Substantial Amendment to the 2008 Consolidated Plan 12-day Public Comment Period Addendum - Homelessness Prevention and Rapid Re-Housing Program

Pursuant to the Title XII of the American Recovery and Reinvestment Act of 2009 (“ARRA” or the “Recovery Act”) the City of New York announces the 12-day public comment period for the substantial amendment to the 2008 Consolidated Plan: Addendum - Homelessness Prevention and Rapid Re-Housing Program (HPRP).

The Public Comment period will begin Thursday, April 30 and end Monday, May 11, 2009.

The HPRP was created by Congress to provide grants to States and localities to provide financial assistance and services to either prevent individuals and families from becoming homeless or help those are experiencing homelessness to be quickly re-housed and stabilized. The City of New York is expected to receive approximately \$73,929,700 in HPRP funds.

Under existing U.S. Department of Housing and Urban Development (HUD) Consolidated Plan citizen participation regulations, substantial amendments to an approved Plan are required to undergo a 30-day comment period. However, in order to expedite the localities receiving the funds, Congress has waived this regulation and requires the Program to undergo only a 12-day public review period instead.

All comments received at the end of the comment period (close of business) will be summarized and the City's responses incorporated into the 2008 Consolidated Plan amendment addendum for submission to HUD.

The City of New York must submit the amendment to HUD by May 18, 2009 in order to be eligible to receive its allocation.

Copies of the 2008 Consolidated Plan - Addendum: Homelessness Prevention and Rapid Re-Housing Program (HPRP) will be made available at: The City Planning Bookstore, 22 Reade Street, New York, NY (10:00 A.M. - 4:00 P.M., Mon. - Fri.).

In addition, on Thursday, April 30, 2009 at 10:00 A.M. an Adobe PDF version of the amendment will be available for free downloading from the internet via both the Department

of Homeless Services' and the Department of City Planning's websites at: www.nyc.gov/dhs and www.nyc.gov/planning, respectively.

Name, Description, and Location of Proposal:

Middle Village-Glendale-Maspeth Rezoning

The Department of City Planning (DCP) is proposing an amendment to the zoning map affecting approximately 300 blocks in the Middle Village-Glendale-Maspeth neighborhoods of Queens, Community District 5. The proposed Zoning Map amendments will replace all or portions of existing R3-2, R4, R4B, R5, M1-1 and M1-4D zoning districts with R3A, R4-1, R4A, R4B, R5B, and R5 lower density or contextual zoning districts. In addition, some areas within C1-2 and C2-2 districts would be rezoned to C1-3 and C2-3, reducing the distance for most commercial overlays from 150-feet to 100-feet. C1-3 commercial overlay districts would also be established along certain sections of Myrtle, Metropolitan, Flushing and Cooper Avenues, as well as a portion of 69th Street. C2-3 commercial overlay districts would be established along Metropolitan Ave within the new R5B zoning district between Fresh Pond Road and 64th Street.

The rezoning area is comprised of four smaller sections: Middle Village bounded by the Queens-Midtown Expressway, Woodhaven Boulevard, Mt Olivet Cemetery, 80th Street, Juniper Boulevard, and Lutheran Avenue; eastern Glendale bounded by Woodhaven Boulevard 76th Avenue 88th Street 77th Ave, 80th Street and Cooper Avenue; western Glendale bounded by The Long Island Railroad, 70th Avenue, 69th Place, Myrtle Avenue, 73rd St, and Mt. Carmel Cemetery; and Maspeth bounded by 59th Street, Mt. Olivet Cemetery, the Queens-Midtown Expressway, and Admiral Avenue.

The proposed action is projected to result in development on 10 sites with a net increase of 66 dwelling units, a net increase of 13 square feet of commercial space, a net increase of 5,248 square feet of community facility space and a net increase of 51 parking spaces. A total of 10 projected development sites and 12 potential development sites have been identified in this area. The analysis year for the proposed action is 2019.

As a result of the environmental review, (E) designations would be mapped on selected development sites in order to preclude future hazardous materials, air quality and noise impacts which could occur as a result of the proposed action. The E-designation number is E-235.

To avoid any potential impacts associated with hazardous materials, as part of the proposed rezoning, an (E) designation for hazardous materials will be placed on the following properties:

Block	Lots
2713	70, 72, 73
2770	1, 13, 16, 31, 34
2771	21, 38
3594	7
3639	1
3675	1, 3, 4, 5, 10, 60, 61
3686	46
3692	1
3707	28
3708	33
3709	25
3710	22

The (E) designation would require that the fee owner of the sites conduct a testing and sampling protocol, and remediation where appropriate, to the satisfaction of the NYCDEP before the issuance of a building permit by the Department of Buildings pursuant to the provisions of Section 11-15 of the Zoning Resolution (Environmental Requirements). The (E) designation will also include a mandatory construction-related health and safety plan which must be approved by NYCDEP. The text for the (E) designation will be as follows:

Task 1-Sampling Protocol

A. Petroleum

A soil, soil gas, and groundwater testing protocol (including a description of methods), and a site map with all sampling location represented clearly and precisely, must be submitted to the NYCDEP by the fee owner(s) of the lot which is restricted by this (E) designation, for review and approval.

A site map with the sampling locations clearly identified and a testing protocol with a description of methods, for soil, soil gas, and groundwater, must be submitted by the fee owner(s),

of the lot which is restricted by the (E) designation, to the NYCDEP for review and approval.

B. Non-Petroleum

The fee owner(s) of the lot restricted by this (E) designation will be required to prepare a scope of work for any sampling and testing needed to determine if contamination exists and to what extent remediation may be required. The scope of work will include all relevant supporting documentation, including site plans and sampling locations. This scope of work will be submitted to NYCDEP for review and approval prior to implementation. It will be reviewed to ensure that an adequate number of samples will be collected and that appropriate parameters are selected for laboratory analysis. For all non-petroleum (E) designated sites, the three generic NYCDEP soil and ground-water sampling protocols should be followed.

A scope of work for any sampling and testing to be completed, which will determine the extent of on-site contamination and the required remediation, must be prepared by the fee owner(s) of the lot restricted by this (E) designation. The scope of work will include the following: site plans, sampling locations, and all other relevant supporting documentation. The scope of work must be submitted to the NYCDEP for review and confirmation that an adequate testing protocol (i.e., number of samples collected, appropriate parameters for laboratory analysis) has been prepared. The NYCDEP must approve the scope of work before it can be implemented.

For non-petroleum (E) designated sites, one of the three generic soil and groundwater sampling protocols prepared by the NYCDEP should be followed.

The protocols are based on three types of releases to soil and groundwater sampling protocols prepared by the NYCDEP should be followed.

The protocols are based on three types of releases to soil and groundwater, including: the release of a solid hazardous material to ground surface; the release of a liquid hazardous material to the ground surface; and the release of a hazardous material to the subsurface (i.e., storage tank or piping). The type of release defines the areas of soil to be sampled from surface, near-surface, to subsurface. Additionally, it determines the need for groundwater sampling.

A written approval of the sampling protocol must be received from the NYCDEP before commencement of sampling activities. Sample site quantity and location should be determined so as to adequately characterize the site, the source of contamination, and the condition of the remainder of the site. After review of the sampling data, the characterization should have been complete enough to adequately determine what remediation strategy (if any) is necessary. Upon request, NYCDEP will provide guidelines and criteria for choosing sampling sites and performing sampling.

Finally, a Health and Safety Plan must be devised and approved by the NYCDEP before the commencement on any on-site activities.

Task 2-Remediation Determination and Protocol

After sample collection and laboratory analysis have been completed on the soil and/or groundwater samples collected in Task 1, a summary of the data and findings in the form of a written report must be presented to the NYCDEP for review and approval. The NYCDEP will provide a determination as to whether remediation is necessary.

If it is determined that no remediation activities are necessary, a written notice will be released to that effect. However, if it is the NYCDEP's determination that remediation is necessary the fee owner(s) of the lot restricted by the (E) designation must submit a proposed remediation plan to the NYCDEP for review and approval. Once approval has been obtained, and the work completed, the fee owner(s) of the lot restricted by the (E) designation must provide proof to the NYCDEP that the work has been completed satisfactorily.

With the placement of the (E) designations on the above block and lots, no impacts related to hazardous materials are anticipated.

To preclude the potential for significant adverse air quality impacts related to HVAC emissions, an (E) designation would be incorporated into the rezoning proposal for each of the following properties:

Block 2770, Lots 1, 13, 16, 31, 34
Block 3000, Lot 26
Block 3014, Lot 26
Block 3675, Lots 1, 3, 4, 5, 10, 60, 61

The text for the (E) designations is as follows:

Block 2770, Lot 1 (Projected Development Site 1)

Any new residential development on the above-referenced properties must ensure that the HVAC stacks are located at least 32 feet for Oil No. 2 from the lot line facing 62nd Street or use Natural Gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant adverse air quality impacts.

Block 2770, Lots 31, 34 (Projected Development Site 2)

Any new residential development on the above-referenced properties must ensure that the HVAC stacks are located at least 32 feet for Oil No. 2 from the lot line facing Fresh Pond Road or use Natural Gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant adverse air quality impacts.

Block 3014, Lot 26 (Projected Development Site 4)

Any new residential development on the above-referenced properties must ensure that the HVAC stacks are located at least 40 feet for Oil No. 2 from the lot line facing Penelope Avenue or use Natural Gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant adverse air quality impacts.

Block 3675, Lots 1, 3, 4, 5, 60, 61 (Projected Development Site 5)

Any new residential and/or commercial development on the above-referenced properties must ensure that the heating, ventilating and air conditioning stack(s) are located at least at least 40 feet for Oil No. 2 from the lot line facing 65th Street or use Natural Gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant adverse air quality impacts.

Block 2770, Lot 13, 16 (Potential Development Site A)

Any new residential development on the above-referenced properties must ensure that the HVAC stacks are located at least 32 feet for Oil No. 2 from the lot line facing Metropolitan Avenue or use Natural Gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant adverse air quality impacts.

Block 3000, Lot 26 (Potential Development Site D)

Any new residential development on the above-referenced properties must ensure that the HVAC stacks are located at least 32 feet for Oil No. 2 from the lot line facing Fleet Center or use Natural Gas as the type of fuel for space heating and hot water (HVAC) systems, to avoid any potential significant adverse air quality impacts.

Block 3675, Lot 10 (Potential Development Site F)

Any new residential and/or commercial development on the above-referenced properties must use only Natural Gas as the type of fuel for heating, ventilating and air conditioning (HVAC) systems, to avoid any potential significant adverse air quality impacts.

With the placement of the (E) designations on the above blocks and lots, no significant adverse air quality impacts related to stationary sources are expected.

To preclude the potential for significant adverse impacts related to noise, an (E) designation would be incorporated into the rezoning proposal for each of the following properties:

Block 2770, Lots 1, 31, 34
Block 2771, Lots 21, 38
Block 3639, Lot 1

The text for the (E) designations is as follows:

In order to ensure an acceptable interior noise environment, future residential/commercial uses must provide a closed window condition with a minimum of 35 dB(A) window/wall attenuation on all facades in order to maintain an interior noise level of 45 dB(A). In order to maintain a closed-window condition, an alternate means of ventilation must also be provided. Alternate means of ventilation includes, but is not limited to, central air conditioning.

With the placement of the (E) designation for noise, no impacts related to noise are expected and no further analysis is warranted.

Statement of No Significant Effect:

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning Commission, has completed its technical review of the Environmental Assessment Statement, dated April 20, 2009, prepared in connection with the ULURP Application (ULURP No. 090382ZMQ). The City Planning Commission has determined that the proposed action will have no significant effect on the quality of the environment.

Supporting Statement:

The above determination is based on an environmental assessment which finds that:

- The (E) designation for hazardous materials would ensure that the proposed action would not result in significant adverse impacts due to hazardous materials.
- The (E) designations for air quality would ensure that the proposed action would not result in significant adverse impacts due to air quality.
- The (E) designations for noise would ensure that the proposed action would not result in significant adverse impacts due to noise.
- No other significant adverse effects on the environment which would require an Environmental Impact Statement are foreseeable.

This Negative Declaration has been prepared in accordance with Article 8 of the Environmental Conservation Law 6NYCRR part 617.

READER'S GUIDE

The City Record (CR) is, published each business day and includes notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Solicitation notices for most procurements valued at or above \$100,000 for information technology and for construction and construction related services, above \$50,000 for other services, and above \$25,000 for other goods are published for at least one day. Other types of procurements, such as sole source, require notice in the City Record for five consecutive days. Unless otherwise specified, the agencies and offices listed are open for business Mondays thru Fridays from 9:00 A.M. to 5:00 P.M. except legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptrollers Office at www.comptroller.nyc.gov, click on Labor Law Schedules to view rates.

New York City's "Burma Law" (Local Law No. 33 of 1997) No Longer to be Enforced. In light of the United States Supreme Court's decision in **Crosby v. National Foreign Trade Council**, 530 U.S. 363 (2000), the City has determined that New York City's Local Law No. 33 of 1997 (codified in Administrative Code Section 6-115 and Charter Section 1524), which restricts City business with banks and companies doing business in Burma, is unconstitutional. This is to advise, therefore, that the language relating to Burma contained in existing New York City contracts may not be enforced.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$7 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. To register for these lists-free of charge-, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application.

- Online at <http://nyc.gov/selltonyc>
- To request a hardcopy application, call the Vendor Enrollment Center at (212) 857-1680.

Attention Existing Suppliers:

Even if you already do business with NYC agencies, be sure to fill out an application. We are switching over to citywide, centralized Bidders Lists instead of the agency-specific lists previously used to issue notices about upcoming contract opportunities. To continue receiving notices of New York City contract opportunities, you must fill out and submit a NYC-FMS Vendor Enrollment application.

If you are uncertain whether you have already submitted an application, call us at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services, 110 William Street, New York, NY 10038. Morning and afternoon sessions are convened on the first Tuesday of each month. For more information, and to register, call (212) 618-8845.

PRE-QUALIFIED LIST

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstance. When it is decided by an agency to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR.

Information and qualification questionnaires for inclusion on such list may be obtained directly from the Agency Chief Contracting Officer at each agency, (see Vendor Information Manual). A completed qualification Questionnaire may be submitted to the Chief Contracting Officer at any time, unless otherwise indicated and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings, (OATH), Section 3-11 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, Housing Authority. Suppliers interested in applying for inclusion on bidders list should contact these entities directly (see Vendor Information Manual) at the addresses given.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 10:00 A.M to 3:00 P.M. For information, contact the Mayor's Office of Contract Services at (212) 788-0010.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about the program, contact the New York City Department of Small Business Services, 110 William Street, 2nd Floor, New York, New York 10038 (212) 513-6311.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City now pays interest on all late invoices. The grace period that formerly existed was eliminated on July 1, 2000. However, there are certain types of payments that are not eligible for interest. These are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year, in January and in July.

HOW TO READ CR PROCUREMENT NOTICES

Procurement Notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards; and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section. At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified UNLESS a different one is given in the individual notice. In that event, the directions in the individual notice should be followed. The following is a SAMPLE notice and an explanation of the notice format used by the CR.
