## POLICE DEPARTMENT.

### ANNUAL REPORT FOR THE YEAR ENDING DECEMBER 31, 1906.

Police Department, City of New York,  
No. 300 Mulberry Street.  
New York City, January 3, 1907.

His Honor the Mayor, City Hall, New York:

Sir—I have the honor to hand you herewith annual report of the Police Department, City of New York, for the calendar year 1906.

The present administration assumed office on January 1, 1906.

On January 1, 1906, there were 2,207 Policemen on so-called "detail" duty. This means detailed away from regular police duty. Progressive steps were at once taken to reduce the number of men on "detail," and about 1,000 were returned to regular police duty from various "details" to courts, charitable institutions, charitable societies, etc., including 30 taken from Police Headquarters.

This reduction in the number of "details" included the abolition of a number of so-called "squad." It is held that these separate "squads" are wrong in principle, because the men are detailed to pay special attention to one particular point of police work and nothing else. In some cases the work of these "squads" was much easier than the regular police duty; hence the abolition of all "details," so far as possible, is to the benefit and discipline of the Force and the equalization of the work of all the men on the Force. The work previously so done should be done by the regular Police Force, and particularly by Patrolmen on their beats. If the Patrolman does his duty there will be very little need for "special squads."

The "details" above mentioned, away from regular police duty, have been a favorite device of politicians to reward their friends; consequently, if for no other reason, it is advisable that such "details" be abolished. In some cases, however, common sense dictated a continuance for the present of at least some of the "details." It is, however, astonishing to what a degree the Police Department is doing the work of other departments of the City government. This state of affairs is a cumulative condition, has been going on for many years, and is one of the most serious instances of the interminable meddling of politics in the discipline and work of the Police Department. When citizens see the large amount in the Budget for the Police Department, it is no wonder that they cannot understand why they do not receive better protection. One of the reasons is that several hundred men are not doing police work at all (see table below), and, although the Police Commissioner should have the full and entire use of those men, he is compelled, in the interests of common sense, to submit to having police money do the work of other departments of the City government. One of the most troublesome of these "details" is that of Policemen detailed for work at the various Police Magistrates' Courts, numbering about two hundred men.

\* Bellevue Hospital.

The Police Commissioner is perfectly justified in wishing to get the use of his men for the protection of the City, not only because he has the right to every man furnished him in the Budget for his own police work, but also because these court "details," as well as all the others, are fruitful sources of deterioration and damage to the discipline and efficiency of the force. This state of affairs could be remedied if all the other departments of the City government, which now use men paid for police work, should get their own appropriations and provide their own necessary assistants.

Every endeavor has been made to draw men away from unimportant work and place them where police work is most needed.

Patrolmen doing duty on private property, such as dock, steamship piers, etc., have been taken off this work and placed on duty at street crossings at the water front.

In the administration of the force, endeavor has been made, so far as the resources of the Department went, to afford better protection to the outlying districts by the use of bicycle and mounted men.

The Chief Inspector reports that during the year 1906 he received from the Police Commissioner and referred to the District Inspectors for action and report 11,095 communications.

#### Promotions and Reductions in Uniformed Force.

The following promotions in the uniformed force were made during 1906: Captain to Inspector, one; Roundsmen to Sergeants, five; Patrolmen to Roundsmen, twenty-one. The men who were promoted were taken from the top of the Civil Service list, except in two instances, and the Police Commissioner had good reason for making

the exception in these two cases. Many of those promoted had been passed over when previous promotions were made, but on their own applications were recertified by the present Commissioner, thereby getting back on the eligible list.

Two Inspectors were reduced to Captains by the return by the Courts of two men to whose places they had been promoted. One of the two Captains who had been reduced in grade was later promoted to be an Inspector.

As vacancies in the grade of Inspector began to occur, careful attention was paid to the qualities of eligible candidates. After careful consideration none of those on the eligible list was regarded as suitable for that high command. As the available eligible list had been in effect over a year, the Municipal Civil Service Commission was requested to hold a new examination. About the middle of December a mandamus was sought, ostensibly in the name of a taxpayer, to compel the Commissioner to fill the vacancies from the old eligible list. The Civil Service Commission was also served with two injunctions; one against the physical examination for a new list for candidates for Inspector, and the second against the mental examination. Both injunctions and the mandamus were denied.

#### Precincts Abolished.

It not being regarded as the correct principle of administration that the City should accept free quarters for its station houses, the Twenty-third Precinct in the Grand Central Station has been abolished, without detriment to the service. The men who composed that precinct have been distributed to the three adjoining precincts, their duties being confined to performing police work outside of the building line, leaving the railroad company to police its own property inside, which they are doing effectively.

The Forty-ninth Sub-Precinct (Traffic Squad), located in Borough Hall, Brooklyn, has also been abolished, the men who composed this precinct being directed from the precincts in which they do duty.

#### Precinct Established.

The former Seventy-seventh Sub-Precinct in Brooklyn was made the Eighty-fifth Precinct.

#### Inspection District Established.

The importance of the work of the Traffic Squad made it desirable to place an Inspector in charge. That "squad" and work constitute the Fourteenth Inspection District. A detailed report of the work of the Traffic Squad will be found in Appendix "A."

#### Positions Abolished.

The Auditor's office was abolished February 27, and the force constituting that office placed under the supervision and direction of the Bookkeeper, which materially improves that work.

In the budget for this year no provision has been made for the salary of Assistant Superintendent of Telegraph, there being no present necessity for filling this position, which was made vacant by the retirement of the former incumbent in the last quarter of 1906.

#### Reinstatements by the Courts.

During the year there have been placed back upon the Force by the courts:

Inspectors .....	2
Captains .....	10
Sergeants .....	38
Detective Sergeants .....	4

#### Discipline.

All old charges against members of the Force left over from past administrations, some dating back eight or ten years, were cleared up. In many of these cases the evidence had been held up for reasons unknown and final decisions had never been given. In this connection the Department has adopted the policy of not permitting itself to be made a debt-collecting agency. The following record shows the number of old complaints this administration disposed of:

#### Police Parade of 1906.

During the months of April and May the drilling of as many members of the Force as could be spared was kept up in preparation for the annual parade, which took place on June 2, and was reviewed by his Honor the Mayor at the Worth Monument, Twenty-fifth street and Fifth avenue. In an official letter to this Department, his Honor expressed himself as highly pleased with the showing of the men, and I may add that, after nearly 30 years of experience as a regular soldier, I never saw a finer looking body of men, nor a more creditable showing, considering the disadvantages under which the Police Department labors for that kind of work.

#### School of Instruction.

This school is designed to prepare for the duties of patrolmen the men who are from time to time employed on probation. The period of probation is thirty days. The School of Instruction is at present conducted in the Sixty-ninth Regiment armory, Twenty-fifth street and Lexington avenue, and is in charge, under direction of the Inspector of Fourteenth District, of Sergeant Jacob Brown, of Third Precinct, who is an ex-sergeant of the United States Army. The school convenes every day, except Sundays and holidays, from 9 a. m. to 11.30 a. m. The probationary patrolmen are instructed in such laws of the State of New York, and such ordinances of The City of New York and of the Health Department, as pertain to the duties and the work of policemen, as well as in the Rules and Regulations of the Police Department, and the orders that are from time to time promulgated by the Police Commissioner, or under his direction. Recess is had from 11.30 a. m. to 12.30 p. m. when the members are instructed until 2 p. m. in the school of the soldier, baton exercises and the use and proper manner of keeping clean and in good condition the pistol, and are also drilled by the sergeant in charge.

To each class of probation patrolmen there are given five lectures on First Aid to the Injured by physicians of the Society for First Aid to the Injured. The probationary patrolmen are examined as to their knowledge of such aid, and, if found proficient, each receives a certificate to that effect from the Society. They are particularly instructed as to their duties upon discovery of fires or of serious accidents by which lives are endangered, and have brought to their notice implements ordinarily used by criminals, such, for instance, as burglars' jimmies, skeleton keys, pick locks, brass knuckles, dirks, slung shots, stilettos, etc. They are also instructed in the manner of making reports of accidents, fire, casualties and other occurrences that may come to their notice or require their action.

The probationary patrolmen receive practical instruction in their duties, by doing daily, from 6 p. m. to midnight, a tour of patrol duty in the company of an experienced patrolman.

During the year 1906, 518 probationary patrolmen attended the School of Instruction; of this number 458 were appointed patrolmen, 4 were dismissed, 3 resigned, and 53 are now on probation.

#### Harbor Squad.

The steamer "Patrol" has patrolled all the waters adjacent to the Greater City, attending and assisting at all fires on the water front and on the islands within the waters of Greater New York, and rendering assistance to vessels in distress.

The launches have constantly patrolled the waters surrounding the City, with the result that stealing from vessels and the robbing of coal tows in the Kill von Kull has been reduced to the minimum.

Arrests have been made of deserters from the United States Navy by boarding incoming vessels, the deserters being delivered to the Commander of the Brooklyn Navy Yard. Many persons have been rescued from drowning and a number of bodies recovered.

The members of this command have performed special duty on shore in various parts of Greater New York during the year.

The launches and rowboats were also used in dragging the rivers at various points for the recovery of drowned bodies, and to complete the evidence of homicide in the case of a murdered man supposed to have been thrown into the river at foot of West Thirty-first street.

#### Mutual Transfers.

A great many mutual transfers of Patrolmen, Roundsmen and Sergeants, have been made at their own request. Naturally a Policeman wants to work as near his home as possible. At the same time when a man becomes a member of the force he must understand that the Greater City is large in area and that he is liable for duty in any part of it. With such a large body of men it is impossible to place them all near their homes. Where there are two men who are doing duty in different parts of the City, each far from his home, it has been deemed wise to allow these men to arrange a mutual transfer if their general reputation on the Force along with such record as the Department has been keeping of its members, is good.

#### Naturalization.

During the past few months the United States authorities in this City have been investigating the naturalization papers of foreign born members of the Force. This investigation has been confined thus far to the First, Second and Third Inspection Districts; but it is intended to have all naturalization papers compared with the Custom House and Court records. This step was taken because of information which came to me from the representative of the Department of Justice in this City that there were members of the Force who had been appointed upon fraudulent naturalization papers. As a result of this investigation four Patrolmen have been indicted by the United States Grand Jury, and convicted of obtaining citizenship papers illegally. These men all resigned before the Department was notified by the United States Attorney that their papers were fraudulent, but the facts of the trial and conviction have been recorded in the official records of the Department.

#### Police Records.

The personal records of the members of the Police Force kept heretofore have been almost worthless. These records have contained only a man's personal history in the Police trial room; that is, the trials and fines registered against him in his Police career. A man might be a scoundrel and have a perfectly clean record. The men who have brought most discredit on the Police Force have for the most part been men with excellent records as far as the records show. A smart plain clothes man always has a good record.

A Patrolman holding a detail seldom gets a complaint. That is one reason many Policemen spend considerable time in trying to obtain a detail. The plain clothes man escapes complaints, also, to a large extent. It is the man on the street, as a rule, whose "record" looks blackest sometimes. This "record" doesn't show the good things he has done, unless he has been commended or honorably mentioned in orders. A man's record ought to be what its name implies. If a Patrolman does a good piece of work his record ought to show it, even if that work was not of sufficient importance to have him commended in orders.

The work of transferring the personal history and records of members of the Force, previously kept in separate bureaus, to cards, is under way and will be completed shortly. This will enable one to see at a glance the whole record of a man's appointment, promotion, personal history, assignments, details, etc. A copy of this record will follow each man from station to station in the Department, and will bring his commanding officer into closer touch with him.

#### Police Work in Plain Clothes.

Detective work, of course, has to be done in plain clothes. In addition to the detective work of the regular Detective Bureau, it has been found necessary in the past, as at present, to permit a certain number of men, under the command of the Captains and Inspectors, to be assigned to duty in plain clothes.

The temptations of a Policeman are very great, and are greatly increased when he is in plain clothes, because then he is less liable to detection. This matter of Policemen doing duty in plain clothes is and has been for years a serious problem to solve, because it is impossible to do Police work without such a device. Many abuses have grown up in the past years, and it is one of the favorite devices of the politicians to have their friends on the Force assigned to plain clothes duty.

One important change has been made during the year. Formerly it was customary for plain clothes men in a precinct to be assigned to duty under the orders of the Captain. This has now been changed and instead of the men being put in plain clothes by precincts, the Inspector only has charge of all the plain clothes men in his district, and assigns them to the necessary precinct work. This is in strict accordance with the well-established rule of the Department that Inspectors are held responsible for the condition of their districts, the Captains and other subordinates being responsible to them.

#### Detective Bureau.

The detective branch of police work has been given considerable attention and thought. Its working under the present law and regulations has been carefully observed and found to be seriously defective. This vital branch of police work can never be done as it should be under the present laws, and a radical reorganization at the earliest possible moment is one of the crying needs of this great City. A special communication on the subject will be made to your Honor at an early date. In this con-

nection, it is proper to state that under the rules of the Police Department it was found that there were no commendations for good work in the Detective Bureau, such as exist in the uniformed force. This has been corrected.

A Deputy Police Commissioner visited London and Paris during the month of July, and returned with valuable reports, one of the results of which was the adoption of the finger-print system for the identification of criminals.

A card system of individual reports of work direct to the Police Commissioner has been adopted.

A detailed report of the work done by this Bureau will be found in Appendices C and D.

#### Systems of Patrol.

The so-called "Three-platoon System" was in effect January 1, 1906.

The advance of the summer season, with the consequent opening of many resorts in all parts of the city, increased the strain on the Department to furnish sufficient patrols, so that it became necessary to put into effect what is known as the "Two-platoon System" for patrol work. This placed more men on patrol at night and increased the reserves and was done June 21.

A very considerable amount of time and thought has been given, with a view to obtaining, if possible, a better arrangement of patrol work, which shall be better in all ways for the men and at the same time furnish the City with efficient results.

#### The Need of More Policemen.

As the time approached for making the annual estimates for the work of the Police Department, it was beyond argument that more men must be had if the work was to be properly done. Careful and voluminous statistics were compiled and forwarded to the Board of Aldermen, which placed the least number to be regarded as sufficient at an increase of 2,000 Patrolmen. I am quite aware of the great expenses of a city of this size. At the same time, there is this police work to be done, and it is not only my professional opinion, but, I believe, the conviction of the majority of the citizens, that the Police Force should be at once increased by 2,000 men.

As the Budget for 1907 now stands, it will be possible for the Police Force to be increased by about 607 Patrolmen, with the necessary Roundsmen and Sergeants. This, of course, will be a great help, but at the same time 1,400 more Patrolmen are still needed.

In this connection it is reported that financial provision has been made for the addition of 25 Cleaners to the department. These men are to keep the station houses where they are assigned clean, and this additional help has long been needed, because the Doormen are properly so occupied in the care of the cells and other more important work that it has been found impossible for them to keep the station houses clean.

#### Police Surgeons.

The former Chief Surgeon resigned May 21, after having served seventeen years in that position, with a long record of good service in the Police Department. Many changes have been made in the organization and methods of work of this branch of the department.

It is now possible to find out immediately the full medical history of a member of the Force.

In this connection the following is reported: New Patrolmen are appointed on the Force from a list furnished by the Municipal Civil Service Commission. The Commission has one Surgeon only to examine thousands of applicants. It was customary in the past, and is still the rule of the Police Department, that all candidates shall be carefully examined by three Police Surgeons before being sworn in. As a result many candidates certified by the Civil Service Commission have been found unsuitable.

The decision of three Police Surgeons in regard to the physical condition of any applicant for Patrolman should be made final by law. The taxpayers have a more serious interest in this than might appear at first sight. The pension rules are generous, but they are intended only for the use of men who have rendered long and useful service to the City, and it is absolutely essential for good government that no man should be made a member of the Force who is liable in a short while to be on the pension list. Report of Surgeons' work in Appendix "E."

#### Police Chaplains.

Four Chaplains have been appointed in the Police Department, who are serving without salary, although a request for a moderate amount was made in the Budget for this year. The influence of Chaplains can be of invaluable aid, not only to the Commissioner, but to the men. They are able to give a strong moral support to many men who would be good Policemen except for a natural moral weakness.

#### Special Patrolmen.

On December 31, 1906, there were 1,335 in the Department. This matter of Special Patrolmen has received careful consideration. The authority given under the Charter and the laws has been generously used and many abuses have arisen. The powers and importance of a Special Patrolman have not been considered with sufficient seriousness, and it will be necessary in the future for the entire list to be closely scrutinized and very greatly reduced, the greatest care being taken that the privilege of a Special Patrolman is given only to reliable persons who really have a well defined need for such services; but the use of the City's badge as a means of livelihood was never intended by the law-making power, and has been carried to such an extent that it must be rigidly curtailed.

New shields have been adopted for these men and the old ones called in. New regulations have also been the subject of careful study and have finally been adopted. It has been found desirable, in order to improve this branch of the service, that all Special Patrolmen, with few exceptions, should be compelled to wear one and the same uniform, different from that of the regular uniformed force.

#### Clerical Work.

The clerical force of the Department is too small to handle the routine work. These employees have been found to be competent. Shortly after assuming the duties of this office, and after careful investigation, it was found that the majority of the Deputy Clerks were underpaid and after a promotion examination had been held by the Civil Service Commission, such money in excess of the actual amount necessary to pay Clerks and employees during the fiscal year was used in promoting these men. The salaries paid to these men are considered only fair remuneration for the work performed, and not above what they could readily obtain were they engaged in commercial pursuits. Owing to the fact that the Department is short of men in the precincts, it was recommended in the estimates of the Department for 1907 that the Department be granted more Clerks, Stenographers and Typewriter Copyists to take the place of members of the Force now detailed at Headquarters for clerical duty, the number of whom has already been greatly reduced.

During the year the paper work of the Department has been systematized, duplicate clerical work done away with, useless blanks abolished, and those retained, revised so as to give the required information in a concise manner. Whereas formerly it was the custom to report arrests, accidents, etc., by the desk Sergeant writing the same on the back of the precinct morning returns, this information is now sent to Headquarters on individual cards and filed alphabetically. This index can be instantly referred to in answering inquiries as to arrests, persons aided, lost children, foundlings, etc. The cards are made up in the station house during the day and the labor is divided equally among the desk Sergeants, instead of all being done, as heretofore, by the desk Sergeant on the last tour of duty. This change, in the keeping of our records, has sent back to patrol duty eight men, who formerly kept the alphabetical books into which this information was copied daily. The work is now looked after by the regular clerical force at Headquarters and is at the service of the public night and day. Other changes have been made in the way of simplifying the paper work at Headquarters, and the records are now in such shape that information on any subject can be obtained immediately.

The Boiler Inspection Bureau books are being transferred to cards and in a short time the records of this office will compare favorably with similar records now kept by large corporations.

As the compilation of statistics is not proper police work, it was doubtful as to how much of this work should be continued. But the use of a mechanical device for compilation, similar to that in use by the Statistical Bureau of the Health Depart-

ment and the Census Bureau of the Federal Government, has enabled the Department to give the maximum of statistics with the minimum of labor.

#### Orders to the Force.

During the year 104 general, 306 special and 71 circular orders, all printed, were issued to the Force. The General Order contains everything appertaining to the entire Force; the Special Order is made up of retirements, transfers, assignments, etc.; the Circular Order contains resolutions of the Board of Aldermen in relation to streets, the United States Army and Navy desertions, and things of that character.

In addition, 356 telephone orders were sent out. A telephone order is an emergency order and generally affects a part only of the Force.

A copy of every printed order is placed on file in every police station and an additional copy is placed on the bulletin board in each station house so that every member of the Force may read the various orders issued.

#### Record and Filing Bureau.

After assuming the duties of this office it was found necessary to inaugurate a Central Bureau to receive, record, distribute and have custody of departmental documents.

Formerly correspondence and official reports were received in the various Bureaus to which addressed, and no uniform method of recording their receipt and disposition was in use. On the contrary, the records of the Department were retained in various offices in the building, each keeping a record thereof in its own individual way, and without any special regard for the preservation and safety thereof. As a result of this state of affairs, considerable difficulty and delay was experienced in securing data relative to Department matters, often necessitating a search of the records of nearly every office in the building.

After thorough and painstaking investigation of the entire subject, a system was inaugurated similar to that in use at the War Department, Washington, which is regarded as the modern system best adapted to the requirements of this Department, and which is most readily adjustable to our work. Correspondence and reports are now sent, on receipt, direct to the Record and Filing Bureau, where a permanent record is made of the document and its disposition. This permanent record never leaves the Bureau, thus safeguarding and making always available a complete record of each matter, independent of the document itself, for use after the latter has left the Bureau for official purposes, or in case of the possible loss or destruction of the same. On account of the thoroughness of the indexing and filing features of this system, complete data relative to any subject, or any specific communication can be supplied with the utmost facility.

A special feature of this system is the fact that by means of the accurate and comprehensive record of all complaints and precinct reports relative to violations of law, it is now possible to secure at a glance information whether there have been any complaints or reports of gambling, prostitution, excise or other violations of law at any specific place in any part of the Greater City, and a ready reference to the documents relative thereto.

Since the inauguration of this Bureau (March 21, 1906), 17,450 communications have been entered and action taken thereon.

#### House of Detention and Boiler Inspection Bureau.

The House of Detention, instead of being a separate command, has been consolidated with the Eleventh Precinct, the station house of which it adjoins. In this connection I earnestly call your attention to the fact that the Police Department has two incumbrances which do not in common sense belong to it, namely, this House of Detention and the Boiler Inspection Bureau. The House of Detention holds witnesses for the District Attorney, and what should a good Policeman know about the inspection of boilers? It would be greatly to the efficiency and benefit of the Police Department if these two Bureaus could be unloaded upon some other department of the government to which they more properly belong. See Appendix "F" for detailed report of the House of Detention, and Appendix "G" for report of the Boiler Inspection Bureau.

#### Telegraph Bureau.

The work of this important bureau is well told in the report of the Superintendent herewith as Appendix "H."

#### Caps.

On November 15 the old time police helmet was superseded by the cap now worn. The men look natter wearing a cap and it is a great deal more comfortable than a helmet for winter wear. It sits closer on the head and has attachments for cold and rainy weather that add to the comfort of the men. That was the main object in making the change. The change of headgear was suggested by the Police Commissioner, but whether the change was worth while was left entirely to a committee made up of inspectors and they voted for the cap in place of the helmet. The only good reason for retaining the helmet was that it could be seen in a crowd. As these helmets were made of paper-felt they were no protection to the wearer against a brickbat. If it is deemed advisable the white helmet can be restored for summer wear.

#### Financial Department.

The greatest care has been exercised in all expenditures during the year, the object being not so much to reduce the necessarily large expenditures, so long as effective work is obtained, as to get value received for every cent expended. It has been found possible to make considerable savings in bills for veterinary service, horse-shoeing, stabling, stationery, etc.

Detailed statements of expenditures will be found herewith as Appendix "I."

#### The Police Payrolls.

The Police payrolls are made up from the 20th of each month, and as a rule the Force is paid on the 1st of each month, or a day or two thereafter. This is true except as to the last month of the year, when the payrolls are closed on the last day of the year. This results in the payment of salaries due for December on or about January 12 of the new year. It is a hardship for Policemen to have to wait so long for their money, especially during the holidays, when it is needed so much. The matter was brought to the attention of the Police Commissioner, and the Hon. Herman A. Metz, Comptroller, agreed to pay the members of the Force up to the 15th of December. This necessitated extra work on the Comptroller's office force.

#### Bureau of Repairs and Supplies.

A new system of accountability for property has been studied out and adopted; also a new system of accountability for horseshoeing and veterinary services.

The bureau has been divided into three divisions, as follows:

The Division of Supplies, having charge of all supplies; also charge of department storehouse and stationery department.

The Division of Repairs, having charge of all repairs, alterations, etc., and the inspection of all work, whether performed under contract or otherwise.

The Division of Horses and Equipments, having charge of horses, wagons and equipments; also accountability of forage, horseshoeing and veterinary service.

For further details see Appendices "J," "K," "L."

The Inspector in charge of this Bureau has made certain recommendations which are made part of this report as Appendix "M."

#### New Station Houses and Repairs to Old Ones.

Three new station houses were completed and opened during the year, one in The Bronx and two in Brooklyn. Eighty-four police stations were repaired during the year at a cost of \$112,005.42. Of the necessity for those repairs the Board of Health took cognizance during the year by serving notice on the head of the Police Department of violations in 34 police stations in the Greater City.

Many of the present station houses are even now unfit to house large bodies of men. These houses are in need of constant repair. In 1906 \$2,000,000 in Corporate Stock was issued for the purchase of new sites and the building of new police stations. Arrangements are now being made for the purchase of sites and the preparation of plans for these station houses.

Negotiations are in progress for a new police headquarters building for the Borough of Brooklyn and for a new site and station house to replace one of the station

houses in lower Manhattan. The need of a new station house in Queens County, combined with the need of some sort of a farm where green horses can be broken to police work and where foot-sore horses can be pastured, led to a combination of these two needs of the Department in the purchase of a tract of about twenty acres in Flushing, adjoining the new Kissena Park.

Prices have been found so excessive, however, in attempting to acquire sites that it will be necessary to restrict the number of new station houses in order to obtain those most needed out of the funds at present available.

#### Horses.

The Department owns 604 horses. Fifty-one horses were condemned during the year and sold at public auction. The amount realized from these horse sales was \$3,977.50. Over half of the Department horses are used by mounted policemen, the remainder for patrol wagons and buggies. Seventy-five horses were purchased during the year by contract. On December 12, 1906, a contract was awarded for the purchase of 60 additional horses for the purpose of increasing the Mounted Squad.

Every effort has been made to get good horses for the Department use. The Department is much indebted to Col. Howze, Commandant of Cadets at West Point, and to Major C. A. Benton, U. S. A., retired, for their aid in helping to select proper animals.

#### The Need of Veterinary Surgeons.

The Police Department ought to have its own veterinary surgeons, that is, as many surgeons as are necessary to look after the Department horses. At present veterinary surgeons are paid \$2 a visit in the daytime, and \$3 a night visit, when a horse needs a veterinary's attention. If the Department had its own veterinarians more attention could be paid to the horses.

#### Violation of the Motor Vehicle Laws.

It has been found necessary to keep a systematic check upon arrests made for automobile speeding so as to be able to follow up the persistent violators of the Motor Vehicle Law. All arrests made under this law and the corporation and park ordinances governing automobiles are reported daily to the office of the Police Commissioner and the names and numbers of owner, chauffeur and party arrested are shown. Should it so happen, as it frequently does, that the machine is operated under a fictitious number an additional complaint is made against the offender. At the time of an arrest the Desk Sergeant in the precinct to which the prisoner is taken is compelled to communicate with Police Headquarters and find out if the number and name given correspond with the list on file at the Central Office. By reason of this procedure the tendency to give a false name as owner has been materially lessened. These reports are filed away and are very beneficial to the police in cases against persistent offenders. The District Attorneys of the various counties have given the Department their hearty co-operation in enforcing this law.

Since October 1, when these reports began to reach headquarters, and December 31, 646 arrests have been made; 474 of which were held for trial in the Court of Special Sessions, 79 discharged and 13 fined. The fines imposed by Magistrates were under the park ordinance. Of those held for Special Sessions, 243 were found guilty, and the aggregate amount of fines was \$2,930. Five of the prisoners held for Special Sessions were discharged and 306 cases are now pending.

#### Co-operation With the Superintendent of Elections.

It is by law the duty of the Police Commissioner to aid in every way in his power the Superintendent of Elections in the performance of his duty. The Police serve most of the warrants obtained by the Superintendent of Elections and his Deputies, and this has become a mighty task in itself. In addition to this the Police must verify the registration lists, which takes Policemen away from their regular duty.

The Police Department ought to be divorced from this kind of work. The more the members of the uniformed Force have to do with elections, the more the men will mix politics with their work. The sole province of the Police at election time should be only to preserve order and the public peace.

#### A Quiet Election.

The election of 1906 was the quietest in the history of the department. There was no trouble in the Greater City that day or night. The Police Commissioner and his Deputies were on duty all day and most of the night, and not a single complaint was made at the Central Office while the polling places were open.

The absence of trouble was due to the good work of the uniformed Force.

Shortly before election day every Captain in Greater New York was transferred. This was done mainly to insure an orderly election. The wholesale transfers may not have tended, to any extent, to an orderly election, but the result shows that the transfers did not do any harm.

In consideration of the great amount of extra work the Police were called upon to perform on election day and immediately preceding it, every member of the Force was given an extra twenty-four hours off. This extra day off met with the hearty approval of his Honor the Mayor.

The Board of Elections adopted the following resolution on the good work of the Police and forwarded it to the Police Commissioner, to be transmitted to the Force:

Resolved, That the Board of Elections of The City of New York takes great pleasure in expressing its high appreciation of the efficient co-operation and valuable aid so promptly rendered by the Commissioner of Police and the Police Department of this City (in its several grades and branches of service) in the recent official Primary and General Elections and the registration of electors in this City, and hereby directs that a record thereof be made in the minutes of the proceedings of this Board, and a copy transmitted to the Commissioner of Police, with the request that the same may be, if deemed proper, communicated to the Police Force of this City.

#### The Proper Use of Signal Boxes.

The practice of permitting Patrolmen to report their presence on posts from patrol boxes had become very much abused. This method of reporting has been abolished, except for cases in which a Patrolman is compelled to leave his post for a short time, and then he is required to obtain permission from the station house. Only emergency calls are now sent from the police boxes.

#### Miscellaneous.

Police passes, so-called, have been greatly reduced in number, and applications therefor are rigidly scrutinized before they are issued.

During August occurred the riots in connection with the Brooklyn Rapid Transit Company, arising over the question of a second fare. I am pleased to state that the officers and men of the Force did their duty well, and the situation was tactfully and successfully handled by the present First Deputy Police Commissioner.

#### Appendices.

Report of the Property Clerk's office, Appendix "N."

Report of the Bureau of Information, Manhattan, The Bronx and Richmond boroughs, Appendix "O."

Report of the Bureau of Information, Brooklyn and Queens boroughs, Appendix "P."

Report of sick and insane prisoners sent to Prison Ward, Bellevue Hospital, for detention during 1906, Appendix "Q."

Attached to the Traffic Squad there are seven mounted Roundsmen and sixty-nine mounted Patrolmen, who perform traffic duty at the following named locations, viz.:

South street, from Fulton to Montgomery street.  
West street, from Battery place to Christopher street.  
Lafayette street, from Broome to Ninth street.  
In the Wall street district.  
In the vicinity of Brooklyn Bridge.  
On West Broadway, from Park place to Canal street.  
On Grand street, from Bowery to Pitt street.  
On Cortlandt street, from Broadway to West street.  
On Greenwich and Washington streets, from Battery place to Canal street.  
On Fifth avenue, from Fourth to Fifty-ninth street.  
At the Plaza, Fifth avenue and Fifty-ninth street.  
At Columbus Circle, Eighth avenue and Fifty-ninth street.  
In vicinity of Grand Central depot.  
At ferries, foot of West Twenty-third street.  
At ferry, foot of East Thirty-fourth street.  
On Seventh avenue and Broadway, from Forty-first to Forty-seventh street.

The foot men attached to the Traffic Squad perform duty on the crossings of the principal streets and avenues of the Borough of Manhattan, south of Fifty-ninth street, principally on Broadway, Fourth, Fifth, Sixth and Seventh avenues, on West Twenty-third, Thirty-fourth and Forty-second streets, at Brooklyn Bridge, also at the theatres, and the Metropolitan and the Manhattan Opera Houses.

During the past year changes were made in the traffic regulation at certain points, decreasing the amount of deflection of traffic and opening to vehicular traffic parts of streets that were closed, principally at the Plaza, Columbus Circle, Herald square, Thirty-fourth street and Broadway, Forty-second street and Broadway.

Mounted posts were established on South street, from Fulton to Montgomery street, and the mounted posts on West street were increased from three to eight.

The amount of vehicular traffic in the streets of the lower west side of the Borough of Manhattan, and also in the business districts, from Fourteenth to Forty-second street, was so great that it was found necessary to assign mounted patrolmen to the work of regulating traffic in these locations. Their work there has been very effective, and has resulted in compelling, on the part of drivers of all kinds of vehicles, a very general observance of the ordinances relating to "The Rules of the Road."

There are attached to the Traffic Squad two bicycle Roundsmen and nine bicycle Patrolmen, who patrol Broadway, Fifth, Sixth, Seventh and Eighth avenues, from Fourteenth to Fifty-ninth street. In that territory there are located a great many automobile salesrooms and garages, and considerable speeding of automobiles has ensued there. The bicycle force has performed very good work, having, during the past year, made 450 arrests. The conditions as to automobile speeding is such that, in my opinion, it would add much to the enforcement of the ordinances and the safety of pedestrians to have the number of bicycle Patrolmen increased during the coming year, and I so recommend.

The records of the Third Precinct show that during the year 1906 there were one Roundsmen and 28 Patrolmen injured while engaged in the performance of police duty; that three members received "honorable mention;" that eleven were placed on record as entitled to "commendation," and thirteen were placed on record as having performed "excellent police duty." There are six cases which have been investigated by the District Inspector, in which recommendations have been made for one "honorable mention," four "commendations" and one "excellent police duty."

The following table shows arrests, and dispositions of same, made by members of the force of the Third Precinct, including Traffic Squad, for the year ending midnight, December 31, 1906, viz.:

The members of the Force of the Fourth Precinct Police, the Brooklyn Bridge proper and the Manhattan and Brooklyn approaches to the same respectively.

Every day except Sundays and holidays, approximately 450,000 persons pass to and fro on the Brooklyn Bridge, in the trolley cars and the Bridge cars respectively, and during the rush hours, morning and night, the crush on the bridge is great, and, for the safe handling of the crowds, requires the services of experienced and careful officers. In addition to this, about 5,000 vehicles, not including trolley cars, pass to and fro over the bridge daily except Sundays and holidays. The danger is very frequently increased during the year by unforeseen delays, caused usually by accidents to machinery, and other kinds, for which the police service is in no way responsible, but which tax the efficiency of such service to a marked degree.

During the "rush hours," so-called, the police service is increased, but the members of the police force who supply such increase are used, after the "rush hours," for other police service, principally in the regulation of traffic at the principal theatres in the Borough of Manhattan, south of Forty-second street.

There are certain platforms in course of preparation which, when completed, will make more easy the handling of the crowds, and when these platforms are put into use there will be more police needed to take proper police care of the conditions that will then exist.

The following table shows arrests, and dispositions of same, made by members of the Fourth Precinct for the year ending midnight December 31, 1906, viz.:

## Tours of Duty of Telegraph Force.

Day tour, 8 a. m. to 6 p. m.  
Evening tour, 6 p. m. to 12 midnight.  
Late tour, 12 midnight to 8 a. m.  
The officers alternate tours, working an average of seven and one-half hours daily.

On July 18, 1906, the Assistant Superintendent of Telegraph, Borough of Brooklyn, was retired on a pension on Surgeons' certificate. The Police Commissioner abolished the position and consolidated the duties of the office with those of the Superintendent of Telegraph.

## Police Department Lines.

The Police Department has in operation 2,439 miles of wire, as follows:

Manhattan and The Bronx (Police lines; underground cables).....	630
Manhattan and The Bronx (leased lines; patrol service).....	875
Brooklyn (Police lines; underground cables).....	551
Brooklyn (Police lines, aerial signal service).....	200
Queens (Police lines, aerial).....	123
Richmond (Police lines, aerial).....	60
Total.....	2,439

In the Borough of Manhattan 32,825 feet of cable, containing from 2 to 32 conductors, were installed, to take the place of worn-out and defective cables. In some cases the cables were damaged owing to the large amount of underground construction during the past year. The cables have been damaged in many cases beyond repair. The renewing of these cables will be completed in Manhattan during the coming year, and provision is also being made to carry all the Police lines to new Police Headquarters.

The establishment of a telephone bureau in The Bronx (September 17, 1905) has given great satisfaction. It has enabled us to give the precincts direct line service and relieve the Manhattan bureau of a large amount of business, as all local messages are sent direct. We thereby have been able to secure two lines for trunk service between Manhattan and The Bronx.

In the Borough of Brooklyn the work of placing the Police lines underground was continued during the year. Fourteen and two-thirds miles of cables, containing from 2 to 14 conductors, were installed, making a total of 36 miles of cables, 2 to 60 conductors, and containing 551 miles. This completes the work of placing the Police wires underground in this borough, for which there is subway accommodation, with the exception of the Police signal lines, to which reference is made later.

In the Borough of Queens the Police lines are all overhead. Provision has been made for placing the lines in this borough underground where there are subways. The work will begin soon and we expect to finish it during the year.

In Richmond the Police lines are all overhead and are in good condition. The matter of placing them underground will be attended to as soon as the work in progress in the other boroughs is completed.

## Equipment.

There are 1,598 sets of telephones connected on Police lines in the five boroughs, located at the several borough headquarters, Police Stations, Police Courts, hospitals, public offices and societies and Police signal and telephone stations.

The headquarters in the several boroughs are connected with the public telephone exchanges, as follows:

Manhattan, exchange lines.....	15
The Bronx, exchange lines.....	2
Brooklyn, exchange lines.....	7
Queens, exchange lines.....	2
Richmond, exchange lines.....	1

Owing to the great increase of business in the Borough of Brooklyn there have been added two exchange lines, making a total of seven.

I desire to call attention to a matter that seems to be greatly misunderstood. We receive numerous complaints from the public because of their inability to obtain telephone connection with the precinct stations. This is a violation of the rules of the Department, except in cases of emergency. It should be hardly necessary to state that if the public were permitted to have direct telephone connection with police stations, to talk on various matters with members of the force, it would interfere with discipline and congest the lines.

In order that there may be a clear understanding of the matter and the public and members of the Department may know what are the duties of the officers attached to the Telegraph Bureau, I deem it proper that the rules governing this branch of the service be stated in this report.

## "To the Members of the Telegraph Force:

"First—All telephone connections between the public telephone and police telephone lines must be noted in the office blotter, stating the time, telephone number and precinct connected. This does not apply to officials, officers and bureaus at these Headquarters.

"Second—Should you receive a request for an outside wire from a police station, insist on obtaining telephone number before making the connection.

"Third—When lost property is reported by telephone, an entry must be made in the blotter of the name and telephone number of the person reporting such loss; also the nature of the loss and briefly your action in the matter. If the circumstances of the case require that a personal report be made at the precinct station house, notify the person calling to that effect.

"Fourth—The rules of the Department prohibit direct connection between the public and police stations, except in cases of emergency, and the officer on duty at the switchboard is necessarily the judge of what is important, and he should therefore exercise his best judgment to see that the public interests are conserved without interfering with the work of the Department.

"Fifth—We cannot allow the public to have unrestricted connections with police stations, as it would result in tying up the lines with unimportant messages and interfere with discipline at the station houses.

"Sixth—The police wires are primarily for transacting police business. However, it is well to bear in mind that they are the property of the public, and that we should endeavor to assist them in securing prompt public service.

"Seventh—Any responsible person can have direct telephone connection with a police station in case of emergency. The essential features of the case to be considered are, first, the business must be important; second, an entry must be made in the blotter of the circumstances of the connection, or of a refusal to establish a connection.

"Eighth—In making telephone connections and in the performance of your other duties generally, you are hereby directed to comply with the provisions of Rule No. 10, of Rules and Regulations, except as herein stated.

"By order of the Police Commissioner."

## Police Patrol Signal and Telephone System.

The police patrol telephone system in the Borough of Manhattan has worked satisfactorily during the year. One additional station was installed on the Night and Day Bank Building, corner of Forty-fourth street and Fifth avenue, and three at Metropolitan Museum of Art.

This system was extended during the year to the Borough of The Bronx. Two hundred and one stations were installed as follows:

Thirty-fourth Precinct.....	17
Thirty-fifth Precinct.....	29
Thirty-sixth Precinct.....	51
Thirty-seventh Precinct.....	23
Thirty-eighth Precinct.....	19
Thirty-ninth Precinct.....	23
Fortieth Precinct.....	23
Forty-first Precinct.....	16

These stations were put in operation in the above precincts September 27, 1906, and the same rules promulgated for their operation as in the Borough of Manhattan.

The service rendered by this system in Manhattan and The Bronx fully justifies its extension to the Borough of Brooklyn. In this Borough at present seventeen of the thirty-two patrol precincts have a signal system, with 334 street boxes and 200 miles of overhead lines. The apparatus is old and the lines are almost useless, requiring constant repair to keep them in operation. The Department of Water Supply, Gas and Electricity is constantly requesting us to make provision for placing them underground. In this connection I beg to state that it would be more advantageous to adopt the Manhattan-Bronx system by leasing lines. By this means the enormous cost of installing and maintaining underground wires and the renewal of costly station house equipment would be obviated, and a uniformity of signal service established in the Department, which is essential. I therefore strongly urge the adoption and extension of the Manhattan-Bronx system to the Borough of Brooklyn, and to the boroughs of Queens and Richmond when circumstances will permit.

## Banks, Exchanges, etc.

The lines connecting banks, exchanges, etc., with the police stations are in good condition. These lines are connected by permission of the Police Commissioner without expense to the City. The privilege is granted only to institutions of a semi-public character, such as above stated.

## Number of Recorded Messages Transmitted.

The following is a summary of the work of the Telegraph Bureau, showing the number of messages recorded in the Telegraph Bureau blotters. About one-quarter of the messages transmitted over the police lines are included in these figures. It should be borne in mind that the police telephone system is somewhat similar to that of a public telephone exchange, connections are established at the central offices, between the various stations, and conversations relating to the business of the Department carried on, and messages transmitted directly from one station to another, a record of which is kept at the transmitting and receiving stations:

Total number of recorded messages .....	526,967	
Total number of general alarm messages .....	548,246	
Grand total .....	1,075,213	

Early in the year the Police Commissioner discovered that a great number of useless general alarms were transmitted over the Police lines, taking up the time and attention of the members of the Force, to the detriment of important messages. In some cases it was found that the property reported was of so little value and the description of persons and property so meagre as to make it impossible for the officers to obtain any results. By order of the Police Commissioner all general alarm messages were carefully selected and only those of importance sent out. This action resulted in reducing the number of general alarms to about one-half and the Policemen going out on post can remember what is read to them and they realize now that a general alarm is a matter of importance.

I beg to state that this Bureau performs a vast amount of work for the newspapers and for the public in connection with the elections. During the days of registration absentees are reported through this Bureau and at the close of registry each day the figures of registration are furnished to the newspapers.

The election returns are received at this Bureau and the detail work connected with this service is enormous. The returns are unofficial and are obtained for the purpose of furnishing the public with a quick announcement of the result of the elections. The accuracy of the Police returns has never been questioned and it is obvious that great care must be taken in this work, as the returns are transmitted by telephone from all points in the five boroughs of the City.

Total amount expended for cloth, buttons, caps, etc., \$126,192.06.

From statistics furnished by the Bureau of Clothing and Equipment, it is shown that from the period from 1893 to 1902, the average cost per man for cloth was \$10.35 per year. It is ascertained from the same source that for the past four years the average cost per man for cloth was \$8.85 per year, showing a decrease of \$1.50 per man for cloth during said period.

The cost of 30-ounce Metropolitan overcoat cloth is \$3.75 per yard, and a Policeman's overcoat (including cloth and making) costs on an average of \$25 per coat, while the cloth for motorman's overcoat costs \$1.75 per yard, and the coat (including cloth and making) costs on an average of \$14 per coat.

A motorman's coat lasts but one year, while a Policeman's overcoat has an average life of five years.

Four double patrol wagons in Manhattan and one double patrol wagon, and four single patrol wagons in Brooklyn have no regular assignment—and are being used as emergency wagons, or as substitutes for wagons undergoing repairs.

During the year one new double patrol wagon was built and assigned to the Seventieth Precinct.

Seven new double patrol wagons have been contracted for and will be delivered about January 15, 1907; and will be assigned to the Ninth, Twelfth, Fourteenth, Fifteenth, Nineteenth, Twentieth and Twenty-fourth Precincts.

There is no patrol wagon service in the First, Seventh, Tenth, Eleventh and Thirteenth Precincts; the work being performed by adjoining Precincts.

Two Police Ambulances purchased in the year 1904 have been remodeled and assigned to the Eightieth and Eighty-first Precincts for patrol wagon service.

During the year a contract was awarded for the purchase of seventy-five horses, and they have been delivered. Seventy-one have been trained, and assigned to Precincts where needed, four are now in the Training Stable and will have served their thirty days probation on January 10.

Contract was awarded the Fiss-Doerr-Carroll Horse Company, December 12, 1906, for the purchase of sixty (60) additional horses for the purpose of increasing the mounted squads in the different boroughs.

During the year, fifty-one condemned horses were sold at public auction. Total amount realized at the several sales was \$3,579, or an average of \$70 per horse.

There are at the present time fifty-four hostlers in the Department, and they are paid at the rate of \$900 per annum.

#### APPENDIX "M."

Recommendations for Station Houses and Repairs by Inspector George F. Titus and Approved by Police Commissioner.

The following schedule shows the number of mechanics of various trades now employed by this Department as against conditions existing January 1, 1902, in which year a considerable reduction was made in force which, with subsequent losses from various causes, has rendered the mechanical force entirely too small to cope with the increasing demand of the service:

	January 1, 1902.	December 31, 1906.

Plumbers .....	6	3
Painters .....	2	1

Roofers .....	4	3
Locksmith .....	..	..
Mason .....	..	..
	24	15

The Police Department owns or occupies approximately ninety-five (95) stations and other buildings, more than 75 per cent. of which have been erected for upward of 15 years and many of them for more than 40 years and owing to the utterly inadequate appropriations of past years together with shortage of mechanical force the buildings in general were in poor repair, and it is no exaggeration to say that this additional mechanical force will be able to save the City the salaries paid to them by prompt attention to the necessary and emergency repairs to these various buildings which through necessary neglect go from bad to worse.

A locksmith would be a very desirable addition to the mechanical force, for the purpose of repairing and maintaining in a state of repair the many prison and other locks in this Department, which are now a considerable source of expense and require constant attention.

A mason (and plasterer) would be a very desirable addition to the force, for repairing plaster and mason work, of which there is always great need.

A steamfitter would also be a very useful addition to the mechanical force for the purpose of inspecting work and making emergency repairs to steam plants.

It is recommended that this Department acquire the necessary sites and erect new buildings for station house purposes where such accommodations are now leased, for the reason that leased buildings (never intended for police purposes) are not suitable and for the further reason that property may never be acquired to better advantage, particularly in the suburban districts.

New stations should be erected in the following precincts, in order herein mentioned, for the reasons stated:

#### Thirteenth Precinct.

This building is old, unsanitary and badly adapted for police purposes, having been built in 1803, and for some time used as a volunteer fire station. The prison is located in basement. The lot, 25 by 100, is City property and is fairly well located, but not large enough for the erection of a modern police station.

#### Seventh Precinct.

This building was erected in 1863, is in poor condition, the prison is dark, unsanitary and the walls cracked and bulged. The station is badly arranged and poorly adapted for station house purposes. The lot, 50 by 100, is City property and well located, but a larger plot should be procured for the erection of a modern station. This station is now being thoroughly renovated, and while its sanitary condition will be improved to a great extent, a new station will eventually be needed in its stead.

#### Seventeenth Precinct.

This building is old, crowded and unfit for station house purposes. The prison is located in basement and is badly ventilated and has been condemned for years. The building was erected in 1845. The plot, 25 by 90, is City property, but is not centrally located. A new site should be secured in the vicinity of Twentieth, Twenty-first and Twenty-second streets, between Eighth and Tenth avenues. This building is now being thoroughly renovated, and while its condition will be greatly improved, a new station will eventually be needed in its stead.

#### Fiftieth Precinct.

This building is located at No. 49 Fulton street, Brooklyn, was formerly used as a bank, is crowded and unsanitary and poorly adapted for station house purposes. The plot, 26 by 75, is City property, but badly located between two lines of elevated railroad, and the dirt and noise render the location very undesirable. The prison is dark and unsanitary and located in the basement. This station is now being thoroughly renovated, and while its sanitary condition will be greatly improved, a new station is badly needed. A new site should be obtained in the vicinity of Prospect and Adams streets.

#### Sixty-third Precinct.

This station house was erected about 1860 for a court house, is not centrally located and badly adapted for station house purposes. The plot, 50 by 100, is City property, but a new site should be obtained in the vicinity of Humboldt and Boerum streets, Brooklyn.

#### Sixty-sixth Precinct.

This station is of frame construction, too small and not suited for police purposes. It was originally constructed for a town hall for the town of Flatlands. The plot, 75 by 100, is City property and is a suitable site for a new station.

#### Sixty-seventh Precinct.

This station was erected in 1875 as a town hall for the town of Flatbush. Plot, 100 by 225, is City property and well located for a new station. The building is not suitable for police purposes.

#### Seventy-sixth Precinct.

This station is a leasehold, erected about 1850 as a dwelling. Rental, \$1,200 per annum. The present plot or a plot at north side of Amity street, Flushing, would make a suitable location for a new station.

#### Seventy-sixth First Sub-Precinct (College Point).

This station is a leasehold, the lease of which expires May 1, 1910. The station is remotely located and is not well adapted for station house purposes. A new site should be obtained in the vicinity of Eleventh and Fifteenth streets, between First and Fourth avenues.

#### Seventy-seventh Precinct.

This building and ground are City property; the building is jointly occupied by this department and the Second District Municipal Court. The building is not well adapted for a police station. In considering the erection of a new station, attention should be given to the possible division of the extensive territory.

#### Seventy-eighth Precinct.

This building was erected in 1870 as a town hall for Jamaica; is jointly occupied by Municipal Court and other City departments or bureaus. The police quarters are scattered throughout the building and conditions are very bad in every respect. Prison is very poor, having no plumbing connections. Building stands in one corner of plot 142 by 142, and covers 80 by 87 feet, all being City property. A suitable station house could be erected on the vacant space, but a better plot could be obtained elsewhere on Flushing avenue.

#### Seventy-ninth Precinct.

This property is a leasehold. The building is not well adapted for station house purposes; prisons are located in basement, are poorly ventilated and without proper toilet accommodations.

#### Seventy-ninth Precinct Sub-Station.

This building (formerly a school house) is located on a plot 100 by 150, which is City property. The building is low, crowded and poorly adapted for station house purposes. The prison is small and poorly equipped. A new station could be erected on this plot at the mere cost of the building and could be made the main station of this precinct, which is very important in the summer season.

#### Eightieth Precinct.

This precinct comprises one main and two sub-stations, located at Stapleton, Totenville and New Dorp, Borough of Richmond, respectively, all of which are leaseholds; are not in good condition and not adapted for use as police stations.

The prisons are poor and unsanitary, new stations should be erected on city plots for this precinct, taking into consideration the possible division of this extensive precinct. The stations are located in small towns surrounded by extensive rural districts.

#### Eighty-first Precinct.

This building and plot are a leasehold, formerly occupied as a Y. M. C. A. club house. It is well located but poorly adapted for police purposes. Several sites well located are available.

#### Eighty-third Precinct.

This station was erected in 1894 as a town hall and theatre for the town of Richmond Hill. The building is partially occupied by this Department, is badly adapted for station house purposes and is in poor condition. Present location would make a desirable site for a new station.

#### Headquarters, Brooklyn.

This building is located at No. 269 State street, Brooklyn, being a leasehold, and was formerly used as a show department for a gas fixture manufacturing concern. The building is under five years' lease, which terminates May 1, 1909.

Extensive alterations and repairs have cost approximately \$3,500. The annual rental is \$5,200 per annum. Building is not well located or adapted for its present use and a new site should be procured and a proper building erected as a headquarters for this borough before the lease expires. A good site may be obtained in the vicinity of Flatbush avenue and Fulton street, at which point business, theatres, etc., are centering.

#### Thirty-fifth Precinct.

This station is leased at \$4,000 per annum and has no prison accommodations, has been recently renovated and placed in good condition. The site is good.

## Thirty-eighth Precinct.

This station is situated on Main street, Westchester, and is occupied under a lease (\$2,900) which expires January 1, 1907. Premises are about to be released at an annual rental of \$3,500, which is an increase of \$600 per annum. There is no prison attached to this building, prisoners being taken to the Fordham station for detention. It is recommended that a new site be procured and a station house, prison and stable erected thereon.

## Forty-second Precinct Sub Station.

Leased at \$600 per annum and is not well adapted for a station house. Recent repairs improved the conditions of these stations somewhat, but the large expense necessary to place same in first class condition would not be justified.

Hon. GEORGE B. McCLELLAN, Chairman, Board of Estimate and Apportionment, City Hall, New York City:

DEAR SIR—The engineering, legal and other details relating to the probable utilization of the work already done by the New York, Westchester and Boston Railway Company in The Bronx, are now under consideration. As the conclusions may involve changes in the route of the New York and Port Chester Railroad, it is requested that the hearing on our grades, set down by your Board for Friday, the 14th inst., be adjourned for four weeks, when we hope to be able to appear before you with a final and definite plan.

Very truly yours,

W. C. GOTSHALL, Chief Engineer.

The Comptroller moved that the hearing be adjourned to January 11, which motion was agreed to by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

#### STREET SYSTEM IN "SUNNYSIDE YARDS," QUEENS.

In the matter of the proposed laying out of a street system in and about the "Sunnyside Yards," in the Borough of Queens, affidavit of publication was presented showing that the matter had been duly advertised.

After hearing Mr. William P. Fisher, Mr. Frederick W. Yates, Mr. John Manley and others in opposition to the proposed lay out, and Mr. Ray and Mr. Peters, representing the Pennsylvania and the Long Island Railroad Companies, and Mr. Fitch, of Flushing, in favor of the proposition, the hearing was closed.

The President of the Board of Aldermen moved that the matter be referred to the Committee having under consideration the application of the New York Connecting Railroad Company, the committee consisting of the President of the Board of Aldermen, the President of the Borough of Brooklyn, the President of the Borough of The Bronx and the President of the Borough of Queens.

The President of the Borough of Queens moved that the President of the Borough of Manhattan be added to the committee, which amendment was agreed to.

The motion as amended was then agreed to.

#### LAYING OUT RICHMOND TERRACE, RICHMOND.

In the matter of the proposed laying out and fixing grades for Richmond terrace, between Van Pelt and Holland avenues, and fixing grades of intersecting streets, in the Borough of Richmond, affidavit of publication was presented, showing that the matter had been duly advertised.

Nobody appearing in favor of, or in opposition to the proposed changes, the hearing was closed.

The following was then adopted:

Whereas, At a meeting of this Board, held on the 2d day of November, 1906, resolutions were adopted proposing to change the map or plan of The City of New York, so as to lay out and fix grades for Richmond terrace between Van Pelt and Holland avenues, and grades and changes of grades where necessary in public streets connecting with said Richmond terrace, Third Ward, in the Borough of Richmond, City of New York, and appointing a hearing at a meeting of this Board to be held on the 14th day of December, 1906, at 10.30 o'clock a. m., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby, of the aforesaid time and place at which such proposed action would be considered, to be published in the CITY RECORD for ten days prior to the 14th day of December, 1906; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that the aforesaid resolutions and notice have been published in the CITY RECORD for ten days prior to the 14th day of December, 1906; and

Whereas, At the aforesaid time and place, a public hearing was given to all persons interested in such proposed change who have appeared, and such proposed change was duly considered by this Board; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest to change the map or plan of The City

of New York by laying out and fixing grades for Richmond terrace, between Van Pelt and Holland avenues, and grades and changes of grades where necessary in public streets connecting with said Richmond terrace, Third Ward, in the Borough of Richmond, City of New York, does hereby favor the same, so as to lay out, fix and change grades in the aforesaid streets in accordance with map or plan submitted by the President of the Borough of Richmond, dated September 7, 1906.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen, and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

#### OPENING THAYER AND ARDEN AVENUES, MANHATTAN.

In the matter of fixing an area of assessment for the opening of Thayer avenue, between Broadway and Nagle avenue, and Arden avenue, between the same limits, Borough of Manhattan, affidavit of publication was presented showing that the matter had been duly advertised.

Nobody appearing in favor of, or in opposition to the proposed area of assessment, the hearing was closed.

The following resolutions were then adopted:

Resolved, by the Board of Estimate and Apportionment, That the resolutions adopted by the Board on April 6, 1906, authorizing the acquisition of the lands and premises required for the opening of Thayer avenue, from Broadway to Nagle avenue, and of Arden avenue, from Broadway to Nagle avenue, Borough of Manhattan, be and the same are hereby rescinded.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the lands and premises required for the opening and extending of Thayer avenue, from Broadway to Nagle avenue, and Arden avenue, from Broadway to Nagle avenue, in the Borough of Manhattan, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court, for the appointment of Commissioners of Estimate and of one Commissioner of Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Thayer avenue, from Broadway to Nagle avenue, and Arden avenue, from Broadway to Nagle avenue, in the Borough of Manhattan, City of New York.

Resolved, That no portion of the cost and expense of said proceedings, incurred by reason of the provisions of title 4, chapter 17, of the Greater New York Charter, as amended, shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the expense of the Bureau of Street Openings and of the awards, if any, for damages caused by intended regulation and all other expenses and disbursements authorized by section 997 of said title, as amended, shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that due notice was given therein that at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the lands required for this improvement that the Board of Estimate and Apportionment would consider a proposed area of assessment as therein described and would give a public hearing thereon upon the 14th day of December, 1906; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board.

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as follows:

On the east by a line midway between the easterly side of Thayer avenue and the westerly side of Dyckman street, and the same extended northwardly and southwardly; on the west by a line midway between the westerly side of Arden avenue and the easterly side of Sickles street, and the same extended northwardly and southwardly; on the north by a line 100 feet north of the northerly side of Broadway and parallel therewith between the extensions of the easterly and westerly boundaries above described, and on the south by a line 100 feet south of the southerly side of Nagle avenue and parallel therewith between the extension of the easterly and westerly boundaries above described.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

#### OPENING WEST ONE HUNDRED AND FIFTIETH STREET, MANHATTAN.

In the matter of fixing an area of assessment for the opening of West One Hundred and Fiftieth street, from Broadway to Riverside drive, in the Borough of Manhattan, affidavit of publication was presented showing that the matter had been duly advertised.

Nobody appearing in favor of, or in opposition to the proposed area of assessment, the hearing was closed.

The following resolutions were then adopted:

Resolved, by the Board of Estimate and Apportionment, That the resolution adopted by the Board on May 18, 1906, authorizing the acquisition of the lands and premises required for the opening of West One Hundred and Fiftieth street, from Broadway to Riverside drive, Borough of Manhattan, be and the same is hereby rescinded.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter, as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the lands and premises required for the opening and extending of West One Hundred and Fiftieth street, from Broadway to Riverside drive, in the borough of Manhattan, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court, for the appointment of Commissioners of Estimate and of one Commissioner of Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending West One Hundred and Fiftieth street, from Broadway to Riverside drive, in the Borough of Manhattan, City of New York.

Resolved, That no portion of the cost and expense of said proceedings, incurred by reason of the provisions of title 4, chapter 17, of the Greater New York Charter, as amended, shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the expense of the Bureau of Street Openings and of the awards, if any, for damages caused by intended regulation and all other expenses and disbursements authorized by section 997 of said title, as amended, shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that due notice was given therein that at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the lands required for this improvement that the Board of Estimate and Apportionment would consider a proposed area of assessment as therein described and would give a public hearing thereon upon the 14th day of December, 1906; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board.

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as follows:

One-half the block on each side of the street to be opened between easterly side of Riverside drive and St. Nicholas avenue.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

#### OPENING "NEW" AVENUE, MANHATTAN.

In the matter of fixing an area of assessment for opening the new avenue located between Fort Washington and Haven avenues, and extending from West One Hundred and Seventy-seventh street to its northerly terminal, distant about 434 feet north of West One Hundred and Eighty-first street, Borough of Manhattan, affidavit of publication was presented showing that the matter had been duly advertised.

Nobody appearing in favor of or in opposition to the proposed area of assessment, the hearing was closed.

The following resolutions were then adopted:

Resolved, by the Board of Estimate and Apportionment, That the resolution adopted by the Board on April 20, 1906, authorizing the acquisition of the lands and premises required for the opening of a new avenue located between Fort Washington avenue and Haven avenue, and extending from West One Hundred and Seventy-seventh street to its northerly terminal, distant about 434 feet north of West One Hundred and Eighty-first street, Borough of Manhattan, be and the same is hereby rescinded.

Nobody appearing in favor of or in opposition to the proposed area of assessment, the hearing was closed.

The following resolutions were then adopted:

Resolved, by the Board of Estimate and Apportionment, That the resolution adopted by the Board on December 18, 1905, authorizing the acquisition of the lands and premises required for the opening of Stockholm street, between the borough line and Woodward avenue, Borough of Queens, be and the same is hereby rescinded.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens, and Richmond—16.

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 970 of the Greater New York Charter,

as amended, deems it for the public interest that the title, for the uses and to the extent thereof as herein mentioned, to the lands and premises required for the opening and extending of Stockholm street, between the borough line and Woodward avenue, in the Borough of Queens, City of New York, should be acquired by The City of New York.

Resolved, That the title to be so acquired is hereby determined to be a title in fee in such premises.

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and of one Commissioner of Assessment, and to take the necessary proceedings, in the name of The City of New York, to acquire title as herein determined, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending Stockholm street, between the borough line and Woodward avenue, in the Borough of Queens, City of New York.

Resolved, That no portion of the cost and expense of said proceedings incurred by reason of the provisions of title 4, chapter 17, of the Greater New York Charter, as amended, shall be borne and paid by The City of New York, but that the whole of such cost and expense, including the expense of the Bureau of Street Openings, and of the awards, if any, for damages caused by intended regulation and all other expenses and disbursements authorized by section 997 of said title, as amended, shall be assessed upon the property deemed to be benefited thereby; and

Whereas, It appears from the affidavit of the Supervisor of the City Record that due notice was given therein that at the time of the adoption of the resolution directing the institution of proceedings herein to acquire title to the lands required for this improvement that the Board of Estimate and Apportionment would consider a proposed area of assessment as therein described and would give a public hearing thereon upon the 14th day of December, 1906; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed area of assessment who appeared, and such proposed area of assessment was duly considered by this Board.

Resolved, That the area of assessment for benefit in these proceedings be and is hereby fixed and determined to be as follows:

Bounded on the southwest by the borough line; on the northwest by a line through the middle of the block between Stockholm street and DeKalb avenue, extended to a point distant 100 feet northeasterly from the northeasterly line of Woodward avenue, measured on a line at right angles thereto; on the northeast by a line 100 feet northeasterly from and parallel with the northeasterly side of Woodward avenue; and on the southeast by a line through the middle of the block between Stockholm street and Stanhope street, the same being extended to meet the line last described.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens, and Richmond—16.

#### LAYING OUT CANARSIE LANE, BROOKLYN.

The following communication from the Corporation Counsel was presented:

LAW DEPARTMENT, November 15, 1906.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment:

SIR—I am in receipt of your letter of September 25, 1906, addressed to my predecessor, the Hon. John J. Delany, Corporation Counsel, in which it is stated that a resolution has been submitted to the Board of Estimate and Apportionment, recommending a change of the City map by laying out Canarsie lane, between Flatbush and Schenectady avenues, Borough of Brooklyn, and that the plan proposed shows that the street will include a small strip of land owned by Holy Cross Cemetery.

It is stated in your letter that as there is some question about the power of the City to acquire lands owned by this cemetery for street purposes, the matter was referred to the Corporation Counsel for advice.

There is no general law which prohibits the laying out of streets and highways through cemeteries, and where the cemetery is not a public one and is not governed and maintained under an act of the Legislature which prohibits the laying out of streets across its lands, such cemetery lands may be acquired under general laws authorizing the acquisition of lands for public streets. (Matter of Board of Street Opening, 133 N. Y., 329.)

There is a case in this Department where the Court has refused application for the condemnation of lands for a street through a cemetery, but that was because the act of the Legislature under which such cemetery was incorporated prohibited, without the consent of the cemetery authorities, the laying out of streets through its lands. (Matter of Mt. Vernon Avenue, 23 App. Div., 518.)

The Holy Cross Cemetery is not maintained under any act of the Legislature which contains a prohibition against the laying out of streets through its lands.

I am, therefore, of the opinion that the City, if it so desires, may change the City map by laying out Canarsie lane so as to include the strip of land owned by Holy Cross Cemetery.

Yours respectfully,

WILLIAM B. ELLISON, Corporation Counsel.

The following resolutions were then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York by locating and laying out Canarsie lane, from Flatbush avenue to Schenectady avenue, in the Borough of Brooklyn, City of New York, more particularly described as follows:

The centre line of Canarsie lane to begin at a point on the eastern line of Flatbush avenue, distant about 431 feet northerly of the intersection of the eastern line of Flatbush avenue, with the northern line of Clarendon road, as the same are laid down on the map of the City;

1. Thence to extend easterly to a point on the centre line of Bedford avenue, distant about 434 feet northerly of the northern line of Clarendon road;

2. Thence easterly to a point on the centre line of Brooklyn avenue, distant about 329 feet northerly from the northern line of Clarendon road;

3. Thence easterly to a point on the centre line of Schenectady avenue, distant about 272 feet northerly from the northern line of Clarendon road.

The northern and southern side lines of Canarsie lane to be respectively 30 feet northerly and southerly of and parallel to the above described centre line, making the street 60 feet in width.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 11th day of January, 1907, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 11th day of January, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

#### OPENING WESTCHESTER AND LANE AVENUES AND PUBLIC PLACE, THE BRONX.

The following resolutions of the Local Board of Chester, Borough of The Bronx, and report of the Chief Engineer were presented:

*In Local Board of Chester, Twenty-fifth District, Borough of The Bronx.*

Whereas, A petition for a local improvement described below has been received by the President of the Borough of The Bronx; and

Whereas, He has appointed a time for a meeting of this Local Board not more than fifteen days after the receipt by him of the said petition, at which meeting the said petition would be submitted by him to the said Local Board, and he has caused a notice to be published in the CITY RECORD that said petition has been presented to him and is on file in his office for inspection, and of the time when and the place where there would be a meeting of this Local Board at which the said petition would be submitted by him to the said Board, which time was not less than ten days after the publication of this notice; and

Whereas, The said petition was duly submitted thereafter to the said Local Board, which did duly consider the same and give a full hearing thereon; now therefore it is

Resolved, by the Local Board of Chester, Twenty-fifth District, Borough of The Bronx, pursuant to titles 2 and 3 of Chapter 10 of the Greater New York Charter, That the said petition be and the same hereby is granted; and it is hereby

Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

For acquiring title to the lands necessary for Lane avenue (Seabury avenue), from Westchester avenue to West Farms road, and for the public place bounded by Lane avenue, West Farms road and Westchester avenue, in the Borough of The Bronx, City of New York; and it is hereby

Resolved, That a copy of this resolution be transmitted forthwith to the Board of Estimate and Apportionment for its approval.

Adopted by the Local Board of Chester, Twenty-fifth District, on the 12th day of April, 1906.

Alderman Dinwoodie, Alderman Mulligan and the President of the Borough of The Bronx voting in favor thereof.

REPORT No. 4639.

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE CHIEF ENGINEER,  
December 10, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—On April 12, 1906, the Local Board of the Chester District, Borough of The Bronx, adopted a resolution initiating proceedings for acquiring title to Lane avenue, or Seabury avenue, from Westchester avenue to West Farms road, including the public place bounded by Lane avenue, West Farms road and Westchester avenue. No report has yet been submitted to the Board, as your Engineer has found it difficult to fix upon an area of assessment for this proceeding which would be equitable and which could be described, in view of the unfinished condition of the City map in this territory.

On May 4, 1906, the same Local Board adopted a resolution initiating proceedings for acquiring title to the extension of Westchester avenue, from Main street, or West Farms road, to the Eastern Boulevard at Pelham Bay Park. The uncertainty as to the street system along the line of Westchester avenue has presented a similar difficulty in deciding upon an area of assessment to be recommended for this proceeding. It would seem logical to combine these proceedings, as is made possible by the Amended Law, and this treatment would simplify somewhat the study of a proper area of assessment.

Lane avenue and the public place referred to in the former resolution were laid down upon a map adopted by the Board of Estimate and Apportionment on April 8, 1904. The lines of the extension of Westchester avenue covered by the second resolution were established by a map approved by the Board on April 20, 1906. The final maps of the territory adjacent to Westchester avenue have not yet been formally approved and filed, but the map of this particular section has been presented to the Board for adoption, so that it is now possible to describe a district of assessment which will be intelligible and in the judgment of your Engineer equitable.

In view of the importance of Westchester avenue in the development of this territory, and owing to the fact that it is a diagonal street one hundred feet in width, it would seem fair to distribute the expense of acquiring it over a larger area than has been customary in recent reports on street opening proceedings. Owing to the irregularity of the street system, a determination of the boundaries of this district is exceedingly difficult, but that which is recommended includes a strip of an average width of about six hundred feet on each side of the street to be opened. There is a special necessity for acquiring title to this extension of Westchester avenue at the present time, as along it has been laid out one of the extensions of the Rapid Transit Railroad, and it is made a part of the proposed tri-borough line. The improvement of this street will also develop a large territory tributary to it.

It is therefore recommended that the two proceedings for acquiring title to Lane avenue, between Westchester avenue and the West Farms road, with the public place bounded by Lane avenue, West Farms road and Westchester avenue, and to Westchester avenue, between Main street, or West Farms road, and the Eastern Boulevard at Pelham Bay Park, be authorized, and that the title to be taken be a title in fee.

Owing to the fact that Westchester avenue follows for a portion of its distance the old Pelham road, which has been used as a highway for many years, and the dedicated area of which, with the completeness of the dedication, it is very difficult, if not impossible, to determine at the present time, and as the extent and completeness of this dedication will affect the percentage of the expense which the City would assume in applying the rule of the Board of Estimate and Apportionment governing such cases, it is recommended that the determination of the portion of the expense to be borne by the City at large and the portion to be assessed upon the property benefited be deferred until the Commissioners appointed in this proceeding shall have made their tentative awards.

It is further recommended that the area of assessment for this proceeding be fixed as follows:

Beginning at a point in the middle of the block between Railroad avenue and Second street, and a point 100 feet southwest of the southwesterly side of Zerega avenue; running thence northeastwardly on a line midway between the southeasterly side of Railroad avenue and the northwesterly side of Second street and the prolongation thereof to the southwesterly side of West Farms road; thence diagonally across West Farms road and Williamsbridge road to a point on the northeasterly side of Williamsbridge road, on the prolongation of a line midway between the southeasterly side of Roberts avenue and the northwesterly side of Ponton avenue; thence northeastwardly on a line midway between the southeasterly side of Roberts avenue and the northwesterly side of Ponton avenue, to its intersection with the westerly side of Ponton avenue north of the angle in the said Ponton avenue northeast of Lang avenue; thence eastwardly and at right angles to Ponton avenue to the middle of the block between Ponton avenue and Appleton avenue; thence northwardly along the middle of the block between Ponton avenue and Appleton avenue to a point midway between Roberts avenue and Buhre avenue; thence eastwardly and at right angles to the line of Appleton avenue to the easterly side of Appleton avenue; thence northeastwardly on a line parallel with the northwesterly side of Libby place and the extension thereof to its intersection with the prolongation of a line 100 feet northwest of the northwesterly side of Buhre avenue between Mulford avenue and Mayflower avenue; thence northeastwardly on a line 100 feet northwest of the northwesterly side of Buhre avenue and the prolongation thereof to the westerly side of Mayflower avenue; thence eastwardly and at right angles to Mayflower avenue to the middle of the block between Mayflower avenue and Pilgrim avenue; thence northwardly on a line midway between Mayflower avenue and Pilgrim avenues to a point 100 feet south of the southerly side of Morris Park avenue; thence eastwardly on a line 100 feet south of the southerly side of Morris Park avenue, and parallel therewith, to the middle of the block between Pilgrim and Edison avenues; thence northwardly on a line midway between Pilgrim and Edison avenues and the prolongation thereof to its intersection with a line 600 feet northwest of the northwesterly side of Westchester avenue between Wilkinson avenue and the Eastern Boulevard and parallel therewith; thence northeastwardly along a line 600 feet northwest of the northwesterly side of Westchester avenue and the prolongation of the said line to a point in Pelham Bay Park 600 feet east of the westerly side of Pelham Bay Park; thence southwardly on a line parallel with the westerly boundary of Pelham Bay Park to its intersection with the prolongation northeastwardly of the northwesterly side of Morris Park avenue; thence southwestwardly along the said prolongation of the northwesterly side of Morris Park avenue to a point 250 feet distant east of the easterly boundary of Pelham Bay Park; thence southeastwardly on a line 250 feet east and northeast of the easterly and northeasterly boundary of Pelham Bay Park to the prolongation of a line 100 feet southeast of the southeasterly side of Buhre avenue and parallel therewith; thence southwestwardly along a line 100 feet south of the southeast side of Buhre avenue and parallel therewith to a point midway between Mahan and Gainsborg avenues; thence southeastwardly on a line midway between Mahan and Gainsborg avenues to a point midway between Buhre avenue and Roberts avenue; thence southwestwardly along a line midway between Buhre and Roberts avenues to a line midway between Jarvis avenue and Mahan avenue; thence southeastwardly on a line midway between Jarvis avenue and Mahan avenue to a point 100 feet northwest of the northwesterly side of Roberts avenue; thence southwestwardly on a line 100 feet northwest of the northwesterly side of Roberts avenue and parallel therewith to a line midway between Crosby avenue and Hobart avenue; thence southeastwardly on a line midway between Crosby avenue and Hobart avenue to a point 100 feet southeast of the southeasterly side of Roberts avenue; thence southwestwardly along a line 100 feet southeast of the southeasterly side of Roberts avenue and parallel therewith to the northeasterly side of Crosby avenue; thence southeastwardly to a point on the southeasterly side of Crosby avenue at its intersection with a line 100 feet south of the southerly side of Roberts avenue west of Crosby avenue; thence westwardly on a line 100 feet south of the southerly side of Roberts avenue and parallel therewith to a line 100 feet east of the easterly side of Bradford avenue; thence southwardly on a line 100 feet east of the easterly side of Bradford avenue and parallel therewith to the prolongation of a line 200 feet south of the southerly side of Roberts avenue and parallel therewith; thence westwardly on a line 200 feet south of the southerly side of Roberts avenue and parallel therewith to a line midway between Edison avenue and Bradford avenue; thence southwardly on a line midway between Edison avenue and Bradford avenue to a line 100 feet north of the northerly side of Middletown road; thence westwardly on a line 100 feet north of the northerly side of Middletown road and parallel therewith to a point 100 feet west of the westerly side of Edison avenue; thence southwardly on a line 100 feet west of the westerly side of Edison avenue to a point midway between Middletown road and Roebbling avenue; thence westwardly on a line midway between Middletown road and Roebbling avenue to a point 100 feet east of the easterly side of Mayflower avenue; thence southwardly on a line 100 feet east of the easterly side of Mayflower avenue and parallel therewith to a point midway between Roebbling avenue and Zulette avenue; thence westwardly on a line midway between Roebbling avenue and Zulette avenue to a point 100 feet west of the westerly side of Mayflower avenue; thence southwardly on a line 100 feet west of the westerly side of Mayflower avenue and parallel therewith to a point midway between Zulette avenue and Wellman avenue; thence westwardly on a line midway between Zulette avenue and Wellman avenue to a point 100 feet east of the easterly side of Ericsson street; thence southwardly on a line 100 feet east of the easterly side of Ericsson street to its intersection with a line 100 feet southeast of the southeasterly side of the first street south of Fort Schuyler road between Westchester creek and Appleton avenue; thence southwestwardly along the said line 100 feet southeast of the southeasterly side of the first street south of Fort Schuyler road and the prolongation thereof to its intersection with the prolongation of a line 100 feet southeast of the southeasterly side of Halsey street, between Wellington avenue and Seabury avenue, and parallel therewith; thence southwestwardly along a line 100 feet southeast of the southeasterly side of Halsey street and the prolongation thereof to the prolongation of a line 100 feet southwest of the southwesterly side of Zerega avenue as laid out between Castle Hill avenue and Westchester avenue; thence northwestwardly on a line 100 feet southwest of the southwesterly side of Zerega avenue, to the place of beginning.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following were then adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Lane avenue, between Westchester avenue and the West Farms road, with the public place bounded by Lane avenue, West Farms road and Westchester avenue, and of Westchester avenue, between Main street, or West Farms road, and the Eastern Boulevard at Pelham Bay Park, in the Borough of The Bronx, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required, at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement, to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point in the middle of the block between Railroad avenue and

Second street and a point 100 feet southwest of the southwesterly side of Zerega avenue; running thence northeastwardly on a line midway between the southeasterly side of Railroad avenue and the northwesterly side of Second street and the prolongation thereof to the southwesterly side of West Farms road; thence diagonally across West Farms road and Williamsbridge road to a point on the northeasterly side of Williamsbridge road on the prolongation of a line midway between the southeasterly side of Roberts avenue and the northwesterly side of Ponton avenue; thence northeastwardly on a line midway between the southeasterly side of Roberts avenue and the northwesterly side of Ponton avenue, to its intersection with the westerly side of Ponton avenue north of the angle in the said Ponton avenue northeast of Lang avenue; thence eastwardly and at right angles to Ponton avenue to the middle of the block between Ponton avenue and Appleton avenue; thence northwardly along the middle of the block between Ponton avenue and Appleton avenue to a point midway between Roberts avenue and Buhre avenue; thence eastwardly and at right angles to the line of Appleton avenue to the easterly side of Appleton avenue; thence northeastwardly on a line parallel with the northwesterly side of Libby place and the extension thereof to its intersection with the prolongation of a line 100 feet northwest of the northwesterly side of Buhre avenue between Mulford avenue and Mayflower avenue; thence northeastwardly on a line 100 feet northwest of the northwesterly side of Buhre avenue and the prolongation thereof to the westerly side of Mayflower avenue; thence eastwardly and at right angles to Mayflower avenue to the middle of the block between Mayflower avenue and Pilgrim avenue; thence northwardly on a line midway between Mayflower avenue and Pilgrim avenues to a point 100 feet south of the southerly side of Morris Park avenue; thence eastwardly on a line 100 feet south of the southerly side of Morris Park avenue and parallel therewith to the middle of the block between Pilgrim and Edison avenues; thence northwardly on a line midway between Pilgrim and Edison avenues and the prolongation thereof to its intersection with a line 600 feet northwest of the northwesterly side of Westchester avenue between Wilkinson avenue and the Eastern Boulevard and parallel therewith; thence northeastwardly along a line 600 feet northwest of the northwesterly side of Westchester avenue and the prolongation of the said line to a point in Pelham Bay Park 600 feet east of the westerly side of Pelham Bay Park; thence southwardly on a line parallel with the westerly boundary of Pelham Bay Park to its intersection with the prolongation northeastwardly of the northwesterly side of Morris Park avenue; thence southwestwardly along the said prolongation of the northwesterly side of Morris Park avenue to a point 250 feet distant east of the easterly boundary of Pelham Bay Park; thence southeastwardly on a line 250 feet east and northeast of the easterly and northeasterly boundary of Pelham Bay Park to the prolongation of a line 100 feet southeast of the southeasterly side of Buhre avenue and parallel therewith; thence southwestwardly along a line 100 feet south of the southeast side of Buhre avenue and parallel therewith to a point midway between Mahan and Gainsborg avenues; thence southeastwardly on a line midway between Mahan and Gainsborg avenues to a point midway between Buhre avenue and Roberts avenue; thence southwestwardly along a line midway between Buhre and Roberts avenues to a line midway between Jarvis avenue and Mahan avenue; thence southeastwardly on a line midway between Jarvis avenue and Mahan avenue to a point 100 feet northwest of the northwesterly side of Roberts avenue; thence southwestwardly on a line 100 feet northwest of the northwesterly side of Roberts avenue and parallel therewith to a line midway between Crosby avenue and Hobart avenue; thence southeastwardly on a line midway between Crosby avenue and Hobart avenue to a point 100 feet southeast of the southeasterly side of Roberts avenue; thence southwestwardly along a line 100 feet southeast of the southeasterly side of Roberts avenue and parallel therewith to the northeasterly side of Crosby avenue; thence southeastwardly to a point on the southeasterly side of Crosby avenue at its intersection with a line 100 feet south of the southerly side of Roberts avenue west of Crosby avenue; thence westwardly on a line 100 feet south of the southerly side of Roberts avenue and parallel therewith to a line 100 feet east of the easterly side of Bradford avenue; thence southwardly on a line 100 feet east of the easterly side of Bradford avenue and parallel therewith to the prolongation of a line 200 feet south of the southerly side of Roberts avenue and parallel therewith; thence westwardly on a line 200 feet south of the southerly side of Roberts avenue and parallel therewith to a line midway between Edison avenue and Bradford avenue; thence southwardly on a line midway between Edison avenue and Bradford avenue to a line 100 feet north of the northerly side of Middletown road; thence westwardly on a line 100 feet north of the northerly side of Middletown road and parallel therewith to a point 100 feet west of the westerly side of Edison avenue; thence southwardly on a line 100 feet west of the westerly side of Edison avenue to a point midway between Middletown road and Roebbling avenue; thence westwardly on a line midway between Middletown road and Roebbling avenue to a point 100 feet east of the easterly side of Mayflower avenue; thence southwardly on a line 100 feet east of the easterly side of Mayflower avenue and parallel therewith to a point midway between Roebbling avenue and Zulette avenue; thence westwardly on a line midway between Roebbling avenue and Zulette avenue to a point 100 feet west of the westerly side of Mayflower avenue; thence southwardly on a line 100 feet west of the westerly side of Mayflower avenue and parallel therewith to a point midway between Zulette avenue and Wellman avenue; thence westwardly on a line midway between Zulette avenue and Wellman avenue to a point 100 feet east of the easterly side of Ericsson street; thence southwardly on a line 100 feet east of the easterly side of Ericsson street to its intersection with a line 100 feet southeast of the southeasterly side of the first street south of Fort Schuyler road between Westchester creek and Appleton avenue; thence southwestwardly along the said line 100 feet southeast of the southeasterly side of the first street south of Fort Schuyler road and the prolongation thereof to its intersection with the prolongation of a line 100 feet southeast of the southeasterly side of Halsey street between Wellington avenue and Seabury avenue and parallel therewith; thence southwestwardly along a line 100 feet southeast of the southeasterly side of Halsey street and the prolongation thereof to the prolongation of a line 100 feet southwest of the southwesterly side of Zerega avenue as laid out between Castle Hill avenue and Westchester avenue; thence northwestwardly on a line 100 feet southwest of the southwesterly side of Zerega avenue to the place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 11th day of January, 1907, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD for ten days prior to the 11th day of January, 1907.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

## VESTING TITLE TO WEST TWO HUNDRED AND EIGHTEENTH STREET, MANHATTAN.

The following report of the Chief Engineer was presented:

REPORT No. 4644.

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE CHIEF ENGINEER,  
December 10, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—At the last meeting of the Board of Estimate and Apportionment, held on December 7, 1906, a resolution was adopted providing for vesting title to West Two Hundred and Eighteenth street, between Seaman avenue and Ninth avenue, Borough of Manhattan, in The City of New York, on December 15, 1905. This action was taken upon the recommendation of your Engineer in view of the fact that the regulating and grading of this street between Broadway and Seaman avenue was authorized on March 9, 1906, under the impression that title had been vested upon the filing of the oaths of the Commissioners, but this was found not to have been the case.

Mr. Charles A. Gardner, General Attorney for the Interborough-Metropolitan Company, has called my attention to the fact that the Company referred to has acquired the property through which this street will pass, as well as all of the property between Two Hundred and Eighteenth street and the Harlem Ship Canal east of Broadway, and has applied to the President of the Borough of Manhattan and to the Local Board of the Washington Heights District for the closing of West Two Hundred and Eighteenth street east of Broadway. The Local Board appears to have taken no action up to the present time. Should the street be discontinued and closed, the procedure would be somewhat complicated by the vesting of title, and Mr. Gardner requests me to bring the matter to the attention of the Board, requesting the Board to modify its resolution of December 7 so as to exclude that part of the street lying between Broadway and Ninth avenue. I am also advised by the Bureau of Sewers of the Borough of Manhattan that an important outlet sewer is planned to pass through Two Hundred and Eighteenth street, between Broadway and Ninth avenue, and that the closing of this street in such a manner as to prevent the construction of this sewer would cause serious embarrassment. In the absence of action by the Local Board upon the petition to close the street, it is impossible to make a definite recommendation as to whether this change in the City map should be approved or not. If it were approved, it might be made contingent upon the granting of an easement in perpetuity for the construction, maintenance and repair of the sewer above referred to. Meanwhile, I can see no good reason why the request of Mr. Gardner that the resolution of December 7 be so amended as to exclude from its provision the portion of West Two Hundred and Eighteenth street, between Broadway and Ninth avenue, should not be granted. Title can still vest on the 15th instant to the portion west of Broadway, permitting the carrying out of the grading contract.

It is recommended that such action be taken.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

On motion of the Comptroller, the following resolution was adopted:

Resolved, by the Board of Estimate and Apportionment, That the resolution adopted by the Board on December 7, 1906, providing for the vesting of title on December 15, 1906, to West Two Hundred and Eighteenth street, between Seaman avenue and Ninth avenue, Borough of Manhattan, be and the same is hereby rescinded.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Comptroller moved that title to the street be vested in the City on January 7, 1907.

After hearing Mr. James A. Deering in opposition to vesting title to that portion of the street lying between Broadway and Ninth avenue, and Mr. John Whalen in favor of vesting title at as early a date as possible, the President of the Borough of Manhattan moved that the matter be referred to a committee consisting of the Comptroller and the President of the Borough of Manhattan, which motion was unanimously agreed to.

On motion of the Comptroller, the following was then adopted:

Whereas, The Board of Public Improvements on the 9th day of May, 1900, adopted a resolution requesting the Corporation Counsel to acquire title, wherever the same has not heretofore been acquired, for the use of the public, to the lands, tenements and hereditaments that shall or may be required for the purpose of opening and extending West Two Hundred and Eighteenth street from Seaman avenue to Ninth avenue, in the Borough of Manhattan, City of New York; and

Whereas, Commissioners of Estimate and Assessment have been appointed by the Supreme Court, in proceedings to acquire title to said West Two Hundred and Eighteenth street, and the oaths of said Commissioners of Estimate and Assessment were duly filed as required by law on the 2d day of November, 1901, therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York in pursuance of the provisions of section 990 of the Greater New York Charter, directs that upon the 7th day of January, 1907, the title to each and every piece or parcel of land lying within the lines of said West Two Hundred and Eighteenth street from Seaman avenue to Ninth avenue, in the Borough of Manhattan, City of New York, so required shall be vested in The City of New York.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

## REDUCTION OF ASSESSMENT ON MORRIS AVENUE, THE BRONX.

The following petitions, and report of the Chief Engineer were presented, and the matter was referred to the President of the Borough of The Bronx:

In the Matter

of

The application of property owners for the placing of an additional portion of the cost of widening and opening Morris avenue from the east side of the New York and Harlem Railroad at One Hundred and Fifty-sixth street to the Concourse in the Borough of The Bronx, City of New York, upon The City of New York.

The petition of the West Morrisania Property Owners' Association, and of property owners affected by the above proceeding respectfully shows:

1. That the petitioner, the West Morrisania Property Owners' Association is a Domestic Corporation organized and existing under the laws of the State of New York, its membership being composed of property owners interested in and affected by the above proceeding.

2. That the individual petitioners herein are likewise property owners affected by the above proceeding acting for themselves and for others similarly affected.

3. That the proceeding-above entitled was instituted by the Mayor, Aldermen and Commonalty of The City of New York, title to the premises affected vesting in the said Mayor, Aldermen and Commonalty on the 14th day of April, 1897.

4. That prior to the commencement of said proceeding the said Morris avenue between the point of the said beginning of this proceeding, to wit, the east side of the Harlem Railroad at One Hundred and Fifty-sixth street and One Hundred and Sixty-fourth street was a regulated and completed avenue, curbed and flagged, and having a substantial macadam roadbed, lined with shade trees of many years' growth and sufficient in width for the people living along its line; it is one of the oldest

avenues in the borough, shown on the earliest maps, and existing as a regulated and completed street many years before annexation in 1874.

5. In the proceeding eighty-two (82) parcels of land were taken, for which seventy-five (75) substantial (that is, other than nominal) awards were made, aggregating \$241,305.85, all of which is shown by the report of the Commissioners, filed in the office of the Clerk of New York County, June 19, 1902.

In the Matter

of

Opening Morris avenue on the east side of the New York and Harlem Railroad to the Grand Boulevard and Concourse in the Borough of The Bronx, in The City of New York.

To the Board of Estimate and Apportionment:

The petition of Douglas Robinson, Robert H. M. Ferguson and J. Roosevelt Roosevelt, as trustees for John Jacob Astor, under the last will and testament of William Astor, deceased, respectfully shows:

That on the 7th day of February, 1896, the Board of Street Opening and Improvement of The City of New York adopted a resolution providing for the opening and extending of Morris avenue, and for the acquisition of title by the Mayor, Aldermen and Commonalty of The City of New York within the limits indicated above.

That pursuant to the terms of said resolution judicial proceedings to acquire title to the said premises were begun and the awards therein were confirmed on the 18th day of June, 1902. That title to said premises vested in The City of New York on the 14th day of April, 1897.

That the report of the Commissioners of Estimate and Assessment in said proceedings has not yet been confirmed as to the assessments, nor have said Commissioners signed their final report as to assessments, as your petitioners are informed and believe.

That the awards made for land acquired amounted to \$217,711.26, and the final awards for buildings amounted to \$18,413.10, making a total of awards of \$236,124.36.

The costs of said proceedings to acquire title, as your petitioners are informed and believe, amount to date to \$15,327.92.

That the Commissioners included in their report no interest upon the awards, and no portion of the costs of the buildings taken was assumed by the City, as might have been done according to the provisions of the Consolidation Act and of the Greater New York Charters.

That the length of the street as proposed to be opened and extended within the limits indicated above is 9,370.02 feet. That the land acquired is 740,587.77 square feet. That the street is 80 feet in width, and is, therefore, a street as to which it is now the established rule in The City of New York for the City to assume a certain percentage of the cost of the opening.

That, as your petitioners are informed and believe, for one-half the length of said street, as opened and extended within the limits previously indicated, the property acquired was property that had a frontage on a street already opened, and, therefore, on account of the value of such property, due to the possession of such frontage, the awards were of necessity high.

That the street connects two main thoroughfares, and, being 80 feet in width, a large general benefit will accrue to the general public from the opening and extending, in addition to the special benefit to the adjoining property, as petitioners are informed and believe.

That, as appears by the records of the proceedings to date, one-half of the extent of said street is land in the beds of old streets which have been in use for a number of years. That nineteen of the damage parcels consist entirely of the beds of said old streets. That the said nineteen parcels, as appears from said records of said proceedings, are 230,482.94 square feet in area.

Wherefore, your petitioners ask, by reason of the fact that the said street connects two very important thoroughfares, and was made 80 feet wide on account of the fact that it was considered that it would be a main artery of travel, and for the further reason that a large part of the benefit which will result from the opening of said street will accrue to the general public, that The City of New York assume such percentage of the cost and expense of said opening and extension as may to this Board seem just and proper.

Dated October 29, 1906.

DOUGLAS ROBINSON,

ROBERT H. M. FERGUSON, and

J. ROOSEVELT ROOSEVELT, as trustees for John Jacob Astor, under the last will and testament of William Astor, deceased.

By JOHN C. SHAW, Attorney.

6. Three assessments have been made in the proceeding during the period exceeding nine years in which it has been pending; under the first assessment twenty-five (25) per cent. of the cost of the proceeding, aggregating \$64,216.16, under a resolution of the Board of Public Improvements was placed upon The City of New York; this resolution was subsequently rescinded, a new assessment was made, and under a resolution of the Board of Estimate, dated March 6, 1903, fifteen (15) per cent. of the cost of the proceeding, aggregating \$38,354.92, was placed upon The City of New York in place of the amount last above stated.

7. A third, or subsequent assessment in place of the second assessment, was made by the Commissioners herein, under what is known as the Block system, whereby the cost of the proceeding was very largely placed upon the property owners in the settled portion of the avenue as against the owners of the unimproved property in the old Fleetwood race track and the unopened lands immediately to the north, which were the real beneficiaries in the proceeding as abutting owners.

8. That there have been numerous changes in the membership of the Commission having in charge the said proceeding during the many years of its pendency, and thereby the cost of the proceeding has been largely increased.

9. That before the institution of the said proceeding the abutting owners upon the said Morris Avenue were owners of the fee thereof upon their respective sides to the centre thereof, subject only to the easement of the public to pass and repass thereon, but that by reason of such proceeding they have been divested of such fee and The City of New York is now the absolute owner thereof, including all franchise rights therein.

10. That the purpose of the said widening and opening was a City purpose, to wit, the making of the said avenue an approach or feeder on the east to the Grand Boulevard and Concourse, a proceeding intended for the benefit of the City at large, and not for the adjoining property owners, and for that reason the largest proportion of the cost of this proceeding should be borne by The City of New York.

11. That as an illustration of the unjust way, and out of all proportion to all benefit, that the property owners have been assessed in this proceeding the attention of the Board is respectfully called to the following assessments taken from the Commissioners' report herein:

## Map No. 976, Lot No. 1.

J. Ogden—	
First assessment .....	\$445 85
Second assessment .....	594 47
Third or final assessment.....	1,878 58

This property is on the east side of Morris avenue, between One Hundred and Sixty-second street and One Hundred and Sixty-third street, 115 feet in front.

In all of the above illustrations no awards were made to the owners, none of their property being taken, and they being on the opposite side of the avenue from that on which the widening took place, to wit, the east side, and the widening being made on the west side.

These illustrations are not exhaustive, and an examination of the report shows like excessive amounts of assessment throughout the built-up portion of the avenue.

The only improvements taken, however, were fences, and practically no portion of any building was taken in the proceeding, the houses on the west side of the avenue being so located that the avenue could be widened without injury to the buildings.

12. As further illustrating the unjust and burdensome nature of the assessment upon the property owners in the improved portion of the avenue the attention of the Board is respectfully called to the following assessment levied upon unimproved property, the third or final assessment being less than the first:

## Lot No. 1, Map No. 1227.

First assessment .....	\$6,028 61
Second assessment .....	8,038 15
Third or final assessment.....	5,027 06

## Lot No. 1, Map No. 1228.

First assessment .....	\$5,813 38
Second assessment .....	7,750 84
Third or final assessment.....	4,812 58

This property includes the entire block on each side of the newly opened avenue in what was the Fleetwood Race Track between One Hundred and Sixty-fifth street and One Hundred and Sixty-sixth street, where no street existed before, and substantial awards were made for the property taken in this unopened territory, but while under the method of assessment adopted in this proceeding the final assessment upon this unimproved property, as the figures taken in illustration show, is much less than the first assessment. The property owners on the east side of the improved portion of the avenue, as before stated, not only get no awards, but their assessments are made more than four times larger than at first contemplated.

For all of the foregoing reasons, therefore, and particularly for the reason that the proceeding is for the benefit of the City at large and not for the benefit of the adjoining owners, your petitioners respectfully pray that seventy-five (75) per cent. of the cost of the proceeding may be placed upon the City at large.

REPORT No. 4590.

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE CHIEF ENGINEER,  
December 10, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Under date of June 14, 1906, a number of property owners, through Henry K. Davis, their attorney, petitioned the Board of Estimate and Apportionment for relief from a portion of the assessment for opening Morris avenue, from the east side of the New York and Harlem Railroad at One Hundred and Fifty-sixth street to the Grand Boulevard and Concourse, in the Borough of The Bronx. Under date of October 29, 1906, another petition from Mr. John C. Shaw, attorney, has been presented with the same request.

Proceedings to open Morris avenue were authorized by the Board of Street Opening and Improvement on February 7, 1896, and title was vested in the City on April 17, 1897. On June 18, 1902, the report as to awards was confirmed, and the Commissioners are now preparing their final report as to assessments. The Board of Public Improvements on December 31, 1901, adopted a resolution which was designed to give substantial relief to the property owners, but it was found that in their resolution reference had been made to a former resolution of the Board of Street Opening and Improvement which had subsequently been rescinded, and not to the resolution under which the proceedings were being carried out. Their action, therefore, amounted to nothing. The Board of Estimate and Apportionment on March 6, 1903, considered a petition for relief and assumed for The City of New York fifteen per cent. of the entire cost and expense, and I am advised that the report of the Commissioners on assessments is now being prepared on that basis. Section 980 of the Charter prohibits the Board of Estimate and Apportionment when it has once determined the proportion of expense, if any, which shall be borne by the City, from reconsidering this determination, and in my judgment the Board is powerless to take further action. I have explained this to the petitioners, but they have urgently requested that the matter be presented to the Board, and this is done without further recommendation.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

## CATSKILL AQUEDUCT.

The following communication from the Board of Water Supply of The City of New York and report of the Chief Engineer were presented:

BOARD OF WATER SUPPLY,  
December 7, 1906.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, No. 277 Broadway, New York City:

SIR—We send herewith, for the approval of the Board of Estimate and Apportionment, as directed in section 5 of chapter 724, Laws of 1905, six similar maps entitled

"Board of Water Supply of The City of New York.—Map of additional real estate, situated in the town of Cortland, County of Westchester and State of New York, to be acquired by The City of New York under the provisions of chapter 724 of the Laws of 1905, as amended, for the construction of Catskill Aqueduct and appurtenances, from Hunter's Brook to Putnam County line" (Section 1a),

—and six similar maps entitled

"Map of additional real estate, situated in the town of Phillipstown, County of Putnam and State of New York, to be acquired by The City of New York under the provisions of chapter 724 of the Laws of 1905, as amended, for the construction of Catskill Aqueduct and appurtenances, from Westchester County line to Foundry Brook Valley" (Section 2a).

Both of these maps are dated November 28, 1906, and signed by the Board of Water Supply of The City of New York and its Chief Engineer. These maps have been prepared strictly in accordance with the specifications set forth in section 5 of chapter 724 of the Laws of 1905, and show in detail a portion of the land to be acquired in carrying out the plan for obtaining an additional supply of pure and wholesome water for The City of New York, approved by the Board of Estimate and Apportionment on the 27th day of October, 1906.

Yours respectfully,

BOARD OF WATER SUPPLY,  
Per THOS. HASSETT, Secretary.

REPORT No. 4646.

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE CHIEF ENGINEER,  
December 13, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Under date of December 7, 1906, the Board of Water Supply, through its Secretary, has submitted to the Board of Estimate and Apportionment, in accordance with the provisions of section 5 of chapter 724 of the Laws of 1905, two sets each containing six similar maps or plans, one designated as Section 1a and the other as Section 2a, 1a showing real estate in the town of Cortland, Westchester County, to be acquired for the purpose of building the Catskill Aqueduct, and 2a showing additional real estate in the town of Phillipstown, Putnam County, needed for the same purpose.

The land designated upon these maps is not that upon which the aqueduct is to be built, but is designed to furnish a connection between lands the acquisition of which has already been authorized by the Board of Estimate and Apportionment, and the Hudson river, at the mouth of Peekskill creek. For a greater portion of the area an easement only is to be taken, this easement comprising a strip of land some forty feet in width which is supposed to be the right of way acquired by the Westchester and Putnam Railroad Company, a railroad which has not been built. At the southerly end the plans show that not only is the easement along and over this right of way to be acquired, but that certain lands on each side are to be taken in fee. About one-half of this area is land under water, and I am advised by the Chief Engineer of the Board of Water Supply that it is proposed to utilize this land as a terminal for the road to be built along the right of way of the Westchester and Putnam Railroad Company for the storage of material and as a possible site for power plants, while the land under water will be required for the building of docks to handle the large amount of material which will be required in the construction of the aqueduct. It is expected that after the work of construction is completed the right of way will be released to the present owners, while the land to which the fee is taken can probably be disposed of by the City at an advance over the price which will be paid.

The plans have been prepared in accordance with the specific provisions of the act, and it is recommended that they be approved and that the acquisition of the easement and the fee be authorized.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following was then adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of chapter 724 of the Laws of 1905, did on the 27th day of October, 1905, approve and adopt a report, and the map, plan and profile accompanying the same, bearing date of October 9, 1905, and presented by the Board of Water Supply of The City of New York, for obtaining an additional supply of pure and wholesome water for The City of New York, and declared the same to be the final map, plan or plans approved and adopted by the Board of Estimate and Apportionment, as provided for in said act; and

Whereas, The Board of Water Supply of The City of New York has submitted to the Board of Estimate and Apportionment for its approval, as directed in section 5, chapter 724, Laws of 1905, six similar maps or plans, entitled

"Board of Water Supply of The City of New York.—Map of additional real estate, situated in the town of Cortland, County of Westchester and State of New York, to be acquired by The City of New York under the provisions of chapter 724 of the Laws of 1905, as amended, for the construction of Catskill Aqueduct, and appurtenances, from Hunter's Brook to Putnam County line" (Section 1a).

Resolved, That the Board of Estimate and Apportionment of The City of New York hereby approves and adopts the said six similar maps or plans and directs the Secretary of the Board to transmit them to the Corporation Council.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens, and Richmond—16.

REPORT No. 4612.

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE CHIEF ENGINEER,  
December 7, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Corlear's Hook District, Borough of Manhattan, adopted on November 20, 1906, initiating proceedings for the construction of a sewer in East Tenth street, between Avenue D and the East river.

This resolution affects a length of one block of East Tenth street, title to which has been legally acquired. The street has been fully improved, and the roadway has been paved and is occupied by surface tracks. The abutting property is almost wholly built up. From information presented with the resolution it appears that a public sewer has never been built in this street, and the same is now asked for by the owner of a large apartment building which is nearing completion.

Approval of the resolution is recommended, with the understanding that before construction is begun a map will be presented providing for incorporating the sewer upon the drainage plan of the City.

The work to be done comprises the following:

605 linear feet 3 foot 6 inches by 2 foot 4 inches brick sewer.  
2 receiving basins.  
7 manholes.

The estimated cost of construction is \$8,800, and the assessed valuation of the property to be benefited is \$694,000.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

##### *In the Board of Estimate and Apportionment.*

A copy of a resolution of the Local Board of the Corlear's Hook District, duly adopted by said Board on the 20th day of November, 1906, and approved by the President of the Borough of Manhattan, on the 21st day of November, 1906, having been transmitted to the Board of Estimate and Apportionment, as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To construct sewer in East Tenth street, between East river and Avenue D,"—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$8,800, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$694,000, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

REPORT No. 4631.

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE CHIEF ENGINEER,  
December 12, 1906.

Hon. GEORGE B. MCCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Morrisania District, Borough of The Bronx, adopted on December 8, 1906, initiating proceedings for the construction of a temporary connection between the existing sewers in Longfellow avenue and Home street at the intersection of the said streets. I am advised by the borough authorities that the Longfellow avenue sewer has been built between Home street and Westchester avenue, but that no outlet has been provided for the same. Owners of property on this block believing that the sewer was a serviceable one, have erected houses, but are now unable to secure drainage for the same. The situation is rendered still more objectionable owing to the fact that there is a depression in the surface grade in the middle of the block, at which point drainage collects. These conditions have been made the subject of complaint by the Health Department. The Home street sewer has been built, and the grades are such that it is possible to give the Longfellow avenue sewer a temporary outlet through the same, and the provision of such outlet is the object of the resolution.

The authorization of this improvement is recommended, with the understanding that before the work is carried out a map showing the sewer will be submitted for approval.

The work to be done comprises the laying of 75 linear feet of 12-inch pipe sewer at an estimated cost of \$500. The assessed valuation of the property to be benefited is \$79,350.

Respectfully,  
NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

##### *In the Board of Estimate and Apportionment.*

A copy of a resolution of the Local Board of the Morrisania District, duly adopted by said Board on the 8th day of December, 1906, and approved by the President of the Borough of The Bronx on the 10th day of December, 1906, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"For the construction of a temporary connection from the existing sewer in Longfellow avenue to the existing sewer in Home street at the intersection of Longfellow avenue and Home street, in the Borough of The Bronx, City of New York,"

—and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$500, and a statement of the assessed value, according to the last preceding tax-roll, of the real estate included within the probable area of assessment, to wit, the sum of \$79,350, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

REPORT No. 4620.

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE CHIEF ENGINEER,  
December 7, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Staten Island District, Borough of Richmond, adopted on November 1, 1906, initiating proceedings for grading the following streets in the Second Ward:

Bertha place, between Eddy street and Thressea place.

Thressea place, between Richmond turnpike and Duncan avenue.

Bertha place, having a length of one block, and Thressea place, having a length of two blocks, were placed upon the map of the City on June 1, 1906. As mapped the lines were intended to coincide with those of the streets in use at the time, and each was given a width of 50 feet. There is presented with the resolution information showing that deeds to the land lying within the lines of these streets have been executed and have been accepted by the Corporation Counsel on behalf of the City. A few houses have been erected upon the abutting property, and the improvement proposed seems to be a proper one. The curbing was omitted from the improvement for the reason that the owners of the property have expressed a desire to set the same at their own expense, the work to be done in connection with the grading. The approval of this resolution is recommended, the work to be done comprising 3,815 cubic yards of grading. The estimated cost of construction is \$2,900, and the assessed valuation of the property to be benefited is \$66,480.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

REPORT No. 4637.

BOARD OF ESTIMATE AND APPORTIONMENT,  
OFFICE OF THE CHIEF ENGINEER,  
December 10, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—Herewith is transmitted a resolution of the Local Board of the Staten Island District, Borough of Richmond, adopted on July 24, 1906, initiating proceedings for grading and flagging Prospect avenue, between York and Lafayette avenues, in the First Ward.

Prospect avenue was placed upon the map of the City on October 19, 1906, and the lines of the street as mapped were intended to coincide with those of a street which had been in use for many years and which had already been fully improved. The resolution now presented affects a length of four blocks, or about 1,700 feet, and there are presented with the resolution two affidavits showing a usage of more than twenty years, and also establishing the fact that the street has been improved at public expense. The grades adopted differ slightly from those heretofore in use. It is now proposed to make the grade conform with that recently fixed, and to complete the sidewalks. From the papers accompanying the resolution it also appears that the borough authorities are about to repave the street, and that in connection with this latter improvement the curbing where necessary will be reset.

The resolution appears to be a proper one, and its approval is recommended, the work to be done comprising the following:

2,000 cubic yards grading.

12,800 square feet new and old flagging.

The estimated cost of construction is \$3,600, and the assessed valuation of the property to be benefited is \$78,750.

Respectfully,

NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

*In the Board of Estimate and Apportionment.*

A copy of a resolution of the Local Board of the Staten Island District, duly adopted by said Board on the 24th day of July, 1906, and approved by the President of the Borough of Richmond on the 11th day of September, 1906, having been transmitted to the Board of Estimate and Apportionment as follows, to wit:

"Resolved, That this Board does hereby initiate proceedings for the said local improvement, to wit:

"To regrade and construct sidewalks and relay old sidewalks where necessary on Prospect avenue, from York avenue to Lafayette avenue, in the First Ward of the Borough of Richmond, as laid out on the map or plan of The City of New York, and to do such other work as may be necessary to the completion of the work described," —and there having been presented to said Board of Estimate and Apportionment an estimate in writing, in such detail as the Board has directed, that the cost of the proposed work or improvement will be the sum of \$3,600, and a statement of the assessed value, according to the last preceding tax roll, of the real estate included within the probable area of assessment, to wit, the sum of \$78,750, having also been presented, it is

Resolved, That the said resolution of the said Local Board be and the same hereby is approved, and the local improvement therein provided for is hereby authorized, and this Board does hereby determine that no portion of the cost and expense thereof shall be borne and paid by The City of New York, but that the whole of such cost and expense shall be assessed upon the property deemed to be benefited by the said local improvement.

Altering the lines of Flushing avenue so as to widen it from the Brooklyn borough line to Onderdonk avenue to 70 feet, and from Onderdonk avenue to Garrison avenue to 80 feet, and to extend Montrose avenue from the Brooklyn borough line to Flushing avenue, Second Ward, Borough of Queens. Adopted by the Board November 16, 1906; approved by the Mayor November 27, 1906.

104. Laying out certain property required for an approach to the Manhattan Bridge, and in connection therewith closing certain streets and laying out new streets to take the places of those which it is proposed to discontinue and close, Borough of Manhattan. Adopted by the Board November 23, 1906; approved by the Mayor December 5, 1906.

105. Laying out as a bridge approach to Manhattan Bridge those portions of the two blocks bounded by Jay, Nassau, Bridge and Sands streets not already acquired, or in process of acquisition, for bridge purposes; and closing High street, between Bridge and Jay streets, Borough of Brooklyn. Adopted by the Board November 23, 1906; approved by the Mayor December 5, 1906.

Respectfully,

JOSEPH HAAG, Secretary.

ACQUIRING PROPERTY FOR DEPARTMENTAL PURPOSES.

The Comptroller asked unanimous consent for the present consideration of a report from him regarding the existing conditions in connection with the condemnation of property for the City.

No objection being made, the following report was presented, and the Secretary was directed to have it printed in the minutes:

December 12, 1906.

*To the Board of Estimate and Apportionment:*

GENTLEMEN—I desire to call the attention of this Board to the condition that has arisen in the matter of acquiring property for The City of New York for departmental purposes. This condition exists in the Borough of Brooklyn, as follows:

(a) The Board of Estimate and Apportionment by resolution, authorized the acquisition of property for street purposes, commonly known as the extension of Flatbush avenue, beginning at the junction of Flatbush avenue and Fulton street and extending in a straight line to Nassau street, between Bridge and Jay streets. Title to this property is to vest in The City of New York on March 1, 1907.

(b) The approach to the Manhattan Bridge No. 3, in Brooklyn, beginning at Nassau street where Flatbush avenue terminates, and extending down to the anchorage site of the said bridge in said Borough.

(c) Property acquired at the corner of Willoughby street, Fleet street and Fleet place for the Department of Health.

(d) The recent laying out of a plaza for the Manhattan Bridge No. 3, in Brooklyn, bounded by Nassau street, Sands street, Bridge street and Jay street.

The condition that confronts the City is that one set of Commissioners of Estimate and Appraisal is acting upon the property to be acquired for the Flatbush avenue extension; another set upon property to be acquired for the Department of Health; additional Commissioners for the approach to the Manhattan Bridge from Nassau street to the anchorage site, and I presume that an additional set of Commissioners will be appointed in the matter of the acquisition of property for the plaza and terminal of the Manhattan Bridge, bounded by the blocks aforesaid.

The Commissioners in condemnation proceedings acting upon the Flatbush avenue extension will fix a value upon the property to be taken, parts of which property are

included within the site selected for the Department of Health. The Commissioners on the approach to the Manhattan Bridge will also fix values upon lands and buildings, part of which is taken as an approach and the balance of the property for the plaza, and the terminal will be fixed by an entirely different set of Commissioners. In other words, suppose that a line ran through the centre of a parcel of land which was covered by a building, one set of Commissioners in the Flatbush avenue extension would award an amount of money and would allow consequential damages for the part remaining, plus the total destruction of the building. The Commissioners acting on the Department of Health site would be liable to award the same amount of money for their part taken, that is for the value of the land, plus consequential damages to the part remaining and plus the total destruction of the building. The same thing is liable to happen in the approach to the Bridge and in the plaza and terminal proceedings, and it seems to me that the only way that this can be obviated is by being acted upon by one set of Commissioners. I believe that any act of the Legislature that would have for its object the designation of Commissioners of Estimate and Appraisal, thus taking the power of designation from the Supreme Court, would be unconstitutional, but I do believe that every Judge of the Supreme Court if his attention was called to the condition of affairs that has arisen in this case, and which must necessarily from time to time arise in other cases, would designate in his appointment of Commissioners, the Commissioners appointed in a similar proceeding.

A recent example of an anomalous situation that arises in having two sets of Commissioners of Estimate and Appraisal value one piece of property, is that the preliminary awards made by the Commissioners of Estimate and Appraisal for the Department of Health property on Willoughby street, Fleet street and Fleet place shows that the awards made for about one-half the property, which probably includes consequential damage, amount to almost as much as the value of the entire property.

I would therefore respectfully recommend to this Board that a resolution be adopted that it be the sense of the Board that where matters of this kind arise that the resolution shall contain a clause calling the attention of the Corporation Counsel to this effect, in order that in his application to the Supreme Court for the appointment of Commissioners of Estimate and Appraisal, he should respectfully call the attention of the Court to the situation in order that the same Commissioners may be appointed and consolidate the two proceedings.

A similar condition exists in The City of New York in the matter of the Manhattan Bridge approach and plaza.

I have addressed a communication to the Corporation Counsel, dated December 10, 1906, calling his attention to the condition of affairs as herein recited.

Respectfully submitted,

H. A. METZ, Comptroller.

#### OPENING SEDDON STREET, THE BRONX.

The President of the Borough of The Bronx moved that the resolutions of the Local Board of Chester, recommending the opening of Seddon street, from Clay avenue to West Farms road, and from Raymond avenue (Fourth street) to West Farms road, in the Borough of The Bronx, be referred to the Chief Engineer with instructions to place them on the next calendar, and asked for unanimous consent for the immediate consideration of the motion.

No objection being made, the motion was agreed to.

The Board then took up the consideration of financial matters.

JOSEPH HAAG, Secretary.

#### BOARD OF ESTIMATE AND APPORTIONMENT.

##### (PUBLIC IMPROVEMENT MATTERS.)

Minutes of meeting of Board of Estimate and Apportionment, City of New York, held in Room 16, City Hall, Friday, December 21, 1906.

The Board met in pursuance of adjournment.

Present—Hon. George B. McClellan, Mayor; Hon. Herman A. Metz, Comptroller; Hon. John F. Ahearn, President, Borough of Manhattan; Hon. Bird S. Coler, President, Borough of Brooklyn; Hon. Louis F. Haffen, President, Borough of The Bronx; Hon. Lawrence Gresser, Acting President, Borough of Queens, and Hon. George Cromwell, President, Borough of Richmond.

The Mayor, Hon. George B. McClellan, presided.

After considering franchise and financial matters, the Board took up the consideration of public improvement matters:

##### PLAZA AT BROOKLYN TERMINAL OF MANHATTAN BRIDGE.

The following communication from the Comptroller was presented:

COMPTROLLER'S OFFICE, December 18, 1906.

To the Board of Estimate and Apportionment:

GENTLEMEN—The Board of Estimate and Apportionment, at a meeting held November 23, 1906, among other resolutions, adopted one authorizing the institution of condemnation proceedings for the acquisition of a plaza in the Borough of Brooklyn, bounded by Sands, Bridge, Nassau and Jay streets, for the Manhattan Bridge, in the Borough of Brooklyn. Through this plaza, as laid out, extends the approach to said Manhattan Bridge, in the Borough of Brooklyn, which was authorized by a resolution of the Board adopted May 29, 1903. The oaths of the Commissioners in the proceedings were filed July 12, 1904, and testimony is now being taken as to the value of the property included within the area of the approach as laid out. I have been informed that the proceedings will be completed in about nine months.

It seems to me that the attention of the Corporation Counsel should be called to the fact that it would be advisable to have the same Commissioners that are acting on the approach act upon the plaza and terminal, and I would respectfully recommend to this Board that the resolution as adopted be amended, in so far as to call the attention of the Corporation Counsel to the approach proceedings, and request that in his application to the Supreme Court, Second Department, he call the attention of the presiding judge to the proceedings, and respectfully request that the presiding judge appoint the same Commissioners that are acting in the approach to act upon the matter of the plaza and terminal.

Respectfully submitted,

H. A. METZ, Comptroller.

The following resolution was then adopted:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment on the 23d day of November, 1906, providing for acquiring certain lands for a plaza at the Manhattan Bridge Terminal, in the Borough of Brooklyn, be and the same hereby is amended to read as follows:

Whereas, The Commissioner of Bridges has selected certain lands located in the Borough of Brooklyn to be acquired for the use of said Department in connection with the Brooklyn approach to the Manhattan Bridge; and

Whereas, The said Commissioner has filed maps showing the property so selected in the office of the Register and in the office of the Commissioner of Bridges, in accordance with the provisions of section 1436 of the Greater New York Charter, as amended;

Resolved, That the Board of Estimate and Apportionment of The City of New York hereby approves and authorizes the acquisition of the said lands so selected, which lands are shown on maps filed in the office of the Register of the County of Kings, City of New York, by the Commissioner of Bridges, on the 1st day of November, 1905, and 20th day of December, 1904, respectively.

Resolved, That the Corporation Counsel be and he hereby is directed to institute proceedings for the acquisition of the foregoing described property.

Resolved, That nothing in this resolution contained shall be construed as preventing the Comptroller of The City of New York from entering into contracts for the acquisition of any portion of the above described property at private sale, subject to the approval of the Board; and be it further

Resolved, That the Corporation Counsel is hereby requested to ask the Supreme Court to appoint as Commissioners in this proceeding the same Commissioners who are now acting on the approach to the Manhattan Bridge (Flatbush avenue extension), in the Borough of Brooklyn.

Affirmative—The Mayor, the Comptroller and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—13.

#### PARK AT KINGSTON AVENUE HOSPITAL, BROOKLYN.

The following report was presented:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
December 18, 1906.

To the Board of Estimate and Apportionment:

GENTLEMEN—At a meeting of the Board of Estimate and Apportionment held on October 26, 1906, there was presented a protest against the continuing of the construction of pavilions for contagious diseases at the Kingston Avenue Hospital, in the Borough of Brooklyn. The matter was considered and the President of the Board of Aldermen moved that the matter be referred to the Comptroller and the President of the Borough of Brooklyn for consideration, and they be authorized to hold a public hearing in relation to the matter.

It appears that the Kingston Avenue Hospital is situated within the area of property between Albany and Kingston avenues, Clarkson avenue and Rutland road, in the Borough of Brooklyn, and the buildings commonly known as the pest house are situated on the Rutland road front and the Kingston avenue front, and it is proposed to acquire property in front of the same in order to eliminate any nuisance that may exist by laying out a park in front of the same and erecting a fence so as to keep outsiders away.

After investigating the matter, we are of the opinion that the proposition could be properly solved if the block bounded by Midwood street, Rutland road, Albany avenue and Kingston avenue were acquired for park purposes, the said property being of the size 200 feet by 700 feet, and also that Rutland road between the westerly side of Albany avenue and the easterly side of the proposed Kingston avenue be closed; and further, that Kingston avenue, between the southerly side of Winthrop street and the southerly side of Midwood street be closed, and that the property on the westerly side of the present Kingston avenue, between the southerly side of Winthrop street and the southerly side of Midwood street, be acquired to a depth of 200 feet for park purposes, and that a new street be opened of a width of 50 feet between the southerly side of Winthrop street and the southerly side of Midwood street, the same to be situated parallel with the present Kingston avenue, 200 feet westerly therefrom, and to be known as the new Kingston avenue. Under these conditions, it will be necessary to close a portion of Hawthorne street, between the westerly side of the present Kingston avenue to a point 200 feet westerly therefrom; to close Fenimore street between the westerly side of Kingston avenue and the easterly side of the proposed Kingston avenue, which point is 200 feet westerly from the present Kingston avenue, and also to close Winthrop street from the westerly side of the present Kingston avenue to a point 200 feet westerly therefrom.

We would respectfully recommend that a public hearing be had before your Board in relation to the matter, in order that the map or plan of The City of New York may be changed so as to carry out the above suggestions.

Respectfully submitted,

H. A. METZ,

Comptroller.

BIRD S. COLER,

President, Borough of Brooklyn.

The Comptroller asked unanimous consent for the present consideration of a resolution fixing a hearing on January 11, 1907.

No objection being made, the following resolutions were adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by laying out a public park adjacent to the Kingston Avenue Hospital; by the closing of certain streets and by the laying out of other streets in the Borough of Brooklyn, City of New York, the changes in the map of the city to consist of the following:

1. Closing and discontinuing Rutland road, between the westerly side of Albany avenue and a point two hundred (200) feet west of the westerly side of Kingston avenue.
2. Discontinuing and closing Fenimore street, between the westerly side of Kingston avenue and a point two hundred (200) feet westerly therefrom.
3. Discontinuing and closing Hawthorne street, between the westerly side of Kingston avenue and a point two hundred (200) feet westerly therefrom.
4. Discontinuing and closing Winthrop street, from the westerly side of Kingston avenue to a point two hundred (200) feet westerly therefrom.
5. Discontinuing and closing Kingston avenue, from the southerly side of Midwood street to the southerly side of Winthrop street.
6. Laying out a new street to take the place of the portion of Kingston avenue which is to be discontinued and closed, the said new street to extend from the southerly side of Midwood street to the northerly side of Winthrop street, the easterly side of the said new street to be two hundred (200) feet distant westerly from the westerly side of the present Kingston avenue and parallel therewith, and the westerly side of the proposed new street to be fifty (50) feet distant westerly from the easterly side of the said street and parallel therewith.
7. The laying out as a public park of the territory bounded on the north by the southerly side of Midwood street; on the south by the southerly side of Rutland road; on the east by the westerly side of Albany avenue; and on the west by the easterly side of the proposed new street two hundred (200) feet west of the present Kingston avenue; also the laying out as a public park of the territory bounded on the north by the southerly side of Rutland road; on the east by the easterly side of Kingston avenue; on the south by the northerly side of Winthrop street; and on the west by the easterly side of the proposed new street 200 feet west of the present Kingston avenue.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 11th day of January, 1907, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a

meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 11th day of January, 1907.

Affirmative—The Mayor, the Comptroller and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—13.

#### OPENING BEDFORD AVENUE EXTENSION, BROOKLYN.

The following report was presented:

COMPTROLLER'S OFFICE, December 18, 1906.

#### To the Board of Estimate and Apportionment:

GENTLEMEN—Your Board at its meeting held April 6, 1906, referred the matter of the request to discontinue the proceedings for extending Bedford avenue to the Williamsburgh Bridge Plaza, in the Borough of Brooklyn, to a select Committee consisting of the Comptroller, the President of the Board of Aldermen and the President of the Borough of Brooklyn.

It appears that the laying out of this extension of Bedford avenue was approved by your predecessor board on February 10, 1905, after several public hearings. The action was first proposed in a report submitted to the Board on January 6, 1905, and on April 14, 1905, the Corporation Counsel was authorized and directed to apply to the Court for the appointment of a commission to acquire title, and further, that at a meeting of your Board held March 23, 1906, consideration was given to a petition of Andrew D. Baird and others, asking the Board to discontinue proceedings to open Bedford avenue from Heyward street to the Williamsburgh Bridge Plaza and to remove the extension from the map. At that time two alternative plans were suggested, first, the widening of Taylor street from 70 feet to 80 feet by taking 10 feet from its north-westerly side, while its connection with Bedford avenue is made easier by cutting off the easterly corner at this intersection, substituting for the angle a curve with a radius of about 200 feet. The other alternative plan was the extension of Roebling street through the two blocks between Taylor and Ross streets including the triangular area at Bedford avenue and Wilson street, in the Borough of Brooklyn.

After careful consideration of the matter, we are of the opinion that it would be for the best interests of the City to discontinue the proceedings for extending Bedford avenue and to authorize new proceedings for the widening of Roebling street on its westerly side, between Broadway and Division avenue, by making the width of said street between South Eighth street and Division avenue 100 feet instead of 60 feet, and also by acquiring a triangular parcel of property at the intersection of Division avenue and Lee avenue, the easterly boundary line thereof to be on a line with the prolongation of the easterly side of Roebling street if extended, and further, to widen Taylor street on its southerly side between Lee avenue and Bedford avenue by making said street a 100-foot street instead of a 70-foot street.

We would respectfully recommend that your Board hold a public hearing in relation to the above matter, in order to carry out the suggestions, and if the same should meet with approval, that the resolution adopted by the Board of Estimate and Apportionment on April 14, 1905, authorizing the institution of condemnation proceedings for the extension of Bedford avenue from Heyward street to the southeasterly corner of the Williamsburgh Bridge Plaza, in the Borough of Brooklyn, be rescinded, and also that the resolution of your Board adopted at the meeting held November 2, 1906, in relation to the opening and extending of Roebling street from Broadway to Lee avenue, in the Borough of Brooklyn, be rescinded.

Respectfully submitted,

H. A. METZ,

Comptroller.

P. F. McGOWAN,

President, Board of Aldermen.

BIRD S. COLER,

President, Borough of Brooklyn.

The Comptroller asked unanimous consent for the present consideration of a resolution fixing a hearing for January 11, 1907.

No objection being made, the following resolutions were adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by discontinuing and closing the proposed extension of Bedford avenue, from the intersection of the present Bedford avenue to the intersection of Broadway and Havemeyer street, and the triangular public place at Lee avenue and Hewes street and at Division avenue, Marcy avenue and Ross street; widening Roebling street between the southerly side of Broadway and the northerly side of Division avenue;

Laying out a public place, bounded by the easterly side of Roebling street, between Broadway and Division avenue, extending southwardly in a straight line to the north-easterly side of Lee avenue, and the area included between this extension of Roebling street, the northeasterly side of Lee avenue and the southerly side of Division avenue;

Widening Taylor street, between the southwesterly side of Lee avenue and the northeasterly side of Bedford avenue, in the Borough of Brooklyn, City of New York, more particularly described as follows:

1. The proposed extension of Bedford avenue, from the intersection of the present Bedford avenue and Heyward street to the intersection of Broadway and Havemeyer street, as laid out by resolution adopted by the Board of Estimate and Apportionment on February 10, 1905; together with the triangular public place at Lee avenue and Hewes street and at Division avenue, Marcy avenue and Ross street, laid out by the Board of Estimate and Apportionment on March 31, 1905, to be discontinued and closed.

2. Roebling street, between the southerly side of Broadway and the northerly side of Division avenue, to be widened by adding twenty (20) feet to its westerly side, making the street one hundred (100) feet in width.

3. The easterly side of Roebling street, between Broadway and Division avenue, to be extended southwardly in a straight line to the northeasterly side of Lee avenue, and the area included between this extension of the easterly side of Roebling street, the northeasterly side of Lee avenue and the southerly side of Division avenue, to be laid out as a public place.

4. Taylor street, between the southwesterly side of Lee avenue and the north-easterly side of Bedford avenue, to be widened by adding thirty (30) feet to its southeasterly side, making the street one hundred (100) feet in width.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 11th day of January, 1907, at 10.30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD and the corporation newspapers for ten days continuously, Sundays and legal holidays excepted, prior to the 11th day of January, 1907.

Affirmative—The Mayor, the Comptroller and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—13.

#### CLOSING CABOT STREET, ETC., THE BRONX.

The President of the Borough of The Bronx, as chairman of the committee to which was referred on December 14 the matter of closing Cabot street, from Leggett

avenue to the East river, and laying out the same street anew; laying out Barry street, from Leggett avenue to the Eastern Boulevard; closing Dupont street, from Leggett avenue to the East river, and relaying out the said street, from Leggett avenue to the Eastern Boulevard, made a verbal report in favor of approving the proposed changes, and asked unanimous consent for the present consideration of the resolution.

No objection being made, the following was adopted:

Whereas, At a meeting of this Board, held on the 23d day of November, 1906, resolutions were adopted proposing to change the map or plan of The City of New York so as to discontinue Cabot street from Leggett avenue to the bulkhead line of the East river, as shown by the final maps, and to relay out the same in such a manner that its westerly side coincides with the property line of the New York, New Haven and Hartford Railroad and adjoins Leggett avenue at the abutment of the bridge over the tracks of the railroad, its width to be 80 feet; lay out Barry street from Leggett avenue to the Eastern Boulevard at a width of 60 feet, so that its westerly line shall be 220 feet east of the easterly line of Cabot street; discontinue and close Dupont street from Leggett avenue to the bulkhead line of the East river, as shown on the final maps, and to relay out the same from Leggett avenue to the Eastern Boulevard at a width of 60 feet, its westerly line to be 220 feet east of the easterly line of Barry street, in the Borough of The Bronx, City of New York, and appointing a hearing at a meeting of this Board to be held on the 14th day of December, 1906, at 10.30 o'clock a. m., at which meeting such proposed action would be considered by this Board, and requesting a notice to all persons affected thereby of the aforesaid time and place at which such proposed action would be considered to be published in the CITY RECORD for ten days prior to the 14th day of December, 1906; and

Whereas, It appears from the affidavits of the Supervisor of the City Record that the aforesaid resolutions and notice have been published in the CITY RECORD for ten days prior to the 14th day of December, 1906; and

Whereas, At the aforesaid time and place a public hearing was given to all persons interested in such proposed change who have appeared, and such proposed change was duly considered by this Board; now therefore be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter, as amended, deeming it for the public interest to change the map or plan of The City of New York by

1. Discontinuing Cabot street from Leggett avenue to the bulkhead line of the East river, as shown by the final maps, and relaying out the same in such a manner that its westerly side coincides with the property line of the New York, New Haven and Hartford Railroad and adjoins Leggett avenue at the abutment of the bridge over the tracks of the railroad, its width to be 60 feet;

2. Laying out Barry street from Leggett avenue to the Eastern Boulevard at a width of 60 feet, so that its westerly line shall be 220 feet east of the easterly line of Cabot street;

3. Discontinuing and closing Dupont street from Leggett avenue to the bulkhead line of the East river, as shown on the final maps, and laying out the same from Leggett avenue to the Eastern Boulevard at a width of 60 feet, its westerly line to be 220 feet east of the easterly line of Barry street, in the Borough of The Bronx, City of New York, does hereby favor the same, so as to discontinue, close and lay out the aforesaid streets in accordance with map or plan submitted by the President of the Borough of The Bronx, dated May 22, 1906.

Affirmative—The Mayor, the Comptroller and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—13.

#### VESTING TITLE TO EAST TWO HUNDRED AND TWENTY-SECOND STREET, THE BRONX.

The President of the Borough of The Bronx asked unanimous consent for the present consideration of a communication asking the Board to fix a date for vesting title in the City to East Two Hundred and Twenty-second street, from the Bronx river to the Hutchinson river, in the Borough of The Bronx.

No objection being made, the following communication was presented and referred to the Chief Engineer:

OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,  
December 20, 1906.

Board of Estimate and Apportionment, Hon. GEORGE B. McCLELLAN, Chairman:

DEAR SIR—At the meeting of the Local Board of Chester, Twenty-fifth District, held on the 20th day of December, 1906, said Board respectfully recommended to the favorable consideration of the Board of Estimate and Apportionment that a date be fixed for vesting title to East Two Hundred and Twenty-second street, from Bronx river to the Hutchinson river, as two petitions for regulating, grading, etc., of this street are about to be initiated by the Local Board of Chester.

Estimated cost of regulating, grading, etc.....	\$330,600 00
Assessed value of the real estate within the probable area of assessment	is .....
	783,780 00

Twenty-four owners of property have signed the petition in favor of the improvement, and no one appeared in opposition at the hearings.

The vesting of title to this street is especially urged, so that further buildings may not be erected on the line of the street as laid out on the map of The City of New York.

Respectfully,

LOUIS F. HAFFEN,

President, Borough of The Bronx.

On motion of the President of the Borough of Manhattan, the Board adjourned to January 4, 1907.

JOSEPH HAAG, Secretary.

Preambles and resolutions were adopted, as follows:

Whereas, The Committee on Buildings is in receipt of the following estimate from a contractor for additional work under his contract, as follows:

Estimate of John Kennedy & Son, contractor for the general construction of Eastern District High School, Brooklyn, \$8,300 (for building a coal vault under the sidewalk and increasing size of heating chamber); and

Whereas, The Superintendent of School Buildings reports that this estimate is reasonable and that the work is necessary; therefore be it

Resolved, That the sum of eight thousand three hundred dollars (\$8,300) be and the same is hereby appropriated from the proceeds of Corporate Stock to be issued by the Comptroller, pursuant to sections 47 and 169 of the revised Charter, application for the issue of which is hereby made; said sum to be applied in full payment for extra cost to John Kennedy & Son, contractors, for additional work in connection with their contract as hereinbefore stated, requisition for said sum being hereby made upon the Comptroller.

Whereas, A duly authorized advertisement has been inserted in the CITY RECORD and other corporation papers for the sale of used and discarded furniture, building materials, etc., in the storehouse at No. 426 East One Hundred and Tenth street, Manhattan, which is of no further value to this Department; and

Whereas, No proposals have been received in response to said advertisement; and

Whereas, It is absolutely essential that the old furniture and materials be disposed of prior to the expiration of the lease of the premises on January 6, 1907; therefore be it

Resolved, That the Superintendent of School Buildings be and he hereby is authorized to employ a public auctioneer to sell said furniture, materials, etc., at public auction on the premises after advertisement thereof.

A question having been raised as to the legality of the employment of a public auctioneer for the purpose mentioned in the foregoing preamble and resolution, the matter was referred to the Committee on By-Laws and Legislation, which reported that such employment is authorized by section 1066 of the Charter.

Whereas, After very careful consideration, it has been found that the site at Charlotte avenue and Seventh street, North Woodside, Borough of Queens, which was selected by the former school trustees and contracted for prior to consolidation, is swampy and unavailable for school purposes; therefore be it

Resolved, That the site at Charlotte avenue and Seventh street, North Woodside, Borough of Queens, be, and it is hereby, turned over to the Commissioners of the Sinking Fund.

Whereas, Mr. William Julian, Janitor of Public School 11, Borough of Brooklyn, died on December 6, 1906; and

Whereas, Mr. Julian was in the employ of the Board of Education for 18 years, during which time he rendered faithful and satisfactory service; therefore be it

Resolved, That the Board of Education hereby places on record an expression of its sorrow at the death of Mr. Julian; and be it further

Resolved, That a copy of the foregoing preamble and resolution be transmitted to the family of Mr. Julian.

On motion, all absent members were excused for non-attendance at this meeting.

On motion, the Board adjourned at 5:45 o'clock p. m.

A. EMERSON PALMER, Secretary.

Dr. S. T. Armstrong, the General Medical Superintendent, reported as follows:

From December 16 to December 22, inclusive, 37 operations were performed at Bellevue, 9 at Gouverneur, 9 at Harlem, and 2 at Fordham Hospital, at all of which the Attending Surgeons or their assistants were present.

It is estimated that the materials for an additional dormitory at Bellevue Hospital and the labor for its erection will cost \$3,200. As this is cheaper than the Ducker Company's estimate, when the items of heating and plumbing are considered, it is recommended that specifications be prepared at a cost not to exceed \$150 and sent to the Building Department for approval.

It is recommended that a pipe trench be constructed in the floor of the clothes room to hold the steam and water pipes for dormitory 50. The lowest estimate on this work is \$67, and it is recommended that it be accepted.

It is recommended that the estimate of Messrs. Duparquet, Huot & Moneuse to install a dish washing machine in the new Fordham Hospital be accepted and that the work be done while that firm is attending to the kitchen equipment.

Authority is requested to have the ambulance horses shod during the coming year at a price not to exceed \$6.50 each. Authority is also requested to accept the proposal of Carll Smith's Sons to remove manure from Bellevue, Gouverneur and Harlem Hospitals during the year 1907 at \$240.

On motion, duly seconded, it was

Resolved, That plans and specifications be prepared for an additional dormitory for the men employees at Bellevue Hospital at a cost not to exceed \$150.

On motion, duly seconded, it was

Resolved, That the estimate of M. O'Dwyer on constructing a pipe trench in the floor of the clothes room be accepted, his estimate of \$212 being the lowest of those received.

On motion, duly seconded, it was

Resolved, That the estimate of C. W. Klappert's Sons on erecting a partition in the Out Patient Department be accepted, their estimate of \$67 being the lowest received.

On motion, duly seconded, it was

Resolved, That the estimate of Messrs. Duparquet, Huot & Moneuse on installing a dish washing machine be accepted, the charge for the same, \$425, to be from the fund of \$30,000 for furnishing and equipping for service the new Fordham Hospital.

On motion, duly seconded, it was

Resolved, That the estimates of Daniel Pollard, John H. Cooper, Joseph P. Carr and George F. Scherb to shoe the ambulance horses at Bellevue, Gouverneur, Fordham and Harlem hospitals, respectively, at \$6.50 each, during the year 1907, be accepted.

On motion, duly seconded, it was

Resolved, That the proposal of Carll Smith's Sons to remove manure from the stables of Bellevue, Gouverneur and Harlem hospitals, during the year 1907, at \$240, be accepted.

#### Reports of Committees.

Mr. Sachs reported upon the subject of the request presented by the East Side Citizens and Taxpayers' Association for the continuance of the present Harlem Hospital, and, on motion, duly seconded, it was

Resolved, That a committee consisting of the President, Mr. Sachs, Mr. Tierney and Mr. Robbins, be appointed to see the Mayor in relation to the matter.

The President reported informally that the Board of Estimate and Apportionment had refused to allow the Board of Trustees to reject the bid of John Benney on erecting balconies for Pavilions A and B of the new Bellevue Hospital.

On motion, duly seconded, it was

Resolved, That the bids on the erection of balconies for Pavilions A and B of the new Bellevue Hospital received on November 14 be and they hereby are rejected by the Board of Trustees, and that advertisements be again inserted in the CITY RECORD calling for bids upon this work, said bids to be opened on Friday, January 11, 1907.

Dr. S. T. Armstrong, the General Medical Superintendent, reported as follows:

From December 23 to December 29, inclusive, 24 operations were performed at Bellevue, 4 at Gouverneur, 8 at Harlem and 4 at Fordham, at all of which the attending surgeons or their assistants were present.

The John H. Parker Company reports that it is impossible to state how long it will take to use up the material stored on the grounds of Bellevue Hospital, as it has not been possible to lay brick recently on account of the rain and frost.

It is recommended that an expenditure of \$169 be authorized for books for the medical libraries of the several hospitals from the appropriation for 1906.

Authority is requested for the purchase of one hundred and fifty beds from F. A. Hall at \$6 each for Bellevue Hospital. Mr. Hall was the lowest bidder on supplying beds to Gouverneur, Harlem and Fordham hospitals, and by purchasing from him the City will get the benefit of the lowest contract price.

Authority is requested for the purchase of one hundred and fifty bedside stands for Bellevue Hospital, at \$4.75 each, from the Hospital Supply Company, the lowest bidder on these stands for the allied hospitals.

On motion, duly seconded, it was

Resolved, That the John H. Parker Company be informed that the ground south of the tennis court, now used for storing its materials, is needed by the hospital, and the Trustees request that it be vacated as soon as possible.

On motion, duly seconded, it was

Resolved, That the sum of \$169 be expended for books for the medical libraries of Bellevue, Gouverneur, Harlem and Fordham hospitals.

On motion, duly seconded, it was

Resolved, That authority be given the General Medical Superintendent to purchase one hundred and fifty beds from F. A. Hall at \$6 each and one hundred and fifty bedside stands from the Hospital Supply Company at \$4.75 each, for use in Bellevue Hospital, both firms being willing to supply these articles at the prices quoted in their bids received upon advertisement for equipping the allied hospitals.

#### Reports of Committees.

Dr. Brannan reported receipt of the following bids on December 28, 1906:

For the Lead and Oil Painting of the Plastered Walls and Ceiling Surfaces of the Entire Interior of the New Harlem Hospital.	
Neptune B. Smyth.....	\$4,100 00
M. Giammancheri .....	4,915 00
Joseph Naughton .....	3,387 00
*S. Bossel & D. Spiegel.....	2,700 00
Michael Snee .....	6,780 00
Samuel Weiss .....	3,950 00
Jacob Bernadik .....	5,100 00
Joseph Balaban .....	3,320 00

\*Informal.

The bid of S. Bossel & D. Spiegel being informal, on motion, duly seconded, it was Resolved, That the bid of Joseph Balaban be accepted, it being the lowest bid received; and that the contract for the painting of the interior of the new Harlem Hospital be and the same is hereby awarded to Joseph Balaban, No. 2065 Ryer avenue, The Bronx, subject to the approval of the sureties by the Comptroller of The City of New York, in accordance with the provision of section 420, chapter 10, of the Greater New York Charter.

#### Communications.

A communication dated December 27 was received from the Board of Estimate and Apportionment denying the request of the Board of Trustees for permission to award the contract to any other than the lowest bidder for the erection of additional balconies on Pavilions A and B of the new Bellevue Hospital.

On motion, duly seconded and carried, this communication was placed on file.

A communication dated December 31 was received from the North River Ice Company in regard to its bid of \$4 a ton.

On motion, duly seconded and carried, this communication was placed on file.  
A communication dated December 31 from the John H. Parker Company to the architect of the new Fordham Hospital, Mr. Raymond F. Almirall, in regard to the condition of the floors, walls, etc., at the new Fordham Hospital, was received and placed on file.

A communication dated January 1 with draft of rule for Attending Physicians and Surgeons was received from Dr. George D. Stewart.

On motion, duly seconded and carried, this matter was referred to the Conference Committee on Medical Affairs.

#### Unfinished Business.

Dr. Brannan, to whom was referred at the last meeting the writing of a letter to Messrs. John R. Sheehan & Son informing them that they must complete their work at Gouverneur Hospital within two weeks from date of letter, reported receipt of a letter from Messrs. John R. Sheehan & Co. to the effect that they intend to turn over the hospital to the Board of Trustees on the 15th inst.

#### New Business.

On motion, duly seconded, it was

Resolved, That request be made of the Comptroller to begin the sale of the buildings now standing on the block north of the present Bellevue Hospital at his earliest possible convenience in order to prepare the ground for the erection of the new hospital buildings designed for that site.

On motion, the Board adjourned.

J. K. PAULDING, Secretary.

## POLICE DEPARTMENT.

January 11, 1907.

The following proceedings were this day directed by Police Commissioner Theodore A. Bingham:

On reading and filing communication from John J. Quinn, dated January 10, 1907, declining position of Patrolman in the Police Department,

Ordered, That the appointment of John J. Quinn as Patrolman on probation be and is hereby revoked.

Ordered, That the proceedings of the Police Commissioner of January 8, 1907, in relation to premises at Greenwich and Washington streets, and turning over the premises at the northeast corner of Church and Liberty streets to the Commissioners of the Sinking Fund, be amended so that the same shall read as follows:

On reading and filing communication from the Comptroller, dated January 5, 1907, stating that the Board of Estimate and Apportionment, at a meeting held January 4, 1907, adopted a resolution authorizing the acquisition of the premises Nos. 156 and 158 Greenwich street, and Nos. 163 and 165 Washington street, Borough of Manhattan, for the use of the Police Department as a station house for the Second Precinct.

Ordered, That, in the event that title to such premises is vested in the City, under the provisions of section 205 of the Greater New York Charter, the premises on the northeast corner of Liberty and Church streets, in the Borough of Manhattan, now occupied as a station house for the Second Police Precinct, be turned over to the Commissioners of the Sinking Fund to be sold at public auction to the highest bidder under the following conditions: First, the price to be not less than \$330,000; and, second, the Police Department to retain possession of the said premises, free of all charges, cost and expenses, until May 1, 1909.

Ordered, That requisition be and is hereby made upon the Municipal Civil Service Commission for an eligible list to enable the Police Commissioner to appoint four male Cleaners for duty in the Borough of Manhattan, with compensation at the rate of \$600 per annum.

Ordered, That the Municipal Civil Service Commission be respectfully informed as to the persons whose names appear on eligible list dated December 26, 1906, that Florence E. #### DEPARTMENT OF CORRECTION.

CORPORATION SALE OF BUILDINGS, WALLS AND APPURTENANCES THERE-TO, OWNED BY THE CITY OF NEW YORK.

BRYAN L. KENNELLY, Auctioneer.

PURSUANT TO THE PROVISIONS OF chapter 173 of the Laws of 1905, public notice is hereby given that the Commissioner of the Department of Correction, by virtue of the powers vested in him by law, will offer for sale at public auction the buildings, walls and appurtenances thereto, standing upon property formerly owned by The City of New York and known as the Kings County Penitentiary, said buildings, walls and appurtenances being situated in the Borough of Brooklyn and erected upon land within the area of the following property:

Bounded by the northerly side of Sullivan street, the easterly side of Rogers avenue, the southerly side of President street and the westerly side of Nostrand avenue, in the Borough of Brooklyn, the sale of the above-described buildings, walls and appurtenances thereto will be made under my supervision on

FRIDAY, FEBRUARY 8, 1907,

at 11 a. m., on the premises, and will be sold for the highest marketable price at public auction on the following

TERMS AND CONDITIONS.  
The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price, as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls, shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork, of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible mater, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam-holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

Notice is hereby given that pursuant to the provisions of chapter 173 of the Laws of 1905, the buildings, etc., disposed of at this sale are for the purpose of demolition, and all purchasers will be liable for damage sustained by the failure to remove the buildings, etc., prior to April 1, 1907; the bidder's assent to the above condition being understood by the act of bidding.

The Commissioner of the Department of Correction reserves the right, on the day of the sale, to withdraw from sale any of the buildings, walls or appurtenances thereto included in this sale.

JOHN V. COGGEY,  
Commissioner.

Dated January 22, 1907, Department of Correction, City of New York. j23,f8

SEALED BIDS OR ESTIMATES WILL BE received by the Police Commissioner of the City of New York at the above office until 10 o'clock a. m. on

MONDAY, JANUARY 28, 1907,

FOR FURNISHING ALL THE LABOR AND ERECTING ALL THE MATERIALS NECESSARY TO BUILD AND COMPLETE THE NEW STATION HOUSE, PRISON AND STABLE FOR THE NINETEENTH PRECINCT, ON THE GROUND AND PREMISES IN THE CITY OF NEW YORK ON THE SOUTH SIDE OF WEST THIRTIETH STREET, 253 FEET EASTERLY FROM SEVENTH AVENUE, BOROUGH OF MANHATTAN.

The time allowed for making and completing the entire work will be two hundred and forty (240) days.

The surety required will be Fifty Thousand Dollars (\$50,000).

Bidders are particularly requested to examine the plans, specifications and location of the work before bidding, and they are expressly notified that no deviation from the specifications will be allowed, unless the same has been previously authorized by a written permission therefor obtained from the Police Commissioner.

For particulars as to the quantity and quality of the supplies or the nature and extent of the work required or of the materials to be furnished, bidders are referred to the specifications and lists of materials, supplies and apparatus to be furnished, and to the plans on file at the office of R. Thomas Short, Architect, Nos. 3 and 5 West Twenty-ninth street, Borough of Manhattan, where blank forms for making bids or estimates may be obtained.

The bidder shall state one aggregate price for the whole work described and specified, as the contract is entire and for a complete job.

Bidders will write out the total amount of their estimates in addition to inserting the same in figures.

Dated January 16, 1907.

THEODORE A. BINGHAM,  
Police Commissioner.

## DEPARTMENT OF FINANCE.

CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO SITUATED ON LAND OWNED BY THE CITY OF NEW YORK.

AT THE REQUEST OF THE COMMISSIONER of the Department of Bridges, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, machinery, etc., standing upon property owned by The City of New York, acquired by it for the use of the Department of Bridges, said buildings being situated in the Borough of Manhattan and erected upon property known as follows:

Being the buildings situated within the area of the block bounded by the northerly side of East Fifty-ninth street, the westerly side of Second avenue, the easterly side of First avenue and the southerly side of East Sixtieth street, in the Borough of Manhattan;

And also the buildings situated within the area of the block bounded by the northerly side of East Fifty-ninth street, the westerly side of First avenue, the southerly side of East Sixtieth street and the westerly side of the anchorage of the Blackwell's Island Bridge, in the Borough of Manhattan.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance, on

THURSDAY, FEBRUARY 28, 1907,

at 11 a. m., on the premises, on the following

TERMS AND CONDITIONS.

It being understood that the purchasers, at the time of the auction sale, when said bid is accepted by the City, shall execute a contract with The City of New York for the proper compliance with these terms and conditions, which contract shall provide for liquidated damages at so much per day for failure of the purchaser to complete his contract in accordance with these terms and conditions. A copy of said contract is on file in the office of the Collector of City Revenue, Department of Finance, Room 147, No. 280 Broadway, Borough of Manhattan.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or as portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and

sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all plaster, furrings, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

H. A. METZ,  
Comptroller.

NOTICE OF ASSESSMENTS FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF the Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau of the Collection of Assessments and Arrears of the assessment for OPENING AND ACQUIRING TITLE to the following-named street in the BOROUGH OF THE BRONX:

TWENTY-FOURTH WARD, SECTION 11.

EAST ONE HUNDRED AND EIGHTY-FIFTH STREET—OPENING, from Washington avenue to Third avenue. Confirmed January 26, 1905, and April 18, 1905; entered January 21, 1907. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at the point of intersection of a line parallel to and 100 feet southwesterly from the southwesterly line of East One Hundred and Eighty-fourth street with the easterly line of Park Avenue East; running thence northerly along the easterly line of Park Avenue East to its intersection with a line parallel to and distant 100 feet northerly from the northerly line of East One Hundred and Eighty-sixth street; thence easterly along said parallel line and its easterly prolongation to its intersection with a line parallel to and 100 feet east of Bathgate avenue; thence southwesterly along said parallel line to its intersection with the middle line of the blocks between Third avenue and East One Hundred and Eighty-seventh street; thence southeasterly along said middle line to its intersection with a line parallel to and distant 100 feet southeasterly from the southeasterly line of Lorillard place; thence southwesterly along said parallel line to its intersection with a line parallel to and distant 100 feet easterly from the easterly line of Belmont place; thence southerly along said parallel line to its intersection with the northwesterly line of Arthur avenue; thence southwesterly along said line of Arthur avenue and its prolongation to its intersection with a line parallel to and 100 feet southwesterly from the southwesterly line of Belmont place; thence northwesterly along said parallel line and its northwesterly prolongation to its intersection with a line parallel to and distant 100 feet northwesterly from the northwesterly line of Third avenue; thence northeasterly along said parallel line to its intersection with a line parallel to and 100 feet southwesterly from the southwesterly line of East One Hundred and Eighty-fourth street; thence northwesterly along said parallel line to the point or place of beginning.

The above-entitled assessment was entered on the date hereinafter given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provides that "If any such assessment shall remain unpaid for the period of sixty days after the date of entry thereof in the said Record of Titles of Assessments, it shall be the duty of the officer authorized to collect and receive the amount of such assessment to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessment became a lien, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, corner of One Hundred and Seventy-seventh street and Third avenue, Borough of The Bronx, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. to 12 m., and all payments made thereon on or before March 22, 1907, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when above assessment became a lien to the date of payment.

#### CONDITIONS OF SALE.

As provided for by the Greater New York Charter.

1. Proposals containing conditions other than those herein set forth will not be received or considered.

2. No proposal for Stock or Bonds shall be accepted for less than the par value of the same.

3. Every bidder, as a condition precedent to the reception or consideration of his proposal, shall deposit with the Comptroller in money or by a certified check drawn to the order of said Comptroller upon a solvent banking corporation, two per cent. of the par value of the Stock or Bonds bid for in said proposal.

No proposal will be received or considered which is not accompanied by such deposit.

All such deposits shall be returned by the Comptroller to the persons making the same within three days after the decision has been rendered as to who is or are the highest bidder or bidders, except the deposit made by the highest bidder or bidders.

4. If said highest bidder or bidders shall refuse or neglect, within five days after service of written notice of the award to him or them, to pay to the City Chamberlain the amount of the Stock or Bonds awarded to him or them at its or their par value, together with the premium thereon, less the amount deposited by him or them, the amount or amounts of deposit thus made shall be forfeited to and retained by said City as liquidated damages for such neglect or refusal, and shall thereafter be paid into the Sinking Fund of The City of New York for the Redemption of the City Debt.

5. Upon the payment into the City Treasury by the persons whose bids are accepted of the amounts due for the Stock or Bonds awarded to them respectively, certificates thereof shall be issued to them in such denominations provided for by the Charter as they may desire.

6. It is required by the Charter of the City that "every bidder may be required to accept a portion of the whole amount of Bonds or Stock bid for by him at the same rate or proportional price as may be specified in his bid; and any bid which conflicts with this condition shall be rejected; provided, however, that any bidder offering to purchase all or any part of the Bonds offered for sale at a price at par or higher may also offer to purchase all or none of said Bonds at a different price, and if the Comptroller deems it to be in the interests of the City so to do, he may award the Bonds to the bidder offering the highest price for all or none of said Bonds; provided, however, that if the Comptroller deems it to be in the interests of the City so to do, he may reject all bids." Under this provision the condition that the bidder will accept only the whole amount of Stock or Bonds bid for by him, and not any part thereof, cannot be inserted in any bids, except those for "all or none" offered by bidders who have also bid for "all or any part" of the Stock or Bonds offered for sale.

7. The proposals, together with the security deposits, should be enclosed in a sealed envelope, indorsed "Proposals for Bonds of The City of New York," and said envelope enclosed in another sealed envelope addressed to the Comptroller of The City of New York.

HERMAN A. METZ, Comptroller.

#### CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

**PUBLIC NOTICE IS HEREBY GIVEN** that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for the use of the Board of Trustees of the Bellevue and Allied Hospitals, said buildings being situated in the

**Borough of Manhattan**

and being described as follows: All the buildings situated upon land within the area of the block bounded by East Twenty-eighth street, East Twenty-ninth street, First avenue and the East river, lying north of the Bellevue Hospital, in the Borough of Manhattan.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance, on

**FRIDAY, JANUARY 25, 1907,**

at 11 a. m., on the premises, on the following

#### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stumps and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

## CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO ON CITY REAL ESTATE.

WILLIAM H. SMITH, Auctioneer.

PUBLIC NOTICE IS HEREBY GIVEN that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing upon property owned by The City of New York, acquired for the use of the Board of Education, said buildings being situated in the

## Borough of Brooklyn

and being bounded and described as follows: Beginning at a point formed by the intersection of the northerly line of St. Mark's avenue with the westerly line of the lands of Public School 42, which point is distant 200 feet westerly from the westerly line of Classon avenue, and running thence northerly along the westerly line of the lands of Public School 42 one hundred and fifty-seven (157) feet; thence westerly and parallel with St. Mark's avenue 25 feet; thence southerly and parallel with Classon avenue 157 feet to the northerly line of St. Mark's avenue; thence easterly along the northerly line of St. Mark's avenue 25 feet to the westerly line of the lands of Public School 42, the point or place of beginning.

By direction of the Comptroller the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance, on

WEDNESDAY, JANUARY 23, 1907,

at 11 a. m., on the premises, on the following

## TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must either give a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb, and structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall be torn down to the same level. All partitions, sheds and fences shall be removed from

the premises. All brick laid in mortar, all floor beams, joists, studdings, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as far and felt roofing, broken laths and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away. The purchaser at the sale shall also shut off and cap all water pipes, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity.

Failure to remove said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder.

Party walls and fences when existing against adjacent property not sold shall not be taken down, but all plaster, furrings, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting without the aid of braces, the beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water-tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

H. A. METZ,

Comptroller.

## FIRST DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired, to the lands, tenements and hereditaments required for the opening and extending of FOX STREET (although not yet named by proper authority), from Prospect avenue to Leggett avenue, in the Twenty-third Ward, Borough of The Bronx, City of New York.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our supplemental and amended estimate of assessment for benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 11th day of February, 1907, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 14th day of February, 1907, at 2 o'clock p. m.

Second—That the abstract of our said supplemental and amended estimate of assessment for benefit, together with our benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 13th day of February, 1907.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz:

Beginning at the point of intersection of the easterly line of Anthony avenue with the southerly boundary line of those lots in Block 2888 fronting on the southerly side of East One Hundred and Seventy-third street; running thence easterly along said line and its easterly prolongation to its intersection with the westerly line of Webster avenue; thence northerly along the westerly line of Webster avenue to its intersection with the southerly line of Tremont avenue; thence northerly to the point of intersection of the southerly line of Tremont avenue and the southerly prolongation of the westerly line of Ryer avenue; thence southerly along said prolongation of Ryer avenue to its intersection with the northerly line of East One Hundred and Seventy-sixth street; thence southerly to a point in the southerly line of East One Hundred and Seventy-sixth street distant 314.97 feet easterly from Anthony avenue; thence southerly along the westerly boundary line of the lots facing Carter avenue in Block 2892, and also along the base of the retaining wall lying south of East One Hundred and Seventy-fifth street and west of Carter avenue to the southerly end thereof; thence westerly on a line at right angles to Carter avenue to the easterly line of Anthony avenue; thence southerly along said line of Anthony avenue to the point or place of beginning, as such streets are shown upon the final maps and profiles of the Twenty-third and Twenty-fourth Wards of The City of New York, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to said supplemental and amended abstract of assessment for benefit, our supplemental and amended last partial and separate final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 21st day of March, 1907, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to said supplemental and amended abstract of estimate of assessment for benefit the notice of motion to confirm our supplemental and amended last partial and separate final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have theretofore appeared in this proceeding, as well as by publication in the City Record, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

WE, THE UNDERSIGNED COMMISSIONERS of Estimate and Assessment in the above-entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That we have completed our estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 7th day of February, 1907, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 11th day of February, 1907, at 2 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by us in making the same, have been deposited in the Bureau of Street Openings, in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 8th day of February, 1907.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point formed by the intersection of a line parallel to and distant one hundred (100) feet southerly of the southerly line of an unnamed street and the easterly line of Sedgwick avenue; running thence northerly along said easterly line of Sedgwick avenue to its intersection with a line parallel to and distant one hundred (100) feet east of the easterly line of East One Hundred and Sixty-seventh street; thence southerly along said parallel line to its intersection with a line at right angles to the westerly line of East One Hundred and Sixty-seventh street at a point midway between Lind avenue and Lawrence avenue; thence westerly along said line at right angles to East One Hundred and Sixty-seventh street to its intersection with a line parallel to and distant one hundred (100) feet west of the westerly line of East One Hundred and Sixty-seventh street; thence southerly along said parallel line with its intersection with a line parallel to and distant one hundred (100) feet westerly of the westerly line of Lind avenue; thence again southerly along said last-mentioned parallel line to its intersection with a line at right angles to the westerly line of Lind avenue at a point midway between Lawrence avenue and East One Hundred and Sixty-seventh street; thence easterly along said line at right angles to Lind avenue to its intersection with a line parallel to and distant one hundred (100) feet easterly of the easterly line of Lind avenue; thence southerly along said last-mentioned parallel line to its intersection with a line parallel to and distant one hundred (100) feet south of the southerly line of East One Hundred and Sixty-fifth street; thence westerly along said parallel line to its intersection with the easterly prolongation of a line parallel to and distant one hundred (100) feet southerly of the southerly line of an unnamed street; thence westerly along said easterly prolongation and parallel line to the point or place of beginning, excepting from said area all streets, avenues and roads or portions thereof heretofore legally opened, as such area is shown upon our benefit maps deposited as aforesaid.

Fourth—That, provided there be no objections filed to either of said abstracts, our final report herein will be presented for confirmation to the Supreme Court of the State of New York, First Department, at a Special Term thereof, Part III., to be held in the County Court House, in the Borough of Manhattan, in The City of New York, on the 3d day of April, 1907, at the opening of the Court on that day.

Fifth—In case, however, objections are filed to either of said abstracts of estimate and assessment, the notice of motion to confirm our final report herein will stand adjourned to the date to be hereafter specified, and of which notice will be given to all those who have heretofore appeared in this proceeding, as well as by publication in the CITY RECORD, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

## SUPREME COURT—SECOND DEPARTMENT.

## SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title to CHURCH AVENUE, from Flatbush avenue to East Eleventh street, in the Twenty-ninth Ward, in the Borough of Brooklyn, The City of New York.

**NOTICE IS HEREBY GIVEN THAT WE,** the undersigned, were appointed by an order of the Supreme Court, made and entered herein on the 1st day of December, 1905, and duly filed in the office of the Clerk of Kings County, a copy of which order was filed in the office of the Register of the County of Kings in the Index of Conveyances in section No. 16, Blocks 5072, 5073, 5074, 5075, 5076, 5077, 5078, 5079, 5080, 5081, 5082, 5092, 5093, 5094, 5095, 5096, 5097, 5098, 5099, 5100, 5101 and 5102 Commissioners of Estimate and Assessment for the purpose of making a just and equitable estimate of the loss and damage, if any, to the respective owners, lessees, parties and persons entitled to or interested in the lands and premises to be taken for the purpose of opening the said street or avenue, as particularly described in the petition of The City of New York, filed with said order in the office of the Clerk of Kings County, and for the purpose of making a just and equitable assessment of the benefit of said street or avenue so to be opened to the respective owners, parties and persons respectively entitled to or interested in the lands and premises and not required for the purpose of opening said street or avenue, but benefited thereby, and of ascertaining and defining the district benefited by said assessment, and the extent and boundaries of the respective tracts and parcels of land participating in said benefit, and of performing the trusts and duties required of us by title 4 of chapter 17 of the Charter of The City of New York, and the acts or parts of acts supplementary thereto or amendatory thereof.

All parties and persons interested in the lands and premises taken or to be taken for the purpose of opening said street or avenue, or affected thereby, and having any claim or demand on account thereof, are hereby required to present the same, duly verified, to us, the undersigned Commissioners of Estimate and Assessment, at our office in the Bureau of Street Openings of the Law Department, No. 166 Montague street, Borough of Brooklyn, in the City of New York, with such affidavits or other proofs as the said owner or claimants may desire, within twenty days after date of this notice.

And we, the said Commissioners, will be in attendance at our said office on the 18th day of February, 1907, at 4 o'clock in the afternoon of that day, to hear the said parties and persons in relation thereto; and at such time and place, and at such further or other time and place as we may appoint, we will hear such owners in relation thereto and examine proofs of such claimant or claimants, or such additional proofs and allegations as may then be offered by such owner, or on behalf of The City of New York.

## PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

## NOTICE TO CONTRACTORS.

## GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
