By order of the Board.

EMMONS CLARK, Secretary.

DEPARTMENT OF DOCKS.

At a special meeting of the Board of Docks, called in accordance with Article I., section 3 of the By-laws, held Thursday, July 25, 1895, at 11 o'clock A. M.

Present—President O'Brien.

“ Commissioner Einstein.

“ “ Monks.

The minutes of the meetings held July 2, 3 and 9 were approved.

David McClure, attorney, William P. Prentiss and a committee of the Board of Directors of the New Jersey Steamboat Company appeared and requested the Board to reconsider its action of the 1st instant, in fixing the rate of compensation to be paid for the land under water, occupied by the extension to Pier, old 41, North river.

On motion, further consideration of the matter was deferred.

William H. McCabe, Clerk, appeared and requested the Board to reconsider its action in discharging him on the 18th instant. After hearing his statement and that of Assistant Engineer Bense, the application was denied.

On motion of Commissioner Einstein, the following resolution was adopted:

Resolved, That permission be and hereby is granted the Hudson Tunnel Railway Company to maintain, during the pleasure of the Board, the structures now located on the new-made land near the foot of Morton street, North river; provided that said Company shall file in this office their written agreement to remove said structures whenever ordered to do so by this Board, and also agree to pay as compensation the sum of two thousand dollars per annum, payable quarterly in advance commencing August 1, 1895.

The resignation of Charles W. Howard, Assistant Dock Master, was accepted, and,

On motion of the President, the following resolution was adopted:

Resolved, That Henry J. Miller, of No. 214 West Sixty-seventh street, New York City, be and hereby is appointed Assistant Dock Master, with compensation at the rate of ninety dollars per month, to take effect August 1, 1895, in charge of District No. 11, in place of Charles Howard, resigned.

The communication from the Secretary, reporting that Charles F. Bruder declined the appointment as Assistant Dock Master, was filed, and, on motion of Commissioner Einstein, the following resolution was adopted:

Resolved, That Robert Ruhl, of No. 1343 Second avenue, New York City, be and hereby is appointed Assistant Dock Master, with compensation at the rate of ninety dollars per month, to take effect August 1, 1895, in charge of District No. 10, in place of Charles F. Bruder, declined.

On motion of the President, the following resolution was adopted:

Resolved, That Andrew Govan, Foreman of Laborers, be discharged from the service of the Department, to take effect August 1, 1895.

The President submitted the following statement:

On the North river, between Piers, old 8 and old 9, is a platform extending from the westerly side of West street about 178 feet.

This platform does not appear on any map that we have previous to 1870, but the portion colored green, irregular in shape and extending from 41 feet to 74 feet out from the bulkhead on West street, first appears on the Dock Department map of 1870.

Afterward, by resolution of the Board of 9th October, 1879, this platform was extended to its present shape and size. This extension is colored yellow on the accompanying map, and at present \$1,500 per annum is paid for it by Messrs. Clark and Seaman, under resolution of the Board of 30th of April, 1884.

The area of the portion colored green, for which the City does not receive any compensation, is 3,445 square feet, for which, at the usual rate of twenty-five cents per square foot, the occupants should pay an annual rental of \$861.25 to the City, for the use of the land under water covered by this portion of the platform.

The area of the portion covered yellow, for which permit was granted on the 9th of October, 1879, is 8,535 square feet.

For so much of the platform colored green on the accompanying map, the Department has no record as to how it came to be built, by whom it was built, or by what authority, if any.

This is a similar case to others already considered, and I therefore recommend that the owners or occupants of such portion of the platform not included in the permit of October 9, 1879, be required to pay compensation to the City at the usual rate of twenty-five cents per square foot per annum, from the date of their occupancy, or remove said platform.

On motion, the following resolution was adopted:

Resolved, That the Secretary be and is hereby directed to notify the Cromwell Steamship Company that unless they agree to pay at the rate of twenty-five cents per square foot per annum, commencing from the time of their occupancy of same, for the land under water covered by platforms between Piers, old 8 and 9, North river, not included in the permit granted October 9, 1879, the last-mentioned permit will be revoked, and said company required to remove any and all platforms between Piers, old 8 and 9, North river.

On motion, the following resolution was adopted:

Resolved, That the Counsel to the Corporation be and hereby is requested to push to the utmost the proceedings for the acquisition of three hundred and three feet ten inches of bulkhead, etc., between Market and Pike streets, East river, including Pier, old 39, East river.

The communication from Alfred C. Chapin, attorney for the Screw Dock Company, protesting against the interference by Dock Master Groth at Pier 39, East river, was tabled.

The matter of paving required between One Hundred and Third and One Hundred and Fourth streets, Harlem river, and the application of Rear Admiral Osborn, for permission to permanently berth a barge at the Pier foot of West Fiftieth street, were referred to the Treasurer.

From the New York Shipping Company—Reporting damage to Pier, new 59, North river, by the steamer “New York.” The lessees were directed to repair.

From John Cromwell—Requesting permission to build wall at Girard avenue, Harlem river.

On motion, permission was granted him to build a dry wall or rip-rap embankment, the out shore side of which shall be fifty feet easterly or inshore of the bulkhead line of 1890, with returns to Gerard avenue, on the northerly side, distant ten or fifteen feet southerly from a grant made of Charles Van Riper in 1887, and extending to grant to Henry F. Durant in 1869, now belonging to John H. Cheever; and in order that the property may not be injured for future use, the stone to which this embankment is composed shall not be of greater size than twelve inches in their largest dimensions, such structures to remain only during the pleasure of the Board and to be erected under the supervision of the Engineer-in-Chief.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the above shall present the same in a sealed envelope to said Commissioner of Street Cleaning at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The Commissioner of Street Cleaning reserves the right to decline any and all bids or estimates, if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the VERIFICATION be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance in the sum of fifteen thousand (\$15,000) dollars; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of seven hundred and fifty (\$750) dollars. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days

after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.
