## APPROVED PAPERS.

FOR THE WEEK ENDING APRIL 7, 1906.

No. 192.

Whereas, The Board of Estimate and Apportionment at a meeting held March 16, 1906, as follows:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of the position of Stationary Engineman, under the jurisdiction of the President of the Borough of Brooklyn, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said position be fixed at the rate of four dollars (\$4) per diem."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the position of Stationary Engineman, under the jurisdiction of the President of the Borough of Brooklyn, at the rate of four dollars (\$4) per diem.

Adopted by the Board of Aldermen, March 27, 1906.

Approved by the Mayor, April 2, 1906.

No. 193.

Whereas, The Board of Estimate and Apportionment, at a meeting held March 16, 1906, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the establishment of the position of Secretary to the Chamberlain, and recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of said position be fixed at the rate of two thousand dollars (\$2,000) per annum."

Resolved, That the Board of Aldermen hereby concurs in said resolution and fixes the salary of the position of Secretary to the Chamberlain at the rate of two thousand dollars (\$2,000) per annum.

Adopted by the Board of Aldermen, March 27, 1906.

Approved by the Mayor, April 2, 1906.

No. 194.

Whereas, The dreadful conflagration which occurred yesterday, March 26, 1906, in the vicinity of Bedford and Downing streets, in the Borough of Manhattan, entailing the loss of four lives and the destruction of hundreds of thousands of dollars worth of property, evidenced anew the sterling and unflinching heroism of the members of the Fire Department of The City of New York; therefore be it

Resolved, That we, the members of the Board of Aldermen of The City of New York, hereby record our appreciation of the valiant though mournful end of Fire Captain John F. Walsh and his comrades, George Christman, Denis Healey and Thomas Halpin, and convey to the surviving members of their families our heartfelt sympathy in their terrible bereavement.

Resolved, further, That copies hereof, suitably engrossed and duly authenticated by the City Clerk, be transmitted to the families of the deceased.

Adopted by the Board of Aldermen, March 27, 1906.

Approved by the Mayor, April 2, 1906.

No. 195.

Resolved, That the Board of Estimate and Apportionment be and hereby is requested, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of three thousand eight hundred and seventy-two dollars and fifty-four cents (\$3,872.54), the proceeds whereof shall be applied to meet the increase in the salaries of the Attendants of the City Court of The City of New York for the year 1906, as authorized by resolution approved January 30, 1906.

Adopted by the Board of Aldermen, March 20, 1906.

Received from his Honor the Mayor, April 3, 1906, without his approval or disapproval thereof; therefore, as provided in section 40 of The Greater New York Charter, the same took effect as if he had approved it.

No. 196.

Resolved, That the Board of Estimate and Apportionment be and hereby is requested, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of forty thousand dollars (\$40,000), the proceeds whereof shall be applied or added to the appropriation for "Salaries" of the Department of Correction, boroughs of Manhattan and Brooklyn, to enable the Commissioner of Correction to carry out the provisions of the resolution fixing the salaries of the position of Keeper in the Department of Correction, adopted by the Board of Estimate and Apportionment, February 16, 1906, concurred in by the Board of Aldermen, March 6, 1906, and approved by the Mayor, March 13, 1906.

Adopted by the Board of Aldermen, March 20, 1906.

Received from his Honor the Mayor, April 3, 1906, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 197.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment be and is hereby requested to authorize the Comptroller to issue Special Revenue Bonds in an amount not to exceed three thousand dollars (\$3,000), the proceeds to be used for the purpose of equipping rooms on the top floor of the Criminal Court Building, to be used as a courtroom for the Criminal Branch of the Supreme Court.

Adopted by the Board of Aldermen, March 20, 1906.

Received from his Honor the Mayor, April 3, 1906, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

No. 198.

Resolved, That permission be and the same is hereby given to Cornell & Underhill to place and keep a six-inch iron beam, as shown upon the accompanying diagram, on the Hudson street side of their premises, on the corner of Beach and Hudson streets, in the Borough of Manhattan; the said beam to be used for the purpose of transmitting merchandise to and from trucks of the aforesaid firm at the above location, to be securely fastened and so arranged that it will in no instance prove an impediment to traffic or pedestrians; the work to be done at their own expense, under the direction of the President of the Borough of Manhattan, such permission to continue only during the pleasure of the Board of Aldermen.

Adopted by the Board of Aldermen, March 20, 1906.

Received from his Honor the Mayor, April 3, 1906, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

Brown, et al., Trustees of School District No. 6 of the Town of Westfield, by a deed dated October 22, 1891, and recorded in the County Clerk's office of Richmond County December 9, 1891, in Liber 215 of Deeds, page 338; thence running southerly along the westerly line of the land so conveyed as aforesaid three hundred and seventy-three (373) feet four (4) inches to the southerly line of the aforesaid land; thence westerly parallel with said First avenue or Church street one hundred (100) feet; thence northerly parallel with the aforesaid first line three hundred and seventy-three (373) feet four (4) inches to the southerly line of First avenue or Church street; and thence easterly along the southerly line of said Church street one hundred (100) feet to the point or place of beginning, together with all the right, title and interest of the owner of said premises of, in and to the streets in front thereof to the centre thereof.

The property hereby intended to be described being a plot of land 100 feet front and rear by 373 feet 4 inches on the easterly and westerly sides, which said plot of

land immediately adjoins the westerly side of the property so conveyed by deed recorded in Liber 215 of Deeds, page 338.

The following reports and resolutions were also adopted:  
To the Board of Education:

The Committee on Finance respectfully reports that in the Estimate for the year 1905 the Board of Education included the sum of \$1,191,126.40 for "General Repairs" for all Boroughs. The Board of Estimate and Apportionment responded to this request by allowing the sum of \$641,126.40 from the tax budget and \$550,000 in Corporate Stock, pursuant to section 47 of the Charter as amended by Chapter 409 of the Laws of 1904. The objects for which the appropriation was requested by the Board of Education, and as specified in its Estimate, remained unchanged. The Board of Education accepted the fund as created for its use, and proceeded to and did expend the same for the purposes for which they were asked.

In November, 1905, the Department of Finance stopped payment of vouchers then in its possession, charged to Corporate Stock, on the ground that the same should be properly paid from the appropriation made for "General Repairs."

At such a late date, and after liabilities had been contracted by the Board of Education covering practically the entire funds placed at the disposal of the department, it was impossible to retrace our steps and make the change as suggested by the Department of Finance. Sundry correspondence ensued between the Department of Finance and this Board (copies attached hereto), and it is apparent that this Board has acted in perfect good faith in expending the money intrusted to it, and that the error, if it can be so termed, does not lie with this Board.

The particular attention of the Board is called to the fact that on October 31, 1905, the Department of Finance issued a printed document entitled "Report of an Investigation concerning the cost of maintaining the Public School System of The City of New York, together with an analysis of the Board of Education Departmental Estimate for 1906 submitted to the Board of Estimate and Apportionment." On page 31 of said report reference is made to the fact that the Board of Education has requested for the year 1906 for "General Repairs" the sum of \$1,185,247.74. The report also analyzes the Estimate of this Board in the following manner:

General Repairs.....	\$648,531 00
Sanitary .....	114,065 00
Heating .....	185,176 00
Electric .....	74,774 00
Salaries .....	162,701 74

**\$1,185,247 74**

The report submits the following as a conclusion and recommendation:

"Expenditures for betterments usually come out of the general repair fund, but during the past two years some of the betterments have been paid for by the issue of Corporate Stock. It is recommended that a deduction of \$500,000 be made in the 1906 estimate for general repairs, this deduction to be provided for in Corporate Stock issue, and that a further deduction of \$25,000 be made on the score that the proposed expenditures for salaries of inspectors, draughtsmen, etc., appear to be excessive."

The conclusions as above stated were accepted by the Board of Estimate and Apportionment and the plan adopted. It is important at this point to emphasize the fact that this Board included the entire sum for "General Repairs" in its tax budget for 1906, and did not classify its proposed expenditures as "Betterments," and did not request the issue of Corporate Stock for such purpose. This is exactly in line with its former procedure in regard to its budget for 1905. While it is clear that an error has occurred, it is equally clear that there has been perfect good faith exhibited by all parties concerned. It would be unfortunate for an error similar to that which occurred in 1905 to recur in 1906. The Committee on Buildings, at its meeting held on the 26th instant, adopted the following resolution:

"Resolved, That the Committee on Finance be, and it is hereby, asked to introduce a resolution at the next meeting of the Board of Education requesting the Board of Estimate and Apportionment to authorize the issue of Corporate Stock in the sum of \$500,000, as contemplated by it when it deducted a similar amount from the item in the Budget for 1906, entitled 'General Repairs.'"

On 23d instant, in a communication to the President of this Board, the Comptroller suggests that the Board of Education should make application to the Board of Aldermen for the issue of Special Revenue Bonds to remedy the error of 1905. The Committee is of opinion that the interests of all will be best subserved by the adoption of the Comptroller's suggestion, and that it is advisable to ask the Board of Estimate and Apportionment to indorse an application to the Board of Aldermen for an issue of Special Revenue Bonds to replace the entire issue of \$550,000 of Corporate Stock authorized in error for use in 1905, and also to cover the \$500,000 deduction made by the Board of Estimate and Apportionment from the General Repair Budget of 1906 on the recommendation of the Department of Finance, the understanding being that Corporate Stock would be issued in place of such deduction.

The following resolution is submitted for adoption:

Resolved, That the Board of Estimate and Apportionment be, and it is hereby, respectfully requested to recommend to the Board of Aldermen that an issue of Special Revenue Bonds be authorized to the extent of One million and fifty thousand dollars (\$1,050,000); said sum to be applied in substitution for an issue of Corporate Stock amounting to Five hundred and fifty thousand dollars (\$550,000) authorized by said Board of Aldermen on January 17, 1905, and for the further purpose of meeting a deficit in the Special School Fund for 1906 and in the item contained therein entitled "General Repairs," occasioned by the deduction of Five hundred thousand dollars (\$500,000) from the estimate of the Board of Education for 1906, on the recommendation of the Comptroller, with the understanding that Corporate Stock would be issued therefor.

The following report was presented and action taken thereon as indicated:  
To the Board of Education:

The Committee on Finance has had under consideration the subject of the preparation and annual presentation of financial statistics. The statutes governing the Department require the preparation of financial statements in more than one form, for different purposes, and for the use of many authorities participating in the control of the public school system. These facts and conditions result in the formulation of such reports as follows:

1. To the Educational Department of the State, according to form and content prescribed by it, and covering a school year; that is, from August 1 of one year to July 31 of the next succeeding year. (Section 1094 of the Charter.)
2. To the Commissioner of Education in Washington, in form and content prescribed by him, also covering a "school year." (U. S. Statutes.)
3. To the Board of Education from the City Superintendent of Schools, also covering a "school year." (Section 1077 of the Charter.)
4. To the Mayor from the Board of Education, covering a "school year." (Section 1095 of the Charter.)
5. To the Mayor from the Board of Education, covering a fiscal year, concurrent with a calendar year. (Section 1095 of the Charter.)

The last-mentioned report, so far as relates to finances, is in the nature of an account or return to the City of the moneys intrusted to the Board of Education. Necessarily, it follows the lines of the appropriations made by the City, and other funds created pursuant to law, such as those arising from the sale of Corporate Stock, etc. Such statement is always accompanied by analytical sub-statements, indicating in detail the items of expenditures, classified in various ways. While sufficient for the purposes for which it is intended, its technical form somewhat impairs its usefulness as a means of imparting general information. With the object in view of improvement in this particular, the Committee has given careful consideration to the subject, and invited a report thereon from the financial officers of the Department, who responded as follows:

Hon. John Greene,

Chairman of the Committee on Finance,  
Board of Education, City of New York.

Dear Sir—Referring to several conversations which the writers have had with you, in the course of which we have suggested that certain improvements might be made in the presentation of the annual fiscal reports emanating from the Bureau of Audit and Accounts, under the direction of the Committee on Finance, and particularly having in mind your expression that you would welcome any suggestions of this character from us, we present herewith a report embodying our ideas of a simple, yet comprehensive method whereby salient financial facts may be presented annually, in condensed form, to the Board of Education and the public generally.

In the presentation of financial statistics, there are two common methods employed:

1. By adhering strictly to an exposition of facts, classified under salient heads, in condensed form, and exhibiting such continuity or sequence in time and event as to show clearly, and without embellishment, a result, the origin and authenticity of which is not subject to doubt or surmise.

2. A second method is frequently adopted by so-called statisticians who use as a basis the accounts of a fiscal period, and by process of extreme analysis endeavor to build a statistical fabric with the object of proving or disproving certain theories of their own or those of sponsors whom they may represent.

In the estimation of the writers, a cold relation and classified presentation of principal financial facts, as depicted in the first-mentioned plan, is immeasurably preferable, inasmuch as the plain truth thereof is sufficient for the mind of any average individual to grasp, and adequate for the purposes of mental comparison and conclusion.

The second method, while based upon a foundation of fact, is, as a rule, so colored or accentuated in many ways, and so burdened with unnecessary detail and abstruse analysis, as rather to mislead the open-minded observer who is seeking facts only, and lead him to accept what may be erroneous or biased conclusions, thereby falling short of a comprehensive grasp of salient facts and truths.

It is quite common for those unfamiliar with the facts to compare the Board of Education of The City of New York with large business corporations.

It is equally common to hear the expression, "You would not do the same in your own business."

It is submitted that the Board of Education cannot be compared equitably in any sense with a business corporation. The Board of Education is not a capitalized corporation, and therefore does not exist for the purpose of producing a profit for stockholders, which is the object of a business corporation. On the contrary, its sole object is one of education; and its assets are not subject to depreciation or appreciation, as in the case of a business corporation. Its disbursements, aside from those for assets, are for the maintenance and operation of its properties, expenses of administration, and for such purposes as may be distinctly applied to educational cost.

In other words, the business of the Board of Education ceases where that of a private corporation or business really begins, viz., after the conversion of cash into another and more workable form of asset.

Starting at this point, i. e., where the "plant" has been acquired, it is again submitted that, while a manufacturer may be able, by judicious buying of uniform raw material and by the economical working of the same, to always produce finished articles at a minimum of cost, it would be absurd in the school system to limit the cost of educating, for example, a foreign-born, non-English-speaking child to the per capita rate which, through the medium of a costly system of minute analysis, is found to apply to a child of educated American parents.

To attempt to accurately measure and compare the educational result, it would be necessary to consider relatively such factors as the education and instincts of parents, home life and opportunities of the children, their mental and physical condition, their comparative ages, the duration of their school life up to the point of comparison, and the education they may have absorbed by contact, most of which elements are more nearly questions of individual judgment than of fact.

The only medium of educational measure appears to be an examination in certain subjects acquired by rote, and it would be manifestly absurd to contend that because the two children had passed the same examination—and the educational result thereby determined to be the same—the gross per capita costs should, of necessity, be also the same. It would be likewise absurd to argue that equal per capita expenditures had produced equal educational results.

A practical knowledge of the foregoing conditions leads the writers logically to the projection of an annual fiscal report based only upon facts, the sources and authenticity of which, as stated before, are beyond question.

The plan therefore naturally takes the following general lines:

#### I. Property Accounts.

1. Showing the conversion of cash into property assets—Sites.
2. Showing the conversion of cash into property assets—School Buildings and Equipment.
3. Maintenance Accounts of such Properties—Showing annual cost or disbursements for repairs, replacements, etc.
4. Operation Accounts for such Properties—Showing the various items incidental thereto, such as janitorial services and supplies, machinery supplies, fuel for heating the building, etc.

In connection with the foregoing property accounts, attention is called to the fact that it is not proposed to show any per capita cost with relation to school population, city population, or to any particular geographical or political division of the City, and for the following reasons:

First, that any division of capital expenditure into per capita cost would, per se, indicate incongruous results. For instance, compare mentally the cost of one of our east side buildings and its valuable site with another in the suburbs with its more easily constructed building and less valuable site, but with similar seating capacity.

Again, compare the same buildings so far as relates to the physical and educational use of the same. One may have facilities for an elementary school, lectures, playgrounds, cooking rooms, laboratories, workshops, baths, etc.; the other building may merely contain the requisite accommodations and facilities for conducting an elementary day and evening school.

The foregoing serves to illustrate that few buildings in The City of New York are alike as to accommodations, size, cost of construction, and cost of site. This being so, the futility of preparing per capita statistics on this basis is apparent.

To a large extent the same principle applies to the maintenance and operation of the various properties, and it is the opinion of the writers that no good end would be served by the preparation of statistics on a per capita basis relating to any of the property accounts herein mentioned.

#### II. Educational Cost.

The main items of strictly educational cost comprise teachers' salaries, books, maps, stationery, supplies, libraries, etc., and may be applied to the following-named educational activities:

- Elementary schools.
- High schools.
- Training schools.
- Evening elementary schools.
- Evening high schools.
- Vacation schools.
- Vacation playgrounds.
- Evening recreation centres.
- Roof playgrounds.
- Lectures.
- Baths.
- Special branches.

There may also be added two schools of a special character, viz., Nautical School and Truant School. These schools differ from those above mentioned as to the component items of cost.

It is proposed to show annually, as an absolute requirement, the amount of money expended for each educational activity, and as a secondary proposition it is also proposed to show a general per capita cost for the entire City, using as factors the educational cost and attendance.

Referring to the question of per capita cost as applied to the above, and as a reason for considering the cash cost of primary importance and the per capita cost as secondary, attention is called to the fact that teachers' salaries in The City of New York are fixed by statute and are of mandatory character. This fact alone tends to lessen the value of any per capita cost computation if applied locally, that is, by comparison school by school.

The condition stated, while it renders a school by school comparison of little value, if not actually misleading, does not, however, detract from the usefulness of a comparison of each educational activity, as a whole, year by year.

#### III. Administrative Cost.

This item comprises the compensation of all officers and employees engaged in control of the school system, but not attached directly to any particular school.

To this should be added the incidental expenses of school control, such as printing, supplies, etc., of administration itself.

The administration expenses may be classified as follows:

1. Educational Administration, such as salaries of superintendents, examiners, supervisors and attendance officers.
2. Physical Administration, covering the salaries of officers, clerks and other employees.
3. Incidental Administration, covering such expenses as printing, supplies, etc., for the administration.

Basis and Method of Producing the Before-Mentioned Statistics.

So far this report has treated only textually of the formulation of a statistical plan, and from this point on it is intended to show, first, the rule and method incidental to compilation, and, second, a practical exhibit of what would result from the adoption hereof.

It may be well to mention at this point, and as a preliminary, the various sources from which the Board of Education derives its funds, and, in a general way, to show the disposition and method of handling same.

#### I. Corporate Stock.

Corporate Stock represents the issuance of City bonds for long-time periods, the cash proceeds of which are credited to the Board of Education to be applied to the purchase of sites, the erection of buildings, and the equipment of the same.

In other words, this account represents the conversion of cash into property assets, and gives birth to the first and second mentioned items in this report under the head of "Property Accounts."

The fund arising from Corporate Stock, unlike many other accounts, does not expire by limitation at the close of the City's fiscal year, but continues in full force and effect and for use until wholly expended.

#### II. Appropriations.

In this second class are to be found all items of expenditure for which funds are raised annually by taxation.

For the purposes of the Department of Education, they are classified by statute in two ways:

1. The General School Fund, for the purely educational side of the system, covering such items as salaries of teachers, superintendents, examiners, truant officers, fees of lecturers, etc.

2. The Special School Fund, which comprises all items for the physical maintenance of property, physical operation of properties, furnishing of school supplies, and for the physical administration of the school system.

Each of the foregoing accounts is included in the annual tax budget. The funds representing the same die at the end of the fiscal period and the balances thereof, at that time, may only be used for the purposes of liquidating such liabilities as have been incurred within the fiscal period for which such funds were raised.

As a matter of fact, the great bulk of these funds is actually expended in cash within the fiscal period to which they were applicable, although a small percentage usually remains unexpended at the close of each year. Such balances are subsequently disbursed in settlement of claims in litigation, or for claims of a disputed or dormant character which may await adjudication or presentation.

Instances of these may be cited in the case of deferred and litigated claims for teachers' salaries and sums set aside to complete contracts for maintenance of property.

#### III. Trust Accounts.

The last class of funds to be mentioned are the Trust Accounts, partly derivable from the State, such as the Public School Library Fund, High and Training School Funds.

Subject to certain restrictions, imposed by the State educational authorities, these funds are of continuous character, do not expire at the end of any fiscal period, and remain available for use until exhausted.

The intent of the writers' statistical plan is to regard the actual cash expenditures within a fiscal period, inclusive of fragmentary expenditures within that fiscal period for liabilities incurred during some former period, as the only true and practical basis or foundation upon which any statistical fabric may be raised.

In other words, the cash expenditures in any fiscal period would agree absolutely with the total or volume of expenditures shown in any statistical report.

This condition gives rise to the adoption of a fundamental and arbitrary rule as follows:

That all annual costs and statistics be computed on the basis of all cash expended during a fiscal period, irrespective of the particular year during which the liability may have been incurred which necessitated or gave rise to cash expenditures during said fiscal period.

What the Statistics Will Show in Book Form.

#### B. Financial—Annual Summarized Payments.

Year (payments made during for items as follows):

General construction.  
Heating and ventilating apparatus.  
Sanitary work.  
Electric work.  
Plumbing and drainage.  
Elevators.  
Furniture.  
Improving premises.

Total of above for year.

##### 3. Record of Physical Maintenance (Exhibit 3).

School.

Miscellaneous.

Total of above for year.

##### 4. Cost of Physical Operation of School Buildings (Exhibit 4).

School.  
Location.  
Borough.

Year (payments made during for items as follows):

Salary of Janitor.  
Supplies:  
Sanitary.  
Janitors' appliances.  
Janitors' supplies.  
Tools and machinery.  
Total supplies.

Fuel:

Coal.  
Wood.  
Weighing.  
Total fuel.

Water.

Grand total.

All of the foregoing property accounts, four in number, as follows:

1. Sites in detail.
2. Building in detail.
3. Physical maintenance in detail.
4. Cost of physical operation in detail.

—are shown in the accompanying exhibits.

It is proposed to keep these records on the loose-leaf plan, devoting four pages to each school building and site, and by a method hereinafter described to enter annually, on the proper record, under the appropriate heading, the cash payments in bulk made during the year for the various items hereinbefore enumerated and shown.

In this way an annual comparison will be open to observation at all times, and the salient features, descriptive and financial, will be exhibited in condensed form.

It is suggested in regard to the items of maintenance and operation that a true criterion is not established by mere comparison of a year with the previous one, but only by showing the average of several years. This will be clearly shown by the proposed plan.

The foregoing treats of the establishment of the plan so far only as relates to its book form. Exhibit 5 shows its further condensation and appearance in the proposed annual report.

The form suggested in Exhibit 5 will show the growth of the property assets, the salient descriptive features of the properties and the cost thereof, together with the expenses of physical maintenance and operation.

#### II. Educational Cost.

It is unnecessary to show herein the exact form of the statistical books in which will be tabulated the costs of the various educational activities. In order, however, to exhibit the proposed form of the tables to be published annually the following examples will probably be sufficient:

##### Elementary Schools.

Teachers' salaries:  
Supervision.  
Teaching.  
Clerical.  
Total teachers' salaries.

Supplies.  
Library books.  
Total.  
Grand total.  
Attendance.  
Per capita cost.

The foregoing form can also be used where applicable to the various other educational branches and activities, viz.:

High schools.  
Training schools.  
Evening elementary schools.  
Evening high schools.  
Vacation schools.  
Vacation playgrounds.  
Evening recreation centres.  
Evening roof playgrounds.  
Lectures.  
Baths.  
Special branches.  
Truant schools.  
Nautical school.

The lectures, Nautical School, truant schools and special branches may differ somewhat in the sense that it will be necessary to amplify the form owing to additional component items of cost. The general contour, however, will be the same.

#### III. Administrative Cost.

The following exhibits the method of presentation of administrative costs:

Educational administration:  
Salaries of Board of Superintendents.  
Salaries of Examiners.  
Salaries of District Superintendents.  
Salaries of Supervisors and Directors.  
Salaries of Truant Officers.  
Total.

Physical administration:  
Salaries Superintendents' offices.  
Salaries Secretary's office.  
Salaries Supplies Bureau.  
Salaries Building Bureau.  
Salaries Lecture Bureau.  
Salaries Bureau of Audit and Accounts.  
Total.

Incidental administration:  
Printing supplies, etc.  
Total.

Grand total.

## Working Method of Preparing Statistics.

Municipal disbursements are always made upon the voucher system, and in order to produce the statistical result desired it is proposed to use a card system in connection therewith. If this work were attempted by process of analysis, taking place subsequent to the passage of the voucher, it is easy to perceive that much time and labor would be lost in rehandling and tabulating, and the work of statistics would not synchronize with the fiscal affairs of the Department.

Further than that, the labor of performing an analysis would be impracticable unless a large force of men was working on the statistical end of the question.

The following plan is therefore proposed, to wit, that as each examiner passes a voucher he attach to it a card containing an analysis of the same in a prescribed and printed form. This analysis, together with the voucher, is passed through the hands of a person whose duty it shall be to verify the same, detach it from the voucher, and indicate on the card the fact that the information extracted has been checked. The card will then be filed in a cabinet provided for the purpose containing receptacles designated either by school or appropriation, whichever may be found most convenient for the object to be attained.

There are two ways of using a card index for this purpose. One is by availing ourselves of the well-known tabulating machine invented by Dr. Hermann Hollerith of Washington, D. C. This machine is used by such large concerns as the New York Central Railroad, the Pennsylvania Railroad, the Edison Electric Illuminating Company, the Department of Health, and others. The machine produces statistics in a mechanical way, by a method of perforation of cards. It is primarily an adding device, and the number of cards which can be recorded automatically in a minute is very large. These machines are not purchasable, but may be rented for \$15 per month.

The cards used are prepared and printed by the tabulating machine company and furnished to clients at a nominal price. They can be so prepared as to produce statistics in a great variety of forms.

The second way, while much slower and requiring greater labor, can be made to serve the same purpose, and will produce in the end the same result. In this second instance the card would have to be written by hand and the results tabulated therefrom on the adding machines now in use in the Department.

Attention is called to another phase, incidental to the preparation of these statistics. Inasmuch as the total amount of the statistical statement will equal, to a cent, the total expenditures shown by the fiscal books, and each card represents a voucher or payment which has been passed through the same fiscal books, it follows that it is only necessary to select the cards applicable to any particular appropriation, at any time, pass the same through the adding machine, and you produce a total equivalent to that of the debit side of the fiscal ledger. This, per se, is an advantage, and helpful on the score of detecting errors and inaccuracies.

## General Remarks.

In presenting the foregoing the writers have in mind the production of statistical information of fundamental character. It is not proposed to inaugurate a costly system merely to produce information, bulky in volume, and of questionable utility. It is quite possible to enter so largely into the statistical field as almost to render the production of statistics superior to or more important than the conditions or facts which give rise to them.

We desire to say that any additional work required of the Bureau of Audit and Accounts of this character necessarily means some slight additional cost for assistance and materials. It is estimated that the additional cost for assistance need not exceed \$750 per annum, and for the hiring of a special machine and the incidental stationery, etc., \$1,250 per annum more. The substitution of additional help for the uses of the machine would hardly reduce the total cost to any appreciable extent.

The setting up of the property accounts would probably take some time, inasmuch as the records of cost prior to consolidation of the Greater City are not readily accessible. We think, however, they can be obtained and their usefulness is readily demonstrable.

It is proposed to commence this system as of date, January 1, 1906, and we would respectfully suggest, if you regard the plan favorably, the necessity and desirability of inaugurating the same without delay, inasmuch as the further we recede from January 1, 1906, the more difficult it will be to replace the time lost.

We also desire to emphasize the point that there is nothing herein contained which will in any way conflict with the form of production of any other part of the annual report which may devolve upon any other Bureau, Office or Officers of the Board. On the contrary, it will conform with and probably assist others in the presentation of reports upon the various activities under their charge.

Respectfully submitted,

HENRY R. M. COOK, C. P. A. Univ. State of N. Y.,  
Auditor of the Board of Education, City of New York, and  
State Examiner of Public Accountants for the Regents  
of the University of the State of New York.

FRED. D. CHAMBERS,  
Deputy Auditor of the Board of Education, City of New York.

Bureau of Audit and Accounts.

January 31, 1906.

The Committee has examined carefully the plan proposed, and is of opinion that it is both practical and useful, and should be adopted as fitting the needs of the Department as well as furnishing important information for public purposes in concrete form. The Committee suggests that the plan submitted is basic in character, and permits of extension, in the sense that other statistical information throughout the system may be added to or included therein, without inconvenience, or distortion and disintegration of the plan.

The following resolution is submitted for adoption:

Resolved, That the Committee on Finance be authorized to effectuate the initial plan as submitted in the foregoing report, and to take such action in regard to procuring additional assistance, apparatus and supplies as may be found necessary in its judgment.

Resolved, That the Commissioners of the Sinking Fund be, and they are hereby, requested to authorize a renewal of the lease of the building and grounds on The Crescent, at the head of Temple street, about 200 feet south of Grand avenue, Long Island City, Borough of Queens, occupied as an annex to Public School No. 5, for a period of one year from May 1, 1906, with the privilege of renewal for an additional year, at an annual rental of \$1,000, otherwise on the same terms and conditions as contained in the existing lease. Owners, Estate of Henry White, Agent, H. C. Johnson, No. 152 Fulton avenue, Long Island City, Queens.

Resolved, That the action of the Deputy Superintendent of School Buildings for the Borough of Queens in taking possession of the work under the contract of William H. Morehouse, Jr., for alterations, etc., at Public School No. 30, Borough of Queens, be, and it is hereby, approved and ratified; and be it further

Resolved, That the contract of William H. Morehouse, Jr., for alterations, etc., at Public School No. 30, Queens, the Metropolitan Surety Company, sureties on said contract, be, and the same is hereby, declared voided and forfeited for non-compliance with the terms of the contract, said action being in accordance with the provisions thereof; and be it further

Resolved, That the Superintendent of School Buildings be, and he is hereby, authorized to proceed with the completion of the work in accordance with the original plans and specifications, and to advertise for proposals therefor; and be it further

Resolved, That the cost and expense of completing the said above-mentioned contract be charged against the said contractor and the sureties on said contract.

Resolved, That the sum of one hundred and eighty-nine dollars and twenty cents (\$189.20) be, and the same is hereby, appropriated from the proceeds of Corporate Stock, to be issued by the Comptroller pursuant to sections 47 and 169 of the Revised Charter, application for the issue of which is hereby made; said sum to be applied in full payment for extra cost to William Werner, contractor, for additional work in connection with his contract, as hereinbefore stated; requisition for said sum being hereby made upon the Comptroller.

Resolved, That the Commissioners of the Sinking Fund be, and they are hereby, requested to authorize a renewal of the lease of the first floor of the building known as the Old School House, at Pleasant Plains, Borough of Richmond, occupied as an annex to Public School No. 3, for a period of one year from July 1, 1906, with the privilege of renewal for an additional year, at an annual rental of \$250, and on the same terms and conditions as contained in the existing lease. Owner, John M. Van Wyk, Prince Bay, S. I.

Resolved, That the action of the Committee on Supplies in awarding contracts, as follows for furnishing and delivering to the Department of Education, 550 gross tons,

more or less, of white ash coal of pea size, said coal to be delivered in accordance with the terms of the advertisement, be, and the same is hereby, approved and ratified:

## Borough of The Bronx.

To Curtis & Blaisdell Co., for furnishing and delivering 250 gross tons, more or less, of white ash coal of pea size, at \$3.90 per ton of 2,240 pounds.  
Name of mine, Susquehanna No. 5.

## Borough of Queens.

To Frank R. Smith, for furnishing and delivering 300 gross tons, more or less, of white ash coal of pea size, at \$4.25 per ton of 2,240 pounds.

Name of mine, Susquehanna.

But no payments to be made on account of said contracts until the Committee on Supplies shall have filed the contracts to be entered into by it, for and on behalf of the Board of Education, with the contractors named; said contracts to be drawn and approved in the usual manner, in compliance with law and the rules of the Board of Education applicable thereto.

Resolved, That subdivisions 4, 6 and 7 of section 43 of the By-Laws of the Board of Education be, and they are hereby, amended so as to read as follows:

4. Teachers' absences from duty may be excused without pay by the Local School Boards, on written application, indorsed by the principal and the District Superintendent. No such absence, however, shall be excused without the approval of the Board of Superintendents.

6. Applications for excuse with pay for absence caused by personal illness, must be indorsed by the principal and by the District Superintendent assigned to the school, and must be accompanied by a physician's certificate.

7. No excuse for absence with pay shall be granted unless the application be made within thirty days from the termination of such absence. No excuse for absence with pay shall be granted in advance. No refund shall be allowed for absence exceeding ninety-five days in any one school year.

Under clause (a), for each separate period of continuous illness, the rules regulating refunds shall be as follows: For an absence of one day no refund; for an absence of two days a refund of one-fourth of a day's pay; for an absence of three days, a refund of three-fourths of a day's pay; for an absence of four days, a refund of one and one-half days' pay; full pay shall be granted for the fifth and succeeding days of absence, to and including the twentieth; half pay shall be granted for the twenty-first and following days of absence not exceeding the ninety-fifth.

Under clause (b) a refund not exceeding three days' full pay shall be allowed.

Under clause (c) in cases where the court duty concerns the administration of the schools, full pay, in other cases, half pay, shall be granted.

Refunds under clause (d) shall not be granted for absences exceeding ten school days within the space of one year.

No refund of full pay for more than sixteen days in the aggregate shall be granted to the same applicant in any one school year.

Resolved, That section 9 of the By-Laws of the Board of Education be, and it is hereby amended by striking out the second paragraph thereof, reading as follows:

"Nominations by the Board of Superintendents for the office of District Superintendent shall be referred to the Executive Committee, which shall report, with its recommendations, to the Board."

Resolved, That the Board of Education hereby disapproves of Assembly bill No. 625, entitled "An Act to amend the Greater New York Charter, relative to the use of school buildings," and that the Committee on By-Laws and Legislation be, and it is hereby, directed to take such action as it deems proper to defeat the passage of said bill.

Resolved, That the Board of Education hereby disapproves of Assembly bill No. 233, entitled "An Act to provide for a reasonable degree of uniformity in school textbooks at reasonable prices," and that the Committee on By-Laws and Legislation be, and it is hereby, directed to take such action as it deems proper to defeat the passage of said bill.

Resolved, That the Board of Education hereby reaffirms its action taken on December 27, 1905 (see Journal, pages 2559-2560), in selecting and determining as a site for school purposes certain lands and premises on Lafayette avenue and Second street, New Brighton, Borough of Richmond.

Resolved, That the Board of Estimate and Apportionment be, and it is hereby, respectfully requested to take favorable and speedy action in the matter of authorizing the acquisition of the site specified in the foregoing resolution.

Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following-described lands and premises on Powell and Sackman streets, south of Dumont avenue, adjoining the site of Public School No. 109, in Local School District No. 39, Borough of Brooklyn, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments, is \$2,000; and requesting the Board of Estimate and Apportionment to take such action as may be necessary and proper for the acquisition of the lands and premises.

Resolved, That an elementary school for boys and girls of all grades be organized in the new building located on Prospect avenue and Ritter place, The Bronx, known as Public School No. 40.

Resolved, That Public School No. 82, Jamaica, Borough of Queens, be organized as a school for boys and girls of the first six years of the elementary school course.

Resolved, That the following-named teacher be, and she hereby is, excused for absence, with pay, for the time indicated opposite her name:

## BOROUGH OF MANHATTAN.

## RIVERSIDE DISTRICT.

At a meeting of the Board of Local Improvements of the Riverside District, held Tuesday, September 27, 1904, the following members were present:  
Alderman Jones and President Ahearn.

The President presented for the Board's consideration the matter of paving Broadway north of One Hundred and Tenth street to Manhattan street.

The Commissioner of Public Works reported that the east side of Broadway, from One Hundred and Tenth street to One Hundred and Nineteenth street, is already repaved with asphalt, and the contract for the repaving of the west side of Broadway, from One Hundred and Tenth to One Hundred and Nineteenth streets, has been advertised for letting.

On motion, the matter was placed on file.

The President presented for the Board's consideration the matter of paving West One Hundred and Twelfth street, from Broadway to Riverside drive, with asphalt blocks and curbing and resetting curb on same.

Estimated cost, \$5,100. Assessed value of the property affected, \$506,000.

The Clerk announced that this subject was approved February 24, 1904, but on the opinion of the Corporation Counsel at that time, there being no petition before the Board, the subject was ordered on file.

On motion, the following resolution was introduced and adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Riverside District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same is hereby granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

Paving West One Hundred and Twelfth street, from Broadway to Riverside drive, with asphalt blocks and curbing and resetting curb on same; and it is hereby further

Resolved, That a copy of the resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

The President presented for the Board's consideration the matter of repairing sidewalk, southeast corner of Seventy-ninth street and Amsterdam avenue.

Estimated cost, \$300. Assessed value of the property affected, \$50,000.

On motion, the following resolution was introduced and adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Riverside District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same is hereby granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

Repair of sidewalk at the southeast corner of Seventy-ninth street and Amsterdam avenue.

The President presented for the Board's consideration the matter of repair of sidewalk at southwest corner of Seventy-ninth street and Columbus avenue.

Estimated cost, \$583. Assessed value of the property affected, \$40,000.

On motion, the following resolution was introduced and adopted:

Whereas, A petition for a local improvement described below has been received by the President of the Borough of Manhattan; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of the Riverside District, pursuant to titles 2 and 3 of chapter 10 of the Greater New York Charter, That the said petition be and the same is hereby granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

#### BOARD OF ESTIMATE AND APPORTIONMENT.

PUBLIC NOTICE IS HEREBY GIVEN that at a meeting of the Board of Estimate and Apportionment held March 2, 1906, the following petition was received:

The petition of The Manhattan Refrigerating Company respectfully shows:

1. The said Manhattan Refrigerating Company is a corporation duly organized and existing under the laws of the State of New York, having its principal place of business at the northeast corner of West and Horatio streets, in The City of New York, and has built and is operating a large plant at that point for artificial refrigeration, conducting a cold storage warehouse and also a pipe line for the supply of customers in the market and others whose places of business front on the streets and avenues in the immediate vicinity. That it has for the period of about seven years maintained and operated in certain streets in The City of New York mains and pipes for the supply of mechanical refrigeration, and has supplied all acceptable customers along the said lines at reasonable rates.

2. The said Manhattan Refrigerating Company, by assignment, duly made to it by the Greenwich Refrigerating Company, is the sole owner of a certain franchise granted by the Mayor, Aldermen and Commonalty of The City of New York, approved by the Mayor April 8, 1890, and respectfully petitions your Honorable Board to grant a license to lay a conduit not more than twelve inches in diameter, to contain refrigerating pipes, extending from the intersection of Fourteenth street and Tenth avenue to Hudson street; thence southerly along Hudson street to Gansevoort street, and thence westerly along Gansevoort street to West street, the said pipes to be laid under the surface of the streets, and branches in the intersecting streets west of Hudson street.

3. That said pipes are to be used to convey brine, ammonia or other refrigerating medium to connect with other pipes of the Manhattan Refrigerating Company at the terminal points. This company has a line of pipes used for said purpose extending along West street and Tenth avenue, from Horatio street to Fourteenth street, for the purpose of supplying to such customers as may desire the same refrigeration for properly insulated compartments for the preservation of meats and other perishable goods.

4. That the said district through which it is proposed to lay the said pipes is largely devoted to the meat and produce trade, and for the proper carrying on of which it is necessary to have refrigeration, and that this company has been requested by persons engaged in said business along said route to extend its lines and to supply such persons with refrigeration.

5. That should said permit be granted, your petitioners will supply to all persons providing proper compartments or boxes and requiring the same, refrigeration at reasonable prices, and will save the City harmless from any loss or damage to any sewer, gas or water pipe, or from any cause that may arise from the exercise of the privilege so obtained by it, and will furnish such indemnity or security as the City may require to insure the faithful compliance with the conditions that it may see fit to impose upon your petitioners conditioned to the license applied for.

6. This company desires that the said franchise may continue for the period of ten years from the date of granting the same, and the

company offers to pay to the City as a reasonable compensation or tax therefor annually a sum equal to 2 1/2 per cent. on the gross amount of receipts derived from the customers supplied by pipes to be laid under the proposed franchise, and also from any and all customers on its present lines, except the standholders of the new market, on which last named business this company is already paying a percentage of its gross receipts. The company further offers that the percentage of its gross receipts to be paid for said franchise after the period of five years shall be increased to 5 per cent. during the remainder of the term.

7. This company further petitions that it may have the right or option at the expiration of the said term of ten years to a further term of ten years upon paying a like tax of 5 per cent. upon the gross receipts from all its lines, as above specified, excepting the standholders in the new market.

8. That said proposed pipe line will not interfere with any fixtures or appurtenances forming part of the water mains, sewers, conduits, subways or sub-pavement fixtures of any kind, or of any sub-structures existing by virtue of any franchise heretofore granted, all of which appears from the map herewith submitted. The company will do all work under the said franchise under the directions of the proper officers and departments of the City Government and will comply with all requirements thereof.

Therefore your petitioner prays that such license and franchise be granted as aforesaid.

Dated New York, March 2, 1906.  
MANHATTAN REFRIGERATING COMPANY,  
T. A. Adams, President.

City and County of New York, ss.:  
Thomas A. Adams, being duly sworn, says: He is the president of the Manhattan Refrigerating Company, the petitioner named in the foregoing petition; that he has read the foregoing petition and that the same is true; that the reason this verification is made by deponent is that the petitioner is a domestic corporation organized and existing under the laws of the State of New York, and that he is the president thereof, as aforesaid, and has been duly authorized by the board of directors of said corporation to present and verify the foregoing petition.

T. A. ADAMS.

Sworn to before me this 5th day of March, 1906.  
STEPHEN BARKER, Notary Public, New York County.

(When this petition was presented it was not verified, and was subsequently verified.)

At a meeting of the Board of Estimate and Apportionment held March 30, 1906, the following resolutions were adopted:

Whereas, The foregoing petition from the Manhattan Refrigerating Company, dated March 2, 1906, was presented to the Board of Estimate and Apportionment at a meeting held March 2, 1906.

Resolved, That, in pursuance of law, this Board sets Friday, the 20th day of April, 1906, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least two (2) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the City Record immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

#### CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

AT THE REQUEST OF THE COMMISSIONER OF DOCKS, public notice is hereby given that the Commissioners of the Sinking Fund of the City of New York, pursuant to the resolution adopted at their meeting held March 8, 1906, and by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for dock purposes, in the Borough of Manhattan, the property being the steel freight shed now located on Pier, old 10, between Cuyler's alley and Old Slip, East river, Borough of Manhattan, which consists of two parts—the office portion at the inshore end and the shed proper. The office portion is about 60 feet long by 37½ feet wide, and is built in two stories; the centre height from the dock of the pier is about 35 feet. The shed proper is a single story structure, about 384 feet long and about 37 feet wide; its centre height from the dock of the pier is about 20 feet. The entire shed covers an area of about 16,458 square feet.

All the posts, studs, purlins, trusses and bracing composing the framing of the shed are of structural steel. The roof sheathing, window frames, partitions, walls, ceiling, office doors, etc., of the second story of the office portion are of woodwork, in first class condition. The sides of the building, not taken up by doors, are covered by galvanized corrugated steel. The roof of the office portion is covered with roofing tin laid on boards which rest on the wooden purlins. The roof of the shed proper is composed of double spruce covering and laid over with 1½-inch tongue and grooved yellow pine flooring.

The principal parts or items composing the shed on Pier, old 10, East river, are all the trusses, columns, studs, purlins, bracing, corrugated steel folding doors, corrugated steel sheeting composing sides and end of shed, steel frames and all material of every description comprising the shed proper and office portion down to the decking of the pier, excepting the backing log, and any portion or portions of the pier proper which may be above the level of said decking of the pier.

The items enumerated above are believed to be approximately correct, but bidders must satisfy themselves as to the quantity, quality and condition of the material composing the shed, at the time of sale.

By direction of the Comptroller the sale of the above-described shed and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance. The sale will take place on

MONDAY, APRIL 16, 1906,

at 11 a. m., on the premises, the property being sold in the condition in which it is in on the day of the sale, possession of which will be given immediately, upon which date the purchaser shall begin the work of removal and shall complete all such work within thirty days from that date, and will be sold for the highest marketable price at public auction on the following

#### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of the City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures of every class and description, within the described area, are to be torn down to the decking of the pier, excepting the backing log and any portion or portions of the pier proper which may be above the level of said decking of the pier. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or any portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands of every name and description brought against them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said suc-

cessful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of the City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

H. A. METZ,  
Comptroller.

#### NOTICE OF ASSESSMENT FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE Greater New York Charter, the Comptroller of the City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears of Assessment for OPENING AND ACQUIRING TITLE to the following-named avenue in the BOROUGH OF BROOKLYN:

THIRTY-FIRST AND THIRTY-SECOND WARDS, SECTIONS 20 AND 22, AND 23.

NOSTRAND AVENUE—OPENING, from Flatbush avenue to Avenue U. Confirmed February 7, 1906; entered March 30, 1906. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in the City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on the southerly side of Germania place and distant 205 feet, more or less, westerly of the westerly line of Flatbush avenue; running thence southerly through the centre line of the block between East Twenty-ninth street and Nostrand avenue to the northerly side of the land of the New York, Bay Ridge and Jamaica Railroad; running thence easterly along the northerly side of the lands of the New York, Bay Ridge and Jamaica Railroad to the centre line of the block between Nostrand avenue and East Thirty-first street; running thence northerly through the centre line of the blocks between Nostrand avenue and East Thirty-first street to the southerly side of Flatbush avenue; running thence northwesterly along the southerly side of Flatbush avenue to its intersection with the southerly side of Germania place; running thence along the southerly side of Germania place to the point or place of beginning; also

Beginning at a point on the southerly side of the lands of the New York, Bay Ridge and Jamaica Railroad, where the same intersects the centre line of the block between East Thirty-first street and Nostrand avenue; running thence southerly through the centre line of the blocks between East Thirty-first street and Nostrand avenue and along its prolongation to the northerly side of Avenue U; running thence westerly along the northerly side of Avenue U to the centre line of the block between East Twenty-ninth street and Nostrand avenue; running thence northerly along the centre line of the block between East Twenty-ninth street and Nostrand avenue to the southerly side of the lands of the New York, Bay Ridge and Jamaica Railroad; thence easterly along the southerly side of the land of the New York, Bay Ridge and Jamaica Railroad to the point or place of beginning.

The above-entitled assessment was entered on the day hereinafter given in the Record of Titles of Assessments kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provided that "If any assessment shall remain unpaid for a period of sixty days after the date of entry thereof in the said Record of Titles and Assessments it shall be the duty of the officer authorized to collect and receive the amount of such assessment, to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessments became liens, as provided by section 159 of this act."

Section 159 of this act provides . . . "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, Borough of Brooklyn, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. until 12 m., and all payments made thereon on or before May 29, 1906, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessment became a lien to the date of payment.

#### CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO, OF CITY REAL ESTATE.

**AT THE REQUEST OF THE PRESIDENT** of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for street purposes, in the

##### BOROUGH OF BROOKLYN.

All of the buildings, parts of buildings, etc., standing within the lines of property acquired for the extension of Grand street, from the intersection of Havemeyer street and South Fourth street to Hooper street, in the Borough of Brooklyn.

A map showing the property to be sold is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan, and bidders should acquaint themselves with the extent and portions of the buildings to be sold and owned by the City.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue. The sale will take place on

**TUESDAY, APRIL 17, 1906,**

at 11 a. m., on the premises, and will be sold for the highest marketable price at public auction on the following

##### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb; and any structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall also be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder, and the bidders' assent and agreement to the above conditions are understood to be implied by the act of bidding.

tions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beam-holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted, and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdrawn from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

## NOTICE TO CONTRACTORS.

## GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and as in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 430 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
