REPORTS.

From Standing Committees.

Committee on Transit.

Interborough Rapid Transit Company, 8th Avenue and 162d Street Connection (Cal. No. 3).

Modification of certificate granted by the Public Service Commission for the First District and approved by the Board of Estimate and Apportionment by resolution adopted March 18, 1913, approved by the Mayor on the same day, to construct, maintain and operate certain elevated railroad extensions, among which were the 8th Avenue and 162nd Street Connection, Boroughs of Manhattan and The Bronx.

At the meeting of May 28, 1914 (No. 179), a communication was received from the Public Service Commission for the First District, submitting for approval a certificate modifying the original certificate by eliminating certain curves between 162nd Street and Anderson Avenue and at 162nd Street and Jerome Avenue, in the Boroughs of Manhattan and The Bronx, and the matter was referred to the Transit Committee.

The following was presented:

June 12, 1914.

To the Honorable Board of Estimate and Apportionment:

Sirs—At the meeting of your board held May 28, 1914, there was referred to this Committee a communication from the Public Service Commission, transmitting a modification of the 8th ave. and 162d st. connection, which is desired for the purpose of eliminating sharp curves between 162d st. and Anderson ave. and at 162d st. and Jerome ave., shown on the plans of the original route. The Commission advises that the certificate has been accepted by the Interboro Rapid Transit Company and consented to by the trustees of the mortgage of the Interboro Rapid Transit Company. Your Committee held a public hearing on this modification on June 10, at which various persons interested appeared and stated their views. There appears to be no opposition to the change of line. The modified line will run through private property, which is to be acquired by the Interboro Company and paid for from its own funds. Your committee is of the opinion, therefore, that the modification is desirable from every point of view, and recommends its approval. Respectfully submitted,

GEORGE McANENY, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; JOHN G. BORGSTEDE, Acting President, Borough of The Bronx, Committee on Transit.

The following was offered:

Whereas, The Public Service Commission for the First District has issued a certificate, dated May 22, 1914, modifying the terms of the original certificate issued by said Commission to the Interborough Rapid Transit Company under date of March 19, 1913, fixing and determining the routes designated as Webster Avenue Line, Eighth avenue and 162d street connection, Queens Borough Bridge Line and West Farms Subway Connection, within the City of New York, by which the said Interborough Rapid Transit Company may extend its elevated lines, and the location and plans of construction of the railroads upon such routes, and the times within which they shall be respectively constructed and the compensation to be made therefor to the City by said Company; said modification relating particularly to the Eighth avenue and 162d street connection; and,

Whereas, The Public Service Commission for the First District has transmitted to the Board of Estimate and Apportionment a proposed certificate of modification in respect thereof, to be issued to the Interborough Rapid Transit Company, all as set forth in said proposed certificate; and,

Whereas, Said proposed certificate was received by the Board of Estimate and Apportionment on the 28th day of May, 1914, at a meeting of said Board duly held on said date; and,

Whereas, The proposed certificate, and the terms and conditions and requirements therein contained are as follows:

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT TO INTERBOROUGH RAPID TRANSIT COMPANY.

Certificate dated May 22d, 1914, Modifying Terms of Certificate to Interborough Rapid Transit Company, dated March 19, 1913.

The Public Service Commission for the First District does hereby certify as follows:

Whereas, The Interborough Rapid Transit Company, hereinafter called "Interborough Company," is a railroad corporation existing under the Laws of the State of New York having its principal office at No 165 Broadway in the Borough of Manhattan, City, County and State of New York and which leases and actually operates a railroad wholly within the limits of the City of New York; and,

Whereas, The Public Service Commission for the First District, hereinafter called the "Commission," by a certificate dated March 19, 1913, did grant to said Interborough Company with the approval of the Board of Estimate and Apportionment of The City of New York and subject to the terms, conditions and requirements in said certificate set forth, authority to construct, maintain and operate certain rapid transit railroads within the City of New York, including a certain rapid transit railroad in said certificate and hereinafter referred to as the "Eighth Avenue and 162d Street Connection," as in said certificate more particularly set forth, and said certificate was thereafter duly accepted by said Interborough Company; and,

Whereas, The said certificate provided, with reference to said Eighth Avenue and 162d Street Connection, specifically as follows:

"Diverging from the existing structure of the Ninth Avenue Elevated Line of the Manhattan Railroad near West One Hundred and Fifty-seventh Street and Eighth Avenue and thence running northeasterly over private property and public streets to the Harlem River, thence crossing the Harlem River over the Putnam Bridge and crossing over the property and right of way of the New York Central and Hudson River Railroad Company to Sedgwick Avenue at a point north of One Hundred and Sixty-first Street, thence under Sedgwick Avenue, private property and public streets to a point near the intersection of One Hundred and Sixty-second Street and Ogden Avenue, thence under One Hundred and Sixty-second Street to a point at or near Anderson Avenue, thence curving southerly and easterly through private property and public streets to the intersection of One Hundred and Sixty-second Street and Jerome Avenue; thence easterly over and along One Hundred and Sixty-second Street to a point near River Avenue; thence curving northeasterly through private property into River Avenue to a point where a connection can conveniently be made with a municipal railroad on River Avenue. The Eighth Avenue and 162d Street Connection shall consist of two tracks. Two additional tracks may, if necessary to provide a convenient connection between the Eighth Avenue and 162d Street Connection and the Ninth Avenue Elevated Road, be constructed over Eighth Avenue, between a point one hundred feet north of 153d Street and 157th Street. The Eighth Avenue and 162d Street Connection shall be constructed as an elevated railroad excepting that part from a point on private property near the intersection of 161st Street and Sedgwick Avenue to a point on private property west of Jerome Avenue at or near 162d Street which shall be constructed as a subway";

—and

Whereas, With respect to the construction of a certain portion of said Eighth Avenue and 162d Street Connection, the said certificate prescribed that the Interborough Company should construct the same "upon approved plans involving a more elaborate and ornamental structure with solid floor or such other construction as will in the opinion of the Commission most effectually prevent noise and tremor," which said portion is therein specifically described as follows:

"(a) The portion of the Eighth Avenue and 162d Street Connection, including the portal from the point where it emerges from the ground near 162d Street, over private property and 162d Street to a point about midway between Cromwell Avenue and River Avenue";

—and

Whereas, Said Interborough Rapid Transit Company has, with the consent of the Commission, mortgaged the said certificate dated March 19, 1913, with the Guaranty Trust Company of New York as trustee under the terms of an indenture of mortgage and deed of trust dated March 20, 1913, and said Guaranty Trust Company of New York, as Trustee, has consented to the amendment and modification of said certificate as provided for in this certificate, as appears by its consent attached to this certificate; and.

Whereas, The said Interborough Company has made application for a modification of said certificate with respect to the route of said Eighth Avenue and 162d Street Connection, as the same is authorized, described and laid out in said certificate and to substitute for said route and fix and determine the locations and plans of construction of a railroad upon a modified or substituted route differing somewhat from the aforesaid route, such railroad to be constructed, maintained and operated upon such modified or substituted route in substitution for, and subject to the same rights, terms, conditions and requirements as the railroad authorized and described as the Eighth Avenue and 162nd Street Connection in the certificate issued by the Public Service Commission for the First District to Interborough Rapid Transit Company under date of March 19, 1913, and therein referred to as the "Eighth Avenue and 162nd Street Connection" with the same force and effect as though such substituted railroad were therein specifically included and described; and

Whereas, In the judgment of the Commission, public interests demand that authority should be conferred upon the Interborough Company to construct, maintain and operate the railroad along the route as herein modified, fixed and determined and as requested by the said application of said company, and the change in said route is necessary for the accommodation of the traveling public; and

Whereas, To the end and for the purpose hereinbefore recited the Commission has determined upon certain modifications of the said contract as hereinafter set forth and has prescribed such terms, conditions and requirements in relation thereto as to it appear just and proper including all the terms, conditions and requirements prescribed by the Rapid Transit Act in the case of such modification.

Now, therefore, the Commission, with the consent of said Interborough Company does hereby modify the said certificate dated March 19, 1913, as follows:

The clause in said certificate hereinabove recited, providing specifically with reference to the 8th avenue and 162d street connection is hereby amended to read as follows:

"Diverging from the existing structure of the 9th avenue elevated line of the Manhattan Railroad near West 157th street and 8th avenue and thence running northeasterly over private property and public streets to the Harlem river, thence crossing the Harlem river over the Putnam bridge and crossing over the property and right of way of the New York Central and Hudson River Railroad Company to Sedgwick avenue at a point north of 161st street, thence under Sedgwick avenue, private property and public streets to a point near the intersection of 162d street and Ogden avenue, thence under and along 162d street and crossing under Anderson avenue; thence under and over private property between Anderson avenue and Jerome avenue; thence continuing over and across Jerome avenue, private property, Cromwell avenue and private property to a point in private property between Cromwell avenue and River avenue; and thence curving northeasterly over private property and River avenue to a point where a connection can conveniently be made with a municipal railroad on River avenue. The 8th avenue and 162d street connection shall consist of two tracks. The 8th avenue and 162d street connection shall be constructed as an elevated railroad excepting that part from a point on private property near the intersection of 161st street and Sedgwick avenue to a point on private property west of Jerome avenue at or near 162d street which shall be constructed as a subway."

The clause in said certificate hereinabove recited specifically setting forth the certain portion of the 8th avenue and 162d street connection as to which the construction should be "upon approved plans involving a more elaborate and ornamental structure with solid floor or such other construction as will in the opinion of the Commission most effectually prevent noise and tremor" is hereby amended to read as follows:

"(a) The portion of the 8th avenue and 162d street connection, including the portal, from the point in private property between Anderson avenue and Jerome avenue where it emerges from the ground, over and across Jerome avenue, and private property to a point in said private property between Cromwell avenue and Jerome avenue about fifty (50) feet east of the easterly building line of Jerome avenue."

Provided, however, that it is expressly agreed that the modification and substitution aforesaid, and the authorization or license granted by said certificate dated March 19, 1913, as modified by this certificate, are subject to certain terms, conditions and requirements which appear to the Commission to be just and proper, and which are described in the following articles, to wit:

I.

The said authorizations or licenses given by said certificate dated March 19, 1913, as modified by this certificate, are to be held by the Interborough Company, subject to all the rights, terms, conditions and requirements of the said certificate dated March 19, 1913, with the same force and effect as though the said substituted railroad hereby authorized were therein specifically included and described.

II.

This certificate will be executed by the Commission in five identical originals, so proved as to be entitled to be recorded in the office of the Register of the County of New York, in the office of the Register of the County of The Bronx, and to be filed in the office of the Secretary of State of the State of New York, all of which will be delivered by the Commission to the President, Vice-President, Secretary or Treasurer of the Interborough Company. The authorizations or licenses hereby granted shall be inoperative, and this certificate shall be void unless within thirty days after such delivery, or such further period as shall be prescribed in writing by the Commission, the Interborough Company shall have procured four of the said identical originals to be returned to the Commission, each of them having an acceptance of this certificate, and of the terms, conditions

and requirements thereof, subscribed at the foot thereof, by the Interborough Company, such acceptance being so proved as to entitle it to be recorded and filed as aforesaid.

III.

The authorizations or licenses hereby granted, if the Commission shall so determine, shall become void unless within three calendar months from the time of the delivery to the Commission of the acceptance of this certificate by the Interborough Company, that company shall, in due and lawful form obtain or receive the approval hereof by the Board of Estimate and Apportionment of The City of New York and the consent of that Board as the local authority having the control of the portions of the streets, avenues, highways, bridges, parkways and public places upon or over which it is proposed to construct, maintain and operate the railroad hereby authorized and substituted as aforesaid, together with the approval of the Mayor of the City.

The authorizations or licenses hereby granted, if the Commission shall so determine, after due hearing, shall become void unless within six (6) months from the time of the acceptance of this certificate by the Interborough Company the Interborough Company shall further and in due and lawful form obtain and submit to inspection by the Commission the consents of the owners of one-half in value of the property bounded on each portion of the streets, avenues or highways upon or over which the route of the railroad as substituted, fixed and determined herein or any part thereof is authorized, or in case the consent of such property owners cannot be obtained, then the determination pursuant to law of commissioners to be appointed by the Appellate Division of the Supreme Court in the proper department that such railroad ought to be constructed and operated, the said determination of such commissioners when confirmed by the court, to be taken in lieu of such consent of property owners. Provided, however, and it is expressly stipulated, that the Commission shall have power, upon reasonable cause shown, to extend by written certificate either of the periods hereinbefore in this article prescribed.

The Interborough Company covenants that it will be diligent in prosecuting applications for the consents aforesaid, but if it shall not have secured the same within the period of six (6) months after its acceptance as aforesaid of this certificate, then and in such case the Interborough Company shall, after a written notice of three (3) months to the Commission be released from its obligations hereunder, unless within such three (3) months or within such further period to be prescribed by the Commission such consents shall have been given.

IV.

The plan and profile of the said substituted railroad, herewith attached, bearing the general title "State of New York Public Service Commission for the First District Engineering Department Map and Profile of Eighth Avenue and 162d Street Connecting Dwg. No. 149 File No. 3 Alfred Craven Chief Engineer Jan. 15, 1914," signed by the Chief Engineer to the Commission, are to be deemed a part of this certificate and to be construed with the text hereof. The same shall be substantially followed, but deviations therefrom not inconsistent with the other provisions hereof may be permitted by the Commission.

In Witness Whereof, this certificate has been prepared by the Public Service Commission for the First District, and is now attested by its seal and the signature of its Chairman, who is its presiding officer, and the signature of its Secretary, this 22d day of May, 1914.

Resolved, That the Board of Estimate and Apportionment of The City of New York, by a majority vote according to the number of votes by law pertaining to each member of the Board, hereby approves the foregoing proposed certificate to the Interborough Rapid Transit Company, and hereby consents to the construction, maintenance and operation of the railroad extensions in accordance therewith.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Committee on the City Plan.

Board of Estimate and Apportionment—Committee on the City Plan—Establishment of Various Grades of Positions (Cal. No. 4).

The Secretary presented a communication from the Commitee on the City Plan, dated June 15, 1914, requesting the establishment of the following grades of positions in the office of the Board of Estimate and Apportionment:

	Per Annum.	Incumbents
Assistant Engineer	$2,100 00	1
Assistant Engineer	1,800 00	1
Assistant Engineer	1,650 00	2
Draftsman	1,500 00	1
Draftsman	1,200 00	2
Stenographer and Typewriter	750 00	1
Clerk	450 00	1

Which was referred to the Committee on Salaries and Grades.

Board of Estimate and Apportionment—Committee on the City Plan—Appointment of an Advisory Commission on Building Districts and Restrictions (Cal. No. 5).

The Secretary presented a communication from the Secretary of the Committee on the City Plan, dated June 15, 1914, transmitting the following report:

June 12, 1914.

Board of Estimate and Apportionment:

Gentlemen—The report of the Committee on Organization, adopted by the Board January 30, 1914, charges the Committee on the City Plan with the formulation of a general scheme for improvement with which all local improvements will be co-ordinated. The lack of a comprehensive plan is a constant handicap to the committee in the consideration of the numerous important projects that are coming before it. We realize the need of a careful study of future growth and requirements—of the probable growth and distribution of population and of the probable development and location of commerce and industry. In planning a street and block system for the as yet undeveloped areas, we need particularly to bear in mind the future rapid transit requirements and the future probable and possible uses to which various districts will be put. This indicates one of the big problems involved in the working out of a comprehensive plan. To aid the committee in the solution of this and similar problems we recommend the adoption by the Board of a resolution authorizing the committee to appoint an Advisory Commission on City Planning, to serve without pay, to investigate and report on such general problems in relation to the planning of the City as may be referred to it by the Committee on the City Plan. Respectfully submitted,

GEORGE McANENY, President, Board of Aldermen, Chairman; MARCUS M. MARKS, President, Borough of Manhattan; LEWIS H. POUNDS, President, Borough of Brooklyn; DOUGLAS MATHEWSON, President, Borough of The Bronx; MAURICE E. CONNOLLY, President, Borough of Queens; CHARLES J. McCORMACK, President, Borough of Richmond, Committee on the City Plan.

ROBERT H. WHITTEN, Secretary.

The following resolution was offered:

Resolved, That the Committee on the City Plan of the Board of Estimate and Apportionment be authorized to appoint an Advisory Commission on City Planning, to serve without pay, to investigate and report on such general problems in relation to the planning of the City as may be referred to it by the Committee on the City Plan.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens, and the President of the Borough of Richmond—16.

Committee on Corporate Stock Budget.

Department of Street Cleaning—Issue of Corporate Stock (Cal. No. 6).

The Secretary presented a report of the Committee on Corporate Stock Budget recommending an authorization of $18,000 corporate stock for enlarging and covering the dumping board at 72d street and the East River, Manhattan.

(A bridge and dumping board at the location named have been constructed at a cost of $4,873. This was intended as a temporary dumping board, to be used only during the construction of a sea wall and of a permanent dumping board at 80th street. The Commissioner of Street Cleaning has decided recently that the 72d street location is better for a permanent dump than 80th street, where there is already an old dilapidated dump on a crib bulkhead, which is in danger of collapsing.)

(The Bureau of Contract Supervision has investigated this request and has reported that $18,000 is a reasonable amount for enlarging and covering the dumping Board. With this amount a satisfactory covered dump of adequate capacity can be constructed.)

(On March 27, 1914 (Cal. No. 8), a joint request of the Commissioner of Street Cleaning and the Commissioner of Docks for the above appropriation was referred to said Committee.)

Which was laid over for one week (June 26, 1914), under Rule 19.

Department of Docks and Ferries—Department of Street Cleaning—Issue of Corporate Stock (Cal. No. 7).

The Secretary presented a report of the Committee on Corporate Stock Budget recommending the authorization of $45,000 corporate stock for the construction of a new covered water-front dump at 79th street, North River, Manhattan, under the jurisdiction of the Department of Street Cleaning. The construction of the dump, however, is to be under the direction of the Commissioner of Docks.

The proposed location of the dump is in a residential section and but 200 feet from the western boundary of Riverside Park and close to Riverside drive, where property is completely improved with expensive dwellings and costly apartments. In view of the location it is essential that a dump for ashes and rubbish be of attractive design and be so constructed that it will not be a nuisance.

It is estimated by the Bureau of Contract Supervision that $45,000 will be sufficient for the construction of a dump that will be practically fireproof and that will not be unattractive in appearance, and that will also have a sufficient capacity to meet the demands of the territory. The City is now paying $30 a day for the privilege of dumping at 96th street. This expense will be eliminated by the construction of a new dump.

(On March 13, 1914 (Cal. No. 12), a joint application of the Commissioner of Docks and Commissioner of Street Cleaning for the above appropriation was referred to said Committee.)

Which was laid over for one week (June 26, 1914), under Rule 19.

Department of Correction—Approval of the Erection of a Disciplinary Building at the Penitentiary on Blackwells Island and Issue of Corporate Stock Therefor (Cal. No. 8).

The Secretary presented a report of the Committee on Corporate Stock Budget recommending that the Board approve of the erection, pursuant to chapter 912, Laws of 1895, as amended by chapter 73, Laws of 1914, of a 14-cell disciplinary building at the penitentiary on Blackwells Island, under the jurisdiction of the Department of Correction; also recommending an issue of $5,000 corporate stock to provide means for the erection of this building.

(The plans for this building have been submitted to the Bureau of Contract Supervision, and the Engineers of the Bureau have made an itemized tabulation of the cost of construction materials, and report that the estimate of $5,000 is not excessive.)

(On May 8, 1914 (Cal. No. 68), a communication from the Commissioner of

Correction requesting approval of plans for the construction of the above building, payable from corporate stock funds, was referred to the Committee on Corporate Stock Budget and to the Bureau of Contract Supervision.)

Which was laid over for one week (June 26, 1914), under Rule 19.

Committee on Salaries and Grades.

Department of Bridges—Modification of Temporary Schedule (Cal. No. 9).

The Secretary presented a communication from the Commissioner of Bridges, dated June 1, 1914, requesting the modification of a schedule for 1914, and the following report of the Committee on Salaries and Grades recommending approval thereof:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 5, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On June 1, 1914, the Commissioner of Bridges requested modification of a wage schedule in his department for the year 1914. The request was referred to the Committee on Salaries and Grades on June 3, 1914. The Bureau of Standards, under date of June 5, 1914, reports thereon as follows:

"In Personal Service, Wages, Temporary Employees, Construction, No. 2762C, Corporate Stock Force, it is proposed to increase the days for Bridge Mechanics, Housesmith or Bridgeman or Riveter, at $5 per day, from 4,200 to 5.200, to provide additional time for riveters engaged on the work of strengthening the Williamsburg Bridge. The $5,000 is obtained by reducing the days for Painter or Bridge Painter, at $4 per day, from 14,040 to 12,790."

In view of the foregoing we recommend the adoption of the attached resolution approving the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the schedule, as revised, for the Department of Bridges, for the year 1914, to be effective as of June 1, 1914, as follows:

DEPARTMENT OF BRIDGES.

Personal Service, Wages, Temporary Employees, Construction.

2762C	Corporate Stock Force—	
	Inspector of Masonry, at $5 per day (700 days)	$3,500 00
	Painter or Bridge Painter, at $4 per day (12,790 days)	51,160 00
	Laborer, at $2.50 per day (400 days)	1,000 00
	Bridge Mechanic, Housesmith or Bridgeman and Riveter, at $5 per day (5,200 days)	26,000 00
	Watchman, at $2.50 per day (800 days)	2,000 00
	Schedule Total	$83,660 00
	Corporate Stock Allowance	83,660 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Bridges—Modification of Schedules (Cal. No. 10).

The Secretary presented a communication from the Commissioner of Bridges, dated June 1, 1914, requesting the modification of schedules for 1914; and the following report of the Committee on Salaries and Grades recommending approval thereof:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 6, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On June 1, 1914, the Commissioner of Bridges requested modification of a wage schedule in his department for the year 1914. The request was referred to the Committee on Salaries and Grades on June 3, 1914. The Bureau of Standards, under date of June 5, 1914, reports thereon as follows:

"In Personal Service, Wages Temporary Employees, No. 2764, Tax Levy Force, it is proposed to increase the days for Wireman or Electrician, at $4.50 per day, from 122 to 402 to provide time for a Foreman Lineman at $1,500 per annum now employed in the department, whose title is to be changed to Wireman, at $4.50 per day, and for additional time for temporary Wireman to take the place of regular men hurt in the performance of duty. The $1,260 is provided by reducing the days for Carpenter or Ship Carpenter, at $5 per day, from 437 to 185. The Foreman Lineman at $1,500 is provided for in Salaries, Regular Employees, Care of Bridges, No. 2752, Tax Levy Force, and it is stated that the position will not be filled. No request for the modification of this schedule has been made."

In view of the foregoing we recommend that the request for modification of schedule No. 2764 be approved and that the $1,500 provided in No. 2752 for the Foreman Lineman be placed in an unassigned balance, by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the schedules, as revised, for the Department of Bridges for the year 1914, as follows:

New York Public Library—Modification of Schedules (Cal. No. 11).

The Secretary presented a communication from the Trustees of the New York Public Library, dated May 14, 1914, requesting the modification of schedules for 1914, and the following report of the Committee on Salaries and Grades recommending approval thereof:

City of New York, Department of Finance, Comptroller's Office, June 6, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On May 14, 1914, the Trustees of the New York Public Library requested the Board of Estimate and Apportionment to approve modification of salary schedules Nos. 1455, Salaries, Regular Employees, Administration, and 1460, Salaries, Regular Employees, Branch Libraries, for the year 1914, to take effect as of May 1st. In connection therewith we report as follows:

This request for modification of salary schedules 1455 and 1460 for the year 1914 from the Trustees of the New York Public Library, like all other similar requests received from this Library and from the Brooklyn Public Library and the Queens Borough Public Library, is essentially different from requests for modifications of salary schedules received from regular City Departments, inasmuch as the changes proposed in the modification had been effected before the request was presented. The changes in rates of compensation and number of employees herein considered were made by the Trustees of the Library and subsequently the request for modification of schedules was drafted accordingly. The changes were covered in the May payrolls. In fact, a request for a modification of a salary schedule from any one of the Public Libraries maintained by the City is, in effect, a notification that the changes indicated therein have been made by the Library authorities.

Schedule No. 1455 provides for the payment of the salaries of the official and clerical staff in the Circulation Department of the New York Public Library. The original schedule as included in the budget for 1914 provided for 34 employees at a total annual rate of $31,220. In the modification herein considered it is proposed to change the lines:

1455	Manager, Book Order Office	$1,800 00
	Finance Clerk	900 00
	Clerk	840 00
	Clerk, 2 at $600	1,200 00
	Clerk	420 00
	Balance unassigned	480 00
		$5,640 00

—to read:

	Manager, Book Order Office	$2,000 00
	Finance Clerk	960 00
	Clerk	660 00
	Clerk	600 00
	Clerk, 2 at $420	840 00
	Balance unassigned	580 00
		$5,640 00

Two Clerks, one at $480 per annum and one at $840, have withdrawn from service. Two Clerks at $420 each per annum have been appointed. Of the $480 accruing through these changes, $100 was credited to balance unassigned and the remaining $380 was used to increase salaries as follows:

Title.	Present Rate Per Annum.	Increase.
Manager, Book Order Office	$1,800 00	$200 00
Finance Clerk	900 00	60 00
Clerk	600 00	60 00
Clerk	420 00	60 00

Although the Board of Estimate and Apportionment is holding salary increases in abeyance in all the regular City Departments, it seems to have no choice in the matter of approving the four increases provided for in the requested modification of the foregoing schedule for the reason previously stated, viz.: that the increases have already been effected, and, besides, at the present time there is doubt as to the authority of your Board to control salary schedule modifications for Public Libraries.

Schedule 1460 includes the Branch Librarians, Assistant Librarians, Children's Librarians, Reading Room Custodians, Messengers and Drivers in the Circulation Department of the New York Public Library. The budget for 1914 provided for 530 positions in this schedule at an aggregate annual rate of $322,170. The number of positions in the schedule was increased to 532 for the month of January and 535 for the month of February and the schedule modified accordingly. For the month of March the number of positions in the schedule was decreased to 534, which number was maintained for the month of April. The modification herein considered reduces the number of positions in the schedule to 532 without changing the schedule total.

As previously stated, the original allowance for schedule 1460 was $322,170. This amount in subsequent modifications was increased to $332,730 by transferring thereto $11,640 from Code 1461, which account provided salary increases of not more than $60 each for 198 employees in the graded service; and by transferring therefrom $540 to Code 1457, and $540 to Code 1458, to provide for the creation of two new positions in these schedules.

The modification of schedule 1460 herein considered changes the lines:

First Assistant, 14 at $900	$12,600 00
First Assistant, 15 at $840	12,600 00
First Assistant, 2 at $780	1,560 00
Children's Librarian, 7 at $900	6,300 00
Second Assistant, 90 at $660	59,400 00
Second Assistant, 40 at $600	24,000 00
Assistant, 140 at $540	75,600 00
Messenger, 71 at $150	10,650 00
Balance unassigned	120 00
	$202,830 00

—to read:

First Assistant, 13 at $900	$11,700 00
First Assistant, 14 at $840	11,760 00
First Assistant, 3 at $780	2,340 00
Children's Librarian, 6 at $900	5,400 00
Second Assistant, 91 at $660	60,060 00
Second Assistant, 45 at $600	27,000 00
Assistant, 138 at $540	74,520 00
Messenger, 67 at $150	10,050 00
	$202,830 00

The foregoing changes eliminate nine positions from the schedule, as follows:

First Assistant, 1 at $900	$900 00
First Assistant, 1 at $840	840 00
Children's Librarian, 1 at $900	900 00
Assistant, 2 at $540	1,080 00
Messenger, 4 at $150	600 00
	$4,320 00

—and add seven new positions to the schedule, as follows:

First Assistant, 1 at $780	$780 00
Second Assistant, 1 at $660	660 00
Second Assistant, 5 at $600	3,000 00
	$4,440 00

The difference between the aggregate rate of the new positions added and those eliminated is covered by the use of an existing balance unassigned in the sum of $120. The net result of the changes is to decrease the number of positions in the schedule by two and to increase their total annual rate from $4,320 to $4,440, or a net increase of $120.

It is stated that all of the foregoing changes in schedule 1460, with one exception, were due to withdrawals from the service and consequent new appointments. The exception was that of a salary increase from $720 to $780 per annum for a First Assistant. It should also be noted in this connection that 546 positions were requested for schedule 1460 for the current year in the estimate submitted last July. The number provided for was 530. It was subsequently increased to 535 and then decreased to 534. The present modification further decreases the number of employees to 532 and this has been done notwithstanding the natural growth in the work of the Circulation Department. If this decrease in force is due to a decrease in the work of the libraries during the hot weather, then it would appear that the money released through decreasing the force should have been credited to balance unassigned, thus making it available for enlarging the force when increased work makes it necessary to do so next Fall.

As to the authority of the Board of Estimate and Apportionment to control the administration of moneys appropriated for personal service charges in the Public Libraries of the City after such moneys have been appropriated, the Corporation Counsel rendered an opinion to the Comptroller under date of March 13, 1914, to the effect that the relations existing between the City and the Brooklyn Public Library are purely contractual, and consequently the Board of Estimate and Apportionment is not free to exercise the same power of discretion as it does in controlling the expenditure of appropriations for regular municipal departments.

The City has agreed in its contract with the Brooklyn Public Library to appropriate requisite sums of money for its proper maintenance. The Board of Estimate and Apportionment in making its budget for the current year has decided what sums shall constitute requisite amounts and adequate provision, and has designated particular sums of money for particular purposes. The Corporation Counsel is of the opinion that the Board of Estimate and Apportionment does not possess any power in respect to the administration of the moneys after they have been appropriated. He therefore advises the Comptroller that moneys must be paid as requisitioned by the Board of Trustees when the aggregate does not exceed the amount appropriated, and proper vouchers in forms approved by the Comptroller are submitted, even when such requisitions disregard the budget segregations.

Under date of April 30, 1914, the Comptroller requested the Corporation Counsel to consider the same phases of the question as were considered in regard to the Brooklyn Public Library and to advise him along similar lines concerning the powers of the Board of Estimate and Apportionment in regard to the administration of moneys appropriated for the New York Public Library and the Queens Borough Public Library.

Pending a decision from the Corporation Counsel defining the powers of the Board of Estimate and Apportionment in respect to the administration of appropriations for personal service in New York Public Library, it seems expedient to revise the schedules as requested.

The line item changes in detail are as follows:

Board of Estimate and Apportionment—Bureau of Records and Minutes—Modification of Schedule (Cal. No. 12).

The Secretary presented a communication from the Secretary of the Board of Estimate and Apportionment, dated May 28, 1914, requesting the modification of a schedule for 1914; and the following report of the Committee on Salaries and Grades, recommending approval thereof:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 10, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On May 28, 1914, the Secretary of the Board of Estimate and Apportionment requested modification of the schedule for Personal Service, Salaries, Regular Employees No. 25, which was referred to the Committee on Salaries and Grades on June 1, 1914. The Bureau of Standards reports thereon, under date of June 8, 1914, as follows:

"The request contemplates increases in salaries for H. E. Taylor, Clerk, from $600 to $750, and James B. Kelly, Clerk, from $540 to $600. The work done by Mr. Taylor, as certified by him and approved by the head of his Bureau, is as follows:

"'Preparing vouchers for payment, keeping the books pertaining to the accounting of this office, balancing same at the end of each month, sending statement to Department of Finance at end of each month, preparing open market orders to be issued, general routine work, and general bookkeeping of the Secretary's office. I also keep records of stationery and supplies, ordered, received and distributed.'

"The work done by Mr. Kelly, as certified by him and approved by the head of his Bureau, is as follows:

"'Copying letters and index the same, assist in delivering letters, occasionally reading proof of minutes, assisting in mailing and delivering weekly calendars, cutting and pasting resolutions for Financial Minutes, keeping postage account. Typewrite the Payroll and recapitualtion.'

"Request was made in the Budget for 1914 for these two increases, and, after due consideration by the Budget Committee, the same were granted and included in the 1914 Budget. Owing to Civil Service regulations the increases could not go into effect until June 1, 1914, for Mr. Kelly and June 23, 1914, for Mr. Taylor. The schedules therefore were modified the first of January and the surplus money placed in Balance Unassigned, with the understanding that the additional change would be made as soon as the incumbents were eligible to receive increased compensations."

In view of the above facts we recommend that the request be granted by the adoption of the attached resolution. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

Department of Education—Modification of Schedule (Cal. No. 13).

The Secretary presented a commmunication from the Secretary, Board of Education, dated April 28, 1914, requesting the modification of a schedule for 1914; and the following report of the Committee on Salaries and Grades, recommending approval thereof:

City of New York, Department of Finance, Comptroller's Office, June 11, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On April 28, 1914, the Board of Education requested modification of salary schedule No. 854, General Supervision, for the year 1914, to allow of the payment to Nathalie Boniface, salary at the rate of $1,800 per annum from March 1, 1914. In connection therewith we report as follows:

Miss Boniface is now filling the line "Clerk, with knowledge of statistics at $1,200," in Schedule No. 854, General Supervision. In 1912 she brought suit for $3,000 arrears of salary, claiming that she was entitled to $1,800 per annum from the date of her appointment. The outcome has been a compromise, whereby she is to be paid salary at the rate of $1,800 per annum from March 1, 1914, and is to have the title of Statistician.

The history of this case is set forth in a concurrent report of the Comptroller, recommending that special revenue bonds be issued, the proceeds whereof to be used for the purpose of paying Miss Boniface the difference between salary at the rate of $1,200 and at the rate of $1,800 per annum from March 1, 1914.

To allow of the payment to Miss Boniface of the increased salary, it is necessary to modify Salary Schedule No. 854, General Supervision, for the year 1914, by eliminating the line, "Clerk, with knowledge of statistics, 1 at $1,200," and substituting the line "Statistician, 1 at $1,800."

The increase of $600 to be scheduled as the annual rate of revenue bond allowance.

We recommend the adoption of the attached resolution modifying the schedule to provide for the changes indicated herein. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

Department of Parks, Manhattan and Richmond—Modification of Schedule (Cal. No. 14).

The Secretary presented a communication from the Commissioner of Parks, Boroughs of Manhattan and Richmond, dated June 5, 1914, requesting the modification of a schedule for 1914; and the following report of the Committee on Salaries and Grades, recommending approval thereof:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 10, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On June 5, 1914, the Commissioner of Parks, Boroughs of Manhattan and Richmond, requested modification of a salary schedule in his department for the year 1914. The request was referred to the Committee on Salaries and Grades on June 6, 1914. The Bureau of Standards reports thereon under date of June 8, 1914, as follows:

"In Personal Service, Salaries Regular Employees, Engineering, No. 1111TC, Tax Levy and Corporate Stock Force, it is proposed to reduce the number of Rodmen at $1,200 per annum from 4 to 1, add a line for Rodman, 3 at $1,050 per annum, and schedule $450 as balance unassigned. The 1914 Budget provided for increases in salary of three Rodmen from $1,050 to $1,200 per annum pending a promotion examination. The three Rodmen have failed to pass the required examination and it becomes necessary, therefore, to modify the schedules to provide for them at the old rate of $1,050 per annum. The $450 is to be scheduled as balance unassigned."

In view of the foregoing facts we recommend the adoption of the attached resolution approving the request.

Respectfully, WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the schedule, as revised, for the Department of Parks, Boroughs of Manhattan and Richmond, for the year 1914, to be effective as of June 1, 1914, as follows:

Department of Parks, Manhattan and Richmond—Modification of Schedule (Cal. No. 15).

The Secretary presented a communication from the Commissioner of Parks, Boroughs of Manhattan and Richmond, dated June 5, 1914, requesting the modification of a schedule for 1914; and the following report of the Committee on Salaries and Grades, recommending approval thereof:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 10, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On June 5, 1914, the Commissioner of Parks, Boroughs of Manhattan and Richmond, requested modication of a salary schedule in his Department for the year 1914. The request was referred to the Committee on Salaries and Grades on June 6, 1914. The Bureau of Standards reports thereon under date of June 8, 1914, as follows:

"In Personal Service, Salaries Regular Employees, Administration, No. 1110, General, it is proposed to change the line Examiner, at $4,000 per annum, to Chief Clerk and Auditor, at $3,500 per annum, scheduling $500 as balance unassigned. The request is made in order to provide for Joseph E. Savage, who was transferred from the Department of Finance and appointed to the position of Chief Clerk and Auditor on May 25, 1914. On May 1, 1914, the Board of Estimate and Apportionment adopted a resolution recommending the establishment of the position of Chief Clerk and Auditor, at $3,500 in the Department of Parks, Boroughs of Manhattan and Richmond, and the abolishment of the position of Examiner at $4,000 per annum. On May 19, 1914, the Board of Aldermen concurred in the resolution."

In view of the foregoing facts we recommend the adoption of the attached resolution approving the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

Bellevue and Allied Hospitals—Modification of Schedule (Cal. No. 16).

The Secretary presented a communication dated May 20, 1914, from the Secretary of the Board of Trustees of Bellevue and Allied Hospitals, requesting the modification of a schedule for 1914; and the following report of the Committee on Salaries and Grades, recommending approval thereof:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 10, 1914

To the Board of Estimate and Apportionment:

Gentlemen—On May 20, 1914, the Board of Trustees of Bellevue and Allied Hospitals requested revision of a salary schedule for the year 1914, to be effective as of June 1. The Bureau of Standards reports as follows:

"In Personal Service, Salaries, Temporary Employees, No. 2060, Bellevue Hospital, it is proposed to change lines as follows:

"Trained Nurse at $600, 321 months, to read: Trained Nurse at $600, 257 months.

"Hospital Helper at $300, 384 months, to read: Hospital Helper at $300, 320 months.

"Hospital Helper at $192, 144 months, to read: Hospital Helper at $192, 129 months.

"Pupil Nurse at $96, 1,330 months, to read: Pupil Nurse at $96, 1,730 months.

"Hospital Helper at $480, 12 months, to read: Hospital Helper at $480, 32 months.

"Hospital Helper at $240, 1,527 months, to read: Hospital Helper at $240, 1,567 months.

"Hospital Helper at $180, 722 months, to read: Hospital Helper at $180, 738 months.

"The purpose is to make available sufficient money to pay salaries of about 43 Pupil Nurses and affiliating Nurses at $96 per year, added to the service since

December, 1913. The line was changed in the belief that it would be impossible to enroll the required number of Pupil Nurses. The modification restores the original Budget line.

"The increase in the line Hospital Helper at $480, is to provide four additional Helpers in the X-Ray Division, Superintendent's Office, Operating Room and Housekeeping Department, where there has been a material increase in the volume of work.

"The increase in the lines for Hospital Helpers at $180 and $240, is necessary because of vacations. No. 'vacation relief' fund for Hospital Helpers has been provided. Extra Helpers during vacation periods will be employed in all Divisions. The changes requested are within the Budget appropriation."

In view of the above facts, we recommend the adoption of the attached resolution granting the request. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves the schedule, as revised, for Bellevue and Allied Hospitals for the year 1914, as follows:

Department of Bridges—Modification of Schedules (Cal. No. 17).

The Secretary presented a communication from the Commissioner of Bridges, dated June 1, 1914, requesting the modification of salary schedules for 1914; and the following report of the Committee on Salaries and Grades, recommending a partial approval of the request:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 10, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On June 1, 1914, the Commissioner of Bridges requested modification of two salary schedules in his Department for the year 1914. The request was referred to the Committee on Salaries and Grades on June 3, 1914. The Bureau of Standards, under date of June 6, 1914, reports thereon as follows:

"In Personal Service, Salaries, Regular Employees, Construction, No. 2750C, Corporate Stock Force, it is proposed to drop an Assistant Engineer at $3,000 per annum, add a Draftsman at $1,800 per annum, and schedule $1,200 as balance unassigned. The Assistant Engineer dropped in this schedule is to be transferred to Salaries, Regular Employees, Care of Bridges, No. 2753B, Bridge Revenue Force, to take the place of an Assistant Engineer at $2,700 per annum, who has resigned. The Engineer is to do work in connection with the Brooklyn and Manhattan Bridges. The $300 additional is provided by dropping a Foreman Carpenter, at $2,400 per annum, leaving $2,100 to be scheduled as balance unassigned. The request for an additional Draftsman at $1,800 per annum, in No. 2750C, is to provide on a regular basis for one who has been temporarily assigned to the Board of Estimate and Apportionment for special work. This Draftsman is now being paid from Salaries, Temporary Employees, Construction, No. 2754C, Corporate Stock Force, and there does not appear to be any reason for the change other than it is desired to provide for him on a regular schedule. Other Draftsmen performing similar work are paid from this temporary account."

In view of the foregoing, we recommend that the request for an additional Draftsman at $1,800 per annum in schedule No. 2750C be disapproved, and that the $3,000 caused by the transfer of an Assistant Engineer to No. 2753B be scheduled as balance unassigned. We also recommend that schedule No. 2753B be modified as requested.

We recommend adoption of the attached resolution carrying these recommendations into effect. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

County Court, Bronx County—Establishing Position of Confidential Stenographer and Modification of Schedule (Cal. No. 18).

(On March 27, 1914 (Cal. No. 80), the requests of the County Judge of Bronx County were referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated March 25, 1914, from the County Judge of Bronx County requesting the establishment of the position of Confidential Stenographer at $1,500 per annum and an increase in the salary of the County Detective from $1,500 to $2,000 per annum; and the following report of the Committee on Salaries and Grades:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, May 12, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On March 25, 1914, the County Judge of Bronx County requested, pursuant to the provisions of chapter 548 of the Laws of 1912, as amended, the establishment for the court of the position of Confidential Stenographer at $1,500 per annum, for one incumbent, and an increase in salary for a County Detective from $1,500 to $2,000 per annum. The Bureau of Standards reports thereon under date of May 6 as follows:

"Chapter 548 of the Laws of 1912, as amended, established the County of Bronx and authorized the officials thereof to be elected at the general election of 1913, the said officers so elected to begin their terms of office on January 1, 1914. In the budget for 1914 provision was made for the payment of the salaries of only the statutory positions.

"Section 4 of chapter 548 of the Laws of 1912, as amended by chapter 266 of the Laws of 1913, provides in part as follows:

"'* * * And except as hereinotherwise provided the positions, terms, grades, salaries and compensations of all persons who may be appointed under the provisions of law, by any of the officers above mentioned or who may be required to carry on the public business as contemplated by this act shall be fixed by the board of estimate and apportionment of the city of New York. * * *'

"The County Judge requests the establishment, pursuant to the provisions of the law cited, of the position for the court of Confidential Stenographer at $1,500 per annum, for one incumbent. The only position of Stenographer provided for the court is the regular Court Stenographer, whose entire time is occupied in taking testimony in all the criminal and civil cases which are tried in the County Court, transcribing the minutes in cases on appeal and furnishing the County Judge and the District Attorney with the record of testimony in criminal cases which may have a bearing on cases which are to be tried.

"The County Judge requires a competetent Stenographer to take his official correspondence, typewrite the court decisions, the card index and abstracts of the criminal cases and the reports of the Probation Officer to the court. This work is now being done by two Court Attendants who are typists and who attend to it after the close of court. The work value of the requested position, as indicated by the records of the Bureau of Standards, is $1,200 per annum. Upon the establishment of the position by the Board of Estimate and Apportionment, and the adoption of a schedule for the same, provision for the payment of the salary may be made by the Comptroller, pursuant to the provisions of subdivision 7 of section 188 of the Greater New York Charter.

"The County Judge further requests an increase in salary for H. B. Harris, County Detective, from $1,500 to $2,000 per annum. The position of County Detective for the County Court was provided for by the Board of Estimate and Apportionment, pursuant to the provisions of chapter 532 of the Laws of 1900, which reads, in part, as follows:

"'It shall be lawful for the county judge, or, in case there be more than one such county judge, the county judges, of any county in this State, *which by the last federal census* contained a population of not less than one hundred and twenty-five thousand inhabitants and which adjoins a county containing a population of not less than one million inhabitants, to appoint a detective to be known as the county detective for such county. * * * The county detective so appointed shall continue in office for a period of three years from the date of his appointment or until his successor is appointed * * * and shall receive for compensation the sum of fifteen hundred dollars per annum. * * * If such county, adjoining a county containing a population of not less than one million inhabitants, *contains a population of more than five hundred thousand inhabitants,* there shall be appointed for such county as provided in this act two detectives, who shall serve during good behavior, and who shall each receive as compensation the sum of two thousand dollars per annum * * *'

"The population of The Bronx as shown by the last Federal census of 1910 is 430,980."

In view of the foregoing report we recommend the adoption of the attached resolutions granting the request only as to the establishment of the position of Stenographer and Typewriter at $1,200 per annum, and modifying the appropriate salary schedules.

Respectfully, WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of chapter 548 of the Laws of 1912, as amended by chapter 266 of the Laws of 1912, as amended by chapter 825 of the Laws of 1913, hereby fixes the position and salary in the County Court, Bronx County, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Stenographer and Typewriter	$1,200 00	1

Which was adopted by the following vote:

The Secretary was then directed to send a copy of the report of the Committee on Salaries and Grades to the County Judge of Bronx County.

Board of Estimate and Apportionment—Bureau of Standards—Establishment of the Grade of Position of Examining Inspector, Purchase and Supplies (Cal. No. 19).

The Secretary presented a communication dated June 9, 1914, from the Director of the Bureau of Standards requesting the establishment of the grade of Examining Inspector, Purchase and Supplies; and the following report of the Committee on Salaries and Grades, recommending approval thereof:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 10, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On June 9, 1914, the Director of the Bureau of Standards of your Board requested the establishment in the Board of Estimate and Apportionment of the grade of position of "Examining Inspector, Purchase and Supplies," for one incumbent, at a salary of $1,800. This request is made for the purpose of enforcing the proper use of standard specifications by City Departments in accordance with the terms and conditions of the Budget. As a result of an agreement with the Comptroller a definite procedure has been adopted and is now in operation whereby all contracts for the purchase of supplies in City Departments are reviewed by the Division of Standardization of Supplies, in the Bureau of Standards, as to their conformity with standard specifications. The duties of this Inspector would be to keep in constant touch with the purchasing officials of the various Departments, instruct them in the use of standard specifications, investigate their actual operation as to practicability and economy and report to the chief of the division the results obtained through the use of different specifications. The work of the Division of Standardization of Supplies has been handicapped by the lack of such supervision. We recommend the adoption of the attached resolution granting the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Board of Estimate and Apportionment of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Examining Inspector, Purchase and Supplies.....	$1,800 00	1

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the President of the Borough of Brooklyn, the Acting President of the Borough of Queens and the President of the Borough of Richmond—13.

Negative—The President of the Boroughs of Manhattan and The Bronx—3.

Surrogate, County Court and District Attorney, Bronx County—Fixing Salary of Librarian for Law Library of Bronx County and Modifying Schedule Therefor (Cal. No. 20).

(On May 1, 1914 (Cal. No. 135), this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication dated April 24, 1914, signed by the Surrogate, the County Judge and the District Attorney of the County of The Bronx, requesting the Board of Estimate and Apportionment to fix the salary of a Librarian for the Law Library of the County of The Bronx, pursuant to the provisions of chapter 385 of the Laws of 1914, at $2,500 per annum, for 1914; and the following report of the Committee on Salaries and Grades, recommending approval thereof:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 9, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On April 24, 1914, the Surrogate, the County Judge and the District Attorney of Bronx County, as Trustees of the Law Library of Bronx County, requested your Board to fix the salary of a Librarian, pursuant to the provisions of chapter 385 of the Laws of 1914. The request was referred to the Committee on Salaries and Grades on May 5, 1914. Under date of June 8, the Bureau of Standards reports thereon as follows:

"Chapter 385 of the Laws of 1914 entitled 'An act in relation to education, constituting chapter sixteen of the consolidated laws,' adds a new section to be known as section eleven hundred and eighty-b. The act reads as follows:

"'Section 1180-b. Law library for the county officials for the county of Bronx. The law library for the county officials for the county of Bronx shall be kept wherever designated by the trustees thereof and shall be in the care and custody and under the control of the surrogate, county judge, and the district attorney who shall be the trustees thereof. The said trustees may make rules and regulations for the management and direction of the said library and may prescribe penalties for the violation thereof. They may sue for and recover said penalties and maintain actions for injury to said library. They may appoint and at pleasure remove a librarian, whose salary shall be fixed by the board of estimate and apportionment of the city of New York and shall be a county charge. The said librarian shall, in addition to the duties of taking care of the books of the library, also perform such other duties in relation to the custody and distribution of the stationery and other supplies furnished for the use of said library and such other duties as the trustees direct. The said trustees may procure furniture for said library and shall defray all expenses incidental to its care and management. They shall yearly ascertain the amount necessary for the aforesaid purposes and certify it to the board of estimate and apportionment of the city of New York, which shall include in the annual budget such sums as said board may deem advisable, which sums shall be paid by the city of New York, and shall be a county charge.

"'This act shall take effect immediately.'

"The act makes it mandatory for the Board of Estimate and Apportionment to fix the salary of the librarian and to provide the funds necessary to meet the salary. The amount of the salary is within the discretion of the Board.

"There are three law libraries provided for in the Budget. The Supreme Court Library in Brooklyn is one of the best in this locality. It contains approximately 25,000 volumes including reports of practically all the States and of Great Britain. The Librarian receives a salary of $4,200 per annum and there is an Assistant Librarian who receives $2,500.

"The Library of the Law Department has approximately 9,000 volumes. It is not as comprehensive as the Supreme Court Library in Brooklyn. The Librarian receives $2,800.

"The Supreme Court Library in Queens has about 4,000 volumes, but additions are being made every year. The Librarian there receives $1,650 per annum and there is also a Clerk employed at $480 per annum.

"The library in Bronx County contains approximately 3,000 volumes and will be enlarged.

"It will be the duty of the Librarian to catalogue all volumes, to group them under appropriate titles, to have an intimate knowledge of the methods of following citations, of locating similar cases bearing on points in issue and to be ready to provide authorities when they are called for from the Bench.

"The library in Bronx County is new and the duties of the Librarian will be similar to those of the Librarian in Queens County. It is suggested that $1,650 per annum will be a proper compensation for the position.

"As the salary, when fixed, becomes a mandatory County charge the Comptroller will doubtless provide the necessary funds, pursuant to the provisions of subdivision 7 of section 188 of the Greater New York Charter."

In view of the foregoing we recommend the adoption of the attached resolutions establishing the grade of Librarian at $1,650 per annum and modifying the schedule to include the position. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of chapter 385 of the Laws of 1914, entitled, "An act in relation to education, constituting chapter sixteen of the consolidated laws," hereby fixes the salary of the position of Librarian of the law library, County of Bronx at $1,650 per annum for one incumbent.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

—

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the revenue bond fund schedule for the Bronx County Law Library for the year 1914, as follows:

Law Library for Courts and County Officials in Bronx County.

Librarian	$1,650 00
Special Revenue Bond Allowance	$1,650 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

President, Borough of The Bronx—Retirement of Frederick Greiffenberg, Topographical Engineer (Cal. No. 21).

(On May 1, 1914 (Cal. No. 134), the communication from the President of the Borough of The Bronx in this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication from the President of the Borough of The Bronx, dated April 23, 1914, recommending the retirement of Frederick Greiffenberg, Typographical Engineer; and the following report of the Committee on Salaries and Grades:

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 17, 1914.

To the Board of Estimate and Apportionment, City of New York:

Gentlemen—In a communication to your honorable Board, dated April 23, 1914, the President of the Borough of The Bronx recommended the retirement, pursuant to the provisions of sections 165, 166 and 167 of the Greater New York Charter, as amended, of Frederick Greiffenberg, Topographical Engineer, Topographical Bureau in the Borough of The Bronx. In connection therewith it is reported as follows:

The communication of the Borough President previously referred to states, in part, as follows:

"Mr Greiffenberg is over seventy years of age, and on May 6th next will have served the City continuously for a period of forty-three years.

"He entered the service of The City of New York in the Department of Public Parks, as Assistant Engineer, on May 6th, 1871, and continued in said department until December 31, 1890, and on the 1st of January, 1891, was appointed as Principal Assistant Topographical Engineer under the Commissioner of Street Improvements of the 23d and 24th Wards, which office was organized on said date, under the provisions of chapter 545, Laws of 1890, and continued his service under said Commissioner until said office was abolished by the Greater New York Charter on December 31, 1897, by which action the duties of the Topographical Bureau were transferred to the newly created Board of Public Improvements, Mr. Greiffenberg, from January 1, 1898, continuing in charge of the Topographical Bureau until the abolishment of said Board on December 31, 1901, when by the Revised Charter the topographical work of the City was placed under the jurisdiction of the Borough Presidents, Mr. Greiffenberg being transferred on January 1, 1902, to the head of the Topographical Bureau, Borough of The Bronx, where he has continued in active service in said position ever since.

"Mr. Greiffenberg is in failing health, which fact is substantiated by a certificate from his physician, who advises him to give up work altogether, and though reluctant to lose the services of so valuable an employee, yet in view of the fact that his health will not permit of his continuing in active service, his retirement is recommended."

The petitioner is over seventy years of age. He was examined on June 2, 1914, by the Medical Examiner to the Department of Finance, who certified that Mr. Greiffenberg is positively unfit for duty. The certificate of the Medical Examiner is attached hereto.

The record of employment of Mr. Greiffenberg is stated in the recommendation as aggregating over 43 years. An examination of the pay-roll records was made in the offices of the outlying departments sufficient to establish over 30 years of service, as follows:

Assistant Engineer, Department of Public Parks, January 1, 1883, to December 31, 1890	8 years
Assistant Topographical Engineer, Commissioner of Street Improvements, 23d and 24th Wards, January 1, 1891, to December 31, 1897	7 years
Assistant Engineer, Board of Public Improvements, January 1, 1898, to December 31, 1901	4 years
Assistant Engineer, President, Borough of The Bronx, January 1, 1902, to December 31, 1913	12 years
Consulting Topographical Engineer, President, Borough of The Bronx, January 1, 1914, to May 31, 1914	5 months

The present salary of the petitioner is $4,000 per annum, which sum he has received without interruption or modification since January 1, 1898.

We recommend the adoption of the accompanying resolution retiring Frederick Greiffenberg from active service and awarding and granting him an annuity of $1,000, plus such additional sum as the Board of Estimate and Apportionment may hereafter allow, so as to make the pension in this case correspond with any general plan hereafter adopted for the fixation of pensions.

Respectfully, WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

The President of the Borough of The Bronx moved that the annuity to Mr. Grieffenberg be fixed at 35 per cent. of his annual salary for the three years preceding the date of his retirement.

Which was agreed to and the following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the pro-

visions of sections 165, 166 and 167 of the Greater New York Charter, as amended by chapter 669 of the Laws of 1911 and chapter 479 of the Laws of 1912, and upon the recommendation of the Comptroller and the Acting President of the Board of Aldermen, hereby retires from active service Frederick Greiffenberg, Topographical Engineer in the office of the President, Borough of The Bronx, for the reason that he is physically incapacitated further to perform his duties as Topographical Engineer, and that the interests of the public service require such retirement, and hereby awards and grants to said Frederick Greiffenberg an annual sum or annuity of one thousand four hundred dollars ($1,400), being a sum less than 50 per cent. of his average annual compensation for three years immediately preceding the taking effect of this resolution; this resolution to take effect upon the first day of the month following its adoption, subject to the execution by the annuitant of a general release; and be it further

Resolved, That the Comptroller of The City of New York be and he is hereby directed to pay said annuity to said Frederick Greiffenberg during his lifetime in equal monthly installments out of the receipts of excise moneys or liquor taxes belonging to The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Docks and Ferries—Retirement of Edward Abeel, a Dockmaster (Cal. No. 22).

(On December 18, 1913 (Cal. No. 69), the communication from the Commissioner of Docks, in this matter was referred to the Committee on Salaries and Grades.)

The Secretary presented a communication from the Commissioner of Docks, dated December 12, 1913, recommending the retirement of Edward Abeel; and the following report of the Committee on Salaries and Grades:

City of New York, Department of Finance, Bureau of Municipal Investigation and Statistics, June 16, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—At a meeting of your honorable Board, held December 18, 1913, there was presented a communication from the Commissioner of Docks, dated December 12, 1913, recommending the retirement, pursuant to the provisions of sections 165, 166 and 167 of the Greater New York Charter, as amended, of Edward Abeel, a Dockmaster in the Department of Docks and Ferries. In connection therewith we report as follows:

The communication of the Commissioner, previously mentioned, is addressed to the Mayor and states, in part, as follows:

"Edward Abeel was appointed to the position of Dockmaster in the Department of Docks, July 11, 1883. He has served in that capacity since that date, with the exception of the period from February 5 to April 20, 1910, during which time he was laid off for lack of work. He is 88 years of age and is becoming rather feeble. The Superintendent of Docks reports to me that Captain Abeel has always been regular in his attendance and faithful in the performance of his duties. His salary since July 1, 1909, has been at the rate of $2,100 per annum."

Mr. Abeel's appointment and rates of compensation have been verified from original records, as follows:

July 11, 1883, to August, 1885, at $1,500 per annum.
August, 1885, to June, 1891, at $1,800 per annum.
June, 1891, to May, 1895, at $2,100 per annum.
May, 1895, to July, 1905, at $1,500 per annum.
July, 1905, to July, 1909, at $1,800 per annum.
July, 1909, to May 31, 1914, at $2,100 per annum.

The total time of employment credited to Mr. Abeel on payrolls and time book records examined is shown in the following statement:

The Medical Examiner of the Department of Finance examined Mr. Abeel on January 3, 1914, and certified that he is unfit to perform the duties of his position. The detailed report of the Medical Examiner is submitted herewith.

In an affidavit dated June 10, 1914, Mr. Abeel states that he has never filed a claim nor brought suit against The City of New York for payment of wages or salary or for any other claim. The affidavit is transmitted herewith.

For the three years prior to June 1, 1914, Mr. Abeel's rate of compensation was $2,100 per annum, and this sum was the actual amount of compensation annually received by him during that period.

We recommend the adoption of the accompanying resolution retiring Edward Abeel from active service and awarding and granting him an annuity of $1,050, being an amount equal to 50 per centum of his average annual rate of compensation for the last three years. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEO. McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of sections 165, 166 and 167 of the Greater New York Charter, as amended by chapter 669 of the Laws of 1911 and chapter 479 of the Laws of 1912, and upon the recommendation of the Comptroller and the President of the Board of Aldermen, hereby retires from active service Edward Abeel, Dockmaster in the Department of Docks and Ferries, for the reason that he is physically incapacitated further to perform his duties as Dockmaster and that the interests of the public service require such retirement, and hereby awards and grants to said Edward Abeel an annual sum or annuity of ten hundred and fifty dollars ($1,050), equal to 50 per cent. of his average annual compensation for three years immediately preceding the taking effect of this resolution; this resolution to take effect upon the first day of the month following its adoption, subject to the execution by the annuitant of a general release; and be it further

Resolved, That the Comptroller of The City of New York be and he is hereby directed to pay said annuity to said Edward Abeel during his lifetime in equal monthly installments, out of the receipts of excise moneys or liquor taxes belonging to The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and President of the Borough of Richmond—16.

Department of Water Supply, Gas and Electricity—Retirement of Frederick W. Watkins, a Division Engineer (Cal. No. 23).

The Secretary presented a communication from the Commissioner of Water Supply, Gas and Electricity dated March 16, 1914, addressed to his Honor the Mayor, recommending the retirement of Frederick W. Watkins, Division Engineer, on a pension of $2,000 per annum; and the following report of the Committee on Salaries and Grades:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 16, 1914.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—In a communication addressed to the Mayor, dated March 16, 1914, the Commissioner of the Department of Water Supply, Gas and Electricity recommended the retirement, pursuant to the provisions of sections 165, 166 and 167 of the Greater New York Charter, as amended, of Frederick W. Watkins, a Division Engineer in that Department. In connection therewith we report as follows:

The Commissioner's communication previously referred to states in part as follows:

"I forward application of Major Frederick W. Watkins, Division Engineer, for retirement upon a pension. He has been in the City service over thirty years, and, as a Civil War Veteran (incidentally, with a splendid record of service), he is entitled to retirement. * * * Since March 1, 1905, his compensation has been at the rate of $4,500 per annum. My suggestion is that he receive a pension of $2,000 per annum.

"He is somewhat infirm and unable to perform exacting work, and with a view to the filling of his place as rapidly as may be with some one who can do a full measure of work, I urge early action upon this application."

The Medical Examiner to the Department of Finance examined Mr. Watkins on June 4, 1914, and certifies that the appellant is unfit for duty. The Medical Examiner's detailed report is submitted herewith.

An examination of the records of the Municipal Civil Service Commission does not disclose that Mr. Watkins is a veteran of the Civil War, but the records in the office of the Commissioner of the Department of Water Supply, Gas and Electricity show that Mr. Watkins enlisted on October 8, 1861, in Company L of the First New York Volunteers, which was later detached and mustered into the United States service as the Fourth New York Independent Battery. He was finally discharged February 1, 1867, by Special Order No. 80, Adjutant General's Office. A complete record of Major Watkins' military service is contained in his application for retirement addressed to Mr. William Williams, Commissioner, and dated March 12, 1914, which is hereto attached.

Mr. Watkins' original appointment and subsequent changes in title and rate of compensation are as follows:

January 23, 1884, appointed Assistant Engineer on the Aqueduct Commission at $2,400 per annum.
December 3, 1884, promoted to Division Engineer.
August 15, 1886, services dispensed with on account of reduction of force.
June 19, 1889, reappointed Assistant Engineer at $1,800 per annum.
May 15, 1893, salary increased to $2,200 per annum.
May 16, 1900, promoted to Division Engineer at $4,000 per annum.
March 1, 1905, salary increased to $4,500 per annum.
June 1, 1910, transferred to the Department of Water Supply, Gas and Electricity.

Mr. Watkins' service has been continuous from the date of his appointment (January 23, 1884) to the present time, excepting the period from August 15, 1886, to June 19, 1889, as previously referred to.

An examination of the payrolls and time sheets establishes his record of service with the City aggregating 27 years 6 months and 3 days, as follows:

1884, January 23 to December 31, 11 months 7 days.
1885, 1 year.
1886, 7 months 15 days.
1889, 6 months 11 days.
1890-1913 (inclusive), 24 years.
1914, January 1 to June 1, 5 months.

The present salary of the applicant is $4,500 per annum, which sum he has received without interruption or modification since March 1, 1905.

On June 10, 1914, the applicant executed an affidavit wherein he states that he has never filed a claim nor brought suit against The City of New York for payment of salary or wages or for any other claim. The affidavit is transmitted herewith.

We recommend the adoption of the accompanying resolution retiring Frederick W. Watkins from active service and awarding and granting him an annuity of $1,500, being a sum less than 50 per centum of his average annual rate of compensation for the last three years. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; Committee on Salaries and Grades.

The Mayor moved that Mr. Frederick W. Watkins' annuity be fixed at 35 per cent. of his annual salary for the three years preceding the date of his retirement.

Which was agreed to.

Mr. Frederick W. Watkins presented a protest, dated June 18, 1914, objecting to the amount recommended by the Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of sections 165, 166 and 167 of the Greater New York Charter, as amended by chapter 669 of the Laws of 1911 and chapter 479 of the Laws of 1912, and upon the recommendation of the Comptroller and the President of the Board of Aldermen hereby retires from active service Major Frederick W. Watkins, Division Engineer in the Department of Water Supply, Gas and Electricity, for the reason that he is physically incapacitated further to perform his duties as Division Engineer, and that the interests of the public service require such retirement, and hereby awards and grants to said Frederick W. Watkins an annual sum or annuity of fifteen hundred and seventy-five dollars ($1,575) being a sum less than 50 per cent. of his average annual compensation for three years immediately preceding the taking effect of this resolution; this resolution to take effect upon the first day of the month following its adoption, subject to the execution by the annuitant of a general release; and be it further

Resolved, That the Comptroller of The City of New York be and he is hereby directed to pay said annuity to said Frederick W. Watkins during his lifetime in equal monthly installments, out of the receipts of excise moneys or liquor taxes belonging to The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Water Supply, Gas and Electricity—Retirement of Frederick S. Cook, a Division Engineer (Cal. No. 24).

The Secretary presented a communication addressed to his Honor, the Mayor, dated March 26, 1914, from the Commissioner of Water Supply, Gas and Electricity, recommending the retirement of Frederick S. Cook, Division Engineer, and the following report of the Committee on Salaries and Grades:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 16, 1914.

To the Honorable Board of Estimate and Apportionment:

Gentlemen—In a communication addressed to the Mayor, dated March 26, 1914, the Commissioner of the Department of Water Supply, Gas and Electricity recommended the retirement, pursuant to the provisions of sections 165, 166 and 167 of the Greater New York Charter, as amended, of Frederick S. Cook, a Division Engineer in that Department. In connection therewith we report as follows:

The Commissioner's communication, previously referred to, states, in part, as follows:

"* * * * Mr. Cook has been in the City service for a period exceeding thirty years and has developed an illness of such a serious nature as to preclude the possibility of his performing the work of his office up to its normal requirements, as is evidenced by the certificate of his family physician.

"Since March 1, 1905, he has received an annual salary of $5,000, and I

would recommend that he be retired upon a pension of not less than $2,000 nor more than $2,200 per annum, the exact amount to be determined by the Board of Estimate and Apportionment. * * * *"

The Medical Examiner to the Department of Finance examined Mr. Cook on June 4, 1914, and certifies that the applicant is unfit for duty. The Medical Examiner's detailed report is submitted herewith.

Mr. Cook's original appointment and subsequent changes in rate of compensation have been verified from original records as follows:

January 23, 1884, appointed Assistant Engineer on the Aqueduct Commission at $2,400 per annum.

March 2, 1887, salary increased to $3,000 per annum.

January 25, 1888, salary increased to $3,500 per annum.

July 1, 1900, salary increased to $4,000 per annum.

October 15, 1903, salary increased to $4,500 per annum.

March 1, 1905, salary increased to $5,000 per annum.

June 1, 1910, title changed to Division Engineer, and transferred to the Department of Water Supply, Gas and Electricity.

Mr. Cook's service has been continuous since the beginning of his employment by the City. An examination of the payrolls and time sheets establishes his record of service with the City of over thirty years, as follows:

January 23, 1884, to December 31, 1884, 11 months, 3 days.

January 1, 1885, to December 31, 1913, 29 years.

January 1, 1914, to May 31, 1914, 5 months.

Total, 30 years, 4 months, 3 days.

The present salary of the applicant is $5,000 per annum, which compensation he has received without interruption or modification since March 1, 1905.

In an affidavit dated June 10, 1914, Mr. Cook states that he has never filed a claim nor brought suit against the City for payment of salary or wages or for other claim. The affidavit is hereto attached.

We recommend the adoption of the accompanying resolution retiring Frederick S. Cook from active service and awarding and granting him an annuity of $1,750, being a sum less than 50% of his average annual rate of compensation for the last three years. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen, Committee on Salaries and Grades.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of sections 165, 166 and 167 of the Greater New York Charter, as amended by chapter 669 of the Laws of 1911 and chapter 479 of the Laws of 1912, and upon the recommendation of the Comptroller and the President of the Board of Aldermen, hereby retires from active service Frederick S. Cook, Division Engineer in the Department of Water Supply, Gas and Electricity, for the reason that he is physically incapacitated further to perform his duties as Division Engineer, and that the interests of the public service require such retirement, and hereby awards and grants to said Frederick S. Cook an annual sum or annuity of seventeen hundred and fifty dollars ($1,750), being a sum less than 50 per cent. of his average annual compensation for three years immediately preceding the taking effect of this resolution; this resolution to take effect upon the first day of the month following its adoption, subject to the execution by the annuitant of a general release; and be it further

Resolved, That the Comptroller of The City of New York be and he is hereby directed to pay said annuity to said Frederick S. Cook during his lifetime in equal monthly installments, out of the receipts of excise moneys or liquor taxes belonging to The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

From the Department of Finance.

Public Service Commission for the First District—Approval of Award of Contract for the Construction of Section 6A, Routes Nos. 4 and 38 of the 7th Avenue and Lexington Avenue Rapid Transit Railroad and Issue of Corporate Stock Therefor (Cal. No. 25).

(On May 22, 1914 (No. 85), a communication from the Public Service Commission requesting the Board to consent to the award of this contract and to authorize an issue of corporate stock to meet the requirements thereof was referred to the Comptroller and to the Bureau of Contract Supervision.)

The Secretary presented a report of the Comptroller, dated June 2, 1914, recommending that the Board of Estimate and Apportionment consent to a proposed contract between The City of New York and the Interborough Rapid Transit Company and the Holbrook, Cabot & Rollins Corporation for the construction of Section 6A, Routes 4 and 38, being that portion of the proposed Seventh Avenue-Lexington Avenue Rapid Transit Railroad which will connect the existing subway at 43rd street with the Seventh Avenue line now being constructed to the south, limiting the amount of bonds available and authorizing and directing the Comptroller to issue the necessary stock.

The Comptroller presented a communication from the Interborough Rapid Transit Company, dated June 18, 1914, objecting to the award of the contract and urging that no final action be taken by the Board until all questions that may arise as to the form of the bond or the competency of the contractor's sureties are finally disposed of.

Which were laid over for one week (June 26, 1914) under Rule 19.

The matter was also referred to the Corporation Counsel for report in one week on the objections raised by the Interborough Rapid Transit Company.

Department of Street Cleaning—Proposed Site for a Refuse Destructor, Borough of Queens (Cal. No. 26).

(On May 1, 1914 (Cal. No. 171), an ordinance adopted by the Board of Aldermen April 14, 1914, was presented and referred to the Comptroller and to the Chief Engineer of the Board, the reference to the Chief Engineer being under Rule 35.)

The Secretary presented a report of the Comptroller relative to the selection of a site for a refuse destructor for the Bureau of Street Cleaning, in the Borough of Queens, situated on the northerly side of Wainwright Court, between Beach 108th and Beach 109th Streets, and recommending, in view of the exorbitant price demanded by the owner of the property, that the Corporation Counsel be directed to institute condemnation proceedings for the acquisition of said property, title to vest in The City of New York one day after the filing of the oaths of the Commissioners of Estimate and Appraisal.

The Secretary also presented a report of the Chief Engineer of the Board (13813) stating that a tentative plan for this proposed site, which is located on the Jamaica Bay side of Rockaway Beach, has been approved by the Board, and that, while the proposed site extends from Wainwright Court to the bulkhead line and includes a portion of Beach 108th Street and Beach Channel Drive, the latter street is wholly under water, and it would seem advantageous to acquire the entire parcel at this time, with the understanding, however, that no structures be placed within the lines of streets which have been laid out.

Which were laid over for one week (June 26, 1914) under Rule 19.

Rescinding Resolution for Acquisition of Property on the Southerly Side of Jackson Avenue, Fifty Feet East of Queens Street, Long Island City, Borough of Queens, as a Site for a Carnegie Library (Cal. No. 27).

The Secretary presented the following report of the Comptroller recommending the rescission of the resolution adopted by the Board on July 11, 1912, approving the selection of this site:

City of New York, Department of Finance, Comptroller's Office, June 16, 1914.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—At a meeting of your Board held July 11, 1912, a resolution was adopted approving of the selection of certain premises on the southerly side of Jackson Avenue, 50 feet east of Queens Street, Long Island City, in the Borough of Queens, as a site for a Carnegie Library, and authorizing the Comptroller to enter into a contract for the acquisition of same at a price not exceeding $15,000.

It appears that the contract dated September 27, 1901, between The City of New York and the committee in charge of the erection of Carnegie Libraries in the Borough of Queens provides that the City shall acquire by purchase the necessary sites in the Borough of Queens on the approval of the said committee.

While these premises were selected by the Queensboro Public Library, the committee in charge of the erection of Carnegie Libraries in the Borough of Queens has disapproved of the location of this site.

I therefore respectfully recommend that the resolution adopted by your Board on July 11, 1912, be rescinded. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment July 11, 1912, as follows:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the selection and location of property on the southerly side of Jackson avenue, 50 feet east of Queens street, Borough of Queens, as a site for a Carnegie Library, bounded and described as follows:

"All those certain lots, pieces or parcels of land, situate, lying and being in Ward One (formerly Long Island City), Borough and County of Queens, City and State of New York, known as lots numbers three (3) and four (4) on Block four (4), on a certain map filed in the office of the Clerk of the County of Queens, and known as 'Map of property in the Second Ward of Long Island City, Queens County, N. Y., made by Peter G. Van Alst, City Surveyor, for James Thomson, Esq., of The City of New York, dated November 1, 1870,' and bounded and described as follows:

"Beginning at a point on the southerly side of Jackson avenue, distant 50 feet easterly from the corner formed by the intersection of the southerly side of Jackson avenue with the easterly side of Queens street; thence easterly along the said southerly side of Jackson avenue 50 feet; thence southerly parallel with Queens street 100 feet; thence westerly parallel with Jackson avenue 50 feet, and thence northerly parallel with Queens street 100 feet, to the said southerly side of Jackson avenue, the point or place of beginning; together with all the right, title and interest, if any, of the owner, of, in and to the avenue in front thereof to the centre thereof.

—"and authorizes the Comptroller to enter into a contract for the acquisition of said property, at private sale, at a price not exceeding fifteen thousand dollars ($15,000), said contract to be submitted to the Corporation Counsel for approval as to form."

—be and the same is hereby *rescinded.*

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Board of Assessors—Issue of Corporate Stock (Cal. No. 28).

The Secretary presented a report of the Comptroller recommending an issue of $84,100 corporate stock to provide for the payment of the awards made by the Board of Assessors in the matter of ascertaining the damages sustained by the owners of real property fronting upon the streets approaching the Manhattan Bridge, in the Borough of Manhattan.

Which was laid over for one week (June 26, 1914), under Rule 19.

Department of Education—Issue of Special Revenue Bonds (Cal. No. 29).

(On June 5, 1914 (No. 126-B), the resolution of the Board of Aldermen requesting the appropriation in this matter was referred to the Comptroller.)

The Secretary presented a report of the Comptroller recommending an issue of $500 special revenue bonds (subdivision 8, section 188 of the Charter) for the purpose of paying to Nathalie Boniface the difference between the salary at the rate of $1,200 and at the rate of $1,800 per annum from March 1, 1914, to December 31, 1914.

Which was laid over for one week (June 26, 1914), under Rule 19.

Queensboro Public Library—Issue of Special Revenue Bonds (Cal. No. 30).

(On May 28, 1914 (No. 193), a communication from the Secretary of the Queens Borough Public Library, requesting an appropriation in this matter, was referred to the Comptroller.)

The Secretary presented the communication above referred to; and the following report of the Comptroller, Chairman, Committee on Education, which was ordered filed:

City of New York, Department of Finance, Comptroller's Office, June 15, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On May 25th, 1914, the Trustees of the Queens Borough Public Library requested the Board of Estimate and Apportionment to issue special revenue bonds to the amount of $2,500 to provide funds for the binding of books in the Queens Borough Public Library. In connection therewith I report as follows:

It is stated that the work of the library is restricted at the present time on account of shortage of funds for binding. There are at hand a large number of unbound books which have been accumulating for several years. It appears that funds for this work might be obtained by transfer from Code 1553, Purchase of Equipment, General Plant Equipment, the Budget appropriation for which, aggregating $29,469, contains an allowance of $25,000 for the purchase of new books. A suggestion to this effect was offered in the course of the examination made for the purposes of this report. The Chief Librarian has agreed that the balance in this account is sufficient to permit of the transfer of $2,500. Funds might also be obtained through the issue of special revenue bonds to the amount of $2,500. In this event, application for their issue should be made by the Trustees of the Queens Borough Public Library to the Board of Aldermen.

I recommend that a copy of this report be forwarded to the Trustees of the Queens Borough Public Library. Respectfully,

WM. A. PRENDERGAST, Comptroller and Chairman, Committee on Education.

The Secretary was then directed to send a copy of the report to the Trustees of the Queensboro Public Library.

Board of Coroners, Borough of Manhattan—Issue of Special Revenue Bonds and Modification of Schedule (Cal. No. 31).

(On May 28, 1914 (No. 195A), the resolution of the Board of Aldermen requesting the issue of $750 special revenue bonds was presented and referred to the Comptroller.)

The Secretary presented a report of the Comptroller, recommending an issue of $750 special revenue bonds, subdivision 8, section 188 of the Charter, the proceeds to be used by the Board of Coroners, Borough of Manhattan, for the expense of moving the records, office furniture, etc., of the Coroner's Office to new offices in the Municipal Building, and also to provide for furnishings. Modification of Schedule No. 2940 to include said additional appropriation, is also recommended.

Which was laid over for one week (June 26, 1914) under Rule 19.

Department of Water Supply, Gas and Electricity—Modification of Schedule (Cal. No. 32).

The Secretary presented a communication from the Commissioner of Water Supply, Gas and Electricity, dated May 28, 1914, requesting the modification of a schedule for 1914; and the following report of the Comptroller recommending approval thereof:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 16, 1914.

To the Honorable Board of Estimate and Apportionment, City of New York:

Gentlemen—In a communication dated May 28, 1914, the Department of Water Supply, Gas and Electricity requested modification of account No. 2244TW, Contract or Open Order Service, General Repairs, Water Supply.

The purpose of the modification referred to is to increase the line "General" by $28,780 in order to provide the necessary funds for defraying the cost of certain urgent repairs and replacements in the several pumping stations, the amount being taken from the line "Relocating and Relaying Portions of 48-inch Distribution Mains in East New York Avenue, Borough of Brooklyn," found under the same code appropriation.

The adoption of the attached resolution approving the schedule, as revised, is hereby recommended. Respectfully submitted,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves the schedule, as revised, for the Department of Water Supply, Gas and Electricity for the year 1914, to take effect June 1, 1914, as follows:

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY.
Contracting or Open Order Service, General Repairs.

General	$92,780 00
Relocating and relaying portions of 48-inch distribution main in East New York avenue, Borough of Brooklyn	73,220 00
Improvement, Mt. Prospect Reservoir	6,000 00
Schedule total	$172,000 00
Tax levy allowance	$36,375 00
Water revenue allowance	135,625 00
Total allowance	$172,000 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

President, Borough of Richmond—Transfer of Appropriation and Modification of Schedules (Cal. No. 33).

The Secretary presented a communication from the President of the Borough of Richmond, dated May 22, 1914, requesting a transfer within the appropriation for said Department for 1914 and modification of schedules; and the following report of the Comptroller recommending approval thereof:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 16, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—In a communication dated May 22, 1914, the President of the Borough of Richmond requested modification of salary schedules involving the transfer of $43,235.01 within appropriations made for that office for the year 1914, on which it is reported as follows:

The increase and decrease in the accounts affected by the proposed transfer are reflected as follows:

FROM

Salaries, Regular Employees.

758TS	Engineering, Topographical	$34,735 01

Wages, Regular Employees.

767	Engineering, Topographical	8,500 00

TO

Salaries, Regular Employees.

756TCS	Engineering Construction	$34,735 01

Wages, Regular Employees.

765TCS	Engineering Construction	8,500 00

The transfer and modification of schedules is requested to permit the consolidation of the Topographical Division with the Engineering Construction Division, the same to take effect as of June 1, 1914.

The topographical force of the Borough of Richmond has been a separate division with a Principal Assistant Engineer in charge, and the Borough President states that it now seems to be advisable to consolidate it with the Engineering Construction Division. It is expected that the proposed reorganization will result in obtaining better supervision and control of the engineering staff. No increase or other change of salary is involved in the proposed change.

The adoption of the attached resolutions approving the proposed transfer and modification of schedules, as revised, is hereby recommended.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves transfer of funds appropriated to the office of the President of the Borough of Richmond for the year 1914, as follows:

FROM

Personal Service, Salaries, Regular Employees.

758TS	Engineering, Topographical	$34,735 01

Department of Education—Allotment of Sale of Products of Manhattan Trade School for Girls and Modification of Schedule (Cal. No. 34).

(On June 12, 1914 (No. 280), the request of the Board of Education in this matter was presented and referred to the Comptroller.)

The Secretary presented a resolution of the Board of Education, adopted June 10, 1914, requesting the allotment of $1,096.03, proceeds from the sale of products of the Manhattan Trade School for Girls, to the Special Trade School Fund; and the following report of the Comptroller, Chairman of the Committee on Education, recommending approval thereof and the modification of a schedule therefor:

City of New York, Department of Finance, Comptroller's Office, June 16, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On June 10, 1914, the Board of Education requested the appropriation of $1,096.03 realized from the sale of products of the Manhattan Trade School for Girls and paid into the City Treasury, to the Special Trade School Fund, pursuant to the provisions of section 1066 of the Greater New York Charter, as amended, by chapter 35 of the laws of 1913. The statute provides that all moneys realized from the sale of products of trade and truant schools shall at once be appropriated to the said fund for use in the Borough in which the property was sold.

I recommend the adoption of the attached resolutions granting the request and approving the schedule. Respectfully,

WILLIAM A. PRENDERGAST, Comptroller, and Chairman, Committee on Education.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 1066 of the Greater New York Charter, as amended, hereby appropriates one thousand and ninety-six dollars and three cents ($1,096.03), representing the proceeds of the sale of products of the Manhattan Trade School for Girls, to the Special Trade School Fund of the Borough of Manhattan, and transfer said moneys thereto from the suspense account entitled, "Sales of Property by Department of Education."

District Attorney, Queens County—Modification of Schedule (Cal. No. 35).

The Secretary presented the following report of the Comptroller:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 10, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—In a communication dated June 1, 1914, the District Attorney of Queens County requested $1,500 in special revenue bonds for extradition purposes and for emergency process servers, in reference to which it is reported as follows:

The District Attorney states that his office was allowed only $350 in the 1914 budget for extradition purposes in Account No. 3543 and that this sum was altogether inadequate for his needs. In this respect a balance now remains in that appropriation account of only $179.38, but against this balance there is outstanding to date a bill amounting to $390.72, which was incurred in the extradition of a fugitive to California.

Such expenses are obviously uncertain and varying, being of an emergency nature, but the District Attorney estimates that the sum of approximately $800 will be sufficient for such purposes for the remainder of the year.

The District Attorney further states that several murder cases will be tried in the Supreme Court of Queens County during the next month, and the County Court will also be kept in session the whole month of July in conjunction with the Court of Special Sessions on trial days which will call for the service of about 250 to 300 subpoenas a week, and it is physically impossible for three process servers of this office to serve anything like that number of subpoenas. In addition to these the District Attorney will require emergency process servers when the fall term of the Court opens so that it is essential that his office be provided with the necessary cash to pay the salaries of such employees, for which he estimates $700 will be ample for this purpose for the remainder of the year.

Subdivision 2, Section 240 of Article 15 of the County Law, reads as follows:

"All expenses necessarily incurred by the District Attorney in criminal actions or proceedings arising in his county, are county charges."

It appears from all the foregoing that the sum of $1,500 will be required to meet the anticipated expenditures referred to in the office of the District Attorney, Queens County, for the remainder of this year. Inasmuch as these are mandatory county charges provision for the payment of same will be made by the Comptroller, pursuant to the provisions of Subdivision 7, Section 188 of the Greater New York Charter.

The adoption of the attached resolution approving the schedules, as revised, to include the additional appropriation to be provided for by means of an issue of special revenue bonds, is hereby recommended.

Respectfully submitted, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves schedules, as revised, for the office of the District Attorney, Queens County, for the year 1914, as follows:

Troop F, First Cavalry, N. G., N. Y.—Modification of Schedule (Cal. No. 36).

The Secretary presented the following report of the Comptroller:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 16, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On May 17, 1914, the Commanding Officer of Troop F, First Cavalry, N. G., N. Y., requested that provision be made to provide for the compensation of three additional Laborers. In connection therewith it is reported as follows:

Section 188 of the Military Law provides in part as follows:

"For all armories in addition to the above there shall be allowed one laborer to each ten horses or mules therein stabled and used for military purposes by the organization quartered therein, and in armories where more than thirty horses or mules are so stabled and used, two additional laborers. In armories of the quartermaster corps and field artillery, in addition to the foregoing, there shall be allowed one laborer for said corps and for each battery of field artillery, for the care of field artillery, harness and equipment. Before any such appointment is made the necessity for the employment of such laborer or laborers shall be certified by the commanding officer of the division, of the naval militia or of the brigade, as the case may be, and such certificate shall be filed in the office of the disbursing officer of the county in which the armory or arsenal is situated."

In a communication dated May 16, 1914, the Commanding Officer states as follows:

"Pursuant to the provisions of section 188, Military Law, I hereby certify that the necessity exists for the employment of three additional Laborers to provide for the proper care of thirty-two horses stabled at the armory of Troop F, First Cavalry, N. G., N. Y., West Brighton, N. Y., said thirty-two horses are used for military purposes.

"JOHN G. EDDY, Brigadier General, Commanding Division, N. G., N. Y."

Under the provisions as quoted, the Commanding Officer is therefore authorized to employ three additional Laborers, the rate of compensation to be $3 per day, as provided by section 189 of the Military Law. The appointment of the three additional Laborers for Troop F, First Cavalry, N. G., N. Y., went into effect the following dates: May 21, 25 and 26, 1914. Request is made to provide for the payment of $1,998, the compensation from May 21, 25 and 26, respectively the date of the approval of the certificates by the Commanding Offficer to December 31, 1914.

Section 189 of the Military Law provides that such compensation shall be a county charge upon the county in which said armory or arsenal is situated." Provisions will accordingly be made by the Comptroller for the payments of the charges by means of an issue of special revenue bonds, pursuant to the provisions of subdivision 7 of section 188 of the Greater New York Charter.

The adoption of the attached resolution approving the request and modifying the wage schedule as revised to include three additional Laborers is hereby recommended.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the schedule, as revised, for the National Guard and Naval Militia, for the year 1914, to be effective as of May 21, 25 and 26, 1914, as follows:

NATIONAL GUARD AND NAVAL MILITIA, RICHMOND COUNTY.

Office of the Mayor—Transfer of Appropriation and Modification of Schedules (Cal. No. 37).

The Secretary presented a communication from the Office of the Mayor, dated June 4, 1914, requesting a transfer within the appropriation for said Department for 1914 and modification of schedules; and the following report of the Comptroller recommending approval thereof:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 13, 1914.

To the Board of Estimate and Apportionment, City of New York:

Gentlemen—In a communication dated June 4, 1914, the Secretary to the Mayor requested transfer of $315 within appropriations to that office for the year 1914. The increases and decreases in the accounts affected by the proposed transfer are reflected as follows:

FROM
Contract or Open Market Order Service.

64	General Repairs	$140 00
67	General Plant Service	175 00

TO

62	Supplies	$175 00
63	Purchase of Equipment	140 00

The purpose of the said transfer is to provide additional funds to meet the cost of supplies and equipment for furnishing and maintaining certain rooms in the Office of the Mayor, to which an increased force was assigned in the month of May, 1914.

A sufficient balance of funds remains available in the accounts referred to in order to admit of the proposed transfer. It is further stated that the balances in accounts Nos. 64 and 67, respectively, will not be required for the purposes for which they were originally appropriated for the current year.

The adoption of the attached resolutions approving the proposed transfers and schedules, as revised, is hereby recommended.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves transfer of funds appropriated to the Office of the Mayor for the year 1914, as follows:

President of the Borough of Queens—Transfer of Appropriation and Modification of Schedules (Cal. No. 38).

The Secretary presented a communication from the President of the Borough of Queens, dated May 20, 1914, requesting a transfer within the appropriation for said Department for 1914 and modification of schedules; and the following report of the Comptroller recommending approval thereof:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 11, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—In a communication dated May 20, 1914, the President of the Borough of Queens requested transfer of $700 within appropriations to his office for the year 1914, concerning which it is reported as follows:

The increases and decreases in the amounts affected by the proposed transfer are reflected as follows:

FROM
Purchase of Equipment, General Plant Equipment.

701	Care of Sewers and Sewage	$500 00

Contract or Open Order Service, General Repairs.

711	Care of Sewers and Sewage	200 00

709	General Plant Materials	$700 00

The above transfer of funds is requested to enable the Bureau of Sewers, in the office of the President of the Borough of Queens, to purchase the necessary materials for making repairs to sewage disposal plants at Jamaica, Newtown and Far Rockaway, L. I.

An examination of account No. 709, General Plant Materials, discloses an available balance of $49.90, which, however, is not considered sufficient to meet the needs of the Borough for the remainder of the current year.

The adoption of the attached resolutions approving the proposed transfer and modification of the schedules, as revised, is hereby recommended. Respectfully,

WM. A. PRENDERGAST, Comptroller.

The Secretary presented the following report of the Comptroller:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 12, 1914.

To the Board of Estimate and Apportionment, City of New York:

Gentlemen—Pursuant to section 237 of the charter and to the resolution of your board of January 23, 1914, $2,241.84 was transferred from the account entitled "C. B. H. 13—A, New Fordham Hospital, Improvements, Alterations, etc.," to the account entitled "C. F. M. 24, Moneys available for permanent improvements for which corporate stock may lawfully be issued."

On April 23, 1914, there was adjusted by this department a claim in favor of L. J. Wadsworth Construction Company, Inc., for $1,180, alleged to be due on Contract No. 30366 for construction of a workshop on the grounds of Fordham Hospital.

To provide for the payment of this claim it is desired to transfer the amount last mentioned from Account C. F. M. 24 to Account C. B. H. 13-A, and a resolution to that effect is hereto appended for your consideration.

Very truly yours, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That, pursuant to section 237 of the Greater New York Charter, as amended, the transfer by the Comptroller of $1,180 from the account entitled "C. F. M.—24, Moneys available for permanent improvements for which corporate stock may lawfully be issued" to the account entitled "C. B. H.—13A, New Fordham Hospital, Improvements, Alterations, etc.," to provide for the payment of a claim adjusted by the Department of Finance in favor of L. J. Wadsworth Construction Company for a balance alleged to be due on Contract 30366, for construction of a workshop on the grounds of Fordham Hospital, be and is hereby authorized and approved.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Public Charities—Transfer of Appropriation and Modification of Schedules (Cal. No. 40).

The Secretary presented a communication from the Commissioner of Public Charities, dated May 18, 1914, requesting a transfer within the appropriation for said Department for 1914; and the following report of the Comptroller recommending approval thereof:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 11, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—In a communication dated May 18, 1914, the Department of Public Charities requested approval of transfer of funds amounting to $27,420.75 from Contract and Open Market Order Service, General Repairs, Accounts Nos. 2015, 2016 and 2017, for the purpose of supplying the necessary funds to provide for payment of salaries for additional mechanics in the Bureau of Mechanics of that Department, for the year 1914.

The various institutions maintained by the Department of Public Charities comprise about 320 buildings. There are also 21 piers and 7 boats under the jurisdiction of that Department.

The headquarters of the Bureau of Mechanics are situated on Blackwells Island, where a storehouse and a number of shops are also located. This Bureau is maintained chiefly for the purpose of making minor repairs in the various institutions of an emergency character.

At the present time there are 49 mechanics on the payroll of the Bureau of Mechanics who are distributed throughout the several institutions of the Department and who are liable to be transferred whenever the necessity arises. The request involves the employment of 35 additional mechanics, who are included in the following list as compared with the present force:

	Present Force.	Additional Force Requested.
Machinist	..	2
Carpenter	14	5
Painter	14	8
Steam Fitter	5	6
Plumber	7	4
Electrician	5	4
Mason	1	2
Tinsmith	1	3
Blacksmith	1	1
Foreman of Laborers	1	..
	49	35

The present payroll for the 49 men on the annual basis is $67,159.50, and on the same basis the increase requested would amount to $47,594.20, or a total charge of $114,753.70 per annum. The appropriation for 1914 for "General Repairs on Contract or Open Market Order" Accounts Nos. 2015, 2016 and 2017 amounts to $86,750, which Mr. J. J. Herrick, Chief Engineer of the Department of Public Charities, states would be reduced by an amount corresponding with the increase in the payroll, so that no anticipated additional charges in future appropriations are involved.

The Department of Public Charities has not supported the request referred to by submitting any statement of economies anticipated by the changes referred to, but Mr. J. J. Herrick, the Chief Engineer of that Department stated to a representative of the Bureau of Municipal Investigations and Statistics that it was his opinion that with the increased force, the Bureau of Mechanics would be able to handle a considerable proportion of the work which is now let out on contract or open market order, thereby saving the contractors' profits with the additional advantage of having the work more promptly and efficiently executed. Mr. Herrick further stated that all the large private corporations maintain repair gangs and do not let out their repair work on contracts or otherwise and there was no reason why the City could not do the same to advantage.

As regards the foregoing statements, according to Mr. Herrick's own admissions the plan is purely experimental and the anticipated results are based to a great extent on his experience in the Department of Docks and Ferries.

The Board of Education maintains shops in the Borough of Brooklyn and employs about 35 mechanics. Mr. H. M. Devoe, the Deputy Superintendent of Buildings there, stated that it was very desirable from an economical point of view to have a force of men to promptly make necessary small repairs, thus obviating the inconvenience of waiting until bids are received from contractors and awards made. Whether or not the same conditions would equally apply to the handling of large jobs by departmental labor was stated to be purely problematical and depended largely upon the character of administration given by the man in charge of the mechanics.

In connection with the transfer, as requested, attention is directed to the following resolution adopted by the Board of Estimate and Apportionment for the 1914 budget:

"(g) That no transfers shall be made from any of the appropriations made herein under any classification other than 'Personal Service' to any appropriation classified as 'Personal Service,' except in cases where the title of appropriation specifically provides for transfers herein forbidden, or in cases where appropriations were made under the classification of 'General Repairs,' if, upon the written statement of the Department Head, the Board of Estimate and Apportionment finds that the repair work can be done more economically by departmental labor."

At a conference held in connection with this request between the representative of the Comptroller and the officials of the department, the Commissioner of Public Charities urged that the proposed change would result in saving the delay in making repairs which is now due to the insufficiency in the number of mechanics employed. It was therefore determined to afford the department an opportunity to try out the plan for the balance of this year, commencing July 1, 1914, with the understanding that careful records were to be kept of the expenditures incurred in this connection, and such records were to be presented to the Comptroller for the months of July, August and September, upon which showing the Budget Committee would determine whether the policy thus inaugurated should be continued after this year.

The adoption of the attached resolutions approving the proposed transfer and modifying the schedules as revised, is recommended accordingly.

Respectfully submitted, WM. A. PRENDERGAST, Comptroller.

Department of Correction—Transfer of Appropriation and Modification of Schedules (Cal. No. 41).

The Secretary presented a communication from the Commissioner of Correction, dated June 5, 1914, requesting a transfer within the appropriation for said Department for 1914, and modification of schedules; and the following report of the Comptroller recommending approval thereof:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 16, 1914.

To the Honorable Board of Estimate and Apportionment, City of New York:

Gentlemen—In a communication dated June 5, 1914, the Department of Correction requested transfer of funds within appropriation for the year 1914 of $500. The increase and decrease in the amounts affected by the proposed transfer are reflected as follows:

FROM

Purchase of Equipment.

2664 Wearing Apparel $500 00

TO

Purchase of Equipment.

2660 Household Equipment $500 00

The present available balance in Account No. 2660 is $88.55, but in order to meet the immediate needs of the department a further sum of about $240 is required to replenish the said account.

It is estimated that the transfer herein requested will be sufficient to meet the foregoing expenditure, and at the same time leave an available balance to meet unknown contingencies to be charged up to the account referred to for the remainder of the year.

A sufficient balance remains in Account No. 2664 to admit of the proposed transfer.

The adoption of the attached resolutions approving the proposed transfer and schedules as revised is hereby recommended. Respectfully submitted,

WM. A. PRENDERGAST, Comptroller.

Board of Aldermen and City Clerk; Debt Service—Transfer of Appropriation and Approval of Schedule (Cal. No. 42).

The Secretary presented the following report of the Comptroller:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 16, 1914.

To the Honorable Board of Estimate and Apportionment, City of New York:

Gentlemen—As the budget of 1914 makes no provision for the expenses of the Committee on Revision of the Building Code, recently organized under the Board of Aldermen, it is proposed to obtain funds by transfer from another account, to be replenished later, if necessary, by the issue of special revenue bonds. The allotment suggested is as follows:

Secretary (fixed payment for services)	$3,000 00
Stenographer (annual rate), for seven months	1,050 00
Miscellaneous expenses	950 00
	$5,000 00

The account entitled "3016—Fixed Charges and Contributions—Interest—Interest on Revenue Bonds and Revenue Bills" contains a sufficient unencumbered balance to permit, as authorized by section 237 of the charter, the transfer indicated in the appended resolution, whose adoption is accordingly recommended.

Very truly yours, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves the transfer of funds for the year 1914 as follows:

President, Borough of Brooklyn—Transfer of Appropriation and Modification of Schedules (Cal. No. 43).

The Secretary presented a communication from the Commissioner of Public Works, Borough of Brooklyn, dated June 8, 1914, requesting a transfer within the appropriation for said office for 1914, and modification of schedules; and the following report of the Comptroller, recommending approval thereof:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 16, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—In a communication dated June 8, 1914, the President of the Borough of Brooklyn requested transfer of $995 within appropriations to that office for the year 1914. The increase and decrease of the amounts affected by the proposed transfer are reflected as follows:

FROM
Purchase of Equipment, General Plant Equipment.

597	Care of Sewers	$995 00

TO
Purchase of Equipment.

594	Motor Vehicles and Equipment	$995 00

The transfer is requested to provide funds to be used in part payment of a new Haynes automobile to be used by the Superintendent and the Chief Engineer of the Bureau of Sewers, President of the Borough of Brooklyn. The automobile at present used by these officials is a Cadillac, which was purchased second-hand early in 1912 for the sum of $850. The factory number of this car is 43,919, and it is reported by the Bureau of Sewers to the Department of Finance in the inventory of equipment dated January 1, 1913, as having a value of $400 and an estimated life of one year. It is proposed to purchase a new Haynes car for $1,750, the old Cadillac to be taken in exchange at an estimated value of $755, leaving a cash balance of $995, which sum is provided for in Account No. 594 after the proposed transfer has been approved.

Pursuant to a resolution of the Commissioners of the Sinking Fund, adopted on February 26, 1913, formulating rules governing the exchange of personal property, the Comptroller has given his approval to the aforesaid transaction in a letter dated June 4, 1914.

The adoption of the attached resolutions approving the proposed transfer and schedules, as revised, is hereby recommended.

Respectfully submitted, WM. A. PRENDERGAST, Comptroller.

Police Department—Transfer of Appropriation and Modification of Schedules (Cal. No. 44).

The Secretary presented a communication from the Police Commissioner, dated June 8, 1914, requesting a transfer within the appropriation for said Department for 1914, and modification of schedules; and the following report of the Comptroller recommending approval thereof.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 12, 1914.

To the Board of Estimate and Apportionment, City of New York:

Gentlemen—In a communication dated June 8, 1914, the Police Department requested transfer of $1,600 within appropriation to that Department for the year 1914. The increases and decreases in the accounts effected by the proposed transfer are reflected as follows:

It is proposed to transfer $1,600 from "Purchase of Equipment, Account No. 1620, Live Stock," to "Purchase of Equipment, Account No. 1621, Motor Vehicles and Equipment," for the purpose of providing funds for the purchase of additional motor cycles for use in the Department referred to.

The adoption of the attached resolutions approving the proposed transfer and modification of the schedules as revised, is hereby recommended.

Respectfully submitted, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves of transfer of funds appropriated to the Police Department for the year 1914, as follows:

President, Borough of The Bronx—Issue of Special Revenue Bonds and Modification of Schedule (Cal. No. 45).

(On June 5, 1914 (126C), the resolution of the Board of Aldermen requesting appropriation in this matter was presented and referred to the Comptroller.)

The Secretary presented a report of the Comptoller, dated June 16, 1914, recommending an issue of $840 special revenue bonds (subdivision 8, section 188 of the Charter), the proceeds to be used by the President of the Borough of The Bronx for the purpose of providing funds for the employment of two Elevatormen in the new Bronx County Court House from July 1 to December 31, 1914, inclusive, also recommending approval of schedule No. 460¾, as revised, to include the additional allowance.

Which was laid over for one week (June 26, 1914), under Rule 19.

Department of Public Charities—Transfer of Appropriation and Modification of Schedules (Cal. No. 46).

The Secretary presented a communication from the Department of Public Charities, dated May 27, 1914, requesting a transfer within the appropriation for said Department for 1914 and modification of schedules; and the following report of the Comptroller, recommending approval thereof:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 16, 1914.

To the Board of Estimate and Apportionment, City of New York:

Gentlemen—In a communication dated May 27, 1914, the Department of Public Charities requested transfers within appropriations to that Department for the year 1914. The increases and decreases in the accounts affected by the proposed transfer are reflected as follows:

FROM
Medical and Surgical Supplies.

1989	Preparation and Distribution of Drugs and Disinfectants	$1,500 00

Materials.

2012	Highway Materials	2,500 00

TO
Medical and Surgical Supplies.

1990	Care for Dependents	$3,000 00

General Plant Equipment.

2010	Institutional Care for Dependents	1,000 00

The purpose of the proposed transfer is to secure funds in accounts Nos. 1990 and 2010, in which the original appropriation has proved to be insufficient by reason of emergency expenses having been charged which were not anticipated at the time of making the 1914 Budget appropriations.

Sufficient balances of funds remain in the accounts to be debited to admit of the proposed transfers. No increase in the appropriations of the Department is involved in these transfers.

The adoption of the attached resolutions approving the proposed transfer and the schedules as revised is hereby recommended. Yours respectfully,

WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 237 of the Greater New York Charter, hereby approves of the transfer of funds appropriated to the Department of Public Charities for the year 1914, as follows:

Board of Coroners, Borough of Brooklyn—Claim of Isaac Reizenstein (Cal. No. 47).

The Secretary presented the following report of the Deputy and Acting Comptroller:

City of New York, Department of Finance, Comptroller's Office, June 12, 1914.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen—Under and pursuant to the provisions of Section 246 of the Greater New York Charter, being Chapter 601 of the Laws of 1907 of the State of New York, as amended, entitled "An Act to amend the Greater New York Charter in relation to the powers of the Board of Estimate and Apportionment," I hereby certify that a claim has been presented by Isaac Reizenstein for the sum of $95, which is alleged to be due for services as an expert Interpreter before Coroners Glinnen and Rooney in the Borough of Brooklyn, during October, November and December, 1913; that no action has been instituted on this claim; that said services appear to have been necessary and were performed under the authorized directions of said Coroners; that the same were furnished in good faith and actually received by said Coroners and the City; that the prices charged are just and reasonable and at the rate allowed by law to the extent of $95.00; that the appropriation for the year 1913, "Board of Coroners, Brooklyn, Wages Temporary Employees, Interpreters, 1996—1913," from which said claim should be paid has no funds remaining therein with which to pay said claim; that, therefore, this claim is illegal and invalid against The City of New York, but notwithstanding in my judgment it is equitable and proper for the City to pay said claim in the sum of $95, it being for services at the authorized rate of $5 per day for nineteen days, without profit or interest, inasmuch as the City has received a benfit and derived an advantage which in money value is equal to such sum and that $95 is the amount which should be paid in full satisfaction of said claim, from the fund "Revenue Bond Fund for Claims, Miscellaneous, Code No. R. C. L. 11." Respectfully,

ALEX. BROUGH, Deputy and Acting Comptroller.

The following resolution was offered:

Resolved, That pursuant to section 246 of the Greater New York Charter, being chapter 601 of the Laws of 1907, as amended, the Board of Estimate and Apportion-

ment hereby determines that the City has received a benefit from Isaac Reizenstein, and is justly and equitably obligated to pay without interest, the sum of $95.00 for services as an Expert Interpreter furnished the Board of Coroners, Brooklyn, during October, November and December, 1913; that the said sum shall be paid in full satisfaction of the claim which has been presented on behalf of Isaac Reizenstein for his services as an Expert Interpreter as above mentioned; that the interests of the City will be best subserved by the payment thereof, and that said sum shall be paid only upon the execution by said claimant of a full release in favor of the City in such form as may be approved by the Corporation Counsel, and the Comptroller is hereby authorized to pay said claim in the sum of $95.00 from the fund "Revenue Bond Fund for Claims, Miscellaneous, Code R. C. L. 11."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Finance—Transfers to and from the General Fund for the Reduction of Taxation (Cal. No. 48).

The Secretary presented a report of the Comptroller, submitting statements prepared by the Bureau of Municipal Investigation and Statistics, Department of Finance, showing the unencumbered balances of appropriations for several years past available for transfer to the General Fund, as follows:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 16, 1914.

To the Board of Estimate and Apportionment, City of New York:

Gentlemen—On April 28, 1913, there was reported to your Board, pursuant to section 237 of the City Charter, the unencumbered balances in the appropriation accounts of 1912 and prior years, and in the special revenue bond funds available for transfer to the general fund of the City for the reduction of taxation. That transfer was based upon the departmental reports of February 28, 1913. It was deemed best, however, to base the transfer of 1914 upon the departmental reports of March 31, 1914. This for the reason that the additional time allowed the departments in which to state their unencumbered balances available for transfer to the general fund enabled them to clear up more of their outstanding liabilities and to make more accurate and complete statements of the amounts to be transferred.

The general transfers of 1912 and 1913 to the general fund were as follows:

1912	$3,011,282 75
1913	4,060,082 23

while the amount it is proposed to similarly transfer in 1914 is but $1,695,207.01. Part of the decrease is probably due to a closer fitting of the tax budget allowances to departmental needs; but aside from that, a number of transfers to the general fund and to the General School Fund were made subsequent to the general transfer recommended on April 28, 1913, which would ordinarily have appeared in the transfer now contemplated. These transfers were:

To General School Fund, October 16, 1913	$299,337 03
To General Fund, October 30, 1913	16,846 99
To General Fund, December 1, 1913	309,776 68
To General Fund, January 9, 1914	75,854 85
Total	$701,815 55

As in the two last general transfers to the General Fund, it has been found necessary to make a retransfer from the General Fund to provide for deficits which developed in certain accounts after the supposedly unencumbered balances whereof had been transferred to the General Fund. The retransfers recommended in this report aggregate $10,806.57.

Herewith submitted for your consideration are two resolutions and two statements prepared by the Bureau of Municipal Investigation and Statistics of the Department of Finance showing:

(1) The unencumbered balances of appropriations for the years 1899 to 1913, inclusive, and the unencumbered balances in special revenue bond funds, heretofore authorized, aggregating one million six hundred and ninety-five thousand and two hundred and seven dollars and one cent ($1,695,207.01), which the departments having jurisdiction over them report as no longer needed and therefore available for transfer to the General Fund of the City for the Reduction of Taxation, pursuant to section 237 of the City Charter.

(2) The amount it is desired to retransfer from the General Fund of the City for the Reduction of Taxation to cover deficits in the various accounts stated, arising mainly out of the receipt of vouchers there against subsequent to the transfer to the General Fund of balances appropriate for their payment. In all instances where retransfers are sought, there have been previously transferred to the General Fund for the Reduction of Taxation from similar accounts of the same year or from the same revenue bond fund sums sufficient to cover the retransfers it is proposed to effect by the resolution herewith.

(3) The amount recommended to be transferred to the General Fund set forth by departments and by years.

(4) The amounts made available for transfer to the General Fund from schedule controlled appropriations for salaries and wages for the years 1908, 1909, 1910, 1911, 1912 and 1913.

Respectfully submitted, WM. A. PRENDERGAST, Comptroller.

Tabulation Showing by Departments the Amounts Contained in the Statement of Unencumbered Cash Balances in Appropriation Accounts, 1899 to 1913, Inclusive, and Special Revenue Bond Funds, Submitted by the Comptroller to the Board of Estimate and Apportionment Under Date of June 16, 1914.

*The 1909 figures amounted to $1,081,784.34. Not entered in detail for want of space.

**Prior to 1910 the maintenance expenditures of the Department of Docks and Ferries were paid from the proceeds of the sale of corporate stock, hence the reason for no balance for the years 1908 and 1909.

†Balances in the salary and wages accounts of the Department of Street Cleaning are now transferred to the credit of the Pension Fund of that Department.

The following resolution was offered.

Resolved, That the transfer by the Comptroller to the General Fund of the City for the Reduction of Taxation of the following unexpended and unencumbered cash balances in appropriations for various years from 1899 to 1913, inclusive, and unexpended and unencumbered cash balances in special revenue bond funds heretofore authorized, the purposes for which said authorizations were made having been accomplished, be and the same is hereby approved, pursuant to section 237 of the Greater New York Charter, the same amounting in the aggregate to the sum of one million six hundred ninety-five thousand and two hundred and seven dollars and one cent ($1,695,207.01).

President, Borough of Manhattan—Issue of Corporate Stock (Cal. No. 49).

(On June 5, 1914 (No. 126D), and on June 12, 1914 (Cal. No. 152D), the resolution of the Board of Aldermen, adopted May 26, 1914, was presented and referred to the Comptroller.)

The Secretary presented the following report of the Comptroller recommending that the request contained in the resolution of the Board of Aldermen, adopted May 26, 1914, for an issue of $25,000 special revenue bonds (subdiv. 8, sec. 188 of the Charter), the proceeds to be used by the President of the Borough of Manhattan for the purpose of making additional repairs to Washington Market, with a view to increasing the floor space in the building, be referred to the Committee on Corporate Stock Budget for consideration, together with a copy of this report.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 16, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On May 26, 1914, the Board of Aldermen adopted the following resolution:

"Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of twenty-five thousand dollars ($25,000), the proceeds whereof to be used by the President of the Borough of Manhattan for the purpose of additional repairs to Washington Market, with a view of increasing the floor space in the building.

"All obligations contracted for hereunder to be incurred on or before December 31, 1914."

The foregoing resolution was referred to the Comptroller on June 12, 1914, by your Board for examination and report. As a result of the examination thus made I respectfully submit the following statement:

The project for which the requested issue of special revenue bonds is desired contemplates the construction of a mezzanine floor about twenty-five feet wide along the four sides of Washington Market, about twelve feet above the main floor, an aggregate length of about six hundred and eighty feet, exclusive of a space of about sixty feet occupied by the refrigerating plant; the erection of an iron plate and railing along the outer side of the mezzanine floor; the construction of two stairways, and the installation of two electrically operated freight elevators from the main floor to the mezzanine floor; also the providing of a water supply and drainage system, besides electric wiring and piping for gas; all for the accommodation of prospective tenants of the new area to be provided by the proposed improvement. The mezzanine floor is to be supported by steel "I" beams, to be fastened to the existing columns, and is to be formed of a combination of steel "I" beams and reinforced concrete.

A representative of the Bureau of Municipal Investigation and Statistics has investigated the various essential factors relative to the foregoing, and finds that the proposed work is practicable, that the existing columns and their foundations will not be unduly stressed by the added weight of the mezzanine floor, and that the estimated cost of the proposed work ($25,000) is reasonable.

The new floor area to be created by the proposed improvement will be about fifteen thousand square feet, exclusive of openings for stairways and elevators. Assuming that one-quarter of said area will be required for aisles, there would remain available for renting an area of about eleven thousand two hundred and fifty square feet. If this area can be rented at a rate of one dollar per square foot per annum, which rate is believed to be reasonable, the income arising therefrom would justify the proposed work as a desirable measure for so increasing the revenue as to greatly reduce the loss incurred by the maintenance and operation of Washington Market.

There are now three contracts in progress for the improvement of Washington Market as follows:

1.	(No. 38140) For the installation of a water supply and drainage system	$6,478 00
2.	(No. 38142) For the construction of floor, counter fronts, etc.	19,915 00
3.	(No. 39599) For the construction and installation of a refrigerating plant, etc.	22,450 00
	Work in progress, total	$48,843 00
	Proposed mezzanine floor, etc., estimated cost	25,000 00
	Work in progress, and estimated proposed work for improvement of Washington Market, total	$73,843 00

Contracts 1 and 2, above noted, are charged to budgetary appropriation of 1913, President Manhattan, Code "2805, Care of Public Buildings and Offices—Repairing—Office Buildings." Contract 3, above noted, is charged to the corporate stock fund entitled: "C. P. M.-32A, Installation of Refrigerating Plant at Washington Market, Borough of Manhattan." Practically all of the work to be performed under said contracts is for new construction, the element of repairs to the existing structure and appurtenances being relatively a small factor, and merely incidental to the building and installation of the new improvements.

If all of the hereinbefore described work is carried out, it is probable that after such work shall have been completed, the assessed valuation of the building will be increased to the extent of about eighty per cent of the total cost of the improvements ($73,843.00), thus making the increase in valuation about fifty-nine thousand dollars ($59,000), which added to the present assessed valuation of the building ($75,000), would make the probable new assessed valuation of the structure amount to about one hundred and thirty-four thousand dollars ($134,000).

With all of the proposed improvements effected, it is likely that the operating expenses of Washington Market will be practically the same as for the year 1913, inasmuch as the cost of taking care of the increased floor space, and of the new appurtenances, will be offset by the decrease which is to be expected in the matter of repairs and replacements.

In view of the foregoing, the following approximate estimate of the cost of maintaining and operating the improved Washington Market is presented:

Assessed valuation of land	$950,000 00
Assessed valuation of building	134,000 00
Total assessed valuation	$1,084,000 00
Carrying Charges—	
Interest on assessed valuation at 4%	$43,360 00
Loss of taxes at $1.78	19,295 20
Depreciation and obsolescence of building at 2%	2,680 00
Operating Expenses	6,500 00
Estimated cost, maintenance and operation of improved Washington Market	$71,835 20

This amount ($71,835.20), or, in round figures, seventy-two thousand dollars ($72,000), is the measure of the rentals which the market should produce in order that it should not be run at a loss.

Whether rentals to the desired amount can be obtained is a question which can only be determined in the future. It is evident, however, that the revenue produced by the improved Washington Market will more nearly approximate the requisite amount of the rentable area if increased by constructing the proposed mezzanine floor.

In view of the foregoing statements and particularly considering the fact that existing commitments for improving Washington Market amount to forty-eight thousand eight hundred and forty-three dollars ($48,843), and, in order to secure as large a return as possible on the investment, it is recommended that the construction of the mezzanine floor, and the work incidental thereto be approved, and that an appropriation of twenty-five thousand dollars ($25,000) be made to defray the cost of the undertaking.

Inasmuch as the proposed construction is of the nature of a permanent improvement, which will be an integral part of the Washington Market structure, increasing its floor space, and consequently its revenue producing capability, it is work which appropriately should be paid for from a corporate stock fund; in view whereof, it is, therefore, further recommended that the request of the Board of Aldermen that the Comptroller be authorized "to issue special revenue bonds to the amount of twenty-five thousand dollars ($25,000), the proceeds whereof to be used by the President of the Borough of Manhattan for the purpose of additional repairs to Washington Market, with a view of increasing the floor space in the building," *be denied.*

In consideration of the facts hereinbefore recited, regarding contracts now under way for improving Washington Market, and the desirability of having the mezzanine floor construction, and work incidental thereto, under way as soon as possible, so as to have all the contract work completed at the earliest date practicable, thereby allowing the marketmen, who are now housed in temporary structures along the outside of the walls of the market on Fulton, Washington and Vesey streets, to occupy the improved market building without undue delay, it is further recommended that corporate stock be issued to an amount not exceeding twenty-five thousand dollars ($25,000) for the purpose of paying the cost of constructing a mezzanine floor and all work incidental thereto, in Washington Market, located between Fulton, Vesey, Washington and West streets, Borough of Manhattan.

Respectfully submitted, WM. A. PRENDERGAST, Comptroller.

The President of the Borough of Manhattan stated the improvement was of a very urgent nature and asked for the suspension of Rule 19 in connection with the matter.

Which was unanimously agreed to.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding twenty-five thousand dollars ($25,000), to provide means for the construction of a mezzanine floor, stairways, freight elevators, railings and work incidental thereto, in Washington Market, under the jurisdiction of the President of the Borough of Manhattan, and when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

From Bureaus of Board.

Bureau of Contract Supervision.

President, Borough of Manhattan—Approval of Contract, Specifications, Etc. (Cal. No. 50).

The Secretary presented a communication from the Assistant Commissioner of Public Works, Borough of Manhattan, dated June 6, 1914, requesting approval of contract, plans, etc., at an estimated cost of $7,500 for the reconstruction of a sewer in East 38th St., between 1st avenue and East River, Manhattan; and the following report of the Bureau of Contract Supervision:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 16, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On June 8, 1914, you referred to the Bureau of Contract Supervision a communication from the Assistant Commissioner of Public Works, Borough of Manhattan, dated June 6, 1914, requesting approval of the form of contract, plans, specifications and estimate of cost in the sum of $7,500 for the reconstruction of a sewer in East 38th street, between 1st avenue and East River, Manhattan.

The cost of this work is to be charged to the corporate stock fund entitled "C.P.M.—32, Reconstruction of Sewers, Borough of Manhattan."

An appropriation of $50,000 for the fund was approved by the Board of Estimate and Apportionment on July 17, 1911, and by the Board of Aldermen on July 25, 1911.

On June 13, 1914, there remained an unencumbered balance of $32,804.45 in the fund.

Under this contract it is proposed to construct a 5-foot circular brick sewer in place of the present timber structure, which is completely worn out, rendering the street dangerous and impassable. On March 31, 1914, a portion of this sewer caved in under the weight of a six-ton coal truck.

The proposed reconstruction extends from the bulkhead wall, 174 feet west to the end of the present 4 feet by 2 feet 8 inches brick sewer.

The purpose of enlarging the sewer is to provide for a future change in the distribution of the sewage now discharged through the 38th street and 33rd street sewers.

The form of contract, plans and specifications are satisfactory.

It is reported to me that $5,700 is a reasonable estimate of cost for this work.

I recommend that the request be approved at an estimate of cost of $5,700 by the adoption of the attached resolution.

Respectfully, TILDEN ADAMSON, Director.

The President of the Borough of Manhattan moved that he be allowed $6,500 to do the work, which motion was adopted.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution of July 11, 1912, hereby approves the form of contract, plans and specifications for the reconstruction of sewer in East 38th street, between East river and 1st avenue, Manhattan, under the jurisdiction of the President of the Borough of Manhattan, at an estimated cost of six thousand five hundred dollars ($6,500), the cost to be charged to corporate stock fund entitled "C. P. M.—32 Reconstruction of Sewers, Borough of Manhattan."

If no bids are received for such work within such estimated cost, the amount of such estimated cost upon the bids so received may be reconsidered, in its discretion, by the Board of Estimate and Apportionment, or any official acting in its behalf, provided that any of said bids is within the amount authorized and available for such work.

Which was adopted by the following vote:

Affirmative—The Mayor, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—13.

Negative—The Comptroller—3.

Department of Water Supply, Gas and Electricity—Approval of Contract, Specifications, Etc. (Cal. No. 51).

The Secretary presented a communication from the Deputy and Acting Commissioner of Water Supply, Gas & Electricity, dated May 28th, 1914, requesting approval of form of contract, plans, specifications, etc., at an estimated cost of $6,358, for transferring taps and re-arranging connections on existing water mains in various streets in the Borough of Manhattan; and the following report of the Bureau of Contract Supervision:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 10, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On June 1, 1914, the Bureau of Contract Supervision received a communication dated May 28, 1914, from the Deputy and Acting Commissioner of the Department of Water Supply, Gas and Electricity dated May 28, 1914, requesting approval of a form of contract, plans and specifications for transferring taps and rearranging connections on existing water mains in various streets in the Borough of Manhattan, at an estimated cost of $6,358.

The cost of this work is chargeable to corporate stock fund entitled "C. D. W., 13Q, Water Fund, Borough of Manhattan, Changing Service Taps in Various Streets."

On May 28, 1914, the Board of Estimate and Apportionment authorized an appropriation of $10,000 for this fund. On June 6, 1914, there was an unencumbered balance in this fund of $10,000.

The form of contract is suitable, the specifications are definite and competitive and the estimate of cost is reasonable.

I recommend the adoption of the attached resolution granting the request.

Respectfully, TILDEN ADAMSON, Director.

Department of Water Supply, Gas and Electricity—Approval of Contract, Specifications, Etc. (Cal. No. 52).

The Secretary presented a communication from the Deputy and Acting Commissioner of Water Supply, Gas and Electricity dated May 28, 1914, requesting approval of plans, specifications, etc., at an estimated cost of $13,200 for hauling and laying water mains and appurtenances in Glebe avenue and various other avenues in the Borough of The Bronx; and the following report of the Bureau of Contract Supervision:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 10, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On June 1, 1914, the Bureau of Contract Supervision received a communication dated May 28th from the Deputy and Acting Commissioner of Water Supply, Gas and Electricity, dated May 28, 1914, requesting approval of the form of contract, plans and specifications for hauling and laying water mains and appurtenances in Glebe, Mount Vernon, Ryer, St. Raymonds and Tremont avenues, in Barretto, Dorsey and East 178th streets, in Gouverneur place, in McKinley square and in Weiher court, Borough of The Bronx, at a total estimated cost of $13,200. Of this amount $2,000 is to cover work east of the Bronx River and is chargeable to Corporate Stock Fund "C. D. W.—15A, Water Fund, East of the Bronx;" $10,400 is to cover work west of the Bronx River and is chargeable to Corporate Stock Fund "C. D. W.—13F, Water Fund, Boroughs of Manhattan and The Bronx, Additional Small Distribution Mains."

On July 2, 1909, the Board of Estimate and Apportionment authorized an appropriation of $406,100 for the Corporate Stock Fund "C. D. W.—15A, Water Fund, East of The Bronx," which was concurred in by the Board of Aldermen on July 13, 1909. On June 6, 1914, the unencumbered balance in this fund was $9,585.47. On April 17, 1913, the Board of Estimate and Apportionment authorized an appropriation of $50,000 for the Corporate Stock Fund "13F, Water Fund, Boroughs of Manhattan and The Bronx, Additional Small Distribution Mains," which was concurred in by the Board of Aldermen on May 6, 1913. On June 6, 1914, the unencumbered balance in this fund was $13,643.38.

The proposed extensions to the water distribution system are reasonable. The form of contract is suitable, the specifications are definite and competitive, and the estimate of cost is based on recent bid prices for similar work.

I recommend the adoption of the attached resolution granting the request.

Respectfully, TILDEN ADAMSON, Director.

The Secretary presented a communication from the Deputy and Acting Commissioner of Water Supply, Gas and Electricity, dated May 27, 1914, requesting approval of contract, plans and specifications, at an estimated cost of $10,239, for hauling and laying water mains and appurtenances in certain streets in the Borough of Brooklyn; and the following report of the Bureau of Contract Supervision:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 11, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On May 29, 1914, you referred to the Bureau of Contract Supervision a communication from the Deputy and Acting Commissioner of Water Supply, Gas and Electricity, dated May 27, 1914, requesting approval of a form of contract, plans and specifications for "hauling and laying water mains and appurtenances in Amboy, Douglass, Grafton, Hemlock, Junius, President and Union streets; in Hopkinson, Howard, Newport and Williams avenues; and in Sterling Place, Borough of Brooklyn, at an estimated cost of $10,239.

The cost of this work is chargeable to the corporate stock fund "C. D. W.-28, Water Supply System, Borough of Brooklyn, Extension of Distribution, for small mains."

On April 17, 1913, the Board of Estimate and Apportionment authorized an appropriation of $200,000 for this fund, which was concurred in by the Board of Aldermen on May 6, 1913. On June 6, 1914, the unencumbered balance in the fund was $15,203.50.

The proposed extensions of the distribution system are reasonable, the form of contract is suitable, the specifications are definite and competitive and the estimate of cost is based on recent bid prices for similar work.

I recommend the adoption of the attached resolution, granting the request.

Respectfully, TILDEN ADAMSON, Director.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves the form of contracts, plans and specifications and estimate of cost in the amount of $10,239 for hauling and laying water mains and appurtenances in Amboy, Douglas, Grafton, Hemlock, Junius, President and Union streets; in Hopkinson, Howard, Newport and Williams avenues; and in Sterling place, Borough of Brooklyn, under the jurisdiction of the Department of Water Supply, Gas and Electricity, the cost to be charged to the corporate stock fund "C. Department of Education—Approval of Contract, Specifications, Etc. (Cal. No. 54).

The Secretary presented a communication from the Secretary, Board of Education, dated June 4, 1914, requesting the approval of contract, plans, specifications at an estimated cost of $26,000, for new Public School No. 20, Borough of Richmond, and the following report of the Bureau of Contract Supervision:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 10, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On June 4, 1914, the Board of Education requested approval of the form of contract, specifications, plans and estimates of cost for the following:

New Public School 20, Borough of Richmond.

	Estimated Cost.
Item 1. Installing heating and ventilating apparatus	$23,000 00
Item 2. Installing temperature regulation	3,000 00

The request was addressed to the Comptroller and transmitted to the Bureau of Contract Supervision on June 5, 1914.

The cost is to be charged to the corporate stock fund entitled "C. D. E.—140B, School Buildings, Construction and Equipment, Richmond, Subtitle 2." An appropriation of $161,800 was approved for the fund by the Board of Estimate and Apportionment on June 12, 1913, and concurred in by the Board of Aldermen on July 15, 1913. On June 9, 1914, an unencumbered balance of $53,036 remained in the fund.

The form of contract, specifications and plans are satisfactory. They are the standard used by the Department of Education for similar work.

The Department of Water Supply, Gas and Electricity has approved the specifications, in so far as electrical equipment is specified. The estimates of cost are reasonable.

I recommend the adoption of the attached resolution, granting the request of the Board of Education. Respectfully, TILDEN ADAMSON, Director.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to its resolution adopted on July 11, 1912, hereby approves the form of contract, specifications, plans and estimates of cost for the following work, under the jurisdiction of the Department of Education:

New Public School 20, Borough of Richmond.

Item 1. Installing, heating and ventilating apparatus; estimated cost, twenty-three thousand dollars ($23,000);

Item 2. Installing temperature regulation; estimated cost, three thousand dollars ($3,000);

—the cost to be charged to the corporate stock fund entitled "C. D. E.—140B, School Buildings, Construction and Equipment, Richmond, Subtitle 2," and be it further

Resolved, That, in the event that the aggregate sum of the lowest bids received for the two items is equal to or less than the aggregate sum of the two items herein approved (although the amount of the lowest bid for one item may exceed the amount approved for said item), then the awards for the two items, provided both are awarded, may be made without further approval by the Board of Estimate and Apportionment; and be it further

Resolved, That, in the event that the aggregate sum of the lowest bids received for the two items exceeds the aggregate sum of the two items herein approved, no award for either of them shall be made and the amount of such estimated cost upon the bids so received may be reconsidered, in its discretion, by the Board of Estimate and Apportionment or by any official designated by the Board, provided that any of such bids is within the amount authorized and available for such work.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Education—Approval of New Estimate of Cost for the Construction of an Ice-making Room and Installation of a Refrigerating Apparatus in the New York Parental School, Borough of Queens (Cal. No. 55).

(On May 8, 1914, the Board approved an estimate of cost of $4,100 for this work. The low bid received when the contract was advertised was $125 in excess of the estimate approved.)

The Secretary presented a communication from the Secretary, Board of Education, dated June 2, 1914, requesting approval of new estimates of cost, for Item 1, general construction of ice-making room, in the sum of $575, and Item 2, installation of refrigerating apparatus, at New York Parental School, Borough of Queens, in the sum of $3,650; and the following report of the Bureau of Contract Supervision:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 12, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On June 2, 1914, the Board of Education requested approval of new estimates of cost for Item 1, general construction of ice-making room, and Item 2, installation of refrigerating apparatus, at the New York Parental School, Borough of Queens, in the sums of $575 for Item 1 and $3,650 for Item 2.

The request was addressed to the Comptroller and transmitted to the Bureau of Contract Supervision June 8, 1914.

On May 8, 1914, the Board of Estimate and Apportionment approved the estimated costs of these items at $900 and $3,200, respectively, subject to reconsideration by the Board in the event that the aggregate sum of the lowest bids received for the two items exceeded the aggregate sum of the amounts approved for said items.

Bids were opened by the Board of Education on June 1, 1914. Three bids were received for each item. The lowest bid for Item 1 was that of Margolin & Simmerman for the sum of $575, and for Item 2 the lowest bid was that of Mechanical Refrigerating Company for the sum of $3,650. The sum of the lowest bids for the two items is $4,225, which is $125 in excess of the sum of the estimated costs approved by the Board of Estimate and Apportionment.

The amounts of these low bids are reasonable. There is a sufficient balance in the appropriate fund to pay the increased cost.

I recommend the adoption of the attached resolution granting the request of the Board of Education.

Respectfully, TILDEN ADAMSON, Director.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment on May 8, 1914, as follows:

Bureau of Franchises.

Hillside Transportion Company, Inc. (Cal. No. 56).

Application for an extension of time of ninety days from June 22, 1914, to comply with the provisions of the consent granted said Company to operate stages or omnibuses temporarily upon four routes in the Borough of Queens.

This consent was granted by resolution adopted by this Board May 15, 1914, approved by the Mayor May 22, 1914.

The following was presented:

Hillside Transportation Co., Inc., Jamaica, New York.

To the Mayor and to the Board of Estimate and Apportionment of The City of New York:

In the matter of the application of the Hillside Transportation Company, Inc., for a franchise to operate stages or omnibuses on certain routes in the Borough of Queens, and relating to the resolution of your honorable Board adopted May 22, 1914, permitting its temporary operation on four of said routes under certain conditions, the time for acceptance of said conditions and commencement of such operation was limited therein to "30 days from the date of said adoption and approval by the Mayor of said resolution of said May 22, 1914."

An unforeseen delay having occurred in the delivery of the motor buses, and a change in the type of chassis being necessary, the Hillside Transportation Company, Inc., respectfully requests an extension of 90 days from the 22d day of June, 1914, within which time the Company may comply with all of the terms of said resolution of your honorable Board and begin operation of its motor driven stages or omnibuses on the routes therein granted.

It is not expected that we will require all of the time asked as extension, but as your honorable Board has, as we understand, decided to suspend all action on franchise matters from the date of its meeting on July 3 to its meeting on September 18, we have asked 90 days to September 20 to cover all possible contingencies.

We confidently except to have all requirements complied with and operation commenced at a much earlier date.

Dated, New York, June 11, 1914.

Respectfully submitted,

HILLSIDE TRANSPORTATION COMPANY, Inc., by JOHN H. DOSCHER, President.

(Seal.)

In presence of SAMUEL D. LINDSAY.

City of New York, State of New York, County of Queens, ss.:

John H. Doscher, being duly sworn, says that he is President of the Hillside Transportation Company, Inc., the petitioner, that the reason this petition is verified by deponent is that petitioner is a corporation and as President deponent has knowledge of its business; that he has read the foregoing petition and knows the contents thereof, that the same is true of his own knowledge except such matters as are therein stated to be upon information and belief, and as to those matters he believes it to be true.

JOHN H. DOSCHER.

Sworn to before me this 13th day of June, 1914. SYDNEY H. PALMER, Notary Public, Queens County.

(Seal.)

Bureau of Franchises, June 16, 1914.

Hon. JOHN PURROY MITCHEL, *Mayor, Chairman of Board of Estimate and Apportionment:*

Sir—On May 15, 1914, the Board adopted a resolution permitting the Hillside Transportation Company, Inc., to temporarily operate stages or omnibuses for the transportation of passengers upon four routes in the Borough of Queens. This Company had at that time a petition dated March 26, 1914, pending before the Board for a franchise to operate such routes.

The resolution granting the temporary right required the Company to place at least four motor driven stages or omnibuses in operation within thirty days after the date upon which the resolution was approved by the Mayor. The resolution was approved on May 22 and the thirty days will therefore expire on June 21, 1914.

The Company in a communication to the Board under date of June 11, 1914, states that unforeseen delay has occurred in the delivery of the motor vehicles and requests an extension of ninety days within which to comply with all the terms of the resolution permitting the temporary operation. It is stated in that communication that the Company does not expect the full ninety days will be required within which to begin the operation, but since the Board has fixed the period of adjournment for the summer months, that time is desirable as a safeguard against all possible contingencies. The proposed extension of time will extend beyond the date of the first meeting of the Board in September; therefore, on that date action may be taken by the Board either modifying or revoking any resolutions previously adopted with regard to the Company should it be deemed necessary.

In a communication dated June 11, 1914, signed by the President and Secretary of the Company, the following is given as the facts regarding the orders for vehicles and the possible dates of delivery:

1. *Bus Bodies.* Four bodies were ordered on April 15, 1914, from a manufacturer in Paterson, N. J., two of which were to be completed on or before May 20 and the other two on or before June 3. Owing to changes in the plans for these bodies being made after placing the order, the time for completion was extended to June 29. Two of these bodies are now completed with the exception of painting.

2. *Chasses.* Two chasses were ordered from a well known manufacturer on May 14, 1914. These have been shipped and are in New York, but the Company claims they are not according to the specifications and cannot be accepted. It is expected by the Company that the adjustment of this controversy will be brought about at an early date, but it will in any event delay the delivery of chasses which will conform with the Company's specifications.

On May 13, 1914, two other chasses were ordered from two other companies. The final delivery of these chasses has been delayed because of details of the body design, but it is expected that they will be delivered on or before July 1, 1914.

The statements which have been made by the Company with respect to placing of orders for chasses and bus bodies, as well as the dates upon which deliveries can be made, have been verified by interviews with representatives of the various companies with which the orders have been placed.

It is evident that the Company cannot, therefore, begin the operation of four vehicles on June 22, as required by the resolution, but it is believed that it is making every effort to live up to the terms of the resolution.

There is one condition of the resolution granting the temporary right to operate, to which attention is directed. The minimum payments to be made for the privilege are based upon the miles of route operated. Upon consideration it is plainly evident that this is the wrong theory upon which to compute the minimum payments. A large route mileage might be operated by the motor bus in sparsely settled districts with small earnings per mile. Compensation based on route mileage without regard to the earnings would therefore tend to prevent extension into districts where there is only small business but where transportation facilities are desirable. It has been for many years the policy of the Board to fix compensation at a percentage of gross receipts where it has been possible to determine what the gross receipts may be, with, however, minimum payments, though the minimum payments are not intended to exceed the sum which the fixed percentage of gross receipts would yield. The minimum payments fixed by the resolution of May 15 might exceed the percentage of gross receipts, and it is, therefore, recommended that the resolution be amended by substituting for the minimum payments of $15 per month per mile of route operated, the sum of $100 per month, but that the Company be required to pay five per cent. upon its gross receipts should it exceed the sum of $100 per month.

In view of the fact that this right is for experimental purposes, as set forth in the resolution, it is believed that the extension of time should be granted and that the compensation clause should be amended as herein prescribed.

The changes in the resolution which are necessary to carry out these suggestions are:

1. Subdivision Second should be changed by substituting for the minimum payment $100 per month instead of $15 per month per mile of route. In view of the experimental nature of this consent, I am also willing to recommend that the clause be amended so that the payments shall begin thirty days before the commencement of operation instead of on the date when the consent is signed by the Mayor.

2. Subdivision Sixth should be modified so as to require the depositing of the security in the sum of $1,500 at least five days before anything is done in the exercise of the rights conferred, and in no case later than September 17, 1914.

3. Subdivision Seventh should be changed so as to require the commencement of the operation of four vehicles on or before September 22, 1914.

4. Subdivision Eighth should be changed so as to require the acceptance of the resolution on or before August 22, 1914, instead of within thirty days of the approval of the consent by the Mayor.

A resolution to this effect is transmitted herewith.

Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

The following was offered:

Whereas, On May 15, 1914, the Board adopted a resolution permitting the Hillside Transportation Company, Inc., to operate stages or omnibuses for use in the conveyance of persons upon four routes in the Borough of Queens, which routes were named in said resolution; and

Whereas, Said resolution required the Company to place at least four motor driven stages or omnibuses in operation within thirty days after the date on which the resolution was approved by the Mayor, and required the Company to comply with other terms and conditions of the resolution within certain periods; and

Whereas, Said resolution was approved by the Mayor on June 22, 1914; and

Whereas, A report of the Bureau of Franchises has this day been submitted to this Board, which sets forth the reasons why the Company cannot begin operation, as required in said resolution, and which report suggests that the minimum payment shall be made for the privilege as set forth in said resolution of May 15, 1914, be modified for the reason that said minimum payment was not fixed in accordance with the proper theory; now, therefore, be it

Resolved, That Subdivision Second of said resolution of May 15, 1914, be modified to read as follows:

"The grantees shall pay into the Treasury of The City of New York as compensation for the privilege hereby granted a sum which shall in no case be less than one hundred dollars ($100) per month, and which shall equal five (5) per cent. of the gross receipts from the operation, if such percentage shall exceed the sum of one hundred dollars ($100) per month.

"Such payments shall begin on the date thirty days before the operation shall begin on any of the routes herein authorized, but in no case later than August 22, 1914, and shall be made on or before the fifteenth day of each month for the calendar month next preceding.

"Such payments shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatever kind or description now or hereafter required to be paid under any ordinance of The City of New York or by any law of the State of New York."

—that Subdivision Sixth be modified to read as follows:

"This consent is upon the express condition that at least five (5) days before anything is done in exercise of the rights conferred hereby, but in no case later than September 17, 1914, the grantee shall deposit with the Comptroller of The City of New York the sum of fifteen hundred dollars ($1,500), either in money or securities to be approved by him, which fund shall be security for the performance of all the terms and conditions of this consent and of all the orders of the Bureau of Franchises issued pursuant to the authority contained herein.

"In case of default in the performance by the grantee of any of the terms and conditions of this consent or of any of the orders as aforesaid, The City of New York shall have the right to make good or cause to be make good any damage which may result from such default on the part of the Company after ten (10) days' notice in writing, and shall collect the reasonable cost thereof from said fund without legal proceedings, or in case of default in the payment of the charge for the privilege, shall collect the same from such fund with interest after ten (10) days' notice in writing to the grantee.

"In case of any draft so made upon the security fund, the grantee shall, upon thirty (30) days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of fifteen hundred dollars ($1,500), and in default of the payment thereof the consent hereby given may be cancelled and annulled at the option of the Board, acting on behalf of said City. No action or proceedings or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York."

—and that Subdivision Seventh be modified to read as follows:

"The Company shall place at least four motor driven stages or omnibuses in operation on or before September 22, 1914; otherwise this consent shall be forfeited forthwith and without any proceedings either at law or otherwise for that purpose; provided, however, that such time may be extended by the Board."

—and that Subdivision Eighth be modified to read as follows:

8. This consent shall be null and void unless said grantee shall duly execute an instrument in writing wherein said grantee shall accept this consent and shall

promise, covenant and agree to conform to and abide by and perform all the terms, conditions and requirements in this consent fixed and contained, and file said instrument with the Board of Estimate and Apportionment of The City of New York on or before August 22, 1914; provided, however, that such time may be extended by the Board.

The said grantee shall covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the establishment, maintenance or operation of said stage or omnibus routes, and further that the City, the Board, the members of the Board or employees of the Board shall assume no liability whatever on account of this consent or the operation thereunder.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Bradley Contracting Company (Cal. No. 57).

Application for an extension of time to operate a standard gauge railroad track across Vernon Avenue near the Queensboro Bridge, Long Island City, Borough of Queens.

This consent was granted by resolution adopted by this Board June 20, 1912, approved by the Mayor on the same day.

The following was presented:

New York, May 2, 1914.

To the Honorable the Board of Estimate and Apportionment of The City of New York, City Hall, Manhattan:

Gentlemen—The Bradley Contracting Company hereby asks for an extension of time for a period of one (1) year from April 20, 1914, to maintain and operate a standard gauge railroad track across and on the surface of Vernon Avenue, near the Queensboro' Bridge, Long Island City, Borough of Queens, under the same terms and conditions as are set forth in the resolution of your Board of June 20, 1912, approved by the Mayor, June 20, 1912. The purposes for which the franchise above mentioned was granted have not been fully consummated. Respectfully,

BRADLEY CONTRACTING COMPANY, By FRANK BRADLEY, President.

(Corporate Seal.)

Attest: JAMES BRADLEY, Secretary.

State of New York, County of New York, ss.:

Frank Bradley, being duly sworn, says: That he is the President of the Bradley Contracting Company, the petitioner herein; that he has read the foregoing petition and knows the contents thereof, and that the same is true of his own knowledge, except as to the matters therein stated to be alleged upon information and belief, and that as to these matters he believes it to be true. FRANK BRADLEY.

Sworn to before me this 4th day of May, 1914. JAMES A. LYNCH, Notary Public, New York County.

Bureau of Franchises, June 10, 1914.

Hon. JOHN PURROY MITCHEL, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—By resolution adopted by the Board of Estimate and Apportionment June 20, 1912, approved by the Mayor June 21, 1912, consent was granted to the Bradley Contracting Company to install, maintain and use a standard gauge railroad track across and on the surface of Vernon Avenue, immediately north of Queensboro Bridge, Long Island City, Borough of Queens, for the purpose of transporting material from the water-front, to be used in filling in the land lying east of Vernon Avenue, some of which is owned by the City and some by the grantee. Section 1 of the said consent provided that it should not extend beyond April 20, 1914. The grantee accepted the consent, deposited security in the sum of Five hundred dollars ($500) with the Comptroller, and has regularly paid the annual charge of One hundred dollars ($100) for the privilege.

In March of this year, the attention of the grantee was called to the approaching expiration of the consent, with the result that the Bradley Contracting Company presented a petition dated May 2, 1914, to the Board of Estimate and Apportionment for permission to continue to maintain and use the track for another year, to April 20, 1915, and at the meeting of the Board held May 15, 1914, the petition was referred to this Bureau for investigation and report.

Copies of the petition were immediately forwarded to the President of the Borough of Queens and to the Commissioner of Water Supply, Gas and Electricity, with a request that examination be made by the various bureaus of their Departments having jurisdiction, with a view to ascertaining if there are any objections to the continued maintenance and operation of the track until April 20, 1915. In replies dated, respectively, June 9, 1914, and May 13, 1914, I have been informed that there are no objections to the continuance of the track for the said period and no particular conditions necessary to be incorporated in the form of consent.

As there are no objections, I can see no good reason why the requested permission should not be given, should the Board see fit to do so. In such case I would suggest that consent be granted only during the pleasure of the Board, but in no case to extend beyond April 20, 1915, and revocable upon sixty (60) days' notice, and that it be made a condition of the consent that the security of Five hundred dollars ($500) now on deposit with the Comptroller for the faithful performance of the terms and conditions of the original consent, be continued on deposit with the said official under the new consent.

At the rate heretofore fixed by the Board for private tracks across City streets—to wit, four per cent. of the assessed valuation of the area of street occupied by the track—the charge would be less than the minimum of One hundred dollars ($100). The compensation for the privilege should therefore be the sum of One hundred dollars ($100). Such sum should be paid into the City treasury within sixty (60) days of the date of the approval of the consent by the Mayor.

The original consent having expired by limitation April 20, 1914, the customary form of resolution granting a new consent is herewith submitted for adoption.

Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

The following was offered:

Whereas, By resolution adopted by the Board of Estimate and Apportionment June 20, 1912, and approved by the Mayor June 21, 1912, consent was granted to the Bradley Contracting Company to install, maintain and operate, until April 20, 1914, a standard gauge railroad track across and on the surface of Vernon Avenue, immediately north of Queensboro Bridge, Long Island City, Borough of Queens; and

Whereas, The said grantee duly accepted the said consent and complied with all the terms and conditions thereof; and

Whereas, The said consent expired by limitation on April 20, 1914, and the Bradley Contracting Company presented a petition dated May 2, 1914, to the Board of Estimate and Apportionment for permission to continue to maintain and operate the said track for another year, to April 20, 1915; now, therefore, be it

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the Bradley Contracting Company, a domestic corporation and the owner of certain property abutting on both sides of Vernon Avenue, Long Island City, Borough of Queens, immediately north of Queensboro Bridge, to continue to maintain and operate the existing standard gauge railroad track across and on the surface of said Vernon Avenue, connecting the said properties, for the purpose of transporting material from the water-front, to be used in filling in property lying east of Vernon Avenue; the track to be as shown on the plan attached to and made a part of the original consent, and entitled:

"Plan showing location of proposed track to be constructed in Vernon Avenue, Borough of Queens, to accompany application dated June 10, 1912, of Bradley Contracting Co. to the Board of Estimate and Apportionment, City of New York"—and signed, Bradley Contracting Co. Frank Bradley, Pres.

1. Said consent shall continue only during the pleasure of the Board of Estimate and Apportionment and shall be revocable upon sixty (60) days' notice in writing to the said grantee, but in no case shall it extend beyond April 20, 1915, and thereupon all rights of the said grantee in or upon said street by virtue of this consent shall cease and determine.

2. The grantee shall pay into the Treasury of The City of New York as compensation for the privilege hereby granted the sum of One hundred dollars ($100) Such payment shall be made within sixty (60) days of the approval of this consent by the Mayor.

Such payment shall not be considered in any manner in the nature of a tax, but shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid under any ordinance of The City of New York or by any law of the State of New York.

3. Upon the revocation or termination by limitation of this consent, the said grantee shall, at its own cost, cause the said track and all appurtenances thereto to be removed if required so to do by The City of New York or its duly authorized representatives, and all that portion of said street affected by this consent to be restored to its proper and original condition. If the said track shall not be required to be removed, it is agreed that it and its appurtenances shall become the property of The City of New York.

4. This consent is for the exclusive use of the grantee, and shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to or vest in any other person, firm or corporation whatsoever, either by the acts of the grantee or by operation of law, without the consent in writing of The City of New York, acting by the Board of Estimate and Apportionment.

5. The grantee shall pay the entire cost of:

(a) The construction, maintenance and removal of the track.

(b) The protection of all the surface and subsurface structures which shall in any way be disturbed by the construction or removal of the track.

(c) All changes in the sewer, water pipes or other structures made necessary by the construction or removal of the track, including the laying or relaying of drains, pipes, conduits, sewers or other structures.

(d) The placing, replacing or restoring of the pavement and sidewalks in said street which may be required or disturbed during the construction or removal of the track.

(e) Each and every item of the increased cost of any future substructure caused by the presence of the track.

(f) The inspection of all work during the construction or removal of the track as herein provided which may be required by the President of the Borough and the Commissioner of Water Supply, Gas and Electricity.

6. Before the construction or removal shall be begun the grantee shall obtain permits to do the work from the President of the Borough and from the Commissioner of Water Supply, Gas and Electricity. The grantee shall perform all the duties which may be imposed by those officials as conditions of such permits, provided such conditions are not inconsistent with the provisions of this consent. The grantee shall submit to those officials working plans which shall include and show in detail the method of construction of the track and the mode of protection or changes in all subsurface structures required by the construction of the track.

7. The track shall be constructed and operated in the latest improved manner of railroad construction and operation and solely upon the terms and according to the lines and surveys to be approved by the President of the Borough. The top of rails shall be laid flush with the surface of the roadway, and the grade of the roadway and sidewalks shall be altered and drainage provided as shall be directed and approved by the President of the Borough. The character of the rails and other parts of the construction shall also be approved by the said official, and the track shall be maintained in good condition throughout the term of this consent by the said grantee.

In the event of the City desiring to make repairs to existing substructures or to construct new substructures in the said street, the grantee shall, at its own expense, protect or move the said track and appurtenances in such manner as may be directed by the City officials having jurisdiction over such work, and so as to avoid interference with the work of repairing or installing the said substructures.

8. Said track shall be constructed, maintained and operated subject to the supervision and control of the proper authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York.

9. The grantee shall at all times keep the entire street between the rails of the track and for a distance of two feet beyond the rails on either side thereof free and clear from ice and snow.

10. Said grantee shall pave and keep in permanent repair the portion of the surface of the street and sidewalks between the rails of the track and for a distance of two feet on either side thereof, under the supervision of the proper local authorities and whenever required by them to do so, and in such manner as they may prescribe, and The City of New York shall have the right to change the material or character of the pavement of the street and sidewalks, and in that event the grantee shall be bound to replace the existing pavement between the rails of the track and for a distance of two feet on either side thereof with such changed or altered pavement and in the manner directed by the proper City officials at its own expense, and the provisions as to repairs herein contained shall apply to such changed or altered pavement.

11. This consent is subject to whatever right, title or interest the owners of abutting property or others may have in or to said street.

12. Said grantee shall be liable for all damages to persons or property, including the street and subsurface structures therein, by reason of the construction, operation or maintenance of said track, and it is made a condition of this consent that The City of New York assumes no liability to either persons or property on account of this consent.

The grantee shall station flagmen at such points as shall be necessary to exclude pedestrians and vehicles from the track at all times when cars or trains shall be operated thereon. Should it be deemed necessary at any time that gates be erected, maintained and operated across the said street for the purpose of excluding pedestrians and vehicles from the track hereby authorized, then the grantee shall, upon thirty (30) days' notice, erect, maintain and operate such gates as may be designated by the Board.

13. This consent is granted upon the further and express condition that the provisions of the Railroad Law applicable thereto and all laws or ordinances now in force or which may hereafter be adopted shall be strictly complied with.

14. This consent is upon the express condition that the security of Five hundred dollars ($500.) heretofore deposited with the Comptroller of The City of New York in accordance with the terms and conditions of the resolution adopted by this Board June 20, 1912, and approved by the Mayor June 21, 1912, granting consent to the installation of the said track, shall be continued on deposit with the Comptroller as security for the faithful performance of all of the terms and conditions of this consent. In case of default in the performance by the grantee of any of said terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for making the necessary changes or repairs after ten (10) days' notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or in case of default in the payment of the annual charge, shall collect the same with interest from the said fund after ten (10) days' notice in writing to the said grantee.

In case of any drafts so made upon the security fund, the said grantee shall, upon thirty (30) days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of Five hundred dollars ($500), and in default of the payment thereof, the consent hereby given may be cancelled and annulled, at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

15. Said grantee shall give notice in writing to the President of the Borough and the Commissioner of Water Supply, Gas and Electricity of its intention to begin the work hereby authorized at least forty-eight (48) hours before such work commences. The grantee shall also give to the Board of Estimate and Apportionment notice in writing of the date on which the work is commenced, and also the date on which the work is completed, not less than ten (10) days after such dates.

16. This consent shall be null and void unless said grantee shall duly execute an instrument in writing wherein said grantee shall accept this consent and shall promise, covenant and agree to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained and file the said instrument with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor; provided, however, that such time may be extended by the Board of Estimate and Apportionment.

And the said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons and property which may result from the construction, use, maintenance or operation of the structure hereby authorized.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx,

the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Tide-Water Pipe Company, Ltd.; Standard Oil Company (Cal. No. 58).

Application for permission to install an additional five-inch pipe in the tunnel under and across Richmond Terrace and the tunnel under and across Western Avenue, Borough of Richmond.

The consent to maintain these tunnels was granted by resolution adopted by this Board July 15, 1912, approved by the Mayor July 22, 1912.

The following was presented:

To the Honorable Board of Estimate and Apportionment of The City of New York:

The petition of The Tide-Water Pipe Company, Limited, respectfully represents and declares:

That by Approved Resolution No. 68 passed by your Honorable Board on July 15, 1912, and approved by the Mayor on July 22, 1912, there was granted jointly to the Standard Oil Company and the Tide-Water Pipe Company, Limited, permission to construct and maintain three concrete tunnels each eight feet wide by two feet nine inches in height, outside dimensions, in the Third Ward of the Borough of Richmond. One of the said tunnels to be laid under and across Richmond Terrace, immediately west of Catherine street; another under and across Western avenue south of the Staten Island Rapid Transit Railway tracks; and the third under and across Washington avenue at a point about 1,130 feet from Western avenue. The said tunnels to be used to contain five eight inch iron pipes of the Standard Oil Company and one six inch iron pipe of The Tide-Water Pipe Company, Limited, encased in larger pipes, for the purpose of transporting through them petroleum oil or its products. All as shown by a plan attached to the original application or petition filed and upon which the said Approved Resolution was passed.

And

That all of the six pipes provided for in the said resolution have been laid and constructed and are now being maintained and operated in accordance with the said grant or permission and the terms thereof.

But

There is still room or space in each of the said tunnels for an additional pipe and The Tide-Water Pipe Company, Limited, desires to use such room or space in two of the said tunnels (the ones under and across Richmond Terrace and Western avenue) for the laying and maintaining therein of a five inch pipe line.

And

The Standard Oil Company has consented to The Tide-Water Pipe Company, Limited, using such room or space with a five inch pipe line, as will be evidenced by the written consent to that effect signed by the Standard Oil Company and hereto attached.

Now, therefore, your petitioner, The Tide-Water Pipe Company, Limited, respectfully petitions this Honorable Board for its consent or permission to occupy the now vacant space in the said two tunnels (the ones under or across Richmond Terrace and Western avenue) with another pipe line to be built of five inch iron pipe and to be encased in seven and one-fourth inch casing, and to be laid and maintained in such a manner as to in no way disturb the streets under which the same is laid, and to be laid and hereafter maintained subject to and in strict compliance with all the terms, requirements, provisions and conditions of the said Approved Resolution No. 68 relating to or governing the laying, maintaining, operating and removing of the said lines laid thereunder, as fully to all intents and purposes as though such additional line were one of the original lines laid under the said Resolution.

The said permission or consent to continue only during the pleasure of this Board and to be revocable upon sixty days' notice in writing, and in no case to extend beyond July 22, 1922.

The said additional line to be laid in the position and location as indicated and shown in yellow upon the lithoprints filed herewith, which are copies of the original plan or plat filed with the original application upon which the said Resolution was granted.

Bureau of Franchises, June 9, 1914.

Hon. JOHN PURROY MITCHEL, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—By resolution adopted by the Board of Estimate and Apportionment July 15, 1912, and approved by the Mayor July 22, 1912, a revocable consent was granted, jointly, to the Standard Oil Company and the Tidewater Pipe Company, Ltd., to construct, maintain and use, for a term of ten years from the date of approval by the Mayor, three concrete tunnels, each eight feet in width and two feet nine inches in height, outside dimensions, at various points in the Borough of Richmond, one under and across Richmond Terrace, immediately west of Catherine Street, the second under and across Western Avenue south of the tracks of the Staten Island Rapid Transit Railway Company, and the third under and across Washington Avenue at a point about 1,130 feet from Western Avenue, the said tunnels to be used to contain five 8-inch iron pipes of the Standard Oil Company and one 6-inch iron pipe of the Tide-water Pipe Company, Ltd., for the purpose of transporting petroleum oil, or its products, for the sole and exclusive use of the petitioners.

The said grantees accepted the consent, duly deposited the sum of fifteen hundred dollars ($1,500) with the Comptroller, for the faithful performance of the terms and conditions of the consent and regularly paid the charge of three hundred dollars ($300) per annum for the privilege.

Under date of May 22, 1914, the Tidewater Pipe Company, Ltd., presented a verified petition, together with the consent of the Standard Oil Company, to the Board of Estimate and Apportionment for permission to install an additional 5-inch pipe in the tunnel under and across Richmond Terrace and the tunnel under and across Western Avenue. The petition recites that the pipe is to be installed in available space in the two said tunnels and a plan is submitted showing the existing pipes and the additional pipe.

At the meeting of the Board held June 5, 1914, the petition was referred to this Bureau for investigation and report.

Copies of the petition, with accompanying plan, were forwarded to the President of the Borough of Richmond, and to the Commissioner of Water Supply, Gas and Electricity, with a request that examinations be made by the various bureaus of their Departments having jurisdiction, with a view to ascertaining if there are any objections to the installation of the additional pipe in the tunnels or any particular conditions necessary to be incorporated in the form of consent. In replies dated, respectively, May 27 and June 6, 1914, I have been informed that, as the street will not be disturbed, there are no objections to the additional pipe and no particular conditions necessary to be embodied in the form of consent.

As there are no objections to the project, I can see no good reason why the requested permission should not be given, should the Board see fit to do so, and I would therefore suggest that the resolution adopted July 15, 1912, be amended so as to permit of the installation, maintenance and use of the additional pipe during the term of the consent.

It has been provided in the resolution herewith submitted for adoption, granting the requested permission, that the petitioner shall pay into the City Treasury the customary sum of fifty dollars ($50), to cover the costs of examination, printing, etc.

Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

The following was offered:

Whereas, A resolution was adopted by the Board of Estimate and Apportionment on July 15, 1912, and approved by the Mayor July 22, 1912, reading in part as follows:

"Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given jointly to the Standard Oil Company and Tide-Water Pipe Company, Limited, to construct, maintain and use three concrete tunnels, each eight feet in width, and two feet nine inches in height, outside dimensions; one tunnel under and across Richmond Terrace immediately west of Catherine street connecting with strips of land ten feet in width on opposite sides of the Terrace over which the petitioners have perpetual easement for their pipe lines; a second tunnel under and across Western Avenue south of the tracks of the Staten Island Rapid Transit Railway Company, connecting with strips of land ten feet in width on opposite sides of said avenue, over which strips the petitioners have perpetual easements for their pipe lines, and a third tunnel under and across Washington avenue at a point about 1,130 feet from Western avenue, connecting with properties owned by the Standard Oil Company on opposite sides of said avenue, and over which property the Tide-Water Pipe Company, Limited, has perpetual easement for its pipe line; the said tunnels to be used to contain five eight-inch iron pipes of the Standard Oil Company and one six-inch iron pipe of the Tide-Water Pipe Company, Limited, incased in larger pipes for the purpose of transporting petroleum oil or its products between the separate plans of each of the petitioners located in the State of New Jersey, for the sole and exclusive use of the petitioners and for no other purpose, all as shown on the plan accompanying the petition and entitled:

"'Plan showing location and manner, of construction of Proposed Tunnels under and across Washington Avenue, Western Avenue, Richmond Terrace, Borough of Richmond, to accompany joint Application Dated July 5, 1912, of Standard Oil Co. and the Tide-Water Pipe Co., Limited, to the Board of Estimate and Apportionment, City of New York, Standard Oil Co. by C. T. White, Secretary, Tide-Water Pipe Co., Limited, by Dickson Q. Brown, Secretary.'"

—and

Whereas, The Tide-Water Pipe Company, Limited, has presented a petition dated May 22, 1914, together with the consent of the Standard Oil Company to the said petition, to the Board of Estimate and Apportionment for permission to install, maintain and use an additional 5-inch iron pipe in the tunnel under and across Richmond Terrace and the tunnel under and across Western Avenue, the said pipe to be used for the conveyance of petroleum oil or its products, as provided in the original consent; now, therefore, be it

Resolved, That the above-quoted portion of the said consent be and it hereby is amended to read as follows:

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given jointly to the Standard Oil Company and Tide-Water Pipe Company, Limited, to construct, maintain and use three concrete tunnels, each eight feet in width, and two feet nine inches in height, outside dimensions; one tunnel under and across Richmond Terrace immediately west of Catherine street connecting with strips of land ten feet in width on opposite sides of the Terrace over which the petitioners have perpetual easement for their pipe lines; a second tunnel under and across Western avenue south of the tracks of the Staten Island Rapid Transit Railway Company, connecting with strips of land ten feet in width on opposites sides of said avenue, over which strips the petitioners have perpetual easements for their pipe lines, and a third tunnel under and across Washington avenue at a point about 1,130 feet from Western avenue, connecting with properties owned by the Standard Oil Company on opposite sides of said avenue, and over which property the Tide-Water Pipe Company, Limited, has perpetual easement for its pipe line; the said tunnels under and across Richmond Terrace and Western avenue to be used to contain five eight-inch iron pipes of the Standard Oil Company and one six-inch iron pipe of the Tide-Water Pipe Company, Limited, and one five-inch iron pipe of the Tidewater Pipe Company, Limited; and the tunnel under Washington Avenue to be used to contain five eight-inch iron pipes of the Standard Oil Company and one six-inch iron pipe of the Tide-Water Pipe Company, Limited; all of the said pipes to be encased in larger pipes and to be used for the purpose of transporting petroleum oil or its products between the separate plants of each of the petitioners located in the State of New Jersey, for the sole and exclusive use of the petitioners and for no other purpose, all as shown on the plan accompanying the petition, and entitled:

"Copy of Plan showing location and manner of construction of Proposed Tunnels under and across Washington Ave., Western Ave., Richmond Terrace, Borough of Richmond, to accompany joint application dated July 5, 1912, of Standard Oil Co. and the Tide-Water Pipe Co., Limited, to the Board of Estimate and Apportionment, City of New York.

Hon. JOHN PURROY MITCHEL, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—By resolution adopted by the Board of Estimate and Apportionment May 15, 1914, approved by the Mayor May 22, 1914, Charles Stern and Sons, Inc. was granted permission to install, maintain and use a three-inch iron pipe under and across Hudson Street north of Hubert Street, Borough of Manhattan, connecting its premises Nos. 153 to 155 Hudson Street, with the freight depot of the New York Central and Hudson River Railroad Company.

Section 15 of the consent provides, as follows:

"This consent shall be null and void unless said grantee shall duly execute an instrument in writing, wherein said grantee shall accept this consent and shall promise, covenant and agree to conform to, abide by and perform all the terms, conditions and requirements in this consent fixed and contained and file said instrument with the Board of Estimate and Apportionment of The City of New York within thirty (30) days after the approval of this consent by the Mayor; provided, however, that such time may be extended by the Board of Estimate and Apportionment.

"And said grantee shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the construction, use, maintenance or operation of the structure hereby authorized."

Under and pursuant to the above quoted section, the grantee presented an agreement dated June 1, 1914. This agreement was approved as to form by the Corporation Counsel and is on file in this office.

Copies of the approved resolution, prepared for certification, have been forwarded to the Secretary of the Board for transmission to the grantee and to the officials interested.

It is recommended that the papers be filed.

Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

Long Island Railroad Company (Cal. No. 60).

In the matter of the communication from the Long Island Railroad Company for permission to install and maintain certain tracks across Vernon, East and Jackson Avenues and retaining wall within the lines of 6th Street, Long Island City, Borough of Queens.

This communication was presented to the Board at the meeting of May 22, 1914, and was referred to the Bureau of Franchises.

The following was presented:

Bureau of Franchises, June 11, 1914.

Hon. JOHN PURROY MITCHEL, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—The Long Island Railroad Company, under date of May 4, 1914, addressed a communication to the Board of Estimate and Apportionment reciting that it was about to grant to The City of New York an easement for the construction of the Steinway Route of the Rapid Transit Railroad through its North Shore Freight Yard, and such grant would necessitate the rearrangement of the yard and the occupation of the subsurface of certain public streets, as shown on the plan attached to the said communication. The consent of the Board was therefore requested to such occupation of the streets.

At the meeting of the Board held May 22, 1914, the matter was referred to the Bureau of Franchises for examination and report.

It was noted that the said communication contained no definite description of the rights sought and also that it was not in the form required by the rules of procedure lately adopted by the Board. A communication was addressed to the Company calling attention to the desirability of more fully setting forth the facts, and suggesting certain changes in the plan submitted, and the Company submitted a form of petition dated June 10, 1914, duly verified, as required by the rules of procedure. This petition sets forth somewhat more fully the facts in connection with the project, and the plan accompanying the same has been altered. I would therefore suggest that this petition be accepted in lieu of the original one dated May 4, 1914, which should be ordered filed.

Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

The communication presented May 22, 1914, was ordered filed and the application was referred to the Bureau of Franchises.

Central Railroad Company of Long Island (Cal. No. 61).

In the matter of the right of the Company to maintain and operate a railroad known as the old Stewart Railroad within the limits of the City.

The following was presented:

The City of New York, Board of Estimate and Apportionment, Bureau of Franchises, Room 801, 277 Broadway, June 6, 1914.

Hon. JOHN PURROY MITCHEL, *Chairman, Board of Estimate and Apportionment.*

Sir—In November, 1913, the Chief Engineer's Office made inquiry of me in regard to the status of the Central Railroad Company of Long Island, commonly known as the old Stewart Railroad, which extended from Flushing to Babylon, Long Island, and which was in operation during the seventies, but of late years had been abandoned, in part, and the tracks removed. The obect of the inquiry was on account of a tentative plan for a street system, submitted by the President of the Borough of Queens, on which the right-of-way of this abandoned railroad was recognized and a street system to conform therewith had been laid out.

In reply to the communication, I advised the Chief Engineer of all the facts, which were of record, pertaining to this railroad in the office, and suggested that the matter be referred to the Corporation Counsel for his opinion as to whether or not the City of New York could proceed to condemn this property without consideration being given to the fact that it had been acquired for railroad purposes and abandoned for upward of twenty-five years,—no certificate of abandonment having been filed by the Railroad Company or its successors. Further, that there was a mass of material in the office in regard to the railroad which had never been worked up, and that it would require some time before a complete report could be made.

At the meeting of the Board held on December 4, 1913, the Chief Engineer reported upon the tentative plan, as submitted by the President of the Borough of Queens, and referring to that part of the territory adjacent to the old right-of-way of the Central Railroad Company of Long Island, stated as follows:

"Before the development is carried out along the lines proposed and before further mapping is undertaken in the vicinity of the railroad, it would seem desirable to secure from the Corporation Counsel an opinion concerning the power of the City to lay out and acquire streets across the abandoned railroad land."

At this meeting of the Board resolutions were adopted fixing December 24, 1913, as the date for an informal hearing, and the Corporation Counsel requested to render an opinion in regard to the question raised above. (See Public Improvement Minutes Page 9340-9346.)

At the meeting of December 24, 1913, the Board approved the tentative map. (See Public Improvement Minutes 9949-9950.)

On December 29, 1913, the Corporation Counsel requested this Bureau to be supplied with copies of the several papers mentioned, as of record in this office, and any additional data not already incorporated in the report previously made to the Chief Engineer. Upon receipt of this communication, I immediately detailed an assistant to take this matter up and to make a complete search and record of everything pertaining to the Company, so far as it was possible, and the report submitted to me is herewith attached.

A perusal of this report will show that there has been complete abandonment of the greater part of this railroad within the limits of Greater New York since 1879, and that the Railroad Company divested itself of the title to some of the lands within the former right-of-way and without a reacquisition, it would be impossible to reconstruct and operate a railroad.

Whether or not a railroad is needed in this vicinity, in the future, is not necessary to be here considered, for, in any event, the present conditions, as shown in the report, put a cloud upon the title to this property, and it may, unless affirmative action is taken by the city, prevent the city from laying out and acquiring streets across this property. It would appear to me that such affirmative action should be taken by the city as will dispose of this cloud and release the city from any embarrassment in regard to the layout of this territory, and I would, therefore, propose that the Board of Estimate and Apportionment direct the Corporation Counsel to request the Attorney General to commence an action under section 1948 of the Code of Civil Procedure, or any other statute, which will terminate any rights which this Company, or its successors, may have to reconstruct and operate a railroad,—that is, provided, of course, the Corporation Counsel is of the opinion, from the facts set forth in the report, that such an action could be successfully prosecuted. If there becomes a necessity for a railroad in this location, then it would be proper for an applicant to secure a new franchise under which there would be a certain amount of control by the local authorities.

A resolution, in accordance therewith, is attached hereto.

Respectfully submitted, HARRY P. NICHOLS, Engineer, Chief of Bureau.

BUREAU OF FRANCHISES, June 15, 1914.

Mr. HARRY P. NICHOLS, *Engineer, Chief of Bureau:*

Sir—Pursuant to your instructions, I made a thorough examination of the records relative to the Central Railroad Company of Long Island for the purpose of compiling a history of the road, ascertaining its present status and discussing any legal questions involved.

I examined all the records on file in this office, as well as those in the Franchise Bureau of the Public Service Commission, the County Clerk's Office in Kings and Queens Counties and the Topographical Bureau of Queens; made inspection of the right of way from Floral Park to Flushing, and interviewed various persons familiar with the history of the road, among whom were two former employees.

This report is divided into three parts—

(a) Historical outline, which contains a complete history of the road from its incorporation to the present time.

(b) Right of way; which is complete from the method of acquirement to the present status. (I may here note that over 150 deeds were examined and listed and either an abstract from or a copy of every deed along the right of way within the City limits was made, and copies of several filed and company maps have also been obtained.)

(c) Legal aspect; discussion of legal questions involved.

(a) Historical Outline.

The greater part of this historical outline was taken from E. B. Hinsdale's History of the Long Island Railroad, which is on file in this office. Where information was obtained from other sources, the authority is stated.

About 1871, the late A. T. Stewart acquired a large tract of land in the Town of Hempstead, known as Hempstead Plains, for the purpose of developing that property into a residential section. As there existed no direct transit facilities from this land to New York (the only facilities being a short cross-road of the Long Island Railroad from Hempstead to Mineola, at which latter point a connection was made with the main line of that road) he began negotiations with the Long Island Railroad for such facilities, but was unsuccessful. He then negotiated with the Flushing and North Side Railroad Company, which road was being operated between Long Island City and Whitestone, which resulted (after he could make no better bargain) in a contract whereby A. T. Stewart was to have a road built from his lands at Hempstead Plains to Flushing, there to connect with the Flushing and North Side Railroad Company, which road, when so built, was to be operated by the Flushing and North Side Railroad Company. For this purpose the Central Railroad Company of Long Island was incorporated.

The Central Railroad Company of Long Island, commonly known as the "Stewart Railroad," was incorporated under the General Railroad Law, Chapter 140 of the Laws of 1850, and its certificate was filed with the Secretary of State March 4, 1871. Under this act the Company was authorized to lay out its road not exceeding six rods in width, and the road was to be constructed commencing at the line of the Flushing and North Side Railroad Company east of the Flushing Creek draw-bridge, which at the present time is about 1,200 feet northwesterly from the tunnel at Lawrence street, which tunnel was built by the Central Railroad Company of Long Island and is still in existence; thence in an easterly direction to the westerly boundary line of the lands of A. T. Stewart, now Floral Park, in the Town of Hempstead; thence easterly to Farmingdale and from thence to Bethpage, with a branch from the line just described to the Village of Hempstead; also with a branch from a point near Flushing Creek to a point in the Town of Newtown near the head of Flushing Bay, where the Flushing Creek enters the Bay. The length of the road from Flushing to Bethpage was about 25 miles and the length of each branch about one mile. The corporate existence of the Company was to be for 1,000 years, and the principal stockholders were Conrad Poppenhusen, John D. Locke, Loomis L. White and Alexander T. Stewart. (Certificate of Incorporation, Folder 2515, Paper 3.)

The following is a list of the maps affecting the route of the Central Railroad Company of Long Island, filed in the County Clerk's Office at Jamaica:

		Date Filed.	File Number.	Tube.
1.	Original	March 4, 1871	105	.....
2.	Alteration	May 22, 1871	733	529C
3.	Garden City Branch	April 20, 1872	388	.....
4.	Bethpage Branch	April 20, 1872	521	.....
5.	Alteration	June 28, 1872	25	.....
6.	Extension	April 22, 1873	549	.....

The construction of the railroad was commenced in 1871. (State Engineers Report, 1871, p. 431.) In 1872 twenty miles of its road was laid, but operation has not yet commenced. (State Engineers Reports, 1873, p. 447.)

E. B. Hinsdale, in his history, says:

"This road was constructed in all its parts and proved a most disastrous enterprise to the Flushing and North Side Railroad Company, who were under contract to operate the road. In building the part of the line between Flushing and the westerly boundary line of the lands of A. T. Stewart, the road passed through the highlands forming the center of Long Island and in making the cut on that portion of the line, there was executed the largest and most expensive piece of earth work on Long Island. The road was opened on January 1, 1873." (Page 17.)

Beer's Atlas of Long Island, 1873, shows this road as a single track line, and this is verified by Mr. John Heffran, a former employee of the Central Railroad Company of Long Island.

The portion of the road from the westerly boundary line of the lands of A. T. Stewart to Farmingdale, and the branch to Hempstead, were built by A. T. Stewart himself, at a cost of $393,000, and was leased by him to the Central Company in January, 1873, for fifty years, at the expiration of which time the Company covenanted to buy the same. (Stewart vs. Long Island Railroad Company, 102 N. Y. 601.)

Some of the stations along the line were Flushing, Hillside, Kissena, Frankiston, Creedmoor, Hinsdale (now Floral Park), Garden City and Hempstead. (Statement of Mr. Edward Cheshire, a former employee of Central Railroad Company of Long Island.)

Under Chapter 921 of the Laws of 1871, the Central Company was authorized

to construct a draw-bridge over the Flushing Creek, at least 800 feet northerly from that of the Flushing and North Side Railroad Company. Mr. John Heffran, a former employee of the Central Railroad Company of Long Island, stated that the short extension from Flushing draw-bridge to the head of Flushing Bay was built about 1874 or 1875.

On March 1, 1872, the Central Railroad Company of Long Island issued bonds amounting to $1,000,000, and to secure the same, a mortgage was given on the road, including its franchise, and all of the appurtenances, from Flushing to the lands of A. T. Stewart at Floral Park, to Charles A. Hoyt and F. Alfred Boker, as Trustees. The portion of the road built by A. T. Stewart was not included in this mortgage. (Queens County Clerk, Liber of Mortgages, 275, p. 307.)

The traffic of the Central Railroad Company proved entirely unremunerative and the Manager of the Flushing and North Side Railroad Company (which was the operating Company) determined to secure further traffic for this line and formed the Central Railroad Extension Company, whose certificate was filed in the Office of the Secretary of State in April, 1873, and the location was from Farmingdale southeasterly across the South Side Railroad Company's tracks to a point one mile west of Babylon and running to the Fire Island steamboat dock. This road was constructed and operation begun about the latter part of 1873, and formed a through line with the Flushing and North Side Railroad and the Central Railroad of Long Island from Hunter's Point via Flushing and Garden City to Babylon.

By an agreement dated June 19, 1874, the Central Railroad Company and the Central Railroad Extension Company were consolidated with the Flushing and North Side Railroad Company, North Shore Railroad Company, the Whitestone and Westchester Railroad Company, the North Shore and Port Washington Railroad Company and the Roslyn and Huntington Railroad Company, under the name of the Flushing North Shore and Central Railroad Company. When this merger took place, the first four companies were in operation and the latter three in course of construction. This merger was made under Chapter 917 of the Laws of 1869. (Copy on file in Folder 2526, Paper 4.)

This new company now controlled all the roads on the north side of Long Island, and was known as the "North Side System," under the control of Conrad Poppenhusen and his associates.

The Railroads on Long Island at this time consisted of three distinct systems, viz.—The Flushing, North Shore and Central Railroad, the Long Island Railroad and the South Side Railroad. As these roads covered the same territory at many points, a ruinous competition took place, which resulted in the foreclosure of the South Side Railroad and the acquirement of the control of the latter Company by Conrad Poppenhusen, who reorganized it under the name of the Southern Railroad Company, which articles of association were filed with the Secretary of State on September 25, 1874. As these two systems were now under one control, an earnest fight was begun against the Long Island Railroad Company and a ruinous war of rates resulted therefrom.

The roads of the Flushing, North Shore and Central Railroad Company and Southern Railroad Company, although distinct corporations, were at this time practically being operated jointly by both companies, and the fastest express service on Long Island was run from Patchogue to Babylon, thence over the Flushing, North Shore and Central Railroad, via Garden City and Flushing, to Hunters Point. This continued until 1876, when Conrad Poppenhusen and a few of his associates bought out a majority of the stock of the Long Island Railroad Company, and now all the railroad properties in Long Island were under the control of one management, with the Long Island Railroad Company the dominant company. To effect this object, a tripartite lease of 99 years was entered into in May, 1876, between the three systems hereinbefore mentioned.

These roads were operated by the Long Island Railroad Company under its management until the fall of 1877, when Thomas R. Sharp was appointed Receiver of the whole system. A series of actions were brought by the various bondholders of the various companies, which finally destroyed the combination.

During his Receivership, Thomas R. Sharp, about 1878, determined to abandon a portion of the old Central Railroad between Flushing and the western line of the Stewart property at Floral Park, and, in pursuance of this policy, effected a connection between the road on the western end of the Stewart property (which the Long Island Company still held) and the main line of the Long Island Railroad Company.

In 1879 an action was brought to foreclose the mortgage on the part of the Central Railroad of Long Island from Flushing to the Stewart property at Floral Park, by the Trustees (Charles A. Hoyt and F. Albert Boker), and Richard Ingraham was appointed Referee. In this action it was ordered that the railroad be sold at public auction and, on October 8, 1879, the road, with its franchise, was sold to Egisto P. Fabbri by the Referee, for $50,000. (Deed recorded in Queens County Clerk's Office, Liber of Deeds 548, p. 332.)

Probably in pursuance of the policy of Thomas R. Sharp, of abandoning a portion of the Central line and yet preserving a piece that might be of advantage to a contemplated new system, Egisto P. Fabbri, who seemed to be acting for the Long Island Railroad, conveyed the piece between Creedmoor and the western line of the Stewart property to the Long Island Railroad Company in October, 1879, and a curve was put in connecting this system with the main line of the Long Island Railroad Company. (Queens County Clerk's Officer, Liber of Deeds 549, p. 349.) Another short piece of the road in the Village of Flushing, about 600 feet west of Lawrence street, was conveyed by Egisto P. Fabbri to the Long Island City and Flushing Railroad Company in 1884. (Liber of Deeds 667, p. 181.)

In 1881, a mortgage on the Central Extension Railroad was foreclosed and title was taken in the name of Benjamin S. Henning, who subsequently, on February 9, 1882, conveyed the same to the Long Island Railroad Company.

On June 1, 1892, the heirs of A. T. Stewart conveyed to the Long Island Railroad Company (which was then operating under lease from the Flushing, North Shore and Central Railroad) the portion of the road built by Stewart himself, from Floral Park to Farmingdale and Bethpage, with a branch from Garden City to Hempstead. (Queens County Clerk, Liber of Deeds 960, p. 213.)

In a letter to V. S. Henderson of the Topographical Bureau, Queens, under date of November 17, 1913, Secretary Frank E. Haff of the Long Island Railroad Company stated that the franchise of the Central Railroad Company of Long Island was conveyed by Ernesto G. Fabbri, administrator, with the will annexed, of the estate of Egisto P. Fabbri, to the Long Island Railroad Company, on February 7, 1906. A search of the records of the Queens County Clerk's Office, however, fails to reveal any conveyance of this franchise recorded there.

A brief summary of the foregoing historical outline shows:

First—That the Central Railroad Company of Long Island was incorporated on March 4, 1871;

Second—That its road was completed and operated January 1, 1873;

Third—That the portion of the road on the Stewart property was built by A. T. Stewart himself and leased to the Central Railroad Company for fifty years;

Fourth—That it was merged into the Flushing, North Shore and Central Railroad Company on June 19, 1874;

Fifth—That as a part of the Flushing, North Shore and Central system it was leased to the Long Island Railroad Company in May, 1876, for 99 years;

Sixth—That it went into the hands of the Receiver for the Long Island Railroad Company in 1877;

Seventh—That the portion of the road from Flushing to the Stewart lands at Floral Park was sold under forecloseure to Egisto P. Fabbri in 1879;

Eighth—That Egisto P. Fabbri conveyed a portion on the eastern end of it, from Creedmoor to Stewart's lands at Floral Park, to the Long Island Railroad Company;

Ninth—That a small portion of the road at the junction with the Flushing and North Side Railroad Company, in the Village of Flushing, was conveyed by Egisto P. Fabbri to the Long Island City and Flushing Railroad;

Tenth—That in 1892 the Stewart heirs conveyed the portion of the road from Floral Park to Hempstead, which was built by Stewart, to the Long Island Railroad Company;

Eleventh—That in 1906 the franchise was conveyed to the Long Island Railroad Company by the administratrix of Egisto P. Fabbri.

Twelfth—*That the part of the road from a point about 600 feet westerly of Lawrence street, Flushing, to Alley Road, Creedmoor, was abandoned about 1879, and has not been operated since.*

A chart has been prepared showing intercompany relations of the above companies to date. (Exhibit "A".)

(B)—*Right of Way.*

Immediately upon its incorporation, the Company commenced to acquire the lands along the right of way authorized by its certificate of incorporation and as located on the maps filed in the office of the Queens County Clerk on March 1, 1871, and May 22, 1871, recorded file numbers 105 and 733, respectively. Many of these lands were acquired by Herman C. Poppenhausen, who held them for the Railroad Company until 1876, when he reconveyed them to the Flushing, North Shore and Central Railroad Company, which had succeeded the Central Company.

The greater part of the right of way was acquired in absolute fee and the remainder either in fee, with a reversionary clause in case the Company failed to operate or ceased to exist, or by condemnation proceedings, in which cases the order on which the condemnation was granted provided that these lands were granted to the Company only during its corporate existence. Many minor conditions were contained in some of these deeds, such as the building of fences, planting of shrubbery and forbidding the sale of intoxicating liquors, and in one of the orders of condemnation it was provided that the Company should build an opening across the tracks to connect the farms of the original owner.

Many highways were crossed by the right of way within the now City limits, and in the following cases the right, title and interest of the abutters were obtained: Remsen Avenue, Jamaica Avenue, Foster's Road (now Fresh Meadow Road), Lawrence Road, Queens Road, Black Stump Road, Alley Road and Jericho Turnpike, No title, right or interest of the abutting property owners appears to have been obtained to Lawrence Street or Rocky Hill Road.

In my search of the records of the Queens County Clerk's office, I located the deeds to all the parcels along the right of way, except two, which were owned by a certain S. B. Parsons.

A statement has been prepared showing every parcel along the right of way of the railroad within the limits of the City, how such parcels were acquired, and the date and conditions of the grant, and where filed, known as Exhibit "B" and attached hereto.

Status of the right of way since the foreclosure of the road and the sale of its right of way.

As has been seen, the mortgage of the Central Railroad Company of Long Island was foreclosed and the road sold by deed to Egisto P. Fabbri by Richard Ingraham, Referee. This deed was dated October 8, 1879, and conveyed the alienable franchises, and all lands, depots, engine-houses, rails, materials, bridges, culverts, fences, machinery, tools, locomotives, engines and road equipment, being all of the railroad except that portion built by A. T. Stewart and leased from him by the Central Railroad Company of Long Island.

On October 22, 1879, Egisto P. Fabbri conveyed to the Long Island Railroad Company all the right of way, grounds, railroad tracks and appurtenances beginning at Alley Road, at the western boundary line of the Creed Farm, at the station formerly known as Creedmoor, and running thence easterly to the westerly boundary line of the lands of A. T. Stewart at what is now known as Floral Park, together with all the rails, ties, spikes, fastenings, bridges, depots, car houses, turn-tables, frogs, switches and other materials which can be removed from said soil, *on that part of the railroad beginning at Alley Road and extending westward to its junction with the Flushing and North Side Railroad Company.* This deed seems to have been made in furtherance of the policy of Thomas R. Sharp, the Receiver of the Long Island Railroad Company, to abandon a portion of the road of the Central Railroad Company of Long Island and to still retain a part of it, in case it later might seem desirable to reopen the road. It also appears that Egisto P. Fabbri was acting for the Railroad Company in this transaction. It should here be noted that this deed did not convey the franchise. I desire to call particular attention to that part of the last-mentioned deed which grants only the movable portions or property of the road from Creedmoor to the junction with the Flushing and North Side Railroad Company, and *not the right of way,* and it would seem that under this deed the Long Island Railroad Company later removed everything movable along the right of way from the junction at Flushing to Alley Road near Creedmoor, as is indicated by the fact that nothing remains at the present time to show that such a railroad ever existed along this part of the right of way.

On December 15, 1882, Egisto P. Fabbri conveyed to Thomas F. Ward all the right of way from Alley Road near Creedmoor westerly to the junction with the Flushing and North Side Railroad Company.

On July 1, 1884, Thomas F. Ward conveyed to the Long Island City and Flushing Railroad Company a small portion of the road and right of way from near Third Street, Flushing, to a point west of Lawrence Street, Flushing. This deed was probably made pursuant to the policy of the Receiver of the Long Island Railroad Company, as hereinbefore stated, to abandon a portion of the road and to hold a small part at each extremity.

By a deed dated January 11, 1887, Thomas F. Ward granted to Loomis L. White three parcels of the right of way in the vicinity of Queens Road and Black Stump Road, also the right, title and interest to these last-mentioned roads. These three parcels are the same as were conveyed to the Central Railroad Company of Long Island by Loomis L. White, May 28, 1873. A search of the records in the Queens County Clerk's Office indicates that title to these premises still remains in Loomis L. White or his heirs.

On November 7, 1892, Thomas F. Ward conveyed to Charles M. Reynolds all the right of way from Alley Road near Creedmoor to Flushing, except that portion conveyed to the Long Island City and Flushing Railroad Company, and probably that conveyed to Loomis L. White, although not referred to in the deed.

On February 16, 1893, Charles M. Reynolds conveyed to Mary E. Hallock, et al. two parcels of land near Rocky Hill road, of which the first parcel was acquired by the Central Railroad Company of Long Island from George Doughty on August 1, 1871, and the second was acquired by the Flushing, North Shore and Central Railroad Company from Benjamin G. Doughty, October 2, 1876. A search of the records shows that these parcels were deeded by Mary E. Hallock to George K. Root, who deeded them to Wilhelmina S. Ward, who in turn granted them to Charles W. Ward, Trustee, June 1, 1899, where the title appears to remain at present. This land is located at the present Ward Greenhouses near Rocky Hill Road.

On August 22, 1898, Charles M. Reynolds conveyed to William H. Baldwin, Jr., all the right of way from Alley Road near Creedmoor to the junction with the Flushing and North Side Railroad Company, excepting those parcels conveyed to the Long Island City and Flushing Railroad Company, Loomis L. White, and Mary E. Hallock.

On June 15, 1905, Ruth S. Baldwin, as Executrix of William H. Baldwin, Jr., conveyed to the Stuyvesant Real Estate Company all the right of way which was granted to William H. Baldwin by Charles M. Reynolds (see preceding paragraph). I have been informed that the Stuyvesant Real Estate Company is the real estate holding company for the Long Island Railroad Company, and was the company to which title to the land bounded by 9th Avenue, 7th Avenue, 31st and 33rd Streets, Borough of Manhattan, New York City, was conveyed in the interest of Pennsylvania, New York and Long Island Railroad Company.

The railroad from the western line of the Stewart property at Floral Park easterly to Farmingdale and Bethpage, together with the branch from Garden City to Hempstead, was leased to the Long Island Railroad Company in 1876, and in 1892 the heirs of A. T. Stewart conveyed the fee of that land to the Long Island Railroad Company.

It may here be noted again that many parcels along the right of way within the limits of the now City of New York were acquired by deeds, with conditions providing that if the Railroad Company ceased to use the land for railroad purposes it was to revert to the original grantor, or by condemnation proceedings, in which cases the orders of condemnation provided that if the corporate existence of the railroad ceased, the land would revert to the original owner. As much of this land is *not now* used for railroad purposes and the Central Railroad Company appears to be practically out of existence, the original owners could exercise their rights and bring an action for the reversion of this property to them, and it would even seem that in the cases where the lands were acquired by condemnation proceedings, such lands automatically reverted to the original owners when the Company ceased to use them for railroad purposes.

The right of way between the junction of the Central Railroad Company with the Flushing and North Side Railroad Company and the head of Flushing Bay was acquired in fee by the Railroad Company in 1872. When the mortgage of the Central Railroad Company of Long Island was foreclosed in 1879, the title to this branch of the road passed to Egisto P. Fabbri, together with the franchise and the rest of the railroad. A search of the records in the Queens County Clerk's Office fails to reveal any conveyance of this branch by Fabbri, and it therefore seems that title to the same is still in Egisto P. Fabbri or his heirs.

A summary shows that the title to the whole right of way of the Central Railroad

Company of Long Island at the present time appears to lie in the Long Island Railroad Company, or companies controlled by it, together with the right, title and interest of the abutting property owners to the various highways within the City limits, *except that* portion of the right of way deeded to Loomis L. White in the vicinity of Queens Road and Black Stump Road, which also included the right, title and interest to the last-mentioned two roads, *and also* the portion conveyed to Mary E. Hallock in the vicinity of Rocky Hill Road; *that many parcels are subject to reversion,* either under the conditions of the deeds or the orders of condemnation under which they are acquired, *and that title to the branch* from the junction with the Flushing and North Side Railroad to Flushing Bay appears to be still in Egisto P. Fabbri.

Inquiry at the Department of Taxes and Assessments shows that the taxes on the lands along the right of way of the old Central Railroad within the City limits are paid by the Long Island Railroad Company, except on the following parcels:

The parcels on which the taxes are in arrears appear to be those to which the Long Island Railroad Company has no title at the present time, and seem to be the lands conveyed to Loomis L. White and Mary E. Hallock.

A complete list of the parcels along the right of way, and of the parties paying the taxes thereon, is appended hereto and marked Exhibit "C".

Inspection of the Right of Way—

I inspected the old right of way of the Company from Floral Park to the junction with the old Flushing and North Side Railroad Company at Flushing, on December 12, 13, 14 and 17, 1913, and found as follows:

From Floral Park westerly about two and half miles, to Rocky Hill Road, the road consists of a single track line, commencing about 500 feet east of the Floral Park station, where connection is made with the tracks of the Long Island Railroad Company, and extending thence westerly, passing through Creedmoor to the greenhouses of the Cottage Gardens, Inc., near the Rocky Hill Road, where the track ends. There are various switches and sidings on these tracks, which appear to be in good condition and used for freight only, as was evidenced by five laden freight cars which I observed at Creedmoor when passing through that sections. There are also two trestles, one crossing Plainfield Avenue and the other the Jericho Turnpike. The railroad companies maintain fences only at a few places along this line. The tracks end abruptly at the plant of the Cottage Gardens, Inc., on a bank about 15 feet in height. At this point the old roadbed then continues (about 15 feet below) westerly to the Rocky Hill Road, which is a short distance further, but between these latter two points it is almost impossible to locate the same, as it is overgrown with shrubbery and trees and there are no evidences of any railroads tracks, ties, gravel fences or stations.

From Rocky Hill Road westerly to Black Stump Road, a distance of about 1¼ miles: The right of way here enters into a cut about 30 feet below the level of the surrounding country, and it is almost impossible to pass through, as it is overgrown with shrubbery, weeds and poison ivy, and is flooded during the rainy or snowy weather. There are no evidences of any tracks, ties or fences remaining The cut seems to be about 30 feet wide. The framework of an old bridge still remains. It seems to have been built across the cut at what was then Granger Avenue, but which now seems to be abandoned, there being no evidences of a street here remaining.

From Black Stump Road, crossing Queens Road and North Hempstead Turnpike, to Lawrence Road, a distance of about 1⅓ miles: The old right of way runs along an embankment about 15 feet in height and about 25 feet wide. There are no rails or ties, and but a few instances of wire fences near Lawrence Road.

From Lawrence Road to Fresh Meadow Road, a distance of about ¼ mile: The right of way runs through a farm and is now planted over with corn and potatoes. There are no evidences of rails, ties or fences remaining.

From Fresh Meadow Road to Jamaica Avenue, a distance of about 2¾ miles: The right of way cannot be located definitely from Meadow Road to the Jamaica and Flushing trolley line, which is about half a mile from Fresh Meadow Road. Several buildings appear to be built on it near the Fresh Meadow Road, and from thence easterly to the trolley line it is grown over with dense shrubbery and weeds, making it impossible to pass through. The right of way is easy to locate from the trolley line to Jamaica Avenue. It appears to be a sort of a pathway through a very sparsely settled section and there are no evidences of railroad tracks, ties or fences. Several small brooks are encountered along this path between these last-mentioned two points.

From Jamaica Avenue to Hillside Avenue, a distance of about 1¾ miles: The right of way still continues about 20 feet wide, to the Mill Creek. There are no evidences of a railroad remaining and there is no bridge across the Mill Creek. No traces of the railroad from the Creek to Hillside Avenue remain and it is practically impossible to locate it. (The Mill Creek at this point winds and turns and the old right of way crosses it at three places.)

Hillside Avenue to the Mill Creek, to the tunnel at Lawrence Street, a distance of about ½ mile: The road runs through a swamp and the bridges across Mill Creek have been destroyed and no evidences of the railroad remain.

From the tunnel to the junction with the old Flushing and North Side Railroad Company, a distance of about 1-5 mile: The tunnel itself is in good condition, but the ground is littered with cans and refuse. About 600 feet west of the tunnel there are numerous tracks, spurs and switches connecting with the Long Island Railroad, which are used for storage of freight cars.

The spur from the draw-bridge of the old Flushing and North Side Railroad Company to the head of Flushing Bay runs through a swamp and the only trace now remaining that the road ever existed is that the weeds grow higher along the old roadbed than on the surrounding swamp land.

In short, the inspection of the old roadbed from the tunnel at Lawrence Street, Flushing, to Creedmoor shows that nothing remains of the railroad, its tracks, fences, stations or equipment, and that in order to again operate this portion of the road it would be necessary to relay the tracks, rebuild the stations, regrade at various points, rebuild the bridges across Flushing Creek and carry the trestles across the highways along the right of way where the road crosses above grade. Even if this work were done, the roadbed as it now exists would cross Fresh Meadow Road, Lawrence Road and the trolley road from Flushing to Jamaica at grade. The foregoing would seem to indicate that this part of the road had been abandoned. The part of the road from Creedmoor to Floral Park is a single track line, connected with the tracks of the Long Island Railroad at Floral Park, and used for freight.

Information Obtained from Various Scources—

Messrs. Cullen and Hilley, Deputy Tax Commissioners of the Department of Taxes and Assessments, who assessed the property along the right of way, stated that the right of way was fenced in at a few places only; that it was overrun with weeds and that it was possible to walk along the entire right of way. These statements are verified by my report. They also stated that the Railroad Company had only acquired easements across some of the property along the right of way, which were void if the road was not operated and that the residents of this section were of the impression that the Long Island Railroad Company intended to operate this line shortly. They, however, could not state any authority for these latter statements.

I then visited John Heffran at 45 Washington Street, Flushing, who was one of the engineers, and Edward Cheshire of 38 South Prince Street, Flushing, one of the conductors of the Central Railroad Company of Long Island. They both agreed that the road was opened about 1873; that it was a single track line; that the stations were Hillside, Kissena, Frankiston, Creedmoor, Hinsdale, Garden City and Hempstead; that the extension across the meadows to Flushing Bay was constructed in 1874 or 1875, for the purpose of a short cut to Hunters Point; that the road was not making money, which they believed was due to the acquisition of the South Side Railroad Company; that they were sent over to operate the trains on the South Side Railroad; that Mr. Vanderwater (father of Rev. Dr. Vanderwater) kept a small grocery store in Flushing and used to sell tickets to New York from the junction at Flushing for ten cents; that the road was abandoned in 1879, and they believed that the old Trustees of the Village of Flushing probably could give us some information.

Mr. Henderson of the Queens Topographical Bureau, who is in charge of the Jamaica office, who was formerly employed by the Long Island Railroad Company, gave me similar information. His assistant stated that he surveyed along the old right of way a short time ago. Mr. Henderson is at present also engaged in studying this matter.

(c)—Legal Aspect.

We have seen that the charter existence of the Central Railroad Company of Long Island is one thousand years, which might be construed by the Long Island Railroad Company (which now holds it and which was obtained by it in 1906) as a perpetual franchise, and also that the Long Island Railroad Company—

First—Is at the present time operating the part of the road from Bethpage to Floral Park as part of its main line.

Second—Is operating the part of the road from Floral Park to Alley Road, Creedmoor, for freight only.

Third—HAS ABANDONED ALL THE ROAD FROM CREEDMOOR TO LAWRENCE STREET TUNNEL, FLUSHING, AND THE BRANCH TO FLUSHING BAY.

Fourth—Is operating a small freight spur of the road from a point westerly of Lawrence Street, Flushing, to the junction of the old Flushing and North Side Railroad Company; and also

Fifth—That the right of way from the tunnel at Lawrence Street, Flushing, westerly to Alley Road at Creedmoor and the branch from Flushing Bay to the junction of the Flushing and North Side Railroad Company is not wholly owned by the Long Island Railroad Company, several parcels being owned by private individuals; and

Sixth—That no traces of the railroad remain between the tunnel at Lawrence Street, Flushing, and Alley Road, Creedmoor, and also the small branch to Flushing Bay, which would indicate an abandonment of this portion of the road.

These further facts should also be taken into consideration, namely: When the Central Railroad Company of Long Island acquired its right of way in the section not now operated, seven parcels were conveyed on condition that if the Company failed to operate or use the land for railroad purposes, the land would revert to the original grantor; seven parcels in the non-operated section were acquired by condemnation proceedings, in which cases it was provided that the Company could only occupy the lands during its corporate existence. As the part of the road in which these parcels are located is not being operated and used for railroad purposes, and the Central Railroad Company of Long Island would seem to have practically ceased to exist, the original owners or grantors can bring an action to recover this land, and, should they exercise this power, it would leave the Railroad Company without a large part of its right of way and yet allow it to retain a franchise which it is not exercising. The people in this section are clamoring for the operation of the road, as it would greately develop this section and increase the property values, yet the Long Island Railroad Company, which now holds the franchise, is making no effort to reopen this portion of the road or to operate it. This condition has existed since 1879, a period of thirty-five years.

It would also appear that the Long Island Railroad Company operated the parts of the railroad hereinbefore mentioned, without a franchise, from 1879 to 1906, as it was held by Egisto P. Fabbri (who had purchased it under the foreclosure proceedings in 1879) until 1906. Mr. Frank E. Haff, in a letter dated November 17, 1913, to Mr. V. S. Henderson of the Queens Topographical Bureau stated that the alienable franchise of the Central Railroad Company of Long Island was conveyed to the Long Island Railroad Company on February 7, 1906, by Ernesto G. Fabbri, administrator, with the will annexed, of the Estate of Egisto P. Fabbri, deceased. I made a search of the records in the Queens County Clerk's Office, but the deed of this franchise does not appear to have been recorded there.

The question arising is—Is the non-user of the part of the railroad from Lawrence Street, Flushing, to the greenhouses at Alley Road near Creedmoor, sufficient to warrant an action being brought for the forfeiture of the franchise held by the Long Island Railroad Company, and, if so, is it desirable that such an action be brought

The general law on this point seems to be:

"Nature and extent of misuser or nonuser justifying forfeiture—As to misuser, it must appear that there has been such neglect or disregard of the trust or such perversion of it to the private purposes of the corporation or corporations as in some manner or degree to lesson its utility to those for whose benefit it was instituted or is to work some public injury. It must in some sense or other be a misdemeanor in violation of the trust. So a single case of misuer without resulting in public injury or suspension or delay or nonuser for a limited time or a temporary interruption by vis major will not constitute a ground of forfeiture and in New York under the Code of Civil Procedure the period of nonuser must have been continued for at least one year, that is, the corporation must have suspended its ordinary and lawful business for that period." (Joyce on Franchises, Section 489, page 872.)

"If a railroad company ceases to operate all or part of its line, its charter is subject to forfeiture." (Peo. vs. Albany & Vermont R. R., 24 N. Y. 261.)

"It seems self-evident that a branch cannot exist without a stem, and as the company only has the right to build and maintain a branch, such right is extinguished when the main line is abandoned" (Goelet vs. Met. Transit Co., 48 Hun. 520.)

"A road cannot build part of its line and abandon the rest." (Cohen vs. Wilkinson, 12 Beaver 125.)

"A railroad has no right to wilfully abandon any part of its road." (Kansas City R. R. vs. Davis, 197 Mo. 669.)

"A railroad company may be enjoined from abandoning any part of its line." (Beale vs. Miss., 210 U. S. 187.)

"Although a railroad corporation abandons a part of its road, this does not forfeit its franchise so as to prevent it from relaying its tracks, and only the people can take advantage of an abandonment as a cause for forfeiture." (Trelford vs. C. I. & B. R. R. Co., 6 App. Div. 204.)

"A street railway operating under a franchise cannot at its mere will and discretion abandon the operation of its line on any part thereof." (State vs. B. M. Traction Co., 62 N. J. L. 592.)

The law on this point, therefore, seems to be well settled that a company may not wilfully abandon a part of its road and operate the remainder of it and that if it does so abandon part of its road, an action may be maintained for the annulment of its franchise. These principles seem to exactly apply to the question here involved, and it would seem that an action against the Long Island Railroad Company for the annulment of the franchise which it holds at the present time, from Flushing to Bethpage, would lie.

This action can only be brought by the Attorney General and may be commenced under Section 1948 of the Code of Civil Procedure, which provides:

"Section 1948. The Attorney General may maintain an action upon his own information or upon the complaint of a private person in either of the following cases: 1. Against a person who usurps, intrudes or unlawfully holds or exercises within the state a franchise or public office, civil or military, or an office in a domestic corporation * * *."

In an action under this section it was held that

"Authority for an action by the Attorney General to declare the forfeiture of a corporate existence, as distinguished from annulment of the corporate charter, is found in Subdivision 1 of the Section 1948 of the Code of Civil Procedure, which authorizes such action against a person who usurps, intrudes into or unlawfully holds or exercises within the state a franchise," etc.

"No leave of court is required for the maintenance of an action under said section. The word 'person' as used therein includes a corporation." (Peo. vs. Bleecker St. & Fulton Fy. R. R. Co., 140 App. Div. 611; aff'd 201 N. Y. 594.)

Would it be policy to have the franchise of the Company annulled?

Under its certificate of incorporation, the company obtained a franchise which was good for 1,000 years, and which might be construed by the Company as being practically perpetual. As a franchise of this kind is transferable, it may be kept alive, even if it is not exercised, unless the State bring an action for the annulment thereof on account of non-user and abandonment, and in the absence of such an action, should any company which obtained this franchise desire to rebuild the road, it could do so at any time, and the local authorities would have very little power indeed to regulate either the manner in which this franchise should be exercised or the crossing of the

streets and highways which are intersected by the road. An indefinite or long-term franchise is contrary to the meaning and purpose of the Charter of the Greater New York City, as is clearly evidenced by a reading of the section therein relating to the terms of franchises and the control over the streets, which clearly and distinctly shows the intent of the framers—that under no circumstances should the City be absolutely divested of the control of its streets which it holds in sacred trust for the people. Should the Company desire to rebuild this road, it could probably obtain a new franchise, subject to the control and regulation of the local authorities of The City of New York as to the portions of its route within the Greater City.

Again, as long as a company retains its rights, the City must always take them into consideration. The incomplete right of way runs through a section in which the streets have not yet been opened or the layout determined upon, and as many streets are now being contemplated and their layout approved in this section, it will always necessitate the consideration by the public authorities of the rights of the Railroad Company. This latter point is aptly illustrated at the present time in a matter pending before the Board of Estimate and Apportionment concerning the adoption of a tentative plan of the street layout in the Creedmoor section, in which the Company requested that its rights be taken into consideration, and the City has found it necessary to request the Corporation Counsel for an opinion as to the power of the City to lay out and acquire the streets across unused railroad land, causing not only delay, but also (in the event of an adverse opinion) needless expense to the City, from which it derives practically no benefit, and enables the Railroad Company to hold intact a right of way and a franchise which it might never find desirable to use.

One other point to be considered before closing this report is that the Central Railroad Company of Long Island appears to have failed to comply with section 28, subdivision 5 of chapter 140 of the Laws of 1850, as amended by chapter 582, Laws of 1864, which laws required the consent of the local authorities to cross any highways in cities and an order of the Supreme Court to cross any highways in towns, in which latter case the order was to be obtained in the Supreme Court of the district in which the highways were located. As this railroad was wholly located in the towns of Flushing and Hempstead at that time, it was necessary to obtain an order of the Supreme Court. A search of the records in the Queens County Clerk's office, in which county these two towns were located, fails to reveal that any such orders were ever obtained.

The following highways appear to have been in existence prior to the time when the Company filed the map of its proposed route: Lawrence street, Remsen avenue, Jamaica avenue, Foster's road (now Lawrence road), Fresh Meadow road, Queens road, Black Stump road, Rocky Hill road, Alley road and Jericho turnpike, all of which appear on the map of route filed by the Central Railroad Company on May 22, 1871, and a copy of which is on file in this office. While it is true that the Railroad Company acquired the rights of the abutting property owners to eight of these highways (heretofore mentioned in this report) which were crossed by its railroad, yet the fact remains that these highways were used as public highways prior to the time that the Company obtained its rights to them, and also before the construction of the road, and therefore it would seem that the public retained its paramount rights in these highways, and that, in order for the Company to construct its road across these highways, it would require an order of the Supreme Court, notwithstanding the fact that the Company had obtained the rights of the abutters, as before mentioned. In support of this contention I would cite the following decisions:

"The rights of the public to use the streets not only for travel but for sewer, gas, etc., pipes and for like purposes is, of course, paramount to any private or proprietary rights of the abutter." (Dillon on Municipal Corporations, 5th Edition, Volume 3, page 1774.)

"A public highway, while primarily intended for ordinary means of locomotion, is nevertheless in a broader sense a public convenience. When taken for street purposes nothing remains in the owner but the naked fee. By the taking, the public acquired a right of free passage over every part thereof, not only by the means in use when taken, but by such other means as progress warrants or the increase of or improvement in the method of business or locomotion requires." (Castle vs. Bell Telephone Company, 49 App. Div. 437.)

"An abutter owning fee of highway is entitled * * * to the entire use of the land except the right which the public has to use the land and the material thereon for the purpose of building and maintaining a highway suitable for the safe passage of travelers." (Cole vs. Drew et al., 44 Vt. 49.)

It would therefore seem that if the Company did not obtain such a court order allowing it to cross these highways, pursuant to chapter 562, Laws of 1864, it was illegally operating its road across them at the time of its operation.

In conclusion, it would seem that an action by the Attorney General to annul the franchise of the Central Railroad Company of Long Island (now held by the Long Island Railroad Company) would lie, on account of nonuser and abandonment of part of its route, and it would seem desirable that such an action be brought, because it would thereby eliminate a partly abandoned franchise having a term of 1,000 years, such a long-term franchise being contrary to the intent of the framers of the Charter of The City of New York, and, finally, in the event of such an action being successful, it would make it unnecessary to further consider the rights of the Railroad Company in this unused right of way in the future when the City is laying out its streets in this section.

On Sunday, March 22, 1914, an article appeared in the "New York Times" and "New York Press," in which it was stated that the old Stewart line was to be rebuilt by property owners along the line of this route, who were to subscribe sufficient funds for this purpose, and that the Long Island Railroad Company had agreed to operate the road upon its completion. I tried to verify this rumor, but was unable to obtain any definite information. I might here add that in the event of this rumor being true, it would be a wise plan on the part of the City to have the question of the franchise of this Company finally settled, as it would thereby eliminate the possibility of any further controversies as to the rights of the Railroad Company.

Respectfully,

MARTIN J. KARL, Clerk.

Proposed Resolution.

Whereas, It appears from a report presented this day by the Bureau of Franchises that the Central Railroad Company of Long Island, or its successors, has not operated a greater portion of its railroad within the City limits, in the Borough of Queens, since 1879, and that no certificate of abandonment has been filed by the Central Railroad Company of Long Island, or its successors; and

Whereas, The City, at the present time, is determining upon the street layout system in this section of the Borough of Queens, and as it seems desirable that any question as to existing rights of any railroad company be settled at this time; now, therefore, be it

Resolved, That the Corporation Counsel is directed to examine the report presented by the Bureau of Franchises, and if, in his opinion, the facts justify the same, he is further directed to request the Attorney General to commence an action under section 1948 of the Code of Civil Procedure, or any other statute, which will determine any rights which this Company, or its successors, may have to reconstruct and operate a railroad under its Charter, and to advise the Board on or before June 29, 1914, of his conclusions in the premises.

E. B. Newburn appeared on behalf of the Company and requested the matter be laid over until the meeting of July 30, 1914.

The matter was referred to the Corporation Counsel for conference with the Company and to report his findings to the Board in sufficient time for action at the meeting of July 30; by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Commerce Telegraph Company (Cal. No. 62).

In the matter of the petition for a franchise to conduct a messenger business in the portion of the Borough of Manhattan lying south of Fulton Street.

This petition was presented to the Board at the meeting of June 27, 1912, and was referred to the Bureau of Franchises.

The following was presented:

Bureau of Franchises, June 9, 1914.

Hon. JOHN PURROY MITCHEL, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—By a petition presented to the Board at its meeting held June 27, 1912, the Commerce Telegraph Company applied for a franchise to conduct a messenger business in that portion of the Borough of Manhattan lying south of Fulton Street. This Company was incorporated under the Transportation Corporations Law for the purpose of obtaining a grant from the City in order to validate the operations of the New York District Telegraph Company, to which the attention of the Board was called by the Commissioner of Water Supply in a communication presented to it at its meeting held April 25, 1912.

The New York District Telegraph Company was formed under the Business Corporations Law, and, under rulings of the Corporation Counsel, corporations so formed could not properly accept a franchise in the City of New York.

Upon investigation of the matter by this Bureau, it was found that the New York District Telegraph Company conducted a very small messenger business from an office located in 36 New Street, and that the returns from the said business were so small as to practically prohibit it from going to the necessary expense for advertising as required by Section 74 of the Charter, previous to its amendment at the last session of the Legislature. This is one company which I believed should not in justice be required to undergo such expense, and attention was called to the same in my report recommending the amendment of Section 74 of the Charter. Since this amendment has been passed, and the cost of advertising materially reduced, it is probable that the Company will be able to meet the same, and it is therefore desirable that this matter be progressed to final action. For this purpose it is recommended that a preliminary hearing be held upon the petition of the Company on Thursday, July 2, 1914.

A form of resolution for such hearing is transmitted herewith.

Respectfully, HARRY P. NICHOLS, Engineer, Chief of Bureau.

To the Board of Estimate and Apportionment, City of New York:

The Commerce Telegraph Company hereby applies for a franchise to do a Messenger business in the portion of the Borough of Manhattan, City of New York, South of Fulton Street, and to construct and conduct through such subway ducts electric wires for telephone, telegraph and signal purposes to use and operate the same exclusively for such business.

Dated, New York, June 18th, 1912. Respectfully submitted,

COMMERCE TELEGRAPH COMPANY, By DENNIS W. O'DAY, President.

(Seal.)

Attest: KATHERINE O'DAY, Secretary.

State of New York, County of New York, ss.:

On this 18th day of June, 1912, before me personally came Dennis W. O'Day, to me known, who, being by me duly sworn, did depose and say, that he resides in the Borough of Manhattan, City of New York; that he is the President of Commerce Telegraph Company, the Corporation described in and which executed the foregoing instrument; that he knows the seal of said corporation; that the seal affixed to said instrument is such corporate seal; that it was so affixed by order of the Board of Directors of said corporation, and that he signed his name thereto by like order.

(Notarial Seal.) ANNE M. LYNAM, Notary Public, New York Co., No. 148.

The following was offered:

Whereas, The foregoing petition from Commerce Telegraph Company dated June 18, 1912, was presented to the Board of Estimate and Apportionment at a meeting held June 27, 1912

Resolved, That, in pursuance of law, this Board sets Friday, the 18th day of September, 1914, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first considered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the petition and these resolutions shall be published for at least twice in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the CITY RECORD immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

Dear Sirs—I beg to report that his Honor the Mayor has approved, under date of June 13, 1914, the resolution adopted by the Board of Estimate and Apportionment on June 5, 1914, granting to the Hecker-Jones-Jewell Milling Company permission to construct, maintain and use a concrete tunnel under Water Street, Manhattan.

Respectfully, JOSEPH HAAG, Secretary.

Nassau Electric Railroad Company and The City of New York (Cal. No. 65).

The following communication from the Secretary was ordered printed in the Minutes and filed:

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, June 16, 1914.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

Dear Sirs—I beg to report that his Honor the Mayor, under date of June 12, 1914, has executed in the name of The City of New York and on behalf of the Board of Estimate and Apportionment, the stipulation, dated March 24, 1914, between The Nassau Electric Railroad Company and The City of New York, accepted by the Board at its meeting on May 1, 1914, in connection with the amendment of the proceeding for acquiring title to Stillwell Avenue, between 22d Avenue and 80th Street, Borough of Brooklyn, by including the section between 86th Street and Surf Avenue.

Respectfully, JOSEPH HAAG, Secretary.

From City, Borough and County Officials.

Petition for the Amendment of the Proceeding for Acquiring Title to Eliot Avenue from Metropolitan Avenue to Mt. Olivet Avenue and from Juniper Avenue to Queens Boulevard, by Excluding the Latter Section, Borough of Queens (Cal. No. 66).

(On May 15, 1914 (Cal. No. 162), the report of the Chief Engineer of the Board on the petition of Andrew Sauerwald and nine others, requesting the amendment of the proceeding for acquiring title to Eliot avenue, was presented and referred to the President of the Borough of Queens.)

The Secretary presented the following communication from the President of the Borough of Queens:

The City of New York, Office of the President of the Borough of Queens, June 11, 1914.

To the Honorable Board of Estimate and Apportionment:

Gentlemen—Upon May 15, 1914, the matter of the discontinuance of Eliot Avenue, from Juniper Avenue to Queens Boulevard, was referred to me, whereupon I took up the matter with the petitioners and other property owners. I find that the discontinuance of this proceeding hinges primarily upon an agreement, which might be reached with the Lutheran Cemetery, by which Eliot Avenue could be laid out through the cemeteries, and Wayland Avenue legally closed in substitution therefor.

Several conferences have been held with the cemetery authorities, and it is desirable to hold open the matter of the discontinuance of the Eliot Avenue proceeding until such time as the controversy relating to Wayland Avenue and Eliot Avenue within the cemetery lands is completed.

I would, therefore, ask your Honorable Board to instruct the Corporation Counsel to hold no further hearings on the opening proceeding of Eliot Avenue until this matter has been settled, at which time I will notify your Board.

Respectfully yours, MAURICE E. CONNOLLY, President.

The following was offered:

Whereas, At the meeting of the Board of Estimate and Apportionment held on May 15, 1914, a petition for the discontinuance of the proceeding for acquiring title to Eliot Avenue, Borough of Queens, in so far as it relates to the section east of Juniper Avenue, was referred to the President of the Borough of Queens for consideration and report; the proceeding for acquiring title to Eliot Avenue from Metropolitan Avenue to Mount Olivet Avenue, and from Edith Place to Queens Boulevard having been authorized on January 11, 1912, and amended on October 30, 1913, by the exclusion of the two blocks between Edith Place and Juniper Avenue; and

Whereas, Under date of June 11, 1914, the President of the Borough of Queens has advised the Board that the discontinuance hinges primarily upon an agreement which might be reached with the Lutheran Cemetery under which Eliot Avenue could be laid out through the Cemeteries, and Wayland Avenue legally closed in

substitution therefor, and that it is desirable to hold open the matter of the discontinuance until such time as the negotiations relating to Wayland Avenue and Eliot Avenue within the Cemetery land are completed; be it

Resolved, That the Board of Estimate and Apportionment hereby requests the Corporation Counsel to suspend action in the proceeding for acquiring title to Eliot Avenue until the President of the Borough of Queens has come to an agreement with the cemetery authorities, and reports his recommendations to the Board.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Public Charities—Retirement of Mary Bracken, a Hospital Helper (Nurse) (Cal. No. 67).

(On July 31, 1913, a communication from the former Commissioner of Charities, recommending the retirement of the above employee, was presented to the Board and referred to the Committeee on Salaries and Grades.)

(On January 9, 1914, the report of the Committee on Salaries and Grades, recommending that the request be denied, for the reason that the employee in question objected to retirement, and further that the Medical Examiner of the Department of Finance reported that she was physically able to perform the duties of her position, was presented to the Board and laid over two weeks.)

(On January 23, 1914, the matter was referred back to the Commissioner of Public Charities (Cal. No. 16).)

The Secretary presented a communication dated June 5, 1914, from the Commissioner of Public Charities, stating that every reasonable effort has been made to place this employee in a position suitable to her age and general physical condition at which she would be willing to stay for the amount which could be paid her, but she refuses to do any work for less than the $40 per month, which she was receiving as Hospital Helper, and further stating that, in view of the fact that Miss Bracken is apparently unwilling to accept a position and render services for such pay as her capability for work justifies her receiving, he is obliged to report that he does not believe it wise or profitable to do anything further, and with the approval of the Board, will drop her name from the payroll of the Department.

Which was referred back to the Commissioner of Public Charities for action at his own discretion.

Telegraph and Telephone Electric Wires on White Plains Road, from Gun Hill Road to the Northerly City Line (Cal. No. 68).

On May 15, 1914, a communication was received from the President of the Borough of The Bronx requesting that the wires on White Plains road, from Gun Hill road to 242d street, be placed underground, and said communication was referred to the Bureau of Franchises.

On June 5, 1914, a report was received from said Bureau suggesting that the Commissioner of Water Supply, Gas and Electricity, furnish the names of the corporations or persons owning the wires or poles in this locality and as to the authority under which the permit for the construction of same was granted.

A communication was received from the Corporation Counsel relative to the right of the Empire City Subway Company, Limited, to construct conduits in this vicinity.

Which was referred to the Bureau of Franchises.

Proposed Amendments to the Labor Law, Affecting the Forfeiture of Contracts by Contractors for Violation of the Provision of Said Law; Hearings Before State Factory Commission (Cal. No. 69).

The Secretary presented the following communication from the General Contractors' Association of New York, dated June 13, 1914:

The General Contractors' Association, 51 Chambers Street, New York, June 13, 1914.

The Honorable the Board of Estimate and Apportionment, Municipal Building, New York City, N. Y.:

Dear Sirs—Some weeks ago the Public Service Commission requested the contractors of The City of New York to attend a conference at its office, for the purpose of devising some way of avoiding the interminable controversies between the labor unions and the contractors, respecting the labor law, and particularly, with respect to the provisions of the law requiring the contractors to pay to their employees the prevailing rate of wages for an eight-hour day.

The contractors individually, and the General Contractors' Association, responded to the invitation, and a general discussion ensued at which the conclusion was reached that not only were contractors put in unfair jeopardy by reason of the onerous provisions of the law providing for a forfeiture of their contracts for any violation of the provisions of the law, however small, and whether intentional or unintentional, but also these provisions militated against a fair decision of the questions presented by the laboring people, inasmuch as there was no half way ground between deciding that the contractors had not violated their contracts, and forfeiting their contracts for such violations.

It was agreed that the law ought to be amended by striking out the provision for forfeiture, and by inserting in lieu thereof in the law, provisions for fines against the contractor, the amount to be measured by the determination whether the contractor's violation was conscious or unconscious. It was further agreed that the provision requiring the withholding of contract payments pending the determination of the question, worked an undue hardship upon the contractor, and that such provision is unnecessary where there is a substantial retained percentage, provided the forfeiture provision of the law is eliminated.

It was stated at this conference, by representatives of the Public Service Commission, that it was thought that not only the Commission but the Board of Estimate and Apportionment, would be glad to aid the contractors in endeavoring to so amend the law.

The State Factory Commission will hold hearings in The City of New York during the week beginning June 22d, in order to obtain information upon which to prepare proposed amendments to the labor law, at the next session of the Legislature, and has designated Friday, June 26th, for hearings on the operation of the law with regard to public work.

At these hearings the General Contractors' Association proposes to make suggestions to the Commission for amendments to the labor law along the lines hereinbefore outlined.

If these suggestions meet with the approval of the Board of Estimate and Apportionment and of the Public Service Commission of The City of New York, they will carry much greater weight than if presented by the contractors only, and to that end, we respectfully request you to refer the matter to the Corporation Counsel of The City of New York, with a request that he attend at said hearings to voice your views, which we trust will be in accordance with those herein outlined.

The contractors of The City of New York are not in any way desirous of violating the law but, under the peculiar phraseology of the labor law, they can never be certain from day to day that they may not have unconsciously forfeited their contracts, and it is a matter of great moment to them, and incidentally to The City of New York, that they be assured when they bid for contracts that no unconscious violation of the law will subject them to the loss thereof.

Very truly yours, C. A. CRANE, Secretary.

Mr. J. F. McKinney, representing Edward M. and Paul Grout, appeared on behalf of the New York Contractors' Association in favor of the proposed amendments.

On motion, the Corporation Counsel was requested to represent the City at the hearing to be held on June 26, 1914, by the State Factory Commission.

Establishment and Maintenance of Museums of the Peaceful Arts; and Selection of Proposed Site, Borough of Manhattan (Cal. No. 70).

The Secretary presented a communication, dated June 4, 1914, from the Committee on Site of the Association for the Establishment and Maintenance, for the People, in The City of New York, of Museums of the Peaceful Arts, relative to the proposed erection and equipment of several museums in The City of New York to contain exhibits of industries, etc., and stating that, subject to the approval of The City of New York, a site has been selected comprising the area now under water west of the land occupied by the tracks of the New York Central Railroad and extending from 96th to 110th streets, in the Borough of Manhattan.

Which was referred to the Committee on the City Plan and to the Committee on Port and Terminal Facilities.

Public Service Commission for the First District—Approval of Award of Contract for the Construction of Section 2, Routes 4 and 36 of the Rapid Transit Railway, Beginning at Broadway and 26th Street and Extending to West 38th Street, Manhattan, and Issue of Corporate Stock Therefor (Cal. No. 71).

(On May 28, 1914 (No. 189), a communication from the Public Service Commission, requesting approval of the award of contract for the construction of Sec. 2, Routes 4 and 36 (beginning at Broadway and 26th street and extending to West 38th street, in the Borough of Manhattan), and also to authorize the issue of corporate stock to meet the requirements thereof, was presented to the Board and referred to the Comptroller and Bureau of Contract Supervision.)

The Secretary presented communications from the President of the Fourth Avenue Improvement Association, the Vice-President of the Lexington Avenue Association and the chairman of the Executive Committee of the Seventh Avenue Association, dated June 11 and 13, 1914, on the report of Lloyd Collis, Consulting Engineer, relative to the proposed contract for the construction of that section of the Broadway Subway passing under 34th street, and requesting that said contract be returned to the Public Service Commission with the recommendation that the plans be so changed as to maintain the original scheme of subways at this intersection.

Which were referred to the Comptroller and to the Bureau of Contract Supervision, and the Secretary was directed to send copies of the communications to the members of the Board.

Public Service Commission for the First District—Approval of Award of Contract for the Construction of Section No. 1-A of Routes 4 and 38 of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, and Issue of Corporate Stock Therefor (Cal. No. 72).

The Secretary presented a communication from the Secretary of the Public Service Commission, dated June 12, 1914, transmitting for the consent of the Board, proposed contract between the City of New York, Interborough Rapid Transit Company and Rapid Transit Subway Construction Company for the construction of Section No. 1-A of Routes 4 and 38 of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, known as the Battery Park Connection, in the Borough of Manhattan; also requesting the Board to authorize the issue of $23,712.20 corporate stock to meet the estimated expense to the City of executing such contract.

Which was referred to the Comptroller and to the Bureau of Contract Supervision.

Public Service Commission for the First District—Approval of Award of Contract for the Construction of Section No. 7 of Route No. 5 of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, and Issue of Corporate Stock Therefor (Cal. No. 73).

The Secretary presented a communication from the Public Service Commission, dated June 16, 1914, requesting the Board to consent to the proposed contract between The City of New York, Interborough Rapid Transit Company and Rapid Transit Subway Construction Company, for the construction of Section No. 7 of Route No. 5 of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad (beginning at a point under Lexington avenue, near the southerly building line of East 43d street, and extending to a point about 50 feet north of the centre line of East 53d street, in the Borough of Manhattan), also requesting the Board to authorize the issue of $957,582.50 corporate stock to pay the entire estimated expense to the City of executing such contract.

Which was referred to the Comptroller and to the Bureau of Contract Supervision.

Public Service Commission for the First District—Acceptance and Approval of Work on the Railroad Avenue Foot Subway of the Long Island Railroad Company (Cal. No. 74).

The Secretary presented a communication from the Secretary of the Public Service Commission, dated June 12, 1914, transmitting certified copy of resolution adopted by the Commission on June 12, 1914, accepting and approving the work on the Railroad Avenue Foot Subway of the Long Island Railroad Company, and directing a hearing on June 19, 1914, for an accounting.

Also a communication from the Acting Corporation Counsel, dated June 15, 1914 (R-3624), advising the Board of the receipt of a certified copy of the above resolution from the Public Service Commission.

Which were placed on file, and the Chief Engineer of the Board was requested to attend the hearing before the Public Service Commission.

Public Service Commission for the First District—Transit Situation of Brooklyn (Cal. No. 75).

The Secretary presented a communication from the Ridgewood Board of Trade of Brooklyn, dated June 10, 1914, stating that it is the opinion that the transit situation of Brooklyn imperatively demands the active interference of the Board of Estimate in order that progress may be made, and stating further, that Route 41, which is one of the contract routes, has been absolutely neglected by the Public Service Commission.

Which was referred to the Committee on Transit.

Department of Docks and Ferries—Appropriation to Provide Music for the Recreation Piers (Cal. No. 76).

The Secretary presented a communication from the President of the Parks and Playgrounds Association of the City of New York (Incorporated), dated June 11, 1914, urging the Board to make an appropriation to provide afternoon music on the recreation piers. It is the intention of the association to co-operate with the Department of Docks and Ferries in conducting organized play on the recreation piers, as has been done during the past four summer seasons.

Which was referred to the Committee on Social Welfare.

Inspector	1,200 00	6

This request is in connection with the request for an appropriation for the establishment of a model street cleaning district, referred to the Committee on Corporate Stock Budget and Committee on Street Cleaning on June 5, 1914 (Cal. No. 78).

Which was referred to the Committee on Salaries and Grades.

Public Administrator, Kings County—Establishment of Position of Agent and Custodian, and Issue of Special Revenue Bonds Therefor (Cal. No. 96).

The Secretary presented a communication from the Public Administrator, Kings County, dated June 16, 1914, requesting establishment in his office of the position of Agent and Custodian at $1,200 per annum, and further requesting issue of special revenue bonds to the amount of $500, to provide for the salary of said position from August 1, 1914.

The matter of the establishment of the grade of position was referred to the Committee on Salaries and Grades and the issue of special revenue bonds was referred to the Comptroller.

Department of Water Supply, Gas and Electricity—Lighting Streets Darkened by the Arches and Overhead Work of the New York Connecting Railroad Company, Borough of Queens (Cal. No. 97).

The Secretary presented a communication from the Commissioner of Water Supply, Gas and Electricity, dated June 9, 1914, relative to the necessity for properly lighting the streets darkened by the arches and overhead work of the New York Connecting Railroad Company in the Borough of Queens.

The communication states that upon investigation of the rights of the New York Connecting Railroad Company it is found that in the certificate dated February 14, 1907, issued by the Board of Rapid Transit Railroad Commissioners to the Railroad Company, the following condition was prescribed:

"The railroad company shall, at its own expense, light the space beneath all superstructures which it shall erect across streets and the approaches to stations, in a manner which shall be satisfactory to the Board of Estimate and Apportionment."

The Commissioner requests to be advised whether under the provisions of the Charter he shall proceed to make the necessary arrangements with the railroad company to properly light the streets under their overhead construction at their expense.

Which was referred to the Chief Engineer of the Board for report.

Proposed Reduction in Width of Holland Avenue, Between Baker Avenue and Hunt Avenue, Borough of The Bronx (Cal. No. 98).

The Secretary presented the following communication from the President of the Borough of The Bronx:

City of New York, President of the Borough of The Bronx, Third Avenue and 177th Street, Office of the President, June 10, 1914.

Board of Estimate and Apportionment, Municipal Building, Manhattan:

Gentlemen—On May 19, 1914, the Local Board of Chester adopted a resolution recommending to the Board of Estimate and Apportionment a reduction of width of Holland Avenue from sixty (60) feet to fifty (50) feet between Baker Avenue and Hunt Avenue.

Under date of May 4, 1914, Mr. Joel J. Squier, Assistant Corporation Counsel in charge of the Bureau of Street Openings, informed me that the Commissioners in the matter of acquiring title to Cruger Avenue, from Baker Avenue to Rhinelander Avenue, and consolidated proceedings, would complete the hearing of testimony regarding damage parcels in this proceeding, excepting those contained within the lines of Holland Avenue, and that the said Commissioners must, within a reasonable time, proceed to hear testimony offered on Holland Avenue, unless the proceedings be adjourned.

A map showing the reduction of width of Holland Avenue is to be forwarded to the Board of Estimate and Apportionment at an early date, and in view of this fact, I would request that the Board pass a resolution requesting the Corporation Counsel to have the proceedings adjourned, pending the disposition of the proposed map change. Very truly yours,

DOUGLAS MATHEWSON, President of the Borough of The Bronx.

The following was offered:

Whereas, Under resolutions adopted by the Board of Estimate and Apportionment on March 7, 1912, and June 26, 1913, proceedings were authorized for acquiring title to Cruger Avenue, between Baker Avenue and Rhinelander Avenue, and between White Plains Road and Bronx and Pelham Parkway; Holland Avenue, between Baker Avenue and Hunt Avenue; Rhinelander Avenue, between White Plains Road and Cruger Avenue; and Hunt Avenue, between Rhinelander Avenue and Bear Swamp Road, Borough of The Bronx; and

Whereas, Under date of June 10, 1914, the President of the Borough of The Bronx has advised the Board that on May 19, 1914, the Local Board of the Chester District adopted a resolution recommending a reduction of the width of Holland Avenue from 60 feet to 50 feet between Baker Avenue and Hunt Avenue; be it

Resolved, That the Corporation Counsel be and he hereby is requested to suspend action in the foregoing proceedings, pending the disposition of the proposed reduction in the width of Holland Avenue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

All City Departments—Submission of Plans, Specifications, Etc. (Cal. No. 99).

The Secretary presented the following:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 13, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—A number of departments still follow the custom of sending plans, specifications and estimates of cost direct to the Finance Department instead of to the Board of Estimate and Apportionment. This causes needless annoyance and work in the Comptroller's office. Under the rules, plans, specifications and estimates

of cost are referred to the Bureau of Contract Supervision in the Board of Estimate and Apportionment and they should be submitted directly to the Board of Estimate and Apportionment. I request that this Board give notice to the departments that plans, specifications and estimates of cost should be submitted through the Secretary of the Board and that two complete sets be submitted in every case. The two sets are necessary as the original must be kept in the files of this Board and the duplicate is required by the department.

Attached hereto is a resolution which, if adopted, will carry this recommendation into effect. Respectfully, TILDEN ADAMSON, Director.

The following resolution was offered:

Resolved, That the Secretary of the Board of Estimate and Apportionment is hereby directed to notify all departments, boards, bureaus and offices in the City and County governments that two sets of all plans, specifications, estimates of cost and forms of contract for construction or for the services of architects must be submitted directly to the Board of Estimate and Apportionment.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Children's Court, Brooklyn—Appropriation for Acquisition of Site (Cal. No. 100).

The Secretary presented a memorandum and resolution submitted by the Comptroller, relative to an appropriation for the acquisition of a site and the erection of a suitable Children's Court building in the Borough of Brooklyn.

Which were referred to the Committee on Corporate Stock Budget.

MATTERS LAID OVER FROM PREVIOUS MEETINGS.

President, Borough of Queens—Modification of Schedule (Cal. No. 101).

(On May 1 and again on May 22, 1914 (Cal. No. 58), the report of the Committee on Salaries and Grades on this matter was laid over.)

The Secretary presented the report of the Commitee on Salaries and Grades, recommending, in view of the statement submitted by the Bureau of Standards, that the request of the President of the Borough of Queens, dated March 24, 1914, for the modification of Salary Schedule No. 695, to provide for increasing the salary of a Plan Examiner from $1,050 to $1,200 per annum, be considered by the Committee on Tax Budget in connection with the Budget for the year 1915.

Which was laid over for two weeks (July 2, 1914).

Department of Taxes and Assessments—Modification of Schedule (Cal. No. 102).

(On April 17 and 24, on May 1, and again on May 22, 1914 (Cal. No. 59), the report of the Committee on Salaries and Grades was laid over on the latter date to June 19.)

The Secretary presented the report of the Committee on Salaries and Grades, referring to the request of the Board of Taxes and Assessments for the readjustment of Salary Schedule No. 151 for said Department for the year 1914, to provide for an increase in the salary of a Clerk from $750 to $900 per annum, by reducing a vacant position of Clerk at $750 to $540 per annum, also to the report of the Bureau of Standards on said request, wherein it is stated that if the request of the Tax Department could properly be considered by itself and on its own merits, it could be granted, but that an increase for one Clerk should be considered only as a part of a general readjustment of the salaries of all Clerks in the Department doing the same kind of work.

The Committee believes that the present request should be returned to the Tax Department pending such an adjustment of the salary schedule as will bring the compensation of the large group of Clerks doing the same kind of work within the minimum and maximum rates from $1,050 to $1,500, and if the board *approves* this course it is the intention of the Committee, pending the adoption of the Budget for 1915, to treat similar applications from all Departments in their relation to adjustments which will bring the compensation for different kinds of work within well-defined maximum and minimum compensation limits.

Which was laid over for two weeks (July 2, 1914).

Department of Docks and Ferries—Establishment of Grade of Position of Assistant Engineer and Modification of Schedule (Cal. No. 103).

(On April 3, 1914, the request of the Commissioner of Docks was referred to the Committee on Salaries and Grades.)

(On April 24, 1914, a communication was presented from the Commissioner of Docks withdrawing the request, and the report of the Committee was laid over for one week.)

(On May 1, and again on May 22, 1914 (Cal. No. 61), the matter was laid over; on the latter date, to June 19.)

The Secretary presented a report of the Committee on Salaries and Grades, referring to the request of the Commissioner of Docks for the establishment of the grade of position of Assistant Engineer at $5,000 per annum for 2 incumbents and the revision of salary schedule for the year 1914, in order to provide increases in salaries for Romeo T. Betts and Charles E. Trout, Assistant Engineers, from $4,000 to $5,000, and of Philip Guise, Assistant Engineer, from $2,700 to $4,000 per annum.

The Committee recommends, in view of the statements submitted by the Bureau of Standards, that so much of the request as relates to increasing the salaries of Messrs. Betts and Trout, *be denied*, but that the request for increasing the salary of Mr. Guise be returned, without prejudice, to the Commissioner of Docks, as on the merits of the case the work performed by Mr. Guise warrants a higher compensation, but it is believed that the question of increased compensation should be considered in the Budget request for the year 1915 as a part of the problem of readjustments of compensation in said Department.

Which was laid over for two weeks (July 2, 1914).

John DeWitt Warner, Claim of (Cal. No. 104).

(On June 5, 1914 (Cal. No. 34), the report of the Comptroller was laid over until this meeting.)

The Secretary presented the report of the Comptroller certifying, pursuant to section 246 of the Charter, claim of John DeWitt Warner, in the sum of $6,023.39, without interest, for services as special counsel to the Dock Department, between December 28, 1911, and December 31, 1912, in connection with the freight terminal development of the Port of New York.

Which was laid over until July 30, 1914, and the Secretary was directed to request the claimant to appear before the Board in support of his claim.

New York, New Haven & Hartford Railroad Company (Cal. No. 105).

In the matter of the application for permission to continue to maintain and use a conduit under and across East 149th Street, Borough of The Bronx, for the purpose of conducting electrical current across said street.

A report and form of consent was received from the Bureau of Franchises at the meeting of May 15, 1914, when action was deferred until the meeting of June 5, 1914, and the matter was then laid over until this day.

At the request of the President of the Borough of The Bronx, the matter was laid over until the meeting of July 2, 1914.

President, Borough of The Bronx—Approval of New Estimate of Cost, Etc. (Cal. No. 106).

(On May 22 and 28, and again on June 5, 1914 (Cal. No. 108), this matter was laid over; on the latter date, to June 19.)

The Secretary presented a report of the Bureau of Contract Supervision, recommending the approval of a new estimate of cost in the sum of $7,455 for furnishing and installing electric and gas fixtures in the Bronx Borough Court House, under the jurisdiction of the Borough President.

As originally submitted, the specifications for these fixtures would have involved an expenditure of approximately $15,000. Changes were made to reduce the cost to $7,000. The lowest of five bids received was that of Wahle Phillips Company for $7,455. Under present market conditions this bid is reasonable.

Which was laid over for two weeks (July 2, 1914).

Amending the Proceeding for Acquiring Title to Queens Boulevard, from Van Dam Street to Hillside Avenue, Borough of Queens (Cal. No. 107).

(After a public hearing on June 12, 1914 (Cal. No. 10), this matter was laid over for one week.)

The Secretary presented report of the Chief Engineer stating that a proceeding for acquiring title to this street was instituted on October 19, 1911, and the oaths of the Commissioners were filed on November 14, 1912; that maps have since been approved embodying certain modifications in the street alignment, an additional modification at Yellowstone avenue, and also providing for the ratification of the street lines at Maple Grove Cemetery, the legality of which had been questioned, and recommending that provision be made for correspondingly modifying the scope of the opening proceeding.

The matter was again laid over for one week (June 26, 1914).

Damage Map for Section No. 7 and Supplementary Rule and Damage Map in the Proceeding for Acquiring Title to Queens Boulevard, from Van Dam Street to Hillside Avenue, Borough of Queens (Cal. No. 108).

The Secretary presented a report of the Chief Engineer of the Board, stating that the proceeding for acquiring title to this street was instituted on October 19, 1911. The rule map and the greater portion of the damage maps have heretofore been approved, and the Commissioners filed their oaths on November 14, 1912. June 12, 1914, was set as the date for a public hearing concerning the amendment of this proceeding to make it conform with certain map changes recently effected. At the close of the hearing on June 12 (Cal. No. 16), the matter of amending the proceeding was laid over for one week.

The matter was again laid over for one week (June 26, 1914).

The matter was again laid over for one week (June 26, 1914).

Fire Department—Issue of Corporate Stock (Cal. No. 109).

(On March 13, 1914 (Cal. No. 53), the request from the Fire Commissioner in this matter was referred to the Committee on Corporate Stock Budget.)

(On June 12, 1914 (Cal. No. 30), the report of the Committee on Corporate Stock Budget thereon was laid over for one week under Rule 19.)

The Secretary presented a communication from the Fire Commissioner, dated March 10, 1914, requesting an issue of corporate stock in the sum of $249,870, for the purchase of motor apparatus; and the following report of the Committee on Corporate Stock Budget, recommending an issue of $200,000 corporate stock:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, May 27, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On March 13, 1914, you referred to this Committee a communication from the Fire Commissioner, dated March 10, 1914, requesting $249,870 in corporate stock for the purchase of motor apparatus for the Fire Department, as follows:

30 tractors, at $3,750	$112,500 00
20 auto tenders, at $4,045	80,900 00
5 auto hook and ladder trucks, at $7,394	36,970 00
3 gasoline motor-driven pumping engines, at $6,500	19,500 00
	$249,870 00

The 30 tractors and 20 tenders will permit of a reduction of 140 horses in service in the Department. The estimated average life of a tractor or tender is twenty years.

The annual tax Budget cost of renewal and maintenance of 140 horses and equipment is approximately $31,185. A similar cost of the proposed motor apparatus, including interest and amortization on $193,400, 4¼ per cent. twenty year corporate stock, and also gasoline, oil and repairs to motors, is $25,513.98. If the additional $56,470 were allowed for the five auto trucks and three engines, which are requested in order to provide spare motor apparatus, the total annual budgetary cost would be $30,014.63. The detail of this comparison is as follows:

Annual Tax Budgetary Cost of 140 Horses and Equipment.

Annual purchase to replace, on a seven year life basis, 20 horses, at $350	$7,000 00
Forage, 140 horses, at 35 cents per day	17,885 00
Stable equipment	500 00
Harness and repairs	900 00
Horseshoeing, 140 at $35	4,900 00
	$31,185 00

Annual Tax Budgetary Cost of Maintenance of 30 Tractors, 20 Auto Tenders and Repairs for Same, and for 5 Trucks and 3 Engines (Spares), Including Amortization and Interest on $249,980, 20 Year Corporate Stock.

Interest, 4¼ per cent. on $249,870	$10,619 47
Installments payable .0372 on $249,870	9,295 16
Gasoline	1,500 00
Lubricating oil	600 00
Repairs, 30 tractors at $200, and 20 tenders at $100	8,000 00
	$30,014 63

The gasoline, lubricating and repair cost is additional to similar expenses for the present apparatus, and applies to the motor feature only; it is expected that the apparatus repairs will remain the same. The gasoline is allowed upon a mileage basis; the actual cost for the first year will be considerably higher, due to the "breaking in" of chauffeurs.

It appears, from an economic point of view, without even considering the increased efficiency of the motors, that the purchase of apparatus out of the proceeds of twenty year corporate stock would be advantageous, as compared with horse maintenance.

It is stated that the necessity for the purchase of the apparatus at this time is due to the lowered efficiency of the live stock of the Department; and that during this year, it is intended to sell at auction all horses which have fallen below the Department standard.

There will undoubtedly be considerable need for either tractors or horses, because no horses have been purchased recently and less than the usual annual supply purchased for some period back. An appropriation of $79,000 for apparatus in the 1914 Budget, was allowed in lieu of horses and forage. When this is expended the number of horses will be reduced to about twelve hundred, of which it is stated many will be below the standard.

In order to meet this condition and to provide such additional apparatus, as newly organized companies may require, and spare motor apparatus, it will be necessary to approve the request, at least, in part.

The progressive policy in Fire Departments to-day is for the complete motorization of all apparatus, because of the economy of maintenance as compared with horses. To meet the cost of the complete motorization of the Department would require at least one million three hundred and fifty thousand dollars.

As compared with twenty-year corporate stock, it would be even more economical if a gradual motorization of the Department were provided for out of tax Budget funds from year to year, as it becomes expedient to condemn horses. The necessary annual appropriation would not be very much in excess of what ordinarily would be appropriated for the purchase of horses, forage and other maintenance.

We believe that a large authorization of twenty-year corporate stock at this time, will, in addition to meeting present needs, provide a basis from which the gradual further and full motorization may be provided for by tax Budget allowances. Spare apparatus can be secured by tractoring present spares, and by releasing some of the engines in the high pressure districts.

We recommend the adoption of the attached resolution authorizing two hundred thousand dollars in twenty-year corporate stock for the purchase of motor tractors and motor tenders. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; DOUGLAS MATHEWSON, President, Borough of The Bronx, Corporate Stock Budget Committee.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding two hundred thousand dollars ($200,000), maturing not more than twenty (20) years after the date of issue, for the purpose of providing means for the purchase of new motor tractors and new motor hose tenders for the use of the Fire Department, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid; provided, however, that no part of the proceeds of the corporate stock herein authorized shall be available until

after the Board of Estimate and Apportionment has approved forms of contract, plans, specifications and estimates of cost pertaining to the same, and that no part of such proceeds shall be used for the payment of fees of any architect, engineer or expert until after a contract with such architect, engineer or expert has been approved by the Board of Estimate and Apportionment, and that no part of the proceeds of corporate stock herein authorized shall be used for the payment of any salary or wage of departmental employees, except after approval by the Board of Estimate and Apportionment and in accordance with the schedules to be adopted by said Board; and be it further

Resolved, That the Commissioner of the Fire Department is directed to submit to this Board for its approval forms of contracts, plans, specifications and estimates of cost prior to advertising for bids for work chargeable to the proceeds of the corporate stock herein authorized, and the said Commissioner is also directed to submit to this Board for its approval all preliminary and final agreements with an architect or architects, engineer or engineers, expert or experts whenever such agreements or contracts are chargable against corporate stock herein authorized.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Parks, Manhattan and Richmond—Issue of Corporate Stock (Cal. No. 110).

(On November 6, 1913 (Cal. No. 11), the request from the Commissioner of Parks, Boroughs of Manhattan and Richmond, in this matter, was referred to the Committee on Corporate Stock Budget.)

(On June 12, 1914 (Cal. No. 32), the report of the Committee on Corporate Stock Budget thereon was laid over for one week under Rule 19.)

The Secretary presented a communication from the Commissioner of Parks, Boroughs of Manhattan and Richmond, dated November 6, 1913, and the following report of the Committee on Corporate Stock Budget, recommending an issue of $142,000 corporate stock:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, May 8, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On November 6, 1913, the Commissioner of Parks, Boroughs of Manhattan and Richmond, requested an authorization of corporate stock to the amount of $150,000 to provide means for the repaving of Riverside Drive from 113th Street to the Viaduct near 129th Street, with a bituminous pavement.

During 1913, the roadway of Riverside Drive, exclusive of the service roads, and the area of the north approach to Cathedral Parkway, was repaved by the Department of Parks with a bituminous pavement on a concrete foundation, from 72nd Street to 113th Street.

It is now proposed to continue the repavement of the Drive with a similar pavement from 113th Street north, around the east side of the Grant's Tomb Reservation to the Viaduct, including the Viaduct Plaza, and thence southerly along the west side of the Grant's Tomb Reservation to the intersection at 120th Street.

This section of the driveway has recently been examined by engineers of the Bureau of Contract Supervision and is reported as being in extremely bad condition.

The superficial area proposed for repavement is 44,000 square yards.

The Engineers of the Bureau of Contract Supervision have estimated that the cost of the improvement should not exceed $142,000.

We recommend the adoption of the attached resolution which will improve the issue of corporate stock maturing not more than ten years after issue to the amount of $142,000 for repaving Riverside Drive from 113th Street to the Viaduct near 129th Street. Respectfully,

ALEX. BROUGH, Deputy and Acting Comptroller; GEORGE McANENY, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; DOUGLAS MATHEWSON, President, Borough of The Bronx; Corporate Stock Budget Committee.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding one hundred and forty-two thousand dollars ($142,000), maturing not more than ten (10) years after date of issue, to provide means for the repaving of the roadway of Riverside drive, from 113th street north around the east side of Grant's Tomb Reservation to the viaduct, including the viaduct plaza, and thence southerly along the west side of Grant's Tomb Reservation to the intersection at 120th street, with a bituminous pavement on a concrete foundation, under the jurisdiction of the Department of Parks, Boroughs of Manhattan and Richmond, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of The City of New York in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid, provided, however, that no part of the proceeds of the corporate stock herein authorized shall be available until after the Board of Estimate and Apportionment has approved forms of contracts, plans, specifications and estimates of cost pertaining to the same, and that no part of such proceeds shall be used for the payment of fees of any architect, engineer, or expert until after a contract with such architect, engineer or expert has been approved by the Board of Estimate and Apportionment, and that no part of the proceeds of corporate stock herein authorized shall be used for the payment of any salary or wage of departmental employees, except after approval by the Board of Estimate and Apportionment, and in accordance with the schedules to be adopted by said Board; and be it further

Resolved, That the Commissioner of Parks, Boroughs of Manhattan and Richmond, is directed to submit to this Board for its approval forms of contracts, plans, specifications and estimates of cost, prior to advertising for bids for work chargeable to the proceeds of the corporate stock herein authorized, and said Commissioner is also directed to submit to this Board for its approval all preliminary and final agreements with an architect or architects, engineer or engineers, expert or experts, whenever such agreements or contracts are chargeable against corporate stock herein authorized.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

President, Borough of Brooklyn—Issue of Corporate Stock (Cal. No. 111).

(On February 20, 1914 (Cal. No. 22), the request of the President of the Borough of Brookyln in this matter was referred to the Committee on Corporate Stock Budget.)

(On June 12, 1914 (Cal. No. 33), the report of the Committee on Corporate Stock Budget thereon was laid over for one week, under Rule 19).

The Secretary presented a communication from the President of the Borough of Brooklyn, dated February 6, 1914, and the following report of the Committee on Corporate Stock Budget:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 5, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—Under date of February 6, 1914, the President of the Borough of Brooklyn requested $4,800 for the reconstruction of sewers in Avenue V, between West 7th and West 8th Streets, and in 14th Avenue, between 61st and 62nd Streets, on account of the construction of the Sea Beach line of the dual subway system.

The present sewers under the tracks of the old Sea Beach line must be relocated. Under an agreement between the City and the Railroad Company, the City was required to relocate these sewers if the work should ever become necessary.

The Borough President has requested that this appropriation be made at once in order that the work may be completed before the existing sewers are destroyed. The property owners are not receiving any additional benefit on account of this change. The existing sewers were paid for by assessment. It is our opinion that the cost of this work should not be assessed for the reason that there is no additional benefit to the property owners and that the cost of the assessment would probably more than equal the cost of the sewers. Respectfully,

WM. A. PRENDERGAST, Comptroller; GEORGE McANENY, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; DOUGLAS MATHEWSON, President, Borough of The Bronx; Corporate Stock Budget Committee.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby determines that the whole cost and expense shall be borne and paid by The City of New York for the reconstruction of sewers in Avenue V, between West 7th and West 8th streets, and in 14th avenue, between 61st and 62nd streets, on account of the construction of the Sea Beach line of the dual subway system, in the Borough of Brooklyn; and be it further

Resolved, That for the purpose of providing the necessary means therefor the Comptroller be and is hereby authorized to issue corporate stock of The City of New York, pursuant to the provisions of sections 169 and 176 of the Greater New York Charter, to an amount not exceeding forty-eight hundred dollars ($4,800), the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid, provided, however, that no part of the proceeds of the corporate stock herein authorized shall be available until after the Board of Estimate and Apportionment has approved forms of contracts, plans, specifications and estimates of cost pertaining to the same and that no part of such proceeds shall be used for the payment of fees of any architect, engineer, or expert until after a contract with such architect, engineer or expert has been approved by the Board of Estimate and Apportionment and that no part of the proceeds of corporate stock herein authorized shall be used for the payment of any salary or wage of departmental employees except after approval by the Board of Estimate and Apportionment and in accordance with the schedules to be adopted by said Board; and be it further

Resolved, That the President of the Borough of Brooklyn is directed to submit to this Board for its approval forms of contracts, plans, specifications and estimates of cost prior to advertising for bids for work chargeable to the proceeds of the corporate stock herein authorized and said Borough President is also directed to submit to this Board for its approval all preliminary and final agreements with an architect or architects, engineer or engineers, expert or experts, whenever such agreements or contracts are chargeable against corporate stock herein authorized.

Which was adopted by the following vote:

(On June 12, 1914 Cal. No. 44), this matter was laid over for one week, under Rule 19.)

The Secretary presented the following communication from the Public Service Commission, dated April 27, 1914, and report of the Comptroller and the Chief Engineer of the Board:

State of New York, Public Service Commission for the First District, Tribune Building, 154 Nassau St., New York, April 27, 1914.

WILLIAM A. PRENDERGAST, Esq., *Comptroller, Department of Finance,* Municipal Building, New York City:

Dear Sir—I transmit herewith a certified copy of a resolution in Case No. 1431 adopted by the Commission at a meeting on April 24, 1914, authorizing a certificate of performance of work of carrying the widened portions of Jamaica Avenue beneath the tracks of The Long Island Railroad Company. Also transmitted herewith is an original certificate executed by the Commission in accordance with the resolution.

Please acknowledge receipt of the enclosure. Yours very truly,

TRAVIS H. WHITNEY, Secretary.

At a stated meeting of the Public Service Commission for the First District, duly held at its office, No. 154 Nassau Street, in the Borough of Manhattan, City and State of New York, on the 24th day of April, 1914.

Present—Edward E. McCall, Chairman; Milo R. Maltbie, John E. Eustis, J. Sergeant Cram, George V. S. Williams, Commissioners.

Case No. 1431—*Certificates of Performance of Work and Cost Thereof.*

In the matter of the application of The City of New York relative to opening across the tracks of the New York & Rockaway Beach Division of The Long Island Railroad Company, Jamaica Avenue, in the Fourth Ward of the Borough of Queens, City of New York.

A final order and determination having been made herein January 19, 1912, determining the manner in which the new or widened portions of Jamaica Avenue should be constructed to pass under the tracks of The Long Island Railroad Company, a copy of which order and determination is hereto attached and made a part hereof, and it appearing that The Long Island Railroad Company, pursuant to the provisions of the Railroad Law and under the supervision and direction of the Commission has completed the work of carrying the widened portions of Jamaica Avenue beneath the tracks of the Railroad Company and has submitted to the Commission an accounting verified March 3, 1914, showing the total cost of the improvement, including interest to March 1, 1914, to be $25,668.61, which includes an item of $450.34 expended by the Public Service Commission for the First District in supervising said work, which amount has been paid to the said Public Service Commission for the First District by The Long Island Railroad Company, and The City of New York having made no expenditures on account of the said improvement and the details of all expenditures having been reported to the Commission and examined by the Commission and by the Chief Engineer of the Board of Estimate and Apportionment of The City of New York.

Now therefore the Public Service Commission for the First District does hereby certify

First—That an order directing the manner of carrying the widened portions of Jamaica Avenue beneath the tracks of The Long Island Railroad Company was made by the Commission on January 19, 1912. A copy of the said order is hereto attached and made a part hereof.

Second—That the said crossing is situated at the interesection of Jamaica Avenue with the tracks of the New York & Rockaway Beach Division of The Long Island Railroad in the Fourth Ward of the Borough of Queens, City of New York.

Third—That on July 5, 1912, and July 15, 1913, orders were made extending the time for completion of the said work.

Fourth—That on October 28, 1913, an order was made approving and accepting the work.

Fifth—That the total necessary expenditure made by The Long Island Railroad Company in carrying the widened portions of Jamaica Avenue beneath the railroad tracks, with interest to March 1, 1914, was $25,668.61; that the one-half share of the total necessary cost to be borne by The City of New York including interest to March 1, 1914, is $12,834.30.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, by EDWARD E. McCALL, Chairman.

Attest: TRAVIS H. WHITNEY, Secretary.

(Seal.)

State of New York, County of New York, ss.:

I, Travis H. Whitney, Secretary of the Public Service Commission for the First District, do hereby certify that I have compared the above with the original adopted by said Commission on April 24, 1914, and that it is a correct transcript therefrom and of the whole of the original.

In Testimony Whereof, I have hereunto subscribed my hand and affixed the seal of the Commission, this 27th day of April, 1914.

(Seal) TRAVIS H. WHITNEY, Secretary.

At a stated meeting of the Public Service Commission for the First District, duly held at its office, No. 154 Nassau Street, Borough of Manhattan, City and State of New York, on the 19th day of January, 1912.

Present—William McCarroll, Acting Chairman; Milo R. Maltbie, John E. Eustis, Commissioners.

Case No. 1431—*Determination of the Public Service Commission Under Section 90 of the Railroad Law.*

In the matter of the application of The City of New York relative to opening across the tracks of the New York and Rockaway Beach Division of the Long Island Railroad Company, Jamaica Avenue, in the Fourth Ward of the Borough of Queens, City of New York.

An application having been made by The City of New York by resolution of the Board of Estimate and Apportionment adopted November 23, 1911, to this Commission, pursuant to Section 90 of the Railroad Law to determine whether a certain portion of a proposed new street, namely, Jamaica Avenue, in the Fourth Ward, Borough of Queens, City of New York, should pass over or under or at grade of the tracks of the New York and Rockaway Beach Division of the Long Island Railroad Company; and the City and Long Island Railroad Company having waived all questions of jurisdiction of the Commission to make a determination herein pursuant to Section 90 of the Railroad Law, and having agreed to divide the expense of carrying the widened portion of Jamaica Avenue beneath the tracks of the Railroad Company; and a hearing having been held after due notice before Hon. William McCarroll, Commissioner, on January 10, 1912. Joseph F. Keany, appearing for the Long Island Railroad Comapny; William J. Clarke, Assistant Corporation Counsel, appearing for The City of New York; George Cook, appearing for the Richmond Hill Board of Trade; Maurice E. Connolly, President of the Borough of Queens, appearing in person, and the Commission being of opinion after said hearing that the new widened portions of Jamaica Avenue should follow the grades of Jamaica Avenue as at present laid out below the tracks of the railroad company,

Now, therefore, it is

Ordered and determined that the new or widened portions of Jamaica Avenue when constructed across the tracks of the Long Island Railroad Company in the Fourth Ward of the Borough of Queens be constructed to pass under the tracks of the Long Island Railroad Company at the grade of Jamaica Avenue as it now exists below the said tracks and that the expense of carrying the widened street under the said tracks be divided as required by law.

Further ordered and determined that the details of construction of the bridge and the street be submitted to and be subject to the approval of the Public Service Commission for the First District.

Further ordered and determined that this improvement be completed on or before July 1, 1912.

(L. S.) BY THE COMMISSION, JAMES B. WALKER, Acting Secretary.

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 6, 1914.

To the Board of Estimate and Apportionment, City of New York:

Gentlemen—At the meeting of the Board held on March 13, 1914, a communication from the Secretary of the Public Service Commission, transmitting a modified accounting in connection with the widening of Jamaica avenue, in the Borough of Queens, and the reconstruction of the railroad bridge carrying the tracks of the New York and Rockaway Beach Division of the Long Island Railroad over this street, was referred to the Comptroller and the Chief Engineer of the Board.

The final order and determination for the reconstruction of this bridge to fit Jamaica avenue as now laid out, was made by the Public Service Commission on January 19, 1912, this order also providing that the expense of the work should be divided as required by law, namely, one-half on the Railroad Company and one-half on The City of New York. There having been no existing grade crossing at this point, the State was not called upon to make any contribution toward the expense.

On October 28, 1913, the Public Service Commission made an order accepting and approving the work as done. In the month of December, the Long Island Railroad Company submitted its statement of the expenses of this work. This statement was subjected to careful analysis by the Engineers of the Public Service Commission and by a representative of the engineering staff of the Board of Estimate and Apportionment. While a few minor changes were made, there was little change in the proportionate shares of the Railroad Company and the City, except that an item for the value of the old structure which was removed had been included by the railroad company, which item as a result of several conferences, has now been entirely eliminated. The total cost of the improvement, including interest to March 1, 1914, is $25,668.61, this including an item of $450.34 expended by the Public Service Commission for the First District in supervision of the work. Such supervision consisted of the examination and checking of all materials used and a force account of all of the labor employed.

We believe the accounting is correct, that the work has been done in a satisfactory manner, and that all of the provisions of the Grade Crossing Law have been complied with, and we would recommend that the Comptroller be authorized to pay the City's share, amounting to $12,834.30.

The manner in which this sum is to be raised appears to be specified in section 97 of the Railroad Law, which provides that the municipality to meet its share of the expense may "borrow such money on the notes or certificates of such municipality and include the amount of outstanding notes or certificates or any part thereof in its annual tax levy for municipal purposes," or it may, in the discretion of the Common Council in the case of a city, "borrow the same or any part thereof on the credit of the municipality and issue bonds therefor, which bonds * * * shall be in such form and for such sums and be payable at such times and places, with interest not exceeding four per centum per annum, as the Common Council * * * may direct."

A representative of the Comptroller has been informed by the Secretary of the Public Service Commission that grade crossing work, to the extent of about $300,000, is now under way or contemplated and that the first claim for the City's share of the expense is not likely to be presented for payment for a year from the present time, that the balance of the work will extend over a period of many months and that the amount of each claim will be comparatively small. We are of opinion that the City's share of the expense for work of this nature should be met by the issue of special revenue bonds in accordance with the provisions of section 188, subdivision 7 of the Greater New York Charter and recommend the adoption of the attached resolution.

Respectfully,

WM. A. PRENDERGAST, Comptroller; NELSON P. LEWIS, Chief Engineer, Board of Estimate and Apportionment.

The following resolution was offered:

Whereas, The Public Service Commission for the First District, pursuant to a resolution adopted by the Commission on April 24, 1914, has issued a certificate, dated April 24, 1914, of performance of the work of carrying the new or widened portions of Jamaica avenue under the tracks of the New York and Rockaway Beach Division of the Long Island Railroad Company, in the Fourth Ward of the Borough of Queens, and determined therein that the balance due on such work to the Long Island Railroad Company from The City of New York is the sum of $12,834.30, including interest to March 1, 1914; be it

Resolved, That the Board of Estimate and Apportionment hereby accepts the said certificate and authorizes the Comptroller to pay sum of $12,834.30 to the said Long Island Railroad Company from the proceeds of special revenue bonds of The City of New York, authorized by subdivision 7, section 188, of the Greater New York Charter.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

President, Borough of Queens—Transfer of Appropriation and Modification of Schedules (Cal. No. 113).

The Secretary presented a report of the Comptroller recommending the modification of Salary Schedules Nos. 655 and 661 T. C. S., for the office of the President of the Borough of Queens for the year 1914, to be effective as of June 1, 1914, involving the transfer of $1,575, to provide for the payment of the salary of an Assistant Engineer, transferred from one schedule to another.

(On June 12, 1914 (Cal. No. 50), this matter was laid over for one week.)

Which was laid over for one week (June 26, 1914).

President, Borough of Manhattan—Issue and Amendment of Issue of Special Revenue Bonds (Cal. No. 114).

(On May 15, 1914 (No. 182b), and June 5, 1914 (No. 127), the resolutions of the Board of Aldermen in this matter were referred to the Comptroller.)

(On June 12, 1914 (Cal. No. 52), the report of the Comptroller thereon was laid over for one week, under Rule 19.)

The Secretary presented two resolutions of the Board of Aldermen, as follows:

(a) Resolution adopted April 28, 1914, requesting an appropriation of $34,000 Special Revenue Bonds to be used by the President of the Borough of Manhattan for expenses for rehabilitation and refurnishing of additional parts of the City Hall; and (b) resolution adopted May 19, and approved by the Mayor May 29, 1914, amending its resolution adopted July 15, 1913, recommending the issue of $16,000 Special Revenue Bonds to be used by the President of the Borough of Manhattan for expenses for the renovation of certain portions of the interior of the City Hall, by extending the time for incurring obligations under said issue from *December* 31, 1913, to *December* 31, 1914; and the following report of the Comptroller:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 8, 1914.

To the Board of Estimate and Apportionment, City of New York:

Gentlemen—On April 28, 1914, the Board of Aldermen adopted the following resolution:

"Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of thirty-four thousand dollars ($34,000), the proceeds whereof to be used by the President of the Borough of Manhattan for the purpose of paying for the rehabilitation and refurnishing of additional parts of the City Hall.

"All obligations contracted for hereunder to be incurred on or before December 31, 1914."

The foregoing resolution was referred to the Comptroller on May 15, 1914, by the Board of Estimate and Apportionment.

It is proposed to make alterations to the east wing, first floor, of the City Hall and to refurnish the rooms to be altered, for the use of the President and the Finance Committee of the Board of Aldermen, and also to make certain alterations to the Mayor's reception room. It is intended that this work shall be carried out under the advice and supervision of Mr. Grosvenor Atterbery, Architect, who was in charge of the restoration work formerly done in the City Hall, and which was paid for partly out of the funds donated by Mrs. Sage and partly out of city's revenues.

Mr. Atterbery's estimate of the cost of the proposed alterations is listed as follows:

Carpenter Work—		
Material		$4,495 70
Labor		4,261 40
Finished floors		1,622 50

		$47,901 15
Chairs, Board of Estimate and Apportionment		585 00
Total estimated cost		$48,486 15

On July 5, 1913, special revenue bonds were authorized by the Board of Aldermen and concurred in by the Board of Estimate and Apportionment on October 2, 1913, to the amount of $16,000 for the purpose of providing funds for renovating and decorating the Mayor's reception hall, the purchase of window hangings, benches and book cases for the Board of Estimate and Apportionment meeting room known as the old council chamber and lighting fixtures for the aldermanic committee room, the obligations thereunder to be contracted for on or before December 31, 1913. Of the amount so authorized $14,510 has not been expended. On May 19, 1914, the Board of Aldermen amended this resolution in order that the funds thereby authorized could be utilized until December 31, 1914. If this action is concurred in by the Board of Estimate and Apportionment, it is proposed to use the unexpended balance to defray, in part, the cost of the alterations now requested, which, it is estimated, as hereinbefore stated, will amount to $48,486.15. The issue of special revenue bonds amounting to thirty-four thousand dollars ($34,000) will provide the necessary funds.

The adoption of the attached resolution approving and concurring in the resolution adopted by the Board of Aldermen under date of April 28, 1914, is hereby recommended together with further resolution amending the resolution adopted by the Board of Estimate and Apportionment on October 2, 1913, in order that the unexpended balance of the $16,000 then authorized may be available for the remainder of the current year.

Respectfully submitted, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Aldermen on April 28, 1914, and approved by the Mayor May 29, 1914, requesting an issue of special revenue bonds in the sum of thirty-four thousand dollars ($34,000), the proceeds whereof to be used by the President of the Borough of Manhattan for the purpose of paying for the rehabilitation and refurnishing of additional parts of City Hall be and the same is hereby approved of and concurred in by the Board of Estimate and Apportionment, and for the purpose of providing means therefor, the Comptroller be and he is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue special revenue bonds of The City of New York to an amount not exceeding thirty-four thousand dollars ($34,000), redeemable from the tax levy of the year succeeding the year of their issue, provided that all obligations contracted for hereunder be incurred during the year nineteen hundred and fourteen.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

The following resolution was offered:

"Resolved, That the resolution adopted by the Board of Aldermen on July 15, 1913, requesting an issue of special revenue bonds in the sum of sixteen thousand dollars ($16,000), the proceeds thereof to be used by the President of the Borough of Manhattan for the renovation of certain portions of the interior of the

City Hall; all obligations thereunder to be contracted for on or before December 31, 1913, be and the same is hereby approved of and concurred in by the Board of Estimate and Apportionment, and for the purpose of providing means thereof, the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York charter, to issue special revenue bonds of the City of New York to an amount not exceeding sixteen thousand dollars ($16,000), redeemable from the tax levy of the year succeeding the year of their issue."

—be and the same is hereby *amended by striking therefrom the month and date referred to as "December 31, 1913," and inserting in lieu thereof the month and date of the year to read as "December 31, 1914."*

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Finance—Issue of Special Revenue Bonds (Cal. No. 115).

(On May 28, 1914 (No. 195B), the resolution of the Board of Aldermen, in this matter, was referred to the Comptroller.)

(On June 12, 1914 (Cal. No. 53), the report of the Comptroller thereon was laid over for one week, under Rule 19.)

The Secretary presented a resolution of the Board of Aldermen, adopted May 26, 1914, requesting an issue of Special Revenue Bonds in the sum of $10,975.11, the proceeds whereof to be used by the Comptroller for meeting expenses of equipping the new offices and removal of offices to the Municipal Building; and the following report of the Comptroller:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 9, 1914.

To the Board of Estimate and Apportionment, City of New York:

Gentlemen—On May 12, 1914, the Board of Aldermen adopted the following resolution:

"Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of ten thousand nine hundred and seventy-five dollars and eleven cents ($10,975.11), the proceeds whereof to be used by the Department of Finance for the purpose of paying expenses of equipment of and removal to new quarters in the Municipal Building, as follows:

To replenish Account 92	$4,106 93
To replenish Account 99	6,868 18
	$10,975 11

"All obligations to be contracted for hereunder to be incurred on or before December 31, 1914."

The foregoing resolution was referred to the Comptroller on May 28, 1914, by the Board of Estimate and Apportionment. In connection therewith, it is reported as follows:

Of the appropriation No. 92, 1914, Department of Finance, Purchase of Equipment, $9,275, there has been expended the sum of $7,483.90, as follows:

Mechanical Devices, Typewriters	$2,108 57

	$6,187 17

This leaves a balance of but $2,162.83 available for expenditure for this purpose for the balance of the year. The cost of moving the various bureaus and divisions of the department to the Municipal Building was $6,868.18, and this amount will be required to replenish Account No. 99, General Plant Service, to meet necessary expenditures for the same during the balance of the year.

Transmitted herewith for your consideration is a resolution in accordance with the facts herein stated.

Respectfully, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Aldermen on May 12, 1914, requesting an issue of special revenue bonds in the sum of ten thousand nine hundred and seventy-five dollars and eleven cents ($10,975.11), the proceeds whereof to be used by the Department of Finance for the purpose of paying expenses of equipment of and removal to new quarters in the Municipal Building, all obligations contracted for thereunder to be incurred on or before December 31, 1914, be and the same is hereby approved of and concurred in by the Board of Estimate and Apportionment, and for the purpose of providing means therefor the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue special revenue bonds of The City of New York to an amount not exceeding ten thousand nine hundred and seventy-five dollars and eleven cents ($10,975.11), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Board of Aldermen—Issue of Special Revenue Bonds (Cal. No. 116).

(On May 22, 1914 (Cal. No. 81), the resolution of the Board of Aldermen in this matter, was referred to the Comptroller.)

(On June 12, 1914 (Cal. No. 54), the report of the Comptroller thereon was laid over for one week, under Rule 19.)

The Secretary presented a resolution of the Board of Aldermen adopted May 19, 1914, requesting an issue of Special Revenue Bonds in the sum of $1,378.12, the proceeds whereof to be used by the Comptroller to defray the expenses incurred by the Special Committee of the Board of Aldermen on the occasion of the public reception of the bodies of the United States sailors and marines who lost their lives at Vera Cruz. Mexico; and the following report of the Comptroller:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 9, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—On May 5, 1914, the Board of Aldermen adopted the following resolution:

"Resolved, That all members of the Board of Aldermen are hereby appointed as a committee of the whole to act in co-operation with other representatives of the City government for a fitting public reception of the bodies of the United States sailors and marines who so bravely and devotedly have laid down their lives for their country at Vera Cruz; and that all business of The City of New York be suspended for one hour subsequent to the reception of the bodies at the Battery, as a further mark of deference to the memories of the deceased, and be it further,

"Resolved, That, in pursuance of the provisions of subdivision 8, of section 188, of the Greater New York Charter, the Board of Estimate and Apportionment be and it hereby is requested to authorize the Comptroller to issue special revenue bonds to the amount of $2,500, the proceeds whereof shall be used by the Board of Aldermen for all expenses incidental to said public reception. All bills hereunder to be audited for payment by the Finance Committee and the Department of Finance."

The foregoing resolution was referred to the Comptroller on May 25, 1914, by the Board of Estimate and Apportionment.

In respect to the foregoing resolution, the outstanding liabilities to date, including bills rendered for the costs of the reception referred to in the resolutions adopted by the Board of Aldermen, and now in the hands of the Finance Committee of that Board, are itemized as follows:

No.	Item.	Amount.
1.	Thirty-eight horses and carriages, at $10 each	$380 00
2.	First Field Artillery, horses, caissons, etc.	471 00
3.	Second Field Artillery, horses, caissons, etc.	180 44
4.	Telegrams	24 18
5.	Band (music)	100 00
6.	Decorating City Hall, etc.	162 50
		$1,318 12

Since the foregoing tabulation was compiled, another item of $60 has been reported to the Comptroller requesting approval.

The resolution approving and concurring in the resolution of the Board of Aldermen to an amount not exceeding $1,378.12, the total of the itemized account hereinbefore stated, is hereby recommended.

Respectfully submitted, WM. A. PRENDERGAST, Comptroller.

On motion of the Comptroller the amount allowed was fixed at $1,403.12.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Aldermen on May 5, 1914, requesting an issue of special revenue bonds in the sum of twenty-five hundred ($2,500) dollars, the proceeds whereof to be used by and expended under the direction of the Special Committee of the Board of Aldermen, for the purpose of meeting all of the actual expenses incident to the public reception of the bodies of the United States sailors and marines who lost their lives in the service of their country at Vera Cruz, Mexico, be and the same is hereby approved and concurred in by the Board of Estimate and Apportionment to the extent of fourteen hundred and three dollars and twelve cents ($1,403.12), and for the purpose of providing means therefor the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8, section 188 of the Greater New York Charter, to issue special revenue bonds of The City of New York to an amount not exceeding fourteen hundred and three dollars and twelve cents ($1,403.12), redeemable from the tax levy of the year succeeding the year of their issue, the proceeds of said issue of special revenue bonds to be disbursed only upon claims duly audited by the Committee on Finance of the Board of Aldermen and the Department of Finance of The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

President, Borough of Queens—Issue of Special Revenue Bonds and Modification of Schedule (Cal. No. 117).

(On February 20, 1914 (Cal. No. 16), and May 1, 1914 (Cal. No. 170), the requests from the President of the Borough of Queens, in this matter, were referred to the Comptroller.)

(On June 12, 1914 (Cal. No. 55), the report of the Comptroller thereon was laid over for one week under Rule 19.)

The Secretary presented communications from the President of the Borough of Queens, dated February 17, 1914, and April 29, 1914, respectively, requesting an issue of Special Revenue Bonds in the sum of $43,526.93, the proceeds whereof to be used by the President of the Borough of Queens, for the purpose of refunding appropriations for the Bureau of Street Cleaning for the year 1914, in the amounts expended therefrom for the removal of snow and ice; and the following report of the Comptroller recommending approval thereof and modification of schedule:

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, June 8, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—In a communication dated April 29, 1914, the President of the Borough of Queens requested that special revenue bonds be issued to the extent of $43,526.93, to reimburse account No. 718, Transporation, Hire of Horses with Drivers, Street Cleaning.

The request is made in accordance with section 546 of the Greater New York Charter, to provide funds for the cost of removing snow and ice in the Borough of Queens, the appropriations for which purpose proved insufficient. No appropriation having been made in the Budget for 1914 to provide for the removal of snow and ice, the expenditures were charged to account No. 718, Hire of Horses with Drivers, Bureau of Street Cleaning.

The amount requested is based upon expenditures made from February 14, 1914, to March 21, 1914, as follows:

Horses and teams, at $6 a day	$17,738 73
Horses and carts, at $3.50 a day	1,219 09
Laborers	24,569 11
Total	$43,526 93
Cubic yards of snow removed	139,108
Average cost per cubic yard removed	$0.312

The individual items contained in the foregoing expenditures have been checked up and verified by an Examiner attached to the Bureau of Municipal Investigation and Statistics with the records kept in the office of the President of the Borough of Queens.

The adoption of the attached resolutions authorizing the issue of special revenue bonds to an amount of $43,526.93, is hereby recommended.

Respectfully submitted, WM. A. PRENDERGAST, Comptroller.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 546 of the Greater New York Charter, the Comptroller be and is hereby authorized to issue special revenue bonds of The City of New York to the amount of $43,526.93, redeemable from the tax levy of the year succeeding the year of their issue, the proceeds thereof to be applied to the refunding of appropriations for the Bureau of Street Cleaning, in the office of the President of the Borough of Queens, for the year 1914, in the amounts expended therefrom, as follows:

Contract or Open Order Service, Transportation, Hire of Horses with Drivers.

718	Street Cleaning—	
	Horse with Driver, at $3.50 per day (348.31 days)	$1,219 09

	Schedule Total	$190,373 93
	Tax Levy Allowance	$146,847 00
	Special Revenue Bond Allowance	43,526 93
	Total	$190,373 93

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

New York Central and Hudson River Railroad Company—Acceptance of Certificate No. 3-C, for Construction of Viaduct Carrying Park Avenue Over Tracks of Said Company, and Issue of Corporate Stock Therefor (Cal. No. 118).

(On June 12, 1914 (Cal. No. 65), the report of the Chief Engineer of the Board in this matter was laid over for one week, under Rule 19.)

The Secretary presented the following report of the Chief Engineer:

Board of Estimate and Apportionment, Municipal Building, New York City, Office of the Chief Engineer, New York, June 8, 1914.

No. 65.

Honorable JOHN PURROY MITCHEL, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—The New York Central and Hudson River Railroad Company has submitted final certificate, No. 3C, covering the cost of constructing the viaduct carrying Park avenue over the tracks of the said Company from 49th to 45th streets, in accordance with the provisions of section 10 of the agreement between The City of New York and the New York and Harlem Railroad Company and the New York Central and Hudson River Railroad Company dated June 19, 1903, and authorized by chapter 425 of the Laws of 1903 and the several amendments thereof. The agreement referred to provides that The City of New York shall pay 70 per cent. of the cost of this viaduct. The work has been entirely completed within the original contract time and the extensions which have from time to time been granted owing to the great increase in the magnitude of the work since the first plans were made. The statement is fully itemized and has been checked with the records on file in the office of the Railroad Company, which records are very complete and cover every detail

At the intersections of 46th, 47th and 48th streets, one-half of the cost of these intersections has been included in the Park avenue account and the other half included in the account for the construction of the said intersecting streets. The structural steel has been furnished under a number of different contracts, while the erection is covered by a contract made with Terry & Tench. The first work on Park avenue was done under a contract made by the Railroad Company, but the difficulties and the cost of contract work were found to be so great that most of the work has been done by the Company's own forces, and considering the difficulties it appears to have been done economically. The mill and shop inspection in connection with the fabrication of the steel has been charged at 50 cents a ton, which is a reasonable price. Field inspection of steel, masonry, paving, etc., have been computed on the basis of $1.50 per 100 square feet, and this from an examination of the records appears also to be a reasonable figure. Most of the contracts call for delivery of steel F. O. B. cars at Melrose Junction, where it would have been necessary to store it until needed in the work. Owing to the high cost of renting land for such storage at this point, the Company used its own property at Port Morris, and has included in the expenses of the work a fair rental for this land, with cost of transportation from Melrose Junction to this yard and back to the Grand Central Station. The pavement and the sidewalks were laid by contract, while the original cost and maintenance up to December 31, 1913, has been included in the statement submitted. Engineering, including the design of structures, masonry drawings, office charges and field engineering, has been charged at the rate of 7 per cent., which from examination of the Company's records appears to be the actual cost. The charge for supervision, including a portion of the salary of the Chief Engineer, and the expenses of the auditing, purchasing, legal and paymaster's departments, amounts to about 1 per cent.

I believe that the account rendered is entirely accurate and can properly be paid. The total cost of the work is $341,242.69. Of this 30 per cent. is to be paid by the Railroad Company, under the agreement, while the remaining 70 per cent. or $238,869.88, would be the City's share. Three payments have already been made on three preceding certificates, each amounting to $37,500, so that the balance now due is $126,369.88.

On January 12, 1906, on the recommendation of the Comptroller, the Board of Estimate and Apportionment authorized an issue of corporate stock in the sum of $810,000 to cover the City's share of the expense of the Grand Central Terminal Improvement, this being made up of $600,000, which, in accordance with the agreement, was to be the limit of the City's share of the construction of the viaducts to carry the cross streets over the railroad tracks, and $210,000, which was 70 per cent. of the cost of the Park avenue work as estimated at that time. This was eight years ago, and it is not surprising that the estimate of that date has been exceeded by about 14 per cent. The contract also provides that if the City desired the width of the 45th street viaduct to be more than 50 feet, the cost of such additional width should be paid by the City. This viaduct was given a width of 60 feet, and the balance of the cost of such additional width is found to be $11,547.32. It will, therefore, be necessary to provide the sum of $40,417.20, in addition to the amount of corporate stock authorized on January 12, 1906.

Section 7 of chapter 425 of the Laws of 1903 provides that the Comptroller, upon authorization of the Board of Estimate and Apportionment and without the concurrence or approval of any other public board or body, shall prepare and issue corporate stock for this purpose.

I would, therefore, recommend that the Comptroller be authorized to pay to the New York Central and Hudson River Railroad Company the sum of $126,369.88 called for by Certificate No. 3C, for the construction of the Park avenue viaduct, and also that the Comptroller be authorized to issue corporate stock in the sum of $40,417.20 to cover the City's share both of Park avenue and of the intersecting streets in excess of the sum of $810,000 provided by the resolution adopted January 12, 1906.

Respectfully, NELSON P. LEWIS, Chief Engineer.

The following resolution was offered:

Resolved, That, in accordance with the provisions of chapter 425 of the Laws of 1903, as amended, and the agreement dated June 19, 1903, and agreements subsequent thereto, entered into between The City of New York and the New York Central and Hudson River Railroad Company, the Board of Estimate and Apportionment hereby accepts certificate No. 3-C, dated April 15, 1914, of expenses incurred in connection with the construction of the viaducts across the Grand Central yard between 45th street and 56th street, Borough of Manhattan, amounting to one hundred and twenty-six thousand three hundred and sixty-nine dollars and eighty-eight cents ($126,369.88), being the City's share of the work done, as set forth therein, and the Comptroller be and is hereby authorized to pay to said railroad company the sum of one hundred and twenty-six thousand three hundred and sixty-nine dollars and eighty-eight cents ($126.369.88), said payment, however, to be made only after proper audit by the Department of Finance.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 7 of chapter 425 of the Laws of 1903, as amended, hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding forty thousand four hundred and seventeen dollars and twenty cents ($40,417.20), in addition to the amount heretofore authorized, to provide means for the improvement of Park avenue, from the south side of 45th street to the north side of 56th street, Borough of Manhattan, as set forth in agreement between The City of New York, through the Board of Estimate and Apportionment, and the New York Central and Hudson River Railroad Company, under date of June 19, 1903, and agreements subsequent thereto, and the Comptroller be and is hereby authorized to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding forty thousand four hundred and seventeen dollars and twenty cents ($40,417.20), the proceeds whereof to the amount of the par value of the stock to be applied to the purposes aforesaid.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

New York Central and Hudson River Railroad Company—Acceptance of Work in Connection with Grand Central Terminal Improvement (Cal. No. 119).

(On June 12, 1914 (Cal. No. 66), a communication from the Vice-President of the New York Central and Hudson River Railroad Company, dated June 3, 1914, relative to the completion of this improvement and report thereon by the Chief Engineer of the Board, were presented, and laid over for one week under Rule 19. (For said communication, see Minutes of June 12, 1914.)

The following resolution was offered:

Whereas, In accordance with the provisions of chapter 425 of the Laws of 1903, an agreement was entered into between The City of New York and the New York and Harlem Railroad Company and its lessee, the New York Central and Hudson River Railroad Company, under date of June 19, 1903, providing for the reconstruction and improvement of the Grand Central Terminal, including the extension of Park avenue southwardly to 45th street and the carrying of the streets from 45th to 55th street, inclusive, across the railroad tracks, and providing also for the discontinuance of the operation of trains by steam within five years from the date of the agreement; and

Whereas, The change of motive power from steam to electricity was accomplished within the period named, but owing to a large increase in the scope of the improvement and the amount of work to be done, certain amendments of the original act and agreement were made and certain extensions of time for the construction of the several streets across the yard were required and were granted; and

Whereas, The entire work called for by the original act and agreement and the several amendments thereof was completed within the time as extended, and all in a satisfactory manner; now, therefore, be it

Resolved, That the Board of Estimate and Apportionment hereby accepts the work so done as complete and satisfactory and in accordance with the provisions of the several acts and agreements.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Roadway and Sidewalk Dimensions for Streets of Various Widths, Radii of Curb Corners at Street Intersections and Encroachments on Sidewalk Spaces (Cal. No. 179).

(On June 12, 1914 (Cal. No. 165), this matter was laid over for one week.)

The Secretary presented a communication from the Chief Engineer of the Board, stating that Section 2 of the resolution adopted by the Board of Estimate and Apportionment on April 23, 1909, covering the radius of curb corners has not given satisfactory results owing to the great increase of fast moving traffic and the need of providing easier movement from one street to another; that the matter had been discussed with the Borough Consulting Engineers with the result that an amendment of the resolution adopted on the above date is recommended.

On motion of the President of the Borough of The Bronx the matter was again laid over for one week (June 26, 1914).

Final Map of Section No. 123, Borough of Queens (Cal. No. 180).

(On June 12, 1914 (Cal. No. 174), the Chief Engineer's report on this map was presented, and the matter was laid over for one week.)

(For Engineer's report recommending approval of this map see minutes of June 12, 1914.)

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of Section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by establishing the lines and grades of new streets within the area designated as Section 123 of the Final Maps, bounded approximately by Freedom Avenue, Liberty Avenue, Portland Avenue, Kimball Avenue, Napier Avenue, Jerome Avenue, Hamilton Avenue, Kimball Avenue, Briggs Avenue, Liberty Avenue, Lefferts Avenue, Roanoke Avenue, Ohio Street, Suwanee Avenue, Birch Street, Tuckahoe Avenue, Walnut Street, Ulster Avenue, Stoothoff Avenue, Rockaway Boulevard, Cedar Avenue, Sutter Avenue, Escalante Street, Rockaway Boulevard, Plattwood Avenue, Pearl Place and Rockaway Boulevard, in the Borough of Queens, City of New York, which proposed change is more particularly shown upon a map or plan bearing the signature of the President of the Borough, and dated November 19, 1913.

Resolved, That this Board consider the proposed change at a meeting of the Board to be held in the City Hall, Borough of Manhattan, City of New York, on the 30th day of July, 1914, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions, and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 30th day of July, 1914.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Education—Acquisition of Property as a Site for School Purposes (Cal. No. 181).

The Secretary presented report of the Comptroller recommending the acquisition at private sale, at a price not exceeding $25,000, of property in the block bounded by Liberty avenue, Jerome avenue, Bryant avenue and Lowell avenue, Jamaica, Borough of Queens, as a site for school purposes.

(On October 2 1913 (Cal. No. 7-B), a resolution of the Board of Education requesting the acquisition of the above-described property was referred to the Comptroller.)

(On June 5, 1914 (Cal. No. 33), this matter was laid over for one week, under Rule 19, and referred to the Chief Engineer for report under Rule 35 in one week.)

Report (R-3349) of the Chief Engineer relative to the proposed school site in the block bounded by Liberty avenue, Jerome avenue, Bryant avenue and Lowell avenue, Borough of Queens.

(On June 12, 1914 (Cal. No. 251), the matter was laid over for one week (June 19, 1914.)

Dr. E. L. Dillman appeared in favor of the proposed site, and, on motion, the matter was again laid over for one week (June 26, 1914).

Union Railway Company of New York City (Cal. No. 182).

In the matter of the form of contract for the grant of a franchise to construct, maintain and operate three extensions to the existing system of the Company in the Boroughs of Manhattan and The Bronx, as follows:

(a) Upon and along East 136th Street, from Third Avenue to Lincoln Avenue, Borough of The Bronx.

(b) From the intersection of Willis Avenue and 134th Street, Borough of The Bronx, over the Willis Avenue Bridge and its approaches to 125th Street, Borough of Manhattan, and upon and along 125th Street, Manhattan Street, 12th Avenue and West 129th Street.

(c) From the above described tracks on the Willis Avenue Bridge; thence easterly and northerly upon and over the easterly approach to said bridge to and connecting with the existing tracks in Southern Boulevard, Borough of The Bronx.

At the meeting of May 15, 1914, the hearing on the form of contract was closed and the matter was referred back to the Franchise Committee for a conference with the Public Service Commission and the Company, with the request that a report be presented at the meeting of May 22, 1914.

On May 22, 1914, the matter was laid over until June 5, when it was laid over until June 12, and on that day was laid over until this day.

Action was deferred until the meeting of July 2, 1914.

Department of Finance—Transfer of Premiums Derived from Sales of Corporate Stock to Fund "C. F. M.—24" (Cal. No. 183).

(On June 12, 1914 (Cal. No. 265), the report of the Comptroller in this matter was laid over for one week.)

The Secretary presented the report of the Comptroller above referred to, recommending that the premiums derived from the sales of corporate stock in the years 1912, 1913 and 1914 ($1,387,351.87) be paid into the fund known as "C.F.M.—24," and thereby made available toward the payment of the cost of any permanent improvement which

may lawfully be paid from the proceeds of the sale of corporate stock, and that premiums realized from future sales of corporate stock be similarly paid into said fund.

Which was again laid over for one week (June 26, 1914), and the Comptroller was requested to obtain an opinion from the Corporation Counsel as to the validity of the transfer.

MATTERS CONSIDERED BY UNANIMOUS CONSENT.

The following matters, not on the Calendar for this day, were considered by unanimous consent:

Petition for Discontinuing the Proceeding for Acquiring Title to the Land Needed for the Widening of Crescent Street, from South Jane to 13th Street, and for Nott Avenue, from Hunter Avenue to Jackson Avenue, or Enlarging the Area of Assessment Therein, Borough of Queens (No. 184).

(On May 28, 1914 (Cal. No. 24), a resolution was adopted approving a report on this matter by the Committee on Assessments and requesting the Corporation Counsel to ask the Supreme Court to postpone action in the matter for one week, when presented to said Court on June 1, 1914, in order to give the property owners an opportunity to reimburse the City for costs incurred therein and to make application for the discontinuance of the proceeding.)

(On June 5, 1914 (No. 113), a resolution was adopted requesting the Corporation Counsel to ask the Supreme Court to grant a further postponement of two weeks in this proceeding, when submitted to said Court on June 8, 1914.)

Mr. Hull, representing Mr. John Larkin, appeared and requested further time to collect money for the fund to reimburse the City for money expended in the proceeding.

Messrs. Edward R. Finch and Francis P. O'Connor appeared in opposition to further time being granted.

The following was offered:

Whereas, The Board of Estimate and Apportionment of The City of New York on May 28, 1914, approved a report of the Committee on Assessments of the Board, dated May 23, 1914, recommending that the Board take no action on a petition presented by property owners for an increase in the area of assessment in the proceeding for acquiring title to the lands required for the widening of Crescent street from South Jane street to 13th street, and for Nott avenue, from Hunter avenue to Jackson avenue, Borough of Queens; and

Whereas, At the meetings of the Board held on May 28, 1914, and June 5, 1914, resolutions were adopted requesting the Corporation Counsel to ask the Supreme Court to postpone action in the proceeding, the last request covering postponement to June 22, 1914; be it

Resolved, That the Corporation Counsel be and he is hereby requested to ask the Supreme Court to grant a further postponement of two weeks in this proceeding, when submitted to the Court on June 22, 1914, in order to afford property owners an opportunity to reimburse the City for the costs incurred therein, and to apply for a discontinuance of the proceeding; the property owners also to furnish a bond indemnifying the City against any claims for disbursements under section 1000 of the Charter.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Board of Estimate and Apportionment—Fixing Dates for Meetings (No. 185).

(On June 5, 1914, a motion was adopted fixing July 2d, July 31st and August 28th, 1914, as the dates for the meetings during the summer, and directing that on August 28th the Board adjourn to meet September 18, 1914.)

On motion, the meetings heretofore fixed for July 31st and August 28th, 1914, were changed to July 30th and August 27, 1914.

Department of Licenses—Establishment of Various Grades of Positions (No. 186).

(On June 12, 1914 (Cal. No. 37), a resolution was adopted recommending the establishment of various grades of positions in the Department of Licenses.)

The following resolution was offered:

Whereas, At a meeting of the Board of Estimate and Apportionment, held on June 12, 1914, a report of the Committee on Salaries and Grades recommending the establishment of certain positions in the Department of Licenses, was presented and a resolution adopted accordingly, and forwarded to the Board of Aldermen, in accordance with section 56 of the Charter; and

Whereas, It appears that in said report there were contained, through inadvertence, reductions in salaries; and

Whereas, Some of these reductions violated the Municipal Civil Service law by crossing grade lines; therefore be it

Resolved, That the following positions be withdrawn from the Board of Aldermen and recommitted to the Committee on Salaries and Grades for their further consideration:

	Reduced.		Increased.	
	From.	To.	At.	To.
Financial Clerks (2)	$1,650 00	$1,350 00	.....	.....
Stenographer and Typewriter (1)	1,800 00	1,500 00	.....	.....
Chief Inspector of Licensed Vehicles	1,800 00	1,500 00	.....	.....

Supervising Inspectors (2)	2,100 00	1,800 00	.....	.....
Clerk	.....	.....	$1,200 00	$1,500 00

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Changing the Grade at Broad and Wall Streets, Borough of Manhattan (No. 187).

The Secretary presented a communication from the President, Borough of Manhattan, dated June 19, 1914, transmitting a copy of communication received from Messrs. Stetson, Jennings and Russell, forwarding a petition of the Morgan Building Corporation relative to the proposed change of grade at Broad and Wall streets, Borough of Manhattan.

Which was referred to the Chief Engineer of the Board for report.

President, Borough of Richmond—Approval of Plans, Specifications, Etc., for the New Court House at St. George, Borough of Richmond (No. 188).

The President of the Borough of Richmond requested that the matter of the approval of the plans, specifications and estimate of cost for the new County Court House at St. George, Borough of Richmond, be placed upon the Calendar for the meeting of June 26, 1914.

Which was agreed to.

President, Borough of Queens; Surrogate and County Clerk of Queens County—Modification of Plans for the Construction of Fireproof Building (No. 189).

The Secretary presented a communication from the President, Borough of Queens, dated June 4, 1914, requesting a modification of a resolution adopted April 17, 1914, for payment of additional compensation to the architect for a fireproof building, to be erected in Jamaica, for use of the Surrogate and County Clerk of Queens; and the following report of the Bureau of Contract Supervision:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 16, 1914.

To the Board of Estimate and Apportionment:

Gentlemen—Under date of June 4, 1914, the President of the Borough of Queens transmitted to this Board a request for a modification of a resolution adopted on April 17, 1914, in order to permit the payment of additional compensation to the architect for a fireproof building that is to be erected in Jamaica for the use of the Surrogate and County Clerk of Queens.

The contracts for the work on this building were registered on January 14, 1914, and the contractors were ordered to begin work on or before February 5, 1914. After the contractors had been ordered to begin work, notice was served on the Borough President of a grant by the former Supervisors of Queens of an easement by which the owners of abutting property were given the right of passing to and from Fulton street, Jamaica, through an alley on the easterly side of the site for the building to be occupied by the County Clerk and Surrogate. It has been planned to build over this alley. When it was discovered that the building could not extend over the alley without purchasing or condemning the alley property, it was decided to reduce the dimensions of the building by cutting off a strip four feet wide on the side of the alley. The contractors expressed a willingness to proceed with the work under amended plans without additional compensation. The Board of Estimate and Apportionment was requested to pass upon the question of acquiring the alley and building according to the plans already approved or changing the plans by eliminating that part of the building which extended over the alley.

Under date of April 17, the Board adopted a resolution authorizing the President of the Borough of Queens to execute modifications of existing contracts for building, plumbing, heating and electrical work, provided that such modifications should receive the approval of the Corporation Counsel and with the distinct understanding that these modifications would not involve the City in any additional cost either for the plans or for the execution of the work.

So far as the execution of the work is concerned, there is to be no increase in compensation but the Borough President submitted an estimate of $700 as an additional cost for architectural surveys and for altering the plans and specifications to comply with the changes in the contract work. This was excessive as the changes in the plans were quite simple.

It appears from a statement of the architect, Mr. John M. Baker, that he will have to redraw nineteen sheets of the plans. Mr. Baker has already completed a part of this work and is engaged upon the remainder. He states that he is willing to do the work without profit and has agreed to accept the compensation of $200 for the work. This amount is not unreasonable and I recommend that the resolution adopted April 17 be modified so that it will permit of the payment to the architect of an amount not exceeding $200.

The adoption of the attached resolution will carry this resolution into effect.

Respectfully, TILDEN ADAMSON, Director.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment April 17, 1914, which reads as follows:

"Resolved, That the Board of Estimate and Apportionment hereby authorizes the President of the Borough of Queens to execute modifications of the existing contracts for building, plumbing, heating and electrical work in connection with the rebuilding of the office of the Surrogate and County Clerk of Queens County on Fulton street, Jamaica, Borough of Queens, after such modifications shall have received the approval of the Corporation Counsel, and with the distinct understanding that these modifications shall not involve the City in any additional cost, either for plans or for the execution of the work."

—be and the same is hereby *amended* to read as follows:

Resolved, That the Board of Estimate and Apportionment hereby authorizes the President of the Borough of Queens to execute modifications of existing contracts for building, plumbing, heating and electrical work in connection with the rebuilding of the office of the Surrogate and County Clerk of Queens County, on Fulton street, Jamaica, Borough of Queens, after such modifications shall have received the approval of the Corporation Counsel, and with the distinct understanding that these modifications shall not involve the City in any additional cost *for the execution of the work, and that the payment to the architect for alterations and plans due to the change in size of the building shall not exceed two hundred dollars* ($200).

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting Persident of the Board of Aldermen, the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx, the Acting President of the Borough of Queens and the President of the Borough of Richmond—16.

Department of Bridges—Appropriation for the Establishment of Markets Under Manhattan and Williamsburg Bridges (No. 190).

The Secretary presented a report of the Committee on Markets, dated June 16, 1914, relative to the establishment of open markets for pushcarts under the Manhattan and Williamsburg bridges, and recommending that an appropriation of $38,027.55 be made for this purpose.

Which was referred to the Committee on Corporate Stock Budget.

Department of Parks, Manhattan and Richmond—Issue of Corporate Stock (No. 191).

The Secretary presented a communication from the Commissioner of Parks, Boroughs of Manhattan and Richmond, dated June 16, 1914, requesting the issue of $60,000 corporate stock to provide means for reconstructing the roadway and otherwise improving the transverse road at 79th street and through Central Park.

Which was referred to the Committee on Corporate Stock Budget.

Bellevue and Allied Hospitals—Issue of Corporate Stock (No. 192).

The Secretary presented a communication from the President of the Board of Trustees of Bellevue and Allied Hospitals, dated June 16, 1914, submitting a statement of the requirements of the Department for the authorization, and issue of corporate stock during the year beginning July 1, 1914, and requesting the Board to authorize the issue of corporate stock for the following purposes, which are enumerated in the order of their urgency:

Construction of pavilions "F" and "G" of the new Bellevue Hospital	$1,300,000 00
Additional wings of training school for women nurses	200,000 00
Construction of additional wings at Fordham Hospital	260,000 00
Nurses' residence at Gouverneur Hospital	150,000 00
Power plant at Bellevue Hospital	200,000 00

The communication states that the Trustees are convinced that it would be more economical for the City to install its own power plant in the new Bellevue Hospital than to purchase electric current from private companies and enclosing in connection with said subject a report made to the Trustees by Mr. Charles E. Knox on the cost of production of electric current at Harlem Hospital.

Which was referred to the Committee on Corporate Stock Budget.

Department of Water Supply, Gas and Electricity—Issue of Corporate Stock (No. 193).

The Secretary presented a communication from the Commissioner of Water Supply, Gas and Electricity, dated June 17, 1914, calling the attention of the Board to the serious condition existing at the 179th Street Pumping Station, Borough of Manhattan, due (1) that there is but one suction main connecting the new Croton Aqueduct with the pumps, and (2) that there is no reserve pumping equipment.

The Commissioner states that these conditions can be remedied at the relatively small expense of about $23,000, and the consequences of neglect may so seriously affect hundreds of thousands of people that it does not seem right to allow the present conditions to continue, even if the additional equipment will be rendered superfluous by the arrival of the Catskill water supply in the near future.

Which was referred to the Committee on Corporate Stock Budget.

Department of Public Charities—Establishment of the Grade of Position of Alienist (No. 194).

The Secretary presented a communication from the Commissioner of Public Charities, dated June 12, 1914, requesting the establishment of the grade of position of Alienist at $1,800 per annum, for the Sea View Hospital, Borough of Richmond.

Which was referred to the Committee on Salaries and Grades.

President, Borough of The Bronx—Establishment of the Grade of Position of Electrical Blue Print Operator (No. 195).

The Secretary presented a communication from the President of the Borough of The Bronx, dated June 15, 1914, requesting the establishment in his office of the grade of position of Electrical Blue Print Operator at $720 per annum, for one incumbent.

Which was referred to the Committee on Salaries and Grades.

City Clerk and Clerk, Board of Aldermen—Tenement House Department—Board of Coroners, Borough of The Bronx—Corporation Counsel—County Clerk, Kings County—President, Borough of Queens—Issues of Special Revenue Bonds (No. 196).

The Secretary presented seven resolutions of the Board of Aldermen, adopted June 2, 1914, requesting issue of special revenue bonds, pursuant to subdivision 8, section 188 of the Charter, as follows:

A—$1,000 for the purpose of defraying the cost of moving the office furniture and records of the office of the City Clerk and Clerk to the Board of Aldermen from the City Hall to the Municipal Building.

B—$1,000 for the purchase of furniture and equipment for new offices of the Tenement House Department.

C—$270 for the purpose of paying the Salary of an emergency clerk in the office of the Board of Coroners, Borough of The Bronx, during the vacation period, June, July and August, 1914.

D—$20,000, the proceeds to be used by the Corporation Counsel for the purpose of meeting expenses in connection with litigation over pollution of the waters of New York Harbor.

E—$7,000 for purchasing and installing steel files and cases in the office of the County Clerk, in Kings County.

F—$1,604 for repairs and maintenance of floating bath No. 1, in the Borough of Queens, under the jurisdiction of the Borough President.

G—$3,000 for furnishing the chambers of the new County Judges in Kings County, under the jurisdiction of the County Clerk, Kings County.

Which was referred to the Comptroller.

President, Borough of The Bronx—Amendment of Issue of Special Revenue Bonds (No. 197).

The Secretary presented a resolution of the Board of Aldermen adopted June 2, 1914, amending resolution of May 26, 1914, requesting the issue of $8,370 special revenue bonds (sub-division 8, section 188 of the Charter), the proceeds to be used by the President of the Borough of the Bronx for the purpose of purchasing supplies in connection with the maintenance, cleaning and equipment of public buildings in said borough, all obligations to be incurred on or before December 31, 1914.

Which was referred to the Comptroller.

Fifth Avenue Coach Company (No. 198).

The Secretary presented communications from B. M. Waldheim and ten others, urging the granting of a franchise to this Company for an extension of its route in the Borough of Manhattan.

DEPARTMENT OF FINANCE.

WARRANTS MADE READY FOR PAYMENT IN DEPARTMENT OF FINANCE TUESDAY, JULY 7, 1914.

Below is a statement of warrants made ready for payment on the above date, showing therein the Department of Finance voucher number, the dates of the invoices or the registered number of the contract, the date the voucher was filed in the Department of Finance, the name of the payee and the amount of the warrant.

Where two or more bills are embraced in the warrant, the dates of the earliest and latest are given, excepting that when such payments are made under a contract, the registered number of the contract is shown in the place of the second invoice date.

Where the word "final" is shown after the name of the payee, payment will not be made until thirty days after the completion and acceptance of the work, but all of the other warrants mentioned will be forwarded through the mail unless some reason exists why payment is to be made in person, in which event written notice will be promptly given to the claimant.

In making a written or verbal inquiry at this office for any of the above mentioned warrants, it is requested that reference be made by the Department of Finance voucher number.

WILLIAM A. PRENDERGAST, Comptroller.

VOUCHERS RECEIVED IN DEPARTMENT OF FINANCE, TUESDAY, JULY 7, 1914.

A statement is herewith submitted of all vouchers filed in the Department of Finance on this date, in which is shown the Department of Finance voucher number, the date of the invoices or the registered number of the contract, the name of the payee and the amount of the claim. Where two or more bills are embraced in one voucher the date of the earliest is given, excepting that when such vouchers are submitted under a contract the registered number of the contract is shown instead.

If the vouchers are found to be correct and properly payable to the respective claimants it will be my endeavor to have the warrants therefor made ready for payment within the next seven days.

If any claimant within the time stated does not receive his warrant or a written notice in relation thereto then written or verbal inquiry may be made at this office, using the Department of Finance voucher number as a ready means of reference.

WILLIAM A. PRENDERGAST, Comptroller.

Department of Parks.

Abstract of Proceedings for week ended June 20, 1914.

Stated meeting, June 18th, 3 p. m.

Present—Commissioners Ward (President), Whittle, Ingersoll, Weier.

Sealed bids were presented for the following: 1. Furnishing and delivering 1,200 cubic yards of broken stone (No. 2, 1914), for parks, The Bronx. 2. Furnishing and delivering 800 cubic yards grits for parks, The Bronx.

The minutes of the previous meeting were read and approved.

A communication was received from the Gardeners of the Department of Parks, Borough of Queens, in reference to grade and compensation for the coming year, and requesting to be granted a hearing at the next meeting. Granted.

A communication was received from the Landscape Architect in reference to establishing the position of Assistant Landscape Architect at a salary of $3,000.

The following resolution was adopted:

Resolved, That this Board recommend to the Budget Committee a change in the title of the Topographical Draftsman in the office of the Landscape Architect of the Park Board, so as to read Assistant Landscape Architect, at a salary of $3,000, instead of Topographical Draftsman at $2,100.

Time was extended sixty days for the completion of contract with Frank J. Lennin Company, for furnishing and delivering forage, Manhattan.

All bids or proposals received on the 11th inst. for furnishing and delivering forage for the Department of Parks Borough of Brooklyn, were rejected, it being deemed for the best interest of the City so to do.

DEPARTMENT OF PUBLIC CHARITIES.

Proposals.

MAIN OFFICE OF THE DEPARTMENT OF PUBLIC CHARITIES, NEW MUNICIPAL BUILDING, ROOM 1091, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Department of Public Charities at the above office until 2.30 o'clock p. m., on

TUESDAY, JULY 14, 1914.

FOR FURNISHING AND DELIVERING MEAT.

The time for the performance of the contract is during the year 1914.

No bond will be required with the bid, as heretofore, but will be required upon awarding of the contract in an amount equal to thirty (30) per cent. of the contract.

No bid will be considered unless it is accompanied by a deposit, which shall be in the form of money, or a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or corporate stock or certificates of indebtedness of any nature issued by The City of New York and approved by the Comptroller as of equal value to the security required. Such deposit shall be in an amount not less than one and one-half (1½) per cent. of the total amount of the bid.

The bidder will state the price per pound, or other designated unit, by which the bids will be tested. The extensions must be made and footed up, as the bids will be read from the total and awards made to the lowest bidder on each class, line or item, as stated in the specifications.

Bids must be submitted in duplicate, each in a separate envelope. No bid will be accepted unless this provision is complied with.

Blank forms and further information may be obtained at the office of the Storekeeper of the Department, Room 1008, New Municipal Building, Borough of Manhattan.

The Board of Assessors has levied and assessed the foregoing assessments in fifty equal annual installments.

The "Eleventh Installment" in each case is now due and payable, and hereafter for thirty-nine years an amount equal to one of the aforesaid annual installments with interest shall be assessed upon the lots or parcels of land benefited by said improvements. These assessments were confirmed by the Board of Revision of Assessments on June 30, 1904, and the "Eleventh Installment" entered on June 23, 1914, in the Record of Titles of Assessments kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents.

Unless the amount of the eleventh installment in each case shall be paid within sixty days after said date of entry, interest shall be charged, collected and received thereon, as provided in section 1019 of the Greater New York Charter.

Said section provides, in part, "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment, to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment, from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides * * * "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record." * * *

The above assessments are payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Mechanics' Bank Building, Court and Montague sts., Borough of Brooklyn, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before August 22, 1914, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessments became liens to the date of payment.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE BY SEALED BIDS.

AT THE REQUEST OF THE PRESIDENT of the Borough of Manhattan, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale by sealed bids certain buildings, etc., standing upon property owned by The City of New York, acquired by it for street purposes in the

Borough of Manhattan.

BEING the buildings, parts of buildings, etc., acquired for the extension of Seventh Avenue, from Greenwich Avenue to Carmine Street, for the widening of Varick Street, from Carmine Street to Franklin Street, and for the extension of Varick Street, from Franklin Street to West Broadway, in the Borough of Manhattan, which are more particularly described on a certain map on file in the office of the Collector of City Revenue, Department of Finance, Room 368, Municipal Building, Borough of Manhattan.

PURSUANT to a resolution of the Commissioners of the Sinking Fund, adopted at a meeting held September 24, 1913, the sale by sealed bids of the above described buildings and appurtenances thereto will be held by direction of the Comptroller on

TUESDAY, JULY 21, 1914.

at 11.00 A. M., in lots and parcels and in manner and form as follows:

PARCEL NO. 15A. Part of six-story brick building 54 and 56 Varick Street. Cut 35.17 feet on south side by 35.20 feet on north side.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 368, Municipal Building, Borough of Manhattan, until 11.00 a. m. on the 21st day of July, 1914, and then publicly opened for the sale for removal of the above-described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of $50 will be required with all bids, and that a deposit of $500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened July 21, 1914," and must be delivered or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 368, Municipal Building, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

THE BUILDINGS WILL BE SOLD FOR IMMEDIATE REMOVAL ONLY, SUBJECT TO THE TERMS AND CONDITIONS PRINTED ON THE LAST PAGE OF THIS ISSUE OF THE "CITY RECORD."

WM. A. PRENDERGAST, Comptroller.

Filling-in Privilege.

DEPARTMENT OF DOCKS AND FERRIES, PIER "A," FOOT OF BATTERY PLACE, NORTH RIVER, BOROUGH OF MANHATTAN, THE CITY OF NEW YORK.

SEALED BIDS OR ESTIMATES WILL BE received by the Commissioner of Docks at Pier "A," foot of Battery Place, North River, in The City of New York, until 12 o'clock noon on

WEDNESDAY, JULY 8, 1914.

FOR THE RIGHT TO DUMP AND FILL IN BEHIND THE BULKHEAD WALL RECENTLY BUILT OR TO BE BUILT ON PART OF THE BLACKWELL SECTION ON THE EAST RIVER, BOROUGH OF MANHATTAN.

TERMS AND CONDITIONS OF SALE:

The work to be done is to fill in with suitable material, as hereinafter described, the area behind the new bulkhead wall extending from the intersection of the southerly side of East Sixty-eighth Street, prolonged outshore, and the bulkhead wall and extending northerly along the bulkhead wall a distance of about 265 feet to the southerly side, prolonged outshore, of East Sixty-ninth Street.

The filling shall be brought to a grade level with the top of the coping of the bulkhead wall and shall extend inshore on a sloping grade to the level of the street adjacent.

It is estimated that the area outlining the above described limits will create a basin to be filled in, under this agreement, whose cubical contents in net void space is equal to 2,900 cubic yards.

Bidders will state in writing a lump sum price which they agree to pay for the privilege of filling in the void space behind the bulkhead wall, built or to be built, at the Blackwell section on the East River, Borough of Manhattan, as above more fully described. The award if made will be made to the bidder whose lump sum price is the highest for the privilege.

In the estimated amount given, the amount in cubic yards is arrived at without placing any allowance for shrinkage, settlement, swelling of the material or penetration into the mud.

The Department is not bound in any way by such estimate, and bidders must satisfy themselves of the actual quantity required to fill in the above described area by examination of the premises or such other means as they may prefer, the intention of the Department being to fill in the whole of the said premises behind the bulkhead wall within the above-described limits, and no allowance will be made to the purchaser from the purchase price on account of any discrepancy which may be found between the above estimated quantity and the actual amount of filling required. The purchaser will be required to place the filling in accordance with the following specifications:

All the filling shall, unless otherwise directed, be placed directly in the rear of the bulkhead wall and carried from the bulkhead wall toward the shore in such a manner as not to cause any damage to the pipes lying in the area to be filled in.

All material must be dumped and filled in only in such manner, at such points and in such order of procedure and at such times and seasons as may, from time to time, be directed, and the work of filling in may be entirely suspended for such periods of time as may be directed by the Engineer. The purchaser shall have no claim for damage or for any allowance from the purchase money on account of such suspension of the work.

All directions shall be given by the Engineer, and wherever the word "Engineer" is used in these specifications it refers to and designates the Chief Engineer of the Department of Docks and Ferries, or such officer or employee as may be designated by him.

Rip-rap stone coming directly on or against the bulkhead wall must be deposited carefully in such manner as will not injure the same.

All the filling, except as otherwise specified herein, shall be of ashes, cellar dirt, broken stone, etc., entirely free from garbage or any organic matter objectionable in the opinion of the Engineer.

At any section of the bulkhead wall the filling shall be brought up level with the under side of the backing log of the bulkhead wall at such section, and no higher unless otherwise directed.

The filling shall be commenced within five days after the date of the receipt of a notification from the Engineer that the work, or any part of it, is ready to be begun, after which not less than 100 cubic yards per day shall be placed, and the whole amount of the filling

called for to bring the above described basin up to grade shall be completed within twenty-nine days from the date of the receipt of said notification. At the expiration of this time this agreement shall be considered closed unless a further extension of time shall be given by the Commissioner of Docks. If at any time during the progress of the work it shall be deemed necessary to order the suspension of the whole or any part of the filling, the time for completing said filling shall be extended as much as it may have been delayed by such suspension.

In case the purchaser at any time does not proceed with the work of filling in to the satisfaction of the Commissioner of Docks, the said Commissioner will at once terminate the privilege of filling in and proceed to have the remainder of the filling in done by other parties in such way and manner as he deems proper, and any loss which may result therefrom shall be charged against him and forfeit the money paid for the privilege.

The purchaser shall during the work of filling in, and at all times until the completion thereof, take all necessary precautions and place proper guards for the prevention of accidents, and put up and maintain at night sufficient lights, and he shall indemnify and save harmless The City of New York from all damages and costs to which it may be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or guarding the same.

The purchaser shall provide all plank and other appliances and all necessary labor, and shall at all times keep the dump graded to the satisfaction of the Engineer.

No bid or estimate will be considered unless accompanied by a certified check drawn to the order of the Commissioner of Docks, or money in the full amount of the bid price.

The purchaser agrees that he will comply with the provisions of the Labor Law. He further agrees that no laborer, workman or mechanic in the employ of the contractor, sub-contractor or other person doing or contracting to do the whole or a part of the work contemplated by the contract shall be permitted or required to work more than eight hours in any one calendar day except as in cases of extraordinary emergency caused by fire, flood or danger to life and property.

That the wages to be paid for a legal day's work to all classes of such laborers, workmen or mechanics upon public work or upon any material to be used thereon shall not be less than the prevailing rate for a day's work in the same trade or occupation in the locality where such public work is being constructed. Each such laborer, workman or mechanic shall receive the prevailing rate of wages. This contract shall be void and of no effect unless the person or corporation making or performing the same shall comply with the provisions of Sections 3 and 14 of the Labor Law.

Dated: June 23rd, 1914.

M., upon the proposed terms and conditions of the contract for the construction of Section No. 3 of Route No. 33, being a part of the Broadway-Fourth Avenue and Seventh Avenue-Lexington Avenue Rapid Transit Railroads, in the Borough of Brooklyn, which section may be briefly described as follows:

Section No. 3. Beginning at a point under Montague Street, in the Borough of Brooklyn, about seventy-five (75) feet west of the westerly line of Clinton Street, and extending thence easterly under Montague Street and continuing southeasterly under Fulton Street and easterly under private property, Willoughby Street and again under private property to a connection with the Fourth Avenue subway in Flatbush Avenue Extension at Prince Street; with a station in Montague Street between Clinton Street and Court Street.

Also beginning at a point under Fulton Street, in the Borough of Brooklyn, about one hundred and forty-eight (148) feet south of the southerly line of Clark Sreet, and extending thence southeasterly under Fulton Street to a connection with the present subway under Fulton Street at Willoughby Street; with a station at Borough Hall.

Copies of the draft of said contract may be obtained at the said office of the said Public Service Commission for one dollar each.

Dated, New York, June 27, 1914.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT,

By EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. jy8,23

Proposals.

INVITATION TO CONTRACTORS

Part of the Broadway-Fourth Avenue Rapid Transit Railroad

The Public Service Commission for the First District (hereinafter called the "Commission"), acting for and on behalf of The City of New York (hereinafter called the "City"), invites proposals to construct Section No. 5 of Routes Nos. 4 & 36, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

SECTION No. 5. Beginning at a point under Central Park, in the Borough of Manhattan, about seventy-nine (79) feet east of the easterly building line of Seventh Avenue extended and about one hundred and thirty-seven (137) feet north of the south building line of West 59th Street, thence extending easterly under Central Park and West 59th Street to a point in West 59th Street about half way between Fifth Avenue and Sixth Avenue where the route separates into two branches, one branch extending easterly under West and East 59th Street to a point near Second Avenue, thence curving northerly under East 59th Street and Second Avenue to a point approximately on the easterly curb line of Second Avenue; the other branch extending northeasterly under West 59th Street, Central Park and Fifth Avenue and easterly under East 60th Street to a point near Second Avenue, thence curving southerly under East 60th Street and Second Avenue to a point approximately on the easterly curb line of Second Avenue.

The general plan of construction calls for a subsurface railroad having one and two tracks.

The Contractor will not be required to provide or lay tracks, ties or ballast nor to do station finish work, or to construct that part of the route underneath the rapid transit subway now being built under Lexington Avenue.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the removal and restoring of the Sherman statue at the Plaza, the maintenance of traffic and the restoration of pavements and other surfaces.

The method of construction will be partly by tunneling and partly by trench excavation under cover, unless otherwise permitted by the Commission.

The Contractor will be required to prosecute the work of construction from working shafts located at the points specified in the contract.

Bidders must examine the form of contract, the specifications and the contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this Invitation.

Partial payments to the Contractor will be made monthly as the work proceeds.

The Contractor must complete the work within twenty-nine (29) months from the delivery of the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities, in the sum of three hundred thousand dollars ($300,000). As further security fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the total estimated amount to be paid to the Contractor under the contract. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor.

Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York, until the 24th day of July, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same except as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed *"Proposal for Constructing Part of Rapid Transit Railroad —Routes Nos. 4 & 36, Section No. 5,"* and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for thirty thousand dollars ($30,000), payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

New York, June 27, 1914.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, By EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. jy3,24

INVITATION TO CONTRACTORS

FOR THE STATION FINISH WORK FOR PART OF THE BROADWAY-FOURTH AVENUE RAPID TRANSIT RAILROAD

The Public Service Commission for the First District (hereinafter called the "Commission") acting for and in behalf of The City of New York (hereinafter called the "City") invites proposals to construct station finish for the six stations on Sections Nos. 1 and 2 of Route No. 11-B, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The location within the City at which the said work is to be performed is on Fourth Avenue in the Borough of Brooklyn, between Fortieth and Ninetieth Streets.

The Railroad for which the station finish is to be provided is now under construction. The Contractor shall begin actual work within thirty (30) days after the delivery of the contract on such stations and other parts of said Railroad as the Chief Engineer of the Commission may direct and shall begin actual work on any of the remaining stations or other parts of the Railroad within ten (10) days after notice and shall complete the entire work covered by the contract within six (6) months from the delivery of the contract, provided that an extension of time will be granted for completing the work at any station or other part of the Railroad upon which the Contractor shall not have been directed, within four (4) months after the delivery of the contract, to begin work, as provided in the contract. The City has also entered into a contract for the installation of tracks in the Railroad and the work of installation will be in progress at the time that the station finish work is in progress. It will also be necessary for the New York Municipal Railway Corporation, its contractors or employees, to do work in the Railroad in connection with the equipment of the Railroad at the time that the station finish work is in progress. The Contractor must conduct his work so as not to impede or interfere with such other work, as provided in the contract.

The Railroad or a portion thereof may also be opened and operated for passenger traffic before the completion of the station finish work. In such event the Contractor must conduct his work so as to avoid interference with the operation of the Railroad and injury to passengers, as provided in the contract; and payment for all additional expense, loss, risk and damage due to such opening and operating for traffic will be made by increasing by the percentage stipulated in Item X in the Schedule contained in the Contractor's Proposal, the prices stipulated in said Schedule for the station finish work performed after the date of such opening and operating for passenger traffic at each station so opened and used for passenger traffic and at each portion of the Railroad between stations so opened and operated for passenger traffic, except as provided in the contract. Each bidder shall state in said Item X in the Schedule contained in the form of Contractor's Proposal the percentage required on such prices in payment for the additional expense, loss, risk and damage in the event of such opening and operating for traffic. For the purpose of comparing the bids only, and not for any other purpose, it will be assumed that the percentage so bid will be required to be paid on one-quarter (¼) of the estimated amount of the station finish work. If any bidder shall not desire any such increase in said prices on account of such opening and operating for traffic, he shall strike out said Item X in said Schedule contained in his Proposal.

Bidders must examine the form of contract and the specifications and the contract drawings and must visit the location of the work and inform themselves of the conditions and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, New York City. The forms of contract and the contract drawings and the form of bond and contractor's proposal are to be deemed a part of this Invitation.

Partial payments to the Contractor will be made as the work proceeds, as provided in the forms of contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of fifty thousand dollars ($50,000). As further security ten (10) per centum of the amounts certified from time to time to be due to the Contractor will be deducted.

Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, New York City, until the 23d day of July, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement based upon the estimate of the Chief Engineer of the Commission of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed *"Proposal for Constructing Station Finish for Part of Rapid Transit Railroad—Route No. 11-B, Section Nos. 1 and 2,"* and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for ten thousand dollars ($10,000) payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT,

By EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. jy2,23

INVITATION TO CONTRACTORS

LAND AND RIVER BORINGS

The Public Service Commission for the First District invites proposals to make borings along the lines of proposed rapid transit railroad routes as they may be needed and ordered:

In the Boroughs of Manhattan, Brooklyn, Queens and Bronx and in the East River.

The following is a statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of work and of the nature and extent of the work required:

STATEMENT OF APPROXIMATE QUANTITIES

Land Borings

Item 1. (*a*) Sinking 2½-inch casing, Borough of Manhattan, 1,000 linear feet. (*b*) Sinking 2½-inch casing, Boroughs of Brooklyn, Queens and Bronx, 1,000 linear feet. (*c*) Sinking 8-inch casing, Borough of Manhattan, 1,000 linear feet. (*d*) Sinking 8-inch casing, Boroughs of Brooklyn, Queens and Bronx, 1,000 linear feet.

Item 2. (*a*) Drilling for 1-inch cores with diamond drills, 100 linear feet. (*b*) Drilling for 1-inch cores with shot drills, 100 linear feet. (*c*) Drilling for 6-inch cores with diamond drills, 100 linear feet. (*d*) Drilling for 6-inch cores with shot drills, 100 linear feet.

River Borings

Item 3. (*a*) Sinking casing for 1⅜-inch cores, 300 linear feet. (*b*) Sinking casing for 6-inch cores, 300 linear feet.

Item 4. (*a*) Drilling for 1⅜-inch cores with diamond drills, 100 linear feet. (*b*) Drilling for 1⅜-inch cores with shot drills, 100 linear feet. (*c*) Drilling for 6-inch cores with diamond drills, 100 linear feet. (*d*) Drilling for 6-inch cores with shot drills, 100 linear feet.

The quantities specified in the above schedule are given only as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same. It is expected that the work required under the contract may amount to about twenty-one thousand dollars ($21,000). The Commission reserves the right, however, as stated in the contract, to increase or to diminish or to omit entirely any of the quantities of items given in the above schedule.

A fuller description of the work and other requirements, provisions, details and specifications are given in the Information for Contractors and in the form of contract. Copies of the Information for Contractors and of the forms of contract, bond and contractor's proposal may be had on application at the office of the Commission.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, New York City, until the 10th day of July, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

SUPREME COURT — FIRST DEPARTMENT.

Applications to Amend Proceedings.

FIRST DEPARTMENT.

In the Matter of the Application of The City of New York, relative to amending its application heretofore made in the Matter of the Application of The City of New York, relative to acquiring title wherever the same has not been heretofore acquired to the lands, tenements and hereditaments required for the opening and extending of NEREID AVENUE (although not yet named by proper authority), from White Plains Road to the Bronx River, in the Twenty-fourth Ward, Borough of The Bronx, City of New York, so as to conform to a map adopted by the Board of Estimate and Apportionment December 4, 1913, and approved by the Mayor December 15, 1913, in which a slight change is made in the lines of Bullard Avenue; the proceeding as amended to relate to Nereid Avenue, between White Plains Road and Bullard Avenue as now laid out upon the map of The City of New York.

PURSUANT TO THE STATUTES IN SUCH cases made and provided, notice is hereby given that an application will be made to the Supreme Court of the State of New York, First Department, at a Special Term thereof, to be held at Part I thereof, at the County Court-house, in the Borough of Manhattan, in The City of New York, on the 15th day of July, 1914, at the opening of the Court on that day or as soon thereafter as counsel can be heard thereon for an order amending the proceeding entitled "In the Matter of the Application of The City of New York, relative to acquiring title wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of Nereid Avenue (although not yet named by proper authority), from White Plains Road to the Bronx River, in the Twenty-fourth Ward, Borough of The Bronx, City of New York," so as to conform to a map adopted by the Board of Estimate and Apportionment December 4, 1913, and approved by the Mayor December 15, 1913, in which a slight change is made in the lines of Bullard Avenue; the proceeding as amended to relate to Nereid Avenue, between White Plains Road and Bullard Avenue, as now laid out upon the map of The City of New York.

Land not required for Nereid Avenue, from White Plains Road to Bronx River, in the Borough of The Bronx, City of New York, being the portion lying west of Bullard Avenue, is bounded and described as follows:

FIRST DEPARTMENT.

In the matter of acquiring title by The City of New York to certain lands and premises at and near the southeasterly corner of ST. PAUL'S PLACE and PARK AVENUE, and the southwesterly corner of ST. PAUL'S PLACE and WASHINGTON AVENUE in the Twenty-third Ward of the Borough of The Bronx, in the City of New York, duly selected as a site for school purposes, according to law.

WE, THE UNDERSIGNED, COMMISsioners of Estimate and Appraisal in the above-entitled proceeding, do hereby give notice to the owner or owners, lessee or lessees, parties or persons respectively entitled to or interested in the lands, tenements, hereditaments and premises, title to which is sought to be acquired in this proceeding, and to all others whom it may concern, to wit:

FIRST—That we have completed our estimate of the loss and damage to the respective owners, lessees, parties or persons respectively entitled to or interested in the lands and premises affected by this proceeding, or having any interest therein, and have filed a true report or transcript of such estimate in the office of the Board of Education of The City of New York, situated at the southwest corner of Fifty-ninth Street and Park Avenue, in the Borough of Manhattan, City of New York, for the inspection of whomsoever it may concern.

SECOND—That all parties or persons whose rights may be affected by the said estimate, or who may object to the same, or any part thereof, may, within ten days after the first publication of this notice, July 2nd, 1914, file their objections, in writing, with us, at our office, Room No. 1728, Municipal Building, in the Borough of Manhattan, in The City of New York; and we, the said Commissioners, will hear parties so objecting, at our said office, on the 15th day of July, 1914, at 11 o'clock in the forenoon of that day, and upon such subsequent days as may be found necessary.

Dated, New York, July 2nd, 1914.

Filing Preliminary Abstracts.

FIRST DEPARTMENT.

In the Matter of the Application of The City of New York, relative to acquiring title wherever the same had not been heretofore acquired for the same purpose in fee to the lands, tenements and hereditaments required for the opening and extending of BRONXWOOD AVENUE, from Burke Avenue to Gun Hill Road; BARNES AVENUE, from Williamsbridge Road to Tilden Street; and WALLACE AVENUE, from Williamsbridge Road to Gun Hill Road, in the Twenty-fourth Ward, Borough of The Bronx, City of New York, as amended by an order of the Court, dated the 2nd day of February, 1914, and entered in the office of the Clerk of the County of The Bronx on the 4th day of February, 1914, so as to conform to changes shown on a map or plan adopted by the Board of Estimate and Apportionment on October 31, 1912, and approved by the Mayor November 11, 1912, which changes show a slight modification in the lines of Wallace Avenue at its intersection with North Oak Drive, and minor modifications in some of the block dimensions.

NOTICE IS HEREBY GIVEN TO ALL PERsons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First.—That the undersigned, Commissioners of Estimate, have completed their supplemental and amended estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing duly verified, with them at their office, Room 1557, 15th Floor, Municipal Building, Chambers and Centre Streets, in the Borough of Manhattan, in The City of New York, on or before the 14th day of July, 1914, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 16th day of July, 1914, at 3 o'clock P. M.

Second.—That the undersigned, Commissioner of Assessment, has completed his supplemental and amended estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, Room 1557, 15th Floor, Municipal Building, Chambers and Centre Streets, in the Borough of Manhattan, in The City of New York, on or before the 14th day of July, 1914, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 17th day of July, 1914, at 3.30 o'clock P. M.

Third.—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 20th day of February, 1913, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at the point where the southerly line of Tilden street intersects the prolongation of a line midway between Barnes avenue and Bronxwood avenue, as these streets are laid out between Gun Hill road and East Two Hundred and Eleventh street, and running thence southwardly along the said line midway between Barnes avenue and Bronxwood avenue and the prolongation thereof to a point distant 100 feet northerly from the northerly line of Gun Hill road; thence eastwardly and parallel with Gun Hill road to the intersection with a line at right angles to Gun Hill road, and passing through a point on the southerly line of Gun Hill road midway between Paulding avenue and Hone avenue; thence southwardly along the said line at right angles to Gun Hill road to the intersection with a line parallel with and distant 100 feet westerly from the westerly line of Hone avenue, the said distance being measured at right angles to the line of Hone avenue; thence southwardly along the said line parallel with Hone avenue to a point distant 100 feet southerly from the southerly line of Burke avenue; thence westwardly and parallel with Burke avenue to the intersection with a line midway between Barnes avenue and Mathews avenue; thence southwardly along the said line midway between Barnes avenue and Mathews avenue to the northerly line of Williamsbridge road; thence westwardly along the northerly line of Williamsbridge road to the intersection with a line midway between Holland avenue and Wallace avenue as these streets are laid out south of South Oak drive; thence northwardly along the said line midway between Holland avenue and Wallace avenue as laid out south of South Oak drive and along the prolongation of the said line to the intersection with the prolongation of a line midway between Holland avenue and Wallace avenue as these streets are laid out north of Bartholdi street; thence northwardly along the said line midway between Holland avenue and Wallace avenue as the said streets are laid out north of Bartholdi street and along the prolongation thereof to the southerly line of Tilden street; thence northwardly at right angles to Tilden street 150 feet; thence eastwardly and parallel with Tilden street to the intersection with a line at right angles to Tilden street and passing through the point described as the point or place of beginning; thence southwardly along the said line at right angles to Tilden street, to the point or place of beginning.

Fourth.—That the abstracts of said estimate of damage and of said assessment for benefit together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Room 1529, 15th Floor, Municipal Building, Chambers and Centre Streets, in the Borough of Manhattan, in said City, there to remain until the 16th day of July, 1914.

Fifth.—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 13th day of October, 1914, at the opening of the Court on that day.

Sixth.—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to Sections 981 and 984 of the Greater New York Charter, as amended by Chapter 658 of the Laws of 1906.

Dated, New York, June 16th, 1914.

In the Matter of the Application of The City of New York, relative to acquiring title wherever the same has not been heretofore acquired for the same purpose in fee to the lands, tenements and hereditaments required for the opening and extending of SCHOOL STREET, from Thomson Avenue to a point 100 feet north of Nott Avenue; HILL STREET, from Skillman Avenue to Gale Street; RAWSON STREET, from Skillman Avenue to Hunters Point Avenue; MOORE STREET, from Skillman Avenue to Hunters Point Avenue; HONEYWELL STREET, from Queens Boulevard to Hunters Point Avenue, and BUCKLEY STREET, from Skillman Avenue to Hunters Point Avenue, in the 1st Ward, Borough of Queens, City of New York.

NOTICE IS HEREBY GIVEN TO ALL PERsons interested in the above-entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to-wit:

First.—That the undersigned, Commissioners of Estimate, have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, in the Municipal Building, Court House Square, Long Island City, in the Borough of Queens, in The City of New York, on or before the 23d day of July, 1914, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 24th day of July, 1914, at 3 o'clock P. M.

Second.—That the undersigned, Commissioner of Assessment, has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, in the Municipal Building, Court House Square, Long Island City, in the Borough of Queens, in The City of New York, on or before the 23d day of July, 1914, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 27th day of July, 1914, at 3 o'clock P. M.

Third.—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 2nd day of May, 1912, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz.:

1. Bounded on the north by a line distant 100 feet northerly from and parallel with the northerly line of Thomson avenue, the said distance being measured at right angles to Thomson avenue; on the east by a line midway between School street and Van Dam street and by the prolongation of the said line; on the south by the northerly line of Nott avenue, and on the west by a line midway between School street and Mount street and by the prolongation of the said line.

2. Beginning at a point on the northerly line of Skillman avenue where it is intersected by the prolongation of a line midway between Buckley street and Hulst street, and running thence southwardly along the said line midway between Buckley street and Hulst street and along the prolongations of the said line to the intersection with the centre line of Greenpoint avenue; thence southwestwardly along the centre line of Greenpoint avenue to the intersection with a line distant 100 feet southwesterly from and parallel with the southwesterly line of Hunters Point avenue, the said distance being measured at right angles to Hunters Point avenue; thence northwestwardly along the said line parallel with Hunters Point avenue to the intersection with a line distant 100 feet easterly from and parallel with the easterly line of Hill street, the said distance being measured at right angles to Hill street; thence southwardly along the said line parallel with Hill street to the intersection with the northeasterly line of Gale street; thence southwestwardly at right angles to Gale street a distance of 160 feet; thence northwestwardly and parallel with Gale street to the intersection with the prolongation of a line midway between Van Dam street and Hill street; thence northwardly along the said line midway between Van Dam street and Hill street and along the prolongations of the said line to the intersection with the northerly line of Skillman avenue; thence eastwardly along the northerly line of Skillman avenue to the intersection with the prolongation of a line midway between Moore street and Honeywell street; thence southwardly along the said line midway between Moore street and Honeywell street to the intersection with the centre line of Queens boulevard; thence eastwardly along the centre line of Queens boulevard to the intersection with a line midway between Honeywell street and Buckley street; thence northwardly along the said line midway between Honeywell street and Buckley street and along the prolongation of the said line to the intersection with the northerly line of Skillman avenue; thence eastwardly along the northerly line of Skillman avenue to the point or place of beginning, excluding, however, from the above described areas such land as is exempt from assessment under the provisions of section 992 of the City Charter.

Fourth.—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, in the Municipal Building, Court House Square, in the Borough of Queens, in said City, there to remain until the 24th day of July, 1914.

Fifth.—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 25th day of September, 1914, at the opening of the Court on that day.

Sixth.—In case, however, objections are filed to the foregoing abstracts of estimate and assessment or to either of them the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to Sections 981 and 984 of the Greater New York Charter, as amended by Chapter 658 of the Laws of 1906.

SECOND DEPARTMENT.

In the Matter of the Application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee to the lands and premises required for the opening and extending of FISK AVENUE, from Woodside Avenue to Grand Street, in the 2nd Ward, Borough of Queens, City of New York, as amended by an order of the Supreme Court, Second Department, dated the 28th day of August, 1913, and entered in the office of the Clerk of the County of Queens on the 4th day of September, 1913, by eliminating the three blocks of Fisk Avenue, between Queens Boulevard and Woodside Avenue, the proceeding as amended to relate to Fisk Avenue, from Grand Street to Queens Boulevard.

The land not required in this proceeding is more particularly bounded and described in the petition attached to the aforesaid order.

NOTICE IS HEREBY GIVEN TO ALL PERsons interested in the above-entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to-wit:

First.—That the undersigned, Commissioners of Estimate, have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, in the Municipal Building, Court House Square, Long Island City, in the Borough of Queens, in The City of New York, on or before the 21st day of July, 1914, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 23rd day of July, 1914, at 11.30 o'clock A. M.

Second.—That the undersigned, Commissioner of Assessment, has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, in the Municipal Building, Court House Square, Long Island City, in the Borough of Queens, in The City of New York, on or before the 21st day of July, 1914, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 24th day of July, 1914, at 11.30 o'clock A. M.

Third.—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 20th day of February 1913, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on the prolongation of a line midway between Burrough avenue and Columbia avenue as these streets adjoin Vandergrift street where it is intersected by a line bisecting the angle formed by the intersection of the prolongations of the easterly line of Burrough avenue and the westerly line of Van Tassell street as these streets adjoin Van Dyke street, and running thence northwardly along the said line midway between Burrough avenue and Columbia avenue and along the prolongations of the said line to the intersection with a line distant 100 feet northerly from and parallel with the northerly line of Queens boulevard, the said distance being measured at right angles to Queens boulevard; thence eastwardly along the said line parallel with Queens boulevard to the intersection with the prolongation of a line distant 100 feet easterly from and parallel with the easterly line of Ramsey street as this street is laid out between Adams street and Monroe street, the said distance being measured at right angles to Ramsey street; thence southwardly along the said line parallel with Ramsey street and along the prolongations of the said line to the intersection with the northerly line of Calamus avenue; thence southwardly in a straight line to a point on the southerly line of Calamus avenue distant 100 feet easterly from the easterly line of Ramsey street, the said distance being measured at right angles to Ramsey street; thence southwardly and always distant 100 feet easterly from and parallel with the easterly line of Ramsey street to a point distant 100 feet southeasterly from the southeasterly line of Grand street, the said distance being measured at right angles to Grand street; thence southwestwardly and always distant 100 feet southeasterly from and parallel with the southeasterly line of Grand street to the intersection with a line at right angles to Grand street and passing through a point on its northwesterly side where it is intersected by a line

bisecting the angle formed by the intersection of the prolongations of the easterly line of Columbia avenue and the westerly line of Mueller street as these streets are laid out between Clinton avenue and Perry avenue; thence northwestwardly along the said line at right angles to Grand street to the intersection with its northwesterly side; thence northwardly along the said bisecting line to the intersection with a line distant 100 feet northwesterly from and parallel with the northwesterly line of Jay avenue, as this street adjoins Burrough avenue, the said distance being measured at right angles to Jay avenue; thence southwestwardly along the said line parallel with Jay avenue to the intersection with a line bisecting the angle formed by the intersection of the prolongations of the easterly line of Burrough avenue and the westerly line of Van Tassell street as these streets are laid out adjoining Van Dyke street; thence northwardly along the said bisecting line to the point or place of beginning.

Fourth.—That the abstracts of said estimate of damage and of said assessment for benefit together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, in the Municipal Building, Court House Square, in the Borough of Queens, in said City, there to remain until the 23rd day of July, 1914.

Fifth.—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for connrmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 25th day of September, 1914, at the opening of the Court on that day.

Sixth.—In case, however, objections are filed to the foregoing abstracts of estimate and assessment or to either of them the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to Sections 981 and 984 of the Greater New York Charter, as amended by Chapter 658 of the Laws of 1906.

Dated, New York, June 24th, 1914.

SECOND DEPARTMENT.

In the Matter of the Application of The City of New York, relative to acquiring title wherever the same has not been heretofore acquired, for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of HANCOCK STREET from Vernon avenue, near 12th street, northwardly to Vernon avenue, north of Sandford street; and the Public Place bounded by the easterly line of Vernon avenue, the northwesterly line of Hancock street and the northeasterly line of Nott avenue, in the First Ward, Borough of Queens, City of New York.

NOTICE IS HEREBY GIVEN TO ALL PERsons interested in the above-entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to-wit:

First.—That the undersigned, Commissioners of Estimate, have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them at their office, in the Municipal Building, Court House Square, Long Island City, in the Borough of Queens, in The City of New York, on or before the 13th day of July, 1914, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 15th day of July, 1914, at 11 o'clock A. M.

Second.—That the undersigned, Commissioner of Assessment, has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, in the Municipal Building, Court House Square, Long Island City, in the Borough of Queens, in The City of New York, on or before the 13th day of July, 1914, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 16th day of July, 1914, at 11 o'clock A. M.

Third.—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 4th day of December, 1908, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Queens, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on a line midway between Eleventh street and Twelfth street where it is intersected by a line bisecting the angle formed by the intersection of the prolongations of the southeasterly line of Hancock street and the westerly line of the boulevard as laid out between Twelfth street and Bodine street, and running thence westwardly along the said line midway between Eleventh street and Twelfth street, and the prolongation thereof, to a point distant 200 feet westerly from the westerly line of Vernon avenue; thence northwardly and always parallel with and distant 200 feet from the westerly line of Vernon avenue to the intersection with a line midway between Nott avenue and Thirteenth street; thence eastwardly along the said line midway between Nott avenue and Thirteenth street to the intersection with a line midway between Hamilton street and Hancock street; thence northeaswardly along the said line midway between Hamilton street and Hancock street to the intersection with a line bisecting the angle formed by the intersection of the prolongations of the centre lines of Hamilton street and Hancock street as laid out between Jane street and Harsell street; thence northeastwardly along the said bisecting line to the intersection with a line midway between Hamilton street and Hancock street as laid out between Freeman avenue and Harsell street; thence northeastwardly and along a line always midway between Hamilton street and Hancock stret, and along the prolongation thereof to the intersection with the northwesterly line of Vernon avenue; thence northwestwardly at right angles to Vernon avenue a distance of 100 feet; thence northeastwardly and parallel with Vernon avenue to the intersection with a line at right angles to Vernon avenue, and passing through a point on its northwesterly side where it is intersected by the prolongation of a line midway between Hancock street and the boulevard; thence southeastwardly along the said line at right angles to Vernon avenue to its northwesterly side; thence southwesterly along the aforesaid line midway between Hancock street and the boulevard, and the prolongation thereof, to the intersection with a line bisecting the angle formed by the intersection of the prolongations of the southeasterly line of Hancock street and the northwesterly line of the boulevard as these streets are laid out between Harsell street and Freeman avenue; thence southwestwardly along the aforesaid bisecting line to the intersection with a line bisecting the angle formed by the intersection of the prolongations of the southeasterly line of Hancock street and the northwesterly line of the boulevard as these streets are laid out between Harsell street and Jane street; thence southwestwardly along the aforesaid bisecting line to the intersection with a line bisecting the angle formed by the intersection of the prolongations of the southeasterly line of Hancock street and the northwesterly line of the boulevard as laid out between Harris avenue and Jane street; thence southwestwardly along the aforesaid bisecting line to the intersection with the prolongation of a line midway between Hancock street and the boulevard as laid out between Bodine street and Harris avenue; thence southwestwardly along the said line midway between Hancock street and the boulevard to the intersection with a line bisecting the angle formed by the intersection of the prolongations of the southeasterly line of Hancock street and the westerly line of the boulevard as laid out between Twelfth street and Bodine street; thence southwestwardly along the said bisecting line to the point or place of beginning.

Fourth.—That the abstracts of said estimate of damage and of said assessment for benefit together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, in the Municipal Building, Court House Square, in the Borough of Queens, in said City, there to remain until the 15th day of July, 1914.

Fifth.—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House in the Borough of Brooklyn, in The City of New York, on the 9th day of October, 1914, at the opening of the Court on that day.

Sixth.—In case, however, objections are filed to the foregoing abstracts of estimate and assessment or to either of them the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to Sections 981 and 984 of the Greater New York Charter, as amended by Chapter 658 of the Laws of 1906.

Dated, New York, June 19th, 1914.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
