VOUCHERS RECEIVED IN DEPARTMENT OF FINANCE WEDNESDAY, JUNE 11, 1913.

A statement is herewith submitted of all vouchers filed in the Department of Finance on this date in which is shown the Department of Finance voucher number, the date or dates of the invoices or bills, the name of the payee and the amount of the claim. Where two or more bills are embraced in one voucher, the dates of the earliest and latest are given.

If the vouchers are found to be correct, and properly payable to the respective claimants, it will be my endeavor to have the warrants therefor made ready for payment within the next seven days.

If any claimant within the time stated does not receive this warrant or a written notice in relation thereto, then written or verbal inquiry may be made at this office, using the Department of Finance voucher number as a ready means of reference.

WM. A. PRENDERGAST, Comptroller.

PETITIONS AND COMMUNICATIONS.

No. 3856.

President of the Board of Aldermen, City of New York, June 7, 1913.

Hon. P. J. SCULLY, City Clerk, City Hall, New York:

Dear Sir—I beg to advise you that I have this day transmitted to the Governor of the State my resignation as President of the Board of Aldermen of The City of New York.

For your information and for the files of your office I enclose a copy of my letter of resignation to the Governor. Respectfully,

JOHN PURROY MITCHEL.

June 6, 1913.

Hon. WILLIAM SULZER, Governor, Albany, N. Y.:

Sir—I hereby tender my resignation as President of the Board of Aldermen of The City of New York, to take effect immediately. Yours respectfully,

JOHN PURROY MITCHEL.

No. 3857.

Department of Public Charities of The City of New York, Foot of E. 26th St., June 3, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—Special revenue bonds to the amount of $55,000 are respectfully requested in order that the poor adult blind of The City of New York may be paid the sum of $100 each during the vear 1913, as authorized by an act known as chapter 299, Laws of 1913, which become effective April 16 1913, being an Act "to amend the Greater New York Charter in relation to expenditure for the relief of the blind." The third paragraph of this act, which refers to section 676 of the Greater New York Charter, reads as follows: "To provide the Commissioner of Public Charities with additional funds if any are needed, for paying during the current year, increased allowances created by this act, the Comptroller of said City may, when so directed by the Board of Estimate and Apportionment of said City, issue and sell certificates of indebtedness."

In this connection I might state that the appropriation allowed to this Department in the Budget for 1913, namely $55 000, is only sufficient to pay the "poor adult blind," who are entitled to receive this money, about $50 each.

Trusting that you will give this matter favorable consideration, as certainly these poor adult blind are entitled to this small pension from the City, as otherwise they would become public charges and be inmates of our homes or hospitals, I am

Respectfully yours, MICHAEL J. DRUMMOND Commissioner.

No. 3858.

Office of the Matilda Ziegler Magazine for the Blind, 250 West 54th St., New York, June 7, 1913.

To the Honorable Board of Aldermen, New York City:

Gentlemen—Please permit me to urge upon your body the great good to about 1,200 of the City's blind of your making provision for these destitute blind people, to receive $100 a year as a pension, instead of $50 as heretofore, under the Act (chapter 299, Laws of 1913), which became effective April 16, 1913, being an Act "to amend the Greater New York Charter in relation to expenditure for the relief of the blind."

For many years the destitute blind have received this $50, and there is no knowing the good that it has done, not only in relieving actual destitution, but in many cases blind people have thereby been enabled to get into little lines of business which have made them self-supporting. Under this law no one could receive the pension who was an inmate of an almshouse, and there is no doubt but this small amount has kept many a blind person from going to the almshouse and being wholly dependent on the City for support, and I am confident the bill has saved the City on this account actual money.

There are about three thousand blind in New York City, and only about twelve hundred of them ask and get this pension, and many of these have told me that if the pension was increased to $100 a year, they were going to make a superhuman effort to use this money to good advantage in trying to get into some line of work which would make them self-supporting, and they could then decline to accept the pension longer.

No one not familiar with the blind knows their great helplessness and dependence, and I believe it is the duty of the seeing public to do as much as possible to relieve the situation of these destitute blind, for their lot is hard enough at best.

I feel sure that you will not only realize that this is a just outlay, but will also feel that this money will indirectly be a saving to the City's funds. The increased pension has met with the approval of the Department of Public Charities of this City, and with every working organization for the blind of the City, and it is especially interesting to know how anxious the 1,800 blind of the City, who do not need or ask the pension, are, to see this become effective in order that their fellow blind, more needy than they, may receive the benefit of the pension. Yours very truly,

W. G. HOLMES, Manager.

P. S.—The magazine that I represent is a pure philanthropy, founded and maintained by Mrs. William Ziegler, of this City, at a cost to her of over $20,000 a year, she giving it free each month to every blind person in the United States and Canada who can read.

The New York Association For the Blind, 111 E. 59th St., June 9, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—We are informed that the Department of Public Charities has made a request upon your honorable body for the issue of bonds to enable the Department to disburse to the dependant adult blind of this City an amount approximating $100 each for the current year, under the provisions of the act known as chapter 299, Laws of 1913, which became effective April 16, 1913 being an Act "to amend the Greater New York Charter in relation to expenditure for the relief of the blind."

As an association which has been working for more than six years in the interests of the adult blind, we beg to add our hearty endorsement to this request of the Department of Public Charities. We believe that the wise and proper administration of pension to the adult blind is in many cases the most practical and economical method of relief, and that it often enables a family to be kept together, home conditions to be made bearable and great misery lessened, at the same time reducing the probable cost to the community were the dependants to be maintained at its expense.

On these grounds we beg to commend the request of the Department of Public Charities to your favorable consideration and earnestly plead for an early and favorable action upon it. Respectfully yours,

THE NEW YORK ASSOCIATION FOR THE BLIND,
By W. I. Scandlin, Field Agent.

I also enclose copy of report of the Corporate Stock Budget Committee, relative thereto. Yours very truly, JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, May 26, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—The Corporate Stock Budget Committee has had under consideration for some time the question of rescinding authorizations for which there is no longer any need, all of which have ceased to be of immediate importance.

We have found that authorizations to the extent of $8,040,417.56 can be rescinded without injury to the departments or to the City. It may be that later on some of the improvements for which these appropriations were made will become sufficiently urgent to justify a reauthorization. In view of the fact that there is such a large volume of authorizations outstanding, we believe it would be best to make these rescindments now, so that the City may be in better position to make authorizations for work that is imperatively necessary.

The following schedule shows the rescindments recommended:

REPORTS OF SPECIAL COMMITTEES.

Report of Special Committee on Investigation of Police Department.

New York, N. Y., June 10, 1913.

The undersigned members of the Special Committee appointed on August 5, 1912, by the Board of Aldermen of New York City to investigate the Police Department, submits the following report:

Preface.

During the early part of July, 1912, officers of the Police Department were openly accused of protecting from prosecution persons violating the law, and sharing in the profits of their crime. This accusation was made in a daily newspaper by Herman Rosenthal, a well known professional gambler. The charge was promptly taken up by the District Attorney of New York County, who summoned Rosenthal to his office. Preparations were made for an investigation by the Grand Jury, and it was announced in the daily press that Rosenthal would appear before the District Attorney on July 16, 1912, prepared to substantiate his charge.

Rosenthal was shot down by four assassins on a well-lighted thoroughfare, a few feet off Broadway, on the morning of July 16. Although several police officers were in the immediate vicinity, the murderers made their escape in an automobile without interference. The fact that Rosenthal was shot within a few hours of the time at which he was to testify against police officers, and the bold manner in which the murder was committed, at once created a widespread belief that police officers had instigated the crime.

Shortly thereafter Charles Becker, a Police Lieutenant, was indicted for the murder of Rosenthal. Becker had been entrusted with the enforcement of the laws against gambling, and enjoyed the confidence of his superior officers. He was later convicted of instigating this murder and sentenced to death.

The murder of Rosenthal caused intense public excitement and indignation. A sharp challenge of the morale and efficiency of the Police Department was made on all sides. The need was felt for a thorough investigation into the general administration and personnel of the department—important matters not within the scope of the criminal prosecutions directed against individuals, which at once had been begun by the District Attorney.

The Board of Aldermen on August 5, 1912, adopted the following resolution:

"Resolved, That a special committee of nine members elected to the Board of Aldermen, the first named to be chairman, be appointed, authorized, empowered and directed to inquire whether the laws and ordinances of The City relating to the Police Department of The City of New York are being faithfully observed, and whether the duties of the officers of such department are being faithfully discharged, and to examine and report whether there are any unnecessary, inefficient or unfit employees of said department; and generally in respect of any and all matters which will conduce to the orderly and economical administration of the affairs of the Police Department aforesaid; and that for the purpose of such inquiry such committee shall have all the powers and authority possessed by the Board of Aldermen to conduct such inquiry, including any and all powers that may be conferred upon a committee appointed pursuant to section 54 of the Greater New York Charter."

On the same day the following committee was appointed: Henry H. Curran, Chairman; Ralph Folks, Robert F. Downing, James Hamilton, O. Grant Esterbrook, W. Augustus Shipley, Frank L. Dowling, Francis P. Kenney and James J. Smith.

Introduction.

Immediately after its appointment the committee organized and selected Robert F. Downing as its secretary. It retained Emory R. Buckner as its chief counsel, and Messrs. Nathan A. Smyth, Charles S. Guthrie, William A. Moore and Louis Lande as associate counsel. Because of other duties Messrs. Smyth and Guthrie afterwards resigned and Harold S. Deming was thereupon retained as associate counsel.

The Committee has held 80 public sessions in the Aldermanic Chamber in City Hall, beginning September 10, 1912, and ending March 27, 1913. It has received the testimony of 224 witnesses, and has examined, through its investigators, tens of thousands of documents on file in the Police Department and elsewhere. The record of the proceedings before the Committee consists of 4,800 printed pages. A total sum of $40,000 was appropriated to meet the expenses of the investigation.

Early in the investigation the Committee became convinced that corruption and inefficiency in the Police Department are in large part due to administrative methods which make intelligent direction and accountability impossible. It determined that it could best perform its duty by making the administration of the department its principal subject of study. Corruption in the department has been recurrently shown by investigation for many years. It is apparent that mere occasional exposure is not the remedy for police evils. It has been the aim of the Committee not only to expose the individual grafter, but also to examine the causes which make grafting possible.

We have received testimony showing many specific instances of corruption and participation in crime upon the part of the police, from which many convictions have since resulted. This testimony emphasized the need and pointed the direction for a constructive inquiry.

On March 11, 1913, the Committee made a Preliminary Legislative Report. This report dealt only with matters requiring legislative enactment or repeal. It was made in advance of this final report that it might be available before the legislature finally adjourned. This Preliminary Report will be found hereto attached.

The Committee has been assisted in its work by the co-operation of Honorable Charles S. Whitman, District Attorney of New York County, in assigning one of his assistants, J. Robert Rubin, to aid our counsel. This assistance facilitated [illegible] prosecution and conviction of police officials accused before us. A detailed statement of indictments and convictions obtained by the District Attorney's office in progress of our investigation been appears later in this report.

The Committee has also substantially aided in the details of [illegible] inquiry by the Bureau of Municipal Research. This non-official [illegible] ded by special contribution from a private source to place at [illegible] mittee, without charge, many expert assistants.

The Citizens Union also rendered assistance to the C[illegible] portant statistical data.

To our amazement, many members of the department refused to sign formal waivers of immunity, and insisted upon claiming any freedom from prosecution which might arise from the giving of incriminating testimony. It seems incredible that members of the department should refuse to testify before a committee of the Board of Aldermen unless permitted to do so without waiving immunity from prosecution. Even those police officers whom witnesses before us had directly charged with extortion, burglary and robbery, refused to make any explanation or denial of the charges unless allowed to do so without waiving immunity. We might very naturally have expected a Police Commissioner to take drastic action in the case of any officer refusing to waive immunity. To our great astonishment, however, the Police Commissioner himself was the first so to refuse, upon the ground that our asking him to waive immunity was a "gratuitous insult." He thus furnished a safe precedent for the protection of grafters and others on the force who for reasons best known to themselves gladly followed his example.

The roll of members of the department refusing to waive immunity is as follows:

Commissioner Rhinelander Waldo, Deputy Commissioner George S. Dougherty, head of the Detective Bureau; Winfield R. Sheehan, Secretary to the Commissioner; Inspector Dennis Sweeney (since convicted), Captain Thomas W. Walsh (since convicted), Captain Dominick Henry, Captain William H. Kinsler, Lieutenant William W. Duggan, Lieutenant John Glynn, Detective Joseph Daley, Patrolman Henry Resmeyer, Patrolman Arthur Carmack, Patrolman Joseph Michaelson.

Our findings and recommendations follow herewith under appropriate headings.

The Present Police Commissioner.

We have become convinced that the present Police Commissioner, Rhinelander Waldo, is incompetent and unfit to perform the duties of his office. Many of the existing evils of the Department can be directly traced to his inefficiency and administrative blunders. The evidence before us, which will be discussed in detail in later sections of this report, shows conclusively his incapacity to administer the Department, in that:

1. He has failed to exercise his powers or to employ the means at his command to prevent a wide-spread system of blackmail and extortion by certain of his subordinates.

2. He has permitted to be given to the very men accused, for their own information, letters charging them with graft, without making independent investigation. No better protection could well be afforded criminal Policemen than the privilege of self-investigation.

3. He has refused to heed repeated warnings against personally selected subordinates who were at the time betraying him and the City.

4. He has neglected to discipline those Inspectors who have been proven either inefficient or significantly inactive. Raids over their heads by Headquarters vice squads have not resulted in reprimand, demotion, or other action.

5. He has neither secured nor made serious effort to secure from his subordinates accurate information concerning crime conditions in the city. The files of the Department contain inaccurate and misleading reports in great number, although the facts could readily have been ascertained.

6. He has made it possible for commanding officers to conceal from him valuable information by permitting them to make any disposition they choose of complaints made to them by citizens.

7. He has not controlled but coddled the superior officers of the Department. For example:

(a) He has established a pension board, composed of the presidents of the Captains', Lieutenants', Sergeants' and Patrolmen's associations to advise him concerning the disposition of each pension application. These men pass upon the pension applications of the members of their own associations.

(b) At the request of the Lieutenants he has removed the numbers from their badges. As a result, it is no longer possible for a citizen to report by number any one of the 600 Lieutenants in the city.

(c) He has remitted the fines imposed by his predecessor upon 42 commanding officers, but in no instance has he remitted a fine imposed by his predecessors upon a Patrolman. The remission of these fines was contrary to law and expressly against an opinion of the Corporation Counsel, on file at Police Headquarters at the time.

(d) He has reinstated, without court proceedings, many officers dismissed by his predecessors. Some of these reinstatements were contrary to the opinion of the Corporation Counsel on file in the Department, clearly illegal, and since nullified by the courts upon a taxpayer's complaint. Other reinstatments, though not illegal, were wholly without justification. In some cases they were made by the Commissioner after the courts had held the dismissals justified.

8. He has appointed to the Force many men who had sworn falsely upon their applications. He has done this in some cases against the specific recommendations of his Deputy Commissioners. He revealed his low standard for Policemen when he declared before us his willingness to appoint to the Force any man who had secured acquittal on any criminal charge, including murder, without reference to the circumstances or technical reasons for such acquittal.

9. He has increased at an alarming rate the already heavy burden of Police pension demands, surpassing in this respect all previous Commissioners for the same period of time. He has admitted that he has placed undesirable members of the Force upon pensions instead of upon charges.

10. He has seriously impaired the efficiency of the Detective Bureau by

(a) Too frequently changing the personnel of the Bureau; using the Bureau for individual reward and preferment rather than for developing detective ability.

(b) Abolishing the Headquarters Squad and the squads specializing in particular crimes, such as pocket picking, black hand outrages, etc.

(c) Discontinuing the morning "line up" of suspicious persons.

(d) Ordering the destruction of thousands of photographs of professional criminals.

(e) Failing to require adequate reports from Detectives. The system of records is now so defective that the Commissioner has given erroneous and wholly misleading statistics upon the work of the Detective Bureau in his latest annual report.

11. He has shown a vindictive spirit, inimical to the efficiency and morale of the Department. To illustrate:

(a) He dismissed from the Force Lieutenant John F. Stanton, in charge of the Bureau of Investigation of Applicants under former Commissioners, after Stanton had testified before us that many men appointed by Commissioner Waldo were of bad character, as shown by Stanton's official investigation. Within a few days after Stanton testified to these facts, a member of the Detective Bureau, named Oliver, made a charge of attempted extortion against Stanton, alleging that this crime was committed more than three years before. Oliver had formerly been Commissioner Waldo's chauffeur and had been promoted to the Detective Bureau by him. No adequate explanation was given for the delay of three years in making complaint. Stanton was tried upon this charge by First Deputy Commissioner McKay and dismissed from the Depa tment by Commissioner Waldo. We examined all the witnesses who had testified at Stanton's trial, and it was clearly apparent that Stanton was innocent of the charge, and that his dismissal was the result of the Commissioner's wrath.

(b) Patrolman Otto Nikly was fined fifteen days' pay by Commissioner Waldo for being off post. Deputy Commissioner Dillon testified that this was an unusually heavy punishment, "a heart-breaking fine." Nikly, believing that he had been unjustly fined, employed counsel and contested the legality of the Commissioner's action. More than a year later, the case being undecided, Nikly's counsel raised a technical point, showing by the records the inaccuracy of the Commissioner's answer in the case. The Commissioner immediately rescinded his action fining Nikly, reconsidered the original charge of being off post, and dismissed him from the Department.

12. He has given no assistance or genuine co-operation to those charged with the duty of investigating conditions in the Department. On the contrary, he has sought to obstruct and hinder such investigation and has apparently resisted the disclosure of [illegible]al facts. He has refused us reasonable access to the files of the Department. [illegible]luded our investigators from the various bureaus of the Department, and [illegible] to examine documents only upon separate and specific requisition. He [illegible]y general inspection of the records. He has prohibited members of [illegible]rom giving any information to our counsel or investigators except [illegible]on our witness stand.

Recommendation.

[illegible] the immediate removal of Commissioner Waldo.

[illegible]ldermen request the Mayor to relieve The City of New York from a Police Commissioner who, by temperament and conduct, has shown himself unfit to occupy his office.

GAMBLING AND PROSTITUTION.

Conclusions—Recommendations.

Discussion of Special Topics:

1. Extortion by Policemen.
2. Policemen in the Courts.
3. Degree of Enforcement.
4. Administrative Methods Employed in Enforcement:
   (a) Organization.
   (b) Information as to Conditions.
   (c) Method of Handling Complaints.

Gambling and Prostitution.

We have considered these subjects only as they involve police problems under present laws. We have not studied them as moral questions. Such investigation would have been beyond the scope of the resolution under which the Committee was appointed.

Conclusions.

We have arrived at the following conclusions after hearing much testimony and thoroughly examining the records of the Department. These conclusions are later discussed in detail:

1. Although the present Mayor and Police Commissioner have endeavored to enforce laws against gambling, their efforts have not been effective.

2. It has been their policy to enforce laws against prostitution only where outward conditions were disorderly or upon persistent complaint.

3. There has been widespread blackmail levied by police officials upon the keepers of gambling and disorderly houses.

4. This extortion has been made possible by weakened discipline and a failure to employ proper administrative methods. We readily understood the alliance between Policemen and violators of the law when our investigation revealed the following:

(a) A total failure effectively to check the work of police officials and to discipline those officers shown to be neglectful of their duties.

(b) The Commissioner's stubborn confidence in the integrity of men selected by him to supervise this work.

(c) A system of referring letters charging officers with misconduct and crime to the very men accused, for their own information.

(d) The Commissioner's lack of information concerning actual conditions.

(e) Ability of Inspectors and Captains to keep important complaints from the Commissioner and his Deputies.

(f) Faulty methods of handling complaints sent to the Commissioner.

(g) A hostile attitude toward citizen complainants.

(h) No supervision over testimony of Policemen in the courts.

Recommendations.

1. To enforce effectively laws against gambling and prostitution and to reduce to a minimum police corruption, the administrative changes recommended elsewhere in this report are essential. These include a more secure tenure for the Commissioner, an increase in the number of his Deputies, the abolition of the inspection districts and the establishment of the precinct as the police unit.

2. Headquarter's "vice" squads, operating under the Commissioner's personal direction, should be employed. These squads should be used more effectively than at present to check the efficiency and activity of commanding officers.

3. A small secret service squad, composed of men other than Policemen, should be employed by the Commissioner to secure evidence against corrupt police officials.

4. A system of reports should be devised to give the Commissioner in consolidated form accurate information concerning vice conditions in the City.

5. A central bureau should be installed for the effective disposition of all complaints received from citizens.

6. The testimony of Policemen in courts should be closely watched, and thorough investigation should follow contradictory statements and suspicious loss of memory.

Extortion by Policemen.

It has been testified before us that practically all of the proprietors of gambling and disorderly houses in the City have been compelled to make regular monthly payments to certain members of the Police Department for the privilege of conducting their illegal business; that these payments range from $50 to more than $200 per month in the case of disorderly houses, and, in the case of gambling houses, that the payments vary in accordance with the profits of the business done, sometimes running to very large amounts.

Shortly after taking office the present Commissioner organized a "vice" squad, with Lieutenant Charles Becker in charge. Becker operated directly from headquarters, under the personal direction of the Commissioner. Among other duties, he was entrusted with the enforcement of laws against gambling. In the preface of this report mention is made of the murder of Herman Rosenthal after his public accusation that Becker had been receiving a percentage of the profits of his gambling house. Becker was later convicted of this murder and sentenced to death. We have discovered that the Commissioner and the Mayor were repeatedly warned of Becker's disloyalty and corruption, not only by other City officials, but also by numerous written complaints.

The Commissioner not only failed to investigate these serious charges but issued a general order to the entire force complimenting Becker upon his work.

Mary Goode, frankly admitting herself to have been the keeper of a disorderly flat, willingly came before us as a witness to protest against police extortion. She testified that she had been compelled to pay certain police officials or their representatives $50 to $60 per month for the privilege of conducting her business. Some of these payments were made after the Rosenthal murder, and, indeed, during our investigation. She further stated that all women engaged in similar business with whom she was acquainted made regular payments to the police. Mrs. Goode was specific in her testimony, mentioning by name members of the Department, who since have been indicted.

George A. Sipp testified before us that while proprietor of the Baltic Hotel he was compelled to pay to members of the Police Department $100 a month. This money was paid to various Patrolmen sent by an Inspector or Captain. For a few years prior to his sale of the hotel in the autumn of 1910 the money was paid by him regularly to Patrolman Eugene Fox.

Sipp further testified that after he sold the Baltic Hotel he acted as an intermediary between the purchasers and certain police officials, receiving from the former $100 monthly, which he paid to Fox.

In the autumn of 1911 Sipp desired to purchase another hotel in the same inspection district. He asked Fox if this would be satisfactory to Inspector Sweeney. After receiving through Fox the Inspector's consent, the purchase was completed and renovation begun. Fox later reported to Sipp that the Inspector had changed his mind, because the new location was near a disorderly hotel which enjoyed the fullest protection and would brook no competition. Sipp then refused longer to collect money from the Baltic Hotel for the police.

Patrolman Fox thereafter collected directly from the cashier of the hotel, Thomas J. Dorian. Dorian testified before us reluctantly, but with apparent truthfulness. He had had no quarrel with police officials, had never been arrested, and was brought before us against his will. He corroborated Sipp as to the payment of money to certain police officials through Sipp. He further testified that from the autumn of 1911 down to the very moment of his appearance before us, December 12, 1912, he had paid Patrolman Fox $50, monthly, the amount then levied upon this resort by the police. It was obvious from the testimony and surrounding circumstances that the Baltic Hotel was a house of assignation.

Miss Mary Coleman, a member of the New York bar, testified before us that she had been active in attempting to suppress vice in the 43d precinct; that there were many disorderly resorts in that precinct running openly without the slightest police interference. She further stated that she had witnessed the passing of money to police officers by men connected with disorderly hotels, in one instance almost at the doors of the station house. Her complaints to Captain Thomas W. Walsh were unheeded.

We received other testimony showing the collection of money by the police from violators of the [illegible] which it seems unnecessary to recite in detail.

Imm[illegible] the testimony of these witnesses before us, Patrolman Fox [illegible]ear against him. Inspectors Sweeney and [illegible]ussey thereupon bribed Sipp to flee and [illegible]tate, but returned at the request of the [illegible]ing Sipp in every detail. He declared

that he had acted as the agent of Captain Thomas W. Walsh in collecting money from those permitted to violate the law. Walsh pleaded guilty to this charge and accused his inspector, Dennis Sweeney, of sharing in the profits of this system of official extortion.

Inspectors Sweeney and Murtha and ex-Inspectors Thompson and Hussey were at once indicted for bribery and for conspiracy to secure the flight of Sipp and to prevent Fox from telling the truth. They were tried, convicted and sent to prison.

Patrolman John J. Hartigan, employed by Inspector Sweeney in executing this conspiracy, swore falsely concerning it before the Grand Jury, and has since been convicted of perjury and sent to prison.

The following is a complete list of persons indicted during the progress of our investigation as a result of the prompt action taken by the District Attorney after the exposures made before us:

Former Inspector Dennis Sweeney, convicted of conspiracy, sent to prison for one year.

Former Inspector Dennis Sweeney, 13 indictments; extortion and bribery; awaiting trial.

Former Inspector James E. Hussey, convicted of conspiracy; sent to prison for one year.

Former Inspector James E. Hussey, two indictments; bribery; awaiting trial.

Former Inspector John J. Murtha, convicted of conspiracy; sent to prison for one year.

Former Inspector John J. Murtha, two indictments; bribery; awaiting trial.

Former Inspector James F. Thompson, convicted of conspiracy; sent to prison for one year.

Former Inspector James F. Thompson, two indictments; bribery; awaiting trial.

Captain Thomas W. Walsh, extortion; confessed; awaiting sentence.

Sergeant Peter J. Duffy, six indictments; extortion; awaiting trial.

Patrolman Eugene F. Fox, extortion; confessed; awaiting sentence.

Patrolman Thomas F. Robinson, extortion; convicted; sent to prison from six to ten years.

Patrolman John J. Hartigan, perjury; convicted; sent to prison two and one-half to three and one-half years.

Patrolman John Skelly, extortion; awaiting trial.

Patrolman William J. Smith, extortion; awaiting trial.

Patrolman Victor Meyer, extortion; awaiting trial.

Patrolman Thomas Heaney, extortion; awaiting trial.

Patrolman Charles E. Foye, perjury before the Committee; awaiting trial.

Edward J. Newell, counsel to Sipp; two indictments; bribery, confessed; sentence suspended.

David Meyer, subornation of perjury; awaiting trial.

Charles Dubelier, subornation of perjury; awaiting trial.

Ashley Shea, bribery; confessed; awaiting sentence.

Emanuel Maas, extortion; awaiting trial.

Sol. Wolf, extortion; awaiting trial.

We believe the exposures made disclose only a small fraction of the corruption existing in the Department. In the very nature of things the whole truth on such a subject cannot be ascertained. We have received sufficient evidence of criminal connection between the Police and violators of the law to become convinced that a large percentage of the Force having to deal with gambling and prostitution have participated in the spoils collected from these fertile sources of graft.

In view of these indictments and disclosures it is astonishing to note that on September 20, 1912, Police Commissioner Waldo, testifying before us, declared, "There is nothing wrong with the Police Department except public clamor."

Policemen as Witnesses in Court.

That Policemen have received sums of money for testifying in such manner as to produce acquittals and discharges has been stated to us by many witnesses. So common is this practice that it is colloquially known as "throwing" a case, or as a "turn out." Indeed, even where Police officers have regularly collected "protection money" it has been customary for them to make arrests at intervals and then, after receiving additional money demanded by them, to give only such testimony as would necessarily result in a discharge or acquittal. Sipp testified that this sort of arrest was known in the Department as a "friendly collar"; that convictions never resulted from such arrests, but that the employer of the persons arrested was called upon to pay to the Police a sum of money, generally $200, in each case. These so-called "friendly collars" have been frequently arranged, according to witnesses, in order to make some show of activity and thereby "cover" an Inspector or Captain.

The records show that in the case of some Inspectors convictions have resulted in less than 2 per cent. of arrests made under their supervision in the enforcement of laws against gambling and prostitution. Other officials in charge of squads engaged in enforcing these laws have secured convictions in over 50 per cent. of their arrests. We have found no indication that the Commissioner has caused investigation to be made of this surprising and suspicious ratio, although he has on many occasions condemned the courts for discharging prisoners in this class of cases. When a Policeman swears specifically in an affidavit to certain facts for the purpose of securing a warrant, and later makes contradictory statements in court, or suffers a loss of memory, thorough investigation should follow. We have not discovered that any such investigations are made. One of the City Magistrates stated before us that the testimony of Police officers in prosecutions for gambling, prostitution and illegal liquor selling was unreliable. There should be installed in the Department a rigorous supervision over Policemen in the courts.

Degree of Enforcement.

Witnesses have testified that just prior to the Rosenthal murder gambling and disorderly houses were more numerous than at any time for several years.

Former Inspector Hays testified before us that while he was in command of the Fourth Inspection District, commonly known as the "Upper Tenderloin," the Commissioner directed him not to suppress prostitution unless outward conditions were disorderly. This testimony was corroborated beyond any question by the records of the Department. An examination disclosed that for more than six months not a single arrest for prostitution was made in this district, although, as Inspector Hays said, it was matter of common knowledge that hundreds of disorderly houses and flats were contained within it. Inspector Hays talked with the Commissioner almost daily with reference to his general duties, and particularly with reference to the suppression of gambling, but was never criticized for his complete failure to enforce these laws.

Our examination of many Police officers and an exhaustive study of the records of the Department have convinced us that the laws against prostitution have only been enforced by the present Commissioner in cases where outward conditions were openly disorderly and in cases where persistent complaint was made, either by civic organizations or prominent citizens. That this policy has been pursued at the Mayor's direction is apparent from the evidence before us, including the Mayor's own testimony.

ADMINISTRATIVE METHODS EMPLOYED FOR ENFORCEMENT OF LAWS AGAINST GAMBLING AND PROSTITUTION.

Organization.

The responsibility for the enforcement of these laws has been placed upon the sixteen Inspectors in charge of inspection districts and upon special squads working from Headquarters under the personal direction of the Commissioner. The uniformed force, including the Captains, have been relieved from all responsibility for such enforcement. Policemen doing duty in plain clothes are no longer assigned to Captains. The Inspectors have staffs of officers performing duty in civilian clothes to aid them in enforcing the laws under discussion. These men, commonly called "plain clothes men," are selected by the Inspectors themselves, though formally assigned by the Commissioner. We discovered that many of them are officers who for years were assigned to Captains and Inspectors in the same capacity, and are known as veteran "ward men."

The special squads attached to the Commissioner's office, commonly known as "vice" squads, are now three in number. They are in charge of Lieutenants selected by the Commissioner. Their duties are to enforce the laws against gambling and prostitution and to perform other work assigned them. The members of these special squads are chosen by the officers in charge of them, though designated by the Commissioner.

On July 1, 1912, the number of Policemen performing duty in plain clothes attached to the sixteen Inspectors in charge of districts was 118. On the same date the members of the special squads numbered 40. The Inspectors confined themselves to their respective districts, whereas, the special squads covered the entire city. In both cases arrests were made upon the initiative of the commanding officers and at the personal direction of the Commissioner.

It has frequently been stated by the Commissioner that the special squads afford an independent check upon the work of the Inspectors in the enforcement of these laws. They have not been employed effectively for this purpose. In the first place, they have not been primarily concerned with the enforcement of the laws under consideration. For example, in July, 1911, out of 373 arrests made by the only special squad then in existence, only 31 arrests, or 8 per cent. of the whole, were made for violations of the laws relating to vice. In February, 1912, out of 470 arrests made by the same squad, only 46, or 10 per cent. of the whole, were made for these offenses. In both cases the balance of the arrests, amounting to 90 per cent. of the whole, were made upon charges of disorderly conduct, disturbance of the peace, etc. During the period studied by our investigators, August 1, 1911, to October 1, 1912, there were 3,490 complaints against gambling and disorderly houses received at Police Headquarters. Of this number only 102, or less than 3 per cent. of the whole, were referred to the special squads for investigation and action.

Furthermore, until after the Rosenthal murder, even this small activity by the special squads in the enforcement of these laws was wholly confined to the suppression of gambling.

Since the Commissioner has stated that he uses his special squads as a check upon his Inspectors, one would suppose that disciplinary action would follow gambling raids by them over the heads of Inspectors. Such is not the case. Scores of arrests for gambling were made by the special squads, and, after the Rosenthal murder, many arrests for maintaining disorderly houses. We examined several Inspectors in whose districts such arrests were made, but found none who had been rebuked, demoted, put upon trial, or even asked to explain his apparent inefficiency or suspicious inactivity.

Information as to Conditions.

The present Commissioner has not enforced the rules of the department designed to furnish him accurate information as to conditions throughout the city.

When we began our investigation we shared the general impression that the department maintains secret "police lists" on which could be found every suspected gambling house and disorderly resort in the city. Our examination has shown this impression to be wholly wrong.

The only method employed for regularly informing the Commissioner as to vice conditions is the monthly report by Captains of Precincts on what is known as "Form 29." This report is required by the rules of the department, and is called

> "A report for the month ending ———— of houses of prostitution, houses of assignation, bedhouses, poolrooms, places used for lottery or policy purposes, places used for gambling, and *suspicious places*.
>
> "*Note*—This report is to indicate the actual condition of affairs in the precinct for the month to which it pertains."

These reports, if properly prepared, should furnish the Commissioner a complete index of the city's condition at any moment. They would then be of great value as a basis for administrative judgment and action. As at present made, they are incomplete, inaccurate and misleading.

Captains have failed to report as gambling, disorderly or suspicious places many houses in which arrests were repeatedly made for these offenses.

During the period studied by our investigators, August 1, 1911, to October 1, 1912, arrests were made in 703 gambling and disorderly houses in Manhattan. Of these only 228, or about 30 per cent., appeared on Form 29. This failure to make accurate reports was not confined to a few Captains or Inspectors, but was general throughout the city, as is shown in the table hereto attached.

Although Captains had assigned to them no men in plain clothes for purposes of investigation Inspectors frequently referred complaints to them for investigation and report. In numerous cases Captains reported to Inspectors that places complained of were undoubtedly being used for gambling or prostitution, but that no "legal evidence" could be obtained by them. Yet the captains failed to report such places as suspicious upon Form 29.

During the months referred to the Department received complaints alleging the existence of gambling or disorderly houses in 2,643 different premises. It would be fair to assume that at least a majority of these places complained of would appear on Form 29 as suspicious places. We find that only 229 of the 2,643 places complained of were reported. That many of these complaints were well founded is shown by the arrests made because of them.

We examined many Captains for the purpose of ascertaining the method of making this monthly report. We found no captain who had received instructions as to its preparation. The captains differed widely in their conception of its nature and purpose. Some Captains asserted that they should report only places against which they had obtained legal evidence. Others said that after the obtaining of legal evidence an arrest and suppression of the place would follow, and therefore it should not be reported. Again, some captains declared that they should only report places when denied admission and inspection, while other Captains were of the opinion that no such place should be reported because internal conditions could not be learned.

It soon became evident that this monthly report, as at present prepared, is wholly worthless. The captains by way of defense asserted that the Commissioner received separate reports upon individual arrests. Investigation disclosed, however, that even these separate reports of arrests are inaccurate and receive little or no attention. Out of a total of 800 arrests we have found only 525, or 65 per cent., to have been currently reported. The inaccuracy of individual current reports of arrests throughout the city is shown in the table hereto attached. Moreover, reports of arrests, even though accurate, are of far less value than periodic general reports of suspicious places furnishing a vice map of the city.

Captains appearing before us stated that they had never been censured for inaccuracies in these monthly reports, notwithstanding their demonstrated incompleteness. The Inspector of each district "vouches for the accuracy" of these reports as a matter of routine. We could discover no instance where an Inspector had supplemented or corrected any of these reports although in many cases he had before him abundant evidence of their misleading character.

The regulations of the Department also require patrolmen to report to their Captains all suspected gambling or disorderly houses upon their posts. The rule is as follows:

> "Every patrolman will make notes in his memorandum book of all suspicious places on his post, particularly those which may be disorderly or used for gambling, either from the coming and going of men or for other reasons. These notes will be certified by the Lieutenant and reported to the Captain."

We called before us many Patrolmen, chosen at random, in order to ascertain whether this rule is obeyed. We found that several of them had never heard of the regulation, although printed in the book of rules, and none of them had ever obeyed it.

The rigid enforcement of this rule would be of inestimable value to the Commissioner, because every portion of the City is patrolled by some policeman. Captains, in preparing their monthly reports on Form 29 should have before them these reports made by Patrolmen as to conditions upon their posts. The Captains should supplement this information by independent investigation through other officers. They would then be able to give to the Commissioner a monthly report which would register with approximate accuracy the conditions of their respective precincts.

With the information at his disposal which the Commissioner could so easily secure by the enforcement of present rules, he would be in a position to gauge the efficiency and honesty of his subordinates. Without such information he must remain at the mercy of those who have betrayed him.

Method of Handling Complaints.

Although it has been shown that complaints constitute a most valuable source of information, there is no bureau or single official responsible for centralizing their disposition.

Complaints coming to Captains or Inspectors direct from citizens are handled as these officers desire; there is naturally no uniformity of procedure. It is within the whim of the official receiving them to investigate, to file, or even to destroy such complaints. They are rarely if ever forwarded to the Commissioner, nor is he advised in any manner concerning their receipt or disposition. Some Captains testifying before us defiantly claimed the right to destroy any official mail addressed to them by citizens. As practically one-third of the complaints made to the Department are received directly by the Captains, it is obvious that under the present practice these officials are in a position to suppress much valuable information. A definite system should be installed in the interest of efficiency and honesty.

The same lack of system characterizes the handling of complaints at headquarters. We find them received

Secretary to the Commissioner, "by direction of the Police Commissioner." The majority of such complaints are mechanically referred to such officials only for their "information." The balance are sent to them for "investigation and report." Inasmuch as no report is required on most of the complaints, these officials are given the opportunity of keeping from the Commissioner all information concerning their truth. It is extraordinary that out of 3,490 complaints received at headquarters against prostitution and gambling houses during the period of study, only 1,210, or 35 per cent., were referred "for investigation and report." 2,280, or 65 per cent., of the whole were never reported upon at all. Even of the small number reported upon, over 25 per cent. were forwarded from the Mayor's office.

We have found that every complaint forwarded by the Mayor has been referred "for investigation and report." Frequently citizens have sent duplicate complaints, one to the Mayor and one to the Police Commissioner. The latter would arrive at headquarters before the Mayor forwarded the one received by him. Whereas, the complaint received by the Commissioner would be referred to the Inspector involved for his "information," the duplicate afterwards arriving from the Mayor would be promptly sent "for investigation and report." The mere accident of a citizen's addressing the Mayor instead of the Commissioner frequently determined whether or not his complaint was properly investigated.

It does not appear to be the duty of any one to supervise reports on complaints. During the progress of our investigation we found that several complaints referred "for investigation and report" had been in the hands of investigating officers for over six months without explanation, although some of them charged police officers with dishonesty. Averages of excessive time spent in making reports are scheduled in table hereto attached.

As a rule the reports of inspectors and investigating officers are general and indefinite. Their phraseology is stereotyped and frequently meaningless. In reading them the conviction is irresistible that the only purpose of making reports is to show some formal action and disposition of the complaints.

Administrative officials fail to make any use of valuable information frequently contained in complaints. It is fair to state that the attitude of the entire department toward complaints is to dispose of them in as perfunctory and easy a manner as possible. Complainants are frequently regarded as hostile critics rather than as informants or citizens protesting against open violations of the law. The fact that complaints are often inspired by revenge or unsigned does not lessen their value if based upon facts. A former Police Commissioner testified that he had found anonymous complaints to be the most valuable of all.

With scarcely an exception we found no independent investigation of complaints in order to test the honesty and efficiency of the official making the report. Under such a system it is easily possible for false reports to be made repeatedly without the knowledge of the Commissioner.

An inexcusable blunder of the present administration has been the practice of furnishing to the very men accused complaints charging them with corruption. Not only has the Commissioner made it possible for commanding officials to keep from him valuable information concerning conditions, not only has he trusted them to dispose of all complaints received by them without reporting to him, not only has he failed to discipline Inspectors proving inefficient, not only has he failed to make independent investigations to test the accuracy of their reports, not only has he ignored the warnings of high City officials, but so blind has been his confidence in his personally selected subordinates that whenever he has received specific charges of their dishonesty and corruption he has given to them for their own information the very communications which, if independently investigated, might have been employed to drive from the force some of its vicious and criminal members. When Rosenthal was murdered there was an imperative demand by the public for investigation and prosecution. Yet, long before that time the Mayor and Commissioner had in their possession numerous complaints against Becker, Sweeney and other commanding officials which have since been proved true. The complaints against Becker, Sweeney and other Inspectors, Captains, Lieutenants, Sergeants and "plain clothes men" frequently gave in detail facts which could easily have been independently investigated.

Out of a total of 301 complaints charging members of the department with crime, 270 were referred to the men accused or to their immediate superiors involved by inference in the accusation. The Commissioner not only generously sent these charges to the officers involved, but in a large majority of cases did not even ask for an explanation or denial. The records show that 190 of these complaints were sent only for the "information" of the men charged! We have even found one such complaint sent to an accused Inspector "for information and *guidance!*" In the balance of the complaints the Commissioner asked the accused officers to make "investigation and report." This self-investigation by accused officials naturally produced but one result, a verdict of not guilty. Had the so-called "system" in the Police Department been asked to recommend a method of handling complaints against its members it could not have suggested a better scheme for its own protection than that actually employed by the Commissioner himself.

A few illustrations will suffice.

"March 27, 1912.

"Hon. W. J. GAYNOR:

"I would like to have you investigate quietly Lieutenant Becker. He is now collecting more money than Devery, and it is well known to everyone at Police Headquarters. Please do this and you will be surprised at the result. Yours,

HENRY WILLIAMS."

This complaint was forwarded to the Commissioner by the Mayor with the following letter:

"March 28, 1912.

"Sir—I am enclosing to you a letter purporting to be signed Henry Williams. Is it possible to find out who the writer is? I have received a large number of similar letters. Very truly yours, W. J. GAYNOR, Mayor."

Notwithstanding the fact that the Mayor stated that he had received a large number of similar letters, this complaint, on reaching headquarters, was handled in the following fashion:

"Respectfully referred to Lieutenant Becker for investigation and report. By direction of the Police Commissioner. W. R. SHEEHAN, Secretary."

On the same date, from an entirely different source, the Commissioner received a complaint giving specific information as follows:

"March 27, 1912.

"Dear Sir—I would like to let you know that a gambling house is run wide open under the protection of Jack Rose, Becker's collector, No. 145 West 45th street, run by Herman Rosenthal."

This complaint was handled at police headquarters in the one way least likely to ascertain the truth, as follows:

"Respectfully referred to Lieutenant Becker for remark. By direction of the Police Commissioner. W. R. SHEEHAN, Secretary."

The following letters refer to Inspector Sweeney, who at the time mentioned was in charge of the Sixth Inspection District and who has since been convicted and sent to prison.

"April 9, 1912.

"COMMISSIONER WALDO:

"Dear Sir—At No. 2335 8th avenue, betwen 125th and 126th streets, over the barber shop, there is is crap and stuss game running for some time. I wrote to you about this place and begged of you to close it up, but as yet nothing has been done, to my sorrow. Can you close this place up? If not, I will make it my business to have a society close it up. My son informs me that a man they call Doty claims to have paid your Inspector (Sweeney) the sum of $500 for protection. Now show me, by your actions, how far that protection goes. I will not write you any more, but will wait developments. A WOMAN."

When this complaint reached headquarters it received the following treatment:

"Respectfully referred direct to commanding officer Sixth Inspection District (Inspector Sweeney) for investigation and report. By direction of the Police Commisisoner. W. R. SHEEHAN, Secretary."

Inspector Sweeney, after investigating himself, reported to the Commissioner that he had interviewed a man known as "Dotty," who stated that he had not paid money to him or to any other police official. No further investigation was made.

"October 11, 1911.

"Hon. WILLIAM J. GAYNOR, New York City:

"Sir—I beg to inform you a few facts that may interest your department. These three notorious characters maintain a gambling house. Doty is one of the proprietors. He has been arrested and his picture is in the Rogues' Gallery. He has also served two terms for gambling and is now under two indictments for the same offence. Harry Hastings, one of his partners, is a desperate character who carries a gun at all times of the day and night and boasts of his ability to use a revolver. This individual killed a man out West. This fact is not generally known in this city but it should be an easy matter for your detectives to ascertain from which town he migrated and learn from the authorities there his record. The third man is Barney Reed, who boasts of his ability "to make connection and get right" every Inspector of Police as soon as he is transferred to the District wherein they operate. He now states that he "owns" Lieutenant Duffy, Inspector Sweeney's ward man, body and soul. The establishment which they maintain is a crooked one, and many of my customers have been fleeced there. While I heard this from authority which I consider unimpeachable, as it would be impossible to get my informants to testify to this in open court, I refrain from signing my name. In sending this letter to you direct I do not mean to cast any aspersions upon your Police Commissioner, for I have the utmost faith in his integrity, but I felt that communications might fall into the hands of some of his subordinates before he saw it, and the culprits advised of its contents. If some of your detectives, in whom the Commissioner has implicit confidence, can get evidence against the resort and arrest Harry Hastings without his getting any advance notice of it, the community could easily be rid of a very undesirable person, as they will surely find a revolver on his person, and I understand that is a felony. Yours truly, JUNIUS."

When this reached headquarters it was disposed of as follows:

"Respectfully referred direct to Commanding Officer Sixth Inspection District (Inspector Sweeney) for investigation and report, by direction of the Police Commissioner. W. R. SHEEHAN, Secretary."

Inspector Sweeney again investigated himself and made the following favorable report to the Commissioner:

"No such person as Barney Reed is known, nor has he made any connections with me. There is no Lieutenant Duffy attached to any precinct within the Sixth Inspection District, nor have I any ward man at my command.

"DENNIS SWEENEY, Inspector."

It will be noted that the complainant referred to Duffy as a *Lieutenant.* The Inspector failed to inform the Commissioner that, although no *Lieutenant* Duffy was attached to his staff, a *Sergeant* Duffy was.

EXCISE.

There has been little attempt to enforce laws prohibiting the sale of liquor at stated periods. Witnesses have testified before us that Sunday liquor selling in back rooms is general. We sent a group of investigators throughout the City on Sunday, September 8, 1912. Out of 344 saloons visited, 308 were found openly selling liquor. In a majority of cases the bar was exposed and liquor sold only in back rooms. In many cases, however, the liquor was sold over the bar.

In the early part of 1910 the Police Department issued General Order No. 17 with reference to the Liquor Tax Law. In the enforcement of this law all members of the force are forbidden to enter on Sundays and after one o'clock a. m., places licensed to sell liquor. Exception is made in the case of officers specially detailed to secure evidence of illegal sales. The Police Commissioner from time to time details a few officers to secure such evidence.

Recommendation.

The sale of liquor should be regulated by local legislative authority. If the public does not desire the enforcement of certain laws, appeal should be made to the legislative body controlling the matter. The Police Department should have no discretion with reference to the enforcement of law, because the enforcement of all laws must be a Policeman's first duty.

DETECTIVE BUREAU.

The function of this bureau is the detection of crime and the apprehension of criminals. It has nothing whatever to do with the enforcement of laws against gambling, prostitution and the illegal sale of liquor. The special squads attached to headquarters and the staffs attached to Inspectors, principally engaged in the suppression of vice, have no connection with the Detective Bureau. The police phrase, "plain clothes men," is never applied to members of this bureau.

Organization.

The bureau is under the general supervision of the Second Deputy Commissioner. Its executive head is an Acting Inspector stationed at headquarters, who has no other duties.

The City is divided into sixteen detective divsions, with boundaries co-terminous with the inspection districts. Each division is in charge of a member of the bureau known as a Division Commander, who, however, is not responsible to the uniformed Inspector of the district. To each precinct within these divisions are assigned Detectives, with headquarters at the various station houses. The group of Detectives in each station house is under the charge of a member of the bureau known as a Precinct Commander. Although they share the station house with the uniformed force, they are not responsible to the Captain or to any other uniformed offcer.

The Detective Bureau has upon an average 500 members, detailed to it from the uniformed force by the Police Commissioner. Of this number 150 are known as "First Grade Detectives," and receive a yearly salary of $2,250. The remaining members are paid the salaries received by them at the time of their assignment to the bureau.

Corruption in Detective Bureau.

That an alliance exists between some Detectives and criminals, as a result of which the spoils of crime are divided, and that detectives often inspire the commission of crime in order to make arrests, have been proved to our satisfaction.

Benjamin Levy, who had never been convicted of a crime, testified before us that at the request of officials in the Detective Bureau he had often induced criminals to commit burglary in order that they might be arrested. He narrated one such instance in detail, in which he was strongly corroborated by reputable citizens, including an official of an insurance company, a merchant, and others.

Levy testified that in this case Deputy Commissioner Dougherty, in charge of the Detective Bupreau, gave him $25 with which to purchase burglars' tools, and after he succeeded in the burglary paid him $75 for his "services." City vouchers for these amounts in Levy's favor were found in the Comptroller's office.

Under the direction of Detectives, Levy took the three criminals wanted to a loft adjoining his father's store, where the burglary was committed, with a squad of Detectives waiting nearby. These Detectives arrested the criminals as they walked out of the building, and took from them $3,500 worth of ostrich feathers, which they had just stolen. There was not the slightest opportunity for them to make away with any of the property.

After locking up the prisoners at the station house, the officers returned to the premises. Levy stated that in his presence they took a quantity of feathers. The owner recoved the goods stolen by the criminals, but the property taken by the Detectives was never seen again. Although the immediate arrest of the criminals resulted in a complete recovery from them of the stolen property, the owner suffered a loss of $1,500, which was paid by an insurance company with which he carried a policy against burglary. The owner also testified before us that the Detective in charge of this arrest exacted from him $175 in the back room of a saloon as a "reward for bravery."

Deputy Commissioner Dougherty and others involved were subpoenaed by us and asked to waive immunity before giving their testimony. This they refused, with one exception, and they were not interrogated. Notwithstanding the shocking nature of this testimony and the corroboration received, the Commissioner has taken no action whatever in the premises. It is not surprising that under such lax discipline some Detectives turn thieves.

A reputable merchant from Boston testified before us to the inefficiency of New York Detectives in a case where he had been the victim. In the course of his testimony he swore that a member of the bureau had boasted that he was worth $90,000 because he knew how to "do business."

Many other accusations of official dishonesty were made before us which it seems unnecessary to recite in detail.

We have not sought merely to expose individual corruption, but have endeavored primarily to seek the cause of so extraordinary a situation.

Administration and Efficiency of Detective Bureau.

Because of the vital importance of the work of the Detective Bureau we have devoted much time to investigating its administration and efficiency. We received testimony upon this subject from Hon. Norman S. Dike, Judge of the County Court of Kings County, and Hon. Edward Swann, Judge of the Court of General Sessions of New York County, who daily come in contact with Detectives in their courts; from Messrs. Carl C. Nott, James A. Delehanty and Robert Turnbull, members of the District Attorney's staff; from many business and professional men qualified to

give information concerning crime conditions of the City; from Second Deputy Commissioner Dougherty, in charge of the bureau; from Inspector Faurot, its executive head, and from many others. We have also received from our investigators an exhaustive report upon the filing system and records of the bureau. To recite the testimony of these witnesses would unduly prolong this report. We therefore summarize in the following conclusions and recommendations the results of our investigation:

Conclusions.

1. The Dectective Bureau is inefficient. The ability of a few of its members only emphasizes the incompetence of the majority.

2. There exists a partnership between some detectives and criminals, by which the profits of crime are shared.

3. Incompetent administration and inadequate supervision are primarily responsible for the inefficiency and dishonesty found among detectives.

4. Constant changes in the personnel of the Bureau without apparent reason make impossible effective work. From May 23, 1911, to September 1, 1912, the Commissioner removed from the Detective Bureau 290 men and assigned to it 254 men, without recording any grounds for these continuous transfers. These changes were made without consulting the exective head of the Bureau and against his judgment. It has been testified before us that detectives look upon their assignment as an easy berth. The method of selecting detectives is unscientific. We have discovered no systematic search for detective ability.

5. The abolition of the homicide squad, the Italian squad, the pickpocket squad and other squads specializing in the detection of various crimes, has been detrimental to the work of this branch of the department.

6. The assignment of all detectives to precincts and the failure to have at headquarters any detective squad for special work throughout the city have impaired the efficiency of the Bureau.

7. The destruction of thousands of photographs of unconvicted professional criminals and the abandonment of the practice of photographing prisoners charged with serious crimes have greatly crippled the work of detectives.

8. The discontinuance of the "line up" of prisoners at headquarters before masked detectives has injured the work of the Bureau. This "line up" for many years had been found effective in familiarizing detectives with dangerous criminals. It also had a deterrent effect upon the criminals themslves.

9. There is no system under which the criminal records of persons on trial are furnished in all cases to the presiding judge. Detectives frequently state that their prisoners are first offenders when an inspection of the departmental records would disclose previous convictions.

10. The system of reports and records is wholly inadequate either to furnish information to the Commissioner and his immediate subordinates, or to give them opportunity for proper supervision. As an illustration may be cited the fact that for 1912 the Bureau had no record whatever of 45 homicide cases found in the offices of the Coroners and District Attorneys, including numerous instances in which the defendants had actually been tried and convicted for murder during the year. Since the Detective Bureau omits all records of 45 murders in one year without discovery and correction, little faith can be placed in the accuracy of any of its reports.

11. The system of records is so faulty and poorly supervised that members of the Detective Bureau have no difficulty in withholding from the Commissioner knowledge of crime conditions throughout the city. Many complaints of citizens are suppressed by detectives. They also readily deceive the Commissioner concerning their activities and efficiency. They all too frequently label their failures with "closed" or "disposed of," and their inactivity on progressive cases they account for with "continued effort will be made." So complete is this deception that the Commissioner has given inaccurate and misleading statistics upon the work of the Detective Bureau in his latest annual report.

12. Members of the Detective Bureau should not be assigned to Magistrates' Courts for the purpose of serving warrants issued by the Magistrates on complaints of citizens made directly to the courts. This work for the most part is purely formal, and could easily be performed by civilian process servers or patrolmen. Detectives should be limited to detective work in order to increase their efficiency by experience and education. Moreover, the service of these warrants is used as a false measure of the Bureau's achievements. During 1912 14,000 such warrants were served by detectives. These are so classified as to give the impression of arrests resulting from detective work upon complaints made to the Police Department, whereas in fact they represent no detective work, but are the results of complaints made to the courts.

13. The "School for Detectives" is discussed elsewhere in this report.

Recommendations.

1. The present law empowering the Commissioner to transfer Policemen to and from the Detective Bureau at will should be continued.

2. The reasons for so assigning or removing Detectives should be recorded in detail. This would tend to reduce favoritism, would make the tenure of Detectives more secure, and would be useful for the subsequent guidance of Headquarters officials.

3. Detectives should be chosen only because they show promise of detective skill. The assignment of men to the bureau as a reward for personal bravery or because of favoritism should be stopped forthwith.

4. The personnel of the bureau should be kept as nearly constant as possible. No Policeman can become a Detective without experience. Only those Detectives shown to be inefficient should be removed.

5. The homicide squad, abolished by Commissioner Baker, and the Italian and pickpocket squads abolished by Commissioner Waldo, should be re-established, and other squads should be formed to specialize in the detection of various crimes. The testimony before us of Judges, District Attorneys, and police officials, was emphatic that specilization is essential if the Detective Bureau is successfully to cope with criminals.

6. There should be a detective squad at Headquarters for emergencies and for special work throughout the city. The present system of assigning all Detectives to precincts should be so modified as to combine the advantages of a central squad at Headquarters and of Detectives scattered throughout the precincts.

7. Photographs and identification records should be made of all persons charged with felony who have been held by a Magistrate for action by the Grand Jury, or directly indicted by the latter. Legislation should be enacted to effect this object.

8. The "line up" of prisoners at Headquarters should be re-established in some form in order to familiarize Detectives with the faces and habits of dangerous criminals.

9. The courts and District Attorneys should be furnished criminal records in possession of the department in all prosecutions.

10. Warrants issued by Magistrates should be served by civilian Process Servers or Patrolmen assigned for that purpose. Detectives should be confined to detective duty in order to become experienced and efficient.

11. The system of reports and records in the Detective Bureau must be thoroughly overhauled before any permanent improvement in its work can be expected.

(a) A system of efficiency records should be devised and indexed, by reference to which supervising officials could quickly determine past achievements as well as present assignment and progress of any Detective. These records should make impossible the present practice of often giving to one Detective credit for work performed by a Patrolman or another Detective.

(b) Precinct commanders of Detectives should be required to make records of all complaints received by them and to report to Headquarters action taken in every case. At present many complaints made by citizens in precincts are not recorded or reported.

(c) Cases under investigation should be reported regularly from precincts to Headquarters in sufficient detail to indicate time spent by Detectves, names of all Detectives concerned, names of witnesses interviewed and summary of their evidence, and reasons for action taken or for failure in results. The general assurances of continued effort should give way to specific facts.

(d) In homicide cases such reports should be especially complete and no homicide case should be "closed" without the personal approval of some supervising official.

(e) The reports of precinct and division commanders of Detectives should be so explicit as to afford comparison between the number of complaints received and the number of arrests and convictions resulting therefrom. At present the total number of complaints is set alongside the number of arrests, giving a false impression as to the efficiency of the bureau's action upon such complaints. Many thousands of formal arrests on Magistrates' warrants are now made by the Detective Bureau in cases where no complaints have been lodged with the Police Department.

(f) Consolidation, analysis and indexing of precinct reports should be made at Headquarters. This would secure a more accurate and honest compilation of records than is possible under the present system of leaving such work to the various detective districts.

(g) Competent and thoroughly trained officials at Headquarters should check the accuracy and sufficiency of reports sent from precincts. Daily analyses should clearly tell the story of crime throughout the city and the efficiency of the bureau in meeting it.

12. Detectives in court should be supervised in order that a check may be kept upon the adequate preparation of their cases and the truthfulness of their testimony.

SURGICAL BUREAU.

There are twenty-five Police Surgeons in the Department, one of whom, called Chief Surgeon, is the executive head of the bureau. These Surgeons rank as Inspectors of Police, receive a salary of $3,500 per annum, and, upon retirement, are entitled to the pensions of retired Inspectors. The City is divided into twenty-four districts, to each of which is assigned a Surgeon. The principal duties of the Surgeons, as prescrbed by the rules of the Department, are:

(a) To examine applicants for appointment to the force.

(b) To examine applicants for retirement on pension because of physical disability.

(c) To give medical aid to members of the force upon sick leave, and order their return to duty without unnecessary loss of time.

(d) To recommend to the Police Commissioner for medical examination members of the force in their judgment permanently unfit for police duty.

Police Surgeons are permitted to engage in private practice. It was impossible to ascertain the extent of this practice, as no time records are kept by the bureau, but it has frequently been alleged that they devote the major portion of their time and energy to their private patients. Efficiency in this bureau cannot be secured so long as Surgeons divide their attention between official duties and private professional work.

A salary of $3,500 per annum, with a pension of $1,750 after twenty-five years of service, or, at any time, upon incurring disability, would seem sufficient to secure competent physicians who would devote their entire time to the Department. If not, it would be much better to increase their salaries than to engage men whose attention and interest are so divided. The Surgeons advance the argument that they require private practice to give them sufficiently varied experience. This is readily met by the observation that 10,500 men properly attended would give all the experience needed. The tables prepared by our investigators and hereto attached, show hundreds of diseases to which Policemen are subject, varying from "abscess," at the head of the list, to "worry,' at its close. Furthermore, if Surgeons should devote their entire time to official duties, their number could be considerably reduced. If it were found that the medical care of the entire force did not afford the Surgeons sufficient clinical experience, they could be permitted to serve in public hospitals and dispensaries without extra compensation.

The duty of Surgeons to give medical attendance to members of the force does not extend to their families. When serving as family physicians to Policemen, fees are charged. The Police Surgeon, with the rank of Inspector, and with duties principally disciplinary in the way of regulating sick leaves and disability retirements, should have no dealings with Policemen where money is involved. On the one hand, the Policeman will fear to employ an outside physician whom he may prefer, feeling that his Surgeon desires his family practice, and is in a position to be severe with him if he be so inclined. On the other hand, there is a temptation for the Surgeon to be unduly lenient with an officer from whom he receives fees as family physician. Chief Surgeon Palmer testified before us that the practice of attending Policemen's families was considered improper, but he admitted there was no rule against it, and he was unable to state to what extent the twenty-four Surgeons under his control engaged in it.

The conception of their duties as almost wholly disciplinary and the privilege of engaging in private practice have combined to render passive the interest of the Surgeons in the general physical condition of the force. We have been much surprised to find no general medical survey of the force, no comprehensive study of its physical needs, no recommendations to the Commissioner as to the prevention of diseases in general or in individual cases.

The records kept by the Surgical Bureau are incomplete and inadequate. No private physician would record so little information concerning the diagnosis and treatment of his patients as appears upon these records. Even such facts as are recorded by the district Surgeons are not promptly transferred to the personnel cards at Headquarters. The posting of these personnel cards was found to be twelve months in arrears. The reason assigned by the Chief Surgeon for this wasteful delay was lack of sufficient clerical assistance.

Surgeons are not required to live within their districts. Only eleven Surgeons reside in the districts to which they are assigned. In some cases the Surgeon lives twenty-five miles from his district. Inasmuch as a large amount of the "medical attendance" to Policemen is given at the private offices of the Surgeons, the hardship upon the members of the force is apparent. Moreover, Surgeons should be available in cases of emergency.

Surgeons are not required to keep a given number of office hours. Investigation shows that three hours daily constitute the average office hours of the Surgeons. These are not especially set aside for the treatment of Policemen, but are the regular office hours of the Surgeons for all purposes. It was not found that any preference over private patients is given to a Policeman calling at the office of his district Surgeon. Nor must it be assumed that the district Surgeon is spending his itme in calling upon members of the force. The records show that only in rare instances are Policemen given regular and constant medical attention at their homes.

Surgeons have no regular hours of duty at headquarters, nor is any Surgeon assigned there for night duty. In the event of emergency the Surgeon assigned to the district involved is summoned, but there is no rule requiring him to keep within call.

The Surgeons are not even required to make sanitary inspection of station houses. Several years ago such inspection was required, but no one attached to the Surgical Bureau could give any reason why this important work was discontinued. The testimony before us of Mr. Charles Ball, a Sanitary Expert, disclosed shocking sanitary conditions in the sleeping quarters of many station houses.

Tables prepared by our investigators are hereto attached, showing surgical districts, assignment of Surgeons, classification of Policemen's diseases, etc.

Recommendations.

1. Police Surgeons should be required to give their entire time to official duties, and should not be permitted to engage in private practice. They should be rigidly prohibited from receiving fees for professional services rendered Policemen or their families.

2. The salary of the Chief Surgeon should be greater than that of the District Surgeons.

3. If the present salary of District Surgeons be not sufficient to attract competent men willing to devote their entire time and interest to official work, it should be increased.

4. The Surgeons should be required to make a complete physical examination of the entire force at least once a year. This should be done primarily for the purpose of preventing disability by treatment of diseases and defects or weaknesses in early stages.

5. The system of records in the Bureau should be improved. Present personnel cards should be posted to date.

6. The records should show a complete medical history of every member of the force.

7. Details of diagnosis and treatment in every case should appear upon the personnel card record.

8. Charges preferred against Policemen by Surgeons should be entered on the personnel cards.

9. Surgeons should be required to live within their districts.

10. A Police Surgeon should be on duty at headquarters at all hours of the day and night.

11. Surgeons should be required to make monthly sanitary inspection of station houses.

Members of the force retired upon disability pensions should be subject to periodical physical examination by the Surgeons in order that if found fit for duty they may be returned to the service. Such examination should be made by Surgeons other than those certifying to the disability at the time of original retirement.

TRAFFIC SQUAD.

This squad regulates the traffic on the public streets. It is composed of 1 Inspector, 3 Captains, 21 Lieutenants, 24 Sergeants, and 449 Patrolmen. Members of the regular force are transferred to and from this squad within the discretion of the Commissioner. No special examination for such appointment is held. The members of this squad are on duty for eight hours, of each day, and are not kept upon reserve. They are especially exempted from the provisions of the three platoon law.

BRIDGE SQUAD.

The Charter provides that the Police Commissioner may assign officers to assist the Department of Bridges in its work. This law should be repealed, although no such assignment has been made for several years. The policing of bridges has been under the direct charge of the Police Department. The Bridge Squad is under the supervision of the Inspector in charge of the Traffic Squad, and is composed of 1 Captain, 2 Lieutenants, and 91 Patrolmen, who are relievd from all other police duty.

TENEMENT HOUSE SQUAD.

Under the provisions of the Charter this squad is assigned by the Police Commissioner to assist the Tenement House Department. It is composed of 1 Sergeant and 13 Patrolmen, who are relieved from all other duty. We recommend the abolition of this squad by law, as the Inspectors in the Tenement House Department are quite competent to discharge the duties now performed by these Policemen.

HEALTH DEPARTMENT SQUAD.

Under the provisions of the Charter this squad is assigned by the Police Commissioner to assist the Health Department. It is composed of 1 Lieutenant, 2 Sergeants, and 50 Patrolmen, who are relievd from all other police duty. We recommend the abolition of this squad by law, as this work should be performed by Inspectors of the Health Department.

BOILER SQUAD.

The Charter places upon the Police Department the duty of inspecting all boilers and licensing Stationary Engineers and Firemen. This squad is composed of 1 Lieutenant and 12 Patrolmen, who are relieved from other police duties. This important work should be placed in charge of a bureau established for the purpose by local authorities. Police Commissioners have repeatedly asked that the Department be relieved from this non-police duty. We so recommended in our Preliminary Legislative Report.

CENTRAL OFFICE SQUAD.

The Central Office Squad is a classification to include various bureaus and groups of officers assigned to headquarters and elsewhere. It comprises the Policemen attached to the Inspectors, the members of the special squads attached to the Police Commissioner, the Bureau of Repairs and Supplies, the School for Recruits, the Telegraph Bureau, the Property Clerk's Office, the clerical staff of the Department, the men assigned to the various public offices of the City, and Messengers, Custodians, and Chauffeurs.

Duties performed by the clerical staff, the men assigned to the Telegraph Bureau, the public offices, the Property Clerk's Office, the Bureau of Repairs and Supplies, and by Messengers, custodians, and Chauffeurs, should be performed by civilian employees. These are not police duties, and it is unfair to ambitious policemen as well as to the Department to assign members of the force to such work.

Special mention should be made of the Bureau of Repairs and Supplies. This Bureau has charge of the purchase of all supplies, the making of all repairs, the purchase and maintenance of all horses and equipment, the operation of the Headquarters Building, and the supervision of all new construction.

The Bureau, though formerly in charge of an Inspector, and later of a Captain, is now administered by a Lieutenant, under the supervision of the First Deputy Commissioner. Five additional Lieutenants and seventeen Patrolmen are detailed to this Bureau, and one hundred and seventy-five civilians are also employed.

The Bureau expends nearly $1,000,000 annually.

The administrative head of this important Bureau should be a civilian, of business experience, chosen in accordance with Civil Service regulations. The entire staff of the Bureau should be selected in the same mannr.

Increased efficiency at less cost and a continuity in administrative policy would thus be secured.

The work of the School for Recruits is discussed in a later section of this report.

ORGANIZATION AND PERSONNEL OF POLICE DEPARTMENT.

The department has approximately 10,500 members, distributed at the close of 1912 as follows:

Police Commissioner	1
Deputy Police Commissioners	4
Chief Inspector	1
Inspectors	18
Surgeons	25
Captains	97
Lieutenants	588
Sergeants	639
Patrolmen	8,933
Matrons	70
Civilian employees	263

Before discussing in detail each of the above ranks, we give below a summary of our conclusions and recommendations:

Conclusions and Recommendations.

1. Control by State legislation over the organization and administration of the department is inimical to efficiency and discipline. The Police Department shqould be governed by local legislative and executive authorities. Home rule is essential.

2. We approve the present plan of having as the executive head of the department a civilian commissioner appointed by the Mayor. We do not favor the creation of a chief of police chosen from the uniformed force.

3. Frequent changes in the commissionership without adequate cause assigned have seriously crippled administrative efficiency. We believe present laws should be amended to accomplish the following result: The Police Commissioner should be appointed by the Mayor for a term of eight years, but should be removable at the will of the Mayor or the Governor, whenever, in the judgment of either, the public interest so requires. Before the Commissioner is removed, however, he should be apprised of the reasons for his contemplated removal and should be given an opportunity to appear at a public hearing before the Mayor or Governor, as the case may be, to make any explanation or answer he desires and to call witnesses if he chooses. The Mayor or Governor should have the absolute power to remove the Commissioner after such public hearing. No court review of the proceedings should be allowed. Further discussion of this recommendation appears below under "The Police Commissioner."

4. The present salary of the Commissioner, $7,500, should be increased to $10,000.

5. The present number of Deputy Commissioners is inadequate. They are not able to give the Commissioner sufficient supervisory assistance. The Charter should be amended so as to enable local authorities to increase the number of Deputy Commissioners as the occasion requires.

6. The inspection district is to large to serve as an administrative unit. The precinct is better adapted to this purpose. Inspection districts should be abolished and the number of Inspectors substantially reduced.

7. The salary paid first year Patrolmen, $800, is insufficient. They should receive $1,000 for their first year's service, with an annual increase of $100 until a maximum salary of $1,400 is reached.

The Police Commissioner.

The Commissioner is now appointed by the Mayor for a term of five years, but is removable by him or the Governor at will. There have been eight Commissioners since the abolition of the Police Board and the creation of a single headed comsionership, as follows:

Michael C. Murphy	1901-1902
John N. Partridge	1902-1903
Francis V. Greene	1903-1904
William McAdoo	1904-1906
Theodore A. Bingham	1906-1909
William Baker	1909-1910
James C. Cropsey	1910-1911
Rhinelander Waldo	191[illegible]

Commissioner Bingham was removed without charges preferred. The other Commissioners resigned, the reasons for such resignations not being made public. Among these eight Commissioners were military officers, lawyers and business men.

We believe lack of control over the force by the Commissioner to be the fundamental weaknesses of the department. One of the principal causes of this lack of control is his brief and uncertain tenure.

With each change of Commissioner have naturally come radical changes in methods of arministration involving regulations of the department, the personnel of the deputies, a difference in attitude of the Commissioner towards the force and of the force towards the Commissioner. The effect upon discipline is obvious.

Former Commissioners have testified before us that it takes from one to two years for a Commissioner to become familiar with the complex problems of his office. If a Commissioner is to be successful he must know intimately the personal history and character of all his commanding officers. He must also become thoroughly familiar with the spirit and the ethical standards of the entire force.

Under the present system the force does not respect the Commissioner. Former Commissioner McAdoo, when asked by us as to the attitude of the force towards the Commissioner testified: "They tolerate him; they sometimes feel sorry for him." Former Deputy Commissioner Woods testified: "Most of the Commissioners are birds of passage. The force gets a glimpse of them flying over and hardly has time to determine their species."

Inspectors, Captains and Lieutenants feel more powerful than the Commissioner. They know that they are permanent while he will probably be short-lived. Their belief that any present Commissioner may soon be removed is one of the most serious factors in the present police problem. Their attitude toward the Commissioner makes impossible genuine discipline and effective co-operation.

The Honorable George B. McClellan, for six years Mayor of New York, testified before us as follows:

> "The City of New York has a police force in which the rank and file is better than the rank and file of almost any department in the world. The 'system,' so-called, that every man in authority in the city government must have run against time and again, is centralized not in the rank and file of the Department, but among the Inspectors, Captains, the Lieutenants, and possibly the Sergeants * * *. They are thoroughly tainted by the 'system.' They have a false corps spirit. That corps spirit has been hammered into them from the moment they put on the blue coat, and lasts with them till they die or are retired. It is a spirit that preaches the necessity of hanging together—to stand by the man who is a policeman, no matter if he is the worst scoundrel unhung."

The morale and general attitude of the superior officers of the force are important elements in police administration. No Commissioner can succeed unless he is able to command their respect and secure their genuine support. If this is to be accomplished the commissionership must be more constant in the future than it has been in the past. The Commissioner must feel secure in his position, and, what is of equal importance, the force must realize it. On the other hand, the Mayor's responsibility and power must be continued. Sufficient protection would be afforded a Commissioner if the law required the Mayor or Governor before removing him to apprise him of the reasons for his proposed removal and give him an opportunity at a public hearing to make such explanation or defense as he should desire. After such public hearing the Mayor or Governor should have the absolute power to remove the Commissioner. No review by the courts should be allowed.

Under the plan proposed centralization of power and responsibility in the Mayor would not be impaired. He would still possess the unrestricted power of removal, but would be compelled to assign reasons for his action. A mayor should be willing to take the public into his confidence in so important a matter. If required to grant the Commissioner a public hearing a Mayor would hesitate before removing him for purely personal or political reasons. This provision would also prevent a Mayor from assigning specious reasons for his action.

We recommend a term of eight years, for the following reasons: It is important that the force should believe that the Commissioner will remain in office a number of years and should also believe that he is entirely divorced from politics.

If the term were made co-terminous with that of the Mayor it would be assumed that every Mayor would appoint his own Commissioner. With the approach of each municipal campaign much discussion throughout the force would ensue as to the probability of a change of administration. This would seriously injure effciciency and discipline. The present term of five years was undoubtedly established to avoid this periodical disturbance. That it has failed in its purpose has been due to summary removals and requested resignations.

It has been urged that a Mayor must select his own Commissioner to carry out his policies of administration. But there can be no policy in the preservation of order, the protection of property, and the enforcement of law. The Mayor, the Commissioner, and every member of the force are sworn to enforce all laws. The Commissiner is the sole administrative head of the Department and his duties are so important and exacting that he cannot serve as a political adviser to the Mayor.

If a newly-elected Mayor desires to appoint a Police Commissioner, but can give no reason for removing the one in office, then a new Commissioner should not be appointed.

The law should require the Mayor to hold a public hearing whenever, by a majority vote, the Board of Estimate and Apportionment or the Board of Aldermen shall adopt a resolution calling for the removal of the Police Commissioner and stating reasons therefor. The final and absolute decision upon the question of the removal of the Commissioner should, however, be left with the Mayor.

The Deputy Commissioner.

Four Deputy Commissioners are now provided by law. They are appointed by the Commissioner and are removable by him at will. During the administration of the eight Police Commissioners above referred to, there have been thirty-one Deputy Commissioners.

The Deputies constitute the Commissioner's civilian cabinet. Their efficiency as confidential civilian aides is much impaired by the amount of administrative work necessarily imposed upon them. Additional Deputies are much needed. Some of these Deputies should be entirely relieved from administrative work, in order to render effective assistance to the Commissioner in his supervision of the force.

The duties of Deputies are assigned by the Commissioner. Under the present administration the duties of the Deputies are as follows:

The First Deputy Commissioner is in charge of the uniformed force. He also has under his care the Surgical Bureau, the Telegraph Bureau and the Bureau of Repairs and Supplies, which spends nearly $1,000,000 per annum.

The Second Deputy Commissioner is in charge of the Detective Bureau and the Property Clerk's office.

The Third Deputy Commissioner conducts the trials of delinquent policemen in the Boroughs of Manhattan, The Bronx and Richmond. He also is in charge of the Pension Fund, the Boiler Squad and the School for Recruits.

The Fourth Deputy Commissioner is in charge of the Boroughs of Brooklyn and Queens. He conducts trials of delinquent policemen in those two boroughs.

The Chief Inspector.

The Chief Inspector is chosen from the Captains or Inspectors by the Commissioner, and his designation as Chief Inspector is revocable at will. As Chief Inspector he receives the salary of an Inspector. He is at the head of the uniformed force, and corresponds to the former Chief of Police, but he possesses no powers other than those delegated to him by the Commissioner. The jurisdiction and authority of the Chief Inspector are great or small, as the Commissioner elects. The present Chief Inspector has testified that he is in charge of routine matters affecting the uniformed force. He makes no recommendations for assignments or transfers. He has no responsibility in connection with the enforcement of laws against gambling, disorderly houses, or the illegal sale of liquor. The Inspectors do not report to him concerning their activities.

The former Chief of Police possessed certain statutory powers to the exclusion of the Commissioner. He was a subordinate more powerful within the limits of his authority than the Commissioner himself. We have been urged by a few witnesses to recommend the re-establishment of the office of Chief of Police. We are opposed to giving to any subordinate powers which a Commissioner cannot take away.

We believe that the Commissioner can best employ the Chief Inspector as a disciplinary aide in all routine police work by seeking to elevate the position in such manner as will cause the force to regard the Chief Inspector as its uniformed head. His salary should be fixed at an amount somewhat larger than that of other Inspectors.

Inspectors.

There is at present no rank of "Inspector." The Charter provides that the Commissioner may detail, not to exceed nineteen, Captains to act as Inspectors. This detail may be revoked at any time. During the period such captains act as Inspectors they receive an advance in salary. The Acting Inspectors are popularly known as "Inspectors," and are referred to in that manner throughout this report.

The City is divided into sixteen inspection districts, each district comprising two or more precincts. An Inspector is in charge of each district. Thus the juris-

diction of Inspectors is territorial rather than functional. The administrative unit of the department may be said to be the inspection district. The entire supervision of all police work (except that of detectives) in the inspection district is under the direct charge of the Inspector. His duties include disciplinary control over his district and the enforcement of all laws and ordinances, including those against gambling, disorderly houses and the illegal sale of liquor. For the enforcement of these latter laws he is provided with a special staff of Policemen doing duty in plain clothes. Discussion of the Inspectors' activities in this respect appears elsewhere in this report.

We believe the precinct, instead of the inspection district, should be the administrative unit. The inspection district is too large for this purpose and should be abolished. The number of inspectors should be reduced. A few inspectors could be of assistance to the Commissioner by serving upon his personal staff. They could investigate important complaints, become aids to the deputies, act as inspectors at large, serve in emergencies as commanding officers, and maintain such general supervision of the force as the Commissioner might prescribe.

The present law enabling the Commissioner to appoint Inspectors from among the captains, and revoke such appointments at will, has been the subject of considerable discussion. The majority of former commissioners testifying before us approved this plan. It was declared by others that no Inspector will properly discipline Captains under him because at any moment he may himself become a captain. In our judgment a more permanent tenure for the Commissioner would effectively meet this objection. Furthermore, we believe that a Commissioner should be empowered to select a uniformed cabinet—inspectors as well as a civilian cabinet—deputies. This he cannot do if the rank of Inspector be made permanent.

Captains.

The inspection districts are divided into precincts, each of which is in charge of a Captain (or a Lieutenant acting as Captain). There are 97 Captains in the Department at the present time. They are promoted from the raink of Lieutenant from an eligible list prepared by Civil Service Commission after a competitive examination.

The Captains are not now held responsible for the enforcement of laws against gambling and disorderly houses. Their activities in the enforcement of excise laws are confined to observations from the street.

As recommended above, the precinct and not the inspection district should be the administrative unit of the department. Each Captain should then be held strictly accountable for the enforcement of all laws in his precinct, including those against gambling and prostitution. To assist him in this work, there should be assigned to him an adequate staff of Policemen doing duty in plain clothes. This staff should be selected by the Commissioner or one of his Deputies, and not by the Captain himself, since a corrupt Captain would be likely to choose dishonest men to serve as his personal aides.

Lieutenants.

There are at present 588 Lieutenants in the Department. They are promoted from the rank of Sergeant from an eligible list prepared by the Civil Service Commission after a competitive examination. Six Lieutenants, on the average, are assigned to each precinct. The duties of Lieutenants are divided between "desk duty" and patrol. The Lieutenant on "desk duty" is in command of the station house in the absence of the Captain; he "turns out" the men for patrol; reads the orders of the day to each platoon, and assigns the members of the command to their respective posts. In certain cases he is empowered to administer oaths and accept bail. At the desk he takes the pedigree of prisoners when arraigned, records telephone communications and keeps the books of the precinct.

The duty of the Lieutenant on patrol is to supervise Sergeants and Patrolmen.

Lieutenants are also assigned to special duty by the Commissioner, and are frequently transferred to the Detective Bureau.

Sergeants.

There are 639 Sergeants in the Department assigned to the various precincts. They supervise the patrolling of posts.

Sergeants are appointed by the Commissioner from an eligible list prepared by the Civil Service Commission after a competitive examination.

Patrolmen.

There are 8933 Patrolmen in the Department. They are appointed by the Commissioner from an eligible list prepared by the Civil Service Commission after a competitive examination. Discussion upon the selection of Patrolmen appears elsewhere in this report.

The duty of the great majority of Patrolmen is the patrolling of posts. Many Patrolmen, however, are assigned to other duties as follows: Traffic Squad, Detective Bureau, plain clothes duty for Inspectors, plain clothes duty on special squads, Department of Health, Tenement House Department, Telegraph Bureau, Boiler Squad, Attendance at public offices, Doormen, Patrol wagon drivers, Coachmen, Chauffeurs, Hostlers, kennel duty, Engineers and Firemen, bicycle repairers, Clerks, Stenographers, Typewriters, Messengers, Draftsmen, Interpreters.

Many of these duties could be performed by civilian employees with greater efficiency and at less cost to the City. It is unfair to the Patrolman ambitious for promotion to give him little or no police experience. Nor is it fair to the Department to have charged against it five hundred Police officers who are doing work of this character. A table showing work done by members of the Department which should be performed by civilians is hereto attached.

The rank of Patrolman during the first five years of service is divided into seven grades, established by statute. These grades, with their corresponding salaries, are as follows:

Seventh grade, first year's service, $800 per annum.
Sixth grade, after 1 year's service, $900 per annum.
Fifth grade, after 2 years' service, $1,000 per annum.
Fourth grade, after 3 years' service, $1,150 per annum.
Third grade, after 4 years' service, $1,250 per annum.
Second grade, after 4½ years' service, $1,350 per annum.
First grade, after 5 years' service, $1,400 per annum.

All members of the force are required to purchase and maintain their uniforms and equipment. They are also required to provide and maintain mattresses, pillows, blankets and linen for their beds in station houses, where they are obliged to sleep when on reserve.

In order to learn the economic condition of Policemen during their first two years of service, the committee sent trained women investigators to the homes of 100 Patrolmen. Tables are hereto attached showing (a) minimum equipment and maintenance expense of first year Patrolmen; (b) rent, rooms occupied and number in family; (c) contributions to Police societies and insurance: (d) average minimum and maximum family budgets; (e) interesting answers to selected Police questions.

This investigation showed that the average family budget of first year Patrolmen is $1,086.12. Of this sum $237.41 is spent for Police purposes: Equipment, pension fund, benefit societies, station house fees, etc. Inasmuch as the first year Patrolman receives $800, it is evident that he must incur an indebtedness of nearly $300 during his first year.

The average family budget of the second year Patrolmen is $1,093.05. Of this sum, $198.83 is spent for Police purposes. This budget does not include the repayment of any money borrowed during the first year.

Our investigators found Policemen and their families, during these first two years, exercising rigid economy. Facing a situation where the income is less than the cost of living, with the possibility of illness and misfortune always present, the Policemen and their families are uniformly discouraged. They are frequently in the hands of loan sharks, and are often exploitated by installment houses. Under the rules of the department payment of debts can be enforced, and charges for non-payment of debts are frequently made against Policemen.

The Patrolman's increases of salary are generally expended in an attempted discharge of indebtedness, so that there is in reality no increase in his available income. Investigation shows that the average married Patrolman begins his third year of service with an indebtedness of several hundred dollars. At the same time he is only too likely to observe the apparent wealth and ease of some of his superior officers.

We believe the City should provide and maintain comfortable and healthy quarters for all members of the force on reserve. We disapprove the present system under which Policmen are compelled to provide and maintain their own beds.

The present method of patrol is controlled by mandatory legislation, and is termed the "three platoon system." Under this system the patrolling force is divided into three platoons, and no member of the force can be called upon to patrol more than eight hours in any one day. It is made a misdemeanor for the Commissioner or any commanding officer to take a Policeman from reserve duty except in case of extreme emergency.

Under the present administration the system of patrol as formerly existing has been modified by the establishment of 1323 "fixed posts." These "fixed posts" are established only in certain sections of the City, and are four blocks apart. The system is in operation only during the night hours. Its object is to have a Policeman at a fixed post where he may readily be found. The men thus stationed alternate with Policemen on regular patrol. The "fixed post" system requires an additional number of men, and the sections of the City where it is established are policed at the expense of other sections.

We have prepared a table, hereto attached, showing the area of all precincts, their population, miles of streets, number of patrol posts, average number of Patrolmen for the past four years, and crime statistics for the same period.

Matrons.

There are 70 matrons assigned to the various precincts, who act as custodians of women prisoners. They are members of the uniformed force, subject to all the rules, regulations and benefits of Policemen and receive an annual salary of $1,000.

MATTERS AFFECTING GENERAL WELFARE OF FORCE.

Appointments.
School for Recruits.
School for Detectives.
Promotions.
Trial and punishment of delinquent policemen.
Reinstatement of dismissed policemen.
Remission of fines.
Pensions.
Sanitary condition of station houses.

Appointments.

The character of the recruit is of vital importance to the efficiency and honesty of the Police Department. He is vested with great power for good or evil. He is called upon constantly to testify in court on behalf of the State. The man who makes a false statement in his application in order to conceal some fact which he thinks may unfavorably affect him, is the kind of man who later will perjure himself upon the witness stand in order to secure a conviction or extort a bribe. Throughout the policeman's service his commanding officers must rely upon his fidelity and trustworthiness. The man who enters the force with a lie upon his lips is the type of man who later will betray his superiors.

Appointments to the force are made by the Police Commissioner from an eligible list prepared by the Civil Service Commission after a competitive mental and physical examination. About 300 patrolmen are appointed during each year. Other ranks are filled by promotion. Appointments are made "on probation" for a period of six months, the Commissioner having the power to refuse permanent appointment to any probationer at the expiration of that time whose services are unsatisfactory or who does not show promise of developing into a competent policeman.

We have found investigation of the character of the men appointed to be wholly inadequate. During the administration of Commissioner Bingham a member of the force was caught committing a burglarly. Investigation disclosed this officer to be an ex-convict. General Bingham thereupon established a bureau of investigation within the Department, whose duty it was to examine into the history of men certified for appointment to the force. This bureau did very efficient work. Its activities disclosed that about 12 per cent. of the men certified for appointment were wholly unfit to become policemen, either because they had sworn falsely upon their applications, or because they were ex-convicts, or because their reputations were bad. This bureau was further developed under Commissioners Baker and Cropsey, but was abolished by Commissioner Waldo immediately upon his taking office. His explanation before us for abolishing so useful a bureau was that such work should be performed by the Civil Service Commission. The president of the Commission testified that the number of men at his disposal for this work was wholly insufficient for any effective investigation.

At the time of its abolition the bureau of investigation had examined into the history of candidates near the head of the list but not yet appointed. From the records of such examination we have discovered that Commissioner Waldo knowingly appointed to the force between 30 and 40 patrolmen who had sworn falsely in their applications in order to conceal previous arrests, indictments, discharges from employment, etc. All of these men had been previously rejected by Commissioner Waldo's predecessor, Commissioner Cropsey. The only explanation we could secure from the Commissioner for making these unfit appointments in the light of the evidence before him, was that investigation of character of candidates should be made only by the Civil Service Commission; that he was not responsible for the character of men certified by that Commission, and that any man placed upon the eligible list was satisfactory to him. The president of the Civil Service Commission testified, however, that many of these men were recertified without investigation at the explicit request of Commissioner Waldo.

It is unnecessary to quote from the record in detail the evidence adduced before us concerning the unfitness of these men to become policemen. A few illustrations will suffice. The facts set forth in the following cases were disclosed by the bureau of investigation in the Police Department and were specifically called to the attention of the Commissioner before appointments were made.

Michael Imbriale swore in a former application that he had never been arrested. Records in the Police Department and specifically called to the attention of Commissioner Waldo, revealed that he had been arrested for shooting and killing a man, indicted, and acquitted; that afterwards he had slashed a boy's throat with a razor, had been arrested and indicted for felonious assault and again acquitted. Commissioner Cropsey, the predecessor of Commissioner Waldo, had refused to appoint Imbriale a patrolman because of his false statements and because of letters from citizens concerning his unfitness. Commissioner Waldo, however, appointed him to the force against the specific recommendation of Deputy Commissioner McKay.

The following testimony given before us by Deputy Commissioner McKay and by his chief, Commissioner Waldo, shows their conception of character requirements for appointment to the force:

"Deputy Commissioner McKay (page 642):

"Q. Then if anybody can escape going to jail he is a good enough policeman for you, is that right? A. Yes, sir; if the complaints against him are dismissed, he is a good enough policeman for me.

"Q. Don't you regard that a very low standard for a police officer? A. I never criticize the courts.

"Q. Don't you know perfectly well that many a man is acquitted because of technical reasons, but still there is evidence of his bad character? A. I do not believe that we would be justified in acting upon that belief.

"Commissioner Waldo (page 655):

"Q. Commissioner Waldo, we were going over, this afternoon, the case of one of your patrolmen, Mike Imbriale, and we have already touched this case before. And I find he was appointed by you on June 28, 1911. We have had, this afternoon, evidence which I do not suppose you would recall of certain protests being made regarding the appointment of Michael Imbriale, whom Commissioner Cropsey had rejected, but whom you appointed after the Civil Service Commission had recertified him, and we find, among other things a letter from the Mayor's office, concerning a complaint which was sent to Chief Inspector Schmittberger, on which he made a report to you. We also find a report of Commissioner McKay. It was the case of an Italian, and it was alleged that he had killed one man and cut the throat of another, although he had been acquitted by the courts on both charges. It was also alleged that he had sworn falsely regarding his ever being arrested. I wonder if you now recall anything at all about the case? A. I do recall appointing Imbriale. I did not remember his name right away, but I recall the circumstances. In this country we have courts to try people who are charged with various crimes.

"Q. I see. A. (Continuing): This man was tried by a properly constituted court, and he was acquitted. Now that is all the concern I have in the matter. Also, he was tried and acquitted of another charge. Now I do not see wherein I should condemn a man for the rest of his life on a charge for which he has been acquitted.

"Q. I don't either, but are you called on to condemn a man or are you [illegible] give him a gun? A. When a man comes to me who has served six [illegible] partment, as this man has served, and has had a clean record, [illegible]e could find against him was that he had been tried on two [illegible] been acquitted according to the law of the land, and I did [illegible]d punish him. He was certified to me by the Civil Service,

as being a proper man to appoint, and in my opinion I was justified in appointing him under those circumstances."

Although a man charged with crime should be given the benefit of every doubt when tried before a jury, we insist that a Police Commissioner should give to the people of the City the benefit of any doubt as to the character of an applicant to join the force.

Joseph Cherico was appointed to the force by Commissioner Waldo on June 12, 1911. Cherico had sworn in his application that he had never been arrested. He had been arrested and convicted for bigamy under the name of Joseph Chiesa on September 17, 1906, with sentence suspended. He had also stated under oath that he had never before made application to join the force, although the records disclosed a former application by him under the name of Joseph Chiesa.

Michael J. O'Brien was appointed to the force by Commissioner Waldo on June 28, 1911, although rejected by his predecessor. He had sworn in his application that he had never been arrested. The records of the Police Department disclosed that he had been arrested and convicted for disorderly conduct upon two occasions.

Dominick Abruzzese was appointed to the force by Commissioner Waldo on June 28, 1911, although rejected by his predecessor. He had sworn in his application that he had never been arrested. The official records disclosed that upon one occasion he had been arrested for keeping a disorderly place and discharged; that on another occasion he had been arrested for disorderly conduct and fined.

Michael J. Benedetto was appointed to the force by Commissioner Waldo on May 15, 1912, although he had been rejected by Commissioners Bingham, Baker and Cropsey. The records show that he had made a false statement in his application with reference to his employment.

Patrick J. Dunne was appointed to the force by Commissioner Waldo on June 28, 1911, although rejected by his predecessor. He had stated in his application that he had never been engaged in the sale of intoxicating liquors. Investigation showed that he had been a bartender and owner of a saloon for many years. When confronted with these facts, he admitted to former Commissioner Cropsey that he had lied under oath.

Samuel Hirsch was appointed to the force on June 28, 1911, by Commissioner Waldo although he had been rejected by Commissioners Bingham, Baker and Cropsey. He had made a false statement in his application with reference to his employment, evidently to cover up the fact that he had been dismissed from a railroad under a serious charge.

To state in detail many similar cases would unduly prolong this report. The facts regarding them may readily be ascertained by reference to our record or to the files of the Police Department.

Recommendation.

We recommend that investigation by the Civil Service Commission into the character of applicants for appointment be supplemented by independent investigation under the direction of the Police Commissioner.

The School for Recruits.

Immediately upon appointment all Patrolmen are assigned to the school for recruits for a period of four weeks. At this school they receive instruction in the following subjects: Laws and ordinances, general police duties, pistol practice, humane handling of prisoners, semi-military manœuvers.

The School for Recruits should be employed for the two-fold object of training men for police service and of weeding out those unfit for police duty, the Commissioner having the power to refuse permanent appointment to any recruit at the end of his six months' probation.

The period of instruction, consisting of four weeks, is entirely too brief for adequate preparation for police service or for determination of fitness of men for permanent appointment.

The Instructors are selected from the uniformed force by the Police Commissioner, without regard to previous teaching experience or training. Class room instruction is given in the form of lectures, which are dull and perfunctory. Recruits are not required to make notes or discuss any specific problems. They display little interest and rarely ask questions. Twice a week they are assigned to precincts for short patrol duty with other Policemen. The Captains scatter them about promiscuously, for there are no Patrolmen specially trained for coaching recruits. A recruit is quite as likely to be assigned to a new member of the force as an old one, and it is matter of chance whether he be turned over to an honest or dishonest officer. The regular instructors do not supplement class room teaching by practical field work or experimentation.

Recommendations.

The length of the school term should be increased to the full probationary period of six months. The teaching staff should include skillful and experienced civilian instructors, employed specifically for the purpose, and devoting their entire time to the work. For instruction in practical police duty members of the force should be assigned.

Records of the work of each recruit should be carefully kept. Specific daily lessons should be assigned and every recruit held to account for mastering such assignment. Frequent written and oral tests should be required. A vastly different spirit is exhibited by the recruits in their drill, their pistol practice, and their control of prisoners, than in their other courses of study.

The school should provide adequate instruction in laws and ordinances, practical police work, pistol practice, military drill, humane handling of prisoners, first aid to the injured, actual work in precinct, English and report writing, moral standards in conduct, organization of city government, and presentation of evidence in court.

School for Detectives.

In addition to the School for Recruits, the Department maintains a School for Detectives, in charge of an Inspector. The course of study includes instruction in methods of criminal identification, the Bertillon descriptive portrait and finger prints.

The lecture method is used, supplemented by illustrated charts, photographs and stereoptican views. The course consists of 25 sessions of one hour each. There are no records kept showing the character of work done by the members of the school. No written examinations or tests of any kind are required. Attendance at this school is discretionary with Detectives.

Recommendations.

All newly assigned members of the Detective Bureau should be required to attend this school.

They should be subjected to written and oral tests upon the subjects taught, and should be required to give practical demonstration of their ability to utilize the knowledge acquired.

Promotions.

Promotions are made by the Police Commissioner from eligible lists prepared by the Civil Service Commission as a result of competitive examinations and consideration of individual records in the Department. Promotions are made from the rank of Patrolman to Sergeant, Sergeant to Lieutenant, and Lieutenant to Captain. There is at present no rank of Inspector. Captains may be detailed to act as Inspectors, but this detail can be revoked at any time. While so acting as Captain is popularly known as an "Inspector." A Captain cannot be reduced to the rank of Lieutenant, nor can a Lieutenant be reduced to the rank of Sergeant. A Sergeant may be reduced to the rank of Patrolman after trial upon charges, this reduction being one form of punishment provided by law.

Under the law the Commissioner has the right to promote one officer from each group of three upon an eligible list, rejecting the other two if he desires, without assigning reasons therefor. The policy of the present administration is to promote as well as to appoint all members of the force in numerical order from eligible lists, the Commissioner exercising no discretion. It has been stated that the object of such a policy is to eliminate political interference and rumors of graft.

Former Commissioners have testified before us that a Commissioner should be permitted to exercise the discretion which the law gives him, promoting if he chooses only one officer from each group of three upon the list. They state that many Policemen can pass written examinations who have not the ability to command men; that many men secure positions upon the eligible lists whose reputations are bad, but against whom no "legal" evidence has been obtained. A distinction may well be made between original appointment and subsequent promotion. If the Civil Service Commission and the Police Department should cooperate in the investigation of the character of applicants to join the force, there should be no difficulty in agreeing upon the rejection of questionable candidates. In the case of promotions, however, are so many elements in the wise selection of commanding officers that examinations and individual records do not necessarily afford an adequate

Individual records of members of the Department are at present [illegible] careful and intelligent experimentation should be made in the [illegible] records. Under the present system, if an officer has no [illegible] perfect. Conspicuous acts of bravery receive credit in the preparation of ligible lists for promotion, but this practice is hardly fair to members of the force whose assignments do not afford adequate opportunities for saving life or stopping runaways, nor does it necessarily follow that a brave man will make a good superior officer.

Examinations for promotion are not held with sufficient frequency. Promotion lists should not continue longer than from one to two years. An examination of the age of the various lists for promotion since 1901 is instructive:

For the rank of Captain, the first list was in force 15 months, the second 4 years, the third 3 years and 10 months, and the fourth list, still in force, is now 2 years' and 8 months' old.

For the rank of Lieutenant the first list continued in force for 2 years, the second for 8 months, the third for 2 years and 8 months, the fourth for 4 years, and the fifth, still in force, is 3 years old.

For the rank of Sergeant the first list was in effect for 19 months, the second for 4 years, and the third for 4 years.

The result of continuing an eligible list for a long period is to promote men near the bottom of the list. To permit four years to pass without holding an examination for promotion and making a new list therefrom is simply to block the promotion of efficient men. Frequent examinatins would have the beneficial result of selecting men from the head of the list.

Recommendations.

1. We believe the Commissioner should be permitted to exercise the right given him by law to promote from eligible lists one man out of each group of three. He should be required to file in the Police Department full reasons for refusing to promote any officer upon such lists.

2. We recommend that promotion examinations be held with greater frequency. No eligible list should be permitted to continue for a greater period than one or two years.

3. A system of individual efficiency records should be established. These records should be so devised as to register affirmatively efficient work upon the part of members of the force.

Trial and Punishment of Delinquent Policemen.

No member of the force can be dismissed or fined except by the Police Commissioner, and then only after trial upon written charges before the Commissioner or one of his Deputies. A Policeman on trial may be represented by counsel if he desires. He has the right to call witnesses in his defense as well as to cross-examine witnesses testifying in support of the charges against him. If found guilty, he may be dismissed from the Department by the Commissioner or fined in an amount not exceeding the equivalent of thirty days' salary. In the case of a Sergeant, punishment may take the form of demotion to the rank of Patrolman. A dismissed Policeman has the right to a court review of the proceedings resulting in his dismissal. A member of the Department who has been fined may also seek a court review of his trial upon securing the consent of the Commissioner.

Recommendations.

1. The trial and punishment of delinquent Policemen should be regulated by local legislative and executive authorities. At present these matters are controlled in detail by State legislation. Existing laws should be amended to accomplish the following results:

(a) The Commissioner should be given the right to delegate to a Deputy Commissioner or to any member of the uniformed force, power to conduct trials and impose punishment upon delinquent Policemen. The Commissioner should have the right to revoke or modify any such punishment within thirty days from the time of its imposition. Although the law now provides that the Commissioner may delegate the power to conduct a trial to a Deputy Commissioner, he himself must find the delinquent guilty or not guilty and impose the punishment. Heretofore it has been the practice for the Commissioner to read the minutes only in cases of dismissal. In cases where fines were imposed he has accepted the recommendation of the trial Deputy Commissioner without reading the minutes. During 1911, two thousand three hundred and eighty-eight members of the Department were either fined or reprimanded. The Commissioner, under an opinion recently rendered by the Corporation Counsel, must now read the minutes in every case and personally impose the punishment. This places too much administrative routine upon him. If the Commissioner were given the right to delegate to any Deputy or to any member of the uniformed force the power to conduct trials and impose punishment, he would be relieved of much of this unnecessary burden. The provision that the Commissioner should have the power to modify or revoke the sentence of a Deputy Commissioner or member of the uniformed force would give sufficient protection to the Policeman and would prevent any subordinate from possessing more power than the Commissioner himself. The recommendation that this right of delegation be extended to members of the uniformed force as well as to Deputy Commissioners is offered because a Commissioner may very well desire to establish a system of trial by Captains and Inspectors for minor offenses. The Commissioner should have the right in his discretion to withhold any fine imposed in monthly installments.

(b) A Commissioner should have the power to suspend Policemen without pay pending investigation of alleged misconduct and trial of charges. If the charges be dismissed, no pay should be forfeited. Under the present law a Commissioner has no right to suspend without pay until the service of written charges. If the charges are sustained, pay can be forfeited under the present law only from the time of suspension, after written charges have been served, and not from the time of suspension before such service of written charges.

(c) The present law directing a Commissioner to provide two places for trials of Policemen, each including certain Boroughs, should be repealed. This is a matter of administrative routine which should be entirely within the discretion of the Commissioner.

(d) As recommended under "Promotions," individual efficiency records should be devised. A system of merits and demerits should be created. In many cases punishment by demerits would be fully as effective and more humane than the imposition of fines.

Reinstatement of Dismissed Policemen.

As already stated, no member of the Department can be dismissed except by the Police Commissioner, and then only after trial upon charges before the Commissioner or one of his deputies. After a member has been dismissed, he may seek reinstatement by (a) applying to the courts for a review of the proceedings resulting in his dismissal; or (b) making application to the Mayor for a rehearing of the charges by the Police Commissioner. This latter course is not open in certain cases mentioned below.

Reinstatement by the Courts.

The present right of dismissed policemen to seek redress in the courts has been the subject of discussion for many years. We have received divergent opinions of former Commissioners, Mayors, and experts upon it. We have caused to be made an exhaustive study of all court proceedings by dismissed policemen for the past fourteen years. We find that since 1899, six hundred and eighty-three dismissed policemen have sought reinstatement through the courts. For this entire period only forty-six cases were decided adversely to the Police Department. In twenty-six of these the dismissals were held to have been contrary to the weight of evidence. Twenty decisions were based upon serious irregularities of procedure, which could easily have been avoided by better observance of rules of law. This emphasizes the desirability of appointing a lawyer as the Trial Deputy Commissioner. Former Commissioners testifying before us were unanimous upon this point.

The right to a court review is a protection to honest members of the force. Any policeman who fearlessly performs his duty necessarily makes enemies who are only too willing to injure him. If the Commissioner were vested with arbitrary power of dismissal, injustice would more likely result than under the present system which requires sworn testimony in support of charges. The arguments usually advanced against the preservation of this substantial right have less force when it is realized that reinstatements by the courts have been so few.

Reinstatement by the Police Commissioner.

Section 1543 A of the Charter provides:

"Upon written application to the Mayor by the person aggrieved, setting forth the reasons for demanding such rehearing, the Police Commissioner * * * shall have the power in his discretion to re-hear the charges upon which a member * * * has been dismissed, unless such dismissal was for insubordination, conduct unbecoming an officer or member, cowardice, or intoxication."

This Charter provision should be repealed. The right of a dismissed policeman to appeal to the courts affords him ample protection against injustice. The above section empowers the Mayor [illegible] Police Commissioner, in effect, to reverse

the decisions of the courts and of former Commissioners. It opens the door to personal importunity and political expediency.

The present Commissioner has reinstated many dismissed policemen. These reinstatements have been of three classes:

1. Members of the Department dismissed by former Commissioners for "conduct unbecoming an officer." The reinstatements of this class were in violation of law and expressly contrary to the opinion of the Corporation Counsel on file in the Police Department at the time. This opinion, dated November 7, 1910, contains the following paragraph:

> "The trial of delinquent policemen as conducted by you or one of your deputies is of a judicial character and a finding of guilty therefor, whether the punishment be a fine or dismissal terminates your power over the proceeding, and it makes no difference whether the determination was made by you or your predecessor in office."

The Corporation Counsel then calls attention to the exception provided by section 1543 A of the Charter, and concludes his opinion as follows:

> "In cases of dismissal from the force you may become vested with such power providing the person aggrieved makes a written application to the Mayor setting forth his reasons for demanding such re-hearing, but the application cannot be entertained where a member of the uniformed force was dismissed for insubordination, conduct unbecoming an officer, cowardice, or intoxication."

That the Commissioner knew of this opinion and realized its effect is shown by the fact that the language above quoted is set forth in letters by the Commissioner and his deputies in cases where applications for rehearing were denied.

After these facts were disclosed before us, a citizen brought a taxpayer's suit to have these reinstatements declared illegal. This suit has been successful, and the Commissioner's action has been declared to have been in violation of law.

2. Policemen dismissed by the Commissioner and later reinstated by him without compliance with the provisions of section 1543 A above quoted, there being no applications to the Mayor for rehearings and no rehearings actually conducted. The Commissioner stated before us that his power to reinstate any man dismissed by himself was based upon his "inherent right." These reinstatements were also clearly in violation of law and directly contrary to the opinion of the Corporation Counsel above cited.

3. Members of the force dismissed by former Commissioners, but upon charges other than "insubordination, conduct unbecoming an officer, cowardice, or intoxication." These reinstatements were made after applications to the Mayor for rehearing, and although not illegal, were without justification and injurious to efficiency and discipline.

It is unnecessary to discuss these reinstatements in detail. The facts can readily be ascertained by reference to our record or to the files of the Police Department. One case may be cited to illustrate the methods employed in effecting these reinstatements:

Patrolman Thomas F. Campbell was dismissed from the Department by Commissioner Partridge in 1902 after trial upon charges of neglect of duty. Captain Miles O'Reilly discovered Campbell and other officers gambling in the rear room of a saloon at an early morning hour when they should have been on post. After his dismissal Campbell caused his case to be reviewed by the Appellate Division of the First Department. The action of Commissioner Partridge was sustained. Campbell then carried his case to the Court of Appeals and was again defeated. He afterwards secured the passage of a bill permitting a rehearing of his case. This was vetoed as special legislaton. Thereafter, section 1543 A above quoted was enacted. Campbell admitted before us that this act was passed in the interest of a number of dismissed policemen, including himself.

Campbell later secured Mayor McClellan's consent to a rehearing by the Police Commissioner. The Commissioner at that time, General Bingham, denied his application. He renewed his effort to secure reinstatement during the administration of Commissioner Baker, who succeeded General Bingham. His application was again denied. Commissioner Waldo, however, wrote the Mayor asking permission to rehear Campbell's case, and after securing it, directed Deputy Commissioner Dillon to conduct a rehearing. Deputy Commissioner Dillon discussed the case with Campbell, read the minutes of the original trial, and wrote a memorandum recommending Campbell's reinstatement. No minutes were taken of this "rehearing." No witnesses were called. Although the Captain who had originally preferred charges against Campbell and had testified against him was still in the Department, he was not summoned nor was any statement taken from him. Commissioner Waldo reinstated Campbell upon the memorandum of Deputy Commissioner Dillon. Thus, Patrolman Campbell, after being off the force for nine years and after being defeated in the highest court of the State, was restored to duty. The flat contradiction between the opinion of the court and the memorandum of Deputy Commissioner Dillon is illuminating. Mr. Dillon is an Inspector on leave of absence while acting as a Deputy Commissioner.

Appellate Division—Mr. Justice Ingraham:

"There is no question but that the evidence justified the decision of the Commissioner. I have read over all of this testimony and the effect that it has produced is that I am quite satisfied with the decision arrived at by the Commissioner, and think he was fully justified in finding these officers guilty."

(99 A. D., 410.)

Deputy Commissioner Dillon:

"It does not appear to me that the case against this man was sufficiently strong to dismiss him from the Police Force. The action of the Supreme Court and later the Court of Appeals, in dismissing him seems to have been on technical grounds. It does not appear to have given any consideration whatever to the testimony in the case."

The Court of Appeals affirmed the decision of the Appellate Division without opinion (180 N. Y., 542).

The "rehearing" in Campbell's case is typical of rehearings by the present Commissioner. We have been unable to find a single case where minutes of the rehearing were taken, where any witnesses were sworn, or where any of the persons appearing on the original trial were summoned.

Reinstatement of Demoted Sergeants.

Besides reinstating numerous dismissed policemen, the present Commissioner has undertaken to "reinstate" two demoted Sergeants.

Dennis Healey was demoted from the rank of Sergeant to the rank of Patrolman by Commissioner Bingham in 1907 after trial upon charges. He appealed to the courts, but the action of the Commissioner was sustained.

Michael O'Loughlin was demoted from the rank of Sergeant to that of Patrolman by Commissioner Cropsey in 1911 after trial upon charges.

Commissionr Waldo "reinstated" both Healey and O'Loughlin to the rank of Sergeant after a "rehearing" of the charges against them conducted by Deputy Commissioner Dillon. No minutes of these "rehearings" were taken nor were any witnesses called except the demoted officers.

The "reinstatement" of these two officers to their former rank was without warrant of law and contrary to the opinion of the Corporation Counsel on file in the Department.

When these cases were called to the attention of the Civil Service Commission, it directed the reduction of these officers to the rank of Patrolman upon the ground that their "reinstatement" by Commissioner Waldo was illegal. Healey brought a mandamus proceeding in an effort to sustain his "reinstatement" by Commissioner Waldo. As was to be expected, the court held that the action of Commissioner Waldo in reinstating Healey to the rank of Sergeant "had no warrant in law."

Remission of Fines.

The present Commissioner has remitted fines imposed by his predecessors upon forty-two commanding officers, ranging from Inspector to Sergeant. Up to the conclusion of our investigation of this subject, we had been unable to discover a single Patrolman who had been similarly favored. The remission of these fines was in violation of law and directly contrary to an opinion of the Corporation Counsel on file in the Police Department at the time.

This opinion, dated November 7, 1910, contained the following paragraph:

> "The trial of delinquent Policemen, as conducted by you or one of your deputies, is of a judicial character, and a finding of guilty therefor, whether the punishment be a fine or dismissal, terminates your power over the proceeding, and it makes no difference whether the determination was made by you or your predecessor in office."

As we have already pointed out, this opinion was known to the Commissioner and his deputies. We found in the files of the Department a memorandum prepared for Deputy Commissioner Dillon by one of his subordinates in which the language of this opinion is set forth, and numerous cases are cited to support it. This memorandum was prepared before the fines mentioned were remitted.

The present Commissioner even violated the law after receiving the following warning from the Civil Service Commission:

"April 23, 1912.

"Honorable RHINELANDER WALDO, Police Commissioner:

"Sir—An opinion of the Corporation Counsel holds that a Commissioner of Police or other Department is without power to re-try a police or other officer, dismissed or punished for delinquency, or to modify a sentence previously imposed, this being true with respect to a Commissioner reviewing his own prior determination as well as a Commissioner reviewing the acts of his predecessor in office."

After receiving this letter, the Commissioner remitted some fines which had been imposed upon commanding officers of the Department by his predecessors, and he also reinstated Policemen whom he had previously dismissed.

Pensions.

We have given especial attention to the subject of police pensions, realizing its great importance to the taxpayers of the City. We assigned to this work a trained corps of experts who have not yet completed their task. Final tables are now being prepared, and we hope to be able to make a special report upon this topic in the near future. We ask that the Committee be continued until this special report can be made.

Sanitary Condition of Station Houses.

The Committee caused to be made a sanitary inspection of station houses. The expert making this inspection reported shocking conditions in many of the buildings. Sleeping quarters were frequently found poorly lighted, inadequately heated, ill ventilated, and overcrowded. While some of the station houses are improperly constructed, the insanitary conditions are also due to inefficient administration. None of the buildings examined was equipped with adequate fire-fighting apparatus or necessary fire-escapes and exits. The exact conditions found, building by building, can readily be ascertained by a reference to our record.

We recommend that the reports of our investigators be transmitted to the Board of Estimate and Apportionment for use of its Budget Committee. Insanitary station houses are indefensible.

Legislative Needs.

Attention is called to our preliminary report on legislation, hereto attached. Respectfully submitted,

HENRY H. CURRAN, O. GRANT ESTERBROOK, JAMES HAMILTON, RALPH FOLKE, ROBERT F. DOWNING.

Notes—(*a*) The meaning of the term "arrests" as used in this and other tables is synonymous with the word "entry," or "raid," and does not refer to the number of individuals arrested.

(*b*) The "activity report" referred to is a report prepared by the commanding officers of the various inspection districts and submitted to the Aldermanic Committee by Commissioner Waldo. It purported to show the activity of the department with respect to houses of prostitution and gambling houses.

(*c*) The term "previous arrests" refers to arrests which were not reported to the Commissioner at the time they were made, but are mentioned in later reports or correspondence as "previous arrests."

Table IX.
Suggestions Made by Patrolmen.

Patrolman in Colored Section:

What chance has a cop without a club against a couple of mad niggers?

Mounted Patrolman in Van Cortlandt Park Complains:

Four men watching nothing at night.

Great help if salaries were paid semi-monthly.

If Patrolmen are not to be properly paid, there should at least be a loan fund established where money could be borrowed at very low rate of interest. This might be done by some wealthy man, a Morgan or a Rockefeller.

If we get the $200 increase and 14 days' vacation every year, I'll be satisfied—that's enough.

Great improvement in matter of extra duties during present administration—more extra duties now come out of reserve time.

Five platoon system better than present one.

Fixed post ridiculous; City losing Patrolmen this way. We don't need more men, but different plan. Two men covering one post does not prevent burglaries. Decrease in burglaries not due to fixed post, but to conditions.

Fixed post makes a monkey out of a cop.

Mr. Waldo surely does not know how he is punishing his men with the fixed post.

The 40th Precinct is known as "the old man's home"—a young fellow has no chance there.

There are too many old men on the job—they don't try to raise it any. Men could co-operate together to make things better. Now, you're not a man—you have to appear a dummy, the more stupid you look, the better you get along.

City should supply bed and pay for bed making. Widows of Patrolmen should do this work at the station houses.

Station houses should be cleaner—some beds "walk."

"What is Effect of Fines on Family?"

Impoverish family.

Pay this way more than once.

Serious.

Thirty days' fine last year meant that we had to go two months without salary, and hence borrowed.

Indebtedness.

Very serious. Seems unjust to make family suffer also.

Punish man—not family.

Punish man—extra duties.

Very serious; 15 days' fine takes the nerve out of you. This way you are punished three times and you know your chances of promotion are killed.

Harder than ever to get on.

Terrible.

Make conditions desperate.

Sufficiently punished already by standing on fixed post for eight hours.

Heavy fines punish and impoverish the family, placing the family in debt from which it is hard to recover.

Comes out of family—debt.

Act of charity to abolish fines.

Very great hardship. Seems to be only way.

No fines—too serious on family when pay is so small.

No fines as yet, but dread to think of such a punishment.

Fine system fierce.

So much less for family.

Fined? I suppose I'd be more in debt.

"Should a Patrolman Do Duty in His Home Precinct?"

Yes.

Preferable because he is more familiar with conditions; more regularly at home; better health.

Nearer home—more anxious to keep his home neighborhood good—better to be arrested by a friend than by a stranger if done right.

In his own old home precinct, likes it because he knows his people and gets lots of excitement.

Gets more time at home. Is more interested in his own neighborhood and will, therefore, want to keep it good.

Save time going and coming from post.

Brings him nearer home and he loses less of his own time.

Advantage to wife who will then have Policeman home oftener.

Yes—more time to self.

Yes—more time at home with family.

Home precinct. Know it better--get home oftener—just as strict with neighbors as strangers.

Better cop in own precinct—takes more interest.

No difference that she can see.

Policeman would do his duty wherever stationed.

No—

No. The boys around would impose on him. If he had to arrest any of them their mothers would be down on him and that would make it very hard for him.

Nice to be near home, but not in own precinct.

No. Would rather be somewhere else. You don't like to be too hard on your friends.

Not right at home, but near enough to get home quickly.

Perhaps hard to be strict where man is familiar, but it is good to be near home so as to save time going and coming.

Would like being nearer home, but thinks neighbors would take liberties.

Wife: Would like it because husband would be home oftener.

Husband: Difficult doing duty among neighbors.

No. Can't make friends behave when cutting-up. Better cop where not known.

More authority in strange district.

Better authority in a strange precinct.

Home precinct "makes bum of Policeman." Better away from home because he gets too much for nothing and expects to get more.

Home precinct would save time, but better to be in adjoining one.

Hard to do duty among friends--wouldn't like it.

Might be harder in home precinct.

Best to be where no one knows you. If anything is done in home precinct friends would say: "O, Jones will let a fellow off easy."

Friends take advantage of you.

Likely to be too lenient to those he knows; those who know him are likely to impose on acquaintance.

Better away. Might be more lenient in home precinct.

Better in another precinct.

No—friends impose on you.

Hard to enforce the law where known. Can't be as strict. Wouldn't like to be in uniform where known.

Depends on how familiar he is with neighbors; makes no difference to him, but thinks it might be embarrassing.

Men should be in strange surroundings. Neighborly feeling prevents good services.

Pleasanter to be near home, but gives Patrolman more authority to be in other territory.

None of the instructors in the school had any teaching experience previous to assignment to the school.

Table II.
History, Occupation and Literacy of the Last Ninety-six Men Appointed to Force.

An analysis of the Civil Service records of the last 96 Patrolmen appointed to the police force prior to our investigation of the school shows that 94 had attended common school (grade reached not stated), and only two had attended high school.

Section 284 of the New York Charter provides that "no person shall be appointed or reappointed to membership in the police force or continue to hold membership therein * * * who cannot read and write understandingly the English language."

Inadequate school preparation and inadequate Civil Service tests are evidenced by the prevalence of misspelling, poor grammar and illegible penmanship in the Civil Service papers of the recruits. The following illustrations are taken from the Civil Service papers of these men, all of whom are now Probationary Policemen.

"Dead Body is take from the river the patrolman that is on Duty at the time the Body was found had charge of it tell conron come and then he would take it away and find out woe it may be.

"A destitute woman is found Starving in the street when the patrolman that is on Duty see it he left the pirciet he is in and them have it taking away and then left the conron no about it." (Writing very poor.)

"(One) It is held for Coringer.

"(B) I would rap for assistance surond the place and enter with anouther officer.

"(A) Go to the Mggrastate and issue a summons.

"No. 17 (B) To care for Inamable and to Exit to Public Buildings. (Writing illegible.)

"The Woman would be brouth to staten house and Send for a Amblance and if she needs treatment and if not she would be sent to the charity Sacisty.

"I as a Patrolman would call for my side partner to keep the crowed a way and would call for amblance and take the names an address and age of every Persers that where hurt and how they where hurt and to witch Hospitel they Whent and I would make the arrest of the shoffer and the Motorman and make a report to staeton house." (Writing illegible.)

"A. Try and find out he is and have a couple of Citizen and go through his clothes and see if can find any card or adress if noify the Corroner and put down when he aros pick up and arbout hour and notif the Captain and send it to the Morgue and put this in you Mandreme Book and report to superor officer at once.

"B. If she is staving try and help her has much has you can if she has knou home send her to the Municapal lodiging house and if is close take her to the station house and repout the Department of Charties." (Writing very poor.)

"A. Rap for assents wring for samplaces and do the best I can to save Lives. Ring Fire Alam rap for assents and go back to Fire and save Lives and Property. Report it to station for help to Drew Fire Line.

"A. Tell the Citizen to go to Court and get a Warrent and have him Lock up.

"B. If the man was still on the Connor go with him Lock him up. If he Was gone I would as him full Discirption of the Man Report it to Station House and take the Citizen Name and Adress Put it in Memradm Book."

"Try and get the people to safty call an amblance take there names address age what the worked at find out what engres they got. Take man of automobile License No. Mortoman if any are dead locked to up bothe man. call the patrool.

"Try and not he seem me and get my side partner but keep my eye on hin all the time. I would not let him have start on me so I woul go quietly and lock up find out the owner find what is gon and the amount and aleram people."

"I would firist call the City Ambulace then take the mane of the Schefeur and nomber of Automobilee, and also get mane of men rummong the car and also the mme of the ingured put the offenders (can't read) called the acident under arrest then try and revive the ingured."

"The Police would be into cantact whith the Department of Charities.

"The Patrolmon woud Pick it up and brand to satiron hause and inkice Porcel dined call for it the Police would taun it over to Society Peventsion Curlitey Childens some times call the Carrey Society."

"B. I would go in awack all the tenement in the house ane try to get all the tename out safe.

"I would bramb it mear by sable and mack a rapid of it in saterion house.

"Lock for Hallen Asderson a Cachld Septice 19 years old Ware classes Blue eyes Bran hear up to Sadday Last was a nouse in Buliven Hospetle exceped from queantime iland."

Clearly several of these examples of English writing hardly meet the charter requirements.

It is incredible that men of such illiteracy should have been admitted to the force The standards of the civil service tests have obviously been lowered to obtain an adequate number of Policemen. The low ratings of these recruits may indicate more adequate knowledge of police work than they possess, for doubtless many of them are the products of the so-called civil service schools. These schools prepare candidates for civil service examinations. Cramming them sufficiently to pass an examination but giving them no real training. These schools practically negative the value of the written civil service tests and make comprehensive training and vigorous tests all the more important after appointment to the force.

The degree and kind of training required by probationers depend in part on the character of their ante-police experience. The diversity of the occupational experience of probationers and its varying relation to the character of work required of policemen is shown by the following analysis of occupations for five years preceding civil service examination:

Civil Occupation of 96 Patrolmen for Five Years Previous to Appointment.

One Occupation for Five Years.	No.	More than One Occupation for Five Years.	No.
Driver	12	Iron worker and driver	2
Clerk	6	Sawyer, laborer, helper	1
Butcher	3	Motorman, odd jobs	1
Plumber	3	Clerk, porter, driver	1
Blacksmith	2	Real estate agent, clerk, driver	1
Stationary Fireman	2	Clerk, electrician	1
Mason	2	Switchman, fireman, driver	1
Superintendent	2	Fireman, cowboy	1
Conductor	2	Butcher and driver	1

Elevator operator	1	U. S. Marine Corps and farmer	1
Plasterer	1	Driver and bricklayer	1
Expressman	1	Soldier and motorman	1
Bill poster	1	Chauffeur, useful man and groom	1
Special police	1	Confectioner, elevated conductor	1
Car repairer	1	Iron worker, checker, hoister, runner	1
Guard	1	Laundry and plumber's helper	1
Draftsman	1	Laborer and driver	1
Stone polisher	1	Bookkeeper, chauffeur and driver	1
Granite cutter	1	Driver and sign painter	1
Meter tester	1	Pianomaker and driver	1
Varnisher	1	Driver and bartender	1
Sponger	1	Clerk and feeder	1
Iron worker	1	Watchman, polisher and butcher	1
Chauffeur	1	Conductor and waiter	1
Jeweler	1	Patrolman, soldier, clerk	1
Bricklayer	1	Letter carrier and printer	1
		Chauffeur, driver and helper	1
		Clerk and platform man	1
		Driver and motorman	1

Obviously, a Patrolman who has been a clerk, timekeeper or salesman, should need less brushing up in the use of English in report writing than a bricklayer, a butcher, a hostler or cowboy.

The first requisite of a good Policeman is sympathy with the law. That certain recruits are in need of instruction in the spirit of laws and the importance of their enforcement is indicated at least by the police record of 30 members of the group under consideration.

The preceding table shows that of 30 recruits who had been arrested, six had been arrested more than once, making a total of 37 arrests. In these 37 cases there were 11 convictions, of which 2 were paroled and fined, 2 cases were suspended, and in 8 cases disposition was not stated.

In order that no unfair impression might be given by this analysis, a further analysis was made of the police records of the last 421 Patrolmen appointed to the force prior to February, 1913. Of this total group 147, or 35 per cent., had previously been arrested, 35 had been arrested twice, 5 three times, 5 four times, 2 five times, 1 six times, 1 seven times.

"Sick Leaves."

An analysis of the "sick leave" and principal causes of disability covering a period of one year from July 1, 1911, to June 30, 1912, reveals the following facts:

(*a*) Analysis of sick leave according to number of times absent.

2,982 men were reported sick one time.
720 men were reported sick two times.
577 men were reported sick three times.
296 men were reported sick four times.
155 men were reported sick five times.
62 men were reported sick six times.
40 men were reported sick seven times.
26 men were reported sick eight times.
12 men were reported sick nine times.
5 men were reported sick ten times.
2 men were reported sick eleven times.
1 man was reported sick twelve times.
1 man was reported sick thirteen times.
1 man was reported sick fourteen times.
1 man was reported sick fifteen times.

(*b*) The following list shows the principal causes of disability:

Disease or Condition.	No. of Days Lost.
Diarrhoea	1,526
Gastritis and Indigestion	3,722
Gout and Rheumatism	9,575

Total number of days absent on account of sickness during the year examined 79,788.

Not many days are lost through illness as a result of alcoholism. An examination of the records shows that in the fiscal year from July 1, 1911, to June 30, 1912, there were but 396½ days sick leave as a result of illness due to alcoholism.

APPENDIX I.

Preliminary Legislative Report.

PRELIMINARY LEGISLATIVE REPORT OF SPECIAL COMMITTEE OF ALDERMEN OF THE CITY OF NEW YORK.

March 11, 1913.

The Special Committee, appointed August 5, 1912, by the Board of Aldermen of New York City, to investigate the Police Department, submits the following preliminary legislative report:

Nature of This Report.

This preliminary report upon legislation is submitted at this time in order that it may be available for use during the present session of Legislature. In its final report the Committee will make a summary of its entire investigation, and set forth therein its general conclusions and recommendations upon administrative matters.

Need of Legislation.

The police problem is primarily one of administration. The present situation demands sustained administrative efficiency. There is no magic in the legislative printing press. New legislation should be chiefly for the purpose of improving the administrative machinery of the Police Department. Sections of the Charter needing amendment, together with the amendments recommended, we have scheduled in Appendix A. Bills now pending before the Legislature, with our recommendations thereon, we have scheduled in Appendix B.

Home Rule.

The administration of the Police Department has been hampered by mandatory State legislation, controlling administrative routine. This is inimical to efficiency and subversive of discipline. State laws at present deal with the organization of the department, its different ranks, grades, salaries, qualifications for appointment and promotion, manner of distribution of the force, platoons and tours, structure and quota of the Detective Bureau, Traffic Squad, the suspension, trial and punishment of delinquent Policemen, etc. All such matters should be left entirely to local authorities.

The Police Commissioner.

Appointment, Tenure, Removal.

The Police Commissioner should be appointed by the Mayor for a term of eight years, and should be eligible for reappointment. He should be subject to removal by the Governor, and also by the Mayor, but in either case only after charges preferred and after he has been given opportunity to defend himself in a public hearing.

Charges May Be Preferred by Board of Estimate and Apportionment or Board of Aldermen.

In addition to the right of the Mayor to prefer charges, the Board of Estimate and Apportionment or the Board of Aldermen, by a majority vote, should be given the power to prefer charges against the Police Commissioner, and it should be provided that such charges must be heard by the Mayor at a public hearing, after reasonable notice.

This change should not take effect until January 1, 1914.

Uncertain Tenure Destroys Discipline.

We believe this recommendation to be of vital importance. During the past eleven years we have had eight Commissioners appointed by Mayors of different temperaments and political faiths. There have been three Commissioners during the present City administration. The brief and uncertain tenure of the Commissioner has seriously impaired the efficiency of our police administration. Former Commissioners have testified before us that the force does not respect its head. Captains and Inspectors upon our witness stand have shown this lack of respect. This is a deplorable situation, and should not be tolerated.

Should Be No "Policy" of Enforcement of Law.

It has been said that the policy of the Police Department should be the Mayor's care and responsibility, and that he should have the power to remove the Commissioner at will. The appointment of a Commissioner should not be a matter of politics. Moreover, there should be no such thing as a "policy" with respect to the enforcement of law. Unenforceable laws should be repealed. People who disapprove of them should seek relief from the Legislature, not from the Police Department. The Police Department should no more have a "policy" with respect to the enforcement of law than the United States army should have a policy in foreign affairs.

Police Department Unique.

In this respect the Police Department is essentially different from other departments. Moreover, it is unique in its difficulties and problems. Hence, eight commissioners in eleven years. The Commissioner must have long experience in the department to become efficient. General Bingham, who has served the longest period as Commissioner, has testified before us that it takes between one and two years for a Commissioner to acquaint himself with the conditions and circumstances confronting him. The Commissioner should know the history and character of every superior officer. He should study and learn the spirit of the force at large, in order that he may sympathize with it, or combat it, as occasion requires.

Deputy Commissioners and Inspectors.

Number of Deputies and Inspectors to be Determined by Local Authorities; Chief of Police with Fixed Powers Not Favored.

The increase or decrease in the number of Deputy Commissioners should be determined by the Board of Estimate and Apportionment and the Board of Aldermen. The present method of appointment and demotion of Inspectors should be continued, but the power to alter this method should be vested in the Board of Estimate and Apportionment and the Board of Aldermen, and not controlled by legislative enactment. We have been much impressed with Mayor Gaynor's suggestion that more Deputies and fewer Inspectors are needed just at the present time. We think it important that a Commissioner should be able to choose a uniformed cabinet as well as a civilian cabinet, and these in such numbers as occasion requires. Therefore we do not favor the appointment of a permanent Chief of Police. A Commissioner should have power, as at present, to select a Chief Inspector as the head of the uniformed force, and to prescribe for him appropriate duties and authority. To create a Chief of Police with authority fixed by law would be to create a subordinate more powerful within the limits of his authority than the Commissioner.

Gambling and Prostitution.

Studied Only as Police Problems; Graft to be Eliminated by Effective Administration.

The Committee has considered these subjects only as they involve police problems under present laws. We have not studied them as moral problems. Such investigation would have been beyond the scope of the resolution under which the Committee was appointed. We have received shocking evidence of a widespread corrupt alliance between the police and gamblers and disorderly house keepers. The elimination of this grafting is one of the most difficult and important problems with which we are confronted. Believing, however, that the problem is essentially an administrative one, we shall deal comprehensively with it in our final report. We feel that a Commissioner with a fixed tenure, with an adequate staff of Deputy Commissioners, with an ample fund for the engagement of a secret service entirely outside of the department, would in time secure and maintain an administrative efficiency that would reduce this evil to a minimum.

Department of Public Morals Opposed.

We are opposed to transferring the enforcement of these laws to a Department of Public Morals, as provided in a bill now pending before the Legislature. We are also opposed to the suggestion that a Board of Social Welfare be established for the same purpose.

These suggestions have been almost unanimously condemned by former Commissioners, Deputy Commissioners and other public men appearing before us.

The responsibility for law enforcement should not be divided between two Commissioners or agencies.

Such Department Would Divide Responsibility.

To place the responsibility in the hands of 200 or 300 "morals policemen" would have a tendency to lose the information which should result from the daily observations of 10,000 policemen covering every square inch of The City of New York. Evidence before us has shown that a proper system of reports from the latter would be of inestimable value to a Commissioner in ascertaining conditions and enforcing these laws.

Cannot Remove Contact.

Contact cannot be entirely removed because policemen must still enter gambling and disorderly houses and saloons for the purpose of enforcing laws against larceny, burglary, assault, murder and many other crimes. This might cause either friction or collusion between the two police forces, and would not eliminate the collection of graft.

Would Lower Standard of Men.

The standard of men deliberately enlisting for service in a department having jurisdiction only over gambling and disorderly houses, whether recruiting from within or without the Police Department, would certainly be very low.

Would be Against Civil Service Reform.

The suggested bills provide that there shall be no Civil Service restriction, and thus they turn back the clock of Civil Service reform.

Matter for Local Determination.

Moreover, even if any such change be desirable, it is clearly a subject which should be left entirely to local administrative and legislative authorities.

Excise.

Home Rule Recommended.

We recommend that excise regulation for The City of New York be determined by local legislative authority. We feel that this subject is essentially one demanding home rule.

Pensions.

No Legislation Until Completion of Investigation.

We are having made a thorough and exhaustive study of the pension system of the Police Department, including its past workings and probable future results to the taxpayers of the City. We have gone far enough to discover that a pension fund once boasting a surplus is now bankrupt, and making constantly increasing demands. A trained corps of experts is making this investigation, which is not yet completed. Any recommendation by us at this time would be premature. We think no pension legislation placing a further load upon the City should be passed at the present session. We shall deal with the subject fully in our final report.

Rogues' Gallery.

Photographs and Measurements of Those Held by Magistrate on Felony Charge; Removal After Acquittal Discretionary with Court.

We recommend a law authorizing the Police Department to photograph and take finger prints and measurements of all persons held by a Magistrate or on a bench warrant upon a charge constituting a felony. In the event of the acquittal of the defendant, the return of these records to be ordered in the discretion of the judge trying the case. In the event of a dismissal of the charge by the Grand Jury, the records to be returned to the defendant upon application. A law to this effect has been strongly urged before us by Judges, District Attorneys and officials of the Police Department, past and present.

Special Patrolmen.

We recommend that no Special Patrolmen be appointed until a bond has been filed to indemnify those who may suffer by misconduct of such Special Patrolmen.

Boiler Squad.

The inspection of steam boilers and the licensing of stationary engineers are not police functions, and should be placed under a bureau to be established for that purpose by local authorities.

House of Detention.

The House of Detention for witnesses should be removed from the Police Department, and should be placed within the jurisdiction of the Department of Correction.

Miscellaneous Subjects.

Administrative Routine.

We recommend changes in various minor matters of administrative routine, as will appear more fully in Appendix A.

Perjury.

Would Stop "Turning Out" Cases.

We endorse the recommendation of the District Attorney that the Penal Law should provide that anyone who swears upon two different occasions in a criminal proceeding in a materially different way, upon a material point, should be liable to punishment without reference to which statement be true and which false. Although the District Attorney and the court see perjury wilfully committed in the recantation of statements, it is usually impossible to prosecute, because of lack of proof as to which statement is true and which false. This will reach the evil of police officers "turning out" cases.

Health Department.

We recommend that the Police Commissioner be relieved from his duty as a member of the Board of Health. His duties in the Police Department are more than enough to occupy his time and energy. Respectfully submitted,

HENRY H. CURRAN, Chairman; RALPH FOLKS, JAMES HAMILTON, O. GRANT ESTERBROOK, W. AUGUSTUS SHIPLEY, FRANK L. DOWLING, FRANCIS P. KENNEY, JAMES J. SMITH. ROBERT F. DOWNING, Secretary.

EMORY R. BUCKNER, Counsel.

APPENDIX A.

Suggested Amendments to Specific Sections of the New York Charter.

Section 270. Police Commissioner; Salary; Deputies; Salaries, Etc.

This section should be amended to conform to the recommendations heretofore made. The Commissioner should be appointed upon January 1, 1914, for a period of eight years, should be eligible to reappointment, should be removable either by the Governor or the Mayor, but only upon charges, and after a public hearing.

In addition to the right of the Mayor to prefer charges, the Board of Estimate and Apportionment or the Board of Aldermen, by a majority vote, should be given power to prefer charges against the Police Commissioner, and it should be pro-

vided that such charges must be heard by the Mayor at a public hearing, after reasonable notice, and with opportunity for the Commissioner and witnesses to be heard.

The salary of the Commissioner, the number of Deputies and their salaries, should be determined by the local authorities.

Section 272. Police Commissioner; Authority to Make and Enforce Rules and Regulations.

Should be amended to give the Police Department the undisputed right to photograph and take finger prints and identification measurements of all persons held by a Magistrate, or upon a bench warrant, upon a charge constituting a felony. In the event of a discharge by the Grand Jury, the defendant should have the right to receive from the Police Department these records. In the event of an acquittal upon an indictmnt, it should be left to the discretion of the judge trying the case, whether the defendant should receive these records.

Section 284. Police Force; Qualifications of Members; Publishing Names and Residence of Applicants and Appointees.

Should be amended, substituting for the CITY RECORD two daily papers in New York City of at least 100,000 paid circulation.

Section 288. Promotions.

The length of time in which a Patrolman must have served in a particular grade before being eligible for promotion should be left to the Civil Service Commission

The provisions with reference to Inspectors should be left as at present, except that the word "nineteen" should be stricken out, leaving the number of Inspectors to be determined by the local authorities.

Section 290. Central Office Bureau of Detectives.

The grades and salaries of Detectives, and the maximum number thereof should be determined by the local authorities.

Section 292. Police Commissioner; Duties and Powers.

Should be amended, giving the Commissioner power to suspend Policemen without pay pending investigation of alleged misconduct and trial of charges. If the charges are dismissed, no pay to be forfeited. Under the present law the Commissioner has no right to suspend without pay until the service of written charges. If the charges are sustained, pay can be forfeited under the present law only from the time of suspension after written charges have been served, and not from the time of suspension before such service of written charges.

The last sentence of this section, "Said Police Commissioner may grant leaves of absence to members of the force for a period not exceeding five days," is apparently modified by section 303. In any event, it should be repealed for reasons given under section 303.

Section 299. Salaries of Officers and Members of the Force.

The creation of grades, ranks and the fixing of salaries should be determined by the local authorities.

Section 300. Police Commissioner; Rules, Etc., for Government and Discipline of Police Department and Police Force; Trials, Dismissals.

The mandatory direction to the Commissioner to provide two places for trials of Policemen, each covering certain boroughs, should be repealed. This is a matter of administrative routine and should be left to the discretion of the Police Commissioner.

To make this section conform to the recommendation made under section 292, with reference to suspension, the word "suspended" should be stricken out in the sentence providing that no man shall be suspended until written charges have been preferred against him.

The word "reprimanded" should be stricken out because the Commissioner will have power under another section to reprimand a Policeman, after a trial and upon conviction, and it may well be that some future Commissioner will desire to establish a system of demerits or reprimands by Captains and Inspectors. The presence of this word "reprimanded" in this section might prove an obstruction. It serves no useful purpose as it stands, because it preserves no substantial right.

Section 302. Police Commissioner; Punishments by; Limitations of Suits for Reinstatements, Etc.

The Commissioner should be given the right to delegate to a Deputy, or to any member of the uniformed force, power to conduct trials and impose punishment upon delinquent Policemen. The Commissioner should have the right to revoke or modify any such punishment within thirty days from the time of its imposition. This is extremely important. Although the law provides that the Commissioner may delegate the power to conduct a trial to a Deputy, he himself must find the delinquent guilty and assess the punishment. The Corporation Counsel has written an opinion recently to the effect that in all cases the Commissioner must read the minutes of the trial, unless he himself presided thereat. Heretofore it has been the practice for the Commissioner to read the minutes only in those cases where dismissal was imposed as a punishment. During 1911 2,338 members of the department were either fined or punished. The Commissioner, under the opinion of the Corporation Counsel, must read the minutes in every case, and personally impose the punishment. This places too much burden upon the Commissioner. The provision that the Commissioner may modify or revoke the sentence of a Deputy or member of the uniformed force gives sufficient protection to policemen and prevents any subordinate from having more power than the Commissioner himself. The recommendation that this right of delegation be extended to members of the uniformed force is made because a Commissioner may desire to establish a system of trial for minor offences by Captains and Inspectors. It is a waste of time to try men at headquarters for appearing in broken collars or unblacked boots.

The Commissioner should have the right in his discretion to have forfeited or withheld in monthly installments the pay of Policemen fined.

Section 303. Police Force; Resignation and Absence on Leave.

The twenty-day limit should be repealed. Occasions frequently arise where Policemen are called upon to perform extended extra duty. Strikes, riots, emergencies of various kinds impose hardships. The Commissioner should have the right to compensate for unusual service by granting leaves of absence with pay. If he cannot be trusted with such a detail, he should not be trusted with the Police Department.

That portion of this section dealing with resignations has given rise to considerable discussion by witnesses before us because of ambiguities. We suggest that it be amended to read as follows:

> "Under penalty of dismissal, no member of the police force shall withdraw or resign, except by the permission of the Police Commissioner. If any member of the police force be absent for five consecutive days without leave, the Commissioner may, in his discretion, dismiss such member without notice or trial."

Section 308. Police Force; Special Patrolmen; When May be Appointed; Military Assistance.

One of the several objections urged against the appointment of special patrolmen is that the corporation or individual employing them is not liable for their misconduct, since they are peace officers. We recommend that this section be amended to provide for the filing of a bond in the sum of $2,000, for each special patrolman, to indemnify anyone injured through his misconduct.

Sections 312, 313, 314.

These sections provide for the detail of police officers to the Department of Health, the Department of Public Parks and the Department of Bridges. A section in the Tenement House Law also provides for the detail of police officers to the Tenement House Department. These provisions should be repealed. We have not been impressed by the reasons advanced for this farming out of Policemen to other City departments.

Section 321. Police Commissioner; To Provide Accommodations for Detention of Witnesses.

We agree with Commissioner Waldo and many of his predecessors that the House of Detention should not be under the jurisdiction of the Police Department. It should be transferred to the Department of Correction.

Sections 342-345. Boiler Inspection and Stationary Engineers.

We recommend that boiler inspection and licensing of engineers be removed from the Police Department and placed under the charge of a bureau to be established for the purpose by local authorities.

Section 350. Special Patrolmen for District Telegraph Officers.

Should be repealed, provision for special patrolmen being made by section 308.

Sections 351-358. Police Pensions.

No pension legislation whatever should be enacted at this session, for reasons already given.

Section 1543a. Police and Fire Commissioners May Rehear Charges and Reinstate Members of Force.

We recommend the repeal of this section. Our investigation shows conclusively that its provisions are inimical to discipline. The present right of a dismissed Policeman to secure a court review affords him ample protection against an unjust dismissal.

Three-Platoon Law.

The present three-platoon law should be continued until changed by local authorities. All such matters should be determined by local legislation.

APPENDIX B.

Pending Bill Affecting Administration of the Police Department, to which our Attention Has Been Called.

Assembly No. 1225, Int. 1146, Mr. Hammer.

Authorizes the Police Commissioner, in his discretion, to reinstate William H. Finley, a resigned member of the Police Department, to the position of Patrolman. It recites that William H. Finley resigned from the department in 1902. We oppose this bill as special legislation.

Assembly No. 282, Int. 278, Mr. Taylor.

Amends section 1543a of the Charter, extending the operation of such section to include a demotion as well as a dismissal. Inasmuch as we favor a repeal of section 1543a, we oppose this extension.

Assembly No. 293, Int. 289, Mr. Ingram.

Identical with above.

Assembly No. 567, Int. 553, Mr. Ingram.

Identical with above.

Assembly No. 1157, Int. 1084, Mr. McMahon.

Provides for the absorption of the members of the Aqueduct Police into the Police Department of New York City, without examination or qualification. We oppose this bill, because such matters should be determined by local authorities.

Assembly No. 1043, Int. 991, Mr. Greenberg.

Creates a Department of Public Morals to take charge of the enforcement of laws regarding gambling, prostitution and excise. It creates a large staff of captains, lieutenants, sergeants, doormen, surgeons and policemen, all "public morals" officers, without any civil service restrictions. We oppose this bill for reasons already given.

Senate No. 156, Int. 154, Mr. Griffin.

Fixes salaries of members of the police force. Salaries should be determined by the local authorities.

Assembly No. 458, Int. 453, Mr. Willmott.

Provides that a member of the force arrested for a crime shall not be dismissed upon charges based upon the same facts until final determination of the criminal charge.

This is inimical to discipline, and an interference with administrative routine. Members of the Police Department awaiting trial upon criminal charges should not be continued in the Department if the Commissioner has in his possession facts sufficient to justify their dismissal.

Senate No. 663, Int. 608, Mr. Boylan.

This bill provides that no fine or demerit shall be counted against a member of the Police or Fire Department for promotion unless the same has been imposed within three years of the time of examination for promotion. We oppose it as an interference with civil service administration.

Assembly No. 738, Int. 709, Mr. Caughlan.

Identical with above.

Senate No. 420, Int. 399, Mr. White.

Amends the present three-platoon law. We oppose all such laws because they should be determined by local legislation.

Senate No. 770, Int. 710, Mr. Frawley.

Provides that Police Matrons shall receive the same salary as Patrolmen. We oppose this bill because salaries of members of the Department should be determined by local authorities.

Police administration in New York City can never become efficient so long as bills similar to these here scheduled are passed by the Legislature. Matters of administrative routine must be left to the Police Commissioner. Matters of Civil Service administration must be left to the Civil Service Commission. Matters of police quota, ranks, grades, salaries must be left to the Board of Estimate and Apportionment and the Board of Aldermen.

Which was laid over.

The Special Committee on Police Investigation, to which was referred on April 15, 1913 (Minutes, page 80), a communication from one P. A. Schlosser, respectfully

REPORTS:

That, inasmuch as this matter requires no further consideration, it recommends that the same be placed on file.

Which report was accepted.

Report of Special Committee on Bronx Borough Court House—

No. 943 (G. O. No. 536).

To the Honorable Board of Aldermen of The City of New York:

We the undersigned members of the Special Committee, appointed by the Board of Aldermen on May 7, 1912, and charged with the duty of investigating, examining and of reporting the result of such investigation and examination to the Board, concerning the operations and proceedings in the erection, completion and equipment of the Bronx Borough Court House from the time of the initial operation to the present, have the honor to present this, our unanimous report:

Site—On February 7, 1897, an act was introduced in the Legislature providing for the acquisition of a site for a Court House in the Borough of The Bronx, designating its location to be at the triangle at 3d ave. and 161st st., and on April 7, 1897, this act became a law, chapter 209 of the Laws of 1897. At a meeting of the Board of Estimate and Apportionment on June 16, 1897, a citizen called the attention of the Board to the new law, and the matter was referred to the Comptroller for a report. On October 27, 1897, the report of the Chief Engineer of the Finance Department was received by the Board of Estimate, giving the assessed value of the property to be acquired at $17,500, and its probable cost at $43,750. The Board of Estimate and Apportionment, by resolution, requested the Corporation Counsel to proceed to acquire title.

Subsequently, on December 24, 1897, the Commissioners of Estimate and Appraisal were appointed by the Supreme Court and took office on January 7, 1898. Under the provisions of this special act, title vested in the City four months after the Commissioners took oath or on or about June 1, 1898.

The report of these Commissioners was confirmed on January 29, 1900, and filed the next day. It awarded for the three parcels acquired $127,230, which, with interest and costs, amounted to $151,574.29, the total cost of the site.

On March 6, 1900 (approved by the Mayor October 8, 1900), the Board of Estimate and Apportionment authorized corporate stock for the cost of the site to the amount of $147,078.84, which with the premiums of $16,291.92, made available $163,370.76. The property acquired has an area of 14,652 square feet.

That two years and one month should be consumed by the Commissioners of Estimate and Appraisal in the proceedings to condemn three parcels of land is in the opinion of this committee an unreasonable period of time for such work, and at this late date deserving of the greatest censure.

Fortunately, since then the Legislature has provided a means of doing this work in a more expeditious manner.

Between the time the report of the Commissioners was confirmed and filed in 1900, up to May 23, 1902, nothing seems to have been done towards proceeding with the erection of the building. The committee is unable to determine whether this delay occurred through lack of interest on the part of the Borough President, or whether it was due to the fact that the Board of Estimate would not grant the Borough President's request for corporate stock with which to hire an Architect and proceed with the work of construction.

Construction.

On May 23, 1902 (approved by the Mayor June 30, 1902), the Board of Estimate and Apportionment authorized the issue of $250,000 in corporate stock for the construction and equipment of the Court house, and on July 1, 1904 (approved by the Mayor July 13, 1904) it authorized an additional $550,000, making a total of $800,000 for construction and equipment.

It took the Borough President of The Bronx from June 30 1902, until April 1, 1903, to select an Architect to prepare plans and supervise the construction of the building. Responsible to the Architect, and acting directly under him, Inspectors are appointed, whose duty it is to oversee the actual work of construction. The Archi-

tect, therefore, together with his Inspectors, virtually constitutes a separate and distinct bureau, responsible like other bureaus for the efficient performance of its work to the Borough President alone.

In April 1903, the Borough President designated Michael J. Garvin as Architect for the new Bronx Borough Court house. His agreement with The City of New York reads in part as follows:

"The Architect shall, on or before the 15th day of August, 1904, furnish to the City preliminary studies and specifications, together with an estimate of the cost of the said building or structure. If the said preliminary drawings and specifications and estimate are not satisfactory to and approved by the President, then the Architect shall and will revise and correct the same so as to conform to the suggestions, criticisms and requirements of the President, and so that the estimated cost, including the Architects' fees and the cost of Surveyors and Inspection shall be well within the sum of $800,000, the appropriation of funds available for the said building or structure."

In June, 1904, Mr. Garvin submitted his plans and estimate to the then Borough President and Comptroller, both of whom approved the same.

The estimate was $760,000 for the cost of the building, and $40,000 for the Architects' fees.

The first contract let, after the plans had been approved, was for the construction of the foundation walls, and although the contract was let to the Century Construction Co., on November 30, 1904, actual work did not begin until the middle of March, 1905, on account of the weather conditions. This work was completed in the early part of 1906. The Architect testified that this work was unnecessarily delayed by reason of the erroneous soundings made by the Engineers employed by or assigned to the Borough President, which showed rock at a certain depth, but the rock was found at a point considerably lower than that calculated by the Engineers.

On March 20, 1906, the contract for the construction of the building was awarded to the Thos. J. Brady Co., the bid price being $529,000, and the contract time for the performance 300 days.

During the years 1906 and 1907 $137,000 worth of work was performed under this contract, and two years after the signing of the contract, there being completed but 26 per cent. of the work contracted for, and no apparent effort being made on the part of the contractor to go ahead with the work, the Borough President declared the contract abandoned on the 28th day of May, 1908, and advertised for bids.

The reason that only 26 per cent. (about 20 feet above the curb) of the work was done in two years we find to be as follows:

The Brady contract specified seven kinds of granite, any of which could be used in the construction of the Courthouse, and among the seven was a granite from Bucks Harbor, South Brookville, Maine. The Thos. J. Brady Co. decided to use the granite from Bucks Harbor, although the President of the company testified that he knew nothing of the standing or general reputation of the stone. After submitting his bid, he learned that the Bucks Harbor Granite Co. had no cutting sheds at its quarries at South Brookville, Maine. The excessive delay by the Thos. J. Brady Co. was due solely to the difficulties occasioned by quarrying the granite at Bucks Harbor, and then having to haul it some fifteen miles further up the Maine coast to Blue Hill, in order to have the granite cut. The transportation in and about the quarry and the facilities for working the same during the winter months were totally inadequate to supply granite for use at the Courthouse. After Mr. Brady's bid had been accepted, a question arose as to whether Bucks Harbor granite should be used, although it was the stone upon which the successful bid was based. But in order to forestall any adverse action, the owner of the quarry had drafted a lease of the same to the City, through President Haffen, thus finally settling the question.

It seems to this Committee that the Bucks Harbor Granite Co., with its unknown stone, quarried and cut under the greatest difficulties, in an inaccessible part of Maine, was shown particular favor by the Borough President.

The Committee is of the opinion that the manner of the ratification of the lease of the quarry to the City is most questionable and of doubtful legality.

On August 20, 1908, the abandoned contract was relet to John T. Brady & Co. for $414,840, the time between the abandoning of the contract and the reletting being consumed by the necessary legal proceedings required by the Charter.

John T. Brady & Co. had to continue the use of the granite from Bucks Harbor, and were delayed many months getting the quarry in working order, so that actual construction was not begun by it until March, 1909.

In January, 1910, the Company completed all the granite work and topped out the building, leaving some furring, partitions and a few arches undone, which the company claimed it could not do until the wiring and piping had been completed. This condition of affairs existed at the time Cyrus C. Miller assumed the office of the President of the Borough of The Bronx, January 1, 1910. The interior of the building had not been finished.

The appropriation of $800,000 had been almost all expended, and it was necessary to get a further appropriation. Mr. Miller soon after taking office requested the Architect to submit an estimate of the cost necessary to complete the building. Mr. Garvin said that it would cost $325,000 in addition to what had already been expended. The Architect, Michael J. Garvin, explained this request for more money in the following manner:

"Q. As I understand, the original contract was for $800,000?
"A. Yes.
"Q. What was the cause of the increase of $325,000?
"A. On account of the change in the prices of materials and labor from that time to this. There is a difference of from 40 to 50 per cent. increase.
"Q. That is the sole cause of the increase?
"A. Yes.
"Q. The increased cost of labor and the cost of material?
"A. Yes."

Accordingly Mr. Miller requested the Board of Estimate and Apportionment, on the 18th day of May, 1910, for $325,000 to complete the court house. This request was on the calendar of May 27, 1910, and was referred to the Corporate Stock Budget Committee. The committee did not act favorably on this request until July 17, 1911 (approved by the Mayor September 19, 1911). President Miller testified that between the last mentioned dates he had made repeated requests for the favorable action of the committee but without success.

"I simply could not move until I got the money. It would be a misdemeanor for a public officer to make any contract for the purpose of spending any money until the money had been appropriated."

On September 19, 1911, an additional $325,000 was available, making the total authorization of $1,125,000 for construction and equipment.

In the meantime and during the year 1906, contracts were signed for steam power, heating, ventilating, electrical and prison work. The successful contractors were delayed on account of the T. J. Brady contract abandonment, and could not begin their work until the new contractor, John T. Brady & Co., had partially completed the building.

Only one of the above mentioned contracts is deserving of special mention, that is the contract of the Western Electric Co. for a generating plant and electric work at an estimated cost of $26.604.

President Haffen permitted the Architect to use his own judgment as to whether he should install an electric plant or take the electric current from the Edison Company. Mr. Garvin, the Architect, determined to put in a generating plant, because he said it was cheaper to make the current than to buy it. The contract was awarded by Mr. Haffen to the Western Electric Co. on August 17, 1906. The electrical plans providing for a generating plant were submitted to the Department of Water Supply, Gas and Electricity on June 20, 1907.

Said department returned the plans on February 8, 1909, disapproving of the Architect's scheme to install a generating plant for the reason that it would be more expensive to operate the same than it would be to buy current from electrical companies, and recommending the installation of the regular three wire system of distribution, alternating current from transformers installed by the company.

On December 7, 1909, the Architect submitted to the Department of Water Supply, Gas and Electricity revised electrical plans eliminating the proposed generating plant; said revised plans were approved by the Department of Water Supply, Gas and Electricity, October 19, 1910. A controversey arose as to what would become of the Western Electric Company's contract which took about three years to settle, and in the meantime the Brady company claimed that it was prevented from finishing its contract because the electrical work had not been started. This we find to be the fact. The contractor could not finish all his work until the wiring and piping were finished, and had to stop work about the time President Miller took office, claiming that until the wiring and piping were done he could go no further.

The City of New York, through the Comptroller, settled the Western Electric Co.'s claim, but it took three years to do it, an unnecessary length of time if the parties upon whom it devolved the duty according to the Charter had interest enough in the work to see that the matter was pushed. We think that if the matter were properly handled the claim might have been settled in a month. The old electrical contract being out of the way, a new contract was awarded to the J. Fred Jackson Co. on February 3, 1913, for the sum of $9,234, and the electrical work is now being done.

In regard to the delay in approving or disapproving the plans in the Water Department, Chief Engineer of Light and Power testified that at the time the plans were submitted there was no money with which to go ahead with the work, and therefore the department did not hurry the plans along until the money was available. Whether the money was available to carry on the work or not, we believe was no concern of the Department of Water Supply, Gas and Electricity. As a matter of fact, at that time the money to carry on the work was available for the electrical work in the appropriation of $800,000. At the time the electrical plans were submitted to the Department of Water Supply, Gas and Electricity in 1907 said department had only to do with the number, kind and arrangements of lights, and had no power under the Charter to change the plans and specifications as to the generating plant.

It was not until the early part of 1910 that the Board of Estimate gave to the Department of Water Supply, Gas and Electricity the power to approve before advertising all the plans both for installation and for lighting.

So that, had that department not interfered or delayed the approval of the plans submitted in 1907 to install a generating plant, there would not have been the delay on the part of Brady because of the non-completion of the electrical work, and the controversy over the Western Electric Co.'s contract would not have occurred. Until the latter claim was settled no new contract for electrical work could be let. Two voluntary witnesses appeared before the Committee, who qualified as expert engineers, and testified that in a building such as the Bronx Court House it would have been cheaper and better to have a generating plant of its own installed therein, thus upholding the original plan of the architect. We have no doubt but that some experts in the same line could be found to testify that the plan of the Department of Water Supply, Gas and Electricity was the better of the two.

However, we are of the opinion that the Department of Water Supply, Gas and Electricity is responsible for that part of the delay as stated more fully above.

We further believe that the construction of the Court House would have been greatly expedited had the question of deciding small and unimportant details been left to one department with full authority.

We further recommend that the functions of the Art Commission be exercised only at the time the plans for the building are finished, and the plans for the decorations and fixtures are ready, as we find it to be a bad practice to make it compulsory for the Art Commission to approve every minor change, which causes a large amount of delay, when these details could be greatly eliminated by having the intended occupants of the building settle their personal desires as to their quarters before submitting plans to the Art Commission for their consideration.

We also recommend that a method be adopted whereby estimates for the entire work will be prepared to determine the amount of the appropriation needed before applying for same, so that the usual time required for the application for more money to the Board of Aldermen and the Board of Estimate would not cause additional delay.

We further recommend that in view of the fact that the authority of the architect on this work was either so little or that his every act could be countermanded by the various departments that in similar future operations of this kind the construction of these buildings shall be carried on in the following manner:

That the construction of the entire structure, excepting equipment, be let to one contractor at one time.

That the plans, specifications, materials or design, decorative or structural, be left to the discretion of the architect, consistent, however, with the general municipal methods of specifying material to permit competitive bidding and in the manner as generally followed by good practice of all reputable architects; or that the plans, etc., heretofore mentioned, with all such details, be approved by the Comptroller and then executed by the architect, whose authority shall be as limited as the former recommendation is broad.

In conclusion we beg to report that after a thorough examination of the testimony taken by this Committee regarding the various reasons for the delay in the construction of this Court House, that the delay would have been largely reduced (with the exception of specific instances mentioned), and we feel certain that this building or any other building of its type could be constructed more speedily by letting the contract for the structure in its entirety as above recommended, instead of letting same in many individual contracts.

June 9, 1913.

BRONX COURT HOUSE INVESTIGATING COMMITTEE—JAMES L. DEVINE, ABRAM W. HERBST, THOMAS H. O'NEIL, WM. BRUSH.

City of New York, Law Department, Office of the Corporation Counsel, Hall of Records, June 5, 1913.

Hon. ABRAM HERBST, Chairman of the Bronx Court House Committee, the Aldermanic Chamber, City Hall, N. Y.:

Sir—I beg to inform you that the draft of the report of the Committee appointed to investigate the delay in the completion of the Bronx Court House is ready and that nothing remains to be done but to have the Committee go over it and put it in final shape.

The preparation of the draft was a much greater task than I expected it would be at the start. There were four hundred pages of testimony, with the exhibits, to be examined and boiled down; the report of the investigation of the administration of former President Haffen by the Commissioner of Accounts had to be examined; the various suggestions of the members of the Committee had to be fitted in their proper places, and in view of the fact that I have not been relieved of any of my other duties in the office, this work had to be done in the evenings and necessarily took more time than I had anticipated.

I am sorry that the report could not have been presented before this, and I assume all responsibility for the delay. It has not been the fault of the Committee, which has been very patient with me. Respectfully yours,

PATRICK J. WALSH, Assistant Corporation Counsel (Counsel to the Bronx Court House Committee).

Which was laid over.

PETITIONS AND COMMUNICATIONS RESUMED.

No. 3954.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, 277 Broadway, June 9, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copies of three resolutions adopted by the Board of Estimate and Apportionment June 5, 1913, relative to the establishment of additional grades of positions, etc.:

Cal. No.	Department and Position.	Rate Per Annum.	Incumbents.
34	Education, amending resolution adopted May 8, 1913, which recommended establishment of various grades of positions, by changing the salary of 1 Junior Draftsman from $912.50 to $915.83, to correct typographical error.		
35	Education, Clerk.....	$2,400 00	1
50	Education, fixing compensation of Janitors of various school buildings.		

I also transmit copies of reports of the Committee on Salaries and Grades relative thereto. Yours very truly, JOSEPH HAAG, Secretary.

Resolved, That the following resolution adopted by the Board of Estimate and Apportionment on May 8, 1913:

"Resolved, That, pursuant to the provisions of section 56 of the Greater New York Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen the establishment in the Department of Education of grades of positions, in addition to those heretofore established, as follows:

Title.	Rate per Annum	Number of Incumbents.
Inspector of Masonry and Carpentry	$2,355 00	1
Inspector of Masonry and Carpentry	1,500 00	1
Junior Architectural Draftsman	900 00	4
Junior Architectural Draftsman	912 50	1"

—be *amended* to make the list of positions read as follows:

Title.	Rate per Annum	Number of Incumbents.
Inspector of Masonry and Carpentry	$2,355 00	1
Inspector of Masonry and Carpentry	1,500 00	1
Junior Architectural Draftsman	900 00	4
Junior Architectural Draftsman	915 83	1

A true copy of resolution adopted by the Board of Estimate and Apportionment June 5, 1913. JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, May 21, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On May 8, 1913, the Board of Estimate and Apportionment adopted a resolution requesting the Board of Aldermen to establish four new grades of position in the Bureau of Buildings, Department of Education. The last position in the list was Junior Architectural Draftsman at $915.83 per annum. Owing to a typographical error the amount read $912.50.

We recommend that the error be corrected by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

of additional grades of positions, etc.:

No. 3955.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the reater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Department of Education of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Clerk	$2,400 00	1

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 5, 1913. JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, May 26, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On May 14, 1913, the Board of Education requested the estalishment, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of position of Clerk at $2,400 per annum.

The proposed grade is to permit of an increase in the salary of Harry S. Grinleese, Clerk, $150 per annum. The amount necessary for the increase is to be made available under the rule governing increases adopted by your Board on January 30, 1913.

We recommend that the request be approved by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

No. 3956.

Whereas, By opinions of the Corporation Counsel as of June 28 and July 30, 1910, the Comptroller was advised that the payment of salaries of Janitors in the Department of Education was illegal unless such salary shall have been established under the provisions of section 56 of the Greater New York Charter, and

Whereas, The Special Committee on Janitorial Compensation and the Committee on School Inquiry, Board of Estimate and Apportionment, submitted a joint report on March 27, 1913, which contained detailed suggestions and recommendations for the reorganization of the janitorial force of the Board of Education; therefore be it

Resolved, That, pursuant to the provisions of section 56 of the Charter, the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen pending action by the Board of Education on the aforesaid report, the compensation of Janitors in the Department of Education be fixed temporarily, and until further modified, in accordance with the following list:

Janitor, Public School 44, The Bronx, per annum	$3,972 00
Janitor, Public School 45, The Bronx, per month	125 00
Janitor, Public School 26, The Bronx, for care of two portables, per annum	180 00

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 5, 1913. JOSEPH HAAG, Secretary.

City of New York, Department of Finance, Bureau of Municipal Invstigation and Statistics, May 28, 1913.

To the Board of Estimate and Apportionment:

Gentlemen—On May 14, 1913, the Board of Education requested the establishment, pursuant to the provisions of section 56 of the Greater New York Charter, of rates of compensation for Janitors of three public schools. In connection therewith we report as follows:

For the Janitor of No. 44, Prospect ave. and 176th st., The Bronx, an increase of $144 per annum, is requested on account of increased rent allowance. The present allowance of $221 per annum is inadequate for this neighborhood. A temporary rate of $125 per month is requested for the Janitor of New No. 45, 189th and Hoffman sts. and Lorillard place, which is nearing completion. For the Janitor of No. 26, The Bronx, $180 per annum is requested for the care of two temporary buildings which have been placed on the grounds of that school.

We recommend that the request be approved by the adoption of the attached resoultion. Respectfully,

WM. A. PRENDERGAST, Comptroller; JOHN PURROY MITCHEL, President, Board of Aldermen; Committee on Salaries and Grades.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—At a meeting of the Board of Estimate and Apportionment held June 5, 1913, a resolution was adopted, disapproving the request of the Board of Aldermen as set forth in a resolution adopted by said Board on April 29, 1913, for the issue of $2,500 special revenue bonds, the proceeds whereof to be used by the President of the Borough of Queens for defraying the expense of planting trees on certain highways in the Borough of Queens, and the Secretary was directed to notify you of said action.

Very truly yours, JOSEPH HAAG, Secretary.

Which was ordered on file.

The Acting President laid before the Board the following communication from the President, Borough of Manhattan:

No. 3958.

City of New York, Office of the President of the Borough of Manhattan, City Hall, May 27, 1913.

To the Honorable the Board of Aldermen:

Gentlemen—On July 18, 1911, your Board adopted an ordinance which provided for the more conspicuous numbering of certain buildings in the City of New York. This ordinance was expressly limited in its application to "residences or buildings used for residential purposes." In pursuance with its provisions, this office has been engaged for some weeks in notifying the owners of residences throughout the Borough of Manhattan to affix proper numbers on their buildings. Necessarily, these notices were sent to the owners of no buildings other than residences. This has resulted in leaving a great many buildings unnumbered, and it is highly desirable that this condition should be remedied.

I find that in 1907 your Board passed an ordinance, sections 95, 96 and 97 of article 8 of chapter 5, part 1, of the Code, which provides for the numbering of all buildings throughout the Borough of Manhattan. Under the provisions of this ordinance the Police Department is required to notify the Corporation Counsel of any lack of numbers upon the fronts of houses within the Borough, and the Corporation Counsel is thereupon authorized to require the owner to install such numbers within thirty days after receiving written notice so to do. It seems unnecessary that this work should be undertaken by the Corporation Counsel's office when similar work is being done by the Bureau of Highways, in this Department.

I accordingly suggest that the ordinance adopted by your Board, hereinabove referred to, be amended so as to authorize the Borough President to require the numbering not only of residences, but of all other buildings throughout the City. Such an amendment is herewith submitted, and its early consideration by your Board is earnestly urged. Respectfully,

GEORGE McANENY, President, Borough of Manhattan

AN ORDINANCE to amend "An ordinance to provide for the more conspicuous numbering of certain buildings in the City of New York," adopted by the Board of Aldermen April 16, 1912.

Be it ordained by the Board of Aldermen of the City of New York as follows:

Section 1. Section 1 of "An ordinance to provide for the more conspicuous numbering of certain buildings in the City of New York," is hereby amended to read as follows:

The owner, agent, lessee or other person in charge of each and every (residence or) building (used for residential purposes) in the City of New York, shall cause to be placed or affixed on the fanlight or on the inner doors the proper street numbers kept and retained or renewed thereon so that the same may at all times be legible, provided, however, that where such (residence or) building (used for residental purposes) is set back from the street line more than twenty-five feet, then such number or numbers may, at the option of such owner, agent, lessee or other person in charge of such (residence or) building, be so placed or affixed and kept, retained or renewed on a gate, gate-post, fence or other object near the street line of such premises.

Section 2. Section 2 of the said ordinance is hereby amended to read as follows:

If the owner, lessee, agent or other person in charge of any (residence or) building (used for residential purposes) in the City of New York shall fail to provide, place and keep such number or numbers on any such building within thirty days after this ordinance shall take effect, the President of the Borough shall forthwith serve such owner, lessee, agent or other person in charge of the building with a copy of this ordinance, and if after thirty days' service the owner, lessee, agent or other person in charge of a building shall fail or neglect to comply with the provisions of this ordinance, he shall be subject to a penalty of ten dollars ($10), which shall be sued for and collected in the name of The City of New York.

Section 3. This ordinance shall take effect immediately.

Which was referred to the Committee on Streets, Highways and Sewers.

The Acting President laid before the Board the following communication from the President, Borough of Richmond:

No. 3959.

The City of New York, Office of the President of the Borough of Richmond. Borough Hall, New Brighton, New York City, June 7, 1913.

Board of Aldermen, City Hall, New York City:

Dear Sirs—I enclose herewith copy of a letter addressed to me under date of June 7, by the Superintendent of Buildings, asking that a resolution be approved by the Board of Aldermen allowing him to purchase an automobile without public letting, not to exceed $1,625. I therefore present this matter to the Board for its consideration. Very truly yours,

GEORGE CROMWELL, President of the Borough.

Bureau of Buildings, Borough of Richmond, New Brighton, New York City, June 7, 1913.

Hon. GEORGE CROMWELL, President of the Borough of Richmond, New Brighton, N. Y.:

Dear Sir—In the budget appropriations approved for 1913 there appears under the title, "Supervision of Building Construction and Alteration, Executive, No. 3315," an item of one new automobile and equipment, $1,625.

We are very much in need of an automobile in this Bureau to properly carry out the duties of the office. Our present machine, which was purchased in 1907 for the sum of $2,400, is of little use, being constantly in need of repairs.

I would request therefore that you place before the Board of Aldermen for its approval a resolution allowing me to purchase an automobile, without public letting not to exceed the sum of $1,625. Yours respectfully,

JOHN SEATON, Superintendent of Buildings, Borough of Richmond.

Which was referred to the Committee on Public Letting.

The Acting President laid before the Board the following communications from the President, Borough of Queens:

No. 3960.

The City of New York, Office of the President of the Borough of Queens, Long Island City, June 10, 1913.

Board of Aldermen, City of New York:

Gentlemen—I hereby respectfully request your Board to approve of the purchase, without public letting, of about 2,500 cubic yards of fill to cost about $1 a yard.

The attention of this department has been called to a very dangerous condition on the Rockaway turnpike, between New York ave. and Hook Creek, and it is my desire to prosecute the work forthwith.

We have no available fill, and it will be necessary to purchase the quantity requested. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

Which was referred to the Committee on Public Letting.

No. 3961.

The City of New York, Office of the President of the Borough of Queens, Long Island City, June 2, 1913.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—On March 27, 1913, I addressed the following communication to the Corporation Counsel of The City of New York:

"The City of New York, Office of the President of the Borough of Queens, Long Island City, March 27, 1913.

"Hon. ARCHIBALD R. WATSON, Corporation Counsel, City of New York, Hall of Records, New York, N. Y.:

"Sir—On September 11, 1911, a contract was awarded to the Atkinson Construction Company: 'For regulating, grading and repaving with asphaltic concrete, Warrenite or Amiesite pavement on a macadam foundation, and all work incidental thereto in Shell road, from Thomson ave. to Jackson ave., 2d Ward,' but owing to litigation with respect to the paving to be constructed on Broadway, Flushing, which litigation affected questions involved in this contract, no order to begin work was given to the contractor until April 3, 1912, when the contractor was directed to commence work on the said contract on or before April 15, 1912, or before five days from the receipt of the said notice, the same to be completed in the seventy-five (75) working days as per contract.

"In the meantime, the contractor having become involved in financial difficulties, the said contract was assigned by the Atkinson Construction Company to the Newton Paving Company of Trenton, N. J., which assignment was received at our office April 13, 1912, and said assignment was approved by me April 16, 1912.

"Following this assignment, we experienced great diffculty in securing the assignee of the contractor to begin work and, on June 1, 1912, we sent to the contractor a telegram, a copy of which is as follows:

"'June 1, 1912.

"'NEWTON PAVING CO., 120 S. Stockton st., Trenton, N. J.:

"'In the event that work is not started on contract for paving Shell road on Monday, June 3d, your contract will be declared forfeited, and your bondsmen notified of default. "'MAURICE E. CONNOLLY.'

"Notwithstanding this fact, however, actual work was not started upon the contract until May 7, 1912, the contractor making various excuses for his failure to begin; after work was started the same was not prosecuted diligently, we experiencing considerable difficulty in making the contractor proceed with expedition.

"The said paving was done pursuant to a resolution adopted by the Board of Estimate and Apportionment on July 27, 1911, a copy of which resolution I enclose herewith.

"The method of paving selected was the Topeka Sterling Specifications, and the said work should comply with Method 'A' in the said specifications. Payments were made to the contractor during the prosecution of the said work as follows:

"90 per cent. certificate, dated August 28, 1912..... $9,828 00
"90 per cent. certificate, dated September 25, 1912..... 12,861 00

"$22,689 00

"So much difficulty thereafter was experienced with the said contractor that we felt advised on November 30, 1912, to send the following notice to the contractor:

"'November 30, 1912.

"'NEWTON PAVING COMPANY, Assignees of the Atkinson Construction Company, No. 125 S. Stockton st., Trenton, N. J.:

"'Gentlemen—The Engineer having certified to me in writing that the performance of your contract: "For regulating, grading and repaving with asphaltic concrete, Warrenite or Amiesite pavement on a macadam foundation and all work incidental thereto in Shell road, from Thomson ave. to Jackson ave., 2d Ward," is unnecessarily and unreasonably delayed, and that you are wilfully violating the conditions and covenants and specifications thereof, and are not executing the same in accordance thereof, and inasmuch as you have abandoned the work to be done under said contract, I hereby notify you to discontinue all work under said contract, and that I shall proceed in the manner prescribed by law and pursuant to Clause "R" of said contract to carry out the work to be performed thereof and to fulfill the same. Yours very truly,

"'MAURICE E. CONNOLLY, President of the Borough of Queens.'

"Copies of this communication were also forwarded to the bondsmen, the Massachusetts Bonding and Insurance Company, No. 84 William st., New York City, and also The Title Guaranty & Surety Company, No. 84 William st., New New York City, to the following effect, in each instance:

"'November 29, 1912.

"'Gentlemen—I enclose herewith copy of a communication transmitted to the Newton Paving Company, 120 S. Stockton st., Trenton, N. J., in relation to the abandonment of their contract, No. 32,497: "For regulating, grading and repaving with asphaltic concrete, Warrenite or Amiesite pavement on a macadam foundation and all work incidental thereto in Shell road, from Thomson ave. to Jackson ave., 2d Ward," on which you are one of the sureties.

"'Yours very truly, MAURICE E. CONNOLLY, President of the Borough of Queens,'

—and for your information I enclose herewith report of Mr. John H. Weinberger, Engineer in Charge, Bureau of Highways, following which report we declared the said contract abandoned, before taking this action, the said Engineer, upon the advice of an Assistant in your office, executed the following certificate:

"'November 22, 1912.

"'I hereby certify that the Newton Paving Company, on their contract for regulating, grading and repaving with asphaltic concrete, Warrenite or Amiesite pavement on a macadam foundation and all work incidental thereto in Shell road, from Thomson ave. to Jackson ave., 2d Ward, have unnecessarily and unreasonably delayed their work, that they have been notified both in person and by registered letter to proceed, have promised to do so, and failed to keep their promises; that the time limit given in the contract has been exceeded, and that the present progress, owing to insufficient supply of materials and labor, gives no promise of completion of the work within a reasonable time, and further that there are sufficient funds now due the contractor on this contract to pay for the labor and material necessary to complete this work.

"'J. H. WEINBERGER, Engineer of Highways.

"'Sworn to before me this 22d day of November, 1912.

"'JOSEPH SIEGEL, Jr., Commissioner of Deeds for The City of New York.

"'State of New York, County of Queens, ss:

"'On this 22d day of November, 1912, before me personally appeared J. H. Weinberger, to me known and known to me to be the person described in and who executed the foregoing certificate and he duly acknowledged to me that he executed the same.

"'JOSEPH SIEGEL, Jr., Commissioner of Deeds, for The City of New York.'

"The entire area of the said street to be repaved with asphaltic concrete was actually covered, and the only work remaining to be done under the terms of the said contract, in the event that this asphaltic pavement was accepted, was an item of stone gutters to be relaid to an amount of approximately one thousand (1,000) square yards, which our Engineers estimate would cost under the contract about the sum of $400.

"The notice above referred to, to the bonding companies, were personally served and the affidavits of such services are on file in my office, and in the event that you desire them they will be sent to you. The notice to the contractor above referred to, was served by delivering to and leaving with John Barrett, Superintendent, and the man in charge of the work of the said Newton Paving Company upon Shell road, on the 31st day of December, 1912, and on the 30th day of November, 1912, service was made on the said Contractor, by delivering notice to and leaving same with E. C. Wilson, the person in charge of the office of the said contractor, at the Broad Street Bank Building, State street, Trenton, New Jersey, personally, affidavit also being made of said service.

"That following the service of said notices, the Title Guaranty & Surety Company, one of the bondsmen, replied acknowledging receipt of the said communication, and in their communication state as follows:

"'Without waiving any defenses that the Title Guaranty & Surety Company or the Massachusetts Bonding and Insurance Company have or may have, I hereby, on their behalf, notify and require you that if the said Newton Paving Company or the Atkinson Construction Company do not complete said contract fully in every respect, to withhold from said Newton Paving Company and Atkinson Construction Company or any other person, any moneys now due or that may hereafter become due under said contract and to apply the same to the completion of said contract.

"'This letter is sent without prejudice to the rights of said surety companies. Respectfully,

"'A. T. KIERNAN, Counsel for the Title Guaranty & Surety Co.'

"No further notice was received from the Massachusetts Bonding & Insurance Company direct.

"Following these communications both, the Mr. Barrett, referred to, representing the Newton Paving Company and Richard B. Newton, treasurer of the Newton Paving Company, called at our office, requesting that we rescind the notice of abandonment, and with this request we refused to comply, but took the matter up informally with Mr. John L. O'Brien, Assistant Corporation Counsel, who advised to the effect that a conference should be held between the Contractor and representatives of the sureties, we accordingly notified the surety companies and the contractor to call at the office of Mr. John L. O'Brien, with a view of coming to some arrangement for the completion of the work, but with this request, neither the Contractor nor the surety companies, as far as we can learn, complied, although Mr. Newton did call upon Mr. O'Brien, but as the representatives of the surety companies did not respond, no conference was held.

"Since the abandonment of the said contract, the asphaltic concrete laid upon this street has disintegrated and fallen into a state of disrepair so that it is now impossible for us to accept a large portion of the work done under the said contract. There remains unpaid to the contractors upon their contract about the sum of eight thousand ($8,000) dollars, which includes the 10 per cent. retained under the two payments hereinbefore referred to for the maintenance of the said pavement during a period of five years, and the estimated earnings on the remainder of the contract.

"Why the asphaltic concrete pavement has disintegrated, we have not been able to, as yet, ascertain accurately, and are having samples of the same tested by the Standard Testing Laboratory.

"It is impossible to say at this time to what extent the balance of the said asphaltic concrete pavement laid will disintegrate, and we are unable to say accurately whether the balance of the work uncompleted can be finished and the inferior asphalt replaced for the sum remaining unpaid to the Contractor from the available unpaid balances, but from the appearance of the said pavement, it would seem that these sums will not be sufficient for this purpose.

"We also have serious doubts that some of the asphaltic pavement that now appears to be in good condition will last for the guaranteed period of five (5) years, and believe that in the event that we now replace the defective asphaltic concrete and defective foundation, we will hereafter be required to replace other sections, defects in which may subsequently appear.

"We request, therefore, that you advise as to what steps we should take, or should be taken, in order that the said contract be completed and in order that all defective materials be replaced, and further what steps it will be necessary for us to take to protect the City under the terms of their contract on the agreement of the Contractor to maintain this pavement for the guaranteed period of five (5) years.

"The questions that arise in my mind are:

"First—Whether a contract should be let for the stone gutters, which the contractor failed to lay, and for the replacement of the defective asphaltic concrete, as it appears at the date of the letting of this contract.

"Second—Whether our contracts should contain a provision requiring the Contractor to complete the contract according to its terms, agreeing to maintain the pavement, not only that laid by himself, but the portion already laid by the Newton Paving Company, on which no defects appear at the present.

"I would also request that you advise me when the maintenance period will begin to run: First, on the asphaltic concrete laid by the Newton Paving Company upon which no defects at this time appear, and secondly, when the period of maintenance will begin to run on the contract, which we propose to let for the completion of this work.

"The official documents relating to this contract are on file in the record room of the Department of Finance of The City of New York, and in view of the fact that it is very necessary for us to immediately repair this pavement, I would request that you advise me with respect to the above matters at your earliest convenience. Very truly yours,

"MAURICE E. CONNOLLY, President of the Borough of Queens."

In response to the said request, the Corporation Counsel rendered the following opinion:

"May 2, 1913.

"Hon. MAURICE E. CONNOLLY, Borough President:

"Sir—I am in receipt of your letter dated March 27, 1913, which reads as follows:

"'The questions that arise in my mind are:

"'First—Whether a contract should be let for the stone gutters, which the contractor failed to lay, and for the replacement of the defective asphaltic concrete, as it appears at the date of the letting of this contract.

"'Second—Whether our contracts should contain a provision requiring the contractor to complete the contract according to its terms, agreeing to maintain the pavement, not only that laid by himself, but the portion already laid by the Newton Paving Co., on which no defects appear at the present.

"'I would also request that you advise me when the maintenance period will begin to run; first, on the asphaltic concrete laid by the Newton Paving Co., upon which no defects at this time appear, and, secondly, when the period of maintenance will begin to run on the contract, which we propose to let for the completion of this work.

"'The official documents relating to this contract are on file in the Record Room of the Department of Finance of The City of New York, and, in view of the fact that it is very necessary for us to immediately repair this pavement, I would request that you advise me with respect to the above matters at your earliest convenience.'

"This contract was put an end to by you, pursuant to Clause (R) of the contract. Section (R) provides as follows:

"'(R). If the work to be done under this contract shall be abandoned by the contractor, or if this contract shall be assigned or the work sublet by him otherwise than is herein specified, or if at any time the Engineer shall be of the opinion, and shall so certify, in writing, to the President, that the performance of the contract is unnecessarily or unreasonably delayed, or that the Contractor is wilfully violating any of the conditions or covenants of this contract or specifications, or is executing the same in bad faith, or not in accordance with the terms thereof, or if the work be not fully completed within the time named in this contract for its completion, the President shall notify the Contractor to discontinue all work, or any part thereof under this contract, by a written notice to be served upon the Contractor, either personally or by leaving said notice at his residence, or with his agent in charge of the work, or with any employee found on the work, and thereupon the Contractor shall discontinue said work, or such part thereof, and the President shall thereupon have the power to contract for the completion of the contract in the manner prescribed by law, or to place such and so many persons, as he may deem advisable, by contract or otherwise, to work at and complete the work herein described, or such part thereof, and to use such materials, plant and machinery as he may find upon the line of the work, and to procure other materials for the completion of the same, and to charge the expense of said labor and materials to the Contractor; and the expense so charged shall be deducted and paid by the City out of such moneys as may be due, or may at any time thereafter grow due, to the Contractor under and by virtue of this contract, or any part thereof; and, in case such expense shall exceed the amount which would have been payable under the contract if the same had been completed by the Contractor, he shall pay the amount of such excess to the City; and when any particular part of the work is being carried on by the President, by contract or otherwise, under the provisions of this clause of the contract, the Contractor shall continue the remainder of the work in conformity with the terms of this contract, and in such manner as in nowise to hinder or interfere with the persons or workmen employed as above provided by the President by contract or otherwise, to do any part of the work, or to complete the same under the provisions of this article of the contract.'

"The maintenance clause (paragraph GG) contemplates the completion and acceptance of the whole work and the period of maintenance does not begin to run until 'from and after the date of the final certificate of the completion and acceptance of the whole work under this contract.'

"It is obvious, then, that the Borough President must look to a new contractor for the maintenance of the work of the Atkinson Construction Co. and its assignee, the Newton Paving Co.

"Under the clause (R), the President has the power to contract for the completion of the contract in the manner prescribed by law, and it follows that the new contract should be let for the stone gutters which the contractor failed to lay and for the replacement of the defective asphaltic concrete and for any other uncompleted work under the contract.

"It should also contain a provision requiring the contractor to complete the contract according to its terms and to agree to maintain the pavement, not only that laid by the new contractor but the portion already laid by the Newton Paving Company or its assignor, the Atkinson Construction Company, on which no defects appear at the present time.

"The object of letting the new contract in the terms of the old and including therein all the uncompleted work of the Atkinson Construction Company is that the City may be in a position at the completion of the work so advertised and relet to take advantage of the covenants in clause (R) of the contract, which provides that the expense so charged (against the new contract) shall be deducted and paid by the City out of such moneys as may be due or may at any time thereafter grow due to the Contractor under and by virtue of this contract or any part thereof; and in case such expense shall exceed the amount which would have been payable under the contract if the same had been completed by the contractor, he shall pay the amount of such excess to the City.'

"The new contract will contain the same maintenance clause (GG) as is contained in the Atkinson Construction Company contract and will run 'from and after the date of the final certificate of the completion and acceptance of the whole work under this contract.' There should be no departure from the requirements of this contract, and particularly Clause (R) thereof, in order that the sureties on the contract with the Atkinson Construction Company may be held liable under their obligations as sureties for the faithful performance of the contract. Respectfully,

"CHARLES D. OLENDORF, Acting Corporation Counsel."

The estimated cost of the original contract awarded to the Atkinson Construction Company was $30,700. There remains unpaid $8,000 upon said contract, which includes the 10 per cent. retained under payments heretofore made and hereinbefore referred to for the maintenance of the pavement during a period of five (5) years.

It is estimated by the Engineers that the difference between the available funds and the cost for the prosecution of the work, in accordance with the opinion of the Corporation Counsel, under a contract now being advertised, may be in the neighborhood of fifteen thousand dollars ($15,000). It is not possible, at this time, to predict what amount will be paid for the completion of the work under the advertisement now running, but, as there are not sufficient funds from which payments on the new contract could be made, excepting $8,000 referred to, it is necessary for us, before this contract is awarded and registered to secure a fund for the completion of the said contract, I respectfully request your Board, in accordance with subdivision 8 of section 188 of the Greater New York Charter, to provide special revenue bonds to the extent of fifteen thousand dollars ($15,000) for the said purposes.

It is unnecessary to say that the City, under this contract, will have the right to recover by suit, against the charges on the original contract, any loss susained by the City on said work. Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

Which was referred to the Committee on Finance.

ORDINANCES AND RESOLUTIONS.

No. 3963.

By Alderman Brush—

Resolution introduced June 10, 1913, by William D. Brush, Alderman of the 19th Assembly District:

Whereas, That section of New York known as Manhattanville is one of the most densely populated portions of the greater City; and

Whereas, The health and welfare of the people living in that section, particularly the women and children, demand that they have some place for rest and recreation; and

Whereas, The people living in other portions of the City are provided with playground facilities, and the people in this neighborhood are compelled to go long distances before they are allowed to enjoy these privileges, which is a practical denial of the same; and

Whereas, More than two hundred people living in the neighborhood have signed a petition requesting the proper City authorities to take steps to provide a playground in this vicinity; and

Whereas, There is an ideal spot for such a playground at 131st st. and Broadway; and

Whereas, On the 14th day of March, 1913, a resolution was passed in the Board of Aldermen requesting the Board of Estimate and Apportionment and the Park Commissioner to take such steps as might be necessary to establish a playground in this vicinity; and

Whereas, Nothing has been done by the City authorities toward the establishment of a playground in this vicinity; now, therefore, be it

Resolved, That the Board of Aldermen take the proper steps to establish a playground in this vicinity, under section 20 of the Home Rule Bill, as speedily as possible.

Which was referred to the Committee on Parks, with a request to hold a public hearing thereon.

No. 3965.

By the same—

Whereas, It has pleased Divine Providence to call to rest former Alderman and Assemblyman

FRANCIS J. BYRNE,

who ably and conscientiously performed his full duty to his district, and to the City, both as a member of this Board and of the Legislature; and,

Whereas, By his quiet, unobtrusive, painstaking conduct, the Hon. Francis J. Byrne endeared himself to his colleagues and political associates, and left to those who knew him naught but the memory of a man of high motive and unquestioned character, therefore, be it

Resolved, That the Board of Aldermen of The City of New York, sincere in its grief at the untimely taking away of its former member, place upon the record a vote of the high esteem in which the Hon. Francis J. Byrne was held and extends to his bereaved relatives sincere sympathy in the hour of their dire affliction.

Resolved, Further, that a copy hereof, suitably engrossed and duly authenticated by the City Clerk, be transmitted to the family of the deceased.

Which was unanimously adopted by a rising vote.

No. 3966.

By the same—

Resolved, That permission be and the same is hereby given to James O'Reilly to erect, place and keep a storm door within the stoop line in front of premises 186 Park ave., in the Borough of Brooklyn, provided the said storm door shall be erected so as to conform in all respects with the provisions of the ordinance in such case made and provided; the work to be done at his own expense, under the direction of the President of the Borough, such permission to continue only during the pleasure of the Board of Aldermen.

Which was adopted.

No. 3967.

By Alderman White—

Resolved, That permission be and the same is hereby given to Edgar D. Graham, of 320 Broadway, to parade a man with an advertising sign through the streets and thoroughfares of the Borough of Manhattan, under the supervision of the Police Department; such permission to continue only during the period of thirty days from the receipt hereof from his Honor the Mayor.

Which was adopted.

No. 3968.

By Alderman Smith—

Whereas, It has been determined by the Commissioners of the Sinking Fund to transfer the offices of the City Clerk and Clerk of the Board of Aldermen from the City Hall, where they rightly should be continued, to the new Municipal Building, when completed; and,

Whereas, It is and has been the invariable rule in all the cities of the country, in fact, all the cities of the world, to have the offices of the City Clerk and Clerk of the local legislative body adjacent to and in direct communication with said body, and it would seem discordant to dissociate the offices of the Clerk from the body of whose machinery he is the most direct link; and,

Whereas, Were these offices located other than they are it would be a source of great inconvenience for the reason that official papers would be separated and far apart from public hearings and general committee meetings, when held, necessitating their transmission from a distance, though not great, sufficiently great enough to retard if not to hamper the business of said hearings and committee meetings for all of whose business ready access should be had to papers; therefore,

Resolved, That the Board of Aldermen of The City of New York enters earnest protest against the removal of the offices of the City Clerk and Clerk of the Board, and respectfully requests the Commissioners of the Sinking Fund to not adhere to their determination to remove said offices, but to allow said offices to remain in the City Hall, as at present located, as they have been wherever found from time to the memory of which man knoweth not, so that the business of the Board and its several committees may not suffer from any hindrance or inconvenience.

Which was adopted, Alderman Curran not voting.

No. 3969.

By Alderman Shipley—

Resolved, That the Board of Estimate and Apportionment be and is hereby requested to provide the necessary funds for the construction of a new building in the vicinity of Ferris st. and Woodland ave., Borough of Queens, in order to relieve the present overcrowded conditions, this in accordance with the expressed opinion of Local School Board, District No. 44, and the request of the Committee on Buildings of the Board of Education, dated May 27, 1913, and addressed to the Corporate Stock Budget Committee of the Board of Estimate and Apportionment.

Resolved, further, That the Board of Education join in the request herein made.

Which was adopted.

No. 3970.

By the same—

Whereas, This Board of Aldermen has learned of the demise of an excellent public servant who demonstrated his worth and abilities in many capacities, and particularly in the once concurrent body of the Council,

DAVID L. VAN NOSTRAND,

Resolved, That it is fitting to record the sense of this Board of the value of the services of this good citizen. He was identified with the County and Borough of Queens for thirty-three years, as Justice of the Peace, Supervisor, Councilman in the Municipal Assembly for four years after the establishment of the Greater New York, Commissioner of Police Works and County Clerk, and on retirement therefrom became President of the First National Bank of Jamaica;

Resolved, That the Board extends its sympathies to the widow and family of the deceased.

Be it further resolved, that a copy of this preamble and resolutions, duly authenticated and suitably engrossed, be transmitted to the family.

Which was unanimously adopted by a rising vote.

AN ORDINANCE to amend article 1 of title 2 of chapter 7 of part 1 of the Code of Ordinances of The City of New York, relating to the "Bureau of Licenses," (Changing sections 348 and 349 of the Greater New York Charter).

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. Section 305 of article 1 of title 2 of chapter 7 of the Code of Ordinances of The City of New York is hereby further amended so that the same shall read as follows:

Article 1—Business Requiring a License.

Sec. 305. The following businesses must be duly licensed as herein provided, namely, public cartmen, truckmen, hackmen, cabmen, expressmen, drivers, junk dealers, dealers in second-hand articles, hawkers, peddlers, venders, coal scalpers, common shows, shooting galleries, bowling alleys, pool and billiard tables, dirt carts, exterior hoists, *bookers for passengers or runners for hotel patronage,* and stands within stoop lines and under the stairs of the elevated railroad stations.

Sec. 2. Sec. 307 of article 2 of title 2 of chapter 7 of the Code of Ordinances of The City of New York is hereby further amended by inserting therein after the last line the words and figures "*For each solicitor of passengers or patronage for steamers, steamboats, ships, vessels, hotels, railroads or transportation companies,* $20.00."

Sec. 3. Article 4 of title 2 of chapter 7 of the Code of Ordinances of The City of New York is hereby amended by adding at the end thereof the following sections:

Sec. 372b. The Chief of the Bureau of Licenses may issue licenses authorizing the person or persons to whom the same are issued, upon any street, public highway, dock or pier or in any park or square in The City of New York, or upon any water adjacent thereto, over which said City has jurisdiction, to solicit patronage for any hotel or inn or passengers or patronage for any steamer, steamboats, ship, vessel or railroad; or for any person or corporation selling or offering for sale passage tickets, or contracting or offering to contract for passage on any such steamer, steamboat, vessel or railroad. Such license shall be for the period of one year from the date thereof, and every person receiving such license shall pay the sum of $20 therefor to the Chief of Bureau of Licenses, and shall also give the said Chief of the Bureau of Licenses a bond with two good and sufficient sureties in the penalty of $300 conditioned for his good behavior, and the faithful observance by him of all the provisions of this section. It shall be lawful for said Chief of Bureau of Licenses, upon application made prior to the expiration of said license to renew and continue the same from year to year, provided that the applicant therefor continues in all respects qualified as herein provided, to hold such license, and the said applicant shall, upon receiving such renewal, pay into the City Treasury the further sum of $10 per annum as a renewal fee. Licenses and renewals may be revoked at any time by the said Chief of the Bureau of Licenses for any cause satisfactory to him, such cause to be stated in writing to the person so removed at the time of the notice of his removal. No person shall receive any license under the provisions of this section who is not a citizen of the United States and a person of good character, such fact to be proved to the satisfaction of the said Chief of the Bureau of Licenses.

Sec. 373c. Every person licensed under the provision of this ordinance shall wear conspicuously a metal badge containing the number of his license. Any person who shall carry on the business or engage in the occupation as set forth without such license shall be deemed guilty of a misdemeanor, and shall be liable to a fine of not less than twenty-five dollars and shall also forfeit his license.

Sec. 4. This license shall take effect immediately.

No. 4013 (S. O. No. 271).

AN ORDINANCE relative to motion picture theatres.

Be it ordained by the Board of Aldermen of The City of New York, as follows:

Chapter 7, Title 2, Article 3, Section 352—Motion Pictures and Motion Picture Theatres.

352A.

Motion pictures shall be deemed a display on a screen or other device whereby pictures are displayed of characters or objects in motion, whether or not accompanied by music, lecture, recitation or song.

352B.

A motion picture theatre shall be deemed any public hall or room in The City of New York in which motion pictures are exhibited, in which the seating capacity does not exceed 600, and in which there is no stage or scenery.

An open air motion picture theatre shall be deemed any public place or space in the open air in The City of New York in which motion pictures are exhibited, and in which there is no stage or scenery.

The Mayor shall appoint such inspectors as shall be necessary to carry out the provisions of this ordinance. They shall be known as "Motion Picture Theatre Inspectors" and shall be paid such compensation as shall be fixed by the Board of Aldermen on recommendations of the Board of Estimate and Apportionment.

352C.

The Bureau of Licenses shall issue all motion picture licenses granted by the Mayor, and, by the authority of the Mayor, shall regulate and control all motion picture theatres provided,

1. Applicants for motion picture theatre licenses shall file plans and specifications of the motion picture theatre with the Bureau of Buildings of the borough in which the motion picture theatre is to be situated, and must file a copy of such plans and specifications, duly approved by the Superintendent of Buildings, with the application for the license, which application shall be made to the Bureau of Licenses on blanks furnished by it for that purpose.

2. The Bureau of Licenses shall, without delay upon the request of an applicant, pass upon the location of the motion picture theatre and upon the character of the applicant requesting the license.

3. The Bureau of Licenses shall request the Fire Department, Bureau of Buildings, Department of Water Supply, Gas and Electricity, and Department of Health to inspect said theatres, and the said departments shall file in the Bureau of Licenses, within ten days, detailed written reports, which shall include a statement of any violations of law, ordinances, rules and regulations, and any dangerous conditions. Upon the failure of any of said departments (excepting the Fire Department) to file detailed written reports in reply to the request of the Bureau of Licenses, the said bureau may disregard said department and in its discretion may issue a license.

4. Until the provisions of this ordinance shall have been complied with, no license shall be issued.

352D.

1. Plans—Before the erection, construction or alteration of a building, or part thereof, to be used as a motion picture theatre, there must be filed with the Superintendent of Buildings complete plans and detailed statement as set forth in section 4 of the Building Code. The plans must show clearly and fully the location and width of all exits, passageways, stairs, fire escapes, aisles, etc.; arrangement of seats, size of floor beams, walls, supports, etc.; the location and construction of the inclosure for the motion picture light and machinery, and for other similar apparatus; a diagram of the lot or plot, showing outlets from all exits, and also such other statements, plans or details as may be required by the Superintendent of Buildings.

2. Prohibition—Motion picture theatres shall not be constructed in frame buildings within the fire limits, nor in hotels, tenement houses or lodging houses, nor in factories or workshops, except where the theatre is separated from the rest of the building by unpierced fireproof walls and floors, and in no case shall they be constructed or operated above or below the ground floor of any building.

3. Exits and Courts—All such buildings must be provided on the main floor of the theatre with at least two separate exits, one of which shall be in the front and the other in the rear, both leading to unobstructed outlets on the street. Where the main floor of the theatre accommodates more than 300 people there shall be at least three such exits, the aggregate width in feet of such exits shall not be less than one-twentieth of the number of persons to be accommodated thereby. No exits shall be less than 5 feet in width, and there shall be a main exit not less than 10 feet in total width.

In all such buildings to be erected or to be altered so as to be used for a motion picture theatre, if unobstructed exit to a street cannot be provided at the rear of such buildings, as herein specified, either an open court or a fireproof passage or corridor must be provided from rear exit to the street front of at least the following width: 4 feet in the clear for theatres accommodating 100 persons or less; for every additional 100 persons the width to be increased 8 inches. Such passage must be constructed of fireproof material and must be at least 10 feet high in the clear. The walls forming such passage must be at least 8 inches thick, of brick or other approved fireproof material, and if there be a basement the wall on the auditorium side should either run 1 foot below the cellar bottom or may be carried in the cellar on iron columns and girders properly fireproofed according to sections 106 and 107 of the Building Code.

The ceiling of said passage, and if there be a basement, the flooring must be constructed according to section 106 of the Building Code.

If unobstructed rear exit or exits to a street are provided, the said exit or exits must be of the same total width required for the court or passage above mentioned.

Said passages and exits to the street, as above, must be used for no other purposes except for exit and entrance and must be kept free and clear.

The level of the open court or passage at the front of building shall not be greater than one step above the level of the sidewalk, and the grade shall not be more than 1 foot in 10, with no perpendicular rises.

All exit doors must be unlocked when building is open to the public. They must be fireproof and made to open outwardly and so arranged as not to obstruct the required width of exit or court when opened. All doors leading to fire escapes must be not less than 40 inches wide in the clear, and shall be located at the opposite side or end of the gallery from other exit doors.

4. Galleries and Stairs—A gallery may be permitted, but it shall not include more than 25 per cent. of the total seating capacity of the theatre. Entrance to and exit from said gallery shall in no case lead to the main floor of the theatre, and the gallery shall be provided with a stair or stairs equipped with handrails on both sides. Stairs over 7 feet wide shall be provided with centre handrail. The risers of the stairs shall not exceed 7¾ inches, and the treads, excluding nosings, shall not be less than 9½ inches. There shall be no circular or winding staircases.

The total width of the stairs shall not be less than 8 feet in the clear where the gallery accommodates 150 people; for every 50 people less than 150 which the gallery accommodates said width may be reduced 1 foot.

Stairs shall be constructed of fireproof material, and such material and the bearing capacity of such stairs shall be approved by the Bureau of Buildings.

Galleries must also be provided with at least one line of fire escapes leading to an open court, fireproof passage or street without re-entering the same or any other building.

If the fire escape leads to a point in the court nearer the street than any exit, there must be a width of not less than 4 feet in the clear between the outer edge of the fire escape and the outer wall of the court.

5. Fire Escapes—All fire escapes must have balconies not less than 3 feet 4 inches in width in the clear and not less than 4 feet 6 inches long, and from said balconies there shall be staircases extending to the ground level with a rise of not over 7¾ inches and a step of not less than 9½ inches, and the width of the stairs must not be less than 3 feet 4 inches.

6. Auditorium and Other Rooms—If the walls of the auditorium contain wood studs they shall be covered with either expanded metal lath or wire mesh and plastered with three coats of first class plaster, or may be covered with metal on one-half inch plaster boards. The joints shall be properly filled with mortar.

The ceilings of all such rooms shall be plastered with three coats of first class plaster on wire mesh or metal lath, or covered with one-half inch plaster boards, and plastered or covered with metal.

If there be a basement or cellar, the ceiling under the auditorium floor must be plastered with three coats of first class plaster on wire mesh or expanded metal lath or may be covered with metal on one-half inch plaster boards.

The basement or cellar under the auditorium shall be kept free and clear, except the space used for the heating apparatus, for machinery connected with the theatre and for coal.

7. Construction of Booths—Apparatus for projecting motion pictures shall be enclosed in a booth or enclosure constructed so as to be fireproof, in accordance with the specifications of chapter 756 of the Laws of 1911. The booth shall be equipped with a vent flue as prescribed in section 352C, paragraph 2, of this ordinance. Booths shall contain an approved fireproof box for the storage of films not on the projecting machine. Films shall not be stored in any other place on the premises; they shall be rewound and repaired either in the booth or in some other approved fireproof enclosure.

Where miniature motion picture machines are employed in connection with private exhibitions the requirements of the above paragraph may be so modified as to permit, instead of the regulation booth, an approved fireproof box, unventilated, and of a size only sufficient to properly enclose the machine.

8. Gradients—To overcome any difference of level in and between corridors, lobbies and aisles, gradients of not over 1 foot in 10 feet, or steps having a rise not over 8 inches and a width of not less than 10 inches must be used.

9. Aisles—All aisles in the auditorium and gallery must not be less than 3 feet wide in the clear. No aisle, passageway or space in the rear of the auditorium shall be obstructed by any camp stool, chair, sofa or settee, nor shall any person be permitted to stand or sit therein.

10. Chairs—All chairs in the auditorium except those contained in the boxes, must not be less than 32 inches from back to back and must be firmly secured to the floor. No seat in the auditorium shall have more than seven seats intervening between it and an aisle. The space occupied by each person shall be separated from the adjoining space by means of an arm or other suitable device.

11. Signs Over Exits—Over every exit there must be painted on the inside in letters not less than 6 inches high, the word "Exit" in legible type, and one red light or illuminated sign must be placed inside over each exit, and illuminated while the audience is present.

12. Floor Loads—The flooring of that portion of the building devoted to the uses or accommodation of the public must be of sufficient strength to bear safely a live load of 90 pounds per square foot.

13. Toilets—Toilets separate for sexes must be provided.

14. Fire Apparatus—Portable fire apparatus shall be provided of the following kind and number: Ten-quart capacity buckets, painted red with the word "Fire" in black, the letters 4 inches high, to the number of 6 for places seating less than 300 without a gallery, and two additional if there be a gallery; to the number of ten in places seating over 300 persons, and four additional if there be a gallery. There shall be two buckets containing dry sand kept in the operating booth; approved fire extinguishers of 2½-gallon capacity of the regulation Fire Department pattern, of which 2 shall be on the main floor and 2 in the gallery, if there be one, and 1 in the operating booth; 4 pound flat head axes, 2 of which shall be on the main floor and 2 in the gallery, if there be one.

352E.

1. Lighting—Every portion of a moving picture theatre, including exits, courts and corridors devoted to the uses or accommodation of the public, shall be so lighted by electric light during all exhibitions and until the entire audience has left the premises that a person with normal eyesight should be able to read the Snellen standard test type 40 at a distance of 20 feet and type 30 at a distance of 10 feet; normal eyesight meaning ability to read type 20 at a distance of 20 feet in daylight. Cards showing types 20, 30 and 40 shall be displayed on the side walls, together with a copy of this paragraph of the ordinance.

2. Heating—When the temperature of the outdoor air is below 60 degrees F. the air in the theatre, while an audience is present, shall be maintained at a temperature not lower than 62 degrees F. nor higher than 70 degrees F.

If gas stoves, oil stoves or other apparatus throwing off products of combustion are used to heat motion picture theatres, said products of combustion must be carried to the outside air by means of a fireproof flue or flues.

No radiator shall be placed in the aisles so as to lessen the width below the minimum requirement.

3. Ventilation—Motion picture theatres having less than 200 cubic feet of air space for each person, or motion picture theatres in which the outside window and door area is less than one-eighth of the floor area, shall be provided with artificial means of ventilation which shall supply during the time the audience is present at least 500 cubic feet of fresh air per hour for each person.

Motion picture theatres having more than 200 cubic feet of air space for each person, or which have outside windows and doors, the area of which is equal to at least one-eighth of the floor area, shall be provided with artificial means of ventilation, which shall be in operation when the outside temperature requires the windows to be kept closed, and which shall supply, during the time the audience is present, at least 500 cubic feet of fresh air per hour for each person. When the artificial ventilation is not in operation, ventilation by means of open doors and windows shall be sufficient to provide each person with 500 cubic feet of fresh air per hour.

Motion picture theatres having more than 1,000 cubic feet of air space for each person and having outside windows and doors, the area of which is equal to at least one-eighth of the total floor area, shall not be required to have artificial means of ventilation, provided the air is thoroughly changed by freely opening doors and windows immediately before the admission of the audience, and at least every 4 hours thereafter.

No part of the fresh air supply required by any of the above paragraphs of this section shall be taken from any source containing vitiated air.

The area of outside doors and windows shall mean the area capable of being freely opened to the outside air for ventilation purposes.

When fresh air is supplied by means of ventilating openings, at least one inlet shall be situated at one end of the room, and at least one outlet at the other end of the room. Where exhaust or inlet fans are necessary, at least one of such fan shall be placed in an outlet opening. The inlet opening or openings shall be placed in the floor or within 2 feet from the floor, and the outlet opening or openings in the ceiling or within 2 feet of the ceiling. The inlet openings and their surroundings shall be kept free from dust so that the incoming air shall not convey dust nor stir up dust as it enters.

During the time the audience is present, the air in the theatre shall be kept continuously in motion by means of fans to the number of at least 1 to every 150 persons. Such fans shall be placed in positions remote from the inlet and outlet openings. No person shall be exposed to any direct draft from any air inlet.

The booth in which the picture machine is operated shall be provided with an opening in its roof or upper part of its side walls, leading to the outdoor air. The vent flue shall have a minimum cross sectional area of 50 square inches and shall be fireproof. When the booth is in use, there shall be a constant current of air passing outward through said opening or vent flue, at the rate of not less than 30 cubic feet per minute.

The specifications of the above paragraph shall apply to portable booths and booths in open air theatres.

352F.

Motion picture theatres must be kept clean and free from dust.

The floors, where covered with wood, tiles, stone, concrete, linoleum, or other washable material, shall be mopped or scrubbed with water or swept with moisture or by some other dustless method, at least once daily, and shall be scrubbed with water and soap, or water and some other solvent substance at least once weekly.

Carpets, rugs and other fabric floor coverings shall be cleaned at least once daily by means of suction cleaning, beating or dustless sweeping. Curtains and draperies shall be cleaned at least once monthly by suction cleaning, beating or washing. Cornices, walls and other dust-holding places shall be kept free from dust by washing or moist wiping. The wood and metal parts of all seats shall be kept clean. Fabric upholstering of seats and railings and other fixed fabrics shall be cleaned by suction cleaning, or other dustless method, at least once monthly.

352G.

Through its Motion Picture Inspectors, as provided in subsection 352b of this ordinance, the Bureau of Licenses shall inspect, subject to the authority of the Mayor, the character of exhibitions in motion picture theatres and shall report to the Mayor any offense against morality, decency or public welfare contained in said exhibitions.

352H.

All the provisions contained in this ordinance shall apply to existing places of entertainment, where motion pictures are exhibited under a common show license, in case the seating capacity be increased; and in case the seating capacity be not increased, all the provisions of this ordinance shall apply, except those provisions of subsection 352d, designated as numbers 1, 2, 3, 4, 5 and 6, but the Bureau of Licenses shall have power in its discretion to enforce the provisions of said paragraph 3 of Section 352d as to exits and courts.

352I.

Existing places of entertainment seating 300 persons, or less, where motion pictures are exhibited in conjunction with any other form of entertainment, must comply, before a reissuance of its license, with the provisions of section 109 of the Building Code, covering theatres seating more than 300 persons. But if such existing place of entertainment discontinue all other form of entertainment except the exhibition of motion pictures, it may be licensed in accordance with the provisions of subsection 352H.

352J.

With the exception of paragraph 7 of subsection "352D," subsections "352A" to "352F," inclusive, and subsections "352H," "352I," "352K" and "352L" of this ordinance shall not apply to motion picture exhibitions with or without charge for admission, conducted under the direct management of educational or religious institutions, nor to motion picture exhibitions without charge for admission given or held not more than once a week in private residences or bona fide social, scientific, political or athletic clubs. Before motion pictures shall be exhibited in any of the places above mentioned, there shall be obtained from the Bureau of Licenses a permit for such exhibition. Before granting such permit, the Bureau of Licenses shall cause to be inspected the premises where such proposed exhibition will be held, and shall grant the permit if in its judgment the safety of the public be properly guarded, and provided that for an audience of more than 75 people all chairs or seats shall be securely fastened to the floor or fastened together in rows.

352K.

The Bureau of Licenses, at its discretion, shall specify the seating capacity for each open air motion picture theatre. Aisles must be 4 feet wide, or wider, in the discretion of the Bureau of Licenses. At least two separate exits, remote from each other, shall be provided, and no exit shall be less than 5 feet in width; for every 25 persons to be accommodated in excess of 300, the total width of exits shall be increased 1 foot. All exits must be indicated by signs and red lights, and the doors must open outwardly. Seats must be stationary, with backs 32 inches apart, and so arranged that no seat shall have more than 7 seats intervening between it and an aisle. The floor must be constructed either of wood with sleepers or concrete, and must extend at least five feet from the seats on all sides, provided, however, that in the discretion of the Bureau of Licenses, a gravel floor may be substituted for wood or concrete. Chairs must be either securely fastened to wood or concrete floor, or all chairs in a row must be fastened together, and at least 4 rows must be securely fastened to one frame, except that where refreshments are served, tables and unattached chairs or benches used with them may be permitted.

352L.

Only subsections "352A," "352B," "352C," "352D," paragraphs 7 and 13; "352G," "352J" and "352K" of this ordinance shall apply to open air motion picture theatres.

352M.

This ordinance shall take effect thirty days after its approval by the Mayor. All other rules, regulations and ordinances inconsistent herewith and affecting buildings and places to be occupied as herein defined are hereby revoked.

Which was laid over.

GENERAL ORDERS.

No. 521 (Int. No. 251).

The Committee on Water Supply, Gas and Electricity, to which was referred on January 30, 1912 (Minutes, page 254), the annexed recommendation by the Commissioner of Water Supply, Gas and Electricity of the King meter, for use in the City of New York, respectfully

REPORTS:

That, having examined the subject, it believes the recommendation of the Commissioner of Water Supply, Gas and Electricity should be approved.

It, therefore, recommends that the hereto attached resolution be adopted.

Resolved, That in pursuance of section 475 of the amended Greater New York Charter, and in accordance with the recommendation of the Commissioner of Water Supply, Gas and Electricity, the King meter, sizes from 5/8 to 2 inches, be and the same is hereby approved as to pattern and prices as water meters for use in The City of New York, to wit, as follows:

Size.	Price.	Connections.
5/8-inch	$8 00	$0.40 per set.
3/4-inch	12 00	.60 per set.
1-inch	16 00	,80 per set.
1½-inch	30 00	No charge.
2-inch	50 00	No charge.

JOHN S. GAYNOR, ABRAM W. HERBST, OSCAR IGSTAEDTER, JAMES R. WESTON, D. M. BEDELL, DANIEL R. COLEMAN, Committee on Water Supply, Gas and Electricity.

Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, City of New York, February 22, 1912.

To the Honorable Board of Aldermen, City Hall:

Gentlemen—This department has conducted a test of the King meter, manufactured by the Union Meter Co., for the purpose of ascertaining whether it was a suitable and reliable meter to be used in measuring water in this City. The meter is of the disc pattern, almost similar in construction and material to the other disc meters which the City has adopted from time to time. It is made in sizes from 5/8 inch to 2 inches. The tests for accuracy on different flows and the tests for durability have shown that this meter could be safely adopted for use in this City.

I respectfully recommend, pursuant to section 475 of the Charter, that this meter be adopted, both as to pattern and price. On the attached schedule are given the different sizes in which the meter is made and the prices, including the connections. Yours truly, HENRY S. THOMPSON, Commissioner.

Size.	Price.	Connections.
5/8 inch	$8 00	$0 40 per set
3/4 inch	12 00	60 per set
1 inch	16 00	80 per set
1½ inches	30 00	No charge
2 inches	50 00	No charge

The Acting President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the negative by the following vote, a majority of all the members failing to vote in favor thereof:

Affirmative—Aldermen Bedell, Boschen, Bosse, Brush, Coleman, Curran, Diemer, Dowling, Folks, Gaynor, Gelbke, Hamilton, Igstaedter, Kenneally, Marks, Martyn, Moore, Post, Reardon, Shipley, Stevenson, Wendel, Weston—23.

Negative—Alderman Cunningham—1.

No. 522 (Int. No. 252).

The Committee on Water Supply, Gas and Electricity, to which was referred on January 30, 1912 (Minutes, page 254), the annexed communication from the Commissioner of Water Supply, Gas and Electricity, recommending the Eureka water meter for use in the City of New York, respectfully

REPORTS:

That, having examined the subject, it believes the recommendation of the Commissioner of Water Supply, Gas and Electricity should be approved.

It, therefore, recommends that the hereto attached resolution be adopted.

Resolved, That, in pursuance of section 475 of the amended Greater New York Charter, and in accordance with the recommendation of the Commissioner of Water Supply, Gas and Electricity, the Eureka meter, sizes from 1½ to 12 inches, be and the same is hereby approved as to pattern and prices, as water meters for use in The City of New York, as follows:

Size.	Price.	Connections.
1½-inch	$30 00	No charge.
2-inch	40 00	No charge.
3-inch	80 00	No charge.
4-inch	160 00	No charge.
6-inch	350 00	No charge.
8-inch	600 00	No charge.
10-inch	750 00	No charge.
12-inch	900 00	No charge.

City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park Row, January 23, 1912.

The Honorable Board of Aldermen:

Gentlemen—This department has made a test of the Eureka water meter, manufactured by the Pittsburg Meter Co. It is of the current type and is made in sizes from 1½ to 12 inches, and is used principally where a large quantity and quick delivery of water are required. The tests have demonstrated that the meter is sufficiently accurate and constructed of durable material.

I would, therefore, recommend that, pursuant to section 475 of the Charter, this meter is adopted by the Board of Aldermen, both as to pattern and price.

On the enclosed schedule are given the different sizes of the meter and the prices at which same can be purchased. Yours truly,

HENRY S. THOMPSON, Commissioner.

Size.	Price.	Connections.
1½-inch	$30 00	No charge.
2-inch	40 00	No charge.
3-inch	80 00	No charge.
4-inch	160 00	No charge.
6-inch	350 00	No charge.
8-inch	600 00	No charge.
10-inch	750 00	No charge.
12-inch	900 00	No charge.

The Acting President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the negative by the following vote, a majority of all the members failing to vote in favor thereof:

Affirmative—Aldermen Bedell, Boschen, Bosse, Brush, Coleman, Curran, Diemer, Dowling, Folks, Gaynor, Gelbke, Hamilton, Igstaedter, Kenneally, Marks, Martyn, Moore, Post, Reardon, Shipley, Stevenson, Wendel, Weston—23.

Negative—Alderman Cunningham—1.

No. 523 (Int. No. 2732).

The Committee on Water Supply, Gas and Electricity, to which was referred on January 28, 1913 (Minutes, page 308) the annexed communication and resolution recommending for use in The City of New York the Nilo water meter, respectfully

REPORTS:

That, having examined the subject, it believes the recommendation of the Commissioner of Water Supply, Gas and Electricity should be approved.

It therefore recommends that the hereto attached substitute resolution be adopted.

SUBSTITUTE.

Resolved, That in pursuance of section 475 of the amended Greater New York Charter, and in accordance with the recommendation of the Commissioner of Water Supply, Gas and Electricity, the Nilo meter, sizes from 2 to 12 inches, be and the same is hereby approved as to pattern and prices, as water meters for use in The City of New York, to wit, as follows:

2-inch	$40 00	6-inch	$350 00
3-inch	80 00	8-inch	600 00
4-inch	160 00	12-inch	800 00

ORIGINAL.

Resolved, That the Board of Aldermen, pursuant to section 476 of the Charter, as amended, hereby approves and adopts the Nilo water meter, manufactured by the Union Water Meter Company, of Worcester, Massachusetts, in sizes and prices, as follows:

2-inch	$40 00	6-inch	$350 00
3-inch	80 00	8-inch	600 00
4-inch	160 00	12-inch	800 00

JOHN S. GAYNOR, ABRAM W. HERBST, OSCAR IGSTAEDTER, JAMES R. WESTON, D. M. BEDELL, DANIEL R. COLEMAN, Committee on Water Supply, Gas and Electricity.

The City of New York, Department of Water Supply, Gas and Electricity, Commissioner's Office, 13-21 Park row, New York, January 20, 1913.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, City of New York:

Dear Sir—The Union Water Meter Company of Worcester, Mass., is the manufacturer of the Nilo meter. It is constructed so as to insure a quick delivery of water, and is intended for use in manufacturing establishments and other places where a large quantity and an uninterrupted supply of water is necessary. It is of the current type, and at present there are only two or three others of this type of meter which have been adopted for use in the City.

Conditions existed which made it possible for the Department to subject this meter to a very severe and trying test in order to determine its accuracy and durability. While in position in one of the public baths it delivered over 900,000 cubic feet of water, and at stated periods during its service in the bath tests were applied to ascertain the accuracy of the delivery. All of these tests established the accuracy of the meter to a degree closer to the 100 per cent. point than other meters of the same design.

I would respectfully recommend to the Board of Aldermen the adoption of the Nilo meter in sizes and prices as follows:

2-inch	$40 00	6-inch	$350 00
3-inch	80 00	8-inch	600 00
4-inch	160 00	12-inch	800 00

Please submit this communication, together with attached draft of resolution, to the Board of Aldermen at its next meeting. Yours truly,

HENRY S. THOMPSON, Commissioner.

The Acting President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the negative by the following vote, a majority of all the members failing to vote in favor thereof:

Affirmative—Aldermen Bedell, Boschen, Bosse, Brush, Coleman, Curran, Diemer, Dowling, Folks, Gaynor, Gelbke, Hamilton, Igstaedter, Kenneally, Marks, Martyn, Moore, Post, Reardon, Shipley, Stevenson, Wendel, Weston—23.

Negative—Aldermen Cunningham—1.

On motion of Alderman Shipley, the votes by which General Orders 521, 522 and 523 were lost were reconsidered, and the papers again restored to the list of special orders.

On motion of Alderman Fink, General Order 527 was again laid over for two weeks.

No. 534 (Int. No. 1390).

The Committee on Laws and Legislation, to which was referred on June 11, 1912 (Minutes, page 752), the annexed ordinance requiring street surface railroad companies to sprinkle streets or thoroughfares with oil or water, to allay dust and matter which fill the air through the momentum and friction of cars operated thereon, respectfully

REPORTS:

That having examined the subject, it believes the proposed legislation to be beneficial.

It, therefore, recommends that the said ordinance be adopted.

AN ORDINANCE requiring street surface railroad companies to sprinkle streets or thoroughfares with oil or water, to allay dust and other matter which fill the air through the momentum and friction of cars operated thereon.

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. Each and every railroad company operating cars on the surface of any of the streets or thoroughfares of The City of New York are hereby directed and required to sprinkle, with oil or water, the surface of the streets or thoroughfares upon which such cars are operated at least three times in every twenty-four hours, or oftener, when necessary, between the tracks and for a distance of two feet beyond the rails on either side thereof, whenever the atmospheric conditions are such as to cause the air to be filled with particles of dust or other matter largely conduced by the momentum and friction of the cars so operated.

Sec. 2. Each and every railroad company which shall neglect or refuse to comply with the provisions of section 1 of this ordinance shall thereby incur a penalty of one hundred dollars ($100) for each such neglect or refusal, to be recoverable from the company so offending in an action to be brought by the Corporation Counsel in the name of The City of New York.

Sec. 3. This ordinance shall take effect immediately.

DANIEL R. COLEMAN, SAMUEL MARKS, JOHN A. BOLLES, JOHN DIEMER, MAX S. LEVINE, JAMES HAMILTON, Committee on Laws and Legislation.

The Acting President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bedell, Boschen, Bosse, Brush, Carberry, Cole, Coleman, Cummuskey, Cunningham, Delaney, Devine, Diemer, Dotzler, Dowling, Downing, Donnelly, Dujat, Eichhorn, Folks, Gaynor, Gelbke, Gilmore, Hamilton, Hannon, Igstaedter, Loos, McCann, McCourt, McGarry, McGrath, Molen, Mulligan, O'Connor, O'Neil, O'Rourke, Post, Pouker, Schmidt, Shipley, Stapleton, Stevenson, Velten, Walsh, Weil, Wendel, Weston, White, Wilmot; President Cromwell; President Steers—50.

Alderman Coleman moved that the Board do now adjourn.

The Acting President put the question whether the Board would agree with said motion.

Which was decided in the affirmative.

And the Acting President declared that the Board stood adjourned until Tuesday, June 17, 1913, at 1.30 o'clock p. m.

P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE BY SEALED BIDS.

AT THE REQUEST OF THE PRESIDENT of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale by sealed bids certain buildings, etc., standing upon property owned by The City of New York, acquired by it for street purposes in the

Borough of Brooklyn,

Being the buildings, parts of buildings, etc., on the Flatbush Avenue Extension, between Concord st. and Nassau st., in the Borough of Brooklyn, which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room K, 280 Broadway, Borough of Manhattan.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held May 21, 1913, the sale by sealed bids of the above described buildings and appurtenances thereto will be held by direction of the Comptroller on

THURSDAY, JUNE 12, 1913

at 11 a. m., in lots and parcels and in manner and form as follows:

Parcel No. 1. Six brick buildings and six frame buildings, Nos. 156 and 158 Nassau st., and Nos. 190 to 210 Bridge st.

Parcel No. 2. Four frame buildings, Nos. 135 to 141 Concord st., and four brick buildings and one frame building in the rear of them.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room K, No. 280 Broadway, Borough of Manhattan, until 11 a. m., on the 12th day of June, 1913, and then publicly opened, for the sale for removal of the above described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of $50 will be required with all bids, and that a deposit of $500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened June 12, 1913," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room K, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

THE BUILDINGS WILL BE SOLD FOR IMMEDIATE REMOVAL ONLY, SUBJECT TO THE TERMS AND CONDITIONS PRINTED ON THE LAST PAGE OF THIS ISSUE OF THE "CITY RECORD."

Bidders must state in the bid what action is to be supplied, and length of Grand pianos.

A separate proposal must be submitted for each piano, and award will be made thereon.

The deposit accompanying bid shall be five (5) per centum of the amount of security.

IMPORTANT.

Each bid or estimate must be accompanied by a statement showing the average prices obtained by the bidder in the wholesale trade, exclusive of sales to his own retail stores, for instruments of like grade, size and quality as those he at this time bids for. The average to be compiled from wholesale sales made, as aforesaid, during the three months next prior to the date of the bid.

This statement shall be in the form of an affidavit, executed before a Notary Public, and made by one of the firm submitting the bid; and shall be certified to by a certified public accountant, who shall certify that the prices quoted are true, without discount or rebate, and in accordance with the foregoing paragraph.

The statement shall be placed in a sealed envelope, which shall be marked "Price List," and shall have on the outside the name of the bidder. This shall be enclosed in the envelope containing the bid at the time that same is submitted to the Bid Clerk.

The statements which are so submitted are for the information of the Committee on Buildings, and will not under any circumstances be made public without the written consent of the bidder.

Any bid or estimate which is not accompanied by such a statement as is hereinbefore described will be considered as informal and invalid, and by reason of such failure the said bid or estimate so unaccompanied will be so adjudged and treated.

On No. 4 the bidders must state the price of each item, by which the bids will be tested.

BOARD OF ESTIMATE AND APPORTIONMENT.

Notices of Public Hearings.

FRANCHISE MATTERS.

PUBLIC NOTICE IS HEREBY GIVEN THAT at the meeting of the Board of Estimate and Apportionment held this day the following resolutions were adopted:

Whereas, The Manhattan and Queens Traction Corporation has, under date of April 17, 1913, made application to this Board for the grant of the right, privilege and franchise to construct, maintain and operate two extensions to its existing street surface railway in the Borough of Queens, as follows:

(a) Upon and along Campion avenue or street and Archer place or street, from Carll street to private property.

(b) Upon and along VanDam street and Nott avenue, and

Whereas, Section 172 of the Railroad Law and sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on April 24, 1913, fixing the date for a public hearing thereon, as May 22, 1913, at which citizens were entitled to appear and be heard and publication was had for at least fourteen (14) days in the "Brooklyn Times" and "Long Island City Star," newspapers designated by the Mayor, and in the CITY RECORD for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the Manhattan and Queens Traction Corporation, and the adequacy of the compensation to be paid therefor; now, therefore, it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the Manhattan and Queens Traction Corporation containing the form of the proposed contract for the grant of such franchise or right be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the Manhattan and Queens Traction Corporation the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all the terms and conditions, including the provisions as to rates, fares and charges, upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

Proposed Form of Contract.

This contract, made this day of , 1913, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Manhattan and Queens Traction Corporation (hereinafter called the Corporation), party of the second part, witnesseth:

Whereas, The Board did by resolution adopted July 15, 1912, and approved by the Mayor July 16, 1912, authorize the execution and delivery of a contract granting the South Shore Traction Company the right to construct, maintain and operate a street surface railway from the Manhattan approach to the Queensboro Bridge, upon, along and over said bridge and its approaches to the Borough of Queens, and upon and along Thomson avenue, Hoffman boulevard and other streets and avenues in the Borough of Queens, to the boundary line between The City of New York and the County of Nassau; and

Whereas, Said contract was executed by the Receivers, the Vice-President and the Secretary of the South Shore Traction Company on October 29, 1912, and by the Mayor and City Clerk on October 29 and October 30, 1912, respec-

tively, and bears date of October 29, 1912; and

Whereas, The Board, by resolution adopted November 21, 1912, and approved by the Mayor November 22, 1912, granted its consent to the South Shore Traction Company, to assign, transfer and set over all rights and privileges granted by said contract dated October 29, 1912, so that the same should pass to and vest in the Manhattan and Queens Traction Corporation; and

Whereas, The Corporation has by a petition dated April 17, 1913, applied to the Board for certain modifications and amendments in and to said contract dated October 29, 1912, to wit:

First. For a single track extension to its existing route upon and along Campion avenue or street, from Carll street to Archer place or street, and thence by double track upon and along Archer place or street to private property.

Second. For a double track extension to its existing route upon and along VanDam street, from a point at or near its intersection with Thomson avenue to a point 300 feet southerly from the southerly side of Nott avenue, together with a double track from the intersection of VanDam street and Nott avenue, upon and along Nott avenue to a point 90 feet westerly from the westerly side of VanDam street. Now, therefore, in consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby consents, subject to the conditions and provisions hereinafter set forth, to the modifications and amendments in and to said contract dated October 29, 1912; said modifications and amendments to be as follows:

1. So much of section 2-First of said contract reading as follows:

"Thence by single track in and upon Rose avenue to Archer place and by single track in and upon Campion avenue to Carll street; thence by single track in and upon Archer place to private property,"

—is hereby stricken out, and the following substituted therefor:

"Thence by single track in and upon Rose avenue to Archer place or street, and by single track in and upon Campion avenue or street to Archer place or street; thence by single track in and upon Archer place or street from Rose avenue to Campion avenue or street, and by double track in and upon Archer place or street from Campion avenue or street to private property."

2. Section 2-First of said contract is hereby further amended by adding at the end of the description of the route, as contained therein, after the words,

"To a point where Central avenue intersects the boundary line between The City of New York and the County of Nassau."

—a new paragraph reading as follows:

"Also beginning at and connecting with the existing tracks of the Corporation on Diagonal street leading from Queensboro Bridge to Thomson avenue at or near the intersection of said Diagonal street with VanDam street; thence southerly by double track upon and along VanDam street to a point in said street not over 30) feet south of the southerly side of Nott avenue; also by double track from the intersection of Nott avenue and VanDam street westerly upon and along said Nott avenue to a point in said avenue not over 90 feet westerly from the westerly side of said VanDam street."

The said extensions, with turnouts, switches and crossovers, hereby authorized, are shown upon a map entitled:

"Map showing proposed extensions of route of franchise of Manhattan and Queens Traction Corporation to accompany petition dated April 17, 1913, to the Board of Estimate and Apportionment,"

—and signed and certified by Robert S. Sloan, President, and Harold B. Weaver, Chief Engineer, a copy of which is attached hereto, is to be deemed a part of this contract, is to be construed with the text thereof, and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description and the other provisions of this contract may be permitted by resolution of the Board.

Section 2. The grant of this privilege is subject to the following conditions:

First—All the terms, provisions and conditions contained in the said contract dated October 29, 1912, excepting those which are herein amended or modified, shall remain unchanged and shall apply to the routes herein described in section 1 of this contract, with the same force and effect as when they applied to the route described in said contract dated October 29, 1912, and as though the routes herein described had been specifically described in said contract.

Second—The Corporation upon the delivery of this contract and before anything is done in exercise of the rights conferred hereby, shall pay to the City as compensation for the privilege hereby granted the sum of one hundred dollars ($100) in cash.

Third—The Corporation promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed the day and year first above written.

(Here add acknowledgments.)

Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted and the adequacy of the compensation proposed to be paid therefor, and the terms and conditions including the provisions as to rates, fares and charges, are as hereinbefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right.

Resolved, That these preambles and resolutions, including the said resolution for the grant of a franchise or right applied for by the Manhattan and Queens Traction Corporation, and the said form of a proposed contract for the grant of said franchise or right containing said results of such inquiry, after the same shall be entered in the minutes of this Board, shall be published for at least twenty (20) days immediately prior to Thursday, July 3, 1913, in the CITY RECORD, and at least twice during the ten (10) days immediately prior to Thursday, July 3, 1913, in two daily newspapers to be designated by the Mayor therefor, and published in The City of New York at the expense of the Manhattan and Queens Traction Corporation, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment before authorizing any contract for the grant of a franchise or right applied for by the Manhattan and Queens Traction Corporation and fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right, and before adopting any resolution authorizing such contract, will at a meeting of said Board, to be held in Room 16, City Hall, Borough of Manhattan, on Thursday, July 3, 1913, at 10.30 o'clock a. m., hold a public hearing thereon, at which citizens shall be entitled to appear and be heard.

Dated New York, May 22, 1913. j10,jy3

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment held April 17, 1913, a communication was received from the Public Service Commission for the First District transmitting resolutions adopting route and general plan of construction for a proposed rapid transit railway in the Borough of Manhattan, known as Park Avenue-Lexington Avenue Connection at Fortieth Street, and requesting the approval and consent of this Board thereto.

By resolution duly adopted on that date the consideration was fixed for April 24, 1913, when it was continued until May 22, 1913, when it was continued until June 5, 1913, and on that day was continued until June 12, 1913, at 10.30 o'clock a. m., in Room 16, City Hall, Borough of Manhattan, when all persons interested will have an opportunity to appear and be heard.

JOSEPH HAAG, Secretary.
Dated New York, June 5, 1913. j7,12

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment held this day the following communication was received from the Public Service Commission for the First District, submitting for approval amended plans and conclusions for an additional rapid transit railway in the Borough of Queens, known as "Flushing Route."

To the Board of Estimate and Apportionment of The City of New York:

The route and general plan of construction adopted by this Commission on April 22, 1913, for an additional rapid transit railroad in the Borough of Queens, known as the Flushing Route, provided that the route should extend over private property, the Flushing River and intersecting streets to private property in the block bounded by Amity street, DeLong street, Redwood street and Lawrence street, where the route passes from an elevated structure to a subway or tunnel. A copy of the resolutions adopted by the Commission on April 22, 1913, establishing the route and general plan of construction for the Flushing Route was duly transmitted to your honorable Board, but said resolutions have not been approved or consented to.

As a result of conferences held with representatives of your honorable Board, the Commission now understands that it is proposed to change the grade for that portion of Roosevelt avenue west of the Flushing River and to widen that part of Amity street west of Lawrence street, so that the route may be continued along Roosevelt avenue to Amity street, wherein the portal for the change from elevated to subway construction may be built, thus making it unnecessary to construct said portal on private property. Accordingly the Commission now transmits to your honorable Board for your approval and the approval of the Mayor of the City, as required by law, a certified copy of resolutions adopted by it on the 3d day of June, 1913, rescinding and revoking those portions of its said resolutions of April 22, 1913, establishing the route and general plan of construction for the Flushing Route, and in lieu thereof establishing a new route and general plan of construction for an additional rapid transit railroad, to be also called the Flushing Route. Except for the change referred to above, the route now adopted is exactly the same as the one adopted on April 22, 1913.

Dated New York, June 5, 1913.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, by EDWARD E. McCALL, Chairman.

Attest:
TRAVIS H. WHITNEY, Secretary.

—and thereupon the following resolutions were adopted:

Resolved, That the communication be received and, in pursuance of law, this Board fixed Thursday, June 12, 1913, at 10.30 o'clock a. m., and Room 16, City Hall, Borough of Manhattan, as the time and place when and where such plans and conclusions will be considered, and all citizens interested will have an opportunity to appear and be heard; and be it further

Resolved, That the Secretary of this Board be and he is hereby directed to cause notice of such consideration to be published in the CITY RECORD.

JOSEPH HAAG, Secretary.
Dated New York, June 5, 1913. j7,12

PUBLIC NOTICE IS HEREBY GIVEN THAT at a meeting of the Board of Estimate and Apportionment held May 22, 1913, the following petition was received:

Board of Estimate and Apportionment of The City of New York:

Sirs—The Brooklyn City Railroad Company hereby makes application to your honorable Board for a permit to construct a double track street surface railroad, with necessary connections, turnouts and crossovers, in Roebling street in the Borough of Brooklyn, as the same is now extended and widened, so as to connect its railroad tracks therein with its tracks in Lee avenue, said new tracks to be laid from a point in Roebling street just north of Division avenue, so that the same will connect with your petitioner's tracks in Lee avenue at a point southeast of the junction of Lee avenue and Taylor street, as shown on the accompanying blueprint.

Dated Brooklyn, New York, May 13, 1913.

THE BROOKLYN CITY RAILROAD COMPANY.

[SEAL.] By Z. E. WATSON, Secretary and Treasurer.

State of New York, County of Kings, Borough of Brooklyn, City of New York, ss.:

On this 15th day of May, 1913, before me personally came Z. E. Watson, to me known, who, being by me duly sworn, did depose and say that he resided in the Borough of Brooklyn, City and State of New York; that he is the Secretary and Treasurer of The Brooklyn City Railroad Company, the corporation described in and which executed the foregoing instrument; that he knew the seal of said corporation; that the seal affixed to said instrument was such corporate seal; that it was so affixed by order of the Executive Committee of the Board of Directors of said corporation, and that he signed his name thereto by like order.

WM. K. SWARTZ, Notary Public, Kings County, New York.

—and the following resolutions were thereupon adopted:

Whereas, The foregoing petition from The Brooklyn City Railroad Company, dated May 13, 1913, was presented to the Board of Estimate and Apportionment at a meeting held May 22, 1913.

Resolved, That, in pursuance of law, this Board sets Thursday, the 19th day of June, 1913, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least fourteen (14) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the CITY RECORD immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

PUBLIC NOTICE IS HEREBY GIVEN THAT at the meeting of the Board of Estimate and Apportionment held this day the following resolutions were adopted:

Whereas, The New York Quotation Company has, under date of June 14, 1912, made application to this Board for the grant of the right, privilege and franchise to use the subway ducts in that portion of the Borough of Manhattan lying south of Chambers street, for the purpose of laying, maintaining and operating wires to be used in the operation of electrical printing instruments, commonly known as "stock tickers"; and

Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on September 19, 1912, fixing the date for the public hearing thereon as October 24, 1912, at which citizens were entitled to appear and be heard, and publication was had for at least two (2) days in "The Sun" and "New York Commercial," newspapers designated by the Mayor, and in the CITY RECORD for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such date; and

Whereas, This Board has made inquiry as to the money value of the franchise or right applied for and proposed to be granted to the New York Quotation Company and the adequacy of the compensation to be paid therefor; now, therefore, it is

Resolved, That the following form of the resolution for the grant of the franchise or right applied for by the New York Quotation Company, containing the form of proposed contract for the grant of such franchise or right, be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby grants to the New York Quotation Company the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates and charges upon and subject to the terms and conditions in said proposed form of contract contained, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

This Contract, made this day of 1913, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the New York Quotation Company (hereinafter called the Company), party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to lay, construct, maintain and operate suitable wires or other electrical conductors under the streets and avenues within that portion of the Borough of Manhattan lying south of a line beginning at a point on the Hudson River on a line with the northerly side of Chambers street; running thence easterly along the northerly side of Chambers street to the northerly side of New Chambers street on a line therewith; thence continuing easterly along the northerly side of New Chambers street to the easterly side of James slip; thence southerly along the easterly side of James slip to a point on the shore of the East River in line therewith, for the purpose of electrically connecting its places of business with each other and with other offices and places of business of persons, firms and corporations so as to allow of the distribution of stock and bond quotations and dividend and other notices over the said wires to printing telegraph instruments, commonly known as "stock tickers," and for no other purpose whatsoever.

Sec. 2. The grant of this privilege is subject to the following conditions, which shall be complied with by the Company:

First—The said right and privilege to lay, construct, maintain and operate wires or other electrical conductors in conduits, for the purpose aforesaid, shall be held and enjoyed by the Company for the term of fifteen (15) years from January 1, 1913, with the privilege of renewal of said contract for a further period of ten (10) years, upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract.

If the Company and the Board shall not reach such agreement on or before the day one (1) year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding ten (10) years shall be reasonable, and either the City (by the Board) or the Company shall be bound upon request of the other to enter into a written agreement with each other fixing the rate of such compensation at such amount as shall be reasonable, but in no case shall the annual rate so fixed be less than the sum required to be paid for the last year prior to the termination of the original term of this contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate and at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigation, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of this original contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

1. The sum of ten thousand dollars ($10,000) in cash within thirty (30) days after the date upon which this contract is signed by the Mayor.

2. For past use and occupation of the streets of the City a sum at the rate of eight thousand dollars ($8,000) a year from April 24, 1912, to the date of the signing of this contract by the Mayor.

3. During the first term of five (5) years, an annual sum which shall in no case be less than eight thousand dollars ($8,000) and which shall be equal to three (3) per cent. of its gross annual receipts, if such percentage shall exceed the sum of eight thousand dollars ($8,000).

4. During the second term of five (5) years, an annual sum which shall in no case be less than ten thousand dollars ($10,000) and which shall be equal to four (4) per cent. of its gross annual receipts, if such percentage shall exceed the sum of ten thousand dollars ($10,000).

5. During the remaining term, an annual sum which shall in no case be less than twelve thousand dollars ($12,000) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of twelve thousand dollars ($12,000).

The annual charges shall commence from the date on which this contract is signed by the Mayor.

All annual charges as above shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the moneys due when this contract is signed by the Mayor shall be paid into the Treasury of the City within thirty (30) days immediately following such date; and provided further that the first annual payment thereafter shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, shall be valid or effectual for any purpose, unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this contract.

Fourth — The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Company or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—Upon the termination of this original contract, or, if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the wires and equipment of the Company constructed pursuant to this contract within the streets and avenues shall become the property of the City without cost and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract, as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its wires and other equipment constructed pursuant to this contract and the said streets and avenues shall be restored to their original condition at the sole cost and expense of the Company.

Sixth—The Company shall construct, maintain and operate its electric system subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City and in strict compliance with all laws or ordinances or departmental rules and regulations now in force, or which may be adopted, affecting companies operating electrical conductors in the City.

No construction or repair of said electric system shall be commenced until written permits have been obtained from the proper City officials. In any permit so issued, such officials may impose such conditions, as a condition of the granting of the same, as are necessary for

the purpose of protecting any structures in the streets and avenues and the proper restoration of the surface of such streets and avenues over which such officials have jurisdiction, and the Company shall comply with such conditions.

Upon the completion of any work of construction the Company shall furnish to the President of the Borough a plan of such character as he may direct, showing accurately and distinctly the location, size and type of construction and complete dimensions of the structures erected, installed or constructed under this contract and the location and dimensions of all substructures encountered during the progress of the work. The depth below the street surface of the new structure and of the substructures encountered must be shown; also their location with reference to the nearest curb line and the nearest curb line intersection.

The electrical and other equipment to be installed by the Company, whether the same be under streets and avenues, in any Department of the City or in private property, shall be constructed and maintained subject to the approval and under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Seventh—The plant, conduits, wires, conductors, connections, instruments and all appurtenances thereto, shall be constructed, maintained and operated in the latest approved manner and with the most modern and improved appliances, and it is hereby agreed that the Board may require the Company to improve or add to its plant, conduits, wires, conductors, connections, instruments and appurtenances, from time to time, as such additions or improvements are necessary in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine. Nothing herein contained shall be deemed to affect the patent rights of the Company or the patented devices used or in the future to be used by it in the operation of its system.

Eighth—All cables and wires of the Company laid pursuant to this contract shall be placed in ducts, conduits or subways (referred to in this paragraph as subways). Such subways shall be leased from the company or companies having control thereof under the provisions of law, or from the City should it succeed to the rights of such company or companies. If the City shall construct or acquire subways for electrical conductors of the character or tension of those used by the Company or similar companies, in the Borough of Manhattan, the Company hereby agrees to lay its wires and conductors in such subways and the City agrees to lease to the Company such space as may be necessary and available for the operation of the system hereby authorized. No cables or wires shall in the future be strung above the surface of the streets and avenues by the Company and those at present in existence shall be removed and placed underground when and where required by the Board or the Commissioner of Water Supply, Gas and Electricity.

Ninth—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant.

Tenth—The Company shall, upon request from any individual, firm or corporation occupying or owning premises in the territory in which the Company is authorized to operate by this contract, not personally in arrears to it for services already rendered, and who shall be designated by the sender of the stock and bond quotations and dividend or other notices requested by the applicant and transmitted by the Company, extend its wires to such premises and transmit such stock and bond quotations and dividend or other notices to such individual, firm or corporation so designated. The Company shall also, upon request of any financially responsible individual, firm or corporation, occupying or owning premises in the territory in which the Company is authorized to operate by this contract, not personally in arrears to it for services already rendered, undertake to, and transmit for such individual, firm or corporation, stock or bond quotations and dividend or other notices furnished it by such individual, firm or corporation for that purpose to such individuals, firms and corporations as may be designated by the sender thereof, provided that such service shall not be required to be furnished in any given case until after the expiration of a reasonable time for procuring and installing the necessary equipment and apparatus for rendering such service, and provided further, that when the undertaking of the transmission of such messages shall require the installation of additional plant and equipment the Company may require the individual, firm or corporation, hereinbefore referred to, to enter into such agreement with respect to the length of time for which the said service is contracted as may be fair and reasonable.

Eleventh—The Company shall file with the Board on the first day of November in each year a map or plan upon which shall be plainly and separately indicated the number of wires which were in use by the Company on September 30 preceding, and the streets in which the same are located, and also those which were put in use during the year preceding that date. It shall also file with the Department of Water Supply, Gas and Electricity, on or before the tenth day of each month, a map or plan of the locations in which wires have been placed by it during the preceding month.

Twelfth—The rates to be charged by the Company shall not be in excess of the following, and it is agreed that the same may be altered or changed by the Board, as hereinafter provided:

(a) For transmitting financial news, including stock and bond quotations received from the New York Stock Exchange and including the use of one printing telegraph or ticker during such period as financial news may be transmitted to a designated recipient, the sum of twenty dollars a month or two hundred and forty dollars ($240) a year.

(b) For any other service authorized by this contract furnished or to be furnished by the Company at the request of any person, copartnership, corporation or exchange the rates charged shall be reasonable and fair and before being put into effect shall be submitted to the Board for its approval. In the event that it shall be necessary for the Company in order to undertake to render such additional or other service, to install plant or equipment additional to that at present in use, the rates to be charged may be such as to enable the Company during the life of the contracts for the furnishing of such additional or other service, to receive a return of the moneys so invested by it in such additional plant and equipment and a fair and reasonable profit on such investment.

The Company agrees, upon request of the Board, to transmit messages addressed to any department or bureau of the City where no additional equipment need be installed by the Company, save the laying of wires and installation of tickers, free of charge.

Thirteenth—During the term of this contract, or any renewal thereof, the Board shall have the power, by resolution, to regulate and fix the maximum and minimum rates to be charged by the Company in the City, provided such rates shall be reasonable and fair.

Fourteenth—The Company shall not require nor receive from the individuals, firms or corporations to which it transmits stock or bond quotations or dividend or other notices, any deposit or advance payment in excess of what is reasonably necessary to insure payment of current bills, and on such amounts so paid the Company shall pay interest at the statutory rate whenever such money is held for more than one month. Unpaid bills, unless due from its owner, shall never be charged against property, and no person not himself in arrears shall be denied service because any previous occupant of the same premises is in arrears to the Company for service.

Fifteenth—The wires of the Company shall be employed for no other purpose than those explicitly set forth herein and the Company binds itself not to lay, use, lease or operate wires for illegal purposes or to illegal places.

Sixteenth—The Company shall assume all liability to persons or property by reason of the construction or operation of the system authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or defaults of the Company.

Seventeenth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions in the territory covered by this contract, or any part thereof.

Eighteenth—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars ($100) as fixed or liquidated damages, or the Board, in case such structures or equipment which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Nineteenth—If for a period of six consecutive months the system of the Company shall not be operated, or if the same shall not be operated for a period of nine months out of any consecutive twelve months, the Board may declare the right and franchise and this contract terminated without further proceedings at law or in equity.

Twentieth—The Company shall at all times keep accurate books of account and shall, on or before November 1 in each year, make a verified report to the Comptroller of the City of the business done by the Company for the year ending September 30 next preceding. Such report shall contain a statement of the gross receipts of the Company, together with such other information and in such form and detail as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Twenty-first—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors and officers elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number and location of premises served by the Company and number of instruments in each.
16. Total receipts of the Company for each class of business.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries.

—and such other information in regard to the business of the Company as may be required by the Board.

Twenty-second—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of fifteen thousand dollars ($15,000), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract, especially those which relate to the payment of the annual charges for the privileges hereby granted, in default of which payment of the annual charges, the City shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company.

In case of failure of the Company to comply with the terms of this contract relating to the filing of annual statements, furnishing of service to applicants, as herein provided, or its neglect or refusal to comply with any demand or direction of the Board or other municipal officials, made pursuant to the terms of the contract, or under the authority of any laws, ordinances or departmental regulations now or hereafter in force, in such case and in any of these events, the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars ($50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund, the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of fifteen thousand dollars ($15,000), and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-third — In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board, by resolution of said Board, which said resolution may contain a provision to the effect that the system constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less then ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-fourth—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such cases such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Twenty-fifth—The words "notice" or "direction," wherever used in this contract shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-sixth—The words "streets and avenues" or "streets or avenues," wherever used in this contract, shall be deemed to mean streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement, included within the limits of the territory in which the Company is hereby authorized to operate.

Twenty-seventh—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets and avenues of the territory in which the Company is authorized to operate by this contract.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the Laws of the State of New York.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

(Here add acknowledgments.)

Resolved, That the results of the inquiry made by this Board as to the money value of the franchise or right proposed to be granted, and the adequacy of the compensation proposed to be paid therefor, and of the terms and conditions, including the provisions as to rates and charges, are as hereinbefore specified and fully set forth in and by the foregoing form of proposed contract for the grant of such franchise or right.

Resolved, That these preambles and resolutions for the grant of the franchise or right applied for by the New York Quotation Company and the said form of proposed contract for the grant of such franchise or right, containing said results of such inquiry, after the same shall be entered in the minutes of this Board, shall be published for at least twenty (20) days immediately prior to Thursday, June 19, 1913, in the CITY RECORD, and at least twice during the ten (10) days immediately prior to Thursday, June 19, 1913, in two (2) daily newspapers to be designated by the Mayor therefor and published in The City of New York, at the expense of the New York Quotation Company, together with the following notice, to wit:

Notice is hereby given that the Board of Estimate and Apportionment before authorizing any contract for the grant of the franchise or right applied for by the New York Quotation Company and fully set forth and described in the foregoing form of proposed contract for the grant of such franchise or right, and before adopting any resolution authorizing any such contract, will, at a meeting of said Board, to be held in Room 16, City Hall, Borough of Manhattan, City of New York, on Thursday, June 19, 1913, at 10.30 o'clock a. m., hold a public hearing thereon, at which citizens shall be entitled to appear and be heard.

("The New York Press" and "The Sun" designated.)
JOSEPH HAAG, Secretary.
Dated New York, May 8, 1913. m26,j19

PUBLIC NOTICE IS HEREBY GIVEN THAT

at the meeting of the Board of Estimate and Apportionment held this day the following resolutions were adopted:

Whereas, The Union Railway Company of New York City has, under date of March 27, 1913, made application to this Board for a modification of the terms and conditions of a certain contract authorized by resolution adopted May 11 and approved by the Mayor May 12, 1911, granting said Company a franchise for the construction, maintenance and operation of a street surface railway extension upon and along the 155th Street viaduct and 155th street, from 8th avenue to Broadway, Borough of Manhattan, which said contract was executed by the Company on March 27, 1913, and by the Mayor and City Clerk on April 4 and April 5, 1913, respectively, and bears date of April 4, 1913; and

Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on April 10, 1913, fixing the date for public hearing thereon as May 8, 1913, at which citizens were entitled to appear and be heard, and publication was had for at least two (2) days in the "Sun" and "Times," newspapers designated by the Mayor, and in the CITY RECORD for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the proposed modifications and amendments of said contract of April 4, 1913; now, therefore, it is

Resolved, That the following form of resolution for the consent or right applied for by the Union Railway Company of New York containing the form of the proposed contract for the grant of such right, be hereby introduced and entered in the minutes of this Board as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby consents to certain modifications in the terms and conditions of the said contract of April 4, 1913; such modified terms and conditions being fully set forth and described in the following form of proposed contract for the grant thereof, embodying such terms and conditions as modify or alter said contract of April 4, 1913, which said contract otherwise remains unchanged as to all the other terms and conditions expressed therein, and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

This contract, made this day of 1913, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the Union Railway Company of New York City (hereinafter called the Company), party of the second part, witnesseth:

Whereas, The Board did by resolution adopted May 11, 1911, and approved by the Mayor May 12, 1911, authorize the execution and delivery of a contract granting the Company the right to construct, maintain and operate a street surface railway as an extension to its existing system, upon and along the 155th Street viaduct and 155th street, from 8th avenue to Broadway, Borough of Manhattan; and

Whereas, Said contract was executed by the vice-president and secretary of the Company on March 27, 1913, and by the Mayor and City Clerk on April 4 and April 5, 1913, respectively, and bears date of April 4, 1913; and

Whereas, The Company has by a petition dated March 27, 1913, applied to the Board for certain modifications and amendments in and to said contract authorized by resolution approved May 12, 1911, to wit:

First—By striking out in Section 1 the words "the easterly side of Broadway" and substituting therefor the words "Amsterdam avenue."

Second—By amending Section 2-third by reducing the amount of the several payments required thereunder, in proportion to the reduction in the length of the extension.

Third—By striking out in Section 2-twenty-fifth the word "Broadway" and substituting therefor the words "Amsterdam avenue";

Now, therefore, in consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City hereby consents, subject to the conditions and provisions, hereinafter set forth, to the modifications and amendments in and to said contract authorized by resolution approved May 12, 1911; said modifications and amendments to be as follows:

1. Section 1 of said contract is hereby stricken out and the following substituted therefor:

"Section 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a double track extension to its present street surface railway, with the necessary wires and equipment, for the purpose of conveying passengers only in the Borough of Manhattan, City of New York, upon the following route, to wit:

"Beginning at and connecting with the existing tracks of the Company on the 155th Street viaduct at or near 8th avenue; thence westerly on and over said viaduct to its intersection with 155th street and westerly upon and along said 155th street to the easterly side of Amsterdam avenue, and to cross such other streets and avenues, named and unnamed, as may be encountered in said route.

"The said route with turnouts, switches and crossovers hereby authorized, is shown upon a map entitled:

"Map showing proposed modifications of route of franchise of Union Railway Company of New York City authorized by the Board of Estimate and Apportionment by resolution adopted on May 11, 1911, and approved by the Mayor on May 12, 1911, to accompany petition dated March 27, 1913, to the Board of Estimate and Apportionment, and signed by Edward A. Maher, vice-president, and T. F. Mullaney, chief Engineer, a copy of which is attached hereto, is to be deemed a part of this contract and is to be substantially followed, provided that deviations therefrom and additional turnouts, switches and crossovers which are consistent with the foregoing description and the other provisions of this contract may be permitted by resolution of the Board."

2. So much of Section 2-third of said contract providing for an initial payment of three thousand five hundred dollars ($3,500) and for annual minimum sums of six hundred dollars ($600), ten hundred and seventy-five dollars ($1,075), twelve hundred dollars ($1,200) and thirteen hundred dollars ($1,300) during the term of the grant is hereby stricken out and the following substituted therefor:

"Third—The Company shall pay to the City for the privilege hereby granted the following sums of money:

"(a) The sum of two thousand five hundred dollars ($2,500) in cash within three (3) months from , 1913, and before anything is done in exercise of the privilege hereby granted.

"(b) During the first term of five (5) years an annual sum which shall in no case be less than four hundred dollars ($400), and which shall be equal to three (3) per cent. of its gross annual receipts if such percentage shall exceed the sum of four hundred dollars ($400).

"During the second term of five (5) years an annual sum which shall in no case be less than seven hundred and twenty-five dollars ($725) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of seven hundred and twenty-five dollars ($725).

"During the remaining term expiring September 14, 1928, an annual sum which shall in no case be less than eight hundred and fifty dollars ($850) and which shall be equal to five (5)

per cent. of its gross annual receipts if such percentage shall exceed the sum of eight hundred and fifty dollars ($850)."

3. Section 2-twenty-fifth of said contract is hereby stricken out and the following substituted therefor:

"Twenty-fifth — Upon one (1) year's notice from the Board the Company shall, if the Board shall so determine by resolution, cease the operation of the stubend terminal at 155th street and Amsterdam avenue, and shall within sixty (60) days from the date of such notice make application to the Board for the right to construct, maintain and operate a loop terminal upon streets to be designated by the Board, and shall on or before the expiration of said one (1) year, enter into a contract for such new terminal in substitution for the stubend terminal, hereby authorized."

Section 2. The grant of this privilege is subject to the following conditions:

First—All the terms, provisions and conditions contained in the said contract authorized by resolution approved May 12, 1911, excepting those which are herein amended or modified shall remain unchanged, and shall apply to the route herein described in Section 1 of this contract, with the same force and effect as when they applied to the route described in said contract authorized by resolution approved May 12, 1911, and as though the route herein described had been specifically described in said contract.

Second—The Company shall within one year from the date on which this contract is signed by the Mayor, comply with the provisions of section 184 of the Railroad Law for the abandonment of that portion of the route granted by said contract authorized by resolution approved May 12, 1911, and described as follows:

Beginning at the intersection of 155th street with the easterly side of Amsterdam avenue; thence westerly upon and along said 155th street to the easterly side of Broadway, Borough of Manhattan.

If the Company shall fail to secure the approval of the Public Service Commission or shall fail for any other reason to comply with the provisions of this subdivision within the time stipulated, this contract shall thereupon cease and determine and the original franchise contract authorized by resolution approved May 12, 1911, and the obligations and liability of the Company thereunder shall be unaffected by the provisions of this contract, provided, however, that the Board may extend said period for a period or periods not exceeding in the aggregate six (6) months.

A certified copy of the certificate of abandonment shall be filed with the Board within ten (10) days from the date on which the same is obtained by the Company.

Section 3. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

JOSEPH HAAG, Secretary.
Dated New York, May 8, 1913. m26,j19

PUBLIC NOTICE IS HEREBY GIVEN THAT at the meeting of the Board of Estimate and Apportionment held this day the following resolutions were adopted:

Whereas, The Seaboard Refrigeration Company has, by a petition verified April 15, 1913, made application to this Board for a modification of the terms and conditions of the contract dated June 22, 1906, granting said Company a franchise for the construction, maintenance and operation of a conduit system under and along Surf avenue, Neptune avenue, West 8th, 12th and 21st streets, in the Borough of Brooklyn, for the distribution of refrigeration to consumers, as amended by contract dated December 20, 1907; and

Whereas, Sections 72, 73 and 74 of the Greater New York Charter, as amended by chapters 629 and 630 of the Laws of 1905, provide for the manner and procedure of making such grants; and

Whereas, In pursuance of such laws, this Board adopted a resolution on April 17, 1913, fixing the date for a public hearing thereon, as May 8, 1913, at which citizens were entitled to appear and be heard, and publication was had for at least two (2) days in the "Brooklyn Times" and "The Citizen," newspapers designated by the Mayor, and in the CITY RECORD for ten (10) days immediately prior to the date of hearing, and the public hearing was duly held on such day; and

Whereas, This Board has made inquiry as to the proposed modification and amendment of said contract of June 22, 1906, as amended by said contract of December 20, 1907; now, therefore, it is

Resolved, That the following form of the resolution for the consent or right applied for by the Seaboard Refrigeration Company, containing the form of proposed contract, for the grant of such right be hereby introduced and entered in the minutes of this Board, as follows, to wit:

Resolved, That the Board of Estimate and Apportionment hereby consents to certain modifications in the terms and conditions of the said contract of June 22, 1906, as amended by said contract of December 20, 1907; such modified terms and conditions being fully set forth and described in the following form of proposed contract for the grant thereof, embodying such terms and conditions as modify or alter said contract of June 22, 1906, as amended by said contract of December 20, 1907, which said contract of June 22, 1906, otherwise remains unchanged as to all the other terms and conditions expressed therein and that the Mayor of The City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

This contract, made this day of , 1913, by and between The City of New York (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City, and the Seaboard Refrigeration Company (hereinafter called the Company), party of the second part, witnesseth:

Whereas, The City, by contract dated June 22, 1906, and executed by the Acting Mayor July 6, 1906, did grant to the Company the right and privilege to construct, maintain and operate a conduit line, with the necessary branches and connections therefrom, under and along certain streets in the Borough of Brooklyn, for the sole purpose of supplying refrigeration to consumers, upon certain terms and conditions therein fully set forth; and

Whereas, By resolutions adopted September 14, 1906; November 9, 1906; April 26, 1907, and May 10, 1907, and thereafter duly approved by the Mayor, and by contract dated December 20, 1907, executed by the Mayor January 6, 1908, and by resolutions adopted January 31, 1908, and May 1, 1908, and thereafter duly approved by the Mayor, the said contract dated June 22, 1906, was amended and modified to the extent and in the manner named in said resolutions and said modifying contract; and

Whereas, By petition verified April 15, 1913, the Company has applied for a further modification of the said contract dated June 22, 1906, as amended, by extending the date fixed therein for the completion of the conduit line;

Now, therefore, in consideration of the premises and of the mutual covenants herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City consents to such modification in and to the said contract dated June 22, 1906, as amended, subject to the following conditions:

Section 2, subdivision seventh, is hereby amended by inserting therein the date May 1, 1915, in lieu and in place of the date May 1, 1913, therein named.

Sec. 2. This contract shall take effect as of the first day of May, 1913.

Sec. 3. All the terms and conditions contained in the said contract dated June 22, 1906, shall remain unchanged, except as heretofore and hereby modified.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

PUBLIC SERVICE COMMISSION

Proposals.

FIRST DISTRICT.

INVITATION TO CONTRACTORS.

Part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The City of New York, acting by the Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct section No. 4 of Route 5, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 4. Beginning at a point under Broadway, in the Borough of Manhattan, about midway between Houston and Bleecker sts. and extending thence northerly under Broadway and Union square to a point about three hundred and ninety (390) feet north of the intersection of the southerly building line of 14th st. with the centre line of the subway.

The general plan of construction calls for a subsurface railroad having four tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission, as set forth in the form of contract.

The contractor will be required to prosecute the work of construction from working shafts located at the points specified in the contract.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of thirty-six (36) months from the date of the delivery of this contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 24th day of June, 1913, at twelve fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 5, Section No. 4," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or State bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars ($15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the contractor will be required to furnish security to the City by giving a bond for seventy-five thousand dollars ($75,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

New York, May 23, 1913.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, by EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. m26,j24

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee to the lands, tenements and hereditaments required for the opening and extending of BAKER AVENUE, from Garfield street to Matthews avenue, at a point about 149 feet east of the easterly line of Barnes avenue, in the Twenty-fourth Ward, Borough of The Bronx, City of New York.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, First Department, at a Special Term thereof, to be held in Part III, thereof, in and for the County of New York, in the County Court House, in the Borough of Manhattan, City of New York, on the 24th day of June, 1913, at the opening of Court on that day, or as soon thereafter as counsel can be heard, for the appointment of Commissioners of Estimate and one Commissioner of Assessment in the above entitled matter.

The nature and extent of the improvement hereby intended is the acquisition of title in fee by The City of New York, for the use of the public, to all the lands and premises, together with the buildings thereon and the appurtenances thereunto belonging, required for the opening and extending of Baker avenue, from Garfield street to Matthews avenue at a point about 149 feet east of the easterly line of Barnes avenue, in the Twenty-fourth Ward, Borough of The Bronx, City of New York, being the following-described pieces or parcels of land:

Parcel "A."

Beginning at a point in the western line of White Plains road, distant 434.658 feet northerly from the intersection of said line with the northern line of West Farms road; thence northerly along the western line of White Plains road for 67.0 feet; thence westerly deflecting 116 degrees 25 minutes 30 seconds to the left for 541.13 feet to the eastern line of Garfield street; thence southerly along last-mentioned line for 60 feet; thence easterly for 511.315 feet to the point of beginning.

Parcel "B."

Beginning at a point in the eastern line of White Plains road distant 923.29 feet southerly from the intersection of said line with the southern line of Morris Park avenue; thence southerly along the eastern line of White Plains road for 51 feet; thence easterly deflecting 101 degrees 21 minutes 00 seconds to the left for 1,192.88 feet; thence northwesterly deflecting 110 degrees 17 minutes 00 seconds to the left for 53.31 feet; thence westerly for 1,164.36 feet to the point of beginning.

Baker avenue, from Garfield street to Matthews avenue, is shown on Sections 37 and 40 of the Final Maps of the Borough of The Bronx, which maps were filed as follows: In the office of the President of the Borough of The Bronx, Section 37, on June 21, 1911, Section 40 on June 28, 1911; in the office of the Register of the County of New York, Section 37 on June 17, 1911, as Map No. 1534, Section 40 on June 27, 1911, as Map No. 1537; and in the office of the counsel to the Corporation of The City of New York, Section 37, on June 19, 1911, in pigeon hole 164, Section 40 on June 27, 1911, in pigeon hole 165.

The land to be taken for Baker avenue is located east of the Bronx River.

The Board of Estimate and Apportionment on the 14th day of December 1911, duly fixed and determined the area of assessment for benefit in this proceeding as follows:

Beginning at a point on the prolongation of a line midway between Mead street and Baker avenue, distant 100 feet westerly from the westerly line of Garfield street, and running thence eastwardly along the said line midway between Mead street and Baker avenue, and along the prolongation of the said line to the intersection with the westerly line of Unionport road; thence northeastwardly in a straight line to a point on the easterly line of White Plains road, where it is intersected by a line bisecting the angle formed by the intersection of the prolongations of the northerly line of Baker avenue and the southerly line of Van Nest avenue, as these streets are laid out between Cruger avenue and Holland avenue; thence eastwardly along the said bisecting line to the intersection with a line distant 100 feet northerly from and parallel with the northerly line of Baker avenue, as this street is laid out where it adjoins Barnes avenue, the said distance being measured at right angles to Baker avenue; thence eastwardly along the said line parallel with Baker avenue, and along the prolongation of the said line to the intersection with the westerly line of Matthews avenue, thence eastwardly at right angles to Matthews avenue, a distance of 160 feet; thence generally southwardly and always distant 100 feet easterly from and parallel with the easterly line of Matthews avenue and the prolongations thereof, to the intersection with the prolongations of a line distant 100 feet southerly from and parallel with the southerly line of Baker avenue, as this street is laid out at Barnes avenue, the said distance being measured at right angles to Baker avenue; thence generally westwardly and always distant 100 feet southerly from and parallel with the southerly line of Baker avenue and the prolongations thereof to the intersection with a line parallel with Garfield street, as this street is laid out at Van Nest avenue, and passing through the point of beginning; thence northwardly along the said line parallel with Garfield street to the point or place of beginning.

Applications to Amend Proceedings.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to amending its application heretofore made in the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of COTTAGE PLACE, from Crotona Park South to East One Hundred and Seventieth street, in the Twenty-third Ward, Borough of The Bronx, City of New York, so as to relate to Cottage place, between the aforesaid limits, as shown upon a map or plan adopted by the Board of Estimate and Apportionment October 17, 1912, and approved by the Mayor October 24, 1912.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, First Department, at a Special Term, Part III thereof, to be held at the County Court House in the Borough of Manhattan, in The City of New York, on the 17th day of June, 1913, at the opening of the Court on that day, or as soon thereafter as counsel can be heard thereon, for an order amending the proceeding entitled "In the Matter of the Application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of Cottage place, from Crotona Park South to East One Hundred and Seventieth street, in the Twenty-third Ward, Borough of The Bronx, City of New York," and the petition and order appointing the Commissioners of Estimate and a Commissioner of Assessment in the above entitled proceeding, bearing date the 30th day of March, 1911, and entered and filed in the office of the Clerk of the County of New York on the 7th day of April, 1911, so as to relate to Cottage place, between the aforesaid limits, as shown upon a map or plan adopted by the Board of Estimate and Apportionment October 17, 1912, and approved by the Mayor October 24, 1912.

The land not required for Cottage place is shown upon a map entitled "Map showing a change in the westerly side of Cottage place, between East One Hundred and Seventieth street and Crotona Park South," which map was filed in the office of the President of the Borough of The Bronx on January 2, 1913, in the office of the Register of the County of New York on December 28, 1912, as Map No. 1688, and in the office of the Corporation Counsel of The City of New York on or about December 28, 1912.

The land not required for Cottage place is located in Block 2932 of Section 11 of the Land Map of The City of New York and is bounded and described as follows:

Beginning at a point in the northern line of East One Hundred and Seventieth street distant 137.72 feet easterly from the intersection of said line with the eastern line of Fulton avenue; thence easterly along the northern line of East One Hundred and Seventieth street for 1.74 feet; thence northerly deflecting 81 degrees 16 minutes 49 seconds to the left for 100 feet; thence westerly deflecting 98 degrees 43 minutes 11 seconds to the left for 1.74 feet to the western line of Cottage place as now being acquired; thence southerly along said western line for 100 feet to the point of beginning.

By a resolution adopted by the Board of Estimate and Apportionment on the 9th day of January, 1913, the area of assessment for benefit in this amended proceeding was fixed and determined to be as follows:

Bounded on the north by the southerly line of Crotona Park South; on the east by a line distant 100 feet easterly from and parallel with the easterly line of Cottage place, the said distance being measured at right angles to Cottage place; on the south by the northerly line of East One Hundred and Seventieth street; and on the west by a line distant 100 feet westerly from and parallel with the westerly line of Cottage place, the said distance being measured at right angles to Cottage place.

(The lines of Cottage place hereinbefore referred to are intended to be those as laid out upon the City map prior to October 17, 1912.)

Dated New York, June 4, 1913.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of GEORGIA AVENUE, from Belmont avenue to Sutter avenue, in the Twenty-sixth Ward, Borough of Brooklyn, The City of New York.

NOTICE IS HEREBY GIVEN TO ALL persons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First.—That the undersigned, Commissioners of Estimate, have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having and objection thereto, do file their said objections in writing, duly verified, with them at their office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 30th day of June, 1913, and that the said Commissioners will hear parties so objecting, and for that purpose, will be in attendance at their said office on the 1st day of July, 1913, at 2.30 o'clock p. m.

Second.—That the undersigned, Commissioner of Assessment, has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 30th day of June, 1913, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 2d day of July, 1913, at 2.30 o'clock p. m.

Third.—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 7th day of March, 1912, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Bounded on the north by a line distant 100 feet northerly from and parallel with the northerly line of Belmont avenue, the said distance being measured at right angles to Belmont avenue; on the east by a line midway between Georgia avenue and Sheffield avenue; on the south by a line distant 100 feet southerly from and parallel with the southerly line of Sutter

avenue, the said distance being measured at right angles to Sutter avenue; and on the west by a line midway between Alabama avenue and Georgia avenue.

Fourth.—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said City, there to remain until the 10th day of July, 1913.

Fifth.—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 30th day of July, 1913, at the opening of the Court on that day.

Sixth.—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sectons 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Brooklyn, New York, June 10, 1913.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all person interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement, to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
