GEO. DONNELLY, Secretary.

Bellevue and Allied Hospitals.

Report for the Quarter Ending March 31, 1911.

New York, April 1, 1911.

Hon. WILLIAM J. GAYNOR, *Mayor:*

Sir—I beg to submit herewith report of the Department of Bellevue and Allied Hospitals for the three months ending March 31, 1911.

The Department as a Whole.

Dr. Winford H. Smith, General Medical Superintendent, who has occupied that position for the past two years, presented his resignation in a letter to the Board dated February 21. Dr. Smith has been tendered the position of General Superintendent of the Johns Hopkins Hospital in Baltimore, to which institution he will transfer his services on June 1. The resignation of Dr. Smith was accepted with very great regret by the Board of Trustees, proper resolutions being passed expressing the Board's sense of the value of his services and of the progress which has been made in the Department during his administration.

On the suggestion of Dr. Brannan, the President of the Board of Trustees, it has been decided to establish a school for the training of Midwives in connection with this Department. The need of such training has long been felt, a large proportion of confinements in this City being attended by Midwives who, in many instances, have received no systematic instruction in their calling. Although nominally under the supervision of the Board of Health, which is charged with the duty of issuing licenses, the absence of all facilities for teaching has made it impossible for the Board to use these licenses as a means of enforcing a high standard. It is proposed to use the old Emergency Hospital, 223 E. 26th st., as a training school, while one of the dormitories about to be vacated in Bellevue Hospital will be made available for the housing of those taking the course. The services of two Resident Obstetricians, a Head Nurse, and two Nurses under her, together with a Clerk, will be required, and the Board has asked for Revenue Bonds in the amount of $6,000 with which to initiate the experiment, including $2,600 for alterations to the building.

It has been decided to designate the new school for Orderlies the School for Hospital Attendants.

The Municipal Civil Service Commission has been requested to classify the title of Hospital Attendant as non-competitive, and the Board of Estimate and Apportionment has been requested to establish the grades at $240, $300, $360, $420 and $480 per annum.

Word has been received of the establishment of the following grades in this Department: Resident Physician, 1 at $4,000 per annum; Assistant Alienists, 2 at $2,100 per annum; Clerk, 1 at $1,200 per annum; Housekeeper, 1 at $900 per annum.

The question of replacing the present spring beds in the Department with mattresses has come up a number of times for discussion, this policy having been advocated by the Visiting Committee of the State Charities Aid Association, among others. As a beginning in this direction, the Board has decided to supply the medical wards of Pavilions A and B with hair mattresses. After these have been installed, it is hoped to employ two men with experience in mattress making in order that they may manufacture new and renovate old mattresses, as well as repair awnings. This, it is believed, will prove an economical method of gradually introducing mattresses throughout the hospitals of the Department.

A rule has been established forbidding operations upon tonsils and adenoids except in the wards of the Department and with the use of an anaesthetic.

The General Medical Superintendent has been instructed to submit a report of all operations performed in the wards and out patient departments of the several hospitals of the Department without the use of anaesthesia.

It has been decided that no Physician or Surgeon shall hold an appointment in more than one hospital of the Department. This shall apply to Consultants as well as other Attendants.

Mr. John G. O'Keeffe was reappointed to succeed himself as Trustee on the first of February, 1911. The Board reorganized at that time by the re-election of its present officers, Dr. John W. Brannan, President, and Mr. James K. Paulding, Secretary.

Criticism has been received at various times of the extravagant character of the lighting fixtures established in various buildings of this Department, by order of the Department of Water Supply, Gas and Electricity. A statement of the facts in the matter is being prepared for submission to the Commissioner of that Department for explanation.

BELLEVUE HOSPITAL.

Pathological Building and Men's Dormitory.

The principal work performed on the Pathological Building during the past quarter has been the installation of lighting fixtures which is about completed. Good progress has also been made with the furnishing and installing of the equipment.

In the Men's Dormitory the work of installing lighting fixtures was completed and the building cleaned and made ready for occupation. On March 26, employees slept in the building for the first time. All the furniture has not yet been obtained, and it has been impossible, therefore, to occupy all the rooms.

Word was received in February of the final approval by the financial authorities of a resolution appropriating $100,000 for the equipment of the new Pathological Department and Men's Dormitory, including the painting, also approving the specifications for furniture to be used therein. The specifications for equipment were accordingly prepared and approved. Three separate estimates for the construction of a bowling alley in the basement of the dormitory part of the new building were received and referred to the Building Committee for consideration. Bids for painting the new building were opened on March 20 and action was deferred, pending investigation of the bids received.

An extension of time on their contract was granted to the Vacuum Cleaner Company until the date of issue of the final certificate by the architects. This was done as the contractors were not responsible for the delay in the completion of their work, this having been caused by the bankruptcy of the general contractors and later by the impossibility of testing the plant through lack of water and electric current.

For the same reason an extension of ninety days was allowed on the contract of the American Laundry Machinery Company, the architects having certified that this company was not responsible for the delays that had occurred.

The Board accepted an estimate by Blake and Williams for the installation of a temporary pipe line between the new boiler house and the pathological department building, amounting to $736, less $200 to be allowed for the pipes after they have served their purpose, and offering for the sum of $25 a day to furnish operators to maintain a steam pressure on these lines, thus delivering to the Pathological Department a sufficient supply of steam for heating and other uses, the coal to be supplied by the Trustees. Trouble arising later between these contractors and the P. J. Carlin Construction Company, in charge of the work at the boiler house, the architects were instructed to secure an agreement. Later Blake and Williams were authorized to continue a supply of heat from the new boiler house, pending the acceptance of the latter building from the general contractors.

New Laundry Building.

Good progress was made on this building during the past quarter. Plaster work has been begun, rough flooring has been completed throughout the building; all rough pipes have been erected, and all conduit work for light and power has been completed. Most of the machinery for the refrigerating plant has been erected.

The John H. Parker Company, contractors for this building, protested against the limited extension granted them on their contract. This was referred to the architects for report and recommendation. The architects reported later that they had done everything in their power to get the Carlin Company, contractors for the boiler house adjoining, to give Parker entire possession of the site for the laundry building, and they recommended that the Parker Company be granted a further extension of three months time, this making, in addition to the extension already granted, a full period of six months. On their recommendation this extension was approved

An allowance from the John H. Parker Company of $900 for the omission of two hot water tanks and two heaters was received and accepted, for the reason that in consequence of a change in the proposed location of the kitchen, these tanks and heaters are not needed.

New Boiler House.

A letter was received from the P. J. Carlin Construction Company tendering the boiler house and coaling station for acceptance by the Trustees on January 28, the date of the expiration of their contract. The architects, however, reported that the work was not completed and suggested that the penalty for which the contractors were responsible should be waived, provided that the Carlin Company paid Blake & Williams the sum of $25 per day for the running of the boiler plant, which sum had previously been paid by the Trustees. This recommendation was approved.

The architects subsequently reported that the work was entirely completed, and arrangements are now being made to take over the building, beginning Apr 7, 1911.

The New Surgical Pavilions.

The specifications for the new surgical pavilions were received from McKim Mead & White at the beginning of the year. These had been revised to exclude the ventilating system, but did not include other changes. These changes were later made the subject of a conference between the Building Committee, Dr. Goldwater, and representatives of the architects, with the result that it was decided to place small balconies on the front and exterior side of the wards on the ground, first, second, fourth and fifth floors of Pavilions L and M, twenty in all, and to insist upon the construction of an open air ward on the roof. The specifications were returned to the architects for the incorporation of these changes. Tentative plans for the completion of Pavilions L and M were approved by the Board of Estimate and Apportionment on January 25. The architects having objected to certain changes made in their plans and specifications by the Department of Water Supply, Gas and Electricity, it was resolved to request the ruling of the Board of Estimate as to whether or not these changes must be complied with.

Extension of Psychopathic Wards.

It having been found necessary to change the stairway leading from the passageway of the new psychopathic pavilion in order that patients might be carried up it on stretchers, a corrected plan was prepared and the estimate of J. M. Knopp, amounting to $373, was accepted for this work. The contractor has been exceedingly dilatory in the prosecution of his work, and the architects have been requested to take steps to compel him to finish the work.

The lighting fixtures installed are not in accordance with the contract. An order has been given to replace them with fixtures of the proper type. Otherwise, the building is now practically completed.

Alterations to Ward 31.

When bids for the conversion of Ward 31 into isolation wards were received again at the beginning of the year, it was discovered that the lowest bid received, amounting to $5,485, was again in excess of the appropriation allowed. The architects stated that it was impossible to modify the plans any further with a view to reducing the cost of the proposed alterations, and recommended that an additional appropriation of $2,500 be asked for. This was accordingly done. A resolution of the Board of Aldermen authorizing an issue of revenue bonds in this amount was adopted on February 14.

Other Building Matters.

Higher railings on the balconies of Pavilions A and B have been considered necessary as a matter of protection to the patients, and a bid of $750 for the construction of wire guards has been accepted.

It has been decided to construct a shed for the storage of the new transfer wagon about to be purchased.

Bids for the installation of storm windows on the loggias of Pavilions A and B were received, but had to be rejected inasmuch as the lowest bid amounted to $1,744, while the appropriation available was only $1,500. The architects were requested to modify the specifications so as to bring the work within the appropriation available.

It has been decided to place protecting guards on all the windows in the wards and quiet rooms, except where they lead to balconies, and estimates for this work have been requested.

It has been decided to include in the Corporate Stock Budget an item of $32,000, for the proposed changes and additions necessary to make an open air ward on the roof of Pavilions A and B, similar to that designed for the new Pavilions L and M, also an item of $17,500 for providing additional balconies for Pavilions A and B.

On the recommendation of the architects, a sixty-five days' extension of time was granted to J. M. Knopp on his contract for the construction of a covered passageway.

Grounds of the New Hospital.

The first specifications of the architects for the planting of trees on the grounds at Bellevue were returned by the Board of Estimate and Apportionment with the suggestion that the trees be made small enough to give guarantee that they would live for more than one year. The changes suggested were accepted by the architects, and the new specifications approved.

A bid of $200 for the grading of a tennis court at Bellevue Hospital was received from a Brooklyn firm and referred to the General Medical Superintendent for investigation. This proved that the firm had never constructed a tennis court before and the estimate was promptly withdrawn.

An interesting suggestion has been made by Dr. Smith that the two piers at the foot of E. 28th and 29th sts. be covered with soil, sowed to grass, and a hedge planted as a border, with a six-foot wire fence on the outside. This would create so much additional ground in connection with the hospital and prove an attractive spot for convalescent patients.

The Medical Service.

On the suggestion of Dr. M. S. Gregory, it has been decided to appoint two volunteer internes on the alcholic service.

In view of the special conditions in the children's service, it has been decided to appoint a Resident Physician upon a salary.

The Nursing Service.

The General Superintendent of Training Schools has recommended that special revenue bonds be requested to provide for the permanent employment at Bellevue of ten additional Trained Nurses at $600 per annum, and for the temporary employment for a period of five months of thirty-five Trained Nurses at the same rate. This latter is to make provision for the Nurses' vacations during the summer. Action has not yet been taken upon her request, pending investigation of the situation. In the meantime, upon the recommendation of Dr. Gregory, who reported that it was impossible to provide nursing for the increased number of patients in the psycopathic and alcoholic services without an addition to the staff, the sum of $5,000 in special revenue bonds was requested to provide the increased staff required. The sum of $4,500 was voted by the Board of Aldermen on March 9 to provide for this emergency.

The limted number of Pupil Nurses graduated each year from the Bellevue Training School led to a resolution on the part of the Trustees suggesting to the Board of Managers of that school the possibility of increasing the number of their pupils, either by advertising or in any other method approved by them.

Miscellaneous.

With the co-operation of the Departments of Street Cleaning and of Docks and Ferries, it has been arranged that the dumping board at the foot of E. 30th st. shall be transferred to the foot of E. 37th st. This will be to the great advantage of the hospital.

Although the New York Edison Company have been fined $500 for permitting the discharge of black smoke from their chimneys at 1st ave. and 39th st., the nuisance has still continued, and request has been made to the Corporation Counsel to secure an injunction against the continuation of this nuisance.

It being necessary for domestic use of the hospital and for protection against fire, that two water mains should be laid in E. 29th st., at an estimated cost of $6,000, a controversy has arisen as to what department of the City government should lay these mains. It would seem to be the duty of the Department of Water Supply, Gas and Electricity to do so, and the Trustees have expressed this opinion in a letter to the Commissioner of that Department.

Dr. S. S. Goldwater, the expert in hospital construction employed by this Department, was granted a six months' leave of absence without salary beginning February 1.

The new Investigator, Mr. H. B. Dinwidde, appointed to Investigate the circumstances of patients applying for treatment at Bellevue, has now been at work for several months, with the result that during the month of October, 1910, $477.50 was collected; in November, $822; in December, $881.50; and in January, 1911, $1,011. Under the previous Investigator the collections averaged about $300 a month, while before that the amount collected from patients for board and care averaged about $75 a month. Care has been taken by Mr. Dinwidde to collect only from such patients as admitted their own ability to pay. No investigation of home conditions and circumstances has been possible, and consequently no attempt has been made to detect conscious fraud on the part of well-to-do patients.

GOUVERNEUR HOSPITAL.

A request has been received from the Jewish community that kosher food be provided for patients on the day camp "Westfield." The Board was inclined to consider this request favorably, inasmuch as these patients are, without exception, of the Orthodox Jewish faith, and as is well known, food is an essential part of the treatment for tuberculosis. Application, however, was made to the Corporation Counsel for his opinion as to the legality of the Board's complying with the request. A favorable answer having been received, the Board will enter into a contract for the supply of this food.

The General Medical Superintendent has been instructed to prepare a plan by which a better regulation of the attendance of patients at the day camp may be secured, and to provide for the keeping of such records as may be necessary.

A communication having been received from the Department of Finance requesting the removal of the ferryboat "Westfield" from the bulkhead where it has been moored, application was made to the Comptroller to permit the boat to remain where it is for the present, and he has consented to this.

A plan and estimates for the construction of a roof over the top balcony at Gouverneur Hospital has been proposed, and authority has been granted to proceed with this work.

Request has been made for six Graduate Nurses to act as Head Nurses in the wards of the hospital. The money to pay the salaries of these Nurses was transferred from available funds in the nursing appropriations for Harlem and Fordham Hospitals, and the new Nurses are now at their posts, to the great improvement of the nursing service in the hospital.

Persistent efforts have been made by the Trustees to secure action upon their request for the assignment of the plot to the south of Gouverneur Hospital, in order that it may be used as a site for the proposed new Out Patient Department. No reply has yet been received from the Corporation Counsel regarding the availability of this site, but the financial authorities have been requested to authorize an appropriation of $5,000 in corporate stock to meet the cost of preliminary fees for architects, in order that no delay may be experienced when a site has been obtained.

The Medical Board has recommended the creation of twenty additional salaried positions in the Out Patient Department of the hospital. This has been taken under advisement by the Trustees, who are not inclined to assent to such an enlargement of the salaried staff.

New rules governing the regulation of the admitting office of the hospital have been drawn up and adopted.

Medical Appointments, Resignations, etc.

January 10, 1911—Dr. Joseph A. Lee was promoted from a one year to a two-year appointment to fill vacancy on house staff.

January 24, 1911—Dr. William H. W. Knipe, appointed Assistant Visiting Obstetrician; Dr. Alfred C. Henderson, appointed Physician to Out Patients and Assistant Visiting Physician; Dr. Robert Weiner, appointed Assistant Surgeon to Out Patients (dermatology).

February 7, 1911—Reappointments for the year 1911 were made as follows: Dr. John L. Shiels, Physician to Out Patients and Assistant Visiting Physician; Dr. Philip M. Grausman, Surgeon to Out Patients and Assistant Visiting Surgeon.

February 27, 1911—Dr. Charles H. May, Consulting Ophthalmologist, resigned.

March 7, 1911—Internes were appointed as follows: Dr. Howard T. Paffard, July 1, 1911, 2 years; Dr. David E. Thompson, January 1, 1912, 2 years; Dr. Walter M. Brunet, July 1, 1911, 2 years; Dr. Daniel E. Pugh, January 1, 1912, 2 years; Dr. Leslie F. Mulford, July 1, 1911, 1 year; Dr. Harry S. Marcley, July 1, 1911, 1 year.

HARLEM HOSPITAL.

Estimates have been obtained for the installation of wire guards similar to those on the balconies at Bellevue. This it is expected will make the balconies more safe for the use of patients.

Complaint has been made of the delay of the Department of Water Supply, Gas and Electricity in the preparation of plans and specifications for the rewiring and relighting of both Harlem and Fordham Hospitals. The plans and specifications have at last been obtained and an advertisement authorized for bids for the execution of this work.

A renewal of the leases of the houses, Nos. 113 and 115 W. 136th st., now used as residences for the Nurses at Harlem Hospital, has been obtained.

Permission has been requested of the Board of Aldermen to buy an automobile ambulance in the open market without public letting. This ambulance is intended for use at Harlem Hospital.

Permission has been granted Dr. Herman A. Haubold, Visiting Surgeon, to teach students in the wards of that hospital as an experiment.

A temporary partition has been erected in the room of the Medical Board to provide an office for Miss Stimson, the Superintendent of Nurses. This partition will be removed and the room restored to its original proportions as soon as the addition to the hospital has been erected. In the meantime, the little room formerly occupied by Miss Stimson will be used by the Social Service Nurse.

Authority has been requested to charge the cost of changing the floors of the balconies against a balance in the building fund. These floors are of perforated iron, and permit the dripping of rain and any other liquid from one balcony to another. The necessity of providing for a solid flooring is very great.

A resolution of the Board of Aldermen, requesting the Trustees to make arrangements for an ambulance station in the neighborhood of E. 120th st., has been received, and before taking action upon it, the Trustees have communicated with the authorities of Sydenham Hospital to ascertain whether they would be prepared to maintain an ambulance at that institution.

FORDHAM HOSPITAL.

The plans for the enlarging and enclosing of the balconies at Fordham were approved by the Board of Estimate and Apportionment on December 22 of last year. Bids for the carrying out of the improvement were received by the President of this Board on February 27, the lowest being that of the McHarg & Barton Company, for $18,693 for the thirty-foot enclosure, with $4,000 for an additional ten-foot enclosure, making a total of $22,693. Nine bids were received in all, the highest running up to $29,000. In view of these high figures, it was resolved to reject all bids and to readvertise the work. It was also determined that the new bids should call for one price for the enclosure of twenty feet at both ends of the balconies, and that a separate price should be quoted for an extra ten feet which may be added if thought desirable.

Plans and specifications for the construction of a workshop on the grounds of Fordham Hospital have been approved, and an advertisement authorized for its construction.

Complaint has been received from the Fire Department of the manner in which the steam automobile is stored at Fordham. Request has been made of the Fire Department that it specify what is necessary in order to make the present quarters conform to the requirements of the law.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resoved, That, while the said sale is held under the supervision of the Commissioner of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.
