POLICE DEPARTMENT.

Report for the Year ending December 31, 1889.

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
No. 300 MULBERRY STREET.

Hon. HUGH J. GRANT, Mayor, City of New York:

SIR—The Board of Police of the Police Department of the City of New York respectfully submits a report of the transactions of the Police Department and force, for the year ending December 31, 1889.

THE POLICE FORCE.

The condition and more regular employment of the force is exhibited in the following table:

| RANK. | 1880. | 1885. | 1886. | 1887. | 1888. | 1889. |
|--------------------------|-------|-------|-------|-------|-------|-------|
| Superintendent..... | 1 | 1 | 1 | 1 | 1 | 1 |
| Inspectors..... | 4 | 3 | 3 | 4 | 4 | 4 |
| Surgeons..... | 19 | 18 | 17 | 18 | 18 | 18 |
| Captains..... | 37 | 34 | 34 | 36 | 36 | 36 |
| Sergeants..... | 140 | 152 | 144 | 149 | 159 | 158 |
| Detective Sergeants..... | 40 | 40 | 40 | 40 | 40 | 40 |
| Roundsmen..... | 167 | 177 | 168 | 163 | 162 | 163 |
| Patrolmen..... | 2,074 | 2,396 | 2,731 | 2,741 | 2,853 | 2,922 |
| Doormen..... | 77 | 77 | 78 | 80 | 78 | 79 |
| Totals..... | 2,519 | 2,898 | 3,216 | 3,232 | 3,351 | 3,421 |

There are included in the foregoing table 1 Sergeant and 44 Patrolmen detailed to the service of the Health Department pursuant to law.

The total force at the close of the year was seventy greater than at the close of the year 1888, as appears by the above schedule. It is believed that an enumeration of the inhabitants of the city would show that the increase of the police force since 1880 has not kept pace with the growth of population, as it certainly has not in the requirements of a perfect police service in New York City. Aside from the fact that our largely increased population furnishes a basis for calculation as to the necessary numerical strength of the police force, we need to bear in mind other and more important features of our growth as a city, and which call for an augmented force.

Reliable estimates of the population of New York City places the number, at this date, at about 1,750,000 (the Health Department places the number at 1,500,000 or thereabouts). The police force of all grades numbers 3,421, one officer to each 512 of the population.

Property values have enormously increased in this city within the past ten years, demanding a far greater degree of vigilance and activity on the part of our guardians than is generally understood. In addition to the watchfulness necessary to prevent pillage and robbery, there is found increased liability to accident, fires, explosions, bursting of water pipes, violations of health, excise, street cleaning and other laws, etc., all of which must come within the field of a patrolman's duty, and which require unremitting fidelity. Indeed, with the growth of population, increased property values, concentration of commercial and manufacturing interests, the multitude of strangers thronging our streets in pursuit of pleasure as well as business, and all the results of a great and growing prosperity, it will be found on close examination that the duties of the police increase in a greater ratio.

It is advisable to increase the police force in that portion of the city lying north and east of the Harlem river, that having grown very rapidly in the few years past and improved in every respect. Already it is a city of itself and needs better police protection than the means at hand will permit. In this entire district, with an area as large as the City of New York prior to 1874, there is a force of 217 Patrolmen serving in four precincts, a force much too small for thorough efficiency. The territory is not covered as effectively as it should be, and frequent complaints are made of the numerical insufficiency of the force.

The Police Force is distributed as follows:

| | CAPTAINS. | SERGEANTS. | DETECTIVE SERGEANTS. | ROUNDSMEN. | PATROLMEN. | DOORMEN. | TOTALS. |

STATION-HOUSES.

There has been no change in the boundaries of precincts or the location of station-houses during the past year, except that the Police Force of the Thirtieth Precinct took possession of their new house on the south side of West One Hundred and Twenty-fifth street, on the 27th day of April. The new house is well adapted to the uses of the Department in almost every particular and is well located.

Several of the buildings occupied by the Police, south of Forty-second street, are old, unsubstantial and, having originally been constructed for other uses, are poorly adapted to the purposes of the Department. Frequent and extensive repairs are necessary to keep them in condition fit for occupancy by the force. With the exception herein stated the houses are new, or comparatively so, and will not require serious attention for some time to come.

The Eighth, Ninth, Twelfth, Fourteenth and Sixteenth Precincts require new station-houses for the following reasons:

The Station-house of the Eighth Precinct has been remodeled from two old dwelling-houses, and, though arranged as conveniently as the dimensions allow, it affords insufficient accommodation for the number of men required in this business district. The prison is located in the basement, directly under the business office, and when the cells are all occupied, as they frequently are by a noisy crowd of intoxicated persons, it is extremely difficult to properly transact the ordinary business of the precinct.

The Ninth Precinct Station-house was built many years ago for Police use. Additions have been made, nevertheless it is so small for the force required in the precinct that it is overcrowded and consequently unhealthy. The prison is in the basement, the same as in the Eighth Precinct.

The Station-house of the Twelfth Precinct was originally two old dwellings, altered and fitted up for police purposes. Its walls are light, accommodations for the force insufficient and very poor, and its prison in the basement.

The Fourteenth Precinct Station-house is very old and not at all fit for occupancy by the Police Force. It is centrally located in a district as thickly populated as any other of equal size in the world. There is no room for additions or improvements on either side, and the walls are too weak for an additional story. Its prison is in the basement beneath the office. When the Station-house was built it was amply sufficient for the force then required, but it is now entirely too small for lodging the men, to say nothing of other necessities of a properly appointed station-house.

The Station of the Sixteenth Precinct is an old structure, inadequate for the uses of the Department, and its prison is in the basement. The remarks above will apply equally well to this house.

The following Station-houses will, in the course of a few years, need rebuilding or such extensive repairs as shall render them fit for continued use:

The Seventh Precinct Station is old, its walls light, and quarters for officers and men poor and insufficient. The Station-house of the Twenty-first Precinct is a reconstruction of two old buildings, its prison in the basement under the mens' sitting rooms, and exceedingly inconvenient as to its accommodations.

The Station-houses north of the Harlem river (four in number), are not of sufficient capacity to accommodate the Police Force absolutely necessary to the protection of the rapidly growing "annexed district."

The Station-house of the Thirty-third Precinct was the old Morrisania Town Hall. Additions have, from time to time, been made to the house, and it is now in fairly good condition though too small unless the Precinct should be divided.

The Thirty-fourth Precinct Station is an old one-story stone building located at Tremont. It was constructed for a country district school-house, and long used as such. Additional buildings have been put up, and the old structure repaired so that it would answer for some time to come if it were large enough to admit of an increase of the force. It is City property, as is also the house of the Thirty-third Precinct.

The houses occupied by the Police Force of the Thirty-first and Thirty-fifth Precincts are frame buildings, leased by the City for police purposes.

The first is a miserable, old and shaky building, used long ago as a hotel, and entirely unfit for police occupancy, though the only property that could be secured at High Bridge for the use of the Department. Its prison is underground.

The last is an aggregation of two-story frame buildings, built on swampy grounds and without a redeeming qualification. The prison is a small brick building adjoining the main structure and is a very poor prison indeed. In wet weather the cellar has two or three feet of water in it. A glance at the percentages of sick time, hereinafter reported, will show the effect of the unhealthy location of this house at Kingsbridge, the percentage being far greater than that of any other precinct.

Two lots of ground, fifty by one hundred, have been purchased in West Sixty-eighth street, and a station-house will be erected thereupon as soon as practicable. Appropriation has also been made for the purchase of a suitable site for a station-house on the east side of the city, north of One Hundredth street. When these proposed station-houses shall have been constructed and the precincts properly divided, all that portion of New York Island above Forty-second street will be splendidly provided with good and substantial buildings for the use of this Department.

Board of Surgeons.

The following tables show the sick time of the Police Force by precincts and squads during the year, and other results of the labor of Surgeons of the Department.

The time lost by members of the force by reason of sickness, disabilities and injuries during the year is shown by the first table, from which it will be seen that the time actually lost was 1,862 days over the record for 1888, and a corresponding increase of percentage. The amount paid for sick time lost was \$54,557.87 (an increase of \$3,054.65), which does not include allowances of full pay for disabilities incurred by the force while in the actual performance of duty, and which allowances were made by the Board some time subsequent to recovery from the disability. The additional amounts aggregate the sum of \$1,689.98, which, added to the amount above stated, makes the total sum paid for sick time lost \$56,247.85, an increase of \$4,419.22 over the preceding year. Much of this increase is attributable to the epidemic of influenza which incapacitated many officers in the last month of the year, as well as to the unhealthy condition of several station-houses, hereinbefore alluded to.

The second table shows the number of the force on the sick list each day during the year, from which it will be seen that there was a daily average of more than 93 men sick, an average of 7 more than in 1888. In the month of December no less than 716 individuals were on the sick list some time during the month, the daily average of sick men being 156, or 69 more than the average for the remaining eleven months of the year. It will be noticed that from the 21st day of December the number of sick men gradually increased until on the last day of the month the sick list numbered 326 men—9.53 per cent. of the entire force on that date.

The number of visits by the Surgeons to sick and disabled Policemen, and the calls to attend accidents at the station-houses, will be found in the following table, from which it appears that the number of visits to Policemen were 1,375 greater than in 1888, and the number of visits to station-houses 690 greater. The Ambulance Service, spoken of in these reports in former years, continues to be prompt and efficient, rendering service to this Department and to humanity that can hardly be estimated.

Applicants for Appointment.

From the following table it will be seen that the examination of applicants for appointment as Patrolmen is a very important part of the labors of the Surgeons. The number examined during the year just closed was 176 greater than in 1888, and 302 greater than in 1887. These examinations are held at the Central Department on Monday of each week by a changing committee of Surgeons, selected by the Chief Clerk, and are very thorough and satisfactory. Every physical defect liable to render the applicant unfit for the performance of the arduous duties of a Patrolman is deemed good cause for rejection:

All the applicants who passed the Surgeons, except in cases of examination of appointees, and whose characters, habits and reputations were found, after investigation, to be good, were referred to the Civil Service Examiners for final disposition.

The following table shows the number of deaths and the causes of the same, occurring in the Department during the year:

In addition to the duties above enumerated, the Surgeons are required to attend twenty-six meetings of the Board of Surgeons during the year. These meetings are held, pursuant to the regulations of the Department, for the purpose of specially examining such cases as are referred to them as a Board by the Board of Police. All cases of mental and physical incapacity, permanent or temporary, and the causes and probable duration of each are minutely inquired into and report duly made thereupon. Every Surgeon is expected to be present at these meetings.

A rule of the Department requires the Surgeons of Police to take medical and surgical charge of the pensioners of the Police Pension Fund and their families, giving them, without charge, the same care and attention as patients in their private practice. The resident pensioners avail themselves of the privileges granted by this rule. No record, however, is kept of the visits made to them, the ailments treated or the duration of sickness. It is believed that at least two thousand visits are made by the Surgeons to this class of patients during the course of each year.

Again it is seen that more than twenty-seven per cent. of the total arrests were made in the Fourth, Sixth, Tenth and Eleventh Precincts, about the same percentage as reported for 1888. Attention has been called to the annual increase in the arrests made in the Eleventh Precinct. The number arrested in this precinct in 1887 was 7,655, in 1888, 10,727, and in 1889, 14,121. The population of this district has not materially increased since 1887—indeed, there are no vacant lots upon which to erect dwellings—and yet nearly fourteen per cent. of the arrests in the entire city were made there during the year just closed.

The following table exhibits the offenses for which arrests were made:

The arrests in each precinct for the offense of gambling are shown in the following schedule, and the disposition of the cases. As will be seen, there were sixteen more arrests for this offense than in the year 1888, and the proportion of convictions is considerably larger. To this schedule is appended a memorandum of material seized, and the aggregate amount of fines imposed:

It will be noticed in the schedule of offenses that thirty-four persons were arrested for violation of the pool law, as against fifty-nine for the year 1888. Twenty of these arrests were made between July 12 and 23, 1889, sixteen of whom were at once brought before four different police magistrates and discharged, the remaining four being paroled. The evidence in each case consisted of proof of purchase by an officer of the Police Force of a ticket which on its face purported to be an authorization by the purchaser to the seller of the ticket, under which the latter was to act as agent for the former in placing a stated sum of money on a specified race track where pool selling is permissible. The ticket was, in most instances, signed by the officer, and contained a clause purporting to make the seller a common carrier, and agreeing to pay a small sum for the expense incurred by the seller in placing the money at the race track. In some instances the officer testified that no commission was paid, but it generally appears in such cases that the defendant claimed the right to a commission. The magistrates held that under the law this proof was insufficient.

It is suggested that it would be well to change the law so as to make criminal the acts of which evidence can be obtained.

During the year there were 5,231 persons arrested for violation of the excise laws, a decrease of 599 from the previous year. The arrests for this offense in 1885 were 2,144; 1886, 3,448; 1887, 4,708; 1888, 5,830, and 1889, 5,231. The average of the five years (4,272) is exceeded in 1889 by 959, as appears by the above figures. The decrease in 1889, as compared with 1888, is believed to be due to the rigorous enforcement of the law in the last-named year, which naturally led to more care in an observance of the law and to less frequent and conspicuous violations coming within the notice of the police. It may safely be assumed that the laws against the sale of intoxicating liquors on Sunday have been better observed during the past year than during those which preceded it. As an evidence of this the following comparative table is submitted:

* Five Sundays.

An additional reason for the decrease of arrests is the fact that the excise licenses (including saloons, hotels, groceries, drug stores, steamboats and other places) issued by the Department having jurisdiction in the matter, were 8,885 in 1889. In 1888 there were 9,257 licenses issued, showing a decrease of 372 in the year covered by this report. These figures are important in view of the general public discussion of excise questions.

Still another fact bearing upon the enforcement of these laws should receive earnest consideration, and that is the failure or inability to promptly prosecute this class of offenders. As in all other cases of arrest the parties are taken to a Police Court, there committed for trial or discharged. Those committed are usually admitted to bail and the papers sent to the proper official or court for final disposition. It is said (and freely admitted) that, owing to lack of facilities and other causes the large majority of these cases cannot be brought to trial. Whatever be the cause or the facts in connection therewith, the natural effect is to discourage arrests for this offense, except in cases where the violation of law is so flagrant and conspicuous as to render an officer liable to charges for neglect of duty if arrest was not made.

The above table indicates that 37 per cent. of the total arrests were of persons between twenty and thirty years of age, about the same as last year; 24.41 per cent. were of persons between thirty and forty years old, a slight increase; 66.73 per cent. were single. It further appears that the per cent. of non-educated is gradually growing less.

House of Detention for Witnesses.

The number of persons committed to, detained in and discharged from the House of Detention for witnesses during the year 1889 will be found in the following table. It will be observed that the number committed is sixty-one greater than for the previous year. The aggregate number of days' detention was 1,516½ more than during the year 1888. The average time of confinement of each witness was about 19½ days, and the average cost of maintenance (meals alone) was \$14.66, a slight increase. The names of prisoners and other details are published in the quarterly reports of this department.

SANITARY COMPANY.

Bureau of Steam-boiler Inspection and Engineers.

The report of this Bureau shows the number of steam boilers examined, tested hydrostatically and their condition, together with the number of applicants examined as to their qualification as engineers to take charge of and operate stationary and portable steam boilers and engines in the City of New York, also the amount of money paid to the Treasurer of the Police Pension Fund, collected from owners of steam boilers for certificates of inspection, as provided by chapter 437 of the Laws of 1885.

For the year there have been 5,990 applicants examined for engineers' certificates to take charge of and operate stationary and portable steam boilers and engines. Each applicant has been examined as to his experience, qualification and knowledge of steam boilers and engines; of this number 5,599 passed a satisfactory examination and have been granted certificates, and 391 rejected.

It will be seen that there has been a steady increase in the work of the Sanitary Company, the examination of engineers in 1889 showing an increase of 1,164 over those of 1885, and in the testing of boilers an increase of 2,000 over the same for 1885. The casualties do not, however, indicate that the work is less thoroughly performed. When it is considered that there was but one Sergeant and nineteen Patrolmen engaged in the entire work it must be conceded that the time of each must have been fully occupied, while the few accidents demonstrate the wisdom of placing this important branch of public duty under the supervision of a department having the necessary facilities for its strict and faithful performance.

Steam-boiler Casualties During 1889.

Nearly seven thousand steam boilers are in operation in the City of New York, a very considerable number of which are under pressure both night and day. It is believed that were it not for the strict surveillance placed upon, and the care exercised over, steam boilers and those who are permitted to operate them, many serious and fatal records would be made, as is the case in other localities where no supervision is exacted by law.

The only casualties during the year 1889 were as follows:

On the morning of May 9 an attachment to boiler No. 1909, located in the cellar of premises Nos. 250 and 252 West Twenty-seventh street, occupied by The Spooner Manufacturing Company, exploded. The cast-iron cap head blew off and struck Daniel Clupka, a laborer employed sorting scrap, in front of the boiler, killing him. The attachment which blew out was a patent connection recently placed upon the boiler, consisting of a wrought-iron pipe 4½ feet long by 12 inches in diameter, with cast-iron heads or caps ¾ inch in thickness screwed upon each end, termed a "mud drum," and was intended to arrest all sediment that might be contained in the water before reaching the boiler. The explosion was caused by a defect in one of the cast-iron caps, the head of which was blown off under a pressure of 60 pounds of steam. The boiler itself was not injured.

On June 3d boiler known as No. 748, located in Yuengling's Brewery, One Hundred and Twenty-eighth street and Tenth avenue, while under a pressure of 70 pounds of steam, blew out a piece of the shell at the rear bottom sheet, about one foot from the end of the boiler, the fracture being about four inches in diameter. Upon investigation by this department a scale was found to have formed, about four inches in thickness, preventing proper protection to the shell. The gradual burning of the shell weakened it to such a degree as to cause it to give way. The accumulation of scale was undoubtedly caused by the use of well water, which is utilized at this brewery. The boiler is 18 feet long and 6 feet in diameter, built of ¾ best steel, heads ¾ inch thick, the tubes are intact front and back, which indicates a sufficiency of water at the time of the explosion. Ferdinand Weber, the fireman, ran to the rear of the boiler to ascertain the cause of the explosion, and unwittingly opened the back connection door before the force of steam leaving the boiler had exhausted, and was consequently severely scalded about the arms and legs. He was removed to the hospital.

July 22 the portable upright tubular boiler No. 4308, owned by Louis Catterbery, contractor, and operated to furnish steam for rock drilling at One Hundred and Seventy-eighth street and Lafontaine avenue, exploded at noon. Upon examination of the boiler after the explosion, it was discovered that the iron had been badly burned through the accumulation of dirt or sediment about the legs of the boiler, which prevented water from reaching that portion of the boiler around the fire-box where the iron was burned and subsequently parted, causing the explosion which carried the boiler several hundred feet. No person was injured. This boiler is what is known as a "tramp boiler," a class of portable boilers used for all kinds of out-door work, and when not in use are cast aside in an open lot or some out-of-the-way place, where they lie subject to every exposure, and when again called into requisition are hurriedly set up and started in operation without regard to their condition. The law requires that they shall be tested annually, and, as in this case, the boiler was tested in August, 1888, then being in use by Pennell & O'Hearn at Railroad avenue and One Hundred and Seventy-sixth street. After they had got through with it, it was lying idle for several months until the 13th day of July, 1889, when it was taken to this quarry and operated. There is no doubt but that the inside sheet around the fire-box of this boiler had become corroded and rusted from dampness and mud to that degree that when the steam pressure allowed, at the date of inspection, was put upon the boiler, it was unable to stand the strain.

It should be made unlawful to operate this class of boilers after they have been out of use for any particular length of time, until re-examined and their condition of safety determined.

TENEMENT-HOUSE SQUAD.

This Squad consists of one Sergeant, two Roundsmen and forty-two Patrolmen, detailed pursuant to law to the service of the Health Department in this City. The following schedule shows the specific duties assigned this Squad by the Board of Health, in addition to which the Police Force of the Squad is expected to make arrests for offenses, and are subject to the orders of the Superintendent in all emergencies requiring the services of the entire force of the Department. This Squad made 130 arrests during the year just closed.

HARBOR POLICE.

The Police Force of the Twenty-fourth Precinct is commonly known as the Harbor Police, their duties being performed principally upon the waters adjacent to the city. The force is provided with one sidewheel steamboat and six rowboats, three of the latter being constantly on patrol service, the others held in reserve. The rowboats are manned by one Roundsman and two Patrolmen each, and regular tours of duty are arranged.

The steamboat "Patrol" is provided with four powerful steam fire-pumps, capable of discharging 2,084 gallons of water per minute. These pumps can be used through eight lines of hose or less, as may be required. During the year the "Patrol" has attended six fires along the water-front, rendering efficient aid on each occasion in subduing such fires and preventing their spread.

During the excursion-season the "Patrol" attends at the wharves from whence the steamers and barges start, the officers going on board and warning away the disreputable characters likely to make an excursion disorderly, often finding it necessary to make arrests. If there be good reason to believe that the excursionists will be disorderly, the "Patrol" meets them on their return to the city, and attends them until they disperse at the dock. Rioting and bloodshed are frequently prevented by the supervision exercised over excursions.

An important portion of the duties of the Harbor Police is to enforce the provisions of the Excise Law applying to licenses required by steamers and other vessels. During each year the police of this precinct make many arrests for violation of this law, and render valuable assistance to the Department of Excise.

The services of the "Patrol" are required at yacht races and upon every occasion during which large numbers of vessels, steam and sail, collect. During each year the "Patrol" is frequently required to preserve order and prevent accident at great gatherings of water craft.

An efficient harbor police service, however, requires a larger force and a better equipment than that now available. The "Patrol" not only lacks speed, but is so faulty in construction that it is difficult to manage her quickly in emergencies. Her hull, frame and upper work being entirely of wood, it is hazardous to take her close enough to large fires to render such service as her powerful pumps would otherwise enable her to do. It would be wise to provide, as early as practicable, for the construction of an iron screw-steamer, with such improvements as recent boat-building has suggested. This branch of the police service also requires the construction of at least two fast steam-launches to replace the rowboats now in use. In the rapid tides of the East and North rivers a rowboat can be of but little service in the arrest of river thieves, and the boat crew is necessarily too small to render much assistance in accidents incident to water traffic. When it is considered that the Harbor Police of New York is no better equipped to-day than it has been at any time during the twenty-five years last past, that our commerce has increased, especially the local business, and that the requirements of the service are multiplied, it will at once be seen that the manifest needs of this branch of the service ought to be met with prompt and energetic action.

BUREAU OF TELEGRAPH.

The annual report of the Telegraph Bureau, for the year 1889, shows the number of messages transmitted by telegraph and telephone over Police Department lines. The Telephone Exchange system which connects the offices of the chief officers of the Department at Police Headquarters with each other, with the telegraph office and with the General Exchange system which has been in operation for the past two years, has added considerably to the work of the Bureau. By means of this system a great many messages are transmitted between these Headquarters and other City Departments and places. The nature of the messages in many cases do not require that a record be kept of them. In other cases the offices desiring to communicate are connected through the telegraph office and the messages are transmitted direct therefrom. This branch of the service has increased to such an extent as to require the constant attendance of an operator, especially during the day time.

The signal-box system in operation in the Nineteenth, Thirty-first, Thirty-second, Thirty-third, Thirty-fourth and Thirty-fifth Precincts, has received considerable attention during the past year, the wires, which in many cases were old, have been renewed.

A number of the signal-box instruments in the upper precincts (Thirty-first, Thirty-second, Thirty-third, Thirty-fourth and Thirty-fifth) have been in use for the past ten years, the instruments

are old and of the unimproved pattern, consequently have not given entire satisfaction. They should be replaced by an improved automatic signaling instrument.

A small (pocket) signal book is now in course of preparation which will familiarize those whose duty it is to operate these boxes with the signals and other information contained therein, and consequently greatly enhance the value of this system.

Since the establishment of the Metropolitan Police in 1857, this Department has depended upon one of the most simple systems of telegraphic communication between precincts and the Central Office, notwithstanding the great improvement in electrical appliances for the transmission of messages. For the ordinary business between stations the present "Police Dial System" is (with certain improvements recently made by inventors), perhaps, as good a system as for the present need be desired, inasmuch as it is simple, easily learned and without complications which would render it liable to frequent disarrangement. Many messages have been tabulated and arranged so that figures represent them, and a glance at the printed table hung over the operator's table will show the nature of the message. With this exception, and the adoption of box signals in the annexed district, there has been little if any improvement in the telegraph service in a third of a century.

It is become a recognized necessity of efficient police service in large cities that rapid communication be had at all times between members of the force on patrol and the station-house to which they are attached, not only because of the facility for better supervision of the patrolling force, but that in emergencies rapid concentration could be effected. Aside from the necessarily large expense which would be incurred in the establishment of an approved system of signals, there seems to be no good reason why this Department should not be provided with such facilities, a careful and economical use of which would undoubtedly tend to improvement in every direction. On many grounds the advisability of arming the Police Department with every reasonable and proper implement known and approved by experience may be recommended.

Long and exhaustive consideration and experiment has been given to the merits of several systems of electric signaling, and a study of the operation of the various systems in use in other cities has been made, with a view to securing the best for all purposes of the Department. While recognizing the necessity that urges the adoption of some system, this Board feels itself justified in the delay, if only for the reason that important and, perhaps, vital changes, some of them involving a considerable expense in alteration, are being constantly made in electric appliances, with a view to increasing their efficiency and adaptability to police uses.

BOARD OF EXAMINERS.

The number of applicants for promotion within the Department, examined by the Board of Examiners during the year, was:

DISCIPLINE OF THE FORCE.

During the year 1889, the number of charges preferred against members of the force was 2,965, a decrease of 304 from the number preferred in 1888. The grounds of complaint in these charges were as follows:

| | |
|---|-------|
| Intoxication..... | 37 |
| Neglect of duty and violation of the rules..... | 2,726 |
| Disobedience of orders..... | 14 |
| Insubordination..... | 11 |

| All others..... | 46 |
| Total..... | 2,965 |

The judgments rendered by the Board were as follows:

| | |
|--|-------|
| Dismissals..... | 39 |
| Fines..... | 2,304 |
| Reprimands..... | 239 |
| Complaints dismissed or withdrawn..... | 373 |

| | |
|----------------|--------|
| Sergeants..... | 2½ |
| Patrolmen..... | 3,454½ |
| Doormen..... | 2 |
| Total..... | 3,459 |

This is an increase of 54½ days over the fines for 1888, though the complaints made were many less than for that year. The fines amounted to \$10,861.77, which sum was paid into the Pension Fund, pursuant to law.

The condition of the Police Pension Fund is such as to require legislative action, with as little delay as practicable, in order to provide for the payment of pensions granted by the Trustees of the Fund pursuant to existing laws. The following schedule shows the condition of the Fund at the close of the years designated, and the amounts paid in pensions in each of the years :

| | 1881. | 1882. | 1883. | 1884. | 1885. | 1886. | 1887. | 1888. | 1889. |
|-----------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|-------------|------------|
| Capital.. | \$299,873 48 | \$270,768 78 | \$160,963 01 | \$142,758 03 | \$135,935 37 | \$101,318 98 | \$118,022 16 | \$12,905 05 | \$5,426 62 |
| Pensions paid.. | 105,183 85 | 116,488 91 | 142,795 17 | 187,687 35 | 248,023 73 | 304,925 63 | 368,288 39 | 414,276 54 | 426,130 61 |

From the above will be seen the steady decrease of the capital of the Fund as well as the increase in amounts actually paid. There is good reason to believe that the amount required to pay pensions will annually increase, though, perhaps, not so rapidly as in the few years last past. The figures above given conclusively prove that the sources of income, augmented as they have been from time to time, are not adequate to pay the pensions already granted pursuant to law, and that some legislation is absolutely necessary to meet the future demands likely to be made upon the Fund. With the capital exhausted and only one fixed source of revenue (the proportion of excise moneys), the quarterly payment of pensions will become a matter of anxiety and embarrassment to the Trustees unless some action is promptly taken to provide a revenue which will be sufficient for the present and a reasonable time in the future.

The appropriations for 1889 and 1890, made by the Board of Estimate and Apportionment for the purpose of conducting the business of the Police Department, are given so that the information can be had at a moment's notice by all interested in the matter.

This branch of the Police service continues in the high state of efficiency reported for the few years last past, and reflects much credit upon all connected with it.

TOURS OF POLICE DUTY.

Frequent inquiries are made of this Department as to the division of patrol service among the Patrolmen of the force. For the purpose of supplying this information the following schedule has been prepared:

P—Patrol. R—Reserve. H—Home

NOTE.—The Police day commences at 6 A. M.
The patrol force in each precinct is divided into two platoons.
Each platoon is divided into two sections.
It takes 96 hours to complete a round of tours for "John Doe" and the others.
The above schedule gives 36 hours patrol, 28 hours reserve, 32 hours home to each man.
Much extra duty is performed in "Reserve" hours; time also given for meals out of "Reserve" hours.
"Reserve" means readiness for active service other than patrol, as well as rest.
"Home" hours are often broken by attendance at Court, also by emergencies, as strikes, riots, mass meetings, large processions, fires, etc.

BUREAU OF ELECTIONS.

For obvious reasons, the following recommendations and suggestions are made as to amendments to the election law in the interest of economy as well as to facilitate the business of this Bureau:

First—Authority should be granted to the Board of Police to consolidate and renumber any two or more adjacent election districts, comprised within the same Assembly, Congressional, Senate and Judicial districts, in any one of which there shall have, for at least two preceding years (in one of which there shall have been a Presidential election), appeared a registration of less than 200 voters, provided, however, that no consolidated district shall, at date of consolidation, be likely to contain more than 350 voters. In this connection, it may be stated that a general reorganization of the existing system of election districts upon the above basis is imperative in the interest of economy and symmetrical arrangement. During the last ten years the necessary changes made in election districts, by which new and old numbers were intermingled, have produced a bewildering effect and rendered the maps extremely inconvenient for reference.

Second—Authority should be given to make from time to time such disposition as they may deem proper of all but one copy of the registers of voters remaining on hand in the Bureau of Elections after five years from their respective dates. There is now stored in the Bureau of Elections (to the great inconvenience of the public service) a mass of such records covering a period of twenty years. In view of the fact that vacancies of Inspectors of Election and Poll Clerks occur annually, by removal or resignation, on or before the days fixed for registration and election (there being 810 vacancies during the year 1889), which places must frequently be filled at short notice, involving extraordinary clerical labor and a temporary reduction of the number and political proportions of the Inspectors and Poll Clerks on duty at the polling-places, it is therefore suggested that hereafter there shall be furnished, together with the regular lists already required, an additional list to be called "Reserve List," containing twelve names from each assembly district, apportioned as usual between the different political parties; said list to be submitted to the same scrutiny, as to legal qualifications of candidates, as the regular list, and to be drawn upon, from time to time, to fill vacancies that may occur.

The provisions of the law governing elections, carried into execution as they are by a non-partisan corps of Inspectors, Poll Clerks and Watchers, insure an accurate registration of voters and polling of the votes, while the utilization by the Bureau of Elections of the trained personnel and telegraphic facilities of the Police Department, renders possible an immediate and simultaneous report of the result of any registration and election held in this city.

The following table shows the number of persons registered in each Assembly District, the number of votes cast for the Secretary of State and the number of votes short of the registry. From these figures it will appear that 9.14 per cent. of the persons registered did not vote :

PIER "A," NORTH RIVER.

TO CONTRACTORS.

(No. 326.)

PROPOSALS FOR ESTIMATES FOR DREDGING AT PIER, NEW 59, ON THE NORTH RIVER, AND AT PIER 61, ON THE EAST RIVER.

ESTIMATES FOR DREDGING AT PIER, NEW 59, North river, and at Pier 61, on the East river, will be received by the Board of Commissioners at the head of the Department of Docks, at the office of said Department, Pier "A," foot of Battery place, North river, in the City of New York, until 12 o'clock M. of

FRIDAY, MAY 9, 1890,

at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract in the manner prescribed and required by ordinance, in the sum of Two Thousand Seven Hundred Dollars.

The Engineer's estimate of the quantities of material necessary to be dredged in order to secure at the premises mentioned the depth of water set opposite thereto in the specifications, is as follows:

Pier, new 59, North river..... 48,000 cubic yards.
Pier 61, East river..... 6,500 "
Total 54,500 "

N.B.—As the above-mentioned quantities, though stated with as much accuracy as is possible, in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

(1.) Bidders must satisfy themselves, by personal examination of the location of the proposed dredging, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

(2.) Bidders will be required to complete the entire work, to the satisfaction of the Department of Docks and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor per cubic yard, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, and the entire work is to be fully completed on or before the 1st day of July, 1890, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment has expired are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price per cubic yard for doing such dredging in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a

notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-book, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

SEALED PROPOSALS FOR FURNISHING THE materials and labor and doing the work required for placing fire-alarm electrical conductors underground for this Department will be received by the Board of Commissioners at the head of the Fire Department, at the office of said Department, Nos. 157 and 159 East Sixty-seventh street, in the City of New York, until 10 o'clock A. M. Wednesday, May 7, 1890, at which time and place they will be publicly opened by the head of said Department and read.

No estimate will be received or considered after the hour named.

For information as to the amount and kind of work to be done, bidders are referred to the specifications and diagrams which form part of these proposals.

The forms of the agreement (showing the manner of payment for the work), with specifications and diagrams, may be seen, and forms of proposals may be obtained, at the office of the Department.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

The work is to be completed and delivered on or before the one hundred and twentieth (120th) day after notice to commence, as provided in the contract.

The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time specified for the completion thereof shall have expired are fixed and liquidated at twenty (20) dollars.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall present the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation and a statement of the work to which they relate, specifying the kind of cables it is proposed to furnish.

The Fire Department reserves the right to decline any and all bids or estimates, if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance in the sum of twenty-three thousand (23,000) dollars; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of one thousand one hundred and fifty (1,150) dollars. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Where more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting. The consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who

has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications showing the manner of payment, will be furnished at the office of the Department, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities and Correction will insist upon its absolute enforcement in every particular.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of THREE THOUSAND (\$3,000) DOLLARS.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein or in the supplies or work to which it relates, or in any portion of the profits thereof. Where more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail surety, or otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, 1880, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of this security shall, in addition to the justification and acknowledgment, be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and provide such proper security as has been heretofore stated to be requisite, he or they shall be considered as having abandoned it, and as in default to the Corporation, and

the contract will be readvertised and relet, as provided by law.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. Where more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to

the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the Estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

THE COMMISSIONER OF PUBLIC WORKS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED FOR ANY PARTICULAR WORK IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

No. 14. FOR FLAGGING AND REFLAGGING THE SIDEWALKS ON WEST SIDE FIFTH AVENUE, from One Hundred and Sixteenth to One Hundred and Eighteenth street, EAST SIDE FIFTH AVENUE, from One Hundred and Twenty-seventh to One Hundred and Twenty-eighth street, and SOUTH SIDE ONE HUNDRED AND TWENTY EIGHTH STREET, from Madison to Fifth avenue.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion, and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

THE COMMISSIONER OF PUBLIC WORKS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED FOR ANY PARTICULAR WORK IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

Blank forms of bid or estimate, the proper envelopes in which to inclose the same, the specifications and agreements, and any further information desired, can be obtained at Room 5, No. 31 Chambers street.

Commissioner of Public Works.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty, containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot, that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereafter liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

THOS. F. GILROY,
Commissioner of Public Works.
