**First**—The consent in writing of the owners of half in value of the property bounded on said streets and highways and bridges, to the construction and operation of said railway shall be obtained by the grantee, or in the event that such consent cannot be obtained, the grantee shall obtain the favorable determination, confirmed by the Court, of three Commissioners, appointed by the Appellate Division of the Supreme Court, in the manner provided by the Railroad Law, before said railway is built or operated.

**Second**—The said right, privilege and franchise to construct and operate said railway shall be held and enjoyed by said railway company, its lessee or successors, for the term of twenty-five years from the date when this ordinance is signed by the Mayor, with the privilege of renewal of said grant for a further period of twenty-five years upon a fair revaluation of said right, privilege and franchise, but such renewal shall not provide for any further renewal. Such revaluation shall be of the right, privilege and franchise to maintain and operate said railway by itself, and shall not include any valuation derived from the ownership, operation or control of any other railroad by the grantee, its successors or assigns. It shall be made in the following manner:

One disinterested freeholder or its successors in authority, one disinterested freeholder shall be chosen by the railway company; these two shall choose a third disinterested freeholder; and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the grant, and their report shall be filed with the Comptroller or his successor in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience, and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the railway company. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last five years of the original franchise.

**Third**—Upon the termination of the said franchise, right or privilege, whether original or renewal, if the Board of Estimate and Apportionment of The City of New York, or its successors in authority shall so desire, there shall be a fair valuation of the plant and property of the grantee necessary for traction purposes upon the said streets and highways and bridges, and of the land in private ownership upon which the said railway shall be operated or the easements of right-of-way or other necessary easements in such lands, as the case may be, including power-house, equipment, tracks and appurtenances, which plant and property shall be and become the property of the City of New York at the option of the said Board of Estimate and Apportionment, or its successors in authority, on the termination of this grant and the payment to the grantee of such valuation. The valuation shall be based upon a fair appraisal of the property, excluding any value derived from the franchise, and such value shall be determined by the Board of Estimate and Apportionment, or its successors in authority; provided that in the valuation of the land in private ownership, on which such railroad is constructed, or the easements affecting such land, as the case may be, their value shall not be fixed at an amount in excess of the original cost thereof, to the grantee of said franchise, its successors or assigns. A sworn statement of such cost executed by such grantee and verified by the affidavit of one of its officers, shall be filed with the Comptroller of the City of New York, before any act is done by the grantee or its successors or assigns in the construction or operation of the railway upon any route hereinbefore mentioned, which includes private property.

**Fourth**—The New York and Long Island Traction Company, its successors or assigns, shall pay for this franchise to The City of New York, the following sums of money: During the first term of five years an annual sum which shall be equal to three per cent. of its gross annual receipts derived from passenger and freight traffic, within the limits of The City of New York, if such percentage shall exceed the sum of \$1,000; during the remaining twenty years of the term, an annual sum which shall not be less than \$2,000, and which shall be equal to five per cent. of its gross annual receipts as above, if such percentage shall exceed the sum of \$2,000.

In computing the amount of the gross receipts derived from passenger traffic and above referred to, the routes hereinafter mentioned shall be considered, and the persons who are upon the cars of the company at any point upon such routes shall be deemed to have paid the fare provided to be paid by the ordinance granting the franchise aforesaid, whether they enter or leave the car upon such route or upon any other route upon which the grantee or its successors or assigns operates its cars.

Such sums shall be paid into the treasury of The City of New York on November 1, in each year; provided, however, that the first payment shall only be for that proportion of the above sums as the time from the signing of this ordinance by the Mayor to September 30 next preceding said date of payment, and the provisions of the Railroad Law as it existed at the time of the adoption of this ordinance relating to the manner of payments and statements of percentages of gross receipts of street railway companies shall, as to said railway, be strictly followed. The intention of this paragraph is to fix an annual charge to be paid by the grantee, its successors or assigns, to The City of New York for the rights and franchise hereby granted, and it shall not be construed as providing for the payment by the grantee, its successors or assigns, for said franchise, of a percentage of gross receipts within the meaning of any general or special statute.

**Fifth**—The said annual charge or payments shall continue throughout the whole term of the

franchise hereby granted, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other railway company providing for payments for street railway rights or franchises at a different rate, and no assignment, lease or sublease of the rights or franchises hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant, and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives, so far as this franchise is concerned, any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof, or otherwise, exemption from liability to perform each and all of the conditions of this grant.

**Sixth**—The rights and franchises granted hereby shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the New York and Long Island Traction Company, its successors or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof, in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

**Seventh**—The said railway may be operated by overhead electrical power, substantially similar to the system of overhead electrical traction now in use by the New York and North Shore Railway Company, or by the underground electric system now in use by the Interurban Electric Railway Company in the Borough of Manhattan, and by any other motive power, except locomotive steam power or horse power, which may be approved by the Board of Railroad Commissioners, and consented to by the owners of property, in accordance with the provisions of the Railroad Law.

Provided that the Board of Estimate and Apportionment, or its successors in authority, upon giving to the grantee, its successors or assigns, one year's notice, in writing, may require it or them to operate its railway upon the whole or upon any portion of its route by underground electrical power substantially according to the system now in use on the railways in the Borough of Manhattan above referred to, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets and highways and bridges of the City of New York.

**Eighth**—The said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York, who have jurisdiction in such matters under the Charter of the City.

**Ninth**—Said railway shall be constructed and operated in the latest improved manner of street railway construction and operation, and the railway and property of said company shall be maintained in good condition throughout the term of this grant.

**Tenth**—The rate of fare for any passenger upon said railway shall not exceed five cents within the limits of The City of New York; the said company shall not charge any passenger more than said sum for one continuous ride from any point on said railway, or a line or branch operated in connection therewith to any point thereof, or of any connecting line or branch thereof within the limits of The City of New York. The rates for the carrying of property upon the cars of the grantee shall in all cases be reasonable in amount, and shall be subject to the control of the Board of Estimate and Apportionment, or its successors in authority, and may be fixed by such Board after notice and hearing to the grantee, and when so fixed such rate shall be binding upon said grantee, its successors or assigns, and no greater sums shall be charged for such services than provided for by it.

**Eleventh**—The cars on the said lines as proposed shall run at intervals of not more than one hour, both day and night, and as much often as the reasonable convenience of the public may require or as may be directed by the city ordinances; provided, however, that said railway company during the first five years of this franchise shall not be required to operate its cars on any of its lines within The City of New York between the hours of twelve o'clock midnight and four o'clock a. m. each day, unless the Board of Estimate and Apportionment of said city shall determine after a hearing had thereon that public convenience requires the operation of its cars during said hours.

**Twelfth**—The said railway company shall apply to each car run over said railway a proper fender and wheelguard in conformity to such laws and ordinances as are now in force or may hereafter be enacted or adopted by the State or City authorities.

**Thirteenth**—All cars on said railway shall be heated through the cold weather in conformity to such laws and ordinances as are now in force, or may hereafter be enacted or adopted by the State or City authorities, and each car shall be well lighted either by the Pintsch gas system or by electricity, or by some system of lighting equally efficient.

**Fourteenth**—The said company shall at all times keep the street between its tracks, and for a distance of two feet beyond the rails upon either side of said streets, free and clear from ice and snow.

**Fifteenth**—The said railway company, as long as it shall continue to use any of the tracks upon said streets and highways and bridges, shall have and keep in permanent repair that portion of the surface of said streets and highways and bridges, between its tracks, the rails of its tracks and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. And The City of New York shall have the right to change the material or character of the pavement of any street and highway and bridge, and in that event the grantee, its successors or assigns, shall be bound to replace such pavement in the manner directed by the proper city officer at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

**Sixteenth**—The said railway company, its successors and assigns, so long as it shall continue to use any of the tracks upon the streets and highways and bridges hereby granted, shall cause the entire roadway of each of the same to be watered at least three times in every twenty-four hours when the thermometer is above 35 degrees Fahrenheit, except that when the width of any roadway between curb lines shall exceed 60 feet, then a roadway of but 60 feet shall be watered as above.

**Seventeenth**—In case of any violation or breach or failure to comply with any of the provisions herein contained this grant may be forfeited and

avoided by the City of New York, by a suit brought by the Corporation Counsel on notice of ten days to the said railway company.

Eighteenth—If any of the streets and highways and bridges above referred to, or described, shall not now be open or in use as public highways, no right or franchise therein shall vest in the grantee by virtue of this ordinance until after such streets and highways and bridges shall be legally opened as a public highway, and such right or franchise shall expire at the end of the term created by this ordinance as above set forth. Nothing in this ordinance contained shall be construed as an obligation on The City of New York in respect to the opening of such streets and highways and bridges, nor as in any manner granting property or rights of any kind in or upon its lands now owned or occupied by it under any title, except only the public streets and highways and bridges in the usual acceptance of such terms, which are specifically referred to above.

Section 3. This grant is also upon the further and express condition that the provisions of article 4 of the Railroad Law, as it existed at the time of the adoption of this ordinance applicable thereto, and all laws or ordinances now in force or which may be adopted hereafter affecting the surface railways operating in The City of New York shall be strictly complied with.

Section 4. This grant is also upon the further and express condition that at any time after five years from the commencement of the operation of any portion of the railway hereby granted, the Board of Estimate and Apportionment, or its successors in authority, if it deems it necessary in the public interest so to do, may require the grantee, its successors or assigns, in case the railway upon any portion of the routes above described shall consist of a single track, to construct and operate a second track upon any or all of the routes hereby granted, whether on streets, highways and bridges or upon any private property or right-of-way included in any of such routes so as to make a double-track railway.

Section 5. Said grantee shall commence construction within three months from the date when it has obtained complete legal authority to begin construction, including necessary permits from the city officials and departments and shall complete the construction of at least ten miles of single track railway on or before July 1, 1904, otherwise this grant shall be thereupon forthwith and immediately forfeited, without judicial or other proceedings. If upon any portion thereof, there shall not be constructed and in actual operation by July 1, 1905, a railway properly equipped and operated as provided by this ordinance, the said route or portion thereof shall be conclusively taken to have been abandoned by the company, and so much of the rights and franchises hereby granted as pertain to such routes, or parts of routes, not then constructed from and after July 1, 1905, shall be thereupon forthwith and immediately forfeited, without judicial or other proceedings. Provided that such time may be extended upon the same conditions as to forfeiture under and for causes specified in section 99 of the Railroad Law, as it now exists, and by a properly executed instrument in writing; and the Board of Estimate and Apportionment may similarly extend such time for a period or periods not exceeding one year, if, in their discretion, it seems best so to do, and that the city officials or departments who or which shall at the time of such construction have authority over the said streets and highways and bridges, may similarly extend, by properly executed instrument in writing, such time for a period or periods not exceeding one year further, if reasonable, in their judgment, by reason of requirements as to the manner of construction imposed by the city officials.

Section 6. If for any reason the right or franchise of the grantee in any of the streets, highways and bridges above described shall cease, or if for a period of six successive months the railway tracks upon any of such streets, highways and bridges shall not be operated as provided for in this ordinance, the Comptroller of The City of New York may require the grantee, its successors or assigns, to remove its tracks and other structures upon such streets, highways and bridges within thirty days after notice, and in default of their removal pursuant to such notice, the proper local authorities having jurisdiction may cause them to be removed and the City of New York may recover the cost and expenses of such removal, either by deducting them from the fund deposited as required in section 7 hereof, or by action; and the rights and franchises of the grantee, its successors or assigns, in such portions of the streets, highways and bridges, in case any such exist, shall forthwith and immediately cease upon the removal of such tracks, or structures and without judicial or other proceedings.

Section 7. This grant is upon the express condition that the New York and Long Island Traction Company, within thirty days after the said company has been duly authorized to operate its railway and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of three thousand dollars, either in money or in securities to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the franchise, the repairs of the street pavement and the removal of snow and ice, and the quality of construction of the railway and, in case of default in the performance by said company of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same with interest from such fund after ten days' notice in writing to the said company. Or in case of failure to keep the said terms and conditions of this grant relating to the headways of cars, fenders and wheel guards and the heating of the cars and the watering of the streets, the said company shall pay a penalty of \$50 a day for each day of violation, and the further sum of \$10 a day for each car which shall not properly be heated or supplied with fenders and wheel guards in case of the violation of the provisions relating to those matters. In case of any drafts so made upon this security fund, the said company shall, upon thirty days' notice, in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of three thousand dollars, and in default thereof the grant hereby made may be cancelled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said city. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Section 8. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York within ten days after the adoption of this ordinance.

Section 9. This ordinance shall take effect immediately.

The upset price of the parcels or premises exposed or offered for sale will be announced by the auctioneer at the time of sale as \$1,860 per annum.

The term for which leases are sold will commence at the date mentioned in the advertisement, and the rents accruing therefor will be payable from that date in each case.

The purchaser of a lease will be required, at the time of the sale, to pay, in addition to the auctioneer's fees (viz.: fifty dollars), to the Department of Docks and Ferries five per cent, (5%) of the amount of annual rent bid, as security for the execution of the lease, which five per cent, (5%) will be applied to the payment of the rent first accruing under the lease when executed, or will be forfeited to the Department if the purchaser neglects or refuses to execute the lease, with good and sufficient surety or sureties, to be approved by the Department, within ten days after being notified that the lease is prepared and ready for execution at the office of the Department of Docks and Ferries, Pier "A," North River, Battery place.

The Department expressly reserves the right to resell the lease or premises bid off, by those failing, refusing or neglecting to comply with these terms and conditions, the party so failing, refusing or neglecting to be liable to the Corporation of The City of New York for any deficiency resulting from or occasioned by such resale.

The Commissioner of Docks expressly reserves the right to reject any and all bids; should a bid, however, be accepted, the said Commissioner will prepare a form of lease. The said form of lease shall contain the usual terms, conditions and covenants at present embodied in leases of wharf property now used by this Department, and that the lessee shall covenant and agree that he will at all times do such dredging from time to time, during the term of said lease, as may be considered necessary or proper by the Commissioner of Docks, in the basins or slips or water adjacent to the said premises.

The lessee will be required under the lease to enter into a bond or obligation, jointly and severally, with a guarantee or surety company duly authorized by law to act as surety, said company to be approved by the Commissioner of Docks, in a sum of double the annual rental, for the faithful performance of all the covenants and conditions of the lease.

The purchaser will be required to agree that he will, upon ten days' notice so to do, execute a lease with sufficient surety as aforesaid, the printed form of which may be seen and examined upon application to the Secretary, at the office of the Department, Pier "A," Battery place.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

## NOTICE TO CONTRACTORS.

## GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below. No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 430 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City or New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
