The City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Arsenal, Central Park, October 10, 1911.

To the Honorable, The Board of Aldermen, The City of New York:

Gentlemen—Owing to the mandatory increase of fifty cents per day for Laborers, and the necessity of continuing the employment of Laborers at the Children's School Farms in DeWitt Clinton Park and Thomas Jefferson Park, through the entire year, the Park Department is facing a deficiency of $1,283.44 for salaries of Attendants, which, for lack of special revenue bonds, will compel the closing of the School Farms at an early date, at a time when most important work is being done daily with vast numbers of school children. For instance, from the morning of September 20 to the close of September 27, for one week, 7,203 individual children made use of the Thomas Jefferson Park garden.

The Chairman pro tem. laid before the Board the following communication from the Trustees of Bellevue and Allied Hospitals:

No. 4653.

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st ave. and 26th st., New York, October 5, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen, New York City:

Sir—The Commission on Standardization recommended that a central store be established at Bellevue Hospital to receive all supplies, and that these be distributed by the Department to the allied hospitals. It is considered by the Commission that this will result in a saving to the hospitals, particularly as it will allow all meats to be purchased in carcass form. In order to distribute the supplies satisfactorily it will be necessary to obtain an electric truck, and provision therefor has been made in the Departmental Estimate for 1912, and authority of the Board of Aldermen is requested to purchase an electric truck without public letting at a cost not to exceed $4,000.

Respectfully, J. K. PAULDING, Secretary, Board of Trustees.

Which was referred to the Committee on Public Letting.

The Chairman pro tem. laid before the Board the following communications from the President, Borough of Richmond:

No. 4654.

Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, October 7, 1911.

Honorable Board of Aldermen, City Hall, New York:

Gentlemen—In the Bureau of Engineering-Construction of this office certain employees are engaged in work in the more remote parts of the Borough along the line of the steam railroad, and it has been the custom heretofore to supply these men with railroad tickets purchased on an order of this office and paid by voucher through the Finance Department. Due to the requirements of the Finance Department auditors, such as the return of used tickets, etc., considerable delay has been experienced by the railroad in payment of their bills for tickets, and the company objects to this delay.

At the request of the Comptroller, we therefore request your consent for the payment by him to this office in advance certain regular sums of money necessary for these expenditures. We transmit herewith a draft of suggested resolution for this purpose and would ask immediate action, in order that we may pay these bills of this kind already outstanding but held up by the Department of Finance, because of a change in accounting methods. The resolution is so drawn as to enable us at all times to have a little money on hand to cover the usual month's delay in securing successive installments after a report has been made to the Finance Department.

Yours respectfully, GEORGE CROMWELL, President of the Borough.

Resolved, That, for the purpose of defraying minor incidental expenses, consisting of railroad fares, etc., contingent to the Bureau of Engineering-Construction of the President of the Borough of Richmond, the said President of the Borough of Richmond may, by requisition, draw upon the Comptroller for a sum not exceeding $300, and may, in like manner, renew the draft as often as may be deemed necessary, to the extent of the funds set apart for the use of the Bureau of Engineering-Construction in his office; be it further

Resolved, that when an accounting shall have been made to the Comptroller of moneys paid on account of such requisition to the extent of $200 by the transmittal of vouchers certified by the President of the Borough covering such expenditure, the Comptroller be authorized to renew the funds in the hands of the President of the Borough to the extent of the amount expended.

No. 4655.

Office of the President of the Borough of Richmond, Borough Hall, New Brighton, New York City, October 7, 1911.

Honorable Board of Aldermen, City Hall, New York:

Gentlemen—Heretofore it has been the custom of this office to supply railroad tickets to certain employees of the Topographical Bureau of this office engaged in work in the more remote parts of the Borough, said tickets being supplied by the railroad company on an order from this office, and in other cases the tickets were purchased by the men using them, who advanced the money for the tickets. Considerable delay was experienced by both the railroad company and the men in the receipt of the amount of their outlay, and at the suggestion of the Comptroller we request your consent for his paying to this office, in advance, certain regular sums of money necessary for these expenditures. We transmit herewith a draft of suggested resolution for this purpose, and would ask immediate action in order that we may pay bills of this kind already outstanding, but held up by the Department of Finance because of a change in accounting methods. The resolution is so drawn as to enable us to at all times have a little money on hand to cover the usual month's delay in securing successive installments after report has been made to the Finance Department.

Yours respectfully, GEORGE CROMWELL, President of the Borough.

Resolved, That, for the purpose of defraying minor incidental expenses, consisting of railroad fares, etc., contingent to the Topographical Bureau of the President of the Borough of Richmond, the said President of the Borough of Richmond may, by requisition, draw upon the Comptroller for a sum not exceeding $750 and may, in like manner, renew the draft as often as may be deemed necessary, to the extent of the funds set apart for the use of the Topographical Bureau in his office; be it further

Resolved, That when an accounting shall have been made to the Comptroller of moneys paid on account of such requisition to the extent of $500 by the transmittal of vouchers certified by the President of the Borough covering such expenditure, the Comptroller be authorized to renew the funds in the hands of the President of the Borough to the extent of the amount expended.

Which were severally referred to the Committee on Finance.

The Chairman pro tem. laid before the Board the following communications from the Board of Estimate and Apportionment:

No. 4656.

Board of Estimate and Apportionment, City of New York, Office of the Secretary, 277 Broadway, October 9, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment October 5, 1911, authorizing the issue of $596.84 corporate stock for the payment of bill of costs and expenses in the matter of acquiring title to certain lands and premises on Avenue A or Sutton place, 59th and 60th streets and 1st avenue, Manhattan, for bridge purposes.

I also enclose copy of communication from the Comptroller relative thereto.

Yours very truly, JOSEPH HAAG, Secretary.

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York to an amount not exceeding five hundred and ninety-six dollars and eighty-four cents ($596.84), for the purpose of providing means for the payment of the bill of costs and expenses, as taxed by a Justice of the Supreme Court, under date of September 25, 1911, in favor of the Commissioners of Estimate and Appraisal and The City of New York, in the matter of acquiring title by The City of New York to certain lands and premises situated on the westerly side of Avenue A or Sutton place, and the northerly side of 59th street, and the southerly side of 60th street between Avenue A or Sutton place and 1st avenue, in the Borough of Manhattan, in The City of New York, selected with other property for the Blackwells Island Bridge approach, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue corporate stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding five hundred and ninety-six dollars and eighty-four cents ($596.84), the proceeds whereof to be applied to the purposes aforesaid.

The City of New York, Department of Finance, Comptroller's Office, September 29, 1911.

To the Honorable, The Board of Estimate and Apportionment:

Gentlemen—I have been advised by the Corporation Counsel, under date of September 27, 1911, that a bill of costs and expenses has been taxed by a Justice of the Supreme Court, under date of September 25, 1911, in favor of the Commissioners of Estimate and Appraisal, and The City of New York, in the matter of acquiring title by The City of New York to certain lands and premises situated on the westerly side of Avenue A, or Sutton place, and the northerly side of 59th street, and the southerly side of 60th street, between Avenue A, or Sutton place, and 1st avenue, in the Borough of Manhattan, in The City of New York, duly selected with other property for the Blackwells Island Bridge approach, according to law, at the sum of five hundred and ninety-six dollars and eighty-four cents ($596.84).

The Corporation Counsel has advised that this order has been properly taxed and should be paid.

To provide means for the payment of this obligation, corporation stock to the amount of five hundred and ninety-six dollars and eighty-four cents ($596.84) should be issued, pursuant to the provisions of section 47 of the Greater New York Charter.

A resolution for that purpose is herewith submitted.

Respectfully, WM. A. PRENDERGAST, Comptroller.

Which was referred to the Committee on Finance.

No. 4657.

Board of Estimate and Apportionment, City of New York, Office of the Secretary, 277 Broadway, October 9, 1911.

Hon. JOHN PURROY MITCHEL, President, Board of Aldermen:

Dear Sir—I transmit herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment October 5, 1911, recommending the establishment of the grade of position of Secretary to the President, in the office of the Board of Inebriety, with salary at the rate of $1,500 per annum, for one incumbent.

I also transmit copy of report of the Select Committee relative thereto.

Yours very truly, JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment, in the office of the Board of Inebriety of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Secretary to the President	$1,500 00	1

Department of Finance, City of New York, Bureau of Municipal Investigation and Statistics, October 3, 1911.

To the Board of Estimate and Apportionment:

Gentlemen—On September 26, 1911, the President of the Board of Inebriety requested the establishment for the Board, pursuant to the provisions of section 56 of the Greater New York Charter, of the grade of position of Secretary to the President, at $1,500 per annum, for one incumbent.

The President states that the Secretary is to do work of a confidential nature, mainly in handling the large correspondence of the President's office. The President serves without salary, and it seems that he should have the assistance of a Secretary. The rate proposed for the position is reasonable.

We recommend the adoption of the attached resolution approving the request.

Respectfully,

WM. A. PRENDERGAST, Comptroller, JOHN PURROY MITCHEL, President Board of Aldermen; Select Committee.

Which was referred to the Committee on Salaries and Offices.

The Chairman pro tem. laid before the Board the following communication from the President, Borough of Manhattan:

No. 4660.

City of New York, office of the President of the Borough of Manhattan, City Hall, October 10, 1911.

The Honorable Board of Aldermen:

Gentlemen—I respectfully request your Board to grant exemption from public letting in the case of a contract for repaving with improved granite block pavement the roadway of Lafayette st. from the south side of Great Jones st. to the south side of Astor place.

It was decided earlier this year to repave this street, for experimental purposes, partly with English stone and partly with native granite, both to be cut and laid according to the much talked of Liverpool specifications. In pursuance of this plan the work was duly advertised, bids were received on August 28, and the contract was awarded to the lowest bidder, the Republic Construction Company. It now appears, however, that it will be impossible to get the necessary English stone to this country in time to do the work before the winter season. In the meantime, the street has been torn up for the subsurface work which was necessary in advance of the expected repavement, and preparation has also been made by the property owners along the street for the widening of the roadway, in accordance with the recent resolution of the Board of Estimate.

As the time is now too short to permit a readvertisement of the work, the only possible way to put the street in satisfactory condition for the winter is to cancel the award which has been made and to make a new contract at once, without public letting. This will mean the postponement for the present of the experiment with the Liverpool stone, and the use in its place of the improved type of granite block which has been so successfully laid on 4th ave. immediately to the north of Lafayette st.

I find that the necessary arrangements to this end can be made if the consent of your Board to the exemption from public letting can be obtained; and as the street in question is an extremely important one, I respectfully urge that your Board pass the necessary resolution by unanimous consent, upon its first introduction, without the customary reference to Committee. The cost of the work will not exceed $32,000.

Respectfully,

GEORGE McANENY, President of the Borough of Manhattan.

Which was made a Special Order for 2.15 o'clock, p. m.

Subsequently, the hour of 2.15 p. m. having arrived, Alderman Dowling called up the Special Order, and in connection therewith offered the following resolution:

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of Manhattan be, and he is hereby authorized and empowered to enter into a contract, without public letting, for repaving with improved granite block pavement the roadway of Lafayette st. from the south side of Great Jones st. to the south side of Astor place, at a cost not to exceed thirty-two thousand dollars ($32,000).

The Vice-Chairman, then in the chair, put the question whether the Board would agree with said resolution.

The Committee on Finance to which was referred on October 3, 1911 (Minutes, page 632), a request from the Commissioner of Parks, Manhattan and Richmond, for $10,000 special revenue bonds for continuing work in playgrounds and recreation places, respectfully

REPORTS:

That, having examined the subject, it believes the proposed appropriation to be necessary. The statement hereto attached explains the request. The Committee, recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subddivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of ten thousand dollars ($10,000), the proceeds whereof to be used by the Department of Parks, Manhattan and Richmond, for the purpose of continuing the work in the playgrounds, ball fields and other recreation places of the Park Department, Boroughs of Manhattan and Richmond during remainder of 1911.

Office of Supervisor of Recreation, Boroughs of Manhattan and Richmond, Department of Parks, The Arsenal, Central Park, October 10, 1911.

To the Honorable Board of Aldermen, Finance Committee.

Gentlemen—Pursuant to your request of even date that I send you the facts and figures of the Bureau of Recreation, in the Department of Parks, I, beg to advise, that the following are the facts:

The budget request for 1911 for the Bureau of Recreation, Department of Parks, by Commissioner Stover was, $78,000 for Recreation Purposes, and subsequently at the meeting of the Budget Committee was reduced to $59,000, and only $35,000 was finally awarded. This caused the bulk of Playground Attendants during the months of January, February, and March to be placed on half time, and, as they, receive the averaging rates of $2, $3, and $4 per diem, and receive no salary for rainy days; you will readily understand that they were actually without a living wage, during the winter.

When I took charge of the Bureau of Recreation in the month of April, there were but ten playgrounds under the supervision of this bureau in operation. A great many had to be closed for lack of appropriation. During the months of May, June, July, August and September, twenty-seven playgrounds for boys and girls were in operation, and supervised by this Bureau, which necessitated quite an outlay of funds.

The attendance in the Park Playgrounds for 1910 in summer months was 770,000. The attendance for the summer months of 1911, this year was 1,500,000, which almost doubles the attendance of last year.

The attendance for September has reached 400,000, and, we have been forced to close several playgrounds for want of funds up to date. And we, will have to close the entire twenty-seven playgrounds and twenty athletic fields, November 1, if, this $10,000 asked for in special revenue bonds is not appropriated.

Our running expenses are at the rate of over $1,000 a week, of which there are twenty-five Gymnasium Attendants, and forty Playground Attendants. Average wages $2, $3, and $4 per diem.

The following is the list of the monthly expenditures up to October 1, and the balance on hand.

	Attendance Boyys and Girls.	Cost of Supervision.
January	78,607	$1,428 00
February	70,854	1,440 50
March	127,834	1,641 84
April	183,334	1,761 34

June	281,724	3,359 61

August	475,614	5,761 76
September	414,293	5,148 83

Department of Street Cleaning of The City of New York, 13-21 Park Row, New York, September 28, 1911.

Hon. JOHN PURROY MITCHEL, President of the Board of Aldermen, The City of New York:

Sir—Under section 188, subdivision 8 of the Greater New York Charter, I respectfully request your honorable Board to authorize the issue of special revenue bonds to the amount of sixty-seven thousand dollars ($67,000), in order to meet the apparent deficit in the appropriation allowed this department for the year 1911 in the account Administration—Borough of Brooklyn—Special Contract Obligations, Disposal of Ashes, Street Sweepings and Rubbish, including Towing and Unloading and Hired Scows.

The following is a statement of the actual disbursements made from this account during the year 1910 as compared with the first eight months of the year 1911, the remaining four months being estimated on the basis of the four similar months of the year 1910, with an estimated increase figured at the rate of 10 per cent. based on actual calculations for the first eight months of the years 1911.

	1910 Borough Development Company.	1911 Borough Development Company.	Excess over 1910	1910 Harbor Scows.	1911 Harbor Scows.

October	41,588 54	41,588 54	4,158 88	651 00	651 00
(Plus 10 per cent.)		4,158 88			
November	51,773 46	51,773 46	5,177 35	630 00	630 00

	$556,541 43	$615,719 48	$59,178 05	$7,665 00	$7,665 00

The original appropriation allowed in 1911 for the disposition of Ashes, Street Sweepings and Rubbish, including Towing and Unloading and Hired Scows amounted to	$577,665 00
—from which a transfer was authorized by the Board of Estimate and Apportionment on January 16, 1911, to the account Hired Teams, Horses and Carts of	21,000 00
	$556,665 00
The estimated expenditures as stated above represents the sum of	623,384 48
Showing an apparent deficiency on December 31, 1911, of	$66,719 48

The transfer of the sum of twenty-one thousand ($21,000) dollars on January 16, 1911, was made to enable the Department to hire a sufficient number of horses and carts to meet an emergency caused by the accumulation of ashes, etc., during preceding snowfalls.

Owing to the delay consequent to a request to your Honorable Board for the issue of Special Revenue Bonds, I deemed it to the best interest of The City of New York to have this transfer made from available funds at my command with the understanding that later in the year the account from which this emergency draft was made would be reimbursed by the issue of Special Revenue Bonds.

The number of cubic yards of material removed by the contractor in the Borough of Brooklyn during the year 1910 amounted to 1,613,163½, as against 1,784,694 cubic yards estimated for the year 1911, an estimated increase of 171,530 cubic yards at 34½ cents per cubic yard.

This increase in the output of ashes, etc., is due to the added population and a more systematic collection on the part of this Department than in former years.

As these conditions cannot be foreseen, I would request that Special Revenue Bonds be issued to the amount stated. Respectfully,

WM. H. EDWARDS, Commissioner.

FRANK L. DOWLING, FRANCIS P. KENNEY, JOHN DIEMER, JOHN F. WALSH, THOMAS J. McALEER, DANIEL EHNTHOLT, WM. P. KENNEALLY, Committee on Finance.

No. 4580.

The Committee on Finance to which was referred on October 3, 1911, (Minutes, page 644) the annexed request from the Commissioner of Parks, Manhattan and Richmond for $25,000 special revenue bonds to carry laboring force for remainder of 1911, respectfully

REPORTS:

That, having examined the subject, it believes the proposed appropriation to be necessary. The reasons for this allowance are fully set forth in the letter of request.

It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of twenty-five thousand dollars ($25,000)., the proceeds whereof to be used by the Department of Parks, Manhattan and Richmond for the purpose of providing for wages of laboring force for remainder of year 1911.

The City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Arsenal, Central Park, Oct. 2d, 1911.

To the Honorable Board of Aldermen, The City of New York:

Gentlemen:—I respectfully request an issue of revenue bonds to an amount of $25,000, to enable me to carry the laboring force of this department from October 1 to December 31, 1911.

In making my request for the 1911 budget an amount was allowed for laborers, but no consideration was taken of the increase of pay to $2.50 per day, which went into effect on January 1st. This increase alone amounted to $57,305, forty-six laborers being increased from $2.25 to $2.50, and two hundred and forty-five increased from $2 to $2.50. To meet this increase it was necessary either to cut down the force of laborers or allow certain necessary work in the parks to remain undone. I therefore decided that it would be best to continue the full force, and request sufficient money at the end of the year to carry on the work. If the additional funds are not provided it will be necessary to lay off one hundred men, and as the present force of laborers is inadequate to keep the parks in proper condition it is obvious that the parks cannot be properly maintained if a reduction in the force is made.

I would further state that a considerable amount of extra work in connection with taking up of sod and mould from the sites of the various water supply shafts, the Maine Monument, and the Firemen's Memorial, and the re-laying of this sod and spreading of mould at other points in the park, and maintaining the addition of the lower part of Colonial Park, the extension of Riverside Drive, from 135th to 158th st., and the centre plots of Seventh ave. from 110th to 153d st., the small parks in Delancey st. and the additional playgrounds opened this year, have also used up a considerable amount of the money appropriated for laborers, which was not considered in compiling the budget for 1911.

I respectfully request immediate action upon the matter so that I can continue the work of the department without being forced to lay off any of my present force. The amount requested will only enable me to finish this year by practicing strict economy. Respectfully yours,

CHAS. B. STOVER, Commissioner of Parks, Boroughs of Manhattan and Richmond.

To the Honorable Board of Aldermen of The City of New York, New York, N. Y.:

Dear Sirs:—Supplementing the request for the issue of $7500.00 revenue bonds, which has been made necessary by the fire which occurred in the court room and offices of this court at Atlantic ave. and Clinton st., Brooklyn, on June 30th last, I beg leave to state that the amount asked for will be required for the following purposes:

Furniture, desks, chairs, tables, benches and other incidentals for the court room, consultation room, probation officers' room, justices' library, justices' chambers, clerks' offices (three rooms), about	$6,200 00
Cork carpet for record room, clerks' office, clerks' outer office, main hall, justices' hall, toilet outside of justices' library, court room, halls outside of court room, probation officers' room, three landings and hall, toilet outside of consultation room; and for Wilton velvet carpet (including making, laying and lining) for justices' offices, chief clerk's office, justices' library, consultation room, space inside of rail of court room and platform adjoining it; together with shades for windows, etc., about	1,398 00

This estimate is a little over the amount asked, but it will be cut down to meet the amount appropriated.

We are in very bad condition and in absolute need of this money right away, and we will appreciate immediate action thereon. Respectfully,

FRANK W. SMITH, Chief Clerk.

Resolved, That pursuant to subdivision 8 of section 188 of the Greater New York Charter as amended, the Board of Estimate and Apportionment be and it hereby is requested to authorize the Comptroller to issue Special Revenue Bonds in an amount not to exceed $3,000 for the purpose of purchasing an additional supply of coal for the College of the City of New York.

No. 4688.

By Alderman Bolles—

Whereas, The Citizens' Union, an organization which claims to be composed of citizens interested, without regard to party, in securing the honest and efficient government of The City of New York, has caused to be published a report which, among other adverse criticisms of the motives and usefulness of the Board of Aldermen as a part of the City Government, alleges, by innuendo if not directly, that members of this Board have withheld their votes for measures of public interest in order to secure patronage from heads of departments in the City and Borough governments, and

Whereas, Such action on the part of members of this Board, or any of them, would be, if not actually criminal, a serious breach of the public trust, and

Whereas, said report which the Citizens' Union has caused to be published, contains specific references to certain resolutions and matters that have come before this Board and to the fact that such measures have first been defeated through the failure of members of this Board to vote for them though present, and later passed with the votes of the same Aldermen who had originally withheld their votes, and

Whereas, The statement is made in said report, which the Citizens' Union has caused to be published, that each Alderman who has participated in the defeat of one of the resolutions by failing to vote and later, by voting for it, aided its passage,

in any of the cases specifically cited in said report, "either was not sufficiently diligent in preparing himself to vote, or showed indefensible carelessness in failing to vote or from improper motive refrained from voting although present," and that such Alderman "lays himself open to the suspicion that he desires to impress upon the Department head making the request the need for consulting him personally and giving promises of patronage in return for the Alderman's vote," and

Whereas, These are all serious allegations against the reputation of this Board and have been widely circulated through the public press, now, therefore, be it

Resolved, That a committee of seven members be appointed by the Committee on Rules of the Board of Aldermen, with full power to investigate and report to this Board whether and in what, if any, respect the allegations contained in the said report which the Citizens' Union has caused to be published are justified.

Which was referred to the Committee on Rules.

Alderman Dowling moved that the Board do now adjourn.

The Vice-Chairman put the question whether the Board would agree with said motion.

Which was decided in the affirmative.

And the Vice-Chairman declared that the Board stood adjourned until Tuesday, October 17, 1911, at 1.30 o'clock p. m.

P. J. SCULLY, City Clerk and Clerk of the Board of Aldermen.

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Acting President of the Borough of Manhattan, and the Presidents of the Boroughs of Brooklyn, The Bronx and Richmond—15.

ACQUIRING TITLE TO WEST 179TH STREET, FROM CEDAR AVENUE TO EXTERIOR STREET, EXCLUDING THE RIGHT OF WAY OF THE N. Y. C. & H. R. R. CO., AND OF THE NEW YORK & PUTNAM RAILROAD CO.; TO EXTERIOR STREET, FROM WEST 179TH STREET TO AN UNNAMED STREET NORTHERLY THEREFROM; AND TO THE UNNAMED STREET NORTH OF WEST 179TH STREET, FROM EXTERIOR STREET TO THE BULKHEAD LINE OF THE HARLEM RIVER, BOROUGH OF THE BRONX.

(*On February 23, 1911, this matter was referred to the Chief Engineer to communicate with the owners of the four parcels affected and see whether they would be willing to sell their property to the City at a reasonable price.*

The Chief Engineer's report was presented on July 6, 1911; and the matter was laid over on July 27, August 31 and September 21.)

The following communication from the President of the Borough of The Bronx was presented:

City of New York, President of the Borough of The Bronx, 3d avenue and 177th street, Office of the President, September 26, 1911.

To the Board of Estimate and Apportionment, 277 Broadway, New York, N. Y.:

Gentlemen—On September 21, 1911, the matter of acquiring title to West 179th street, from Cedar avenue to Exterior street, etc., Borough of The Bronx, was referred to me.

This matter was presented to the Board of Estimate and Apportionment on October 7, 1910. On this date the Chief Engineer recommended that title to the land be acquired in fee and that the entire cost and expense of the proceeding, including any damage allowed, be assessed upon the property benefited. This was adopted by unanimous vote of the Board, and November 4, 1910, was set as the date for a hearing.

On November 4, 1910, the matter was referred back to me, with the request that I report back to the Board of Estimate in two weeks.

On November 18, 1910, at my request, the matter was laid over for two weeks, and again laid over, at my request, on November 1, 1910, for two weeks.

On December 15, 1910, I reported that the matter had been laid over for two weeks for the purpose of hearing the property owners interested, with a view of changing the location of 179th street so that it would be satisfactory to everybody. No satisfactory change having been found, I suggested that title be acquired in compliance with the recommendation of the Chief Engineer on October 7, 1910, namely, that the cost of acquiring the land be assumed wholly by the property immediately adjoining. On account of the opposition by property owners affected, the matter was again referred back to me for further consideration.

On February 9, 1911, I recommended that title to the street as laid out on the map be acquired, upon the stipulation being signed within ninety days from date by the owners of the property benefited that the cost of acquiring the land and the cost of constructing the street would be assumed by them. The matter was again laid over for two weeks.

On February 18, 1911, I sent a communication to the Board suggesting that the City buy the property at a fair valuation, and build the street at its own expense, pointing out that the property would be valuable for dock purposes and that the return on the money invested would come directly to the City instead of the property owners. In that communication it was stated that the assessed valuations of the four parcels in question for the year 1910 were, respectively, $32,600, $12,000, $4,000 and $21,000, aggregating $69,600, and that such assessed valuations were about the fair value of the property.

The matter was referred to the Chief Engineer who, on July 6, 1911, reported on the assessed value of the property and the price at which it might be purchased. He concluded that the cost of the property, together with the cost of the improvement, would not be attractive to the City. His conclusions evidently were based upon the efforts of the property owners to obtain prices equal to the tax valuations of the year 1911. While the property owners were asking prices from the Chief Engineer which were about equal to the assessed valuations for 1911, they were applying to the Tax Department to reduce the assessed valuations to the figures of 1910, which was done. This shows enterprise.

On July 27, 1911, this matter was again laid over until August 31, 1911. On August 31, 1911, it was again laid over until September 21, 1911, and on September 21, 1911, it was again laid over until September 28, 1911.

The following table shows the names of the owners, the parcels, the assessed value for 1910, the tentative value for 1911, and the reduced value for 1911:

No.	Owner.	Assessed Value, 1910.	Assessed Value, 1911.	Reduced Assessed Value, 1911.
Parcel No. 1.	John E. Eustis	$32,600 00	$62,000 00	$32,600 00
Parcel No. 2,	N. Y. University.....	4,000 00	6,000 00	4,000 00
Parcel No. 3.	Mr. Meyer	12,000 00	22,000 00	12,000 00
Parcel No. 4.	Unknown	21,000 00	36,000 00	21,000 00

Evidently the property owners thought that the valuations for the year 1910 were about right. I agree with Mr. Lewis that the purchase of the property by the City at the assessed value of 1911, together with the cost of the improvement, would bring the total cost of the improvement higher than would be profitable to the City, but I do not reach the same conclusion that the City acquire the property by condemnation, construct the street and take chances on being able to levy an assessment for the cost of the street. I think the chances of collecting such an assessment are extremely small, as was pointed out in my letter of February 6, 1911. On the other hand, from my knowledge of the locality, I am satisfied that the City should acquire this property for dock purposes if it could be bought at a right price, as dockage along the river front is hard to get, and the City's need for docks is growing rapidly. As was said before, I think the tax valuations for 1910 are the fair market value of the property.

I recommend that the City acquire the property if it can be done for about the tax valuations of 1910, and build its own street, so as to develop the properties and gain the profits coming from such development. If, on the other hand, the property owners or a majority of them will not sell at this price, I recommend that the City do nothing further in the matter. Yours very truly,

CYRUS C. MILLER, President of the Borough of The Bronx.

The Commissioner of Docks and Ferries appeared and requested that the Board defer action so as to enable him to confer with the President of the Borough of The Bronx on the matter.

On motion of the President of the Borough of The Bronx, the matter was then laid over for three weeks (October 19, 1911).

RULE MAP, DAMAGE MAP AND PROFILE IN THE PROCEEDING FOR ACQUIRING TITLE TO BLONDELL AVENUE, FROM BARLOW STREET TO WESTCHESTER AVENUE, BOROUGH OF THE BRONX.

(At the meeting of the Board on September 21 this matter was laid over for one week.)

The following communication from the President of the Borough of The Bronx was presented:

City of New York, President of the Borough of The Bronx, 3d avenue and 177th street, Office of the President, September 27, 1911.

JOSEPH HAAG, Esq., *Secretary, Board of Estimate and Apportionment:*

Dear Sir—The rule map, damage map and profile for acquiring title to Blondell avenue, from Barlow avenue to Westchester avenue, Borough of The Bronx, was referred to me at the last meeting of the Board of Estimate and Apportionment, on the recommendation of the Chief Engineer, with the request that I advise the Board if "changes could be made in the location of Blondell avenue, between Halperin avenue and Roberts avenue, by which all of the old street now in use could be included within the street lines."

An examination shows that a map was filed on November 3, 1890, at White Plains, of a portion of the M. S. Arnow Estate, and owned by George F. Jarrett at Westchester. This is the map according to which the land in question was sold. There is no record that there has been any dedication of the street or that the City has in any way accepted it.

It would seem, therefore, that there would be no difficulty on the part of the property owners in front of whose property the triangular strip will be left to acquire title to it. In order not to put an additional angle in the line of Blondell avenue, I would recommend that the rule map, damage map and profile for acquiring title be adopted by the Board, as presented. Yours truly,

CYRUS C. MILLER, President of the Borough of The Bronx.

The President of the Borough of The Bronx then offered the following resolution:

Resolved, That the Board of Estimate and Apportionment of The City of New York hereby approves the rule map, damage map and profile submitted by the Commissioner of Public Works, Borough of The Bronx, to be used in the proceeding instituted by said Board April 24, 1908, for acquiring title to

"Blondell avenue between Westchester avenue and the land of the New York, New Haven and Hartford Railroad at Barlow street, Borough of The Bronx,"

—which proceeeding was amended May 18, 1911, so as to relate to

"Blondell avenue from Barlow street to Westchester avenue as shown upon a map or plan adopted by the Board of Estimate and Apportionment February 23, 1911, and approved by the Mayor March 6, 1911."

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Acting President of the Borough of Manhattan, and the Presidents of the Boroughs of Brooklyn, The Bronx and Richmond.—15.

AMENDING THE PROCEEDING FOR ACQUIRING TITLE TO WESTCHESTER AVENUE, FROM WEST FARMS ROAD TO EASTERN BOULEVARD; TO LANE AVENUE, FROM WESTCHESTER AVENUE TO WEST FARMS ROAD, AND TO THE PUBLIC PLACE BOUNDED BY LANE AVENUE, WEST FARMS ROAD AND WESTCHESTER AVENUE, BOROUGH OF THE BRONX.

The Secretary presented the following:

Will Phillip Hooper, 13 Astor place, New York City, September 14, 1911.

To the Board of Estimate and Apportionment, New York City:

Gentlemen—It has been suggested to me that an application to your honorable body for relief in the matter of the delay in the awards on the Westchester avenue

extension from Walker avenue to Pelham Park might meet with consideration from you.

For several years these awards have been held up and there are a large number of property owners like myself who have had their lands taken by the City and their property cut up in such a way that it is not salable. At the same time it seems to be impossible for us to get the money due us from the City.

I am informed that some time ago a committee was appointed by your Board to take this matter into consideration. Is it not possible that a report from your committee can be hurried and the matter finally determined?

The City ought to do justice to its residents and where the City takes our property by right of eminent domain it should certainly be prompt in granting payment for the same.

Yours very truly, WILL PHILLIP HOOPER.

On motion the communication was referred to the Committee, consisting of the President of the Borough of The Bronx, the Comptroller and the President of the Borough of Manhattan, to which this matter had been referred on November 4, 1910, and which Committee presented a preliminary report on March 9, 1911 (p. 584).

MODIFYING THE EXISTING U. S. HARBOR LINES IN GRAVESEND BAY, SO AS TO PROVIDE AN OPENING IN THE PIERHEAD LINE FOR ACCESS TO CONEY ISLAND CREEK, BOROUGH OF BROOKLYN.

The Secretary presented the following:

War Department, Office of the New York Harbor Line Board, Army Building, New York City, September 23, 1911.

Mr. JOSEPH HAAG, *Secretary, Board of Estimate and Apportionment,* 277 Broadway, New York City:

Sir—The New York Harbor Line Board has under consideration the question of the modification of the existing U. S. harbor lines in Gravesend Bay so as to provide an opening in the pierhead line for access to Coney Island Creek, in view of the present increasing use of this creek for purposes of navigation. The Board will give a public hearing in this matter in Room 701, Army Building, 39 Whitehall street, New York City, at 10.30 a. m. on Thursday, October 19, 1911, which representatives of your Department are invited to attend.

Very respectfully, WM. T. ROSSELL, Colonel, Corps of Engineers, Senior Member of Board.

On motion the Chief Engineer was directed to represent the Board at this hearing.

LAYING OUT AN EXTENSION OF SANFORD STREET FROM THE MEAN HIGH WATER LINE TO THE PIER AND BULKHEAD LINE OF THE EAST RIVER, BOROUGH OF QUEENS.

The following communication from the Secretary of the Borough of Queens and report of the Chief Engineer were presented:

The City of New York, Office of the President of the Borough of Queens, Long Island City, August 23, 1911.

JOSEPH HAAG, Esq., *Secretary of the Board of Estimate and Apportionment:*

Dear Sir—President Gresser directs me to transmit herewith for the approval of the Board of Estimate and Apportionment a litho print of map showing a change in the street system heretofore laid out by establishing the lines and grades of Sanford street from Vernon avenue to the U. S. pier and bulkhead line of the East River, First Ward, dated New York, August 4, 1911, in accordance with the recommendation of the Chief Engineer of your Board.

Respectfully yours, JOHN N. BOOTH, Secretary of the Borough of Queens.

Report No. 10082. September 21, 1911.

Hon. WILLIAM J. GAYNOR, *Mayor, Chairman of the Board of Estimate and Apportionment:*

Sir—Herewith is transmitted a communication from the Secretary of the Borough of Queens, bearing date of August 23, 1911, requesting the approval of a map providing for extending Sanford street from the high water mark of the East River to the bulkhead line.

As originally laid out on the Long Island City Commissioners' map, Sanford street terminated at the high water mark of the East River, this being the boundary of the area over which the Commissioners had jurisdiction. Since this date the bulkhead line has been established, and it is now desired to institute a proceeding for acquiring title to the entire length of the street. Before this can be properly carried out the map now presented will have to be adopted.

I see no reason why the plan should not be approved and would recommend such action after a public hearing.

Respectfully, NELSON P. LEWIS, Chief Engineer.

The following resolution was then adopted:

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 442 of the Greater New York Charter as amended, deeming it for the public interest so to do, proposes to change the map or plan of The City of New York, by establishing the lines and grades of Sanford street from Vernon avenue to the United States pier and bulkhead line of the East river, in the Borough of Queens, City of New York, which proposed change is more particularly shown upon a map or plan bearing the signature of the Secretary of the Board of Estimate and Apportionment, and dated August 4, 1911.

Resolved, That this Board consider the proposed change at a meeting of the Board, to be held in the City Hall, Borough of Manhattan, City of New York, on the 19th day of October, 1911, at 10:30 o'clock a. m.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby that the proposed change will be considered at a meeting of the Board, to be held at the aforesaid time and place, to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 19th day of October, 1911.

Affirmative—The Mayor, the Comptroller, the Acting President of the Board of Aldermen, the Acting President of the Borough of Manhattan, and the Presidents of the Boroughs of Brooklyn, The Bronx and Richmond—15.

PLANS AND PROFILES SUBMITTED BY THE NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY, PROVIDING FOR COVERING OVER THE SPACES IN THE CENTRAL PORTION OF PARK AVENUE, FROM 50TH STREET TO 56TH STREET, BOROUGH OF MANHATTAN.

The following communications from the New York Central and Hudson River Railroad Company were presented:

New York Central & Hudson River R. R. Co., Law Department, Grand Central Terminal, New York, September 20, 1911.

Hon. WILLIAM J. GAYNOR, *Mayor of The City of New York, and Chairman of the Board of Estimate and Apportionment:*

Dear Sir—Under date of June 9, 1911, President Brown addressed a letter to the Board of Estimate and Apportionment, a copy of which is enclosed, promising to submit during the present month plans and profiles providing for covering over the spaces in the central portion of Park avenue from 50th street to 56th street.

We shall be prepared to so submit such plans and profiles to the Board at a regular meeting which I understand will be held on September 28, 1911. If consistent, I should be pleased if this matter could be placed upon the calendar for submission and for proper reference. Yours respectfully,

IRA A. PLACE, Vice-President.

(Copy) June 9, 1911.

To the Honorable, the Board of Estimate and Apportionment of The City of New York:

Gentlemen—On January 26, 1911, The New York Central and Hudson River Railroad Company submitted to your Board plans and profiles, in duplicate, showing proposed modifications of the plans and profiles heretofore approved of changes in streets and avenues within the new Grand Central Terminal. The matter was referred to a committee consisting of the Comptroller, the President of the Borough of Manhattan and the Chief Engineer of the Board. A public hearing was given by that Committee on March 13, 1911, and at that hearing certain property owners appeared and urged that the open spaces in the center of Park avenue for the six blocks extending from 50th street to 56th street should in some way be covered over so as to improve the appearance of the avenue.

The openings referred to have been shown on all the plans which have been heretofore approved, and all of the steel has been provided for and a large part of the work completed on that basis.

From the standpoint of the Company; that is, for any railroad purpose, there is no advantage, but rather some disadvantages in covering over these spaces. If they are to be covered over such advantages as may result are wholly for the benefit of the abutting property and incidentally for the City.

In view, however, of the intimation of the Committee of the Board, this Company, with a desire to do all that may be thought reasonably required, has had studies made of methods of accomplishing the desired result. We think that a practical method has been found and plans are in the course of preparation showing this method in detail. It is not possible to complete these so as to incorporate them in the plans which have already been submitted to your Board without undue delay to the work, and I am writing this letter to confirm in writing what has been said orally to Mr. Prendergast and to Mr. McAneny, namely:

First—The plans and profiles submitted January 26, 1911, above referred to, being approved by your Board, this Company will as soon as practicable and not later than September next, submit to your Board for its approval a plan which will provide for the covering over of these openings in Park avenue between 50th street and 56th street.

Second—The Company will carry out such plan at its own expense. The estimated cost is about $200,000.

Third—As to whether the plan which the Company so submits is reasonable and proper, the Company is willing to accept the determination of the Board, with the understanding that any plan finally approved and adopted shall not require any material reconstruction of the work already done and in process of being done, in accordance with the plans heretofore approved. Respectfully,

(Signed) W. C. BROWN, President.

New York Central & Hudson River Railroad Co., Law Department, Grand Central Terminal, New York, September 28, 1911.

To the Honorable, the Board of Estimate and Apportionment of The City of New York:

Gentlemen—The New York Central and Hudson River Railroad Company has prepared and herewith submits to the Board of Estimate and Apportionment for its approval plans and profiles, in duplicate, showing further modifications of the plans and profiles, which were approved by the Board of Estimate and Apportionment on the 15th day of June, 1911, of the viaducts and bridges required to carry 50th, 51st, 52d, 53d, 54th, 55th and 56th streets, and Park avenue from 50th street to 56th street over the tracks of the New York and Harlem Railroad Company.

These plans and profiles are submitted under the authority contained in chapter 425 of the Laws of 1903, as amended by chapter 555 of the Laws of 1910.

The modifications consist in providing for the covering over of the central spaces of Park avenue from 50th street to 56th street.

These plans and profiles are submitted in accordance with the assurance given in the letter of President Brown to the Board dated June 9th, 1911, copy of which is herewith enclosed.

The making of these changes involves rather more, both of change in the steel already placed and in expense, than the plan which was contemplated when Mr. Brown's letter was written. We believe, however, that the plan now submitted will be much more satisfactory.

These proposed changes are not required for railroad purposes, and substantially the entire resulting benefit will accrue to the property abutting on Park avenue. They are submitted to the Board for its approval. If they are approved by the Board and made by the Company it hopes and will expect that the owners of this abutting property will accept these and other changes which the Company has made, the net result of which has greatly enhanced the value of all this property in full satisfaction of all that the Company has done and ought to do.

All of which is respectfully submitted.

THE NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY, by IRA A. PLACE, Vice-President.

On motion, the matter was referred to the Committee consisting of the Comptroller, the President of the Borough of Manhattan, and the Chief Engineer of the Board, appointed January 26, 1911, to consider the proposed amendment of the plans for the Grand Central Terminal improvement (p. 277).

PLANS AND PROFILES SHOWING THE CHANGES IN THE RAILROAD AND RAILROAD STRUCTURES OF THE NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY ON THE WESTERLY SIDE OF THE CITY, AS REQUIRED BY THE PROVISIONS OF CHAPTER 777 OF THE LAWS OF 1911.

The following communications from the Vice-President of the New York Central and Hudson River Railroad Company were presented:

New York Central & Hudson River R. R. Co., Law Department, Grand Central Terminal, New York, September 20, 1911.

Hon. WILLIAM J. GAYNOR, *Mayor of The City of New York and Chairman of the Board of Estimate and Apportionment:*

Dear Sir—The first section of chapter 777 of the Laws of 1911 directs the New York Central and Hudson River Railroad Company to submit on or before the 1st day of October, 1911, to the Board of Estimate and Apportionment of The City of New York, plans and profiles, in duplicate, showing the changes in its railroad and railroad structures on the westerly side of the City as therein prescribed.

We shall be prepared to so submit such plans and profiles to the Board at a regular meeting, which I understand will be held on September 28, 1911. If consistent, I should be pleased if this matter could be placed upon the calendar for submission and for proper reference. Yours respectfully,

IRA A. PLACE, Vice-President.

New York Central & Hudson River R. R. Co., Law Department, Grand Central Terminal, New York, September 28, 1911.

To the Honorable, the Board of Estimate and Apportionment of The City of New York:

Gentlemen—In compliance with the provisions of chapter 777 of the Laws of 1911, the New York Central and Hudson River Railroad Company on the date hereof hereby and herewith submits to the Board of Estimate and Apportionment of The City of New York plans and profiles, in duplicate, showing such changes in the railroad and railroad structures, yards, stations and terminal facilities of the railroad owned by it between the northerly boundary of The City of New York and the Battery Park in said City as may be necessary or required to abolish, discontinue and avoid the use at grade for railroad purposes of streets, avenues, public parks or places, and showing such other changes as by the said act are required to be shown. The said plans and profiles consist of thirty-nine (39) sheets and are entitled:

"The New York Central and Hudson River Railroad Company, Railroad between the Northern Boundary of The City of New York and Battery Park, Plans and Profiles, showing the things required to be shown on plans and profiles which the New York Central and Hudson River Railroad Company is directed by chapter 777 of the Laws of 1911, to submit on or before the 1st day of October, 1911, to the Board of Estimate and Apportionment of The City of New York, consisting of 39 sheets, numbered from 1 to 39, both inclusive, each sheet being dated the 27th day of September, 1911, and being identified by the signature of A. H. Smith, Vice-President and General Manager of said Company, made and submitted, in duplicate, pursuant to the provisions of said chapter 777 of the Laws of 1911, by the New York Central and Hudson River Railroad Company to the Board of Estimate and Apportionment of The City of New York, on the 28th day of September, 1911."

In the sections between the northern boundary of The City of New York and the southerly line of West 72d street the plans and profiles conform to the specific directions of the Act. In these sections all the streets are carried over the railroad tracks excepting the streets from West 129th street to West 138th street, both inclusive.

These streets are to remain substantially at their existing grades and the railroad tracks are to be carried over them.

South of West 72d street the plans and profiles show a proposed alteration or change in the route and grade of a part of the main line. The proposed alteration or change of route would remove the tracks of the main line from 11th and 10th avenues and West street to the marginal way. The change of grade is from the grade of the streets to an elevated structure. It is also proposed to change the grade of the tracks in Canal street from the grade of that street to an elevated structure. Along the marginal way the tracks are extended to Cortlandt street.

In order to make effective the proposed alteration or change of route and grade appropriate action would be required by the Board of Directors of the Railroad Company under the provisions of the railroad law. Such action on the part of the Board of Directors would require the separate approval of the Board of Estimate and Apportionment. It is not thought proper that the Board of Directors take this action until the Board of Estimate and Apportionment has had an opportunity to examine the plans and profiles now submitted.

The primary purpose is to avoid the use of public streets and avenues by railroad tracks at grade. The extent to which this purpose of abolishing the use of streets and avenues by railroad tracks at grade will be attained is shown by the fact that these plans and profiles, if approved, require the removal of approximately seventy thousand (70,000) lineal feet, or about thirteen (13) miles, of single track from the grade of streets and avenues.

A second purpose is the substitution of electricity for steam as a motive power.

A third purpose is the enlargement and improvement of the terminal facilities to such extent as may be required to meet the needs and the convenience of the shippers of freight to and from the City of New York.

Contrary to the practice and established policy of the State and of many cities of the State in respect to the discontinuance of the use of existing grade crossings, all of the expense of making the necessary changes to meet all the foregoing purposes is to be borne by the Railroad Company.

Another change made possible is the improvement of the parks of the City along the river side. Typical sections of a covering or roof which it is possible to construct over the tracks through portions of these parks are shown on the plans and profiles.

The Railroad Company has adequately provided in Room 2605 at the Grand Central terminal in The City of New York for continuous public exhibition during business days and hours of a copy of said plans and profiles, now submitted, so long as consideration thereof shall be pending between the Board of Estimate and Apportionment and the Railroad Company and for at least thirty (30) days.

The said plans and profiles are submitted for the consideration and approval of the Board of Estimate and Apportionment. For the purpose of reaching an agreement between the City and the Railroad Company the officers of the Railroad Company having the matter in charge will be ready to confer with the Board, its members or representatives at any time.

All of which is respectfully submitted.

THE NEW YORK CENTRAL AND HUDSON RIVER RAILROAD COMPANY, by IRA A. PLACE, Vice-President.

The plans and profiles were then presented by Mr. Ira A. Place, Vice-President of the N. Y. C. & H. R. R. Co.

On motion of the Comptroller the matter was referred to the Commissioner of Docks and Ferries for report.

On the request of the Commissioner of Docks and Ferries, he was excused from further service on the Committee consisting of the President of the Board of Aldermen, the Comptroller, the President of the Borough of Manhattan and the Commissioner of Docks and Ferries, appointed June 24, 1910, to formulate and present to the Board a plan for the future operation of trains by the New York Central and Hudson River Railroad Company on the west side of the City, and to which Committee was also referred on February 2, 1911, the question of Manhattan terminals at the port of New York. (See Financial and Franchise Minutes.)

DEED OF CESSION TO CERTAIN STREETS IN THE BOROUGH OF BROOKLYN IN WHICH ARE LOCATED WATER MAINS LAID BY VARIOUS REAL ESTATE COMPANIES.

The Secretary presented the following:

Board of Estimate and Apportionment, City of New York, Office of the Chief Engineer, September 25, 1911.

Mr. JOSEPH HAAG, *Secretary:*

Dear Sir—In the accompanying communication from Messrs. Edward M. Grout and Paul Grout attention is drawn to the fact that the cession to The City of New York of the streets in which are located water mains laid by Wood, Harmon & Company and other real estate companies and owners, as contemplated by the resolution of the Board of Estimate and Apportionment of June 29, 1911, may be attended with some technical difficulty. It appears that the matter has been taken up with the Assistant Corporation Counsel in charge of the Bureau of Street Openings of the Borough of Brooklyn, who states that he cannot accept deeds to property for street purposes if they contain any reservations whatever, while the owners of the property fear that if such an unqualified conveyance were given they might be conveying to The City of New York the very mains which they expect to sell and the City expects to buy. They have, therefore, submitted a form of deed containing certain preambles, which they ask the Board of Estimate and Apportionment to approve, with the understanding that with such approval the Corporation Counsel would not hesitate to accept it.

It appears to me that section 990 of the Greater New York Charter provides for just such cases as are here presented. This section says that

"If any individual or corporation before the appointment of commissioners of estimate has acquired by private grant, prescription or otherwise any easement for the purpose of laying or maintaining in lands to be acquired for street purposes as herein provided, underground pipes or conduits for the distribution of water, gas, steam or electricity, or for pneumatic service, such easement shall not be extinguished, but the title to the lands so to be acquired for the purposes as herein provided for shall be taken subject to such easement."

It appears to me that an easement to lay and maintain underground structures clearly implies ownership of such structures, and if this be true, that ownership would still remain with the individuals or corporations which had such an easement, whether it has been acquired as a franchise or had been exercised upon their property before or even after the sale of abutting lots to private individuals. If this be the case, the water mains referred to would not be acquired in the opening proceeding, and it would seem that the Corporation Counsel might properly accept a deed conveying such title as would be acquired in the regular proceeding in accordance with the provisions of section 990 of the Charter.

In any event, I believe that before the Board adopts a resolution approving the proposed form of conveyance, with the accompany preambles, it would be prudent to submit it to the Corporation Counsel for his examination and for any amendments which he may desire to propose.

Respectfully, NELSON P. LEWIS, Chief Engineer.

111 Broadway, N. Y. City, September 15, 1911.

Board of Estimate and Apportionment, Mr. JOSEPH HAAG, *Secretary,* 277 Broadway, New York City.

Dear Sir—You are aware that for some time there have been pending negotiations for the purchase by The City of New York of the private water mains of various corporations and individuals in the Borough of Brooklyn, which culminated on June 29, 1911, by the adoption of a resolution of the Board appropriating the sum of $74,741.60 for the purchase of said mains, and also of a resolution authorizing the Commissioner of Water Supply, Gas and Electricity to make the purchase, "said purchase being conditional upon the dedication in fee to the City of the streets in which the pipes are located."

We represent Wood, Harmon & Company, who, in turn, are agents of the record owners of Oak Crest, South Flatbush and Flatbush Gardens. The purchase price fixed by the Board of Estimate and Apportionment is the sum of $6,590.97. The principals of Wood, Harmon & Company have been quite willing to convey their interest in the streets in which said mains lie, but there has been delay owing to two facts. First, the Board of Aldermen has not yet approved the resolution of the Board of Estimate and Apportionment authorizing the Commissioner of Water Supply to make the purchase; and secondly, as to our own client, condemnation proceedings had been instituted covering the streets lying in Oak Crest, and the matter is in the hands of Assistant Corporation Counsel Riegelman.

Mr. Riegelman has insisted that he can take only such deeds as are absolute in their terms, without any reservations whatever, whereas we have feared that if such a deed of conveyance were given, we would thereby convey to The City of New York the very mains which we are seeking to sell to it. Mr. Riegelman agreed that there might be such an objection, and suggested as a solution of the difficulty that the Board of Estimate and Apportionment approve the form of deed which shall be given. Meantime, the Commissioner of Water Supply, Gas and Electricity has been in correspondence with the Comptroller and with the Corporation Counsel as to the form of the deed, and we are advised by his Secretary that the solution proposed by Mr. Riegelman would be satisfactory to him.

There is a further technical complication suggested by Mr. Riegelman in that he feels that without the approval of the Board of Estimate and Apportionment he has no authority under the charter to accept deeds except pursuant to two sections thereof, sections 992 and 994. He points out that section 992 provides that cession shall be made without compensation, and it was suggested that some taxpayer may object that the purchase of the mains would be a consideration or compensation for the cession, although your Board very clearly in its resolution intimated that the matter was viewed by it from the other end, to wit, that cession of the streets without compensation would be an additional consideration for the purchase of the mains.

Mr. Riegelman further said that such a deed as would protect our clients' rights under section 994 would have to have the approval of the Board of Estimate and Apportionment. To solve this complication we have taken the liberty of preparing a form of deed which recites in the whereas clauses the facts appertaining to the conveyance, and we would respectfully ask you to procure the approval of this deed by the Board of Estimate and Apportionment.

We are sending copies of this letter, together with a copy of the form of deed, to the Commissioner of Water Supply, Gas and Electricity and to Assistant Corporation Counsel Riegelman.

Yours very truly, EDWARD M. GROUT AND PAUL GROUT.

This indenture, made the day of , in the year nineteen hundred and , between party of the first part, and The City of New York, party of the second part, Witnesseth:

Whereas, Various corporations and individuals have offered to sell to The City of New York their water mains lying in private streets in the Borough of Brooklyn, City of New York, more fully set forth in a report of a special committee consisting of the Comptroller and the Chief Engineer of the Board of Estimate and Apportionment to the Board of Estimate and Apportionment dated June 19, 1911, and

Whereas, On June 29, 1911, the Board of Estimate and Apportionment adopted a resolution authorizing the Commissioner of Water Supply, Gas and Electricity to purchase the pipes and appurtenances of said corporations and individuals at the appraised value set forth in said report, "said purchase being conditional upon the dedication in fee to the City of the streets in which the pipes are located"; and

Whereas, Wood, Harmon & Company, as agents, represent the owners of Oak Crest, South Flatbush and Flatbush Gardens mentioned in said report, and covered by said resolution; and

Whereas, The party of the first part hereto is the owner of the pipes and appurtenances referred to in said resolution, lying and being in (take in here Oak Crest, South Flatbush or Flatbush Gardens as the case may be), and desires to comply with the condition of said resolution of the Board of Estimate and Apportionment of the 29th day of June, 1911; and

Whereas, A proceeding has been instituted by The City of New York to condemn East 12th, 13th, 14th and 15th streets, in Oak Crest, and the Commissioners of condemnation are about to be appointed (or use alternative phrasing have been appointed therein). (This whereas clause is to be used only as to Oak Crest.) Now, therefore,

In consideration of the premises and of the sum of one dollar, and particularly in consideration of the purchase by the City of New York of the pipes and appurtenances from the party of the first part in (take in here Oak Crest, South Flatbush or Flatbush Gardens, as the case may be), the party of the first part in pursuance of the Greater New York Charter as amended, does hereby grant, bargain, sell and release unto the party of the second part, and its successors forever, all its right, title and interest, in and to the land situate, lying and being in the Borough of Brooklyn, County of Kings, City and State of New York,

(Here take in description.)

—together with the appurtenances and all the estate and rights of the party of the first part in and to said premises; to have and to hold the above-mentioned and described premises unto the party of the second part, its successors forever, for the use of the public, as provided by the Greater New York Charter.

In witness whereof, the party of the first part has hereunto set its hand and seal the day and year first above written.

On motion the matter was referred to the Corporation Counsel for advice.

VESTING TITLE TO THE LANDS REQUIRED FOR THE WIDENING OF WEST 138TH STREET, AT 5TH AVENUE, BOROUGH OF MANHATTAN.

The following report from the President of the Borough of Manhattan was presented:

City of New York, Office of the President of the Borough of Manhattan, City Hall, September 26, 1911.

JOSEPH HAAG, Esq., *Secretary of Board of Estimate and Apportionment,* 277 Broadway, New York City:

Dear Sir—At the meeting of the Board held on September 21, 1911, the request of Anna V. Butler that title to the widened portion of 138th street near 5th avenue be immediateely vested in the City was referred to me for examination and report.

I have investigated the matter and find that the proceeding to acquire this property has seriously affected the owner. I learn from him that the holder of the mortgage commenced suit for foreclosure immediately upon title proceedings being instituted. He further informs me that if the City will immediately take title to the part laid out on the City map as a widening of 138th street, he will be able to procure a loan on the remainder, and so satisfy the mortgage.

I accordingly recommend that title be vested in the City upon the filing of the oaths of the Commissioners.

Petition to physically improve this part of 138th street has been filed, and the Local Board resolution for such improvement will be forwarded to the Board of Estimate and Apportionment within a very short time.

Very truly yours,

GEORGE McANENY, President of the Borough of Manhattan.

The following resolution was then adopted:

Whereas, The Board of Estimate and Apportionment on the 6th day of July, 1911, adopted a resolution requesting the Corporation Counsel to institute proceedings to acquire title in fee, wherever the same has not heretofore been acquired, for the use of the public to the lands, tenements and hereditaments that shall or may be required for the widening of West 138th street at its junction with Fifth avenue in the Borough of Manhattan, City of New York; therefore, be it

Resolved, That the Board of Estimate and Apportionment of The City of New York, in pursuance of the provisions of section 990 of the Greater New York Charter, as amended, deeming it for the public interest so to do, directs that upon the date when the Commissioners to be appointed in this proceeding file their oaths the title in fee to each and every piece or parcel of land required for the widening of West 138th street at its junction with Fifth avenue in the Borough of Manhattan, City of New York, so required shall be vested in the City of New York.

Affirmative—The Mayor, The Comptroller, The Acting President of the Board of Aldermen, The Acting President of the Borough of Manhattan, and the Presidents of the Boroughs of Brooklyn, The Bronx, and Richmond—15.

On motion of the Comptroller the Board adjourned to meet Thursday, Octobeer 5, 1911, at 10.30 o'clock a. m.

JOSEPH HAAG, Secretary.

Such appraisers shall be chosen at least six (6) months prior to the expiration of this original contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators. They may

base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations, without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company each paying one-half thereof.

Third—The Company shall pay to the City for the privilege hereby granted the following sums of money:

(a) The sum of two thousand five hundred dollars ($2,500) in cash on or before the date on which operation over any portion of the route hereby authorized is commenced.

(b) During the first term of five (5) years an annual sum which shall in no case be less than one thousand dollars ($1,000), and which shall be equal to three (3) per cent. of its gross annual receipts if such percentage shall exceed the sum of one thousand dollars ($1,000).

During the second term of five (5) years an annual sum which shall in no case be less than seventeen hundred dollars ($1,700) and which shall be equal to five (5) per cent. of its gross annual receipts, if such percentage shall exceed the sum of seventeen hundred dollars ($1,700).

During the remaining term expiring March 1, 1924, an annual sum which shall in no case be less than nineteen hundred dollars ($1,900), and which shall be equal to five (5) per cent. of its gross annual receipts if such percentage shall exceed the sum of nineteen hundred dollars ($1,900).

The gross annual receipts mentioned above shall be that portion of the gross receipts of the Company from all sources within the limits of the City as shall bear the same proportion to its whole gross receipts as the length of the extension hereby authorized shall bear to the entire length of the railway of the Company in operation within the limits of the City.

The annual charges shall commence from the date upon which this contract is signed by the Mayor.

(c) For the use of the Washington Bridge and its approaches during the term expiring March 1, 1914, an annual sum of one thousand dollars ($1,000); during the succeeding term of five (5) years expiring March 1, 1919, an annual sum of one thousand two hundred and fifty dollars ($1,250); and during the remaining term of five (5) years expiring March 1, 1924, an annual sum of one thousand five hundred dollars ($1,500). The compensation herein reserved shall commence from the date on which this contract is signed by the Mayor.

All annual charges as above shall be paid into the treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before November 1 in each year for the year ending September 30 next preceding.

The annual charges herein provided are intended to include the percentages of gross receipts now required to be paid by railway companies to the City pursuant to the Railroad Law as amended, and such charges as are required under chapter 340 of the Laws of 1892 to be paid by the Company for this extension if said act applies to or controls the Company in relation to the right and privilege hereby granted.

The City does not and shall not demand or require the payment by the Company of a percentage of gross receipts under the provisions of chapter 340 of the Laws of 1892 on the gross receipts earned on the extension constructed pursuant to this contract.

Any and all payments to be made by the terms of this contract to the City by the Company, shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of this contract (whether original or renewal), notwithstanding any clause in any statute or in the charter of any other railway or railroad company providing for payment for railway or railroad rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted (whether original or renewal), or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fifth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege, upon the same or other terms and conditions, over the route hereinbefore described.

The use of the railway constructed by the Company under this contract, including the tracks, wires and other equipment, or any structures used in connection therewith, in streets and avenues hereinbefore described, shall be permitted by the Company to any individual or corporation to which the City may have granted, or may hereafter grant, the right or privilege to use such streets and avenues for street railway purposes, upon payment of an annual sum by such individual or corporation to the Company which shall equal the legal interest on such proportion of the actual cost of the construction of such railway and structures, and additions and betterments thereto, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same; and also such proportion of the cost of keeping the tracks and electrical equipment in repair, and the cost of additions and betterments thereto, such proportion of laying and repairing of pavement and removal of snow and ice, and all other duties imposed upon the Comapny by the terms of this contract in connection with the maintenance or the operation of said railway so used, as the number of cars operated by such individual or corporation shall bear to the number of cars operated by the companies then using the same, together with the actual cost of the power necessary for the operation of the cars thereon of such individual or corporation. Provided, however, that if, in the opinion of the Company, the legal rate of interest upon the cost of such railway shall be an insufficient sum to be paid for the use of such tracks, it may appeal to the Board and the Board may fix a percentage upon the cost to be paid to the Company, at a sum in excess of the legal rate of interest, if, in its opinion, such action is justified.

The Company shall not at any time oppose but shall upon the request of the Board, consent to the construction or operation of any street surface railway which may necessitate the use of any portion of the railway which shall be constructed by the Company, pursuant to this contract.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall the title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Seventh—Upon the termination of this original contract, or if the same be renewed, then at the termination of the said renewal term, or upon the termination of the rights hereby granted for any cause, or upon the dissolution of the Company before such termination, the tracks and equipments of the Company constructed, pursuant to this contract within the streets and avenues and upon the bridge shall become the property of the City without cost, and the same may be used or disposed of by the City for any purpose whatsoever, or the same may be leased to any company or individual.

If, however, at the termination of this contract as above, the Board shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove any and all of its tracks and other equipment constructed pursuant to this contract and the said streets and avenues and the bridge shall be restored to their original condition at the sole cost and expense of the Company.

Eighth—The Company shall commence construction of the railway herein authorized within three (3) months from the date upon which the consents of the property owners are filed with the Board or from the date of the order of the Appellate Division of the Supreme Court, made pursuant to section 174 of the Railroad Law, confirming the determination of the Commissioners apopinted thereunder that such railway ought to be constructed, and shall complete the construction and place the same in full operation within six (6) months from the date of filing such consents or the date of such order, otherwise this right shall cease and determine, and all sums paid, and the sum of two thousand dollars ($2,000) deposited with the Comptroller of the City, as hereinafter provided, shall thereupon be forfeited to the City; provided that the period for commencement and the period for completion and placing the railway in full operation may be extended by the Board, but the total extension of time for either of such periods shall not exceed in the aggregate six (6) months; and provided further that when the commencement or completion of said construction shall be prevented by legal proceedings in any Court, or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement or completion of such construction may be extended for the period of such prevention, but no delay shall be allowed for unless the Court proceedings shall be diligently prosecuted by the Company, and provided further, that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such Court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name as a party or in the name of the City as a party, may intervene in any such proceedings.

Ninth—Said railway shall be constructed and operated in the latest approved manner of street railway construction and operation, and it is hereby agreed that the Board may require the Company to improve or add to the railway equipment, including rolling stock and railway appurtennces, from time to time, as such additions and improvements are necessary, in the opinion of the Board. Upon failure on the part of the Company to comply with the direction of the Board within a reasonable time, the rights hereby granted shall cease and determine.

Tenth—Said railway shall be constructed, maintained and operated subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction upon said railway shall be commenced until written permits have been obtained from the proper City officials.

In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures, in the streets and avenues and upon the bridge, over which such officials have jurisdiction and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company for the operation of the railway within the limits of the City, whether the same be upon streets and avenues, or upon the bridge and its approaches, or upon private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

Eleventh—Said railway may be operated by overhead electric power substantially similar to the overhead electric system now in use by street surface railways in the Borough of The Bronx, or by any other motive power, except locomotive steam power or horse power, which may be approved by the Board, and consented to by the abutting property owners, in accordance with the provisions of law, and by the Public Service Commission for the First District of the State of New York.

Provided, however, that the Board, upon giving to the Company one (1) year's notice, may require the Company to operate its railway upon the whole or upon any portion of the route herein authorized to be constructed, except upon the Washington Bridge structure, by underground electric power substantially similar to the system now in use on the street surface railways in the Borough of Manhattan, or upon the whole or any portion of said route by any other practical motive power then in use which does not require the use of poles and overhead wires in the streets and avenues and upon the bridge and its approaches, and thereupon to discontinue the use of the overhead trolley system, and to remove its poles, wires and other structures used by it for that purpose from the streets, avenues and bridge of the City upon said route.

Twelfth—Upon six (6) months' notice by the Board to the Company, all wires for the transmission of power, except trolley wires, for the operation of the railway, upon all or any portion of the route hereby authorized, shall be placed in conduits beneath or alongside of the railway. The Company shall provide in such conduits two (2) ducts not less than three (3) inches in diameter for the exclusive use of the City. Such ducts shall be used only by the Company for the operation of its railway and by the City, as above.

Thirteenth—The rate of fare for any passenger upon said railway shall not exceed five (5) cents and the Company shall not charge any passenger more than five (5) cents for one continuous ride, from any point on its road or on any road, line or branch operated by it or under its control to any other point thereof, or any connecting branch thereof within the limits of the City.

The Company shall carry free upon the railway hereby authorized during the term of this contract all members of the Police and Fire Departments of the City, when such employees are in full uniform.

Fourteenth—No cars shall be operated upon the railway hereby authorized, other than passenger cars and cars necessary for the repair or maintenance of the railway, and no freight cars shall be operated upon the tracks of said railway.

Fifteenth—The Company shall attach to each car run over the said railway proper fenders and wheel guards, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Sixteenth—All cars which are operated on said railway shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force, or may hereafter, during the term of this contract, be enacted or adopted by the State or City authorities, or as may be required by resolution of the Board.

Seventeenth—All cars operated on said railway shall be well lighted by electricity, or by some lighting system equally efficient, or as may be required by resolution of the Board.

Eighteenth—Cars on the said railway shall run at intervals of not more than thirty (30) minutes both day and night, and as much oftener as reasonable convenience of the public may require, or as may be directed by the Board.

Nineteenth—The Company, so long as it shall continue to use any of the tracks upon the streets and avenues or bridge in or upon which said railway shall be constructed, shall cause to be watered at least three (3) times every twenty-four (24) hours when the temperature is above thirty-five (35) degrees Fahrenheit, the entire width of the streets, avenues and bridge, except when the width of such streets, avenues and bridge shall exceed sixty (60) feet between curb lines, in which case the Company shall cause to be watered only sixty (60) feet in width of such roadway, and the Company shall provide for such purpose at least one tank car, the capacity of which shall be sufficient to water such streets, avenues and bridge in a satisfactory manner.

Twentieth—The Company shall at all times keep the streets, avenues and bridge, upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails, on either side thereof, free and clear from ice and snow provided, however, that the Company shall, at the option of the Commissioner of Street Cleaning, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of street surface from bouse line to house line.

And provided further, that the Company shall, at the option of the Commissioner of Bridges, enter into an agreement for each winter season, or part thereof, to clean an equivalent amount of roadway upon the bridge and its approaches.

Twenty-first—As long as said railway, or any portion thereof, remains in any street or avenue, or upon the bridge, the Company shall pave and keep in permanent repair that portion of the surface of the street, avenue or bridge in or upon which the said railway is constructed, between its tracks, the rails of its tracks and for a distance of two (2) feet beyond the rails on either side thereof, under the supervision of the local authorities, whenever required by them to do so, and in such manner as they may prescribe.

In case of the neglect of the Company to pave or repair the pavement on the streets after the expiration of thirty (30) days' notice to do so from the President of the Borough having jurisdiction, or in case of the neglect of the Company to pave or repair the pavement on the bridge after the expiration of thirty (30) days' notice so to do from the Commissioner of Bridges, said President or said Commissioner, as the case may be, may pave or repair the same at the expense of the Company. And the City shall have the right to change the material or character of the pavement of any street or avenue, and in that event the Company shall be bound to replace such pavement in the manner directed by the proper City official, at its own expense, and the provisions as to repairs herein contained shall apply to such renewed or altered pavement.

Twenty-second—Any alteration to the sewerage or drainage systems, or to any other subsurface or to any surface structures in the streets, required on account of the construction or operation of the railway, shall be made at the sole cost of the Company, and in such manner as the proper City officials may prescribe.

Twenty-third—It is agreed that the right hereby granted to operate a street surface railway shall not be in preference or in hinderance to public work of the City, and should the said railway in any way interfere with the construction of public works in the streets and avenues, or upon the bridge, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense, protect or move the tracks and appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Twenty-fourth—Should the grades or lines of the streets and avenues in which the railway is hereby authorized be changed at any time after the railway has been constructed and during the term of this contract, the Company shall, at its own expense, change its tracks and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets and avenues the Company shall take care of and protect the tracks and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Twenty-fifth—Upon one (1) year's notice from the Board the Company shall, if the Board shall so determine by resolution, cease the operation of the stub-end terminal at East 181st street and Broadway, and shall within sixty (60) days from the date of such notice make application to the Board for the right to construct, maintain and operate a loop terminal upon streets to be designated by the Board and shall on or before the expiration of said one (1) year enter into a contract for such loop terminal in substitution for the stub-end terminal hereby authorized.

Twenty-sixth—The Company shall keep and maintain the tracks and the electrical equipment upon the bridge and its approaches necessary for the operation of cars thereon in good order and repair and in such manner as shall be approved and directed by the Commissioner of Bridges, and shall furnish all motive power required by the Commissioner of Bridges for the operation of its cars. If deemed necessary by the Commissioner of Bridges, the Company shall install and operate a system of signals to insure the safe and efficient operation of cars, such system to be approved by the Commissioner of Bridges. In the event of any necessity for changing the layout of tracks, curves, switches, sidings or platforms on the bridge in order to facilitate operation of cars by the Company, said Company must do all the work and furnish all the labor and tools necessary for effecting such changes, which shall all be made under the control and direction of the Commissioner of Bridges, and no such changes or construction connected therewith, or relating thereto, shall be made unless the plan or plans for the same have been first submitted to the Commissioner of Bridges and approved by him.

Twenty-seventh—Before beginning the operation of cars, the Company shall file with the Commissioner of Bridges a statement for his approval and assent as to the type of car which it proposes to operate and a sketch showing clearance dimensions, weight on axles and wheel spacing or such other information as may be required by said Commissioner. All cars operated over the bridge by the Company and all equipment and appliances relating to such operation shall be subject at all times to the inspection of the Commissioner of Bridges or his authorized representatives, who shall have power to forbid the entrance to the bridge of cars which may for any reason be unsatisfactory, and who shall have power to direct the removal of any old or inadequate appliance and the substitution therefor of appliances of approved character.

Said Commissioner may adopt rules and regulations in regard to the number of cars to be operated over the bridge, the rate of speed of said cars, the movement and headway thereof, the type and weight of cars to be used and the condition thereof, the switching of cars and the use of platforms and the control of the electrical current used by the Company, and the said Commissioner may alter and amend any such rules and regulations so as to secure the safety and comfort of persons using the bridge and preserve the purposes for which the bridge was constructed, and, upon serving notice upon the Company that such rules and regulations have been made, amended or altered, the Company shall comply with all the requirements thereof.

Twenty-eighth—Nothing in this contract shall be deemed to affect in any way the right of the Commissioner of Bridges to make alterations or changes in the construction, operation or management of the bridge or to affect in any way the control of such Commissioner over such bridge, as provided by the Charter of the City.

Twenty-ninth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries—and such other information in regard to the business of the Company as may be required by the Board.

Thirtieth—The Company shall at all times keep accurate books of account of the gross receipts from all sources within the limits of the City, and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within the limits of the City and the miles of railway constructed and operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers under oath.

Thirty-first—In case of any violation or breach or failure to comply with any of the provisions herein contained, or with any orders of the Board or of the Commissioner of Bridges acting under the powers herein reserved, the franchise or consent herein granted may be forfeited by a suit brought by the Corporation Counsel, on notice of ten (10) days to the Company, or at the option of the Board by resolution of said Board, which said resolution may contain a provision to the effect that the railway constructed and in use by virtue of this contract shall thereupon become the property of the City without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Thirty-second—If the Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures and equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of two hundred and fifty dollars ($250), as fixed or liquidated damages, or the Board, in case such structures or equipment which may effect the surface of the streets or of the bridge shall not be put in good condition within a reasonable time after notice by the Board as aforesaid shall have the right to make all needed repairs at the expense of the Company, in which case the Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, all of which sums may be deducted from the fund hereinafter provided for.

Thirty-third—The Company shall assume all liability to persons or property by reason of the construction or operation of the railway authorized by this contract, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company hereby agrees to repay to the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirty-fourth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of two thousand dollars ($2,000), either in money or securities, to be approved by him, which sum together with any and all sums of money or any securities heretofore deposited with the Comptroller by the Company under and pursuant to franchises heretofore granted to it by the City for the faithful perform-

ance by the Company of the several franchises so granted, shall form a fund for the performance by the Company of all of the terms and conditions of this contract and compliance with all orders of the Board or of the Commissioner of Bridges acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at the rates herein fixed, the repairs of the street and bridge pavement, the repair and maintenance of tracks and equipment upon the bridge and its approaches, and the removal of snow and ice and the quality of construction of the railway and the maintenance of the property in good condition throughout the whole term of this contract, and in case of default in the performance by the Company of such terms and conditions or compliance with such orders, or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board hereunder, relating to the headway, heating and lighting of cars, fenders, wheel guards and watering of street pavements, the Company shall pay a penalty of fifty dollars ($50) per day for each day of violation, and the further sum of ten dollars ($10) per day for each car that shall not be properly heated, lighted or supplied with fenders or wheel guards, in case of a violation of the provisions relating to those matters.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President, or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing appears in the judgment of the Board to be in fault, said Board shall forthwith impose the prescribed penalty, or where the amount of the penalty is not prescribed herein, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him. In case of any drafts made upon the security fund the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount, and in default thereof this contract shall be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Thirty-fifth—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-sixth—The words "streets or avenues," and "streets and avenues," wherever used in this contract, shall be deemed to mean "streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title or over which the public has an easement," encountered in the route hereinabove described, and upon or in which authority is hereby given the Company to construct a railway.

Thirty-seventh—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers, shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

Sec. 4. This grant is also upon the further and express condition that the provisions of Article 5, and the other provisions of the Railroad Law pertinent hereto shall be strictly complied with by the Company.

Sec. 5. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this contract fixed and contained.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resoved, That, while the said sale is held under the supervision of the Commissioner of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
