The Chamberlain reported that the banks replied to his letter asking what rates of interest would be paid during the coming quarter, as follows:

Class A Deposits: Sixty-six banks offered to pay 3 per cent. or more; 15 to pay 2½ per cent., and 15 to pay 2 per cent.

ARTHUR WOODS, Police Commissioner.

Bellevue and Allied Hospitals.

A regular meeting of the Board of Trustees of Bellevue and Allied Hospitals was held on Tuesday, July 10, 1917, at 2 p. m.

Present—Dr. Brannan, the President, in the Chair; Messrs. Paulding, O'Keefe, Farley, Stern and Robbins, Trustees. Excused, Mr. Sachs and Mr. Kingsbury, Commissioner of Public Charities.

Dr. O'Hanlon, the General Medical Superintendent, reported as follows:

During the past week the Department of Charities has been transferring bodies from a cemetery in Brooklyn for reinterment in a cemetery on Harts Island, exchanging the old coffins for new ones at the 29th st. pier. This has been done somewhat publicly, and much of the old material was left on the pier for several hours.

The dining rooms for employees at Bellevue is greatly overcrowded because of its physical layout and it is impossible to serve properly from 500 to 600 employees three meals daily; at an expenditure of approximately \$3,000 it would be possible to prepare the basement in I and K so that we would have much additional space and better facilities. While this would not be ideal, it would better meet the situation than their present quarters, pending completion of pavilions F and G. As there are no funds available for this purpose, it will be necessary to ask for an issue of corporate stock.

The office situation at Fordham Hospital has been improved since the last meeting by the employment of an expert Telephone Operator at a salary of \$50 per month. A modification of schedules will be necessary to provide for the salary, which probably we can meet for the remainder of the year from accruals, and provide for this position in the Budget for 1918. Your authorization is requested.

Incidental to the 4th of July there were treated at Gouverneur 11 cases, at Bellevue 5, and at Harlem 9, all for minor injuries, such as burns and lacerations, except two, one a gunshot wound at Gouverneur and one at Harlem. The case at

Gouverneur received his injuries from a stray bullet, was operated upon at the hospital, but died. At Harlem Hospital a boy 14 years old was shot in the neck by a .22-calibre ball from a blank cartridge pistol. He was operated on the 6th of July and died last night.

Dr. Gregory, Director of the Psychopathic and Alcoholic Services, recommends the appointment of Dr. Jewett, Resident Alienist, at \$1,500 a year, and the temporary appointment of Drs. Miller and Meyer during the absence of Dr. Connelly.

The daily average census at the various hospitals during the month of June was as follows: Bellevue, 1,439; Gouverneur, 193; Harlem, 308; Fordham, 244; Neponsit, 93.

On separate motion, duly seconded and carried in each instance, action was taken upon the report of the General Medical Superintendent, as follows:

Dr. O'Hanlon was instructed that if the changing of the old coffins to the new ones by the Department of Public Charities on the pier at E. 29th st. becomes too public he should bring this to the attention of the Commissioner of the Department of Public Charities.

A request was authorized to the Board of Estimate and Apportionment for corporate stock in the sum of \$3,000 to prepare to basement of pavilions I and K to provide additional space for a dining room for employees.

The appointment of a Telephone Operator at Fordham Hospital and the modification of schedules to provide for the salary and to make provision in the departmental estimate for 1918 for this position were approved.

The appointment of Dr. Jewett as Resident Alienist at \$1,500 and the temporary appointments of Dr. Miller and Dr. Meyer during the absence of Dr. Connelly were also approved, provided their credentials meet with the approval of the President.

COMMITTEE REPORTS.

The President presented a tabulation of bids received at Bellevue Hospital on July 9 for the layout of the grounds at Harlem Hospital as follows: Jennings & John, \$13,800; J. M. Knopp, \$15,956; Werner, Hubert Co., Inc., \$20,743. A letter, dated July 10, relating thereto, was presented from Joseph H. Freedlander architect. After discussion, it was moved, seconded and carried, to defer action pending further inquiry into the responsibility of the lowest bidder, Jennings & John.

The following tabulation of bids was received at Bellevue on July 9 for enclosing the loggias of pavilions I and K: Victor B. Hess, \$1,425; Neptune B. Smythe, \$1,785; A. W. King, \$2,059. A letter, dated July 10, relating thereto, was presented from the Supervising Engineer to the General Medical Superintendent. After consideration, on the recommendation of the Building Committee, the contract was awarded to the lowest bidder, Victor B. Hess, in the sum of \$1,425.

The following tabulation of bids for painting the new building for the Out Patient Department of Gouverneur Hospital was presented: Ulshen, Weiskopf Co., \$1,322.50; Harry D. Gelenter, \$1,600; Weinstein Bros., \$1,744; Bizer & Wolf, \$1,895; Isaac Hoffman, \$2,235; Aaron Baisur, \$3,175; Steves, Lauoz Co., Inc., \$6,995. On the recommendation of the Building Committee and the architect, as set forth in their letter dated July 10, the contract was awarded to the lowest bidder, the Ulshen, Weiskopf Co., in the sum of \$1,322.50.

Mr. Farley reported that he had inquired into the offer of William R. Senior regarding the rental or sale of the premises at the southwest corner of 1st ave. and 27th st., and found that the property is not suitable for office purposes, such as the department originally contemplated, and recommended that nothing further be done regarding the property for the present. On motion, duly seconded and carried, this report was approved.

Mr. Stern reported that he had inquired into the request of the Executive Committee of the Kehillah (Jewish Community of New York), regarding an arrangement whereby parents of Jewish children born in the hospitals of this department may employ the Mohelim certified by their board for the performance of operations prescribed under the Jewish laws and recommended that their request be complied with. After consideration, it was moved, seconded and carried, to comply with the request of the Executive Committee of the Kehillah on condition that the operations be performed under the supervision of one of the regularly appointed surgeons of the hospital.

On behalf of the Conference Committee of Harlem Hospital, Mr. O'Keefe reported that they had considered the requisitions for instruments and supplies issued by the physicians and surgeons of that hospital. After discussion, it was moved, seconded and carried that all requisitions for instruments and supplies required by the physicians and surgeons should be presented, in accordance with the prescribed procedure of the depart-

ment, to the Superintendent of the hospital, to be forwarded to the General Medical Superintendent, and then if the supplies are not forthcoming the matter should be brought to the attention of the Trustees.

The Conference Committee of Harlem Hospital also reported that they had inquired into the report of the Medical Board regarding the shortage of linen supplies and clothing, and found that the reason was that a new Nurse did not know where the linen supplies were stored in the wards. On motion, duly seconded and carried, this matter was referred to the General Medical Superintendent with instructions to communicate with Miss Bamber, the Assistant Superintendent of Nurses, calling her attention to this condition.

On the recommendation of the Medical Board and the Conference Committee of Harlem Hospital, the following appointments were authorized: Irving J. Pinkus, as Assistant Surgeon to Out Patients, Children's Clinic; W. J. Murphy, as Assistant Physician to Out Patients, evening cardiac clinic.

The creation of the position of Assistant Neurologist and the appointment of Junius Hardin McHenry (on leave), was approved.

Reference was made to the departmental estimate for 1918. On motion, duly seconded and carried, this subject was referred to the Budget Committee, consisting of Mr. O'Keefe and Mr. Sachs, for recommendation.

The great delay in obtaining funds for the construction of pavilions F and G, and the question of solving the kitchen problem at Bellevue was discussed. After consideration, it was moved, seconded and carried to authorize a request for corporate stock to build the kitchen section of F and G, the remaining portions to be erected as soon thereafter as funds become available, and to request the architect to furnish an estimate of the cost to construct this part of the building and tunnels to connect with A and B and L and M.

The question of appointing an architect for the construction of a new roof ward at Fordham Hospital was considered. After discussion, it was moved, seconded and carried to request the President to arrange for the appointment of R. F. Almirall as architect for this work.

COMMUNICATIONS.

A letter, dated July 3, was presented from the Bronx Board of Trade, inquiring why so few members of the visiting staff of Fordham Hospital are residents of The Bronx and asking that two Bronx men be appointed to the positions of Directors of the Medical and the Surgical Services. After discussion, it was moved, seconded and carried to inform the Bronx Board of Trade that the policy of the department in making appointments has been to obtain the best men available and that residence in any particular section has never been considered and never entered into the question of appointments, and that in compiling a list showing the residence of the men on the visiting, assistant visiting and adjunct assistant visiting staff, we find that of the twenty-one men appointed to the hospital ten are residents of The Bronx. It was also decided to ask the Bronx Board of Trade for its cooperation in obtaining physicians and surgeons in active practice in that community to accept positions in the Out Patient Department of Fordham Hospital with the prospect of promotion to superior positions.

The minutes of the Medical Board of Harlem Hospital for June 19 were presented. On motion, duly seconded and carried, the General Medical Superintendent was instructed to give his attention to the needs of the gynaecological service and to include in the departmental estimate for 1918 the place of Technician on the pathological side of the laboratory, as well as providing places for full-time social service nurses in the admitting office and in the cardiac clinic. The plan of organization for improving the service in the Out Patient Department and co-ordinating this work with the hospital and the plan for the pediatric service were approved. The request for leave of absence of Irving S. Haynes, Director of the Gynaecological Service, from June 20 to Sept. 15, the service during his absence to be covered by Dr. Cherry and Dr. Stein, was approved.

A letter dated July 3 from McKim, Mead & White was presented, together with an application from E. Rutzler Co. for final payment on their contract for the heating and ventilating work in the new building for the Out Patient Department of Gouverneur Hospital. On the recommendation of the Building Committee and the architect, the work was accepted and final payment authorized.

A communication dated July 3 was presented from McKim, Mead & White, transmitting duly approved application of A. W. King for final payment on his contract for the alterations to Bellevue Hospital. On the recommendation of the Building Committee and the architects,

this work was accepted and final payment authorized.

A letter, dated July 10, was presented from Joseph H. Freedlander, transmitting estimates on an open market order for plumbing work in connection with the layout of the grounds at Harlem Hospital. In view of postponing the award of contracts for the layout of the grounds, bids for which were considered at this meeting, action on the open market order for the plumbing work was also deferred.

A motion to adjourn the meeting to Thursday, July 19, was moved, seconded and carried.

Resolutions Adopted.

No. 1.—Matter of the protection for the covers of wooden roof tanks for sprinkler and stand-pipe systems. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant, free for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in the street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days

from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and loss of costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions, shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, or purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property at the date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days

from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions, shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a sale at public or private sale may be made in the same manner as if no prior sale thereof had been made."

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further
