WIDENING JEROME AVENUE, THE BRONX.

The matter of the proposed widening of Jerome avenue, on the easterly side, between Cameron place and East One Hundred and Eighty-fourth street, which was laid over on February 9, was laid over pending the receipt of the Corporation Counsel's opinion.

OPENING WEST TWO HUNDRED AND TWENTIETH STREET, MANHATTAN.

The following resolution of the Local Board of Washington Heights, Borough of Manhattan, and report of the Chief Engineer were presented:

In the Local Board of the Washington Heights District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

Acquiring title to West Two Hundred and Twentieth street, from Broadway to Seaman avenue; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Washington Heights District on the 19th day of September, 1905, all the members present voting in favor thereof.

Attest:

BERNARD DOWNING, Secretary.

Approved this 23d day of September, 1905.

JOHN F. AHEARN,
President of the Borough of Manhattan.

REPORT No. 3515.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 18, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on September 19, 1905, initiating proceedings for acquiring title to West Two Hundred and Twentieth street, between Broadway and Seaman avenue.

This resolution affects a length of one block of West Two Hundred and Twentieth street, which has been laid out upon the map of the City to have a width of 60 feet. The street is not in use at the present time, and the abutting property is unimproved.

There does not appear to be any reason to prevent the approval of this resolution at the present time, and such action is recommended, the cost of the proceeding to be assessed upon the property benefited.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of West Two Hundred and Twentieth street, from Broadway to Seaman avenue, in the Borough of Manhattan, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending West Two Hundred and Twentieth street, from Broadway to Seaman avenue, in the Borough of Manhattan, City of New York.

Resolved, That the cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Brooklyn, The Bronx and Queens—13.

OPENING ISHAM STREET, MANHATTAN.

The following resolution of the Local Board of Washington Heights, Borough of Manhattan, and report of the Chief Engineer were presented:

In the Local Board of the Washington Heights District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said

JOHN F. AHEARN,

President of the Borough of Manhattan.

REPORT No. 3516.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 19, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on September 26, 1905, initiating proceedings to acquire title to Isham street, between West Two Hundred and Eighteenth street and Broadway.

Isham street has been placed upon the map of the City both north and south of West Two Hundred and Eighteenth street, the line meeting Broadway in each direction. From the papers submitted with the resolution it is apparent that the intent of the same is to acquire title to the portion of Isham street extending northerly from Two Hundred and Eighteenth street. The street here has a length of three blocks, or approximately 2,000 feet, and a width of 80 feet. The street is not marked in any way upon the ground, but some buildings are within its lines.

The resolution seems to be a proper one, and its approval is recommended, 8 per cent. of the cost to be placed upon the City at large and the remainder upon the property benefited.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of Isham street, from West Two Hundred and Eighteenth street northerly to Broadway, in the Borough of Manhattan, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Isham street, from West Two Hundred and Eighteenth street northerly to Broadway, in the Borough of Manhattan, City of New York.

Resolved, That 8 per cent. of the cost and expense of said proceedings shall be borne and paid by The City of New York, and that the remainder thereof shall be assessed upon the property deemed to be benefited thereby.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Brooklyn, The Bronx and Queens—13.

OPENING THIRTEENTH AVENUE, BROOKLYN.

The following report of the Chief Engineer was presented:

REPORT No. 3556.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 30, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At a meeting of the Board of Estimate and Apportionment held on December 1, 1905, a resolution was adopted amending a proceeding already instituted for acquiring title to Thirteenth avenue, between Thirty-sixth and Seventy-third streets, by omitting therefrom the land occupied by the Brooklyn, Bath and West End Railroad at New Utrecht avenue.

The original resolution initiating this proceeding was adopted by the Board of Public Improvements on July 12, 1899, but no notice was given to the railroad companies whose tracks were crossed. The Local Board of the Bay Ridge District subsequently adopted a resolution excepting from the land to be acquired the crossings of the South Brooklyn Railroad and Terminal Company, the New York and Sea Beach Railroad Company, the Manhattan Beach Division of the Long Island Railroad Company and the Brooklyn, Bath and West End Railroad Company. It was this resolution of the Local Board which was approved by the Board of Estimate and Apportionment on December 1 last, there having been considerable correspondence between this office and the borough authorities as to the advisability of entirely discontinuing the old proceeding and instituting a new one, it having finally been decided to amend the original resolution and allow the proceeding to go on. My attention has recently been called by the Vice-President of the Brooklyn Heights Railroad Company to the fact that the South Brooklyn Railroad and Terminal Company, now the South Brooklyn Railway Company, has no tracks within the lines of the proposed Thirteenth avenue, but that the Prospect Park and South Brooklyn Railroad Company has tracks within the limits of the street covered by the opening proceeding.

It is difficult to follow the changes in the corporate names of the various constituent companies of the Brooklyn Heights Railroad Company, but it is to be presumed that a statement of this kind coming from its vice-president gives the proper names of the companies whose tracks would be crossed, and in view of this statement I would recommend that the proceeding to open Thirteenth avenue, between Thirty-sixth and Seventy-third streets, be still further amended by excluding the land occupied by the tracks of the Prospect Park and South Brooklyn Railroad Company. If what was formerly described as the South Brooklyn Railroad and Terminal Company has no tracks within the lines of the street, no lands would be taken from them, and it would do no harm to allow the original resolution to stand, with the amendment herein suggested.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, by the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 1000 of the Greater New York Charter, That the proceedings initiated by the Board of Public Improvements on July

12, 1899, for opening and extending Thirteenth avenue, from Thirty-sixth street to Seventy-third street, in the Borough of Brooklyn, City of New York, be and the same hereby are discontinued so far as they relate to that portion of said street occupied by the Prospect Park and South Brooklyn Railroad Company.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Brooklyn, The Bronx and Queens—13.

VESTING TITLE TO LAND FOR BRIDGE APPROACH AT MORRIS HEIGHTS, THE BRONX.

The following communication from the President of the Borough of The Bronx and report of the Chief Engineer were presented:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,
November 29, 1905.

Hon. GEORGE B. MCCLELLAN, Chairman, Board of Estimate and Apportionment:

DEAR SIR—I inclose herewith copy report of Chief Engineer Josiah A. Briggs, dated November 11, 1905, in reference to having a date fixed for the vesting of title to the approaches to bridges over the New York Central and Hudson River Railroad at Morris Heights and Depot place, under chapter 423 of the Laws of 1903, and I would also ask that a resolution be passed by the Board of Estimate and Apportionment initiating the proceedings for acquiring title to the remaining pieces at Morris Heights referred to by Mr. Briggs, which recommendation was approved by the Local Board of Morrisania, Twenty-fourth District, on the 16th inst.

Yours truly,

LOUIS F. HAFFEN,
President of the Borough of The Bronx.

REPORT No. 3540.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 22, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a communication from the President of the Borough of The Bronx, dated November 29, 1905, in which he asks that the Board provide for the vesting of title in the City to the land needed for the approaches to the bridges across the New York Central and Hudson River Railroad tracks at Morris Heights and Depot place, and that a resolution also be adopted for acquiring title to the additional strip at Morris Heights which has already been shown to be needed for this bridge.

There are three separate parcels covered by the recommendation of the Borough President. One of these, at Morris Heights, was shown upon the plans prepared under the provision of chapter 423 of the Laws of 1903, and approved by the Board of Estimate and Apportionment, and on February 3, 1905, the Board authorized the acquisition of this area. The Commissioners in this proceeding have been appointed and filed their oaths on November 1, 1905. An additional area was found to be necessary in connection with this bridge, and this was laid out by a plan approved after a public hearing on June 9, 1905. It is this area that the Borough President asks be acquired. I beg to say that such proceedings were authorized on December 1 last, and as soon as the Commissioners shall have been appointed and shall have filed their oaths, title can be taken to this piece also.

The additional land needed at Depot place, or Highbridge, was also shown upon the plans prepared under chapter 423 of the Laws of 1903, and the former Board of Estimate and Apportionment authorized its acquisition on March 3, 1905. The Commissioners in this proceeding have been appointed and filed their oaths on January 3, 1906.

I would recommend, therefore, that the Board adopt a resolution providing for the vesting in the City of title to the land needed for the widening of West One Hundred and Seventy-seventh street, between the tracks of the New York Central and Hudson River Railroad Company and the Harlem river, proceedings to acquire which were authorized on February 3, 1905; and also that title to the land needed for an approach to the bridge at Depot place, proceedings to acquire which were authorized on March 3, 1905, be vested in The City of New York on March 1, 1906.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment, on the 3d day of February, 1905, adopted a resolution requesting the Corporation Counsel to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending an approach to the bridge over the tracks of the New York and Putnam and Spuyten Duyvil and Port Morris Railroads, at Morris Heights, as shown on the map or plan adopted by the Board of Estimate and Apportionment on December 4, 1903, in the Borough of The Bronx, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court, in proceedings to acquire title to said bridge approach, and the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law on the 1st day of November, 1905; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 1st day of March, 1906, the title to each and every piece or parcel of land lying within the lines of said approach to the bridge over the tracks of the New York and Putnam and the Spuyten Duyvil and Port Morris Railroads, at Morris Heights, as shown on the map or plan adopted by the Board of Estimate and Apportionment on December 4, 1903, in the Borough of The Bronx, City of New York, so required, shall be vested in The City of New York.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Brooklyn, The Bronx and Queens—13.

Whereas, The Board of Estimate and Apportionment on the 3d day of March, 1905, adopted a resolution requesting the Corporation Counsel to acquire title, wherever the same has not heretofore been acquired, for the use of the public to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending the approaches to the bridge across the Spuyten Duyvil and Port Morris Railroad, on the line of Depot place, at High Bridge, in the Borough of The Bronx, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court in proceedings to acquire title to said bridge approaches and the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law on the 3d day of January, 1906; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 1st day of March, 1906, the title to each and every piece or parcel of land lying within the lines of said approaches to the bridge across the Spuyten Duyvil and Port Morris Railroad, on the line of Depot place, at High Bridge, in the Borough of The Bronx, City of New York, so required, shall be vested in The City of New York.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Brooklyn, The Bronx and Queens—13.

CLOSING CONDUIT STREET, BROOKLYN.

The following resolution of the Local Board of Bushwick, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Bushwick District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Brooklyn; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Bushwick District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

Recommending to the Board of Estimate and Apportionment an alteration in the map or plan of The City of New York by striking therefrom Condit street, between Railroad avenue and Nichols avenue, in the Borough of Brooklyn, as shown on the accompanying map, and more particularly described as follows:

Beginning at a point in the eastern line of Railroad avenue distant about 672 feet northerly from the intersection of the northern line of Etna street with the eastern line of Railroad avenue, as the same are laid down on the map of the City.

1. Thence northerly along the eastern line of Railroad avenue fifty feet;
2. Thence easterly deflecting 90 degrees to the right and along the northern line of Condit street 400 feet to the western line of Nichols avenue;
3. Thence southerly along the western line of Nichols avenue fifty feet;
4. Thence westerly and along the southern line of Condit street 400 feet to the point of beginning.

And it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Bushwick District on the 28th day of November, 1904.

Commissioner Brackenridge and Aldermen Haenlein, Bennett and Grimm voting in favor thereof.

Attest:

JOHN A. HEFFERNAN, Secretary.

The President withholds decision upon this until it shall come before the Board of Estimate and Apportionment.

JOHN A. HEFFERNAN, Secretary.

REPORT No. 3566.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 1, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bushwick District, Borough of Brooklyn, adopted on November 28, 1904, recommending a change in the map or plan of The City of New York by striking therefrom Condit street, between Railroad and Nichols avenues.

In reporting upon a petition requesting the discontinuance of proceedings to acquire title to Condit street between the limits named, the same comprising the entire length of the street, originally one block, attention was called to the fact that the necessity for Condit street had been removed by the laying out of Lincoln avenue on September 29, 1905, at right angles to the line of the street, this change in the map and the one now proposed providing blocks of adequate width and depth. The opening proceedings were discontinued, as recommended, on January 26, 1906, and the removal of the street from the map naturally follows this action.

Approval of the change is recommended after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by discontinuing and closing Condit street, between Railroad avenue and Nichols avenue, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Beginning at a point in the eastern line of Railroad avenue distant about 672 feet northerly from the intersection of the northern line of Etna street with the eastern line of Railroad avenue, as the same are laid down on the map of the City;

1. Thence northerly along the eastern line of Railroad avenue 50 feet;
2. Thence easterly deflecting 90 degrees to the right and along the northern line of Condit street 400 feet to the western line of Nichols avenue;
3. Thence southerly along the western line of Nichols avenue 50 feet;
4. Thence westerly and along the southern line of Condit street 400 feet to the point of beginning.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 23d day of March, 1906, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 23d day of March, 1906.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Brooklyn, The Bronx and Queens—13.

WIDENING WALTON AVENUE, THE BRONX.

The following resolution of the Local Board of Morrisania, Borough of The Bronx, and report of the Chief Engineer were presented:

In the Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of The Bronx; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of Morrisania, Twenty-fourth District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

For laying out on the map of The City of New York a widening of the west side of Walton avenue, beginning 190.6 feet north of One Hundred and Fifty-eighth street at a point where the old west line of Butternut street intersects the new west line of Walton avenue, and embracing all of the land lying between the old west line of Butternut street, the new west line of Walton avenue and the new south line of One Hundred and Sixty-first street, in the Borough of The Bronx, City of New York; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of Morrisania, Twenty-fourth District, on the 5th day of June, 1905.

REPORT No. 3545.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 29, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on June 5, 1905, recommending a change in the map or plan of The City of New York by widening Walton avenue on its westerly side through the block between East One Hundred and Fifty-eighth and East One Hundred and Sixty-first streets.

Walton avenue has been graded, curbed and flagged, the line of the improvement following the lines of the street as heretofore laid out, the said street having a width of 50 feet. It appears that the westerly line of the street as laid out failed to agree with the lines of what was formerly Butternut street, leaving a small triangular strip on the westerly side of Walton avenue south of and immediately adjoining East One Hundred and Sixty-first street, having a frontage on Walton avenue of about 190 feet, and a maximum depth of apparently less than ten feet. The change is petitioned for so that the owners of the abutting property may have a frontage upon Walton avenue as now laid out.

No information is presented with the resolution to show whether the one-story frame house and the frame shed now erected on the westerly side of Walton avenue along the strip which it is proposed to include within the street lines conform with the street lines as now existing, or with those proposed. There is no evidence upon the ground as to the former existence of Butternut street, and I can see no reason why the change requested should be made. If the owners of the abutting property are shut off from immediate frontage upon Walton avenue, as stated, the proper remedy in this case would appear to be the initiation of proceedings for closing so much of Butternut street as is not included in Halton avenue. If the map were in each case to be changed for the purpose of remedying conditions such as appear to obtain here, it would seem inadvisable to lay out a street system for any part of the City without forcing the lines in each case to fully include all old roads and lanes, and the unsatisfactory map which would result from such a course is too evident to need further comment.

I see no reason, however, to prevent giving a public hearing in this matter, so that any further facts pertinent to the case may be brought out.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by widening Walton avenue, on its westerly side, between East One Hundred and Fifty-eighth and East One Hundred and Sixty-first streets, in the Borough of The Bronx, City of New York, more particularly described as follows:

Beginning at a point in the western line of Walton avenue, distant 190.06 feet northerly from the northern line of East One Hundred and Fifty-eighth street;

1. Thence northerly along the western line of Walton avenue for 191.87 feet to the southern line of East One Hundred and Sixty-first street;
2. Thence westerly along last mentioned line for 1.96 feet to the western line of Butternut street;
3. Thence southerly along last mentioned line for 191.75 feet to the point of beginning.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 23d day of March, 1906, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 23d day of March, 1906.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Brooklyn, The Bronx and Queens—13.

CHANGE OF LINES OF APOLLO AND POLLOCK STREETS, BROOKLYN.

The following resolutions of the Local Board of Williamsburg, Borough of Brooklyn, and report of the Chief Engineer were presented, and the matter was referred back to the President of the Borough of Brooklyn.

In the Local Board of the Williamsburg District.

Resolved, That the Local Board of the Williamsburg District, Borough of Brooklyn, pursuant to section 428 of the Greater New York Charter, after duly advertised hearing, had this 31st day of May, 1905, hereby recommends to the Board of Estimate and Apportionment an alteration in the map or plan of The City of New York by changing the lines of Apollo street, from Bridgewater street to Newtown creek, as shown on the accompanying map and more particularly described as follows:

The eastern line of Apollo street as herewith laid out to be the same as the western line of Apollo street as formerly laid down on the map of the City;

The western line of Apollo street as herewith laid out to be 60 feet west of and parallel to the above described eastern line.

Note—The portions of Apollo street not herewith included in what is here laid out, to be stricken from the map.

And it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Williamsburg District on the 31st day of May, 1905.

Resolved, That the Local Board of the Williamsburg District, Borough of Brooklyn, pursuant to section 428 of the Greater New York Charter, after duly advertised hear-

ing had this 31st day of May, 1905, hereby recommends to the Board of Estimate and Apportionment an alteration in the map or plan of The City of New York by changing the lines of Pollock street, between Hausman street and Newtown creek, as shown on the accompanying map and more particularly described as follows:

The centre line of Pollock street as herewith laid out to begin at a point on the United States Pier and bulkhead line of Newtown creek, half way between the western line of Apollo street as herewith laid out, and the southeastern line of Webster street, as laid down on the map of the City, distances to be measured along aforesaid pier and bulkhead line;

Thence to extend southwesterly through a point on the northeastern line of Front street, half way between the western line of Apollo street as herewith laid out, and the southeastern line of Webster street, the distances to be measured along the northeastern lines of Bridgewater and Front streets;

Thence the centre line to be prolonged in a straight line to the eastern line of Hausman street.

The southeastern and northwestern lines of Pollock street to be respectively 30 feet southeasterly and northwesterly from and parallel to the above described centre line from the pier and bulkhead line of Newtown creek to the eastern line of Hausman street.

Note—The portions of Pollock street not herewith included in what is here laid out to be stricken from the map.

And it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

REPORT No. 3581.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 2, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith are transmitted two resolutions of the Local Board of the Williamsburg District, Borough of Brooklyn, adopted on May 31, 1905, recommending a change in the map or plan of The City of New York by changing the lines of Apollo street, between Bridgewater street and Newtown creek; and of Pollock street, between Front street and Newtown creek. The resolutions are accompanied by a petition for a sewer in Apollo street, between Nassau and Meeker avenues.

From the other papers which are presented it appears that title to the block for which the sewer is proposed has never been acquired, necessitating opening proceedings for the street, which proceedings it is proposed to extend to include the entire length of the street, or from Meeker avenue to Newtown creek. Before initiating such proceedings it is desired to improve the street lines in the vicinity. As now laid out there is a break, as well as an angle, in the lines of Apollo street, at its intersection with Bridgewater street, and it is proposed to remove the former by locating the street 60 feet further to the west, the angle remaining unchanged. This adjustment would give a depth of about 260 feet to the block between Van Dam street and Apollo street, while between Apollo street and Pollock street the depth of the block would be reduced to about 140 feet. To avoid this exceedingly small block depth it is proposed to change the line of Pollock street by moving it westwardly toward Webster street, and locating it approximately midway between this street and Apollo street. At the same time it is proposed to extend its lines a short distance southerly to form an intersection with Hausman street, leaving a small public place at the junction with Hausman street and Front street.

In my judgment the extension of Pollock street to Hausman street and the readjustment of the line of Apollo street so as to form a continuous thoroughfare across Bridgewater street are both desirable, but these changes will result in a very uneven depth to the blocks between Van Dam street and Apollo street, Apollo street and Pollock street, and Pollock street and Webster street at the Newtown creek, the first block having an excessive depth at the expense of the two latter ones. This objection can be readily removed by leaving the positions of Pollock street and Apollo street unchanged at their intersection with the Newtown creek, accomplishing the same by slightly increasing the angle of the former street at Bridgewater street, and of the latter street at Hausman street.

I would recommend that the resolution be returned to the President of the Borough for reconsideration in these particulars.

Attention should also be called to the fact that Webster street and Wright street, immediately adjoining and both leading to Newtown creek, as now laid out, have a width of only 50 feet. I believe that if the map is to be changed in this vicinity such a change should also include the provision of an adequate width for both of these streets.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

REDUCTION OF ASSESSMENT ON TRINITY AVENUE, THE BRONX.

The following petitions and report of the Chief Engineer were presented and the papers were ordered placed on file:

NEW YORK SUPREME COURT.
NEW YORK COUNTY.

In the Matter

of
The application of the Mayor, Aldermen and Commonalty of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the purpose of opening Trinity avenue (although not yet named by proper authority), from Westchester avenue to East One Hundred and Sixty-sixth street, as the same has been heretofore laid out and designated as a first-class street or road, in the Twenty-third Ward of The City of New York:

To the Honorable Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—Bernard C. Murray, Charles Pitchie and others, owners of property proposed to be assessed by reason of the above entitled proceeding, respectfully represent and petition as follows:

That the above entitled proceeding was instituted pursuant to a resolution of the Board of Street Opening and Improvement of The City of New York held on the 21st day of September, 1904, pursuant to which the Corporation Counsel was requested to take the necessary proceedings in the name of the Mayor, Aldermen and Commonalty of The City of New York to acquire title to the lands, etc., required for the purpose of opening Trinity avenue, from Westchester avenue to East One Hundred and Sixty-sixth street.

That notice of the application was given as provided by law, and by an order of the Supreme Court dated the 27th day of December, 1895, and entered on the 30th day of December, 1895, Wilbur McBride, Peter F. Rafferty and Lorenzo S. Palmer were appointed Commissioners of Estimate and Assessment therein.

That said Commissioners therein duly qualified and testimony in relation to claims submitted to them, and on the 5th day of November, 1898, they deposited with the Bureau of Street Openings, Law Department, of The City of New York, for inspection, their preliminary report of estimate and assessment.

That the report of said Commissioners was confirmed by order of Special Term of the Supreme Court, dated the 11th day of June, 1901, and entered the 13th day of June, 1901.

That the City, as well as various property owners, appealed from the order confirming the report of the Commissioners, to the Appellate Division, Supreme Court, and subsequently the order made at Special Term was reversed and the matter sent back to the Commissioners for further consideration. That thereafter the said Commissioners redrafted their report and the same was presented for confirmation, and was confirmed as to the awards only, but not as to assessments.

That, pursuant to resolution of the said Board of Street Openings and Improvement, title to the premises required for the purpose of Trinity avenue opening vested in the Mayor, Aldermen and Commonalty of The City of New York on the 10th day of July, 1896.

That the purpose of the said proceedings was to acquire property required for the purpose of opening and widening Trinity avenue for a width varying from forty (40) feet to eighty (80) feet, extending from Westchester avenue to East One Hundred and Sixty-sixth street, as hereinafter more specifically set forth. That the portion of Trinity avenue, from Westchester avenue to East One Hundred and Sixty-sixth street, with a width part of the distance of eighty (80) feet and part of the distance of forty (40) feet, was opened and used as a public street, and the portion of Trinity avenue (formerly known as Grove avenue), from East One Hundred and Sixty-first street to East One Hundred and Sixty-fifth street, with a width of fifty (50) feet, was opened and used as a public street prior to the instituting of the proceedings above entitled.

That for the purposes of the property in this immediate neighborhood fifty (50) feet, or at most sixty (60) feet, would be an ample width for all purposes for which Trinity avenue might be required to be opened. That none of the streets in this neighborhood, except Boston road, Westchester avenue, East One Hundred and Sixty-fifth street and East One Hundred and Sixty-third street, have a width in excess of sixty (60) feet, and most of the streets are only fifty (50) feet in width, which is ample for their purposes.

In the case of East One Hundred and Sixty-first street, the City's share of the assessment is seventy-five per cent. (75%). In the case of East One Hundred and Sixty-third street, the City assumed fifty per cent. (50%), and in the cases of Boston road and Westchester avenue the City contributed largely towards the expense of the improvement.

That this section of the Borough of The Bronx is generally a residential neighborhood, and for such purposes the widening of the street was and is unnecessary.

That the awards made by said Commissions aggregate one hundred and forty thousand one hundred and twenty-seven dollars and forty-five cents (\$140,127.45), which includes large sums for damages due to intended changes of grade, one of which, to the Lebanon Hospital Association, for the sum of fifteen thousand dollars (\$15,000), was wholly assessed in this proceeding, although the property affected fronts also on Westchester avenue and Caldwell avenue, in proceedings for the acquisition of title to which no claim appears to have been made for such intended damage.

That the assessments aggregate one hundred and forty-seven thousand one hundred and sixty-seven dollars and forty cents (\$147,167.40), an amount in excess of the amount of local benefit, and the amounts assessed on the properties for benefit, especially on those fronting on the new street, are largely in excess of the fair proportionate share of benefit which might result from the improvement.

That by reason of the improvement the City has already been able to secure increased taxes by reason of the large increase of property values for the purpose of taxation, and has been generally benefited thereby.

That inasmuch as the improvement is incidental to the general development of the City, and in view of the fact The City of New York will continue to derive a large proportion of the benefit resulting from the improvement of Trinity avenue as hereinabove set forth, the said City should assume at least twenty-five per cent. (25%) of the assessments levied therefor.

Wherefore the petitioners pray that the Board of Estimate and Apportionment by appropriate resolution determine that at least twenty-five per cent. (25%) of the cost and expense of the said proceeding shall be borne and paid by The City of New York.

Dated New York, September 2, 1905.

Respectfully submitted,

A. C. HOTTENROTH, Attorney for Petitioners.

No. 160 Broadway, Manhattan, New York City.

In the Matter

of
The application of The City of New York, relative to acquiring title to lands required for the opening of Trinity avenue, from Westchester avenue to East One Hundred and Sixty-sixth street, in the Borough of The Bronx, City of New York.

To the Board of Estimate and Apportionment:

Your petitioners respectfully show:

First—That on the 21st day of September, 1904, the Board of Street Openings and Improvements of The City of New York passed a resolution to acquire title to the land required for the above-named avenue, wherein and whereby the "entire cost and expense of said proceeding shall be assessed upon the property deemed to be benefited thereby."

Second—That on or about the 27th day of December, 1895, Commissioners of Estimate and Assessment were duly appointed by order of the Supreme Court, and said Commissioners subsequently took their oath of office.

Third—That on or about the 19th day of March, 1904, the said Commissioners published their supplemental and amended estimate and assessment wherein it appears that the property of your petitioners is assessed for benefit.

Fourth—That the said Trinity avenue, from Westchester avenue to East One Hundred and Fifty-sixth street is 80 feet in width, and from East One Hundred and Fifty-sixth street to East One Hundred and Sixty-first street its width varies from 73.69 feet at East One Hundred and Fifty-sixth street to 69.8 feet at East One Hundred and Sixty-first street, whereas a street 60 feet in width would have been amply sufficient for local purposes.

Wherefore your petitioners pray that your Honorable Board direct that a portion of this assessment for the above improvement be borne and paid by The City of New York.

Dated October 9, 1905.

GEORGE C. CLAUSEN (and 15 others).
By JOHN C. SHAW, Attorney.

REPORT No. 3553.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 29, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying petition, addressed to the Board of Estimate and Apportionment by Mr. A. C. Hottenroth, attorney for Bernard C. Murray, Charles Pitchie and others, under date of September 2, 1905, asks the Board to assume for the City at large at least 25 per cent. of the expense of acquiring title to Trinity avenue, between Westchester avenue and East One Hundred and Sixty-sixth street, in the Borough of The Bronx. The reasons assigned for this relief are that the proceeding was practically a widening of a street formerly known as Grove avenue, which had been in use for a number of years; that this old street was of ample width for local use; that the neighborhood through which it passes is residential; and that the widening was for the benefit of the public at large, rather than for the locality.

I find upon investigation that proceedings to open this street were authorized by the Board of Street Opening and Improvement on September 21, 1894, that the Commissioners were appointed and filed their oaths on January 23, 1896, and that title to the entire area acquired was vested in the City on July 10, 1896. The awards were confirmed on June 26, 1905, nearly nine and one-half years after the Commissioners filed their oaths. An appeal was taken from the order confirming the awards as to one parcel, but this involved a question of ownership and not of the amount of the award. The assessments have not yet been confirmed. The expense of the proceeding has been as follows:

Awards for land.....	\$82,773 45
Awards for buildings.....	13,850 00

Damage for intended regulating of the street.....	35,050 00
Expenses of the Commission.....	15,467 01
Total.....	\$147,140 46

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
February 17, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—Hon. Bird S. Coler, President of the Borough of Brooklyn, in a communication dated January 29, 1906, addressed to the Board of Estimate and Apportionment, states that he has been requested by many property owners to ask the Board to take steps to acquire title to that portion of Flatbush avenue, as extended, which is not now the property of the City, but which is the subject of condemnation proceedings authorized by the Board on December 11, 1903, and further states that it is his opinion that the interests of the City will be best served by the immediate acquisition of this property, and that he thinks it wise to take steps at once for the demolition and removal of the buildings which now occupy the portions of the so-called Flatbush Extension, in order that the street may be properly paved.

The same question arose during the incumbency of the office of Borough President by the Hon. Martin W. Littleton as to the expediency of the adoption of a resolution vesting the title in The City of New York, and at a meeting of the Board of Estimate and Apportionment held June 9, 1905, the following report was presented:

"DEPARTMENT OF FINANCE—COMPTROLLER'S OFFICE,
"June 9, 1905."

"Hon. EDWARD M. GROUT, Comptroller:

"SIR—The Board of Estimate and Apportionment, at a meeting held on the 11th day of December, 1903, adopted a resolution authorizing the institution of proceedings for the acquisition of all property shown on a draft damage map in the matter of acquiring title to the street as an approach to Manhattan Bridge, extending from Nassau street to the intersection of Flatbush avenue and Fulton street, in the Fourth, Fifth and Eleventh wards of the Borough of Brooklyn, and that the expenses of such proceedings should be borne and paid for by The City of New York. Commissions have been appointed in said proceedings, and filed their oaths of office on the 12th day of July, 1904.

"The question arose as to whether the best interests of the City would be served by the vesting of title to this land in The City of New York. An examination of the property to be taken by the City and to which title would have to be vested, shows that in the block between Nassau and Concord streets three parcels of land, fronting on Nassau street, and two large parcels, complete, fronting on Concord street, would have to be taken. The remainder is made up of gores formed from lots through which the lines of the street will run diagonally. In some cases portions of the houses are taken, and in others parts of the rear ends of the lots are taken.

"In the block between Concord and Chapel streets six complete parcels and three gore parts of lots would be taken, the lines of the street in this instance running through the houses. In the block between Chapel street and the proposed public park fronting on Bridge street, the lots are all gores, the line of the street running diagonally through the houses erected thereon.

"In the block on the easterly side of Bridge street, between Concord and Tillary streets, there are only six complete parcels, the remainder being made up of portions of lots through which the lines of the new street run diagonally.

"On the west side of Duffield street, extending from Tillary to Johnson street, three complete parcels will have to be taken. The balance are gore lots, the lines of the new street extending diagonally through the lots and houses. On the west side of Duffield street, from Tillary to Johnson street, the lines of the new street run diagonally through all the property taken, and no complete parcel will be acquired.

"In the block extending from Johnson street to Myrtle avenue, between Gold and Duffield streets, only six complete parcels are taken, the balance being portions of lots and portions of buildings. This is also true of property on the northeast corner of Myrtle avenue and Gold street, the line of the new street running diagonally through the houses at a point about 46 feet north of Myrtle avenue.

"South of Myrtle avenue, and in the block bounded by Myrtle avenue, Willoughby, Gold and Prince streets, only ten complete parcels are taken, the balance of that block having to be acquired being the gores of lots fronting on Gold and Prince streets, Myrtle avenue and Willoughby street.

"In the block bounded by Willoughby street, Fleet street, Prince street and Fleet place, ten complete parcels will be acquired, the balance being made up of gores occasioned by the fact that the lines of the street extend diagonally through the other full lots on the block.

"In the triangular parcel bounded by Lafayette street, Fleet street and Debevoise place, the line runs diagonally through the parcel on the corner.

"Between Debevoise place, Lafayette street and DeKalb avenue, but five full parcels are to be acquired, the balance to be acquired being made up of gore lots. On this block is the Church of Our Lady of Mercy, the Fleet Street Methodist Episcopal Church and the Fleet Street Parsonage.

"In the block bounded by DeKalb avenue, Hudson avenue, Fulton street and Macomber square, the Montauk Theatre is located. Six full parcels, three fronting on DeKalb avenue and three fronting on Fulton street, will be acquired, the remainder being gore parcels occasioned by the fact that the lines of the proposed street extend diagonally through the lots.

"From the foregoing, it will be seen that The City of New York, in vesting title, will have the full collection of rents of 58 parcels of land, and the question naturally arises whether the City will have any title to the collection of rents of the parcels of land through which the lines of the new street run diagonally, because in no case would the City have the title to the full parcel; while, by the resolution vesting title, the City would be paying interest on the awards to be made by the Commissioners at the rate of 6 per cent. per annum, and at the same time derive no income from the property acquired.

"Probably about 70 per cent. of the parcels of land to be taken, included within the area of this street, have already changed hands, and the object of vesting title would be simply for the purpose of saving to the City any additional increase in value which might occur between the time the City would vest title by resolution and the time the Commissioners make their awards, which might arise from a general increase in real estate values in Brooklyn. I am of the opinion that within the next twelve months the increase in this section in real estate would not exceed 10 per cent. of the present market value. The opinion is shared in by the vice-president of the Title Guarantee and Trust Company and by the D. & M. Chauncey Real Estate Company, in the Borough of Brooklyn, with the exception of the block bounded by DeKalb avenue, Fulton street, Hudson avenue and Macomber square, which, in their opinion, will largely enhance in value.

"Included within the area of this street, and on this block, is the Montauk Theatre and several other parcels of land fronting on Fulton street. The owners of the Montauk Theatre have made an offer to the City for the sale of their property and the matter will be presented to the Board of Estimate and Apportionment for its approval at this meeting.

"The opinion, therefore, among the real estate men is that the City's interest will be best served by the vesting of title to the street within this block only; that as to the rest of the street the City should not at this time vest title.

"I therefore would respectfully recommend that the Board of Estimate and Apportionment adopt a resolution that title to all the lands and premises which are included within the area of the so-called Flatbush avenue extension, within the block bounded by DeKalb avenue, Fulton street, Hudson avenue and Macomber square be vested in The City of New York.

"Respectfully submitted for approval,

"MORTIMER J. BROWN,
Appraiser of Real Estate in Charge of Bureau.

"Approved:
(Signed)

"EDWARD M. GROUT, Comptroller."

At that meeting the Board adopted a resolution vesting title only to so much of that street included within the lines of the avenues as was within the area of the block bounded by DeKalb avenue, Fulton street and Hudson street, in the Borough of Brooklyn, which resolution reads as follows:

"Whereas, The Board of Estimate and Apportionment on the 11th day of December, 1903, adopted a resolution requesting the Corporation Counsel to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending of the approach to the Manhattan Bridge (Bridge No. 3), as laid out by the Board of Estimate and Apportionment on the 29th day of May, 1903, in the Borough of Brooklyn, City of New York; and

One-third of the awards for the buildings, namely, \$4,616.66, was placed upon the City at large under the provisions of section 980 of the Charter. The interest on the awards is not included in the above statement, as it was not assessed under the law prevailing at the time the proceedings were commenced. The street as opened has a width varying from 50 to 80 feet, distributed as follows:

For 852 feet a uniform width of 80 feet; for 452 feet an average width of 72.92 feet; for 642 feet an average width of 70.9 feet; for 1,770 feet a uniform width of 50 feet. A total of 3,716 feet, averaging 64 feet in width.

Sixty-nine parcels were acquired, of which fifteen contained buildings. In thirty cases awards were made for damage to building from the proposed regulating of the street, these awards averaging \$1,168.33. Ten parcels, having an aggregate area of 91,200.5 square feet, were considered to have been dedicated, and an award of \$1 was made in each case. This dedicated area would be equivalent in width to 24.5 feet for the entire length of the street, or to 38 per cent. of the street area.

Under a strict application of the rule of the Board, the City would assume one-half of the cost of acquiring the four feet by which the average width of the street exceeds 60 feet, or 3.15 per cent. of the expense, which is almost exactly the proportion of the expense which the Commission has already placed upon the City as one-third of the cost of the buildings. The street has for some years been regulated, graded and paved, and it was doubtless to permit of this improvement that title was vested in 1896. In view of the fact that the City at large is paying the interest on the awards and that the unusual length of time covered by the proceeding has not increased the assessment, except to the amount of the expenses of the Commission, but has deferred the necessity for payment until the property has enormously increased in value, I am unable to see any good reason for the assumption of any greater share of the expense than that given by a strict application of the rule, or, say, 3 per cent.; and in view of the fact above noted, that, owing to what appears to have been an unreasonable and unnecessary delay on the part of the Commission, these assessments will be due when the property is vastly more able to pay the assessment than would have been the case had they been levied promptly, I am not certain that even this measure of relief should be granted.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

VESTING TITLE TO FLATBUSH AVENUE EXTENSION, BROOKLYN.

The following report of the Chief Engineer and report from the Real Estate Bureau of the Finance Department were presented:

REPORT No. 3648.

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE,
February 15, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At a meeting of the Board of Estimate and Apportionment, held on February 9, 1906, a communication was presented by the President of the Borough of Brooklyn requesting the Board to adopt a resolution vesting title in The City of New York to such portions of the extension of Flatbush avenue, between Fulton and Nassau streets, as have not already been taken, and the matter was referred to the Engineer of the Board with instructions to report at the next meeting.

This question of taking title to the Flatbush avenue extension was brought up in March of last year, petitions for this action having been presented by the Flatbush Taxpayers' Association, the South Midwood Residents' Association, the Ocean Avenue Association and the Eastern Section Vanderveer Park Taxpayers' Association. In reporting upon these petitions your Engineer stated that he had consulted the Bureau of Street Openings of the Corporation Counsel's office, and had been advised that values in this neighborhood were rapidly increasing, that by the time the Commission finished its report as to awards they would probably be obliged to take additional testimony showing such increase, and that the additional sums which the City would be obliged to pay on account of such increase would probably be far more than the interest it would necessarily pay the owners for the period between the vesting of title and the payment of the awards. It was recommended that the matter be referred to the President of the Borough of Brooklyn for an expression of his views upon the subject. This action was taken by the Board on March 23, 1905, and on April 28 following a report was submitted by the Acting Borough President urging that title be vested in the City at once. The matter was laid over for a report from the Comptroller. On May 19 it was brought up and again laid over, and on June 9 a report was submitted from the Appraiser of Real Estate of the Department of Finance, recommending that title to that part of the street between Fulton street and DeKalb avenue be vested in the City within twenty days, or on June 29, 1905, a resolution to which effect was adopted by the Board. Petitions urging the action proposed by the present Borough President have been received from J. Lehrenkrauss & Son, Terence F. Curley, the City Savings Bank, J. Condon, Chas. M. Higgins and Judson G. Wall, the President of the Prospect Heights Citizens' Association. The object of the Borough President in wishing title taken is doubtless to permit of the removal of the existing buildings, to be immediately followed by the improvement of the street. The Rapid Transit Commission has laid out a route for a subway connecting the Manhattan Bridge with Fulton street, and the present plans, as explained to me by the Engineers of the Rapid Transit Commission, contemplate a two-track subway between the bridge and Willoughby street and a four-track subway between Willoughby and Fulton streets.

To pave this street from curb to curb at once, and to give the public and the abutting owners an opportunity to adjust themselves to the new conditions, and to then open the street for the purpose of building a subway, practically putting it out of use, would result in most unfortunate conditions, and would increase enormously the expense of construction of such a subway. On the other hand it is doubtful if bidders for this route would care to construct it immediately and have it lie idle until it would become available through the completion of the Manhattan Bridge. It would seem possible, however, to so improve the street as to permit of the subsequent construction of a subway with a minimum of inconvenience and expense. The street is 120 feet in width. If no encroachments or obstructions of any kind are permitted, sidewalks of 18 feet in width would probably be sufficient. This would leave a roadway 84 feet wide between curbs. If 25 feet of this roadway adjacent to each curb were to be paved and the remainder of the street, being a width of 34 feet, in its centre, were left unpaved, a double-track subway with the necessary retaining walls could be constructed without destroying the pavement and without very serious interruption to traffic and business. In this new street an admirable opportunity will be offered for the construction of galleries for pipes and mains, and of conduits for electric wires. Such galleries and conduits would be owned by the City, and space in them rented to companies holding franchises permitting the use of the streets for pipes, mains and electrical conductors.

It is assumed that the cost of grading and paving this street will be assessed upon the property benefited, but some months will be required for the removal of the existing buildings, during which time the necessary resolution of the Local Board could be adopted, and the plans for the improvement could be prepared by the Borough President.

I see no reason why the Board should not provide for the vesting of title in the immediate future, and such course is recommended as one which will save expense to the City.

The work of the Commissioners of Estimate and Assessment has not yet sufficiently advanced to permit an accurate statement as to the cost of the proceeding, but it is estimated that the awards will aggregate not less than \$3,000,000, of which \$500,000 has already been paid for the Montauk Theatre property. The Commissioners in this proceeding filed their oaths on July 12, 1904, and I am advised by the Assistant Corporation Counsel in charge of the Bureau of Street Openings that it is doubtful if the proceeding can be completed in less than eighteen months from the present time.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

"Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court, in proceedings to acquire title to said bridge approach, and the oaths of said Commissioners of Estimate and Assessment were duly filed, as required by law, on the 12th day of July, 1904; therefore be it

"Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 29th day of June, 1905, that title to each and every parcel of land lying within the lines of said approach, from DeKalb avenue to Fulton street, in the Borough of Brooklyn, City of New York, so required, shall be vested in The City of New York."

The President of the Borough of Brooklyn, at a meeting of the Board of Estimate and Apportionment held on February 16, 1906, although it was a financial calendar, brought the question up as to the vesting of the title and a hearing was held upon the same.

After hearing a number of citizens, all in favor of the proposition, the question of the vesting of title was laid over until the regular meeting on Friday, February 23, 1906.

A communication has been transmitted to the Corporation Counsel requesting information as to whether in his opinion the interest of the City would be prejudiced by the vesting of title in the City to this property and the removal of the buildings at this time, for the reason that the matter is now in condemnation proceedings and hearings are being held, and the fact that the buildings are in existence and can be visited and their value determined where there is a difference in value between the price put upon the property by the property-owners' experts and by the City's expert, and his reply is annexed hereto.

It is a fact that as soon as The City of New York desires property for public purposes the owners of the property permit the buildings to go to wreck, the Building Department and the Department of Health file violations against the same and the buildings depreciate in value, yet the expert for the property owners will go on the stand and testify that land and buildings that could have been had for almost the lot value are now of great value, and the only evidence the Commissioners have are the buildings left standing.

At the hearing on February 16, 1906, one of the gentlemen laid great stress on the fact that the City had been waiting twenty years for this extension of Flatbush avenue. He surely had in mind the extension of Flatbush avenue which the Hon. Seth Low, then Mayor of the City of Brooklyn, desired to put through. That street began at Flatbush avenue and Fulton street at the same point as the present extension of Flatbush avenue, but did not follow the lines of the new proposed Flatbush avenue. It was at that time the intention of extending it in a direct line through the blocks south of the present extension to the block bounded by Sands street, High street, Washington street and Adams street, which block was directly opposite the then terminal of the Brooklyn Bridge at Sands street (see map accompanying this report).

The new street is at least two blocks away on Sands street from the old proposed extension of Flatbush avenue, and to open up the new street at the present time, or until the Manhattan Bridge is sufficiently advanced to warrant the opening up of the new Flatbush avenue, would be, in my opinion, a waste of the City's money. Should the new street be opened and made fit for traffic, it would end at Nassau street, between Bridge and Jay streets; from Nassau street down it is an approach to the bridge, and is another proceeding entirely.

Nassau street is a 60-foot street. Sands street, a car-track street, is a 60-foot street and is at present very congested from where the new approach to the Manhattan Bridge crosses at Jay street to the Brooklyn Bridge. High street, also a car-track street, is a 50-foot street, and is also congested from the new extension down to Washington street. Adams street, also a car-track street, 60 feet wide, has also an elevated railroad, and is also congested. Jay street, a 60-foot street, from the new terminal to Sands street, is also a car-track street, and the present conditions are such that if the new street was opened for traffic, even a small amount of traffic passing over the new street would make such a congestion at the present bridge entrance that it would be almost impossible to straighten out.

The new street was not intended to be a feeder to the present (Brooklyn) bridge, as the gentlemen who favor the immediate opening of the street seem to think, but to be an outlet thoroughfare to the new Manhattan Bridge.

The immediate vesting of title would load on The City of New York an interest-bearing charge of from \$5,000 to \$7,000 a month, and until the bridge is completed a thoroughfare direct to New York would be of little use to vehicles or foot passengers, and the only use would be for the benefit of the railroads.

I do not recommend the vesting of title to this property at the present time, as I see no benefit that the City would derive therefrom, but rather a loss.

The question might be asked of the President of the Borough of Brooklyn as to whether he has sufficient funds to improve this street when title vests in the City and the buildings are removed therefrom, and if he has not, why should title be vested until the money is available, and even then there are so many streets that need immediate attention at the present time that the money could be spent with better results elsewhere.

The destruction of one hundred and seventy houses, including three large churches, along the lines of the above proposed streets, would compel the present occupants to find suitable accommodations in other locations, and the churches, as well as the tenants, must be given time to locate. Even if the City vested title it would not be able to remove all the buildings before at least one year from this date.

I therefore make the same recommendation in the matter of the vesting of title to Flatbush Avenue Extension, from DeKalb avenue to Nassau street, as was made on June 9, 1905, that is, the City's interests would be best served by not, at the present time, vesting the title in The City of New York. When the contracts have been let for the construction of the Manhattan Bridge and the iron work for both piers and anchorages are completed, and the contract for the approach from Nassau street to the anchorage has been let and the work commenced, it would then be sufficient time to vest the title to this Flatbush Avenue Extension from the points above named, and have the new street ready for traffic before the approach is finished. This bridge will not, in my opinion, be completed and ready for traffic inside of three years, and the City would be losing a large amount of money annually besides the loss of the taxes on the property, without any return in the way of rents, should title now be vested in the City.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

The following resolution was then adopted:

Whereas, The Board of Estimate and Apportionment on the 11th day of December, 1903, adopted a resolution requesting the Corporation Counsel to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending the approach to the Manhattan Bridge (Flatbush avenue extension), from Fulton street to Nassau street, as laid out by the Board of Estimate and Apportionment on the 29th day of May, 1903, in the Borough of Brooklyn, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court in proceedings to acquire title to said bridge approach, and the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law on the 12th day of July, 1904; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 1st day of December, 1906, the title to each and every piece or parcel of land lying within the lines of said approach to the Manhattan Bridge (Flatbush avenue extension), not heretofore vested, in the Borough of Brooklyn, City of New York, so required, shall be vested in The City of New York.

VESTING TITLE TO GRAND STREET EXTENSION, BROOKLYN.

The following report of the Chief Engineer was presented:
REPORT No. 3649.

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE,
February 15, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying communication from the President of the Borough of Brooklyn, dated February 5, 1906, was presented to the Board of Estimate and Apportionment at the meeting held on the 9th inst., and was referred to your Engineer with instructions to report at the next meeting.

The Borough President requests that title to the extension of Grand street, from Hooper street to the intersection of Havemeyer and South Fourth streets, be vested in the City on February 15, 1906. The principal reason stated for this request is that the prices of real estate are advancing rapidly and the City would save money by taking title without further delay. He has also advised me that he purposes initiating proceedings for the improvement of the street at an early date, and as several months will be required for the demolition of the buildings after title is vested, the necessary resolution of the Local Board can be adopted and forwarded for action by the Board of Estimate and Apportionment. The attention of the Board has already been called in connection with the proposed vesting of title to the Flatbush avenue extension to the opportunity which will be presented in the improvement of these new streets for the construction of galleries and subways for the accommodation of pipes, mains and electric wires, which could be built by the City, and space in which could be rented to the companies authorized to place such pipes, mains and wires in the public streets. It is true that this would be but a small unit in such a system, but it would offer an admirable opportunity for the beginning of such a system of subways and galleries to be owned by the City, and if they could be built before the street is paved there would be no necessity for giving permits to any of these corporations for the disturbance of the pavement when laid. I believe that the City would undoubtedly save expense by taking title to this street without further delay.

It is impossible to give any estimate of the total amount of the awards, but the cost of this opening, estimated by your Engineer a year ago, was \$378,000, and I do not think that the expense will greatly exceed this figure. The Commissioners in this proceeding filed their oaths on June 14, 1905, and are now taking testimony as to values, and I am advised by the Street Opening Bureau of the Corporation Counsel's office that the proceeding can scarcely be completed within one year.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

VESTING TITLE TO ROEBLING STREET, BROOKLYN.

The following report of the Chief Engineer was presented:

REPORT No. 3650.

BOARD OF ESTIMATE AND APPORTIONMENT,
CHIEF ENGINEER'S OFFICE,
February 15, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying communication from the President of the Borough of Brooklyn, dated February 5, 1906, was presented at the meeting of the Board of Estimate and Apportionment held on the 9th inst., and was referred to the Chief Engineer for a report.

In his communication the Borough President requests that title to the land necessary for the widening of Roebbling street, between South Fourth street and Union avenue, be vested in the City on February 15, 1906. He states "the immediate acquisition of this property and the completion of the improvement are, to my mind, desirable in the City's interest." No other specific reason is given for this request. I assume that it is the intention of the Borough President to provide for the removal of the structures now standing on the land to be taken for the widening of Roebbling street, and to physically improve the street, as widened, by the setting of new curb on the westerly side, the paving of the new portion of the roadway and the repaving of the part already paved. As in the case of the Flatbush avenue extension, and also the Grand street extension to the Williamsburg Bridge plaza, there has been a marked advance in real estate values during the last few months, and it is not improbable that a further advance will take place and that the Commissioners will be obliged to take new testimony, and the awards which the City will be compelled to pay will be much greater than the amount of interest which would accrue between the date of the vesting of title and the date of the payment of the awards. It would, in my judgment, be desirable to take title without further delay.

It is impossible for me to estimate with any degree of accuracy the total amount of the awards, but in the reports submitted to the Board about one year ago, when this widening was determined upon, it was estimated that the expense of the acquisition of the property would be \$291,000, and I think it quite probable that this sum would be exceeded. The Commissioners in this proceeding filed their oaths on June 14, 1905, and the Corporation Counsel advises me that they are to have their first meeting on February 15, 1906.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 3626.

BOARD OF ESTIMATE AND APPOINTMENT,
OFFICE OF THE CHIEF ENGINEER,
February 20, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith are transmitted thirteen resolutions adopted on June 1, 1905, by the Local Board of the Flatbush District, Borough of Brooklyn, and one resolution adopted on the same date at a joint meeting of the Flatbush and Bushwick Districts Local Boards, recommending changes in the map or plan of The City of New York by laying out Suydam place, Kane place, Columbus place, Prescott place, Bancroft place, Dewey place, Louis place, Russell place, Radde place, Ocean place, Gunther place, Pleasant place, Olive place and Sherlock place, between Atlantic avenue and Herkimer street.

Each of these proposed streets has a length of one block, the same being about 330 feet. All of them have been in use for many years; many of them have been graded, curbed, flagged and paved; and with few exceptions the property abutting on each has been almost wholly built up. It now appears that the streets, notwithstanding that they have been recognized as such by the borough authorities, have never been placed upon the map of the city, although they are shown on maps filed by owners of property. The Local Board action appears to have been taken upon the recommendation of the Topographical Bureau, which had been called upon to show a dedication of Dewey place between Herkimer street and Atlantic avenue. An investigation of the conditions necessary for the preparation of such a certificate brought out the facts already noted. The resolutions are reported as one for the reason that the cases are almost identical ones and the streets immediately adjoin one another.

The resolutions appear to be proper ones, and the approval of the changes is recommended after a public hearing.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by laying out Suydam place, Kane place, Columbus place, Prescott place, Bancroft place, Dewey place, Louis place, Russell place, Radde place, Ocean place, Gunther place, Pleasant place, Oliver place and Sherlock place, between Atlantic avenue and Herkimer street, in the Borough of Brooklyn, City of New York, more particularly described as follows:

Suydam Place.

The western line of Suydam place, from Atlantic avenue to Herkimer street, to be 195 feet easterly of and parallel to the eastern line of Rochester avenue, as the latter is laid down on the map of the City.

The eastern line of Suydam place to be 60 feet easterly from and parallel to the above described western line.

Kane Place.

The western line of Kane place, from Atlantic avenue to Herkimer street, to be 210 feet easterly and parallel to the eastern line of Buffalo avenue as the latter is laid down on the map of the City.

The eastern line of Kane place to be 60 feet easterly from and parallel to the above described western line.

Columbus Place.

The eastern line of Columbus place, from Atlantic avenue to Herkimer street, to be 210 feet westerly of and parallel to the western line of Ralph avenue, as the latter is laid down on the map of the City.

The western line of Columbus place to be 60 feet westerly from and parallel to the above described eastern line.

Prescott Place.

The western line of Prescott place, from Atlantic avenue to Herkimer street, to be 180 feet easterly of and parallel to the eastern line of Ralph avenue, as the latter is laid down on the map of the City.

The eastern line of Prescott place to be 55 feet easterly from and parallel to the above described western line.

Bancroft Place.

The eastern line of Bancroft place, from Atlantic avenue to Herkimer street, to be 180 feet westerly of and parallel to the western line of Howard avenue, as the latter is laid down on the map of the City.

The western line of Bancroft place to be 55 feet westerly from and parallel to the above described eastern line.

Dewey Place.

The western line of Dewey place, from Atlantic avenue to Herkimer street, to be 195 feet easterly of and parallel to the eastern line of Howard avenue, as the latter is laid down on the map of the City.

The eastern line of Dewey place to be 55 feet easterly from and parallel to the above described western line.

Louis Place.

The eastern line of Louis place, from Atlantic avenue to Herkimer street to be 195 feet westerly of and parallel to the western line of Saratoga avenue, as the latter is laid down on the map of the City.

The western line of Louis place to be 60 feet westerly from and parallel to the above described eastern line.

Russell Place.

The western line of Russell place, from Atlantic avenue to Herkimer street, to be 195 feet easterly of and parallel to the eastern line of Saratoga avenue, as the latter is laid down on the map of the City.

The eastern line of Russell place to be 60 feet easterly from and parallel to the above described western line.

Radde Place.

The eastern line of Radde place, from Atlantic avenue to Herkimer street, to be 195 feet westerly of and parallel to the western line of Hopkinson avenue as the latter is laid down on the map of the City.

The western line of Radde place to be 60 feet westerly from and parallel to the above described eastern line.

Ocean Place.

The western line of Ocean place, from Atlantic avenue to Herkimer street, to be 195 feet easterly of and parallel to the eastern line of Hopkinson avenue as the latter is laid down on the map of the City.

The eastern line of Ocean place to be 60 feet easterly from and parallel to the above described western line.

Gunther Place.

The eastern line of Gunther place, from Atlantic avenue to Herkimer street, to be 195 feet westerly of and parallel to the western line of Rockaway avenue as the latter is laid down on the map of the City.

The western line of Gunther place to be 60 feet westerly from and parallel to the above described eastern line.

Pleasant Place.

The western line of Pleasant place, from Atlantic avenue to Herkimer street to be 195 feet easterly of and parallel to the eastern line of Rockaway avenue as the latter is laid down on the map of the City.

The eastern line of Pleasant place to be 60 feet easterly from and parallel to the above described western line.

Oliver Place.

The eastern line of Oliver place, from Atlantic avenue to Herkimer street, to be 195 feet westerly of and parallel to the western line of Eastern Parkway extension as the latter is laid down on the map of the City.

The western line of Oliver place to be 60 feet westerly from and parallel to the above described eastern line.

Sherlock Place.

The western line of Sherlock place lying westerly of the old City line, between Atlantic avenue and Herkimer street, to be in direct prolongation of the western line of Sherlock place as laid down on the map of the City easterly of the old City line.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 23d day of March, 1906, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 23d day of March, 1906.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

LAYING OUT EUREKA PLACE, ETC., RICHMOND.

The following communication from the President of the Borough of Richmond and report of the Chief Engineer were presented:

THE PRESIDENT OF THE BOROUGH OF RICHMOND,
NEW BRIGHTON, N. Y., December 26, 1905.

Board of Estimate and Apportionment, City Hall, New York City:

GENTLEMEN—I send you herewith for adoption upon the map of The City of New York, map or plan showing layout, grades and changes of grade of Eureka place, Arents avenue, Chestnut street, as widened and extended from Bentley avenue to Church street, and Butler avenue, from Amboy avenue to Washington street, in the Fifth Ward, Borough of Richmond, City of New York, dated December 5, 1905.

Public hearing has been accorded to the lines and grades as noted on the map in question.

Yours truly,

GEORGE CROMWELL, President of the Borough.

REPORT No. 3608.

BOARD OF ESTIMATE AND APPOINTMENT,
OFFICE OF THE CHIEF ENGINEER,
February 20, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a communication from the President of the Borough of Richmond, dated December 26, 1905, requesting the approval of a map laying out and fixing grades for Eureka place, Arents avenue and Chestnut street, between Bentley avenue and Church street; and for Butler avenue, between Amboy avenue and Washington street, in the Fifth Ward.

The map presented for Eureka place, Arents avenue and Chestnut street shows one street having a width of 60 feet extending from Bentley avenue to Church street, and generally including within its lines a narrow street now in use and designated as Eureka place, extending from Bentley avenue to Main street; between Main street and Johnson avenue it includes what is known as Arents avenue; and from Lehigh avenue to Church street it includes an old street designated as Chestnut street. This proposed new street is located north of and is to be approximately parallel with Amboy avenue, in the Tottenville Section. The distance from Amboy avenue, however, is irregular, ranging from about 490 feet to about 950 feet. None of the streets in the vicinity has yet been placed upon the map of the city, although there are a large number in use, many of which have been improved. The distance between these streets at the point where they intersect the avenue now proposed ranges from 150 to 420 feet.

One of these intersecting streets is Butler avenue, which it is now proposed to lay out between Amboy avenue and Washington street, crossing Eureka place approximately at right angles. This street is to have a width of 50 feet, and is intended to include roads in present use extending through nearly the entire length affected; there are a number of houses on the abutting property.

There has not been furnished any information as to the further layout of this section, making it impossible to give an intelligent opinion as to the effect of the streets now proposed upon what will be the completed map of the locality. It is evident, however, that the lines of many of the intersecting streets as now in use will have to be materially modified if blocks of approximately uniform or adequate width are to be provided. There are a large number of buildings within and encroaching upon the lines of both the proposed streets, but by reason of the extensive improvements already made in this locality it will not be possible to avoid taking many buildings under any street system which may be proposed. The narrow width of 50 feet proposed for Butler avenue is evidently to avoid several houses.

I would recommend that a public hearing be given for the purpose of bringing out additional facts as to the desirability of the layout.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to lay out on the map or plan of The City of New York, Eureka place, Arents avenue, Chestnut street, as widened and extended from Bentley avenue to Church street, and Butler avenue, from Amboy avenue to Washington street, Fifth Ward, in the Borough of Richmond, City of New York, in accordance with a map or plan submitted by the President of the Borough of Richmond, dated December 5, 1905.

Resolved, That this Board consider the proposed layout at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 23d day of March, 1906, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed layout will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 23d day of March, 1906.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

NEW YORK CENTRAL RAILROAD IMPROVEMENTS.

The following communication and report of the Chief Engineer were presented:

THE NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY,
GRAND CENTRAL STATION,
NEW YORK, February 6, 1906.

Mr. JOSEPH HAAG, Secretary to the Board of Estimate and Apportionment, City Hall, New York City:

DEAR SIR—I inclose herewith certain plans which have been approved by Mr. Frank J. Goodwin, Deputy Commissioner of Water Supply, Gas and Electricity, together with Mr. Goodwin's letter, in order that said plans may be approved by the Board of Estimate and Apportionment. You will observe that these plans have also been approved by the Chief Engineer of the Borough of The Bronx and by the Chief Engineer of the Board of Rapid Transit Commissioners. The approval in addition by the Board of Estimate and Apportionment is required by the last clause of section 6 of chapter 424 of the Laws of 1903, authorizing the change of route and depression of tracks of the Port Morris Branch of this railroad. The main plan is designated No. 685, and relates to the method of carrying the electric power ducts of the elevated railroad on Westchester avenue, leased by the Interborough Rapid Transit Company, under the bridge carrying Westchester avenue over the railroad of this company at that point.

Will you kindly put this matter upon the calendar for February 9, 1906, and bring the matter to the attention of the Board on that day?

Yours very truly,

ALBERT H. HARRIS, General Attorney.

REPORT No. 3596.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 9, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—With the accompanying communication addressed to the Secretary of the Board of Estimate and Apportionment by Mr. Albert H. Harris, general attorney of the New York Central and Hudson River Railroad Company, under date of February 6, 1906, are submitted several plans showing the proposed method of carrying ducts for electric wires across the bridge on Westchester avenue over the tracks of the Port Morris Branch of the New York Central and Hudson River Railroad. These plans have already been approved by the Department of Water Supply, Gas and Electricity, and are submitted to the Board of Estimate and Apportionment for its approval, in accordance with the provisions of section 6 of chapter 424 of the Laws of 1903. The act of reference is that which provided for the abolition of grade crossings on the line of the Port Morris Branch Railroad, the change of its location along St. Mary's Park, and for the tunneling under said park and the relinquishment to the City of the present roadway bordering the park. Section 6 provides that the City shall, after approval of the plans, afford the railroad company such reasonable facilities as may be necessary to carry out the improvement, and further provides that "All sewers, water pipes, gas pipes, electric lights, wires, ducts or conduits which may be in, under or over any streets or avenues which cross the said Port Morris Railroad shall be changed or relocated in such manner and to such an extent as may be necessary or reasonably required to carry into effect the provisions of this act and any plans or profiles and the provisions of any instrument authorized by this act; but all such changes and relocations shall be made in a manner approved by the Board of Estimate and Apportionment."

One of the three plans bears the approval of the Chief Engineer of the Rapid Transit Commission and the Chief Engineer of the Interborough Rapid Transit Company, one is approved by the Chief Engineer of the Rapid Transit Commission and the Chief Engineer of the Borough of The Bronx, while the third is approved by the Division Engineer of the Rapid Transit Commission and the Chief Engineer of the Borough of The Bronx. All three of these plans show practically the same thing, although drawn to different scale and the details being arranged in a different manner.

There can be no possible objection to the arrangement, and it is recommended that the Board approve of these plans in accordance with the provisions of the act referred to, a resolution to that effect being herewith submitted.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment hereby approves the plan showing proposed method of carrying ducts on the bridge crossing the Port Morris Branch of the New York Central and Hudson River Railroad at Westchester avenue, said plan having been approved by the Chief Engineer of the Borough of The Bronx on December 21, 1905, and by the Chief Engineer of the Rapid Transit Subway Construction Company on December 22, 1905, this approval being given in accordance with the provisions of section 6, chapter 424 of the Laws of 1903.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following resolution of the Local Board of Washington Heights, Borough of Manhattan, and report of the Chief Engineer were presented:

In the Local Board of the Washington Heights District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Washington Heights District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

Acquire title to West One Hundred and Seventy-seventh street, from Broadway to Riverside drive; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Washington Heights District on the 28th day of November, 1905, all the members present voting in favor thereof.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 3, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on November 28, 1905, initiating proceedings for acquiring title to West One Hundred and Seventy-seventh street, between Broadway and Riverside drive.

This resolution affects a length of three blocks of West One Hundred and Seventy-seventh street, which has been laid out upon the map of the city to have a width of 60 feet. The street includes the lines of Depot lane, a narrow road which has been macadamized and used for many years. The street has a very steep grade at its westerly end, to overcome which, in part, its length has been extended by giving it a winding course down the steep slope to connect with the Riverside drive. There are several buildings along the line of the street, and it is possible that one or more of them encroach upon its lines. Explicit information in this particular, however, is lacking.

Approval of the resolution is recommended, the cost of the proceeding to be assessed upon the property benefited.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the opening and extending of West One Hundred and Seventy-seventh street, from Broadway to Riverside drive, in the Borough of Manhattan, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending West One Hundred and Seventy-seventh street, from Broadway to Riverside drive, in the Borough of Manhattan, City of New York.

Resolved, That the cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 3, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on November 28, 1905, initiating proceedings for acquiring title to West One Hundred and Seventy-seventh street, between Amsterdam and St. Nicholas avenues.

West One Hundred and Seventy-seventh street, between the limits named in the resolution, the same comprising two blocks, was placed upon the map of the city on March 31, 1905. The street has a width of 60 feet and is not in use at the present time. Between St. Nicholas and Audubon avenues it crosses lands occupied by the New York Juvenile Asylum, and includes portions of several of the buildings.

There seems to be no reason to prevent the approval of the resolution, and such action is recommended, the cost of the proceeding to be assessed upon the property benefited.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, deems it for the public interest that the title to the lands and premises required for the

opening and extending of West One Hundred and Seventy-seventh street, from Amsterdam avenue to St. Nicholas avenue, as laid out on the map by resolution adopted March 31, 1905, in the Borough of Manhattan, City of New York, should be acquired by The City of New York.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a special term of the Supreme Court, for the appointment of Commissioners of Estimate and Assessment and to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending West One Hundred and Seventy-seventh street, from Amsterdam avenue to St. Nicholas avenue, as laid out on the map by resolution adopted March 31, 1905, in the Borough of Manhattan, City of New York.

Resolved, That the cost and expense of said proceedings shall be assessed upon the property deemed to be benefited thereby.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 20, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on January 28, 1904, initiating proceedings for acquiring title to Fisk avenue, between Woodside avenue and Grand street, in the Second Ward.

This resolution affects the entire length of Fisk avenue as laid out upon the map of the City on November 13, 1903, the same being a little over a mile. At the time when the resolution was adopted the street had a width of 80 feet from Grand street to Thomson avenue, while between Thomson and Woodside avenues the width was 50 feet. From the papers presented with the resolution it was the evident intention to provide for a street having a width of 80 feet through the latter section, for which reason a report upon the resolution was deferred until after the map could be changed to secure this width. The change has now been made and the street has a width of 80 feet through its entire length. Between Mueller street and Woodside avenue an old road is in use, which has been curbed and paved with granite block. The water main has been provided through a portion of the length, and the street is lit partly by arc lamps and partly by gas. Between Mueller street and Grand street Fisk avenue is not in use, nor are its lines marked in any way upon the ground. There are several buildings along the street which encroach upon the lines as laid out. The Topographical Bureau has submitted a map showing the area deemed to be already dedicated to public use. This indicates that between Woodside avenue and Mueller street the dedicated area has a width ranging from 48 to 61 feet. If this dedicated area were considered as extending through the entire length of the street to be opened it would correspond with an average width of about 44 feet. Treating this proceeding as the widening of a street having a width of 44 feet to one having a width of 80 feet, relief from assessment would be given to the property to be benefited by the improvement, under the rule of July 25, 1902, to the extent of 28 per cent.

There is now a grade crossing in use over the tracks of the Long Island Railroad just south of Thomson avenue. After giving the Railroad Company a hearing in this matter I would recommend the approval of the resolution, and that 28 per cent. of the costs be assumed by the City at large.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 18, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on November 28, 1905, initiating proceedings for the construction of a sewer in Broadway, west side, between West One Hundred and Seventy-seventh and West One Hundred and Eighty-first streets.

Title to the four blocks of Broadway covered by this resolution has been legally acquired. The street has been graded, curbed and flagged. The space between the rails occupying the street has been paved with granite block, while the remainder of the street has been macadamized. There are two houses upon the abutting property.

The outlet sewer has been built, and the approval of the resolution is recommended, with the understanding, however, that before the work of construction is begun, a map will be presented providing for the incorporation of the sewer upon the drainage map of the City.

The work to be done comprises the following:

1,321 linear feet 3-foot 6-inch by 2-foot 4-inch brick sewer.

4 receiving basins.

The estimated cost of construction is \$21,100 and the assessed valuation of the property to be benefited is \$1,163,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"Construct sewer in Broadway, west side, between One Hundred and Seventy-seventh and One Hundred and Eighty-first streets,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$21,100, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$1,163,000, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

January 18, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on September 26, 1905, initiating proceedings for laying a granite block pavement on West One Hundred and Forty-fourth street, between Broadway and a point 271.44 feet westerly therefrom.

Title to West One Hundred and Forty-fourth street has been legally acquired, and the street has been graded, curbed and flagged. The grade of the street at a point 271.44 feet west of Broadway has been changed to meet the grade of the Riverside drive extension. The street is at present in very bad condition, and work has been begun upon the erection of a number of buildings.

All the subsurface improvements have been provided, and there seems to be no reason to prevent the approval of the resolution, such action being recommended.

The work to be done comprises the following:

950 square yards granite block pavement.

580 linear feet new and old curbing.
The estimated cost of construction is \$3,900, and the assessed valuation of the property to be benefited is \$92,000.

January 19, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on September 12, 1905, initiating proceedings for grading, curbing and flagging Post avenue, between Dyckman street and Tenth avenue.

This resolution affects the entire length of Post avenue north of Dyckman street, the same comprising four long blocks. Title to the street has been legally acquired. Between Dyckman street and Academy street the land is several feet below the established grade, but the sewer has been constructed through this portion of its length. North of Academy street the land is generally very much above grade, and the work will be largely through rock. The abutting property is unimproved. All of the intersecting streets have been graded, and there will undoubtedly be activity in the vicinity in the immediate future by reason of the construction of the subway along Naegle avenue.

Approval of the resolution is recommended, the work to be done comprising the following:

61,780 cubic yards of earth and rock excavation.

3,530 linear feet of curbing.

14,950 square feet of flagging.

The estimated cost of construction is \$74,300, and the assessed valuation of the property to be benefited is \$198,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

A copy of a resolution of the Local Board of the Washington Heights District, duly adopted by said Board on the 12th day of September, 1905, and approved by the President of the Borough of Manhattan, on the 13th day of September, 1905, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"Regulating and grading, curbing and flagging Post avenue, between Dyckman street and Tenth avenue, placing thereon necessary bridge stone, guard rail and drain pipe and constructing therein necessary masonry retaining wall with concrete foundation,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$74,300, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within

the probable area of assessment, to wit: the sum of \$198,000, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 2, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on December 29, 1904, initiating proceedings for the construction of a sewer in New York avenue, between Beverley road and Clarendon road.

An unshaped wagon path is in use along the line of the two blocks affected by the resolution, and about a half dozen houses have been erected upon the abutting property. Title to the block between Canarsie lane and Avenue C has been vested in the City under opening proceedings, and for the purpose of carrying out other improvements. Proceedings are now in progress for acquiring title to the section of the street between Church avenue and Canarsie lane, having been authorized on June 12, 1903. The oaths of the Commissioners of Estimate and Assessment were filed on December 11 following.

The outlet sewer has been provided, and there seems to be no reason to prevent the approval of the resolution, such action being recommended.

The work to be done comprises the following:

55 linear feet of 15-inch pipe sewer.

600 linear feet of 12-inch pipe sewer.

7 manholes.

1 receiving basin.

The estimated cost of construction is \$3,200, and the assessed valuation of the property to be benefited is \$26,400.

I would recommend that title to the portion of New York avenue, between Canarsie lane and the northerly side of Beverley road, be vested in the City on March 15, 1906.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment on the 12th day of June, 1903, adopted a resolution requesting the Corporation Counsel to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending New York avenue, from Church avenue to Canarsie lane, in the Borough of Brooklyn, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court, in proceedings to acquire title to said New York avenue, and the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law on the 11th day of December, 1903; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 15th day of March, 1906, the title to each and every piece or parcel of land lying within the lines of said New York avenue, between Canarsie lane and the northerly side of Beverley road, in the Borough of Brooklyn, City of New York, so required, shall be vested in The City of New York.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Flatbush District, duly adopted by said Board on the 29th day of December, 1904, and approved by the President of the Borough of Brooklyn on the 19th day of January, 1905, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To construct a sewer in New York avenue, between Beverley road and Clarendon road, in the Borough of Brooklyn,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$3,200, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$26,400, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on December 28, 1904, initiating proceedings for grading, curbing and flagging West Fifth street, between Neptune avenue and Sheepshead Bay road.

Title to this block of West Fifth street has been legally acquired. The roadway is in use and is partly occupied by trolley tracks, the space between the tracks having been paved. The street is approximately at grade and the abutting property is largely improved.

I see no reason why this resolution should not be approved, and such action is recommended, the work to be done comprising the following:

1,000 cubic yards of grading.

1,580 linear feet of curbing.

7,900 square feet of cement walk.

The estimated cost of construction is \$3,300, and the assessed valuation of the property to be benefited is \$22,300.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 2, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on December 28, 1904, initiating proceedings for grading, curbing and flagging Thirty-eighth street, between Third and Fifth avenues.

Title to the block between Fourth and Fifth avenues has been legally acquired, and a certificate is presented to show that the remaining block has been dedicated to public use. The street is occupied by the elevated structure of the Brooklyn Rapid Transit Railroad, and adjoining it on the south are the deep cut and tunnel of what was formerly the South Brooklyn Railroad. An unshaped roadway is in use, and a few houses have been erected on the northerly side of the street along each block. There is presented with the resolution a statement signed by the vice-president and general manager of the railroad company indicating the intention of the company to construct a retaining wall on the southerly side of the street, which will be required before the improvement can be carried out.

The evidences of dedication are, in my judgment, satisfactory, and the approval of the resolution is recommended, the work to be done comprising the following:

6,000 cubic yards of grading.

2,960 linear feet of curbing.

14,800 square feet of cement walk.

The estimated cost of construction is \$8,700, and the assessed valuation of the property to be benefited is \$98,800.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 2, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bushwick District, Borough of Brooklyn, adopted on January 30, 1905, initiating proceedings for grading Rockaway avenue, between Hegeman and Stanley avenues, and for curbing and flagging the same street, between Hegeman and Vienna avenues.

The grading improvement affects a length of two (2) blocks of Rockaway avenue, title to which has been legally acquired. It is proposed to omit the flagging and curbing from the southerly block on the recommendation of the Chief Engineer of the Bureau of Highways, who states that there is considerable filling required through this section. The street is in use at the present time, and the roadway is partly occupied by trolley tracks. A few buildings have been erected upon the abutting property, the same including a large car depot.

The estimate of work to be done does not indicate that an excessive amount of filling will be required, and, in my judgment, the curbing and flagging might have been continued through the southerly block, as requested in the petition attached to the resolution. This, however, can be provided at a subsequent date, and the approval of the resolution as presented is recommended.

The work to be done comprises the following:

3,400 cubic yards grading.

1,276 linear feet curbing.

5,200 square feet cement walk.

The estimated cost of construction is \$3,900, and the assessed valuation of the property to be benefited is \$37,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Bushwick District, duly adopted by said Board on the 30th day of January, 1905, and approved by the President of the Borough of Brooklyn on the 16th day of February 1905, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To regulate and grade Rockaway avenue, from Hegeman avenue to Stanley avenue, and to set curb and lay sidewalks on Rockaway avenue, between Hegeman avenue and Vienna avenue, in the Borough of Brooklyn,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$3,900, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$37,000, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 2, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on December 28, 1904, initiating proceedings for grading and curbing West Sixteenth street, between Mermaid and Neptune avenues.

Title to this block of West Sixteenth street has been legally acquired. A rough wagon path is in use, the same being very much below the established grade, resulting in the formation of large pools of stagnant water. The abutting property is very largely improved, and the work proposed will undoubtedly remedy the objectionable sanitary conditions now existing.

Approval of the resolution is recommended, the work to be done comprising the following:

5,000 cubic yards grading.

1,560 linear feet curbing.

The estimated cost of construction is \$3,600, and the assessed valuation of the property to be benefited is \$62,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 28th day of December, 1904, and approved by the President of the Borough of Brooklyn on the 16th day of February, 1905, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To regulate, grade and curb West Sixteenth (16th) street, from Mermaid avenue to Neptune avenue, in the Borough of Brooklyn,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$3,600, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$62,000, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

GRADING FLATLANDS AVENUE, BROOKLYN.

The following resolution of the Local Board of Flatbush, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Flatbush District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Brooklyn; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Flatbush District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To regulate, grade, curb and lay cement sidewalks on Flatlands avenue, from Mill lane to Lotts lane, in the Borough of Brooklyn; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Flatbush District on the 1st day of March, 1905. Commissioner Brackenridge and Aldermen Wentz and Wirth voting in favor thereof.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 2, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on March 1, 1905, initiating proceedings for grading, curbing and flagging Flatlands avenue, between Mill lane and Lotts lane.

Title to Flatlands avenue, between the limits named has been legally acquired. Between Lotts lane and Flatbush avenue a narrow country road is in use, and a few houses have been erected upon the abutting property. East of Flatbush avenue the street is not in use, nor are its lines marked upon the ground. There seems to be no reason why the improvement should not be carried out, and the approval of the resolution is recommended, the work to be done comprising the following:

2,600 cubic yards grading.

2,340 linear feet curbing.

11,000 square feet cement walk.

The estimated cost of construction is \$5,900, and the assessed valuation of the property to be benefited is \$35,800.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 2, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bushwick District, Borough of Brooklyn, adopted on June 29, 1905, initiating proceedings for the construction of receiving basins at the following locations on New Jersey avenue:

Southwest corner of Highland Boulevard.

Northwest corner of Evergreen place.

Northwest corner of Jamaica avenue.

These basins are required for the removal of drainage from New Jersey avenue and intersecting streets. They are asked for at this time in connection with a surface improvement on New Jersey avenue, a resolution initiating proceedings for which has been adopted by the Local Board.

There seems to be no reason why this resolution should not be approved, and such action is recommended, the estimated cost of construction being \$600, and the assessed valuation of the property to be benefited is \$17,400.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Bushwick District, duly adopted by said Board on the 29th day of June, 1905, and approved by the President of the Borough of Brooklyn, on the 18th day of July, 1905, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That the Local Board of the Bushwick District, Borough of Brooklyn, this 29th day of June, 1905, hereby initiates proceedings to construct sewer-basins on New Jersey avenue, at the southwest corner of Highland boulevard, at the northwest corner of Evergreen place, and at the northwest corner of Jamaica avenue,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$600, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$17,400, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 2, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on September 27, 1905, initiating proceedings for the construction of a sewer in Forty-second street, between Seventh and Eighth avenues.

Title to this block of Forty-second street has been acquired under a deed of cession. The street has been approximately graded, and several buildings have recently been erected upon the abutting property on the northerly side. The petitioner for the improvement appears to be the owner of a large portion of the land on the southerly side of the block, and he states that it is to be entirely built up during the coming spring.

The outlet has been provided and the approval of the resolution is recommended, the work to be done comprising the following:

780 linear feet of 12-inch pipe sewer.

2 sewer basins.

The estimated cost of construction is \$3,300, and the assessed valuation of the property to be benefited is \$23,550.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 16, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on August 3, 1905, initiating proceedings for the construction of sewers in the following streets:

East One Hundred and Seventieth street, between the existing sewer west of Wythe place and the Grand Boulevard and Concourse.

Grand Boulevard and Concourse, west side, between East One Hundred and Sixty-seventh and East One Hundred and Seventy-second streets.

Across the Grand Boulevard and Concourse on the north side of Belmont street. Grand Boulevard and Concourse, east side, between Belmont street and East One Hundred and Seventy-third street.

Grand Boulevard and Concourse, west side, between Morris avenue and East One Hundred and Seventy-sixth street.

Grand Boulevard and Concourse, east side, between Eastburn avenue and Weeks avenue.

One Hundred and Seventieth street is not in use at the present time, and the sewer proposed is required as an outlet for a portion of the line of sewers desired for the Concourse.

The resolution makes provision for sewers through eleven blocks of the Concourse, which is now being regulated and graded, the work being well advanced through most of the section affected. These sewers should be built before the macadam pavement, which has also been authorized, is laid.

Under a separate resolution adopted by the Local Board on the same date, provision has been made for a line of sewers along the easterly side of the street, between East One Hundred and Sixty-seventh street and East One Hundred and Seventy-second street.

The outlet sewers have been provided, and the approval of the resolution is recommended, the work to be done comprising the following:

- 110 linear feet of 18-inch pipe sewer.
- 905 linear feet of 15-inch pipe sewer.
- 2,750 linear feet of 12-inch pipe sewer.
- 41 manholes.
- 4 receiving basins.

The estimated cost of construction is \$33,000, and the assessed valuation for 1905 of the property benefited is \$64,183.

I believe that there can be no question as to real estate values having advanced sufficiently during the past year to assure a sufficient valuation to permit of the collection of the entire assessment for the improvement.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 16, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on November 16, 1905, initiating proceedings for the construction of a sewer in the Grand Boulevard and Concourse, west side, between East One Hundred and Eighty-first and East One Hundred and Eighty-third streets.

Title to the Concourse has been legally acquired, and a grading and macadamizing improvement is now being carried out, work having recently been begun in this section. The street here includes the lines of what was formerly Anthony avenue, along which there are very few houses. The sewer on the easterly side of the street has already been authorized.

The outlet sewer has been built, and the approval of the resolution is recommended, the work to be done comprising the following:

- 30 linear feet of 18-inch pipe sewer.
- 628 linear feet of 15-inch pipe sewer.
- 525 linear feet of 12-inch pipe sewer.
- 12 manholes.
- 2 receiving basins.

The estimated cost of construction is \$14,500, and the assessed valuation of the property to be benefited is \$36,910.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT NO. 3506.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 17, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on September 30, 1905, initiating proceedings for the construction of the following sewers:

Grand Boulevard and Concourse, both sides, between East Two Hundred and Fourth street and Van Cortlandt avenue.

East Two Hundred and Sixth street, between the Mosholu Parkway, South, and the Grand Boulevard and Concourse.

Van Cortlandt avenue, south side, between Mosholu Parkway, South, and the Grand Boulevard and Concourse.

Title to these three streets has been legally acquired. A grading and macadamizing improvement has been authorized for the Concourse and the work is now being carried out. There are several frame houses along the line of the street.

The grading of East Two Hundred and Sixth street is now in progress, and the abutting property has been improved by the erection of several houses. There is an old road in use along the line of Van Cortlandt avenue, but the abutting property is almost wholly unimproved.

The Van Cortlandt avenue sewer is required as an outlet for a portion of the sewers proposed for the Concourse.

The sewer in East Two Hundred and Sixth street will have an outlet partly in the sewer to be built in the Concourse and partly in one already constructed in Mosholu Parkway, South.

The remaining outlets have been provided, and the approval of the resolution is recommended, the work to be done comprising the following:

- 7 linear feet of 18-inch pipe sewer.
- 915 linear feet of 15-inch pipe sewer.
- 1,910 linear feet of 12-inch pipe sewer.

29 manholes.
3 receiving basins.
The estimated cost of construction is \$31,000, and the assessed valuation of the property to be benefited is \$107,322.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

REPORT No. 3507.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 17, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on September 7, 1905, initiating proceedings for the construction of sewers in the following streets:

East One Hundred and Sixty-fifth street, between Jerome avenue and the Grand Boulevard and Concourse.

Grand Boulevard and Concourse, west side, between East One Hundred and Sixty-fifth street and a point about 90 feet south of the centre of McClellan street.

Grand Boulevard and Concourse, east side, between East One Hundred and Sixty-fifth and East One Hundred and Sixty-sixth streets.

Title to East One Hundred and Sixty-fifth street and to the Concourse has been legally acquired. The sewer proposed for the former street has a length of five blocks, and is required as an outlet for a portion of the proposed Concourse sewer. The street has been graded, curbed and flagged through the four westerly blocks, and a few houses have been built upon the abutting property. The proposed Concourse sewers include a total length of about three blocks. The grading of the street is in progress, and it is desired to construct the sewer before the macadam pavement is laid.

The remaining outlets have been provided, and the approval of the resolution is recommended, the work to be done comprising the following:

265 linear feet, 42-inch by 56-inch brick sewer.
303 linear feet 38-inch by 50-inch brick sewer.
298 linear feet 36-inch brick sewer.
704 linear feet 30-inch brick sewer.
823 linear feet 18-inch pipe sewer.
351 linear feet 15-inch pipe sewer.
295 linear feet 12-inch pipe sewer.
27 manholes.
12 receiving basins.

The estimated cost of construction is \$32,000, and the assessed valuation of the property to be benefited is \$680,400.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Morrisania District, duly adopted by said Board on the 7th day of September, 1905, and approved by the President of the Borough of The Bronx, on the 15th day of September, 1905, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"For constructing a sewer and appurtenances in East One Hundred and Sixty-fifth street, between Jerome avenue and the east side of Grand Boulevard and Concourse, and in the Grand Boulevard and Concourse (west side), between East One Hundred and Sixty-fifth street and a point about 90 feet south of the center line of McClellan street, and in the Grand Boulevard and Concourse (east side), between East One Hundred and Sixty-fifth street and East One Hundred and Sixty-sixth street, in the Borough of The Bronx, City of New York."

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$32,000, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$680,400, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

January 22, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on May 24, 1905, initiating proceedings for grading, curbing and flagging Seventh avenue, between Grand and Woolsey avenues, in the First Ward.

Title to the three blocks of Seventh avenue affected by the resolution has been legally acquired. The roadway is in use, except at the extreme northerly end, where the street meets Woolsey avenue, and the abutting property has been partly improved. On this date a resolution providing for the construction of a sewer through the two southerly blocks has been favorably reported.

I see no reason to prevent carrying out the grading improvement, and the approval of the resolution is recommended, the work to be done comprising the following:

7,000 cubic yards excavation.
4,400 linear feet curbing.
22,400 square feet flagging.

The estimated cost of construction is \$17,800, and the assessed valuation of the property to be benefited is \$141,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

DRAINAGE MAP OF SEWERAGE DISTRICT No. 33-I-4.

The following communication from the President of the Borough of The Bronx, and report of the Chief Engineer were presented:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,
NEW YORK, August 4, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman Board of Estimate and Apportionment:

DEAR SIR—I forward herewith for the approval of the Board of Estimate and Apportionment black print of modified plan of drainage, showing location, sizes and grades of sewers in Sewerage District 33-I-4. The changes of the drainage system are made with a view of relieving the drainage area which has its outlet through East One Hundred and Sixty-second street into Brook avenue sewer, and which drains a very large portion of the Melrose section, by providing a relieving sewer beginning at East One Hundred and Sixty-second street and Melrose avenue, running thence along westerly side of Melrose avenue, without interfering with the existing sewer, to East One Hundred and Sixty-third street; thence along East One Hundred and Sixty-third street in place of the existing sewer to Courtlandt avenue; thence northerly along Courtlandt avenue to the yards of the New York Central and Hudson River Railroad and across these yards and other property of said railroad to Brook avenue.

It will be necessary to secure an easement from the railroad company for the construction of this sewer, but the first proceeding is the adoption of the changed sewerage district plan, and there are other changes in the system shown on this plan which are merely increases in sizes of the sewers. Some of these sewers at times during severe storms have shown signs of inadequacy, and this condition should be remedied as soon as possible.

Yours truly,
LOUIS F. HOFFEN,
President of the Borough of The Bronx.

REPORT No. 3547.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 29, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a communication from the President of the Borough of The Bronx, bearing date of August 4, 1905, requesting the approval of a modification of the drainage map of Sewerage District No. 33-I-4.

The changes proposed consist of an increased size for the trunk sewers and a few of the laterals in the district affected. All or very nearly all of the sewers have been built and the streets have been improved. As now laid out, the drainage of the district is carried to the Brook avenue sewer through a 3-foot 6-inch sewer along the line of East One Hundred and Sixty-second street. Among the changes proposed and the most radical one is the provision of an additional trunk sewer having a diameter of 3 feet 9 inches, relieving the East One Hundred and Sixty-second street sewer at Melrose avenue and extending along Melrose avenue, East One Hundred and Sixty-third street, Courtlandt avenue and the yards of the New York Central and Hudson River Railroad Company, meeting the Brook avenue sewer just south of East One Hundred and Sixty-fourth street. The Engineer in charge of the Sewer Bureau for the borough states that the present sewers have been shown to be inadequate. The possibility of relieving the district by paralleling the sewers, instead of duplicating existing ones as is here proposed, has been considered, but the present plan has been found the most economical one.

Approval of the map is recommended.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of the Greater New York Charter, hereby approves the map presented by the President of the Borough of The Bronx, entitled "Modified plan of drainage, showing location, sizes and grades of sewers in Sewerage District No. 33-I-4," and dated August 3, 1905.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

DRAINAGE PLAN FOR SEWERAGE DISTRICT 33-H-4, THE BRONX.

The following communication from the President of the Borough of The Bronx and report of the Chief Engineer were presented:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,
NEW YORK, July 14, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman Board of Estimate and Apportionment:

DEAR SIR—I transmit herewith for the approval of the Board of Estimate and Apportionment black print of modified plan of drainage, showing locations, sizes and grades of sewers in Sewerage District No. 33-H-4. The area included on such plan has its outlet into the Webster avenue sewer at East One Hundred and Sixty-ninth street, and the modification of the drainage system as shown on the black print herewith transmitted is proposed to avoid any further cause for complaint in connection with the One Hundred and Sixty-ninth street sewer during excessive heavy rainfalls. An investigation of the whole watershed draining into the One Hundred and Sixty-ninth street sewer shows that in other portions of said watershed, as well as in East One Hundred and Sixty-ninth street, between Webster and Third avenues, the sewer should be of larger capacities than as shown on the filed sewerage plans.

Yours truly,
LOUIS F. HOFFEN,
President of the Borough of The Bronx.

REPORT No. 3548.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 29, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a communication from the President of the Borough of The Bronx, bearing date of July 14, 1905, requesting the approval of a modification of the drainage map of Sewerage District 33-H-4.

The change proposed consists in the substitution of an increased size for the trunk and some of the lateral sewers in the district affected. The drainage of this district is carried into Webster avenue from East One Hundred and Sixty-ninth street. The trunk sewer in use at the present time has a diameter of 30 inches, and it is proposed to increase the same to diameters ranging from 4 feet 9 inches to 5 feet 3 inches. I am advised that the low section in the vicinity of Washington avenue and East One Hundred and Sixty-ninth street is subjected to serious damage during every period of heavy rainfall, the sewer now in use being totally inadequate. The revision of plan has been further extended to include other streets having an outlet through the East One Hundred and Sixty-ninth street sewer, the changes in each case being

based on carrying a run-off such as has been found for other sewerage districts in the vicinity after the tributary area has been compactly built up.

Approval of this map is recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of the Greater New York Charter, hereby approves the map presented by the President of the Borough of The Bronx, entitled "Modified plan of drainage, showing location, sizes and grades of sewers, in Sewerage District No. 33-H-4," and dated July 7, 1905.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 22, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on May 24, 1905, initiating proceedings for grading, curbing and flagging Sixth avenue, between Vandeventer and Flushing avenues, in the First Ward.

Proceedings for acquiring title to Sixth avenue, between Jackson avenue and Wolcott avenue, were authorized on September 14, 1900, and the oaths of the Commissioners of Estimate and Assessment were filed on November 14, 1903. Title to several sections of the street has already been vested in the City in connection with other improvements. Through the block affected by the resolution now presented an earth roadway is in use, but a portion of the street adjacent to Vandeventer avenue has been fenced off from public use. There are a large number of buildings along the line of the street.

Approval of the resolution is recommended, the work to be done comprising the following:

8,000 cubic yards filling.

2,050 linear feet curbing.

10,400 square feet flagging.

The estimated cost of construction is \$10,300, and the assessed valuation of the property to be benefited is \$101,000.

I would recommend that title to that portion of Sixth avenue between the southerly side of Vandeventer avenue and the northerly line of Flushing avenue be vested in the City on May 1, 1906.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Public Improvements on the 14th day of September, 1900, adopted a resolution requesting the Corporation Counsel to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Sixth avenue, from Jackson avenue to Wolcott avenue, in the Borough of Queens, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court, in proceedings to acquire title to said Sixth avenue, and the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law on the 14th day of November, 1903; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 1st day of May, 1906, the title to each and every piece or parcel of land lying within the lines of said Sixth avenue, between the southerly side of Vandeventer avenue and the northerly line of Flushing avenue, in the Borough of Queens, City of New York, so required, shall be vested in The City of New York.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Newtown District, duly adopted by said Board on the 24th day of May, 1905, and approved by the President of the Borough of Queens on the 24th day of May, 1905, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To regulate, grade, curb, flag and lay crosswalks in Sixth avenue, from Vandeventer avenue to Flushing avenue, in the First Ward of the Borough of Queens,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the pro-

posed work or improvement will be the sum of \$10,300, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$101,000, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

In the Local Board of the Bushwick District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Brooklyn; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Bushwick District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To regulate, grade, curb and lay cement sidewalks on Shepherd avenue, from Atlantic avenue to New Lots road, in the Borough of Brooklyn; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Bushwick District on the 27th day of February, 1905.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 2, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Bushwick District, Borough of Brooklyn, adopted on February 27, 1905, initiating proceedings for grading, curbing and flagging Shepherd avenue, between Atlantic avenue and New Lots road.

This resolution affects a length of eight blocks of Shepherd avenue, title to which has not been legally acquired. There is presented with the resolution a certificate from the Engineer of the Topographical Bureau stating that the street is dedicated to public use, the evidences of dedication including a statement that the street is in use, the sewer has been built, the sidewalks, water main and gas main have been provided in sections, and that there are a number of houses on each side of the street. The statement is also made that two affidavits have been presented showing a public usage of over five years; that Shepherd avenue was declared to be a public street by a resolution of the Common Council of May 23, 1893; that between Atlantic avenue and Liberty avenue it is shown on a map filed by a property owner in 1889, and that it is also included on a map filed by a property owner in 1869, between Atlantic avenue and the New Lots road.

An examination of the ground shows that through the two blocks between New Lots road and Blake avenue there are several houses along the line of the street; that a narrow wagon path is in use, and that the sidewalk space has been traveled on the westerly side. Between Blake avenue and Sutter avenue an irregularly shaped roadway and footpaths are in use, and several houses have been erected. Between Sutter avenue and Belmont avenue the land crossed by the lines of the street is used as a dumping ground. There is no sign of a street in this block, and the abutting property is unfenced. Through the three blocks between Belmont avenue and Liberty avenue the roadway and sidewalks are in use, and the abutting property is largely improved. Through the block between Liberty and Atlantic avenues the roadway is used, and several houses have been erected through the section adjoining Liberty avenue. The northerly half of the block, together with the abutting property, has been inclosed with a high board fence for use as an athletic field, but at what was evidently a recent date the boards have been removed through the section within the lines of the street, but most of the posts are yet standing and partially obstruct traffic.

Aside from the existence of subsurface improvements, it is difficult to harmonize the conditions as described in the certificate of dedication with those found on the ground in several sections and as above described, the latter failing almost wholly in many instances to show a physical dedication sufficient to permit of carrying out improvements.

I would recommend that the resolution be returned to the President of the Borough to be withheld until after opening proceedings have been inaugurated, or until more substantial evidences of title can be established.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 16, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of The Flatbush District, Borough of Brooklyn, adopted on June 23, 1905, initiating proceedings for grading, curbing and flagging Kenilworth place, between Avenue G and Germania place.

Title to this block of Kenilworth place has not been acquired under formal proceedings. On April 3, 1903, the construction of a sewer was authorized, evidence having been presented at that time to show that the street had been dedicated to public use. The resolution now submitted is accompanied by a statement prepared by the Topographical Engineer of the Borough showing the conditions existing on the street. There is also presented an opinion from the Corporation Counsel reviewing the evidences presented by the Engineer of the Topographical Bureau and advising that the conditions on the ground have been inspected by a member of his staff. He states that in his opinion the street has been dedicated to public use. Examination of the ground shows that the roadway and footpaths have been shaped, shade trees have been planted, a portion of the sidewalk has been laid, and that the abutting property is largely improved.

This case is the first presented to the Board of Estimate and Apportionment in which the facts which are believed to constitute a dedication of a highway to public purposes have been reviewed by the Corporation Counsel and a formal opinion rendered in regard to the same. The method used in this case is a very desirable one and serves to remove all doubt as to the propriety of authorizing an assessable improvement.

I see no reason why this resolution should not be approved, and recommend such action, the work to be done comprising the following:

800 cubic yards of grading.

1,488 linear feet of curbing.

5,000 square feet of flagging.

The estimated cost of construction is \$3,000, and the assessed valuation of the property to be benefited is \$32,500.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

A copy of a resolution of the Local Board of the Flatbush District, duly adopted by said Board on the 23d day of June, 1905, and approved by the President of the Borough of Brooklyn on the 1st day of December, 1905, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That the Local Board of the Flatbush District, Borough of Brooklyn, this 23d day of June, 1905, hereby initiates proceedings to regulate, grade, set or reset curb and lay cement sidewalks on Kenilworth place, between Avenue G and Germania place,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$3,000, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included with the probable area of assessment, to wit, the sum of \$32,500, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 16, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on October 30, 1905, initiating proceedings

for grading, curbing and flagging Beverley road, between Flatbush and Bedford avenues.

This resolution affects a length of three blocks of Beverley road, title to which has never been formally acquired. On December 9, 1904, the construction of a sewer was authorized through the two eastwardly blocks, evidences having been presented at that time which were deemed sufficient to establish their dedication to public use.

With the resolution now submitted there is presented a certificate signed by the Engineer of the Topographical Bureau setting forth evidences which in his judgment are deemed sufficient to establish the dedication of the street to public use through the three blocks affected. There is also presented an opinion from the Corporation Counsel in which he states that after examining the evidences submitted by the Topographical Bureau and after visiting the street he is of the opinion that Beverley road, between the limits named in the resolution, has been dedicated to public use. The roadway has been shaped, a considerable portion of the sidewalk has been laid and the abutting property has been largely improved. The resolution is, in my judgment, a proper one, and its approval is recommended. The work to be done comprises the following:

- 1,000 cubic yards of grading.
- 1,680 linear feet of curbing.
- 7,000 square feet of cement walk.

The estimated cost of construction is \$3,700, and the assessed valuation of the property to be benefited is \$115,500.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 20, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on May 18, 1904, and amended on March 15, 1905, the resolution as amended providing for grading, curbing and flagging Newtown road, between Jamaica and Jackson avenues, in the First Ward.

With this resolution there is presented a report from the Engineer in charge of the Topographical Bureau, stating that the street was laid out upon the map of the City by the Long Island City Improvement Commission, and that as so laid out it extends from Jackson avenue to Steinway avenue, with widths ranging from 40 to 60 feet. In this report recommendation is made that the portion between Jamaica and Steinway avenues should be eliminated, as the adjoining streets already open will serve the needs of the locality. Attention is also called to the undesirability of retaining the width of 40 feet through sections affected by the improvement. There are also presented two affidavits certifying that the entire length of the street from Jackson avenue to Steinway avenue has been in use for more than fifteen years.

I find that between Jackson avenue and Broadway, where the width of the street as mapped is only 40 feet, there are two trolley tracks and the space between the rails has been paved. The roadway has undoubtedly been in use for a great many years through the entire length affected by the resolution, and there are a number of buildings upon the abutting property. The fence lines and building lines, however, are very irregular, and in several sections there is an absence of improvement or of any act to show the intention of the owner of the adjacent property to dedicate the public street to any definite line. Attention has many times been called to the need of adjusting the lines of this road either by giving the street an adequate width or by striking it from the map. In my judgment the improvement should not be author-

ized at this time, and it is recommended that the resolution be referred back to the President of the Borough, to be withheld until after a suitable street system has been provided.

Respectfully,
NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 20, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Newtown District, Borough of Queens, adopted on June 28, 1905, initiating proceedings for the construction of catch basins at the northeast, southwest and northwest corners of Washington avenue and Hamilton street, in the First Ward.

These basins are needed for the removal of drainage from the north, south and west along the lines of both Hamilton street and Washington avenue. The former street has recently been paved, while an unshaped dirt road is in use along the line of Washington avenue. When the paving improvement was carried out, temporary drains were placed at the northeasterly, southeasterly and northwesterly corners of the intersection, and it is now desired to replace two of these with permanent catch basins.

Approval of the resolution is recommended, the estimated cost of construction being \$800, while the assessed valuation of the property to be benefited is \$54,400.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 7, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The accompanying resolution adopted by the Local Board of the Bay Ridge District, Borough of Brooklyn, on September 28, 1904, initiates proceedings for the construction of a sewer in Fourteenth avenue, between Sixty-fifth and Seventy-fifth streets.

It has been impossible to report this resolution heretofore owing to the fact that while that portion of Fourteenth avenue, between Sixty-eighth and Seventy-fifth streets, had been opened, the City had never acquired title to the portion between Sixty-fifth and Sixty-eighth streets. Opening proceedings covering these three blocks were authorized by the Board of Estimate and Apportionment June 23, 1905, and I am advised by the Bureau of Street Openings that the Commissioners in this proceeding were appointed on December 1 and that their oaths were filed on December 13, 1905.

There being no buildings within the lines of the street it is, therefore, possible to vest title in the City and authorize the improvement.

The approximate amount of work involved is as follows:

524 linear feet 48-inch brick sewer.

780 linear feet 36-inch brick sewer.

260 linear feet 30-inch brick sewer.

264 linear feet 24-inch pipe sewer.

480 linear feet 18-inch pipe sewer.

287 linear feet 12-inch pipe sewer.

20 manholes.

32 receiving basins.

Total estimated cost, \$27,000.

The assessed value of the property within the probable area of assessment is \$1,138,445.

The authorization of the improvement is recommended, and it is further recommended that title to Fourteenth avenue, between Sixty-fifth and Sixty-eighth streets, be vested in the City on May 1, 1906.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Whereas, The Board of Estimate and Apportionment, on the 23d day of June, 1905, adopted a resolution requesting the Corporation Counsel to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Fourteenth avenue, from Sixty-fifth street to Sixty-eighth street, in the Borough of Brooklyn, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court in proceedings to acquire title to said Fourteenth avenue, and the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law on the 13th day of December, 1905; therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 1st day of May, 1906, the title to each and every piece or parcel of land lying within the lines of said Fourteenth avenue, between Sixty-fifth and Sixty-eighth streets, in the Borough of Brooklyn, City of New York, so required, shall be vested in The City of New York.

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 28th day of September, 1904, and approved by the President of the Borough of Brooklyn on the 19th day of January, 1905, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To construct a sewer in Fourteenth avenue, between Sixty-fifth and Seventy-fifth streets, in the Borough of Brooklyn,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$27,000, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$1,138,445, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

REPORT No. 3606.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 20, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Staten Island District, Borough of Richmond, adopted on October 10, 1905, initiating proceedings for the construction of a temporary storm water sewer in "Richmond road and Elm avenue, from the intersection of Rose avenue and Richmond avenue to and through Elm avenue to the Moravian brook, in the Second and Fourth Wards."

The description of the streets affected by this resolution is somewhat vague, but the evident intent is to provide for a temporary storm water sewer in Richmond road, between Rose avenue and Elm avenue, and in Elm avenue, between Richmond road and the Moravian brook. This sewer is evidently proposed for the removal of storm water from Richmond road, the Elm avenue sewer being required as an outlet. Neither of the streets named has been placed upon the map of the City. Richmond road is a very old street; it is occupied by trolley tracks and has been macadamized. From papers presented with the resolution it appears that Elm avenue was deeded to the former Town of Southfield and that the deed has been recorded. There is presented with the resolution a map showing the proposed sewers.

Approval of both the map and the resolution is recommended, with the understanding, however, that the sewer will not be used for house drainage, as such use would undoubtedly create a nuisance in the Moravian brook.

The work to be done comprises the following:

1,660 linear feet of 12-inch pipe sewer.

2 receiving basins.

The estimated cost of construction is \$1,700, and the assessed valuation of the property to be benefited is \$33,200.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of the Greater New York Charter, hereby approves the map submitted by the President of the Borough of Richmond, entitled "Plan for temporary storm water sewer in Richmond road and Elm avenue, from intersection of Rose avenue and Richmond road and through Elm avenue to the Moravian brook, Fourth Ward, Borough of Richmond and City of New York," and dated October 30, 1905.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Staten Island District, duly adopted by said Board on the 10th day of October, 1905, and approved by the President of the Borough of Richmond on the 10th day of October, 1905, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To construct a temporary storm water sewer, with appurtenances, in Richmond road and Elm avenue, from the intersection of Rose avenue and Richmond avenue to and through Elm avenue to the Moravian brook, in the Second and Fourth Wards of the Borough of Richmond, and to do such other work as may be necessary to the completion of the work described,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$1,700, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$33,200, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

PAVING KENILWORTH PLACE, BROOKLYN.

The following resolution of the Local Board of Flatbush, Borough of Brooklyn, and report of the Chief Engineer were presented:

In the Local Board of the Flatbush District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Brooklyn; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Flatbush District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That the Local Board of the Flatbush District, Borough of Brooklyn, this 23d day of June, 1905, hereby initiates proceedings to pave with asphalt on concrete foundation Kenilworth place, from Avenue G to Germania place; and it is hereby

Resolved, That a copy of the resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Flatbush District on the 23d day of June, 1905.

Commissioner Brackenridge and Alderman Hann voting in favor thereof.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 16, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Flatbush District, Borough of Brooklyn, adopted on June 23, 1905, initiating proceedings for laying an asphalt pavement in Kenilworth place, between Avenue G and Germania place.

Title to this block of Kenilworth place has not been acquired under formal proceedings, but on this date a report has been prepared upon a grading improvement in which it has been shown that the street is dedicated to public use.

The grading required is insignificant in extent, and, as all of the subsurface improvements have been provided, I see no reason why the paving resolution should not be approved at this time, and would recommend such action. The work to be done comprises the laying of:

2,480 square yards of asphalt pavement at an estimated cost of \$5,800.

The assessed valuation of the property to be benefited is \$32,500.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Flatbush District, duly adopted by said Board on the 23d day of June, 1905, and approved by the President of the Borough of Brooklyn on the 1st day of December, 1905, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That the Local Board of the Flatbush District, Borough of Brooklyn, this 23d day of June, 1905, hereby initiates proceedings to pave with asphalt on concrete foundation Kenilworth place, from Avenue G to Germania place,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$5,800, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$32,500, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

DRAINAGE MAP FOR SEWERAGE DISTRICTS 33-L-4, 34-I AND 36-W, THE BRONX.

The following communication from the President of the Borough of The Bronx and report of the Chief Engineer were presented:

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,
November 15, 1905.

Hon. GEORGE B. MCCLELLAN, Chairman, Board of Estimate and Apportionment:

DEAR SIR—I transmit herewith modified map of drainage showing location, sizes and grades of sewers in Sewerage Districts 33-L-4, 34-I and 36-W, dated November 6, 1905, which is intended to take the place of Sewerage District Plan 36-T, forwarded to the Board of Estimate and Apportionment on March 22, 1905.

I respectfully request that the action taken by the Board of Estimate and Apportionment in approving Sewerage District Plan 36-T on April 14, 1905, be rescinded and the plan of same returned to this office after said rescission, for the reason stated in the communication of Mr. Charles H. Graham, Engineer in Charge of Sewers, dated November 6, 1905, a copy of which is herewith transmitted.

I also transmit copy report made by Charles H. Graham, Engineer in Charge of Sewers, dated November 6, 1905, recommending that a black print of modified plan of drainage in Sewerage District 36-T be withdrawn from the further consideration of the Board of Estimate and Apportionment, for the reason that the said plan will not now be necessary, in view of the modified plan of drainage for Sewerage Districts 33-L-4, 34-I and 36-W.

Yours truly,

LOUIS F. HAFFEN,

President, Borough of The Bronx.

REPORT No. 3549.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
January 29, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a communication from the President of the Borough of The Bronx, bearing date of November 15, 1905, requesting the approval of a modification in the drainage map of Sewerage Districts 33-L-4, 34-I and 36-W.

The Borough President also requests that the resolution adopted on April 14, 1905, approving the drainage plan for District 36-T be rescinded, the map now presented including a further change in the same.

The plan submitted with the communication is a comprehensive one, and provides for a rearrangement of the general drainage plan of three sewerage districts known as the Bungay Creek Watershed, the Mill Brook Watershed and the Leggett Creek Watershed. The Bungay Creek Watershed has an outlet through the sewer already built in East One Hundred and Forty-ninth street; the Mill Brook Watershed is drained through the existing sewer in Brook avenue; while the Leggett Creek Watershed is at the present time drained through the Longwood avenue sewer in part, and in part is to be drained through a sewer in Truxton street, the map for which latter was amended on April 14, 1905, as noted by the Borough President in his communication. This last-mentioned sewer has not been built, and a large district now rapidly developing is awaiting the construction of it for drainage. The trunk sewers already built in the three watersheds have been found to be inadequate in carrying capacity, and the map submitted is the result of a study to determine the best method of relief for each. It makes provision for a very great increase in the size of the trunk sewer having an outlet at Truxton street, the diameter now fixed being nine feet, while that shown on the map heretofore adopted was only four feet. By making this increase in size it has been found possible to divert a portion of the flow now reaching the Brook avenue sewer, the One Hundred and Forty-ninth street sewer, and the Longwood avenue sewer, thereby relieving them sufficiently to avoid their reconstruction. It is believed that the rearrangement of the plan and the increased size provided will secure a drainage capacity sufficient for the most severe storms.

Approval of the map is recommended.

The map adopted on April 14, 1905, amending the drainage plan for Sewerage District 36-T has not been filed, and I would recommend that the resolution be rescinded.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolutions were then adopted:

Resolved, That the resolution adopted by this Board on the 14th day of April, 1905, approving a drainage plan for Sewerage District 36-T, in the Borough of The Bronx, be and the same hereby is rescinded.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 445 of the Greater New York Charter, hereby approves the map submitted by the President of the Borough of The Bronx, entitled "Modified plan of drainage, showing location, sizes and grades of sewers in Sewerage Districts 33-L-4, 34-I and 36-W," and dated November 6, 1905.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

SEWERS IN FEATHERBED LANE AND AQUEDUCT AVENUE, THE BRONX.

The following resolution of the Local Board of Morrisania, Borough of Brooklyn, and report of the Chief Engineer were presented:

In Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of The Bronx; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, the said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of Morrisania, Twenty-fourth District, Borough of The Bronx, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, that the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

For constructing a sewer and appurtenances in Featherbed lane, between Macomb's road and Aqueduct avenue, and in Aqueduct avenue, between Featherbed lane and Macomb's road, in the Borough of The Bronx, City of New York; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of Morrisania, Twenty-fourth District, on the 16th day of November, 1905.

REPORT No. 3652.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 16, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on November 16, 1905, initiating proceedings for the construction of sewers in the following streets:

Featherbed lane, between Macomb's road and Aqueduct avenue.

Aqueduct avenue, between Featherbed lane and Macomb's road.

Title to Featherbed lane and Aqueduct avenue has been legally acquired, and both of the streets have been graded, curbed, flagged and macadamized. The abutting property is practically unimproved, but the sewers are asked for by the owners of a large amount of frontage on both of the streets, and I have been informally advised that improvements are about to be made. The sewers are also needed as outlets for private sewers already built. The remaining outlet sewers have been provided and the approval of the resolution is recommended, the work to be done comprising the following:

520 linear feet 2-foot 6-inch brick sewer.

38 linear feet 24-inch pipe sewer.

335 linear feet 18-inch pipe sewer.

263 linear feet 15-inch pipe sewer.

1,535 linear feet 12-inch pipe sewer.

27 manholes.

6 receiving basins.

The estimated cost of construction is \$19,500, and the assessed valuation of the property to be benefited is \$239,100.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Morrisania District, duly adopted by said Board on the 16th day of November, 1905, and approved by the President of the Borough of The Bronx on the 27th day of November, 1905, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"For constructing a sewer and appurtenances in Featherbed lane, between Macomb's road and Aqueduct avenue, and in Aqueduct avenue, between Featherbed lane and Macomb's road, in the Borough of The Bronx, City of New York,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$19,500, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$239,100, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 16, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Washington Heights District, Borough of Manhattan, adopted on January 30, 1906, initiating proceedings for the construction of a sewer along the westerly side of Seventh avenue, between West One Hundred and Forty-fourth and West One Hundred and Forty-fifth streets.

Title to Seventh avenue has been legally acquired and the street has been regulated and graded. There are no buildings upon the block affected by the resolution, but the improvement is asked for by the owner of all of the property on the westerly side of the street. The outlet sewer has been built and the approval of the resolution is recommended, with the understanding that before construction is begun a map will be presented providing for incorporating the sewer upon the drainage plan of the city.

The work to be done comprises the following:

230 linear feet 15-inch pipe sewer.

3 manholes.

The estimated cost of construction is \$3,800, and the assessed valuation of the property to be benefited \$650,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 20, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on January 18, 1906, initiating proceedings for grading, curbing and flagging the following streets:

Depot square, South, from Webster avenue to Depot square, East.

Depot square, East, from Depot square, South, to Depot square, North.

Depot square, North, from Depot square, East, to Webster avenue.

Title to these streets has been legally acquired. They are in use at the present time, affording the only means of access to the Bedford Park Station of the New York and Harlem Railroad. Such improvement as has been made I am advised was carried out in connection with the original development of Bedford Park. The railroad company has erected a very attractive station at this point, and at the present time there is no adequate approach to the same. The abutting property is unimproved, but the owner of 200 feet of frontage appears to be the petitioner for the improvement.

I see no reason why the resolution should not be approved, and would recommend such action, the work to be done comprising the following:

4,200 cubic yards filling.

1,300 linear feet curbing.

5,450 square feet flagging.

The estimated cost of construction is \$5,700, and the assessed valuation of the property to be benefited is \$95,000.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Morrisania District, duly adopted by said Board on the 18th day of January, 1906, and approved by the President of the Borough of The Bronx on the 20th day of January, 1906, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved that this Board does hereby initiate proceedings for the said local improvement, to wit:

"For regulating and grading, setting curbstones and flagging sidewalks a space four feet wide, laying crosswalks, building approaches and erecting fences where necessary, in Depot Square South, from Webster avenue to Depot Square East; Depot Square East, from Depot Square South to Depot Square North; Depot Square North, from Depot Square East to Webster avenue, in the Borough of The Bronx, City of New York."

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$5,700, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$95,000, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

SIR—Herewith is transmitted a resolution of the Local Board of the Bay Ridge District, Borough of Brooklyn, adopted on September 27, 1905, initiating proceedings for the construction of sewers in the following streets:

Seventy-third street, between Fourteenth and Sixteenth avenues.
Sixteenth avenue, between Seventy-third and Eightieth streets.
Eightieth street, between Sixteenth avenue and Fourteenth avenue.

The petition attached to this resolution requests the construction of a sewer in Seventy-third street. The remaining sewers are required for outlets. Title to all of the streets to be occupied has been formally acquired. Seventy-third street has been graded, curbed and flagged, and a large number of detached frame houses have been erected upon the abutting property. The roadway has been roughly shaped along the line of Sixteenth avenue, between Seventy-third and Seventy-fifth streets, and there are a few buildings along this portion of its length. The remainder of the length of Sixteenth avenue and the entire length of Eightieth street affected by the resolution are unimproved, and neither is in use at present.

The additional outlets required for the sewers now proposed are under construction, and I see no reason why the resolution should not be approved, such action being recommended.

The work to be done comprises the following:

1,800 linear feet 78-inch brick sewer.
1,075 linear feet 60-inch brick sewer.
265 linear feet 36-inch brick sewer.
260 linear feet 30-inch brick sewer.
50 linear feet 18-inch pipe sewer.
718 linear feet 15-inch pipe sewer.
782 linear feet 12-inch pipe sewer.
30 sewer basins.

The estimated cost of construction is \$89,500, and the assessed valuation of the property to be benefited is \$1,519,265.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Bay Ridge District, duly adopted by said Board on the 27th day of September, 1905, and approved by the President of the Borough of Brooklyn on the 16th day of October, 1905, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That the Local Board of the Bay Ridge District, Borough of Brooklyn, this 27th day of September, 1905, hereby initiates proceedings to construct a sewer in Seventy-third street, between Fourteenth and Fifteenth avenues, with outlet sewers in Seventy-third street, between Fifteenth and Sixteenth avenues; in Sixteenth avenue, between Seventy-third and Eightieth streets, and in Eightieth street, between Sixteenth and Fourteenth avenues,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$89,500, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$1,519,265, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

EXTENDING SEWER IN FISCHER AVENUE, RICHMOND.

The following resolution of the Local Board of Staten Island, Borough of Richmond, and report of the Chief Engineer were presented:

In the Local Board of the Staten Island District, Borough of Richmond.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Richmond; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Staten Island District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

To construct a temporary outlet extension of the sanitary sewer in Fischer avenue, from the terminus of the present sewer to a point about 180 feet, more or less, northward, in the Fifth Ward of the Borough of Richmond, and to do such other work as may be necessary to the completion of the work described; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Staten Island District on the 10th day of October, 1905.

President of the Borough of Richmond.

REPORT No. 3607.

BOARD OF ESTIMATE AND APPORTIONMENT,
OFFICE OF THE CHIEF ENGINEER,
February 20, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Staten Island District, Borough of Richmond, adopted on October 10, 1905, initiating proceedings for the construction of a temporary outlet extension of the sewer in Fischer avenue, in the Fifth Ward.

The Fischer avenue sewer now extends approximately to the high water line of the Staten Island Sound. From the papers presented with the resolution it appears that at low tide the sewage is discharged upon the beach, resulting in a very unsanitary condition. It is now proposed to extend it about 180 feet to low water mark. The street is located in the Tottenville section, and its improvement up to the high water line was provided for by the Board of Supervisors prior to the incorporation of the village within the limits of New York City. I am advised that the land between the low water mark and the high water mark is owned by the State.

The improvement seems to be one which is very much needed, and the approval of the resolution is recommended, the work to be done comprising the following:

180 linear feet of 12-inch cast-iron pipe sewer.

The estimated cost of construction is \$900, and the assessed valuation of the property to be benefited is \$323,600.

There is presented with the resolution a plan showing the proposed sewer, and the approval of the same is also recommended.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of the Greater New York Charter, hereby approves the map submitted by the President of Richmond, entitled "Map or plan of temporary extension of a sanitary sewer at the foot of Fischer avenue, Fifth Ward, Borough of Richmond, The City of New York," and dated January 10, 1906.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

In the Board of Estimate and Apportionment.

A copy of a resolution of the Local Board of the Staten Island District, duly adopted by said Board on the 10th day of October, 1905, and approved by the President of the Borough of Richmond on the 10th day of October, 1905, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To construct a temporary outlet extension of the sanitary sewer in Fischer avenue, from the terminus of the present sewer to a point about one hundred and eighty feet, more or less, northward, in the Fifth Ward of the Borough of Richmond, and to do such other work as may be necessary to the completion of the work described,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$900, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$323,600, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Board then took up the consideration of financial matters.

BOARD OF ESTIMATE AND APPORTIONMENT.

(PUBLIC IMPROVEMENTS.)

A meeting of the Board of Estimate and Apportionment of The City of New York was held in Room 16, City Hall, on Friday, March 2, 1906, at 10.30 o'clock in the forenoon.

Present—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond.

The Mayor, Hon. George B. McClellan, presided.

After considering financial matters, the Board took up the consideration of public improvements.

CLOSING THAMES STREET, ETC., MANHATTAN.

The President of the Borough of Manhattan asked unanimous consent to the immediate consideration of the matter of closing a portion of the present Thames street, laying out new street, etc., in the Borough of Manhattan. No objection being made, the following resolutions of the Local Board of the Bowling Green District, Borough of Manhattan, was presented:

In the Local Board of the Bowling Green District.

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board, at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Bowling Green District, pursuant to titles 2 and 3 of Chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby recommend to the Board of Estimate and Apportionment that the map or plan of The City of New York be altered and changed as follows:

1. Closing the present Thames street, between Broadway and Trinity place, and part of Temple street, between the present Thames street and Cedar street, which shall not be included in the new street hereinafter mentioned or required for the widening of Cedar street.

2. Laying out a new street extending from Broadway to Trinity place of the width of about 30 feet, the southerly side of which will be about 6 feet north of the present north side of Thames street.

3. Widening Cedar street on the southerly side thereof by adding to the present street a strip of land lying between the present southerly line of Cedar street and a straight line commencing at a point on the westerly side of Broadway 2.76 feet south of Cedar street, and running to a point on the easterly side of Church street 2.81 feet south of Cedar street, as shown on annexed diagram.

And it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of the Bowling Green District on the 23d day of February, 1906, three of the four members present voting in favor thereof.

Attest:

BERNARD DOWNING, Secretary.

Approved this 23d day of February, 1906.

JOHN F. AHEARN,

President of the Borough of Manhattan.

Resolved, by the Local Board of the Bowling Green District, That the alternate plan providing for the closing and discontinuing of Thames street and part of Temple street, and the widening of Cedar street on its southerly side, between Broadway and Church street, by adding twenty-five feet to its width, as fully described in the report of the Engineer of Street Openings upon the petition herein, and shown on diagrams accompanying such report, be and the same is hereby referred to the Board of Estimate and Apportionment for its consideration; and be it further

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment.

A true copy of a resolution adopted by the Local Board of the Bowling Green District at its meeting held February 23, 1906.

BERNARD DOWNING, Secretary.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by the closing and discontinuing of that part of Thames street, between Broadway and Trinity place, and Temple street, from Cedar street to Thames street, except the part to be included in the new Thames street, to be herein-after described.

The laying out of a new street, to be called Thames street, from Broadway to Trinity place.

The widening of Cedar street on the southerly side, from Broadway to Trinity place, in the First Ward of the Borough of Manhattan, City of New York.

Closing and Discontinuing of Parts of Thames and Temple Streets.

Beginning at a point in the westerly line of Broadway distant 431.60 feet northerly from Rector street; thence westerly, distance 264.42 feet to the easterly line of Trinity place at a point distant 468.28 feet northerly from Rector street; thence northerly along said easterly line of Trinity place, distance 21.54 feet; thence easterly and parallel, or nearly so, to first course, distance 95.58 feet to the westerly line of Temple street; thence northerly along said westerly line, distance 97.36 feet to a point near the present Cedar street; thence easterly and across the present Temple street, distance 25.01 feet; thence southerly and parallel to last course but one, distance 97.35 feet to the northerly line of Thames street; thence easterly and along the old line of said street, distance 145.69 feet to the westerly line of Broadway; thence southerly along said westerly line, distance 21.51 feet to the point or place of beginning.

The Laying Out of a New Street to Be Called Thames Street, from Broadway to Trinity Place.

Beginning at a point in the westerly line of Broadway distant 459.10 feet northerly from Rector street; thence westerly 266.78 feet to the easterly line of Trinity place at a point distant 496 feet from Rector street; thence northerly along the easterly line of Trinity place, distance 30.31 feet; thence easterly and parallel to first course, distance 269.60 feet to the westerly line of Broadway; thence southerly along said line, distance 30.26 feet to the point or place of beginning.

The Widening of Cedar Street on the Southerly Side, from Broadway to Trinity Place.

Beginning at a point in the westerly line of Broadway distant 553.17 feet northerly from Rector street; thence westerly along the old line of Cedar street, distance 150.92 feet to the easterly line of Temple street; thence southerly along said line, distance 4.02 feet; thence easterly, distance 150.73 feet to the westerly line of Broadway; thence northerly along said westerly line, distance 2.76 feet to the point or place of beginning.

Also, beginning at a point in the easterly line of Trinity place distant 590.23 feet northerly from Rector street; thence easterly along the old line of Cedar street, distance 99.67 feet to the westerly line of Temple street; thence southerly along said line, distance 3.42 feet; thence westerly, distance 99.57 feet to the easterly line of Trinity place; thence northerly along said line, distance 2.81 feet, to the point or place of beginning.

Said street to be found in Section 1, Blocks 49 and 50 of the Land Map of the Borough of Manhattan, City of New York.

The following is a more particular description of the said proposed changes of the map of The City of New York, and as to the new Thames street to be laid out and Cedar street to be widened, by reference to a certain mark or cut in the building at the northwesterly corner of Broadway and Cedar street hereinafter mentioned, namely:

Closing Thames Street, Between Broadway and Trinity Place or Church Street.

Beginning at the intersection of the southerly side of Thames street with the westerly side of Broadway, and running thence westerly, along the southerly side of Thames street, 264.42 feet, to the easterly side of Church street or Trinity place, thence northerly along the easterly side of Church street or Trinity place, 21.54 feet to the northerly side of Thames street; thence easterly, along the northerly side of Thames street, 266.28 feet, to the westerly side of Broadway, and thence southerly, along the westerly side of Broadway, 21.51 feet to the place of beginning.

Closing Portions of Temple Street, Between Thames Street and Cedar Street.

First Parcel—Parcel between Thames street and south line of a proposed new street.

Beginning at the northwesterly corner of Thames and Temple streets, which corner is distant 95.58 feet easterly from the easterly side of Trinity place or Church street, measured along the north side of Thames street, and running thence northerly, along the westerly side of Temple street, 6.09 feet, to the southerly side of a new street to be laid out between Broadway and Trinity place or Church street; running thence easterly, along the southerly side of said new street, 25.01 feet, to the easterly side of Temple street; running thence southerly along the easterly side of Temple street, 6.08 feet, to the northerly side of Thames street, and running thence westerly, along the northerly side of Thames street, 25.01 feet, to the place of beginning.

Second Parcel—Parcel between north line of a proposed new street and new south line of Cedar street.

Beginning at the intersection of the northerly side of a new street to be laid out between Broadway and Trinity place or Church street with the easterly side of Temple street, and running thence northerly, along the easterly side of Temple street, 61.01 feet, to the southerly side of Cedar street, as proposed to be widened; thence westerly, along the said southerly side of Cedar street, 25.01 feet, to the westerly side of Temple street; thence southerly along the westerly side of Temple street, 61.01 feet, to the northerly side of said new street, and thence easterly, along the northerly side of said new street, 25.01 feet, to the place of beginning.

New Street to Be Laid Out Between Broadway and Trinity Place or Church Street.

Beginning at the westerly side of Broadway, 61.05 feet south of the southerly side of Cedar street, as proposed to be widened, measured along the westerly side of Broadway, and running thence westerly, along a straight line forming an angle on its northerly side with the westerly side of Broadway of 91 degrees 39 minutes and 45 seconds, 269.60 feet, to the easterly side of Trinity place or Church street, at a point 61.11 feet south of the said southerly side of Cedar street, as proposed to be widened, measured along the easterly side of Trinity place; thence southerly, along the easterly side of Trinity place, 30.31 feet; thence easterly, along a line parallel with the first course, and at every point 30.25 feet southerly therefrom, measured at right angles to said first course, 266.78 feet, to the westerly side of Broadway, and thence northerly, along the westerly side of Broadway, 30.26 feet, to the point of beginning.

Widening Cedar Street on the South Side, Between Broadway and Trinity Place or Church Street.

Beginning at the intersection of the westerly side of Broadway and the southerly side of Cedar street, and running thence southerly along the westerly side of Broadway 2.76 feet; thence westerly along a straight line 275.31 feet to a point on the easterly side of Trinity place or Church street 2.81 feet south of the intersection of the southerly side of Cedar street and the easterly side of Trinity place or Church street; thence northerly along the easterly side of Trinity place or Church street 2.81 feet to the southerly side of Cedar street, and thence easterly along the southerly side of Cedar street as it runs 275.60 feet, more or less, to the place of beginning.

The southern boundary line of the parcel above described is for greater certainty monumented and located by reference to the buildings on the north side of Cedar street as follows: If said southerly line be prolonged both ways this line will be 37.11 feet southerly, measured on a line perpendicular to said line from the centre of a cut in the shape of a triangle on the upper easterly face of the stone base of the building at the northwesterly corner of Cedar street and Broadway, a few inches above the sidewalk level, and 36.08 feet southerly, measured on a line perpendicular to the said line from the corner of the stone base at the sidewalk level of the building at the northeast corner of Cedar street and Trinity place or Church street.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 23d day of March, 1906, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the City Record for ten days continuously, Sundays and legal holidays excepted, prior to the 23d day of March, 1906.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, the President of the Borough of Manhattan, the President of the Borough of Brooklyn, the President of the Borough of The Bronx, the President of the Borough of Queens and the President of the Borough of Richmond—16.

On motion, the Board adjourned, to meet on Friday, March 9, 1906, at 10.30 o'clock in the forenoon.

JOSEPH HAAG, Secretary.

Whereas, On December 27, 1905, the Board of Education adopted a resolution requesting authority to execute a renewal of the lease of the premises, occupied as an annex to Public School 41, at New York avenue and Herkimer street, Borough of Brooklyn, for a period from January 20, 1906, to July 1, 1906; and

Whereas, In a communication under date of January 4, 1906, the Comptroller states that this property is under contract to be acquired March 1, 1906, or about forty days after the expiration of the lease, and suggests the advisability of withholding action of the Commissioners of the Sinking Fund in reference thereto until title is vested in the City, when the said Commissioners can take such action as may be necessary looking to the payment of the rent for the period from January 20, 1906, to the date of such vesting of title; therefore be it

Resolved, That the resolution adopted as above stated, requesting the Commissioners of the Sinking Fund to authorize a renewal of the lease of the premises occupied as an annex to Public School 41, Borough of Brooklyn, for a period from January 20, 1906, be and the same is hereby rescinded.

Rescinding the resolution attached to the report of the Committee on Supplies, relative to the awarding of contracts for furnishing and delivering supplies, for use in the Truant Schools of The City of New York, in the boroughs of Manhattan and Brooklyn, etc., for the year ending December 31, 1906, adopted by the Board of Education at its meeting on December 27, 1905 (see Journal, page 000), in so far as it relates to the awards made to Armour & Co.

Whereas, In the action brought in the Supreme Court, New York County, by Margaret J. Fitzgerald against the Board of Education of The City of New York, the Corporation Counsel has advised that the defendants have no legal defense, and that the amount due to the plaintiff is \$650.23; therefore be it

Resolved, That the Corporation Counsel be and he is hereby authorized to allow judgment to be taken and entered against the Board of Education of The City of New York in the above-entitled action for the sum of \$650.23, with interest from June 1, 1902.

Approving and ratifying the action of the Committee on Care of Buildings in appointing, from an eligible list submitted by the Municipal Civil Service Commission, Albert E. Pechette to the position of Stoker in Public School 81, Borough of Queens, at an annual salary of \$912.50, said appointment taking effect January 8, 1906.

Approving the action of the Committee on Care of Buildings in accepting the resignations of the following-named Janitor and Cleaner, to take effect on the dates mentioned:

- Frederick J. Buderns (Janitor), Public School 37, Brooklyn, January 10, 1906.
Joseph Gottlieb (Cleaner), Public School 188, Manhattan, December 23, 1905.
Approving and ratifying the action of the Committee on Care of Buildings in assigning the following-named Janitors to the care of public schools, temporarily, they to receive the salary of the position, less the rent allowance, in each case:
William Zimmer, to Public School 126, Manhattan; taking effect January 1, 1906.
William H. Blauvelt, to Public School Bridge No. 2, Manhattan; taking effect January 2, 1906.

- Jeremiah Murray, to Public School 5, Brooklyn; taking effect January 1, 1906.
Thomas H. Dibbins, to Public School 5, Brooklyn; taking effect January 4, 1906.
William J. Elliott, to Public School 91, Brooklyn; taking effect December 26, 1905.
Emil Lagerstrom, to Public School 91, Brooklyn; taking effect January 1, 1906.
John A. Quinn, to Public School 86, Brooklyn; taking effect January 1, 1906.

Approving and ratifying the action of the Committee on Care of Buildings in transferring the following-named Janitors to the schools indicated, said transfers to take effect on the dates mentioned:

- Charles T. Mellen, from Commercial High School (old), Brooklyn, to Public School 91, Brooklyn; annual salary \$1,650 from January 16, 1906.
Robert A. Hawkes, from Public School 4, Manhattan, to Public School 72, Manhattan; annual salary \$2,574 from January 10, 1906.
John Boyle, from Public School 12, Brooklyn, to Public School 5, Brooklyn; annual salary \$1,737.60 from January 16, 1906.

Approving and ratifying the action of the Committee on Care of Buildings in increasing the salaries of the following-named Janitors to the sums set opposite their respective names, for the reason that the compensation heretofore paid was inadequate and in view of the additional labor required to keep the school buildings in proper condition, said increases to take effect January 16, 1906:

- William H. Blauvelt, Public School Bridge No. 3, Manhattan, from \$720 to \$900.
Jan C. Velders, Public School Bridge No. 4, Manhattan, from \$720 to \$900.
John Dietz, Public School Bridge No. 6, Manhattan, from \$720 to \$900.
William Fraser, Public School 29 Annex, Manhattan, from \$650 to \$720.

Approving and ratifying the action of the Committee on Care of Buildings, in increasing the salary of Michael D. Scannell, janitor of Public School 11, Borough of The Bronx, from \$2,574.87 to \$2,706 per annum, on account of additional sidewalk space to care for, said increase taking effect September 1, 1905.

Approving and ratifying the action of the President in suspending, without pay, on January 6, 1906, Charles Flohr, Janitor-Engineer of the Depository for School Supplies, Nos. 418 to 424 East Sixty-eighth street, Borough of Manhattan, pending trial of the charges preferred against him.

Whereas, The Committee on Care of Buildings has been informed that Hon. Patrick J. White, former President of the School Board for the Borough of Queens, assigned Alexander Mills, Janitor of Public School 4, Annex No. 1, Borough of Queens, on September 1, 1900, to care for the boiler and heating apparatus in Public School 4, Annex No. 3; and

Whereas, The said Alexander Mills cared for the boiler and heating apparatus in Public School 4, Annex No. 3, from September 1, 1900, to April 30, 1901, and was not paid for services rendered for such period; therefore be it

Resolved, That the action of the Committee on Care of Buildings in fixing the compensation to be paid the said Alexander Mills at the rate of \$20 per month for eight months from September 1, 1900, to April 30, 1901, be and the same is hereby approved and ratified.

Approving and ratifying the action of the Committee on Care of Buildings in fixing the compensation to be paid to the Janitor-Engineer of the new DeWitt Clinton High School, Borough of Manhattan, at the rate of \$325 per month, temporarily, from and after January 10, 1906.

Authorizing the Superintendent of the New York Nautical School to admit to said school Clinton Cornelius, who is under sixteen years of age; and suspending all By-Laws and parts of By-Laws inconsistent herewith for the purpose of this resolution.

The following report was presented and ordered to be printed in the Minutes:

December 30, 1905.

The following report and resolutions were presented and adopted:

To the Board of Education:

The Committee on Finance, in accordance with section 15, subdivision 5 of the By-Laws, as follows:

"It shall report to the Board at or about the beginning of each year a plan for apportioning the General School Fund among the various objects of expenditure included in said fund."

—respectfully reports:

The Board of Estimate and Apportionment allowed for the purposes of the General School Fund for 1906 the sum of \$18,739,422.97. The Board of Education submitted requirements aggregating \$19,403,966.47. The Budget for 1906 for the General School Fund allowed by the City is therefore \$664,543.50 less than the estimate submitted.

The following table shows:

1. The Budget of the Board of Education (summarized).
2. The items of the appropriation (analyzed) recommended by the Comptroller for adoption by the Board of Estimate and Apportionment.
3. The differences between the above:

	<u>\$19,403,966 47</u>	<u>\$18,739,422 97</u>	<u>\$664,543 50</u>

By reason of a decrease in the anticipated attendance at the commencement of the school year, and also by a method of economy practiced, whereby substitutes have been employed when possible in place of regular Teachers, and, further, by consolidation of schools and classes, the fiscal year 1905 closes with a surplus of about \$200,000.

Section 1064 of the Greater New York Charter provides as follows:

"In case the amount so appropriated for the General School Fund exceeds the expenditures and ascertained liabilities chargeable to such fund during any one year, the amount by which the said General School Fund exceeds said expenditures and liabilities shall become part of the General School Fund for the next succeeding year." * * *

It is recommended that the surplus of 1905 be transferred and credited on the books of 1906, which action will reduce the Budget deficit to \$464,543.50. A resolution to that effect is appended to this report.

It is recommended that the General School Fund be apportioned in the manner described in the schedule contained in the second resolution attached to this report.

Resolved, That the sum of two hundred thousand dollars (\$200,000), representing surplus of the General School Fund for the year 1905, be and the same is hereby transferred to the General School Fund for the year 1906, in accordance with the provisions of section 1064 of the Greater New York Charter, and that the Comptroller be advised hereof.

Resolved, That the General School Fund for the year 1906, as allowed by the Board of Estimate and Apportionment, and as augmented by the sum mentioned in the next preceding resolution, and amounting in the aggregate to eighteen million nine hundred and thirty-nine thousand four hundred and twenty-two dollars and ninety-seven cents (\$18,939,422.97), be and the same is hereby appropriated and set aside for expenditure in the following manner and amounts and for the purposes and objects described hereunder:

BOARD OF ESTIMATE AND APPORTIONMENT.

EXTRACT FROM

MINUTES, BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, MARCH 16, 1906.

The Secretary presented the following:

ROBERT GAIR COMPANY, PAPER GOODS,
BROOKLYN, N. Y., March 8, 1906.

Secretary, Board of Estimate and Apportionment, City of New York:

DEAR SIR—We beg to advise you that we have commenced work on the bridge across Washington street, working under the resolution of January 5, and this notice is in conformity with Article 12 of said resolution.

Respectfully yours,

ROBERT GAIR COMPANY,
GEO. W. GAIR, Vice-President.

Which was ordered printed in the minutes and filed.

A communication was received from the Flatbush Board of Trade, transmitting copy of resolutions adopted by that body February 20, 1906, recommending that a subway be constructed from Ocean avenue and Clarkson street, Borough of Brooklyn, to Coney Island and Manhattan Beach; or that a joint agreement be entered into between the Interborough Rapid Transit Company and the Brooklyn Rapid Transit Company whereby subway trains may be run over the Brighton track upon the completion of the subway to Ocean avenue and Clarkson street; and appointing a committee of five to appear before the Board of Rapid Transit Railroad Commissioners to advocate the same.

Which was referred to the Bureau of Franchises.

A communication was received from F. B. Behr, stating that he has made application to the Rapid Transit Commission to arrange for a public hearing as a preliminary proceeding for obtaining the franchise to build a railway starting from the terminus of the Interborough Railway at the junction of Flatbush and Atlantic avenues to Coney Island, and advising that he will be pleased to give to the Board of Estimate and Apportionment any information desired.

Which was referred to the Bureau of Franchises.

Union Railway Company of New York City.

Pursuant to resolutions adopted by the Board March 2, 1906, requiring the Union Railway Company of New York City to maintain a legal schedule on its Jerome avenue line, and furnish this Board with a copy of the schedule maintained on said road between the hours of midnight and 6 a. m. daily, from the date of the receipt of the resolution to March 15, 1906, said schedule, together with an affidavit from the Superintendent of Transportation of said company, was submitted to the Board.

The Secretary presented the following:

UNION RAILWAY COMPANY OF NEW YORK CITY,
No. 204 EAST ONE HUNDRED AND TWENTY-EIGHTH STREET,
NEW YORK, March 15, 1906.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, New York City:

DEAR SIR—We herewith send you schedule showing the operation of cars upon the Jerome avenue line of this company from the 3d to the 15th inst., in accordance with the request contained in your favor dated March 2, 1906.

Yours truly,

EDWARD A. MAHER, President.

BOARD OF ESTIMATE AND APPORTIONMENT, THE CITY OF NEW YORK,
BUREAU OF FRANCHISES,

March 16, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—In consequence of a complaint made to the Board that the Union Railway Company of New York City was not maintaining a schedule of running time upon its line operated on Jerome avenue, between One Hundred and Fifty-fifth street and the city line, in accordance with the revised ordinances, to wit: That the headway of cars should not be greater than twenty minutes in either direction between the hours of 12 midnight and 5 a. m., the Board adopted resolutions calling on the Union Railway Company to make a return on March 15 as to the headway maintained on such avenue.

Notice was duly served upon the company and in reply thereto the President, Mr. Edward A. Maher, in a communication of March 15, submits a statement showing the actual headway of cars between the hours of midnight and 6 a. m. daily from March 3, 1906, to March 14, 1906, inclusive, with number of passengers carried. This statement is accompanied by an affidavit made by George J. Murphy, superintendent of transportation of the said company, in which he states that he is familiar with the headway under which the cars of said company are operated upon its various lines, and that the schedule annexed contains a correct statement of the headway upon which cars of the Jerome avenue line were operated upon the days and between the hours mentioned.

This schedule shows a strict compliance with the terms of the ordinance since the date upon which the notice was served upon the company, and I would therefore recommend that the same be accepted and the company directed to file with the Board on May 1, 1906, an affidavit of the superintendent of transportation, to the effect that this schedule has been maintained between March 15, 1906, and May 1, 1906.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Resolved, That the Secretary is hereby directed to notify the Union Railway Company of New York City to submit to this Board on May 1, 1906, affidavit of the superintendent of transportation of the said company, which shall show a continued maintenance of the schedule this day submitted to the Board, to wit: Between March 3 and March 14, 1906, inclusive, of the cars of the Jerome avenue line, between Eighth avenue and One Hundred and Fifty-fifth street and the northerly line of The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

Seaboard Refrigeration Company.

The petition of the Seaboard Refrigeration Company for a franchise to construct, maintain and operate a pipe line and all necessary appurtenances, for the purpose of supplying refrigeration to consumers along the lines of its mains, under and along certain streets in Coney Island, Borough of Brooklyn, upon which a public hearing was held March 2, 1906, and at the conclusion thereof a report was submitted from the Bureau of Franchises, proposing terms and conditions for the granting of any such franchise, and by motion duly adopted, consideration was adjourned to this day.

The following was offered:

Whereas, The Seaboard Refrigeration Company has made application to the Board of Estimate and Apportionment for a franchise to construct, maintain and operate a pipe line for the transportation of refrigeration, under and along certain streets in Coney Island, Borough of Brooklyn; and

Whereas, On March 2, 1906, a public hearing was had upon the aforesaid application; and

Whereas, An inquiry has been conducted by the Bureau of Franchises, and a report, dated February 26, 1906, has been received from said Bureau, proposing terms and conditions to be imposed should the franchise be granted; now therefore be it

Resolved, That this Board adopt such inquiry as the inquiry of the Board, and tentatively approves the terms and conditions proposed by the Bureau of Franchises; and be it further.

Resolved, That the Corporation Counsel be requested to draw a contract in accordance with the terms and conditions proposed, and to incorporate therein such matter as, in his opinion, would seem advisable to fully protect the interests of the City.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The President of the Borough of Manhattan moved that the Secretary be authorized to close the calendars on Tuesday of each week at 4 p. m.

Which motion was agreed to.

Brooklyn City Railroad Company.

BROOKLYN CITY RAILROAD COMPANY,
No. 168 MONTAGUE STREET, BROOKLYN,
March 13, 1906.

To the Board of Estimate and Apportionment, City of New York:

GENTLEMEN—Your petitioner, the Brooklyn City Railroad Company, a domestic street surface railroad corporation, duly incorporated for the purposes of constructing, maintaining and operating street surface railroads in the territory now constituting the boroughs of Brooklyn and Queens, in The City of New York, hereby makes application to your Honorable Board for a grant to your petitioner of the franchise or right to construct, maintain and operate, and for your consent that your petitioner may construct, maintain and operate a turnout, connection, extension or branch of its street surface railroad in the Borough of Brooklyn, to consist of a single-track street surface railroad, to be operated by electricity as motive power, by the overhead trolley system, or other lawful motive power, upon the following-described route:

Commencing at the tracks of your petitioner at the intersection of Tillary and Fulton streets; running thence on a curve easterly across Fulton street and Liberty street one hundred and thirty-four (134) feet to the private property abutting on Liberty street owned by the Brooklyn Union Elevated Railroad Company; thence continuing easterly across said private property of the Brooklyn Union Elevated Railroad Company one hundred and twenty-two (122) feet to the private property of The City of New York; thence continuing easterly across the said private property of The City of New York one hundred (100) feet to Washington street; thence on a curve north-easterly about eighty-one (81) feet to the tracks of the Brooklyn City and Newtown Railroad Company on Washington street, and to connect at the intersection of Tillary and Fulton streets with the double-track street surface railroad of the Brooklyn City Railroad Company on Fulton street, and to connect at a point on Washington street north of Tillary street with the double-track street surface railroad of the Brooklyn City and Newtown Railroad Company on Washington street; together with the necessary sidings, switches, turnouts, poles, wires and appurtenances, including such as may be necessary to connect the said railroad tracks on Fulton street and on Washington street, all of which is more particularly shown on a map hereto annexed and made a part hereof.

Respectfully submitted,

[SEAL]

BROOKLYN CITY RAILROAD COMPANY,
By EDWARD MERRITT, President.

Attest:

D. H. GILLIGAN, Secretary.

City and State of New York, Borough of Brooklyn, County of Kings, ss.:

On this 13th day of March, 1906, before me personally came Edward Merritt, to me known, and known to me to be the President of the Brooklyn City Railroad Company, the corporation referred to in the foregoing application. He acknowledged that he had read the same, and affixed his signature thereto.

BOARD OF ESTIMATE AND APPORTIONMENT, THE CITY OF NEW YORK,
BUREAU OF FRANCHISES,
March 14, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The Brooklyn City Railroad Company, under date of March 13, 1906, has made application to the Board of Estimate and Apportionment for the right to construct, maintain and operate an extension or branch of its street surface railroad in the Borough of Brooklyn, to consist of a single track, as follows:

Commencing at the north bound track of the Brooklyn City Railroad Company on Fulton street, near the intersection of Fulton and Tillary streets; thence on a curve easterly across Fulton street and Liberty street 134 feet to the property of the Brooklyn Union Elevated Railroad Company; thence continuing easterly across said property of the Brooklyn Union Elevated Railroad Company 122 feet to the property of The City of New York; thence continuing easterly across said property of The City of New York 100 feet to Washington street; thence in Washington street and on a curve north-easterly 81 feet to the tracks of the Brooklyn City and Newtown Railroad Company on Washington street.

The proposed connection or branch is shown on a plan accompanying the application, entitled "Map showing the proposed extension and connection between Fulton street and Washington street, near Tillary street, for the Brooklyn City Railroad Company, in the Borough of Brooklyn, to accompany petition to the Board of Estimate and Apportionment, dated March 13, 1906," approved by Edward Merritt, president, and W. S. Menden, chief engineer.

On February 23, 1906, Mr. Andrew J. Provost, Jr., Engineer in the office of the Commissioner of Public Works, Borough of Brooklyn, made a report to Hon. Desmond Dunne, Commissioner of Public Works, in which he recommends certain changes in the method of operation of the surface cars in the vicinity of Fulton street and the New York and Brooklyn Bridge. These changes require the laying of additional tracks in the vicinity of the bridge and tracks which have been proposed in Livingston street and Lafayette avenue, for which an application by the Nassau Electric Railroad Company is now pending before the Board of Estimate and Apportionment. The rec-

ommendations, I understand, are indorsed by Kingsley L. Martin, Engineer in charge of the New York and Brooklyn and the Williamsburg Bridges.

Considerable study has also been made upon the matter of congestion and interference of cars in this section of Brooklyn, by this Bureau, in connection with the application for a franchise on Livingston street and Lafayette avenue. The matter will be taken up with those engineers with a view to devising means of improving existing conditions, and recommendations for such improvement will be embodied in a report to you upon the application for a franchise on Livingston street.

The connection now applied for was recommended in the report by Mr. Provost, the object being to supply a more direct route to the bridge for cars from the Court street and Union street lines which now run by way of Court street, Atlantic avenue, Boerum place, Court square and Adams street, thus passing through the congested section at the junction of Fulton street and Court square. If such a connection is made the cars from these lines may proceed north on Court street, Fulton street and Liberty street; thence crossing private property to Washington street by means of the proposed connection, thereby avoiding, and, in consequence, relieving, to some extent, the congestion at the Court square crossing. A considerable saving in running time would also be accomplished which would greatly benefit the patrons of these lines.

A portion of the property in the block between Liberty and Washington streets is City property, having been acquired for bridge purposes, and is now occupied by an elevated structure upon which is located a storage yard for bridge cars. This property is therefore under the jurisdiction of the Bridge Commissioner and may be leased by him for the purpose required. The portion of the connection which is considered in this report is that within the lines of Fulton, Liberty and Washington streets.

This application is for a franchise, to wit, an extension of the existing rights of the Brooklyn City Railroad Company and the Board has at present no power to grant the same, and in any event for its proper consideration, pursuant to the provisions of law, a period of at least two months would ensue before it could be acted upon.

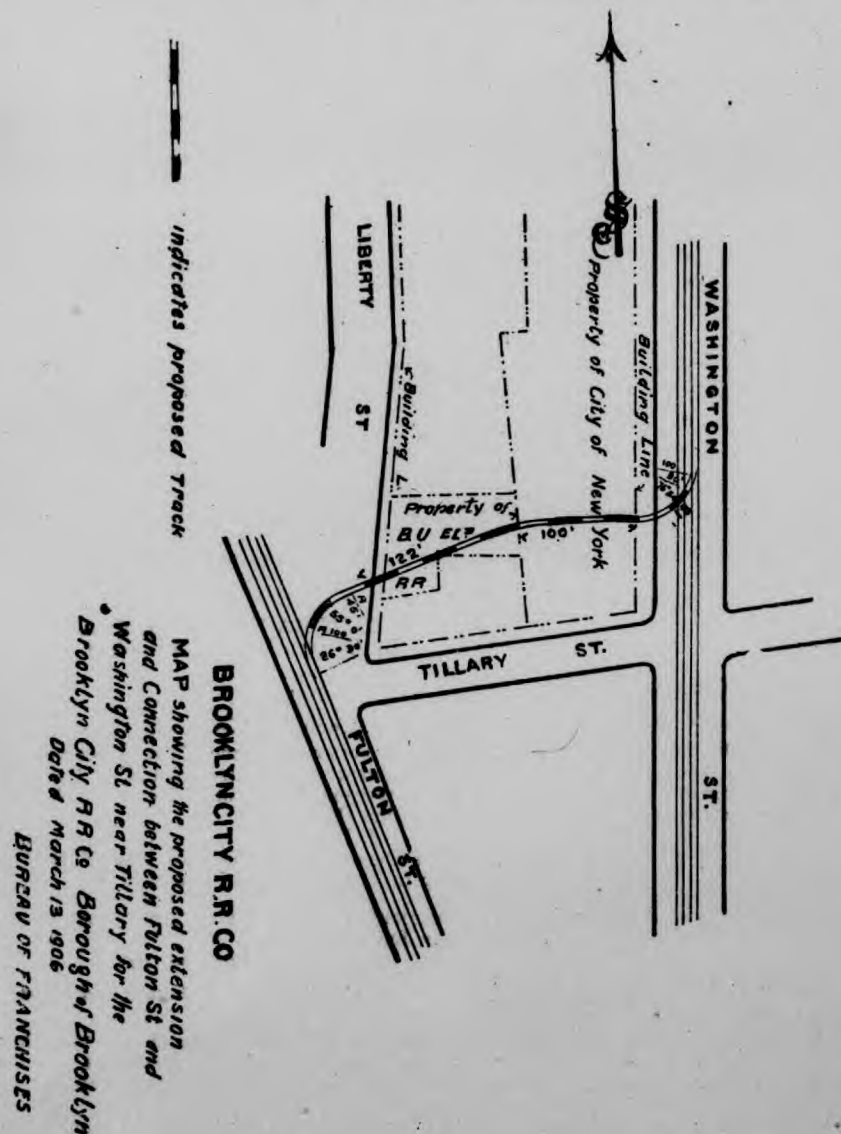

The proposition, as it was first presented to me by Mr. Provost, was that the company should secure a temporary permit to lay these tracks and operate the cars as indicated, pending the time when the problem of traffic congestion on the Brooklyn side shall be partially solved, and when it will be necessary for the respective companies to make applications for extensions to their franchises in accordance with such solution. Until such time, I look upon this as merely temporary relief which will inure to the benefit of the traveling public.

It is therefore recommended that consent be given for a period of one year, revocable on thirty days' notice by the Board of Estimate and Apportionment, and that the compensation be fixed at \$350. The amount of security deposit, which is customarily required for such privilege, should be fixed at \$1,000, to be deposited with the Comptroller as security for the faithful performance of the terms and conditions of the consent.

The proposed resolutions attached hereto provide that the construction shall be done under the supervision of the President of the Borough of Brooklyn and save the City harmless from any expense due to damages either by reason of operation or construction. They contain other provisions which are usually embodied in such consents and will, I believe, properly protect the City.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the Brooklyn City Railroad Company, a corporation incorporated for the purpose of constructing, maintaining and operating street surface railroads in the Borough of Brooklyn, City of New York, to lay and maintain a single-track street surface railroad, to be operated by electricity by the overhead trolley system, as follows:

Commencing at the north-bound track of the Brooklyn City Railroad Company on Fulton street, near the intersection of Fulton street and Tillary street, thence on a curve easterly across Fulton street and Liberty street to the private property abutting on Liberty street.

Also beginning at a point in the westerly side of Washington street about 100 feet north of the northerly side of Tillary street, thence in a curve northeasterly to and connecting with the north-bound track of the Brooklyn City and Newtown Railroad Company on Washington street; all as shown and indicated upon the map entitled "Brooklyn City Railroad Company, Brooklyn, New York. Map showing proposed extension and connection between Fulton street and Washington street, near Tillary street, for the

Brooklyn City Railroad Company, in the Borough of Brooklyn, to accompany the petition to the Board of Estimate and Apportionment, dated March 13, 1906. Approved, Edward Merritt, President. W. S. Menden, Chief Engineer."—a copy of which is annexed hereto and which is made a part hereof.

The consent is given upon the following terms and conditions:

1. Said consent shall be for a term not exceeding one year from the granting of said consent; provided, however, that the same may be canceled and annulled upon thirty days' notice in writing to the grantee, its successors or assigns, by the Board of Estimate and Apportionment, or its successor in authority, and thereupon all the rights of the grantee, its successors or assigns, in and upon the aforesaid streets shall cease and determine.

2. The grantee, its successors or assigns, shall pay into the treasury of The City of New York the sum of three hundred and fifty dollars (\$350) within ten days from the date when this resolution is signed by the Mayor. Such compensation shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of The City of New York or by any law of the State of New York.

3. This consent, at the end of one year, unless sooner revoked, shall expire by limitation.

Upon the revocation or termination by limitation of this consent, the grantee, its successors or assigns, shall at its own cost cause all that portion of the streets affected by this consent to be restored to their proper and original condition, if required so to do by The City of New York, or its duly authorized representative, and in default of the performance of this condition by the grantee, its successors or assigns, the proper authorities may cause such track to be removed from the streets aforesaid, and the streets to be restored in the manner above described, at the expense of the said grantee, its successors or assigns, and such expense shall be recoverable by The City of New York by action at law or otherwise from the grantee.

If the track to be constructed by the grantee under this consent shall not be required to be removed, it is agreed that all such track shall become the property of the City, without expense to it, to be used for any purpose whatsoever.

4. The consent hereby given shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other persons or corporation whatsoever, either by the acts of the grantee, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

5. It is to be understood that the consent hereby given is of a temporary character and does not give to any company the right to operate its cars over the tracks of any other company, nor the right to the Brooklyn City Railroad Company to lay tracks on the property of The City of New York which is under the supervision of the Bridge Commissioner, and situated in the block bounded by Washington, Tillary, Liberty and Concord streets.

6. Said railroad track shall be constructed and maintained in the latest improved manner of street railroad construction, solely upon the terms and conditions hereafter to be approved by the President of the Borough of Brooklyn. The grantee shall submit such working plans of construction as may be required by said Borough President, which shall show in detail the method and kind of construction of said railroad track and the mode of protection of all surface and subsurface structures.

7. Such railroad track shall be constructed and maintained subject to the supervision and control of the Board of Estimate and Apportionment, and of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York, and subject to all laws or ordinances now in force or which may be hereafter enacted.

8. The Brooklyn City Railroad Company, as long as it shall continue to use the track for which consent is hereby given shall keep in permanent repair that portion of the surface of said streets between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so and in such manner as they may prescribe.

The City of New York shall have the right to change the material or character of the pavement and sidewalks in the said streets, and in that event the grantee, its successors or assigns shall be bound to replace such pavement and sidewalks in the manner directed by the proper City officials, at its own expense, and the provision as to repairs herein contained shall apply to such renewal or altered pavement or sidewalks.

9. The grantee shall assume all liability by reason of the construction and operation of the track, and the City shall assume no liability whatsoever to either persons or property by reason of its construction.

As a condition of this consent the grantee, its successors or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the grantee, its successors or assigns.

10. The grantee shall be liable for all damages to persons or property and to the street and the sewers therein by reason of the construction, maintenance and use of said railroad track, and it is a condition of this consent that The City of New York assumes no liability to either persons or property on account thereof.

11. Said grantee, its successors or assigns, shall commence the construction of said track under this consent, and complete the same, within sixty days from the approval of this consent by the Mayor, otherwise this consent shall be forfeited forthwith and without any proceedings, either at law or otherwise, for that purpose; provided, however, that such time may be extended by the Board of Estimate and Apportionment for a period not exceeding sixty days.

12. This consent is upon the express condition that the grantee, within thirty days after its approval by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of one thousand dollars (\$1,000), either in money or in securities to be approved by him, which fund shall be security for the performance of the terms and conditions of this consent, especially those which relate to the payment of the annual charge for the consent and the repairs of the street pavement and sidewalks. In case of default in the performance by the grantee of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof, after due notice, and shall collect the reasonable cost thereof from the said fund, without legal proceedings, or after default in the payment of the annual charges, shall collect the same, with interest, from such fund after ten days' notice in writing to the grantee.

In case of any drafts so made upon the security fund, the grantee shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of one thousand dollars (\$1,000), and in default thereof the consent hereby given may be canceled and annulled

at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceedings or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

13. This consent shall not become operative unless the grantee shall, within twenty days after its approval by the Mayor, duly execute under its corporate seal an instrument in writing, wherein said grantee, its successors or assigns, shall promise, covenant and agree to conform to and abide by and perform all the terms and conditions and requirements in this consent fixed and contained, and file the same in the office of the Board of Estimate and Apportionment of The City of New York within twenty days after the approval of this consent by the Mayor.

14. The grantee shall notify the Secretary of the Board of Estimate and Apportionment upon the commencement of the work, and shall also notify the said Secretary when it has completed all the work authorized under this consent.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The full minutes of the meeting of March 16, 1906, will appear in the CITY RECORD at a later date.

The following general order was issued March 6, 1906:

General Order No. 28.

The Manual containing the rules and regulations of the Police Department of The City of New York, edition 1905, is hereby adopted and will be obeyed accordingly. The said Manual is hereby amended and modified as follows:

Rule 7, subdivision "m," of the said Manual is amended so that the first and second lines of paragraph 3 thereof shall read as follows:

"Captains shall report, in writing, to the Chief Clerk, each and every change of residence;" and from the last three lines thereof the words "for Boroughs of Manhattan, The Bronx and Richmond, and in triplicate" will be omitted.

Rule 54, subdivision "b," of the said Manual, is hereby amended so that the first paragraph thereof shall read as follows:

"Captains shall make, sign and transmit, through official channels, a monthly report to the Police Commissioner, giving the following:"

Rule 54, subdivision "c," of the said Manual is hereby amended by striking from the first line thereof the words "in duplicate."

Rule 36, subdivision "g," of the said Manual, is hereby amended so that the word "Inspector" shall be substituted for the word "Clerk" in the third line thereof.

Rule 36, subdivision "h," second paragraph of the said Manual, is hereby amended so that the word "Inspector" shall be substituted for the word "Clerk" in the third line thereof.

Rule 51, paragraph 7, of subdivision "f," of the said Manual, is hereby amended so that the first six lines thereof shall read as follows:

"Whenever a child under the age of sixteen years is arrested charged with any offense except a felony, or a crime which if committed by an adult would be a felony, a Captain or Sergeant or Acting Sergeant of Police in any city may" and that the last line thereof shall read as follows: "crime or a witness to its commission by another."

That Rule 14 of the said Manual is hereby amended as follows: From subdivision "g" thereof the following words to be omitted: "Such examination shall be public, and the questions therefor shall be submitted to the Police Commissioner thirty-six hours before such examination takes place;" also, from subdivision "g" the following words to be omitted: "and signed by the Police Commissioner;" also, from subdivision "g" the following words to be omitted: "The names of all applicants for certificates as engineers, with the names of the endorsers thereof, shall be entered on the minutes of the Department;" and the following to be added to subdivision "g": "The certificates of three engineers required to be filed by persons applying for certificates of qualification as Engineers or Firemen, must be in the form of affidavits, one made by each such engineer, to the effect that he is an engineer holding a license as such and recorded on the books of the Steam Boiler Squad (Sanitary Company) of the Police Department of The City of New York; that he personally knows the applicant; and that the contents of the letter signed by him certifying to the nature of employment and length of time and service of the applicant are true in all particulars."

Rule 30 of the said Manual is hereby amended by striking therefrom subdivision "o" thereof, to take effect May 1, 1906.

Rule 26, subdivision "b," of the said Manual is hereby amended by adding thereto the following:

"On payment of a deposit of \$3 in each case, such amount to be returned on delivery of receipt when the persons so appointed shall be no longer Special Patrolmen."

Rule 42, subdivision "c," is hereby amended so that the second paragraph thereof shall read as follows: "For the boroughs of Manhattan, The Bronx and Richmond are to be presented at the office of the Chief Clerk on the 22d, and for the boroughs of Brooklyn and Queens on the 21st of each month. When either of the foregoing dates falls on a Sunday or a holiday, the next day will be used."

These rules and regulations as amended supersede all previous rules, regulations and orders, except general orders published since January 1, 1906. Where such general orders conflict with the rules and regulations as amended, hereby adopted, the said general orders will govern.

DEPARTMENT OF FINANCE.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

AT THE REQUEST OF THE DEPARTMENT OF DOCKS AND FERRIES, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for the new marginal street in the

Borough of Manhattan.

All the right, title and interest of The City of New York in and to the buildings thereunto belonging acquired for the Department of Docks and Ferries, in the Borough of Manhattan, and erected upon land described as follows:

The four-story brick building at the north-easterly corner of Eleventh avenue and West Twentieth street, having a frontage on Eleventh avenue of about 100 feet and on West Twentieth street of about 75 feet.

By direction of the Comptroller the sale of the above-described building will be made under the supervision of the Collector of City Revenue on

FRIDAY, APRIL 6, 1906,

at 11 a. m. on the premises, and will be sold for the highest marketable price at public auction on the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and any structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall also be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beam-holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

AT THE REQUEST OF THE PRESIDENT of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for street purposes in the

Borough of Brooklyn.

All of the buildings, parts of buildings, etc., standing within the lines of property acquired for the widening of Roebling Street, from the Bridge Plaza at South Fourth Street to Union Avenue, in the Borough of Brooklyn. A map showing the property to be sold is filed in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan, and bidders should acquaint themselves with the extent and portions of the buildings to be sold and owned by the City.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue. The sale will take place on

FRIDAY, APRIL 20, 1906,

at 11 a. m. on the premises, and will be sold for the highest marketable price at public auction on the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of the City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and any structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stumps and area walls shall also be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to

exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO, OF CITY REAL ESTATE.

AT THE REQUEST OF THE PRESIDENT of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for street purposes, in the BOROUGH OF BROOKLYN.

All of the buildings, parts of buildings, etc., standing within the lines of property acquired for the extension of Grand street, from the intersection of Havemeyer street and South Fourth street to Hooper street, in the Borough of Brooklyn.

A map showing the property to be sold is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan, and bidders should acquaint themselves with the extent and portions of the buildings to be sold and owned by the City.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue. The sale will take place on

TUESDAY, APRIL 17, 1906,
at 11 a. m., on the premises, and will be sold for the highest marketable price at public auction on the following

TERMS AND CONDITIONS.
The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb; and any structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall also be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above condi-

tions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted, and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

BOARD OF TRUSTEES OF THE COLLEGE OF THE CITY OF NEW YORK.

PROPOSALS FOR BIDS OR ESTIMATES FOR SUPPLIES.

SEALED BIDS OR ESTIMATES WILL BE received by the Chairman of the Board of Trustees of the College of the City of New York at the office of the Board, No. 17 Lexington

avenue, in The City of New York, until 12 o'clock noon on

THURSDAY, MARCH 29, 1906.

FOR FURNISHING AND DELIVERING CHEMICAL SUPPLIES, MATERIALS AND APPARATUS FOR THE DEPARTMENT OF PHYSICS OF THE COLLEGE OF THE CITY OF NEW YORK.

The time for the delivery of the articles, materials and supplies and the performance of the contract is between the 1st and 30th days of June, 1906, or thereafter from time to time as may be directed by the Professor of Physics not later than December 31, 1906.

The amount of security will be fifty per cent. (50%) of the amount of the bid or estimate.

For particulars as to the quantity and quality of the supplies or the nature and the extent of the work required or of the materials to be furnished, bidders are referred to the specifications and the blank proposals and lists of articles, materials, supplies and apparatus to be furnished and delivered to the places designated. Such work and materials must conform in every respect to the specifications and schedules. The quality of the articles, supplies, goods, wares and merchandise must conform to and must be the same or equal in quality, character, finish and design to the samples furnished, or to those described by the names of well-known dealers and manufacturers, and referred to by catalogue numbers. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates, and are cautioned against referring to any samples or specifications other than those furnished by the Board of Trustees. Such references are cause for rejecting bids whereon they are written, and will in no case govern the action of the Board of Trustees in passing upon tenders. Bidders must state the price of each item. Awards will be made to the lowest bidder on each item whose goods are the same or equal to the samples furnished for inspection or referred to by catalogue number.

Bidders shall describe the various items by reference to the particular maker's catalogue or circular, or by the submission of a sample. Only one bid will be received from a bidder for each item. Samples will be on exhibition at the College of the City of New York, No. 17 Lexington avenue, Room 15, until the bids are opened. All goods must be delivered as directed, in the original bottles or packages, at the Department of Physics, the College of the City of New York, One Hundred and Fortieth street and Convent avenue, Borough of Manhattan (unless otherwise stated in the specifications). The weight, measure, etc., will be allowed as received at the institution. No charge will be allowed for freight expenses, boxes or cartage, but boxes may be taken away by the contractor. Contractors who fail to make prompt deliveries will be considered as in default and debarred from bidding in the future. Bidders are requested to make their bids or estimates upon the blank form prepared by the said Board of Trustees, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon written application therefor at the office of the College of the City of New York, and any further information can be obtained at the office of the said college, corner of Lexington avenue and Twenty-third street, Borough of Manhattan.

Also, beginning at a point in the easterly line of Trinity place distant 590.23 feet northerly from Rector street; thence easterly along the old line of Cedar street, distance 99.67 feet to the westerly line of Temple street; thence southerly along said line, distance 3.42 feet; thence westerly, distance 99.57 feet to the easterly line of

Trinity place; thence northerly along said line, distance 2.81 feet, to the point or place of beginning.

Said street to be found in Section 1, Blocks 49 and 50 of the Land Map of the Borough of Manhattan, City of New York.

The following is a more particular description of the said proposed changes of the map of The City of New York, and as to the new Thames street to be laid out and Cedar street to be widened, by reference to a certain mark or cut in the building at the northwesterly corner of Broadway and Cedar street hereinafter mentioned, namely:

Closing Thames Street, Between Broadway and Trinity Place or Church Street.

Beginning at the intersection of the southerly side of Thames street with the westerly side of Broadway, and running thence westerly, along the southerly side of Thames street, 264.42 feet, to the easterly side of Church street or Trinity place; thence northerly, along the easterly side of Church street or Trinity place, 21.54 feet, to the northerly side of Thames street; thence easterly, along the northerly side of Thames street, 266.28 feet, to the westerly side of Broadway, and thence southerly, along the westerly side of Broadway, 21.51 feet to the place of beginning.

Closing Portions of Temple Street, Between Thames Street and Cedar Street.

First Parcel—Parcel between Thames street and south line of a proposed new street.

Beginning at the northwesterly corner of Thames and Temple streets, which corner is distant 95.58 feet easterly from the easterly side of Trinity place or Church street, measured along the north side of Thames street, and running thence northerly, along the westerly side of Temple street, 6.09 feet, to the southerly side of a new street to be laid out between Broadway and Trinity place or Church street; running thence easterly, along the southerly side of said new street, 25.01 feet, to the easterly side of Temple street; running thence southerly, along the easterly side of Temple street, 6.08 feet, to the northerly side of Thames street, and running thence westerly, along the northerly side of Thames street, 25.01 feet, to the place of beginning.

Second Parcel—Parcel between north line of a proposed new street and new south line of Cedar street.

Beginning at the intersection of the northerly side of a new street to be laid out between Broadway and Trinity place or Church street with the easterly side of Temple street, and running thence northerly, along the easterly side of Temple street, 61.01 feet, to the southerly side of Cedar street, as proposed to be widened; thence westerly, along the said southerly side of Cedar street, 25.01 feet, to the westerly side of Temple street; thence southerly, along the westerly side of Temple street, 61.01 feet, to the northerly side of said new street, and thence easterly, along the northerly side of said new street, 25.01 feet, to the place of beginning.

New Street to Be Laid Out Between Broadway and Trinity Place or Church Street.

Beginning at the westerly side of Broadway, 61.05 feet south of the southerly side of Cedar street, as proposed to be widened, measured along the westerly side of Broadway, and running thence westerly, along a straight line forming an angle on its northerly side with the westerly side of Broadway of 91 degrees 39 minutes and 45 seconds, 209.00 feet, to the easterly side of Trinity place or Church street, at a point 61.11 feet south of the said southerly side of Cedar street, as proposed to be widened, measured along the easterly side of Trinity place; thence southerly, along the easterly side of Trinity place, 30.31 feet; thence easterly, along a line parallel with the first course, and at every point 30.25 feet southerly therefrom, measured at right angles to said first course, 266.78 feet, to the westerly side of Broadway, and thence northerly, along the westerly side of Broadway, 30.26 feet, to the point of beginning.

Widening Cedar Street on the South Side, Between Broadway and Trinity Place or Church Street.

Beginning at the intersection of the westerly side of Broadway and the southerly side of Cedar street, and running thence southerly along the westerly side of Broadway 2.76 feet; thence westerly along a straight line 275.31 feet to a point on the easterly side of Trinity place or Church street 2.81 feet south of the intersection of the southerly side of Cedar street and the easterly side of Trinity place or Church street; thence northerly along the easterly side of Trinity place or Church street 2.81 feet to the southerly side of Cedar street, and thence easterly along the southerly side of Cedar street as it runs 275.60 feet, more or less, to the place of beginning.

The southern boundary line of the parcel above described is for greater certainty monumented and located by reference to the buildings on the north side of Cedar street as follows: If said southerly line be prolonged both ways this line will be 37.11 feet southerly, measured on a line perpendicular to said line from the centre of a cut in the shape of a triangle on the upper easterly face of the stone base of the building at the northwesterly corner of Cedar street and Broadway, a few inches above the sidewalk level, and 36.08 feet southerly, measured on a line perpendicular to the said line from the corner of the stone base at the sidewalk level of the building at the northeast corner of Cedar street and Trinity place or Church street.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 23d day of March, 1906, at 10.30 o'clock a. m.

In the matter of the application of the Mayor, Aldermen and Commonalty of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the purpose of opening VANDERBILT AVENUE, WEST, (although not yet named by proper authority), from East One Hundred and Seventy-third street to Pelham avenue, as the same has been heretofore laid out and designated as a first-class street or road, in the Twenty-fourth Ward of The City of New York.

IN RE APPLICATION OF ELIZABETH Ransford for damage to Lot No. 65, Block 3028, by reason of the destruction of her private easements caused by the closing, discontinuance and abandonment of Old Quarry road or Valentine avenue or East One Hundred and Seventy-eighth street, from Webster avenue to Vanderbilt avenue, West.

We, the Commissioners of Estimate and Assessment in the above-entitled proceeding, having been directed by order of the Appellate Division of the Supreme Court, dated the 17th day of June, 1904, and filed in the office of the Clerk of the County of New York, on the 15th day of July, 1904, to ascertain and determine the compensation that should justly be made to Elizabeth Ransford, by reason of the destruction of her private easements caused by the closing, discontinuance and abandonment of Old Quarry road or Valentine avenue or East One Hundred and Seventy-eighth street, from Webster avenue to Vanderbilt avenue, West, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 31st day of March, 1906, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 2d day of April, 1906, at 2 o'clock p. m.

Second—That the abstract of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said city, there to remain until the 10th day of April, 1906.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, and being that part of Old Quarry road or Valentine avenue or East One Hundred and Seventy-eighth street, Block 3028, bounded by Webster avenue, Vanderbilt avenue (Park avenue), West, East One Hundred and Seventy-eighth street and East One Hundred and Seventy-ninth street and known as Lot No. 1.

Fourth—That our report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III. to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 15th day of May, 1906, at the opening of the Court on that day.

SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands and premises required for the widening of JAY STREET (although not yet named by proper authority), at its intersection with Richmond terrace, in the First Ward, Borough of Richmond, City of New York.

PURSUANT TO THE STATUTES IN such cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, Second Department, at a Special Term of said Court, to be held for the hearing of motions, in the County Court House, in the Village of Richmond, in the County of Richmond, in the Borough of Richmond, in the City of New York, on Thursday, the 29th day of March, 1906, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for the appointment of Commissioners of Estimate and Assessment in the above-entitled matter. The nature and extent of the improvement hereby intended is the acquisition of title by The City of New York, for the use of the public, to all the lands and premises, with the buildings thereon and the appurtenances thereto belonging, required for the widening of a certain street or avenue known as Jay street, at its intersection with Richmond terrace, in the First Ward, Borough of Richmond, City of New York, being the following-described lots, pieces or parcels of land, viz.:

Beginning at a point on the westerly line of Jay street 111.21 feet north of the intersection of the northerly line of Hamilton avenue with the westerly line of Jay street;

1. Thence northerly along the northerly prolongation of the westerly line of Jay street 166.82 feet;

2. Thence northwesterly deflecting 32 degrees 57 minutes 18 seconds to the left 64.68 feet;

3. Thence still northwesterly deflecting 23 degrees 4 minutes 57 seconds to the left 19.27 feet;

4. Thence westerly deflecting 24 degrees 13 minutes 34 seconds to the left 16.23 feet to the easterly line of Stuyvesant place;

5. Thence southerly deflecting 90 degrees 45 minutes 5 seconds to the left along said easterly line of Stuyvesant place 52.64 feet to a line parallel to and distant 100 feet southwestwardly from the northeasterly line of Jay street;

6. Thence southeasterly deflecting 41 degrees 26 minutes 20 seconds to the left along said line parallel to and distant 100 feet southwestwardly from the northeasterly line of Jay street 76.48 feet;

7. Thence still southeasterly curving to the right on the arc of a circle of 220.17 feet radius 124.71 feet to the point of beginning.

Jay street is shown on "Plan and profile showing location, laying out, widening and grades of Griffin street, Stuyvesant place, South street, Jay street, Hyatt street, Richmond turnpike and First avenue, in the First and Second Wards, Borough of Richmond, The City of New York," dated March 19, 1903, which map was filed in the offices of the President of the Borough of Richmond and the Counsel to the Corporation of The City of New York, as amended by "Map or plan showing change of line of Jay street, in the First Ward, Borough of Richmond, The City of New York," dated October 20, 1903, which map was filed in the above-mentioned office on or about the 26th day of February, 1904.

Dated New York, March 15, 1906.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the City Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
