PROCEEDINGS OF THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS.

AT A MEETING OF THE BOARD HELD IN No. 320 BROADWAY, ON THURSDAY, 26TH MARCH, 1903.

There were present—Alexander E. Orr, President, presiding; Mayor Seth Low, Comptroller Edward M. Grout and Commissioners Woodbury Langdon, Morris K. Jesup and John Claffin.

Edward M. Shepard and Albert B. Boardman, counsel; Wm. Barclay Parsons, Chief Engineer, and George S. Rice, Deputy Chief Engineer, also were present.

The minutes of the meeting of 19th instant were read and it was moved that they be approved.

Ayes—The President, Mayor, Comptroller and Commissioners Langdon, Jesup and Claffin.

Nays—None.

Carried.

The President reported that he had executed, as authorized by the Board, contract with the New York Tunnel Company with respect to shafts in Joralemon street, Brooklyn, and had received from that company check for \$5,500. It was decided this check should be held by the President.

The following letter of the Chief Engineer was presented:

NEW YORK, March 23, 1903.

Hon. A. E. ORR, President, Rapid Transit Board:

MY DEAR SIR—In taking down the building at the northeast corner of Forty-second street and Broadway there was some old iron and other material which I directed the Inspector to sell. This material was sold for \$12.74 and I hand you herewith a check for that amount for you to dispose of as you may think proper.

Very truly yours,

(Signed) WM. BARCLAY PARSONS, Chief Engineer.

The Secretary was directed to transmit the check to the Department of Finance.

The following letter of Wilhelmus Mynderse was read:

Hon. ALEXANDER E. ORR: 26th March, 1903.

MY DEAR SIR—I follow up my conference of Monday evening with the following statement:

My house occupies the corner of Garden place and Joralemon street, being on the east side of Garden place and on the south side of Joralemon street. It has a frontage on Joralemon street of nearly 42 feet.

The house has cost me over \$50,000, including the original purchase price and the cost of rebuilding and additions.

The furnishings have cost me as much more.

The house will not be a suitable home for my family during the period of construction of the tunnel, and I have already made arrangements to leave it in the latter part of April.

I do not wish to take exaggerated views of the situation, but am convinced that the erection of houses 25 feet in height over the shafts and the establishment of yards with fences 8 feet high will substantially block the street, affect the light and air and be most unsightly.

The conduct of the operations, the hoisting of excavations, the loading of carts, the passing of carts to and fro, the delivery of construction materials and fitting them for use will absolutely change the character of the neighborhood for the time being, and destroy those features which now make it desirable and attractive as a place of residence.

Moreover, I am advised by my physician that continued exposure to the fresh excavations would involve serious risk to health.

I do not wish to take an exaggerated view of the situation, but I feel that I am practically driven from my home for a year or more.

From present information I believe that the Rapid Transit Commission have the right to open the streets in this way; but it seems just as clear that the immediate neighborhood is not bound to bear, without compensation, the burden of operations incident to the construction of the tunnel beyond its limits.

Whether property owners have a right to damages for losses incident to construction of the tunnel immediately in front of their property I do not know and need not inquire; but certainly I cannot be held to bear the burden of construction all the way from the river to Clinton street.

I do not pursue this question, as I understand that the Commission recognize that the property owners between Garden place and Henry street have special rights.

My neighbors, Judge Abbott, No. 96 Joralemon street, and Mr. Frederick J. Phillips, No. 98 Joralemon street, have authorized me to speak for them. Their property is even more seriously burdened than mine, if there can be degrees in such burdens.

As to damages, neither I nor my neighbors seek anything excessive.

It would not seem excessive to give us interest on our investments with the cost of taxes and insurance.

Or, alternatively, it would seem proper to allow us the fair rental values of the houses.

As to my own house, I am informed by expert real estate agents that it would readily rent unfurnished for \$2,500 and furnished for at least \$1,000 more.

They tell me that its rental value for the coming year is nothing; that the class of people who would rent such a house under ordinary circumstances would not think of living in it during the period of tunnel construction.

I have no doubt they are right.

Neither Judge Abbott nor Mr. Phillips nor myself desires litigation, and we understand that the Commission is disposed to treat us with fairness.

With a view of adjusting matters, we three have agreed among ourselves to withdraw all opposition to the proposed work upon payment of \$6,500, which we will distribute among ourselves.

Of course such amount relates only to the special burden incident to the operation of the shafts and is not to prejudice any claim which might come to us through physical damage to our houses by settling or to permanent damage through the operation of the tunnel.

Very respectfully,

(Signed) WILHELMUS MYNDERSE.

It was referred to the Committee on Plans.

The President reported that the Committee on Plans had communicated with the railroad companies interested and had received replies from the Presidents of the New York Central and Hudson River Railroad Company and the Brooklyn Rapid Transit Company.

The following correspondence on the change of route at One Hundred and Forty-ninth street was read:

March 24, 1903.

Hon. ALEXANDER E. ORR, President, Board of Rapid Transit Railroad Commissioners:

DEAR SIR—I transmit herewith a copy of my letter to Mr. Shepard relative to the rights of way at Westchester avenue and One Hundred and Forty-ninth street, and also a copy of his reply thereto received this day.

Yours very truly,

(Signed) EDWARD M. GROUT, Comptroller.

March 21, 1903.

EDWARD M. SHEPARD, Esq., No. 26 Liberty Street, New York City:

DEAR SIR—Now that the property owners' consents to the change of route of the Rapid Transit Subway at Westchester avenue and One Hundred and Forty-ninth street have been received, the new route, I understand, becomes effective, and we have now to meet the problem of buying the right of way through the block. The right of way cuts through the different lots very badly, so as to leave many remnants of doubtful value, in some cases cutting a lot into two parts, one of which is deprived of any access to any street.

Mr. Orr and myself had a conference on the matter after the meeting of the Commission last Thursday, having before us a letter which Mr. Douglas Robinson had written me as to suggested private purchase of the right of way. Mr. Robinson acts for the contractors. If it be possible, legally, for the Commissioners so to arrange the matter, Mr. Orr and myself would report to the Commission, recommending that the right of way be acquired by the contractors buying the necessary lots at prices to be approved, realizing afterwards what there may be in the way of salvage on unused portions, the Commission to pay the difference after the proper settlement of the accounts as to interest and charges. At Mr. Orr's request I write to ask you whether the Commission can lawfully make such an arrangement.

Yours very truly,

(Signed) EDWARD M. GROUT, Comptroller.

21st March, 1903.

Hon. EDWARD M. GROUT, Comptroller, No. 280 Broadway, City:

MY DEAR SIR—I have your letter of to-day. I see no legal difficulty whatever in the way of purchase by the Rapid Transit Board from the contractors of the right of way. If the contractors should beforehand acquire property they could make the sale direct to the City, under the provisions of the statute of last year, and would, of course, have left in their own ownership the unused portions of the property.

Very respectfully yours,

(Signed) EDWARD M. SHEPARD.

The following resolution was moved:

Whereas, The acquisition of portions of the block bounded by East One Hundred and Forty-ninth street, Gerard street, Bergen, Westchester avenue and Brook avenue, in the Borough of The Bronx, is, in the opinion of this Board, necessary for the purpose of the construction and operation of the Rapid Transit Railroad, as modified by resolution of 25th June, 1902;

Resolved, That this Board, for and in behalf of The City of New York, acquire by deed to said City, to be delivered to the said Board, so much of the said lots as is required for the construction and operation of the said Rapid Transit Railroad through the said premises; and it is further

Resolved, That the question of the amount to be paid for the portions of the said premises, and the terms and form of the deed to be received by the City, be referred to a committee who shall confer with the representatives of the owners.

Ayes—The President, Mayor, Comptroller, and Commissioners Langdon, Jesup and Claffin.

Nays—None.

Carried.

The Committee, thus authorized, includes besides the President, as Chairman, the Comptroller.

The following letter of the contractor was read:

March 23, 1903.

ALEXANDER E. ORR, Esq., President, Board of Rapid Transit Railroad Commissioners, No. 320 Broadway, New York:

DEAR SIR—I beg to inform you that on March 5 the ironworkers erecting the structural steel at the inspection shed on Lenox avenue were called out in sympathetic strike, caused by the differences the American Bridge Company, a sub-contractor of this company, has had at Buffalo and Pittsburgh with the International Structural Ironworkers, and that on March 11 the ironworkers at the power house and sub-stations were also called out. All these workers are still out on strike.

This strike affects the Rapid Transit Railroad very seriously, for it delays the construction of the most important part of our work—the power house at Fifty-eighth and Fifty-ninth streets and Eleventh avenue. Any delay at this vital point means a delay in the operation of the Rapid Transit Road. Upon investigation I find that there has been no grievance or complaint on the part of the men in our employ; that there is no reason connected with the Rapid Transit work why this strike should be declared. In fact, this strike is in direct violation of the agreement which I made last November with a representative of the ironworkers at the time of the strike at the power house.

Yours truly,

(Signed) JOHN B. McDONALD, Contractor.

It was decided that the President should attempt to arrange the matter with the ironworkers. In the event of his failure the Mayor said he would take it up.

Letters from Smith & Martin and L. Tanenbaum, as to opposition to Wooster street extension were read.

Communication from the Commissioner of Parks for Manhattan and Richmond, as to condition of City Hall Park as a result of the rapid transit work, with letter of the contractor and report of the Chief Engineer, was read.

The following resolution was moved:

Nays—None.

Carried.

Counsel reported that they had conferred with the Corporation Counsel as directed by the Board on the proposed bill to amend the Rapid Transit Act, proposed by the Mayor at the last meeting, and that the amended draft would soon be ready for resubmission to the Mayor by the Corporation Counsel. On account of the lateness of the date and the improbability of securing the passage of the bill through the Legislature at this time, it was decided to have presented a separate bill removing the present statutory limit of New York City's expenditure for rapid transit purposes. The Mayor said he would take up the matter.

Counsel reported the receipt from Henry W. Taft, counsel of the New York, New Haven and Hartford Railroad Company, of communication with respect to a bill in the Legislature providing that where a railroad corporation has been incorporated under the general Railroad Law to construct and operate a railroad partly within and partly without the limits of a city and has obtained a certificate of the Railroad Commissioners under section 59 of the Railroad Law, it may construct, operate and maintain its railroad across any street, avenue or highway in any city, either above or below the grade thereof, as may be determined by the Railroad Commissioners, upon receiving the assent of the corporation of such city.

The following resolution was moved by the Comptroller and seconded by Commissioner Claflin:

Resolved, That the letter of Mr. Taft be referred to the Mayor.

Ayes—The President, Mayor, Comptroller, and Commissioners Langdon, Jesup and Claflin.

Nays—None.

Carried.

The Chief Engineer submitted the following report:

THE BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,
CHIEF ENGINEER'S OFFICE, No. 320 BROADWAY,
NEW YORK, March 26, 1903.

Hon. A. E. ORR, President, Rapid Transit Board; Hon. SETH LOW, Mayor of The City of New York:

DEAR SIRS—At the last meeting of the Board a resolution was passed directing the Chief Engineer to examine immediately the condition of the streets along the line of the Subway and to report to the Board and to the Mayor where there are obstructions that should be removed and the points at which streets may be put immediately in good order. In compliance with such resolution I beg leave to report as follows:

A minute inspection of the whole of the line has been made by the Engineers of this Board in conference with the Engineers of the General Contractor and with the Engineers of each subcontractor, so far as each subsection is concerned, with a special view to see what steps can be taken to immediately improve the condition of the streets along the line of the work, and to restore permanently to traffic such portions of the streets as are now obstructed.

In the City Hall Park the asphalt pavement in the Mall has been ordered repaired. The pavement of Mail street should not be begun until the backfill has become more thoroughly settled. The girders and timbers on the north side of Mail street have been ordered repiled so as to diminish the amount of obstruction. The girders will be used within a few days in the structure immediately adjoining. On the south side of Mail street the anchorage for a derrick interferes with the passageway for foot passengers. The contractor has been directed to reduce the size of the anchorage for this derrick, in order to widen the passageway, and also to clean up the rubbish surrounding it. He was also ordered to remove all unnecessary material from the park between Mail street and the Mall. This work is already in progress. It is hoped that the block along Printing House square will be finished and backfilled by April 15. The work on this block has been exceedingly slow and tedious on account of the necessity of underpinning the complicated surface tracks, of which there are four. From the Mall to the Staats-Zeitung Building the work has been delayed on account of the delay in the removing of the Hall of Records. This removal is now nearly completed and the work at this point will be again resumed.

From Chambers to Duane street it is expected that the work will be finished by April 15. There is a certain amount of unnecessary material in this vicinity which has been ordered removed.

From Leonard to Canal street one-half of the structure has been completed and part of the distance has been repaved. Repaving of the easterly half of the street will be completed by April 15. The work is in progress on the westerly half of the street and will be pushed. On the southeast corner of White street there is a pile of paving stones which the contractor has been directed to repile.

The intersection of Howard and Elm streets has been delayed on account of readjusting the pipes.

Howard to Grand Street—On this street the contractor is laying a 30-inch gas main. A large portion of this block is used for the storing of material for Canal street and immediately south. The contractor has been directed to open a roadway on the east side of the street.

Grand to Broome Street—There are but two obstructions, one a pile of paving stones, which the contractor, under orders, has already begun to remove, and temporary shores against two buildings placed there by order of the Building Department. Since the subway work is entirely finished, there is no reason for these braces to remain; they were put there, however, by orders of the Building Department. Traffic, however, is otherwise unobstructed on this block.

From Broome to Spring Street Station construction work will be completed by April 15, with the exception of replacing the areas of the buildings on the west side. Spring Street Station we hope to have completed by May 1.

At Prince street there is some pipe work to be done; this cannot be done until the Spring Street Station is completed, as otherwise the fire engine house would be cut off from commodious access. It is hoped, however, that all of this work will be finished by the date named, namely, May 1, when these streets can be turned over to the Department of Highways for paving.

From Prince street to Great Jones street, Elm street is now in charge of the Highway Department.

In Lafayette place there is a pile of paving stones along the west curb, between

Great Jones street and Astor place, which the contractor has been directed to repile, preparatory to relaying at Astor place. The flags in front of the Astor Library are ready to be relaid, and the contractor has been directed to do so.

At Astor place there is considerable obstruction from a cableway extending across Astor place to Ninth street. This cableway is required to remove the excavation between Eighth and Ninth streets. It will be removed, however, before May 1. Orders have been given to clean up the rubbish about the anchorage of this cableway.

On Fourth avenue there was some timber piled on the east side of the street, and also two 24-inch beams just south of Thirteenth street, which were at once ordered removed. This order has already been complied with. A small pile of cross-walk stones on the south side of Thirteenth street has been ordered removed. At Thirteenth street there is an excavation required for the completion of the westerly tunnel on Fourth avenue. This work will be finished and backfilled up to the middle of the block between Thirteenth and Fourteenth streets next week.

At Fourteenth street the large express station is in progress. This work is very difficult, and will not be completed before May 15.

From Fourteenth to Seventeenth street the work is well in hand. The back-filling has already been begun on the east side, and should be completed from Fifteenth to Seventeenth street by April 15, and from Seventeenth to the Eighteenth Street Station by May 1. Work on the Eighteenth Street Station has been progressing slowly on account of the delay of reconstructing the telephone ducts. Just north of Eighteenth street there is a pile of steel which is being used in the Eighteenth Street Station. This pile is being constantly added to and drawn from as the work at the Eighteenth Street Station progresses.

From Eighteenth to Twenty-third street the obstructions have nearly all been removed, but the few that remain will be at once removed or repiled.

Twenty-third Street Station necessarily involves the piling of certain material as far north as Twenty-fifth street, which is necessary for the work. At this point the work is particularly difficult. Work on the sidewalks has already been begun, and by May 1 the situation at this point will be materially improved.

From Twenty-fourth to Thirty-third street the work is practically completed. The work at the Thirty-third Street Station is progressing and traffic will be restored in the near future.

The stone crusher and the plant around the Thirty-fourth street shafts will have to remain until about June 1, when the work north of Thirty-fourth street will be completed.

At Forty-first street the obstructions in Park avenue are about to be removed. The westerly tunnel has been completed and the westerly shaft is now being filled. It is hoped that all obstructions in the street at this point will be out of the way within thirty days.

Forty-second street from Park avenue to Sixth avenue is one of the most difficult sections of the work on account of the depth and width of the cut and hardness of the rock. From Fourth avenue to Madison avenue the street has been taken from building line to building line. The cableway on the east side, anchorages for which form an obstruction in front of the Grand Central Station and west of Madison avenue, will be removed at the beginning of next week. Filling in is in progress between the west side of Madison avenue and Fifth avenue. By the end of April this block will be materially improved. The property owners on this block, especially on the west side, have been throwing garbage and other rubbish into the cut. The attention of the Police and the Board of Health should be directed to this nuisance.

Just west of Fifth avenue there is considerable refuse on the north side, left by the contractor who had charge of the reconstruction of a building at this point. The Rapid Transit contractor is not responsible for this nuisance.

From the west end of the old reservoir at Sixth avenue work has been completed and steps are already in progress to restore this street. The contractor has been directed to push this vigorously.

At the intersection of Sixth avenue and Forty-second street the work is necessarily slow, owing to the readjustment of the elevated foundation columns and pipe work.

From Sixth avenue west to Broadway the work is finished, and whatever rubbish is in this district is not due to the Rapid Transit work. The tearing down of the building at the northeast corner of Forty-second street, has been completed. The contractor will now construct a new sidewalk at this point so as to relieve the congestion which has been unavoidable for some time.

From Forty-third to Forty-seventh street the building material in the centre of Long Acre square has been ordered repiled. It is hoped that the whole of the work from Forty-third to Forty-seventh street will be completed within the next six to eight weeks, and all material removed.

East side of Broadway, south of Fifty-first street, there is a pile of brick and other rubbish which has been ordered removed.

Fifty-third street on Broadway should be completed within ten days. This work has been slow on account of supporting the elevated railroad columns.

Between Fifty-sixth and Fifty-seventh streets some old dump carts close to the avenue have been ordered removed.

On Sections 6-A and 6-B, from Sixtieth street to One Hundred and Third street, there is a serious condition of affairs along the work. These contracts are in charge of William Bradley, with whom we have had much trouble in having the work properly policed. Some of the obstructions on these two contracts are necessary and many others are quite unnecessary. I beg leave to invite the attention of the Board to the following clause in the "Specifications":

"At its own expense and as directed from time to time by the Engineer, the contractor is to clear the work, streets and all public places occupied by it from all refuse and rubbish, and leave them in a neat condition."

Many of these obstructions on these two sections can be cleared immediately. I therefore propose to give an order under the direction of the Board to clear such objections, and I would suggest that the Board authorize me that if these orders are not carried out on Sections 6-A and 6-B, that I be authorized to have the work done and charge the same to the contractor out of the next estimate. I will also make the same recommendation later on Sections 1 and 2 if the orders already given are not promptly complied with.

The obstructions on Sections 6-A and 6-B are very numerous, and it would lengthen this report unnecessarily to enumerate them.

Lenox avenue—There are obstructions at One Hundred and Twenty-fourth street owing to the manhole of the Union Subway Company, and unnecessary rubbish at One Hundred and Twenty-sixth street, as well as piles of timber and stone between One Hundred and Twenty-sixth and One Hundred and Twenty-seventh streets, all of which will be ordered removed. Similarly, there is an unnecessary pile of asphalt paving material between One Hundred and Thirty-third and One Hundred and Thirty-fourth streets. There is also an unnecessary obstruction between One Hundred and Thirty-seventh and One Hundred and Thirty-eighth streets, consisting of a pile of stone and timbers. There is also an unnecessary pile of paving stones between One Hundred and Forty-third and One Hundred and Forty-fourth streets on Lenox avenue.

On One Hundred and Forty-ninth street, from the centre of Gerard to Walton avenue, the tunnel is completed and backfilled. This street, however, is occupied by timbers and other material which should be removed.

On Broadway there is considerable rubbish from One Hundred and Fourth to One Hundred and Twenty-third street.

The contractor has promised to clean these sections as rapidly as possible. Unless this is done I will make a special request to the Board that the work be done by the Board at the expense of the contractor.

From One Hundred and Thirty-third to One Hundred and Forty-fifth street there are located two stations and a very wide terminal yard. The obstructions in the street, therefore, are necessarily very great. Endeavors are being made to reduce the obstructions as much as possible.

The unnecessary part of these obstructions will receive my attention, and I will report to the Board, as requested, to what extent my instructions have been carried out.

Respectfully submitted,

(Signed)

WM. BARCLAY PARSONS, Chief Engineer.

The duplicate report of the Chief Engineer, as above, was delivered to the Mayor at the meeting.

The following resolution was moved:

Resolved, That the Chief Engineer be and he hereby is authorized to have certain work of removing obstructions from the streets on the section of the Rapid Transit work under contract to William Bradley, sub-contractor, being on Broad-

way between Sixtieth and One Hundred and Third streets, attended to without delay, and if necessary charged against the contractor, in accordance with the terms of the contract.

Ayes—The President, Mayor, Comptroller and Commissioners Langdon, Jesup and Clavin.
Nays—None.
Carried.

It was decided Counsel should present for action at the next meeting, resolution validating (if invalid) the route and plan of the easterly tunnel section on Park avenue.

Communication of the Grand Circle Protective Association with respect to necessity for express station at Fifty-ninth street was read as follows:

NEW YORK, March 23, 1903.

To Hon. ALEXANDER E. ORR, President, Rapid Transit Commission:

I have been directed to request of the Rapid Transit Commission in behalf of the Grand Circle Protective Association, a public hearing on the matter of transforming the local subway station at Fifty-ninth street and Eighth avenue into an express station as well as a local station.

At a meeting of the Grand Circle Protective Association held March 21, resolutions were adopted requesting a public hearing in this matter—the resolutions are herewith enclosed. It was suggested that this public hearing be set down for Thursday, April 2. Hoping this will meet with your immediate action, I remain,

Very respectfully,

(Signed) JOHN E. LLOYD, Secretary.

It was decided a hearing should be given on this matter, if desired, on the 2nd of April.

The Chief Engineer presented the following letter:

March 26, 1903.

Hon. A. E. ORR, President, Rapid Transit Board:

MY DEAR SIR—I beg leave to report that in the excavation between Eighth and Ninth streets, beneath the site of the old church, some fragments of old coffins were found, but so decomposed that they immediately fell to pieces; the coffin plates were the only parts that were left intact. On being cleaned these coffin plates were found to have the following inscriptions:

"James Johnston. Died 1 November, 1819. Age, 80 years 2 months and 16 days."

"Henry Jacobs. Died 26th July, 1819. Age, 31 years 6 months and 16 days."

"Caroline Matilda Nazro. Died 13th Feby., 1823. Age, 10 years 7 months."

"Mary S. Foote. Died 9th February, 1818. Age, 5 months 10 days."

In case that there are any descendants or other relations of any of the above-named persons who would wish to become possessed of these plates, they can be had on application to me.

Very truly yours,

(Signed) WM. BARCLAY PARSONS, Chief Engineer.

The Board then adjourned.

BION L. BURROWS, Secretary

BOARD OF CITY RECORD.

New York, March 10, 1903.

A meeting of the Board of City Record was held this day at 3 o'clock in the Old Council Chamber of the City Hall, Borough of Manhattan.

Present—Hon. Seth Low, Mayor; Hon. George L. Rives, Corporation Counsel; N. Taylor Phillips, Deputy Comptroller, representing the Comptroller.

The minutes of the meeting of January 6, 1903, were approved as submitted.

The Supervisor submitted a letter concerning the differences existing between himself and Thomas B. Sidebotham, Jr., the printer under the contract for 1903, the contractor insisting on the Supervisor furnishing him all the items of like character called for upon the contract, while under the contract the right was reserved to the Supervisor to order articles only as required from time to time by the departments.

Mr. T. B. Sidebotham, Jr., submitted a communication reflecting in general terms on the Supervisor's conduct of the office of City Record, and asking that an investigation be made into its management.

On motion of the Corporation Counsel, it was

Resolved, That the Mayor be requested to investigate the matters in dispute between the Supervisor and Mr. Sidebotham in such way as he may think proper, and to report thereon to this Board as early a day as practicable.

Mr. H. P. Schmidt, representing A. Haug & Co., addressed the Board with relation to the bids for bookbinders' supplies awarded by the Supervisor, whereupon the Corporation Counsel offered the following:

Resolved, That the action of the Supervisor in the awarding of the bids for bookbinders' supplies by items to the lowest bidder be and hereby is approved.

The following resolutions were unanimously passed:

By the Corporation Counsel—

Resolved, That this Board recommend to the Board of Estimate and Apportionment, for recommendation to the Board of Aldermen, that the salaries of Examiners in the office of the City Record shall hereafter be one Examiner at \$1,500 per annum, one at \$1,200 per annum and one at \$900 per annum, instead of the salaries now prevailing, which are one at \$1,200 and two at \$900 per annum.

By the Mayor—

Resolved, That the Supervisor be directed to insert in the "City Record" for future reference the minutes of the Croton Aqueduct Commission from July 18 1849, to and including April 9, 1870.

By the Mayor—

Resolved, When any department, court or officer shall have any work done that is chargeable against an appropriation of the City Record, that before such work is given out the bids therefor be submitted to the Supervisor of the City Record for his approval; and that no bills be passed for payment by the Board of City Record unless such approval has been obtained before the work was ordered.

The Supervisor having submitted requisitions from the Board of Health increasing the number of lists of contagious diseases printed daily and mailed to schools, etc., from 650 to 1,230 copies in Manhattan, and from 600 to 1,000 copies in Brooklyn, the Mayor offered the following:

Resolved, That the Supervisor be authorized to increase the present price at which the said work is done by the Publishers' Printing Company from \$7.50 in Manhattan and \$5.50 in Brooklyn to \$11.25 in Manhattan from March 5, and to \$7.75 in Brooklyn from January 19, for paper, presswork, collating, folding, inclosing and mailing.

By the Mayor—

Resolved, That the following charges for corrections, in excess of reasonable alterations, made on work ordered by the Supervisor of the City Record be and hereby are allowed:

Resolved, That the Board of City Record approves the following bills incurred by direct order: Department of Finance, Tower Manufacturing Company, \$1.50; President of the Borough of Manhattan, Martin B. Brown Company, \$1.75 and \$11.75.	

The Supervisor submitted a statement that in the estimate for expenses of the Board of City Record for the year 1903 the words "and arrearages" appeared on the appropriations for printing, stationery and blank books, but that as finally passed by the Board of Estimate and Apportionment these words do not appear in the budget on any but the appropriation for city departments and offices. In order to adjust the matter the following resolutions were adopted:

Resolved, That the Board of Estimate and Apportionment be requested to transfer from the account "Arrearages of Printing, Stationery and Blank Books, New York County, 1902," the sum of \$3,700 to the account "County Offices and Courts, other than the Supreme Court, 1902;" from the account "Arrearages of Printing, Stationery and Blank Books, including publication of the 'City Record,' 1902," \$8,700 to the account "Printing, Stationery and Blank Books for City Department and Offices, 1902."

Resolved, That the Board of Estimate and Apportionment be requested to transfer from some unexpended appropriation the sum of \$1,700 to the account "Printing, Stationery and Blank Books for County Offices and Courts, other than Supreme Court, 1902;" \$650 to the account "Supreme Court, Second Department, 1902;" \$750 to the account "Printing, Stationery and Blank Books for Richmond County, 1902."

The Supervisor submitted a communication from the Comptroller containing a statement by an expert accountant of the Department relative to the claim of the Franklin-Lee Bank Note Company for \$625.45 for materials furnished to the Finance Department during the year 1901 for the Bureau of City Revenues and Markets.

On motion of the Corporation Counsel, the same was approved and the Supervisor ordered to forward the same to the Finance Department for payment against the account "Arrearages, Printing, Stationery and Blank Books, including the publication of the 'City Record,' 1902."

The application of the East Side Civic Club to be placed on the free list of the "City Record" until further notice was granted.

Communications concerning advertising from the Harlem Local and Harlem Life, Brooklyn Weekly News and other publications were laid over, as were also the applications of Samuel J. Brown and Washington H. Hettler for increase of salary.

The following resolution was unanimously adopted, after which the Board adjourned subject to the call of the Chair:

Resolved, That the Supervisor of the City Record be and is hereby authorized to procure by direct order, that is without contract let after advertisement, the articles called for by the following requisitions allowed at this meeting, not exceeding the estimates this day submitted by the Supervisor, as shown by schedules this day signed by the members of the Board of City Record, that course being deemed to be for the best interests of the City:

POLICE DEPARTMENT.

New York, April 17, 1903.

The following proceedings were this day directed by Police Commissioner Greene:

Ordered, That requisition be and is hereby made upon the Municipal Civil Service Commission for an eligible list to enable the Police Commissioner to appoint one Captain of Police.

Referred to Third Deputy Commissioner—Report of Charles H. Phillips, in charge of Record Room, stating there is no more room available in his quarters for storage purposes; for examination and report. Report of Captain William Knipe, Sixty-ninth Precinct, relative to repairs required; the Third Deputy Commissioner is requested to prepare plans and specifications for repairs to station-houses in the boroughs of Brooklyn and Queens, at an expense not exceeding \$8,000. Report of Captain James Donovan, Thirty-seventh Precinct, relative to damage to cornice at station house; for immediate attention. Application of Patrolman John J. Love, Thirtieth Precinct, for transfer to the Boiler Squad; for report.

Referred to Board of Surgeons—Application of Patrolman Frank J. Reilly, Twenty-seventh Precinct, to be reimbursed for expense incurred by reason of having lost five teeth while making an arrest; for consideration. The applicant should be examined, the nature of his injuries ascertained, the reasonableness of the bill should be reported upon, and recommendation made as to the proper procedure in such cases. It appears that there is no precedent, so far as known, for such case in the records of the Department.

Referred to Corporation Counsel—Demand of William F. Boyle to be recognized as Detective Sergeant. Return to writ in the case of Thomas F. Morris against John N. Partridge, verified by the Commissioner and attested by the Chief Clerk.

Ordered, That David Evans, whose name appears on eligible list of the Municipal Civil Service Commission dated April 17, 1903, be and is hereby appointed a Captain of Police.

Retired on Application—Captain Watson Vredenburg, Forty-eighth Precinct, \$1,375; to take effect April 18, 1903.

Wilson as Special Patrolman. Application of Russell R. Schaller for appointment of William Johnson as Special Patrolman. Application of Captain Joseph C. Gehegan, Thirty-fifth Precinct, to have a Sergeant transferred to his command; for consideration when assignments of Detective Sergeants are made. Report of Captain Edward Walsh, Thirty-eighth Precinct, relative to commanding officer visiting sub-station once in 24 hours, and asking that a Sergeant be placed in command of such sub-station; for report. How often does the Captain visit sub-precincts in the Twenty-seventh, Forty-second, Seventy-sixth, Seventy-seventh, Seventy-eighth, Seventy-ninth and Eightieth Precincts? Is a Sergeant in command at these sub-stations, or is the Desk Sergeant in command? Is there any reason why the Thirty-eighth Precinct should be governed by rules different from those which govern other sub-precincts? Communication signed "An Acting Roundsman," relative to wearing chevrons while acting as such; for examination and report. What is desired is a chevron for one arm only, which can be temporarily attached to the coat and removed when the tour of the Acting Roundsman is ended, without injury to the coat. Ask the tailor to submit samples.

Referred to Bookkeeper—Communication from Louise C. Donohue, asking that balance of pension (\$51.66), due her deceased husband, Patrick Donohue, be paid her without letters of administration; to make payment on receipt of proper release and proof of identity. Communication from Henrietta Sinder, asking that balance of pension due her mother, the late Louisa Sinder, be paid to her without letters of administration (\$22); to make payment on receipt of proper release and proof of identity.

Approved—Application of Captain Jefferson Deevy, Thirty-sixth Precinct, to have a Roundsman transferred to his command. Application of Captain Jefferson Deevy, Thirty-sixth Precinct, to have Patrolman Lawrence Moore, of his command, assigned as Acting Doorman.

DEPARTMENT OF CORRECTION.

DEPARTMENT OF CORRECTION, No. 148 EAST TWENTIETH STREET, BOROUGH OF MANHATTAN.
SALE OF BONES, BARRELS, IRON, RAGS and grease will take place at the Central Office, No. 148 East Twentieth street.
WEDNESDAY, MAY 6, 1903,
11 a. m.

The bones, etc., to be accumulated by the Department during the year 1903, estimated at 25 tons, more or less, to be received at Storehouse Pier, Blackwell's Island, not less than three times weekly, in a covered wagon, to be transported to and from Blackwell's Island by the boats of the Department, the Commissioner reserving the right to order more frequent removals of the bones if deemed necessary.

Bones	25 tons.
Iron-bound barrels	150
Kerosene oil barrels	25 tons.
Old iron	15,000 pounds.
Rags	20,000
Grease	8 tons.

2 old boilers, estimated weight... 8 tons.

All necessary breaking up and handling to be done by the contractor.

All quantities to be "more or less." All qualities to be "as are." All the above (except bones) to be received by the purchaser at Pier foot of East Twenty-sixth street, and removed therefrom immediately upon being notified that same are ready for delivery.

Each successful bidder will be required to pay twenty-five per cent. of the estimated amount of his purchase to me at the time and place of sale, and the balance to the General Storekeeper, at Blackwell's Island, in cash or certified check on a New York City Bank, upon delivery of the goods.

The Commissioner reserves the right to order resale of any goods that shall NOT have been removed by the purchaser within TEN days after he shall have been notified that they are ready, and in case of such resale to forfeit to the use of the Department of Correction the TWENTY-FIVE PER CENT. paid in at the time and place of sale. Goods can be examined at Blackwell's Island by intending bidders on any week-day before the day of sale.

BOARD OF ALDERMEN.

AN ORDINANCE GRANTING TO THE Union Railway Company of New York City the right or franchise to construct and operate a street surface railway as an extension of its existing railway in, upon and along the surface of certain streets, avenues and highways, and to, upon and across a bridge and viaduct constructed in and owned and maintained by The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. The Board of Aldermen of The City of New York hereby grants to the Union Railway Company of New York City, subject to the conditions and provisions hereinafter set forth, the franchise or right to extend its railway and to use the streets, avenues, highways, bridge and viaduct of the city, and to construct, maintain and operate a double-track street surface railway, as an extension of its existing railway for street railway purposes in the conveyance of persons and property, in, upon and along the following-named streets, avenues, highways, bridge and viaduct, viz:

Commencing at the intersection of Jerome and Sedgwick avenues at the terminus of the tracks of this company, Jerome avenue line; thence upon and along the westerly approach, known as the Sedgwick avenue approach, formerly called Ogden avenue approach, to Central or Macomb's Dam Bridge; thence southerly upon and along said bridge and the One Hundred and Fifty-fifth Street Viaduct and Macomb's Dam road to the terminus of the railway of the Eighth Avenue Railroad Company, between West One Hundred and Fifty-fourth and West One Hundred and Fifty-fifth streets; also from the intersection of said Central or Macomb's Dam Bridge and the One Hundred and Fifty-fifth Street Viaduct; thence westerly upon and along said viaduct to the station, depot or terminus of the Manhattan Elevated Railway Company, situated between said bridge and Bradhurst avenue, together with the necessary connections, switches, sidings, turnouts, turn-tables, cross-overs and suitable stands necessary for the accommodation and operation of said railroad by the overhead system of electricity or any other motive power which may be lawfully employed upon the same; all in the boroughs of Manhattan and The Bronx, City, County and State of New York. The phrases "said railroad" or "said railway" hereinafter used, shall be construed to mean the railroad constructed under this ordinance.

Section 2. The grant of said franchise or right to use said streets, avenues, highways, bridge and viaduct is made subject to the following conditions:

First—The consent in writing of the owners of half in value of the property bounded on said streets, avenues, highways, parkways and public places to the construction and operation of said railroad shall be obtained by the grantee, or in the event that such consent cannot be obtained, the grantee shall obtain the favorable determination, confirmed by the Court, of three Commissioners, appointed by the Appellate Division of the Supreme Court, in the manner provided by the Railroad Law, before said railroad is built or operated.

Second—The said right, privilege and franchise to construct and operate said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years, with the privilege of renewal of said grant for a further period of twenty-five years upon a

fair revaluation of said right, privilege and franchise. Such revaluation shall be of the right, privilege and franchise to maintain and operate said railroad by itself, and not to include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successor or assigns. It shall be in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successor in authority; one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder. The three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railway company. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last five years of the original franchise.

Third—Upon the termination of said franchise or right, whether original or renewed, the plant and property of the grantee, its successor or assigns, in such streets, avenues and highways, and upon such bridge and viaduct, with its appurtenances constructed under this ordinance, shall be and become the property of The City of New York upon the repayment to the grantee of the fair value of the said plant and property constructed in the streets and on the bridge and its approaches, and on the viaduct under this ordinance, which valuation shall be the fair value thereof as property, excluding any value derived from the franchise, and such value shall be determined by the Board of Estimate and Apportionment or its successors in authority.

Fourth—The said Union Railway Company of New York City, its successors or assigns, shall pay into the Treasury of The City of New York for this franchise the following sums of money: During the first term of five years an annual sum which shall in no case be less than \$4,000, and which shall be equal to three per cent. of the gross annual receipts of the railroad constructed under this ordinance, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of \$4,000; during the next five years of the term an annual sum which shall in no case be less than \$4,500, and which shall be equal to five per cent. of the gross annual receipts of the railroad constructed under this ordinance computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of \$4,500; during the next five years of the term an annual sum which shall in no case be less than \$5,000, and which shall be equal to five per cent. of the gross annual receipts of the railroad constructed under this ordinance, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of \$5,000; during the next five years of the term an annual sum which shall in no case be less than \$5,500, and which shall be equal to five per cent. of the gross annual receipts of the railroad constructed under this ordinance, computed in the manner provided by the Railroad Law, if such percentage shall exceed the sum of \$5,500, and the term hereafter to be fixed for any renewal term of such franchise shall not be less than \$6,000 per annum, and no renewal of the franchise shall provide for a further renewal.

Such sums shall be paid into the treasury of The City of New York on November 1st in each year after the commencement of the operation of any portion of the said railroad, provided, however, that the first payment shall only be for that proportion of the above sum as the time of commencement of operation of any portion of the said railroad, before September 30th next preceding, shall bear to the whole of one year. The fiscal year shall end on September 30th next preceding said date of payment, and the provisions of the Railroad Law as it now exists, or as it may hereafter be amended, relating to the manner of payments and statements of percentages of gross receipts of street railway companies shall, as to said railroad, be strictly followed. The intention of this paragraph is to fix an annual charge to be paid by the grantee, its successors or assigns, to The City of New York for the rights and franchise hereby granted, and it shall not be construed as providing for the payment by the grantee, its successor or assigns, for said franchise, of a percentage of gross receipts within the meaning of any general or special statute, referring particularly to chapter 340 of the Laws of 1892.

Fifth—The said annual charge or payments shall continue throughout the whole term of the franchise hereby granted, whether original or renewed, notwithstanding any clause in any statute or in the charter of any other railway company providing for payments for street railway rights or franchises at a different rate, and no assignment, lease or sub-lease of the rights of franchise hereby granted, whether original or renewed, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sub-lease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives, so far as this franchise is concerned, any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this grant.

Sixth—The rights and franchises granted hereby shall not be assigned either in whole or in part, or leased or sub-let in any manner, nor shall they be, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Union Railway Company of New York City, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—The said railway may be operated by overhead electrical power substantially similar to the system of overhead electrical traction now in use by the Union Railway Company, or by the underground electric system now in use by the Metropolitan Street Railway Company, and by any

other motive power except locomotive steam power or horse power which may be approved by the Board of Railroad Commissioners, and consented to by the owners of property in accordance with the provisions of the Railroad Law.

Eighth—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York, who have jurisdiction in such matters under the Charter of the City.

Ninth—Said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of said company shall be maintained in good condition throughout the term of this grant.

Tenth—The rate of fare for any passenger upon said railway shall be five cents, and said company shall not charge any passenger more than said sum for one continuous ride from any point on said railway or a line or branch operated in connection therewith to any point thereof, or of any connecting line or branch thereof, within the limits of The City of New York. The rates for the carrying of property over said railroad upon the cars of the grantee shall in all cases be reasonable in amount and shall be subject to the control of the Board of Estimate and Apportionment, or its successor in authority, and may be fixed by such Board after notice and hearing to the grantee, and when so fixed such rate shall be binding upon said grantee, its successor or assigns, and no greater sums shall be charged for such services than provided for by it.

Eleventh—The cars on said railroad shall run at intervals of not more than ten minutes from 6 o'clock a. m. to 8 o'clock p. m. and at intervals of not more than twenty minutes from 8 o'clock p. m. to 6 o'clock a. m. of each day, and as much oftener as the reasonable convenience of the public may require or as may be directed by City Ordinance.

Twelfth—The said railway company shall apply to each car run over said railway a proper fender and wheel guard in conformity to such laws and ordinances as are now in force or may hereafter be enacted or adopted by the State or City authorities.

Thirteenth—All cars on said railway shall be heated through the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and each car shall be well lighted either by the Pintsch gas system or by electricity, or by some system of lighting equally efficient.

Fourteenth—The said company shall at all times keep the streets, bridge and viaduct upon which said railroad is constructed, between its tracks, and for a distance of two feet beyond the rails upon either side of said streets, free and clear from ice and snow.

Fifteenth—The said railway company, as long as it shall continue to use any of the tracks upon said streets, avenues, highways, parkways, public places, bridge or viaduct, upon which said railroad is constructed, shall have and keep in permanent repair that portion of the surface of said streets, avenues, highways, parkways, bridge and viaduct, between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. And the City of New York shall have the right to change the material or character of the pavement of any street, highway, parkway, public place, bridge and viaduct upon which said railroad is constructed, and in that event the grantee, its successors or assigns, shall be bound to replace such pavement in the manner directed by the proper City officer at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Sixteenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this grant may be forfeited by a suit brought by the Corporation Counsel on notice of ten days to the said railway company.

Section 3. This grant is also upon the further and express condition that the provisions of Article 4 of the Railroad Law applicable thereto, and all laws or ordinances now in force or which may be adopted affecting the surface railroads operating in the City of New York, shall be strictly complied with as to said railroad.

Section 4. This grant is upon the express condition that the use of the said railroad, including the tracks, wires and other equipment constructed upon the Central or Macomb's Dam Bridge and its approaches, and upon the One Hundred and Fifty-fifth Street Viaduct, and upon the Macomb's Dam road as above set forth, and within a distance of 1,000 feet from the end of such approaches to said bridge and viaduct, shall be granted by the Union Railway Company of New York City, its successors or assigns, to any other person or corporation to which The City of New York may have granted or may hereafter grant the right or franchise to use such bridge or approaches or viaduct for street railway purposes, upon payment of an annual sum which shall not exceed the legal interest on one-half the cost of the construction of such railway and its approaches as aforesaid, and the actual cost of the power necessary for the operation of the cars of such person or company thereon, and one-half the cost of maintenance of the tracks, wires and other equipment of the Union Railway Company used by the said grantee, including the paving and cleaning of streets from ice and snow, and all the other duties imposed upon the Union Railway Company in connection with the maintenance of the portion of said railroad used by said grantee. The grant of this franchise shall not affect in any way the right of The City of New York to grant a similar franchise upon the same or other terms and conditions over the same streets, avenues, highways, bridge, approaches and viaduct upon which said railroad is constructed, to any other person or corporation, and such persons and companies shall have the right to make all track and other connections which may be requisite and necessary to connect with the tracks of the grantee, its successors or assigns, it being intended by this provision to restrict to two the number of tracks upon the bridge above described and the approaches thereto, including the viaduct in West One Hundred and Fifty-fifth street.

Sec. 5. The said railway company shall commence construction within ten days from the date when it has obtained complete legal authority to begin construction, including necessary permits from the city officials and departments, and shall complete construction within ninety days thereafter; otherwise this grant shall be forfeited. Provided that such time may be extended under and for causes specified in section 90 of the Railroad Law, and that the city officials or departments, who or which shall at the time of such construction have authority over the said bridge and viaduct, may extend said time for a period or periods not exceeding ninety days further, if reasonable, in their judgment, by reason of requirements as to the manner of construction imposed by the city officials.

Sec. 6. This grant is upon the express condition that the Union Railway Company, within thirty days after this ordinance takes effect and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of two thousand five hundred dollars, either in money or in securities to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the franchise, the

repairs of the street pavement and the removal of snow and ice, and the quality of construction of the railroad, and in case of default in the performance of said company of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same with interest from such fund after ten days' notice in writing to the said company. Or in case of failure to keep the said terms and conditions of this grant relating to the headways of cars, fenders and wheel guards and the heating of the cars, the said company shall pay a penalty of \$50 a day for each day of violation, and the further sum of \$10 a day for each car which shall not properly be heated or supplied with fenders and wheel guards in case of the violation of the provisions relating to those matters. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice, in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of two thousand five hundred dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Sec. 6. The provisions and obligations of this ordinance shall only attach to the rights and franchise hereby granted and the railroad constructed thereunder and the operation thereof.

Sec. 7. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York.

Sec. 8. This ordinance shall take effect immediately.

THE CITY OF NEW YORK—OFFICE OF THE CITY CLERK, NEW YORK.

April 2, 1903.

The foregoing proposed ordinance and grant of franchise was approved by resolution of the Board of Estimate and Apportionment adopted March 13, 1903. FIRST DEPARTMENT.

In the matter of the application of the Mayor, Aldermen and Commonality of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the purpose of opening EAST ONE HUNDRED AND SEVENTY-SECOND STREET (although not yet named by proper authority), from Jerome avenue to Morris avenue, as the same has been heretofore laid out and designated as a first-class street or road, in the Twenty-fourth Ward of The City of New York.

WE, THE UNDERSIGNED, COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants, of all houses and lots and improved and unimproved lands affected thereby, and to all others it may concern, to wit:

First—That we have completed our supplemental and amended estimate of assessment for benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 7th day of May, 1903, and that we the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at our said office on the 11th day of May, 1903, at 4 o'clock p. m.

Second—That the abstract of our said supplemental and amended estimate of assessment for benefit, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making our report, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 18th day of May, 1903.

Third—That pursuant to the notice heretofore given when we filed our estimate of damage the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at a point formed by the intersection of the westerly prolongation of a line drawn parallel to and distant 100 feet southerly from the southerly side of that part of East One Hundred and Seventy-second street lying between Inwood avenue and Jerome avenue, with a line drawn parallel to the westerly side of Macomb's road and distant 100 feet westerly therefrom; running thence northerly along said parallel line to the southeasterly side of Cromwell avenue; thence northeasterly along said southeasterly side of Cromwell avenue to the southeasterly side of Macomb's road (said southeasterly side of Macomb's road being the line connecting said southeasterly side of Cromwell avenue with the westerly side of Macomb's road); thence southeasterly along said southeasterly side of Macomb's road to the westerly side of Macomb's road; thence easterly to the intersection of the easterly side of Macomb's road with the westerly prolongation of a line drawn parallel to and distant 100 feet northerly from the northerly side of that part of East One Hundred and Seventy-second street lying between Inwood avenue and Jerome avenue; thence easterly along said westerly prolongation and parallel line to its intersection with a line drawn parallel to the northwesterly side of Jerome avenue and distant 100 feet northwesterly therefrom; thence northeasterly along said parallel line to its intersection with the northwesterly prolongation of a line drawn parallel to and distant 100 feet northeasterly from the northeasterly side of that part of East One Hundred and Seventy-second street extending southeasterly from Jerome avenue; thence southeasterly along said northwesterly prolongation and parallel line and its prolongation southeasterly to the easterly side of the Grand Boulevard and Concourse; thence easterly on a line drawn parallel to East One Hundred and Seventy-second street to the westerly side of Teller avenue; thence southerly along said westerly side of Teller avenue to its intersection with a line drawn parallel to and distant 100 feet northerly from the northerly side of that part of East One Hundred and Seventy-second street, extending from Teller avenue to Morris avenue; thence easterly along said parallel line and its prolongation easterly to its intersection with a line drawn parallel to the easterly side of Teller avenue and distant 100 feet easterly therefrom; thence southerly along said parallel line to its intersection with the easterly prolongation of a line drawn parallel to and distant 100 feet southerly from the southerly side of that part of East One Hundred and Seventy-second street extending from Teller avenue to Morris avenue; thence westerly

along said easterly prolongation and parallel line to the middle line of the block between College avenue and Morris avenue; thence southerly along said middle line of the block to its intersection with a line drawn parallel to the southerly side of East One Hundred and Seventy-first street and distant 100 feet southerly therefrom; thence westerly along said parallel line to the southeasterly side of Jerome avenue; thence westerly to the intersection of the northwesterly side of Jerome avenue with the easterly side of Macomb's road; thence northerly along said easterly side of Macomb's road to its intersection with a line drawn parallel to the northwesterly side of Jerome avenue and distant 100 feet northwesterly therefrom; thence northeasterly along said parallel line to its intersection with a line drawn parallel to the southerly side of East One Hundred and Seventy-second street and distant 100 feet southerly therefrom; thence westerly along said parallel line and its prolongation westerly to the point or place of beginning, as such streets are shown upon the Final Maps and Profiles of the Twenty-third and Twenty-fourth Wards of The City of New York, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That our supplemental and amended last partial and separate report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Courthouse, in the Borough of Manhattan, in The City of New York, on the 2d day of June, 1903, at the opening of the court on that day.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures. Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
