The following communications were received:

From the Police Department—

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
No. 300 MULBERRY STREET,
NEW YORK, September 6, 1894.

Hon. Board of Estimate and Apportionment:

GENTLEMEN—At a meeting of the Board of Police, held this day, the following proceedings were had:

Resolved, That the resolution adopted August 30, 1894, requesting the transfer of the sum of five thousand dollars by the Board of Estimate and Apportionment, be and is hereby amended to read as follows:

Resolved, That the Board of Estimate and Apportionment be and is hereby respectfully requested to transfer the sum of ten thousand dollars from the appropriation made to the Police Department for the year 1892, entitled "New Telegraph Instruments for Central Department and Station-houses," which is in excess of the amount required for the purposes and objects thereof, to the appropriation made to the same Department for the year 1894, entitled "Contingent Expenses of Central Department and Station-houses, etc.," which is insufficient, to enable the Department to meet the expenses of investigation and examination of Police officers (including Stenographers' fees) under resolution adopted by the Board of Police June 5, 1894, and also the expenses of Captains of precincts in obtaining evidence against disorderly houses.

Very respectfully,

WM. H. KIPP, Chief Clerk.

Whereupon the Mayor offered the following:

Resolved, That the sum of ten thousand dollars be and the same is hereby transferred from the appropriation made to Police Department for 1892, entitled "For New Telegraph Instruments for Central Department and Station Houses," the same being in excess of the amount required for the purposes and objects thereof, to the appropriation made to the same Department for 1894, entitled "Contingent Expenses of Central Department and Station Houses, etc.," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Department of Taxes and Assessments and Counsel to the Corporation—4.

From the Board of Education—

HALL OF THE BOARD OF EDUCATION,
No. 146 GRAND STREET,
NEW YORK, September 14, 1894.

Hon. CHARLES H. KNOX, President, Board of Education:

DEAR SIR—I desire to call your attention to the fact that the Board of Estimate and Apportionment, at their last meeting in July, laid over the appropriation for an issue of bonds to carry out the contract to be entered into between the Board of Education and E. Rutzler, for alterations in and additions to the heating and ventilating apparatus of this building.

This matter is very important. First—The present condition of the building as regards heating and ventilating is so unsanitary and unhealthful as to cause serious illness of the Commissioners and the employees of the Board.

Second—The apparatus now in use is antiquated and defective beyond the possibility of repair, consuming nearly double the amount of coal which would be otherwise necessary to do the work, and at the same time does not heat the building in cold weather sufficiently to allow the employees to work much before eleven o'clock in the morning, and not even then without great discomfort. This, to say the least, is not economical, and it is impossible for me to get the best work from my men, nor can the Clerk of the Board get good work from his men, as you cannot force employees to work when their physical condition is such that they are unable to comply with your wishes.

The work of repairs to the building, which has been needed for so many years, is now going forward, and the heating and ventilating apparatus should be installed at the same time.

As a further reason, a steam boiler is needed to furnish steam to run the elevator to carry supplies to and from the Supply Department. Doubtless you will remember the great complaint which was made last season with reference to the tardiness with which supplies were gotten out. This was not the fault of the employees, but the conditions under which they were obliged to work. This we have sought to remedy, and one of the important points is the erection and use of the elevator for the transfer of the supplies from one floor to another and to facilitate their prompt delivery.

Commissioner Moriarty unfortunately is ill and cannot bring this matter to your notice, as I am sure would be the case if he were able, as the work was done at his suggestion to facilitate the working of the Supply Department, of which Committee he is Chairman.

Respectfully,

C. B. J. SNYDER, Superintendent of School Buildings.

Referred to the Comptroller.

From the Department of Public Works—

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, September 7, 1894.

Hon. THOMAS F. GILROY, Chairman, Board of Estimate and Apportionment:

DEAR SIR—I beg to inform you that the amount already provided by the Board of Estimate and Apportionment, under chapter 38 of the Laws of 1892, for the erection of necessary pumping machinery, etc., to deliver water at higher elevation in the City of New York from the New Aqueduct, has been expended.

I, therefore, ask that the Board of Estimate and Apportionment authorize and instruct the Comptroller to issue bonds for an additional \$250,000 for the continuance of the work referred to.

Very respectfully,

MICHAEL T. DALY, Commissioner of Public Works.

Referred to the Comptroller.

From the Department of Public Works—

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, September 4, 1894.

Hon. THOMAS F. GILROY, Chairman, Board of Estimate and Apportionment:

DEAR SIR—I have the honor to request that your Board authorize and direct the Comptroller to make a further issue of bonds to the amount of \$40,575, provided for in chapter 48, Laws of 1894, for the construction of a bridge over the Harlem Ship Canal on the line of Kingsbridge road. The amount authorized by the act is \$450,000, of which \$409,425 has heretofore been appropriated. The available balance of \$40,575 is necessary to complete the construction of the bridge and approaches.

Very respectfully,

MICHAEL T. DALY, Commissioner of Public Works.

Referred to the Comptroller.

From the Commissioner of Public Works—

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, September 17, 1894.

Hon. THOMAS F. GILROY, Chairman, Board of Estimate and Apportionment:

DEAR SIR—A large part of the appropriation for "Contingencies—Department of Public Works," for 1894, has been expended for postage by the Water Register in sending notices to house owners and consumers of water of bills due or overdue for water supply, in order to expedite the collection of water rents and increase the City revenue. It is desirable that this method of expediting the collection of water rents be continued for the balance of the year, but the appropriation cannot bear further expense on that account. I, therefore, respectfully ask that the sum of \$500 be transferred to the appropriation for "Contingencies—Department of Public Works," for 1894, for said purpose, from the appropriation "Bronx River Works—Maintenance and Repairs," for 1894, from which the said amount can be spared.

Very respectfully,

MICHAEL T. DALY, Commissioner of Public Works.

Whereupon the Mayor offered the following:

Resolved, That the sum of five hundred dollars be and the same is hereby transferred from the appropriation made to Department of Public Works for 1894, entitled "Bronx River Works—Maintenance and Repairs," the same being in excess of the amount required for the purposes and objects thereof, to the appropriation made to said Department for 1894, entitled "Contingencies—Department of Public Works," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

Affirmative—The Mayor, Comptroller, President of the Department of Taxes and Assessments and Counsel to the Corporation—4.

From the Commissioner of Public Works—

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, September 17, 1894.

Hon. THOMAS F. GILROY, Chairman, Board of Estimate and Apportionment:

DEAR SIR—Chapter 43 of the Laws of 1892 provides for the construction of a public building for the accommodation of the Seventh District Police Court and Prison, and of the District Court for the Eleventh Judicial District, and other offices. Section 13 of the act limits the expense of constructing the building to \$300,000, and provides for the issue of bonds therefor. The contract for the building has been awarded and executed, and I now respectfully ask that your Board will authorize and direct the Comptroller to issue such bonds to the amount of two hundred and fifteen thousand dollars (\$215,000) to cover the amount of the contract, Architect's fees and other incidental expenses, so as to enable me to draw against said fund for payments to the contractor, Architect, etc.

Very respectfully,

MICHAEL T. DALY, Commissioner of Public Works.

Referred to the Comptroller.

A communication was received from the New York Visiting Committee of the State Charities Aid Association, requesting various improvements in the institutions under the charge of the Department of Public Charities and Correction.

Laid over, to be considered in conjunction with the Departmental Estimate of the said Department for 1895.

From the Department of Public Parks—

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS,

To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—I have the honor to request that the sum of forty-seven hundred and twenty dollars (\$4,720), being the balance remaining unappropriated of the appropriation authorized by chapter 11 of the Laws of 1894, be added to and made applicable for the appropriation for "Central Park, Improvement of—Resurfacing Walks with Asphalt, etc." This amount is required to be expended for labor in utilizing the materials for walks contracted for, and will fully complete the work of resurfacing the Central Park, below Eighty-fifth street.

From the Department of Street Cleaning—

DEPARTMENT OF STREET CLEANING—CITY OF NEW YORK,
NEW CRIMINAL COURT BUILDING,
CENTRE, WHITE, ELM AND FRANKLIN STREETS,
NEW YORK, September 11, 1894.

Hon. THOMAS F. GILROY, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—I ask the approval of the Board of Estimate and Apportionment for the purchase and construction of stock and plant necessary for the effective and economical equipment of the Department of Street Cleaning, in accordance with the provisions contained in section 5, chapter 368, Laws of 1894, that, "for the more effectual carrying out of the provisions of this act, the said commissioner of street cleaning may, with the approval of the board of estimate and apportionment, purchase or construct stock or plant, including housed dumping-boards or places or buildings or structures necessary for any purpose pertaining to the business of the department, of durable character, intended to be used for a term of years, to be paid for by the issue of bonds."

The necessity that this department should be furnished with suitable and adequate facilities for doing its work, which it has not now and never has had, was fully set forth in my report to the Mayor, dated September 15, 1893, and in the statement accompanying my estimate of the amount necessary for the expenditures of this Department for the year 1894, copies of which communications I transmit herewith and ask to have considered as parts of this communication.

The approval of the work of the Department of Street Cleaning, recently expressed, may justify me in assuming that it will be admitted that some improvement is shown; but, as said in the report above referred to, "energetic and faithful labor will not succeed without proper tools to work with." What has been accomplished is no more than the demonstration of the fact that if the Department of Street Cleaning were properly equipped with suitable plant, the streets of New York could be as well and as thoroughly cleaned as those of any city in the world, and the removal of the city refuse could be effected without serious annoyance and without detriment to the public health.

The equipment necessary to accomplish this result will comprise—

- Two hundred covered trucks "of such size, form and construction as to prevent escape during transit of dust, or of any refuse carried therein" as the law requires (chapter 269, Laws of 1892).
- Sixty flat trucks, for the removal of receptacles containing street sweepings.
- Ten thousand two hundred receptacles for street sweepings.
- Seventeen washing plants at dumps, for cleansing the receptacles after they are emptied.
- One thousand push carts for receptacles.
- One hundred street sweeping machines.
- Three hundred and fifty sets of double harness.
- Ten hose carts with hose, being one for each stable, to be used in flushing streets.
- Five hundred hand sweepers.
- Thirty sprinkling trucks.
- One hundred and sixty horses.
- Seventeen covered storage dumps, as proposed by the Advisory Committee, which drafted the present street cleaning law.

The use of storage dumps will make it unnecessary to keep scows lying at the dumps to be loaded, as is now required, and will enable a very large saving to be made on that account. Another saving will result in the cost of carting, from the fact that the carts can dump at all times, instead of being compelled to wait, as they sometimes must under the present system, for hours during the accidental absence of a scow from a dump, and always while the scows are being shifted.

Such dumps, being covered and protected from the wind, and properly disinfected, will be free from dust or smell, and, therefore, absolutely unobjectionable. The refuse will be carried to them in clean, covered trucks, with no more inconvenience to the public than results from the transportation of ordinary merchandise. To complete and perfect the system will be required—

Ten seagoing, self-propelling dumping scows. Ten such boats, furnished with powerful engines and constructed to go to sea in any weather, to any required distance, will, if used in connection with storage dumps, easily do the work which it now requires thirteen Barney dumpers and about forty deck scows to do, and at a saving of nearly one-half the cost.

These scows will be so constructed that they can be unloaded at any place where filling-in is required to be done, or made to discharge their loads at sea twenty or thirty miles from shore, as may be desired or necessary. Their chief advantage and the economy they will effect will be due to the fact that they will go from dump to dump, taking from each the material found there, and when loaded, will proceed directly to the place of unloading, discharge the load and return to the dumps, to be again loaded in the same way. That will be done as easily and as quickly as a ferry-boat goes from one slip to another.

The principal cost of the present system results from the detention of scows at the dumps while being loaded, making seventeen scows always lying idle, and the detention of the deck scows at the place of unloading while being unloaded, and from the hiring of tugs to do the towing. The great saving to be effected by the proposed self-propelling scows, in conjunction with the storage dumps, will result from the elimination of both of those elements of cost.

With the equipment of stock and plant, for the purchase of which I ask your approval, as above stated, the work of the Department of Street Cleaning can be thoroughly done at a cost of from one hundred to one hundred and fifty thousand dollars a year less than it now costs to imperfectly perform the same amount of work.

As any expenditure amounting to \$1,000 or more must be by contract, after advertisement for proposals, the exact cost of such an equipment cannot be stated, but I have made careful estimates, which I am prepared to submit to your Board, with the result that, in my opinion, the total cost will not exceed \$842,000.

I ask your Board, therefore, to approve the purchase of the stock and plant above named at a cost not to exceed \$842,000, to be paid for in bonds, as the law enacted for that purpose provides.

As the stock and plant it is proposed to purchase is required for such an equipment as will enable the business of street cleaning to be done in the best and most effective manner, its cost ought not to be a bar to its procurement. The city can well afford to bear any expense necessary to perfect its system of street cleaning. It would be my duty, therefore, to ask your approval of the proposed expenditure if it involved an increased cost in the administration of the Department.

Fortunately, however, I am able to demonstrate that it will not only not cost the city any additional expense, but that, on the contrary, a large saving will be effected. The saving will be sufficient to pay the principal and interest on the necessary bonds and to leave a considerable surplus, as compared with the present cost.

As a practical demonstration of what that saving will be, I now state to your Board that if the erection of storage dumps and the purchase of self-propelling scows now asked for is approved, my estimates for the cost of final disposition for the next year will be \$100,000 less than the cost for this year. I make that promise in the face of the fact that the work of final disposition has never been done at so small a cost as during the first six months of the present year.

Assuming that the bonds required will be issued for a term equal to the estimated average life of the plant they are used to pay for, they should be issued for ten years to the amount of \$388,000, and for twenty years to the amount of \$453,000. To pay the principal and interest on such bonds at 3 per cent. would require \$81,458 per annum, which, deducted from \$100,000, would leave a surplus of \$18,542.

As said above, I believe the saving resulting from the desired equipment will be in all not less than \$150,000, and that the City will gain \$68,542 per annum over and above the cost of the new equipment.

It is estimated that less than 20 per cent. of the city refuse is garbage. If it shall be determined to burn that there will remain 80 per cent. of refuse, to remove which there would be required eight self-propelling scows instead of ten.

Because of the relation that the determination of this matter bears to the question of the appropriation to be made for this Department for the ensuing year, the estimates for which are about to be presented to your Board, I am compelled to include in this communication the request for approval for the construction of storage dumps and self-propelling scows; although I understand that as the question as to what is the best method for final disposition of the city refuse is now being considered by a commission recently appointed by the Mayor, action upon that part of my request will probably be deferred until that commission has made its report.

As to the other equipment asked for, I have to urge the necessity for immediate action, in order that there may be no further delay in perfecting the service of the Department so far as those things are concerned, and in order that your Board may be in a position to determine what amount will be necessary for the expenditures of this Department relative to those things for the ensuing year, when the estimates come before you for consideration.

Very respectfully,

WILLIAM S. ANDREWS, Commissioner of Street Cleaning.

Referred to the Comptroller.

Chadeayne, of Yorktown, Westchester County, under the authority of chapter 189 of the Laws of 1893.

Mr. Chadeayne's claim of \$3,800 is made up of two items—one of \$2,296.38 for the value of the buildings torn down and removed, the other of \$1,503.62 for damage caused by loss of time, etc., before the buildings could be replaced.

From a report made to me by the Engineer of the Finance Department it appears that the former item is not too large.

I am unable to find any authority in the act mentioned, however, which would authorize the payment out of the city treasury of compensation for loss of time, even if such a claim should be—as it is not in this case—itemized to the satisfaction of this Board.

I submit for consideration the following resolution to approve of an agreement to be made by the Commissioner of Public Works with Mr. Chadeayne, settling the damage done to the latter's property at the sum of \$2,296.38, with interest from May 1, 1893, the date of the destruction thereof by the Aqueduct Commission.

Respectfully,

ASHBEL P. FITCH, Comptroller.

Resolved, That, pursuant to section 25 of chapter 189 of the Laws of 1893, the Board of Estimate and Apportionment hereby authorizes and approves of an agreement to be entered into by the Commissioner of Public Works to pay to David L. Chadeayne, of Yorktown, Westchester County, the sum of two thousand two hundred and ninety-six dollars and thirty-eight cents (\$2,296.38), with interest from May 1, 1893, in full settlement of the claim of said David L. Chadeayne against the Mayor, Aldermen and Commonalty of the City of New York, for damage done to his property at Yorktown, Westchester County, under the authority of the said Act ; and

Resolved, That, upon the presentation of proper vouchers from the Department of Public Works, the Comptroller be and hereby is authorized to pay the said amount to said David L. Chadeayne.

From the Department of Parks—

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS,
COMMISSIONERS' OFFICE, NOS. 49 AND 51 CHAMBERS STREET,
August 3, 1894.

To the Honorable Board of Estimate and Apportionment :

GENTLEMEN—I have to request action by your Honorable Board so that the sum of \$24,000 of the appropriation authorized under the provisions of chapter 444, Laws of 1889, for parapet wall, etc., on southerly and westerly sides of Morningside Park, may be expended upon the work of surfacing the sidewalks on the easterly and westerly sides of said park, the estimated cost of which is as follows :

88,800 square feet pavement of concrete and asphalt (stone substructure complete),	
18 cents.....	\$15,984 00
22,100 square feet pavement of concrete and asphalt, with stone base, 30 cents.....	6,630 00
540 lineal feet new 5-inch curb, 65 cents.....	351 00
130 lineal feet old curb reset, 10 cents.....	13 00
Contingencies, inspection, Engineers, etc., 5 per cent.....	1,148 90
	<hr/>
	\$24,126 90

Say \$24,000.

In explanation of the above application I have to say that the original estimate for the parapet wall was \$117,000, but the work was fully completed by contract at a cost of \$78,490.62, leaving an unexpended balance of \$38,509.38. The stone substructure for these walks was constructed from the fund provided by chapter 11, Laws of 1894. At the present time they are unfit for use as well as unsightly, and to place them in proper condition the concrete and asphalt surface should be placed thereon.

Very respectfully,

GEORGE C. CLAUSEN, President, Department of Public Parks.

To the Honorable Board of Estimate and Apportionment :

GENTLEMEN—At a meeting of the Board of Parks held on the 22d instant the following resolution was adopted :

Resolved, That the Board of Estimate and Apportionment be respectfully requested to authorize the issue of bonds as provided by chapters 45 and 511 of the Laws of 1894, to the amount of two thousand dollars, under each law to be used for the purpose of making surveys, plans and estimates for the improvement of Cathedral Parkway and Corlear's Hook Park, any balance or balances that may be left remaining of such amounts to be applicable to the work of the respective improvements when authorized.

Yours, very respectfully,

CHARLES DE F. BURNS, Secretary, D. P. P.

Referred to the Comptroller.

COMMISSIONERS' OFFICE, NOS. 49 AND 51 CHAMBERS STREET,
September 13, 1894.

To the Honorable Board of Estimate and Apportionment :

GENTLEMEN—I have the honor to inform you of the adoption of the following resolution at a meeting of the Board of Parks, held on 12th instant :

Resolved, That the Board of Estimate and Apportionment be respectfully requested to transfer the sum of fifteen hundred dollars from the appropriation made for the current year, for "The Keeping, Preservation and Exhibition of the Collection in the Aquarium," for which it will not be required, to the appropriation for "Labor, Maintenance, etc.," which is insufficient.

In explanation of the above request I have to say, that the amount asked for is urgently needed for the purchase of broken stone, and the necessary labor required to place One Hundred and Tenth street, from Fifth avenue west, in proper condition. The pavement is badly worn in many places and requires immediate repair to prevent accidents.

Very respectfully,

GEORGE C. CLAUSEN, President, D. P. P.

Whereupon the Comptroller offered the following :

Resolved, That the sum of fifteen hundred dollars be and the same is hereby transferred from the appropriation made to the Park Department for 1894, entitled "For the Keeping, Preservation and Exhibition of the Collection in the Aquarium at Castle Garden," the same being in excess of the amount required for the purposes and objects thereof, to the appropriation made to the said Department for 1894, entitled "Labor, Maintenance, Supplies, Construction and Repairs—For General Maintenance," the amount of said appropriation being insufficient.

Which was adopted by the following vote :

Affirmative—The Mayor, Comptroller, President of the Department of Taxes and Assessments and Counsel to the Corporation—4.

From the Department of Parks :

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS,
COMMISSIONER'S OFFICE, NOS. 49 AND 51 CHAMBERS STREET,

To the Honorable the Board of Estimate and Apportionment :

GENTLEMEN—I have the honor to inform you of the adoption of the following resolution at a meeting of the Board of Parks held on 12th instant :

Resolved, That the Board of Estimate and Apportionment be respectfully requested to transfer the sum of ten thousand dollars from the appropriation authorized under chapter 11 of the Laws of 1894, for "Repaving Fifth Avenue, between Ninetieth and One Hundred and Tenth Streets," to the appropriation for "Macomb's Dam Road, One Hundred and Fifty-fifth Street and Seventh Avenue, Improvement of—Removal of Rock," which is insufficient.

It appears from the report of the Department Engineer that of the total quantity of material to be excavated from the gore (22,000 cubic yards) there has been removed 14,900 cubic yards, leaving 7,100 cubic yards to be excavated. The appropriation of \$44,000 is practically exhausted, the expenditure including the cost of tools for the work, the stripping and rehandling of earth, and the drilling of many holes upon the portion not excavated. The small balance now remaining of the appropriation will permit the work to be continued to 20th instant, when it must be discontinued unless additional funds are provided. In this connection I beg to call attention to the resolution adopted by the Board of Parks on May 16, requesting that the action of your Honorable Board, appropriating the sum of \$80,000 for the Fifth Avenue paving, be rescinded, for the reason that the work cannot be done until the construction of the sewer in said avenue by the Department of Public Works is completed.

Yours, respectfully,

GEORGE C. CLAUSEN, President, D. P. P.

Referred to the Comptroller.

From the Department of Street Cleaning :

DEPARTMENT OF STREET CLEANING—CITY OF NEW YORK,
NEW CRIMINAL COURT BUILDING, CENTRE, WHITE, ELM AND FRANKLIN STREETS,
NEW YORK, July 20, 1894.

Hon. THOMAS F. GILROY, Mayor, Chairman, Board of Estimate and Apportionment :

SIR—In accordance with the recommendation made by the Board of Health, I ask the Board of Estimate and Apportionment to approve the purchase by the Department of Street Cleaning of a disinfecting plant for each of the several dumps used by the Department, like that now in successful operation at Riker's Island, but proportionately smaller.

It is proposed to establish, at each of the dumps, a plant with a capacity for making 500 gallons of electrozone per hour ; the power to be furnished by gas-engines. The operation of such plants would be comparatively inexpensive.

All refuse delivered at the dumps would be immediately disinfected, including, of course, the bones, rags and other material, picked from the refuse under a contract which now nets the city in labor furnished and in money paid into the City Treasury, not less than \$130,000 a year. Summer before last, when cholera came to our harbor and every precaution was necessary to protect the city, such picking of the city refuse at the dumps was prohibited by the Board of Health, and the revenue from that source was, consequently, lost to the city. Had such disinfecting plants been in operation at the dumps at that time the picking of refuse could have been continued without danger to the public health. It has been objected to at all times, as it has been feared that the carting back into the city of the bones and rags taken from the refuse was dangerous to health ; as it has always been accompanied by the dissemination of unpleasant odors both in transit and at the dumps. With these disinfecting plants in operation these rags and bones would be rendered absolutely free from odor and wholly innocuous, while the revenue the city receives from that source would far more than repay the cost of the purchase and operation of the disinfecting plants. And, also, all the city refuse, being disinfected as loaded at the dumps and rendered inodorous, could be unloaded at any point at all times without being offensive in smell or dangerous to health.

Another important advantage to be derived from the operation of such plants is, that the electrozone could be used whenever desired for the disinfection of the streets, by means of sprinkling carts, in the crowded tenement-house districts and about the markets, slaughter-houses and docks, at the truck and hack stands, or wherever necessary. And there would always be an ample supply of this powerful disinfectant available for use under the direction of the Board of Health for the disinfection of houses, cellars, or any premises infected with the germs of contagious diseases.

While the suggestion that such disinfecting plants should be established at the dumps, and used for the purposes I have stated, did not originate with me, I have adopted it and earnestly commend it as one of the most important things that can possibly be done for security to public health, and as necessary for the removal of the most objectionable of the existing conditions of the dumps.

It is desirable that the proposed system of disinfection shall be put in use during the present summer and as soon as possible, if it is to be employed. I, therefore, request that the approval asked for may be given as soon as may be consistent with such examination in relation thereto as your Board may deem it necessary to make.

Very respectfully,

WILLIAM S. ANDREWS, Commissioner of Street Cleaning.

Referred to the Comptroller for consideration and report.

NEW YORK, September 12, 1894.

To the Honorable the Board of Estimate and Apportionment:

GENTLEMEN—At a meeting of the Examining Board of Plumbers held June 29, 1894, it was resolved to request your Honorable Body to transfer from the unexpended balance of this Board for the year 1893, or any other available funds, the sum of \$32.74, to pay a judgment of costs against this Board in the case of one Kelly, who brought action sometime since to compel this Board to grant him a certificate of competency as a master or employing plumber.

This suit was begun on or about October 1, 1893, was decided adversely to Kelly in the lower court, was appealed to the General Term, and there the decision was reversed, with costs amounting to \$32.74.

Execution has been issued and is now in the hands of the Sheriff for collection from the members of the Board personally.

As this is a public matter, concerning only the official action of the Board, it is respectfully requested that you provide means for the payment of this judgment.

Yours, very respectfully,

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereupon liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act:

When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

The award of the contract will be made as soon as practicable after the opening of the bids.
Any person making an estimate for the above shall present the same in a sealed envelope to said Commissioner of Street Cleaning at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The Commissioner of Street Cleaning reserves the right to decline any and all bids or estimates, if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as sureties for its faithful performance in the sum of seventeen thousand (\$17,000) dollars; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of eight hundred and fifty (\$850) dollars. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

WILLIAM S. ANDREWS,
Commissioner of Street Cleaning.

N. B.—As the above-mentioned quantities, though stated with as much accuracy as is possible, in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days from the receipt of a notification from the Engineer-in-Chief of the Department of Docks that the work or any part of it is ready to be begun, and all the work to be done under the contract is to be completed on or before the 1st day of April, 1895, or within as many days thereafter as may have elapsed between the date of execution of the contract and the receipt of a notice from the said Engineer-in-Chief that the work or any part of it may be proceeded with, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price for the whole of the work to be done in each class, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. These prices are to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder. The award of the contract, if awarded, will be made to the bidder who is the lowest for doing the whole of the work comprised in both classes, and whose estimate is regular in all respects.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing each class of the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done in each class by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form

of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation, and the contract will be re-advertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done in each class by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

SALE OF THE BAY RIDGE FERRY.

THE FRANCHISE OF A FERRY, FROM THE foot of Whitehall street, New York, to Bay Ridge, at Sixty-fifth street, Long Island, will be offered for sale by the Comptroller of the City of New York, at public auction, to the highest bidder, at his office, Room No. 15, Stewart Building, No. 280 Broadway, on Wednesday, May 16, 1894, at 12 M., for a term of ten years, from the first day of June, 1894, upon the following TERMS AND CONDITIONS OF SALE.

The highest bidder for the lease of the franchise and wharf property of said ferry will be required to pay the auctioneer's fee and to deposit with the Comptroller, at the time of the sale, a sum equal to twenty-five per cent. of the amount of his bid therefor, which sum shall be credited on the rent of the first quarter of the first year of the term of the lease, or to be forfeited to the City if the lease shall not be executed by the highest bidder or purchaser when notified and required by the Comptroller.

In addition to the yearly rental to be paid for the ferry franchise, the purchaser and lessee of said franchise may have the use for ferry purposes of that portion of the landing and buildings at the foot of Whitehall street, which are now and were heretofore occupied and used in connection with the operation of the Bay Ridge ferry, and of the privileges heretofore exercised in operating said ferry, by the payment of eight thousand (\$8,000) dollars per annum, payable quarterly, during the term of the new lease beginning June 1, 1894, to the lessee of franchise of the ferry to and from Staten Island.

The boats of said ferry shall make half hourly trips each way during the regular summer season, and trips during the rest of the year as may be directed by the Mayor and Comptroller of the City of New York.

The minimum or upset price, is five per cent. of the gross receipts for ferrage of passengers, vehicles, freight, etc., and the total amount of the rental shall not be less than fifteen thousand dollars (\$15,000) per annum, payable quarterly in advance.

The lessee will be required to provide improved facilities for the safe and more convenient landing of passengers and vehicles at the Long Island terminus.

The lessee of the ferry will also be required to give a bond in double the amount of the yearly rental with two sufficient sureties approved by the Comptroller, and conditioned for the faithful performance of the terms and conditions of the lease, which will be such as are required by law, and the ordinances of the Common Council relating to ferries, and usually contained in ferry leases, which conditions shall be approved by the Counsel to the Corporation.

The lease will contain a covenant providing for the purchase, by any person or corporation other than the purchaser at the present sale, that may acquire said ferry franchise after the expiration of said term, at a fair appraised valuation of the boats, buildings and other property of the former lessee, actually necessary for the purpose of said ferry or franchise and the surrender and yielding up of the premises by the lessee, if the lessee shall not become the purchaser of the franchise for another term, which appraisal shall be made in the usual way before advertising a lease for a new term of the franchise, at least three months prior to the termination of the lease; provided that the Mayor, Aldermen and Commonality of the City of New York shall not in any event be deemed to covenant to purchase said property.

The rates of ferrage and charges for vehicles and freight shall not exceed the rates now charged.

TERMS AND CONDITIONS OF SALE.

The highest bidder for the lease of the franchise and wharf property of said ferry will be required to pay the auctioneer's fee and to deposit with the Comptroller, at the time of the sale, a sum equal to twenty-five per cent. of the amount of his bid therefor, which sum shall be credited on the rent of the first quarter of the first year of the term of the lease, or be forfeited to the City if the lease shall not be executed by the highest bidder or purchaser when notified and required by the Comptroller.

The minimum or upset price for the franchise is five per cent. of the gross receipts, and the total yearly rental therefor shall not be less than..... \$22,500 00
For the wharf property the yearly rental is fixed at..... 21,500 00
Total..... \$44,000 00

—payable in advance quarterly.

The lessee of the ferry will also be required to give a bond in double the amount of the yearly rental, with two sufficient sureties, approved by the Comptroller, and conditioned for the faithful performance of the terms and conditions of the lease, which will be such as are required by law and the ordinances of the Common Council, relating to ferries, and usually contained in ferry leases, which conditions shall be approved by the Counsel to the Corporation.

The lease will contain a covenant providing for the purchase by any person or corporation other than the purchaser at the present sale that may acquire said ferry franchise after the expiration of said term, at a fair valuation of the boats, buildings and other property of the lessee used in and actually necessary for the operation of said ferry, upon the termination of the lease, and the surrender and yielding up of the premises by the lessee, if the lessee shall not become the purchaser of the franchise for another term, which appraisal shall be made in the usual way, before advertising the lease for a new term of the franchise, at least three months prior to the termination of the lease; but the Mayor, Aldermen and Commonality of the City of New York shall not be deemed thereby to covenant to purchase said property in any event.

The lease also shall contain a provision that the number of boats employed and the number of regular trips made daily shall not be less than those now employed and made in operating the said ferry, and that at least three regular trips shall be made between the hours of one o'clock A. M. and five o'clock A. M., daily, at an interval of one hour and twenty minutes between each trip.

A further condition of the sale is that the purchaser and lessee of the franchise of the ferry to Bay Ridge, Long Island, may have the use for its ferry purposes of that portion of the landing and buildings thereon at the foot of Whitehall street, which are now and were heretofore occupied and used in connection with the operation of the Bay Ridge ferry, and of the privileges heretofore exercised in operating said Bay Ridge ferry, by the payment of \$8,000 per annum to the lessees of the Staten Island Ferry, during the term of the lease beginning June 1, 1894.

The purchaser of the franchise or license to operate the ferry to and from the foot of Whitehall street to and from Staten Island, in case the purchaser should be any one other than the Staten Island Rapid Transit Railroad Company, will be required to pay to the Staten Island Rapid Transit Railroad Company, upon the execution of the lease and upon the delivery of possession of said wharf property by said railroad company to said purchaser, the sum of \$175,000, the appraised value as fixed by the resolution of the Commissioners of the Sinking Fund adopted July 12, 1893, of the structures and improvements erected and made by the said Staten Island Rapid Transit Railroad Company upon the wharf property leased in connection with said ferry franchise.

The rates for ferrage shall not exceed those now charged.

The form of lease which the purchaser will be required to execute can be seen at the office of the Comptroller. The right to reject any bid is reserved, if deemed by the Comptroller to be in the interest of the City.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for his faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of the deposit will be returned to him.

The Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards reserves the right to reject all bids received for any particular work if he deems it for the best interests of the city.

OPINIONS.

The reports of previous years show that the preparation of opinions at the request of the heads of the various departments and boards is a very important branch of the office work. These opinions cover an immense field and wide range of subjects, frequently involving prolonged study.

During 1893 written opinions were given on request as indicated below:

Comptroller	177
Commissioner of Public Works	41
Dock Commissioners	4
Park Commissioners	8
The Mayor	11
Police Commissioners	5
Fire Commissioners	3

Commissioner of Street Cleaning	3
Aqueduct Commissioners	1
Board of Street Opening	6
Commissioners of Public Charities and Correction	2
Common Council	4
Board of Assessors	1
Commissioners of Taxes and Assessments	7
Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards	5
Miscellaneous	40
Total	318

4,655 pages of press copying was required for the opinions and other correspondence of the Department during the year.

There were received from the Police Department 149 reports of accidents, which were examined into and filed.

There were received from the Finance Department 282 requests for the examination of claimants, in 206 of which oral examinations, under oath, were conducted. The circumstance that only 206 claimants were examined, when 282 requests for examination were received, is principally explained by the fact that a large number of the claims filed were in mechanics' liens cases and in assessment matters, where, all the facts being already within the knowledge of the City's officers, examinations were not necessary.

This makes a total of ninety-two individuals, exclusive of special counsel.

THE GENERAL OFFICE.

The General Office of the Counsel to the Corporation has been for years in need of more room. Its wants have been only partially satisfied, however, and two of the bureaus and the other offices are still separated from it and from each other.

Its present quarters have been increased in size during the year by the addition of the whole of the second floor of the Staats-Zeitung Building, which was formerly occupied by the Department of Taxes and Assessments.

Now the General Office occupies the second and third floors of the building, and the Bureau of Street Openings about one-half of the fourth floor.

The building has been thoroughly renovated, cleaned and painted during the past year, and the arrangement of offices changed and very greatly improved. There is still need of a room for the hearing of references, meetings of Commissioners and similar uses; besides it would be desirable to have the other bureaus and the Office of the Attorney for the Collection of Arrears of Personal Taxes in the same suite of offices.

MATTERS SPECIALLY MENTIONED.

The New Aqueduct Litigation.

First in importance of the cases disposed of during the year comes the O'Brien & Clark suit to recover the sum of \$732,312.93 for extra work done over what was shown by the engineer's certificates in the building of the New Aqueduct.

The suit was tried in the year 1891 before Judge Ingraham and a special or struck jury.

It was well known that there was less bad work upon the section involved in that suit than upon any other section, and the contractors were thus given an opportunity to try their best case first.

The trial continued six weeks, with the result that a verdict was rendered in favor of the City.

The position of the City was thus sustained at Circuit. It was also sustained by the General Term of the Supreme Court, and finally, in the year 1893, by the Court of Appeals.

This case, although involving only one section of the Aqueduct, was really treated as a test case both by the counsel and by the Court.

Several other actions are also pending which depend on the same decision, involving claims aggregating with interest between \$8,000,000 and \$10,000,000.

It seems, therefore, that a sum of money amounting to several millions of dollars has been saved to the City by the decision of this case, so that its importance can scarcely be over-estimated.

The Litigation with the Elevated Railroads.

An action which is very important to the City, not only on account of the large amount involved (about \$1,000,000), but also by reason of the principle of statutory construction contended for, is the action of the City against The Manhattan Railway Company to recover five per cent. of the net earnings of the Ninth and Third avenue lines of that company from April 1, 1880, to March 31, 1890, as provided for by chapter 489 of the Laws of 1867, and other acts.

In this suit the City has been successful, both at the Special and General Terms of the Supreme Court, in establishing its rights to an accounting and to the payment of five per cent. of what the net earnings may be shown to be on such accounting.

An appeal has been taken by the defendant to the Court of Appeals, and if that Court affirms the order of the General Term denying the defendant a new trial, an accounting will be immediately commenced to determine the amount due to the City.

The Hackley Contract Litigation.

During the year the City won an important victory in the suit against it by John B. Devlin, as administrator of Charles Devlin.

This suit was begun in 1864, and relates to the famous Hackley contract made in 1861, between the City and Andrew J. Hackley, for the cleaning of streets and wharves.

After nearly twenty-five years of litigation, the referee to whom the case was sent filed his report on August 10, 1888, ordering judgment for the plaintiff. Judgment was entered on April 16, 1891, for \$689,566.73.

In June, 1893, the General Term of the Court of Common Pleas rendered a decision, the effect of which was to reduce the judgment to about \$200,000.

The Suit of the New York and Brooklyn Ferry Company.

This suit against the City was begun in 1879, and was brought to recover the value of buildings and fixtures used in connection with the ferry at the foot of Roosevelt street. The Ferry Company claimed \$100,000 as damages.

The first trial, which took place in 1881, resulted in a verdict for the plaintiff for \$67,200.

On appeal, however, a new trial was ordered. The second trial took place before Judge Barrett in June, 1893. The jury rendered a verdict in favor of the City.

The Du Bois Claim.

On the 31st of December, 1883, John Du Bois, as patentee, commenced a suit against the City of New York, the City of Brooklyn and the Trustees of the Brooklyn Bridge in the United States Circuit Court for the Southern District of New York to recover damages aggregating nearly \$1,000,000 for an alleged infringement of a patent, issued to him on September 23, 1862, for a new and useful improvement in the mode of building piers for bridges and other structures and of the setting of the same in deep water.

It was claimed that the infringement occurred in the construction of the foundation of the New York pier of the bridge.

After the defendants had put in their answer, and on the 9th of June, 1888, the Legislature of this State passed the act known as chapter 564 of the Laws of 1888.

By this act, the Mayors of the cities of New York and Brooklyn were each authorized to appoint a referee, and the complainant Du Bois, a third referee, to act as arbitrators. The suit, by agreement, pursuant to such act, was referred to such arbitrators to hear and determine.

The proofs were taken before them, and the case finally submitted in December, 1892. In February, 1893, they decided in favor of the defendants. This decision was a final adjudication against the claim of the plaintiff.

The Wolff Board of Aldermen Claims.

William E. Demarest, as assignee, began suit to recover salaries alleged to be due to the members of the so called Wolff Board of Aldermen. The amount claimed in these actions is over \$1,000,000.

One action, in which \$49,000 was claimed, was tried as a test case at Circuit. Judgment was directed on the 24th day of May, 1893, dismissing the complaint, and the General Term, on appeal, has affirmed the judgment.

The Contract Cases.

The office has been singularly successful in the trial of contract cases. The actions brought against the City have been for large amounts, and the questions presented have been intricate ones of law and of fact.

Some of these cases are the following:

Jonas vs. The Mayor; Hanna vs. The Mayor; Reilly vs. The Mayor, and Del Genovese vs. The Mayor (two suits).

The recovery has been in every instance much less than the amount claimed in the complaint, and in many instances hardly 50 per cent. of the amount claimed has been recovered.

The Claims Forwarded by the Department of Street Cleaning.

The Commissioner of the Department of Street Cleaning, under the authority conferred by the new act, removed large numbers of trucks found upon the public streets and took them to the Corporation Yard.

In 133 cases proceedings have been begun in the First District Court for the sale of the trucks.

The College Place Widening.

The Commissioners' final report was completed and presented to Judge Lawrence for confirmation on March 24, 1893.

The motion for confirmation was opposed by representatives of the property-owners, with the result that in June a decision was handed down denying the motion.

Two motions for a reargument were also denied.

The Commissioners then engaged in the preparation of their amended report, which was completed, signed and filed in the Department of Public Works for the inspection of owners, on December 30, 1893.

The Harlem Speedway.

The title to the land for the speedway, from One Hundred and Fifty-fifth to Dyckman street, has been acquired. The length of the road is about 2½ miles.

The Bronx River Proceedings.

During the past few years several proceedings have been brought to ascertain the damages suffered by property-owners from the diversion of water from the Bronx river by reason of the construction of the Kensico Dam.

The proceedings affecting the section extending from Williamsbridge south through the Bronx Park was completed in 1893 and submitted to the Commissioners of Appraisal for their decision.

The Corlears Hook Park.

The proceedings under chapter 539 of the Laws of 1884, as amended by chapter 344 of the Laws of 1889, to acquire land for this park, have been completed and the report was confirmed on the 17th of July, 1893.

This park consists of three blocks bounded by Cherry, Corlears, South and Jackson streets. These blocks comprise 146 city lots and 111 lots which were formerly parts of streets, making in all 257 lots.

The awards amounted to \$1,370,421 and the expenses to \$50,444, making \$1,420,865 as the total cost of the acquisition of the land.

The Mulberry Bend Park.

Proceedings are pending, under authority of chapter 320 of the Laws of 1887, for the acquisition of a tract of land bounded by Mulberry, Park, Bayard and Baxter streets, for a public park.

About fifteen hundred pages of testimony by property-owners and real estate experts as to the value of the property to be acquired were taken. The hearings were finally concluded in February, 1893. Subsequently chapter 526 of the Laws of 1893, exempting the property in the neighborhood from assessment was passed.

In May a motion for the confirmation of the Commissioners' report was made before Mr. Justice Andrews, who referred certain claims for compensation of the Commissioners and Clerks to a referee to take evidence of their value.

The reference was concluded, and in December the report was filed in the office of the County Clerk.

A question was raised as to whether the motion to confirm should not be renounced, so that the report had not been confirmed at the end of the year, although the proceedings were practically finished.

The land taken consisted of forty-one parcels for which the Commissioners awarded \$1,476,557 as damages to the property-owners. The costs and expenses claimed amount to \$64,467.70.

The Proceedings before the Commissioners to award Damages for Change of Grade of Certain Streets in the Twenty-third and Twenty-fourth Wards.

When the railroad tracks of the New York and Harlem Railroad Company through the Twenty-third and Twenty fourth Wards were depressed, under authority of chapter 721 of the Laws of 1887, it became necessary to change the grades of the streets and avenues adjacent to that improvement. For this change of grade many property-owners claimed to have suffered great damage.

The Mayor, under authority of chapter 537 of the Laws of 1893, appointed a Commission to ascertain and award damages.

The act imposed upon the Counsel to the Corporation the duty of protecting, maintaining and defending the interests of the City in relation to all matters before the Commission.

Its first public session was held on the 7th of June, 1893, and with the exception of short recesses three sessions a week have been held.

967 claims were filed, in which the aggregate amount of damage sought to be recovered is \$3,634,945.

In 49 claims the testimony on the part of the claimants has been closed, and the City is about to begin its defense.

The time to present claims has now expired.

A number of important questions of law have arisen affecting the construction of the act and the measure of damages. The Commission has deferred all its rulings upon the points raised and no claim has been finally submitted, so that it is impossible now to make any estimate of the amount that the City will be called upon to pay for changes of grade.

ADMIRALTY PROCEEDINGS.

During the past year 22 claims were filed against the City to recover for damages caused directly or indirectly by the different tugs in the employ of the City, aggregating \$25,657.41. Similar claims were pending at the close of 1892 against the City to the amount of \$2,069.52, a total aggregate of \$27,726.94.

During the last twelve months pending claims to the amount of \$1,812.55 have been adjusted by settlement.

In the District Court of the United States the City has been found liable for the payment of the sum of \$2,617.40. Libels against the City, aggregating damages claimed of \$3,417.72, have been dismissed. The Circuit Court of Appeals having affirmed the decree of the District Court upon the libel filed by the City against the steam tug "Express" to recover damages for the sinking of the Health Department's tug the "Franklin Edson," the principal interest and costs under the final decree, to the amount of \$11,313.43, were collected.

In the libel filed by the City for injuries done to the fire-boat "William F. Havemeyer," by the tug "Hadden" and her tow "The Mattie Newman," a decree was entered in the District Court in favor of the City and the reference directed to assess the damages has been closed, but no report has yet been made by the Master. The total amount claimed in this case by the City is the sum of \$5,700, exclusive of costs.

In actions brought by the City, decrees have been entered in its favor upon prayer for judgment in the sum of \$17,178.43. There has been collected and turned into the City Treasury \$11,478.43.

There are now at issue in the District Court of the United States City actions involving \$5,018.48, and suit is about to be brought in claims aggregating the sum of \$12,114.49.

CONDEMNATION PROCEEDINGS AND REAL ESTATE MATTERS.

School Sites.

During the year sites for nine school-houses have been acquired by condemnation proceedings in which the amounts claimed were \$665,250, while the amounts allowed by the Commissioners were \$403,625. In addition the titles of two school sites on West Forty-fifth street and West Fifty-second street, respectively, have been examined and approved and the property is now owned by the City.

Two condemnation proceedings were instituted in 1893; one to acquire title to a lot of land on the northerly side of Fourth street, between Avenues B and C—Commissioners have been appointed in that proceeding, and testimony as to the value is now being taken before them; the other to acquire title to seven lots of land at the northeasterly corner of One Hundred and Nineteenth street and Madison avenue.

The title to eight lots of land on the southerly side of Eighty-eighth street, between Second and Third avenues, which the Board of Education proposed to purchase, was examined, but the title was not approved.

Armory Site.

An easement affecting a portion of the Ninth Regiment Armory Site on Fourteenth street, between Sixth and Seventh avenues, claimed to be worth \$34,500, was acquired by condemnation proceedings for \$1,409.

Police Court Sites.

The title to four lots of land, extending from Fifty-third to Fifty-fourth street, between Eighth and Ninth avenues, was acquired as a site for the Seventh District Police Court and Prison, and for the District Court-house for the Eleventh Judicial District. The amount claimed here was \$78,000, while the amount allowed by the Commissioners was \$50,000.

The title to three lots of land on the northerly side of Charles street, between Greenwich and Washington streets, has been examined and approved, the Police Department having agreed to purchase them as a site for a new station-house.

Bridge Approaches.

A piece of land containing twenty-two city lots, bounded by Macomb's Dam road, One Hundred and Fifty-third street and Seventh avenue, was acquired as a southerly approach to the new Macomb's Dam Bridge. It was secured after trial before Commissioners for \$180,000, although the amount claimed was \$370,000.

A proceeding has been begun to acquire land known as the Washington Bridge Park or High Bridge Park, and a large quantity of testimony has been taken, but the proceeding has not yet been terminated.

The tract lies between Tenth avenue, the Harlem river, lands owned by the city and used in connection with High Bridge, and a line 150 feet north of the Washington Bridge.

Summary.

Taking the School, Armory, Police Court and Bridge cases together, the amount claimed (that is, the highest value testified to by experts under oath) was \$1,147,750, while the amount awarded by the Commissioners and confirmed by the Court was \$634,634.

The amount awarded was thus 55.29 per cent. of the amount claimed.

Engine Houses.

The titles to the four pieces of land described below were examined and passed or approved at the request of the Fire Department, which agreed to purchase them for the purpose of building fire engine-houses thereon:

One lot on the south side of One Hundred and Fortieth street, 125 feet west of Amsterdam avenue.

One lot on the south side of One Hundred and Seventieth street, 95 feet east of Audubon avenue.

Two lots on the north side of One Hundred and Seventy-sixth street, 150 feet west of Washington avenue.

One lot on the east side of Forest avenue, 453 feet 10 inches north of Denman place.

The titles to the following tracts of land, which it is intended to use for similar purposes, were being examined at the end of the year:

One lot on the south side of One Hundred and Thirty-seventh street, 231 feet 6 inches east of Alexander avenue.

Two lots on the north side of Buckout street, 106.99 feet east of Morris avenue.

One lot on the south side of One Hundred and Fiftieth street, 200 feet west of Courtlandt avenue.

Ward's Island and Staten Island Property.

The titles to about one-half of Ward's Island (about 130 acres), and to two tracts of land on Staten Island (about 54 acres), were examined and approved. The deeds were transmitted to the Comptroller and the title passed.

This land was formerly owned by the Commissioners of Emigration, but was acquired by the City under authority of chapter 531 of the Laws of 1892 and chapter 528 of the Laws of 1893.

DELINQUENT JUROR PROCEEDINGS.

The Commissioner of Jurors transmits to this Department the names of jurors who have been summoned to act in all of the courts of record in this City, and who have been fined by the judges for failure to appear.

Proceedings are then taken by this Department to punish them for contempt.

It will be observed from the summary below that this necessitates a large amount of work, and, in fact, it takes the greater part of the time of three men in the employ of this Department.

Number of delinquent jurors whose names were transmitted as having been fined.....	4,435
Number of proceedings begun prior to 1893 and still pending.....	7
Number of fines remitted for non-service of notice to appear as jurors.....	1,921
Number of fines remitted for other reasons.....	407
	2,328
Number of cases in which the Commissioner of Jurors was unable to serve orders to show cause why the delinquents should not be punished for contempt.....	2,048
Number of fines enforced.....	59
Amounts of judgments obtained.....	\$5,570 00
Amounts collected and turned into the City Treasury.....	1,072 81

Executions were issued to the Sheriff in the other cases.

DOCK CASES.

Twelve suits brought to recover damages for the destruction of wharfage rights by the Dock Department in carrying out the improvement of the water-front under the new plan have been finally disposed of.

These cases involve the trial of the question of damages before referees and the examination of the title to the bulkhead rights in each suit.

Through these suits the City acquired title to over 800 feet of bulkhead and riparian rights for which it paid the sum of about \$407,000.

It is thought that the price paid was very low. In no case were damages recovered in excess of \$500 per foot and 4 per cent. interest, while in one case 200 feet of riparian rights were acquired for the sum of \$2,500.

This result was obtained notwithstanding the fact that in June, 1892, the Court of Appeals sustained the decision of the referee in what are known as the Langdon cases, which were the test cases in this class of litigation, and which had been strongly contested in the courts for fourteen years.

In those cases the referee found that the value of bulkhead rights was \$600 a foot front, and that the plaintiffs were entitled to 6 per cent. interest from the date the City wrongfully deprived the owners of their bulkhead privileges.

Besides this litigation the following matters may be mentioned:

The Mayor, etc., vs. Minor—This was an ejectment suit involving the title to lands between Sixty-first and Sixty-second streets, on the East river, and was settled upon such terms that the City obtained sufficient of the filled in lands for its proposed exterior street and all riparian rights.

The Mayor vs. The Knickerbocker Ice Company—This was an ejectment suit to recover lands filled in and claimed to be owned by the ice company between Ninety-first and Ninety-second streets, East river. In this suit the City obtained almost two-thirds of the filled in lands and all riparian rights.

In three other ejectment suits, involving one-half of the pier at the foot of Eighth street, East river, the whole of the pier at the foot of Ninth street and one-half of the pier at the foot of Tenth street, settlements have been agreed upon and nothing remains but to enter the judgment in accordance therewith.

By these terms of settlement the possession of the piers is to be delivered to the City and the defendants are to pay damages for the last six years, less the taxes, and are to take leases of the piers from the City at rents agreed upon.

The property between Twenty-fifth and Twenty-sixth streets, 200 feet in length and east of Avenue A, with all the riparian rights, has been purchased by the Dock Department for the sum of \$70,000.

The property between Twenty-fifth and Twenty-sixth streets, North river, west of Thirteenth avenue, 100 feet in length and about 50 feet in width, together with all riparian rights, has been purchased by the Dock Department for the sum of \$85,000.

A valuable piece of wharf property at the foot of Jay and Harrison streets has also passed to the City after an examination of the title by this Department.

During the year eight leases at advanced rents for piers have been prepared.

SUSPENSION CASES.

During the last three or four years a large number of suits in so called "Suspension cases" have been brought against the City, in which the plaintiffs relied for a recovery upon the decisions in Gregory vs. The Mayor, 113 N. Y., 416, and similar cases.

The claimants were former City employees urging claims against the City amounting to over \$100,000, on the ground that they were still in the employ of the City although they had done no work, their theory being that they had been "suspended" instead of discharged, and that there was no authority for such suspension, and consequently that they were entitled to wages or salary until they had been formally discharged.

Several of these cases have been tried or decided during the year, in all of which the City has been successful. These decisions greatly strengthen the position of the City in resisting such claims, so that very few new ones have been presented and in only a few cases that remain can the plaintiffs recover.

Some of the important cases are Wardlaw vs. The Mayor, 137 N. Y., 194; Connor vs. The Mayor, 137 N. Y., 545; Donnell vs. The Mayor, 68 Hun., 55; Gore vs. The Mayor; Cane vs. The Mayor; Weir vs. The Mayor (Superior Court, January, 1893); Wilson vs. The Mayor Superior Court, March, 1893).

TAX MATTERS.

73 writs of certiorari were sued out to review the assessments made for purposes of taxation for the year 1893, amounting to \$23,945,600.

Of these proceedings 27 were taken by Connecticut Savings Banks to review the assessments on bank stocks held by them in national banks located in the City of New York amounting to \$1,013,128. They all involved, however, only a single question of law.

11 writs were sued out by local insurance companies to review assessments of bank stocks held by them in national banks located in this City, aggregating \$618,894.

36 writs were sued out by foreign and domestic corporations and individuals to review assessments made either upon their personal property or bank shares or both. The assessments upon the personal property of corporations and individuals aggregated \$19,308,285; and upon bank stocks owned by individuals and corporations, \$3,005,293. Of personal assessments, \$10,000,000 or nearly one-half is under review in the litigated assessments upon the estate of Jay Gould, deceased.

A large proportion of the assessments under review in these proceedings were made by the assessors under authority of chapter 202 of the Laws of 1892, commonly known as the "Deyo Act," which act denied the right to deductions for debts incurred either in the purchase of non-taxable property or securities or for the purpose of evading taxation.

During the past year several important cases have been argued in the courts involving fundamental principles of assessment for purposes of taxation.

Among important assessments sustained by the courts during the year are the assessments against the Thurber-Whyland Company; against the Equitable Gas-light Company for 1891; against the German Looking Glass Plate Company for 1892, and against the United States Trust Company as the Committee of one Langlois.

In the suit brought by the United States Trust Company against The Mayor to recover taxes paid by it during the years 1887, 1888, 1889 and 1890, judgment was rendered in favor of the City as to all of the years except 1887. As to that year the Court at Special Term held that the taxes had been paid under legal duress. From this adjudication the City has appealed. The principle, however, is established that where assessments are even admitted to be void, payment of the tax, except under legal duress, is a bar to recovery.

The decision of Mr. Justice Andrews in the certiorari proceedings brought by the Eagle Fire Insurance Company of New York to review the assessment against it for the year 1889, practically sustains all assessments made by the Department of Taxes against the fire and marine insurance companies in the City of New York for the years 1887, 1888, 1889, 1890 and 1891.

Chapter 679 of the Laws of 1886, having been construed by the Court of Appeals in the case of The People ex rel. The Commonwealth Insurance Company vs. Coleman, 121 N. Y., 542, to confer a right to total exemption upon fire and marine insurance companies, for purposes of local taxation, until the Act of 1886 was repealed by chapter 218 of the Laws of 1891, these companies claimed that all assessments made against them between 1887 and 1891 were void.

38 companies brought 109 proceedings to review these assessments. The Eagle case for 1889 was urged by the attorneys for the relators as a test case.

Judge Andrews holds the petition so defective that the writ must be quashed.

The gross amounts of assessments sought to be reviewed, year by year, and affected by this decision, appear below:

YEAR.	PERSONALTY.	BANK SHARES.	TOTAL.
1887.....	\$1,402,006 00	\$930,479 00	\$2,332,485 00
1888.....	948,899 00	696,974 00	1,645,873 00
1889.....	1,034,545 00	534,325 00	1,568,870 00
1890.....	889,580 00	428,160 00	1,317,740 00
1891.....	475,840 00	475,840 00
	\$4,275,030 00	\$3,065,778 00	\$7,340,808 00

If the contention of the companies had been sustained under the provisions of the law, the City would have been required to refund the taxes paid with interest from the date of payment, an estimated amount of between \$250,000 and \$300,000.

THE BUREAU OF STREET OPENINGS.

An additional bureau, called "The Bureau of Street Openings," was added to the Law Department by chapter 158 of the Laws of 1893.

This bureau has general charge of proceedings to acquire title to lands required for streets and of such other proceedings involving awards for damages, or assessments for benefits to lands, as may be assigned to it by the Counsel to the Corporation.

This act is regarded as a step in advance towards systematizing the work of the Law Department. Previously, work of this character was conducted mainly by Special Counsel, and was not so closely under the supervision of the Counsel to the Corporation as at present.

The cost of maintaining this bureau is divided among the different proceedings, and is included in the assessments for benefit as a part of the expenses of the improvements, so that work of this character is done without expense to the general body of taxpayers, the burden being borne by the property deemed specially benefited by the improvements.

This bureau has been established under the above act, and its office is now in connection with the General Office of the Counsel to the Corporation. An arrangement of rooms has been made so that two commissions can be in session at the same time. It is expected that the opening of streets will now proceed with much more rapidity than formerly.

The following is a summary of the work of this bureau:

36 new streets have been opened, each in a separate proceeding. The length of these streets is 38,512.76 lineal feet, or a distance of about 7 1/3 miles.

The awards confirmed in these proceedings amount to \$555,794.69 and the assessments to \$545,805.89.

The assessments affect 6,692.45 city lots.

In addition abstracts of estimate and assessment have been completed in 48 separate proceedings. Although the reports have not been confirmed in these cases most of the work involved in these proceedings has been finished.

The amount of awards in these proceedings is \$2,813,729.23.

The amount of the assessments is \$2,688,621.13, which it is proposed to assess on 20,412.46 city lots.

212 proceedings were considered, 3 appeals heard, and 1,060 meetings of Commissioners held.

THE BUREAU OF THE CORPORATION ATTORNEY.

At this bureau 42,833 complaints were received, upon 8,153 of which no action could be taken for want of jurisdiction.

Suit was brought upon 16,155 complaints, but nothing was done as to the remaining 18,525, for the reason that in many cases these complaints were duplicates or had not been reached in their regular order, or police officers making the reports had been retired from the police force.

7,200 suits were commenced (in many cases one suit covers several complaints); 621 were prosecuted to judgment; 817 settled; 4,458 dismissed, and in 926 cases the defendants could not be found.

52 complaints for failure to file surveyor's certificates in connection with the building of vaults were received from the Department of Public Works; in all of these cases the delinquents were compelled to comply with the ordinance; 82 bastardy cases were prosecuted to judgment. Convictions were affirmed in 18 abandonment cases on appeal and dismissed in 10; 6 such cases were prosecuted to judgment, and in 15 the bonds were prosecuted; 4 actions were begun to compel children to support aged parents, and 1 case to sequester the property of an absconding husband.

19 actions were brought to recover the fees of Inspectors of Weights and Measures.

The amount collected from all sources by the Corporation Attorney and paid in was \$10,518.31.

THE OFFICE OF THE ATTORNEY FOR THE COLLECTION OF ARREARS OF PERSONAL TAXES.

The number of delinquent taxpayers returned to this office by the Receiver of Taxes was 2,023. These, with 544 cases, in which at the close of 1892 no proceedings had been commenced, and 215 which then had not been disposed of, make a total of 2,782 cases to be accounted for.

These cases have been disposed of as follows:

Delinquents not found by Marshal or Messenger.....	1,259
" died leaving no estate.....	59
" cases of, dismissed for various reasons.....	815
" committed.....	100
" claims against, paid.....	338
" cases of, pending.....	21
" judgments entered against and not paid.....	41
" cases of, in which papers are prepared but not yet served.....	86
" claims against, filed.....	63
Total.....	2,782

This bureau has made and paid over collections as follows:

For taxes and interest.....	\$72,447 39
For costs.....	2,026 34
For interest on bank deposits.....	70 32
Total.....	\$74,544 05

The amount collected this year surpasses the record of last year by \$4,326.64.

THE OFFICE OF THE SPECIAL COUNSEL IN CHARGE OF PROCEEDINGS RELATING TO THE WATER SUPPLY.

The so-called Webster Water Shed Act was passed in March, 1893, and is known as chapter 189 of the Laws of 1893.

Immediately after its approval the entire section of some 364 square miles in Westchester, Putnam and Dutchess Counties, which forms the water shed from which the City derives its supply of water through the Croton Aqueduct, was critically examined by representatives of the Health Department, the Department of Public Works and several prominent local physicians.

The Health Department and the Department of Public Works ordered proceedings to be instituted at Kensico, Mount Kisco, Brewsters, Lake Gleneida or Carmel, Patterson, West Patterson, Towners, Lake Mahopac and various other places.

In conjunction with this order the Aqueduct Commissioners determined to acquire certain lands deemed by them to be necessary for the construction of the New Croton Dam and adjoining the lands to be covered with water (a strip some 350 to 500 feet wide), for the purpose of complying with the rules and regulations of the State Board of Health, adopted under authority of chapter 661 of the Laws of 1893.

An examination of the Kensico Reservoir disclosed the fact that its water shed was smaller and its susceptibility to contamination greater than any other part of the Croton water shed, the water from the reservoir being conducted to the City of New York through an iron conduit pipe. For that reason summary measures for the destruction of buildings and the removal of nuisances were adopted, and the first map filed under the act covered the territory of Kensico and vicinity.

About one year prior to the passage of the law in question, the property bordering on Kensico Reservoir was purchased by speculators, subdivided into lots and the lots were sold on the installment plan. Purchasers of doubtful responsibility were taken to the sales without expense, and other means used to create a fictitious value of property which should only be termed "acre property" although sold in lots.

Upon the appointment of Commissioners of Appraisal in the Kensico proceeding, the claims of William R. Smith and others were presented upon the theory that the property acquired was valuable for building lots.

The claim in question at the amount named was substantiated by the testimony of numerous agents, residents and experts.

A report was made by the Commissioners after a lengthy trial upon the first ten parcels, and also upon the claim of Palmer Brothers for the destruction of the Pines Bridge Hotel at the New Croton Dam.

The amounts claimed against the City in the proceeding covering these parcels, and which there was sworn testimony to sustain, aggregated \$382,903.74. The amount awarded for the fee of the property in question was, however, only \$63,250, or a recovery of 16.5 per cent. of the amount claimed.

The difference between the amount claimed and the award was caused by the decision of the Commissioners that the premises in question were really to be classed as "acre property," and were not valuable for building lots, although sales of such lots had been made to persons residing in the City of New York and adjoining cities, who were entirely ignorant of the value of Westchester County property. In view of the fact that all the other property around the lake which is not included in the report will probably be classed as "acre property," the report in question not only saves the above mentioned amount to the City, but establishes a precedent which must necessarily result in saving at least over a quarter of a million of dollars more.

At Mount Kisco the claimants are now engaged in presenting evidence against the City. No proof has as yet been presented by the City and no report made.

At Brewsters and Carmel the claimants, representing some 200 parcels of real estate, are now engaged in the presentation of their claims, and have not as yet closed the trial of their cases.

The proceedings at Patterson, West Patterson, Towners, Lake Mahopac, East Branch of the Croton river, the Middle Branch of the Croton river, the West Branch of the Croton river and the Byram river in Westchester County are being instituted.

The proceedings covering the first section of the lands to be acquired by the Aqueduct Commissioners for the New Croton Dam or Cornell Dam Site have been closed, with the result that a saving of \$113,967.12 to the City was shown.

The amount claimed, and which there was sworn testimony to support, was \$171,245.35, while the amount awarded was \$55,573.23, or 32.4 per cent. of the amount claimed.

The difference between the amounts claimed and awarded in this case was caused largely by the rejection of claims of owners of sand. These owners urged that the sand contiguous to the Cornell Dam Site should be paid for by the City of New York at what it would be worth to the contractor; or, in other words, that the City of New York should pay the value of the sand, although that value was created by the necessities of the City.

At Reservoir "M," Purdy Station, where perhaps is the most valuable land ever acquired by the City for the purposes of a reservoir, the report on the first sixteen parcels shows the amount claimed and supported by sworn testimony to be \$365,050, and the amount of the award to be \$165,611.20, or a recovery of 45.3 per cent. of the amount claimed.

The difference between the amounts claimed and awarded may be partially accounted for by the fact that the claimants in this proceeding sought to recover an award which would represent their profits in the business conducted on the premises; or, in other words, that the City of New York should pay these owners a sum of money, the interest on which would equal their respective profits in this business.

This question, after a litigation of upwards of two years of constant contention, was decided in favor of the City.

The Lake Gilead Proceedings.

In the years 1869 and 1870, and for about twenty years subsequent to that period, the City of New York acquired by private purchase and by proceedings under the then existing statutes, various tracts of land covering probably 3,000 acres.

During the acquisition of the property and for some time subsequent to this period, it was a well known fact that the heirs of Mary M. Gouverneur and Mary Morris and others owned or claimed to own the undivided one-third of all mines and minerals beneath the surface of the ground in the whole of Putnam County, and at the same time claimed to own and were really vested with the title to the bed of numerous lakes and natural ponds in that county.

In 1890 an action of ejectment was commenced by these heirs against the City affecting only the bed of Lake Gilead.

After a consultation among the City authorities it was deemed advisable to institute a proceeding under chapter 445 of the Laws of 1877, having for its object the perfection and completion of the title of the City to all lands owned by it and acquired during this long term of years, thus avoiding what might properly be termed endless litigation.

In addition to claiming the mines and minerals and the land under water in the lakes, the claim was advanced and fortified by the testimony of various civil engineers that these claimants owned the waters which had been drawn from Lake Gilead for many years past. Evidence was offered of the value of the waters which had been drawn upon the basis of what other lakes and ponds had cost the City in times of emergency and drought before the present storage system was inaugurated and completed.

This proceeding was instituted in 1891 and completed in December, 1893, and may well be termed one of the most severe and important, if not the most important litigation relating to the water supply proceedings which had been conducted by the Law Department for a period of twenty-five years, affecting not only the lands described in the petition, but the title to all property now being acquired by the City, either under the Aqueduct Law or the Webster Water-shed Act.

This claim was sustained by the testimony of various prominent civil, mechanical and mining engineers, and prosecuted by numerous and competent counsel.

In opposition to this claim the City assumed the position—

1st. That the bed of Lake Gilead, being inaccessible and so situated as to be useless, had no market value.

2d. That the water used by the City in years past was the property of the City of New York as well as that of any other person; that no one could acquire title to the water as property, but that if the City in drawing water from the pond in question exceeded its legal right and damaged the riparian owner, it must, of course, compensate such owner for such damage, but to pay the heirs of Mary M. Gouverneur the \$90,000 claimed for the water in question could not be done for the reason that they did not own such water.

It was further claimed by the City, and the theory substantiated by the testimony of Professor Raymond, Mr. Birkenbine, President of the National Society of Mining Engineers, and various other experts, that the mines and minerals which might exist beneath the surface could not be deemed to have any market value until test pits had been excavated and dug and the quantity and quality of the ore demonstrated beyond doubt.

As to Lakes Mahopac and Kirk, where the City is now vested with the right to raise or lower the waters three or four feet, it was claimed by the City that whether the waters of the lakes were raised or lowered three or four feet, more or less, could have no effect upon the iron mines which had been worked five hundred and six hundred feet beneath the bed of the lake before the City acquired any title at all.

The report in this matter, covering the lakes above mentioned and recently filed in Putnam County Clerk's office, shows that the Commissioners awarded \$4,200 for the acquisition of the fee of the bed of Lake Gilead, covering 120 acres of land.

The amount claimed, as the evidence of the claimants in this proceeding showed, was \$104,000, the saving of about \$100,000 being caused by the Commissioners finding: first, that the mines and minerals alleged to exist beneath the surface had no market value although proven to exist by magnetic surveys; and further, that the claimants did not own the waters of Lake Gilead or of the other ponds in question.

It may be added that the number of parcels of land now in process of condemnation, for which maps have been filed, is over 500, and that in addition to the proceedings referred to above the office has charge of all tax questions relating to property of the City in the Counties of Westchester, Dutchess and Putnam.

The office examines the assessed values of all properties owned by the City so as to prevent excessive assessments for purposes of taxation.

In the cases of certain assessments during the past two or three years, the assessed valuation has been reduced over \$75,000.

The Office of the Attorney to the Department of Street Improvements of the Twenty-third and Twenty-fourth Wards.

By chapter 331 of the Laws of 1893 the Counsel to the Corporation was required to appoint an attorney to the Department of Street Improvements of the Twenty-third and Twenty-fourth Wards, whose duty should be to render such legal services, subject to the control of the Counsel to the Corporation, appertaining to the public business conducted by that department, as might be assigned to him by the Counsel to the Corporation, and to conduct various actions to recover penalties in those wards.

The attorney appointed under this authority has, during the eight months he has been in office, written opinions to the Commissioner of said Department in matters and controversies relating to thirty-one different contracts, involving in many cases the preparation of notices and various other documents. These legal documents prepared by him number seventy-four.

In suits by contractors against the City, arising out of work done in the Twenty-third and Twenty-fourth Wards, the Attorney was associated with the Counsel to the Corporation.

In fifty cases he examined and recommended for approval the printers' proofs of contracts for various improvements.

The foregoing, however, has reference only to official work of a general nature, and does not include the numerous instances of services rendered in the way of examinations, consultations, interviews and various matters that are too numerous to specify in detail, a record of which can be seen in the daily register kept in his office. Various other services were rendered of minor importance of which it was impracticable to keep any record.

In the daily workings of the Department, carrying on as it does contracts aggregating over \$2,000,000 a year, besides conducting the work of laying-out, monumenting and surveying an extensive territory and preparing final maps relating thereto, questions constantly present themselves which often have to be speedily determined, while some of the controversies which arise involve problems the solution of which requires considerable investigation.

The difficulty is further increased by the complicated condition of the statutes relating to these wards.

I desire again to express my cordial appreciation of the faithful services of the Department Staff, without whose intelligent assistance the results obtained would have been impossible.

Very respectfully,

WILLIAM H. CLARK,

Counsel to the Corporation.

REPORTS OF BUREAUS.

Bureau of Street Openings.

LAW DEPARTMENT,
BUREAU OF STREET OPENINGS, No. 2 TRYON ROW,
NEW YORK, December 30, 1893.

Hon. WILLIAM H. CLARK, Counsel to the Corporation:

SIR—I have the honor to submit herewith a complete report of all the street opening proceedings in the Bureau of Street Openings for the year ending December 31, 1893.

The general plan of this report does not differ essentially from that adopted by me in my previous annual reports, but in its execution the number of schedules has been reduced in order to simplify and condense the report and to avoid, as much as possible, a repetition of the proceedings under different heads.

The statistics of the work performed are embraced in three schedules, as follows:

SCHEDULE I.

This schedule, which embraces all the proceedings instituted during the year, is divided into two heads, "A" and "B."

"A" is a complete list of the proceedings begun during the year in which commissioners have been appointed, and shows the titles of the proceedings, names of the commissioners and the dates of their appointment.

"B" is a complete list of the proceedings instituted during the year in which commissioners have not been appointed, with a statement of the reasons for the non-appointment of commissioners.

SCHEDULE II.

Under this schedule, which is divided into four heads, "A," "B," "C" and "D," are discussed all the proceedings that were pending on January 1, 1893.

"A" is a complete list of the proceedings confirmed during the year, showing the length of the street or avenue opened, the amount of awards, total assessment, number of parcels assessed, number of city lots assessed and dates of confirmation.

"B" is a complete list of proceedings discontinued during the year, with the reasons for such discontinuance and the dates of the entries of orders of discontinuance.

"C" is a complete list of the proceedings in which abstracts of estimate and assessment have been filed during the year, but not confirmed, and shows the dates of the filing of the abstracts, the length of the street or avenue sought to be opened, the amount of awards, total assessment, number of parcels assessed and number of city lots assessed.

"D" is a complete list of the balance of the proceedings embraced in this schedule, and shows the progress made in each proceeding and its condition on December 31, 1893.

SCHEDULE III.

This schedule comprises the proceedings which were so far advanced on December 31, 1893, that they may be aptly described as proceedings in progress of completion.

These schedules are followed by a summary which shows a substantial increase in almost every particular in the work performed during the past year over that accomplished in previous years.

35 new streets, in as many separate proceedings, with a total length of 36,712.63 lineal feet, or a distance of over 7 miles, have been opened.

The aggregate of the awards confirmed in these proceedings amounts to \$545,673.48, and the assessments which were levied upon 6,419.63 city lots aggregate \$534,579.91.

In the proceedings in which abstracts of estimate and assessment have been completed, awards to the amount of \$2,803,608.02, and assessments aggregating \$2,677,395.15, and levied upon 20,239.64 city lots, have been estimated.

1,060 meetings of Commissioners of Estimate and Assessment have been held, 6,117 folios of testimony taken, 89 motions and 3 appeals argued and 213 proceedings considered during the year.

Credit should be given to all of the assistants in this Bureau for the efficient aid rendered by them in the accomplishment of the work performed.

Very respectfully,

JOHN P. DUNN, Assistant to the Counsel to the Corporation
in Charge of Bureau of Street Openings.

SCHEDULE I.

List of proceedings in which resolutions have been received since January 1, 1893, from the Board of Street Opening and Improvement requesting the commencement of legal proceedings, subdivided into two heads, A and B, the former embracing proceedings in which Commissioners have been appointed, and showing the title of the proceedings, names of the Commissioners and dates of appointment, and the latter embracing the proceedings in which Commissioners have not been appointed, and giving the reasons for the non-appointment of Commissioners.

Note as to Appeals.

East One Hundred and Sixty-seventh Street—

The report of the Commissioners was confirmed by an order of the Special Term on January 6, 1893. An appeal to the General Term from said order of confirmation was subsequently taken and argued at length before the February General Term, the counsel for appellants contending that the street was more than one mile in length, and that one-half of the cost and expense attending the opening should be borne by the City at large. On March 17, an opinion of the General Term was handed down sustaining the report of the Commissioners and overruling the objections of the appellants. 52 State Reporter, 32.

Beach Avenue—

Prior to the confirmation of the Commissioners' report of December 28, the appeal taken by the City to the General Term of the Supreme Court from the order of the Special Term, entered June 22, 1892, ordering that the report of the Commissioners be referred back for correction, and that the Commissioners award to the owners of Beach avenue the value of the property taken, was argued before the June General Term. The questions involved in this appeal were ones relating to constructive dedication to the public by certain conveyances and to the power of executors and trustees to dedicate to the public for street purposes any portion of the land devised. The General Term held that there was no dedication and the report appealed from as aforesaid was affirmed. 24 N. Y. Supp., 37; 70 Hun, 351.

Forest Avenue—

The report of the Commissioners based upon the decision of the General Term of the Supreme Court, made in this same matter (45 N. Y. State Rep., 828), was confirmed by the order of the Special Term entered February 13, 1893. An appeal to the General Term from said order of the Special Term confirming the Commissioners' report was thereafter taken and argued before the June General Term. The principal question raised on this appeal was one relating to the statutory powers of Commissioners appointed to open streets in the Annexed District. In December the General Term handed down a decision which, while it reversed the order confirming the Commissioners' report, sustained the construction of certain sections of the Consolidation Act contended for by counsel for the City on both the appeals in this matter. N. Y. Law Journal, December 21, 1893.

One Hundred and Seventy-third Street—

The appeals to the General Term from the order of the Special Term confirming the Commissioners' report, taken both by the City and property owners, will probably be withdrawn.

- Wadsworth Avenue, from One Hundred and Seventy-third Street to Eleventh Avenue—
Motion to appoint Commissioners of Estimate and Assessment made before Barrett, J., on April 12. Motion granted. Order entered October 7, appointing Isaac Fromme, J. Rhinelander Dillon and Samuel W. Milbank, Commissioners. Commissioners have qualified, organized and viewed the premises. The examination of the title to the various parcels of land required for the opening of the avenue has been completed. The notice to parties interested in the improvement to file proofs of their claims with the Commissioners, which is now being published, states that the Commissioners will meet on January 15, 1894, to hear said persons in relation thereto.
- Wicker Place, between Jansen Avenue and Kingsbridge Avenue—
Rule maps and technical descriptions received May 18 and sent to the attorney for the owners of the property to be taken, for the purpose of having a deed of cession to the City of the lands required for this improvement prepared, said property-owners having expressed a desire to make a deed of cession to the City.
- Willis Avenue, from Harlem River to East One Hundred and Forty-seventh Street—
The Commissioners have been unable to advance this matter, the proposed change in the grade of the avenue, which will materially affect their report, having not yet been settled.
- Woolf Place, from Jerome to Inwood Avenue—
Resolution authorizing the commencement of proceedings, received April 7, 1892, was rescinded by the Board of Street Opening and Improvement by a resolution adopted September 1, 1893.

Bureau of Attorney for Collection of Arrears of Personal Taxes.

OFFICE OF ATTORNEY FOR COLLECTION OF ARREARS OF PERSONAL TAXES,
NO. 53 CHAMBERS STREET,
NEW YORK, December 31, 1893.

Hon. WILLIAM H. CLARK, Counsel to the Corporation.

DEAR SIR—I beg leave to submit herewith a report in detail of the Bureau for the Collection of Arrears of Personal Taxes, for the year ending with this date.

The summary of that report shows the amount of money collected for taxes, interest and costs, interest on bank deposits, as follows, viz.:

Taxes and interest.....	\$72,447.39
Costs.....	2,026.34
Interest on Bank deposits.....	70.32
Total.....	\$74,544.05

At the close of the preceding year the number of delinquents against whom no proceeding had been commenced was 544, and to this is to be added 2,023 delinquents returned to me by the Receiver of Taxes during the present year; of the number returned in former reports as "not found" or otherwise undisposed of, and which during this present year have been either dismissed, paid, or claims therefor filed with executor, administrator, assignee or receiver, numbers 215, making an aggregate to be accounted for of 2,782.

The proceedings against delinquents above-mentioned have been disposed of as follows: 361 returned by Marshal and Messenger as not found; 605 returned by Messenger as not found; 203 bank stockholders not found; 59 delinquents died leaving no estate; 815 proceedings against delinquents dismissed for various reasons; 338 claims paid; 100 proceedings resulted in commitments; 21 suits or proceedings pending; 41 judgments entered; 22 actions commenced, but papers not yet served; 63 claims filed; 64 papers in the hands of Messengers for service.

The foregoing figures of cash receipts shows an excess over the previous year of \$4,326.64, and the cost of the City for collections made is less than eight and one-half per cent. I renew my acknowledgment of continued faithfulness and valuable assistance rendered by the Clerks of this Bureau.

Very respectfully, yours,

JOHN G. H. MEYERS.

BUREAU OF CORPORATION ATTORNEY,
No. 49 BEEKMAN STREET,
NEW YORK, December 30, 1893.

Hon. WILLIAM H. CLARK Counsel to the Corporation:

Number of complaints received from Police Department.....	2,833
Number of complaints upon which no action could be taken for want of jurisdiction for the reason that complaints are received at this office, giving no names of owners of property, complaints made where there are no penalties fixed by the ordinance and duplicate returns for the same offense. Complaints against railroad companies for failing to run night-cars on branch sections of their roads. The law on this subject having been settled by Court of Appeals, said Court held that there was no necessity running cars on branch-lines unless public necessity required it.....	8,153
Number of complaints upon which suit was brought.....	16,155
Number of complaints upon which no action was taken for the reason that complaints are filed at this office where the police officers have duplicated the same and which complaints include those already specified. Hon. WILLIAM H. CLARK, Counsel to the Corporation:

There are two estates now in the Bureau held subject to trusts contained in wills, which trusts are duly executed.

The accounts of proceedings of the Public Administrator have been judicially settled and allowed by the Surrogate on one hundred and eleven estates, and the estates distributed pursuant to the decree of the Surrogate.

Under the Laws of 1887, providing for the settlement of estate under \$250 without judicial decree, one hundred and sixteen estates have been closed during the year.

Seven hundred and eighty-six estates of little value were received from the Coroners' office, and from Commissioners of Charities and Correction, and paid directly into the City Treasury.

In no case were objections filed to the accounts above mentioned.

No references are now pending before referees relating to the question of kinship, though there has been several during the year.

Fifteen actions were commenced in Courts of record by and against the Public Administrator.

No proceeding is now pending to determine the validity of rejected claims.

In thirty cases citations were served on the Public Administrator to attend the probate of a last will and testament, and his appearance noted.

One thousand and twenty notices were served on hotels, boarding-house keepers, undertakers and others, pursuant to law.

All reports and returns to the Comptroller, Common Council, Board of Aldermen, and to the Supervisor of the City Record have been rendered.

The amount disbursed to creditors, next of kin and for expenses of administration, since letters were issued upon estates settled under decree of Court and upon estates closed pursuant to law was one hundred and ninety-seven thousand nine hundred and fifty-nine dollars and ninety-four cents.

Office of the Attorney to the Department of Street Improvements
of the Twenty-third and Twenty-fourth Wards.OFFICE OF THE ATTORNEY TO THE DEPARTMENT OF STREET IMPROVEMENTS
OF THE TWENTY-THIRD AND TWENTY-FOURTH WARDS,
NEW YORK, November 23, 1893.

Hon. WM. H. CLARK, Counsel to the Corporation:

SIR—In compliance with your request, through the communication of the Chief Clerk of your Department, that I furnish you with a report of the transactions of my office, I respectfully submit the annexed record of official work performed by me relating exclusively to the Department of Street Improvements. This record, however, is of a general nature and does not include the numerous details of services rendered in the way of oral advices, consultations, interviews, etc., a record of which may be seen in a daily register kept in my office. Besides this, various other services were rendered of minor importance of which it was impracticable to keep any record.

In the daily workings of the Department of Street Improvements, carrying on as it does a large number of contracts for public works aggregating in value over two millions of dollars, besides conducting the work of laying-out, monumenting and surveying an extensive territory and preparing final maps relating thereto, questions constantly present themselves which often have to be speedily determined, while some of the controversies which arise involve problems the solution of which requires considerable investigation. The difficulties of these investigations in several instances have been increased by the fact that since annexation in 1874, a large number of special laws have been enacted relating to the public affairs of the district, some of which are apparently irreconcilable, while others seem to be out of harmony with the statutes relating to the Departments of Public Works, Public Parks and Docks.

It has been my practice, however, as you are aware, whenever confronted with difficult questions, the determination of which involved important public interests, to submit my conclusions to you for your approval or modification in advance of transmitting them to the Commissioner of Street Improvements.

Many of the questions determined by me during the six months I have been in office, from their very nature, necessitated opinions in written form which set forth the grounds and theory upon which they were based. Besides this form of advice was generally requested by the Commissioner of Street Improvements as the safest course for him to follow.

Outside of this the system of advising in writing was desirable for the reason that these opinions may, to a certain extent, serve as a guide to me in kindred cases as they might arise in the future, and for the further reason that the precise advices given by me may be accessible to you should you deem it advisable at any time to examine into their nature or accuracy.

The legal documents prepared by me up to the present date number sixty-two, embracing written opinions, communications, etc., relating to the public business.

The general summary annexed hereto indicates the character of the questions determined and the business disposed of since I took office.

Respectfully,

MATTHEW P. BREEN, Attorney to the Department of Street
Improvements of the Twenty-third and Twenty-fourth Wards.REPORT OF THE ATTORNEY OF THE DEPARTMENT OF STREET IMPROVEMENTS
OF THE TWENTY-THIRD AND TWENTY-FOURTH WARDS.*
