HOUSING AND COMMUNITY RENEWAL

■ PUBLIC HEARINGS

Public Notice is Hereby Given pursuant to §26-405a(9) of the New York City Rent and Rehabilitation Law that the New York State Division of Housing and Community Renewal (DHCR) will conduct a public hearing to be held at 250 Broadway, 19th floor, New York State

Assembly Hearing Room, New York, NY 10007 on Thursday,

November 16, 2023 for the purpose of collecting information relating
to all factors which the DHCR may consider in establishing a Maximum Base Rent (MBR) for rent controlled housing accommodations located in the City of New York for the 2024-2025 biennial MBR cycle. It should be

noted the 2019 Housing Stability and Tenant Protection Act (HSTPA) impacts the formula for calculating Maximum Collectible Rent (MCR) increases. The 5-year averaging of 1-year rent guidelines results in significantly lower annual increases in the MCR than the prior formula, which allowed up to a 7.5% annual increase in the MCR over 2 years until the MBR is reached. The morning session of the hearing will be held from 10:00 A.M. to 12:30 P.M.; the afternoon session will run from 2:00 P.M. to 4:30 P.M.

Pre-registration of speakers is advised. Those who wish to pre-register may contact the office of Christopher Padrón, Executive Assistant, at (718) 262-4822 or email Christopher.padron@hcr.ny.gov and state the time they wish to speak at the hearing and whom they represent. Pre-registered speakers who have reserved a time to speak will be heard at approximately that time. Speakers who register the day of the hearing will be heard in the order of registration at those times not already reserved by pre-registered speakers. Speaking time will be limited to five minutes in order to give as many people as possible the opportunity to be heard. Speakers should be prepared to submit copies of their remarks to the DHCR official presiding over the hearing. The hearing will conclude when all registered speakers in attendance at the hearing have been heard. DHCR will also accept written testimony submitted prior to the end of the hearing. Submissions may also be sent in advance to Christopher Padrón, Executive Assistant, 6th Floor, Division of Housing and Community Renewal, Gertz Plaza, 92-31 Union Hall Street, Jamaica, NY 11433. To obtain a report on the DHCR recommendation for the 2018-2019 MBR cycle, interested parties should call (718) 262-4822 or email Christopher.padron@hcr.ny.gov

PRE-QUALIFIED LIST (PQL) PROGRAM FOR VARIOUS TRADES

NYCHA is currently accepting applications for Pre-Qualified List (PQL) program for various trades.

A PQL is a tool that NYCHA will use to qualify vendors and contract goods or services for its developments, streamlining the process for both vendors and NYCHA. NYCHA will publish contracting opportunities, and the PQL will predominantly be used to procure goods or services for those contracts. Vendors who apply to those bids must pre-qualify according to specific criteria, and vendors who are admitted to the PQL can bid on contracts.

Currently NYCHA has established four (4) PQL lists for the Closed-Circuit Television (CCTV), Carpentry, Painting and Lead Based Paint (Assessment and Abatement, Inspection and Assessment & Lab Analysis).

All vendors interested in NYCHA's PQLs must follow two (2) important steps:

First, vendors must prepare and submit applications to the PQL: To pre-qualify, vendors must meet the minimum requirements listed on the Request for Qualification of the select PQL. Applications will be evaluated by NYCHA on a rolling basis.

Second, vendors who are admitted to the PQL can then bid on solicitations for services on the PQL: Vendors must bid on each contract award, as these are not guaranteed.

For more information regarding PQL's and to obtain applications, please visit NYCHA's website at: https://www.nyc.gov/site/nycha/business/nycha-pql.page.

Statement of No Significant Effect

Pursuant to Executive Order 91 of 1977, as amended, and the Rules of Procedure for City Environmental Quality Review, found at Title 62, Chapter 5 of the Rules of the City of New York and 6 NYCRR, Part 617, State Environmental Quality Review, the Department of City Planning acting on behalf of the City Planning Commission assumed the role of lead agency for the environmental review of the proposed actions. Based on a review of information about the project contained in this environmental assessment statement (EAS) and any attachments hereto, which are incorporated by reference herein, the lead agency has determined that the proposed actions would not have a significant adverse impact on the environment.

Reasons Supporting this Determination

The above determination is based on information contained in this EAS, which finds the proposed actions sought before the City Planning Commission would not have a significant adverse impact on the environment. Reasons supporting this determination are noted below.

Land Use, Zoning, and Public Policy

A detailed analysis of land use, zoning, and public policy is included in the EAS. The Applicant, 54 Richards Street, LLC, seeks a zoning map amendment to rezone Brooklyn Block 512, Lots 13, 20, 22, and a portion of Lot 25 (the "Project Area") from an M1-1 district to an M1-5 district (the "Proposed Action"). The Proposed Action would facilitate the development of a seven-story plus cellar, 113,557 gross square foot (gsf) mixed-use building with 41 parking spaces on Block 512 Lots 13 and 20 (Projected Development Site 1), located at 41 Richards Street in the Red Hook neighborhood of Brooklyn, Community District 6. For the purposes of a conservative analysis, a Reasonable Worst Case Development Scenario was developed that assumes a 137,112 gsf nine-story, 120-foot-tall building consisting of 19,170 gsf of commercial space (2,730 gsf of retail space and 16,440 gsf of office space), 70,013 gsf of light manufacturing space, and 29,915 gsf of community facility space. The proposed project includes a 22,017 gsf parking garage between the cellar and the first floor with 41 space, and two separate 4,000 gsf loading berths at the cellar level and first floor. Land uses in the surrounding 400-foot area are predominantly industrial and manufacturing north of Verona Street and primarily residential and institutional south of Verona Street. Additionally, consistency with the NYC Waterfront Revitalization Program (WRP) is included in the appendix of the EAS. The WRP Policy Assessment and Consistency Form demonstrate that the proposed project is consistent with the policies of the WRP (WRP 17-166). The proposed project would be compatible with existing surrounding land uses and development trends. The Proposed Action would be consistent with applicable public policy goals. As a result, the Proposed Action would not result in a significant adverse impact to land use, zoning, or public policy, and no further analysis is warranted.

Historic and Cultural Resources

A detailed analysis related to Historical and Cultural Resources included in this EAS identified multiple architectural resources within the study area, including the State and National Register-eligible (S/NR) Engine Company 202 building at 29-31 Richards Street (Block 512, Lot 22) within the surrounding area of the Proposed Action. S. NR eligible proporties within the study area included 20 D. Lee Company 202 building the study area included 20 D. Lee Company 202 building the study area included 202 D. Lee Company 202 building the study area included 202 D. Lee Company 202 building the study area included 202 D. Lee Company 202 building the study area included 202 D. Lee Company 202 building the State and National Register-eligible (S/NR) Engine Company 202 building at 29-31 Richards Street (Block 512, Lot 22) within the surrounding area of the Proposed Action. Street (Block 512, Lot 22) within the surrounding area of the Proposed Action. NR-eligible properties within the study area include 26 Delavan Street,

80 Richards Street, 86 Richards Street, 19 Delavan Street/5 Delevan Street, 42-50 Richards Street, and the Brooklyn Battery Tunnel Main Services Building at Hamilton Avenue and Columbia Street. Although the project site does not contain any historic architectural resources, it is adjacent to and within 90 feet of several identified historical architectural resources. No direct impacts are anticipated, but indirect construction-related effects through ground-borne construction activities would be anticipated. As a result, the Proposed Actions incorporate a Restrictive Declaration (RD) requiring the implementation of a Landmarks Preservation Commission-approved (LPC) Construction Protection Plan as a project component related to the environment. In consultation with the LPC, it was determined that there are no cultural resources of archaeological significant within the study area. As a result, with the RD in place, the Proposed Actions would not result in significant adverse impacts to architectural or archaeological resources and no further analysis is warranted.

Urban Design and Visual Resources

A detailed analysis related to Urban Design and Visual Resources is included in the EAS. The Proposed Action would alter the pedestrian environment by permitting a higher bulk and height in the Project Area, whereas the permitted setbacks and lot coverage would remain the same. The proposed project would be consistent with the built form in the surrounding area, albeit at a slightly greater height and scale, and the permitted street wall under the Proposed Action would be consistent with nearby manufacturing building. Pedestrian conditions would be improved in the with-action condition, as sidewalks on Richards Street and Commerce Street adjacent to the project site would be widened to 15 feet and additional street trees would be planted. Further, the Proposed Action would not result in substantial changes to the built environment of a historic district or to a historic building. Two S/NR eligible building are located adjacent to the project site, but the Proposed Action would not partially or completely block any built visual resources. As a result, the Proposed Action would not result in significant adverse impacts to urban design and visual resources and no further analysis is warranted.

Hazardous Materials and Air Quality

An (E) designation (E-737) related to hazardous materials and air quality would be established as part of the approval of the proposed actions. Refer to "Determination of Significance Appendix: (E) designation" for the applicable (E) designation requirements. The hazardous materials and air quality analyses conclude that with the (E) designation in place, the proposed actions would not result in a significant adverse impact related to hazardous materials or air quality.

PUBLIC NOTICE

Federal Emergency Management Agency
In accordance with 44 CFR §9.8 for Executive Order 11988
Proposed Pumping Station Improvements
Bay Terrace, Queens County, New York

Notification is hereby given to the public of the intent of the Department of Homeland Security-Federal Emergency Management Agency (DHS-FEMA) to provide federal funding to the New York City Department of Environmental Protection (NYC DEP) as subrecipient for a new elevated support building (superstructure) to house the electrical distribution for an existing pump station through the Hazard Mitigation Grant Program (HMGP). The purpose of HMGP is for communities to develop hazard mitigation plans and rebuild in a way that reduces, or mitigates, future disaster losses. This notification is given in accordance with Executive Order 11988 (Floodplain Management) 44 CFR Part 9, regulations for implementing EO 11988 and the National Historic Preservation Act (NHPA). The Proposed Action is located at the southeast intersection of the Clearview Expressway and the Cross Island Expressway, Bay Terrace, Queens County, NY $(40.78805,\,\text{-}73.789503).$

The proposed scope of work consists of elevating the proposed superstructure to 17.5 feet NAVD88 which is at the base flood elevation (BFE), as indicated by best available flood map data, plus atleast three (3) feet of freeboard for this Critical Action. Raising the superstructure will allow for continuity of operations at the existing pump station during flood events

This action would take place within the 100-year floodplain. Alternatives considered include: 1) no action, 2) proposed alternative, which is the proposed elevated superstructure or 3) alternate construction. FEMA has determined that building the proposed

elevated superstructure is the most practicable alternative to ensure continuity of operations to support the existing pump station. FEMA has also determined that investment of funds to reduce flood risk is in the public interest.

Comments about this project, potential alternatives, and floodplain impacts may be submitted in writing within 15 days of the date of this publication to: U.S. Department of Homeland Security, Federal Emergency Management Agency – Region 2 – Environmental Planning and Historic Preservation, Mitigation Division, One World Trade Center, Suite 53, New York, NY 10007 or via email to FEMAR2COMMENT@fema.dhs.gov. If substantive comments are received, FEMA will evaluate and address the comments as part of the environmental documentation for this project.
