NOTES

- This report is presented in accordance with the requirements set forth in section 17-199.12 of the administrative code of the city of New York.
- The report reflects data from the New York City Early Intervention (EI) Program for the period July 1, 2023 through June 30, 2024 (FY2024).
- The EI Program provides developmental services to children ages birth to three with developmental delays and disabilities.
- The EI Program does not provide medical services, nursing services, psychological services, or health services.
- This report includes all data required per section 17-199.12 of the New York City Administrative Code except the following items, which the New York Early Intervention System (NYEIS) does not capture:
 - Classification of children by housing status (e.g., homeless, residing in temporary housing)
 - Classification of homeless shelters, childcare providers, and nonprofit organizations as referral sources
 - IFSP Recommendations for sign language or cued language services
 - Service authorization data for children who have transferred to another NY EI jurisdiction
- If a category contains between one and five children or allows another category to be narrowed to between one and five children, the number has been replaced with an asterisk. A category that contains zero children has been reported as zero, unless such reporting would violate any applicable provision of federal, state, or local law relating to personally identifiable information.

INTRODUCTION

The Early Intervention (EI) Program is a federal entitlement program created as Part C of the Individuals with Disabilities Education Act to provide services to children under three years old with developmental delays and disabilities. In New York City, the EI Program is administered by the NYC Department of Health and Mental Hygiene, Bureau of Early Intervention. EI services, which are provided through a network of agencies in contract with the NYS Department of Health, are available regardless of families' race, ethnicity, income, or immigration status, at no cost to them.

The Bureau of Early Intervention is committed to ensuring that all eligible children have access to EI services and addressing historical racial disparities. Disparities are greatest for Black children, who in 2022 represented 21% of the birth to three years population in New York City but only 19% of children referred to EI. However, 19% is an improvement from the 17% consistently observed through 2019, reflecting the Bureau's concentrated efforts in this area. In recent years, the Bureau has strengthened its community outreach and developed partnerships with community organizations, collective impact groups, and other City agencies to address misconceptions and stigma about the EI Program. In 2021-2023, new partnerships with pediatric primary care practices at hospital systems serving communities with low rates of referral focused on increasing referral and retention in the evaluation process. The Bureau also continues its academic collaborations with CUNY and SUNY, encouraging dissemination of best practices and engagement of graduating students to work in the EI Program.

FY2024 Highlights

While the *number* of referrals dropped 3.2% from 33,942 in FY2023 to 32,868 in FY2024, the estimated population of children birth to three dropped at a faster rate of 6.1% from 281,898 to 264,692 during this time. Consequently, the EI referral *rate* increased from 124 to 126 per thousand population.

Despite the drop in number of referrals, the number of multidisciplinary evaluations completed increased from 26,806 in FY2023 to 26,868 in FY2024, with the percentage of evaluated children found eligible decreasing slightly from 60% in FY2023 to 57% in FY2024. The number of children receiving services increased from 33,398 to 33,485, representing the tail end of the increased number of referrals in 2022 following the end of the pandemic.

We saw marginal improvement from FY2023 to FY2024 in the proportion of initial IFSPs completed within 45 days, and in the mean number of days from IFSP to first service and to all services.

REFERRALS – REPORTING ITEM 1

Item 1. The number of referrals for initial evaluations in total and disaggregated by referral source

There were 32,868 referrals to the EI Program in FY2024, down from 33,942 in FY2023. Despite the absolute drop in referrals, the referral rate increased from 124 to 126 per thousand because the estimated size of the population younger than three years decreased. Child and family trends were consistent with previous years. Nearly two-thirds of referrals were boys, which is consistent with the prevalence of disability in the population. English was the dominant language for 66% of families referred. About half of the remaining referrals (19%) were from Spanish-speaking families (vs FY2023 17%). The majority (53%) of referrals were from EI providers. Hospitals and doctors combined accounted for 18% of referrals in FY2024, which remained unchanged from FY2023.

Table 1(a-d): Number of referrals to the NYC Early Intervention Program during the period of July 1, 2023 through June 30, 2024

Table 1a. Number of Referrals by Race

Race	Referrals	
	#	%
Total	32,868	100%
White	9,150	28%
Black	6,228	19%
Latinx	13,220	40%
Asian/PI/NA ¹	4,270	13%

¹ PI = Pacific Islander, NA = Native American

Table 1b. Number of Referrals by Gender

Gender	Referrals	
	#	%

Table 1d. Number of Referrals by Source

Referral Source ¹	Referrals	
	#	%
EI Provider	17,463	53%
Parent or Family	6,004	18%
Hospital	3,550	11%
Doctor	2,374	7%
EI Developmental Monitoring Unit	706	2%
Foster Care Agency or ACS	472	1%
Other	2,297	7%

¹ Referral Source is not reliably captured.

INITIAL EVALUATIONS – REPORTING ITEM 2

Item 2. The number of initial evaluations conducted, including the number of such evaluations that resulted in a determination that the child was eligible for the Early Intervention Program.

A Multidisciplinary Evaluation (MDE) is performed by a team of qualified professionals from different disciplines who assess the child’s functioning in the five developmental domains: physical, cognitive, communication, social-emotional, and adaptive. The results of the MDE will be used to determine the child’s eligibility for the EI Program, based on eligibility criteria established by New York State.

During FY2024, 26,868 MDEs were completed. More than half (57%) of the children evaluated were determined eligible for the program. Eligibility was higher among Black children (64%) than among White (56%), Latinx (56%) and Asian/Pacific Islander/Native American (54%) children. Slightly more boys than girls were determined eligible (60% vs 53%), and eligibility was highest among children whose dominant language was neither English nor Spanish.

Table 2 (a-c): Number of MDEs submitted, including the number of such evaluations that resulted in a determination that the child was eligible for the Early Intervention Program during the period of July 1, 2023 through June 30, 2024.

Notes:

- Number of MDEs is reported based on the date of submission to the EI Program.

Table 2a. Number of MDEs and Number and Percent Found Eligible by Race

Race	Total # of MDEs	Child was Found Eligible	
		#	%
Total	26,868	15,391	57%
White	8,164	4,571	56%
Black	4,701	3,025	64%

Unknown	348	182	52%

¹ Of other languages, the top 5 are Russian, Yiddish, Chinese, Bengali, and Arabic.

IFSP MEETINGS – REPORTING ITEMS 3-4

Item 3. The number of IFSP meetings convened less than or equal to 45 calendar days from the date of referral.

Item 4. The number of IFSP meetings that were convened more than 45 calendar days from the date of referral.

The Individualized Family Service Plan (IFSP) is a written plan that identifies the EI services the child and family will receive. Federal law requires that the initial IFSP meeting (during which the IFSP is developed) must be convened within 45 calendar days of the date the child is referred to the EI Program.

During FY2024, there were 14,565 initial IFSP meetings, of which 87% occurred within 45 days of the date of referral, or later due to family-driven reasons, as defined by Federal regulations. IFSPs delayed beyond 45 days for reasons that were not family-driven occurred most often among Black children (17%), and least often among Asian children (11%) and children who speak Spanish (11%).

Table 3-4(a-c): Number and percent of initial IFSP meetings convened within or after 45 calendar days from the date of referral during the period of July 1, 2023 through June 30, 2024.

Notes:

- Includes all initial IFSP meetings convened from July 1, 2023 through June 30, 2024.
- Days are counted from the date of referral to the date of initial IFSP meeting.

Table 3-4a. Timeliness of Initial IFSP Meetings by Race

Race	Initial IFSP Meetings Convened ≤45 Days		Initial IFSP Meetings Convened >45 Days		Total
	#	%	#	%	#
Total	12,702	87%	1,863	13%	14,565
White	3,875	88%	553	12%	4,428
Black	2,312	83%	483	17%	2,795

Other ¹	1,936	87%	278	13%	2,214
Unknown	161	88%	23	12%	184

¹ Of other languages, the top 5 are Russian, Yiddish, Chinese, Bengali, and Arabic.

ACTIVE IFSP – REPORTING ITEM 5

Item 5. The total number of children who have an active IFSP (i) during the reporting period and (ii) as of June 30 of the reporting period.

A total of 33,485 children had an active IFSP in FY2024, of whom 18,847 were active on June 30, 2024. White and Latinx children each comprised approximately one-third of children with active IFSPs.

Table 5(a-c): Number of children who have an active IFSP (i) during the period from July 1, 2023 through June 30, 2024 and (ii) on June 30, 2024

Table 5a. Number of Children Who Have an Active IFSP in FY2024 and on June 30, 2024 by Race

Race	Children with an Active IFSP	
	FY2024 #	June 30, 2024 #
Total	33,485	18,847
White	11,471	6,699
Black	6,137	3,348
Latinx	11,880	6,575
Asian/PI/NA ¹	3,997	2,225

	FY2024 #	June 30, 2024 #
Female	11,858	6,839
Male	21,627	12,008

TIME TO FIRST SERVICE – REPORTING ITEM 6

Item 6. The average number of calendar days between the date of the initial IFSP meeting and the date children begin receiving Early Intervention services.

On average, children began receiving EI services within 22.5 days of their initial IFSP meeting, slightly faster than 22.8 days in FY2023. A significant contributor to this delay was families declining telehealth and choosing to wait for in-person services. Compared to white children, average time to service was six days longer for Black children, seven days longer for Latinx children and two days shorter for Asian/Pacific Islander/Native American children. Regulatory changes and a new data system, both implemented in September and October of 2025 respectively, will enable us to monitor the proportion of services delivered using teletherapy going forward. In addition, we expect a targeted 5% rate increase for in-person services and an additional 4% rate increase for in person service in underserved communities passed as part of the 2025-2026 NYS Executive Budget to incentivize the delivery of in-person services.

Table 6 (a-c): Average number of calendar days between the date of the initial IFSP meeting and the date children begin receiving early intervention services during the period of July 1, 2023 through June 30, 2024.

Notes:

- Includes all initial IFSPs with a start date from July 1, 2023 through June 30, 2024.

Male	22.6

Table 6c. Time to Service by Language

Language	Average # of Days from Initial IFSP to First Service
English	22.2
Spanish	27.2
Other ¹	19.1
Unknown ²	17.8

¹ Of other languages, the top 5 are Russian, Yiddish, Chinese, Bengali, and Arabic.

²Due to the small size of children whose language is unknown (<2% of total), the average number of days reported is not stable.

AUTHORIZED SERVICES – REPORTING ITEM 7

Item 7. The number and percentage of children with IFSPs who, (i) during the reporting period and (ii) as of June 30 of the reporting period, have IFSPs that recommend certain authorized services.

All children with IFSPs received service coordination. In FY2024, the most frequently authorized services included speech-language pathology (87% of children), special instruction and applied behavior analysis (87%), occupational therapy (OT) (56%) and physical therapy (PT) (36%). Transportation services, provided to facilitate the child's receipt of center-based group developmental services, were the next most common service (10%), with each of the other enumerated services used by fewer than 5% of children. Percentages of children receiving each service type were consistent with FY2023.

- Higher percentages of white children received PT and lower percentages received speech-language pathology and special instruction compared to children of other races.
- Higher percentages of boys than girls received OT, special instruction, and speech-language pathology, and a lower percentage received PT.
- Higher percentages of children from English-dominant families received OT compared to children whose families speak other languages.
- Compared to children from English-dominant families, a lower percentage of children from Spanish-speaking families received PT, and higher percentages received special instruction and speech-language pathology.

Table 7(a-d): The number and percentage of active children recommended for enumerated services (i) during the reporting period and (ii) as of June 30 of the reporting period.

Notes:

- Active children are defined as children who have an open IFSP during the reporting period.
- June 30th data includes IFSPs active on June 30, 2024.

- Applied Behavior Analysis (ABA) is identified by either a code of ABA, or a diagnosis of ASD and ≥ 5 hours of special instruction per week. Approximately one-third of families choose to receive ABA services for 5 - 10 hours per week and two-thirds choose to receive ABA services for 10 or more hours per week.
- The EI Program does not provide medical services, nursing services, psychological services, or health services.
- Data pertaining to sign language or cued language services are not available.
- Data pertaining to homelessness (status as a student in temporary housing) are not available.

Table 7a. Number and Percent of Children with Authorized Services in FY2024 and on June 30, 2024

TIMELINESS OF ALL SERVICES – REPORTING ITEM 8

Item 8. The number and percentage of children with IFSPs who were, during the reporting period, receiving in full the early intervention authorized services as recommended in their IFSPs within 30 days of the meeting; the number and percentage of children with IFSPs who were receiving in part such services within 30 days of such meeting and the number and percentage of children with IFSPs who were awaiting the provision of such services after 30 days of such meeting.

Almost all children (95%) start services within 30 days of their IFSP meeting, with 56% receiving their full package of services within that time frame, which has increased slightly from FY2023. Higher percentage of White (64%) and Asian (60%) children received their full package of services in 30 days than Latinx (52%) and Black (46%) children. Higher percentages of girls (57% vs 55% for boys) and of children who speak languages other than English or Spanish (62% vs 54% for English- and 55% for Spanish-speaking children) received their full package of services within 30 days of IFSP. Reasons for children not receiving all services in 30 days include waits for in-person service availability; authorizations for team meetings for interventionists, which do not occur until the child has been receiving services for some time; large service packages with multiple services to be staffed; child illness; conflicting medical appointments; and family vacations.

Table 8(a-c): Number and percent of children receiving all, some and no EI services within 30 days of IFSP meeting

Notes:

- Percentage is calculated as percent of row total.
- Includes all IFSPs (initial and ongoing) with a start date from July 1, 2023 through June 30, 2024.
- Days are counted from the start date of IFSP to the date of service, or from the start date of the service authorization (SA) to the date of service, if a service is added between IFSPs.
- A child will often have multiple IFSPs in one fiscal year.
 - If a child receives all services listed on ALL IFSPs within 30 days, they belong to the category of receiving full services within 30 days.
 - If a child does not receive any service listed on any IFSP within 30 days (receives service after 30 days or does not receive service at all), he/she belongs to the category of not receiving any services within 30 days.
 - Others belong to the category of receiving some services within 30 days.
