#### SCHOOL EXPENDITURE FOR 1874.

Report of the Finance Committee:  
To the Board of Education:

The Finance Committee, to whom was referred the communication from the Comptroller in forming the Board of the amount appropriated by the Board of Estimate and Apportionment for the purposes of public instruction for the year eighteen hundred and seventy-four (1874), respectfully report that the amount appropriated by said Board is one hundred and eighty-seven thousand dollars (\$187,000) less than the estimate submitted in September last by this Board, and includes the sum of five thousand dollars (\$5,000) for "examination and report on the subject of warming and ventilating the Public School Buildings." The sum deducted consists of fifty-five thousand dollars (\$55,000) from the miscellaneous purposes stated in our estimate, sixty-two thousand dollars (\$62,000) named therein for the Normal College Building fund, and seventy thousand dollars from the amounts named for sites, new buildings, extraordinary repairs, etc. The estimate submitted by this Board in September last and the appropriations made by the Board of Estimate and Apportionment in response to said estimate, were intended for the support of the schools in the twenty-two wards existing at the time said estimate was submitted: Your committee therefore propose to apply the sum thus appropriated to those wards only. The sums named in the resolutions submitted herewith for appropriation and reserve are the same as in the estimate submitted to the Board of Estimate and Apportionment, excepting such reductions in some of the items as are compelled by the deductions made by the Board of Estimate and Apportionment. The Board of Estimate and Apportionment have likewise made in response to the application of this Board, an appropriation for the purposes of public instruction in the Twenty-third and Twenty-fourth Wards of the sum of one hundred and sixty-six thousand five hundred and eighty-six dollars (\$166,586), which your committee propose shall be accounted for separately and kept distinct from the appropriations and expenditures of the other wards.

Your committee recommend the adoption of the following preamble and resolutions:

WHEREAS, The sum of three million seven hundred and fifty-two thousand five hundred dollars (\$3,752,500) has been appropriated by the Board of Estimate and Apportionment for the purpose of public instruction for the year eighteen hundred and seventy-four (1874), based upon the estimate submitted to said Board by this Board on the 17th of September last for the support of the schools in the then existing twenty-two wards; therefore, that said sum so appropriated may be disposed of for school purposes in said wards,

Resolved, That the sum of three million one hundred and fifty-two thousand five hundred dollars (\$3,152,500) of the school moneys for the year eighteen hundred and seventy-four (1874) appropriated for public instruction by the Board of Estimate and Apportionment be and the same is hereby directed to be applied by appropriation to the several purposes and in the several sums herein named as may be required; the authorization of the payments, by virtue of said appropriations, to be made in accordance with the by-laws, rules and regulations of this Board governing payments:
