For that part of the pier where the bays are 12 feet 6 inch span, 5,840 square feet, and for the remainder of the pier, 38,440 square feet.	

The foregoing are the quantities which have been estimated approximately for the construction of the work. They form, however, no part of the contract, and persons bidding are cautioned that neither the Department of Docks nor the City of New York is to be held responsible that any of them shall strictly obtain in the construction of the work, and bidders are required to examine the plans and the premises, and to judge for themselves of the quantity and other circumstances affecting the cost of the work.

Within twenty days after the date of the contract, the contractor shall notify the Engineer, in writing, which of the two systems of pier head—the column system or the large pile system—he will use, and thereafter the system so elected shall be the system upon which the pier head shall be built, and no deviation therefrom will be allowed.

The time allowed for the completion of the work (except about 165 feet of the shore end of the pier) is four months from the date of an order to be given by the Engineer-in-Chief to commence the work, or within as many days after the four months have expired as the premises may have been occupied, after the date of said order, by the Department of Docks in dredging for the pier; and the work of building the said 165 feet of the inner or shore end of the new pier must be completed thirty days after date of notice that the last aforesaid work may be commenced, except so much of the said 165 feet as is to be done after the total removal of all the Pier, old 37, as hereinafter provided; and to fully complete the whole of the said 165 feet of the inner or shore end of said new pier within thirty days after the total removal of all of the pier as ordered by the Engineer; and the damages to be paid by the contractor for each day that the contract, or any part thereof, may be unfulfilled, after the time fixed for fulfillment has expired, Sundays and holidays not to be excepted, are by a clause in the contract fixed and liquidated at fifty dollars per day.

All the old material taken from said Pier, old 37, and the platform adjoining, to be removed under this contract, will be relinquished to the contractor, and bidders must consider the value of such material when considering the price for which they will do the work under the contract.

Bidders will state in their proposals the price for the whole of the work to be done, in conformity with the annexed specifications, by which the bids will be tested. This price is to cover the expenses of furnishing all the necessary materials and labor, and the performance of all the work set forth in the annexed agreement.

Bidders will write out the amount of their estimate for doing this work, in addition to inserting the same in figures.

Should the lowest bidder or bidders neglect or refuse to accept to contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid or proposal, or if after acceptance he or they should refuse or neglect to execute the contract and give the proper security for forty-eight hours after notice that the same is ready for execution, he or they shall be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and re-let, and so on until it be accepted and executed.

Bidders are required to state in their proposals their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the proposal shall distinctly state the fact; also that the bid is made without any connection with any other person making any estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which proposals must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each proposal shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the bid, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation any difference between the sum to which said person or persons would be entitled on its completion, and that which the Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested; the consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is

worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by section 6 of chapter 574, Laws of 1871, and by section 27 of chapter VIII. of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No proposal will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the proposals is reserved, if deemed for the interest of the Corporation.

Bidders are requested, in making their bids, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

DEPARTMENT OF PUBLIC PARKS.

DEPARTMENT OF PUBLIC PARKS,
 36 UNION SQUARE,
 NEW YORK, July 23, 1879.

TO CONTRACTORS.

SEALED BIDS OR ESTIMATES FOR LAYING new walks and repairing old walks in the City Hall Park, in said city, with cement, Neuchâtel, or other pavement, will be received at the office of this Department until Wednesday

the profits thereof. Where more than one person is interested, it is requisite that the verification be made and subscribed by all parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they will pay to the corporation any difference between the sum to which he would be entitled on its completion, and that which the corporation may be obliged to pay the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested.

The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, and stated in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise; that he has offered himself as a surety in good faith, and with an intention to execute the bond required by section 27, article 2, chapter 8 of the Revised Ordinances of 1859, if the contract shall be awarded to the person or persons for whom he consents to become surety.

The adequacy and sufficiency of the sureties offered to be determined by the Comptroller.

The contract for the work, if awarded at all, will be awarded to the lowest bidder, whose proposal, considering the price, quality, and durability of the pavement which he offers to lay will, in the opinion of the Department, be most advantageous to the city.

But the Department reserves the right to reject all the bids received in response to this advertisement if it shall deem it for the interest of the city so to do, and to re-advertise until a satisfactory proposal shall be received. But the contract, when awarded, will be awarded to the lowest bidder, with adequate security, for the particular kind of pavement which shall be adopted by the Department.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract, within forty-eight hours after written notice that the same has been awarded to his or their bid or estimate; and in case of neglect or refusal so to do, he or they will be considered as having abandoned it and as in default to the corporation.

The work to be done is the grading and paving of such portions of the walks and foot-paths in said park as the Commissioners of said Department shall designate on the map and ground, and is estimated to amount to about 41,000 square feet.

This estimate is only approximate, and not to be held as entitling the contractor to any claim for damages, should the actual amount of work be greater or less. He understands that he contracts with reference to the actual amount of space to be paved or repaved, so designated on the map or plan of the park and on the ground. Each bidder must furnish with his bid or estimate full and complete specifications for the work, showing the mode of making and laying the pavement he proposes to lay. A copy of the specifications, furnished by the bidder to whom the contract may be awarded, will be annexed to and form part of the contract.

Bidders will state in writing and also in figures, a price per square foot for laying the pavement. This price is to cover the furnishing of all the necessary materials, tools, and labor, the removal of old walks (where there are any), the excavation and grading of the bed for the pavement, and the full and entire performance of the whole work set forth in the contract and specifications. The time allowed to complete the whole work will be ninety days, and attention is called to the claim of the contract, by which the damages for delay beyond that time are fixed and liquidated at \$100 per day.

The amount in which security is required for the performance of the contract, is five thousand dollars.

The form of the contract which the successful bidder will be required to execute and with reference to which all bids must be made, can be seen at the office of the Department. Further information as to the nature and amount of the work, the forms of proposals, etc., if required, can be obtained at the same office.
