The Secretary presented a report of Clerk Woodward on the letter sent to this office from the Fire Commissioner, requesting that Philip Gorman and Henry Heilos, candidates for promotion to the position of Engineer of Steamer, who through an error on the part of the Fire Department were not notified to appear for examination, be granted a special examination for that position. The report of Mr. Woodward stated that a supplementary examination for Engineer of Steamer was about to be arranged for Firemen of the second grade. The Secretary was directed to notify the candidates

to appear for physical examination for the position of Engineer of Steamer so that they may be admitted to the mental examination to be held for the Second Grade Firemen as suggested.

A letter was presented from the Secretary of the State Civil Service Commission in connection with the classification of positions in the Change of Grade Damage Commission. The Secretary stated in his letter that it was the opinion of President Pound of the State Commission that the Change of Grade Damage Commission is clearly within the jurisdiction of the Municipal Civil Service Commission of The City of New York, and that the pay-roll should be certified by that Commission; that, under the law, the positions of Clerk, Stenographer and Office Boy in said Change of Grade Damage Commission, never having been otherwise classified, fall into the competitive class.

On motion, the Secretary was instructed to communicate with the Change of Grade Damage Commission and state that when its pay-rolls are presented at this office, the Commission will attach its certificate to the same.

On motion, it was

It appearing from the doctor's certificate transmitted by the Board of Education that leave of absence was granted because of illness, on motion, the same was approved.

A letter was presented from the Board of Education requesting that the Commission hold an examination for promotion from the position of Orderly to that of Attendance Officer. The request was denied.

A letter was presented from the President of the Borough of Richmond requesting that the Commission hold an examination for promotion from the position of Transman and Computer to that of Assistant Engineer. The request was granted and the Secretary was instructed to proceed with the examination at the earliest possible date.

A letter was presented from the Department of Finance requesting that the Commission hold a special examination for the position of Examiner of Sewer Claims, and that pending the establishment of such a list, the Commission authorize the Comptroller to appoint temporarily, under the provisions of Rule XII, paragraph 3, Messrs. John Abel, No. 134 Fourth place, Brooklyn; Charles Spicer, No. 163 Eckford street, Brooklyn, and Dean Potter, Caton avenue and Sixteenth street, Brooklyn. The matter was referred to the President for a recommendation.

A letter was presented from the Supervisor of the City Record with reference to the appointment of William A. Wickes to the position of Office Boy in that Department. The Secretary stated that Mr. Wickes had been certified at the same time to both the Park Department and the office of the City Record, and that he had been appointed in both Departments. The Supervisor of the City Record stated that Mr. Wickes was serving in his office, and that it was his desire to continue such services. The Secretary was instructed to communicate with the Supervisor of the City Record and to state that the appointment of Mr. Wickes in his Department had been confirmed by the Commission, and that his pay-roll would be certified when presented.

A letter was presented from the Fire Department requesting the certification of names of persons competent to perform the duties of Groundmen. The Secretary stated that there was no such list in the Labor Bureau, and that in accordance with the instructions of the Commission, certification had previously been made to the Fire Department from the list of common Laborers, but the Fire Commissioner had notified the Commission that the services of such persons were not satisfactory. The Secretary was instructed to certify from the list of Wiremen.

A letter was presented from the Department of Health requesting that an examination for promotion to the position of second grade Clerk in that Department be arranged by the Commission. The request was granted, and the Secretary was authorized to proceed with the examination.

A letter was presented from the Fire Department requesting that an examination for promotion from the position of Assistant Fire Marshal to that of Fire Marshal be held by the Commission in order that vacancies existing in the position of Fire Marshal in the boroughs of Brooklyn and Queens may be filled. The Secretary was instructed to arrange for an examination in which all the Assistant Fire Marshals in the service of the Department may compete.

A letter was presented from the Department of Bridges requesting the Commission to hold the following examinations for promotion:

- Clerk to tenth grade.
- Auditor to ninth grade.
- Bookkeeper to ninth grade.
- Clerk to eighth grade.
- Clerk to seventh grade.
- Clerk to sixth grade.

The Secretary was authorized to proceed with the examinations.

A letter was presented from the Department of Public Charities requesting the Commission to hold an examination for the position of Dietician. The Secretary stated that the eligible list for said position contained but two names. The request was granted and the Secretary was instructed to proceed with an open competitive examination at an early date.

A letter was presented from Harry S. Oswald, No. 436 East Fifty-ninth street, New York City, stating that he had been unable to attend the mental examination for the position of Fireman held on December 7, and requesting that he be permitted to stand on the examination taken by him on November 15 for that position. The Secretary was instructed to inform Mr. Oswald that the mental examination for the position of Fireman, held on November 15, in which he competed, had been cancelled by the Commission, and that, therefore, no work handed in by any candidate on that day could be considered.

A letter was presented from Patrolman Thomas Nihill stating that his brother, Daniel Nihill, who competed in the examination for the position of Fireman, held on November 15, which examination was canceled by the Commission, had sailed for Europe to be gone until after January 1, and requesting that his brother be granted a special examination.

On motion, the Secretary was instructed to quote the provisions of the Civil Service Rules providing that no candidate shall be granted a special examination except that through an error, for which the Commission is responsible, he failed to appear for, or complete his examination.

A letter was presented from Miss Emma Duke requesting that the Commission reconsider its action in declining to restore her to eligibility for certification for the position of Clerk with a knowledge of stenography at \$600 per annum. The Secretary stated that the Commission declined to take such action in view of the fact that Miss Duke had declined appointment at \$600 per annum in the Department of Education. It appearing from an affidavit subsequently presented by the candidate that she declined the position through a misapprehension, not knowing at the time that no higher salary than \$600 per annum was paid in that position, which fact at that time was unknown to the Commission.

On motion, the Commission rescinded its action in denying her request, and instructed the Secretary to recertify her for appointment when a requisition was made.

A letter was presented from Joseph Chernowsky, No. 60 Division street, New York City, requesting that his examination papers for the position of Inspector of Tenements, which in error he had signed with his name instead of his examination number, be rated. The request was denied for lack of power.

The Secretary presented the resignations of Messrs. Edward Clark, M. D., and Michael N. Davis, Jr., from the position of Monitor in this Commission.

On motion, the same were accepted.

A letter was presented from Mr. S. L. Morse, Jr., Washington, D. C., requesting that the provision that all candidates for positions in the service of this City be residents of the State of New York, be waived in his case and that he be permitted to take the examination for Leveler. The Secretary was instructed to communicate with Mr. Morse and state that under the Civil Service Rules no application can be accepted from any person who is not a resident of this State.

The Secretary presented a communication from the Corporation Counsel, addressed to the Commission, in answer to its request for information as to the propriety of further certification of pay-rolls of John H. O'Mara and Sigmund Deckelman, whose employment as Foremen of Bee Culture in the Department of Parks, Borough of The Bronx, had been complained of by the Civil Service Reform Association.

The Corporation Counsel stated as follows:

"* * * I am of the opinion that where your Board has certified a man to the head of a Department for appointment, and said person has been appointed by the Officer legally empowered by the Charter to make such appointment, that your certification should not be recalled without giving the man, the validity of whose certification is questioned, his day in Court."

"* * * I therefore advise that where persons have been certified by your Board for appointment, and have actually been appointed by the proper official, that you should not refuse certification of their pay-roll on the complaint of third persons, without giving the men materially affected a chance to be heard in defense of their rights. * * *

After carefully considering the advice of the Corporation Counsel, the Secretary was instructed to attach the certificate of the Commission to the pay-rolls of Messrs. O'Mara and Deckelman for services rendered by them up to the date of their dismissal by the Commissioner of Parks.

A letter was presented from the Secretary of the Civil Service Reform Association, calling the attention of the Commission to the fact that Dennis Gerrity, who was employed in the Department of Charities as a Laboratory Attendant, is really performing the duties of an Assistant Chemist, and requesting that the Commission refuse to attach its certificate to the pay-roll of said Gerrity until it is convinced that he is performing duties appropriate to his official title. The Secretary was instructed to communicate with the Secretary of the Civil Service Reform Association and state that the Commission would investigate the facts in this case, but that under the foregoing opinion of the Corporation Counsel, it could not withhold its certificate from Mr. Gerrity's pay-roll until it had been proven to its satisfaction that the complaint of the Civil Service Reform Association was well founded. The Secretary was further instructed to transmit a copy of the opinion of the Corporation Counsel to Secretary Goodwin for his information.

The Commission then adjourned for the day.

Attest:

HENRY BERLINGER, Secretary.

BOARD OF EXAMINERS.

JANUARY 17, 1905.

Present—Messrs. Walter Cook, Warren A. Conover, Charles Brendon, William C. Smith, Charles G. Smith, Edward F. Croker and William J. Fryer, Chairman.

Meeting called to order at 2 P. M.

On motion, minutes approved as read.

Appeal 107 (laid over by request).

Letter of even date presented, requesting that appeal be laid over for one week.

On motion, granted.

Appeal 1 (laid over by request).

Mr. A. J. Johnson appeared before the Board.

On motion, approved as amended.

Appeal 2 of 1905—Alteration 1798 of 1904, premises Nos. 44 to 48 Cedar street, Manhattan; Francis H. Kimball, architect and appellant.

"No. 11—Wind bracing should be provided for the entire building. Section 140 of the Code."

The location of this building being such that it is practically surrounded by tall buildings, as per sketch herewith, therefore the action of the wind can hardly be severe enough to require the resistance which should be provided for a building erected in an exposed location.

To waive this requirement of the Code, inasmuch as the requirement for special provision against the force of a violent wind does not apply to this building, considering its location surrounded by other high buildings and not in an isolated location.

As per facts stated on preceding page, and that the provision of the Code relating to structures exposed to wind does not apply in this case, as this building is not exposed to any great extent to violent winds by reason of the adjoining and surrounding high fireproof buildings.

Messrs. Francis H. Kimball and S. C. Weiskopf appeared before the Board.

On motion, appeal granted, so far as the requirements of section 140 of the Building Code, which requires that wind bracing shall be provided for the entire building.

On condition that the upper portions of the building that are actually exposed to the wind shall be structurally found to be sufficient, in the opinion of the Superintendent of Buildings, to resist any force of wind that is likely to reach this building, considering the high buildings that surround it in all directions.

Adjourned.

THOMAS F. DONOHUE, Clerk.

BOARD OF ALDERMEN.

AN ORDINANCE granting to the Bush Terminal Railroad Company the right or franchise to construct and operate a street surface railway in, upon and along certain streets, avenues and highways of The City of New York.

BE IT ORDAINED BY THE BOARD OF Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen of The City of New York hereby grants to the Bush Terminal Railroad Company, subject to the conditions and provisions hereinafter set forth, the franchise, right and privilege to construct and operate a double-track surface railway, with all connections, turnouts, crossovers and suitable stands necessary for the accommodation and operation of said railway, by the overhead system of electricity, or any other motive power which may be lawfully employed upon the same, excepting locomotive steam power or horse power, in, upon and along the following-named streets, avenues and highways, all situated in the Borough of Brooklyn, City and State of New York, namely:

Commencing at a point where the centre line of Twenty-eighth street, if extended, would meet the centre line of Second avenue, if extended; running thence southerly upon and along Second avenue, if extended, to the former tide-water line just north of Thirty-eighth street; thence southerly upon and along Second avenue to Forty-first street; thence westerly upon and along Forty-first street to First avenue, and thence southerly upon and along First avenue to the southerly side of Sixty-fifth street.

Together with the necessary connections, switches, sidings, turn-tables, turnouts, crossovers and suitable stands for the convenient operation of said surface railway, and for the accommodation of the cars of the said Bush Terminal Railroad Company, which may be run over said railway tracks by the said Bush Terminal Railroad Company, its successor or assigns, as may be subsequently permitted by the Board of Estimate and Apportionment or its successor in authority.

The said route with switches, turnouts and spurs is illustratively shown upon the plan and profile herewith attached, entitled "Map showing plan of tracks of Bush Terminal Railroad Company on application for franchise from City of New York." Dated July, 1904, and signed by Irving T. Bush, President, and E. P. Goodrich, Engineer, which plan and profile are to be deemed a part of this franchise and to be construed with the text hereof, and are to be substantially followed: Provided that deviations therefrom and additional switches, crossovers and spurs which are consistent with the foregoing description and the other provisions of this franchise, may be permitted by resolution of the Board of Estimate and Apportionment.

Sec. 2. The grant of this franchise is subject to the following conditions:

First—The consent in writing of the owners of half in value of the property bounded on said streets, avenues and highways to the construction and operation of said railway shall be obtained by the grantee, or in the event that such consent cannot be obtained the grantee shall obtain the favorable determination, confirmed by the Court, of three Commissioners, appointed by the Appellate Division of the Supreme Court, in the manner provided by the Railroad Law, before said railway is built or operated.

Second—The said right, privilege and franchise to construct and operate said railway shall be held and enjoyed by said railroad company, its lessee or successors, for the term of twenty-five years from the date when this ordinance is signed by the Mayor, with the privilege of renewal of said grant for a further period of twenty-five years, upon a fair revaluation of said right, privilege and franchise, but such renewal shall not provide for any further renewal. Such revaluation shall be of the right, privilege and franchise to maintain and operate said railway by itself, and not to include any valuation derived from the ownership, operation or control of any other railway by the grantee, its successor or assigns. It shall be in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment, or its successor in authority; one disinterested freeholder shall be chosen by the railroad company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least one year prior to the expiration of the grant, and their report shall be filed with the Comptroller or his successor in authority, within three months after they are chosen. They shall act as appraisers, and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railroad company. The valuations as ascertained, fixed and determined, shall be conclusive upon both parties, but shall not in any event be less than the minimum amounts fixed as the sum to be paid annually for the last five years of the original franchise.

Third—Upon the termination of the said franchise, right or privilege hereby granted, whether original or renewal, if the Board of Estimate and Apportionment of The City of New York, or its successors in authority shall so desire, there shall be a fair valuation of the plant and property of the grantee necessary for traction purposes upon the streets, avenues and highways, including power-house, equipment, tracks and appurtenances, which plant and property shall be and become the property of The City

of New York, at the option of the said Board of Estimate and Apportionment, or its successor in authority, on the termination of this grant and the payment to the grantee of such valuation. Such payment shall be at a fair valuation of the said plant as property, excluding any value derived from the franchise, and such value shall be determined by the Board of Estimate and Apportionment, or its successor in authority.

Fourth—The Bush Terminal Railroad Company, its successor or assigns, shall pay for this franchise to the City of New York the following sums of money: During the first term of five years an annual sum which shall in no case be less than \$250, and which shall be equal to three per cent. of its gross annual receipts, derived from all sources in any way connected with the passenger service, if such percentage shall exceed the sum of \$250; during the remaining twenty years of the term, an annual sum which shall not be less than \$500, and which shall be equal to five per cent. of its gross annual receipts as above, if such percentage shall exceed the sum of \$500.

In computing the amount of the gross receipts derived from passenger traffic and above referred to, the route hereinbefore mentioned shall be considered, and the persons who are upon the cars of the company at any point upon such route shall be deemed to have paid the fare provided to be paid by the ordinance granting the franchise aforesaid, whether they enter or leave the car upon such route or upon any other route upon which the grantee, its successor or assigns, operate its cars.

From the date of commencement of the operation of any portion of the railway until the end of the first ten years of this grant, an additional sum of fifteen (15) cents per annum for each linear foot of single track, including switches, crossovers and spurs laid in any street, avenue or highway; and for the succeeding fifteen years an additional sum of thirty (30) cents per linear foot per annum, in lieu of said sum of fifteen (15) cents; provided that if the City of New York shall at any time during the term of this franchise, acquire or otherwise come into possession of any of the streets or avenues shown on the map attached, upon which the Bush Terminal Railroad Company now proposes to construct and operate a railroad, and which streets or avenues are not now legally opened, no compensation shall be awarded in any proceeding instituted to acquire title to the said streets, and the grantee shall, when such streets are required, pay to the City of New York the same rates per linear foot of single track provided for above.

Such sums shall be paid into the Treasury of the City of New York on November 1 in each year, provided, however, that the first payments shall only be for that proportion of the above sums as the time of the signing of this ordinance by the Mayor to September 30 next preceding said date of payment, shall bear to the whole of one year.

The fiscal year shall end on September 30 next preceding said date of payment, and the provisions of the Railroad Law as it now exists, or as it may hereafter be amended, relating to the manner of payments and statements of percentages of gross receipts of street railway companies shall be strictly followed. The intention of this paragraph is to fix an annual charge to be paid by the grantee, its successor or assigns, to the City of New York for the rights and franchise hereby granted, and it shall not be construed as providing for the payment by the grantee, its successor or assigns, of a percentage of gross receipts within the meaning of any general or special statute.

Fifth—The said annual charge or payments shall continue throughout the whole term of the franchise hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway company providing for payments for street railway rights or franchises at a different rate, and no assignment, lease or sub-lease of the rights or franchise hereby granted, whether original or renewal, or of any part thereof, or any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sub-lease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this grant.

Sixth—The rights and franchises granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person or corporation whatsoever, either by the act of the Bush Terminal Railroad Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of the City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any statute notwithstanding, and the granting giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

No passenger cars of any railway company other than the Bush Terminal Railroad Company shall be permitted to operate upon the route hereby granted without the consent of the Board of Estimate and Apportionment, and under such terms as it may prescribe.

Seventh—That said railway company may be operated by overhead electrical power, substantially similar to the system of overhead electrical traction, now in use by the Brooklyn Rapid Transit Company, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board of Railroad Commissioners and consented to by the owners of property in accordance with the provisions of the Railroad Law; and provided further that the Board of Estimate and Apportionment, or its successor in authority, upon giving the grantee, its successor or assigns, one year's notice in writing, may require it or them to operate its railroad upon the whole or upon any portion of its route, by underground electrical power substantially similar to that now in use by the Metropolitan Street Railway Company in the Borough of Manhattan, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose, from the streets, avenues and highways in the Borough of Brooklyn, City of New York. Such change in system shall be made wholly at the cost and expense of the grantee.

Eighth—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City of New York, who have jurisdiction in such matters under the Charter of the City.

Ninth—The said railway company shall be constructed and operated in the latest improved manner of street railway construction and operation, and solely upon the terms and according to the lines and surveys and of the character of the rails and other parts of the construction approved by the President of the Borough of Brooklyn. Such railway of the railroad company, its successor

or assigns, shall be maintained in good condition throughout the term of this grant.

Tenth—The rate of fare for any passenger upon said railway for a continuous ride from any point of the route hereby granted to any other point on said route shall not exceed two (2) cents.

Provided, however, that, if by a traffic arrangement with any other transportation company, free transfers are given enabling a passenger paying one fare on the route hereby granted to reach the Borough of Manhattan or the Brooklyn Borough Hall, when traveling in a northerly direction, and Coney Island when traveling in a southerly direction; then the rate of fare shall not exceed five (5) cents.

The rates for the carrying of property upon the cars of the grantee shall in all cases be reasonable in amount, and shall be subject to the control of the Board of Estimate and Apportionment, or its successor in authority, and may be fixed by such Board, after notice and hearing to the grantee, and when so fixed such rate shall be binding upon said grantee, its successors or assigns, and no greater sums shall be charged for such services than provided for by it.

Eleventh—The passenger cars on the said route as aforesaid shall run at intervals of not more than thirty minutes, both day and night, and as much oftener as the reasonable convenience of the public may require, or as may be directed by the City ordinances, or by the Board of Estimate and Apportionment; provided, however, that said railroad company during the first five years of this franchise shall not be required to operate its cars on any part of the aforesaid between the hours of 11 o'clock P. M. and 5 o'clock A. M. each day, unless the Board of Estimate and Apportionment of said City shall determine after a hearing had thereon that public convenience requires the operation of its cars during said hours.

Twelfth—The said railroad company shall apply to each passenger and motor car run over said railway a proper fender and wheelguard in conformity to such laws and ordinances as are now in force or may hereafter be enacted or adopted by the State or City authorities.

Thirteenth—All passenger cars on said railway shall be heated through the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and any failure to keep the temperature of any of the passenger cars of the company above fifty degrees Fahrenheit shall make the company liable for a penalty of fifty (50) dollars per car per day for each offense.

Each car shall be well lighted either by Pintsch gas system or by electricity, or by some system of lighting equally efficient.

Fourteenth—The number of freight cars in any train operated upon the railway shall be limited to seven (7), including the motor car, and the speed of such motors or trains shall not exceed six (6) miles per hour. No motors or cars shall be permitted to remain stationary within the lines of any street, avenue or highway, whether on the main track or any spur, and no freight shall be loaded upon or unloaded from such cars while within the lines of any such street. Failure to comply with any of the above provisions shall make the company liable for a penalty of fifty dollars (\$50) for each offense.

Fifteenth—The said railroad company, its successor or assigns, shall cause to be laid between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the municipal authorities having jurisdiction in such matters, upon and along the streets, avenues and highways covered by the route as aforesaid, and now unpaved, a granite block pavement upon a concrete foundation, with tar and gravel joints.

The grantee shall pay the entire cost thereof, together with the cost of inspection, and no cars shall be operated under this franchise over any part of the route hereby granted until the said pavement is fully and completely laid.

Sixteenth—The said railroad company, as long as it shall continue to use any of the tracks upon said streets, avenues and highways, shall have and keep in permanent repair that portion of the surface of said streets, avenues and highways between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. And the City of New York shall have the right to change the material or character of the pavement of any street, avenue and highway, and in that event the grantee, its successor or assigns, shall be bound to replace such pavements in the manner directed by the proper City officer, at its own expense, and the provision as to repairs herein contained shall apply to such renewal or altered pavement.

Seventeenth—The said railroad company, so long as it shall continue to use any of the tracks upon said streets, avenues and highways, shall cause to be watered the entire roadway of each of the above streets, avenues and highways at least three times in every twenty-four hours when the thermometer is above 35 degrees Fahrenheit, and shall provide for such purpose at least one tank car, to be propelled by electricity, the capacity of which shall warrant the watering of the streets in a satisfactory manner.

Eighteenth—The said railroad company shall at all times keep the streets between its tracks, the rails of its tracks, and for a distance of two feet in width outside of its tracks, free and clear from ice and snow; provided, however, the grantee shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from house line to house line.

Nineteenth—The said railroad company shall, when so required by the Board of Estimate and Apportionment, station flagmen at so many street crossings and during such hours as the said Board may deem necessary for the proper protection of the public, and shall also erect and maintain gates and gatemen at such crossings where in the opinion of the said Board the protection afforded by a flagman alone is insufficient. For failure to comply with the requirements of the Board of Estimate and Apportionment in stationing flagmen or erecting and maintaining gates, the company shall be liable for a penalty of fifty dollars (\$50) per day for each offense.

Twentieth—The said railroad company shall carry free within the limits of the City of New York during the existence of this grant or its renewal all letter carriers of the United States Government and members of the Police and Fire Departments of the City of New York, when such employees are in full uniform.

Twenty-first—In case of any violation or breach or failure to comply with any of the provisions herein contained, this grant may be forfeited and avoided by a suit brought by the Corporation Counsel on notice of ten days to the said railroad company.

Twenty-second—If any of the streets, avenues and highways above referred to or described shall not now be open or in use as public highways, no right or franchise shall vest in the grantee of virtue of this ordinance until after such streets, avenues and highways shall be legally opened as a public highway. Nothing in this ordinance contained shall be construed as an obligation on the City of New York in respect to the opening of such streets, avenues and highways.

Twenty-third—This grant is on the express condition and covenant that the railroad company will not object to the opening by the City of New

York of any street, avenue or highway laid out or which may be hereafter laid out, upon, along, crossing or intersecting the route herein before described.

Sec. 3. This grant is also upon the further and express condition that the provisions of article 4 of the Railroad Law applicable thereto, and all laws or ordinances now in force or which may be adopted affecting the surface railways operating in the City of New York shall be strictly complied with.

Sec. 4. The grant of this privilege shall not affect in any way the right of the City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation, and is subject to whatever right, title or interest the owners of the abutting property may have in and to the streets, avenues and highways on the route hereinbefore described.

Sec. 5. Said railroad company shall commence construction within six months from the date of the passage of this ordinance, and shall complete the construction of at least one and one-half miles of double-track railway on or before July 1, 1907, otherwise this grant shall be forfeited. If upon the route above described, or upon any portion thereof, there shall not be constructed and in actual operation by July 1, 1907, a railway properly equipped and operated as provided by this ordinance, the said route or portion thereof shall be conclusively taken to have been abandoned by the company, and so much of the rights and franchises hereby granted as pertain to such route or portion thereof, not then constructed from and after July 1, 1907, shall be thereupon forthwith and immediately forfeited, without judicial or other proceedings. Provided that such time may be extended under and for causes specified in section 90 of the Railroad Law, and the Board of Estimate and Apportionment may extend such time for a period or periods not exceeding one year if, in their discretion, it seems best so to do, and that the City officials or departments who or which shall at the time of such construction have authority over the said streets, avenues and highways, may extend such time for a period or periods not exceeding one year further, if reasonable, in their judgment, by reason of requirements as to the manner of construction imposed by the City officials.

Sec. 6. The grantee shall assume all liability by reason of the construction and operation of the railway, and the City shall assume no liability whatsoever to either persons or property by reason of its construction or operation.

As a condition of this grant, the grantee, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the railroad company, its successor or assigns.

Sec. 7. If for any reason the right or franchise of the grantee in any of the streets, avenues and highways above described shall cease, or if for a period of six successive months the railway tracks upon any of such streets, avenues and highways shall not be operated by the grantee, the Comptroller of the City of New York may require the grantee, its successor or assigns, to remove its tracks and other structures upon such streets, avenues and highways within thirty days after notice, and in default of their removal pursuant to such notice, the proper local authorities having jurisdiction may cause them to be removed and the City of New York may recover the cost and expense of such removal, either by deducting them from the fund deposited as hereinafter provided for or by action; and the rights and franchises of the grantee, its successor or assigns, in such portions of the streets, avenues and highways in case any such exist, shall forthwith and immediately cease upon the removal of such tracks or structures and without judicial or other proceedings.

Sec. 8. Any alterations may be required to the sewerage or drainage system, or to any subsurface structures, pipes, etc., laid in the streets, on account of the construction or operation of the railway, shall be made at the sole cost of the railroad company, and in such manner as the proper City officials may prescribe.

Sec. 9. The work of construction of the railway shall be done in such manner as shall not substantially interfere with the ordinary use of streets as a public highway.

Sec. 10. Said railroad company shall file with the Comptroller of the City of New York on November 1 following the commencement of operation of any portion of the railway, a map or maps showing the number of tracks, including switches, crossovers and spurs and the number of linear feet of single track so laid in any street avenue or highway up to September 30 next preceding.

All distances to be accurately determined from actual measurements made upon the ground, and the map or maps to be verified by an official of the company. On each succeeding November 1 a map shall be filed with the Comptroller showing all additional tracks laid during the year.

Sec. 11. This grant is upon the express condition that the Bush Terminal Railroad Company within thirty days after the said Company has been duly authorized to operate its railway, and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of the City of New York the sum of five thousand dollars either in money or in securities to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the franchise, the repairs of the street pavement and the removal of snow and ice, and the quality of construction of the railway, and in case of default in the performance by said company of such terms and conditions, the City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges shall collect the same with interest from such fund after ten days' notice in writing to the said company. Or in case of failure to keep the said terms and conditions of this grant relating to the headway of cars, fender and wheel guards and the heating of the cars and the watering of the street pavement, the said company shall pay a penalty of \$50 a day for each day of violation, and the further sum of \$10 a day for each car which shall not properly be heated or supplied with fenders and wheel guards in case of the violation of the provisions relating to these matters. In case of any drafts so made upon the security fund, the said company shall, upon thirty days' notice in writing, pay to the Comptroller of the City of New York a sum of money sufficient to restore the said fund to the original amount of five thousand dollars, and in default thereof the grant hereby made may be cancelled and annulled at the option of the Comptroller of the City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to the City of New York.

Sec. 12. This grant shall not become operative until said railroad company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of the City of New York within thirty days after the adoption of this ordinance.

Sec. 13. This ordinance shall take effect immediately.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits, thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 430 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
