioner Ward, this appears to be the least imperative, although the class of patrons frequenting this restaurant seems to warrant keeping it in first class condition. Moreover, the Department states that the continuance of the present "month to month" lease is endangered because of the necessity for these repairs.

Arsenal Restaurant—

This restaurant is now occupied and the lessee is at present paying $5 per month rental. The building is in poor repair and one section of it invites drastic action by the health authorities. The amount requested by the Park Department, $2,550, is not excessive to put the building in good repair.

A small restaurant at this point is desirable for visitors to the menagerie and the above expenditure would undoubtedly result in increased rental; otherwise the building should be closed.

As an indication of the latent revenue producing possibilities of these buildings, it may be added that the Commissioner has held a conference with at least a dozen prospective lessees for these buildings at which informal proposals were made. One of these—G. L. Boissevain, 60 Broadway, Manhattan—has offered to pay $12,000 per annum for five years and $15,000 per annum for the next three years for the three buildings under consideration. If such an offer, which is over twice the present rental, can be obtained without competitive bidding, it appears to be good business to make these requested repairs and to offer the concessions for public bidding.

It is my opinion that if special revenue bonds are authorized for the repair of these restaurant buildings, no liability should be incurred against such appropriation until the Commissioner of Parks, Manhattan and Richmond, has advertised for and received formal competitive bids for the operation of these buildings for restaurant purposes only. This plan has been discussed with the Park Commissioner and meets his approval.

I also believe that the Comptroller's consent to the successful bid should be a further condition precedent to incurring any liability, in order that the City may be assured of a recompense commensurate with the proposed expenditure.

Very truly yours, PETER J. McGOWAN, Acting Director.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Report of the Committee on Finance in Favor of Adopting Resolution to Authorize an Issue of Special Revenue Bonds, $1,640.40, for Rent of Rooms in the Emigrant Industrial Savings Bank Building for Use of the Justices of the Supreme Court.

The Committee on Finance, to which was referred on February 23, 1916 (Minutes, page 493), the annexed resolution in favor of an issue of Special Revenue Bonds, $1,640.40, for rent of rooms in the Emigrant Industrial Savings Bank Building for use of the Justices of the Supreme Court, respectfully

REPORTS:

That inasmuch as no provision was made in the budget for the rental of these rooms from March 1st, 1916, to December 31st, 1916, it is requisite that Special Revenue Bonds be authorized for this purpose, and the committee, therefore, recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of one thousand six hundred and forty dollars and forty cents ($1,640.40), the proceeds whereof to be used by the Comptroller for the payment of rent of rooms 1201, 1202 and 1203 in the Emigrant Industrial Bank Building, 45-51 Chambers street, Borough of Manhattan, for use of the Justices of the Supreme Court, under a lease to the City from March 1, 1916, to December 31, 1916, the same being a charge against the County of New York.

The City of New York, Department of Finance, Comptroller's Office, February 21, 1916.

To the Honorable, the Board of Aldermen, City of New York:

Gentlemen—On January 26, 1916, the Commissioners of the Sinking Fund adopted a resolution authorizing a lease of Rooms 1201, 1202 and 1203, having a total floor area of 1,193 square feet, in the Emigrant Industrial Savings Bank Building, 45-51 Chambers Street, Borough of Manhattan, the same being for use as chambers for one of the Justices of the Court of Appeals, for a term of one year and two months, from March 1, 1916, with the privilege of renewal for an additional two years upon the same terms and conditions, at an annual rental of $1,968.45, payable monthly until May 1, 1916, and quarterly thereafter, which is at the rate of $1.65 a square foot.

Inasmuch as no provision for the payment thereof was included in the budget for the year 1916, it will be necessary to provide $1,640.40 to pay the rental from March 1, 1916, to December 31, 1916.

In view of the conditions above recited, and in order that proper provision may be made for the payment of this rent, I respectfully recommend that your Board adopt the following resolution:

Resolved, That in pursuance of Subdivision 8, Section 188, of the Greater New York Charter, the Board of Estimate and Apportionment be, and it is hereby, requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of $1,640.40, the proceeds whereof to be used by the Comptroller for the payment of rent of Rooms 1201, 1202 and 1203, in the Emigrant Industrial Savings Bank Building, 45-51 Chambers Street, Borough of Manhattan, for use of the Justices of the Court of Appeals, under a lease to the City from March 1, 1916, to December 31, 1916, the same being a charge against the County of New York.

Respectfully, ALEX. BROUGH, Deputy and Acting Comptroller.

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the Commissioner of Correction to Contract for the Boarding of Prisoners Under His Jurisdiction.

The Committee on Public Letting, to which was referred on February 1, 1916 (Minutes, page 217), the annexed request of the Commissioner of Correction for authority to contract for the boarding of prisoners under his jurisdiction, respectfully

REPORTS:

That it examined the subject, at a formal meeting of the Committee, which was attended by Commissioner Lewis, who expressed himself at length on the proposition. In addition to the reasons set forth in his application the Commissioner impressed the Committee with the urgency of the matter.

In order that there may be a clear understanding between the Supervisors of the respective Counties cited and the Department of Correction, and that the latter may be relieved of any possible embarrassment, it recommends the adoption of the accompanying resolution.

Whereas, Section 320 of the Prison Law (chapter 47, Laws 1909; chapter 43, Consolidated Laws), authorizes the several Boards of Supervisors in the several counties of this State to enter into agreements with the Board of Aldermen of The City of New York, "or with any person in their behalf by them appointed, to receive and keep in the said penitentiary any person who may be sentenced to confinement

therein by any court or magistrate in any of the said several counties of this State for any term not less than sixty days;"

Resolved, That the Commissioner of Correction of The City of New York be and hereby is appointed and authorized to enter into, in behalf of this Board, agreements with the supervisors of the counties of Rockland, Westchester, Putnam, Orange, Suffolk and Nassau, for the boarding of prisoners, as provided in said section 320, which upon approval of this board shall become effective for The City of New York.

Department of Correction of the City of New York, Commissioner's Office, Municipal Building, Centre and Chambers, Streets, New York, January 23, 1916.

Hon. GEORGE McANENY, *President, Board of Aldermen,* City Hall, New York City:

Dear Sir—Pursuant to section 320 of the Prison Law (chapter 47, Laws 1909; chapter 43, Consolidated Laws), I hereby make application to your Honorable Board to authorize me, as Commissioner of Correction, to negotiate contracts with the Supervisors of the Counties of Rockland, Westchester, Putnam, Orange, Suffolk and Nassau for the boarding of prisoners in the institutions of the Department of Correction, as provided in said section 320 of the Prison Law.

The City of New York has boarded prisoners for these counties for several years under different rates, varying from $1.75 to $2.25, according to the number of months the prisoner was to be boarded. In the case of Rockland, Westchester, Putnam and Orange Counties, it has been the custom to furnish transportation back to the place of commitment in the case of each prisoner.

I find that all contracts have expired and that the Courts in these various counties have continued to commit short-term prisoners to the New York County Penitentiary, and that the City has continued to receive them and to charge the counties for their board and maintenance at rates as per the attached schedule (Exhibit 1).

The reorganization of the accounting system of this department has made it possible for the first time to accurately determine the average cost of boarding prisoners in the various institutions of this department. These average costs may be found set out on pages 171 through 182 of the Annual Report of the Department of Correction for the year 1914.

The average daily cost covering both direct and indirect items is 67 cents per day per prisoner boarded. The loss on prisoners boarded for these six counties in 1914 was $35,200.69. The loss on prisoners boarded for these counties for the first six months of 1915 was $22,139.43; or, a total of $57,340.12, as shown by Exhibit 2. On September 17, 1915, Commissioner Davis wrote the Supervisors of these counties informing them that on and after December 31, 1915, no prisoner would be received unless the said counties were willing to pay as board and maintenance the average cost of maintaining a prisoner in the Department of Correction. (A copy of this letter is attached hereto.) (See Exhibit 3.)

I am informed by the Corporation Counsel that it will be necessary for your Board to authorize the Commissioner of Correction to make new contracts, and that until these contracts are made it would be unwise to request the courts of these various counties to take action with respect to commitments to the New York County Penitentiary which are made and have been made pursuant to old contracts which had expired and which were made originally pursuant to section 320 of the prison laws.

I have been told that the City of New York entered into these contracts originally several years ago when it was said to be an advantage to the city to board these prisoners because the city needed the prison labor. For several years, however, the institutions of this department have been congested with prisoners. I can see no justification, therefore, for the continuance of any arrangement which, if carried out, will not only continue to congest our prisons, but also will cost the city thousands of dollars for which it receives no adequate return. We have no need for laborers in city prisons.

I suppose it would be unfair to require these counties to make immediate change and to care for these county prisoners at home inasmuch as the city has continued to board them for several years, but I would recommend that a contract be entered into for a brief period only, and that the rate to be charged be sufficient at least to cover the cost of performing the service, and that the county supervisors of the aforesaid counties be notified that the city will not renew such a contract after they have had reasonable time to make other provisions for the boarding of prisoners.

I wish to state for the information of your Board that the contracts for the board and maintenance of the United States prisoners have likewise expired and that the rates paid for boarding United States prisoners in the penitentiary and in City Prison, Brooklyn, do not cover the cost of performing that service. State felons are boarded at the New York County Penitentiary for which service the city receives from the State Comptroller annually 30 *cents* per day per prisoner. This does not cover the cost of performing this service. I have requested the Corporation Counsel for an opinion as to whether or not we are required to receive these State felons in the New York County penitentiary or any other institution of the department.

The loss during the year 1914 for boarding State felons at 30 cents per day was	$60,101 87
The loss during the first six months of 1915 for boarding State felons was	33,454 60
Total loss for boarding State felons for the eighteen months	$93,556 47
The loss during the year 1914 for boarding United States prisoners was	$4,100 49
The loss during the first six months of 1915 for boarding United States prisoners was	3,191 81
Total loss for boarding United States prisoners for the same eighteen months	$7,292 30

The per capita per day rate for boarding prisoners in the penitentiary has been for many years 28 *cents*. The rate for boarding United States unconvicted prisoners in the City Prison, Brooklyn, has been 35 *cents*, and 75 *cents* in the City Prison, Manhattan.

The rate allowed by the State for boarding tramps in the New York County Penitentiary was changed from 30 cents to 45 cents per day in the last Legislature. The loss on boarding tramps in the penitentiary for the year 1914 was $3,968.29.

Inasmuch as action may be taken at once by your Board with respect to prisoners of the aforesaid counties, I request that your Board take action as soon as possible authorizing the Commissioner of Correction to enter into contracts for a short period for the board and maintenance of prisoners committed from the aforesaid six counties, which contracts shall become binding upon the city when approved by your Honorable Board.

A resolution is submitted herewith which, if adopted by your Board, will carry this recommendation into effect. Respectfully,

BURDETTE G. LEWIS, Commissioner.

September 17, 1915.

To the Chairman, County Board of Supervisors, ... County, New York:

Dear Sir—It will be impossible for this department to receive prisoners from your county subsequent to December 31, 1915, unless payment can be made by your county covering the actual cost of boarding and maintaining each prisoner each day; that is, 67 cents per capita per day, and in addition thereto the cost of a railroad ticket back to the place of commitment in your county or to such other point as may be agreed upon. In all cases where persons committed from your county become insane and are committed to the State Hospital for the Criminal Insane the expenses of commitment and examinations must be borne by your county.

The following are examples of expense to which New York City is put in case of county prisoners found insane: Between October, 1914, and June, 1915, six men were committed to New York County Penitentiary from Westchester County who were recommitted to Matteawan at the expense of the City of New York. Five of these men were practically adjudged insane upon admission. Another instance, one Adam Pomowoniski was received at the Penitentiary from Hempstead, Nassau County, on August 23rd at about 2 P. M., and before 4 P. M. papers were being prepared making application for his commitment to Matteawan. Clothing for these men is paid for by the State. The transportation expenses, averaging $5 per case, and the experts' fees, amounting to $100 per case, were paid for by the City of New York.

Please let me know at your earliest convenience what action your Board will take concerning the boarding of prisoners.

Respectfully, KATHARINE BEMENT DAVIS, Commissioner.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Burns, Burden, Browne, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Curran, Daly, Delaney, Diemer, Donnelly, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Gutman, Hannon, Haubert, Heyman, Hilkemeier, Kenneally, Kenney, Kochendorfer, McCourt, McGarry, McGillick, McKee, Martin, Moore, Moran, O'Rourke, Palitz, Post, Quinn, Robitzek, Ryan, Schmitz, Schweickert, Silberstein, Smith, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth, Wise—61.

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the President of the Borough of The Bronx to Purchase an Automobile Truck Chassis, Without Public Letting.

The Committee on Public Letting to which was referred on February 8, 1916 (Minutes, page 378), the annexed request of the President of the Borough of The Bronx for authority to purchase an automobile truck chassis of five or five and one-half tons capacity without public letting, respectfully

REPORTS:

That President Mathewson appeared before the committee and explained on account of the peculiar design and construction of the machine, he deemed it advisable to purchase without public letting, as drawing specifications and advertising for bids would only increase the cost. It, therefore, recommends that the said resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of The Bronx be and he is hereby authorized and empowered to purchase in the open market, without public letting, an automobile truck chassis of five or five and one-half tons capacity, at a cost not to exceed thirty-six hundred dollars ($3,600).

City of New York, President of the Borough of The Bronx, Third Avenue and 177th Street, February 7, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen:*

Dear Sir—Provision was made in the budgetary allowance of the office of the President of the Borough of The Bronx for the year 1916, for an Automobile Oiler to be used in the distribution of asphalt road oil and tar road oil on the earth and macadam roadways throughout the Borough.

It is desired to purchase, a truck chassis, completely equipped but without body, on which is to be erected a tank and the necessary pump and piping. The economical operation of the pumping equipment depends upon the proper design of the power take off for the pump.

This matter has not been given careful consideration in the design of most automobile trucks and permission is hereby requested, in accordance with the provisions of section 419 of the Greater New York Charter, for authority to purchase, without public letting, an automobile truck chassis of five or five and one-half tons capacity, the cost of which will be about thirty-six hundred dollars ($3,600). Very truly yours,

DOUGLAS MATHEWSON, President of the Borough of The Bronx.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the Commissioner of Street Cleaning to Purchase an Electric Tractor and Two Electric Trucks, Without Public Letting.

The Committee on Public Letting, to which was referred on February 8, 1916 (Minutes, page 379), the annexed request of the Commissioner of Street Cleaning for authority to purchase an electric tractor and two electric trucks without public letting, respectfully

REPORTS:

That the need of this tractor and two trucks is so urgent that delay in advertising for bids will be costly and greatly hamper the department. It therefore, recommends that the said resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Street Cleaning be and he is hereby authorized and empowered to purchase in the open market, without public letting, one secondhand seven and one-half ton electric tractor and two two-ton electric trucks at a cost not to exceed seven thousand dollars ($7,000).

Department of Street Cleaning of The City of New York, Municipal Building, Twelfth Floor, New York, February 1, 1916.

Hon. GEORGE MCANENY, *President, Board of Aldermen,* City Hall, New York:

Dear Sir—In accordance with the provisions of section 419 of the Greater New York Charter, I respectfully request that the Board of Aldermen approve the purchase of one secondhand 7½-ton electric tractor and two 2-ton electric trucks at a cost not to exceed $7,000.

The 7½-ton tractor will replace a tractor borrowed from the President of the Borough of Richmond to meet an emergency condition in upper Manhattan, where garbage hauls by carts are excessive and cannot be performed with the existing equipment.

The two electric trucks are required for service at a new central storehouse on 20th Street, Manhattan, and are so urgently needed that delays in purchase by ordinary contract will require expenditures of funds allowed for other purposes and necessitate the application of revenue bonds to make up the deficit. Yours respectfully,

J. T. FETHERSTON, Commissioner.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the President of the Borough of Queens to Purchase an Asphalt Roller, Without Public Letting.

The Committee on Public Letting, to which was referred on February 15, 1916 (Minutes, page 416), the annexed request of the President of the Borough of Queens for authority to purchase an asphalt roller, without public letting, respectfully

REPORTS:

That Mr. Brock, representing President Connolly, appeared before the Committee and explained that one particular make of asphalt roller is especially adopted to work required, and better terms can be had from the manufacturers by private sale than by public letting. It, therefore, recommends that the said resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of Queens be and he is hereby authorized and empowered to purchase in the open market, without public letting, one Iroquois 8-ton asphalt roller, with the necessary equipment, for the aggregate sum of two thousand one hundred and sixty-five dollars ($2,165).

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the Commissioner of Bridges to Purchase Automobiles, Without Public Letting.

The Committee on Public Letting, to which was referred on February 15, 1916 (Minutes, page 418), the annexed request of the Commissioner of Bridges for authority to purchase automobiles, without public letting, respectfully

REPORTS:

That the text of this application appears in the request. Commissioner Kracke appeared before the Committee and explained that it was the intention to establish for the use of the Departments under the jurisdiction of the Mayor a Central Garage with branches in other boroughs, when necessary, and to use two grades of automobiles, one a moderate make and the other slightly more expensive, and as better terms can be had by purchase in open market than by public letting, it, therefore, recommends that the said resolution be adopted.

Resolved, That, in pursuance of the provision of section 419 of the Greater New York Charter, the Commissioner of Bridges be and he is hereby authorized and empowered to purchase in the open market, without public letting, thirty-four (34) automobiles, not to exceed four hundred and sixty-eight dollars ($468) each, fifteen thousand nine hundred and twelve dollars ($15,912); and twenty (20) automobiles, not to exceed thirteen hundred and fifty dollars ($1,350) each, twenty-seven thousand dollars ($27,000); or a total of forty-two thousand nine hundred and twelve dollars ($42,912).

Department of Bridges, City of New York, Municipal Building, Manhattan, N. Y., February 14, 1916.

To the Honorable Board of Aldermen, City Hall, Manhattan, N. Y.:

Gentlemen—I beg to request that your Honorable Board, pursuant to power conferred upon it by section 419 of the Greater New York Charter, authorize and empower the Commissioner of Bridges to purchase in the open market, instead of by public letting, thirty four (34) automobiles, not to exceed $468 each, $15,912; and twenty (20) automobiles, not to exceed $1,350 each, $27,000; or a total of $42,912.

The sum of $43,000 has been allowed in the Budget for this year for the purchase of motor vehicles to replace those received by the Municipal Garage from the various departments to whom service is to be rendered. These latter cars are in very bad condition and very expensive to operate. It is contemplated to dispose of these after the new ones are purchased. Respectfully,

F. J. H. KRACKE, Commissioner.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the Commissioner of Street Cleaning to Purchase Four Combination Flusher-Sweeping Machines, Without Public Letting.

The Committee on Public Letting, to which was referred on February 23, 1916 (Minutes, page —), the annexed request of the Commissioner of Street Cleaning for authority to purchase four combination flusher-sweeper machines without public letting, respectfully

REPORTS:

That the text of this application appears in the request, and Commissioner Fetherston explained to the committee the urgent need for these machines; as there was only one response to his request for bids, it seems more advantageous to the City to purchase in open market than advertise for bids. It therefore recommends that the said resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Street Cleaning be and he is hereby authorized and empowered to purchase in the open market four combination flusher-sweeper machines at a total cost not to exceed fourteen thousand seven hundred and seventy-four dollars ($14,774), without public letting.

Department of Street Cleaning of The City of New York, Office of the Commissioner, Municipal Building, New York City, February 17, 1916.

Hon. FRANK DOWLING, *President, Board of Aldermen, City Hall, New York:*

Dear Sir—In accordance with the provisions of section 419 of the Greater New York Charter, I request that the Board of Aldermen authorize the purchase, without public letting, of four combination flusher-sweeper machines, at a total cost not to exceed $14,774.

On January 25, 1916, after due advertisement according to law, bids were opened for the above types of machines. Only one bid was received, from Charles Hvass & Co., amounting to $19,496, or $4,874 per machine. This bid was rejected, as the Bureau of Contract Supervision of the Board of Estimate and Apportionment allowed only $13,200 for the purpose.

It is not apparent that the specifications can be changed to reduce the price, and only three manufacturers were interested in producing this class of apparatus, while only a single bid was received.

Charles Hvass & Co., of New York (the only bidder), has proposed to build and test one machine according to contract and specifications at a cost of $4,874. After trials and minor adjustments or changes, three more machines will be built at $3,300 each, thus increasing the amount allowed by the Board of Estimate and Apportionment $1,574.

It is important to this department that these machines be secured at the earliest possible date for use during the coming summer in cleaning streets, and the offer to construct the flushers-sweepers made by the Hvass Company is $4,722 below their bid. Under the circumstances the proposal will save the city at least the above amount, and the contractor will guarantee the same results as if the contract were awarded at the higher price. The proposal seems advantageous, and I recommend it for your consideration. Yours truly, J. T. FETHERSTON, Commissioner.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Burns, Burden, Browne, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Curran, Daly, Delaney, Diemer, Donnelly, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Gutman, Hannon, Haubert, Heyman, Hilkemeier, Kenneally, Kenney, Kochendorfer, McCourt, McGarry, McGillick, McKee, Martin, Moore, Moran, O'Rourke, Palitz, Post, Quinn, Robitzek, Ryan, Schmitz, Schweickert, Silberstein, Smith, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth, Wise—61.

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the President of the Borough of Manhattan to Purchase Sand, Without Public Letting.

The Committee on Public Letting, to which was referred on February 23, 1916, the annexed request of President, Borough of Manhattan, for permission to purchase land in open market, without public letting, respectfully

REPORTS:

That the committee has been informed that this material can be purchased in the open market at a more reasonable cost than by public letting. It, therefore, recommends that the said resolution be adopted.

Resolved, That, in pursuance of the provisions of Section 419 of the Greater New York Charter, the President of the Borough of Manhattan be and he is hereby authorized and empowered to purchase, in the open market without public letting, sand for use in the asphalt plant under his jurisdiction, to an amount not to exceed ten thousand dollars ($10,000).

JOHN McCANN, JOHN F. McCOURT, WM. P. McGARRY, ALEXANDER S. DRESCHER, JAMES J. BROWNE, EDWARD W. COX, PETER SCHWEICKERT, PATRICK H. SULLIVAN, Committee on Public Letting.

City of New York, Borough of Manhattan, Municipal Building February 23, 1916.

Hon. Board of Aldermen, City Hall, New York City:

Gentlemen—I would respectfully request permission to purchase sand in the open market without public letting to an amount not to exceed 10,000 yards, for use in the asphalt plant, Borough of Manhattan.

The reasons for this request are as follows:

The quality of sand required for use in the preparation of asphalt pavement is peculiar and the supply is limited as to points of production from which satisfactory sand can be secured, thus limiting the number of bidders on advertised contracts.

Two public lettings have been held without satisfactory results, as the prices submitted were deemed to be excessive, and all bids were rejected in order to conserve the best interests of the City.

The operation of the asphalt plant depends upon the early delivery of sand and the need is most urgent for the purchase of this material in order to make prompt repairs to the street pavement. Very truly yours,

RALPH FOLKS, Acting President, Borough of Manhattan.

Borough of Manhattan, Marcus M. Marks, President, Department of Public Works, Municipal Building, City of New York, February 25, 1916.

Memorandum for Commissioner Folks:

Asphalt Wearing Surface Sand.

On January 3, 1915, public letting was held for a yearly contract for furnishing 10,000 cubic yards of sand. One bid was received at 97½c.—$14,625. This bid was rejected on account of the excessive price.

On February 9, 1916, public letting was again held, changing the contract to six months instead of one year, with the hope of obtaining more bidders and lower prices. Three bids were received, viz.:

$1.18, $11,800; $1.12½, $11,250; $0.90, $9,000.

The bids were again rejected on account of the excessive price, as we are buying the material now in the open market for eighty cents. We are informed that the contractors will not enter into a contract with the City at this time on account of the great uncertainty of delivery facilities, the contract requirements for time deliveries, the enforcement of penalties, &c.; but will deliver all we require from time to time at 80 cents per cubic yard.

By purchasing in the open market we can, therefore, save about $1,000 upon the estimated quantity required. Respectfully, H. H. LLOYD.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Burns, Burden, Browne, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Curran, Daly, Delaney, Diemer, Donnelly, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Gutman, Hannon, Haubert, Heyman, Hilkemeier, Kenneally, Kenney, Kochendorfer, McCourt, McGarry, McGillick, McKee, Martin, Moore, Moran, O'Rourke, Palitz, Post, Quinn, Robitzek, Ryan, Schmitz, Schweickert, Silberstein, Smith, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth, Wise—61.

Report by the Committee on Finance in Regard to Resolution Authorizing the Commissioner of Street Cleaning to Execute with Gaffney, Gahagan & Van Etten a Contract for Final Disposition of Garbage in Boroughs of Manhattan, The Bronx and Brooklyn on Riker's Island for a Maximum Period of Five Years.

The Committee on Finance, to which was referred on February 1, 1916 (Minutes, page 229), the annexed resolution authorizing the Commissioner of Street Cleaning to execute with Gaffney, Gahagan & Van Etten a contract for the final disposition of garbage in the Boroughs of Manhattan, The Bronx and Brooklyn on City land (Rikers Island), for a maximum period of five years commencing January 2, 1917, respectfully

REPORTS:

That, after discussion of this matter in committee, it was decided to hold a public hearing in order to give full opportunity to such persons as desired to endorse or oppose this proposition. Such public hearing was held on February 10, 1916, and a large number of people appeared before the committee, most of whom were in opposition to the project. So much was claimed as to the injury the establishment of this proposed plant would cause to business and residential property in the Borough of The Bronx that the committee gave the attorney for a large number of the protestants an opportunity to make a physical examination of a similar plant situated at New Bedford, Massachusetts, which is regarded as a smaller edition of the proposed new plant. There was no objection on the part of advocates of this plant to this proceeding, and their representatives promised to aid the investigation in any possible manner. The investigation was made, and each member of the committee has been furnished with a voluminous series of documents in sppport of the objections made at the hearing, which, it is claimed, are fully borne out by the subsequent investigation of the New Bedford plant by a competent sanitary engineer.

The New Bedford plant, it appears from such report, is much smaller than the one proposed for this City, is located in an isolated section of the city, adjacent to swamps on two sides, and is distant over half a mile from habitations of any character. Notwithstanding this distance from the nearest houses, the engineer files thirty-six affidavits from residents and property owners of New Bedford, all of which complain of foul odors and fumes from the plant whenever there is a wind, which odors are more particularly offensive in the summer time. The report on the plant itself is to the effect that the system followed is such as to practically eliminate odors during the process of disposal, and it is consequently practically assured that the odors complained of arise from the garbage during the period when it is in process of transportation and unloading. The claim is also made that the liquid resultant from the process of disposal emits an offensive odor. At the New Bedford plant this is carried away as sewage, and empties into the swamps, where it is diluted so as to gradually become innocuous. The engineer in his report states that he found a leak in the piping at the condensers, and that from such leak there came a strong odor of garbage gas. Because of the necessity of continuous operation, this leak was not remedied except by wrapping of bagging, and here was a source of odor which, while not continuous or necessary, may happen at any time, and will then cause a nuisance. He apprehends that this defect is most likely to develop in the summer, when the bulk of material received is at its high point, and the plant is forced to operate at maximum capacity and the time for repairs cannot be spared because the plant, or that part of it, cannot be shut down for the purpose. In such a case, the odor will be particularly offensive to persons to the leeward of the plant, and especially at night when such persons have nothing to divert their attention from local conditions.

It is further claimed by those in opposition to this situation for this plant that the transportation of garbage through the East River past the shores of the Boroughs of Brooklyn and Manhattan, and directly past the many City institutions on Blackwells Island, will be a continuous annoyance and a possible source of disease. It is also predicted that the scows containing the garbage will necessarily have to wait some time at the plant before unloading, and that the odors from the garbage on such scows will be very offensive. Another claim is made that the sewage will necessarily have to be received into the waters of the channel, and, together with garbage which may drop from the scows in the process of unloading, be carried against the shores of the neighboring Boroughs. In addition, the situation of Rikers Island is such that it is almost in the track of Sound steamers and numerous other pleasure craft which ply to and from the City. A great number of letters have been received by the committee protesting against the establishment of this plant at this point, and a petition, signed by fifteen thousand residents of The Bronx, is also on file.

The resolution under consideration comes from the Board of Estimate and Apportionment, where it was adopted on January 31, 1916, by the following vote: Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Brooklyn and Richmond—12. Negative—The Presidents of the Boroughs of The Bronx and Queens—2. Present and not voting—The President of the Borough of Manhattan.

The Commissioner of Street Cleaning made a very extensive report to the Board of Estimate and Apportionment in relation to this matter, and set forth his estimate of the revenues which would accrue to the City by the municipal operation of this plant for a period of ten years after the end of the contract period in 1922, which, in his opinion, would amount to an average annual net profit of $527,500. As the City's original investment is but $1,500,000, it will easily be seen that, if the aforesaid estimate is correct, as a financial proposition this is a most excellent investment by the City. The Street Cleaning Commissioner goes into the physical details of this new process, which is known as the Cobwell system, and has made a personal visit to the City of New Bedford so that he might satisfy himself that the claims made by the contractors as to the non-existence of offensive odors are true, and he has reported to the Mayor that as a result of such visit and investigation, he finds that the most objectionable feature undoubtedly exists at the point where wagons discharge garbage into a receiving building before the actual process of disposal is started, but that the odors resulting from the presence of the original garbage were local and confined within a radius of a few hundred feet from the green garbage building. He also reports that this process has been in operation in the City of Los Angeles, California, since March, 1915, where over 140 tons of garbage per day are treated. A further test of the Cobwell system, he reports, was made at the Panama-Pacific Fair, where two units were used for the treatment of garbage within the Fair grounds. He further reports as follows:

"I have compared all the details of the proposed Cobwell system with those of other methods of garbage disposal, both by the so-called cooking process (Barren Island, Columbus, Cleveland, etc), and the direct heat drying method, with percolation by gasoline and no cooking (Chicago), and I believe that in sanitary effect, as well as commercial return from the treatment of by-products, the Cobwell system commands the greatest advantages, more especially from the sanitary standpoint, and that a plant using this system can be operated within the limits of New York City without creating any nuisance due to the escape of odors, fumes, noxious gases or odorous liquids.

"I am of the opinion, and so certify, that the normal operation of the proposed Cobwell system will not result in the creation of 'objectionable odors, noxious gases, nor putrescible liquids, during or after the process of treatment, to an extent constituting a public nuisance.'

"I also believe that while only a small plant of the Cobwell type has been in operation at New Bedford for about one year, yet full sized units have been so operated, and as simiar units are proposed for New York City, I have no reason to believe that the size of the installation will be adversely affected. The Los Angeles plant, I am informed, has been in operation for about ten months, though I have no personal knowledge of this fact.

"In my opinion the Cobwell system, as proposed by the contractors, will successfully meet the requirements of the contract for the disposal of garbage in New York City."

President Mathewson, of The Bronx, caused one of his Assistant Engineers to visit New Bedford and make a thorough physical examination of the plant and its operation at that city. In his report, copy of which has been filed with the Committee, he states:

"The only step in the whole process where offensive conditions exist is in the handling of the raw garbage. In a trip last spring to the Barren Island plant, the raw garbage from the scows, which had been standing for some time, gave off an exceedingly offensive, pungent odor, but this odor can be prevented by using covers, metal containers, etc., and on account of the nearness to the water surface, cannot be carried far. This can be verified by standing near any of the garbage dumps in the City. If a reduction plant of the type described were located at Riker's Island and operated as is the one at New Bedford, it may be confidently stated that there would be absolutely no odor either in Queens or in The Bronx, or even on Riker's Island itself, arising from the treatment. The raw garbage, if improperly handled, would emit very offensive odors, but these would probably never travel across the water."

At the public hearing, the representatives of the contracting firm and the engineer in charge of the New Bedford plant assured the Committee that from their knowledge and practical experience with disposal plants using the Cobwell system, it would be impossible for offensive odors to reach the shores of the Boroughs of The Bronx and Queens from a plant located on Riker's Island.

The Committee has listened attentively to statements made to it, and has carefully considered the various reports in opposition and in favor of the establishment of this plant on Riker's Island. On the one hand, it appears that almost the whole population of the Borough of The Bronx, and a considerable number of residents of the Borough of Queens, have positive objections to the establishment of this plant at this location, and if some of the claims made by their representatives are as stated, it would appear that they have strictly legitimate foundation on which to base their opposition, and their objections should be most seriously considered. On the other hand, statements are made that the main objections which relate to the possible stench carried from the plant to the neighboring shores are unfounded, and the investment is one which will be an excellent one for the City, not only for its cash return, but for the reason that a use will be found for vacant City property. The Committee does not wish to decide between the claims set forth in this report, preferring that each member of the Board should inform himself through a perusal of this report and by a further examination of the papers filed with the Committee, if considered necessary, so as to determine just what position he should take in this matter for the benefit of the City, and as a representative of the district from which he was elected.

The Committee therefore presents the whole matter to the Board, with the request that it be laid over for one week so that time may be given for the members to become conversant with the conditions before a vote is taken. It calls attention to the fact that, accompanying this authorization for a contract, is a resolution for an issue of $1,500,000 corporate stock, which becomes a law if not acted upon on or before March 7th, 1916, and will become operative in any event if not rejected by a majority of the votes of all the members of the Board.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Board of Aldermen hereby authorizes the Commissioner of Street Cleaning, when the necessary funds therefor have been duly appropriated, to execute a contract with Gaffney, Gahagan and Van Etten, for the final disposition of garbage from the Boroughs of Manhattan, The Bronx and Brooklyn, of The City of New York, on City land, for a maximum period of five years, commencing January 2, 1917, in accordance with a bid submitted by them to the Commissioner of Street Cleaning on January 18, 1916.

FRANCIS P. KENNEY, WM. T. KENNEALLY, HENRY H. CURRAN, F. H. STEVENSON, MICHAEL STAPLETON, CHARLES P. COLE, ROBERT L. MORAN SAMUEL J. BURDEN, CHARLES DELANEY.

The Board was addressed on this question by Commissioner Featherston.

After a long discussion by the members, Alderman Kenney moved the previous question.

The President put the question "Shall the previous question be now put?"

Which was decided in the affirmative.

The President then put the question whether the Board would agree with said resolution:

Which was decided in the negative by the following vote:

Affirmative—Aldermen Burns, Browne, Carroll, Cardani, Cassidy, Cole, Collins, Crane, Curran, Delaney, Diemer, Donnelly, Dostal, Eagan, Farley, Hannon, Haubert, Kenneally, Kochendorfer, McCann, McCourt, Moore, O'Rourke, Smith, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Wirth—32.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be property flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made."

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
