## MAYOR'S COMMITTEE ON PUBLIC SERVICE TRAINING.

CITY EMPLOYEES—COURSES OF STUDY FOR ADVANCEMENT IN THE CIVIL SERVICE.

With the advice of the Mayor's Committee on Public Service training, the College of the City of New York offers numerous courses of instruction designed to improve the efficiency of persons in the city service and to prepare them for advancement to higher grades.

The courses of study were formulated by the Civil Service Commission for the purpose of indicating standard courses for the grades to which they refer. Persons pursuing the work successfully may receive credit in the promotion examinations and, in some cases, in experience ratings. The Commission will take up each case and credit the courses pursued in a manner equitable to all applicants.

Courses will be offered in English and arithmetic for persons in the lower clerical and stenographic services. More advanced English and arithmetic will be given for

those in the higher grades, and also courses in typewriting, stenography, stenotypy. For engineers there will be most complete courses from elementary algebra and geometry through the various branches of higher mathematics, fundamental courses in physics, chemistry, English and drafting; structural work in materials of construction, elasticity and resistance of materials, stresses, steel design and construction; hydraulics, water supply and sewage engineering; masonry and reinforced concrete design and construction; elementary and advanced surveying, streets and pavements; timber study and geology for engineers, and allied courses in science.

A diploma of Junior Engineer (Civil) will be given to persons completing a group of those engineering subjects as a standard preparation for the position of Junior Engineer.

Courses will be offered for accountants in the theory, practice and problems of accountancy, cost accounting, municipal accounting, judicial accounting, public utilities accounting, advanced problems, etc. Upon the completion of a group of these subjects the certificate of Junior Accountant will be awarded. For a longer course of study the diploma of graduate in accountancy is given. This course of study fully prepares the student to meet the C. P. A. requirements and it is an educational preparation for the highest accounting positions in the Civil Service.

The teachers engaged are men of high standing in the accounting and engineering fields and also teachers and municipal experts of established reputation. Some of the courses are free, some require the payment of a nominal registration fee, while the most advanced courses are given upon payment of a small tuition fee, sufficient to meet running expenses. The members of the Mayor's Committee are:

GAHO DUNN, President of the J. G. White Engineering Corporation, Chairman.

HENRY BRUERE, American Metal Company;

M. FRIEDSAM, President of the B. Altman Company;

HENRY W. HODGE, Public Service Commissioner;

HENRY MOSKOWITZ, President of the Municipal Civil Service Commission;

CURT G. PFEIFFER, George Borgfeldt Company;

CHARLES STRAUSS, President of the Board of Water Supply;

LEONARD M. WALLSTEIN, Commissioner of Accounts;

ALFRED D. FLINN, Deputy Chief Engineer, Board of Water Supply, Secretary.

For further information address Professor Frederick B. Robinson, Director of Courses, Municipal Building, Room 1819, or College of the City of New York. Register on or after September 18th in Room 1819, Municipal Building, from 12 o'clock noon to 6 p. m., or at the College from 7.30 to 9.30 p. m.

#### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but not to the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appur-

nances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions, shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made."

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
