### PETITIONS AND COMMUNICATIONS.

No. 2588.

At a convention of the New York City Federation of Women's Clubs, held at the Hotel Astor, in The City of New York, October 18, 1907:

Resolved, by the New York City Federation of Women's Clubs, That the decision of the Park Commissioner to erect two model milk depots for the dispensing of pasteurized milk be approved, and that the Federation respectfully recommends that these depots be located in Tompkins and Mount Morris Parks, and that the station now in Tompkins Park, which is inadequate to the demands of the great East Side, be removed to Battery Park.

Whereas, The experts of the United States Government have demonstrated the perils of raw milk that comes from herds that have not been proved free from tuberculosis by the tuberculin test, and

Whereas, The Federal Department of Agriculture has recommended that all milk that cannot be certified as free from the germs of disease be pasteurized, and

Whereas, President Roosevelt has commissioned Surgeon-General Walter Wyman, of the Public Health Service, to prepare plans to carry this decision into effect, and

Whereas, The town of Montclair, N. J., has set an example to the whole world by barring the sale in the town of all milk that comes from herds that are not certified as free from tuberculosis.

Resolved, That the New York City Federation of Women's Clubs does hereby indorse the proposed extension of the present inadequate system of milk inspection by The City of New York by the appropriation of \$353,000 additional annually, and does respectfully urge the Commissioner of Health to use these resources to weed out tuberculous cattle from dairy herds by the tuberculin test and to enforce the pasteurization of all milk that cannot be certified as free from the germs of tuberculosis and other diseases.

Resolved, That copies of these resolutions be sent to the members of the Board of Estimate and to the President of the Board of Aldermen and to the Commissioner of Health.

Which was referred to the Committee on Public Health.

### COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communications from the Board of Estimate and Apportionment, transmitting resolutions:

No. 2589.

Board of Estimate and Apportionment,  
Office of the Secretary, No. 277 Broadway,  
November 15, 1907.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment November 15, 1907, recommending the establishment of an additional grade of the position of Examiner in the Department of Finance, with salary at the rate of \$4,000 per annum, for one incumbent.

I also transmit copy of communication from the Comptroller relative thereto, and a form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

Whereas, The Board of Estimate and Apportionment at a meeting held November 15, 1907, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, the establishment of the grade of position of Examiner, in the Department of Finance, in addition to those already existing therein, with salary at the rate of four thousand dollars (\$4,000) per annum, for one incumbent."

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

November 11, 1907.

To the Honorable, the Board of Estimate and Apportionment:

Gentlemen—I hereby respectfully make application for the establishment of a grade of Examiner in the Department of Finance at a salary of \$4,000 per annum for one incumbent.

My reason for making the application is to provide for the transfer of Robert B. McIntyre, who is now an Auditor of Accounts, one of the exempt positions in this Department, back to the classified service from which he was taken on February 6, 1905, and make that transfer at a salary compensation which his abilities and length of service in the Department merit.

Mr. McIntyre was appointed to a position in the Department of Finance seven years ago, his title being that of Assistant to Expert Accountant, at a salary of \$8 per diem. On September 1, 1902, under the provisions of chapter 436 of the Laws of 1902, his title was changed to that of Examiner, at a compensation of \$2,400 per annum. On February 6, 1905, he was transferred from the classified to the exempt service, and appointed an Expert Accountant at a salary of \$3,500. On February 1, 1906, he was designated as an Auditor of Accounts with a salary of \$4,000 per annum.

During his seven years of service with the City Mr. McIntyre has been assigned to examination in investigating work in practically all of the Departments of the City, and the skill and ability which he has displayed justify continued compensation at his present salary. He is at present assigned to duty in the Bureau of Municipal Investigation and Statistics, with which Bureau he has been associated since its inception.

The compensation allowable for positions in the classified service should be such that when the occasion warrants, adequate returns should be possible for a man's services instead of such classified positions depending, as they do in most instances, for their value solely on the fixed tenure assured. This is an instance of this sort. The highest grade for the position of Examiner now existing in this Department is \$3,500, the grade requested being, therefore, an advance of \$500.

Yours respectfully,

H. A. METZ, Comptroller.

Which was referred to the Committee on Salaries and Offices.

No. 2590.

Board of Estimate and Apportionment,  
No. 277 Broadway,  
November 23, 1907.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment November 22, 1907, amending resolution adopted October 18, 1907, relative to establishing position of Automobile Engine-man in the Bureau of Supplies, Board of Education, with salary at \$1,500 per annum, for one incumbent, by striking therefrom the words "Automobile Engine-man" and inserting in place thereof the words "Auto-truck Engineman and Mechanic."

I also transmit form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

JOSEPH HAAG, Secretary.

Resolved, That the Board of Aldermen hereby approves of and concurs in the following amended resolution adopted by the Board of Estimate and Apportionment November 22, 1907:

"Resolved, That the resolution adopted by the Board of Estimate and Apportionment October 18, 1907, which reads as follows:

"Resolved, That the Board of Estimate and Apportionment, in accordance with the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment of the position of Automobile Engineman in the Bureau of Supplies, Board of Education, with salary at the rate of fifteen hundred dollars (\$1,500) per annum, for one incumbent."

—be and the same is hereby amended by striking therefrom the words "Auto-mobile Engineman" and inserting in place thereof the words "Auto-truck Engineman and Mechanic."

Which was made a Special Order for 2 o'clock p. m.

Subsequently, the hour of 2 o'clock having arrived, the President ordered the Clerk to read the resolution. Alderman Meyers moved its adoption.

The President put the question whether the Board would agree with said resolution. Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Clifford, Cole, Collins, Cronin, Davies, Dotzler, Doull, Dowling, Doyle, Ellery, Freeman, Fried, Grifenhagen, Gunther, Harnischfeger, Herold, Higgins, Kenneally, Kline, Kuntze, Levine, Linde, Meyers, Morris, Olvany, O'Neill, Reardon, Redmond, Rendt, Richter, Rowcroft, Smith, Stapleton, Sturges, Torpey, Wafer, President Cromwell and the Vice-Chairman—41.

#### REPORTS OF STANDING COMMITTEES.

##### Reports of Committee on Finance—

No. 2550.

The Committee on Finance, to whom was referred, on November 12, 1907 (Minutes, page 511), the annexed resolution to authorize the Police Commissioner to use certain money for purposes of new Police Headquarters, respectfully

##### REPORTS:

The details of this application are set forth in the annexed reports, and Inspector Titus and Chief Clerk Kipp, of the Police Department, appeared before the Committee and stated that it was proposed to transfer \$5,000, already appropriated by Corporate Stock issue, from the General Police Station Fund to the new Police Headquarters Building Fund. It does not involve the appropriation of any money. The Committee recommend the adoption of the ordinance.

JOHN R. DAVIES, JOHN DIEMER, JOSEPH FALK, PH. HARNISCHFEGER, JAMES W. REDMOND, Committee on Finance.

Police Department of The City of New York,  
October 1, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—The following proceedings were this day directed by me:

Ordered, That the proceedings of September 16, 1907, "requesting the Board of Estimate and Apportionment to transfer the sum of \$5,000 from the appropriation made to the Police Department by the issue of Corporate Stock, authorized under resolution adopted June 8, 1906, in amount not exceeding \$2,000,000, for the purpose of providing means for the acquisition of sites and the erection of buildings thereon for the use of the Police Department to the appropriation entitled Sites and Buildings, made to the Police Department by the issue of Corporate Stock, authorized by resolution of the Board of Estimate and Apportionment adopted February 15, 1906, in the amount of \$750,000," be and are hereby rescinded, and the following substituted therefor:

Whereas, Pursuant to advertisement, a proposal was opened August 26, 1907, for making alterations to the interior arrangement of the new Headquarters Building, the bid therefor being that of Gillespie, Walsh & Gillespie, for the sum of \$20,350; and

Whereas, the appropriation for the construction of the said new Headquarters Building is \$750,000, and the unexpended balance of the said appropriation is insufficient to enable the Police Commissioner to award the contract for making alterations to the interior arrangement of the said building in the sum of \$20,350.

Ordered, That the Board of Estimate and Apportionment be and is hereby respectfully requested to apply the sum of \$5,000 to the appropriation for the erection of the said new Headquarters Building from the issue of Corporate Stock under resolution of June 8, 1906, in amount not exceeding \$2,000,000, for the purpose of providing means for the acquisition of sites and the erection of buildings thereon for the Police Department.

Respectfully,

THEO. A. BINGHAM, Police Commissioner.

City of New York,  
Department of Finance,  
October 28, 1907.

Hon. HERMAN A. METZ, Comptroller:

Sir—Hon. Theo. A. Bingham, Police Commissioner, in communication under date of September 16, 1907, requests the Board of Estimate and Apportionment to authorize the application of \$5,000 of the \$2,000,000 appropriation allowed on June 6, 1906, for sites and buildings to the \$750,000 appropriation allowed on January 15, 1904, for the new Police Headquarters Building.

I would report that I have examined the account for the construction of the Headquarters Building and find it stands as follows:

##### Money Available—

Taking from appropriation of 1903.....	\$5,000 00	
Building appropriation, 1906.....	\$750,000 00	
Premiums .....	14,359 01	764,359 01

Driveway .....	17,000 00	
Electric conduits .....	3,900 00

Architects' fees, 5 per cent. of \$733,294.....	36,664 70	
Surveying .....	225 00	
		770,183 70
Total available balance.....		\$16,322 00

After a public advertisement in the CITY RECORD the Police Commissioner awarded a contract to Gillespie, Walsh & Gillespie, the lowest bidders, for \$20,350, for certain additional work in the Police Department Headquarters building; adding architects' fees, \$1,017.50, making a total required for this work, \$21,357.50. As there is only an available balance of \$16,322, it will be necessary to increase the Headquarters Building Fund \$5,035.50 in order to do this work. The Commissioner asks for \$5,000, the small difference above this amount will be made up by premiums.

The additional work being necessary and having been properly advertised for, I think the Board of Estimate and Apportionment may properly authorize the Police Commissioner to apply \$5,000 of the \$2,000,000 appropriation allowed June 8, 1906, for the acquisition of sites and the erection of buildings to the \$750,000 appropriation allowed on January 15, 1904, for the new Police Headquarters Building.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. Metz, Comptroller.

Resolved, That the Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment November 1, 1907:

Whereas, The appropriation allowed by the Board of Estimate and Apportionment on January 15, 1904, to the amount of \$750,000, for new headquarters for the use of the Police Department is insufficient therefor; and

Whereas, The appropriation allowed by the Board of Estimate and Apportionment on June 8, 1906, to the amount of \$2,000,000 for the acquisition of sites and the erection of buildings thereon for the use of the Police Department, is in excess of the amount required for the purposes thereof; therefore be it

Resolved, That the Commissioner of the Police Department be and is hereby authorized to apply five thousand dollars (\$5,000) of the two million dollars (\$2,000,000) allowed on June 8, 1906, toward the erection of a new headquarters for the use of the Police Department, in addition to the seven hundred and fifty thousand dollars (\$750,000) authorized January 15, 1904, for said purpose.

Under Rule 21, consideration of this report was deferred. Subsequently Alderman Davies moved the adoption of this report.

The President put the question whether the Board would agree to accept said report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Ahner, Bartscherer, Brown, Clifford, Cole, Collins, Cronin, Davies, Doull, Dowling, Doyle, Ellery, Everson, Freeman, Gunther, Haggerty, Harnischfeger, Herold, Higgins, Kenneally, Kline, Kuntze, Lawlor, Leverett, Levine, Markert, Meyers, Mulligan, Olvany, O'Neill, Reardon, Redmond, Richter, Rowcroft, Smith, Sturges, Sullivan, Torpey, Wafer, President Cromwell, President Haffen, the Vice-Chairman and the President—43.

No. 2572—(G. O. No. 365).

The Committee on Finance, to whom was referred on November 19, 1907 (Minutes, page 595), the annexed resolution in favor of an issue of Special Revenue Bonds, \$5,000, for erection of a footbridge across railroad tracks at Tenth avenue and Thirtieth street, Borough of Manhattan, respectfully

##### REPORTS:

The purpose of this application is well set forth in the preambles of the resolution, and Alderman Dowling appeared before the committee and stated that the New York Central has large freight yards on the south side of Thirtieth street, between Ninth and Tenth avenues, containing about a dozen tracks running out to Tenth avenue, which are used mainly for switching purposes. The company has another extensive freight yard at Thirty-third street and Eleventh avenue, and there is a constant communication between these two depots, necessitating the almost continuous crossing of Tenth avenue at Thirtieth street by freight engines and cars. There have been many accidents at this point, especially to children. This condition of things is so well known that it is surprising that some relief measures have not been proposed years ago. Alderman Dowling explains this with the statement that he has had the matter under consideration, but was deterred from presenting it by reason of the provisions of the Saxe bill, which he thought might entirely change the circumstances. Several recent accidents, however, have caused him to feel that some relief must be had, even if the provisions of the Saxe bill, which will probably not produce relief for several years to come, should be acted upon. The improvement suggested is the erection of a foot bridge on the line of what would be the flagging of the east side of Tenth avenue, between Twenty-ninth and Thirtieth streets, to go over the railroad tracks. Alderman Dowling answers the question as to why the railroad company should not bear part of this expense with the statement that the company has a franchise to run as they do, and he has had the matter looked up by the Comptroller and the Borough President with that end in view, and that he is informed that the City will have to pay this expense if they make this improvement. The committee believe this to be a necessary and urgent matter, and, therefore, recommend the adoption of the resolution.

Whereas, The intersection of Tenth avenue and Thirtieth street, in the Borough of Manhattan, has been for years a point dangerous to life and limb, and is becoming more so because of constantly increasing transportation of merchandise, necessitating at all hours of the day switching of freight cars and trains of the New York Central and Hudson River Railroad; and

Whereas, The thoroughfares at said point are much traversed by men, women and children on their way to work, business or school, and the record of persons maimed and lives lost warrants that The City of New York devise some mode of protection, that the dangers to be encountered may be minimized; therefore

Resolved, That the President of the Borough of Manhattan be and he is hereby authorized and requested to construct, for the use of pedestrians, an elevated footbridge across Tenth avenue at Thirtieth street, over the tracks of the New York Central and Hudson River Railroad Company; and be it further

Resolved, That, pursuant to subdivision 8 of section 188 of the Greater New York Charter as amended, the Board of Estimate and Apportionment is hereby requested to authorize the Comptroller to issue Special Revenue Bonds in an amount not exceeding five thousand dollars (\$5,000), for the purpose of defraying the cost of such construction.

JOHN R. DAVIES, PH. HARNISCHFEGER, J. E. BUNTING, THOS. J. MULLIGAN, JAMES W. REDMOND, JOSEPH FALK, JOHN DIEMER, Committee on Finance.

Which was made a Special Order for 2.30 o'clock p. m.

Subsequently this report was laid over.

No. 2500—(G. O. No. 366.)

The Committee on Finance, to whom was referred on October 22, 1907 (Minutes, page 215), the annexed request of the President of the Borough of Brooklyn for \$5,000 Special Revenue Bonds for furnishing Magistrates' Courts, Ninth and Tenth Districts, Second Division, respectfully

##### REPORTS:

Magistrates Hyland and Geismar, in charge of the two court rooms, appeared before the Committee and stated that with the allowance of \$3,000 for each of these court rooms, granted by the Board last spring, that they were able only to put the barest furnishings in the court rooms in addition to the erection of cells, partitions, stairways and other improvements, which barely made the court rooms usable. They have spent this money, and are still in need of much more. They have each submitted an itemized statement, which covers necessary painting and decorating, a law library, Judges' chairs, necessary partitions, rubber matting on floors and stairs, gas and electric fixtures, of which they have none, book cases, typewriter, safe, etc., which together total up over \$6,000, and which statements are annexed to this report. The Committee are impressed with the earnestness of these two Judges in their endeavor to properly and economically fit up the two court rooms, and believe that relief should be given them, and therefore recommend the adoption of the annexed resolution allowing \$5,000 for the purpose.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the amended Greater New York Charter, the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds in an amount not to exceed five thousand dollars (\$5,000), the proceeds whereof to be applied for the purpose of furnishing Magistrates' Courts of the Ninth and Tenth Districts, Second Division, Borough of Brooklyn.

JOHN R. DAVIES, PH. HARNISCHFEGER, J. E. BUNTING, THOS. J. MULLIGAN, JAMES W. REDMOND, JOSEPH FALK, JOHN DIEMER, Committee on Finance.

The City of New York,  
Office of the President of the Borough of Brooklyn,  
Brooklyn, October 14, 1907.

To the Honorable Board of Aldermen:

Gentlemen—Request is hereby made for an appropriation of Special Revenue Bonds not to exceed five thousand dollars (\$5,000), for the purpose of providing certain furnishings, including libraries, safes, cabinets and other supplies for the use of the Ninth and Tenth Districts City Magistrates' Courts, in the Borough of Brooklyn.

Both these courts have been established, and it is necessary to properly equip them for the transaction of business.

Very truly yours,

BIRD S. COLER,  
President of the Borough of Brooklyn.

Which was made a Special Order for 2.30 o'clock p. m.

Subsequently this report was laid over.

No. 2520—(G. O. No. 367).

The Committee on Finance, to whom was referred on October 22, 1907 (Minutes, page 268), the annexed resolution in favor of an issue of \$500 Special Revenue Bonds to replenish Salary Account, Coroner's office, Borough of The Bronx, respectfully

## REPORTS:

Coroner Schwannecke appeared before the Committee and stated that by reason of the extraordinary expenses incurred by the Coroner's office of The Bronx in the matter of the New York Central wreck last spring, their contingent fund had been entirely expended and the office was now in debt, and it will take this \$500 asked for to carry them through the year. The Committee recommends the adoption of the resolution.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of five hundred dollars (\$500), the proceeds whereof to be applied to replenishing the account entitled Salaries and Expenses of Coroners in the Borough of The Bronx for the year 1907.

JOHN R. DAVIES, PH. HARNISCHFEGGER, J. E. BUNTING, THOS. J. MULLIGAN, JAMES W. REDMOND, JOSEPH FALK, JOHN DIEMER, Committee on Finance.

Which was made a Special Order for 2.30 o'clock p. m.

Subsequently this report was laid over.

## Report of Committee on Laws and Legislation—

Nos. 1499, 1962, 2305, 2113, 2299.

The Committee on Laws and Legislation, to whom were referred the following enumerated ordinances and resolutions, having carefully examined the subjects embraced therein, deem they need no further consideration and therefore recommend that they be placed on file:

No. 1499 (By Alderman Jacobson)—Ordinance to amend section 56, article 1, chapter 4, part 2 of the Code of Ordinances of 1906. Page 126, Minutes of January 22, 1907.

FRANK D. STURGES, JOHN R. DAVIES, B. W. B. BROWN, WM. CLIFFORD, CLARENCE R. FREEMAN, JOHN D. GUNTHER, Committee on Laws and Legislation.

Which report was accepted.

## Report of Committee on Public Letting—

No. 2576—(G. O. No. 368).

The Committee on Public Letting, to whom was referred on November 19, 1907 (Minutes, page 601), the annexed resolution authorizing the President of the Borough of Manhattan to make repairs to the Municipal Courts, Borough of Manhattan, without public letting, respectfully

## REPORTS:

That Acting Superintendent Stewart appeared before the Committee and presented the annexed statement, showing the estimates of the work to be done to put the Municipal Court Houses in shape to carry out the provisions of the recent Municipal Court reorganization bill passed by the Legislature of 1907. It is proposed to have nine court houses, one for each of the new districts in the Borough, as provided by the act. The First District is to have three parts, the Second is to have five parts, and the other seven districts are to have two parts each. The Superintendent states that it is impossible to accurately estimate on the amount which will actually be required. The Committee believes this to be an urgent matter, by reason of the fact that the work must all be done so as to have the rooms ready for the 1st of January, and the Committee recommends the adoption of the resolution.

Whereas, It has been a time-honored custom to celebrate the joyous season of Christmas by appropriate exercises in the public schools of The City of New York; and

Whereas, Its celebration is non-sectarian and inoffensive to the Hebrew children attending said schools; and

New York City, September 20, 1907.

The Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Armory Board:

Sir—A meeting of the Committee on Armories was held at the office of the Secretary, September 20, 1907, at 1.30 o'clock p. m.

A report was received from the Jury of Award, Mr. William R. Mead and Mr. William A. Boring, of date September 12, 1907, on the competitive designs for the proposed new armory building for the Twenty-second Regiment Engineers, N. G., N. Y., at Fort Washington avenue, One Hundred and Sixty-eighth and One Hundred and Sixty-ninth streets, in the Borough of Manhattan, as follows:

"New York, September 12, 1907.

"HARRIE DAVIS, Esq., Secretary, the Armory Board, Hall of Records, New York City:

"Dear Sir—Acting under appointment from your Board as a Jury of Award on the competitive designs for the proposed new armory building for the Twenty-second Regiment Engineers, N. G., N. Y., at Fort Washington avenue, One Hundred and Sixty-eighth and One Hundred and Sixty-ninth streets, in the Borough of Manhattan, we beg to report that, after a full study of the conditions laid down in the programme, and a careful comparison of the designs submitted, we have, both on account of its general scheme and treatment in detail, selected the design designated by the letter 'E' as first in merit, and recommend its adoption by your Board.

"Very truly yours,  
(Signed) "WM. R. MEAD.  
(Signed) "WM. A. BORING."

At the request of your Committee, Colonel Hotchkin and Lieutenant-Colonel Lilliendahl of the Twenty-second Regiment Engineers, were present, and discussed with your Committee the designs submitted by the competing architects:

Messrs. Hoppin & Koen, Walker & Morris, Robinson & Knust, Pilcher & Tachau, Heins & LaFarge and Trowbridge & Livingston.

The officers expressed the opinion that the design for a building designated by the letter "E," and recommended by the Jury of Award, was unsuitable for the requirements of a regiment of engineers, and urged that the design designated by the letter "D" be adopted.

Your Committee, after consideration, agree with the opinion of those officers, and recommend that the Armory Board adopt said design marked "D."

Your Committee instructed the Secretary to notify Messrs. Walker & Morris (the authors of the design marked "E") and Messrs. Pilcher & Tachau (the authors of the design marked "D") to appear before the Armory Board at a meeting called for October 7, 1907.

The Secretary was also directed to inform Mr. Walter Cook, Advisory Architect to The City of New York; Messrs. Mead & Boring, the Jury of Award, and Colonel W. B. Hotchkin of your Committee's decision, and to invite their attendance at the meeting.

The Mayor objected to the report of the Committee on the ground that the Committee had not conferred with the Advisory Architect to the City and the Jury of Award.

The President of the Board of Aldermen offered the following:

Resolved, That the report be referred back to the Committee, and that the Secretary be instructed to invite Messrs. Mead & Boring (the Jury of Award), Messrs. Walker & Morris and Pilcher & Tachau (of the competing architects), and Colonel W. B. Hotchkin (commanding the Twenty-second Regiment Engineers) to be present when the matter is discussed before the Committee.

#### THE ARMORY BOARD.

New York City, October 11, 1907.

A meeting of the Armory Board was held this day at 2 o'clock p. m. at the office of the President of the Board of Aldermen.

Present—The President of the Board of Aldermen, Brigadier-General James McLeer, Brigadier-General George Moore Smith and the President of the Department of Taxes and Assessments.

The Secretary reported that the minutes of the meeting held October 7, 1907, have not as yet been printed in the City Record.

The Committee on Armories for Manhattan and The Bronx, to which was referred back the matter of the Jury of Award on the competitive plans for the proposed new armory for the Twenty-second Regiment Engineers, N. G., N. Y., reported as follows:

New York City, October 9, 1907.

The Hon. George B. McClellan, Mayor, Chairman of the Armory Board:

Sir—A meeting of the Committee on Armories, to whom was referred the matter of the report of the Jury of Award on the competitive designs for the proposed new armory for the Twenty-second Regiment Engineers, N. G., N. Y., was held in the Mayor's office this day at 2.15 o'clock p. m.

Replying to questions of your committee, Messrs. Mead & Boring reaffirmed their verdict in favor of plans of Messrs. Walker & Morris (known in the competition as Plans "E").

Mr. Walter E. Cook, the Advisory Architect of the City, agreed with that recommendation, and in a written opinion said:

"The drawings of Messrs. Walker & Morris seem to me to show distinctly more ability than those of Messrs. Pilcher & Tachau, notably so in their exterior, which is handsomer and less expensive.

"I think the design of Messrs. Walker & Morris can be modified so as to meet the regimental requirements as fully as does that of Pilcher & Tachau, without further expense to the City.

"I think the changes could be made without expense to the City which would so modify the plans that the building could be constructed within the appropriation."

Messrs. Mead & Boring said that, after a second examination of the plans submitted, they concur in the statements made by Mr. Cook.

The Chairman announced that, in view of this further information that had not been before the committee at the time of the previous report, he believed it to be the duty of the committee to sustain the report of the Jury of Award.

On motion of the President of the Department of Taxes and Assessments, your committee decided to rescind the report of September 20, 1907, recommending the plans of Messrs. Pilcher & Tachau (known as Plans "D" in the competition), and to report to the Armory Board concurring in the recommendation of the Jury of Award.

The President of the Board of Aldermen offered the following:

Y., situate at One Hundred and Sixty-eighth and One Hundred and Sixty-ninth streets and Fort Washington avenue, in the Borough of Manhattan; that the said Walker & Morris be appointed architects for the armory designed, provided that the bids or proposals for the work under their completed plans and specifications show that the armory can be constructed, including heating, ventilating, lighting, plumbing and architects' fees, within the appropriation—\$625,000—in accordance with the programme of competition; and that the Commissioners of the Sinking Fund be requested to concur in the same.

## BOARD OF ESTIMATE AND APPORTIONMENT.

(FINANCIAL MATTERS.)

MINUTES OF MEETING OF BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, HELD IN ROOM 16, CITY HALL, FRIDAY, NOVEMBER 8, 1907.

The Board met in pursuance of an adjournment.

Present—George B. McClellan, Mayor; Herman A. Metz, Comptroller; Patrick F. McGowan, President, Board of Aldermen; John F. Ahearn, President, Borough of Manhattan; Bird S. Coler, President, Borough of Brooklyn; Louis F. Haffen, President, Borough of The Bronx; Joseph Bermel, President, Borough of Queens; George Cromwell, President, Borough of Richmond.

The Mayor, Hon. George B. McClellan, presided.

After disposing of the public improvements calendar, the following financial matters were considered by unanimous consent:

The Secretary presented the following communication from the attorneys for the New Amsterdam Gas Company, the Consolidated Gas Company, the New York Mutual Gas Company and the Metropolitan Street Railway Company relative to claims of said companies for damages caused by the change of grades of certain streets in the Borough of Manhattan, adjoining the terminal of Manhattan approach to the new East river bridge, etc., together with copy of chapter 601, Laws of 1907, and communication from Deputy Comptroller transmitting copy of report of Bureau of Law and Adjustment, Department of Finance, recommending the payment of the claims pursuant to the provisions of said act, as follows:

Consolidated Gas Company of New York.....	\$225 23
New Amsterdam Gas Company.....	108 04
New York Mutual Gas Light Company.....	223 78
Metropolitan Street Railway Company.....	397 91

On November 1, 1907, the resolution authorizing the payment of these claims and the issue of \$954.96 Special Revenue Bonds to provide means for the payment thereof, received but fifteen votes, and was, therefore, not adopted, the provisions of chapter 601, Laws of 1907, requiring the unanimous vote of the Board; the matter was thereupon laid over for this meeting.

PHILBIN, BECKMAN & MENKEN,  
NOS. 52 AND 54 WILLIAM STREET,  
NEW YORK, August 14, 1907.

To the President of the Board of Estimate and Apportionment of The City of New York, No. 277 Broadway, New York City:

SIR—On the 6th day of June, 1906, as attorneys for claimants, we presented to your Honorable Board the following claims, to wit:

New Amsterdam Gas Company.....	\$500 65
Consolidated Gas Company.....	1,043 69
New York Mutual Gas Company.....	1,082 04
Metropolitan Street Railway Company.....	1,843 93
Total .....	\$4,470 31

Owing to an error, the nature of which is hereinafter more fully explained, your Honorable Board was at that time limited in its allowance and payment of the claims to the sum of \$3,470.31. For the purpose of presenting the claim for the balance, amounting to \$1,000, we again beg leave to bring the matter to your attention. In our letter of June 6, 1906, we set forth the circumstances under which these claims arose, and for your convenience we here repeat the facts in connection therewith.

On November 7, 1900, the Pennsylvania Steel Company entered into a contract with the Commissioners for what was then known as the new East River Bridge. This contract embraced the entire work of construction. The Steel Company sublet to the United Engineering and Contracting Company all the work except the furnishing and putting in place of the steel work, that is to say, for the construction of the approaches, filling in and grading the streets and other work.

The contract between the Steel Company and the City was afterwards modified by an agreement which provided for the lowering in Delancey, Ridge and Attorney streets of the grades of these streets, pursuant to a resolution of the Board of Aldermen, passed November 9, 1900, approving the resolution of the Board of Estimate and Apportionment, passed April 18, 1902, and approved by the Mayor, September 15, 1902.

Besides the water pipes in these streets, there were the gas pipes of the Consolidated Gas Company, New Amsterdam Gas Company and the New York Mutual Gas Light Company, and the tracks of the Metropolitan Street Railway Company. To these companies Mr. O. F. Nichols, who was at that time the Engineer in charge of the Department of Bridges, wrote as follows:

"September 12, 1902.

"Consolidated Gas Company of New York, No. 4 Irving Place, New York City:

"GENTLEMEN—The Board of Aldermen has just approved the change of grade in Delancey street, between Clinton and Ridge streets, and in Ridge and Attorney streets, on both sides of Delancey. This will necessitate a change in the grade of your gas mains, and I shall be glad to show you the plans for the regrading in question; and will thank you to take the matter up in connection with the work to be done by your contractors in this regrading, which will be prosecuted vigorously within the next 30 to 60 days.

"Respectfully yours,

"O. F. NICHOLS, Engineer in Charge.

"Copies to New Amsterdam Gas Company. Dated September 16, 1902. Copies to Mutual Gas Company. Dated September 16, 1902."

"BROOKLYN, September 19, 1902.

"E. G. STARRETT, Esq., Chief Engineer, Metropolitan Street Railway Company, Cable Building, Broadway, New York City:

"DEAR SIR—I believe you have a street railway track through Ridge street, north and south of Delancey. We are about to depress the grade of Ridge street something like two feet and it will be necessary to lower your tracks. I have asked the president of the Contract Company, Captain Hough, to call on you with reference to this in order that the work may be done as nearly as possible to the mutual convenience of yourselves and the contractors.

"Very truly yours,

"O. F. NICHOLS, Engineer in Charge."

When this change of grade was brought to the notice of the president of the United Engineering and Contracting Company, the said subcontractor, Mr. Hough, he wrote to the representatives of these companies suggesting that they lower their pipes and tracks to conform with the new grade, and thus avoid the greater expense and interference with their franchise rights, which would result, on the City or its contractors doing so. This was done and the work was performed by the Public Utilities Companies themselves, and it consisted of lowering the tracks and pipes and furnishing some new material in place of that which had been unnecessarily damaged in removing it. This work was done at actual cost, and no profit was charged by the gas companies; in fact, their work was done far more cheaply than could possibly have been done by the City, on account of their greater facilities for performing it. Upon the suggestion of Mr. Hough, the Public Utilities Companies rendered bills for this work, and Mr. Nichols then directed Mr. Hough to transmit them to the Bridge Commissioners. This was considered to be the proper method of procedure and was followed in the construction of the Manhattan anchorage of the bridge in 1902, and the claims allowed.

Shortly after this Mr. Nichols left the department and his successor, Mr. Holton D. Robinson, returned the bills with the recommendation that they be sent to the Comptroller. This was done, and the Department of Law and Adjustment of the Comptroller's office made an investigation as to the reasonableness of the charges of the bills, and reported to the Corporation Counsel that the bills were reasonable and asked for a ruling on the liability of the City.

The Corporation Counsel returned an opinion that there could be no legal liability of the City, except upon the contract with the Steel Company, which had been released some time previous to this.

The claims, however, are not based upon the contracts awarded by the City, and, therefore, there is no difference between the claimants and the Corporation Counsel on that point.

It is claimed that the City has unlawfully interfered with the franchise rights of the claimants, and has, therefore, been guilty of a trespass or a breach of contract, the franchises being contracts.

The Corporation Counsel said, as to these theories, that while there might possibly be a cause of action upon such grounds, the fact that the City had not committed any physical act of trespass, created such a doubt as to the legal rights of the claimants as to make him unwilling to advise the payment of the amounts claimed. Had the companies allowed the City to tear up their plants, they would certainly have had not only a good claim at law, but would have been able to collect much larger damages because of inexpert hands doing the work of removal and restoration.

By virtue of chapter 599 of the Laws of 1906, which contains the following provision:

"The Board of Estimate and Apportionment of The City of New York is hereby authorized and empowered (any existing statute to the contrary notwithstanding) in its discretion to examine certain claims aggregating \$3,470.31, for reimbursement and compensation for expenditures for labor and materials, made because of damages alleged to have been suffered by reason of changes made in the grades of certain streets in the Borough of Manhattan, City of New York."

—your Honorable Board adopted a resolution auditing and allowing the claims herein referred to, in the following sums:

Consolidated Gas Company of New York.....	\$818 46
New York Mutual Gas Light Company.....	813 22
New Amsterdam Gas Company.....	392 61
Metropolitan Street Railway Company.....	1,446 02
Total.....	\$3,470 31

Through an error in the printing of the bill, which later became chapter 599 of the Laws of 1906, the total amount of the claims set forth in said act was stated as \$3,470.31, and your Honorable Board apportioned that amount among the claimants in the sums above set forth.

The balance of \$1,000 due the claimants is apportioned as follows:

New Amsterdam Gas Company.....	\$108 04
Consolidated Gas Company of New York.....	225 23

New York Mutual Gas Light Company.....	268 82
Metropolitan Street Railway Company.....	397 91
	<u>\$1,000 00</u>

During the last year the Legislature has passed an act which has been signed by the Governor, amending title 5 of chapter 6 of the Greater New York Charter, by inserting a new section, to be known as 246, which in part provides as follows:

"Section 246. Claims against the city—The board of estimate and apportionment may, in its discretion, inquire into, hear and determine any claim against the city of New York which has been certified to said board in writing by the comptroller as an illegal or invalid claim against the city, but which, notwithstanding, in his judgment, it is equitable and proper for the city to pay in whole or in part, and if upon such inquiry the board by an unanimous vote determines that the city has received a benefit and is justly and equitably obligated to pay such claim and that the interests of the city will be best subserved by the payment or compromise thereof, it may authorize the comptroller to pay the claim and the comptroller shall thereupon pay the claim in such amount as the board of estimate and apportionment shall so determine to be just, in full satisfaction of such claims, provided that the claimant shall fully release the city, upon any such payment, in such form as shall be approved by the corporation counsel."

We believe that the claims here presented, being the balance of claims, already allowed, come within the intent and purview of the act above quoted, and we respectfully urge upon your Honorable Board the allowance of the same upon the authority of that act.

We should be glad to furnish you with any further information required, and shall appreciate an opportunity to be heard if your Honorable Board so pleases.

Respectfully yours,

PHILBIN, BEEKMAN & MENKEN,  
Attorneys for Claimants.

CHAPTER 601.

An act to amend the Greater New York charter, in relation to the powers of the board of estimate and apportionment.

Became a law, July 17, 1907, with the approval of the Governor. Passed, three-fifths being present.

Accepted by the City.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Title five of chapter six of the Greater New York charter, as reenacted by chapter four hundred and sixty-six of the laws of nineteen hundred and one, is hereby amended by inserting therein a new section to be known as section two hundred and forty-six, to read as follows:

Section 246. Claims against the city—The board of estimate and apportionment may, in its discretion, inquire into, hear and determine any claim against the city of New York which has been certified to said board in writing by the comptroller as an illegal or invalid claim against the city, but which, notwithstanding, in his judgment it is equitable and proper for the city to pay in whole or in part, and if upon such inquiry the board by an unanimous vote determines that the city has received a benefit and is justly and equitably obligated to pay such claim and that the interests of the city will be best subserved by the payment or compromise thereof, it may authorize the comptroller to pay the claim and the comptroller shall thereupon pay the claim in such amount as the board of estimate and apportionment shall so determine to be just, in full satisfaction of such claim, provided that the claimant shall fully release the city, upon any such payment, in such form as shall be approved by the corporation counsel. The provisions of this section shall not authorize the audit or payment of any claim barred by the statute of limitations, nor any claim for services performed under an appointment in violation of any provision of the civil service law. For the purpose of carrying out the provisions of this section, it shall be the duty of the comptroller of the city of New York on being thereunto authorized by the said board of estimate and apportionment, to issue and sell corporate stock or revenue bonds of the city of New York in such amounts as may be necessary, and at such a rate of interest as may be fixed by said comptroller. No consent or approval of any board or public body other than the said board of estimate and apportionment shall be necessary to authorize the comptroller to issue such stock or revenue bonds for the purposes of this section.

Section 2. This act shall take effect immediately.

State of New York, Office of the Secretary of State, ss.:

I have compared the preceding with the original law on file in this office, and do hereby certify that the same is a correct transcript therefrom, and the whole of said original law.

Given under my hand and the seal of office of the Secretary of State, at the City of Albany, this 20th day of August, in the year one thousand nine hundred and seven.

[SEAL.]

JAMES L. WHALEN, Deputy Secretary of State.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
October 25, 1907.

To the Board of Estimate and Apportionment:

GENTLEMEN—Under and pursuant to the provisions of chapter 601 of the Laws of 1907 of the State of New York, entitled "An act to amend the Greater New York Charter in relation to the powers of the Board of Estimate and Apportionment," I hereby certify that the following claims have been presented for damages alleged to have been suffered by reason of removals, maintenance and replacements of the properties of the respective companies required by changes made in the grades of certain streets in the Borough of Manhattan, adjoining the terminal of the Manhattan approach to the new East River Bridge, namely:

By the Consolidated Gas Company of New York, for.....	\$225 23
By the New Amsterdam Gas Company, for.....	108 04
By the New York Mutual Gas Light Company, for.....	268 82
By the Metropolitan Street Railway Company, for.....	397 91
	<u>\$1,000 00</u>

—that the same are illegal or invalid as against The City of New York by reason of technical objections thereto; that, in my judgment, it is equitable and proper for the City to pay a part thereof, inasmuch as the City has received value for such part, and that the amounts of such claims as should be paid are as follows, namely:

To the Consolidated Gas Company of New York.....	\$225 23
To the New Amsterdam Gas Company.....	108 04
To the New York Mutual Gas Light Company.....	223 78
To the Metropolitan Street Railway Company.....	397 91
	<u>\$954 96</u>

Respectfully,

N. TAYLOR PHILLIPS, Acting Comptroller.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
October 25, 1907.

In the Matter  
of

The application made to the Board of Estimate and Apportionment by the Consolidated Gas Company and three other companies for the payment of a balance of \$1,000, alleged to be due them by reason of changes of grades in the approach to the new East River Bridge.

Hon. HERMAN A. METZ, Comptroller:

SIR—In a communication dated the 14th of August, 1907, addressed to the Board of Estimate and Apportionment by Philbin, Beekman and Menken, it is stated that,

as attorneys for claimants, they presented to the said Board on the 6th of June, 1906, the following claims:

Consolidated Gas Company of New York.....	\$1,043 69
New York Mutual Gas Company.....	1,082 04
New Amsterdam Gas Company.....	500 65
Metropolitan Street Railway Company.....	1,843 93
	<u>\$4,470 31</u>

—that by chapter 599 of the Laws of 1906 the Board of Estimate and Apportionment was authorized "in its discretion to examine certain claims aggregating \$3,470.31 for reimbursement and compensation for expenditures for labor and materials, made because of damages alleged to have been suffered by reason of changes made in the grades of certain streets in the Borough of Manhattan, City of New York"; that through an error in the printing of the bill the total amount set forth in the act was stated as \$3,470.31, and the Board of Estimate and Apportionment apportioned that amount among the claimants, as follows:

Consolidated Gas Company of New York.....	\$818 46
New York Mutual Gas Light Company.....	813 22
New Amsterdam Gas Company.....	392 61
Metropolitan Street Railway Company.....	1,446 02
	<u>\$3,470 31</u>

Total..... \$3,470 31

—and that there is therefore a balance of \$1,000 due, which should be apportioned among the different claimants, as follows:

Consolidated Gas Company of New York.....	\$225 23
New York Mutual Gas Light Company.....	268 82
New Amsterdam Gas Company.....	108 04
Metropolitan Street Railway Company.....	397 91
	<u>\$1,000 00</u>

The Board of Estimate and Apportionment is therefore requested to adjust the claims for such balance under the authority of chapter 601 of the Laws of 1907.

Heretofore the following claims were presented by the United Engineering and Contracting Company on behalf of four claimants, as follows:

No. 26155 of the Consolidated Gas Company of New York, for.....	\$1,043 69
No. 26156 of the New York Mutual Gas Light Company, for.....	1,082 04
No. 26157 of the New Amsterdam Gas Company, for.....	500 65
No. 26158 of the Metropolitan Street Railway Company, for.....	1,843 93
	<u>\$4,470 31</u>

These various amounts were alleged to be due for removals, replacement and maintenance of the property of the claimants in the streets adjoining the masonry terminal of the Manhattan approach to the new East River Bridge.

Upon an investigation made by the Division of Law and Adjustment of this Department into the merits of these claims it was ascertained that the various claimants had made the following expenditures for the purposes mentioned, namely:

Consolidated Gas Company of New York.....	\$1,043 69
New York Mutual Gas Light Company.....	1,037 00
New Amsterdam Gas Company.....	500 65
Metropolitan Street Railway Company.....	1,843 93
	<u>\$4,425 27</u>

The matter having been submitted to the Corporation Counsel with a request for his opinion concerning the legal liability of the City in the premises, the claims were disallowed in conformity with an opinion expressed by him in a communication dated the 15th of October, 1905.

Thereafter, under date of the 6th of June, 1906, a communication was addressed to the Board of Estimate and Apportionment by Philbin, Beekman & Menken, as attorneys for the said claimants requesting action by the said Board under chapter 599 of the Laws of 1906. Under date of the 17th of August, 1906, a report upon such application was made by the Bureau of Law and Adjustment in which it was recommended that the advice of the Corporation Counsel be sought, (1) as to the constitutionality of the said act; (2) as to whether or not the fact, that the rights acquired by these claimants to lay tracks and pipes were subject to the paramount right of the municipality to alter and improve the streets for legitimate street uses, deprived them of the right to equitable relief in the premises; (3) as to whether or not adjustment was limited to the sum of \$3,470.31 (described in the said act as the aggregate of said claims), and (4), in case the adjustment was so restricted, as to what method should be adopted in apportioning the said amount among the said claimants if it should be determined that the total expenditures equaled \$4,425.27. In reply to a request for such opinion, a communication dated the 28th of August, 1906, was received by the Comptroller from Theodore Connolly, Acting Corporation Counsel, in which it was stated that "while I am of opinion that the franchises or rights acquired by these claimants to lay tracks and pipes in the public streets were subject to the paramount right of the municipality to use the streets for all legitimate street purposes, nevertheless, I do not believe that the claimants must necessarily, in view of the enactment of chapter 599 of the Laws of 1906, be deprived of all relief"; that "I think, therefore, that in so far as chapter 599 of the Laws of 1906 authorizes the Board of Estimate and Apportionment to hear and determine the claims now before me, and directs payment by the Comptroller, it is not unconstitutional"; that "it will be observed, however, that the act is not mandatory but merely permissive and that the Board of Estimate and Apportionment may exercise its discretion whether it shall direct payment of these claims or any part thereof, or shall withhold the same"; that "it is very clear, in my opinion, that if any adjustment shall be made it must be restricted to the sum of \$3,470.31, the sum named in the act"; that "since the aggregate claims amount to \$4,425.27, and the act authorizes an expenditure of only \$3,470.31, the Board of Estimate and Apportionment has no right to adjust the claim at any sum in excess of the latter amount," and that "in making the adjustment, should it be deemed proper, the Board of Estimate and Apportionment can award to each claimant such sum as it may deem advisable, the total not to exceed \$3,470.31." After consideration of the case the Board of Estimate and Apportionment, on the 14th of September, 1906, adopted a resolution "That, pursuant to the provisions of chapter 599 of the Laws of 1906, the Board of Estimate and Apportionment hereby audits and allows, as proper charges against The City of New York, the claims (without interest) of the following companies, for removals, maintenance and replacements of the properties of the respective companies in the streets adjoining the masonry terminal of the Manhattan approach of the New East River Bridge, as follows:

"Consolidated Gas Company of New York.....	\$818 46
"New York Mutual Gas Light Company.....	813 22
"New Amsterdam Gas Company.....	392 61
"Metropolitan Street Railway Company.....	1,446 02
	<u>\$3,470 31"</u>

In accordance with such resolution, the said several amounts have been paid to the claimant companies.

The following statement shows the amounts claimed, the amounts found to have been expended by the various companies, the amounts paid under the resolution of

the Board of Estimate and Apportionment and the amounts of such expenditures which still remain unpaid, namely:

Claimants.	Amounts Claimed.	Amounts Expended.	Amounts Paid.	Balance of Expenditures Unpaid.
Consolidated Gas Company of New York..	\$1,043 69	\$1,043 69	\$818 46	\$225 23
New Amsterdam Gas Company.....	500 65	500 65	392 61	108 04
New York Mutual Gas Light Company...	1,082 04	1,037 00	813 22	223 78
Metropolitan Street Railway Company....	1,843 93	1,843 93	1,446 02	397 91
Total.....	\$4,470 31	\$4,425 27	\$3,470 31	\$954 96

It would appear from the foregoing that the said several claimant companies are equitably entitled to be paid the difference between the amounts ascertained to have been expended and the amounts allowed by the said resolution of the Board of Estimate and Apportionment, namely: To the Consolidated Gas Company of New York the sum of \$225.23; to the New Amsterdam Gas Company the sum of \$108.04; to the New York Mutual Gas Light Company the sum of \$223.78 and to the Metropolitan Street Railway Company the sum of \$397.91.

It is, therefore, respectfully recommended that the Comptroller issue, in favor of the said companies in the said several amounts, the certificate required by chapter 601 of the Laws of 1907 as a requisite for the consideration by the Board of Estimate and Apportionment of the said claims.

Respectfully,

JOS. L. HANCE, Auditor of Accounts.

Approved:

J. T. MAHONEY, Chief, Bureau of Law and Adjustment.

Approved:

N. TAYLOR PHILLIPS, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That, pursuant to the provisions of chapter 601 of the Laws of 1907 the Board of Estimate and Apportionment hereby determines that the City has received a benefit and is justly and equitably obligated to pay the following claims, without interest, for damages suffered by reason of removals, maintenance and replacements of the properties of the respective companies, required by changes made in the grades of certain streets in the Borough of Manhattan, adjoining the terminal of the Manhattan approach to the New East River Bridge, namely:

Consolidated Gas Company of New York.....	\$225 23
New Amsterdam Gas Company.....	108 04
New York Mutual Gas Light Company.....	223 78
Metropolitan Street Railway Company.....	397 91
Total.....	\$954 96

—that said amounts when paid shall be in full satisfaction of the claims which have been presented on behalf of the said companies, and shall only be paid upon the execution by the said companies of full releases in favor of the City in such form as shall be approved by the Corporation Counsel, and that for the purpose of providing means therefor, the Comptroller be and is hereby authorized, pursuant to said chapter 601 of the Laws of 1907, to issue Special Revenue Bonds of The City of New York, to the amount of nine hundred and fifty-four dollars and ninety-six cents (\$954.96), at such a rate of interest as may be fixed by the Comptroller, and redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented the following communication from the Board of Health requesting an appropriation of \$130,000 to meet deficiencies in various salary accounts of the Department of Health, together with report thereon, recommending the issue of \$61,446.08 Revenue Bonds to provide for deficiencies in the Salaries Accounts of the Offices of Assistant Chief Clerks, Division of Inspections, Division of Contagious Diseases, Registrar and Bureau of Records, Willard Parker Hospital, Riverside Hospital and Kingston Avenue Hospital (this matter having been referred to the Comptroller on October 4, 1907).

DEPARTMENT OF HEALTH,  
CORNER FIFTY-FIFTH STREET AND SIXTH AVENUE,  
NEW YORK, September 23, 1907.

Hon. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment, City of New York:

SIR—At a meeting of the Board of Health of the Department of Health, held September 18, 1907, the following resolution was adopted:

Resolved, That the Board of Health, pursuant to the authority conferred by the provisions of chapter 535 of the Laws of 1893, hereby certifies to the Board of Estimate and Apportionment that the sum of \$130,000 should be appropriated for the year 1907, without delay, for the purpose of defraying the necessary expenses required to be incurred by the Board of Health for the preservation of the public health, as follows:

Registrar and Bureau of Records.....	3,500 00
Bacteriological Laboratory.....	56,000 00
Willard Parker Hospital.....	3,400 00
Riverside Hospital.....	11,500 00
Kingston Avenue Hospital.....	7,100 00
Total.....	\$130,000 00

DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
November 6, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—In regard to a communication presented to the Board of Estimate and Apportionment by the Secretary of the Board of Health on October 4, 1907, transmitting copy of resolution of said board certifying that \$130,000 would be required for year 1907 to meet the salaries of the Division of Inspections and other divisions of the Department of Health, which matter was referred to the Comptroller by the Board of Estimate and Apportionment, and by you referred to the Bureau of Municipal Investigation and Statistics for examination, I beg to make the following report:

On January 1, 1907, there was available from the Budget allowance for 1907 the sum of \$1,847,819.66 to pay necessary salary and other expenses of the Department of Health for the year. On February 6, 1907, the Board of Health adopted preamble and resolution, certifying to the Board of Estimate and Apportionment that \$351,000 additional should be appropriated for the year 1907 for various purposes, of which it was estimated that \$316,000 would be required to cover deficiencies in the Budget appropriations.

The application also included a request for \$25,000 to be used in the destruction of mosquito-breeding places throughout the City. On April 25, 1907, the Board of Estimate and Apportionment authorized the issue of Revenue Bonds in the sum of \$25,000 for the purpose of draining and filling in marsh lands, to be expended during 1907 and 1908.

As the Board of Health requested the \$351,000 within forty days after the whole year's allowance in the Budget had become available, no further action was taken on the application until June 7, 1907, when the request was partially met by the Board of Estimate and Apportionment in the authorization of the issue of Revenue Bonds for the following purposes:

New scarlet fever pavilion at Willard Parker Hospital—Salaries.....	\$30,000 00
New scarlet fever pavilion at Willard Parker Hospital—Supplies.....	35,000 00
Tuberculosis Clinics—Supplies.....	7,500 00
Tuberculosis Sanatorium, Otisville—Supplies.....	35,000 00
Total.....	\$107,500 00

On a supplemental application from the Department of Health, the Board of Estimate and Apportionment, on June 21, 1907, authorized the following issues of Revenue Bonds:

Hospital Fund—Supplies.....	40,000 00
Supplies and Contingencies.....	50,000 00
Total.....	\$90,000 00

Again, on September 20, 1907, the Department of Health was allowed \$63,000 to meet deficiencies in salaries for 1907 in the Bacteriological Laboratory, or a total for salaries and supplies allowed in Revenue Bonds up to September 20, 1907, of \$285,500. There was also authorized an issue of \$62,500 in Revenue Bonds for payment of expenses incidental to the strike of employees in the Street Cleaning Department which had no bearing upon regular budget expense and could not have been provided for in advance.

The application for \$130,000, made on October 4, 1907, by the Board of Health, pursuant to a resolution adopted by said board on September 18, included \$56,000 requested for salaries for the Bacteriological Laboratory. This item will be eliminated from consideration in this report for the reason that the Board of Estimate and Apportionment, on September 20, authorized the issue of \$63,000 in Revenue Bonds for the Bacteriological Laboratory, the increase of \$7,000 being accounted for by the fact that that sum had been temporarily taken from the Antitoxin Fund to meet the August payroll.

The books of the Department of Health, on September 1, showed the following as the estimated deficits in the several salary funds named on December 31, 1907:

Office of Assistant Chief Clerks.....	\$3,232 81
Division of Inspections.....	27,785 90
Division of Contagious Diseases.....	16,795 34
Registrar and Bureau of Records.....	3,107 33
Willard Parker Hospital.....	3,357 43
Riverside Hospital.....	11,144 22
Kingston Avenue Hospital.....	7,023 05
Total.....	\$72,446 08

In other funds there was an apparent surplus for the year 1907, as follows:

Board of Health and Executive Officers.....	\$683 04
Sanitary Superintendent.....	2,095 09
Assistant Sanitary Superintendents.....	9,365 16
School Medical Inspectors and Nurses.....	25,162 90
Chemical Laboratory.....	1,661 00
Scarlet Fever Pavilion at Willard Parker Hospital.....	1,978 21
Trachoma Hospital.....	76 52
Total.....	\$41,021 92

The surplus of \$25,162.90 in the School Medical Inspection Fund, on September 1, will have largely disappeared on December 31, owing to the appointment of thirty-three additional medical inspectors by the Board of Health during the month of September.

The surplus of \$9,365.16 in the funds of Assistant Sanitary Superintendents is accounted for in the creation of new divisions of inspections in Queens and Richmond Boroughs, to which a number of inspectors were transferred from the offices of the Assistant Sanitary Superintendents. As a result of those transfers the deficit in the Division of Inspections will be correspondingly increased, reaching \$27,785.90 on December 31, as above estimated.

The above total surplus of \$41,021.92 was of date September 1, 1907. Examination on November 7 disclosed that the total probable surplus on December 31, 1907, was \$11,000, and in the following funds:

Assistant Sanitary Superintendents.....	\$9,000 00
Sanitary Superintendent.....	1,000 00
Chemical Laboratory.....	1,000 00
Total.....	\$11,000 00

In the attached resolution an allowance of \$16,785.90 is made for the Division of Inspections. For convenience the \$11,000 balance in the above three funds is deducted from the Division of Inspections allowance. The Department of Health may request the transfer of the balance of \$11,000 from the above three funds to the fund of the Division of Inspections.

I recommend that provision be made by the Board of Estimate and Apportionment to meet the estimated deficits for the year 1907 in the salary accounts of the seven divisions of the Department of Health mentioned, and that the accompanying resolution be adopted.

Respectfully,

CHARLES S. HERVEY,  
Supervising Statistician and Examiner.

H. A. METZ, Comptroller.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the communication dated November 4, 1907, addressed to the Board of Estimate and Apportionment by Hon. Frank J. Goodwin, Deputy and Acting Commissioner of Water Supply, Gas and Electricity, requesting transfers—From the appropriation Maintenance Croton Water System, Repairs and

Supplies, 1907 .....	\$5,000 00
—and from Maintenance Croton Water System, Taxes, 1907.....	7,500 00
	<u>\$12,500 00</u>

—to the appropriation Repairing and Renewal of Pipes, Stopcocks, etc.,	
Salaries and Wages, 1907.....	<u>\$12,500 00</u>

—which communication was on November 4, 1907, referred to the Comptroller for examination and report, and by you assigned to the Bureau of Municipal Investigation and Statistics for consideration, I beg to submit the following report:

The departmental estimate for Repairing and Renewal of Pipes, Stopcocks, etc., for 1907, was.....	\$385,792 50
The Budget allowance was.....	<u>280,000 00</u>

Budget allowance below departmental estimate.....	<u>\$105,792 50</u>
---	---------------------

The disbursements chargeable to this appropriation account in former years were as follows:

1904 .....	\$202,625 53
1905 .....	248,247 00
1906 .....	<u>280,482 22</u>

The appropriation for this account for 1907 is exhausted. In addition to the transfers requested as above, an application is pending for an issue of Special Revenue Bonds to the amount of \$44,842.23 with which to replenish the Budget appropriation for 1907. The weekly payroll on October 9, 1907, was \$7,163.97, a rate which if maintained during the remaining twelve weeks of the year would necessitate an expenditure of \$85,967.64, to meet which there was then a balance of only \$13,619.27.

It might be well to consider the present status of the appropriation accounts from which it is proposed to make the contemplated transfers, viz.:

Maintenance Croton Water System, Repairs and Supplies.		
Budget Appropriation for 1907.....	\$135,000 00	
Disbursements to October 29, 1907.....	\$48,330 92	
Outstanding liabilities, about.....	75,000 00	
	<u>123,330 92</u>	
Balance.....	\$11,669 08	
Contemplated transfer .....	5,000 00	
Balance after making the transfer.....	<u>\$6,669 08</u>	

Maintenance Croton Water System, Taxes, 1907.		
Budget Appropriation for 1907.....	\$56,554 50	
Disbursements to October 29, 1907.....	\$12,466 30	
Outstanding liabilities, about.....	30,000 00	
	<u>42,466 30</u>	
Balance .....	\$14,088 20	
Contemplated transfer .....	7,500 00	
Balance after making the transfer.....	<u>\$6,588 20</u>	

The fact that the appropriation of \$280,000 was exhausted before the expiration of the first ten months of this year—an amount that seems to have been ample for the year 1906—implies that during the current year no attempt was made to live within the appropriation. It is conceded that the transfers which are now requested are only temporary makeshifts with which to meet present requirements pending the issue of Special Revenue Bonds to the amount of \$44,842.23, for which an application has been made.

To provide for a condition which exists and which must be met, and without discussing at this time the causes from which this condition arises—causes which will be considered by your Examiner when he reports on the application for Special Revenue Bonds—it is recommended that the requested transfers be allowed.

Yours respectfully,

CHARLES S. HERVEY,  
Supervising Statistician and Examiner.

The Comptroller presented the following communication from the Public Service Commission, First District, requesting an appropriation of \$600,000 for extra work under the contract of John B. NEW YORK, October 21, 1907.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment, No. 277 Broadway, New York City:

DEAR SIR—The Public Service Commission for the First District, at the session this morning adopted a resolution as follows:

Resolved, That the Public Service Commission for the First District, make application to the Board of Estimate and Apportionment of The City of New York for the authorization of bonds of The City of New York sufficient to meet the requirements of extra work under the contract with John B. McDonald for the construction of the Manhattan-Bronx Rapid Transit Railroad to the amount of six hundred thousand dollars (\$600,000), and that the Chairman and Secretary be authorized to execute and transmit, under the seal of the Commission, a communication including such requisition herewith presented.

In accordance with such resolution, I have the honor to transmit herewith a communication from the Public Service Commission for the First District, under its seal and signed by its Chairman and Secretary, making requisition for six hundred thousand dollars (\$600,000).

Very truly yours,

TRAVIS H. WHITNEY, Secretary.

STATE OF NEW YORK,  
PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT,  
TRIBUNE BUILDING, NO. 154 NASSAU STREET,  
NEW YORK, October 21, 1907.

To the Board of Estimate and Apportionment, New York City:

SIRS—The Board of Rapid Transit Railroad Commissioners, at various times prior to its going out of office on July 1, 1907, under the provisions of chapter 429 of the Laws of 1907, made requisitions upon the Board of Estimate and Apportionment, to meet the requirements for extra work under the contract with John B. McDonald for the construction of the Manhattan-Bronx Rapid Transit Railway, to the amount of \$4,515,000.

It seems that extra work for construction of outlet chambers, fan houses and vault-light openings, with the necessary appliances for ventilation of the Subway, was authorized by the Board of Rapid Transit Railroad Commissioners, and has been in large part completed by the contractor, and that in order to pay the expense of this extra

work, in addition to other extra work authorized under the contract a further sum of \$600,000 will be necessary.

In pursuance, therefore, of section 37 of chapter 4 of the Laws of 1901, as amended, known as the Rapid Transit Act, and of chapter 429 of the Laws of 1907, the Public Service Commission for the First District, as the successor of the Board of Rapid Transit Railroad Commissioners, hereby makes requisition upon the Board of Estimate and Apportionment of The City of New York for the authorization of bonds of The City of New York sufficient to meet the requirements of extra work under the contract with John B. McDonald for the construction of the Manhattan-Bronx Rapid Transit Railroad to the amount of six hundred thousand dollars (\$600,000).

In witness whereof, the said Public Service Commission for the First District has caused this requisition to be subscribed by its Chairman and Secretary, and its seal to be hereto affixed this 21st day of October, 1907.

[SEAL.]

TRAVIS H. WHITNEY, Secretary.

W. R. WILLCOX, Chairman.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
November 6, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—At a meeting held October 21, 1907, the Public Service Commission for the First District, adopted the following resolution:

Resolved, That the Public Service Commission for the First District, make application to the Board of Estimate and Apportionment of The City of New York for the authorization of bonds of The City of New York sufficient to meet the requirements of extra work under the contract with John B. McDonald for the construction of the Manhattan-Bronx Rapid Transit Railroad to the amount of six hundred thousand dollars (\$600,000), and that the Chairman and Secretary be authorized to execute and transmit, under the seal of the Commission, a communication including such requisition herewith presented.

In the attached communication to the Board of Estimate and Apportionment, signed by the Chairman and Secretary of the Public Service Commission for the First District, it is stated that \$600,000 is necessary to pay the expense of the extra work for the construction of outlet chambers, fan houses and vault light openings with the necessary appliances for ventilation of the subway.

I would report that although \$4,515,000 has been authorized by the Board of Estimate and Apportionment for extra work under the contract of John B. McDonald for the construction of the Manhattan-Bronx Rapid Transit Railway, in making the requisition for this total sum, the Board of Rapid Transit Railroad Commissioners did not contemplate any expenditures for ventilation work: \$313,599.96 has already been paid by the City to the contractor on account of ventilation work, the money being paid out of funds designated for other extra work.

This requisition, \$600,000, is designated to provide \$313,599.96 to take the place of the amount already paid out as above, and to complete the payments for work on account of ventilation.

The ventilation work consists of fourteen ventilation chambers, built into the subway, and situated as follows:

City Hall Park, Duane street, Franklin street, Grand street, Prince street, Fourth street, Eleventh street, Union Square Park, Twentieth street, Twenty-fifth street, Thirty-first street, Bryant Park, Long Acre square, Fifty-fifth street; also approximately 18,004 square feet of area grating at the different stations from Wall street to One Hundred and Fifty-first street built mostly in the vault lights, but at One Hundred and Forty-fifth and One Hundred and Fifty-seventh streets in a chamber at top of the subway, and in addition about 2,577 square feet of copper pans at eight stations.

It is held that the City should pay for the above work, estimated to cost about \$600,000, as it is found a permanent part of the subway, and should, therefore, be chargeable to the cost of construction.

In addition, the contractor provided at his own expense, twenty-five (25) fans varying from five to seven feet in diameter, and 6,119 square feet of louvers, this being classified as equipment. Nearly all of the ventilation work has been completed.

The improvement being a valuable one, I think the Board of Estimate and Apportionment may properly authorize the issue of Corporate Stock to the amount of \$600,000, to meet the requirements of extra work in providing means for more thorough ventilation under the contract with John B. McDonald for the construction of the Manhattan-Bronx Rapid Transit Railroad.

Respectfully,

CHANDLER WITHINGTON, Chief Engineer.

Approved:

H. A. METZ, Comptroller.

The following resolutions were offered:

Resolved, That, pursuant to the provisions of section 37 of the Rapid Transit Act (chapter 4 of the Laws of 1891) as amended, and the requisition of the Public Service Commission for the First District, duly made by the Chairman and Secretary of said Commission on October 21, 1907, the Comptroller be and is hereby authorized and directed to issue Corporate Stock of The City of New York to the amount of six hundred thousand dollars (\$600,000), to provide means to pay for the expense of extra work for the construction of outlet chambers, fan houses and vault light openings, with the necessary appliances for ventilation of the subway, under the contract with John B. McDonald for the construction of the Manhattan-Bronx Rapid Transit Railway; and be it further

Resolved, That the amount of Corporate Stock hereby authorized to be issued, shall not exceed the aforesaid sum of six hundred thousand dollars (\$600,000), in addition to the sum heretofore authorized, for the purposes above mentioned.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented the following communication from the Deputy Commissioner of Water Supply, Gas and Electricity, requesting authority to advertise for bids for electric lighting for the year 1908, for the Boroughs of Manhattan and The Bronx, as a subdivision of the City, and recommended that the request be granted (this matter having been referred to the Comptroller on November 1, 1907):

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY,  
COMMISSIONER'S OFFICE, NOS. 13 TO 21 PARK ROW,  
CITY OF NEW YORK, October 18, 1907.

Mr. JOSEPH HAAG, Secretary, Board of Estimate and Apportionment, No. 280 Broadway, New York:

DEAR SIR—For the purpose of obtaining a bid on the electric arc lights in the Boroughs of Manhattan and The Bronx taken together, I would request that the attached resolution be submitted to the Board of Estimate and Apportionment, so that they may establish such a lighting district. I am,

Yours respectfully,

FRANK J. GOODWIN,

Deputy Commissioner, Department of Water Supply, Gas and Electricity.

The following was offered:

Whereas, The Board of Estimate and Apportionment deems it for the best interests of the City that bids should be requested for electric lighting in a district comprising the Boroughs of Manhattan and The Bronx; therefore be it

Resolved, That, pursuant to the provisions of section 530 of the Greater New York Charter, the Commissioner of Water Supply, Gas and Electricity be and is hereby authorized and empowered to advertise for bids for electric lighting for the year 1908, in a subdivision of the City comprising the Boroughs of Manhattan and The Bronx, taken together.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented the following communication from the County Clerk, Queens County, requesting an appropriation of \$39,000 for recopying and rebinding torn and mutilated records, indices, maps and other records of Queens County, together with report thereon, recommending the issue of \$11,198.55 Special Revenue Bonds, for the purpose (this matter having been referred to the Comptroller on July 8, 1907):

To the Honorable the Board of Estimate and Apportionment of The City of New York:

I, the undersigned, Clerk of the County of Queens, New York, do hereby most respectfully ask and demand that an appropriation for the Queens County Clerk's Office be forthwith made, for the purpose of defraying a County charge for the costs and expense of recopying and rebinding the torn and mutilated books, indices, maps and other records of said County, which torn and mutilated records were, in a proceeding in the Supreme Court under chapter 518 of the Laws of 1901, as amended by chapter 435 of the Laws of 1904, duly condemned. (A copy of the list of such books, maps and records of said office condemned as aforesaid, and the order of said Court, dated April 11, 1907, confirming the same, are hereto annexed.)

It will be observed that according to said proceedings there are 94 books required to be copied; 40 books are required to be rebound and 208 different maps required to be copied.

I have made a careful and conservative estimate of the costs of performing said work, as follows, to wit:

Ninety-four books to be copied, based upon an average of former like work, at \$250 per book.....	\$33,500 00
Forty books to be rebound, \$10 per book.....	400 00
Two hundred and eight maps to be copied, based upon similar work done in Kings County .....	1,500 00
Total.....	\$38,900 00

In the matter of the copying of said maps, I inform your Honorable Board that no map on file in said County Clerk's Office has ever been recopied, consequently those which are condemned are so much torn and mutilated that the work of recopying will be very slow work and must be done by experienced men in that particular line of work, and besides a large portion of those condemned are so mutilated that it will be necessary to make search outside of the Clerk's Office in order to make a copy, and for these reasons the cost of recopying said condemned maps is necessarily increased from the cost of recopying an ordinary map.

I further inform you that up to this date work has been done, not affecting the books and maps condemned as aforesaid, which, when paid for, will more than absorb the balance that now stands to my credit from former appropriations for like work.

I therefore respectfully ask that your Honorable Board appropriate the sum of \$39,000 for the purpose aforesaid, so that I may be able to proceed, as the law requires, and perform said work without delay and preserve the said books and maps and prevent further mutilation and damage of the same.

Dated July 1, 1907.

JOHN NIEDERSTEIN,  
Clerk of Queens County, New York.

At a Term of the Supreme Court held at the County Court House, in the County of Richmond, New York, on the 11th day of April, 1907.

Present—Hon. Townsend Scudder, Justice.

Kellogg, Commissioners appointed by this Court by order dated January 8, 1907, to examine all the books of record, indices, maps and all official records in the office of the Clerk of the County of Queens, N. DEPARTMENT OF FINANCE—CITY OF NEW YORK,  
 BUREAU OF MUNICIPAL INVESTIGATION AND STATISTICS,  
 October 31, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the application of John Niederstein, Clerk of Queens County, under date of July 1, 1907, addressed to the Board of Estimate and Apportionment, requesting an appropriation in the sum of \$39,000 for the purpose of defraying county charge for the cost and expense of recopying and rebinding the torn and mutilated records, indices, maps and other records of Queens County, etc., which was referred to the Comptroller for consideration and report, I beg to submit the following:

Chapter 518 of the Laws of 1901, as amended by chapter 435 of the Laws of 1904 (the amendment relating to the copying of maps), provides as follows:

"Section 1. The clerk of the county of Queens is hereby directed to have transcribed and recorded in proper books all deeds, mortgages, lis pendens, judgments, indices, maps and all other instruments of record which are in a torn and mutilated condition, and to employ the necessary labor and purchase the necessary books, stationery and other supplies for such purpose. The expense therefor, and for providing necessary books, stationery and other supplies, shall be a charge upon the county and shall be paid as other county charges in the county of Queens are now required by law to be paid, and in monthly installments. But none of the work above specified shall be done except upon the application of the county clerk to the supreme court for the appointment of two commissioners who shall serve without compensation, and who shall condemn such mutilated records and report and certify to the court that the same should be recopied and preserved."

In compliance with the provisions of the said law Commissioners were appointed and their reports confirmed by the Supreme Court, as follows:

Commissioners.	Appointment.	Date of Confirmation of Report.
Marquis D. Gould.....	June 1, 1901	Dec. 21, 1901
Frederick C. Trowbridge.....	June 1, 1901	Dec. 21, 1901
Marquis D. Gould.....	June 23, 1904	July 23, 1904
Frederick C. Trowbridge.....	June 23, 1904	July 23, 1904
Joseph Fitch.....	Jan. 8, 1907	Apr. 11, 1907
Rarodon W. Kellogg.....	Jan. 8, 1907	Apr. 11, 1907

In compliance with the findings of said Commissioners, as approved and affirmed by the Supreme Court, the transcribing of old books and records in the office of the Clerk of Queens County has been in progress since December 31, 1901. There remains to be so recopied at this date the greater portion of all of those records, and all of the maps certified by the Commissioners appointed June 8, 1907, as torn and mutilated. The disbursements made from appropriation accounts and proceeds of the issue of Special Revenue Bonds from January 1, 1901, to date for this purpose have been as follows:

Appropriation Accounts—		
1902.....	\$5,000 00	
1903.....	9,960 29	
1904.....	9,990 21	
1905.....	10,000 00	
1906.....	9,893 30	
1907.....	11,770 08	
		\$56,613 88
Special Revenue Bonds—		
1905.....	\$7,965 12	
1906.....	9,248 72	
1907.....	2,777 10	
		19,990 94
Total disbursements.....		\$76,604 82

In the said communication of John Niederstein, Clerk of Queens County, the method of arriving at the amount requested, namely, \$39,000, is shown as follows:

94 books to be copied, based upon average of former like work, at \$250 per book .....	\$23,500 00
40 books to be rebound, \$10 per book.....	400 00
208 maps to be copied, based upon similar work done in Kings County....	1,500 00
Total .....	\$25,400 00

The total of the several items it will be seen should be \$25,400, and, therefore, the total shown as \$38,900, can only be accounted for on the assumption of a clerical error, or that it was the intention of the Clerk to state the estimate for copying maps as \$15,000 instead of \$1,500, the last assumption is hardly tenable, as it would make the average cost of each map, approximately, \$72.11. No definite estimate can be made of the expense attending the copying of maps, as said maps vary in size and condition of mutilation. The work of recopying maps has not been proceeded with and it is doubtful if it will be taken up until after the first of the year, when the appropriation made available in the Budget of 1908 may be used for this purpose as far as it may apply.

From an examination of bills previously rendered by the Clerk of Queens County for recopying books and records, it is the opinion of your Examiner that the amount stated, namely, an average of \$250 each book, is a reasonable estimate. The allowance made in the Budget of 1907, namely, \$12,000, and the amount made available by the issue of Special Revenue Bonds previously authorized, were practically exhausted prior to July 1 of this year, and consequently the expense incurred since said date has not been met by The City of New York. Statement is made by the Clerk of Queens County, through his representative, Mr. A. M. Dunham, in charge of this work, that

expense has been incurred to the amount of \$11,198.55, bills for which have not been submitted to the Comptroller of The City of New York. Said amount, \$11,198.55, is made up of the following records copied by order of Commissioners, in accordance with said law:

## Liber of Mortgages—

P. 2,245 folios ..... \$224 50

## Liber of Deeds—

P. 2,145 folios ..... \$214 50  
 BB. 3,764 folios ..... 376 40  
 X. 3,175 folios ..... 317 50  
 Z. 3,610 folios ..... 361 00  
 E. 3,460 folios ..... 346 00

The allowance recommended for the Budget of 1908 for recopying and transcribing books of public record in the office of the Clerk of Queens County is in amount \$12,000, which amount it appears to your Examiner will be ample to cover the remaining work to be done under Commissioners' orders as above stated.

From the investigation made, it is the opinion of your Examiner that additional appropriation should be made to provide for expense incurred in recopying books of record in the office of the Clerk of Queens County, as directed in an order of the Supreme Court of April 11, 1907, and I would, therefore, recommend that an allowance in Special Revenue Bonds be made for this purpose to the amount of \$11,198.55.

Yours respectfully,

CHARLES S. HERVEY,  
 Supervising Statistician and Examiner.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That for the purpose of providing for the expense of recopying books of record in the office of the Clerk of Queens County, as directed in an order of the Supreme Court of April 11, 1907, the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 7 of section 188 of the Greater New York Charter, to issue Special Revenue Bonds of The City of New York, to the amount of eleven thousand one hundred and ninety-eight dollars and fifty-five cents (\$11,198.55), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller presented the following communication, recommending the purchase, at \$40,500, of property known as No. 32 Chrystie street, required for the Manhattan approach to the Manhattan Bridge:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
 COMPTROLLER'S OFFICE,  
 October 30, 1907.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Board of Estimate and Apportionment, at a meeting held on the 23d day of November, 1906, adopted a resolution authorizing the acquisition of

the fee of the lands selected by the Commissioner of the Department of Bridges as an approach to the Manhattan Bridge, lying between Monroe street and the Bowery, in the Borough of Manhattan, and more particularly shown on a map filed by the Commissioner of the Department of Bridges in the office of the Register of the City and County of New York, on the 20th day of February, 1905.

The resolution which was adopted on the 23d day of November, 1906, shows by No. 1, "Laying out the property shown on the plan submitted by the Commissioner of Bridges as required for the approach to the Manhattan Bridge between the Bowery and Monroe street, including the entire two blocks bounded by the Bowery and Canal street, Forsyth street and Bayard street, and portions of the blocks between Forsyth and Monroe streets, all of these portions of blocks to be occupied by the bridge structure.

Within the area of one of these blocks as laid out, that is, bounded by Chrystie, Bayard, Canal and Forsyth streets, are the premises known as No. 32 Chrystie street, situated on the east side, 126 feet 8 inches south of Canal street, and is known as Lot No. 9, in Block 291, Section 1, on the tax maps of the County of New York, for the purposes of taxation. The dimensions of the lot are 25 feet 1 inch by 99 feet 9 inches, and erected thereon is a five-story brick tenement building, with two stores, having ten rooms on a floor, together with a two-story brick building in the rear, which is owned by Mr. Nicholas Measel, of Bayonne, N. J., and it has been in the possession of his family for over forty years. It was offered to the City in a communication dated September 30, for the sum of \$42,500, but after negotiation he has finally consented to accept the sum of \$40,500. The price being reasonable and just, and having met with the approval of the Corporation Counsel in charge of the proceedings for the acquisition of the land as a bridge approach, I would respectfully recommend that the Board of Estimate and Apportionment approve of the acquisition of this property at private sale, at a price not exceeding \$40,500, and herewith submit resolutions for adoption.

Respectfully submitted for approval,

Hon. HERMAN A. METZ, Comptroller:

Contract for the removal of snow and ice, Boroughs of Manhattan and The Bronx.

The contract proposed contains the following terms and conditions:

First—This contract shall be for a period beginning with the endorsement hereon of the Comptroller's certificate as hereinafter provided, and ending the 15th day of April, 1908.

Second—The Borough of Manhattan is divided for the purpose of the Street Cleaning Department into eleven (11) districts, and the Borough of The Bronx is deemed to constitute one (1) district.

Third—Bids will be received for one or more of the twelve (12) districts.

Fourth—The security required will be \$100,000 for all of the districts of the Borough of Manhattan taken together with the Borough of The Bronx, and to the amount of \$10,000 for each of the eleven (11) districts of the Borough of Manhattan or for the Borough of The Bronx, if the bid is for less than all the districts of the Boroughs of Manhattan and The Bronx taken together.

Fifth—Compensation will be for the actual amount of snow and ice removed and dumped by the contractor at a price per cubic yard.

Sixth—The contractor shall secure the use of all necessary dumps and dumping places.

Seventh—Five dollars (\$5.00) damage for each and every load emptied on any public street, avenue, lane or alley, or any other place not approved by the Commissioner.

Eighth—The Contractor to use the Department horses, carts and trucks or other implements of the Department if so directed, and pay a fair compensation for said use.

Ninth—Payments to the Contractor for work performed under this contract shall be based upon the snow and ice actually removed, as shown by the official tickets issued for this purpose to the Contractor's drivers by the Department of Street Cleaning, duly and properly punched by the loading and dump foreman of the Department of Street Cleaning.

Tenth—The contractor may use machines, appliances or other methods of melting the snow and ice, as approved by the Commissioner, such melting or other methods to be carried on as not to unnecessarily impede or interrupt traffic; the payments for the work performed by methods other than dumping shall be based upon the actual snow and ice removed.

#### *Contract for the Removal of Snow and Ice, Borough of Brooklyn.*

The contract proposed contains the following terms and conditions:

First—This contract shall be for a period beginning with the endorsement hereon of the Comptroller's certificate as hereinafter provided, and ending the 15th day of April, 1908.

Second—The Borough of Brooklyn is divided for the purpose of the Street Cleaning Department into eight (8) districts.

Third—Bids will be received for one or more of the eight (8) districts.

Fourth—The security required will be \$60,000 for the whole work, and for the amount of \$10,000 for each district, if the bid is for less than the eight (8) districts.

Fifth—Compensation will be for the actual amount of snow and ice removed and dumped by the contractor at a price per cubic yard.

Sixth—The contractor will be required to provide, at his own cost and expense, suitable and sufficient dumping places for the snow and ice removed.

Seventh—Five dollars (\$5) damage for each and every load emptied on any public street, avenue, lane or alley or any other place not approved by the Commissioner.

Eighth—The contractor to use the Department horses, carts and trucks or other implements of the Department if so directed, and pay a fair compensation for said use.

Ninth—Payments to the contractor for work performed under this contract shall be based upon the snow and ice actually removed, as shown by the official tickets issued for this purpose to the contractor's drivers by the Department of Street Cleaning, duly and properly punched by the loading and dumping Foreman of the Department of Street Cleaning.

Tenth—The contractor may use machines, appliances or other methods of melting the snow and ice as approved by the Commissioner, such melting or other methods to be carried on as not to unnecessarily impede or interrupt traffic; the payments for the work performed by methods other than dumping shall be based upon the actual snow and ice removed.

#### *Modifications Suggested to be Incorporated in the Proposed Snow Removal Contracts.*

First—Section 8, page 21, made to read as follows:

Upon the direction of the Commissioner of Street Cleaning, the contractor shall begin work at all points designated at the beginning of the schedules, and will thereafter follow such schedules day and night without any deviation, except by order of the Commissioner or Snow Inspector or their representatives.

Second—The following clause to be added to section 24, page 23:

The provisions of this specification are without prejudice to the right of the Commissioner to employ any system of checking or other safeguard necessary in his judgment to the proper protection of the City.

Third—It appears throughout the contract that upon the certificate made in writing by the Snow Inspector, the City shall make payments to the contractor. I suggest that the certificates be made by the Commissioner, or at least approved by the Commissioner, and should be stated in the contract.

#### *Comments Upon the Proposed Snow and Ice Removal Contracts.*

First—For the last five (5) years the compensation for the removal of the snow and ice has been at the rate per cubic yard of snow and ice for the actual snow fall, in the place or places where the work under the contract was carried on as determined by the area maps; the depth of snow fall is to be determined by the reports of the United States Weather Bureau located in The City of New York, or by a Bureau established especially by the Commissioner of Street Cleaning.

Considerable complaints have been made that this method is too much of a gamble on the part of the contractors, and that although ordered and directed by the Commissioner, they have not progressed with the contract satisfactorily, hoping that in delaying the work they might be helped by the elements, a rainstorm or rise in the temperature.

The method proposed, theoretically, is the best, that is, only to pay for the snow and ice that is actually removed, but has its drawbacks, as it is wholly dependent upon the accuracy and correctness of the tickets presented for payment, which was the reason why the method of the last five (5) years was introduced by former Commissioner of Street Cleaning Woodbury.

While I am still in favor of some method that will do away with the use of tickets for its accuracy, since the present method has its defects, I suggest that the proposed method be given another trial, and, without the modifications as suggested, I think the Board of Estimate and Apportionment may properly approve the terms and conditions of the proposed contracts for the removal of snow and ice in the Boroughs of Manhattan, The Bronx and Brooklyn, in compliance with section 544 of the Greater New York Charter, as requested by the Commissioner.

#### *Contract for the Loading and Trimming of Deck Scows and Other Vessels of the Department of Street Cleaning, with the Privilege of Sorting and Picking Over and Appropriating Certain Refuse at the Dumps of the Department in the Borough of Manhattan.*

The contract proposed contains the following terms and conditions:

First—The contractor is to furnish all the labor, implements and materials and do all the work required by the Commissioner to load and trim all deck scows and other vessels used by the Department of Street Cleaning in the Borough of Manhattan, and to clean the dumping boards as may be required by the Commissioner at the following dumps:

#### *East Side Dumps.*

Delancey street incinerator.

East Eightieth street.  
Stanton street.

#### *West Side Dumps.*

Canal street.  
West Forty-seventh street.  
West Thirtieth street.  
West One Hundred and Thirty-fourth street.

The contractor shall have the privilege of picking over all refuse at the said dumps, including paper, rags, wood and metal products, except bones, fat or other refuse of similar organic nature, as these materials are already disposed of by an existing contract, and shall have the right to appropriate for his own use and behoof said materials.

Second—The work to begin on the Monday following the date of the contract.

Third—Term of contract to be for one year.

Fourth—Security required will be \$5,000.

Fifth—Compensation to be paid by the contractor; payments for the privilege to be made weekly, in advance.

Sixth—Terms and conditions of the proposed contract, in my opinion, may properly be approved by the Board of Estimate and Apportionment, in compliance with section 544 of the Greater New York Charter, as requested by the Commissioner.

Respectfully,

The surety required shall be five thousand dollars (\$5,000).

Permission will not be given for the withdrawal of any bid or estimate, and no bid or estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter as surety or otherwise upon any obligation to the Corporation.

Bidders are required to state in their bids or estimates their names and place of residence, the names of all persons interested with them therein, and if no person be so interested it shall distinctly state that fact; also that the bid or estimate is made without any connection with any other person making a bid or estimate for the same purpose, and that it is in all respects fair and without collusion or fraud; also that no member of the Board of Aldermen, head of a department, deputy thereof or clerk therein, chief of a bureau or other public officer of The City of New York, is, shall be or become, interested directly or indirectly, as contracting party, partner, stockholder, surety or otherwise, under or in the performance of the contract or in the supplies, work or business to which it relates or in any portion of the profits thereof. Each bid or estimate must be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, with their respective places of business or residence, or of a guaranty or surety company duly authorized by law to act as surety, to the effect that if the contract is awarded to the person making the bid or estimate they will, upon its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same within the time required by law they will pay to The City of New York any difference between the sum which The City of New York would be entitled to receive upon its completion and that which The City of New York may receive from the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons making the same that he is a householder or freeholder in The City of New York, or of a guaranty or surety company authorized by law to act as surety, and is worth the amount of the security required for the completion of the work and stated in the bids or estimates over and above all his debts of every nature and over and above his liabilities as bail, surety or otherwise; that he has offered himself as surety in good faith and with an intention to execute the bond required by law, if the contract shall be awarded to the person or persons for whom he consents to become surety.

The adequacy and sufficiency of the sureties shall be approved by the Comptroller of The City of New York after the award is made and prior to the signing of the contract.

Each bid or estimate must be accompanied by a certified check on a solvent banking corporation in The City of New York, payable to the order of the Comptroller for 5 per centum of the amount for which the bidder proposes to perform the work for one year.

He further agrees that no laborer, workman or mechanic in the employ of the contractor, subcontractor or other person doing or contracting to do the whole or a part of the work contemplated by the contract shall be permitted or required to work more than eight hours in any one calendar day, except in cases of extraordinary emergency caused by fire, flood or danger to life or property. That the wages to be paid for a legal day's work to all classes of such laborers, workmen or mechanics upon public work or upon any material to be used thereon shall not be less than the prevailing rate for a day's work in the same trade or occupation in the locality where such public work is being constructed. Each such laborer, workman or mechanic shall receive the prevailing rate of wages. ## MUNICIPAL CIVIL SERVICE COMMISSION.

Minutes of Meeting of the Municipal Civil Service Commission of The City of New  
 York, Held at the Commission's Offices, No. 299 Broadway, on Wednesday,  
 November 6, 1907, at 10 a. m.

Present—President William F. Baker and Commissioners R. Ross Appleton and  
 Frank L. Polk.

The President, Mr. William F. Baker, presided.

Sergeant John H. Ayers appeared before the Commission, as directed, to show  
 cause why his rating in the examination for promotion to Lieutenant in the Police  
 Department should not be reduced from 81.64 per cent. (revised rating) to 80.44 per  
 cent. (original rating). It appeared that the candidate's rating had been revised by  
 the Examiners at the time of the revising of the records of other candidates in that  
 examination to conform to the decision of the Court in the case of the People ex rel.  
 John Hughes vs. Municipal Civil Service Commission, by giving him credit for a  
 commendation received on December 24, 1902, which had not been rated in any other  
 promotion examination in which the candidate had competed; which rerating was  
 subsequently reported by the Assistant Chief Examiner to have been an error, in  
 view of the fact that the commendation was not received for an act of bravery in  
 which there was an actual risk of life. The candidate appealed to the Commission  
 to permit his revised rating to stand, and, in support of his contention that the com-  
 mendation received by him on December 24, 1902, was for an "individual act of  
 bravery," submitted affidavits of Inspectors Cross and Walsh, Sergeant Bock, Lieut-  
 enant Walsh and Patrolman McGuire, describing the circumstances under which the  
 said commendation was awarded. The hearing closed.

Leo G. Gargan, of No. 525 East One Hundred and Seventy-fifth street, appeared  
 before the Commission, as directed, to show cause why his name should not be re-  
 moved from the eligible list of Rodman, Board of Water Supply, in view of his affi-  
 davit under date of October 4, 1907, to the effect that he filled out an application  
 for Rodman, Board of Water Supply, in disguised handwriting and filed the same  
 in the office of the Commission on the last day for the receipt of such applications  
 under the name of Frank M. Farley, of No. 62 Post road, White Plains, N. Y., in  
 order that Farley might compete in the examination. Mr. Charles R. Leamy,  
 Notary Public 188, New York County, also appeared before the Commission with  
 reference to the matter, he having witnessed the signing of the application by said  
 Gargan in the capacity of Notary Public. The hearing closed.

A committee representing the National Union of Steam Engineers, Local No. 319,  
 appeared before the Commission and requested that candidates for the forthcoming  
 examination for Stationary Engineer and Janitor-Engineer be required to furnish  
 an Engineer's license before being admitted to the examination; or in the event of a  
 candidate being unable to produce such a license, that he be required to furnish  
 the affidavits of three licensed engineers certifying to his qualifications for the duties  
 of the position sought. Mr. Andrew J. Maguire, Acting Supervisor of Janitors,  
 Board of Education, also addressed the Commission and stated that, in his opinion,  
 such a requirement would be desirable.

The Commission then went into regular session and the minutes of the meeting  
 held October 30 were approved.

On motion, it was

Resolved, That, after careful consideration, it appearing to the Commission from  
 the evidence submitted by John H. Ayers, that the element of personal risk was in-  
 volved in the work for which he was commended on December 24, 1902, his revised  
 rating in the examination for promotion to Lieutenant of Police (81.64 per cent.) be  
 permitted to stand.

On motion, it was

Resolved, That the Secretary be and he hereby is directed to remove the name  
 of Leo G. Gargan, No. 525 East One Hundred and Seventy-fifth street, from the  
 eligible list of Rodman, Board of Water Supply, in accordance with the provisions  
 of clause 14 of Rule VII.

On motion, it was

Resolved, That clause 7 of Regulation IX. of the General Regulations of the  
 Municipal Civil Service Commission be and the same hereby is amended to read as  
 follows:

"7. Candidates for the positions of Stationary Engineer and Janitor-Engineer  
 must produce, in advance of the examination, either an Engineer's license or the

affidavits of three licensed Engineers certifying, in each case, to the candidate's qualification for the duties of the position."

The Committee on Transfers recommended that the following transfers be approved:

Edward Ford, Stationary Engineer, from Bellevue and Allied Hospitals to the office of the President of the Borough of Brooklyn.

648. Frank G. Doran, Architectural Draughtsman, from the Public Service Commission, First District, to the Department of Bridges.

649. Miss Mary A. Coleman, Typewriting Copyist, second grade (\$750 per annum), from the Tenement House Department to the office of the President of the Borough of Brooklyn.

651. Frank H. Warder, from the position of Stenographer and Typewriter, at a salary of \$2,400 per annum, to that of Clerk at a salary of \$2,400 per annum, in the Aqueduct Commission, there being no eligible list in existence for promotion to the latter position in that department, and he now being in the highest grade in the Clerical Service.

The recommendation of the Committee on Transfers was adopted.

The Committee on Reinstatements recommended that the following reinstatement be approved:

Eugene H. Leopold, in the position of Gardener in the Department of Parks, Boroughs of Manhattan and Richmond, he having resigned from a similar position on May 9, 1907.

On motion, it was

Resolved, That Mr. William H. Fry, of No. 319 Ninth street, Brooklyn, be and he hereby is appointed a Civil Service Examiner for a temporary period not to exceed three months, with salary at the rate of \$1,200 per annum, taking effect November 11, 1907.

Resolved, That the action of the President in appointing Dr. Geo. F. Poole, of No. 215 West Twenty-third street, New York City, to conduct the physical examination for Gymnasium Attendant, be and the same hereby is approved.

A report was presented from the Chief Examiner, dated November 2, forwarding the resignation of Frederick G. Dunham from the position of Monitor. The resignation was accepted.

A report was presented from the Assistant Chief Examiner, dated October 7, stating that Miss Elizabeth V. Denon had been requested to serve as a Monitor on September 23, which she did, and that it was not until the payroll for the services of the Monitors was prepared that it was discovered that Miss Denon had resigned from the position of Monitor on March 27, 1907; that when she appeared at the examination room she made no reference to the fact that she had resigned, nor that she was then employed in the Department of Health as a Typewriting Copyist. The Secretary stated that Miss Denon's name appeared on the payroll of that Department for the full month of September, and that no deduction had been made for the day on which she served the Commission as a Monitor. After due consideration of the matter, the Secretary was directed to communicate with Miss Denon and inform her that under a recent opinion of the Corporation Counsel, the Commission was without power to pay her for her services as a Monitor, in view of the fact that she held another position in the City's service at the time.

A report was presented from the Chief Examiner, dated October 31, with reference to the questions submitted to the candidates in the examination for Oil Surveyor held on October 30. The report was ordered filed.

A report was presented from the Chief Examiner, dated November 1, submitting the following statement of examinations held during the month of October:

2.	Laboratory Assistant .....	58
10.	Fireman, Queens, physical.....	22

The report was ordered filed.

A report was presented from the Chief Examiner, dated November 4, stating that several of the candidates for Gymnasium Attendant who took the physical examination, and who did reasonably well on the parallel bars and horse, failed in the jumping, and recommending, in view of the fact that some of these had reached an average percentage between 65 and 70, that they be accorded a passing mark, so that they might be summoned for the written examination. The recommendation was adopted.

A report was presented from the Chief Examiner, dated November 2, stating that the applications of Patrick Baker and Harry Greenfield for the position of Patrolman had been rejected for the reason that they had obtained their certificates of citizenship in violation of the law. The action of the Chief Examiner was approved.

A communication was presented from the Chief Examiner, dated October 31, forwarding a report of Mr. Rafferty, Examiner, with reference to the application of Michael H. Collins of No. 90 First place, Brooklyn, for the position of Telegraph Operator. After consideration of the report, the application was accepted.

A report was presented from the Chief Examiner, dated November 4, stating that the applications of Abraham Rosenberg of No. 1988 Second avenue, and Alexander Grossman of No. 222 West One Hundred and Sixteenth street, for Lay Sanitary Inspector, had been rejected under Rule VII. of the Commission for the reason that less than two years had elapsed since they were dismissed from positions in the service of the City. The action of the Chief Examiner was approved.

A report was presented from the Chief Examiner, dated October 31, in reply to an inquiry of the President, stating that the papers set for promotion of candidates for the fifth, sixth, seventh and eighth (old) grades of Clerks were identical, this note being added: "Strictness in rating will be proportioned according to the grade for which the candidates compete"; and that it seemed to him, therefore, that the Commission would be quite regular in advancing those who obtained a place upon the eligible lists one grade without further examination.

On motion, it was

Resolved, That the eligible lists for promotion to the fifth and seventh (old) grades in the Clerical Service promulgated between April 1, 1906, and October 1, 1907, be and they hereby are advanced one grade, thereby becoming lists for promotion to the new fourth and fifth grades.

The Secretary was directed to communicate with the Board of Education and call attention to the irregularity of such employment, and to state that the Commission desired an explanation as to why an Office Boy and a Stenographer were appointed without examination when there were eligible lists in existence for those positions from which appointments could have been made.

A report of the Board of Examiners for positions in the Non-Competitive Class of the Department of Health, dated October 30, was approved on the recommendation of the Chief Examiner.

The Secretary stated that the following promotion applications had been received after the expiration of the time set apart for the receipt of such applications, and that in most cases it was not the fault of the candidates that their applications were not filed before November 1, as the requests of their respective department heads, that they be permitted to compete, were not placed before the Commission until its meeting of October 30:

- Max L. Blum, Topographical Draughtsman, Bureau of Highways, Manhattan; candidate for Assistant Engineer.
- Alexander M. Goge, Draughtsman, Department of Docks and Ferries; candidate for Assistant Engineer.
- William J. McLaughlin, Messenger, office of the President of the Borough of The Bronx; candidate for Clerk, third grade.
- Lawrence A. Osterhoudt, Leveler, Board of Water Supply; candidate for Transitman.

William E. Cullen, Messenger (\$1,350), Bureau of Buildings, The Bronx; candidate for Clerk, fourth grade.

Abraham Rauch, Clerk, second grade, Board of Water Supply (Engineering Bureau); candidate for Clerk, third grade.

Florence L. Brophy, Typewriting Copyist, second grade, Metropolitan Sewerage Commission; candidate for Stenographer and Typewriter, second grade (change of title).

Thomas F. Creegan, Thomas F. O'Rourke, Walter S. Graham, Collectors (\$1,800), Department of Docks and Ferries; candidates for Clerk, fourth grade (change of title).

William H. Meyer, Clerk, third grade, Bureau of Buildings, The Bronx; candidate for Clerk, fourth grade.

The applications were accepted.

The following restorations to the eligible lists indicated were allowed:

Miss Della L. Scanlon, No. 304 East Twenty-first street, Stenographer and Typewriter, at \$900 per annum. Declined appointment in the Department of Street Cleaning on July 10, 1906.

James M. Brady, No. 412 East Fifteenth street, Office Boy. Stated in affidavit that he was willing to accept appointment in the Tenement House Department on October 10, 1907, but that he was unable to report at once, as directed.

William McDowell, No. 70 Fifth avenue, Axeman, Board of Water Supply. Stated that his declination of appointment was due to illness and also a misapprehension of the rules.

William J. McGeone, No. 212 East Twenty-fifth street, Disinfecter. Stated that he did not receive notice from the Department of Health owing to change of address.

An affidavit was presented from Joseph Donnelly, No. 228 East Twenty-ninth street, New York City, to the effect that he was born on June 1, 1881, and accompanying the same was an affidavit of his brother to the same effect. The affidavits being satisfactory, the Secretary was directed to communicate with the candidate and

request him to call at the office of the Commission and correct the date of birth given in his application for Patrolman in error.

An affidavit was presented from Walter G. Haslam, of No. 2 Fifth street, New Brighton, Staten Island, to the effect that the date of his birth was October 18, 1879. It appeared that the candidate applied for Fireman and Patrolman on September 28, 1906, and February 10, 1906, respectively, and gave conflicting dates of birth. Accompanying the affidavit of the candidate was an affidavit of his mother to the effect that October 18, 1879, was the correct date of his birth. His request that he be permitted to correct the said date where in error was granted.

The request of Henry Greenfield, of No. 161 Pulaski street, Brooklyn, that his name be restored to the list of Clerk (\$1,050 per annum), was denied by the Commission in view of his numerous declinations of appointment appearing on the records of the office.

The Commission then adjourned to meet Wednesday, November 13, 1907, at 10 o'clock in the forenoon.

F. A. SPENCER, Secretary.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

### NOTICE TO CONTRACTORS.

#### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
