301-05-BZ

APPLICANT – Sheldon Lobel, P.C., for Jeanette Impaglia, owner.

SUBJECT – Application October 12, 2005 – Special Permit Under §73-36 to permit the operation of a Physical Culture Establishment on the second floor mezzanine of a building located within a C6-3X.

MINUTES

**REGULAR MEETING
TUESDAY MORNING, JANUARY 10, 2006
10:00 A.M.**

Present: Chair Srinivasan, Vice Chair Babbar,
Commissioner Chin and Commissioner Collins.

The motion is to approve the minutes of regular meeting of the Board held on Tuesday morning and afternoon, October 25, 2005, as printed in the bulletin of November 3, 2005, Vol. 90, No. 44. If there be no objection, it is so ordered.

SPECIAL ORDER CALENDAR

7-51-BZ

APPLICANT – Eric Palatnik, P.C., for 6717 4th Avenue, LLC, owner.

SUBJECT – Application December 29, 2004 – Extension of Term/Waiver permitting in a business use district, Use Group 6, using more than the permitted area and to permit the parking of patron's motor vehicles in a residence use portion of the lot. The subject premises is located in an R-6/R7-1(C1-3) zoning districts.

PREMISES AFFECTED – 6717/35 Fourth Avenue, northeast corner of Senator Street, Block 5851, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #8BK

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin.....3

Negative:.....0

Abstain: Commissioner Collins.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening and an extension of the term of the previously granted variance pursuant to Z.R. §11-411; and

WHEREAS, a public hearing was held on this application on December 6, 2005, after due notice by publication in *The City Record*, and then to decision on January 10, 2006; and

WHEREAS, Community Board No. 10, Brooklyn, recommends approval of this application; and

WHEREAS, the premises is located on the northeast corner of Fourth Avenue and Senator Street; and

WHEREAS, the site is currently located partially within an R6 zoning district and partially within an R7-1 zoning district with a C1-3 overlay; and

WHEREAS, the premises is improved upon with an existing two-story commercial structure, with a drug store and laundromat on the ground floor and offices on the second floor;

and

WHEREAS, the Board has exercised jurisdiction over the subject site since 1951, when, under the subject calendar number, the Board granted an application to permit the construction and maintenance of a business building with more than the permitted floor area, and to permit parking of patron's motor vehicles in the residence use portion of the lot for a term of ten years; and

WHEREAS, subsequently, this grant has been amended and extended by the Board at various times; and

WHEREAS, the most recent extension of term was granted on November 3, 1993, and expired on February 6, 2003; and

WHEREAS, upon a review of the application, the Board observed that violations had been issued to the premises by the Department of Buildings, and asked the applicant to address them; and

WHEREAS, the applicant responded that the violations arose because the laundromat that is currently located on the premises has no license from the Department of Consumer Affairs; the applicant noted that in order to obtain the license, the owner needs a new Certificate of Occupancy (CO) reflecting the as-of-right laundromat use, but cannot obtain its new CO until it receives an extension of time from the Board for the variance; and

WHEREAS, pursuant to Z.R. § 11-411, the Board may permit an extension of term for a previously granted variance; and

WHEREAS, based upon the submitted evidence, the Board finds the requested extension of term appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on May 22, 1951, as subsequently extended, so that as amended this portion of the resolution shall read: "to extend the term for ten years from February 6, 2003, to expire on February 6, 2013, *on condition* that the use shall substantially conform to drawings as filed with this application, marked 'Received December 29, 2004'-(4) sheets, 'September 30, 2005'-(1) sheet and 'December 9, 2005'-(3)sheets; and *on further condition*:

THAT the term of this grant shall be for ten years, to expire on February 6, 2013;

THAT the above condition shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

(DOB Application No. 301881382)

Adopted by the Board of Standards and Appeals, January

MINUTES

10, 2006.

1016-84-BZ

APPLICANT – Martyn & Don Weston, for Livia Liberace, owner; Ultramotive, lessee.

SUBJECT – Application August 8, 2005 – Pursuant to Z.R. §11-411 for the Extension of Term of a previously approved Variance for the operation of an auto repair shop (UG12) with accessory uses and an Amendment to reestablish and legalize auto body and fender work on site. The premise is located in a C8-2 and R-5 OP zoning district.

PREMISES AFFECTED – 790-798 Coney Island Avenue, west side 260'-0 3/8 south of Cortelyou Road, Block 5393, Lot 21, Borough of Brooklyn.

COMMUNITY BOARD #12BK

APPEARANCES –

For Applicant: Don Weston.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin.....3

Negative:.....0

Abstain: Commissioner Collins.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening, an amendment to the previously granted variance, and an extension of term pursuant to Z.R. §11-411; and

WHEREAS, a public hearing was held on this application on December 13, 2005, after due notice by publication in *The City Record*, and then to decision on January 10, 2006; and

WHEREAS, Community Board No. 12, Brooklyn, recommends conditional approval of this application; said conditions relate to the proposed reinstatement of the fender/body work and spray painting uses on the site; and

WHEREAS, the premises is located on the west side of Coney Island Avenue, south of Cortelyou Road; and

WHEREAS, the site is located partially within a C8-2 zoning district and partially within an R5 zoning district; and

WHEREAS, the premises is improved upon with an existing one-story plus mezzanine auto repair shop; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 20, 1948, when, under calendar number 64-58-BZ, the Board granted an application for the subject lot and two additional lots to permit in a residence and business district the occupancy of a garage for more than five vehicles, a gasoline service station, a motor vehicle repair shop, servicing of new and used motor vehicles, body and fender repairs, painting, spraying, welding, office and store; and

WHEREAS, subsequently, this grant has been amended and extended by the Board at various times; and

WHEREAS, on July 30, 1985, the Board approved, under the subject calendar number, the reestablishment of a portion of the variance on the subject lot for an automotive repair shop

with accessory use of acetylene torch and arc welding and spray painting, sale and display of new and used autos and storage of tow trucks and auto parts; and

WHEREAS, on March 31, 1998, the Board granted an extension of term to expire on July 30, 2005; and

WHEREAS, however, one of the conditions of this grant stated that no fender or body work nor spray painting of vehicles shall be conducted on the premises; this condition was listed at the request of the applicant, as they intended to cease such uses on the site and did not anticipate their reinstatement; and

WHEREAS, the applicant requests that the Board reestablish the body and fender work uses; and

WHEREAS, the applicant represents that the body and fender work will be located in the same area of the building that was approved for such use in prior Board grants; and

WHEREAS, the Board inquired as to ventilation in the building and the applicant responded that ventilation is achieved through an existing exhaust fan located on the roof; and

WHEREAS, the applicant also stated that there are no windows facing the adjacent residential uses in the R5 zoning district; and

WHEREAS, the applicant would also like to modify the hours of operation from 8AM to 5:30PM Monday through Friday and 8AM to 12PM Saturday to 8AM to 5:30PM Monday through Friday and 8AM to 12PM on both Saturday and Sunday; and

WHEREAS, the applicant also seeks a ten year extension of term; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term for a previously granted variance; and

WHEREAS, based upon the submitted evidence, the Board finds the requested extension of term appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on July 30, 2005, as subsequently extended, so that as amended this portion of the resolution shall read: “to permit fender and body work and spray painting of vehicles on the premises, to allow a change in the hours of operation, and to extend the term for ten years from July 30, 2005, to expire on July 30, 2015, *on condition* that the use shall substantially conform to drawings as filed with this application, marked ‘Received November 4, 2005’-(3) sheets and ‘December 22, 2005’-(1) sheet; and *on further condition*:

THAT the term of this grant shall be for ten years, to expire on July 30, 2015;

THAT the hours of operation shall be from 8AM to 5:30PM Monday through Friday and 8AM to 12PM Saturday and Sunday;

THAT all body and fender work shall occur only within the building in the area indicated on the BSA-approved plans;

THAT no more than two quarts of paint shall be sprayed per day;

THAT the front doors shall be kept closed while the premises are in operation;

MINUTES

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

(DOB Application No. Alt. 1790/84)

Adopted by the Board of Standards and Appeals, January 10, 2006.

122-93-BZ

APPLICANT – Adam Rothkrug, Esq., for Equinox Fitness Club, lessee; 895 Broadway LLC, owner.

SUBJECT – Application March 31, 2005 – Waiver of the rules, extension of term and amendment for a legalization of an enlargement to a physical cultural establishment that added 7, 605 square feet on the second floor and an addition of 743sq.ft on the first floor mezzanine.

PREMISES AFFECTED – 895/99 Broadway, W/S Broadway, 27’6”south of corner of East 20th Street, Block 648, Lot 15, Borough of Manhattan.

COMMUNITY BOARD #5M

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin.....3

Negative:.....0

Abstain: Commissioner Collins.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening to amend the resolution, and an extension of the term of the previously granted special permit that expired on September 20, 2004; and

WHEREAS, a public hearing was held on this application on December 6, 2005, after due notice by publication in *The City Record*, and then to decision on January 10, 2006; and

WHEREAS, Community Board No. 5, Manhattan, waived comment on this application; and

WHEREAS, the subject premises is located on the west side of Broadway, south of East 20th Street; and

WHEREAS, on September 20, 1994, the Board granted a special permit application pursuant to Z.R. § 73-36, to permit, in an M1-5M zoning district, the use of the cellar, first floor and mezzanine of the existing five-story commercial building as a

physical culture establishment (“PCE”); and

WHEREAS, the instant application seeks to: 1) extend the term of the special permit for ten years; and 2) amend the resolution to legalize the extension of the PCE use to the entire second floor and the mezzanine; and

WHEREAS, the applicant represents that prior to the expansion, the PCE occupied 10,188 sq. ft. of floor area in the cellar, 9,869 sq. ft. on the first floor, and 3492 sq. ft. on the mezzanine level; and

WHEREAS, the applicant states that after the expansion, the PCE also occupies 7,605 sq. ft. of floor area on the second floor; the applicant also states that it has modified the mezzanine to include an additional 743 sq. ft. of floor area, for at total of 4,235 sq. ft.; and

WHEREAS, the applicant represents that the hours of operation will continue to be: Monday through Thursday – 6 AM to 11 PM; Friday – 6 AM to 10 PM; and Saturday and Sunday – 8 AM to 9 PM; and

WHEREAS, the Board finds that a ten-year extension and the requested amendment is appropriate, with the conditions set forth below.

Therefore it is Resolved that the Board of Standards and Appeals waives the Rules of Practice and Procedure, and reopens and amends the resolution, dated September 20, 1994, so that as amended this portion of the resolution shall read: “to permit the legalization of interior changes to the PCE including the expansion to the second floor of the building, and an extension of the term of the special permit for a term of ten years; *on condition* that the expansion shall substantially conform to drawings as filed with this application, marked ‘Received October 11, 2005’–(6) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten years from September 20, 2004, expiring September 20, 2014;

THAT the above condition shall appear on the Certificate of Occupancy;

THAT a new Certificate of Occupancy for the premises shall be obtained by July 10, 2006;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

62-96-BZ

APPLICANT – Law Office of Fredrick A. Becker, for 200 Madison Associates, LP, owner; New York Sports Club Inc., lessee.

MINUTES

SUBJECT – Application March 31, 2005 - Amendment to legalize on the first floor the enlargement of a physical culture establishment and to allow the change in ownership. The premise is located in C5-2 zoning district.

PREMISES AFFECTED – 200 Madison Avenue, westerly block of Madison Avenue, between East 35th and East 36th Streets, Block 865, Lot 14, Borough of Manhattan.

COMMUNITY BOARD #5M

APPEARANCES –

For Applicant: Fredrick A. Becker.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin.....3

Negative:.....0

Abstain: Commissioner Collins.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening, and an amendment to a previously approved special permit for a Physical Culture Establishment (“PCE”); and

WHEREAS, a public hearing was held on this application on November 1, 2005, after due notice by publication in *The City Record*, postponed December 6, 2005 and then to decision on January 10, 2006; and

WHEREAS, Community Board No. 5, Manhattan, waived comment as to this application; and

WHEREAS, the premises is located on the west side of Madison Avenue, between East 35th and East 36th Streets; and

WHEREAS, the site is located within a C5-2 zoning district; and

WHEREAS, the premises is improved upon with an existing 25-story commercial building; the PCE is located in portions of the cellar, first floor and mezzanine; and

WHEREAS, on February 4, 1997, under the subject calendar number, the Board granted a special permit pursuant to ZR § 73-36, allowing the subject PCE for a term of 10 years; and

WHEREAS, the applicant represents that the operator of the PCE expanded on the first floor without first obtaining approval of the Board; and

WHEREAS, specifically, the applicant states that the first floor gross floor area devoted to the PCE as approved was 4,474 sq. ft, and that the expansion has increased the gross floor area to 8,924 sq. ft.; and

WHEREAS, the applicant represents that the expansion was undertaken not as a result of an increase in membership, but to accommodate existing members; and

WHEREAS, the applicant also represents that the PCE has been acquired by a new owner/operator, and that approval of this change is also requested; and

WHEREAS, the Department of Investigation has performed a background check on the new corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be

satisfactory; and

WHEREAS, based upon the submitted evidence, the Board finds the requested legalization and change in operator/owner are appropriate.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on February 4, 1997, so that as amended this portion of the resolution shall read: “to permit the legalization of an expansion on the first floor of the facility, as well as a change in ownership and operator, *on condition* that the all work/site conditions shall substantially conform to drawings as filed with this application, marked ‘Received September 23, 2005’-(2) sheets and ‘December 19, 2005’-(3) sheets; *on further condition*:

THAT a new certificate of occupancy be obtained within one year from the date of this grant;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Abstain: Commissioner Collins.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening, an extension of term of a special permit for a Use Group 12a Cabaret, as well as an amendment to the special permit to allow changes to exiting; and

WHEREAS, a public hearing was held on this application on November 1, 2005, after due notice by publication in *The*

MINUTES

City Record, with continued hearings on December 6, 2005 and then to decision on January 10, 2006; and

WHEREAS, the site had an inspection by a committee of the Board, including Chair Srinivasan, Vice-Chair Babbar, and Commissioner Chin; and

WHEREAS, the site is located on the northeast corner of Seventh Avenue South, at the intersection with Christopher Street, and is located within a C4-5 zoning district; and

WHEREAS, it is improved upon with an existing two-story building occupied by a Use Group 6 eating and drinking establishment (the "Bar") on the first floor and a Use Group 12a Cabaret (the "Cabaret") on the second floor; and

WHEREAS, the Bar and the Cabaret are parts of the same establishment; the Bar is an as of right use; and

WHEREAS, the hours of operation of the Cabaret are: 10:30 PM to 4:00 AM, Wednesday through Monday; and

WHEREAS, the Board has exercised jurisdiction over the Cabaret since March 24, 1998, when, under the subject calendar number, it granted an application for a special permit under ZR § 73-244, which allowed the Cabaret on the second floor of the building, for a three year term; and

WHEREAS, this grant was extended on April 17, 2001 for another three year term; this term expired on March 24, 2004; and

WHEREAS, the Board granted the special permit on condition that the only entrance to the Cabaret be located at 113 Seventh Avenue South; and

WHEREAS, the applicant proposes: (1) an extension of term; and (2) an amendment to the permit; and

WHEREAS, specifically, the applicant requests that the Board approve a condition that, when the Cabaret is in operation, all patrons to both the Bar and the Cabaret will enter and exit on Seventh Avenue South; and

WHEREAS, the applicant also asks that the Board approve a condition that when the Cabaret is not in operation, the second floor may be used by the Bar and all patrons will enter and exit on Christopher Street; and

WHEREAS, Community Board No. 2, Manhattan, recommends disapproval of this application; and

WHEREAS, the Central Village Block Association also opposes this application; and

WHEREAS, both the Community Board and the Block Association state that the Cabaret had not been a good neighbor in terms of noise; and

WHEREAS, at hearing, the Board expressed concerns regarding the following: (1) the enforcement of the entrance from Seventh Avenue; (2) the need for appropriate signage indicating the hours of the Cabaret; (3) the potential need for security personnel posted at the two entrances; and (4) the community-based complaints about noise; and

WHEREAS, the applicant has agreed that a sign will be installed in the window of the Bar, indicating that during the hours of operation of the Cabaret, the entrance for both the Bar and the Cabaret will be on Seventh Avenue South; and

WHEREAS, the applicant has also agreed to the posting of security personnel at both the Christopher Street and Seventh

Avenue entrances; the security personnel will ensure that patrons will not congregate or block entrances to the premises; and

WHEREAS, in response to noise concerns, the applicant noted that the windows to the Cabaret are padlocked so that they can not be opened, and that plexiglass was added for further soundproofing; and

WHEREAS, in response to additional concerns regarding doors and emergency egress raised by the Vice-Chair, the applicant agreed to a notation on the plans indicating that the Christopher Street door will have a panic bar and alarm, and after 10:30 P.M., will be used for emergency egress only; and

WHEREAS, the applicant also stated that patrons needed to move freely between the Bar and the Cabaret, so the interior door between the uses would have a panic bar only, but no alarm; and

WHEREAS, at the request of the Board, the applicant re-addressed the special permit findings; and

WHEREAS, specifically, the applicant asserts that: (1) the waiting area is maintained in accordance with the requirements of the special permit and the Board's prior grant; (2) the entrance to the Cabaret, since it will be on Seventh Avenue South, is a minimum of 100 ft. from the nearest residential district boundary; (3) the Cabaret has not and will not cause undue vehicular or pedestrian congestion in local streets; (4) the essential character of the neighborhood is not impaired by the Cabaret; (5) the Cabaret will not cause the sound level in any adjacent lawful residential use to exceed Noise Code limits, due to appropriate soundproofing measures; and (6) the application is made jointly by the owner and the operators of the Cabaret; and

WHEREAS, based upon the submitted evidence, the Board finds the requested extension of term and amendment appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on July 30, 2005, as subsequently extended, so that as amended this portion of the resolution shall read: "to permit a modification of the special permit to include specific conditions, set forth below, and to extend the term for three years from March 24, 2004, to expire on March 24, 2007, *on condition* that the use shall substantially conform to drawings as filed with this application, marked 'Received December 22, 2005'-(2) sheets; and *on further condition*:

THAT the term of this grant shall be for three years from the last expiration date, to expire on March 24, 2007;

THAT the hours of operation of the Cabaret shall be limited to: 10:30 PM to 4:00 AM, Wednesday through Monday;

THAT a sign will be installed in the window of the first floor bar along the Christopher Street entrance, indicating that during the hours of operation of the second floor Cabaret, the entrance for both the bar and the Cabaret will be on Seventh Avenue South;

THAT security personnel shall be stationed at both the Christopher Street and Seventh Avenue entrances, to ensure that patrons do not congregate on the sidewalks near the entrances;

MINUTES

THAT when the Cabaret is not in operation, the entrance to the Bar shall be on Christopher Street;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived or modified by the Board remain in effect;

THAT the premises shall be operated in compliance with the required conditions by February 10, 2005;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance; and

WHEREAS, a public hearing was held on this application on December 23, 2004, after due notice by publication in *The City Record*, and then to decision on January 10, 2006; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject premises is located on the corner of Ocean Parkway and Avenue S, with frontage on East 7th Street, and has a total lot area of approximately 23,000 sq. ft.; and

WHEREAS, the zoning lot is comprised of the following

individual tax lots: 1, 14, 15, 16 and 89; and

WHEREAS, the site is located within an R5 zoning district (within the Ocean Parkway Special Zoning District); and

WHEREAS, the site is improved upon with a three and four story building, currently occupied by the Sephardic Community Center (the “Center”), a not-for-profit entity that serves youth, the elderly, and the Orthodox community by providing various educational, athletic, cultural and counseling services; and

WHEREAS, in 1978, under BSA Calendar No. 246-78-BZ, the Board granted a variance permitting the Center; and

WHEREAS, in 1989, under BSA Calendar No. 489-89-BZ, the Board granted a second variance permitting an enlargement and expansion of the building onto two newly acquired adjacent lots, in order to accommodate the Center’s programmatic needs; and

WHEREAS, construction under the 1989 grant did not take place, due to a poor economic climate and a resulting lack of construction funding; and

WHEREAS, in November of 2000, under BSA Calendar No. 166-00-BZ, the Board granted a third variance permitting another proposed enlargement of the building, again to accommodate the Center’s programmatic needs; and

WHEREAS, the Center did not want to pursue construction under the November 2000 grant, as the anticipated costs were high and would not allow for the continuation of Center activities during construction; and

WHEREAS, accordingly, on September 14, 2004, the Board granted a further application pursuant to Z.R. § 72-21 under the subject calendar number, to permit the proposed enlargement of the Center’s building, which did not comply with the zoning requirements for floor area, floor area ratio, lot coverage, rear yard and rear yard equivalents, and height and setback, contrary to Z.R. §§113-51, 113-544, 113-55, 23-631 and 23-141; and

WHEREAS, the applicant now seeks the following amendments, which are related to the programmatic needs of the Center: (1) the addition of precautionary security measures including a fence at the corner of Ocean Parkway and Avenue S, and the installation of pre-cast stone or metal benches for the open entrance plaza; (2) the relocation of the outdoor play area from street level to the roof, resulting in the extension of one stairway to provide a second means of egress, the extension of the elevator core, and the addition of an accessible rooftop bathroom, all of which results in a slight increase in floor area; (3) a waiver of the required parking; and (4) landscaping and a building projection that does not comply with the Special district requirements regarding landscaping and yards; and

WHEREAS, the applicant represents that the relocation of the playground and related extension of the elevator core and stairway will increase the total floor area by 769.8 sq. ft. from the previous grant; and

WHEREAS, the Board has reviewed the submitted plans, which reflect the installation of the additional security measures, the relocation of the playground to the rooftop, and the landscaping and projection, and finds that they are acceptable

MINUTES

modifications to the approved plans in that they relate to the programmatic needs of the Center and are minor in nature; and

WHEREAS, the applicant represents that a parking requirement for the Center had not been raised by the Department of Buildings or in prior Board actions until the instant application was being contemplated and the oversight was discovered; and

WHEREAS, the applicant suggests that part of this oversight may be due to a 1984 certificate of occupancy that indicates that there is an approximately 8,000 sq. ft. open area for parking; however, the BSA-approved site plan does not show such an open area and the Center currently does not provide the required parking; and

WHEREAS, accordingly, the applicant now asks for a waiver of the applicable parking regulations; and

WHEREAS, at hearing, the Board expressed concern about the parking waiver, and asked the applicant for clarification as to any potential impact the waiver might have; and

WHEREAS, the applicant states that most of the Center's members live in close proximity to the facility, and that its membership and employee count is not increasing as a result of the proposed changes, thus minimizing the need for parking; and

WHEREAS, the applicant also states that senior citizens use the Center for longer periods of time than any other group, and primarily arrived by van service; very few drive their own vehicles to the Center; and

WHEREAS, additionally, the applicant's parking consultant states that there is no significant parking impact from the Center or the uses therein; and

WHEREAS, based upon the submitted evidence, the Board finds the requested extension of term and amendment appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on September 14, 2004, so that as amended this portion of the resolution shall read: "to permit the addition of security measures and non-complying landscaping, the relocation of a playground, and a waiver of parking requirements, *on condition* that all work shall substantially conform to drawings as filed with this application, marked 'Received January 4, 2006'-(13) sheets; and *on further condition*:

THAT all security measures and landscaping shall be installed and maintained as indicated on the BSA-approved plans;

THAT the above condition shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not

related to the relief granted."

(DOB Application No. 301770509)

Adopted by the Board of Standards and Appeals, January 10, 2006.

780-45-BZ

APPLICANT – Anthony G. Mango, for Guiseppe Rapisardi and Ann Rapisardi, owners.

SUBJECT – Application June 23, 2005 – Pursuant to Z.R. §11-413 the legalization of the existing/proposed change of use within the same Use Group 16 from a beer storage of trucks to a plumbing contractor's establishment with storage of plumbing tools, equipment, supplies and the storage of equipment vans. The premise is located in an R6B zoning district.

PREMISES AFFECTED – 1818-1820 Bleecker Street, east side of Bleecker Street, 155' north of Seneca Avenue, Block 3435, Lots 21 and 22, Borough of Queens.

THE RESOLUTION -

WHEREAS, the decision of the Queens Borough Commissioner, dated February 10, 2005, acting on Department of Buildings Application No. 402039487, reads:

“Proposed building located partially within the mapped but unimproved section of Greene Avenue is contrary to General City Law Section 35 and requires approval at the NYC Board of Standards and Appeals”; and

WHEREAS, a public hearing was held on this application on December 13, 2005 after due notice by publication in the *City Record*, and then to decision on January 10, 2006; and

WHEREAS, by letter dated November 4, 2005, the Department of Transportation states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated August 15, 2005, the Department of Environmental Protection states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated December 8, 2005, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, Community Board 5, Queens, opposed this application, stating that is was concerned that the proposed development would be out of scale with the character of the community; and

WHEREAS, the Board notes that its grant herein only

MINUTES

pertains to the ability to build within the bed of a mapped street, and that all construction must conform and comply with applicable zoning regulations; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated February 10, 2005, acting on Department of Buildings Application No. 402039487, is modified under the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; on condition that construction shall substantially conform to the drawing filed with the application marked "Received December 22, 2005"-(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and on further condition:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 10, 2006.

191-05-A/192-05-A

APPLICANT – Eric Palatnik, P.C., for Juliana Forbes, owner.

SUBJECT – Application filed on August 15, 2005 – Proposed construction of a two - two story, two family dwellings, which lies partially within the bed of a mapped street, is contrary to Section 35, Article 3 of the General City Law.

PREMISES AFFECTED – 12-09 116th Street, and 12-11 116th Street, at the intersection of 116th Street and 12th Avenue, Block 4023, Lots 44 and 45, Borough of Queens.

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated August 10, 2005 acting on Department of Buildings Application Nos. 402188066 and 402188057, reads:

“Proposed new building in the bed of a mapped

street is contrary to General City Law Number 35; Refer to BSA requirements”; and

WHEREAS, a public hearing was held on this application on December 6, 2005 after due notice by publication in the *City Record*, and then to closure and decision on January 10, 2006; and

WHEREAS, by letter dated October 20, 2005, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated October 3, 2005, the Department of Transportation has reviewed the project and has recommended that the applicant provide the following: a ten foot side walk in front of the properties and adequate drainage facilities within the lots to prevent storm water draining into the street; and

WHEREAS, by letter dated December 27, 2005, the applicant states that it has agreed to the DOT recommendations and will provide the ten foot sidewalk in front of the properties and show sidewalks on the Builder’s Pavement Plan; and

WHEREAS, the applicant has also agreed to provide slope grades changes for site drainage internally to area drains and drywells on site, to prevent storm site water from draining into the street; and

WHEREAS, accordingly, the applicant revised the site plan to reflect the ten foot sidewalk and the drainage facilities; and

WHEREAS, by letter dated September 16, 2005, the Department of Environmental Protection states that it has reviewed the project and has no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated August 10, 2005, acting on Department of Buildings Application Nos. 402188066 and 402188057, is modified under the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; on condition that construction shall substantially conform to the drawing filed with the application marked "Received December 27, 2005"-(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and on further condition:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated October 7, 2005, acting on Department of Buildings Application No. 102666394, reads:

“The lot coverage exceeds that permitted by section 23-145 and 35-23 of the Zoning Resolution for Quality Housing”; and

WHEREAS, this is an application under Z.R. § 72-21, to permit, within a C6-1 zoning district, the proposed legalization of a mixed-use residential/commercial building, which does not comply with Quality Housing zoning requirements for lot coverage, contrary to Z.R. §§ 23-145 and 35-23; and

WHEREAS, a public hearing was held on this application on February 15, 2005 after due notice by publication in the *City Record*, with continued hearings on May 10, 2005, and August 9, 2005, and then to decision on December 6, 2005; the decision was then deferred to January 10, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board consisting of Chair Srinivasan, Vice Chair Babbar, and Commissioner Chin; and

WHEREAS, Community Board 3, Manhattan, and the Borough President recommend approval of this application; and

WHEREAS, the original version of this application requested relief from applicable Floor Area Ratio (FAR), Open Space Ratio (OSR), and interior density requirements, set forth at ZR §§ 23-142, 35-23, 23-22 and 35-40, based upon a height-factor zoning analysis; and

WHEREAS, after taking instruction from the Board, the applicant modified the application to: (1) decrease the amount of units from 14 to 11; and (2) reflect a Quality Housing development and analysis; these two changes reduced the amount of variances to only the requested lot coverage waiver; and

WHEREAS, the site is a through lot located between Orchard and Allen Streets, on the block bounded by Delancey and Rivington Streets; and

WHEREAS, the site is 25’ wide by 87’-7” deep, and has a total lot area of 2,189 sq. ft.; and

WHEREAS, the site is improved upon with a five-story, 49’-1” high mixed-use residential/commercial building, with ground floor retail, and currently 14 residential units on floors two through five; and

WHEREAS, the applicant represents that the site was previously occupied by a five-story Old Law Tenement; and

WHEREAS, the applicant states that in 1934, floors two through five were removed; and

WHEREAS, the applicant further states that in 1999, DOB approved plans for the restoration of these floors, with a 14 ft. extension at the second floor; the plans reflected 14 Use Group 2 residential units; and

WHEREAS, a permit was issued and work was completed in January 2002; and

WHEREAS, a subsequent DOB audit revealed that the building as constructed did not comply with applicable OSR requirements; and

WHEREAS, the applicant states that in December of 2003, DOB authorized a waiver of the OSR objection in conjunction with a change in use from Use Group 2 residences to Use Group 5 hotel, and also allowed construction of an additional floor; and

WHEREAS, however, a hotel was not deemed financially feasible due to lease termination issues, as well as structural alteration issues that would arise from the need to create certain public areas required in hotels; and

WHEREAS, the applicant subsequently filed the instant variance application, seeking relief from the OSR requirement, as well as the above-mentioned FAR and interior density requirements; and

WHEREAS, after modifying the initial application to eliminate all but the lot coverage waiver request, the applicant now proposes the legalization of a building with the following bulk parameters: (1) an FAR of 4.37 (6.0 is the maximum permitted); (2) a total floor area of 9,575 sq. ft. (13,137 sq. ft. is the maximum permitted); (3) eleven dwelling units (a permitted amount); (4) a height of 49’-1” (60’-0” is the maximum permitted); and (5) a non-complying lot coverage of 100% at the second floor, and 84% on the remaining floors (65% is the maximum permitted); and

MINUTES

WHEREAS, the Board observes that the proposed uses – residential and commercial – are permitted on the site because the C6-1 zoning district is an R7 zoning district equivalent for residential purposes; and

WHEREAS, thus, the use and bulk of the building will comply with applicable zoning parameters, except for Quality Housing lot coverage regulations; and

WHEREAS, the applicant has presented various arguments in support of the claim that the site suffers from unique physical conditions that prevented compliance with the applicable bulk regulations; and

WHEREAS, specifically, the applicant states that: (1) the site was previously occupied by a multiple dwelling with bulk comparable to that being requested in the instant application; (2) the proposed bulk of the building is comparable to that of adjacent buildings; (3) other conforming uses allowed in the subject zoning district would impose greater loads on the party walls, necessitating the installation of columns that would decrease first floor sales area; and (4) vast expenditures were made in good faith reliance upon the initial building permit; and

WHEREAS, leaving aside the factual accuracy of these various arguments, the Board finds that none of the claimed bases of uniqueness has a nexus with the requested lot coverage relief; and

WHEREAS, instead, the Board finds that it is the site's narrowness (25'-0" in width) and shallowness (87'-7" in depth) and the fact that it is a through lot that makes compliance with the applicable lot coverage provisions difficult; and

WHEREAS, the Board notes that typically through lots are 200'-0" in depth; and

WHEREAS, the Board also notes that because the site is a through lot, no rear yard is required; and

WHEREAS, however, if the applicant complied with the Quality Housing lot coverage requirements, open space would exist on the site; and

WHEREAS, this open space would meet the definition of an "outer court" as set forth in Z.R. §12-10; and

WHEREAS, this definition reads: "an 'outer court' is any open area, other than a yard or portion thereof, which is unobstructed from its level to the sky and which, except for one opening upon (a) a front lot line; (b) a front yard; (c) a rear yard; or (d) any open area along a rear lot line, or along a side lot line having a width or depth of at least 30 feet, and which open area extends along the entire length of such rear or side lot line; and is bounded by the building walls, or building walls and one or more lot lines other than a front lot line."; and

WHEREAS, here, if a building fronting on Allen Street was built with complying lot coverage and a complying street wall, an area that meets the definition of "open court" would result on the Orchard Street side; and

WHEREAS, however, the "open court" would only be 25 ft. wide due to the width of the lot, and thus it would be subject to special outer court regulations for narrow lots set forth at Z.R. § 23-841; and

WHEREAS, Z.R. §23-841 provides that in an R7

equivalent district, "if an outer court is less than 30 ft. wide, the width of such outer court shall be at least one and one-third the depth of such outer court; and

WHEREAS, thus, any outer court has a required depth of at least 18 ft., which could not be achieved on the site if the development complied with the maximum lot coverage; and

WHEREAS, since DOB can not permit the creation of a non-complying outer court, the applicant requires lot coverage relief; and

WHEREAS, the Board notes that that this analysis holds true regardless of the street wall location; and

WHEREAS, pursuant to Z.R. §35-24(b), for a mixed-use building with a Quality Housing residential component, at least 70% of the aggregate width of street walls shall be located within eight feet of the street line; and

WHEREAS, whether the street wall was located on the street line, eight feet off of the street line, or at some point in between, if a building was developed with complying lot coverage, a non-complying outer court would be created; and

WHEREAS, the Board further observes that while a pure residential building could be developed without regards to the mixed-use building street wall requirement, such a building would be severely under-built in terms of floor area due to the applicable lot coverage requirement; a pure residential building, as discussed further below, would not be financially viable; and

WHEREAS, finally, the Board observes that the narrowness and depth of the lot also makes compliance with height-factor zoning impractical since the limits of the lot width make any open space non-complying; and

WHEREAS, accordingly, the Board finds that the site's width, depth and status as a through is a unique physical conditions that creates practical difficulties and unnecessary hardship in developing the site in strict compliance with applicable zoning regulations; and

WHEREAS, since the Board finds this basis of uniqueness sufficient to sustain the uniqueness finding, the Board declines to address the applicant's good faith reliance argument; and

WHEREAS, the applicant initially submitted a feasibility study analyzing the following three complying development scenarios: (1) a complying transient hotel, with a retail component; (2) a complying commercial office building with ground floor retail; and (3) a complying residential building with ground floor retail; and

WHEREAS, at hearing, the Board asked for a more refined study, analyzing a broader range of scenarios, and not including in the analysis those costs related to the demolition of the existing non-complying building; and

WHEREAS, in response, the applicant submitted a revised study analyzing the following four scenarios: (1) a three-story "walk-up" apartment building; (2) a four-story "walk-up" apartment building; (3) a six-story residential elevator building; and (4) a seven-story residential elevator building; and

WHEREAS, the study, which did not include demolition costs, concluded that none of these scenarios

MINUTES

realized a reasonable return; and

WHEREAS, based upon the above, the Board has determined that because of the subject site's unique physical condition, there is no reasonable possibility that development in strict compliance with applicable zoning provisions will provide a reasonable return; and

WHEREAS, the applicant represents that the proposal, if granted, will not affect the character of the neighborhood, impair adjacent uses, nor be detrimental to the public welfare; and

WHEREAS, the applicant states that the neighborhood surrounding the site is comprised of mixed-use buildings, with ground floor retail use and upper floor residential use; and

WHEREAS, the applicant further states that the other multiple dwellings in the area all have lot coverages of between eighty and one hundred percent; and

WHEREAS, the Board observes that aside from the lot coverage non-compliance, the building complies and conforms in all respects to the requirements of the subject zoning district, and that legal light and air to the units is not compromised; and

WHEREAS, the Board observes that although the applicant constructed the building prior to filing the instant variance application, the hardship relates to the width, depth and through lot status of the site rather than the existing building; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, as noted above, the applicant reduced the amount of units and modified the zoning analysis, such that the only waiver requested is for Quality Housing lot coverage; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. §72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BS037M, dated November 30, 2004; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration in accordance with 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes the required findings under Z.R. §72-21, to permit, within a C6-1 zoning district, the proposed legalization of a mixed-use residential/commercial building, which does not comply with Quality Housing zoning requirements for lot coverage, contrary to Z.R. §§ 23-145 and 35-23; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 28, 2005"--(11) sheets; and *on further condition*:

THAT the bulk parameters of the proposed building shall be as follows: (1) a commercial FAR of 1.0; (2) a residential FAR of 3.37; (3) a total FAR of 3.37; (4) a lot coverage of 100% at the second floor, and 84% on the third through fifth floors; (5) eleven dwelling units; and (6) a height of 49'-1";

THAT the interior layout and all exiting requirements shall be as reviewed and approved by the Department of Buildings;

THAT recreation space and street trees shall be provided as indicated on the BSA-approved plans;

THAT the proposed building shall comply with all applicable Quality Housing provisions, as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 10, 2006.

344-04-BZ

APPLICANT – Alfonso Duarte, for NWRE 202 Corp., owner.

SUBJECT – Application October 20, 2004 – under Z.R. §72-21 – proposed use of an open lot for the sale of new and used automobiles, located in a C2-2 within an R3-2 zoning district, is contrary to Z.R. §32-25.

PREMISES AFFECTED – 202-01 Northern Boulevard, northeast corner of 202nd Street, Block 6263, Lot 29, Borough of Queens.

COMMUNITY BOARD #11Q

APPEARANCES –

For Applicant: Alfonso Duarte.

MINUTES

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin.....3

Negative:.....0

Abstain: Commissioner Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated October 18, 2004, acting on Department of Buildings Application No. 401624444, reads:

“Proposed use of open lot for sale of automobiles contrary to Sect. 32-25 Z.R.”; and

WHEREAS, a public hearing was held on this application on September 27, 2005 after due notice by publication in the *City Record*, with continued hearings on November 15 and December 13, 2005, and then to decision on January 10, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioner Chin; and

WHEREAS, Community Board No. 11, Queens, recommends disapproval of this application; and

WHEREAS, this is an application under Z.R. § 72-21, to permit, in a C2-2 zoning district within an R3-2 zoning district, the proposed use of an open lot for the sale of new and used automobiles, contrary to Z.R. § 35-25; and

WHEREAS, the premises is located on the northeast corner of Northern Boulevard and 202nd Street; and

WHEREAS, the subject zoning lot is a trapezoidal-shaped lot with frontages of approximately 72 ft. on 202nd Street and approximately 95 ft. on Northern Boulevard, and has a total lot area of approximately 8,252 sq. ft.; and

WHEREAS, on February 16, 1965, the Board approved a variance for the site to permit the maintenance of an automotive sales lot in conjunction with a proposed automotive retail establishment for a term of five years; and

WHEREAS, the variance was extended for a term of ten years on February 16, 1970; and

WHEREAS, on October 28, 1980, the Board denied a further extension of the term of the variance; the resolution states that the Board requested at several public hearings that the premises be cleaned of debris and weeds and that a full width sidewalk be installed on Northern Boulevard and 202nd Street before a decision be made; and

WHEREAS, the applicant represents that the lot and sidewalk on 202nd Street is now cleared of weeds and debris and that a full width sidewalk was installed on Northern Boulevard; and

WHEREAS, the applicant represents that the property has been used sporadically since the 1980 denial; in 1985, it was used as additional parking for an adjacent convenience store for a term of two-and-one-half years; in 1995, it was used to store inventory for an automobile showroom located across the street for six years; and in 2002, it was leased to a car dealer located

across the street for storage of vehicles; and

WHEREAS, the applicant represents that the following are unique physical conditions inherent to the zoning lot, which create practical difficulties and unnecessary hardship in developing the site with a conforming use: (1) the lot is small and irregularly shaped; (2) the lot is located on an arterial highway; and (3) the lot has a history of development consistent with the proposed use; and

WHEREAS, the applicant represents that due to the small size of the lot and its irregular shape, the lot is not conducive for commercial uses that prevail in the area (i.e., establishments with drive-thru facilities); and

WHEREAS, specifically, the applicant represents that the owner was contacted by a fast-food restaurant interested in leasing the property, but the restaurant declined to enter into a lease because it determined that due to the site’s small size and irregular shape it was not feasible to construct a drive-thru facility on the site; and

WHEREAS, the Board asked the applicant to provide additional information about the sizes of sites surrounding the subject lot; and

WHEREAS, in response, the applicant submitted a survey of 15 sites located along Northern Boulevard; the survey reflects that most of the sites are at least 10,000 sq. ft., and the few sites that are similarly-sized are rectangular rather than trapezoidal; in addition, only two of the sites surveyed are vacant; and

WHEREAS, the applicant also notes that the Board granted a variance on this lot in the past, and as part of such grant the Board determined that the site was unique; and

WHEREAS, the Board notes that since 1965, the property has been actively used as an automotive sales lot or for parking/storage for a total of approximately 27 years; and

WHEREAS, accordingly, the Board finds that the unique conditions mentioned above, when considered in the aggregate, create practical difficulties and unnecessary hardship in developing the entire site in strict conformity with current zoning; and

WHEREAS, the applicant represents that after the Board denied an extension of the variance in 1980, the owner placed a “Build to Suit” sign on the premises, but only received calls from persons who desired to use the property for the sale of automobiles; and

WHEREAS, the applicant further represents that the property was unsuccessfully listed with brokers for a period of approximately ten years; and

WHEREAS, the applicant has submitted letters from two local real estate agents that state that in their opinion a feasible use of the subject property is for automotive sales, due to the configuration of the lot and the limited opportunity for accessory parking on-site if a building were to be constructed; and

WHEREAS, the applicant has also submitted the addresses of six new buildings currently being erected along Northern Boulevard; the buildings are all being constructed on lots between approximately 10,000 sq. ft. and 20,000 sq. ft. in lot area; and

WHEREAS, the applicant has submitted a feasibility

MINUTES

study analyzing an as-of-right one-story commercial building; the study states that such a conforming building would not result in a reasonable return; and

WHEREAS, the Board initially questioned the comparables which were used in the feasibility study; the applicant responded that a search of public records revealed that only three verifiable vacant land sales within two miles of the site had occurred within the last two years; and

WHEREAS, based upon its review of the record, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in conformance with the use provisions applicable in the subject zoning district will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed variance, if granted, will not negatively impact the character of the community; and

WHEREAS, the applicant represents that Northern Boulevard is an arterial highway and that at least five businesses near the site on Northern Boulevard between Francis Lewis Boulevard and the Clearview Expressway sell new and used cars; and

WHEREAS, the applicant has submitted a land use map that shows that the subject site is surrounded by automotive sales uses and other commercial uses, except for a residential use abutting a small portion of the site at the rear; and

WHEREAS, the applicant represents certain recommendations made by the zoning committee of the Community Board will be implemented, including the following: install new sidewalk; no repairs or servicing of autos on the site; washing of cars to be limited to keeping cars clean and will be done by hose and hand; no gas pumps will be installed; maximum number of cars on-site shall be limited to 30; hours of operation shall be from 10AM to 6PM Monday through Saturday; barbed wire or razor wiring will not be installed and any existing barbed or razor wire will be removed; and the lot will be kept free of dirt and debris; and

WHEREAS, the applicant has also agreed to a ten year term; and

WHEREAS, the Board finds that the subject application, if granted, will not alter the essential character of the surrounding neighborhood or impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, accordingly, the Board finds that the hardship herein was not self-created by the owner or a predecessor in title; and

WHEREAS, this proposal is the minimum necessary to afford relief; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6NYCRR, Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant

information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA125Q dated June 25, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under Z.R. § 72-21, to permit, in a C2-2 zoning district within an R3-2 zoning district, the proposed use of an open lot for the sale of new and used automobiles, for a term of ten years from January 10, 2006, to expire on January 10, 2016, contrary to Z.R. § 35-25; *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked "Received December 19, 2005"-(1) sheet; and *on further condition*:

THAT this variance shall be for a term of ten years, to expire on January 10, 2016;

THAT the maximum number of cars permitted on-site is 30;

THAT the hours of operation shall be from 10AM to 6PM Monday through Saturday;

THAT no repairs or servicing of automobiles shall take place on site;

THAT washing of cars shall be conducted only by hose and hand;

THAT no gas pumps shall be installed on the site;

THAT barbed wire or razor wiring will not be installed and any existing barbed or razor wire will be removed;

THAT the lot shall be kept free of dirt and debris;

THAT lighting shall be directed away from all residences;

THAT sidewalks shall be installed as indicated on the BSA-approved plans, and maintained in good repair

THAT the above conditions shall be listed on the certificate of occupancy;

THAT the existing curb cut on 202nd Street shall be eliminated and the curb restored;

THAT the size and location of the proposed office

MINUTES

trailer shall be as approved by the Department of Buildings;

THAT the layout of the property, location and size of the curb cut and fence shall be as approved by the Department of Buildings;

THAT all signage shall comply with C1-2 zoning regulations;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 10, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated January 27, 2005, acting on Department of Buildings Application No. 103670029, reads:

1. The proposed addition of new 6th and 7th floors for residential use of Joint Living Work Quarters for Artists (Use Group 17D) in M1-5B is not permitted and is contrary to Z.R. 42-14(D).
2. The proposed change in use on the first floor from a “Wholesale Establishment” (Use Group 16) to “Retail Use” (Use Group 6) in M1-5B is not permitted and is contrary to Z.R. 41-14(D).
3. The proposed Physical Culture Establishment on first floor and cellar requires BSA approval as per Z.R. 73-36.
4. The proposed accessory parking is not permitted and is contrary to Z.R. 13-12(a).”; and

WHEREAS, this is an application under Z.R. § 72-21, to permit, on a lot within an M1-5B zoning district: (1) the proposed construction of partial sixth and seventh stories on an existing five story plus mezzanines, cellar and sub-cellar building, to be occupied by Joint Living Work Quarters for Artists (Use Group 17D) (“JWLQA”); (2) use of the first floor and cellar level for retail use (Use Group 6); and (3) use of the sub-cellar for 10 accessory parking spaces, contrary to Z.R. §§ 42-14(D), 41-14(D), and 13-12(a); and under Z.R. § 73-36, to

MINUTES

permit a Physical Culture Establishment (“PCE”) at the cellar level; and

WHEREAS, a public hearing was held on this application on July 26, 2005, 2005, after due notice by publication in the *City Record*, with continued hearings on September 13, 2005, October 18, 2005, and November 29, 2005, and then to decision on January 10, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject premises is located at the southeast corner of Broome and Crosby Streets, and consists of a 50 by 100 ft. corner lot and a 50 by 19 ft. interior lot, with a total lot area of 5,991 sq. ft.; and

WHEREAS, the site has 50’1” of frontage on Broome Street and 119’-1” of frontage on Crosby Street; and

WHEREAS, the property is currently improved upon with a five-story building, with a non-complying Floor Area Ratio (“FAR”) of 5.16, with the following legal uses: sub-cellar – “agriculture (bean sprout farm)”; cellar, first floor and first floor mezzanine – “wholesale uses”; and floors two through five – “JLWQA, with accessory storage on each of the mezzanines”; and

WHEREAS, the applicant represents that the ground floor, cellar and sub-cellar are currently vacant; and

WHEREAS, the applicant further represents that the upper floors contain ten JWLQA units, which are considered lawful non-conforming uses due to the date that the building was converted; and

WHEREAS, the applicant states that only two of the units are currently occupied, and both have rent stabilized Interim Multiple Dwelling status; and

WHEREAS, the applicant proposes to enlarge the existing building by approximately 6,730 gross sq. ft. through the addition of partial sixth and seventh stories; the sixth floor will also have a mezzanine; and

WHEREAS, the applicant represents that the increase in gross floor area would result from the reallocation of zoning floor area from the elimination of the first floor mezzanine, and floor space from the elimination of portions of the second and third floor mezzanines and the entire fourth and fifth floor mezzanines; and

WHEREAS, the applicant states that this increase in gross floor area results in an increase in zoning floor area of 4,713 sq. ft. to 35,630 sq. ft. overall, for a resulting FAR of 5.94; and

WHEREAS, the building once enlarged will have seven stories, a streetwall height of 78’-6”, a total height of 126-2 ½” (including bulkheads and towers); fifth floor setbacks of 10’-0” on Crosby and 15’-0” on Broome, and twelve dwelling units, all of which will be categorized as UG17 JWLQ; and

WHEREAS, ten accessory parking spaces will be located in the sub-cellar level; and

WHEREAS, the cellar and ground floor will be occupied

by a spa-type PCE, offering Use Group 6 hair and beauty services on the first floor and massage services in the cellar; and

WHEREAS, the proposed building will require the following waivers: a use waiver for the newly created JWLQA units on the proposed sixth and seventh floors (JWLQAs, while permitted as of right in M1-5B zoning districts, may not be created in new floor area); a use waiver for the Use Group 6 hair salon on the first floor and cellar levels (retail uses are not permitted below the second floor in M1-5B zoning districts); and a parking waiver to create the 10 accessory parking spaces in the sub-cellar (none are permitted as of right); and

WHEREAS, additionally, a special permit is required for the PCE; and

WHEREAS, the applicant states that because the existing building is adjacent to the Soho Cast Iron Historic District, the NYC Landmarks Preservation Commission (LPC) and the owner agreed that the enlargement of the building would proceed as if the building were a designated landmark; and

WHEREAS, thus, the two proposed stories are setback so that they are only minimally visible; additionally, the façade and fenestration will be reconstructed in a manner approved by LPC; and

WHEREAS, finally, the applicant represents that the owner of the subject premises has agreed to execute and record a light and air easement against the property to protect the light and air of the adjacent building at 423 Broome Street; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the building has structural problems that primarily are the result of the hydroponic bean sprout farm that existed in the cellar and sub-cellar for approximately twenty years, as well as the installation of oversized rooftop water tanks; (2) mold exists in the lower levels of the building, again as a result of the bean sprout farm; (3) the building has only one elevator, which is obsolete and non-functioning; (4) the building has a structurally unsound wooden stair layout that reduces usable floor area; and (5) the LPC imposed requirements as to façade treatment; and

WHEREAS, as to the first and second bases of uniqueness, the applicant states that the bean sprout operation excavated the existing concrete floor by 12” in order to increase the height of the ceiling, and dug draining trenches in the floor of the sub-cellar; and

WHEREAS, the applicant has submitted a letter from its engineering consultant that explains that significant leakage occurred from the trench system, which allowed water to filter into the sand below the building; and

WHEREAS, this leakage in turn resulted in erosion of the soil, which caused the wooden ceiling beams to separate from the building walls, and also caused cast iron beams on the first floor to separate; and

WHEREAS, these structural elements were already compromised due to the extensive mold growth that occurred because of the moist environment that the bean sprout operation required; and

MINUTES

WHEREAS, the applicant estimates that remedying these problems will cost approximately 1.2 million dollars; and

WHEREAS, as to the third basis of uniqueness, the applicant states that the elevator is an obsolete hydro-powered model that has not functioned for over 25 years, and which even if rehabilitated, could not support conforming uses; and

WHEREAS, in support of the contention that the elevator may properly be considered a contributing unique hardship, the applicant cites to past Board cases where the Board found that obsolete elevators were part of the hardship; and

WHEREAS, as to the fourth basis of uniqueness, the applicant states that the existing wood stairwell does not comply with modern Building Code standards, and, because of the structural damage, a replacement stair must be built upon an entirely new structural support system; and

WHEREAS, the applicant further states that the location of the stair in a long hallway running along the western wall of the building uses up a significant amount of floor area that could otherwise be used; and

WHEREAS, as to the fifth basis of uniqueness, the applicant states that the LPC-imposed façade improvements result in a significant premium cost over and above what the owner would have spent had no such requirements been imposed; specifically, the applicant states that the differential costs for the façade treatment and fenestration total approximately \$620,000; and

WHEREAS, the Board initially questioned these alleged bases of unique hardship, in that certain of them appeared to represent mere maintenance issues common to most buildings of comparable age and condition in the neighborhood; and

WHEREAS, however, the applicant subsequently submitted a more refined statement of facts and findings that went into specific detail as to why the cited conditions were in fact unique to the building and should be considered actual hardships; as discussed above, the applicant also submitted testimony from an engineer and the owner in support of these contentions; and

WHEREAS, the Board has reviewed the new statement and the supporting documentation and agrees with the applicant that the cited conditions are unique and do impose a hardship in using the building for a conforming development in terms of the premium costs that must be incurred to address them; and

WHEREAS, the Board further observes that the applicant has shown that the cited unique factors and resulting hardship costs are not related to the rehabilitation of the building or ongoing maintenance; and

WHEREAS, finally, the Board notes that the parking waiver accommodates an accessory parking garage that increases overall revenue from the project, thereby addressing the cited hardship costs; and

WHEREAS, accordingly, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility

study analyzing the following as-of-right scenario: the renovation of the existing five-story building, with commercial use on the first floor and first floor mezzanine levels, and JWLQA units on the second through fifth floors; and

WHEREAS, the applicant concluded that such a scenario would result in a loss; and

WHEREAS, however, the Board had concerns regarding certain aspects of this study; and

WHEREAS, specifically, the Board questioned whether the analysis of the site valuation should reflect a reduction of the value of the existing mezzanine areas, given that they are not full floors; and

WHEREAS, the applicant revised the analysis and valued the mezzanines at 75% of the value of the non-mezzanine areas, which reduced the site valuation; and

WHEREAS, the Board also asked the applicant to address whether the reduced value of the existing IMD units should have been accounted for in the site valuation; and

WHEREAS, the applicant responded that it assumed full market value for the IMD units in calculating return, even though such value was not achieved; therefore, the applicant did not feel it was appropriate to modify the site valuation to reflect their lesser actual value; and

WHEREAS, the Board also requested that the cost of, and the profit to be derived from, the sub-cellar parking be folded into the feasibility study for the proposal; and

WHEREAS, the applicant showed that the parking facility would be a profitable aspect of the project, in light of the construction costs related to the parking facility and the anticipated operating income; and

WHEREAS, finally, at the request of the Board, the applicant, in order to demonstrate the need for the requested variance, prepared a comparative analysis of an alternative non-conforming development with and without the inclusion of the above-mentioned hardship costs; and

WHEREAS, this analysis showed that without the hardship costs, this alternative non-conforming development would in fact be a viable development scenario; however, when the costs were included, such a scenario was not viable; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant notes that the proposed addition will be setback from the streets such that it will only be visible from the rear of the building; and

WHEREAS, the applicant also notes that the building will be rehabilitated in terms of façade and fenestration as if it were a designated landmark, with the approval of LPC and local landmark advocacy groups; and

MINUTES

WHEREAS, the applicant further states that the introduction of two new JLWQA units and ten parking spaces will not negatively impact the character of the neighborhood or create any adverse impacts, and is consistent with the scale of, and uses in, the neighborhood; and

WHEREAS, therefore, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, during the course of the hearing process, the Board asked the applicant to provide a financial analysis of an alternative scenario, which was a six-story building that would retain the floor area that would have been used for a seventh floor as mezzanines; the applicant analyzed such a scenario and concluded that it would not generate a viable return; and

WHEREAS, the Board also observed that an earlier version of the proposal included a seventh floor mezzanine in a building with a greater total FAR; at the request of the Board, this mezzanine was reduced; and

WHEREAS, accordingly, the Board further finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. § 72-21; and

WHEREAS, additionally, the applicant has addressed the findings required by ZR § 73-36 for the PCE special permit; and

WHEREAS, specifically, the applicant states that the PCE will have facilities for a variety of body treatment and beauty services including manicure, pedicure, facials, waxing and massage; and

WHEREAS, the applicant states that all masseurs and masseuses employed by the facility are New York State licensed masseurs and masseuses; and

WHEREAS, the applicant states that the spa will be located partially on the ground floor, which is comparable to many other buildings in the area, which also have ground floor retail uses; and

WHEREAS, the applicant cites to the adjacent building on Broome Street, which has a clothing store on the ground floor, as well as the next building, the ground floor of which is being renovated for retail use; and

WHEREAS, the applicant also states that there are other PCEs in the SoHo neighborhood; and

WHEREAS, accordingly, the Board finds that the grant of the special permit will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type I action pursuant to Sections 617.6(h) and 617.2(h) of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA077M dated December 22, 2004; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under Z.R. § 72-21 and grants a variance to permit, on a lot within an M1-5B zoning district: (1) the proposed construction of partial sixth and seventh stories on an existing five story plus mezzanines, cellar and sub-cellar building, to be occupied by Joint Living Work Quarters for Artists (Use Group 17D) (“JWLQ”); (2) use of the first floor and cellar level for retail use (Use Group 6); and (3) use of the sub-cellar for 10 accessory parking spaces, contrary to Z.R. §§ 42-14(D), 41-14(D), and 13-12(a); and makes each and every one of the required findings under Z.R. §§ 73-36 and 73-03 and grants a special permit for a Physical Culture Establishment at the cellar level, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received December 27, 2005”-(5) sheets and “Received January 6, 2006”-(8) sheets; and *on further condition*:

THAT the term of the special permit grant shall be for ten years, from January 10, 2006, expiring on January 10, 2016;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

MINUTES

THAT the hours of operation shall be limited to 10AM to 9 PM daily;

THAT all massages shall be performed by New York State licensed individuals only;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance as to the physical culture establishment shall be as reviewed and approved by DOB;

THAT fire safety measures in the physical culture establishment, including a sprinkler system, shall be as installed and maintained on the Board-approved plans;

THAT an interior fire alarm system shall be provided as set forth on the BSA-approved plans and approved by DOB;

THAT the following shall be the bulk parameters of the proposed building: a residential FAR of 5.14; a commercial FAR of 0.8; a total FAR of 5.94; seven stories; a street wall height of 78'-6"; a total height of 126-2 1/2" (including bulkheads and towers); twelve dwelling units; fifth floor setbacks of 10'-0" on Crosby Street and 15'-0" on Broome Street; and ten parking spaces in the sub-cellar;

THAT all mechanical deductions shall be as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 10, 2006.

THE RESOLUTION -

WHEREAS, the decision of the Manhattan Borough Commissioner, dated December 1, 2005, acting on Department of Buildings Application No. 104044133, reads:

“The proposed mixed use building located on a zoning lot divided by a district boundary between a C1-7A zoning district and a C1-6A zoning district does not comply with the bulk regulations regarding floor area ratio (ZR 23-145, 33-122, 35-31) lot coverage (ZR 23-145) side yards (ZR (23-46, 33-35) and height and setback (ZR 23-633, 33-431, 35-24) and provides for accessory off-street parking spaces that exceeds that permitted by the Resolution (ZR 13-12).”; and

WHEREAS, this is an application under Z.R. § 72-21, to permit, on a lot partially within a C1-7A zoning district and partially within a C1-6A zoning district, the proposed construction of a fifteen and three story mixed-use residential/commercial building, with ground floor retail and an underground accessory parking garage, which does not comply with applicable requirements for floor area ratio (“FAR”), lot coverage, side yards, height and setback, and off-street parking, contrary to Z.R. §§ 23-145, 33-122, 35-31, 23-46, 33-35, 23-633, 33-431, 35-24 and 13-12; and

WHEREAS, a public hearing was held on this application on September 28, 2005, after due notice by publication in the *City Record*, with continued hearings on November 2, 2005, November 29, 2005 and then to decision on January 10, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin; and

WHEREAS, the subject premises is an irregular “L”-shaped lot, with a lot area of approximately 32,106 sq. ft., with 160'-0" of frontage along West Street (a wide street, a/k/a the West Side Highway, 124'-0" along West 12th Street (a narrow street), and 278'-0" along Bethune Street (a narrow street); and

WHEREAS, the property is currently improved upon with a two and three story building fronting on West Street, with an open parking and loading area in the rear, accessible through Bethune Street; and

WHEREAS, the existing building has most recently been occupied by the Superior Printing and Ink Company, which is vacating the property; and

WHEREAS, upon filing, the site was located in an M1-5 zoning district; thus, the requested relief was a variance to allow

MINUTES

residential use, as well as a waiver of the accessory off-street parking requirements; and

WHEREAS, as filed, the original proposal was for a building with the following parameters: a total FAR of 6.5; a total building height of 224'-7", base heights of 84'-5" along West Street and 37'-4" to 40'-4" along the side streets; and 103 units; and

WHEREAS, the proposal included a 20-story curvilinear residential tower component, which was located setback from West Street and Bethune Street at varying depths ranging from 10 to 27 ft.; and

WHEREAS, however, on October 11, 2005, the City Council adopted the Far West Village Zoning Map amendment, which changed the zoning of the site to partially C1-7A (the western 100 ft. along West Street) and partially C1-6A (the remainder of the lot); and

WHEREAS, the applicant subsequently modified its application, eliminating the use waiver request; and

WHEREAS, the building proposed in the first modified application had the following parameters: 15 stories; a total FAR of 5.24; a total building height of 188'-11", base heights of 82'-11" along West Street and 38'-11" along the side streets; and 60 units; and

WHEREAS, in this first modified version, the residential tower was located almost in the same location as in the original version, setback approximately 15 ft. from West Street; and

WHEREAS, however, in response to a suggestion of the Board that the total FAR be reduced and in response to concerns of community members as to the placement of the residential tower, the applicant modified the proposal a second time; and

WHEREAS, the applicant now proposes to construct a mixed-use mid-rise 15-story plus penthouse building fronting on West Street midway between Bethune and West 12th Streets, with a three-story base at the corners formed by the intersection of West Street with the two side streets, a twelve story residential tower centered along West Street, setting back approximately 35 ft. from West 12th Street and 25 ft. from Bethune Street, and a series of five three-story townhouses fronting on Bethune Street; and

WHEREAS, the building will contain 64 total dwelling units (including the five townhouses), rise to a height of 186'-9" (including bulkheads, 173'-2" without), with a setback on the West Street side at the eighth floor, setbacks on the West 12th and Bethune Streets sides at the fourth floor, with a total FAR of 5.0, a residential FAR of 4.7, and a commercial FAR of 0.3; and with lot coverages of 89% and 98% for the corner lot portions; 61% for the through lot portion and 62% for the interior lot portion; and

WHEREAS, the Board observes that while the degree of the setbacks complies, the location of them at a lower level than required makes them non-complying; and

WHEREAS, 60 accessory parking spaces in an underground parking garage will also be provided; and

WHEREAS, Community Board 2, Manhattan, recommended disapproval of the initial version of the application, as first filed; and

WHEREAS, the following elected officials and organizations also opposed the initial application: Council Member Quinn, Assembly Member Glick, State Senator Duane, Greenwich Village Community Task Force, and Greenwich Village Society for Historic Preservation; and

WHEREAS, various neighbors of the site also appeared, expressing concerns about the envelope of the proposed building and the impact it would have on their light and air; and

WHEREAS, as mentioned above and as discussed in further detail below, the applicant modified the proposal to address these concerns; and

WHEREAS, consequently, at the most recent hearing, many of these same neighbors, and some of these elected officials, testified that the current version of the application was preferable to previous versions; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in constructing a complying building: (1) the site is a corner "L"-shaped lot with a narrow width along West Street and a narrow depth along Bethune Street, which necessitates the construction of more perimeter wall than normal, and also compromises the ability to create a complying development; (2) the site is on soil that is considered unsuitable for load-bearing materials, requiring a deeper and more extensive pile foundation system; (3) the site has a high water table (6'7" below the surface), which will require extensive dewatering and waterproofing measures; and (4) the soil of the site is contaminated, and must be remediated prior to any development; and

WHEREAS, as to the first basis of uniqueness, the applicant notes that the subject block is narrow (160' in depth from street to street versus the standard 200'), and that the eastern part of lot fronting on Bethune Street measures only 80' in depth; and

WHEREAS, the applicant notes that an as of right residential building that complies with the C1-6A and C1-7A bulk regulations would be a nine to ten story building that maintain a street wall along West Street of 85 ft., and 60 ft. along Bethune Street, and rises to a total building height of 120' on West Street and within 100' of West Street on both Bethune and West 12th Streets and 80' on the midblock portion of Bethune Street; and

WHEREAS, the applicant states that the height and setback regulations would result in a "U"-shaped configuration, and result in a "fortress-like" building with a dark interior courtyard, and would also create a canyon like effect along Bethune Street, which as noted above is a narrow street; and

WHEREAS, more importantly, the applicant notes that due to the 160' width along the West Street frontage, as well as the 80' depth along the eastern part of the Bethune Street frontage, provision of a the required 30' rear yard would result in a building along the Bethune portion of the site of only a maximum 50' in depth; as discussed below, this creates inefficient floor plates, particularly on the higher floor which are setback; and

WHEREAS, the applicant represents that this narrow

MINUTES

depth is too shallow for a double loaded corridor and too deep for an efficient layout for a single loaded corridor; and

WHEREAS, to avoid this hardship, and to avoid creation of a fortress like building that would create adverse conditions along Bethune Street, height and setback waivers, as well as lot coverage and side yard waivers, are required; and

WHEREAS, as to the second basis of uniqueness, the applicant notes that the depth of the bedrock below the surface of the site varies from approximately 90' on the eastern end to 135' on the western end; and

WHEREAS, in support of this contention, the applicant has submitted a Geotechnical Engineering Evaluation, conducted by its engineering consultant, which includes an analysis of borings taken at various positions located throughout the site; and

WHEREAS, this Evaluation shows that until bedrock is reached, the soil is composed of fine sand, silt with clay, and a more granular sand, none of which is optimum load bearing material; and

WHEREAS, because of such condition and the depth of the bedrock, the consultant recommends the use of a foundation system that includes drilled piles; and

WHEREAS, however, at hearing, the Board requested that the applicant further establish that the cited soil conditions were unique to the site; and

WHEREAS, in response, the applicant provided a more detail analysis, which concluded that although other sites suffer from similar soil problems, none suffer to the degree as the site; and

WHEREAS, the Board also observes that other sites that have been recently developed are in residential zoning districts where a FAR of 6.0 is permitted and are also in tower formations; and

WHEREAS, as to the third basis of uniqueness, the applicant states that the Evaluation shows that the site is within the 100 year flood zone, and that groundwater levels vary from six to seven feet at West Street to 11 to 12 feet at the eastern end of the existing parking area; and

WHEREAS, the applicant represents that extra measures must be taken to waterproof the lower levels of the building to resist the hydrostatic pressures; and

WHEREAS, as to the fourth basis of uniqueness, the applicant states that the site's historical use as a printing establishment resulted in the contamination of the site's soil; and

WHEREAS, the applicant represents that this contamination will require remediation prior to any construction, at a cost of approximately 2.6 million dollars; and

WHEREAS, the Board recognizes that the premium costs associated with the need for a more extensive foundation system, dewatering and waterproofing, and environmental remediation necessitate a development that could realize a greater return than a complying one; and

WHEREAS, specifically, by massing the residential floor area in a tower with a non-complying height rather than distributing it in a complying streetwall building, more marketable units are created and therefore greater revenue is

generated, which is needed to overcome the above-mentioned premium costs; and

WHEREAS, the Board also notes that the parking waiver accommodates an accessory parking garage that increases overall revenue from the project, thereby addressing the cited hardship costs; and

WHEREAS, accordingly, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in compliance with the current applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study analyzing certain as-of-right alternatives that existed under the M1-5 zoning; given the zoning change, such analysis is no longer relevant; and

WHEREAS, after the rezoning became effective, the applicant submitted a feasibility study that analyzed an as-of-right mixed use building; thus study concludes that a building constructed pursuant to the underlying bulk regulations of the C1-6A and C1-7A districts would not realize a reasonable return, due to the identified hardships; and

WHEREAS, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with zoning will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant notes that each frontage of the site was designed to acknowledge the existing bulk of surrounding buildings; and

WHEREAS, the applicant states that the 15-story mid-rise component of the development is designed with a height and series of setbacks that relate to the surrounding buildings, including the those at 380 West 12th Street and the Westbeth development across Bethune Street; and

WHEREAS, the applicant states that the mid-rise portion of the building maintains the streetwall along West Street and rises to a height of seven stories and 83'-7", where it then sets back rises to 14 stories and 159'-7", which is consistent with the streetwall of the Westbeth building; and

WHEREAS, the applicant notes that the 15th story, with its mechanical penthouse, is consistent with the overall height of Westbeth; and

WHEREAS, the applicant also states that the height is consistent with newer residential developments located south of the site on West Street at Perry and Charles Streets; specifically, there are two sixteen-story buildings located on Perry Street, and a newly constructed building on Charles Street of comparable height; and

WHEREAS, the applicant notes that the eastern part of the Bethune Street portion of the site will be developed with five three-story town homes that will have 30' rear yards, and will preserve light and air to adjacent residential buildings; and

MINUTES

WHEREAS, these town homes will also rise to height of approximately 40'-0", which will create a minimal impact on Bethune Street (a 50'-0" wide street), especially when compared to the height that is allowed as-of-right; and

WHEREAS, finally, the applicant states that the mid-rise portion of the building presents a front façade in all four directions, so that no adjacent neighboring building will face a rear façade; and

WHEREAS, the Board observes that the height of the streetwall along Bethune and West 12th Streets and the placement of the tower component of the development was very contentious; and

WHEREAS, as noted above, in the original version of the application, the applicant proposed a curvilinear residential tower component, which was located setback from West Street and Bethune Street at varying depths ranging from 10 to 27 ft., with a streetwall along Bethune of approximately 45 to 50 ft.; and

WHEREAS, in the current version, the streetwall along both Bethune and West 12th Streets is at approximately 40 ft., and the tower is centered along West Street, setting back approximately 35 ft. from West 12th Street and 25 ft. from Bethune Street; and

WHEREAS, while this configuration results in a streetwall waiver along West 12th and Bethune Streets within 100 ft. of West Street (where a 60 ft. minimum streetwall height is required), the lower streetwall compensates for the increased height of the tower in providing light and air to the surrounding residential developments, and also is more consonant with the existing scale and character of the neighborhood; and

WHEREAS, the Board notes that the tower location was the subject of much discussion and negotiation between the applicant and the adjacent neighbors, and that all parties agree that the current proposal represents the best compromise; and

WHEREAS, as to the proposed parking garage, the applicant states that the site is far away from public transportation, and that significant car ownership amongst prospective occupants is therefore expected; and

WHEREAS, the applicant states that demand for parking will likely exceed the 15 spaces allowed under ZR 13-12; and

WHEREAS, thus, in order to minimize any potential impact the proposed development may have on the on-street parking demand, the applicant proposes an increase in the amount of parking spaces; and

WHEREAS, the applicant also represents that the 60 parking spaces would be available through a City Planning Commission special permit, and that the findings for said permit, which relate to interior layout and ensuring that there is no increase in traffic congestion, will be complied with once the garage is constructed; and

WHEREAS, the Board agrees that the provision of 60 accessory parking spaces will mitigate any potential impact that the development might have on on-street parking in the area; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the

surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, as noted above, after the rezoning, the applicant initially proposed a 188'-11" high building with an FAR of 5.25; and

WHEREAS, at the request of the Board, the applicant reduced the height and FAR of the proposal to the current version; and

WHEREAS, therefore, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA103M dated October 11, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the NYC Department of Environmental Protection's Office of Environmental Planning has reviewed the following submissions from the applicant: (1) a March, 2005 Environmental Assessment Statement (EAS), (2) a November, 2003 Phase I Environmental Site Assessment report, and (3) a December, 2004 Phase II Environmental Site Assessment report; and

HEREAS, these submissions specifically examined the proposed action for potential hazardous materials, air quality and noise impacts; and

WHEREAS, a Restrictive Declaration was executed on December 21, 2005 and submitted for recordation to the Office of the City Register on December 28, 2005 for the subject property to address hazardous materials concerns; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City

MINUTES

Environmental Quality Review and makes each and every one of the required findings under Z.R. § 72-21 and grants a variance to permit, on a lot partially within a C1-7A zoning district and partially within an C1-6A zoning district, the proposed construction of a fifteen and three story mixed-use residential/commercial building, with ground floor retail and an underground accessory parking garage, which does not comply with applicable requirements for floor area ratio, lot coverage, side yards, height and setback, and off-street parking, contrary to Z.R. §§ 23-145, 33-122, 35-31, 23-46, 33-35, 23-633, 33-431, 35-24 and 13-12; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 27, 2005"- sixteen (16) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the proposed building: 64 total dwelling units (including the five townhouses), a height of 186'-9" (including bulkhead, 173'-2" without); a 10' setback on the West Street side at the Eighth floor; a 15' setback on the West 12th and Bethune Streets sides at the Fourth floor; a total FAR of 5.0; a residential FAR of 4.7; a commercial FAR of 0.3; and lot coverages of 89% and 98% for the corner lot portions; 61% for the through lot portion and 62% for the interior lot portion;

THAT the location of the residential tower shall be as indicated on the BSA-approved plans;

THAT the 60 parking spaces shall be accessory to the on-site uses only;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 10, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated April 15, 2005, acting on Department of Buildings Application No. 104027900, reads, in pertinent part:

“Proposed physical culture establishment is [not] permitted as of right in C6-3A zoning district. This is contrary to section 32-10 ZR.”; and

WHEREAS, this is an application under Z.R. §§ 73-36 and 73-03, to permit, within a C6-3 zoning district, the legalization of an existing physical culture establishment (“PCE”) located in a five-story building, contrary to Z.R. § 32-10; and

WHEREAS, a public hearing was held on this application on December 6, 2005, after due notice by publication in *The City Record*, and then to closure and decision on January 10, 2006; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, the New York City Fire Department has indicated to the Board that it has no objection to this application; and

WHEREAS, the subject site is located on the north side of West 14th Street, 50 feet west of Seventh Avenue, and has a lot area of 2,400 sq. ft.; and

WHEREAS, the subject PCE will occupy 1,465 sq. ft. of floor area on the second floor; and

WHEREAS, the applicant represents that the PCE will provide massage services by licensed massage professionals; and

WHEREAS, the applicant states that an approved

interior fire alarm system will be installed in the entire PCE space on the second floor, with the addition of smoke detectors, manual pull stations, local audible and visual alarms, and be connected to a FDNY-approved Central Station; and

WHEREAS, the PCE will have the following hours of operation: 10 AM to 10 PM daily; and

WHEREAS, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to Z.R. §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement 05-BSA-121M, dated April 21, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under Z.R. §§ 73-36 and 73-03, to permit, within a C6-3 zoning district, the legalization of an existing physical culture establishment located in a five-story building; *on condition* that all work shall substantially conform to drawings as they apply to the

MINUTES

objections above noted filed with this application marked "Received December 19, 2005"-(4) sheets and *on further condition*:

THAT the term of this grant shall be for ten years from March 29, 2004, expiring on March 29, 2014;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to 10:00AM to 10:00PM daily; THAT the above conditions shall appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety measures, including a sprinkler system, shall be as installed and maintained on the Board-approved plans;

THAT an interior fire alarm system shall be provided as set forth on the BSA-approved plans and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 10, 2006.

CEQR #05-BSA-138K

APPLICANT – Sheldon Lobel, P.C., for Kollel Bnei Yeshivas, owner.

SUBJECT - Application June 13, 2005 - under Z.R. §72-21 the proposed enlargement, of a two-story building, housing a synagogue and Rabbi's apartment, located in an R3-2 zoning district, which does not comply with the zoning requirements for floor area ratio, lot coverage, side and front yards and front setback, is contrary to Z.R. §23-141, §24-11, §24-34, §24-35, and §24-521.

PREMISES AFFECTED – 2402 Avenue "P", southeast corner of East 24th Street, Block 6787, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Richard Lobel.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO CLOSE HEARING –

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar and

Commissioner Chin.....3

Negative:.....0

Abstain: Commissioner Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated October 4, 2005, acting on Department of Buildings Application No. 301931694, reads:

"The proposed legalization of an enlargement of the existing synagogue and Rabbi's accessory apartment in an R3-2 zoning district:

1. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to Sections 23-141 and 24-11 of the Zoning Resolution.
2. Creates non-compliance with respect to the lot coverage and is contrary to Section 23-141 of the Zoning Resolution.
3. Creates non-compliance with respect to the side yards by not meeting the minimum requirements of Section 24-35 of the Zoning Resolution.
4. Creates non-compliance with respect to the front yard by not meeting the minimum requirements of Section 24-34 of the Zoning Resolution.
5. Creates non-compliance with respect to the front setback by not meeting the minimum requirements of Section 24-521 of the Zoning Resolution.
6. Creates non-compliance with respect to perimeter wall height and maximum height of building and is contrary to Section 24-521 of the Zoning Resolution.
7. Creates non-compliance with respect to parking by not meeting the minimum requirements of Section 25-31 of the Zoning Resolution."; and

WHEREAS, this is an application under Z.R. § 72-21, to permit, within an R3-2 zoning district, the proposed enlargement and partial legalization of a two-story plus cellar synagogue building with a Rabbi's accessory apartment, which requires various bulk waivers related to floor area ratio, lot coverage, side yards, front yards, front setback, perimeter wall height, maximum building height, and required parking, contrary to Z.R. §§ 23-141, 24-11, 24-34, 24-35, 24-521, and 25-31; and

WHEREAS, a public hearing was held on this application on December 13, 2005, after due notice by publication in *The City Record*, and then to closure and decision on January 10, 2006; and

WHEREAS, this application is brought on behalf of the Kollel Bnei Yeshivas, a not-for-profit entity (hereinafter, the "Synagogue"); and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the site is located on the southeast corner of the intersection of East 24th Street and Avenue P, and has a total

MINUTES

lot area of 3,700 sq. ft; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioner Chin; and

WHEREAS, the site is currently improved upon with a 4,073 sq. ft. two-story plus cellar building, which is occupied by the Synagogue (Use Group 4), as well as the Rabbi's accessory apartment; and

WHEREAS, the applicant proposes to enlarge and alter the existing building as follows: cellar level – enlargements at both the front and back portions of the cellar, repositioning of bathrooms, storage rooms, warming kitchen, boiler room, and the addition of open space to the Synagogue above, as well as the addition of an elevator, which will run from the cellar to the second floor; first floor – expansion of approximately 231 sq. ft., for larger worship space, additional bathrooms and a foyer; second floor – expansion of 655 sq. ft., for additional living area in the Rabbi's dwelling; attic level – addition of an attic with 1,146 sq. ft., for additional bedrooms and bathrooms for the Rabbi's dwelling; and

WHEREAS, the proposal includes the legalization of an additional 83 ½ sq. ft. of floor area on the first floor, consisting of a bathroom that was added to the rear of the building; and

WHEREAS, the applicant states that the following are the programmatic needs of the Synagogue, which are driven by an increase in congregation size: (1) more worship and accessory space than is currently provided, to reduce overcrowded conditions; (2) the provision of additional living space for the Rabbi; (3) space for a study where the Rabbi can minister to congregants in privacy; (4) an expanded rabbinical library; (5) an elevator for handicapped accessibility; and (6) a larger living room, for Rabbi-led classes; and

WHEREAS, construction of the new synagogue building as currently proposed will result in the following non-compliances: a floor area ratio ("FAR") of 1.73 (FAR of 1.0 is the maximum permitted); a lot coverage of 79% (60% is the maximum permitted); side yards of 1'-6" and 6" (side yards of 9'-1" and 8'-0" are required); no front yards (front yards of 15'-0" are required); a front setback of 4'-9" (a front setback of 15'-0" is required); a perimeter wall height of 27'-6" (a perimeter wall height of 21'-0" is the maximum permitted); a total height of 39'-4" (a total height of 35'-0" is the maximum permitted); and no parking spaces (23 spaces are required); and

WHEREAS, the applicant states that the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the subject site in compliance with underlying district regulations: the existing building, which was constructed as a single-family residence, has insufficient space to accommodate the current size and programmatic needs of the Synagogue; and

WHEREAS, the applicant further states that the requested variances are necessary in order to have enough floor area and height to accommodate the afore-mentioned programmatic needs; and

WHEREAS, specifically, the applicant states that that the

expansion on the first floor will create additionally worship space, remedying the current problem of congregants having no place to sit during religious services; and

WHEREAS, the first floor expansion also will allow the installation of a wheel chair lift, which will provide physically challenged congregants greater access to services; and

WHEREAS, the first floor expansion also allows for separate male and female bathrooms to be located near the worship space; and

WHEREAS, as to the second floor expansion, the applicant states that the improvements to the Rabbi's living area will create more spacious and comfortable living quarters, as well result in an expanded living room and study, which will enable the Rabbi to better minister to and teach congregants; and

WHEREAS, the applicant states that the first floor and cellar of the existing building do not have sufficient or acceptable space for such small-group or individual activities; and

WHEREAS, finally, the applicant states that the creation of the attic will allow the Rabbi and the family more private living quarters, as much of the second floor will be devoted to the congregants; and

WHEREAS, to accommodate these new spaces, the applicant argues that the requested waivers are necessary; and

WHEREAS, additionally, the Board observes that the provision of required parking would be impossible because the existing building and the expansion occupy such a large amount of the subject site; and

WHEREAS, in sum, the Board agrees that, based upon the submitted evidence, the proposed enlargement is necessary in order to meet the programmatic needs of the Synagogue, since the existing building does not possess the square footage necessary to accommodate these needs; and

WHEREAS, therefore, the Board finds that the cited unique physical conditions, when considered in conjunction with the programmatic needs of the Synagogue, create practical difficulties and unnecessary hardship in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, in concluding that the site is burdened and that hardship exists when considering the programmatic needs of the Synagogue, the Board is cognizant of the fact that under New York state case law, religious institutions are presumed to contribute to the public welfare, and the accommodation of such uses is established State policy; and

WHEREAS, the applicant need not address Z.R. § 72-21(b) since it is a not-for-profit organization and the enlargement will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, the applicant states that there are four-story and six-story multiple dwellings diagonally across from the Synagogue; and

WHEREAS, additionally, the applicant notes that the congregants live within walking distance of the Synagogue,

MINUTES

such that the parking waiver will not have a negative impact on the availability of on-street parking; and

WHEREAS, at hearing, the Board expressed concern about the positioning of the proposed elevator, which is not within the envelope of the building and encroaches into the front yard along East 24th Street; and

WHEREAS, the Board asked the applicant to consider the possibility of repositioning the elevator in a different area so that it would not be visually obtrusive; and

WHEREAS, the applicant replied that the project architect considered this request and determined that the elevator could not be repositioned without compromising much needed space on the first floor of the building; and

WHEREAS, however, the applicant also explained that the façade of the elevator shaft will be integrated into the façade of the Synagogue, so as to maintain a uniform appearance; and

WHEREAS, therefore, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the Synagogue relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. §72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA138K dated July 18, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended and makes the

required findings under Z.R. § 72-21, to permit, within an R3-2 zoning district, the proposed enlargement and partial legalization of a two-story plus cellar synagogue building with a Rabbi's accessory apartment, which requires various bulk waivers related to floor area ratio, lot coverage, side yards, front yards, front setback, perimeter wall height, maximum building height, and required parking, contrary to Z.R. §§ 23-141, 24-11, 24-34, 24-35, 24-521, and 25-31; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 30, 2005" –12 sheets; and *on further condition*:

THAT the apartment on the second floor and attic level shall only be occupied by the Rabbi of the congregation and his or her family, and may not be rented out to any other party;

THAT the above condition shall be listed on the certificate of occupancy;

THAT LL 58/87 compliance shall be as reviewed and approved by the Department of Buildings;

THAT the parameters of the proposed building shall be as follows: a community facility FAR of 1.73; a community facility floor area of 6,413 sq. ft.; lot coverage of 79%; side yards of 1'-6" and 6"; no front yards; a front setback of 4'-9"; a perimeter wall height of 27'-6"; a total height of 39'-4"; and no parking spaces;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 10, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough
Commissioner, dated June 21, 2005, acting on Department of
Buildings Application No. 104124190, reads:

- “1. Plans submitted indicate that the required setback is not being met as per section 35-24(c)(1) ZR. A minimum of ten feet must be provided; plans only show a five-foot setback.
2. Plans submitted indicate that the maximum residential floor area for this zoning lot is being exceeded. This is contrary to section 35-31 ZR and 23-145 ZR. Only residential and commercial uses are being proposed on this zoning lot.
3. Zoning analysis submitted indicates that development is being pursu[ed] as per the Quality Housing Program, therefore proposed lot coverage is exceeding the maximum allowed (eighty percent). This is contrary to section 23-145 ZR.
4. Residential use cannot be proposed on this zoning lot because the zoning lot area is less than 1,700 SF (minimum required). This is contrary to section 23-22 ZR.”; and

WHEREAS, this is an application under Z.R. § 72-21, to permit, within a C2-6 zoning district (an R7 equivalent), the proposed construction of a new five-story plus cellar and penthouse mixed-use building with commercial use on the first floor and in the cellar and residential use on the upper floors, contrary to Z.R. §§ 35-24(c)(1), 35-31, 23-145 and 23-22; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject premises is 1,601 sq. ft. pre-existing triangular-shaped lot, with 80'-0" of frontage on Seventh Avenue South, 58'-5 1/8" of frontage on Carmine Street, and a depth of 43'-2"; and

WHEREAS, the property is currently improved upon with an automotive service center; and

WHEREAS, the proposed building will require the following waivers: 100% lot coverage (80% is the maximum

permitted); four unit residential building on an existing zoning lot with a lot area of less than 1,700 s.f. (only a one or two-family residential building is permitted); a total floor area ratio (FAR) of 5.5 (3.44 FAR is the maximum permitted); and a 5'-0" setback above the maximum base height (a 10'-0" setback is the minimum required); and

WHEREAS, the applicant states that the following are unique physical conditions which create unnecessary hardship in constructing a complying building: (1) the triangular shape of the lot; (2) its shallow depth; (3) its small size; (4) the presence of underground storage tanks and poor soil conditions; (5) the site's proximity to the subway; and (6) the site's proximity to a truck route feeding into the Holland Tunnel; and

WHEREAS, the applicant represents that the lot is a pre-existing small lot that does not have the requisite amount of lot area for a multiple dwelling, even though the subject zoning district allows multiple dwellings; as discussed below, the applicant states that developing the site with a one or two-family dwelling is not feasible; and

WHEREAS, the applicant represents that the triangular shape and small size of the lot lead to a compromised floor plate; if the applicant were to comply with the lot coverage requirement of 80%, each residential unit would have a small floor plate further constrained by three acute corners; and

WHEREAS, the applicant also conducted a Phase II Environmental Assessment on the site which documented the following: the presence of four 550-gallon underground storage tanks and one existing waste oil underground storage tank; gasoline contamination of the soil and the presence of organic vapors; and concentrations of semi-volatile organic compounds in the ground water that exceed state standards; and

WHEREAS, the Phase II report states that the remediation will cost approximately \$275,000; and

WHEREAS, the applicant represents that because of the proximity to the subway, any construction on the site will require considerable shoring and protective measures; and

WHEREAS, the applicant further represents that the site is subject to overwhelming noise from its proximity to the Holland Tunnel; and

WHEREAS, however, the Board does not find this to be an actual unique hardship, given that many sites are similarly affected; and

WHEREAS, a public hearing was held on this application on November 15, 2005, at

WHEREAS, accordingly, the Board finds that certain of the aforementioned unique physical conditions, specifically, the poor soil conditions, the presence of underground storage tanks on the site, the triangular-shape and small size of the site, and the proximity to the subway, when considered in the aggregate, create unnecessary hardship and practical difficulties in developing the site in compliance with the current applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study analyzing the following as-of-right alternatives: (1) a 3.44 FAR retail/residential building; and (2) a 4.3 FAR retail/medical office/residential building; and

WHEREAS, the applicant concludes that neither of the complying scenarios would yield the owner a reasonable return;

MINUTES

and

WHEREAS, at the request of the Board, the applicant analyzed a 5.0 FAR retail/residential building, and concluded that such a scenario would not achieve a reasonable return; and

WHEREAS, as part of the applicant's feasibility study, the applicant included certain premium construction costs related to the soil conditions, the proximity to the subway, and the inefficiency of the perimeter wall ratio to usable floor area; such costs total \$790,000; and

WHEREAS, the Board requested additional reinforcement of the premium construction costs; and

WHEREAS, the applicant submitted a letter from the project manager that states that environmental remediation will cost approximately \$275,000 and removal of the underground storage tanks will cost approximately \$25,000; and

WHEREAS, the project manager also estimates that the foundation system will cost \$165,000; and

WHEREAS, the project manager further states that because of the high ratio of exterior perimeter wall to usable floor area, the exterior wall systems will cost an additional \$325,000; the project manager notes that the ratio in this case is 75% greater than a typical site configuration; and

WHEREAS, the applicant clarified that premium costs related to the architecture of the proposed building were not included as hardship costs in the financial analysis; and

WHEREAS, the Board also questioned the site valuation, because the site valuation was based upon a multiple dwelling rather than what was allowed under the zoning (one or two family dwelling); and

WHEREAS, the applicant submitted a revised feasibility analysis in which it analyzed 13 one and two-family townhouses located near the subject site and sold in the past 18 months, which concludes that the land value initially attributed to the site is an accurate valuation; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with zoning will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant has submitted a map of the surrounding buildings that indicates that there is a six-story building across from the site on Leroy Street, an eight-story building one block north of the site on Bedford Street, and a six-story building on Seventh Avenue South; and

WHEREAS, there are also two six-story buildings one block east of the site; and

WHEREAS, the applicant notes that the height of the building will be comparable to the heights of other buildings in the neighborhood, including those cited above; and

WHEREAS, therefore, the Board finds that this action will not alter the essential character of the surrounding neighborhood

nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the applicant contends that a FAR waiver is needed to offset the additional hardship costs related to remediation and foundation construction, as well as address inefficiencies in the floor plates related to the lot's shape and size; and

WHEREAS, however, the Board asked the applicant to ensure that the requested FAR waiver (a total FAR of 5.5) was in fact the minimum variance necessary; and

WHEREAS, with an FAR of 5.5, a six-story building with sufficient floor plates for four units results; and

WHEREAS, at the request of the Board, the applicant analyzed a building with a total FAR of 5.0, with one less floor; the applicant concluded that such a scenario would not realize a reasonable return; and

WHEREAS, the Board concludes that the requested FAR and the resulting additional floor are necessary for revenue generation sufficient to overcome the hardship costs; and

WHEREAS, accordingly, the Board further finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 06BSA001M dated July 5, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under Z.R. §72-21 and grants a variance to permit, within a C2-6 zoning district (an R7 equivalent), the proposed construction of a new five-story plus cellar and penthouse mixed-use building with commercial use on the first floor and in the cellar and residential use on the upper floors,

MINUTES

contrary to Z.R. §§ 35-24(c)(1), 35-31, 23-145 and 23-22; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 9, 2005"- six (6) sheets; and *on further condition*:

THAT the following shall be the parameters of the proposed building: a maximum residential FAR of 4.88; a maximum total FAR of 5.5; maximum lot coverage of 100%; four units; and a minimum 5'-0" setback above the maximum base height;

THAT all balconies and/or porches shall be as reviewed and approved by the Department of Buildings; the Board is not approving any balconies and/or porches;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 10, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated July 15, 2005, acting on DOB Application No. 402105253 reads:

“Proposed eating and drinking establishment with

entertainment and a capacity of more than 200 persons (UG 12) in C1-2 district and contrary to Section 32-00 Z.R.”; and

WHEREAS, this is an application under Z.R. § 72-21, to permit, in an R6 zoning district with a C1-2 commercial overlay, conversion of the first floor of an existing two-story building from an eating and drinking establishment (UG 6) to an eating and drinking establishment with entertainment and dancing (UG 12), contrary to Z.R. § 32-00; and

WHEREAS, a public hearing was held on this application on November 1, 2005 after due notice by publication in *The City Record*, with a continued hearing on December 6, 2005, and then to decision on January 10, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioner Chin; and

WHEREAS, Community Board 2, Queens, initially approved this application with no conditions; and

WHEREAS, subsequent to learning about certain community concerns related to the operation of the premises, the Community Board issued a new report in support of this application so long as the owner complies with certain conditions related to the operation of the premises; and

WHEREAS, the applicant has agreed to comply with the Community Board’s recommended conditions, certain of which are reflected below; and

WHEREAS, the subject zoning lot is located on the south side of Roosevelt Avenue between the Long Island Railroad and 63rd Street, and has a lot area of 7,345 sq. ft.; and

WHEREAS, the existing two-story building has 12,170 sq. ft. of floor area, and contains a restaurant use on the first floor and vacant offices on the second floor; and

WHEREAS, the total floor area of the first floor is 5,960 sq. ft. and the total floor area of the second floor is 6,210 sq. ft.; and

WHEREAS, the applicant represents that the building was used as a theatre until 1986, and then remained vacant until 2004; and

WHEREAS, in 2004, the owner opened the restaurant on the ground floor; the applicant represents that it has unsuccessfully attempted to rent the office space on the second floor; and

WHEREAS, the applicant represents that the proposed stage area and dance floor will occupy 446 sq. ft. of the first floor; the remaining floor area will be used for restaurant use and for a waiting area; and

WHEREAS, the applicant represents that the site has approximately 31 ft. of frontage on Roosevelt Avenue, and has no other street frontage; and

WHEREAS, the applicant further represents that the site is irregularly shaped, with the majority of the site located adjacent to the Long Island Railroad, and a small “flagpole” portion of the site extending from the rear to Roosevelt Avenue; and

WHEREAS, the applicant states that the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the site in strict

MINUTES

conformance with underlying zoning regulations: (1) the lot is irregularly-shaped; (2) it has a minimal amount of street frontage in relation to the size of the lot; and (3) it is close to the Long Island Railroad and a subway line; and

WHEREAS, the applicant represents that because the site only has 31 ft. of street frontage, it is difficult to attract customers to fill the large restaurant, due to limited street visibility; and

WHEREAS, the applicant represents that the street frontage of the lot represents 0.5% of the total area of the ground floor of the building; the other retail buildings in the area have street frontages of between 1.25% and 2.22% of the total area of the ground floor of the building; and

WHEREAS, in addition, the applicant represents that noise emanating from the surrounding train lines discourages customers from coming to the restaurant, and discourages other conforming residential and commercial uses; and

WHEREAS, the applicant further represents that the lot would not be conducive to conforming residential uses because the minimal street frontage relative to the size of the site would not provide adequate access to light and air in the front of the building; and

WHEREAS, the applicant states that any residences would have to vent into the undersized rear yard or onto a new interior court, which would impact the ability to maximize the allowable floor area; and

WHEREAS, the Board finds that, when considered in the aggregate, the factors stated above create unnecessary hardship and practical difficulties in strictly conforming with the applicable use provisions of the Zoning Resolution; and

WHEREAS, the applicant submitted a feasibility study that analyzed the following scenarios: an as-of-right retail/office use; an as-of-right restaurant/office use; and the proposed use; and

WHEREAS, the feasibility analysis concludes that only the proposed use will garner a reasonable rate of return; and

WHEREAS, therefore, the Board has determined that because of the subject lot's unique physical conditions there is no reasonable possibility that development in strict conformity with zoning will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed variance will not affect the character of the neighborhood, and that the proposed use is compatible with adjacent and nearby uses; and

WHEREAS, the applicant represents that Roosevelt Avenue near the site consists almost entirely of commercial uses in low-rise buildings, including retail stores, beauty salons, restaurants, a fish market and an off-track betting parlor; and

WHEREAS, the applicant also submitted a land use map that reflects that the site is bordered by two manufacturing buildings, two commercial buildings, and the Long Island Railroad; and

WHEREAS, the applicant states that there are no residences adjacent to the site or other uses incompatible with late-night activities such as dancing; and

WHEREAS, the Board asked the applicant to review the

requirements for a special permit under Z.R. § 73-244, which would allow similar relief as that being sought in this application, if the site was located in a zoning district where the special permit was available; and

WHEREAS, in response, the applicant provided the Board with an analysis of how it meets the findings under the special permit; and

WHEREAS, the applicant states that it is providing the minimum patron waiting area required by the special permit; and

WHEREAS, in addition, the applicant has submitted a traffic study that shows that the hours of greatest activity at the restaurant do not coincide with peak traffic hours, and that there is sufficient on-street parking in the area to accommodate the proposed use, as well as access to subways and the Long Island Railroad; and

WHEREAS, finally, the applicant has conducted a noise analysis that shows that there are no residential uses so near the site that they would be impacted by the proposed use; and

WHEREAS, the Board observes that there are no residential uses adjacent to the site and that the site is bordered by commercial uses and a railway cut; and

WHEREAS, in addition, the Board observes that the applicant has agreed to certain conditions on the operation of the establishment that are designed to ensure that it will have minimal impacts, certain of which are conditions of this grant; and

WHEREAS, therefore, the Board finds that the proposed application will not alter the essential character of the surrounding neighborhood, impair the use or development of adjacent properties nor be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, based upon the above, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. §72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 06BSA011Q, dated August 5, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise;

MINUTES

Construction Impacts and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617.4, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes the required findings under Z.R. § 72-21, to permit, in an R6 zoning district with a C1-2 commercial overlay, conversion of the first floor of an existing two-story building from an eating and drinking establishment (UG 6) to a 5,960 sq. ft. eating and drinking establishment with entertainment and dancing (UG 12), for a term of two years, contrary to Z.R. § 32-00; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 12, 2005"--one(1) sheet; and *on further condition*:

THAT this grant shall be for a term of two years, expiring on January 10, 2008;

THAT the hours of operation shall be: 8 AM to 2 AM Monday through Wednesday and 8 AM to 4 AM Thursday through Sunday;

THAT the maximum total occupancy of the first floor shall be 269 persons;

THAT there shall be a maximum of 50 persons on the dance floor, as indicated on the BSA-approved plans;

THAT the first floor shall have a maximum floor area of 5,960 sq. ft., including a waiting area of 1,076 sq. ft. (with a rate of 4 sq. ft. per occupant) and a dance floor of 446 sq. ft.;

THAT from 8 PM until closing, Thursday through Sunday, a minimum of one security guard shall provide security services and ensure that patrons do not congregate on the sidewalk near the entrance;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 10, 2006.

APPLICANT – David L. Businelli, for Steven Morris, owner.

MINUTES

REGULAR MEETING TUESDAY MORNING, JANUARY 24, 2006 10:00 A.M.

Present: Chair Srinivasan, Vice Chair Babbar, Commissioner Chin and Commissioner Collins.

The motion is to approve the minutes of regular meeting of the Board held on Tuesday morning and afternoon, November 1, 2005 and Wednesday morning November 2, 2005, as printed in the bulletin of November 10, 2005, Vol. 90, Nos. 45-46. If there be no objection, it is so ordered.

SPECIAL ORDER CALENDAR

77-99-BZ

APPLICANT – The Agusta Group, for Turnpike Auto Laundry, Inc., owner.

SUBJECT – Application March 8, 2005 – Extension of Term of the Special Permit for the operation of an existing auto laundry which expired on February 8, 2005 and an extension of time to obtain a Certificate of Occupancy which expired on July 22, 2005. The premise is located in C8-1 and R-2 zoning district.

PREMISES AFFECTED – 255-39 Jamaica Avenue, a/k/a Jericho Turnpike, north side of Jamaica Avenue, 80' west of 256th Street, Block 8830, Lot 52, Borough of Queens.

COMMUNITY BOARD #13Q

APPEARANCES – None.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin.....3

Negative:.....0

Abstain: Commissioner Collins.....1

THE RESOLUTION –

WHEREAS, this application is a request for a re-opening and an extension of term of a previously granted variance pursuant to Z.R. § 11-411, as well as an application for an extension of time to obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on November 22, 2005, after due notice by publication in *The City Record*, and then to decision on January 24, 2006; and

WHEREAS, Community Board No. 13, Queens, and the Queens Borough President recommended conditional approval of this application, as discussed below; and

WHEREAS, the site is a 17,550 sq. ft. lot improved upon with a 5,691 sq. ft. one and two story concrete building occupied as an auto laundry (Use Group 16) and is partially within an R2 zoning district and partially within a C8-1 district; and

WHEREAS, the site is located at the northwest corner of the Jericho Turnpike and 256th Street; and

WHEREAS, on February 8, 2000, the Board granted an application pursuant to ZR § 11-412 to permit the proposed

legalization of an enlargement to the existing auto laundry for a term of five years, to expire on February 8, 2005, on condition that a new certificate of occupancy be obtained within two years of the date of the grant; and

WHEREAS, the site was previously the subject of three prior Board actions: BSA Cal. No. 130-29-A, which allowed the construction of a one-story auto repair facility; Cal. No. 128-70-BZ, which permitted the change in occupancy of the building from auto repair to auto laundry, as well as an enlargement in lot area for accessory reservoir space; and Cal. No. 16-90-BZ, which allowed a legalization of an enlargement of the existing building; and

WHEREAS, the applicant now seeks an extension of term for ten additional years, as well as an extension of time in which to obtain a certificate of occupancy; and

WHEREAS, the applicant represents that no certificate of occupancy was obtained after the 2000 grant due to delays in obtaining appropriate sign-offs from the Department of Buildings; and

WHEREAS, the Queens Borough President and the Community Board recommended that traffic coordinators be present at the site to ensure that any traffic impacts are minimized; and

WHEREAS, the applicant declines to provide such coordinators, and the Board agrees that they are not needed provided that operations on the site are conducted in compliance with the conditions of this grant, as well as all relevant conditions of past grants; and

WHEREAS, accordingly, the Board finds it appropriate to grant the requested extension of time and extension of term.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on February 8, 2000, so that as amended this portion of the resolution shall read: “to permit an extension of time to obtain a certificate of occupancy, for an additional period of one (1) year from the date of this resolution, to expire on January 24, 2007, and, pursuant to ZR § 11-411, to permit an extension of the term of the variance for an additional period of ten years from the last expiration; *on condition* that the use shall substantially conform to drawings as filed with this application, marked ‘Received October 5, 2005’-(4) sheets and ‘December 13, 2005’-(1) sheet; and *on further condition*:

THAT this grant is for a term of ten years from the last expiration date, to expire on February 8, 2015;

THAT the hours of operation shall be 8 AM to 6 PM Monday through Saturday and 8 AM to 4 PM Sunday;

THAT there shall be no vehicles standing or parked in the sidewalks or streets adjacent to the site at any time;

THAT the gates on the 256th Street side of the site shall be closed and locked from 6:30 PM to 8 AM daily;

THAT all vehicles exiting from the accessory parking lot shall exit the site onto the Jericho Turnpike and appropriate signage indicating this shall be installed by the auto laundry operator;

THAT the above conditions shall be listed on the certificate of occupancy;

MINUTES

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT a new certificate of occupancy shall be obtained within one year of the date of this grant;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 401129015)

Adopted by the Board of Standards and Appeals, January 24, 2006.

337-03-BZ, Vol. II

APPLICANT – Kramer Levin Naftalis & Frankel, LLP, for 340 Madison Owner, LLC, owner.

SUBJECT – Application September 1, 2005 – Reopening for an amendment to a previously approved variance which permitted the enlargement of the 21-story office, retail and church building. The applicant is requesting a proposed modifications of plans. The site is located in a C5-3 zoning district.

PREMISES AFFECTED – 340 Madison Avenue a/k/a 16 East 44th Street, west blockfront of Madison Avenue, between East 43rd and 44th Streets, Block 1278, Lots 8, 14, 15, 17, 62, 63, 65, Borough of Manhattan.

COMMUNITY BOARD #5

APPEARANCES –

For Applicant: Robert Flahive, Kramer Levin.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin.....3

Negative:.....0

Abstain: Commissioner Collins.....1

THE RESOLUTION –

WHEREAS, this is an application to amend a variance granted on March 23, 2004, under ZR § 72-21, for the proposed enlargement of an existing 21-story office, retail and church building (the “building”), which required variances to modify the Special Street Wall requirements of the Grand Central Subdistrict regulations and to permit the transfer of floor area across a zoning district boundary, contrary to ZR §§ 81-621, 81-211, 77-02, and 33-17; and

WHEREAS, the instant application requests: (1) revisions to the ground floor plan to provide a smaller than required building entrance on East 43rd Street, in order to avoid disrupting an existing tenant; and (2) revisions to the plans for floors 17 through 21 to provide more uniform setbacks along East 44th Street on these floors; and

WHEREAS, a public hearing was held on this application on December 13, 2005 after due notice by publication in *The City Record*, and then to decision on January 24, 2006; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application

WHEREAS, the subject zoning lot is 48,265 sq. ft., situated on the west blockfront of Madison Avenue, between East 43rd and 44th Streets, and is located partially within a C5-3 zoning district (within the Midtown Special District/Grand Central Subdistrict) and partially within a C5-2.5 zoning district (within the Midtown Special District); and

WHEREAS, the subject lot is currently occupied by the building, which has 503,487 sq. ft. of floor area; and

WHEREAS, the previously granted variance provided for the transfer of floor area across a zoning district boundary, in order to allow the enlargement of the building; and

WHEREAS, the previously granted variance also provided for an increase in degree of non-compliance of the streetwall height on the three frontages of the building; specifically, the height of the West 43rd Street streetwall was approved at 187.94 feet for a distance of 95 feet from the Madison Avenue intersection, the height of the streetwall along the southern 100.41 feet Madison Avenue was approved at 187.94 feet, and the height of the East 44th Street streetwall was approved at 187.94 feet; and

WHEREAS, the applicant now proposes the aforementioned minor amendments; and

WHEREAS, as to the need to amend the ground floor plan, the applicant states that the proposal approved by the Board in 2004 complied with the building lobby entrance requirements of ZR §81-623 (a special requirement of the Grand Central Subdistrict) in that the proper dimensional requirements were met for both the East 43rd Street and Madison Avenue entrances; and

WHEREAS, the applicant represents that the East 43rd entrance now proposed would not comply with the minimum width of 15 ft. or minimum height of 15 ft. due to unanticipated structural constraints and the concerns of the existing tenant; and

WHEREAS, the applicant states that in order to comply with the required dimensions, approximately 18 ft. of the building's frontage would need to be reconfigured in order to provide sufficient circulation around an existing structural column; and

WHEREAS, the applicant represents that the existing tenant’s mechanical systems are at the exact location where the entry would need to be widened; any relocation of these systems would be disruptive to this tenant’s business operations; and

WHEREAS, in addition, the applicant notes that the minimum height requirement can not be met without demolition of existing stone fascia, relocation of a spandrel beam, offsetting of a floor slab, and installation of a raised slab; and

WHEREAS, the applicant states that in lieu of full compliance, the proposed width of the entrance will be approximately 11.06 ft., and the proposed height will be 12.35 ft., as indicated on submitted plans; and

WHEREAS, the applicant also notes that the minimum entrance depth requirements for the East 43rd entrance would be met, and that the combined area of the East 43rd and Madison entrances would exceed the pedestrian circulation space

MINUTES

requirement for the proposed enlargement of the building; and

WHEREAS, at hearing, the Board noted that ZR § 81-623 was not before the Board when it made its 2004 grant, and asked the applicant to obtain from DOB a revised objection citing this section; said objection, dated December 7, 2005, was obtained by the applicant and submitted to the Board; and

WHEREAS, the Board finds that the requested deviations from strict compliance with this ZR section are required due to structural difficulties that would result from compliance, and also finds that the deviations are minor in nature and will not present any detriment to the Board's prior determination that the variance proposed under the 2004 grant would not negatively impact the character of the community; and

WHEREAS, therefore, the Board agrees that this modification is appropriate to grant; and

WHEREAS, as to the need to amend the plans for floors 17 through 21, the applicant states that the proposed modification is the infill of the outer court along the East 44th Street elevation at the 17th and 18th floors, and the reduction of the size of the floor plates on the 19th through 21st floors by shaving off certain irregular portions of the floors near the eastern and western corners along the East 44th Street elevation; and

WHEREAS, this would result in the encroachment within the required 10 ft. setback by a depth of 2 ft. for 43 ft. along the East 44th Street elevation; and

WHEREAS, the total encroachment would involve a combined area of 172 sq. ft., which the applicant represents is an increase of approximately 2 percent above the combined area of encroachment previously approved; and

WHEREAS, the applicant states that this modification would allow for a more uniform building profile at the upper floors of the building on the East 44th Street elevation; and

WHEREAS, the applicant also notes that this modification would result in a building that contains approximately 3,260 sq. ft. less floor area than approved by the Board in the 2004 grant; the Board approved 579,871 sq. ft. of floor area; the building as currently proposed would contain 576,611 sq. ft.; and

WHEREAS, the Board has reviewed this proposed modification and agrees that it is minor and appropriate to grant.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on March 23, 2004, so that as amended this portion of the resolution shall read: "to permit (1) revisions to the ground floor plan to provide a narrower building entrance on East 43rd Street and (2) revisions to the plans for floors 17 through 21 to provide more uniform setbacks along East 44th Street on these floors, all as illustrated on the BSA-approved plans; *on condition* that all work shall substantially conform to drawings as filed with this application, marked 'Received September 1, 2005' -(11) sheets, 'September 19, 2005'-(1) sheet and 'December 7, 2005'-

(2) sheets; and *on further condition*:

THAT all conditions from prior resolution(s) remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

(DOB Application No. 103434240)

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated October 25, 2005, acting on Department of Buildings Application No. 402147823, reads:

“A1- The Street giving access to the existing building to be altered is not duly placed on the official map of the City of New York. Therefore :

- a) A Certificate of Occupancy may not be issued as per Article 3, Section 36 of the General City Law.
- b) Existing dwelling to be altered does not have at least 8% of total perimeter of the building fronting directly upon a legally mapped street or frontage space [which] is contrary to Section 27-291 of the Administrative Code.

A2- The proposed upgraded private disposal system is in the bed of a service lane contrary to Department of Buildings policy;” and

WHEREAS, a public hearing was held on this application on January 10, 2006 after due notice by publication in the *City Record*, hearing closed and then to decision on January 10, 2006; and

WHEREAS, by letter dated November 14, 2005, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated January 26, 2005, acting on Department of Buildings Application No. 301933022, reads:

“The accessory drive through facility as proposed for the eating and drinking establishment which is located in a R5/C1-3 zoning district requires a special permit from the BSA as per section 32-31 and 73-243 of the Zoning Resolution”; and

WHEREAS, this application is for the issuance of a special permit for the legalization of an existing eating and drinking establishment (Use Group 6) with an accessory drive-thru facility in a C1-3(R5) zoning district, which requires a special permit pursuant to Z.R. §§ 73-243 and 73-03; and

WHEREAS, a public hearing was held on this application on November 1, 2005 , with a continued hearing on December 6, 2005 and on January 24, 2006, closed and decided ; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioner Chin; and

WHEREAS, Community Board 17, Brooklyn, recommends approval of this application, with the stipulation that it be subject to a “two year review” by the Community Board; and

WHEREAS, the subject site is a 12,000 sq. ft. lot located on the southwest corner of the three-way intersection of Church Avenue, East 93rd Street, and Linden Boulevard, on a lot with 140 feet of frontage on East 93rd Street and 80 feet of frontage on Church Avenue; and

WHEREAS, the subject lot is improved upon with an existing building, occupied by a Use Group 6 fast food restaurant, which contains 1,975 sq. ft. of floor area; and

WHEREAS, the Board previously considered an application to legalize the drive-through facility at this location under BSA Cal. No. 706-85-BZ; the application was denied and the existing restaurant at that time vacated the premises, but the drive-through window remained; and

WHEREAS, the applicant states that the current restaurant then leased and renovated the building, but was unaware that the drive-thru facility was not legal; and

WHEREAS, the applicant represents that the site and drive-thru facility provides reservoir space for a ten-car queue, as required; and

WHEREAS, after reviewing the site plan submitted at the time of initial application, which indicates circulation, parking and reservoir spaces, the Board questioned whether the site plan could be improved; and

WHEREAS, specifically, the Board expressed concern that the parking layout for the site did not appear feasible and that the reservoir spaces were located such that they could conflict with the usage of certain of the parking spaces; and

WHEREAS, the initial site plan indicated required parking spaces adjacent to the western edge of the site, and the travel lane for the drive-through facility directly to the east of these spaces; and

WHEREAS, the Board observed that cars entering or exiting these spaces could be blocked by cars waiting in the drive-through queue; and

WHEREAS, the Board also expressed concern that the queue of the ten required reservoir spaces began at the pick-up window, rather than the drive-through window; and

WHEREAS, in response, the applicant modified the site plan so that the lane for the drive-through facility is adjacent to the western edge of the lot and curves around the required accessory parking spaces that were relocated to the center of the lot, with a separate access lane, such that there is no potential conflict between cars proceeding to the parking spaces and cars proceeding through the drive-through facility; and

WHEREAS, the applicant also revised its site plan to correctly illustrate the ordering station as the beginning point of the 10-reservoir space queue for the drive-through facility, instead of the pick-up window; and

WHEREAS, however, upon further review of this revised site plan, the Board still had concerns regarding the turning radius for the lanes providing access to the accessory parking, and suggested to the applicant that a different configuration be reviewed; and

WHEREAS, in response to this concern, the applicant submitted a new site plan that again reconfigured the site, so that an appropriate turning radius is provided, a

WHEREAS, the Board has reviewed the revised site plan and finds that it is acceptable; and

WHEREAS, the applicant represents that the facility will cause minimal interference with traffic flow in the immediate vicinity because the existing restaurant does not generate

MINUTES

significantly greater traffic flow than would be generated by other as of right commercial uses; and

WHEREAS, in support of this representation, the applicant conducted a survey of customer trips during peak hours that shows that between six and 13 visits per hour are generated; and

WHEREAS, the applicant represents that the facility conforms to the character of the commercially zoned street frontage within 500 feet of the subject premises, which reflects substantial orientation toward the motor vehicle; and

WHEREAS, in support of this representation, the applicant states that the subject three-way intersection is a busy, high traffic volume area; and

WHEREAS, the applicant has submitted photographs of the premises and the surrounding streets, which further supports this representation; and

WHEREAS, the applicant represents that the restaurant will not have an undue adverse impact on residences within the immediate vicinity of the subject premises; and

WHEREAS, in support of this representation, the applicant states that the modest volume of customer traffic will not impact nearby residential uses; and

WHEREAS, at hearing, the Board questioned the need for the extended night and early morning hours proposed by the applicant (10 PM to 4 AM); and

WHEREAS, in response, the applicant submitted a letter from the President of the company that owns the restaurant, which states that 306 customer visits per week occur during these hours, which generates approximately \$5,000 in weekly operating capital; and

WHEREAS, the President also states that such income is critical to the continued viability of the restaurant; and

WHEREAS, the Board has reviewed this letter and agrees that the extended hours are necessary to the operation of the restaurant; and

WHEREAS, the Board also observes that the amount of customer visits averages to approximately 40 per day, spread out over a six hour period, which is an amount that should not adversely impact nearby residences; and

WHEREAS, accordingly, the Board has no objection to the proposed late night/early morning hours; and

WHEREAS, the applicant represents that adequate buffering between the drive-through facility and adjacent residential uses is provided; and

WHEREAS, as indicated on the revised site plan, this buffering consists of shrubbery along the western lot line and a portion of the northern lot line; and

WHEREAS, in support of this representation, the applicant states that the drive-through facility is located behind the restaurant building, approximately 100 ft. from the residential building to the south; and

WHEREAS, the applicant also states that none of the adjacent residential or community facility uses have lot line windows looking onto the parking lot, drive-through facility; and

WHEREAS, based upon its review of the submitted

evidence, the Board finds that the applicant has met the specific findings for a special permit set forth at ZR §73-243; and

WHEREAS, the Board finds that under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of such special permit use at the particular site are outweighed by the advantages to be derived by the community by the grant of such special permit; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, therefore, the Board finds that the application meets the general findings required for special permits set forth at ZR § 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6NYCRR, Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No.06-BSA-017K dated September 14, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes the required findings and grants a special permit under Z.R. §§ 73-03 and 73-243 for the legalization of an existing eating and drinking establishment (Use Group 6) with an accessory drive-through facility in a C1-3(R5) zoning district, which requires a special permit pursuant to Z.R. §§73-243 and 73-03; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 20, 2005"- (1) sheet; and *on further condition*:

THAT this permit shall be issued for a term of two years, to expire on January 24, 2008;

THAT the premises shall be maintained free of debris and graffiti;

THAT any graffiti located on the premises shall be removed within 48 hours;

THAT parking and queuing space for the drive-through shall be provided as indicated on the BSA-approved plans;

THAT the hours of operation shall be from 10 AM to 4

MINUTES

AM daily;

THAT all landscaping and/or buffering shall be maintained as indicated on the BSA-approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all signage shall conform with the underlying C1-3 district regulations;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 24, 2006.

135-05-BZ

APPLICANT – Bryan Cave, LLP (Judith Gallent, Esq.) for L & M Equity Participants Ltd. And Harlem Congregations for Community Improvement, Inc. contract vendees.

SUBJECT – Application June 3, 2005 - under Z.R. §72-21 to allow the residential conversion of an existing non-complying building previously used as a school (former PS 90) located in an R7-2 district. The proposed conversion is contrary to Z.R. §§23-142, 23-533 and 23-633.

PREMISES AFFECTED – 217 West 147th Street, located on block bounded by West 147th and West 148th Streets and Adam Clayton Powell, Jr. and Frederick Douglas Boulevards, Block 2033, Lot 12, Borough of Manhattan.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin.....3

Negative:.....0

Abstain: Commissioner Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated May 19, 2005, acting on Department of Buildings Application No. 104110392, reads:

- “1. Proposed open space ratio (OSR) is contrary to Section 23-142 ZR.9+
2. Proposed building does not comply with Section 23-142 of the Zoning Resolution in that the F.A.R. exceeds the permitted.
3. Proposed building does not comply with Section 23-633 of the Zoning Resolution in that the building penetrates the initial setback distance along [the] street wall and exceeds the maximum base and building height.
4. Proposed rear yard (through lot) is contrary to Section 23-533 Z.R. (a), (b), and (c).”; and

WHEREAS, this is an application under Z.R. § 72-21, to permit, on a site within an R7-2 zoning district, the proposed conversion of a vacant six-story public school building to a 56-

unit residential building, with 103,062 sq. ft. of residential floor area on the first through sixth stories and 12,309 sq. ft. of community facility space in the cellar, which does not comply with applicable requirements for Open Space Ratio (OSR), Floor Area Ratio (FAR), setback, base and building height, and rear yard, contrary to Z.R. §§ 23-142, 23-633, and 23-533(a), (b)

THAT (c) is approval is limited to the relief granted by the Board in response to s

WHEREAS, a public hearing was held on this application on December 13, 2005, after due notice by publication in the *City Record*, and then to decision on January 24, 2006; and

WHEREAS, Community Board 10, Manhattan, did not take a position as to this application; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin; and

WHEREAS, the subject premises is a 29,975 sq. ft. rectangular through lot fronting on West 147th and West 148th Streets, on a block bounded by said streets and Adam Clayton Powell Jr. Blvd. (Seventh Avenue) and Frederick Douglas Blvd. (Eighth Avenue); and

WHEREAS, the property is currently improved upon with a six-story public school building, constructed in 1905-06, which in 1978, after being abandoned for many years, was declared obsolete for educational purposes by the NYC Board of Education (BOE); and

WHEREAS, fee ownership of this building is currently in the NYC Department of Housing Preservation and Development (HPD), which will dispose of the property through a Uniform Land Use Review Procedure (ULURP) action to be acted upon by the NYC City Planning Commission (CPC) at a later date; and

WHEREAS, this proposal also requires an amendment to the First Amended Bradhurst Urban Renewal Plan, since the site is within the boundaries of said Plan; this will also require a ULURP action at CPC; and

WHEREAS, these two ULURP actions will be pursued by HPD, and no building permits may be issued until they are approved by CPC; and

WHEREAS, the building is designed in an H-shaped configuration, with courtyard space fronting along the main entrance on West 148th Street and an elevated courtyard along West 148th Street; and

WHEREAS, the applicant states that the building is both architecturally and historically significant due to this design and its use of the Collegiate Gothic style in terms of arch, roofline, towers, and decorative features; and

WHEREAS, the applicant notes that the building is listed on the State and National Register of Historic Places as part of the West 147th-149th Streets Historic District; and

WHEREAS, in 2004, HPD designated two housing developers (L & M Equity Participants, Ltd. and Harlem Congregations for Community Improvement) as developers of the site, and specifically authorized these developers to rehabilitate the building as market-rate housing; and

WHEREAS, the applicant states that the proposed

MINUTES

conversion and renovation of the building would preserve the existing H-shaped configuration, and would not involve any changes to the envelope of the building; only minor landscaping in the courtyard areas will be undertaken; and

WHEREAS, the streetwall would remain at approximately 83 ft., and the overall height would remain at 93'-2"; and

WHEREAS, lot coverage would remain at 62%, with 11,450 sq. ft. of open space in the courtyard areas; no rear yard would be provided; and

WHEREAS, no accessory parking spaces are required or will be provided; and

WHEREAS, although residential use is permitted in the subject R7-2 zoning district, because the site is within Community District 10, Manhattan, and not in Community Districts 1 through 6 (where a conversion would be allowed as-of-right pursuant to Article 1, Chapter 5 of the ZR), waivers of certain bulk requirements are needed; and

WHEREAS, specifically, the proposed conversion will result in the following non-compliances: a residential and total FAR of 3.43 (an FAR of 2.88 is the maximum permitted); an OSR of 10.77 (an OSR of 18.0 is the minimum required); a wall height of 83'-2" on West 147th Street and a wall height of 83'-11" on West 148th Street (60'-0" is the maximum wall height permitted); no rear yard (a rear yard of 60'-0" is required); and no setback (a 20'-0" setback is required); and

WHEREAS, the Board observes that the cellar community facility space does not count as FAR because of its cellar location; and

WHEREAS, the applicant states that the following is a unique physical condition which creates unnecessary hardship and practical difficulties in constructing a complying building: the school building is obsolete for its intended purpose as an educational facility, as evidenced by its small size and resulting limited capacity, the H-shape configuration, lack of compliance with present seismic code requirements, as well as by extensive water damage to the walls and ceilings, structural problems that would require extensive repair and reinforcement, outdated mechanical and electrical systems, and the presences of asbestos; and

WHEREAS, as to the building's configuration and limited capacity, the applicant states that the structure could only accommodate a 600 student high school, which is too small to address the BOE's needs; and

WHEREAS, moreover, the H-shaped configuration is an outmoded school building form that no longer comports with modern educational practice; and

WHEREAS, the BOE recognized the deficiencies of the design and size of the building for school purposes when it declared the building obsolete in 1978; and

WHEREAS, the applicant also notes that a rehabilitation of the building that would address the identified wall, ceiling and structural deficiencies and bring the building up to modern seismic codes would cost approximately 57 million dollars; and

WHEREAS, the applicant states that demolishing the building and constructing a new school building is similarly infeasible because such a proposal would cost approximately 78

million dollars; and

WHEREAS, the applicant further states that the building's obsolescence also causes practical difficulties in developing the site with a new complying residential building; and

WHEREAS, specifically, the applicant contends that demolition and asbestos removal costs are so significant that any return from an as-of-right development would be negatively impacted; and

WHEREAS, additionally, the applicant argues that the demolition of the building would constitute an unnecessary waste of a historically and architecturally significant building; and

WHEREAS, while the Board does not view this as an actual hardship, it does acknowledge the significant costs associated with demolition as an actual hardship; and

WHEREAS, accordingly, the Board finds that the aforementioned unique physical condition creates unnecessary hardship and practical difficulties in developing the site in compliance with the current applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study analyzing the following three scenarios: (1) a complying residential use alternative; (2) conversion of the building to 46 residential units (a residential FAR of 2.87), with community facility use in the cellar and a portion of the ground floor (a community facility FAR of 0.56); and (3) the proposal; and

WHEREAS, the analysis concluded that the first two scenarios would not realize a reasonable return, due to the costs associated with each; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with zoning will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant notes that the existing bulk of the building is consistent with buildings in the surrounding area, which is generally characterized by five and six story residential buildings, as well as six 27-story residential buildings to the east of the site; and

WHEREAS, additionally, preservation of the building would preserve its historic characteristics and would contribute to the cohesive character of the neighborhood; and

WHEREAS, the applicant states that the requested variances would not adversely affect adjacent residential uses or the use of the adjacent garage, since the proposed residential and community facility uses are as of right and the proposed density is appropriate to the subject R7-2 zoning district; and

WHEREAS, the applicant notes that the conversion of the building would not have any significant impacts on land use, socioeconomic conditions, traffic or any other area studied in the Environmental Assessment Statement (EAS); and

WHEREAS, additionally, the EAS reviewed a proposal

MINUTES

with a density of 75 residential units and concluded that said density would not have any foreseeable impacts on the environment; and

WHEREAS, accordingly, should the applicant so desire, the density may be increased up to 75 units, so long as the building envelope does not change and the residential and total FAR remains at 3.43; a condition to this effect is made a part of this resolution; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, as noted above, the feasibility analysis studied a lesser variance proposal with a reduced residential FAR and density and concluded that such a proposal would not realize a reasonable return; and

WHEREAS, therefore, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, HPD has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 06HPD004M dated September 29, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, HPD has determined that no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the HPD has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals adopts a Negative Declaration issued by the NYC Department of Housing Preservation and Development on December 9, 2005 and the adoption becomes effective on the

date of this grant, under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under Z.R. § 72-21 and grants a variance to permit, on a site within an R7-2 zoning district, the proposed conversion of a vacant six-story public school building to a 56-unit residential building, with 103,062 sq. ft. of residential floor area on the first through sixth stories and 12,309 sq. ft. of community facility space in the cellar, which does not comply with applicable requirements for Open Space Ratio, Floor Area Ratio, setback, base and building height, and rear yard, contrary to Z.R. §§ 23-142, 23-633, and 23-533(a), (b) and (c); *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received January 10, 2006”- seven (6) sheets and “Received January 12, 2006” – one (1) sheet; and *on further condition*:

THAT the bulk parameters of the proposed building following shall be as follows: a total and residential FAR of 3.43; wall heights of 83’-2” on West 147th Street and 83’-11” on West 148th Street; no rear yard or setback; and an Open Space Ratio of 10.77;

THAT the total amount of residential units may be increased up to 75 without further review or approval of the Board, so long as the existing envelope of the building does not change and the residential FAR remains at 3.43; the applicant shall notify the Board if this change is made;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 24, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated June 1, 2005, acting on Department of Buildings Application No. 301951136, reads:

1. Plans are contrary to Z.R. 23-141(a) in that the proposed Floor Area Ratio (FAR) exceeds the permitted .5.
2. Plans are contrary to Z.R. 23-141(a) in that the proposed Open Space Ratio (OSR) exceeds the required 1.50.
3. Plans are contrary to Z.R. 23-461(a) in that the proposed side yard at the rear is less than the minimum requirement 12’-5”.
4. Plans are contrary to Z.R. 23-47 in that the existing and proposed rear yard is less than the minimum requirement 30’-0”.”; and

WHEREAS, this is an application under Z.R. §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of an existing single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio (FAR), Open Space Ratio (OSR), and side and rear yards, contrary to Z.R. §§ 23-141(a), 23-461(a) and 23-47; and

WHEREAS, a public hearing was held on this application on December 6, 2005, after due notice by publication in *The City Record*, and then to decision on January 24, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject lot is located on the east side of East 27th Street, between Avenues L and M; and

WHEREAS, the subject lot has a total lot area of 3,750 sq. ft.; and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 3,116 sq. ft. (0.83 Floor Area Ratio or “FAR”) to 3,329 sq. ft. (0.89 FAR); the maximum floor area permitted is 1,875 sq. ft. (0.50 FAR); and

WHEREAS, the proposed enlargement will decrease the OSR from 73.5% to 61.8%; the minimum required OSR is 150%; and

WHEREAS, the proposed enlargement of the existing building will increase the width of one the non-complying side yards from 2’-0” to 4’-0” at the rear by altering the existing enclosed porch to make it aligned with the rest of the building; however, this width is still non-complying; and

WHEREAS, the proposed enlargement building will extend the other 8’-5” non-complying side yard; however, the width of the side yard will be maintained; and

WHEREAS, the proposed enlargement will reduce the rear yard from 23’-4” to 20’-0””; the minimum rear yard required is 30’-0””; and

WHEREAS, the enlargement of the building into the rear yard is not located within 20’-0” of the rear lot line; and

WHEREAS, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. §§ 73-622 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under Z.R. §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of an existing single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio, Open Space Ratio, and side and rear yards, contrary to Z.R. §§ 23-141(a), 23-461(a) and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received September 28, 2005”-(2) sheets, “January 9, 2006”-(5) sheets and “January 20, 2006”-(3) sheets; and *on further condition*:

THAT there shall be no habitable room in the cellar;

THAT the above condition shall be set forth in the

MINUTES

certificate of occupancy;

THAT the total FAR on the premises, including the attic, shall not exceed 0.89;

THAT the total attic floor area shall not exceed 592 sq. ft., as confirmed by the Department of Buildings;

THAT DOB shall review and approve the location of any garage

THAT the use and layout of the cellar shall be as approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 24, 2006.

MINUTES

REGULAR MEETING TUESDAY MORNING, JANUARY 31, 2006 10:00 A.M.

Present: Chair Srinivasan, Vice Chair Babbar,
Commissioner Chin and Commissioner Collins.

The motion is to approve the minutes of regular meeting of the Board held on Tuesday morning and afternoon, November 15, 2005, as printed in the bulletin of November 24, 2005, Vol. 90, Nos. 47-48. If there be no objection, it is so ordered.

SPECIAL ORDER CALENDAR

1005-66-BZ

APPLICANT – Moshe M. Friedman, P.E., for Chelsea Town Company, owner.

SUBJECT – Application November 22, 2005 – Request for a waiver of Rules of Procedure and reopening for the Extension of Term of a variance previously granted under Section 60(1b) of the Multiple Dwelling Law, which expired May 2, 2002, for transient parking of unused and surplus tenant spaces within the accessory garage. Transient parking is limited to twenty-two cars. The premise is located in an R8B zoning district.

PREMISES AFFECTED – 320 West 30th Street, a/k/a 314-322 West 30th Street, south side of West 30th Street, 202' west of 8th Avenue, Block 753, Lot 51, Borough of Manhattan.

COMMUNITY BOARD #4M

APPEARANCES – None.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin.....3

Negative:.....0

Abstain: Commissioner Collins.....1

THE RESOLUTION –

WHEREAS, this application is a request for a re-opening and an extension of term of a previously issued grant to allow transient parking in accessory garage; and

WHEREAS, a public hearing was held on this application on January 10, 2006, after due notice by publication in *The City Record*, and then to decision on January 31, 2006; and

WHEREAS, Community Board No. 5, Manhattan, recommended approval of this application; and

WHEREAS, on May 2, 1967, the Board granted an application pursuant to Section 60(1)(b) of the Multiple Dwelling Law (“MDL”) under the subject calendar number to permit the use of transient parking for the unused and surplus parking spaces in a multiple dwelling accessory garage, in addition to tenant and monthly parking, on condition that the transient parking spaces shall not exceed twenty-two (22) in

number; and

WHEREAS, the term of the variance was extended for a period of ten years on February 8, 1984 and June 13, 1995; the last expiration date was May 2, 2002; and

WHEREAS, the Board has reviewed the submitted materials and agrees that the requested extension of term is appropriate to grant.

Therefore it is Resolved that the Board of Standards and Appeals waives the Rules of Practice and Procedure, *reopens and amends* the resolution pursuant to Section 60(1)(b) of the MDL, said resolution having been adopted on May 2, 1967, as subsequently extended, so that as amended this portion of the resolution shall read: “granted for a term of ten (10) years from May 2, 2002, to expire on May 2, 2012; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked ‘Received August 16, 2005’–(2) sheets and ‘November 22, 2005’–(2) sheets; and *on further condition*;

THAT the number of daily transient parking spaces shall be no greater than 22;

THAT all residential leases shall indicate that the spaces devoted to transient parking can be recaptured by residential tenants on 30 days notice to the owner;

THAT a sign providing the same information about tenant recapture rights be placed in a conspicuous place within the garage;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the layout of the parking garage shall be as approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 104088345)

Adopted by the Board of Standards and Appeals,
January 31, 2006.

386-74-BZ

APPLICANT – Stadtmauer Bailkin/Steve Sinacori, for Riverside Radio Dispatcher, Inc., owner.

MINUTES

SUBJECT – Application October 19, 2005 – Reopening for an amendment to Z.R. 72-21 a Variance application to permit the erection of a one story building for use as an automobile repair shop which is not a permitted use. The proposed amendment pursuant to ZR 52-35 for the change of use from one non-conforming use (Automotive Repair Shop UG16) to another non-conforming use (Auto Laundry UG16) is contrary to the previously approved plans. The premise is located in C4-4 zoning district.

PREMISES AFFECTED – 4184/4186 Park Avenue, east side of Park Avenue, between East Tremont Avenue and 176th Street, Block 2909, Lot 8, Borough of The Bronx.

COMMUNITY BOARD #6BX

APPEARANCES –

For Applicant: Richard Bowers.

ACTION OF THE BOARD - Application granted on condition.

THE VOTE TO GRANT -

Affirmative: Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin.....3

Negative:.....0

Abstain: Commissioner Collins.....1

THE RESOLUTION -

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance, to permit a change of use from an automobile repair shop to an automobile laundry (a car wash); and

WHEREAS, a public hearing was held on this application on November 22, 2005, after due notice by publication in *The City Record*, with a continued hearing on January 10, 2006, and then to decision on January 31, 2006; and

WHEREAS, a committee of the Board conducted a site visit of the premises; and

WHEREAS, Community Board 8, Bronx, recommends approval of this application; and

WHEREAS, the subject premises is located on the east side of Park Avenue between East Tremont Avenue and 176th Street, and has a total lot area of approximately 14,892.54 sq. ft.; and

WHEREAS, the site is located within a C4-4 zoning district; and

WHEREAS, the site is improved upon with a 5,000 sq. ft. one-story building formerly occupied as a use Group 16 automobile repair facility, but which is now vacant; and

WHEREAS, on February 11, 1975, the Board granted a variance under the subject calendar number to permit the erection of this one-story building and its occupancy as an automotive repair facility; and

WHEREAS, the applicant represents that the current owner desires to convert the building to a UG 16 automobile laundry, that would serve its fleet of livery cars, nearby automotive uses, and the nearby residential community; the facility would also provide hand detailing, waxing, and vacuuming, as well as an accessory retail store and coffee shop; and

WHEREAS, the applicant states that the facility will

operate 24 hours per day; and

WHEREAS, at hearing, the Board expressed concern about the proposed layout; specifically, the following issue was identified: the proposed drying area appeared to be too small to accommodate the amount of cars using the car wash, having space for only three cars, which could lead to car washing activity taking place on the side walk or street, or back up of cars onto the street; and

WHEREAS, the applicant responded by increasing the capacity of the drying area to four cars, and also explained that cars move through the car wash at a rate that allows drying to occur in a reasonable time frame (two to three minutes) with a drying area with a four car capacity; and

WHEREAS, the Board finds the modification and explanation acceptable; and

WHEREAS, at hearing, the Board also asked the applicant to explain any potential impact the car wash might have on the surrounding community; and

WHEREAS, the applicant responded by noting that the surrounding uses were mostly commercial and automotive, except for a multiple dwelling to the north of the site; the applicant states that a 10 ft. high wall will be installed on this side of the site that will act as a screen; and

WHEREAS, the Board was also concerned about the height of the temporary shed at the rear of the property; the applicant responded that it will be no greater than 10 ft. in height; and

WHEREAS, finally, at hearing, the Board expressed concern regarding the existing curb cuts and the need for a pedestrian sidewalk; in particular, the Board asked that the curb cut nearest to the pedestrian entry be eliminated; and

WHEREAS, in response, the applicant submitted a revised site plan that eliminated the offending curb cut and that illustrated a new sidewalk near the pedestrian entry; and

WHEREAS, based upon the submitted evidence, the Board finds the requested amendment appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on February 11, 1975, so that as amended this portion of the resolution shall read: “to permit the change in use from Use Group 16 automobile repair facility to Use Group 16 automobile laundry, *on condition* that all work shall substantially conform to drawings as filed with this application, marked ‘Received October 19, 2005’ – (2) sheets and ‘January 16, 2006’ – (2) sheets; and *on further condition*:

THAT no carwash activities shall be conducted on the sidewalks or streets abutting the site;

THAT all landscaping and fencing shall be installed and/or maintained as shown on the BSA-approved plans;

THAT the shed at the rear of the property shall be no greater than 10 ft. high;

THAT all signage comply with applicable C4-4 district regulations;

THAT the above condition shall be listed on the certificate of occupancy;

MINUTES

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

(DOB Application No. 200868098)

Adopted by the Board of Standards and Appeals, January 31, 2006.

APPEARANCES –

For Applicant: Loretta Papa.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated July 25, 2005, acting on Department of Buildings Application No. 402117311, reads:

“A1- The Site is located partially in the bed of mapped street therefore no permit or Certificate of Occupancy can be issued as per Article 3, Section 35 of the General City Law;

A2- The site and building is not fronting on an official mapped street therefore, no permit or Certificate of Occupancy can be issued as per Art. 3, Sect 36 of the General City Law; also no permit can be issued since the proposed construction does not have at least 8% of total perimeter of building fronting directly upon a legally mapped street or frontage space and therefore contrary to Section C27-291- (C26-401.1) of the Administrative Code of the City

of New York.

A3- The private disposal system is in the bed of a mapped street which is contrary to Department of Buildings policy;” and

WHEREAS, a public hearing was held on this application on January 31, 2006 after due notice by publication in the *City Record*, on which date the matter was closed and decided; and

WHEREAS, by letter dated August 22, 2005, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated August 31, 2005, the Department of Environmental Protection states that it has reviewed the project and has no objections; and

WHEREAS, by letter dated November 28, 2005, the Department of Transportation states that it has reviewed the project and has no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, July 25, 2005, acting on Department of Buildings Application No. 402117311, is modified by the power vested in the Board by Section 36 And Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received August 2, 2005”-(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 31, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated December 9, 2005, acting on Department of Buildings Application No. 402182810, reads:

- “1. Proposal to construct a two story (2) home and install a new septic system on a site which lies within an R-4 district is contrary to Article 3, Section 36 (2) of the General City Law (GCL) in that the site does not front on a mapped street (Atlantic Walk) and is contrary to Article 3, Section 35 of the General City Law in that the home and septic system will lie within the bed of a street which is mapped (Beach 207th), and contrary to Section 27-291 of the NYC Building Code and must therefore be referred back to the Board of Standards and Appeals for approval”; and

WHEREAS, a public hearing was held on this application on January 31, 2006 after due notice by publication in the *City Record*, on which date the matter was closed and decided; and

WHEREAS, by letter dated August 22, 2005, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated August 31, 2005, the Department of Environmental Protection states that it has reviewed the project and has no objections; and

WHEREAS, by letter dated November 28, 2005 , the Department of Transportation states that it has reviewed the project and has no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, December 9, 2005, acting on Department of Buildings Application No. 402182810, is modified by the powers vested in the Board by Section 36 and Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received December 16, 2005”–(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

Borough Commissioner, September 29, 2005, acting on Department of Buildings Application No. 402176015, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received October 13, 2005" – (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 31, 2006.

305-05-A

APPLICANT – Joseph Sherry, P.E. for Breezy Point Cooperative, owner Jim McShane, lessee.

SUBJECT – Application October 13, 2005 - Enlargement of a one family dwelling which does not front on mapped street, which is contrary to Section 36, Article 3 of the General City Law and upgrade of a private disposal system in the bed of a service road contrary to Dept of Buildings policy. Located in an R4 Zoning District

PREMISES AFFECTED – 19 Queens Walk, E/S 416.39 N/O Breezy Point Boulevard. Block 16350 part of Lot 400, Borough of Queens.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated September 29, 2005, acting on Department of Buildings Application No. 402176006, reads:

“A1– The Site and Building is not fronting on an official mapped street; therefore, no permit or Certificate of Occupancy can be issued as per Article 3, Section 36 of the General City Law; no permit can be issued since the proposed construction does not have at least 8% of total perimeter of building fronting directly upon a

legally mapped street or frontage space and therefore contrary to Section C27-291- of the Administrative Code of the City of New York.

A-2 – The private disposal system is in the bed of a service road which serves as a street which is contrary to Department of Buildings policy ; and

WHEREAS, a public hearing was held on this application on January 31, 2006 after due notice by publication in the *City Record*, on which date the matter was closed and decided; and

WHEREAS, by letter dated November 28, 2005, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, September 29, 2005, acting on Department of Buildings Application No .402176006, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received October 13, 2005"–(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 31, 2006.

THE RESOLUTION –

WHEREAS, this is an application under Z.R. § 11-332, to renew a building permit and extend the time for the completion of a two-story enlargement to an existing six-story building; and

WHEREAS, this application was brought concurrently with a companion application under BSA Cal. No. 348-05-A, decided the date hereof, which is an appeal to the Board for a finding that the owner of the premises has obtained a vested right to continue construction under the common law; and

WHEREAS, the Board notes that while separate applications were filed, in the interest of convenience, it heard the cases together and the record is the same for both; and

WHEREAS, a public hearing was held on this application on December 13, 2005 after due notice by publication in The City Record, with a continued hearing on January 10, 2006 and then to decision on January 31, 2006; and

WHEREAS, the site was inspected by a committee of the Board; and

WHEREAS, Council Member Quinn, Assembly Member Glick, Senator Duane and the Manhattan Borough President opposed the granting of any relief to the applicant; and

WHEREAS, certain other members of the community also opposed this application, including the Greenwich Village Society for Historic Preservation, (collectively, the “opposition”), alleging that some of the enlargement work was conducted contrary to the issued permit or in an unsafe manner; these allegations are addressed below; and

WHEREAS, the subject premises is an 8,377 sq. ft. midblock site consisting of two tax lots (Lots 13 and 17), on a block bounded by Perry, Washington and West Streets, and Charles Lane; and

WHEREAS, the premises is currently improved upon with a six-story garage building on Lot 13, and a three-story parking and garage building on Lot 17; the proposed two-story enlargement is of the six-story garage building, that

WHEREAS, the premises is currently located primarily within an R6A(C1-5) zoning district (with a small 3’-5” wide portion within a C1-7 zoning district), but was formerly located within a C6-2 zoning district; and

WHEREAS, the proposed enlargement complies with the former C6-2 zoning district parameters as to floor area, building height, and lot coverage; and

WHEREAS, however, on October 11, 2005 (hereinafter, the “Enactment Date”), the City Council voted to adopt the Far West Village Rezoning, which rezoned all but a sliver of the site

to R6A(C1-5), as noted above; and

WHEREAS, because the site is now within an R6A(C1-5) district, the existing building becomes a lawful non-complying structure, and the proposed enlargement increases the degree of non-compliance as to floor area, building height, and lot coverage and therefore is not permitted; and

WHEREAS, ZR §11-30 et seq. sets forth the regulations that apply to the subject application for a reinstatement of a permit that lapses due to a zoning change; and

WHEREAS, ZR §11-31(c)(3) defines construction such as the proposed enlargement as “other construction”; and

WHEREAS, for “other construction”, an extension of time to complete construction may be granted by the Board pursuant to ZR § 11-332; and

WHEREAS, Z.R. §11-332 reads, in pertinent part: “[F]or other construction if construction has not been completed on the effective date of any applicable amendment, the building permit shall automatically lapse and the right to continue construction shall terminate. An application may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew such building permit for . . . one term of not more than three months for other construction. In granting such an extension, the Board shall find that substantial construction has been completed and substantial expenditures made, subsequent to the granting of the permit, for work required by any applicable law for the use or development of the property pursuant to the permit.”; and

WHEREAS, Z.R. § 11-31(a) reads: “For the purposes of Section 11-33, relating to Building Permits Issued Before Effective Date of Amendment to this Resolution, the following terms and general provisions shall apply: (a) A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment to this Resolution. In case of dispute as to whether an application includes “complete plans and specifications” as required in this Section, the Commissioner of Buildings shall determine whether such requirement has been met.”; and

WHEREAS, the applicant represents that all of the relevant Department of Buildings (“DOB”) permits were lawfully issued to the owner of the subject premises; and

WHEREAS, the record indicates that the following permit was lawfully issued to the owner by DOB: on August 30, 2005, an alteration permit (Permit No. 104214814-01-AL; hereinafter, the “A1 Permit”) for the proposed enlargement; and

WHEREAS, additionally, other related permits were issued to facilitate construction of the proposed enlargement, including a fence permit, a sidewalk shed permit and a scaffold permit; and

WHEREAS, the Board has reviewed the record and agrees that the A1 Permit was lawfully issued to the owner of the subject premises on the referenced dates, prior to the Enactment Date; and

WHEREAS, although there was no dispute brought to the Board’s attention as to whether the A1 Permit issuance was based upon complete plans and specification, while the instant matter was in hearing, the Board was made aware that DOB was

MINUTES

conducting an audit of the A1 Permit; and

WHEREAS, the Board is aware that after the audit, DOB issued a Notice of Objections as well as a 10 day letter indicating that the permit would be revoked unless the objections were resolved; and

WHEREAS, subsequent to this, the applicant submitted into the record the DOB Notice of Objections that indicates that all of the objections were resolved and that the audit was accepted; and

WHEREAS, in addition, the record contains a letter of rescission for the previously issued revocation from the Borough Commissioner of DOB; and

WHEREAS, in reliance upon DOB's review of the A1 Permit and the subsequent successful resolution of all objections, as well as confirmation of this from the Borough Commissioner, which is the only evidence before the Board as to the validity of the Permit, the Board concludes that the terms and general provisions of ZR § 11-31(a) are satisfied; and

WHEREAS, the Board makes this conclusion notwithstanding opposition's contentions as set forth in a letter dated January 27, 2006, which essentially recites some of the objections listed in the Notice of Objections and asks that the Board delay decision until said objection are resolved; and

WHEREAS, as discussed above, these objections have been resolved and the Borough Commissioner has rescinded the previously issued revocation letter; and

WHEREAS, accordingly, the Board finds that the record contains sufficient evidence to satisfy the findings set forth ZR 11-31(a) and that a decision may be rendered provided the other findings are met; and

WHEREAS, turning to the substantive findings of ZR § 11-332, the Board notes that there is no fixed standard in an application made under this provision as to what constitutes substantial construction or substantial expenditure in the context of an enlargement; and

WHEREAS, the Board first notes that the text of this provision requires the Board to evaluate the degree of completed work against what remains to be done; and

WHEREAS, thus, the Board's deliberation focuses upon the amount of work completed versus what remains in terms of actual construction; and

WHEREAS, useful gauges of the substantiality of the completed work are the time spent on construction up to the Enactment Date versus how much time the proposed enlargement will take to complete, as well as a discussion of the complexity of the work already done versus that which remains; and

WHEREAS, however, these gauges are not dispositive, and may be accorded different weight by the Board depending on the circumstances of a particular case; and

WHEREAS, the Board also observes that that the work to measured under ZR § 11-332 must be performed after the issuance of the permit; and

WHEREAS, the Board notes that like the actual work performed, the expenditures to be assessed under ZR § 11-332 are those incurred after the permit is issued; and

WHEREAS, accordingly, as is reflected below, the Board only considered post-permit expenditures, as submitted by the

applicant per the Board's request; and

WHEREAS, in its written statements and testimony, the applicant represents that as of the Enactment Date, substantial construction had been completed and substantial expenditures were made after the issuance of the A1 Permit; and

WHEREAS, the applicant states that work on the proposed enlargement subsequent to the issuance of the A1 Permit involved the following: (1) Selective demolition, consisting of the creation of two shafts by the demolition of portions of the first floor through the roof; (2) Cutting and excavation of the pit foundation for the new elevator; (3) Existing concrete encased steel moment connections were exposed in order to determine the necessary upgrades to the existing steel to bear the load of the new structure; (4) Masonry shaft construction, consisting of reinforced solid filled structural block constructed as a bearing member of the existing building; (5) Reinforcement of the structural columns from the fifth floor through the existing roof by encasing the columns and the connections in reinforced concrete; (6) The structural steel for the new 2-story addition was erected and fifty percent of the Q-decking (corrugated metal deck – 7th floor portion) was installed; and

WHEREAS, in support of this statement the applicant has submitted the following evidence: various affidavits from the owner and contractor, a daily work log prepared by the contractor, and pictures of the work completed along with an affidavit from a construction supervisor and attached schedule that reflects in what month the pictures were taken; none of the pictures were taken after the Enactment Date; and

WHEREAS, at the request of the Board, the applicant also submitted plans stamped and signed by Asymptote Architecture, indicating the extent of completion of the proposed enlargement as of the Enactment Date; this set of plans corroborates the applicant's statements as to the scope of work; and

WHEREAS, the Board has reviewed this documentation and agrees that it establishes that the afore-mentioned work was completed prior to the Enactment Date; and

WHEREAS, the applicant states that this work was done over 29 days of construction; and

WHEREAS, during the course of construction, DOB inspectors were at the site on various occasions, and the following DOB violations were issued: (1) issuance of DOB Violation 091805CERMR01 on September 18, 2005, which states "construction activities are being performed on [sic – probably should read "beyond"] weekdays between the hours of 7am and 6pm without a variance as required by Section 24-224 of the Administrative Code" (hereinafter, the DOB Violation); and (2) issuance of ECB Violation 34490118L on September 22, 2005, which reads in pertinent part "Failure to safeguard public and property affected by construction operations noted: work in progress under job#104214814 exp 12-01-05 at roof levels adding 2 stories without providing sidewalk or protection" (hereinafter, the "ECB Violation"); and

WHEREAS, the ECB Violation was the result of an inspection on September 22, 2005, on which date work was stopped pursuant to a Stop Work Order ("SWO"); and

MINUTES

WHEREAS, the applicant notes that the SWO was lifted on September 23, 2005 with respect to interior work and on October 12, 2005 with respect to exterior work; and

WHEREAS, no Stop Work Order was issued on September 18, 2005 when the DOB Violation was issued; and

WHEREAS, the applicant states that the following work remains to be done: “finish Q-decking (8th floor portion) and structural studs and place concrete at decks, finish bulkhead portion of masonry shaft, install exterior wall, roofing and window system on 7th and 8th floor, finish elevator, install scissor stairs, completion of mechanical, plumbing and electrical systems, finish lobby areas on cellar thru 8th floor, and finish loft apartments and related services on 7th and 8th floors”; and

WHEREAS, at the time of the initial application, the applicant stated that the remaining work would take approximately 50 to 60 days to finish; and

WHEREAS, however, in a submission dated December 8, 2006, the applicant noted that due an inordinate amount of rain in the fall of 2005, extensive damage to the proposed enlargement as well as to the existing building resulted, and that a longer amount of time to complete construction might therefore be required; and

WHEREAS, the applicant supported this contention with data from the National Climactic Data Center, which reflected the amount of rainfall, as well as an affidavit from the construction contractor which outlined the water damage; and

WHEREAS, based upon this concern, the applicant filed the afore-mentioned application for a common-law vested rights determination; and

WHEREAS, the Board notes that opposition questions whether the 50 to 60 day time estimate is accurate, but no proof of its inaccuracy has been provided by them; and

WHEREAS, so, for purposes of this application, the Board will rely upon the assertion of the applicant that, absent the intervening circumstance of rain damage that would not have occurred had the A1 Permit not lapsed by operation of law on the Enactment Date, completion of construction would take approximately 60 days; and

WHEREAS, thus, 29 out of 89 total days of anticipated construction (or 32 percent) took place prior to the Enactment Date, which the applicant represents supports a conclusion that substantial construction had been completed; and

WHEREAS, the applicant also states that, in these 29 days, the most complex work has already been completed; specifically, the applicant states that the reinforcement of the existing building structure, the excavation, demolition and dewatering for the new building shafts and the erection of the steel structure for the addition were the most challenging aspects of the proposed enlargement, from an engineering and site safety perspective; and

WHEREAS, the applicant states that the remaining work consists of installation of the remaining Q-decking, construction of the bulkhead, installation of the exterior wall, roof and windows and interior finish work; and

WHEREAS, the applicant concludes that based upon actual work performed under the A1 Permit, the amount of days worked versus those remaining, and the complexity, that

substantial construction has been completed sufficient to satisfy the standard in ZR § 11-332; and

WHEREAS, the Board agrees that the number of days that work proceeded, as well as its complexity, are useful as gauges, but further notes that the actual completion of physical construction is substantial in of itself, in that it resulted in numerous visible alterations to the existing building necessary to the proposed enlargement; and

WHEREAS, as to costs, the applicant initially stated that the expenditures made totaled \$1,603,056 of the total project cost of \$2,519,613 (51 percent); in support of this claim, the applicant has submitted checks, a receivables journal, and affidavits; and

WHEREAS, however, as noted above, the Board observes that ZR § 11-332 confines the expenditure analysis to those costs incurred after the permit and up to the date of the zoning amendment; and

WHEREAS, accordingly, the Board asked the applicant to clarify what costs were expended after the A1 Permit was issued; and

WHEREAS, in a submission dated December 27, 2005, the applicant states that a total of \$1,484,524, or approximately 47 percent of the total project cost, was incurred between the issuance of the A1 Permit and October 11, 2005, the date the A1 Permit lapsed; and

WHEREAS, the applicant contends that this percentage constitutes a substantial expenditure sufficient to satisfy the finding in ZR 11-332; and

WHEREAS, absent any other consideration, the Board would agree; and

WHEREAS, however, opposition to this case expressed concerns about three primary issues: (1) that, contrary to the assertions of the applicant, the developer should have been aware of the proposed rezoning since the plans for the area were known to the public; (2) that some of the performed construction and incurred expenditures that were folded into the applicant’s analysis were the result of illegal after-hours or weekend work; and (3) that some of the construction and expenditures in the analysis were the result of work performed while a safety measure was not complied with, as evidenced by the ECB Violation; and

WHEREAS, as to the first contention, leaving aside whether it is factually accurate, the Board finds that consideration of whether the develop knew of the impending rezoning is not particularly relevant or pertinent, where the Board’s consideration under ZR § 11-332 is technical in nature, and is based upon a review of construction work and expenditure; and

WHEREAS, additionally, the applicant represents that the inception of the development process began in the fall of 2004 when the owner was advised by the company that owned the garage on which the proposed enlargement is being constructed that it would be ceasing its operations; and

WHEREAS, the applicant further states that the developer retained the project architect in January 2005, purchased the floor area development rights from the adjacent parcel, Lot 17 in March 2005, and retained a construction manager in June, 2005 ; and

MINUTES

WHEREAS, as to the second and third contentions, opposition claims that such work and expenditure should not be credited by the Board; and

WHEREAS, the Board took such claims seriously and asked the applicant to address the specific concerns; and

WHEREAS, in support of the second contention, opposition submitted affidavits from neighbors that state that they observed work conducted after legal permit hours (which are 9 to 5) and on the weekends (when a special permit from DOB would be needed); and

WHEREAS, in response to the second contention (concerning after hours work), the applicant provided the Board affidavits, and cited to the work log, in support of the contention that the only after-hours work performed is as follows: (1) steel was erected by crane on Saturday, September 17, 2005, and Sunday, September 18, 2005; this work was permitted under Department of Transportation ("DOT") Permit 02-2005258-143 (valid 9/17/05 through 9/25/05, indicating "may work Sat-Sun 9am – 6 pm") and DOB Permit 104214814 (valid 9/17/05, 9 am to 5 pm); (2) on Saturday, September 24, 2005, a sidewalk bridge was erected; this work was performed in order to correct the condition cited in the ECB Violation; (3) on Saturday, October 8, 2005, work consisting primarily of installing out rig safety nets, generally permitted under DOB Permits 104243506-01-EQ-SH, dated September 26, 2005, and 104251060-01-EQ-SF, dated October 5, 2005, was performed; there was also some interior work performed on this date that was related to site safety and site maintenance, specifically drilling of saddles, required for Fire Department access, on the stand pipe and general cleaning work; and (4) on Sunday, October 16, 2005, emergency work was performed to secure an out rig that had been dislodged by high winds; and

WHEREAS, as to the work performed on September 17 and 18, the applicant states that although the DOB permit was on its face limited to Saturday, September 17, 2005, the work had been permitted by DOT to also occur on Sunday, September 18, 2005; and

WHEREAS, the applicant also states that commencement of the work had been unexpectedly delayed on the morning of Saturday, September 17, 2005, such that only approximately 75 percent of the installation could take place on that day, and that work proceeded on Sunday September 18, 2005 because the DOT permit remained valid for one more day, because the crane was already in place and because of public safety concerns arising from the fact that not all of the steel had been braced; and

WHEREAS, according to the applicant, a DOB inspector visited the site on Sunday, September 18, 2005, was apprised of the delays and the safety concerns and elected not to issue a Stop Work Order, but did issue the DOB Violation; and

WHEREAS, the applicant also states that on Saturday, September 17, 2005, there was some additional interior work performed, which was generally related to site safety and site maintenance, specifically, blocking of the elevator shaft, dewatering of the elevator pit and installation of fall

protection at the stair shaft; and

WHEREAS, the applicant concludes that any weekend work was properly permitted and/or was necessitated by site safety concerns that did not relate to the scope of work of the A1 Permit; and

WHEREAS, as to the allegations of work after hours during the week, the applicant states that DOB did not issue any violations for after hours work despite its receipt of complaints; and

WHEREAS, the Board has reviewed the affidavits, the work log, and the referenced weekend work permits, and agrees that at least for September 17, 2005, work was allowed at the premises, up until 5 PM; and

WHEREAS, the Board also agrees that at least some of the weekend work conducted was in order to address safety concerns at the site; and

WHEREAS, however, opposition observes that the daily work log for Sunday September 18, 2005 indicates that the work involved setting steel on the roof with a crane and the erection of 8th floor beams; and

WHEREAS, the Board asked the applicant to respond to this; and

WHEREAS, in response, the applicant notes that this work was done so that unsecured steel would not be present on top of the building, which would pose a potential safety hazard; and

WHEREAS, the Board has reviewed the contentions of both parties as to the weekend work and the alleged after-hours work during the week; and

WHEREAS, the Board agrees that, as a general principle, work that was not done pursuant to the time limitations of a permit should not be counted towards vesting, absent extenuating circumstances; and

WHEREAS, the applicant argues that such extenuating circumstances exist here; and

WHEREAS, however, as discussed in more detail below, the applicant argues that since the aggregate cost of such work is not significant, the Board could find that even when this work is excluded, the threshold of substantial construction and expenditure is nevertheless met; and

WHEREAS, the applicant also notes that the weekend work done in response to safety concerns was not folded into the substantial work or expenditures calculations; and

WHEREAS, accordingly, exemption of this work would not affect the determination that the work and expenditures were substantial; and

WHEREAS, as to the third contention (concerning work done where a sidewalk shed was required), opposition states that in response to complaints, DOB issued the ECB Violation and related Stop Work Order for not having a sidewalk shed; and

WHEREAS, opposition contends that the exterior work on the proposed enlargement performed prior to September 23, 2005 was done in an unsafe manner because of the failure to provide a sidewalk shed and therefore should not be credited; and

WHEREAS, the applicant states that the Board should not discount work from the substantial construction and

MINUTES

substantial expenditures standards because of a site safety violation for the lack of a sidewalk shed; and

WHEREAS, the applicant argues that while site safety is very important, and violation of said standards may result in penalties, the issuance of a violation does not invalidate work that was performed pursuant to validly issued DOB permits; and

WHEREAS, the Board agrees that issuance of a violation may not render a permit invalid nor does it necessarily mean that the work that was performed prior to issuance of a violation is unlawful; and

WHEREAS, additionally, like the applicant, the Board is unaware of any explicit authority that would allow it to discount work performed while the violation conditions remained from the substantial construction and substantial expenditures calculations; and

WHEREAS, nor has the opposition cited to any such authority; instead, the opposition states that the applicant disregarded safety concerns in order to continue with construction at an expedited pace and that the endangerment of the surrounding buildings and people should not be rewarded; and

WHEREAS, notwithstanding the apparent lack of precedent for excluding from a vesting calculation work performed in violation of an applicable safety requirement, the Board can envision that, depending on the circumstances, the possibility of discounting such work should at least be entertained, regardless of any official action as to the underlying permit; and

WHEREAS, for instance, if irrefutable proof was provided to the Board of a developer's willing and knowing disregard for a site safety provision such that danger to persons or property was imminent and obvious, and no other safety measures were taken and no mitigating circumstances existed, the Board, would at a minimum, consider excluding such work so that developers are not encouraged to forego

WHEREAS, however, as to this disputed work, the applicant makes the same argument as it did as to unpermitted work; specifically, that even if such work is excluded, the threshold of substantial construction and expenditure is nevertheless met; and

WHEREAS, specifically, the applicant notes that the expenditures for work that arguably required a sidewalk bridge or other pedestrian safety measures on Monday, September 19, 2005 through Thursday, September 22, 2005 consisted solely of the labor costs for the installation of steel materials that were already on the site, which are estimated by the developer to be approximately \$20,000; and

WHEREAS, the applicant states that this amount represents approximately 7 percent of the total amount under the iron work contract (\$293,500) and approximately 0.6 percent of the total project cost of \$3,126,814; and

WHEREAS, the applicant states, and the Board agrees that even if the non-permitted work and work conducted without the sidewalk shed is deducted safety measures in order to finish construction; and from the expenditures, a total of \$1,391,148 in costs, or 44 percent of the total project cost, was still incurred between the issuance of the A1 Permit

and the Enactment date; and

WHEREAS, based upon its review of all the submitted evidence, the Board finds that this percentage of expenditure is substantial and meets the finding set forth at Z.R. § 11-332; and

WHEREAS, additionally, the Board finds that the work performed up to September 18 was complex construction that was necessary for the proposed enlargement and that resulted in tangible change to the structure; and

WHEREAS, based upon its consideration of the arguments made by the applicant and opposition as outlined above, as well as its consideration of the entire record, the Board finds that substantial construction was completed and substantial expenditure were made; therefore, the Board finds that the applicant has adequately satisfied all the requirements of Z.R. § 11-332, and that the owner is entitled to the requested reinstatement of the A1 Permit, and all other permits necessary to complete the proposed enlargement; and

WHEREAS, however, the Board notes that the applicant has also filed the above-mentioned companion application under BSA Cal. No. 348-05-A, stating that the relief that the Board can grant under ZR §11-332 is not sufficient to complete the proposed enlargement, due to the additional time it will take to both finish the anticipated work as well as remedy the unanticipated damage to the proposed enlargement that resulted from rain after work was stopped; and

WHEREAS, accordingly, although the Board, through this resolution, grants the owner of the site the requested three month extension for completion of construction that is allowed under ZR § 11-332, this grant is not an impediment to the reinstatement of the permit made by the Board under BSA Cal. No. 348-05-A, in which the Board is providing the applicant a sufficient amount of time to complete construction.

Therefore it is Resolved that this application made pursuant to Z.R. §11-332 to renew Alteration Permit No. 104214814 as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed enlargement for one term of three months from the date of this resolution, to expire on April 31, 2006; this grant and the term shall not prohibit the reinstatement of these permits pursuant to a grant made under BSA Cal. No. 348-05-A.

Adopted by the Board of Standards and Appeals, January 31, 2006.

348-05-A

APPLICANT – Kramer Levin Naftalis & Frankel, LLP, for Perry Street Development Corp., c/o Richard Born, Hotel Wellington, owners.

SUBJECT – Application November 10, 2005 – Proposed extension of time to complete construction pursuant to Z.R. 11-332 for 2-story residential addition to an existing 6-story commercial building. Appeal case is seeking a determination that the owner of said premises has acquired a common-law vested right to continue development commenced under the prior C6-2 zoning district. Current Zoning District is R6A (C1-5) and (C1-7).

THE RESOLUTION –

WHEREAS, this is an appeal requesting a Board determination that the owner of the premises has obtained a vested right under the common law to complete a two-story enlargement to an existing six-story building; and

WHEREAS, this application was brought concurrently with a companion application under BSA Cal. No. 324-05-BZY, decided the date hereof, which is a request to the Board for a finding that the owner of the premises has obtained a right to continue construction pursuant to ZR § 11-332 (hereinafter, the “BZY Application”); and

WHEREAS, the applicant made its initial request for relief under the common law in conjunction with the BZY Application; at the direction of the Board’s staff, the applicant submitted this separate application, because the analysis is different under the common law and because different relief may be granted, and also so that a separate calendar number could be issued; and

WHEREAS, the Board notes that while separate applications were ultimately filed, in the interest of convenience, it heard the cases together and the record is the same for both; and

WHEREAS, a public hearing was held on this application on December 13, 2005 after due notice by publication in *The City Record*, with a continued hearing on January 10, 2006 and then to decision on January 31, 2006; and

WHEREAS, the site was inspected by a committee of the Board; and

WHEREAS, Council Member Quinn, Assembly Member Glick, Senator Duane and the Manhattan Borough President opposed the granting of any relief to the applicant; and

WHEREAS, certain other members of the community also opposed this application, including the Greenwich Village Society for Historic Preservation, (collectively, the “opposition”), alleging that some of the enlargement work was conducted contrary to the issued permit or in an unsafe manner; these allegations are addressed below; and

WHEREAS, the subject premises is an 8,377 sq. ft. midblock site consisting of two tax lots (Lots 13 and 17), on a block bounded by Perry, Washington and West Streets, and Charles Lane; and

WHEREAS, the premises is currently improved upon with a six-story garage building on Lot 13, and a three-story parking and garage building on Lot 17; the proposed two-story enlargement is of the six-story garage building, that

WHEREAS, the premises is currently located primarily within an R6A(C1-5) zoning district, with a small 3’-5” wide portion within a C1-7 zoning district), but was formerly located within a C6-2 zoning district; and

WHEREAS, the proposed enlargement complies with the former C6-2 zoning district parameters as to floor area, building height, and lot coverage; and

WHEREAS, however, on October 11, 2005 (hereinafter, the “Enactment Date”), the City Council voted to adopt the Far West Village Rezoning, which rezoned all but a sliver of the site to R6A(C1-5), as noted above; and

WHEREAS, because the site is now within an R6A(C1-5) district, the proposed enlargement increases the degree of non-compliance as to floor area, building height, and lot coverage and therefore is not permitted; and

WHEREAS, the applicant requests that the Board find that based upon the amount of financial expenditures, including irrevocable commitments, and the amount of work completed, the owner has a vested right to continue construction and finish the proposed enlargement; and

WHEREAS, the applicant states that it is requesting relief under the common law and constitutional theory of vested rights in addition to seeking relief under ZR § 11-332 because the amount of relief that can be granted by the Board under this provision is limited to three months; and

WHEREAS, in a submission dated December 8, 2006, the applicant noted that due an inordinate amount of rain in the fall of 2005, extensive damage to the proposed enlargement as well as the existing building resulted, and that a longer amount of time to complete construction might therefore be required; and

WHEREAS, the applicant supported this contention with data from the National Climactic Data Center, which reflected the amount of rainfall, as well as an affidavit from the construction contractor which outlined the water damage; and

WHEREAS, based upon this concern, the applicant filed the instant application, and requests a six month term in which to complete construction; and

WHEREAS, the Board notes that established precedent exists for the proposition that seeking relief pursuant to ZR 11-30 et seq. does not prevent a property owner from also seeking relief under the common law; and

WHEREAS, as a threshold matter in determining this appeal, the Board must find that the completed work was conducted pursuant to valid permits; and

WHEREAS, as reflected in the resolution for the BZY Application, the record for that case and the instant case contains sufficient evidence to make this finding; and

WHEREAS, turning to the substantive findings of the amount of work done and the amount of expenditure, the Board notes that a common law vested right to continue construction generally exists where the owner has undertaken substantial construction and made substantial expenditures prior to the effective date of an amendment; and

WHEREAS, as discussed by the court in *Kadin v. Bennett*, 163 A.D.2d 308 (2d Dept. 1990) “there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess ‘a vested right’ . Rather, it is a term which sums up a determination that the facts of the

MINUTES

case render it inequitable that the State impede the individual from taking certain action”; and

WHEREAS, as to enlargements specifically, in its statement, the applicant cites to the case *Bayswater Health Related Facility v. Karagheuzoff*, 37 NY2d. 408, in which the Court of Appeals held that a vested right had been acquired for a conversion of existing structures to nursing homes because the “main building had already been gutted, its roof and sidewalks opened and exposed to the elements ...”; and

WHEREAS, the applicant also cites to *Paliotto v. Perlman*, 71 Misc.2d 221 (Sup. Ct. Nassau Co. 1972), where, when petitioner sought to complete a dome over a tennis court under a permit issued prior to the effective date of a new fire ordinance, the court held: “The completed approved improvements were an integral and necessary part of the proposed air supported structures alteration”; and

WHEREAS, the applicant states that from these cases, it is apparent that such factors as tangible physical change, gutting the existing building and exposing it to the elements, and completion of improvements that are an integral part of the alteration, all are relevant to a finding of completion of substantial construction; and

WHEREAS, the Board agrees that, under the common law, a completion of substantial construction finding will depend, in part, upon a showing of actual construction work resulting in some tangible change to the structure being altered that is integral to the proposed work; and

WHEREAS, in addition, the Board notes that, like a case brought under, Z.R. § 11-30 et seq., a comparison of the amount of work completed versus what remains, in terms of time and actual construction, and a discussion of the complexity of the work, may also be relevant but non-dispositive gauges; and

WHEREAS, however, as to expenditure, the Board notes that unlike an application for relief under ZR § 11-30 et seq., soft costs and irrevocable financial commitments can be considered in an application under the common law; accordingly, these costs are included in the applicant’s analysis; and

WHEREAS, in its written statements and testimony, the applicant represents that as of the Enactment Date, substantial construction had been completed and substantial expenditures were made after the issuance of the A1 Permit; and

WHEREAS, the applicant states cites to the same work and the same evidence as was presented in the BZY Application; and

WHEREAS, the Board has reviewed this documentation and agrees that it establishes that the afore-mentioned work was completed prior to the Enactment Date; and

WHEREAS, the applicant also concludes that based upon actual work performed under the A1 Permit and its complexity, that substantial construction has been completed sufficient to satisfy the general standards under the common law; and

WHEREAS, as to costs, the applicant states that the expenditures made totaled \$1,864,488 of the total project cost of \$3,126,814 (59 percent); this total includes soft costs and irrevocable financial commitments; and

WHEREAS, in support of this claim, the applicant has submitted checks, a receivables journal, and affidavits, which the Board has reviewed and finds credible; and

WHEREAS, absent any other consideration, the Board would find that the degree of work done and expenditures incurred would be sufficient to meet the common law vesting standard; and

WHEREAS, however, opposition expressed concerns about three primary issues: (1) that the developer knew of the impending rezoning; (2) that some of the performed construction and incurred expenditures that were folded into the applicant’s analysis were the result of illegal after-hours or weekend work; and (3) that some of the construction and expenditures in the analysis were the result of work performed while a safety measure was not complied with, as evidence by the ECB Violation; and

WHEREAS, while the Board asked the applicant to respond to these concerns, for the reasons set forth in the resolution issued under BSA Cal. No. 324-05-BZY, the Board finds that none of these contentions negates a determination that the owner has obtained a vested right to continue construction of the proposed enlargement; and

WHEREAS, specifically, the applicant notes that the expenditures for work that arguably required a sidewalk bridge or other pedestrian safety measures on Monday, September 19, 2005 through Thursday, September 22, 2005 consisted solely of the labor costs for the installation of steel materials that were already on the site, which are estimated by the developer to be approximately \$20,000; and

WHEREAS, the applicant states that this amount represents approximately 7 percent of the total amount under the iron work contract (\$293,500) and approximately 0.6 percent of the total project cost of \$3,126,814; and

WHEREAS, the Board finds that a reduction of the total expenditure by this small of a percentage would not affect a determination that the total expenditure is substantial; and

WHEREAS, additionally, the Board finds that the work performed up to September 18 was complex construction that was necessary for the proposed enlargement and that resulted in tangible change to the structure; and

WHEREAS, accordingly, the owner has met the standard for vested rights under the common law is entitled to the requested six-month extension of the A1 Permit and all related permits for construction of the proposed enlargement.

Therefore it is Resolved that this appeal made pursuant to the common law of vested rights and requesting a reinstatement of Alteration Permit No. 104214814, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed enlargement for one term of six months from the date of this resolution, to expire on July 31, 2006.

Adopted by the Board of Standards and Appeals, January 31, 2006.

326-05-BZY

THE RESOLUTION -

WHEREAS, this is an application under ZR §11-331, to renew a building permit and extend the time for the completion of a two-story enlargement to an existing six-story building; and

WHEREAS, this application was brought concurrently with a companion application under BSA Cal. No. 328-05-A, decided the date hereof, which is a request to the Board for a finding that the owner of the premises has obtained a vested right to continue construction under the common law; and

WHEREAS, the Board notes that while separate applications were filed, in the interest of convenience, it heard the cases together and the record is the same for both; and

WHEREAS, a public hearing was held on this application on December 13, 2005 after due notice by publication in *The City Record*, with a continued hearing on January 10, 2006 and then to decision on January 31, 2006; and

WHEREAS, the site was inspected by a committee of the Board; and

WHEREAS, Council Member Quinn, Assembly Member Glick, Senator Duane, and the Manhattan Borough President opposed the granting of any relief to the applicant; and

WHEREAS, certain other members of the community also opposed this application, including the Greenwich Village Society for Historic Preservation, (collectively, the “opposition”), alleging that some of the enlargement work was conducted contrary to the issued permit or in an unsafe manner and that the representations of the applicant were not supported by evidence; these allegations are addressed below; and

WHEREAS, the applicant states that the subject premises is a through lot fronting on Charles Street and Charles Lane between Washington and West Streets in the West Village in Manhattan and is situated on a lot having 2,244 square feet of lot area, with frontage of 22 feet on each street and a depth of 102 feet; and

WHEREAS, the applicant proposes to enlarge and alter the building that existed at the site, which will result in a building containing 2,731 square feet of commercial floor

area (1.2 FAR) and 9594 square feet of residential floor area (4.2 FAR), with three dwelling units and 7 stories with a penthouse; and

WHEREAS, the subject premises is currently located within an R6A(C1-5) zoning district, but was formerly located within a C6-2 zoning district; and

WHEREAS, the proposed enlargement complies with the former C6-2 zoning district parameters as to floor area, stories of commercial, height, lot coverage and street wall; and

WHEREAS, however, on October 11, 2005 (hereinafter, the “Enactment Date”), the City Council voted to adopt the Far West Village Rezoning, which rezoned the site to R6A(C1-5), as noted above; and

WHEREAS, because the site is now within an R6A(C1-5) district, the proposed development would not comply with such parameters; and

WHEREAS, ZR § 11-30 et seq. sets forth the regulations that apply to the subject application for a reinstatement of a permit that lapses due to a zoning change; and

WHEREAS, ZR § 11-31(c)(1)(iv) defines the proposed enlargement as a “major enlargement” since the enlargement requires the installation of foundations and involves at least 50 percent of the total floor area of the enlarged building; and

WHEREAS, pursuant to ZR § 11-31(c)(1), a “major enlargement” is considered a “minor development” for purposes of ZR § 11-331; and

WHEREAS, Z.R. §11-331 reads: “If, before the effective date of an applicable amendment of this Resolution, a building permit has been lawfully issued as set forth in Section 11-31 paragraph (a), to a person with a possessory interest in a zoning lot, authorizing a minor development or a major development, such construction, if lawful in other respects, may be continued provided that: (a) in the case of a minor development, all work on foundations had been completed prior to such effective date; or (b) in the case of a major development, the foundations for at least one building of the development had been completed prior to such effective date. In the event that such required foundations have been commenced but not completed before such effective date, the building permit shall automatically lapse on the effective date and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew the building permit and authorize an extension of time limited to one term of not more than six months to permit the completion of the required foundations, provided that the Board finds that, on the date the building permit lapsed, excavation had been completed and substantial progress made on foundations.”; and

WHEREAS, Z.R. §11-31(a) reads: “For the purposes of Section 11-33, relating to Building Permits Issued Before Effective Date of Amendment to this Resolution, the following terms and general provisions shall apply: (a) A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment

MINUTES

to this Resolution. In case of dispute as to whether an application includes "complete plans and specifications" as required in this Section, the Commissioner of Buildings shall determine whether such requirement has been met."; and

WHEREAS, the applicant represents that all of the relevant Department of Buildings ("DOB") permits were lawfully issued to the owner of the subject premises; and

WHEREAS, the record indicates that the following permit was lawfully issued to the owner by DOB: on November 24, 2004, an alteration permit (Permit No. 103972550; hereinafter, the "A1 Permit") for the proposed enlargement, as well as an extension of this permit through August of 2006; and

WHEREAS, related permits for other work types to the A1 Permit, including those for general construction, plumbing, structural, boiler and standpipe, were also issued; and

WHEREAS, additionally, DOB and the Department of Transportation issued various weekend work permits, all of which are part of the record; and

WHEREAS, the Board has reviewed the record and agrees that the A1 Permit was lawfully issued to the owner of the subject premises on the referenced date, which is prior to the Enactment Date; and

WHEREAS, although there was no dispute brought to the Board's attention as to whether the A1 Permit issuance was based upon complete plans and specification, while the instant matter was in hearing, the Board was made aware that DOB was conducting an audit of the A1 Permit; and

WHEREAS, the Board is aware that after the audit, DOB issued a Notice of Objections as well as a 10 day letter indicating that the permit would be revoked unless the objections were resolved; and

WHEREAS, subsequent to this, the applicant submitted into the record the DOB Notice of Objections that indicates that all of the objections were resolved and that the audit was accepted; and

WHEREAS, in addition, the record contains a letter of rescission for the previously issued revocation from the Borough Commissioner of DOB; and

WHEREAS, in reliance upon DOB's review of the A1 Permit and the subsequent successful resolution of all objections, as well as confirmation of this from the Borough Commissioner, which is the only evidence before the Board as to the validity of the Permit, the Board concludes that the terms and general provisions of ZR §11-31(a) are satisfied; and

WHEREAS, the Board makes this conclusion notwithstanding opposition's contentions as set forth in a letter dated January 27, 2006, which essentially recites some of the objections listed in the Notice of Objections and asks that the Board delay decision until said objections are resolved; and

WHEREAS, as discussed above, these objections have been resolved and the Borough Commissioner has rescinded the previously issued revocation letter; and

WHEREAS, accordingly, the Board finds that the record contains sufficient evidence to satisfy the findings set forth ZR 11-31(a) and a decision may be rendered provided the other findings are met; and

WHEREAS, turning to the substantive findings of ZR §11-331, the applicant represents that, as of the Enactment Date,

excavation was completed and substantial progress had been made on the required foundation; and

WHEREAS, the applicant states that in December 2004, the developer demolished the above-ground floors of the building existing on the site, leaving the foundation walls, some exterior walls at grade and some existing underpinning intact for use in the new foundation; and

WHEREAS, the applicant further states that excavation began in May 2005 and was completed September 15, 2005, though some excess fill for use in leveling the foundation and for access to the site was left; and

WHEREAS, the applicant represents that upon completion of the excavation, the developer installed a dewatering system, seven of the twelve required footings, 95% of the underpinning and a large mat footing covering approximately one third of the foundation, as well as an elevator pit; and

WHEREAS, work continued on the site until the Enactment Date, aside from a period of time where work was stopped by DOB pursuant to a Stop Work Order issued in conjunction with ECB Viol Number: 34484011K (the "ECB Violation"); this violation cites a failure to protect adjoining property during excavation (the relevancy of this violation is discussed below); and

WHEREAS, this Stop Work Order was later lifted and work was allowed to continue; and

WHEREAS, the applicant represents that no other violations or Stop Work Orders were issued prior to the Enactment Date; and

WHEREAS, in order to complete the foundation, the applicant states that the developer must construct the remaining five footings and 5.0% of the underpinning as well as pour the floor slab; and

WHEREAS, in terms of time remaining on foundation construction, the applicant believes that the balance of the foundation work required on the site can be completed in 7 working days; and

WHEREAS, in support of the contention that concrete for the footings and other foundation components was poured, the applicant has submitted pour slips from the concrete contractor and well as affidavits; and

WHEREAS, at the first hearing, the Board requested more information as to the extent of the completed foundation work; and

WHEREAS, in response, the applicant submitted elevations showing the completed work, which illustrates the following: (1) Existing walls on all four perimeters extending from the base of the foundation to grade; (2) New underpinning on portions of the western perimeter wall, on the entire eastern foundation wall and the entire northern foundation wall, all of which extends from the base of the foundation to heights between 8 feet and 14 feet; (3) Footings extending from the base of the foundation up to 8 feet; (4) A mat slab that is 3 feet 6 inches thick covering approximately one-third of the foundation floor; and

WHEREAS, the applicant states that the only portions of the proposed building that would transfer load to the soil

MINUTES

are the underpinning (122 out of 129 cubic yards poured), footings (57 out of 73 cubic yards poured), the mat slab (108 out of 108 cubic yards poured) and foundation walls; and

WHEREAS, the applicant notes that although new walls have not been poured, existing walls are located on all four perimeters of the foundation and are incorporated into the foundation; and

WHEREAS, the applicant concludes that the level of completion of the slab, footings and walls at the point of contact with the soil sufficiently illustrate the extent of foundation completion; and

WHEREAS, the applicant also submitted letters from subcontractors confirming the storage of five trailer loads of manufactured steel for the building since October 5, 2005, as well as the completion of the stairs for the building; and

WHEREAS, further, the applicant submitted an affidavit by the project architect, Daniel Goldner, confirming the extent of completion of the foundation as indicated on the submitted plans; and

WHEREAS, the Board has reviewed all of the applicant's representations and the submitted evidence and agrees that it establishes that substantial progress was made on the required foundation as of the Enactment Date; and

WHEREAS, opposition to this case initially expressed concerns about three primary issues: (1) that some of the performed construction and incurred expenditures that were folded into the applicant's analysis were the result of illegal after-hours or weekend work; (2) that some of the performed construction was the result of unsafe work; (3) that the evidence submitted as to the progress made on foundations is not convincing; and

WHEREAS, in response, the applicant cited to the fact that the developer had obtained permits for Saturday work on every Saturday between July 2, 2005 and October 8, 2005, except for September 30, 2005; and

WHEREAS, as to allegations of other after hours work, the applicant stated that such work may have been related to dewatering, which involves constant pumping of water from the site, which must be regularly supervised and which is legal; and

WHEREAS, the applicant notes, and the Board agrees, that the affidavits and testimony submitted by opposition alleging illegal work are vague and conclusory; and

WHEREAS, as to the possibility of unsafe work, opposition alleges that as indicated by the ECB Violation, the work on the foundation caused damage to an adjacent building, which is evidence that the work was done quickly and unsafely; and

WHEREAS, opposition contends that, on this basis, the Board should discount all of the foundation work; and

WHEREAS, the applicant states that although the work on the site was briefly stopped when cracking occurred on an adjacent property, that condition was addressed by the developer and the developer will undertake whatever ameliorative action is required; and

WHEREAS, the Board observes that such an occurrence, as apparently happened here, does not mean that

the foundation work as a whole must be discounted for purposes of ZR § 11-331; and

WHEREAS, finally, as to the evidentiary issue, opposition claims that visual observation of the site does not reveal the extent of foundation completion as represented by the applicant; and

WHEREAS, the applicant responds that the neighbors who allege that the photos submitted by the applicant may not reflect current conditions or work which was begun and then removed are not aware that much of the construction done on the foundation underpinning is now covered by backfilled dirt and therefore would not be visible in their photographs or observations; and

WHEREAS, at the next hearing, opposition continued to allege that the foundation work was done in a negligent and hasty manner, as evidenced by the damage to adjacent property, and therefore should not be credited; and

WHEREAS, opposition also continued to allege that work was done illegally after hours; and

WHEREAS, however, opposition did not specifically address any of the applicant's responses to such allegations, as discussed above, nor did they provide any new evidence in support of the allegations; and

WHEREAS, finally, opposition submitted into the record an engineer's report, which alleges the following: (1) that the foundation wall and underpinning on the western side of the premises, which the applicant represents as completed foundation work, were actually completed before the current owner purchased the building; (2) that the owner will need more than seven days to finish the foundation; (3) that the time estimate should include an assessment of waterproofing needs, which was not considered; and (4) that some of the footings may not actually be completed; and

WHEREAS, opposition indicated that this engineer's report was based on observations made from a neighboring building; and

WHEREAS, in a submission dated January 23, 2006, the applicant responded to each of the contentions; and

WHEREAS, as to the waterproofing issue, the applicant notes that the planned waterproofing is not yet apparent because it will be one of the last elements of the foundation to be installed; as part of the waterproofing plan, the contractor will install a waterproof membrane between the soil and the floor slab just before the slab is poured; and

WHEREAS, the applicant notes that a network of sub-slab drainage is being installed, and, as shown in the foundation plans, a sump pump and ejector pit have been installed to provide drainage; and

WHEREAS, the applicant observes that this is a very standard waterproofing plan for this type of building, and opposition did not refute this; and

WHEREAS, as to the time to complete construction, the applicant states that the developer's 7-day time estimate was an estimate that was intended to be as accurate as possible; and

WHEREAS, the Board observes that opposition was not specific as to how long foundation completion would

MINUTES

actually take; and

WHEREAS, the Board notes that even if actual completion takes longer, such that that the ratio of days of construction up to the Enactment Date to day of remaining construction is affected, the degree of foundation work completed in terms of concrete poured and percentage of total foundation elements completed is so significant in the instant case that a determination that the substantial progress was made on foundations would not be affected; and

WHEREAS, the Board notes that the ratio is a gauge only, and is not dispositive to the Board's deliberations, especially where it is clear that significant work has been performed; and

WHEREAS, as to completion of the south wall underpinning, the applicant notes that it never claimed that the underpinning of the south wall was complete; instead, the applicant observes that the foundation plan contains green shading on the south wall to indicate that the underpinning there is not complete; and

WHEREAS, as to completion of footings, the Board notes that because portions of the site have been backfilled, certain of the completed footings are not visible; and

WHEREAS, also, as to certain other footings where reinforcing can be seen projecting from them, the applicant notes that the footings are complete; the small amount of rebar extending above the footings is embedded in four feet of concrete and will tie the footing to the slab once it is poured; and

WHEREAS, the applicant explained that the visibility of these elements simply means that these footings are complete and ready to support additional components of the Building; and

WHEREAS, the Board has considered the applicant's responses to the contentions of opposition and finds that they are logical, credible, and based on substantial evidence; and

WHEREAS, based upon its consideration of the arguments made by the applicant and opposition as outlined above, as well as its consideration of the entire record, the Board finds that excavation was complete and that substantial progress had been made on foundations; therefore, the Board finds that the applicant has adequately satisfied all the requirements of Z.R. § 11-331; and

WHEREAS, however, the Board notes that the applicant has also filed the above-mentioned companion application under BSA Cal. No. 328-05-A, which requests a determination that the applicant has obtained a vested right under the common law to complete construction under the A1 Permit; and

WHEREAS, accordingly, although the Board, through this resolution, grants the owner of the site the six month extension for completion of construction that is allowed under ZR § 11-331, this grant is not an impediment to the reinstatement of the permit made by the Board under BSA Cal.

No. 328-05-A, should the applicant so choose.

Therefore it is Resolved that this application made pursuant to ZR § 11-331, to renew Alteration Permit No. 103972550 as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed enlargement for one term of six months from the date of this resolution, to expire on July 31, 2006; this grant and the term shall not prohibit the reinstatement of these permits pursuant to a grant made under BSA Cal. No. 328-05-A.

Adopted by the Board of Standards and Appeals, January 31, 2006.

328-05-A

APPLICANT – Greenberg Traurig, LLP by Deirdre Carson, for 163 Charles St. Realty, LLC., owner.

SUBJECT – Application November 10, 2005 – Proposed extension of time to complete construction pursuant to Z.R. § 11-331 for the alteration and enlargement of the building. Appeal case is seeking a determination that the owner of said premises has acquired a common-law vested right to continue development commenced under the prior C6-2 zoning district. Current Zoning District is R6A and (C1-5).

PREMISES AFFECTED – 163 Charles Street, lot fronting on Charles Lane between West and Washington Streets, Block 637, Lot 42, Borough of Manhattan.

THE RESOLUTION –

WHEREAS, this is an appeal requesting a Board determination that the owner of the premises has obtained a vested right under the common law to complete a proposed enlargement of a building at the referenced premises; and

WHEREAS, this application was brought concurrently with a companion application under BSA Cal. No. 326-05-BZY (the "BZY Application"), decided the date hereof, which is a request to the Board for a finding that the owner of the premises has obtained a right to continue construction pursuant to ZR § 11-331; and

WHEREAS, the Board notes that while separate applications were filed according to Board procedure, in the interest of convenience, it heard the cases together and the record is the same for both; and

WHEREAS, a public hearing was held on this application on December 13, 2005 after due notice by publication in *The City Record*, with a continued hearing on January 10, 2006 and

MINUTES

then to decision on January 31, 2006; and

WHEREAS, the site was inspected by a committee of the Board; and

WHEREAS, Council Member Quinn, Assembly Member Glick, Senator Duane, and the Manhattan Borough President opposed the granting of any relief to the applicant; and

WHEREAS, certain other members of the community also opposed this application, including the Greenwich Village Society for Historic Preservation, (collectively, the "opposition"), alleging that some of the enlargement work was conducted contrary to the issued permit or in an unsafe manner and that the representations of the applicant were not supported by evidence; these allegations are addressed below; and

WHEREAS, the applicant states that the subject premises is a through lot fronting on Charles Street and Charles Lane between Washington and West Streets in the West Village in Manhattan and is situated on a lot having 2,244 square feet of lot area, with frontage of 22 feet on each street and a depth of 102 feet; and

WHEREAS, the applicant proposes to enlarge and alter the building that existed at the site, which will result in a building containing 2,731 square feet of commercial floor area (1.2 FAR) and 9594 square feet of residential floor area (4.2 FAR), with three dwelling units and 7 stories with a penthouse; and

WHEREAS, the subject premises is currently located within an R6A(C1-5) zoning district, but was formerly located within a C6-2 zoning district; and

WHEREAS, the proposed enlargement complies with the former C6-2 zoning district parameters as to floor area, stories of commercial, height, lot coverage and street wall; and

WHEREAS, however, on October 11, 2005 (hereinafter, the "Enactment Date"), the City Council voted to adopt the Far West Village Rezoning, which rezoned the site to R6A(C1-5), as noted above; and

WHEREAS, because the site is now within an R6A(C1-5) district, the proposed development would not comply with such parameters; and

WHEREAS, the applicant requests that the Board find that based upon the amount of financial expenditures, including irrevocable commitments, and the amount of work completed, the owner has a vested right to continue construction and finish the proposed enlargement; and

WHEREAS, the Board notes that established precedent exists for the proposition that seeking relief pursuant to ZR 11-30 et seq. does not prevent a property owner from also seeking relief under the common law; and

WHEREAS, as a threshold matter in determining this appeal, the Board must find that the completed work was conducted pursuant to a valid permit; and

WHEREAS, as reflected in the resolution for the BZY Application, the record for that case and the instant case contains sufficient evidence to make this finding; and

WHEREAS, specifically, the applicant states that on November 24, 2004, an alteration permit (Permit No. 103972550; hereinafter, the "A1 Permit") for the proposed enlargement, was issued by the Department of Buildings; DOB also issued an extension of this permit through August of 2006;

and

WHEREAS, turning to the substantive findings of the amount of work done and the amount of expenditure, the Board notes that a common law vested right to continue construction generally exists where the owner has undertaken substantial construction and made substantial expenditures prior to the effective date of an amendment; and

WHEREAS, as discussed by the court in *Kadin v. Bennett*, 163 A.D.2d 308 (2d Dept. 1990) "there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right'. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action"; and

WHEREAS, the applicant cites to *Putnam Armonk, Inc. v. Town of Southeast*, 52 A.D.2d 10, 15, 382 N.Y.S.2d 538, 541 (2d Dept. 1976) for the proposition that where a restrictive amendment to a zoning ordinance is enacted, the owner's rights under the prior ordinance are deemed vested "and will not be disturbed where enforcement [of new zoning requirements] would cause 'serious loss' to the owner," and "where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance."; and

WHEREAS, as to expenditure, the Board notes that unlike an application for relief under ZR § 11-30 et seq., soft costs and irrevocable financial commitments can be considered in an application under the common law; accordingly, these costs are included in the applicant's analysis; and

WHEREAS, in its written statements and testimony, the applicant represents that as of the Enactment Date, substantial construction had been completed and substantial expenditures were made after the issuance of the A1 Permit; and

WHEREAS, more specifically, the applicant represents that: (1) the owner of the site will suffer serious economic harm without the right to build under the A1 Permit, as several floors of the proposed building would not be permitted and the owner would have to create new building plans and build a new foundation; (2) substantial construction had occurred by the Enactment Date because: (i) all portions of the existing building not intended to be incorporated into the enlarged and altered building had been removed, (ii) excavation was complete and (iii) approximately 87% of the concrete for the foundation had been poured; and (3) substantial expenditures had been made by the time of the Rezoning because significant sums had been either expended or committed through irrevocable contracts; and WHEREAS, the applicant cites to the same work and the same evidence as was presented in the BZY Application; and

WHEREAS, the Board has reviewed the representations as to the amount and type of work completed and the supporting documentation and agrees that it establishes that the significant progress was made on foundations prior to the Enactment Date, and that said work was substantial; and

WHEREAS, as to costs, the applicant states that 72% of the budgeted expenditures for the proposed enlargement had been either expended or committed pursuant to irrevocable contracts by the Enactment Date; and

MINUTES

WHEREAS, the Board notes that the budgeted expenditures included site purchase costs, which for the purposes of its analysis here, the Board has excluded; and

WHEREAS, thus, based upon the applicant's representation as to the total project cost and these particular site purchase costs, the Board concludes that the actual construction costs for the proposed enlargement, both soft and hard, approximate 7.4 million dollars; and

WHEREAS, in relation to actual construction costs and related soft costs, the applicant specifically notes that the owner had paid \$110,750 for demolition, \$79,643 in construction manager's fees, \$300,000 to the foundation contractor, and \$81,428 for additional foundation expenses; and

WHEREAS, additionally, the owner had also paid \$13,590 as a down payment for the elevator and commissioned the manufacture of \$449,000 of structural steel, which had been manufactured and now awaits installation; and

WHEREAS, other costs included \$186,134 for the architect and \$120,642 other consultants and engineers; and

WHEREAS, the applicant further states that the owner also irrevocably owed an additional \$1,721,687 in connection with the proposed enlargement, because it had executed binding contracts for work and materials, including \$150,357 in outstanding fees to the construction manager, \$387,500 for the construction of the curtain wall and windows, and an additional \$195,218 for the foundation; and

WHEREAS, in addition, the owner was under contract for an additional \$140,410 for the elevator, \$501,000 for the remaining structural steel, \$86,436 for the facade brick, which had already been manufactured, and \$51,366 in additional fees to the architect; and

WHEREAS, at the request of the Board, the applicant also provided further detail about the manufactured and purchased steel used in the project, noting that before October 5, 2005, the iron contractor had manufactured 50% of the steel required for the building, for which the developer owed \$472,222 to the contractor; and

WHEREAS, the applicant provided proof of payment for this steel; and

WHEREAS, the total of these construction related costs and commitments is approximately 4.5 million dollars, which means that approximately 60 percent of the construction related project costs has been expended or committed; and

WHEREAS, additionally, as noted by the applicant, a new foundation would have to be installed for such a complying building, further compounding the economic harm to the owner; and

WHEREAS, finally, as further evidence of the economic harm that the owner would incur if required to construct the building under the current zoning, the applicant notes that the owner has taken out a \$7,000,000 mortgage on the site for use in constructing the building, and that, to date, the owner has drawn down \$4,989,155 of that amount to finance part of its acquisition and construction costs, which is irrevocably owed to the bank; and

WHEREAS, based upon its review of the expenditures

and commitments made by the owner and the evidence submitted in support of them, the Board agrees that such costs are substantial; and

WHEREAS, absent any other consideration, the Board would find that the degree of work done and expenditures incurred would be sufficient to meet the common law vesting standard; and

WHEREAS, however, as discussed in the resolution issued under BSA Cal. No. 324-05-BZY, opposition expressed concerns about various aspects of this application; and

WHEREAS, the Board asked the applicant to respond to these concerns, and for the reasons set forth in the resolution for BSA Cal. No. 326-05-BZY, the Board finds that none of these contentions negates a determination that the owner has obtained a vested right to continue construction of the proposed enlargement; and

WHEREAS, based upon its consideration of the arguments made by the applicant and opposition as outlined above, as well as its consideration of the entire record, the Board finds that the owner has met the standard for vested rights under the common law and is entitled to the requested six-month extension of the A1 Permit, and all other related permits necessary to complete construction.

Therefore it is Resolved that this appeal made pursuant to the common law of vested rights requesting a reinstatement of Alteration Permit No. 103972550, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed enlargement for one term of six months from the date of this resolution, to expire on July 31, 2006.

Adopted by the Board of Standards and Appeals, January 31, 2006.

144-05-BZY

APPLICANT – Alfonso Duarte, for Bel Homes, LLC, owner.

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated June 3, 2005, acting on Department of Buildings Application No. 402023877, reads:

- “A1- The street giving access to the existing building to be altered is not duly placed on the official map of the City of New York:
- A) Certificate of Occupancy may not be issued as per Article 3, Section 36 of the General City Law.
 - B) Existing dwelling to be altered does not have at least 8% of total perimeter of the building fronting directly upon a legally mapped street or frontage space [and] is contrary to Section

MINUTES

27-291 of the Administrative Code.”; and

WHEREAS, a public hearing was held on this application on February 7, 2006 after due notice by publication in the *City Record*, on which date the matter was closed and decided; and

WHEREAS, by letter dated December 15, 2005, the Fire Department states that it has reviewed the subject application and has no objections; and

WHEREAS, accordingly, the Board finds that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated June 3, 2005, acting on Department of Buildings Application No.402023877, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received June 6, 2005”– (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 7, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated May 1, 2004, acting on Department of Buildings Application No. 200827132, reads, in pertinent part:

“Proposal of Physical Culture or Health Establishment as per section 12-10 definition of the Zoning Resolution. Therefore it must comply with the regulations of Sec. 73-36 of ZR”; and

WHEREAS, this is an application under Z.R. §§73-36 and 73-03, to permit, within a C2-2(R6) zoning district, the legalization of an existing physical culture establishment (“PCE”) located on the second story of a two-story commercial building, contrary to Z.R. § 32-10; and

WHEREAS, a public hearing was held on this application on January 10, 2006, after due notice by publication in *The City Record*, and then to decision on February 7, 2006; and

WHEREAS, Community Board 10, Bronx, recommends disapproval of this application, because it is for a legalization of an existing facility; and

WHEREAS, the New York City Fire Department has

indicated to the Board that is has no objection to this application; and

WHEREAS, the subject site is located on the northwest corner of Westchester and Glebe Avenues, and has a lot area of 22,771 sq. ft.; and

WHEREAS, the subject PCE will occupy 13,836.76 sq. ft. of floor area on the second floor; and

WHEREAS, the applicant represents that the PCE will provide weight equipment, aerobics, and martial arts, and massage services by licensed massage professionals; and

WHEREAS, the applicant states that an approved interior fire alarm system will be installed in the entire PCE space on the second floor, with the addition of smoke detectors, manual pull stations, local audible and visual alarms, and be connected to a FDNY-approved Central Station; and

WHEREAS, the PCE will have the following hours of operation: Monday through Friday 5AM to 12AM and Saturday and Sunday 7AM to 9PM; and

WHEREAS, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to Z.R. §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement 04-BSA-170X, dated November 7, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the

MINUTES

environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under Z.R. §§ 73-36 and 73-03, to permit, within a C2-2(R6) zoning district, the legalization of an existing physical culture establishment located on the second story of a two-story commercial building, contrary to Z.R. §32-10; on condition that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received January 23, 2006"- (2) sheets and on further condition:

THAT the term of this grant shall from July 15, 2004, expiring on July 15, 2014;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday through Friday 5AM to 12AM and Saturday and Sunday 7AM to 9PM;

THAT all massages shall be performed only by practitioners with valid and current NYS massage licenses;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a certificate of occupancy shall be obtained within one year from the date of this grant;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety measures, including a sprinkler system, shall be as installed and maintained on the Board-approved plans;

THAT an interior fire alarm system shall be provided as set forth on the BSA-approved plans and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 7, 2006.

280-04-BZ

APPLICANT - Gerald Caliendo ,RA. for the North Shore Tennis & Racquet Club, owner.

SUBJECT - Application August 10, 2004 - pursuant to Section Z.R.§72-21 to permit the proposed two temporary air supported structures to cover 10 tennis courts accessory to

non-commercial club contrary to Z.R. §§52-22 and 52-30 and also located in the bed of a mapped street contrary to General City Law Section 35 in an R-2A zoning district.

PREMISES AFFECTED - 34-28 214th Place west side of 214th Place distant 104.27 feet south of corner formed by intersection of 214th Place and 33rd Road, Block 6118, Lot 21, Borough of Queens.

THE RESOLUTION –

WHEREAS, the decisions of the Queens Borough Commissioner, dated November 17, 2005 and November 21, 2005, acting on Department of Buildings Application No. 440174380, read, in pertinent part:

“Enclosure of tennis court by an air supported structure in R2A zoning district is contrary to section 52-22 Z.R. – Structural Alterations and 52-30 – Change of Non-Conforming Use.”; and

WHEREAS, these are applications made under Z.R. §72-21, to permit, in a R2A zoning district, the installation of a temporary air supported structure over one existing group of four tennis courts and another over a separate existing group of six tennis courts, all located within a lawfully non-conforming tennis club, which is contrary to Z.R. §§52-22 and 52-30; and

WHEREAS, these applications are being brought concurrently with two companion General City Law §35 waiver applications, under BSA Cal. Nos. 281-04-A and 283-04-A, to allow construction within the bed of mapped but unopened streets that affect the property, decided the date hereof; and

WHEREAS, a public hearing was held on this application on December 13, 2005 after due notice by publication in the *City Record*, and then to decision on February 7, 2005; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioner Chin; and

WHEREAS, Community Board No. 11, Queens, recommends conditional approval of this application; certain of said conditions are reflected below; and

WHEREAS, the Queens Borough President also recommends approval of this application; and

WHEREAS, the premises is a large, approximately 113,856 sq. ft. site bounded by 33rd Road to the north, 214th Place to the east, 34th Road to the south (which is mapped but not open), and 214th Street to the west (which is mapped but not open); and

WHEREAS, the site is currently developed as a Use Group 4 not-for-profit tennis club (the “Club”), with a two-story clubhouse, 14 open tennis courts, a squash court and a

MINUTES

badminton court; and

WHEREAS, the applicant proposes to enclose with temporary air supported structures two groups of tennis courts: one group of four tennis courts located in the middle of the site partially within 214th Street (282-04-BZ) and one group of six tennis courts located parallel to and partially within 34th Road (280-04-BZ); and

WHEREAS, the proposed structures will be lighted enclosures rising to a height of 36 ft., and will be used only from October 1 to April 30; and

WHEREAS, based upon its review of the record, the Board observes that the site has been historically developed with a non-conforming tennis club since 1926, with numerous tennis courts and only a single club building; and

WHEREAS, the Board also observes in order for the Club to meet its programmatic need of providing services that improve the well-being and physical health of its current and future members, provision of year-round tennis services is necessary; and

WHEREAS, in support of the contention that the lack of year round tennis is compromising the Club's mission, the applicant has submitted accounting statements that reflect the Club's losses in recent years; and

WHEREAS, the applicant represents that without the structures, the Club would continue to lose revenue; and

WHEREAS, while the two proposed enclosures will allow the Club to provide year-round tennis, structural improvements to lawful non-conforming uses such as the tennis courts are not allowed as of right; and

WHEREAS, accordingly, the Board finds that the unique condition mentioned above, namely the site's history of development with tennis courts, when considered in conjunction with the programmatic needs of the Club, create practical difficulties and unnecessary hardship in developing the entire site in strict compliance with applicable zoning provisions; and

WHEREAS, the applicant need not address Z.R. § 72-21(b) since the Club a not-for-profit organization and the alterations will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed variance, if granted, will not negatively impact the character of the community, nor impact adjacent residential uses; and

WHEREAS, the applicant states that the immediate area surrounding the site is characterized by one, two and three-story residential building, as well as some other community facilities; and

WHEREAS, in response to concerns of the Community Board, the applicant conducted a shadow study that showed that the proposed enclosures would not create significant shadow effects upon adjacent conforming uses; and

WHEREAS, at hearing, the Board inquired as to why the particular tennis courts were chosen to be enclosed, and expressed concern that other courts could be enclosed with less impact upon the residential neighbors; and

WHEREAS, the applicant stated that the enclosures were placed on particular courts because it was determined that it

would create the least impact on neighboring residential uses; and

WHEREAS, based upon the above, the Board finds that the subject application, if granted, will not alter the essential character of the surrounding neighborhood or impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not self-created by the owner or a predecessor in title; and

WHEREAS, this proposal is the minimum necessary to afford relief to the Club; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6NYCRR, Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No.05-BSA-027Q dated June 3, 2005 ; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under Z.R. § 72-21, to permit, in a R2A zoning district, the installation of a temporary air supported structure over one existing group of four tennis courts and another over a separate existing group of six tennis courts, all located within a lawful non-conforming tennis club, which is contrary to Z.R. §§ 52-22 and 52-30; *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked "Received February 6, 2006"- (4) sheets; and *on further condition*:

THAT the enclosures shall only be used from October 1 to April 30;

THAT the hours of operation of tennis activity within the

MINUTES

enclosures shall be from 7AM to 10PM Monday through Sunday;

THAT any air compressors will be located between tennis courts, away from adjacent residential uses, and shall be soundproofed;

THAT the enclosures shall be composed of material sufficient to prevent ambient light from affecting adjacent residential uses;

THAT all interior and exterior lighting shall be directed downwards and away from adjacent residential uses;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 7, 2006.

281-04-A

APPLICANT - Gerald Caliendo ,RA. for the North Shore Tennis & Racquet Club, owner.

SUBJECT - Application August 10, 2004 - to permit the proposed two temporary air supported structures to cover 10 tennis courts accessory to non-commercial club contrary to Z.R. §§52-22 and 52-30 and also located in the bed of a mapped street contrary to General City Law Section 35 in an R-2A zoning district..

PREMISES AFFECTED - 34-28 214th Place west side of 214th Place distant 104.27 feet south of corner formed by intersection of 214th Place and 33rd Road, Block 6118, Lot 21, Borough of Queens.

COMMUNITY BOARD #11Q

APPEARANCES – None.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin.....3

Negative:.....0

Absent: Commissioner Collins.....1

THE RESOLUTION –

WHEREAS, the decisions of the Queens Borough Commissioner, dated November 17, 2005 and November 21, 2005, acting on Department of Buildings Application Nos. 401743805, read, in pertinent part:

“Enclosure of tennis court by an air supported structure in R2A zoning district is contrary to section 52-22 Z.R. – Structural Alterations and 52-30 – Change of Non-Conforming Use.”; and

WHEREAS, these are applications made under Z.R. §72-21, to permit, in a R2A zoning district, the installation of a temporary air supported structure over one existing group of four tennis courts and another over a separate existing group of six tennis courts, all located within a lawfully non-conforming tennis club, which is contrary to Z.R. §§ 52-22 and 52-30; and

WHEREAS, these applications are being brought concurrently with two companion General City Law §35 waiver applications, under BSA Cal. Nos. 281-04-A and 283-04-A, to allow construction within the bed of mapped but unopened streets that affect the property, decided the date hereof; and

WHEREAS, a public hearing was held on this application on December 13, 2005 after due notice by publication in the *City Record*, and then to decision on February 7, 2005; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioner Chin; and

WHEREAS, Community Board No. 11, Queens, recommends conditional approval of this application; certain of said conditions are reflected below; and

WHEREAS, the Queens Borough President also recommends approval of this application; and

WHEREAS, the premises is a large, approximately 113,856 sq. ft. site bounded by 33rd Road to the north, 214th Place to the east, 34th Road to the south (which is mapped but not open), and 214th Street to the west (which is mapped but not open); and

WHEREAS, the site is currently developed as a Use Group 4 not-for-profit tennis club (the “Club”), with a two-story clubhouse, 14 open tennis courts, a squash court and a badminton court; and

WHEREAS, the applicant proposes to enclose with temporary air supported structures two groups of tennis courts: one group of four tennis courts located in the middle of the site partially within 214th Street (282-04-BZ) and one group of six tennis courts located parallel to and partially within 34th Road (280-04-BZ); and

WHEREAS, the proposed structures will be lighted enclosures rising to a height of 36 ft., and will be used only from October 1 to April 30; and

WHEREAS, based upon its review of the record, the Board observes that the site has been historically developed with a non-conforming tennis club since 1926, with numerous tennis courts and only a single club building; and

WHEREAS, the Board also observes in order for the Club to meet its programmatic need of providing services that improve the well-being and physical health of its current and future members, provision of year-round tennis services is necessary; and

WHEREAS, in support of the contention that the lack of year round tennis is compromising the Club’s mission, the applicant has submitted accounting statements that reflect the Club’s losses in recent years; and

WHEREAS, the applicant represents that without the structures, the Club would continue to lose revenue; and

MINUTES

WHEREAS, while the two proposed enclosures will allow the Club to provide year-round tennis, structural improvements to lawful non-conforming uses such as the tennis courts are not allowed as of right; and

WHEREAS, accordingly, the Board finds that the unique condition mentioned above, namely the site's history of development with tennis courts, when considered in conjunction with the programmatic needs of the Club, create practical difficulties and unnecessary hardship in developing the entire site in strict compliance with applicable zoning provisions; and

WHEREAS, the applicant need not address Z.R. § 72-21(b) since the Club a not-for-profit organization and the alterations will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed variance, if granted, will not negatively impact the character of the community, nor impact adjacent residential uses; and

WHEREAS, the applicant states that the immediate area surrounding the site is characterized by one, two and three-story residential building, as well as some other community facilities; and

WHEREAS, in response to concerns of the Community Board, the applicant conducted a shadow study that showed that the proposed enclosures would not create significant shadow effects upon adjacent conforming uses; and

WHEREAS, at hearing, the Board inquired as to why the particular tennis courts were chosen to be enclosed, and expressed concern that other courts could be enclosed with less impact upon the residential neighbors; and

WHEREAS, the applicant stated that the enclosures were placed on particular courts because it was determined that it would create the least impact on neighboring residential uses; and

WHEREAS, based upon the above, the Board finds that the subject application, if granted, will not alter the essential character of the surrounding neighborhood or impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not self-created by the owner or a predecessor in title; and

WHEREAS, this proposal is the minimum necessary to afford relief to the Club; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6NYCRR, Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No.05-BSA-027Q dated June 3, 2005 ; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows;

Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under Z.R. §72-21, to permit, in a R2A zoning district, the installation of a temporary air supported structure over one existing group of four tennis courts and another over a separate existing group of six tennis courts, all located within a lawful non-conforming tennis club, which is contrary to Z.R. §§ 52-22 and 52-30; *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked "Received February 6, 2006"- (4) sheets; and *on further condition*:

THAT the enclosures shall only be used from October 1 to April 30;

THAT the hours of operation of tennis activity within the enclosures shall be from 7AM to 10PM Monday through Sunday;

THAT any air compressors will be located between tennis courts, away from adjacent residential uses, and shall be soundproofed;

THAT the enclosures shall be composed of material sufficient to prevent ambient light from affecting adjacent residential uses;

THAT all interior and exterior lighting shall be directed downwards and away from adjacent residential uses;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 7, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated August 10, 2005, acting on Department of Buildings Application No. 103997837, reads, in pertinent

MINUTES

part:

“Proposed physical culture establishment is not permitted in C2-8 District (ZR 32-31)”;

WHEREAS, this is an application under Z.R. §§ 73-36 and 73-03, to permit, within a C2-8 zoning district in the Special Transit Land Use District (“TA”), the legalization of an existing physical culture establishment (“PCE”) located on the second story of a four-story commercial building, contrary to Z.R. § 32-10; and

WHEREAS, a public hearing was held on this application on December 6, 2005, after due notice by publication in *The City Record*, with a continued hearing on January 24, 2006, and then to decision on February 7, 2006; and

WHEREAS, Community Board 6, Manhattan, recommends conditional approval of this application; said condition was that a connection between the subject PCE and an existing adjacent PCE be provided; and

WHEREAS, the New York City Fire Department has indicated to the Board that it has no objection to this application; and

WHEREAS, the subject site is located on the western side of Second Avenue, 60 ft. south of the intersection with East 58th Street, and has a lot area of 2,400 sq. ft.; and

WHEREAS, the subject PCE will occupy 825 sq. ft. of floor area on the second floor; and

WHEREAS, the applicant represents that the subject PCE is located adjacent to another second-floor PCE at 1097 Second Avenue, a special permit for which was granted by the Board in 2004; and

WHEREAS, the applicant represents that the subject PCE will be connected to the adjacent PCE (said connection has been approved by DOB), and that the two PCEs are operated by the same operator; and

WHEREAS, at hearing, the Board expressed concern about the location of the PCE in what was formerly an apartment and an office, on the same floor as existing apartments; and

WHEREAS, at the request of the Board, the applicant obtained from DOB a reconsideration indicating DOB acceptance of the location of the PCE; and

WHEREAS, the applicant represents that the PCE will provide massage services by licensed massage professionals; and

WHEREAS, the applicant states that an approved interior fire alarm system will be installed in the entire PCE space on the second floor, with the addition of smoke detectors, manual pull stations, local audible and visual alarms, and be connected to a FDNY-approved Central Station; and

WHEREAS, the PCE will have the following hours of operation: 10AM to 10PM daily; and

WHEREAS, the applicant represents that the PCE will not conflict with any of the applicable regulations of the TA; and

WHEREAS, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent

properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to Z.R. §§73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement 05-BSA-097M, dated February 24, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under Z.R. §§ 73-36 and 73-03, to permit, within a C2-8 zoning district in the Special Transit Land Use District, the legalization of an existing physical culture establishment located on the second story of a four-story commercial building, contrary to Z.R. § 32-10; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked “Received January 26, 2006”- (4) sheets; and *on further condition*:

THAT the term of this grant shall be from March 1, 2005, expiring on September 26, 2011;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to 10AM

MINUTES

to 10PM daily;

THAT all massages shall be performed only by practitioners with valid and current NYS massage licenses;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a certificate of occupancy shall be obtained within one year from the date of this grant;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety measures, including a sprinkler system, shall be as installed and maintained on the Board-approved plans;

THAT an interior fire alarm system shall be provided as set forth on the BSA-approved plans and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 7, 2006.

Negative:.....0

Absent: Commissioner Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated April 8, 2005, acting on Department of Buildings Application No. 301909683, reads, in pertinent part:

“ZR 23-141 Floor Area is greater than allowed. ZR 23-141 Open Space is less than required”; and

WHEREAS, this is an application under Z.R. §§ 73-622

and 73-03, to permit, in an R2 zoning district, the proposed enlargement of an existing single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio (FAR) and Open Space Ratio (OSR), contrary to Z.R. § 23-141; and

WHEREAS, a public hearing was held on this application on January 10, 2006, after due notice by publication in *The City Record*, and then to decision on February 7, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject lot is located on the corner of Avenue M and East 27th Street; and

WHEREAS, the subject lot has a total lot area of 4,000 sq. ft.; and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,177 sq. ft. (0.54 Floor Area Ratio or “FAR”) to 3,231 sq. ft. (0.74 FAR); the maximum floor area permitted is 2,000 sq. ft. (0.50 FAR); and

WHEREAS, the proposed enlargement will decrease the OSR from 140% to 106%; the minimum required OSR is 150%; and

WHEREAS, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. §§ 73-622 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under Z.R. §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of an existing single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio and Open Space Ratio, contrary to Z.R. § 23-141; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received January 25, 2006”- (11) sheets; and *on further condition*:

THAT there shall be no habitable room in the cellar;

THAT the above condition shall be set forth in the certificate of occupancy;

MINUTES

THAT the total FAR on the premises shall not exceed 0.74;

THAT the use and layout of the cellar shall be as approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 7, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated July 18, 2005, acting on Department of Buildings Application No. 104165154, reads, in pertinent part:

“As specified under the provisions of Section 73-36 of the Zoning Resolution, physical culture establishments, not permitted under Use Group 9, require a special permit to be granted by the Board of Standards and Appeals.”; and

WHEREAS, this is an application under Z.R. §§73-36 and 73-03, to permit, within a M1-5B zoning district within the Special SoHo Cast Iron District, a physical culture establishment (“PCE”) located in the cellar and lower floors of a twelve-story commercial building, contrary to Z.R. § 32-10; and

WHEREAS, a public hearing was held on this application on January 31, 2006, after due notice by publication in *The City Record*, and then to decision on February 7, 2006; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the New York City Fire Department has indicated to the Board that it has no objection to this application; and

WHEREAS, a certificate of appropriateness has been obtained from the Landmarks Preservation Commission; and

WHEREAS, the subject site is located on the northeast corner of Broadway and Prince Street, and has a lot area of 23,605 sq. ft.; and

WHEREAS, the subject PCE (an Equinox gym) will occupy approximately 26,712 sq. ft. of floor area; and

WHEREAS, specifically, the applicant represents that the PCE will be located in portions of the cellar (1,236 sq. ft.), first floor (1,496 sq. ft.), mezzanine (413 sq. ft.), and third floor (3,756 sq. ft.), as well as the entire second floor (19,802 sq. ft.); and

WHEREAS, the applicant represents that the PCE will provide gym equipment, aerobics, other classes in physical improvement and massage services by licensed massage professionals; and

WHEREAS, the applicant states that an approved interior fire alarm system will be installed in the entire PCE space, with the addition of smoke detectors, manual pull stations, local audible and visual alarms, and be connected to a FDNY-approved Central Station; and

WHEREAS, the PCE will have the following hours of operation: Monday through Thursday 5:30AM to 11PM, Friday 5:30AM to 10PM, and Saturday and Sunday 8AM to 9PM; and

WHEREAS, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to Z.R. §§73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental

MINUTES

Assessment Statement 06-BSA-005M, dated July 29, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under Z.R. §§73-36 and 73-03, to permit, within a M1-5B zoning district within the Special SoHo Cast Iron District, a physical culture establishment located in the cellar and lower floors of a twelve-story commercial building, contrary to Z.R. §32-10; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received February 1, 2006"- (9) sheet; and *on further condition*:

THAT the term of this grant shall be for ten years, from February 7, 2006 to February 7, 2016;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday through Thursday 5:30AM to 11PM, Friday 5:30AM to 10PM, and Saturday and Sunday 8AM to 9PM;

THAT all massages shall be performed only by practitioners with valid and current NYS massage licenses;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a certificate of occupancy shall be obtained within one year from the date of this grant;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety measures, including a sprinkler system, shall be as installed and maintained on the Board-approved plans;

THAT an interior fire alarm system shall be provided as set forth on the BSA-approved plans and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning

Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 7, 2006.

MINUTES

**REGULAR MEETING
TUESDAY MORNING, FEBRUARY 14, 2006
10:00 A.M.**

Present: Chair Srinivasan, Vice Chair Babbar,
Commissioner Chin and Commissioner Collins.

The motion is to approve the minutes of regular meeting of the Board held on Tuesday morning and afternoon December 6, 2005 and Wednesday morning December 7, 2005, as printed in the bulletin of December 15, 2005, Vol. 90, No. 50. If there be no objection, it is so ordered.

SPECIAL ORDER CALENDAR

780-45-BZ

APPLICANT – Anthony G. Mango, for Guiseppe Rapisardi and Ann Rapisardi, owners.

SUBJECT – Application June 23, 2005 – Pursuant to Z.R. §11-413 the legalization of the existing/proposed change of use within the same Use Group 16 from a beer storage of trucks to a plumbing contractor’s establishment with storage of plumbing tools, equipment, supplies and the storage of equipment vans. The premise is located in an R6B zoning district.

PREMISES AFFECTED – 1818-1820 Bleecker Street, east side of Bleecker Street, 155’ north of Seneca Avenue, Block 3435, Lots 21 and 22, Borough of Queens.

COMMUNITY BOARD #5Q

APPEARANCES –

For Applicant: Anthony Mango.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and, pursuant to Z.R. § 11-413, a legalization of a change in use from a Use Group 16 beer storage facility, with parking for trucks, to a UG 16 plumbing contractor’s establishment, with accessory storage of tools, supplies, and parking of equipment vans; and

WHEREAS, a public hearing was held on this application on January 10, 2006, after due notice by publication in *The City Record*, and then to decision on February 14, 2006; and

WHEREAS, Community Board 5, Queens, recommends approval of this application; and

WHEREAS, the subject premises is located on the east side of Bleecker Street, 155 ft. north of Seneca Avenue, and has a total lot area of approximately 4,694 sq. ft.; and

WHEREAS, the site is located within an R6B zoning district; and

WHEREAS, the site is improved upon with a 5,083 sq. ft.

one-story building currently occupied as a UG 16 plumbing contractor’s establishment; and

WHEREAS, on November 14, 1950, under the subject calendar number, the Board granted a variance to change the legal occupancy of the property from stables to beer storage; and

WHEREAS, the applicant represents that the current owner purchased the property in 2004, and has been occupying the property as a plumbing contractor’s establishment since then; and

WHEREAS, pursuant to Z.R. §11-413, the Board may authorize a change in the use previously granted by the Board to another use, so long as such change would be allowed pursuant to the applicable provisions of Article V of the ZR; and

WHEREAS, the applicable Article V provisions would allow the proposed change in use; and

WHEREAS, at hearing, the Board asked that the applicant modify the drawings to reflect correct door swing, adjacent buildings, and gates and doors that comply with the Board’s prior grant; and

WHEREAS, the applicant submitted revised plans that complied with these requests; and

WHEREAS, additionally, the Board asked the applicant to explain why a portion of the building that was proposed to be demolished as per the prior grant still remained on site, as well to explain a side canopy that was also not on the prior approved plans; and

WHEREAS, the applicant responded that the original structure slated to be demolished was in fact demolished, but it appeared that a subsequent structure was then constructed in its place; the applicant represents that the current owner will demolish and remove this structure; and

WHEREAS, the applicant also states that the side canopy will be removed; and

WHEREAS, based upon the submitted evidence, the Board finds the requested amendment appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on November 14, 1950, as subsequently amended, so that as amended this portion of the resolution shall read: “to permit a legalization of a change in use from a UG 16 beer storage facility, with parking for trucks, to a UG 16 plumbing contractor’s establishment, with accessory storage of tools, supplies, and parking of equipment vans, *on condition* that all work shall substantially conform to drawings as filed with this application, marked ‘Received February 13, 2006’–(4) sheets; and *on further condition*:

THAT the site shall remain graffiti-free and that any graffiti shall be removed within 24 hours;

THAT the hours of operation shall be from 8AM to 6 PM, Monday through Friday;

THAT there shall be no parking of vans in any portion of the open yard except during business hours;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not

MINUTES

specifically waived by the Board remain in effect;

THAT prior to issuance of a new certificate of occupancy, the rear frame construction building and the side canopy shall be removed, as indicated on the BSA-approved plans;

THAT a new certificate of occupancy be obtained within one year from the date of this grant;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

(DOB Application No. 402025759)

Adopted by the Board of Standards and Appeals, February 14, 2006.

469-64-BZ

APPLICANT – Charles Washington, for Heinz Vieluf, owner.

SUBJECT – Application August 19, 2005 – Amendment to a variance Z.R. §72-21 to propose a second floor office addition in conjunction with existing first floor of food processing plant operation. The premise is located in a C2-4 in an R6 zoning district. The second floor enlargement is fully within the C2-4 portion of the lot.

PREMISES AFFECTED – 630-634 St. Ann’s Avenue, north east corner of Westchester Avenue at St. Ann’s Avenue, Block 2617, Lot 1, Borough of The Bronx.

COMMUNITY BOARD #8BX

APPEARANCES – None.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance, to permit the construction of a second floor office addition to an existing one-story plus mezzanine food processing plant; and

WHEREAS, a public hearing was held on this application on January 24, 2006 after due notice by publication in *The City Record*, and then to decision on February 14, 2006; and

WHEREAS, Community Board 8, Bronx, recommends approval of this application; and

WHEREAS, the site is located partially within an R6 zoning district, and partially within a C2-4 zoning district; and

WHEREAS, the site is a 12,248 sq. ft. lot, improved upon with a 9,200 sq. ft. one -story plus mezzanine building currently occupied as a Use Group 17 food processing plant, which was

initially approved by the Board under the subject calendar number on July 31, 1964; and

WHEREAS, under BSA Cal. No. 856-68-BZ, the Board granted a new variance to allow a one and two story enlargement to the building; and

WHEREAS, on April 16, 1991, under the subject calendar number, the Board granted an amendment to legalize a further enlargement of the building, as well to approve construction of a loading berth; and

WHEREAS, the applicant represents that the owners of the food processing establishment need additional office space, necessitating an enlargement at the second floor; this enlargement would add 1,900 sq. ft. of commercial floor area to the subject building; and

WHEREAS, the applicant further represents that the proposed enlargement would be located within the C2-4 portion of the subject lot, and would comply with the C2-4 floor area requirements; and

WHEREAS, at hearing, the Board asked the applicant to clarify that the existing second floor was actually a mezzanine, as indicated on the certificate of occupancy; and

WHEREAS, the applicant responded by stating that the existing second level is in fact a mezzanine, and that this mezzanine will be incorporated as part of the proposed second floor enlargement; and

WHEREAS, based upon the submitted evidence, the Board finds the requested amendment appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on July 31, 1964, as subsequently amended, so that as amended this portion of the resolution shall read: “to permit the construction of a second floor office addition to an existing one-story plus mezzanine food processing plant, *on condition* that all work shall substantially conform to drawings as filed with this application, marked ‘Received August 19, 2005’–(3) sheets and ‘February 1, 2006’–(3) sheets; and *on further condition*:

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening and an extension of the term of the previously granted variance; and

WHEREAS, a public hearing was held on this application on January 24, 2006, after due notice by publication in *The City Record*, and then to decision on February 14, 2006; and

WHEREAS, Community Board No. 1, Staten Island, recommends approval of this application; and

WHEREAS, the premises is a 5,000 sq. ft. site located within an R3A zoning district, and is located on Irving Place between Van Duzer and Delford Streets; and

WHEREAS, the site is improved upon with a 3,870 sq. ft. one-story warehouse; and

WHEREAS, the Board has exercised jurisdiction over the subject site since 1988, when, under the subject calendar number, the Board granted an application to permit the use of the site as a UG 16 warehouse; and

WHEREAS, subsequently, the term of this grant has been extended by the Board, most recently on December 6, 1994 for a term of 10 years, expiring on November 24, 2003; and

WHEREAS, based upon the submitted evidence, the Board finds the requested extension of term appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on November 15, 1988, so that as amended this portion of the resolution shall read: “to extend the term for ten years from November 24, 2003, to expire on November 24, 2013, *on condition* that the use shall substantially conform to drawings as filed with this application, marked ‘Received September 12, 2005’-(5) sheets; and *on further condition*:

THAT the term of this grant shall expire on November 24, 2013;

THAT the hours of operation shall be from 8AM to 5 PM Monday through Friday;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other

jurisdiction objection(s) only; and

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-331, to reinstate a building permit and extend the time for the completion of a new four-story building, under construction at the subject premises; and

WHEREAS, a public hearing was held on this application on December 13, 2005 after due notice by publication in *The City Record*, with continued hearings on January 24, 2005, and then to decision on February 14, 2006; and

WHEREAS, the site was inspected by a committee of the Board; and

WHEREAS, the applicant proposes to develop the subject site with a four-story, six unit mixed-use residential/community facility building, with a medical office on the first floor; and

WHEREAS, the subject premises is currently located within an R6B zoning district, but was formerly located within an R6 zoning district; and

WHEREAS, the proposed development complies with the former R6 zoning district bulk parameters as to floor area, height, and front yard; and

WHEREAS, however, on May 11, 2005 (hereinafter, the “Enactment Date”), the City Council voted to adopt the Greenpoint-Williamsburg Rezoning, which rezoned the site to

R6B, as noted above; and

WHEREAS, because the site is now within an R6B district, the proposed development would not comply with these bulk parameters, rendering it a non-complying building; and

WHEREAS, ZR § 11-30 et seq. sets forth the regulations that apply to the subject application for a reinstatement of a permit that lapses due to a zoning change; and

WHEREAS, Z.R. §11-331 reads: “If, before the effective date of an applicable amendment of this Resolution, a building permit has been lawfully issued as set forth in Section 11-31 paragraph (a), to a person with a possessory interest in a zoning lot, authorizing a minor development or a major development, such construction, if lawful in other respects, may be continued provided that: (a) in the case of a minor development, all work on foundations had been completed prior to such effective date; or (b) in the case of a major development, the foundations for at least one building of the development had been completed prior to such effective date. In the event that such required foundations have been commenced but not completed before such effective date, the building permit shall automatically lapse on the effective date and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew the building permit and authorize an extension of time limited to one term of not more than six months to permit the completion of the required foundations, provided that the Board finds that, on the date the building permit lapsed, excavation had been completed and substantial progress made on foundations.”; and

WHEREAS, because the proposed development contemplates a single building on one zoning lot, it meets the definition of Minor Development; and

WHEREAS, Z.R. §11-31(a) reads: “For the purposes of Section 11-33, relating to Building Permits Issued Before Effective Date of Amendment to this Resolution, the following terms and general provisions shall apply: (a) A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment to this Resolution. In case of dispute as to whether an application includes "complete plans and specifications" as required in this Section, the Commissioner of Buildings shall determine whether such requirement has been met.”; and

WHEREAS, the record indicates that on March 31, 2005, a new building permit (Permit No. 301822981-01-NB, the “NB Permit”) for the proposed development was lawfully issued to the owner of the premises by the Department of Buildings; and WHEREAS, turning to the substantive findings of ZR § 11-331, the applicant initially acknowledged that excavation has not been fully completed as of the Enactment Date; and

WHEREAS, the applicant claimed that the front of the site had not been excavated due to a need for access to the site, and for delivery of materials and heavy equipment; and

WHEREAS, the Board expressed concern about this fact,

MINUTES

noting that the plain language of ZR 11-331 requires that excavation be completed as of the Enactment Date; and WHEREAS, accordingly, the Board asked the applicant for further explanation as to why excavation had not been fully completed; and

WHEREAS, in response, the applicant submitted a statement from the project contractor, which notes that the excavation for the design construction of the project was entirely complete as of May 4, 2005, aside from excavation of the front of the site, which was where the entrance to the proposed basement was to be located; and

WHEREAS, the contractor also states that prior to the commencement of excavation, the site was full of debris and rubble from the prior building's, and the removal of this debris and the rubble was required; and

WHEREAS, the contractor states that after this occurred, the site was excavated fully for purposes of foundation construction, but the site was later backfilled as per instruction from DOB; and

WHEREAS, additionally, the project engineer states that no further excavation is required for structural or foundation elements; the only excavation that remains is backfill removal, and some soil removal for a footing for the staircase and front wall; and

WHEREAS, the applicant represents that should the NB Permit be reinstated, the developer would first proceed to finish the front foundation work for the staircase and front wall, and then proceed to remove the backfill in anticipation of basement construction; and

WHEREAS, the applicant further represents that all of this site-clearing, excavation, and backfill work occurred prior to the Enactment Date; and

WHEREAS, the Board accepts this explanation, and agrees that excavation was actually completed by the developer prior to the Enactment Date, aside from that portion of the excavation that was necessary to delay in order to provide site access for workers and equipment; and

WHEREAS, accordingly, the Board finds that the excavation requirement has been met; and

WHEREAS, the applicant represents that substantial progress had been made on foundations by the Enactment Date; and

WHEREAS, specifically, the applicant states that foundation work commenced on April 5, 2005, and, as of the Enactment Date, approximately 61 percent of the perimeter foundation walls and footings had been installed, and all of the soldier piles had been driven into the ground and concreted; and

WHEREAS, the applicant represents that 106 cubic yards of concrete were poured in furtherance of this construction, and that only 65 cubic yards are required to complete the foundation; and

WHEREAS, in support of the contention that concrete for the footings and walls was poured, the applicant has submitted a receipt from a concrete batching company that reflects that the concrete was delivered to the site prior to the Enactment Date; and

WHEREAS, as noted above, the applicant represents that the only remaining portion of the foundation to be completed is at the front, for the staircase and front wall; and

WHEREAS, in terms of time, the applicant represents that only eight days of foundation construction remain, out of a projected 31 total days; and

WHEREAS, the applicant represents that work on the foundation construction and excavation was stopped by DOB on May 5, 2005, but the stop work order was lifted in May 11, 2005; the above mentioned time calculation does not include these days; and

WHEREAS, in support of the claim that substantial progress had been made on foundations as of the Enactment Date, the applicant has submitted, among other items, photographs, and a foundation plan indicating the amount of foundation work that was completed as of the Enactment Date; and

WHEREAS, the applicant has also submitted an affidavit from the general contractor documenting the work completed on the proposed development as of the Enactment Date; and

WHEREAS, the Board has reviewed the affidavit and other evidence submitted, and agrees with the conclusion that excavation was complete and that substantial progress was made on the foundations as of the Enactment Date; and

WHEREAS, the Board finds all of above-mentioned submitted evidence sufficient and credible; and

WHEREAS, thus, based upon its consideration of the arguments made by the applicant, as well as its consideration of the entire record, the Board finds that excavation was completed and that substantial progress was made on foundations as of the Enactment Date; therefore, the Board finds that the applicant has adequately satisfied the requirements set forth at ZR § 11-331; and

Therefore it is Resolved that this application made pursuant to ZR § 11-331, to renew NB Permit No. 301822981-01-NB, is granted, and said permit is reinstated for one term of six months, from the date of this grant, to expire on August 14, 2006.

Adopted by the Board of Standards and Appeals, February 14, 2006.

CEQR #05-BSA-061Q

APPLICANT - Eric Palatnik, P.C. for Parsons Estates, LLC,
owners.

SUBJECT - Application November 17, 2004 - under Z.R.
§72-21 - to permit a proposed three-story residential building
in an R4 district which does not comply with the zoning
requirements for floor area, wall height, sky exposure plane,
open space, lot coverage and the number of dwelling units;
contrary to Z.R. §23-141c, 23-631 and 23-22.

PREMISES AFFECTED - 75-48 Parsons Boulevard, 168.40'
north of 75th road, at the intersection of 76th Avenue; Block
6810, Lot 44, Borough of Queens.

THE RESOLUTION -

WHEREAS, the decision of the Queens Borough
Commissioner, dated October 29, 2004, acting on
Department of Buildings Application No. 401990770, reads,
in pertinent part:

“1) Proposed floor area is contrary to ZR 23-141c.

2) Proposed wall height is contrary to ZR 23-631.

MINUTES

- 3) Proposed sky exposure plane is contrary to ZR 23-631.
- 4) Proposed open space is contrary to 23-141c.
- 5) Proposed lot coverage is contrary to 23-141c.
- 6) Number of dwelling units is contrary to 23-22.”; and

WHEREAS, this is an application made under Z.R. § 72-21 to permit, on a site within an R4 zoning district, the construction of a three-story residential building, which does not comply with applicable zoning provisions concerning Floor Area Ratio (FAR), wall height, sky exposure plane, open space, lot coverage, and number of dwelling units, contrary to ZR §§ 23-141(c), 23-631, and 23-22; and

WHEREAS, a public hearing was held on this application on August 16, 2005 after due publication in *The City Record*, with continued hearings on October 18, 2005, November 15, 2005, January 10, 2006, and then to decision on February 14, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioner Chin; and

WHEREAS, Community Board No. 8, Queens, by a vote of 18 in favor, and 16 opposed, recommends approval of this application; and

WHEREAS, the Queens Borough President also recommends approval of this application; and

WHEREAS, the subject premises is a vacant lot located on the west side of Parsons Boulevard, 168 ft. north of 76th Road, and has a total lot area of 16,512 sq ft.; and

WHEREAS, the lot is approximately 80 ft. wide and varies in depth from approximately 189 ft. to 232 ft.; and

WHEREAS, the proposed development is a three story residential building, which would be non-complying in the following respects: (1) 20 dwelling units – only 14 are permitted; (2) a FAR of 1.33 – 0.75 is the maximum permitted; (3) an Open Space Ratio of 0.47 – 0.55 is the minimum required; (4) lot coverage of 0.53 – 0.45 is the maximum permitted; (5) a wall height of 30 ft. – 25 ft. is the maximum permitted; and (6) a 90 degree sky exposure plane – an 80 degree sky exposure plane is the minimum required; and

WHEREAS, the applicant represents that the proposed development was designed to be in substantial compliance with the Predominantly Built Up Area (PBA) provisions that formerly applied to the site, as set forth at ZR 23-141(c); and

WHEREAS, Z.R. § 12-10 defines a PBA, in part, as a block entirely within an R4 or R5 zoning district, which can be no larger than four acres; and

WHEREAS, the PBA provisions allow for a greater FAR than permitted otherwise; specifically, a FAR of 1.35 is allowed for a PBA in an R4 zoning district, as opposed to a FAR of 0.75 on a block that does not meet the PBA definition; and

WHEREAS, the Board observes, and the applicant concedes, that the PBA regulations no longer apply to the site, because of a 1989 de-mapping action related to 76th Avenue which increased the size of the block to greater than

four acres; and

WHEREAS, the applicant alleges that the following are unique physical conditions that lead to practical difficulties in developing the subject site in strict compliance with underlying district regulations: (1) the site, up until the de-mapping action over 16 years ago, qualified for the bulk permitted under the PBA regulations; (2) the site is irregular in terms of its depth to width ratio; (3) the site is adjacent to a school, and is located near developments that contain a bulk greater than permitted, as well as near an intersection with a traffic signal; and

WHEREAS, for reasons set forth below, the Board does not agree that these alleged unique physical conditions create any practical difficulties in developing the site with a fully complying building, either standing alone or when considered in the aggregate; and

WHEREAS, at the outset, however, the Board notes that the applicant argues that because the proposed variances are area/bulk variances, and not use variances, a lesser standard of proof should be applied by the Board is assessing whether any practical difficulties exist on the site; and

WHEREAS, in support of this argument, the applicant cites to the recent decision *Pantelidis v. Board of Standards and Appeals*, 1/18/2006 NYLJ 19, (col. 1), 2005 WL 3722913, 2005 N.Y. Slip Op. (N.Y. Sup., Dec 23, 2005); and

WHEREAS, the applicant states that *Pantelidis* confirms that a lesser burden of proof for area variances (practical difficulties) versus use variances (unnecessary hardship) may be accepted by the Board; and

WHEREAS, while the Board has reviewed this Supreme Court level decision, it is aware that many appellate court decisions have clearly established that an application for a variance, whether bulk or use, must contain substantial evidence in support of each and every finding of ZR 72-21; and

WHEREAS, specifically, the Board cites to *Russo v. Board of Estimate of City of New York*, 84 A.D.2d 842, 444 N.Y.S.2d 175 (N.Y.A.D., 1981), *Galín v. Board of Estimate of City of New York*, 72 A.D.2d 114, 423 N.Y.S.2d 932 (N.Y.A.D., 1980), and *Feit v. Bennett*, 168 A.D.2d 495, 562 N.Y.S.2d 737, (N.Y.A.D., 1990); and

WHEREAS, thus, an applicant must still establish that the cited unique physical conditions cause the alleged practical difficulties in complying with the applicable bulk or density regulations; and

WHEREAS, in other words, some nexus between the alleged physical condition and the rationale for a particular variance must be proven; and

WHEREAS, merely showing how a lot differs from others without showing why such differences create practical difficulties is not sufficient; and

WHEREAS, additionally, some proof of practical difficulties must be submitted by the applicant: a lesser burden is not the equivalent of an absence of burden; and

WHEREAS, as to the first alleged unique condition, the applicant states that the de-mapping action in 1989, because it added area to the block that was formally designated as a street, rendered the subject block too large to fall within the

MINUTES

PBA definition and

WHEREAS, the Board observes that the de-mapping is not an actual unique physical condition that, in of itself, causes hardship; and

WHEREAS, the Board agrees that it has recognized unusual block history as a factor that may militate in favor of a finding that the site is distinguishable from others in the area; and

WHEREAS, notwithstanding this recognition, the Board still requires proof of actual unique physical features present at the site which cause practical difficulties; and

WHEREAS, the applicant cites to a variance granted by the Board under Cal. No. 105-03-BZ in support of the argument that the Board has accepted a site's prior entitlement to the bulk bonus in the PBA regulations as a unique physical condition that leads to practical difficulty; and

WHEREAS, however, a careful reading of this resolution reveals that the applicant's reliance on this particular grant is misplaced; and

WHEREAS, specifically, in the ninth recital, which is the operative recital where the Board specifically finds that the hardship requirement set forth at ZR 72-21(a) has been met, the Board cites to the specific unique physical conditions that were credited; these conditions were the site's shape, its location across from a non-conforming commercial use, and its location adjacent to three-family dwellings; and

WHEREAS, no mention is made of the inapplicability of the PBA regulations to the site in this operative recital; and

WHEREAS, the Board does credit the "unique history of the block" as a basis for uniqueness in the resolution under Cal. No. 222-03-BZ; and

WHEREAS, the Board notes the history of the block in Cal. No. 222-03-BZ is comparable to the history of the block in the instant case, in that a de-mapping action led to the block exceeding the maximum acreage requirement in the PBA definition such that no bulk increase was available; and

WHEREAS, however, in 222-03-BZ, the Board also cited to the significant slope conditions present at the site; these conditions alone were the actual hardship in this case; and

WHEREAS, accordingly, in alignment with its past decisions, the Board finds that an inability to use the PBA bulk bonus due to an alleged unique block history, is, in of itself, insufficient to sustain the uniqueness finding; and

WHEREAS, instead, the Board must be presented with proof of an actual unique physical condition that leads to premium construction costs or significant revenue inhibition, which in turn requires some relief; and

WHEREAS, thus, the applicant here must establish that the alleged site conditions compromise complying development, irrespective of any unusual block history or former ability to use the PBA bulk regulations; and

WHEREAS, as to the second cited basis of uniqueness, the applicant states that the irregular shape of the site leads to a development that possesses a "long" and "squat" floor plate, which accommodates only 14 dwelling units using the available FAR in a two-story configuration; and

WHEREAS, however, the Board observes that 14 dwelling units are permitted in the subject R4 zoning district, which means that even if one assumes that the floor plates are not optimum, the shape of the lot clearly does not inhibit a development with a complying amount of units or a complying amount of FAR; and

WHEREAS, a variance can not be sustained on the basis of generally applicable zoning regulations such as the FAR and density requirements in the subject R4 district; and

WHEREAS, here, the applicant concedes that the lot shape does not prevent a complying building from being constructed; and

WHEREAS, confronted with this reality, the applicant makes the supplemental argument that a complying development would result in a building with most of the units at the ground floor, which the applicant states is the "most undesirable location" for dwelling units; and

WHEREAS, the applicant states that the diminished revenue from the ground floor units compromises the viability of a complying development; and

WHEREAS, the applicant attempted to support this statement through the provision of financial analyses, which, as discussed in detail below, the Board declines to credit; and

WHEREAS, however, even if the Board found these analyses sound, the Board disagrees with the underlying premise that the lot shape imposes a greater hardship on complying development than a lot with a more regular shape, as to the location of the units within the building; and

WHEREAS, the Board first observes that the lot is reasonably wide and very deep, such that it does not impose any site planning constraints that inhibit construction of a complying development; and

WHEREAS, the Board also observes that the irregular shape results from the varying depth of the site to the rear lot line, and that the actual lot area of the irregularity is around 1,400 sq. ft.; that is, the lot's depth is regular except for small portion at the rear; and

WHEREAS, if this portion is ignored, then the developable portion of the site is 80 ft. wide by 189 ft. deep along both side lots line, which is a large rectangle without any apparent hardship; and

WHEREAS, a two-story development constructed within this rectangle with the complying density and FAR would still result in many of the units being placed on the ground floor, due to the perimeter wall height limitation in the R4 district at 25 ft.; and

WHEREAS, thus, there is nothing about the lot shape that results in practical difficulties as to the location of the units within the building; rather, as noted above, it is still a function of the generally applicable zoning parameters of the district, which is not an acceptable basis for hardship; and

WHEREAS, the applicant made the additional argument that a two-story complying development is not in keeping with the character of the larger residential developments nearby, but the Board does not find this to be a relevant consideration, because there is no character finding that must be met to proceed with as of right development; and

WHEREAS, even though the Board disagrees that the

MINUTES

shape of the lot creates practical difficulties in developing the site with a two-story complying building, the Board suggested to the applicant at hearing that a three-story complying building could be developed on the site, since the R4 district permits a total building height of 35 ft.; and

WHEREAS, assuming *arguendo* that a two-story building results in a hardship because more units have to be placed on the ground floor, a three-story building would alleviate this hardship; and

WHEREAS, the applicant's own three-story proposal is an implicit acknowledgement of this fact; and

WHEREAS, however, upon submission of plans for a complying three-story development that provided 12 units, with eight of the units on the second or third floors, the applicant argued that such plans reflected a building design that is "aesthetically unappealing", due to the application of the R4 sky exposure plane requirements; and

WHEREAS, the applicant also argues that such a building can not realize a reasonable return because 33 percent of the units are at the ground floor; and

WHEREAS, while the applicant contends that the design of the complying three-story building is unappealing, no evidence to support this statement has been provided, nor has any argument been made as to how this would impact the viability of such a building; and

WHEREAS, further, leaving aside whether the three-story building is in fact unattractive in terms of design, the Board rejects this argument as irrelevant, because no explanation has been provided as to how the shape of the site constrains the building design such that only an unattractive building can be developed on the site; and

WHEREAS, as noted above, the developable portion of the site is large enough to accommodate a building that complies with the as of right bulk and density parameters, and there is nothing that prevents a well-designed building from being constructed; and

WHEREAS, the Board also rejects the argument that a three-story complying building can not realize a reasonable return because 33 percent of the units will be on the ground floor; and

WHEREAS, again, the Board observes that the applicant has failed to explain how the site's shape creates the alleged problem of 33 percent of the units being located on the ground floor; and

WHEREAS, if the site were a perfect rectangle, 33 percent of the units would still be located on the ground floor of a complying three-story building; and

WHEREAS, finally, the Board observes that all residential buildings that contain units on the ground floor gain less revenue from such units; and

WHEREAS, this condition is thus common to all residential development and has no specific relationship to the shape of the lot; and

WHEREAS, the Board also rejects the applicant's third alleged basis of uniqueness, namely, that the site suffers a hardship because of its proximity to over-bulk buildings, an intersection, and community facility uses; and

WHEREAS, the applicant states that the site is situated

immediately adjacent to developments that were built to an FAR that is significantly greater than permitted in the subject R4 zoning district; and

WHEREAS, the applicant alleges that these structures "dwarf" the site; and

WHEREAS, the Board finds this claim spurious, since the site is actually adjacent to a vacant lot on one side and a two-story school on the other; and

WHEREAS, while there is a large scale residential development to the rear of the site that was built in excess of the permitted R4 district bulk through approval from the City Planning Commission, with nine and 13 story buildings, given the site's frontage on Parsons Boulevard and the lower scale on either side of the site, there is no basis for the claim that site is "dwarfed" or otherwise negatively impacted by this development; and

WHEREAS, the Board also notes that the irregularity of the depth of the site that the applicant claims as hardship actually acts as a buffer between any development on the site and the buildings to the rear, in that it affords an average rear yard depth of approximately 92 ft., which well exceeds the required rear yard depth of 30 ft.; and

WHEREAS, the Board also observes that due to the significant depth of the site, a complying building could easily be set back from the front lot line, which would mitigate any impact that proximity to the intersection might have; and

WHEREAS, the Board further notes that the applicant's proposed variance building is only 5 ft. higher than a complying three-story building, which is not so significant of an increase that one could conclude that any negative effect that the buildings to the rear had on the site would be mitigated; this further weakens the rationale of the applicant's contention; and

WHEREAS, the applicant also states that the adjacency of the site to a school further inhibits complying residential development; and

WHEREAS, again, the Board disagrees, and notes that schools are community facility uses that are presumed by the Zoning Resolution to not create an objectionable influence on residence districts; and

WHEREAS, as with the PBA regulations, the applicant cites to the Board's grant under Cal No. 105-03-BZ, for the proposition that the Board has, in the past, credited a site's locational difficulties as a contributing factor towards practical difficulties; and

WHEREAS, however, in that case, unlike here, the Board found that the site actually suffered a hardship from its irregular shape; and

WHEREAS, moreover, the Board also cited to a commercial use across from the site, which is often not compatible with proposed residential uses, unlike the adjacent residential and community facility uses here; and

WHEREAS, the Board further notes that the site that the Board considered under 105-03-BZ was a 20 ft. wide by approximately 100 ft. deep lot, which is much smaller than the subject site; development could not be repositioned within the site and still comply with applicable yard regulations to

MINUTES

avoid the negative impacts of the adjacent uses, unlike here; and

WHEREAS, finally, the Board notes that it recently rejected the argument that proximity to an intersection could serve as the basis of hardship, under Cal. No. 118-03-BZ; and

WHEREAS, specifically, the Board rejected the argument of the applicant in 118-03-BZ that the location of the premises on an allegedly busy commercial intersection constituted a unique physical conditions; and

WHEREAS, the Board noted that this applicant had failed to prove that the intersection was any more busy than numerous others within the neighborhood, and that expanding the definition of uniqueness to include location of a lot at a busy intersection in a city with innumerable busy intersections is contrary to the definition of what is unique; and

WHEREAS, the Board rejects the instant applicant's argument as to the impact of the proximity of the subject site to the intersection for the same reasons; and

WHEREAS, for all of the reasons set forth above, the Board finds that the applicant has failed to meet the finding set forth at Z.R. § 72-21(a); and

WHEREAS, because the applicant has failed to provide substantial evidence in support of the finding set forth at Z.R. §72-21(a), the application also fails to meet the finding set forth at Z.R. §72-21(b); and

WHEREAS, however, even if the Board assumed that any of claimed bases of uniqueness were legitimate, the Board observed numerous deficiencies in the submitted financial analyses; and

WHEREAS, specifically, the Board has concerns regarding: (1) the claimed site valuation; (2) certain assumptions made in the sell-out value per square foot, per floor; and (3) the claimed price differential between the first and upper floors; and

WHEREAS, the Board notes that the site value was initially estimated by the applicant at \$1,650,000 (or \$100.00 per sq. ft.), but was not credibly established by the site comparables; and

WHEREAS, specifically, the Board notes that of the six comparable sites presented, five are considerably smaller (ranging in size from 1,470 sq. ft. to 6,262 sq. ft., versus the subject site's 16,512 sq. ft.; the Board does not consider these sites truly comparable; and

WHEREAS, moreover, one comparable site is 161,000 sq. ft, which is about ten times the size of the subject lot and is likewise not really comparable; and

WHEREAS, the Board also observes that a lack of true comparability also plagues the sites chosen by the applicant to establish the residential sales amounts for the proposed development, which was presented to the Board as \$327 per sq. ft.; and

WHEREAS, the Board further notes that operating expenses for the as-of-right scheme appear high at 42% of effective income, which depresses the return; and

WHEREAS, the ratio of expenses to effective income that the Board typically sees for new construction is closer to 30 to 35 percent especially considering the any construction

on the site is new; and .

WHEREAS, as to the difference in sell-out price between the ground floor units and upper floor units, the applicant approximates such difference at 25 percent; and

WHEREAS, however, as conceded by the applicant, the data used to support this alleged differential is from 1988 to 2003, which the Board finds to be out of date; and

WHEREAS, more troubling is the fact that if the second floor sell-out value (\$375) is ascribed to the ground floor units in a complying FAR scheme, the additional revenue would not provide a reasonable return; and

WHEREAS, this suggests that other variables in the analysis, such as site valuation or operating expenses, need adjusting, as discussed above, and that the site suffers no actual hardship, but, like all sites in the area, is in a zoning district that provides arguably inadequate FAR, based upon the market costs of land and construction; and

WHEREAS, the Board notes that a variance may not be predicated on a combination of market conditions and existing zoning, as this effect is common to all sites within a particular zoning district; the appropriate course of action in such an instance is to obtain a rezoning through the City Planning Commission; and

WHEREAS, in sum, the Board was not persuaded by the financial information presented by the applicant, and asked for, but did not receive, cogent refinements to the initial study; and

WHEREAS, thus, for all of the reasons set forth above, the Board finds that the applicant has failed to meet the finding set forth at Z.R. § 72-21(b); and

WHEREAS, since the application fails to meet the findings set forth at Z.R. § 72-21 (a) and (b), it must be denied; and

WHEREAS, because the Board finds that the application fails to meet the findings set forth at Z.R. § 72-21(a) and (b), which are threshold findings that must be met for a grant of a variance, the Board declines to address the other findings.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated October 29, 2004, acting on Department of Buildings Application No. 401990770, is sustained and the subject application is hereby denied.

Adopted by the Board of Standards and Appeals, February 14, 2006.

386-04-BZ CEQR #05-BSA-069Q

APPLICANT – Rothkrug, Rothkrug, Weinberg & Spector, for PSCH, Inc., owner.

SUBJECT – Application November 9, 2004 – under Z.R. §72-21 to permit the proposed enlargement and development of an existing community facility, located in M1-1 zoning district, which does not comply with the zoning requirements for accessory off-street loading berth, waterfront yards, total height and parking, is contrary to Z.R. §44-52, §62-331, §62-34, §62-441 and §44-21.

PREMISES AFFECTED – 22-44 119th Street, corner of 23rd

MINUTES

Avenue, Block 4194, Lot 20, Borough of Queens.

COMMUNITY BOARD #7Q

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated December 9, 2005, acting on Department of Buildings Application No. 401963586, reads, in pertinent part:

“Proposed reduction in required accessory parking, for Use Group 6 (B-1 parking use) in an M1-1 zoning district requires a special permit from the [BSA], pursuant to Section 73-44 ZR.”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03, to permit, within an M1-1 zoning district, a reduction in the required number of accessory parking spaces for an existing not-for-profit office use from 88 to 44, contrary to Z.R. § 44-21; and

WHEREAS, the Board notes that the subject application was initially filed as a variance under ZR § 72-21; said application asked for waivers as to height, yards, and loading berths in addition to the parking waiver; and

WHEREAS, after accepting direction from the Board staff as to the availability of the height and yard waivers through an application at the City Planning Commission and agreeing to the provision of a loading berth, the applicant revised the application; and

WHEREAS, a public hearing was held on this application on November 15, 2005, after due notice by publication in *The City Record*, with a continued hearing on January 10, 2006, and then to decision on February 14, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan and Commissioner Chin; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, the subject site is located at the northwest corner of the intersection of 23rd Avenue and 119th Street, and has a lot area of 43,832 sq. ft. (approximately 3,400 of this lot area is underwater, as the site abuts Flushing Bay); and

WHEREAS, the site is currently occupied by a 11,016 sq. ft. one-story plus mezzanine building, with 30 non-required accessory parking spaces; and

WHEREAS, the building is currently owned and occupied by a not-for-profit organization for Use Group 6 office purposes; the not-for-profit currently employs 140 people; and

WHEREAS, the applicant represents that the site is proposed to be developed with a four-story, 25,324 sq. ft.

expansion to the existing building, which would necessitate 88 required accessory parking spaces; and

WHEREAS, pursuant to ZR § 73-44, the Board may, in the subject M1-1 zoning district, grant a special permit that would allow a reduction in the number of accessory off-street parking spaces required under the applicable ZR provision, for Use Group 6 uses in the B1 parking category; for the M1-1 zoning district and the subject UG 6 use, the Board may reduce the required parking from 1 space per 600 sq. ft. of floor area to 1 space per 300 sq. ft. of floor area; and

WHEREAS, the applicant represents that assuming a special permit is obtained, the site will be developed with a 59 space accessory parking lot; the parking will be attended; and

WHEREAS, ZR § 73-44 requires that the Board must determine that the proposed UG 6 use in the B1 parking category is contemplated in good faith; and

WHEREAS, the applicant has submitted sufficient evidence of the good faith of the not-for-profit in pursuing the proposed UG 6 office use; in particular, the Board observes that the not-for-profit currently occupies the site and the building proposed to be enlarged, and that the applicant has submitted documentation as to the need for a larger office and training space based upon the program of the not-for-profit; and

WHEREAS, however, while ZR § 73-44 allows the Board to reduce the required accessory parking, the Board expressed concern about the impact that such a reduction might have on the community in terms of available on-street parking; and

WHEREAS, in response to the Board’s concerns regarding parking, the applicant prepared a person, vehicular trip and parking accumulation analysis based upon a transportation survey for the existing office use; and ; and

WHEREAS, the analysis revealed that the proposed development would generate a total of 103 person trips and 55 vehicle trips during both the AM (8AM to 9AM) and PM (5PM to 6PM) peak hours; and

WHEREAS, the analysis also revealed that ten additional spaces would be required on-site to accommodate the increased trip generation; and

WHEREAS, the applicant concludes that since the proposal is to increase the amount of spaces to 59, any increased demand can be accommodated on-site; and

WHEREAS, based upon this study, the Board agrees that the accessory parking space needs of the not-for-profit will be addressed even with the parking reduction; and

WHEREAS, the Board also expressed concern about the proposed layout of the accessory parking lot, and suggested that the layout be approved by DOB subsequent to the Board grant; and

WHEREAS, the applicant agreed to this suggestion, and placed a note on the site plan indicating the gross calculations for the proposed accessory parking and the accessory loading berth; and

WHEREAS, based upon the above, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the

MINUTES

proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to Z.R. §§ 73-44 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA069Q dated July 26, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under Z.R. §§ 73-44 and 73-03, to permit, within an M1-1 zoning district, a reduction in the required number of accessory parking spaces an existing not-for-profit office use from 88 to 44 to, contrary to Z.R. § 44-21; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received February 10, 2006–(1) sheet and *on further condition*:

THAT there shall be no change in ownership of the site or the building without prior application to and approval from the Board;

THAT a minimum of 44 and a maximum of 59 attended parking spaces shall be provided in the accessory parking lot;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT the layout and design of the accessory parking lot shall be as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning

Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 14, 2006.

94-05-BZ

APPLICANT – Eric Palatnik, P.C., for Abraham Bergman, owner.

SUBJECT – Application April 20, 2005 – under Special Permit ZR §73-622 to permit the enlargement of a single family residence to vary ZR sections 23-141 for the increase in floor area and open space, 23-461 for less than the required side yards and 23-47 for less than the required rear yard. The premise is located in an R-2 zoning district.

PREMISES AFFECTED – 1283 East 29th Street, East 29th Street, north of Avenue M, Block 7647, Lot 11, Borough of Brooklyn.

COMMUNITY BOARD #14BK

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Chin and Commissioner Collins.....3

Negative: Vice-Chair Babbar.....1

THE RESOLUTION -

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated April 8, 2005, acting on Department of Buildings Application No. 301909585, reads, in pertinent part:

- “1. Proposed Floor Area Ratio is contrary to ZR 23-141.
 2. Proposed rear yard is contrary to ZR 23-47.
 3. Proposed open space is contrary to ZR 23-141.
 4. Proposed side yard is contrary to ZR 23-461”;
- and

WHEREAS, this is an application under Z.R. §§ 73-622 and 73-03, to permit, in an R3-2 zoning district, the proposed enlargement of an existing single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio (FAR), open space, rear yard, and side yards, contrary to Z.R. §§ 23-141, 23-47 and 23-461; and

WHEREAS, a public hearing was held on this application on November 22, 2005, after due notice by publication in *The City Record*, with continued hearings on January 24, 2006 and then to decision on February 14, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject lot is located on East 29th Street, north of Avenue M; and

MINUTES

WHEREAS, the subject lot has a total lot area of 2,800 sq. ft.; and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,392 sq. ft. (0.49 FAR) to 2,800 sq. ft. (1.01 FAR); the maximum floor area permitted is 1,400 sq. ft. (0.50 FAR); and

WHEREAS, the proposed enlargement will decrease the open space ratio from 145% to 119%; 150% is the minimum required; and

WHEREAS, the proposed enlargement will extend the currently non-complying side yard of 1'-6"; a minimum side yard of 5 ft. is required; and

WHEREAS, the enlargement into the side yard does not result in a decrease in the existing minimum width of open area between the building and the side lot line; and

WHEREAS, the proposed enlargement will result in a rear yard of 24'-10"; a rear yard of 30'-0" is required; and

WHEREAS, the enlargement of the building into the rear yard is not located within 20 feet of the rear lot line; and

WHEREAS, at hearing, the Board asked the applicant to explain whether the proposed enlarged home would comply with any applicable perimeter wall heights requirements; and

WHERE, the applicant clarified that because the home is within an R2 zoning district, it is not subject to a perimeter wall height requirement, but is subject to a street wall height requirement, with which it complies; and

WHEREAS, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. §§ 73-622 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under Z.R. §§ 73-622 and 73-03, to permit, in an R3-2 zoning district, the proposed enlargement of an existing single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio, lot coverage, and side yards, contrary to Z.R. §§ 23-141, 23-47 and 23-461; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed

with this application and marked "Received January 31, 2006"--(8) sheets; and *on further condition*:

THAT there shall be no habitable room in the cellar;

THAT the above condition shall be set forth in the certificate of occupancy;

THAT the total FAR on the premises shall not exceed 1.01;

THAT the maximum floor area in the attic shall be 681.2 sq. ft.;

THAT the use and layout of the cellar shall be as approved by DOB;

THAT any porch, shed or garage shall be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 14, 2006.

THE RESOLUTION -

MINUTES

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated October 28, 2005, acting on Department of Buildings Application No. 301968967, reads, in pertinent part:

“Proposed enlargement . . .

1. Creates non-compliance with respect to Floor Area by exceeding the allowable Floor Area Ratio and is contrary to Section 23-141 of the Zoning Resolution.
2. Creates non-compliance with respect to the lot coverage . . . and is contrary to Section 23-141 of the Zoning Resolution.
3. Creates non-compliance with respect to the side yards by not meeting the minimum requirements of Section 23-48 of the Zoning Resolution. 10'-0" total; 5'-0" min.”; and

WHEREAS, this is an application under Z.R. §§ 73-622 and 73-03, to permit, in an R3-2 zoning district, the proposed enlargement of an existing single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio (FAR), lot coverage, and side yards, contrary to ZR §§ 23-141 and 23-48; and

WHEREAS, a public hearing was held on this application on January 31, 2006, after due notice by publication in *The City Record*, and then to decision on February 14, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject lot is located on Quentin Road between East 29th Street and Nostrand Avenue, approximately 33 ft. east of East 29th Street; and

WHEREAS, the subject lot has a total lot area of 2,500 sq. ft.; and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,709 sq. ft. (0.68 FAR) to 2,530 sq. ft. (1.01 FAR); the maximum floor area permitted is 1,250 sq. ft. (0.50 FAR); and

WHEREAS, the proposed enlargement will increase the lot coverage to 47 percent; 35 percent is the maximum permitted; and

WHEREAS, the proposed enlargement will extend the currently non-complying side yard of 1'-6"; a minimum side yard of 5 ft. is required; and

WHEREAS, the enlargement into the side yard does not result in a decrease in the existing minimum width of open area between the building and the side lot line; and

WHEREAS, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. §§ 73-622 and 73-03.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R3-2 zoning district, the proposed enlargement of an existing single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio, lot coverage, and side yards, contrary to ZR §§ 23-141 and 23-48; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received November 18, 2005”-(1) sheet, “February 7, 2006”-(6) sheets and “February 14, 2006”-1 sheet ; and *on further condition*:

THAT there shall be no habitable room in the cellar;

THAT the above condition shall be set forth in the certificate of occupancy;

THAT the total FAR on the premises shall not exceed 1.01;

THAT the maximum floor area in the attic shall be 161 sq. ft.;

THAT the use and layout of the cellar shall be as approved by DOB;

THAT any porch, shed or garage shall be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 14, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated July 19, 2005, acting on Department of Buildings Application No. 301969671, reads, in pertinent part:

“Proposed enlargement . . .

1. Creates non-compliance with respect to Floor Area by exceeding the allowable Floor Area Ratio and is contrary to Section 23-141 of the Zoning Resolution
2. Creates non-compliance with respect to the lot coverage and is contrary to Section 23-141 of the Zoning Resolution.
3. Creates non-compliance with respect to the side yard by not meeting the minimum requirement of Section 23-461 of the Zoning Resolution.”; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R3-2 zoning district, the proposed enlargement of an existing single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio (FAR), lot coverage, and side yards, contrary to ZR §§ 23-141 and 23-461; and

WHEREAS, a public hearing was held on this application on January 31, 2006, after due notice by publication in *The City Record*, and then to decision on February 14, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject lot is located on Quentin Road between East 23rd and East 24th Streets, approximately 52 ft. west of East 24th Street; and

WHEREAS, the subject lot has a total lot area of 2,800 sq. ft.; and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1563 sq. ft. (0.56 FAR) to 2541 sq. ft. (0.91 FAR); the maximum floor area permitted is 1,400 sq. ft. (0.50 FAR); and

WHEREAS, the proposed enlargement will increase the lot coverage to 50 percent; 35 percent is the maximum permitted; and

WHEREAS, the proposed enlargement will extend the currently non-complying side yard of 3 ft.; a minimum side yard of 5 ft. is required; and

WHEREAS, the enlargement into the side yard does not result in a decrease in the existing minimum width of open area between the building and the side lot line; and

WHEREAS, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. §§ 73-622 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R3-2 zoning district, the proposed enlargement of an existing single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio, lot coverage, and side yards, contrary to ZR §§ 23-141 and 23-461; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received August 17, 2005”-2 sheets and “November 18, 2005”- (5) sheets; and *on further condition*:

THAT there shall be no habitable room in the cellar;

THAT the above condition shall be set forth in the certificate of occupancy;

THAT the total FAR on the premises shall not exceed 0.91;

THAT the use and layout of the cellar shall be as approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday afternoon, April 11, 2006, at 1:30 P.M., at 40 Rector Street, 6th Floor, New York, N.Y. 10006, on the following matters:

ZONING CALENDAR

290-02-BZ thru 314-02-BZ

APPLICANT – Rothkrug Rothkrug Weinberg & Spector, for Edgewater Development, Inc., owner. (Taipei Court)

SUBJECT – Application October 24, 2002 – Variance: Z.R. §72-21, to permit the construction of 28 attached, three-story and cellar, two-family dwellings on a vacant site. The subject site is located in an M1-1 zoning district. The proposal would create 56 dwelling units and 56 parking spaces. The 28 proposed dwellings are intended to be part of a larger and substantially complete development which is located within the adjacent C3 zoning district. The proposed project has been designed to conform and comply with the C3 district regulations that govern the remainder of the subject property and which permits residential development in accordance with the C3 district's equivalent R3-2 zoning district regulations (pursuant to Sections 32-11 and 34-112). The development as a whole is the subject of a homeowners' association that will govern maintenance of

the common areas, including the parking area, driveways, planted areas and the proposed park. The proposal is contrary to applicable use regulations pursuant to Z.R. Section 42-10.

PREMISES AFFECTED – 114-01/03/05/07/09/11/13/17/19/15/21/21/23/25/27/29/31/33/35/20/22/24/26/28/30/32/34 Taipei Court, west of 115th Street, Block 4019, Lot 120, Borough of Queens.

THE RESOLUTION –

WHEREAS, this is an application for a re-opening, and a change in use pursuant to Z.R. § 11-413, from Use Group 16 warehouse to Use Group 9 music studio; and

WHEREAS, a public hearing was held on this application on January 31, 2006, after due notice by publication in *The City Record*, and then to closure and decision on February 28, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board No. 2, Brooklyn, recommends approval of the subject application; and

WHEREAS, the subject site is a 5,747 sq. ft. site located

on Quincy Street between Classon Avenue and Downing Street, and is within a R6 zoning district; and

WHEREAS, the site is currently improved upon with a one-story building, historically occupied as storage, a metal manufacturing plant, and a garage; and

WHEREAS, the Board has exercised jurisdiction over the subject premises since 1916, when, under BSA Calendar No. 55-16-BZ, it granted an application to permit the erection of a garage; and

WHEREAS, on September 22, 1942, under the subject calendar number, the Board granted a special permit allowing the conversion of the garage to a metal manufacturing plant; and

WHEREAS, the applicant represents that the metal manufacturing use has not occupied the building for many years, and that the site was most recently used for storage purposes; and

WHEREAS, the applicant now proposes the conversion of the existing building to a Use Group 9 music studio; said studio will be used by the owner of the premises for private studio activities; and

WHEREAS, the applicant also proposes to add a two unit residential component above the first floor, which will comply with applicable R6 zoning district regulations; and

WHEREAS, the studio will be soundproofed in order to exceed the noise attenuation requirements of the Building Code; and

WHEREAS, interior modifications to the existing building are proposed to accommodate the change in use and residential addition; no structural alterations to the existing foundations or load bearing walls will be undertaken; and

WHEREAS, pursuant to ZR § 11-413, the Board may allow a change in use permitted by a pre-1961 special permit to a non-conforming use, so long as the change is one that would be permitted under the provisions of Article 5 of the Zoning Resolution; and

WHEREAS, Article 5 would permit the proposed change in use; and

WHEREAS, the Board notes that it is not approving the residential component of the proposal; compliance with R6 regulations shall be as reviewed and approved by DOB; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. § 11-413.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended and makes each and every one of the required findings under ZR § 11-413, on a site previously before the Board, the change in use from Use Group 16 storage to Use Group 9 music studio; *on condition* that all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked "Received February 28, 2006"-(3) sheets; and *on further condition*:

THAT the premises shall be maintained free of debris and graffiti;

MINUTES

THAT any graffiti located on the premises shall be removed within 48 hours;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect, to the extent they are applicable;

THAT no signage shall be permitted on the site except for a single two ft. by three ft. sign identifying the studio by name;

THAT the residential component of the proposal shall be as approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted. (301894341)

Adopted by the Board of Standards and Appeals, February 28, 2006.

7-57-BZ

APPLICANT – Ruth Peres, Esq., for Kapsin & Dallis Realty Corp., owner; Ruth Peres, lessee.

SUBJECT – Application December 15, 2005 – Pursuant to ZR §11-411 for an Extension of Term of a gasoline service station which expired on September 30, 2005. The premise is located in an R3-2 zoning district.

PREMISES AFFECTED – 2317-27 Ralph Avenue – 1302-1320 East 65th Street, southeast corner of Ralph Avenue and Avenue M, Block 8364, Lot 34, Borough of Brooklyn.

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application made pursuant to Z.R. §11-411, for an extension of the term of the previously granted variance, permitting a gasoline station; and

WHEREAS, a public hearing was held on this application on January 31, 2006, after due notice by publication in *The City Record*, and then to decision on February 28, 2006; and

WHEREAS, Community Board No. 18, Brooklyn, recommends disapproval of this application, based upon concerns that the site was being used for commercial parking purposes and bus parking, contrary to the Board’s grant; these concerns are discussed below; and

WHEREAS, the premises is a 18,802 sq. ft. site located at the southeast corner of Ralph Avenue and Avenue M; and

WHEREAS, the site is located within an R3-2 zoning district, and is improved upon with a gasoline service station; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 23, 1957, when, under the subject calendar number, the Board granted an application to permit the use of the site as a gasoline service station, with accessory lubricatorium, minor repairs, car wash, store room, office, store, parking and storage of motor vehicles; and

WHEREAS, subsequently, the term of this grant has been extended by the Board at various times, most recently on February 27, 1996 under the subject calendar number for a term of 10 years, expiring on September 30, 2005; and

WHEREAS, at hearing, the Board asked the applicant to address the Community Board’s concerns regarding commercial parking; and

WHEREAS, the applicant responded that there is no commercial parking on-site, but that occasionally vans that are serviced at the gas station are stored for pick-up the next day; and

WHEREAS, the applicant stated that vehicles that are kept overnight are left in the service bays; and

WHEREAS, the applicant also stated that the certificate of occupancy for the site allows storage of vehicles, and that all such storage is for vehicles being serviced; and

WHEREAS, finally, the applicant stated that the bus referenced by the Community Board was not owned by him and did not park on his lot, but adjacent to it; and

WHEREAS, pursuant to Z.R. §11-411, the Board may permit an extension of term for a previously granted variance; and

WHEREAS, based upon the submitted evidence, the Board finds the requested extension of term appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on July 23, 1957, and as subsequently extended and amended, so that as amended this portion of the resolution shall read: “to extend the term for ten years from September 30, 2005, to expire on September 30, 2015, *on condition* that the use shall substantially conform to drawings as filed with this application, marked ‘Received December 15, 2005’-(1) sheet, and ‘February 24, 2006’-(1) sheet; and *on further condition*:

THAT the term of this grant shall expire on September 30, 2015;

THAT parking on site shall be for vehicles awaiting service only;

THAT any vehicles stored on-site overnight shall be parked in the service bays;

MINUTES

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT all fencing and landscaping shall be installed/maintained as per the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

(DOB Application No. 1434/64)

Adopted by the Board of Standards and Appeals, February 28, 2006.

111-94-BZ

APPLICANT – Ari Goodman, Esq., for 2502 8th Avenue Corp., owner; Michael Williams, lessee.

SUBJECT – Application May 4, 2005 – Extension of term of a Special Permit for the vacant portion of a lot to be used for accessory parking for the commercial uses on the built portion of the site and as incidental monthly/overnight parking for the residential neighbors. The site is located in a C1-4/R-8 zoning district.

PREMISES AFFECTED – 3543-49 Broadway, a/k/a 601 West 145th Street, northwest corner intersection of Broadway and West 145th Street, Block 2092, Lot 26, Borough of Manhattan.

APPEARANCES –

For Applicant: Ari Goodman.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term of the previously granted special permit made pursuant to ZR § 73-42, which allowed an as of right retail use in a commercial district to locate its accessory parking in a residential district; and

WHEREAS, a public hearing was held on this application on January 31, 2006, after due notice by publication in *The City Record*, and then to decision on February 28, 2006; and

WHEREAS, Community Board No. 9, Manhattan, recommends approval of this application; and

WHEREAS, the premises is a 5,500 sq. ft. site located at the northwest corner of Broadway and West 145th Street, and is

located partially within an R8 zoning district and partially within an R8(C1-4) zoning district; and

WHEREAS, the parking lot is located entirely within the R8 zoning district, adjacent to a building occupied by commercial uses, located entirely within the C1-4 commercial overlay district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 4, 1995, when, under the subject calendar number, the Board granted an application pursuant to ZR § 73-42 to permit the legalization of the parking lot for accessory parking purposes to the adjacent commercial use; and

WHEREAS, subsequently, on January 27, 2005, the term of this grant was been extended by the Board, for a term of five years, expiring on April 4, 2005; and

WHEREAS, the applicant now requests a further extension of term; and

WHEREAS, based upon the submitted evidence, the Board finds the requested extension of term appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on April 4, 1995, and as subsequently extended, so that as amended this portion of the resolution shall read: “to extend the term for ten years from April 4, 2005, to expire on April 4, 2015, *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked “Received February 15, 2006”– (1) sheet; and *on further condition*:

THAT the term of this grant shall expire April 4, 2015;

THAT there shall be a maximum of 29 parking spaces;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Negative:.....0

THE RESOLUTION–

WHEREAS, this application is a request for a re-opening and an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on February 7, 2006, after due notice by publication in *The City Record*, and then to decision on February 28, 2006; and

WHEREAS, the subject 5,954 sq. ft. site is located on the south side of East 124th Street between Second and Third Avenues, and is within an R7-2 zoning district; and

WHEREAS, on September 12, 2000, the Board granted an application under the subject calendar number pursuant to ZR § 72-21, to permit the proposed legalization and enlargement of a contractor’s establishment and factory located within a three-story building at the site; and

WHEREAS, on May 14, 2002, the Board granted an amendment to the variance, to allow full lot coverage on a portion of the lot for use as an accessory parking lot, as well as an increase in the height of the building; and

WHEREAS, the applicant represents that no construction was commenced after the 2000 grant due to delays related to an inability to find an anchor tenant for a portion of the building; and

WHEREAS, the applicant states that negotiations related to the proposed construction of the Second Avenue subway caused some of the delay, but that the owner now has the means to begin construction; and

WHEREAS, based upon the above, the Board finds it appropriate to grant the requested extension of time.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on February 8, 2000, so that as amended this portion of the resolution shall read: “to permit an extension of time to obtain a certificate of occupancy, for an additional period of two years from the date of this resolution, to expire on February 28, 2008; on condition:

THAT a new certificate of occupancy shall be obtained within two years from the date of this grant;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the

Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Negative:.....0

THE RESOLUTION –

WHEREAS, this application is a request for a re-opening and an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on February 7, 2006, after due notice by publication in *The City Record*, and then to decision on February 28, 2006; and

WHEREAS, the subject 5,000 sq. ft. site is located between Bedford Avenue and East 26th Street, and is within an R2 zoning district; and

WHEREAS, on January 8, 2002, the Board granted an application under the subject calendar number pursuant to ZR § 73-622, to permit the proposed enlargement of a single-family home located at the site; and

WHEREAS, the applicant represents that due to the owner’s financial difficulties, construction did not commence after the grant was made; and

WHEREAS, the applicant represents that the owner now has the means to commence construction; and

WHEREAS, based upon the above, the Board finds it appropriate to grant the requested extension of time.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on January 8, 2000, so that as amended this portion of the resolution shall read: “to permit an extension of time to obtain a certificate of occupancy, for an additional period of three years from the date of this resolution, to expire on

MINUTES

February 28, 2009; *on condition*:

THE RESOLUTION -

WHEREAS, the decision of the Staten Island Borough Commissioner dated January 22 2004 and updated on January 27, 2006, acting on Department of Buildings Application Nos. 500818993 and 500819000, reads:

“No permit shall be issued for any buildings or portion of a building in the bed of a any street without a variance from the BSA’, and

WHEREAS, a public hearing was held on this application on September 21, 2004 after due notice by publication in the *City Record*, with continued hearings on December 7, 2004, March 1, 2005, June 14, 2005, September 27, 2005, December 6, 2005, and February 14, 2006, and then to decision on February 28, 2006; and

WHEREAS, by letter dated June 30, 2004, the Department of Transportation states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated August 15, 2005, the Department of Environmental Protection states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated August 31, 2004, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, the two homes that are the subject of this resolution are part of a larger development that is subject to City Planning Certification for compliance with the Lower Density Growth Management Text Amendment, and

WHEREAS, the Board notes that its grant herein only pertains to the ability to build within the bed of a mapped street, and that all construction must conform and comply with applicable zoning regulations; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Staten Island Borough Commissioner, dated January 22, 2004 and updated on January 27, 2006, acting on Department of Buildings Application No. 500818993 & 500819000, are s modified under the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially

conform to the drawing filed with the application marked “Received January 31, 2006”– (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT no permit shall be issued until the all appropriate certifications are issued by the City Planning Commission;

THAT any further revision to the BSA approved site plan must be submitted to the Board for its approval;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2006.

200-05-A and 201-05-A

APPLICANT – Joseph P. Morsellino, for Randolph Mastronardi, et. al., owners.

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated July 25, 2005 acting on Department of Buildings Application Nos. 402119097 & 402181134, reads:

“Buildings in the bed of a mapped street are referred to the Board of Standards and Appeals as per Section 35 of the General City Law ”; and

WHEREAS, a public hearing was held on this application on December 6, 2005 after due notice by publication in the *City Record*, with a continued hearing on January 24, 2006, and then to closure and decision on February 28, 2006; and

MINUTES

WHEREAS, by letter dated January 12, 2006, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated January 20, 2006, the Department of Transportation has reviewed the project and has recommended that the applicant setback the proposed buildings (including the proposed steps) to allow for future street intersection improvements; and

WHEREAS, by letter dated February 14, 2006, in response to the DOT recommendations, the applicant states that it has set the buildings back 15 ft. to 19 ft. at the front; and

WHEREAS, by letter dated October 3, 2005, the Department of Environmental Protection states that it has reviewed the project and has no objections; and

WHEREAS, the Board notes that its grant herein only pertains to the ability to build in the bed of the mapped street and that all construction must conform and comply with applicable zoning regulations; and

WHEREAS, subdivision of the lots is subject to Department of Buildings approval; no Board approval of any subdivision is granted herein; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decisions of the Queens Borough Commissioner, dated July 25, 2005, acting on Department of Buildings Application Nos. 402119097 & 402181134, are modified under the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received February 22, 2006"-(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT any subdivision shall be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated June 28, 2005, acting on Department of Buildings Application No. 301973559, reads, in pertinent part:

“Proposed Floor Area is contrary to ZR: 23-141
Proposed Open Space Ratio is contrary to ZR: 23-141

Proposed side yard is contrary to ZR: 23-461(a)

Proposed rear yard is contrary to ZR: 23-47”; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R3-2 zoning district, the proposed enlargement of an existing single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio (FAR), Open Space Ratio (OSR), and side and rear yards, contrary to ZR §§ 23-141(a), 23-461(a) and 23-47; and

WHEREAS, a public hearing was held on this application on January 24, 2006, after due notice by publication in *The City Record*, and then to decision on February 28, 2006; and

MINUTES

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject lot is located on East 21st Street, between Avenues R and S; and

WHEREAS, the subject lot has a total lot area of 3,000 sq. ft.; and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,382 sq. ft. (0.67 FAR) to 2,979 sq. ft. (0.99 FAR); the maximum floor area permitted is 1,500 sq. ft. (0.50 FAR); and

WHEREAS, the proposed enlargement will decrease the OSR from 66% to 56%; the minimum required OSR is 65%; and

WHEREAS, the proposed enlargement of the existing building will increase the width of one the non-complying side yards from 3'-9" to 4'-2 1/2"; this width is still non-complying; and

WHEREAS, the proposed enlargement building will extend the other 5'-0" non-complying side yard; however, the width of the side yard will be maintained; and

WHEREAS, the enlargement into the side yard does not result in a decrease in the existing minimum width of open area between the building and the side lot line; and

WHEREAS, the proposed enlargement will reduce the rear yard from 39'-0" to 20'-0"; the minimum rear yard required is 30'-0"; and

WHEREAS, the enlargement of the building into the rear yard is not located within 20'-0" of the rear lot line; and

WHEREAS, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R3-2 zoning district, the proposed enlargement of an existing single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio, Open Space Ratio, and side and rear yards, contrary to ZR §§ 23-141(a), 23-461(a) and 23-47; *on*

condition that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received November 23, 2005"-(8) sheets; and "February 27, 2006"-(3) sheets, and *on further condition*:

THAT there shall be no habitable room in the cellar;

THAT the above condition shall be set forth in the certificate of occupancy;

THAT the total FAR on the premises, including the attic, shall not exceed 0.99;

THAT the total attic floor area shall not exceed 884 sq. ft., as confirmed by the Department of Buildings;

THAT DOB shall review and approve the location of any garage;

THAT the use and layout of the cellar shall be as approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated July 1, 2004, acting on Department of Buildings Application No. 301783176, reads:

“The proposed residential dwellings in [an] M1-2 and M3-1 district are contrary to Section 42-00 of the Zoning Resolution and require a variance from the Board of Standards and Appeals”; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a lot partially within an M1-2 zoning district and partially within an M1-3 zoning district, the proposed conversion of a three and seven-story manufacturing building to residential use, contrary to Z.R. § 42-00; and

WHEREAS, a public hearing was held on this application on August 9, 2005, after due notice by publication in the *City Record*, with continued hearings on October 18, 2005, November 29, 2005, January 10, 2006, and February 14, 2006, and then to decision on February 28, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar and Commissioner Chin; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, the subject premises is a 12,500 sq. ft. lot located on Bridge Street between Water and Plymouth Streets in the Vinegar Hill neighborhood of Brooklyn; and

WHEREAS, the subject premises is a contributing resource to the DUMBO National Register Historic District and is therefore a Type I action for purposes of the City Environmental Quality Review; and

WHEREAS, the property is currently improved upon with a three- and seven-story building, with a total existing floor area of approximately 67,500 sq. ft. for a Floor Area Ratio (“FAR”) of 5.4; the seven-story portion rises to a height of 79’-11”, and the three-story portion rises to a height of 46’-7”; and

WHEREAS, the building was formerly occupied by a soap manufacturer, and there are eight existing metal silos that extend five stories in height from the cellar of the seven-story portion; the silos do not have any floors; and

WHEREAS, as originally filed, the applicant proposed the conversion of the two building sections to 53 residential units, with the modification of the rear of the building to create a 1,200 sq. ft. courtyard, which would provide legal light and air to the newly created units; and

WHEREAS, the applicant initially proposed the relocation of the square footage removed for the courtyard to the top of the three-story portion, which would result in two new stories; the converted building as originally proposed has an FAR of 5.4 with 60 total units; and

WHEREAS, as discussed in further detail below, the Board required the applicant to modify the proposal, so that no carved-out floor area was relocated to the top of the three-story portion; the proposal went through various iterations until the

applicant agreed to the current version, including a version with a total FAR of 5.09 and 53 total units; and

WHEREAS, the building as currently proposed has the following parameters: a total FAR of 5.07; floor area of 63,394 sq. ft.; 52 units; and no on-site accessory parking spaces; the existing heights of the two building sections would not change; and

WHEREAS, as discussed below, the applicant will lease and/or obtain 26 parking spaces in parking facilities (garage or lot) or private buildings within a one half mile radius of the site prior to obtaining a temporary or permanent certificate of occupancy; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site with a conforming building: (1) the seven-story portion of the building was formerly used by a soap manufacturer, and contains eight metal silos which encumber the floor plates of all but the top two floors; (2) the building possesses only non-conforming loading docks, only one of which is at grade; (3) the building is divided into two sections, and as a result has disconnected floor plates that are not aligned, which hinders the movement of bulk goods between floors; and (4) the ceilings are 11 ft. high, which is obsolete by modern manufacturing standards; and

WHEREAS, as to the first basis of uniqueness, the applicant contends that the existence of the silos renders the building unmarketable to a typical modern conforming user (either manufacturing or office), which would not have any use for five-story silos in the middle of the floor plates on five of the seven floors; and

WHEREAS, in response to a request of the Board, the applicant submitted photos of the silos, which confirm their existence and their location within the floor plates of the seven-story portion; and

WHEREAS, as to the second basis of uniqueness, the applicant states that the building would require three conforming off-street loading docks, each measuring 12 ft. in width, 14 ft. in height, and 50 ft. in depth; and

WHEREAS, the applicant states the building only has one street level dock, which measures 10 ft. in height and has limited bay capacity; and

WHEREAS, at the request of the Board, the applicant submitted photos of the existing docks, which confirm the above representations; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the current applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study which analyzed the following scenarios: (1) a rehabilitation of the building for manufacturing purposes; (2) a rehabilitation of the building for commercial office purposes; and (3) the initially proposed residential conversion; and

WHEREAS, the study concluded that the two rehabilitation options did not provide a reasonable return, due to

MINUTES

the aforementioned site conditions and the expenditures that would be incurred to remedy them; and

WHEREAS, at hearing, the Board requested further analyses from the applicant; specifically, the Board asked for an analysis of a conforming use project with the tanks in place, and for an analysis with the tanks removed and the volume rebuilt as useable floor area; and

WHEREAS, the applicant conducted the requested studies, and concluded that neither alternative was financially viable; specifically, the applicant explained that the costs associated with the removal of the tanks would not be offset by market rate revenues that could be realized through a conforming use; and

WHEREAS, the Board also asked the applicant to provide documentation of marketing efforts in 2005; and

WHEREAS, the applicant responded by submitting a letter from a managing agent and sample advertisements from local newspapers; and

WHEREAS, the applicant stated that none of the advertisements generated a request for a showing, or a lease offer, for any portion of the site; and

WHEREAS, the Board also questioned the applicant about the three-story building section, which is not encumbered by silos and which was recently occupied; the Board suggested that this section could be used by a conforming user in a mixed-use scenario; and

WHEREAS, the applicant stated that the last tenant of the three-story section moved its operations, and that marketing attempts as to this section had also failed; and

WHEREAS, finally, the Board asked the applicant to address the site valuation; specifically, the Board suggested that the site valuation should reflect a reduction based upon the fact that the silos did not contain usable floor space; and

WHEREAS, the applicant responded by submitting a revised feasibility study reflecting a discount for the lack of useable floor area within the silos; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with zoning will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that its submitted land use map shows that the subject neighborhood has a mix of uses, including residential uses along Bridge Street, a proposed residential building one block away at 192 Water Street, a residential building at 223 Water Street, and a rezoned site at 87 Jay Street, proposed to be developed residentially; and

WHEREAS, the applicant states that the introduction of 52 dwelling units within this mixed-use context will not affect the character of the neighborhood, nor impact conforming uses; the applicant states that the nearest significant industrial use is a

Con Ed plant located on the waterfront to the north of the subject site; and

WHEREAS, the Board agrees that the proposed use will not change the essential character of the neighborhood; and

WHEREAS, however, the Board expressed significant concerns about the lack of accessory parking in the proposed building, and asked the applicant to explain why a parking garage could not be provided on-site; and

WHEREAS, the applicant responded by providing a study which showed that creation of a parking facility within the building would be difficult and therefore cost-prohibitive to construct, and also would not provide sufficient space to accommodate the 26 spaces that would be required for new ground up residential development; and

WHEREAS, the applicant also states that the garage would be an inefficient use of available floor space; specifically, as shown in a schematic and as discussed in a memo from the project architect, the maximum number of spaces that could be constructed is five; and

WHEREAS, the applicant stated that the costs of constructing a garage with an appropriate ramp system would be significant and impact the return since the number of spaces that could be created is minimal, and insufficient to overcome the added construction costs; and

WHEREAS, the applicant also stated that construction of a garage would result in the elimination of a proposed unit, further diminishing the return of the proposal; and

WHEREAS, in support of the contention that on-site parking was not an absolute necessity, the applicant submitted a parking/mass transit survey, which indicated that there would be a sufficient supply of off-street parking in the immediate area to accommodate the parking demands generated by the proposed conversion; and

WHEREAS, specifically, the study showed that within a one quarter mile radius of the site, there were 46 available parking spaces during the weekday early morning hours, which would be sufficient to address the generated parking demand; and

WHEREAS, the study also cited to two off-street parking facilities in the study area that provide a total of 300 off-street parking spaces; the facilities were found to have low utilization rates; and

WHEREAS, finally, the study cited to two nearby subway stations, and four bus routes, that service the neighborhood; and

WHEREAS, the Board has reviewed the submitted studies and agrees that provision of an on-site parking facility might be infeasible and that the area has some available parking and is served by mass transit; and

WHEREAS, nevertheless, the Board observes that the neighborhood is changing rapidly and that more residential development is planned; consequently, the need for off-street parking for new residential development is an important consideration; and

WHEREAS, accordingly, the Board, through conditions in this resolution, is requiring that prior to the issuance of a certificate of occupancy, the applicant obtain leases with nearby

MINUTES

parking garages or obtain spaces within private buildings, providing at least 26 spaces for the use of the future occupants of the converted building; and

WHEREAS, the applicant has agreed to such conditions, and has provided the Board with the location of nearby garages and proposed residential buildings, including three that the affiliates of the site's owner have control over; and

WHEREAS, in addition, at hearing, the Board expressed concern about an external stairwell located on the roof of the three-story portion, which was visually obtrusive; and

WHEREAS, at the request of the Board, this stairwell was relocated into the envelope of the building, such that the proposal no longer includes any rooftop improvements; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, as noted above, the proposed conversion went through earlier versions prior to the final version approved herein; and

WHEREAS, specifically, the applicant initially proposed a two-story addition to the three-story section of the building; and

WHEREAS, after the Board requested the elimination of this enlargement, the applicant submitted a scenario that retained an 800 sq. ft. apartment on top of the three-story portion; and

WHEREAS, the Board suggested to the applicant that this scenario did not represent the minimum variance; and

WHEREAS, at the request of the Board, the applicant reduced the proposal to the current version; and

WHEREAS, therefore, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA021K dated March 17, 2005; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the Office of Environmental Planning and Assessment of the New York City Department of

Environmental Protection (DEP) has reviewed the following submissions from the applicant: (1) an Environmental Assessment Statement Form, dated March 17, 2005; (2) a Phase I Environmental Site Assessment Report, dated October 18, 2004; (3) Noise and Air Quality documents, dated May 2005; and (4) a Sampling Protocol and Health and Safety Plan, dated March 2005; and

WHEREAS, these submissions specifically examined the proposed action for potential hazardous materials, air quality and noise impacts; and

WHEREAS, a Restrictive Declaration was executed and submitted for proof of recording on September 28, 2005, which requires that hazardous materials concerns be addressed; and

WHEREAS, DEP has determined that there would not be any impacts from the subject proposal, based on the implementation of the measures cited in the Restrictive Declaration and the Applicant's agreement to the conditions noted below; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type I Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a lot partially within an M1-2 zoning district and partially within an M1-3 zoning district, the proposed conversion of a three- and seven-story manufacturing building to residential use, contrary to ZR § 42-00; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 31, 2006" - (12) sheets and "Received February 27, 2006" - (1) sheet; and *on further condition*:

THAT the following are the bulk parameters of the proposed building: 52 total dwelling units; a total floor area of 63,394 sq. ft.; a total FAR of 5.07; and a courtyard as reflected on the BSA-approved plans;

THAT prior to the issuance of any temporary or permanent certificate of occupancy, the applicant shall submit to the Department of Buildings (with a copy to the Board) a copy of one or more binding agreements between the applicant or any successor and one or more buildings, lots, or garages located within a one half mile radius of the subject site, indicating that a total of 26 parking spaces are available for the exclusive use by the occupants of the subject premises within such buildings;

THAT this requirement shall be listed as an objection on any DOB-issued objections list for the DOB application number referenced herein (or any successor DOB objection application number), for the proposed conversion approved herein, in order to obtain an initial TCO;

MINUTES

THAT each temporary or permanent certificate of occupancy for the subject premises shall list the location and number of available parking spaces;

THAT the availability of parking spaces in accordance with this Resolution shall be included in any offering plan for the subject site or as a condition of any lease by the occupants of the subject site;

THAT such binding agreement(s), if termed, must be renewed upon expiration;

THAT a copy of any renewal of an existing agreement or of a substituted new agreement with a different building, lot, or garage shall be forward to both DOB and the Board, and that the certificate of occupancy shall be modified to reflect the new information;

THAT these parking space requirements may not be modified, except with the prior approval of the Board;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated March 21, 2005, acting on Department of Buildings Application No. 104039728, reads, in pertinent part:

“Proposed residential use (Use Group 2) is not permitted in M1-6 zoning district”; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an M1-6 zoning district, the proposed construction of a twelve-story mixed-use residential/retail building, contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on August 23, 2005 after due notice by publication in the *City Record*, with continued hearings on October 25, 2005, November 29, 2005 and January 24, 2006, and then to decision on February 28, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioner Chin; and

WHEREAS, Community Board 4, Manhattan, states that it has no objection to this application; and

WHEREAS, this application was opposed by certain neighbors of the site (hereinafter, the “opposition”); the basis of the opposition was whether the proposal represents the minimum variance in terms of the amount of floor area; and

WHEREAS, the subject premises is located on the south side of West 26th Street (a narrow street), approximately 364 ft. west of the intersection of Sixth Avenue and West 26th Street; and

WHEREAS, the site is narrow, with a width of 18’9”, and a total lot area of 1,851.5 sq. ft.; and

WHEREAS, the site is currently improved upon with a four-story building with a total floor area of 3,375 sq. ft., for a total Floor Area Ratio (“FAR”) of 1.82 (a FAR of 10.0 is permitted in the subject zoning district); and

WHEREAS, the first floor is currently occupied by a temporary retail use; the second floor is vacant, and the second and third floors are occupied by lawful non-conforming residential apartments; and

WHEREAS, the applicant claims that the first floor tenancy is a stop-gap measure and the occupant was allowed to lease the space so that money could be generated to pay real estate taxes during the pendency of this proceeding; and

WHEREAS, the proposal is a 135 ft. high twelve-story building, with a total floor area of 16,218.5 sq. ft., and a FAR of 8.76; and

WHEREAS, the proposed building will contain ten dwelling units on the third through twelfth floors, with retail use on the ground and second floors; no parking will be provided; and

WHEREAS, the ground floor will be fully built out; the second floor will be set back 20 ft. in the rear, and the third through twelfth floors will be set back 30 ft. in the rear; no front setback will be provided; and

MINUTES

WHEREAS, the applicant states that the envelope of the proposed building is consistent with the underlying M1-6 bulk regulations except for the front setback, in that a 20 ft. setback would ordinarily be required at a height of 85 ft. on a narrow street such as West 26th Street; and

WHEREAS, the applicant states that the following is a unique physical condition which creates unnecessary hardship and practical difficulties in developing the site with a conforming use: the lot is very narrow, having a width of only 18'9", which is unusual in the subject zoning district; and

WHEREAS, the applicant states that in an eight-block radius of the site, there are only six lots that are 20 ft. or less in width; the applicant notes that unlike the subject lot, these lots are grouped together with lots of similar size, such that the lots could be merged and a developable site created; and

WHEREAS, at the request of the Board, the applicant submitted a map showing these other lots; and

WHEREAS, the applicant states that the narrowness of the lot does not allow for development of a building with floor plates that could sustain a viable commercial or manufacturing use, while still providing the two required means of egress; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical condition creates unnecessary hardship and practical difficulty in developing the site in conformance with the current applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study which analyzed the following scenarios: (1) a conforming commercial office development, with 18,330 sq. ft. of floor area; (2) the proposed residential/retail development; and (3) an eleven-story mixed-use residential/retail development alternative which would comply with the bulk parameters of an R9A zoning district, with a total FAR of 7.52 (discussed below); and

WHEREAS, the study concluded that the conforming commercial scenario would not realize a reasonable return; and

WHEREAS, the opposition made numerous contentions as to whether the existing four-story building could be retrofitted to accommodate a viable conforming use; and

WHEREAS, however, the Board notes that the existing building is not being credited as part of the uniqueness; thus the Board finds it unnecessary to address these contentions; and

WHEREAS, further, as noted by the applicant, requiring the owner of the site to be limited to the under-built envelope of the existing building would require a significant sacrifice of available development rights such that a reasonable return from the site is impossible; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with zoning will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that within a 400 ft. radius of the site, 40 percent of the sites are occupied by residential uses; and

WHEREAS, the applicant notes that large portions of the blocks between Sixth and Seventh Avenues and West 24th and 28th Streets were subject to text amendments in the 1980s to allow existing residential units to be legalized; and

WHEREAS, the applicant states that the building to the east of the site has been converted to residential use, and that two other buildings to the west of the site on the south side of West 26th Street have been converted to residential use; and

WHEREAS, the applicant also states that the height and setback configuration of the building is consistent with the existing buildings on the subject block; and

WHEREAS, the applicant notes that all of the buildings along the south side of West 26th Street rise without setback to their full heights, and that many of the buildings exceed the height of the proposed building by 15 ft.; and

WHEREAS, the Board agrees that the introduction of ten residential units will not affect the character of the community, ~~and the opposition does not~~ contest that the subject lot is unique and present

WHEREAS, additionally, the Board observes that the envelope of the proposed building is comparable to other buildings on the subject block; and

WHEREAS, the opposition does not dispute that the proposed residential use and the proposed height of the building are consonant with the character of the community; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, as noted above, the applicant analyzed a lesser variance mixed-use residential/retail scenario, with a lesser FAR, and determined that it would not realize a reasonable return; and

WHEREAS, at hearing, the Board suggested that a higher return from this scenario might be realized if the street wall and rear wall parameters of the proposal were maintained, and the second floor was designated residential instead of retail; and

WHEREAS, the applicant conducted a study of this scenario; and

WHEREAS, the applicant concluded that such a scenario would not realize a reasonable return; specifically, the applicant claims that the ground floor retail use will not have any street presence because of the narrowness of the site and the entrance requirements, thus necessitating second floor retail space to compensate for this disadvantage; and

WHEREAS, the applicant also states that having a residential unit on the second floor reduces available floor area that could be used on higher, more valuable floors, which further diminishes revenue; and

WHEREAS, the Board also notes that the presence of buildings adjacent to the building's lot lines on three sides

MINUTES

creates a dark rear yard, which further contributes to problems in using the second floor for residential; and

WHEREAS, the opposition made the following contentions regarding the feasibility study submitted by the applicant, as they relate to the applicant's contention that the proposal reflected the minimum variance: (1) the comparables used to establish sell-out value are low; and (2) certain construction cost elements appear to be inflated; and

WHEREAS, the applicant responded by noting that no financial evidence or documentation was provided by the opposition as to either of the contentions; and

WHEREAS, nonetheless, the applicant submitted a statement from its feasibility expert that provides supporting information for the comparables that were used to establish sell-out value; and

WHEREAS, the statement also addresses the construction costs issue; specifically, the statement concludes that the costs of the inspections, borings and surveys are appropriate in light of the small size of the site, and that the legal fees are in alignment with costs for similar projects; and

WHEREAS, a further submission from the applicant, dated December 13, 2005, provides: (1) additional information about the costs challenged by the opposition; and (2) additional information in support of the sell-out values; and

WHEREAS, the Board has reviewed the applicant's response and finds it to be a sufficient rebuttal to the claims of the opposition made up to that point in the hearing process; and

WHEREAS, however, the opposition made a submission dated January 3, 2006, which essentially restated many of the above-mentioned claims; and

WHEREAS, specifically, the opposition claimed that the comparables used by the applicant to establish sell-out value were old and should be updated; and

WHEREAS, the opposition also suggested that marketing evidence should be required by the Board; and

WHEREAS, the applicant submitted a response on January 17, 2006, stating that since the construction cost analysis also reflects the time period when the comparables were obtained, it makes no sense to adjust the comparables and not the construction costs as well; the applicant states that it is irrational to require constant updating to financial data, when the result would be that any change to one of the variables would be addressed by a change in another, such that there would not be any impact on the viability of a scenario; and

WHEREAS, additionally, the applicant provided an explanation as to why the feasibility study was the appropriate method for establishing hardship on the site, as opposed to marketing evidence; and

WHEREAS, the Board has reviewed this response and again finds it sufficient; the Board also notes that when it does require financial data to be updated, the applicant is allowed to update all relevant financial information; and

WHEREAS, as to marketing evidence, the Board agrees with the applicant that it is optional supplemental information and not always necessary in the case where hardship is established by the feasibility study; and

WHEREAS, the opposition made a final submission, dated February 6, 2006, alleging that: (1) the comparables used by the applicant were false, in that they did not compare to the new structure in terms of date of construction; (2) \$100,000 was missing from income calculations in the most recent feasibility studies; and (3) the comparables used for the site valuation were overvalued; and

WHEREAS, the applicant responded on February 14, 2006, explaining that the comparables used for sell-out value were appropriate, and that the method of valuing each apartment separately provides the most accurate sell-out value; and

WHEREAS, the Board also finds that the site valuation comparables used by the applicant are appropriate, and notes that the opposition provided no substantive reasons or proof as to why the comparables were in any way invalid; and

WHEREAS, specifically, the Board observes that the subject location is poor compared to some of the comps used, the site is particularly narrow, and that this narrowness and small size only allows for residential floor plates that are compromised in terms of efficiency, resulting in a lower sell-out value; and

WHEREAS, the Board also notes that the applicant appropriately priced the higher floor units at well over \$1,000 per sq. ft.; and

WHEREAS, finally, the Board notes that the deduction of \$100,000 from income calculations would not have a significant effect on the rate of return for the lesser FAR scenario; and

WHEREAS, in sum, the Board has reviewed all of the opposition's arguments as made in submissions and at hearing, and finds that either the applicant has sufficiently responded to all of them, or that they are without merit or impact on the outcome; and

WHEREAS, therefore, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA113M dated March 29, 2005; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact

MINUTES

Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site within an M1-6 zoning district, the proposed construction of a twelve-story mixed-use residential/retail building, contrary to ZR § 42-00; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received November 23, 2005"- two (2) sheets and marked "Received February 28, 2006"- four (4) sheets; and *on further condition*:

THAT the following are the bulk parameters of the proposed building: 10 total dwelling units; a total FAR of 8.76; a residential FAR of 6.96, a commercial FAR of 1.80, a total height of 135'-2", a 30 ft. rear yard at floors three through 12; and a 20 ft. rear yard at the second floor;

THAT all balconies at the rear of the property shall be as reviewed and approved by DOB for compliance with applicable permitted obstructions provisions;

THAT the shared stairs and egress, as shown on the plans, for the proposed commercial and residential uses in the building are not part of this approval and shall be as reviewed and approved by DOB to ensure compliance with all applicable laws;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2006.

137-05-BZ

APPLICANT – Gerard J. Caliendo, R.A., AIA, for Danny Dalal, owner.

SUBJECT – Application June 3, 2005 – Under Z.R. §72-21 to construct a one family, two story and attic dwelling which does not comply with the minimum required lot width of 60'-0" as per ZR 23-32. The premise is located in an R1-2 zoning district.

PREMISES AFFECTED – 198-61 Foothill Avenue, north side of Foothill Avenue 230.47' from the corner of Foothill Avenue and Hillside Avenue, Block 10532, Lot 139, Borough of Queens.

COMMUNITY BOARD #8Q

APPEARANCES –

For Applicant: Sandy Anagnostov.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated May 12, 2005, acting on Department of Buildings Application No. 401721277, reads, in pertinent part:

"Lot width does not comply with the minimum required lot width of 60'-0" as per Section 23-32 ZR"; and

WHEREAS, this is an application under ZR § 72-21, to permit the proposed construction of a two-story, single-family residence, located in an R1-2 zoning district, which does not comply with the zoning requirements for minimum lot width, contrary to ZR § 23-32; and

WHEREAS, a public hearing was held on this application on February 7, 2006, after due notice by publication in *The City Record*, and then to decision on February 28, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioner Chin; and

WHEREAS, Community Board 8, Queens, recommends disapproval of this application; and

WHEREAS, the Holliswood Civic Association also recommends disapproval of this application; and

WHEREAS, the record indicates that the subject premises is located on the north side of Foothill Avenue, 230.47 ft. from the corner of Foothill Avenue and Hillside Avenue, and is currently vacant; and

WHEREAS, the subject lot is a trapezoidal-shaped lot, with a non-complying lot width of 25'-0" along the front lot line, expanding to 60'-0" at the rear lot line; and

WHEREAS, while the rear lot line width is 60'-0", the minimum required lot width is 60'-0" based upon the mean horizontal distance between the side lot lines; because of the lot's trapezoidal shape, the mean distance requirement is not met; and

WHEREAS, the applicant represents that the subject lot was created in 1980 as a result of a sub-division; and

WHEREAS, the applicant represents that the subject lot was purchased by the applicant on September 28, 2001; a recorded indenture was submitted to the Board evidencing such purchase; and

WHEREAS, at the time the applicant purchased the lot, it was within an R2 zoning district; under R2 zoning, the lot had a complying lot width as the required minimum lot width was 40'-0"; and

WHEREAS, the applicant represents that the mean horizontal distance between the side lot lines complied with

MINUTES

the R2 zoning district minimum lot width requirement; and
WHEREAS, on June 17, 2003, the lot was rezoned to R1-2, which requires a lot width of 60'-0"; and

WHEREAS, the applicant states that the following are unique physical conditions, which create practical difficulties in developing the subject lot in compliance with underlying district regulations: the site is a narrow, irregularly-shaped and vacant lot; and

WHEREAS, the applicant has submitted a 400'-0" radius diagram that indicates that the subject lot is one of the only vacant lots with a non-complying lot width in the subject zoning district; and

WHEREAS, the Board finds that the aforementioned unique conditions create practical difficulty in developing the site in compliance with the applicable zoning provision; and

WHEREAS, the applicant states that without the requested waiver, no residence could be constructed on the property; and

WHEREAS, the Board has determined that because of the subject lot's unique physical condition, there is no reasonable possibility that development in strict compliance with the applicable zoning requirements will result in any development of the property; and

WHEREAS, the applicant states that the building will comply with all R1-2 zoning regulations in all other respects other than minimum lot width, including floor area ratio, side yards and height requirements; and

WHEREAS, the applicant has submitted photographs of other residences in the area, along with a 400'-0" radius map; such documentation reflects that the surrounding neighborhood is characterized by residences ranging from one to two and one-half stories; and

WHEREAS, further, the Board notes that the adjacent homes to the east of the site are built on 25'-0" wide lots, and other homes in the area are built on lots with frontages of 20'-0" or less; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board notes that the owner's predecessor in title created the subject lot prior to the rezoning in 2003, and at the time of such subdivision (1980), the lot complied with the lot width requirements; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, because the only requested waiver is for minimum lot width, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR §72-21.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.13 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the

Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 72-21, to permit the proposed construction of a two-story, single-family residence, located in an R1-2 zoning district, which does not comply with the zoning requirements for minimum lot width, contrary to ZR § 23-32; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received November 29, 2005"-(7) sheets; and *on further condition*;

THAT there shall be a maximum F.A.R. of 0.5;

THAT the above-stated condition shall appear on the Certificate of Occupancy;

THAT except for minimum lot width, the subject lot shall comply with all R1-2 zoning district requirements, as reviewed and approved by DOB;

THAT the internal floor layouts on each floor of the proposed building shall be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2005.

COMMUNITY BOARD #8M

APPEARANCES –

For Applicant: Ellen Hay.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated August 1, 2005, acting on Department of Buildings Application No. 103869182, reads, in pertinent part:

“Proposed Physical Culture Establishment is not permitted as of right in C2-8A zoning district. This is contrary to section 32-10 ZR”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit on a site partially within a C2-8A zoning district and partially within an R8B zoning district, the legalization of a physical culture establishment (“PCE”) located on all floors of a four-floor plus mezzanine and basement commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on February 7, 2006, after due notice by publication in *The City Record*, and then to decision on February 28, 2006; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the New York City Fire Department has indicated to the Board that it has no objection to this application; and

WHEREAS, the subject tax lot (lot 1) is a corner lot with approximately 77 feet, 6 inches of frontage on Third Avenue and 125 feet of frontage on East 85th Street, with approximately 100 feet of frontage within the C2-8A zoning district and the remainder within the R8B zoning district; and

WHEREAS, lot 1 is part of a newly created larger zoning lot, consisting of lot 1 and the lots to the north of the site, designated lots 4, 48, 47, 46, 45, 43, and 6 (the “ZL”); and

WHEREAS, lot 1 is improved upon with a four-story plus mezzanine and basement commercial building; and

WHEREAS, this building is currently occupied by a retail

clothing store on the first floor and mezzanine, and by the subject PCE (an Equinox Gym), primarily on the second and parts of the third and fourth floors (the PCE entrance is on the first floor); and

WHEREAS, the site and the PCE have been the subject of six prior BSA actions; and

WHEREAS, under Calendar No. 34-96-BZ, an application for a special permit pursuant to ZR § 73-36 was made in order to legalize the subject PCE; this application was converted to a variance and subsequently denied; and

WHEREAS, under Calendar No. 119-99-A, an administrative appeal, the appellant (an adjacent property owner), sought a revocation of Department of Buildings (“DOB”) permit that legalized the construction of a rear yard encroachment on the second, third, and fourth floors of the subject building; this appeal was granted, with the Board finding that the rear yard encroachment could not be considered a permitted rear yard obstruction as defined in ZR § 33-23(b); and

WHEREAS, under Calendar No. 332-01-BZ, which was an second application for a special permit under ZR § 73-36, the applicant proposed to rectify the unlawful enlargement of the PCE on the third and fourth floors through an arrangement that purported to provide separation between a proposed community facility tenant (the “CF”) and the subject PCE; this application was denied by the Board; and

WHEREAS, while the public hearing process of Calendar No. 332-01-BZ was proceeding, the Board also heard an application made under Calendar No. 139-02-A, an administrative appeal of an April 17, 2002 DOB determination declining to seek a revocation or modification of Certificate of Occupancy Number 107549, issued on July 7, 1995 to the subject building; and

WHEREAS, the appellant (again the neighbor) in 139-02-A contended that the presence of the PCE in the subject building constituted a non-conforming use subject to the lapse provisions of ZR § 52-60 et. seq.; and

WHEREAS, upon a review of the record and of the definition of non-conforming use as set forth at ZR § 12-10, the Board found that, with the exception of the 4,400 square feet addition constructed after the 1995 Certificate of Occupancy was issued, the subject building’s excess commercial floor area did not constitute a non-conforming use, but was rather a lawful non-complying condition with regard to the commercial floor area as per ZR § 33-12; and

WHEREAS, after dispensing with the substance of the appeal, the Board also concluded that the Certificate of Occupancy for the building needed modification to provide an adequate representation of permitted uses; and

WHEREAS, in its resolution issued under Calendar No. 139-02-A on December 10, 2002, the Board set forth such a modification; and

WHEREAS, certain conditions in this resolution read as follows: “That commercial usage in the subject building shall be limited to the pre-existing, legally non-complying 30,340 square feet of area; That any additional floor area other than aforementioned 30,340 square feet and in particular, the 4,400

MINUTES

square foot infill addition, shall be built and used in compliance and conformance with all underlying zoning regulations.”; and

WHEREAS, in 2003, an application was made under the subject calendar number for a special permit pursuant to ZR § 73-36; the application again sought approval to legalize the existing PCE; and

WHEREAS, on December 9, 2004, the Board denied the special permit application; and

WHEREAS, in denying the application, the Board found that the proposed egress path for the occupants of the CF was not compliant with the Building Code; and

WHEREAS, because of this potentially dangerous egress path, the Board determined that the finding set forth at ZR § 73-36 (1) - specifically, that there would be no impairment on the use of an adjacent area due to the grant of the special permit - had not been met; and

WHEREAS, also because of this potentially dangerous egress path, the Board determined that one of the general findings applicable to all special permit applications, set forth at ZR § 73-03(a) – specifically, that the hazards or disadvantages of the proposed special permit use are outweighed by the advantages to be derived by the community by the grant of the special permit – had not been met; and

WHEREAS, additionally, the Board noted that the applicant appeared to have engaged in a pattern of misrepresentation in the subject application, insofar as it had: supplied the Board with contradictory information concerning the available legal commercial floor area, failed to remove a rear yard obstruction in its entirety as it promised and as it was ordered to do, and failed to adequately address the concerns of the Board as to the creation of a completely separate community facility space; and

WHEREAS, subsequently, in 2005, an application was made under the subject calendar number pursuant to Section 1-10(e) of the Board’s Rules of Practice and Procedure for a re-hearing of the special permit application previously denied by the Board in 2003, as well as an application for a potential technical amendment to the condition as to maximum commercial floor area imposed by the Board in the previously decided appeals case; and

WHEREAS, a new applicant, unrelated to the applicant in the past cases, contended that the changes to the third and fourth floor plan and the egress path, as well as the discovery of new plans from 1930 showing that the second floor was not a full floor as previously thought, constituted substantial new evidence sufficient to allow the matter to be re-opened; and

WHEREAS, the Board agreed, finding that the material changes to the plans and the new evidence, as noted above, were sufficient to warrant a re-opening of the special permit application for legalization of the subject PCE; and

WHEREAS, the applicant also asked for a re-opening of BSA Cal. No. 139-02-A, for the sole purpose of amending the condition language concerning the amount of available commercial floor area within the building, based upon a new evaluation of said floor area by a new architect; and

WHEREAS, the Board ultimately dismissed this

application as moot, since it was deemed premature; specifically, the Board stated that if the available commercial floor area is confirmed by the Board, then the floor area conditions set forth in the resolution for 139-02-A can be modified in the interest of good record keeping, on the Board’s own authority, at a later date; and

WHEREAS, in the instant case, the applicant maintains that the amount of lawful non-complying commercial floor area ascribed to the subject lot is 34,127 sq. ft., and has submitted revised floor area calculations based upon its new review of the building and the available plans; said calculations are undisputed; and

WHEREAS, additionally, the applicant has provided the Board with a DOB reconsideration that allows the transfer of additional lawful non-complying commercial floor area to the subject lot from lot 45 (which is part of the ZL), which increases the total commercial floor area of the building to 36,461 sq. ft.; and

WHEREAS, 26,666 sq. ft. of this commercial floor area will be occupied by the PCE: 569 sq. ft. on the first floor; 149 sq. ft. on the mezzanine; 9,393 sq. ft. on the second floor; 9,090 on the third floor; and 7,465 on the fourth floor; and

WHEREAS, the applicant states that the subject PCE shares some common areas with the CF (the CF will be located primarily on the fourth floor); the floor area of said common areas was divided between the PCE and the CF; and

WHEREAS, as to the unacceptable egress route for the CF identified in the prior case, the applicant has provided the Board with a sign-off from DOB indicating that the revised egress route now complies with the Building Code; and

WHEREAS, accordingly, for purposes of this application, the Board finds that the applicant has adequately addressed the floor area and egress issues, as well as the procedural history of the application; and

WHEREAS, at hearing, the Board asked the applicant to address the small rear yard extension located on the north side of the building, located partially within the R8B portion of the lot and constructed after 1974; and

WHEREAS, the applicant stated that the extension complied with applicable yard regulations, as it is a permitted obstruction; and

WHEREAS, however, the Board will defer the accuracy of this representation to DOB, through a condition, as set forth below, and should it be determined that it is not a permitted obstruction, it should be removed or modified so that it does comply with the permitted obstruction regulations; and

WHEREAS, having resolved these issues, the applicant asks the Board to legalize the PCE on the basis that the relevant findings set forth at ZR § 73-36 are met; and

WHEREAS, the applicant represents that the PCE will provide gym equipment, aerobics, other classes in physical improvement and massage services by licensed massage professionals; and

WHEREAS, the applicant states that an approved

MINUTES

interior fire alarm system will be installed in the entire PCE space, with the addition of smoke detectors, manual pull stations, local audible and visual alarms, and be connected to a FDNY-approved Central Station; and

WHEREAS, the PCE will have the following hours of operation: Monday through Thursday 5:30AM to 11PM, Friday 5:30AM to 10PM, and Saturday and Sunday 8AM to 9PM; and

WHEREAS, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement 06-BSA-008M, dated August 4, 2005; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and

73-03, to permit on a site partially within a C2-8A zoning district and partially within an R8B zoning district, the legalization of a physical culture establishment with a total floor area of 26,666 sq. ft., located on all floors of a four-floor plus mezzanine and basement commercial building, , contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received February 14, 2006"-(5) sheets; and *on further condition*:

THAT the term of this grant shall be for ten years, from February 28, 2006 to February 28, 2016;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday through Thursday 5:30AM to 11PM, Friday 5:30AM to 10PM, and Saturday and Sunday 8AM to 9PM;

THAT all massages shall be performed only by practitioners with valid and current NYS massage licenses;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a certificate of occupancy shall be obtained within one year from the date of this grant;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety measures, including a sprinkler system, shall be as installed and maintained on the Board-approved plans;

THAT an interior fire alarm system shall be provided as set forth on the BSA-approved plans and approved by DOB;

THAT DOB shall review the rear yard encroachment as shown on the BSA-approved plans and confirm that it is a permitted obstruction in the R8B district portion of the lot;

THAT the owner shall take appropriate remedial action, as directed by DOB, if DOB determines that the encroachment is unlawful;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2006.

APPEARANCES –

For Applicant: John Arthur.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner, dated February 13, 2006, acting on Department of Buildings Application No. 500786955, reads in pertinent part:

“Under ZR Section 73-30 proposed multiple carrier monopole [is] contrary to ZR Section 22-00 and therefore not allowable within an R3-2 district (Special Natural Area-NA1).”; and

WHEREAS, this is an application under ZR §§ 73-30 and 73-03, to permit the proposed construction of a non-accessory radio tower for public utility wireless communications, within an R3-2(NA1) zoning district, which is contrary to ZR §§ 22-00; and

WHEREAS a public hearing was held on this application on February 14, 2006 after due notice by publication in *The City Record*, and then to decision on February 28, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 2, Staten Island, states that it has no objections to the subject application; and

WHEREAS, an area resident appeared in opposition to this application; and

WHEREAS, the proposed monopole will be located on the grounds of the Sea View Hospital Center and Home (a New York City designated landmark), in a remote wooded area at the edge of the grounds; and

WHEREAS, the applicant states that the proposed telecommunications facility will consist of a 145-foot high monopole, which can accommodate up to six wireless service providers simultaneously; and

WHEREAS, the proposed monopole will be a stealth design, painted grey to blend in with the surrounding trees and sky; and

WHEREAS, the monopole was approved by the Landmarks Preservation Commission, through a Binding Report dated July 19, 2005; and

WHEREAS, additionally, the New York State Historic Preservation Office issued a determination of “No Adverse

Effect” as to the proposed monopole on July 11, 2005; and

WHEREAS, finally, the height of the pole and its location within a steep slope area will be approved through authorizations from the City Planning Commission; and

WHEREAS, pursuant to ZR § 73-30, the Board may grant a special permit for a non-accessory radio tower such as the cellular pole proposed, provided it finds “that the proposed location, design, and method of operation of such tower will not have a detrimental effect on the privacy, quiet, light and air of the neighborhood.”; and

WHEREAS, the applicant represents that the pole has been designed and sited to minimize adverse visual effects on the environment and adjacent residents; that the construction and operation of the pole will comply with all applicable laws, that no noise or smoke, odor or dust will be emitted; and that no adverse traffic impacts are anticipated; and

WHEREAS, specifically, the applicant states that the pole will not be visible from the Hospital campus; and

WHEREAS, the applicant also states that related equipment cabinets will be installed within a gated and locked fence enclosure, and notes further that the general public is not allowed on the Hospital grounds; and

WHEREAS, the applicant further represents that the height is the minimum necessary to provide the required wireless coverage, and that the pole will not interfere with radio, television, telephone or other uses; and

WHEREAS, based upon its review of evidence in the record, the Board finds that the proposed pole and related equipment will be located, designed, and operated so that there will be no detrimental effect on the privacy, quiet, light, and air of the neighborhood; and

WHEREAS, therefore, the Board finds that the subject application meets the findings set forth at ZR § 73-30; and

WHEREAS, the Board further finds that the subject use will not alter the essential character of the surrounding neighborhood nor will it impair the future use and development of the surrounding area; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board finds that the application meets the general findings required for special permits set forth at ZR § 73-03; and

WHEREAS, the project is classified as a Type I action pursuant to 6NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No.06-BSA-031R, dated November 14, 2005; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions;

MINUTES

Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

Therefore it is Resolved that the Board of Standards and Appeals issues a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes the required findings and *grants* a special permit under ZR §73-03 and §73-30, to permit the proposed construction of a non-accessory radio tower for public utility wireless communications, within an R3-2(NA1) zoning district, which is contrary to ZR §§ 22-00, *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application marked "Received November 15, 2005"-(4) sheets; and *on further condition*;

THAT any fencing and landscaping will be maintained in accordance with BSA approved plans;

THAT no building permit shall be issued unless authorizations are obtained from the City Planning Commission for the proposed height and location in a slope area;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 28, 2006.

APPLICANT – Henry & Dooley Architects, P.C., for Doris Porter, owner; Cynthia Small, lessee.

SUBJECT – Application June 16, 2005 – under Z.R. §73-36 approval sought for a proposed physical cultural establishment located on the second and third floor in a mixed-use building. The PCE use will contain 2, 006 square feet. The site is located in a C2-3/R-6 Zoning District.

PREMISES AFFECTED – 1426 Fulton Street, between Kingston and Brooklyn Avenue, Block 1863, Lot 9, Borough of Brooklyn.

COMMUNITY BOARD #3BK

APPEARANCES – None.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated April 4, 2005, acting on Department of Buildings Application No. 301897918, reads, in pertinent part:

“Proposed physical culture establishment is permitted in zoning district C2-3/R6 only by special permit under Section....73-36 of the Zoning Resolution.”; and

WHEREAS, this is an application under ZR §§73-36

MINUTES

and 73-03, to permit, within a C2-3 (R6) zoning district, a proposed physical culture establishment (“PCE”) to be located on the second and third floors of an existing three-story building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 6, 2005, after due notice by publication in *The City Record*, and with a continued hearing on January 31, 2006 and then to decision on March 7, 2006; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 3, Brooklyn, recommends approval of this application; and

WHEREAS, the New York City Fire Department has indicated to the Board that it has no objection to this application; and

WHEREAS, the subject site is located on the south side of Fulton Street, 40 ft. east of Brooklyn Avenue, and has a lot area of 2,000 sq. ft.; and

WHEREAS, the subject PCE will occupy 1,003 sq. ft. on each of the second and third floors; and

WHEREAS, the applicant represents that the PCE will provide massage services by licensed massage professionals; and

WHEREAS, the applicant states that an approved interior fire alarm system will be installed in the entire PCE space on the second and third floors, with the addition of smoke detectors, manual pull stations, local audible and visual alarms, and be connected to a FDNY-approved Central Station; and

WHEREAS, at hearing, the Board questioned the applicant as to the permissibility of having commercial uses on the second and third floors of the building in the subject zoning district; and

WHEREAS, the architect represented that the commercial floor area in the building is within the allowable FAR for the subject zoning district, and that the entire building could be occupied commercially under the district and pursuant to the certificate of occupancy; and

WHEREAS, the PCE will have the following hours of operation: Monday through Saturday, 10:00 AM to 7:00 PM; and

WHEREAS, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the

community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement 05-BSA-139K, dated October 28, 2005; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, within a C2-3 (R6) zoning district, a proposed physical culture establishment to be located on the second and third floors of a three-story building; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked “Received March 6, 2006”-(3) sheets; and *on further condition*:

THAT the term of this grant shall be for ten years from the date of the grant, expiring on March 7, 2016;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday through Saturday, 10:00AM to 7:00PM;

THAT all massages shall be performed only by New York State licensed massage professionals;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT DOB shall ensure compliance with total FAR and supplemental use provisions;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety measures, including a sprinkler system, shall be as installed and maintained on the Board-approved plans;

THAT an interior fire alarm system shall be provided as

MINUTES

set forth on the BSA-approved plans and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 7, 2006.

322-05-BZ

APPLICANT – Eric Palatnik, P.C., for Queens Jewish Community Council, c/o Warren Hecht, Esq., contract vendee.

SUBJECT – Application November 4, 2005 – Under Z.R. §72-21 to permit the enlargement of an existing single family home and to change the use from residential to community facility. The enlargement is contrary to ZR §24-34 (rear yard) 24-35 (side yard) and 24-521 (sky exposure plane). The premise is located in an R4B zoning district.

PREMISES AFFECTED – 69-69 Main Street, Northeast corner of Main Street and 70th Avenue, Block 6642, Lot 1, Borough of Queens.

COMMUNITY BOARD #8Q

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated October 24, 2005, acting on Department of Buildings Application No. 402213993, reads:

- “1. Section 24-34: Two front yards at 15 ft. are required. Only one complies; the other is deficient.
2. Section 24-35: Two side yards at 8 ft. are required. There is only one side yard.
3. Section 24-521: As a result of the deficient front yard, the building is outside of the sky exposure plane envelope.”; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R4B zoning district, the proposed enlargement of an existing two-story plus cellar single family home, to be used by a community facility center, which requires various bulk waivers related to side yards, front yards, and sky exposure plane, contrary to ZR §§ 24-34, 24-35, and 24-521; and

WHEREAS, a public hearing was held on this application on February 7, 2006, after due notice by publication in *The City Record*, and then to decision on March 7, 2006; and

WHEREAS, this application is brought on behalf of the Queens Jewish Community Council, a not-for-profit entity (hereinafter, the “Council”); and

WHEREAS, Community Board 8, Queens, recommends conditional approval of this application; certain of these conditions are listed below; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin, and Commissioner Collins; and

WHEREAS, the site is located on the northeast corner of the intersection of Main Street and 70th Avenue, and has a total lot area of 2,525 sq. ft; and

WHEREAS, the site is currently improved upon with a 1,791.07 sq. ft. two-story plus cellar single family home (Use Group 2A), with a synagogue at the cellar level, as well as a detached one-story garage; and

WHEREAS, the building is proposed to be enlarged from 1,791.07 sq. ft. to 2,874.28 sq. ft.; and

WHEREAS, the allowable Floor Area Ratio (“FAR”) for a community facility on the site is 2.0 and the proposed FAR is 1.14; and

WHEREAS, the applicant proposes to enlarge and alter the existing building as follows: relocate entrance and add entrance ramp; add an elevator; and enlarge the existing cellar, first and second floors; and

WHEREAS, the applicant states that the following are the space needs of the Council, which are driven by increased demand for services: (1) cubicle spaces where clients can meet with advisors; (2) a conference room for larger groups or work sessions; (3) an expanded storage area for the food pantry; and (4) a new entrance served by a ramp; and

WHEREAS, construction of the new center as currently proposed will result in the following non-compliances: one front yard of 4’-11 1/2” (front yards of 15’-0” are required); one side yard of 0’ (side yards of 8’-0” are required); and a non-compliant sky exposure plane; and

WHEREAS, the applicant states that the following is a unique physical condition, which create practical difficulties and unnecessary hardship in developing the subject site in compliance with underlying district regulations: the site is a corner lot, with an existing non-compliant front yard and side yard, that does not accommodate a feasible as of right enlargement; and

WHEREAS, the applicant states that the corner location of the lot and the existing non-complying development result in yard requirements that constrain any feasible enlargement; and

WHEREAS, specifically, the applicant states that an enlargement built with complying side yards and front yards on all sides would be just seven feet in width and, therefore, unusable; and

WHEREAS, the applicant further states that the requested variances are necessary in order to utilize allowable floor area to

MINUTES

accommodate the aforementioned space needs of the Council; and

WHEREAS, therefore, the Board finds that the cited unique physical condition creates practical difficulties and unnecessary hardship in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, the applicant need not address ZR §72-21(b) since it is a not-for-profit organization and the enlargement will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, the applicant states that the proposed overall height is the same and that a sizeable side yard is adjacent to the site to the north; and

WHEREAS, the applicant states that the site's location on a heavily-trafficked roadway, which is primarily commercial in nature, ensures that the proposed variation of the sky exposure plane will not detrimentally impact surrounding development; and

WHEREAS, the applicant states that the proposed structure will contain 2,874 sq. ft. of floor area, while 5,050 sq. ft. is permitted as of right within the underlying zoning district; and

WHEREAS, therefore, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the Council relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6NYCRR, Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No.06-BSA-029Q, dated January 5, 2006; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

Therefore it is Resolved that the Board of Standards and

Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes the required findings under ZR § 72-21, to permit, within an R4B zoning district, the proposed enlargement of an existing two-story plus cellar single family home, which requires various bulk waivers related to side yards, front yards, and the sky exposure plane, contrary to ZR §§ 24-34, 24-35, and 24-521; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received November 4, 2005" – (3) sheets; "Received February 21, 2006" – (1) sheet and "Received March 3, 2006" – (3) sheets; and *on further condition*:

THAT all garbage containers will be stored in a concealed space;

THAT the aggregate dimensions of all signage related to the use on the premises will not exceed 6 sq. ft.;

THAT any change in ownership or use of the premises is subject to Board approval;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT LL 58/87 compliance shall be as reviewed and approved by the Department of Buildings;

THAT the parameters of the proposed building shall be as follows: a community facility FAR of 1.14; a community facility floor area of 2,874.28 sq. ft.; lot coverage of 56.92%; side yards of 9'-2 3/4" and 0'; front yards of 19'-11 1/4" and 4'-11 1/2"; and no parking spaces;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 7, 2006.

APPLICANT – Greenberg & Traurig, LLP for Prospect

Terrace LLC, owner.

SUBJECT – Application December 19, 2005 – An appeal seeking a determination that the owner of said premises has acquired a common law vested rights to continue development commenced under the prior R5 zoning district. Current R5B zoning district.

PREMISES AFFECTED – 1638 8th Avenue, lot fronting on 8th Avenue between Prospect Avenue and Windsor Place, Block 1112, Lots 52, 54, Borough of Brooklyn.

COMMUNITY BOARD #7BK

APRIL 25, 2006, 1:30 P.M.

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday afternoon, April 25, 2006, at 1:30 P.M., at 40 Rector Street, 6th Floor, New York, N.Y. 10006, on the following matters:

ZONING CALENDAR

351-04-BZ

APPLICANT - The Agusta Group, for Stahva Realty, owner.

SUBJECT – Application November 1, 2004 - under Z.R.§73-44 – to allow parking reduction for proposed enlargement of existing office building located in an R6B/C2-2.

PREMISES AFFECTED - 210-08/12 Northern Boulevard, thru lot between Northern Boulevard and 45th Road, 150' east of 211th Street, Block 7309, Lots 21 and 23 (Tentative Lot 21), Borough of Queens.

COMMUNITY BOARD #11Q

369-05-BZ

APPLICANT – Eric Palatnik, P.C., for 908 Clove Road, LLC, owner.

SUBJECT – Application December 22, 2005 - Variance ZR §72-21 to allow a proposed four (4) story multiple dwelling containing thirty (30) dwelling units in an R3-2 (HS) Zoning District; contrary to ZR §§23-141, 23-22, 23-631, 25-622, 25-632.

PREMISES AFFECTED – 908 Clove Road (formerly 904-908 Clove Road) between Bard and Tyler Avenue, Block 323, Lots 42-44, Borough of Staten Island.

COMMUNITY BOARD #1SI

Jeff Mulligan, Executive Director

APRIL 26, 2006, 10:00 A.M.

NOTICE IS HEREBY GIVEN of a public hearing,

CALENDAR

Wednesday morning, April 26, 2006, 10:00 A.M., at 40 Rector Street, 6th Floor, New York, N.Y. 10006, on the following matters:

SPECIAL HEARING

334-05-BZ

APPLICANT – Kramer Levin Naftalis & Frank, LLP, for The Whitney Museum of American Art, owner.

SUBJECT – Application November 23, 2005 - Zoning Variance (use & bulk) pursuant to Zoning Resolution Section §72-21 to facilitate the expansion of an existing museum complex including the construction a nine (9) story structure located in C5-1(MP) and R8B (LH-1A) zoning districts. The proposed variance would allow modifications of zoning requirements for street wall height, street wall recess, height and setback, mandatory use, and sidewalk tree regulations; contrary to ZR § § 24-591, 99-03, 99-051, 99-052, 99-054, 99-06.

PREMISES AFFECTED – 933-945 Madison Avenue, 31-33 East 74th Street, East side of Madison Avenue between East 74th and East 75th Streets, Block 1389, Lots 21, 22, 23, 24, 25, 50, Borough of Manhattan.

COMMUNITY BOARD #8M

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, MARCH 14, 2006
10:00 A.M.**

Present: Chair Srinivasan, Vice Chair Babbar,
Commissioner Chin and Commissioner Collins.

The minutes of the regular meetings of the Board held on Tuesday morning and afternoon, January 10, 2006, were approved as printed in the Bulletin of January 19, 2006, Volume 91, Nos. 1-3.

SPECIAL ORDER CALENDAR

384-74-BZ

APPLICANT – Sheldon Lobel, P.C., for R. M. Property Management, Inc., owner.

SUBJECT – Application May 18, 2005 – Extension of Term of a public parking lot and an Amendment of a Variance Z.R. §72-21 to increase the number of parking spaces and to change the parking layout on site. The premise is located in an R4A zoning district.

PREMISES AFFECTED – 3120 Heath Avenue, southwest corner of Shradly Place, Block 3257, Lot 39, Borough of The Bronx.

COMMUNITY BOARD #8BX

APPEARANCES –

For Applicant: Josh Rinesmith.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a re-opening, an amendment to the previously granted variance, and an extension of term; and

WHEREAS, a public hearing was held on this application on December 6, 2005, after due notice by publication in *The City Record*, laid over to January 10, 2006, February 14, 2006 and then to decision on March 14, 2006; and

WHEREAS, Community Board No. 8, Bronx, recommends approval of this application; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan and Commissioner Collins; and

WHEREAS, the premises is located on the south side of Heath Avenue, west of Shradly Place; and

WHEREAS, the site is located within an R4-A zoning district and is improved upon with a parking lot; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 4, 1975 when, under the subject calendar number, the Board granted an application for the

subject lot to permit a public parking lot with 20 spaces; and

WHEREAS, subsequently, this grant has been amended and extended by the Board at various times; and

WHEREAS, most recently, on October 24, 1995, the Board granted an extension of term to expire on May 20, 2005; and

WHEREAS, in addition to a new extension of term, the applicant requests an increase in the number of parking spaces to 34, stating that this amount of spaces is needed to accommodate the amount of cars currently parking in the lot; and

WHEREAS, the Board, after reviewing the site plan, determined that it could only accommodate 27 parking spaces, based upon its lot area and the actual amount of space to be used for parking; and

WHEREAS, the applicant attempted to provide evidence that the 34 spaces were necessary based upon current leases, but upon further review, the Board determined that this evidence was unconvincing; and

WHEREAS, accordingly, based upon the submitted evidence, the Board finds the requested extension of term and an increase in the amount of spaces to 27 appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on March 4, 1975, as subsequently extended, so that as amended this portion of the resolution shall read: “to permit the maintenance of a parking lot, with a maximum of 27 parking spaces, and to extend the term for ten years from May 20, 2005, to expire on May 20, 2015, *on condition* that the use shall substantially conform to drawings as filed with this application, marked ‘Received February 22, 2006’–(6) sheets; and *on further condition*:

THAT the term of this grant shall be for ten years, to expire on May 20, 2015;

THAT the lot shall contain a maximum of 27 parking spaces;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT DOB shall review and approve the layout of the parking lot;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.” (DOB Application No. 200946085)

Adopted by the Board of Standards and Appeals, March 14, 2006.

MINUTES

617-80-BZ

APPLICANT – Eric Palatnik, P.C., for J & S Simacha, Inc., owner.

SUBJECT – Application May 12, 2005 – Application for an extension of time to complete construction and obtain a certificate of occupancy.

PREMISES AFFECTED – 770/780 McDonald Avenue, west side 20’ south of Ditmas Avenue, Block 5394, Lots 1 and 11, Borough of Brooklyn.

COMMUNITY BOARD #12BK

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this application is a request for a re-opening and an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on February 28, 2006, after due notice by publication in *The City Record*, and then to decision on March 14, 2006; and

WHEREAS, the subject site is located on the west side of McDonald Avenue, south of Ditmas Avenue, and is within an M1-1 zoning district; and

WHEREAS, on December 9, 1980, the Board granted an application under the subject calendar number pursuant to ZR §§72-21 and 73-50, to permit the maintenance of an existing non-complying catering hall; and

WHEREAS, subsequently, under the subject calendar number, a number of site conditions were legalized, and the Board granted extensions of term twice, most recently on April 15, 2003 for a term of two years, expiring on April 15, 2005; and

WHEREAS, the resolution for the last extension required that a certificate of occupancy be obtained within two years of the date of the grant; and

WHEREAS, the applicant represents that due to unforeseen construction delays, construction has not been completed since the grant date; and

WHEREAS, however, the applicant represents that the owner is now able to resume and complete construction; and

WHEREAS, based upon the above, the Board finds it appropriate to grant the requested extension of time.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on April 15, 2003, so that as amended this portion of the resolution shall read: “to permit an extension of time to complete construction and obtain a certificate of occupancy, for an additional period of two years from the date of this resolution, to expire on March 14, 2008; *on condition*:

THAT a new certificate of occupancy shall be obtained within two years from the date of this grant;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 300540029)

Adopted by the Board of Standards and Appeals, March 14, 2006.

1-95-BZ

APPLICANT – Francis Angelino, Esq., for 117 Seventh Avenue So. Property, LLP, owner, TSI Sheridan, Inc. d/b/a NY Sports Club, lessee.

SUBJECT – Application October 6, 2006 – Extension of Term/Waiver for a Physical Cultural Establishment located in a C4-5 zoning district.

PREMISES AFFECTED – 117 Seventh Avenue South, corner of West 10th Street and Seventh Avenue South, Block 610, Lot 16, Borough of Manhattan.

COMMUNITY BOARD #2M

APPEARANCES –

For Applicant: Francis R. Angelino.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and an extension of the term of the previously granted special permit that expired on September 20, 2004; and

WHEREAS, a public hearing was held on this application on February 28, 2006, after due notice by publication in *The City Record*, and then to decision on March 14, 2006; and

WHEREAS, Community Board No. 2, Manhattan, supports this application; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, the subject premises is located at the southeast corner of Seventh Avenue South and West Tenth Street; and

WHEREAS, on June 13, 1995, the Board granted a special permit application pursuant to ZR § 73-36, to permit, in a C4-5 zoning district, the use of the cellar and the second and third floors of the existing three-story commercial building as a physical culture establishment (“PCE”); and

WHEREAS, the instant application seeks to extend the term of the special permit for ten years; and

MINUTES

WHEREAS, the Board finds that a ten-year extension is appropriate, with the conditions set forth below.

Therefore it is Resolved that the Board of Standards and Appeals waives the Rules of Practice and Procedure, and reopens and amends the resolution, dated June 13, 1995, so that as amended this portion of the resolution shall read: "to grant an extension of the term of the special permit for a term of ten years; *on condition* that the use and operation of the PCE shall substantially conform to drawings as filed with this application, marked 'Received March 9, 2006'-(6) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten years from June 13, 2005, expiring June 13, 2015;

THAT the above condition shall appear on the Certificate of Occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, March 14, 2006.

364-36-BZ, Vol. II

APPLICANT – Joseph P. Morsellino, for Dominick Tricarico & Est. of P. Tricarico, owner.

SUBJECT – Application July 13, 2005 – Extension of Term/Waiver of a Variance which expired on February 11, 2005 for an additional 15 year term of an automotive service station. The premise is located in a C1-4 and R6B zoning district.

PREMISES AFFECTED – 31-70 31st Street, 31st Street and Broadway, Block 589, Lot 67, Borough of Queens.

COMMUNITY BOARD #1Q

APPEARANCES – None.

ACTION OF THE BOARD – Laid over to May 16, 2006, at 10 A.M., for adjourned hearing.

1888-61-BZ

APPLICANT – Alfonso Duarte, for Ali Amanolahi, owner.
SUBJECT – Application June 21, 2005 – Pursuant to Z.R. §11-412 for an Amendment to an eating and drinking establishment and catering hall for the further increase in floor area and the to legalize the existing increase in floor area, the separate entrance to the catering hall and the drive thru at the front entrance. The premise is located in an R3-2 zoning district.

PREMISES AFFECTED – 93-10 23rd Avenue, southwest corner of 94th Street, Block 1087, Lot 1, Elmhurst, Borough of Queens.

APPEARANCES –

For Administration: Janine Gaylard, Department of Buildings.

ACTION OF THE BOARD – Appeal denied.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, the instant appeal comes before the Board in response to a final determination of the Manhattan Borough Commissioner, dated August 12, 2005 (the "Final Determination"); and

WHEREAS, a public hearing was held on this application on February 7, 2005 after due notice by publication in *The City Record*, and then to decision on March 14, 2006; and

WHEREAS, the Final Determination was issued in response to a request from the appellant that the Department of Buildings ("DOB") rescind two temporary certificates of occupancy (Nos. 101236002T001 and 101236002T002, collectively, the "TCOs") issued to a 31-story residential building ("Building A") at the subject premises; and

WHEREAS, as reflected in the Final Determination, the Manhattan Borough Commissioner denied this request because there was no basis to rescind the TCOs; and

WHEREAS, Building A is located within a planned general large-scale development of residential and commercial uses, comprised of 15 development parcels, facing Riverside Drive South (the "development"); and

WHEREAS, on October 26, 1992, the City Planning Commission ("CPC") approved certain special permits related to the development (the "special permits"); and

MINUTES

WHEREAS, the CPC resolution approving the special permits states that the development must be constructed in accordance with plans set forth in the CPC resolution; that the development must include mitigation measures as set forth in the Final Environmental Impact Statement prepared for the development (the "FEIS"); and that the development would be allowed only after a restrictive declaration is recorded and filed; and

WHEREAS, CPC approved changes to the City Map in order to extend the existing street system into the development site, and to eliminate several streets in order to consolidate the development parcels, and also amended ZR Zoning Map 8c to allow for higher density at the development; and

WHEREAS, on December 17, 1992, the owner of the premises, as required by the special permits, entered into a restrictive declaration concerning the development, restricting its construction in a manner consistent with the special permits, the City Map change, and the rezoning; and

WHEREAS, on May 27, 1998, the City and the owner entered into a mapping agreement, in which the owner agreed to perform work "substantially in accordance with" the requirements set forth in a NYC Department of Transportation ("DOT") letter dated January 23, 1998; said mapping agreement was accepted by CPC on July 16, 1998; and

WHEREAS, DOB issued excavation, foundation and structural framing permits for Building A under Application No. 101236002 on July 1, 2002, and under Application Nos. 103177893 and 103173888 on August 1, 2002, and a builder's pavement plan permit on July 24, 2002 (collectively, the "DOB permits"); and

WHEREAS, in a prior appeal before the Board, brought under BSA Cal. No. 134-03-A, the appellant (the same appellant as in the instant appeal) claimed that the special permits and the mapping agreement contained a condition providing that the developer of the premises must undertake the work necessary to connect Riverside Boulevard to 72nd Street in conjunction with the construction of Building A, as well as close the off ramp from Riverside Drive to 72nd Street, and further claimed that DOB must ensure that construction of the road connection, and the ramp closure, occur simultaneously with the building construction; and

WHEREAS, on this basis, the appellant asked the Board to overturn DOB's refusal to revoke the DOB permits; and

WHEREAS, the Board denied the appeal on October 21, 2003, finding that DOB properly issued the DOB permits, and that there was no requirement in any of the above-mentioned agreements, special permits or related actions that the ramp be closed or the roadway be constructed prior to their issuance; and

WHEREAS, the Board's decision was challenged in an Article 78 proceeding; and

WHEREAS, while the litigation was being resolved, a major portion of the construction of Building A was completed, and DOB issued the subject TCOs; and

WHEREAS, the appellant now challenges DOB's issuance of the TCOs, based upon the following arguments:

(1) DOB failed to review the alleged traffic burden arising from the occupancy of Building A before closure of the ramp and connection of the roadway, as is allegedly required by Building Code Section 27-218 (which authorizes DOB to issue TCOs so long as the part of the premises covered by the TCO is deemed safe for occupancy); (2) DOB failed to determine that all permitted work is complete and that such work substantially complies with approved plans and all applicable law, as is allegedly required by Section 27-218; and (3) the BSA, in the prior appeal, stated that DOB should not issue a TCO for Building A prior to completion of the roadway connection; and

WHEREAS, as to the first argument, the appellant states that DOB's issuance of the TCOs was an abuse of its discretion in that DOB did not require any information as to when the roadway connection would be completed even though the TCOs allow residents to occupy Building A and also to allegedly park up to 144 cars; and

WHEREAS, Section 27-218 provides that DOB may issue a TCO for "a part or parts of a building before the entire work covered by the permit shall have been completed, provided that such part or parts may be occupied safely prior to completion of the building and will not endanger public safety, health or welfare"; and

WHEREAS, DOB disputes that 27-218 imposes any requirement upon it to assess environmental impacts such as potential traffic concerns; and

WHEREAS, DOB notes that upon issuing a TCO, it is only required to evaluate whether tenants may safely occupy a part of a building prior to full completion of all work; and

WHEREAS, the Board agrees with DOB: there is no requirement in Section 27-218 that would require DOB to research, or solicit data from the permit applicant about, potential parking and/or traffic impacts; and

WHEREAS, the Board notes that Section 27-218 solely addresses the safety, health and welfare of the occupants of the building parts that would be occupied under a TCO; and

WHEREAS, unlike a discretionary review agency such as the Board, DOB, when issuing permits or TCOs, is not required to evaluate the potential environmental impacts like traffic and parking that a proposal might generate; and

WHEREAS, finally, the Board observes that appellant makes no argument that Building A is not safe for occupancy; and

WHEREAS, accordingly, the Board finds that appellant's first argument is without merit; and

WHEREAS, as to the second argument, the appellant states that the owner of Building A will, in bad faith, pursue further TCOs without any intention of obtaining a final CO, and that DOB is complicit in this process, which is a further abrogation of DOB's responsibility under Section 27-218; and

WHEREAS, the appellant seems to imply that DOB must, upon issuing a TCO, make a determination that all work conforms to applicable laws, because the developer can not be trusted; and

WHEREAS, DOB responds that both the Building Code and the City Charter provide that a certification as to

MINUTES

conformance with all applicable laws is not the standard for issuance of a TCO; instead, DOB has the discretion to issue a TCO upon finding that a building or part of a building is safe for occupancy though all work has not been completed; and

WHEREAS, again, the Board agrees with DOB, for the reason given; and

WHEREAS, accordingly, the Board finds that appellant's second argument is without merit; and

WHEREAS, as to the third argument, the appellant cites to various comments made by former commissioners on the record while Cal. No. 134-03-A was being heard; and

WHEREAS, the appellant argues that the comments should be taken as an expression of the Board's concern that no TCO be issued for Building A until the roadway connection was constructed; and

WHEREAS, however, the resolution issued for the Board's decision as to the prior appeal makes no mention of this alleged concern, nor does it prohibit the issuance of a TCO for Building A; and

WHEREAS, the Board observes that the resolution is the official return of the Board as to the substance of any matter before it; and

WHEREAS, the Board finds that that the individual comments of commissioners at hearing, especially when taken out of context or when tangentially related to the issue before it, should not be construed as binding orders upon DOB; and

WHEREAS, moreover, as correctly noted by counsel to the developer, the decision to issue a TCO is a power of the DOB Commissioner or Borough Commissioner; none of the comments cited by the appellant suggest that DOB could not exercise its authority to issue one; and

WHEREAS, further, with one exception, none of the comments concerned issuance of a TCO, but were rather addressed towards issuance of a final CO; and

WHEREAS, accordingly, the Board finds that appellant's third argument is without merit; and

WHEREAS, subsequent to the first hearing on the matter, the appellant submitted copies of the Mapping Agreement, the CPC Resolution granting the 1992 Special Permit, and portions of the FEIS; and

WHEREAS, the appellant states that the provided documents support the contention that DOB had the responsibility to ensure that the roadway connection would be completed in time to accommodate the traffic impacts that would result from the development at the subject premises; and

WHEREAS, DOB responded that none of the submitted documents require construction of the roadway connection prior to issuance of a TCO for Building A; and

WHEREAS, the Board has reviewed the documents and agrees that no such requirement is present in any of them; and

WHEREAS, nor does the Board find persuasive appellant's argument that such a requirement might not be explicitly imposed in such documents, but that it should be inferred nonetheless; and

WHEREAS, additionally, the Board notes DOB's submission into the record of a June 17, 2005 letter from CPC Commissioner Burden to DOB Commissioner

Lancaster, which states that the developer of Building A was free to file for a TCO, as it had satisfied obligations in the restrictive declaration; and

WHEREAS, the Board observes that no such letter would have been issued by CPC had that agency been concerned that any of the documents submitted by appellant prevented issuance of a TCO until the roadway connection was constructed; and

WHEREAS, accordingly, the Board finds that appellant's final argument is without merit; and

WHEREAS, the Board notes that the appellant, by letter dated February 28, 2006, asked the Board to delay decision until DOT approval of the roadway connection, which the appellant believes could occur sometime in the middle of 2006; and

WHEREAS, however, because the instant appeal is meritless, the Board sees no reason to delay its denial.

Therefore it is Resolved that the instant appeal, seeking a reversal of the determination of the Manhattan Borough Commissioner, dated August 12, 2005, refusing to rescind the subject TCOs, is hereby denied.

Adopted by the Board of Standards and Appeals, March 14, 2006.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated August 10, 2005, acting on Department of Buildings Application No. 402142588, reads:

“Respectfully request for consideration for alteration of existing building (Obtain a new C of O) not fronting mapped street in Contrary to General City Law Section 36”; and

WHEREAS, a public hearing was held on this application on February 28, 2006 after due notice by publication in the *City Record*, and then to closure and decision on March 14, 2006; and

WHEREAS, by letter dated January 12, 2006, the Fire Department states that it has reviewed the above project and has no objections; and

MINUTES

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated August 10, 2005, acting on Department of Buildings Application No. 402142588, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received March 3, 2006"-(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 14, 2006.

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application denied.

THE VOTE TO GRANT –

Affirmative:0

Negative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

THE RESOLUTION -

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated November 17, 2004, acting on Department of Buildings Application No. 301861466, reads, in pertinent part:

1. Proposed Plans are contrary to Z.R. 23-141(a) in that the proposed Floor Area Ratio (FAR) exceeds the permitted 75%.
2. Proposed Plans are contrary to Z.R. 23-141(b) in that the proposed Open Space Ratio (OSR) is less than the minimum required 55%.

3. Proposed Plans are contrary to Z.R. 23-461(a) in that the proposed side yards are less than the total of 13’-0”.

4. Plans are contrary to Z.R. 23-141(b) in that the proposed Lot Coverage Ratio (LCR) exceeds the permitted 0.45”; and

WHEREAS, this is an application made under ZR §72-21 to permit, on a site within an R4 zoning district, the enlargement of an existing over-built, two-story plus attic and cellar, single-family dwelling, which will increase the degree of non-compliance as to Floor Area Ratio (FAR), and create new non-compliances as to lot coverage, Open Space Ratio (OSR) and aggregate width of side yards, contrary to ZR §§23-141(a) & (b) and 23-461(a); and

WHEREAS, the application was originally filed as a special permit for a home enlargement pursuant to ZR §73-622; as discussed further below, the Board found that the proposed enlargement was ineligible for this special permit and the applicant subsequently chose to amend the application to request a variance instead; and

WHEREAS, a public hearing was held on this application on July 12, 2005 after due publication in *The City Record*, with continued hearings on August 9, 2005, September 13, 2005, November 29, 2005, January 31, 2006, and then to decision on March 14, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioner Chin; and

WHEREAS, Community Board No. 15, Brooklyn, recommended approval of the initial special permit application, but did not issue a recommendation for the variance application; and

WHEREAS, the subject premises is located at the corner of Avenue T and East 21st Street, with dimensions of 44 ft. along Avenue T, and 60 ft. along East 21st Street, and a total lot area of 2,640 sq. ft.; and

WHEREAS, the site is improved upon with a two-story plus attic and cellar, single-family home, which fronts on East 21st Street; and

WHEREAS, the home features a recreation room, bathroom, utility room and storage rooms in the cellar (which is accessible through an interior staircase), a living room, kitchen, dining room and half-bathroom on the first floor, a master bedroom, two additional bedrooms, and two bathrooms on the second floor, and an office and another room in the attic; the garage is separated from the dwelling and is located in the southern side yard; and

WHEREAS, the home has a total non-complying floor area of 3,001 sq. ft. (FAR of 1.14), a complying lot coverage of 0.40, a complying open space of 1,582 sq. ft. (OSR of 60 percent); two complying side yards of 5’-2” on the west side and 12’-0” on the south side, and two complying front yards of 10’-1” on the north side and 10’-0” on the east side (because the lot is on a corner, no rear yards are required; instead, two side yards and two front yards are required); and

WHEREAS, the applicant proposes an enlargement at the south side of the home into the south side yard, which

MINUTES

would result in the following increase in non-compliance, as well as the following creation of new non-compliances: (1) a floor area of 3,471 sq. ft. (FAR of 1.31) – 1,980 sq. ft. (FAR of 0.75) is the maximum permitted; (2) lot coverage of 0.50 – 0.45 is the maximum permitted; and (3) a side yard on the south side of the building of 5'-0"; a side yard of 7'-10" is required on this side in order to comply with the 13'-0" aggregate side yard requirement; and

WHEREAS, as noted above, the applicant initially sought approval of this proposed enlargement through a special permit pursuant to ZR § 73-622, which authorizes the Board to approve home enlargements that would increase non-complying FAR, lot coverage and side yards; and

WHEREAS, however, at the initial hearing on this application, the Board observed that the proposed enlargement did not meet the parameters of the text set forth at ZR § 73-622; and

WHEREAS, specifically, ZR § 73-622 provides "any enlargement within a side yard shall be limited to an enlargement within an existing non-complying side yard and such enlargement shall not result in a decrease in the existing minimum width of open area between the building that is being enlarged and the side lot line"; and

WHEREAS, the Board observes that its authority to waive side yard provisions under ZR § 73-622 is limited to this section, and that a waiver of the total side yard requirement is not available; and

WHEREAS, the side yard requirements in many of the residential districts where ZR § 73-622 is available, including the subject zoning district, provide that each side yard must be a minimum of 5'-0", and that the aggregate width of all side yards must total at least 13'-0"; and

WHEREAS, the applicant proposes a post-enlargement aggregate width of all side yards of 10'-2"; and

WHEREAS, as stated in the November 7, 2005 letter and Revised Statement of Facts and Findings, the applicant agrees that ZR § 73-622 can not authorize a proposed side yard aggregate width of less than the required 13 feet; and

WHEREAS, moreover, the Board observes the above-cited provision only allows an enlargement that is a straight-line extension of an existing non-complying side yard; that is, the only side yard waiver the Board can allow through the special permit is the an increase in the amount of non-complying side yard so long as the existing width is maintained; and

WHEREAS, the subject property has no existing non-complying side yard which can be extended in this fashion, which means that the Board is without any authority to waive any side yard objection raised by the Department of Buildings as to the proposal; and

WHEREAS, the Board notes that the applicant could still seek a special permit under ZR § 73-622 so long as the enlargement left a 7'-10" side yard on the south side of the lot, instead of the proposed 5'-0" side yard; and

WHEREAS, however, the applicant states that an enlargement that leaves a 7'-10" southern side yard would not afford the owner the room dimensions that he desires

without further expensive interior modifications; and

WHEREAS, accordingly, the applicant changed the application to a request for a variance pursuant to ZR § 72-21; and

WHEREAS, the threshold finding for any variance is set forth at ZR § 72-21(a), which requires the Board to find "that there are unique physical conditions, including irregularity, narrowness or shallowness of lot size or shape, or exceptional topographical or other physical conditions peculiar to and inherent in the particular zoning lot; and that, as a result of such unique physical conditions, practical difficulties or unnecessary hardship arise in complying strictly with the use or bulk provisions of the Resolution; and that the alleged practical difficulties or unnecessary hardship are not due to circumstances created generally by the strict application of such provisions in the neighborhood or district in which the zoning lot is located"; and

WHEREAS, the applicant alleges that the following is a unique physical condition that leads to practical difficulties in constructing an enlargement to the home at the subject site in strict compliance with underlying district regulations: the lot is only 60 ft. deep, which, when considered in conjunction with the location of the existing building and applicable yards requirements, significantly impacts the ability of the owner to make use of the ZR § 73-622 special permit provision; and

WHEREAS, the Board first observes that the site and the existing home thereupon suffer no inherent hardship whatsoever; instead, the purported problem claimed by the owner results from personal desire, namely, the desire to enlarge an already overbuilt and indisputably habitable home; and

WHEREAS, the Board is aware of the body of case law that establishes that a variance may not be granted based upon the personal wishes of a property owner; and

WHEREAS, specifically, the Board cites to *Hickoz v. Griffin*, 298 N.Y. 365 (1949); *Belgarde v. Kocker*, 627 N.Y.S.2d 128 (3d Dep't 1995); *Fuhst v. Foley*, 45 N.Y.2d 441 (1978); *Quaglio v. La Freniere*, 211 N.Y.S.2d 239 (1960); and *Fromer v. Citrin*, 589 N.Y.S.2d 1003, (2d Dep't 1992), though this is not an exhaustive list of cases that hold that the personal preferences of an owner can not be the basis for a claim of practical difficulties; and

WHEREAS, that the personal preference of the owner is the impetus for the subject application was conceded by the owner at hearing; and

WHEREAS, specifically, the owner testified that the proposed enlargement would allow creation of a third child's bedroom on the second floor, and avoid the placement of the third bedroom in the attic; and

WHEREAS, the owner claimed that this was his preference; and

WHEREAS, the applicant's January 16, 2006 submission confirms that the alleged problem is caused by the preference of the owner; specifically, this submission states "These difficulties include the practical usage of the bedrooms at the attic level for use by the young family which resides therein . . . This proposed small enlargement would

MINUTES

help alleviate this hardship by allowing an additional bedroom on the second floor"; and

WHEREAS, while the owner may prefer that an additional bedroom be located on the same floor as the master bedroom, the Board may not grant a variance when the predicate is this and nothing more; and

WHEREAS, additionally, the Board rejects the shallow depth of the lot as a unique physical condition that leads to hardship; and

WHEREAS, while the applicant has gone to great lengths to establish that the site is one of the few comparably shallow lots in the neighborhood, no nexus between the lot's status as a shallow lot and any actual hardship has been established; and

WHEREAS, in fact, the home on the lot currently enjoys non-complying status as to floor area (it is already 1,020 sq. ft. larger than otherwise permitted in the subject zoning district), and is usable for its intended residential purpose; and

WHEREAS, as noted above, it has approximately 3,000 sq. ft. of livable floor area, three bedrooms, and a room for a fourth bedroom and/or a modest office in the attic; and

WHEREAS, the applicant attempted to argue that the home was one of the few in the immediate area that was constrained by lot size from enlarging; and

WHEREAS, in support of this argument, the applicant submitted a study of 28 homes in the area (including the subject home); and

WHEREAS, the Board notes that of the 27 other homes studied by the applicant, approximately 40 percent are similarly constrained in terms of their ability to be enlarged due to the size of the lot and the amount of yard available for expansion; thus, the size of the lot is not a unique condition that leads to any inherent hardship; and

WHEREAS, the applicant also contends that the attic level is not fully usable due to a sloped roof, and that the unusable space should be discounted by the Board in its assessment of the habitability of the home; and

WHEREAS, specifically, the applicant argues that only thirty-three percent of the 987 sq. ft. of zoning floor area at the attic level rises to a full ceiling height; and

WHEREAS, the applicant contends that this reflects the attic's "obsolete" design; and

WHEREAS, however, the Board observes that in the course of other applications, it has reviewed many other homes with similar attic conditions, with attic floor space that counts as zoning floor area; and

WHEREAS, the Board has never considered such attic space to be a unique physical condition that leads to a practical difficulty for purposes of a variance; and

WHEREAS, the Board observes that houses in Brooklyn come in many sizes and configurations, and merely establishing that a space within a house is less than optimum when measured against the personal desire of an owner is not a valid basis for a claim of hardship; and

WHEREAS, further, the Board observes that the attic condition present in the home is typical of other homes in the area; and

WHEREAS, in fact, the applicant's study of the nearby homes indicates that similarly sized homes in the neighborhood appear to have either the same constrained attic space, in that they either also have a peaked roof with gables, or they only have a peaked roof, and thus do not even enjoy the possibility of usable attic space; and

WHEREAS, specifically, 16 homes cited by the applicant have "peaked roofs only", which means that they provide even less habitable space than the subject home; and

WHEREAS, thus, it can not be said that the subject home is disadvantaged on the basis of the size of its attic when compared to neighboring buildings, since many of the buildings do not even have attics; and

WHEREAS, accordingly, the Board does not consider this to be a unique condition that causes hardship; and

WHEREAS, finally, the Board observes that while some of the floor area in the attic may not rise to a full ceiling height, it is nonetheless usable for a variety of purposes, such as an office (where one might sit rather than stand) or as a child's bedroom (children often being shorter than adults); and

WHEREAS, the applicant makes the further argument that the overall home is smaller and thus functionally obsolete, when compared with other homes in the area; and

WHEREAS, however, the Board is not persuaded that the overall size of the subject home is a hardship relative to other properties; and

WHEREAS, in fact, the record reveals that the floor area even without considering the attic floor area is comparable to many other homes in the area; and

WHEREAS, again, a review of the homes cited in the applicant's study reveals that approximately 75 percent have a total floor area of between 1330 to 1980 sq ft., which is either less than or equal to the amount of floor area in the subject home if the attic floor area is subtracted; and

WHEREAS, thus, this condition is also not unique; and

WHEREAS, finally, the Board does not consider the alleged inability to use the home enlargement special permit a hardship for purposes of a variance, as the applicant seems to suggest; and

WHEREAS, the Board has not previously credited an inability to use a special permit as the basis for a variance, since this is contrary to both ZR § 72-21 and established case law as to variances; and

WHEREAS, many of the special permit provisions set forth in the Zoning Resolutions establish prerequisites; that some sites meet the prerequisites and others nearby do not is evidence only of the occasionally arbitrary nature of zoning regulations in general, but it is not the basis of a practical difficulty claim; and

WHEREAS, a contrary view would obviously lead to absurd results; for instance, ZR § 73-621 allows the Board to authorize an enlargement to a non-complying or complying residential building within most residential zoning districts so long as the building existed on December 15, 1961; and

WHEREAS, an owner of a residential building in a R1 zoning district constructed in 1962 thus could not use this special permit provision; and

MINUTES

WHEREAS, while this might be the impetus for said owner to seek a variance for the enlargement, the inability to use the special permit is merely the motivation; it can not be the basis on which the Board grants the variance; and

WHEREAS, the instant application presents an analogous situation: confronted with an inability to use a special permit, the owner was motivated to seek a variance; and

WHEREAS, however, the Board has no authority to accept this inability as the basis of a practical difficulty claim; and

WHEREAS, during the course of the hearing process, the applicant made an additional argument; and

WHEREAS, specifically, in the February 27, 2006 submission, the applicant cites to ZR § 23-52, which permits a reduction in the rear yard for a shallow interior lot; and

WHEREAS, the applicant concedes that said provision has no applicability to the subject corner lot, but appears to argue that when the drafters of the ZR considered shallow interior lots as deserving of allowance on the provision of rear yards, they were intending to avoid penalizing undersized zoning lots which could not accommodate required yards; and

WHEREAS, the applicant states that this supports the notion that the dimensions of the subject lot are unique and that they give rise to hardship; and

WHEREAS, the problem with this argument is that despite the allegedly constraining lot dimensions, the site is generously developed with an over-built, indisputably habitable home with three bedrooms, an attic office and a cellar recreation room, and possesses complying yards on all sides; and

WHEREAS, additionally, whatever problems corner lots experience in terms of development has already been addressed through the exemption of a rear yard requirement; and

WHEREAS, accordingly, the Board does not find this argument persuasive; and

WHEREAS, since the application fails to meet the finding set forth at ZR §72-21 (a), it must be denied; and

WHEREAS, because the Board finds that the application fails to meet the finding set forth at Z.R. § 72-21(a), which is the threshold finding that must be met for a grant of a variance, the Board declines to address the other findings.

Therefore it is Resolved that the decision of the Brooklyn Borough Commissioner, dated November 17, 2004, acting on Department of Buildings Application No. 301861466, is sustained and the subject application is hereby denied.

Adopted by the Board of Standards and Appeals, March 14, 2006.

COMMUNITY BOARD #2SI

MAY 2, 2006, 1:30 P.M.

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday afternoon, May 2, 2006, at 1:30 P.M., at 40 Rector Street, 6th Floor, New York, N.Y. 10006, on the following matters:

ZONING CALENDAR

297-05-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Vestry Acquisition, LLC, owner.

SUBJECT – Application September 30, 2005 – Zoning Variance (use) pursuant to ZR §72-21 to allow a proposed nine (9) story residential building containing seven (7) dwelling units and eight (8) accessory parking spaces located in an M1-5 district (Area B2) of the Special Tribeca Mixed Use District; contrary to ZR§42-00, §111-104(b) and §13-12.

PREMISES AFFECTED – 33 Vestry Street, located on the southerly side of Vestry Street, 100' west of Hudson Street, Block 219, Lot 18, Borough of Manhattan

COMMUNITY BOARD#1M

314-05-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Raymond Mouhadeb, owner.

SUBJECT – Application October 25, 2005 – Special Permit Z.R. §73-622 for an enlargement to a single family residence which proposed an increase in the degree of non-compliance with respect to floor area ratio and open space/lot coverage as per ZR23-141b, less than the total required side yards as per ZR23-361a and a rear yard less than the required rear yard as per ZR 23-47. The premise is located in an R3-2 zoning district.

PREMISES AFFECTED – 1670 East 23rd Street, East 23rd Street between Avenue P and Quentin Road, Block 6785, Lot 35, Borough of Brooklyn.

COMMUNITY BOARD #15BK

CALENDAR

4-06-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Isaac Tessler and Miriam Tessler, owners.

SUBJECT – Application January 5, 2006 – Special Permit Z.R. §73-622 for an enlargement of an existing single family residence to vary ZR§23-141 for open space and floor area and 23-47 for less than the minimum rear yard. The premise is located in an R-2 zoning district.

PREMISES AFFECTED – 1435 East 21st Street, East 21st Street between Avenue M and Avenue N, Block 7657, Lot 39, Borough of Brooklyn.

COMMUNITY BOARD #14BK

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, MARCH 28, 2006
10:00 A.M.**

Present: Chair Srinivasan, Vice Chair Babbar,
Commissioner Chin and Commissioner Collins.

The minutes of the regular meetings of the Board held on Tuesday morning and afternoon, January 24, 2006, were approved as printed in the Bulletin of February 3, 2006, Volume 91, Nos. 4-5.

SPECIAL ORDER CALENDAR

645-59-BZ

APPLICANT – Vassalotti Associate Architects, LLP., for Cumberland Farms, Inc., owner.

SUBJECT – Application July 12, 2005 – Extension of Term of a Variance for an additional 10 years for the existing gasoline service station with accessory convenience store which expired on October 7, 2005. The premise is located in a C2-1 in an R5 zoning district.

PREMISES AFFECTED – 10824 Flatlands Avenue, Block 8235, Lot 2, Borough of Brooklyn.

COMMUNITY BOARD #18BK

APPEARANCES –

For Applicant: Hiram A. Rothkrug.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION -

WHEREAS, this is an application made pursuant to ZR § 11-411, for an extension of the term of the previously granted variance, permitting a gasoline station and accessory convenience store; and

WHEREAS, a public hearing was held on this application on March 7, 2006, after due notice by publication in *The City Record*, and then to decision on March 28, 2006; and

WHEREAS, Community Board 18, Brooklyn, recommends conditional approval of this application, though it expressed concern about patrons parking on the sidewalk, contrary to the Board's prior grant; and

WHEREAS, the premises is a 19,900 sq. ft. site located on the south side of Flatlands Avenue at East 108th Street; and

WHEREAS, the site is located within a C2-1 (R5) zoning district, and is improved upon with a gasoline service station and an accessory convenience store; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 12, 1960, when, under the subject calendar number, the Board granted an enlargement of an existing gasoline station; and

WHEREAS, subsequently, the term of this grant has been extended by the Board at various times, most recently on April 23, 1996, for a term of 10 years, expiring on October 7, 2005; and

WHEREAS, at hearing, the Board asked the applicant to address the Community Board's concerns regarding parking on the sidewalk; and

WHEREAS, the applicant responded that this problem existed when there was an automotive body shop on the site, which has been removed, and that it does not exist with the site's current commercial activity; and

WHEREAS, pursuant to ZR §11-411, the Board may permit an extension of term for a previously granted variance; and

WHEREAS, based upon the submitted evidence, the Board finds the requested extension of term appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on January 12, 1960, and as subsequently extended and amended, so that as amended this portion of the resolution shall read: "to extend the term for ten years from October 7, 2005, to expire on October 7, 2015, *on condition* that the use shall substantially conform to drawings as filed with this application, marked 'Received July 12, 2005' -(1) sheet and 'February 15, 2005' -(2) sheets; and *on further condition*:

THAT the term of this grant shall expire on October 7, 2015;

THAT there shall be no parking on the sidewalk;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

(DOB Application No. 300157782)

Adopted by the Board of Standards and Appeals, March 28, 2006.

240-90-BZ

APPLICANT – Joseph P. Morsellino, Esq., for Keil Brothers, Inc., owner.

SUBJECT – Application September 20, 2005 – Extension of Term/Amendment of variance of an Agricultural Nursery and Truck Garden which expires on May 14, 2006. It is requested to extend the term from a 10 year term to a 20 year term and to amend to allow overnight parking for 10 vehicles. PREMISES AFFECTED – 210-12 48th Avenue, 210th Street and 48th Avenue, Block 7369, Borough of Queens.

MINUTES

COMMUNITY BOARD #11Q

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a re-opening, an amendment to the previously granted variance, and an extension of term; and

WHEREAS, a public hearing was held on this application on March 7, 2006, after due notice by publication in *The City Record*, and then to decision on March 28, 2006; and

WHEREAS, Community Board 11, Queens, recommends approval of this application and supports a 20-year extension of term and the overnight parking request; and

WHEREAS, the premises is located at the southeast corner of 48th Avenue and 210th Street; and

WHEREAS, the site is located within an R4B zoning district and is improved upon with a commercial agricultural nursery and truck garden; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 14, 1991 when, under the subject calendar number, the Board granted an application for the subject lot to change use from a mason builders' supply yard to an agricultural nursery and truck garden; and

WHEREAS, subsequently, this grant has been amended and extended by the Board at various times; and

WHEREAS, most recently, on June 25, 1996, the Board granted an extension of term to expire on May 14, 2006; and

WHEREAS, the applicant seeks an extension of term for twenty years, to expire on May 14, 2026; and

WHEREAS, in addition to a new extension of term, the applicant requests an amendment to permit the overnight parking of up to ten accessory vehicles at the site; and

WHEREAS, the Board, after reviewing the site plan, determined that the request for as of right parking was appropriate because it diminishes the delivery trucks' impact on neighboring streets, and the enclosed lot can easily accommodate it; and

WHEREAS, accordingly, based upon the submitted evidence, the Board finds the requested extension of term and the requested inclusion of overnight parking appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on May 14, 1991, as subsequently extended, so that as amended this portion of the resolution shall read: "to permit the maintenance of an agricultural nursery and truck garden, with overnight parking for a maximum of ten accessory vehicles, and to extend the term for twenty years from May 14, 2006, to expire on May 20, 2026, *on condition* that the use shall substantially conform to

drawings as filed with this application, marked 'Received September 20, 2005' –(2) sheets; and *on further condition*:

THAT the term of this grant shall be for twenty years, to expire on May 14, 2026;

THAT overnight parking shall be limited to ten vehicles;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT DOB shall review and approve the layout of the onsite parking;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted." (DOB Application No. 400597261)

Adopted by the Board of Standards and Appeals, March 28, 2006.

139-92-BZ

APPLICANT – Samuel H. Valencia, for Samuel H. Valencia – Valencia Enterprise, owner

SUBJECT – Application July 20, 2005 – Reopening for an Extension of Term/Waiver for an eating and drinking establishment, with dancing, which expired on March 7, 2004, located on the first floor of a three story mixed use building with residences on the upper floors. The premise is located in a C2-2 in an R-6 zoning district.

PREMISES AFFECTED – 52-15 Roosevelt Avenue, north side of Roosevelt Avenue, 125.53' East of 52nd Street, Block 1315, Lot 76, Borough of Queens.

COMMUNITY BOARD #2Q

APPEARANCES –

For Applicant: Samuel H. Valencia.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a re-opening, an amendment to the previously granted special permit, and an extension of term that expired on March 7, 2004; and

WHEREAS, a public hearing was held on this application on March 7, 2006, after due notice by publication in *The City Record*, and then to decision on March 28, 2006; and

WHEREAS, Community Board 2, Queens, supports this application; and

MINUTES

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, the subject premises is located on the north side of Roosevelt Avenue, east of 52nd Street; and

WHEREAS, on March 7, 1995, the Board granted a special permit application pursuant to ZR §73-244, to permit, in a C2-2 (R6) zoning district, the use of the first floor and cellar of an existing three-story building as an eating and drinking establishment with dancing; and

WHEREAS, subsequently, the Board has amended and extended this grant twice; and

WHEREAS, most recently, on August 14, 2001, the Board granted an extension of term to expire on March 7, 2004; and

WHEREAS, the Board finds that a three-year extension is appropriate, with the conditions set forth below; and

WHEREAS, in addition to a new extension of term, the applicant is requesting approval of minor modifications to the approved plans, including changing some of the door configurations, and insulating the vestibule with sound-proofing materials; and

WHEREAS, the Board, after reviewing the site plan, approves of the proposed modifications, with the conditions set forth below.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, dated March 7, 1995, so that as amended this portion of the resolution shall read: "to grant an extension of the term of the special permit for a term of three years; *on condition* that the use and operation of the eating and drinking establishment with dancing shall substantially conform to drawings as filed with this application, marked 'Received March 2, 2006'-(2) sheets; and *on further condition*:

THAT this grant shall be limited to a term of three years from March 7, 2004, expiring March 7, 2007;

THAT the above condition shall appear on the Certificate of Occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the Department of Buildings shall review the approved plans for compliance with all safety regulations, including egress and waiting area requirements;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 400322469)

Adopted by the Board of Standards and Appeals, March 28, 2006.

136-01-BZ

APPLICANT – Eric Palatnik, P.C., for Cel-Net Holding, Inc.,

owner.

SUBJECT – Application November 23, 2005 – Reopening for an amendment to the resolution to extend the time to complete construction which expires June 11, 2006.

PREMISES AFFECTED – 11-11 44th Drive, north side between 11th and 21st Street, Block 447, Lot 13, Borough of Queens.

COMMUNITY BOARD #8Q

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this application is a request for a re-opening and an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on February 7, 2006, after due notice by publication in *The City Record*, laid over for continued hearing on March 7, 2006 and then to decision on March 28, 2006; and

WHEREAS, the subject site is located on the north side of 44th Drive, between 11th and 21st Streets, and is within an M1-4 (R7A) zoning district; and

WHEREAS, on June 11, 2002, the Board granted an application under ZR §72-21, to permit, in an M1-4 zoning district, an increase in floor area for a wholesale office with accessory storage (Use Group 10) and the legalization of the existing encroachment into the rear yard; and

WHEREAS, in its resolution, the Board specified that there be substantial completion in accordance with ZR § 72-23, thus the grant's term expires on June 11, 2006; and

WHEREAS, the applicant represents that due to a change in the zoning district from M1-4 to M1-4 (R7A) that necessitated a redesign of the plans, construction will not be substantially completed by the grant expiration; and

WHEREAS, the applicant represents that the owner is now able to complete construction; and

WHEREAS, during the course of hearings, the Board learned that the applicant has changed the original plans; and

WHEREAS, when the Board inquired about the new plans, the applicant requested additional time to submit an application for an amendment to the revised plans; and

WHEREAS, the Board agreed to allow the applicant additional time to prepare an application for an amendment to the approved plans, to be submitted subsequent to the grant of the subject extension; and

WHEREAS, based upon the above, the Board finds it appropriate to grant the requested extension of time.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on June 11, 2002, so that as amended this

MINUTES

portion of the resolution shall read: "to permit an extension of time to complete construction and obtain a certificate of occupancy, for an additional period of two years from the date of this resolution, to expire on March 28, 2008; *on condition*:

THAT a new certificate of occupancy shall be obtained within two years from the date of this grant;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 400849748)

Adopted by the Board of Standards and Appeals, March 28, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated June 23, 2004, acting on Department of Buildings Application No. 301668791, reads in pertinent part:

“Proposed new building in a manufacturing zoning district is contrary to Z.R. Section 42-00”; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a lot within an M1-1 zoning district, a three-story plus basement residential development with five dwelling units, which is contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on June 14, 2005, after due notice by publication in the *City Record*, with continued hearings on August 16, 2005 and September 27, 2005, and deferred decision dates on November 15, 2005, January 24, 2006, and March 14, 2006, and then to decision on March 28, 2006; and

WHEREAS, due to lack of prosecution, the matter was at

MINUTES

one time considered for dismissal; and

WHEREAS, subsequent to a further submission from the applicant, the Board agreed to maintain the application on the zoning calendar; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioner Chin; and

WHEREAS, Community Board 3, Brooklyn, did not provide a recommendation on this application; and

WHEREAS, the subject premises is located on the westerly side of Franklin Avenue, between Myrtle and Park Avenues, and is a 4,775.31 sq. ft. vacant site consisting of two tax lots (45 and 46); and

WHEREAS, the applicant states that the site was formerly improved upon with a multiple dwelling constructed around 1918, which existed on the site until demolished in 1984; and

WHEREAS, the applicant states that the site was used thereafter for automotive storage and illegal repair uses, as well as rubbish removal; and

WHEREAS, the applicant proposes to construct a three-story plus basement residential building, with five units, a street wall and total height of 39'-11", a total residential floor area of 12,921 sq. ft., a total residential FAR of 2.7, a front yard of 5'-0", a rear yard of 30'-0", and one off-street parking space; and

WHEREAS, a therapeutic swimming pool and gym for handicapped children residing in the building will be located in the basement, and the residential units will be located on the upper floors; and

WHEREAS, at the time of initial application, the applicant proposed a five-story building with nine units, an FAR of approximately 3.90, a total height of 70'-2", and a street wall height of 49'-6"; and

WHEREAS, the Board objected to this proposed building because it was excessively large in terms of height and floor area when compared to the surrounding buildings, and directed the applicant to reduce its size; and

WHEREAS, subsequently, the applicant proposed a five-story building with six units and an FAR of 3.05, a total height of 70'-0", and a street wall height of 51'-6"; this was also rejected by the Board as too large; and

WHEREAS, the applicant subsequently revised the proposal to the current version; and

WHEREAS, in addition, the Board made suggestions to the applicant as to the lowest level, which was originally proposed as a cellar, but which was later designed as a basement; and

WHEREAS, specifically, the Board asked the applicant to ensure that the proposed basement would not extend into the rear yard, as a basement is not a permitted obstruction; and

WHEREAS, after repeatedly being asked to address these concerns, the applicant finally submitted corrected plans showing an appropriate basement; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable

regulations: (1) the site is too small for creation of a conforming building with floor plates sufficient for modern manufacturing uses; (2) the site contains rubble from the foundations of the prior buildings; and (3) the site is adjacent to residential uses; and

WHEREAS, at the outset, the Board rejects the second and third bases of alleged uniqueness, in that neither of these conditions pose significant hardship to conforming development; and

WHEREAS, as to the lot size, the Board agrees that the size of the site inhibits the development of a conforming manufacturing building, because the floor plates in a conforming building would be of insufficient size and impractical layout, and therefore not suitable for a modern conforming user; and

WHEREAS, however, the Board asked the applicant to reinforce the uniqueness of this condition; and

WHEREAS, the applicant submitted an analysis of vacant lots as indicated on a revised area map, and distinguished those in the subject zoning district as either being occupied for parking or contractor storage use; and

WHEREAS, the Board also observed on its site and neighborhood visit that the site is one of the few similarly sized vacant sites within the subject zoning district; and

WHEREAS, further, the Board's review of the area map submitted by the applicant confirms that on the subject block, the site is one of four similarly sized or smaller sites; and

WHEREAS, the Board also notes that while there are more than four vacant lots on the block, the subject site is one of the few with a limited depth, or that can not be combined with other lots to create a better site for conforming development; and

WHEREAS, accordingly, the Board finds that one of the aforementioned unique physical conditions, namely, the site's small size, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study analyzing the following as-of-right scenario: a conforming one-story manufacturing/commercial building; and

WHEREAS, the applicant concluded that such a scenario would result in a loss; and

WHEREAS, however, the Board had concerns regarding certain aspects of this study; and

WHEREAS, specifically, the Board asked the applicant for elaboration as to the effect of the lot size on the return for a conforming use; and

WHEREAS, the applicant responded that conforming users who needed 5,000 sq. ft. or less typically would locate within larger developments; since no single tenant or user constitutes a large proportion of the space, financing options for such a small user are improved overall; and

WHEREAS, the Board also asked the applicant to submit additional comparables to further support the claimed site valuation; and

WHEREAS, the applicant submitted five additional comparables, used them in a revised site valuation analysis, and

MINUTES

concluded that the site valuation would not be substantially different; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, as to the proposed residential use, the Board observes that the subject site is adjacent to residential uses, and that there are numerous residential uses on both sides of the street; and

WHEREAS, the Board finds that the introduction of five dwelling units on this street will not impact nearby conforming uses nor change the character of the neighborhood; and

WHEREAS, as to the proposed bulk, the Board requested that the applicant reduce the height and bulk of the proposed building to be more in context with the surrounding buildings; and

WHEREAS, the Board observes that one adjacent building is four stories and the other is three and that most of the residential buildings in the immediate area have similar heights; and

WHEREAS, therefore, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, during the course of the public hearing process, the Board asked the applicant to reduce the size of the proposed building to the current version; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA001K, dated July 14, 2004; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials;

Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Landmarks Preservation Commission (LPC) has reviewed an Environmental Assessment Statement Form, dated July 14, 2004, and prepared by the applicant's consultant; and

WHEREAS, LPC requested that an archaeological documentary study be completed for the proposed development; LPC's request for this study was based on the presence of potentially significant archaeological resources on the site; and

WHEREAS, a Restrictive Declaration was executed on March 24, 2006 and recorded on March 27, 2006, to address archaeological concerns; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §72-21 and grants a variance to permit, on a lot within an M1-1 zoning district, a three-story plus basement residential development with five dwelling units, which is contrary to ZR §42-10, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received March 10, 2006"-(10) sheets; and *on further condition*:

THAT the applicant or any successor in title shall adhere to all requirements for archaeological identification, investigation, and mitigation as set forth in the CEQR Technical Manual and LPC's Guidelines for Archaeological Work in NYC, including without limitation, the completion of an archaeological documentary study, any required field testing, excavation, mitigation, curation of archaeological resources, and a final archeological report, as required by the LPC, and as memorialized in the Restrictive Declaration executed on March 24, 2006 (collectively, the "Archaeological Work");

THAT prior to the issuance of any DOB permit for any work on the site that would result in soil disturbance (such as site preparation, grading or excavation), the applicant or any successor shall perform all of the Archaeological Work to the satisfaction of LPC and submit a written report that must be approved by LPC; the only exception to this condition shall be those soil disturbing activities necessitated by the applicant's

MINUTES

performance of the Archaeological Work required for LPC's approval (such as the digging of archaeological "pits") that may require a DOB permit;

THAT any DOB permit issued for soil disturbing activities pursuant to this exception shall clearly state on its face that such soil disturbance is limited to that necessary to perform the mandated archaeological work;

THAT no temporary or permanent Certificate of Occupancy shall be issued by DOB or accepted by the applicant or successor until the Chairperson of LPC shall have issued a Final Notice of Satisfaction or a Notice of No Objection indicating that the Archaeological Work has been completed to the satisfaction of LPC;

THAT the following shall be the bulk parameters of the proposed building: a residential and total FAR of 2.7; three stories plus a basement; a street wall height of 39'-11"; a total height of 39'-11"; five dwelling units; a five ft. front yard; and 30'-0" rear yard; lot coverage of 66.3 percent; and one parking space;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 28, 2006.

179-05-BZ

APPLICANT – Harold Weinberg, P.E., for Steven Goldfarb, owner.

SUBJECT – Application August 3, 2005 – Special Permit pursuant to ZR §73-622 for a two story rear enlargement to a single family semi-detached home to vary Z.R. §23-14 for floor area and open space, Z.R. §23-47 for less than the required rear yard, Z.R. §23-641 for less than the required side yard and Z.R. §23-631 for total height. The premise is in an R3-1 zoning district.

PREMISES AFFECTED – 139 Langham Street, east side 311'-8 7/8" south of Shore Boulevard, Block 8755, Lot 84, Borough of Brooklyn.

COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Harold Weinberg.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated January 27, 2006, acting on Department of Buildings Application No. 301981069, reads, in pertinent part:

“The proposed enlargement of the two-story residence in an R3-1 zoning district:

1. Creates a new non-compliance with respect to floor area ratio and is contrary to Section 23-141.
2. Creates a new non-compliance with respect to lot coverage and open space and is contrary to Section 23-141.
3. The proposed enlargement creates a new non-compliance by encroaching on the required 30' rear yard and is contrary to Section 23-47.
4. The proposed enlargement increases the degree of non-compliance with respect to a deficient side yard and is contrary to sections 23-461(b) and 54-31.”; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R3-1 zoning district, the proposed enlargement of an existing semi-detached single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio (FAR), Open Space Ratio (OSR), and side and rear yards, contrary to ZR §§ 23-14, 23-47, and 23-461; and

WHEREAS, a public hearing was held on this application on March 14, 2006, after due notice by publication in *The City Record*, and then to decision on March 28, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

MINUTES

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject lot is located on the east side of Langham Street, south of Shore Boulevard; and

WHEREAS, the subject lot has a total lot area of 2,000 sq. ft.; and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 927.4 sq. ft. (0.46 FAR) to 1,640 sq. ft. (0.82 FAR); the maximum floor area permitted is 1,000 sq. ft. (0.50 FAR); and

WHEREAS, the proposed enlargement will decrease the OSR from 76.8 percent to 58.7 percent; the minimum required OSR is 65 percent; and

WHEREAS, the proposed enlargement of the existing building will increase the degree of non-compliance for the side yard by building in the place of an existing un-enclosed rear deck to make it aligned with the rest of the building; however, the 4 ft. width of the sole side yard will be maintained; and

WHEREAS, the proposed enlargement will reduce the rear yard from 45' to 24'-10"; the minimum rear yard required is 30'-0"; and

WHEREAS, the enlargement of the building into the rear yard is not located within 20'-0" of the rear lot line; and

WHEREAS, the existing non-complying wall height of 25 ft. will be maintained; and the existing complying total height of 28 ft. will be maintained; and

WHEREAS, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R3-1 zoning district, the proposed enlargement of an existing semi-detached single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio, Open Space Ratio, and side and rear yards, contrary to ZR §§ 23-14, 23-47, and 23-461; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received January 31, 2006"-(8) sheets; and *on further condition*:

THAT there shall be no habitable room in the cellar; THAT the above condition shall be set forth in the certificate of occupancy;

THAT the total FAR on the premises shall not exceed 0.82;

THAT the use and layout of the cellar shall be as approved by DOB;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 28, 2006.

285-05-BZ

APPLICANT – Rothkrug Rothkrug Weinberg Spector, for Robert E. Benson, owner.

SUBJECT – Application September 13, 2005 – Pursuant to Section ZR §72-21 for a variance for the proposed enlargement of an existing one-family dwelling that will not provide the required front yard, ZR §23-45 and rear yard, ZR §23-47. The premise is located in an R1-2 (HS) Hillside Preservation District.

PREMISES AFFECTED – 34 Duncan Road, West side of Duncan Road 163' North of intersection with Theresa Place, Block 591, Lot 52, Borough of Staten Island.

COMMUNITY BOARD #1SI

APPEARANCES –

For Applicant: Adam W. Rothkrug.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Staten Island Borough Commissioner, dated September 6, 2005, acting on Department of Buildings Application No. 500793331, reads:

- “1. In an R1-2 district, the proposed enlargement of an existing residence within a required 30' rear yard is contrary to Section 23-47 of the NYC Zoning Resolution.
2. In an R1-2 district, the proposed enlargement of an existing residence within a required 20' front yard is contrary to Section 23-45 of the NYC Zoning Resolution.”; and

WHEREAS, this is an application under ZR §72-21, to permit, in an R1-2 zoning district within the Special Hillside

MINUTES

Preservation District, the proposed enlargement of an existing one- and two-story plus cellar single family home within non-complying front and rear yards, contrary to ZR §§ 23-45 and 23-47; and

WHEREAS, a public hearing was held on this application on March 7, 2006, after due notice by publication in The City Record, and then to decision on March 28, 2006; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application; and

WHEREAS, the City Councilman for the 49th District, Michael E. McMahon, objects to this application, citing concerns about the site's location in the Special Hillside Preservation District; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board, including Chair Srinivasan and Commissioner Chin; and

WHEREAS, the site is located on the west side of Duncan Road, 163 feet north of the intersection with Theresa Place; and

WHEREAS, the site is 75.5 ft. in width and 35.4 ft. in length, with a total lot area of 3,460 sq. ft.; and

WHEREAS, the site is currently improved upon with a 1,145 sq. ft. one- and two-story single family home and a one-story detached garage; and

WHEREAS, the applicant proposes to construct a one-story enclosure around the existing front entry and to construct a one-story horizontal enlargement and two-story vertical enlargement in the rear which would square off the existing one-story section of the house; and

WHEREAS, the resulting enlargement will result in a residence with a floor area that is 1,551 sq. ft. (FAR of 0.45); the total allowable residential floor area is 1,730 sq. ft. (FAR of 0.5); and

WHEREAS, for a residence in an R1-2 zoning district within the Special Hillside Preservation District, the required front yard is 20 ft.; the required rear yard is 30 ft.; and side yards are required to be 8 ft. and 12 ft.; and

WHEREAS, the existing home has a non-complying front yard of 7.33 ft., a non-complying rear yard of 4.59 ft., and complying side yards of 8.09 ft. and 33 ft.; and

WHEREAS, although the yards' depths will remain the same, the proposed enlargement will increase the degree of non-compliance for the front and rear yards because the encroachments will be within the non-complying yards; and

WHEREAS, the applicant states that the following is a unique physical condition, which creates practical difficulties and unnecessary hardship in developing the subject site in compliance with underlying district regulations: the site is an irregularly shaped lot with 75.5 ft. of frontage on Duncan Road and a depth of only 35.4 ft., with existing non-complying front and rear yards; and

WHEREAS, the applicant further states that the requested variances are necessary in order to utilize allowable floor area; and

WHEREAS, therefore, the Board finds that the cited unique physical conditions, namely the shallowness of the lot and its irregular shape, create practical difficulties in

developing the site in strict compliance with the referenced zoning regulations; and

WHEREAS, the applicant represents that in order to accommodate the floor area allowed under the zoning, the requested waivers are necessary as there is no other viable enlargement option; and

WHEREAS, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that an enlargement using available floor area will comply with the applicable zoning requirements; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, the applicant represents that the proposed residence will comply with the Special Hillside Preservation District and the proposed additions will comply with the district's bulk parameters; and

WHEREAS, the radius map submitted by the applicant reflects that the subject site is not only irregularly-shaped, but has the shortest depth, and is among the smallest, of the 20 lots within the radius; and

WHEREAS, further, the applicant states that the proposed overall height, at 19 ft., remains the same and that the property is surrounded by sizeable neighboring yards; and

WHEREAS, the applicant states that the proposed structure will contain 1,551 sq. ft. of floor area, while 1,730 sq. ft. is permitted as of right within the underlying zoning district; and

WHEREAS, therefore, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the applicant relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II Declaration under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 72-21, to permit, in an R1-2 zoning district within the Special Hillside Preservation District, the proposed enlargement of an existing one- and two-story plus cellar single family home, within non-complying front and rear yards, contrary to ZR §§ 23-45 and 23-47; on condition that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 24, 2006"--(4) sheets; and on further condition:

THAT the parameters of the proposed building shall be as follows: an FAR of 0.45; a floor area of 1,551 sq. ft.; side yards of 8.09 ft. and 33 ft.; a front yard of 7.33 ft.; and a rear

MINUTES

yard of 4.59 ft.;

THAT the internal floor layouts on each floor of the proposed building shall be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 28, 2006.

301-05-BZ

APPLICANT – Sheldon Lobel, P.C., for Jeanette Impaglia, owner.

SUBJECT – Application October 12, 2005 – Special Permit Under §73-36 to permit the operation of a Physical Culture Establishment on the second floor mezzanine of a building located within a C6-3X.

PREMISES AFFECTED – 410 8th Avenue, located on the East side of 8th Avenue between 30th and 31st Streets, Block 780, Lot 76, Borough of Manhattan

COMMUNITY BOARD #5M

APPEARANCES –

For Applicant: Josh Rinesmith.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated September 12, 2005, acting on Department of Buildings Application No. 104165653, reads, in pertinent part:

“Proposed use physical culture establishment is not permitted as of right and is contrary to ZR 32-10.”; and

WHEREAS, this is an application under ZR §§73-36 and 73-03, to permit, within a C6-3X zoning district, a proposed physical culture establishment (“PCE”) to be located on the second floor mezzanine of an existing building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 7, 2006, after due notice by publication in *The City Record*, and then to decision on March 28, 2006; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the New York City Fire Department has

indicated to the Board that it has no objection to this application; and

WHEREAS, the subject site is located on the east side of Eighth Avenue, between 30th and 31st Streets, and has a lot area of 2,500 sq. ft.; and

WHEREAS, the subject PCE will occupy 1,996 sq. ft. on the second floor mezzanine; and

WHEREAS, the applicant represents that the PCE will provide massage services by licensed massage professionals; and

WHEREAS, the PCE will have the following hours of operation: daily, 10:00 AM to 1:00 AM; and

WHEREAS, at hearing, the board raised the issue of how access would be granted to the second floor mezzanine; and

WHEREAS, the applicant responded that there is a common doorway serving the buildings at 410 and 412 Eighth Avenue which allows for ingress and egress for both buildings and that visitors to the PCE will be buzzed into the building after ringing the intercom for the PCE; and

WHEREAS, further, the applicant responded that there is an easement recording the shared use of the entrance; and

WHEREAS, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 06-BSA-022M, dated October 12, 2005; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise;

MINUTES

Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, within a C6-3X zoning district, a proposed physical culture establishment to be located on the second floor mezzanine of an existing building; on condition that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received December 30, 2005"-(1) sheet; and on further condition:

THAT the term of this grant shall be for ten years from the date of the grant, expiring on March 28, 2016;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to daily, 10:00AM to 1:00AM;

THAT all massages shall be performed only by New York State licensed massage professionals;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT an easement granting common ingress and egress for 410 and 412 Eighth Avenue will be maintained;

THAT the recording information for the easement shall be listed on the Certificate of Occupancy;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety measures shall be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 28, 2006.

72-05-BZ

MAY 9, 2006, 1:30 P.M.

MINUTES

REGULAR MEETING TUESDAY MORNING, APRIL 4, 2006 10:00 A.M.

Present: Chair Srinivasan, Vice Chair Babbar,
Commissioner Chin and Commissioner Collins.

The minutes of the regular meetings of the Board held on Tuesday morning and afternoon, January 31, 2006, were approved as printed in the Bulletin of February 9, 2006, Volume 91, No. 6. If there be no objection, it is so ordered.

SPECIAL ORDER CALENDAR

148-03-BZ

APPLICANT – Francis R. Angelino, Esq., for North West Real Estate, LLC, owner.

SUBJECT – Application August 18, 2005 – Reopening for an amendment to a previously approved five story and penthouse mixed commercial and residential building to add a mezzanine in the residential penthouse, located in an M1-6 zoning district.

PREMISES AFFECTED – 111/13 West 28th Street, between Sixth and Seventh Avenues, 164’-4” west of Sixth Avenue, Block 804, Lots 1101-1105 (formerly 28 and 29), Borough of Manhattan.

COMMUNITY BOARD #5M

APPEARANCES –

For Applicant: Francis R. Angelino and David W. Sinclair.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this application is a request for a re-opening and an amendment to a previously granted variance; and

WHEREAS, a public hearing was held on this application on February 14, 2006, after due notice by publication in *The City Record*, with a continued hearing on March 14, 2006, and then to decision on April 4, 2006; and

WHEREAS, the subject site is located on the north side of West 28th Street, west of Sixth Avenue; and

WHEREAS, on October 23, 2003, the Board granted an application under ZR §72-21, to permit, in an M1-6 zoning district, the development of residential condominiums (Use Group 2) in an existing building and the legalization of the existing residential units; and

WHEREAS, on December 10, 2004, the Board approved, by letter, the applicant’s request for minor changes to the approved plans, including moving the penthouse façade wall 1’-0” to the south to accommodate a new fire stair/elevator wall and reducing the overall height of the street wall by 5’-2”;

WHEREAS, the applicant represents that lowering the

street wall, resulted in the penthouse floor having a height of 17 ft.; and

WHEREAS, the applicant further represents that structural brace beams will be added to support the 17 ft. columns within the penthouse walls; and

WHEREAS, the applicant proposes to use the brace beams at the rear of the penthouse to support a mezzanine of approximately 1,075.4 sq. ft.; and

WHEREAS, the mezzanine would be completely within the approved exterior envelope of the building and would not result in any exterior changes; and

WHEREAS, the applicant states that even with the addition of the mezzanine, the revised FAR of 5.19 (4.76 was previously approved) is well below the permitted FAR of 10.0 permitted in the zoning district; and

WHEREAS, the applicant provided a feasibility study noting that this minor change only slightly increases the rate of return, but makes the project feasible; and

WHEREAS, the Board finds that this minor change does not affect the finding that the approved variance is the minimum necessary to afford relief; and

WHEREAS, based upon the above, the Board finds it appropriate to approve the proposed amendment.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on October 23, 2003, so that as amended this portion of the resolution shall read: “to permit the construction of a penthouse mezzanine; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received March 21, 2006”-(4) sheets; and *on further condition*:

THAT the maximum FAR shall be 5.19;

THAT the addition of the penthouse mezzanine will not alter the exterior of the building;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 103390910)

Adopted by the Board of Standards and Appeals, April 4, 2006.

540-53-BZ

APPLICANT – Joseph P. Morsellino, Esq., for Marbridge Realty Co., Inc., owner.

SUBJECT – Application October 25, 2005 – Extension of

MINUTES

Term/Waiver for an existing parking lot accessory to a commercial building. The premise is located in a C2-4 and R3-1 zoning district.

PREMISES AFFECTED – 87-17 111th Street, Block 9301, Lots 124, 125, Borough of Queens.

COMMUNITY BOARD #9Q

APPEARANCES –

For Applicant: Joseph P. Morsellino.

THE VOTE TO CLOSE HEARING –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Collins.....4

Negative:.....0

ACTION OF THE BOARD - Laid over to May 2, 2006, at 10 A.M., for decision, hearing closed.

295-77-BZ

APPLICANT – Walter T. Gorman, P.E., for Alfred M. Lama, Barnik Associates, LLC, owner.

SUBJECT – Application September 27, 2005 – Extension of Term/Waiver of a variance Z.R. §72-21 for the continued use of a gasoline service station which expired on October 1, 2003 for an additional ten (10) years; and an amendment to legalize the conversion of a portion of the service building from office/sales and attendant’s area to an accessory convenience store, the erection of a trash enclosure, air pump tower and car vacuum, a public telephone and wooden planter boxes. The premise is located in an C1-2 in R4 zoning district.

PREMISES AFFECTED – 87-10 Northern Boulevard, southside blockfront between 87th and 88th Streets, Block 1435, Lot 1, Borough of Queens.

COMMUNITY BOARD #3Q

APPEARANCES –

For Applicant: John Ronan.

ACTION OF THE BOARD – Laid over to May 16, 2006, at 10 A.M., for continued hearing.

545-78-BZ

APPLICANT – Petraro & Jones, LLP, for Cotaldo Vasapolli, owner.

SUBJECT – Application January 15, 2004 – Reopening for an extension of the term of a variance for a commercial vehicle storage establishment in an R4 zoning district. The term expired on March 27, 2002. The application also seeks a waiver of the Board’s rules of practice and procedure for an extension of term application filed more than one year, but less than two years, following expiration of the term. The premise is located in an R4 zoning district.

PREMISES AFFECTED – 901/903 Pine Street, West side of Pine Street, 250 feet north of the intersection of Pine Street and Cozine Avenue, Borough of Brooklyn.

COMMUNITY BOARD #5BK

APPEARANCES –

For Applicant: Patrick Jones.

ACTION OF THE BOARD – Laid over to May 16, 2006, at 10 A.M., for continued hearing.

231-04-A

APPLICANT – Joseph P. Morsellino, Esq., for Chri Babatsikos and Andrew Babatsikos, owners.

SUBJECT – Application June 17, 2004 – Proposed one family dwelling, located within the bed of a mapped street, is contrary to Section 35, Article 3 of the General City Law.

PREMISES AFFECTED - 240-79 Depew Avenue, corner of 243rd Street, Block 8103, Lot 5, Borough of Queens.

COMMUNITY BOARD#11Q

APPEARANCES –

For Applicant: Joseph Morsellino.

ACTION OF THE BOARD – Laid over to May 16, 2006, at 10 A.M., for deferred decision.

359-04-BZ

APPLICANT – Eric Palatnik, P.C., for Alfred Savegh, owner.

SUBJECT – Application November 12, 2004 – Under Z.R. §73-622 to permit the legalization of an enlargement to an existing single family residence, located in an R-2 zoning district, which does not comply with the zoning requirements for floor area ratio, open space ratio and rear yard, is contrary to Z.R. §23-141 and §23-47.

PREMISES AFFECTED – 1425 East 24th Street, between Avenues "N" and "O", Block 7678, Lot 40, Borough of Brooklyn.

COMMUNITY BOARD #14BK

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated October 14, 2004, acting on Department of Buildings Application No. 300414031, reads,

in pertinent part:

“Proposed legalization of existing floor area ratio (ZR Section 23-141), open space ratio (ZR Section 23-141) and rear yard (ZR Section 23-47) requires a special permit from the New York City Board of Standards and Appeals.”

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R2 zoning district, the proposed legalization of an existing rear yard enlargement to a single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio (FAR), Open Space Ratio (OSR), and rear yard, contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on March 14, 2006, after due notice by publication in *The City Record*, and then to decision on April 4, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 14, Brooklyn, recommends disapproval of this application due to its policy to deny legalizations; and

WHEREAS, the subject lot is located on East 24th Street between Avenue N and Avenue O; and

WHEREAS, the subject lot has a total lot area of 3,500 sq. ft.; and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant has increased the floor area from the pre-existing 1,966 sq. ft. (0.56 FAR) to 2,366 sq. ft. (0.68 FAR); the maximum floor area permitted is 1,750 sq. ft. (0.50 FAR); and

WHEREAS, the enlargement decreased the OSR from 127 percent to 98 percent; the minimum required OSR is 150 percent; and

WHEREAS, the enlargement reduced the size of the rear yard from 34’-0” to 24’-0”;

WHEREAS, the enlargement of the building into the rear yard is not located within 20’-0” of the rear lot line; and

WHEREAS, the complying side yards of 5’-5” and 9’-7”, and complying front yard of 17’-0” have been maintained; and

WHEREAS, both the complying wall height of 20’-1” and the pre-existing non-complying total height of 26’-0” have been maintained; and

WHEREAS, the Board finds that the minor enlargement at the rear of the building neither alters the essential character of the surrounding neighborhood, nor impairs the future use and development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be

MINUTES

made under ZR § 73-622 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed legalization of an existing rear yard enlargement to a single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio, Open Space Ratio, and rear yard, contrary to ZR §§ 23-14 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "March 21, 2006"-(8) sheets; and *on further condition*:

THAT the total FAR on the premises shall not exceed 0.68;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 4, 2006.

26-05-BZ

CEQR #06-BSA-092K

APPLICANT – Cozen O’Connor, for Tikvah Realty, LLC, owner.

SUBJECT – Application February 11, 2005 – Under Z.R. §72-21 to permit the proposed bulk variance, to facilitate the new construction of an 89 room hotel on floors 4-6, catering facility on floors 1-3, ground floor retail and three levels of underground parking, which creates non-compliance with regards to floor area, rear yard, interior lot, permitted obstructions in the rear yard, setback, sky exposure plane, loading berths and accessory off-street parking spaces, is contrary to Z.R. §33-122, §33-26, §33-432, §36-21, §33-23 and §36-62.

PREMISES AFFECTED – 1702/28 East 9th Street, a/k/a 815 Kings Highway, west side, between Kings Highway and Quentin Road, Block 6665, Lots 7, 12 and 15, Borough of Brooklyn.

130-05-BZ

CEQR #05-BSA-133M

APPLICANT – Elise Wagner, Esq., Kramer Levin, for Hudson Island, LLC, owner.

SUBJECT – Application May 25, 2005 – Under Z.R. §72-21 to permit the development of a mixed-use, nine-story building with ground level retail, and a small amount of community facility space, and approximately 25 residential units on the upper floors within an M1-5B zoning district.

PREMISES AFFECTED – 74-88 Avenue of the Americas, a/k/a 11-15 Thompson Street and 27-31 Grand Street, east side of Avenue of the Americas, between Grand and Canal Streets, Block 227, Lots 50, 52 and 56, Borough of Manhattan.

COMMUNITY BOARD #2M

APPEARANCES –

For Applicant: Paul Selver.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated April 27, 2004, acting on Department of Buildings Application No. 104062648, reads, in pertinent part:

“The proposed residential use . . . in a M1-5B zoning district is contrary to ZR 42-00 and therefore not permitted.

Proposed commercial use (use group 6) in a M1-5B zoning district is contrary to Z.R. 42-14 D and therefore not permitted.”; and

WHEREAS, this is an application under Z.R. § 72-21, to permit, on a site within an M1-5B zoning district, an eight-story mixed-use residential/retail building with retail space on the ground floor and 23 dwelling units on the upper floors, which is contrary to Z.R. §§ 42-10 and 42-14(D); and

WHEREAS, the applicant proposes to construct an eight-story mixed-use residential and retail building, with 23 residential units and ground floor retail, an 80 ft. street wall, a maximum of 116 ft. in total height (without bulkheads), a maximum of 150 ft. in total height with bulkheads, a total Floor Area Ratio (FAR) of 5.89, a residential FAR of 5.3, and a retail FAR of 0.59; no parking will be provided; and

WHEREAS, the applicant represents that the building will be designed with “green” technology design features that will conserve energy and protect the environment; and

WHEREAS, the applicant initially proposed to construct a nine-story mixed-use residential and retail building, with 25 residential units and ground floor retail and community facility space, an 80 ft. street wall, 116 ft. in total height (without bulkheads), and with a total FAR of 6.5; and

MINUTES

WHEREAS, a public hearing was held on this application on November 1, 1005, after due notice by publication in the *City Record*, with continued hearings on December 6, 2005, January 24, 2006, March 7, 2006, and then to decision on April 4, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin, and Commissioner Collins; and

WHEREAS, Community Board No. 2, Manhattan, recommends approval of the application on condition that the FAR of the proposed building be limited to 5.0 and that unit size be a minimum of 1,200 sq. ft.; and

WHEREAS, the subject premises is located on the east side of the Avenue of the Americas, between Grand and Canal Streets, and is an 11,330 sq. ft. site consisting of three tax lots (50, 52, and 56); and

WHEREAS, Lot 50 is occupied by a one-story diner, Lot 52 is occupied by a paved parking lot, and Lot 56 is occupied with a two-story garage and photo shop; and

WHEREAS, the applicant states that the existing improvements on the site will be removed; and

WHEREAS, during the hearing process, the Board suggested to the applicant that the initially proposed 6.5 FAR building did not represent the minimum variance, and asked that a reduced FAR building be evaluated and submitted; and

WHEREAS, the applicant subsequently revised the proposal to the current version; the primary modifications were the removal of a courtyard and the elimination of one of the two proposed cores, which were features present in the initial design; and

WHEREAS, the applicant states that these modifications allowed the reduction in FAR and height, and increased the proposed building's ratio of sellable floor area to gross floor area; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the site is trapezoidal in shape and relatively narrow; (2) the site is burdened with a high water table; (3) the site has a thick and unstable fill layer; (4) the site's soil is contaminated; (5) the site is abutted by two relatively narrow streets on two of its three street frontages; and (6) the site is proximate to active subway tunnels; and

WHEREAS, as an initial matter, the Board observes that while the shape is the result of the merger of the three tax lots, this merger actually helps to alleviate inherent shape and size constraints of each individual tax lot; nonetheless, some hardship based upon shape and size remains; and

WHEREAS, as a further threshold matter, the Board notes that the specific combination of unique physical features, and the degree to which they impact conforming development, is particular to the site; and

WHEREAS, this is evidenced by a map and chart of soft and proposed development sites (some of which have been the subject of Board actions), submitted by the applicant during the

course of the hearing process; and

WHEREAS, the map and chart set forth twelve other sites in the area of the subject site; and

WHEREAS, for nine of these sites, the chart illustrates the sub-surface conditions, the depth to bedrock, and the adjacency of a subway; and

WHEREAS, the chart then provides remarks comparing the nine sites to the subject site; and

WHEREAS, the chart illustrates that unlike the other nine sites, the subject site is the only site that is afflicted by the particular combination of unique physical conditions listed above; and

WHEREAS, while some of the other sites may have similar soil conditions, exposure to floor risk, or adjacency to subways, none suffer all these conditions to the same degree or in the same combination as the subject site; and

WHEREAS, as to those sites that were the subject of Board action, two did not present subsurface conditions as a hardship, one was not adjacent to a subway, and one had less flood risk and the ability to use slightly shorter piles; and

WHEREAS, the Board notes that, in response to its request for further clarification, the applicant explained that while some of the other sites are near subways, the subject site is one of the few in the area where a subway tunnel extends past the curb line onto the property; and

WHEREAS, the applicant also showed that the subway tunnel is located at an unusually shallow depth where it extends into the curb line, and that, in addition to the tunnel, there is a stairwell to the nearby station that must also be protected and which further complicates construction; and

WHEREAS, the Board further notes that the site also suffers from environmental contamination and adjacency to narrow streets; and

WHEREAS, the Board concludes that the subject site is singularly afflicted in terms of the amount of unique physical conditions and the manner in which they combine to affect conforming development; and

WHEREAS, as to the specific features, the applicant states in the February 17, 2006 submission that the combination of the site's unusual proximity to an active subway tunnel, its relative narrowness and trapezoidal shape, and its unstable soil conditions require a drilled piles foundation system, which is more expensive than a typical spread footing foundation system; and

WHEREAS, the applicant supported this statement with a letter prepared by its engineering consultant; and

WHEREAS, specifically, the letter from the engineering consultant states that due to the subsurface conditions consisting of a deep fill layer overlying organic materials deposited in a previous marsh, the building should be supported on deep foundations; and

WHEREAS, the letter goes on to state that the choice of type of piles required for this foundation is constrained by the adjacency of the subway tunnel; and

WHEREAS, the letter concludes that the use of drilled piles may be the best solution because it avoids the use of driven

MINUTES

piles, which are not permitted by the New York City Transit Authority (TA) in such close proximity to a subway line, and because the poor soil conditions demand drilled piles as a means to minimize vibration that could affect the tunnel even at locations on the site where the TA might allow other types of piles; and

WHEREAS, the applicant further states that because of the proximity of the subway tunnel, the TA is expected to require a test pit, which must be dug by hand to avoid damage to the tunnel; and

WHEREAS, this statement is supported by a letter prepared by the construction consultant; and

WHEREAS, specifically, this letter states that the TA will require an assessment of the subway wall prior to the commencement of construction, which necessitates the digging of a test pit along the tunnel wall; and

WHEREAS, the applicant notes that the combination of the subway tunnel and the narrowness of Grant and Thompson Streets precludes the use of a more economic crawler crane during construction, and instead requires the use of a more expensive tower crane; and

WHEREAS, the applicant also states that the proximity of the tunnel necessitates the placement of steel plates at the subway grating, in order to accommodate the construction bridge and hoist; and

WHEREAS, again, the letter from the construction consultant discusses these problems, noting that the TA will not accept the weight of a crawler crane near the tunnel; and

WHEREAS, the letter also points out that because the tunnel extends past the curb line, the TA is expected to control the construction of the building's foundation over a far higher proportion of the site than it does over property that is separated from a tunnel by a sidewalk width and that has more stable soil conditions; and

WHEREAS, finally, the applicant states that the site's soil and groundwater are contaminated, which must be remediated; and

WHEREAS, this statement is supported by a letter from the applicant's environmental consultant, which describes the type and degree of contamination, caused by past gasoline spills; and

WHEREAS, the Board has reviewed these claims and the evidence submitted in support of them, and agrees that said conditions lead to increased construction costs in developing the site with a conforming development; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study analyzing the following as-of-right scenarios: (1) an as of right office scenario, with an FAR of 5.0; and (2) an as of right hotel, with an FAR of 5.0; and

WHEREAS, the applicant concluded that such scenarios

would result in a loss, due to the premium construction costs related to the above-stated unique physical conditions; and

WHEREAS, however, the Board had concerns regarding certain aspects of this study, and identified them at hearing; and

WHEREAS, specifically, the Board questioned: (1) the actual amount of the premium construction costs related to the identified hardships; (2) the claimed overall construction costs; (3) the claimed sell out period; and (4) the comparables uses to establish the sell-out price of the condominium units; and

WHEREAS, the applicant, in subsequent submissions, satisfactorily addressed each of these concerns; and

WHEREAS, the applicant provided more detailed information about the premium construction costs, as well as eliminated certain costs as hardship costs; established that the overall construction costs per square foot were comparable to other similar construction projects, and also updated these costs; modified the sell-out period per the Board's instruction; and revised the site valuation comparables; and

WHEREAS, the eliminated costs included expenditures related to delays associated with the New York City Transit Authority (TA) review period (due to the proximity of the subway), TA communications in general, TA staffing needs during construction, increased perimeter construction, and insulating development from vibrations from the subway; and

WHEREAS, the applicant recharacterized these costs to the base construction budget, and did not claim them as hardship costs; and

WHEREAS, based upon its review of the subsequent submissions of the applicant, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant provided the Board with a detailed description of the neighborhood's use and bulk context; and

WHEREAS, specifically, the applicant states that the site straddles the border between (i) SoHo, (ii) Hudson Square and (iii) Tribeca and is located at the intersection of Avenue of the Americas, Canal Street and Thompson Street in Manhattan; and

WHEREAS, the applicant states that the immediate area is predominantly residential and commercial uses with some remaining manufacturing/industrial uses; and

WHEREAS, the applicant concludes that the development of the proposed building, with its mix of residential units with ground floor retail and community facility use would reinforce the mixed-use character of the surrounding neighborhood; and

WHEREAS, the applicant notes that this combination of uses would be similar to the residential and retail character

MINUTES

that currently exists along Grand Street; in addition, the SoHo area contains many non-conforming residential buildings that pre-date the M1-5B zoning; and

WHEREAS, the applicant observes that the Hudson Square neighborhood, located to the west of the site, across the Avenue of the Americas, is a mixed-use area characterized by commercial and office uses, industrial uses, and an increasing number of residential uses; and

WHEREAS, the applicant further observes that the nearby Tribeca Mixed Use District, which begins on the block just south of the Property, acknowledge the mixed residential/industrial character of these neighborhood; and

WHEREAS, the applicant concludes that the proposed building, located at a highly visible location at the intersection of Avenue of the Americas, Grand, Canal and Thompson Streets, will contribute to the vitality of this area and the value of neighboring properties; and

WHEREAS, the applicant also concludes that the proposed residential and retail uses are consistent with the mixed-use character of the area, which includes many other residential uses, some of which occupy the subject block; and

WHEREAS, in support of the above statements, the applicant submitted a land use map, showing the various uses in the immediate vicinity of the site; and

WHEREAS, based upon its review of the submitted land use map and its inspection, the Board agrees that the character of the area is mixed-use, and finds that neither the introduction of 23 dwelling units nor the introduction of ground floor retail in this area will impact nearby conforming uses nor negatively change the area's character; and

WHEREAS, as to the height and massing, the applicant states that the proposed building would be similar in height to existing loft-style office buildings in the neighborhood; and

WHEREAS, the applicant observes that the building would be shorter than the nearby 17-story SoHo Grand Hotel on the block to the east, the 16-story loft-style office building at 100 Avenue of the Americas on the block to the north, and the 22-story office tower on the west side of Avenue of the Americas between Watts and Grand Streets; in addition, the building would be significantly shorter than the 22-story tower that is planned for construction on the block to the west of the site; and

WHEREAS, the Board also observes that the site is located primarily on the Avenue of the Americas, which is a 100 ft. wide, major north/south corridor, along which there are several large commercial buildings of between 16 and 22 stories, which are higher than the proposed 116' high building; and

WHEREAS, the Board further observes that the west side of the Avenue of the Americas near the premises is zoned M1-6, which allows 10.0 FAR development with no height limit; and

WHEREAS, in response to the Board's concerns about the impact of additional floor area above the 5.0 FAR that the subject district allows for a conforming use, the applicant represented that the proposed building has an FAR that is less than the adjacent 7.0 FAR building, and that is in the midrange

of FARs of other buildings in the surrounding blocks; and

WHEREAS, the applicant notes that the proposed building complies with all of the bulk controls applicable in an R7X zoning district aside from FAR and lot coverage, and fits within the bulk envelope and FAR permitted in a C6-2A zoning district in Hudson Square (the district chosen by the Department of City Planning as the basis for residential rezonings of 5.0 FAR manufacturing zones); and

WHEREAS, the applicant concludes that the building's height and massing provide an appropriate transition between the lower scale of development in SoHo to the east of the site, and the high density development along Avenue of Americans and in Hudson Square to the west; and

WHEREAS, in support of these statements, the applicant has submitted maps illustrating the heights and FARs of surrounding buildings; and

WHEREAS, based upon its review of these maps and its inspection, the Board agrees that the proposed building's height and FAR are consistent with other buildings in the neighborhood; and

WHEREAS, the Board also observes that unlike other sites in the SoHo area along narrow streets in historic districts, the additional FAR above 5.0 is consistent with the surrounding context; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, in addition to the analyses of the conforming scenarios, the applicant also submitted analyses of the following lesser variance scenarios: (1) a hotel scenario, with increased height and density, and an FAR of 6.5; and (2) a six-story residential building, with 20 dwelling units, and an FAR of 5.0; and

WHEREAS, the applicant concluded that neither of these scenarios would realize a reasonable return, due to the significant premium construction costs and the extended construction period; and

WHEREAS, the applicant also provided the Board with analyses of the originally proposed 6.5 FAR residential building, as well as the proposed 5.89 FAR residential building, subsequent to the Board's request to reduce the bulk of the proposed building; and

WHEREAS, the applicant states, and the Board agrees, that the return associated with the 5.89 FAR building represents a reasonable return and the minimum variance; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6NYCRR; and

MINUTES

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05-BSA-133M, dated May 25, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site within an M1-5B zoning district, an eight-story, 116 ft. tall building with retail space on the ground floor and 23 residential units on the upper floors, which is contrary to ZR §§ 42-10 and 42-14(D), *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received April 3, 2006"-(17) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the proposed building: eight stories, 23 residential units, a maximum of 116 ft. in total height (without bulkheads), a maximum of 150 ft. in total height (with bulkheads), an 80 ft. street wall, a total FAR of 5.89, a residential FAR of 5.3, and a retail FAR of 0.59;

THAT rooftop obstructions shall be permitted only as per the notes on the BSA-approved plans; however, modification of the rooftop obstructions within these parameters shall not require further Board review;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning

Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 4, 2006.

136-05-BZ

APPLICANT – Gerald J. Caliendo, R.A., A.I.A., for Irving Avenue Holding, LLC, owner.

SUBJECT – Application June 3, 2005 – Under Z.R. §72-21 to construct a two family, two story dwelling which does not comply with the front yard requirement pursuant to Z.R. §23-45 and is less than the required lot width/lot area pursuant to Z.R. §23-32. The premise is located in an R4 zoning district. PREMISES AFFECTED – 1901 Nereid Avenue, corner formed by intersection of the east side of Ely Avenue and North side of Nereid Avenue, Block 5092, Lot 10, Borough of The Bronx.

COMMUNITY BOARD #10BX

APPEARANCES –

For Applicant: Sandy Anagnostou.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Bronx Deputy Borough Commissioner, dated March 8, 2006, acting on Department of Buildings Application No. 200918784, reads in pertinent part:

“1. Proposed front yard is contrary to Z.R. 23-45.”;
and

WHEREAS, this is an application under Z.R. §72-21, to permit, within an R4 zoning district, the proposed construction of a two-story, two-family home with only one required front yard, contrary to Z.R. § 23-45; and

WHEREAS, a public hearing was held on this application on February 7, 2006 after due notice by publication in *The City Record*, and laid over to March 14, 2006 and then to decision on April 4, 2006; and

WHEREAS, Community Board 12, Bronx, recommends disapproval of this application based on concerns about blockage of the next door neighbor’s windows, parking impacts, as well as concern that a two-family residence is not in character with the block; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board, including Chair Srinivasan and Commissioner Collins; and

WHEREAS, the site is located at the northeast corner of Ely Avenue and Nereid Avenue; and

WHEREAS, the site is 23.75 ft. in width, with a total lot area of 2,137.5 sq. ft.; and

WHEREAS, the site is currently vacant and the applicant states that the lot has existed in its present configuration as a vacant lot prior to 1961; and

WHEREAS, the applicant proposes to construct a two-

MINUTES

story, two-family home, with two parking spaces located at the rear; and

WHEREAS, the proposed home will have a total residential floor area of 1,921.86 sq. ft. (1,923.75 sq. ft. is the maximum permitted); a total residential FAR of 0.75 (0.75 is the maximum permitted); one front yard of 12.5 ft. in depth (two 10 ft. front yards are required for a corner lot in an R4 zoning district); and side yards of 5 ft. and 26 ft. 5 inches (two side yards of 5 ft. are the minimum required); and

WHEREAS, the applicant states that the following is a unique physical condition, which creates practical difficulties and unnecessary hardship in developing the subject site in compliance with underlying district regulations: the site is a pre-existing 23.75 ft. wide vacant corner lot that can not accommodate as of right development; and

WHEREAS, as to uniqueness, the applicant notes that while there are several lots within a 400 ft. radius with similar narrow widths, all are developed with homes, and that this is one of only two vacant sites within the radius; and

WHEREAS, the applicant represents that the requested front yard waiver is necessary to develop the site with a habitable home; and

WHEREAS, the Board observes that if the applicant were to provide the second front yard of 10 ft. in width, in conjunction with the required side yard of five ft. for a corner lot, the result would be a home of 8.75 ft. in width; and

WHEREAS, based upon the above, the Board finds that the cited unique physical condition creates practical difficulties in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, the Board has determined that because of the subject lot's unique physical condition, there is no reasonable possibility that compliance with applicable zoning regulations will result in a habitable home; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, in response to the next door neighbor's testimony about the impact on light and air, the Board notes that the proposed plan provides for a complying side yard of 5 ft.; and

WHEREAS, the Board further notes the result of the waiver is that the building is aligned along the property line along Ely Street; and

WHEREAS, while the remaining portion of Ely Street has buildings that have front yards, given that the proposal is at the intersection, the impact of the waiver would not change the essential character of the neighborhood; and

WHEREAS, the Board observes that, a complying front yard is provided, along Nereid Avenue, that would be consistent with the character of the street; and

WHEREAS, in response to the Community Board concerns that a two-family home is out-of-character with the area, the applicant provided the Board with a land use map identifying two-family homes within a 400 ft. radius of the site; and

WHEREAS, the Board has reviewed this map and agrees that a significant number of homes within a 400 ft. radius, and

more than half of the homes on Nereid Avenue, are two-family homes; and

WHEREAS, in response to the concerns raised regarding parking, the Board notes that the proposal would accommodate two parking spaces on the site, as per the zoning requirement; and

WHEREAS, therefore, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, during the course of the hearings, the applicant was asked to examine two lesser variance proposals, both of which provided a front yard of 3 ft. along Ely Street; and

WHEREAS, the two proposals were: (1) a single-family home and (2) a two-family home; and

WHEREAS, for both alternatives, the applicant showed that the narrower building compromised the size of the bedrooms and that the two-family proposal made the development economically feasible; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II Declaration under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under Z.R. §72-21, to permit, within an R4 zoning district, the proposed construction of a two-story, two-family home with only one required front yard, contrary to Z.R. §23-45; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received November 29, 2005"– (4) sheets and "March 21, 2006"–(1) sheet; and *on further condition*:

THAT the parameters of the proposed building shall be as follows: an FAR of 0.75; a floor area of 1,921.86 sq. ft.; one side yard of 5'-0"; one side yard of 26'-5"; and one front yard of 12'-6";

THAT the internal floor layouts on each floor of the proposed building shall be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 4, 2006.

194-05-BZ
APPLICANT – David L. Businelli, for Steven Morris, owner.

MINUTES

SUBJECT – Application August 16, 2005 – Under Z.R. §72-21 – Extending the term of variance which expired on November 6, 1997 to permit in an R3-X the continued use of a one story building for retail sales with accessory parking. (Jurisdictional §72-21).

PREMISES AFFECTED – 5525 Amboy Road, North side 442.44’ West of Huguenot Avenue, Block 6815, Lot 85, Borough of Staten Island.

COMMUNITY BOARD #3SI

APPEARANCES –

For Applicant: David Businelli.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Staten Island Borough Commissioner, dated August 11, 2005, acting on DOB Application No. 500621348 reads, in pertinent part:

“As per section 22-00, use group 6 is not permitted as-of-right.”; and

WHEREAS, this is an application under Z.R. §72-21, to permit, in an R3-X zoning district, the use of office space (UG 6) in place of the previously granted retail use (UG 6), contrary to Z.R. §22-00; and

WHEREAS, the term for the original variance, granted under BSA Cal. No. 384-81-BZ, permitting the development of the building for retail use expired on November 9, 1997, and this application is to re-establish the grant and change the type of Use Group 6 use; and

WHEREAS, a public hearing was held on this application on March 14, 2006, after due notice by publication in *The City Record*, and then to decision on April 4, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 3, Staten Island, recommends approval of this application on the condition that hours of operation cease at 11 P.M.; and

WHEREAS, the subject zoning lot is located on the north side of Amboy Road, west of Huguenot Avenue, and has a lot area of 35,123 sq. ft.; and

WHEREAS, the site is occupied by a one-story building with 5,000 sq. ft. of floor area and 17 unenclosed parking spaces; and

WHEREAS, the applicant represents that the proposed office use will occupy the entire building; and

WHEREAS, the site is located at the intersection of Amboy Road and the Staten Island Rapid Transit Operating Authority (SIRTOA) railroad tracks; and

WHEREAS, the applicant represents that the site is irregularly shaped, and abuts the SIRTOA tracks; and

WHEREAS, further, the applicant represents that there is a 9,976 sq. ft. street widening easement running through 80 percent of the site’s frontage and that the rear 30 ft. wide portion

of the site must remain vacant and undeveloped per SIRTOA requirements; and

WHEREAS, the applicant states, and the Board’s prior resolution indicates, that the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the site in strict conformance with underlying zoning regulations: (1) the lot is irregularly-shaped; (2) it abuts the SIRTOA railroad tracks; (3) the land has an unusual contour and an approximate 20 ft. grade differential; (4) there is an adopted street widening on Amboy Road that requires a buffer of 35 ft. on average; and (5) the requirements of the Department of Health preclude residential development of more than four dwelling units; and

WHEREAS, the applicant represents that because of the site’s location at the intersection with the railroad, it is difficult to attract retail customers; and

WHEREAS, in addition, the applicant represents that noise emanating from the surrounding train lines discourages conforming residential use; and

WHEREAS, the Board finds that, when considered in the aggregate, the factors stated above create unnecessary hardship and practical difficulties in strictly conforming with the applicable use provisions of the Zoning Resolution; and

WHEREAS, the Board also agrees that the site’s proximity to the railroad tracks impacts the viability of the existing Board-approved retail use; and

WHEREAS, the applicant submitted a feasibility study that analyzed the following scenarios: maintaining the existing commercial use; an as-of-right residential use; and the proposed use; and

WHEREAS, the feasibility analysis concludes that the as-of-right residential use and the existing use will not garner a reasonable rate of return; and

WHEREAS, therefore, the Board has determined that because of the subject lot’s unique physical conditions there is no reasonable possibility that an as-of-right use or continuing the existing retail use would provide a reasonable return; and

WHEREAS, the applicant represents that the proposed variance renewal will not affect the character of the neighborhood, and that the proposed use is compatible with adjacent and nearby uses; and

WHEREAS, the applicant represents that the immediate area consists almost entirely of commercial and community facility uses; and

WHEREAS, the applicant also submitted a land use map that reflects that the site is bordered by a vacant lot and the SIRTOA railroad tracks, and that there are no residential uses adjacent to it; and

WHEREAS, the applicant notes that the 17 off-street parking spaces accommodate the parking requirement for Use Group 6 office use in an equivalent commercial district; and

WHEREAS, the Board notes that the proposed hours of operation of 9 A.M. to 6 P.M., Monday through Saturday, satisfies the Community Board’s concern; and

WHEREAS, the Board also notes that the change to office use from retail would likely reduce the activity and

MINUTES

traffic at the site, with minimal use on weekends; and

WHEREAS, therefore, the Board finds that the proposed application will not alter the essential character of the surrounding neighborhood, impair the use or development of adjacent properties nor be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, based upon the above, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR §72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 06BSA053R, dated March 8, 2006; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617.4, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes the required findings under Z.R. §72-21, to permit, in an R3-X zoning district, the use of office space (UG 6) in place of the previously granted retail use (UG 6), contrary to Z.R. §22-00; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received April 3, 2006"-(1) sheet; and *on further condition*:

THAT the hours of operation shall be from 9 A.M. to 6 P.M., Monday through Saturday;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other

jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 4, 2006.

MINUTES

**REGULAR MEETING
TUESDAY MORNING, APRIL 11, 2006
10:00 A.M.**

Present: Chair Srinivasan, Vice Chair Babbar,
Commissioner Chin and Commissioner Collins.

The minutes of the regular meetings of the Board held on Tuesday morning and afternoon, February 7, 2006, were approved as printed in the Bulletin of February 16, 2006, Volume 91, No.7.

SPECIAL ORDER CALENDAR

410-68-BZ

APPLICANT – Sheldon Lobel, P.C., for Alessandro Bartellino, owner.

SUBJECT – Application January 21, 2006 – Extension of time to complete construction and to obtain a certificate of occupancy pursuant to Z.R. §11-412.

PREMISES AFFECTED – 85-05 Astoria Boulevard, Block 1097, Lot 1, Borough of Queens.

COMMUNITY BOARD #3Q

APPEARANCES –

For Applicant: Josh Rinesmith.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar,
Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION -

WHEREAS, this is an application, for an extension of time to complete construction and obtain a new certificate of occupancy, related to the previously granted variance which permitted the conversion of a portion of an existing automotive service station to a convenience store, the construction of a new building to contain two automotive service repair bays, service attendant area and customer waiting area, an extension of the existing canopy, the relocation of the pump islands, and the addition of one new fuel dispenser; and

WHEREAS, a public hearing was held on this application on March 28, 2006, after due notice by publication in *The City Record*, and then to decision on April 11, 2006; and

WHEREAS, the Board has exercised jurisdiction over the subject premises since February 24, 1954, under BSA Calendar No. 676-53-BZ, when the Board granted an application to permit the erection and maintenance of a gasoline service station, with an auto wash, lubricatorium, and motor vehicle repairs; and

WHEREAS, most recently, on January 11, 2005, the Board granted an application to amend the variance to permit the conversion of the existing 1,868 sq. ft., three-bay automotive

service station to a one-bay service station, with an office, utility room, and convenience store, and to permit a new 934 sq. ft. addition to the building; and

WHEREAS, a condition of the most recent amendment was that a new Certificate of Occupancy be obtained by January 11, 2006; and

WHEREAS, however the applicant represents that 50 percent of construction has been completed; and

WHEREAS, at hearing, the Board asked the applicant how much time was needed to complete the construction and obtain the certificate of occupancy; and

WHEREAS, the applicant represents that construction could be completed in 7-9 months and that a certificate of occupancy could be obtained in 18 months; and

WHEREAS, the Board may permit an extension of term for a previously granted variance; and

WHEREAS, based upon the submitted evidence, the Board finds the requested extension of term appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on November 26, 1968, under the subject calendar number, and as subsequently extended and amended, so that as amended this portion of the resolution shall read: “to permit an extension of time to complete construction and obtain a certificate of occupancy, for an additional period of two years from the prior grant’s expiration, to expire on January 11, 2008, *on condition*:

THAT a new certificate of occupancy shall be obtained by January 11, 2008;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT a new certificate of occupancy be obtained by the grant expiration date;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB No. 401856997).

Adopted by the Board of Standards and Appeals, April 11, 2006.

1038-80-BZ

APPLICANT – Davidoff Malito & Hutcher, LLP, for Feinrose Downing LLC, owner; Expressway Arcade Corp, lessee.

SUBJECT – Application December 1, 2005 – Extension of Term of a Special Permit for an amusement arcade (UG15) in an M2-1 zoning district which expired on January 6, 2006.

PREMISES AFFECTED – 31-07/09/11 Downing Street, Whitestone Expressway, Block 4327, Lot 1, Borough of

MINUTES

Queens.

COMMUNITY BOARD #8Q

APPEARANCES –

For Applicant: Patricia Prothro.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION:

WHEREAS, this is an application for a reopening and an extension of the term of the special permit, which expired on January 6, 2006; and

WHEREAS, a public hearing was held on this application on March 28, 2006, after due notice by publication in *The City Record*, and then to April 11, 2006 for decision; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, on January 6, 1981, the Board granted a special permit for the operation of an amusement arcade on the subject premises; and

WHEREAS, on May 13, 1986, the special permit was amended to increase the number of amusement arcade games from 112 to 130; and

WHEREAS, the Board finds that the instant application is appropriate to grant, based upon the evidence submitted.

Therefore it is Resolved that the Board of Standards and Appeals, *reopens and amends* the resolution, said resolution having been adopted on January 6, 1981 as amended May 13, 1986, so that, as amended, this portion of the resolution shall read: “to permit the extension of the term of the special permit for an additional one (1) year from January 6, 2006 expiring on January 6, 2007; *on condition* that all conditions and drawings associated with the previous grant remain in effect; and *on further condition*:

THAT the premises shall be maintained free of debris and graffiti;

THAT any graffiti located on the premises shall be removed within 48 hours;

THAT there shall be no more than 130 amusement games on the subject premises;

THAT the above conditions and all conditions from prior resolutions shall appear on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Alt. No. 435/81)

Adopted by the Board of Standards and Appeals, April 11, 2006.

263-98-BZ

APPLICANT – Rothkrug Rothkrug Weinberg Spector, for Joseph Elegudin, owner.

SUBJECT – Application November 18, 2005 – Extension of time to complete construction pursuant to Special Permit Z.R. §73-622 for an enlargement of a single family home which expired on September 9, 2005; and for an amendment to the previously approved plans to add an elevator to the residence.

The premise is located in an R3-1 zoning district.

PREMISES AFFECTED – 118 Oxford Street, 115’ south of intersection with Shore Boulevard, Block 8757, Lot 90, Borough of Brooklyn.

COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION:

WHEREAS, this application is a request for a re-opening for an amendment and an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on March 14, 2006, after due notice by publication in *The City Record*, and then to decision on April 11, 2006; and

WHEREAS, the subject site is located on the west side of Oxford Street, south of Shore Boulevard, and is within an R3-1 zoning district; and

WHEREAS, on April 27, 1999, the Board granted an application under the subject calendar number to permit the enlargement of a single-family home; and

WHEREAS, on April 3, 2003, under the subject calendar number, the Board granted an extension of time to complete construction; and

WHEREAS, the resolution for the extension required that a certificate of occupancy be obtained within two years of the date of the grant; and

WHEREAS, the applicant represents that due to unforeseen construction delays and a change in personal circumstances, construction has not been completed since the grant date; and

WHEREAS, however, the applicant represents that the owner is now able to resume and complete construction; and

WHEREAS, further, the applicant represents that a family member’s severe injury now necessitates the requested minor amendment to the approved plans that provides for an elevator; and

WHEREAS, at hearing, the Board asked the applicant if the addition of the elevator would create any new non-compliance; and

WHEREAS, the applicant represents that the addition of the elevator would not create any new non-compliance; and

WHEREAS, based upon the above, the Board finds it appropriate to grant the requested amendment and extension of

MINUTES

time.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on April 27, 1999, so that as amended this portion of the resolution shall read: “to permit an extension of time to complete construction and obtain a certificate of occupancy, for an additional period of one year from the date of this resolution, to expire on April 11, 2007; on condition that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application, marked “Received November 18, 2005”-(2) sheets and on further condition:

THAT a new certificate of occupancy shall be obtained within one year from the date of this grant;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 302058467)

Adopted by the Board of Standards and Appeals, April 11, 2006.

280-01-BZ

APPLICANT – Stadtmauer Bailkin LLP & Cozin O’Connor, for Perbinder Holdings, LLC, owner; Metropolitan Transportation Auth., lessee.

SUBJECT – Application January 23, 2006– Extension of Time to complete construction for a variance ZR§72-21 to permit a mixed use building located in a C1-9 zoning district. PREMISES AFFECTED – 663/673 Second Avenue & 241/249 East 36th Street, Block 917, Lots 21, 24/30, 32 & 34, Borough of Manhattan.

COMMUNITY BOARD #6

APPEARANCES – None.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, this application is a request for a re-opening for an extension of time to complete construction; and

WHEREAS, a public hearing was held on this application on March 28, 2006, after due notice by publication in *The City Record*, and then to decision on April 11, 2006; and

WHEREAS, the subject site is located the west side of Second Avenue, between East 36th Street, and East 37th Street,

and is within an C1-9 zoning district; and

WHEREAS, on May 7, 2002, the Board granted an application under the subject calendar number pursuant to ZR § 72-21, to permit the development of a mixed use building; and

WHEREAS, on September 24, 2002, the Board granted an amendment to the resolution, under the subject calendar number; and

WHEREAS, the applicant represents that due to unforeseen construction delays concerning its location and complex engineering methods, the construction has not begun since the grant date; and

WHEREAS, the applicant notes that the majority of the site is improved with a recessed roadway exit for the Queens-Midtown Tunnel; and

WHEREAS, the exit is more than 14 feet below street grade at Second Avenue and rises steadily as it travels westerly across the site; and

WHEREAS, as a result of these unique conditions at the site, an extensive truss system must be installed over the tunnel exit; and

WHEREAS, the design of the system was time-consuming, and delayed the commencement of construction; and

WHEREAS, the applicant has provided a letter from the Metropolitan Transportation Authority stating that it has no objection to an extension of time to complete construction; and

WHEREAS, based upon the above, the Board finds it appropriate to grant the requested extension of time.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on May 7, 2002, so that as amended this portion of the resolution shall read: “to permit an extension of time to complete construction and obtain a certificate of occupancy, for an additional period of four years from the date of the prior grant’s expiration, to expire on May 7, 2010; on condition:

THAT a new certificate of occupancy shall be obtained by May 7, 2010;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

For Applicant: James P. Power and Dawn Thompson.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION:

WHEREAS, this is an appeal requesting a Board determination that the owner of the premises has obtained a vested right under the common law to complete a proposed enlargement of a building at the referenced premises; and

WHEREAS, this application was brought concurrently with a companion application under BSA Cal. No. 370-05-BZY, which is a request to the Board for a finding that the owner of the premises has obtained a right to continue construction pursuant to ZR §11-332; and

WHEREAS, because the instant application is hereby granted, the applicant withdrew this BZY application, as the extension of time to complete construction that the Board could provide under ZR § 11-332 was deemed insufficient given the amount of construction that remains; and

WHEREAS, a public hearing was held on this application on March 28, 2006 after due notice by publication in *The City Record*, and then to decision on April 11, 2006; and

WHEREAS, the site was inspected by a committee of the Board, including Chair Srinivasan and Commissioner Collins; and

WHEREAS, Community Board 4, Manhattan, did not oppose this application, though it indicated it had no objection to a three month extension; and

WHEREAS, this application is for an extension of a lawfully-issued building permit issued before the effective date of the Hudson Yards Rezoning and Redevelopment Program (the "Hudson Yards Program"), specifically the map change to Zoning Map 8d, which rezoned the premises from C6-2 (CC) to C6-2 (HY) (the "Zoning Change"), and the zoning text amendment that prohibited new developments

MINUTES

and enlargements at the premises (the "Text Amendment"), to allow completion of the construction of a proposed 3,206 square foot enlargement to an existing three-story, 10,438 square foot commercial building at the site (the "Enlargement").

WHEREAS, the City Council approved the Zoning Change and the Text Amendment on January 19, 2005 (the "Effective Date"); and

WHEREAS, the applicant states that the site is a 4,955 square foot parcel consisting of a midblock portion of Block 709, which is the block bounded by West 37th Street to the south, Tenth Avenue to the east, West 38th Street to the north and Eleventh Avenue to the west; the site has 50.20 feet of frontage on West 37th Street and a depth of 98.70 feet; and

WHEREAS, the site is currently improved with a three-story commercial building previously used as a studio (the "Building"); and

WHEREAS, the applicant states that the Enlargement would be a one-story and mezzanine addition to the existing Building, and would consist of a 3,206 square foot enlargement; and

WHEREAS, the contemplated work includes: extensive demolition, the addition of a third floor mezzanine and a fourth floor and a conversion from photographic studio and accessory uses (Use Group 6) to art exhibition gallery on the first floor (Use Group 6), administrative offices accessory to the studio (Use Group 9) on the second floor, office/working craft studio/art storage (Use Group 9) on the third floor, working art studio/art storage (Use Group 9) on the mezzanine and directors office and meeting room accessory to the studio (Use Group 9) on the fourth floor; and

WHEREAS, the applicant represents that the site is located in the Phase 2 Hudson Boulevard and Park area, which is a subdistrict of the Hudson Yards Program intended to implement the later stages of the park plan; and

WHEREAS, the applicant further represents that Section 93-32 of the Special Hudson Yards District regulations entitled "Floor Area Regulations in the Phase 2 Hudson Boulevard and Park," provides that "[i]n the Phase 2 Hudson Boulevard and Park, no new development shall be permitted, and, except as provided in Section 93-051 (applicability of Chapter 1 of Article 1) no existing development shall be enlarged; ZR Section 93-051(b) provides that "Section 11-332 (Extension of period to complete construction) shall apply, except that notwithstanding the provisions of paragraph (a) of such Section, in the event that other construction for which a building permit has been lawfully issued and for which construction has been commenced but not completed on January 19, 2005, such other construction may be continued provided that the construction is completed and a temporary or permanent certificate of occupancy is obtained not later than January 19, 2006; and

WHEREAS, the applicant notes that on October 14, 2005, DOB issued a Notice of Intent to Revoke All Permits based upon information that it received that indicated that work on the Enlargement began after January 19, 2005, contrary to the Text Amendment; and

WHEREAS, the applicant further notes that on November 29, 2005, DOB Manhattan Deputy Borough Commissioner Christopher Santulli, P.E., accepted documentation that construction had commenced prior to January 19, 2005 and approved continuation of construction, provided that "in the event a [temporary or permanent certificate of occupancy] is not obtained by January 19, 2006 no work shall proceed beyond January 19, 2006 without prior approval from BSA."; and

WHEREAS, the Board observes that in addition to the rights conferred by the above-referenced ZR provisions and DOB determination, the applicant retained the right to file for the subject common law vesting determination; and

WHEREAS, the Board notes that established precedent exists for the proposition that seeking relief pursuant to ZR 11-30 et seq. does not prevent a property owner from also seeking relief under the common law; and

WHEREAS, accordingly, the applicant requests that the Board find that based upon the amount of financial expenditures, including irrevocable commitments, and the amount of work completed, the owner has a vested right to continue construction and finish the Enlargement; and

WHEREAS, as a threshold matter in determining this appeal, the Board must find that the completed work was conducted pursuant to a valid permit; and

WHEREAS, the applicant has submitted into the record the following: copies of DOB Permit Nos. 103847544-01-EW.OT (Alt2-Demo) (renewal), dated August 23, 2004, authorizing demolition; 103830649-01-AL (Alt1) (renewal), dated June 9, 2005, authorizing construction of the Enlargement; 013842139-01-EW.OT (Alt2-Gen Const) (renewal), dated June 9, 2005, authorizing repair and modification of the Building's façade; 1030332-01-AL..(Alt1) (renewal), dated June 9, 2004, authorizing changes of use to obtain a new certificate of occupancy; and 104147184-01-EQ-SH (Alt3-Sidewalk shed), dated June 29, 2005, authorizing construction of a sidewalk shed; and

WHEREAS, the applicant notes that the Alt 1 construction permit (the "A1 Permit") was originally issued on November 18, 2004, and subsequently renewed; and

WHEREAS, the Board agrees that valid permits authorizing the Enlargement were issued prior to the enactment of the Rezoning or the Text Amendment; and

WHEREAS, turning to the substantive findings of the amount of work done and the amount of expenditure, the Board notes that a common law vested right to continue construction generally exists where the owner has undertaken substantial construction and made substantial expenditures prior to the effective date of an amendment; and

WHEREAS, as discussed by the court in Kadin v. Bennett, 163 A.D.2d 308 (2d Dept. 1990) "there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right'. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action"; and

WHEREAS, in its written statements and testimony, the applicant represents that as of the dates of the zoning

MINUTES

changes, substantial construction had been completed and substantial expenditures were made after the issuance of the A1 Permit; and

WHEREAS, more specifically, the applicant represents that: the affidavits, photographs and schedules of construction costs and the other affidavits submitted with this application, demonstrate that substantial construction, however analyzed, had been completed and that substantial expenditures had been made on the Enlargement as of January 19, 2006; and

WHEREAS, as to actual work completed, the applicant states that, as set forth in the affidavit of Michael J. Strauss, President of Vanguard Construction & Development Co. Inc. ("VCD"), the construction manager for the Enlargement, as of December 16, 2005, the following work had been completed: selective demolition; cutting and excavation of the pit foundation for the new art elevator; new steel wind bracing and columns, inclusive of footings and slab on grade; masonry shaft construction and masonry wall extensions; reinforcement of existing vertical and horizontal columns and beams; erection of structural steel and installation of the Q-decking; installation of the underground plumbing and 70% of the above ground plumbing roughing; installation of air conditioning units, and completion of 60% of the ductwork distribution and insulation; and completion of 50% of the electrical distribution, 90% of the rough carpentry, 45% of the framing of partitions and 25% of the curtain wall; and

WHEREAS, the applicant states that the work completed through January 19, 2006 represents approximately 79 percent of the total working days, including pre-construction working days, and approximately 71 percent of the working days under the DOB Permits; and

WHEREAS, the applicant represents that the following elements of the Enlargement remain to be constructed: installation of building skin, and skylights, installation or finish light fixtures, diffusers, doors and hardware, complete roofing and window system, all finish flooring systems, installation of stairs, installation of millwork, and installation and finishing of carpentry and ceilings; and

WHEREAS, the applicant concludes that the amount and type of construction on the Enlargement clearly satisfies the standards for substantial construction under the case law of New York State, in that there has been tangible physical change to the site, the existing Building has been gutted and exposed to the elements, and the completed elements are an integral part of the alteration; and

WHEREAS, as to costs, the Board first observes that unlike an application for relief under ZR § 11-30 et seq., soft costs and irrevocable financial commitments can be considered in an application under the common law; accordingly, these costs are included in the applicant's analysis; and

WHEREAS, the applicant states that the affidavits and schedules of construction costs, and the other affidavits submitted with this application demonstrate that, on a cost basis, substantial construction had been completed and substantial expenditures made as of January 19, 2006; and

WHEREAS the applicant notes that a total of

\$6,471,176, or 82 percent of the total project cost, had been spent through January 19, 2006, and the total irrevocable financial commitments as of January 19, 2005 were \$7,745,226, or approximately 98 percent of the total project cost; and

WHEREAS, more specifically, the applicant states that work under the VCD contract for the Enlargement is currently estimated to cost \$6,665,163; as of January 19, 2006, \$5,249,552, or approximately 79 percent of the total project cost, had been completed or purchased and stored either on or off-site; and

WHEREAS, the applicant further states that through February 16, 2005, VCD had submitted Applications and Certificates for Payment to the Owner for amounts totalling \$4,974,600.60, and through February 24, 2006, VCD had received payment from the Owner in the amount of \$4,724,596.80; and

WHEREAS, the applicant contends that if work on the Enlargement could not be continued, the developer would be obligated to pay the subcontractors and VCD cancellation fees constituting between 90 to 95 percent of the unfinished amount of the unfinished trade contracts and other work under the VCD Contract, or at least \$1,274,050; and

WHEREAS, the applicant has submitted an affidavit establishing that the total amount of hard costs for the Enlargement incurred is estimated to be \$370,387, of which \$84,435, representing 23 percent, had been incurred as of January 19, 2006; the entire \$84,435 was incurred after the DOB Permits were issued; and

WHEREAS, the applicant states that the total soft costs for the Enlargement will be approximately \$1,320,521, of which approximately \$1,137,189, or approximately 86 percent were incurred as of January 19, 2006; approximately \$733,006 of this amount was incurred after the DOB Permits were issued; and

WHEREAS, the applicant summarizes as follows: the total project cost is \$7,935,072, including costs to be incurred by VCD (\$6,244,164), hard costs to be directly incurred by developer (\$370,387), and soft costs to be incurred (\$1,320,521); of this amount, a total of \$6,471,176, or 82 percent, was spent through January 19, 2006; and

WHEREAS, subsequent to the first hearing, the applicant submitted additional evidence to the Board at its request, in support of the common law vesting claim; and

WHEREAS, specifically, the Board asked for clarification as to the following issues: (1) the amount of work and expenditure related to creation of new floor area; and (2) whether any work was performed during the period when the job was "on hold", as indicated by DOB computer records; and

WHEREAS, the applicant provided an analysis that illustrated the new floor area accounts for a very high percentage of the structural work in the Enlargement because the new floor area requires substantial steel reinforcement and bracing of the exterior wall, as well as structural carpentry shear wall on the lower floors in order to support the new construction; and

WHEREAS, as to expenditure, the applicant stated that

MINUTES

the new floor area in the Enlargement would account for a percentage of the project cost approximately corresponding to the percentage of the floor area in the building that it constitutes, or 23.5%; thus, the new floor area accounts for approximately \$2,421,909, or 36% of the total project cost under the VCD contract, and, of that amount, approximately \$2,070,858, or 86%, was completed or stored as of January 19, 2006; and

WHEREAS, the applicant states that, with respect to the soft costs and the hard costs to be directly incurred by the owner, the new floor area in the Enlargement would account for a percentage of the cost of the Enlargement approximately corresponding to the percentage of the floor area in the building that it constitutes, or 23.5%; thus, the new floor area accounts for approximately \$310,322 in soft costs, of which approximately 86 percent or \$266,877, were incurred as of January 19, 2006, and approximately \$87,041 in hard costs to be directly incurred by the owner, of which approximately 23 percent, or \$20,019, were incurred as of January 19, 2006; and

WHEREAS, the Board notes that the work related to the construction of the new floor area and the remainder of the interior work within the Building are, as the applicant noted, integrally related, but asked for this analysis as further evidence that vesting had been achieved; and

WHEREAS, as to the "on hold" status of the job, the applicant responded that this status does not prevent work from continuing under the issued permits; rather, it prevents new permits from being issued; and

WHEREAS, in other words, no stop work order was issued; instead, the applicant was required to address some outstanding issues raised by DOB as to the issued permits before the "on hold" status was lifted; and

WHEREAS, based upon its review of the applicant's statements as noted above and the evidence submitted in support of them, the Board finds that the degree of work done and expenditures incurred is sufficient to meet the common law vesting standard; and

WHEREAS, thus, the applicant is entitled to the requested six-month extension of the A1 Permit, and all other related permits necessary to complete construction.

Therefore it is Resolved that this appeal made pursuant to the common law of vested rights requesting a reinstatement of Alteration Permit No. 1030332-01, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed enlargement for one term of six months from the date of this resolution, to expire on October 11, 2006.

Adopted by the Board of Standards and Appeals, April 11, 2006.

350-05-BZY

APPLICANT – Eric Palatnik, P.C., for 49 Properties, LLC, owner.

SUBJECT – Application December 08, 2005 – Proposed extension of time to complete construction of a minor

development pursuant to Z.R. 11-331 for a multi family 4 story residential building under the prior Zoning R6. New Zoning District is R6B as of November 16, 2005.

PREMISES AFFECTED – 245 16th Street, Brooklyn, north side between 4th and 5th Avenue, Block 1048, Lot 51, Borough of Brooklyn.

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-331, to renew a building permit and extend the time for the completion of the foundation of a minor development under construction; and

WHEREAS, a public hearing was held on this application on March 29, 2006 after due notice by publication in *The City Record*, and then to closure and decision on April 11, 2006; and

WHEREAS, the site was inspected by a committee of the Board, consisting of Chair Srinivasan, Vice Chair Babbar, Commissioner Chin, and Commissioner Collins; and

WHEREAS, Community Board 7, Brooklyn, opposed the granting of any relief to the applicant, citing concerns that some work took place after hours or on weekends, which was not covered by the issued permit; and

WHEREAS, the Concerned Citizens of Greenwood Heights opposed the granting of any relief to the applicant, citing concerns similar to the Community Board's; and

WHEREAS, the opposition states that DOB issued a Stop Work Order related to illegal work prior to the cessation of construction due to the rezoning; and

WHEREAS, at the request of the Board, applicant made a submission that analyzed the DOB complaint history; and

WHEREAS, the Board reviewed this submission, which details the complaints and issued violations, and observes that no complaints resulted in violations and that there was no Stop Work Order issued prior to the SWO issued on November 16, 2005 (which was related to the rezoning); and

WHEREAS, specifically, DOB records indicate that there were 11 complaints made while construction was on-going, that three remain active (i.e. no inspections were made in response to them), but that no violations were issued for after-hours work;

MINUTES

and

WHEREAS, the subject premises consists of one lot on the north side of 16th Street between Fourth and Fifth Avenues; and

WHEREAS, the subject premises is located within an R6B zoning district; and

WHEREAS, the subject premises is proposed to be developed with a four-story, multi-family dwelling; and

WHEREAS, however, on November 16, 2005 (hereinafter, the "Rezoning Date"), the City Council voted to enact the South Park Slope rezoning proposal, which changed the zoning district from R6 to R6B, rendering the development non-complying as to floor area, street wall height, building height, and parking; and

WHEREAS, ZR § 11-331 reads: "If, before the effective date of an applicable amendment of this Resolution, a building permit has been lawfully issued as set forth in Section 11-31 paragraph (a), to a person with a possessory interest in a zoning lot, authorizing a minor development or a major development, such construction, if lawful in other respects, may be continued provided that: (a) in the case of a minor development, all work on foundations had been completed prior to such effective date; or (b) in the case of a major development, the foundations for at least one building of the development had been completed prior to such effective date. In the event that such required foundations have been commenced but not completed before such effective date, the building permit shall automatically lapse on the effective date and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew the building permit and authorize an extension of time limited to one term of not more than six months to permit the completion of the required foundations, provided that the Board finds that, on the date the building permit lapsed, excavation had been completed and substantial progress made on foundations."; and

WHEREAS, ZR § 11-31(a) reads: "For the purposes of Section 11-33, relating to Building Permits Issued Before Effective Date of Amendment to this Resolution, the following terms and general provisions shall apply: (a) A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment to this Resolution. In case of dispute as to whether an application includes "complete plans and specifications" as required in this Section, the Commissioner of Buildings shall determine whether such requirement has been met."; and

WHEREAS, because the proposed development contemplates construction of one building, it meets the definition of Minor Development; and

WHEREAS, the applicant represents that the relevant Department of Buildings' permit was lawfully issued to the owner of the subject premises; and

WHEREAS, the record indicates that on October 7, 2005 a new building permit (Permit No. 301965112-01-NB; hereinafter, the "NB Permit") for the new building was lawfully issued to the applicant by the Department of Buildings; and

WHEREAS, the Board has reviewed the record and agrees that the NB Permit was lawfully issued to the owner of the subject premises; and

WHEREAS, the applicant represents that, as of the Rezoning Date, excavation had been completed and substantial progress had been made on foundations; and

WHEREAS, the applicant represents that excavation of the site took place from October 7th to the 16th, 2005; and

WHEREAS, applicant represents that the foundation was framed and other site work was performed during the same dates; and

WHEREAS, the applicant represents that 183.56 cubic yards of concrete were poured during the period of October 17 through November 16, 2005 (when DOB issued a SWO); and

WHEREAS, the applicant represents that as of the Rezoning Date, 100 percent of the excavation has been completed, 100 percent of footings have been installed, and 90 percent of foundation wall including reinforcement and concrete pouring have been completed; and

WHEREAS, in support of the contention that the specified amount of work has been completed and the specified amount of concrete was poured during this period, the applicant has submitted affidavits from both the project's architect and general contractor documenting the status of said completion; and

WHEREAS, the applicant has also submitted photographs of the site and a color-coded copy of the foundation plan depicting the extent of work done on the foundation; the latter is signed and sealed by a professional engineer; and

WHEREAS, in support of the contention that 183.56 cubic yards of concrete were poured by November 16, 2005, the applicant has submitted receipts from two concrete batching companies reflecting the pouring of 183.56 cubic yards of concrete, during the period of October 17 through November 9, 2005; and

WHEREAS, the applicant represents that the only remaining work on the foundation is the pouring of approximately 22.44 cubic yards of concrete; and

WHEREAS, the affidavit from the project architect, noted above, asserts that approximately 20 cubic yards of concrete are all that remain to be poured; and

WHEREAS, the Board has reviewed the affidavits from the architect and general contractor and the other evidence submitted, and agrees that they support the conclusion that 100 percent of the excavation, 100 percent of the footings, and a substantial amount of the other elements of the foundation were completed as of November 16, 2005; and

WHEREAS, the Board finds all of above-mentioned submitted evidence sufficient and credible; and

WHEREAS, based upon the above, the Board finds that excavation was complete and that substantial progress had been made on the foundation, and additionally, that the applicant has adequately satisfied all the requirements of ZR § 11-331.

MINUTES

Therefore it is resolved that this application to renew New Building permit No. 301965112-01-NB pursuant to ZR § 11-331 is granted, and the Board hereby extends the time to complete the required foundations for one term of six months from the date of this resolution, to expire on October 11, 2006.

Adopted by the Board of Standards and Appeals, April 11, 2006.

THE RESOLUTION -

WHEREAS, the decision of the Queens Borough Commissioner, dated January 19, 2006, acting on Department of Buildings Application No. 402260860, reads:

“A1- The Street giving access to the existing building to be altered is not duly placed on the official map of the City of New York. Therefore :

- a) A Certificate of Occupancy may not be issued as per Article 3, Section 36 of the General City Law.
- b) Existing dwelling to be altered does not have at least 8% of total perimeter of the building fronting directly upon a legally mapped street or frontage space [which] is contrary to Section 27-291 of the Administrative Code.”; and

WHEREAS, a public hearing was held on this application on April 11, 2006 after due notice by publication in the *City Record*, and then to decision on April 11, 2006, and

WHEREAS, by letter dated February 2, 2006, the Fire Department states that it has reviewed the above project and has

no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, January 19, 2006 , acting on Department of Buildings Application No. 402260860 is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received April 11, 2006”- (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 11, 2006.

THE RESOLUTION -

WHEREAS, the decision of the Brooklyn Borough
Commissioner, dated October 3, 2005, acting on Department of
Buildings Application No. 301933790, reads, in pertinent part:

“1. Catering facilities, as part of the proposed
transient hotel (UG5), is not a permitted as- of-
right use in a R5 district, as per Section 22-00 . . .

2. Meeting room, as part of the proposed
transient hotel (UG 5) is not a permitted as-of-
right use in a R5 district . . .

3. Accessory parking, as part of the proposed
transient hotel (UG 5) is not a permitted as-of-
right use in a R5 district . . .

4. The commercial bulk exceeds the allowable
commercial bulk in a C8-2 district, as per Sec.
33-122 . . .”; and

WHEREAS, this is an application under ZR § 72-21, to
permit, on a site partially within a C8-2 zoning district and
partially within an R5 zoning district which has previously been
before the Board, a proposed transient hotel with an accessory
catering facility/meeting room and accessory parking, which is
contrary to ZR §§ 22-00 and 33-122; and

WHEREAS, the applicant proposes to construct a four-
story Use Group 5 transient hotel, with 54 rooms, a meeting
room, and a catering hall, with total floor area of 38,932, a total
Floor Area Ratio (FAR) of 1.21, a street wall height of 20’-0”, a
total height of 48’-0”, and a maximum of 75 accessory attended
parking spaces in an open parking lot; and

WHEREAS, the four-story portion of the building will be
set back 24 feet from the street wall, as well as at the rear; and

WHEREAS, a portion of the hotel, as well as the majority
of the accessory parking lot, will be within the R5 zoning
district, thus necessitating the requested use waivers; and

WHEREAS, the commercial FAR within the C8-2 district
is approximately 2.5, which exceeds the amount that is
permitted (2.0 FAR), thus necessitating the requested bulk
waiver for the C8-2 portion of the zoning lot; and

WHEREAS, the applicant initially proposed to construct a
six-story hotel, with 75 rooms, a total floor area of 57,244 sq.
ft., a total FAR of 1.83, and approximately 32,000 sq. ft. of
below grade commercial use, including a catering hall and
meeting and show rooms, as well as 62 accessory parking
spaces; and

WHEREAS, the Board expressed concern about this
proposal, noting that while the cellar space and the rooms
therein did not technically count as zoning floor area, its
inclusion in the program of the project nevertheless resulted in a
significantly increased commercial presence, based on usable
floor area, which was too large for the character of the
community in terms of size, parking and traffic impacts, and
which did not represent the minimum variance; and

WHEREAS, the applicant’s second proposal was a five-
story hotel, with 57 rooms, a total floor area of 49,924 sq. ft., a
total FAR of 1.55, with a catering hall and a meeting room, but
no below grade show rooms; and

WHEREAS, after the Board continued to express
concerns, the applicant submitted a third proposal, which was a
four-story hotel, with 54 rooms, a total floor area of 44,452 sq.
ft., a total FAR of 1.38, a catering hall and a meeting room, and
parking for 63 cars; and

WHEREAS, the Board expressed concern about the
proposed occupancy of the catering hall (340 persons) and the
meeting room (470 persons), as well as the limited parking; and

WHEREAS, the applicant responded to these concerns by
submitting the current version, as described above, which the
Board finds acceptable in terms of impacts and minimum
variance; and

WHEREAS, a public hearing was held on this
application on September 13, 2005, after due notice by
publication in the *City Record*, with continued hearings on
November 15, 2005, January 10, 2006, March 14, 2006 and then
to decision on April 11, 2006; and

WHEREAS, the premises and surrounding area had a site
and neighborhood examination by a committee of the Board,
consisting of Chair Srinivasan, Vice-Chair Babbar,
Commissioner Chin, and Commissioner Collins; and

WHEREAS, Community Board No. 12, Brooklyn,
recommends disapproval of the application, contending that
hotel use is inappropriate for the surrounding community; and

WHEREAS, certain neighbors to the premises also
appeared in opposition to this application, alleging that illegal
activity would occur at the hotel; however, the Board has before
it no evidence in support of this contention; and

WHEREAS, certain other neighbors raised concerns about
parking impacts; and

WHEREAS, the subject premises is located on the south
side of the Coney Island Avenue, and consists of four
contiguous tax lots (Lots 27, 50, 93, & 140); and

WHEREAS, as noted above, the premises is partially
within a C8-2 zoning district and partially within an R5 zoning
district; the R5 zoning district begins approximately 100 ft. from
the Coney Island Avenue street line, though it does not bisect
the site in a straight line, due to the trapezoidal shape of the
subject block; and

WHEREAS, Lot 27, which has a total lot area of 16,972
sq. ft., fronts on Coney Island Avenue to a width of 120’-4”, and
extends approximately 137 ft. from the street line; thus, roughly
16,972 sq. ft. of the lot area is within the C8-2 district, and
roughly 4,939 sq. ft. is within the R5 district; and

WHEREAS, Lot 93, which has a total lot area of 13,585
sq. ft., is an interior, landlocked lot, and is adjacent to the east of
Lot 27, and is almost entirely within the R5 district; and

WHEREAS, Lot 140, which has a total lot area of 800 sq.
ft., is another interior, landlocked lot that is adjacent to Lot 93 to
the north, and is located entirely within the R5 district; and

WHEREAS, Lot 50, which has a total lot area of 796 sq.
ft., is a 5 ft. wide sliver lot with frontage on Ditmas Avenue, and

MINUTES

is adjacent to Lot 93 to the west; it is bisected by the district boundary line; and

WHEREAS, the total lot area over the entire site is 32,153 sq. ft.; approximately 13,354 sq. ft. is within the C8-2 district, and approximately 18,799 sq. ft. is within the R5 district; and

WHEREAS, the majority of the hotel, including the four-story section, will be constructed on Lot 27, within the C8-2 district; and

WHEREAS, a portion of the hotel, including the first floor that will be occupied by the catering hall and the meeting room, will be constructed on Lot 27, within the R5 district; and

WHEREAS, the accessory parking lot will be constructed on Lots 93 and 140, primarily with the R5 district; and

WHEREAS, all of Lot 50 will be landscaped with plants; and

WHEREAS, the parking lot will be accessed from Coney Island Avenue through a driveway located on Lot 36 (under the same ownership as the site before the Board), which is adjacent to Lot 93 to the north, and which will be the affected by a restrictive declaration for access, described in more detail below; and

WHEREAS, the site is currently improved upon with a one-story garage-type building, constructed on Lot 27, currently occupied by an automotive use and

WHEREAS, auto repair use within this one-story building was previously approved by the Board in 1948, under BSA Cal. No. 65-48-BZ, when the site was partially within a residence district; this grant was subsequently modified and extended at various times up until 1985; and

WHEREAS, at some point prior to 1985, the use was discontinued; thus, under BSA Cal. No. 1016-84-BZ, the Board permitted the reestablishment of the grant; and

WHEREAS, the building on the site was subsequently permitted to be enlarged in 1997, under BSA Cal. No. 49-95-BZ; and

WHEREAS, because the proposed hotel development is in a different use group from any use previously approved by the Board, and because the configuration of the development site have changed through the addition of new tax lots, the applicant was required to file a new variance application; and

WHEREAS, the applicant proposes to re-use the existing one-story building on the site as the first floor of the hotel; there will be no cellar level as originally proposed; and

WHEREAS, the applicant states that the catering hall and the meeting room will not be used simultaneously, but, at the Board's request, nevertheless analyzed the parking requirement based upon simultaneous use; and

WHEREAS, the applicant states that the parking lot, and the entrance to it, will be closed from 11PM until 7 AM daily; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the site divided by a district boundary line between the C8-2 and R5 district, where permitted uses in each district are prohibited in the other district; (2) the site includes

interior, landlocked lots without any street frontage in the C8 district portion; and (3) the site includes a lot that is only 5'-0" wide; and

WHEREAS, as an initial matter, the Board observes it has previously concluded that the Lot 27 portion of the site is unique, due to the location of the district boundary; and

WHEREAS, the Board also recognizes that the interior, landlocked lots (Lots 93 and 140) can not be used for either residential or commercial use, both due to their division by the district boundary and because of their landlocked nature; and

WHEREAS, the Board also agrees that Lot 50 is unusable, due to its width; however, given the small square footage of this lot relative to the entire development site, the Board does not view its lack of development potential to be an actual hardship; and

WHEREAS, finally, the Board notes that the shape of the development site is unusual, and further compromises conforming development over the entire site; and

WHEREAS, accordingly, the Board finds that certain of the aforementioned unique physical conditions – namely, the existence of the district boundary, the landlocked status of a portion of the lot, and the lot's unusual shape - when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study analyzing a retail development scenario, with 16,692 sq. ft. of floor area located in the existing one-story building; and

WHEREAS, the applicant concluded that such a scenario would not result in a reasonable return, due to costs related to the above-stated unique physical conditions; and

WHEREAS, however, the Board had concerns regarding certain aspects of this study, and identified them at hearing; and

WHEREAS, specifically, the Board questioned the claimed site valuation, and suggested that it was too high because it ascribed too much value to the interior, landlocked portions of the site, that, while zoned for residential use, were unable to sustain such use; and

WHEREAS, in response, the applicant revised its analysis, and adjusted the site valuation based upon the Board's comments; and

WHEREAS, the Board also questioned whether the return from a retail scenario could be increased by adding a second and third floor to the existing building for office use, using available commercial floor area allowed under the district; and

WHEREAS, the applicant, in a subsequent submission, analyzed a three-story retail/office scenario, and concluded that it did not realize a reasonable return, due to construction costs related to the adaptation of the existing building to accommodate the additional floors; and

WHEREAS, based upon its review of the subsequent submissions of the applicant, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

MINUTES

WHEREAS, the Board also notes that the landlocked nature of the portion of the site within the R5 district and its shape restrict any possibility of conforming use in said portion; and

WHEREAS, as a result, in both conforming scenarios as presented by the applicant, the site is significantly under-built in terms of actual available development rights; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant initially noted that the proposed hotel use is a permitted use within C8-2 district portion of the site; and

WHEREAS, however, the Board observes that except for some auto repair uses and other commercial uses along Coney Island Avenue, the site is adjacent to two to three story dwellings and other residentially compatible uses such as a playground; and

WHEREAS, thus, as discussed above, notwithstanding the permissibility of hotel use on the commercially zoned portion of the site, the Board expressed reservations about both the amount of commercial floor area (whether zoning floor area or not) initially proposed over the entire site and the proposed height, given the potential impact that the bulk and height could have on nearby residential uses; and

WHEREAS, more specifically, the Board expressed concern that the hotel contained excessively large accessory use spaces (i.e., catering hall, meeting rooms, show rooms, retail spaces) and too many individual rooms, which increased the bulk and height, which would, in turn, create negative impacts; and

WHEREAS, the applicant subsequently modified the proposal to the current version, which reflects a reduced height and floor area; and

WHEREAS, the Board notes that the reduced height is more in context with other four-story buildings along Coney Island Avenue; and

WHEREAS, the Board also notes that the currently proposed bulk and the amount of rooms reflects a lesser-intensity commercial presence on the site, which will not negatively impact the adjacent uses or the character of the neighborhood; and

WHEREAS, the Board also observes that the four-story portion of the proposed hotel will be set back 24 feet from the street wall, so that the street wall height along Coney Island Avenue will remain approximately what it is now; and

WHEREAS, the Board further notes that the commercial encroachment into the R5 district is restricted to the same degree of encroachment that currently exists on the site; and

WHEREAS, in addition to the height and bulk of the proposed hotel, the Board, over the course of the hearing process, expressed concern about the traffic and parking impacts that could be generated by the hotel; and

WHEREAS, the Board observes that the accessory parking lot is almost entirely within the R5 district, and that residential uses abut the proposed lot; and

WHEREAS, in response to this concern, the applicant proposes to keep the parking lot closed from 11 PM until 7 AM, and states that all lighting in the parking area will be directed downwards and away from the adjacent residential uses; and

WHEREAS, the applicant also proposes to install and maintain proper screening around the parking lot, consisting of a 6 ft. high wooden fence and 3 ft. planting strips; and

WHEREAS, the Board also expressed concern about the amount of parking generated by the proposed bulk; and

WHEREAS, the Board observed that part of the problem was that the applicant stated that the meeting room and the catering hall would not be used simultaneously, and calculated the parking requirement based on this assumption; and

WHEREAS, however, the Board rejected this assumption, and asked that the applicant revise the parking analysis to assume simultaneous uses of both spaces; and

WHEREAS, the applicant responded by calculating the parking requirement assuming simultaneous use of both spaces; and

WHEREAS, the applicant concludes that based upon the amount of rooms and the proposed occupancy of the catering and meeting rooms, the parking requirement is 55 cars; the proposed accessory parking lot will provide spaces for 75 cars, which shall only be accessory to the hotel and catering uses and shall not be used for transient commercial parking or other uses; and

WHEREAS, the Board notes that the applicant agreed to landscape Lot 50, which will improve the appearance of this site, and also agreed to provide opaque fencing around the parking lot and Lot 50 adjacent to the residences, which will screen the parking area from the adjacent residential uses; and

WHEREAS, the Board also notes that the applicant has executed and recorded a driveway restrictive declaration, which will dedicate a portion of lot 36 for access purposes to the accessory parking lot from Coney Island Avenue; and

WHEREAS, the Board has reviewed this declaration, and has determined that its form and content are acceptable; and

WHEREAS, finally, the Board notes that while the site will be occupied by a Use Group 5 hotel and parking lot, this use will replace a more intensive Use Group 16 commercial use, with loading and unloading of trucks, that currently uses the entire site; and

WHEREAS, moreover, the hotel will occupy the same footprint as the existing building; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the trapezoidal shape of the block and the placement of the district boundary line; and

MINUTES

WHEREAS, as noted above, in addition to its concerns about the impact that the initial and intermediate proposed hotel buildings would have on the community and adjacent residential uses, the Board also concluded that these two proposals did not represent the minimum variance; and

WHEREAS, accordingly, in addition to the revised analysis of the conforming scenario, at the request of the Board, the applicant also submitted an analysis of the current proposal, which is much smaller, scaled-back version of the initial proposal; and

WHEREAS, the applicant concluded that the current proposal would realize a minimal return sufficient to overcome the site's inherent hardship; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA051K, dated October 12, 2004; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site partially within an R5 zoning district and partially within an C8-2 zoning district which has previously been before the Board, a proposed transient hotel with an

accessory catering facility/meeting room and accessory parking, which is contrary to ZR § 22-00, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received February 23, 2006"- four (4) sheets and marked "Received March 28, 2006"- one (1) sheet; and *on further condition*:

THAT all fencing as shown on the BSA-approved plans shall be opaque;

THAT all lighting on the site shall be directed downwards and away from any adjacent residential use;

THAT a maximum of 75 and a minimum of 55 attended parking spaces shall be provided in the accessory parking lot;

THAT there shall be no commercial parking in the accessory parking lot;

THAT the roll down gate at the entrance of the driveway to the parking lot shall be closed and locked from 11 PM to 7 AM;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT the recording information for the driveway restrictive declaration shall be listed on the certificate of occupancy;

THAT the following shall be the bulk parameters of the proposed building: a maximum of four stories, with no cellar, with 54 hotel rooms, a meeting room with a capacity of 270 occupants, a catering hall with a capacity of 330 occupants, a total floor area of 38,932, a total FAR of 1.21, a wall height of 20'-0", a total height of 48'-0", setbacks of 24 ft. from the street wall and the rear lot line at the second floor, and a maximum of 75 accessory attended parking spaces in an open parking lot, all as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 11, 2006.

APPLICANT – The Law Office of Fredrick A. Becker, for Brendan McCartan, owner.

SUBJECT – Application November 26, 2004 – Under Z.R. §72-21 in an R4 district, permission sought to allow the construction of a two-story one-family dwelling on a 25' x 53.55' lot consisting of 1,338 SF. The structure does not comply with floor area allowed, open space, lot area, front

MINUTES

yard.

PREMISES AFFECTED – 57-69 69th Street, north side of 69th Street 24' west of 60th Avenue, Block 2830, Lot 33, Borough of Queens.

COMMUNITY BOARD #5Q

APPEARANCES –

For Applicant: Fredrick A. Becker.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION -

WHEREAS, the decision of the Queens Borough Commissioner, dated November 15, 2004, acting on Department of Buildings Application No. 401843243, reads, in pertinent part:

“ZR 23-141, Floor area ratio (FAR) exceeds that permitted;

ZR 23-141, Open space ratio (OSR) is deficient from that required;

ZR 23-45, Proposed front yard is contrary to the requirements for a corner lot;

ZR 23-32, Minimum area of lot is contrary to section 23-32 . . .”; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R4 zoning district, the proposed construction of a 1.49 Floor Area Ratio, single-family, two-story plus attic, (FAR) home that exceeds the permitted FAR and Open Space Ratio (OSR), does not provide the required front yard or side yards, and does not have the required lot area, contrary to ZR §§ 23-141, 23-45, and 23-32; and

WHEREAS, the applicant originally proposed a 1.8 FAR, two-family dwelling that would have required additional variances as to parking and density, and a smaller rear yard, but abandoned this proposal in response to concerns of the Community Board that it was overreaching and not in context with the surrounding neighborhood; and

WHEREAS, the applicant subsequently revised the proposal to the current version; and

WHEREAS, a public hearing was held on this application on November 1, 2005 after due notice by publication in *The City Record*, with continued hearings on December 6, 2005, January 10, 2006, February 7, 2006 February 28, 2006, and then to decision on April 11, 2006; and

WHEREAS, Community Board 5, Queens, recommends approval of this application, on condition that the dwelling should be a one-family residence, that the size should be limited to 25 ft. in width and 40 ft. in depth, that one parking space be provided, and that the rear yard should be 13.55 ft. in depth; and

WHEREAS, the Queens Borough President recommends approval of this application on condition that the rear yard of the proposed development be more consistent with the surrounding built context; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board, including Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins; and

WHEREAS, the site is located on the north side of 68th Street, 24 ft. west of 60th Avenue; and

WHEREAS, the site is 25'-0" in width and approximately 53'-4" in depth, with a total lot area of 1,339 sq. ft.; and

WHEREAS, the applicant states that the lot has existed in its present configuration since prior to 1961; and

WHEREAS, the site is currently improved upon with a one-story 471 sq. ft. home, that the applicant contends is in poor condition and is an extremely small structure for a single-family home; and

WHEREAS, the applicant states that the home can not be enlarged as of right, and thus proposes its demolition and replacement; and

WHEREAS, the applicant proposes to construct a two-story, single-family home, with one parking space located in a garage; and

WHEREAS, the proposed home will be 25 ft. in width by 40 ft. in depth; have a total residential floor area of 2,000 sq. ft. (1,816 sq. ft. is the maximum permitted); a total residential FAR of 1.49 (1.35 is the maximum permitted); an OSR of 26% (45% is the minimum required); no front yard (a front yard of 10 ft. is required); no side yards (two side yards of 8 ft. and 5 ft. are required; and a 13 ft. rear yard (no rear yard is required because the lot is within 100 ft. of a corner); a single off-street parking space will be provided; and

WHEREAS, the applicant states that the following is a unique physical condition, which creates practical difficulties and unnecessary hardship in developing the subject site in compliance with underlying district regulations: the site is a pre-existing 25'-0" ft. wide and 53'-6" deep lot that can not accommodate as of right development; and

WHEREAS, as to uniqueness, the applicant has submitted a land use survey and property chart that illustrates that of the 147 total properties reflected in the survey's radius, only four have a depth equal to the subject premises; the majority of the lots have depths of 100 ft.; and

WHEREAS, the applicant represents that the requested side yard waivers are necessary to develop the site with a habitable home; and

WHEREAS, the Board observes that if the applicant were to provide the required 5 ft. and 8 ft. side yards, the result would be a home of approximately 12 ft. in width; and

WHEREAS, likewise, the front yard waiver is necessary in order to create a home of a reasonable depth, while still providing a rear yard that would provide sufficient distance between the proposed home and the neighboring home abutting the rear of the site; and

WHEREAS, the Board observes that the lot area is a pre-existing condition, and that the existing home is sub-standard when measured against modern requirements for a single-family home; and

WHEREAS, the Board further observes that the FAR

MINUTES

waiver is necessary because the site is small and is unable to accommodate the required parking space in a side yard or within the home where it would not count as floor area, unlike other sites where such an accommodation can be made; and

WHEREAS, the Board notes that the FAR increase is only necessary to address the increase in FAR caused by the garage; and

WHEREAS, based upon the above, the Board finds that the cited unique physical condition creates practical difficulties in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, the Board has determined that because of the subject lot's unique physical condition, there is no reasonable possibility that compliance with applicable zoning regulations will result in a habitable home; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, the Board observes that the applicant originally proposed a two-family home with an FAR of 1.8; and

WHEREAS, in response to Board concerns, the applicant reduced the FAR to 1.49 (0.14 of which is floor area for the interior garage), which is an FAR that the Board agrees is consistent with the bulk of the homes in the neighborhood; and

WHEREAS, the Board also expressed concern that a two-family home would be out of context with the character of the neighborhood, and, in response, the applicant revised the proposal to reflect a single-family home; and

WHEREAS, the Board notes that the absence of side yards and a front yard will not negatively impact the adjacent uses, as the site to the west is occupied commercially, the site to the east is on a corner and has minimal side yards, and the proposed development will leave a 13 ft. rear yard as a buffer to the home located on the lot abutting the rear lot line of the premises; and

WHEREAS, the Board further notes that the location of the home on the front lot line is consistent with the context along 69th Street on the subject block; and

WHEREAS, therefore, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, as noted above, the applicant reduced the density and FAR of the proposed home and increased the rear yard in response to Board concerns that the initial proposal did not reflect the minimum variance; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR §72-21.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II Declaration under 6 NYCRR Part

617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 72-21, to permit, within an R4 zoning district, the proposed construction of a 1.49 Floor Area Ratio, single-family, two-story plus attic, home that exceeds the permitted FAR and OSR, does not provide the required front yard or side yards, and does not have the required lot area, contrary to ZR §§23-141, 23-45, and 23-32; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received March 28, 2006"-(2) sheets and "April 7, 2006"-(3) sheets; and *on further condition*:

THAT the parameters of the proposed building shall be as follows: an FAR of 1.49; a floor area of 2,000 sq. ft.; an OSR of 26%; a rear yard of 13 ft.; and one parking space in an internal garage;

THAT the internal floor layouts on each floor of the proposed building shall be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 11, 2006.

Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION -

WHEREAS, the decision of the Bronx Borough Commissioner, dated February 24, 2005, acting on Department of Buildings Application No. 200929200, reads:

“Continued use of the automotive service station is contrary to Board of Standards and Appeals resolution 931-86-BZ, and is not permitted as-of-right in an R8/C1-4 zoning district.”; and

WHEREAS, this is an application for a reinstatement of a prior Board approval and an extension of term, pursuant to ZR § 11-411, and a legalization of a change in use from a gasoline service station with accessory automotive repairs (UG 16), to an automotive service station without the sale of gasoline (UG 16), pursuant to ZR § 11-413; and

WHEREAS, a public hearing was held on this application on March 14, 2006 after due notice by publication in the *City Record*, and then to decision on April 11, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice Chair Babbar, Commissioner Chin, and Commissioner Collins; and

WHEREAS, Community Board 5, Bronx, recommends approval of this application, on condition that there be no parking or repairs on the sidewalk, that a fence without barbed wire be installed around the property, and that exterior signage be removed; and

WHEREAS, the premises is located on the north side of East Burnside Avenue between Ryer Avenue and Anthony Avenue, in a C1-4 zoning district within an R8 zoning district; and

WHEREAS, the subject zoning lot is trapezoidal-shaped with frontage on East Burnside Avenue, and has a total lot area of approximately 13,106 sq. ft.; and

WHEREAS, the site is currently occupied by a 1,624 sq. ft. automotive service station, with accessory parking for vehicles awaiting service; and

WHEREAS, the Board originally granted a variance to permit the erection and maintenance of a gasoline service station with accessory uses at the site, including the parking and storage of more than five cars, for a term of fifteen years, on December 10, 1957, under BSA Cal. No. 91-27-BZ Vol. II; and

WHEREAS, subsequently, the variance was re-established, amended, and extended by the Board at various times, most recently on January 6, 1988, under BSA Cal. No. 931-86-BZ, to permit an extension of term for a gasoline service station with accessory uses for a term of five years, expiring on January 6, 1993; and

WHEREAS, the applicant represents that the premises is improved upon with an existing automotive service station without the sale of gasoline (UG 16); and

WHEREAS, the applicant represents further that there has been no enlargement to the zoning lot or the building, and the only change to the site from the time of the last grant is the removal of the gasoline pumps; a UG 16 use has been

continuous since the expiration noted above; and

WHEREAS, the applicant now proposes to reinstate the prior grant, legalize the existing use, and obtain a new 10-year term; and

WHEREAS, pursuant to ZR § 11-411, the Board may extend the term of an expired variance; and

WHEREAS, pursuant to ZR § 11-413, the Board may grant a request for a change in use from one non-conforming use to another non-conforming use in the same use group; and

WHEREAS, the Board has determined that evidence in the record supports the findings required to be made under ZR §§ 11-411 and 11-413.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 11-411 and 11-413, for a reinstatement of a prior Board approval, an extension of term, and a legalization of a change in use from a gasoline service station with accessory automotive repairs (UG 16), to an automotive service station without the sale of gasoline (UG 16); *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked “Received March 16, 2005”-(1) sheet and “March 28, 2006”-(2) sheets; and *on further condition*:

THAT this permit shall be for a term of ten years, to expire on April 11, 2016;

THAT the hours of operation shall be from 8 A.M. to 7 P.M., Monday through Saturday;

THAT no repairs or servicing of automobiles shall take place on the sidewalk;

THAT no gas pumps shall be installed on the site;

THAT barbed wire or razor wiring will not be installed and any existing barbed or razor wire will be removed;

THAT the lot shall be kept free of dirt and debris;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the layout of the property, location and size of the fence shall be as approved by the Department of Buildings;

THAT all signage shall comply with C1-1 zoning regulations;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION -

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 24, 2005, acting on Department of Buildings Application No. 301691097, reads:

“The proposed enlargement of the existing one family residence in an R2 zoning district:

1. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to section 23-141 of the Zoning Resolution.
2. Creates non-compliance with respect to the Open Space Ratio and is contrary to section 23-141 of the Zoning Resolution.”; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R2 zoning district, the legalization of an existing detached single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio (FAR) and Open Space Ratio (OSR), contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application on February 7, 2006, after due notice by publication in *The City Record*, with continued hearings on February 7, 2006 and March 14, 2006 and then to decision on April 11, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the

Board, consisting of Chair Srinivasan, Vice Chair Babbar, Commissioner Chin, and Commissioner Collins; and

WHEREAS, Community Board 14, Brooklyn, recommends disapproval of this application because it opposes legalization of completed work; and

WHEREAS, the subject lot is located on 21st Street, at the southeast corner of 21st Street and Avenue K; and

WHEREAS, the subject lot has a total lot area of 5,000 sq. ft.; and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks to legalize the increase in the floor area from 2,569 sq. ft. (0.51 FAR) to 4,135 sq. ft. (0.83 FAR); the maximum floor area permitted is 2,500 sq. ft. (0.50 FAR) or 2,750 sq. ft. (0.60 FAR), with attic; and

WHEREAS, the applicant also seeks to legalize the decrease in the OSR from 151 percent to 75 percent; the minimum required OSR is 150 percent; and

WHEREAS, two complying front yards of 15 feet each, one complying side yard of eight feet, and one complying side yard of five feet, as required for a corner lot in the subject zoning district, have been maintained; and

WHEREAS, the existing street wall height of 24 ft., 2 in. and total building height of 35 ft., are also in compliance; and

WHEREAS, the Board notes that the applicant submitted into the record professionally-certified plans filed at the DOB for an alteration permit, to enlarge the existing building as-of-right; and

WHEREAS, the Board notes that these plans show that much of the original home would be retained, and that it would be enlarged by making several additions primarily on the second floor and attic; and

WHEREAS, however, during the process of constructing the as-of-right alterations, the contractor hired by the owners proceeded illegally to construct floors within voids and double height spaces that were to be retained under the as-of-right alteration permit; and

WHEREAS, the Board notes that this construction within the voids and double height spaces creates new floor area, rendering the building non-compliant with FAR and OSR, and necessitating the instant special permit application; and

WHEREAS, at hearing, the property owners stated that they did not have knowledge that their home was being enlarged in floor area beyond what was permitted through the as-of-right alteration permit; and

WHEREAS, the Board did not find such statements credible or persuasive; and

WHEREAS, nonetheless, though the Board does not condone applications for legalization of work already completed in violation of issued permits, the relief sought in the instant application is within the parameters of the relief that the Board can grant and has granted in the past; and

WHEREAS, specifically, the Board notes that the special permit text allows it to waive FAR and OSR provisions to the degree that is being requested; and

WHEREAS, moreover, the applicant represents that

MINUTES

after construction began, it was discovered that the home's original framing had been severely damaged by termites and age; and

WHEREAS, the applicant further represents that the project's contractor concluded that the original home could not be saved as a result of the damage; and

WHEREAS, at hearing, the Board requested records documenting the need to demolish the pre-existing building, which was not contemplated or reflected in the professionally-certified plans for the as of right enlargement; and

WHEREAS, the applicant presented the Board with affidavits from a contractor and plumber asserting that, upon further inspection, they discovered that the house's wood framing had suffered severe termite damage, and damage due to age, such that it was beyond repair; and

WHEREAS, the Board has reviewed the affidavits from the contractor and plumber, and agrees that they support the conclusion that the original wood framing could not be retained; and

WHEREAS, thus, leaving aside the contention that the owners did not know that work was done in violation of the as of right alteration permit, the Board acknowledges that such work may have been necessary given the damage to the existing home; and

WHEREAS, further, the applicant rebuilt on the existing foundations as contemplated under the as of right permit, which the Board views as evidence of an intent to comply with the permit, absent the termite damage; and

WHEREAS, as to the effect of the enlargement, the Board finds that the completed building neither alters the essential character of the surrounding neighborhood, nor impairs the future use and development of the surrounding area; and

WHEREAS, specifically, the Board finds that the increase from 0.51 FAR to 0.83 FAR is modest, and that neither the FAR nor the OSR waiver results in a home that alters the essential character of the neighborhood or is incompatible with other nearby homes; and

WHEREAS, the completed building does not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the legalization of an enlargement of a detached single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio and Open Space Ratio,

contrary to ZR § 23-141; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application, marked "Received January 11, 2006"- (11) sheets and *on further condition*:

THAT there shall be no habitable room in the cellar;

THAT the above condition shall be set forth in the certificate of occupancy;

THAT DOB shall inspect all work performed prior to issuance of any certificate of occupancy;

THAT the total FAR on the premises shall not exceed 0.83;

THAT two front yards of 15 feet each, one side yard of eight feet, and one side yard of five feet will be maintained;

THAT the use and layout of the cellar shall be as approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 11, 2006.

For Applicant: Patricia Prothro.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION -

WHEREAS, the decision of the Manhattan Borough Commissioner, dated May 13, 2005, acting on Department of Buildings Application No. 104063656, reads, in pertinent part:

“Proposed change of use to physical cultural establishment is not as of right as per 32-00 (ZR) &

MINUTES

section 12-10 (ZR) definition ‘physical cultural establishment’.”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, within a C1-9 zoning district in a Special Land Use Transit District (TA), the legalization of an existing physical culture establishment (“PCE”) located on the ground floor of an existing 21-story residential building, contrary to ZR § 32-00; and

WHEREAS, a public hearing was held on this application on March 14, 2006, after due notice by publication in *The City Record*, and then to decision on April 11, 2006; and

WHEREAS, Community Board 6, Manhattan, recommends approval of this application; and

WHEREAS, the New York City Fire Department has indicated to the Board that it has no objection to this application; and

WHEREAS, the subject site is located on the east side of Second Avenue, between 47th and 48th Streets, and has a lot area of 20,010 sq. ft.; and

WHEREAS, the subject PCE occupies 2,300 sq. ft. on the ground floor; and

WHEREAS, the applicant represents that the PCE will provide massage services by licensed massage professionals; and

WHEREAS, the PCE will have the following hours of operation: weekdays, 6:30 A.M. to 9:00 P.M. and weekends, 8:00 A.M. to 8:00 P.M.; and

WHEREAS, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the legalization of the PCE does not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 05-BSA-136M, dated February 14, 2005; and

WHEREAS, the EAS documents show that the continued operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy;

Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the continued operation of the PCE will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, within a C1-9 (TA) zoning district, the legalization of an existing physical culture establishment located on the ground floor of an existing 21-story residential building, contrary to ZR § 32-00; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received March 23, 2006”-(2) sheets; and *on further condition*:

THAT the term of this grant shall be for ten years from the date of the grant, expiring on April 11, 2016;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to weekdays, 6:30 A.M. to 9:00 P.M. and weekends, 8:00 A.M. to 8:00 P.M.;

THAT all massages shall be performed only by New York State licensed massage professionals;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety measures shall be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 11, 2006.

APPLICANT – Rothkrug Rothkrug Weinberg & Spector, for

MINUTES

Edgewater Development, Inc., owner. (Taipei Court)
SUBJECT – Application October 24, 2002 – Variance: Z.R. §72-21, to permit the construction of 28 attached, three-story and cellar, two-family dwellings on a vacant site. The subject site is located in an M1-1 zoning district. The proposal would create 56 dwelling units and 56 parking spaces. The 28 proposed dwellings are intended to be part of a larger and substantially complete development which is located within the adjacent C3 zoning district. The proposed project has been designed to conform and comply with the C3 district regulations that govern the remainder of the subject property and which permits residential development in accordance with the C3 district's equivalent R3-2 zoning district regulations (pursuant to Sections 32-11 and 34-112). The development as a whole is the subject of a homeowners' association that will govern maintenance of the common areas, including the parking area, driveways, planted areas and the proposed park. The proposal is contrary to applicable use regulations pursuant to Z.R. Section 42-10.
PREMISES AFFECTED – 114-01/03/05/07/09/11/13/17/19/15/21/21/23/25/27/29/31/33/35/20/22/24/26/28/30/32/34 Taipei Court, west of 115th Street, Block 4019, Lot 120, Borough of Queens.

COMMUNITY BOARD #5M

303-05-BZ

APPLICANT – Eric Palatnik, P.C., for Adoo East 102 Street Corp., owner; Aspen Fitness, lessee.

SUBJECT – Application October 12, 2005 - under Z.R. §72-21- to permit the legalization of the second floor of an existing two story commercial structure for use as a physical culture establishment. Premises is located within the R8-B zoning district.

PREMISES AFFECTED – 428 East 75th Street, between York and First Avenues, Block 1469, Lot 36, Borough of Manhattan.

COMMUNITY BOARD #8

313-05-BZ

APPLICANT – Sheldon Lobel, P.C., for Douglas Brenner and Ian Kinniburgh, owners.

SUBJECT – October 20, 2005 - Variance under Section 72-21 to allow a proposed enlargement of an existing residential building located in C6-1 and R7-2 districts to violate applicable rear yard regulations; contrary to Section 23-47.

PREMISES AFFECTED – 26 East 2nd Street, Block 458, Lot 36, Borough of Manhattan.

COMMUNITY BOARD #3M

22-06-BZ

APPLICANT –Harold Weinberg, P.E., for Margret Riordan, owner.

SUBJECT –Application February 9, 2006 - Variance: Under Z.R. §72-21 to permit the enlargement of an existing single family dwelling on a pre-existing undersized lot. The proposed enlargement increases the degree of non-compliance at the front yard, rear yard and side yards; (ZR§23-45, 23-47 and 23-48) the proposed enlargement also exceeds the allowable setback and is contrary to ZR§23-631. The premise is located in an R4 zoning district.

PREMISES AFFECTED – 8 Gotham Avenue, between Fane Court, south side and Shell Bank Creek, Block 8883, Lot 978, Borough of Brooklyn.

COMMUNITY BOARD #15BK

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, APRIL 25, 2006
10:00 A.M.**

Present: Chair Srinivasan, Vice Chair Babbar, Commissioner Chin and Commissioner Collins.

The motion is to approve the minutes of regular meetings of the Board held on Tuesday morning and afternoon, February 14, 2006 and February 15, 2006 as printed in the bulletin of February 24, 2006, Volume 91, No. 8. If there be no objection, it is so ordered.

SPECIAL ORDER CALENDAR

414-59-BZ

APPLICANT – Bryan Cave, LLP, for Royal Charter Properties, owner.

SUBJECT – Application December 8, 2005 – Extension of Term of a Variance to allow 77 transient parking spaces at the first and cellar floors of an existing multiple dwelling accessory garage. The premise is located in an R-9 and R-10 zoning district.

PREMISES AFFECTED – 1285 York Avenue, a/k/a 435-445 East 68th Street, Block 1463, Lot 21, Borough of Manhattan.

COMMUNITY BOARD #8M

APPEARANCES –

For Applicant: Margery Perlmutter.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application, pursuant to ZR § 11-411, for a reopening and an extension of the term of the prior grant, which expired on December 1, 1979; and

WHEREAS, a public hearing was held on this application on April 11, 2006, after due notice by publication in *The City Record*, and then to April 25, 2006 for decision; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, on December 1, 1959, the Board granted a zoning variance and a Multiple Dwelling Law waiver under the subject calendar numbers to allow a transient parking lot in the cellar and first floor accessory garage to a multiple dwelling located at the subject premises, for a term of 20 years; and

WHEREAS, the applicant explained that due to an administrative oversight, no application to extend the term of the variance was made since the December 1, 1979 expiration; and

WHEREAS, at hearing, the Board questioned the applicant about the inconsistency regarding the total number of parking spaces on each floor of the parking structure, as reflected on the certificate of occupancy and the approved plans;

and

WHEREAS, the applicant responded that the configuration of the 77 spaces, reflected on the plans is correct and that there has been a longstanding error on the certificate of occupancy which applicant will remedy after the Board's decision; and

WHEREAS, the applicant submitted photographs of the notice to tenants posted in the garage which identifies their right to recapture transient parking spaces pursuant to the Multiple Dwelling Law; and

WHEREAS, the Board has reviewed the record and finds that the instant application is appropriate to grant, based upon the evidence submitted.

Therefore it is Resolved that the Board of Standards and Appeals, *reopens and amends* the resolutions, said resolutions having been adopted on December 1, 1959, so that, as amended, this portion of the resolution shall read: "to permit the extension of the term of the grant for an additional ten (10) years from April 25, 2006, expiring on April 25, 2016; *on condition*:

THAT there shall be a maximum of 77 parking spaces used for transient parking at the cellar and first floors at the subject premises;

THAT all residential leases shall indicate that the spaces devoted to transient parking can be recaptured by residential tenants on 30 days notice to the owner;

THAT a sign providing the same information about tenant recapture rights be placed in a conspicuous place within the garage;

THAT the above condition and all conditions from the prior resolution shall appear on the certificate of occupancy;

THAT a new certificate of occupancy shall be obtained within one year of the date of this grant;

THAT the layout of the parking lot shall be as approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB App. No. 104116225)

Adopted by the Board of Standards and Appeals, April 25, 2006.

173-94-BZ

APPLICANT – Rothkrug Rothkrug Weinberg Spector, for Richard Shelala, owner; Compass Forwarding Co., Inc., lessee.

SUBJECT – Application July 25, 2005 – Reopening for an amendment of variance to permit the change in hours of

MINUTES

operation of a freight transfer facility. The premise is located in a C2-2(R3-2) zoning district.

PREMISES AFFECTED – 159-15 Rockaway Boulevard a/k/a 165-10 144th Road, southeast corner of Rockaway Boulevard and 144th Road, Block 1327, Lot 17, Borough of Queens.

COMMUNITY BOARD #8Q

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT–

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, this application is a request for a reopening and an amendment to the hours of operation of a freight transfer facility; and

WHEREAS, a public hearing was held on this application on March 7, 2006, after due notice by publication in *The City Record*, laid over for continued hearing on April 11, 2006 and then to decision on April 25, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice Chair Babbar, Commissioner Chin, and Commissioner Collins; and

WHEREAS, Community Board 13, Queens, withdrew its initial objections to this application, and recommends a conditional approval as it monitors the implementation of the new hours; and

WHEREAS, the subject site is located on the southeast corner of Rockaway Boulevard and 144th Road, and is within a C2-2 (R3-2) zoning district; and

WHEREAS, on January 30, 1996, the Board granted an application under the subject calendar number to permit a one-story enlargement to an existing non-conforming one-story manufacturing building occupied as a freight transfer station, contrary to the district use regulations; and

WHEREAS, this grant was termed for twenty years, to expire January 30, 2016; and

WHEREAS, the hours of operation specified in the original grant are 8 A.M. to 6 P.M, weekdays and 8 A.M. to 4 P.M., Saturdays; the facility was to be closed on Sundays; and

WHEREAS, the applicant represents that due to the recent increase in airport security measures, there are new requirements on tracking and removal of air freight since the original Board grant that include cargo recipients filing an electronic manifest in advance of flight departure, and a four-hour time limit to remove freight from the airport holding area; and

WHEREAS, the applicant represents that because of the new regulations that cargo be removed within four hours of arrival at the airport, the cargo from a client air carrier with Sunday arrivals must be removed from the airport that day; and

WHEREAS, the applicant further represents that if the cargo is not removed within the specified time, then severe

penalties are imposed; and

WHEREAS, at hearing, the Board asked the applicant for documentation on these changes in airport security measures; and

WHEREAS, the applicant provided a letter from the U.S. Customs and Border Protection, Cargo Branch, advising the client air carrier about the regulations, which went into effect August 13, 2004; and

WHEREAS, at hearing, the Board asked the applicant for a description of the operations necessary on Sundays at the site; and

WHEREAS, the applicant responded that only a very limited staff of three or four employees would be required on Sundays to submit the electronic manifest and to aid the cargo deliveries; and

WHEREAS, the applicant initially suggested having just one truck making a number of return trips from the airport, with cargo; and

WHEREAS, at the Board's suggestion to shorten the requested Sunday hours of operation and thus minimize any impact, the applicant modified the operation plan so that there would be two trucks making return trips, with only one on the site at a time; and

WHEREAS, the applicant represents that the time period of 10:30 A.M. to 6:00 P.M., Sundays, is necessary to accommodate potential flight delays, but that the hours of activity on the site will likely be shorter; and

WHEREAS, the applicant represents that there are fewer residences in the area around the site since the original Board grant and that the potential impact of the additional hours of operation therefore has been minimized; and

WHEREAS, based upon the above, the Board finds it appropriate to grant the requested amendment.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on January 30, 1996 so that as amended this portion of the resolution shall read: “to permit a change in hours of operation to include 10:30 A.M. to 6:00 P.M., Sundays; *on condition:*

THAT the hours of operation shall be limited to 8:00 A.M. to 6:00 P.M., weekdays; 8:00 A.M. to 4:00 P.M., Saturdays; and 10:30 A.M. to 6:00 P.M., Sundays;

THAT there shall be a maximum of two trucks, not to exceed 24 ft. in length, operating from the site on Sundays;

THAT the premises shall be maintained free of debris and graffiti;

THAT any graffiti located on the premises shall be removed within 48 hours;

THAT all site lighting shall be directed downward and away from any adjacent residences;

THAT street trees and landscaping shall be planted and maintained in accordance with BSA-approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived or modified by the Board remain in effect;

MINUTES

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 402053219)

Adopted by the Board of Standards and Appeals, April 25, 2006.

7-95-BZ

APPLICANT – Francis R. Angelino, Esq., c/o DeCampo, for Redmont Realty Company, LLC, owner; Town Sports International, Inc., lessee.

SUBJECT – Application September 13, 2005 – Reopening for an extension of term and an amendment of a previously granted variance to permit, in a C1-2(R3-2)/R3-2 district, a physical culture establishment (health club) in a cellar and two-story building within a larger shopping center development, which does not conform to district use regulations.

PREMISES AFFECTED – 153-37 Cross Island Parkway, Block 4717, Lot 16, Borough of Queens.

COMMUNITY BOARD #7Q

APPEARANCES –

For Applicant: Francis R. Angelino.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT:

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, this application is a request for a re-opening for an amendment, an extension of term of a variance, and approval of a new operator for a physical culture establishment (PCE); and

WHEREAS, a public hearing was held on this application on March 28, 2006, after due notice by publication in *The City Record*, and then to decision on April 25, 2006; and

WHEREAS, the subject site is located on the Cross Island Parkway, west of Cryders Lane; and

WHEREAS, on August 8, 1995, the Board granted a variance application under the subject calendar number to permit in a C1-2 (R3-2) zoning district, a PCE in a two-story building, which is a part of a larger shopping center development; and

WHEREAS, the term of the variance expired on August 8, 2005; and

WHEREAS, the operator of the PCE has also changed; and

WHEREAS, the Department of Investigation has performed a background check on the new corporate owner and operator of the PCE and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the applicant has also made minor reconfigurations to the interior space at the cellar, first, and second floors and has added exterior signage, all of which the Board finds acceptable; and

WHEREAS, based upon the above, the Board finds it appropriate to grant the requested amendments and extension of term.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on August 8, 1995, so that as amended this portion of the resolution shall read: “to permit an extension of term for an additional period of ten years from the expiration of the prior grant, to expire on August 8, 2015, to approve the change in the operator of the PCE, and to approve minor interior reconfigurations; *on condition* that all work substantially conforms to drawings filed with this application, marked ‘Received April 4, 2006’–(4) sheets and *on further condition*:

THAT the term of this grant shall be for ten years from the expiration of the prior grant, expiring on August 8, 2016;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to weekdays, 5:30 A.M. to 11:00 P.M. and weekends, 8:00 A.M. to 10:00 P.M.;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety measures shall be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, April 25, 2006.

165-02-BZ thru 190-02-BZ

APPLICANT – Stuart A. Klein, Esq., / Steve Sinacori, Esq., for Park Side Estates, LLC, owner.

SUBJECT – Application March 31, 2005 – Reopening for an amendment to BSA resolution granted under calendar

MINUTES

numbers 167-02-BZ, 169-02-BZ, 171-02-BZ, 173-02-BZ and 175-02-BZ. The application seeks to add 5 residential units to the overall development (encompassing lots 21 and 28) for a total of 37, increase the maximum wall height by 2'-0", and increase the number of underground parking spaces from 11 to 20, while remaining compliant with the FAR granted under the original variance, located in an M1-1 zoning district.

PREMISES AFFECTED – 143-147 Classon Avenue, a/k/a 380-388 Park Avenue and 149-159 Classon Avenue, southeast corner of Park and Classon Avenues, Block 1896, Lot 21, Borough of Brooklyn.

COMMUNITY BOARD #2BK

APPEARANCES –

For Applicant: Steven Sinacori.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to an existing Board variance; and

WHEREAS, the original grant was made on July 15, 2003, and permitted the construction of a five-story, Use Group 2 residential building in an M1-1 zoning district, with a Floor Area Ratio (FAR) of 3.08, a height of 55'-0", 32 dwelling units, and 11 accessory parking spaces; and

WHEREAS, the applicant proposes to maintain the approved building height and FAR, but increase the unit count to 37 units, and the amount of parking spaces to 18, all in the context of a redesign of the approved building that would include creation of a new subcellar in addition to the previously approved cellar, the relocation of the parking from the rear of the building to below grade in the subcellar, creation of dormers at the fifth floor setback, and the separation of the two building parts with an 8 ft. yard; and

WHEREAS, upon initial application, the applicant proposed to increase the height of the building to 57'-0", the total units to 37, and the number of parking spaces to 20, while decreasing the FAR to 3.04 through Quality Housing deductions; and

WHEREAS, however, after the Board expressed concerns about this proposal, particularly the increase in height and the Quality Housing deductions, the applicant ultimately modified the proposal to the current version, which reflects the same height as originally approved and does not include the Quality Housing deductions; and

WHEREAS, a public hearing was held on this application on October 18, 2005 after due notice by publication in *The City Record*, with continued hearings on March 14, 2006, and then to April 25, 2006 for decision; and

WHEREAS, Community Board 2, Brooklyn, did not issue a recommendation as to this proposal; and

WHEREAS, Council Member James and the Central Jewish Council support this proposal; and

WHEREAS, the site and surrounding area had a site and

neighborhood examination by a committee of the Board consisting of Chair Srinivasan and Vice-Chair Babbar; and

WHEREAS, the applicant states that the proposed increase in units and increase in parking will not affect the Board's prior grant in terms of FAR, and that the proposed redesign will create a more aesthetically pleasing building; and

WHEREAS, the applicant also states that the proposal now includes a subcellar because during excavation it was discovered that poor soil had to be removed to an unanticipated depth, which left space for an additional below-grade level; and

WHEREAS, during the hearing process, the Board asked the applicant for additional information concerning the character of the neighborhood surrounding the site; and

WHEREAS, the applicant submitted a response that states that the area is a mix of residential, community facility, and commercial and manufacturing uses, within R6, C1-3, M1-1 and M1-2 zoning districts; and

WHEREAS, the applicant notes that the site is adjacent to an approximately 75,000 sq. ft. playground, beyond which is a seven story school building; and

WHEREAS, the applicant also cites to community facility uses within three blocks of the site, as well as multiple dwellings across the street; and

WHEREAS, as to bulk, the applicant cites to six to eight story buildings within 900 ft. of the site, five and six story buildings four blocks to the East, and six story residences on nearby Skillman Street; and

WHEREAS, the Board has reviewed this submission and finds that the proposed building is compatible in terms of use and bulk with the surrounding conditions; and

WHEREAS, finally, the Board notes that the applicant is proposing mechanical deductions for floor area; the Board is not approving said deductions through this grant, and they must be approved by the Department of Buildings; and

WHEREAS, based upon the above, the Board finds that the proposed amendment is appropriate to grant, with conditions as specified below.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on July 15, 2003, so that as amended this portion of the resolution shall read: "to permit an increase in the amount of units and accessory parking spaces, as well as a redesign of the proposed building; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application, marked 'Received March 30, 2006'-(22) sheets and *on further condition*:

THAT a new certificate of occupancy shall be obtained within four years from the date of this grant;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the proposed work authorized by this grant, to be filed at the Department of Buildings under DOB Job No. 301862410, can not be professionally certified;

THAT DOB shall conduct a full plan examination of any permit application filed for the proposed work, including, but not limited to, a review and approval of FAR calculations and

MINUTES

all floor area deductions;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.
(DOB Application No. 301862410)

Adopted by the Board of Standards and Appeals, April 25, 2006.

Buildings Application No. 401861963, reads:

“Map 11A does not show the location of Property. Verify and
comply with General City Law 36.”; and

WHEREAS, a public hearing was held on this application
on April 11, 2006 after due notice by publication in the *City*

MINUTES

Record, and then to closure and decision on April 25, 2006; and

WHEREAS, by letter dated March 16, 2006, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated March 10, 2005, acting on Department of Buildings Application No. 401861963, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received April 17, 2006" – (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 25, 2006.

155-05-A

APPLICANT – Richard Kusack, neighbor; 81 East Third Street Realty, LLC., owner.

SUBJECT – Application June 30, 2005 – For an appeal of the Department of Buildings decision dated May 27, 2005 rescinding its Notice of Intent to revoke the approvals and permit for Application No. 102579354 for a community facility (New York Law School) in that it allows violations of the Zoning Resolution and Building Code regarding bulk, light, air, and unpermitted obstructions in rear yards.

PREMISES AFFECTED – 81 East 3rd Street, Manhattan, Block 445, Lot 45, Borough of Manhattan.

COMMUNITY BOARD #8M

APPEARANCES – None.

ACTION OF THE BOARD – Application denied.

THE VOTE TO GRANT –

Affirmative:.....0

Negative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins..... 4

THE RESOLUTION –

WHEREAS, the instant appeal comes before the Board in response to a final determination of the Manhattan Borough

Commissioner, dated May 27, 2005 (the "Final Determination"); and

WHEREAS, the Final Determination was issued in response to a January 27, 2005 request from the appellant, asking that the Department of Buildings ("DOB") cancel the rescission of a 10-day notice to revoke the permit (Application No. 102579354, hereinafter, the "Permit") issued for construction of a 13-story Use Group ("UG") 3 school dormitory building (the "Building") at the subject premises; and

WHEREAS, as reflected in the Final Determination, the Manhattan Borough Commissioner denied this request because all outstanding zoning issues had been resolved and there was no basis to revoke the permits; and

WHEREAS, a public hearing was held on this application on December 6, 2005 after due notice by publication in *The City Record*, with a continued hearing on January 24, 2006, March 14, 2006, March 28, 2006, and then to decision on April 25, 2006; and

WHEREAS, Community Board 3, Manhattan, submitted testimony in support of the appeal and the request to revoke the permits, citing concerns about adherence to zoning regulations; and

WHEREAS, the Greenwich Village Society for Historic Preservation submitted testimony citing the same concerns; and

WHEREAS, the Building is located on the north side of East Third Street, between First and Second Avenues, in an R7-2 zoning district; and

WHEREAS, on March 21, 2001, DOB approved a new building permit application (Application No. 102579354) to construct a seven-story residential building; and

WHEREAS, before any permit was issued, the Building was sold to the current owner who, on October 18, 2002, applied to amend the permit application to construct six stories of UG 2 residential use and six stories of UG 3 student dormitory use, and one story for mechanical equipment and accessory use; this application was approved on November 7, 2002, but no permit was pulled at that time; and

WHEREAS, on May 13, 2003, the owner filed a professionally certified new building application (Application No. 103454717) to construct a seven-story building with medical offices on the first floor and residential uses above; a permit was issued on May 15, 2003 and construction was begun; and

WHEREAS, on June 28, 2004, the Permit was issued, under Application No. 102579354 (the "Final Application"), to construct a 13-story building with six student dormitory floors; and

WHEREAS, in October 2004, in response to a complaint, the DOB determined that the Final Application lacked evidence of institutional control over the six student dormitory floors, and issued a ten-day notice of intent to revoke the permit; and

WHEREAS, the owner documented its plan to comply with DOB's requirements, submitted a draft restrictive declaration, and requested a 45-day extension to the October 20, 2004 notice of intent to revoke; and

WHEREAS, upon completing another audit of the

MINUTES

application, the DOB notified the owner that the restrictive declaration was not acceptable and issued another ten-day letter of intent to revoke the approvals and permits based upon zoning, Multiple Dwelling Law, and Building Code objections; and

WHEREAS, the owner again responded to DOB's objections and, on May 5, 2005, DOB accepted revised plans reflecting the needed revisions (additional revisions showing new fenestration were filed on May 25, 2005); and

WHEREAS, additionally, on May 24, 2005, the owner submitted a copy of a lease for a ten-year term with New York Law School, and a restrictive declaration, which required UG 3 school dormitory occupancy on the first seven floors and portions of the eighth floor, was subsequently recorded; and

WHEREAS, on May 27, 2005, DOB rescinded its intent to revoke the approvals and permits, and ultimately issued a final certificate of occupancy on August 30, 2005; and

WHEREAS, the appellant now challenges DOB's rescission of its intent to revoke the Permit, based upon the following arguments: (1) the Building as occupied does not satisfy DOB's requirements for a student dormitory; and (2) the Building is not in compliance with certain zoning requirements: open space ratio (ZR §§ 12-10 and 23-142) and rear yard obstructions (ZR § 22-33(b)); and

WHEREAS, as to the first argument, the appellant contends that DOB has "arbitrarily" allowed a "speculative" community facility dormitory contrary to zoning; and

WHEREAS, further, the appellant questions DOB's ability to enforce the restrictive declaration regarding the dormitory use; and

WHEREAS, DOB disputes the appellant's claims, stating in response to the first that it issued its Final Determination only after the owner submitted a copy of an executed ten-year lease (with an option to renew for another ten-year term) with New York Law School, a recognized educational institution, as well as an executed and recorded restrictive declaration that restricts the use of the first seven above-grade floors and part of the eighth floor to UG 3 student dormitory use, as part of the amended Final Application; and

WHEREAS, DOB notes that evidence of institutional control is required, and states that it notified the owner that the permit issued under the Final Application would be revoked if proper documentation of institutional control was not presented; and

WHEREAS, as to the appellant's concern about the enforceability of the restrictive declaration, the DOB states that it was filed as a condition for the issuance of the certificate of occupancy and that there is a provision that the agreement may not be modified without DOB's consent; DOB notes that this is a standard clause in declarations submitted to satisfy a regulatory requirement; and

WHEREAS, on June 20, 2005, subsequent to the Final Determination, the DOB effectuated a rule, 1 RCNY 51-01, (the "Rule") concerning the classification of a student dormitory; DOB notes that since the Rule was not effective as of the date of the Final Determination, it is not a relevant consideration in the instant appeal; and

WHEREAS, the Board agrees with DOB that the objection about the institutional nexus concern was resolved when the owner submitted an executed lease with New York Law School and a restrictive declaration, and further notes that New York Law School now occupies the building with a UG 3 student dormitory, which the appellant does not dispute; and

WHEREAS, the Board further agrees that the subsequent enactment of the Rule concerning student dormitory classification should not be applied retroactively, and that it is therefore not relevant to the subject appeal; and

WHEREAS, the Board finds that DOB was within its discretion at the time the determination was made to accept a ten-year lease as sufficient proof of the necessary institutional nexus for a UG 3 student dormitory classification; and

WHEREAS, the appellant made a further argument that the lease contained an optional termination provision after five years; and

WHEREAS, the appellant argues that there is no lawful basis for the proposition that a five-year lease would be sufficient to establish an institutional nexus to develop a school dormitory; and

WHEREAS, DOB responded that prior to the enactment of the Rule, it accepted lease periods of less than ten years and leases with five-year termination provisions; and

WHEREAS, again, the Board does not find the appellant's argument persuasive, since it is clear that the Rule, and the provisions therein, should not be applied retroactively; and

WHEREAS, accordingly, the Board finds that appellant's first argument is without merit; and

WHEREAS, as to the second argument concerning purported zoning requirement deficiencies, the appellant contends that there is an insufficient amount of open space at the rear of the Building, as required as defined by ZR § 23-142, because the residential occupants apparently could not access the open space and

WHEREAS, DOB responds by pointing out that the revised plans clearly designate the residential tenants' means of access to the required open space through the cellar; and

WHEREAS, secondly, the appellant argues that the curb-level west and east terraces do not contribute to open space, pursuant to ZR § 12-10, because the terraces are less than 25 feet in width; and

WHEREAS, DOB responds that the 25-foot width requirement under ZR § 12-10 applies to open space that is on an above-grade roof and is not relevant to space at curb level for which there is no minimum dimension required; and

WHEREAS, again, the Board agrees with DOB, for the reason given, and notes that the revised plans reflect the required access; and

WHEREAS, accordingly, the Board finds that appellant's arguments concerning the open space requirement is without merit; and

WHEREAS, subsequent to the first hearing on the matter, the appellant submitted supplemental arguments concerning the open space, permitted obstructions, and the

MINUTES

right to vest; and

WHEREAS, the appellant argued that the open space is not wheelchair-accessible because it appears only to be accessible through a stairwell; and

WHEREAS, DOB responds that the owner has agreed to include an accessible chair on the stairs to provide accessibility between the two levels of public space, and that this is a permitted obstruction pursuant to ZR §§ 23-44 (which allows steps for handicapped access) and 24-33(b) (which allows steps as a permitted obstruction); and

WHEREAS, the Board agrees with DOB that the stairwell, as modified, provides lawful wheelchair access to the entirety of the open space; and

WHEREAS, the appellant also argues that the Building violates ZR § 24-33(b)(3), amended on September 9, 2004 (the "Amendment"), because a dormitory use is not a permitted rear yard obstruction; and

WHEREAS, DOB responds by noting that the Building is not subject to this provision because the owner vested prior its enactment by completing the foundation in February 2004; and

WHEREAS, the appellant argues that the Building did not vest prior to the Amendment because the foundation was constructed under a prior permit for a residential building that did not include a dormitory and that that use did not comply with the law in effect at the time of construction; and

WHEREAS, the appellant contends that since a residential use is not a permitted obstruction, the vesting cannot be applied to the Building with its dormitory use; and

WHEREAS, DOB observes that the plans approved at the time construction began included community facility use in the rear yard and that this was permitted prior to the adoption of the Amendment, when the Building vested; and

WHEREAS, DOB further observes that sleeping accommodations were not approved in the rear yard obstruction as they were not permitted pursuant to ZR § 24-33(b)(1), before or after the Amendment's adoption; and

WHEREAS, the Board agrees with DOB as to appellant's vesting argument, and notes that prior to the Amendment, the owner had completed construction on a substantial portion of the Building, including the community facility portion in the rear yard, and that work was performed under a valid building permit that was never revoked; and

WHEREAS, the owner of the subject premises also observes that the recreation space is in the cellar, which is below-grade, and because the rear yard starts at grade, the rear yard obstruction provisions have no applicability to the recreation space; and

WHEREAS, accordingly, the Board finds that all of the appellant's arguments are without merit.

Therefore it is Resolved that the instant appeal, seeking a reversal of the determination of the Manhattan Borough Commissioner, dated May 27, 2005, refusing to cancel the rescission of the notice of revocation as to the Final Application, is hereby denied.

Adopted by the Board of Standards and Appeals, April 25, 2006.

374-05-BZY thru 399-05-BZY

APPLICANT – Eric Palatnik, P.C., for Carmel Homes LLC, owner.

SUBJECT – Application December 27, 2005 – Proposed extension of time to renew building permits and complete construction of a development pursuant to Z.R. 11-332. Prior R3-2 Zoning District. Current R3-X Zoning District.

PREMISES AFFECTED – Riga Street, Carmela Court, Mill Road, Block 4690, Lots Nos. 130-135, 135-139, 126-129, 120-125, 110-115, Borough of Staten Island.

COMMUNITY BOARD #3SI

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-332, to permit an extension of time for the completion of construction of, and obtainment of certificates of occupancy for, 26 townhouses currently under construction at the subject premises; and

WHEREAS, the Board notes that while separate applications were filed for each permit for each of the townhouses, in the interest of convenience, it heard the cases together and the record is the same for all the applications; and

WHEREAS, a public hearing was held on this application on April 11, 2005 after due notice by publication in The City Record, and then to decision on April 25, 2006; and

WHEREAS, the site was inspected by a committee of the Board; and

WHEREAS, the Oakwood Civic Association raised concerns about the development's impact on flooding in the area; and

WHEREAS, the Board notes that all Building Code and other legal requirements must be met, including those concerning drainage, as enforced by the Department of Environmental Protection (DEP); and

WHEREAS, additionally, in response to the opposition's concern about the flooding conditions, the applicant stated that DEP had examined the issue before granting permits; and

WHEREAS, the subject premises are five separate groups of four to six townhouses, all bound by Mill Road, Aviston Street, and Riga Street; and

WHEREAS, the premises are currently located within an R3-X zoning district, but were formerly located within an R3-2 zoning district; and

WHEREAS, the development complies with the former R3-2 zoning district parameters as to floor area, building height, and lot coverage; and

WHEREAS, however, on December 3, 2003 (hereinafter, the "Enactment Date"), the City Council voted to adopt the

MINUTES

rezoning of the area, which rezoned the sites to R3-X; and

WHEREAS, as of that date, foundation construction had been completed, such that the right to continue construction was vested pursuant to ZR § 11-331, which allows the Department of Buildings (DOB) to determine that construction may continue under such circumstances; and

WHEREAS, however, only two years are allowed for completion of construction and to obtain certificates of occupancy; and

WHEREAS, accordingly, because the two-year time limit has expired and construction is still ongoing, the applicant seeks relief pursuant to ZR § 11-30 et seq., which sets forth the regulations that apply to a reinstatement of a permit that lapses due to a zoning change; and

WHEREAS, first, the Board notes that ZR § 11-31(c)(1) defines construction such as the proposed enlargement, which involves the construction of two or more buildings on contiguous zoning lots, as a "minor development"; and

WHEREAS, for "minor development," an extension of time to complete construction may be granted by the Board pursuant to ZR § 11-332; and

WHEREAS, ZR § 11-332 reads, in pertinent part: "In the event that construction permitted in Section 11-331 (Right to construct if foundations completed) has not been completed and a certificate of occupancy including a temporary certificate of occupancy, issued therefore within two years after the effective dater of any applicable amendment . . . the building permit shall automatically lapse and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew such building permit for two terms of not more than two years each for a minor development . . . In granting such an extension, the Board shall find that substantial construction has been completed and substantial expenditures made, subsequent to the granting of the permit, for work required by any applicable law for the use or development of the property pursuant to the permit."; and

WHEREAS, as a threshold issue, the Board must determine that proper permits were issued, since ZR § 11-31(a) requires: "For the purposes of Section 11-33, relating to Building Permits Issued Before Effective Date of Amendment to this Resolution, the following terms and general provisions shall apply: (a) A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment to this Resolution. In case of dispute as to whether an application includes "complete plans and specifications" as required in this Section, the Commissioner of Buildings shall determine whether such requirement has been met."; and

WHEREAS, the applicant represents that all of the relevant DOB permits were lawfully issued to the owner of the subject premises; and

WHEREAS, the record indicates that the following permits, and renewals, for the proposed development were lawfully issued to the owner by DOB, prior to the Enactment

Date: Permit Nos. 500592539-01-NB, 500592548-01-NB, 500592557-01-NB, 500592566-01-NB, 500592575-01-NB, 500592584-01-NB, 500592593-01-NB, 500592600-01-NB, 500592619-01-NB, 500592628-01-NB, 500592637-01-NB, 500592646-01-NB, 500592655-01-NB, 500592664-01-NB, 500592726-01-NB, 500592717-01-NB, 500592708-01-NB, 500592691-01-NB, 500592682-01-NB, 500592673-01-NB, 500592780-01-NB, 500592771-01-NB, 500592762-01-NB, 500592753-01-NB, 500592744-01-NB, and 500592735-01-NB (hereinafter, the "New Building Permits"); and

WHEREAS, the Board has reviewed the record and agrees that the New Building Permits were lawfully issued to the owner of the subject premises on the referenced date, prior to the Enactment Date; and

WHEREAS, turning to the substantive findings of ZR § 11-332, the Board notes that there is no fixed standard in an application made under this provision as to what constitutes substantial construction or substantial expenditure in the context of new development; and

WHEREAS, the Board also observes that the work to be measured under ZR § 11-332 must be performed after the issuance of the permit; and

WHEREAS, similarly, the expenditures to be assessed under ZR § 11-332 are those incurred after the permit is issued; and

WHEREAS, accordingly, as is reflected below, the Board only considered post-permit work and expenditures, as submitted by the applicant; and

WHEREAS, in its written statements and testimony, the applicant represents that, since the issuance of the New Building Permits, substantial construction has been completed and substantial expenditures were incurred; and

WHEREAS, the applicant states that work on the proposed townhouse developments subsequent to the issuance of the New Building Permits resulted in full townhouse completion in some cases, and 27 percent completion in others; and

WHEREAS, in support of this statement the applicant has submitted the following evidence: photographs of each lot showing the amount of work completed, ranging from partial framing at the least to total completion; building plans, stamped and sealed by the architect, indicating the amount of work completed; and copies of contracts, work orders, invoices, and cancelled checks; and

WHEREAS, the submitted plans, stamped and signed by the architect of record, indicating the extent of completion, corroborate the applicant's statements as to the scope of work; and

WHEREAS, the Board has reviewed all documentation and agrees that it establishes that the afore-mentioned work was completed subsequent to the issuance of the valid New Building Permits; and

WHEREAS, the applicant represents that the following work remains to be done: some interior work throughout the development, and building construction at addresses 15 thru 25 Carmela Court and 589 thru 599 Mill Road; and

WHEREAS, thus, taken as a whole, the applicant asserts that construction of the five groups of townhouses was 69.26 percent complete as of December 3, 2005, with 32,564 square

MINUTES

feet improved and 10,014 square feet remaining to be improved; and

WHEREAS, the Board notes that the actual completion of physical construction is substantial in of itself, in that it resulted in tangible above-grade construction; and

WHEREAS, as to costs, the applicant represents that the total value of the construction already completed is \$1,707,129.00 while the total project cost is \$2,464,800.00 (69 percent completion); the estimated financial expenditures actually paid are \$1,462,975.69 (59 percent paid); in support of this claim, the applicant has submitted invoices and cancelled checks; and

WHEREAS, the applicant contends that this percentage constitutes a substantial expenditure sufficient to satisfy the finding in ZR § 11-332; and

WHEREAS, based upon its review of all the submitted evidence, the Board finds that substantial construction was completed and that substantial expenditures were made since the issuance of the New Building Permits; therefore, the Board finds that the applicant has adequately satisfied all the requirements of ZR § 11-332, and that the owner is entitled to the requested reinstatement of the New Building Permits, and all other permits necessary to complete the proposed development; and

WHEREAS, accordingly, the Board, through this resolution, grants the owner of the site the requested two-year extension for completion of construction that is allowed under ZR § 11-332.

Therefore it is Resolved that this application made pursuant to ZR §11-332 to renew New Building Permits Nos. 500592539-01-NB, 500592548-01-NB, 500592557-01-NB, 500592566-01-NB, 500592575-01-NB, 500592584-01-NB, 500592593-01-NB, 500592600-01-NB, 500592619-01-NB, 500592628-01-NB, 500592637-01-NB, 500592646-01-NB, 500592655-01-NB, 500592664-01-NB, 500592726-01-NB, 500592717-01-NB, 500592708-01-NB, 500592691-01-NB, 500592682-01-NB, 500592673-01-NB, 500592780-01-NB, 500592771-01-NB, 500592762-01-NB, 500592753-01-NB, 500592744-01-NB, and 500592735-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed townhouse developments for one term of two years from the date of this resolution, to expire on April 25, 2008.

Adopted by the Board of Standards and Appeals, April 25, 2006.

Jeffrey Mulligan, Executive Director.

Adjourned: 2:20 P.M.

REGULAR MEETING TUESDAY AFTERNOON, APRIL 25, 2006 1:30 P.M.

Present: Chair Srinivasan, Vice Chair Babbar,
Commissioner Chin and Commissioner Collins.

ZONING CALENDAR

160-04-BZ/161-04-A

APPLICANT – Mitchell S. Ross, Esq., Augusta & Ross, for
Daffna, LLC, owner.

SUBJECT – Application April 21, 2004 – Under Z.R. §72-21
to permit, in an M1-2 zoning district, the residential
conversion of an existing four-story commercial loft building
into eight dwelling units, contrary to Z.R. §42-10.

PREMISES AFFECTED – 73 Washington Avenue, East side

MINUTES

of Washington Avenue 170' north of Park Avenue, Block 1875, Lot 5, Borough of Brooklyn.

COMMUNITY BOARD #2BK

APPEARANCES –

For Applicant: Mitchell Ross.

ACTION OF THE BOARD – Application withdrawn.

THE VOTE TO WITHDRAW –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

Adopted by the Board of Standards and Appeals, April 25, 2006.

81-05-BZ

CEQR #05-BSA-117K

APPLICANT – Bryan Cave LLP (Margery Perlmutter, Esq.) for the Lyon Group, LLC, owner.

SUBJECT – Application April 5, 2005 – Under Z.R. §72-21 to construct a 7-story plus mezzanine residential building containing 39 dwelling units and 10 accessory parking spaces in an R6 district, contrary to Z.R. §§23-145, 23-632, 23-633, 25-23.

PREMISES AFFECTED – 1061/71 52nd Street, north side, 229' east of Fort Hamilton Parkway, Block 5653, Lot 55, Borough of Brooklyn.

COMMUNITY BOARD #12BK

APPEARANCES –

For Applicant: Margery Perlmutter.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO REOPEN HEARING –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE VOTE TO CLOSE HEARING –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 8, 2005, acting on Department of Buildings Application No. 301320372, reads, in pertinent part:

“[P]roposed residential FAR . . . does not comply (ZR 23-142 and 23-145)

[P]roposed lot coverage does not comply (ZR 23-145)

[S]treetwall [and] building height . . . does not comply (ZR 23-633)

[S]etback does not comply

[R]equired parking . . . does not comply (ZR 25-23)”;
and

WHEREAS, this is an application under ZR § 72-21, to

permit, on a site within an R6 zoning district, a six-story plus cellar residential building, with 31 dwelling units and ten accessory parking spaces, which does not comply with zoning provisions concerning residential Floor Area Ratio (FAR), lot coverage, street wall height, total building height, setback, and required parking, contrary to ZR §§ 23-142, 23-145, 23-633, and 25-23; and

WHEREAS, the applicant proposes to construct a six-story residential building with a cellar, with a total residential FAR of 4.08, a street wall height of 50.42 ft., a total height of 59.75 ft., lot coverage of 69.7 percent, one 15 ft. setback at 50.42 ft., no rear setback, and ten accessory parking spaces; and

WHEREAS, the proposed development will be based upon the Quality Housing zoning regulations set forth at Chapter 8, Article II of the ZR; and

WHEREAS, the applicant initially proposed to construct a seven story plus mezzanine, 79.33-foot high, 39-unit, 5.16 FAR residential building with ten parking spaces; and

WHEREAS, the Board expressed concern about this proposal, noting that there did not appear to be any justification for such significant FAR and height waivers, and also that the proposed building was too large for the character of the community and did not represent the minimum variance; and

WHEREAS, the applicant submitted two intermediate proposals, which were also determined by the Board to be too large; and

WHEREAS, the first intermediate proposal was a six-story plus mezzanine, 69.75 foot high, 33-unit, 4.48 FAR, residential building; and

WHEREAS, the second intermediate proposal was a six-story, 69.75-foot high, 33-unit, 4.53 FAR residential building, with a reduced mezzanine level set back 20 feet from the street line and 10 feet from the rear wall at that level; and

WHEREAS, however, the applicant presented the current version to the Board at the same time as the 4.53 FAR intermediate proposal; when the Board expressed a strong preference for it, since it was acceptable in terms of compatibility with the neighborhood and minimum variance, the applicant modified its proposal to the current version; and

WHEREAS, a public hearing was held on this application on November 1, 2005, after due notice by publication in the *City Record*, with continued hearings on January 10, 2006 and March 14, 2006, and then to decision on April 25, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin, and Commissioner Collins; and

WHEREAS, Community Board 12, Brooklyn, recommends approval of the application on condition that the building only rise to six stories; and

WHEREAS, the subject premises is located on the north side of 52nd Street, 229 feet east of Fort Hamilton Parkway, and is a vacant 12,020 sq. ft. interior lot with 120 feet of frontage on 52nd Street (a 60 foot wide narrow street); and

WHEREAS, the applicant states that the site was historically occupied by an automobile repair and storage

MINUTES

garage, but has been vacant since 2002; and

WHEREAS, the applicant notes that a Quality Housing development of six three-family homes was originally proposed for the site around 2002, but then abandoned when soil problems were discovered; and

WHEREAS, subsequently, an as-of-right hospital facility was proposed, but the sponsoring hospital abandoned the project in the face of community opposition; and

WHEREAS, the proposed building has the following non-complying bulk and parking parameters, based upon the Quality Housing regulations: (1) a residential FAR of 4.08 (2.43 is the maximum permitted); lot coverage of 69.7 percent (60 percent is the maximum permitted); a street wall height of 50.42 ft. (45 ft. is the maximum permitted); a building height of 59.75 ft. (55 ft. is the maximum permitted); a 15 ft. front setback at 50.42 ft. and no rear setback (a 15 ft. front setback and a 10 ft. rear setback is required at 45 ft.); and ten accessory parking spaces (16 spaces are required); and

WHEREAS, the applicant states that approximately 0.38 of the residential FAR will be located below grade in the cellar, but will still count as zoning floor area as the space will be allocated to individual units rather than the building as a whole; and

WHEREAS, the applicant states that the following are unique physical conditions, which create an unnecessary hardship in developing the site in compliance with applicable regulations: (1) the site is burdened with unsatisfactory soil conditions that necessitate a deep pile foundation system; (2) the soil is contaminated, and requires remediation; and (3) there are numerous one-story garage structures located directly to the north of the site, which are in poor condition and rest on no or little foundation; and

WHEREAS, as to the soil conditions, the applicant states that soil boring tests were taken in 2001; and

WHEREAS, the results of the tests were compiled in a geotechnical report submitted to the Board; and

WHEREAS, this report states that the upper layer of soil is fill, followed by layers of peat, inconsistent clay, and then silty sand and gravel, which extends to the maximum depths drilled; and

WHEREAS, the report recommends the removal of the first three layers of soil; and

WHEREAS, the applicant submitted a further soil analysis, which corroborates the earlier report, and which recommends a deep pile foundation system; and

WHEREAS, in addition to a deep pile foundation system, the applicant also states that construction preparation costs will be increased, as the soil must first be stabilized by gravel fill in order to support construction equipment; and

WHEREAS, the applicant also represents that the soil condition is unique to the site; and

WHEREAS, in support of this representation, the second analysis contains a comparison of the site to four other properties in the area, which reveals that the other properties' soil profiles are significantly different and could support a shallow conventional foundation; and

WHEREAS, additionally, the applicant cites to the soil boring test logs of a nearby hospital development site, which also reveal soil with better bearing capacity than the subject site; and

WHEREAS, as to contamination, the applicant states that the prior automotive uses contaminated the site with gasoline, which likely leaked from pre-existing tanks; and

WHEREAS, the applicant has submitted a report from an environmental consultant, which states that Phase I and II testing revealed the presence of petroleum-based contamination, likely related to tank spillage, all of which was remediated in 2004; and

WHEREAS, finally, as to the adjacency of the garages to the rear, the applicant states that any attempt to excavate or underpin the surrounding soils or drive piles within 20 to 25 feet of these structures is likely to cause vibration or undermine the surrounding soils, which could result in damage to these structures; and

WHEREAS, the applicant states that this prevents the building and the cellar (which will contain residential floor area and mechanical space) from being built full to the rear lot line, as setting back the cellar avoids increased construction costs; and

WHEREAS, the applicant also states that the setting back of the building constrains the ability to put in the required amount of parking on the first floor, as not enough space exists to accommodate both Building Code-compliant ramps and the required number of spaces; and

WHEREAS, the Board has reviewed this claim and the evidence submitted in support of it, and agrees that this condition, when considered in conjunction with the premium costs created by the soil and contamination conditions, leads to increased construction costs; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study analyzing the following as-of-right scenarios: (1) a 12-story, 4.8 FAR conforming community facility development; and (2) an 18-unit, 2.2 FAR conforming Quality Housing residential development; and

WHEREAS, the applicant initially concluded that these two as-of-right scenarios would result in a loss, due to the premium construction costs related to the above-stated unique physical conditions; and

WHEREAS, additionally, the applicant submitted a zoning and bulk study of an as-of-right height-factor residential development, with an FAR of 2.38; the applicant explained that 32 percent of the site would have to be devoted to open space, resulting in a building floor plate of 2,858 sq. ft., which would be costly to develop, and which would result in small unmarketable units due to the loss of usable floor area accorded to stairs and elevator cores; and

WHEREAS, as to the zoning and bulk study for as-of-

MINUTES

right height-factor development, the Board agrees that the constraints of the site would prevent viable development; and

WHEREAS, however, the Board had concerns regarding certain aspects of the feasibility study common to the analyses of the two complying scenarios (as well as the lesser variance scenarios, discussed below), and identified them at hearing; and

WHEREAS, specifically, the Board questioned: (1) the significant amount of unexplained “carrying” costs and “holding and preparation” costs, ascribed to overall construction costs; and (2) the claimed sell-out prices of the condominium units, which the Board felt were too low; and

WHEREAS, in a subsequent submission, the applicant attempted to address these concerns, but the Board was not persuaded that the submission was adequate; and

WHEREAS, specifically, the Board noted that the carrying costs were described by the applicant to be related to “time constraints” without further explanation, and the holding costs were stated by the applicant to be related to the prior, failed community facility development; and

WHEREAS, accordingly, the Board expressed concern about the legitimacy of folding either of these costs into the feasibility analysis; and

WHEREAS, as to the condominium prices, the Board noted that while the applicant increased them, no evidence in support of the increase was presented; and

WHEREAS, however, the Board concluded that even if appropriate adjustments were made in response to each of these issues, neither of the complying scenarios analyzed by the applicant would result in a reasonable return; and

WHEREAS, thus, the Board has determined that because of the subject lot’s unique physical conditions, there is no reasonable possibility that development in strict compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the building would be consistent with the built conditions in the surrounding area in terms of bulk and height, and

WHEREAS, specifically, the applicant notes that there is a large four story school building (79.26 ft. above curb level) to the west of the site, and that there are six story apartment buildings (68.3 ft. above curb level) to the north; and

WHEREAS, the applicant states that the proposed building would rise to a height above curb level of approximately 59 ft., not including bulkheads, which is less than the school building and the apartment buildings; and

WHEREAS, the Board agrees that the proposed height of the building, in terms of visible impact, is compatible with the adjacent built conditions; and

WHEREAS, the applicant also submitted a study that showed that mid-block sites in the subject R6 zoning district have been developed with a significant number of six story

and taller buildings; and

WHEREAS, the Board agrees that this evidence supports the contention that the proposed building is compatible with the broader context of midblock development within the R6 zoning district and the subject neighborhood; and

WHEREAS, additionally, the Board also notes that the proposed street wall height, setback and overall height only minimally exceed what is permitted by the Quality Housing regulations, and would actually comply with what would be permitted under height-factor regulations; and

WHEREAS, thus, the Board concludes that the proposed development fits within the with the bulk envelope anticipated for multiple dwelling development in the subject R6 zoning district; and

WHEREAS, further, as noted above, not all of the 4.08 FAR will be located above grade such that it will be visible; 0.38 of the FAR is located below grade, further minimizing the impact of the bulk; and

WHEREAS, based upon the above, the Board agrees that the proposed building’s height and FAR are consistent with other buildings in the neighborhood; and

WHEREAS, as to parking, the applicant notes that it conducted a survey of on-street demand within 400 ft. of the site, which showed that during the midday peak period of parking demand, eight non-metered spaces were available within 400 ft., and an additional 17 spaces were available one block beyond the 400 ft. study area; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, in addition to the analyses of the conforming scenarios, the applicant also submitted analyses of the lesser variance scenarios described above (including the proposal), as well as a five-story, 25-unit, 3.5 FAR, conforming Quality Housing residential development, which complied with street wall and building height parameters; and

WHEREAS, the applicant initially concluded that none of these scenarios would realize a reasonable return, due to the significant premium construction costs and the extended construction period; and

WHEREAS, however, the feasibility analysis for these scenarios contained the same flaws identified above, namely the improper inclusion of excessive holding and carrying costs and the low condominium sell-out values; and

WHEREAS, the Board suggested to the applicant that these problems skewed any analysis of the lesser-variance scenarios in terms of return, and that the proposed 4.08 FAR building represented the minimum variance; and

WHEREAS, accordingly, after accepting guidance from the Board as to the amount of bulk waiver necessary to overcome the stated hardship costs, as well as to the need to reduce the building’s bulk in order to minimize impact on the character of the community, the applicant amended the proposal

MINUTES

to the current version, which the Board finds to be the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6 NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA117K, dated September 26, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site within an R6 zoning district, a six-story plus cellar residential building, with 31 dwelling units and ten accessory parking spaces, which does not comply with applicable zoning provisions concerning residential Floor Area Ratio, lot coverage, street wall height, total building height, setback, and required parking, contrary to ZR §§ 23-142, 23-145, 23-633, and 25-23, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received April 25, 2006” – two (2) sheets and “Received March 21, 2006” – eleven (11) sheets; and *on further condition*:

THAT the following shall be the parameters of the proposed building: six stories plus a cellar, a residential FAR of 4.08; lot coverage of 69.7 percent; a street wall height of 50.42 ft; a building height of 59.75 ft.; a 15 ft. front setback at 50.42 ft. and no rear setback; and ten accessory parking spaces;

THAT all Quality Housing regulations not waived or

modified by the Board shall be complied with, as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 25, 2006.

187-05-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Salvatore Porretta and Vincenza Porretto, owners.

SUBJECT – Application August 9, 2005 – Under Z.R. §72-21– Propose to build a two family dwelling that will comply with all zoning requirements with the exception of two non-complying side yards and undersized lot area due to a pre-existing condition.

PREMISES AFFECTED – 78-20 67th Road, Southerly side of 67th Road, 170’ easterly of 78th Street, Block 3777, Lot 17, Borough of Queens.

COMMUNITY BOARD #5Q

APPEARANCES –

For Applicant: Fredrick A. Becker.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO CLOSE HEARING –

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated August 3, 2005, acting on Department of Buildings Application No. 402168845, reads:

- “1. Proposed side yard is contrary to Section 23-461(a) of the Zoning Resolution.
2. Proposed floor area is contrary to section 23-141 of the Zoning Resolution. As per zoning changes from R5 to R4-1”; and

WHEREAS, this is an application under Z.R. § 72-21, to permit, within an R4-1 zoning district, the proposed construction of a two-story plus attic, two-family home, that does not comply with applicable side yard and Floor Area Ratio requirements, contrary to Z.R. §§ 23-461(a) and 23-141; and

WHEREAS, the Board notes that the area in which the

MINUTES

site is situated has recently been rezoned to an R4-1 district from R5, which cured the lot area and width objections that would arise within an R5 zoning district, but not the side yard objection; and

WHEREAS, additionally, the proposed Floor Area Ratio (FAR) of 0.98 does not comply with the maximum FAR in R4-1 districts; and

WHEREAS, a public hearing was held on this application on December 6, 2005, after due notice by publication in *The City Record*, with continued hearings on January 24, 2006 and February 28, 2006, and then to closure and decision on April 25, 2006; and

WHEREAS, Community Board 5, Queens, recommends disapproval of this application; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, the site is located on the south side of 67th Road, 170 ft. east of 78th Street; and

WHEREAS, the site is 25 ft. in width, with a total lot area of 2,500 sq. ft.; and

WHEREAS, the site is currently vacant, and, according to the applicant, has never been developed; and

WHEREAS, the applicant states that the lot has existed in its present configuration since prior to 1961, and that there is no evidence that it was ever owned by the adjacent property owners or used in conjunction with the adjacent parcels; and

WHEREAS, the applicant proposes to construct a two-story plus attic, two-family home, with one parking space located within the building and one located between the street wall and street line, for which a reconsideration from DOB has been obtained; and

WHEREAS, the proposed home will have a total residential floor area of 2,447 sq. ft. (2,250 is the maximum permitted in a R4-1 district); a total residential FAR of 0.98 (0.90 is the maximum permitted in an R4-1 zoning district); and two side yards of 3'-0" each in width (8'-0" total width is required); and

WHEREAS, the applicant originally proposed a three-story home with an FAR of 1.25, and one 3'-0" side yard and one 2'-0" side yard; and

WHEREAS, the Board expressed concern about this proposal, finding it out of context relative to adjacent and area homes, and relative to the proposed rezoning; and

WHEREAS, at the request of the Board, the applicant modified the amount of stories and FAR, and proposed a home with a total FAR of 1.03; and

WHEREAS, the applicant then modified the proposal again to the current version; and

WHEREAS, the applicant states that the following is a unique physical condition, which creates practical difficulties and unnecessary hardship in developing the subject site in compliance with underlying district regulations: the site is a vacant and narrow pre-existing lot that can not accommodate as of right development; and

WHEREAS, specifically, the applicant states that the width of the lot would only allow for a home with width of 12'-

0" and an inner dimension of 10'-0" due to the required side yards of 8'-0" and 5'-0"; and

WHEREAS, to reinforce the uniqueness of the lot, the applicant conducted a review of lots within the neighborhood, and concluded that of the 147 properties shown on the submitted 400 ft. radius diagram, only three vacant narrow lots exist, including the subject lot; and

WHEREAS, based upon the above, the Board finds that the cited unique physical condition creates practical difficulties in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, the applicant represents that the requested waivers are necessary to develop the site with a habitable home; and

WHEREAS, the Board has determined that because of the subject lot's unique physical condition, there is no reasonable possibility that an as of right development will result in a habitable home; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, the applicant represents that the proposed residence, as modified over the course of the hearing process, will be consonant with the other homes existing in the area, and more in alignment with the new R4-1 zoning district parameters; and

WHEREAS, the applicant also notes that most of the properties on the subject block are occupied by two-family dwellings, and that the proposed building is identical in size or smaller than said dwellings; and

WHEREAS, the applicant observes that the width of the side yards as now proposed, when considered in conjunction with the yard conditions on the adjacent properties, will provide open area of at least five feet on each side; and

WHEREAS, at hearing, the Board expressed concern about the proposed garage and the slope of the ramp, on the basis that the slope did not comply with legal requirements; and

WHEREAS, however, the applicant stated that to comply with the slope would require that the garage door be set back more than six feet from the front wall of the home, which the applicant stated would not be desirable; and

WHEREAS, the applicant proposed that the Board waive the two-space requirement, and allow a single space parking pad on the side of the building; and

WHEREAS, however, the Board expressed a preference that the applicant seek a reconsideration from the Department of Buildings instead; as noted above, a reconsideration was obtained; and

WHEREAS, therefore, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, because the applicant reduced the amount of proposed floor area and increased the width of one of the side

MINUTES

yards, the Board finds that this proposal is the minimum necessary to afford the applicant relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II Declaration under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 72-21, to permit, within an R4-1 zoning district, the proposed construction of a two-story plus attic, two-family home, that does not comply with applicable side yard and Floor Area Ratio requirements, contrary to Z.R. §§ 23-461(a) and 23-141; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received February 15, 2006”–two (2) sheets, “Received March 15, 2006”–one(1) sheet, and “Received April 10, 2006”–two (2) sheets; and *on further condition*:

THAT the parameters of the proposed building shall be as follows: an FAR of 0.98; a floor area of 2,447 sq. ft.; and two side yards of 3’-0” each;

THAT the internal floor layouts on each floor of the proposed building shall be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 25, 2006.

CEQR #06-BSA-012M

APPLICANT – The Law Office of Fredrick A. Becker, for 32 East 31st Street Corp., owner; Forever Young Spa Inc., lessee.

SUBJECT – Application August 16, 2005 – Under Z.R. 73-36 to allow the operation of a physical culture establishment in the cellar, first floor and first floor mezzanine of a ten story commercial building which is contrary to §32-21 Z.R.

PREMISES AFFECTED – 32 East 31st Street, East 31st Street between Park & Madison Avenues, Block 860, Lot 55, Borough of Manhattan

COMMUNITY BOARD #5M

APPEARANCES –

For Applicant: Fredrick A. Becker.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated August 8, 2005, acting on Department of Buildings Application No. 103761671, reads, in pertinent part:

“Proposed use of cellar and 1st floor for Physical Cultural Establishment and enlargement (1st floor mezzanine) accessory to Physical Cultural Establishment is not permitted as of right in C5-2 district and it is contrary to ZR 32-10.”; and

WHEREAS, this is an application under Z.R. §§ 73-36 and 73-03, to permit, within a C5-2 zoning district, the legalization of a physical culture establishment (“PCE”) located on the cellar, first floor, and first floor mezzanine of an existing ten-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 28, 2006, after due notice by publication in *The City Record*, and then to decision on April 25, 2006; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the New York City Fire Department has indicated to the Board that it has no objection to this application; and

WHEREAS, the subject site is located on the south side of 31st Street, between Madison Avenue and Park Avenue; and

WHEREAS, the subject PCE occupies 2,500 sq. ft. in the cellar, 3,500 sq. ft. on the first floor, and 1,350 sq. ft. on the mezzanine; and

WHEREAS, the applicant represents that the PCE will provide spa treatments and massage services by licensed massage professionals; and

WHEREAS, the PCE will have the following hours of operation: daily, 9:00 A.M. to 12:00 A.M.; and

WHEREAS, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the legalization of the PCE does not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

MINUTES

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 06-BSA-012M, dated August 15, 2005 and

WHEREAS, the EAS documents show that the continued operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the continued operation of the PCE will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, within a C5-2 zoning district, the legalization of a physical culture establishment located on the cellar level, first floor, and first floor mezzanine of an existing ten-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received April 20, 2006"-(3) sheets; and *on further condition*:

THAT the term of this grant shall be for ten years from the date of the grant, expiring on April 25, 2016;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to 9:00 A.M. to 12:00 A.M., daily;

THAT all massages shall be performed only by New York State licensed massage professionals;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety measures shall be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other

relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 25, 2006.

311-05-BZ/310-05-A

APPLICANT – Joseph P. Morsellino, Esq., for Bernard F. Dowd, owner.

SUBJECT – Application October 19, 2005 - Special Permit pursuant to Z.R. Section 73-27 to legalize the existing second floor use in an existing funeral establishment. The site is located in a C4-2 zoning district. A case (310-05-A) was filed with the BZ case on 10/19/05 since the C of O lapsed for the prior A case (232-52-A).

PREMISES AFFECTED – 165-18/28 Hillside Avenue, Northeast corner Hillside Avenue and Merrick Boulevard, Block 9816, Lot 41, Borough of Queens.

COMMUNITY BOARD #12Q

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, MAY 2, 2006
10:00 A.M.**

Present: Chair Srinivasan, Vice Chair Babbar,
Commissioner Chin and Commissioner Collins.

The minutes of the regular meetings of the Board held on Tuesday morning and afternoon, February 28, 2006, were approved as printed in the Bulletin of March 9, 2006, Volume 91, Nos. 9o & 10. If there be no objection, it is so ordered.

SPECIAL ORDER CALENDAR

360-49-BZ

APPLICANT – Sheldon Lobel, P.C., for Leemilt’s Petroleum, Inc., owner.

SUBJECT – Application November 14, 2005 – Pursuant to Z.R.§72-21 for an extension of term of the previously granted variance permitting the use of the site as a gasoline service station with accessory uses which expired on February 25, 2005. The premise is located in an R4 zoning district.

PREMISES AFFECTED – 69-05 Eliot Avenue, northern corner of Eliot Avenue and 69th Street, Block 2838, Lot 38, Borough of Queens.

COMMUNITY BOARD #5Q

APPEARANCES –

For Applicant: Josh Rinesmith.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT–

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION -

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and for an extension of the term of the previously granted variance, permitting a gasoline service station pursuant to ZR § 11-411; and

WHEREAS, a public hearing was held on this application on April 11, 2006, after due notice by publication in *The City Record*, and then to decision on May 2, 2006; and

WHEREAS, Community Board 5, Queens, recommends approval of this application, on the condition that the site remains free of graffiti; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, the premises is a 10,000 sq. ft. site located on the northern corner of the intersection formed between Eliot Avenue and 69th Street; and

WHEREAS, the site is located within an R4 zoning district, and is improved upon with a gasoline service station;

and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 13, 1949, when, under the subject calendar number, the Board granted permission to construct and maintain a gasoline service station; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times, most recently on February 24, 1998, for a term of 10 years from the expiration of the prior grant, expiring on February 25, 2005; and

WHEREAS, at hearing, the Board asked the applicant to address the Community Board’s concerns regarding graffiti; and

WHEREAS, the applicant responded that the site is free of graffiti and submitted photographs supporting this assertion; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term for a previously granted variance; and

WHEREAS, based upon the submitted evidence, the Board finds the requested extension of term appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* the resolution, as adopted on September 13, 1949, and as subsequently extended and amended, so that as amended this portion of the resolution shall read: “to extend the term for ten years from February 25, 2005, to expire on February 25, 2015, *on condition* that the use shall substantially conform to drawings as filed with this application, marked ‘Received April 13, 2006’ –(6) sheets; and *on further condition*:

THAT the term of this grant shall expire on February 25, 2015;

THAT the above condition shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

(DOB Application No. 402221966)

Adopted by the Board of Standards and Appeals, May 2, 2006.

540-53-BZ

APPLICANT – Joseph P. Morsellino, Esq., for Marbridge Realty Co., Inc., owner.

SUBJECT – Application October 25, 2005 – Extension of Term/Waiver for an existing parking lot accessory to a commercial building. The premise is located in a C2-4 and R3-1 zoning district.

MINUTES

PREMISES AFFECTED – 87-17 111th Street, Block 9301, Lots 124, 125, Borough of Queens.

COMMUNITY BOARD #9Q

APPEARANCES –

For Applicant: Joseph P. Morsellino.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT–

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION -

WHEREAS, this is an application for a waiver of the Rules of Procedure and a reopening to extend the term of the prior grant for a parking lot, which expired on June 1, 2005, pursuant to ZR § 11-411; and

WHEREAS, a public hearing was held on this application on April 4, 2006, after due notice by publication in *The City Record*, and then to decision on May 2, 2006; and

WHEREAS, Community Board 9, Queens, recommends approval of this application, on the condition that the applicant plant three trees on the block pursuant to Parks Department guidelines; and

WHEREAS, the subject 10,000 sq. ft. site is located on the east side of 111th Street, south of Jamaica Avenue, and is located primarily within an R3-1 zoning district but with a small corner of the site in an R6-A (C2-4) district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 1, 1960, when, under calendar number 540-53-BZ, Vol. II, the Board granted permission to construct a two-story extension and add an accessory parking lot to the existing building; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times, most recently on January 9, 1996, for a term of 10 years from the expiration of the prior grant, expiring on June 1, 2005; and

WHEREAS, at hearing the Board questioned the applicant about providing street trees in front of the premises as per the Community Board’s request; and

WHEREAS, the applicant responded that due to conditions at the site, including curb cuts, it was unable to plant trees in accordance with Department of Parks and Recreation standards; and

WHEREAS, in light of this fact, the Board subsequently received a letter from the Community Board recommending approval of this application since the applicant agreed to plant three trees, not at the premises, but at other locations on the block; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term for a previously granted variance; and

WHEREAS, based upon the above, the Board finds it appropriate to grant the requested extension of time.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on June 1, 1960, so that as amended this

portion of the resolution shall read: “to permit an extension of term, for an additional period of ten years from the expiration of the prior grant, to expire on June 1, 2015; on condition that the use shall substantially conform to drawings as filed with this application, marked ‘Received April 19, 2006’–(1) sheet; and on further condition:

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 402160264)

Adopted by the Board of Standards and Appeals, May 2, 2006.

357-72-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Permanent Mission of the Russian Federation to the U.N., owner.

SUBJECT – Application December 19, 2005 – Amendment to a previously granted Variance ZR 72-21 for a multiple dwelling and community facility complex to allow for the enclosure of an existing swimming pool and the enlargement of an accessory health and sports facility. The premise is located in an R-4 zoning district.

PREMISES AFFECTED – 355 West 255th Street, northwest corner of West 255th Street and Fieldston Road, Block 5846, 5848, Lots 1605, 1774, Borough of The Bronx.

COMMUNITY BOARD #8BX

APPEARANCES –

For Applicant: Fredrick A. Becker.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT–

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION -

WHEREAS, this application is a request for a re-opening and an amendment to a previously granted variance; and

WHEREAS, a public hearing was held on this application on March 28, 2006, after due notice by publication in *The City Record*, laid over to continued hearings on April 25, 2006 and then to decision on May 2, 2006; and

WHEREAS, the subject site is located on the east side of West 255th Street, between Mosholu Avenue and Fieldston Road; and

WHEREAS, on July 18, 1972, the Board granted an application under ZR § 72-21, to permit, in an R4 zoning district, the development of the site with a multiple dwelling and community facility complex to house a foreign mission, that

MINUTES

encroached on the rear and side setbacks and had less than the required parking; an outdoor swimming pool was included in the plan; and

WHEREAS, subsequently, on July 3, 1973, the Board reopened and amended the application to extend the time to complete construction and to permit a revision of the previously approved plans; and

WHEREAS, on March 11, 1975, the Board again reopened and amended the application to allow minor changes in the building's configuration and a reduction in height; and

WHEREAS, the applicant now proposes to enclose the swimming pool, enlarge the sports facility, and enclose the existing walkway; and

WHEREAS, the enclosure of the pool and walkway and addition of the sports facility would increase the floor area by approximately 17,000 square feet; and

WHEREAS, the applicant represents that the subject proposal does not affect the rear and side setback, subjects of the prior variance, and is otherwise in compliance with all bulk regulations relating to floor area and lot coverage; and

WHEREAS, the applicant represents that since the additional floor area would be contained in a building that is accessory to the existing multiple dwelling, there is no new parking requirement; and

WHEREAS, the applicant states that since the proposal is merely to enclose the existing space, and the services will continue to be limited to existing users who are residents of the building on site, there will be no increased attendance or need for additional parking; and

WHEREAS, based upon the above, the Board finds it appropriate to approve the proposed amendment.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on July 18, 1972, so that as amended this portion of the resolution shall read: "to permit the enclosure of the existing swimming pool and walkway and the enlargement of the sports facility; *on condition* that all work shall substantially conform to drawings, filed with this application and marked 'Received April 10, 2006'-(8) sheets and 'April 25, 2006' (1) sheet; and *on further condition*:

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT DOB shall confirm compliance with applicable floor area regulations;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 200925749)

Adopted by the Board of Standards and Appeals, May 2, 2006.

1180-80-BZ

APPLICANT – SFS Associates, for One Tiffany Place Condominium, owner.

SUBJECT – Application September 21, 2005 – Reopening for an amendment to the resolution to include superintendents' apartment in the cellar of the existing building.

PREMISES AFFECTED – 1 Tiffany Place, Block 320, Lot 20, Borough of Brooklyn.

COMMUNITY BOARD #6BK

APPEARANCES – None.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT–

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION -

WHEREAS, this application is a request for a re-opening and an amendment to a previously granted variance, to permit the construction of a superintendent's apartment in the cellar of the existing building; and

WHEREAS, a public hearing was held on this application on February 14, 2006 after due notice by publication in *The City Record*, laid over to continued hearings on April 11, 2006 and then to decision on May 2, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 6, Brooklyn recommended approval of this application; and

WHEREAS, the subject site is a 25,045 sq. ft. lot, with frontage on Tiffany Place, Kane Street, and Hicks Street; and

WHEREAS, on July 13, 1982, the Board granted an application under ZR § 72-21, to permit, in an M1-1 zoning district, the development of residential units in an existing manufacturing building at the site, plus the addition of one floor; and

WHEREAS, subsequently, the Board approved two amendments which allowed for an extension of time to complete construction and several design changes which resulted in a reduction of the total floor area; and

WHEREAS, the site has since been re-zoned to R6; and

WHEREAS, the applicant proposes to convert a recreation room in the cellar into a 1,324 sq. ft. superintendent's apartment, while relocating the recreation room to an adjacent space; and

WHEREAS, at hearing, the Board, asked the applicant if the apartment would comply with Multiple Dwelling Law § 34 concerning light and air; and

WHEREAS, the applicant represents that Multiple Dwelling Law § 34 does not apply to this building as it is classified under Article 7-B which provides for general residential occupancy of loft, commercial, or manufacturing buildings; and

WHEREAS, in order to meet applicable light and air

MINUTES

requirements, the applicant proposes to excavate and lower a portion of the open area in the rear of the building; and

WHEREAS, the applicant acknowledges that said excavation will eliminate one parking space that can be relocated to the south side of the building; and

WHEREAS, the applicant represents that the proposal would increase the residential FAR from 3.33 to 3.39; and

WHEREAS, the applicant further represents that the proposal would result in a minor increase in the non-complying open space ratio and room count; and

WHEREAS, the applicant submits that with this request, the total floor area and number of apartments is still within the parameters originally approved by the Board; and

WHEREAS, specifically, the Board notes that it approved, by amendment, two sets of design changes since the initial Board grant and that the earlier versions included either a full sixth floor or a fifth-floor mezzanine; and

WHEREAS, additionally, the Board notes that the plans subsequently approved by letter resulted in approximately 20,000 fewer square feet, and 5 fewer apartments, than what was originally approved; and

WHEREAS, because of the scope of the original grant, the Board observes that the proposed minor increase in floor area does not affect the prior findings that the building was compatible with the neighborhood character and that the relief granted was the minimum necessary; and

WHEREAS, additionally, the Board observes that a superintendent's apartment is required by law for this building; and

WHEREAS, based upon the above, the Board finds it appropriate to approve the proposed amendment.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on July 13, 1982, so that as amended this portion of the resolution shall read: "to permit the construction of a superintendent's apartment in the basement of the existing building; *on condition* that all work shall substantially conform to drawings filed with this application and marked 'Received February 7, 2006'-(1) sheet and 'May 1, 2006'-(2) sheets; and *on further condition*:

THAT the superintendent's apartment can only be occupied by the building's superintendent;

THAT this condition shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the Department of Buildings shall review compliance with all applicable light and air requirements;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Alt. No. 947-80)

Adopted by the Board of Standards and Appeals, May 2, 2006.

APPLICANT – Agusta & Ross, for Fraydon Enterprises, owner; New York Health & Racquet Club, lessee.

SUBJECT – Application May 23, 2005 – Application for an Extension of Term/Amendment/Waiver for a Variance Z.R. 72-21 to continue the operation of a physical culture establishment and to permit the change in hours of operation. The premise is located in an R-10 zoning district.

PREMISES AFFECTED – 1433-37 York Avenue, northwest corner of York Avenue and East 76th Street, Block 1471, Lots 21, 22 and 23, Borough of Manhattan.

COMMUNITY BOARD #8M

APPEARANCES –

For Applicant: Mitchell Ross.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT–

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION -

WHEREAS, this is an application for (1) a waiver of the Rules of Practice and Procedure, (2) an extension of the term that expired on May 10, 2003, and (3) an amendment to extend the hours of a PCE previously granted a variance and to legalize interior layout changes to the approved plans; and

WHEREAS, a public hearing was held on this application on February 28, 2006, after due notice by publication in *The City Record*, laid over to April 11, 2006 and then to decision on May 2, 2006; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, the subject premises is located at the northwest corner of York Avenue and East 76th Street; and

WHEREAS, on May 10, 1983, the Board granted a variance pursuant to ZR § 72-21, to permit, in a R10 zoning district, the expansion of an existing Physical Culture Establishment (PCE) in the cellar and the first floor onto the second floor of the existing seven-story mixed use building; and

WHEREAS, subsequently, the grant was re-opened and amended to modify the interior layout, increase the floor area, and to extend the term; and

WHEREAS, the instant application seeks to extend the hours of operation so as to open one hour earlier, at 6:00 a.m., daily; and

WHEREAS, the instant application also seeks to legalize certain layout reconfigurations, which do not increase the floor area; and

MINUTES

WHEREAS, lastly, the instant application seeks to extend the term of the variance for ten years; and

WHEREAS, the Board instructed the applicant to notify neighbors about the application and public hearing in order to determine if prior noise issues had been resolved to their satisfaction; and

WHEREAS, the applicant submitted evidence to the Board confirming that noise concerns had been addressed by an acoustical study and subsequent remediation; and

WHEREAS, the Board reviewed the evidence and notes that acoustical measures were put in place; and

WHEREAS, at hearing, the Board heard testimony from neighbors that the noise issues were resolved; and

WHEREAS, accordingly, the Board finds that a ten-year extension and the proposed change in hours and internal configurations are appropriate, with the conditions set forth below.

Therefore it is Resolved that the Board of Standards and Appeals waives the Rules of Practice and Procedure, and reopens and amends the resolution, dated May 10, 1983, so that as amended this portion of the resolution shall read: "to grant an extension of the term for a term of ten years from the expiration of the last grant, to extend the hours of operation by one hour, daily, and to permit internal layout reconfiguration; *on condition* that the use and operation of the PCE shall substantially conform to drawings as filed with this application, marked 'Received April 3, 2006' - (6) sheets and 'April 19, 2006' - (1) sheet; and *on further condition*:

THAT this grant shall be limited to a term of ten years from May 10, 2003, expiring May 10, 2013;

THAT the hours of operation shall be 6:00 a.m. to 10:00 p.m., daily;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, May 2, 2006.

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-332, to permit an extension of time for the completion of construction of, and obtainment of certificates of occupancy for, four townhouses currently under construction at the subject premises; and

WHEREAS, the Board notes that while separate applications were filed for each permit for each of the townhouses, in the interest of convenience, it heard the cases together and the record is the same for all the applications; and

WHEREAS, a public hearing was held on this application on April 11, 2006 after due notice by publication in *The City Record*, and then to decision on May 2, 2006; and

WHEREAS, the site was inspected by a committee of the Board, including Chair Srinivasan and Commissioner Collins; and

WHEREAS, the subject premises is a 14,641 square foot lot with frontage on Father Capodanno Boulevard, 92 feet from the intersection at McLaughlin Street; and

WHEREAS, the premises are currently located within an R3X zoning district, but were formerly located within an R3-2 zoning district; and

WHEREAS, the development complies with the former R3-2 zoning district parameters as to floor area, building height, and lot coverage; and

WHEREAS, however, on December 3, 2003 (hereinafter, the “Enactment Date”), the City Council voted to adopt the rezoning of the area, which rezoned the site to R3X; and

WHEREAS, as of that date, foundation construction had been completed, such that the right to continue construction was vested pursuant to ZR § 11-331, which allows the Department of Buildings (DOB) to determine that construction may continue under such circumstances; and

WHEREAS, however, only two years are allowed for completion of construction and to obtain certificates of occupancy; and

WHEREAS, accordingly, because the two-year time limit has expired and construction is still ongoing, the applicant seeks relief pursuant to ZR § 11-30 et seq., which sets forth the

MINUTES

regulations that apply to a reinstatement of a permit that lapses due to a zoning change; and

WHEREAS, first, the Board notes that ZR § 11-31(c)(1) defines construction such as that proposed, which involves the construction of two or more buildings on contiguous zoning lots, as a “minor development”; and

WHEREAS, for “minor development,” an extension of time to complete construction may be granted by the Board pursuant to ZR § 11-332; and

WHEREAS, ZR § 11-332 reads, in pertinent part: “In the event that construction permitted in Section 11-331 (Right to construct if foundations completed) has not been completed and a certificate of occupancy including a temporary certificate of occupancy, issued therefore within two years after the effective dater of any applicable amendment . . . the building permit shall automatically lapse and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew such building permit for two terms of not more than two years each for a minor development . . . In granting such an extension, the Board shall find that substantial construction has been completed and substantial expenditures made, subsequent to the granting of the permit, for work required by any applicable law for the use or development of the property pursuant to the permit.”; and

WHEREAS, the applicant noted that ZR § 11-332 requires only that there be substantial completion and substantial expenditures subsequent to the issuance of building permits and that the Board has measured this completion by looking at time spent, complexity of work completed, amount of work completed, and expenditures; and

WHEREAS, as a threshold issue, the Board must determine that proper permits were issued, since ZR § 11-31(a) requires: “For the purposes of Section 11-33, relating to Building Permits Issued Before Effective Date of Amendment to this Resolution, the following terms and general provisions shall apply: (a) A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment to this Resolution. In case of dispute as to whether an application includes “complete plans and specifications” as required in this Section, the Commissioner of Buildings shall determine whether such requirement has been met.”; and

WHEREAS, the applicant represents that all of the relevant DOB permits were lawfully issued to the owner of the subject premises; and

WHEREAS, the record indicates that the following permits for the proposed development were lawfully issued to the owner by DOB, prior to the Enactment Date: Permit Nos. 500519325-01-NB, 500519316-01-NB, 500519307-01-NB, and 500519290-01-NB (hereinafter, the “New Building Permits”); and

WHEREAS, the Board has reviewed the record and agrees that the New Building Permits were lawfully issued to the owner of the subject premises prior to the Enactment Date

and have been timely renewed; and

WHEREAS, turning to the substantive findings of ZR § 11-332, the Board notes that there is no fixed standard in an application made under this provision as to what constitutes substantial construction or substantial expenditure in the context of new development; and

WHEREAS, the Board also observes that the work to be measured under ZR § 11-332 must be performed after the issuance of the permit; and

WHEREAS, similarly, the expenditures to be assessed under ZR § 11-332 are those incurred after the permit is issued; and

WHEREAS, accordingly, as is reflected below, the Board only considered post-permit work and expenditures, as submitted by the applicant; and

WHEREAS, in written statements and testimony, the applicant represents that, since the issuance of the New Building Permits, substantial construction has been completed which includes completed foundations; and

WHEREAS, in addition, the applicant submits that due to the site’s proximity to wetlands, additional work was required to secure the foundations including the installation of more than 75 helical piles and the construction of a gabion wall around the perimeter of the site as required by the New York State Department of Environmental Conservation; and

WHEREAS, the applicant asserts that this significant subsurface work represents considerable construction for the small development of two-story plus basement homes; and

WHEREAS, further, the applicant asserts that the level of complexity of the work completed is much greater than that of the work remaining which includes framing, mechanicals, and other interior work; and

WHEREAS, in support of the contention that substantial work has been completed, the applicant has submitted the following evidence: photographs of the site showing the amount of work completed, including the gabion wall; building plans and foundation survey; and copies of contracts, work orders, invoices, and cancelled checks; and

WHEREAS, the Board has reviewed all documentation and agrees that it establishes that the afore-mentioned work was completed subsequent to the issuance of the valid New Building Permits which, as per the text of ZR § 11-332, is the governing standard; and

WHEREAS, nonetheless, at hearing, the Board asked the applicant how much work was completed since the Enactment Date; and

WHEREAS, the applicant responded that additional work was performed including the installation of sub slab plumbing and drains and the basement slabs; and

WHEREAS, as to time spent and complexity of the work completed, the applicant represents that 38 percent of the total time required for completion has been spent, and that this includes the most complex construction methods of the development; and

WHEREAS, the applicant notes that the work completed includes the basement which amounts to a substantial portion of the 2-story plus basement buildings; and

MINUTES

WHEREAS, as to the work remaining to be completed, the applicant represents that the superstructure would take approximately two months and that it, and other remaining work, represents more conventional forms of construction; and

WHEREAS, as to expenditures, the applicant represents that the total hard costs are \$793,712.54 and the total hard costs already incurred are \$402,512.54, or 51 percent; in support of this claim, the applicant has submitted invoices and cancelled checks; and

WHEREAS, the applicant contends that this percentage constitutes a substantial expenditure sufficient to satisfy the finding in ZR § 11-332; and

WHEREAS, the Board notes that the actual completion of physical construction is substantial considered in light of the amount of sub-surface work required due to soil conditions; and

WHEREAS, based upon its review of all the submitted evidence, the Board finds that substantial construction was completed and that substantial expenditures were made since the issuance of the New Building Permits; and

WHEREAS, therefore, the Board finds that the applicant has adequately satisfied all the requirements of ZR § 11-332, and that the owner is entitled to the requested reinstatement of the New Building Permits, and all other permits necessary to complete the proposed development; and

WHEREAS, accordingly, the Board, through this resolution, grants the owner of the site the requested two-year extension for completion of construction that is allowed under ZR § 11-332.

Therefore it is Resolved that this application made pursuant to ZR §11-332 to renew New Building Permit Nos. 500519325-01-NB, 500519316-01-NB, 500519307-01-NB, and 500519290-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed townhouse developments for one term of two years from the date of this resolution, to expire on May 2, 2008.

Adopted by the Board of Standards and Appeals, May 2, 2006.

Negative:.....0

THE RESOLUTION -

WHEREAS, the decision of the Brooklyn Borough
Commissioner, dated January 17, 2006, acting on Department of
Buildings Application No. 3301743344, reads, in pertinent part:

“[The proposed synagogue and yeshiva, with
accessory quarters for a rabbi] proposes to provide a
rear yard below 30’ and is contrary to Section 24-36
ZR [and] creates non-compliance with respect to lot
coverage and is contrary to Sections 24-11 & 24-12 of
the Zoning Resolution [and] contrary to Section 24-
651, a minimum 20’ rear yard is required to ventilate
required windows”; and

WHEREAS, this is application for a variance under ZR §
72-21, to permit, on a site within an R6 zoning district, a
proposed four story plus cellar synagogue and yeshiva, with an
accessory dwelling unit for a rabbi, which does not comply with
the applicable rear yard, minimum distance between windows
and lot lines, and lot coverage provisions for community
facilities, contrary to ZR §§ 24-36, 24-561, 24-11 and 24-12;
and

WHEREAS, this application is being prosecuted on behalf
of the Congregation Somlou, a non-profit religious entity
(hereinafter, the “Synagogue”); and

WHEREAS, the applicant proposes to construct a 45 ft.
high building, with a community facility Floor Area Ratio
(FAR) of 3.44 (4.8 FAR is allowed), with Use Group (“UG”) 4
synagogue space on the first and second floors and in the cellar,
a UG 4 accessory rabbi’s apartment on the third floor, and a UG
3 yeshiva on the fourth floor, all of which conforms and
complies in the subject zoning district; and

WHEREAS, however, at certain heights, the rear yard of
the proposed building will not comply with the required 30 ft.
depth requirement; likewise, the proposed lot coverage is
89.1%, which exceeds the maximum permitted lot coverage of
65%; and

WHEREAS, additionally, because the rear yard is
deficient at certain heights, non-compliance as to the minimum
required distance between windows and rear lot line (20 ft.
minimum) is also created; and

WHEREAS, the applicant initially proposed to construct a
five-story, 4.1 FAR synagogue and yeshiva building, with eight
UG 2 residences, which would have required residential FAR,
street wall height, and setback relief in addition to lot coverage
and rear yard relief; and

WHEREAS, the Board expressed concern about this
proposal, noting that there was no justification for waivers such
as FAR and street wall height that arose solely because the
application included market rate UG 2 residences; and

WHEREAS, the applicant then reduced the amount of
residential units to four, and attempted to convince the Board
that the residences could be construed as a UG 3 monastery use;
and

WHEREAS, the Board asked the applicant to confirm this
purported classification with the Department of Buildings, but
the applicant was unable to provide the Board with satisfactory
confirmation that DOB would accept such a Use Group
designation for the proposed units; and

WHEREAS, the Board also does not find such a
classification warranted; and

WHEREAS, thus, the Board encouraged the applicant to
propose a reduced scale building, that would not require relief
beyond rear yard and lot coverage, and which would include a
modest amount of floor area devoted to a single UG 4 accessory
unit for a rabbi; and

WHEREAS, the Board also asked the applicant to
redesign the proposed building, eliminating an unnecessary
courtyard within the building; and

WHEREAS, the applicant subsequently submitted the
proposed version of the application, which the Board finds
acceptable; and

WHEREAS, a public hearing was held on this
application on November 1, 2005, after due notice by
publication in *The City Record*, with continued hearings on
December 13, 2005, January 31, 2006, and March 28, 2006, and
then to decision on May 2, 2006; and

WHEREAS, the premises and surrounding area had a site
and neighborhood examination by a committee of the Board,
consisting of Chair Srinivasan, Vice-Chair Babbar,
Commissioner Chin, and Commissioner Collins; and

MINUTES

WHEREAS, Community Board 1, Brooklyn, recommends disapproval of the original version of the application, on the basis that the applicant failed to establish unique hardship or institutional need; and

WHEREAS, the subject premises is located on the north side of Hooper Street, 205 feet east of Marcy Avenue, and is a vacant and irregular 3,605 sq. ft. interior lot, with 40 ft. of frontage; and

WHEREAS, the applicant states that the site as currently configured is the result of a lot merger between two 20 ft. wide lots, one of which was approximately 80 ft. deep and one of which was approximately 100 ft. deep; as a consequence of the merger, the site's rear lot line is irregular; and

WHEREAS, the applicant states that the approximately 80 ft. deep lot was previously occupied by a building, which was demolished in the 1990s due to its unsafe condition; and

WHEREAS, the applicant states that the lot merger was consummated in order to provide the Synagogue with sufficient lot width to meet its programmatic needs; and

WHEREAS, the configuration of the building will be as follows: the first floor will be fully built out to the rear lot line; the second floor will be built to a depth of 80 ft. (an approximately 10 ft. and approximately 30 ft. rear yard waiver is required); and the third and fourth floors will be built to a depth of 70 ft. (an approximately 10 ft. rear yard waiver is required); and

WHEREAS, the applicant states that the following are the programmatic needs of the Synagogue: (1) increased space to accommodate worship spaces, including separate spaces for men and women, and special events; (2) sufficient classroom and accessory space for the yeshiva; and (3) a rabbi's apartment with sufficient space for meetings and consultations; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in compliance with applicable regulations: (1) the site is irregular in depth, with one portion of the site extending 80 ft. from the front lot line, and one portion extending 100 ft. from the front lot line; and (2) with the application of the thirty ft. rear yard requirement, the irregular depth would create a building with an irregular floor plate (50 ft. for a 20 ft. width, and then 70 ft. for another 20 ft. in width); and

WHEREAS, the applicant claims that the irregularity and the resulting floor plates compromises the ability of the Synagogue to develop the site with an efficient building that would accommodate the stated programmatic needs; and

WHEREAS, the applicant argues that the requested rear yard and window ventilation waivers would enable the Synagogue to develop the site with a building with a uniform rear wall line at a depth of 70 ft.; and

WHEREAS, the applicant states that in addition to facilitating a uniform floor plate that could better accommodate the programmatic needs, the waivers also allow the Synagogue to avoid the increased construction costs that would arise from compliance with the rear yard provision; and

WHEREAS, the Board notes that the lot coverage waiver

is the result of the rear yard waiver, which allows an increased building footprint over the site in excess of what is permitted; and

WHEREAS, the Board observes that unlike the earlier proposals, the specific waivers requested in the current version have a nexus to the lot's unusual configuration and the needs of the Synagogue; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate and in conjunction with the programmatic needs of the Synagogue, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant need not address ZR § 72-21(b) since the Synagogue is a not-for-profit organization and the proposed development will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the rear yard waivers will not affect the neighbor to the rear because that site has an approximately 100 ft. rear yard; and

WHEREAS, the applicant also states that the part of the building that will be constructed within the required rear yard will not be visible from the street; and

WHEREAS, the Board observes that aside from the rear yard waiver and related lot coverage waiver, the proposed bulk of the building and the uses therein are as of right; and

WHEREAS, the Board further observes that the Synagogue occupies the first two floors of the building, and that community facilities are allowed to build into the rear yard to height of 23 ft. so long as there is only one story; and

WHEREAS, since the proposed building will be 25 ft. high at the roof of the second floor, the rear yard waivers as to the second and third floors do not represent a significant deviation from a bulk form permitted as of right; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the lot merger does not represent a self-created hardship because the building on the 80 ft. deep lot was in an unsafe condition, and that even if the lots had not been merged, no development that would have met the programmatic needs of the Synagogue could have occurred on either of the two pre-existing narrow lots; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, after accepting guidance from the Board as to the design of the building, the uses therein, and the necessary waivers, the applicant amended the proposal to the current

MINUTES

version, which the Board finds to be the minimum necessary to afford the Synagogue the relief needed to meet its programmatic needs; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6 NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA109K, dated August 7, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site within an R6 zoning district, a proposed four story plus cellar synagogue and yeshiva, with an accessory dwelling unit for a rabbi, which does not comply with the applicable rear yard and lot coverage provisions for community facilities, contrary to ZR §§ 24-36, 24-561, 24-11 and 24-12, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received April 25, 2006" -(4) sheets; and "Received March 31, 2006" -(1) sheet and *on further condition*:

THAT the third floor rabbi's apartment shall only be occupied by a rabbi of the congregation occupying this building;

THAT any change in ownership, control or ownership of the building shall require the prior approval of the Board;

THAT the third floor rabbi's apartment shall be the only

space within the building with sleeping/living accommodations;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT the following shall be the parameters of the proposed building: four stories plus a cellar, a community facility and total FAR of 3.44; lot coverage of 89.1 percent; a street wall and total height of 45 ft; and rear yards as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 2, 2006.

163-05-BZ

APPLICANT – Harold Weinberg, for Aaron (Ari) Presser, owner.

SUBJECT – Application July 19, 2005 – Special Permit – pursuant to ZR §73-622 for the enlargement of single family home which seeks to vary ZR §23-141 for the increase in floor area and open space ratio, ZR §23-47 for less than the minimum 30' rear yard required and ZR §23-461 for less than the required side yard. The premise is located in an R2 zoning district.

PREMISES AFFECTED – 1134 28th Street, west side, 260' south of Avenue K, Block 7627, Lot 59, Borough of Brooklyn.

COMMUNITY BOARD #14BK

APPEARANCES –

For Applicant: Harold Weinberg.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT–

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION:

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated July 14, 2005, acting on Department of Buildings Application No. 301973112, reads, in pertinent part:

1. Increases the degree of non-compliance with respect to floor area ratio . . . contrary to Section 23-141 of the Zoning Resolution.
2. Increases the degree of non-compliance with respect to the open space ratio . . . contrary to Section 23-141 of the Zoning Resolution.
3. Reduces the rear yard below 30 ft. and is contrary to Section 23-47 of the Zoning

MINUTES

Resolution.

4. Increase the degree of non-compliance with respect to side yards and is contrary to Section 23-461 of the Zoning Resolution.”; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R2 zoning district, the proposed enlargement of a single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio (FAR), Open Space Ratio (OSR), and rear and side yards, contrary to ZR §§ 23-141, 23-47 and 23-461; and

WHEREAS, a public hearing was held on this application on March 28, 2006, after due notice by publication in *The City Record*, and then to decision on May 2, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject lot is located on the west side of East 28th Street, 260 ft. south of Avenue K; and

WHEREAS, the subject lot has a total lot area of 2,666 sq. ft.; and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant proposed to increase the floor area from the existing 1,884 sq. ft. (0.71 FAR) to 2,388.6 sq. ft. (0.89 FAR); the maximum floor area permitted is 1,334 sq. ft. (0.50 FAR); and

WHEREAS, the proposed enlargement decreases the OSR from 86.2 percent to 60.1 percent; the minimum required OSR is 150 percent; and

WHEREAS, the proposed enlargement reduces the size of the rear yard from 31 ft. to 20 ft.; and

WHEREAS, the enlargement of the building into the rear yard is not located within 20’-0” of the rear lot line; and

WHEREAS, the widths of the one complying side yard of 6’-9” and the one non-complying side yard of 2’-2” will be maintained, but both yards will be extended through the straight-line enlargement into the rear yard; and

WHEREAS, at hearing, the Board suggested to the applicant that the proposed parking space was inaccessible and should be removed from the plan; the applicant subsequently modified the plans, showing removal of the parking space; and

WHEREAS, the Board finds that the proposed enlargement at the rear of the building neither alters the essential character of the surrounding neighborhood, nor impairs the future use and development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be

made under ZR §§ 73-622 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed enlargement of a single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio, Open Space Ratio, and rear and side yards, contrary to ZR §§ 23-141, 23-47 and 23-461; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “February 27, 2006”-(7) sheets and “May 1, 2006”-(3) sheets; and *on further condition*:

THAT the total FAR on the premises shall not exceed 0.89;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 2, 2006.

289-05-BZ

APPLICANT – Eric Palatnik, P.C., for Tabernacle of Praise, owner.

SUBJECT – Application September 19, 2005 – Under Z.R. §73-50 – to waive Z.R. §33-292 – waiving the require 30 foot open area at the rear of premises.

PREMISES AFFECTED – 1106-1108 Utica Avenue, between Beverly and Clarendon Roads, Block 4760, Lot 15, Borough of Brooklyn.

THE RESOLUTION -

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 10, 2006, acting on Department of Buildings Application No. 301441483 reads, in pertinent part:

“Amendment filed to obtain approval to expand the entire building footprint to occupy the site which is contrary to ZR Section 33-292, and this requires [a] special permit pursuant to Section 73-50 . . . another special permit is sought pursuant to Section 73-431 with regards to the parking requirement. This is contrary to Section 36-21.”; and

WHEREAS a public hearing was held on this application on February 28, 2006 after due notice by publication in *The City Record*, with a continued hearing on April 4, 2006, and then to decision on May 2, 2006; and

WHEREAS, this application is brought on behalf of Tabernacle of Praise (hereinafter, the “Church”), a not-for-profit entity; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, including Chair Srinivasan and Commissioner Collins; and

WHEREAS, Community Board 17, Brooklyn recommended approval of this application; and

WHEREAS, this is an application under ZR §§ 73-03, 73-431, and 73-50, to permit on a lot in a C8-1 zoning district abutting an R4 zoning district, the proposed construction of a church with an accessory banquet hall, without both the required rear yard setback from the district boundary and the required number of parking spaces, contrary to ZR §§ 33-292 and 36-21; and

WHEREAS, the subject site is a 16,000 sq. ft. lot, situated on the western side of Utica Avenue between Beverly and Clarendon Roads; and

WHEREAS, the subject site is located entirely within a C8-1 zoning district but the subject block is divided along its length by a district boundary, and an R4 zoning district abuts the rear of the site; and

WHEREAS, the site was formerly improved upon with a commercial building containing 8,707 sq. ft. of floor area, which was demolished in anticipation of the proposed development; and

WHEREAS, the proposed church is two full stories, with a partial third floor, as well as a cellar where a banquet hall, storage, and activity rooms will be located; and

WHEREAS, the total community facility floor area is 24,380 sq. ft.; and

WHEREAS, the proposed building will have a complying wall height of 30 feet, a height of 44 feet for the partial third floor, and a complying community facility FAR of 1.56 (2.40 is the maximum permitted); and

WHEREAS, however, the building will not have a setback from the district boundary line (30 feet is required) and will only provide 67 offsite parking spaces (82 onsite are required); and

WHEREAS, specifically, as to the setback issue, ZR § 33-292 requires that an open area not higher than curb level

and at least 30 feet in depth be provided at the rear of the site, within the commercial zoning district, and up to the district boundary; and

WHEREAS, pursuant to ZR § 73-50, the Board may grant a waiver of rear yard requirements set forth in ZR § 33-292 in appropriate cases; and

WHEREAS, the applicant represents that the subject special permit is necessary to ensure the viability of the project, meet the expanded space requirements for the church, and provide the minimum floor space necessary to effectively conduct programming and services; and

WHEREAS, the applicant asserts that strict compliance with ZR § 33-292 would result in a main sanctuary that would be 30 percent smaller than that proposed, which could not meet the growing congregation’s space needs; and

WHEREAS, at hearing, the Board asked the applicant to examine the effect of providing a ten-foot setback from the district boundary line; and

WHEREAS, the applicant responded that the provision of a ten-foot setback would result in the loss of 158 of the proposed 1230 seats, or space for approximately 13 percent of the congregation; and

WHEREAS, following the Board’s suggestion, the applicant revised the building plans to provide a ten-foot rear setback at a height of 29 feet, 5 inches, for the partial third floor; and

WHEREAS, locating the setback at this height avoids the loss of seats; and

WHEREAS, the Board notes that as a result of this rear setback, the building’s encroachment into the 30-foot rear yard is for 30 feet at the full first and second stories and a small portion of the third story, and 20 feet for the majority of the third floor, or that portion above the height of 29 feet 5 inches; and

WHEREAS, the Board also notes: (1) that church use is allowed in residential districts and that if this church were in an R4 zoning district, it would have been able to extend the first-story of the building into the rear yard for 23 feet, and (2) the previous commercial building on the subject site extended into the rear yard prior to its recent demolition; and

WHEREAS, based upon the above, the Board finds that the rear yard waiver will not have an adverse affect on the surrounding area; and

WHEREAS, as to the parking, ZR § 36-21 requires that one parking space be provided for every 15 persons of the rated capacity for the “facility’s largest room of assembly”; and

WHEREAS, the largest room of assembly has a capacity of 1,230 people, thus, 82 parking spaces are required; and

WHEREAS, pursuant to ZR § 73-431, the Board may grant a waiver of parking requirements for houses of worship upon determining that (1) it will be operated or utilized in such a manner as to reduce demand for onsite parking and (2) such reduction is commensurate with the reduced demand for onsite parking; and

WHEREAS, in reaching this determination, the Board may consider factors such as: the size of the congregation,

MINUTES

the frequency and time of worship services and other events, and the proximity of public transportation; and

WHEREAS, the applicant has submitted evidence that the Church has purchased 1117 Utica Avenue (Block 4761, Lot 58) which is situated immediately across the street from the site and which can accommodate 27 attended parking spaces; and

WHEREAS, additionally, the Church has entered into a contract with the owner of 1124-28 Utica Avenue (Block 4760, Lot 24) to lease 40 attended parking spaces during Sunday church services; and

WHEREAS, in addition to the parking plan, the applicant submitted evidence that there are many available parking spaces on the street on Sundays; and

WHEREAS, the applicant asserts that the large majority of the Church's congregants live within the surrounding neighborhood, with 87 percent within a three-quarters of a mile, and that most will walk or take public transportation to the Church; and

WHEREAS, the applicant also identified four bus lines and two subway lines in reasonable proximity to the site; and

WHEREAS, the Board has reviewed the parking plan and evidence of on-street parking, and agrees that the Church's ownership of 27 parking spaces and its contract to lease 40 others for Sunday use, along with the availability of on-street parking and public transportation, addresses the Church's parking needs; and

WHEREAS, the Board also finds that the demand for on-site parking is mitigated by the close proximity of the residences of the majority of the congregants; and

WHEREAS, based upon the above, the Board finds that the parking waiver will not have an adverse affect on the surrounding area; and

WHEREAS, the Board has determined that the disadvantages to the community at large are outweighed by the advantages derived from the special permits and that the adverse effect, if any, will be minimized by appropriate conditions; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-03, 73-431, and 73-50.

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6 NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 06BSA018K, dated December 27, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials;

Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes the required findings to grant special permits pursuant to ZR §§ 73-03, 73-431, and 73-50, to allow, on a lot in a C8-1 zoning district abutting an R4 zoning district, the proposed construction of a church with an accessory banquet hall, without the required rear yard setback from the district boundary and the required number of parking spaces, contrary to ZR §§ 33-292 and 36-21, *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application marked "Received May 1, 2006" – (1) sheet, "Received April 28, 2006" – (5) sheets, "Received April 17, 2006" – (1) sheet, "Received December 29, 2005" – (5) sheets and *on further condition*:

THAT there shall be no change in ownership, operator or control of the site without the prior consent of the Board;

THAT 27 accessory parking spaces for the church shall be located at 1117 Utica Avenue (Block 4761, Lot 58);

THAT there shall be no commercial parking at 1117 Utica Avenue;

THAT the church shall obtain and maintain an operative lease with the owner of 1124-28 Utica Avenue (Block 4760, Lot 24) for the use of 40 accessory parking spaces on Sundays;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT the church shall execute and record a restrictive declaration limiting the use of 1117 Utica Avenue to accessory parking for the church;

THAT that said restrictive declaration must be executed and recorded and submitted to the Department of Buildings for review and approval prior to issuance of any building permit for the proposed construction;

THAT the lease with the owner of 1124-28 Utica Avenue shall be submitted to the Department of Buildings for review and approval prior to the issuance of any certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other

MINUTES

jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 2, 2006.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT–

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION:

WHEREAS, the decision of the Queens Borough Commissioner, dated September 14, 2005, acting on Department of Buildings Application No. 302003506, reads:

“Proposed reduction of required accessory parking spaces for proposed office building at the premises requires a special permit from the New York City Board of Standards and Appeals pursuant to Section 73-44 of the Zoning Resolution”; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03, to permit, within a C8-1 zoning district, a reduction in the required number of accessory parking spaces for a proposed Use Group 6 office building from 36 to 18, contrary to Z.R. § 36-21; and

WHEREAS, a public hearing was held on this application on April 11, 2006, after due notice by publication in *The City Record*, and then to closure and decision on May 2, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application; and

WHEREAS, the subject lot is located on 18th Avenue,

approximately 100 ft. east of Bath Avenue, and has a lot area of 12,005 sq. ft.; and

WHEREAS, the site is proposed to be developed with a 11,061 sq. ft. two-story as of right office building, subsequent to the demolition of a smaller existing building; and

WHEREAS, the proposed office building will be occupied by the owner of the site, a union pension fund; and

WHEREAS, pursuant to ZR § 36-21, UG 6 uses in parking requirement category B1 within the subject zoning district are required to have one space per 300 sq. ft. of floor area; thus, the proposed office building is required to have 36 accessory parking spaces; and

WHEREAS, however, pursuant to ZR § 73-44, the Board may allow a reduction in the number of accessory off-street parking spaces required under ZR § 36-21; and

WHEREAS, for the subject C8-1 zoning district and the subject UG 6 use, the Board may reduce the required parking from 1 space per 300 sq. ft. of floor area to 1 space per 600 sq. ft. of floor area; and

WHEREAS, the applicant represents that assuming a special permit is obtained, the site will be developed with an 18 space accessory parking lot; and

WHEREAS, ZR § 73-44 requires that the Board must determine that the proposed UG 6 use in the B1 parking category is contemplated in good faith; and

WHEREAS, the applicant has submitted sufficient evidence of the good faith of the union in pursuing the proposed UG 6 office use; in particular, the Board observes that the union currently owns the site and will occupy the proposed building, and that the union has submitted documentation as to the need to replace its existing Manhattan location with the proposed Brooklyn office; and

WHEREAS, at hearing, the Board expressed concern about the following matters: (1) the feasibility of the proposed parking layout; (2) the availability of mass transit and available street parking; and (3) the operation of the union at the proposed building; and

WHEREAS, as to the first issue, the applicant cited to a pre-consideration from the Department of Buildings that indicated that the layout complied with applicable regulations; and

WHEREAS, additionally, the Board will condition this grant on DOB review and approval of the parking layout; the Board is not approving the layout and no layout is reflected on the BSA-approved plans; and

WHEREAS, as to the second issue, the applicant cited to a parking and transportation survey, which reflects the availability of significant street parking in the area of the premises, as well as the proximity of two bus lines and two subway lines; and

WHEREAS, as to the third issue, the applicant submitted a statement regarding the operations of the proposed facility, which states that the building will be occupied by 35 employees, the majority of whom will use mass transit to get to work; and

WHEREAS, further, the facility will only generate approximately 25 visitations per week, since the majority of customer service provided by the employees of the facility

MINUTES

shall be via telephone or e-mail; and

WHEREAS, based upon the above, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to Z.R. §§ 73-44 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 06BSA019K dated January 23, 2006; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under Z.R. §§ 73-44 and 73-03, to permit, within a C8-1 zoning district, a reduction in the required number of accessory parking spaces for a proposed Use Group 6 office building from 36 to 18, contrary to Z.R. § 36-21; on condition that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received April 18, 2006" -(6) sheets and "Received May 1, 2006" -(1) sheet and on further condition:

THAT there shall be no change in ownership or use of the site or the building without prior application to and approval from the Board;

THAT a minimum of 18 parking spaces shall be provided in the accessory parking lot;

THAT no certificate of occupancy shall hereafter be issued if the use of the site is changed to a use that would require more accessory parking spaces than UG 6 parking category B1, unless additional accessory off-street parking spaces sufficient to meet such requirements are provided;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT the layout and design of the accessory parking

lot shall be as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 2, 2006.

340-05-BZ

APPLICANT – The Law office of Fredrick A. Becker, for Chelsea Eighth L.P., owner; TSI West 16th Street dba New York Sports Club, lessee.

SUBJECT – Application November 29, 2005 – Variance under Z.R. §72-21. In C1-6A, C6-2A, R8B districts, permission sought to legalize a physical culture establishment (PCE), located in the portions of the cellar and first floor of an existing 22-story mixed-use building. The proposed use is contrary to district use regulations.

PREMISES AFFECTED – 270 West 17th Street, a/k/a 124-128 Eighth Avenue, easterly sided of Eighth Avenue between 17th Street and West 16th Streets, Block 766, Lots 1101, 1102, Borough of Manhattan.

COMMUNITY BOARD #4M

APPEARANCES –

For Applicant: Fredrick A. Becker.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT–

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION:

WHEREAS, the decision of the Manhattan Borough Commissioner, dated March 13, 2006, acting on Department of Buildings Application No. 103949916, reads, in pertinent part:

“Physical Culture Establishment use is not allowed within a C1-6A, C6-2A, and R8B zoning district pursuant to ZR Sections 32-00 and 22-00.”; and

WHEREAS, this is an application under ZR § 72-21, to permit the legalization of a physical culture establishment (PCE) located in a portion of the cellar and first floor of an existing mixed-use 21-story building; and

WHEREAS, a public hearing was held on this application on April 4, 2006 after due notice by publication in *The City Record*, and then to decision on May 2, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

MINUTES

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, the subject building is located on the east side of Eighth Avenue between 16th and 17th Streets; and

WHEREAS, the building is located on a site that is now, subsequent to the Chelsea Rezoning in 1999, partially with a C1-6A zoning district, partially within a C6-2A district, and partially within an R8B district; and

WHEREAS, the PCE itself is located within that portion of the building that is within the C1-6A and C6-2A districts; and

WHEREAS, a PCE is not permitted in the C1-6A zoning district, pursuant to ZR § 32-00 and 22-00; therefore, a variance is required; and

WHEREAS, prior to the rezoning, the site was formerly within C2-5 (R8), C6-2M, and R8 zoning districts; and

WHEREAS, the record indicates that on October 25, 1994, under BSA Cal. No. 162-93-BZ, the Board previously a special permit allowing the PCE, because it was located within that portion of the building that was within the C2-5 and C6-2M zoning districts, where PCEs are allowed; and

WHEREAS, however, because of the change in the site's zoning, when this previously approved special permit's term lapsed, no extension was available; and

WHEREAS, the existing PCE occupies a total of 16,606 sq. ft. of floor area within the building, including 12,306 sq. ft. of the cellar and 4,300 sq. ft. of the first floor; and

WHEREAS, the applicant represents that the PCE space is located primarily within the C1-6A district, though a small corner of the cellar is within the C6-2A district; and

WHEREAS, the applicant states that the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the subject lot in conformance with underlying district regulations: (1) the space occupied by the PCE has only 16 feet of frontage on Eighth Avenue; and (2) more than 75 percent of the space is at the cellar level; and

WHEREAS, the applicant states that the above-mentioned characteristics are unique in relation to other commercially occupied sites in the area, in that other sites do not have significant below-grade commercial space; and

WHEREAS, the applicant represents that the layout of the space occupied by the PCE and its location primarily in the cellar cause it to be poorly suited for a conventional retail use, since the amount of frontage on a commercial street (Eighth Avenue) is limited and the significant cellar space has no windows or street presence; and

WHEREAS, based on the above, the Board finds that there are unique physical conditions inherent to the existing space, which, when considered in the aggregate, create an unnecessary hardship in conforming strictly with the applicable use provisions of the Zoning Resolution; and

WHEREAS, the applicant has submitted a feasibility study demonstrating that developing the building with a conforming use would not yield the owner a reasonable return as the space is substandard and has limited value; and

WHEREAS, the Board observes that the viability of the

21-story building depends, in part, upon revenue generation from commercially zoned spaces within the building, including the space occupied by the PCE; and

WHEREAS, further, the Board observes that without the variance, such space would not generate such revenue, given its lack of desirability for other as of right retail uses because of its location and configuration; and

WHEREAS, the applicant represents that the proposed variance will not affect the character of the neighborhood, impair appropriate use or development of adjacent property or be detrimental to the public welfare; and

WHEREAS, the applicant represents that the surrounding area is characterized by a mix of commercial and residential uses, and that the existing PCE has been operating at the site for more than 10 years and remains compatible with these uses; and

WHEREAS, the hours of operation for the PCE are 6:00 p.m. to 11:00 p.m., Monday through Thursday; 6:00 a.m. to 10:00 p.m., Friday; and 8:00 a.m. to 9:00 p.m., weekends; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the Board notes that although a variance is being requested, the subject application meets all the requirements of the special permit for a PCE, except for the required zoning district; and

WHEREAS, the PCE contains facilities for classes, instruction and programs for physical improvement, bodybuilding, weight reduction and aerobics; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR 06-BSA-036M, dated November 29, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and

MINUTES

Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617.4, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21, to permit the legalization of a physical culture establishment located in the cellar and first floor of an existing mixed-use building located on a site within R8B, C1-6A and C6-2A zoning districts, contrary to ZR § 32-00; on condition that all work shall substantially conform to drawings, filed with this application marked "Received April 17, 2006" - (2) sheets; and on further condition:

THAT the term of this variance will be ten years from October 25, 2004, to expire on October 25, 2014;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to 6:00 A.M. to 11:00 P.M., Monday through Thursday; 6:00 AM to 10:00 P.M., Friday; and 8:00 A.M. to 9:00 P.M., weekends;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT all fire protection measures indicated on the BSA-approved plans shall be installed and maintained, as approved by DOB;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT all exiting requirements shall be as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 2, 2006.

APPLICANT – Sheldon Lobel, P.c., for MiCasa HDFC, owner.

SUBJECT – Application January 27, 2006 – Under §72-21 to

permit a proposed eight-story residential building which requires variance of Z.R. §§23-145 (floor area), 23-633 (height and setback) 25-25c (parking), 23-851(court regulations) and 23-861 (legal window), located in an R7-1 zoning district.

PREMISES AFFECTED – 745 Fox Street, entire block front of East 156th Street between Fox Street and Beck Street, Block 2707, Lot 11, Borough of The Bronx.

COMMUNITY BOARD #2BX

APPEARANCES –

For Applicant: Richard Lobel.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT–

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION:

WHEREAS, the decision of the Bronx Borough Commissioner, dated November 15, 2004, acting on Department of Buildings Application No. 401843243, reads, in pertinent part:

“Floor Area: Floor area does not comply with ZR 23-145 of the Quality Housing Regulations.

Proposed residential floor area exceeds maximum allowed floor area of 68,800 S.F.

Wall Height: Proposed wall height does not comply with ZR 23-633c. Proposed wall height exceeds maximum wall height of 60’

Total Height: Total height does not comply with ZR 23-633c. Proposed total height exceeds maximum total height of 75’

Setback: Proposed setback does not comply with 23-633b. Proposed zero setback does not comply with required 20’ setback.

Court Regulations: Court does not comply with ZR 23-851. Proposed courtyard depth is less than minimum dimension of 30’

Legal Windows: Distance from wall does not comply with ZR 23-861. Proposed wall is less than minimum distance of 30’

Parking: Provision of parking spaces does not comply with ZR 25-25c. No parking spaces are provided.”; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R7-1 zoning district, the proposed construction of an eight-story plus basement residential building that exceeds the permitted Floor Area Ratio (FAR), wall height, and total height, and does not provide the required setback, courtyard depth, window distance from wall, and parking, contrary to ZR §§ 23-145, 23-633, 23-851, 23-861, and 25-25; and

WHEREAS, a public hearing was held on this application on April 11, 2006 after due notice by publication in The City Record, and then to decision on May 2, 2006; and

WHEREAS, this application is brought on behalf of

MINUTES

MiCasa HDFC, a not-for-profit entity; and

WHEREAS, Community Board 2, Bronx, recommends approval of this application; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board, including Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins; and

WHEREAS, the site's lot area is 20,000 sq. ft., and it encompasses the entire 200 foot length of the block on the southern side of 156th Street, extending 100 feet south along Fox and Beck Streets; and

WHEREAS, the premises is located in the Longwood Historic District, as designated by the New York City Landmarks Preservation Commission (LPC); and

WHEREAS, the site is currently improved upon with a two-story 8,707 sq. ft. historic structure that the applicant contends is in poor condition and has been vacant for twenty years; and

WHEREAS, the applicant notes that due to the regulations governing the Longwood Historic District, the existing building may not be demolished and its rehabilitation is subject to LPC guidelines; and

WHEREAS, the applicant proposes to rehabilitate the existing historic structure for use as a community facility; and to develop the remainder of the site with an eight-story plus basement 95-unit residential building; and

WHEREAS, the proposed building will have a total floor area of 89,850 sq. ft. (96,000 sq. ft. is the maximum permitted); a total FAR of 4.49 (4.8 is the maximum permitted); a residential floor area of 82,447 sq. ft. (68,800 sq. ft. is the maximum permitted); a total residential FAR of 4.12 (3.44 is the maximum permitted); a total community facility floor area of 7,403 sq. ft. (20,000 sq. ft. is the maximum permitted); a total community facility FAR of .37 (1.0 is the maximum permitted); a street wall height of 78 feet (60 feet is the maximum permitted), without a setback (a 20 foot setback is the minimum required); a total height of 78 feet (75 feet is the maximum permitted); and no parking spaces (14 spaces are required); and

WHEREAS, the Board notes that the applicant initially requested a waiver for a street wall height of 83 feet, though the LPC approved a street wall height of 78 feet; and

WHEREAS, the applicant subsequently amended the street wall height to 78 ft.; and

WHEREAS, the applicant represents that the proposed housing program will provide 30 percent of the units for homeless grandparents raising children and 70 percent for other low-income senior citizens, and was designed in collaboration with New York City's Housing Development Corporation (HDC) and Department of Housing Preservation and Development, and the New York State Homeless Housing Assistance Program (HHAP); and

WHEREAS, further, the applicant represents that design includes access to the onsite community facility with social service programming; and

WHEREAS, the applicant states that the following are unique physical conditions, which create practical difficulties

and unnecessary hardship in developing the subject site in compliance with underlying district regulations: (1) the site is occupied by an historic structure, under the jurisdiction of LPC, the exterior of which cannot be altered or demolished; and (2) the subsurface of the site has an irregular rock composition and significant slope; and

WHEREAS, the applicant asserts that the existence of the historic structure on the site hinders as of right development in two primary ways: (1) its orientation at an angle in relationship to the street results in constraints on design options; and (2) because of its landmark status, floor area may not be constructed above it; and

WHEREAS, these two restraints necessitate the shift of the new building's bulk to other parts of the site unoccupied and not affected by the historic structure; and

WHEREAS, this results in the need for some of the cited waivers; and

WHEREAS, specifically, because the new building must avoid the diagonally-positioned historic structure and leave an area in front for a forecourt to allow for its visibility from Beck Street, an irregularly-shaped courtyard, without the required 30 ft. depth, is formed; hence, courtyard relief is necessary; and

WHEREAS, additionally, in order to keep the Beck Street portion of the building low, to match adjacent townhouses, the bulk of the building, which normally could be distributed over the entire site, now is situated primarily along 156th and Fox Streets; and

WHEREAS, this results in a non-complying wall height and total height, and the inability to provide a required setback; hence, waivers for these three provisions are necessary as well; and

WHEREAS, the proposed building will also be situated in relation to the existing structure such that there will be a range of distances between windows and walls, with a depth at one point of 15'-7"; since this depth is non-complying, a waiver of the minimum distance requirements is also necessary; and

WHEREAS, as to floor area, the applicant notes that in order to qualify for funding from HDC, HHAP and other city, state, and private sources, the applicant must provide a minimum of 95 apartments; and

WHEREAS, creating 95 livable apartments requires a certain amount of floor area; and

WHEREAS, further complicating matters is the site's unique subsurface condition; and

WHEREAS, specifically, the applicant cites to a geotechnical report that reflects an uneven distribution of subsurface rock formation and a drop in slope of ten feet along 156th Street, from Beck Street to Fox Street; and

WHEREAS, due to the unique subsurface conditions, it is cost-prohibitive to excavate a full cellar; and

WHEREAS, thus, program functions that could have been placed in the cellar are now above grade and count as floor area; this fact, along with the need to create a minimum of 95 units, necessitates the floor area waiver; and

WHEREAS, finally, the parking waiver is also a result of the subsurface conditions combined with MiCasa's

MINUTES

programmatic needs; and

WHEREAS, specifically, the difficulty of constructing a cellar eliminates the possibility of constructing a below grade parking lot, and use of the basement or first floor for parking would significantly diminish the amount of space at those levels for the ancillary programs; and

WHEREAS, the Board agrees that the unique physical conditions cited above, when considered in the aggregate and in light of MiCasa's programmatic needs, create practical difficulties and unnecessary hardship in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, the applicant need not address ZR § 72-21(b) since it is a not-for-profit organization and the development will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, the applicant states that the proposed eight-story street wall without a setback is compatible with the seven-story multi-family building adjacent to the site on Fox Street, and with the numerous five, six, and seven-story multi-family buildings along Fox Street, 156th Street, Legget Street, and Southern Boulevard; and

WHEREAS, the applicant asserts that the open space around the historic structure would maintain its visibility and contribute to the character of the surrounding historic district; and

WHEREAS, the applicant further asserts that the resulting courtyard depths and window to wall distances allow for considerable landscaped open space that would also contribute to the character of the neighborhood; and

WHEREAS, the Board also notes that LPC determined that the proposed development will not alter the historic character of the neighborhood and issued the applicant a Certificate of Appropriateness ("C of A") for the proposal; in its report, LPC noted characteristics such as floor to ceiling heights that are proportional to those of adjoining buildings and the harmonious transition to neighboring row houses; and

WHEREAS, finally, as to parking, the applicant asserts that because the future residents will qualify as low-income and the vast majority will be elderly, substantial car ownership is not anticipated and the absence of the 14 required spaces will not have a negative impact on the character of the neighborhood; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Sections 617.6(h) and 617.2(h) of 6NYCRR; and

WHEREAS, the subject site is located within the Longwood Historic District (and Extension) and as previously noted in this resolution, a C of A has been issued for this proposal by the LPC on December 15, 2005; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No.06BSA052X, dated February 22, 2006.

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, LPC has reviewed an Environmental Assessment Statement Form, dated April 2, 2004; and

WHEREAS, based on its review of archaeological sensitivity models and historic maps, LPC has determined that there is the potential presence of archaeological resources on the site, including the potential for the recovery of remains from 19th century occupation of the Site; and

WHEREAS, LPC requested that the applicant prepare an archaeological documentary study to clarify these initial findings; and

WHEREAS, the applicant decided to prepare a restrictive declaration that would incorporate conditions designed to address these archaeological concerns; and

WHEREAS, this restrictive declaration was executed on April 7, 2006 and recorded on April 19, 2006; and

WHEREAS, LPC has determined that there will not be any impacts from the subject proposal, based on the implementation of the measures cited in the restrictive declaration and the applicant's compliance with the conditions noted below; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type I Negative Declaration with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes the required findings under ZR § 72-21, to permit, within an R7-1 zoning district, the proposed

MINUTES

construction of an eight-story plus basement residential building that exceeds the permitted FAR, wall height, and total height, and does not provide the required setback, courtyard depth, window distance from wall, and parking, contrary to ZR §§ 23-145, 23-633, 23-851, 23-861, and 25-25; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “April 27, 2006”– (16) sheets; and *on further condition*:

THAT any change in ownership, operator, or control shall require the prior approval of the Board;

THAT the above condition shall be listed on the certificate of occupancy;

THAT the applicant or any successor in title will adhere to all requirements for archaeological identification, investigation, and mitigation as set forth in the CEQR Technical Manual and LPC’s Guidelines for Archaeological Work in NYC, including without limitation, the completion of an archaeological documentary study, archaeological field testing, excavation, mitigation, curation of archaeological resources, and a final archeological report, as required by the LPC, and as memorialized in the restrictive declaration executed on October 18, 2005 (collectively, the “Archaeological Work”);

THAT prior to the issuance of any DOB permit for any work on the site that would result in soil disturbance (such as site preparation, grading or excavation), the applicant or any successor will perform all of the Archaeological Work to the satisfaction of LPC and submit a written report that must be approved by LPC; the only exception to this condition shall be those soil disturbing activities necessitated by the applicant’s performance of the Archaeological Work required for LPC’s approval (such as archaeological “pits”) that may require a DOB permit;

THAT any DOB permit issued for soil disturbing activities pursuant to this exception shall clearly state on its face that such soil disturbance is limited to that necessary to perform the mandated archaeological work;

THAT no temporary or permanent Certificate of Occupancy shall be issued by DOB or accepted by the applicant or successor until the Chairperson of LPC shall have issued a Final Notice of Satisfaction or a Notice of No Objection indicating that the Archaeological Work has been completed to the satisfaction of LPC;

THAT the parameters of the proposed building shall be as follows: a residential FAR of 4.12; a total floor area of 89,850 sq. ft., a residential floor area of 82,447 sq. ft.; a community facility floor area of 7,403 sq. ft.; a total FAR of 4.49; a residential FAR of 4.12; a community facility FAR of .37; a street wall height of 78 feet; and a total height of 78 feet (without bulkhead);

THAT the internal floor layouts on each floor of the proposed building shall be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 2, 2006.

47-05-BZ

APPLICANT – Cozin O’Connor, LLP, for AMF Machine, owner.

SUBJECT – Application March 1, 2005 – Under Z.R. §72-21 to permit the proposed eight story and penthouse mixed-use building, located in an R6B zoning district, with a C2-3 overlay, which exceeds the permitted floor area, wall and building height requirements, is contrary to Z.R. §23-145 and §23-633.

PREMISES AFFECTED – 90-15 Corona Avenue, northeast corner of 90th Street, Block 1586, Lot 10, Borough of Queens.

MINUTES

**REGULAR MEETING
TUESDAY MORNING, MAY 9, 2006
10:00 A.M.**

Present: Chair Srinivasan, Vice Chair Babbar,
Commissioner Chin and Commissioner Collins.

The motion is to approve the minutes of regular meetings of the Board held on Tuesday morning and afternoon, March 7, 2006 as printed in the bulletin of March 16, 2006, Volume 91, No. 11. If there be no objection, it is so ordered.

SPECIAL ORDER CALENDAR

265-59-BZ

APPLICANT – Martyn & Don Weston, for 11 College Place, Inc., owner.

SUBJECT – Application December 12, 2005 – Extension of term for a variance to permit an eight car garage located in a residential building. The premise is located in an R7-1/LH-1 zoning district.

PREMISES AFFECTED – 11 College Place, west side 89'-6" north of Love Lane, Block 236, Lot 70, Borough of Brooklyn.

COMMUNITY BOARD #2BK

APPEARANCES –

For Applicant: Don Weston.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening to extend the term, pursuant to ZR § 11-411, of the prior grant for a parking garage, which expired on December 2, 2005; and

WHEREAS, a public hearing was held on this application on April 25, 2006, after due notice by publication in *The City Record*, and then to decision on May 9, 2006; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, the subject 1,613 sq. ft. lot is located on the west side of College Place, 89.5 feet north of Love Lane, and is located within an R7-1 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 5, 1960, when, under the subject calendar number, the Board granted permission for a change in occupancy from a four-car garage and dwelling to an eight-car garage; and

WHEREAS, subsequently, the term has been extended by the Board at various times, most recently on April 16, 1996, for a term of ten years from the expiration of the prior grant, expiring on December 2, 2005; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term for a previously granted variance; and

WHEREAS, based upon its review of the application, the Board finds it appropriate to grant the requested extension of time.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on April 5, 1960, so that as amended this portion of the resolution shall read: “to permit an extension of term, for an additional period of ten years from the expiration of the prior grant, to expire on December 2, 2015; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked ‘Received December 12, 2005’-(3) sheets; and *on further condition*:

THAT the term of the grant shall expire on December 2, 2015;

THAT the condition above shall be listed on the Certificate of Occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(Alt. 170/59)

Adopted by the Board of Standards and Appeals, May 9, 2006.

1233-88-A

APPLICANT – Richard Bowers of Stadtmauer Bailkin, LLP, for Sunrise Development, owner.

SUBJECT – Application February 22, 2006 – Extension of Time/Waiver to complete construction of a five-story (with basement) residential building of senior housing (Sunrise) for an additional twenty four months which expired on October 29, 2005. The premise is located in an R3-1 (Hillside Preservation District).

PREMISES AFFECTED – 801 Narrows Road North, north side of Narrows Road, 1162.62' east of Howard Avenue, Block 631, Lot 8, Borough of Staten Island.

COMMUNITY BOARD #1SI

APPEARANCES –

For Applicant: Richard Bowers.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

MINUTES

WHEREAS, this application is for a reopening and an extension of time to complete construction of a five-story plus basement senior residence for an additional 24 months from the last expiration date (October 29, 2005); and

WHEREAS, a public hearing was held on this application on April 25, 2006, after due notice by publication in *The City Record*, and then to decision on May 9, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, including Chair Srinivasan and Commissioner Chin; and

WHEREAS, on October 8, 1991, under the subject calendar number, the Board determined that the owner of the subject premises had a vested right to continue construction of a proposed eight-story apartment building; and

WHEREAS, on the following dates, the Board granted applications for a reopening and an extension of time to complete construction: February 2, 1993; March 28, 1995; February 24, 1998; and December 5, 2000; and

WHEREAS, in each grant of an extension, the Board required that construction be completed within a set amount of time, usually two years; and

WHEREAS, the applicant states that on December 17, 2002, a new owner of the property amended the proposed plans to reflect a five-story plus basement residential building, with 78 units to be used as senior housing; and

WHEREAS, on April 29, 2003, the Board again reopened the case and extended the time to complete construction of this new building for a thirty month period, expiring on October 29, 2005; and

WHEREAS, the applicant represents that certain problems arose during the construction process that have delayed completion approximately eleven months: (1) the presence of sub-surface serpentine rock, which contains naturally occurring asbestos and requires costly and time-consuming removal; (2) storm drainage requirements imposed by the City's Department of Environmental Protection (DEP), which required a redesign of the storm water system, subject to DEP's approval; and (3) increased site safety requirements imposed by the City's Fire Department, which required changes to the site plan; and

WHEREAS, the applicant represents that over 70 percent of the construction process has been completed in spite of these delays, and that construction is anticipated to be completed by December 2006; and

WHEREAS, the applicant has reviewed the claims of the applicant and finds that they are reasonable and supported by evidence in the record; and

WHEREAS, accordingly, the Board finds that the request for a further extension of time is appropriate to grant.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens and amends* the resolution to extend the time to complete construction, which expired on October 29, 2005, so that as amended this portion of the resolution shall read: "to permit an extension of the time to complete construction for an additional twenty-four (24) months from October 29, 2005, in conformance with the current approved plans submitted under Department of Buildings N.B. Application No. 500436511, *on condition*:

THAT all construction shall be completed and a certificate of occupancy shall be obtained by October 29, 2007;

THAT all relevant conditions from prior resolutions shall appear on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 500436511)

Adopted by the Board of Standards and Appeals, May 9, 2006.

359-02-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Wegweiser & Ehrlich, LLC, owner; Montessori School of Manhattan, LLC, lessee.

SUBJECT – Application January 17, 2006 – Reopening for an Amendment to a previous variance ZR 72-21 that allowed the operation of a school on the first floor and cellar in a six story building; a subsequent amendment in 2005 was to relocate the operation of the school from the cellar to the second floor and to maintain partial first floor operation. The current proposed amendment is to allow for the additional expansion of the school to the third floor of the building. The premise is located in an M1-5(TMU) zoning district.

PREMISES AFFECTED – 53-55 Beach Street, north side of Beach Street, west of Collister Street, Block 214, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #1M

APPEARANCES –

For Applicant: Fredrick A. Becker.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, this application is a request for a re-opening and an amendment to a previously granted variance, to permit the expansion of a pre-school currently located on the first and second floors of an existing six-story building to the third floor; and

WHEREAS, a public hearing was held on this application on May 2, 2006, after due notice by publication in *The City Record*, and then to decision on May 9, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, including Chair Srinivasan and Vice-Chair Babbar; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

MINUTES

WHEREAS, the subject site is a 5,000 sq. ft. lot, located on the north side of Beach Street, between Greenwich and Collister Streets, and is within an M1-5 (TMU) zoning district; and

WHEREAS, the site is currently occupied by a six-story building with warehouse and storage use in the cellar, part of the first floor, and the third through sixth floors; and

WHEREAS, on May 6, 2003, the Board granted an application pursuant to ZR § 72-21 under the subject calendar number, to permit the establishment of a pre-school (Use Group 3) on the first floor and cellar of the subject building, contrary to ZR § 42-31; and

WHEREAS, on August 23, 2005, the Board approved an amendment which allowed for the school to relocate from the cellar to the second floor and to maintain the use on the first floor; and

WHEREAS, the applicant proposes to convert warehouse space on the 5,000 sq. ft. third floor into four new classrooms; and

WHEREAS, at hearing, the Board asked the applicant about access to a second means of egress through the first floor warehouse space; and

WHEREAS, the applicant responded that there is a clear exit path through the first-floor warehouse space and that the warehouse activity in the building is very limited, with no activity during school hours; and

WHEREAS, the Board suggested that the applicant provide a clearly delineated exit path; and

WHEREAS, the applicant revised the plans to show that the exit path will be indicated by striping on the floor and will be separated from the warehouse space with stanchions or bollards; and

WHEREAS, additionally, the applicant asserts that since the original grant, the composition of the neighborhood has continued to change, and now includes even more mixed and residential uses; and

WHEREAS, based upon the above, the Board finds it appropriate to approve the proposed amendment.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on May 6, 2003, so that as amended this portion of the resolution shall read: "to permit, in an M1-5 (TMU) zoning district, the expansion of a pre-school currently located on the first and second floors of an existing six-story building, to the third floor contrary to ZR § 42-31; *on condition* that all work shall substantially conform to drawings filed with this application and marked 'Received January 17, 2006'-(3) sheets, 'April 4, 2006'-(1) sheet and 'May 3, 2006'-(1) sheet; and *on further condition*:

THAT the secondary egress through the first-floor warehouse space shall be demarcated as shown on the BSA-approved plans;

THAT all egress requirements shall be reviewed by the Department of Buildings prior to issuance of any temporary or permanent certificate of occupancy;

THAT all conditions from prior resolutions not

specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 103314922)

Adopted by the Board of Standards and Appeals, May 9, 2006.

73-05-A

APPLICANT – Ken Fisher of Wolf Block, Associates for GCC, LLC, owner.

SUBJECT – Application March 28, 2005 – Proposed construction of an industrial building, GCC Communications, which lies partially in the bed of a mapped street (125th Street) is contrary to GLC §35. Premises is located within a M3-1 zoning district and the College Point II Industrial Renewal Area.

PREMISES AFFECTED – 125-12 31st Avenue, bounded by 31st Avenue and 125th Street, Block 4381, Lot 1, Borough of Queens.

COMMUNITY BOARD #7Q

APPEARANCES –

For Applicant: Kenneth Fisher.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated February 28, 2005, acting on Department of Buildings Application No. 402086014, reads:

“Southwest section of proposed building located within the bed of a mapped city street is contrary to Section 35 of the General City Law”; and

WHEREAS, a public hearing was held on this application on May 9, 2006, after due notice by publication in the *City Record*, and then to closure and decision on this same date; and

WHEREAS, by letter dated March 13, 2006, Community Board 7, Queens has approved this project; and

WHEREAS, the proposed development is a one story industrial building in an M3-1 zoning district, located within the

College Point II Industrial Renewal Area; and

WHEREAS, by letter dated January 9, 2006, the New York City Economic Development Corporation has approved the site plan for the proposed project, pursuant to the Fifth Amended College Point II Urban Renewal Plan (the “URP”); and

WHEREAS, by letter dated June 2, 2005, the Department of Transportation states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated July 21, 2005, the Department of Environmental Protection states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated May 4, 2006, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, the Board notes that its grant herein only pertains to the ability to build within the bed of a mapped street, and that all construction must conform and comply with applicable zoning regulations, as well as regulations applicable to the URP; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, February 28, 2005, acting on Department of Buildings Application No. 402086014, is modified under the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received April 18, 2006”–(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT the proposed development shall comply in all respects with the applicable requirements of the Fifth Amended College Point II Urban Renewal Plan;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 9, 2006.

144-05-BZY

APPLICANT – Alfonso Duarte, for Bel Homes, LLC, owner.

MINUTES

PREMISES AFFECTED – 143-53/55 Poplar Avenue, northwest corner of Parsons Boulevard, and Poplar Avenue, Block 5228, Lots 32 and 34, Flushing, Borough of Queens.

COMMUNITY BOARD #7Q

APPEARANCES –

For Applicant: Alonso Duarte.

ACTION OF THE BOARD – Application denied.

THE VOTE TO GRANT –

Affirmative:0

Negative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-331, to renew a building permit and extend the time for the completion of the foundations of two (2) two-family attached dwellings, located on contiguous zoning lots; and

WHEREAS, a public hearing was held on this application on January 31, 2006 after due notice by publication in *The City Record*, with continued hearings on March 7, 2006 and March 28, 2006, and then to decision on May 9, 2006; and

WHEREAS, the site was inspected by a committee of the Board, consisting of Chair Srinivasan, Vice Chair Babbar, Commissioner Chin, and Commissioner Collins; and

WHEREAS, Community Board 7, Queens, opposed the granting of any relief to the applicant, citing concerns that some work took place after hours or on weekends, which was not covered by the issued permit; and

WHEREAS, additionally, the Queens Civic Congress opposed the granting of any relief, stating that the work performed at the site did not rise to the level of substantial completion and that the owner of the site knew of the possible rezoning; and

WHEREAS, the Kissena Park Civic Association also opposed the granting of any relief, stating that the owner had not completed excavation and had not made substantial progress on foundations, both of which are required under ZR § 11-331; and

WHEREAS, the subject site consists of two adjacent zoning lots (Lots 32 and 34), located at the corner of Parsons Boulevard and Poplar Avenue; and

WHEREAS, Lot 34 corresponds to 143-53 Poplar Avenue; Lot 32 corresponds to 143-55 Poplar Avenue; and

WHEREAS, the two lots are the result of a subdivision of a larger, pre-existing lot; this pre-existing lot was formerly occupied by a single-family dwelling, which was demolished; and

WHEREAS, each zoning lot is approximately 50.45 ft. wide by 70 ft. deep; and

WHEREAS, each zoning lot is proposed to be developed with a two-story, two-family attached dwelling (with the units side by side), and a single garage and a single parking pad; and

WHEREAS, thus, on each zoning lot there will two dwelling units, for a total of four units over the entire proposed development (hereinafter, the “Proposed Development”); and

WHEREAS, on April 26, 2005, the Department of Buildings issued two permits for the Proposed Development (NB Permit No. 402096959-01 for the building on Lot 34 and

NB Permit No. 402096968-01 for the building on Lot 32); and

WHEREAS, the validity of these permits when issued has not been questioned and is not at issue in this appeal; and

WHEREAS, when these permits were issued and when construction commenced, the site was within an R3-2 zoning district; and

WHEREAS, the Proposed Development complied with the R3-2 zoning, because attached dwellings and the proposed amount of floor area and other bulk parameters were allowed; and

WHEREAS, however, on May 11, 2005 (hereinafter, the “Rezoning Date”), the City Council voted to enact the Kissena Park rezoning proposal, which changed the site’s zoning from R3-2 to R2; and

WHEREAS, in R2 zoning districts, only detached single-family dwellings are allowed; as noted above, the Proposed Development contemplates attached two-family dwellings; and

WHEREAS, additionally, the Proposed Development would not comply with R2 district provisions regarding floor area, density, lot size, side yards, and side lot line wall; and

WHEREAS, because the Proposed Development violated these provisions of the R2 zoning and work on foundations was not completed, the issued permits lapsed by operation of law; and

WHEREAS, additionally, the Department of Buildings issued a stop work order on the Rezoning Date for each of the issued permits; and

WHEREAS, the applicant now applies to the Board to reinstate the permits pursuant to ZR § 11-331; and

WHEREAS, ZR § 11-331 reads: “If, before the effective date of an applicable amendment of this Resolution, a building permit has been lawfully issued . . . to a person with a possessory interest in a zoning lot, authorizing a minor development or a major development, such construction, if lawful in other respects, may be continued provided that: (a) in the case of a minor development, all work on foundations had been completed prior to such effective date; or (b) in the case of a major development, the foundations for at least one building of the development had been completed prior to such effective date. In the event that such required foundations have been commenced but not completed before such effective date, the building permit shall automatically lapse on the effective date and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew the building permit and authorize an extension of time limited to one term of not more than six months to permit the completion of the required foundations, provided that the Board finds that, on the date the building permit lapsed, excavation had been completed and substantial progress made on foundations.”; and

WHEREAS, a threshold issue in this case was the proper categorization of the Proposed Development; and

WHEREAS, ZR § 11-31(c) sets forth definitions for various types of development, including “major

MINUTES

development” and “minor development”; and

WHEREAS, major development includes construction of multiple non-complying buildings on contiguous zoning lots, provided that all of the proposed buildings were planned as a unit evidenced by an approved site plan showing all of the buildings; and

WHEREAS, minor development includes construction of multiple non-conforming buildings on contiguous zoning lots, again, provided that it can be shown that the development was planned as a unit; and

WHEREAS, the applicant has submitted a DOB-approved site plan, showing that the Proposed Development was planned as a unit; however, this does not establish whether it is a major or minor development; and

WHEREAS, upon initial application, the applicant contended that the Proposed Development was a major development, noting that the two buildings would be non-complying as to the above-mentioned bulk parameters; and

WHEREAS, pursuant to ZR § 11-331, major developments may be vested upon a showing of progress on foundation construction for just one of the multiple buildings; and

WHEREAS, minor developments, however, may be vested only upon a showing of progress of foundation construction for each of the buildings; and

WHEREAS, the Board observes agrees that the Proposed Development is non-complying in terms of bulk, but also notes that that the Proposed Development contemplates attached homes, which are not permitted in R2 zoning districts pursuant to ZR § 22-00; and

WHEREAS, ZR § 22-00 is a use regulation and sets forth a chart showing permitted residential Use Groups in various zoning districts; the ability to construct an attached, detached, or semi-attached dwelling is illustrated by this chart; and

WHEREAS, Use Group 1 is limited to detached single-family homes only, pursuant to ZR § 22-10; and

WHEREAS, Use Group 2 includes all other types of residential development, including attached, semi-attached, and multiple-family dwellings; the Proposed Development contemplates Use Group 2 residences; and

WHEREAS, R2 zoning districts allow only residences listed in Use Group 1; in other words, only detached single-family homes are permitted (though Use Group 3 and 4 community facilities are also allowed under certain circumstances); and

WHEREAS, Use Group 2 residences are not permitted in R2 zoning districts; and

WHEREAS, thus, the Board disagrees with the appellant that the attached homes of the Proposed Development are merely non-complying; rather, the Board also considers the proposed attached dwellings non-conforming uses under the R2 zoning; and

WHEREAS, ZR § 12-10 defines a “non-conforming use” as “any lawful use, whether of a building or other structure . . . which does not conform to any one or more of the applicable use regulations of the district in which it is located . . . A non-conforming use shall result from failure to

conform to the applicable district regulations on . . . permitted Use Groups . . .”; and

WHEREAS, accordingly, a failure to conform with the residential Use Groups allowed in the R2 district (Use Groups 1, 3, and 4) renders the Proposed Development (Use Group 2) non-conforming by definition; and

WHEREAS, the Board observes that the ZR is structured so that use regulations are plainly distinguished and separated from bulk regulations; thus, the Board views the inclusion of provisions concerning residential building type (attached, semi-detached, detached) in the clearly delineated use regulations as an indication that they are to be treated as use regulations; and

WHEREAS, thus, the Board finds that the Proposed Development meets the definition of both minor development, since it is non-conforming as to Use Group, and major development, since it is non-complying as to floor area, density, lot size, side yards, and side lot line wall; and

WHEREAS, as noted above, the standards for a right to continue construction are different for the two categories; and

WHEREAS, since the Proposed Development meets the definition of both major development and minor development, the Board must determine which definition’s standard to apply; and

WHEREAS, the Board observes that the standard for minor development is more restrictive, in that it requires a consideration of excavation and progress on foundations for all buildings, not just one; and

WHEREAS, ZR § 11-22 provides that when two ZR provisions set forth overlapping or contradictory regulations, “that provision which is more restrictive or imposes higher standards or requirements shall govern”; and

WHEREAS, thus, it is appropriate for the Board to require that the applicant meet the more stringent standard for minor development; that is, to show that excavation had been completed and substantial progress had been made on each of the foundations, not just one; and

WHEREAS, the Board requested that the applicant revise the application to reflect that the Proposed Development is a minor development; and

WHEREAS, initially, the applicant refused, and made various submissions purportedly supporting the classification of the Proposed Development as a major development; and

WHEREAS, specifically, the applicant claimed that ZR § 11-22 was inapplicable since “use and bulk . . . are two entirely different categories that do not contradict or overlap each other; and one is not more restrictive over the other since they relate to two different criteria . . .”; and

WHEREAS, the applicant summarily concluded that since the bulk provisions are violated, the application was appropriately categorized as a major development; and

WHEREAS, the Board does not accept the applicant’s conclusion, since it has no basis in fact; and

WHEREAS, the Board finds that a provision that allows vesting upon a showing that progress has been made on just one foundation for a building in a multi-unit development constructed on contiguous zoning lots is inherently contradictory to a different provision that allows

MINUTES

vesting only upon a showing that progress has been made on each foundation, where it can be shown that both provisions would apply based upon a development's non-conforming and non-complying status; and

WHEREAS, accordingly, the Board again requested that the application be revised to reflect that the Proposed Development is a minor development; and

WHEREAS, the applicant subsequently revised the application to reflect this change; and

WHEREAS, since the Proposed Development is a minor development, the Board must find that excavation was completed and substantial progress was made over the entire development site and as to each required excavation and foundation; and

WHEREAS, based upon its review of the evidence, the Board has determined that excavation was not completed; and

WHEREAS, specifically, based upon its review of pictures submitted by both the applicant and by the Kissena Park Civic Association, the Board observes that a significant portion of the site, particularly on Lot 34, was not excavated; and

WHEREAS, during the course of the hearing process, the applicant has made various arguments as to why this portion of Lot 34 remains unexcavated; and

WHEREAS, first, in the initial statement dated June 3, 2005, the applicant stated without qualification that excavation had been completed; and

WHEREAS, then, at the January 31, 2006 hearing, the applicant claimed that excavation had been completed for both sites, though some unsupported ground had "slipped down" back into the site; and

WHEREAS, subsequently, in a March 3, 2006 submission, the applicant argued that excavation was not completed because trucks needed to access the site and could not if the site was fully excavated; and

WHEREAS, however, the Board disagrees that truck access to the site would have been compromised if areas around the northern perimeter of Lot 34 were excavated; and

WHEREAS, in fact, if truck access was needed, a simple ramp into the site could have been constructed, and the remainder of the excavation could have been completed; and

WHEREAS, at the March 28, 2006 hearing, the Board asked the applicant to provide further clarification as to the completion of excavation; and

WHEREAS, in an April 26, 2006 submission, the applicant submitted a diagram purportedly showing the extent of excavation; and

WHEREAS, this diagram plainly shows that a substantial portion of Lot 34 is unexcavated; and

WHEREAS, the applicant then argued that this portion of the site was unexcavated so that the unexcavated dirt could later be used for backfill; and

WHEREAS, the Board observes that the applicant did not provide any expert evidence in support of this argument; and

WHEREAS, accordingly, the Board does not accept applicant's unsubstantiated argument, and observes that there is no legitimate construction reason to retain so much of the site as

unexcavated; and

WHEREAS, accordingly, the Board finds that excavation for the Proposed Development was not complete; and

WHEREAS, as to substantial progress on foundations, the Board observes that the only foundation work performed was on Lot 32; and

WHEREAS, the applicant's diagram also illustrate this fact; Lot 34 is labeled "Formwork not in place"; and

WHEREAS, pictures submitted by the applicant and as well as the Kissena Park Civic Association also confirm that no significant foundation work was performed on Lot 34; and

WHEREAS, thus, the only foundation work that the Board can consider is that performed on Lot 32; and

WHEREAS, the applicant alleges that the amount of foundation work performed on Lot 32 consists of: (1) footings and rebar installation for the dwellings to be constructed on Lot 32 (and a very small portion of the footings for one of the other dwellings on Lot 34); and (2) form work for the walls on Lot 32; and

WHEREAS, the applicant claims that the form work was later stolen, but did provide pictures of the site taken on the Rezoning Date that show the form work; and

WHEREAS, nonetheless, the Board observes that forms for the walls on Lot 34 were not constructed, nor was any concrete for the walls poured, on either Lot 32 or Lot 34; and

WHEREAS, the Board informed the applicant that all foundational elements that are below grade needed to be considered, including the foundation walls, and asked the applicant to analyze what remained to be constructed on the below-grade foundation elements as a whole; and

WHEREAS, the Board observes that it has previously considered foundation wall construction in the calculations of the amount of total foundation work performed; and

WHEREAS, however, the applicant failed to provide the Board with an understandable summation of the amount of work done relative to what remains, and the amount of expenditures made relative to what is outstanding, based upon the entire sub-grade foundation construction (including walls) necessary for the Proposed Development; and

WHEREAS, accordingly, because excavation was not complete and substantial progress was not made on foundations, the applicant is not entitled to relief under of ZR § 11-331; and

WHEREAS, as a final matter, the Board observes that the applicant, in a March 3, 2006 submission, claims that the owner has established vested rights under the common law; and

WHEREAS, however, the applicant has not expanded upon this assertion nor provided any evidence in support of it; and

WHEREAS, additionally, the Board notes that the subject application was brought pursuant to ZR § 11-331; the issue of common law vesting was not discussed by the applicant at hearing, nor was a formal application made for the Board's consideration of such a claim, as required by Board practice; accordingly, the Board declines to render a determination as to this claim.

Therefore it is Resolved that this application to renew NB

MINUTES

Permit Nos. 402096959-01 and 402096968-01 pursuant to ZR § 11-331 is denied.

APPLICANT – Gary Lenhart, R.A., for The Breezy Point Cooperative, Inc., owner; Joanne & Thomas DeRosa, lessee.
SUBJECT – Application September 6, 2005 – Proposed construction of an existing single family frame dwelling situated in the bed of a mapped street contrary to General City Law Article 3, Section 35 and upgrading an existing private disposal system which is contrary to Department of Buildings policy. Premises is located within an R4 zoning district.

PREMISES AFFECTED – 9 Bayside Drive, in the bed of Bayside Drive 109.72 northwest of Rockaway Point Boulevard, Block 16340, part of Lot 50, Borough of Queens.

COMMUNITY BOARD#14Q

APPEARANCES –

For Applicant: Gary Lenhart.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated August 24, 2005, acting on Department of Buildings Application No. 402131260, reads:

“A1 – The Existing Building to be altered lies within the bed of a mapped street contrary to General City Law Article 3, Section 35.

A2 – The proposed upgraded private disposal system is in the bed of a mapped street contrary to Department of Buildings Policy.”; and

WHEREAS, a public hearing was held on this application on May 9, 2006, after due notice by publication in the *City Record*, and then to closure and decision on this same date; and

WHEREAS, by letter dated September 13 2005, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated October 19, 2005, the Department of Environmental Protection has reviewed the above project and has no objections; and

WHEREAS, by letter dated, March 30, 2006, the Department of Transportation has reviewed he above project and has no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, August 24, 2005, acting on Department of Buildings Application No. 402131260, is modified by the

power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received September 6, 2005”–(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 9, 2006.

30-06-A

APPLICANT – Eric Hecker, Esq. of Emery Celli, Brinkcerhoff & Abady, LLP for Lamar Outdoor Advertising, lessee; EG Clemente Bros., owner.

SUBJECT – Application February 21, 2006 – For an appeal of the Department of Buildings decision dated January 19, 2006 revoking Advertising sign approvals and permits under Application Nos. 5000684324 and 500684315 in that it allows advertising signs that are not within 1/2 mile of the NYC Boundary and as such are in violation of Section 42-55 of the Zoning Resolution.

PREMISES AFFECTED – 50 South Bridge Street, between Arthur Kill Road and Page Avenue, Block 7584, Lot 122, Borough of Staten Island.

COMMUNITY BOARD #3SI

APPEARANCES – None.

ACTION OF THE BOARD – Application denied.

THE VOTE TO GRANT –

Negative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

THE RESOLUTION –

WHEREAS, the instant appeal comes before the Board in response to a January 19, 2006 (mistakenly dated January 19, 2005) final written determination of the Acting Staten Island Borough Commissioner (the “Final Determination”); and

WHEREAS, the Final Determination was issued in response to July 22 and September 16, 2005 letters from Lamar Outdoor Advertising (hereinafter, the “appellant”) asking the Department of Buildings (“DOB”) to rescind its intent to revoke the permits (Permit Nos. 500684315 and 500884324, hereinafter, the “Permits”) issued for advertising signs (hereinafter, the “Signs”) at the subject premises; and

WHEREAS, as reflected in the Final Determination, the

MINUTES

Acting Staten Island Borough Commissioner denied this request because the Signs are not within a half-mile of the New York City boundary and are thus in violation of ZR § 42-55(a); and

WHEREAS, ZR § 42-55 provides, in pertinent part: “In all districts, as indicated, the provisions of paragraphs (a), (b) and (c), or paragraph (d) of this Section, shall apply for signs near designated arterial highways . . .

(a) Within 200 feet of an arterial highway . . . signs that are within view of such arterial highway . . . shall be subject to the following provisions: . . . no advertising sign shall be allowed . . .

(d) Within one-half mile of any boundary of the City of New York, permitted signs and advertising signs may be located along any designated arterial highway . . . that crosses a boundary of the City of New York, without regard to the provisions of paragraphs (a), (b) and (c) of this Section, provided any such permitted or advertising sign otherwise conforms to the regulations of this Chapter including, with respect to an advertising sign, a location not less than 500 feet from any other advertising sign, except that, in the case of any such permitted or advertising sign erected prior to August 7, 2000, such sign shall have non-conforming use status pursuant to Sections 52-82 . . .”; and

WHEREAS, generally, ZR 42-55(a) acts to prohibit signs placed within 200 feet of a designated arterial highway; and

WHEREAS, however, ZR § 42-55(d) provides an exception for signage that is placed within one-half mile of a boundary of the City of New York on a highway that crosses said boundary, so long as the sign is located at least 500 ft. from any other advertising sign; and

WHEREAS, the primary issue in the appeal is the interpretation of the phrase “boundary of the City of New York”; and

WHEREAS, a public hearing was held on this application on April 11, 2006 after due notice by publication in *The City Record*, and then to decision on May 9, 2006; and

WHEREAS, Communiquez L.L.C., the permit holder for a separate outdoor advertising sign at 100 South Bridge Street (hereinafter, the “Communiquez Sign”), made submissions and gave testimony in opposition to the appeal; and

WHEREAS, the Signs are two back-to-back advertising signs located at 50 South Bridge Street between Arthur Kill Road and Page Avenue; the site is within an M1-1 zoning district; and

WHEREAS, on March 21, 1994 and April 7, 1994, under Application Nos. 500089780 and 500089771, appellant’s predecessor in interest obtained permits for non-advertising accessory business signs; and

WHEREAS, on January 20, 2004, DOB informed the appellant that an inspection revealed that the permitted accessory signs had been converted to advertising signs without

DOB approval and that the Signs were located within 500 feet of the Communiquez Sign, which is not permitted pursuant to ZR § 42-55; and

WHEREAS, DOB requested proof that the Signs existed prior to August 7, 2000 so that they could qualify for non-conforming status under ZR § 42-55(d), despite being within 200 feet of an arterial highway; this would also determine whether the Signs had priority over the Communiquez Sign; and

WHEREAS, on April 2, 2004, DOB wrote to the appellant, stating that it was accepting evidence that the Signs had existed at the premises before August 7, 2000 and therefore were grandfathered as non-conforming signs under ZR § 42-55(d), with priority over the Communiquez Sign as to the 500 ft. distance between signs rule; and

WHEREAS, on April 12, 2004, appellant filed Application Nos. 500684315 and 500684324, and DOB subsequently issued the Permits to convert the permitted accessory signs to advertising signs; and

WHEREAS, on May 5, 2004, upon review of a survey performed for the owner of the Communiquez Sign by Rogers Surveying (the “Rogers Survey”), DOB notified the appellant that the Signs were not within a half-mile boundary of the City of New York and therefore could not be grandfathered under ZR § 42-55(d); and

WHEREAS, DOB noted that if the Signs were not “[w]ithin one-half mile of any boundary of the City of New York,” as specified by ZR § 42-55(d), then they were in violation of ZR § 42-55(a), and thus could not be deemed grandfathered; and

WHEREAS, the appellant responded with a claim that, in accordance with ZR § 76-145, the “boundary of the City of New York” as that phrase is used in ZR § 42-55(d), is the pierhead line, and that the Signs were within a half-mile of the pierhead line; and

WHEREAS, ZR § 76-145, reads, in pertinent part; “In cases of . . . navigable waters, the boundary line shall (unless otherwise fixed) be considered to coincide with the boundary line of . . . the pierhead line . . .”; and

WHEREAS, on September 9, 2004, DOB replied to the appellant that ZR § 76-145 referred to zoning district boundary lines and not City boundaries, was therefore inapplicable to ZR § 42-55(d); and

WHEREAS, in making this response, DOB stated it was relying upon the Rogers Survey, which showed the City boundary line as the border between the City and the State of New Jersey, situated in the middle of the Arthur Kill River, as established by the United States Army Corps of Engineers (the “U.S. A.C.E.”); and

WHEREAS, DOB noted that the Signs were not within one half mile of this City boundary; and

WHEREAS, accordingly, on June 6, 2005, DOB issued an intent to revoke the Permits, because the Signs did not comply with the half-mile requirement of ZR § 42-55(d); and

WHEREAS, in the Final Determination, DOB subsequently revoked the Permits, again citing the established City boundary line as reflected on the Rogers Survey; and

MINUTES

WHEREAS, the appellant now challenges DOB's Final Determination and the revocation of the Permits, and restates the argument that the boundary of the City of New York is, pursuant to ZR § 76-145, the equivalent of the pierhead line and that since the Signs are within a half mile of the pierhead line, they comply with the requirements of ZR § 42-55; and

WHEREAS, thus, the appellant asks the Board to consider the argument rejected by DOB, that the one-half mile measurement may be taken from the pierhead line; and

WHEREAS, DOB maintains its position stating that the conventional standard used to identify the City boundary line has been established by the U.S. A.C.E. to be the center of the Arthur Kill River; and

WHEREAS, DOB additionally cites to New York City Administrative Code, Title 2, Chapter 2 "Boundaries of the City," Section 2-202, Paragraph 5, which recognizes that a boundary of Staten Island is the state boundary line, as well as Section 7 of the State Law of New York which identifies the boundary line between New York State and New Jersey as the middle of the Arthur Kill River; and

WHEREAS, DOB argues that when the Administrative Code and the State Law are considered together, one must conclude that the City boundary is coincident with the State boundary, which is established by law to be the center of the Arthur Kill River; and

WHEREAS, the U.S.A.C.E.-identified City boundary line, as reflected on the Rogers Survey, reinforces this conclusion; and

WHEREAS, DOB notes that the appellant's own survey, prepared by Wohl & O'Mara, indicated only the location of the pierhead line and not that of the City boundary, and did not claim that the two were coincident; and

WHEREAS, the Board notes that DOB's claim that the Signs are not within the required half-mile from the City boundary as defined by the U.S. A.C.E. has not been disputed by the appellant; and

WHEREAS, as to ZR § 76-145, DOB notes that this provision is part of ZR Chapter 6: "Location of District Boundaries", which is a chapter regulating zoning district boundary lines rather than City boundaries; and

WHEREAS, ZR § 76-145 is a rule of construction that specifies that park, pierhead, or cemetery boundary lines may be construed to be zoning district boundaries; and

WHEREAS, 76-145 is one of eight rules of construction set forth in Chapter 6, and all of them concern zoning district boundaries on the zoning maps; and

WHEREAS, the Board observes that ZR 76-11 "General Provisions", provides that "The *district* boundaries on the zoning maps shall be interpreted in accordance with the provisions of . . . 76-14 (Additional Rules of Construction)"; and

WHEREAS, ZR § 76-145 is one of the "Additional Rules of Construction"; and

WHEREAS, thus, it is illogical to argue, as appellant has, that 76-145 modifies the phrase "boundary of the City of New York" as used in ZR § 42-55(d), when the provision

plainly is a rule of construction concerning zoning district boundaries; and

WHEREAS, accordingly, the Board agrees with DOB that the pierhead line is not relevant when determining whether the signs comply with the one-half mile requirement of ZR § 42-55; and

WHEREAS, instead, the Board agrees that the City boundary is established by laws other than the ZR and has been correctly confirmed on the Rogers Survey as the U.S. A.C.E.-identified boundary line in the middle of the Arthur Kill River; and

WHEREAS, since the appellant does not contest that the Signs are not within one half mile of the City boundary line, the Board concludes that DOB's revocation of the Permits as set forth in the Final Determination is a proper exercise of its authority and should therefore be sustained; and

WHEREAS, accordingly, the Board finds that the subject appeal is without merit and should be denied; and

WHEREAS, subsequent to the Final Determination, DOB responded to the Communiquez's arguments regarding sign height and size, set forth in a submission to the Board; and

WHEREAS, however, the Board notes that these issues are not subject to the Final Determination and are therefore not properly before the Board in the instant appeal.

Therefore it is Resolved that the instant appeal, seeking a reversal of the determination of the Acting Staten Island Borough Commissioner, dated January 19, 2006, revoking DOB Permit Nos. 500684315 and 500884324, is hereby denied.

Adopted by the Board of Standards and Appeals, May 9, 2006.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated May 17, 2004, acting on Department of Buildings Application No. 301773249, reads, in pertinent part:

“Proposed Physical Culture Establishment is not permitted as of right within R5(OP Special District) and is contrary to ZR Section 22-00 . . .”; and

WHEREAS, this is an application under ZR § 72-21, to permit, in an R5 zoning district within the Special Ocean Parkway Subdistrict (OP), the legalization of a physical culture establishment (PCE) located in an existing two-story commercial building; and

WHEREAS, a public hearing was held on this application on February 28, 2006 after due notice by publication in *The City Record*, with continued hearings on April 11, 2006, and then to decision on May 9, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioners Chin and Collins; and

WHEREAS, Community Board 12, Brooklyn, recommends approval of this application; and

WHEREAS, the site is a 4,000 sq. ft. lot located on the southeast corner of Caton Avenue and Second Street; and

WHEREAS, the existing building has 8,000 sq. ft. of floor area, all of which is currently occupied by the PCE (the Absolute Power Fitness Center); and

WHEREAS, the existing building was previously occupied by a Use Group 16 carpet cleaning establishment, subject to a previous variance granted under BSA Cal. No. 841-48-BZ; and

WHEREAS, the applicant states that the building was later occupied as a roofing, storage facility, and construction office, and then fell vacant until purchased by the Absolute Power Fitness Center; and

WHEREAS, since a PCE is not permitted in an R5 zoning district, a variance is required; and

WHEREAS, the applicant states that the following is a

unique physical condition, which creates practical difficulties and unnecessary hardship in developing the subject lot in conformance with underlying district regulations: the site is improved upon with an obsolete industrial structure that was designed for, and historically has been occupied by, non-conforming uses; and

WHEREAS, as noted above, the building was occupied as a factory prior to 1948, and, pursuant to a Board grant, as a UG 16 carpet cleaning establishment and storage and construction office since 1948; and

WHEREAS, the applicant discussed previous Board cases where the Board has approved variances for PCEs that occupy non-conforming commercial buildings, where the existing non-conforming building was cited as the unique physical condition giving rise to unnecessary hardship; and

WHEREAS, the applicant states that the instant case is comparable to these approvals; and

WHEREAS, the Board observes that the design of the existing building for commercial use is a condition which prevents a feasible conversion to conforming residential use, due to increased construction costs, as discussed below; and

WHEREAS, based on the above, the Board finds that there are unique physical conditions inherent to the site, which create an unnecessary hardship in conforming strictly with the applicable use provisions of the Zoning Resolution; and

WHEREAS, the applicant has submitted a feasibility study demonstrating that developing the building with a conforming use would not yield the owner a reasonable return; and

WHEREAS, specifically, this study showed that due to the fact that the building was designed for and has been occupied by commercial uses since at least 1948, as of right residential or community facility scenarios would produce only negligible returns due to the significant demolition and construction costs and the modest rents that could be realized; and

WHEREAS, these costs include expenditures for base construction, HVAC equipment, and installation of windows, as well as the removal of approximately 1,400 sq. ft. of floor area from the building to comply with the residential FAR maximum of 1.65 and to allow for light and air; and

WHEREAS, these costs and the diminution in the amount of usable floor area render a residential scenario infeasible; and

WHEREAS, additionally, the feasibility study analyzed a conforming community facility scenario, which was also determined to be infeasible due to the excessive costs of construction for the conversion; and

WHEREAS, the Board observes that a ground up residential development involving the demolition of the existing building would not be feasible, given that the costs of demolition and new construction would not be offset by the rents that could be gained from such construction; and

WHEREAS, based upon the above, the Board has determined that because of the subject site’s unique physical condition, there is no reasonable possibility that development in strict compliance with applicable zoning provisions will provide

MINUTES

a reasonable return; and

WHEREAS, further, the Board observes that without the variance, the building would likely remain vacant, given its apparent lack of desirability for other commercial uses; and

WHEREAS, the applicant represents that the proposed variance will not affect the character of the neighborhood, impair appropriate use or development of adjacent property or be detrimental to the public welfare; and

WHEREAS, the applicant states that the PCE will occupy a building that has historically been occupied by commercial and manufacturing uses; and

WHEREAS, the Board also observes that the PCE use is more compatible with the character of the neighborhood than the prior uses; and

WHEREAS, the applicant states that the height of the two story structure is compatible with the existing six and seven story multiple dwellings in the immediate vicinity; and

WHEREAS, further, the applicant notes that none of the OP regulations, which concern the existing scale and character of the community, among other things, are violated by the proposed variance; and

WHEREAS, as to parking, the applicant states that the PCE is not expected to result in significant impacts, and has submitted a modal split parking analysis that concludes that only approximately 12 patrons per day will arrive via car, with the overwhelming majority arriving by foot or public transportation; and

WHEREAS, the parking analysis also shows that there is sufficient available on-street parking to accommodate the anticipated parking demand generated by the PCE; and

WHEREAS, additionally, the PCE is intended to be a neighborhood gym, and will likely not draw significant patronage from outside the area; accordingly, significant visitation by car is not anticipated; and

WHEREAS, the hours of operation for the PCE are 5 a.m. to 10 p.m. Monday thru Friday, and 8 a.m. to 8 p.m. Saturday and Sunday; the Board finds these hours reasonable; and

WHEREAS, finally, the Board, through a condition in this resolution, will limit signage to one non-illuminated sign fronting on Caton Avenue, with

WHEREAS, at the request of the Board, the applicant modified the proposed plans to show the sign; said sign will be 8'-6" in length and 1'-6" in height; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the Board notes that although a variance is being requested, the subject application meets all of the

requirements of the special permit for a PCE, except for the required zoning district; and

WHEREAS, the PCE will contain facilities for classes, instruction and programs for physical improvement, bodybuilding, weight reduction and aerobics; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the Absolute Power Fitness Center and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR 04-BSA-215K dated December 23, 2005 and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617.4, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21, to permit, in an R5(OP) zoning district, the legalization of a physical culture establishment located in an existing two-story commercial building; *on condition* that all work shall substantially conform to drawings, filed with this application marked "Received April 25, 2006" - (6) sheets; and *on further condition*:

THAT the term of this variance will be ten years from November 1, 2003, to expire on November 1, 2013;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to 5 a.m. to 10 p.m. Monday thru Friday, and 8 a.m. to 8 p.m. Saturday and Sunday;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT only one non-illuminated accessory business sign shall be permitted, with dimensions and location as illustrated on the BSA-approved plans;

MINUTES

THAT all other aspects of the sign shall comply with regulations applicable in C1-1 zoning districts;

THAT all fire protection measures, including, but not limited to, an interior fire alarm system, as indicated on the BSA-approved plans, shall be installed and maintained, as approved by DOB;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT all exiting requirements shall be as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 9, 2006.

260-04-BZ

APPLICANT – The Law Office of Fredrick A. Becker, for Leewall Realty by Nathan Indig, owner.

SUBJECT – Application July 20, 2004 – under Z.R. §72-21 to permit the proposed construction of a four story, penthouse and cellar three-family dwelling, located in an M1-2 zoning district, is contrary to Z.R. §42-00.

CALENDAR

PREMISES AFFECTED – 1077 Bay Street, Block 2825, Lot 1, Borough of Staten Island.

COMMUNITY BOARD #1SI

JULY 11, 2006, 1:30 P.M.

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday afternoon, July 11, 2006, at 1:30 P.M., at 40 Rector Street, 6th Floor, New York, N.Y. 10006, on the following matters:

ZONING CALENDAR

131-05-BZ

APPLICANT – Law Office of Vincent L. Petraro, for Delco Properties, LLC, owner.

SUBJECT – Application Variance application under Z.R. Section 72-21 to permit a five-story retail/banquet facility/office building of 112,137 square feet and up to 276 attended parking spaces on the two cellar levels. The site is located in a C4-3 zoning district. The proposal is contrary to Z.R. Sections 33-122, 33-432, 36-21, 36-62, and 32-21. The variance waivers requested relate to floor area, front wall height, number of parking spaces, number of loading berths, and the distance from a residence district. There are two existing commercial buildings on the site which will be demolished as part of the proposed action.

PREMISES AFFECTED – 72-01/72-11 Roosevelt Avenue, 37-61/69 72nd Street and 72-18 Broadway, corner of 72nd Street and Broadway, Block 1283, Lot 72, Borough of Queens.

COMMUNITY BOARD #4Q

44-06-BZ

APPLICANT – Rothkrug Rothkrug & Spector, for Philip & Laura Tuffnell, owners.

SUBJECT – Application March 14, 2006 – Pursuant to ZR 72-21 Variance for the vertical enlargement of an existing single family residence which exceeds the maximum permitted floor area, ZR23-141 and does not provide the required side yard, 23-461.

PREMISES AFFECTED – 150-24 18th Avenue, South side of 18th Avenue, 215 east of intersection with 150th Street, Block 4687, Lot 43, Borough of Queens.

COMMUNITY BOARD #7Q

46-06-BZ

APPLICANT – Ellen Hay, Wachtel & Masyr, LLP, for West 55th Street Building, LLC, owner; Club H. NY, LLC, lessee.

SUBJECT – Application March 17, 2006 – Special Permit pursuant to Z.R. Sections 73-03 and 73-36 to allow the

COMMUNITY BOARD #6M

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, MAY 16, 2006
10:00 A.M.**

Present: Chair Srinivasan, Vice Chair Babbar,
Commissioner Chin and Commissioner Collins.

The minutes of the regular meetings of the Board held on Tuesday morning and afternoon, March 14, 2006 and Wednesday, Morning March 15, 2006, were approved as printed in the Bulletin of March 24, 2006, Volume 91, No. 12. If there be no objection, it is so ordered.

SPECIAL ORDER CALENDAR

636-54-BZ, Vol. II

APPLICANT – Walter T. Gorman, P.E., for Stephen & Jeanne Tamor (Trustees); Motiva Enterprises, lessee.

SUBJECT – Application February 22, 2006 - Extension of Time/Waiver to obtain a Certificate of Occupancy of a gasoline service station (Shell Station) for fifty-four (54) months from the expiration date of January 8, 2003. The premise is located in a C1-2 in R-5 zoning district.

PREMISES AFFECTED – 9612/24 Seaview Avenue, southwest corner of Rockaway Parkway, Block 8328, Lot 30, Borough of Brooklyn.

COMMUNITY BOARD #18BK

APPEARANCES –

For Applicant: John Ronan.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and an extension of time to obtain a new certificate of occupancy which expired on January 8, 2003; and

WHEREAS, a public hearing was held on this application on May 2, 2006, after due notice by publication in *The City Record*, and then to decision on May 16, 2006; and

WHEREAS, the Board has exercised jurisdiction over the subject premises since October 16, 1956, when the Board granted an application to permit the erection and maintenance of a gasoline service station, with a lubritorium, auto-washing, motor vehicle repairs, storage and sale of accessories, and the storage of motor vehicles; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times, most recently on January 8, 2002, for a term of 10 years from the expiration of the prior grant, expiring on October 16, 2011; and

WHEREAS, a condition of the most recent amendment was that a new certificate of occupancy be obtained by January

8, 2003; and

WHEREAS, however the applicant represents that due to management changes, the obligation to secure a new certificate of occupancy for the site was overlooked; and

WHEREAS, at hearing, the Board asked the applicant about an outstanding violation concerning an air compressor tank; and

WHEREAS, the applicant responded that an engineer inspected the site and provided a statement that the air compressor tank had been removed from the station when it was re-built in 1988 and that the violation associated with it was resolved; and

WHEREAS, the Fire Department provided testimony confirming that the air compressor had been removed and that there were no open violations; and

WHEREAS, at hearing, the Board asked the applicant how much time was needed to obtain the certificate of occupancy; and

WHEREAS, the applicant represents that inspections could be scheduled and that a certificate of occupancy could be obtained within 14 months; and

WHEREAS, based upon the above, the Board finds it appropriate to grant the requested extension of time.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, and *reopens and amends* the resolution, as adopted on October 16, 1956 under the subject calendar number, and as subsequently extended and amended, so that as amended this portion of the resolution shall read: “to permit an extension of time to obtain a certificate of occupancy for an additional period of four years and six months from the prior grant’s expiration, to expire on July 8, 2007, *on condition*:

THAT a new certificate of occupancy shall be obtained by July 8, 2007;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(Alt. No. 301226359)

Adopted by the Board of Standards and Appeals, May 16, 2006.

551-61-BZ

MINUTES

APPLICANT – Fred Geremia, R.A., for SMR Realty Corp., owner.

SUBJECT – Application to consider dismissal for lack of prosecution.

PREMISES AFFECTED – 3275 Cruger Avenue a/k/a 3233 Cruger Avenue, southwest corner of Rosewood Street, Block 4596, Lot 22, Borough of The Bronx.

COMMUNITY BOARD #12BX

APPEARANCES – None.

ACTION OF THE BOARD – Application dismiss for lack of prosecution.

THE VOTE TO DISMISS –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application to extend the term of previous variance pursuant to Z.R. § 11-411; and

WHEREAS, the prior variance was granted on October 3, 1961, and permitted non-transient storage and parking in what was then a residence use district (and is now an R6 zoning district); and

WHEREAS, the grant has been re-opened, extended, and modified since that time, most recently in 1992, when the Board authorized a new ten year term, which has since expired; and

WHEREAS, the application was filed on June 13, 2005 by Fred Geremia, R.A., as the applicant on behalf of the fee owner; and

WHEREAS, subsequent to the filing, the Board’s examination staff sent a Notice of Objections to the applicant, dated September 20, 2005, which requested additional information necessary to for further processing of the application; and

WHEREAS, the applicant did not provide a written response to this Notice; and

WHEREAS, accordingly, the Board placed the matter on the calendar for a dismissal hearing; and

WHEREAS, the examiner notified the applicant of the dismissal hearing date on February 2, 2006 and May 1, 2006; no substantive written response from the applicant was received; and

WHEREAS, because of the applicant’s lack of prosecution of this application, it must be dismissed in its entirety.

Therefore it is Resolved that the application filed under BSA Cal. No. 551-61-BZ is hereby dismissed for lack of prosecution.

Adopted by the Board of Standards and Appeals, May 16, 2006.

39-66-BZ

APPLICANT – Sheldon Lobel, P.C., for Andrea Woodner,

owner.

SUBJECT – Application March 28, 2006 - Extension of Time/Waiver to obtain a Certificate of Occupancy, which expired in January 6, 2006, for transient parking of the unused and surplus tenants spaces in the accessory garage of a multiple dwelling building. The premise is located in a R6 zoning district.

PREMISES AFFECTED – 43-70 Kissena Boulevard, Block 5137, Lot 102, Borough of Queens.

COMMUNITY BOARD #7Q

APPEARANCES –

For Applicant: Josh Rinesmith.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and an extension of time to obtain a new certificate of occupancy for a transient parking lot, which expired on January 8, 2003;

WHEREAS, a public hearing was held on this application on May 2, 2006, after due notice by publication in *The City Record*, and then to May 16, 2006 for decision; and

WHEREAS, on April 13, 1966, the Board granted a zoning variance and a Multiple Dwelling Law waiver under the subject calendar number to allow transient parking spaces in the cellar level accessory garage to a multiple dwelling located at the subject premises, for a term of 15 years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times, most recently on January 6, 2004, to permit an extension of time to obtain a certificate of occupancy for an additional two years, to expire on January 6, 2006; and

WHEREAS, the applicant explained that due to a reorganization in the management, the obtainment of the new certificate of occupancy was overlooked; and

WHEREAS, based upon the above, the Board finds it appropriate to grant the requested extension of time.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, and *reopens and amends* the resolution, as adopted on April 13, 1966, under the subject calendar number, and as subsequently extended and amended, so that as amended this portion of the resolution shall read: “to permit an extension of time to obtain a certificate of occupancy for an additional period of two years from the prior grant’s expiration, to expire on January 6, 2008, on condition:

THAT a new certificate of occupancy shall be obtained by January 6, 2008;

THAT there shall be a maximum of 50 parking spaces used for transient parking at the cellar and first floors at the

MINUTES

subject premises;

THAT all residential leases shall indicate that the spaces devoted to transient parking can be recaptured by residential tenants on 30 days notice to the owner;

THAT a sign providing the same information about tenant recapture rights be placed in a conspicuous place within the garage;

THAT the above condition and all conditions from the prior resolution shall appear on the certificate of occupancy;

THAT the layout of the parking lot shall be as approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(Alt. 2039-65)

Adopted by the Board of Standards and Appeals, May 16, 2006.

337-79-BZ, Vol. II

APPLICANT – Moshe M. Friedman, P.E., for Dr. Martin S. Bernstein, owner.

SUBJECT – Application January 23, 2006 – Extension of Term/Waiver for the conversion of the first story of an existing two (2) story residential building into medical offices, located in an R2 zoning district.

PREMISES AFFECTED – 2107 Avenue N, north side of Avenue N, 40’ east of East 21st Street, Block 7657, Lot 8, Borough of Brooklyn.

COMMUNITY BOARD #14BK

APPEARANCES – None.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and an extension of the term of a previously granted variance that expired on December 16, 2005; and

WHEREAS, a public hearing was held on this application on January 23, 2006, after due notice by publication in *The City Record*, with continued hearing on May 2, 2006, and then to decision on May 16, 2006; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, the subject premises is located on the north

side of Avenue N, 40 feet east of 21st Street, and is occupied by an existing two-story building; and

WHEREAS, on December 16, 1980, the Board granted a variance pursuant to ZR § 72-21, to permit, in an R2 zoning district, the conversion of the first floor of the two-story building into medical offices; and

WHEREAS, subsequently, the variance was re-opened twice to extend the term; and

WHEREAS, the instant application initially sought to extend the term of the variance for ten years; and

WHEREAS, upon review, the Board grants the requested renewal of the variance and eliminates the term, provided that there is compliance with the conditions set forth below and on the prior resolutions.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, and *reopens* and *amends* the resolution, dated December 16, 1980, so that as amended this portion of the resolution shall read: “to renew the grant and eliminate its term; *on condition* that the use and operation of the medical offices shall substantially conform to drawings as filed with this application, marked ‘Received January 23, 2006’–(2) sheets and ‘Received May 4, 2006’–(1) sheet ; and *on further condition*:

THAT this variance shall lapse with any change in ownership or control;

THAT the above condition shall appear on the Certificate of Occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(Alt. No. 209/1979)

Adopted by the Board of Standards and Appeals, May 16, 2006.

43-99-BZ

APPLICANT – Windels Marx Lane and MittenDorf, LLP, for White Castle Systems, Inc., owner.

SUBJECT – Application November 22, 2005 – Extension of Term/Waiver/Amendment to a previously granted special permit for a drive-through facility accessory to an eating and drinking establishment for an additional term of five years. The amendment is to install and electronic amplification menu board. The premise is located in a C1-2 in an R-4 zoning district.

PREMISES AFFECTED – 38-02 Northern Boulevard, southwest corner formed by the intersection of Northern Boulevard, Block 1436, Lot 1, Flushing, Borough of Queens.

COMMUNITY BOARD #3Q

MINUTES

APPEARANCES – None.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of the term of the special permit allowing a drive-through facility at an existing eating and drinking establishment, which expired on December 7, 2004, as well as an amendment to allow the installation of an electronic amplification board at the drive through facility; and

WHEREAS, a public hearing was held on this application on January 10, 2006, after due notice by publication in *The City Record*, with continued hearings on February 14, 2006, March 14, 2006, and April 25, 2006, and then to decision on May 16, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, including Chair Srinivasan, Commissioner Collins and Commissioner Chin; and

WHEREAS, Community Board 3, Queens and the Queens Borough President both recommend approval of this application, on condition that the hours of the amplified board are limited; and

WHEREAS, the site is located on the southwest corner of Northern Boulevard and 88th Street, within a C1-2(R4) zoning district, has a lot area of 10,000 sq. ft., and is occupied by an existing eating and drinking establishment (a White Castle fast food restaurant), with a drive-through facility with a ten vehicle capacity reservoir, and eight accessory parking spaces; and

WHEREAS, on December 7, 1999, under the subject calendar number, the Board granted a special permit authorizing the drive through facility for the restaurant, for a period of five years, which expired on December 7, 2004; and

WHEREAS, in addition to an extension of term, the applicant requests Board approval of a proposed electronically amplified menu board; and

WHEREAS, the applicant states that the restaurant needs the amplified board in order to expedite customer service during peak hours; the installation of the board will allow customers to order first and then proceed to the window; and

WHEREAS, the applicant initially proposed to locate the menu board at the a point in the drive-through lane such that there would only be limited space for three vehicles behind a vehicle stopped at the board, even though the ten required reservoir spaces required by the special permit text would still be provided; and

WHEREAS, the Board expressed concern that such a minimal queuing space could cause vehicles to back up into the driveway or street, and suggested that a revised proposal that increased the amount of spaces be submitted; and

WHEREAS, the Board also expressed concern about the

layout of the accessory parking spaces; and

WHEREAS, the applicant responded by submitting a revised site plan showing a new location for the amplified board that would allow five spaces instead of three; and

WHEREAS, the applicant also submitted evidence that the average time that it takes a customer to order at White Castle restaurants in the area is 40 seconds; and

WHEREAS, the applicant states that based upon its review of peak hour usage of various White Castle drive through facilities, including the subject facility, five queuing spaces after the menu board is sufficient to cover the amount of customers, based upon an average 40 second ordering time; and

WHEREAS, specifically, based upon this review, the applicant stated that at the subject location, only eight vehicles used the drive-through facility during the busiest hour of the day, and at no point was there more than one car in the facility; and

WHEREAS, the applicant also reconfigured the accessory parking, so that certain of the spaces near the entrance driveway are positioned perpendicularly, which will enhance vehicle access and maneuverability on the site; and

WHEREAS, at the request of the Board, the remainder of the spaces will be angled; and

WHEREAS, based upon the above, the Board finds that the applicant's application for an extension of term and amendment is appropriate, so long as the restaurant complies with all relevant conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals, *waives* the Rules of Practice and Procedure, and *reopens and amends* the resolution, said resolution having been adopted on December 7, 1999, so that, as amended, this portion of the resolution shall read: "to permit the extension of the term of the special permit for an additional five years from December 7, 2004, and to permit the installation of an amplified menu board and the reconfiguration of accessory parking; *on condition* that all work and site conditions shall comply with drawings marked "Received May 10, 2006"- (1) sheet; and *on further condition*:

THAT there shall be no change in the operator of the subject eating and drinking establishment without the prior approval of the Board;

THAT the premises shall be maintained free of debris and graffiti;

THAT any graffiti located on the premises shall be removed within 48 hours;

THAT there shall be a minimum of seven accessory parking spaces located at the site;

THAT the amplified board shall only be used from 7 AM to 9 PM on weekdays, and from 8AM to 9 PM on Saturday and Sunday;

THAT the above conditions and all relevant conditions from prior resolutions shall appear on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

MINUTES

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”
(DOB App. No. 402100249)

143-05-A

APPLICANT – Eric Palatnik, P.C., for Andrew Latos & Peter Latos, owners.

SUBJECT – Application February 15, 2006 – Extension of Time to complete construction and to obtain a Certificate of Occupancy. On November 29, 2005 BSA granted issued a resolution determining that the owner of the premises had obtained a vested right to continue construction under DOB permit No. 4021124879 and reinstated the permit for a period of six months to expire on May 29, 2006. The premise is located in a R2A zoning district.

PREMISES AFFECTED – 47-05 Bell Boulevard, between 47th and 48th Avenues, Block 7346, Lot 49, Borough of Queens.

COMMUNITY BOARD #11Q

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of the time to complete construction previously granted by the Board upon a November 29, 2005 determination under the subject calendar number that the owner of the subject premises has obtained a vested right to continue construction under Department of Buildings (“DOB”) Permit No. 4021124870 (the “Permit”); and

WHEREAS, a public hearing was held on this application on April 25, 2006, after due notice by publication in the *City Record*, and then to decision on May 16, 2006; and

WHEREAS, the subject premises is a 2,300 sq. ft. lot located on Bell Boulevard between 47th and 48th Avenues; and

WHEREAS, the subject premises is occupied by an existing two-family dwelling that is proposed to be converted into a three-family dwelling under the Permit; and

WHEREAS, at the time that the Permit was issued (March 13, 2005), the premises was within an R3-2 zoning district, where such conversion was permitted; and

WHEREAS, on April 12, 2005, the City Council approved the rezoning proposal for the subject neighborhood; consequently, the subject premises is now within an R2A zoning district, where the conversion is not permitted; and

WHEREAS, because of the rezoning, the applicant subsequently filed an application for a finding that the owner had vested rights under the Permit, stating that vested rights to proceed under the Permit had been acquired based upon the amount of work performed and the amount of expenditures made; and

WHEREAS, the Board granted this application on November 29, 2006, ordered that the Permit be reinstated, and allowed six months for the completion of construction; the grant will expire on May 29, 2006; and

WHEREAS, the applicant states that although work recommenced following the Board’s reinstatement of the Permit, full completion of construction was not achieved

MINUTES

because of a change in architect and related delays in making appropriate filings at DOB; and

WHEREAS, the applicant states that it will likely take approximately one year to finish construction and obtain necessary DOB sign-offs; and

WHEREAS, at hearing, the Board requested photographs of the work that has been completed since the original reinstatement; and

WHEREAS, the applicant submitted photos of the work, which the Board has reviewed; the Board agrees that progress has been made since the original reinstatement; and

WHEREAS, in sum, the Board finds it appropriate to grant the requested extension of time, since good faith efforts to complete construction have been made since the original reinstatement.

Therefore it is Resolved that the Board reinstates DOB Permit No. 4021124870 for a period of one year from date of the expiration of the original reinstatement, to expire on May 29, 2007, subject to DOB review and approval of plans associated with the Permit.

Adopted by the Board of Standards and Appeals, May 16, 2006.

MINUTES

mapped street or frontage space is contrary to Section 27-291 of the Administrative Code.

- A2 – The proposed enlargement is on a site where the building and lot are partially located in the bed of a mapped street therefore no permit or Certificate of Occupancy can be issued as per Article 3 Section 35 of the General City Law. Proposed upgraded private disposal system is in the bed of a mapped street contrary to General City Law Article 3, Section 35.”; and

WHEREAS, a public hearing was held on this application on May 16, 2006, after due notice by publication in the *City Record*, hearing closed, and then to decision on the same date; and

WHEREAS, by letter dated September 16 2005, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated October 19, 2005, the Department of Environmental Protection states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated, March 30, 2006, the Department of Transportation has reviewed he above project and has no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated April 11, 2006, acting on Department of Buildings Application No. 402120575, is modified by the power vested in the Board by Section 35/36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received August 30, 2005”- (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 16, 2006.

400-05-BZY/401-05-BZY

APPEARANCES – None.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-332, to permit an extension of time for the completion of construction of, and obtainment of certificates of occupancy for, two townhouses currently under construction at the subject premises; and

WHEREAS, the Board notes that while separate applications were filed for each permit for each of the townhouses, in the interest of convenience, it heard the cases together and the record is the same for both of the applications; and

WHEREAS, a public hearing was held on this application on May 2, 2006, after due notice by publication in *The City Record*, and then to decision on May 16, 2006; and

WHEREAS, the site was inspected by a committee of the Board, including Chair Srinivasan and Commissioner Collins; and

WHEREAS, the subject premises is located on the south side of Morley Avenue, southeast of Cranford and Richmond Roads; and

WHEREAS, the premises are currently located within an R3X zoning district, but were formerly located within an R3-1 zoning district; and

WHEREAS, the development complies with the former R3-1 zoning district parameters as to floor area, building height, and lot coverage; and

WHEREAS, however, on December 3, 2003 (hereinafter, the “Enactment Date”), the City Council voted to adopt the rezoning of the area, which rezoned the sites to R3X; and

HEREAS, as of that date, foundation construction had been completed, such that the right to continue construction was vested pursuant to ZR § 11-331, which allows the Department of Buildings (DOB) to determine that construction may continue under such circumstances; and

WHEREAS, however, only two years are allowed for completion of construction and to obtain certificates of occupancy; and

WHEREAS, accordingly, because the two-year time limit has expired and construction is still ongoing, the applicant seeks relief pursuant to ZR § 11-30 *et seq.*, which sets forth the regulations that apply to a reinstatement of a permit that lapses due to a zoning change; and

WHEREAS, first, the Board notes that ZR § 11-31(c)(1) defines construction such as the proposed development, which involves the construction of two or more buildings on contiguous zoning lots, as a “minor development”; and

MINUTES

WHEREAS, for “minor development,” an extension of time to complete construction may be granted by the Board pursuant to ZR § 11-332; and

WHEREAS, ZR § 11-332 reads, in pertinent part: “In the event that construction permitted in Section 11-331 (Right to construct if foundations completed) has not been completed and a certificate of occupancy including a temporary certificate of occupancy, issued therefore within two years after the effective date of any applicable amendment . . . the building permit shall automatically lapse and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew such building permit for two terms of not more than two years each for a minor development . . . In granting such an extension, the Board shall find that substantial construction has been completed and substantial expenditures made, subsequent to the granting of the permit, for work required by any applicable law for the use or development of the property pursuant to the permit.”; and

WHEREAS, as a threshold issue, the Board must determine that proper permits were issued, since ZR § 11-31(a) requires: “For the purposes of Section 11-33, relating to Building Permits Issued Before Effective Date of Amendment to this Resolution, the following terms and general provisions shall apply: (a) A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment to this Resolution. In case of dispute as to whether an application includes “complete plans and specifications” as required in this Section, the Commissioner of Buildings shall determine whether such requirement has been met.”; and

WHEREAS, the applicant represents that all of the relevant DOB permits were lawfully issued to the owner of the subject premises; and

WHEREAS, the record indicates that the following permits for the proposed development were lawfully issued to the owner by DOB, prior to the Enactment Date: Permit Nos. 500507418-01-NB and 500507409-01-NB (hereinafter, the “New Building Permits”); and

WHEREAS, the Board has reviewed the record and agrees that the New Building Permits were lawfully issued to the owner of the subject premises on the referenced date, prior to the Enactment Date; and

WHEREAS, turning to the substantive findings of ZR § 11-332, the Board notes that there is no fixed standard in an application made under this provision as to what constitutes substantial construction or substantial expenditure in the context of new development; and

WHEREAS, the Board also observes that the work to be measured under ZR § 11-332 must be performed after the issuance of the permit; and

WHEREAS, similarly, the expenditures to be assessed under ZR § 11-332 are those incurred after the permit is issued; and

WHEREAS, accordingly, as is reflected below, the Board

only considered post-permit work and expenditures, as submitted by the applicant; and

WHEREAS, in written statements and testimony, the applicant represents that, since the issuance of the New Building Permits, substantial construction has been completed and substantial expenditures were incurred; and

WHEREAS, the applicant states that work on the proposed townhouses subsequent to the issuance of the New Building Permits resulted in fully-constructed buildings except for the installation of finish materials; and

WHEREAS, in support of this statement the applicant has submitted the following evidence: photographs of both lots showing completed exteriors and partially completed interiors; building plans, stamped and sealed by the architect; an affidavit from the architect, indicating the amount of work completed; and copies of contracts, work orders, invoices, and cancelled checks; and

WHEREAS, the affidavit, signed by the architect of record, indicating the extent of completion, corroborates the applicant’s statements as to the scope and complexity of the work; and

WHEREAS, the Board has reviewed all documentation and agrees that it establishes that the afore-mentioned work was completed subsequent to the issuance of the valid New Building Permits; and

WHEREAS, the applicant represents that the following work remains to be done: the installation of finish materials including sheetrock, plumbing fixtures, flooring, cabinets, lighting and appliances; and

WHEREAS, further, the applicant represents that work has not been completed as a result of a delay in the completion of the New York City Department of Design and Construction’s Dalton Avenue Sewer Project; and

WHEREAS, the Board notes that the actual completion of physical construction is substantial in itself, in that it resulted in tangible above-grade construction; and

WHEREAS, as to costs, the applicant represents that the total expenditure paid is \$242,992.45 while the total project cost is \$367,572.54 (66.11 percent completion); in support of this claim, the applicant has submitted invoices and cancelled checks; and

WHEREAS, the applicant contends that this percentage constitutes a substantial expenditure sufficient to satisfy the finding in ZR § 11-332; and

WHEREAS, based upon its review of all the submitted evidence, the Board finds that substantial construction was completed and that substantial expenditures were made since the issuance of the New Building Permits;

WHEREAS, therefore, the Board finds that the applicant has adequately satisfied all the requirements of ZR § 11-332, and that the owner is entitled to the requested reinstatement of the New Building Permits, and all other permits necessary to complete the proposed development; and

WHEREAS, accordingly, the Board, through this resolution, grants the owner of the site the requested two-year extension for completion of construction that is allowed under ZR § 11-332.

MINUTES

Therefore it is Resolved that this application made pursuant to ZR § 11-332 to renew Building Permits Nos. 500507418-01-NB and 500507409-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed townhouse development for one term of two years from the date of this resolution, to expire on May 16, 2008.

Adopted by the Board of Standards and Appeals, May 16, 2006.

WHEREAS, for “minor development,” an extension of time to complete construction may be granted by the Board pursuant to ZR § 11-332; and

WHEREAS, ZR § 11-332 reads, in pertinent part: “In the event that construction permitted in Section 11-331 (Right to construct if foundations completed) has not been completed and a certificate of occupancy including a temporary certificate of occupancy, issued therefore within two years after the effective date of any applicable amendment . . . the building permit shall automatically lapse and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew such building permit for two terms of not more than two years each for a minor development . . . In granting such an extension, the Board shall find that substantial construction has been completed and substantial expenditures made, subsequent to the granting of the permit, for work required by any applicable law for the use or development of the property pursuant to the permit.”; and

WHEREAS, as a threshold issue, the Board must determine that proper permits were issued, since ZR § 11-31(a) requires: “For the purposes of Section 11-33, relating to Building Permits Issued Before Effective Date of Amendment to this Resolution, the following terms and general provisions shall apply: (a) A lawfully issued building permit shall be a building permit which is based on an approved application showing complete plans and specifications, authorizes the entire construction and not merely a part thereof, and is issued prior to any applicable amendment to this Resolution. In case of dispute as to whether an application includes “complete plans and specifications” as required in this Section, the Commissioner of Buildings shall determine whether such requirement has been met.”; and

MINUTES

WHEREAS, the applicant represents that all of the relevant DOB permits were lawfully issued to the owner of the subject premises; and

WHEREAS, the record indicates that the following permits, and renewals, for the proposed development were lawfully issued to the owner by DOB, prior to the Enactment Date: Permit Nos. 500416766-01-NB, 500416775-01-NB, 500416784-01-NB, 500416793-01-NB, 500416800-01-NB, 500416819-01-NB, 500416819-01-NB, 500416828-01-NB, 500416837-01-NB, 500416944-01-NB, 500416953-01-NB, 500416962-01-NB, 500416971-01-NB, 500416980-01-NB, 500416999-01-NB, 500416454-01-NB, 500416935-01-NB, 500416926-01-NB, 500416917-01-NB, 500416908-01-NB, 500416891-01-NB, 500416882-01-NB, 500416873-01-NB, 500416864-01-NB (hereinafter, the "New Building Permits"); and

WHEREAS, the Board has reviewed the record and agrees that the New Building Permits were lawfully issued to the owner of the subject premises on the referenced date, prior to the Enactment Date; and

WHEREAS, turning to the substantive findings of ZR § 11-332, the Board notes that there is no fixed standard in an application made under this provision as to what constitutes substantial construction or substantial expenditure in the context of new development; and

WHEREAS, the Board also observes that the work to be measured under ZR § 11-332 must be performed after the issuance of the permit; and

WHEREAS, similarly, the expenditures to be assessed under ZR § 11-332 are those incurred after the permit is issued; and

WHEREAS, accordingly, as is reflected below, the Board only considered post-permit work and expenditures, as submitted by the applicant; and

WHEREAS, in its written statements and testimony, the applicant represents that, since the issuance of the New Building Permits, substantial construction has been completed and substantial expenditures were incurred; and

WHEREAS, the applicant states that work on the proposed townhouse developments subsequent to the issuance of the New Building Permits resulted in at least 50 percent of construction completed in all areas; and

WHEREAS, the applicant represents that the following work has been completed throughout the development: foundations, slabs, drywells, framing, interior stairs, windows, and roofs; and

WHEREAS, the applicant represents that the following work remains to be completed: siding, insulation, landscaping, electrical, interior plumbing, and interior finishing; and

WHEREAS, in support of this statement the applicant has submitted the following evidence: photographs of each lot showing the amount of work completed; an affidavit from the architect, indicating the amount of work completed; and copies of contracts, work orders, invoices, and cancelled checks; and

WHEREAS, the affidavit from the architect of record corroborates the applicant's statements as to the scope of

work; and

WHEREAS, the Board has reviewed all documentation and agrees that it establishes that the afore-mentioned work was completed subsequent to the issuance of the valid New Building Permits; and

WHEREAS, thus, taken as a whole, the applicant asserts that construction of the three groups of townhouses was at least 50 percent complete as of December 3, 2005, with 12,241.9 square feet improved and 25,708.1 square feet remaining to be improved; and

WHEREAS, the Board notes that the actual completion of physical construction is substantial in itself, in that it resulted in tangible above-grade construction; and

WHEREAS, as to costs, the applicant represents that the total project cost is \$3,668,500.00; the estimated value of the construction completed is \$1,183,386.15 (32 percent); in support of this claim, the applicant has submitted invoices and cancelled checks; and

WHEREAS, the applicant contends that this percentage constitutes a substantial expenditure sufficient to satisfy the finding in ZR § 11-332; and

WHEREAS, based upon its review of all the submitted evidence, the Board finds that substantial construction was completed and that substantial expenditures were made since the issuance of the New Building Permits;

WHEREAS, therefore, the Board finds that the applicant has adequately satisfied all the requirements of ZR § 11-332, and that the owner is entitled to the requested reinstatement of the New Building Permits, and all other permits necessary to complete the proposed development; and

WHEREAS, accordingly, the Board, through this resolution, grants the owner of the site the requested two-year extension for completion of construction that is allowed under ZR § 11-332.

Therefore it is Resolved that this application made pursuant to ZR § 11-332 to renew New Building Permit Nos. 500416766-01-NB, 500416775-01-NB, 500416784-01-NB, 500416793-01-NB, 500416800-01-NB, 500416819-01-NB, 500416819-01-NB, 500416828-01-NB, 500416837-01-NB, 500416944-01-NB, 500416953-01-NB, 500416962-01-NB, 500416971-01-NB, 500416980-01-NB, 500416999-01-NB, 500416454-01-NB, 500416935-01-NB, 500416926-01-NB, 500416917-01-NB, 500416908-01-NB, 500416891-01-NB, 500416882-01-NB, 500416873-01-NB, 500416864-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete the proposed townhouse developments for one term of two years from the date of this resolution, to expire on May 16, 2008.

WHEREAS, by letter dated April 6, 2006, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated February 7, 2006, acting on Department of Buildings Application No. 402263135 is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received March 1, 2006”–(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other

jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 16, 2006.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated February 7, 2006, acting on Department of Buildings Application No. 402171804 reads, in pertinent part:

“A1 – The street giving access to the existing building to be altered is not duly placed on the map of the City of New York

a) A Certificate of Occupancy may not be issued as per Article 3, Section 36 of the General City Law

b) Existing dwelling to be altered does not have at least 8% of the total perimeter of the building fronting directly upon a legally mapped street or frontage space is contrary to Section 27-291 of the Administrative Code.”; and

WHEREAS, a public hearing was held on this application on May 16, 2006 after due notice by publication in the *City Record*, and then to decision on the same date; and

WHEREAS, by letter dated February 27, 2006, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens

MINUTES

Borough Commissioner, dated February 7, 2006, acting on Department of Buildings Application No. 402171804 is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received March 22, 2006"-(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 16, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated September 29, 2005, acting on Department of Buildings Application No. 301810100, reads, in pertinent part:

1. Increases the degree of non-compliance with respect to floor area ratio . . . contrary to Section 23-141 of the Zoning Resolution.
2. Creates a new non-compliance with respect to lot coverage and open space . . . contrary to Section 23-141 ZR.
3. Creates a new non-compliance with respect to rear yard and is contrary to Section 23-47 ZR.
4. Increases the degree of non-compliance of perimeter wall height . . . contrary to Section 23-631.”; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R3-1 zoning district, the legalization of a purported enlargement of a single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio (FAR), open space, lot coverage, perimeter wall height, and rear yard, contrary to ZR §§ 23-141, 23-631 and 23-47; and

WHEREAS, a public hearing was held on this application on March 7, 2006, after due notice by publication in *The City Record*, with a continued hearing on April 4, 2006, and then to decision on May 16, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan and Vice-Chair Babbar; and

WHEREAS, Community Board 15, Brooklyn, recommends disapproval of this application, because it is for a legalization; and

WHEREAS, the Manhattan Beach Community Group also appeared in opposition to this application; and

WHEREAS, the subject lot is located on the east side of Coleridge Street, 220 ft. south of Oriental Boulevard, in the Manhattan Beach neighborhood of Brooklyn; and

WHEREAS, the subject lot has a total lot area of 4,160 sq. ft.; and

WHEREAS, the applicant states that the lot is now

MINUTES

occupied by a two-story single-family dwelling, with an FAR of 1.02, open space of 2,440 sq. ft. (9.8% less than required), lot coverage of 1,720 sq. ft. (18.1% over the maximum), a perimeter wall height of 25 ft., and a rear yard of 23 ft.; and

WHEREAS, the Department of Buildings has ascertained, and the applicant concedes, that none of these bulk parameters comply with applicable R3-1 district regulations; and

WHEREAS, the applicant states that the home was constructed to said parameters without first obtaining a special permit from this Board; and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, however, the applicant has failed to convince the Board that the proposed legalization meets the parameters of the special permit; and

WHEREAS, specifically, the applicant did not adequately address the two following concerns, which were raised by the Board during the public hearing process: (1) whether the existing building reflects an actual enlargement of the prior building, or instead, is a new building; and (2) whether the existing perimeter wall height is allowed by the special permit; and

WHEREAS, as to the first issue, the Board notes that the text of ZR § 73-622 authorizes the Board to approve an enlargement of an existing building only; ground-up construction of a new non-complying building is not permitted; and

WHEREAS, the text repeatedly uses the word “enlargement”, which, pursuant to ZR § 12-10, is defined in part as “an addition to the floor area of an existing building”; and

WHEREAS, therefore, the Board takes the position that the special permit may not be used where there has been a complete demolition of the pre-existing building; and

WHEREAS, in the case of a legalization, the Board often questions the applicant about this issue, as the construction work has already taken place and the Board is unable to ascertain, through visual observation, that there is a pre-existing unenlarged home; and

WHEREAS, in the instant matter, the applicant claims that there was not a full demolition of the building, and points to the DOB Alteration Type II permit (No. 301421469) that was obtained in October 2002 for exterior masonry veneer and interior rehabilitation; and

WHEREAS, however, the applicant concedes that this permit did not cover what ultimately was constructed; in particular, the significant intrusion into the rear yard was built contrary to this permit; and

WHEREAS, the Board notes that DOB issued a stop work order as to the construction, because it was contrary to the approved plans; and

WHEREAS, accordingly, the Board does not consider the existence of this permit, the terms of which were violated, to be evidence that there was a pre-existing building that was enlarged; and

WHEREAS, the applicant also states that no violations

were issued for illegal demolition, which must mean that no demolition occurred; and

WHEREAS, again, the Board does not consider the absence of violations to be dispositive, as the Department of Buildings does not perform daily inspections of all permitted work; thus, demolition could have occurred notwithstanding the absence of violations; and

WHEREAS, in fact, the only record of a DOB inspection is the stop work order, issued in 2004, well after the Alteration Type II permit was obtained in 2002; and

WHEREAS, the Board notes that the applicant has submitted recently taken pictures of the existing building, and pictures of a building that occupied the site in the past, taken, according to the applicant, in the 1940s; and

WHEREAS, the Board has reviewed these pictures and notes that the existing building is noticeably different than the building that occupied the site in the 1940s; and

WHEREAS, thus, the applicant has not submitted into the record any firm evidence that the existing building is an enlargement of a prior building; and

WHEREAS, however, the applicant has submitted into the record evidence which suggests that the prior building and the existing building may not be the same building; and

WHEREAS, given the record before it, the Board is unable to conclude that the existing building is an enlargement of a prior building as opposed to a new building; and

WHEREAS, ZR § 73-622 does not authorize the Board to engage in speculation as to whether a home proposed to be legalized is an enlarged home; and

WHEREAS, instead, where a legalization is proposed, the applicant must convince the Board that the current home represents an enlargement of a prior home; and

WHEREAS, here, the applicant failed to meet this burden of proof; and

WHEREAS, accordingly, the subject special permit is not available to legalize the existing building; and

WHEREAS, the second issue is the perimeter wall height of the existing home; and

WHEREAS, the perimeter wall height of a home is the height of the street wall, as opposed to the total height of the building, which is typically measured at the top of the peaked roof for single-family homes; and

WHEREAS, in an R3-1 district, the maximum perimeter wall height is 21 ft.; the maximum total building height is 35 ft.; and

WHEREAS, the applicant’s most recent zoning analysis of the existing building lists the perimeter wall height at 25 ft., four ft. in excess of the maximum; and

WHEREAS, pursuant to ZR § 73-622(3), “an enlargement resulting in a non-complying perimeter wall height shall only be permitted where . . . the enlarged building is adjacent to a single or two family detached or semi-detached residence with an existing non-complying perimeter wall facing the street. The increased height of the perimeter wall of the enlarged building shall be equal to or less than the height of the adjacent building’s non-complying perimeter wall facing the street, measured at the lowest point

MINUTES

before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631(b), shall continue to apply.”; and

WHEREAS, one of the adjacent buildings has a perimeter wall height that is less than 25 ft. (specifically, the applicant admits in a submission dated April 27, 2006 that the perimeter wall height of the abutting building at 225 Coleridge Street is at 24’-3”, though in a submission dated September 23, 2005, he states that the height of the abutting building is at 24’-9”); and

WHEREAS, as noted above, DOB issued an objection to the applicant that states, in sum and substance, that the existing building as illegally built increases the degree of non-compliance of perimeter wall height contrary to Section 23-631; and

WHEREAS, the applicant initially did not contest the validity of this objection; and

WHEREAS, confronted with the fact that the perimeter wall height of 25 ft. was higher than the non-complying perimeter wall height of the neighboring home at 225 Coleridge Street (whether 24’-3” or 24’-9”), the applicant then proceeded to argue that the perimeter wall height of the existing building was in fact a pre-existing lawful non-complying condition that was merely maintained rather than increased; and

WHEREAS, the applicant contends that since the perimeter height was not increased, there is no need for the Board to legalize the perimeter wall height through the special permit; and

WHEREAS, however, the record contains the DOB approved plans for the Alteration Type II permit referenced above, which show the height of the perimeter wall existing prior to the commencement of construction as 21’-0”; and

WHEREAS, accordingly, the Board asked the applicant to explain how the 25 ft. perimeter wall could be a pre-existing lawful non-complying condition when the architect that signed and sealed the Alteration Type II plans indicated that the perimeter wall height existed at 21 ft.; and

WHEREAS, the applicant responded that the architect was in error, and that based upon his personal knowledge of the building when it was converted into a two-family dwelling in 1976 under DOB Alteration No. 689/76, the perimeter wall height was at 25 ft.; the applicant notes that he personally prepared the 1976 alteration application; and

WHEREAS, the applicant submitted the application forms for the 1976 alteration; these plans list the height of the building at that time at 25 ft.; and

WHEREAS, the Board notes that the 1976 alteration form does not specify that the 25 ft. height is a perimeter wall height as opposed to a total building height; and

WHEREAS, nonetheless, the applicant claims this listing is actually the perimeter wall height, and not the total building height; and

WHEREAS, the Board finds this explanation unconvincing: the Vice-Chair of the Board, both a registered architect and a former DOB Commissioner with broad knowledge of DOB practice and procedure, noted at hearing that the listing for building height on the form represented

total height, not perimeter wall height; and

WHEREAS, the Board asked the applicant to support his contention through the submission of an elevation or section related to the 1976 alteration that would show the perimeter wall height; and

WHEREAS, the applicant refused, stating that he only submitted a floor plan to DOB in 1976, and the floor plan did not show the perimeter wall height; and

WHEREAS, in the April 27, 2006 submission, the applicant cites to the 1940s-era photos, and states that based on his approximations of the height of the step risers, the floors, and the attic level as shown in the photos, the actual perimeter wall height might have been at least 23’-4”; and

WHEREAS, even if the Board accepted the applicant’s completely unsupported measurements, which are based on an entirely unacceptable methodology, by the applicant’s own admission, the perimeter wall height of the existing building, at 25 ft., is still approximately 1’-8” higher than the alleged pre-existing non-complying wall height, and therefore can not represent a continuation of a non-complying condition; and

WHEREAS, instead, it is still an increase in the non-complying condition; and

WHEREAS, for the reasons set forth above, the Board concludes that the existing building’s perimeter wall height represents an increase in the degree of non-compliance; and

WHEREAS, because the 25 ft. high perimeter wall exceeds the perimeter wall height of the neighboring building, this non-compliance cannot be remedied through the special permit; and

WHEREAS, accordingly, even assuming that the applicant had submitted sufficient evidence that the existing home is actually an enlargement of a prior home, the special permit would still not be available; and

WHEREAS, in conclusion, the Board finds that it is without authority to grant the requested special permit pursuant to ZR § 73-622; and

WHEREAS, as a final observation, the Board notes that this case was considerably compromised by the fact that the building owner did not first seek the special permit prior to commencing construction, as the significant evidentiary problems present in the case arose primarily from this failure.

Therefore it is Resolved that the determination of the Brooklyn Borough Commissioner, dated September 29, 2005, acting on Department of Buildings Application No. 301810100, is hereby upheld and that this application for a special permit pursuant to ZR § 73-622 is hereby denied.

Adopted by the Board of Standards and Appeals, May 16, 2006.

APPLICANT – Stroock & Stroock & Lavan, LLP, by Ross Moskowitz, Esq., for S. Squared, LLC, owner.

SUBJECT – Application December 21, 2004 – Under Z.R. §72-21 to permit the Proposed construction of a thirteen story, mixed use building, located in a C6-2A, TMU zoning

MINUTES

district, which does not comply with the zoning requirements for floor area, lot coverage, street walls, building height and tree planting, is contrary to Z.R. §111-104, §23-145, §35-24(c)(d) and §28-12.

PREMISES AFFECTED – 180 West Broadway, northwest corner, between Leonard and Worth Streets, Block 179, Lots 28 and 32, Borough of Manhattan.

COMMUNITY BOARD #1M

APPEARANCES –

For Applicant: Ross Moskowitz.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated December 9, 2004, acting on Department of Buildings Application No. 103938045, reads, in pertinent part:

“Proposed lot coverage of residential portion of the building exceeds allowable lot coverage, contrary to ZR 23-145”; and

WHEREAS, this is an application under Z.R. §72-21, to permit, on a site in a C6-2 zoning district within the Special Tribeca Mixed Use district - Area A-1 (“TMU”), a proposed eight story mixed-use residential/retail building, which does not comply with lot coverage, contrary to Z.R. §23-145; and

WHEREAS, the applicant proposes to construct an eight story plus penthouse residential/retail building, with ground floor retail and 16 residential units on the upper floors; and

WHEREAS, the proposed building will be constructed pursuant to the Quality Housing regulations set forth at Chapter 8, Article II of the ZR, and will have a complying Floor Area Ratio (FAR) of 5.0, a complying street wall height of 84’-7”, and a complying total height of 96’-7” (not including mechanicals) ; and

WHEREAS, the proposed lot coverage, however, is 100 percent, which exceeds the maximum lot coverage of 80 percent permitted by Z.R. §23-145 for a corner lot and the maximum of 70 percent for an interior lot; and

WHEREAS, the applicant initially proposed to construct a 13 story building with 39 residential units, a non-complying FAR of 7.11, a non-complying street wall height of 91’-3”, and a non-complying total height of 159’-11” (including mechanicals); the proposed building also did not comply with the Quality Housing street tree planting regulations; and

WHEREAS, the Board expressed concern about this proposal, noting that there did not appear to be any justification for an FAR waiver, and also that the proposed building was too large for the character of the community and did not represent the minimum variance; and

WHEREAS, the applicant submitted two intermediate proposals, both of which were also determined by the Board to reflect more than the minimum variance; and

WHEREAS, specifically, the second proposal was a twelve story building with 34 units, a non-complying FAR of 6.79, a non-complying street wall height of 101’-11”, and a non-complying total height of 149’-11” (including mechanicals); and

WHEREAS, the third proposal was an eleven story building with 30 units, a non-complying FAR of 6.28, a non-complying street wall height of 91’-3”, and a total height of 124’-7”; and

WHEREAS, neither of these intermediate proposals complied with the street tree planting requirement; and

WHEREAS, the applicant responded to the Board’s concerns about these two proposals by submitting the current version, as described above, which the Board finds acceptable in terms of impact and minimum variance; and

WHEREAS, the Board also observes that the applicant obtained a reconsideration from the Department of Buildings that eliminated the need for a street tree planting waiver; and

WHEREAS, a public hearing was held on this application on October 18, 2005 after due notice by publication in the *City Record*, with continued hearings on November 29, 2005, February 7, 2006, and March 7, 2006, and then to decision on April 25, 2006, on which date the decision was deferred to May 16, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin, and Commissioner Collins; and

WHEREAS, Community Board No. 1, Manhattan, recommends disapproval of the original version of this application, contending that the site does not suffer from a hardship; in particular, the Community Board alleged that the recent initiation of nearby complying development belies the claim of hardship; and

WHEREAS, certain neighbors to the premises also appeared in opposition to this application, alleging that the developer should have known about the alleged hardships in advance of purchasing the site; and

WHEREAS, the subject premises is situated at the southwest corner of West Broadway, between Leonard and Worth Streets, and consists of two contiguous tax lots (Lots 28 and 32), which have historically constituted one zoning lot; and

WHEREAS, the total lot area over the entire site is 16,179 sq. ft.; and

WHEREAS, the site is within a C6-2A zoning district, which is an R8A equivalent for residential use within the TMU district; and

WHEREAS, Lot 28 is improved upon with an existing public parking garage, containing 37,952 sq. ft. of floor area, which will be retained; and

WHEREAS, Lot 32 (the actual development site) is improved upon with an existing three-story commercial building, containing 10,651 sq. ft. of floor area, which is proposed to be demolished; and

WHEREAS, no accessory parking spaces are required or will be provided; and

MINUTES

WHEREAS, initially, the applicant stated that the following were unique physical conditions which, when considered in combination, create an unnecessary hardship in developing the site in compliance with the applicable regulations: (1) the site suffers from pre-existing poor soil conditions; (2) the soil is contaminated; (3) the site suffers from a high water table; (4) a subway tunnel is in close proximity to the site; and (5) the actual development site (Lot 32) is a shallow lot;; and

WHEREAS, as to the soil conditions, the applicant states that the soil consists of uncontrolled fill material underlain by soft peat, loose sandy clay, silty sand, and then bedrock at a depth of approximately 100 ft.; and

WHEREAS, the applicant states that a deep pile foundation system is required; and

WHEREAS, the applicant supported this statement with a letter prepared by its engineering consultant, which states that 76 foundation piles are required; and

WHEREAS, as to contamination, the applicant states that the premises contained an active automobile service station from approximately 1950 to 1985; and

WHEREAS, the applicant demonstrated that there were six 550 gallon gasoline storage tanks related to the service station use that resulted in soil contamination; and

WHEREAS, the applicant submitted a report from its environmental consultant detailing the degree of contamination and the costs associated with its remediation; and

WHEREAS, as to high water table, the applicant states that existing groundwater is measured at nine ft. below the surface; and

WHEREAS, the applicant states that the cellar floor and the grade walls must be designed to resist the hydrostatic uplift pressures from the water table, resulting in the need for a pressure mat; and

WHEREAS, finally, as to the subway tunnel, the applicant states that the No. 1 subway line runs below the site, and that the offset distance between the subway structure and the property line ranges from 2 ft. at the northeast corner of the site to 13 ft. at the southwest corner; and

WHEREAS, the applicant notes that due to the subway structure, piling for excavations needs to be installed with expensive cast-in-place drilled fractioned non-displacement piles in order to minimize settlement issues within the subway structure; this statement was supported by expert testimony from the project engineer; and

WHEREAS, at hearing, the Board requested that the applicant establish that such features were unique to the site, based upon a study of an expanded area surrounding the site; and

WHEREAS, the applicant responded by providing a study that compared the subject site to other properties within a 400 ft. radius; and

WHEREAS, this study showed that the subject site is the only site within this radius that is within both the limits of the former inland marsh area and the 50 ft. subway "influence zone" (where construction is constrained by New York City Transit

Authority regulations), and that also has significant unremediated environmental contamination; and

WHEREAS, the study included diagrams showing how these various factors differentially affected the subject site versus other properties; and

WHEREAS, based upon the above, the Board agrees that the specific combination of unique physical features, and the degree to which they impact complying development, is particular to the site; and

WHEREAS, the Board further agrees that the combination of features leads to premium construction costs; and

WHEREAS, as to the depth of Lot 32, the Board noted at the first hearing that while Lot 32 is shallow (having a depth of approximately 50 ft.), the zoning lot as a whole is not (the depth of the zoning lot is approximately 150 ft.); and

WHEREAS, the Board suggested to the applicant that it apply its analysis of unique hardship to the entire site and not a portion thereof; and

WHEREAS, the applicant agreed, and revised its uniqueness analysis to consider both the shallowness of the development portion of the zoning lot (Lot 32) and the retention of the existing garage on Lot 34; and

WHEREAS, the Board observes that the existing garage is a functioning, non-obsolete, lawfully non-conforming, revenue producing building that does not need to be demolished; and

WHEREAS, additionally, the applicant states that a scenario that includes the demolition of the garage would increase construction costs significantly, because of actual demolition costs and incremental costs related to environmental remediation on the garage site; and

WHEREAS, additionally, revenue from the garage would be lost during redevelopment; and

WHEREAS, the Board concludes that the retention of the garage is a rational development decision and is not a self-created hardship; and

WHEREAS, however, the garage does result in a further constraint on complying development, in that the remaining developable portion of the site is shallow; and

WHEREAS, the Board observes that without the requested lot coverage waiver, the resulting development on such a shallow site would be a taller, less efficient building, with a compromised floor plate that would not provide reasonable layouts for the residential units; and

WHEREAS, the lot coverage waiver allows for a far more efficient floor plate, which will increase revenue sufficiently to overcome the identified premium construction costs; and

WHEREAS, in sum, the Board finds that the need for a lot coverage waiver arises from the combination of premium costs and the constraints that retention of the existing garage places on the developable portion of the site; and

WHEREAS, accordingly, the Board finds that certain of the aforementioned unique physical conditions – namely, the site's soil, water table, contamination, and proximity to the subway - when considered in the aggregate and in conjunction with the existing built conditions on the zoning lot, create unnecessary hardship and practical difficulty in developing the

MINUTES

site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study analyzing: (1) a complying mixed-use building; (2) an office building; and (3) a hotel; and

WHEREAS, as noted above, the Board asked for a revised study based upon the entire zoning lot, since the failure to include the garage valuation in the overall site valuation skewed the outcome of the feasibility study; and

WHEREAS, in response, the applicant modified the feasibility study and analyzed a complying mixed-use building that took into account the correct site valuation for the entire zoning lot; and

WHEREAS, the applicant concluded on the basis of this revised study that this scenario would not realize a reasonable return; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the proposed building would contribute to an established pattern of commercial and residential land uses in the neighborhood, and would replace an existing three-story building with a building designed to better enliven the street presence fronting the site; and

WHEREAS, the applicant notes that the surrounding area includes numerous mixed-use residential/retail buildings, with ground floor retail; and

WHEREAS, the Board observes that the proposed uses are as of right; and

WHEREAS, the Board also observes that after reducing the size of the building and eliminating the FAR, total height, street wall height and street tree waiver requests, the building is fully compliant with zoning aside from the increase in lot coverage; and

WHEREAS, the Board finds that full lot coverage will not negatively affect the character of the community, nor will it impact the adjacent neighbors, particularly since the adjacent building is a parking garage on the same zoning lot as the proposed building; and

WHEREAS, even though the bulk of the building complies aside from lot coverage, the Board notes that the applicant submitted a survey showing the heights and FARs of buildings in the neighborhood, for both commercial and residential uses; and

WHEREAS, the Board observes that the proposed building is compatible in terms of height and FAR with many other residentially occupied buildings in the area, many of which are built to FARs of 6 or 7; and

WHEREAS, finally, the applicant notes that the retention

of the garage will negate any potential parking impacts, even though there is no accessory parking requirement for the proposed building; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the pre-existing unique physical conditions cited above; and

WHEREAS, in addition, as stated above, the Board does not regard the retention of the garage to be a self-created hardship; and

WHEREAS, in addition to the analyses of the conforming scenarios, the applicant also analyzed the proposal and concluded that it would realize a minimal return sufficient to overcome the site's inherent hardships; and

WHEREAS, the applicant further elaborated that the mixed use residential/retail building scenario was analyzed both with and without the impact of the existing garage and related operational costs, and in each case, the return was minimal; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. §72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA076M, dated September 23, 2005; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

WHEREAS, the Office of Environmental Planning and Assessment of the New York City Department of Environmental Protection (DEP) has reviewed the following submissions from the applicant: (1) an Environmental

MINUTES

Assessment Statement Form, dated December 2004; (2) an August 2004 Phase I Environmental Site Assessment Report and a Phase II Subsurface Investigation Report; and (3) April 2005 Draft Remedial Action Plan; and

WHEREAS, these submissions specifically examined the proposed action for potential hazardous materials, air quality and noise impacts; and

WHEREAS, a Restrictive Declaration was executed on May 8, 2006 and submitted for proof of recording on May 9, 2006, which requires that hazardous materials concerns be addressed; and

WHEREAS, DEP has determined that there would not be any impacts from the subject proposal, based on the implementation of the measures cited in the Restrictive Declaration and the Applicant's agreement to the conditions noted below; and

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under Z.R. §72-21 and grants a variance to permit, on a site in a C6-2(TMU) zoning district, a proposed eight story mixed-use residential/retail building, which does not comply with lot coverage, which is contrary to Z.R. §23-145, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received February 21, 2006"- (8) sheets; "Received March 21, 2006"-(8) sheets, and "Received March 22, 2006"-(1) sheet and *on further condition*: THAT the following are the bulk parameters of the building: eight stories plus a penthouse, 16 residential units, FAR of 5.0, a street wall height of 84'7", a total height of 96'-7, and a non-complying lot coverage of 100 percent;

THAT all rooftop mechanicals shall comply with applicable Building Code requirements, as reviewed and approved by the Department of Buildings;

THAT all Quality Housing regulations shall be complied with, as reviewed and approved by the Department of Buildings;

THAT prior to the issuance of any DOB permit for any work on the site that would result in soil disturbance (such as site preparation, grading or excavation), the applicant or any successor will perform all of the hazardous materials remedial measures and the construction health and safety measures as delineated in the Remedial Action Plan and the Construction Health and Safety Plan to the satisfaction of DEP and submit a written report that must be approved by DEP;

THAT no temporary or permanent Certificate of Occupancy shall be issued by DOB or accepted by the applicant or successor until the DEP shall have issued a Final Notice of Satisfaction or a Notice of No Objection indicating that the Remedial Action Plan and Health and Safety Plan has been completed to the satisfaction of DEP;

THAT this approval is limited to the relief granted by the

Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 16, 2006.

398-04-BZ

APPLICANT – Eric Palatnik, P.C., for Babavof Avi, owner. SUBJECT – Application December 23, 2004 – Under Special Permit Z.R. §73-622 – proposed legalization of an enlargement of a single family residence which causes non-compliance to Z.R. §23-14 for open space and floor area. The premise is located in R2 zoning district.

PREMISES AFFECTED – 2103 Avenue M, northeast corner of East 21st Street, Block 7639, Lot 9, Borough of Brooklyn.

COMMUNITY BOARD #14BK

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated December 2, 2004, acting on Department of Buildings Application No. 301065264, reads, in pertinent part:

“Proposed floor area is contrary to ZR 23-141;

Proposed open space ratio is contrary to ZR 23-141.”; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03 to permit, in an R2 zoning district, the proposed legalization of an enlargement to a single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio (FAR) and Open Space Ratio (OSR), contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on April 11, 2006, after due notice by publication in *The City Record*, with a continued hearing on May 9, 2006, and then to decision on May 16, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan and Commissioner Collins; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject lot is located on Avenue M at the northeast corner of Avenue M and East 21st Street; and

MINUTES

WHEREAS, the subject lot has a total lot area of 4,000 sq. ft., and, prior to the illegal enlargement, was occupied by a 1,994 sq. ft. (0.50 FAR) single family dwelling; and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, however, the applicant enlarged the previously existing home without first obtaining the special permit; and

WHEREAS, instead, the applicant represents that an alteration permit for an as of right enlargement was obtained from the Department of Buildings, and said permit allowed for the first floor to be exempt from floor area as it was occupied by a garage and recreation space; and

WHEREAS, however, the building, once enlarged, was occupied contrary to plans on the first floor, in that it was used for living spaces such as a family room and kitchen; in fact, the garage was used for a den; and

WHEREAS, further, the owner enclosed the second and third floor terraces by enclosing them with greenhouses; and

WHEREAS, these impermissible changes created significant non-compliances as to FAR and open space; and

WHEREAS, the owner was compelled to file for the subject legalization after the non-compliances were discovered; and

WHEREAS, upon initial filing, the applicant proposed to legalize the as-built enlargement without any modifications; and

WHEREAS, the floor area of the building as illegally enlarged is 4,927 sq. ft. (1.23 FAR); and

WHEREAS, the Board found that the building as enlarged was not compatible with the character of the neighborhood and was not in the spirit of the special permit, since it resulted in an oversized home relative to its neighbors and represented an extreme FAR increase over what is permitted as of right and what is usually granted by the Board through the special permit; and

WHEREAS, the Board notes that it typically grants 1.0 FAR in 0.5 FAR zoning districts; and

WHEREAS, the Board asked the applicant to eliminate excess floor area; in particular, the Board suggested that two greenhouses be removed, since they counted as zoning floor area; and

WHEREAS, at the Board's suggestion, the applicant removed the enclosed greenhouses on the second and third floors and revised the plans to reflect their removal; the applicant also provided photographs showing that the greenhouses have been removed; and

WHEREAS, however, the Board suggested a further reduction in floor area, since the elimination of the greenhouses reduced the FAR to a level still in excess of what the Board normally grants; and

WHEREAS, accordingly, the Board requested that the applicant eliminate additional excess floor area by removing the first floor family room and replacing it with a viable garage, since a garage would not count as floor area; and

WHEREAS, the applicant subsequently submitted plans showing that the family room will be replaced with a one-car

garage; and

WHEREAS, these modifications result in a dwelling with 4,067 sq. ft. (1.02 FAR); the maximum floor area permitted is 2,000 sq. ft. (0.50 FAR); and

WHEREAS, the existing OSR of 112 percent is unaltered by the modifications; the minimum required OSR is 150 percent; and

WHEREAS, the complying front yard of 15 feet, 4 inches (15 feet is required) and two complying side yards, one of 14 feet and one of 6.5 feet (side yards of 8 feet and 5 feet are required), have been maintained; no rear yard is required for this corner lot; and

WHEREAS, both the complying wall height of 19.5 feet and the non-complying total height of 29 feet, 1.5 inches have been maintained; and

WHEREAS, the Board finds that, subsequent to the significant floor area reductions, the enlargement neither alters the essential character of the surrounding neighborhood, nor impairs the future use and development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R2 zoning district, the proposed legalization of an enlargement, with modifications, to a single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio and Open Space Ratio, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received April 11, 2006"-(8) sheets and "Received May 9, 2006"-(1) sheet; and *on further condition*:

THAT a garage accommodating one car shall be maintained as reflected on the BSA-approved plans;

THAT the garage shall not be used for living purposes;

THAT the terraces may not be enclosed;

THAT the driveway in the northern side yard shall be kept free of encroachments or obstructions;

THAT the above conditions shall be listed on the certificate of occupancy

THAT the total FAR on the premises shall not exceed 1.02;

THAT a certificate of occupancy be obtained within one year from the date of this grant;

THAT no certificate of occupancy shall be issued unless a DOB inspection prior to issuance confirms that the greenhouses remained removed and the garage is actually

MINUTES

being used as a garage;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 16, 2006.

5-05-BZ

CEQR #05-BSA-081Q

APPLICANT – Sheldon Lobel, P.C., for S & J Real Estate, LLC, owner.

SUBJECT – Application January 14, 2005 – Under Z.R. §73-53 – to permit the enlargement of an existing non-conforming manufacturing building located within a district designated for residential use (R3-2). The application seeks to enlarge the subject contractor's establishment (Use Group 16) by 2,499.2 square feet.

PREMISES AFFECTED – 59-25 Fresh Meadow Lane, east side, between Horace Harding Expressway and 59th Avenue, Block 6887, Lot 24, Borough of Queens.

COMMUNITY BOARD #11Q

APPEARANCES –

For Applicant: Irving Minkin.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated August 9, 2005, acting on Department of Buildings Application No. 402067712, reads:

“Enlargement of the lawful existing non-conforming contractor's establishment is not permitted as of right per ZR 52-40.”; and

WHEREAS, this is an application made pursuant to Z.R. §§ 73-53 and 73-03, to allow, within an R3-2 zoning district, the proposed extension of a Use Group (“UG”) 16D Contractor's Establishment Storage and Offices, contrary to Z.R. §52-40; and

WHEREAS, a public hearing was held on this application on June 14, 2005 after due notice by publication in *The City Record*, with continued hearings and/or adjournments on July 26, 2006, September 20, 2005, November 29, 2005, January 10, 2006, March 7, 2006 and April 4, 2006, and then to decision on May 16, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the

Board, consisting of Chair Srinivasan and Vice-Chair Babbar; and

WHEREAS, Community Board 11, Queens, recommends disapproval of this application, because of concerns about traffic and impact on quality of life for the neighbors; and

WHEREAS, adjacent neighbors to the subject site appeared in opposition to the application, stating: (1) that the site no longer enjoyed non-conforming use status because the UG 16 use currently occupying the site is a different use than the UG 17 Soda Water Bottling and Soda Water Storage use authorized by the most recently issued certificate of occupancy (“CO”), and no CO for the UG 16 use was obtained, as required by the Building Code; and (2) that because no CO was obtained, the UG 16 use is not “lawfully located”, as required by Z.R. §73-53(a)(3); and

WHEREAS, the Board observes that these two threshold issues merit initial discussion; and

WHEREAS, as to the first issue, the opposition notes that Z.R. §52-61 provides, in sum and substance, that the lawful non-conforming status of a use is discontinued if the use lapses for a period of two years or more; and

WHEREAS, the opposition states that the failure to obtain a new CO in 1969, which is when the change in use from UG 17 to UG 16 occurred, constitutes a lapse of the non-conforming use; and

WHEREAS, however, the record contains a statement from the Department of Buildings dated October 27, 2005, which states that it does not consider the non-conforming use status of the site to have been discontinued; and

WHEREAS, DOB cites to an appellate court decision, *City of New York v. Victory Van Lines*, 69 A.D.2d 605 (2d Dep't 1979), which holds that the CO requirement, at least in the context of an analysis of whether non-conforming use status has lapsed, is merely a technical formality, and so long as the new use is permitted under the change of non-conforming use provisions in Article V of the Zoning Resolution, the non-conforming status of the site is maintained; and

WHEREAS, the Board agrees that this is the correct reading of the *Victory Van Lines* case, and concurs that the existing UG 16 use is permissibly occupying the site as non-conforming use; and

WHEREAS, as to the second issue, the opposition notes that one of the other prerequisites for the subject special permit is set forth at Z.R. §73-53(a)(3), which reads: “the use for which such special permit is being sought has been lawfully located on the zoning lot on which the expansion is to occur, or a portion thereof, for five years or more”; and

WHEREAS, the record reveals that the UG 16 storage use has existed on the site for over five years, having been first established in 1969, when the building was used for the storage of furniture; and

WHEREAS, however, the opposition states that the currently valid CO for the site is from 1956, and, as noted above, establishes the legal use of the premises as UG 17 soda water bottling and soda water storage; and

WHEREAS, while UG 16 storage was established on

MINUTES

the site sometime in 1969, the property owner failed to obtain a new CO, as required for the change in UG; and

WHEREAS, in a submission dated April 28, 2006, DOB states that the current occupancy is inconsistent with the last CO and is therefore illegal as per Section 27-217 of the Building Code, which provides, in pertinent part: “No change shall be made in the occupancy or use of an existing building which is inconsistent with the last issued certificate of occupancy for such building . . . unless a new certificate of occupancy is issued by the commissioner certifying that such building or part thereof conform to all of the applicable provisions of this code and all other applicable laws and regulations for the proposed new occupancy or use.”; and

WHEREAS, DOB asserts that a new CO was required in 1969 because of the change from UG 17 to UG 16; and

WHEREAS, the opposition argues, in sum and substance, that the phrase “lawfully located” as used in Z.R. § 73-53(a)(2) means that the use must be legal in all respects, and if a CO has not been obtained as required, then the use is not “lawfully located” notwithstanding the permissibility of the existing use under the Z.R.; and

WHEREAS, the Board agrees with DOB that a CO should be obtained and, in fact, as a condition of the grant made herein, requires that one be obtained for the subject use prior to issuance of any permit for the proposed enlargement; and

WHEREAS, however, the Board does not construe the phrase “lawfully located” in the same way as the opposition; and

WHEREAS, the Board finds that reading a requirement into this phrase that obtainment of a CO is absolutely necessary even where DOB has opined that for zoning purposes, the use is permissible as its non-conforming status has not lapsed, is contrary both to the principles underlying the holding of Victory Van Lines and to the purpose of the special permit; and

WHEREAS, the Victory Van Lines case established that for zoning purposes, the failure to obtain a CO is not tantamount to a discontinuance of a non-conforming use pursuant to Z.R. §53-32; and

WHEREAS, Z.R. §53-32 is a zoning provision, just as Z.R. §73-53 is a zoning provision; and

WHEREAS, it is reasonable, therefore, for the Board to conclude that a CO requirement for purposes of being lawfully located pursuant to Z.R. §73-53 would impose the same kind of unreasonably technical obstacle to use or development of one’s property as identified by the court in Victory Van Lines; and

WHEREAS, furthermore, the purpose of the special permit is to allow certain manufacturing uses that occupied floor area within a building as of 1987 the opportunity to enlarge without seeking a variance pursuant to Z.R. §72-21; and

WHEREAS, the Board notes that the UG 16 use has occupied floor area within the building since 1969, and therefore, whether a CO had been obtained or not, the enlargement of this use is consonant with the purpose of the special permit; and

WHEREAS, in sum, the Board construes the phrase “lawfully located” to mean permissible by zoning; and

WHEREAS, the Board observes that acceptance of the opposition’s argument would require the Board to conduct a full examination of the existing use and the site for not only zoning compliance, but also for compliance with Building Code, State Labor Law, and other legal requirements, perhaps even laws and regulations that do not relate to land use or building form; and

WHEREAS, the Board notes that this would be contrary to its usual practice: on all variance and special permit applications, the Board only reviews the particular zoning provision objected to by DOB; if a waiver or modification of that provision is granted, the resolution for the grant explicitly states that compliance with other applicable zoning provisions and other laws will be as reviewed and approved by DOB; and

WHEREAS, the Board notes that this interpretation is limited to the phrase “lawfully located” as used in Z.R. §73-53(a)(3), and should not be construed in any way as a limitation on DOB’s ability to enforce against a premises that does not have a proper CO, or as a limitation on DOB’s enforcement capabilities in general; and

WHEREAS, in conclusion, the Board finds neither of the arguments presented by the opposition to be persuasive; and

WHEREAS, the record indicates that the subject zoning lot is located on the east side of Fresh Meadow Lane, between Horace Harding Expressway and 59th Avenue, and is within an R3-2 zoning district; and

WHEREAS, the lot is 6,000 square feet and is improved upon with a 3,200-square-foot one-story building; and

WHEREAS, the applicant asserts that the 1952 building has been continuously occupied for storage use from the time it was built; and

WHEREAS, as noted above, the most recent CO was issued in 1956, and authorizes UG 17 Soda Water Bottling and Soda Water Storage; and

WHEREAS, the applicant states that from 1956 to 1969, the soda water and bottling company occupied the building; and

WHEREAS, subsequent to that, from 1969 until 2003, the prior business owner used the site and building for storage of furniture, a UG 16 storage use; and

WHEREAS, the current owner, who took possession of the site in 2003, also proposes to use the building primarily for storage, with two accessory offices; and

WHEREAS, the applicant proposes to enlarge the existing building by 2,499.2 square feet, in order to add storage and office space on the first and second floors; and

WHEREAS, as to the prerequisites, the applicant, through testimony and submission of supporting documentation, has demonstrated that: the premises is not subject to termination pursuant to Z.R. §52-70; the use for which the special permit is being sought has lawfully existed for more than five years; there has not been residential use on the site during the past five years; the subject building has not

MINUTES

received an enlargement pursuant to Z.R. §§11-412, 43-121 or 72-21; and that the subject use is listed in Use Group 16D, not Use Group 18; and

WHEREAS, in support of this demonstration, the applicant has submitted utility bills, a letter from the prior owner, and a history of the listing for storage in the Cole's Directory, starting with 1972; and

WHEREAS, the requested proposal is for an extension that results in less than 45% of the floor area occupied by the UG 16 use on December 17, 1987 and is less than a 2,500 square feet addition to the floor area occupied by such use on December 17, 1987, and does not exceed 10,000 square feet; and

WHEREAS, the applicant represents that the extension will be located in an entirely enclosed building, and that there will be no open uses of any kind; and

WHEREAS, the applicant represents, and the Board agrees, that that the requirements set forth at Z.R. §§73-53(b)(4),(5),(6),(7),(8), and (9) are either satisfied, or are inapplicable to the instant application; and

WHEREAS, at hearing, the Board expressed concern about potential parking impacts, the hours of operation of the storage facility, off-site accessory parking, the illegal presence of a towing company, and trailers that are present on the site; and

WHEREAS, as to potential parking impacts, the applicant states the number of employees at the premises will be a maximum of five or six at any one time, and their vehicles will be parked exclusively on the premises; and

WHEREAS, the applicant also states that there will be a total of approximately 20 deliveries to and from the site during the week, and that the delivery vehicle will be located entirely within the building during loading and unloading; and

WHEREAS, the applicant states that the following will be the hours of operation: 8 a.m. to 5 p.m. Monday through Friday and 8 a.m. to 1 p.m. on Saturday; the Board finds these hours acceptable; and

WHEREAS, the applicant states that the off-site accessory parking has been terminated; and

WHEREAS, the applicant also states that legal proceedings have begun against the towing company in order to evict it; and

WHEREAS, the applicant also states that all trailers will be removed from the site; and

WHEREAS, accordingly, the record indicates and the Board finds that the subject extension will not generate significant increases in vehicular or pedestrian traffic, nor cause congestion in the surrounding area, and that there is adequate parking for the vehicles generated by the enlargement, and that loading will be inside the building; and

WHEREAS, the Board notes that there are no required side yards; and

WHEREAS, as to the general impact on the essential character of the neighborhood and nearby conforming uses, the Board notes that along Fresh Meadow Lane, there are numerous non-residential uses, located on Lots, 6, 14, 18, 20, 22, 24, 28, 30, 38, 35, and 40; and

WHEREAS, the Board observes that a cemetery is located across the street from the site, and that two-story commercial buildings abut the site to the rear; and

WHEREAS, accordingly, in spite of its zoning classification, the neighborhood in which the site is located is characterized by a significant manufacturing and commercial presence; and

WHEREAS, accordingly, the Board finds that the proposed enlargement will not alter the essential character of the surrounding neighborhood nor will it impair the future use and development of the surrounding area; and

WHEREAS, although allegations were made about traffic impacts arising from the proposed enlargement, no evidence of such has been submitted to the Board; and

WHEREAS, further, the Board notes that the grant of the special permit is conditioned such that certain potential adverse effects are mitigated; and

WHEREAS, finally, the Board notes that the grant of the special permit will facilitate the enlargement of a viable UG 16 use, which provides jobs and tax revenue, on a site where such use is appropriate; and

WHEREAS, based upon the above, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use are outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, therefore, the Board determines that the evidence in the record supports the findings required to be made under Z.R. §§73-53 and 73-03.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type I Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under Z.R. §§73-53 and 73-03 for a special permit to allow, within an R3-2 zoning district, the proposed extension of Use Group 16D Contractor's Establishment Warehouse and Wholesale use, contrary to Z.R. §52-40, *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application marked "Received July 12, 2005"-(1) sheet and "Received April 4, 2005" -(5) sheets; and *on further condition*;

THAT the premises shall be maintained free of debris and graffiti;

THAT any graffiti located on the premises shall be removed within 48 hours;

THAT there shall be no open uses on the site;

THAT the hours of operation are: 8 a.m. to 5 p.m. Monday through Friday and 8 a.m. to 1 p.m. on Saturday;

THAT the offices shall be accessory to the storage facility only;

THAT the above conditions shall appear on any issued certificate of occupancy;

THAT all applicable fire safety measure will be complied with;

MINUTES

THAT within six months from the date of this grant, the owner of the premises shall have obtained a certificate of occupancy for the existing use;

THAT no building permit for the proposed enlargement shall be issued by the Department of Buildings unless and until a certificate of occupancy has been obtained within this six month period;

THAT prior to the issuance of any building permit for the enlargement of the facility, all trailers currently on the site shall be removed;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals May 16, 2006.

CEQR #05-BSA-110R

APPLICANT – Snyder & Snyder, LLP, for The Island Swim Club, Inc., Omnipoint Communications, Inc., lessee.

SUBJECT – Application March 29, 2005 – Under Z.R. §§73-30 and 22-21 – to permit the proposed construction of a non-accessory radio tower for public utility wireless communications (disguised as a 50-foot tall flagpole), located in an R3-2 zoning district.

PREMISES AFFECTED – 1089 Rockland Avenue, northeast side, between Borman and Shirra Avenues, Block 2000, Lot 7, Borough of Staten Island.

COMMUNITY BOARD #2SI

APPEARANCES –

For Applicant: Robert B.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner, dated March 21, 2005, acting on Department of Buildings Application No. 500668949, reads in pertinent part:

“Proposed monopole (Use Group 6) is contrary to NYC Department of Buildings Technical Policy and Procedure Notice 5/98 and therefore not allowable within R3-2 district . . . review pursuant to Section 73-30 of the NYC Zoning Resolution.”; and

WHEREAS, this is an application under Z.R. §§73-30 and 73-03, to permit the proposed construction of a non-accessory radio tower for public utility wireless

communications, within an R3-2 zoning district, which is contrary to Z.R. §22-00; and

WHEREAS, initially, in March 2005, the applicant submitted applications for two cell towers; and

WHEREAS, this first proposal was for a 50-foot monopole at the subject location that received support from the Community Board, and a second 50-foot monopole at 2018 Richmond Avenue which was not supported by the Community Board; and

WHEREAS, in response to community concerns, the applicant reviewed both applications and withdrew the Richmond Avenue plan, while revising the proposal for Rockland Avenue; and

WHEREAS, in order to compensate for the service that would have been covered by the second pole, and to satisfy the applicant’s service area needs, the remaining 50-foot pole was enlarged to 80 feet; and

WHEREAS a public hearing was held on this application on January 10, 2006, after due notice by publication in *The City Record*, to continued hearing on April 11, 2006, and then to decision on May 16, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board including Chair Srinivasan and Commissioner Collins; and

WHEREAS, Community Board 2, Staten Island, recommends disapproval of the subject application; and

WHEREAS, the president of the Mid-Island Political Association Committee (MIPAC) appeared in opposition to this application, citing concerns about the existence of other cell tower sites in the community, particularly those near schools; and

WHEREAS, the Board noted that the number of cell tower locations cited has been confused with the number of antennas and that because there are typically six to twelve antennas per site, the number of sites is actually much lower than what the opposition presented; and

WHEREAS, further, the Board noted that the applicant provided evidence that the proposed facility will comply with all applicable regulations pertaining to radio frequency emissions; and

WHEREAS, the subject premises is used as a private swim club, known as Island Swim Club, and has a lot size of approximately 324,309 sq. ft.; and

WHEREAS, initially, the applicant proposed to locate the cell tower towards the perimeter of the proposed site; and

WHEREAS, at hearing, the Board expressed concern about the location within the chosen site and asked the applicant to investigate other locations that would minimize the visual impact of the pole; and

WHEREAS, the applicant revised the plans and now proposes to locate the monopole in an area towards the center of the property; and

WHEREAS, the applicant states that the proposed telecommunications facility will consist of an 80-foot tall monopole, designed to resemble a flagpole, that will hide all six antennas and related cables; and

WHEREAS, pursuant to Z.R. §73-30, the Board may

MINUTES

grant a special permit for a non-accessory radio tower such as the cellular pole proposed, provided it finds “that the proposed location, design, and method of operation of such tower will not have a detrimental effect on the privacy, quiet, light and air of the neighborhood.”; and

WHEREAS, the applicant represents that the pole has been designed and sited to minimize adverse visual effects on the environment and adjacent residents; that the construction and operation of the pole will comply with all applicable laws; that no noise or smoke, odor or dust will be emitted; and that no adverse traffic impacts are anticipated; and

WHEREAS, the applicant also states that related equipment cabinets will be installed within a gated and locked fence enclosure, and notes further that the general public is not allowed on the club’s grounds; and

WHEREAS, the applicant further represents that the height is the minimum necessary to provide the required wireless coverage, and that the pole will not interfere with radio, television, telephone, or other uses; and

WHEREAS, at hearing, the Board asked the applicant if there were other potential sites for the cell tower such as the Springville Little League ballfield; and

WHEREAS, the applicant submitted evidence of communication with the Springville Little League showing that the organization is not presently able to lease space on its property; and

WHEREAS, in response to the Board’s suggestion, the proposed facility will be constructed to support the antennas of another wireless carrier in order to promote collocation and discourage the proliferation of additional sites; and

WHEREAS, based upon its review of evidence in the record, the Board finds that the proposed pole and related equipment will be located, designed, and operated so that there will be no detrimental effect on the privacy, quiet, light, and air of the neighborhood; and

WHEREAS, therefore, the Board finds that the subject application meets the findings set forth at Z.R. §73-30; and

WHEREAS, the Board further finds that the subject use will not alter the essential character of the surrounding neighborhood nor will it impair the future use and development of the surrounding area; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board finds that the application meets the general findings required for special permits set forth at Z.R. §73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA110R, dated

March 29, 2005; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable.

Therefore it is Resolved that the Board of Standards and Appeals issues an Unlisted Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes the required findings and *grants* a special permit under Z.R. §§73-03 and 73-30, to permit the proposed construction of a non-accessory radio tower for public utility wireless communications, within an R3-2 zoning district, which is contrary to Z.R. §22-00, *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application marked “Received March 27, 2006”–seven (7) sheets; and *on further condition*;

THAT any fencing and landscaping will be maintained in accordance with BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 16, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated January 11, 2006, acting on Department of Buildings Application No. 104063656, reads, in pertinent part:

“Contrary to section 32-31 a Physical Culture Establishment is not permitted in a C6-1 zone.”; and

WHEREAS, this is an application under Z.R. §§73-36 and 73-03, to permit, within a C6-1 zoning district, a proposed physical culture establishment (“PCE”) to be located in portions of the cellar and first floor of an existing eight-story mixed-use building, contrary to Z.R. §32-00; and

WHEREAS, a public hearing was held on this application on April 25, 2006, after due notice by publication in *The City Record*, and then to decision on May 16, 2006; and

WHEREAS, Community Board 3, Manhattan, recommends approval of this application; and

WHEREAS, the Fire Department has indicated to the Board that it has no objection to this application; and

WHEREAS, the applicant proposes to operate the facility as a Crunch gym; and

WHEREAS, the subject site is located at the northeast corner of Fourth Avenue and East 12th Street, and has a lot area of 13,830 square feet; and

WHEREAS, the proposed PCE will occupy 13,793 square feet in the cellar and 11,682 sq. ft. on the first floor; and

WHEREAS, the applicant represents that the PCE will provide classes, instruction, and programs for physical improvement, bodybuilding, weight reduction, and aerobics; and

WHEREAS, the PCE will have the following hours of operation: 5:00 A.M. to 11:00 P.M, weekdays and 7:30 A.M. to 9:00 P.M., weekends; and

WHEREAS, at hearing, the Board observed that there are residences above the location of the proposed PCE; and

WHEREAS, in response, the applicant represents that the recommendations of the acoustics consultants, pertaining to noise attenuation, have been incorporated into the PCE’s design; and

WHEREAS, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and

operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the proposed PCE does not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to Z.R. §§73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 06-BSA-027M, dated November 2, 2005, and

WHEREAS, the EAS documents show that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the operation of the PCE will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under Z.R. §§73-36 and 73-03, to permit, within a C6-1 zoning district, a proposed physical culture establishment to be located in portions of the cellar and first floor of an existing eight-story mixed-use building, contrary to Z.R. §32-00; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 9, 2006”-(3) sheets; and *on further condition*:

THAT the term of this grant shall be for ten years from the date of the grant, expiring on May 16, 2016;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to 5:00 A.M. to 11:00 P.M, weekdays and 7:30 A.M. to 9:00 P.M., weekends;

THAT the above conditions shall appear on the certificate of occupancy;

MINUTES

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT fire safety and sound attenuation measures shall be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 16, 2006.

APPLICANT – Eric Palatnik, P.C., for Congregation Lev Bais Yaakov, Inc., owner.

SUBJECT – Application November 25, 2005 – Under Z.R. §72-21 – To permit the proposed construction of a Yeshiva and is contrary to Z.R. Sections 33-121 (floor area) and 33-441 (front setbacks).

PREMISES AFFECTED – 3574 Nostrand Avenue, south side of Nostrand Avenue, north of Avenue W, Block 7386, Lot 131, Borough of Brooklyn.

COMMUNITY BOARD #14BK

APPEARANCES –

For Applicant: Eric Palatnik,.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 1, 2006, acting on Department of Buildings Application No. 301964890, reads, in pertinent part:

“1 - Proposed floor area is contrary to ZR § 33-121;

2 - Proposed front wall height and sky exposure plane is contrary to ZR § 33-431(a)”; and

WHEREAS, this is an application for a variance pursuant to Z.R. §72-21, to permit, on a site within an R4 (C1-2) zoning district, a proposed six-story plus cellar Use Group 3 yeshiva and use Group 4 synagogue, which does not comply with Floor Area Ratio (FAR), wall height, and sky exposure plane requirements for community facilities, contrary to Z.R. §§33-121 and 33-431; and

WHEREAS, a public hearing was held on this application on February 14, 2006, after due notice by publication in *The City Record*, with continued hearings on

April 4, 2006 and May 2, 2006, and then to decision on May 16, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin, and Commissioner Collins; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of the application; and

WHEREAS, at hearing and through submissions, neighbors of the site provided testimony in opposition to the proposed development citing concerns about the scale of the building and potential shadow impacts, the large number of students, the hours of operation, traffic, noise from the play area, and garbage; these concerns are addressed below; and

WHEREAS, this application is being prosecuted on behalf of the Congregation Lev Bais Yaakov, a non-profit religious entity (hereinafter, the “Yeshiva”); and

WHEREAS, the subject premises is located on the western side of Nostrand Avenue, north of the intersection of Avenue W, and is improved upon with several one-story buildings, which are proposed to be demolished; and

WHEREAS, the applicant proposes to construct a 68’-5” high building (35 feet is the maximum permitted), with 36,260.31 sq. ft. of floor area (21,000 sq. ft. is the maximum permitted); a FAR of 3.45 (2.0 FAR is permitted for a community facility), with Use Group (“UG”) 3 yeshiva use space on the cellar through sixth floors, and UG 4 synagogue space on the first floor; and

WHEREAS, the proposed building also violates the sky exposure plane regulation at the front of the building at the fourth, fifth and sixth floors; and

WHEREAS, the applicant also proposes to have one side yard of 8’-6” and one of 8’-2” (there is no side yard requirement); a 30 ft. rear yard after the permitted first floor obstruction up to 23 ft. in height (a 20 ft. rear yard is required); and three parking spaces (none are required); and

WHEREAS, the applicant initially proposed a building with a 20 ft. foot rear yard but, in response to neighbors’ concerns and at the Board’s suggestion, moved the building forward 10 feet on the lot, reducing the total floor area by approximately 600 square feet and leaving an open area of ten feet between the building and adjacent properties at the rear at the first floor level; and

WHEREAS, further, at the Board’s suggestion, the applicant reduced the height of each floor by 8 inches, resulting in a reduction of the overall height from 75 ft. to 68’-5”; and

WHEREAS, the Board also notes that some of this reduction was the result of a higher cellar level than initially proposed; the applicant modified the cellar level because of concerns about the high water table present at the site; and

WHEREAS, consequently, the configuration of the building will be as follows: the first floor will be set back 10’-0” from the rear lot line to a height of 13’-3”; the second through sixth floors will be set back six feet, six inches from the front lot line and 30 feet from the rear lot line; and the total height will be 68’-5”, exclusive of mechanicals; and

MINUTES

WHEREAS, the proposed building will contain 35 classrooms, administrative offices, a computer room, a science laboratory, a cafeteria and multi-purpose room, therapy rooms, counselor and teacher offices, and a play area to be located on the terrace at the second floor roof; and

WHEREAS, the applicant states that the following are the programmatic needs of the Yeshiva: (1) sufficient classroom and assembly space to accommodate all current and future students at one facility; and (2) a reasonably sized accessory synagogue; and

WHEREAS, as to the space needs, the applicant asserts that the Yeshiva's enrollment has increased significantly in recent years, requiring it to move five times within a nine-year period; currently, the school operates from two different facilities, with pre-school classes in one building and elementary classes in another; and

WHEREAS, the applicant asserts that having all of the classes of the Yeshiva centrally located in a single building will promote efficient use of its financial and administrative resources, and provide a superior religious educational atmosphere; and

WHEREAS, the proposed amount of classrooms (35) would accommodate the current enrollment of 312 students and allow for continued growth, including the establishment of high school grades; only 23 classrooms would be permitted as-of-right, which the Yeshiva states would not be sufficient; and

WHEREAS, the applicant cites to standards that establish the following standard space requirements for primary education facilities: 30 square feet for each younger student and 20 square feet for each older student; and

WHEREAS, the applicant submitted a tabular breakdown of the proposed rooms as to size and usage; and

WHEREAS, the Board accepts that having the various classes consolidated into one facility, with an accessory synagogue, and with space for establishment of a high school, is a legitimate programmatic need of the Yeshiva, based upon the cited efficiency and education goals; and

WHEREAS, the Board acknowledges that the Yeshiva, as a religious educational institution, is entitled to significant deference under the case law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in compliance with applicable regulations: the existing site does not provide the requisite amount of lot area to comply with applicable FAR requirements and still allow development of a building that would meet the programmatic needs of the Yeshiva; and

WHEREAS, specifically, the applicant states that the additional floor area is necessary to create a sufficient amount of class rooms and accessory spaces that will accommodate the combined student body; and

WHEREAS, the applicant further states that the required FAR can not be accommodated within the as of right height and sky exposure plane parameters, thus necessitating the requested

waivers of these provisions; and

WHEREAS, the applicant claims that a complying building would result in irregular floor plates at the upper floors because of the sky exposure plane requirement, which would compromise the ability of the Yeshiva to occupy the building in a manner that meets the programmatic needs; and

WHEREAS, the applicant argues that the requested height and sky exposure plane waivers would enable the Yeshiva to develop the site with a building with viable floor plates; and

WHEREAS, the applicant states that in addition to facilitating a uniform floor plate, the waivers also allow the Yeshiva to provide 30 ft. deep rear yard above the first floor and 10 ft. of rear yard at the first floor, in addition to the proposed side yards, all which mitigates any impact on the properties to the rear; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical condition, when considered in conjunction with the programmatic needs of the Yeshiva, creates unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant need not address Z.R. §72-21(b) since the Yeshiva is a not-for-profit organization and the proposed development will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant notes that the proposed use is permitted in the subject zoning district; and

WHEREAS, the applicant also notes that the site is on the side of the block with the commercial overlay and is between two-story and one-story commercial buildings and two-story residences to the rear of the site; and

WHEREAS, the applicant also notes that there is a seven-story housing development across the street; and

WHEREAS, as noted above, the rear neighbors expressed concerns about the potential shadow impact the proposed building might have; and

WHEREAS, at the Board's request, the applicant a submitted shadow study, which charts the effect of both an as-of-right development and the proposed development, based upon four times during the year; and

WHEREAS, the shadow study demonstrates that both the as-of-right and proposed developments would cast the rear adjoining properties in shade until 11 a.m. and the houses on the properties only until 9 A.M., and that the difference between the as of right and proposed development is negligible; and

WHEREAS, the rear neighbors allege that the shadow study is faulty because the rear yard of the proposed building is shown as 40 feet rather than 30 feet above the first floor; and

WHEREAS, in response, the applicant notes that there is a ten ft. setback from the rear lot line at the first floor and that it is not added to the 30 ft. setback provided at the upper floors; 30

MINUTES

ft. is the correct dimension the upper floor setback; and

WHEREAS, as to this setback, the Board observes that while the dimensions of the shadow study are difficult to read, it does appear that the 30 ft. setback is identified properly; and

WHEREAS, the Board also notes that the repositioning of the building towards the front lot line minimizes the impact of the proposed height and the shadow effect; and

WHEREAS, the rear neighbors also expressed concern about noise coming from the play area; and

WHEREAS, the applicant has agreed to limit the hours of play on the playground; and

WHEREAS, the hours will be: 8:30 A.M. through 4:30 P.M., Monday through Thursday and 8:30 am through 12:30 pm, Friday; and

WHEREAS, the Board notes that these hours are also the hours of operation for the Yeshiva; and

WHEREAS, at hearing, the Board also expressed concern about noise from the mechanicals, and suggested that the applicant locate the mechanicals to the top of the six story portion, away from the rear neighbors; the applicant subsequently submitted plans showing the mechanicals located on the top of the six-story portion; and

WHEREAS, additionally, the opposition expressed concern about potential traffic impact; and

WHEREAS, the applicant noted that the majority of students would arrive by school bus; and

WHEREAS, the applicant proposes to establish a designated bus loading zone; and

WHEREAS, the applicant also proposes to provide a shuttle bus for faculty members; and

WHEREAS, as to concern about increased garbage, the applicant notes that it will provide regularly scheduled garbage pick up and will maintain all garbage containers at the side of the building away from the residences at the rear; and

WHEREAS, the Board observes that aside from the height, sky exposure plane, and floor area waivers, the proposed bulk of the building and the uses therein are as of right; and

WHEREAS, the Board further observes that many mitigating measures have been incorporated into the design of the building that would not occur in an as of right scheme; and

WHEREAS, first, the Board observes that while religious schools, as a community facility use, are permitted to extend fully -into the rear yard to a height of 23 feet so long as there is only one story, the proposed building includes a 10 ft. setback from the rear lot line; and

WHEREAS, since the proposed building will be 13 feet, 3 inches high at the roof of the first floor, and sets back to 30 feet after that, no rear yard waiver is required; and

WHEREAS, further, the hours of the playground, the location of the mechanicals, and the shuttle bus service are all regulated per condition, and all of these mitigating measures would not be required in an as-of-right development; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding

neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet the programmatic needs of the Yeshiva could occur on the existing lot; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, after accepting guidance from the Board as to the design and location of the building and the necessary waivers, the applicant amended the proposal to the current version, which the Board finds to be the minimum necessary to afford the Yeshiva the relief needed to both meet its programmatic needs and to construct a building that is compatible with the character of the neighborhood; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under Z.R. §72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6 NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No.06BSA035K, dated January 9, 2006; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under Z.R. §72-21 and grants a variance to permit, on a site within an R4 (C1-2) zoning district, a proposed six-story plus cellar yeshiva and accessory synagogue, which does not comply with the floor area ratio,

MINUTES

wall height, and sky exposure plane requirements for community facilities, contrary to Z.R. §§33-121 and 33-431, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received May 12, 2006"–(15) sheets; and *on further condition*:

THAT any change in ownership, control or ownership of the building shall require the prior approval of the Board;

THAT the hours of the playground are limited to 8:30 A.M. through 4:30 P.M., Monday through Thursday and 8:30 A.M. through 12:30 P.M., Friday;

THAT the Yeshiva will provide a shuttle bus for faculty and members to and from the site for so long as it occupies the subject site;

THAT there shall be no use of the rear setback area as a playground for students;

THAT the rear setback area shall be kept clean, and free and clear of debris and garbage;

THAT all fencing in the rear yard shall comply with Building Code regulations;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT the building mechanicals will be located on the portion of the building that rises to 68 feet, 5 inches, as indicated on the BSA-approved plans;

THAT roof-top mechanicals shall comply with all applicable Building Code and other legal requirements, as reviewed and approved by the Department of Buildings; and

THAT the following shall be the parameters of the proposed building: six stories plus a cellar, a community facility and total FAR of 3.45; lot coverage of 57.8 percent; a street wall height of 68 feet, 5 inches; and side and rear yards as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 16, 2006.

146-04-BZ

APPLICANT – Joseph Margolis for Jon Wong, Owner.
SUBJECT – Application April 5, 2006 – Pursuant to Z.R. §72-21 – to allow the residential conversion of an existing manufacturing building located in an M3-1 district; contrary to Z.R. §42-00.

MINUTES

**REGULAR MEETING
TUESDAY MORNING, JUNE 6, 2006
10:00 A.M.**

Present: Chair Srinivasan, Vice Chair Babbar,
Commissioner Chin and Commissioner Collins.

The motion is to approve the minutes of regular meetings of the Board held on Tuesday morning and afternoon, March 28, 2006 as printed in the bulletin of April 6, 2006, Volume 91, Nos. 13 & 14. If there be no objection, it is so ordered.

SPECIAL ORDER CALENDAR

32-38-BZ

APPLICANT – Steven M. Sinacori, Esq., for 88 Third Avenue Associates, owner.

SUBJECT – Application March 21, 2006 – Reopening for an amendment to the resolution to eliminate the twenty year (20) term for the change in occupancy from Manufacturing (UG17) to Office (UG6) in a four story and cellar building located in an R-6 zoning district, as adopted by the Board of Standards and Appeals on March 16, 1993.

PREMISES AFFECTED – 88 Third Avenue, west side of Third Avenue, between Bergen and Dean Streets, Block 197, Lot 28, Borough of Brooklyn.

COMMUNITY BOARD #2BK

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an amendment to eliminate the term of a previously granted variance; and

WHEREAS, a public hearing was held on this application on May 9, 2006, after due notice by publication in *The City Record*, and then to decision on June 6, 2006; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, the subject premises is located on the west side of Third Avenue between Bergen and Dean Streets; and

WHEREAS, the lot is located within an R6 zoning district, and is surrounded primarily by residential uses, there are also some manufacturing uses in the vicinity; and

WHEREAS, the lot area is approximately 43,500 sq. ft. and is improved upon with an approximately 98,000 sq. ft., four-story building; and

WHEREAS, in 1938, the Board granted an application under the referenced calendar number to permit use of the site as a milk plant; and

WHEREAS, subsequently, in 1961, the Board approved a change of use in a portion of the building from milk plant to UG 17 manufacturing use; and

WHEREAS, most recently, on March 19, 1993, the Board, pursuant to ZR § 11-413, authorized a change of the UG 17 manufacturing use to UG 6 office use; and

WHEREAS, the term of the authorization was limited to 20 years, to expire on March 19, 2013; and

WHEREAS, the application is brought on behalf of the New York City Human Resources Administration (HRA); and

WHEREAS, HRA occupies the first and second floors of the building and the third and fourth floors are currently vacant; and

WHEREAS, HRA intends to expand its operations to the third and fourth floors, which requires extensive renovations including the installation of an HVAC system, computer wiring, and new bathrooms; and

WHEREAS, HRA asserts that it has already invested more than \$6.5 million for renovations and plans to contribute another \$1 million; and

WHEREAS, HRA represents that its lender requires that there be no term limit on the authorization, in order to secure funding for the renovations; and

WHEREAS, the Board notes HRA's long-term commitment to the building; and

WHEREAS, upon review, the Board finds the requested elimination of the twenty-year term appropriate, provided that there is compliance with the conditions set forth below and in the prior resolutions.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated March 19, 1993, so that as amended this portion of the resolution shall read: "to eliminate the term of the previously granted change of use; *on condition*:

THAT any change in ownership or occupancy of the subject building shall require the prior approval of the Board;

THAT the above condition shall appear on the Certificate of Occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted." (Alt. No. 300349825)

Adopted by the Board of Standards and Appeals, June 6, 2006.

295-77-BZ

MINUTES

APPLICANT – Walter T. Gorman, P.E., for Alfred M. Lama, Barnik Associates LLC, owner; Exxon Mobil, lessee.

SUBJECT – Application September 27, 2005 – Reopening for extension of term/waiver of a variance Z.R. §72-21 for the continued use of a gasoline service station which expired on October 1, 2003 for an additional ten (10) years; and an amendment to legalize the conversion of a portion of the service building from office/sales and attendant’s area to an accessory convenience store, the erection of a trash enclosure, air pump tower and car vacuum, a public telephone and wooden planter boxes. The premise is located in an C1-2 in R4 zoning district.

PREMISES AFFECTED – 87-10 Northern Boulevard, southside blockfront between 87th and 88th Street, Block 1435, Lot 1, Borough of Queens.

COMMUNITY BOARD #3Q

APPEARANCES –

For Applicant: Walter T. Gorman.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening, an amendment to the previously granted variance, and an extension of term; and

WHEREAS, a public hearing was held on this application on April, 4, 2006, after due notice by publication in *The City Record*, with continued hearing on May 16, 2006, and then to decision on June 6, 2006; and

WHEREAS, Community Board 3, Queens, recommends approval of this application on condition that fencing and planting improvements are implemented and that the restrooms be made handicapped accessible; and

WHEREAS, the premises is located on the south side of Northern Boulevard between 87th and 88th Streets; and

WHEREAS, the site is located within an R4 (C1-2) zoning district and is improved upon with a gasoline service station; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 1, 1957 when, under BSA Cal. No. 395-39-BZ, Vol. II, the Board granted an application for a gasoline service station; and

WHEREAS, subsequently, on December 5, 1989, under the subject calendar number and, the Board granted an amendment to permit a re-design of the service station; and

WHEREAS, most recently, on November 23, 1993, the Board granted an extension of term of the 1989 grant, to expire on October 1, 2003; and

WHEREAS, the applicant now seeks an extension of term for ten years; and

WHEREAS, in addition to a new extension of term, the applicant requests an amendment to legalize the conversion of a portion of the service building from office/sales use to an accessory convenience store; the erection of a trash enclosure;

the installation of an air tower and car vacuum in front of the service building; the installation of a public telephone along the westerly lot line; and the installation of wooden planter boxes; and

WHEREAS, at hearing, the Board asked the applicant to investigate the possibility of designing a handicapped accessible restroom; and

WHEREAS, at the Board’s suggestion, the applicant proposed a larger restroom that could provide better maneuverability; and

WHEREAS, the applicant also revised the site plans to include six ft. tall opaque fencing with slats to provide screening for the adjacent neighbors; and

WHEREAS, additionally, the applicant proposes to remove enough accessory parking spaces to provide two handicapped accessible parking spaces; and

WHEREAS, accordingly, based upon the submitted evidence, the Board finds the requested extension of term and the legalization of the convenience store appropriate, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals waives the Rules of Practice and Procedure and *reopens and amends* the resolution, as adopted on December 5, 1989, as subsequently extended, so that as amended this portion of the resolution shall read: “to legalize the conversion of a portion of the service building from office/sales use to an accessory convenience store; the erection of a trash enclosure; the installation of an air tower and car vacuum in front of the service building; the installation of a public telephone along the westerly lot line; and the installation of wooden planter boxes; and to extend the term of ten years from October 1, 2003 to expire on October 1, 2013, *on condition* that the use shall substantially conform to drawings as filed with this application, marked ‘Received May 1, 2006’–(6) sheets; and *on further condition*:

THAT the term of this grant shall be for ten years, to expire on October 1, 2013;

THAT the above condition shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT DOB shall review and approve the layout of the onsite parking;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

(DOB Application No. 402212191)

Adopted by the Board of Standards and Appeals, June 6, 2006.

APPLICANT – Petraro & Jones, for Cotaldo Vasapolli, owner.

SUBJECT – Application January 15, 2004 – Reopening for an extension of term of a variance for a commercial vehicle storage establishment in an R4 zoning district. The term expired on March 27, 2002. The application also seeks a waiver of the Board’s rules of practice and procedure for an extension of term application filed more than one year, but less than two years, following expiration of the term. The premise is located in an R4 zoning district.

PREMISES AFFECTED – 901/903 Pine Street, west side of Pine Street 250 feet north of intersection of Pine Street and Cozine Avenue. Block 4547, Lot 49 (formerly 49/50), Borough of Brooklyn.

COMMUNITY BOARD #5BK

APPEARANCES –

For Applicant: Steven Simicich.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening, and an extension of term of a previously granted variance; and

WHEREAS, a public hearing was held on this application on April 4, 2006, after due notice by publication in *The City Record*, with continued hearing on May 16, 2006, and then to decision on June 6, 2006; and

WHEREAS, a committee of the Board conducted a site visit of the subject premises; and

WHEREAS, Community Board 5, Brooklyn, recommends disapproval of this application; and

WHEREAS, the premises is a 4,000 sq. ft. lot located on the west side of Pine Street, 250 ft. north of the intersection of Pine Street and Cozine Avenue; and

WHEREAS, the site is located within an R4 zoning district and is improved upon with a 4,000 sq. ft., one-story masonry building occupied as a commercial vehicle storage establishment for a contractor; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 27, 1978, when, under the subject calendar number, the Board granted a variance for the vehicle storage establishment with a 15-year term; this term expired on March 27, 1994; and

WHEREAS, on March 19, 1996, the Board granted an extension of term for only three years, to expire on March 27, 1997; and

WHEREAS, further, the grant also provided that no waiver of the Board’s Rules of Practice and Procedure would be available to extend the time to seek a new extension of term; and

WHEREAS, the resolution for this extension of term indicates that evidence was presented to the Board concerning a

lack of compliance with the prior resolution, including improper usage of the site, significant truck traffic, and impermissible fuel pumps; and

WHEREAS, on October 28, 1997, the Board again extended the term for a period of five years, to expire on March 27, 2002, and the resolution included the same condition that no waiver of the Board’s Rules would be available; and

WHEREAS, the applicant is now before the Board for an additional five year term, and represents that the terms and conditions of prior resolutions have been complied with, including that the vehicle storage will be restricted to the contractor’s establishment; and

WHEREAS, the applicant represents that this will be the last application for an extension of term, as the business at the site will be closing; and

WHEREAS, as noted above, the Board conducted a site visit and did not observe any objectionable effects from the establishment, though it did appear that new residential development was occurring on the subject block; and

WHEREAS, since the Board observed significant conforming development in the immediate vicinity, the Board concludes that any extension of the term of this grant should be limited to a single term; this will allow the site to be developed residentially and will also minimize any impact on the character of the community, which is becoming predominantly residential; and

WHEREAS, accordingly, based upon the submitted evidence and its site visit, the Board finds the requested extension appropriate to grant for a single, non-renewable term of five years, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals waives the Rules of Practice and Procedure and *reopens and amends* the resolution, as adopted on March 27, 1978, as subsequently extended, so that as amended this portion of the resolution shall read: “to extend the term for five years from June 6, 2006, *on condition* that the use shall substantially conform to drawings as filed with this application, marked ‘Received January 15, 2006’-(2) sheets and ‘April 12, 2006’-(1) sheet; and *on further condition*:

THAT the term of this grant shall be for five years from the last expiration date, to expire on June 6, 2011;

THAT upon expiration of the term, the premises shall only be used for conforming uses;

THAT the above condition shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect and shall be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a re-opening and an extension of term of a previously granted special permit for an eating and drinking establishment; and

WHEREAS, a public hearing was held on this application on May 9, 2006, after due notice by publication in *The City Record*, and then to decision on June 6, 2006; and

WHEREAS, a committee of the Board, consisting of Chair Srinivasan and Vice-Chair Babbar, conducted a site visit of the subject premises; and

WHEREAS, Community Board 3, Staten Island, recommends approval of this application; and

WHEREAS, the premises is a 10,400 sq. ft. lot located at the intersection of Mansion and McKeon Avenues; and

WHEREAS, the site is located within a C3A zoning district, within the Special South Richmond district (SSRD), and is improved upon with a 4,270 sq. ft. two-story building occupied as an eating and drinking establishment doing business as the Marina Grande (the “Restaurant”); and

WHEREAS, the Restaurant has two dining rooms and a clam bar, with a total occupancy of 244 persons, as well as a 5,210 sq. ft. outdoor attended parking area for 28 cars; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 4, 1984, when, under BSA Cal. No. 826-84, the Board granted a special permit under ZR § 73-242 for an eating and drinking establishment for a term of five years; this term expired on April 2, 1990; and

WHEREAS, on March 5, 1996, under the subject calendar number, the Board granted a reinstatement of the lapsed special permit, and extended the term for an additional five years to expire on March 5, 2001; this grant was extended again for five years on December 4, 2001, expiring on March 5, 2006; and

WHEREAS, the Restaurant is now before the Board for an additional five year term; and

WHEREAS, at hearing, the Board asked about compliance with certain conditions indicated on the previously approved site plan, specifically: (1) whether a “no left turn” sign was placed at the exit from the Restaurant’s accessory parking lot, as required; and (2) whether a storage container in the parking lot, which was not part of the approved site plan, had been removed; and

WHEREAS, in response, the applicant provided a picture of the sign, and a picture of the parking lot showing that the container had been removed; and

WHEREAS, at hearing, the Board also asked whether perpendicular parking was allowed on Mansion Avenue; and

WHEREAS, the applicant responded perpendicular parking on Mansion Avenue near the premises had been allowed since 1992 and that DOT was in the process of placing signage allowing such perpendicular parking, and submitted a work order from DOT for such signage; and

WHEREAS, accordingly, based upon the submitted evidence, the Board finds the requested extension appropriate to grant, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens and amends* the resolution, as adopted on March 5, 1996, as subsequently extended, so that as amended this portion of the resolution shall read: “to extend the term of the special permit for an eating and drinking establishment for five years from March 5, 2006, *on condition* that the use shall substantially conform to drawings as filed with this application, marked ‘Received May 23, 2006’–(3) sheets and ‘June 6, 2006’– (1) sheet; and *on further condition*:

THAT the term of this grant shall be for five years from the last expiration date, to expire on March 5, 2011;

THAT the hours of operation shall be from 8 a.m. to midnight Sunday through Thursday, and 8 a.m. to 2 a.m. Friday and Saturday;

THAT the accessory parking area shall be attended;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect and shall be listed on the certificate of occupancy;

THAT the layout of the parking area shall be as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated November 23, 2004, acting on Department of Buildings Application Nos. 401994277 and 401994286 reads, in pertinent part:

“Building contrary to GCL 35.”; and

WHEREAS, a public hearing was held on this application on June 6, 2006, after due notice by publication in the *City Record*, and then to closure and decision on this same date; and

WHEREAS, by letter dated January 27, 2005, the Fire Department states that it has reviewed the above project and has no objections; and

WHEREAS, by letter dated February 23, 2006, the Department of Environmental Protection has reviewed the above project and has no objections; and

WHEREAS, by letter dated April 11, 2006, the Department of Transportation has reviewed the above project and has no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, dated November 23, 2004, acting on Department of Buildings Application Nos. 401994277 and 401994286, is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed

with the application marked “Received June 6, 2006”- (1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 6, 2006.

Negative: Chair Srinivasan, Commissioner Chin and Commissioner Collins.....3

THE RESOLUTION–

WHEREAS, the instant appeal comes before the Board in response to a final determination of the Manhattan Borough Commissioner, dated June 15, 2005 (the “Final Determination”), issued as to a structure that the Department of Buildings (“DOB”) deemed to be unsafe and as to DOB Permit No. 103981318 (the “Permit”), under which part of this structure was built; and

WHEREAS, the Final Determination reads, in pertinent part: “This is to set forth the Department’s final determination, pursuant to the April 8, 2005 stipulation in Rupp v. NYC Department of Buildings (the “Stipulation”) for purposes of appeal to the Board of Standards and Appeals (“BSA”). The referenced application and this determination concern construction of a brick and masonry wall (the “Wall”) that rises to a height of approximately 60 feet above the roof of the second story of the Premises.

MINUTES

By letter dated February 15, 2005, the Department set forth objections to the structural adequacy or reliability of the Wall and issued a Stop Work Order. On February 18, 2005 the Department issued an Emergency Declaration directing that the Wall be demolished. Following the commencement of an Article 78 proceeding challenging the Emergency Declaration and the issuance of a temporary restraining order on February 28, 2005 prohibiting the Department from demolishing the Wall or from otherwise interfering with Mr. Rupp's enjoyment of the Premises, Mr. Rupp's representatives and the Department have had interaction pursuant to the terms of the Stipulation regarding temporary measures to shore the Wall pending appeal to the BSA.

As of this date, the Department has accepted from Louis Silbert, P.E. submissions indicating that the Wall has been temporarily stabilized by means of temporary construction. However, Mr., Silbert's submissions failed to show that the Wall, as constructed, has been engineered or otherwise designed and built in accordance with the Building Code. Specifically, there is insufficient evidence that the Wall as designed and built has adequate lateral support. While Mr. Silbert has submitted sketches and calculations purporting to demonstrate otherwise, these submissions are not based on the as-built construction nor on the construction proposed in the original submission and accordingly have not undergone technical review. Because construction of the Wall is questionable, pursuant to the provisions of Administrative Code §27-597, it must be demolished.

Apart from the deficiencies detailed above, the Wall is too high. If and when the Wall is proposed to be constructed in a manner that accords with Code and with proper engineering practices, consistent with §27-509, it will only be allowed to a height of six feet above the roof of the second story portion of the building. This is the Department's final determination.”; and

WHEREAS, appellant is the owner of the subject premises and was represented by counsel; and

WHEREAS, DOB and the owner of the adjacent building at 23 Beekman Place also appeared and gave testimony as to the instant appeal; and

WHEREAS, a public hearing was held on this application on December 6, 2005 after due notice by publication in *The City Record*, with continued hearings on February 7, 2006, April 4, 2006, and then to decision on June 6, 2006; and

WHEREAS, the premises had a site inspection conducted by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioners Chin and Collins; and

WHEREAS, the premises is located within an R8B zoning district and is occupied by a two and five-story townhouse building (the “19 Beekman Building”); the two-story portion is at the rear of the site and the five-story portion is near the Beekman Place street line; and

WHEREAS, 23 Beekman, the adjacent premises, is occupied by a nine-story multiple dwelling (the “23 Beekman Building”); and

WHEREAS, the lot line between 19 and 23 Beekman contains a party wall, which, as set forth on a plan submitted by appellant, extends the length of the five-story portion of the 19

Beekman Building, for approximately 42 ft.; and

WHEREAS, as noted in the Final Determination, this appeal arises from DOB’s revocation of the Permit and its determination that the structure constructed under the Permit (the “New Structure”), as well as the previously existing structure on top of which the new structure was built (the “Existing Structure”), is unsafe and needs to be demolished (the New and Existing Structures are hereinafter collectively referred to as the “Structure”); and

WHEREAS, the Board notes that the Existing Structure is an eight inch thick masonry vertical extension added to the roof of the two story section of the 19 Beekman Building; it rises to a height of 15’-0” at approximately 22’-8” from the street line, then sets back 9’-6” and rises another 11’-6” to a total height of 26’-6”;

WHEREAS, at hearing, the Board questioned how the Existing Structure was constructed; and

WHEREAS, in response, appellant provided copies of plans professionally certified under DOB Application No. 102597799; and

WHEREAS, Application No. 102597799 was for an alteration permit; the job description, as set forth in DOB’s Building Information System, reads: “New exterior balcony to be stucco over steel structure; New ceramic tile roof surface to replace existing; Extend metal roof structure”; and

WHEREAS, Plan Sheet A11 for this application, submitted by appellant, includes the following notation “New brick wall to be brick both sides with case limestone cap”; and

WHEREAS, however, the height dimension for the “new brick wall” appears to be 33’-0”, whereas the Existing Structure is 26’-6” high; and

WHEREAS, while the Final Determination does not reference the permit that was issued through professional certification under DOB Job No. 102597799, it does address the Existing Structure, purportedly constructed under it; and

WHEREAS, the Board notes that the Existing Structure, since it is built on top of the two-story section of the 19 Beekman Building, is not adjacent or attached to the party wall between the 19 Beekman Building and the 23 Beekman Building; and

WHEREAS, the Permit was sought to allow the construction of the New Structure, the 33’-6” high, eight inch thick masonry addition to the Existing Structure; and

WHEREAS, the Permit was initially applied for on November 29, 2004 and was obtained on December 1, 2004; and

WHEREAS, like the Existing Structure, the New Structure is also not adjacent or attached to the party wall; and

WHEREAS, as indicated on the DOB’s Business Information System, the Permit was obtained under Directive 14 of DOB’s procedures, which provides for a limited review of plans and application materials; the examination is limited to zoning compliance only; and

WHEREAS, the job description in the Permit application reads: “Installation of brick veneer on party wall at roof level. No changes to uses, egress or occupancy.”; and

MINUTES

WHEREAS, as indicated on the plan submitted with the Permit application, the scope of work included the installation of a new four inch brick veneer on the existing party wall above the roof level of the five-story section of the 19 Beekman Building, and a new extension of the Existing Structure, located on the roof level of the two-story section of the 19 Beekman Building; and

WHEREAS, the Board observes that both the Permit application and an "Additional Information" Form, dated January 27, 2005, submitted by the 19 Beekman project engineer, indicate that the scope of work is limited to installation of brick veneers, and that any free-standing wall would be anchored to the party wall; and

WHEREAS, the applicant states that construction under the Permit began shortly after its issuance, and the New Structure was fully built in late December 2004; and WHEREAS, in December of 2004, DOB initiated an audit of this construction and the Permit and sent a notice to the project engineer on January 3, 2005, indicating its intent to revoke the Permit in ten days unless additional information as to the Permit was submitted; and

WHEREAS, on January 11, 2005, the engineer responded to DOB; and

WHEREAS, after further communication between DOB and the engineer, DOB approved revised plans on or about January 28, 2005 and indicated on them "audit accepted"; and

WHEREAS, DOB raised two new objections in a notice dated February 1, 2005; this notice states that DOB discovered records indicating different field conditions than what was shown on the revised plans, and requested clarification of the anchoring system for the New Structure; the notice also requested that the applicant provide "structural details of 30 feet high free standing masonry wall" and advised that "masonry/reinforced masonry controlled inspections are required"; and

WHEREAS, subsequently, in a letter dated February 15, the Manhattan Borough Commissioner notified appellant and the project engineer that field inspections had raised questions about the structural stability of the New Structure, and that its compliance with the Building Code had not been resolved; the letter stopped all work at the premises and requested that appellant and the engineer meet with the Borough Commissioner by February 17, 2005; and

WHEREAS, the February 15 letter indicates that that DOB had significant issues with the proposed anchor system that would allegedly connect the New Structure with the adjacent wall; and

WHEREAS, in particular, point 3 of the February 15 letter states that a DOB inspection did not reveal steel angles needed to transfer loads, as shown on the revised plans; point 8 indicates that DOB questioned whether the angles, even if installed, would comply with Building Code anchorage requirements for veneers; and

WHEREAS, thus, DOB responded to an apparent discrepancy between what is shown on the plans and was ultimately constructed versus what was represented to DOB by the project engineer in the application and the "Additional Information"

form, insofar as the New Structure was not comparable to a veneer since it was not adjacent to a party wall and appeared to have been constructed contrary to approved plans and the Building Code; and

WHEREAS, on February 18, 2005, the Borough Commissioner issued a declaration that the Structure was unsafe and needed to be repaired or demolished immediately; and

WHEREAS, also on this date, the Borough Commissioner permitted the lift of the stop work order to allow only for emergency remediation and shoring of the Structure; and

WHEREAS, on February 23, the project engineer submitted a letter to DOB that purported to respond to DOB's February 15 letter; and

WHEREAS, a new engineer and architect retained by the owner of 19 Beekman then consulted with the Borough Commissioner and, in a letter dated February 24, 2005, proposed an exterior steel frame to support the Structure; and

WHEREAS, this letter also purportedly responded to the points made by DOB in its February 15 letter, referenced above; and

WHEREAS, however, on February 25, the Borough Commissioner performed a field inspection and determined that notwithstanding the temporary measures taken to shore the structure, the order to demolish in the February 18 declaration needed to be effected immediately; and

WHEREAS, appellant challenged the declaration in an Article 78 proceeding, which was dismissed pursuant to an April 8, 2005 stipulation that the disagreement would be resolved in the first instance by a determination of this Board; and

WHEREAS, DOB then issued the Final Determination and the instant appeal was filed; and

WHEREAS, appellant states that a representative of 19 Beekman met with DOB's executive engineer in August of 2005, and the engineer allegedly took a position contrary to that stated in the Final Determination; and

WHEREAS, however, DOB, through its counsel, repudiated the determination of the executive engineer, and stated that the Final Determination was the official position of the Department; and

WHEREAS, in any event, the Board has no jurisdiction to review a determination of the executive engineer as a final determination of DOB; consequently, the appeal proceeded to hearing; and

WHEREAS, the appellant's initial submission advances three primary arguments: (1) Building Code § 27-509 does not apply to the Structure because it is not a fence; (2) DOB has approved other similar structures in Manhattan and has not provided a "reason or justification for the inconsistent treatment" of the Structure; and (3) the Structure is structurally sound and does not need to be demolished; and

WHEREAS, as to the first argument, the appellant claims that Building Code § 27-509 governs the height only of fences, and that the Structure is a wall, not a fence; and

WHEREAS, in disputing that the Structure is a fence, appellant notes that it is referred to as a wall by DOB in the February 15 letter, the February 18 declaration, and the Final

MINUTES

Determination; and

WHEREAS, Building Code § 27-509 is the sole provision of Article 18 “Fences” in Subchapter 7 of the Code, which pertains to special uses and occupancies, and provides, in pertinent part, “In residence districts, no fences, whether of masonry, steel, wood, or any other materials shall be erected to a height of more than six feet above the ground, except that fences used in conjunction with nonresidence buildings and public playgrounds, excluding buildings accessory to dwellings, may be erected to a height of fifteen feet. Higher fences may be permitted by the commissioner where required for the enclosure of public playgrounds, school yards, parks and similar public facilities.”; and

WHEREAS, during the course of the hearing process, the appellant offered two different characterizations of the Structure as a wall, first alleging it is a screen (or privacy) wall, and then suggesting that it is a non-load bearing parapet wall; and

WHEREAS, as to the first characterization, appellant states that the Oxford Dictionary of Architecture defines the term “screen wall” as: “1. Solid unperforated wall hiding something, e.g. a court in front of a house. 2. Retaining wall in a garden, often decorated with niches, etc. 3. Wall carried up between columns.”; and

WHEREAS, presumably appellant considers the Structure a “solid unperforated wall hiding something” since the Board observes that the structure obviously is not a garden retaining wall and is also not a wall carried up between columns”; and

WHEREAS, the Board observes that this definition of “screen wall,” provided by the appellant, relates to the function of a structure, and suggests that the purpose is to hide something; and

WHEREAS, the Structure abuts the building wall of the 23 Beekman Building, so presumably appellant believes it hides this building wall, or that it hides the roof of the two-story portion of the 19 Beekman Building from the 23 Beekman premises; and

WHEREAS, in response to appellant’s characterization of the Structure as a “screen wall”, DOB states that the function of a “screen wall” and a “fence” are very similar, such that any distinction between the two is not meaningful; and

WHEREAS, DOB cites to Ballentine’s Law Dictionary, which defines a “fence”, in pertinent part, as “a visible or tangible obstruction which may be a hedge, ditch, wall, trestle, frame of wood, wire, rails of any line of obstacle interposed between two portions of land so as to part off and shut in the land and set it off as private property or for the purpose using it separately from the adjacent land of the same owner” (*emphasis added*); and

WHEREAS, DOB argues that “hiding something” is not functionally different than providing a “line of obstacle interposed between two portions of land so as to part off and shut in the land and set it off as private property”; and

WHEREAS, the Board agrees and notes the two definitions are not mutually exclusive: a “screen wall” may be a “fence” and vice versa; and

WHEREAS, in fact, the Ballentine’s definition of “fence”

includes walls, since walls can function as fences, in that they can be a visible obstruction or line of obstacle between two portions of land, that sets off private property; and

WHEREAS, here, the Structure arguably both hides the 23 Beekman Building and sets off the 19 Beekman premises from the 23 Beekman premises; thus, functionally, it meets both the definition of “screen wall” offered by appellant and the definition of “fence” used by DOB; and

WHEREAS, thus, appellant’s insistence that the Structure is intended to be a “screen wall” does not negate DOB’s determination that the Structure is a fence for Building Code enforcement purposes; and

WHEREAS, appellant’s second categorization is that the structure is a non-load parapet bearing wall, which is a conflation of two defined terms in the Building Code; and

WHEREAS, Building Code § 27-232 defines “non-load bearing” as follows “As applied to a wall or partition, shall mean one that supports no vertical load other than its own weight”; and

WHEREAS, appellant argues that the Structure does not support any weight other than its own, and is therefore non-load bearing; and

WHEREAS, even assuming this to be true, the Board does not find this compelling, as fences are typically non-load bearing; and

WHEREAS, appellant then argues that the Structure is also a parapet wall; and

WHEREAS, Building Code § 27-232 defines “parapet” as follows: “The continuation of an exterior wall, fire wall, or party wall above the roof line”; and

WHEREAS, appellant argues that the Structure, even though it was constructed in 2001 and 2005, well after the two-story section of the 19 Beekman Building was built, is an extension of an exterior wall of the two-story section; and

WHEREAS, the appellant argues that while the Building Code establishes a minimum height for a parapet, there is no maximum height; and

WHEREAS, appellant states that Building Code § 27-305, which sets forth height limitations of buildings, provides the maximum heights of parapet walls, as set forth in the referenced Tables 4-1 and 4-2; and

WHEREAS, these tables do not reference parapets specifically, but instead set forth maximum heights of walls generally based upon whether a building is sprinklered, as well as its occupancy code and construction class; and

WHEREAS, the Board has reviewed these two tables and notes that for many occupancy codes and construction classes, there is no Building Code height limit if the building is sprinklered; and

WHEREAS, thus, categorization of structures of this type as parapets is contrary to common sense: if parapet wall height is unregulated by the Code in many instances, parapets as high as the overall zoning height limit could be constructed on top of a building without any regulation whatsoever; and

WHEREAS, in those zoning districts without a height or sky exposure plane limitation, this means independent non-load

MINUTES

bearing structures could be constructed on the tops of roofs to any height; and

WHEREAS, moreover, and most importantly, the Board again observes that even assuming that the Structure is a non-load bearing parapet wall, that does not prevent DOB from properly categorizing it as a fence as well, especially where it functions not as a parapet but a fence; and

WHEREAS, as to the categorization of the Structure as a fence by DOB, the Board notes that the Building Code does not define “fence” or “wall”; and

WHEREAS, however, Building Code § 27-229 provides, in pertinent part “Where terms are not defined they shall have their ordinarily accepted meanings or such as the context may imply.”; and

WHEREAS, thus, DOB is at liberty to apply a reasonable definition of a term, and may take into account the context in which said definition is applied; and

WHEREAS, here, DOB gave the word “fence” its ordinary meaning based on a reasonable definition of the word from a respected legal dictionary, and determined that the Structure met the definition, based upon an assessment of its function and its location between two buildings; and

WHEREAS, the Board finds this rational, as it allows DOB to apply a definition that will best address the fundamental purpose of the Building Code; and

WHEREAS, Building Code § 27-102 provides: “The purpose of this code is to provide reasonable minimum requirements and standards, based upon current scientific and engineering knowledge, experience and techniques . . . and forms and methods of construction in the city of New York in the interest of public safety, health and welfare . . .”; and

WHEREAS, DOB must be able to determine that a structure meets a definition that is regulated by the Building Code in order to effectuate this purpose, so long as that determination has a rational basis; and

WHEREAS, thus, as to DOB’s contention that the Structure is a fence for purposes of the Building Code, the Board concurs; and

WHEREAS, the Board observes that it functions as a fence, in that it sets off and separates the 19 Beekman property from the 23 Beekman property; and

WHEREAS, as conceded by the appellant, it is non-load bearing, so it plainly does not function as a support for another structure; and

WHEREAS, the fact that it is made of masonry, is of a certain thickness, and looks like a wall and was referred to as such by DOB (as noted above) is not relevant; and

WHEREAS, the Board notes that Building Code § 27-509, cited above, specifically states that a fence may be made of masonry materials; and

WHEREAS, nothing in this section suggests that a masonry fence is not subject to the general six ft. height limitation; and

WHEREAS, nor does this section specify a maximum thickness for fences; and

WHEREAS, further, as indicated by the Ballentine’s

definition of “fence”, a fence may be a wall; and

WHEREAS, additionally, it is contrary to the purpose of the Building Code, set forth above, to categorize a structure as a “screen wall” or a “non-load bearing parapet wall”, when said terms are either undefined or represent a conflation of two defined terms, and, as a result, are not specifically regulated in the Code; and

WHEREAS, in other words, appellant appears to take a position that would require that DOB ignore the function of a structure, and accept a categorization that eliminates safety regulation; and

WHEREAS, the Board does not accept this position; and
WHEREAS, instead, the Board finds that DOB’s categorization of the Structure as a fence, which puts it under the Building Code for safety purposes, is: (1) reasonable given the definition of fence and the function of the Structure; and (2) in alignment with DOB’s public safety enforcement mandate; and

WHEREAS, in conclusion, the Board finds that DOB’s determination that the Structure is a fence is rational and supported by its review of a common definition of the word, as well as its assessment of the function of the Structure; and

WHEREAS, appellant’s second argument is that even if the Structure is correctly categorized as a fence, it appears that DOB has routinely approved, as a general policy, similar masonry structures at comparable heights, pursuant to its authority to do so set forth in Building Code § 27-509; and

WHEREAS, appellant alleges that DOB has no “reason or justification for the inconsistent treatment of” the Structure; and

WHEREAS, in support of the argument that DOB has a policy to approve higher fences than normally permitted by Building Code § 27-509, appellant initially submitted photos of 33 allegedly similar structures; and

WHEREAS, appellant also submitted a list of the addresses of these 33 structures; and

WHEREAS, at the outset, the Board notes that none of these structures are before it, subject to a final determination from DOB; and

WHEREAS, appellant has attempted to place the burden on DOB, and, consequently, this Board, to determine the nature of the other structures, and if and how they may have been approved; and

WHEREAS, the Board, however, finds that appellant must initially show that the other cited structures are in fact comparable to the Structure, in order to establish that their existence is evidence of a DOB policy to allow higher fences such that it can be said that 19 Beekman is being treated unfairly or inconsistently; and

WHEREAS, the Board makes this finding even though, in light of the need to process the appeal, it requested that DOB also make an attempt to discover information about the other structures that might be useful; and

WHEREAS, as set forth below, the Board is unconvinced that appellant has satisfactorily established the comparability of the Structure to these other structures; and

WHEREAS, as to the 33 structures, DOB responded that many of the photos submitted by appellant were actually of

MINUTES

veneers attached to party walls, dissimilar from the Structure, which is free-standing and not attached to a party wall; DOB also suggested that some of the structures may have been illegally constructed; and

WHEREAS, appellant stated that two of the structures, at 65 East 55th Street and 425 East 52nd Street, have nothing behind them and therefore can not be veneers; appellant also cited to three others – 425 Lexington Avenue, 1166 Sixth Avenue, and 780 Third Avenue – which allegedly are too thick to be veneers; and

WHEREAS, DOB stated, and the Board agrees, that the thickness of veneers is irrelevant; veneers can be as thick as the structures as depicted in the photos, so long as they are structurally supported by the wall to which they are attached; and

WHEREAS, DOB further responded that some of the structures were distinguishable because they were part of public spaces, and thus represented part of a design scheme reviewed by the Department of City Planning (“DCP”); and

WHEREAS, the Board agrees, and notes that it has reviewed the 33 structures initially submitted by appellant and at least 14 of them are structures that are part of a public space approved by DCP as part of an integrated plan design; and

WHEREAS, specifically, the Chair of the Board, a former Deputy Director of the Department of City Planning, recognized some of the public areas in the photos, and later confirmed this recognition through review of the treatise *Privately Owned Public Spaces*, by Jerold S. Kayden, in conjunction with DCP and the Municipal Art Society, which sets forth a listing of such public areas; and

WHEREAS, the locations of the public space structures as shown in the photos are as follows: 1. 54th and Third Avenue; 2. 780 Third Avenue at 49th Street; 3. 100 UN Plaza; 4. 1114 Sixth Avenue – Grace Plaza (misidentified by appellant as 1166 Sixth Avenue); 5. 590 Madison Avenue at 57th Street; 6. 140 East 45th Street – Grand Central Tower; 7. 301 East 45th Street; 8. 747 Third Avenue; 9. 300 East 62nd Street; 10. 800 Third Avenue at 49th Street; 11. 599 Lexington Avenue; 12. 425 Lexington Avenue; 13. 415 East 54th Street; 14. 66 East 55th Street; and 15. 871 UN Plaza; and

WHEREAS, the Board also notes that the photo of the premises identified as 338 East 49th Street appears to be of the UNICEF House public space, which is actually on East 44th Street between First and Second Avenues; and

WHEREAS, thus, as DOB states, it is plausible that many of the structures were approved at heights in excess of what is normally permitted pursuant to DOB Commissioner discretion as per Building Code § 27-509; and

WHEREAS, as noted above, this Code section allows the Commissioner to permit fences higher than 15 feet “where required for the enclosure of public playgrounds, school yards, parks and similar public facilities”; and

WHEREAS, the Board observes that these public spaces are public facilities, comparable to parks; and

WHEREAS, appellant, in response to this argument, contends that at least some of the structures in public areas are

too high to merely serve enclosure purposes; and

WHEREAS, the Board observes that this contention is based on speculation that DOB would, through the discretion granted to it in Section 27-509, only allow structures to a certain height; and

WHEREAS, however, Section 27-509 does not contain a height limitation that must be applied when the Commissioner exercises discretion to allow a fence in a public space to exceed six feet in height; and

WHEREAS, further, even though, as noted above, the Board expressed concern about free-standing masonry structures not being limited in height potentially (depending on the zoning district and building type), there is a distinct difference in allowing the Commissioner of DOB to ascertain when a free-standing masonry fence may exceed six feet in height and still be safe versus allowing such structures to be built by private parties without any height regulation whatsoever as of right; in fact, requiring Commissioner approval when free-standing masonry fences exceed six feet comports with DOB’s public safety enforcement mandate, and apparently was codified for this reason; and

WHEREAS, leaving this aside, the Board notes that the Structure is not part of a DCP-approved public space, and does not represent an exercise of DOB’s discretion under Section 27-509; and

WHEREAS, thus, the apparent DOB and DCP approval of the structures associated with public spaces does not support the argument that DOB has a policy of approving structures comparable to the Structure; and

WHEREAS, the Board notes that the remaining structures out of the 33 may or may not be free-standing, veneers, or party walls; and

WHEREAS, however, appellant has not submitted any information as to these other structures aside from pictures and certificates of occupancy; and

WHEREAS, this information is of limited probative value and does not conclusively show that these structures and the Structure are similar in all respects; and

WHEREAS, accordingly, appellant’s reference to the other structures likewise does not support the allegation that DOB has a policy of allowing higher than allowed fence structures; and

WHEREAS, appellant then cited to another structure at 125/27 East 70th Street, which it alleges is similar to the Structure; and

WHEREAS, appellant states that the structure at this address is 20 ft. high and is adjacent to a party wall; and

WHEREAS, the adjacency to a party wall distinguishes this structure from the Structure, as it is possible that it is a veneer; there is no possibility that the Structure is a veneer, because it is not adjacent or attached to a party wall; and

WHEREAS, later during the hearing process, appellant cited to three other structures at the following addresses: (1) 1001 Fifth Avenue, (2) 328 East 86th Street; and (3) 225 East 85th Street; appellant submitted photos of each of these structures; and

MINUTES

WHEREAS, as to 1001 Fifth Avenue, the Board notes that the photo shows a braced masonry extension of the façade of the building; and

WHEREAS, while the Board can not ascertain merely from a photo the function of this extension, it appears to be a design element rather than a line of obstacle; and

WHEREAS, the Board observes that the extension clearly faces the street; and

WHEREAS, accordingly, it is distinct from the Structure, which functions to set off a property line and which abuts an adjacent building; and

WHEREAS, as to 225 East 85th Street, the Board notes that the photos show a roof enclosed on four sides by walls, with window cutouts facing the street; and

WHEREAS, again, the walls surrounding the roof are not against an adjacent building and do not appear set off a property boundary, and thus can not be said to serve the same fencing function as the Structure; unfortunately, from the photo submitted by appellant, the Board is again unable to conclusively ascertain the function of the enclosure; and

WHEREAS, as to 328 East 86th Street, the photos show what appears to be a somewhat comparable structure to the Structure, although the Board notes that the free-standing portion of the structure appears to extend horizontally from an existing wall and appears to have been constructed as part of the wall, unlike the Structure, which is a new vertical extension built on top of an existing building; and

WHEREAS, DOB agrees, and states that all three of these structures appear to be fully integrated into the buildings, unlike the Structure; and

WHEREAS, finally, appellant cites to a recent reconsideration granted by the Borough Commissioner related to 15 William Street; and

WHEREAS, appellant states that the structure approved under the reconsideration is also comparable to the Structure; and

WHEREAS, however, the Board notes that the plans associated with this reconsideration show that it serves as a street wall for zoning compliance and is connected to the primary building section by terraces, and thus serves a structural support function; and

WHEREAS, the Board notes that it is taking no position as to the validity of the reconsideration; and

WHEREAS, in sum, of the multiple structures identified by appellant, only a few are arguably comparable to the Structure in terms of function, location between buildings, and free-standing status; and

WHEREAS, the Board notes that this does not support a conclusion that DOB has a policy to approve private masonry free-standing fences between buildings, such as the Structure, at a height greater than what the Building Code permits; and

WHEREAS, at most, appellant has put DOB on notice that there may be certain structures, whether permitted or not, that might need to be reviewed in light of concerns that they may not comply with the Building Code; since DOB was present at the hearing, the Board trusts that it will investigate

those structures of which it is concerned; and

WHEREAS, thus, the Board, based upon the representations of DOB as set forth above and upon its own analysis of the submitted evidence, rejects appellant's argument that DOB has unfairly or arbitrarily singled out the Structure for enforcement as a fence; and

WHEREAS, appellant's third argument is that the steel reinforcing apparatus installed to support the Structure after DOB discovered its instability provides sufficient structural stability such that it meets the Building Code; and

WHEREAS, however, the Board finds that a determination as to this issue has been rendered moot, since the Board concludes that the Structure is a fence and therefore can not be higher than six feet; and

WHEREAS, in sum, the Board finds that appellant's arguments are without merit, and that DOB's determination with respect to the Permit and the Structure was rational and a proper exercise of its enforcement authority.

Therefore it is Resolved that the instant appeal, seeking a reversal of the determination of the Manhattan Borough Commissioner, dated June 15, 2005, refusing to reinstate the Permit or cancel an emergency declaration as to the Structure, is hereby denied.

Adopted by the Board of Standards and Appeals, June 6, 2006.

- Article 3 Section 36 of the General City Law, and
- b. Permit may not be issued since proposed construction does not have at least 8% of the total perimeter of the building fronting directly upon a legally mapped street or frontage space, and, therefore, is contrary to Section 27-291 of the Administrative Code.”; and

WHEREAS, a public hearing was held on this application on May 9, 2006, after due notice by publication in the *City Record*, and then to decision on June 6, 2006; and

WHEREAS, by letter dated April 5, 2006, the Fire Department states that it has reviewed the above project and has recommended that the owner sprinkler the buildings due to the limited street access; and

WHEREAS, by letter dated May 10, 2006, the owner has agreed to provide sprinklers and post “No Parking” signs along the length of Pleasant Place, and has submitted a revised site plan; and

WHEREAS, by letter dated May 30, 2006, the Fire Department has reviewed the revised site plan submitted for the above project and has no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Queens Borough Commissioner, August 30, 2005, acting on Department of Buildings Application Nos. 402147299, 402147271, and 402147280 is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received May 16, 2006”-(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 6, 2006.

THE RESOLUTION –

WHEREAS, the decision of the Staten Island Borough Commissioner, dated December 1, 2005, acting on Department of Buildings Application No. 500810919 which reads, in pertinent part:

- “1. GCL §36 – Municipal improvements in streets, buildings not fronting on mapped streets: The lot is not fronting and the building permit and Certificate of Occupancy can’t be issued unless special conditions are met, including approval from the Board of Standards and Appeals (BSA).
2. BC §27-291 – Frontage: Every Building, exclusive of accessory buildings, shall have at least eight percent of the total perimeter of the building fronting directly upon a street or frontage space.

Frontage Space – A *street*; or an open space outside of a *building*, not less than thirty feet in any dimension, that is accessible from a *street* by a driveway, lane alley, or alley at least twenty feet in width, and that is permanently maintained free of all obstructions that might interfere with its use by the Fire Department.”; and

WHEREAS, a public hearing was held on this application on June 6, 2006, after due notice by publication in the *City Record*, and then to closure and decision on this same date; and

WHEREAS, by letter dated February 9, 2006, the Fire Department states that it has reviewed the above project and has recommended the owner sprinkler the building and provide street signs throughout the development to read: “No Parking - Fire Lane”; and

WHEREAS, by in response to the Fire Department’s request the owner has agreed to fully sprinkler the building and submitted a revised site plan; and

WHEREAS, by letter dated, April 27, 2006, the Fire Department has reviewed the revised site plan submitted for the above project and has no objections; and

WHEREAS, the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved that the decision of the Staten Island Borough Commissioner, dated December 1, 2005, acting on Department of Buildings Application No. 500810919, is modified by the power vested in the Board by Section 36 of the

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated July 12, 2005, acting on Department of Buildings Application No. 301932942, reads, in pertinent part:

“ZR 23-461(b), requires one 8’-0” side yard for two-family semi-detached residences, this lot is only 20’-0” wide and in existence prior to 1961.”; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R5 zoning district, the proposed construction of a 1.20 Floor Area Ratio (FAR), two-family, two-story plus basement home that does not provide the required side yard, contrary to ZR § 23-461; and

WHEREAS, an initial DOB objection cited to ZR § 25-621(a)(1), which provides that parking be permitted only in the side lot ribbon or in any area on the zoning lot that is not between the street line and the street wall; and

WHEREAS, on October 25, 2005, the Brooklyn Borough Commissioner accepted a parking configuration that permits the location of one parking space between the street wall and the street line if the other required parking space is located inside the building; and

WHEREAS, the applicant subsequently revised the proposal to reflect this parking configuration; and

WHEREAS, a public hearing was held on this application on March 28, 2006 after due notice by publication in *The City Record*, with a continued hearing on April 25, 2006, and then to decision on June 6, 2006; and

WHEREAS, Community Board 5, Brooklyn, recommends disapproval of this application; and

WHEREAS, the site and surrounding area had a site and neighborhood examination by a committee of the Board, including Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins; and

WHEREAS, the site is located on the west side of Logan Street, 190 ft. south of Pitkin Avenue; and

WHEREAS, the site is 20 ft. in width and 100 ft. in depth, with a total lot area of 2,000 sq. ft.; and

WHEREAS, the applicant represents that available records indicate that the lot was not in common ownership with either of the two contiguous lots on December 15, 1961; and

WHEREAS, the site is currently vacant and has been so since at least 1929, as evidenced by the 1929 Belcher Hyde Atlas excerpt submitted by the applicant; and

WHEREAS, the applicant proposes to construct a two-story, two-family home, with one parking space located in a basement garage and another located in the area between the street line and the street wall; and

WHEREAS, the proposed home will be 17 ft. in width and will range from 45.33 and 50.33 ft. in depth; thus, it will have a total residential floor area of 2,392 sq. ft. (3,300 sq. ft. is the maximum permitted); a total residential FAR of 1.20 (1.25 is the maximum permitted); an OSR of 59.5 percent (45 percent is the minimum required); one side yard of three feet (a side yard of five feet is required); and a 35.67 ft. rear yard (a 30 ft. rear yard is the minimum required); two off-street parking space will also be provided; and

WHEREAS, the applicant states that the following is a unique physical condition, which creates practical difficulties and unnecessary hardship in developing the subject site in compliance with underlying district regulations: the site is a pre-existing 20 ft. wide and 100 ft. deep lot that can not accommodate a habitable as of right residential development; and

WHEREAS, as to uniqueness, the applicant has submitted a 400 foot radius diagram that illustrates that the subject premises is one of approximately three vacant lots in the area, and appears to be the only undeveloped site located adjacent to an existing multiple dwelling; and

MINUTES

WHEREAS, the applicant represents that the requested side yard waiver is necessary to develop the site with a habitable home; and

WHEREAS, the Board observes that if the applicant were to provide the required five ft. side yard, the result would be a home of approximately 15 feet in width, which the applicant contends is not marketable; and

WHEREAS, based upon the above, the Board finds that the cited unique physical condition creates practical difficulties in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, the Board has determined that because of the subject lot's unique physical condition, there is no reasonable possibility that compliance with applicable zoning regulations will result in a habitable home; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood, nor impact adjacent uses; and

WHEREAS, the applicant has submitted a radius diagram and photographs that show that many of the buildings in the surrounding area are attached dwellings without side yards; and

WHEREAS, the applicant also notes that although a maximum height of 40 feet is permitted, the height of the proposed building is 26 feet, which is consistent with the height of neighbors on either side, and with the height of other buildings on the subject block; and

WHEREAS, the Board notes that a dwelling with one lot line wall and one side yard of three feet would not negatively impact the adjacent uses, as the property to the north is occupied by a multiple dwelling with a 4'-6" side yard and the property to the south does not have any lot line windows; and

WHEREAS, therefore, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II Declaration under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 72-21, to permit, within an R5 zoning district, the proposed construction of a two-family, two-story plus basement home that does not provide the required side yard, contrary to ZR § 23-461; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received May 16, 2006"—eight (8) sheets; and *on further condition*:

THAT the parameters of the proposed building shall be as

follows: an FAR of 1.20; a floor area of 2,392 sq. ft.; an OSR of 59.5 percent; a rear yard of 30 ft.; a side yard of three feet; one parking space in an internal garage and one parking space between the street line and the street wall;

THAT the internal floor layouts on each floor of the proposed building shall be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 6, 2006.

PREMISES AFFECTED – 1236 Prospect Avenue, southeast corner of Prospect Avenue and Home Street, Block 2693, Lot 29, Borough of The Bronx.

COMMUNITY BOARD #2BX

APPEARANCES –

For Applicant: Josh Rinesmith.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated February 24, 2005 acting on Department of Buildings Application No. 200929193, reads, in pertinent part:

“Continued use . . . of the automotive service station is contrary to Board of Standards and Appeals resolution 176-35-BZ, Vol. III, and is not permitted as-of-right in an R7-1/C2-4 zoning district.”; and

WHEREAS, this is an application for a reinstatement of a prior Board approval and an extension of term, pursuant to ZR § 11-411, and a legalization of a change in use from a gasoline service station with accessory automotive repairs (UG 16), to an automotive repair facility without the sale of gasoline (UG 16), pursuant to ZR § 11-413; and

WHEREAS, a public hearing was held on this application on March 7, 2006, after due notice by publication in the *City Record*, with continued hearings on April 11, 2006 and May 16, 2006, and then to decision on June 13, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, the premises is located on the southeast corner of Prospect Avenue and Home Street in a C2-4 (R7-1) zoning district; and

MINUTES

WHEREAS, the subject zoning lot is trapezoid-shaped and has a total lot area of approximately 8,740 sq. ft.; and

WHEREAS, the site is currently occupied by a 2,061 sq. ft. automotive repair facility, with accessory parking for vehicles awaiting service; and

WHEREAS, the Board originally granted a variance to permit the erection and maintenance of a gasoline service station on October 15, 1935 under BSA Cal. No. 176-35-BZ; and

WHEREAS, subsequently, the variance was re-established, amended, and extended by the Board at various times, most recently on January 4, 1983, when the Board permitted an extension of term for a gasoline service station with accessory uses for a term of ten years, expiring on July 24, 1991; and

WHEREAS, the applicant represents that the premises is improved upon with an existing automotive repair facility without the sale of gasoline (UG 16); and

WHEREAS, the applicant represents further that there has been no enlargement to the zoning lot or the building, and the only changes to the site from the time of the last grant are the removal of the gasoline pumps, the conversion of the auto wash bay to a fourth service bay, the addition of parking for vehicles awaiting service, and the installation of an enclosed fence for vehicles awaiting service; a UG 16 use has been in occupancy at the site on a continuous basis since the expiration noted above; and

WHEREAS, the applicant now proposes to reinstate the prior grant, legalize the existing use, and obtain a new ten-year term; and

WHEREAS, at hearing, the Board asked the applicant to remove the two storage sheds present at the southeast corner of the site since they were not part of the previous grants; and

WHEREAS, the applicant submitted a revised site plan indicating that the storage sheds would be removed; and

WHEREAS, additionally, the Board reviewed the position of the curb cuts and identified traffic circulation and safety concerns; and

WHEREAS, the Board asked the applicant to relocate the curb cut on Prospect Avenue, south of the intersection with Home Street, away from the intersection in order to provide better circulation and a safer condition; and

WHEREAS, the Board asked the applicant to remove the second curb cut on Prospect Avenue, to the east of the one at the intersection; and

WHEREAS, the applicant submitted a revised site plan that shows the first Prospect Avenue curb cut moved to the east, away from the intersection, and the second one removed; and

WHEREAS, during the site visit, the Board observed non-complying signage and asked the applicant to have it removed; and

WHEREAS, the Board also asked the applicant for evidence that the site was maintained free of graffiti; and

WHEREAS, the applicant submitted photographs of the site demonstrating the sign removal and a letter from the operator detailing his efforts to keep the building free of graffiti; and

WHEREAS, pursuant to ZR § 11-411, the Board may extend the term of an expired variance; and

WHEREAS, pursuant to ZR § 11-413, the Board may grant a request for a change in use from one non-conforming use to another non-conforming use in the same use group; and

WHEREAS, the Board has determined that evidence in the record supports the findings required to be made under ZR §§ 11-411 and 11-413.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 11-411 and 11-413, for a reinstatement of a prior Board approval, an extension of term, and a legalization of a change in use from a gasoline service station with accessory automotive repairs (UG 16), to an automotive repair facility without the sale of gasoline (UG 16); *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked "Received March 16, 2006"-(2) sheets and "May 30, 2006"-(2) sheets; and *on further condition*:

THAT this permit shall be for a term of ten years, to expire on June 13, 2016;

THAT the hours of operation shall be from 8 A.M. to 7 P.M., Monday through Saturday;

THAT no gas pumps shall be installed on the site;

THAT the lot shall be kept free of dirt and debris;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the layout of the property, location and size of the fence shall be as approved by the Department of Buildings;

THAT all signage shall comply with C1-1 zoning regulations;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 13, 2006.

108-05-BZ

APPLICANT – Rothkrug Rothkrug, Weinberg & Spector, for Avi Mansher, owner.

SUBJECT – Application May 11, 2005 – Under Z.R. §72-21

MINUTES

to permit the construction of a one-family semi attached dwelling that does not provide the required front yard, contrary to section 23-462 of the zoning resolution. The site is located in an R3-2 zoning district. The subject site is Tax Lot #74, the companion case, 109-05-BZ is Tax Lot #76 on the same zoning lot.

PREMISES AFFECTED – 224-22 Prospect Court, northwest corner of Prospect Court and 225th Street, Block 13071, Lot 13, Borough of Queens.

COMMUNITY BOARD #13Q

APPEARANCES –

For Applicant: Adam W. Rothkrug

For Opposition: Judith Charrington.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated June 2, 2006, acting on Department of Buildings Application No. 402039511, reads:

“Proposed one family dwelling without a required rear yard is contrary to Section 23-47 ZR and must be referred to the Board of Standards and Appeals
Proposed one family dwelling without a required front yard is contrary to Section 23-45 ZR and must be referred to the Board of Standards and Appeals”;
and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R3-2 zoning district, the proposed construction of a two-story, single-family residence, which does not comply with the zoning requirements for rear yard and front yard, contrary to ZR §§ 23-47 and 23-45; and

WHEREAS, this application was filed concurrently with a companion application brought under BSA Cal. No. 109-05-BZ, for an adjacent single family dwelling at 226-22 Prospect Court, Lot 76, decided this same date; and

WHEREAS, the Board notes that the subject site was before the Board in 2004, pursuant to a variance application filed under Cal. No. 365-03-BZ; the application sought an additional side yard waiver as well as authorization to re-use illegal construction at the premises (discussed further below); and

WHEREAS, the Board dismissed this application without prejudice for failure to prosecute; during the hearing process, the Board repeatedly informed the applicant that the site plan was unacceptable as it did not provide the required side yards, but the applicant did not submit a revised plan; and

WHEREAS, subsequently, the applicant filed the instant application and the companion application; and

WHEREAS, the Board notes that the original version of the current applications proposed two semi-detached homes; and

WHEREAS, after the Board expressed concern that this proposal was out of character with the neighborhood, the

applicant revised the proposal to reflect detached homes; and

WHEREAS, initially, the applicant only presented the Board with a front yard objection for this proposal; however, during the course of the hearing process, the Board ascertained that the proposed dwelling at the subject premises also required a rear yard objection, since it was located more than 100 ft. from an intersection and thus did not qualify for the exemption from rear yard; and

WHEREAS, instead, a 10 ft. rear yard is required for this interior lot portion; the applicant will provide 5 ft.; and

WHEREAS, the applicant states, and the Board agrees, that placing the proposed dwelling within this 100 ft. distance from the corner would have required that the development proceed as a semi-detached scheme, which is less desirable given the length and narrowness of the lot; and

WHEREAS, a public hearing was held on this application on January 24, 2006, after due notice by publication in *The City Record*, with continued hearings on March 7, 2006, April 11, 2006, and then to decision on May 16, 2006, on which date the decision was deferred until June 13, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins; and

WHEREAS, Community Board 13, Queens, recommends disapproval of the revised version of this application, stating that the proposed three ft. front yard where a 10 ft. front yard is required (along Prospect Avenue) is inadequate and incompatible with the surrounding homes; and

WHEREAS, certain neighbors to the site appeared at hearing in opposition to this application, claiming that: (1) the illegal construction of dwellings that did not comply with applicable zoning regulations caused damage to their property; (2) the survey used by the applicant is incorrect as to the location of the rear lot line; and (3) the site is improperly fenced and poorly maintained; all of these issues are addressed below; and

WHEREAS, the record indicates that the subject premises is located on the northwest corner of Prospect Court and 225th Street; and

WHEREAS, the site consists of two tax lots, Lot 74 (the subject lot) and Lot 76 (the adjacent lot), which together are one zoning lot; and

WHEREAS, the site is a 26.5 ft. wide by 184.2 ft. deep lot, with a total lot area of 4,976 sq. ft.; and

WHEREAS, the site is currently occupied by partially constructed dwellings, built pursuant to permits that were determined by DOB to have been issued in error; and

WHEREAS, these dwellings do not comply with the front yard and side yard requirements, and, at the suggestion of the Board, will be completely razed, including foundations; and

WHEREAS, on Lot 74, which is the lot further from the corner of Prospect Court and 225th Street, it is proposed to construct a two-story and cellar, single-family detached dwelling, 18.5 ft. in width by 37 ft. in depth, with a complying floor area of 1,369 sq. ft. (0.55 FAR); and

MINUTES

WHEREAS, this dwelling will comply in all respects with the applicable zoning parameters except for: (1) the front yard along Prospect Court; a ten ft. front yard is required, but a three ft. side yard is proposed; and (2) the rear yard behind the proposed dwelling; a ten ft. rear yard is required, but a five ft. rear yard is proposed; and

WHEREAS, the home will also be built on new foundations instead of those of the illegal construction, and will be fully detached from the proposed neighboring home on Lot 76, with approximately 70 ft. between the two homes; and

WHEREAS, the applicant states that the following is a unique physical condition, which creates practical difficulties in developing the subject lot in compliance with underlying district regulations: the 26.5 ft. width of the site would result in an as of right building of only 6.5 ft. in width, if both the rear yard and front yard requirements were applied; and

WHEREAS, the applicant states that the width of the site is insufficient to sustain a habitable development that complies with all applicable yard requirements, thus necessitating the requested seven ft. front yard waiver and five ft. rear yard waiver; and

WHEREAS, the applicant has submitted a radius diagram that illustrates that the configuration of the site and its width are unique conditions relative to other sites in the neighborhood; and

WHEREAS, in particular, the Board observes that the subject site is the only residentially zoned site in the neighborhood that has such a wide street frontage, and which abuts the rear yards of adjacent properties for its entire width; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique condition creates practical difficulty in developing the site in compliance with the applicable zoning provisions concerning yards for corner lots; and

WHEREAS, the applicant states that without the requested waiver, no residence could be constructed on the property; and

WHEREAS, the Board has determined that because of the subject lot's unique physical condition, there is no reasonable possibility that development in strict compliance with the applicable zoning requirements will result in any development of the property; and

WHEREAS, the applicant states that the building will comply with R3-2 zoning regulations in all other respects other than front and rear yard; and

WHEREAS, in particular, the applicant notes that the plans for the proposed dwelling on Lot 74 reflect a 25'-0" side yard and a complying distance between it and the other proposed dwelling on Lot 76; and

WHEREAS, at hearing, the Board expressed concern about the proposed construction, given the allegations about property damage to the neighboring properties from the illegal construction, and asked the applicant to clarify that the cellar of the proposed building will not extend to the rear lot line or include any portion of the existing illegal foundation; and

WHEREAS, in response, the applicant cited to the cellar plan, which indicates that the cellar will not be built to the lot line and that none of the foundation would be retained; and

WHEREAS, the Board also expressed concern about the security and cleanliness of the site, and asked the applicant to provide pictures showing that the site had been properly fenced and cleaned up; and

WHEREAS, in response, the applicant provided photos of the fence, and submitted a receipt for debris cleaning services; and

WHEREAS, the applicant subsequently submitted pictures showing that the site was cleaned; and

WHEREAS, the Board notes that it is imposing conditions in this resolution highlighting the need to comply with all Building Code requirements regarding protection of adjacent property and site safety and cleanliness during construction; and

WHEREAS, finally, as to the survey, the Board notes that although the neighbors complained that the survey submitted by the applicant was inaccurate, the property line dispute is not properly before it, as the subject application is one for a variance; and

WHEREAS, further, disputes as to property damage should be resolved in another forum, if necessary; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board notes that the depth of the site and its location on the corner are not conditions that were created by the owner; instead, they are pre-existing conditions inherent to the site; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, because the only requested waivers are for front and rear yard, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.13 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 72-21, to permit, within an R3-2 zoning district, the proposed construction of a two-story, single-family residence, which does not comply with the zoning requirements for rear yard and front yard, contrary to ZR § 23-47 and 23-45; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received March 28, 2006"–(5) sheets and "June 6, 2006"–(1) sheet; and *on further condition*:

THAT there shall be no habitable floor area in the attic;
THAT the above condition shall be listed on the

MINUTES

certificate of occupancy;

THAT a valid Demolition permit shall be obtained within 120 days from the date of this grant;

THAT professional certification of the Demolition permit, or any other permit related to the construction of the subject building, is not permitted;

THAT the owner shall demolish the existing illegal construction, including the foundation, pursuant to a validly issued Demolition permit, issued upon examination by the Department of Buildings, and said Demolition permit shall have received sign-off by DOB prior to the issuance of any New Building, excavation, or foundation permit;

THAT during demolition, excavation, foundation construction, and building construction, all applicable Building Code and other legal requirements pertaining to protection of adjacent structures, underpinning, establishment of property boundary lines, and site security, fencing, and upkeep shall be complied with;

THAT except for a front yard along Prospect Court of three ft. and a rear yard of 5 ft., the subject lot shall comply with all R3-2 zoning district requirements, as reviewed and approved by DOB;

THAT the internal floor layouts on each floor of the proposed building shall be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 13, 2006.

WHEREAS, the home will also be built on new foundations instead of those of the illegal construction, and will be fully detached from the proposed neighboring home on Lot 74, with approximately 70 ft. between the two homes; and

WHEREAS, the applicant states that the following is a unique physical condition, which creates practical difficulties in developing the subject lot in compliance with underlying district regulations: the 26.5 ft. width of the site would result in an as of right building of approximately 11 ft. in width, if the front yard requirement was fully applied; and

WHEREAS, the applicant states that the width of the site is insufficient to sustain a habitable development that complies with all applicable yard requirements, thus necessitating the requested seven ft. front yard waiver; and

WHEREAS, the applicant has submitted a radius diagram that illustrates that the configuration of the site and its width are unique conditions relative to other sites in the neighborhood; and

WHEREAS, in particular, the Board observes that the

subject site is the only residentially zoned site in the neighborhood that has such a wide street frontage, and which abuts the rear yards of adjacent properties for its entire width; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique condition creates practical difficulty in developing the site in compliance with the applicable zoning provisions concerning yards for corner lots; and

WHEREAS, the applicant states that without the requested waiver, no residence could be constructed on the property; and

WHEREAS, the Board has determined that because of the subject lot's unique physical condition, there is no reasonable possibility that development in strict compliance with the applicable zoning requirements will result in any development of the property; and

WHEREAS, the applicant states that the building will comply with R3-2 zoning regulations in all other respects other than front and rear yard; and

WHEREAS, in particular, the applicant notes that the plans for the proposed dwelling on Lot 76 reflect complying side yards, and a complying distance between it and the other proposed dwelling on Lot 74; and

WHEREAS, at hearing, the Board expressed concern about the proposed construction, given the allegations about property damage to the neighboring properties from the illegal construction, and asked the applicant to clarify that the cellar of the proposed building will not extend to the rear lot line or include any portion of the existing illegal foundation; and

WHEREAS, in response, the applicant cited to the cellar plan, which indicates that the cellar will not be built to the lot line and that none of the foundation would be retained; and

WHEREAS, the Board also expressed concern about the security and cleanliness of the site, and asked the applicant to provide pictures showing that the site had been properly fenced and cleaned up; and

WHEREAS, in response, the applicant provided photos of the fence, and submitted a receipt for debris cleaning services; and

WHEREAS, the applicant subsequently submitted pictures showing that the site was cleaned; and

WHEREAS, the Board notes that it is imposing conditions in this resolution highlighting the need to comply with all Building Code requirements regarding protection of adjacent property and site safety and cleanliness during construction; and

WHEREAS, finally, as to the survey, the Board notes that although the neighbors complained that the survey submitted by the applicant was inaccurate, the property line dispute is not properly before it, as the subject application is one for a variance; and

WHEREAS, further, disputes as to property damage should be resolved in another forum, if necessary; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the

MINUTES

surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board notes that the depth of the site and its location on the corner are not conditions that were created by the owner; instead, they are pre-existing conditions inherent to the site; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, because the only requested waivers are for front and rear yard, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.13 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 72-21, to permit, within an R3-2 zoning district, the proposed construction of a two-story, single-family residence, which does not comply with the zoning requirements for front yard, contrary to ZR § 23-45; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received March 28, 2006"-(5) sheets and "June 6, 2006"-(1) sheet; and *on further condition*:

THAT there shall be no habitable floor area in the attic;

THAT the above condition shall be listed on the certificate of occupancy;

THAT a valid Demolition permit shall be obtained within 120 days from the date of this grant;

THAT professional certification of the Demolition permit, or any other permit related to the construction of the subject building, is not permitted;

THAT the owner shall demolish the existing illegal construction, including the foundation, pursuant to a validly issued Demolition permit, issued upon examination by the Department of Buildings, and said Demolition permit shall have received sign-off by DOB prior to the issuance of any New Building, excavation, or foundation permit;

THAT during demolition, excavation, foundation construction, and building construction, all applicable Building Code and other legal requirements pertaining to protection of adjacent structures, underpinning, establishment of property boundary lines, and site security, fencing, and upkeep shall be complied with;

THAT except for a front yard along Prospect Court of three ft. and a rear yard of 5 ft., the subject lot shall comply with all R3-2 zoning district requirements, as reviewed and approved by DOB;

THAT the internal floor layouts on each floor of the proposed building shall be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed

DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 13, 2006.

15-06-BZ

APPLICANT – Eric Palatnik, PC for the Yeshiva Tifereth Moshe, Owner.

SUBJECT – Application January 26, 2006 – Zoning Variance (bulk) pursuant to Zoning Resolution Section §72-21 to facilitate the construction of a new yeshiva located in an R4 zoning district. The proposed variance would allow modifications of zoning requirements for lot coverage, side yards, rear yard and height and setback; contrary to Z.R. §§ 24-11, 24-35, 24-36, 24-521 and 24-551.

PREMISES AFFECTED – 147-22 73rd Avenue located on the south side of 73rd Avenue between 147th and 150th streets (Block 6682, Lots 11 and 13), Borough of Queens.

COMMUNITY BOARD #8Q

APPEARANCES –

For Applicant: Eric Palatnik, Mark Mariscal and Don Goldschein.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated January 3, 2006, acting on Department of Buildings Application No. 402256946, reads, in pertinent part:

- “1-Proposed building exceeds the maximum lot coverage permitted by ZR 24-11.
- 2-Proposed building does not meet the minimum side yard requirements of ZR 24-35.
- 3-Proposed building does not meet the minimum rear yard requirements of ZR 24-36.
- 4-Proposed building violates sky exposure plane and is contrary to ZR 24-521.
- 5-Proposed building does not meet the minimum side setback requirements of ZR 24-551.”; and

WHEREAS, this is an application for a variance pursuant to ZR § 72-21, to permit, on a site within an R4 zoning district, a proposed three-story plus cellar Use Group 3 yeshiva, which does not comply with lot coverage, side yard, rear yard, sky exposure plane, and side setback requirements for community facilities, contrary to ZR §§ 24-11, 24-35, 24-36, 24-521, and 24-551; and

WHEREAS, a public hearing was held on this

MINUTES

application on May 9, 2006, after due notice by publication in *The City Record*, and then to decision on June 13, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin, and Commissioner Collins; and

WHEREAS, Community Board 8, Queens, recommends conditional approval of the application with recommendations that there be an interior space for garbage storage, that the design of the façade be compatible with neighboring buildings, and that a fence be erected around the play area; and

WHEREAS, City Councilmember James F. Gennaro has also expressed support for this application; and

WHEREAS, the applicant also submitted affidavits from nearby affected property owners indicating their support of the application; and

WHEREAS, this application is being prosecuted on behalf of Yeshiva Tifereth Moshe, a non-profit religious entity (hereinafter, the "Yeshiva"); and

WHEREAS, the subject premises is located on the south side of 73rd Avenue, between 147th and 150th Streets, and is currently vacant except for remnants of a foundation; and

WHEREAS, the applicant proposes to construct a 44'-6" high building (35 feet is the maximum permitted) without a setback (a setback is required at 35 feet), with 14,267 sq. ft. of floor area (15,246 sq. ft. is the maximum permitted); a FAR of 1.87 (2.0 FAR is permitted for a community facility), with Use Group ("UG") 3 yeshiva use space on the cellar through third floors; and

WHEREAS, the applicant also proposes 66 percent lot coverage (a maximum of 55 percent is permitted); a full encroachment into the side yard at the cellar level (an 8'-0" side yard is required); an encroachment into the sky exposure plane for a portion of the third floor; and a non-complying rear yard above the permitted obstruction on the first floor (a 30'-0" rear yard is required); and

WHEREAS, consequently, the vertical configuration of the building will be as follows: the cellar will be 6'-6" below grade and 5'-6" above grade, with an additional 3'-0" non-cellar mechanical space above grade; the first, second, and third floors will each have a slab to slab height of 12'-0"; and the total height will be 44'-6", exclusive of mechanicals; and

WHEREAS, the cellar and mechanical floor will not set back and will provide partial 8'-0" side yards and a partial 15'-0" front yard; the first, second, and third floors will provide a full 8'-0" of open space at both sides and 15'-0" at the front; and the third floor will be set back 15'-0" from the rear lot line; and

WHEREAS, the proposed building will contain ten classrooms, a full dining room/multi-purpose room and Kosher kitchen, administrative and staff offices, and outdoor recreation space to be located on the terrace at the third floor and roof; and

WHEREAS, the applicant states that the following is the primary programmatic need of the Yeshiva: sufficient classroom and assembly space to accommodate current and future kindergarten through third grade students at one facility; and

WHEREAS, as to the space needs, the applicant notes that

the floor area requested is less than the maximum allowed for the district, but that due to the young age of the students and the need for constant their supervision, the school runs more efficiently if housed in fewer large floors, rather than four or more with smaller floor plates; and

WHEREAS, the applicant represents that a majority of students live in the neighborhood surrounding the subject site; and

WHEREAS, the applicant asserts that relocating the school to a Yeshiva-owned building in a neighborhood where many of the students live will also serve its program needs; and

WHEREAS, the applicant states that the proposed amount of classrooms (ten) would accommodate the current enrollment of 250 students and allow for continued growth; the as-of-right scenario would only allow for six classrooms; and

WHEREAS, the Board accepts that having the classrooms for younger students in close proximity to each other and on fewer floors in the same building and having the school building in the neighborhood where many of the students live are both legitimate programmatic needs of the Yeshiva; and

WHEREAS, the Board acknowledges that the Yeshiva, as a religious educational institution, is entitled to significant deference under the case law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in compliance with applicable regulations: the existing site does not provide the requisite amount of lot area to comply with applicable lot coverage, yard and setback requirements and still allow development of a building that would meet the programmatic needs of the Yeshiva; and

WHEREAS, specifically, the applicant states that the required FAR cannot be accommodated within the as-of-right yard and sky exposure plane parameters and allow for efficient floor plates that will accommodate the young student body, thus necessitating the requested waivers of these provisions; and

WHEREAS, the applicant claims that a complying building would result in a taller building with irregular floor plates at the upper floors because of the sky exposure plane requirement, which would compromise the ability of the Yeshiva to occupy the building in a manner that meets its programmatic needs; and

WHEREAS, the applicant argues that the requested yard and sky exposure plane waivers would enable the Yeshiva to develop the site with a building with viable floor plates; and

WHEREAS, the applicant states that in addition to facilitating a uniform floor plate, the waivers also allow the Yeshiva's height to fit into the context of the neighborhood; and

WHEREAS, the applicant represents that the site has an unusually high water table which prevents the foundation from starting below seven to eight feet; and

WHEREAS, the applicant asserts that the inability to provide a full cellar below grade interferes with the Yeshiva's ability to meet all its programmatic needs on site, and requires

MINUTES

an encroachment into the side yard at that level; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical condition, when considered in conjunction with the programmatic needs of the Yeshiva, creates unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant need not address ZR § 72-21(b) since the Yeshiva is a not-for-profit organization and the proposed development will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant notes that the proposed use is permitted in the subject zoning district; and

WHEREAS, the applicant also notes that there is a three-story multiple dwelling located two buildings to the east of the site and that there are a number of community facilities interspersed amongst single family homes within the immediate vicinity; and

WHEREAS, as noted above, the applicant has submitted affidavits in support of the project from all but two immediate neighbors who could not be reached; and

WHEREAS, at hearing, the Board requested that the applicant decrease the floor to floor height in an effort to bring down the total building height; and

WHEREAS, at hearing, the project architect provided testimony that the floor to floor height was necessary to accommodate for mechanicals on each floor and that this dimension was standard for this kind of facility; and

WHEREAS, the applicant also submitted a chart noting six other similar educational institutions in Brooklyn and Queens with comparable floor to floor heights; and

WHEREAS, the applicant noted that the traffic impact would be minimal as a majority of students live nearby and would walk to school; and

WHEREAS, the Board observes that the proposed floor area and the proposed use are as of right; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet the programmatic needs of the Yeshiva could occur on the existing lot; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board finds the requested waivers to be the minimum necessary to afford the Yeshiva the relief needed to both meet its programmatic needs and to construct a building

that is compatible with the character of the neighborhood; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6 NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No.06BSA051Q, dated May 9, 2006; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the School Safety Engineering Division of the New York City Department of Transportation (DOT) has reviewed the subject proposal for potential impacts regarding student pedestrian safety as noted in a letter dated April 11, 2005; and

WHEREAS, the April 11, 2005 DOT letter states that “[w]e have no objection for the proposed school at the above-mentioned location;” and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site within an R4 zoning district, a proposed three-story plus cellar yeshiva, which does not comply with lot coverage, side yard, rear yard, sky exposure plane, and side setback requirements for community facilities, contrary to ZR §§ 24-11, 24-35, 24-36, 24-521, and 24-551, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received May 30, 2006” – ten (10) sheets; and *on further condition*:

THAT any change in ownership, control or ownership of the building shall require the prior approval of the Board;

THAT there shall be an 11’-0” decorative fence enclosing the play area on the third floor and roof;

THAT all fencing in the rear yard shall comply with

MINUTES

Building Code regulations;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT roof-top mechanicals shall comply with all applicable Building Code and other legal requirements, as reviewed and approved by the Department of Buildings; and

THAT some of the parameters of the subject building are as follows: three stories plus a cellar, a community facility and total FAR of 1.87; lot coverage of 66 percent; and a total height of 44'-6"; other parameters are as reflected on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 13, 2006.

28-06-BZ

APPLICANT – Harold Weinberg, P.E., for Moshe Plutchok, owner.

SUBJECT – Application February 16, 2006 – Special Permit, Z.R. §73-622 for the enlargement of an existing single family home which seeks to vary Z.R. §23-141 for increase in floor area, lot coverage and open space ratio, Z.R. §23-461 for side yards and Z.R. §23-47 for less than the required rear yard. The premise is located in an R3-1 zoning district.

PREMISES AFFECTED – 158 Beaumont Street, west side, 300' north of Oriental Boulevard, between Oriental Boulevard and Hampton Avenue, Block 8733, Lot 69, Borough of Brooklyn.

COMMUNITY BOARD #15BK

APPEARANCES –

For Applicant: Harold Weinberg, P.E.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated February 14, 2006, acting on Department of Buildings Application No. 302063451, reads, in pertinent part:

“[Proposed enlargement]

1. Creates a new non-compliance with respect to lot coverage and is contrary to Section 23-141 of the Zoning Resolution (ZR).
2. Creates a new non-compliance with respect to floor area ratio and open space and is contrary to Section 23-141 ZR.
3. Creates a new non-compliance with respect to rear yard and is contrary to Section 23-47 ZR.”; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, in an R3-1 zoning district, the proposed enlargement of a single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio (FAR), open space, and rear yard, contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on May 2, 2006, after due notice by publication in *The City Record*, with a continued hearing on May 16, 2006, and then to decision on June 13, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the Manhattan Beach Community Group recommended disapproval of an earlier version of the application, which proposed an FAR of 1.07, contending that this FAR would result in a home that would negatively impact the neighborhood character; and

WHEREAS, the subject lot is located on Avenue M at the northeast corner of Avenue M and East 21st Street; and

WHEREAS, the subject lot has a total lot area of 4,000 sq. ft., and is occupied by a 1,316 sq. ft. (0.33 FAR) single family dwelling; and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 1,316 sq. ft. (0.33 FAR) to 3,948.5 sq. ft. (0.99 FAR); the maximum floor area permitted is 2,400 sq. ft. (0.60 FAR, with attic bonus); and

WHEREAS, the proposed enlargement will decrease the open space from 2,684 sq. ft. to 2,377 sq. ft. (the minimum required open space is 2,600 sq. ft.) and increase the lot coverage from 23.2% to 41.3% (the maximum lot coverage is 35%); and

WHEREAS, the proposed enlargement will reduce the rear yard from 24'8" to 20'-0" (the minimum rear yard required is 30'-0"); and

WHEREAS, the enlargement of the building into the rear yard is not located within 20'-0" of the rear lot line; and

WHEREAS, the enlargement will maintain the existing side yards, and will result in a reduction in the front yard

MINUTES

from 25'-2" to 18'-0"; the front yard will still comply with the minimum 15 ft. requirement; and

WHEREAS, initially, the applicant proposed a perimeter wall height of 22'-6", but reduced it to 21'-0" at the Board's request; this height complies with the district regulations; and

WHEREAS, additionally, the applicant reduced the proposed FAR from 1.07 to 0.99, also at the Board's request; and

WHEREAS, the Board notes that this FAR is comparable to other FAR increases that the Board has granted through the subject special permit for lots of comparable size; and

WHEREAS, the Board also notes that the proposed front yard, though diminished, still complies with applicable R3-1 district requirements, and that the existing side yard width dimensions will be maintained; and

WHEREAS, finally, the Board observed other large homes in the neighborhood on its site visit, and finds that the proposed home is compatible with these other homes; and

WHEREAS, accordingly, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, in an R3-1 zoning district, the proposed enlargement of a single-family dwelling, which does not comply with the zoning requirements for Floor Area Ratio, open space, and rear yard, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "May 30, 2006"-(7) sheets and "June 9, 2006"-(3) sheets; and *on further condition*:

THAT there shall be no habitable room in the cellar;

THAT the above condition shall be set forth in the certificate of occupancy;

THAT the total FAR on the premises, including the attic, shall not exceed 0.99;

THAT the total attic floor area shall not exceed 753 sq. ft., as confirmed by the Department of Buildings;

THAT DOB shall review and approve the location of any garage

THAT the use and layout of the cellar shall be as approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 13, 2006.

PREMISES AFFECTED – 398-410 Kings Highway, southwest corner of Kings Place, Block 6678, Lot 73, Borough of Brooklyn.

COMMUNITY BOARD #11BK

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application made pursuant to Z.R. § 11-411, for a reopening and extension of term of a prior grant for a automotive and gasoline service station, which expired on November 25, 2005; and

WHEREAS, a public hearing was held on this application on June 6, 2006, after due notice by publication in *The City Record*, with a continued hearing on June 20, 2006, and then to decision on June 20, 2006; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application; and

WHEREAS, the subject 10,563 sq. ft. lot is located on Kings Highway at the southwest corner of Kings Place; and

WHEREAS, the site is located within an R7A (C2-3) zoning district and is improved upon with a gasoline service station; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 22, 1960 when, under BSA Cal. No. 289-58-BZ, Vol. II, the Board granted an application for the erection and maintenance of a gasoline service station, with lubricatorium, minor repairs with hand tools only, non-automatic auto laundry, office, storage and sales of auto accessories, and parking of more than five motor vehicles awaiting service; and

WHEREAS, subsequently, the term has been extended and the grant amended by the Board at various times, most recently on March 4, 1997, under the subject calendar number, for a term of ten years from the expiration of the prior grant, expiring on November 25, 2005; and

WHEREAS, the applicant now seeks an extension of term for ten years; and

WHEREAS, pursuant to Z.R. § 11-411, the Board may permit an extension of term for a previously granted variance; and

WHEREAS, based upon its review of the application, the Board finds it appropriate to grant the requested extension of

MINUTES

term, with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on November 22, 1960, so that as amended this portion of the resolution shall read: “to permit an extension of term, for an additional period of ten years from the expiration of the prior grant, to expire on November 25, 2015; *on condition* that all work shall substantially conform to drawings filed with this application marked ‘Received April 25, 2006’–(3) sheets and ‘June 13, 2006’–(1) sheet; and *on further condition*:

THAT the term of this grant shall expire on November 25, 2015;

THAT the condition above shall be listed on the Certificate of Occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(N.B. 1730/60)

Adopted by the Board of Standards and Appeals, June 20, 2006.

540-84-BZ

APPLICANT – Kenneth H. Koons, for Herman Pieck, owner.
SUBJECT – Application December 8, 2005 – Pursuant to section Z.R. §52-332 to legalize the change in use of a custom cabinet workshop (UG16A) to auto repair shops (UG16B) and to extend the term of the variance for ten years. The previous term expired June 10, 2006. The premise is located in an R3-2 zoning district.

PREMISES AFFECTED – 341 Soundview Avenue, southwest corner of Bolton Avenue, Block 3473, Lot 43, Borough of The Bronx.

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated April 4, 2006, acting on DOB Application No. 200940571 reads, in pertinent part:

“The legalization of the proposed change of use of the premises for motor vehicle repair shops and the extension of the term of variance beyond June 10,

2006, in an R3-2 zoning district, is contrary to Section 22-00 Z.R. and BSA Resolution Cal. No. 540-84-BZ and Certificate of Occupancy #58357.”; and

WHEREAS, this is an application under ZR §§ 11-412 and 11-413, on a site previously before the Board, to permit in an R3-2 zoning district, the legalization of the change from the previously approved Use Group 16 cabinet manufacturing use to a UG 16 automotive repair shop use, as well as minor interior changes related to this change of use, which is contrary to a variance previously granted under the subject calendar number; and

WHEREAS, a public hearing was held on this application on June 6, 2006 after due notice by publication in the *City Record*, and then to decision on June 20, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board; and

WHEREAS, Community Board 9, Brooklyn, recommends approval of this application; and

WHEREAS, additionally, City Council Member Annabel Palma recommends approval of this application; and

WHEREAS, the premises is located on the southwest corner of Soundview and Bolton Avenues and has a lot area of 9,927 sq. ft.; and

WHEREAS, the lot is improved with an automotive repair station with a floor area of 7,037 sq. ft.; and

WHEREAS, on June 10, 1986, under the subject calendar number, the Board permitted the erection of a one-story custom cabinet shop in an R3-2 zoning district, for a term of 20 years; and

WHEREAS, the record indicates that the custom cabinet shop closed in the early 1990s and that the automotive service/repair use has been continuous since 1993; and

WHEREAS, the record indicates that the only physical changes to the site since 1993 were in the interior, and include the addition of a spray booth and the relocation of partitions; and

WHEREAS, the application seeks to legalize the change in use from cabinetmaking workshop to automotive service and repair station, as well as the interior changes; and

WHEREAS, the Board has determined that the existing automotive service repair establishment will not impair the essential character or future use of development of the area; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under §§ 11-412 and 11-413 of the Zoning Resolution; and

Therefore, it is Resolved that the Board of Standards and Appeals issues a negative declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 11-412 and 11-413 and authorizes, in an R3-2 zoning district, the legalization of the change from the previously approved Use Group 16 cabinet manufacturing use to a UG 16 automotive repair shop

MINUTES

use, as well as minor interior changes related to this change of use, which is contrary to a variance previously granted under the subject calendar number, *on condition* that all work substantially conforms to drawings as they apply to the objection above noted, filed with this application marked "Received May 1, 2006"-(1) sheet and "June 12, 2006"-(1) sheet; and *on further condition*;

THAT the term of the variance shall be limited to ten years from the date of this grant, expiring on June 20, 2015;

THAT there shall be no cars parked on, or obstructing, the sidewalk;

THAT the hours of operation shall be limited to 8:00 a.m. to 6:30 p.m., Monday through Saturday;

THAT fencing and screening shall be provided in accordance with BSA-approved plans;

THAT the premises shall be kept graffiti-free;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 20, 2006.

THE RESOLUTION –

WHEREAS, this is an appeal requesting a Board determination that the owner of the premises has obtained the right to complete a proposed three-family, four-story building (the “Proposed Building”) under the common law doctrine of vested rights; and

WHEREAS, a public hearing was held on this application on February 14, 2006 after due notice by publication in *The City Record*, with continued hearings on March 14, 2006, April 11, 2006 and June 6, 2006, and then to decision on June 20, 2006; and

WHEREAS, the site was inspected by a committee of the Board, consisting of Chair Srinivasan and Vice-Chair Babbar; and

WHEREAS, the subject premises is an approximately 5,000 sq. ft. site fronting on 168th Place and was formerly occupied by a two-story residential structure; and

WHEREAS, the record indicates that the owner sought to subdivide the site into two lots, placing the Proposed Building on one of the new lots and an identical building on the other; and

WHEREAS, the premises is currently located within an R4A zoning district, but was formerly located within an R5 zoning district; and

WHEREAS, the zoning change occurred on October 13, 2004 (hereinafter, the “Enactment Date”), when the City

MINUTES

Council voted to adopt a zoning map amendment that affected the subject site; and

WHEREAS, the Proposed Building does not comply with the R4A district requirements, as that district only allows single and two family detached residences; and

WHEREAS, accordingly, the owner, represented by the applicant, made the instant vested rights application; and

WHEREAS, the Board observes that numerous cases establish that a vested rights claim must be predicated on a validly issued permit (see e.g. *Jayne Estates v. Raynor*, 22 N.Y.2d 417 (1968); *Reichenbach v. Windward at Southampton*, 364 N.Y.S.2d 283 (1975)); and

WHEREAS, thus, as a threshold matter in determining this appeal, the Board must find that the alleged work and expenditure claimed by the applicant as counting towards a vested rights determination was authorized by a valid permit; and

WHEREAS, the applicant claims that the following permits were obtained prior to the Enactment Date: (1) Demolition Permit No. 401865665, issued on or around May 21, 2004; and (2) Foundation Permit No. 402008723, issued on or around September 20, 2004 (hereinafter, the "Foundation Permit"); and

WHEREAS, the Board notes that the Foundation Permit was obtained pursuant to DOB's professional certification program by the developer's filing professional, and it did not receive a DOB plan examination prior to its issuance; and

WHEREAS, on June 9, 2004, the filing professional also submitted a professionally certified New Building Permit application, under Job No. 401954033 (for the Proposed Building); and

WHEREAS, this application was not approved at that time, and no New Building permit for the Proposed Building under this application was ever obtained, either prior to or after the Enactment Date; and

WHEREAS, additionally, no New Building Permit application was submitted for the adjacent building prior to the Enactment Date; and

WHEREAS, on October 28, 2004, which is after the Enactment Date, the New Building Permit application for the Proposed Building was erroneously professionally certified and approved as compliant with applicable laws by the owner's filing professional; and

WHEREAS, also on October 28, 2004, the owner's filing professional submitted a Subdivision Improvement application, in order to subdivide the site into two separate lots; and

WHEREAS, on October 29, 2004, the filing professional erroneously professionally certified and approved the New Building Permit application for the adjacent building, under Job No. 401954024; and

WHEREAS, no permits were obtained under either of the New Building Permit approvals after the Enactment Date; and

WHEREAS, additionally, the Subdivision Improvement application was not approved; instead, the subdivision application was objected to by DOB on November 4, 2005; and

WHEREAS, this led to further DOB action as to the erroneously professionally certified New Building Permit approvals; and

WHEREAS, on January 27, 2005, DOB sent a notice of its intent to revoke the New Building Permit approvals; and

WHEREAS, DOB subsequently revoked the New Building Permit approvals on July 21, 2005; and

WHEREAS, it appears that the applicant applied to the Board only for the right to vest the Proposed Building, and not the adjacent building, presumably because no New Building Permit application for the adjacent building was submitted to DOB prior to the Enactment Date, as noted above; and

WHEREAS, however, DOB states that its determination that there were no valid permits for development on the site applies to both the Proposed Building and the adjacent building; and

WHEREAS, the Board notes again that there was no subdivision approval prior to the Enactment Date, and that there were no New Building permits obtained before the Enactment Date; and

WHEREAS, the Board finds that the New Building Permit approvals erroneously professionally certified after the Enactment Date have no relevance as to the applicant's vested rights application; and

WHEREAS, notwithstanding the irrelevance of the erroneous New Building approvals, the applicant claims that the alleged work and expenditures undertaken by the owner subsequent to the obtainment of the professionally certified Foundation Permit can count towards vesting of the Proposed Building; and

WHEREAS, however, while the instant application was pending, DOB performed an audit of the Foundation Permit and determined that it was also invalid when issued; and

WHEREAS, the DOB audit revealed that the owner's filing professional failed to submit, or otherwise satisfy, the following items prior to professional certification approval of the Foundation Permit application: (1) zoning plan approval for both of the proposed dwellings; (2) Builder's pavement plan; (3) sewer connection approval; (4) boring test report; (5) preliminary architectural survey; (6) PC-1 checklist for all required items; (7) application for required construction equipment permit; and (8) five day notice to owners of adjacent properties and proof thereof; and

WHEREAS, accordingly, DOB sent a notice of its intent to revoke the Foundation Permit within ten days on February 14, 2006, to both the owner and the filing professional; and

WHEREAS, the applicant stated at hearing that this letter was not received by him personally or by the owner (but did not go so far as to say whether the filing professional received the letter); and

WHEREAS, the applicant also stated that regardless of receipt of the letter, no response would be necessary since there is no reason to respond to a DOB action on a permit that he believes is valid; and

WHEREAS, having received no response to the letter, DOB revoked the Foundation Permit approximately two months later on April 10, 2006; and

WHEREAS, the Board notes that the applicant had notice of the DOB audit of the Foundation Permit as early as February 7, 2006, the date of DOB's initial submission on

MINUTES

this application; and

WHEREAS, this February 7 submission clearly states on page 2 that the audit revealed that the Foundation Permit did not comply with several provisions of the Building Code, and references the specific problems; and

WHEREAS, the Board observes that not only did the applicant have notice of the pending audit through this proceeding, but the applicant also had the opportunity to address the findings of the audit, notwithstanding the failure to respond directly to DOB; and

WHEREAS, because of this, the Board does not consider the allegation that the applicant himself or the owner did not receive the notice, even if true, relevant in any respect; and

WHEREAS, in fact, during the hearing process, the applicant availed himself of the opportunity to address certain of the DOB audit objections; and

WHEREAS, as to zoning plan approval, the applicant stated that zoning approval for the Proposed Development is not a requirement of a valid foundation permit; and

WHEREAS, however, DOB cites to Building Code § 27-164, which provides, in sum and substance, that applications for foundation permits shall be accompanied by a lot diagram as provided in Building Code § 27-157; and

WHEREAS, Building Code § 27-157 provides, in sum and substance, that a lot diagram must show compliance with the Zoning Resolution, and indicate the size, height, and location of the proposed construction; and

WHEREAS, the record reveals that no zoning information in the form of a lot diagram was submitted in conjunction with the Foundation Permit application itself; and

WHEREAS, the applicant notes that New Building Permit application No. 401954033, for the Proposed Building, contained zoning information, but did not contest the fact that this application was not professionally certified as approved (i.e. compliant with zoning and other applicable laws) by the owner's filing professional until after the Enactment Date; and

WHEREAS, DOB states that Building Code § 27-157 was not satisfied here because the filing professional who certified the New Building application as approved did so after the Enactment Date, when it no longer complied with the Zoning Resolution; and

WHEREAS, the applicant claims DOB routinely approves foundation permits without any zoning compliance review whatsoever, but no evidence of such approvals was submitted by the applicant; and

WHEREAS, further, while the Vice-Chair of the Board did opine at hearing that the zoning information for a proposed development could be reflected in a partially approved New Building application and that this could be acceptable by DOB for purposes of issuance of a foundation permit, he did not say that zoning approval in some form is unnecessary for issuance of a foundation permit; in fact, the Vice-Chair stated that a plan examiner would need to review the footprint of the proposed building for compliance with zoning; and

WHEREAS, thus, the applicant has not provided any

evidence that: (1) the Foundation Permit itself contained the required information, as outlined above; or (2) that the New Building Permit application was approved as compliant with zoning prior to the Enactment Date; and

WHEREAS, the Board agrees with DOB that merely filing zoning information at DOB in a separate application, which was not even partially approved prior to the Enactment Date, is not the equivalent of compliance with the above-stated Building Code requirements for the Foundation Permit; and

WHEREAS, as to the submission of proof of the required five-day notice to affected property owners of foundation work, also cited as a deficiency of the Foundation Permit in the DOB audit, the applicant stated that the owner submitted this proof to DOB, and that he would submit this into the record; and

WHEREAS, however, no submission of this proof was received by the Board; and

WHEREAS, thus, leaving aside the deficiency of zoning plan approval, there were seven other cited deficiencies raised by DOB in the audit that provide a basis for revocation of the professionally certified Foundation Permit; and

WHEREAS, in sum, having had a reasonable opportunity during the course of this proceeding to respond to the DOB audit of the Foundation Permit, the Board finds that the applicant offered no persuasive response to the cited deficiencies; and

WHEREAS, based upon the above, the Board finds that DOB's revocation of the Foundation Permit as invalid upon issuance was a rational and supportable exercise of its authority as the City agency charged with review of such permit applications and enforcement of the Zoning Resolution and Building Code; and

WHEREAS, the Board notes that the applicant conceded in his July 6, 2006 submission that a property owner must proceed under a validly issued permit in order for rights to vest; in the instant case, DOB has determined, and the Board had confirmed, that there was no valid permit of any type under which vesting could be obtained; and

WHEREAS, notwithstanding this concession, when confronted with the revocation of the Foundation Permit, the applicant argued at the final hearing on this application that DOB has no authority to revoke a permit, even if invalid on its face, retroactively to the date of its issuance; and

WHEREAS, the applicant appears to be arguing that for vesting purposes, a permit is valid, and therefore presumably compliant with zoning and other applicable laws, up to the point at which DOB reviews the permit and discovers that in fact it is not valid because it does not comply with zoning or some other law; and

WHEREAS, the Board observes that if this argument was accepted, compliance with zoning and other legal requirements at the time of permit issuance would be rendered meaningless; and

WHEREAS, vested rights could be obtained under any permit obtained through professional certification, whether or not compliant with applicable laws; and

MINUTES

WHEREAS, as a consequence, developers and property owners would have an incentive to always professionally certify permit applications without first ascertaining whether the application and related plans complied with applicable laws; and

WHEREAS, the Board disagrees that it should modify, as suggested by the applicant, the well-established principle that a finding of common law vested rights must be predicated on a valid permit, especially when such modification is illogical, unprecedented, and results in an undesirable outcome; and

WHEREAS, nonetheless, the applicant claims that case law support this argument, and cited to certain cases at the last hearing, as well as in an unscheduled submission dated June 11, 2006; and

WHEREAS, one of the cited cases is *Pantelidis v. Board of Standards and Appeals*, 10 Misc. 3d 1077, 2005 WL 3722913 (2005) (hereinafter, “*Pantelidis I*”), a Supreme Court decision reviewing a Board action (the Board notes that this decision is currently being appealed); and

WHEREAS, this case arose not out of a vested rights determination, but out of a rejected variance application; and

WHEREAS, the *Pantelidis I* court held, in part, that for purposes of avoiding a finding that the hardship was self-created in the context of a variance application, a property owner may properly claim that there were expenditures made in good faith reliance upon a permit later ruled void on its face by the Board; and

WHEREAS, this decision does not address whether vested rights can be obtained based upon such good faith reliance; and

WHEREAS, in fact, the Board recognizes that the good faith reliance doctrine, which allows a variance to be predicated, in part, on reliance on an invalid permit, is an entirely separate construct from the common law vested rights doctrine, which requires a valid permit (see *Reichenbach*, 364 N.Y.S.2d at 294); and

WHEREAS, the applicant makes much of the fact that the *Pantelidis I* court uses the phrase “then-valid permit” liberally throughout the opinion, and that this phrase appeared to have been lifted from an earlier opinion of the First Department on a procedural matter related to the *Pantelidis* litigation, *Pantelidis v. Board of Standards and Appeals*, 13 AD3d 242 (1st Dep’t, 2004) (hereinafter, “*Pantelidis II*”); and

WHEREAS, though not entirely clear from the applicant’s oral or written statements, the argument appears to be that these two courts considered the permit revoked by the Board as contrary to zoning to be valid up until the point of revocation; and

WHEREAS, the Board is unconvinced that the *Pantelidis I* court was explicitly holding that permits are deemed to be valid until the time that either DOB or the Board determines that they were invalid when issued; and

WHEREAS, there is, in fact, nothing in the opinion to suggest that the *Pantelidis I* court was even reaching this question; the use of the phrase “then-valid permit” appears to be nothing more than an unfortunate choice of descriptive words; and

WHEREAS, in any event, as discussed above, the Board finds this argument untenable: if an approval and permit does not comply with applicable laws when issued, it is void on its

face, regardless of when DOB or this Board issues a determination as to its validity; and

WHEREAS, accordingly, the Supreme Court opinion in *Pantelidis I* does not support the applicant’s argument; and

WHEREAS, likewise, the *Pantelidis II* decision addresses the Supreme Court’s ability to hold a good faith reliance hearing as to the variance application where the Board did not; it does not establish that DOB, upon audit of a permit, is prohibited from revoking a permit or declaring it invalid when issued; and

WHEREAS, furthermore, the cases that the two *Pantelidis* courts cited when discussing the good-faith reliance doctrine do not use the phrase “then-valid”, nor do they hold that a finding of common law vesting may be obtained on a invalid permit; and

WHEREAS, the Board observes that in the seminal good faith reliance case, *Jayne Estates*, the Court of Appeals specifically referred to the permit at issue in that litigation as “invalid”, and noted that the good-faith reliance was on an “invalid permit”, not a “then-valid” permit; and

WHEREAS, finally, the Board notes that its revocation of the permit at issue in the *Pantelidis* litigation was upheld by the Supreme Court in an Article 78 proceeding that occurred prior to the *Pantelidis I* and *II* decisions; and

WHEREAS, specifically, in *Pantelidis v. BSA*, Index No. 110532/01 (filed January 10, 2002) (hereinafter, *Pantelidis III*), the court, when referring to the work proposed under the permit, stated that DOB had “impermissibly allowed” such construction and characterized DOB’s approval of the work “misplaced” (see *Pantelidis III* at 16); and

WHEREAS, the *Pantelidis III* court also noted that the construction under the permit was illegal, and chastised the party that obtained the permit for its attempt to “circumvent to the applicable ZR roadblocks and gain DOB approval” for the proposed construction (see *Pantelidis III* at 17); and

WHEREAS, the Board reads the *Pantelidis III* decision as affirmation that a permit that is void on its face because it fails to comply with the Zoning Resolution and/or Building Code is not valid for any purpose at any time; and

WHEREAS, in conclusion, after reviewing the three cited *Pantelidis* decisions, the Board finds that none of them support the applicant’s argument; and

WHEREAS, the June 11 submission also cites to *Lefrak Forest Hills Corp. v. Galvin*, 338 N.Y.S.2d 932 (1st Dep’t 1972), and states that the *Pantelidis I* court applied the holding of this case in support of a conclusion that it was applicable to both zoning and administrative appeals cases; and

WHEREAS, the Board notes, however, that *Lefrak* does not appear to be applied or even cited in *Pantelidis I*; and

WHEREAS, unfortunately, the applicant’s argument as to this point was not developed further in the June 11 submission; and

WHEREAS, in any event, the Board is aware of the *Lefrak* decision, and does not consider it relevant; there is no suggestion in the opinion that common law vested rights may be obtained without a valid permit; and

WHEREAS, the other cases cited by the applicant in the

MINUTES

June 11 submission concern the substantial expenditures and construction aspect of the common law vested rights doctrine; and

WHEREAS, because none of the alleged expenditure and work relate to valid permits, the Board finds that consideration of the applicant's contentions as to the degree of expenditure and work needed to vest under the common law doctrine of vested rights is unnecessary; and

WHEREAS, based upon its review of the record and the considerations set forth above, the Board concludes as follows: (1) binding case law holds that vested rights can not accrue when the work was performed under an invalid permit; (2) DOB correctly determined that the Foundation Permit was invalid when obtained by the owner's filing professional through professional certification; and (3) since none of the purported expenditure was incurred or work was performed pursuant to a valid permit, the applicant has no vested right to continue construction on the Proposed Building, or on the adjacent building, since the Foundation Permit was for both.

Therefore it is Resolved that the subject appeal, requesting a Board determination that the owner of the subject premises has obtained the right to complete a proposed three-family, four-story building under the common law doctrine of vested rights, is hereby denied.

Adopted by the Board of Standards and Appeals, June 20, 2006.

360-05-BZY

APPLICANT – Greenberg & Traurig, LLP for 400 15th Street, LLC, owner.

SUBJECT – Application December 14, 2005 – Proposed extension of time to complete construction of a minor development pursuant to Z.R. 11-331 for a multi family 3 story residential building under the prior Zoning R5. New Zoning District is R5B as of November 16, 2005.

THE RESOLUTION –

WHEREAS, this is an application under ZR § 11-331, to renew a building permit and extend the time for the completion of the foundation of a five-story residential building; and

WHEREAS, this application was brought concurrently with a companion application under BSA Cal. No. 368-05-A, decided the date hereof, which is a request to the Board for a finding that the owner of the premises has obtained a vested right to continue construction under the common law; and

WHEREAS, the Board notes that while separate applications were filed according to Board procedure, in the interest of convenience, it heard the cases together and the record is the same for both; and

WHEREAS, a public hearing was held on this application on March 29, 2006 after due notice by publication in *The City Record*, with continued hearings on May 2, 2006 and May 16, 2006, and then to decision on June 20, 2006; and

WHEREAS, the site was inspected by a committee of the Board, consisting of Chair Srinivasan and Commissioner Collins; and

WHEREAS, Community Board 7, Concerned Citizens of Greenwood Heights, and South Slope Community Group, appeared in opposition to the application; and

WHEREAS, certain elected officials, including State Senator Velmanette Montgomery, State Assemblyman James Brennan and Public Advocate Betsy Gotbaum, also provided testimony in opposition to the application; and

WHEREAS, the above-mentioned elected officials, community groups, and neighbors (hereinafter, collectively referred to as the "opposition") opposed the granting of any relief to the applicant, for reasons discussed below; and

WHEREAS, the subject premises is located on the south side of 15th Street, 205'-5" west of the intersection of Eighth Avenue and 15th Street; and

WHEREAS, the subject lot is approximately 75 ft. wide by 100 ft. deep, with a total lot area of 7,656 sq. ft.; and

WHEREAS, the applicant proposes to develop the site with a five-story residential building with 16,743 sq. ft. of residential floor area (2.2 FAR), with a full cellar, and a first-floor parking garage (the "Building"); and

WHEREAS, the subject premises is currently located within an R6B zoning district, but was formerly located within an R6 zoning district; and

WHEREAS, the Building complies with the former R6 zoning bulk parameters; specifically, building height (55 ft. was permitted), setback (a setback was required at 45 ft.) and floor area (2.2 FAR was the maximum permitted); and

WHEREAS, however, on November 16, 2005 (hereinafter, the "Enactment Date"), the City Council voted to adopt the Park Slope South rezoning, which rezoned the site to R6B, as noted above; and

WHEREAS, because the site is now within an R6B district, the proposed development would not comply with such

MINUTES

parameters; and

WHEREAS, on July 8, 2005, the Department of Buildings issued a New Building permit (New Building Permit No. 301748777; hereinafter the "NB Permit") for the Building; and

WHEREAS, the validity of the NB Permit when issued has not been questioned and is not at issue in this appeal; and

WHEREAS, because the Building violated the provisions of the new R6B zoning district and work on the foundation was not completed as of the Enactment Date, the NB Permit lapsed by operation of law; and

WHEREAS, additionally, the Department of Buildings issued a stop work order on November 22, 2005 for the NB Permit; and

WHEREAS, the applicant now applies to the Board to reinstate the permits pursuant to ZR § 11-331; and

WHEREAS, ZR § 11-331 reads: "If, before the effective date of an applicable amendment of this Resolution, a building permit has been lawfully issued . . . to a person with a possessory interest in a zoning lot, authorizing a minor development or a major development, such construction, if lawful in other respects, may be continued provided that: (a) in the case of a minor development, all work on foundations had been completed prior to such effective date; or (b) in the case of a major development, the foundations for at least one building of the development had been completed prior to such effective date. In the event that such required foundations have been commenced but not completed before such effective date, the building permit shall automatically lapse on the effective date and the right to continue construction shall terminate. An application to renew the building permit may be made to the Board of Standards and Appeals not more than 30 days after the lapse of such building permit. The Board may renew the building permit and authorize an extension of time limited to one term of not more than six months to permit the completion of the required foundations, provided that the Board finds that, on the date the building permit lapsed, excavation had been completed and substantial progress made on foundations."; and

WHEREAS, because the proposed development contemplates construction of one building, it meets the definition of minor development; and

WHEREAS, since the proposed development is a minor development, the Board must find that excavation was completed and substantial progress was made as to the required foundation; and

WHEREAS, based upon its review of the evidence, the Board has determined that excavation was not completed; and

WHEREAS, the Board notes that due to litigation with the neighbor at 396 15th Street, the court issued a temporary restraining order on August 5, 2005, which halted all non-remedial excavation and construction within 15 ft. of the neighboring property; and

WHEREAS, based upon the record before it, the Board is unable to conclude that excavation for the proposed development was complete or would have been completed had there not been a stop work order; and

WHEREAS, as to substantial progress on the foundation,

the Board has only considered work completed as of the Enactment Date and excluded all remedial work ordered by DOB since that date; and

WHEREAS, the Board observes that while 39 percent of the total foundation costs have been expended for helical piles, shoring, and steel plates, a considerably smaller percentage of actual physical foundation work was completed; and

WHEREAS, specifically, the applicant represents that only 3.0 percent, or 2.5 tons out of a total of 73 tons, of rebar have been installed, and only 6 percent, or 58.5 cubic yards out of a total of 757 cubic yards, of concrete has been poured; and

WHEREAS, additionally, the Board notes that substantial progress has not been made on other primary elements of the foundation, including the reinforcement and concrete pouring; and

WHEREAS, again, based upon the record before it, the Board determines that substantial progress on the foundation was not completed; and

WHEREAS, accordingly, because excavation was not complete and substantial progress was not made on the foundation, the applicant is not entitled to relief pursuant to ZR § 11-331; and

WHEREAS, however, the Board notes that the applicant has also filed the above-mentioned companion application, which requests a determination that the applicant has obtained a vested right under the common law to complete construction under the NB Permit; and

WHEREAS, accordingly, although the Board, through this resolution, denies the owner of the site the six-month extension for completion of construction that is allowed under ZR § 11-331, this denial is not an impediment to the reinstatement of the permit made by the Board under BSA Cal. No. 368-05-A.

Therefore it is Resolved that this application to renew DOB Permit No. 301748777 pursuant to ZR § 11-331 is denied.

Adopted by the Board of Standards and Appeals, June 20, 2006.

368-05-A

APPLICANT – Greenberg & Traurig, LLP for 400 15th Street, LLC, owner.

SUBJECT – Application December 22, 2005 – An appeal seeking a determination that the owner of said premises has acquired a common law vested rights to continue development commenced under the prior Zoning R6. New Zoning District is R6B as of November 16, 2005.

PREMISES AFFECTED – 400 15th Street, south side of 15th Street, 205'-5" west of intersection of 8th Avenue and 15th Street, Borough of Brooklyn.

THE RESOLUTION –

MINUTES

WHEREAS, this is an appeal requesting a Board determination that the owner of the premises has obtained a vested right under the common law to complete a proposed development at the referenced premises; and

WHEREAS, this application was brought concurrently with a companion application under BSA Cal. No. 360-05-BZY (the "BZY Application"), decided the date hereof, which is a request to the Board for a finding that the owner of the premises has obtained a right to continue construction pursuant to ZR § 11-331; and

WHEREAS, the Board notes that while separate applications were filed according to Board procedure, in the interest of convenience, it heard the cases together and the record is the same for both; and

WHEREAS, a public hearing was held on this application on March 29, 2006 after due notice by publication in *The City Record*, with continued hearings on May 2, 2006 and May 16, 2006, and then to decision on June 20, 2006; and

WHEREAS, the site was inspected by a committee of the Board, consisting of Chair Srinivasan and Commissioner Collins; and

WHEREAS, Community Board 7, the Concerned Citizens of Greenwood Heights, and the South Park Slope Community Group appeared in opposition to the application; and

WHEREAS, certain elected officials, including State Senator Velmanette Montgomery, State Assemblyman James Brennan, and Public Advocate Betsy Gotbaum provided testimony in opposition to the application; and

WHEREAS, the above-mentioned elected officials, community groups, and neighbors (hereinafter, collectively referred to as the "opposition") opposed the granting of any relief to the applicant, for reasons discussed below; and

WHEREAS, the applicant states that the subject premises fronts on the south side of 15th Street between 7th and 8th Avenues, on a 7,656 sq. ft. lot, with frontage of approximately 75 ft. and a depth of 100 ft.; and

WHEREAS, the applicant proposes to develop the site with a five-story plus cellar residential building, with 7,035 sq. ft. of floor area (the "Building"); and

WHEREAS, the subject premises was formerly located within an R6 zoning district; and

WHEREAS, on November 16, 2005 (hereinafter, the "Enactment Date"), the City Council voted to adopt the Park Slope South rezoning, which rezoned the site to R6B; and

WHEREAS, the Building complied with the former R6 zoning district parameters as to floor area, setback and height; and

WHEREAS, however, because the site is now within an R6B district, the proposed development would not comply with these bulk parameters; and

WHEREAS, the applicant notes that the construction on the site was often constrained; and

WHEREAS, the applicant provided the following chronology of development on the site: (1) excavation commenced in May 2005; (2) during excavation, the owner discovered that the foundations of adjacent buildings were unstable and that soil conditions were worse than anticipated; (3) permits for construction were issued on July 8, 2005; (4)

the discovered foundation and soil problems resulted in the need to redesign the foundation for the Building; (5) the redesign included work that had to be performed on adjacent buildings, but one adjacent building owner did not consent; (6) this adjacent owner filed suit and the court issued a restraining order on August 5, 2005, preventing construction or excavation within 25 ft. of the adjacent owner's building; and (7) revised foundation plans under the construction permit, which addressed the soil conditions, were approved by DOB on October 4, 2005; and

WHEREAS, the applicant claims that construction was thus limited to certain portions of the site and that further delays arose out of the need to redesign the foundation; and

WHEREAS, the applicant contends that the owner was unable to ascertain the extent of soil and adjacent property conditions prior to commencement of construction; and

WHEREAS, the Board agrees that such construction difficulties are normal within the City; and

WHEREAS, however, the Board notes that the owner could have simply started construction sooner to avoid the impact that these problems may have had on the course of construction; and

WHEREAS, the Board finds that ensuring that work is done appropriately based on an assessment of the conditions on the site is a responsibility of the developer, even where it is difficult to assess how construction methods might need to be adjusted without first commencing construction; and

WHEREAS, thus, the Board bases its decision herein on the amount of work performed and expenditure made as of the Enactment Date, and is not granting any special exceptions in its analysis because the owner experienced construction difficulties; and

WHEREAS, the Board also notes in passing that work was performed at the site after the Enactment Date, but finds that the applicant conclusively established that this work was done with the express authorization of DOB, in furtherance of making the site safe; and

WHEREAS, notwithstanding the limited amount of time that construction was actually permitted, the applicant requests that the Board find that based upon the serious economic loss the owner would face if compelled to comply with the new zoning, the amount of work performed, and the amount of financial expenditures, including irrevocable commitments, the owner has a vested right to continue construction and finish construction of the Building; and

WHEREAS, the Board notes that established precedent exists for the proposition that seeking relief pursuant to ZR 11-30 et seq. does not prevent a property owner from also seeking relief under the common law; and

WHEREAS, as a threshold matter in determining this appeal, the Board must find that the completed work was conducted pursuant to a valid permit; and

WHEREAS, the applicant states that on July 8, 2005, a New Building permit (Permit No. 301748777; hereinafter, the "NB Permit") for the Building was issued by DOB; and

WHEREAS, the Board notes that the validity of the NB Permit was not questioned by the opposition or DOB; thus, it is not an issue in the instant application; and

MINUTES

WHEREAS, assuming that a valid permit had been issued and that work proceeded under it, the Board notes that a common law vested right to continue construction generally exists where serious loss will result if the owner is denied the right to proceed under the prior zoning, and the owner has undertaken substantial construction and made substantial expenditures prior to the effective date of a zoning change; and

WHEREAS, specifically, as held in *Putnam Armonk, Inc. v. Town of Southeast*, 52 A.D.2d 10 (2d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner's rights under the prior ordinance are deemed vested "and will not be disturbed where enforcement [of new zoning requirements] would cause 'serious loss' to the owner," and "where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance."; and

WHEREAS, however, notwithstanding this general framework, as discussed by the court in *Kadin v. Bennett*, 163 A.D.2d 308 (2d Dept. 1990) "there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right'. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action"; and

WHEREAS, as to the serious loss finding, the applicant contends that the loss of floor area that would result if vesting was not permitted is significant; and

WHEREAS, the applicant notes that the permissible Floor Area Ratio (FAR) would decrease from 2.2 FAR to 2.0 FAR, but more importantly, because of the requirement for a setback at 40 ft., and the maximum height of 50 ft., the rezoning would require the owner to eliminate one full floor of the Building as proposed, and eliminate two units on the fourth floor; and

WHEREAS, the applicant states that this would result in an approximately one-third reduction in sellable floor area; and

WHEREAS, during the course of the public hearing process, the Board asked for further amplification of the owner's projected serious loss; and

WHEREAS, the Board suggested that design changes to the Building, such as a reduction in the floor to ceiling heights or a dropping of the height of the ground floor (proposed at 22.5 ft. from floor to ceiling), could avoid the projected loss of floor area; and

WHEREAS, the applicant responded by noting that a reduction in the floor to ceiling heights throughout the Building would decrease the desirability and marketability of the units, and therefore overall projected revenue would still be diminished; and

WHEREAS, further, in a submission dated June 6, 2006, the applicant stated that the first floor was designed with the above-mentioned floor to ceiling height, and was raised 4'-2" above grade level, in order to provide more marketable ground floor residential space, with windows that would look out above eye-level on the sidewalk; and

WHEREAS, further, this design allowed for a portion of the cellar to be above grade, which permits cellar

windows; and

WHEREAS, the applicant states that if the ground floor were dropped 4.5 ft. into the cellar space in order to reduce the height of the building, the double-height area of the first floor would be reduced so that windows would be lowered to pedestrian eye-level, and the cellar height would be reduced so that no windows could be provided; and

WHEREAS, the applicant submitted a statement from a real estate broker, opining that such a redesign would diminish revenue from the ground floor unit from 600 to 450 dollars per sq. ft.; and

WHEREAS, the applicant also provided a detailed chart in the June 6 submission, outlining what hard and soft costs already incurred would be impossible to recoup if the Building had to comply with the new R6 zoning; and

WHEREAS, this chart sets forth both the dollar amount and the justification for the conclusion that the costs would be wasted; and

WHEREAS, the applicant states that \$577,492 of costs would be wasted if the Building is required to comply with the new zoning; and

WHEREAS, the Board agrees that a diminution in the value of units within the building because of the need to redesign coupled with \$577,492 of wasted costs constitutes a serious economic loss, and that the supporting data submitted by the applicant supports this conclusion; and

WHEREAS, as a point of clarification, the Board notes that the instant application is not one for a variance based on hardship, but is rather an application for a finding that the owner has obtained a vested right to continue construction; and

WHEREAS, the vested rights doctrine is rooted in the 14th Amendment of the Constitution of the United States, and its application to construction in New York State has been guided and shaped by the courts; and

WHEREAS, unlike a variance, no showing of uniqueness is required, nor is the self-created hardship doctrine applicable; and

WHEREAS, further, the serious loss standard is not the same as the unnecessary hardship standard: the applicant does not have to show that no reasonable return could be gained from a development that complies with the new zoning; and

WHEREAS, a serious loss determination may be based in part upon a showing that certain of the expenditures could not be recouped if the development proceeded under the new zoning, but in the instant application, the determination was also grounded on the applicant's discussion of the diminution in income that would occur if the FAR, height and setback limitations of the new zoning were imposed; and

WHEREAS, as to substantial construction, the applicant states that the owner has completed demolition, land clearing and excavation; and

WHEREAS, the applicant also states that the owner has installed 164 out of the 200 required helical pile for underpinning, all of the required shoring, and one of the two necessary support walls for adjacent buildings; and

WHEREAS, in support of this statement, the applicant has submitted pictures, invoices for construction materials and labors, and plans reflecting the degree of underpinning

MINUTES

and wall work completed; and

WHEREAS, the Board has reviewed the representations as to the amount and type of work completed and the documentation submitted in support of the representations, and agrees that it establishes that substantial work was performed; and

WHEREAS, the Board's conclusion is based upon a comparison of the type and amount of work completed in the instant case with the type and amount of work discussed by New York State courts; and

WHEREAS, specifically, the Board has reviewed the cases cited in the applicant's December 21, 2005 submission, as well as other cases of which it is aware through its review of numerous vested rights applications, and agrees that the degree of work completed by the owner in the instant case is comparable to the degree of work cited by the courts in favor of a positive vesting determination; and

WHEREAS, as to expenditure, the Board notes that unlike an application for relief under ZR § 11-30 et seq., soft costs and irrevocable financial commitments can be considered in an application under the common law; accordingly, these costs are appropriately included in the applicant's analysis; and

WHEREAS, the applicant states that the owner has already expended or become obligated for the expenditure of \$3.45 million of a \$7 million project; and

WHEREAS, however, the Board notes that these totals include the purchase price; and

WHEREAS, the applicant states that this cost may properly be included in an analysis of expenditure; and

WHEREAS, the Board agrees that there is no impediment to consideration of such a cost, but also notes that it is not required; and

WHEREAS, the Board has not analyzed purchase price in its past consideration of vested rights cases, and declines to do so here; and

WHEREAS, while it is reasonable to conclude that a purchase price is based upon the zoning in effect at the time of the purchase, the Board notes that this is not always the case, and further observes that not all transactions are recent or arms-length; and

WHEREAS, thus, the Board finds that the relevance of this cost may be difficult to ascertain in many circumstances; and

WHEREAS, the Board concludes that it better to assess expenditure in light of total development costs absent the purchase price; and

WHEREAS, here, the stated acquisition price is \$2.2 million; subtracting this amount from both the expenditure total and the development costs means that the owner expended or committed approximately \$1.25 million out of \$4.8 million (or approximately 26 percent); and

WHEREAS, the applicant states that other expenses relate to excavation, foundation work, architectural and engineering fees, insurance and filing fees, taxes, surveying costs, and a small amount of miscellaneous costs, among other items; and

WHEREAS, furthermore, as to actual construction costs related to foundation construction, the Board observes that the applicant has spent approximately \$381,000 out of the expected

total cost of \$780,000, as illustrated in a chart provided in the applicant's initial submission; and

WHEREAS, as proof of the expenditures, the applicant has submitted an affidavit from the owner, bank statements, invoices for excavation and foundation work, checks and invoices for the other professional work, and proof of payment for the other items; and

WHEREAS, the Board considers the amount of expenditure and irrevocable commitments significant, both in of itself for a project of this size, and when compared against the development costs (minus the purchase price); and

WHEREAS, again, the Board's consideration is guided by the percentages of expenditure cited by New York courts considering how much expenditure is needed to vest rights under the prior zoning; and

WHEREAS, in sum, the Board has reviewed the representations as to serious loss, the work performed, and the expenditures made, and the supporting documentation for such representations, and agrees that that the applicant has satisfactorily established that a vested right to complete construction of the Building had accrued to the owner of the premises as of the Enactment Date; and

WHEREAS, the opposition expressed concerns about various aspects of this application; and

WHEREAS, specifically, the opposition contended: (1) that the foundation was not complete; (2) that the percentage of foundation work was not sufficient to sustain a positive vesting determination; (3) that work was done illegally after-hours or in an unsafe manner; (4) that there were DOB violations issued that resulted in stop-work orders; and (5) that the purchase price was excessive and would skew the analysis if folded in; and

WHEREAS, the Board notes that there is no requirement under the common law of vested rights that the foundation for the development under consideration be completed; and

WHEREAS, as to the progress on foundations, the Board reiterates that the degree of construction at the site was substantial enough to meet the guideposts established by case law for such a finding; and

WHEREAS, as to impermissible work, the Board observes that no evidence of impermissible after-hours or weekend work was submitted into the record; and

WHEREAS, DOB's Building Information System records for the subject premises indicates that only one of the numerous complaints lodged with DOB from May 2005 (commencement of excavation) to November 16, 2005 (the date of the rezoning) was for after-hours work, and that this complaint was inspected, no work was observed, and no violation was issued; and

WHEREAS, as to the stop-work order contention, the Board notes that the only stop-work order issued by DOB was issued after the Enactment Date, because the zoning had changed; and

WHEREAS, finally, any concern that the owner overpaid for the site is rendered moot by the Board's removal of acquisition costs from the considered expenditures; and

WHEREAS, the Board understands that the community

MINUTES

and the elected officials worked diligently on the Park Slope South rezoning and that the Building does not comply with the new R6B zoning parameters; and

WHEREAS, however, the applicant has met the test for a common law vested rights determination, and the Board has determined that the equities in this case, given the established serious loss, and the degree of work performed and expenditures made, weigh in the favor of the owner; and

WHEREAS, accordingly, based upon its consideration of the arguments made by the applicant and the opposition as outlined above, as well as its consideration of the entire record, the Board finds that the owner has met the standard for vested rights under the common law and is entitled to the requested reinstatement of the NB Permit, and all other related permits necessary to complete construction.

Therefore it is Resolved that this appeal made pursuant to the common law of vested rights requesting a reinstatement of DOB Permit No. 301748777, as well as all related permits for various work types, either already issued or necessary to complete construction and obtain a certificate of occupancy, is granted for four years from the date of this grant.

Adopted by the Board of Standards and Appeals, June 20, 2006.
