DEPARTMENT OF STREET CLEANING—CITY OF NEW YORK,
NEW CRIMINAL COURT BUILDING,
CENTRE, WHITE, ELM AND FRANKLIN STREETS,
NEW YORK, February 26, 1895.

Hon. WILLIAM L. STRONG, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—I have to request a transfer of \$50,000 from the appropriation of the Department of Street Cleaning for 1895, account of "Sweeping," to the appropriation of "Snow and Ice," for the reason that the amount appropriated for "Snow and Ice" was not sufficient to cover the business of the year.

Respectfully,
GEO. E. WARING, JR., Commissioner.

The Commissioner of Street Cleaning appeared and made a verbal statement relative to the expense of removal of snow and ice, the manner of doing the work and the necessity for an additional appropriation therefor.

Debate was had thereon, whereupon the Mayor presented the following:

DEPARTMENT OF STREET CLEANING—CITY OF NEW YORK,
NEW CRIMINAL COURT BUILDING,
CENTRE, WHITE, ELM AND FRANKLIN STREETS,
NEW YORK, February 21, 1895.

Hon. WILLIAM L. STRONG, Mayor:

SIR—I desire to submit to you certain conclusions that I have reached relating to the snow question, which is the largest, and, in some ways, the most important one that confronts the Department of Street Cleaning.

Would it pay to remove all the snow from the completely built area? The cost of this must be enormous; would the result justify it?

We have had during the past fourteen days an illustration of the effect of removal and of non-removal. The last storm, six inches, fell on February 7 and 8. Within a few days the main thoroughfares were cleared, and since then have been in good October condition. In most of the streets the snow was allowed to lie untouched, and, as the mid-day sun hardly reaches the cross streets, much of it lies there still, changing from slush to ice according to the weather.

The cleared streets are in their usual state of cleanliness. The uncleared streets are in a horrible condition of filth. The accumulations of fourteen days are untouched, and if the snow melts away without a heavy rain, it will be a slow and costly operation to get them even reasonably clean again. This state of affairs is likely to confront us more than once in a winter.

It is bad enough in the better quarters, where the people have the comfort of well warmed houses, and of abundant clothing, and where the ordinary wastes of daily life can be reasonably well removed. When we go into the tenement-house districts, the conditions are really appalling. The population is from six to seven times more dense. The home is often bare of comfort, clothing for a dry change is often wanting, and on a melting day the people live and move in the midst of slush and dirt and great discomfort. The children pass most of their waking hours with wet feet, and the women with bedraggled skirts. The general wretchedness of hundreds of thousands of human beings east of Broadway and south of Fourteenth street can hardly be imagined by one who has not traversed their streets during a thaw, when the ridge of snow on each side—piled from the sidewalk, on the one hand, and from the railroad track, on the other, thick-strewn with ashes and rubbish which the carts cannot remove—is turning to slush and dirty water and filling the air with chill dampness.

If all of the snow could be removed within three days, Delancey street could be kept as dry and clean as Broadway is to-day, and the health and happiness of the people would be vastly increased. But it would cost tremendously; it would perhaps cost for the tenement-house districts half as much as the whiskey and beer that the present state of misery, due to snow, leads the people to buy.

To draw an illustration from another part of the town, compare the condition of Thirty-third street, from the Waldorf Hotel to Broadway, which is even yet disgraceful, with that of Thirty-fourth street, which has been clear and clean since the second day after the snow fell. The length of this part of Thirty-third street is about 300 feet. To have removed the snow from it, just as it was removed from Thirty-fourth street, would have cost about \$50. No one can doubt that the occupants of the couple of dozen houses within that limit would have been more than glad to pay the cost, for the sake of the comfort, of the prevention of the present indecent condition, of the better accessibility of vehicles, and of the avoidance of ice and sloop and dampness.

No one would question the wisdom and economy of removing the snow from any given block of any given street in New York. It is when we come to the removal of the snow from all the blocks of all the streets that we are staggered by the cost. We are staggered until we divide the total number of dollars by the total number of people affected, then we see that the scheme is, economically, possible.

I append the summary of a calculation made by my assistant, Mr. Clarence D. Pollock, which is perhaps as good a basis as any for a calculation of cost. It makes, however, no allowance for snows that turn to rain and run off, nor for the enormous effect of a single warm day with a bright sun, such as sometimes comes immediately after a heavy fall of snow. The fact is that no two storms are alike and no two winters are alike. Even "averages" are of little value; and computation is useful only by way of illustration.

As an illustration, based on the best judgment I can form, let it be assumed that, counting the actual population, and those whose daily avocations call them there, the number of persons to be affected by the presence or absence of snow in the streets below (and including) Forty-second street, is 2,000,000, and that the yearly cost of the prompt removal of snow in that district would be \$2,000,000. The question would then be whether or not the removal of a serious obstruction to traffic, of a clog on industry, of a serious obstacle to cleanliness, of a great source of discomfort and ill health—and no little death—whether or not this is worth, on the average, one dollar per person per year.

This is a question for the people to decide. There has been much loose talk about my "deficiency" in the Snow Fund. The fact is, that the laws allows the Board of Estimate and Apportionment to raise any amount of money it sees fit to raise for the removal of snow and ice, and it is fair to assume that that Board will—as it should—raise much or little for this purpose, according to the manifested desire of the people. Complete removal cannot be provided for this season. It would be possible to organize a systematic reserve force for this work before next winter.

It should be clearly understood, that of the \$2,000,000 assumed as the annual cost of the work, fully one-half is to be laid to the charge of the State Legislature of 1894, which, with the hope of capturing the organized anti-labor vote—the leaders of both parties vying with each other in the scramble—closed the national labor market to the City of New York and doubled the cost of all irregular public work, such as the removal of snow. If the City could go into the labor market untrammelled, it could remove the snow from its streets just as a great railroad corporation would remove snow from its traffic yards and approaches, that is, as a purely business matter, unmixed with politics or sentiment. If the existing pernicious law was out of the way, the removal of snow could be effected at half the present cost, or, roughly speaking, for fifty cents per person instead of one dollar, and this could be done with much less hardship and with better pay to the men who do the work.

In limiting the calculation to the district below Forty-second street, I am limiting only the illustration, not the application, of the principle.

Respectfully submitted,
GEO. E. WARING, JR., Commissioner.

MR. POLLOCK'S DEDUCTIONS.

The following figures were obtained from the Department of Public Works: Entire area of City, 25,804.5 acres; area Twenty-third and Twenty-fourth Wards, and Parks, 13,817.3 acres; entire area of Island, minus Parks, 11,987.2 acres; entire area south of Fortieth street, 4,935.2 acres. Total street surface in City, including sidewalks, 25,041,678 square yards; total street surface in Twenty-third and Twenty-fourth Wards, 6,371,200 square yards; total street surface on Island, 18,670,478 square yards.

Assuming the ratio of street area to total area, minus Parks, to be the same for all sections of the Island, then 34 per cent. of the total street area of the Island lies south of Fortieth street, or, in figures, 57,131,662 square feet. The street areas from Fortieth to Forty-second street, added to the above, make a total of 59,366,000 square feet of street surface south of Forty-second street.

Mr. Dunn gives 42.4 inches as the average yearly snow-fall during the past ten years for this City. The assumption of 40 inches of snow over the area of 59,366,000 square feet gives 7,329,000 cubic yards of fresh snow. From actual measurement on several streets it was found that we need never count on carting away more than two-thirds of the volume of fresh snow. With careful watching the quantity of snow per load will average 1½ cubic yards, and each cart will average 10 loads each 8 hours from Broadway. Assuming each cart to carry 1½ cubic yards we shall have 4,886,000 cart-loads of fresh snow, or 3,257,400 cart-loads new to old snow.

From February 7 to February 19, both inclusive, 102,590 cart-loads of snow were removed at a cost of \$58,416.50 (partly estimated), or at the rate of 57 cents per load.

3,257,400 cart-loads at 57 cents = \$1,856,700 for removing a season's snow from all streets south of Forty-second street, inclusive.

As the total fall of snow would be divided into several storms, this estimate is probably small, it costing more, proportionately, to remove a one-inch fall than a six-inch fall, for the same area has to be gone over in either case.

Further debate was had thereon, whereupon the President of the Department of Taxes and Assessments offered the following:

Resolved, That the sum of fifty thousand (50,000) dollars be and the same is hereby transferred from the appropriation made to the Department of Street Cleaning for 1895, entitled, "Sweeping," the same being in excess of the amount required for the purposes and objects thereof to the appropriation made to the said Department for 1895, entitled, "Removal of Snow and Ice," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Board of Aldermen, President of the Department of Taxes and Assessments, and Counsel to the Corporation—5.

Opinions of the Counsel to the Corporation relative to the application of the Department of Public Works of January 24, 1895, for the transfer of \$7,843 from the appropriation, "Aqueduct—Repairs, Maintenance and Strengthening" for 1895, to the special appropriation for "Concreting and Facing with Masonry the Old Central Park Reservoir" for 1891; also, for the transfer of \$4,000 from the appropriation for "Laying Croton Pipes" for 1895 to the same appropriation for 1891.

Also, relative to the application of the Harlem River Bridge Commission of January 29, 1895, for an appropriation of \$4,181.66 for expenses incurred for salaries, rent, etc., were received and referred to the Comptroller.

The Comptroller presented the following :

That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of the deposit will be returned to him.

THE COMMISSIONER OF PUBLIC WORKS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED FOR ANY PARTICULAR WORK IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

Blank forms of bid or estimate, the proper envelopes in which to inclose the same, the specifications and agreements, and any further information desired, can be obtained at Rooms 1, 9 and 11, No. 31 Chambers street.

Where more than one person is interested it is requisite that the verification be made and subscribed by all parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that, if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount, in each case, to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, and stated in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be determined by the Comptroller after the award is made and prior to the signing of the contract.

For the nature and extent of the work to be done, bidders are referred to the plans and specifications. The plans may be seen at the office of the Architect, Mr. George B. Post, No. 33 East Seventeenth street, New York City.

The entire work to be completed within NINETY DAYS after the notice to commence work has been given by the Commissioner of Public Works.

The damages to be paid by the contractor or contractors for each day that the contract or contracts may be unfulfilled after the time specified for the completion thereof shall have expired, are, by a clause in the contract, fixed and liquidated at TEN DOLLARS per day.

Bidders will state in writing, and also in figures, a price for the whole work on which they may bid complete, which price is to cover the furnishing of all necessary materials and labor and the performance of all the work set forth in the plans and specifications and form of agreement.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the security required for the faithful performance of the contract. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, and in such quantities as may be directed by the said Commissioners.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, each in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons to whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the

samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications, and showing the manner of payment, can be obtained at the office of the Department, and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities and Correction will insist upon its absolute enforcement in every particular.
